PETITION

To the Honourable the Speaker and Members of the Legislative Assembly of New South Wales,

The Petition of the citizens of New South Wales brings to the attention of the House the failure of the recent changes to the Newcastle Transport network.

After being promised a world class transport system, the new network has left east lake Macquarie residents with longer journey times, more changes and no improvement in frequency, which will further disadvantage our community.

The undersigned petitioners therefore call on the Minister for Transport to intervene and restore direct services to key destinations like Charlestown, where essential Government services are located.
