Adjournment debate

The Chair understood that the Parliamentary Secretary was speaking in reply to the adjournment debate. However, if in the future the Parliamentary Secretary wished to make a contribution to the adjournment debate as an individual member, a Minister or another Parliamentary Secretary would have to be present in the Chamber, 7416

A member was speaking in the adjournment debate to a matter on the *Notice Paper*. As the member's item of business was outside the order of precedence, he was allowed to continue, 7692

Bills (continued)

The standing orders provide that only bills that are outside the order of precedence do not fall within the anticipation rule. A Minister could not canvass matters that are relevant to a bill soon to be before the House, 9220

A member took a point of order that an answer by a Minister anticipated debate on a bill that was before the House. The Minister's response was in order in the sense that it was relevant to the question asked. However, as the question anticipated debate on a bill it was ruled out of order, 9220

To the extent that a member felt the need to explain his motion, he was allowed to do so. However, he was advised not to canvass any rulings of the Chair, 5817

Comity between Houses of Parliament

A notice of motion relating to the establishment of a select committee raised concern in relation to the operation and independence of the two Houses of the New South Wales Parliament. It was both well established and recognised that the Legislative Council and the Legislative Assembly are equal and sovereign Houses of Parliament. As such, they have sole cognisance of their operations, including complete autonomy, subject to constitutional constraints, in regard to their procedures, consideration of business, questions of privilege and contempt. The principle is, by convention, extended to the delivery of services to members and the administration of finances and staffing matters. The Chair reminded members that the principle is expounded in *Hatsell's Precedents and Proceedings in the House of Commons* of 1818. The Chair also provided advice from the Clerk of the Senate in September 2003.

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Comity between Houses of Parliament** (*continued*)

The principle of comity and mutual respect between the Houses is reflected in the Parliamentary Evidence Act 1901, which provides that members of one House should not be summonsed to appear to give evidence before the other House. A similar limitation is observed in the Federal Parliament and the British Parliament. The principle had also been previously applied by the Legislative Council in relation to the establishment of a select committee in 1965.

Based on the principle of sole cognisance of the Houses, the principle of comity and mutual respect between the Houses and the precedent set in 1965, the Chair ruled that the notice of motion given earlier in the day was out of order. The Chair advised the member to consult the Clerk to amend his notice of motion to comply with the principle of comity and mutual respect. The Chair ruled that the amended notice of motion could be published in the *Notice Paper* for the next day, 8100

Given the complexity of the matter, the Chair did not rule on the point of order as it would create a precedent and have implications for Presidents in future proceedings. The Chair gave further consideration to the arguments raised by members and to the rulings of former Presidents on these matters. The Chair interrupted debate and the House dealt with the next item of business, 8241

The Chair received a letter from a member requesting an opportunity to make a further submission on the matter of a point of order taken on a notice of motion concerning the establishment of a select committee. Such a submission should be subject to the normal process of debate in the House. Accordingly, the member was allowed to make a contribution, after which other members were invited to speak, 8397

The Chair referred to an earlier ruling where he noted the principles of sole cognisance of the Houses over their affairs and of comity and mutual respect between the Houses. As a result of the Chair's ruling, the member amended his notice of motion following consultation with the Clerks. The amended notice of motion was published in the *Notice Paper*. Another member then moved that standing and sessional orders be suspended to allow the member to move his motion of

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Comity between Houses of Parliament** (*continued*)

which he had given notice forthwith, to which a member took a point of order. The Chair then ruled in relation to sub judice [*see, sub judice*] and comity between the Houses.

The Chair remained concerned that despite the drafting of the specific exclusion provision the terms of the motion would place the proposed select committee on the threshold of trespassing on the principle of mutual respect and comity between the Houses. Therefore, the Chair ruled the amended notice of motion out of order. The Chair was mindful of the rights of members to raise matters even where there were issues of sensitivity and possible prejudice to proceedings outside the House, but believed that the amended motion would place the proposed select committee in an impossible position in relation to the principle of sole cognisance of the Houses over their affairs and the principle of comity and mutual respect between the Houses, 8621

Debate

A member was advised not to take the debate in any direction other than that relating to the substantive motion before the House, 5818

A member is entitled to present an argument, 5990

The Chair will call only members who stand and seek attention by calling out "Mr President", 6797

A member advised that the material being read was sourced from information otherwise than obtained from in-camera evidence given to a committee of the House. The Chair accepted that advice. However, the Chair cautioned that it would be dishonourable and potentially contempt of the House to attempt to read onto the record material that was given in camera before a committee that had not yet been reported to the House. Bearing in mind the ruling and observations, the member was allowed to proceed, 7188

The Chair was reluctant to stop the member from presenting the material. The Chair repeated

26 February 2008 to 29 August 2008

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Debate** (*continued*)

the caution given earlier: that it would be inappropriate for members to attempt to place on record material that was given in camera before a committee and that has not yet reported to the House. Members have the responsibility to ascertain the source, reliability and validity of information that they wish to present to the House. If members are not sure of their position in that regard, they should seek the guidance of the Clerks. The member was asked to bear in mind the ruling as she proceeded with her speech, 7188

A point of order was taken that the contribution of a member appeared to be based on unreported in-camera evidence from a select committee. The Chair reminded the House of the earlier ruling: that the member may continue to speak following an assurance that the speech was based on independent research and not on unreported in-camera evidence and that the disclosure of such unauthorised evidence from a committee could amount to contempt of the Parliament. However, debate in the House is still subject to the rules that Parliament imposes. There was a difficulty in relation to the debate as to the extent to which a member is constrained from bringing before the House material which, although the subject of in-camera evidence before a select committee, has nevertheless been independently researched and compiled. The Chair urged members to exercise restraint where there is a likelihood that their speech could interfere with the workings of a committee appointed by the House. Members should be cautious of attempts by third parties to circumvent the decision of a committee of the House, 7209

What a member does or does not do during a debate is a matter for the member, 7216

The Chair hoped that all members would seek the advice of the Clerks prior to presenting material to the House. Members were reminded that they are responsible for any contributions they make, just as the Chair is responsible for rulings after seeking such advice. It is difficult for members to take and use advice from the Clerks as both a sword and a shield, 8241

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Debate** (*continued*)

The Chair was reluctant to declare the contribution of any member boring, tedious or repetitious. However, the Chair indicated that members who had contributed to the debate earlier were skating on thin ice, 8819

Dissent

Motion of dissent from ruling moved, 5480

Motion of dissent from ruling negatived, 5483

Divisions

During a division the Chair was asked to indicate the convention relating to the adjournment of debate. As the Chair did not yet know the result of the division, the Chair advised the member that he would be happy to read passages of Erskine May's *Parliamentary Practice* to the member in his chambers at his convenience, 7488

Members were reminded that they must not converse with people in the public gallery during a division. The Chair was grateful for the respect that had been shown thus far to the debate by members of the public gallery, and asked that that level of respect continue to be given, 9655

Interjections, interruptions and disorder**Conversation**

Members who wished to engage in conversation were advised to do so outside the Chamber, if not voluntarily then by direction of the Chair, 8577

Interjections

The member with the call should not respond to interjections, 5819

Interjections are disorderly at all times, 6360, 7068, 8655, 9065, 9195, and members should not be distracted by them, 8655, and members should ignore them, 9195

If members continued to interject, they would be removed from the Chamber, 8240

By tradition the Chair tolerates interjections that are not disruptive, particularly those that facilitate the exchange of views and argument.

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Interjections, interruptions and disorder** (*continued*)**Interjections** (*continued*)

The Chair did not intend to continually call members to order. Members were asked to respect the traditions of the House and to allow the debate to proceed in an orderly manner, 9065

Interruptions

The Chair did not need advice from the public gallery. The gallery would be cleared if anyone made another comment, 8240

The Chair observed that the bulk of ambient noise in the Chamber emanates from the gallery behind the President's chair. People in the gallery were asked to show courtesy to the House by taking their conversations outside the Chamber. The Chair advised that latitude would be extended during question time, but that during any other proceedings he would have no hesitation in ordering that the gallery be cleared, 8586

Order and decorum

A member was asked to slow down the delivery of her speech for the sake of Hansard, 5510, 5511

A Minister was asked to face the Chair when addressing the House, 5389

Members should be addressed by their correct titles, 5602

Members should direct their comments through the Chair, 6226, 7215, 7513, 7514, 8240, 8441, 8641, rather than engage in a conversation with other members, 7215

Points of order

Points of order should not be used to make debating points, 5973, 5975, 6757, 6764, 8597, 9414

The Chair cautioned all members that if they continued to make debating points under the guise of points of order, he would have no hesitation in calling them to order. If members continued to offend in this regard, they would be asked to leave the Chamber until the conclusion of question time. Points of order should not contain debating points, 6757

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Interjections, interruptions and disorder** (*continued*)**Points of order** (*continued*)

A member cannot seek a point of clarification, 5480

The Chair would hear the question before ruling on the point of order, 6950

A member was asked to state his point of order, 7649

Questions without notice

Members should allow a Minister to answer a question without interruption, 5611, 6228

The Chair would not dignify the behaviour of some members by describing it as disorderly. The Chair asked members to cease being naughty so the Minister could conclude his answer without further interruption, 5831

Members who choose to ask questions that contain argument and accusations against other members will reap what they sow, 6766

Members were asked to cease their verbal abuse against another member, 7198

The level of cut and thrust is more robust during question time than during other proceedings. However, the Chair reminded members that they should not make imputations against other members, 9215

Notices of motions

A notice of motion raised concern in relation to the operation and independence of the two Houses of the New South Wales Parliament. Based on the principle of sole cognisance of the Houses, the principle of comity and mutual respect between the Houses and the precedent set in 1965, the Chair ruled that the notice of motion given earlier in the day was out of order. The Chair advised the member to consult the Clerk to amend his notice of motion to comply with the principle of comity and mutual respect. The Chair ruled that the amended notice of motion could be published in the *Notice Paper* for the next day, 8100 [*See also, Comity between Houses of Parliament*]

26 February 2008 to 29 August 2008

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)

Notices of motions (*continued*)

The Chair received a letter from a member requesting an opportunity to make a further submission on the matter of a point of order taken on a notice of motion concerning the establishment of a select committee. Such a submission should be subject to the normal process of debate in the House. Accordingly, the member was allowed to make a contribution, after which other members were invited to speak, 8397 [*See also, Comity between Houses of Parliament*]

The Chair referred to an earlier ruling that noted the principles of sole cognisance of the Houses over their affairs and of comity and mutual respect between the Houses. As a result of the Chair's ruling, the member amended his notice of motion following consultation with the Clerks. The amended notice of motion was published in the *Notice Paper*. Another member then moved that standing and sessional orders be suspended to allow the member to move his motion of which he had given notice forthwith, to which a member took a point of order, 8620

The Chair remained concerned that despite the drafting of the specific exclusion provision the terms of the motion would place the proposed select committee on the threshold of trespassing on the principle of mutual respect and comity between the Houses. Therefore, the Chair ruled the amended notice of motion out of order. The Chair was mindful of the rights of members to raise matters even where there were issues of sensitivity and possible prejudice to proceedings outside the House, but believed that the amended motion would place the proposed select committee in an impossible position in relation to the principle of sole cognisance of the Houses over their affairs and the principle of comity and mutual respect between the Houses, 8621

Offensive and objectionable remarks, imputations and aspersions

Members must not make imputations, intimations, inferences or reflections against other members of either House, 5511, 5853, 6370, 7215, 7236, 7237, 9583, 9584

Members cannot reflect on other members except by way of substantive motion, 5602, 5818

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)

Offensive and objectionable remarks, imputations and aspersions (*continued*)

A number of Presidents have ruled that, with some exceptions, collective insults are allowed, 6346

The level of cut and thrust is more robust during question time than during other proceedings. However, the Chair reminded members that they should not make imputations against other members, 9215

Expressions withdrawn or required to be withdrawn

"The Hon. Duncan Gay might have been in the staff bar", 6374

"I am disappointed the Deputy Leader of the Opposition has tried to connect a fatality on the M4 with an issue on the F3", 7197

Personal explanations

Leave to make a personal explanation was withdrawn, 7067

Points of order

Not involved: 5382, 5383, 5485, 5605, 5968, 5973, 5990, 6254, 6353, 6517, 6519, 7197, 7204, 7380, 7488, 7489, 7658, 8044, 8254, 8413, 8587, 8592, 9417

Not upheld

The Chair did not uphold a point of order in relation to sub judice, 8621

Upheld

Although parts of a question contravened the standing orders, the Minister was allowed to answer those parts of the question that were in order, 5384

Members must speak only on why the matter is urgent and not debate the substantive matter, 5471

A member's question was ruled out of order because it contained argument, 5614

There was far too much noise in the Chamber and members were asked to take their seats or to leave the Chamber, 5634

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Points of order** (*continued*)**Upheld** (*continued*)

Members should confine their remarks to the leave of the bill, 5852

A Minister/member was asked to address the urgent motion, 5957, 7048

A member should address whether standing and sessional orders should be suspended to allow an item of business to be called on forthwith, 7054

Members were asked to remain silent, 7064

Questions may be put to Ministers relating to public affairs with which the Minister is officially connected, to proceedings pending in the House, or to any matter of administration for which the Minister is responsible, 7384

The Chair understood that the Parliamentary Secretary was speaking in reply to the adjournment debate. However, if in the future the Parliamentary Secretary wished to make a contribution to the adjournment debate as an individual member, a Minister or another Parliamentary Secretary would have to be present in the Chamber, 7416

Ministers must not debate the question, 7493

A supplementary question was ruled out of order because it contained argument, 7493, because it repeated the original question, 7657, 8411, and because it was hypothetical, 8411

The Chair upheld a point of order in relation to comity between the Houses and ruled an amended notice of motion out of order, 8621

Members must not make imputations, intimations, inferences or reflections against other members of either House, 9583

Procedure

Before the Clerk read the order of the day, a member sought to move suspension to have an item of business outside the Order of Precedence called on forthwith. As there was no business immediately before the Chair, the member was deemed to be in order and allowed to proceed, 6231

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Questions without notice****Form**

Questions put to Ministers must relate to the administration of public affairs with which they are officially connected, 5384, 7384, a member was allowed to proceed with his question but was reminded that it would be ruled out of order if it contravened the standing orders, 5384, the Minister could answer any aspect of the question he wished, bearing in mind the standing order to which he was constrained, 6950

Although parts of a question contravened the standing orders, a Minister was allowed to answer those parts of the question that were in order, 5384

Question ruled out of order because it did not relate to public affairs with which the Minister was officially connected, to proceedings in the House or to any matter of administration for which the Minister was responsible, 5384, 5387, 5480, 7384, because it contained argument, 5614, because the matter referred to sought to canvass an earlier decision of the House, 7205, because it contained hypothetical matter, 8595, in accordance with Standing Order 64, 9213, and because it anticipated debate on a bill, 9220

A question sought an announcement of government policy and could be ruled out of order. However, as the Chair noted the Treasurer's eagerness to respond to the question, he was allowed to proceed, 7063

Question ruled in order because it did not relate to a bill currently before the House, 5485, because it did not ask for an opinion, 6132

Members were advised to consider consulting the Clerks before asking their questions, 5483

As a Minister was asked a question about the Government's current position rather than for an announcement of government policy, he was allowed to proceed with his answer, 5742

Ministers must not debate questions asked of them, 7061, 7493, and their answers must be generally relevant to those questions. The Minister will be in order if he adheres to those requirements, 7061

26 February 2008 to 29 August 2008

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)

Questions without notice (*continued*)

Form (*continued*)

A Minister was not debating the question, but was reminded that his answer must be generally relevant, 8252

A Minister was asked to answer the question, 6224, 7195, 9419

A point was raised as to whether a matter related to debate that had taken place in the current session. Whether a matter has been discussed as opposed to formally debated in the House should be regarded for the purposes of Standing Order 65 (3) (a) as a matter that has been debated "within the current session" as a procedural, rather than a substantive, issue. The Chair would not uphold any point of order that seeks to have a question ruled out of order on that basis, 7206

The Chair allowed a question and allowed the Minister to answer it, 8591

Without engaging in the use of epithets, the Leader of the Government can answer questions, 8812

The Chair allowed maximum latitude with regard to the form of questions, and allowed a question to be asked on that basis. However, the Chair urged members to familiarise themselves with Standing Order 65 (1) and precedent to assist them in the formulation of their questions, 9415

Supplementary questions

Supplementary question ruled out of order, 6135, 8245, because it contained argument, 6138, 7493, 9021, because it sought information additional to that in the Minister's answer, 7059, because it repeated the question, 7657, 8411, and because it was a new question, 9021

The Chair had allowed the Minister to answer a supplementary question on the previous day. However, on a review of *Hansard*, the Chair noted that he had previously ruled the question out of order. The Chair was in error in allowing the Minister to answer it. The Chair reminded members that a point of order is not required to cause the Chair to

Supplementary questions (*continued*)

intervene to rule that a question is in contravention of the standing orders or to rule that interjections are disorderly. The Chair extends maximum latitude to members during question time as a legalistic approach would result in few questions and few answers, 7647

The standing orders allow a supplementary question to be asked of a Minister to elucidate an answer. However, members simply using the word "elucidate" does not make a question a supplementary question, 7650

Minister's latitude

Ministers are required to give a generally relevant answer to the question asked, 5382, 5389, 5486, 5605, 5739, 5741, 5831, 5966, 5967, 6141, 6348, 6508, 6510, 6604, 6609, 6756, 6758, 6767, 6942, 6943, 7061, 7200, 7383, 7649, 8044, 8045, 8051, 8248, 8252, 8409, 8411, 8589, 8590, 8805, 8817, 8818

The Minister was being generally relevant, 6345, 6510, 8413, 8590, 8818

Relevance

A member was advised not to take the debate in any direction other than that relating to the substantive motion before the House, 5818

Debate on bills, provided it is generally relevant, may be wide ranging, 5724

Members should confine their remarks to the leave of the bill, 5849, 5850, 5851, 5852, 5853, 7549, 7872, 8862, 9206, and not canvass matters outside the leave of the bill, 5852, outside the House, 7549

A Minister/member was asked to address the urgent motion/the suspension of standing and sessional orders, 5471, 5957, 7048, 8622, 8799, 8800, 8818, and not debate the substantive matter, 5471, 8622, 8799, 8800, and to abide by the standing orders, 7048

Although latitude is extended to members when contributing to debate, they must bear in mind that the standing orders require their

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Relevance** (*continued*)

contributions to be relevant to the question before the Chair. Provided a member stayed within the broad ambit of the motion he was allowed to proceed, 6369

The Chair did not wish to constrain the contribution of a member. The member was in order provided his remarks were relevant to the subject matter of the motion before the House, 6370

A member should address whether standing and sessional orders should be suspended to allow an item of business to be called on forthwith, 7054

References to *The Simpsons* are out of order. The contribution of the member should reflect the importance of the bill before the House, 7091

A member was entitled to speak to the motion before the House, which sought the suspension of standing and sessional orders, 8801

Sub judice rule

The Chair reminded members of the sub judice rule. The convention is a restriction that the House imposes on itself, rather than a rule or order that must be followed. It is designed to avoid prejudice to court proceedings or harm to specific individuals through public discussion in the House, 6250, 8621

The Chair referred to a 1990 ruling of President Johnson that detailed the guidelines to be followed when considering whether a matter is sub judice. For example, the Chair should be guided by a presumption for discussion rather than against it; if the Chair feels that the interests of individuals who are to appear before the court may be prejudiced, the Chair should intervene and warn the member speaking to temper his or her remarks; because a matter is before a court it does not follow that every aspect of it must be sub judice and beyond the limits of debate; and the Chair should take into account that there are limits to which debate in the House can be seen as impacting on the proceedings in a court, 6250

THE PRESIDENT (THE HON. PETER PRIMROSE) (*continued*)**Sub judice rule** (*continued*)

A member contended that the issue of sub judice was one for the chair of the proposed select committee to determine during the course of its inquiry and not for the House to determine. However, the House establishes any select committee, determines its membership and sets its terms of reference. Accordingly, if it is likely that a proposed committee would canvass issues that may prejudice proceedings before any court, it is the responsibility of the Chair of the House to intervene and determine whether the matter should proceed.

The starting point for any consideration of question of sub judice is a presumption in favour of discussion, particularly when matters are already the subject of public debate. The Chair was advised that there were no current court proceedings in relation to the matter, although a dispute had been lodged with the Workers Compensation Commission and was pending. The Chair doubted that an arbitrator would be influenced by anything said in the House. Therefore, the Chair was guided by the presumption for discussion rather than against it and did not uphold the point of order in relation to sub judice, 8621

THE DEPUTY PRESIDENT AND CHAIR OF COMMITTEES (THE HON. AMANDA FAZIO)**Amendments**

A member was asked to confine her remarks to the amendments under consideration and not to extraneous matters, 6648

The Chair informed the Committee of the amendments to schedule 1 and gave the number of the document on which they were circulated. A Minister took a point of order. The Chair advised members that she would entertain further points of order when the Minister had concluded his remarks, 8865

The Chair ruled amendments out of order as they were outside the leave of the bill, 8866

Interjections, interruptions and disorder

Conversation

Members who wish to conduct private conversations should do so outside the Chamber, 5381

Interjections

Members were reminded that interjections are disorderly at all times, 5629, 8094, 9045, 9237, they were advised that if members continue to interject loudly, the member with the call is forced to speak more loudly, and it then becomes uncomfortable for some members to stay in the Chamber, 5629, the member with the call should ignore interjections, 8094, 9237 and confine his comments to the leave of the bill, 8094

The Chair reminded members that interjections lengthen debates, not shorten them, 9103, 9237

Order and decorum

Members should direct their comments through the Chair, 9045

Offensive and objectionable remarks, imputations and aspersions

Members cannot reflect on other members except by way of substantive motion, 5637

The Clerk advised the Chair that there was a technical error in the amendment. If a correction were made, the amendment would then make grammatical sense, 6785

THE ASSISTANT PRESIDENT AND TEMPORARY CHAIR OF COMMITTEES (REVEREND THE HON. FRED NILE) (continued)

Offensive and objectionable remarks, imputations and aspersions

The Chair reminded members that the matter complained of may be merely an imputation or reflection and not a clear-cut allegation against a member. The Chair cautioned members that they may not make imputations, intimations, inferences or reflections against other members of either House, 9081

The Chair reminded members of a ruling of President Willis that there is a difference between a member relating a statement of fact and a member reflecting upon or imputing improper motives to a member of either House, and in which the member was asked to state the facts, rather than give an opinion. The Chair ruled that the member's question was rhetorical and the answer was obvious. The result was a personal reflection on a member of the other House, which was out of order, 9082

Points of order upheld

Members may not make imputations, intimations, inferences or reflections against other members of either House, 9081

Bills

The Chair took account of the long title of the bill. The Chair presumed that any agency seeking registration under the Corporations Act would be required to enunciate the purposes for which it is seeking incorporation. Accordingly, the member was allowed to continue to address the appropriateness of the objectives of the corporation known as the Bible Society of New South Wales, a matter that was relevant to the long title of the bill, 11374

The Chair advised the member that the Chair's previous ruling did not permit wide-ranging debate on religion or the role of religious societies. Debate should be confined to the matter specified in the long title of the bill, 11374

Debate

Members were asked to give due cognisance to the importance of the debate, 9823, 9827

THE PRESIDENT (THE HON. PETER PRIMROSE) (continued)

Debate (continued)

A member had already spoken in the debate, 10876

A member was asked to continue his speech. The Chair knew where the member was going, 11195

The Chair allowed a member to speak rather than another member, who sought and was given the call. The Chair advised that if a member who has been given the call to speak chooses instead to allow another member to speak, he or she may forfeit any opportunity to contribute further to debate on the question before the Chair, 11205

Former members

No standing order relates specifically to former members. The standing orders allow for any citizen of New South Wales to apply for a right of reply. The member did not make imputations against a group of citizens, where other considerations would apply. The member made imputations and allegations against a citizen of New South Wales and the only avenue of redress for that person was to apply for a citizen's right of reply, 9923

Interjections, interruptions and disorder

Conversation

The Chair interrupted a member's conversation and asked him to return to the leave of the bill, 9895

Interjections

The Chair would not stop members from interjecting when they believed it appropriate to interject. However, members were asked to respect the importance of the debate and allow members to put their positions, 9825

Members should ignore interjections, 9896, 9897, 9899, 9914, 9916, which are disorderly at all times, 9914, 11633

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Interjections, interruptions and disorder** *(continued)***Interjections** *(continued)*

Although the debate was wide ranging, a member should not respond to every interjection, 9914

A member was asked to reduce her level of interjections, 11607

The Chair had said that although interjections are contrary to standing orders and disorderly, in accordance with tradition the Chair would tolerate interjections that were not disruptive. The Minister was asked to proceed, 11938

Interruptions

People in the gallery would reduce their level of conversation or the Chair would have them removed, 10876

Members of the public gallery should remain silent and not attempt to converse with members in the Chamber. The Chair directed the attendants to clear the public gallery, 11349

The attendants reopened the public gallery, 11350

Members were asked to allow a member to contribute to the debate without interruption, 11374

A member was asked to allow the member with the call to proceed without interruption, 11623

Order and decorum

Members must address the Chair, not the public gallery, 9829

Members should direct their comments through the Chair, 9880, 9897, 9899, 9914, 10899, 10900, 11375, 11623, 11765, 11766, 11773, 12403, however, they may look at other members while doing so, 10899, and members will listen to the contribution in silence, 11765, without interruption, 11773

Members were asked to listen to a contribution in silence, 9899

The question of members addressing their comments through the Chair is a vexed one. Members are not required to physically look at the Chair while making a speech. They

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Interjections, interruptions and disorder** *(continued)***Order and decorum** *(continued)*

must address their comments to the Chair, not at another member. A member was making a general address to the Chamber and was allowed to continue provided he did not engage in private conversation or discussion with another member, 10900

A member was asked to bear in mind standing orders relating to a member making comments about other members, 11725

The Chair noted that two words in particular had been used by many members during the debate. One was "courtesy" and the other was "self-discipline". The Chair urged members to give effect to those sentiments, 11773

A member was aware that the Chair had cautioned members on a number of occasions against inappropriate conduct, 11938

Points of order

Members cannot make a speech when they rise on a point of order, 9734

A member was making a debating point, not taking a point of order, 9829, 9831, and would be called to order, 9831, members knew the difference between a point of order and a debating point, 9831

A point of order and the Minister's response were out of order, 9830

A member was asked to state his point of order, 10217

The Chair understood the point of order and asked the member to resume his seat, 10217

The Chair will call to order any member who seeks to make a debating point under the guise of a point of order, 10217

Questions without notice

The Chair asked the Clerk to stop the clock. The importance of question time is obvious to members and the Chair. It is robust by nature and the Chair tolerates interjections that, although strictly disorderly, facilitate debate

23 September 2008 to 4 December 2008

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Interjections, interruptions and disorder** *(continued)***Questions without notice** *(continued)*

and meaningful discussion across the Chamber. However, interjections were disruptive and members were unable to hear the responses of Ministers. While the Chair was reluctant to interfere with the rough and tumble character of question time, he urged members to be considerate of their colleagues and to reduce the level of interjections, 10459

A member was asked to cease interjecting and to allow the Minister to answer the question, 10726

A Minister is not obliged to contain himself while answering a question, 11040

The Chair thanked Opposition members for the courtesy they showed by listening to the Minister in silence, 11934

All members would take their seats and the Minister would not resume his answer until the House came to order, 11938

Members removed

The Hon. Charlie Lynn, 11938

The Hon. Greg Pearce, 11938

Notices of motions

It is the right of any member to give notice of a motion, and a member was asked to do so in accordance with tradition. Other members were asked to remain silent while he did so, 10305

Offensive and objectionable remarks, imputations and aspersions

Imputations of improper motives to and personal reflections on members are deemed to be disorderly, 9827, 10898, 10904, 12324, a member was allowed to continue provided he confined his remarks to the motion and did not impute improper motives to or make personal reflections on other member, 10904

Members cannot reflect on other members except by way of substantive motion, 9827

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Offensive and objectionable remarks, imputations and aspersions** *(continued)*

Usually a request for the withdrawal of remarks regarded as offensive is made by the member against whom the remarks are levelled. However, that is not a requirement of the standing orders. If a member indicated that he or she was offended by the remark and sought its withdrawal, the Chair would rule on that request. If not, the member speaking would be allowed to continue, 9827

No standing order relates specifically to former members. The standing orders allow for any citizen of New South Wales to apply for a right of reply. The member did not make imputations against a group of citizens, where other considerations would apply. The member made imputations and allegations against a citizen of New South Wales and the only avenue of redress for that person was to apply for a citizen's right of reply, 9923

A member took objection to a remark by the member with the call. It was up to the member with the call to take a course of action if he or she wished, 12189

Expressions withdrawn or required to be withdrawn

"You are a two-faced, backstabbing, double-dealing bastard. You have no business being in politics—", 11067

"... the Government and the Opposition are succumbing to the blackmail referred to by the member for Newcastle", 12324

Personal explanations

Members are entitled to make a personal explanation at the appropriate time, 10321, 12189

The Chair reminded members that they must not debate the subject of the personal explanation. The standing orders permit a member to explain how his or her honour, character or integrity has been reflected upon. However, leave may be withdrawn at any time if he contravenes the standing orders, 10468

Leave granted to make a personal explanation was withdrawn, 11165

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Personal explanations** *(continued)*

A Minister was reminded that he could seek leave to make a personal explanation after question time, 11338

The Chair advised all members to acquaint themselves with the requirements of the standing orders in relation to personal explanations, 12571

Personal explanations are not matters for debate. As the Chair advised earlier, members should acquaint themselves with the standing orders as they relate to personal explanations. A member was asked to bear that ruling in mind as he proceeded with his personal explanation, 12571

The Chair was loath to interrupt a member, but the Chair must uphold the standing orders. The member had contravened the standing orders and was consequently out of order, 12571

Points of order

Not involved: 9727, 9728, 9734, 9823, 9829, 10457, 10903, 11159, 11341, 12189, 12359

Upheld

A question was ruled out of order because it was argumentative. The member was advised that he could ask the question in a different form when he next sought the call, 10065

A question was ruled out of order because the member used the phrase "questionable behaviour", 10073

In debating a procedural motion, members should restrict their comments to the terms of the motion and not the substance of the matter, 10451

Procedure

In debating a procedural motion, members should restrict their comments to the terms of the motion and not the substance of the matter, 10451, 11149, 12325, and the Chair reminded members of previous rulings in this regard by President Johnson and President Burgmann, 12325

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Procedure** *(continued)*

The motion, which was moved according to contingent notice, sought to suspend standing and sessional orders to allow another motion to be moved forthwith. That is the motion to which members should confine their remarks, not the motion that the suspension of standing and sessional orders would allow to be debated, 11149

The Chair allowed a member to speak rather than the Reverend another member, who sought and was given the call. The Chair advised that if a member who has been given the call to speak chooses instead to allow another member to speak he or she may forfeit any opportunity to contribute further to debate on the question before the Chair, 11205

The Chair reminded members that any procedural matter can be dealt with at any time with the leave of the House. The Chair urged members to seek the advice of the Clerk in that regard, 12571

Questions without notice

Question ruled out of order because it repeated the original question, 9724, because it asked for an opinion, 9833, because it was argumentative, but the member was advised that he could ask the question in a different form when he next sought the call, 10065, because the member used the phrase "questionable behaviour", 10073, because it contained imputations, 10877

The first part of a question was ruled in order, 9833

A Minister was asked to answer the question, 10724

Supplementary questions

Supplementary question ruled out of order, 10319, 10723, because it merely asked part of the original question, 10210,

Minister's latitude

Ministers are required to give a generally relevant answer to the question asked, 9830, 9831, 9840, 10063, 10070, 10071, 10724, 11159, 11341, 11719, 12336, 12585

23 September 2008 to 4 December 2008

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Procedure** *(continued)***Minister's latitude** *(continued)*

A Minister had been asked to elucidate his answer, and he was doing so, 10218

A Minister gave a broad-ranging answer and a member sought elucidation. In that regard, the Minister was allowed to elucidate his answer, 11046

The question was very broad. Accordingly, the Minister was allowed to continue provided his answer was generally relevant to the question asked, 11159

Members were reminded that numerous Presidents and occupants of the chair have ruled that, although a Minister may not debate a question, he or she is not restricted from debating the issue to which the question refers, 11341

A Minister was providing information in response to an important question, 11598

A Minister was asked to respond to the question, 11723

Relevance

When speaking to a motion, including one seeking urgency, members should restrict their comments to the terms of the motion and not the substance of the matter, 9720

A member was asked to confine his remarks to the leave of the motion, 9743

The Chair interrupted a member's conversation and asked him to return to the leave of the bill, 9895

A member should ignore interjections and confine his remarks to the leave of the bill, 9896, 9899

A member was asked to confine his/her remarks to the leave of the bill, 9915, 12403, 12606

The Chair allowed a wide-ranging debate as the bill sought to address issues associated with symbolism. However, the Chair was constrained to advise members that debate should be confined to the leave of the bill, 10207

THE PRESIDENT (THE HON. PETER PRIMROSE) *(continued)***Relevance** *(continued)*

A member was referring to subparagraphs (a) and (b) of the motion. Provided he remained within the broad leave of the motion he was allowed to continue, 10899

The Chair would not reflect on the content of the motion, nor constrain the broad-ranging nature of the debate. It was clear that the motion comprised two paragraphs, the second of which was contingent upon the first. The member was allowed to continue to address the motion broadly, but was asked to bear in mind that paragraph (1) of the motion constrained debate on paragraph (2) of the motion, 10906

The Chair encouraged the tradition of broad-ranging debate, as had been the practice of past Presidents. However, the Chair reminded members with the call that contributions to debate on bills are constrained by the provisions and long title of the bill that is before the House. A member was asked to bear that in mind as he proceeded with his speech, 11634

Contributions of members to debate on bills must be more than generally relevant; they must be relevant. A determinant of what is relevant is the long title of the bill, which in this instance referred specifically to the development, implementation and operation of metro railway systems in the State. True it is that some degree of latitude is given to permit wide-ranging debate on bills, but only if the contributions of members remain relevant to the long title of the bill, 12187

THE DEPUTY PRESIDENT AND CHAIR OF COMMITTEES (THE HON. AMANDA FAZIO)**Amendments**

The Chair suggested that a member speak to the amendment before the Committee, 11037

A member was asked to continue her comments on the amendment before the Committee, 11037

Technically a member could move the amendments separately. However, in doing

**THE DEPUTY PRESIDENT AND CHAIR OF
COMMITTEES (THE HON. AMANDA
FAZIO) (continued)****Amendments (continued)**

so he may render the bill nonsensical. For the better functioning of the bill, it was preferable for the member to move the amendments in globo, 11750. As objection was taken to that course, the amendments were moved separately, 11750

The Chair clarified whether a member was speaking to an amendment, 12378, 12428, 12446

A member was asked to speak to the amendment, 12405, 12598

A member should not make a second reading speech during the Committee stage; she should confine her remarks to the amendments under consideration and not make broad comments, 12428

Chair

The Chair hoped a member was not canvassing a ruling, 12373

Debate

There is no standing order in relation to distortion, 12193

Interjections, interruptions and disorder**Conversation**

Members must not converse with visitors in the gallery, 11058

Interjections

Interjections are disorderly at all times, 11053, 11620, 12191, and members should ignore them, 11053, 12370, 12372, and the member with the call should not respond to them, 11620, 12405, the member should not respond to comments being made in a private discussion between members of the Government and members of the Opposition, 12405

The Chair was reluctant to call members to order at that stage of proceedings, 12378, 12446, However, she reminded members that they would deal with the bill more quickly if members ceased interjecting, 12378

**THE DEPUTY PRESIDENT AND CHAIR OF

Visitors to the public gallery should not attempt to communicate with members in the Chamber, 11750, 12124

Points of order

A member cannot comment on the quality or otherwise of a point of order. A member must speak to the point of order in compliance with the standing orders, 9747

A member was making a debating point, not taking a point of order, 12193

A member will confine her comments to the changes to the Mining Act as they relate to the abolition of mining wardens and the transfer of that provision to the Land and Environment Court, 12372

Relevance

A member was asked to confine his remarks to the leave of the motion, 9722, 9738, 9739, and should not flout that ruling, 9739, if he did not have a copy of the motion, the Chair would ask the Clerks to provide him with one, 9738,

A member should confine his/her remarks as to why the motion is urgent, not debate the substantive motion, 9746, 9747

**THE DEPUTY PRESIDENT AND CHAIR OF

Relevance (continued)

A member was asked to confine his remarks to the bill, 11620

The Chair reminded the member of an earlier ruling of the President:

Answers to written questions

The Chair referred to matters of privilege raised by members in relation to answers provided by

THE SPEAKER (THE HON. RICHARD TORBAY) (continued)

Answers to written questions (continued)

Ministers to written questions. Standing Order 129 provides that answers must be relevant and Standing Order 130 provides that a member shall not debate the matter to which the question relates. The Chair has no power to direct a Minister as to how to answer a question. While members may be of the view that it is disrespectful for a Minister to answer a question by referring members to a response provided by a Minister in the other House, that is not a breach of the standing orders or a matter of privilege. In addition, it is not a breach of the standing orders or a matter of privilege if members are not satisfied with the answer to a question. However, the Chair reminded Ministers to respect the right of members to ask questions both in the House and in writing and to endeavour to provide adequate answers, 8760

Budget Speech and budget debate

The Chair advised members that the House had requested the attendance of the Treasurer. The Chair asked members to extend the usual courtesies and for the Speech to be heard in silence, 7904

Chair

Members should not canvass rulings of the Chair, 6301

Consideration of motions to be accorded priority

As a motion to be accorded priority was unsigned by the member who wished to move the motion, it was ruled out of order in accordance with the standing orders, 5437

The Chair extends a degree of latitude during consideration of motions to be accorded priority, 6559, 8752, 9141, because it is difficult for members to argue why their motions should be accorded priority if they do not refer to the substance of their motions. Although latitude had been extended

to the Leader of the Opposition, he was reminded not to use it as a means of breaching the standing orders, 5781

The Chair listened carefully to the debate to ensure that members did not raise matters that impinge on a police investigation, 8535

A member was about to give reasons why his motion should be given priority. He would be extended latitude during his speech, 8752

A member was asked to confine his remarks to the motion to be accorded priority, 8753, 8921

A member was asked to speak to his motion, 8921

Debate

The way in which Government members speak to legislation is a matter for Government members, 5647, and the Chair would not debate the issue, 5647

A member was reminded that he would have an opportunity to contribute to debate, 6815, 7016

The Chair was sure a member was referring only to copious notes, 7600

The Chair was sure everyone was interested in a quote from Abraham Lincoln, 8301

A member could find out about YouTube after the debate had concluded, 8301

Documents

A document was laid upon the table by a Minister, which was within the standing orders, 7272

The Deputy Leader of the Opposition was not entitled to table a document, 5777, 7272

The standing orders do not provide for a member to table a document during question time, 9492

Interjections, interruptions and disorder**Conversation**

Members who wish to conduct private conversations will do so outside the Chamber, 7595, 9491, 9708

Members will not engage in dialogue across the Chamber, 7730

THE SPEAKER (THE HON. RICHARD TORBAY) *(continued)***Interjections, interruptions and disorder** *(continued)***Interjections**

If members did not cease interjecting they would be called to order, 6547

A member was reminded that he would have an opportunity to contribute to the debate, 6815, 7016

The Chair would not tolerate such outbursts from a member. Members listened to the Leader of the Opposition in silence and would pay the same respect to the member with the call, 7442

The member for Murrumbidgee did not need the assistance of other members, particularly the member for Bathurst, 8750

A member was asked to take his screaming match outside the Chamber, 8920

Interruptions

The Chair directed the Serjeant-at-Arms to remove a person interjecting from the public gallery. Members were asked not to encourage debate from the public gallery, 6172

The Leader of The Nationals was having a conversation with himself, 7431

Members were asked to cease clapping, 9631

THE TEMPORARY SPEAKER (MR WAYNE MERTON) *(continued)***Relevance**

A member referred to a motion generally; he was asked to refer to a motion specifically, 5676

Standing Order 76 relates to relevance during debate. Although the Chair understood the point the member was making, he was asked to return to the leave of the bill, 5892

The bill was very narrow and specific. Although the member was allowed to continue, he was asked to concentrate on the leave of the bill, 5892

Although a member was straying from the leave of the bill, he was given an opportunity to address the leave of the bill, 5892, 5893

Members must confine their remarks to the leave of the bill, 5892, 5893, 5894, 5895, 6688

At that stage the member was referring to the date of the local government elections. As exuberant and keen as the member was to take a point of order, it was not valid. The Chair continued to listen to the remarks of the member, 5894

As the bill changes the date of the forthcoming local government elections, it was not unreasonable for members to carefully reflect on the results of or reasons for such a change. Such matters had been and could be canvassed in the context of the debate, 5894

The Chair sought advice from the Clerk and was informed that the member was not in contempt of his ruling. Relevance arises and will always be paramount with respect to a bill that is specific in nature. The member was asked to continue his speech but to bear in mind the specific nature of the bill, 5894

A member was directed back to the leave of the bill, 5895, 6581

As the bill deals with council elections, there was no reason why the Leader of The Nationals could not address concerns his constituents might have in respect of the forthcoming council elections, 5896

A Minister was addressing matters raised by the Opposition during debate and it was not unreasonable for him to do so, 5897, the Minister assured the Chair that he would confine his remarks to matters raised during debate on the bill, the Chair asked him to continue in his normal, calm and composed manner, 5897

**THE TEMPORARY SPEAKER (MR WAYNE
MERTON)** *(continued)***Relevance** *(continued)*

The Chair was not privy to earlier debate on the bill. The Chair assumed that the Minister meant to refer to the member for Manly, not the member for Wakehurst, 5898

A Parliamentary Secretary was asked to address his remarks to the motion, 6419, as he had indicated that he would address the motion, he was asked to do so, 6419

The Chair was certain that a member was making a passing reference and would return to the leave of the bill, 6577, 6680

The Chair believed that the member had not strayed from the leave of the bill. Members are entitled to say why they believe legislation contains certain provisions. The member was reminded that the bill dealt with changes to workers compensation legislation, not an overall summary of workers compensation in New South Wales, 7468

Members will confine their remarks to the leave of private members' statements, 9524

**THE TEMPORARY SPEAKER (MR

Chair

The Chair would determine whether a Minister was canvassing a ruling, 11285

The Chair asked for *Hansard* to reflect that a member was talking about a Minister, not about the Chair, 11668

Members will not defy the Chair, 12493

THE SPEAKER (THE HON. RICHARD TORBAY) (*continued*)**Consideration of motions to be accorded priority**

The Chair extends a certain degree of latitude during consideration of motions to be accorded priority, 10160, 10263, 10540, 10542, 10684, 10831, 11435, 12039, however, it is important for a member to establish why his motion should have priority, 10160, however, a member was asked to state why his motion should be accorded priority, 10540, 10684, if members wanted the Chair to adhere strictly to the standing orders, it would have a serious impact on every member, 11435, so that continual points of order are not taken to waste the time allotted to each member. Each member has only five minutes in which to establish priority. If members continue to take continual points of order, the Chair would reconsider that position, 11435

The Chair appreciated that the issue was difficult. However, the Chair would hear further from the Leader of the Opposition, 10966

A member was in order, 11434

The Chair was sure the Leader of the Opposition would tell the House why his motion should be accorded priority, 11670

Consideration in detail

The Chair sought clarification as to whether a member had been handed a copy of the bill with the amendment, 12310

The Chair sought clarification. The question was put because of the message that had come from the other place. It was appropriate business before the House in accordance with the standing and sessional orders. It is up to each member to ensure that he or she is up to date with the amendments from the other place through the appropriate processes. All members were familiar with the procedures. The Chair cannot suspend the debate, 12310

The Chair had sought further advice. The Chair advised the House that the bill and amendment were placed in the boxes when they came from the other House at approximately 7.30 p.m. As the Chair had ruled previously, the processes of the House had been followed as per the sessional orders, 12310

THE SPEAKER (THE HON. RICHARD TORBAY) (*continued*)**Debate**

The Leader of the Opposition was asked not to encourage the debate, 10158

A member was asked to start concluding his comments, 10682

Members were asked to speak into the microphone, 12252, 12254, as Hansard was having difficulty hearing the member's contribution, 12254

Documents

Members must clearly identify documents quoted from and state the exact source. The Chair believed that the Leader of the Opposition was about to touch on that matter, 10965, that the Leader of the Opposition was about to refer to the dates of the articles and to the newspapers from which he was quoting, 11436

The standing orders do not provide for members to table papers during question time, 11275

If a member quotes from a document it is appropriate for the member to source that document. However, the Minister had not said that she was quoting from a particular document. The Chair suggested that members would be restricted in their speeches if they wanted that point of order upheld, 12496

Interjections, interruptions and disorder**Conversation**

Members who wish to conduct private conversations should do so outside the Chamber, 9775, 9776, 10678, 11425, who wish to conduct meetings will do so outside the Chamber, 11664, 12249, members will cease engaging in private conversations, 12496

23 September 2008 to 4 December 2008

THE SPEAKER (THE HON. RICHARD TORBAY) (*continued*)**Interjections, interruptions and disorder** (*continued*)**Interjections** (*continued*)

All members were now deemed to be on three calls to order, 12032, if a member was thrown out today, he or she may be out of the Chamber for a fair time, 12032

THE SPEAKER (THE HON. RICHARD TORBAY) (*continued*)**Interjections, interruptions and disorder** (*continued*)**Order and decorum** (*continued*)

In the past the Leader of The Nationals had claimed that the Chair focused on him. It was easy for the Chair to do so when he drew attention to himself, as he had done today, 9780

Members should be addressed by their correct titles, 9781, 9961, 11428,

The Chair commended members for the way in which they had conducted themselves thus far, 10001

Members will contain themselves, 10397, 11100, 12252

Government members did not need the assistance of the member for Terrigal, 10670

A Government member did not need the assistance of Opposition members, 10684

A Minister did not need the assistance of Opposition members, 10958

The member with the call did not need the assistance of Opposition members, 12257

The Chair would not allow sledging across the Chamber. The Chair would allow points of order to be taken when a matter needed to be corrected, but would not allow continual calling out across the Chamber, 10824

Before hearing a point of order the Chair reminded members that it is inappropriate for them to call out across the Chamber. If they continued to do so, they would be called to order, 11275

The member for Wakehurst had not been called to order for the past three days, which was a special mention for him. He was asked not to ruin it, 12034

Points of order

A member will raise a point of order, not debate it, 9777, 10260, 11428, 11430

THE SPEAKER (THE HON. RICHARD TORBAY) *(continued)***Interjections, interruptions and disorder** *(continued)***Points of order** *(continued)*

A member was asked to state his point of order, 9781, 9961, 9972, 10256, 10531, 10674, 10966, 11102, 11281, 11284, 11670, 12496, to repeat his point of order, 12496

The Leader of the Opposition knew that he had not taken a point of order, 9959

The Chair would not tolerate frivolous points of order, 10146, 12497, that disrupt the flow of debate, 12497, the Chair hoped the member was about to take a point of order, 10533

The Premier had only just started to answer the question before a point of order was taken, 10151, but the Chair heard briefly from the Leader of the Opposition, 10151

The Chair had heard enough on a point of order, 10160, 10544, 11102, 11276, 11277, 11288, 11434, 11846, 12684, and would rule on it, 11434, and there was no substance to it, 11846

The Chair urged a member to seek advice as to the appropriate way to take a point of order, 10533

That was the worst point of order the Chair had heard as Speaker, 10674

The Chair was confident the member knew how to take a point of order. The Chair thanked the member for assisting the Speaker and heard the point of order, 10674

A member was asked not to take such points of order in the future, 10684

The Chair would not allow sledging across the Chamber. The Chair would allow points of order to be taken when a matter needed to be corrected, but would not allow continual calling out across the Chamber, 10824

A member is entitled to take a point of order, 10831

The point of order taken by the Leader of The Nationals was predicated on the basis that the Minister did not respond to the answer as required under the standing orders. The Minister did respond, 10955

THE SPEAKER (THE HON. RICHARD TORBAY) *(continued)***Interjections, interruptions and disorder** *(continued)***Points of order** *(continued)*

A member was commended for his effort, but he had not taken a point of order, 10957

The Chair assumed that the Leader of The Nationals took a point of order because he wanted to hear the answer. He should therefore pay the Minister the courtesy of listening to the answer, 10958

Given the number of points of order that had been taken the Chair extended a little latitude. However, the Minister was asked to commence concluding her answer, 10958

If Opposition members continued to take frivolous points of order, the Chair would take a dim view, 11275

A member was now debating the point, 11276

The Chair would hear just one point of order, not four. While the member had raised a number of informative points, it was not a point of order, 11276

Any member can take a point of order, 11277

The Minister had only just recommenced his answer after the previous point of order. The Chair asked the member whether he was taking a different point of order, 11285

A member was asked not to refer the Chair to questions when taking a point of order, 11430

The Chair had just ruled on a point of order. The Chair asked the member whether he was taking a different point of order, 11430, 12491

If a member wanted the Chair to hear his point of order, he should not have behaved in such a manner, 12682

The Chair had ruled on a point of order and would not pre-empt what the Premier may do. The Chair would listen carefully to the Premier's answer, 12684

If members did not take so many points of order, the Premier may be able to conclude his answer, 12684

23 September 2008 to 4 December 2008

THE SPEAKER (THE HON. RICHARD TORBAY) *(continued)***Interjections, interruptions and disorder** *(continued)***Question time**

The Leader of the Opposition was asked to contain himself, 9775, he had asked his question and would resume his seat, 9958, his behaviour was most unparliamentary, 9959, 10824, it was unparliamentary for him to blatantly disregard the Speaker's rulings. The Chair extends a degree of latitude to the Leader of the Opposition and the Premier as a mark of respect for the positions they hold. However, the Leader of the Opposition was on his final warning, 11275, should set an example for other members during question time, 12025, the Leader of the Opposition had talked about parliamentary standards. The Chair suggested he take his own advice, 12491, the Leader of the Opposition was doing himself no service with his unparliamentary conduct, 12491, had been interjecting for the duration of question time, 12684

A member was asked to contain himself, 10259, 11281

Members should direct their questions through the Chair, 10400

Members were well behaved with the Minister for Community Services was answering a question, 10406

A member was strongly supporting a Minister, but he was out of order, 10536

The Leader of the Opposition had asked his question and he would allow the Premier to respond, 10816

Given the seriousness of the circumstances, the Chair thought it appropriate for the Leader of the Opposition to allow the Premier to conclude his remarks, 10817

THE SPEAKER (THE HON. RICHARD TORBAY) *(continued)***Interjections, interruptions and disorder** *(continued)***Question time** *(continued)*

The Leader of the Opposition was asked to restrain himself, 10817

If a member wishes to ask a question he should seek the call, 10819

The point of order taken by the Leader of The Nationals was predicated on the basis that the Minister did not respond to the answer as required under the standing orders. The Minister did respond, 10955

The Minister walked to the microphone and gave a response, as is required under the standing orders, 10955

Members were asked to bear in mind the significance of the issue, 10959

A Minister had barely started her answer, 10961, The Premier had barely started to answer the question, 11663

Question time had almost concluded and would be conducted in accordance with the proper conventions of the House, 11103

The Chair was not sure what members had had for lunch, but barely five minutes into question time their behaviour was appalling. Members who continued to act in an unparliamentary manner would be asked to leave the Chamber, 11275

The Chair would listen further to the Premier/Minister, 11275, 11279, 12497

The Chair thought the matter would be of strong interest to all members, 11429

A member would cease interjecting and could thank the Minister after question time, 11849

Members would allow the Minister to answer the question, 12035

The Leader of The Nationals had asked his question. He would listen to the Premier's answer in silence, 12246

The Chair understood that it was the last sitting week, but members would conduct themselves according to the conventions of the House, 12249

While the member had raised a good point, the Chair would listen further to the Minister, 12500

The Chair noted that all members were keen to hear what the Premier had to say, 12680

The Chair had shown a fair degree of latitude with members interjecting during question time. However, the Chair would no longer tolerate such behaviour, 12686

Members

The Chair acknowledged the members who were participating in Movember, 11671, as it was still Movember an interjection was not appropriate at the time; however, in December it would be game on!, 11845

Ministerial statements

The Premier made a ministerial announcement, not a ministerial statement. Therefore, the Leader of the Opposition could not contribute to the debate, 9770

The Premier moved a motion; however, he was making a ministerial statement, 10249

THE SPEAKER (THE HON. RICHARD TORBAY) *(continued)***Ministerial statements** *(continued)*

The Chair cleared up the procedural matter when the Premier concluded his ministerial statement. The Chair was happy to discuss procedural matters with the member at the conclusion of question time, 10250

The Chair listened carefully to the motion. The member was within the leave of the motion, 10544

Offensive and objectionable remarks, imputations and aspersions

The word "Muppet" is unparliamentary, 10003

The Chair did not hear the comment. The Chair asked the member whether he was prepared to withdraw the comment, 11435

Expressions withdrawn or required to be withdrawn

"Alan, you are a nice bloke but when they send you in to defend the offal that is left in the Parliament we really have a problem", 10158

"Do that impersonation of an idiot that you do! Look, he is brilliant!", 10691

If there was anything the member for Burrinjuck found offensive, the member for Monaro withdrew it [he had been talking about Opposition policy generally], 11435

Personal explanations

The Chair reminded a member of the appropriate time in which to make a personal explanation, 10963

The Chair reminded a member that standing orders do not provide for papers to be tabled during a personal explanation, 11434, the member could seek to table papers at the conclusion of question time, 11434

When making a personal explanation a member must explain how his reputation has been impugned. The member was debating the matter, not making a personal explanation. The member would either state his personal explanation or resume his seat, 11668, and was then asked to resume his seat, 11668

A member must state how his reputation has been impugned, 12501

A member was debating the point and asked to resume his seat. He had corrected the record, 12501

The purpose of personal explanations is very specific. All the personal explanations made today had bordered on being out of order. If members attempted to use personal explanations to conduct business outside the leave of personal explanations the Chair would not longer hear them, 12501

Photographs

An unauthorised photograph was taken in the Chamber. It was not drawn to the attention of the Chair, and the Chair did not see or hear it. The Chair reminded members that it was inappropriate for photographs to be taken in the Chamber and that he would investigate the matter, 11265

The Chair referred to an earlier incident in the day when a photograph was taken in the Chamber from behind the Speaker's chair. The Chair had been informed that a person from the Premier's office took the photograph. That person had since apologised, and the Chair had accepted the apology. The Chair advised that the photograph had been destroyed in his presence. The Chair reminded all members and persons who enter the Chamber that the taking of photographs when the House is in session is not allowed without the express approval of the Speaker, 11274

However, the member took advantage of this liberty by displaying a prop for the photographer, which is an abuse of the proceedings of the House. Members were reminded that the use of props is strictly prohibited and that they should not abuse the privileges granted for photographs to be taken during proceedings, otherwise the Chair would reconsider giving such approval, 11654

Question time

The Leader of The Nationals had asked his question twice. As it was broad ranging, it invited some of the debate that was occurring, 9961
