PLACING BUSINESS:— Sessional Order passed, 18.

POINTS OF ORDER:— Reported from Committee of the Whole, 102, 402.		
RULINGS OF SPEAKER:— That subject of Motion of Adjournment under Standing Order No. 15 was "of urgent public importance"; Speaker stated that House had taken the power to decide the matter out of his hands, 25. That amendment proposed in Committee of the Whole on resolution for introduction of the Liquor Traffic, Local Option Bill, was within the scope of the reference, 102. That amendment moved on motion to impose a Land Tax, was not anticipating the discussion of a motion already on the Business Paper, 113. That clauses 12 and 13 of the Vice Suppression Bill, were not beyond the order of leave, 128. That the Federation Resolutions were in order and could be proceeded with in Committee of the Whole, 198. That Wentworth Electorate Subdivision Act Amendment Bill was not in order, as provisions conflicted with and were contradictory of certain clauses passed this session in the Parliamentary Electorates and Elections Bill, 223. That the amendment against the displacement of the present Administration on the Motion of Censure in reference to the Financial Proposals of the Government was relevant and in order, 251. That Fisheries and Oyster Fisheries Regulation Bill should have been recommended by a Message from the Governor, 274. That Message from Governor should precede the passing of a resolution to introduce the Railway from Byrock to Brewarrina Construction Bill, 274. That Marine Board Reconstruction Bill did not require Message from Governor, 306. That amendment on motion in reference to precedence of General Business until 7 o'clock p.m. was not altogether relevant, but he should not be justified in refusing to accept it, 318. That the notice of the Promoters of the Australasian Rights Purchase Bill, in regard to provision in Clause 4, was in strict accordance with the 69th Standing Order, 333. That Amendment on 2 ^o of Resolutions from Ways and Means, in reference to Income Tax Bills—to postpone further consideration of Report from Committee of Ways and Means until after an opportunity is afforded the Government to give legislative effect to Resolution in reference to direct land tax or land values—was in order, 350. That Income Tax Assessment Bill was out of order, as Clause 18, Sub-section (c.), imposed a tax on the assessed annual value of improved land not actually yielding income, 368. That it was competent for Mr. Gould to move the second reading of the Australian Gaslight Company Electric Lighting and Supply Bill, or Debate the Question, notwithstanding that the House had ordered that the Bill should be read a second time to-day, and that he was justified in treating the Order of the Day of a Bill which had been ordered to be read 2 ^o "this day six months" as if it had not been proposed until now, 376. As to whether Fisheries Act Amendment Bill should have originated in Committee of the Whole, and required a Message from Governor; Debate on 2 ^o of Bill adjourned, to enable Mr. Speaker to consult authorities, 376; ruled against by Mr. Speaker, 531. That amendment proposed on motion for papers in connection with appointment of Mr. J. L. Parsons, to include papers referring to all appointments in connection with the Chicago Exhibition, was not relevant, 384. That amendment on motion for papers in connection with appointment of Mr. J. L. Parsons, to include papers relating to all other appointments constituting a charge on the same vote, including that of Mr. James Martin, M.P., was relevant, 384. That portion of amendment on motion for papers in connection with the appointment of Mr. J. L. Parsons having reference to appointment of Mr. James Martin, M.P., was anticipating motion on the paper and was not in order, 384. That House should not be moved to pass a Resolution which is in direct contravention of an existing Act of Parliament, 401.

That items reduced or omitted in Committee of Supply could be resubmitted on an Additional Estimate, covered by a new Message, 610.			
That General Business could not be proceeded with after 7 o'clock, but that business having been commenced without objection, it should not be interrupted, 654.			
That motion for Adjournment relative to amendment of Trade Disputes Conciliation and Arbitration Act was out of Order, as matter had been discussed this Session on second reading of Amending Bill, 657.			
That Labour Protection Bill contained a provision already passed in the Agreements Validating Bill, which must, if the Bill be proceeded with, be omitted in Committee, 659.
