## PART I.—COURTS JUDGES AND OFFICERS.

*Repeal of existing Acts.*

Repeal of Acts.  
First Schedule.

2. The Acts mentioned in the First Schedule to this Act to the extent to which the same are in and by the same Schedule expressed to be repealed shall be and the same are hereby repealed from the day of the coming into operation of this Act. But nothing herein contained shall affect any act suit or proceeding lawfully taken done or commenced under the said Acts or either of them before the commencement of this Act and the same shall severally be as valid and may be taken continued and enforced as if they had been commenced under the authority of this Act against all persons liable thereto. The several persons who at the time of the commencement of this Act shall hold the office of District Court Judges shall be and be deemed to be the first Judges of the County Courts holden under this Act and shall continue to be the Judges under and subject to this Act. All District Courts created and all registrars bailiffs assistants officers and deputies appointed and all bonds instruments policies and other securities given and all Acts directions orders rules and regulations made under the authority of any of the said repealed Acts before the coming into operation of this Act shall be deemed to have been created appointed given and made respectively under this Act and the provisions of any Act

Act not hereby or otherwise repealed conferring any jurisdiction or imposing any duty upon or otherwise relating to any District Court or any Judge thereof or any registrar of such Court existing before the passing of this Act shall apply to the County Courts and Judges and registrars established and appointed under this Act.

*Establishment of County Courts.*

3. It shall be lawful for the Governor in Council to direct that County Courts shall be holden having the limited jurisdiction in common law equity probate and administration hereinafter conferred by this Act and to direct in what cities towns and places such County Courts shall be holden and (when expedient) to direct that the holding of any such Court shall be discontinued or shall be transferred to any other town or place.

Establishment of County Courts.

4. For every Court holden under this Act there shall be a seal of the Court and all summonses and other process issuing out of the said Court shall be sealed or stamped with the seal of the Court.

Seal of Court.

5. For the purpose of obviating the technical difficulties which arise from the local jurisdiction of inferior Courts every County Court shall have jurisdiction throughout the whole of this Colony and there shall be a Judge or Judges for each such Court and such Courts may be holden simultaneously in all or any of such cities towns and places as aforesaid and shall be respectively Courts of Record and all complaints entered under part II of this Act save as hereinafter is provided shall be entered either at the County Court nearest to the place where the defendant or one of the defendants does at that time reside or carry on business or at the County Court nearest to the place where the cause of action arose if such Court be not more than one hundred miles distant from such residence or place of business of such defendant and if on the trial of any such complaint it shall appear that the County Court at which such complaint has been entered is not the proper County Court so as to satisfy these requirements the plaintiff shall be non-suit unless the defendant shall forego his right to such non-suit.

Limits of the jurisdiction.

Plaints to be entered in Court nearest to where the defendant resides or nearest to where cause of action arose in some cases. See section 126.

6. If a Judge of a County Court shall be satisfied by either party to a cause suit matter or proceeding pending in his Court in any branch of its jurisdiction that such cause suit matter or proceeding can be more conveniently or fairly tried in some other County Court he shall at any stage of the proceedings whether before or during the trial or hearing order that such cause suit matter or proceeding be sent for trial or hearing to such other County Court or if the Judge or any official of the Court shall be interested in the subject matter of any cause suit matter or proceeding pending in his Court he shall in like manner at his discretion order that such cause suit matter or proceeding be sent for hearing to some convenient County Court of which he is not the Judge and in either case the registrar of the Court in which the complaint was entered shall forthwith transmit to the registrar of the Court to which such cause suit matter or proceeding is to be sent a certified copy of the complaint as entered in the complaint book a duplicate copy of the summons and particulars or statement petition or proceeding as the case may be and a certified copy of the order for changing the venue and the Judge of such last-mentioned Court shall appoint a day for the hearing notice whereof shall be sent by post or otherwise by the registrar to both parties.

Venue may be changed.

*Time and place for holding Court and contempt of Court.*

7. The Judge of each County Court shall attend and hold such Court at the place where the Governor in Council shall have directed that such Court shall be holden at such times as such Judge shall appoint

Judge to hold Court where directed and appoint days of sitting.

appoint for that purpose so that a Court shall be holden in such place once at least in such interval as the Governor in Council shall in each case direct and notice of the days on which the Court will be holden shall be published in the Government Gazette and be put up in some conspicuous place in the Court-house and in the office of the registrar of the Court and no other notice thereof shall be needed and whenever any day so appointed for holding the Court shall be altered notice of such intended alteration and of the time when it will take effect shall be published in the manner aforesaid and be affixed in some conspicuous place in the Court-house and in the office of the registrar Provided that if the Judge shall not arrive at the Court-house before one o'clock in the afternoon of any day upon which the holding of such Court shall have been fixed the registrar shall open such Court and adjourn the same to the following day or to such other day as he shall be directed by the Judge either by order under his hand or by telegram.

Contempt of Court.

8. If any person shall wilfully insult the Judge or any juror or any registrar bailiff clerk or officer of any County Court during his sitting or attendance in Court or the Judge in going to or returning from Court or shall wilfully interrupt the proceedings of such Court or being summoned or examined as a witness in any suit in any such Court shall refuse to give evidence or to answer any lawful question or shall in the opinion of the Judge of such Court be guilty of wilful prevarication or if any person shall misbehave in Court in any manner it shall be lawful for the Judge of such Court to direct the apprehension of any such person and if he shall think fit to commit any such offender to prison for any time not exceeding *one* month or to impose on any such offender a fine not exceeding *ten* pounds for every such offence and in default of immediate payment thereof to commit the offender as aforesaid for any time not exceeding *one* month to gaol unless the said fine be sooner paid and in either of the cases aforesaid an order in the form contained in the Second Schedule to this Act or to the like effect shall and may be issued by such Judge and shall be good and valid in law without any other order summons or adjudication whatsoever.

Second Schedule.

#### Judges.

Appointment and qualification of Judges.

9. The Governor in Council shall appoint by commissions in her Majesty's name as many fit persons as are needed to be Judges of County Courts under this Act each of whom shall be a barrister-at-law of five years or an attorney-at-law of seven years standing and shall have been in practice as such or have held some judicial or legal office under the Crown within two years immediately preceding his appointment as Judge under this Act and every such Judge may be appointed by one commission for several Courts or by several commissions for each or any number of Courts and from time to time when any Judge appointed under this Act shall die resign or be removed or transferred another Judge may be appointed in his stead provided always that there shall be no more than seven such Judges at any one time unless addresses praying for a greater number and specifying such number shall from time to time be presented to the Governor by the Legislative Council and Legislative Assembly Provided also that if two or more persons shall be appointed Judges of any one Court each of such Judges when exercising judicial powers under this Act shall act separately and in such manner as if he only had been appointed the Judge of such Court but both or all the Judges of any such Court when appointing or removing officers or appointing times for holding Courts or discharging other administrative duties under this Act may act jointly.

Judges not to practice or act as Crown Prosecutors.

10. No Judge appointed under this Act shall during his continuance in office practice as a barrister-at-law or conveyancer or act as Crown Prosecutor

11. Every Judge appointed under this Act shall hold his office during ability and good behaviour and shall be paid (exclusive of any allowance for travelling expenses) an annual salary of fifteen hundred pounds which sum shall not be diminished during the continuance of such person in the office of County Court Judge but it shall be lawful for the Governor with the advice of the Executive Council to remove any Judge for inability or misbehaviour provided that twenty-one days at the least before such removal the Judge shall have notice of the intention to remove him and that he shall thereafter and before such removal have the opportunity of being heard before the Governor and Council in his defence.

12. Every Judge who shall have become incapable of performing the duties of his office by reason of any permanent infirmity or who shall have served as Judge for the period of fifteen years or who being of the age of sixty-five years shall have served as Judge for the period of ten years may be allowed to retire from such judgeship on a retiring allowance of one-half of the salary of such Judge at the time of his retirement and the retiring allowance of every Judge so retiring shall be paid to him every year by equal quarterly payments during the natural life of such Judge out of the consolidated revenue of this Colony under the authority of this Act. The period (if any) during which any such Judge may have served as Judge in any of the superior Courts or as chief commissioner of insolvent estates or as Judge or Deputy Judge of any County Court or District Court or Chairman of Quarter or General Sessions or substitute thereof under any law heretofore or hereafter to be in force shall be taken into consideration as portion of the service of such Judge of County Court.

Retiring allowances to Judges.

The period of service in other judicial offices to be taken into consideration as portion of Judge's service.

13. It shall be lawful for the Governor in Council from time to time to redistribute the duties of the County Court Judges or any of them amongst themselves and to appoint any Judge of a County Court to be Judge of any new or additional County Court that may from time to time be created under the provisions hereinbefore contained.

The duties of Judges may be redistributed and number of Courts may be increased.

14. Whenever a Judge shall be transferred die resign or be removed and the Governor in Council shall appoint another Judge in his stead or place such last-mentioned person shall on entering upon the duties of his Judgeship have and may execute all the powers and authority which the Judge so transferred dead resigned or removed could and might have performed and executed as if no such transfer death resignation or removal had taken place and in case of illness or absence on leave it shall be lawful for the Governor in Council to appoint some other person who shall be a Judge appointed under this Act or who shall be qualified as aforesaid to act as the deputy of any Judge appointed to hold any County Court during such illness or absence and it shall also be lawful for the Governor in Council to appoint a deputy who shall be a Judge appointed under this Act or who shall be qualified as aforesaid to act for any such Judge for any time and every deputy so appointed during the time for which he shall be so appointed shall have all the powers and privileges and perform all the duties of the Judge for whom he shall have been so appointed.

Power and authority of Judge appointed instead of another Judge.

Deputy Judge.

15. The jurisdiction and powers which by the twenty-second Victoria number six are vested in and conferred on the Supreme Court and the Judges thereof severally for protecting in certain cases the property of married women deserted by their husbands may be equally exercised by every County Court and the Judge or deputy Judge thereof and every order made in that behalf shall while in force have the same validity and effect as a similar order made under the same Act by the Supreme Court.

Provisions of 22 Vic. No. 6 sec. 4 extended to the County Court Judges.

*Registrar.*

Appointment of registrars of Court.

16. For every County Court there shall be one or more registrars whom the Governor in Council shall appoint and may remove and in any case in which it shall appear to be expedient it shall be lawful to appoint two or more persons to perform the duties of registrar or to appoint one of such persons as registrar and the other or others as assistant registrar or registrars under such regulations as to the division and performance of the duties as shall be from time to time made by order of the Judge or as may be made by the general rules to be framed under this Act and every such registrar or assistant registrar shall be paid by salary.

Deputy-registrar.

17. It shall be lawful for the registrar of any such Court with the approval of the Judge or in case of inability of the registrar to make such appointment for the Judge to appoint from time to time a deputy to act for such registrar of the said Court at any time when he shall be prevented by illness or unavoidable absence from acting in such office and to remove such deputy at his pleasure and such deputy while acting under such appointment shall have the like powers and privileges and be subject to the like provisions duties and penalties for misbehaviour as if he were the registrar of the said Court for the time being and he shall receive as remuneration for his services during the period he may so act a ratable proportion of the salary attached to the office of registrar.

Governor in Council to appoint assistant registrars at other places.

18. It shall be lawful for the Governor in Council to appoint an assistant registrar to act at any place although the same shall not be a place at which a County Court is holden and such assistant registrar shall enter plaints and other process and issue plaints summonses and all other process and proceedings returnable at such place or places at which a County Court is holden as the Governor in Council shall direct and all persons so appointed shall have the same powers and privileges and be subject to the same general provisions duties and penalties for misbehaviour as registrars of County Courts appointed under this Act.

Return of process to be forwarded to registrar of Courts.

19. Such assistant registrar shall within eight days before any plaint summons shall be returnable forward to the registrar of the Court at which the same are returnable a list arranged numerically and in order of date of all plaints entered and of all plaint summonses issued by him together with certified copies of such plaint summonses and which plaint summonses shall have written or printed upon them the name of the place at which the same are issued and of the place at which the same are returnable and which last-named place shall be deemed to be the County Court in which the action or suit is depending and all process whatever in such action or suit may be issued either by the registrar or assistant registrar and such assistant registrar shall also so frequently as shall be directed by the rules of Court to be passed as herein provided forward lists and certified copies of all other processes or proceedings entered or issued by him to the said registrar.

Plaints summonses &c. issued to be as effective and Judges or Court to have same powers &c. as if process issued by registrar of Court.

20. All plaints plaint summonses and other process and proceedings entered and issued under the last two preceding sections shall be as effective and the Judges before whom or the Court before which the same are made returnable shall have the same powers jurisdiction and authority to hear and determine the several actions and proceedings in or with reference to which the same shall have been entered or issued as though such plaints plaint summonses process or proceedings had been entered or issued by the registrar of any County Court under the provisions of this Act.

21. The registrar of the Court at which any such plaint summons or other process are made returnable shall enter the same in the cause list for hearing before the Court or the Judge at the place at which the same are returnable in such order and in such manner as shall be prescribed by the rules to be made as hereinafter provided.

Registrar of Court to enter plaint summons &c. in cause list in the order prescribed by rules.

22. The registrar or deputy-registrar of each Court and such assistant registrars as aforesaid in cases requiring the same shall issue all summonses precepts and warrants and shall make lists of all causes suits and matters for hearing further hearing or rehearing and shall make entries in the register of all verdicts orders decrees and judgments of the said Court and discharge all other duties and powers imposed or conferred on them under or in pursuance of this Act or according to the rules to be made as hereinafter provided and keep an account of all proceedings of the Court and shall take charge of and keep an account of all Court fees and fines payable or paid into Court and of all moneys paid into and out of Court and shall enter an account of all such fees fines and moneys in such manner and form and in such books or otherwise as may from time to time be prescribed by the rules made as hereinafter mentioned and such entries in the said register and books respectively or a copy thereof respectively bearing the seal of the Court and signed and certified as a true copy by the registrar of the said Court shall at all times be admitted in all Courts and places whatsoever as evidence of such entries and of the proceedings referred to by such entry or entries and of the regularity of such proceeding without any further proof and no record of any plaint verdict judgment order or decree other than the entry or entries as aforesaid shall be necessary.

Duties of registrar.

23. Every registrar and deputy-registrar and assistant registrar shall have power and is hereby authorised to take and administer affidavits depositions declarations oaths and affirmations in relation to any cause suit matter or proceeding in any County Court Provided that any affidavit to be used in a County Court shall and may be sworn before such registrar or deputy-registrar or assistant registrar or before any Judge of the Supreme Court or before any Judge of any County Court or any Justice of the Peace or any commissioner for taking affidavits in the Supreme Court.

Registrar may administer oaths.

*Bailiffs.*

24. For every such Court there shall be one or more bailiffs whom the Judge shall by order under his hand appoint and in case of inability or misbehaviour may by order under his hand remove and every such bailiff shall receive a salary on account of the service of summonses and of his general duties other than in the execution of warrants and of writs of execution and every such bailiff may subject to the restrictions hereinafter contained by any writing under his hand appoint a sufficient number of able and fit persons not exceeding such number as shall be from time to time allowed by the Judge to be officers to assist the said bailiff and at his pleasure may dismiss all or any of them and appoint others in their stead and every officer so appointed may also be suspended or dismissed by the Judge Provided that it shall be lawful to appoint a member of the police force to act as a bailiff or assistant bailiff at any place anything in any law now or hereafter in force to the contrary notwithstanding.

Appointment of bailiffs and assistants.

25. The said bailiffs or one of them shall if required by the Judge attend every sitting of the Court unless when their absence shall be allowed for reasonable cause by the Judge and shall by themselves or by the officers appointed to assist them as aforesaid serve all such summonses issued out of the said Court as may be delivered to them for service and shall execute all the warrants and precepts issued out of

Bailiff's duty.

of

of the Court and the said bailiffs and officers shall in the execution of their duties conform to all such general rules as shall be from time to time framed for regulating the proceedings and practice of the Court as hereinafter provided and subject thereunto to the order and direction of the Judge and the said bailiffs shall receive from the registrar and retain for their own use for and in respect of such duties as shall have been performed by them or by the officers appointed to assist them all fees and sums of money allowed as hereinafter mentioned in the name of fees payable to the bailiff out of which they shall provide for the execution of the duties for which such fees are allowed and for the payment of the officers appointed to assist them and such fees shall be paid to the bailiff upon the performance of such duties but not before and every such bailiff shall be responsible for all the acts and defaults of himself and of the officers appointed to assist him in like manner as any Sheriff in this Colony is responsible for the acts and defaults of himself and his officers Provided always that in every Court holden under this Act in which the fees allowed to be taken by the bailiffs of the Court shall appear to be more than sufficient it shall be lawful for the Governor in Council to declare that a certain specified part only of their fees shall be paid to them respectively and in that case and so long as such order shall be in force the amount of the residue of such fees shall be accounted for paid and applied in the same manner as all other fees payable to such registrar.

Penalty on officers  
for corrupt practices.

26. Every registrar bailiff or other officer employed in putting this Act or any of the powers thereof in execution who shall wilfully and corruptly exact take or accept any fee or reward whatsoever other than and except such fees as are or shall be appointed and allowed respectively as aforesaid for or on account of anything done or to be done by virtue of this Act or on any account whatsoever relative to putting this Act into execution shall on conviction thereof forfeit and pay any sum not exceeding *fifty* pounds and shall be for ever incapable of serving or being employed under this Act in any office of profit or emolument.

Registrar and bailiff  
to be distinct persons  
and not to act as  
attorneys.

27. It shall not be lawful for the registrar of any County Court or the partner of any such registrar or any person in the service or employment of such registrar or of his partner to act as bailiff of the Court or for the bailiff his partner or any person in the service or employment of such bailiff or of his partner to act as registrar and no officer of the Court shall either by himself or by his partner be directly or indirectly engaged as counsel attorney or agent for any party in any proceeding in the said Court.

Penalty for breach of  
preceding enactment.

28. Every person who being the registrar of any such Court or the partner of such registrar or a person in the service or employment of any such registrar or of his partner shall accept the office of bailiff of such Court or who being the bailiff of such Court or the partner of any such bailiff or a person in the service or employment of any such bailiff or of his partner shall accept the office of registrar in the execution of this Act and also every officer of any such Court who shall be by himself or his partner or in any way directly or indirectly concerned as counsel attorney or agent for any party in any proceeding in the said Court shall for every such offence forfeit and pay the sum of *one hundred* pounds with full costs of suit to any person who shall sue for the same by action of debt or on the case in the Supreme Court.

Registrar and bailiff  
to give security.

29. Every registrar and bailiff of every Court holden under this Act who may receive any moneys in the execution of his duty shall give security for such sum and in such manner and form as the Governor in Council from time to time shall direct for the due performance of their several offices and for the due accounting for and payment of all moneys received by them under this Act or which they may become liable to pay for any misbehaviour in their office.

Court

Court Fees.

30. There shall be payable on every proceeding in the County Courts to the registrar and assistant registrar of the several Courts such fees as shall be allowed in the manner next hereinafter mentioned and none other And a table of such fees shall be put up in some conspicuous place in the court-house and in the registrar's and assistant registrar's office And the fees on every proceeding shall be paid in the first instance by the party on whose behalf such proceeding is to be had on or before such proceeding And the fees upon execution or commitment shall be paid into Court before or at the time of the issue of the warrant of execution or commitment And it shall be lawful for the Governor in Council to direct what amount of fees and in respect of what steps taken process issued or duties performed fees shall be taken in the County Courts in such manner as to him shall seem fit and from time to time to lessen or increase the same And such fees may be regulated by way of percentage on the amount of the demand And it shall be lawful for the Governor in Council from time to time to appoint instead of all or any of the fees which may from time to time be payable as aforesaid other fees by way of percentage or otherwise to be payable on such proceedings under this Act as the Governor in Council may direct.

Court fees payable by suitors.

Actions against persons acting under this Act and Bailiffs.

31. In every action against the registrar or deputy registrar or assistant registrar of any County Court for anything done in obedience to any warrant issued by him under this Act it shall be a sufficient justification for such registrar or deputy registrar or assistant registrar to plead the judgment or order of such Court or of the Judge thereof and the warrant thereupon without alleging or setting forth the previous proceedings or that the cause of action for which such judgment was recovered was cognizable by or accrued within the jurisdiction of such Court or Judge And in every action against the bailiff of any such Court or any officer servant or agent of such bailiff or against the keeper of any gaol for anything done by such bailiff or by his command or authority or by such keeper in obedience to any warrant or precept issued under this Act it shall be sufficient for such bailiff officer servant or agent or for such keeper to justify under such warrant alone without alleging that the same was made and issued within the jurisdiction of such Court and without alleging or setting forth the judgment or previous proceedings in the same manner as any Sheriff can and may justify under any writ issued out of the Supreme Court And in either of the cases aforesaid proof of the matters so alleged shall be sufficient evidence in support of such plea.

Actions against officers how defended.

Actions against officers acting under this Act.

32. All actions to be brought against any person for anything done under this Act shall be commenced within six calendar months after the act complained of was committed And no writ plaint summons or other proceeding shall be issued out against nor any copy of any process served upon any person for anything by him done in the execution of his office under this Act until a notice in writing of such intended writ or process shall have been delivered to him or left at his usual place of abode by the party intending to issue such writ or plaint summons process or other proceeding or the attorney of the party who intends to cause the same to be sued out or served at least one calendar month before the suing out or serving the same And such notice shall clearly and explicitly set forth the nature of the intended action and the cause of action and on the back thereof shall be endorsed the name and place of abode of the party intending to bring such action or the name and place of business of his attorney.

Time for bringing actions against officers of the Court.

Defendant may tender amends.

NOTE.—This section may be omitted if section 34 is passed.

33. It shall be lawful for the defendant in any such action at any time before plea pleaded to tender or cause to be tendered any sum of money as amends for the injury complained of to the party complaining or to his attorney or agent. And if the same shall not be accepted it shall be lawful for the defendant to pay such sum tendered or any other sum into Court and to plead the general issue and to give the special matter of his defence and also such payment into Court in evidence by virtue of this Act. And no such plaintiff shall be entitled to recover in any such action if the jury which try the same be of opinion that the sum of money paid into Court by the defendant is sufficient amends for the injury complained of. And if the plaintiff shall discontinue such action or if upon demurrer or otherwise judgment be given against the plaintiff or if the plaintiff be non-suited or if a verdict pass for defendant the defendant shall be entitled to recover his full costs as between attorney and client and shall have the like remedy for the recovery of the same as any defendant has by law in other cases.

Protection to bailiffs &c.

34. All constables and other peace officers shall aid in the execution of every writ or execution under the provisions of this Act. And if any officer or bailiff of any County Court shall be assaulted while in the execution of his duty or if any rescue shall be made or attempted to be made of any goods levied under process of the Court the person so offending shall be liable to a fine not exceeding *fifty* pounds to be recovered upon proof of such offence by order of a Justice or Justices of the Peace in Petty Sessions and such fine shall be directed to be paid either forthwith or within a certain time to be specified in such order and if the same be not paid in the time specified therein the defendant shall be imprisoned for a period of time not exceeding *three* calendar months unless such fine shall be sooner paid.

#### Attorneys and Counsel.

Appearance to be in person or by barrister or attorney.

35. It shall be lawful for the party to any cause suit matter or proceeding under this Act or for an attorney of the Supreme Court being an attorney acting generally in the action cause suit matter or proceeding for such party but not an attorney retained as an advocate by such first-mentioned attorney or for a barrister retained by or on behalf of the party on either side to address the Court and examine and cross-examine the witnesses. Provided that no attorney shall be allowed to act or appear for any person in any County Court until he has caused his name to be entered in a roll or a book to be kept by the registrar for that purpose stating his place of business where papers may be served.

Fees to barristers and attorneys to be fixed by the rules.

36. The fees to be allowed to barristers-at-law and attorneys practising in any County Court and the expenses to be paid to witnesses shall be fixed by some scale in the general rules to be framed as hereinafter mentioned but the costs of employing a barrister or attorney either by the plaintiff or defendant shall not be allowed as costs in the cause in any case in which the amount recovered shall not exceed *ten* pounds unless the Judge shall allow the same. Provided that attorneys and barristers retained by or on behalf of the party to any suit action matter or proceeding shall be entitled in all cases to maintain an action for the recovery from the person employing them of the fees fixed by the said rules and of the sums disbursed by them on behalf of their clients any law usage or practice to the contrary notwithstanding.

Excessive fees may be recovered back.

37. It shall be lawful for the Judge of any County Court upon the application of any person who shall have employed any attorney or barrister in any suit or proceeding in such Court or before such Judge

Judge to issue a summons requiring any attorney or barrister (who in the opinion of such Judge shall not have been *bond fide* instructed by an attorney) to appear before such Judge at a time and place named in such summons and at such time and place upon the appearance of such attorney or barrister or upon proof of due service of such summons such Judge shall proceed to tax the charges and fees of such attorney or barrister for any such proceedings in such Court or before such Judge and if in the opinion of such Judge the charges or fees of such attorney or barrister are unreasonable it shall be lawful for such Judge unless there shall be some special contract between the parties by order under his hand to direct such attorney or barrister to repay any part of such charges or fees.

38. In order to abolish the expenses occasioned by the taxation of costs the Judge shall at the trial when practicable or in special cases in the discretion of the Judge direct that the registrar shall within a time to be limited by the Judge fix the amount of such costs and ascertain the amount payable and paid to witnesses but notwithstanding anything hereinbefore contained all the costs of any action suit or proceeding in any Court holden under this Act or before any Judge thereof shall be paid or apportioned between the parties in such manner as the Judge shall think fit and the judgment decree or order shall be entered accordingly but in default of any special directions such costs shall abide the event of such action or suit.

Costs to be fixed by Judge.

## PART II.—JURISDICTION AT COMMON LAW.

### *Jurisdiction and Practice.*

39. The County Courts shall have jurisdiction to hear and determine according to the provisions of this Act all personal actions where the amount value or damages sought to be recovered shall not be more than five hundred pounds whether on balance of account or otherwise and all personal actions where the amount value or damages sought to be recovered shall be more than said sum if both parties or their respective attorneys shall in writing under their hands consent thereto and all actions of replevin and ejection as hereinafter enacted.

What common law causes cognizable in a County Court.

Personal actions and actions of replevin and ejection.

40. If any action shall be instituted after the commencement of this Act in the Supreme Court for any debt other than on a bill of exchange or promissory-note for which a plaint might have been entered under this Act it shall be lawful for a Judge of such Court before an appearance is entered by the defendant if final judgment shall not have been signed by the plaintiff to order that upon payment by the defendant to the plaintiff within a time to be named in such order of the debt for which such action is brought without costs all further proceedings shall be stayed and thereupon in case default shall be made in payment of such debt it shall be lawful for the plaintiff at once to sign final judgment for the said debt and for the costs hereinafter mentioned as if no such order had been made and in that case the costs of and occasioned by the said application as well as the costs of such action shall be taxed in the ordinary way and the plaintiff may upon such judgment issue execution according to the course and practice of the Court.

Certain actions in Supreme Court to be stayed.

41. If in any action commenced after the passing of this Act in the Supreme Court the plaintiff shall recover a sum not exceeding fifty pounds if the action be founded on contract other than a bill of exchange or promissory-note or twenty pounds if founded on tort whether by verdict judgment by default or on demurrer or otherwise he shall not be entitled to any greater costs of suit than he would be

In actions in Supreme Court where a sum not exceeding fifty pounds on contract other than bill or note or twenty pounds on tort County Court costs to be allowed unless Judge certifies.

allowed

allowed in the County Court unless the Judge immediately afterwards certify on the record that there was sufficient reason for bringing such action in the Supreme Court or unless the Court or a Judge at chambers shall by rule or order allow such costs.

In certain cases Judge of Supreme Court may order cause to be tried in the County Court

42. Where in any action of contract brought or commenced in the Supreme Court the claim endorsed on the writ does not exceed five hundred pounds or where such claim although it originally exceeds five hundred pounds is reduced by payment an admitted set-off or otherwise to a sum not exceeding five hundred pounds it shall be lawful for the defendant in the action within eight days from the day upon which the writ shall have been served upon him if the whole or part of the demand of the plaintiff be contested to apply to a Judge at chambers for a summons to the plaintiff to show cause why such action should not be tried in the County Court or one of the County Courts in which the action might have been commenced and on the hearing of such summons the Judge shall unless there be good cause to the contrary or unless in his opinion such action ought to be tried in the Supreme Court order such action to be tried accordingly and thereupon the plaintiff shall lodge the original writ and the order with the registrar of the County Court mentioned in the order who shall appoint a day during some sitting for the hearing of the cause notice whereof shall be sent by post or otherwise by the registrar to both parties or their attorneys and the cause and all proceedings therein shall be heard and taken in such County Court and as if the action had been originally commenced in such County Court and the costs of the parties in respect of the proceedings subsequent to the order of the Judge of the Supreme Court shall be allowed according to the scale of costs in use in the County Court and the costs of the proceedings previously had in the Supreme Court shall be allowed according to the scale in use in such latter Court.

Actions for malicious prosecution &c. brought in Supreme Court may be remitted to County Court.

43. It shall be lawful for any person against whom an action for malicious prosecution illegal arrest illegal distress assault false imprisonment libel slander seduction or other action of tort or any action for breach of promise of marriage may be brought in the Supreme Court to make an affidavit that the plaintiff has no visible means of paying the costs of the defendant should a verdict be not found for the plaintiff and thereupon a Judge of the Court in which the action is brought shall have power to make an order that unless the plaintiff shall within a time to be therein mentioned give full security for the defendant's costs to the satisfaction of the Prothonotary of the said Court or satisfy the Judge that he has a cause of action fit to be prosecuted in the Supreme Court all proceedings in the action shall be stayed or in the event of the plaintiff being unable or unwilling to give such security or failing to satisfy the Judge as aforesaid that the cause be remitted for trial before a County Court to be therein named and thereupon the plaintiff shall lodge the original writ and the order with the registrar of such County Court who shall appoint a day for the hearing of the cause notice whereof shall be sent by post or otherwise by the registrar to both parties or their attorneys and the County Court so named shall have all the same powers and jurisdiction with respect to the cause as if both parties had agreed by a memorandum signed by them that the said County Court should have power to try the said action and the same had been commenced by plaint in the said County Court and the costs of the parties in respect of the proceedings subsequent to the order of the Judge of the Supreme Court shall be allowed according to the scale of costs in use in the County Courts and the costs of the proceedings in the Supreme Court shall be allowed according to the scale in use in such latter Court.

44. In any action in the County Court where the amount claimed shall exceed fifty pounds the defendant may apply to a Judge of the Supreme Court in chambers for a summons to the plaintiff to show cause why such action should not be tried in the Supreme Court and the Judge if it shall appear to him that such cause is one more fit to be tried in the Supreme Court than in the County Court shall in his discretion make an order that the plaintiff's summons shall be filed with the Prothonotary of the Supreme Court and the cause be heard in such Court as though originally commenced in such Court and such order shall be made upon such terms as to payment of costs and security for paying into Court debt costs or any part thereof respectively or upon such other terms as such Judge shall think fit but in such case should the plaintiff recover a verdict he shall be entitled to full costs.

Removal into Supreme Court of action above fifty pounds.

45. In any action of ejectment or for damages for injury to realty the defendant in any such action of ejectment or his landlord or the defendant in any such action for damage for injury to realty may within one month provided the cause has not been sooner heard from the service of the plaintiff's summons apply to a Judge at chambers for a summons to show cause why such action should not be tried in the Supreme Court on the ground that the title to lands or hereditaments of greater annual value than one hundred pounds would be affected by the decision in such action and on the hearing of such summons the Judge if satisfied that the title to other lands would be so affected may order such action to be tried in the Supreme Court and thereupon all proceedings in the County Court shall be discontinued and the Judge may make such order as to costs as he shall see fit.

Removal of action of ejectment or trespass.

#### *Causes and Parties.*

46. Causes of action of whatever kind provided they be by and against the same parties and in the same rights may be joined in the same suit in any County Court but the Court shall have power to prevent the trial of different causes of action together if such trial would be inexpedient or inconvenient and in such case may order separate trials to be had. Provided in any proceedings under this Act by a man and his wife for an injury done to the wife in respect of which she is necessarily joined as a co-plaintiff it shall be lawful for the husband to add thereto claims in his own right. Provided that in the case of the death of either of them such suit so far only as relates to the causes of action (if any) which do not survive shall abate.

Joinder of causes of action.

47. It shall not be lawful for any plaintiff to divide any cause of action for the purpose of bringing two or more actions in any of the said Courts but any plaintiff having cause of action for more than the amount for which a plaintiff might be entered under this Act may abandon the excess and thereupon the plaintiff shall on proving his case recover to an amount not exceeding five hundred pounds and the judgment of the Court upon such plaintiff shall be in full discharge of all demands in respect of such cause of action and entry of the judgment of the Court shall be made accordingly.

Proceedings by a husband and wife.

Demands not to be divided into two suits.

48. No action shall be brought in any County Court upon the judgment of a Supreme Court.

No action on a judgment.

49. Where any plaintiff shall have any demand recoverable at law under this Act against two or more persons jointly answerable it shall be sufficient if any of such persons be served with process and judgment may be obtained and enforced against the person or persons so served notwithstanding that others jointly liable may not have been served or sued or may not be within this Colony and every such person against whom judgment shall have been obtained under this Act and who shall have satisfied such judgment shall have the same rights and remedies as if he had been sued in the Supreme Court and had

One of several persons liable may be sued.

not

Proceedings to join other defendants.

not pleaded such nonjoinder in abatement. Provided that it shall be lawful for the defendant at such time before the return day of the plaint summons as shall be fixed by the general rules to be framed as hereinafter mentioned to take out a summons returnable before the Judge at chambers calling upon the plaintiff to show cause why some other person or persons to be named in such summons should not be joined as co-defendant or co-defendants and upon the hearing of such summons the Judge may direct that all or any of the persons named in such summons shall be joined as co-defendants and may direct the service of the plaint summons when so amended upon the persons so joined within such time as he shall direct and upon such terms as to the costs of the application costs of the trial postponement of the trial or striking out any of the defendants at the trial or otherwise as in each particular case he shall deem fit or the Judge may dismiss such summons with costs.

Provisions for executors and assignees.

50. It shall be lawful for any assignee executor or administrator to sue and any assignee executor or administrator shall be liable to be sued in any County Court in like manner as if he were a party in his own right and judgment and execution shall be such as in the like case would be given or issued in the Supreme Court and no privilege shall be allowed to any attorney solicitor or other person to exempt him from the provisions of this Act.

Character in which plaintiff or defendant when admitted.

51. In actions or suits by or against assignees of an insolvent or executors or administrators or trustees or persons authorised by Act of Parliament or Council to sue or be sued as nominal parties the character in which the plaintiff is stated in the summons to sue or the character in which defendant is stated to be sued shall be taken to be admitted unless denied by notice served on the opposite party in like manner as is provided in case of special defences.

Minors how to sue or be sued.

52. It shall be lawful for any person under the age of twenty-one years to sue and to be sued in any County Court subject to the rules to be made as hereinafter mentioned.

#### *Plaint Note and Summons.*

How actions to be commenced in County Court.

53. No pleading shall be allowed in any County Court but on the application of any person desirous to bring a cause or suit under Part II of this Act in any such Court the registrar of the Court shall subject to the rules to be framed as hereinafter mentioned enter in a register to be kept for this purpose in his office a plaint in writing stating the names and the last known places of abode of the parties the nature of the suit and the amount sought to be recovered and every one of such plaints shall be numbered in every year according to the order in which it shall be entered and thereupon a summons or special summons as hereinafter provided bearing the number of the plaint shall be issued and be served at the option of the plaintiff by himself or his agent or the bailiff of the Court so many days before the day on which the cause is to be tried as shall be directed by the general rules framed or to be framed as hereinafter mentioned and delivery of such summons to the defendant or in such other manner as shall be specified in such rules shall be deemed good service and no misnomer or inaccurate description of any person or place in any such plaint or summons shall vitiate the same if the person or place be therein described so as to be commonly known.

#### *Payment into Court.*

Payment into Court.

54. Any defendant in any action in a County Court within such time as shall be directed by the general rules to be framed as hereinafter mentioned may pay into Court such sum of money as he shall think a full satisfaction for the demand of the plaintiff together with

with the costs incurred by the plaintiff up to the time of such payment and of delivering the notice next hereinafter mentioned such costs to be fixed by the registrar according to the scale framed under the Act and notice of such payment shall be communicated by the registrar of such Court to the plaintiff by causing the same to be delivered at or posted within two days to his usual or last known place of abode or business and the said sum of money shall be paid to the plaintiff if he elect to take the same in full satisfaction of the action but if he shall elect to proceed the defendant shall be allowed to plead any other defence and the said sum of money shall remain in charge of the registrar and if the plaintiff shall recover no further sum in the action than shall have been so paid into Court or a sum less than shall have been so paid into Court judgment shall be entered for the defendant and the plaintiff shall pay to the defendant the costs incurred by him in the said action and of the money in charge of the registrar the registrar shall pay to the defendant the difference if any between the sum paid into Court and the sum recovered and the costs to which the defendant is entitled shall be a first charge on the sum or balance remaining in the registrar's charge.

*Judgment by Confession.*

55. If the defendant in any action shall agree with the plaintiff upon the amount in dispute and upon the terms of payment the plaintiff and the defendant or their attorneys may in presence of a Justice of the Peace or of the registrar or assistant registrar or of an attorney of the Supreme Court sign a consent in writing to entering judgment for the amount and upon the terms agreed and the registrar shall subject to the rules to be framed as hereinafter mentioned file such consent and enter the judgment of the Court accordingly whether the Court is sitting or not and such judgment shall to all intents and purposes be the same and have the same effect and shall be enforced in the same manner as if it had been a judgment of the Court.

56. In any action in the County Court for a debt or a liquidated money demand including principal moneys and interest on bills of exchange and promissory-notes the plaintiff may at his option cause to be issued either a summons in the ordinary form or a summons in the form or to the effect in the Third Schedule to this Act. Provided if such last-mentioned summons be issued it shall be served personally at the option of the plaintiff either by a bailiff of the Court or by the attorney of the plaintiff or by a clerk in the permanent employ of such attorney within such time as shall be provided by rules to be framed under this Act and then if the defendant shall not within ten clear days after such service give notice in writing either by himself or his attorney to the registrar of his intention to defend the plaintiff may without giving any proof of his claim have judgment entered up whether the Court be sitting or not against the defendant for the amount of his claim and costs such costs to be taxed and in the case of bills of exchange and promissory-notes interest to be computed by the registrar and the order to be entered by the registrar upon such judgment shall be for payment forthwith or at such time or times and by such instalments if any as the plaintiff or his attorney shall in writing endorsed on such summons consent to take at the time of the entry of such judgment and such judgment shall to all intents and purposes be the same and have the same effect and be enforced in like manner as if it had been a judgment of the Court. If the defendant shall give such notice as is hereinbefore provided the action shall be heard in the ordinary course but in any event the registrar shall immediately after the last day for giving such notice send a letter to the plaintiff or to his attorney by post stating therein whether such defendant has or has not given notice of his intention to defend.

Judgment by consent.

Judgment by default.

Third Schedule.

In certain actions plaintiff may issue summons and if defendant shall not give notice of intention to defend judgment may be entered up.

*Defences.*

*Defences.*

Equitable defences.

57. It shall be lawful for the defendant in any cause in which if judgment were obtained he would be entitled to relief against such judgment upon equitable grounds to rely upon the facts which entitle him to such relief by way of defence and the said Court is hereby empowered to receive such defence Provided that notice of such defence be given as hereinafter provided And the plaintiff may reply in answer to any plea of the defendant facts which avoid such plea on equitable grounds.

Common Law  
Proceduro Act.Notice of equitable  
and special defence.

58. No defendant in any cause under under this Act shall have the benefit of any equitable defence nor shall he be allowed to set off any debt or demand claimed or recoverable by him from the plaintiff or to set up by way of defence and to claim and have the benefit of illegality infancy coverture or any statute of limitations or of his discharge under any Act relating to insolvent debtors without the consent of the plaintiff unless such notice thereof as shall be directed by the rules to be framed as hereinafter mentioned shall have been given to the plaintiff or to his attorney in the suit by the post or by causing the same to be delivered at his usual or last known place of abode or business and in default thereof no such defence as aforesaid shall be set up except by consent.

Proceedings where  
defendant's set off  
exceeds the plaintiff's  
claim.

59. In every cause under this Act in which the defendant shall be allowed to set off any debt or demand claimed or recoverable by him from the plaintiff such defendant shall (whether the plaintiff shall be nonsuit or have judgment given against him) be entitled to recover in such cause the amount (if any) by which the debt or demand so set off exceeds the debt or demand claimed and proved by the plaintiff and shall have judgment for the same accordingly.

*Discontinuance and stay of Proceedings or Adjournment.*Plaintiff may  
discontinue.

60. The plaintiff may discontinue his proceedings at any time by giving notice in writing of his intention to the registrar and to the defendant and thereupon the defendant may upon filing such notice have judgment entered up for his costs by the registrar whether the Court be sitting or not the amount of such costs to be fixed by the registrar.

Judge may stay  
proceedings grant  
time or adjourn.

61. The Judge of any County Court may in any case make orders for staying proceedings until security shall be given for costs or for granting time to the plaintiff or defendant to proceed in the prosecution or defence of the suit and may also from time to time adjourn any Court or the trial or further trial or consideration of any cause in such manner and on such terms (if any) as to payment of costs or otherwise as to the Judge may seem fit.

*Arbitration.*Arbitration by  
agreement.

62. If the plaintiff and the defendant in any action suit or other proceeding in any such Court shall agree to refer to arbitration the subject of such action or such subject and all or any other matters in dispute between the parties whether such other matters shall be within the jurisdiction of the Court or not and shall notify such agreement to the Judge of such Court in writing signed by themselves or their attorneys naming one or two persons as arbitrators such agreement shall be filed by the registrar of such Court and the Judge shall order such reference and on such terms as to costs and fees to arbitrators as may be reasonable and the arbitrators where two are named shall have power in the event of their disagreement to choose an umpire and the award of such arbitrator or arbitrators or umpire shall unless set aside by such Court at the sitting of such Court next after such award be binding

binding final and conclusive on both parties and judgment shall be entered for the plaintiff or defendant in accordance therewith whether the Court be sitting or not and such reference shall not be revocable by either party thereto except by leave of the Judge Provided that the Judge may enlarge the time for making such award or may with consent of both parties revoke the reference or order another reference to be made in manner aforesaid.

63. If plaintiff and defendant in any action in any such Court agree in writing to refer the subject of such action or any other matters in dispute between the parties whether such other matters be within the jurisdiction of the Court or not and shall notify such agreement to the Judge such Judge may if he see fit act as arbitrator and shall make an award thereon upon which he shall cause to be entered up judgment thereon in said Court with such costs as he may deem reasonable and such award and the judgment thereon shall not be subject to question or appeal in any Court whatever

Arbitration by Judge.

*Witnesses and Evidence.*

64. Either party to any cause suit matter or proceeding in a County Court may obtain at the office of the registrar of the Court summonses to witnesses to be served at the option of such party either by himself or his agent or by the bailiff of the Court with or without a clause requiring the production of books deeds papers and writings in their possession or under their control any law usage or practice to the contrary notwithstanding and every person on whom any such summons shall have been served personally or in such other manner as shall be directed by the rules to be framed as hereinafter mentioned and to whom at the same time payment or a tender of his expenses shall have been made on the scale hereinafter mentioned and who shall refuse or neglect without sufficient cause to appear shall pay such fine not exceeding *twenty* pounds as the Court shall adjudge but no such fine shall exempt such person from any action for disobeying such summons.

Summons to witnesses.

Penalty for non-attendance of witness.

65. It shall be lawful for the Judge of any County Court at any time after plaint filed on the application of either party supported by affidavit that the evidence of any specified witness including in that term either of the parties is material to the cause and that such witness is absent from the Colony or above one hundred miles from the place of trial or is expected to die or to be unable from sickness or infirmity to attend at the hearing or is about to quit the Colony or go to some place beyond the said distance before the cause can be heard to take in Court or Chambers or to authorize the Registrar of any County Court or any Commissioner of the Supreme Court or Justice of the Peace or practising barrister or attorney to take at some convenient place the examination of such witness *de bene esse* and all evidence so taken shall be admissible at the hearing subject to all just exceptions unless it be proved that such witness is at the time of the hearing within a convenient distance of the said Court and able to attend Provided that in every such case the opposite party shall have sufficient notice of the time and place appointed for taking such examination and may cross-examine such witness in the usual manner Provided also that the Judge may either direct the whole costs of taking such evidence to be paid by the party applying or make the same costs in the cause.

Examination *de bene esse*.

66. The provisions in sections seventeen eighteen nineteen twenty and twenty-three of the "Common Law Procedure Act of 1857" shall be extended to the County Courts and Judges thereof and all power and authorities given by the said sections of the said Act to the Supreme Court or to any Judge thereof shall equally apply to and be exercisable by every County Court and every Judge thereof in like manner as the

And see 22 Vic. No. 7 Law of Evidence further Amendment Act extending sections 10 to 15 of Common Law Procedure Act of 1857 to all inferior Courts.

same apply to and are exercisable by the Supreme Court or any Judge thereof and as though the County Court and Judges thereof had been named in the said section of the said Act and every County Court and the Judge of every County Court shall in the exercise of the powers conferred by this section have and exercise the same power and authority for compelling obedience to and for punishing disobedience of orders made under this section as the Supreme Court or any Judge thereof may exercise for compelling obedience to or punishing disobedience of any order made under the said sections of the said Act.

*Trial.*

Proceedings at the trial where both parties appear.

67. At the time and place in that behalf named in any summons issued out of any County Court the plaintiff shall appear and thereupon the defendant shall be required to appear to answer such plaint and on answer being made in Court by the defendant the Judge or the Judge and jury as the case may be shall proceed to try the cause and give their verdict without any formal joinder of issue.

Proceedings where the plaintiff does not appear.

68. If at the time and place named or at any continuation or adjournment of the Court or cause the plaintiff shall fail to appear the cause shall (unless the Court shall otherwise order) be "struck out" and shall be thereupon ended and determined and a memorandum to that effect shall be entered by the registrar of the said Court in the said register but such entry shall not bar any future suit for the same cause Provided always that it shall be lawful for the Judge to order any such cause to be reinstated if he shall think fit.

Costs when suit struck out.

69. Whenever any suit shall be "struck out" under the provisions hereinbefore contained and the plaintiff and defendants shall both have failed to appear the said parties respectively shall bear and pay their own costs but if any defendant shall have appeared in person or by his attorney or counsel the Court may give to such defendant judgment for his costs of the suit.

Proceedings where plaintiff appears but does not prove his case.

70. If at the time and place so named as aforesaid or at any continuation or adjournment of the Court or cause the plaintiff shall appear but not make proof of his demand to the satisfaction of the Court it shall be lawful for the Judge to nonsuit the plaintiff and if the defendant shall appear and shall not admit the demand to adjudge to the defendant by way of costs such sum as the Judge in his discretion shall think fit Provided always that if the plaintiff shall not appear when called upon and the defendant or his attorney or counsel shall appear and admit the cause of action to the full amount claimed and the fees payable in the first instance by the plaintiff the Court if it shall think fit may proceed to give judgment as if the plaintiff had appeared.

Proceedings where defendant does not appear.

71. If at the time and place so named as aforesaid or at any continuation or adjournment of the Court or cause the defendant shall not appear or sufficiently excuse his absence or shall neglect to answer when called in Court the Judge or Judge and jury as the case may be upon due proof of service of the summons may proceed to the trial of the cause on the part of the plaintiff only and the judgment thereupon shall be as valid as if both parties had attended Provided always that the Judge in any such case at the same or any subsequent Court may set aside any judgment so given in the absence of the defendant and the execution thereupon and may grant a new trial of the cause upon such terms (if any) as to payment of costs giving security for or paying into Court debt and costs or any part thereof or such other terms as he may think fit on sufficient cause shown to him for that purpose.

Trial to be by Judge or by Judge and jury if required.

72. In all actions suits matters or proceedings brought in any County Court the Judge of such Court shall alone determine all questions as well of fact as of law and his decision shall be the judgment

judgment of the Court unless jurors shall be summoned as hereinafter provided and in all actions where the amount claimed shall exceed twenty pounds it shall be lawful for the plaintiff or defendant (and in suits brought for the recovery of unliquidated damages for the Judge) to require a jury to try the said action and in case of either party requiring such jury such party shall give to the registrar of the Court or leave at his office such notice thereof as shall be directed by the rules framed or to be framed as hereinafter mentioned and shall also cause notice thereof to be communicated to the other party to the said action either by post or by causing the same to be delivered at his usual or last known place of abode or business and it shall not be necessary for either party to prove on the trial that such notice was communicated to the other party but if the same shall not have been so communicated the party in default shall pay to the other all costs occasioned by such omission and the same shall be added or deducted from the amount which would otherwise be recovered in such suit.

73. Notice that jurors are required shall be given to the opposite party three days before the return day of the summons and to the registrar ten days before such return day and when the plaintiff requires a jury to try the action he may insert on the summons the words "For trial by a jury" and in that case no further notice to the defendant shall be necessary when the defendant requires a jury to try the action he may insert on the notice of defence or special defence (if any) the words "For trial by a jury" and in that case no further notice to the plaintiff shall be necessary.

Jurors when required how notice to be given.

74. In any case when no demand of a jury has been made and the Judge on application or otherwise thinks the cause proper to be tried by a jury he shall direct the said cause to be placed in the list of jury cases and it shall be tried by a jury accordingly but when the Judge of his own motion shall have required any cause to be tried by a jury the jurors' fee is to be added to the costs of the successful party and the Judge may in all cases in which he is authorized to require a jury give general instructions (in writing under his hand) to the registrar to issue a precept for a jury in any description of action which he may think fit to particularise and in that case the registrar shall after the summons is filed with him as served issue a jury precept accordingly.

Judge may direct trial by jurors.

75. The provisions of the Acts of Council eleventh Victoria number twenty fifth Victoria number three eighteenth Victoria number eighteen the "Jury Laws Amendment Act of 1874" and the "Jury Laws Amendment Act of 1876" shall extend and apply so far as may be necessary to all cities towns and places at which County Courts shall be directed to be holden under this Act and whenever a jury shall have been required to try any action in any County Court the registrar of such Court shall issue such precepts and do all such things as by any Act now or hereinafter to be in force is or shall be directed to be done by the proper officer of the Supreme Court for summoning a special jury of four persons under the said recited Acts of Council in trials in the Supreme Court and a like fee of two pounds shall be paid at the time of giving said notice by the party requiring the cause to be tried by a jury before such party shall be entitled to have such jury summoned.

Jury Acts 11 Vic. No. 20 15 Vic. No. 3 18 Vic. No. 18 and Amendment Acts of 1874 and 1876 so far as necessary to apply.

Notice to summon jurors.

Jurors' fee to be prepaid.

76. Whenever a jury shall have been required to try any action four jurors only shall be impanelled and sworn and shall sit apart from the Judge in like manner as a jury in the Supreme Court and the verdict of a majority of such jurors shall be received in the same manner as an unanimous verdict but where the jury shall have remained six or more hours in deliberation and the majority shall not agree as to the verdict to be given such jury may be discharged by the

Verdict of jurors.

the Court from giving any verdict and the cause set down for re-hearing at such time as the Judge may appoint with a jury if either of the parties wish a jury otherwise without a jury. When a verdict is given judgment shall be entered in accordance with the verdict subject to the provisions of reservation of judgment new trials and nonsuit herein contained.

Court may award costs where cause struck out for want of jurisdiction.

77. Whenever any action or suit is brought in a County Court which the Court has no jurisdiction to try the Judge shall order the cause to be struck out (unless the parties consent to the Court having jurisdiction to try the same) and shall have power to award costs in the same manner and to the same extent and recoverable in the same manner as if the Court had jurisdiction in the matter of such plaintiff and the plaintiff had not appealed or had appeared and failed to prove his demand.

#### *Judgment and New Trial.*

Judgments to be final.

78. Every judgment of any County Court and the time (if any) limited for satisfying the same shall be entered in the said register in the proper column for that purpose and no other record thereof shall be necessary and every such judgment except as herein provided shall be final and conclusive between the parties. But the Judge shall have power to nonsuit the plaintiff in every case in which satisfactory proof shall not be given to him entitling either the plaintiff or defendant to the verdict of the jury or to the judgment of the Court and shall also in every case whatever have the power and as often as he shall think fit to order a new trial to be had upon such terms as he shall think reasonable and in the meantime to stay the proceedings.

Nonsuit or new trial.

Cross judgments to be set off.

79. If there shall be cross judgments between the parties execution shall be taken out by that party only who shall have obtained judgment for the larger sum and for so much only as shall remain after deducting the smaller sum and satisfaction for the remainder shall be entered as well as satisfaction on the judgment for the smaller sum and if both sums shall be equal satisfaction shall be entered upon both judgments.

#### *Execution and Interpleader.*

Judge may order debt to be paid by instalments.

80. The Judge of any such Court may if he shall think fit order that the amount of any judgment recovered in such Court shall be paid by the person liable to pay the same by instalments together with interest on such judgment debt at such rate as the Judge shall direct not exceeding eight per cent. per annum at such times in such sums and upon such terms as to giving security or otherwise as he may determine. Provided that upon the breach of any such order execution for the whole of the amount remaining unpaid at the time of such breach may forthwith issue as if such order had not been made or for such portion thereof as the Judge shall order either at the time of making the original order or at any subsequent time under the seal of the Court.

Execution.

81. In any case where an order decision judgment or adjudication for the payment of money shall be made by any County Court or Judge thereof it shall and may be lawful for the Registrar of the said Court on the application of the party in whose favour such order decision judgment or adjudication has been made to issue a writ of *feri facias* which writ shall be directed to the bailiff of the said Court in the form contained in the Fourth Schedule to this Act.

Fourth Schedule.  
Execution against land.

82. It shall be lawful for the Registrar of every County Court by himself or his deputies to be by him appointed and duly authorized under

under his hand and seal and for whose acts he shall be accountable during his continuance in such office and their employment by him to seize and take under any writ of execution whereby he is directed to levy any sum of money and to cause to be sold all and singular the lands tenements and hereditaments of or to which the person named in the said writ is or may be seized or entitled or which he can either at law or in equity assign or dispose of.

83. In case of any sale by the said Registrar by himself or his deputy of the right title and interest of any person of to or in any lands or hereditaments the said Registrar is hereby required to execute a proper deed of bargain and sale thereof to the purchaser which deed of bargain and sale shall operate and be effectual as a conveyance of the estate right title and interest of such person. Provided nevertheless that no such deed of bargain and sale shall so operate and be effectual as aforesaid until the same shall have been duly registered in the proper office for the registration of deeds and be indexed in the index-book thereof in the name of the person whose interest in such lands and hereditaments is intended to be thereby conveyed. Transfer of title.

84. It shall be lawful for the bailiff of any of the said Courts or the officers appointed to assist him as aforesaid duly authorized under his hand and seal to seize and take under any writ of execution whereby he is directed to levy any sum of money and to cause to be sold all and singular the goods chattels and other personal property of or to which the person named in the said writ is or may be possessed or entitled or which he can either at law or in equity assign or dispose of Provided that the wearing apparel bedding tools and implements of trade of the defendant and his family to the value of ten pounds in the whole shall be protected from seizure. Bailiff to seize personal property.

85. No writ of execution under this Act shall bind any lands unless registered in the proper office for the registration of deeds with the Registrar who shall duly register the same in a book to be kept for that purpose. Exceptions not to bind land unless registered.

86. The provisions of the first section of the Act of Council thirteenth Victoria number thirteen enabling bailiffs of the Courts of Requests to sell by auction without a license shall apply to Registrars and bailiffs of County Courts held under this Act and to their assistants. Registrars and bailiffs may sell by auction without license.

87. The precise time when any application shall be made to a Registrar to issue a warrant or writ of execution against the lands or goods of a party shall be entered by him in the execution-book and on such warrant or writ and when more than one such warrant or writ shall be delivered to any Registrar or bailiff to be executed he shall execute them in the order of the times so entered. Priority of executions issuing out of County Court.

88. When a writ against the lands or goods of a party to any suit has issued out of the Supreme Court and a warrant or writ of execution against the lands or goods of the same party has issued out of any County Court the right to the property seized shall be determined by the priority of the time of the delivery of the writ so issued out of the Supreme Court as aforesaid to the Sheriff to be executed or of the application to the Registrar for the issue from such County Court of the warrant or writ of execution and the Sheriff shall on demand inform the Registrar of the precise time of such delivery of the writ so issued out of the Supreme Court as aforesaid and the Registrar on demand shall inform the Sheriff or any Sheriff's officer of the precise time of the application to such Registrar for the issue from such County Court of the warrant or writ of execution and any warrant granted in pursuance of any writ of execution issued out of the Supreme Court or any County Court and the indorsement thereon and any warrant issued by the Registrar of any County Court authorizing

authorizing the bailiff of such County Court to give possession of premises as hereinbefore mentioned shall respectively be sufficient justification to any Registrar bailiff or Sheriff's officer acting thereon.

When goods seized under process of County Court landlord may claim certain rent in arrear.

89. The landlord of any tenement in which any such goods shall be taken may claim the rent thereof at any time within five clear days from the date of such taking or before the removal of the goods by delivering to the bailiff or officer making the levy any writing signed by himself or his agent which shall state the amount of rent claimed to be in arrear and the time for and in respect of which such rent is due and if such claim be made the bailiff or officer making the levy shall in addition thereto distrain for the rent so claimed and the costs of such distress and shall not within five days next after such distress sell any part of the goods taken unless they be of a perishable nature or upon the request in writing of the party whose goods shall have been taken and the bailiff shall afterwards sell such of the goods under the execution and distress as shall satisfy first the costs of and incident to the sale next the claim of such landlord not exceeding the rent of four weeks when the tenement is let by the week the rent of two terms of payment when the tenement is let for any other term less than a year and the rent of six months in any other case and lastly the amount for which the warrant is issued and if any replevin be made of the goods so taken the bailiff shall notwithstanding sell such portion thereof as will satisfy the costs of and incident to the sale under the execution and the amount for which the warrant is issued and in either event the overplus of the sale (if any) and the residue of the goods shall be returned to the defendant and the poundage of the bailiff and broker for appraisalment and sale under such distress shall be the same as would have been payable if the distress had been an execution of the County Court and no other fees shall be demanded or taken in respect thereof.

Interpleader.

90. If any claim shall be made to or in respect of any goods or chattels taken in execution under the process of any County Court or in respect of the proceeds or value thereof by any person not being the party against whom such process has issued it shall be lawful for the Registrar of such Court upon application of the officer charged with the execution of such process as well before as after any action brought against such officer to enter an interpleader plaint and to issue a summons thereon calling before the said Court as well the party issuing such process as the party making such claim and thereupon any action which shall have been brought in the Supreme Court or any County Court in respect of such claim shall be stayed and the Court in which such action shall have been brought or any Judge thereof on proof of the issue of such summons and that the goods and chattels were so taken in execution may order the party bringing such action to pay the costs of all proceedings had upon such action after the issue of such summons out of the County Court and the Judge of the County Court shall adjudicate upon such claim and make such order between the parties in respect thereof and of the costs of the proceedings as to him shall seem fit and such order shall be deemed a judgment of the Court and be enforced in like manner as a judgment in any other suit brought in such Court.

Execution against the person.

91. Whenever any sum of money shall have been recovered by the judgment of the County Court and the judgment creditor shall show to the satisfaction of a Judge of the Supreme Court or of any County Court that such sum of money has been recovered, and that the debt was fraudulently contracted or that the judgment debtor conceals any goods chattels or valuable securities or that he has any income salary or means whereby in the opinion of such Judge he can satisfy such judgment or any part thereof or is about to leave the Colony or  
to

to remove any of his property with intent to evade payment of the said judgment debt such Judge may authorize the registrar of the said County Court to issue a writ of *capias ad satisfaciendum* in the form in the Fifth Schedule to this Act and any bailiff of the County Court and the keeper of any gaol to whom such writ or any warrant in pursuance thereof is directed shall respectively execute and obey the same respectively and all constables and other peace officers within their several jurisdictions shall aid and assist in the execution thereof Provided nevertheless that it shall be lawful for the Judge who caused such writ to be issued at any time by order under his hand (if under the special circumstances of any particular case he shall think fit to do so) to direct that any person in custody under such writ shall be forthwith discharged and he shall be forthwith discharged accordingly.

Fifth Schedule.

Discharge in discretion of Judge.

92. Any person arrested or imprisoned under this Act by virtue of any such warrant as last aforesaid shall be entitled to his discharge on payment of the amount named in such warrant as due for such judgment and the costs of obtaining and executing such warrant and the bailiff making the arrest and the keeper of the gaol to whom the warrant is directed are hereby empowered and required to receive the amount so paid and to transmit the same to the registrar of the County Court in which the judgment was recovered.

Discharge on payment of debt and costs.

93. If it shall appear to the satisfaction of the Judge of any Court in which a judgment shall have been recovered that the person liable to satisfy such judgment is unable from sickness or other temporary disability to pay the amount of such judgment or of any instalment thereof ordered to be paid as hereinbefore provided such Judge may stay the execution of such judgment whether a warrant of execution shall have issued or not for such time and upon such terms as to such Judge shall seem fit and may from time to time continue such stay of execution until such disability has ceased.

Execution may be stayed in certain cases.

94. The provisions and enactments contained in sections twenty-six twenty-seven twenty-eight twenty-nine thirty thirty-one thirty-two and thirty-three of the Common Law Procedure Act of 1857 shall be and the same are hereby extended to the County Courts and Judges thereof and shall be read as applicable to the same *mutatis mutandis* and all powers and authorities given by the said sections of the said Act to the Supreme Court or to any Judge thereof or to any officer thereof shall equally apply to and be exercisable by every County Court and by every Judge thereof and by every officer thereof in like manner as the same apply to and are exercisable by the Supreme Court and every Judge thereof and every officer thereof and as though the County Court and Judges and officers thereof had been named in the said Act.

Attachment of debts and orders to charge 20 Vic. No. 31.

95. All sums of money directed to be paid by any order of a Court holden under this Act or of any Judge thereof shall and may be recovered and payment thereof enforced in the like manner in all respects as if the same were recovered by the judgment of any such Court.

Mode of enforcing orders.

96. Any party to a cause suit matter or proceeding may be summoned before the Judge of the Court at such place as may be named in the said summons to show cause why the application contained or set out in the summons should not be granted.

Summons of parties before Judge in chambers.

*Replevin.*

97. So much of the Act of Council fifteenth Victoria number eleven as limits the action of replevin where the rent for or in respect of which any distress shall be or ought to have been made shall not exceed thirty pounds in amount and value to the Supreme Court is hereby repealed and any action of replevin where the goods seized do not exceed in value five hundred pounds may be commenced heard and

Replevin jurisdiction

Sixth Schedule.

and determined in the County Court nearest to the place in which the goods shall have been distrained and when any such action shall have been so commenced it shall be lawful for the plaintiff therein to obtain from the registrar of such Court a warrant to be called a warrant of replevin directed to the bailiff of the Court requiring him to replevy the said goods and chattels and the said registrar is hereby authorised to issue such warrant which shall be in the form contained in the Sixth Schedule to this Act and shall have the same effect as a writ of replevin issued from the Supreme Court and the bailiff shall in all cases in which in an action of replevin in the Supreme Court the Sheriff would be required to do so upon good security (by the bond of the plaintiff and two responsible persons as sureties conditioned to prosecute the suit with effect and without delay) being given to him or upon a deposit of the value of the goods distrained together with the sum of ten pounds execute such warrant and return the said warrant with a correct and proper statement endorsed thereon of the manner in which the same shall have been executed or the cause why the same has not been executed to the said Court within a reasonable time next after such warrant shall have been delivered to him. Provided always that the value of the property so distrained shall be ascertained by the said bailiff in like manner as the value of goods distrained is now ascertained by the Sheriff in taking security in replevin and that the said bonds shall be assignable under like circumstances and in like manner and shall be available to the assignee thereof as is by law now authorised and directed with reference to bonds in replevin and such action of replevin in the County Court shall be commenced proceeded in and the decision therein enforced in the mode prescribed by the general rules to be framed under this Act.

*Ejectment.*

Ejectment jurisdiction.

98. The County Courts shall have jurisdiction to hear and determine according to the provisions of this Act all actions of ejectment to recover possession of any lands tenements and hereditaments where the value thereof shall not exceed one hundred pounds by the year or where the rent exclusive of ground rent (if any) payable in respect thereof shall not exceed one hundred pounds by the year and it shall not be necessary for the plaintiff to aver or prove the value of such lands tenements or hereditaments.

Certain provisions of "Common Law Procedure Act of 1853" to be read as part of this Act.

99. The provisions and enactments contained in sections one hundred and nineteen one hundred and twenty one hundred and twenty-one one hundred and twenty-two one hundred and twenty-three one hundred and twenty-four one hundred and twenty-five one hundred and twenty-six one hundred and twenty-seven one hundred and twenty-eight one hundred and twenty-nine one hundred and thirty one hundred and thirty-one one hundred and thirty-two one hundred and thirty-three one hundred and thirty-four one hundred and thirty-five one hundred and thirty-six one hundred and thirty-seven one hundred and thirty-eight one hundred and thirty-nine one hundred and forty one hundred and forty-one one hundred and forty-two one hundred and forty-three one hundred and forty-four one hundred and forty-five one hundred and forty-six one hundred and forty-seven one hundred and forty-eight one hundred and forty-nine one hundred and fifty one hundred and fifty-one one hundred and fifty-two one hundred and fifty-three one hundred and fifty-four one hundred and fifty-five one hundred and fifty-six one hundred and fifty-seven one hundred and fifty-eight one hundred and fifty-nine one hundred and sixty one hundred and sixty-one one hundred and sixty-two one hundred and sixty-three one hundred and sixty-four one hundred and sixty-five one hundred and sixty-six one hundred and sixty-seven one hundred and sixty-

sixty-eight one hundred and sixty-nine one hundred and seventy and one hundred and seventy-one of the "Common Law Procedure Act of 1853" and all the Schedules to the said Act mentioned in such sections shall be taken and read as part of this Act shall be and the same are hereby extended to actions of ejectment brought in the County Court under this Act and shall be read as applicable to the same *mutatis mutandis*. Provided that actions of ejectment in County Courts shall be commenced by plaint and provided also that the procedure prescribed by the sections of the "Common Law Procedure Act of 1853" hereby extended to County Courts may be varied and altered and other process in whole or in part substituted from time to time by the general rules to be framed as hereinafter mentioned.

### PART III.

#### EQUITABLE JURISDICTION AND PRACTICE.

##### *Jurisdiction.*

100. The County Courts shall have the jurisdiction and exercise all the powers and authority of the Supreme Court in the suits or matters hereinafter mentioned (that is to say) :—

Suits and matters in which County Courts shall have jurisdiction.

- (I.) In all suits by creditors legatees (whether specific pecuniary or residuary) devisees (whether in trust or otherwise) heirs-at-law or next of kin in which the personal or real or personal and real estate against or for an account or administration of which the demand may be made shall not exceed in amount or value the sum of five hundred pounds.
- (II.) In all suits for the execution of trusts in which the trust estate or fund shall not exceed in amount or value the sum of five hundred pounds.
- (III.) In all suits for foreclosure or redemption or for enforcing any charge or lien where the mortgage charge or lien shall not exceed in amount the sum of five hundred pounds.
- (IV.) In all suits for specific performance of or for the reforming delivering up or cancelling of any agreement for the sale purchase or lease of any property where in the case of sale or purchase the purchase money or in the case of a lease the value of the property shall not exceed the sum of five hundred pounds.
- (V.) In all proceedings under the "Trustee Act of 1852" the seventeenth Victoria number four twenty-first Victoria number seven and "Trust Property Act of 1862" in which the trust estate or fund to which the proceeding relates shall not exceed in amount or value the sum of five hundred pounds.
- (VI.) In all proceedings relating to the maintenance or advancement or the appointment of a guardian to the property or person of infants in which the property of the infant shall not exceed in amount or value the sum of five hundred pounds.
- (VII.) In all suits for the dissolution or winding up of any partnership joint stock or other company in which the whole property stock and credits of such partnership or joint stock or other company created by or registered under any Act of Parliament shall not exceed in amount or value the sum of five hundred pounds.

(VIII.) In all proceedings for orders in the nature of injunctions where the same are requisite for granting relief in any matter in which jurisdiction is given by this Act to the County Court or for stay of proceedings at law to recover any debt provable under a decree for the administration of an estate made by the Court to which the application for the injunction to stay proceedings is made.

In matters under the equity jurisdiction of this Act Judge and officers of the County Courts to have the powers and authorities of the Judges and officers of the Supreme Court.

101. In all such suits or matters the Judge of a County Court shall in addition to the powers and authorities conferred upon him by this Act have all the powers and authorities for the purposes of this Act of the Judges of the Supreme Court and each and every one of them and the registrars bailiffs and other officers of the County Court shall in all matters in which the County Court has jurisdiction under this Act discharge any duties which an officer of the Supreme Court can discharge either under the order of a Judge of such Court or the practice thereof and all officers of the County Courts shall in discharging such duties conform to any rules or orders to be framed as hereinafter provided.

Power to a Judge of Supreme Court to order transfer of suits from County Court to Supreme Court.

102. Any one of the Judges of the Supreme Court on the application at chambers of any party to any suit or matter pending under this Act shall have power then and there or if he shall think fit after hearing a summons served upon the other party or parties to transfer the same to the Supreme Court at the equity side thereof upon such terms (if any) as to security for costs or otherwise as he may think fit.

Suits in equity may be transferred from Supreme Court to County Courts.

103. Where any suit or proceeding shall be pending upon the equity side of the Supreme Court which suit or proceeding might have been commenced in a County Court it shall be lawful for any of the parties thereto to apply at chambers to any Judge of the Supreme Court to have the same transferred to the County Court or one of the County Courts in which the same might have been commenced and such Judge shall have power upon such application or without such application if he shall see fit to make an order for such transfer and thereupon such suit or proceeding shall be carried on in the County Court to which the same shall be ordered to be transferred and the parties thereto shall have the same right of appeal that they would have had had the suit or proceeding been commenced in a County Court.

Costs in equity suits when not to be greater in Supreme Court than in County Court.

104. If any suit matter or proceeding under the equity jurisdiction of this Act be taken or instituted in the Supreme Court which could have been taken or instituted in the County Court no greater amount of costs including fees of Court and all expenses shall be allowed to the party or parties taking or instituting such suit matter or proceeding in said Supreme Court than such party or parties would be allowed for such suit matter or proceeding if same had been taken or instituted in the County Court and the proper officer of said Supreme Court in the taxing of the costs of such suit matter or proceeding so taken or instituted is hereby directed and required to have regard to the scale of fees payable in the County Court.

Judge may order certain legacies to be paid to registrar.

105. Any legacy or sum of money to which any person who is an infant or absent beyond seas may be found or declared entitled by any County Court in any suit or matter under this Act may be ordered by the Court to be paid to the registrar of the Court and if default be made in such payment the Judge may direct a warrant of execution to issue to the bailiff of the Court who by such warrant shall be empowered to levy or cause to be levied by distress and sale of the goods and chattels of the person who shall have been ordered to make the said payment a sum of money equal in amount to the sum which he was ordered to pay to said registrar and to the costs incurred by reason

reason of such default and the sum so levied shall be paid to and be receivable by the said registrar under the direction of the Court and all amounts so paid to said registrar with any dividends thereon shall be paid or transferred to the person or persons entitled thereto or otherwise applied for his or their benefit on application to the Judge of said Court.

106. Any moneys annuities stocks or securities vested in any persons as trustees executors administrators or otherwise upon trusts within the meaning of the "Trustee Act of 1852" the seventeenth Victoria number four twenty-one Victoria number seven and the "Trust Property Act of 1862" where the same does not exceed in amount or value the sum of five hundred pounds upon the filing by such trustees or other persons or by the major part of them to or with the registrar of a County Court nearest to which they or any of them shall reside an affidavit shortly describing the instrument creating the trust according to the best of their knowledge may in the case of money be paid into a post office savings bank established in the town in which the County Court is held or in any chartered or incorporated banking company in the said town to be named by the registrar to the account and in the name of the registrar of the Court in the matter of the particular trust (describing the same by the names of the parties as accurately as may be for the purpose of distinguishing it) in trust to attend the order of the said Court and upon such persons filing with the registrar the receipt or document given to them by the officer of the said bank the registrar shall record the same and give to them an acknowledgment in such form as may be directed by any rule of practice which acknowledgment shall be a sufficient discharge to such persons for the money so paid and in the case of stocks or securities may be transferred or deposited into or in the name of the registrar of such Court in the matter of the particular trust (describing the same as before directed in the case of money) in trust to attend the order of the Court and the certificate of the proper officer of the transfer or deposit of such stocks or securities shall be a sufficient discharge to such person for the stocks or securities so transferred or deposited and any order made by the Court shall fully protect and indemnify all persons acting under or in pursuance of such order.

Trustees may pay trust moneys or transfer stock into Court.

107. Whenever it is required that a jury should be summoned for the trial of any issue of fact arising out of the equity jurisdiction given to the County Courts by this Act it shall be lawful for the Judge to direct any such issue to be tried and such jury shall be summoned from the list of jurors under Part II of this Act and all the previous enactments relating to the summoning impanelling and swearing of jurors in a County Court and to the number of jurors and their verdict shall apply to all jurors summoned under the equitable jurisdiction of this Act but the Judge shall or shall not act upon such verdict as he shall think right according to the practice of the Supreme Court in its equitable jurisdiction and the duties and obligations of and upon all jurors suitors and witnesses and their liability to penalty and punishment shall in any proceeding under the equitable jurisdiction be the same as those created authorized and imposed by the previous enactments.

Provisions of County Court as to juries suitors and witnesses extended to suitors and witnesses in the equity jurisdiction under this Act.

108. Any suit or proceeding under Part III of this Act may be commenced instituted and prosecuted in such manner and with such forms as shall from time to time be provided in the general rules and forms to be framed as hereinafter provided.

Mode of procedure in equity.

109. For the due execution of any judgment decree or order made under the authority of Part III of this Act or of the rules and orders framed or to be framed as hereinafter provided the Court shall have power to order and the registrar upon such order shall have authority

Power to enforce judgments in County Courts of Equity.

authority to do all such acts as he shall be thereby directed and to seal and issue and the bailiff to execute any writ or warrant of possession writ or warrant of execution or attachment or other process of execution for carrying into effect any judgment decree or order of the said Court and such writs warrants and processes shall be in the form and be executed at the time and in the manner to be set forth in the rules and orders to be framed as hereinafter provided.

When amount of subject matter of suit exceeds limit of the jurisdiction of County Court suit may be remitted to the Supreme Court.

110. If during the progress of any suit or matter it shall be made to appear to the Court that the subject matter exceeds the limit in point of amount to which the jurisdiction of the County Court is hereby limited it shall not affect the validity of any order or decree already made but it shall be the duty of the Court to direct the said suit or matter to be transferred to the Supreme Court and thereupon the said suit or matter shall proceed in such Supreme Court as a Judge of said Supreme Court may by order direct and such Judge shall have power to regulate the whole of the procedure in the said suit or matter when so transferred. Provided always that it shall be lawful for any party to apply to such Judge at chambers for an order authorizing and directing the suit or matter to be carried on and prosecuted in the County Court notwithstanding such excess in the amount of the limit to which jurisdiction in the matter is hereby given to the County Courts and the Judge if he shall deem it right to summon the other parties or any of them to appear before him for that purpose after hearing such parties or on default of the appearance of all or any of them shall have full power to make such order.

In what Courts proceedings shall be taken.

111. With respect to the Court in which proceedings in equity shall be taken :—

- (I.) Proceedings under this Act which relate to the recovery or sale of any mortgage charge or lien on lands tenements or hereditaments shall be taken in that County Court which is nearest to the place where the lands tenements or hereditaments or any part thereof are situate.
- (II.) Proceedings under the "Trustee Act of 1852" the seventeenth Victoria number four the twenty-first Victoria number seven and the "Trust Property Act of 1862" shall be taken in the County Court nearest to the place where the persons making the application or any of them reside or resides.
- (III.) Proceedings for the administration of the assets of a deceased person shall be taken in the County Court nearest to the place where the deceased person had his last place of abode in this Colony or in which the executors or administrators or any of them shall have their or his place of abode.
- (IV.) Proceedings in partnership shall be taken in the County Court nearest to the place where the partnership business was or is carried on.
- (V.) Proceedings for specific performance of or for the reforming delivery up or cancelling of any agreement shall be taken in the County Court nearest to the place where the defendants or any one of them reside or resides or carry on or carries on business.
- (VI.) Proceedings in any suit or other matter under the equity jurisdiction of this Act which is not otherwise provided for shall be taken or instituted in the County Court nearest to the place where the defendants or any or either of them shall reside or carry on business.

Removal of causes for further hearing and taking accounts.

112. In addition to the powers conferred by section six of this Act of transferring a cause from one County Court to another County Court it shall be lawful for the Judge of any County Court in any case under Part III of this Act in which he shall see fit and at any stage of

of the cause to direct that the hearing or further hearing or the taking of accounts or all or any further proceedings in such cause shall be heard and taken in any other County Court of which he is a Judge and the further hearing or taking of accounts or such further proceedings shall be heard and taken in such last-mentioned Court accordingly and when the step so directed to be taken in such last-mentioned Court shall have been taken the Judge may either direct the cause to be proceeded with to its termination in such Court or to be remitted to such original Court and the final decree may be entered and all proceedings for enforcing the same may be taken either in the Court in which such cause was commenced or in the Court in which the final decree was pronounced subject to the general rules to be made as hereinafter provided.

PART IV.

PROBATE AND ADMINISTRATION JURISDICTION.

113. Where it appears to the Judge of a County Court by affidavit in the form to be provided by the rules to be made as hereinafter provided that the estate in respect of which probate or letters of or rule for administration are to be or have been granted exclusive of what the deceased may have been possessed of or entitled to as a trustee and not beneficially but without deducting anything on account of the debts due and owing from the deceased was at the time of his death under the value of three hundred pounds the Judge of the County Court holden nearest to the place in which the deceased had at the time of his or her death a fixed place of abode or in which any portion of the property of the deceased may be or in which the executors or persons seeking letters of or rule for administration or any of them shall have a fixed place of abode shall have and exercise the like jurisdiction powers and authorities and perform the same duties in respect of questions as to the estate and effects of such deceased person and as to the grant or revocation of probate of the will or letters of or rule for administration of the estate and effects of such deceased person and as to the disposition and accounting for the estate of such deceased person as the Supreme Court in this Colony or any of the Judges thereof has or can exercise or perform And all orders and decrees in such matters made by a Judge of a County Court shall have the same force and effect as though such orders or decrees were made by the Supreme Court or any Judge thereof.

Judge of County Court to have jurisdiction in probate and administration in estates not exceeding three hundred pounds.

114. On an order or a decree being made by a Judge of a County Court for the grant or revocation of a probate or letters of or rule for administration the registrar of the County Court shall transmit to the Master in Equity a certificate under the seal of the County Court of such order or decree having been made together with the original will which shall thereupon be filed and remain of record in the office of the said master And thereupon on the application to the Master in Equity either in person or by attorney of the party or parties in favour of whom such order or decree shall have been made or by the registrar of the County Court on their behalf a probate or administration in compliance with such decree shall be issued by the said Master in Equity in like manner as upon a decree or order of the Supreme Court or a Judge thereof in its ecclesiastical jurisdiction Or as the case may require the probate or letters of or rule for administration theretofore granted shall be recalled or varied by the said Master in Equity according to the effect of such decree or order in the same manner as if the said decree had been made by the Supreme Court in its ecclesiastical jurisdiction.

Registrar of County Courts to transmit decree to Master in Equity.

Power of Judge of County Court extended to probate jurisdiction.

115. The Judge of any County Court before whom any disputed question shall be raised relating to matters and causes testamentary under this Act shall subject to the rules and orders under this Act have in addition to the powers specially given in this Part of the Act all the jurisdiction power and authority to decide the same and enforce judgment therein and to enforce orders in relation thereto as if the same had been an ordinary action in the County Court.

When amount exceeds jurisdiction County Court may remit to Supreme Court.

116. The affidavit as to the place of abode and state of the property of a testator or intestate or as to the fixed place of abode of any executor or person seeking letters of or rule for administration which is to give jurisdiction to the Judge of a County Court under the previous provisions shall except as hereinafter provided be conclusive for the purpose of authorising the exercise of such jurisdiction and the grant or revocation of probate or administration and of all other things done in compliance with the decree or order of such Judge and no such grant of probate or administration shall be liable to be recalled revoked or otherwise impeached by reason that the Court of such Judge was not the nearest Court to the fixed place of abode of the testator or intestate at the time of his death or of the executor or person applying for letters of or rule for administration or by reason that the personal estate sworn to be under the value of three hundred pounds did in fact amount to or exceed that value. Provided that where it shall be shown to the Judge of a County Court before whom any matter is pending under this Act that the place of abode or state of the property of the testator or intestate in respect of whose will or estate he may have been applied to for grant or revocation of probate or administration or place of abode of the executor or of the person seeking letters of or rule for administration has not been correctly stated in the affidavit and if correctly stated would not have authorised him to exercise such jurisdiction he shall direct the suit matter or proceeding to be transferred to the Supreme Court in its ecclesiastical jurisdiction and thereupon such suit or matter shall proceed in such Supreme Court in its ecclesiastical jurisdiction as a Judge of the said Supreme Court may by order direct and such Judge shall have power to regulate the whole of the procedure in the said suit or matter when transferred. Provided always that it shall be lawful for any party to apply to such Judge at chambers for an order authorising and directing the suit or matter to be carried on and prosecuted in the County Court notwithstanding such excess in the amount of the limit to which jurisdiction in the matter is hereby given to the County Courts.

Appeal.

117. Any person who shall be dissatisfied with the determination of the Judge of the County Court in point of law or upon the admission or rejection of any evidence in any matter or cause under Part IV of this Act may appeal from the same to the Supreme Court in such and the same manner and subject to the same rules as any person may appeal from any decree decretal order or any other order of any one of the Judges of the Supreme Court sitting in equity or to hear and determine any suit or matter in the ecclesiastical jurisdiction of the Supreme Court and the decision of such last-mentioned Court shall be final.

Not obligatory to apply for probate in County Court.

118. It shall not be obligatory on any person to apply for probate or administration to any County Court but in every case such application may be made to the Supreme Court in its ecclesiastical jurisdiction as heretofore. Provided that where in any matter arising out of such jurisdiction it is shown to the said Court or to a Judge thereof that the state of the property and place of abode of the deceased was such as to give jurisdiction to the Judge of the County Court such Supreme Court or a Judge thereof may send the cause to such County Court and the Judge of the County Court shall proceed therein as if such application and cause had been made to and arisen in his Court in the first instance.

## PART V.

*Amendment of Variances.*

119. The Judge of any such Court may at all times whether before or during the trial of any action suit or proceeding amend all defects and errors in any proceeding whether there is anything in writing to amend by or not and whether the defect or error be that of the party applying to amend or not and may amend the plaint or summons or other proceeding as to all variance between the plaint or summons or other proceeding and the evidence adduced in support thereof and all such amendments may be made with or without costs and upon such terms as to postponing or adjourning the trial or otherwise as to the Judge shall seem fit and all such amendments as may be necessary for the purpose of determining in the existing action suit or proceeding the real question in controversy between the parties shall be so made.

Amendment of  
variances.

*Appeal.*

120. Any party to any action suit matter or proceeding in any County Court other than suits matters or proceedings under Part IV of this Act for which an appeal is hereinbefore provided who shall be dissatisfied with any judgment decree or order of the said Court or with any order of a Judge thereof not being an order of commitment made by such Court or Judge may appeal from the same to the Supreme Court notwithstanding such cause suit matter or proceeding may have been brought in the said first-mentioned Court by consent as hereinbefore directed. Provided he shall within seven days after such determination or direction give notice in writing of such appeal together with the grounds thereof to the other party or his attorney and also give security (to be approved by the registrar of the said County Court) for the costs of the appeal and the amount of the judgment or in lieu of giving such security deposit in the hands of such registrar the amount of the judgment decree or order together with ten pounds in addition to such amount to answer the costs of the appeal if such appeal be dismissed or not prosecuted within the time to be prescribed in the rules to be framed under this Act and the Supreme Court shall decide the matter of such appeal and make such order therein as shall be just and may either dismiss such appeal or reverse or vary the judgment decree or order appealed from and may direct the cause to be reheard before any Judge of the Supreme Court but shall not in any case remit the cause for rehearing before the Judge of the Court from which such appeal shall have been brought and may make such order with respect to the costs of the said appeal and of the action suit matter or proceeding in which the judgment decree or order shall have been made as such Court may think proper and such orders shall be final and every such appeal shall be in the form of a case which shall contain the plaint proceedings and evidence and shall be prepared in accordance with the rules to be framed under this Act agreed on by both parties or their attorneys or counsel and if they cannot agree the Judge shall settle the case and sign it and such case shall if it relate exclusively to any suit matter or proceeding under Part III of this Act be transmitted within the time to be fixed by the general rules to be framed under this Act by the appellant to the Master in Equity to be set down for argument before a single Judge of the Supreme Court in the same manner as a cause is set down for hearing by the said Court in its equitable jurisdiction or to be set down for argument before the full Court if a Judge of the Supreme Court upon the application of either appellant or respondent shall so direct and the decision of such single Judge

Appeal to the  
Supreme Court.

Judge

Judge or of the full Court as the case may be shall be final and if such case shall relate to any act suit matter or proceeding in any County Court other than such suits matters or proceedings under Part III of this Act or under Part IV of this Act it shall be transmitted within the time to be fixed by the general rules to be framed under this Act by the appellant to the proper officer and be set down for argument in the Supreme Court in the same manner as special cases in actions in that Court Provided always that no such appeal shall operate as a stay of proceedings unless the Judge of the County Court shall so order Provided also that nothing herein contained shall authorise any party to appeal against any decision of a County Court given upon any question as to the value of any real or personal property for the purpose of determining the question of the jurisdiction of the Court under this Act nor to appeal against the decision of a County Court on the ground that the proceedings might or should have been taken in any other County Court.

*Certiorari.*

*Certiorari.*

121. No judgment determination decree decretal or other order given or made by any Judge in any action suit cause matter or thing brought before him or pending in his Court shall be removed by writ of error writ of certiorari or otherwise but every final decision by which the merits of the case may be concluded of a Judge of a County Court given or made in any such action cause suit matter or thing before any such Court or Judge shall be subject to review by way of appeal as hereinbefore provided.

*General Rules.*

Power to make rules of practice.

122. It shall be lawful for any three of the County Court Judges from time to time and at any time to frame rules and orders for regulating the practice and proceedings in the County Court the form of cases upon appeal to the Supreme Court and for determining the time within which such appeal shall be prosecuted and by such rules to provide either a separate procedure for suits under Part II and for suits under Part III of this Act or by such rules to provide a procedure under which rights cognizable under Part II and rights cognizable under Part III may be disposed of in one and the same suit and whether such rights are asserted by the plaintiff or by the defendant or by both and to frame forms of proceeding therein and to fix the scale of fees and costs to be allowed to practitioners in the said Courts and rules and forms for keeping all registers books entries and accounts by registrars and other officers in the said Courts and for regulating the expenses to be paid to witnesses in the said Courts and from time to time to amend such rules orders and forms and such fees costs and expenses and such rules orders and forms and scales of costs and expenses or amended rules orders and forms and scales of costs and expenses certified under the hands of such Judges shall be submitted to a law officer of the Crown who if he thinks fit may publish the same as hereinafter mentioned and the rules orders and forms and scale of costs and expenses or amended rules orders and forms so published shall be laid before both Houses of Parliament within fourteen days after the day of such publication if Parliament be then sitting and if Parliament be not sitting then within fourteen days after the next meeting of Parliament and shall from the time of the said publication thereof be in force and come into operation in every County Court from a day to be named in such rules and shall be of the same force and effect as if the same had been enacted by the Legislature and shall be unimpeachable in any Court of Justice and in any

any case not provided for herein or by the said rules the general principles of practice and the rules observed in the Supreme Court may be adopted and applied with such modifications as the different constitutions of the two Courts may render necessary at the discretion of the County Court Judge before whom the proceeding is depending to all causes suits matters and proceedings in the County Courts and it shall not be necessary in any case that the facts necessary to give jurisdiction should appear by recital averment or otherwise upon any proceeding in or issuing out of any County Court.

123. In the event of rules being framed under the preceding section for the disposal of rights cognizable under Part II and Part III in one and the same suit it shall be lawful for any Court under this Act or any Judge thereof to adjudicate upon and determine in the same suit both classes of rights and whether a decision upon both classes of rights or upon one class of rights only be sought by the plaintiff or other proceeding by which the suit is instituted.

124. Every Order in Council made for the purposes of this Act and all general rules forms and scales of fees framed under the power hereinbefore contained shall be published in the Government Gazette and shall be judicially noticed by all Courts Judges and Justices.

125. Wherever in any Act or part of an Act of Parliament passed by the Legislature of New South Wales which is not repealed by this Act the words "District Court" or "District Court Judge" or "Court" (meaning District Court) or "Judge" (meaning District Court Judge) shall be used the same shall be read in such Act or part of an Act and be construed to mean County Court and County Court Judge respectively and shall be applied to this Act accordingly.

126. In order to avoid disputes as to which is the "nearest Court" within the meaning of this Act be it enacted that whenever such dispute shall arise there shall be allowed a margin of five miles and any Court established under this Act shall be deemed to be the nearest Court to any given place unless it be shown that some other such Court is nearer by at least five miles to such place than such first-mentioned Court the distance to be computed in each case along the nearest public or private road for vehicles accessible to the persons interested in the matter in question.

## PART VI.

### *Courts of Quarter Sessions.*

127. The Acts of Council tenth George fourth number seven third Victoria number ten and sixteenth Victoria number thirty-six so far as they relate to the election nomination and appointment of a chairman of Quarter Sessions shall be repealed and it shall be lawful for the Governor in Council by commission to appoint any County Court Judge to be chairman of any General or Quarter Sessions or if necessary to appoint two or more chairmen for any one such Court but in that case only one of such chairmen shall sit preside or act at one time in such Court and every such chairman shall be the sole judge at the trial of all criminal issues in such Court and in all matters relating to any information filed therein for any felony or misdemeanour and all such Courts of General and Quarter Sessions shall possess jurisdiction in respect to all crimes and misdemeanours not punishable with death anything in any law or statute to the contrary notwithstanding.

In absence of chairman deputy to be appointed.

Extended jurisdiction.

Places for holding Courts of Quarter Sessions.

Special Commission to County Court Judges to act as Judges of Supreme Court.

128. In the case of any chairman of Quarter Sessions being prevented by illness or other accident from performing his duties as such chairman at any General or Quarter Sessions it shall be lawful for the Governor in Council to appoint as a deputy chairman some person duly qualified to be a County Court Judge and every such person so appointed deputy chairman shall have the same power authority and jurisdiction as if he had been a County Court Judge.

129. It shall be lawful for the Governor in Council from time to time by proclamation or proclamations in the Government Gazette to order and direct at what cities towns and places in this Colony Courts of General and Quarter Sessions shall be holden and to alter the place for holding any such Court and to order that the holding of any such Court be discontinued and the provisions of the Acts of Council eleventh Victoria number twenty fifth Victoria number three eighteenth Victoria number eighteen the "Jury Laws Amendment Act of 1874" and the "Jury Laws Amendment Act of 1876" shall extend and apply to all Courts of General and Quarter Sessions established under this Act in like manner and to the same effect as they extend and applied to Courts of General and Quarter Sessions so named in the said recited Acts.

130. And in any case any Chairman or Deputy Chairman of Quarter Sessions shall not arrive at any such city town or place in time to open the Court or shall not actually open such Court on the day for that purpose duly appointed for the holding of such Court the subsequent holding of such Court shall not for that reason be or be taken to be illegal but the same shall or lawfully may be open and holden by the same or any other Chairman of Quarter Sessions duly appointed on any other day or days next following Provided that every such Court shall be actually opened and holden on the day so appointed except in case of unavoidable accident and that then the Court shall be opened and holden as soon afterwards as possible.

131. It shall be lawful for the Governor in Council at any time to issue a special commission to any one or more County Court Judge or Judges or to any person duly qualified to be a County Court Judge appointing him or them to act as Judge or Judges of the Supreme Court for the trial of issues civil or criminal at any Circuit Court or Court of Gaol Delivery or at remote places at which a Judge of the Supreme Court could not attend without detriment to the ordinary business of such Court and thereupon the person or persons so appointed shall at the place and for the time specified in such commission have and exercise all the powers and privileges and discharge all the duties of a Judge of the Supreme Court.

 18 \_\_\_\_\_

Y.Z.

Registrar [or Assistant Registrar] of the said Court.

PROPOSED RULES, ORDERS, &c., &c.

ORDER I.

TIME WHEN RULES COME INTO OPERATION.

The rules orders and forms now in use in District Courts and the fees and costs to practitioners and the expenses to witnesses and the rules and forms for keeping registers books entries and accounts by registrars and other officers in the said Courts shall on and from the \_\_\_\_\_ cease to be followed used charged and taken and in lieu thereof the following shall on and from such day be the rules orders and forms and the fees and costs to practitioners and the expenses to witnesses in force and to be followed used charged and taken in the County Courts.

*Interpretation.*

In these orders the following words shall have the several meanings hereby assigned to them over and above their ordinary meanings unless there be something in the subject or context repugnant to such construction viz. :—

The words "The Act" shall mean the "County Court Act 1881."

The word "party" shall mean a party to an action suit or proceeding and "person" shall mean any person whether a party to the suit or proceeding or not and the words "person" or "party" shall include a body politic or corporate.

The word "affidavit" shall include statutable affirmations and the word "sworn" shall include affirmed according to the Statute.

The word "court" shall mean the County Court having jurisdiction in the action suit or proceeding and the words "judge" and "registrar" shall respectively mean the Judge and registrar and assistant registrar of that court.

The word "practitioner" shall mean either a barrister or an attorney indifferently.

The word "attorney" shall mean attorney of the Supreme Court.

The word "minister" shall mean the Responsible Minister of the Crown in whose department "the Act" is administered.

ORDER II.

APPLICABLE TO ALL JURISDICTIONS.

*Sitting of Court and general order of Business.*

**RULE 1.**—Not later than the first fortnight in the month of December in each year the several Judges shall forward to the Minister notice of the days fixed by them for holding their several Courts throughout the following year.

**Rule 2.**—All County Courts shall be open at such hour, not earlier than nine o'clock a.m. as the Judge shall direct and close as soon after four o'clock p.m. as the cause then being heard shall be ended unless the convenience of both parties in some particular cause or causes shall induce the Judge then presiding to extend the sitting to a later period of the day.

**RULE 3.**—A separate list of causes and matters in each jurisdiction viz. common law equity and probate shall be made out by the registrar and the causes and matters in each list will be called on in the order in which they stand in the list but defended causes shall be postponed until the undefended causes in the list then before the Court have been disposed of but this rule may be varied where the convenience of suitors may seem to the Judge to render a variance of the rule desirable.

**RULE 4.**—The lists provided in the foregoing rule will be called on in the following order viz. :—

1. Common Law.
2. Equity.
3. Probate.

*Notices.*

**RULE 5.**—Where by these rules any party is required to give notice according to a form mentioned in the Schedule it shall be sufficient if the notice given complies substantially with such form.

**RULE 6.**—All letters or process sent by post by or to the officers of the Courts or by or to parties in a cause or by or to practitioners on their behalf shall be prepaid.

*Registrar's Duties.*

**RULE 7.**—The registrar shall attend the sitting of the Court and shall also attend the Judge when sitting in chambers unless his attendance be excused by the Judge.

RULE

*County Court.*

39

**RULE 8.**—The registrar shall have the custody of the seal of the Court and in addition to the register shall keep a suitors' cash-book suitors' fund and fee book.

**RULE 9.**—The register shall be kept in three parts Part I Common Law Part II Equity Part III Probate And all costs shall be entered in the part of the register in which the cause or proceeding is classed.

**RULE 10.**—The registrar shall in the suitors' cash-book enter all moneys other than fees of Court payable to the Crown or to the bailiff received from or on behalf of suitors and all moneys paid to or on behalf of suitors and such book shall be kept in such a manner that at the end of the first week in each month the balance of suitors' moneys in Court shall clearly appear.

**RULE 11.**—The registrar shall in the suitors' fund book enter all moneys other than fees of Court payable to the Crown or to the bailiff received from or on behalf of the suitors and all moneys paid to or on behalf of the suitors in each cause.

**RULE 12.**—The registrar shall enter in the fee book all fees of Court including bailiff's fees and all fines which he shall receive and the disposal thereof.

**RULE 13.**—The registrar shall enter in the register in the part in which the cause matter or proceeding is classed all notices sent by him and all notices received by him and notices so sent and received shall be entered by him on the same day on which the same are sent and received.

*Bailiff's Duties.*

**RULE 14.**—Every bailiff shall use all despatch in the execution of warrants placed in his hands and shall keep a book to be called the warrant book in which he shall enter every warrant which he has been required to execute and shall from time to time state therein what he shall have done under each warrant and if the same be not executed within one calendar month from the day of its delivery to him why it was not executed and shall at all reasonable times give to a suitor or to the practitioner engaged on his behalf every information that he may reasonably require as to the execution or non-execution of any warrants which have been issued at his instance.

**RULE 15.**—Every bailiff having or receiving any money by virtue of any process issuing out of the Court of which he is bailiff or by virtue of process which he shall have received for execution out of any other Court shall when practicable within twenty-four hours or if not practicable within that time then within three days of the receipt thereof pay over the same to the registrar of such Court and shall return all process to the registrar to be filed by him.

**RULE 16.**—Every bailiff in whose hands any summons shall be placed for service shall serve or cause the same to be served with all reasonable dispatch and shall when practicable immediately after the service thereof make or cause to be made the necessary affidavit of service and forward the summons and affidavit to the party from whom he received the same for filing with the registrar.

*Juries.*

**RULE 17.**—Notice that a jury is required to try any action under Part II of this Act shall be in the form in the Schedule and must be delivered together with the fee of two pounds to the registrar ten days before the return day of the summons and the notice must be given to or sent by post to the opposite party three days before such return day but where the jury is required by the plaintiff he may insert on the summons "For trial by jury" and in that case no further notice to the defendant will be necessary and when the defendant requires a jury to try the action he may insert in the notice of defence or special defence (if any) the words "For trial by a jury" and in that case no further notice to the plaintiff will be necessary but in every case in which a jury is required by either party the party requiring a jury must give the notice hereinbefore provided and pay the fee to the registrar.

**RULE 18.**—The last preceding rule will not apply when the Judge on the application of the party or otherwise directs any cause or any issue of fact to be tried by a jury but he will in such case give such directions as the exigency of each case will require.

*Affidavits.*

**RULE 19.**—Every affidavit shall be in the first person and be divided into paragraphs numbered consecutively and each paragraph shall be as nearly as may be confined to a distinct portion of the subject.

**RULE 20.**—The addition and true place of abode of every person making an affidavit shall be inserted therein and in every affidavit made by two or more deponents the names of the several persons making such affidavit shall be written in the jurat and no affidavit shall be read or made use of in the jurat of which there shall be any interlineation or erasure or in the body of which any alteration or interlineation shall appear unless such last-mentioned alteration or interlineation shall be initialled by the person before whom the affidavit is sworn.

**RULE 21.**—Every affidavit intended to be used in Court or before a Judge shall be entitled in the cause matter or proceeding and shall before the same is so used be sealed by the registrar with the seal of the Court.

RULE

RULE 22.—Every affidavit made by an illiterate person shall be read over and explained to him by the person taking the same and when any affidavit is sworn by any person who from his or her signature appears to be illiterate the officer taking such affidavit shall state in the jurat that he read over and explained the affidavit to the party making the same and that such party seemed perfectly to understand the same and also that the said party wrote his or her mark or signature in the presence of the officer taking such affidavit.

RULE 23.—Every affidavit used in Court or before a Judge shall be delivered to and filed by the registrar.

#### *Chamber Business.*

RULE 24.—Each Judge shall notify in the *Gazette* the towns at which applications for summonses or applications for appointments upon matters disposable in chambers may be made.

RULE 25.—Application for summons returnable before a Judge in chambers shall be made to the registrars at such towns who under the direction of the Judge will fix a day when and a place where the summons may be made returnable.

RULE 26.—Every summons returnable at chambers shall set out in plain and distinct terms the nature of the application to be made and shall be signed and sealed by the registrar of the Court in which the action suit or proceeding is pending.

RULE 27.—The grounds of the application shall be stated either upon the face of the summons or in an affidavit.

RULE 28.—Copies of affidavits intended to be used upon the hearing of any Judge's summons must be served upon the opposite party before being used and in sufficient time to enable the party served to answer on affidavit any statement which he intends to contest.

RULE 29.—No order made upon affidavits shall be sealed unless the affidavits used by the party obtaining the order be filed.

#### *Interpleader Business.*

RULE 30.—An interpleader summons under section 92 of the Act shall be in the form in the Schedule or to the like effect and may be made returnable either before the Judge sitting in Court at an ordinary or adjourned sitting or before the Judge in chambers.

[See further as to *Interpleader Rules in Order III, under head "Interpleader."*]

#### **COSTS FEES AND EXPENSES.**

##### *Costs and Fees to Practitioners.*

RULE 31.—The scales of fees and costs as set out in the Schedule shall be the scales of fees and costs to be allowed to practitioners in the County Courts in the various jurisdictions exercised under the Act. To entitle a party to recover against the opposite party the costs of appearing by both barrister and attorney he must give three clear days notice to the opposite party of his intention to do so.

##### *Witnesses' Expenses.*

RULE 32.—The scale specified in the Schedule shall be the scale of allowances to witnesses.

RULE 33.—If any witness shall before he is sworn request the Judge to fix the amount to be paid to him as a witness the Judge shall do so and no witness shall be compelled to give his evidence until the amount so fixed shall have been paid to him.

##### *Forms.*

RULE 34.—The several forms set out in the Schedule to those orders or forms to a like effect shall be the forms of proceedings in the several Courts.

##### *Computation of Time.*

RULE 35.—In all cases in which any particular number of days not expressed to be clear days is prescribed by these rules or by the practice of the Court the same shall be reckoned exclusively of the first day and inclusively of the last day unless the last day shall fall on a Sunday or holiday in which case the time shall be reckoned exclusively of that day also.

RULE 36.—In all cases where anything is required by the rules of practice to be done within a period of twenty-four hours or within a period of forty-eight hours no part of Sunday Christmas Day Good Friday the Saturday next after Good Friday or of any day appointed by His Excellency's proclamation for a public fast humiliation or thanksgiving or any day on which the public offices or offices of the Courts shall be closed by order of the Governor in Council shall be included in the computation of such period.

**ORDER**

## ORDER III.

## ACTIONS AT LAW AND PROCEEDINGS UNDER PART II OF ACT.

*Plaint and Summons to appear.*

**RULE 1.**—Every action under Part II of Act shall be commenced by plaintiff an entry of which shall be made by the registrar in the register Part I upon the application of the person desirous to bring the action or of the practitioner engaged in his behalf and the entry in such register shall contain the date of the entry the names and last known places of abode of the parties the cause of action and where the demand is pecuniary the amount sought to be recovered and when compensation for trespass to land or the land itself or a specific chattel is sought to be recovered a general description of the land or specific chattel.

**RULE 2.**—The plaint required by the last preceding rule shall consist of a simple and concise statement of the plaintiff's true cause of action of which examples are given in the Schedule to these rules and in actions of ejectment (or in which the remedy by ejectment is sought) and in actions for trespass to land or in which damages for trespass to land are sought shall have drawn upon or annexed thereto a plan distinctly describing by certain delineation the land the subject of the action and such plaint shall be written or printed or partly written and partly printed in a summons bearing the number of the plaint and hereafter referred to as the "plaint summons" and such plaint and summons shall be in the form or to the effect of those in the Schedule according as the circumstances of the case may require excepting in those actions for money demands in which the plaintiff shall elect to proceed under section 56 of the Act in which cases the statement of the claim and the summons as given in Schedule III to the Act shall be a sufficient statement of the plaint and sufficient summons.

**RULE 3.**—Every plaint summons must contain the number of the plaint and must be dated on the day on which the plaint is entered in the register and must state the name address and occupation of the plaintiff and of the person intended to be brought before the Court as defendant and where any person sues or is sued in a representative character he shall be so described in the summons and every summons must be sealed with the seal of the Court.

**RULE 4.**—No misnomer or inaccurate description of any person cause of action date or item of demand or place in any plaint or plaint summons shall vitiate the same if the person cause of action date or item of demand or place be therein described so as to be reasonably known and the Court or Judge may at any stage of the cause make such amendments therein as he shall think just.

**RULE 5.**—Any erasure or interlineation in a plaint summons at the time of the sealing thereof shall be sealed by the registrar and after the sealing of the plaint summons no alteration whatever shall be made therein without the leave of the Judge who shall initial any amendment or alteration which he shall make or direct to be made therein.

**RULE 6.**—In order to secure the due service upon the plaintiff of all notices the trade business or profession of the plaintiff as well as his address by the post and also the surname and place of business of the practitioner engaged on his behalf (if any) in the action must be stated at the foot of every such plaint summons and every copy thereof but the omission of such statement shall not invalidate the proceedings or be deemed an irregularity but shall disentitle the plaintiff to the costs of the plaint summons and of the service.

**RULE 7.**—Every plaint summons may be made returnable either on the first day of the sitting at the next Court after the entry of the plaint or by leave of the Judge or registrar at any subsequent Court to be held within six months and the plaint in ejectment must be issued thirty-two clear days before the return day and in all other actions eighteen clear days before the return day.

**RULE 8.**—When a plaint summons has not been served by the bailiff in any case in which the bailiff may have been required to serve the same a fresh plaint summons may upon the order of the Judge be issued without payment of any further fee for such summons except a fresh bailiff's fee for service where the same is required to be served by the bailiff and the failure of the service of the first plaint summons was not occasioned by the negligence of the bailiff but where the bailiff was guilty of neglect he shall serve the fresh plaint summons without further fee.

*Particulars of demand.*

**RULE 9.**—In all actions for goods bargained and sold and for goods sold and delivered and in actions in which a special summons shall be issued under section 56 of the Act and in actions of replevin detailed particulars of demand including dates items prices and value and in actions of trespass by stock the dates when the trespasses are said to have been committed shall be endorsed upon or annexed to the plaint summons but inaccuracies or omissions of detail in particulars shall not vitiate the same but in all other actions no detailed particulars beyond the statement of the cause of action and the amount claimed as required by the preceding rules and the forms and examples given in the schedule to these rules to be stated in plaint summons shall be necessary.

RULE

RULE 10.—In the instances in which under the preceding rule detailed particulars of the plaintiff's demand are necessary the same shall be written or printed or partly written and partly printed and intituled in the cause and shall be endorsed upon or annexed to the plaint summons.

RULE 11.—Upon application to the Judge in chambers upon summons or to the Court upon notice the Judge or Court may in every case in which he or it thinks fit and whether detailed particulars have been delivered or not order further and better particulars of the plaintiff's claim or demand to be delivered and such order may be made either with or without terms as to payment of costs by either defendant or plaintiff or as to adjournment or otherwise as to the Court or Judge shall seem just.

*Plaint Notes.*

RULE 12.—At the time of sealing the plaint summons the registrar shall give to the plaintiff or to the practitioner engaged for him a note under his hand and the seal of the Court according to the form in the schedule and no money shall be paid out of Court to the plaintiff or such practitioner unless on production of the plaint note or in the event of the plaint note being lost or destroyed by order of the Judge.

*Time for issuing, filing, and serving Plaint Summonses, and mode of service.*

RULE 13.—Every special plaint summons issued under section 56 of the Act must be issued at least twenty-three clear days before the return day thereof and must be served either by the bailiff of the Court or by the plaintiff's attorney or by a clerk in the permanent employ of such attorney by delivering a copy to each of the defendants personally twenty-one clear days at least before the return day and in order to enable the registrar to give the notice required by the 56th section of the Act the plaintiff must file the plaint summons with an affidavit of service endorsed thereon within five days after the plaint summons shall have been served but the Judge may permit the summonses to be filed at a later day but in any case in which the plaintiff neglects to file the plaint summons within five days of the service the plaintiff shall be deemed to have waived his right to notice from the registrar as to whether the defendant has or has not given notice of his intention to defend.

RULE 14.—Every plaint summons in ejectment must be issued thirty-two clear days before the return day thereof and be served in the manner prescribed for the general service of plaint summonses thirty clear days at least before the return day thereof but if the defendant cannot be found and his place of abode shall not be known or admission thereto cannot be obtained for serving the plaint summons a copy of the summons shall be affixed to the door of the dwelling-house or to some conspicuous part of the property sought to be recovered and such affixing shall be deemed good service on the defendant.

RULE 15.—Every plaint summons in all other actions must be issued eighteen clear days before the return day thereof and be served fifteen clear days at least before the return day thereof.

RULE 16.—Every plaint summons whatever the cause of action shall be filed with the registrar with an affidavit of service by the person effecting the service and stating the time and mode of service endorsed thereon or annexed thereto ten clear days at least before the return day thereof unless the Judge shall direct the registrar to file the same at a later date *nunc pro tunc* and if the plaint summons be not filed under this rule the plaintiff shall be deemed to have discontinued the action and the defendant shall be entitled to his costs against the plaintiff upon an order by the Judge.

*Service of Plaint Summons, other than special Plaint Summons, under section 56 of the Act.*

RULE 17.—The service of the plaint summons except in the cases in these rules specially provided for shall be either personal or by delivering the same to some person apparently sixteen years old an inmate at the place of dwelling or place of business of the defendant but no place of business shall be deemed the place of business of the defendant unless he shall be the master or one of the masters thereof.

RULE 18.—Where a defendant is living at a hotel or boarding-house or living or serving on board of any ship or vessel it shall be sufficient service to deliver the plaint summons to the person at the hotel or boarding-house or on board the ship or vessel who is at the time of such service apparently in charge of such hotel or boarding-house ship or vessel.

RULE 19.—Where a defendant is residing or quartered in any barracks and serving Her Majesty as a soldier or marine it shall be sufficient service to deliver the plaint summons at the barracks to the adjutant of the corps or to any officer or sercant of the company or troop to which such soldier or marine belongs.

RULE 20.—Where a defendant is a prisoner in a gaol it shall be sufficient service to deliver the plaint summons at the gaol to the governor or any person appearing to be the head officer in charge thereof.

RULE 21.—Where the defendant is employed and dwells in any lunatic or other public asylum or in any common gaol or house of correction it shall be sufficient service to deliver the plaint summons to the gatekeeper or lodgekeeper of the asylum gaol or house of correction.

RULE

RULE 22.—Service of the plaint summons must be effected on a corporation in the manner prescribed by the charter or Act of incorporation and when no particular mode is prescribed then the service may be effected by delivering the same to the secretary or other officer at the office of the corporation.

RULE 23.—Service of the plaint summons may by leave of the Judge obtained upon affidavit stating some difficulty of effecting service under the preceding rules be substituted by such mode of service as the Judge shall think fit.

RULE 24.—If any dispute shall arise or the Judge shall entertain any doubt as to the due service of any summons the Judge shall be at liberty to examine witnesses and to decide whether such service has been good or otherwise and either to proceed to hear or defer the hearing as he shall think fit or under special circumstances to order that a person insufficiently served if notice of the plaint summons shall have come to his knowledge shall be deemed a defendant and the cause shall proceed as though such defendant had been regularly served.

RULE 25.—Admission in writing of service by the practitioner acting on behalf of defendant will be sufficient and in that case no affidavit of service will be necessary but such admission must be filed with the plaint summons.

*Service of Summonses generally.*

RULE 26.—The above rules as to the mode but not as to the time of service of plaint summons shall apply to the mode of service of all summonses whatsoever except where otherwise directed by statute or by these rules.

*Actions by Consent.*

RULE 27.—Where the parties in pursuance of section thirty-nine of the Act shall consent to try any action in a County Court an entry of the plaint shall be made in the register and a plaint summons shall be issued as in other cases and all the rules and practice of the Court shall be adopted in such cases as far as the same are applicable and such consent shall be endorsed upon the plaint summons in the following terms:—  
“We A.B. of &c. and C.D. of &c. being the plaintiff and defendant named in the within plaint summons hereby express our consent in writing under the provisions of section thirty-nine of the ‘County Court Act of 1881’ that the causes of action stated in the plaint in the within plaint summons shall be tried in the County Court at [name place where cause is to be heard.]”

A.B.  
C.D.

Witness to the signatures of the said A.B. and C.D.  
Y.Z.”

*Actions of Contract sent for Trial by Supreme Court.*

RULE 28.—Where a Judge of the Supreme Court orders a cause to be tried in a County Court under section forty-two of the Act the plaintiff shall with the original writ and the Judge’s order lodge with the registrar of the County Court named in such order a statement of the name address and occupation of himself and of the defendant and if the writ has not been specially indorsed a statement of the particulars of his demand or cause of action and as many copies of such last-mentioned statements as there are defendants and thereupon the registrar shall appoint a day for the hearing of the cause and shall indorse on the writ the date of the lodgment thereof and of such statement.

RULE 29.—Unless the Judge of the County Court shall otherwise order any cause so sent by order of a Judge of the Supreme Court to be tried in a County Court shall be heard at the next sittings of such County Court for which summonses on plaints are then being made returnable and the registrar shall give notice of the day to the parties or their attorneys by post or otherwise ten days before such day and where a statement of the particulars of the plaintiff’s demand or cause of action shall have been lodged shall with the notice send to the defendant or to each of the defendants if more than one a copy thereof sealed with the seal of the Court.

*Action of Tort remitted by the Supreme Court.*

RULE 30.—When any action of tort is remitted by order of a Judge of the Supreme Court under section forty-three of the Act to be tried in a county Court the plaintiff shall at whatever stage of the proceeding such order is made with the original writ and the Judge’s order lodge with the Registrar of the County Court named in such order a statement of the names addresses and descriptions of himself and of the defendant and a concise statement in writing signed by himself or his attorney of his cause of action and as many copies thereof as there are defendants and thereupon the registrar shall appoint a day for the hearing of the cause and shall indorse on the writ the date of the lodgment thereof and of such statement.

RULE 31.—Unless the Judge of the County Court shall otherwise order any action of tort so remitted by order of a Judge of the Supreme Court to be tried in a County Court shall be heard at the next sittings of such County Court for which summonses on plaints are then being made returnable and the registrar shall give

give notice of the day to the parties or their attorneys by post or otherwise ten days before such day and shall with the notice thereof send to the defendant or to each of the defendants if more than one a copy of the statement of the plaintiff's cause of action sealed with the seal of the Court.

RULE 32.—Where in any action for libel or slander remitted under section forty-three of the Act to be tried in the County Court the defendant intends to avail himself of the Act of Council eleventh Victoria number thirteen he shall give notice in writing of such intention signed by himself or by a practitioner engaged on his behalf to the Registrar six clear days at least before the day appointed for the trial of the action.

*Judgment by Confession.*

RULE 33.—In consents to Judgment under section fifty-five of the Act taken before a Justice of the Peace or before an attorney the person taking the same shall state in the attestation that he read over and fully explained the consent to the defendant and that he appeared to understand the same before he signed it and without this attestation no consent shall be filed or judgment entered upon it unless it be a consent taken before the registrar.

*Judgment by Default.*

RULE 34.—In actions brought under section fifty-six of the Act the registrar shall after the plaint summons and affidavit of service shall have been filed and after the expiration of the period fixed within which the defendant should give notice of his intention to defend and in default of such notice upon the application of the plaintiff or the practitioner acting for him enter up judgment in the register for the plaintiff for the debt and costs as taxed by the registrar and interest (if any) as computed by him and the time when or within which or by what instalments (if any) the debt and costs are to be paid.

*Arbitration.*

RULE 35.—The order to refer under section sixty-two of Act may be made before upon or after the return day and if either party seek to set aside the award he shall within three days after he has received notice of the award give notice to the opposite party of his intention to apply to the Court or a Judge for that purpose and in default of such notice judgment shall be forthwith entered up in accordance with the award.

RULE 36.—Where the parties agree to refer any action or other matters to the Judge such reference may be taken either in Court or in Chambers as the Judge shall think fit.

*Payment into Court.*

RULE 37.—Where the defendant is desirous of paying money into Court it shall except where otherwise expressly provided be paid six clear days before the return day with Court fees proportionate to the amount paid in and the practitioner's cost if any which shall be fixed by the registrar and the registrar shall within twenty-four hours from the time of such payment send to the plaintiff notice thereof by post: Provided that at any time before the return day the defendant may pay money into Court with costs and the registrar shall give notice thereof to the plaintiff as aforesaid but where money is so paid in less than six clear days before the return day it shall be lawful for the Court to order the defendant to pay such costs as the plaintiff shall have incurred in preparing for trial before the notice of such payment was received by him or in attending the Court.

RULE 38.—If the plaintiff elect to accept in full satisfaction of his claim including costs such money as shall have been paid into Court by the defendant and shall send to the Registrar and to the defendant by post or leave at the Registrar's office and at the defendant's place of dwelling or place of business a written notice stating such acceptance within such reasonable time before the return day as the time of payment by the defendant has permitted the action shall abate and the plaintiff shall not be liable to any costs but in default of such notices from the plaintiff he shall be deemed to have elected to proceed.

RULE 39.—Payment into Court may be made either in respect of the whole of the cause of action or of such part thereof only as the defendant shall state in his notice.

RULE 40.—Where a defendant in an action of libel commenced in a County Court or remitted under section forty-three to be tried in a County Court pays money into Court under section fifty-four the last two rules shall apply to and be observed with reference to such payment into Court so far as they are applicable.

RULE 41.—Payment into Court shall not operate as an admission *pro tanto* of the cause of action in respect of which it is paid and shall not be given in evidence against the defendant at the hearing.

RULE 42.—No money shall be taken out of Court by the plaintiff unless on filing the plaint note or by the defendant unless on filing the summons on the plaint except by order of the Judge Payment out of Court to any person producing and filing such note summons or order shall be sufficient.

*Defences.*

*Defences.*

**RULE 43.**—Where the defendant intends to rely on a set-off illegality infancy coverture of defendant a statute of limitation or discharge of defendant under any Insolvent Act the truth of the libel or slander or an equitable or statutory defence his notice shall contain the particulars hereinafter mentioned with reference to such grounds of defence: Provided that in case of non-compliance with these rules which apply to notice of such defence and of the plaintiff's not consenting at the hearing to permit the defendant to avail himself of such defence the Judge may on such terms as he shall think fit adjourn the hearing of the cause to enable the defendant to give such notice within a reasonable time to be fixed by the Judge before the day of adjournment.

**RULE 44.**—Where a defendant intends to set-off any debt or demand alleged to be due to him by the plaintiff he shall give notice thereof in writing to the plaintiff or to his attorney and deliver to him a statement of the particulars of such set-off at least six clear days before the return day.

**RULE 45.**—Where a defendant intends to rely upon the defence of illegality he shall give notice thereof in writing to the plaintiff or his attorney and deliver to him a statement of the nature of the illegality at least six clear days before the return day.

**RULE 46.**—Where a defendant intends to rely on the defence of infancy he shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day setting forth in such notice so far as he is able the place and date of his birth.

**RULE 47.**—Where a defendant intends to rely on the defence of coverture she shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day setting forth in such notice so far as she is able the place and date of marriage together with the Christian name and surname of her husband.

**RULE 48.**—Where a defendant intends to rely on the defence of any statute of limitations he shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day.

**RULE 48.**—Where a defendant intends to rely on the defence of a discharge under any statute relating to bankrupts or for the relief of insolvent debtors he shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day setting forth in such notice the date of the order of sequestration certificate discharge or final order and the Court by which such certificate discharge or order was granted or made.

**RULE 50.**—Where in any action for libel or slander the defendant relies as a defence upon the fact that the libel or slander is true or of any defence or mitigation under the Act of Council 11 Victoria No. 13 he shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day setting forth in such notice that the libel or slander complained of is true in substance.

**RULE 51.**—Where a defendant intends to rely on an equitable defence he shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day and shall therein state the fact constituting such equitable defence.

**RULE 52.**—When in any action of tort the defendant relies upon a statutory defence he shall give notice thereof in writing to the plaintiff or to his attorney at least six clear days before the return day and shall mention the number and section of the statute on which he relies.

**RULE 53.**—In all cases mentioned in the last nine rules the party thereby required to give the notice shall unless otherwise expressly ordered at least six clear days before the return day deliver to the Registrar of the Court who shall make an entry thereof an additional copy to be filed for use of Judge and the notices required may be sent by post provided they be posted prepaid in time for delivery within the time limited.

**RULE 54.**—Where the defence is a tender such defence shall not be available unless before or at the hearing of the cause the defendant pays into Court (which may be without costs) the amount alleged to have been tendered.

*Evidence, inspection of Documents, discovery of Documents, and Admissions.*

**RULE 55.**—Any party requiring a summons to compel the attendance of witnesses shall file a præcipe with the registrar in the form in the Schedule.

**RULE 56.**—In a summons containing a clause requiring the production of books or papers the name of one witness only shall be inserted excepting in the case of co-partners when all the members of the firm may be included in one summons.

**RULE 57.**—In other cases any number of witnesses may be inserted in the summons and in the copy of the summons served the name of the witness to be served only need be inserted.

**RULE 58.**—The original summons must in all cases be signed and sealed by the registrar or assistant registrar.

**RULE 59.**—Application to the Judge for inspection of property or of documents or to compel the opposite party to disclose what documents are in his possession or under his control under part II of the sections of the Common Law Procedure Act of 1857 adopted by this Act shall be made on summons returnable in chambers supported by an affidavit disclosing the facts upon which the application is based and the summons must be served five clear days at least before the day of hearing.

**RULE**

**RULE 60.**—In exceptional cases the application may be made to the Court upon notice supported by affidavit disclosing the facts upon which the application is based and stating the reason for the delay in making the application and any order made thereon shall be made upon such terms as to postponement of the hearing and costs as to the Judge shall seem just.

*NOTE.*—As to service see rule 26, "Service of Summonses generally."

*Admission.*

**RULE 61.**—Either party may call upon the other party by notice in writing to admit saving all just exceptions any document to be used in any action and in case of refusal or neglect to admit the same the cost of proving such document shall be paid by the party so neglecting or refusing whatever the result of the cause may be unless at the trial the Judge shall be of opinion that the refusal was reasonable. And no costs of proving any document shall be allowed unless such notice shall have been given except in cases where the omission to give the notice has in the opinion of the Judge saved expense.

**RULE 62.**—That an affidavit of the party or of the practitioner engaged in his behalf in the action or of a clerk to such practitioner of the due signature of any admission made in pursuance of such notice and indorsed upon or annexed to the admission shall be sufficient evidence of such admission.

*Proof of notice to produce.*

**RULE 63.**—Service of notice to produce in respect of which notice to admit shall have been given and an admission shall have been refused may be proved either orally at the hearing or by affidavit of the person who shall have served the same and the cost of proving the same shall be paid by the party refusing to admit the service.

*Discontinuance.*

**RULE 64.**—The plaintiff may discontinue his action at any stage of the proceedings without an order for that purpose upon giving the defendant and to the registrar notice in writing to that effect and the defendant may thereupon file such notice and take out an appointment to have his costs taxed by the registrar of which he shall give notice by post to the plaintiff and when the defendant attends the taxation the defendant shall produce to the registrar the notice of discontinuance whereupon (whether the plaintiff attends or not) the registrar shall enter in the register "Discontinued" (which shall be equivalent to a non-suit) and shall proceed to tax the defendant's costs and enter judgment for the defendant for the amount of the taxed costs and if the costs be not paid the defendant may recover the same by execution.

*Adjournment of cause.*

**RULE 65.**—The parties to any cause at any time before the cause is called on may by consent in writing postpone the hearing to such subsequent Court as the Judge shall direct.

**RULE 66.**—When a cause is adjourned no order of adjournment shall be served on either party unless by direction of the Judge.

**RULE 67.**—When anything required by the practice of the Court or by order of the Judge to be done by either party before or during the hearing has not been done the Judge may in his discretion and on such terms as he may think fit adjourn the hearing to enable or to compel the party to comply with the practice or order.

**RULE 68.**—Applications to adjourn the hearing upon the ground of the absence of a material witness shall be made upon affidavit or if the Judge permit upon oral examination.

*Hearing.*

**RULE 69.**—Any defendant intending to appear by a practitioner at the hearing shall intimate his intention to the registrar in order that the case may be placed in the list of defended causes. But this rule will not apply to a practitioner drawing attention to a defective service or defective process.

**RULE 70.**—Where a plaintiff avails himself of the provisions of section 49 of the Act and proceeds against one or more of several persons jointly answerable the defendant or defendants sued or served may avail himself or themselves of any set-off or other defence to which he or they could be entitled if all the persons answerable were made defendants.

**RULE 71.**—When at the hearing of any cause it shall appear that an action for the same cause is pending in any other Court the Judge shall order the cause to be struck out with costs and which shall have the effect of a discontinuance by the plaintiff unless the plaintiff shall undertake to discontinue the action in such other Court before a day to be named to which the hearing shall be adjourned and unless before such adjourned hearing such action shall have been discontinued the cause shall then be struck out with costs and the registrar shall enter "Discontinued" and an order for costs to the defendant in the register and the defendant shall be entitled to execution for his costs unless paid within twenty-four hours.

*Amendment*

*Amendment as to Parties.*

RULE 72.—Any application by a party sued alone where others are jointly answerable to amend by adding co-defendants under section 49 of the Act shall be made upon summons taken out and served six clear days at least before the return day of the plaint summons and returnable on any day either before or on the return day of the plaint summons as the registrar may appoint supported by affidavit in which shall be set out the names and addresses of the several persons whom it is sought to have made co-defendants.

RULE 73.—Where a person other than the defendant appears at the hearing and admits that he is the person whom the plaintiff intended to charge his name may be substituted for that of the defendant if the plaintiff consents and thereupon the cause shall proceed as to set-off and other matters as if such person had been originally named in the summons and the cost of the person originally named as the defendant shall be in the discretion of the Judge.

RULE 74.—Where a party sues or is sued in a representative character but at the hearing it appears that he ought to have sued or been sued in his own right the Judge may at the instance of either party and on such terms as he shall think fit amend the proceeding accordingly and thereupon the cause shall proceed as to set-off and other matters as if the proper description of the party had been given in the summons.

RULE 75.—Where a party sues or is sued in his own right but at the hearing it appears that he ought to have sued or been sued in a representative character the Judge may at the instance of either party and on such terms as he shall think fit amend the proceedings accordingly and thereupon the cause shall proceed as to set-off and other matters as if the proper description of the party had been given in the summons.

RULE 76.—Where the name or description of a *plaintiff* in the summons is insufficient or incorrect it may at the hearing be amended at the instance of either party by order of the Judge on such terms as he shall think fit and thereupon the cause shall proceed as to set-off and other matters as if the name or description had been originally such as it appears after the amendment has been made.

RULE 77.—Where the name or description of a *defendant* in the summons is insufficient or incorrect and the defendant appears and objects to the description it may at the hearing be amended at the instance of either party by order of the Judge on such terms as he shall think fit and thereupon the cause shall proceed as to set-off and other matters as if the name or description had been originally such as it appears after the amendment had been made but if no objection is taken to the name or description the cause may proceed and in the judgment and all subsequent proceedings founded thereon the defendant may be named and described in the same manner.

RULE 78.—In actions by or against a husband if a wife be improperly joined or omitted as a party the plaint summons may at the hearing be amended at the instance of either party by order of the Judge on such terms as he shall think fit and thereupon the cause shall proceed as to set-off and other matters as if the proper person had been made party to the suit.

RULE 79.—Where it appears at the hearing that a *greater* number of persons have been made *plaintiffs* than by law required the name of the person improperly joined may at the instance of either party be struck out by order of the Judge on such terms as he shall think fit and thereupon the cause shall proceed as to set-off and other matters as if the proper party or parties had alone been made plaintiffs.

RULE 80.—Where it appears at the hearing that a *less* number of persons have been made *plaintiffs* than by law required the name of the omitted person may at the instance of either party be added by order of the Judge if such person shall either at the hearing or at some adjournment thereof personally or by writing signed by him or his agent consent to become a plaintiff and the Judge shall pronounce judgment as if such person had originally been made a plaintiff but if such person shall not consent to become a plaintiff in manner aforesaid either at the hearing or at the adjournment thereof judgment of nonsuit shall be entered.

RULE 81.—Where it appears at the hearing that a *greater* number of persons have been made *defendants* than by law required the name of the person improperly joined may at the instance of either party be struck out by order of the Judge on such terms as he shall think fit and thereupon the cause shall proceed as to set-off and other matters as if the proper party or parties had alone been made defendants and the cost of the person improperly joined as a defendant shall be in the discretion of the Judge.

RULE 82.—Where two or more persons are made defendants and some of them have not been served the name or names of the defendant or defendants who have not been served may at the instance of either party be struck out by order of the Judge on such terms as he shall think fit and thereupon the cause shall proceed as to set-off and other matters as if the party or parties whose name or names have not been struck out had alone been made defendant or defendants.

*Abatement of action.*

RULE 83.—Where one or more of *several* plaintiffs or defendants shall die *before* judgment the suit shall not abate if the cause of action survive to or against the surviving parties respectively.

RULE

RULE 84.—Where one or more of *several* plaintiffs or defendants shall die *after* judgment proceedings thereon may be taken by the survivors or survivor or against the survivors or survivor without leave of the Court.

RULE 85.—Where a married woman is sued as a *feme sole* and she obtains judgment on the ground of coverture proceedings may be taken thereon in the name of the wife at the instance of the husband without leave of the Court.

*Execution by person not a party to suit.*

RULE 86.—Execution on a judgment may issue on behalf of any person not a party to the suit by leave of the Judge upon proof of title to the benefit of the judgment and upon substitution of the name of the new plaintiff together with a statement of his derivative title for that of the original plaintiff and the registrar shall give notice of such substitution to the defendant by post and execution shall not issue upon the judgment until the expiration of six clear days after the posting of the notice.

*Proceedings in the nature of Scire Facias.*

RULE 87.—Execution on a judgment shall not issue against any person not a party to the suit without a plaint summons upon the judgment the proceedings upon which shall be the same as in ordinary cases.

RULE 88.—Where a judgment has been given against a person deceased his executors or administrators may in the same manner be sued upon the judgment.

*Ejectment.*

RULE 89.—Subject to the provisions as to ejectment in the preceding rules and to the following rules and to the provisions in the "Common Law Procedure Act" ejectment so far as such provisions are not altered as to County Courts by these orders and rules the action of ejectment shall be commenced carried on and determined in the same manner as other actions in the County Court.

RULE 90.—All the parties in whom the title is alleged to lie shall be plaintiffs and the persons alleged to be in possession or apparent possession of the property sought to be recovered shall be defendants and the statement of the cause of action in the plaint as set out in the plaint summons shall contain a full description of the property sought to be recovered together with a plan drawn thereon or annexed of the property and a statement of the annual value of the property and of the rent if there be any fixed or paid in respect thereof (but the value in rent stated need not be proved by the plaintiff) and a statement of the relation in which the plaintiff seeks to recover possession of the same and if there be two or more relations in which the plaintiff claims title to the property each may be stated separately and if the plaintiff seeks "mesne profits" he may demand in the plaint summons damages for the wrongful possession of the property or bring his separate action for the same.

RULE 91.—Any person not named as defendant in a summons in ejectment shall by leave of the registrar be allowed to appear and defend on filing twelve clear days before the return day an affidavit together with as many copies thereof as there are plaintiffs and defendants showing that he is in possession either by himself or his tenant of the property mentioned in the summons or some part thereof (such part being described in the affidavit with reasonable certainty.)

RULE 92.—Upon such affidavit being filed the registrar shall enter the name address and description of the person filing the same in the register as defendant in addition to the names of the person or persons originally made defendants and shall forthwith give notice by post or otherwise to the plaintiffs and defendants or the practitioners retained by them that the person filing the affidavit has filed the same and will appear and defend at the trial of the action annexing to each notice a copy of the affidavit.

RULE 93.—Any defendant in ejectment may give notice in writing signed by himself or his practitioner to the registrar twelve clear days before the return day that he intends to limit his defence to a part only of the property mentioned in the plaint summons describing that part in such notice with reasonable certainty and with such notice he shall deliver to the registrar as many copies thereof as there are plaintiffs and the registrar shall forthwith send the same sealed with the seal of the Court by post to each of the plaintiffs or practitioners retained by them.

RULE 94.—Want of "reasonable certainty" in the description of the property or any part of it in any summons or notice shall not nullify it but the Judge may if he sees fit order the description to be amended at the hearing or he may order an amended description to be delivered subject in either case to such terms as he may think fit.

RULE 95.—Any action of ejectment may if either party require a jury to be summoned be tried by a jury in the same manner and subject to the same rules as other actions tried by juries in the County Courts.

RULE 96.—Every action of ejectment shall be tried as actions in the County Courts and the question at the trial shall except in the cases hereafter mentioned in Rules 103 and 106 be whether the statement in the plaint summons of the title of the plaintiffs is true or false and if true then which of the plaintiffs is entitled and whether

to the whole or part and if to part then to which part of the property mentioned in the summons and the judgment shall be in the form in that behalf provided in the Schedule to these rules or to the like effect with such modifications as may be necessary to meet the facts.

**RULE 97.**—Where the title of the plaintiff shall appear to have existed as alleged in the summons and at the time of the service thereof but it shall also appear to have expired before the trial the plaintiff shall be entitled to a judgment according to the fact that he was so entitled and for his costs of suit unless the Judge shall otherwise order.

**RULE 98.**—Where at the hearing any defendant appears and the plaintiff does not appear the case shall be struck out and the defendant appearing shall have judgment for his costs and if the plaintiff appears and no defendant appears the plaintiff on proof of the service of the summons and of his title shall be entitled to judgment for the recovery of possession.

**RULE 99.**—Where all parties to any action of ejectment agree upon the facts they may by leave of the registrar state a case for the opinion of the Judge and the action shall in such case be heard and determined by the Judge upon the facts stated in such case. Provided that if the parties state a case under this rule they shall deliver to the registrar six clear days before the return day two copies signed by the parties or their respective practitioners of such case with the points to be argued stated in the margin and the registrar shall seal both copies and forthwith send one of such copies to the Judge and file the other.

**RULE 100.**—Where in an action of ejectment judgment is given for the plaintiff execution may issue upon a day to be named in the judgment and if no day be named then it may issue after the expiration of fourteen clear days from the day on which judgment shall have been given unless the Judge shall otherwise order.

**RULE 101.**—Where any judgment in ejectment has been obtained for recovery of possession and costs or for recovery of possession damages for mesne profits and costs there may be either one warrant or separate warrants of execution for the recovery of possession and for the costs or for possession or for damages for mesne profits and costs at the election of the plaintiff.

**RULE 102.**—Where a judgment in ejectment is given for the defendants or any of them execution may issue for costs against the plaintiffs upon a day to be named in the judgment and if no day be named then it may issue after the expiration of fourteen clear days from the day on which judgment shall have been given unless the Judge shall otherwise order.

**RULE 103.**—Where upon the trial of any action of ejectment it shall be proved that the defendant is joint tenant in common or coparcener with the plaintiff then unless also an actual ouster of the plaintiff shall be proved the defendant shall be entitled to judgment and costs but if such ouster be proved then the plaintiff shall be entitled to judgment for the recovery of possession and costs.

**RULE 104.**—The death of a plaintiff or defendant shall not cause an action of ejectment to abate but it may be continued as provided by the following rules.

**RULE 105.**—Where any party to an action of ejectment dies before the return day the surviving party or parties thereto shall appear in Court on the return day.

**RULE 106.**—When a sole plaintiff or one of several plaintiffs in ejectment claiming otherwise than as joint tenants dies before the return day it shall be lawful for the legal representative of such deceased plaintiff on the return day to apply to the Judge upon filing an affidavit of the death of the deceased plaintiff and of his own representative character for leave to continue the action in his own name as plaintiff and the Judge may make an order granting such leave upon such terms as to adjournment and payment of costs as he shall see fit and thereupon the entry of the plaint in the register shall be amended by substituting for the name of the deceased plaintiff the name of the applicant as legal representative of the deceased plaintiff and the substituted plaintiff shall not recover unless he shall prove the title of the deceased plaintiff as stated in the summons and also that he is legal representative of the deceased plaintiff but upon proof of such title and of his representative character as alleged he shall be entitled to judgment for the recovery of possession and costs. Provided that if the defendant do not appear on the return day the cause shall be adjourned and a copy of the order shall be sent by the registrar by post or otherwise to the defendant.

**RULE 107.**—Where one of several plaintiffs dies before the return day and no application be made on the return day by the legal representatives of the deceased plaintiff the name of the deceased plaintiff shall be struck out and the action shall proceed and be tried as between the surviving plaintiff and the defendant and the surviving plaintiff shall have judgment for the recovery of the whole of the property mentioned in the summons if he shall prove himself entitled thereto or if not then for the recovery of such part or share thereof as he shall prove himself entitled to and for costs.

**RULE 108.**—Where judgment in ejectment is given for two or more plaintiffs and one or more of such plaintiffs die after judgment and before execution is executed the surviving plaintiff or plaintiffs may apply to the registrar upon an affidavit stating the death of the deceased plaintiff or plaintiffs to make an entry in the register of the death of such plaintiff and strike out therefrom the name of the deceased plaintiff or plaintiffs and to issue execution for the recovery of the possession of the entirety of the property and the costs but nothing herein contained shall affect the right of the legal representatives of the deceased plaintiff or plaintiffs or the liability of the surviving plaintiff

plaintiff or plaintiffs to such legal representatives and the entry of possession of such surviving plaintiff or plaintiffs under such execution shall be considered as an entry of possession on behalf of such legal representatives in respect of the property to which they shall be entitled as such representatives.

**RULE 109.**—Where a sole plaintiff or all the plaintiffs in ejectment shall die after judgment but before execution executed any person or persons entitled upon the death of the plaintiff or plaintiffs to the property recovered may issue execution upon leave of the Judge as provided by Rule 86 ["Execution by person not a party."]

**RULE 110.**—Where before or after the return day one or more of several defendants in ejectment who defend jointly shall die the name of the deceased defendant shall upon application of either party and upon proof of the death be struck out and the action shall proceed against the surviving defendant or defendants.

**RULE 111.**—Where a sole defendant or all the defendants in an action of ejectment shall die before the return day any person or persons claiming to be entitled to the property on the death of the defendant or defendants may apply at the hearing to the Judge upon filing an affidavit stating such death and the grounds upon which he claims the property for leave to defend in the place of the deceased defendant or defendants and the Judge may make an order granting such leave upon such terms as to adjournment and payment of costs as he may see fit and thereupon the entry of the plaint in the register shall be amended by substituting the name of the applicant for that of the deceased defendant and the action shall proceed as if the applicant had originally been defendant.

Provided that if no such application be made the action may proceed and be tried as in the case of the non-appearance of a defendant and the plaintiff upon proof of the service of the summons and of his title to the property shall be entitled to judgment for the recovery of possession.

Provided also that if no such application be made any person claiming to be entitled to the property upon the death of the defendant or defendants may apply for a new trial upon filing an affidavit stating the death of the defendant the grounds upon which he claims the property and that he had no notice or knowledge of the summons before the return day thereof and if the Judge orders a new trial the name of the applicant shall be substituted for that of the deceased defendant in the register and plaint summons and the action shall proceed as if the applicant had originally been defendant and if the Judge refuses a new trial he shall have power to order the applicant to pay the costs of the application.

**RULE 112.**—Where a sole defendant or all the defendants in ejectment shall die after judgment the plaintiff shall nevertheless be entitled to proceed by execution for the recovery of possession and to proceed by summons in the nature of a *scire facias* for the recovery of the costs against the legal personal representatives of the deceased defendant or defendants.

**RULE 113.**—Rule 111 shall apply to the case of the death before the return day in ejectment of one of several defendants who defends separately whether any other defendant defends for the same property or not.

**RULE 114.**—Where a plaintiff in ejectment is desirous of not proceeding in the action he may give notice thereof to the registrar and to the defendant by post and upon the receipt of such notice the registrar shall enter in the minute book judgment of nonsuit with costs up to that day.

**RULE 115.**—Where a plaintiff in ejectment is desirous of not proceeding further in the action in respect to any portion of the property he may give notice thereof by post to the registrar and to the defendant or defendants defending for such portion describing in the notice such portion and upon the receipt of such notice the registrar shall make a memorandum thereof in the register and the action shall proceed for the recovery of the remainder of the property and the defendant or defendants receiving such notice shall not be entitled to any further costs in respect of the defence for such portion of the property than those incurred up to the receipt of such notice unless the Judge shall otherwise order.

**RULE 116.**—Where one of several plaintiffs in ejectment is desirous of not proceeding in the action he may apply to the Judge on the return day to have his name struck out of the proceedings and an order may be made thereupon as to costs or otherwise as the Judge thinks fit and the action shall proceed at the suit of the other plaintiffs.

**RULE 117.**—A sole defendant or all the defendants in ejectment may at any time before the return day confess the action as to the whole of the property by signing in the presence of the registrar or of an assistant registrar or of an attorney of the Supreme Court and attested by the person in whose presence it is signed an admission of the title of the plaintiff to the property and of his right to the possession thereof and the registrar shall upon the receipt of such admission forthwith give notice thereof by post to the plaintiff and the Judge may on the return day upon proof of the signature of the defendant or defendants to such admission by affidavit or otherwise in case the same is not attested by the registrar or assistant registrar but if attested by the registrar or assistant registrar then without such proof and without any proof of the plaintiff's title give judgment for the plaintiff for the recovery of possession and for costs Provided that if the plaintiff receive notice of such admission before the return day he shall not be entitled to any costs incurred subsequently to the receipt of such notice except the costs of attending the Court on the return day unless the Judge shall otherwise order.

RULE

**RULE 118.**—Where one of several defendants who defends separately for a portion of the property for which no other defendant defends is desirous of confessing the action as to such portion and admitting the plaintiff's title thereto he may sign a like admission as is provided for by the last preceding rule describing in the admission such portion and similar proceedings shall be taken thereupon as in the case of a confession of the action as to the whole of the property and the action shall proceed against the other defendants.

**RULE 119.**—Where an action of ejectment shall be brought by any mortgagee or any person claiming under him for the recovery of the possession of any mortgaged property and no suit shall be then depending in any superior Court of Equity or in any County Court touching the foreclosure or redemption of such mortgage a defendant or any of the defendants who shall have the right to redeem such mortgage may ten clear days at least before the return day pay into Court such sum of money as may be due for principal and interest on such mortgage and for costs and the registrar shall thereupon give notice by post to the plaintiff of such payment into Court and on the return day if the plaintiff shall not appear or if he shall appear and agree to accept the sum paid into Court for principal interest and costs or if the Judge shall determine that the sum paid into Court is sufficient the Court shall order the plaintiff within a certain time at the defendant's expense to re-convey the mortgaged property and to deliver up to the defendant all the title deeds and writings relating thereto but if the Judge shall determine that the sum paid into Court is not sufficient he shall determine what further sum is due to the plaintiff for principal interest and costs and shall order the same to be paid into Court by the defendant on a day to be fixed and shall further order that upon such further payment into Court the plaintiff shall within a certain time at the defendant's expense re-convey the mortgaged property and deliver up to the defendant all the title deeds and writings relating thereto and that upon default being made in payment of such further sum that execution shall issue for the recovery of possession of the property and costs. Provided that where the Judge finds the payment into Court insufficient and the defendant makes default in payment of the further sum found by the Judge to be due and the plaintiff issues execution for the recovery of possession then the registrar shall upon the application of the defendant repay to him the sum before paid into Court provided further that the registrar shall not pay out to the plaintiff the sum paid into Court under this rule except the costs last-mentioned unless he shall be satisfied by the affidavit of himself or of his practitioner that the plaintiff has re-conveyed the mortgaged property to the defendant and has delivered up to him all the title deeds and writings relating thereto.

#### *Replevin.*

**RULE 120.**—In actions of replevin no other cause of action shall be joined in the summons.

**RULE 121.**—On entering a plaint in replevin the plaintiff must specify and describe in a statement of particulars the cattle or the several goods and chattels taken under the distress and of the taking of which he complains.

**RULE 122.**—All actions of replevin in cases of distress for rent in arrear or for damage feasant shall be tried in the same way as other actions in the County Courts and the judgment therein in ordinary cases whether for plaintiff or defendant shall as near as may be follow the forms set forth in the Schedule.

**RULE 123.**—Where the distress is for rent and the defendant succeeds in the action if the defendant require the Judge shall if the cause be tried without a jury and the jury shall if the cause be tried with a jury find the value of the goods distrained and if the value be less than the amount of rent in arrear judgment shall be given for the amount of such value but if the amount of rent in arrear be less than the value so found judgment shall be given for the amount of such rent and may be enforced in the same manner as any other judgment of the Court.

**RULE 124.**—Where the distress is for damage feasant and the defendant is entitled to judgment for a return if the plaintiff require the Judge shall if the cause be tried without a jury and the jury shall if the cause be tried with a jury find the amount of the damage sustained by the defendant and judgment shall then be given in favour of the defendant in the alternative for a return or for the amount of the damage so found.

#### *Detinue.*

**RULE 125.**—The judgment in detinue if for the plaintiff shall be for the value of the goods detained together with a sum to be stated in the judgment by way of damages for the detention and costs but it may be made part of the order that on payment of damages for the detention and costs and return of the goods on or before a day to be named satisfaction shall be entered.

#### *New Trial.*

**RULE 126.**—An application for a new trial or to set aside proceedings may be made either to the Court or to a Judge in chambers.

**RULE 127.**—Notice in writing of applications under the preceding rule setting out the grounds thereof must be served upon the opposite party in actions of ejectment within fourteen clear days and in all other actions within seven clear days after the day of hearing or the day upon which the proceedings sought to be set aside was taken.

RULE

RULE 128.—No notice of application for a new trial or to set aside proceedings shall operate as a stay of proceedings unless the Judge shall so order but if any money paid into Court under any execution or order in the suit shall not have been paid out when such notice in writing shall be given to the registrar the registrar shall retain the same to abide the event of such application or until the Judge shall otherwise order and if no such application be made or if made be dismissed the money shall be paid over to the party in whose favour the judgment verdict or order had been made.

RULE 129.—If the application be to the Court it may be made during the same sitting if both parties be present or during the next sitting but not later than the next sitting and if the application be made before the Judge in chambers then upon such day as the Judge or the registrar shall appoint not being later than the first day of the next sitting of the Court at the place where the judgment verdict or order was made.

RULE 130.—If the application be to the Court it shall be upon notice. If the application be to the Judge in chambers then it shall be made upon summons in which shall be set out or to which shall be annexed the grounds of the application and such summons shall be deemed to be notice in writing under the preceding rules and shall be served within the same time and in the same manner.

RULE 131.—Whether the application be upon notice or upon summons it shall be supported by an affidavit setting out the facts upon which the application is based a copy of which affidavit shall be served upon the opposite party with the notice or summons.

*Proceeding on a judgment more than six years old.*

RULE 132.—No warrant against the goods or judgment summons shall issue on a judgment more than six years old unless some payment has been made into Court under such judgment within twelve calendar months previously or unless by leave of the Judge if he is satisfied that the judgment creditor has used all due diligence but no notice to the defendant previous to applying for such leave shall be necessary and such leave shall be expressed on the warrant or summons under the seal of the Court.

*Attachment of Debts.*

RULE 133.—Where a plaintiff is desirous that the defendant if the defendant shall have judgment given against him shall be orally examined forthwith after the judgment shall have been given as to what debts are due and owing to him the plaintiff shall before the cause is called on lodge with the registrar a statement in writing of the name address and description of the person or persons within the jurisdiction of the Court whom he considers are debtors to the defendant.

RULE 134.—Where such a statement has been lodged by a plaintiff the defendant if he shall have had judgment given against him may be examined before the Court at the request of the plaintiff as to any debts due and owing or accruing from any person mentioned in the statement to the defendant and the Court may order such debts to be attached to answer the judgment debt and if such person be then present he may be ordered forthwith to show cause why he should not pay into Court for the benefit of the judgment creditor such debts or so much thereof as will satisfy the judgment debt and if such third person admits such debts the Court may make an order for the payment of such debts or so much thereof as will satisfy the judgment debt and such order shall be entered in the register and may be enforced in like manner as any order made in any suit in the Court and where the garnishee pays the money as ordered he shall not be liable for any costs and an entry of the payment shall be made in the register and in the suitor's cash book.

RULE 135.—Where a plaintiff has not lodged such statement or where having lodged such statement the person named in such statement shall not be present in Court or shall not admit such debt to be due owing or accruing as aforesaid the plaintiff may at any time after the judgment upon lodging with the registrar of the Court in which the judgment was given an affidavit stating the fact of the judgment and of its being unsatisfied and that a third person (hereinafter called the garnishee) is within the jurisdiction and is indebted to the judgment debtor make an *ex parte* application to the Judge for an order to attach such debts to answer the judgment debt and for an order for a summons calling upon the garnishee to show cause at a time and place to be named in such order why he should not pay the judgment creditor the debt due from him to the judgment debtor or so much thereof as may be sufficient to satisfy the judgment debt and if the judgment debtor shall not attend to show cause against such order or attending shall not admit the debt the Judge shall make an order that execution shall issue without further process unless the garnishee shall pay the said debt or so much thereof as may be sufficient to satisfy the judgment debt into Court within a time to be named in such order and such costs if any as the Judge may order. But if the garnishee shall appear to show cause against such order and shall dispute such debt then the Judge may give leave to the judgment creditor to enter a plaint in the nature of a *scire facias* for the amount of the debts alleged to be due to the judgment debtor from the garnishee.

RULE 136.—The summons on such plaint shall be personally served on the garnishee and when so served it shall attach in the hands of the garnishee all debts due owing or accruing from him to the judgment debtor.

RULE

RULE 137.—Where the garnishee shall pay the money into Court five clear days before the return day he shall not be liable for any costs incurred by the judgment creditor.

RULE 138.—Upon the return day the Court shall determine as to the liability of the garnishee and as to the party by whom the costs of the proceedings by plaintiff shall be paid and make an order or orders in accordance with such determination.

*Warrants of Execution against the Goods.*

RULE 139.—Where a defendant has made default in payment of the whole amount awarded by the judgment or of an instalment thereof a warrant of execution without leave of the Court may issue against his goods and such execution shall be for the whole amount of the judgment and costs then remaining unsatisfied unless in the case of instalments the Judge shall otherwise specially direct in each case at the time of giving judgment.

RULE 140.—The registrar shall on issuing a warrant of execution against the goods endorse on such warrant the amount to be levied distinguishing the amount adjudged to be paid and the amount of the fee for issuing the warrant.

*Interpleader.*

RULE 141.—Where any claim is made to or in respect of any goods or chattels taken in execution under the process of any County Court or in respect of the proceeds or value thereof the claimant shall forthwith or within twenty-four hours after making his claim deliver to the bailiff or leave at the office of the registrar of the Court a particular of any goods and chattels alleged to be the property of the claimant and the grounds of his claim or in the case of claim for rent of the demand thereof and for what period and in respect of what premises the same is claimed to be due and the name address and description of the claimant shall be fully set forth in such particular and money paid into Court (if any) under the execution shall be retained by the registrar until the claim shall have been adjudicated upon and by leave of the Judge such particulars may at any stage of the case be amended or by consent may be altogether dispensed with.

RULE 142.—Interpleader summonses other than interpleader summonses returnable before Justices of the Peace shall be issued by the registrar on the application of the bailiff without leave of the Court and may be made returnable before the Judge sitting either in Court or in chambers on any day fixed by the registrar not being less than three clear days before the return day and shall be served in the same manner as a plaintiff summons not less than two clear days before the return day but by consent in writing indorsed on the summons the same may be made returnable forthwith so soon as the same can be heard and service may by like consent be dispensed with.

RULE 143.—Where the claim to any goods or chattels taken in execution or the proceeds or value thereof shall be decided against the claimant the costs of the bailiff allowed by the Judge shall be retained by him out of the amount levied if the Judge shall so order but without prejudice to the right of the execution creditor against the claimant for the sum so retained if the Judge shall order the same to be paid by the claimant to the execution creditor.

INFANTS.

*Infant Plaintiffs.*

RULE 144.—Where an infant applies to enter a plaintiff for any cause of action (other than for wages or piece-work or for work as a servant) he shall procure the attendance of a next friend at the office of the registrar at the time of entering the plaintiff and no plaintiff shall be entered until the next friend has undertaken in the form set forth in the Schedule to be responsible for costs who on entering into such undertaking shall be liable in the same manner and to the same extent as if he were a plaintiff in an ordinary action and the cause shall proceed in the name of the infant by such next friend and the undertaking shall be filed by the registrar but no order of the Court shall be necessary for the appointment of such next friend. If the plaintiff fail in or discontinue his suit and do not pay the amount of costs awarded by the Court to be paid by him to the defendant, proceedings may be taken for the recovery of such amount from the next friend as for the recovery of any debt ordered to be paid by the Court.

*Infant Defendants.*

RULE 145.—Where an infant defendant appears at the hearing and names a person willing to act as guardian and who then assents so to act, such person shall be appointed guardian accordingly but if the defendant do not name a guardian the Judge may appoint any person in Court willing to become guardian or in default of such person the Judge shall appoint the registrar of the court to be guardian and the cause shall proceed thereupon as if another person had been appointed guardian and the name of the guardian appointed shall be entered in the register with statement whether guardian appointed at the instance of the Court or not and no responsibility shall attach to the person so appointed guardian at the instance of the Court.

*Proceedings*

*Proceedings by and against Executors and Administrators.*

RULE 146.—In actions by executors or administrators if the plaintiff fail the costs shall unless the Court shall otherwise order be awarded in favour of the defendant and shall be levied *de bonis propriis*.

RULE 147.—Where an executor or administrator plaintiff or defendant shall not appear on the day of hearing the provisions of sections 68 and 69 70 and 71 of the Act shall apply respectively subject to the rules applicable to executors or administrators suing or sued.

RULE 148.—A party suing an executor or administrator may charge in the plaint summons that the defendant has had assets and has wasted them.

RULE 149.—In all cases where the defendant is so charged in the summons if the Court shall be of opinion that the defendant has wasted the assets the judgment shall be that the debt or damage and costs shall be levied *de bonis testatoris si etc. et si non de bonis propriis* and the non-payment of the amount of the demand immediately on the Court finding such demand to be correct and that the defendant is chargeable in respect of assets shall be conclusive evidence of wasting to the amount with which he is so chargeable.

RULE 150.—Where a defendant sued as an executor or administrator does not appear or where the defendant appearing denies his representative character or alleges a release to himself of the demand whether he insists on any other ground of defence or not if the judgment of the Court be in favour of the plaintiff the judgment shall be that the amount found to be due and costs shall be levied *de bonis testatoris si etc. et si non de bonis propriis*.

RULE 151.—Where a defendant sued as an executor or administrator admits his representative character and only denies the demand if the plaintiff proves it the judgment shall be that the demand and costs shall be levied *de bonis testatoris si etc. et si non as to the costs de bonis propriis*.

RULE 152.—Where such defendant admits his representative character but denies the demand and alleges a total or partial administration of assets and the plaintiff proves his demand and the defendant proves the administration alleged the judgment shall be to levy the costs of proving the demand *de bonis testatoris si etc. et si non de bonis propriis* and as to the whole or residue of the demand judgment of assets *quando acciderint* and the plaintiff shall pay the defendant's costs of proving the administration of assets.

RULE 153.—Where such defendant admits his representative character but denies the demand and alleges a total or partial administration of assets and the plaintiff proves his demand but the defendant does not prove the administration alleged the judgment shall be to levy the amount of the demand if such amount of assets is shown to have come to the hands of the defendant or such amount as is shown to have come to them and costs *de bonis testatoris si etc. et si non as to the costs de bonis propriis* and as to the residue of the demand if any judgment of assets *quando acciderint*.

RULE 154.—Where such defendant admits his representative character and the plaintiff's demand but alleges a total or partial administration of the assets and proves the administration alleged the judgment shall be for assets *quando acciderint* and the plaintiff shall pay the defendant's costs of proving the administration of assets.

RULE 155.—Where such defendant admits his representative character and the plaintiff's demand but alleges a total or partial administration of the assets but does not prove the administration alleged and has not established any other ground of defence the judgment shall be to levy the amount of the demand if so much assets is shown to have come to the hands of the defendant or such amount as is shown to have come to them and costs *de bonis testatoris si etc. et si non as to the costs de bonis propriis* and as to the residue of the demand if any judgment of assets *quando acciderint*.

RULE 156.—Where judgment has been given against an executor or administrator that the amount be levied upon assets of the deceased *quando acciderint* the plaintiff or his personal representative may issue a summons in the form set forth in the Schedule and if it shall appear that assets have come to the hands of the executor or administrator since the judgment the Court may order that the debt damages and costs be levied *de bonis testatoris si etc. et si non as to the costs de bonis propriis* provided that it shall be competent for the party applying to charge in the summons that the executor or administrator has wasted the assets of the testator or intestate in the same manner as in rule 148 and the provisions of rule 149 shall apply to such inquiry and the Court may if it appear that the party charged has wasted the assets direct a levy to be made as the debt and costs *de bonis testatoris si etc. et si non de bonis propriis*.

RULE 157.—Where a defendant admits his representative character and the plaintiff's demand, and that he is chargeable with any sum in respect of assets he shall pay such sum into Court subject to the rules relating to payment into Court in other cases.

RULE 158.—In actions against executors or administrators for which provision is not hereinbefore specially made if the defendant fail as to any of his defences the judgments shall be for the plaintiff as to his costs of disproving such defence and such costs shall be levied *de bonis testatoris si etc. et si non de bonis propriis*.

ORDER

## ORDER. IV.

## PROCEEDINGS IN EQUITY.

*Commencement of Suit by Plaintiff and Plaintiff Summons.*

RULE 1.—All suits in equity under the 1st 2nd 3rd 4th or 7th clauses (or Entry of plaintiff paragraphs) of section 100 of the Act shall be commenced by plaintiff an entry of which shall be made by the registrar in the register Part II the application of the person desirous to bring the suit or of a practitioner on his behalf and the entry in such register shall contain the date of the entry the names and last known places of abode of the parties and when any party sues or is sued in a representative character he shall be so described and the nature of the suit and in general terms the nature of the relief sought.

RULE 2.—The plaintiff in equity required by the last preceding rule shall consist of Plaintiff summons, a simple and compendious statement of the material facts and circumstances on which the plaintiff relies being divided into separate paragraphs numbered consecutively each containing as near as may be a distinct allegation (examples of which are given in the Schedule hereto) and shall ask for the specific relief to which the plaintiff conceives himself entitled and also for general relief and such plaintiff shall be written or printed or partly written and partly printed in a summons bearing the number of the plaintiff and hereinafter referred to as the plaintiff summons and such plaintiff and summons shall be in the form or to the effect of those in the Schedule to this order according as the circumstances of the case may require.

RULE 3.—The preceding rules excepting those as to ejectment and special summonses under section 56 of Act as to the issuing and the return day of the plaintiff summons the service of it the filing of it as to misnomer or other inaccurate description in it as to substituted service and as to the plaintiff note shall apply to all suits in equity commenced under the two last preceding rules.

*Parties.*

RULE 4.—Any one or more of the persons or parties hereinafter mentioned may commence a suit on behalf of himself or themselves and all others having a common interest with him or them and proceed to obtain a decree of the Court and it shall not be competent to any defendant in any suit to object to the omission of such others as parties in any of such cases :—

1. Any heir devisee or legatee or any creditor seeking to obtain administration of the real or personal estate or both of a deceased person.
2. Any one of several "*cestuis que trusts*" seeking an execution of the trusts in any deed or instrument.
3. Any one executor administrator or trustee seeking an administration of an estate or execution of trusts against any one legatee next of kin or "*cestuis que trust.*"
4. Any one of several persons seeking protection of property pending litigation or exposed to waste.

And in any such case the Court or a Judge may before at or after the hearing order that any other person necessary to the suit be made a party and make such order for placing the original and added parties on the same footing with regard to costs as the Court or Judge may deem fit Provided that in order to prevent multiplicity of suits all persons who but for these rules would be necessary parties to the suit shall be served with notice of the decree and after such notice such person shall be bound by the proceedings as if they had been originally parties to the suit and they may by leave obtained from a Judge on summons attend the proceedings under the decree or apply to the Court that such decree be added to varied or altered.

RULE 5.—In suits to execute the trusts of a will it shall not be necessary to make the heir-at-law party unless the plaintiff desires to have the plaintiff established against him.

RULE 6.—In all cases in which a plaintiff has a joint and several demand against several persons either as principals or sureties it shall not be necessary to bring before the Court as parties to the suit concerning such demand all the persons liable thereto but the plaintiff may proceed against any one or more of the parties severally liable.

RULE 7.—In all suits concerning real or personal estates vested in trustees under a will settlement or otherwise such trustees shall represent the parties beneficially interested in the same manner and to the same extent as executors or administrators in suits concerning personal estate represent the persons beneficially interested in such personal estates and in such cases it shall not be necessary to make the person beneficially interested under the trusts parties to the suit Provided that in any such case the Court or Judge may before at or after the hearing order any or all of such persons to be made parties.

RULE 8.—If any defendant shall consider that the suit is defective by reason of Want of parties the absence of any party he may within six clear days after he shall have been served with the plaintiff summons serve a notice on the plaintiff requiring him to show cause before a Judge of the Court in which such suit shall be pending why such person shall not be made a party to the suit and the Judge shall have power to direct that such person shall be made a party to such suit by amendment on such terms as the Judge shall think proper.

RULE

**Misjoinder.** **RULE 9.**—No suit shall be dismissed on the ground of any misjoinder but if the Court at the hearing or re-hearing of the suit shall deem that no injustice would be thereby done to any of the parties it shall in the case of a misjoinder of a plaintiff forthwith order all such amendments to be made as shall be necessary to rectify such misjoinder and in the case of a misjoinder of a defendant the Court shall dismiss the suit as against such defendant upon such terms as it shall think proper.

**Defect of parties.** **RULE 10.**—In case of a defect of parties the Court may cause such defect to be amended upon such terms as it shall think proper.

[And see *post*, rule "Absent parties" following Rules under title "Carrying out Decretal Order."]

#### *Proceedings after Service.*

**Admission.** **RULE 11.**—Where any defendant desires to admit the truth of the allegations in the plaint and to submit to the judgment of the Court he may at any time before the return day of the original summons in the presence of a Registrar of a County Court or in the presence of an Assistant Registrar or of a practitioner sign an admission in the form contained in the Schedule and the signature of the defendant thereto shall be verified by affidavit unless signed in the presence of the Registrar or Assistant Registrar of the Court in which the suit is pending.

**Notice of admission.** **RULE 12.**—The admission shall be delivered to the Registrar together with a copy thereof for each of the plaintiffs or where the plaint is filed by a practitioner with a copy for such practitioner only and the Registrar shall forthwith file the same and transmit a copy by post to each plaintiff or the practitioner as the case may be and after the receipt of such copy the plaintiff shall be entitled to the costs then already incurred and to the further costs of attending the Court and obtaining the decree or order to be made upon such admission but to no other costs.

**Statement in the nature of a disclaimer or answer may be filed by the defendant.** **RULE 13.**—The defendant may within ten clear days after the service of the summons by a statement in writing signed by him disclaim any interest in the subject matter of the suit or admit or deny any of the statements in the plaint or raise any question of law on such statements without admitting the truth thereof or he may state concisely any new fact or document upon which he intends to rely as a defence at the hearing or which he thinks advisable to bring to the notice of the Court: Provided always that in exercising his discretion as to costs the Judge shall consider the fact of a defendant having or not having availed himself of the powers given by this rule.

**Statement to be filed.** **RULE 14.**—The statement under the last foregoing rule shall be delivered to the registrar together with a copy thereof for each of the plaintiffs or where the plaint is filed by a practitioner with a copy for such practitioner only and the registrar shall forthwith file the same and transmit a copy by post to each plaintiff or the practitioner as the case may be.

**Statement filed by attorney.** **RULE 15.**—Where the statement is filed by a practitioner he shall indorse thereon his name and place of business and that the defendant defends by him and where it is not filed by a practitioner the defendant who actually files the same shall indorse thereon his name and address.

**Dismissal of suit.** **RULE 16.**—The plaintiff may at any time before the return day of the summons by notice in writing delivered at the office of the registrar require the plaint to be dismissed as against all or any of the defendants with costs without prejudice to further proceedings or suits and such notice shall operate as an order to dismiss accordingly and the registrar shall forthwith file such notice and forward a copy thereof by post or otherwise to each of the defendants who shall be thereupon entitled to execution for their costs the amount of costs to be fixed by the registrar.\*

[For rule requiring defendant to state his defence at close of plaintiff's case, see *post*, title "Hearing." rule.]

#### *Evidence.*

**Evidence *viva voce* to be taken.** **RULE 17.**—Except where otherwise provided by these orders the evidence of witnesses shall be taken *viva voce* on oath, and such evidence of each witness as shall be deemed by the Judge to be material shall be taken down in writing by the Judge.

**As to admission of documents.** **RULE 18.**—Where a party desires to give in evidence any document he may not less than five clear days before the hearing give notice to any other party in the cause who is competent to make admissions requiring him to inspect and admit such document and if such other party shall not within a reasonable time make such admission any expense of proving the same at the hearing shall be paid by him whatever be the result of the cause unless the Court shall otherwise order and no costs of proving any document shall be allowed unless such notice shall be given except in cases where in the opinion of the Judge the omission to give such notice has been a saving of expense.

**Inspection of documents in possession or control of an opposite party.** **RULE 19.**—Where a party desires to inspect any document in the possession or under the control of any other party he may not less than five clear days before the hearing give notice to such other party that he or his practitioner desires to inspect the same at any place to be appointed by such other party and if such other party shall not appoint a convenient place or allow the party giving such notice or his practitioner to inspect such document within three clear days after receiving such notice the Judge may adjourn the hearing and make such order as to costs as he shall think fit.

**Summons to witness.** **RULE 20.**—Where a party requires the attendance of any other party or of any witness either to give evidence or to produce documents he shall apply to the registrar to issue a summons requiring such other party or witness to attend the Court the Judge or the registrar as the case may be or to attend and produce documents and such

summonses

summons shall respectively be drawn up by the registrar be signed and sealed by him and be issued by him to the bailiff or to the party for service and the same shall be served in the same manner as a plaint summons and in every summons to produce documents the registrar shall insert a description of the documents required.

RULE 21.—Where a party served with a summons under the last rule shall not at the hearing produce the documents required the Court or the Judge may upon admission or proof of the service of such summons within a reasonable time and that such documents are in the possession of the party so served and that they relate to the matter then pending before the Court the Judge or the registrar as the case may be may make an order for their production by him and the Court or Judge may deal with them when so produced and with all costs occasioned by their non-production as may appear just Provided that nothing herein shall prevent the Court the Judge or the registrar from receiving secondary evidence of any document of which notice to produce has been given.

Compulsory production of documents by parties to suit.

RULE 22.—Where any documents are produced to the Court from proper custody they will be read without further proof if they appear genuine and if no objection be taken thereto and if the admission of any document so produced be objected to the Judge may adjourn the hearing for the proof of the documents and the party objecting shall pay the costs caused by such objection in case the documents shall afterwards be proved unless the Judge shall otherwise order.

Documents unobjected to received without formal proof.

RULE 23.—Where it shall be necessary to examine a witness *de bene esse* application upon affidavit shall be made to the Judge to appoint an examiner for that purpose.

Examination *de bene esse*.

RULE 24.—Where any witness is examined by a registrar he shall be examined on oath and the registrar shall transcribe the answers of such witness and the deposition shall be subscribed by the witness and the registrar who shall have so examined him and shall then be transmitted by post to the registrar of the Court in which the suit or proceeding is pending.

How examination conducted.

RULE 25.—The allowance to be made to witnesses for attendance either before the Court or registrar shall in no case exceed the highest rate of the allowance in actions under Part II of Act.

Allowance to witnesses.

#### Hearing.

RULE 26.—Whenever the Judge shall exercise the powers conferred by section one hundred and twelve of the Act of removing to or from any other County Court of which he is Judge any suit the registrar shall give notice by the post to all the parties of such removal and shall make an entry of the order in the register and the subsequent proceedings in the suit so removed shall be taken and issue from the Court to which the cause has been so removed until the Judge shall otherwise order.

RULE 27.—Upon the day on which the summons is returnable all parties shall come to the Court prepared so far as the nature of the case will admit with evidence to enable the Judge to try the whole matter of the suit upon the merits and then to determine the same by a final decree or to make such decretal order or give such directions for adding parties to the suit for making inquiries taking accounts realizing assets or doing any act which the Judge may consider necessary to enable him to make a final decree upon a day to which the hearing may be adjourned.

How parties to come prepared.

RULE 28.—At the close of the opening of the plaintiff's case and before any evidence is taken the defendant shall if called upon by the Judge to do so by himself or the practitioner appearing for him give a concise statement of his defence to the suit and of the points upon which he relies and he shall not except by leave of the Judge be at liberty to enter upon or to give evidence as to any other matters than those included in the defence and points so stated.

Hearing.

RULE 29.—Upon the hearing the Court may dismiss the suit or grant the relief asked by the plaint or any part thereof or may grant any other relief consistent with the case made by the plaint or amended plaint or make any order giving directions for or with respect to the prosecution of the suit either at the same or at any other Court under section one hundred and twelve of the Act as the circumstances of the case may require and also make such order as to costs as the Court may think fit.

Decree or decretal order.

RULE 30.—Where the Court shall order any question of fact or any question as to the amount of damages to be tried by a jury the Court shall adjourn the hearing and appoint a day for the trial of such question by a jury and thereupon the practice shall be in all respects the same as in actions where either party has required a jury including the power to direct a new trial when necessary.

Jury.

RULE 31.—Where the Court shall order any question of fact or any question as to the amount of damages to be tried by a jury the Judge shall reduce the question into writing and the same shall be called the "Record for Trial."

Record for trial.

#### Decretal Orders.

RULE 32.—Where the Court makes any decretal order the registrar shall as soon thereafter as conveniently may be draw up seal and file such order.

Registrar to draw order.

RULE 33.—Where a decretal order directs any deed to be prepared and executed it shall state by what party the said deed shall be prepared and to whom it shall be submitted for approval.

Preparation of a deed.

RULE 34.—Where upon the hearing it appears to the Court expedient that a receiver be appointed such appointment shall be made by the decretal order whether the same be asked as part of the relief in the plaint or not.

Receiver.

Sale of real property. **RULE 35.**—Where real property is ordered to be sold the decretal order shall direct who shall have the conduct of the sale and by whom the conditions and contracts of sale and the abstract of title shall be prepared. And where any conditions or contracts are ordered to be settled by a conveyancing counsel it shall name the counsel to whom they are to be submitted.

Sale of personal property. **RULE 36.**—Where a decretal order directs any personal property to be sold the same shall be sold under the superintendence of the bailiff by public auction unless the Court shall otherwise order.

Accounts or inquiries. **RULE 37.**—Where any decretal order directs any accounts or inquiries to be taken or made or any acts to be done by the registrar bailiff receiver or parties it shall name a day within which all such acts shall be done and accounts and inquiries completed and shall also name a day not less than fourteen clear days after that day on which the registrar shall certify the result of the accounts and inquiries and what has been done under such decretal order and on which the cause will be further heard and if practicable a final decree made. But the Court or Judge may enlarge the time under this rule.

*Carrying out of Decretal Order.*

Deed how settled. **RULE 38.**—Where a deed is ordered to be prepared and the parties cannot agree upon the form thereof the Judge may upon the application of either party settle the same himself or name a conveyancing counsel by whom the same shall be settled subject to the final approval of the Judge.

In taking accounts &c. registrar to act as Master-in-Equity. **RULE 39.**—Where a decretal order directs that any account be taken or inquiry made such account shall be taken and inquiry made by the registrar unless the decretal order shall direct the same to be taken before the Court or the Judge and the registrar shall for that purpose have all the powers and discharge all the duties of the Master-in-Equity and all parties prosecuting any accounts or inquiries shall have the same power of summoning witnesses including as witnesses any parties in the cause and of examining them on such accounts or inquiries and of compelling the production of documents as they had on the original hearing and the rules as to the summoning swearing and examining of witnesses and the production of documents at the hearing shall be applicable (as far as may be) to such summoning swearing examining and production on taking any such accounts or prosecuting any such inquiries.

In taking accounts account books to be prima facie evidence of the matters therein contained. **RULE 40.**—Where a decretal order directs accounts to be taken any books of account in which the accounts required to be taken or any of them have been kept shall unless the Judge shall otherwise direct be taken as *prima facie* evidence of the truth of the matters therein contained with liberty to the parties interested to take such objections thereto as they may be advised.

Advertisement for creditors &c. **RULE 41.**—Every advertisement for creditors or other persons having any claim upon or interest in the distribution of any assets to be administered by the Court which shall be issued pursuant to any decretal order shall direct every such creditor or other person by a time to be thereby limited to send to the registrar his name and address and the full particulars of his claim or interest and a statement of his account and the nature of the security (if any) held by him and at the time of directing such advertisement a time shall be fixed for adjudicating on the claims.

Creditors need not attend without notice. **RULE 42.**—Every such claim shall be accompanied by a affidavit in support of such claim but no such creditor or other person need make any affidavit or attend in support of his claim unless he is served with a notice requiring him to do so as herein-after provided.

Securities deeds and documents to be produced to registrar. **RULE 43.**—Every creditor shall produce or transmit to the registrar any security held by him at such time as shall be specified in the advertisement for that purpose being the time appointed for adjudicating on the claims and every creditor shall if required by notice in writing to be given by the registrar produce or transmit to the registrar all other deeds and documents necessary to substantiate his claim before the registrar at his office at such time as shall be specified in such notice.

Pedigree or proof to be produced to registrar. **RULE 44.**—Every person claiming as heir-at-law devisee next of kin or legatee shall if required by notice in writing to be given by the registrar produce or transmit to the registrar any pedigree or proof mentioned in such notice within such time as shall be therein specified.

Costs when not allowed. **RULE 45.**—In case any creditor or other person shall neglect or refuse to comply with the two last preceding rules he shall not be allowed any costs of proving his claim unless the Judge or the registrar shall otherwise direct.

Proof of debts or claims. **RULE 46.**—At the time appointed for adjudication upon the debts or claims the Judge or the registrar as the case may be shall take the evidence of the executor administrator or other accounting party upon such debts or claims and may thereupon in his discretion allow any of such debts or claims without further proof and may direct such investigation of all or any of the debts or claims not allowed and require such further particulars information or evidence relating thereto as he may think fit and may if he so think fit require any creditor or other person to attend and prove his claim or any part thereof and the adjudication on such claims as are not then allowed shall be adjourned to a time to be then fixed.

Notice of allowance. **RULE 47.**—Notice of allowance shall be given by the registrar to every creditor or other person whose claim or any part thereof has been allowed and notice shall also be given by him to every such creditor or other person as he shall think fit or as he may be

be directed by the Judge to do to attend and prove his claim or such part thereof as is not allowed by a time to be named in such notice not being less than seven clear days after such notice and to attend at a time to be therein named being the time to which the adjudication thereon shall have been adjourned and in case any such creditor or other person shall not comply with such notice his claim or such part thereof as aforesaid shall be disallowed.

**RULE 48.**—Any such creditor or other person who has not before sent in the Claims not before particulars of his claim pursuant to the advertisement may do so two days previous to made. any day to which the adjudication is adjourned.

**RULE 49.**—If any claim be sent in after the time fixed by the advertisement Claims too late. (except as before provided in case of an adjournment) the Judge or registrar may upon special application entertain the same upon such terms and conditions as to costs and otherwise as he thinks fit.

**RULE 50.**—In taking any account directed by any decretal order all just allow- Allowances. ances shall be made without any directions for that purpose in such order.

**RULE 51.**—Where the registrar bailiff receiver or any party has by any decretal Application to Judge order been directed to do any act for doing which it may be found necessary to have for further directions further directions or an order of the Court the registrar shall apply to the Judge for *mero motu.* such direction or order and upon such application the Judge may give such direction or make such order as he may think fit or may appoint a time to hear all parties upon the application so made by the registrar and if the Judge shall make such appointment for hearing the same shall operate as a stay of proceedings in the suit until the day so appointed if he shall so direct.

#### *Absent Parties.*

**RULE 52.**—Where any matter is referred to the Court or Judge or to the registrar Inquiry as to parties. by a decretal order the Court Judge or registrar as the case may be shall as soon as conveniently may be ascertain if there are any parties who if the decretal order had been made in a suit pending in the Supreme Court ought to be served with notice.

**RULE 53.**—Where it shall be necessary to serve any parties with the notice Notice to parties. mentioned in the foregoing rule the same shall be prepared by the registrar and signed and sealed by him and issued by him to the bailiff who shall serve the same and upon such notice the party served therewith may attend the proceedings under the decretal order.

**RULE 54.**—Any party who shall be served with a notice under the last foregoing Application to vary rule may apply to the Court at the next sitting or by leave of the Judge at any or add to decretal subsequent sitting to vary or add to the decretal order. order.

#### *Registrar's Certificate.*

**RULE 55.**—Where a registrar has been ordered to certify to the Court upon any Registrar's certificate. matter he shall present to the Court a certificate in writing signed by him.

**RULE 56.**—The registrar shall prepare his certificate seven days before the day Registrar's certificate appointed for presenting the same and shall give notice by post to all parties to the suit to lie in office. that the same lies in his office for the inspection of any parties interested therein or affected thereby and he shall deliver a copy thereof to any person requiring the same upon payment of the costs of such copy.

**RULE 57.**—Where any party interested in or affected by the registrar's certificate Variation of regis- desires to have the same varied he shall apply by himself or the practitioner engaged on trar's certificate. his behalf at the Court on the day appointed for presenting the same and the Judge shall thereupon hear and determine such application and shall confirm or vary the certificate and make such further order thereupon as he may think fit.

**RULE 58.**—If no application shall be made to vary the certificate it shall be Confirmation of certificate. taken as confirmed unless the Judge shall otherwise order.

#### *Final Decree.*

**RULE 59.**—When the Court has determined all the questions raised between the Final decree. parties the registrar shall as soon thereafter as conveniently may be draw up a final decree in accordance with the judgment of the Court and seal and file the same.

#### *Revivor and Supplement.*

**RULE 60.**—Upon any suit becoming abated by death marriage or otherwise or Order under. defective in consequence of any change or transmission of interest or liability the Judge shall on application of any person having a right so to apply make an order reviving the said suit or such supplementary decree or order as may have become necessary in consequence of any such matters as aforesaid.

**RULE 61.**—An order under the foregoing rule shall be drawn up by the registrar Order to be served. and sealed with the seal of the Court and issued to the bailiff who shall serve the same upon such person or persons as the Court shall direct.

**RULE 62.**—After service of such order the suit shall as between the party by Person served to be whom the order has been obtained and the party on whom it has been served be in the bound thereby and same plight and condition as it was in before it had become abated or defective as afore- may appeal. said provided that the person so served may move the Court at the next sitting or by leave of the Judge at any subsequent sitting to discharge such order and such motion shall be made upon affidavit of the facts relied upon to support the same.

PROCEEDINGS UNDER THE 5TH 6TH AND 8TH CLAUSES OF SECTION 100 OF THE ACT AND SECTION 106 OF ACT.

- Petition.** **RULE 63.**—All proceedings under the 5th and 6th clauses of section 100 of the Act shall be by petition and such petition need not show title except so far as is provided by the rules in this order.
- Petitions by trustees.** **RULE 64.**—Where a trustee petitions under the said 5th clause for an order in any matter relating to the trust he shall file his petition at the office of the registrar and leave thereat as many copies thereof as there are persons beneficially interested in the due execution of the trust and he shall state in such petition his own name address and description and also the names addresses and descriptions of the persons beneficially interested so far as he is able and the nature of the trust and how created the property or money to which the same relates and the substance of the order which he seeks to obtain.
- Petitions by guardian or trustee of infant or next friend.** **RULE 65.**—Where any guardian or trustee of any infant petitions for an order relating to the maintenance or advancement of such infant he shall file his petition at the office of the registrar and where any person as next friend of an infant petitions on behalf of such infant for an order upon or against the guardian or trustee of such infant he shall file his petition at the office of the registrar and leave thereat as many copies thereof as there are guardians or trustees. And in such petition shall be stated the names addresses and descriptions of the petitioner and of all the persons to whom such order is intended to relate and shall also state the nature of the guardianship or trust and how created of the property to which the trust relates and the substance of the order which the petitioner seeks to obtain.
- Application for injunction.** **RULE 66.**—Where any person intends to apply under the 8th clause of section 100 of the Act for an order in the nature of an injunction (except as is provided in the following rules under the head of *ex parte applications*) he shall deliver at the office of the registrar a notice of his intention to apply for the same together with as many copies thereof as there are persons upon or against whom such order is intended to be obtained and he shall state in such notice his own name addresses and description and so far as he can the names addresses and descriptions of all such persons and also the substance of the order which the petitioner seeks to obtain.
- Section 106 of Act.** **RULE 67.**—Any person desiring to pay money transfer stock or deposit security in trust to attend the orders of any County Court under section 106 of the Act shall file with the registrar of the County Court having jurisdiction in the matter an affidavit entitled in the matter of the Act and of the particular trust and setting forth:
1. His own name address and description.
  2. The place where he is to be served with any petition or summons or any notice of any proceeding or order of the Court relating to the trust fund.
  3. The amount of money stock or security which he proposes to pay transfer or deposit in trust to attend the orders of the Court.
  4. A short description of the trust or of the instrument creating it.
  5. The names addresses and descriptions of the persons interested in or entitled to or claiming to be interested in or entitled to the fund to the best of the knowledge and belief of the trustee.
  6. The submission of the trustee to answer all such inquiries relating to the application of the money or stock paid in or transferred or security deposited as the Court may think proper to make or direct.
- Form of affidavit.** **RULE 68.**—The affidavit may be in the form set out in the Schedule to these orders with such variations as each particular case may require.
- Endorsement on affidavit.** **RULE 69.**—Immediately on the receipt by the registrar of the affidavit he shall endorse thereon a memorandum of the day on which the same was received by him and when such affidavit shall be so endorsed it shall be taken for all purposes to have been duly filed on the date so indorsed thereon.
- Certificate of registrar.** **RULE 70.**—The persons filing the affidavit or any of them may apply to the registrar to give to them a certificate entitled in the matter of the Act and of the particular trust and under the seal of the Court certifying that the affidavit has been filed and such certificate may be in the form set out in the Schedule to these orders with such variation as each particular case may require.
- Payment of moneys.** **RULE 71.**—In the case of money the persons filing the affidavit or any of them may upon the receipt of the before-mentioned certificate pay the money into a post office savings bank or a chartered or incorporated banking company to be named by the registrar (in the town in which the County Court is held) under section 106 of the Act and obtain from the officer of the bank a receipt for the same and shall forthwith leave the said receipt with the registrar who shall give him an acknowledgment for the same in the form in the Schedule and the registrar shall accordingly indorse thereupon a memorandum of the day on which the same was received by him and when such receipt shall be so indorsed it shall be taken for all purposes to have been duly recorded on the date so indorsed thereon.
- Transfer of stock.** **RULE 72.**—In the case of stocks the persons filing the affidavit or any of them may upon the receipt of the before-mentioned certificate transfer the stocks into the names of the registrar of the County Court mentioned in the said certificate in trust to attend the orders of the Court and shall forthwith leave the transfer ticket with the registrar

registrar and the registrar shall immediately indorse thereon a memorandum of the day on which the same was received by him and when such transfer ticket shall be so indorsed it shall be taken for all purposes to have been duly recorded on the day so indorsed thereon.

**RULE 73.**—In the case of security the person filing the affidavit may forthwith deposit the security with the registrar in the name of the registrar in trust to attend the orders of the Court and the registrar shall immediately indorse on the affidavit a memorandum of the day on which the security was deposited with him. Deposit of security.

**RULE 74.**—The register shall within twenty-four hours after the payment into the bank of the transfer of stock or of the deposit of the security as the case may be thereof by post to the Treasurer of New South Wales stating therein the particulars of the payment transfer or deposit as the case may be which notice may be in the form in the Schedule with such variations each particular case may require. Notice of to treasurer of deposit.

**RULE 75.**—Immediately after the recording of the receipt or transfer ticket or the deposit of the security the registrar shall give to the persons paying in the said money or transferring the said stocks or depositing the security an acknowledgment or certificate of such payment or transfer or deposit and such acknowledgment or certificate may be in the form set out in the Schedule to these rules with such variations as each particular case may require. Acknowledgment of payment.

**RULE 76.**—Immediately after the recording of the receipt or transfer ticket or giving a certificate of deposit of security the registrar shall cause the necessary entry to be made in the register part II and also in the Suitors' Fund Book including the *title of the particular trust* and the *amount of money or stock paid or transferred or security deposited* and the names and addresses of the *person or persons making such payment transfer or deposit* and the names of every person stated in the affidavit to be or to claim to be interested in or entitled to such money or stock and their addresses and descriptions as given in the affidavit and the registrar shall forthwith by post send to each of such last-mentioned persons to the addresses given in the affidavit a notice of the said payment transfer or deposit which notice shall be under seal of the Court and may be in the form set out in the Schedule to these rules with such variations as each particular case may require. Entries in books, &c

**RULE 77.**—Any person interested in or entitled to the fund or (if need be but not otherwise) the trustee may apply by petition respecting the investment paying out or distribution of the fund or income thereof and the petition shall be filed at the office of the registrar and the petitioner shall leave thereat where the petition relates to the income only of the fund as many copies thereof as there are trustees and persons other than the petitioner interested in the due execution of the trust so far as regards the income only and in all other cases as many copies thereof as there are trustees and persons other than the petitioner interested in the due execution of the trust and he shall state in such petition his own name address and description and a place where he may be served with any petition or notice of any proceeding or order of the Court relating to the said fund and also the names addresses and description of the other persons interested so far as he is able the nature of the trust and how executed the trust property and the substance of the order which he seeks to obtain. Who may petition for order as to fund.

**RULE 78.**—Unless the Judge shall otherwise direct the trustee shall be served with notice of every application made to the Court respecting the fund or the income by any person beneficially entitled thereto. Notice to trustees.

**RULE 79.**—Where a trustee shall have availed himself of the provisions of section 106 of the Act without sufficient reason the Judge may direct such trustee to bear his own costs and pay the costs of any other parties or to bear and pay any part of such respective costs as the Judge shall think fit. When trustee to pay costs.

**RULE 80.**—Under this order petitions shall be filed and notices shall be delivered at the office of the Registrar seven days before the sitting of the Court at which the petition is to be heard or application made. Time of filing petitions and giving notices.

**RULE 81.**—The Registrar upon receiving any such petition or notice and the copies thereof shall issue the copies under the seal of the Court to the bailiff for service upon the respective persons to whom they are addressed together with a notice signed by himself and under the seal of the Court informing them of the day and hour on which the petition or application will be heard and if they do not attend either in person or by their attorneys or counsel such order will be made and proceedings taken as the Judge may think just and expedient. Registrar to issue notices.

**RULE 82.**—The bailiff of the Court shall four clear days at least before the hearing serve all copies of such petitions and notices. Service of petitions and notices.

**RULE 83.**—Upon the hearing of any petition or application under this order unless the Judge shall otherwise direct the facts relied upon in support of or in opposition to such petition or application shall be proved by affidavit. Facts may be supported by affidavit.

**RULE 84.**—Where the Judge makes an order upon such petition or application the Registrar shall as soon thereafter as conveniently may be draw up seal and file such order. Registrar to draw up order.

**RULE 85.**—The preceding orders relating to suits shall in all cases where they are applicable be construed as extending to proceedings under this order. Orders as to suits to extend to proceedings.

#### *Ex parte applications.*

**RULE 86.**—Wherever in any suit or proceeding it shall become necessary to secure the possession of any property or to obtain security from any person for any moneys in his possession or to enforce the deposit or the payment into Court thereof pending Peremptory motions.

pending litigation or the immediate sale of any goods or chattels and the deposit or payment into Court of the purchase-money thereof or to obtain an order in the nature of an injunction any party may apply *ex parte* to the Judge either in or out of Court upon affidavits setting forth the facts rendering such order immediately necessary and upon such application the Judge may either make an order absolute in the first instance or make an order to be absolute at any time to be ordered by him unless cause be shown to the contrary or may make such other order or give such directions in the matter as the Judge may think fit and may order immediate execution.

Orders how drawn and executed.

**RULE 87.**—The order when signed by the Judge shall be transmitted by the applicant to the Registrar of the Court in which the suit or proceeding is pending who shall seal and file the same and issue a copy thereof under the seal of the Court to the bailiff for service and execution shall be issued thereon as by the order is directed.

#### Amendments.

Amendments.

**RULE 88.**—The Judge may at or during the hearing and before a final decree or order be made in any suit or proceeding under the Act exercise all powers of amendment mentioned in section one hundred and nineteen of the Act and also all the powers and authorities of a Judge of the Supreme Court sitting in equity and the rules relating to amendment in actions shall apply so far as they are applicable to all suits and proceedings in equity.

[And see the preceding Rules under head "Parties."]

#### Rehearing.

Rehearing to be allowed on special grounds only.

**RULE 89.**—No decree or order once made shall be reheard unless in any case in which the Judge on special grounds shall think such rehearing necessary and then only on such terms as the Judge may think just.

#### Enforcement of Decrees and Orders.

Service of decree or order.

**RULE 90.**—On the application of the party entitled to the benefit of the decree or order the Registrar shall issue to the bailiff a copy of such decree or order under the seal of the Court with a notice to the party to be bound indorsed thereon and the bailiff shall forthwith serve the same upon the party to whom such notice is addressed.

When execution may issue.

**RULE 91.**—No process shall issue to enforce any decree or order unless by leave of the Judge until three days after a copy thereof under the seal of the Court shall have been served upon the party to be bound thereby.

Warrant of *fi. fa.*

**RULE 92.**—Where any decree or order is made for the payment of money into Court or by one party to another the Registrar shall after the expiration of the time if any appointed by the decree or order for the payment thereof and after the expiration of the time limited by this order upon application by the person having the conduct of the suit or by the payee issue to the bailiff of the Court a warrant of execution as provided by section eighty-one of the Act.

Warrant of possession or assistance.

**RULE 93.**—Where a decree or order made in any suit or proceeding for the delivery up to any person of lands or tenements goods or chattels either as owner thereof or to be sold or to be held in possession until an order is made as to the disposition thereof the Registrar shall upon the application of the person entitled to such possession issue to the bailiff either a warrant of possession or warrant of assistance as the case may require.

Service of orders in the nature of an injunction.

**RULE 94.**—Where an order in the nature of an injunction has been made whether made *ex parte* or not the registrar shall if the party by whom it was obtained desires to have the same served by his attorney issue for service a copy of such order under the seal of the Court to such party.

Where a person makes a breach of an order in the nature of an injunction notices to be served upon him to show cause why he should not be committed.

**RULE 95.**—Where any breach of an order in the nature of an injunction shall have been made the registrar shall upon the application by the person having the conduct of the suit issue to the bailiff or to such person for service by his attorney a notice under the seal of the Court requiring the person who shall have been guilty of the breach of the said order to appear at a Court to be held on a day to be named therein to show cause why he should not be committed for contempt for having disobeyed the said order.

Where a person neglects to obey a decree or order notice to be served on him to show cause why he should not be committed.

**RULE 96.**—Where any person is required by any decree or order to pay money or do an act within a certain number of days after service of the copy of the decree or order and such person shall not have paid such money or done such act within the time mentioned therein the registrar shall upon application by the person having the conduct of the suit issue to the bailiff or to such person for service by his attorney a notice under the seal of the Court requiring the person who shall have neglected to obey the decree or order to appear at a Court to be held on a day to be named therein to show cause why he should not be committed for contempt in having neglected to obey such decree or order. Provided always a party shall not by proceeding under this rule be precluded from enforcing the order by warrant of execution or any other process of the Court.

#### Funds in Court.

Registrar's accounts to be audited.

**RULE 97.**—The accounts of a registrar in equitable proceedings shall be examined and audited in the same manner as his accounts in other proceedings are now or shall be examined and audited.

RULE

**RULE 98.**—Where a party is directed to pay money into Court he shall attend and pay the same into the office of the registrar before the hour of two o'clock in the afternoon and on Saturdays before the hour of eleven in the forenoon and obtain a receipt for the amount and the registrar shall unless otherwise ordered by the Judge pay the same into such bank as the Judge shall direct. Payment into Court.

**RULE 99.**—The registrar shall enter in the "suits' cash book" and in the "suits' fund book" all sums so paid to the account of the suit or matter in which it is paid. Entry of payment into Court and payment of interest.

**RULE 100.**—Where any married woman is interested in any principal money stocks shares or securities exceeding in value £200 or £10 in annual payments she shall be examined by the Judge apart from her husband to ascertain whether the same shall be paid to him or made the subject matter of a settlement but if she be under age the Court shall order a proper settlement to be made. Married women.

#### *Transfer of Proceedings to or from the Supreme Court.*

**RULE 101.**—If during the progress of an enquiry under order of the Court it shall be made to appear that the subject matter of the suit or proceeding exceeds the amount to which the jurisdiction of the Court is limited the registrar may proceed with the particular account or inquiry which is then before him unless he thinks it inexpedient so to do but he shall at the next sitting of the Court present a certificate of the state of the suit and proceedings and if the Judge shall be of opinion that such excess exists he shall make an order for the transfer of the suit or matter to the Supreme Court and the registrar shall make and file with the record a copy of such certificate and order and shall transmit the original together with the order of the Judge thereupon under the seal of the Court by post or otherwise to the office of the Master in Equity or other office or officer as their Honors the Judges of the Supreme Court may by general order direct and shall also send notice by post or otherwise of the fact to all parties and persons entitled to be served with a copy of the decree. Transfer to Supreme Court where subject matter exceeds the amount to which jurisdiction is given by Act.

**RULE 102.**—Where any suit or proceeding is transferred under section 103 of the Act to a County Court the plaintiff shall lodge with the registrar thereof the order of transfer together with all original documents in the suit or proceeding in his possession and also a statement of the names and addresses of the several parties to the suit and their attorneys and the defendant shall lodge all original documents in the suit or proceeding in his possession and either party shall from time to time lodge office copies of any further documents the Judge or registrar may require. Transfer from Supreme Court.

**RULE 103.**—The registrar shall forthwith endorse on the order of transfer the date on which the same was lodged. Indorsement.

**RULE 104.**—When the order of transfer is lodged the registrar shall forthwith apply to the Judge for directions as to the further steps in the suit or proceeding and thereupon the Judge may give such directions for carrying on the suit or proceeding as he may think fit or he may appoint a time to hear and determine any matters in such suit or proceeding and direct the registrar to summon all parties to appear on the day so appointed. And the Judge shall also if he think fit order the registrar to give notice to the parties to the suit or proceeding or any of them that the order of transfer has been lodged. Registrar to apply to Judge for instructions.

#### *Special Duties of Registrar.*

**RULE 105.**—Before any summons notice or other document or any copy thereof shall be issued by the registrar the same shall be sealed with the seal of the Court. Summonses &c. to be sealed.

**RULE 106.**—Where the registrar is required by any decretal order to make inquiries or to take accounts he shall appoint some day being not less than fifteen clear days from the date of such order to sit in his office or at the Court to hear and determine all matters relating to such inquiry and accounts and he shall forthwith prepare and insert advertisements in conformity with such order stating the time place and purpose of such sitting and shall insert the same ten days previous to such sitting. Registrar to appoint time and place for inquiries and taking accounts.

**RULE 107.**—Upon the day so appointed the registrar shall sit at the time and place appointed and shall hear all parties interested and the practitioners engaged in their behalf. Hearing before registrar.

**RULE 108.**—Where a registrar is not prepared to certify to the Court on the day mentioned in the order he shall apply to the Judge for an extension of time and state the reason for making the application and he shall give notice by post or otherwise to the parties of the enlargement of the time and of the day on which he is to certify. Further time for certificate.

**RULE 109.**—Whenever a notice for appeal is given the registrar shall detain the proceeds of any execution which may then be in or may come into his hands pending such appeal to abide the event of such appeal unless the Judge shall otherwise order. Registrar to retain money to abide result of appeal.

#### *Special Duties of Bailiff.*

**RULE 110.**—Where any personal property is directed to be sold by auction the bailiff shall superintend the sale and where the property is to be sold by private contract he shall carry out the directions of the Court in respect of such sale. As to sale of personal property.

RULE

Possession.

**RULE 111.**—Where a warrant shall direct the bailiff to take possession of without selling or delivering to a party any goods or chattels he shall make or cause to be made an inventory or appraisement of the goods or chattels which he may take into his possession and may upon receiving as a deposit the amount of such appraisement or sufficient security to be approved by the registrar for the safe custody and for the delivery up of possession upon request of such goods and chattels relinquish the possession thereof on condition that the same shall be re-delivered to him or held to abide the order of the Court.

*Duties of Receiver.*

Receiver to give security.

**RULE 112.**—Every receiver appointed by the Court other than the bailiff shall give such security by bond to the registrar for the faithful discharge of his duties and the payment over of money as the Court shall direct.

His accounts to be audited by registrar and when.

**RULE 113.**—The receiver shall submit to the registrar and the registrar shall audit the accounts of the receiver which need not be in any particular form as soon as conveniently may be after the receipt or realization of the assets and immediately after such audit shall pay over to the registrar the balance found thereby to be in his hands.

To produce voucher and if required verify on oath.

**RULE 114.**—The registrar may require any receiver to produce any receipt accounts and vouchers necessary for verifying the accounts and may disallow any item not proved to his satisfaction and may if he shall think fit require any receiver to verify such accounts and vouchers upon oath.

To produce account for audit upon notice.

**RULE 115.**—The receiver shall at any time before the complete realization of the assets produce his accounts to be audited in manner provided by this order upon receiving seven days' notice in writing from the registrar so to do and such notice may be sent by post or otherwise to the address of the receiver.

Audit once a year.

**RULE 116.**—Where the duties of the receiver are continuous no longer period than one year shall in any case be allowed to intervene between each audit.

Parties need not attend audit.

**RULE 117.**—In no case shall it be necessary for any party to attend at the audit of the receiver's account but where a party is dissatisfied with a receiver's account he may apply to the Court or registrar for a revision of the registrar's allowances.

Court may order income to be paid direct to parties.

**RULE 118.**—The Court may order the receiver to pay over at such time or from time to time as it shall see fit to the party entitled to the beneficial interest therein or to the guardian of any infant any yearly or other accruing rents or interest instead of paying the same into Court and to take credit for such payments in his accounts when audited.

*Practice.*

Proceedings may be wholly or partly printed.

**RULE 119.**—All plaint summonses petitions statements and documents whatsoever in any suits or matter under this order which are required to be filed should for convenience of filing be on foolscap paper and may be wholly or partly printed or written and dates and sums occurring therein may be expressed in figures.

Documents to be sealed.

**RULE 120.**—All judicial or official documents in any suit or proceeding issued by the Court shall be stamped by the registrar with the seal of the Court.

Service.

**RULE 121.**—Every document the mode of serving which is not specially defined by these rules may be served and the service thereof may be proved in conformity with the rule as to the service of summonses excepting so far as the same relates to the time of service.

Change of attorney.

**RULE 122.**—Where any party to a suit or proceeding changes the practitioner he may have engaged he shall give notice in writing of such change to the registrar stating the name or firm and place of business of the new practitioner and the registrar shall file the notice.

Setting down for hearing.

**RULE 123.**—On the entry of a plaint or filing of a petition, the registrar shall set down the suit or matter for hearing by in the case of a plaint making the plaint summons returnable on a day certain and in the case of a petition inserting in the notice the day on which the matter is to be heard. But the suit or matter may be heard on any other day directed by the Judge.

Days for equity sittings.

**RULE 124.**—The times of the sitting of a County Court in matters of equity shall be those appointed for the transaction of the general business of the Court unless the Judge shall otherwise order and shall appoint a special day or days for a sitting of the Court in matters of equity.

Where Christian name unknown.

**RULE 125.**—Where any party to any suit or proceeding is unacquainted with the Christian name of any person whose name he desires to insert in any plaint summons proceeding or document he may describe such person by his surname or by his surname and the initial of his Christian name or by such name as he is generally known by.

Copy of documents for use of Judge.

**RULE 126.**—Where any proceedings or documents are filed an extra copy in addition to the copies to be delivered under these orders shall be left with the registrar for the use of the Judge *prociptes* and plaint summonses excepted.

Copies of proceedings to be forwarded to Judge.

**RULE 127.**—The registrar shall if so desired by the Judge transmit by post prepaid to the Judge five days before the sitting of the Court all copies of proceedings and documents left for his use under these rules.

Acts may be done by counsel or attorney.

**RULE 128.**—Where by these orders any act is to be or may be done by any party to a suit or proceeding such act may be done either in person or by his counsel or by his attorney.

RULE

**RULE 129.**—Where by reason of the absence of any party or from any other sufficient cause the service of any summons notice proceeding or document cannot be made or ought in the opinion of the Judge to be dispensed with the Judge may wholly dispense with such service or may at his discretion order any substituted service or notice by advertisement or otherwise in lieu of such service. Substituted service.

**RULE 130.**—The Judge shall order in what newspaper any advertisements which may from time to time be ordered in any suit or proceeding shall be inserted and when there is no fund in Court applicable the expense of such advertisement shall be paid to the registrar by the party requiring the same before they are inserted. Judge to order in what newspapers advertisements to be inserted and costs thereof to be prepaid.

**RULE 131.**—The Judge may order what party shall have the conduct of any suit or proceeding or any part thereof and may rescind or alter such order or make new orders in that behalf from time to time as he shall think fit. Conduct of suit.

**RULE 132.**—The Judge may if he think fit enlarge or abridge any of the times fixed by these orders for taking any step or filing any document or giving any notice in any suit or proceeding. Court may enlarge or abridge periods mentioned in these orders.

**RULE 133.**—Before the name of any person shall be used in any suit or proceeding as next friend of any infant married woman or other party such person shall sign an undertaking to be responsible for any costs for which the plaintiff or applicant may become liable in the course of the suit of proceeding and such undertaking shall be annexed by the registrar to the plaint summons or petition. Undertaking by next friend to pay costs.

**RULE 134.**—If suits or proceedings shall be commenced in different Courts by parties in the same interest such suits or proceedings shall be transferred to the Court in which the first plaint or petition was filed and shall there be proceeded with in the same way in all respects as if they had been commenced in that Court. Transfer of suits or proceedings from one Court to another in certain cases.

**RULE 135.**—The registrar shall if so ordered by the Judge tax costs but in the absence of such order the Judge shall tax costs. Taxing costs.

**RULE 136.**—Creditors are to be entitled to interest in respect of debts as to such of them as carry interest after the rate they respectively carry and as to all others after the rate of £5 per cent. per annum from the date of the decretal order and to costs of successfully proving such debts according to the scale of costs in that behalf. Interest on debts.

**RULE 137.**—Interest is to be computed on legacies after the rate of £5 per cent. per annum from the end of one year from the date of the testator's death unless otherwise ordered or a different rate is directed by the will. Interest on legacies.

**RULE 138.**—Any person who may be in custody may apply to the Judge for his discharge therefrom upon giving to the party at whose suit he was committed notice of his intention so to apply two days previous to his applying.

**RULE 139.**—The rules and forms and practice in actions in the County Courts shall subject to the rules under this order be adopted with reference to suits and proceedings in equity so far as they shall be respectively applicable. General practice rule.

## ORDER V.

### APPEAL.

#### *Preparation of Case.*

**RULE 1.**—The party desirous of appealing in any action-at-law or suit in equity shall so soon as he shall have taken the steps necessary under the Act to enable him to appeal prepare the case for the appeal which shall be in the form in the Schedule and he shall deliver the same to the opposite party or to the practitioner engaged on his behalf and if there be several such parties appearing separately or by separate practitioners then a copy to each of such parties or to each of the practitioners so engaged within fourteen days after the decision appealed from and such parties hereinafter called the respondent shall return the case to the appellant indorsed as either agreed to or dissented from within fourteen days after the respondent shall have received the same. Sec. 122.

**RULE 2.**—If the respondent do not return the case to the appellant within the time fixed by the last preceding rule the appellant shall forthwith take out a summons returnable before the Judge calling upon the respondent to show cause why he should not agree to the case or why the Judge should not treat the case as one upon which the parties cannot agree and if the respondent upon the return of the summons shall not agree to the case so sent to him and shall not satisfy the Judge that he should be allowed further time for considering the case the parties shall be considered to have disagreed and a note to that effect shall be indorsed on the summons and the respondent shall hand the case to the Judge who shall so soon as he shall have settled the case sign the same with a statement thereon that the parties have disagreed and it shall then be sealed by the registrar.

**RULE 3.**—If the Judge on perusing the case and the respondent's emendation thinks fit he may strike out the whole or any part of the statements of the case and evidence by both parties and substitute copies of his own notes of the evidence with such remarks (if any) upon the evidence and the demeanour and conduct of the witnesses in giving their evidence in the course of the hearing as he may think fit.

#### *Time for transmitting Case.*

**RULE 4.**—Except as provided in the next rule every case shall be transmitted to the proper officer of the Supreme Court in accordance with section 120 of the Act within two months from the date of the judgment decree or order appealed from. Sec 122.

RULE 5.—If the case should not be returned by the Judge settled and signed within fourteen clear days after he shall have received the same then he shall indorse upon the case an enlargement of the time for transmitting the case to the proper officer of the Supreme Court of fourteen days from the day upon which he shall return the case so settled and signed to the appellants.

*Time within which Appeal must be prosecuted.*

Sec. 122.

RULE 6.—Every appeal must be prosecuted at the next available sitting of the Court after the case shall have been transmitted to the proper officer.

*Copy of Judge's notes.*

RULE 7.—Any party to the suit may obtain a copy of the Judge's notes of the evidence at the hearing from the registrar upon payment to the registrar for his own use of a reasonable compensation for copying the same such compensation not to exceed 2s. a folio.

ORDER VI.

PROBATE AND ADMINISTRATION.

*Probate.*

RULE 1.—That every application for probate of a will or for letters of administration shall be made by motion to the Court during an ordinary sitting or upon any day whether during an ordinary sitting or not appointed by the Judge for hearing applications for probate.

RULE 2.—That no probate of any will or administration of any intestate's effects shall be granted to any person except after the expiration of fourteen days after the publication of an advertisement by him or some practitioner on his behalf in a newspaper circulating in the neighbourhood of the residence of the deceased testator or intestate and in some Sydney newspaper of his or her intention to apply for the same.

*Ex parte.*

RULE 3.—That every *ex parte* application for probate of a will shall be supported by an affidavit setting forth—

1. The death of the testator and the time of his decease.
2. That he has left a will and the date thereof.
3. The name and residence of each executor.
4. The names and residences of the subscribing witnesses thereto.
5. That no caveat has been lodged and that application for probate has not been made to the Supreme Court or to any other County Court.
6. That the property of the deceased exclusive of what he may have been possessed of or entitled to as a trustee and without beneficially but not deducting anything on account of the debts due and owing from the deceased was at the time of his death under the value of £300.
7. The facts which constitute the County Court to which the application is made the proper County Court to entertain the application namely either that it is the County Court holden nearest to the place in which the deceased had at the time of his or her death a fixed place of abode or in which any portion of the property of the deceased may be or in which the executors or any of them has a fixed place of abode.

And if the will be executed by the testator by his affixing his mark thereto that an affidavit of the due execution thereof shall also if possible be made by one or more of the subscribing witnesses thereto And every such affidavit together with a further affidavit of the executor or executors that he or they will administer shall be filed before probate of the will shall be issued The affidavits required by this rule shall be as nearly as may be in the forms in the Schedules.

*Administration.*

RULE 4.—That every *ex parte* application for letter of administration to the widow or next of kin of any deceased person shall be supported by an affidavit setting forth—

1. The death of the party and the time of his decease.
2. That he died intestate leaving property in New South Wales under the value of £300 exclusive of what he may have been possessed of or entitled to as a trustee and not beneficially but without deducting anything on account of the debts due and owing from the deceased.
3. What relation or next of kin he left surviving him so far as the same may be stated.
3. The name and residence of each executor.
4. That the party making such application is the widow or next of kin of such deceased person and entitled by law as he or she believes to such administration.
5. That no caveat has been lodged and that application for administration has not been made to the Supreme Court or to any other County Court.
6. The facts which constitute the County Court to which the application is made the proper County Court to entertain the application namely either that it is the County Court holden nearest to the place in which the deceased had at the time of

of his or her death a fixed place of abode or in which any portion of the property of the deceased may be or in which the persons seeking letters of administration or any of them has a fixed place of abode.

*Administration at suit of a Creditor.*

**RULE 5.** That in all cases where a creditor shall intend to apply for letters of administration he shall previous to such application go before the Judge either in or out of Court and prove his debt by affidavit and the Judge shall admit or reject proof of such debt and indorse upon the affidavit whether he admits or rejects the proof and if the Judge admits the debt he may order which order may be indorsed upon the affidavit of debt that a plaint summons do issue calling on the widow and next of kin of the deceased person or such of them as may be known to the creditor to appear before the Court on a day to be named in such summons to show cause why administration of the goods of the deceased shall not be granted to such creditor and such plaint summons shall be made returnable at such time and place as the Judge shall direct and shall be published once in each of two consecutive weeks in two newspapers to be named in the order directing the issue of such plaint summons and no administration shall except in cases where the defendant or caveator appears upon the return day be granted to such creditor unless upon an affidavit setting forth—

1. The death of the party and the time of his decease.
2. That he died intestate leaving property in New South Wales under the value of £300 exclusive of what he may have been possessed of or entitled to as a trustee and not beneficially but without deducting anything on account of the debts due and owing from the deceased.
3. What relations or next of kin he left surviving him so far as the same can be stated.
4. That the party making the application is a creditor and to what amount.
5. That he has proved his debt.
6. That he has duly published the plaint summons.
7. That no caveat has been lodged or that a caveat has been lodged but that the caveator has not appeared upon the return day to support his caveat and that the applicant has not previously made application for administration either to the Supreme Court or to any other County Court.
8. The facts which constitute the County Court to which the application is made the proper County Court to entertain the application namely either that it is the County Court holden nearest to the place in which the deceased had at the time of his or her death a fixed place of abode or in which any portion of the property of the deceased may be or in which the persons seeking letters of administration or any of them has a fixed place of abode.

**RULE 6.**—That upon the return day of such plaint summons any person named as defendant in such plaint summons or any person applying to be made a defendant shall be heard against the issuing of such letters of administration and although no caveat shall have been entered but if a caveat shall have been entered then the person who has entered the same shall be heard as a defendant to such plaint summons without any fresh plaint summons being issued and although no grounds of defence have been delivered under the following rules.

*Administration Bond.*

**RULE 7.**—That before any letters of administration shall issue the Judge may if he think fit require in addition to an administration bond by the person to whom the letters may be granted that two approved sureties shall join him in such bond.

**RULE 8.**—That the proposed administrator and his sureties (if any ordered) shall attend before the registrar and justify upon affidavit which affidavit shall specify the particulars of the property of the person or persons making the same and the value of such particulars over and above his just debts and liabilities respectively and such affidavits shall be filed with the registrar who if not fully satisfied therewith may require further information or assurance as to the sufficiency of the security either by further affidavit or by examination before him upon oath.

**RULE 9.**—When the registrar shall be satisfied with the sufficiency of the security an administration bond in the form or to the effect in Schedule shall be executed in the presence of the registrar who shall attest and file the same.

*Caveat and other Proceedings in administration suits.*

**RULE 10.**—That every caveat against an application for probate of a will or letters of administration shall be filed in the office of the registrar by a practitioner within fourteen days next after the first publication of notice of the intention to apply for probate or letters of administration and such practitioner shall at the same time file with the registrar his authority in writing for lodging the same together with an undertaking signed either by the party in whose name such caveat is lodged or by such practitioner to appear to any suit that may be instituted by the party applying for such probate or letters of administration and no service of the plaint summons in such suits shall be required.

**RULE 11.**—That in any case where a caveat shall have been lodged the party applying for probate or letters of administration (who shall be deemed to be the plaintiff in the suit) shall by an attorney or by a barrister duly authorised in writing (whose authority shall be filed with the registrar) deliver either personally or through the post to the person against whom he intends to proceed (who shall be deemed to be the defendant

in

in the suit) a plaint summons in the form or to the effect in Schedule returnable upon a day to be named therein and such plaint summons shall set forth in a simple and compendious manner the names of all the defendants and the true ground of the plaintiff's cause of suit and every such plaint summons shall be entered in the register Part III and shall be sealed by the registrar in the same manner as plaint summonses under Parts II and III of Act and every such plaint summons shall be delivered or sent by the post to each of the defendants in such times as that in the course of post it shall be received by the defendants fourteen days before the return day thereof.

RULE 12.—That every defendant shall within ten clear days after he shall have received such plaint summons deliver to the plaintiff or to the practitioner whose authority shall have been filed either personally or through the post notice of defence setting forth in a simple and compendious manner the points of law or matters of fact or both on which he rests his defence and the issues thus raised shall be deemed the issues to be tried. But if the Judge thinks fit he may either before or upon the return day, relax this rule in favour of defendants who have omitted to give the notice in sufficient time.

RULE 13.—That if the defendant or defendants to whom a plaint summons has been duly delivered shall not give notice of defence within the required time or having given such notice shall not appear upon the return day of the plaint summons his or their caveat shall be considered as abandoned and the Judge may upon the return day or upon such other day as he shall think fit without any further notice being given to the defendant make a decree for probate or letters of administration as though no caveat had been entered.

RULE 14.—That if upon the return day of the plaint summons the defendants shall attend and the plaintiff shall not attend or if both parties attend and the plaintiff shall fail to obtain a decree for probate or for letters of administration the defendants shall be absolved from the suit but shall have judgment for their costs the amount of which the Judge shall ascertain and which costs may be recovered as upon a judgment under Part II of the Act and the payment of such costs shall be a condition precedent to the institution of any new suit by the plaintiff.

RULE 15.—That if both parties appear on the return day of the plaint summons the cause shall be heard and determined (subject to such adjournments and to such interlocutory orders or sentences and references as the Judge may think necessary) as near as may be and in the same manner as a cause under Part II or under Part III of the Act.

RULE 16.—That in case of an interlocutory sentence referring any matter to the registrar he shall appoint an early day for the parties to attend him and a copy of such appointment being served within such time and in such manner as the registrar shall direct on all the other parties. The registrar upon affidavit of the service thereof may proceed as he may deem expedient until he shall have completed his investigation and in all cases where in consequence of any such reference it shall be necessary for the registrar to examine any parties claimants or witnesses he may examine them or any of them upon written interrogatories or *visá voce* or in both modes as the nature of the case may require and if evidence be given *visá voce* he shall take down the examination of the witness in writing in order that the same may be used by the Court if necessary and the registrar shall issue summonses for the attendance of such witnesses before him as he shall deem necessary at the expense of the party on whose behalf such witness shall be required.

RULE 17.—That "sentences" which may be indifferently called judgments decrees or orders shall be carried into execution in like manner as in any judgment or order under the Act.

RULE 18.—That in suits for the revocation or cancellation of probate or letters of administration the person seeking sentence of revocation or cancellation shall be the plaintiff and the executor or administrator (as the case may be) shall be defendants and such suits shall be instituted carried on and determined in the same manner or as near as may be as suits for obtaining probate or letters of administration are directed by these rules to be instituted carried on or determined.

#### *Inventory by Executors and Administrators.*

RULE 19.—That all executors and administrators do and shall make or cause to be made a true and perfect inventory of all and singular the lands goods chattels and credits of the deceased which have or shall come to the hands possession or knowledge of them respectively or into the hands or possession of any other person or persons for them respectively and the same so made to sign with their proper handwriting (or mark if illiterate) and do and shall exhibit and deposit or cause to be exhibited and deposited the same inventory to the office of the registrar within three calendar months next ensuing the order granting probate or letters of administration respectively and further do and shall respectively make or cause to be made a true and just account of their administration of the estate which they have undertaken as to their receipts and disbursements and as to what portion is retained by them and what portion remains uncollected and the same so made to sign with their proper handwriting (or mark if illiterate) and do and shall respectively exhibit and deposit or cause to be exhibited and deposited the same account to the said office of the registrar within fifteen calendar months next ensuing the order granting probate or letters of administration respectively. Provided that the Court may under special circumstances by order dispense with the performance of this rule or excuse the omission to have performed it as to allowing administration bonds to be put in suit.

## No. 2.

## Judge Forbes to The Attorney General.

Judge's Chambers, Temple Court, King-street, October 4, 1880.

My dear Attorney General,

In forwarding to you a draft of a proposed new Act which I have taken much care in preparing chiefly from the Victorian Act, but partly from our own, and which if passed would, I think, be a great improvement on our present District Court Act, I wish to offer a few remarks and give my reasons shortly for the changes I propose.

2. I have named this Act the "County Court Act of 1881," not with any reference to counties, but merely as a name by which such courts are known in England, Victoria, South Australia, Queensland, and elsewhere, and instead of confining the jurisdiction of each Court to a district, the Act, while it gives each County Court jurisdiction over the whole colony, only permits the plaintiff to sue either at the County Court nearest to the residence or place of business of the defendant, or at that nearest to the place where the cause of action arose, provided such Court be not more than 100 miles distant from the residence of the defendant. This is according to the Victorian plan, and better than ours, which requires whenever a new District Court is to be established that a new district must be carved out, and new boundaries for it and those adjoining it be defined, causing expense, complication, trouble, and delay; besides this colony is sufficiently cut up already into districts, settled, unsettled, police, municipal, Crown Lands, gold-mining, and others, to make it undesirable to add to the number. The name "District Court" has already led to the blunder of one district being fixed for the Court and another for the Judge, which was not the intention of the Act, and so I think County Court Act better than District Court Act, and have named the Act accordingly. Sec section 5.

3. The procedure under this proposed Act is made subject to modification by the general rules and orders, and as rules and orders have been carefully prepared for the Victorian Act, I have altered and arranged them so as to apply to the proposed Act, and you will find them appended at the end, although these of course merely accompany the Act as a suggestion. I have not had the forms printed, because it will be time enough to do that if you approve of what I have prepared, and get the Act passed into law.

4. The proposed Act, which for convenience of reference is divided into six parts, extends the jurisdiction of the present District Courts to actions of trespass and ejectment where the title to land is in question, and to equity, probate and administration; but as this extended jurisdiction is given to the County Courts in Victoria by the Victorian Act, which has been in force for the last nine years, and as I have been assured by the County Court Judges in Victoria, who I have frequently spoken to on the subject, that their Act has done its work well and given general satisfaction, I do not think that much fear need be entertained that a like jurisdiction, if conferred on the Judges of this colony, would lead to less favourable results, especially as the mode of appeal is easy, and power is reserved to the Judges of the Supreme Court to have any case of importance transferred there.

5. Part I. of the proposed Act provides for the establishment of County Courts, and for the appointment and qualification of Judges, Registrars, and other officers of the Courts. The Judges may be appointed for the whole or any number of Courts, and they may be changed from one Court or one set of Courts to another, as the Government may think advisable.

6. Part II. of the proposed Act relates to the jurisdiction at common law, and this I have made to extend to "All personal actions where the amount, value, or damages sought to be recovered shall not be more than £500." I have fixed the amount at £500 because all the practitioners at the Courts which I visit, and many of the most influential of the inhabitants in the neighbouring districts, have for years past expressed an opinion that these Courts should have jurisdiction up to that amount, and I have heard many leading Members of our Parliament say the same thing. I notice, too, that is the amount now fixed for similar Courts in South Australia. I have not restricted the jurisdiction in any particular kinds of actions for the following reasons:—In our Courts we cannot now try an action where title to land or the validity of a devise, bequest, or limitation, under a will, or settlement, is in question, or an action for seduction; while all these kinds of actions, except the last, may be tried in the County Courts of Victoria. But the County Courts of Victoria cannot try an action where title to any toll, fair, or franchise, shall be in question, or an action for seduction, breach of promise of marriage, or for any infringement of copyright, or letters patent, all which may be tried in our Courts, except that for seduction; so that the only action excluded in common from both our Courts and the Victorian Courts is that for seduction, for which offence criminally we may try at Quarter Sessions, and therefore to exclude the jurisdiction in a civil action seems absurd.

7. In the present District Court Act, except the defendant confesses the action and pays, the plaintiff must wait until the return day of the plaint summons, and attend and prove his case. But by the proposed Act, a creditor who seeks to recover a debt or liquidated demand may issue a special summons in the form given in the 3rd schedule to the Act, service of which must be made personally upon the defendant, after which, should the defendant not give a written notice of his intention to defend the action, judgment may be signed against him and execution may issue at once, without waiting till the Court sits. Sec section 66.

8. Section 54 of the proposed Act provides for payment of money into Court, and as I have framed this quite on my own idea of what the law ought to be in reference to this in Courts where there are no pleadings, I wish to draw your attention to it. It treats payment into Court as a mere offer to compromise, which, if not accepted, does not damage the defendant's case in any way. I believe if this became law it would be the means of settling many an action which now has to be tried.

9. Under our District Court Act a jury-book is made up containing all the names of the jurors on the criminal jury list, and of these eight, twelve, or more are summoned indiscriminately to serve on the trial of civil issues. There is no provision made for striking a jury, but they are to be taken by ballot. In the proposed Act, following the Victorian plan, I have made the qualification of jurors to be summoned that of special jurors, and the mode of proceeding the same as that in the Supreme Court for juries of four.

10. Under the provisions of the proposed Act equitable defences are allowed as in Victoria, and adopting the 17th section of the Common Law Procedure Act of 1857 a cross action may by leave of the Judge be pleaded by way of set-off.

11. In ejectment jurisdiction is given to recover possession of lands, &c., where the value shall not exceed £100 by the year, or where the rent shall not exceed that sum. The Victorian Act limits it to £50, but I have made it to £100 because that will include most selections of 640 acres.

12. The equity jurisdiction and practice I have left exactly the same as it is in Victoria, only altering those parts which required alteration to suit our statutes, which, as you are aware, are not exactly the same as those in Victoria.

13. Part IV relates to probate and administration, and I have also left that the same as it is in the Victorian Act, but as I am given to believe that this part of the Act has not given satisfaction you can either leave it in or strike it out as you deem most advisable.

14. Part V relates to amendment of various appeal and general rules, and in these I have followed the Victorian practice in preference to our own.

15. Part VI relates to Quarter Sessions, which I have left the same as in our own Act.

16. Now when you come to look over the Act as I have prepared it, you will see that as each part stands by itself, except the parts I and V, any of the other parts may be struck out without damage to that which remains; for instance, if you struck out the equity part or the probate and administration part such alteration would not affect the common law part or the Quarter Sessions part.

17. If this increased jurisdiction were given to the County Courts Judges to be appointed under the proposed Act, it would relieve the Supreme Court of some of its work, and do away with the necessity of having so many Supreme Circuit Courts, which are already too many in number for the Supreme Court Judges to attend to; while, at the same time, such extended jurisdiction to the County Courts would be a great boon to those settlers in the far interior of this Colony who are not sufficiently wealthy to bring or to defend an action in the Supreme Court.

18. The present District Court Judges would under the proposed Act be the first County Court Judges, but they could hardly be expected to undertake all the additional work and responsibility which this increased jurisdiction would necessarily entail without some addition to their salaries, which for the duties they now perform are considered by many to be insufficient. I have therefore filled in the amount for the same sum, £1,500, as that paid to the County Court Judges in Victoria. There are seven District Court Judges in this Colony, and if they were each paid £500 per annum more than they now receive, the total increase would amount to £3,500; when, however, it is taken into account that in all probability four or five or even more of the Supreme Court Circuits could be discontinued, the expense of holding these Courts would be saved, and putting one against the other the balance left would not be very great.

19. I have now, I think, sufficiently drawn your attention to the different parts of the proposed Act to satisfy the purpose for which this letter was written, and leaving it now in your hands, I trust that the labour and care which I have bestowed in preparing it may meet with your approval and that of your colleagues.

I remain, &c.,

DAVID FORBES.

The Minister for Justice.—R.W., A.G., 6/10/80.  
6/10/80.—G.H.R.

The Under Secretary for Justice, B.C.

### No. 3.

#### Judge Forbes to The Under Secretary of Justice.

My dear Plunkett,

Gundagai, 4 December, 1880.

I was so desirous of handing copies of the County Court Bill, which I drew, to the Attorney General and Minister of Justice as soon as possible, that I did not wait to correct the proof a second time, and I find on reading it carefully some errors which have been made in printing clauses 9, 12, and 34, which I have corrected in the copy now forwarded. I have also made a memo. at clause 33. I have also added another clause making provision for the accidental absence of the Chairman of Quarter Sessions at the time appointed for opening the Court, similar to the provision at Circuit Courts made by 4 Vic. No. 22, sec. 18.

You will remember that I left with you a memo. to correct the copies I had already forwarded to the Attorney General and Minister of Justice, and in it added to the first schedule the repeal of 6 Vic. No. 15, and 11 Vic. No. 35; but I find there will be no necessity for this, as by the Acts Shortening Act, 16 Vic. No. 1, sec. 4, an Act repealed by an Act is not revived by the repeal of the latter. Will you therefore kindly place the corrected copy of the Act now sent, in the hands of the Minister of Justice, and draw his attention to the above remarks.

Believe me, &c.,

DAVID FORBES.

N.B.—The copy of Bill printed in this Return contains the amendment referred to in above letter from Judge Forbes.

### No. 4.

#### The District Court Judges to The Under Secretary of Justice.

(Presented by Judge Dowling, 7th January, 1881.)

Sir,

District Court, Sydney, 31 December, 1880.

We have the honor to request that you will lay before the Honorable the Law Officers of the Crown the following suggestions for amendment of the law regulating District Courts in the Colony, unanimously agreed upon by us at a meeting held here to day. We are all of opinion that an alteration of the law is expedient in the interests of the public, and we wish respectfully to submit these suggestions for the consideration of the Honorable the Crown Law Officers, as embodying those matters which have struck us as most urgently needing reform.

1. That the jurisdiction of the District Courts should be extended to include cases where the amount sued for does not exceed £300.

2. That equitable jurisdiction to the same amount should be conferred upon District Court Judges, process under such jurisdiction to issue from and causes to be heard at all District Courts, or such places only as might be proclaimed for that purpose by the Governor in Council.

3. That jurisdiction in matters of probate and administration in Estates not exceeding £300 should also be conferred upon District Court Judges.

4. That the jurisdiction of District Courts should be extended to include cases in which title to land is directly in issue, but that in all such cases an appeal should be given, irrespective of the amount sued for.

5. That judgment by default in cases of debt or liquidated money demand, under provisions similar to those of 19 and 20 Vic. cap. 103, ss. 28 and 29, should be allowed.

6. That the law with regard to the qualification of jurors and the mode in which they are summoned and paid, should be assimilated to that regulating these matters in the Supreme Court.

7. That District Court Judges should severally have jurisdiction over the whole Colony, with a salary of £1,500, and a proportionate retiring allowance after a certain period of service, or in case of permanent disability.

8. That amendments should be made in the law in the following matters (among others):—

1. Costs where the Court has no jurisdiction.

2. Payment of money into Court—in limiting plaintiff's right to take the same out of Court until after verdict, unless in full satisfaction of his claim.

We have, &c.,

JAMES S. DOWLING.

W. H. WILKINSON.

DAVID FORBES.

J. F. JOSEPHSON.

C. E. R. MURRAY.

ERNEST B. DOCKER.

I have signed this joint letter fully concurring with the resolutions as far as they go. As shown by the Bill I drafted, my opinion is that far larger amendments might be fairly suggested.—DAVID FORBES.  
Read.—J.G.L.I., 11/1/81. Acknowledge.—JUDGE DOWLING, 21/1/81.

#### No. 5.

#### The Under Secretary of Justice to Judge Dowling.

Sir,

Department of Justice, Sydney, 21 January, 1881.

I am directed by the Minister of Justice to acknowledge the receipt of your letter, dated 31st December, 1880, presented by you on behalf of the District Court Judges, suggesting certain amendment of the law regulating District Courts in the Colony.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

#### No. 6.

#### Judge Dowling to The Under Secretary of Justice.

(Presented by Judge Dowling, 7th January, 1881.)

Sir,

District Court, Sydney, 7 January, 1881.

Six of the District Court Judges met during the month of December last, and agreed to certain resolutions which were signed and forwarded to you as Under Secretary to the Department of Justice. Will you kindly bring this letter, written on my account, under the notice of the same department. The first matter I wish to refer to is the salaries of the District Court Judges. The salary of £1,000 was fixed when the District Court Act came into force in the year 1858. It may be remembered some few years ago a Bill was before the Legislative Assembly to increase our salaries, &c., and though that did not become law, yet a very general opinion was expressed of the inadequacy of our salaries. It must be borne in mind that the business of our districts, both in their civil and criminal jurisdiction, have become much heavier. I can confidently assert, and I appeal to your experience in support of my assertion, that a considerable amount of experience and ability is required for the proper discharge of our duties. It must be apparent that the services of competent men are not likely to be obtained if the salary remain so low. And although persons may be found to discharge the important duties of our office, the interest of the public, and particularly those of the litigants who are unable to pay for professional assistance are not likely to be properly protected if the Judges are not thoroughly competent.

The next matter I would mention is that the District Court Judges, after a period of service, say fifteen years, should be entitled to retire upon a pension. A Judge is in a different position to any other person—he cannot do his work by deputy, as many persons can in the Civil Service. If he be sick the work of his Court must be delayed. To perform his work with satisfaction to himself and the public he ought to be in perfect health, and in the full possession of his mental faculties. A faulty decision, if it is through mental defect, might cause ruin to many; and if through physical inability he cannot preside, serious delay must ensue. It is both in the interest of the public at large, and in the interest of the worn-out Judge, that when in that state he should be pensioned off. For the want of such a power to pension, Judges will be found clinging to office, and may ask the Government to appoint deputies at its expense, and thus the Judges will draw full salaries without working. The following persons have been appointed District Court Judges, viz.:—Cheeke, Callaghan, Dowling, Carey, Hargreaves, Owen, Purefoy, Blake, Francis, Meymott, Simpson, M'Farland, Josephson, Forbes, Wilkinson, Murray, and Docker, and of these three only retained office for fifteen years. So that if my suggestion was carried out by law there would at the present time be only three of them entitled to a pension, viz., M'Farland, Meymott, and myself, and all these would not perhaps claim their pension. The knowledge however that they could so retire would make two of them at least the more zealously to discharge their work, and thus the public would be the gainer.

In conclusion, I venture to express a hope that the Government may see its way clear to bring in a Bill to carry out at least the two subjects prominently mentioned in this letter.

I have, &c.,

JAMES S. DOWLING.

Read, and acknowledged receipt.—J.G.L.I., 21/1/81.

25. Same to Under Secretary for Finance and Trade, returning papers, &c. 30 September, 1881.....	10
26. Sub-Curator of Intestate Estates to Under Secretary of Justice, with enclosures (23), respecting estate of W. R. Bain .....	10

## ADMINISTRATION OF JUSTICE.

### No. 1.

#### Treasury Report on Public Revenue Accounts of Clerk of Petty Sessions, Grafton.

Inspecting Branch, Treasury, New South Wales, Sydney, 8 March, 1881.  
 REPORT of Mr. Inspector Kirkpatrick, No. 100, of 25 February, 1881, on the Public Revenue Accounts of Grafton. Submitted for the information of the Honorable the Colonial Treasurer.

Remarks by the Chief Inspector:— \* \* \* \* Mr. Thomas should also be called upon to report fully on that part which refers to his collections as Agent for the Curator of Intestate Estates. Read, and suggestions approved.—J.W., 14/3/81. Mr. Ross.—J.T., 17/3/81.

### No. 2.

#### Extract from Report of Mr. Treasury Inspector Kirkpatrick.

Extract from Appendix to Report of Mr. Inspector Kirkpatrick on the Public Accounts at Grafton, inspected between 18th and 25th February, 1881.

THERE is another matter in connection with the accounts of the late Clerk of Petty Sessions, &c., at Grafton, which requires explanation. Mr. Thomas, as Agent of the Curator of Intestate Estates, instructed Mr. Bawden, an auctioneer, to sell certain lands in the intestate estate of W. R. Bain. The land was accordingly sold by Mr. Bawden, on 28th June, 1878, to Mr. William Meigher, for the sum of £450, and the account furnished to the Agent showed that, after deducting £24 12s. 6d. for commission, &c., a balance remained to be accounted for by the auctioneer to the extent of £425 7s. 6d. In endeavouring to ascertain what became of this balance, I learned that at the time of the sale the purchaser could not pay cash for the land, but he gave the auctioneer a promissory note for the sum of £450, payable in six months. When the promissory note fell due Mr. Meigher paid £200 and gave another promissory note for the balance, namely, £250. Some delay appears to have taken place in the preparation of the deed of conveyance; and I am informed that when the deed was ready for completion, the auctioneer, Mr. Bawden, was unable to pay the money he had received from Mr. Meigher, as the Bank of New South Wales had impounded all his assets. The auctioneer filed his schedule about the month of May last, and it seems he included Mr. Meigher as a creditor in his estate to the extent of £450, less some charges amounting to about £25 which the auctioneer had against him. As Mr. Thomas is now at Moruya, I am unable to ascertain what instructions he gave the auctioneer respecting the disposal of the property referred to, or what steps (if any) were taken by him for the recovery of the proceeds.

Sir, The Treasury, New South Wales, Sydney, 18 March, 1881.  
 I have the honor, by direction of the Colonial Treasurer, to hand you enclosed copy of a report which has been made by Mr. Inspector Kirkpatrick, \* \* \* \*

I am also to ask for a full explanation with reference to \* \* \* and to your action in the matter of the intestate estate of W. R. Bain.

I have, &c.,  
 JAMES THOMSON,  
 (For U.S.)

### No. 4.

#### The Clerk of Petty Sessions, Moruya, to The Under Secretary of Justice.

Extract from letter from Mr. W. H. Thomas, Clerk of Petty Sessions, Moruya (late Clerk of Petty Sessions, Grafton), of 21st March, 1881, to the Under Secretary for Finance and Trade, *re* Bains's estate.

Sir, \* \* \* \* \*  
*Re* Bains's estate. The lands being mortgaged, and the Sugar Company holding a lien on the crops, which they refused to release on any terms, I foresaw some difficulty in effecting a sale. In the interest of the estate I put it into Mr. Bawden's hands, feeling that his large experience and knowledge of the district and people would enable him to do more than I could. By his instructions Mr. Meillon, solicitor, drew up the conditions of sale. The terms were cash. On the day of sale there was no offer, but subsequently Mr. Bawden informed me that he thought he could sell on terms. (My impression is that before giving my sanction I obtained the authority of the Curator.) The land was sold as described by Mr. Kirkpatrick. Mr. Meillon, who acted also for the vendee, at once, by his agent in Sydney, took steps to prepare the necessary deeds. Time after time, in answer to my inquiries, he informed me that his agents had waited on the Curator, but that he was absent, and it was not till October or November, 1879, that the deed was signed and ready for delivery. In the meantime Mr. Bawden's affairs were in confusion, and he was then unable to pay the money, which, but for the unaccountable delay in Sydney, would have been obtainable any time in 1878.

There

There is an unintentional inaccuracy in Mr. Kirkpatrick's report, from which it would appear that the account sales was furnished to me immediately after the sale. This was not so, and could not, in the ordinary course of business, be so. It was not furnished till the end of 1879 or beginning of 1880.

In justice to Mr. Bawden, I should mention his informing me that Maher's promissory note was only lodged in the Bank for safe keeping, but that the Bank discounted it.

The purchaser having given a promissory note, it was only in accordance with practice that the auctioneer should hold it as between vendor and vendee, so that at no time could I have demanded it until I was ready to hand the purchaser his deed, and this I was never able to do till it was too late.

I may as well state that it was not till late in 1879 that I heard any rumour as to Mr. Bawden's affairs. Up to that time I believed the money could be obtained at any moment.

I have, &c.,

W. H. THOMAS.

#### The Curator of Intestate Estates to The Under Secretary for Finance and Trade.

The estate of W. R. Bain, deceased.

I HAVE examined all the papers in my office in connection with this estate, and from the information I derived from these, I have the honor to report as follows.

Order to collect 16th May, 1878. Mr. Thomas, Curator's Grafton Agent, put the deceased's land into the hands of Mr. Bawden, auctioneer, of Grafton, for sale. He put it up to auction in June, 1878, and it was sold for £450. The deposit was not paid, and so the sale fell through. Thomas then consented to Bawden's selling by private contract, and it was shortly afterwards sold accordingly to W. Maher for £450. Bawden took Maher's promissory note for this amount.

Thomas alleges in his letter to the Curator that there was great delay in Sydney in getting the transfer to Maher prepared, and it was not ready for the Curator to sign till October, 1879.

Curator has signed the transfer, which is dated 4th October, 1879.

Bawden has received and misappropriated the £450, and he has since become insolvent.

So far as the papers in the estate disclose, Curator was not informed that the sale to Maher had not been for cash, until after he had signed the transfer.

I enclose a copy of the regulations of my predecessor to his agents.

By the 7th of these it will be seen that his agents were empowered to sell only for cash.

In the extract, however, from the letter of Mr. Thomas of the 21st of March last to the Under Secretary of Finance and Trade, which forms part of this correspondence, it appears that the sale by Mr. Bawden *on terms* was sanctioned by my predecessor. Mr. Thomas' words are these—"My impression is that before giving my sanction I obtained the authority of the Curator."

Mr. Colyer, the solicitor for the next of kin of the deceased, has demanded of me that I pay to them the amount of the purchase money received by Mr. Bawden and unaccounted for by him. This of course I have declined to do. I have taken no steps against the purchaser to compel him to complete his purchase by paying to me his purchase money, and taking up his conveyance, on the assumption that the payment of it to the auctioneer was unauthorized in point of law.

As to whether, under all the circumstances of the case, my predecessor or his agent, Mr. Thomas, or both of them, are protected from liability by the 6th section of 15 Victoria No. 8 is a question to be determined by a Jury.

FRED. CHAPMAN,

Curator.

23/5/81.

The Chief Inspector of Accounts.—G.E., 23/5. Mr. Kirkpatrick, any remark?—J.T., 26/5/81. See memorandum herewith.—F.K., 30/5/81. The Chief Inspector of Public Accounts.

## No. 8.

## Mr. Inspector Kirkpatrick to The Chief Inspector of Public Revenue Collectors' Account.

REMARKS on the report of the Curator of Intestate Estates, and the late Agent for the Curator of Intestate Estates at Grafton, with reference to the sale of certain land in the intestate estate of W. R. Bain.

Newcastle, 30 May, 1881.

HAVING carefully perused the report of the Curator of Intestate Estates, and also that of the late Agent for the Curator of Intestate Estates at Grafton, respecting the sale by Mr. Bawden, of certain land in the intestate estate of W. R. Bain, I would remark that, according to the 7th section of the Regulations which have been issued for the guidance of Agents for the Curator of Intestate Estates, the sale referred to should have been for cash, unless special directions to the contrary had been received by the Agent.

Mr. Thomas states that, before giving his sanction to the land being sold on terms, his impression is he obtained the authority of the late Curator. The Curator, however, reports that, so far as the papers disclose, the late Curator was not informed that the sale of the land to Meigher had not been for cash until after the transfer to Meigher had been signed by him (Mr. Slattery) on the 4th October, 1879.

It is somewhat remarkable therefore, that if Mr. Thomas obtained the Curator's authority, no trace of the same exists in the office of the Curator.

Respecting the statement made by Mr. Thomas, to the effect that there is an unintentional inaccuracy in my report, from which it would appear that the account sales of the land referred to were furnished to him immediately after the sale, I may just remark that the entry in the Agent's book did not state the date on which the account sales had been furnished to him by the auctioneer, and the statement in my report is in accordance with that entry.

F. KIRKPATRICK,

Inspector of Public Revenue Collectors' Accounts.

Mr. Pinhey,—Will you kindly try and ascertain from the Curator of Intestate Estates whether there is any record in his office of instructions to Mr. Thomas to sell the property in this estate on terms.—J.T., 7/6/81. No such record exists, nor is there any reference in the correspondence or papers to any such instructions.—C.P., 14/6/81. The Chief Inspector.

## No. 9.

## Mr. Chief Inspector Thomson, reporting on No. 7.

Inspecting Branch, Treasury, New South Wales, Sydney, 22 June, 1881.

Minute Paper. Subject—Intestate estate of W. R. Bain.

It would appear from Mr. Chapman's report of the 23rd ultimo, as also from inquiries subsequently made by Mr. Inspector Pinhey, that Mr. Thomas placed Bain's land in the hands of Mr. Bawden for sale on terms, without either the knowledge or sanction of the Curator of Intestate Estates, and therefore contrary to the 7th clause of the instructions issued by that officer for the guidance of his Agents.

As, however, the settlement of this matter properly rests with the Curator, I would suggest that the papers in the case be returned to him, and that he be instructed to take immediate steps to compel Meigher to complete his purchase at once by the payment of the purchase money. I would also suggest that he should be instructed to inform Mr. Thomas that, in consequence of his unauthorized action in regard to the sale of the land, he will be held responsible for any loss which may accrue in the event of Meigher failing to complete the purchase at the original price. When the transaction is closed, the Curator should return these papers with his final report in the case.

JAMES THOMSON, C.I.

The Minister of Justice.—J.W., 27/6/81. The Under Secretary of Justice.—G.E., 27/6/81, B.C. Let the Curator of Intestate Estates be instructed accordingly.—J.G.L.I., 1 July, 1881. Letter, with papers to Curator, 5/7/81.

## No. 10.

## The Under Secretary of Justice to The Curator of Intestate Estates.

Sir,

Department of Justice, Sydney, 5 July, 1881.

In returning to you the enclosed papers in reference to the sale of certain land in the intestate estate of W. R. Bain, I am directed by the Minister of Justice to request that you will have the goodness to take immediate steps to compel Meigher to complete his purchase at once by the payment of the purchase money, and that you will inform Mr. Thomas that, in consequence of his unauthorized action as your agent in regard to the sale of the land, he will be held responsible for any loss which may accrue in the event of Meigher failing to complete his purchase at the original price.

When the transaction is closed, you will have the goodness to return these papers with your final report in the case.

I have, &c.,

W. E. PLUNKETT,  
Under Secretary.

## No. 11.

## Mr. H. C. Colyer to The Under Secretary of Justice.

Sir,

128, Elizabeth-street, Sydney, 27 July, 1881.

I have the honor to request that you will as soon as practicable lay before the Minister the enclosed copy of correspondence between myself and the Curator of Intestate Estates, respecting the estate of one William Robinson Bain.

It

It appears needless to enlarge upon the details, which, so far as I know, are correctly stated in the Curator's letter to me of the 2nd February last. I think, however, the Minister cannot but see the hardship upon the next of kin in the long-continued delay which has occurred, and that he will agree with me that the administrator should immediately be placed in possession of the value of the assets which came to the hands of the Curator or his Agent, that is, the sum of £450, in addition to the sum of £8 1s. 6d. mentioned in the Curator's letter of the 5th July instant.

Hoping to be favoured with an early reply,—

I have, &c.,  
HENRY C. COLYER,  
Proctor for the Administrator.

The Curator of Intestate Estates, with reference to previous papers, and for the favour of report as to what is being done, and the present state of the matter.—J.G.L.I., 28 July, 1881. Curator, 29/7/81. Inform Mr. Colyer of action taken.—29. Mr. Colyer, 29/7/81.

[Enclosures.]

(1.)

Mr. H. C. Colyer to The Curator of Intestate Estates.

Sir, *Re W. R. Bain, deceased.* 128, Elizabeth-street, Sydney, 16 June, 1880.  
I HAVE the honor to request that such assets in this estate as are still undisposed of, together with the proceeds of such as have been sold, be handed over to Robert Atkins, the attorney for the next of kin of the abovenamed deceased, to whom letters of administration were granted on the 25th day of October last.

Your early attention to this matter will greatly oblige, as the delay which has already occurred has caused much distress to those concerned.

I am, &c.,  
HENRY C. COLYER,  
Proctor for the said Robert Atkins.

128, Elizabeth-street, Sydney, 29 July, 1880.

Sir, *Re W. R. Bain, deceased.*  
I beg to remind you that my letter of 16th June last is still unanswered. Kindly give the matter immediate attention, as those interested in the estate are suffering much for want of money.

I am, &c.,  
HENRY C. COLYER.

(3.)

Mr. H. C. Colyer to The Curator of Intestate Estates.

128, Elizabeth-street, Sydney, 1 February, 1881.

Sir, *Re W. R. Bain, deceased.*  
I have been anxiously awaiting your promised letter on the subject of this estate, in reply to mine of 16th June last. Will you please let me have it before the end of the present vacation.

Yours truly,  
HENRY C. COLYER.

(4.)

The Curator of Intestate Estates to Mr. H. C. Colyer.

Supreme Court-house, King-street, Sydney, 2 February, 1881.

Dear Sir, *Estate of W. R. Bain.*  
Since my interview with you last week I have investigated the matter to which your letter of 16th of June last has reference, with the following result:—

Order to collect, 16th May, 1878. Mr. Thomas, Curator's Grafton Agent, put deceased's land into hands of Mr. Bawden, auctioneer, of Grafton, for sale. He put it up to auction in June, 1878, and it was sold for £450. The deposit was not paid, and so the sale fell through. Thomas then consented to Bawden's selling by private contract, and it was shortly afterwards sold accordingly to W. Maher for £450. Bawden took Maher's promissory notes for this amount.

Thomas alleges in his letters to Curator that there was great delay in Sydney in getting the transfer to Maher prepared, and that it was not ready for Curator to sign till October, 1879.

Bawden has received and misappropriated the £450, and he has since become insolvent.

So far as the papers in the estate disclose, Curator was not informed that the sale to Maher had not been for cash until after he had signed the transfer.

Curator's printed general instructions to his country agents are always to sell for cash only.

You had better satisfy yourself as to the correctness of these facts by an inspection of the papers in my office relating to this estate.

Yours truly,  
FRED. CHAPMAN, Curator.

(5.)

Mr. H. C. Colyer to The Curator of Intestate Estates.

128, Elizabeth-street, Sydney, 3 February, 1881.

Sir, *Estate of W. R. Bain.*  
I beg to acknowledge the receipt of your letter of 2nd instant, but respectfully submit that it contains no answer to mine of 16th June last. Kindly inform me what course you propose to adopt in reference to the request therein contained.

I am, &c.,  
HENRY C. COLYER.

I am, &c.,  
HENRY C. COLYER.

(7.)

(7.)

The Curator of Intestate Estates to Mr. H. C. Colyer.

Sir,

Curator's Office, Supreme Court House, King-street, Sydney, 5 July, 1881.  
Estate of W. R. Bain.

I am in receipt of your favour of 25th ultimo.

I have a balance in hand to credit of this estate of £8 1s. 6d.

This amount, less the Government fees, I am ready to pay over to the administrator.

I am, &amp;c.,

FRED. CHAPMAN, Curator.

No. 12.

The Under Secretary of Justice to The Curator of Intestate Estates.

Sir,

Department of Justice, Sydney, 29 July, 1881.

With reference to my letter of the 5th instant, forwarding certain papers in connection with the intestate estate of W. R. Bain, I am directed by the Minister of Justice to transmit the enclosed communication with enclosures, which has been received from Mr. Colyer, solicitor, upon the subject, and to request that you will have the goodness to favour, *without delay*, with report as to what is being done, and the present state of the matter.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

To be returned.

(For Enclosures, see No. 11.)

No. 13.

The Under Secretary of Justice to Mr. H. C. Colyer.

Sir,

Department of Justice, Sydney, 29 July, 1881.

In acknowledging the receipt of your letter of the 27th instant, forwarding copy of correspondence between yourself and the Curator of Intestate Estates, respecting the estate of one William Robinson Bain, I am directed by the Minister of Justice to inform you that your communication has been forwarded to the Curator, with request that he will furnish without delay a report as to what is being done, and the present state of the matter.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

No. 14.

The Curator of Intestate Estates to The Under Secretary of Justice.

Sir,

Supreme Court House, 3 August, 1881.

I have the honor to acknowledge the receipt of your letter of the 5th ultimo, instructing me to take immediate steps to compel Meigher to complete his purchase at once by the payment of the purchase money.

I beg to inform you that there are no assets in Bain's estate to take the proceedings you refer to; I am moreover advised by counsel that such proceedings would result unsuccessfully. I annex a copy of the counsel's opinion.

According to your instructions, I have informed Mr. Thomas that he will be held responsible.

I have, &amp;c.,

FRED. CHAPMAN,

Curator of Intestate Estates.

These papers should be laid before the Attorney General, for opinion as to the liability of the Government to make good to the representative of the intestate estate the purchase money.—J.G.L.I. The Crown Solicitor, 6/8/81.

[Enclosures.]

Re the estate of Bain, deceased, Meigher's purchase.

THE question submitted to me in fact is, whether the purchaser can be compelled to pay his purchase money twice over. I am of opinion that he cannot, and that a Court of Equity will not aid the attempt suggested to be made.

I think it may be assumed that the Curator's agent was justified in selling by private contract. Whether he was justified in allowing time to the purchaser for payment does not much signify, as the loss of the purchase money was not really occasioned by the promissory note being taken instead of cash. The loss was caused by the Agent neglecting to fulfil his duty, as described by the 10th regulation, that is, immediately the sale was effected, to forward the account of it together with the proceeds (the promissory note) to the Curator. Had this been done, no loss would have occurred. But it may be said that the purchaser ought not to have handed the promissory note to the auctioneer. If this were so, I do not think it would, under the circumstances, be held to alter the equity of the case. I however strongly incline to consider that when a sale is made for cash, without deposit, the auctioneer must be treated as the agent of the vendor, to receive the purchase money in the same way as he is in ordinary cases the agent of the vendor to receive the deposit.

On the whole, I cannot see my way to advise the Curator to take proceedings of any kind, to obtain payment of the purchase money from Meigher.

ALEX. GORDON,

77, Elizabeth-street,

30th July, /81.

The Curator of Intestate Estates to The Clerk of Petty Sessions, Moruya.

Estate of W. R. Bain.

Dear Sir,

Supreme Court, Sydney, 3 August, 1881.

I have received a letter from the Under Secretary of Justice, in which he instructs me as follows: "I am directed by the Minister of Justice to request that you will have the goodness to take immediate steps to compel Meigher to complete his purchase at once by the payment of the purchase money, and that you will inform Mr. Thomas that in consequence of his unauthorized action, as your Agent, in regard to the sale of the land, he will be held responsible for any loss which may accrue in the event of Meigher's failing to complete his purchase at the original price."

I have, &amp;c.,

FRED. CHAPMAN,

Curator.

No. 15.

## No. 15.

## The Curator of Intestate Estates to The Under Secretary of Justice.

Sir,

Supreme Court House, Sydney, 3 August, 1881.

I have the honor to acknowledge the receipt of your letter of the 29th ultimo.

Nothing has been done beyond what is disclosed in the copy correspondence between Mr. Colyer and myself in reference to the intestate estate of W. R. Bain.

I have, &amp;c.,

FRED. CHAPMAN,

Curator of Intestate Estates.

## No. 16.

## The Clerk of Petty Sessions, Moruya, to The Under Secretary of Justice.

[Urgent.]

Sir,

Moruya, 5 August, 1881.

I am in receipt of a letter from the Curator of Intestate Estates, who, by your direction, informs me, "that in consequence of my unauthorized action in the sale of the land in Bain's estate, I shall be held responsible for any loss which may accrue in the event of Meigher failing to complete his purchase at the original price."

I have the honor very respectfully to submit, that the miscarriage in this matter has been chiefly caused by the delay of the late Curator in not obtaining the transmission certificate. I am in possession of documents to show that immediately on completion of the sale in June, 1878, I did all I could to expedite the matter, and Mr. Mcillon, a solicitor in Grafton, who acted both for the auctioneer and the purchaser, also by his agents, made repeated application to the late Curator to complete the title. It was not until October, 1879, that the Curator's solicitor informed me that the transmission certificate was "at last" obtained. I have no hesitation in saying that if this had been done in 1878, or even early in the following year, the money would have been paid, and of this I think I could satisfy the Minister by very satisfactory proof.

Throughout the conduct of this matter, Mr. Bawden acted as the appointed agent of the purchaser, and when he became insolvent the £450 were included in his schedule as a debt due by him to Meigher. And I may here say that this agency is admitted by Mr. Bawden, who took promissory notes for the purchase money on his own responsibility, and not by my instructions.

But, with very great deference, I submit that as Agent I cannot be made responsible, unless fraud or culpable negligence can be shown, and on either of these points I can confidently leave myself in the hands of the Minister.

I am writing to Grafton by this post on this matter, and need hardly say that my best exertions will be given towards procuring a settlement of this vexatious business.

In conclusion, I desire to refer the Minister to the following correspondence in the hands of the Curator :—

Self to Curator (with annexures), 19th December, 1879.

Supreme Court, 22 August, 1881.

I have the honor to forward herewith :—

1. Letter from the Under Secretary for Finance and Trade to myself of the 20th May last, and the several documents detailed at foot.
2. A copy of my report of 23rd May last.
3. A copy of a letter from Mr. Bawden to Mr. Thomas, of the 12th day of February, 1880.
4. The original particulars and conditions of sale.

I have, &amp;c.,

FRED. CHAPMAN,  
Curator of Intestate Estates.

[Enclosures.]

(1.)

The Under Secretary for Finance and Trade to The Curator of Intestate Estates.

Sir,

The Treasury, N.S.W., Sydney, 20 May, 1881.

I have the honor, by direction of the Colonial Treasurer, to hand you enclosed the documents detailed at foot, and to request that you will be good enough to report how the matter now stands, and to state whether Mr. Thomas acted in strict accordance with instructions in allowing Mr. Bawden to sell in the manner indicated in the enclosures.

I have, &c.,  
G. EAGAR.

1. Extract from appendix to report of Mr. Inspector Kirkpatrick on the public accounts at Grafton (intestate estate of W. R. Bain).
2. Extract from explanatory letter of Mr. W. H. Thomas, late C.P.S. at Grafton.

(2.)

The Estate of W. R. Bain, deceased.

I HAVE examined all the papers in my office in connection with this estate, and from the information I have derived from these I have the honor to report as follows :—

Order to collect, 16th May, 1878. Mr. Thomas, Curator's Grafton Agent, put deceased's land into the hands of Mr. Bawden, auctioneer of Grafton, for sale. He put it up to auction in June, 1878, and it was sold for £450.

The deposit was not paid, and so the sale fell through. Thomas then consented to Bawden's selling by private contract, and it was shortly afterwards sold, accordingly to W. Maher, for £450. Bawden took Maher's promissory-note for this amount.

Thomas alleges in his letter to the Curator that there was great delay in Sydney in getting the transfer to Maher prepared, and that it was not ready for the Curator to sign till October, 1879.

Curator has signed the transfer, which is dated 4th October, 1879.

Bawden has received and misappropriated the £450, and he has since become insolvent.

So far as the papers in the estate disclose, Curator was not informed that the sale to Maher had not been for cash until after he had signed the transfer.

I enclose a copy of the regulations of my predecessor to his Agents.

By the 7th of these it will be seen that his Agents were empowered to sell only for cash.

In the extract, however, from the letter of Mr. Thomas, of the 21st March last, to the Under Secretary for Finance and Trade, which forms part of this correspondence, it appears that the sale by Mr. Bawden on terms was sanctioned by my predecessor. Mr. Thomas' words are these, "My impression is that before giving my sanction I obtained the authority of the Curator."

Mr. Colyer, the solicitor for the next of kin of the deceased, has demanded of me that I pay to them the amount of the purchase money received by Mr. Bawden and unaccounted for by him. This of course I have declined to do. I have taken no steps against the purchaser to complete his purchase by paying to me his purchase money, and to take up his conveyance, on the assumption that the payment of it to the auctioneer was unauthorized in point of law.

As to whether, under all the circumstances of the case, my predecessor or his agent, Mr. Thomas, or both of them, are protected from liability by the 6th section of 15 Victoria No. 8 is a question to be determined by a Jury.

FRED. CHAPMAN,  
Curator.

23/5/81.

(3.)

Mr. T. Bawden to W. H. Thomas, Esq., J.P.

Re Bain's estate.

Dear Sir,

Grafton, 12 February, 1880.

With reference to this matter, I regret very much that it cannot be closed at once, chiefly through delays not created by myself.

When the property was sold to Meigher on the promissory note I was fully aware there would be considerable delay before the title would be ready to hand over to him, and in taking the promissory note from him, which I did on my own responsibility, I did so as his agent, to hold it pending completion of the transaction, and there has been nothing done since to alter those relations.

Times, as you are aware, have much altered since then, and there is now some difficulty in squaring the matter again between Meigher and myself, but which can be got over without doubt in a few weeks.

I would say this in addition, that the land would not have realized anything like the amount which has to be paid by Meigher if it had been sold on any other terms, nor would it at the present time bring anything like so much if sold for cash or on terms.

Under all the circumstances therefore, in the interest of the estate, I would say it is far better to allow time for Meigher's purchase to be completed, which he is anxious to do.

I am, &c.,  
T. BAWDEN.

(4.)

Conditions and Terms of Sale for the

to be sold by Auction by Thomas Bawden, at his rooms, Prince-street, Grafton, on Thursday, the 28th day of June, 1878.

Particulars.

ALL the right, title, and interest of the Curator of Intestate Estates, in all that piece of land being original portion 122 of 44 acres, situated in the parish of Harwood, county of Clarence, on Harwood Island.

This farm is sold subject to an overdue mortgage to R. B. Hill, dated 9th May, 1873, to secure £100 and interest at 11 per cent. payable half-yearly, and eighteen months' interest is in arrear up to May last.

And also original portion 121 of 44 acres, situated on Harwood Island aforesaid. This is a conditional purchase from the Crown under the Crown Lands Alienation Act of 1861, and 5s. per acre only has been paid in respect thereof.

Both parcels are sold subject to a lien on crops to the Colonial Sugar-refining Company to secure the sum of £30, and also to his agreements with the said Company, dated respectively 23rd April, 1877, and 14th November, 1877, whereby the said W. R. Bain agreed to grow ten acres sugar-cane and deliver the same to the said Company for five years from 1st January, 1879.

Sold by order and on account of

Conditions

*Conditions of Sale.*

1. The highest bidder shall be the purchaser and in the event of any dispute the lot in dispute shall be put up again at any former bidding and re-sold.
2. No person shall retract his or her bidding, and the vendor or his agent shall be at liberty to bid once for each lot.
3. Upon the fall of the hammer the purchaser shall pay down to the auctioneer in cash the whole amount of the purchase money.
4. The vendor will within a reasonable time after the day of sale deliver to the purchaser, on application to the vendor's solicitor, an abstract of title of the property sold, but shall not be called upon to produce any deed or evidence of title not in his possession, and shall not be bound to furnish any attested copies of deeds or other documents, and the purchaser shall not be entitled to require any other or better title than the abstract so to be furnished shall disclose, no objection or requisition shall be made in respect to the title to the said land, which, as regards portion 122 mentioned in the particulars, consists of a Crown grant to the said W. R. Bain, subject to the said mortgage. Portion 121 is a conditional purchase in the name of the said W. R. Bain.
5. All attested copies or evidences of title which the purchaser shall require, and which the vendor is able and willing to furnish, shall be furnished at the expense of the purchaser, and the purchaser shall tender to the vendor a conveyance for approval and execution by the vendor within fourteen days from the delivery of the abstract.
6. No error or misdescription shall annul the sale, but compensation shall be made or given as the case may require, by the usual mode of arbitration.
7. If the purchaser shall fail to comply with the conditions or terms of sale, the deposit shall be absolutely forfeited to the vendor, who shall be at liberty, with or without notice, to re-sell the lot in question either by public auction or private contract, and subject to any special conditions and stipulations, at the risk and cost of the purchaser at this sale; and any deficiency at such second sale; and all cost and expenses attending the same, shall be paid by the purchaser at this sale, as and for liquidated damages; it shall not be necessary to tender any deed or conveyance to such defaulter.

*Terms of Sale.*

That upon the fall of the hammer the purchaser shall pay into the hands of the auctioneer the whole amount of the purchase money.

Subject to the preceding conditions and terms of sale, I hereby agree to and do purchase the lot or lots to which our names are attached, and at the price there stated.

The lot for £450.

WILLIAM MEIGHER.

Confirmed.—T. BAWDEN.

THE previous papers in this matter have been referred through the Crown Solicitor for the opinion of the Attorney General as to the liability of the Government to re-pay the purchase money of certain land sold by Curator's Agent at Grafton, retained by auctioneer, who afterwards became insolvent. These papers should perhaps also be laid before the Attorney General with reference to former papers.

24/8/81.

The Crown Solicitor, J.G.L.I., 25 August, 1881. B.C., 30 August, 1881.—W. E. PLUNKETT.

## No. 20.

Mr. H. C. Colyer to The Under Secretary of Justice.

W. R. Bain, deceased.

Sir,

123, Elizabeth-street, Sydney, 15 September, 1881.

I am anxiously awaiting a letter from you informing me of the position of this matter. I have received a further communication from Ireland, and do not know how to reply.

I have, &c.,

HENRY C. COLYER.

The Crown Solicitor, with reference to former papers forwarded on 30th August for the Attorney General's opinion.—B.C., 15th September, 1881, W. E. PLUNKETT. Mr. Colyer informed, 15/9/81.

## No. 21.

The Under Secretary of Justice to Mr. H. C. Colyer.

Sir,

Department of Justice, Sydney, 15 September, 1881.

In acknowledging the receipt of your letter of this date, further respecting the estate of W. R. Bain deceased, I am directed by the Minister of Justice to inform you that your communication has been forwarded to the Crown Solicitor, with reference to former papers in the matter, sent to him on the 30th ultimo, for the opinion of the Attorney General, whose attention will be again invited to the subject.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

## No. 22.

The Crown Solicitor to The Under Secretary of Justice.

Sir,

Crown Solicitor's Office, 23 September, 1881.

I do myself the honor to return herewith the papers forwarded to me under B.C., 15/9/81, relating to the intestate estate of W. R. Bain, and to state that I have submitted them to Mr. Attorney General Wisdom, a copy of whose advising thereon will be found upon the other side.

I have, &c.,

JOHN WILLIAMS,

Crown Solicitor.

## [Enclosure.]

## OPINION.

I do not think that the Government is under any legal liability to make good to the representative of the late Mr. W. R. Bain the amount of purchase money referred to. In my opinion the Government is not responsible for the acts of the Curator or his Agents, and it is very undesirable that it should assume any such responsibility. It may be pointed out that, although the Curator and his Agents are not liable for acts done by them *bona fide* in the performance of their duties, they are liable if it can be shown that such acts were done "not only illegally but wilfully or with gross negligence (15 Vic. No. 8, sec. 6.)"

ROBERT WISDOM,

A.G.,

21/9/81.

Mr. H. C. Colyer and the Curator may be informed in terms of the Attorney General's opinion.—  
J.G.L.L., 26th Sept., /81. Mr. Colyer, with copy, 27/9/81. The Curator, with copy, 27/9/81. Treasury, with copy, 30/9/81.

## No. 23.

## The Under Secretary of Justice to The Curator of Intestate Estates.

Sir,

Department of Justice, Sydney, 27 September, 1881.

Referring to your letter of the 22nd ultimo, and previous correspondence, in connection with the sale of certain land in the intestate estate of W. R. Bain, I am directed by the Minister of Justice to inform you that the papers in the matter having been submitted to the Attorney General, he has written an opinion on the subject, of which the following is a copy, viz.:—"I do not think that the Government is under any legal liability to make good to the representative of the late Mr. W. R. Bain the amount of purchase money referred to. In my opinion the Government is not responsible for the acts of the Curator or his Agents, and it is very undesirable that it should assume any such responsibility. It may be pointed out that, although the Curator and his Agents are not liable for acts done by them *bona fide* in the performance of their duties, they are liable if it can be shown that such acts were done not only illegally but wilfully or with gross negligence (15 Vic. No. 8, sec. 6.)"

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 24.

## The Under Secretary of Justice to Mr. H. C. Colyer.

Sir,

Department of Justice, Sydney, 27 September, 1881.

Referring to my letter of the 15th instant and previous correspondence in connection with the sale of certain land in the intestate estate of W. R. Bain, I am now directed by the Minister of Justice to inform you that the Attorney General has written an opinion on the subject, of which the following is a copy, viz.:—"I do not think that the Government is under any legal liability to make good to the representative of the late Mr. W. R. Bain the amount of purchase money referred to. In my opinion the Government is not responsible for the acts of the Curator or his Agents, and it is very undesirable that it should assume any such responsibility. It may be pointed out that, although the Curator and his Agents are not liable for acts done by them *bona fide* in the performance of their duties, they are liable if it can be shown that such acts were done not only illegally but wilfully or with gross negligence (15 Vic. No. 8, sec. 6.)"

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 25.

## The Under Secretary of Justice to The Under Secretary for Finance and Trade.

Sir,

Department of Justice, Sydney, 30 September, 1881.

In transmitting the enclosed Treasury papers *re* intestate estate of W. R. Bain, and copy of letter of 3rd ultimo, from the Curator of Intestate Estates, together with Counsel's opinion in the matter, I am directed by the Minister of Justice to state, for the information of the Colonial Treasurer, that the papers having been submitted to the Attorney General he has written an opinion thereon, of which the following is a copy, viz.:—"I do not think that the Government is under any legal liability to make good to the representative of the late Mr. W. R. Bain the amount of purchase money referred to. In my opinion the Government is not responsible for the acts of the Curator or his agents, and it is very undesirable that it should assume any such responsibility. It may be pointed out that, although the Curator and his Agents are not liable for acts done by them *bona fide* in the performance of their duties, they are liable if it can be shown that such acts were done not only illegally but wilfully or with gross negligence (15 Vic. No. 8, sec. 6.)"

I have, &amp;c.,

## No. 26.

## The Sub-Curator to The Under Secretary of Justice.

Estate of W. R. Bain.

Sir,

Curator's Office, Supreme Court, 15 November, 1881.

I have the honor to forward herewith:—

1. Telegram—Agent to Curator, with telegram Curator to Agent, in reply, endorsed.
2. Letter—Agent to Curator, enclosing affidavit of death and giving particulars of property.
3. Telegram from Agent to Curator for permission to sell land, with telegram Curator to Agent, in reply, endorsed.

4.

4. Letter Curator to Agent—to sell right, title, and interest, &c., in land.
5. Letter Curator to Agent, as to cause of delay, forwarding assets.
6. Letter Agent to Curator, with account sales and explaining delay.
7. Letter Agent to Curator, further explaining cause of delay.
8. Copy telegram Curator to agent—that papers not sent for signature. Copy telegram, agent to Curator—papers with Meillon's agents. Copy letter, R. W. Robberds to agent—that certificate would issue shortly.
9. Letter Gannon & M'Laughlin to R. W. Robberds, forwarding grant for purpose of transmission.
10. Letter Gannon & M'Laughlin to R. W. Robberds, enclosing transfer for execution.
11. Copy letter R. W. Robberds to Curator's agent, asking if purchase money paid. Copy letter, agent to R. W. Robberds—that £200 paid, rest by bills.
12. Copy letter Agent to T. Bawden, for account sales and papers relating to property. Copy letter, agent to Curator, forwarding contract and account sales. Copy telegram Curator to agent—to send purchase money as shown in account sales.
13. Letter agent to Curator, in reply to telegram.
14. Letter Bawden to Curator, explaining delay. Telegram, Curator to Bawden—to settle with Agent at once.
15. Letter Bawden to Thomas—that he held promissory note as agent for Mcigher.
16. Letter Agent to Curator, forwarding letter, Bawden to Thomas.
17. Letter Agent (Clarke) to Curator, for instructions *re* land.
18. Letter H. Colyer to Curator, for assets on behalf next kin.
19. Letter H. Colyer to Curator, requesting answer to last letter.
20. Copy letter Henry Colyer to Curator, urging reply to his letter, 16 June, 1880. Copy letter, Curator to Henry Colyer, in reply. Copy letter H. Colyer to Curator, in answer to last letter.
21. Letter to H. Colyer, stating amount of assets.
22. Copy letter Curator to Agent—to compel Meigher to complete.
23. Letter Agent to Curator, in reply.

I have, &c.,  
THOS. POWELL,  
Sub-Curator.

[Enclosures.]

(1.)

Telegram from Agent for Curator, Grafton, to Curator of Intestate Estates, Supreme Court, Sydney.

*Re* Bain, deceased, murdered at Palmer's Island, see telegrams in late Sydney papers—Intestate—affidavit, &c., by post—valuable property left—farms, growing crops, &c. Sectarian feeling very bitter—dangerous to go near the place—can get nobody as yet to take charge. Will you authorize me to visit property—40 miles from Grafton—I think it necessary—nobody would perhaps molest me—I should have police protection. Please wire.

Telegram :—The property must be protected, and you may either go to the farm or send some one, as you think best.—T.M.S., 1/5/78.

Put with papers in estate.—T.M.S.

(2.)

Curator's Agent to The Curator of Intestate Estates.

Sir,

*Re* W. R. Bain, deceased, intestate.

Grafton, 2 May, 1878.

Enclosed I have the honor to forward affidavit of death in this matter, and to request that you will procure the necessary order to collect.

Deceased was killed on Easter Monday—as far as we know—in a quarrel between himself and some member of the Roman Catholic body. Deceased was an Orangeman. So strong is the sectarian bitterness engendered by this unfortunate affair that it will be difficult to get anybody to take charge of the property. I am, however, about to visit it myself, and am in hopes that I shall succeed in taking a man with me to put in charge. In the meantime all movable property has already been taken possession of by the Orange Society in this district, and will be delivered to me whenever I require. Deceased's papers are now in my possession.

The property consists of two farms, on the river, about 40 miles from this. Each contains 44 acres. The one is a conditional purchase, upon which deceased was paying interest; the other is a freehold, mortgaged to Mr. Joseph Meillon for £100. There are some costs and interest due on this mortgage, not exceeding £20. I believe that the right, title, and interest in the former would sell for £8 per acre, and the equity of redemption of the latter would probably realize £400.

What live stock there is on the farms I don't know yet, but probably very little, and the rest of the chattels do not exceed in value £20.

If necessary I will again advise you herein.

I have, &c.,  
W. H. THOMAS,  
Agent.

(3.)

Telegram from Curator's Agent, Grafton, to Curator Intestate Estates, Supreme Court, Sydney.

*Re* Bain, am I to take steps to sell land of deceased?

Telegram :—All property had better be realized at once. Letter by post.—T.M.S.

Send a letter with reference to the sale of the land that he is only to sell my right, title, and interest as Curator in and to the land; that I cannot enter into any covenants, except that I have done nothing to encumber.—T.M.S.

Telegram sent and letter posted, 27th May, 1878.—E.B.

(4.)

The Curator of Intestate Estates to Agent, Grafton.

*Re* Bain.

Sir,

Curator's Office, Supreme Court, 27 May, 1878.

With reference to the sale of the land in this estate, I have the honor to inform you that you can only sell my right, title, and interest as Curator in and to the said land, and be good enough to point out to intending purchasers that I cannot enter into any covenants except that I have done nothing to encumber.

I have, &c.  
T. M. SLATTERY,  
Curator of Intestate Estates.

(5.)

(5.)

## The Curator of Intestate Estates to Agent, Grafton.

Estate of W. R. Bain.

Sir, Curator's Office, Supreme Court, 9 December, 1878.  
Inquiries having been made as to the amount to credit of this estate, I find that although you received authority to collect in May last, a period of six months ago, you have not forwarded any draft for money realized by sale of the estate. I have the honor to request an explanation of the delay and a draft for amount already realized, with account sales, &c., as per regulations.

I have, &c.,  
T. M. SLATTERY,  
Curator of Intestate Estates.

(6.)

## Curator's Agent to The Curator of Intestate Estates.

W. R. Bain deceased.

Sir, Grafton, 12 December, 1878.  
Herewith I beg to forward account sales and vouchers in connection with sale of personal effects in above estate, together with draft for £17 6s. 7d., being balance in hand.

My reason for delaying this matter is that the sale of the real estate was surrounded with so much difficulty that I placed it in the hands of Mr. Bawden, who employed Mr. Joseph Meillon to draw up all necessary legal documents. The land was sold, but although I have repeatedly asked when affairs would be settled, all I can learn from Mr. Meillon is that the delay is caused in the Registrar General's Office (Real Property Branch).

I have, &c.,  
W. H. THOMAS,  
Agent.

Draft for £17 6s. 7d. received.—T.M.S., 23/12/78. To be acknowledged. Acknowledged, 28th Dec., 1878.—E.B.

## The Agent to the Curator of Intestate Estates at Grafton, in account with the Intestate Estate of W. R. Bain.

Agent.

(7.)

## Curator's Agent to The Curator of Intestate Estates.

Re W. R. Bain.

Sir, Grafton, 3 March, 1879.  
Mr. Meillon, the solicitor who managed the sale of the real estate, herein informs me that the reason the proceeds of sale have not been sent is, that he cannot obtain your signature to the deed of transfer.

I have, &c.,  
W. H. THOMAS,  
Agent.

Mr. Robberds,—Is this correct?—T.M.S., 10/3/79. Send a telegram to Mr. Thomas to say that the papers have not been sent on to me for signature; also send a telegram to Mr. Meillon asking him to expedite this matter.—T.M.S., 14/3/79. Both telegrams sent 18th March, 1879.—E.B.

(8.)

## Telegram from Curator of Intestate Estates to Agent, Grafton.

THE papers *in re* Bain have not been sent on to me for signature.

18 March, 1879.

## Telegram from Curator's Agent, Grafton, to The Curator of Intestate Estates.

Re Bain. Have again seen Mr. Meillon. Tells me papers with his agents, Sydney, who have been to your office. You were out of town. Mr. Meillon writing Agents this post.

19 March, 1879.

## Mr. R. W. Robberds to Curator's Agent, Grafton.

Re Bain, deceased.

Dear Sir, 159, Castlereagh-street, Sydney, 2 May, 1879.  
This matter is now being proceeded with. The application by the Curator of Intestate Estates for a Transmission Certificate has been lodged at the Real Property Office. The certificate will issue, I expect, in about a month.

Yours faithfully,  
R. W. ROBBERDS,  
(per W.H.R.)

(9.)

## Messrs Gannon &amp; M'Laughlin to Mr. R. W. Robberds.

Bain, deceased.

Dear Sir, Temple Court, King-street, Sydney, 15 April, 1879.  
We send you herewith Land Grant, vol. 184, folio 129, to William Robinson Bain, of 44 acres, on Harwood Island, portion 122. We desire to obtain a transfer by the Curator of the Intestate Estates of William Robinson Bain, deceased, of this land.

Please take the necessary steps to enable the Curator to transfer. We shall be obliged by your early attention to this matter.

Yours truly,  
GANNON & M'LAUGHLIN,  
(per M.R.K.)

(10.)

13

(10.)

Messrs. Gannon &amp; M'Laughlin to Mr. R. W. Robberds.

Slattery to Maher.

Dear Sir,

Herewith we send you transfer for execution by the transferror.

Temple Court, King-street, Sydney, 2 October, 1879.

Yours, &amp;c.,

GANNON & M'LAUGHLIN,  
(per W.C.G.)

(11.)

Mr. R. W. Robberds to Curator's Agent, Grafton.

Slattery (Bain, deceased) to Maher.

Dear Sir,

I have at length obtained a transmission certificate in favour of the Curator of the land belonging to the intestate which you sold as Agent for the Curator, to William Maher, for £450. Mr. Maher's solicitor has applied to me for a transfer of this land to his client. Will you let me know if you have received the purchase money, so that I may be in a position to deal with the matter.

I have, &amp;c.,

R. W. ROBBERDS (per W.H.R.)

Curator's Agent to Mr. R. W. Robberds.

Slattery (Bain, deceased) to Maher.

Dear Sir,

I am in receipt of yours of the 6th inst. In reference hereto Mr. Bawden, whom I employed as auctioneer to sell for me, informs me that Mr. Maher has paid £200 cash and the balance by bills. I have also seen Mr. Maher's solicitor, who tells me that he believes his client will meet the bills directly they are presented. Mr. Bawden has promised to let me have the account sale and the money next week. I think, therefore, that you can safely get Mr. Slattery's signature to the transfer and hold it pending further advice from me.

I have, &amp;c.,

W. H. THOMAS,  
Agent.

(12.)

Curator's Agent to Mr. T. Bawden.

Re Bain, deceased.

Dear Sir,

I am in receipt of a telegram from the Curator of Intestate Estates directing me to send him at once copy contract, bills and deposit, with all other papers herein. As I understand from you that the sale to Maher of the real property in the above estate has been or is at any moment ready to be completed, I shall feel obliged if you will let me have your account sale as well as any papers relating to this property which may be in your possession. I should be glad to receive your reply to this in time to allow me to communicate with the Curator by the next mail.

I have, &amp;c.,

W. H. THOMAS,  
Agent for the Curator.

Curator's Agent to The Curator of Intestate Estates.

Re W. R. Bain, deceased.

Sir,

In compliance with the request contained in your telegram of the 17th instant, I now forward contract in connection with the sale of the real estate of above-named deceased and auctioneer's account sales. The property was surrounded by so many difficulties that I deemed it better in the interest of the estate to put it in the hands of Mr. Bawden for sale, because I believed that his intimate acquaintance with matters of this sort would enable him to procure a much better price than I could hope to obtain.

After a great deal of correspondence with the Sugar Company the land was at last submitted for sale at public auction in June, 1878. It was knocked down to a purchaser at, I believe, £450, but as he did not pay the deposit the sale fell through. Mr. Bawden then told me that regarding the encumbrances on the land he had doubts about being able to sell it by auction, and suggested that he should be allowed to sell it privately. To this I consented, and a few days after he informed me that he had sold it to one Maher, for £450, for which he had taken his promissory-note, which would be taken up as soon as the title was ready.

Mr. Meillon acted as solicitor for Mr. Bawden in preparing the conditions of sale; he was also the solicitor for the purchaser and for the mortgagee (R. B. Hill).

I did not apply to Mr. Bawden for the promissory-note and for his account sales at the time of the sale: first because I did not suppose Mr. Bawden could give me either until the promissory-note was realized, and secondly, matters were in a very different position then from what they are now. I then considered the promissory-note to be as safe in Mr. Bawden's possession as if I had had it in my own safe, and did not for a moment doubt but that the money would be forthcoming directly the title was made right.

During 1878 I made repeated inquiries of Mr. Meillon about what was being done, and the answer I usually got was that there was delay in Sydney about obtaining the transmission certificate; at length I received from you the telegram, copy of which is herewith marked A, to which I replied (copy marked B.) Shortly afterwards I wrote to Mr. Robberds urging him to push the matter forward, and in reply received his letter (copy C.) On the 1st September Mr. Robberds again wrote to me and asked me to procure a declaration that deceased was unmarried. This I at once procured and forwarded, and I heard nothing more of the matter until Mr. Robberds' letter of the 6th October last (copy D.) My reply thereto E is also herewith.

You will thus observe that it was not until about two months ago that I was in a position to tell the purchaser that the transfer was ready for your signature, and to ask for the money and account sales from Mr. Bawden. This I did, and have during the last-mentioned period urged him over and over again to settle with me. I have also had many conversations with Mr. Meillon on the same subject. I never could get anything but promises.

On receipt of your telegram I wrote to Mr. Bawden the letter (copy F.) He called on me next morning and told me that he could not let me have the proceeds of the sale till after Christmas; that in fact it was not completed, and would not be till the first week in January. Upon my asking if he meant that the promissory-note for the balance, £250, had not yet been retired, he said, "Yes, that was the case." I reminded him that he had received by his own admission £200, and that I must at least have that. After a little more conversation he promised to let me have it to-day.

This afternoon he forwarded me the account sales herewith and the contract, together with a message that he hoped to let me have the proceeds next week.

It would be in vain that I should conceal from you what I know, and painful as the task is my duty as your Agent compels me to make the following statement:—

Mr. Bawden received from Maher a promissory-note for £450, for what term I do not know. It was discounted by the Bank of New South Wales for Mr. Bawden, who received the proceeds. Subsequently Maher paid off £200, and the balance

balance was received by another promissory-note for £250. This was likewise discounted on Mr. Bawden's account. It arrived at maturity and was dishonored, whereupon the Bank threatened proceedings against Maher. Within the last few days I am informed by Mr. Meillon that Maher gave him £250 to retire that promissory-note, and this has been done. Hence Maher has paid every farthing of the purchase money. I have only, in conclusion, to express my great regret that there was so much delay in procuring the transmission certificate, &c. Had the business been completed last year, or indeed early this, all would have been right, and I should have been able to get the money.

I have, &c.,  
W. H. THOMAS, Agent.

I have just seen Mr. Colyer and his client, Mr. Atkins, who holds a power-of-attorney from all the next of kin in Ireland, and at their suggestion the following telegram to be sent to Mr. Thomas:—"Re Bain's estate. Attorney for next of kin demanding proceeds of estate. If you send the whole of the purchase money as per Bawden's account sales, probably matters will be settled, otherwise it is likely much complication will arise, and you will, I think, in such case be seriously prejudiced."—T.M.S., 3/2/80.

(13.)

Curator's Agent to The Curator of Intestate Estates.

Re Bain, deceased.

Sir,

Grafton, 3 Feby., 1880.

On receipt of your telegram of this day in reference to the above matter I immediately saw Mr. Bawden, who told me that he would himself communicate with you by this mail. I need hardly say that he did not give me the purchase money you refer to.

Excuse me if I say that I cannot see how I am likely to be prejudiced. I have only acted as your Agent, and in that capacity did what I thought best in the interests of the estate. Not one act of unnecessary delay or of neglect can be charged against me. That there was grievous delay in Sydney about perfecting the title there can be no doubt, though I am unaware where the blame rests. I only know that eighteen months elapsed before the transfer was ready for your signature.

The whole matter has been a source of great anxiety to me, and I of course am extremely sorry that anything should have gone wrong; I am not however without hope that everything will even yet be satisfactorily arranged. No effort of mine will be wanting to effect such a result.

I have, &c.,  
W. H. THOMAS,  
Agent.

Telegram:—I have just seen solicitor acting for attorney of next of kin. He will hear of no delay. He threatens disagreeable proceedings. Ask Bawden to settle at once, as I am powerless to interfere.—T.M.S., 11/2/80.

(14.)

Mr. T. Bawden to The Curator of Intestate Estates.

Re Bain's estate.

(Private.)

Dear Sir,

Grafton, 3 Feby., 1880.

Mr. Thomas has just called upon me re this matter and showed me your telegram. I am very sorry there should be delay over this matter, but circumstances have arisen making it impossible for me to put my hand upon the money for a month or six weeks. I ask you, therefore, as a great personal favour to myself, to kindly give further time, when I feel assured you will find the money forthcoming.

I am sorry indeed to be compelled to ask this delay, but times have been very bad and the Bank has unfortunately restricted operations both on my private and trust accounts in such a way as precludes my drawing a cheque for the amounts. I have some £25,000 outstanding accounts due to me, but the state of the district is such that it is almost impossible to get money in.

Trusting that you will kindly do this for me,—

I have, &c.,  
THOS. BAWDEN.

Telegram:—I have just seen solicitor acting for attorney of next of kin. He will hear of no delay, and as the matter is serious let me urge you to see Mr. Thomas and settle with him at once.—T.M.S., 10/2/80.

Both this and the other telegram sent on Wednesday morning.—E.B., 11/2/80.

(15.)

Mr. T. Bawden to Curator's Agent.

Re Bain's estate.

Dear Sir,

Grafton, 12 February, 1880.

With reference to this matter I regret very much that it cannot be closed at once, chiefly through delays not created by myself.

When the property was sold to Meigher, on the promissory-note, I was fully aware there would be considerable delay before the title would be ready to hand over to him, and in taking the promissory-note from him, which I did on my own responsibility, I did so as his agent to hold it pending completion of the transaction, and there has been nothing done since to alter those relations.

Times, as you are aware, have much altered since then, and there is now more difficulty in squaring the matter up between Meigher and myself, but which can be got over without doubt in a few weeks.

I would say this in addition, that the land would not have realized anything like the amount which has been paid by Meigher if it had been sold on any other terms, nor would it at the present time bring anything like so much if sold for cash or on terms.

Under all the circumstances, therefore, in the interest of the estate, I would say it is far better to allow time for Meigher's purchase to be completed, which he is anxious to do.

I have, &c.,  
T. BAWDEN.

(16.)

Curator's Agent to The Curator of Intestate Estates.

Sir,

Re Bain.

Grafton, 13 February, 1880.

I beg to forward a letter which I have received from Mr. Bawden.

It appears to me that you have no alternative but to treat the sale by Mr. Bawden to Maher as an abortive one, and to resell. Mr. Bawden seems to have acted throughout as Maher's agent.

You know nothing of Maher. You have not received the purchase money from him, nor have I as your Agent.

Maher no doubt has his remedy, but I submit that it is against Bawden and not you.

Perhaps, as Mr. Bawden suggests, it would be better to allow a little time for him and Maher to settle.

I have, &c.,  
W. H. THOMAS,  
Agent.

(17.)

Curator's Agent (Mr. Clarke) to The Curator of Intestate Estates.

Sir,

Police Office, Grafton, 18 May, 1880.

I have the honor to request that you will be good enough to inform me whether any further action is to be taken by me in reference to the sale of the real estate of the deceased in the intestate estate mentioned in the margin, the conveyance of which cannot be completed, for reasons which I understand have already been brought under your notice by the late Agent at this place.

I have, &c.,  
WILLIAM CLARKE,  
Curator's Agent.

(18.)

Mr. H. C. Colyer to The Curator of Intestate Estates.

128, Elizabeth-street, 16 June, 1880.

Sir,

Re W. R. Bain, deceased.

I have the honor to request that such assets in this estate as are still undisposed of, together with the proceeds of such as have been sold, be handed over to Robert Atkins, the attorney, for the next-of-kin of the abovenamed deceased, to whom letters of administration were granted on the twenty-fifth day of October last.

Your early attention to this matter will greatly oblige, as the delay which has already occurred has caused much distress to those concerned.

I have, &c.,  
HENRY C. COLYER,  
Proctor for the said Robert Atkins.

(19.)

Mr. H. C. Colyer to The Curator of Intestate Estates.

128, Elizabeth-street, 29 July, 1880.

Sir,

Re W. R. Bain, deceased.

I beg to remind you that my letter of 16th June last is still unanswered. Kindly give the matter immediate attention, as those interested in the estate are suffering much for want of money.

I have, &c.,  
HENRY C. COLYER.

(20.)

Mr. H. C. Colyer to The Curator of Intestate Estates.

128, Elizabeth-street, 25 June, 1880.

Sir,

Estate of W. R. Bain, deceased.

Enclosed is a copy of the correspondence which has taken place between you and myself. Kindly favour me with an immediate and definite reply to my letter of 16th June, 1880, that I may know how to act.

I have, &c.,  
HENRY C. COLYER.

Curator of Intestate Estates to Mr. H. C. Colyer.

Curator's Office, Supreme Court House, King-street, Sydney, 2 February, 1881.

Dear Sir,

Estate of W. R. Bain.

Since my interview with you last week I have investigated the matter to which your letter of the 16th June last has reference, with the following result:—

Order to collect, 16th May, 1878. Mr. Thomas, Curator's Grafton Agent, put deceased's land into hands of Mr. Bawden, auctioneer, of Grafton, for sale. He put it up to auction in June, 1878, and it was sold for £450. The deposit was not paid, and so the sale fell through. Thomas then consented to Bawden's selling by private contract, and it was shortly afterwards sold accordingly to W. Maher for £450. Bawden took Maher's promissory note for this amount.

Thomas alleges in his letter to Curator that there was great delay in Sydney in getting the transfer to Maher prepared, and that it was not ready for Curator to sign till October, 1879.

Curator has signed the transfer, which is dated 4th October, 1879.

Bawden has received and misappropriated the £450, and he has since become insolvent.

So far as the papers in the estate disclose, Curator was not informed that the sale to Maher had not been for cash until after he had signed the transfer.

Curator's printed general instructions to his country Agents are always to sell for cash only.

You had better satisfy yourself as to the correctness of these facts by an inspection of the papers in my office relating to this estate.

I have, &c.,  
FRED. CHAPMAN,  
Curator.

Mr. H. C. Colyer to The Curator of Intestate Estates.

128, Elizabeth-street, 3 February, 1881.

Sir,

Estate of W. R. Bain.

I beg to acknowledge the receipt of yours of the 2nd instant, but respectfully submit that it contains no answer to mine of 16th June last. Kindly inform me what course you propose to adopt in reference to the request therein contained.

I have, &c.,  
HENRY C. COLYER.  
(21.)

(21.)

The Curator of Intestate Estates to Mr. H. C. Colyer.

Estate of W. R. Bain.

Curator's Office, Supreme Court, 5 July, 1881.

Sir, I am in receipt of your favour of the 25th ultimo. I have a balance in hand to credit of this estate of £8 1s. 6d. This amount, less the Government fees, I am ready to pay over to the administrator.

I have, &c.,  
FRED. CHAPMAN,  
Curator.

(22.)

The Curator of Intestate Estates to Mr. W. H. Thomas.

Curator's Office, Supreme Court, 3 August, 1881.

Dear Sir,

Estate of W. R. Bain.

I have received a letter from the Under Secretary of Justice, in which he instructs me as follows:—  
"I am directed by the Minister of Justice to request that you will have the goodness to take immediate steps to compel Meigher to complete his purchase at once by the payment of the purchase money, and that you will inform Mr. Thomas that in consequence of his unauthorized action as your Agent, in regard to the sale of the land, he will be held responsible for any loss which may accrue in the event of Meigher's failing to complete his purchase at the original price."

I have, &c.,  
FRED. CHAPMAN,  
Curator.

(23.)

Mr. W. H. Thomas to The Curator of Intestate Estates.

Dear Sir,

*Re* W. R. Bain deceased.

Moruya, 5 August, 1881.

I have received yours of the 3rd instant, and am writing to Grafton on the subject.  
I fail to see how I can be made responsible unless fraud or culpable negligence can be shown. And whereas the latter can be very easily shown to have occurred in Sydney, and not in Grafton, it seems to me that the responsibility will be found in the former place. Fifteen months elapsed from the sale of the land to the procuring of the transmission certificate by your predecessor.

I have, &c.,  
W. H. THOMAS,  
Curator.

1881.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## ADMINISTRATION OF JUSTICE.

(ADMINISTRATION OF THE DOG ACT IN SCONE.)

*Ordered by the Legislative Assembly to be printed, 7 July, 1881.*

RETURN to an *Address* of the Honorable the Legislative Assembly of New South Wales, dated 31st March, 1881, That His Excellency will be pleased to cause to be laid upon the Table of this House, Return showing,—

- “(1.) The names of all persons who registered dogs at the Court of Petty Sessions, Scone, between the 1st day of October, 1880, and the 1st day of December following, with the dates of such registration respectively.
- “(2.) The names of all persons in the Scone District summoned for keeping unregistered dogs during such period, with the dates of the issuing of such summonses.
- “(3.) The names of all persons who have paid fines for keeping unregistered dogs without being summoned, together with the dates of such payments.
- “(4.) The names of all persons convicted of the last-named offence who had not been summoned, together with the names of the adjudicating magistrates in each case.
- “(5.) Also copies of all convictions for the last-mentioned offence during such period in the said District and of the depositions in each case; also copies of all correspondence upon the subject of the Administration of the Dog Act in Scone, between J. McLaughlin, and the Colonial Treasurer, and Minister for Justice, and between the Minister for Justice, and the Bench of Magistrates, and Clerk of Petty Sessions, Scone.

*(Mr. McLaughlin.)*

12. Dr. Creed for Bench of Magistrates, Scone, to Under Secretary of Justice (with enclosure), further report. 6 April, 1881 .....	5

## ADMINISTRATION OF JUSTICE.

### No. 1.

J. McLaughlin, Esq., M.P., to The Colonial Treasurer.

Sir,

Temple Court, King-street, Sydney, 28 December, 1880.

I have the honor to call your attention to mal-administration of the Dog Act which has lately taken place in Scone.

The day on which dogs should be registered expired without the majority of the people in the district having notice or knowledge of the fact. A number of them hastened to comply with the law and register their dogs, but instead of being commended for this course the police were directed to serve them with summonses for not registering within the time limited, and the registration after the time was considered by the Bench sufficient proof to justify convicting and fining the defendants for keeping unregistered dogs. In other cases, when poor people came to register their dogs and pay the registration fees the Clerk of Petty Sessions took it upon himself to virtually there and then sit in judgment upon the applicants and punish them for not having been more prompt in complying with the law, by receiving from them the sum of 10s. by way of fine in addition to the registration fees; otherwise the police would be directed to issue summonses and render the applicants liable to cost for mileage. The sums of 10s. were, under the circumstances, paid to Mr. Wilshire, and the persons who paid this sum were not further prosecuted for their supposed offence. Other persons who applied to the Clerk of Petty Sessions to register whilst the Court was sitting, I am informed, were brought before the Bench there and then without any summons and fined.

When in Scone I pointed out to the Bench the impropriety of the course then being pursued, but was simply told the police had instructions to proceed as they were doing, and whilst an application for a prohibition was pending by one defendant, Edward M'Loughlin, other similar fines were inflicted.

In M'Loughlin's prohibition case, His Honor Judge Windeyer granted the prohibition, and stated that the police were most ill-advised in the proceedings they instituted; that punishing people in that way for endeavouring to comply with the law had the effect of deterring others from a compliance with it. The prohibition was granted upon two grounds; first, that a prosecution did not lie after the registration had been effected; and second, that the evidence did not disclose an offence. Costs would have been granted against the magistrates, but that the counsel who was instructed by the Crown Solicitor stated that he showed cause for the prosecuting constable, not for the magistrates.

In justifying the course pursued, to me, Mr. Wilshire stated that the revenue from dog registration fees had so much fallen off, through everybody not registering, that they had determined to make up the deficiency out of those who registered late.

In conclusion, I have the honor to ask that you will see fit to direct the refund of all sums received by way of fines by the Clerk of Petty Sessions from persons not summoned; also the refund of all moneys paid for fines, mileage, and costs, by persons fined for keeping unregistered dogs who had registered before the issuing of the summonses.

I have, &c.,

JNO. McLAUGHLIN.

The Bench of Magistrates, Scone, favour of report.—J.G.L.I., 18 January, 1881. Advise Bench, Scone, and inform Mr. McLaughlin of reference.—20/1/81.

### No. 2.

The Under Secretary of Justice to The Bench of Magistrates, Scone.

Gentlemen,

Department of Justice, Sydney, 20 January, 1881.

I am directed by the Minister of Justice to transmit the enclosed copy of a communication from J. McLaughlin, Esq., M.P., respecting the mal-administration of the Dog Act at Scone, and to request that you will have the goodness to favour with report thereon at your earliest convenience.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

### No. 3.

The Under Secretary of Justice to J. McLaughlin, Esq., M.P.

Sir,

Department of Justice, Sydney, 24 January, 1881.

I am directed by the Minister of Justice to acknowledge the receipt of your letter of the 28th ultimo, addressed to the Colonial Treasurer, calling attention to the mal-administration of the Dog Act at Scone, and to inform you that the matter has been referred to the Bench of Magistrates at that place for their report.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

### No. 4.

The Bench of Magistrates, Scone, to The Under Secretary of Justice.

Sir,

Scone, 2 February, 1881.

On behalf of the Bench of Magistrates at Scone, I have the honor to acknowledge the receipt of your communication No. 81-606, enclosing copy of, and requesting report on, a letter from Mr. J. McLaughlin, M.L.A., to the Honorable the Colonial Treasurer, relative to certain convictions under the Dog Act at this Court.

The Bench gave no directions to the police to take proceedings; they took action on their own motion, the magistrates dealing with each case as it came before them.

The

The defendants, who belonged to all classes of the public, in every case but two pleaded guilty, and were fined the lowest penalty allowed by the Act. In all cases where possible costs were saved to them, small fines were inflicted, as in the opinion of the magistrates sitting the cases did not call for severe punishment. In those cases in which summonses were not issued, the defendants being present in court were asked whether they would then appear for judgment or wait until summonses were served on them and then have their cases decided. In the majority of instances they preferred immediate trial, as it saved them the time which would be lost by coming to the court another day; also the cost of the summonses, which it was thus unnecessary to issue.

With regard to the case of Edward M'Loughlin, in which a prohibition was granted by Mr. Justice Windeyer, the prohibition was granted on the ground of the insufficiency of the evidence as to the possession of the dogs by the defendant as set forth in the depositions taken in the case. There was ample evidence to justify conviction, but in consequence of the absence of the Clerk of Petty Sessions on leave, the taking down of the evidence by a police officer, and inadvertence of the sitting justices, it did not all appear in writing.

We are informed that the judge did not rule that registration condoned the offence of having possession of a dog being unregistered between October 14th (the last date for registering) and the date of registration.

Edward M'Loughlin's case was heard on Friday, November 19th, and at the request of Mr. J. McLaughlin, M.L.A., was adjourned until the following Tuesday, that he might obtain a legal opinion, not a prohibition.

On the latter day, nothing having been heard from him, the fine was inflicted. On the following day notices of prohibition were served on the parties.

I may say that but for the action taken by the police, the Act in this district would have been practically a dead letter, and that it was only the report of the earlier prosecutions which caused the subsequent rush to register.

The injury inflicted by tame dogs in this district is sometimes very great—in one late instance damage to the extent of nearly 200 in a single night being done.

The Bench, under the circumstances as here explained, cannot view favourably any proposal for the remission of penalties.

I enclose a letter from Mr. Wilshire, the Clerk of Petty Sessions, relative to the portions of the letter referring to him.

The letter of Mr. McLaughlin, M.L.A., is expressed in so vague a manner that it is possible some points on which information is required may have been overlooked; if this is so, the Bench will send further explanation if required.

I have, &c.,

JNO. M. CREED, J.P.,

Chairman.

[Enclosure referred to.]

The Clerk of Petty Sessions to The Bench of Magistrates, Scone.

Gentlemen,

Police Office, Scone, 24 January, 1881.  
Upon reading the letter shown me, addressed to the Honorable James Watson, Esq., Colonial Treasurer, by Mr. John McLaughlin, M.P., in reference to certain convictions by you under the Dog Act, in which I find a number of imputations upon my conduct as Clerk of Petty Sessions, I have the honor to inform you that I did not "take it upon myself to virtually sit in judgment upon the applicants, &c.," as stated therein, but that several persons voluntarily asked me to receive the sum of 10s. to await the decision of the Bench, saying it would save them further costs and expense attending the Court if the police should summon them for neglect, and to save them trouble and loss of time I accepted the money from each.

I beg to state that I held out no threat, nor made any allusion to "costs for mileage," for which the Act makes no provision.

In every case the name was entered in the summons book, and the person called upon to appear before the Court, which the majority did, pleading *guilty*, and were fined the minimum penalty, together with costs of Court in those cases were summonses were issued.

I desire to state that I did not attempt any justification to Mr. McLaughlin; but in a private conversation, which he has misapplied, said that, owing to the receipt of fines, the amount of revenue almost made up the deficiency by registration on the previous year.

As regards Edward M'Loughlin's case, I would point out that I was absent on leave at the hearing, and had it been adjourned I could have proved by the records of the Court he had registered the same dog last year (1879), when probably the prohibition would not have been obtained.

I have, &c.,

J. T. WILSHIRE,

Clerk of Petty Sessions.

In any case in which money by way of penalty was taken by the Clerk of Petty Sessions, or any other officer, without a magisterial adjudication, I think the money should be refunded. Such a proceeding on the part of the Clerk of Petty Sessions was highly irregular and improper. But in cases where the parties charged waived, as Dr. Creed states, the preliminary step of summoning them, and the cases were adjudicated upon by the Bench, I do not think the money should be refunded.—J.G.L.I., 17/2/81. Inform Bench, Scone, and Mr. McLaughlin accordingly.—23/2/81.

### No. 5.

The Under Secretary of Justice to The Bench of Magistrates, Scone.

Gentlemen,

Department of Justice, Sydney, 23 February, 1881.

Referring to your letter of the 2nd instant, reporting upon the communication from Mr. John McLaughlin, M.P., respecting certain convictions under the Dog Act at Scone, I am directed by the Minister of Justice to state that, in any case in which money by way of penalty was taken by the Clerk of Petty Sessions, or any other officer, without a magisterial adjudication, he thinks the money should be refunded, and that such a proceeding on the part of a Clerk of Petty Sessions was highly irregular and improper.

But in cases where the parties charged, waived, as you state, the preliminary step of summoning them, and the cases were adjudicated upon by the Bench, Sir George Innes does not think the money should be refunded. I am to request therefore, that you will have the goodness to furnish particulars of any cases in which the Clerk of Petty Sessions accepted money by way of penalty without a magisterial adjudication, with a view to the refund being made to the parties concerned.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

No. 6.

## No. 6.

The Under Secretary of Justice to J. McLaughlin, Esq., M.P.

Sir,

Department of Justice, Sydney, 23 February, 1881.

With reference to my letter of the 24th ultimo, acknowledging the receipt of yours of the 28th December last, respecting certain convictions under the Dog Act at Scone, I am directed by the Minister of Justice to inform you that a communication has been addressed to the Bench of Magistrates, Scone, requesting them to furnish the particulars of any cases in which the Clerk of Petty Sessions accepted money by way of penalty without a magisterial adjudication, with a view to a refund being made to the parties concerned.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 7.

J. McLaughlin, Esq., M.P., to The Under Secretary of Justice.

Sir,

Temple Court, King-street, Sydney, 25 February, 1881.

I have the honor to acknowledge the receipt of your letter of the 23rd instant, and shall feel obliged if you will kindly forward me copies of the reports by Dr. Creed and Mr. Wilshire, in reply to my letter to the Colonial Treasurer.

I have, &amp;c.,

JNO. McLAUGHLIN.

May be furnished as requested.—J.G.L.I., 28/2/81.

## No. 8.

The Under Secretary of Justice, &amp;c., to J. McLaughlin, Esq., M.P.

Sir,

Department of Justice, Sydney, 1 March, 1881.

In compliance with the request contained in your letter of the 25th ultimo, I am directed by the Minister of Justice to enclose copies of reports furnished by Dr. Creed, on behalf of the Bench, and Mr. Wilshire, Clerk of Petty Sessions, in reply to your letter to the Colonial Treasurer of the 28th December last, complaining of the administration of the Dog Act at Scone.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 9.

The Bench of Magistrates, Scone, to The Under Secretary of Justice.

Sir,

Police Office, Scone, 11 March, 1881.

Dated 1st March, 1881.

In reply to your letter 81-1,646, dated 23rd February, 1881, we beg to enclose for your perusal a letter received from the Clerk of Petty Sessions.

By this you will see that there were no cases "in which money by way of penalty was taken without a magisterial adjudication."

We have, &amp;c.,

JNO. M. CREED,

Chairman, for the Bench.

[Enclosure referred to.]

Gentlemen,

In reply to your request in reference to the letter received by you from the Department of Justice, No. 81-1,646 of the 23rd February, 1881, I have the honor to state that there were no cases in which money by way of penalty was received by me without a magisterial adjudication.

Police Office, Scone, 1 March, 1881.

I have, &amp;c.,

J. T. WILSHIRE,

Clerk of Petty Sessions.

Inform Mr. McLaughlin, M.P., accordingly.—16 March, 1881.

## No. 10.

The Under Secretary of Justice to J. McLaughlin, Esq., M.P.

Sir,

Department of Justice, Sydney, 17 March, 1881.

With reference to my letter of the 23rd ultimo, I am directed by the Minister of Justice to forward for your information the enclosed copy of a communication from the Chairman of the Bench, Scone (with enclosure), further upon the administration of the Dog Act at that place.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 11.

The Under Secretary of Justice to The Bench of Magistrates, Scone.

Gentlemen,

Department of Justice, Sydney, 1st April, 1881.

Dated 31st March, 1881. Votes and Proceedings, No. 44.

I am directed by the Minister of Justice to request that you will have the goodness to furnish to this department, with the least possible delay, the following information, which has been called for by the Legislative Assembly, viz. :—

ADMINISTRATION OF THE DOG ACT IN SCONE :—Mr. McLaughlin moved, pursuant to Notice, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, a Return showing,—

(1.) The names of all persons who registered dogs at the Court of Petty Sessions, Scone, between the 1st day of October, 1880, and the 1st day of December following, with the dates of such registration respectively.

(2.)

(2.) The names of all persons in the Scone District summoned for keeping unregistered dogs during such period, with the dates of the issuing of such summonses.

(3.) The names of all persons who have paid fines for keeping unregistered dogs without being summoned, together with the dates of such payments.

(4.) The names of all persons convicted of the last-named offence who had not been summoned, together with the names of the adjudicating magistrates in each case.

(5.) Also copies of all convictions for the last-mentioned offence during such period in the said district, and of the depositions in each case\*.

Question put and passed.

I am to add, it is desirable that the Return be laid upon the Table before the close of the present Session.

I have, &c.

W. E. PLUNKETT,  
Under Secretary.

\* This will be prepared by this department.

No. 12.

The Bench of Magistrates, Scone, to The Under Secretary of Justice.

Sir,

Police Office, Scone, 6 April, 1881.

We have the honor to acknowledge the receipt of your letter of the 1st instant, and in reply, beg to forward under separate cover the returns of registered dogs, &c., as required, which have been obtained from the records of this Court.

We have, &c.,

JNO. M. CREED,  
Chairman (for the Scone Bench).

NOTE.—It may be observed that the letter signed by J. M. Creed, J.P., on behalf of the Bench, dated 2nd February last, was agreed to by a full Bench of ten magistrates.—JNO. M. CREED.

[Enclosures.]

Police Office, Scone, 23 November, 1880.

Before John Garrett, P.M., and Jno. M. Creed, J.P.

James Donnell, charged on summons with keeping an unregistered dog. Pleads not guilty.

*James Donnell*, on oath, saith: I live at Middlebrook; I registered the dog in question, one kangaroo slut, on the 8th of this month, and the dog was not mine six days before doing so; I got her from a man on the road who was driving cattle; I don't know his name; he was passing my house; the dog was off and on my premises I cannot say for how long; I will not swear the dog was not on my premises for fourteen days before I registered her on the 8th instant.

JAMES DONNELL.

Sworn before us at Scone, this 23rd November, 1880—

JOHN GARRETT, P.M.  
JNO. M. CREED, J.P.

Found guilty. Fined 10s. and 2s. 6d. costs, in default distress.

JOHN GARRETT, P.M.  
JNO. M. CREED, J.P.

FORM OF NOTICE FOR REGISTERING DOGS.

A description of two dogs intended to be kept by Ed. M'Loughlin, of Yarrindi, during the year ending on the 30th September, 1881:—

No.	Premises on which each dog is intended to be kept.	Age.	Sex.	Colour or peculiar mark.	Description or kind of dog.
1	Owner's ... ..	4 years ...	Female ...	Black and tan ...	Sheep.
2	Do. ... ..	1 year ...	Male ...	Do. ...	Do.

I, Ed. M'Loughlin, do declare the above list and description to be true in every particular, to the best of my knowledge and belief.

pro. ED. M'LOUGHLIN,  
J.T.W., C.P.S.

Police Office, Scone, 19 November, 1880.

Magistrates present: John Garrett, P.M., and H. V. Hewitt, J.P.

*Edward M'Loughlin* appears on summons charged with having two dogs in his possession for fourteen days previous to the 11th day of November instant, within the boundaries of the district of Scone, not being under the age of six months, without causing a description thereof to be registered.

*William Smith*, being duly sworn, states: I am a constable stationed at Scone; on the 11th day of November instant I found by the registration book that the defendant now before the Court had registered two dogs; I now produce a form of application from the defendant to register two dogs marked A, and signed on his behalf by J. T. Wilshire, C.P.S., of Scone; this application was made on the 11th instant by the defendant; I then took out a summons for the defendant.

*By defendant's solicitor*: I will admit the form as evidence.  
Taken and sworn before us this 19th day of November, 1880—

WILLIAM SMITH.

JOHN GARRETT, P.M.  
H. V. HEWITT, J.P.

We adjudge that the defendant shall pay a fine of 10s. for each dog and 2s. 6d. costs.

JOHN GARRETT, P.M.  
H. V. HEWITT, J.P.

## ADMINISTRATION OF JUSTICE.

### No. 1.

#### The Inspector General of Police to The Principal Under Secretary.

Police Department, Inspector General's Office, Sydney, 10 December, 1873.

Sir, I have the honor to report, for the consideration of the Hon. the Colonial Secretary, that I consider it advisable to break up the Police Station and discontinue the Court of Petty Sessions at Windeyer.

It will be seen by Superintendent Lydiard's report attached that the population has greatly decreased at this place, and there is a Court and Police Station at Hargraves, only seven miles distant.

Having found it necessary to make some inquiry into a statement made in the local newspaper and copied into the *Sydney Morning Herald*, respecting a case brought before the Windeyer Court (and which statement I found to be an entire misrepresentation of facts), I ascertained that the two resident Magistrates at Windeyer are both in business in the township, one being the owner of the public-house in which he resides, his brother being the licensee.

The conduct of the Court business is not very seemly, and gives rise to constant complaints and charges between the Police and the Bench, and this is an additional reason to my mind why the Petty Sessions should be discontinued.

I have good reason to believe that there are more drunken vagrants made a charge upon the public, owing to the action of the Bench, than there ought to be, and in the case referred to in the newspapers the man the police were ordered by the Magistrates to take into the lock-up had friends in the district, was a military pensioner, and had squandered the £9 he drew for pension in drink in the Windeyer public-houses, notwithstanding which the police had to take charge of him and hire a vehicle specially to convey him to the Mudgee gaol.

I have, &c.,

JNO. McLERIE,

Inspector General of Police.

[Enclosure.]

Superintendent Lydiard to The Inspector General of Police.

Police Department, Bathurst Station, 8 December, 1873.

MEMO.—I forward these reports for the information of the Inspector General of Police. I really think the police-station at Windeyer might be broken up and Petty Sessions discontinued. Hargraves is only seven miles distant, the population has greatly decreased, and as it will be seen the business at the Court is very trifling. The manner in which the Court business is carried on is not very creditable to the two resident Magistrates, and from the time they were placed in the Commission of the Peace there have been constant rows and reports between one or the other of them and the police.

C. T. P. LYDIARD,

Superintendent.

Submitted, 13/12/73.

As this matter has been delayed, the opinion of the Inspector General had better be obtained *now* before I take any step.—H.P., 1/7/74. The Inspector General of Police.—B.C., 14 July, 1874 (*pro* the U.S.), W.G.

### No. 2.

#### The Inspector General of Police to The Principal Under Secretary.

Police Department, Inspector General's Office, Sydney, 27 July, 1874.

FURTHER report from Superintendent Lydiard respecting the proposed discontinuance of the Court and Petty Sessions at Windeyer, submitted for the information of the Hon. the Colonial Secretary.

EDMUND FOSBERY,

Acting I.G.P.

[Enclosure.]

Superintendent Lydiard to The Inspector General of Police.

Police Department, Bathurst Station, 25 July, 1874.

MEMO.—Since my last report one of the Magistrates (Mr. Mulholland) has resigned the Commission of the Peace, and resumed his publican's license. There is now only one Magistrate. During the last six months there have been five police cases, ten summons, seven mining, and twelve small debts cases, heard at the Police Office. I think the Petty Sessions might be abolished; I would leave one constable at the barracks, and instruct the sergeant at Hargraves to visit Windeyer as often as he is able; I think he is quite able to take charge of both stations, the distance being so short.

C. T. P. LYDIARD,

Superintendent.

Under the report of Superintendent Lydiard the Police Station at Windeyer may be broken up.—29/7/74. Approved.—H.P., 19/8/74. Inspector General of Police informed, 20 Aug., /74. Shall the papers now go to the Department of Justice, &c.?—20 Aug., /74. Yes.—21/8/74. The Under Secretary, Law Department.—B.C., 21 Aug., /74, for the U.S., W.G. For the reasons given in this correspondence I think the Petty Sessions at Windeyer should be discontinued.—G.W.A., 24/8/74. Prepare Minute Paper.—24/8/74. Herewith.—24/8/74.

No. 3.

## The Principal Under Secretary to The Inspector General of Police.

Sir,

Colonial Secretary's Office, Sydney, 20 August, 1874.

Referring to your blank cover communication of the 27th ultimo, and previous correspondence, I am now directed to inform you that the Colonial Secretary approves of the abolition, as recommended in your letter of the 10th December last, of the Police Station at Windeyer.

I have, &c.,  
(For the Under Secretary),  
WM. GOODMAN.

No. 4.

## Minute Paper for the Executive Council.

Department of Justice and Public Instruction, Sydney, 25 August, 1874.

WINDEYER, within the Police District of Mudgee, has been appointed a place for holding Courts of Petty Sessions, under the Act of Council 3 William IV, No. 3, but it is not expedient that it should be continued as such.

I therefore recommend that the appointment of Windeyer as a place for holding Courts of Petty Sessions be cancelled, in terms of the Act of Council 11 Vic. No. 41.

G. WIGRAM ALLEN.

The Executive Council advise that Windeyer be cancelled as a place for holding Courts of Petty Sessions, in terms of the Act 11 Vic. No. 41.—ALEX. C. BUDGE, Clerk of the Council. Approved.—H.R., 1/9/74. Minute 74/42.—31/8/74. Confirmed.—7/9/74. Notice to Gazette, 10/9/74. Inspector General of Police, 14/9/74. Bench, Hargraves, 15/9/74.

No. 5.

## Gazette Notice.

Government Gazette, Friday, 10 September, 1874.

Department of Justice and Public Instruction, Sydney, 10 September, 1874.

His Excellency the Governor, with the advice of the Executive Council, has been pleased, under the Act of Council 11 Vict. No. 41, to cancel the appointment of Windeyer as a place at which Petty Sessions may be holden.

G. WIGRAM ALLEN.

No. 6.

## The Under Secretary of Justice, &amp;c., to The Inspector General of Police.

Sir,

Department of Justice and Public Instruction, Sydney, 14 September, 1874.

Referring to your letter of 10th December last, and further report of 27th July last, respecting proposed discontinuance of the Court of Petty Sessions at Windeyer, I am directed by the Minister of Justice and Public Instruction to inform you that His Excellency the Governor, with the advice of the Executive Council, has been pleased, under the Act of Council 11 Vict. No. 41, to cancel the appointment of Windeyer as a place at which Petty Sessions may be holden, and that the necessary notice has been published in the Government Gazette of 11th instant.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

No. 7.

## The Under Secretary of Justice, &amp;c., to The Bench of Magistrates, Hargraves.

Gentlemen,

Department of Justice and Public Instruction, Sydney, 15 September, 1874.

I am directed by the Minister of Justice and Public Instruction to invite your attention to a notice appearing in the Government Gazette of 11th instant, from which it will be observed that His Excellency the Governor, with the advice of the Executive Council, has been pleased to cancel the appointment of Windeyer as a place for holding Petty Sessions.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

No. 8.

## Memorial from Residents of Windeyer to The Minister of Justice, &amp;c.

[Presented by Mr. O'Connor, M.P., and Mr. Church.—G.W.A.]

THE Memorial of the undersigned traders, gold-miners, farmers, and other residents of the town of Windeyer and its surrounding neighbourhood,—

Respectfully sheweth:—

1st.—That your Memorialists regard with feelings of astonishment and apprehension the action of the Government in cancelling the Court of Petty Sessions so many years established at Windeyer, to the detriment and inconvenience of the inhabitants of the Meroo Gold-fields and its tributaries, entailing on them thereby a serious loss of time and money, by causing the undesirable necessity of attending the Mudgee and Hargraves Courts for the transaction of their various matters of business.

2nd.

2nd. That your Memorialists would respectfully represent that the judicial requirements of the inhabitants of this district, numbering one thousand five hundred souls (as per last Census), and occupying an area of two hundred and thirty square miles, as a trading, gold-mining, and agricultural community, are ignored by the cancellation of the Court of Petty Sessions at the town of Windeyer, through want of consideration towards the population, by which their interests are being lost sight of.

3rd. That the inconvenience caused to the gold-mining population, in being compelled through the cancellation of the said Court of Petty Sessions to travel long distances to procure miners' rights and register claims, is regarded as an injustice to their common interests.

4th. That your Memorialists would submit for your honorable consideration that the Windeyer district represents extensive quartz reefing and alluvial gold mining interests and a permanent population of agriculturists, by which a steady direct revenue is yearly contributed to the finances of the country, which the returns of the various Clerks of Petty Sessions for the past three years will verify, showing that during the year 1872-1873 over two thousand pounds sterling as revenue was derived from various sources in this district, and also a steady yield of gold is being obtained, and the major part of the Hargraves escort has always been contributed from this district, there being no gold receiver appointed at Windeyer.

5th. That your Memorialists would respectfully show that the said Court of Petty Sessions (having been in existence for the past sixteen years, conferring great advantages upon the inhabitants of the district) can still be maintained without any material cost to the Government, there being every requisite and convenience already established at Windeyer for the same.

6th. That your Memorialists would further direct your honorable attention to the fact that Windeyer having been proclaimed a place for holding Wardens' Courts will show that the mining interest of this district is as yet of some note, and that the monthly attendance of the Warden will constitute, in conjunction with our resident Magistrate, a full Bench for the adjudication as heretofore of the usual Court business without extra cost.

And your Memorialists, as in duty bound, will ever pray.

[Here follow 166 signatures.]

Acting Inspector General of Police for report.—G.W.A., 23 Oct., 1874.      Acting Inspector General of Police.—W. E. PLUNKETT, B.C., 23 Oct., 1874. To be returned.

Sydney, 26 Oct., 1874.

MEMO.—Referred to Superintendent Lydiard for his observations. A statement as to the amount of business transacted at Windeyer might perhaps be furnished.—EDMUND FOSBERY, Acting I.G.P. Supt. Lydiard.

#### No. 9.

Mr. J. G. O'Connor, M.P., to The Minister of Justice, &c.

Sir,

York-street, Sydney, 25 November, 1874.

I have just received a letter from the Petitioners, for the re-establishment of the Court of Petty Sessions at Windeyer, complaining that they have not as yet received an answer to the prayer of the petition.

Will you please let me have a reply at your earliest convenience, so that I may forward it on.

Yours, &c.,

J. G. O'CONNOR.

Inquire about the matter.—W.E.P., 26/11/74. Note to Mr. Goff, 26/11/74.

#### No. 10.

Mr. T. H. Goff to Mr. T. E. MacNevin.

Dear Sir,

Police Department, Inspector General's Office,

Sydney, 28 November, 1874.

The papers respecting re-establishment of Petty Sessions at Windeyer were referred to Superintendent Lydiard on the 26th ultimo.

Mr. Lydiard has been requested to expedite return of papers with his report.

Yours, &c.,

T. HENRY GOFF.

Inform Mr. O'Connor purport of Inspector General's communication.—G.W.A., 30/11/74.

#### No. 11.

The Under Secretary of Justice, &c., to Mr. J. G. O'Connor, M.P.

Sir,

Department of Justice and Public Instruction,

Sydney, 1 December, 1874.

With reference to your letter of 25th ultimo, respecting re-establishment of Petty Sessions at Windeyer, I am directed by the Minister of Justice and Public Instruction to inform you that the papers were referred to Superintendent Lydiard on the 26th October last, and that he has been requested to expedite the return of the papers with his report.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

No. 12.

No. 12.

The Inspector General of Police to The Under Secretary of Justice, &c.

Police Department, Inspector General's Office, Sydney, 30 December, 1874.

THE reasons which were considered sufficient to warrant the cancellation of Windeyer as a place for holding Petty Sessions would apply with greater force against the re-establishment of the Court, more particularly as there is now only one Magistrate resident in the District, and when there were two, cases had frequently to be postponed.

Superintendent Lydiard reports that he does not consider a Court of Petty Sessions required at Windeyer; and in this opinion I concur.

It was proposed to break up the Police Station, but it has been thought advisable to leave one constable there.

I append copy of a report from the Sub-Inspector in charge of that portion of the Western District.

EDMUND FOSBERY,  
I.G.P.

[Enclosure.]

Acting Sub-Inspector Carter to The Superintendent of Police, Bathurst.

Sir, Mudgee Police Station, 7 December, 1874.

I have the honor to report, with respect to attached petition from the inhabitants of Windeyer and neighbourhood, asking for the re-establishment of the Court of Petty Sessions at that place,—

1. That I visited Windeyer on the 5th and 6th instant, and found that the number of inhabitants (including women and children) residing within the bounds of the former Court of Petty Sessions to be as follows:—

Windeyer proper	...	...	...	...	...	...	...	...	...	57
Campbell's Creek	...	...	...	...	...	...	...	...	...	80
Upper Meroo	...	...	...	...	...	...	...	...	...	47
Clark's Creek	...	...	...	...	...	...	...	...	...	50
Stony Creek	...	...	...	...	...	...	...	...	...	12
Long Creek	...	...	...	...	...	...	...	...	...	120
Between Windeyer and Clark's	...	...	...	...	...	...	...	...	...	20
Pyramul and adjacent Creeks	...	...	...	...	...	...	...	...	...	260
Chinese at Windeyer, Upper Meroo, Campbell's, Clark's, Long, and Pyramul Creeks	...	...	...	...	...	...	...	...	...	280
Total	...	...	...	...	...	...	...	...	...	926

I may say that I believe that the above numbers are correct, as I visited the places and counted each family separately. The number of the Chinese is absolutely correct, as I obtained the list from the Joss House at Clark's Creek.

2. The production of gold at the places mentioned is very small; from inquiries made I am of opinion it does not exceed 45 ounces per fortnight.

3. A great number of the residents (with the exception of the Chinese) are married and have settled on small portions of land. I should put the male adults, including Chinese, at 450, which is the outside number, leaving 476 women and children.

4. The inhabitants of the Pyramul with whom I have conversed, especially Mr. Price, the principal storekeeper in the district, would rather go to Tambaroora Court, 20 miles distant (Windeyer is 12), as they say they can get any matter settled at once there, and at Windeyer they state there used to be great delay. This would represent the opinion of 280 of the inhabitants of the Windeyer District.

In conclusion, I may state that I found the people in general very anxious for the retention of the police at Windeyer, but in a great many cases indifferent about the Court.

I have, &c.,  
GEO. C. CARTER,  
Acting Sub-Inspector.

Inform applicants that, after inquiry and due consideration, there does not appear sufficient reason for the re-establishment of a Court of Petty Sessions at Windeyer.—G.W.A., 30/12/74. Prepare letter, 7/1/75. J. Keppie, Esq., and other Petitioners, care of J. G. O'Connor, Esq., 7/1/75.

No. 13.

The Under Secretary of Justice, &c., to Mr. J. Keppie, J.P., and the other Petitioners.

Gentlemen, Department of Justice and Public Instruction, Sydney, 7 January, 1875.

With reference to your Petition for the re-establishment of Petty Sessions at Windeyer, I am directed by the Minister of Justice and Public Instruction to inform you that, after inquiry and due consideration there does not appear sufficient reason for the re-establishment of a Court of Petty Sessions at Windeyer.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

No. 14.

Mr. S. H. Terry, M.P., to The Minister of Justice, &c.

Dear Sir, 26 January, 1881.

I beg to enclose a letter received by me (addressed to the Colonial Secretary), but properly belonging to your Department, from the Progress Committee, Windeyer, praying that the Court of Petty Sessions may be held there.

I trust you may see your way to grant same.

I am, &c.,  
SAMUEL HENRY TERRY.

[Enclosure.]

Messrs. W. Mulholland and J. J. Burbidge to The Colonial Secretary.

Sir,

We are directed by the Windeyer Progress Committee to request that a Court of Petty Sessions may be again held at Windeyer, at the least, once every month. There is a Warden Court held here every month and Mr. Warden Browne could be appointed to preside, thus making one journey suffice for both purposes. It is a notorious fact that nine out of every ten of the cases disposed of at Hargraves come from the Windeyer District, thus compelling any person having to seek redress from the Magistrates to travel a distance varying from 19 to 8 miles, and that, too, over a very mountainous and rough road, in fact only a track over the Ranges. The population is at the least 600 and fast increasing; the population of the Windeyer District far exceeds that of Hargraves, which place lies quite on the outside of the District, and leads in many cases to defeat the ends of justice, as people will put up with losing things sooner than waste their time and take the trouble to go to Hargraves to prosecute.

We have, &amp;c.,

WM. MULHOLLAND,  
Chairman,  
JAMES BURBIDGE,  
Hon. Sec.

The Inspector General of Police, favour of report hercon.—J.G.L.I., 1 Feb., 1881.  
The Inspector General of Police, B.C., 2 Feb., 1881.—W. E. PLUNKETT.

## No. 15.

The Inspector General of Police to The Under Secretary of Justice, &amp;c.

REPORT from Superintendent Lydiard submitted herewith.

A Court of Petty Sessions could not be held without local police, and I consider both wholly unnecessary.

EDMUND FOSBERY, I.G.P.,  
21 Feb., 1881.

[Enclosure.]

Superintendent Lydiard to The Inspector General of Police.

Police Department, Superintendent's Office, Western District, Bathurst, 18 Feb., 1881.

I HAVE not been able to see Mr. Morisset, but I am well acquainted with the locality, and made inquiries when in Mudgee lately, and sent Mr. Carter out to visit the place; the result is there are only two claims at work, employing about twenty men, all respectable men about the district.

The population at present is less than half what it was when the Court of Petty Sessions was cancelled seven years ago, and there is no crime.

The constable at Windeyer is quite equal to anything that is required.

Hargraves is only 7 miles distant. The only Magistrates are Mr. Mulholland, storekeeper, Mr. Keppie, undertaker, &c. There is no place to hold Court in. I see no reason that Petty Sessions should be re-established.

If the Inspector General thinks it necessary, he will perhaps return the papers, and I will consult Mr. Morisset first opportunity.

C. T. P. LYDIARD,  
Superintendent, Western District.

Inform that upon inquiry it does not appear that there is any necessity for the establishment of Petty Sessions at Windeyer.—J.G.L.I., 24 Feb., 1881. Done, 3/3/81.

## No. 16.

The Under Secretary of Justice, &amp;c., to The Chairman and Secretary of Progress Committee, Windeyer.

Gentlemen,

Department of Justice, Sydney, 3 March, 1881.

Referring to your letter of the 22nd January last, relative to the establishment of a Court of Petty Sessions at Windeyer, I am directed by the Minister of Justice to inform you that upon inquiry it does not appear that there is any necessity for the establishment of Petty Sessions at Windeyer.

I have, &amp;c.,

W. E. PLUNKETT,  
Under Secretary.

COURT OF PETTY SESSIONS AT WINDEYER.

---

No. 1.

The Chairman and Hon. Secretary, Progress Committee, Windeyer, to The Minister of Justice.

Sir,

Windeyer, 9 August, 1881.

We have the honor, by direction of the Windeyer Progress Committee, to inform you that we are in possession of copies of the correspondence relating to the re-establishment of a Court of Petty Sessions at Windeyer, which was recently laid upon the table of the Legislative Assembly at our request.

On perusal of the correspondence emanating from the police officials we are fairly astounded, inasmuch as not one assertion made by them can be verified. Under these circumstances, in the interest of the public and in justice to this important district, we respectfully demand that a Commission be appointed to inquire into the allegations made by the police officials, when we will bring abundant evidence to show the untruthfulness of the police reports, and substantiate our valid claim to have a Court of Petty Sessions held at Windeyer.

We have, &c.,

WM. MULHOLLAND, Chairman.

JAMES BURBIDGE, Hon. Sec.

Presented by S. H. Terry, Esq., M.P., 12th August, 1881. The Inspector General of Police for favour of report.—J.G.L.I., 16 August, 1881. W. E. PLUNKETT, B.C., 17/8/81.

---

No. 2.

The Inspector General of Police to The Under Secretary of Justice.

Police Department, Inspector General's Office, Sydney, 14 September, 1881.

Petty Sessions, Windeyer.

HEREWITH I beg to transmit exhaustive report on the above subject for the information of the Minister of Justice. It appears clear that the establishment of a Court of Petty Sessions at Windeyer is unnecessary, and that the statements made by the police regarding the locality are fully confirmed.

EDMUND FOSBERY, I.G.P.

S. H. Terry, Esq., M.P., may be informed that further and particular inquiry has been made upon this subject, and it appears that the re-establishment of Petty Sessions at Windeyer is not necessary, and that the statements previously made by the police are borne out by the recent inquiries.—J.G.L.I., 16 September, 1881.

Police Department, Inspector General's Office, Sydney, 19th August, 1881. Memo.—Referred to Superintendent Lydiard for further inquiry and report, which should be of a comprehensive nature as regards crime, population, &c. Perhaps it would be well for Mr. Carter to visit Windeyer again.—E.F. Superintendent Lydiard.

Will Mr. Carter be good enough to make a further report? There is really no crime in the vicinity of Windeyer so far as report received. Query? How many cases have been held at Hargraves emanating from Windeyer? How much gold from same locality lodged with G. R., Hargraves? And any further remarks he may be able to make.—C.T.P.L., Superintendent, 20/8/81.

Police Department, Inspector General's Office, Sydney, 26th August, 1881. Memo. referred to Superintendent Lydiard.—E.F.

Perhaps Mr. Carter might make some remarks. I have constantly visited the locality, although not perhaps in the township once known as Windeyer, and I suppose now claims the title of a town.—C.T.P.L., Superintendent, 27/8/81.

WINDEYER—(From a Correspondent.)

THE correspondence relative to the cancellation and re-establishment of the Court of Petty Sessions at this place is to hand, and reveals some astounding statements from the police officials, namely, the Inspector General, Mr. C. T. P. Lydiard (Superintendent), and Mr. G. C. Carter (Sub-Inspector). We lost the Court of Petty Sessions, and failed to have it re-established through either gross ignorance or diabolical misrepresentation. As a sample of the correspondence from the police officials, I solicit you, in the name and on behalf of a long-suffering people, to publish the following, viz:—

Police Department, Superintendent's Office, Western District, Bathurst, February 18, 1881.

I have not been able to see Mr. Morisset, but I am well acquainted with the locality, and made inquiries when in Mudgee lately, and sent Mr. Carter out to visit the place; the result is, there are only two claims at work, employing about twenty men—all respectable men about the district. The population at present is less than half what it was when the Court of Petty Sessions was cancelled seven years ago, and there is no crime. The constable at Windeyer is quite equal to anything that is required. Hargraves is only 7 miles distant. The only magistrates are Mr. Mulholland, storekeeper, and Mr. James Keppie, undertaker, &c. There is no place to hold the Court in. I see no reasons that Petty Sessions should be re-established. If the Inspector General thinks it necessary he will perhaps return the papers, and I will consult Mr. Morisset. first opportunity.

C. T. P. LYDIARD,

Superintendent, Western District.

The

The above letter contains no less than seven misrepresentations, which I will point out in as concise language as possible : (a) Mr. Lydiard rode through Windeyer once, about ten years since ; yet he says he is "well acquainted" with the locality. (c) There are nearly 100 claims at work, employing nearly 500 miners ; yet he says there are only two claims at work, employing about twenty men. (d) The population is more to-day than it was seven years ago. I will take the last election for my stand-point. There were thirty-two polling booths in this electorate when the last election took place, and Windeyer was fifth on the poll for numbers polled, and was only beaten by Mudgee, Rylstone, Gulgong, and Hill End. The number polled at the late election far exceeds any previous one for the last ten years ; yet he says the population is less than half what it was when the Court of Petty Sessions was cancelled, seven years ago. (e) Crime was never more rampant in the district. Chinese huts have been burnt down, and the Chinamen maltreated. (f) Mrs. Wingrave, an old lady, seventy-three years of age, and innkeeper on Long Creek, has had to put up with great annoyance for a long period ; the sign-board has been taken down and carried away ; her house has been stoned night after night. Many other inoffensive persons have been treated in the same manner, and not one conviction has taken place. (g) Other offences have been of daily occurrence, such as cattle-stealing, sheep-stealing, horse-sweating, and housebreaking ; yet he says there is no crime. Our constable is a hard-working, honest, faithful servant, and although only a lockup-keeper, is in the saddle, I may say, night and day, and has to do more real hard work than any two constables in the district of Mudgee. (h) One constable to look after a district occupying an area of 2,030 square miles, is as inadequate to keep down crime as one drop of water would be in swelling the western ocean ; yet he says that one constable is equal to anything that is required. There are no magistrates in Windeyer. Mr. Mulholland resigned the Commission of the Peace eight years ago owing to the sudden death of his brother. (i) Mr. Keppie resides on his selection near Mudgee. I have known Mr. Keppie for twenty years, and until informed by Mr. Lydiard, I never knew that Mr. Keppie was, by profession, an undertaker. (j) There is one room unoccupied by the constable, set apart for the Warden's Court, in the Police Barricks, and which is about to be furnished. (k) This room would answer very well for a Police Court ; yet he says there is no place to hold Court in.

These are my statements, side by side with those of Mr. Lydiard, and I will now leave the public to judge between us. The Windeyer Progress Committee have asked the Minister of Justice to appoint a Commission of Inquiry to investigate the statements in the correspondence. It is to be hoped the request will be complied with, as it will be the only means of taking the Government cloak off the shoulders of the police officials, and leaving them and their assertions naked before the public gaze.

16th August, 1881.

Mr. Sub-Inspector Carter to The Superintendent of Police, Bathurst.

Mudgee Police Station, 1 September, 1881.

MEMO. :—The writing on the attached envelope is, I believe, that of Mr. Mulholland, of Windeyer, formerly a Justice of the Peace, and in all probability the writer of the article, or the person who directed the writing of it. I have lettered the statements in it and placed notes opposite.

GEO. C. CARTER,  
Sub-Inspector.

(a) The Superintendent of the Western District, Mr. Lydiard, has to my knowledge visited the Meroo about once each year. Mr. Lydiard has been within 3 or 4 miles of Windeyer often, and also at Hargraves, 7 miles from Windeyer, where the Court cases and business is done. I should say, therefore, he would be well able to obtain information as to the state of that place.

(c) I have made strict inquiry and find only three claims at work, which employ at present fifteen hands, *i.e.*, one quartz claim and two alluvial. When I inquired from some of the residents if they knew anything about the 100 claims, the reply of one party was Mr. Mulholland had them on paper. Only 227 miners' rights have been issued. I should say not more than three-fourths of the holders obtain a living by mining, "if fossicking in the creek can be called mining," at which all except the fifteen mentioned are employed. The 224 miners include 150 Chinese. When report was made before only two claims working, it was the number of quartz claims that was being inquired into ; one of the claims then mentioned has since shut up.

(d) The total population is 510. One of the petitions (the first) for the re-establishment of a Court of Petty Sessions at Windeyer, says the population then was 1,500 ; that was seven years since. Seven years ago a great part of the population consisted of adults. The greater proportion now are women and children. With reference to the number that voted last election, the population of the Meroo are violent politicians, and a much greater proportion vote than in other parts of this district. I have been informed that many persons voted there that did not belong to the Meroo.

(e) A wild statement, for which there is no foundation. An old resident laughed when I asked him, and said it was only Mr. Mulholland trying to get a Court, as it would bring some custom to the house. One hut was reported to have been burned down, but it is still standing ; and the ill-treated Chinaman is still at Long Creek. The Chinese storekeeper there says there is no truth in the report.

(f) Mrs. Wingrave has been subjected to annoyance by four larrikins throwing stones on the house. I have given instructions that the leader, called Tucker, shall be prosecuted. I have not heard of any other person being annoyed. Mrs. Wingrave says that Constable Moran has done all any one could to put it down.

(g) Fabulous. Constable Moran rides about 40 miles a week.

(h) The district must have increased in size since the Windeyer people sent a petition seven years since ; it says 230 miles. It would be larger than all the Mudgee District, of which it is a corner.

(i) Mr. Keppie, wife, and family, reside at Windeyer. He goes back and forward from his selection, 7 miles distant.

(j) I have been informed that Mr. Keppie has buried Chinamen and others. He would not be likely to make coffins for nothing.

(k) Room, 12 by 13 feet. When Court was at Windeyer, Government rented place from Mr. Mulholland for £20 a year. "I think that was amount." Although this room was in existence at the time it appears it was not thought fit then.

GEO. C. CARTER,  
Sub-Inspector.  
Sub-Inspector

Sub-Inspector Carter to The Superintendent of Police, Bathurst.

Sir,

Mudgee Police Station, 1 September, 1881.

I have the honor to report for your information, with reference to attached communication from the progress committee at Windeyer, asking that a Commission be appointed to inquire into allegations made by police respecting establishment of a Court of Petty Sessions at that place, that in accordance with instructions I have again visited Windeyer and the Meroo and other creeks in the vicinity. I reached the Upper Meroo on the 27th ult. I there saw a respectable miner, George Hatton. I asked him a few questions; I give his replies. George Hatton says:—"I have resided on the Upper Meroo, 6 miles from Windeyer, for the last twelve years. I own this small farm; I am also a miner; there are only twenty-three or four miners on the creek from Windeyer up to its rise in the hills; I don't know of any more; there are only two alluvial claims working, and six men are employed in them; the rest of the miners on the Upper Meroo are only fossicking in the creek; there is no crime that I have heard of; I have nothing to complain of, except that Mr. Mulholland's sheep eat all the grass of the common on the Upper Meroo, which has been granted by the Government for the use of the miners; he has 1,000 sheep there now."

I proceeded to Campbell's Creek and made extensive inquiries; I give one or two as samples:

Charles Wilson says:—"I am a miner; I have resided on Campbell's Creek, 5 miles from Windeyer, for five years; there are not quite twenty miners on all the creek, which is about 12 miles long; there are not half the miners which were on the creek 5 years since; there is no crime."

Joseph Malay, a Frenchman, says:—"I am a miner; I have resided on Campbell's Creek for 8 or 9 years; there are not more than eighteen miners on the creek from Windeyer up to the head, about 12 miles; there is no crime being committed; there is nothing to steal; we are too poor."

Charles Nichols, says:—"I am a farmer, and have resided on Campbell's Creek for the last twenty years; there are not half the miners which were here about seven years since; there has been nothing stolen since Charley Ah See, a Chinaman, was taken by the police and sent to gaol; there is no horse, cattle, or sheep stealing that I know of; I have a few sheep and horses."

I next proceeded to Pyramul Creek, about 12 miles from Windeyer. I there saw Mr. Price, who keeps a large store and is I believe the largest stock-owner in that part of the country. I took a written statement from him, which I append for your information. I may say that Mr. Price has the best opportunity to form a correct opinion, and being 12 miles from Windeyer is not likely to be a prejudiced party. Perhaps you are acquainted with him. I should say his statement is important.

I then proceeded down Long Creek, making inquiries as I went. I give a statement, made by Mr. Fletcher, who is a farmer in a large way on that creek:—"I have resided here for over twenty years; there is very little doing now in the way of mining; I only call it fossicking among the old workings; several men have gone from about here to work on the railway, leaving their wives and children behind; they must do something for a living, as they cannot make a living mining; I have heard of no crime since Charley Ah See was taken by the police some time since; there is no horse, cattle, or sheep stealing."

I inquired of many other persons, but could not hear of any other crime for a long time back. I went to Clark's Creek; I there saw Mrs. Windgrave, an aged woman, who keeps a public-house near that creek. She complained that a party of four larrikins were in the habit of tormenting her by throwing stones on the roof. She named one of them, but said she did not know the others. I have given directions that, if possible, he be prosecuted. Mrs. Windgrave also informed me that Constable Moran, of Windeyer, had stopped up several times all night watching for them, but that they would not do anything until his back was turned. A report was current some time since that the same party of young men had burned down a Chinaman's hut and ill-treated him. I found on inquiry that the hut was still standing and had not been burned, and that the Chinaman said to have been ill-treated had the day before sold gold to a Chinese storekeeper and was quite well. The storekeeper, Ah Chow, says he knows nothing of the ill-treatment. I also called at the joss-house at Clark's Creek, and saw (it being Sunday) about fifty Chinamen. I asked if any of them had complaints to make. One of them replied that a young man named Tucker had annoyed him (the same person that Mrs. Windgrave complains of). None of the others had any complaints. I then got the exact number of Chinese from the lists at the temple, and which the Chinese say are correct.

I visited Windeyer and proceeded to the Lower Meroo and Hargraves, which latter is a short 7 miles from Windeyer. I examined the Court books, and found that the following were the number of cases from the Windeyer portion of the district during the last forty-four months:—Four summons cases, and twenty-eight small debt cases, which would not give an average of one case per month. The police cases during the same time, *i.e.*, forty-four months, were thirty-seven summons cases, principally for breaches of the Dog Act, when it was new and people thought to escape paying. This would not be one petty police case in the month during that time. Respecting crime, only two cases of cattle-stealing have been reported during the last three years, in both of which cases the police went with owners and found the animals, which had not been stolen. Three cases of horse-stealing were reported during the same time, in all of which cases it turned out that the animals had only strayed. There was one case of sheep-stealing reported. Senior Constable O'Brien, of Hargraves, states:—"The sheep were in very low condition. I do not believe that they were stolen, but died in the bush from starvation, having been turned out loose; some of them were no doubt killed with dogs." It is hardly probable that sheep in such low condition would have been stolen.

Two cases of larceny by the Chinaman Ah See were committed in the vicinity of Windeyer. Ah See is in consequence now serving a sentence of three years in Mudgee Gaol. This is the offender mentioned by Charles Nichols and Mr. Fletcher in statements given. Upwards of a dozen people have told me that there had not been any crime since his arrest. The Chinese caught this offender in the camp, tied him up, and sent for the police. He had been pilfering up and down the creek.

I also obtained the quantity of gold sent from Windeyer by escort from Hargraves during the last forty-four months, being 3,000 ozs., giving an average of 63 ozs. per month.

I would especially direct attention to the attached statement of Mr. Price, of Pyramul, with whom you are probably acquainted; it covers the whole matter. Who so well able to form opinion as to amount of mining done as the person that buys the gold? Or who so well able to say if sheep and cattle stealing is rife in any district as the principal stockowner?

I attach table A, showing amount of population ; I make it 510 in that part of the Mudgee Police District when the Windeyer Court used to deal with the cases. Of these there are only 279 adults, males, including 150 Chinese ; deduct the Chinese, and 129 adult males will be left. I may say that I got the number of miners' rights issued at Windeyer this year 227 in all, which coincides with the number of miners shown on my return, *i.e.*, 224—31 business licenses were taken out this year. I have been informed that the Chinese gardeners take out business licenses, so as to give them some claim to the land used by them as gardeners.

There are, as far as I can make out, only two alluvial and one quartz claim working, and this is the result of strict inquiry.

With respect to the amount of population, I have noted them family by family, as obtained from Constable Moran, who has been stationed at Windeyer over twenty years, and should know. I believe my return as an outside estimate.

Taking into consideration the above facts, and that there is no place to hold a Court, there being only one small room at the barracks which could be used, size 13 feet by 12—the Warden sits there at present, for the reason no other place can be obtained. When the Court was formerly at Windeyer a place was rented from Mr. Mulholland, "one of the persons signing the attached communication from Progress Committee," although the room now used by the Warden was then in existence in the barracks. I do not think that a Court of Petty Sessions is required at Windeyer, that place being only 7 miles from Hargraves, and there has not been an average of one case per month between plaintiff and defendant during the last forty-four months ; the police cases are very few, and there have only been two persons confined in the watch-house at Windeyer during the last year. I am of opinion that the ends of justice will be fully met by leaving as heretofore one constable at Windeyer ; if anything should happen he has only to send to Hargraves and he has assistance in two hours. I put no faith in reports to the effect that the distance from a Court causes many cases to fall through. It might prevent some litigious person from bringing vexatious suits, a positive benefit both to themselves and other people, but that any cases of importance fall through is out of the question. With respect to Windeyer it is but a name, all the population excepting 47 have departed, and of the 47 only 8 are adult males.

If a Court should be granted at Windeyer, Home Rule, in this district, might ask for the same, as it is 7 miles from Gulgong, and has quite as large a population. Cudgong and Ilford, which are both 20 miles from their respective Courts, and have a much larger population than Windeyer, could not be denied.

If there is still any doubt about the necessity of a Court at Windeyer, I would suggest that Mr. Morrisset, the Warden at Hill End, who attends occasionally at Windeyer, might be asked to report. He is not connected with the police, and is cognizant of all the facts.

GEO. C. CARTER,  
Sub-Inspector.

Totals .....	279	84	147	224	510

The Superintendent of Police, Bathurst. The above is a correct return,—

GEO. C. CARTER,  
Sub-Inspector.

N.B.—The inhabitants of Pyramul and adjacent creek "the nearest 12 miles from Windeyer," in the direction of Hill End, are 76 adult males, 51 adult females, 119 children ; of the men only 40 are miners. This part of population attend Hill End Court, and are in that district.—G.C.C., Sub-Inspector.

*William Price* says :—I am a storekeeper ; I reside at Pyramul ; I am also a sheep farmer ; I have resided at Pyramul for twenty-three years ; I know Windeyer, and Long Creek, and the other diggings in the neighbourhood ; I remember Sub-Inspector Carter making inquiries as to population and other matters about seven years since ; I think the population of Pyramul is almost as great now as it was seven years since, but it has changed in one feature, the population of children is much greater and a great number of adults have left the district for other places ; in some cases the fathers of families have gone away for work, leaving wife and children behind them ; the miners have decreased in a great measure ; I don't think there are half the men making a living by mining that were here seven years since ; I know as I have bought all the gold at Pyramul for years ; I know Windeyer and all the adjacent creeks ; I do not think there can be half the persons engaged in mining that were so employed seven years since ; I am sure there is not near the population that there was seven years since ; and like Pyramul there is now a much greater number of children in proportion to the adults than there was at that time ; there has not been a case of crime here for the police for the last five years ; as far as crime about Windeyer is concerned there have been no serious cases that I have heard of, only a few petty squabbles ; I have heard of no horse-stealing ;

I have never lost any sheep through theft, although I am the largest sheep-owner in the district ; I don't think a court at Windeyer is necessary ; I have not heard of any person in the neighbourhood saying so, and I don't think one of the inhabitants of these places would be in favour of it, although when the Court was there we used to take any small business we had before that Bench ; and my experience of the court at Windeyer was that cases used to be postponed from week to week without any just cause ; the delays being great ; Pyramul is 12 miles distant from Windeyer at the head of Long Creek over the range.

Stated before me at Pyramul, this 27th day of August, 1881,—

GEO. C. CARTER, Sub-Inspector.

WILLIAM PRICE.

---

Superintendent Lydiard to The P.M., Hill End.

Police Department, Superintendent's Office, Western District, 6 September, 1881.

MEMO.—Would the Police Magistrate at Hill End be kind enough to look through these papers and favour me with his opinion as to the necessity of a Petty Sessions at Windeyer. Sub-Inspector Carter appears to have taken a great deal of trouble in the matter.

C. T. P. LYDIARD,  
Superintendent.

---

Hill End, 9/9/81.

MEMO.—From what I know of Windeyer, and that part of the district surrounding the township, I do not consider the re-establishment of a Court of Petty Sessions at that place necessary, but at the same time my means of gaining knowledge of the place and its requirements are almost confined to the fact of my passing through there sometimes.

Windeyer is a place for holding Wardens' Courts, but I have only been required to sit once as Warden there since my appointment in March last. Windeyer is only 7 miles from Hargraves, where I hold Court when required. I know nothing as regards the prevalence of crime, except that I never hear of any in the vicinity.

R. R. MORISSET,  
Police Magistrate.

---

Superintendent Lydiard to The Inspector General of Police.

Police Department, Superintendent's Office, Western District, 13 September, 1881.

As the Inspector General will see I have requested the Police Magistrate at Hill End to give his opinion as to the wants of Petty Sessions at Windeyer.

Memo. herewith.

Mr. Sub-Inspector Carter's report is exhaustive, and I think he has taken much trouble in the matter.

I am perfectly certain I am correct in my judgment as to the necessity of Petty Sessions at this very small township.

As for the statement in the newspaper paragraph that I have only ridden through Windeyer once, I most frequently passed through the neighbourhood ; I considered the township was not worth visiting.

The sub-inspector at Mudgee has regularly been there, and he and I have had many conversations as to miserable downfall that has come to the place.

C. T. P. LYDIARD,  
Superintendent.

---

No. 3.

The Under Secretary of Justice to S. H. Terry, Esq., M.P.

Sir,

Department of Justice, Sydney, 20 September, 1881.

With reference to the letter from the Windeyer Progress Committee of the 9th ultimo, presented by you at this Department, respecting the necessity for the re-establishment of a Court of Petty Sessions at that place, I am directed by the Minister of Justice to inform you that further and particular enquiry having been made upon this subject, it appears that the re-establishment of Petty Sessions at Windeyer is not necessary and that the statements previously made by the police are borne out by the recent enquiry.

I have, &c.,

W. E. PLUNKETT,  
Under Secretary.

NEW SOUTH WALES.

---

STIPENDIARY MAGISTRATES.

(PETITION FROM THE PRESIDENT AND VICE-PRESIDENT OF THE LICENSED VICTUALLERS' ASSOCIATION OF NEW SOUTH WALES.)

---

*Received by the Legislative Assembly, 9 August, 1881.*

---

To the Honorable the Speaker and the Honorable the Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned, the Licensed Victuallers' Association of New South Wales,—

HUMBLY SHOWETH:—

That your Petitioners have been given to understand that in consequence of an assurance that the Government would take up the subject and deal with it, the Honorable the senior Member for Paddington has abandoned the motion of which he had given notice, viz. :—That it is desirable that the trials of cases in the Police Courts of Sydney and its suburbs should be heard before Stipendiary Police Magistrates, who should be sole Judges at such trials; and that the Government should at once take steps to appoint a sufficient number of fit and proper Stipendiary Magistrates (in addition to those already appointed) to perform such duties; and that, if necessary, a Bill should be forthwith introduced for the purposes aforesaid.

That your Petitioners verily believe that the adoption of such a course as the one indicated in the foregoing must have a most excellent effect; that therefrom would result a happy combination of law, justice, and equity such as is now rarely met with in the said Courts; that experience of the working of a like system in the Mother Country warrants the assumption that it should operate beneficially in this Colony; and that, in fine, the time has now arrived for the introduction of a radical amendment in the administration of justice in the metropolitan and suburban Police Courts.

Your Petitioners therefore humbly pray that the present Session of Parliament may not close without there having been added to the Statute Books (if necessary) an Act embodying the principle set forth in the aforesaid resolutions, or, should enactment be unnecessary, that the Government may receive your fullest support in carrying the principle into effect.

And your Petitioners, as in duty bound, will ever pray.

For and on behalf of the Licensed Victuallers' Association of New South Wales—

J. B. OLLIFFE, President of the Council,  
CHARLES KELSEY, Vice-President.

1881.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## STIPENDIARY MAGISTRATES.

(PETITION IN FAVOUR OF--TRADES AND LABOUR COUNCIL OF NEW SOUTH WALES.)

*Received by the Legislative Assembly, 23 September, 1881.*

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in  
Parliament assembled.

The Petition of the "Trades and Labour Council of New South Wales,"—

HUMBLY SHOWETH:—

That for some years it has been a matter of frequent and general observation that the honorary Justices of the Peace who usually preside in Petty Sessions at the Metropolitan Courts are unequal to the responsible duties imposed on them; that they are insufficiently informed in the laws they are appointed to administer, and too frequently influenced by considerations of private interest affecting themselves personally, or others whom they are reputed to represent, and, particularly in the two principal Courts, they have formed themselves into parties, and are influenced in the performance of many of their judicial functions by considerations other than those of the pure equities of cases on which they are called to adjudicate, to the confusion of the public, the humiliation of the city, and in detriment of the sacred interests of justice.

Your Petitioners further desire to draw the attention of your Honorable House to the fact that the circumstances to which they refer are very notorious, and have occasionally led to scenes on the Bench of a character to diminish that feeling of respect for the Magistracy it is desirable should be generally entertained and merited.

Your Petitioners have also experienced inconveniences and disadvantages arising from interruptions in judicial duty by reason of Magistrates neglecting ordinary business on licensing days, and from the want of sufficient leisure on the part of many Metropolitan Justices, who not unfrequently find themselves unable to continue attendance on protracted and adjourned cases.

Your Petitioners humbly, but most earnestly, submit that the interests of justice, the peace of the city, and individual security require that in Sydney in particular, and large centres of population in general, Stipendiary Magistrates, composed of gentlemen learned and practised in the law, and under no obligation to party, whether political, religious, commercial, or social, be appointed to exclusively conduct the ordinary judicial and licensing business of the Courts of Petty Sessions, in lieu of the honorary Justices of the Peace who now preside.

And your Petitioners humbly pray that in consideration of the sufferings and deep humiliation that they experience in connection with the existing arrangements, your Honorable House will graciously and speedily accord the subject such attention as in your wisdom you may see fit.

And your Petitioners, as in duty bound, will ever pray.

Signed for and on behalf of the Trades and Labour Council of New South Wales, representing five thousand members.

DAVID JONES, President,  
JOHN R. TALBOT, Vice-President,  
WILLIAM ROYLANCE, General Secretary.

## RELEASE OF ISABELLA O'BRIEN FROM DARLINGHURST GAOL.

No. 1.

### Petition from Residents of Albury.

To His Excellency Sir Alfred Stephen, K.C.B., Acting Governor and Commander-in-Chief of the Colony of New South Wales, and Vice-Admiral of the same.

The humble petition of the undersigned,—

RESPECTFULLY SHOWETH:—

That at the Supreme Court Assizes held at Wagga Wagga, on the 2nd April, 1872, Isabella O'Brien was found guilty of the murder of her illegitimate child.

That up to within a short time previously to the commission of the offence for which she was sentenced to death the prisoner had always resided in Albury, the period of her residence there extending over twenty years, it having been her birth-place, and her age now being about 22 years. And your petitioners, many of whom are very old residents in the district, speak as to their personal knowledge of the prisoner and her family.

That the prisoner and her sister lost their mother shortly after their birth; and up to the time of their departure from Albury, about a year or two since, they lived with their father, who had no settled occupation, and had neither the time nor inclination to devote the necessary amount of care and attention to the training and education of his children, and in consequence they grew up to womanhood without ever having had an opportunity of being impressed with those principles and feelings of rectitude and morality which alone can form a sufficient safeguard against the temptations to vice and to the commission of crime; and to the defects of early training and associations, and her almost total want of education, is to be attributed the present deplorable position of the prisoner.

That your petitioners, without the slightest degree excusing the crime committed by the prisoner, or cavilling at the finding of the jury, feel convinced that there are circumstances in her case which to some extent mitigate the enormity of her offence, and therefore hope that your Excellency will see fit to extend your clemency to this case, and mitigate the sentence of capital punishment.

And your petitioners will ever pray.

(Here follow 96 signatures.)

His Excellency.—JOHN R., 18 April, 1872. The case will come in due course before the Executive Council.—A.S., 24/4/1872. The Clerk of the Executive Council.—H.H., B.C., 24 April, '72.

No. 2.

### Petition from Residents of Wagga Wagga.

To His Excellency the Honorable Sir Alfred Stephen, Knight Companion of the Bath, Administrator of the Government of the Colony of New South Wales.

The humble petition of the undersigned residents of the town and district of Wagga Wagga,—

SHOWETH:—

That one Isabella O'Brien was tried on the second day of April instant at the Assize Court holden at Wagga Wagga, before His Honor Mr. Justice Faucett, for murdering her infant son, Daniel O'Brien, by drowning the said child in the river Murrumbidgee, in the month of October last, and was found guilty and sentenced to death.

That your petitioners have become aware that the said Isabella O'Brien is the child of very disreputable parents; that she has been brought up from infancy amidst scenes of vice and debauchery.

That she has received no religious instructions nor education of any kind, and appears hardly to know right from wrong.

That your petitioners are of opinion that Isabella O'Brien, from her ignorance and the degrading effect of her early associations, is incapable of realising the true character of the crime of which she has been convicted.

That your petitioners respectfully submit that with careful instruction and supervision the said Isabella O'Brien may be brought to feel the enormity of her crime and repent of her former sins.

That your petitioners respectfully submit that the above facts would amply justify your Excellency in extending to the said Isabella O'Brien the clemency of the Crown.

Your petitioners therefore humbly pray that your Excellency may of your gracious mercy be pleased to commute the sentence of death passed upon the said Isabella O'Brien.

And your petitioners will ever pray, &c., &c.

(Here follow 177 signatures.)

To be considered in the Council with the Judge's report.—A.S., 3/5/72. The Clerk of the Executive Council.—H.H., B.C., 3 May, '72.

No. 3.

## No. 3.

## Petition from Residents of Albury.

To His Excellency Sir Hercules George Robert Robinson, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies, and Vice-Admiral of the same.

The petition of the undersigned residents of Albury and the district surrounding,—

HUMBLY SHOWETH :—

That at the Wagga Wagga Assizes held in October, one thousand eight hundred and seventy, Isabella O'Brien, then of Wagga Wagga, was found guilty of infanticide of her illegitimate child, and sentenced to death, which sentence was however commuted into imprisonment for life.

That at the time of the trial Isabella O'Brien was only of the age of twenty-one years, and having lost her mother at three years old was allowed to grow up in ignorance, and little or no care was ever bestowed upon her training or bringing up by her father.

That at the age of seventeen or eighteen the said Isabella O'Brien, being thus neglected, was seduced and led astray, and was enticed into the lowest company of a country town, and even into lower degradation, till shortly before her trial she had been consorting and cohabiting with the Chinese at their camps at Albury and Wagga.

That the said Isabella O'Brien has now been imprisoned for about five years.

Your petitioners would therefore humbly pray your Excellency that, in consideration of the term of imprisonment gone through, and of the youth of the said Isabella O'Brien at the time of the sentence, and the utter neglect of her bringing up, your Excellency would be pleased to grant a free pardon to the said Isabella O'Brien, or such shortening of the sentence of imprisonment as to your Excellency shall seem meet.

And your petitioners will ever pray.

(Here follow 72 signatures.)

[Presented by Mr. Day, M.P.]

Minister of Justice, &c.—H.R., 20/4/75. The Comptroller General of Prisons, for usual particulars.—J.D., 22 April, /75. The Comptroller General of Prisons.—W.E.P., B.C., 23 April, /75. Returned with usual particulars. Being under a sentence commuted from death, the prisoner does not come within the ordinary regulations for remission.—H.McL., 6 May, /75. The Under Secretary of Justice and Public Instruction.—H.McL.

Particulars of conviction and prison history of Isabella O'Brien, a prisoner in Darlinghurst Gaol :—

Isabella O'Brien, born at Albury, N.S.W., 1851; convicted at Gaol Delivery, Wagga Wagga, 3rd April, 1872, of murder, and sentenced to death, by Judge Faucett. Sentence commuted to imprisonment for life. To be kept in Darlinghurst Gaol until further orders. Previous convictions, none known.

## No. 4.

The Under Secretary of Justice, &c., to Mr. Justice Faucett.

Sir, Department of Justice and Public Instruction, Sydney, 12 May, 1875.

I am directed to request the favour of your Honor's report upon the accompanying petition for mitigation of the sentence of death, commuted to imprisonment for life, passed by you upon the prisoner named in the margin.

I have, &c.,

W. E. PLUNKETT,  
Under Secretary.

Isabella O'Brien,  
Darlinghurst  
Gaol.  
To be returned.

## No. 5.

Mr. Justice Faucett to The Under Secretary of Justice, &c.

Supreme Court, 31 May, 1875.

I HAVE read the petition praying for a remission of the sentence passed on Isabella O'Brien. As stated in the petition, the prisoner was convicted of having murdered her illegitimate child, and was sentenced to death. That sentence was afterwards commuted.

From the evidence given at the trial I have every reason to believe that the statements made by the petitioners as to the former life of the prisoner are correct.

The prisoner was tried and convicted on the 2nd of April, 1872, not in 1870, as stated in the petition.

My report to His Excellency the Governor, sent in early in May, 1872, contains a full statement of the facts of the case. As I can add nothing to that report, I beg to refer to it. It is no doubt preserved in the office of the Executive Council.

P. FAUCETT.

Obtain

Obtain previous report.—J.D., 1/6/75. The Principal Under Secretary.—W.E.P., B.C., 2/6/75.

The Clerk of the Executive Council, for favour of the former papers, if permitted.—H.H., B.C., 8/6/75.  
Perhaps His Excellency may not object to the report referred to being forwarded to the Department of Justice for perusal, to be afterwards returned to Executive Council Office.—ALEX. C. BUDGE, 9/6/75. Approved.—H.R., 9/6/75.

Document forwarded,—to be returned. The Under Secretary of Justice, &c.—H.H., B.C., 10/6/75.

#### REPORT of Mr. Justice Faucett on the case of Isabella O'Brien, convicted of murder.

To His Excellency the Administrator of the Government.

THE prisoner was tried before me at the late Assizes at Wagga Wagga for the murder of one Daniel O'Brien, and found guilty.

The deceased, Daniel O'Brien, was the younger of two illegitimate children of the prisoner, and was about two years of age, the elder being about four.

The prisoner and her sister had lived for some time at Albury with a person named James Simpson and his wife, who kept what they called a boarding-house, but which was in reality a dancing-house, and a place of bad repute. The Simpsons being obliged to leave Albury went to Wodonga, on the other side of the Murray, and opened a house there of the same kind. The prisoner and her sister lived with them there also. The Simpsons being also obliged to leave Wodonga, went to Wagga Wagga, and commenced the same kind of business there, and were soon after joined, as before, by the prisoner and her sister.

According to the evidence of the Simpsons the prisoner while at Wagga Wagga used to take in washing, and do whatever little work she could get from time to time, but found it very hard to support her two children, to whom, however, she was always attentive, keeping them clean and well-dressed.

After complaining frequently of being unable to support both the children, Simpson told her that the best thing she could do was to get a Chinaman to adopt the younger one, whose father it appears was a Chinaman. She said she would try, and went out several times for the purpose, as she said, of trying to get a Chinaman to adopt the child.

At last she told the Simpsons that she had arranged with a Chinaman to take the child, and the next morning she cleaned herself and dressed the child and took it away. She left the house about 10 o'clock in the morning, and returned about 3 or 4 o'clock in the afternoon without the child. On her return she said that she had given the child to the wife of a Chinaman who had a garden about two miles up the river to adopt it.

It appeared also that on some occasions after this the prisoner used to go out, and Simpson "accused her" of going to see the child, and told her that if she went to see it the parties who had it would return it to her. She said she would not go any more.

A man named William Bruce stated that one day about 2 o'clock he saw a woman, resembling the prisoner, and whom he believed to be the prisoner, sitting on the brink of the river with a stick in her hand, and two children with her; one was near her, and the other she had at her foot by the hand. The man spoke to her about the danger of leaving the child so near the river, when she made some abrupt reply to the effect, as he understood it, that he should mind his own business. He cautioned her and passed on. From the description the man gave there could be little doubt that this was the prisoner with her two children, and the day he saw her was probably the day she took away the child,—the day it was drowned.

In about three weeks after this the child—there could be no doubt as to its identification—was found dead in the river. It was lying against the branch of a tree as if caught by the clothes when floating down the stream. The clothes were the same as the child wore when leaving the Simpsons' house.

After the body was found Simpson spoke to the prisoner about it, and said it was her little boy, to which she replied—"Oh, no. He is all right. He is where he has got plenty to eat and good clothes." She also said that she would take him in the morning to where he was. In the morning, however, she said that perhaps the people had gone away, and refused to go.

To the constable who arrested her the prisoner said that she had been sitting on the bank of the river and the child rolled into the river from her; that she tried to save him, but could not, and she then went home; that she did not throw him into the river to drown, but was going to a place to give him out.

A medical gentleman who was examined merely stated that the body when taken out of the river was very much decomposed, and presented no signs of injury.

An attempt was made by the prisoner's counsel, and with some success, to disparage the evidence of the Simpsons, but the most material part of their evidence was in fact supported by the prisoner's own statements to the constable.

The jury must have disbelieved the prisoner's statement that the child rolled or fell by accident into the river, and must have come to the conclusion that she intentionally drowned the child. They must have treated the story about taking the child to a Chinaman as a fabrication.

Upon the whole, looking at the prisoner's conduct throughout, I find it impossible to say that the verdict of the jury was not a proper one. At the same time I think it right to say that the evidence of the Simpsons showed that the prisoner had been always attentive to the children, and that the difficulty of supporting both was frequently preying on her mind.

PETER FAUCETT.

May 7th, 1872.

Laid before the Executive Council, 11th May, 1872. Sentence commuted to imprisonment for life with hard labour.—ALEX. C. BUDGE.

Returned 11th June, 1872.

#### No. 6.

#### Minute of Minister of Justice, &c.

I THINK under all the circumstances of this case it is impossible to recommend any remission of sentence at the present time.—J.D., 12/6/75. His Excellency the Governor.

Refused.—H.R., 14/6/75. The Principal Under Secretary, 16/6/75.

#### No. 7.

#### The Under Secretary of Justice, &c., to The Principal Under Secretary.

Sir,

Department of Justice and Public Instruction, Sydney, 16 June, 1875.

I am directed by the Minister of Justice and Public Instruction to inform you that the petition in favour of the prisoner named in the margin, at present serving a sentence of imprisonment for life (commuted from sentence of death), has been duly laid before His Excellency the Governor, but that there do not appear to be any grounds for authorising the remission of any portion of O'Brien's sentence.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

No. 8.

## No. 8.

## The Principal Gaoler to The Comptroller General of Prisons.

To His Excellency Sir Hercules George Robert Robinson, Knight Companion of the Most Distinguished Order of Saint Michael and Saint George, Captain-General and Governor-in-Chief of the Colony of New South Wales and its Dependencies, Vice-Admiral of the same, &c.

The humble petition of Isabella O'Brien, now a prisoner in Her Majesty's Gaol, Darlinghurst,—

RESPECTFULLY SHOWETH:—

That your petitioner was tried before His Honor Mr. Justice Faucett, at the Wagga Wagga Gaol Delivery held on the 3rd day of April, 1872, upon a charge of murdering an infant child, was found guilty, and sentenced to death; that sentence, however, was commuted to imprisonment for life with hard labour.

That your petitioner has now served nearly six (6) years in Darlinghurst Gaol, and finds that her health is breaking down from the long and close confinement, and greatly fears that very soon her constitution may receive such injury as to cause her early death.

That your petitioner has a father, an old man fast declining in years, who is anxious to leave his home to her before he dies if hopes were held out to him of his daughter's release.

That your petitioner implores your merciful consideration, for the following facts, namely, that at the time of her crime she was deplorably ignorant, as she had all her life (up to that period) been brought up in the bush, was quite unable to read or write, and scarce knowing right from wrong, was far from being aware of the heinousness of her crime.

That your petitioner would not be a burden to any one, as she would have a home, and could earn a good living (provided her health was not destroyed) as a sempstress and machinist, she having diligently learnt that much during her long incarceration.

Your petitioner therefore prays your Excellency's merciful consideration upon her case, and that you may be pleased to hold out some hopes for an early release.

And your petitioner, &c.

ISABELLA O'BRIEN.

Forwarded to the Comptroller General of Prisons, by his permission, with usual particulars.—  
J. C. READ, Pl. Gaoler, 24/1/78.

PARTICULARS of conviction and prison history of Isabella O'Brien, a prisoner in Darlinghurst Gaol, petitioning for remission of sentence:—

Name of prisoner, Isabella O'Brien; born—where, Albury; when, 1851; convicted—where, Gaol Delivery, Wagga Wagga; when, 3rd April, 1872; offence, murder; sentence, death; Judge, Faucett; recommendation or remarks—sentence commuted to imprisonment for life with hard labour, in such gaol as His Excellency may from time to time direct.

General conduct in Gaol:—Since last punishment very good, and naturally not ill-disposed.

Darlinghurst Gaol, 21 January, 1878.

J. C. READ,  
Principal Gaoler.

Forwarded for consideration, with medical report.—H. McLEAN, C.G.P., 25/1/78. The Under Secretary of Justice, &c.

Isabella O'Brien has been frequently under my professional care during the last six months, and has in that time perceptibly declined in general health. She has lost weight, and is suffering from great debility. I am of opinion that long continued imprisonment would much diminish her chance of restoration to health, while I would confidently look for such a result from liberation.

Darlinghurst Gaol,  
23/1/78.

JAMES MACNISH,  
A. V. Surgeon.

Obtain Mr. Justice Faucett's report of May, 1872, from the Clerk of the Executive Council.—J.L., 9/2/78. Submitted for His Excellency's instructions hereon.—J.L., 29/4/78. Minister of Justice, &c.—H.R., 1/5/78. I would be glad to be favoured with further report from the Visiting Surgeon to the Gaol at Darlinghurst, whether there is any immediate or prospective danger to life in case this woman be retained in custody.—J.L., 19/5/78. The Comptroller General of Prisons.—W.E.P., B.C., 20/5/78. For the report of the Acting Visiting Surgeon.—H. McL. The Principal Gaoler, B.C., 22/5/78. Returned with further report on enclosed papers.—W. GORE BEVERLY, D.C.P. (in absence of C.G.P.) The Under Secretary of Justice, B.C., 23/5/78.

I am of opinion that the life of Isabella O'Brien would be endangered by prolonged incarceration.—J. MACNISH, A.V.S., Darlinghurst Gaol, 23/5/78.

I think Dr. Alleyne and another medical gentleman might be invited to consider and report upon this case.—J.L., 31st May, 1878. The Under Secretary, Colonial Secretary's Department, B.C., 1/6/78.—W.E.P., Might be referred to the Medical Adviser to the Government and the Police Surgeon, Dr. Egan, 4/6/78.—M.R.A. Approved.—M.F., 7/6/78. Urgent.—The Medical Adviser to the Government.—M.R.A., B.C., 7/6/78. Inform Dr. Egan. Dr. Egan, 7/6/78.

## The Principal Under Secretary to Dr. Egan, Police Surgeon.

Sir,

Colonial Secretary's Office, Sydney, 7 June, 1878.

Isabella O'Brien.

I am directed by the Colonial Secretary to request that you will be good enough to meet the Medical Adviser to the Government at such time as may be arranged to be convenient, for the purpose of reporting as to whether the life of the prisoner named in the margin, at present confined in Darlinghurst Gaol, would be endangered by prolonged incarceration.

I have, &amp;c.,

M. R. ALLAN.

## No. 10.

## Drs. Alleyne and Egan to The Principal Under Secretary.

Sir,

17 June, 1878.

Isabella O'Brien.

In returning to you herewith the papers relating to the case of the prisoner named in the margin, we do ourselves the honor to report that we have seen and examined Isabella O'Brien, and have also conferred with Dr. Macnish and the Matron of the Gaol in respect of her case.

The prisoner does not now complain of ill-health, except that she says that her appetite is not very good; but she is fairly well nourished, and we can discover in her no evidence of disease, organic or otherwise. In reference to his two reports on this case, Dr. Macnish informed us that the present improved condition and healthy aspect of Isabella O'Brien is to be attributed to the hope entertained by her of a speedy release from gaol. We therefore recommend that, notwithstanding there is not at present any apparent reason to believe that her life is endangered by her incarceration, we may be allowed to see her again in the course of four or five months.

We have, &amp;c.,

H. G. ALLEYNE, M.D.

M. EGAN, L.R.C.S.E.

Minister of Justice, &c.—M.F., 19/6/78. The Under Secretary of Justice, &c. B.C., 19/6/78. —M.R.A. The Medical Adviser to the Government might be requested to report upon this case in the course of say four months.—J.L., 4/7/78. See margin of letter of 17th June, 1878, in reference to obtaining Medical Advisers' further report in course of four months, dated 4th July, 1878. The Under Secretary, Colonial Secretary's Department, B.C., 6/7/78.—W.E.P. Resubmitted, 1/11/78. The Medical Advisers to the Government, for further report, B.C., 4/11/78.—M.R.A.

## No. 11.

## The Principal Gaoler to The Comptroller General of Prisons.

Darlinghurst Gaol, 8 November, 1878.

From prisoner Isabella O'Brien; life; murder.

*Subject*—Commutation of sentence.

PRISONER Isabella O'Brien most humbly begs the Comptroller General of Prisons to again allow her to petition His Excellency the Governor for a commutation of her sentence. She respectfully submits for his due consideration the following grounds upon which she desires to petition, viz. :—

That at the time of her offence (for which she has suffered so much) she was very young, and in a deplorable state of ignorance, inasmuch that she had never been to a school in her life, could neither read nor write, had no idea of society, its usages and customs, nor anything by which her life might have been guided aright. She was, in short, a wild bush girl, doing men's work to gain her bread.

Since her incarceration she has, alas! too late, learned at school, from her clergy, from association with a few well-conducted prisoners, what a horrible, dark, meaningless life she led in the bush.

That while living in this state of darkness an unprincipled man took advantage of her innocence and ignorance, and under the promise of a marriage (which of course was never kept) seduced and ruined her. The fruits of that sin, committed in ignorance, were the cause of her crime, although at the time she knew it not as a crime.

Burdened by a child, deserted by her seducer, no one to advise or instruct her, she, scarce knowing right from wrong, rid herself of her shame by a crime, in sheer ignorance of its being then a crime. The result of her sin has been to close her life for ever. For the one sin of her youth and ignorance she has now served over six years in prison, during which time the close confinement, unvarying scale of diet, the monotonous existence, is causing her to waste and pine away; she is losing her appetite, and feels a fearful and hopeless depression seizing her. She is fully aware that she is not in any immediate danger, or suffering any acute physical pain, but she fears that her constitution will soon break down under the imprisonment, and render her unfit to do anything in a few years.

The applicant therefore begs your sanction to petition.

ISABELLA O'BRIEN.

In forwarding O'Brien's application to the Comptroller General, I beg leave strongly to recommend it. I have every reason to believe her statement, which I have marked, and that her morals were corrupted through the bad example of her father. She was so ignorant and degraded when first received here that she was supposed to be silly or a fool. She has turned out to be very intelligent, and has acquired such a knowledge of the sewing machine that she could earn a good living at it. Her work has taken the prize at the Exhibitions. I mentioned her case to the Hon. the Minister of Justice, who seemed to take an interest in it, and I believe the Sisters of Charity would take her in hand. \*She seems to be breaking down very much, but the surgeon will not recommend her on that ground until she is quite an invalid.—J. C. READ, Principal Gaoler, 8/11/78.

I fully concur in the above.—F. M. CHALLIS, Matron. I fully concur with Mr. Read's kind feelings of charity in this matter.—Sister M. J. CHISHOLM.

General conduct in gaol. (See above remarks, and the recommendation of one of the Sisters of Charity.)

J. C. READ,  
Principal Gaoler.

Darlinghurst Gaol, 8th November, 1878.

I would be glad of a report from the Visiting Surgeon as to the woman's present state of health, and the probable effect of further confinement. The Principal Gaoler, B.C., 18/11/78.—W.G.B. Herewith, 19/11/78.—J.C.R.

With reference to the annexed report on the case of prisoner Isabella O'Brien, I have only to remark that my former report in connection with the subject was based on the idea that I was neither expected nor required to take into consideration the causes that led to prisoner O'Brien's incarceration, nor any extenuating circumstances since, except from a medical point of view, that might be urged in mitigation of her sentence. On the grounds of humanity, and that she had suffered sufficient punishment, I should have willingly endorsed any recommendation to mercy; but I would desire to draw the attention of the Comptroller General to the fact that I was desired to report on the case purely in my medical capacity. I did so conscientiously and to the best of my ability, and viewing the subject in that light, I can only repeat that the prisoner is well nourished and quite free from any organic disease that would shorten her life. Of course it is not to be expected that persons in continual imprisonment can enjoy such robust health as those who are free; and the only difference perceptible since my last report is that she seems to be suffering from mental anxiety and depression, which may possibly at some time affect her physical health.—MATURICE J. O'CONNOR, Visiting Surgeon, Darlinghurst Gaol, November 19th, 1878.

Paragraph marked thus \* of my memo. of the 8th instant shows that I anticipated what the Surgeon's report would be if called for, and no doubt it is correct. My motive was to show that if Isabella O'Brien were released now she could earn a living; if detained until organic disease sets in, liberty will be of no use to her. She would be better in gaol in that case. Dr. Egan examined her this evening and cannot find any disease yet.—J.C.R., 19/11/78. She may petition; these papers to accompany. The Principal Gaoler, B.C., 21/11/78.—W.G.B.

## No. 12.

## Drs. Alleyne and Egan to The Principal Under Secretary.

Sir,

Sydney, 25 November, 1878.

In reference to our report of the 17th June last, on the state of health of the prisoner named in the margin, and to the papers relating to it, which are herewith returned, we do ourselves the honor to inform you that we have again seen and examined Isabella O'Brien. She does not appear to be quite so robust as she was when we last reported on her case, but she does not complain of being ill, is still fairly well nourished, has the aspect of a woman in good health, and is without any symptoms of organic disease. We therefore do not think that her life is in any immediate danger on account of her imprisonment.

We have, &c.,

H. G. ALLEYNE.  
M. EGAN.

Minister of Justice, &c.—M.F., 10/12/78. The Under Secretary of Justice, &c., B.C., 10/12/78.—M.R.A.

## No. 13.

## The Principal Gaoler to The Comptroller General of Prisons.

To His Excellency Sir Hercules George Robert Robinson, Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies, and Vice-Admiral of the same.

The humble petition of Isabella O'Brien, now a prisoner in Her Majesty's Gaol, Darlinghurst,—  
RESPECTFULLY SHOWETH:—

That your petitioner was tried before His Honor Mr. Judge Faucett, at the Wagga Wagga Gaol Delivery, held on the 3rd day of April, 1872, upon a charge of infanticide, was found guilty and sentenced to death; that sentence was afterwards commuted to imprisonment for life with hard labour.

That your petitioner has now served over six and a half years in gaol, and believes her health is breaking down from the long and close confinement, the unvarying scale of diet, and monotonous life.

That your petitioner implores your Excellency to commute her sentence still further, and give her her liberty before her health gives way under the terrible anxiety and depression of spirits she now suffers from.

That your petitioner, in further support of her plea for mercy, would respectfully beg your Excellency to consider the following facts, viz.:—

That your petitioner at the time of her offence was very young and in a deplorable state of ignorance, inasmuch that she could not read nor write, never saw a school in her life, had no idea of society, its usages, customs, or anything by which her life might have been guided aright. In short, she was

was a wild bush girl, doing men's work to gain her living. Since her incarceration she has learnt at school, from her clergy and from a few well-conducted prisoners, what a horrible, dark, heathenish life she led in the bush. A ruffian, taking advantage of her ignorance, and by promises, seduced her. The fruits of that ignorance and sin caused her to do what she now (too late) knows to be a crime.

That your petitioner, if released, could earn a good living as a sempstress; that her father, now aged, has promised to leave his home to her, if hopes were held out of your petitioner's speedy release.

Your petitioner therefore prays your Excellency's most merciful consideration of her case, and that you may be pleased to hold out some hopes of her release.

And your petitioner, as in duty bound, will every pray, &c.,

ISABELLA O'BRIEN.

By permission of the Comptroller General, on 21st November.—J. C. READ, Pl. Gaoler, 25/11/78. Forwarded for the consideration of the Minister of Justice, in reference to the within correspondence. The Under Secretary of Justice, B.C., 3/12/78.—H.M.L. His Excellency.—J.L., 10/12/78. The Minister of Justice.—H.R., 13/12/78. Judge Faucett, before whom the prisoner was tried in 1872, may perhaps be able to favour me with a report upon this petition, and the accompanying recommendations from the gaol authorities.—F.B.S., 14/1/79. His Honor Mr. Justice Faucett, B.C., 14th January, 1879.—W. E. PLUNKETT.

No. 14.

His Honor Mr. Justice Faucett to The Under Secretary of Justice, &c.

28 January, 1879.

I HAVE read the papers in this case, and I find that my reports, dated respectively the 7th of May, 1872, and the 31st of May, 1875, contain a full statement of the facts of the case as they came before me. To these reports I beg to refer.

There is no doubt the prisoner was very young when she committed the offence for which she was convicted. I have no doubt also that she had been terribly neglected by her father, and that she had been brought up—if it can be called bringing up—in a state of lamentable ignorance, and amongst abandoned people. I have further no doubt that she committed the offence because she felt herself unable to support her two children by washing and such other little work as she could get. According to the evidence given at the trial she used to attend to the children and keep them clean.

Beyond directing attention to Mr. Read's statements, which appear to be deserving of consideration, I do not think I can add anything to what I have already said.

P. FAUCETT.

No. 15.

Minute of Minister of Justice, &c.

I HAVE very carefully read the papers in this case, and although the crime for which this prisoner was convicted was undoubtedly a very serious one, it has been proved that at the time she committed the offence she was dreadfully ignorant and depraved, and that during her whole life she had been associated with persons of the lowest character. It will be seen from Mr. Read's report that when received at Darlinghurst, O'Brien was considered "silly, or a fool," and that now she is a very intelligent woman, and well able to get a respectable living for herself. She appears to be suffering from ill-health, although not quite an invalid, and if she is to be liberated she should be released before (from long imprisonment) she becomes incapable of obtaining a livelihood for herself. The prisoner has been in gaol since April 3rd, 1872, nearly seven years, and I think the time has come when she might be liberated, and therefore I recommend that she be released. His Excellency.

F.B.S., 8/2/79.

Approved, H.R., 10/2/79. U.S. Col. Sec. informed, 10/2/79. What has become of the child O'Brien had with her when arrested.—F.B.S., 10/2/79. Inquire, I.G. Police, 10/2/79.

The Under Secretary of Justice, &amp;c., to The Comptroller General of Prisons.

Sir, Department of Justice, Sydney, 20 September, 1881.

A return having been called for by Parliament of copies of all papers connected with the release from gaol of the prisoner named in the margin, I am directed by the Minister of Justice to inform you that the first medical report made by Dr. O'Connor, in O'Brien's case, is missing from the papers, and I am therefore to request that you will have the goodness to obtain from the Visiting Surgeon a copy of same; but if that cannot be supplied, he should be asked to state the circumstances (as far as he can) under which the former report was called for, and by whom, and about the date, &c., and any other particulars which may enable it to be traced, and, if possible, the purport of it.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

## No. 22.

The Comptroller General of Prisons to The Under Secretary of Justice, &amp;c.

Sir, Department of Prisons, N.S.W., Comptroller General's Office, Sydney, 22 September, 1881.

In reference to your letter of the 20th instant, asking for a copy of a report of the Visiting Surgeon, Sydney Gaol, in the case of Isabella O'Brien, I have the honor to forward herewith a communication which I have received from Dr. O'Connor on the subject.

I may add, as regards the concluding paragraph of the Visiting Surgeon's letter, that I have already furnished to you all the papers in the case.

I have, &c.,  
HAROLD MACLEAN,  
Comptroller General.

[Enclosure.]

Dr. O'Connor to The Comptroller-General of Prisons.

Sir, Darlinghurst Gaol, 22 September, 1881.

I have the honor to acknowledge the receipt of a communication from the Department of Justice, 79/1842, addressed to yourself, returned herewith, requesting that I may furnish the desired information therein required, in regard to the prisoner Isabella O'Brien.

I regret that I have no copy of the report required by the Honorable the Minister for Justice which I first made on the case in question.

My impression is, a minute from yourself, on the application of Isabella O'Brien for leave to petition for mitigation of sentence on the ground of ill-health, required that I should state whether further incarceration was likely to endanger her health; and my report I believe was to the following effect:—"I have examined Isabella O'Brien, and find her to be in perfect bodily health, and do not consider that further incarceration is likely to have a more injurious effect upon her than it would upon any healthy individual confined in gaol."

This I give from recollection, and it may not be verbally correct, but substantially I am confident it is true, as will be proved by the production of my writing, if it ever be found.

This supplies, as far as I possibly can do, the missing report required.

I have before alluded to your first reference in this case, the date of which I presume will be found recorded in the correspondence book at the gaol, in which also Dr. Alleyne's report will be found.

I regret that my first report is missing, which I believe accompanied the application from Isabella O'Brien for permission to petition on the grounds of ill-health. I was always under the impression that a record of such papers was preserved in the gaol.

Under this impression I applied to Mr. Read (Governor of the Gaol) on the morning of the 7th instant, and produced your letter authorising me to see any papers connected with my department, but was refused access to them.

I have, &c.,

MAURICE J. O'CONNOR.

Forwarded.—J.C.R.

No. 23.

The Comptroller General of Prisons to The Under Secretary of Justice, &c.

Sir, Department of Prisons, N.S.W., Sydney, 23 September, 1881.

Referring to my letter of the 22nd instant, respecting case of Isabella O'Brien, I have the honor to forward herewith a communication which I have received from the Principal Gaoler, containing copy of a report of the Visiting Surgeon on the subject in question.

I have, &c.,

HAROLD MACLEAN,  
Comptroller General.

---

[Enclosure.]

The Principal Gaoler to The Comptroller General of Prisons.

Sir,

Sydney Gaol, 23 September, 1881.

With reference to Dr. O'Connor's letter of the 22nd instant, with regard to the case of Isabella O'Brien, I have the honor to refer you to the following entries in our register of correspondence, which may probably assist in tracing the missing report:—

"Report of Visiting Surgeon required in case of Isabella O'Brien (life), as to present state of health and probable effect of further confinement.—H.M.L., 18th November, 1878."

"Prisoner is well nourished, and free from organic disease that would shorten her life; appears to be suffering from mental anxiety and depression, which may at some time affect her health.—M.J.O'C., Vg. S., 19 Novr., 1878."

"If O'Brien were let out now she could earn her living, but if kept till the surgeon considers her broken down, liberty would be of little use.—J.C.R., Pl. G., 19th Novr., 1878."

I have, &c.,

J. C. READ,  
Principal Gaoler.

1881.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MUDGEE GAOL.

(CASE OF GEORGE BAYNHAM, A PRISONER IN, CORRESPONDENCE, &c.)

Ordered by the Legislative Assembly to be printed, 21 October, 1881.

No. 1.

Telegram from Gaoler, at Mudgee, to Comptroller-General of Prisons.

27 September, 1881.

AUTHORISED by Visiting Justice to request you to send official to Mudgee Gaol to inflict corporal punishment on prisoner George Baynham, just sentenced by Messrs. W. D. Meares, A. H. Cox, and F. Cox, J.'s P., to receive fifteen lashes for repeated cases of insubordination.

Urgent. Directions given for an officer to proceed to Mudgee for the purpose. Submitted for the information and authorisation of the Minister of Justice. The Under Secretary of Justice, B.C.—HAROLD MACLEAN, Comptroller-General, 28/9/81. Authorised.—J.G.L.I., 28 September, 1881. The Comptroller General of Prisons, B.C.—W.E.P., 28 September, 1881.

No. 2.

The Gaoler, Mudgee, to The Comptroller-General of Prisons.

Sir,

H.M. Gaol, Mudgee, 27 September, 1881.

I do myself the honor to inform you that I was compelled to place the prisoner named in the margin in irons at 4.5 o'clock yesterday afternoon, for persisting in using obscene and insubordinate language and climbing up to the grating of his cell. He continued singing and shouting at intervals during the whole day. Some of the language is as follows:—\* \* \* \* \* This was referred to me, as the prisoner knew I was in the office, nearly opposite to where his cell is situated.

George Baynham. Six months' hard labour, Mudgee Gaol, for larceny.

At 4 o'clock I saw him at the grating of his cell, hanging on to the bars. He said to me "You \* I hope I'll meet you outside. I'll punch your \* head." I ordered him to get down, but he refused. It was then that I ordered him to be placed in irons, which were removed at 11 o'clock last night, when he was quiet.

I have, &c., J. DICK, Gaoler.

[Enclosure.]

PARTICULARS of Conviction and Prison History of George Baynham, a prisoner in Mudgee Gaol:—

Name of Prisoner ..... George Baynham.
Born... { Where ..... Victoria.
When ..... 1861.
Convicted { Where ..... Mudgee Petty Sessions.
When ..... 2 August, 1881.
Offence ..... Larceny.
Sentence ..... Six months, h.l., Mudgee Gaol.
Magistrate ..... W. D. Meares.

Previous Convictions:—Stranger in the District; but it is suspected from his demeanour that he has served sentences elsewhere.

PUNISHMENTS.

Table with 4 columns: Where, When, Offence, Punishment. Rows list various offenses like 'Disobedience of orders' and 'Insolence' with corresponding punishments like 'Four days cells' and 'To receive fifteen lashes on the bare back.'

General conduct in Gaol..... Very bad.

Mudgee Gaol, 27 September, 1881.

The Under Secretary of Justice, B.C., 3/10/81.—R.A.G. (for C.G.P.)

J. Dick, Gaoler.

## The Visiting Justice, Mudgee Gaol, to The Comptroller-General of Prisons.

Mudgee, 3 October, 1881.

IN attention to your telegram, I beg to state that there are not any papers actually connected with prisoner Baynham's case, as it is not usual here to take down the evidence in writing; the gaoler has however prepared a memo. of the facts as far as his memory serves, and his statement, which I believe to be substantially correct, is forwarded herewith.

Each charge against the prisoner was supported by two or three witnesses, and the gaoler's statement gives but a portion of their evidence.

The gaoler's letter to me of the 13th August with reference to the insubordination in the gaol, my remarks thereon, and the Comptroller General's reply are sent herewith.

W. D. MEARES, V.J.

The Comptroller-General of Prisons, Sydney, B.C., 3 Oct., 1881.

[Enclosure 1.]

Re Prisoner George Baynham.

H. M. Gaol, Mudgee, 1 October, 1881.

THE prisoner was admitted to this gaol on the 28th July last, on a charge of larceny, and remanded until 2nd August, when he was convicted and sentenced by the Bench of Magistrates at Mudgee to six months' hard labour, Mudgee Gaol.

On the 6th August last, four days after his conviction, this prisoner was locked up by warder Williamson for disobedience of orders with reference to some work he was ordered to do in the yard. When in his cell he began to sing, shout, and whistle; after a short time, finding that he was still conducting himself improperly, I went to his cell and asked him to be quiet; he replied "You \* don't you think you are going to bounce me"; he then continued singing and shouting to two other prisoners (Sweeney and Thompson) who were also locked up.

On the 8th August Baynham was brought before the Visiting Justice on the charge referred to and insolence and disrespect towards me, and after the evidence had been given on oath he was sentenced to four days cells for each offence.

On the 17th August this prisoner was again locked up by my order for riotous conduct in his cell after evening muster, which commenced about 6 o'clock. He joined other prisoners in singing, whistling, shouting, and hooting; this continued at intervals until 11 o'clock, and when prisoner Bolton was being removed from one cell to another at 7:30 o'clock that evening, prisoner Baynham shouted from his cell, "Don't go for the \* strike the \* wretch."

On the following morning, the 18th August, this prisoner was brought before the Visiting Justice on two charges, viz., riotous conduct and inciting a prisoner to assault the gaoler, and when the evidence was heard on oath was sentenced to seven days cells for each offence.

When undergoing that term of solitary confinement he conducted himself very badly by again singing, whistling, and shouting as loud as he could; and whenever he heard me opening the office door, which is situated nearly opposite to the cell where he was confined, he used to say—"Here comes Medicine Jack, quack, quack, quack."

On the following day he still continued with similar conduct. I went to his cell and told him to remain quiet; he replied—"Go and \* \* \* \* \* Medicine Jack. (This name is given to me because I compound the medicine.) I thought it useless to check him any more, but determined to have him brought up after serving the fourteen days solitary confinement.

On the 2nd ultimo he was charged with singing and using obscene language towards me before the Visiting Justice, and when the evidence was heard upon oath he was sentenced to a further term of seven days cells; and was then cautioned by the Visiting Justice that if he was again brought up he would be flogged.

On the 25th ultimo he commenced at about 6 o'clock p.m. to sing in his cell, and to shout to two other prisoners who were undergoing solitary confinement. His language was so loud that I heard it in the street as I was returning to the gaol about that hour. I told warder Quinn, who was then on duty, to tell the prisoner to remain quiet. I heard him say to the warder, "Go to hell; what right have you to speak to me? mind your own business." The warder then said, "The gaoler has sent me to you." The prisoner replied, "Go and tell the \* \* \* to \* himself." As I was going to the office I heard him say, "Here comes Medicine Jack the \* \* \* \* \* he is the colour of \* " At this several of the prisoners laughed aloud.

On the following morning, 26th ultimo, he was singing and shouting at short intervals off and on during the whole day. The tone was so loud that the Visiting Justice heard him outside the walls and so informed the senior warder. Amongst other language used while I was in the office, I heard him say during that day (the prisoner being aware that I was there), "The \* hang-dog wretch, the \* \* \* \* \* I hope I'll meet the \* \* \* outside; I'll punch his \* head."

At about 4 o'clock on that day he climbed up to the grating of his cell and shouted out, "Where are you Medicine Jack you \* \* \* " I was then in the office. I went out and saw him at the grating and ordered him down, but he refused and again abused me.

I then found it necessary (for the first time) to place him in irons, which were removed at 11 o'clock that night when he was quiet.

On the 27th ultimo this prisoner was brought up before the following Justices of the Peace, viz., W. D. Meares, Alex. H. Cox, and Francis Cox, Esqs., and charged with first singing and shouting in his cell and refusing to desist on the 25th ultimo; 2nd, disobedience of orders by singing and shouting in his cell on the 26th ultimo; and 3rd, with gross disrespect towards the gaoler.

After the evidence had been heard upon oath the Magistrates sentenced the prisoner to receive fifteen lashes on the bare back, which was carried out at 6:30 o'clock, a.m., on the 30th ultimo.

On the 18th August last, as five of the prisoners who were undergoing solitary confinement for insubordinate conduct, viz., Bolton, Walker, Thompson, Sweeney, and Baynham, seemed determined to continue disorderly, I deemed it my duty to make a special report of their conduct to the Visiting Justice, in which the names of the first three were mentioned; that report, with the Visiting Justice's remarks, was forwarded to the Comptroller General of Prisons. A reply was received on the 27th August from the last-mentioned officer, with the following minute, dated 26th August, viz.: "I have strongly urged the restoration of authority to use the gag, but without success. The General Order of 1st April, 1878, directs what other means may be used. The prisoners should be informed that if they persist in this gross insubordination it will be necessary to send an officer from Sydney to be placed at the disposal of the Magistrates for the infliction of corporal punishment."

I read this last paragraph to the prisoners immediately on its receipt. I afterwards heard prisoner Baynham say, "The \* can't have us flogged; that letter is his own make up; the Judge is the only one who can order flogging."

The paragraph which appeared in this day's *Mudgee Independent* newspaper (enclosed herewith) is partially untrue, for at the time the prisoner was flogged I had requested the matron to remain in the garden to ascertain if any person was in the street; she assures me that there was no one to be seen about the gaol, and nothing could be heard of the castigation.

Prisoner never said a word while corporal punishment was being inflicted, nor did he subsequently; on the contrary he appeared quite humble, for I spoke to him shortly after the occurrence, when he was in the hospital; he then told me that if he had known that he could have been flogged he would not have conducted himself as he did, and that he was satisfied with the punishment; since then he has been very orderly.

While the punishment was being inflicted two prisoners named Thompson and Bolton climbed up to the grating of the cell and used very insubordinate language; and about 15 minutes subsequently the first named prisoner used very loud language, abusing me, and then there were two persons in the street who must have heard him, and therefore were under the impression, having subsequently heard that a prisoner was flogged, that the words proceeded from Baynham.

There

There was no one present while the punishment was being inflicted except the surgeon, myself, seven warders, and the foreman, so that I am at a loss to conceive how it can be said that the "prisoner's back was a bleeding and quivering mass of flesh, some of the strokes cutting deep through the skin." The prisoner received but fifteen lashes, and his back did not present any such form as described, neither was a solution of brine used on his back as stated. The surgeon ordered some ointment which the prisoner received.

J. DICK,  
Gaoler.

[Enclosure to Gaoler's Report.]

Flogging in Mudgee Gaol.

THE first infliction of corporal punishment within the precincts of Mudgee Gaol took place at 6 o'clock on Friday morning, the recipient of the lash being George Baynham, aged twenty-four, and a prisoner under sentence of six months hard labour, for stealing a tumbler from Mr. Belcher's Hotel.

Since receipt of so heavy and unexpected a sentence Baynham's conduct has been far from good.

He refused several times to touch his hat to the gaoler, and expressed dissatisfaction with his food not long ago. The terms of solitary confinement on bread and water to which he was sentenced did not improve his temper; and it is said that he has been subjected to a good deal of solitary imprisonment and harsh treatment since his admission to the gaol.

Not long ago he and several other prisoners amused themselves by singing an extempore ballad, in which the gaoler was made the butt of their ridicule. On being remonstrated with they continued to use very profane language, and a consultation being held among the authorities, it was decided to "get one of them flogged to cool the rest."

An application was sent to the Comptroller of Prisons and to the Minister for Justice (Sir George Innes), asking them to give their consent to have the prisoner flogged for breach of prison discipline.

To this they readily assented; and on Thursday the Government flogger arrived in town. The triangles were erected in the gaol-yard, and at 6 a.m. on Friday, before the other prisoners were let out of their cells, Baynham was brought out, fastened hands and feet to the triangles with manacles, his back bared, and the brutal punishment commenced by the common flogger.

The ceremony was strictly private, the only spectators being the gaoler, the overseer, a couple of warders, and the gaol surgeon, Dr. Newton.

Fifteen strokes of a formidable "cat-o'-nine-tails" were administered by the flogger, and the man's back at the conclusion of the ceremony was a bleeding and quivering mass of flesh—some of the strokes cutting deep through the skin.

The strokes of the lash were distinctly heard by persons within a radius of 100 yards of the gaol, and the man's screams and oaths were something dreadful.

Mingled with the dull thud of the descending thongs were such cries as "— hangman, you're murdering me"; and many of the neighbours closed their ears to the revolting and sickening sounds. Several of the prisoners confined in their cells also joined in upbraiding the flogger, and the authorities state that the latter is to be kept in town, pending an application to have the several men submitted to similar punishment.

After the sickening spectacle was brought to a close, the bleeding and brutalized man, who had been the victim of an operation which will prey on his mind to the hour of his death, was removed to his cell, and his back dressed with a solution of brine, with a view to healing his wounds.

The flogger was then let out of the gaol by a back entrance, and slunk away to his lodgings, as if in the depth of his heart he was ashamed of his morning's work.

Thus ended the first flogging administered in Mudgee Gaol, and we hope its effect on refractory prisoners will be as salutary as those who recommend it expect.

[Enclosure 2.]

Memo. from The Visiting Justice to the Gaol, Mudgee, to The Comptroller-General of Prisons.

THE three men named by the gaoler have been very badly behaved since their confinement in the gaol here.

They, with two others, are now undergoing solitary confinement for insubordination.

They kept the whole gaol in a state of excitement for several hours on Wednesday night by shouting and singing, and by using the most abominable language, and kept up the same kind of noise next day.

They do not appear to care for the cells, except in the cold weather; and the quantity of bread they are allowed keeps them from being hungry.

I do not think that they can be effectually controlled unless by the use of the gag.

I beg respectfully to bring the gaoler's letter under the notice of the Comptroller-General.

W. D. MBARES, V.J.,  
Mudgee, 22/8/81.

The Gaoler, Mudgee Gaol, to The Visiting Justice, Mudgee Gaol.

Sir,

H. M. Gaol, Mudgee, 18 August, 1881.

I do myself the honor to inform you that the conduct of the three prisoners named in the margin has been and still is very insubordinate, and their language is most obscene, and is plainly audible in the three streets adjacent to the gaol.

I fear that their example will lead other badly disposed prisoners to join them; if so it will be a very difficult matter to control them with the means at my disposal, as the officials are now powerless to restrain men whose conduct is so violent, for there are no dark cells in this gaol where prisoners so conducting themselves can be confined.

Similar cases could be effectually suppressed if, as formerly, the gag could be used, for after all there is nothing will deter prisoners sooner than their knowledge of such an instrument being allowed to be used, for during the nine years I was in charge of this gaol only one instance occurred when I found it necessary to use it, and then only for 5 minutes, when the prisoner desisted.

It is a remarkable fact that since the discontinuance of the use of the gag the number of prisoners who have been punished for breaches of the gaol regulations has more than doubled itself, although the daily average of prisoners has not increased.

The punishment on bread and water seems to have no desired effect. I think if the quantity of bread was reduced by half this would tend to make the punishment more effectual. The present allowance is 1½ lb. bread daily, on which a prisoner could exist for a long period.

I have, &c.,  
J. DICK,  
Gaoler.

I have strongly urged the restoration of authority to use the gag, but without success. The general order of 1st April, 1878, directs what other means may be used. The prisoners should be informed that if they persist in this gross insubordination it will be necessary to send an officer from Sydney to be placed at the disposal of the Magistrates for the infliction of corporal punishment.—H. McL., 26/8/81.

## No. 4.

## Minute of the Minister of Justice.

INFORM Comptroller-General that in all cases in which it is at all probable that corporal punishment may be awarded the evidence on oath should be reduced to writing, and it should appear by that writing that the accused had every opportunity of cross-examining the witnesses. Indeed I think this should be done in *all* cases of investigated charges against prisoners. In this case the man unquestionably deserved the punishment awarded. It is to be regretted, but I suppose cannot be helped, that newspapers should pervert facts for the purposes of sensational articles. I will bring these papers before the Cabinet.

J.G.L.I., 4/10/81.

Letter to Comptroller-General of Prisons in above terms on 6th October, 1881.

## No. 5.

## Minute of the Minister of Justice.

HAVING regard to the Gaoler's report, I think the newspaper paragraph entirely incorrect, and that the flogging was correctly administered. I should like to know the particular nature of the offence for which prisoner was convicted.

## No. 8.

## Telegram from Gaoler, Mudgee, to Comptroller-General of Prisons.

19 October, 1881.

VISITING Justice absent from Mudgee.

1. A prisoner named George Baynham is in Mudgee gaol.
2. Was sentenced on 2nd August to six months hard labour for stealing a tumbler.
3. This prisoner received fifteen lashes in Mudgee gaol on 30th September last.
4. No application was made for flogging, but this prisoner was warned by Visiting Justice on 2nd ultimo, when being sentenced to a third term of solitary confinement, making a total of twenty-eight days, that if he was again charged with insubordination the Bench would sentence him to be flogged.
5. Flogging ordered by W. D. Meares, Alexander H. Cox, and Francis Cox, Esqs., J.'sP., under Gaol Act 4 Victoria, No. 29, section 13.
6. Prisoner's back was not a quivering mass of flesh; it appeared red only, and no blood visible.
7. No solution of brine was used after flogging, visiting surgeon ordered some cooling ointment, which was applied to prisoner's back by prisoner Cribb in gaoler's presence. Editor of *Mudgee Independent* newspaper imagination, as visiting surgeon, gaoler, foreman, senior warder, and four warders only were present. Prisoner Baynham never murmured when receiving corporal punishment, neither could blows be heard outside gaol walls.

1881.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**COONAMBLE GAOL.**

(LEG-IRONING OF PRISONERS IN—CORRESPONDENCE.)

*Ordered by the Legislative Assembly to be printed, 20 October, 1881.*

*[Laid upon Table in accordance with promise made in answer to Question 11, Votes No. 62, Wednesday, 19 October, 1881.]*

Telegram from the Acting Gaoler, Coonamble, to the Comptroller-General of Prisons, Sydney, dated October 6th, 1881.

Owing to the insecurity of the gaol premises at Coonamble, young active prisoners charged with felony, also prisoners thought to be dangerous characters or who made resistance when arrested by the police, and who would otherwise be very liable to escape, or if not to escape to be shot down, have had leg-irons put on before and after trial while taking exercise in the gaol yard, which is quite open and unprotected, for which purpose leg-irons similar to hand-cuffs are provided. Irons of this kind are used as much for the protection of the prisoner himself as otherwise. It is optional with prisoners to put these irons on, but if he go out for exercise he is required to put them on. Prisoners have not complained to me about any hardship in having to put these irons on. No prisoner has irons on in the cells, but only while at exercise outside.

Telegram from the Acting Gaoler, Coonamble, to the Comptroller-General of Prisons, Sydney, dated October 11th, 1881.

No, it is not the practice. All prisoners are not leg-ironed when taking exercise. The following were before and after committal :—Thomas Wrigley, sheep-stealing; Samuel Small, forging and uttering; John Ellis, stealing from the person; Edward Liennel, horse-stealing; James Montgomery, horse-stealing; James Short, horse-stealing; George Doyle, horse-stealing; George Clair, horse-stealing; William Thurston, assisting a prisoner to attempt escape; William Carey, sheep-stealing; Henry Potts, horse-stealing; John Rushton, cattle-stealing; Charles Tuckwell, horse-stealing; Tommy Wonney, horse-stealing. Links seven-eighths of an inch wide; the iron of which the links are made quarter of an inch in diameter; length of leg-irons, eighteen inches from leg to leg.

Coonamble Gaol, 8 October, 1881.

JAMES GOVERNS, Acting Gaoler, respectfully reports as directed concerning the placing of leg-irons upon certain prisoners at Coonamble Gaol, as follows :—

On the 20th May last one Thomas Wrigley was handed to me in custody on a charge of sheep-stealing, and when he was so handed over to me I was directed by the police authorities above me at Coonamble to place leg-irons upon the said Thomas Wrigley, and such irons were only placed upon him during the time that he was exercising in the gaol-yard,—the yard, consisting of about 3 acres, being totally insecure for the due custody of prisoners, being only enclosed by an ordinary fence 4 feet in height.

The prisoner, Thomas Wrigley, has on many occasions been charged with crime, and when he was arrested for the charge that he was lately placed in my custody for committing, he (Wrigley) according to the sworn testimony of Constable Cusack, the arresting constable, did violently resist such arrest by throwing the constable down and attempting to injure his privates.

The next case of placing leg-irons upon prisoners was the case of Samuel Small, charged with and convicted for forging and uttering a cheque at the last Quarter Sessions at Coonamble. The said Samuel Small after committal by the Bench of Magistrates at Coonamble had the leg-irons placed upon his legs whilst exercising in the gaol-yard before referred to, and it was not at all compulsory for prisoners to have irons placed upon them unless they required to exercise in the gaol-yard.

The Visiting Justice at Coonamble Gaol has seen the prisoners before referred to, when visiting the gaol at Coonamble, with the leg-irons on, and has never demurred or authorised me to discontinue the same with the said prisoners Wrigley and Small, but has acquiesced with same, and wrote a letter, dated the 5th March, 1879, to the Principal Under Secretary, stating that certain committed prisoners of bad repute were leg-ironed whilst exercising in the gaol-yard, and advising the necessity of such a proceeding to prevent escape, there being in the gaol at the time a prisoner named James Montgomery, who when afterwards liberated on bail and when re-arrested asked the arresting constable not to place upon him the hand-cuffs, and when the constable agreed to the request the prisoner attempted to escape, and, after being called upon to surrender refused so to do, was fired at and killed.

The prisoners Small and Wrigley never complained concerning their having leg-irons placed upon them.

The Comptroller-General of Prisons, Sydney.

JAMES GOVERS,  
Acting Gaoler.

Coonamble Police Station, 11 October, 1881.

SERGEANT BOYD respectfully begs to state in reference to the attached inquiry that owing to the insecurity of the gaol premises at Coonamble, young, active, and those thought to be dangerous characters and likely to escape have had leg-irons put on, some before and after committal, while taking exercise in gaol-yard, which is quite open and unprotected, it being a good sized paddock instead of a yard, and only enclosed by a paling fence about 3 feet high. Under these circumstances the sergeant considers it would not be safe to allow prisoners out without being leg-ironed, as on one occasion, when a prisoner named Edward Lennon was in Coonamble Gaol on a charge of horse-stealing, and while out in the yard with leg-irons on, told the warder Morris that only for the leg-irons being on he would soon clear out, and chance a shot from the warder's rifle.

The following are the names of prisoners who have been leg-ironed, namely:—

*Thomas Wrigley*, sheep-stealing, had leg-irons on from 27th May, 1881, to 9th July, 1881, both before and after committal. The Bench refused this prisoner bail after and before his committal. He has been acquitted, but he is still on bail on a similar charge, himself in £500 and two sureties in £150 each.

*Samuel Small*, forgery and uttering, had leg-irons on from 23rd May, 1881, to 11th October, 1881, both before and after committal. Bail was refused. He is now convicted, and got two years.

*John Ellis*, stealing from the person, had leg-irons on from 3rd August, 1881, to 11th October, 1881, both before and after committal. Bail not applied for. Has been convicted.

*Edward Lennon*, horse-stealing, had leg-irons on from 18th May, 1880, to 18th October, 1880, both before and after committal. Was convicted.

*James Montgomerie*, horse-stealing, had leg-irons on from 13th December, 1878, to 16th April, 1880, both before and after committal. At this prisoner's trial a material witness was absent, and the prisoner was admitted to bail, and while out on bail he was arrested on a charge of stealing a saddle, and on his way to Coonamble lock-up he, not being in hand-cuffs, obtained a stick with which he struck the constable a heavy blow, and then tried to escape. The constable recovering from the blow fired two shots at the prisoner which took effect and killed the prisoner on the spot.

*James Short*, horse-stealing, had leg-irons on from 18th May, 1880, to 18th October, 1880, both before and after committal. He was convicted, and since his conviction he got three years for forgery at Wellington.

*George Doyle*, horse-stealing, had leg-irons on from 26th March, 1879, to 19th April, 1879, both before and after committal. Was convicted.

*George Clare, alias White*, horse-stealing, had leg-irons on from 4th December, 1879, to 16th April, 1880, both before and after committal. Was convicted.

*William Thurston*, placing tools in cell to enable prisoner James Montgomerie above referred to to escape from Coonamble Gaol, had leg-irons on from 3rd March, 1879, to 19th April, 1879, both before and after committal. Was convicted.

*William Carey*, sheep-stealing, had leg-irons on from 27th May, 1879, to 21st June, 1879, both before and after committal. Was convicted.

*Henry Potts*, horse-stealing, had leg-irons on from 27th August, 1879, to 6th September, 1879. Remanded to Coonabarabran and convicted.

*John Rushton*, cattle-stealing, had leg-irons on from 7th April, 1879, to 15th April, 1879. Absconded from his bail.

*Charles Tuckwell*, horse-stealing, had leg-irons on from 10th December, 1880, to 6th April, 1881, after committal. Was convicted.

*Tommy Wonney* (aboriginal), horse-stealing, had leg-irons on from 20th June, 1881, to 11th October, 1881. Was convicted.

All the above-named prisoners are young, active, and the sergeant believes were dangerous to be allowed out in such a yard as the one referred to without leg-irons. When Thomas Wrigley was arrested he resisted the police and tried to injure the constable by catching him by the privates.

None of these prisoners had leg-irons on them in the cell. The leg-irons were put on them when going out for exercise, and on all occasions the leg-irons were taken off the prisoners before going into the cell.

The Superintendent of Police, Bathurst.

GEORGE BOYD,  
Sergeant.

1881.

## NEW SOUTH WALES.

## PRISONS.

(REPORT FOR 1880.)

Presented to Parliament by Command.

## The Comptroller General of Prisons to The Minister of Justice.

Sir,

Department of Prisons, N.S.W., Comptroller General's Office,  
Sydney, 17 May, 1881.

I have the honor to present my Report for 1880 upon the prisons of the Colony, accompanied by the customary statistical information in tabulated form, comprehending the number and locality of the prisons, their capacities of accommodation, and the distribution and classification of the prisoners, as well as full information relating to entries and discharges, the extent and results of industrial labor, hospital and educational operations, and relapse in crime. It will be seen that the number of prisons (including police gaols) in occupation during the year was 47, in which were confined, on the 31st day of December, 2,107 persons, as compared with 1,959 at the end of 1879, thus showing an increase of 148, while the population has advanced from 734,282 to 750,000, as by present Census Returns.

The re-convictions during the year have been—of the 1st class or graver offenders, for the first time, 20; second time, 3; and for the third or more, 3,—as compared with 28, 4, and 22, during the previous year; of the 2nd class, 186, 39, and 30, as compared with 115, 50, and 65; of the 3rd class, 113, 38, and 37, as compared with 29, 24, and 51; and of the drunkards and petty offenders, 935, 388, and 823, against 617, 819, and 1,165.

From the above figures it may be deduced that the prison treatment has been salutary in respect of the persons longest under its operations, as evidenced by the lesser number of re-convictions for the graver offences. The most noticeable increase is to be observed in offenders sentenced to imprisonment only (namely without "hard labor"), who are exempt from some of the more stringent conditions of penal discipline. Although the re-convictions of drunkards and petty offenders have not materially increased they are numerous. I cannot look for an abatement in this class of offences until, as before suggested by myself, some legislation be adopted, having the object of creating cumulative minimum penalties on repeated convictions.

I am again under the necessity of expressing regret that the extension of building accommodation, a slow process, has not kept pace with the increase of population and advance of crime, thus necessitating the undue crowding of prisoners, a condition in every sense destructive of the first principles of prison treatment, and further entailing much inconvenience and expense for the transfer of prisoners from place to place, for the purpose of providing the room actually needful.

Some progress has, however, been made in buildings and extensions during the year,—at Tamworth, being the new gaol (now completed and occupied), at Albury (not yet complete), and at Trial Bay. A degree of relief may be looked for when these buildings may be occupied, and the new prison at Goulburn, one of a first-class character (now in course of construction), may be completed.

The returns of prison labor show a result of £35,138 13s. 9d., of which £9,939 5s. 1d. is the value of labor for the internal purposes of the prisons. My last Report entered so fully into the difficulties of various kinds surrounding the development of prison labor that it scarcely appears to be necessary in this Report further to revert to the subject.

The order and discipline of the Prisons have been satisfactory, and the general conduct of the prisoners has been good; but there have been outbreaks of individuals, and small combinations, seriously interfering with the order and discipline of the establishments, which have been only finally repressed by reluctant recourse to the threat of, or actual resort to, corporal punishment. These outbreaks I attribute to the want of the means of repression of necessity prevailing in a young and widely disseminated prison system, taken in connexion with the unruly spirit noticeable in the younger prisoners of both sexes, unfortunately so numerous of late years supplying the places of the more mixed classes formerly coming under the operation of the law. These disorders usually have their commencement in audacious, and frequently

frequently most filthy, language, sometimes kept up day and night, audible throughout the smaller prisons, so that the well disposed prisoners suffer almost as much annoyance as the officers are subjected to embarrassment, and feelings of disgust. There is not an officer in charge of a prison who would not unhesitatingly express the conviction that the existence as formerly of the authority to use, apart from the actual use of, the gag, which I regard as the most immediate and humane means of repression, would in nine cases out of ten have obviated the occurrences which have led to long and severe cell, and sometimes corporal, punishments, and thus have been as merciful to the misguided prisoners themselves as relief to the officers from embarrassment and difficulty.

It is more pleasing to turn to the effects of discipline and industrial training, accompanied by the moral influences of the chaplains and others, as evidenced by the comparatively few re-convictions for the graver offences, leaving the fact, and of which instances are not infrequently heard of, that a material proportion of such offenders have amended their modes of life, and are merged in the general community.

The Prisoners Aid Society continue their operations, I am led to believe, with success, and have always the ready co-operation of this Department.

The general conduct and discipline of the staff have continued to be satisfactory, and its efficiency is alone hampered by the absence of provision for retiring worn out officers of long service, a subject of repeated representations by myself. I cannot refrain further from expressing my regret that the anomaly, fully explained in my last report, of the strikingly disproportionate remuneration of the higher officers and office staff still exists, and the hope that you may see your way to a rectification when the next Estimates may come under consideration.

The Matron Superintendent continues to pursue her most excellent management of the Reformatory for Girls at the specially well adapted premises at Shaftesbury. The success attending Mrs. King's course of training is obvious to any visitor. Both the building and grounds present a most creditable and pleasing appearance as a Government establishment. There were at the end of the year in the Reformatory only 9 girls; but the institution is now more widely known, and at the present time it contains 17 girls, so that its occupation up to its capacity is merely a matter of time. The subject of providing a Reformatory for boys having been taken up by yourself, it may be expected that the formation of such an establishment is not far distant.

I have, &c.,

HAROLD MACLEAN,  
Comptroller General.

NEW SOUTH WALES.

## PRISONS ACT OF 1874.

(REGULATION UNDER.)

Presented to Parliament, pursuant to Act 37 Vic. No. 14, sec. 9.

Department of Justice, Sydney, 14th November, 1881.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following clause being substituted for clause 1 of Regulation No. 79 of the Gaol Regulations, viz. :—

### SCALE.

(1.) Sentences not exceeding five years, a service of five-sixths.

Sentences beyond five, but not exceeding ten years, a service of four-fifths.

Sentences of more than ten years, a service of three-fourths of the term. But this Regulation shall not be applied to sentences commuted from capital convictions. Prisoners under such sentences shall not, however, be debarred from having the circumstances of their case taken into consideration.

W. J. FOSTER.

1881.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## CROWN-STREET PUBLIC SCHOOL.

(INFORMATION RESPECTING.)

*Ordered by the Legislative Assembly to be printed 23 August, 1881.**[Laid upon Table in accordance with promise made in answer to Question 2, Votes No. 29, Tuesday, 23 August, 1881.]*

## 2. MR. McELHONE to ask THE COLONIAL SECRETARY,—

- (1.) Is it a fact that Mr. Rooney, Head Master in the Crown-street Superior School, has received notice to hold himself in readiness to be removed to another School; if so, on what grounds?
- (2.) Has any charge been made against the Mistress, Mrs. Bardwell, of insubordination, ill-treatment of other Teachers, of disobeying the instructions of the Inspectors, of breach of instructions to Principal Teachers, of February, 1879, and improper management of the Girls Department?
- (3.) Is he aware that the Inspector of Nuisances received a letter complaining of the state of the girls' closets, and was any report of obscene language written on various parts of the girls' closets?
- (4.) Is it not a fact that obscene writing of the most filthy and foul nature was written all over the girls' closets, in female writing?
- (5.) Was an inquiry held into these charges; if so, how long did it last, and what was the nature of the report on the charges made?
- (6.) Did Mr. John Davies, M.L.A., attend this inquiry; if so, in what capacity; and is it usual for Members of Parliament to take part in departmental inquiries; if not, on what ground was Mr. John Davies, M.L.A., allowed to attend the inquiry?

## REPLY.

- (1.) The following letter was written to Mr. Rooney, who holds the position of Teacher in temporary charge of Crown-street School:—

Memorandum to J. P. Rooney, Esq., Public School, Crown-street.

No. 81-6,757.

Department of Public Instruction, Sydney, 9 August, 1881.

Your recent complaints against Mrs. Bardwell, Mistress of Girls Department.

THE Minister has had under notice the report submitted by myself and Mr. Inspector Morris on the inquiry into the complaints preferred by you against Mrs. Bardwell, Mistress of the Girls Department of the above school.

Sir John Robertson is of opinion that the complaint as to the management of the girls department relates to matters with which it is the especial province of the Inspector to deal, and in which your interference was wholly uncalled for; and that the remaining complaints are of such a nature as would, under ordinary circumstances, be settled by the Inspector, inasmuch as they refer to matters of school and departmental discipline. As the latter, in themselves, are comparatively unimportant, and as they have not been substantiated, Sir John considers that you must be held responsible for the waste of time and derangement of school business—extending to many schools—occasioned by the inquiry you were the means of originating. In view of these facts he has decided to remove you to another school, and has instructed me to caution you with respect to your future conduct. I have also to convey to you an expression of his disapproval of the indelicacy of your apparently unnecessary allusion, in a communication to Mrs. Bardwell, to filth in the water-closet of the girls school.

E. JOHNSON,  
Chief Inspector.

- (2.) Yes; and with the addition of breach of Regulations.
- (3.) I am informed that Mr. Rooney reported that the Inspector of Nuisances had received a letter complaining of the state of the girls' closets, and that obscene language was written there.
- (4.) I learn from Mr. Chief Inspector Johnson, who lately conducted an inquiry at the Crown-street School, that obscene writing was reported as having been found in portions of the water-closets, but Mr. Johnson is not satisfied that it was in the handwriting of a female.
- (5.) Yes; and it lasted twelve days. The report will be laid upon the Table of the Assembly.
- (6.) I understand that he did; as I understand it, in the capacity of a friend of the accused. It is not usual for Members of Parliament to take part in departmental inquiries as such, but I do not know of a case where a lady has been refused the presence of a friend.

1881.

**LEGISLATIVE ASSEMBLY.**  
**NEW SOUTH WALES.**

—  
**EDUCATION.**

(CROWN-STREET PUBLIC SCHOOL—CHARGES AGAINST MRS. BARDWELL.)

—  
*Ordered by the Legislative Assembly to be printed, 6 September, 1881.*  
 —

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 18th August, 1881, That there be laid upon the Table of this House,—

- “ (1.) Copies of all evidence taken at the Inquiry into the management  
 “ of the Crown-street Superior Public School; and also copies of charges  
 “ made against the Mistress, Mrs. Bardwell, before Inspectors Johnson  
 “ and Morris.
- “ (2.) Also copies of all minutes, reports, &c., thereon; and also any  
 “ charges of whatsoever nature or character made against Mrs. Bardwell.
- “ (3.) Also copies of instructions to Principal Teachers issued on the 29th  
 “ February, 1879; also Mrs. Bardwell’s replies, &c., to the charges, more  
 “ especially correct copies of her replies, with the exact way she has spelled  
 “ different words.
- “ (4.) Also copies of all evidence, minutes, &c., taken at the inquiry held  
 “ by the Council of Education on the occasion of her dismissal as a  
 “ Teacher by the Council of Education.”

(Mr. McElhone.)

## No. 1.

## Minute by the Minister of Public Instruction.

19th August, 1881.

I AM desirous that all information should be furnished necessary to make the case of Mrs. Bardwell, Mistress of the Crown-street Public School, intelligible, even though some of it may not come strictly under the resolution of the Legislative Assembly. To that end I should like the following points made clear, as well as any other of similar importance that may occur to the Under Secretary:—

1. When did Mrs. Bardwell first come into the service of the Council of Education, and under what circumstances?
2. What offices has Mrs. Bardwell held, and what were the dates of her appointments, and under what recommendations did she obtain them?
3. What training did Mrs. Bardwell receive under the Council of Education, and what had she previously elsewhere?
4. The papers relating to that lady's removal from office in the Training School appear to be defective. There is no report or opinion by the officers who conducted the inquiry held at the time. This should be supplied.
5. Was there any precedent for the action of Mrs. Bardwell in asking for reconsideration of the Assistant Examiner's recommendation on the subject of her examination?
6. What were the circumstances relating to the placing and the subsequent removal of Misses Bates and McLimont from the Crown-street School?
7. What other complaint—if any—had been brought against Mrs. Bardwell by Mr. Rooney prior to the 14th May last, the date of the charges investigated by Mr. Johnson?
8. What was the number of teachers summoned respectively by Mrs. Bardwell and Mr. Rooney? How long were they detained from their respective schools? What inconvenience arose therefrom, and what in the opinion of Mr. Johnson, the Chief Inspector (who conducted the inquiry), was the necessity for calling them in each case?
9. Place also with the papers those relating to the clapping of hands.

JOHN ROBERTSON.

No. 2.

## No. 2.

## Minute by Under Secretary of Public Instruction.

With reference to the minute of Sir John Robertson, dated 19th August, 1881, I beg to submit the following statements:—

1. Mrs. Bardwell entered the service of the Council of Education on 17th April, 1878. The circumstances which led to her appointment are shown in the following paper:—

Minute for the consideration of the Council of Education.

*Training School:* Question of appointing a female Assistant Teacher.

The need of additional assistance to the teaching staff of the Training School has been frequently brought under my notice of late. Both the Training Master and his Assistant, but particularly the former, have suffered severely from the pressure of their duties, and the overwork resulting therefrom has injuriously affected their health; in fact, the labour of oral teaching, of preparing by private study for the lessons of the following day, and of revising the numerous exercises of fifty or sixty students, is greater than can be properly performed by two persons without risk. The last-mentioned duty alone occupies a very large amount of time, and demands close and continuous attention.

Any assistant that may be appointed should be a lady. This is virtually admitted by the Training Master, inasmuch as he has recommended that the Head Mistress of the Model School should be present on certain occasions; and the reason which suggested that arrangement is an argument of equal weight in support of the proposal to secure the attendance of a lady during the whole of the time the students are under instruction.

Although the conduct of the students has been singularly free from graver improprieties, there have been some slight breaches of decorum, and some want of attention to the usages of society, which are to be deprecated among persons who are themselves required to be examples worthy of imitation by the rising generation. Further, the manners of some of the female students are occasionally marked by an absence of refinement that must prove inimical to their future success. These are matters which it is out of the power of the present staff to rectify, and which cannot be dealt with by any but a lady teacher.

The appointment of a female assistant who has had the education and training of a lady, who possesses the necessary attainments, and who is capable of exerting a refining influence upon the female students, seems to me the only means by which the defects before mentioned can be remedied. The instruction in French, if confided to such an assistant, could, with benefit to the students, be considerably extended; and the revision of lectures given by the Masters as reproduced by the students, together with correction of exercises and some oral teaching, would fill up the time of such a teacher.

Having regard to the necessity which will hereafter arise for the appointment of a lady to superintend the female department when the new buildings for the projected Training School are erected and occupied, it appears desirable that the appointment now recommended should be looked upon as a preparatory step to that end. The experience gained, pending the admission of students into residence in the Training School, would be of great value, and would be likely to prevent the risk of mistake to which persons appointed for the first time to positions of trust and responsibility are liable.

For these reasons I submit that a lady assistant should be appointed to the staff of the Training School.

W. WILKINS,  
Secretary.

Minute by the Council of Education.

25th March, 1878.

The Council agreed to appoint a female assistant teacher to the Training School, with salary at the rate of £250 per annum; and further resolved that the appointment be offered to Mrs. S. M. Bardwell, formerly a student therein.

(See also reply to question 3.)

2. Mrs. Bardwell has held the following offices:—

Assistant teacher in Training School; date of appointment, 17th April, 1878.

Mistress of Girls' Department, Redfern Public School, 1st November, 1879.

Mistress of Girls' Department, Crown-street Public School, 15th May, 1880.

The appointment to the Training School—the first—was made by the Council of Education, based upon her superior qualifications, and the fact that she had personal knowledge of the requirements of the office.

The appointment to the Redfern School—the second—was made by the Council of Education, in accordance with the rule then in force, which provided that appointments should be given to teachers in the order of their classifications and seniority. On the recommendation of the Assistant Examiner, Mr. Forbes, Mrs. Bardwell had been placed in Class I. B, and Mr. Inspector Bridges, then acting as Assistant Examiner, had reported that "Mrs. Bardwell manifests excellent governing power, and teaches with great tact and energy."

There was at the time no other female teacher in the Service who had obtained a first class certificate by examination.

It was part of my duty, as Secretary of the Council of Education, to submit the names of teachers for appointment in accordance with the rule before referred to, and when the vacancy occurred in the Crown-street School, to which Mrs. Bardwell was subsequently appointed, it necessarily devolved upon me to suggest a mode of filling the office. The Council of Education, on the report of the Inspector, and after very full consideration of the matter, had resolved not to appoint to the new Crown-street School the lady who had previously been employed in the temporary school. The reason which led to

to Mrs. Bardwell's appointment to the Redfern School was of equal force as applied to the Crown-street School, and I had no alternative but to recommend—as I did—her appointment in the following Minute:—

Crown-street.

Department of Public Instruction, Sydney, May 7, 1880.

A Mistress is required for the Girls' Department of this school, which will be one of the first importance, and will be eligible for appointment as a Superior Public School under the 9th section of the Act. It will consequently require a highly qualified teacher.

The female teachers holding first-class certificates are:—

Mrs. Allingham  
Mrs. Bardwell  
Miss Higgins  
Mrs. Friend  
Miss McDonough  
Mrs. McTaggart  
Miss Ryan.

Of these Mrs. Bardwell has passed the best examination. In fact her attainments are altogether of a superior order, and on this ground I recommend her appointment.

The Inspector of the district recommends the appointment of Miss Galbraith, a Second Class Teacher who, moreover, does not possess the attainments requisite for instructing advanced pupils in a school of this description.

W.W.

Approved.—JOHN R.

3. The training of Mrs. Bardwell under the Council of Education was received during four months' attendance as a student at the Training School, from which she was forced to retire by failing health, and consequent inability to bear the mental strain occasioned by the work of that institution. I was informed on good authority in 1875, that her education was principally received in Paris and at Bonn. In Paris, she was instructed in French, German, Italian, vocal and instrumental music, some of the physical sciences, and general literature, and attended lectures at the College de France, and Sorbonne. At Bonn, she was for two years under the tuition of professors, and received instruction in music from some of the most eminent masters in Germany. Garcia had previously been her teacher in music. Certain of her practical experience in teaching was gained during two years in a ladies' school at South Yarra, Melbourne. She was also a governess in a leading family in Melbourne, and for some time in the family of T. Rutledge, Esq., Molonglo. She also conducted a private school at Woollahra for about two years.

4. The officers who conducted the inquiry which resulted in Mrs. Bardwell's removal from the Training School were not called upon to furnish a report or opinion, and none was ever made by them. The minutes of evidence, together with a report by Mr. J. C. Fisher on the students of the Training School, and some additional letters which had been sent to the President of the Council direct, were, I believe, submitted to the various members, and a decision was arrived at doubtless from a consideration of those documents. These additional papers were not seen by me, and were not recorded in the office register; but I have understood that they included, among others, a letter from the Training Master (Mr. Wright), a memorial from certain students in the Training School, and letters on their own account from Misses Rushforth and Fitzpatrick (students). I have no reason to suppose that Mrs. Bardwell had an opportunity of rebutting the allegations contained in these letters, and I am not aware whether they are now in existence.

5. It has happened on several occasions that teachers dissatisfied with the classifications awarded them have asked for reconsideration. A case in point, seeing that it relates to an examination for a first-class certificate, was that of Mr. J. Cusack, to whom that grade was at first refused, but who, after appeal to the Council, ultimately received it. When Mrs. Bardwell made a similar request, the case was referred, in the absence of the Chief Examiner, to the Chief Inspector, who reported as follows:—

“I have examined these papers; they are of high merit, and afford evidence that the writer is a lady of large attainments and of considerable mental culture. I have no hesitation in stating that, in my opinion, they fully entitle Mrs. Bardwell to be placed, as regards literary acquirements, in Class I.A.”

On this report I.A. was granted on 1st October, 1880.

6. For many years it was one of my special duties to place in suitable positions in the Sydney schools, where their practical training in school management could be continued, students from the Training School who were awaiting appointment. In pursuance of this arrangement, which in the month of January last had not been superseded by any other, I gave directions to the Misses Stewart and M'Climont as to their attendance in the Girls' Department of the Crown-street School. Miss Stewart was subsequently replaced by Miss Bates. These ladies accordingly attended at that school until the month of May when, their services being required elsewhere, they were directed by the Chief Inspector to leave. This direction was not brought under my notice, and when Mrs. Bardwell called at the office to represent the inconvenience likely to be caused by the sudden removal of these young ladies—she had been unable to see the Chief Inspector, who was engaged at the time—I considered myself entitled to authorize delay until inquiry could be made into the circumstances of the case, and I directed accordingly. Miss Bates remained; Miss M'Limont left, notwithstanding my direction. When, after consultation with the Chief Inspector, it was found that an absolute necessity existed for their services in other schools, Miss Bates was instructed to proceed. I found subsequently that Miss M'Limont had been directed by Mr. Rooney to adopt the course she followed, and I therefore considered that she could not be held responsible.

7. No other complaints by Mr. Rooney had been recorded against Mrs. Bardwell in connection with the Crown-street School. On or about 5th February last, however, Mr. Rooney verbally complained to me about that lady, and requested my advice as to how he should act; I advised him to do exactly what his duty pointed out; but, in so acting, to adopt a conciliatory manner, to avoid harshness, and to give full consideration to all the circumstances. Among these I referred to the belief in Mrs. Bardwell's mind that Mr. Wright, the training master, was her inveterate enemy, and that he had influenced teachers to be disrespectful to her and disobedient to her injunctions. Mr. Rooney admitted, in general terms, that he had been under some such influence, but expressed his intention to avoid allowing himself to fall into that error in future. I hoped from his manner and expressions that an amicable arrangement of their differences would ensue.

8. The Chief Inspector has given me the following information in reply to these questions:—

1. "Mr. Rooney summoned 29 teachers as witnesses, and Mrs. Bardwell 13, making a total of 42.
2. Out of these 42 witnesses, 6 were detained from their respective schools for about 2 days, 4 for 1 day, 6 for half a day, and the remainder for periods ranging from a quarter of an hour to an hour and a-half.
3. The inconvenience that arose from the withdrawal of teachers was that a number of schools had to be conducted with insufficient teaching staffs. With the exception of Mr. Cameron and Miss Moir, I think Mr. Rooney and Mrs. Bardwell had reasonable ground for believing that the witnesses called by them could give material evidence."

9. The papers follow those connected with the Crown-street case.

W. WILKINS,  
Under Secretary.

4th August, 1881.

COPIES of all Evidence taken at the Inquiry into the Management of the Crown-street Superior Public School; and also copies of Charges made against the Mistress, Mrs. Bardwell, before Inspectors Johnson and Morris. Also copies of all Minutes, Reports, &c., thereon; and also any Charges, of whatsoever nature or character, made against Mrs. Bardwell.

No. 1.

Mrs. Bardwell to The Minister of Public Instruction.

Sir,

Public School, Crown-street, 26 May, 1881.

I have the honor to forward herewith a copy of memorandum received from Mr. Inspector Morris, giving a list of charges preferred against me by Mr. Rooney, the Head Master of this school, and directing me to attend an inquiry into the same on Saturday next.

2. In reference to this matter I beg to request that a copy of the Head Master's charges in detail be supplied me, the statement of them furnished by the Inspector being couched in such general terms that it is impossible to answer them except by an equally general denial of their truth.

3. As an inquiry is to be held into these accusations, I further request that the following charges which I now prefer against the Head Master be investigated at the same time.

4. In the first place, my authority as Head of the Department has been endangered, and my capacity for managing the school disturbed by the conduct of the Head Master, who, by discourtesy to me, by inuendo and disparagement of me to teachers under my direction, has striven to induce a feeling of discontent in their minds, and to lead them to acts of disobedience and disrespect towards me.

5. Further, by allowing such conduct to continue and to take place in his presence, without reprimand to the teacher offending, or report to the Inspector, although requested by me to report it, and by recommending most highly a pupil-teacher guilty of such conduct, he has endeavoured to inflict a greater injury.

6. The Head Master has by a similar course of conduct endeavoured to destroy my reputation as a teacher, to prevent the school from attaining a high character for efficiency, and to thwart my endeavours to maintain its harmony and discipline.

7. On one occasion, when some correspondence passed between us on this subject, and when he entreated me, with tears, to be forgiven for his persecutions of me, he acknowledged he was prompted by a desire to please another officer in the service, hostile to me, and respecting whom young teachers have been given to understand that by acting cordially and faithfully with me they will lose the good will of that officer, who, it is said, possesses the power and opportunity of having classifications awarded; while they will secure his powerful influence if they treat me with disrespect and fail to carry out my wishes.

8. The Head Master has violated the regulations by refusing to suspend girls guilty of theft, by receiving and inquiring into written complaints against me from a refractory pupil-teacher, by prompting parents to discontent of the school discipline, and by interfering with the teaching and management of my department, contrary to the printed instructions to principal teachers.

9. In justice to myself I must respectfully request that the inquiry be deferred till Wednesday, the 1st June proximo, and that the Chief Inspector, E. Johnson, Esq., may be appointed to investigate the charges. This I ask, because Mr. Rooney has told me "There are three Inspectors prepared to be against you," and I have reasons to fear that his representations have created in their minds a prejudice against me.

10. I also beg to be apprised of the hour at which the inquiry will take place, and whether I shall be allowed to call witnesses.

11. As a last request, I beg that a gentleman may be permitted on my behalf to attend the inquiry and render me such assistance as I may need; for it will be obvious that a lady must be placed at a serious disadvantage in having to cross-examine witnesses and otherwise arrange for the defence when gentlemen are opposed to her.

I have, &c.,

S. M. BARDWELL.

*Copy of Mr. Inspector Morris's letter.*

Mrs. Bardwell,—The following charges have been preferred against you by the Head Master of Crown-street Superior Public School:—

- I. Violating the regulations.
- II. Not attending to instructions.
- III. Instigating subordinate teachers to disobey the Chief Inspector and the Head Master
- IV. Absenting yourself from duty.
- V. General bad management of the girls' department.

I purpose holding an inquiry at Crown-street School next Saturday at 9.30.

Will you please attend at that hour.

R. N. MORRIS,  
Inspector.

21/5/81.

No. 2.

## No. 2.

## Minute by Minister of Public Instruction.

THE request of Mrs. Bardwell, for delay until 1st June, to be complied with.

In view of the mode of exhibition by Mr. Morris of the charges against Mrs. Bardwell, I cannot but arrive at the conclusion that a decision of his alone could scarcely be satisfactory. Mr. Johnson should himself join in the inquiry as Chief.

As to a gentleman being present in the interest of Mrs. Bardwell, under the special circumstances it may be allowed.

Mr. Morris and Mr. Rooney to be informed of my decision on the whole matter.—JOHN R.

## No. 7.

## Mrs. Bardwell to The Minister of Public Instruction.

Sir,

"Nandamanu House," Ocean-street, Woollahra, 11 June, 1881.

I have the honor to request that directions may be given the Chief Inspector to bring to a speedy termination the inquiry into charges preferred against me by Mr. Rooney.

It is now eleven days since the inquiry began, and my health has been seriously affected by its unnecessary protraction, by the strain upon my nerves, and by seeing my witnesses overawed by the great number of teachers whom Mr. Rooney has had summoned from various schools in Sydney and suburbs, and even from Newcastle district. These teachers, while waiting on Mr. Rooney, play at rounders and skipping-ropes; and when the question was asked in the Court how could they be spared from their duties, and what might be the expense to the State of keeping them so long in idleness, Mr. Rooney's reply was, as near as possible, as follows:—"The expense is nothing to the State, and it matters not what it may be to Mrs. Bardwell."

I have been compelled to engage a solicitor to assist me in my defence, and I am, thereby, put to an expense greatly beyond my means. There is every probability that the inquiry will cost me more than a hundred pounds, and whatever may be the result as between myself and my accuser, one of its effects will be pecuniary ruin to me.

I have, &amp;c.,

S. M. BARDWELL.

*Minute by Minister of Public Instruction.*

I feel sure that the Chief Inspector will not allow unnecessary delay to take place. The expense and loss of time to the Service, irrespective of that of Mr. Rooney and the illness of Mrs. Bardwell, should prevent that occurring. Eleven days would seem long enough to elucidate a far more complicated matter than the quarrel between two teachers can be.—JOHN R.

## No. 8.

## Report by Messrs. Johnson and Morris.

*Report on inquiry into charges preferred by Mr. J. Rooney, Head Master of Crown-street Superior Public School, against Mrs. S. M. Bardwell, Head Mistress of the same.*

IN accordance with the Minister's instructions we held an inquiry into the charges preferred by Mr. J. Rooney, Head Master of Crown-street Superior Public School, against Mrs. S. M. Bardwell, Head Mistress of the same, on 1st June and following days.

The minutes of evidence taken in the case are forwarded herewith.

During the inquiry Mrs. Bardwell had the assistance of Mr. Heydon, solicitor; Mr. Rooney was made aware that he could avail himself of similar aid, but declined to take advantage of the privilege.

The Honorable John Davis, M.P., was present at various times during the inquiry.

The charges preferred against Mrs. Bardwell were as follows:—

- I. Violating the Regulations.
- II. Not attending to Instructions.
- III. Instigating subordinate teachers to disobey Head Master.
- IV. Absenting herself from duty.
- V. Her general bad management of Girls' Department.

CHARGE I.—*Violating the Regulations.*

In support of this charge it was alleged,—

1. That Mrs. Bardwell had admitted pupils in excess of the number allowed to be enrolled.
2. That she had refused to sign her time when leaving school during school hours.
3. That she had neglected to record entries in the Punishment Book.
4. That she had neglected to keep the Admission Register posted up.

Of these allegations, 1 and 2 refer to matters falling under the Head Master's jurisdiction; 3 and 4 do not, but come more properly within the cognizance of the Inspector.

The evidence adduced in support of allegations 1 and 2 tends to prove that Mrs. Bardwell did admit certain pupils, but that at the times of their admission there was ample room for them. The evidence also proves that Mrs. Bardwell absented herself from school at various times; but that on all such occasions, except one, she acquainted the Head Master beforehand with her intended absence. The evidence fails to prove that Mrs. Bardwell, when leaving school during school hours, refused to sign her time in the Time Book; it simply establishes the fact that she neglected to sign her time on those occasions, but that she did this at one period with the express sanction of the Head Master.

Mr. Rooney in charging Mrs. Bardwell with violating the regulations goes too far. It is not proved that she violated any regulation. At most she was guilty of certain irregularities which it was Mr. Rooney's duty to set right at the time they occurred.

We are therefore of opinion that Mr. Rooney has failed to sustain charge I.

CHARGE II.—*Not attending to Instructions.*

In support of this charge it was alleged,—

1. That on one occasion Mrs. Bardwell had neglected to furnish certain necessary information on the back of a memorandum addressed to her by Mr. Rooney.
2. That she had employed two pupils, who had passed the examination prescribed for the office of pupil teacher, to teach classes.

The first allegation was inquired into and dealt with early in the year by Mr. Inspector Dwyer; it was hardly fair, therefore, in Mr. Rooney to bring it forward a second time. The second allegation, although admitted

admitted as correct by Mrs. Bardwell, refers to a matter not properly falling under Mr. Rooney's jurisdiction. But if both allegations were founded on recent breaches of school discipline that fairly came within Mr. Rooney's cognizance, they would not in themselves constitute sufficient grounds whereon to base a general charge of "not attending to instructions."

We are of opinion, therefore, that Mr. Rooney has failed to sustain charge II.

CHARGE III.—*Instigating Subordinate Teachers to disobey Head Master.*

This charge is founded on an incident that occurred on 2nd May last. It would appear that about that time two lady teachers, who filled the position of supernumeraries in the department under the charge of Mrs. Bardwell, received instructions from the Chief Inspector to proceed to other schools, where their services were urgently required. Mr. Rooney was, in accordance with the usual practice, also informed of the removal of these teachers. It does not appear, however, that he communicated this information to Mrs. Bardwell, although it is tolerably clear from the evidence of Misses McLimont and Bates that she was made aware that these ladies had been transferred from her department to other schools. Mrs. Bardwell, acting on a promise, alleged to have been given her by the Under Secretary, to the effect that these two teachers should not be withdrawn from her school until they received their country appointments, declined to let them go until she had seen the Under Secretary. Hence Mr. Rooney's present charge.

Although the evidence tends to show that Mrs. Bardwell's action prevented Misses Bates and McLimont from carrying out for a time the Chief Inspector's instructions, it fails to prove that she instigated them to disobey the Head Master. Mrs. Bardwell probably acted indiscreetly in the matter; but, then, Mr. Rooney failed in his duty in not acquainting her with the purport of the communication received by him from the Chief Inspector.

We are of opinion that the facts elicited by the evidence fail to establish charge III.

CHARGE IV.—*Absenting herself from duty.*

This charge has reference to Mrs. Bardwell's absence from duty on 4th May last. It would appear that she was absent from duty through illness on that date, but that she subsequently explained her absence to the satisfaction of the Inspector. She did not, however, formally apply for leave through Mr. Rooney. Hence the present charge.

We consider the charge a frivolous one, and that it should not have been brought forward on the present occasion.

CHARGE V.—*Her general bad management of the Girls' Department.*

In support of this charge it was attempted to be shown:—

1. That Mrs. Bardwell's general treatment of the teachers under her was harsh and unladylike.
2. That the pupils of her department behaved in a rude and disorderly manner in the playground.
3. That the girls' outhouses were not properly supervised.
4. That Mrs. Bardwell was in the habit of referring to the Examiners, Inspectors, and other officers of the department in disparaging terms when conversing with her subordinates.

The evidence adduced at the inquiry merely establishes the following points:—

1. That Mrs. Bardwell has not been successful in gaining the sympathy and cordial co-operation of the teachers associated with her in the work of instruction, she having had differences with ten or more of them, including the heads of the Boys' and Infants' Departments, since her appointment to her present office in May, 1880.
2. That the arrangements in force for the proper supervision of the playground were defective, and that the rude and disorderly conduct of the girls at play-time, complained of by several of the witnesses, arose from this cause.
3. That she has spoken in unbecoming terms of Mr. Rooney and another officer.

We are of opinion, however, that the evidence fails to prove the main charge—that the general management of the Girls' Department is bad.

Upon a review of the whole of the evidence given in the case, it does not appear to us that Mr. Rooney has succeeded in fully establishing any of his charges against Mrs. Bardwell. Enough, however, is disclosed in the evidence to show that the relations subsisting for some time past between Mrs. Bardwell and Mr. Rooney are not such as should exist between the heads of one of the largest and most important Public Schools of the Colony, but are eminently calculated to impair its efficiency and usefulness and lower it in public estimation. We consider both teachers to blame. Mrs. Bardwell has been unnecessarily suspicious of the loyalty of the teachers associated with her in the work of her department, and this has led to a good deal of unpleasantness and to accusations against her of being harsh and unladylike. Mr. Rooney, on the other hand, does not appear to have afforded her as much sympathy and support as the circumstances of her position fairly entitled her to. Both have been too eager to make much of small differences that should have been quietly and amicably settled between themselves, and both have been guilty of the folly—Mr. Rooney especially—of making their petty quarrels the ground of an investigation that has tended to demoralize one of our leading Public Schools and to interfere for a time with the work of more than one branch of the department.

We therefore recommend,—

1. That Mr. Rooney and Mrs. Bardwell be removed from their present positions and placed in charge of departments in different schools.
2. That they be admonished as to their future conduct in the Service.

E. JOHNSON,  
R. N. MORRIS.

Sydney, 28th June, 1880.

No. 8A.

## Minute by Minister of Public Instruction.

HAVING considered this report, &c., I desire to say that it appears to me that the complaint as to the management of the Superior Girls' School, Crown-street, relates to matters with which it is the especial province of the Inspector to deal, and in which interference of the acting Head Master was wholly uncalled for. That complaint, therefore, not being properly before me, and everything appertaining to it, should be excluded from the record of the proceedings. The remaining complaints are of such a nature as would, under ordinary circumstances, be settled by the Inspector, inasmuch as they refer to matters of school and departmental discipline. Seeing that they are comparatively unimportant in themselves, and that, in the judgment of the Chief Inspector and his Assistant, they have not been substantiated, the acting Head Master must be held responsible for the waste of time and derangement of school business—extending to many schools—occasioned by the inquiry he was the means of originating. In view of these facts, I am of opinion that Mr. Rooney should be removed to another school, and be cautioned as to his future conduct, and as to the apparent unnecessary indelicacy of his allusion, in a communication to Mrs. Bardwell, to filth on the seats of the water-closet of the girls—unnecessary, as I understand that the proper care and cleansing of the water-closet was entrusted to a woman hired and paid by him, and under his control.

Mrs. Bardwell is to be exonerated from blame on account of these complaints, and as it appears she desires to be removed to such a position, the first vacancy in a Superior School for Girls in Sydney may be offered to her.

JOHN R.

## The Chief Inspector to Mr. J. P. Rooney.

Department of Public Instruction, Sydney, 9 August, 1881.

Memorandum to J. P. Rooney, Esq., Public School, Crown-street.

*Your recent complaints against Mrs. Bardwell, Mistress of Girls' Department.*

THE Minister has had under notice the report submitted by myself and Mr. Inspector Morris upon the inquiry into the complaints preferred by you against Mrs. Bardwell, Mistress of the Girls' Department of the above school.

Sir John Robertson is of opinion that the complaint as to the management of the Girls' Department relates to matters with which it is the especial province of the Inspector to deal, and in which your interference was wholly uncalled for; and that the remaining complaints are of such a nature as would, under ordinary circumstances, be settled by the Inspector, inasmuch as they refer to matters of school and departmental discipline. As the latter in themselves are comparatively unimportant, and as they have not been substantiated, Sir John considers that you must be held responsible for the waste of time and derangement of school business—extending to many schools—occasioned by the inquiry you were the means of originating. In view of these facts, he has decided to remove you to another school; and has instructed me to caution you with respect to your future conduct. I have also to convey to you an expression of his disapproval of the indelicacy of your apparently unnecessary allusion in a communication to Mrs. Bardwell, to filth in the water-closet of the Girls' School.

E. JOHNSON,  
Chief Inspector.

## The Chief Inspector to Mrs. Bardwell.

Department of Public Instruction, Sydney, 9 August, 1881.

Memorandum to Mrs. Bardwell, Girls' Department, Public School, Crown-street.

*Mr. J. P. Rooney's complaints against you.*

HAVING had under consideration the report submitted by myself and Mr. Inspector Morris upon the inquiry into the complaints preferred by Mr. J. P. Rooney against you as Mistress of the Girls' Department of the above school, Sir John Robertson is of opinion that you should be exonerated from blame on account of these complaints.

E. JOHNSON,  
Chief Inspector.

## The Chief Inspector to District Inspector M'Creddie.

Crown-street: Inquiry into charges preferred by Head Master against Mrs. Bardwell, Mistress of Girls' Department. Report furnished by Inspector Morris and myself.

Department of Public Instruction, Sydney, 11 August, 1881.

HEREWITH is forwarded for your information a copy of a letter addressed to Mr. J. P. Rooney, conveying to him the decision arrived at by the Minister in the matter of his charges against Mrs. Bardwell, Mistress of the Girls' Department of the above school.

Mrs. Bardwell has been informed that Sir John Robertson is of opinion that she should be exonerated from blame on account of these complaints.

E. JOHNSON,  
Chief Inspector.

## No. 9.

## Report by Messrs. Johnson and Morris.

*Report on Inquiry into charges preferred by Mrs. S. M. Bardwell, Head Mistress of Crown-street Superior Public School, against Mr. J. P. Rooney, Head Master of the same.*

At the close of the inquiry into the charges preferred by Mr. Rooney against Mrs. Bardwell, an investigation was held into certain charges preferred by Mrs. Bardwell against Mr. Rooney. These charges are as follows:—

- I. That Mrs. Bardwell's authority as head of a department has been endangered, and her capacity for managing the school disturbed by the conduct of the Head Master.
- II. That the Head Master failed to reprimand or report a pupil teacher guilty of misconduct towards the Head Mistress, but recommended such pupil teacher highly.
- III. That he had endeavoured to destroy the Head Mistress' reputation as a teacher, to prevent her school from obtaining a high character for efficiency, and to thwart her efforts to maintain its harmony and discipline.
- IV. That he had acknowledged to Mrs. Bardwell that he was prompted to persecute her by a desire to please another officer in the service.
- V. That he had received and inquired into written complaints from a refractory pupil teacher, had prompted parents to discontent, and interfered with the teaching and management of the Girls' Department.

Before entering on the inquiry, Mr. Rooney objected to Mrs. Bardwell being allowed the services of a lawyer to prosecute him. The Court, after due consideration, decided not to prohibit Mrs. Bardwell from continuing to have the services of Mr. Heydon. Thereupon Mr. Rooney put in a protest, marked A.

Mr. Rooney next objected to the vagueness of the charges. The Court overruled the objection on the ground that it was made too late.

**CHARGE I.**—*That Mrs. Bardwell's authority as Head of a Department has been endangered, and her capacity for managing the school disturbed by the conduct of the Head Master.*

This charge was made to rest on the following allegations:—

1. That Mr. Rooney had on two occasions taken visitors into the Girls' Department without introducing them to the Head Mistress.
2. That on one occasion he had withdrawn a pupil from the school.
3. That on another occasion he remarked to Mrs. Bardwell that the school records of the department should be at his hand when he wanted them.
4. That at another time he told her to give up her class to the First Assistant, as it was her duty to wait on him and the public.

With respect to allegation 1, it would appear that Mr. Rooney did on one occasion take visitors into the girls' school without introducing them to the head mistress, but his explanation of the circumstances is that one of these visitors, Mr. Plunkett, was a former assistant in the school and known to Mrs. Bardwell, and that he (Mr. Rooney) left the visitors in Mr. Plunkett's charge. The incident of withdrawing a pupil from the school (allegation 2) is fully explained by the pupil herself, Miss Solomon, in her evidence (page 10, of Minutes of Evidence), and by the correspondence marked T and V, put in by Mr. Rooney. Mr. Rooney's remark respecting the proper place for the school records (allegation 3) was made in connection with the previous incident. He endeavours to justify the use of the observation on the ground that the Punishment Book was not in its proper place, and Mrs. Bardwell would not get it for him. In our opinion, however, he was not warranted in addressing the head of a department in such terms in the presence of one of the subordinates, much less was he justified in adopting the style of language towards her described in allegation 4.

But, granting that all four allegations are true, they do not constitute grounds whereon to base a charge of the character of that preferred against the head master by Mrs. Bardwell.

We are of opinion, therefore, that charge I is not sustained.

**CHARGE II.**—*Failing to reprimand or report a pupil-teacher guilty of misconduct towards the Head Mistress, but recommending such pupil-teacher highly.*

Two witnesses were called in support of this charge. Their evidence, while not sufficiently conclusive to sustain the charge as a whole, favours the presumption that Mr. Rooney failed to do his duty in the matter. It was not shown that Mr. Rooney went out of his way to recommend the pupil-teacher; nevertheless, it was made clear that he neglected to report her misconduct to the proper officer.

**CHARGE III.**—*Has endeavoured to destroy Head Mistress' reputation as a teacher, to prevent the school from attaining a high character for efficiency, and to thwart the efforts to maintain its harmony and discipline.*

In support of this charge, four witnesses were called. Their evidence, however, conclusively proves that Mr. Rooney has done nothing to disparage Mrs. Bardwell, to prevent her school from attaining a high character for efficiency, or to thwart her efforts to maintain its harmony and discipline.

In our opinion the charge is unfounded.

**CHARGE IV.**—*Mr. Rooney acknowledged to Mrs. Bardwell that he was prompted to persecute her by a desire to please another officer in the Service.*

The proof of this charge rests entirely on the evidence of the two Misses Sullivan. Both maintain in their evidence that Mr. Rooney stated to one sister, in the hearing of the other, that "he was determined not to be other people's tool any longer." Mr. Rooney, in his written statement accompanying this report, does not deny having used some such words as those imputed to him, but he endeavours to show that, taken in connection with other words used at the same time, an unfair construction has been put on them. His explanation is a very plausible one, but has this one serious weakness—that it makes him sanction the commission of an irregularity which he had formerly and rightly condemned.

The evidence is, in our opinion, not sufficiently conclusive to fully establish the charge.

CHARGE

CHARGE V.—*Head Master has received and inquired into written complaints from a refractory pupil-teacher, has prompted parents to discontent, and interfered with the teaching and management of the girls' department.*

The evidence adduced fails to substantiate this charge.

Reviewing the whole of the case, it would appear that while the evidence fails wholly to sustain charges 1, 3, and 5, it establishes in part charge 2, and raises a presumption of the truth of charge 4.

Upon a careful consideration of this case, in conjunction with the one already reported on by us, we would repeat our recommendations, namely :—

1. That Mr. Rooney and Mrs. Bardwell be removed from their present positions, and placed in charge of departments in different schools.
2. That they be admonished as to their future conduct in the Service.

Sydney, 29 June, 1881.

E. JOHNSON.  
R. N. MORRIS.

## No. 10.

### Mrs. Bardwell to The Minister of Public Instruction.

Sir,

Nandamanu House, Ocean-street, Woollahra, 5 July, 1881.

In reference to the inquiry which has lately taken place at the Crown-street Public School, regarding myself, I have the honor to request permission to lay before you a few observations upon the merits of the case, as distinguished from what may be considered its legal aspect. And I am emboldened to prefer this request on the ground that the practice usual in the Government Service when charges are preferred against an officer, was not followed on this occasion, and that no opportunity was afforded me of offering explanation, or of making statements in self-justification prior to the holding of the inquiry. Had the usual and reasonable course been pursued, the Inspector charged with the inquiry would have learned somewhat of both sides of the case, and would not have fallen into the mistake of acting on an *ex parte* statement, while, at the same time, he could have determined whether some of the charges were properly before him, or whether they were not, in fact, such as it was not competent for my accuser to prefer. It is even possible that he might have come to the conclusion that there was no necessity for an inquiry at all.

2. I am unable to disconnect this first act of injustice from the subsequent proceedings. Before I was even aware that charges existed, they had been lodged, the time for inquiry fixed, the witnesses summoned, and their respective parts assigned to each. Such an arrangement, admirably adapted to compass the ruin of an opponent, was not at all calculated to elicit the honest truth, or to vindicate the discipline of the school, which, it was assumed, I had violated. The credit of devising this scheme must undoubtedly be awarded to Mr. Rooney and his adviser, my persistent enemy; but it seems impossible to acquit others of complicity therein. On what ground, for instance, was the youngest and least experienced Inspector in the Service selected to conduct the inquiry, unless it be the fact that he is the intimate friend and, it is even alleged, the pupil of Mr. Rooney? Further, so great was the eagerness to surprise and crush me, that not only was the obvious consideration to which I was entitled overlooked, but the ordinary courtesies of official procedure omitted. The Inspector was induced to summon to the inquiry teachers who were not under his jurisdiction, and also to withdraw students from the Training School under the Examiner's supervision, without the consent or knowledge of that officer. Again, complaints made by me, anterior to Mr. Rooney's, and requiring prompt action on the part of the Inspector, were held over, and even now have not been inquired into and reported upon. In short, the earlier proceedings are intelligible only on the supposition that my condemnation was a foregone conclusion. The animus displayed by Mr. Rooney throughout the inquiry corroborates this view.

3. In the next place, I beg to point out that such of the charges as had not already been dealt with, were either frivolous, or inadmissible on the ground that my accuser had no standing in relation to them. In his desire to prove me guilty, Mr. Rooney had gone back to events which had occurred four, five, and even nine months before; he revived matters already inquired into and disposed of by competent authority, and he had restated errors long ago corrected as soon as pointed out. While these facts evince his animus towards me, they are unimportant as compared with the serious injustice of some others among his proceedings. For example, by constituting himself the complainant on behalf of a number of assistant teachers, whom, in the performance of my duty, I had been compelled to reprove, and who, for the most part, had months since left the school, he is enabled to produce them as witnesses, and by this trick, shallow and transparent as it is, he, though having no right to appear as a party in the case, is enabled to bring charges, while the real complainants, if such they wished to be, come forward as witnesses in what is virtually their own cause. I submit that such a proceeding is wholly unprecedented in the Government Service, that in a court of law it could find no place, and that under such circumstances this part of the case against me should not have been heard.

4. Again, in charging me with incapacity, Mr. Rooney stepped out of his proper place and assumed that of an Inspector. Moreover, he brought forward as witnesses young and inexperienced assistants and pupil teachers who could have no certain means of forming a judgment, even if they possessed the necessary knowledge, and who, moreover, were to some extent interested parties. If my superiors had any reason to doubt my competency, the obvious, easy, and regular course would be to hold an inspection of the school, the result of which would have decided the question beyond dispute. In that event I could have no ground for regarding myself as hardly used; but the course taken seems to partake strongly of the nature of a denial of justice, such as could happen in no other branch of the Public Service. Should, for example, a surveyor be accused of incompetency, the proofs of his want of ability would not be obtained from young cadets learning the business of surveying or from his chainmen. The district surveyor or the Surveyor General himself would inquire into the matter, and decide in virtue of his superior professional knowledge and position. To judge of professional fitness on the evidence of tyros in that profession could probably occur only in connection with teaching; the absurdity would be too palpable in any other business whatever. Having regard to these facts, I feel that the charges which call in question my capacity for managing a school should not have been entertained, or that if received at all they should simply have been referred to the Inspector.

5. There is one other point upon which I desire to offer a remark—if, in a court of law, where witnesses are on their oath, importance is attached to their demeanour as an indication of the reliability or otherwise of their evidence, much more is it necessary to take their appearance and conduct into account when they make statements under no restraints except such as their own consciences impose. Tried by this test it will be found that the young teachers who were arrayed against me exhibited such feeling as proved them to be most unreliable witnesses. The exaggerated, and even ludicrous marks of respect accorded to Mr. Rooney, and the covert insolence displayed towards myself,—the evident belief in their minds that his was the winning, mine the losing side; and the consciousness of sure and powerful support if their evidence was damaging to me, while as a stranger to the charmed circle of teachers who could command such influence, I was certain to be condemned—were all significant tokens of the extent to which they were expected to testify in his favour and to my disparagement. Add to these conclusions the facts proved against Mr. Rooney, that he had openly encouraged young teachers to resist my authority and disregard my directions in order that the wishes of my former enemy, Mr. Wright, might be carried out, and the prospects of obtaining evidence on my behalf are reduced almost to zero. Reviewing all these circumstances I trust I shall not be deemed unreasonable if I request that the evidence taken upon the charge of general bad management be expunged from the record of the inquiry, and the charge itself be held to be improperly laid.

I have, &c.,

S. M. BARDWELL.

No. 11.

Minutes of Evidence taken in an Inquiry into Charges preferred by Mr. J. Rooney, Head Master of Crown-street Public School, against Mrs. S. M. Bardwell, Head Mistress of the same.

CHARGE I.—*Violating the Regulations.*

(a) *Admitting pupils in excess of the number allowed to be enrolled.*

To this charge Mrs. Bardwell through her solicitor (Mr. Heydon) pleaded not guilty.

*Mr. Rooney* deposed as follows: In support of this complaint I beg to hand in a letter marked X, dated 29th June, 1880, signed by J. M'Creddie, District Inspector, in which the number of pupils to be admitted to the Girls' Department is limited to 400; in January last Mrs. Bardwell refused to admit two girls named M'Donnell; since then she has admitted twenty pupils; on 2nd May, ascertaining that she had admitted some girls (11), I sent her my memo. marked A. calling attention to the irregularity; notwithstanding this, she admitted three on the 3rd May and five on the 9th May.

*Examined by Mr. Heydon:* I became Head Master on 23rd August, 1880; I was aware of the existence of the order in question when I took charge; I do not know whether I have discretion to set aside that order; there was never more than 400 girls enrolled in any one week during last quarter; I never gave Mrs. Bardwell permission to exceed that number in any one week; her answer to my inquiry on the morning of 2nd May was verbally, that she had received instructions of a different character from the office.

Since 20th May I have received intimation that the number of pupils attending the Girls' Department may exceed 400.

JOHN P. ROONEY.

Miss Mary Sullivan, about 33 years, 1st assistant in the Girls' Department.

For the March quarter there was an aggregate enrolment of 501 and an average attendance of 356. The school affords accommodation for 500 children. There was accommodation for that number on 2nd May. Mr. Rooney was aware of the fact.

*To Mr. Rooney:* There was fine weather during the March quarter. The number of girls enrolled during any week has, to my knowledge, exceeded 400. It has never exceeded 405.

MARY SULLIVAN.

(b) *Refusing to sign her time when leaving school during school hours.*

*Mr. Rooney* deposed as follows: I have the school time-book in my hands; I find on looking into it that Mrs. Bardwell absented herself from school duties on 14th, 15th, 20th, 21st December last; on 19th, 21st, 24th, 25th, 27th January; on 1st, 2nd February; I did not continue to mark her time after the last date, because at that time I had made out a report against Mrs. Bardwell, which I did not send in.

*To Mr. Heydon:* I have not told Mrs. Bardwell that she need not mark her time when leaving school during school hours; on every occasion except one she has left the school premises with my knowledge, and on that occasion I was aware she visited the Public Instruction Office.

JOHN P. ROONEY.

Miss Eliza Hall, 27 years, 2nd assistant, called by Mr. Rooney.

*To Mr. Rooney:* I have known Mrs. Bardwell to be absent from school during school hours; I have known her to be absent on more than one day in a week; I do not know how often Mrs. Bardwell was absent during the Anniversary week; as a rule, she is away for an hour and a-quarter on occasions of her absence.

ELIZA C. HALL.

Miss Sarah Thomson, 17 years, pupil-teacher, called by Mr. Rooney.

*To Mr. Rooney:* I have known Mrs. Bardwell to be away from school during school hours; she was frequently away before Christmas, but not since; she was usually absent for an hour and a-quarter at a time; she has been away as much as three hours at a time.

*To Mr. Heydon:* Her lengthened absence occurred within the last fortnight; Mr. Rooney has not spoken to me about the matter before; I have had a misunderstanding with Mrs. Bardwell; Mr. Rooney has never had any conversation with me about Mrs. Bardwell.

SARAH H. THOMSON.

(c) *Mrs. Bardwell neglects to record entries in Punishment Book.*  
I admit the truthfulness of this complaint.

S. M. BARDWELL

(d) *Her neglect to keep Admission Register posted up.*  
Ruled by Court to be inadmissible.

CHARGE II.—*Not attending to instructions.*

*Mr. Rooney* deposed : (a) On the 19th January last I requested Mrs. Bardwell to state on a memorandum, addressed to her by me, the arrangements made for the performance of pupil teacher Thomson's duties during the absence of the latter ; Mrs. Bardwell returned my memorandum without the required statement.

*To Mr. Heydon* : Mrs. Bardwell did not inform me verbally of any arrangement made for the performance of her duties ; I reported Miss Thomson's absence ; I used my own discretion as to the time at which I reported Mrs. Bardwell. The matter was reported to Mr. Inspector Dwyer on 19th January last.

JOHN P. ROONEY.

(b) *Employing girls—pupils—as Teachers.*

I admit having employed Constance Taylor and Lily Lamond, pupils, who had passed the examination prescribed for applicants for the office of pupil teacher, to teach classes.

S. M. BARDWELL

*Mr. Rooney to Mr. Heydon* : I have not employed a boy to teach ; Mrs. Bardwell informed me that one of these girls, Constance Taylor, had passed for the office of pupil teacher.

JOHN P. ROONEY.

CHARGE III.—*Instigating subordinate Teachers to disobey Head Master.*

*Mr. Rooney* deposed as follows : I was informed in a memo. from the Chief Inspector, dated 30th April, that Misses Bates and M'Limont had been removed from Crown-street School to teach elsewhere ; these ladies had also received a similar intimation ; on 2nd May they informed me that Mrs. Bardwell had ordered them to remain at Crown-street ; Miss M'Limont asked me for advice, and I recommended her to obey the Chief Inspector's instructions and go to Redfern School ; soon after Mrs. Bardwell, in a most violent manner, attacked me in the presence of my school, saying, "Did you say you would report Miss M'Limont ?" I replied, "No ; but the Head Master of the Redfern School will most probably report her for non-attendance, and I will report her for disobedience." Mrs. Bardwell said, "I will go down at once and report you, and compel Miss M'Limont to be a witness against you ;" she left the premises, and after some time returned and exhibited to these teachers a note which, she said, was given to her by Mr. Wilkins, and which stated they might remain ; this note, or the purport of it, was not made known to me by Mrs. Bardwell ; Miss M'Limont, addressing Mrs. Bardwell, said, "I think my proper course is to go to Redfern ;" Mrs. Bardwell replied, "Why are you wavering ; do you dare to defy the Under Secretary and myself and obey that man downstairs in preference." Miss M'Limont then asked Mrs. Bardwell to go down to see the Under Secretary and the Chief Inspector ; Mrs. Bardwell refused ; they informed me after school that they (Misses Bates and M'Limont) were in terror of Mrs. Bardwell, who said she would get them into trouble if they left ; Mrs. Bardwell allowed her temper to display itself against Miss M'Limont in front of the assembled pupils ; on the next morning Miss Bates saw Mr. Wilkins, who, after being informed of the matter, advised her to return to Crown-street and he would see it would be all right ; Mrs. Bardwell told her that her going to Mr. Wilkins was the worst day's work she had ever done ; on the 10th, about 12:30 p.m., on Mrs. Bardwell's return to the school (she had been away), she sent for Miss Bates and told her to go away, saying, "Never let me see your face in this school again."

*To Mr. Heydon* : I was not present when the young ladies told Mrs. Bardwell of the letters they had received ; she was not present when they told me on 2nd May that she had ordered them to remain at Crown-street ; she was not present when Miss M'Limont asked me for advice ; I was not present when she exhibited a note said to be from Mr. Wilkins, nor when Miss M'Limont said she thought she ought to go to Redfern, nor when Mrs. Bardwell replied, nor when Miss M'Limont asked to go and see the Under Secretary and the Chief Inspector, nor when Mrs. Bardwell ordered them not to leave the school ; I was not present when Mrs. Bardwell's temper displayed itself, nor when she told Miss Bates that her going to Mr. Wilkins was the worst day's work she ever did ; I did not show the official letter received from the Chief Inspector to Mrs. Bardwell, but I instructed Misses Bates and M'Limont to inform Mrs. Bardwell of their removal ; I did not specifically tell them to show their letters ; in ten minutes after that I told Mrs. Bardwell that I should probably get into trouble if I neglected to point out to them their duty in the circumstances ; if Mrs. Bardwell was in doubt about her duty in the matter she should have gone to the proper authority for instructions, namely, the Inspector, under whose supervision the school is.

JOHN P. ROONEY.

Mary M'Limont, 19 years, Assistant Teacher, Redfern Public School.

*To Mr. Rooney* : I received a letter from the Chief Inspector, instructing me to go to Redfern ; I showed Mrs. Bardwell the letter ; when I came to you to ask advice you said "go at once and obey the Chief Inspector's instructions" ; Mrs. Bardwell had previously told me not to go ; when I informed her that you had advised me to go she said if I disobeyed her I should get into trouble ; Mrs. Bardwell came back from the office, and showed me a note signed by Mr. Wilkins, saying that I and Miss Bates might remain till further notice ; I still thought I ought to go to Redfern ; she saw me wavering, and then said to me "Do you still dare to disobey Mr. Wilkins and myself, and obey that man downstairs" ; I then asked Mrs. Bardwell if I might go to the office ; she refused to let me go ; she displayed bad temper towards me in the presence of the girls assembled on the playground ; she closed her fist in my face, and said that

Mr.

Mr. Rooney had denied telling me to go to Redfern ; Mr. Wilkins telegraphed to Mr. Watts, Head Master of Redfern School, to direct me to attend at his office alone ; Mr. Wilkins asked me why I had disobeyed his instructions ? Why I had boasted that I had defied him, and had right on my side ? He directed me to reply in writing ; he has not communicated with me on the matter since.

*To Mr. Heydon :* Mr. Wilkins fully endorsed the note received by Mrs. Bardwell ; I believe Mrs. Bardwell read the letter from the Chief Inspector ; I am not engaged to Mr. Rooney's son ; I only know Mr. Rooney ; I do not know his family.

MARY M'LIMONT.

Miss Mary Anne Bates, 21 years, Assistant, St. Leonards Public School.

*To Mr. Rooney :* I disobeyed the Chief Inspector's instructions to proceed to St. Leonards because Mrs. Bardwell told me to remain at Crown-street till she went to the office ; I disobeyed your directions also at the same time ; I was induced to do this from what Mrs. Bardwell said ; on the next morning, I went over to the office to see Mr. Wilkins ; he told me to return to Crown-street ; he said he thought Mrs. Bardwell would be angry with me for coming to see him after she had already shown me his note to her ; when I returned from the office, Mrs. Bardwell said it was the worst day's work I had ever done, and I would get into trouble for it ; she scolded me before the girls ; she spoke spitefully of Miss M'Limont ; I told her Miss M'Limont had not stated she would go to Redfern school in defiance of Mr. Wilkins ; I remained at Crown-street after that till 10th May ; Mrs. Bardwell said if I remained she would see Mr. Wilkins about getting for me the same salary as I was to receive at St. Leonards ; Mrs. Bardwell directed me on 10th May to leave Crown-street, and never to show my face again in the school.

*To Mr. Heydon :* Mrs. Bardwell had, I believe, applied for an increase of salary for me prior to the occurrence of any unpleasant proceedings at the school ; when I received my instructions to leave Crown-street, Mrs. Bardwell said that Mr. Wilkins had promised her that I and Miss M'Limont should remain with her till we got our country appointments ; she had previously told me that I was not to go.

M. A. BATES.

(b) *Absenting herself from duty.*

*Mr. Rooney* deposed as follows : On the 4th instant, Mrs. Bardwell was absent from duty ; she did not apply through me to have that absence sanctioned ; she must have been aware of the irregularity, because she had been informed that similar action was an irregularity by a previous Inspector.

JOHN P. ROONEY.

CHARGE IV.—*General bad Management of the Girls' Department.*

Miss Alice Holmes, about 30 years, Work-mistress, Leichhardt Public School.

*To Mr. Rooney :* I was sewing-mistress at Crown-street Public School ; I have complained to you of Mrs. Bardwell's harsh treatment of me, more than once ; she has spoken to me before the girls in loud tones three or four times ; I am naturally nervous, and her treatment of me made me feel it ; I have come to the boys' school and requested you to ask Mrs. Bardwell why she treated me so ; I did on one occasion tell you that Mrs. Bardwell had made me so ill that I should have to go home ; her conduct to me was harsh now and then ; I believe the girls of the school were aware of the harsh treatment of me ; I have never seen Mrs. Bardwell stamp her feet at any one ; I left Crown-street because of ill-health, and because I was not treated in a friendly way by Mrs. Bardwell ; I decline to say whether pupils of the school have spoken to me about Mrs. Bardwell's harsh treatment of me.

*To Mr. Heydon :* I do not recollect any of the dates of the "three or four times" ; the teachers were present ; on all occasions, Mrs. Bardwell's harsh treatment of me arose from my receiving girls in the work-room, contrary to her instructions ; I left Crown-street on 17th December last.

*To Mr. Rooney :* The girls never went into the work-room on the occasions referred to with my consent ; I told Mrs. Bardwell so ; she always spoke to me before the girls, not privately.

ALICE HOLMES.

*Mr. Rooney to Mr. Heydon :* I did not report Mrs. Bardwell before (officially), because I used my discretion, but I spoke to the Under Secretary about it, and Miss Holmes going away ended the matter ; Miss Holmes first complained to me about three days after I took charge of the school, in August last ; I told Miss Holmes that Mrs. Bardwell was right in not allowing the girls to go into the work-room, and I refused to report Mrs. Bardwell ; I told Miss Holmes and Mrs. Bardwell that Miss Holmes would have to obey the rules of the school ; I told Miss Holmes it was foolish of her to cry, and she should obey the rules ; I said also, "If you receive harsh treatment you have your remedy" ; Miss Holmes denied having disobeyed Mrs. Bardwell.

JOHN P. ROONEY.

Mrs. Harriotte Duff, about 40 years, teacher of French in Training School.

*To Mr. Rooney :* I taught French at Crown-street Girls', up to Christmas last ; I have been insulted by Mrs. Bardwell in the school ; she said to me on one occasion without provocation, "Go away, woman, and don't interfere with my business" ; this was said in reply to a simple request that she would be good enough to look at a letter from the late Council of Education, authorising me to teach French ; I said, "I have not interfered with your business" ; she replied, "You have, you conspired with Mr. Wright to turn me out of the Training School" ; I continued to teach French in the school after that ; I taught through the kindness of the head master, Mr. M'Cormack, in the boys' class-room, and I changed the time of the lesson to half-past 8 a.m. ; I had previously given the lesson from 10 to 11 a.m.

*To Mr. Heydon :* I changed the time to satisfy Mrs. Bardwell ; I had previously altered the hour to 4 p.m., but I found this did not work as Mrs. Bardwell would not let me have the pupils ; she dismissed the girls at the lines, but it was optional for them to attend. I was not a member of the teaching staff of the school ; my class was a private one ; the change of time for the teaching of my class was a beneficial one.

HARRIOTTE DUFF.

*Mr. Rooney to Mr. Heydon :* The matter of which Mrs. Duff has complained occurred before my time.

JOHN P. ROONEY.

Mr.

Mr. J. C. Fisher, about 50 years, Singing Master :—

*To Mr. Rooney :* I taught vocal music in Crown-street School up to end of November last. I have not taught in the girls' department since first week in December. I discontinued teaching because I was insulted by Mrs. Bardwell before the girls. I tendered her an apology for an unintentional offence, but she declined to accept it. I have complained to you about Mrs. Bardwell's treatment. I came down to the boys' school to complain; my offence against Mrs. Bardwell was that I took charge of my classes before she considered they had passed out of her hands. I apologized for my inadvertence. She declined to receive my apology; I informed Mr. Wilkins of the circumstance.

*To Mr. Heydon :* Mrs. Bardwell had on a previous occasion complained of my interference with the discipline of the school.

J. CHURCHILL FISHER.

*Mr. Rooney to Mr. Heydon :* I am not aware that any complaints had been made by parents in reference to the singing class. I can remember none. I have never seen the letters handed to me by you and marked "Y." I tried to make peace between Mrs. Bardwell and Mr. Fisher, but I reported Mr. Fisher's absence from duty on the next singing day. I did not report the quarrel between Mrs. Bardwell and Mr. Fisher for Mrs. Bardwell's sake.

*Mr. Rooney to Mr. Heydon :* I have never seen Mr. Fisher the worse for liquor; I have heard he was inclined to take liquor; I have stated as much to Mrs. Bardwell.

JOHN P. ROONEY.

Miss Emily Ruth Chaffer, 20 years, Candidate in Training :—

*To Mr. Rooney :* I was a pupil-teacher in the Crown-street Girls' School up to Christmas last; Mrs. Bardwell has spoken to me crossly several times; I have appeared before my class crying, in consequence of what Mrs. Bardwell has said to me; she has scolded me before pupils of the school frequently; she was mostly always cross to me; I have attended the pupil-teachers' class crying; in my opinion I had done nothing to justify her harsh treatment of me; The frequent scolding I got interfered with the proper discharge of my duties; I became so nervous that I was unable to teach; I was not so nervous before; I have been nervous since, and attribute it to the treatment I received from Mrs. Bardwell.

*To Mr. Heydon :* Mrs. Bardwell charged me with sneering and making grimaces at her; she has also scolded my class; she has kept the class in for no reason known to me; when she accused me of sneering at her, I denied it or said nothing; I was so nervous I did not know what to say; I have had no talk with Mr. Rooney about this case.

EMILY RUTH CHAFFER.

*Mr. Rooney to Mr. Heydon :* I have never drawn Mrs. Bardwell's attention to the fact of Misses Chaffer and Laird making faces at her; I have seen something like a sneer on Miss Chaffer's face on one occasion, but I satisfied myself that it was merely a nervous affection; I mentioned the matter to Mr. Wilkins; he told me to send Miss Laird to him, and he would advise her.

JOHN P. ROONEY.

Sarah Thomson, 17 years, Pupil-teacher, Crown-street School :—

*To Mr. Rooney :* I have been harshly treated by Mrs. Bardwell. The harsh treatment commenced in February last; Mrs. Bardwell scolded me before my class; it has been continued since February; the scolding made me feel ill and nervous; I have come down to the pupil-teachers' class crying; I have been unwilling to tell you what I was crying for; another pupil-teacher told you the cause; Mrs. Bardwell always spoke to me in a very imperious way; I have never seen Mrs. Bardwell shut her hand in Miss M'Lymont face; I have seen other teachers crying from the same cause as my own.

*To Mr. Heydon :* When she has scolded me she has charged me with not doing what she told me to do; she has said I wished to defy her authority; she has charged me with being unable to manage my class, with not doing my duty; she never complained of any particular thing; she once complained to me on account of my standing girls on the floor of the schoolroom against her orders; I had forgotten her order; she has charged me with sneering and making faces at her; she has done so twice; I do not know why she should make this charge; I have never made faces at her; I have never spoken to parents about Mrs. Bardwell.

SARAH THOMSON.

Mary Laird, 18 years, Candidate in Training :—

*To Mr. Rooney :* I was a pupil-teacher in Crown-street Girls' School until Christmas last; I was harshly treated by Mrs. Bardwell; her harshness consisted in speaking to me before the children in cross tones; I was so treated pretty often; the other teachers witnessed her treatment of me; on one occasion she examined my class and at the close of her examination she turned to me and told me I had not taught the class anything; I was glad to leave Crown-street School on account of Mrs. Bardwell.

*To Mr. Heydon :* Mrs. Bardwell has never charged me with making faces at her; Mr. Rooney told me that she had charged me to him with sneering and making faces at her.

MARY W. LAIRD.

Miss Mary Ann Cahill, 20 years, Assistant, Surry Hills Public School :—

*To Mr. Rooney :* I have witnessed harsh treatment of teachers in the Crown-street Girls' School, in which school I taught until February last; I have seen Misses Holmes and Hall crying; I have seen Miss Chaffer crying; Misses Holmes and Chaffer told me they were not happy owing to Mrs. Bardwell's harsh treatment; the pupils were aware of these disagreements between Mrs. Bardwell and the other lady teachers; they have attempted to speak to me about them, but I have stopped them.

*To Mr. Heydon :* I have witnessed Mrs. Bardwell behave harshly to Miss Holmes; it was because some girls were at the workroom door, but Miss Holmes had not seen them; Miss Holmes had repeatedly on former occasions prohibited the girls from coming to the workroom; Mrs. Bardwell asked Miss Holmes why she allowed the girls at the door; Miss Holmes replied that she had frequently told them not to come there.

*To Mr. Rooney :* Mrs. Bardwell was the proper person to order these girls away.

MARY JANE CAHILL.

Mary

Mary Booth, Boys Assistant Teacher, Wallsend Public School :—

*To Mr. Rooney* :—I was a supernumerary teacher in the Crown-street Public Girls' School from July to September, 1880; during a part of the time I had nothing to complain of, but during another part of the time I received what I consider to be ill-treatment; I received this ill-treatment from Mrs. Bardwell; I am not aware that I gave her any cause to ill-treat me; even if I had infringed any rules I should have still considered the treatment I received harsh and unladylike; I believe it was noticed by the other teachers; I have known other teachers to be similarly treated by Mrs. Bardwell; Miss Holmes, Miss Chaffer, and Miss Laird were so treated; the girls of the school were also aware of her ill-treatment of me and other teachers; I know this from the fact that they have spoken to me about it; the girls spoke to me on the matter as sympathisers with the teachers; Mrs. Bardwell stamped her feet at the teachers, and spoke to them in a harsh and unladylike way; during the time I was at the school the heads of the girls' and infants' departments did not work smoothly together; Mrs. MacTaggart complained of the roughness of the girls on the playground, and of the noise made by them in going up and down stairs; Mrs. Bardwell was very angry because Mrs. MacTaggart sent these complaints to her; Mrs. Bardwell got all her subordinates to write documents bearing on the matter of Mrs. MacTaggart's complaint; there was a good deal of talk about the signing; on the following morning Miss Holmes was crying about it, and repented that she had written anything; Mrs. Bardwell said in my hearing that she would go through hell-fire before she would be put upon; she was very angry when she said this; before I left, Mrs. Bardwell asked me if I was a Roman Catholic. I said "No." She replied that "she had thought differently and had treated me accordingly." The school was a very unpleasant place for teachers during my time in it.

*To Mr. Heydon* : Mrs. Bardwell blamed me once or twice for neglect of duty; she never blamed me for anything else; I don't know who brought the messages from Mrs. MacTaggart to Mrs. Bardwell; in my answers to Mrs. Bardwell's written questions I stated that I had not noticed any disorder among the girls on the play-ground, nor heard any noise caused by them in going up and down stairs; I was stationed on the stairs with other teachers to see that the girls went up and down in an orderly way; I was stationed there by Mrs. Bardwell; I saw no roughness in the school-ground while I was at the school; I thought it would have been better had the girls run about more; I think Miss Hall, Miss Holmes, and Miss Chandler were within hearing when Mrs. Bardwell used the strong language repeated by me; the whole school was in at the time; I was about to go away when Mrs. Bardwell used the words; she was standing in front of the gallery; she was as close to the children as she was to me; the circumstance happened a day or two before I signed the document; I never spoke to Mr. Rooney about the matter before I wrote my communication to him, signed 6th June instant, but the teachers talked about the words used by Mrs. Bardwell at the time they were uttered; I don't think anyone reported the matter; I didn't; I heard first about this inquiry from Mr. Rooney on 24th May; he wrote to me; I have not the letter with me, I think I burnt it; nothing passed between me and Mr. Rooney on my arrival at the school this morning about the letter; no one met me at the steamer; I have not heard from Mr. Rooney in any form except in the letter about this case; I came to the school at 10:30 a.m., and have been waiting since with the other young ladies; we did not talk about the case; I believe some of the teachers and the pupils must have heard Mrs. Bardwell's strong language.

*To Mr. Rooney* : Mrs. MacTaggart's complaint had reference to what took place when I and other teachers were on the stairs, and to what took place when we were not on the stairs; there was no material difference between the first and second letters addressed to me by you; I treated the first letter as an official one, and answered it accordingly.

MARY BOOTH.

[At this stage of the inquiry Miss Hall was sent for to give evidence as to the words—strong language—alleged to have been used by Mrs. Bardwell. Mr. Rooney objected, but was overruled by the Court.]

*Eliza Hall to Mr. Heydon* : I never heard Mrs. Bardwell say she would go through hell-fire rather than be put upon; I have never heard the teachers or any teacher allege that Mrs. Bardwell used such language; I heard the matter for the first time yesterday from Miss Sullivan and Miss Lee; Mrs. Bardwell has not spoken to me about the matter; when Mrs. Bardwell returned after her illness she said she would rather have died than come back to her troubles; this was before Mr. Rooney took charge of the school.

ELIZA C. HALL.

Kate Buckley, 21 years, Assistant Teacher, Crown-street Girls' :—

*To Mr. Rooney* : I have been teaching in Crown-street School for a period of 17 months; to my mind the school has not, during the past twelve months, been a pleasant place to some of the teachers; Misses Chandler, Holmes, Cabill, Laird, Chaffer, Booth, Lee and Thompson have mentioned to me that they were harshly treated by Mrs. Bardwell; I have heard Mrs. Bardwell speak to teachers in angry tones, but did not know what it was about; I have heard her speak harshly to Miss Holmes about some girls; I have never heard Miss Holmes speak in loud or harsh tones; most of the teachers and pupils cared a deal for Miss Holmes; Mrs. Bardwell has asked me if Misses Bates and M'Limont were advised by me to go to Redfern School; none was present when Mrs. Bardwell asked me; Mrs. Bardwell said she would try and have their salaries stopped for disobeying her and the order from Mr. Wilkins; she asked me whether I had heard that man (meaning Mr. Rooney) speaking to her in an insulting manner; I said, in reply to her question, that I did not hear you; I have never heard you insult Mrs. Bardwell or any one else; Mrs. Bardwell has asked me lately—last week—whether I could answer questions respecting her treatment of teachers; she asked me my opinion; I told her that I had been very well treated, but that some had complained to me of ill-treatment by her; I have not seen Miss Thompson neglect her duties; Miss Lee is the last teacher in the Girls' Department to whom Mrs. Bardwell has changed her manner; I have heard Mrs. Bardwell speak disrespectfully of you more than once, styling you "that man;" her tone and manner were disrespectful to you. I have applied for promotion from Crown-street. You advised me to go to the Chief Inspector; Mrs. Bardwell told me to go to Mr. Wilkins; I went to him; he told me to write a private letter to him; I wrote it, and posted it to him myself; I have received no answer to it; I have also written an official letter to Mr. Wilkins—about a fortnight since; I received a reply to the letter, telling me to apply through the proper channel.

To

*To Mr. Heydon*: When I spoke to Mr. Rooney about getting an increase of salary, he advised me to see the Chief Inspector; he did not point out to me that others who had quarrelled with Mrs. Bardwell had got on, but that I, because I was quiet, had not got on; Mr. Rooney's last conversation with me was about a cheque; he speaks to me nearly every evening when I go to sign my time; on Friday last he asked me whether there were any more scenes in the school; I understood him to refer to disturbances between Mrs. Bardwell and the other teachers; I was sent to Mr. Rooney with Miss Sullivan with a complaint against Miss Lee; I was sent to hear what Mr. Rooney had to say.

[NOTE.—The Court declined to take any more evidence on this point, as the questions had reference to what was alleged to have taken place on Friday last, 3rd June.]

I don't know the reason why Miss Holmes was treated improperly by Mrs. Bardwell; Miss Holmes did not tell me; the other young ladies found fault with did not say why Mrs. Bardwell found fault with them; I have only heard Mrs. Bardwell speak in angry tones to Misses Thomson, Laird, and Chaffer; Mrs. Bardwell said to them that she had heard they had laughed at her; she heard that Miss Thomson had made grimaces at her; Miss Thomson denied it, the others said nothing; Miss Holmes has a brother-in-law, who is an inspector; Mrs. Bardwell was kind to the other teachers referred to before she changed her manner; I do not know why Mrs. Bardwell changed her manner to them; she is still kind to me, Miss Sullivan, and the sewing mistresses; when Mrs. Bardwell complained of Mr. Rooney's manner to me, I understood her to refer to something that had recently taken place; she never spoke of Mr. Rooney as "that man" under any other circumstances; she never spoke rudely of him on any other occasions.

*To Mr. Rooney*: If the girls went to Miss Holmes to the workroom they would be disobeying Mrs. Bardwell; Miss Holmes did not encourage the girls to come to her; it was the girls' fault and not Miss Holmes'.

KATE BUCKLEY.

(b) Complaints of Infants' School Mistress of girls' rudeness, &c.

Mrs. E. MacTaggart, Headmistress of Infants Department, to Mr. Rooney:—

*To Mr. Rooney*: The memo. dated 17 Feb. 1881, marked Z, handed by you to me, is in my handwriting; I have complained of girls rushing rudely past me in the hall.

*To Mr. Heydon*: I have had occasion to complain of the girls' rudeness in other places besides the hall—on the ground, on the divisions, at the tap; I consider that there has been no proper supervision over the girls in the hall or on the playground; I have had to complain of the girls blocking up the doorway.

*To Mr. Rooney*: Mrs. Bardwell has not been on speaking terms with me since September last.

E. MACTAGGART.

Helen Fox, 22 years, First Assistant, Crown-street Infants':—

*To Mr. Rooney*: I have seen the girls tearing down stairs into the hall; I have seen one ride down the banisters; when I usually see these girls is on wet days; they are then disorderly; they behave very disorderly on the playground; I have seen a teacher—Miss Thomson—chase girls from the taps to get them on their lines after the bell was rung; I do not consider the demeanour of the girls as good as it is in other schools I have been in, namely,—Redfern, Fort-street, West Maitland, and Morpeth.

*To Mr. Heydon*: I don't know on what terms Mrs. Bardwell and Mrs. MacTaggart are; Mrs. MacTaggart says she bears no enmity against Mrs. Bardwell; I have not had any talk with Mr. Rooney about this case; I saw no teacher present when the young lady was riding on the banister; Mrs. Bardwell was not present when the disorder referred to took place.

*To Mr. Rooney*: I think Mrs. MacTaggart performs playground duty; Mrs. Bardwell does not do duty on the playground; she usually comes on the playground in the morning about 9:20; the girls fall in about 9:25; Mrs. Bardwell does no duty; she goes into the school; Miss Thomson and Miss Lee have generally charge of the girls' playground; they are pupil teachers.

*To Mr. Heydon*: I have not seen Miss Sullivan on duty in the playground; I have seen Miss Buckley in the lavatory but not in the playground doing duty; I am on the playground from a few minutes after nine in the morning till school goes in; from 10:45 to 11 a.m., from 12:30 to 1:15 p.m., and from 1:45 to 2 p.m.

HELEN E. FOX.

Mr. F. W. King, about 45, Third Assistant, Crown-street, Boys':—

*To Mr. Rooney*: I have complained to you respecting the conduct of pupils of the girls' school; the elder girls congregated at the wicket gate and at the corner of Denham-lane, and blocked up the way, so that I could not march the boys out of the ground; this happened frequently, but I only complained to you about it once; you requested the girls twice to go away, but they did not go away.

*To Mr. Heydon*: The boys and girls march home through the same gate; there are three gates on the ground altogether through which the pupils enter and leave the school premises.

FREDK. W. KING.

Mr. W. W. Cameron, about 48 years, teacher of Coogee Public School:—

*To Mr. Rooney*: I am teacher of the Coogee Public School; I had an opportunity of forming an opinion of Mrs. Bardwell's temper, but only on one occasion. [As this witness' evidence had reference to an incident that occurred before Mrs. Bardwell joined the Public School service, the court decided not to receive it.]

Miss Margaret Miller, 19 years, Second Assistant, Crown-street, Infants':—

*To Mr. Rooney*: I have had opportunities of observing the conduct of the girls in the playground; I had complained to Mrs. MacTaggart about their conduct; I have done this repeatedly; I have complained of their rude conduct in the play-ground; they are very insolent to me both big girls and little girls; my complaints have not improved their conduct; I do not consider the supervision of the girls' play-ground sufficient; there are not more than two pupil-teachers there; I have been very much concerned about the safety of the infants under my charge owing to the way in which the girls race about the ground; I have remonstrated with the girls offending but they have behaved in an insolent manner, and have even encouraged

encouraged the infants to disobey me; the behaviour of the girls compares very unfavourably with that of the girls attending the schools I have been in, namely,—Mudgee and Fort-street; I consider the infants' play-ground is well supervised; the great difficulty experienced in carrying out the supervision lies in the girls' conduct; they set a bad example.

*To Mr. Heydon:* I have been at Crown-street nearly twelve months; I have noticed the disorder complained of more or less since I have been here; I came here last July; I am aware that Mrs. Bardwell and Mrs. MacTaggart do not speak; I became aware of the fact about three months ago.

MARGARET MILLER.

Mary Burke, 20 years, Third Assistant, Crown-street Infant School.

*To Mr. Rooney:* I have opportunities of seeing the girls in the play-ground; my duties have been interfered with by the girls; I have had to stop my lessons in the shed owing to the noise they made, and have been obliged to change the play hour for my class; the disorder I have complained of has gone on for the last five or six months; the girls have rushed through the lines, knocking the infants down, and have screamed, and they have been insolent to me when I have spoken to them about their conduct; I am of opinion that the girls are very disorderly indeed, the conduct of the girls would compare very unfavourably with that of the girls attending other schools in which I have taught; I have seen the girls sitting in the basins in the lavatory; I have seen big girls doing this.

*To Mr. Heydon:* I have never seen Mrs. Bardwell in the play-ground, and therefore have not seen the girls misbehave in her presence; I have seen Mrs. Bardwell walk through the play-ground in the morning on her arrival at school; I have never seen Mrs. Bardwell on the play-ground in the dinner hour. I am on the play-ground all the time except twenty minutes; I do not know on what terms Mrs. Bardwell and Mrs. MacTaggart are; I have been at the school eleven months; I know Mrs. MacTaggart has reported to Mr. Rooney the conduct of the girls after we have complained to her; she has done this at least once; I have heard Mrs. MacTaggart say Mrs. Bardwell has done nothing to hurt her, and that she entertains no ill-will to her.

*To Mr. Rooney:* Mrs. Bardwell arrives at school at 9-20 a.m.; I am on duty at 5 or 10 minutes past 9 a.m. in the playground; Mrs. MacTaggart has the general supervision of the infants in the play-ground.

MARY BURKE.

Jemima Halley, 26 years, Mistress of Surry Hills South, Infants' Department.

*To Mr. Rooney:* I filled the position of First Assistant in the Crown-street Infants' from the opening of the school to the end of 1880; I had opportunities of judging the behaviour of the girls when on the play-ground and when passing through the hall; I have experienced difficulty in managing the infants owing to the girls breaking through the lines; I complained to Mrs. MacTaggart, and it did not occur again; subsequently Mrs. Bardwell had occasion to speak to me about my complaint to Mrs. MacTaggart; she did not speak to me in a kind way, and we have not spoken to one another since; I said, "Good morning, Mrs. Bardwell," the next morning when I met her, but she did not speak, and I concluded she did not wish to speak to me any more; I was not aware that I had done anything to annoy her; towards the latter part of my stay at the school Mrs. Bardwell and Mrs. MacTaggart were not on friendly terms; I thought the girls of the school were very wild as compared with the girls of the other schools I had been in; they were very wild under Miss Clarke too; just before I left the school, towards the end of last year, I thought I observed an improvement.

*To Mr. Heydon:* I think Mrs. Bardwell and Mrs. MacTaggart were not on good terms when the former was angry with me; she had previously been friendly with me; I now attribute Mrs. Bardwell's irritability towards me on the occasion, partly to her being annoyed at my reporting the girls, and partly to her being agitated by an unfriendly conversation that same afternoon between herself and Mrs. MacTaggart.

JEMIMA HALLEY.

Annie Browne, 20 years, pupil-teacher, Crown-street, Infants'.

*To Mr. Rooney:* I have taught in Crown-street Infants' School during the past twelve months; the performance of my play-ground duty has been occasionally interfered with by the girls; the girls have rushed through the divisions under my charge in the halls, causing disorder; they have dragged the infants from the lines to take them home; the girls would not wait for the infants to form in divisions, but have dragged them away; I complained of the girls' conduct to Mrs. MacTaggart; the girls play very roughly; I think there should be an older teacher on the play-ground with the two pupil teachers who at present do duty there; I have not seen either Mrs. Bardwell or Miss Sullivan doing duty on the play-ground; the girls play roughly in the sheds; I have complained to the girls of their conduct, but they have taken no notice of me; the opinion of the Infants' School teachers is, that the girls are very disorderly.

*To Mr. Heydon:* I do not know what Mrs. MacTaggart's feelings are to Mrs. Bardwell; I have not seen them speaking together; I have heard from the teachers of the Infants' School that they were not on speaking terms.

ANNIE BROWNE.

[NOTE.—At this point of the inquiry Mr. Rooney took exception to the Hon. John Davies conferring with Mrs. Bardwell's solicitor, and objected to his being allowed to be present at the inquiry any longer. Mr. Davies explained that he had merely suggested to Mr. Heydon the propriety of asking the witness, then undergoing examination, a certain question with a view of affording her an opportunity of qualifying a statement she had made, which statement he of his own knowledge knew to be untrue, and a slander on the conduct of the elder girls attending the school. Mr. Rooney replied, persisting in his objection, and stating that he based it on the ground already advanced by him, and on the further ground that Mr. Davies was not an indifferent or neutral spectator of the proceedings of the inquiry inasmuch as he (Mr. Rooney) had this morning been made aware that Mr. Davies had preferred certain complaints against him in writing to the Minister of Public Instruction, bearing upon the differences between himself and Mrs. Bardwell. The Court having listened attentively to the arguments advanced on both sides, sustained Mr. Rooney in his objection, pending and appeal on the part of Mr. Davies to Sir John Robertson. It should be mentioned that up till now Mr. Davies has been present at the inquiry with the full concurrence and at the expressed desire of Mr. Rooney, on the condition that he was not to give evidence.]

CROWN-STREET.—Minister's authority for the presence of Mr. John Davies, M.P., at inquiry into charges of Head Master against Head Mistress—and countercharges.

John Davies, Esq., C.M.G., to The Minister for Public Instruction.

Dear Sir John,

Bourke-street, 6/81.

I have been present every day during the inquiry that is now being held at Crown-street Public School, with reference to certain charges preferred by the Head Master against the Head Mistress; this evening he objects to my being present at any other meeting of the inquiry, unless I have commission from the Minister. As I desire to be present as a spectator and as one of the parents whose children are under the tuition of the Head Mistress, will you kindly grant me permission to be present, in the interest of common fairness to the lady against whom the charges are preferred.

Yours truly,  
JOHN DAVIES.

The Chief Inspector will please permit Mr. Davies, M.P., to be present during the inquiry alluded to herein.—JOHN R.

Maria Rush, 19 years, pupil-teacher, Crown-street, Infants'.

*To Mr. Rooney*: I have been a pupil teacher in my present school eighteen months; I have had opportunities of observing the conduct of the pupils of the Girls' Department; I have noticed their conduct from the verandah and the hall where my duties lie; I complained once to Mrs. MacTaggart of their conduct; I complained of the roughness of the girls, and the way they spoke to me; they spoke rudely to me; some of the girls ran through the hall roughly; the general demeanour of the girls is rude; I have not much to do with the girls; I have seen the girls, both big and little, sitting in the basins in the lavatory; I have seen infants toppled over in the play-ground by the girls; it was done through carelessness; the disorder among the girls in the play-ground arises in my opinion from their not being sufficient teachers on duty here.

*To Mr. Heydon*: I have not been talking with anybody on the deficiency of teachers engaged in play-ground supervision; the infants' school teachers have at times remarked among themselves on the disorder of the girls; I was not aware that Mrs. Bardwell and Mrs. MacTaggart were on unfriendly terms; I have noticed the disorder more or less since I have been here.

*To Mr. Rooney*: The order was not so bad in the early part of my time; Miss Clark, was, I believe, head mistress of the girl's department then.

MARIA RUSH.

Sophia Noble, 18 years, pupil-teacher, Crown-street, Infants'.

*To Mr. Rooney*: I have been a pupil-teacher in the infant school since July, 1880; I have had opportunities of observing the conduct of the girls when on the play-ground; I have had occasion to complain of their conduct very frequently; they push open in the window of the room in which I am teaching; I have complained to Mr. Fox and spoken to the girls offending; I have seen girls, the big ones, sitting in the basins in the lavatory; I consider the demeanour of the girls to be exceedingly rough and rude; they take no notice of the teachers of the infants' school; Mrs. MacTaggart is the only one they seem to mind; I have seen Miss Thomson and Miss Lee most frequently doing play-ground duty; they are pupil-teachers; I have not seen Mrs. Bardwell doing play-ground duty.

*To Mr. Heydon*: I am not aware how Mrs. Bardwell and Mrs. MacTaggart stand to each other; I heard Mrs. MacTaggart say for the first time, this week, that she entertained no ill-will towards Mrs. Bardwell; I think there were at least two others besides me present when this was said.

SOPHIA NOBLE.

Miss Alma Gilberthorpe, 17 years, pupil-teacher, Crown-street Infants'.

*To Mr. Rooney*: I have been a pupil-teacher in my present school eleven months; I have had opportunities of observing the conduct of the pupils of the girls' school; I have observed from my door, which leads to the hall; I have seen the girls jump down stairs four steps at a time and make such a noise that I have been obliged to stop my lesson; this occurred chiefly at 3.45, and at "kept in" lines—after half-past 12, and after 4 p.m.; I have seen girls loitering about the hall and rushing through the hall during school hours; I have complained to Mrs. MacTaggart about their conduct; the girls have repeatedly opened the door of my room and come in without knocking; their manner was very rude; I have seen groups of big girls holding conversation in the playground during school hours; I have seen girls in the lavatory sitting in the basins; I consider the general demeanour of the girls to be very rude; I have not seen Mrs. Bardwell do play-ground duty; Miss Thomson and Miss Lee do most of the play-ground duty—Miss Thomson especially.

*To Mr. Heydon*: I was not aware of what I should be asked before coming here; I am not aware on what terms Mrs. MacTaggart and Mrs. Bardwell are; I have noticed they do not speak to each other.

ALMA GILBERTHORPE.

Mrs. MacTaggart, Head Mistress of the Infants' Department, recalled by Mr. Rooney.

*To Mr. Rooney*: I have had no quarrel with Mrs. Bardwell; some time before Christmas last I had occasion to bring under Mrs. Bardwell's notice the misconduct of some of the girls; she received my remarks in an unfriendly spirit; on the following morning I gave her the usual salutation when meeting her, but she did not return it; that is the whole of what has been termed a quarrel; we have not spoken to each other since.

*To Mr. Heydon*: My present feeling to Mrs. Bardwell is perfectly kind; I don't know why I should feel otherwise; when I have observed anything wrong among the girls I have spoken to the teachers in charge; I have sent a message through one of her teachers to Mrs. Bardwell; I saw Mr.

Zlotkowski

Zlotkowski on Saturday last; he told me that he believed his daughter was to be witness in this affair; I said I regretted extremely that the school girls were drawn into it; I sent no message of any kind to Mrs. Zlotkowski.

*To Mr. Rooney:* I have heard that girls went round with a petition to get Mr. Rooney excluded from the girls' school; if that were the case, I consider it would be a disgraceful affair.

E. MACTAGGART.

Emma Salier, 16 years, pupil-teacher, Crown-street, Infants'.

*To Mr. Rooney:* I have observed the conduct of the girls on the playground; I have complained of their conduct to Mrs. MacTaggart, for coming rudely through the cap room, which is the room I teach in; they came in at irregular times; the girls have very rarely been rude to me; I have noticed them run through the divisions in charge of Miss Robertson, and answer her rudely when she took exception to their conduct; I have seen girls sitting in the basins in the lavatory; I have not seen Mrs. Bardwell do playground duty; Miss Thomson and Miss Lee, pupil teachers, do most of the play-ground duty.

*To Mr. Heydon:* I have been at the school since 15th July last year; I observed the rude conduct of the girls during the whole of Miss Robertson's time; I don't think Mrs. Bardwell and Mrs. Mac Taggart are on friendly terms; I heard this from the teachers; I think everybody knows this; I think the discipline was better in the time of Miss Clark than it is now; I think if there were more teachers on duty in the play-ground, the disorder would be less.

EMMA C. SALIER.

Miss Sara Thomson, pupil-teacher, Girls' School:—

*To Mr. Johnson:* I am not in a position to say whether Mrs. Bardwell or Miss Sullivan does duty on the play-ground.

SARA H. THOMSON.

Emma Lee, pupil-teacher, Girls' School:—

*To Mr. Johnson:* Miss Sullivan's duty lasts usually from 20 minutes or a quarter to 2 till 2 p.m.; I have never seen Mrs. Bardwell regularly on duty; Miss Buckley does duty from 10 past 1 to 2 p.m.

EMMA LEE.

Alma Gilberthorpe, pupil-teacher, Crown-street (Infants):—

*To Mr. Johnson:* I leave the play-ground at 1:15 and come on again at a quarter to 2; as a regular thing the teachers out of the girls' school doing duty at quarter to 2 are Miss Buckley, Miss Lee, and Miss Thomson, and no one else; I never see Miss Sullivan or Mrs. Bardwell at that side of the play-ground.

ALMA GILBERTHORPE.

Emma Salier, pupil-teacher, Infants' School:—

*To Mr. Johnson:* I do duty on the play-ground from 1:15 to 1:45 p.m.; Miss Thomson and Miss Lee do duty among the girls at the same time; I never see Miss Sullivan on the play-ground, except when the girls are on the lines; I never see Mrs. Bardwell on the play-ground; it is not possible for either to be doing duty on the play-ground without my seeing her; I am not able to see that part of the front of the ground where the steps are.

EMMA C. SALIER.

Mr. James Hooworth, 25 years, First Assistant Fort-street Boys'.

*To Mr. Rooney:* I filled the position of First Assistant in Crown-street Boys' School from August, 1880, to April, 1881; I taught my class in the top room upstairs; part of the room was partitioned off, and occupied by some of the girls; I have experienced difficulty in carrying on my duties as a teacher in the room owing to the noise made by the girls in portion of the room partitioned off; both you and myself have been obliged to suspend teaching owing to the noise made by the girls; I have known you to go to the girls' room in order to get them to be quiet; the noise that mostly interfered with me proceeded from the fifth-class girls, under Miss Sullivan, singing; I have heard the girls romping in the room; neither you nor I have ever left the class without supervision; I should be surprised to hear that you were charged with leaving the class without supervision; I should be surprised to hear such a charge was made against you; no one was allowed to teach in the school besides the recognised teachers, except boys preparing for the office of pupil-teacher, and they never taught unless the teacher was also present; I remember the last morning I was here; on that occasion, to the best of my belief, I saw you and Mrs. Bardwell speaking to each other; I judged there was something unpleasant going on between you; I saw the boys take particular notice of it; I was too far away to hear anything said; I saw Mrs. Bardwell subsequently; she seemed agitated; I observed nothing in your conduct to cause her agitation.

*To Mr. Heydon:* I know two boys named Belmore Thomas and Charles Blumer; neither of those boys has, to my knowledge, had charge of a class without the teacher of the class being present.

*To Mr. Rooney:* I never knew that Belmore Thomas was an applicant pupil-teacher; he never, to my knowledge, gave a trial lesson to a class; nothing ever occurred to lead me to think the boys caused annoyance to the girls.

*To Mr. Heydon:* The boys Armstrong, Sims, Mercor, Dwyer, and Stanley were never, to my belief, in sole charge of a class.

JAS. W. E. HOOWORTH.

[At the opening of the Court this morning Mr. Rooney stated that, acting on advice, he begged to withdraw his objection to Mr. J. Davies being present at the inquiry. He added that his reason for objecting before was that Mr. Davies did not, when asking the Minister to permit him to continue at the inquiry, place his objections before the Minister.]

(c) As to alleged mismanagement of outhouses.

Mr. F. W. King, 39 years, Third Assistant:—

*To Mr. Rooney:* One morning in May you called me out to go with you to the girls out-houses; I went with you; we found all the out-houses covered with writing of a most indecent character, done apparently by the girls.

FREDK. W. KING.

*Mr. Rooney to the Court:* I brought the state of things witnessed by myself, Mr. King, and the Inspector of Nuisances, under the notice of Mrs. Bardwell in my memo., dated 11th May, and marked H. Her reply is on the back of that memo.; I complain of that reply; it is not what I should have received from the Head Mistress; I take exception to the accuracy of the statement contained in it.

*Mr. Rooney to Mr. Heydon:* Mrs. Bardwell never complained to me before of the character of my communications to her; I have never made any remark to Mrs. Bardwell or made reference to any subject to which she could reasonably take exception; on one occasion when a certain female pupil teacher was absent from duty through illness I told Mrs. Bardwell that the girl was suffering from loss of blood; I may have used the word "over floodings;" I desire to state that I found it necessary to make it clear to Mrs. Bardwell that the girl was really ill, because she accused the girl of scheming.

JOHN P. ROONEY.

(a) Disparaging Examiners, Inspectors, and other officials.

Emma Lee, 18 years, pupil-teacher in Crown-street, Girls.

*To Mr. Rooney:* I have heard you spoken of disrespectfully by Mrs. Bardwell; in referring to you she has spoken of you as "that man" and "that fellow"; she has said to me that had I not been well trained at home, I might be influenced by you to be insubordinate to her; she said Mr. Wright was not fit for his position; and that she did not know how you got yours; she has continually told me that if we offended Mr. Wilkins we would lose our positions; and she led us to believe that he had everything to do with teachers; she told the girls to tell their parents and friends that there was plenty of room in the school for new pupils, but that you would not let them come there; Mrs. Bardwell spoke to me about the investigation; she asked me what evidence I was going to give; I replied, "What I might be asked to say"; Mrs. Bardwell tried to influence me in the evidence I was going to give.

*To Mr. Heydon:* I have heard from one or two pupil-teachers that my classification as a teacher in passing from the Training School would be influenced by the nature of my relations with Mrs. Bardwell; they did not give any reasons; I took no notice of it—I mentioned it to Mrs. Bardwell; I received my appointment as pupil-teacher in January last; I had previously filled a similar position in Canterbury; I told Mrs. Bardwell that on Saturday last some pupil-teachers told me that if I spoke of her as if I cared for her, it may affect my classification; on that occasion I mentioned Mr. Wright's name to her; I have spoken to my parents about this case; I have not spoken to Mr. Rooney about the case.

*To Mr. Rooney:* I never heard Mr. Wright say that he had a bad feeling to Mrs. Bardwell; she gave me to understand that she entertained an enmity to him.

*To Mr. Heydon:* In the evidence I was going to give Mrs. Bardwell and I differed about the object lessons; it is only in this point that she attempted to influence me in giving my evidence.

EMMA LEE.

*Mrs. E. MacTaggart* recalled at her own request: In thinking over the evidence given by me when last before the court, I used the word "disgraceful" in speaking of an occurrence alleged to have taken place in the Girls' School; I think that word is too strong, and I desire to recall it; I have no positive knowledge of what transpired in the Girls' School on the occasion referred to, and I desire therefore, to express no opinion on the matter.

E. MACTAGGART.

Kate Buckley, 21 years, Supernumerary in Girls' School:—

*To Mr. Rooney:* I have not heard Mrs. Bardwell talk about the Examiners or the Inspectors; I have heard her speak of you as "that man;" Mrs. Bardwell has spoken to me about this case; she said she knew I would not say anything against her; she asked me if I had spoken against her to Miss Bates or Miss M'Limont; she said she knew I would not speak against her if I could; I have never known you to insult Mrs. Bardwell.

*To Mr. Heydon:* When Mrs. Bardwell called Mr. Rooney "that man" it was simply under the circumstances already mentioned by me in my former evidence.

KATE BUCKLEY.

Mary M'Limont, 19 years, Assistant, Redfern Public School.

*To Mr. Rooney:* I have heard Mrs. Bardwell speak of Examiners, Inspectors, and Training Master. She has not spoken respectfully of some of them. The conversations about these officers were held in school. She very rarely spoke of you, except as "that man." She told me that letters had been received at the Education Office, asking how such a man as you had been appointed. She said Mr. Wright could not give a geography lesson without looking at his notes. She has never spoken to me disrespectfully of the Inspectors.

MARY M'LIMONT.

Mary Anne Bates, 21 years, Assistant, St. Leonards.

*To Mr. Rooney:* I have heard Mrs. Bardwell say, "I will let Mr. Rooney see whether he is going to domineer over me or not." That is all I have heard.

M. A. BATES.

Sara Thomson, 17 years, pupil-teacher, Crown-street Girls' School.

*To Mr. Rooney:* I have heard Mrs. Bardwell speak disparagingly of Mr. Wright. I have heard her speak disparagingly of you.

SARA H. THOMSON.

Altona

Altona Bohrsmann, 13 years, pupil of Girls' School.

*To Mr. Rooney* : I am a pupil of the fifth class in the Girls' School. Once I saw Mrs. Bardwell turn her back to you when you came into the Girls' School. The girls have said to me, that Mrs. Bardwell treats you very badly in the way she goes on.

*To Mr. Heydon* : I have not seen Mr. Rooney bring visitors into the Girls' School and not introduce them to Mrs. Bardwell. I don't know why Mr. Rooney has called me as a witness.

ALTONA BOHRSMANN.

Mary Jane Cahill, 20 years, Assistant-teacher, Surry Hills Public School

*To Mr. Rooney* : I have heard Mrs. Bardwell speak disparagingly of the Training Master and Examiners. This was in school.

MARY JANE CAHILL.

Gilbert Filshie, 15 years, pupil-teacher, Crown-street Boys' School.

*To Mr. Rooney* : I remember going with you into the Girls' School. I don't think Mrs. Bardwell acted towards you on that occasion as she ought to have acted. You gave her no occasion to lead her to act so.

*To Mr. Heydon* : She turned round and looked at him before giving him the book. He couldn't see the book. He didn't know where it was.

GILBERT FILSHIE.

Florence Usher, 15 years, pupil in Crown-street Girls' School.

*To Mr. Rooney* : I have seen Mrs. Bardwell treat you disrespectfully before the Girls' School. When you gave her a letter she turned her back on you.

*To Mr. Heydon* : She opened the letter when she turned away, Mrs. Bardwell is very severe with the cane. She never gave me the cane. I don't know how Mr. Rooney knew I could give evidence in this case.

FLORENCE USHER.

Frederick Kiser, 14 years, pupil of Crown-street Boys' School.

*To Mr. Rooney* : I remember being "on lines" the morning Mr. Hooworth went away. I saw her hold out her closed hand, and talking to you in a very excited way. I saw nothing in your conduct to lead her to act in that way. Most of the boys noticed her.

*To Mr. Heydon* : Mr. Rooney did not appear frightened, he was calm and quite cool ; I don't know on what terms Mr. Rooney and Mrs. Bardwell are ; Mr. Rooney has asked the boys "who remembered the circumstance?" This was about a fortnight ago.

FRED KAISER.

Allan McLean, 11 years, pupil in Crown-street Boys' School.

*To Mr. Rooney* : I remember the morning before the one Mr. Hooworth left school ; Mrs. Bardwell came up to you in a very excited state ; she wanted to argue ; you said that was no place to argue ; she said she would report you ; she closed her hand.

ALLAN McLEAN.

Archibald Forsyth, 16 years, pupil of the Boys' School.

*To Mr. Rooney* : I remember the morning before Mr. Hooworth left ; I saw Mrs. Bardwell in front of the lines on that morning ; she looked to be in a temper ; she put out her hands ; I saw no cause given to her for her action ; she spoke to you in a high tone of voice.

*To Mr. Heydon* : She looked angry when she came up ; Mr. Rooney spoke about this to the class from a week to a fortnight ago ; he asked us who saw her in front of the lines.

ARCHIE FORSYTH.

Mr J. Rooney, Head Master, Crown-street Boys' School.

*To Mr. Johnson* : I did not discover all the defects charged against Mrs. Bardwell at once ; my complaints against her extend over seven months ; her faults have been accumulating for that period ; I did not complain sooner because each act in itself was not worth complaining of ; the teachers who have complained to me from time to time of cruel treatment from Mrs. Bardwell would not put their complaints in writing ; as they would not do this I took no other action ; I did not complain when the case of Miss Thomson occurred ; I complained simply because I could not live in the school with Mrs. Bardwell ; her defiance of my authority in regard to the employment of unauthorized persons as teachers was the point when I decided to lodge a formal complaint against her ; I then thought it advisable to bring forward everything I knew against her ; I found it impracticable to deal with Mrs. Bardwell on account of her impracticability of temper ; I did write a complaint against her in February last, but I did not send it in ; I thought it better to have a consultation with Mrs. Bardwell ; we met, and decided to endeavour to work amicably together for the future.

JOHN P. ROONEY.

I object to undergo cross-examination by Mr. Heydon, unless I am permitted to make a statement of the case from the beginning ; this I have not done yet, and I am advised not to allow myself to be cross-examined, unless I am allowed to make such statement.

JOHN P. ROONEY.

[Point reserved.]

Mr. Heydon then called Mr. Rooney as a witness. Mr. Rooney declined to act as a witness. [Point reserved.] Mr. Heydon then declined to go on with the case further ; he declined to call any other witness but Mr. Rooney. Thereupon the Court adjourned till 2 p.m.

On the re-opening of the Court at 2 p.m. it was intimated to Mr. Heydon that he could not again cross-examine Mr. Rooney from the beginning, nor call him as a witness. This decision was based on the ground that Mr. Heydon had already cross-examined Mr. Rooney at considerable length in reference to each of the charges I to IV, and that it would be both irregular and unfair to cross-examine Mr. Rooney on these charges a second time. With regard to charge V, Mr. Rooney had made no verbal explanation in addition to the original written complaint, and he was not therefore in the opinion of the Court, amenable to cross-examination. Mr. Heydon protested against this decision, but agreed to go on with the case.

Ada Welch, 16 years, ex-pupil of the Girls' School.

*To Mr. Heydon :* I left school on December, 31st 1880; I was here during the whole time Mrs. Bardwell was here; Miss Holmes spoke to me about coming upstairs, and said Mrs. Bardwell had prohibited girls from coming upstairs; I was never present when Mrs. Bardwell scolded Miss Holmes; I never saw any disorder on the girls' playground to need any remark; I do not consider the order to be worse than in Miss Clarke's time; I never saw anything in Mrs. Bardwell's conduct to lead me to think she was harsh and unladylike; Mr. Rooney has brought visitors into the school and not introduced them to Mrs. Bardwell; Mr. Fisher took upon himself to take the supervision of the school out of Mrs. Bardwell's hands; on leaving, he said he would not take a class in the school again until Mrs. Bardwell had learnt how to behave herself; Mrs. Bardwell was not rude to Mr. Fisher; Mr. Fisher was half intoxicated, I believe, on that occasion; I smelt the drink on him.

*To Mr. Rooney :* Mrs. Bardwell has spoken to me on this case; she asked me if I had heard statements about her; she talked to me about the "Fisher" incident; I was in the front seat of the singing class when it occurred.

ADA WELCH.

Martha Davies, 15 years, pupil, Crown-street Girls' School.

*To Mr. Heydon :* I have seen Mr. Rooney in the Girls' School. His bearing has not been gentlemanly in all things; on one occasion Mr. Rooney took a gentleman passed Mrs. Bardwell and introduced him to Miss Sullivan; he has passed Mrs. Bardwell on other occasions, and gone to Miss Sullivan; I never heard of Mrs. Bardwell shaking her fist in any young lady's face; Miss Holmes broke the rules, and would have the girls to come to her; I think Miss Holmes endeavoured to give the girls to understand that Mrs. Bardwell was cruel in the matter; I have seen Miss Thomson and Miss Chaffer make grimaces at Mrs. Bardwell; I have seen Miss Thomson do it once, and Miss Chaffer do it when orders were given to the girls, or when she was spoken to; I remember the case of Mr. Fisher; I think he was the worse for liquor; he took the school out of Mrs. Bardwell's hands; he said he would not come to the school again until Mrs. Bardwell learnt to behave herself; I consider Mrs. Bardwell's treatment of the teachers under her to be ladylike; I have seen Mrs. Bardwell reprimand Miss Thomson; I think Miss Thomson had broken the rule; either Miss Sullivan or Mrs. Bardwell is on the playground from 11 to 11.15 a.m.

*To Mr. Rooney :* I think it ungentlemanly in you not to say "Good morning" to Mrs. Bardwell. I have never heard my father or mother speak about school matters at home.

M. DAVIES.

Elizabeth Stedman, 12 years, Pupil of Girls' School.

*To Mr. Heydon :* I think Miss Holmes was partly to blame when Mrs. Bardwell spoke to her about having girls on the floor; I have heard Miss Holmes tell the girls not to come to her; when Mrs. Bardwell spoke to Miss Thomson she would make a face at her; she did it repeatedly; I heard Mrs. Bardwell say to Mrs. Duff, please not to come into the school again, as you are conspiring with Mr. Wright; I did not hear her style her "woman"; I remember Mr. Fisher's case; he took the reins out of Mrs. Bardwell's hands; Mr. Rooney has behaved very ungentlemanly to Mrs. Bardwell; I think his tone was harsh towards Mrs. Bardwell; Mrs. Bardwell's demeanour to the other teachers under her was not harsh; either Mrs. Bardwell or Miss Sullivan is always on the ground; they come on the ground at half-past 1 p.m.

E. STEDMAN.

Eva Wethered, 13 years, pupil of the Girls' School.

*To Mr. Heydon :* I recollect when Miss M. Limont left for Redfern; Mrs. Bardwell did not shake her fist in her face; Mrs. Bardwell speaks to her teachers firmly but not harshly; I see either Mrs. Bardwell or Miss Sullivan on the ground at 1 o'clock every day; either one or the other is on the ground for half-an-hour at a time.

*To Mr. Rooney :* I have seen Miss Sullivan and Mrs. Bardwell take dinner together; the lower fourth class went up the stairs before Miss M'Limont left the premises; I belong to it.

*To Mr. Heydon :* When my class went upstairs Mrs. Bardwell and Miss M'Limont were not in conversation.

EVA WETHERED.

Miss Lizzie Davies, 15 years, pupil of the Girls' School.

*To Mr. Rooney :* Mrs. Bardwell ordered that girls should not go into the belfry, and Miss Holmes still permitted them to come to her there; she used to kiss them; she encouraged them to come; I saw Miss Thomson on one occasion sneer at Mrs. Bardwell; I consider a sneer to be a grimace; I saw Miss Chaffer make a grimace on two occasions at Mrs. Bardwell; I believe I should have heard of Mrs. Bardwell closing her hand in Miss M'Limont's face if it had occurred; I do not believe it occurred; Mrs. Bardwell's manner to the teachers under her was determined but not unladylike; I have never seen her harsh to any teacher; I remember the case of Mr. Fisher; he took the charge of the school out of her hands; some words passed between him and Mrs. Bardwell; he wished her good-day, and said he would not teach a class in her school till she had learnt how to behave; Mr. Fisher was under the influence of drink when he entered the school; I remember Mrs. Duff's case; she handed a letter to Mrs. Bardwell; Mrs. Bardwell declined to receive it; they had some words; I did not hear what was said; Miss Sullivan always came on to the play-ground at 1.15 p.m.

*To Mr. Rooney :* I have had a conversation with Mrs. Bardwell on this case; I have been with girls in the belfry-room within the last five days; this occurred in the morning, and at 11 o'clock we were doing slate-work in the belfry; the girls were rude to us about this case, and Mrs. Bardwell gave her permission; she did not talk with us about the case; Mr. Heydon did once talk to us about the case in the belfry; we were parts of five days in the belfry.

E. DAVIES.

Miriam Marks, 12 years, pupil of Girls' School.

*To Mr. Heydon :* I remember the morning Miss M'Limont left; I saw Mrs. Bardwell shake her finger in front of her, but not in Miss M'Limont's face.

MIRIAM MARKS.

Edith

Edith Brown, 10 years, pupil of Girls' School.

*To Mr. Heyden:* I remember the morning Miss M'Limont left; Mrs. Bardwell shook her finger in front of her, but not in Miss M'Limont's face.

*To Mr. Rooney:* Eva Wethered this morning spoke to me and said that Mrs. Bardwell did not shake her fist in Miss M'Limont's face.

EDITH M. BROWNE.

Mary Sullivan, 30 years, First Assistant, Crown-street Girls' School

*To Mr. Heyden:* I have been in this school eight months; I have taught in four other schools; I was not here at the beginning of the differences between Mrs. Bardwell and Miss Holmes; Miss Holmes broke the rules on three occasions; Mrs. Bardwell spoke to the girls and not to Miss Holmes: she talked at Miss Holmes through the girls; she was not unnecessarily harsh; when girls were employed to teach it was always in cases of emergency; Mrs. Bardwell's demeanour to the teachers under her was considerate when they did not break the rules nor were insolent, but was determined when they did either; the teachers take play-ground duty at the allotted times; my general practice is to be on the play-ground for all the time except half-an-hour; Mrs. Bardwell does play-ground duty at no regular time; she is nearly always on the play-ground from 1.30 to 2 p.m.; when leaving school the girls had to wait for infants and not infants for girls; I remember Mr. Rooney saying to me, "You need not trouble further about the time-book, as I am determined not to be any longer the tool of other people;" this was early in February last; on the previous evening Mrs. Bardwell told me that Mr. Rooney had mentioned to her that he had been induced to make things annoying to her under pressure from Mr. Wright; this was told me immediately after an interview she had with Mr. Rooney at his request.

*To Mr. Rooney:* You advised me when I first came to the school to try and work smoothly with Mrs. Bardwell; I once remarked to you that it was very singular Mrs. Bardwell suspected everybody; I have been frequently at Mrs. Bardwell's house; I have asked certain girls about the case; I have allowed girls to leave their class and go into the belfry since the case began; they said they were to give evidence; they were so fidgety, expecting to be called that I thought it best to put them in the belfry; I don't know whether Mrs. Bardwell or Mrs. MacLaggart complained first about the practice respecting girls calling for their infant brothers and sisters to take them home; you never gave me permission to sign the time-book for Mrs. Bardwell when she left school during school-time.

*To Mr. Heyden:* Mr. Rooney once said to me, "You will never get a position; you are too useful here."

MARY SULLIVAN.

Jane Smith, 39 years, Sewing Mistress, Pyrmont Public School.

*To Mr. Heyden:* I left the Crown-street School in June last; I was three weeks with Mrs. Bardwell; she was kind and courteous to me; she was never otherwise to anyone else.

*To Mr. Rooney:* During the three weeks I was at the school, Mrs. Bardwell was absent about ten days.

JANE SMITH.

Mary Rock, 30 years, Sewing Mistress, Redfern Public School.

*To Mr. Heyden:* I worked in the same school with Mrs. Bardwell for seven months; we worked smoothly together during the whole time, except on one solitary occasion—we had a coolness.

*To Mr. Rooney:* I went to Mrs. Bardwell's house by invitation last Tuesday; I was not on visiting terms before; I met Miss Sullivan there; we talked about the investigation; I told Mrs. Bardwell that if I was to be in the investigation I would have preferred to be summoned in the ordinary way.

MARY ROCK.

Julia Sullivan, 23 years, Assistant Sewing Mistress, Crown-street School.

*To Mr. Heyden:* I have been here nearly four months; Mrs. Bardwell's treatment of me has been everything that I could wish for.

JULIA SULLIVAN.

Emma Moir, 14 years, pupil-teacher, Waverley Public School.

I left Crown-street School six weeks ago; I was a pupil there during the whole of Mrs. Bardwell's time; I never saw Mrs. Bardwell treat any teacher unkindly; I was never there when anything took place between Miss Thomson, Miss Chaffer, and Miss Laird; Miss Thomson, Miss Lee, Miss M'Limont, and Miss Bates did the play-ground duty; I have seen Miss Buckley do play-ground every day I was at school too; I have seen Miss Sullivan on the play-ground, but not regularly; I have never seen Mrs. Bardwell doing duty on the ground; I have never seen her going about seeing that other teachers did their duty.

*To Mr. Rooney:* I have said good and bad things of Mrs. Bardwell to Miss Hooper.

EMMA MOIR.

Florence Marks, 10 years pupil in the Girls' School.

*To Mr. Heyden:* I have been here a pupil since the school was opened in the present building; Miss Holmes enticed the girls to come to her; she broke the order given by Mrs. Bardwell; I have seen Miss Chaffer and Miss Thomson sneer at Mrs. Bardwell; when Mrs. Bardwell gave an order, they would turn their heads as if they could give it better; when Mrs. Bardwell gave an order to the teachers, she was firm and would have it obeyed.

FLORENCE MARKS.

Kate Buckley, 21 years, supernumerary Crown-street, Girls':—

*To Mr. Heyden:* I have been at this school seventeen months; Mrs. Bardwell has treated me very kindly; play-ground duty is done as follows, from 12.30 to 1.30; Miss M'Limont and Miss Bates do duty from 1.10 to 1.40; Miss Buckley and Miss Thomson do duty from 1.40 to 2 p.m., all teachers except those who did duty in school.

*To Mr. Rooney:* Mrs. Bardwell does not do any regular play-ground duty.

KATE BUCKLEY.

Mary

Mary Sullivan, recalled:—

*To Mr. Heydon* : I complained to Mr. Rooney, by direction of Mrs. Bardwell, about the way in which the woman cleaned the girls' department; the out-houses were not specially referred to; I understood at the time that Mr. Rooney had authority over the woman.

*To Mr. Rooney* : I always paid the girls' share of the cleaning to you; I did not think anything about the out-houses when I delivered Mrs. Bardwell's message to you; the writing in the closets had not entered into my mind; I spoke to you about the matter about the beginning of May.

*To Mr. Heydon* : When I spoke of the department to Mr. Rooney I meant the whole of the premises, including out-buildings; the teachers adhered faithfully to the time-table; I do duty in the front regularly.

MARY SULLIVAN.

Clara Kirkham, 15 years, pupil of the Girls' School:—

*To Mr. Heydon* : I remember the morning Miss M'Limont went away; Mrs. Bardwell shook her finger before her face; she did not shake her fist.

*To Mr. Rooney* : Miss Sullivan asked the girls yesterday about this matter, about the shaking of the finger.

CLARA KIRKHAM.

Emily Lyons, 14 years, pupil of the Girls' School:—

*To Mr. Heydon* : I remember when Miss M'Limont went away; Mrs. Bardwell shook her finger before Miss M'Limont's face; she has a habit of doing that when talking to any one.

*To Mr. Rooney* : Mrs. Bardwell seemed angry that morning; Miss M'Limont was crying; Mrs. Bardwell was angry when she shook her finger.

EMILY LYONS.

Mabel Harris, 13 years, pupil in the Girls' School:—

*To Mr. Heydon* : I remember when Miss M'Limont went away; Mrs. Bardwell shook her finger before Miss M'Limont, but not before her face.

MABEL HARRIS.

Kate Cummings, 15 years, pupil in Girls' School:—

*To Mr. Heydon* : I have seen Miss Sullivan, Miss Lees, Miss Thomson, and Miss Buckley do playground duty; Miss Sullivan comes on the ground about half-past 1; this is a regular rule.

*To Mr. Rooney* : No one has spoken to me on this case; I do not go home to my lunch.

KATIE CUMMINGS.

Amy Grace, 14 years, pupil:—

*To Mr. Heydon* : I always go home to my lunch; I come back at 20 minutes to 2; when I come back I find Miss Sullivan, Miss Thomson, Miss Buckley, and Miss Lee on the playground.

AMY GRACE.

Alice Burney, 15 years, pupil:—

*To Mr. Heydon* : I go home to dinner; I generally return to school at a quarter to 2—sometimes earlier; I see on the play-ground when I come back Miss Sullivan, Miss Buckley, Miss Lee, and Miss Thomson; Miss Sullivan is generally in the front and round by the infants.

ALICE BURNEY.

Dora Wright, 14 years, pupil of the Girls' School:—

*To Mr. Heydon* : Miss Sullivan begins play-ground duty before half-past 1; this is a regular thing.

DORA WRIGHT.

Sarah Felton Betteridge, Sewing Mistress:—

*To Mr. Heydon* : I have been in my present position five months; I have observed Mrs. Bardwell's general demeanour to the teachers under her; I consider it sufficiently strict, but not unkind; she has treated me well; she has not in my hearing spoken to the class in such a way as to be unkind to the teachers.

*To Mr. Rooney* : I am generally engaged at the farthest end from the class-rooms; it is possible for Mrs. Bardwell to scold teachers in the class-rooms without my knowing it.

SARAH FELTON BETTERIDGE.

Eliza C. Hall, Assistant, Girls' Department:—

*To Mr. Rooney* : I have seen Mrs. Bardwell and Miss Sullivan sitting at the table in the school-room between 1:30 and 2 p.m.; I think she gets into the play-ground at from 25 to 20 minutes to 2.

ELIZA C. HALL.

Emma Lee, pupil-teacher, Girls' School:—

*To Mr. Rooney* : No one is in a better position to say what time Miss Sullivan begins duty than I. she commences play-ground duty at 20 minutes to 2, or thereabouts; it may be between half-past 1 and 20 minutes to 2.

EMMA LEE.

Mrs. MacTaggart, Head-mistress, Infants' School:—

*To Mr. Rooney* : I have had no reason to be dissatisfied with the woman who cleans the out-offices; I have made no complaints to you about the cleaning of my department.

E. MACTAGGART.

Mary Burke, 3rd Assistant, Infants' School :—

*To Mr. Rooney :* I remember your going to the girls' out-houses about five weeks ago ; there were eight or nine girls there ; it was after 3 o'clock ; they were shouting and making a noise ; no one was in charge of them ; this generally happens on a Friday.

MARY BURKE.

Hugo Alpen, 38 years, Teacher of Music :—

*To Mr. Heydon :* I have known Mrs. Bardwell for eighteen months ; I taught in her school for four or five months ; I found her amiable and easy to work with ; she had her school in good order, and I had no difficulty in managing my class.

*To Mr. Rooney :* I was in the Redfern school under Mrs. Bardwell for three quarters or above at a time twice a week.

HUGO ALPEN.

Mr. S. E. Watts, about 3 years Head Master of Redfern :—

*To Mr. Heydon :* I have worked in the Redfern School with Mrs. Bardwell for 7 months ; I had no difficulty whatever in working with her ; I believe she is an excellent manager of girls, and that her management of her school was a success ; I had no reason to doubt that she possessed tact, judgment, and evenness of temper ; I have heard the charges of which Mrs. Bardwell is accused ; I do not think it likely she could be guilty of them.

*To Mr. Rooney :* I hold a classification of II.B. by examination ; I am not aware that the attendance of the department diminished under Mrs. Bardwell's management ; I was not aware that the work of her department was mainly done by her assistant.

SAMUEL E. WATTS.

We certify that the foregoing depositions are correctly taken, and that they truthfully represent the evidence given in each case.

Crown-street Public School, 15th June, 1881.

E. JOHNSON.  
R. N. MORRIS.

### No. 12.

Minutes of Evidence taken in an inquiry into Charges preferred by Mrs. S. M. Bardwell, Head Mistress of Crown-street Public School, against Mr. J. Rooney, Head Master of the same.

Before entering upon this case Mr. Rooney handed in the protest marked A.

The Court, after due consideration, decided not to prohibit Mrs. Bardwell from continuing to have the assistance of a lawyer.

Mr. Rooney objected to the vagueness of the charges. The Court overruled the objection on the ground that it was made too late—copy of charges having been received by Mr. Rooney 19 days ago.

**CHARGE I:** *My authority as Head of the Department has been endangered and my capacity for managing the school disturbed by the conduct of the Head Master, who by discourtesy to me, by innuendo and disparagement of me to teachers under my direction, has striven to induce a feeling of discontent in their minds and to lead them to acts of disobedience and disrespect towards me.*

Alice Totterdell, 14 years, Pupil in Girls' School :—

*To Mr. Heydon :* I have seen Mr. Rooney in the school frequently ; his manner agitated Mrs. Bardwell greatly ; one day Mr. Rooney was talking to Mrs. Bardwell a quarter of an hour ; we were kept waiting ; I never noticed Mrs. Bardwell treated by Mr. Rooney with any great discourtesy ; he has always introduced visitors to Mrs. Bardwell when I have been at school ; on one occasion Mr. Rooney called for a girl and took her to the door of the 5th class and examined her hands ; he asked the teacher for the girl.

*To Mr. Rooney :* I noticed that you asked for Caroline Solomon ; you showed no discourtesy then.

ALICE TOTTERDELL.

In reference to the above matter I beg to hand in the two communications marked T and V respectively.

JOHN P. ROONEY.

Lizzie Davies, 15 years, Pupil of the Girls' School :—

*To Mr. Heydon :* Mr. Rooney's demeanour to Mrs. Bardwell has been harsh on two or three occasions ; he brought visitors into the school and did not introduce them to Mrs. Bardwell ; I consider that to be ungentlemanly conduct ; he found fault with Mrs. Bardwell about twice before the class.

E. DAVIES.

Mrs. Sullivan, First Assistant, Girls' School :—

*To Mr. Heydon :* I remarked two instances on which Mr. Rooney was discourteous to Mrs. Bardwell ; on one occasion he told her that the books should be to his hand when he wanted them, and on another occasion he told her to give up the class to the First Assistant, as it was her duty to wait on him and the public ; I consider this conduct on the part of Mr. Rooney would endanger the authority, and incapacitate her for carrying on the school ; he told me on one occasion that Miss Holmes should have mocked and grinned at Mrs. Bardwell instead of crying ; he also told me on another occasion that I would never get a position, as I was too useful at Crown-street.

*To Mr. Rooney :* Mrs. Bardwell may have refused to let you have the Punishment Book ; Mrs. Bardwell might have got the Punishment Book for you if she liked ; she called me to get the book ; you said it was foolish for Miss Holmes to cry ; you did not tell me to quarrel with Mrs. Bardwell ; I never knew of your being discourteous to me or to any one except Mrs. Bardwell.

MARY SULLIVAN.

At this point Mr. Heydon put in letter marked "S."

Emma

Emma Lee, pupil-teacher, Girls' School :—

*To Mr. Heydon :* I do not remember Mr. Rooney saying anything against Mrs. Bardwell at any time. EMMA LEE.

John Walther, 57 years, builder :—

*To Mr. Heydon :* I put a lock on the door ; Mr. Rooney and Mrs. Bardwell were together ; he was excited ; he spoke sharply ; I did not hear what he said ; I am not able to say that his conduct was discourteous to Mrs. Bardwell. JOHN WALTHER.

Sara Thomson, pupil-teacher, Crown-street Girls :—

*To Mr. Heydon :* On one occasion I accidentally overhead Mr. Rooney say to Miss Holmes, "That woman has been complaining again." SARA H. THOMSON.

CHARGE II.—*Failing to reprimand or report a pupil-teacher guilty of misconduct towards Head Mistress, and recommending such pupil-teacher highly.*

Emma Lee, Pupil-teacher, Crown-street Girls :—

*To Mr. Heydon :* Miss Laird has not mentioned to me how she got in the senior division of the Training School ; she did not say who recommended her ; I never told Mrs. Bardwell that if the other pupil teachers ridiculed her, Miss Rush would not ; Mrs. Bardwell was continually asking me, when I first came here, what the other teachers said about her ; I replied that whatever others might say, Miss Rush would not.

*To Mr. Rooney :* I never knew pupil-teachers to enter into conversations while under your instruction ; I never heard you or the teachers speak about Mrs. Bardwell during lessons ; Mrs. Bardwell told me to report to her all I heard when down in the other departments.

EMMA LEE.

Mary Sullivan, First Assistant, Girls' School :—

*To Mr. Heydon :* I heard that Mr. Rooney recommended Miss Laird highly when she entered the Training School ; I heard Miss Lee say Miss Laird boasted that she had got into the upper division of the Training School through Mr. Rooney's good report on her ; in January last, Mrs. Bardwell told me that he had promised to report unfavourably of Laird when she entered the Training School, on account of her rudeness to Mrs. Bardwell ; it was on the strength of this promise that she consented not to press him to report Miss Laird at the time her misconduct took place ; I heard Miss Lee say to Mrs. Bardwell repeatedly that Mr. Rooney had been disparaging her (Mrs. Bardwell).

*To Mr. Rooney :* I don't remember exactly what Miss Lee said, but on two occasions your disparagement of Mrs. Bardwell had reference to object lessons.

MARY SULLIVAN.

CHARGE III.—*Has endeavoured to destroy head-mistress's reputation as a teacher, to prevent school from attaining a high character for efficiency, and to thwart her efforts to maintain its harmony and discipline.*

Charles W. Friend, 22 years, First Assistant, Boys' Department :—

*To Mr. Heydon :* I entered on my duties in this school on 3rd May last ; I have not heard Mr. Rooney speak disparagingly of Mrs. Bardwell at any time ; he has never told me his sentiments respecting Mrs. Bardwell.

*To Mr. Rooney :* Mrs. Bardwell has sent for me ; she asked me who were to be the witnesses ; I mentioned one or two names.

CHAS. W. FRIEND.

Mrs. S. Betteridge, Sewing Mistress :—

*To Mr. Heydon :* I have not heard Miss Lee tell Mrs. Bardwell that Mr. Rooney was disparaging her, but that he ridiculed an object lesson Mrs. Bardwell had given ; I did not know that Mrs. Bardwell had given the lesson.

*To Mr. Rooney :* I have never heard you speak disparagingly of Mrs. Bardwell or of her object lessons.

S. F. BETTERIDGE.

Julia Sullivan, Assistant Sewing Mistress, Crown-street :—

*To Mr. Heydon :* On one occasion I heard Miss Lee tell Mrs. Bardwell that Mr. Rooney had ridiculed the arrangement of the notes of an object lesson she had prepared for him.

*To Mr. Rooney :* I never knew you to disparage Mrs. Bardwell or her object lessons.

JULIA SULLIVAN.

Mary Sullivan, First Assistant, Girls' School :—

*To Mr. Heydon :* Some boys before last Christmas used to be left by themselves, and they were occasionally noisy and opened the door leading to the girls' room ; I complained, by direction of Mrs. Bardwell, to Mr. Rooney of the conduct of some of the boys throwing stones at the girls. He thanked me, and said he would stop it ; it continued afterwards ; the boys congregated round the girls' gate, and interfered with the girls.

MARY SULLIVAN.

CHARGE

CHARGE IV.—*Mr. Rooney acknowledged to Mrs. Bardwell that he was prompted to persecute her by a desire to please another officer in the service.*

Mary Sullivan, First Assistant, Girls' School :—

*To Mr. Heydon :* I remember Mr. Rooney asking for an interview with Mrs. Bardwell ; it occurred in first week in February last ; I saw Mrs. Bardwell after the interview ; she said Mr. Rooney had been acting against her under pressure from Mr. Wright, and that he would never do it again, and begged her to tear up the correspondence, or rather that the correspondence might be torn up ; the next morning he said I might sign Mrs. Bardwell's time, and that he was determined not to be other people's tool any longer ; the day before he had said he would report me if I signed her time ; he suddenly became very amiable ; previously I thought he was disposed to annoy Mrs. Bardwell.

*To Mr. Rooney :* I heard no part of the conversation that passed between you and Mrs. Bardwell ; I do not know of my own knowledge that you were the tool of anybody ; I never thought you were acting as a tool before Mrs. Bardwell spoke to me about it.

*To Mr. Heydon :* I never saw Mrs. Bardwell give Mr. Rooney any provocation for his treatment of her.

MARY SULLIVAN.

Julia Sullivan, Assistant Sewing Mistress :—

*To Mr. Heydon :* I heard Mr. Rooney say on an occasion in February last that he would be the tool of people no longer.

*To Mr. Rooney :* I heard nothing more than the words stated ; I entered on my duties here on 8th February ; I heard you say it up stairs ; it was not in this room.

JULIA SULLIVAN.

CHARGE V.—*Head Master has received and inquired into written complaints from a refractory pupil-teacher ; has prompted parents to discontent, and interfered with the teaching and management of girls' department.*

WITH regard to the part of the charge referring to a refractory pupil-teacher, I desire to say that I received a letter from Miss Thomson, pupil-teacher, through the post. I sent a copy of the letter to Mrs. Bardwell, with a request thereon that she would make any remarks she deemed proper. I waited two days for a reply ; I got none, and I then forwarded Miss Thomson's letter to the inspector. I held no investigation into the matter at all.

JOHN P. ROONEY.

Evidence on the unnecessary interference of Mr. Rooney with Mrs. Bardwell, in the performance of her duties, has already been given in the defence of Mrs. Bardwell against Mr. Rooney's charges. As the evidence now proposed to be brought forward was a mere repetition of that previously given ; the Court considered it unnecessary to receive it.

Chas. W. Friend, First Assistant, Crown-street Public, Boys' :—

*To Mr. Rooney :* I have never known you to sneer at any teacher, or to speak disparagingly of any teacher ; I should be surprised to hear that you were charged with encouraging teachers to mock and jeer at their superiors ; I did send you the note now handed to me ; I sent it to you because the girls were making a noise in the adjoining room to mine, and I could not teach on account of the noise ; when Mrs. Bardwell sent for me the other evening about this case she did not speak to me in disparaging terms of you.

CHAS. J. W. FRIEND.

Frederick W. King, Third Assistant, Crown-street, Boys' :—

*To Mr. Rooney :* I have never heard you speak disparagingly of any teacher ; I should be surprised to hear that you were charged with being the tool of any one.

FREDERICK W. KING.

Alexander McDiarmid, 17 years, Pupil-teacher, Crown-street, Boys' :—

*To Mr. Rooney :* I attend the lessons given by you to the pupil-teachers ; I have never heard you speak disparagingly of lessons given by others ; I have not heard you speak disparagingly of Mrs. Bardwell ; all notes of object lessons prepared by pupil-teachers are shown to you ; that is the rule ; we are supposed to show you our own notes, not those of others ; you do not speak in loud or harsh tones in school ; you are uniform in your behaviour in this respect.

ALLAN McDIARMID.

William Anderson, 16 years, Pupil-teacher, Crown-street, Boys' :—

*To Mr. Rooney :* I attend pupil-teachers' lessons ; I have never heard you speak of Mrs. Bardwell or disparage any one ; the rule about object lessons is that we are to bring our own notes and show them to you ; you are uniformly kind in school ; I have never heard you speak in loud rough tones.

WILLIAM ANDERSON.

Kate Landreth, 25 years, Head Mistress, William-street, Girls' :—

*To Mr. Rooney :* I was mistress of Marrickville Public for 3 years ; you were master of the boys' department there during the same period ; you were exceedingly courteous and gentlemanly in your manner to me ; no unpleasantness occurred between any of the teachers during the time I was associated with you ; I should be surprised to hear that you were charged with being the tool of anyone ; all the teachers of the school were satisfied with the way in which you behaved to them.

*To Mr. Heydon :* I have had no communication whatever with Mr. Rooney about the case.

KATE LANDRETH.

George Douglas Young, 20 years, Second Assistant, Crown-street, Boys' :—

*To Mr. Rooney :* I have never known you to speak disparagingly of any teacher ; you have never named Mrs. Bardwell to me ; your demeanour to teachers and pupils of the school is very quiet and kind.

GEORGE D. YOUNG.

Helen

Helen Fox, First Assistant, Crown-street, Infants :—

*To Mr. Rooney :* I have known you as teacher for five years ; I was a pupil-teacher under you at Morpeth ; you were held in high estimation by every one in Morpeth ; I never knew any unpleasantness between the teachers at that school ; I consider that you have always acted as a gentleman ; you usually talk in a mild tone ; I have known Mrs. Bardwell's time of arrival at school to be signed incorrectly.

*To Mr. Heydon :* It occurred a few weeks since.

H E L E N E. F O X.

Mary M'Limont, assistant, Redfern Public School :—

*To Mr. Rooney :* While at Crown-street I never heard you speak in loud or harsh tones ; I have never known you to waste anyone's time in the Girls' School. You never spoke to me in disparaging terms of Mrs. Bardwell ; you were always cool and collected when in the Girls' School.

*To Mr. Heydon :* I am the young lady in whose face Mrs. Bardwell shook her fist ; the third-class—upper and lower—was on the ground when it occurred.

*To Mr. Rooney :* Mrs. Bardwell had her back to the classes when she shook her fist in my face, and I was facing the classes ; I did not think Mrs. Bardwell was threatening me at the time I speak of ; she was impugning my veracity at the time.

M A R Y M C L I M O N T.

Caroline Solomon, 12 years, an ex-pupil of Crown-street Girls' :—

*To Mr. Rooney :* I don't remember the month in which my brother brought you the letter about Mrs. Bardwell's caning me on the wrist ; Mrs. Bardwell called me out of the class ; you spoke to me outside the schoolroom door ; you spoke very softly ; I was on the gallery, and I could not hear you talking ; you did not appear angry with me, or with Mrs. Bardwell ; when you examined my wrist, you said you saw no marks on it.

*To Mr. Heydon :* He told me he would speak to Mrs. Bardwell about it ; I have not seen Mr. Rooney about this case.

C A R O L I N E S O L O M O N.

Tenelba Melville, 24 years, Assistant, Darlington Public :—

*To Mr. Rooney :* I was a pupil-teacher under you at Marrickville ; I was in the Infants' department ; your uniform demeanour was that of a gentleman ; no case of unpleasantness occurred among the teachers while I was under you ; your usual way of speaking was not in loud or harsh tones ; I would not believe that you would encourage any subordinate teacher to laugh or smile at a superior teacher.

T E N E L B A M E L V I L L E.

Mrs. Elizabeth MacTaggart, Head Mistress, Infants' School :—

*To Mr. Rooney :* Your demeanour was very courteous and polite to all the teachers ; I have never heard you speak in loud or harsh tones about the premises.

E. M A C T A G G A R T.

Mary Sullivan, First Assistant, Girls' School :—

I have signed Mrs. Bardwell's time in error ; it was a mistake.

M A R Y S U L L I V A N.

Sara Thomson, Pupil-teacher, Crown-street, Girls :—

*To Mr. Rooney :* I remember some gentlemen visiting the school about six weeks ago—before Easter ; I do not think there would be any necessity for you to introduce one of them—Mr. Plunkett—as he was formerly an assistant in the school under you ; I remember Sergeant Healy calling at the school ; you merely went to the door with him and looked in ; subsequently, I heard Sergeant Healy say he would not allow himself to be introduced to Mrs. Bardwell.

S A R A H. T H O M S O N.

We certify that the foregoing depositions are correctly taken and that they truthfully represent the evidence given in each case.

E. J O H N S O N.  
R. N. M O R R I S.

Crown-street Public School, 20 June, 1881.

### No. 13.

#### Miss M. Booth to Mr. Rooney.

Dear Sir,

Superior Public School, Wallsend, 24 May, 1881.

Notwithstanding the unpleasant duty of making charges against any person, I feel bound to answer your request as truthfully as memory will allow me.

I have, while in attendance at Crown-street Girls' School, seen Mrs. Bardwell manifest great violence of temper in the presence of the children towards the subordinate teachers, especially towards Miss Holmes and Miss Chaffer.

As for myself, for some little time Mrs. Bardwell's manner towards me was both harsh and unkind ; but, other than that short period, I received no ill-treatment.

I have known her scold teachers before the girls, and accuse them of not doing their duty.

I have known her stamp her feet in temper in school.

Repeatedly I have noticed the teachers crying and fretting on account of her harshness, and I have been convinced that the school girls noticed and were aware of the reason of it.

They have even ventured to speak to me of her unlady-like behaviour ; but I of course forbade them ever speaking of such a thing again.

I received your letter while very busy, and have had to answer it in the Station Office very hurriedly.

I remain, &c.,

M A R Y B O O T H.

Signed in my presence, this 6th June, 1881—

A N D R E W N A S H, J. P.,

and in presence of—

J A M E S J O S E P H W A L S H.

## No. 14.

Mr. Rooney to Miss M. Booth.

Madam,

Superior Public School, Crown-street, 4 June, 1881.

I have the honor to request that you will furnish me with a statement concerning the treatment you received from Mrs. Bardwell during the time you were in the Girls' Department of Crown-street Public School; the treatment of other teachers by Mrs. Bardwell, the witnessing of which you can testify to; any other remarks you may please to make concerning the discipline and management of the Girls' School while you were in attendance, together with your opinion of Mrs. Bardwell's general demcanour.

Please have your statement attested or signed in the presence of a Justice of the Peace or some other respectable person.

I have, &amp;c.,

JOHN P. ROONEY.

## No. 15.

Miss M. Booth to Mr. Rooney.

Sir,

Superior Public School, Wallsend, 6 June, 1881.

In explaining the statements made against Mrs. Bardwell in the accompanying letter, I have the honor to inform you that the treatment I received was as follows:—

During the time that I was lying under Mrs. Bardwell's displeasure, she, several times, in the presence of the children, spoke to me harshly, accused me of neglect of my duty, and assumed on the whole an uncivil and overbearing manner towards me.

On one occasion she asked me my religion—if I were not a Roman Catholic, and, on my replying "No," said that she had for some time been under such an impression, and had treated me accordingly, or some remark to that effect.

From what she said then, and her subsequent behaviour, I was led to conclude that Mrs. Bardwell's harshness towards myself was *partly* owing to such a supposition. I did not remain many days, I think, after that; but during such time as I did, I remember no more unpleasantness.

My memory fails to retain all that took place during the numerous scenes of which I was witness; but on one occasion I distinctly remember being at some distance from Mrs. Bardwell during school hours, and hearing her stamp her foot on the ground and make use of the words, "I'll go through hell-fire before I'll be put upon." Whether this was to another teacher I do not know. It was on the occasion of the mistress of the infant department complaining to Mrs. Bardwell of the roughness of some of the school girls.

I have, &amp;c.,

MARY BOOTH.

Signed in our presence, this 5th June, 1881.—ANDREW NASH, J.P.; JAMES JOSEPH WALSH.

## No. 16.

Department of Public Instruction, Sydney, 29 April, 1881.

MEMORANDUM from the Chief Inspector to J. P. Rooney, Esq., teacher of the Public School at Crown-street.

Miss Mary Bates—Withdrawal of.

The temporary attendance of Miss Mary Bates, at the school under your charge, has been discontinued.

E. JOHNSON,

Chief Inspector.

## No. 17.

Department of Public Instruction, Sydney, 7 May, 1881.

MEMORANDUM from the Chief Inspector to Miss Bates, Public School, Crown-street.

Your attendance at the St. Leonards Public School.

FROM information received at this department it appears that you have not yet entered upon duty at the Public School at St. Leonards, although you were instructed on the 29th April ultimo to attend thereat.

It is therefore requested that you will be good enough to furnish such an explanation as you may be in a position to afford in regard to your neglect of that instruction.

E. JOHNSON,

Chief Inspector.

## No. 18.

Superior Public School, Crown-street, 14 May, 1881.

The Head Master of Crown-street Superior Public School, reporting Mrs. Bardwell, Mistress of the Girls' Department, for violating the regulations, not attending to instructions, instigating subordinate teachers to disobey the Chief Inspector and the Head Master, absenting herself from duty, and her general bad management of the Girls' Department.

Sir,

I do myself the honor to bring under your notice the following charges, which I deem necessary to make against Mrs. Bardwell, Mistress of the Girls' Department, Superior Public School, Crown-street.

*Violating the Regulations.*

On the 2nd instant, I informed Mrs. Bardwell that no children were to be admitted to her department until the total enrolment of girls fell below the number specified by the District Inspector in his letter of July, 1880. In reply, she stated that she had received instructions at the office, by which

which she was empowered to admit any girls that might apply; she said these instructions were not in writing; I informed her that I could not receive instructions through her; Since that time I find that Mrs. Bardwell has admitted twenty (20) girls to the department, twelve (12) on the 2nd of May, three (3) on the 5th, and five (5) on the 9th. I did not know anything concerning the admission of these twenty girls till the 12th instant, when I found their names on the records of the Girls' School. (Memo. A.) Mrs. Bardwell often being away from her duties during school hours, I asked her on the 31st of January last to sign the time of her departure and return in the time book; she refused to do so; she has frequently been away during school hours for periods varying from one to three hours. Formerly she used to intimate to me that she intended "going to the office," or "going to see the Under Secretary," but since February, with one exception, she has intimated to me when going, that she wanted "to be away on school business." On no occasion has she intimated the time of her return, and on the 9th instant, she did not give me any information either as to departure or arrival, although I understand she was at the Office of Public Instruction during school hours on that day. (Memo. B.)

*Record of Corporal Punishment.*—No records or entries were made between the 13th October, 1880, and the 31st January, 1881. (Memos. C. D. & E.)

Up to the present Mrs. Bardwell has not notified in the Admission Register the removals and promotions of pupils, although many have left the school, and many have been promoted.

*Not attending to Instructions.*

On the 19th of January last, I requested Mrs. Bardwell to inform me what arrangements had been made for the performance of Miss Thomson's duties during her absence on the 17th and 18th of January. My memorandum was returned on the following day without the required information. (Memo. F.)

On the 12th of May I found a pupil of the school in sole charge of the first-class of girls, about sixty-five in number, and in a class-room remote from the main room of the Girls' Department. I informed Mrs. Bardwell that it was irregular to place a person unauthorised by the Department of Public Instruction in charge of a class of girls. On the next day, however, I found the same girl in charge of a class, and in the same class-room. (Memo. G.)

*Instigating Subordinate Teachers to disobey the Chief Inspector.*

On the 30th April, the Chief Inspector informed me by memoranda that Miss Bates and Miss M'Limont had been withdrawn from temporary attendance at the school under my charge. Miss Bates and Miss M'Limont also received letters from the Chief Inspector directing them respectively to attend the St. Leonards and Redfern Public Schools. At 9.15 o'clock on Monday morning, the 2nd of May, these teachers informed me that Mrs. Bardwell desired them to remain at Crown-street. Miss M'Limont asked me for advice, and I recommended her to obey the Chief Inspector's instructions, and told her to go to Redfern as it was her duty to do so, otherwise a report might be forwarded from that school complaining of her non-attendance thereat, and that, as she was receiving promotion, she incurred the risk of losing it. Soon after, Mrs. Bardwell, in a most violent manner, attacked me in presence of the assembled boys, asking in a loud tone whether I said I would report Miss M'Limont. On my explaining to her the state of things she said, "I will go down at once and report you, and compel that Miss M'Limont to be a witness against you." At 10 o'clock she left her duties, and after some time returned and exhibited to these teachers a note which she said was given to her by Mr. Wilkins, and which said "they might remain." This note or the purport of it was made known to me by Mrs. Bardwell. On Miss M'Limont stating that she did not know what to do, but thought her proper course was to go to Redfern, Mrs. Bardwell said, "Why are you wavering?" and pointing to the note asked, "Do you dare to defy the Under Secretary and myself and obey that man down-stairs in preference?" Miss M'Limont then asked to be allowed to go down to see the Under Secretary and the Chief Inspector, but Mrs. Bardwell refused, saying "You shall not leave this school." Although these teachers wished to leave and take advantage of their promotion, they informed me after school, that they were frightened of Mrs. Bardwell who said she would get them into trouble if they left. Mrs. Bardwell allowed her temper to display itself against Miss M'Limont in front of the assembled classes of girls. Miss M'Limont went to Redfern the next morning, but Miss Bates on that morning saw Mr. Wilkins, who, after being informed of the matter, advised her to return to Crown-street, and he would see that it would be all right. On her return, Mrs. Bardwell told her that going to Mr. Wilkins was the "worst day's work she had ever done."

On the 7th instant I reported to the Inspector the disobedience on the part of Miss Bates, and on the 10th she was asked by the Chief Inspector for an explanation of her conduct. A similar request was made by R. N. Morris, Esq., Inspector of Schools. Immediately after her return from Sydney on the 10th instant Mrs. Bardwell sent for Miss Bates and told her to go away, and said "Never let me see your face in this school again."

*Absenting herself from duty.*

On the 4th instant Mrs. Bardwell was absent during the whole day, and as yet has not intimated her absence. Besides this, during the last nine months Mrs. Bardwell has been frequently away during school hours.

*General bad management of the Girls' Department.*

During the past twelve months Mrs. Bardwell has quarrelled with the following teachers, often in the presence of the pupils:—Miss Holmes, Miss Booth, Miss Chaffer, Miss Laird, Miss Chandler, Mrs. Duff, Mr. J. C. Fisher, Miss Thomson, and Miss Cahill. I have seen several of the female teachers crying and sobbing in the school-rooms on account of Mrs. Bardwell's harsh treatment. The infant School Mistress has frequently called my attention to the disorder of the girls when passing through the halls, and to the utter want of respect towards her on the part of some of them.

The supervision of the out-houses has not been properly carried out. On the 11th instant I forwarded on this subject to Mrs. Bardwell (Memo. H), which she returned on the following day with certain remarks written on the back.

Mrs. Bardwell is in the habit of holding converse with the subordinate teachers, wherein she speaks of Examiners, Inspectors, and other officials, in disparaging terms; and in speaking about me she has stated that "letters have been received at the Education Department asking why such a man was placed at the head of Crown-street Public School."

The public estimation of the school is likely to be seriously lowered by her style of composition and bad spelling, as manifested in her memoranda and children's exercise books.

In conclusion, sir, I may be permitted to state that I have used the utmost forbearance towards Mrs. Bardwell; and it is only now, when my authority as Head Master is openly defied, and when endeavours are made to lower me in the eyes of pupils and teachers, that I feel it incumbent on me, through a sense of duty to myself, the department, and the public, to make these allegations against her.

I have, therefore, the honor to respectfully request that these charges may be laid before the Hon. the Minister for Public Instruction, feeling assured that truth must prevail, and that the result will be for the benefit of Crown-street Superior Public School.

I have, &c.,

JOHN P. ROONEY,  
Head Master.

District Inspector,—I received the enclosed documents by post. Please inform me what action I should take.  
20/5/81.

R. N. MORRIS.

Inspector Morris, for inquiry and report.—B.C., 21/5/81.—J. McC.

### No. 19.

Memorandum from the Head Master of the Public School at Crown-street, to — Morris, Esq.,  
Inspector of Schools.

Miss Mary Bates—withdrawal of.

Superior Public School, Crown-street, 7 May, 1881.

THE Chief Inspector instructed me, on the 29th April, 1881, that Miss Mary Bates had been withdrawn from the school under my charge, and I have no to report that she still continues in temporary attendance as before, although I protested against her remaining, and advised her not to disobey the Chief Inspector's instructions.

JOHN P. ROONEY,  
Head Master.

Wrote note for explanation, 11/5/81.—R.N.M.

### No. 20.

Miss Bates to Inspector Morris.

Sir,

Public School, St. Leonards, 11 May, 1881.

I have the honor to inform you, in reply to your letter of the 11th instant, requesting an explanation of my temporary attendance at the Crown-street Public School contrary to the directions of the Head Master, that I was about to follow those directions, and on the point of starting for St. Leonards, when I was prevented by Mrs. Bardwell, who commanded me to stay until she would come back from the Department of Public Instruction. When I showed some hesitation about waiting, and mentioned that I was afraid of getting into trouble if I did not at once comply with instructions received, Mrs. Bardwell's reply was, "You shall get into trouble if you disobey me," whereupon I decided to wait until she should come back from the office. Upon her return, Mrs. Bardwell brought with her a note, to the effect that I was to remain at Crown-street Public School till further notice, and signed by Mr. Wilkins. I did not, up to the 10th May ultimo (?), receive any further notice, and it was in obedience to that note that I remained.

I have, &c.,

MARY A. BATES.

R. Newton Morris, Esq., Inspector of Schools, Sydney.

B.C., Mrs. Bardwell, for explanation.—R. N. MORRIS, 19/5/81. B.C., Mr. Inspector Morris,—  
In reply to the above instruction, I beg to append a memo. from the Under Secretary.—S. M. BARDWELL,  
B.C., 23/5/81.

Department of Public Instruction, Sydney, 2 May, 1881.

MISS BATES and Miss M'Limont may remain at Crown-street until they receive further instructions.

W. WILKINS.

Detention of Miss Bates at Crown-street by Mrs. Bardwell.

I THINK that Mrs. Bardwell acted irregularly, in the first instance, in forbidding Miss Bates to leave the school before her return. (See appended note.) 14/5/81.

R. N. MORRIS.

Inspector Morris,

Be good enough to ask Mrs. Bardwell to furnish any explanation she may wish as to the statement of Miss Bates.

B.C., 17/5/81.

J. M'C.

District

District Inspector,—

My opinion now, after hearing Mrs. Bardwell's defence (see other sheet), is that, if she forbade Miss Bates to withdraw before receiving Mr. Wilkins' note (appended), she was wrong in doing so.

23/5/81.

R. N. MORRIS.

Chief Inspector,—

I am of opinion Mrs. Bardwell acted irregularly in detaining Miss Bates when she was ordered to proceed to another school, and I think she should be so informed.

B.C., 25/5/81.

J. M'C.

No. 21.

Memorandum from the Head Master, Crown-street Public School, to W. Dwyer, Esq., Inspector of Schools.

ENROLMENT OF PUPILS.

Public School, Crown-street, 21 February, 1881.

Understanding that the enrolment of pupils in the several departments of this school has been limited to the following numbers:—

Boys.....	600
Girls.....	400
Infants.....	500

I have up to the present acted in accordance with the limitation; but as additional rooms have been furnished lately, one for girls and one for boys, I beg to be allowed to extend the limit of enrolment for girls to 500, and for boys to 700.

JOHN P. ROONEY,  
Head Master.

Memo. No. 31-172. District Inspector. For your information. Under the circumstances I see no objection to the extension asked for.—W.D., 8/3/81

Inspector Dwyer,—You should show that the accommodation is sufficient for the additional numbers recommended by you.—B.C. 8/3/81.—J.M'C.

Memo. 81-203. District Inspector. The dimensions of the boys' classroom are 26 x 40 x 18 ft., and those of the girls' 26 x 20 x 18 ft. According to the authorized scale of measurement, each room would accommodate 187 and 93 respectively. 22/3/81.—W.D.

Chief Inspector. Approved. B.C., 5/4/81.—J.M'C. Under Secretary. Approved.—B.C., 25/4/81.—E.J. Submitted.—W.W. Approved.—Jno. R. Teacher and D.I. informed.—R.N.M., 18/5/81. Chief Inspector to note. B.C.—12 May, 1881. Returned, 23/6/81.

No. 22.

Memorandum from the Chief Inspector to Mr. J. P. Rooney, Teacher of the Public School at Crown-street, Department of Public Instruction, Sydney, 18 May, 1881.

Your letter of 21st February last.

WITH reference to the above letter, I am to state that the Minister has decided that the limit of enrolment for the boys' department of the school under your charge shall be seven hundred (700), and that for the girls' department five hundred (500)—the additional enrolment allowed under this arrangement being 100 in each case.

E. JOHNSON,  
Chief Inspector.

No. 23.

Chief Inspector to District Inspector M'Credie.

Crown-street Teacher's letter requesting permission to extend the limit of enrolment. Your memo. of 5th ultimo.

Department of Public Instruction, Sydney, 18 May, 1881.

THE teacher, Mr. Rooney, has been informed that the limit of enrolment for the boys' department of the above school shall be seven hundred (700), and that for the girls' department five hundred (500)—the additional enrolment allowed under this arrangement being 100 in each case.

E. JOHNSON,  
Chief Inspector.

Mr. Rooney to The Chief Inspector.

A.

Sir,

Crown Street Public School, 15 June, 1881.

I beg to be allowed to enter a protest against Mrs. Bardwell having a lawyer to assist her in the prosecution of her charges against me. If charges are made against me, I presume the truth or falsity of them can be established without the aid of a lawyer.

I have, &c.,  
JOHN P. ROONEY.

## No. 25.

A.

Memorandum from the Head Master to the Mistress of the Girls' Department.

Superior Public School, Crown-street, 2 May, 1881.

THIS morning I verbally intimated to you that the enrolment of pupils for the Girls' Department was limited to a certain number, and that as the number on rolls at present exceeds that limitation, no new pupils can be admitted until the total enrolment falls below the specified number. I cannot, therefore, enter the names of the girls sent to me at 12 o'clock this day.

I beg to call your attention to the regulation, which reads thus:—"All persons visiting the school on business should, in the first instance, be brought to the Head Master." In the future please allow all children asking admission to come to me without delay.

JOHN P. ROONEY,  
Head Master.

Memorandum to Principal Teacher, Girls' Department.—Record of Corporal Punishment.

No entry having been made in the punishment-book, girls' department, since 13th October, 1880, your attention is called to this infraction of the regulations.

31/1/81.

JOHN P. ROONEY,  
Head Master.

## No. 29.

117, Foveaux-street, Surry Hills, 28 January, 1881.

Mrs. SOLOMON's compliments to Mr. Rooney, and he will greatly oblige by seeing Mrs. Bardwell about the severe way she caned Miss Caroline Solomons, so much so that I had to bathe her hands all the following day. If you do not see to it I will be compelled to place it before the Board.

The Head Master has seen Mrs. B.

## No. 30.

D.

Memorandum from the Head Master to the Principal Teacher, Girls' Department.

Your Memo. in reference to inquiry concerning alleged harsh punishment of Caroline Solomons.

Public School, Crown-street, 3 February, 1881.

A LETTER was brought to me on the 31st ultimo, stating that Caroline Solomons had been cruelly punished by Mrs. Bardwell. The bearer of this letter required a reply, as on my explanation depended whether the parent of the girl would or would not report the matter to the higher authorities.

When I showed you the contents of the letter you denied the statements contained in it. I then quietly asked you to send the girl to me. After a deal of hesitation the girl was told to fall out of her class. I requested you to send her outside, as I did not wish to speak to her before the pupils.

Outside the school-room I questioned the child and examined her wrist. I then informed you that I believed the parents had greatly exaggerated the matter.

That I am totally opposed to a "scene" in the presence of pupils must be evident to you when you call to mind my advice to you when certain occurrences took place between yourself and the following teachers:—Miss Holmes, Miss Booth, Miss Chaffer, Miss Laird, Miss Chandler, and Mr. J. C. Fisher.

I shall always feel it my duty to assist you in repressing anything that would be likely to have an unsalutary effect on the pupils.

JOHN P. ROONEY,  
Head Master.

## No. 31.

E.

Memo. to Head Master, Crown-street Public School.

Public School, Crown-street, 1 February, 1881.

I BEG respectfully to request that whenever it may be deemed necessary to make inquiry or investigate any matter connected with the department under my charge the proceedings may take place away from the presence of the girls, and not during the hours of teaching.

I find that when such matters are dealt with during school hours, as in the case of the girl Solomon yesterday, and within hearing of the pupils, an unsalutary impression is made on their minds.

S. M. BARDWELL.

## No. 32.

F.

Memorandum to Head Master.

Crown-street Public School, 18 January, 1881.

I BEG to inform you that Miss Thompson has not been in attendance at her duty yesterday neither has she attended to-day.

S. M. BARDWELL.

Please state what arrangements were made for the performance of Miss Thomson's duties during her absence on Monday and Tuesday, 17th and 18th January, 1881.—JOHN P. ROONEY, Head Master, 19/1/81. B.C., Principal Teacher, Girls' Department.

Mrs. Bardwell sent this paper back without any reply to my inquiry as stated above.—J.P.R., 20/1/81. B.C., Inspector.

## No. 33.

G.

Memorandum from the Head Master to Mrs. Bardwell, Mistress of the Girls' Department.

First Class :—Unauthorized person in charge of.

Superior Public School, Crown-street, 12 May, 1881.

ON the 10th instant I informed you in the hearing of R. N. Morris, Esq., Inspector of Schools, that no person should take charge of a class, more especially of one in a separate room, unless *authorized* by the Department of Public Instruction. This morning, however, on entering a class room I found a pupil of the Girls' School in charge of the first class. The noise made by this class interfered with the work of the fifth class boys, who were in the adjacent room.

JOHN P. ROONEY,  
Head Master.

## No. 34.

H.

Memorandum from Head Master to Mrs. Bardwell, Mistress of the Girls' Department.

Out-houses :—Condition of.

Superior Public School, Crown-street, 11 May, 1881.

A COMPLAINT has been lodged at the Town Hall concerning the state of the out-houses in connection with the Girls' School. On examining them with an Inspector of Nuisances sent to report on the matter, I found the wooden partitions in a dirty condition, and covered in many places with obscene writing.

JOHN P. ROONEY,  
Head Master.

I respectfully remark in reply to this memo. that I do not think the renovation of water-closets forms any part of my duty as Head Mistress of Crown-street Superior School. With regard to the last clause I may also remark, that if you have, at any time noticed obscene writing, it would be in far better taste to have it at once obliterated rather than name such a subject to me, and this is not the first time you have addressed me in language that no gentleman should use to a lady.—S. M. BARDWELL, Head Mistress. 12/5/1881.

## No. 35.

Mr. J. P. Rooney to R. N. Morris, Esq., Inspector of Schools.

Sir,

Public School, Crown-street, 16 May, 1881.

I have the honor to inform you that a report has been circulated to the effect that a paper or petition to the honorable the Minister for Public Instruction, or some high official, has been drawn out in the Girls' Department of the school, the purport of which, as far as I can at present ascertain, is to prevent me entering the Girls' Department. Some of the fifth-class girls were canvassing on Friday last among the other pupils for signatures.

Some of those who have signed do not know what their names are attached to, and many have refused to sign.

I believe, from information received, that a conspiracy has been concocted against me by the Mistress of the Girls' Department.

Attached is a letter which I received on the 14th inst.

I respectfully ask you to inquire into this matter as soon as convenient.

I have, &amp;c.,

JOHN P. ROONEY.

No. 36.

## No. 36.

Memorandum from the Head Master of Crown-street Superior Public School to R. N. Morris, Esq.,  
Inspector of Schools.

Superior Public School, Crown-street, 17 May, 1881.

Miss Thomson complains of harsh treatment.

\*On the morning of the 13th inst. I received the accompanying letter, wherein Miss Thomson (pupil teacher, Girls' Department) complains of being harshly treated by Mrs. Bardwell. I at once forwarded a copy of Miss Thomson's letter to Mrs. Bardwell, inviting her to make any remarks on it she might deem proper, and as she has not replied to my request, I place the matter in your hands.

JOHN P. ROONEY,  
Headmaster.

## [Appendices to No. 36.]

## A.

MEMORANDUM from the Head Master to The Principal Teacher, Girls' Department, Public School,  
Crown-street.

Crown-street, 27/1/81.

ALL the female teachers connected with this public school may use the retiring room situated under the belfry for the purposes for which it was intended.

JOHN P. ROONEY,  
Head Master.

## B.

MEMORANDUM to Head Master, Crown-street Public School.

Public School, Crown-street, 31 January, 1881.

WITH reference to memorandum dated 27/1/81, I beg respectfully to point out:—

1. That the retiring room was not intended for the use of all the female teachers of the school, as its size clearly indicates.

2. That the room barely accommodates the staff of the Girls' school, especially as the workmistress requires a table therein for preparing her work.

3. That for the last nine months no mention has been made of the use of this room by teachers of the Infant Department, and that it has been used exclusively by teachers of the Girls' Department.

4. That in no other school similarly circumstanced has such a claim ever been put forward.

I beg, therefore, to request that you will be good enough to reconsider the instruction conveyed in your memo., and allow the room to remain as heretofore—the retiring room of the teachers of the Girls' Department.

S. M. BARDWELL.

## C.

Memo. to Head Master Crown-street Public School.

Public School, Crown-street, 31 January, 1881.

With reference to the verbal intimation given me a day or two ago that I was not to have a key to the class-room door, I beg respectfully that the matter may be reconsidered, as I feel certain that the interests of the school require that at certain times I should have power to lock the door in question.

S. M. BARDWELL.

## D.

B.C. Principal Teacher Girls' Department.

I regret that I cannot see any reason for altering the intimation referred to.

JOHN P. ROONEY,  
Head Master.

## E.

Memorandum from the Head Master to the Principal Teacher, Girls' Department, Crown-street  
Public School.

Public School, Crown-street, 31 January, 1881.

Your memorandum of the 31st inst. asking me to reconsider the instruction conveyed to you on the 27th inst. regarding use of retiring room.

1. I have not in any way been made aware that the room in question was intended for the use of the teachers in the Girls' Department only. The size of the room does not indicate the use of it.

2. The Department has been provided with a press and table specially adapted for the cutting out and setting-up of the work to be done by the girls when under the directions of the sewing-mistress. This table or apparatus is not in the retiring room.

3. That no mention has been made of the use of this room by teachers of the Infant Department for the last nine months, is no reason why they should be denied its use now. Many of the teachers here now were not here during the last nine months.

4. I know nothing of what is done in schools other than those that have been in my charge.

Having thus reconsidered the matter, I regret that I cannot see any reason that would justify me in refusing the use of this room to any of the female teachers of this school.

JOHN P. ROONEY,  
Head Master.

F handed in to  
C.I. as an  
exhibit.

G.

Mrs. S. M. Bardwell to The Head Master, Crown-street Public School.

Sir,

Public School, Crown-street, 1 February, 1881.

Having regard to the terms of your two memoranda, dated the 1st of January, 1881, I beg to request that you will have the goodness to submit the accompanying appeal to the Inspector having direct supervision of the Crown-street Public School.

I have, &amp;c.,

S. M. BARDWELL.

H.

Mrs. S. M. Bardwell to Inspector Dwyer.

Sir,

Crown-street Public School, 1 February, 1881.

I beg to bring under your notice the accompanying correspondence between the Head Master of this school and myself, from which you will see that having requested reconsideration of the matters in question, Mr. Rooney has declined to alter his decision.

Feeling most strongly that the interests of the school require that my reasonable wishes should be complied with, I beg to appeal to you for assistance to have this matter placed upon a more satisfactory footing.

I have, &amp;c.,

S. M. BARDWELL.

J.

Mrs. S. M. Bardwell to The Under Secretary, Department of Public Instruction.

Sir,

Public School, Crown-street, 7 May, 1881.

I have the honor to report, for the information of the Hon. the Minister for Public Instruction, that on Thursday, the 5th of May instant, two girls attending this school—Martha M'Kay and another—were detected purloining certain articles belonging to other pupils of the school. Having by inquiry satisfied myself that they were actually guilty of the theft, I appealed to the head master to suspend them, and that gentleman having refused to do so, I caused them to be removed from the school in accordance with the 63rd regulation of 4th May, 1880.

2. In accordance with the provision of that regulation I now report the matter to the Minister, and await his instructions as to the re-admission of the pupils in question or their expulsion from the school.

3. It should further be stated that this is not the first time in which these pupils have acted in a similar manner.

I have, &amp;c.,

S. M. BARDWELL.

K.

MEMORANDUM from the Head-master to Mrs. Bardwell, Mistress of the Girls' Department.—Outhouses, condition of.

Public School, Crown-street, 11 May, 1881.

A COMPLAINT has been lodged at the Town Hall concerning the state of the outhouses in connection with the Girls' School. On examining them with an Inspector of Nuisances, sent to report on the matter, I found the wooden partitions in dirty condition and covered in many places with obscene writing.

JOHN P. ROONEY,

Head Master.

L.

REPLY.

I RESPECTFULLY remark in reply to this memo. that I do not think the renovation of water-closets form any part of my duty as Head-mistress of Crown-street Public School. With regard to the last clause I may also remark that if you have at any time noticed obscene writing it would be in better taste to have it at once obliterated, rather than name such a subject to me; but this is not the first time you have addressed me in language that no gentleman should use to a lady.

M.

MEMORANDUM from the Head-master to Mrs. Bardwell, Mistress of the Girls' Department.

First Class, unauthorised person in charge of.

Superior Public School, Crown-street, 12 May, 1881.

ON the 10th instant I informed you in the hearing of R. M. Morris, Esquire, Inspector of Schools, that no person should take charge of a class, more especially of one in a separate room, unless *authorized* by the Department of Public Instruction. This morning, however, on entering a class-room I found a pupil of the Girls' School in charge of the first-class. The noise made by this class interfered with the work of the fifth-class boys, who were in the adjacent room.

JOHN P. ROONEY,

Head-master.

N.

REPLY.

IN reply to this memo. I beg respectfully to state that shortly after taking charge of Crown-street Public School I learned from the Chief Inspector, E. Johnson, Esquire, that a young lady who had passed her examination and merely waiting appointment, was eligible to be put in charge of a class, and therefore in giving such a young lady temporary charge of the first-class I considered myself fully *authorized* by the Department of Public Instruction.

With regard to the alleged noise, Miss Constance Taylor, in charge of the class, that it is not true, I may remark, however, that the disorder and noise of the boys have frequently interfered with the teaching of the girls, and at one time their being left for several weeks in the room in question without supervision caused me much trouble and annoyance.

S. M. BARDWELL,

14/5/81.

O.

O.

Memorandum from the Head Master to Mrs. Bardwell, Mistress of the Girls' Department.

S. Public School, Crown-street, 13 May, 1881.

A LETTER from Miss Thompson was received by me this morning, a copy of which is hereby forwarded to you.

You will please make any observations you may deem fit.

JOHN P. ROONEY.

O.

Crown-street Superior Public School, 12 May, 1881.

Sir,  
I am reluctantly compelled to appeal to you for protection in the exercise of my duties as Pupil-Teacher in the Girls' Department of this school, under the following circumstances:—The demeanour of the Head Mistress towards me, and the unjustifiable manner in which I have been spoken to in the presence of the scholars, tends to degrade me in the estimation of the pupils, and to destroy my control over the class entrusted to my charge; in particular, yesterday afternoon the Head Mistress spoke to me in a most insulting manner, in presence of the assembled classes in the play-ground, for an occurrence for which I was not to blame, and charged me with accusing her of falsehood, because I expressed an opinion regarding one of my pupils, without any desire to give offence.

The Head Mistress also accused me of inability to command my class in their hearing, and of neglect of my duty, which I always try to fulfil to the best of my ability.

Submitting this report for your consideration,—

I have, &c.,

SARA H. THOMSON.

P.

MEMORANDUM from the Head Mistress of the Girls' Department to J. P. Rooney, Esq., Master of the Boys' Department.

Public School, Crown-street, 23 May, 1881.

In reply to your remark, "you will please make any observation you may deem fit," made in connection with a letter from Miss Thompson to yourself, I beg respectfully to acquaint you that I shall be prepared to deal with that communication when required to do so by proper authority; but I conceive it forms no part of your duty to inquire into, or even to receive letters from junior teachers, complaining of the conduct of the principal teacher of any other department than that immediately under your charge. Such inquiry I regard as properly belonging to the office of the inspector, to whom, in this matter, I beg to refer you.

I am desirous at all times to preserve proper discipline; but, as I cannot divest myself of responsibility for the efficient conduct of the Girl's School, I must maintain my position and claim the independence of action confided to me by the Instructions to Principal Teachers, which (in paragraph 3) states; "It is not intended that he (the Head Master) shall interfere with the teaching, the discipline, or the internal management of the Department."

If you were desirous of complying with these instructions, you would not have misled Mr. Inspector Morris in the matter of my putting, in a case of emergency, a young lady who had passed her examination, in charge of a class; and I very much question whether that gentleman would "endorse" what you said in the matter, if he had known you had, in your own school, put boys in charge of classes who had not passed examinations.

Received on the 23rd May, 1881.

S. M. BARDWELL.

R.

Memo. to Miss Chandler, First Assistant.

6/9/80.

THE mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children. I therefore beg that you, as one of the teachers responsible for the behaviour of the girls in the play-ground, will be good enough to state:—

I. If you have observed any such conduct on the part of the girls; and if so, when, and to what extent?

II. What steps you took in the matter at the time as service?

III. Whether you brought the conduct of the girls so offending under my notice; and if not, the grounds on which you refused from doing so?

Please reply to this memo. at the foot of this paper.

WHILE I have been on the play-ground I have not at any time observed the girls behaving in such a manner as to endanger the lives of the infant children. Any sign of rude conduct I have always instantly checked, but the occasions have been very few and the offences but slight.

I have at such times spoken to the girls on the matter, but as the fault was so trifling, I did not think it necessary either to punish the girls or report the matter to you.

Their conduct, even on these occasions, could not possibly have interfered with any one of the infant children.

ESTHER CHANDLER.

6/9/80.

THE mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children. I therefore beg you, as one of teachers responsible for the behaviour of girls in the play-ground, to be good enough to state:—

I. If you have observed any such conduct on the part of the girls; and if so, when, and to what extent?

II. What steps you took in the matter at the time as service.

III. Whether you brought the conduct of the girls so offending under my notice; and if not, the grounds on which you refused from doing so?

Please

Please reply to this memo. at the foot of this paper.

I must beg to state in reply to the above, that during my supervision on the play-ground, whether in the time allotted for play, or for the girls to assemble and march either up or down stairs, I have never seen, since my entering upon service here, any boisterous, unruly, or dangerous conduct on the part of the girls, nor indeed, have I noticed anything unladylike or rude in their behaviour.

On the other hand, I have occasionally thought that the girls of the school did not run about sufficiently during the play-hour, but stood rather in groups about the front of the school.

Nothing, I assert, tending to endanger any child in the play-ground, has ever come under my notice.

Also, having had charge of the girls always as they come up and down the stairs, I further beg to state that there no boisterous conduct likely to injure themselves or others, has ever come under my notice.

MARY BOOTH,

Girls Department, Public School, Crown-street.

Memo. to Miss Holmes.

6/9/80.

THE Mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children. I therefore beg you, as one of the teachers, to state :—

- I. If you have observed such conduct on the part of the girls ; and if so, when, and to what extent ?
- II. Whether you think the order in this school at present is superior to what it was when I first took charge ?

Please reply to this memo. at foot of this paper.

I. No ; I have not observed any such conduct on the part of the girls.

II. I consider the order is superior to what it was when I came the first week with Mrs. Bardwell, viz., the first day Mrs. Bardwell took charge.

ALICE HOLMES.

Memo. to Miss Chaffer.

6/9/80.

THE Mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children ; I therefore beg that you, as one of the teachers responsible for the behaviour of the girls in the playground, will be good enough to state :—

- I. If you have observed such conduct on the part of the girls ; and if so, when, and to what extent ?
- II. What steps you took in the matter at the time as service ?
- III. Whether you brought the conduct of the girls so offending under my notice ; and if not, the grounds on which you refused to do so ?

Please reply to this memo. at the foot of this paper.

I. I have not observed any such conduct on the part of the girls.

II. There was no necessity for me to complain.

III. I could not have brought it, because I never saw bad conduct on the part of the girls.

EMILY R CHAFFER.

Memo. to Miss Laird.

6/9/80.

THE mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children. I therefore beg that you, as one of the teachers responsible for the behaviour of the girls in the play-ground, will be good enough to state :—

- I. If you have observed such conduct on the part of the girls ; and if so, when, and to what extent ?
- II. What steps you took in the matter at the time as service ?
- III. Whether you brought the conduct of the girls so offending under my notice ; and if not, the grounds on which you refused to do so ?

Please reply to this memo. at foot of this paper.

I. I have never seen any conduct that was calculated to endanger the lives of the infants, as, at the time I am on duty at dinner-time, there are scarcely any girls about. I have seen the girls running about sometimes during recess in the front of the school, but there were no infants about at the time, and therefore their lives could not be endangered.

II. If I thought they were too boisterously I asked them to play more gently.

III. I did not bring the conduct under your notice, as I was always obeyed by the girls when I spoke first about it.

MARY W. LAIRD.

Memo. to Miss Buckley.

6/9/80.

THE mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children. I therefore beg that you, as one of the teachers responsible for the behaviour of the girls in the play-ground, will be good enough to state :—

- I. If you have observed any such conduct on the part of the girls ; and if so, when, and to what extent ?
- II. What steps you took in the matter at the time as service ?
- III. Whether you brought the conduct of the girls so offending under my notice ; and if not, the grounds on which you refused from doing so ?

Please

Please reply to this memo. at the foot of this paper.

- I. In answer to the above, I must state that during my supervision on play-ground I never observed any boisterous or unseemly conduct on the part of the girls.
- II. I could not take any steps, for it was not necessary, as such conduct did not occur.
- III. I had no occasion to bring the conduct of the girls under your notice, as I find them as orderly in the play-ground as in school; and I must also state, since you became mistress of this school the order of the girls has greatly improved.

KATE BUCKLEY.

Memo. to Miss Thomson.

6/9/80.

THE Mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children; I therefore beg that you, as one of the teachers responsible for the behaviour of the girls in the play-ground, will be good enough to state:—

- I. If you have observed such conduct on the part of the girls, and if so, when, and to what extent?
- II. What steps you took in the matter at the time as service?
- III. Whether you brought the conduct of the girls so offending under my notice, and if not, the grounds on which you refused from doing so?

Please reply to this memo. at the foot of this paper.

- I. During the period I have been pupil-teacher in the girls' department of the Crown-street Public School my duty on play-ground has been from 12:30 a.m. to 1 a.m. While I have been on the play-ground I have never noticed any conduct which needed correction.
- II. Having never noticed any boisterous behaviour while on duty there was no need for any check.
- III. I have not reported any such conduct, simply for the reason that no such conduct came under my notice while on duty.

SARA H. THOMSON.

Memo. to Miss Hall, Second Assistant.

6/9/80.

THE Mistress of the Infant Department has complained to me that some of the girls conduct themselves so boisterously in the play-ground as to endanger the lives of the infant children. I therefore beg you, as one of the teachers responsible for the behaviour of the girls in the play-ground, to be good enough to state:—

- I. If you have observed any such conduct on the part of the girls, and if so, when, and to what extent?
- II. What steps you took in the matter at the time as service?
- III. Whether you brought the conduct of the girls so offending under my notice; and if not the grounds on which you refused from doing so?

Please reply to this memo. at the foot of this page.

- I. In reply to this question, I beg to state that I have not observed any conduct on the part of the girls such as to endanger the lives of the infants.
- II. When I have seen any of the girls running about or playing noisily, I have checked them and told them to play quietly.
- III. I have not brought any matter connected with the behaviour of the girls in the play-ground before the head mistress, because I have not seen anything serious to cause me to do so.

ELIZA C. HALL.

U.

Paddington, June 7.

As I have been requested by Mrs. Bardwell to attend as a witness, and as I am in a very weak state of health and unfit to leave the house, I wish to state that Mrs. Bardwell was the Head Mistress of the Redfern Public Girls' School during the five months I was in attendance there as Assistant Teacher.

Mrs. Bardwell maintained excellent order in her department, and the instructions she imparted to her pupils were of a very superior kind.

I found Mrs. Bardwell courteous and exceedingly kind to the teachers under her supervision while doing their duty, and during the whole period I was associated with her our relations to each other and with the other teachers in the school were in perfect harmony.

KATHERINE PAWLEY.

I do not object to this document being received.

20/6/81.

JOHN P. ROONEY.

Z.

Memo. from Mrs. MacTaggart to Head Master, Crown-street Public School.

Infant Department, 17 February, 1881.

MUCH inconvenience is caused by the want of any arrangement in the matter of the girls who have to call for infant brothers and sisters at times of dismissal.

1. They come in no order, and generally are under no supervision. They run in amongst the infants—often in a disorderly manner—causing confusion.

2. They come at irregular times—sometimes thrusting themselves rudely into the school-rooms, or blocking the doors just as the infants are marching out; at other times leaving young children until past 1 in the dinner recess, and past 5 in afternoon. I have not teachers to spare for this duty at such unreasonable hours. As I write infants are still waiting for sisters—5.15 p.m.

3. They bring companions who have no infants to call for.

4. Some of the girls after receiving the infants allow them to remain playing about the premises, running through the hall, &c., for half-an-hour or more.

All these facts can be proved by any of the teachers of this department. I do not send this memo. as a *complaint*, but think a statement of the matter may lead to some arrangement by which inconvenience would be spared to both departments.

S. MACTAGGART.

Y.

Mrs. Bardwell,

I wish my daughter not to join Mr. Fisher's singing. If you would be so kind as to allow her to sit apart from it I would be very much obliged.

I remain, &c.,  
R. ROBERTS.

Madame,

Will you kindly allow Lilly to remain from singing class, as I do not desire her to attend it for the future? And in doing so you will oblige,—

29 September, 1880.  
E. LAYMAN.

Thursday afternoon, 30 September, 1880.

Mrs. CARROLL's compliments to Mrs. Bardwell, and will she kindly allow Esther to work on Wednesday afternoons instead of joining the singing class.

Madam,

I wish my daughter to be excused from the singing class for the future.

Sydney, Wednesday, 29th, 1880.

Yours truly,  
M. L. SMALL.

Dear Mrs. Bardwell,

Will you kindly excuse Emmie singing in the class, as I find the part she takes is straining her voice too much. Trusting you will excuse my troubling you,—

74, William-street, 8 September, 1880.

I remain, &c.,  
M. E. HAMILTON.

### No. 37.

#### Mrs. Bardwell's Charges against Mr. Rooney.—Mr. Rooney's Statement.

1. With reference to Miss Sullivan's statement that "in a conversation with me one night in November last I said, while talking about Mrs. Bardwell and Miss Holmes, that the latter, instead of crying when Mrs. Bardwell spoke unkindly to her, should have sneered and laughed in her (Mrs. Bardwell's) face," I have to state that early in January last I met Miss Sullivan in George-street, between nine and ten at night. In the course of conversation Miss Sullivan alluded to Mrs. Bardwell, saying that she (Miss Sullivan) did not like what Mrs. Bardwell had said in the school about having revenge on all that crossed her path. This statement of Miss Sullivan's was in reference to a conversation, part of which Miss Sullivan heard, in which Mrs. Bardwell said that "everyone (Inspectors, Examiners, and Training Master) were all her enemies." I told her she should dismiss such thoughts from her mind, that they must make her very unhappy.

Conversation with Miss Sullivan. Miss Sullivan's charge. My statement. A resumé of conversation. Miss Sullivan referred to.

She replied that she was not unhappy, when I asked her, "What good can these thoughts do you." She then said she would have revenge on all that crossed her path, and added that the Bible taught revenge. I said it did not, quoting "Vengeance is mine, saith the Lord." "You little know," said she, "what revenge is to a woman," and then said she had no friends in the Education Department. "Surely," I replied, "the Under Secretary is your friend." "He my friend," she rejoined, "I will have revenge on him too. He could have crushed that man in the Training School, when he had the chance, but he did not."

Miss Holmes was also spoken of, and her crying alluded to. I said that it was childish on the part of Miss Holmes to cry, and that when Mrs. Bardwell tried to annoy her she should have laughed instead of crying.

My statement of the conversation with Miss Sullivan resumed.

I would here like to add that Miss Holmes was summoned as a witness on my behalf, but on account of the Camperdown School being closed she did not get the letter in time to attend the investigation. She is prepared, however, to state that I *never* prompted her to laugh or sneer at Mrs. Bardwell, but on the contrary advised her to submit to Mrs. Bardwell.

Miss Holmes not in evidence—why?

Further Miss Sullivan states, that on the 8th February I said to her, "You may sign Mrs. Bardwell's time; I will not be the tool of any one any longer."

Miss Sullivan's 2nd statement.

Allow me to premise that on many occasions Mrs. Bardwell said that I and other teachers would annoy her if we could, as we were all the tools of the Examiners and the Training Master. This promise will explain what took place in the course of a conversation alluded to further on, and which arose as follows:—

Promise re the word "tools."

In January last I sent a memo. to Mrs. Bardwell, asking her to inform the teachers of her department that each of them was to sign the time-book for herself; after this Miss Sullivan, as before, continued to sign Mrs. Bardwell's time. I twice cautioned her, and told her not to do so again, and on a third occasion said I would report her if she continued the practice any longer. A correspondence (which is here subjoined) then took place between Mrs. Bardwell and myself with reference to certain matters, and that lady asked me to forward the correspondence to the Inspector. However, acting on the advice of the Under Secretary, whom I had consulted, I had an interview with Mrs. Bardwell, and the result was that I gave way to her. She then asked me to allow Miss Sullivan to sign her (Mrs. Bardwell's) time, to save her a journey down and up the steps. I consented, and next morning told Miss Sullivan she could do so. She replied "she was so glad," and asked me if there was peace, I said, "I have given way to Mrs. Bardwell, in order (referring to my promise) to prove to her that I am not the tool of any person."

Manner in which conversation arose.

Conversation with Miss Sullivan.

Miss Sullivan has stated that I said when she spoke to me about getting another position, "You are too useful here." I think I used these words, but the meaning I intended to convey was, that as she had proved herself so well able to fill the important office of First Assistant in such a large school, the authorities would hesitate before disturbing such a desirable state of things.

Miss Sullivan's third statement. My explanation of meaning.

Misses Chaffer and Laird not in evidence. Why?

Remarks re (1) and (2) Miss Sullivan's statements.

Re (3) Miss Sullivan's statement.

Miss Sullivan's evidence in re time-book.

Calling children as witnesses.

I would further add that the Misses Chaffer and Laird were ordered to attend the investigation on the 20th instant, but were debarred from doing so, as they were undergoing examination. They are prepared to state that *never* by *word* or *act* did I incite them to show disrespect to Mrs. Bardwell, but advised them strongly to strive to gain her good will, by submitting to her and doing their duty faithfully.

There is, I think, nothing else in the evidence requiring explanation from me. The first and second statements I have noticed have been so twisted around as, in the form in which Miss Sullivan stated them, to have been so widely different in their signification from the real words used, that I feel it necessary to shew the tone of the conversations in which they were uttered. The third I have merely referred to to shew what different significations words innocent in themselves can be made to have if necessary, and to plainly state that in my remark nothing was intended to reflect on Mrs. Bardwell or anyone else.

I would also call your attention to the fact that on the 20th instant, Miss Sullivan admitted, first, that she had *once* signed Mrs. Bardwell's time wrongly, and afterwards that she had done so on several occasions; and I would ask, is it not likely that anyone who would so falsify the time-book, would, if occasion offered, alter a conversation which took place, according to her account, seven months ago, to suit her own ends?

I regret that it was necessary for me to call two girls from the school as witnesses, but to prove that Mrs. Bardwell turned her back on me when I entered the school with official documents their evidence was indispensable. I say this because I think it was for the best interests of the school that the children should be kept out of the investigation as much as possible.

JOHN P. ROONEY,  
Head Master,  
Crown-st. S.P. School, 21/6/81.

This statement was received by me two days after the *inquiry was closed*, and must be taken for what it is worth.—E.J., 2/7/81.

### No. 38.

The Head Master, Crown-street School, to Inspector Dwyer.

Sir,

Public School, Crown-street, 1 February, 1881.

I do myself the honor to report for your information, that the mistress of of the girls' department of this school frequently leaves her duties, and remains away from the school during periods varying from one and a half to two hours. During the week ending 29th January, 1881, Mr. Bardwell left her duties on three different days.

Previous to the Christmas holidays, Mrs. Bardwell, on going out, would inform me, sometimes, that she was going to the office, other times that she wanted to be away. Since the holidays she has intimated to me that it is on school business she is going away.

On the 27th ult., I requested Mrs. Bardwell to enter the time of her departure and return in the teachers' time-book, but she has not complied with my request. I have informed Mrs. Bardwell that I intended to report her absence from duty, and her refusal to sign the time-book as requested.

I have, &c.,

JOHN P. ROONEY,  
Head Master.

(NOTE:—The additional correspondence referred to has been given already in letters H, B, C, D, E, and A.)

### No. 39.

Mrs. Bardwell's reply to Mr. J. P. Rooney's complaints against her.

To Messrs. Johnson and Morris, conducting the inquiry into Mr. J. P. Rooney's charges against me.

Dear Sirs,

I beg to make reply to the charges against me categorically, as follows:—

1. *Enrolling girls in excess of limit.*—Before the letter from the Department of 20th May, 1881, allowing the number of girls in attendance to be 500, the limit was 400. That number was not in attendance on any week, as the rolls will show. On the days when it is complained that I enrolled pupils in excess of limit, the attendance was under 375. You decided that the limit was to be understood as of the children in attendance, not of those on the roll.

Even if I had enrolled some over the then existing limit, it is admitted that at the very time there was accommodation for 500 (who are now allowed); that Mr. Rooney had applied that seventy-five more might be allowed; and that I had told him that I had been instructed from the office that I might admit more.

2. *Often being away from my duties during school hours.*—I was not away as frequently as alleged. It is admitted that on every occasion except one I was absent with Mr. Rooney's knowledge, and on that exceptional occasion he says that he knows that I was at the Office of Public Instruction. In fact, I have never been absent except upon necessary school business, and not frequently.

3. *Non-record of Corporal Punishments.*—I admit this charge between the dates named. Since my omission was pointed out on 31st January last I have kept record carefully.

4. *Non-notification of promotions, &c., of pupils.*—As you rule this charge inadmissible I need not rebut it.

5. *Omission to inform Mr. Rooney of arrangements made for performance of Miss Thompson's duties.*—I had myself intimated Miss Thompson's absence to Mr. Rooney. But even if I were in any degree in fault, I submit that, as Mr. Rooney admits that he reported me to Mr. Inspector Dwyer on 20th January, 1881, six months since, the matter has already been considered by the proper tribunal.

6. *Putting unauthorized persons in charge of classes.*—I have never placed anyone in charge of a class who had not gone up for examination. I had been told by you, Mr. Johnson, that on emergencies I might make such arrangements. I have never done so, except on emergency, when otherwise one teacher would have been compelled to take two large classes. I refer you to the evidence of Miss Mary Sullivan, the first assistant in my department, to the same effect.

7. *Instigating subordinate teachers to disobey the Chief Inspector.*—As you ruled that you had already tried this question, and directed the words "Head Master" to be substituted for "Chief Inspector," I need not now meet this charge.

As to the charge, as altered, of instigating Misses Bates and M'Clymont to disobey Mr. Rooney, I submit that I only conveyed to those young ladies instructions as to them received by me from the Office of Public Instruction.

Desiring the efficiency of my school, I sought to retain teachers whom I had been told would remain; hearing of the Inspector's letter to them I inquired at the office, but my doubts were set at rest by receiving written instructions on the subject; I regret exceedingly the appearance of conflict between the superior officers, and of partisanship on Mr. Rooney's part and mine which has been imported into the matter.

If by any view of my conduct I might be held to have been disrespectful to you, Mr. Johnson, it is futile to contend that Mr. Rooney's authority was affected in this matter. It was you and not he who was disobeyed. And I protest against this charge as amended, as being a mere attempt to enlist your personal feelings in the case.

8. *Absenting myself from duty.*—I stayed away one day on sudden and serious illness. I received from you, Mr. Morris, Mr. Rooney's report of me to you, and you asked me to explain; I did explain to you at once, and you have stated publicly that I fully satisfied you with my explanation. I heard no more of the matter from you or Mr. Rooney. I submit that I might fairly conclude that you had told Mr. Rooney my reply to his report and consider the matter settled.

At any rate, if I had done wrong I have been reported to you for it, and tried by you once.

I respectfully submit that this charge is characteristic of the whole of the indictment against me, and only a few degrees more strained and exaggerated than the other charges.

9. *Quarrelling with teachers under me.*—I have never been unkind or unjust. With all teachers who do their duty I work quite smoothly. As to the teachers named in the charge, I am not in fault.

(a) *Miss Holmes* disobeyed my orders repeatedly as to having children on the floor; and as to having them into the belfry she undoubtedly encouraged them. She admits that I never found fault with her on any ground.

(b) *Miss Booth* states that I never blamed her for anything else than neglect of duty.

(c) *Misses Chaffer, Laird, and Thompson.*—I have only reprovved these young ladies deservedly. Their making grimaces at me before the girls when spoken to, as Mr. Rooney himself once noticed, surely called for some reprimand, even far exceeding any given by me; and they admit that I only blamed them for this rudeness or for failure in duty.

(d) *Miss Chandler.*—Not present, and charge not heard.

(e) *Mrs. Duff.*—This lady was not under the department. She teaches a class of girls of the school French, by permission of the Minister, but it is her own class, and she receives all the fees. When I came to the school she had her class from 10 to 11. I objected to the hour, as disturbing the work of the school. The hour has been changed to after 4 o'clock.

This is admitted by Mrs. Duff to have been beneficial to the school.

The disputes were about this. On the occasion complained of Mrs. Duff showed me her letter of authorisation. I did not use the words, "Go away, woman," or any words similar to them in vulgarity; I treated her as I understand one lady ought to treat another.

(f) *Mr. Fisher.*—I did not behave rudely to Mr. Fisher on the occasion he speaks of, but he to me. Before I had done giving the orders to the school he said, "Look to me" to the girls. I said to the school, "Look to me." I went to him and said, "Excuse me, Mr. Fisher, I have not done yet with the girls." He said again, "Look to me." I said still, "Mr. Fisher, pardon me, when I have done with the girls you can have them." He said again, "Look to me." I said to the girls, "Look to me." He then took his hat and saying loudly, "When you know how to behave yourself I'll teach in this school again—not before;" he went out; he admits that he took the girls out of my hands; he certainly did not tender me any apology as he states.

9. The accusation of shaking my fist in Miss M'Clymont's face in the play-ground has crept into the case. It is extravagant. It is on a level with the statement of Miss Booth that I said that I would "go through hell-fire rather than submit" to something.

It has been disproved by very many witnesses called by me. Of course it never occurred. The account of Miss Miriam Marks is the true one. I have a habit, usual with teachers, of emphasizing my words with the finger of my right hand extended, but I do not shake it in ladies' faces. Miss M'Clymont herself says in her final evidence that she does not mean that she thought herself threatened.

As to all this charge I deny that I have ever been harsh or unladylike. My reproofs have always been in my judgment merited, and in their manner they have not exceeded the proper demeanour of authority respecting itself and others' rights.

The only evidence given against me is by those whose conduct has been reprimanded by me, and whose conduct meriting such reproof has been the result of the very same causes which have produced this charge against me. Every resentful young teacher; who at any time of my stay has thought herself aggrieved, is brought up against me, and none but they; they are interested witnesses—judges in their own cause.

With some teachers I can live on continued friendly terms, as with Miss Buckley since I have been here, Miss Sullivan for nine months, Miss Julia Sullivan since January, Miss Hall since I came here, Mrs. Betteridge since January, and the other witnesses I called, including Mr. Watts, the Head Master at Redfern.

The present staff of the girls school under me are Misses Mary Sullivan, Hall, Lee, Thompson, Buckley, Julia Sullivan, and Mrs. Betteridge. With only Misses Lee and Thompson am I on bad terms, and Miss Lee has been rude to me only since this charge has been made against me, viz., on Friday week last.

10. *Want of order of girls in halls and rudeness to head of Infants' School.*—In September, 1880, this was the subject of correspondence. Mrs. McTaggart as head of the Infants' School complained of the girls' roughness. I asked all the teachers of the Girls' School questions in writing about it, and obtained their replies in writing. They all reported that they saw no such disorder. The teachers so reporting were Misses Chandler, Booth, Holmes, Chaffer, Laird, Buckley, Thompson, and Hall.

11. *Neglect of the out-houses.*—I had arranged with Mr. Rooney some time before the 12th May 1881, the day on which he visited the closets with his witness and found, he says, some obscene writing that he and I should jointly pay a woman to attend to these things. He subsequently said to me, pay me and I will take care it is done. I agreed and paid him accordingly. That arrangement was in force on 11th May. After being made aware of the visit of 12th May, and its result, I have employed the woman myself.

With all respect and full deference to your ruling on the point, I still urge that I do not think it is a fair thing to require of a lady, the head of a department, to personally inspect and clean the walls of the closets of a large school.

12. *Conversing with Subordinate Teachers, disparaging Examiners, Inspectors, and other officials.*—I have never spoken of Inspectors unworthily. I have said to some of my associates that Mr. Wright, the head of the Training School, had been unjust to me at the Training School.

Of Mr. Rooney: I have never used stronger words than to ask some one near me when moved by strong provocation, "Did you see that man insult me?" I have endeavoured to be respectful to him in every way which I thought his due. The former head master of the Boys' School would not let the girls rise when he came into their room. I have always made them stand, as a matter of respect to Mr. Rooney, when he came in.

13. *My bad Spelling and Composition.*—As you held that my qualifications were a matter for the examiners to have decided, and not now to be tried, I am not called on to defend my certificate. I only mention that it is the highest in the service, viz., 1A by examination, Mr. Rooney holding 1B.

14. *Insufficient supervision of the Play-ground.*—This is a charge not among those preferred by Mr. Rooney, but as you have held that it is properly before you, I must enter on it.

By reason of not being warned of the charge, I was not fully prepared with defence, and I was not allowed to put in the written statements by teachers mentioned above.

I point, however, to the following evidence. Miss Booth, a most hostile witness, who says, however, that she saw no roughness on the ground. She even thought the girls would have been better to run about more than they did. Miss Halley, a teacher in the Infants' School under Mrs. McTaggart, and naturally siding with her school, and called by Mr. Rooney against me, who says that the order of the girls improved under me as compared with the time before my arrival. Miss Ada Welch to the same effect.

Miss Martha Davis: That either Miss Sullivan or myself is on the play-ground regularly.

Miss Elizabeth Stedman: That it is the rule for Miss Sullivan or myself to be always on ground; and that Miss Buckley is on till Miss Sullivan comes. Of Miss Eva Wethered, Miss E. Davis, to same effect, and of Miss Buckley, the supernumerary, and of Miss Mary Sullivan, the first assistant in the Girls' School. The latter young lady, the most competent to prove the matter, refers to the time-table and gives her evidence fully. She declares that she is on the play-ground always, viz., from 9 to 9:30, from 11 to 11:15, and from 12:30 to 2, with the exception of from about 12:45 to 1:30, when she is taking her lunch. That she is always down by about the latter time to take charge, as the girls begin to return from dinner and become more numerous. That full supervision is given at other times, and that I myself exercise a general supervision of all the teachers, besides being usually there at 1:30 and staying till 2.

Miss Sullivan's evidence was accurate. The time-table is faithfully observed. Besides the younger teachers, either myself or Miss Sullivan is nearly always on the ground. She is there except for half or three-quarters of an hour for lunch, as stated. I exercise a general supervision, and am on ground at 1:30, as a rule, and always take the school up.

Many of the witnesses called from the Infants' School may possibly not have seen Miss Sullivan or myself often. The important post generally watched by us is in the front by the street, and at the gate, to prevent the girls from being spoken to by the boys. Most of those witnesses are always at the back-ground.

In full answer to the witnesses from the Infants' School, I may cite the written reports of Misses Chandler, Booth, Holmes, Chaffer, Laird, Buckley, Thomson, and Hall, of whom two state the order of the girls in the play-ground to have been improved in my time; one says the girls were even too quiet; and all say that the order was very good and free from boisterousness.

The above are my replies to the specific charges. Upon the general merits of the case I have to point out:—

1. That Mr. Rooney's animus is evident. He was friendly to me until the end of last year. Then all the complaints he made against me are compressed into two short periods, one beginning 19th January, 1881, and ending 2nd February, 1881, and the other beginning on 2nd May, 1881, and ending 14th May, 1881. (I refer to *all* the written documents put in.) There are coincidences with these dates which explain their significance. Mr. Rooney himself has told you that he had a report written out early in February, but he destroyed it. He came to me at that time, having seen the Under Secretary, and with emotion promised not to persecute me any more, as he would not "be a tool" of anyone. (I append a supplemental statement treating of this interview more fully.) He was quieter then until 2nd May; that was the day when Misses M'Clymont and Bates were appointed for other schools. I submit, with great respect, that the explanation of his renewing his attack on me then with such spirit up to 14th May is that he and his movers thought that they then had you, Mr. Johnson, at variance with the Under Secretary, and on their side.

2. I have to renew my remonstrances against the exercise of more discretion in the following matters:—

- a. Refusing to allow me to examine Mr. Rooney as a witness. This I thought very hard, as I particularly desired to examine him upon this animus of his, and on other matters as to which he had given evidence against me.
- b. The preventing my calling Miss Julia Sullivan, as to the words used by Mr. Rooney in her hearing, about not being "a tool for anyone" any longer.
- c. The hard use, against myself, of my application to the Minister for expedition; (1) in that you refused to allow time for the taking of fair notes of the evidence on my defence; (2) prevented my calling witnesses (limiting their number beforehand, and fixing the time that you would give me); (3) hurried my defence excessively, threatening to close it if a few moments were asked for to make notes or to consult with my solicitor; and especially (4) the

the hardness of your treatment of my witnesses, so that Miss Mary Sullivan, a young lady of great sense and strength of mind, and respected even by Mr. Rooney, was so severely tried that next day, upon a few pleasant words from you, she was rendered hysterical; and that another young lady, whose testimony was proved to be absolutely true, was broken down into tears, causing my solicitor to decline to call more witnesses (nothing of the kind having happened to any of Mr. Rooney's witnesses); (5) refusing to allow me to call witnesses in the order I wished; and (6) after one half-day of my defence, announcing that you would close up the case to-morrow, whether I had finished or not, although Mr. Rooney had had six days of attack upon me.

3. I have also to point out that Mr. Rooney in his charges against me has demonstrably been on the watch since November last, and has had the assistance of those who, by reason of his instigation or any other reason, have been opposed to me, and his case naturally shows greater preparation. In my defence and my charges against him, being entirely unprovided for an inquiry, my difficulty of proving particular points has been great. In a Court of this character, where a simple endeavour to discharge one's duty in the school is alone regarded, and perseverance and minuteness in collecting evidence against a fellow-teacher are not looked for, I hope that this consideration will have full weight as far as I am concerned.

S. M. BARDWELL.

*Chief Inspector's Memo.*

It will be observed that towards the close of this reply Mrs. Bardwell makes certain statements to the effect that in the inquiry lately held by me at Crown-street I dealt with her case and her witnesses in an unfair way. I desire to assure the Minister that there is not the slightest ground for this imputation, and I think it is to be regretted that Mrs. Bardwell could not confine herself to a refutation of the complaints against her without groundlessly endeavouring to impugn my fairness in the conduct of the inquiry. It is perhaps the more to be regretted because it was at Mrs. Bardwell's request that the Minister instructed me to take charge of the inquiry, she advancing as a reason for such request that she had reasons to fear that the three Inspectors stationed in Sydney had been prejudiced against her.

I proceed now to deal with her statements *seriatim*:—

- (a) *Refusing to allow her to examine Mr. Rooney as a witness.*—This I think is satisfactorily explained on page 22 (Minutes of Evidence). As there stated, Mr. Heydon had fully examined Mr. Rooney on every charge to which that gentleman had added any verbal explanation; and at the close of the prosecution, he demanded to examine him again from the beginning to the end of the case. This I declined to allow him to do, whereupon he claimed to call him as his witness. This claim I also disallowed, as it was a plain attempt to do by a side wind what I had already declined to allow him to do in a direct way.
- (b) *Preventing her calling Miss Julia Sullivan.*—This is not true. Miss Julia Sullivan gave her evidence in the proper place, and her evidence will be found on page 6 of Minutes of Evidence in *Bardwell v. Rooney*.
- (c) *That I refused to allow time for taking fair notes of the evidence on my defence, &c.*—This statement is not true. Mr. Heydon claimed the right to delay the inquiry for ten and fifteen minutes at a time while he took down detailed notes of witnesses' replies to irrelevant questions put by him. I maintained that he was not justified in wasting the time of the Court in this way, and on his persisting in his right to take down as full notes as he thought proper, I threatened to close the case unless he went on with the examination of his witnesses; had I yielded to him on the point, we should not have got through with the cases in a month.
- (d) *The hardness of my treatment of witnesses, &c.*—This allegation is quite unfounded. I treated all the witnesses with becoming courtesy and consideration. Neither Miss Sullivan nor any other witness became hysterical in my presence, nor had any witness cause to become hysterical through anything said or done by me.
- (e) *Prevented her calling witnesses, &c.*—I prevented no necessary or material witness from being called. All I did was to limit the number of pupils required to give evidence on any particular point. Mr. Heydon claimed the right to call as many as he liked. As the school contained between three and four hundred girls, I declined to allow him to exercise any such right. As a matter of fact, he called no less than seventeen school girls.
- (f) *Refusing to allow her to call witnesses in the order she wished.*—This statement is true only to the extent that, while engaged in investigating one charge, I declined to allow a witness to be called to give evidence on another charge.
- (g) *Threatening that I would close up the case in a day, &c.*—I regret that on several occasions I found it necessary to threaten to close the case; but Mr. Heydon's unreasonable conduct compelled me, in every instance, to do this, as he persisted, despite my repeated remonstrances, in wasting the time of the Court. If six days were occupied with Mr. Rooney's case, fully three-fourths of that time were taken up by Mrs. Bardwell's solicitor in cross-examining witnesses and writing notes.

This statement was received by me some days after the *inquiry had closed*, and must be taken for what it is worth. It was originally arranged that Mrs. Bardwell should make a personal statement at the close of the evidence in support of her charges against Mr. Rooney, and that he should cross-examine her upon it. When the time came for making this personal statement, however, Mrs. Bardwell declined to make it on the ground that she had been advised to substitute a *written* statement in its place.—E.J., 2/7/81.

No. 40.

Further statement of Mrs. S. M. Bardwell *re* her charges against Mr. Rooney.

Crown-street, 21 June, 1881.

DURING Mr. M'Cormack's time in Crown-street School I had no trouble with teachers. I append copy of letter from Miss Holmes, showing the teachers loved and respected me during that gentleman's time.

Shortly

Shortly after Mr. Rooney took charge most of the teachers began to give me such such trouble as called forth the expression elicited in Miss Hall's evidence, "I wish I had died in my illness rather than come back to such trouble." I did not attribute this trouble to Mr. Rooney, because he then seemed very friendly towards me, and I trusted him implicitly. I often complained to him of the conduct of the Misses Chaffer and Laird, pointed out to him that it was a bad example to the pupils, and tended to lower me in their minds. He once replied to this, "I have been to Mr. Gardiner's house last Saturday, and on telling him of the teachers' insolence to you, he said, 'Don't allow it, Rooney; put it down, that woman has suffered injustice in the past.'" On another occasion, on complaining to him that the Misses Chaffer and Laird taught very little to their classes, and that I felt distressed about it, he said, "If the efficiency of your school be ever questioned, I can say you could not show results with the teachers you had." In the girl's large schoolroom Mr. Rooney one day said to me "Look, these girls"—meaning the Misses Chaffer and Laird—"are grinning at you." I replied, "I am used to that conduct from them, but as you have witnessed it yourself I pray you report it." He answered: "Let it be until they are going into the Training School, that is our time." I was surprised to hear he recommended Miss Laird most highly to the Training Master. Matters continued thus until December, 1880, when Mr. Rooney gave me palpable reason to suspect him of malpractice. Then began a series of persecutions, and open insult on his part towards me, all tending to destroy my authority and interfere with the proper discipline of the school. Much verbal remonstrance and some correspondence passed, extending over several weeks, between us on the subject. Mr. Rooney refused everything which I deemed essential to the well-being of the school. I therefore requested him, by letter, to forward the correspondence and a letter from me to the District Inspector. About a fortnight afterwards, a little after half-past 12 o'clock, when I had dismissed all the classes but one, which was then marching out from off the gallery in the girl's large classroom, Mr. Rooney came hurriedly into the room. His manner was totally changed from what it had been for some time before. I thought something dreadful had happened to him. He said, while tears filled his eyes and rolled down his cheeks:—"Will you grant me the favor of five minutes interview." I replied, "Mr. Rooney, you have very much distressed my first assistant this morning; I will sign my time fifty times a day if necessary rather than you shall so distress her again." He replied, "I will never do so again; she and you may do everything you like for the future. Mr. Wright wished me to quarrel with you; he would lead me into trouble, and then leave me in it. I have told the Under Secretary all, and I have promised him to interfere with you no further. Will you grant me five minutes' interview?" I felt stunned. I promised to go to his office after 4 o'clock. At the appointed time Miss Sullivan waited for me while I went to the office. I found Mr. Rooney seated at the table, with the correspondence, which should have been in the District Inspector's hands, before him. He took it between his hands and said, "Let me tear up this; do not insist on sending it to the Inspector; I promise to do everything you want for the future; I will no longer be the tool of other people. Let me tear this up; it is the wish of our mutual friend." I asked, "Whom do you mean; who can be a friend of mine and yours too?" He answered, "Mr. Wilkins; he has been a kind friend to me for sixteen years." I then said, "I shall see the Secretary about this matter, and if he tells me not to proceed against you I shall obey him; but I promise nothing until after I have seen him." I saw the Secretary; asked him if Mr. Rooney told him he was the tool of Mr. Wright in persecuting me; he replied in the affirmative. At the same time the Secretary advised me to forgive the past, as Mr. Rooney promised to give up his persecutions of me for the future. After I had recovered a little from the shock which Mr. Rooney's machinations caused my nerves, I spoke to him again privately *re* the correspondence. I told him I could not consent to it being destroyed, but that it might remain in abeyance for ever, if he would allow me to do my duty in quiet, and would interfere no further with the well-being of the school. He then said, "If the correspondence had gone in, there were three Inspectors prepared to be against you."

After this, with slight interruptions, school matters seemed to go on smoothly between myself and Mr. Rooney, until the departure of the Misses McClymont and Bates, when Mr. Rooney thought the Chief Inspector would be displeased with me, and therefore again began his line of conduct, which has led up to the present inquiry.

June 21st, 1881.

S. M. BARDWELL.

This statement was received by me some days after the *inquiry had closed*, and must be taken for what it is worth.—E.J., 2/7/81.

My dear Mrs. Bardwell,

Crown-street, Monday.

How very sorry I was to hear of your severe illness this morning. I trust you are recovering, and hope to hear good news from Miss Clarke. Will you send me word how you are to-day? Mr. Wilkins sent me a note this morning asking me to let him know. One and all are lamenting your absence. You have already gained the teachers' love and respect.

Pray excuse this scrawl and paper, as Miss Clarke is waiting.

With kindest remembrance,

Believe me, &c.,

ALICE HOLMES.

## No. 1.

Mr. J. P. Rooney to E. Johnson, Esq., Chief Inspector, Department of Public Instruction.

Sir,

Superior Public School, Crown-street, August 13, 1881.

I do myself the honor to report, for the information of the Honorable the Minister for Public Instruction, the following occurrence which took place in the Girls' Department of this school:—

Mrs. Bardwell left the school at 10 o'clock a.m., on Thursday, 12th instant, and on her return in 11th instant. two hours afterwards, waved a letter she held in her hand, and thus addressed the pupils in the main room:—"I have gained a glorious victory—Sir John Robertson has completely exonerated me. Show your approbation by clapping. All Mr. Rooney's accomplices will be punished—he has been turned away from this school." Mrs. Bardwell then visited each class-room, repeating what she said in the main-room. To one class she said, "I dare say you are afraid of Mr. Rooney's friends who are by, but he has to leave this school; all who are glad, clap hands." She led off the clapping herself.

Trusting you will lay this letter before Sir John Robertson at your earliest convenience,—

I have, &c.,

JOHN P. ROONEY.

District Inspector M'Creddie, for report.—E.J., B.C., 15/8/81.

## No. 2.

## District Inspector's Report.

Chief Inspector,—

On the 18th and 19th instants I held an investigation into the statements contained in this letter.

It appears that, on the morning of the 11th instant, Mrs. Bardwell received a letter at, as she states, 9:30, intimating the decision of the Minister in the case of the recent investigation, and that she was absent from school for some time during that forenoon.

About 12:30 she intimated to the pupils in the main schoolroom the result of the inquiry, upon which the girls clapped hands, Mrs. Bardwell clapping with them. She then proceeded to the two class-rooms and also announced the result to the children in them, and clapping of hands followed the intimation in each room at her suggestion, if not by her express order. After the clapping of hands in the main room, the girls, then under the charge of the First Assistant, Miss M. Sullivan, sang "Chime of Bells."

The appendix contains the evidence of twenty-eight witnesses, fourteen being called on each side. Of these, Mr. Friend and the girls Lizzy Cox and Lily Cunneen, could give no evidence pertinent to the inquiry. The two girls were called by Mrs. Bardwell. The testimony given by the witnesses called by Mr. Rooney is placed foremost in the appendix; that given by Mrs. Bardwell's witnesses appears after that lady's statement, which is as follows:—"I received my letter at 9:30 on the 11th instant, as the school was going in. The letter was laid aside until 12:30, and when the school was about to leave, all materials having been put away, I said, 'I have received a letter from the Minister of Public Instruction exonerating me from all blame, and I have heard Mr. Rooney is to leave the school.' In the main-room I never told them to clap—they clapped of their own accord. In the class-room, after asking them, if they were pleased, to raise the hand, I said, 'You may clap, as they have clapped in the other room,' meaning, as it had taken place in the main-room without my ordering it, I would allow them to do the same." By

*By Mr. Rooney:* "I left the school after 10 o'clock, and returned before 11 o'clock . . ."

Reference to the evidence will show that eight witnesses testify that Mrs. Bardwell clapped hands with the girls in the main room. These witnesses are:—Ada Booth, Amy Small, Sarah Thomson (pupil-teacher), Janet Telfer, Lizzie Stedman, Alma Ashmore, Monica Brown, and Rosa Franklin. The last four were called by Mrs. Bardwell. The girl Stedman's evidence is noticeable, and the witness, Miss Wethered, was not sure of Mrs. Bardwell clapping.

On the contrary, Mrs. Betteridge, Miss Julia Sullivan, Miss Mary Sullivan, and Emily Fletcher testify that they did not see Mrs. Bardwell clap, or that they are sure she did not clap. Miss Mary Sullivan says she saw Mrs. Bardwell's hands "clasped."

It is not proved that Mrs. Bardwell "led off the clapping," nor does it appear that she clapped in the class-rooms. She suggested or ordered the clapping, but does not seem to have joined in it.

The witnesses Misses Gordon, Burney, Buchanan, Thomson, Telfer, Brown, and Miss Lee testify to Mrs. Bardwell speaking of a "victory" or a "triumph," or of having "triumphed" or been "triumphant." The first six witnesses just named refer to what took place in the main-room. Miss Lee's statement refers to the class-room, and is neither supported nor contradicted. On the other hand, Mrs. Betteridge, Miss Mary Sullivan, Miss Julia Sullivan, and Misses Fletcher, Stedman, Wethered, Ashmore, Franklin, and Bremner do not appear to have heard any such expression in the main-room.

Viewing the whole case, it appears to me that the conduct of Mrs. Bardwell was unbecoming and very injudicious, even allowing for the excitement natural to the occasion.

According to her own account, she made an uncalled-for announcement to the pupils. She thus caused an unseemly demonstration on the part of the girls by clapping their hands, and the weight of evidence shows that she joined in the demonstration by clapping her own hands. Further, in the class-rooms she suggested, if she did not actually order, the clapping of hands in response to the announcement. Altogether she created, by her action, a scene of excitement in the school which must have a demoralising effect on the pupils. The entire scene shows a want of judgment and an absence of self-control which are to be regretted in the Mistress of so important a school.

It seems to me that Mr. Rooney had substantial ground of complaint against Mrs. Bardwell in this matter, and I am of opinion that she should be reprimanded and cautioned as to her future conduct.

C.I., Aug. 23/81.

J. M'CREIDIE,  
District Inspector.

Under Secretary,—I concur in the opinion expressed by the District Inspector respecting Mrs. Bardwell's conduct. I feel sure that the interests of the school require that she should be appointed elsewhere.—B.C., 23/8/81, E.J. Submitted. Approved—JOHN R., 25/8/81. The Chief Inspector to note.—B.C., 25 Aug., 1881. Mr. Rooney, Mrs. Bardwell, and D.I. M'Creddie written to, 26/8/81.

### No. 3.

#### Memorandum from Chief Inspector to Mrs. Bardwell, Mistress of the Public School at Crown-street, Girls' Department.

Department of Public Instruction, Sydney, 26 August, 1881.

THE Minister has had under notice the reports furnished upon the inquiry held at the Crown-street Public School on the 18th and 19th instant by Mr. District Inspector M'Creddie, respecting the complaints preferred against you in Mr. J. P. Rooney's letter of 13th instant.

Having considered those reports, together with the evidence taken at this inquiry, Sir John Robertson is of opinion that Mr. Rooney had substantial ground of complaint against you, and that your conduct on the occasion to which his letter refers was marked, in an extraordinary degree, by want of judgment and self-control. He has therefore decided that you should be removed to another school.

E. JOHNSON,  
Chief Inspector.

### No. 4.

#### Memorandum from the Chief Inspector to J. P. Rooney, Esq.

Department of Public Instruction, Sydney, 26 August, 1881.

Your letter of 13th instant.

HAVING had under notice the reports furnished on the inquiry held by Mr. District Inspector M'Creddie, respecting the charges preferred in your letter of 13th instant against Mrs. Bardwell, the Minister is of opinion that you had substantial ground for complaint, and has taken such action as the case seemed to require.

E. JOHNSON,  
Chief Inspector.

### No. 5.

#### Mrs. S. M. Bardwell to The Minister of Public Instruction.

Sir,

"Nandamanu House," Ocean-street, Woollahra, 27 August, 1881.

As Mr. Rooney is trying to make the innocent expression of the girls' esteem for me in the clapping of hands a crime, and as no opportunity was allowed me of explanation prior to inquiry on the subject, I have the honor to request that I may now be permitted to say a few words on the matter in self-justification. I positively deny that the clapping of hands originated with me; I neither ordered it nor expected it, believing as I did that the degradation which the girls had seen put upon me by Mr. Rooney and by the Pupil Teachers who carried out his direction of grimacing at me before my school, had nearly destroyed their esteem for me. I therefore trust that under such circumstances it may not be considered unnatural that I felt some slight pleasure in the demonstration of the girls' affection for me by the clapping

clapping of hands. Further, I most respectfully submit that it was necessary in order to quiet the girls' minds, to tell them the result of the inquiry, as it was rumoured through the school and outside that I would in a few days be dismissed the service and disgraced. Of course this is but one of the monstrous and utterly shameful falsehoods which Mr. Rooney and his agents have been and still are circulating concerning me. I am by the machinations of this man, who has confessed himself the tool of Mr. Wright in persecuting me, injured in health, dragged before the public, and shamefully vilified.

2. I beg leave to protest also against the conduct of Mr. Rooney in influencing parents to trump up charges against me in letters to the Minister while the case was under consideration, in influencing them to abuse me in the most foul language, and in encouraging malcontents to take advantage of the opportunity which the disgrace he brought upon me, gave them to resist my authority in my endeavours to maintain the proper discipline of the school. I am not cognizant of what the letters sent under his influence contain. They probably contain slanders, such as have already been circulated; but I do not suppose that honorable gentlemen will treat letters thus sent with anything but contempt.

Earnestly requesting your kind consideration for me under such circumstances,

I have, &c.,

S. M. BARDWELL.

### No. 6.

#### Mrs. S. M. Bardwell to The Minister of Public Instruction.

Sir,

"Nandamanu House," Ocean-street, Woollahra, 29 August, 1881.

I have the honor to acknowledge the receipt of letter, dated the 26th instant, referring to a decision of the Minister on a complaint made by Mr. Rooney, relating to the clapping of hands by the girls of the Crown-street Public School.

In reply to the same I most respectfully beg to express my extreme surprise at the Minister's decision to remove me from my position for no other reason than that the girls of the Crown-street Public School, without being asked by me, evinced their pleasure by the clapping of hands at my being left amongst them.

Had not the unusual course pursued in the general and vague charges sent me in the first inquiry, by which it was intended I might be tried for any offence whatever, not been also carried out in that of the clapping of hands, I should have had an opportunity of offering explanation on the matter in self justification, but the charge was only put into my hand the moment I was summoned to be tried on it, clearly showing, in both instances, hot haste and ardent desire to condemn me.

Nevertheless the inquiry into the matter shows that Mr. Rooney has not proved his charge, which is as follows:—

"Mrs. Bardwell left the school at 10 o'clock a.m., on Thursday, 12th instant, and on her return in two hours afterwards waved a letter she held in her hand, and thus addressed the pupils in the main room: 'I have gained a glorious victory. Sir John Robertson has completely exonerated me. Show your approbation by clapping. All Mr. Rooney's accomplices will be punished; he has been turned away from the school.' She led off the clapping herself."

I most respectfully submit that the sum of the evidence taken at the inquiry does not substantiate this statement, and therefore the resolution to remove me from my position appears to me a step of undue severity. One of the witnesses under Mr. Rooney's influence said I used the expression:—"I have gained a glorious triumph"—another, "I have had a complete victory." How can both be true?

I beg to deny, as I have already done in my letter of the 26th instant, that I used the expressions already quoted—that I acted in the manner attributed to me—or that I called for the clapping of hands. The clapping of hands took place in the main school-room, without my asking for it, and being pleased to see that the girls retained any esteem for me, after the degradation they had seen put upon me, I merely said, in the little class-room, that the girls might clap if they liked, as they had done in the main school-room of their own accord. In view of these facts I beg for a reconsideration of the matter in order that the letter sent me this day may be withdrawn. It is certainly undeserved even though I had, under the circumstances, ordered the clapping of hands. I have gone through a searching inquiry, and have been officially exonerated from all blame; yet I have been treated most cruelly, ignominiously dragged before the country, disgraced, and foully vilified by the tricks of Mr. Rooney and his advisers. I most respectfully submit that I have done nothing to deserve this severe punishment, and I therefore beg that the question of clapping of hands by the girls of the Crown-street Superior School may be reconsidered with a view to the withdrawal of the letter containing the decision of the Hon. the Minister to remove me from my position as Mistress of the Crown-street Public School.

I have, &c.,

S. M. BARDWELL.

### No. 7.

#### Minutes of Evidence taken at Inquiry held by District Inspector.

Superior Public School, Crown-street, 18th August, 1881.

Inquiry into statements contained in Mr. J. P. Rooney's letter, of 13th instant, respecting Mrs. Bardwell, Mistress of the Girls' Department of the Superior Public School, Crown-street.

Mr. Rooney's letter having been read, Mrs. Bardwell made the following answer: "I prefer to answer the letter by witnesses." She declined to plead otherwise.

*Statement of Miss Lec*:—I am a pupil teacher in the girls' department of Crown-street, and am 18 years of age; about half-past 12 o'clock on the 12th inst. Mrs. Bardwell came into the class-room in 11th. which was the lower third class; she said to the children, "I have some excellent news for you. This day I have received a letter from the Minister, Sir John Robertson, informing me that I am exonerated from all blame, and the Head Master has to leave the school, and *I have achieved a glorious triumph*. Those who approve will give a signal of their approval"; the children then sat still, when Mrs. Bardwell then added, "By clapping as they did in the adjoining class-room"; some of them responded, and, to those

who did not Mrs. Bardwell said, "I suppose you are afraid, my dears, of somebody who assisted him," or words to that effect; she then told the girls that all who were kept in might go, in honor of the occasion; I omitted to say that Mrs. Bardwell, after telling the children she had excellent news for them, said, "I have no doubt you have heard of the trouble that the Head Master has tried to get me into," after which she proceeded as already stated, showing the children the letter.

*By Mr. Rooney:* I heard clapping in the other class-room in which Miss Hall was at the time, and I think Miss Thomson also; I do not know of having been convicted of false statements; I thought she referred to me when she spoke to the children of being afraid of somebody.

EMMA LEE.

2. *Statement of Miss Eliza C. Hall:*—I am second assistant in the girls' department of the Crown-street Superior Public School, and am 33 years of age; Mrs. Bardwell came into the class-room about 12:15 on Thursday, 11th instant; she said, "I have received a letter from the Minister, in which I am exonerated from all blame, and Mr. Rooney is to be sent away"; she then said, "Now clap hands all who are glad that Mr. Rooney is going"; the children then clapped hands; this is the substance of what I remember; she said, "Some of you may not understand the great trouble I have been put to through Mr. Rooney and others, but it has been a great trouble to me"; this was said by Mrs. Bardwell at first.

ELIZA C HALL.

3. *Statement of Miss Alice Gordon:*—I am in temporary attendance in the girls' department of Crown-street, and am 21 years of age; I was teaching the fifth class, on the 11th instant, in the main room; just before the dismissal of the school, at 12:30, Mrs. Bardwell said to the children, "I have something to tell you"; she said, "I have gained a complete victory, and Mr. Rooney is to be sent away"; she then went down the school, saying something which I did not hear; *when going down she clapped her hands, and the children clapped with her.*

*By Mr. Rooney:* Mrs. Bardwell had a letter, which she opened *and waved*; Mrs. Bardwell was away from school that forenoon soon after the school opened; I think she returned about 11 o'clock; I do not know who delivered the letter to Mrs. Bardwell; she did not tell them to sing, at least I don't remember it.

*Cross-examined by Mrs. Bardwell:* I am not actuated by any ill-feeling against you because you asked me to teach something which I could not; I went out of the school-room in tears one day; I did so because what you made me sign was a falsehood; I signed because I thought I was obliged to obey you as mistress in everything.

ALICE GORDON.

4. *Statement of Miss Kate Buckley:*—I am temporary assistant in the girls' department of Crown-street Superior Public School, and am 21 years of age; I was in the *class-room* teaching the first class, when Mrs. Bardwell brought in a letter; she said to the children, "You all know the great trouble I have had lately with Mr. Rooney. You will be glad to hear that I have received a letter from the Minister of Instruction, totally exonerating me from all blame," she said also, "Mr. Rooney will be punished for his doings, and those who took part with him"; she said, "Those who are glad to hear that, clap"; the children then clapped; I heard clapping afterwards in the other class-room.

KATE BUCKLEY.

5. *Statement of Mr. C. J. W. Friend:*—I am first assistant in the boys' department, Crown-street, and am 23 years of age; on Thursday last, just before 2 p.m., I gave the usual order to the boys, "Eyes front"; this was obeyed, but in a minute or two I saw some boys looking up to the girls' play-ground in front of the porch; I repeated the order, with which most of the boys did not comply; I looked round, when I saw that Mrs. Bardwell was the object of attraction; she was walking about laughing, and looking down into the boys' play-ground while they were under inspection; I threatened to reprimand any boy who would not obey at once; I then managed to secure attention.

*By Mr. Rooney:* I told you that I had never seen the boys so inattentive before, and I attributed Mrs. Bardwell's conduct as above described as the cause.

*Cross-examined by Mrs. Bardwell:* During the last inquiry I said that I had not heard Mr. Rooney speak disparagingly of you; I never told any one so.

CHAS. J. W. FRIEND.

6. *Statement of Miss Altona Bohrsman:*—I am a pupil in the Girls' School in the fifth class, and am 14 years old on the 28th instant; I was at school last Thursday, 11th instant; I was in the class-room with Miss Hall; Mrs. Bardwell came into the room and said, "I have had a letter from the Minister stating that Mr. Rooney is to be sent away from this school," she said, "Now, girls, all those that are glad, clap," A good many then clapped; I did not; she said, "Now, girls, that we are so glad, no one need remain in," that is all I remember.

*By Mr. Rooney:* I saw no one crying then.

ALTONA BOHRSMANN.

7. *Statement of Miss Alice Burney:* I am a pupil in the fifth class of this school, and am 15 years of age; I was at the school on Thursday last when Mrs. Bardwell came into the room with a letter which she had in her hand; she said it was from the Minister and that she had *triumphed* over Mr. Rooney; I don't remember more; Mrs. Bardwell clapped her hands then, and most of the girls clapped with her.

*Cross-examined by Mrs. Bardwell:* You came into the room with the letter in your hand; I did not see you sitting at the table for a long time before dismissing the children; you struck the gong to put away materials, &c., before speaking to the children; this was done before you spoke; you had not the letter in your hand when giving orders; it was on the table; you first brought the letter in, then put it on the table when giving the orders, and again took it up.

*By Mr. Rooney:* She then spoke to the children with the letter in her hand.

ALICE BURNEY.

8. *Statement of Miss Sophie Buchanan* :—I am a pupil in the fifth class of the Girls' Department of the Crown-street Superior Public School, and am 15 years of age nearly ; I was at school on Thursday last, 11th instant ; I remember Mrs. Bardwell having a letter in her hand in school ; she read us something from it ; she told us that she had to stay and that Mr. Rooney was going away ; I remember the majority of the school clapping their hands ; it was after Mrs. Bardwell spoke to the children that the girls clapped their hands.

*By Mr. Rooney* : No one spoke to me to-day about this ; Mr. Young asked me one day if the girls clapped their hands ; I think Mrs. Bardwell said she was *triumphant* over Mr. Rooney, and that she was free from all blame ; I did not hear Mrs. Bardwell asking the children to clap.

SOPHIE BUCHANAN.

9. *Statement of Miss Ida Olliffe* :—I a pupil in the lower third class, and am 14 years old. Mrs. Bardwell came into the *class-room*, told us she was going to stop and asked us if we were glad to put up our hands ; I did not hear anything else said ; afterwards Mrs. Bardwell asked us to clap hands ; I did not see Mrs. Bardwell clap hands.

*Cross-examined by Mrs. Bardwell* : I don't remember whether you said "you may clap your hands as they have done in the other room."

IDA OLLIFFE.

10. *Statement of Miss Blanche Davis* :—I am in lower third class, and am 10 years old last April ; I was at school every day last week ; I remember one day clapping hands ; Mrs. Bardwell came into the *class-room*, and said, "Those that are glad that Mr. Rooney is going away clap hands" ; some of them did so ; I do not know if all did ; I don't remember if Mrs. Bardwell clapped hands ; I was looking at Miss Lee.

*By Mr. Rooney* : I looked at Miss Lee because she was my teacher ; Miss Lee told us always to look at her when she was giving us lessons.

*Cross-examined by Mrs. Bardwell* : I don't think we heard any clapping in the room before you came in ; Miss Lee did not say anything to me about the clapping—nor any other girl.

BLANCHE DAVIS.

11. *Statement of Ada Booth* :—I am in fifth class, and am 13 years old in October last ; I was at school last week ; I saw the girls clapping their hands one day ; I did not do so ; the girls clapped because Mrs. Bardwell told them that Mr. Rooney had to leave, and she was to stay, and that she won the investigation ; I did not hear Mrs. Bardwell tell the girls to clap hands ; *I saw Mrs. Bardwell clapping hands ; I am quite sure that she did so.*

ADA BOOTH.

12. *Statement of Amy Small* :—I am in fifth class, and am 13 last September ; I was at school all last week ; some of the girls clapped hands one day ; I did not do so ; Mrs. Bardwell told us that she was going to stay, and I think she said that Mr. Rooney was to go ; I don't remember any more ; I did not hear any one tell them to clap ; they clapped of their own accord, *and Mrs. Bardwell clapped.*

*Cross-examined by Mrs. Bardwell* :—I did not say, when you came back from being ill, that you were no teacher, and that I wished you would not come back ; I have asked girls to come to school because you were such a good teacher.

AMY SMALL.

13. *Statement of Miss Sara Thomson* :—I am a pupil-teacher in the Girls' Department of the Crown-street Superior Public School, and am 18 years of age ; I have charge of the 2nd class ; I was at school on Thursday, 11th instant ; I had charge of the lower fourth on the forenoon of that day, in the main school-room ; I was present when the girls clapped hands ; at 12-30 Mrs. Bardwell was giving the orders, and had stopped the work, the materials being put away by monitresses ; she then went to the table, took up a letter, opened it, and held it in her hand before the school ; she said, "This letter is the result of the investigation, you will be pleased to hear that I have *triumphed*, and that the Minister, Sir John Robertson, has exonerated me from all blame, and Mr. Rooney has to leave the school" ; she *waved* the paper and said, "I consider it a *glorious triumph*" ; Mrs. Bardwell did not tell the girls to clap hands ; I did not see Mrs. Bardwell clap hands first, but she *clapped hands with the girls, I am quite sure of that* ; Mrs. Bardwell was standing near the centre of the room, and I was near the end of it ; Mrs. Betteridge and Miss Julia Sullivan were standing near me, and Miss Sullivan was near Mrs. Bardwell ; I did not see Mrs. Bardwell's hands clasped, but I just looked at her, and turned my head again ; *Mrs. Bardwell was clapping her hands when I looked at her* ; Mrs. Bardwell did not try to stop the clapping ; the girls sang after the clapping ; Mrs. Bardwell left the room after the singing began ; I know nothing of what took place in the class-rooms ; after returning from the class-rooms Mrs. Bardwell said that no girls were to be kept in—all were to go.

*By Mr. Rooney* : Mrs. Bardwell was away from school that morning ; I cannot say when she left the school ; she returned about 11:30 ; Mrs. Betteridge and Miss Julia Sullivan were farther away from Mrs. Bardwell than I was ; Miss Sullivan was on the left-hand side of Mrs. Bardwell, and I was on her right-hand side ; Mrs. Bardwell was standing still when *I saw her clapping hands* ; I do not know whether she moved ; singing took place immediately after the clapping ; we never had singing before at that time.

*Cross-examined by Mrs. Bardwell* : I did not tell Mr. Rooney about it ; he said, "You had great rejoicings up there to-day ;" I said, "Yes, there were clapping of hands and singing ;" I did not hear anyone order the girls to sing ; Mr. Rooney is not in the habit of asking questions about what takes place up-stairs ; I have spoken to others about it, to those at home, and to the other teachers ; I could not say what I said to them ; it was the subject of conversation between me and the other teachers.

SARA H. THOMSON.

14. *Statement of Janet Telfer* :—I am a pupil in the fifth class, and am 15 years of age ; I was at school on Thursday, 11th instant ; I was present at the clapping of hands that day ; Mrs. Bardwell said, I think, that she was free from all blame, that she was *triumphant*, that she had a complete *triumph* over Mr. Rooney ; she did not say anything more about Mr. Rooney, but that he was to go away ; I did not hear Mrs. Bardwell tell the children to clap hands ; I was not far from Mrs. Bardwell ; *Mrs. Bardwell clapped hands* ; some girls in the front seat of fifth class clapped, and Mrs. Bardwell with them, but I cannot say which clapped first ; I am sure of that ; Mrs. Bardwell gave a *small jump and clapped her hands* ; after clapping, Miss Sullivan said they could sing ; Mrs. Bardwell went out, I am not sure whether before or after the clapping ceased.

*By Mr. Rooney* : This took place in the main schoolroom.

*Cross-examined by Mrs. Bardwell* : I don't remember whether I told Mr. Rooney about this before ; I told my sister when she came home from William-street school all about it ; I have not told the mistress of William-street school about this ; I do not know her ; I do not know why Mr. Rooney called me here to-day.

*By Mr. Rooney* : I have passed as a pupil-teacher applicant.

JANET A. TELFER.

15. *Statement of Mrs. Bardwell* :—I received my letter from the Chief Inspector at 9:30 on the 11th instant as the school was going in ; the letter was laid aside until 12:30, and when school was about to leave, all materials having been put away, I said, "I have received a letter from the Minister of Public Instruction exonerating me from all blame, and I have heard that Mr. Rooney is to leave the school" ; in the main room I never told them to clap—they clapped of their own accord ; in the class-rooms, after asking them if they were pleased to raise the hand, I said, "You may clap as they have clapped in the other room," meaning as it had taken place in the main room without my ordering it, I would allow them to do the same.

*By Mr. Rooney* : I left the school after 10 o'clock and returned before 11 o'clock ; I sent Miss Sullivan down twice to see you, but she could not find you ; I decline to say whether I was at the office of the Department of Public Instruction, or brought an official letter back with me ; I decline saying whether Messenger Stewart brought a letter from an official in the Department to me on Thursday or Friday.

S. M. BARDWELL.

16. *Statement of Mrs. Betteridge* :—I am work-mistress in Crown-street Superior Public School ; I remember the children clapping hands one day in the girls' school ; Mrs. Bardwell either read or said that she had received a letter exonerating her from blame ; I did not hear her say from whom she received the letter ; I was at one end of the school and Mrs. Bardwell about the middle of the room ; I did not hear her tell the children to clap, nor did I see her do so herself ; *I feel sure I would have seen her if she had been clapping, as I was looking at her the whole time.*

*Cross-examined by Mr. Rooney* : I was not in the class-rooms when Mrs. Bardwell announced in them that she was to stay ; I cannot say if Mrs. Bardwell tried to stop the clapping.

SARAH FELTON BETTERIDGE.

17. *Statement of Miss Julia Sullivan* :—I am assistant work-mistress in Crown-street Girls' School, and am here every day ; I was present in the main school-room when the girls clapped their hands ; Mrs. Bardwell had a letter in her hand, and she said, "Girls, I have got a letter which exonerates me from all blame, and Mr. Rooney is to leave the school" ; directly after, the clapping took place ; I did not hear Mrs. Bardwell tell the girls to clap ; I was at the end of the room, and Mrs. Bardwell about the centre ; I would have heard her if she had told them to clap ; *I did not see her clap, and she did not commence to clap* ; she did not ask them to stop clapping.

*Cross-examined by Mr. Rooney* : I know nothing of what took place in the class-rooms ; Mrs. Bardwell would turn her back to me when going out to the class-rooms ; I could not say whether Mrs. Bardwell went out after the clapping had ceased or not.

JULIA SULLIVAN.

18. *Statement of Miss Mary Sullivan* :—I am First Assistant in the Girl's school here ; I was present last Thursday, and remember the clapping of hands that took place on that occasion ; Mrs. Bardwell then took an official letter, unfolded it, and read part of it to the girls ; she said "Girls, I have received a letter exonerating me from blame ; I am to remain here and Mr. Rooney is to leave the school" ; the girls then began to clap ; Mrs. Bardwell did not ask them to do so ; I was near Mrs. Bardwell, who was standing close to the centre of the room ; I was 2 or 3 feet away from her at the time ; *Mrs. Bardwell did not clap ; I saw her hands clasped together ; she did not order them to stop clapping.*

*By Mrs. Bardwell* : I think the clapping had ceased when Mrs. Bardwell went out of the room, or just as she went out.

*By Mr. Rooney* : I don't know whether Mrs. Bardwell had the letter in her hand during the clapping ; I don't know that it is usual for Mrs. Bardwell to stand with clasped hands ; I do not know what took place in the class-rooms ; I had some conversation with Mrs. Bardwell about this investigation to-day ; I saw the copy of your letter of complaint ; I had no talk with Mrs. Betteridge to-day about this investigation ; it was mentioned, that is all.

MARY SULLIVAN.

19. *Statement of Miss Emily Fletcher* :—I am a pupil in Fifth Class and am 14 years old ; I was at school on Thursday, 11th instant, when the girls clapped hands ; Mrs. Bardwell about half-past 12 struck the gong and materials were being put away, when Lizzie Stedman went to the table and brought a paper to Mrs. Bardwell ; she then opened it and read from it, "I am thoroughly exonerated from all blame, Mr. Rooney is to leave the school ;" she did not say anything more ; we then commenced to clap ; those of us who sat in the front seat, and the rest joined in ; *Mrs. Bardwell did not clap with us ; I was near her and must have seen if she had done so ; no one told us to clap ; Mrs. Bardwell did not say anything about having triumphed over Mr. Rooney ; I must have heard if she had said it.*

*By*

*By Mr. Rooney* : Mrs. Bardwell has not spoken to me about this ; I saw Mrs. Bardwell last night after she left this room ; Lizzie Stedman and Mabel Harris were with me ; I did not go with Mrs. Bardwell then, nor did I talk with her last night ; I have not talked with Mrs. Bardwell or Miss Sullivan about the clapping of hands ; I have not talked with Lizzie Stedman about this ; the girls who began clapping with me were Lizzie Stedman, Lizzie Cox, Alma Ashmore, Rose Frankland, and Eva Wethered.

*By Mrs. Bardwell* : Some of the girls at the other end of the room began to clap about the same time as we did ; I noticed the girls named because they were in the front on the same line of forms.

*By Mr. Rooney* : I don't think Mrs. Bardwell could have clapped hands without my seeing her, when I was looking at the girls named above.

EMILY A. FLETCHER.

20. *Statement of Lizzie Stedman* :—I am a pupil in Fifth Class, and will be thirteen years old in October next ; I was present at the clapping of hands in the Girls' School ; Mrs. Bardwell came into the school with a letter in her hand, a good while before the clapping took place ; about 12:25 I took the gong to Mrs. Bardwell ; I spoke to her, and asked her if it was true that there was good news, and that she had won the case ; Mrs. Bardwell said, " Yes ;" *I then requested her to tell it before the whole school, and she said she would do it ; she then struck the gong, and before the order for standing I went over and got the letter for Mrs. Bardwell ; I did this of my own accord, nobody told me to do it ; Mrs. Bardwell then said to the girls, " I have received a letter from the Minister, Sir John Robertson, saying I am exonerated from all blame and Mr. Rooney is to leave the school ;" this was all she said, when Eva Wethered, Emily Fletcher, and I commenced to clap ; I noticed no others commencing at the same time ; the other girls joined in with us immediately after we commenced to clap ; some did not clap ; no one told us to clap ; Mrs. Bardwell gave two or three claps in the middle of it ; I am sure of that, but that was all ; Mrs. Bardwell went out of the room before the clapping finished, and gave the gong to Miss Sullivan to finish orders ; I saw Mrs. Bardwell go into the class-room.*

*By Mrs. Bardwell* : You had not the gong in your hand all the time ; you put it on the table ; you took it up from the table, and gave it to Miss Sullivan after you had given two or three claps.

ELIZABETH STEDMAN.

21. *Statement of Eva Wethered* :—I am a pupil in Upper Fourth Class and am 14 years old ; I was present when the girls clapped hands last week ; about 12:30 Mrs. Bardwell was giving the orders when Lizzie Stedman went over to the table and brought the letter to Mrs. Bardwell, who said, " Girls, I have received a letter to say that I am thoroughly exonerated from all blame, and that Mr. Rooney is to leave the school ;" then Emily Fletcher, Alma Ashmore, Lizzie Stedman, and I began to clap, and the others joined in ; I could not say whether all clapped ; no one told me to clap ; we clapped of our own accord, and the others joined in after one or two claps ; Mrs. Bardwell *might have given one clap* but I did not see it ; she did not clap before we began ; I am not sure *whether she clapped or not* ; Mrs. Bardwell went out of the room into the class-room while we were clapping.

EVA WETHERED.

22. *Statement of Miss Alma Ashmore* :—I am a pupil in the Upper Fourth Class, and am over twelve years of age ; I was in the school when the girls clapped hands on Thursday, 11th instant ; about 12:30 the orders were being given, and just before the last order Mrs. Bardwell had a letter in her hand, and told us that she had been exonerated from all blame, and that Mr. Rooney was to be removed to another school ; Lizzie Stedman, Emily Fletcher, Lily Cunneen, Eva Wethered, and I then began to clap, and most of the others joined in ; nobody told us to clap ; we began it ; *Mrs. Bardwell clapped a few times after it was begun* ; I am not sure if she remained in the room till the clapping was done ; I think Mrs. Bardwell went from the main room into one of the class-rooms.

*By Mr. Rooney* : No one has spoken to me or to the class in my presence about the clapping ; we did not sing immediately after the clapping ; I am almost sure there was no singing.

ALMA ASHMORE.

*Statement of Miss Lizzie Cox* :—I am in Fifth Class, and am thirteen-and-a-half years of age ; I was in the school when the girls clapped hands last week ; I don't remember Mrs. Bardwell saying anything to the school before the girls clapped hands.

LIZZIE COX.

*Statement of Miss Lily Cunneen* :—I am in Fifth Class and am fifteen years of age ; I was not present in school when the girls clapped hands :

L. CUNNEEN.

*Statement of Miss Monica Brown* :—I am in Upper Fourth Class, and am over fifteen years of age ; I was in school one day when the girls clapped hands ; Mrs. Bardwell had a paper in her hand, and *I think she said that this was a glorious triumph, but I am not sure of that ; she said that Mr. Rooney was to leave the school ; I don't remember her saying that she had been cleared or exonerated from all blame ; no one told us to clap ; I did not clap, as I knew nothing about it ; I was only about a month in school then ; I think Mrs. Bardwell clapped with the girls ; I don't think she commenced it.*

*By Mr. Rooney* : *I saw Mrs. Bardwell clap some ; Miss Sullivan said after the clapping, " Now, girls, after this good news we will sing ' Chime of Bells ' " ; we sang a little, but all did not join in.*

MONICA BROWN.

26. *Statement of Mabel Harris* :—I am a pupil in the Upper Third Class, and am thirteen years of age ; I was at school in the class-room when the girls clapped hands one day last week ; Miss Hall was in the class-room ; Mrs. Bardwell came into the class-room, and had a letter in her hand ; she said, " I am exonerated from all blame, and I am to remain at the school " ; she then said, " Those who wish to clap may clap as the others did in the main room " ; we clapped then—a good few of us ; Mrs. Bardwell did not commence to clap ; we began ourselves ; *Mrs. Bardwell did not clap any—not in the class-room ; she then passed on to the other class-room, and did not say anything more ; I did not hear Mrs. Bardwell say anything about Mr. Rooney being sent away ; I did not hear Mrs. Bardwell say that all who were glad Mr. Rooney was going away were to clap hands.*

*By Mr. Rooney* : I did not hear Mrs. Bardwell mention your name that day in the class-room.

MABEL HARRIS.

27. *Statement of Miss Rosa Franklin* :—I am a pupil in the upper fourth class, and am about 13 years of age ; I was present in the main schoolroom when the girls clapped hands last week ; Mrs. Bardwell, about 12.30, had a letter in her hand, and read a little bit out of the letter ; she said she was exonerated from all blame, and that Mr. Rooney was to leave the school ; then the girls in upper fourth and fifth classes commenced to clap ; all did not clap ; no one told them to clap ; *I saw Mrs. Bardwell clapping with the girls ; I am sure of that ; she just gave one or two claps ;* she then went out of the room ; I did not hear anyone tell the girls to sing, but they began "Chime of Bells."

*By Mr. Rooney* : No one spoke to me about coming here to-day ; I asked my father's permission last night ; I told Mrs. Bardwell since I came back from dinner about it ; Mrs. Bardwell spoke to me, and said that Mr. Rooney was a friend of father's, and that he (my father) objected to me coming down ; I then told her that my father gave me leave last night to come down if called upon ; my father objected to let me come at the recent investigation ; he did not tell Mrs. Bardwell so, so far as I know ; I knew what this investigation was about yesterday ; Emily Fletcher told me about it ; Miss Sullivan did not speak to me about it.

*By Mrs. Bardwell* : I met you in the porch outside the girls' stairs as I was coming back from dinner ; the girls were marching up ; you did not ask me to come here.

ROSE FRANKLIN.

28. *Statement of Sophia Bremner* :—I am in the upper fourth class, and will be 13 years old next November ; I was in the main room on the day the girls clapped hands, about 12.30 ; Mrs. Bardwell told us that she had got a letter, that she was freed from all blame, and that Mr. Rooney was going away ; no one told the girls to clap hands ; they began themselves ; *I did not see Mrs. Bardwell clap hands along with the girls ; I was looking at her, and did not see her do it ;* the girls sang after the clapping ; I did not hear anyone tell them.

SOPHIA BREMNER.

29. *Statement of Miss Florence Cunneen* :—I am in upper third class, and I am 13 years old ; I was in school when the girls clapped hands on Thursday, 11th inst. ; Mrs. Bardwell came into the *class-room* where I was with my teacher, Miss Hall ; she told us that Mr. Rooney was going to leave school, and the girls commenced to *clap hands themselves ; no one spoke to us about clapping hands, I am quite sure of that ;* I did not hear Mrs. Bardwell say anything about being exonerated from all blame, or that she had received a letter from the Minister ; I never heard Mrs. Bardwell say, "Now, clap hands all who are glad that Mr. Rooney is going away."

*By Mrs. Bardwell* : We clapped our hands because we were pleased that you were to remain.

*By Mr. Rooney* : No one spoke to me about this inquiry to-day.

FLORENCE CUNNEEN.

## No. 8.

### Sydney E. District.

#### Memorandum of Inspector to the District Inspector.

Crown-street Sup. P. S.

I have received the complaints attached :—

1. Mr. Rooney accuses Mrs. Bardwell of getting up a conspiracy.
2. Miss Thompson complains of harsh treatment from Mrs. Bardwell.
- \*3. Mrs. Bardwell complains of Miss Lee.
- \*4. " " " Thompson.
- \*5. " " " Thew.
6. Mr. Rooney " Mrs. Bardwell.
7. Mr. Roberts " "
8. Mr. Collins " "
9. Mr. Bohrsman " "
10. Miss Thew " "
11. Miss Lee " "

I desire the instructions of the Department.

R. N. MORRIS.

15/8/81.

\*These papers have been detached and forwarded with Mrs. Bardwell's letter of 12th instant, withdrawing complaints contained in them.—J. M'C., 15/8/81.

Chief Inspector :—I beg to forward the above papers, and to ask for instructions respecting them. In connection with the recent inquiry I understand that Mrs. Bardwell objected to me and certain other Inspectors conducting the inquiry, appealed specially to the Minister on the subject, and asked that you should preside at the investigation.

That appeal having been sustained, I do not feel myself at liberty to conduct any inquiry in which Mrs. Bardwell is concerned, and *I would respectfully request the decision of the Minister as to whether I am to proceed with the inquiries into the various matters of complaint stated in these papers.*—B.C., 15/8/81. J.M'C.

Under Secretary :—I should be glad to receive the Minister's instructions on the point raised by Mr. District Inspector M'Credie.—B.C., 16/8/81.

## No. 9.

The Head Master of Crown-street Superior Public School to Inspector R. N. Morris,  
complaining of the conduct of the Mistress of the Girls' Department.

Sir,

Superior Public School, Crown-street, 6 August, 1881.

I have the honor to bring under your notice the conduct during the recent week of the Mistress of the Girls' Department. It is my duty to visit the Girls' and the Infants' Departments at least once a day, to see that the teachers are at their posts, and that they are observing the time-table. During the week, on the occasions of my visits to the girls' school, I found Mrs. Bardwell sitting at a table, and a teacher who is in temporary attendance giving lessons to the fifth or highest class.

It appears that this teacher, lately a student in training, has been giving all the lessons to the fifth class since the midwinter vacation. She complained to me, as head-master, that Mrs. Bardwell has treated her badly. I advised her to complain to the inspector.

During the recent investigation the charge of rudeness preferred against me by Mrs. Bardwell was supported by the assertion that when the girls stood on my entrance to the department I made signs for them to be seated. During Mrs. Bardwell's absence in July I daily visited the girls' department, and intimated to the pupils that they need not stand. When Mrs. Bardwell returned to her duties on the 1st of August, she informed the girls that they were not to stand when Mr. Rooney came into the room. In September last Mrs. Bardwell gave strict orders to the girls to stand when Mr. Rooney came into the school, as he was a gentleman deserving the highest respect. She gave this order without my knowledge.

On the 5th instant Mrs. M. C. Bohrsman complained to me, as the head-master, that she had an interview with Mrs. Bardwell about what she conceived to be the harsh treatment of her daughter. During this interview Mrs. Bardwell grossly insulted her. I told Mrs. Bohrsman that I would forward to the proper officer any complaint she wished to make.

On the same day Mrs. J. Collins, of Albion-street, complained to me that she had been grossly insulted by Mrs. Bardwell. It appears from Mrs. Collins' statement that when I visited the girls' department that morning, some of the fifth class girls stood up. Mrs. Bardwell called them out of the class, and desired Miss Hall, the second assistant, to punish them; they got four strokes each with the cane, although they said that they acted in accordance with the wishes of their parents. Mrs. Bardwell told Mrs. Collins that I was not deserving of any mark of respect by the children; that the sons of Mrs. Collins were in very bad hands, and that Sir John Robertson will back her, Mrs. Bardwell, out in all she will do.

Mrs. Bardwell left her duties on Friday afternoon without informing me; she does not sign the time of her arrival and departure in the Teachers' Time-book.

I have also the honor to draw your attention to the fact of Mrs. Bardwell telling the pupils of the girls' school to bring money in order to give a testimonial to Miss Sullivan, stating that even a pound each would not be too much to subscribe for a testimonial to such a noble character as Miss M. Sullivan. Some teachers have asked me if they were compelled to collect the subscriptions, and I informed them that I would place the matter before the Inspector.

During the recent investigation, Miss Booth deposed that Mrs. Bardwell said in the school-room "She would go through hell-fire before she would be put upon." This charge was not supported by any other witness, but now I have to inform you, that Miss Esther Chandler, Mistress of the Infants' Department, Public School, Mudgee, has stated that she was present when Mrs. Bardwell used the above expression.

I deem it a duty to lay these statements before you in order that you may inform the Hon. the Minister for Public Instruction of the unpleasant state of things existing in the Girls' Department of the Crown-street S. P. School.

I have, &c.,

JOHN P. ROONEY.

## No. 10.

Miss Isabella Thew to Inspector R. N. Morris.

Sir,

Crown-street Public School, 8 August, 1881.

I have the honor to inform you of the treatment I have received during the past week from the Head-Mistress of the Crown-street Public School. I have had entire charge of the fifth class, and tried to instruct the girls to the best of my abilities, which, I am sorry to say, were made very little of by the Head-Mistress. On Thursday I wished to give a quiet lesson instead of an Object lesson, on account of my painful arm; she would not even allow me, but sat down and watched the lesson, and afterwards ridiculed it.

I have, &c.,

ISABELLA THEW.

## No. 11.

Miss Emma Lee to The Head Master.

Sir,

Public School, Crown-street, 10 August, 1881.

1. I beg to state that I have to help to dust the whole of the furniture in the Girls' Department every morning.

2. Also to state that I am only allowed from 1 to 1.10 p.m. for my lunch.

1. Is it part of a pupil-teacher's duties to do this dusting?

2. May I have more time allowed me for my lunch?

I have, &c.,

EMMA LEE.

B.C., Inspector. The Head Master wishes to receive instructions concerning the questions asked by Miss Lee.—JOHN P. ROONEY, 10/8/81.

## No. 12.

## No. 12.

## Mr. J. P. Rooney to The Inspector of Public Schools.

Sir, Superior Public School, Crown-street, 9 August, 1881.  
I have the honor to forward you the accompanying letters, in order that they may be brought under the notice of the Hon. the Minister for Public Instruction.

I have, &c.,  
JOHN P. ROONEY,  
Head Master.

## Mr. J. Roberts to The Head Master, Crown-street Public School.

Sir, 42, Botany-street, S. Hills, 8 August, 1881.  
My daughter came home on Friday evening complaining to me that her teacher, Mrs. Bardwell, had given her the cane because she had been listening to some girls in the seat behind her speaking, and also punished her by sending her with Mr. Bohrsmann's daughter into lower fourth; I told her this morning when going to school to go back into her old class, which is fifth, and Mrs. Bardwell, to show her spiteful disposition, told her to go into lower third and to remain there until she writes an apology to her teacher, which I will never allow her to do for that reason; and I beg to inform you that unless she is placed in the fifth class again I shall take further steps in the matter—that I will not allow Mrs. Bardwell or any other teacher to illuse or show their nasty tempers, which she has done in this case, not only to my daughter but to several others in the same school; hoping that you will lay this complaint before the Inspectors when they visit the School, so that it may be investigated,

I remain, &c.,  
JOHN ROBERTS.

## Mr. J. Collins to The Head Master, Crown-street Public School.

Dear Sir, 188, Albion-street, S. H., Sydney, 8 August, 1881.  
I regret exceedingly that I have to complain of the unseemingly behaviour of Madame Bardwell towards my daughter Ethel on Friday last without the slightest provocation.

It appears that when Madame Bardwell first took charge of the Crown-street School she made it a rule (in the fifth class) that all the girls should stand when you *first* entered the room (daily), but on Thursday she thought proper to countermand that order and at the same time spoke of you in a disrespectful manner. I could see no reason for her doing so unless it is the difference now existing between her and yourself, as my son has been under you since you took charge of the school and I consider you have always acted as a gentleman and taken great interest in the boys, consequently the same respect was due to you as had hitherto been shown you. My daughter with other girls in her class took the same view of the matter and stood as usual, when she was called out and severely caned at Madame Bardwell's orders by a teacher.

Mrs. Collins called to see Madame Bardwell on the matter, and the only reason she could give for caning was that she stood against her orders, and that you were not worthy to stand for. Mrs. C. told her that should it occur again she would report her to head-quarters, when she remarked that she did not care who reported her as Sir John Robertson would always stand by her, and ordered her out of the room.

Now I can scarcely think that statement to be true; if so, the sooner an alteration is made the better it will be for the school.

You will please hand this letter to the Inspector, who I am certain will give it his earliest attention.

I am, &c.,  
JOSEPH COLLINS.

## No. 13.

## The Head Master, Crown-street Public School, to The Inspector of Schools.

Sir, Superior Public School, Crown-street, 8 August, 1881.  
I have the honor to forward you the accompanying letter which Mr. Bohrsmann wishes to have placed before the Hon. the Minister for Public Instruction.

I have, &c.,  
JOHN P. ROONEY,  
Head Master.

## Mr. M. C. Bohrsmann to The Head Master, Crown-street Public School.

Dear Sir, 39, Oxford-street, Sydney, 8 August, 1881.  
I beg most respectfully to call your attention to an act of cruel injustice perpetrated on my daughter, Miss Altona Bohrsmann, aged 14, by Mrs. Bardwell, the Mistress of Crown-street Public School. The circumstances are as follows:—

At the opening of the school on Friday morning, the 5th instant, at the sound of the gong the girls had to show their slates, which my daughter did in precisely the same manner as all the other girls of the fifth class, when Mrs. Bardwell ordered my daughter to show her slate, which she was already doing, but in compliance with Mrs. Bardwell's request she raised it still higher. Mrs. B. again repeated her order, at which my daughter raised her slate still higher, it being then considerably above the other slates in her class. After which Mrs. B. again repeated the same order, and my daughter in a respectful manner answered, "I am holding my slate up, Madam," which appellation Mrs. B. always insists on being addressed by; she immediately ordered her out on the floor, and subjected her to the indignity of the cane. I may state that my daughter is at all times most obedient and attentive, and her character is well known from infancy to a number of teachers, among whom are Mrs. M'Taggart, Mrs. Allingham, and Miss Clarke; and no teacher has ever administered corporal punishment to her until this woman has done it, for the purpose of degrading her, the cause of which I will hereafter state.

When my daughter came home at noon, and related what had occurred, Mrs. Bohrsmann went to the school to make inquiries. She first interviewed Miss Thew, the teacher of the fifth class, who stated that Miss Bohrsmann had held up her slate at the sound of the gong the same as all the other pupils; also inquired

inquired from a number of girls of the same class, all giving the same evidence as what I have already stated. Mrs. Bohrsmann then interviewed Mrs. Bardwell, and asked the reason of the punishment, and was answered—"insubordination;" to which Mrs. Bohrsmann replied, "If I bring you the teacher, who was presiding over her class at the time, and a number of the girls who was sitting around her, who state that she held up her slate in a proper manner, will you then consider the punishment unjust?" And she answered, "No, I will not. If you brought all the world I would not care, I have my senses, and if you are not satisfied with my treatment of your daughter you had better take her away." At the reopening of the school in the afternoon, without any possibility of my daughter having given cause of offence, Mrs. Bardwell publicly demoted her into the fourth class, and afterwards announced, any girls whom she had demoted that day would have to write a humble apology to her before she would allow them to return to their class.

I beg to state that I can see no other cause for this unpardonable cruelty but revenge, my daughter having been a witness at the late investigation held at Crown-street School; and if the truth was detrimental to Mrs. Bardwell's reputation, I shall submit to no injustice on that account, and therefore seek an investigation, as I shall not comply with her request to remove my daughter from that school. The public are under the impression that those schools are for the benefit of the children, not the teachers; and our district is in no small degree surprised that a teacher should be kept in the Public Service who can grind her teeth at her pupils and stamp and foam with rage.

An immediate investigation will much oblige, or I shall most certainly deal with the case myself, as my daughter is not safe in the hands of such a woman.

I am, &c.,  
M. C. BOHRSMANN.

No. 14.

Mrs. Bardwell to The Under Secretary of Public Instruction.

Sir, Nandamann House, Ocean-street, Woollahra, 4 August, 1881.

Since the inquiry into the matters at issue between Mr. Rooney and myself, my position in the Crown-street School has become well-nigh intolerable; the junior teachers disregard my directions with impunity, and even treat me with personal discourtesy; I am, therefore, anxious respecting the general discipline of the school, which is likely to be seriously affected by the example set by the teachers in question; my health, never very strong, suffers greatly from these causes, and gives signs of breaking down altogether; I, therefore, hope that for these reasons I may be excused for inquiring whether any decision has been arrived at by Sir John Robertson respecting the late inquiry. If once that decision were given, and I were relieved of suspense, I should feel better able to cope with the difficulties of my position, and more content to struggle against the adverse circumstances which now embarrass my efforts as a teacher in the Service. I trust I have not done wrong in addressing this letter to you, as, in my present distress, I could think of no other course likely to accomplish the object I have in view.

I have, &c.,  
S. M. BARDWELL,

---

No. 15.

Mr. M. C. Bohrsmann to The Under Secretary of Public Instruction.

Dear Sir, 39, Oxford-street, Sydney, August 6, 1881.

I beg most respectfully to call your attention to an act of cruel injustice perpetrated on my daughter, Miss Altona Bohrsmann, aged 14, by Mrs. Bardwell, the Mistress of Crown-street Public School.

The circumstances are as follows:—

At the opening of the school on Friday morning, the 5th inst., at the sound of the gong the girls had to show their slates, which my daughter did in precisely the same manner as all the other girls of the fifth class, when Mrs. Bardwell ordered my daughter to show her slate, which she was already doing, but in compliance with Mrs. Bardwell's request she raised it still higher. Mrs. B. again repeated her order, at which my daughter raised her slate still higher, it being then considerably above the other slates in her class, after which Mrs. B. again repeated the same order, and my daughter in a respectful manner answered, "I am holding my slate up, Madam," which appellation Mrs. Bardwell always insists on being addressed by. She immediately ordered her out on the floor, and subjected her to the indignity of the cane. I may state that my daughter is at all times most obedient and attentive, and her character is well known from infancy to a number of teachers, among whom are Mrs. McTaggart, Miss Clarke, and Mrs. Halingham, and no teacher has ever administered corporal punishment to her until this woman has done it, for the purpose of degrading her, the cause of which I will hereafter state. When my daughter came home at noon and related what had occurred, Mrs. Bohrsmann went to the school to make inquiries. She first interviewed Miss Thew, the teacher of the fifth class, who stated that Miss Bohrsmann had held up her slate at the sound of the gong the same as all the other pupils; also inquired from a number of girls of the same class, all giving the same evidence as what I have already stated. Mrs. Bohrsmann then interviewed Mrs. Bardwell, and asked the reason of the punishment, and was answered, "insubordination"; to which Mrs. Bohrsmann replied—"If I bring you the teacher who was presiding over her class at the time, and a number of the girls who was sitting around her, who state that she held up her slate in a proper manner, will you then consider the punishment unjust?" and she answered—"No, I will not, if you brought all the world I would not care; I have my senses, and if you are not satisfied with my treatment of your daughter you had better take her away." At the reopening of the school in the afternoon, without any possibility of my daughter having giving cause of offence, Mrs. Bardwell publicly demoted her into the fourth class, and afterwards announced—any girls whom she had demoted that day would have to write a humble apology to her before she would allow them to return to their class. being under the impression that those schools are for the benefit of the children—not the teachers, and our district is in no small degree surprised that a teacher should be kept in the Public Service who can grind her teeth at her pupils and stamp and foam with rage.

An immediate investigation will much oblige, or I shall most certainly deal with the case myself, as my daughter is not safe in the hands of such a woman.

I am, &c.

M. C. BOHRSMANN.

No. 16.

Mr. F. Phillips to The Under Secretary of Public Instruction.

Sir,

Holt's-terrace, Fitzroy-street, Surry Hills, 10 August, 1881.

I do myself the honor to bring under your notice the following matter :—

Two of my girls, who attend the Public School, Crown-street, have, since they first joined, nearly three years back, been in the habit—with the concurrence of the present as well as of previous Mistresses—of leaving the school on Tuesday and Friday afternoons at 3:30, for the purpose of attending music lessons which they receive elsewhere, but yesterday I received the enclosed note which you will observe puts a stop to the practice. I saw Mr. Rooney this morning; he informs me he gave no such order, and subsequently I interviewed Mrs. Bardwell, who stated complaints had been made of noises on the stairs, which could only arise at the times when children leave outside the recognized school hours for dismissal, but admitted that she did not believe my children made any noise, as they were always well-behaved, and I am sure, from what my girls tell me, they leave the room and building on these occasions in an orderly manner, so that my children are to suffer in one portion of their education for no fault of theirs.

As I fail to see any reasonable grounds for the issue of an order preventing their leaving, and as I feel persuaded such order would never have been issued but for the great want of unanimity which prevails between the Head-master and Mistress, of which I satisfied myself in my interview this morning, and which absence of harmony (to use a mild expression) I may be permitted to say cannot, I think, but be prejudicial to the interests of the school,—I respectfully request that the children may be permitted to leave as hitherto, as it is not convenient for their music teacher to fix another and later hour.

I have, &c.,

FRED. PHILLIPS.

[Enclosure.]

Mrs. Bardwell presents compliments to Mrs. Phillips, and begs to say that, as Mr. Rooney has complained of the girls being disorderly on the stairs, she cannot for the future allow girls home during the hours of teaching; as she cannot spare a teacher to see that they go quietly down the stairs at such times.

Public School, Crown-street, 9 August, 1881.

No. 17.

The Head Master, Crown-street Public School, to The Under Secretary of Public Instruction.

Sir,

Superior Public School, Crown-street, Sydney, 18 August, 1881.

I have the honor to forward you the accompanying communication, and respectfully request that you will comply with Mr. Brown's wishes, by laying his letter before the Hon. the Minister for Public Instruction.

I have, &c.,

JOHN P. ROONEY.

Jas. T. Brown to J. P. Rooney, Esq., Principal Teacher, Crown-street Public School.

Sir,

55, Waterloo-street, Surry Hills, Sydney, 15 August, 1881.

I beg to bring under the notice of the Minister for Public Instruction the conduct of Mrs. Bardwell, Head Mistress of the above school, towards my youngest daughter, Edith Brown, in using language very unbecoming in a person in her position. The language I complain of was used on the 12th August, and was as follows: "She is a low, lounging, sneaking young monkey"; also, "What are those three dirty, sneaking characters doing here." My daughter at the time was acting monitress.

You will oblige by forwarding this letter to the Minister for Public Instruction, requesting his early attention to the matter.

I remain, &c.,

JAS. T. BROWN.

No. 18.

Sergeant Frederick Lee to The Minister of Public Instruction.

Sir,

131 Liverpool-street, Sydney, 20 August, 1881.

Mrs. Bardwell, at Crown-street Public School, has stated in the presence and hearing of J. M'Credie, Esq., District Inspector, and the Head Master, the following:—"Miss Lee has been convicted of making false statements at the late investigation."

My daughter denies this, and I have now, as her father, to ask the Minister for Public Instruction whether he so convicted my daughter or not, in his decision on the matters recently investigated in the above school.

I have, &c.,

SERGEANT FREDERICK LEE.

59

## No. 19.

Mrs. Bardwell to R. N. Morris, Esq., District Inspector.

Sir,

Public School, Crown-street, 3 June 1881.

I have the honour to acquaint you that this day I called the attention of Miss Lee, pupil teacher in this Department, to the fact that at that time, about 1.50 p.m., it was her duty to be in the play-ground, and I directed her to proceed thither. She at first disputed the correctness of my view, and before carrying out my directions said: "I will report you (or this), madam."

This communication is addressed to you in consequence of the Head Master declining to receive it.

I have the honor, &c.,  
S. M. BARDWELL.

Miss Lee, for explanation.—R.N.M., 6/8/81.

Sir,

On the 3rd of June I was on duty from 12.30 until 2 p.m., with the exception of three minutes. My duty on the play-ground terminated at 1.10 p.m. I then went up stairs to have my lunch, and on the way met Mrs. Bardwell, who told me I ought to be on the play-ground. I replied, "You told me, madam, that I was to take Miss Bates' place in the play-ground." She then told me she would report me, to which I replied, "I can answer to the report, madam."

Sir, I beg to call your attention to the fact that on that morning I was a witness against Mrs. Bardwell.

I have the honor, &c.,  
EMMA LEE.

## No. 20.

Mrs. Bardwell to R. N. Morris, Esq., District Inspector.

Sir,

Public School, Crown-street, 2nd August, 1881.

I have the honor to acquaint you that this day I had occasion to find fault with Miss Thompson for wilful neglect of duty, and that in accordance with the fact already proved against that young lady that she had repeatedly grimaced at me before my school; and also in accordance with the fact proved against Mr. Rooney, that he advocated that Teachers should stand out from me, grin, mock, and make fun of me; Miss Thompson not only sneered at me before my own pupils this day, but also before what ever Public then might have been present to see her in the space allotted to the Public School children in Hyde Park.

I have, &c.,  
S. M. BARDWELL.

Miss Thompson, for explanation.—R.N.M., 6/8/81.

## No. 21.

Miss Sara H. Thomson to R. N. Morris, Esq., District Inspector.

Sir,

Crown-street Public School, 8 August, 1881.

Regarding the attached complaint against me, by Mrs. Bardwell, I have the honor to report as follows:—

Mrs. Bardwell charges me with wilful neglect of duty, but withholds any explanation of such, therefore, I can only say in reply that the charge was unfounded.

Mrs. Bardwell refers to a charge *proven* against me of having "grimaced" at her before the school. I beg to state, in reply, that I have never committed such an offence.

Mrs. Bardwell concludes by accusing me with sneering at her in Hyde Park before the pupils and the public. When Mrs. Bardwell addressed me, I was involuntarily smiling with the girls at the confusion and crushing around. Mrs. Bardwell called to me loudly by name, in the hearing of the general public and teachers and pupils of other schools, in such a tone and manner as to make me ill for the day.

I have, &c.,  
SARA H. THOMSON.

## No. 22.

Mrs. S. M. Bardwell to R. N. Morris, Esq., District Inspector.

Sir,

Crown-street Public School, 2 August, 1881.

I have the honor to acquaint you that this day I called the attention of Miss Thew, supernumerary in this department, to the fact that she slighted my orders during the marching of the children through the street; that she absented herself from duty until when I had assembled most of the children for home; and that then she sneered at me and refused to obey my orders.

This communication is addressed to you for obvious reasons.

I have, &c.,  
S. M. BARDWELL.

Miss Thew for explanation.—R.N.M., 6/8/81.

## No. 23.

Miss Isabella Thew to R. N. Morris, Esq., Inspector.

Sir,

I am sorry to state that the accusation brought against me by Mrs. Bardwell is totally devoid of truth. It was an utter impossibility to keep the girls together in such a crowd, but we all did the best we could. Several of the girls clung to me, and we were pushed very roughly and hurt through the enclosure. I afterwards tried several times to find the remainder of the girls and teachers, but did not succeed. About 3 o'clock I walked a little way up the park with some of the girls who had kept near me, and who were then going home, and afterwards turned round and searched for the last time and came upon the girls assembled ready to go home. The Head Mistress directed me to "Go and look for more girls." I did so, and returned with two. She again ordered me away to look; I did so, and returned to tell her that several girls were going home with their parents. She called out to me before the girls, "Have I a name?" I replied, "Yes." "What is it?" she asked. I said, "Mrs. Bardwell." She then said that she wanted her name used in future and proper respect shown, which I have always done, and always been taught to do. When on our way home she requested me to take the end of the line. I complied with her request, and tried to do my best in keeping the girls well up in the ranks, considering they were tired after the day. All at once she stopped and called out to me, "Miss Thew, you may go home, I'll report you, you are not doing your duty." I replied in a quiet ladylike manner, "Well, Mrs. Bardwell, I am trying to do my best." She then said before all the girls, "Give me none of your impudence; I'll report you."

I have, &amp;c.

ISABELLA THEW.

## No. 24.

Mrs. S. M. Bardwell to E. Johnson, Esq., Chief Inspector.

Sir,

Public School, Crown-street, 12 August, 1881.

I have complained of the misconduct of Miss Lee, Miss Thompson, and Miss Thew, teachers in this department, and am prepared to prove my charges against them as true; but as the large questions at issue are now settled, I have no desire to injure those young teachers by pursuing my charges, especially as I believe they were instigated by others higher in position in the Service, and as I trust they may behave properly to me for the future. With your permission I therefore beg to withdraw my letters of complaint.

I have, &amp;c.,

S. M. BARDWELL.

Dist. Insp. M'Credie. For report in connection with papers understood to be in the hands of Mr. Insp. Morris. Very urgent.—E.J. B.C., 13/8/81. Chief Inspector.—The letters of complaint referred to by Mrs. Bardwell are hereto attached, together with the explanations already furnished by the teachers complained of. It will be observed from these explanations that Misses Lee, Thompson, and Thew do not by any means acknowledge themselves guilty of neglect of duty or any improper conduct. *I would recommend* that Mrs. Bardwell be allowed to withdraw her letters, and that the young ladies complained of be informed of the fact.—J.M.C., B.C., 15/8/81. Under Secretary,—I concur.—E.J., B.C., 16/8/81.

## No. 25.

Mr. J. P. Rooney to The Minister of Public Instruction.

Sir,

Superior Public School, Crown-street, 12 August, 1881.

In reply to memorandum (No. 81-6,757) I most respectfully beg leave to lay before you the following statement, hoping that you may take into consideration the facts contained herein.

The memorandum states :—

- (a.) That "Sir John Robertson is of opinion that the complaint as to the management of the Girls' Department relates to matters with which it is the especial province of the Inspector to deal, and in which your interference was wholly uncalled for."

I have the honor to bring under your notice that in the Instructions to Principal Teachers of Schools of more than one Department the following rules are laid down :—

1. The Principal Teacher will keep a teachers' time-book, and will see that all teachers enter therein the time of their arrival and departure from school.

As Mrs. Bardwell did not comply with this rule it was my duty to report her.

3. He (the Principal Teacher) will visit the other departments once a day at least, to ascertain that the teachers are at their posts.

You will see that absence from duty was a cause for my reporting Mrs. Bardwell.

2. "Persons visiting the school or calling upon teachers should, in the first instance, be brought to the Principal Teacher."

Mrs. Bardwell never paid any attention to this rule.

6. "He (the Principal Teacher) will see that all the teachers under his supervision conform to the rules and regulations, and will report all cases of misconduct or inefficiency occurring among the subordinate teachers."

Under this rule I have reported Mrs. Bardwell for non-compliance with the rules and regulations, and, further, for bad spelling and composition, which I think constitute inefficiency, and which, in the best interests of the Department, I thought should be exposed.

12. "The Principal Teacher will register all children applying for admission"

Mrs. Bardwell took this office upon herself in her own department.

13. "During recesses, he (the Principal Teacher) will take proper measures to see that due provision is made for the oversight of the several play-grounds. Principal Teachers and heads of Departments are expected to take part in play-ground duty."

As Mrs. Bardwell did not assist me in carrying out any part of these instructions I had to report her.

14. "He (the Principal Teacher) will receive and investigate all complaints from parents and others. It is expected that he will consider such complaints; that he will in all cases endeavour to ascertain whether they be well founded; and that he will afford the redress which their nature may require or suggest."

Numerous complaints against Mrs. Bardwell were made to me, both by teachers and parents, and I was bound under this rule to hear the complaints and advise. To such advice Mrs. Bardwell would not attend, and I therefore had to report.

- (b.) That "Sir John considers that you must be held responsible for the waste of time and derangement of school business, &c."

No one can regret more than I do the waste of time, but I do not think it can be wholly chargeable to me. When I reported Mrs. Bardwell I did not for a moment imagine that the investigation would last more than two days; and I feel convinced that, had it not been for the presence of a lawyer and Mr. John Davies, the Chief Inspector would have gone through the whole case in a day and a half.

- (c.) In connection with the concluding paragraph of the memorandum conveying an expression of your disapproval of the indelicacy of my apparently unnecessary allusion, in a communication to Mrs. Bardwell, to filth in the water-closets of the Girls' School, I beg to refer you to the following copy of that communication:—

Public School, Crown-street, 11 May, 1881.

Memorandum from the Head Master to Mrs. Bardwell, Mistress of the Girls' Department.

Out-houses, Condition of.

A COMPLAINT has been lodged at the Town Hall concerning the state of the out-houses in connection with the Girls' School. On examining them, with an Inspector of Nuisances sent to report on the matter, I found the wooden partitions in a dirty condition and covered in many places with obscene writing.

JOHN P. ROONEY,  
Head Master.

And I most respectfully submit that there was no other way—more gentlemanly—in which attention could be called to an existing nuisance, to which for the sake of the purity of the girls, calculated to be defiled by such obscenity, attention had imperatively to be called.

And now, in conclusion, I would respectfully ask you for these reasons to reconsider your decision. I have been for thirty years a teacher, and during that time no teacher has ever entered a complaint against me. I have ever striven so to do my duty as to win the approbation of those in authority over me, and till now I have always succeeded. And I trust you will now reconsider the decision you have given in this case.

I have, &c.,  
JOHN P. ROONEY.

Under Secretary.—E.J., B.C., 15/8/81.

No. 26.

Mr. J. P. Rooney to The Chief Inspector.

Sir,

Superior Public School, Crown-street, 13 August, 1881.  
I respectfully request that you will inform me of the result of the investigation of the charges preferred against me by Mrs. Bardwell in the month of May last.

I have, &c.,  
JOHN P. ROONEY.

Under Secretary,—I have not yet been informed of the Minister's decision in this case.—  
E.J., B.C., 15/8/81.

(3.)

## Copy of Instruction to Principal Teachers issued 29th February, 1879.

COUNCIL OF EDUCATION.

*Instructions to Principal Teachers.*

THE following Instructions, issued for the information and guidance of principal teachers of Schools which consist of more than one department, are also to be acted upon, as far as practicable, by heads of departments, and by teachers generally.

1. The principal teacher will keep a teacher's time book, and will see that all teachers enter therein the time of their arrival at and departure from school.
2. He will report to the Inspector all teachers absent from duty without leave, and those who are habitually unpunctual. Leave of absence for half a day may be granted by the Inspector.

3. He will visit the other school departments once a day at least, to ascertain that the teachers are at their posts and are observing the Time-table. He will see that all documents required by the regulations are exhibited in their proper places, and that the school records are properly at hand in some convenient spot. It is not intended that he shall interfere with the teaching, the discipline, or the internal management of the other departments, nor is he at liberty to remove children therefrom to his own department without the sanction of the Inspector; but he is empowered to decide questions relating to the general order and routine of the entire school, subject to appeal to higher authority.

4. He will receive all letters addressed to teachers at the school, and will deliver them to the owners after the pupils are dismissed. At the same time, he will impress upon teachers that their having letters addressed to them at the school is an inconvenient arrangement justified only by urgent circumstances. Letters intended for pupils or pupil-teachers are to be handed to the principal teacher, who will forward such communications to the parents of the persons concerned, but letters from this office may be dealt with in the same manner as teachers' letters.

5. Persons visiting the school or calling upon teachers should in the first instance be brought to the principal teacher.

6. He will see that all the teachers under his supervision conform to the Council's rules and regulations, and will report any breach thereof. He will further report all cases of misconduct or inefficiency occurring among the subordinate teachers. Each teacher should keep a copy of the Council's published regulations, to be exhibited when required by the principal teacher.

7. He will note the methods employed and the discipline maintained by the several teachers in his own department, and will have power to interfere whenever he may consider either to be defective.

8. Keeping in view regulation 97, the principal teacher will divide the school, if containing four or more classes, into sections, each containing two classes; and will place in charge of each section an assistant teacher, who, when the staff admits, will be aided by a pupil-teacher.

9. When a subordinate teacher relinquishes the charge of a class or section, it should be examined by the Inspector, or principal teacher, in the presence of the outgoing teacher and his successor. A record of the condition of the class or section, as elicited by such examination, should be entered in the Lesson Register and be attested by the signatures of all the parties concerned.

10. A similar course should be followed with respect to the materials used by the class or section that had been placed in charge of the outgoing teacher.

11. Corporal punishment must not be inflicted except by the principal teacher, or—in his presence and under his direction and responsibility—by an assistant teacher. Pupil teachers are under no circumstances to be permitted to inflict corporal punishment. This rule is to apply equally to Girls' and to Infants' Schools or Departments, the head teachers in which will exercise the same powers as principal teachers. Careful attention must be paid to regulation 80, which provides that corporal punishment "should be restricted as much as possible to extreme cases." The frequent infliction of such punishment cannot but be regarded as evidence of a teacher's want of proper disciplinary power. The boxing of pupils' ears is strictly forbidden: any teacher who offends in this regard will incur the Council's extreme displeasure. It must be distinctly understood that *all* instances of corporal punishment are to be recorded. (Regulation 80.) A book for that purpose may be obtained by requisition in the usual way, and should be preserved in the school.

12. The principal teacher will register all children applying for admission to the school, will determine the rate of school-fee which they will have to pay in accordance with the authorized scale, and the department for which they are fit.

13. During recesses, he will take proper measures to see that due provision is made for the oversight of the several playgrounds. Principal teachers and heads of departments are expected to take part in playground duty.

14. He will receive and investigate all complaints from parents and others. It is expected that he will attentively consider such complaints, that he will in all cases endeavour to ascertain whether they be well founded, and that he will afford the redress which their nature may require or suggest.

15. He will construct Programmes of Lessons for all classes in his department taught by pupil-teachers, and will decide upon the suitability of those framed by assistant teachers. His signature is to be attached to these documents, in evidence that they have been examined by him and have received his approval. He will satisfy himself that the same course is followed by the principal teachers of the other departments.

16. He will devote a portion of his time weekly to the instruction of each class in his department.

17. He will examine each class in his department at least once a month, and will record the results, note defects, and enter suggestions for their remedy in a book kept for the purpose. Such entries should be signed by himself and the teacher of the class.

18. He will be responsible for the progress of all children in his department, and for the condition of the department in all other matters excepting those points of organization for which he cannot reasonably be held accountable.

19. The principal teacher will devote at least one hour daily to the instruction of pupil-teachers and prescribe for them a systematic course of home lessons, in accordance with the special instructions on this subject. Suitable Programmes are to be prepared, and a Register is to be kept showing (1) the time of commencing the daily lesson to pupil teachers, the subject, and the time at which it was concluded; (2) the exercise or home lesson appointed to be worked by the pupil teacher, for the day. He will not delegate this duty to any other person without the express permission of the Inspector, granted after explanation of the circumstances rendering such arrangement necessary.

By order of the Council of Education,

W. WILKINS,  
Secretary.

## No. 1.

## Miss Maria Callan to J. Wright, Esq.

Sir,

Balmain, 17 September, 1878.

I have the honor to inform you of Mrs. Bardwell's manner towards me lately, and especially to-day.

This morning, during the time for domestic economy, Mrs. Bardwell asked if any of the young ladies were in the habit of putting into practice any information given them during this lesson. Those who had done so told Mrs. Bardwell what part of the lesson they had made use of. She then said that she knew some of the young ladies had the sense to practise what they were taught, but that, after all the time she had spent on lessons about extravagance, it had resulted in no good to some—they were still as extravagant as before the lessons were given; but they would not always be so extravagant, but would be forced to be frugal. The whole of the time Mrs. Bardwell was saying this she kept her eyes fixed on me, as if her remarks were meant particularly for me.

The lesson continued uninterruptedly for some time, until Mrs. Bardwell went into her room. Some of the young ladies took this opportunity to remark to me, in an undertone, about the manner in which she was watching me whilst she spoke on extravagance.

Mrs. Bardwell returned to the room, came over to where Miss Fitzpatrick and I were sitting, and remarked that she would put up with no impudence from us; she knew what we were about, and would turn us out of the room if we could not behave ourselves. She also said that our manners must have been very "expensive." I can form no idea of what called forth this threat and remark from Mrs. Bardwell, as I was neither speaking, laughing, nor doing anything else that could annoy her, and indeed had not done so during the lesson, as far as I can remember.

At

At the end of the lesson, Mrs. Bardwell came towards Miss Fitzpatrick and me, and dragged (it would be incorrect to say "took") our books with domestic economy in from us, saying, she "would see what there was in them for us to make fun of before the mistresses down-stairs; that she was quite sure she had given us nothing which need be laughed at; any educated person would know what to think of us; that we thought we were doing something grand, but we were only 'cutting canes to beat ourselves with,' for, if any one tried to wrong another, the wrong would be sure to come back to themselves." Mrs. Bardwell's next sneering remark was that "there are some people who scoff at anything moral or religious, and I know what to think of you." This also was said with her eyes fixed on me.

Not liking to be accused of scoffing at religion, I answered that "if Mrs. Bardwell thinks I scoff at religion, she is greatly mistaken." To Mrs. Bardwell's reply to this, I remarked that I would tell you about the way she was speaking to me. On hearing this she hurried towards me, and almost shouted, "Go and tell Mr. Wright; leave the room, miss; I don't care for you, or Mr. Wright, or anybody." This was all I heard, as I immediately left the room, but I have since been told that she added, "so long as I do my duty"; that part I did not hear.

This is not the first time Mrs. Bardwell has acted in this manner towards me.

It is Mrs. Bardwell's practice, on the days for our French lessons, to write the exercises on the blackboard for us to correct ours by. Lately, Mrs. Bardwell, as soon as she has written a sentence on the board, comes over to Miss Caldicott and me to see that we correct our lessons properly. This behaviour of Mrs. Bardwell's is rather marked, as she never troubles to overlook any of the other young ladies.

Another day Mrs. Bardwell said to me, "Your manners must have cost you a great deal, they are so good; at what school did you learn them?" This remark was made as sneeringly as possible. The cause of this was that Mrs. Bardwell would not allow Miss Caldicott to continue saying a piece of French poetry, which we had been told to learn, as she pronounced the second word incorrectly. Mrs. Bardwell also put a cross to Miss Caldicott's name, as not having learnt her lesson. The same mistake in pronunciation was made by several others, but they were corrected by Mrs. Bardwell and allowed to proceed. At this injustice Miss Caldicott commenced crying; I did think then that she was really crying, but believed I heard her laugh. At this I laughed a little, not loudly; Mrs. Bardwell did not give me the chance to laugh much, as directly she saw the beginning of the laugh she asked me what I was laughing at, and then made the remark upon my manners.

In reference to Mrs. Bardwell's charge, that I "made ridicule of her lessons to the mistresses down below," I beg to state that I can only recollect showing two pieces; one, some poetry; and the other, a dialogue between a husband and a wife, given to us by Mrs. Bardwell; and I believe the only persons I showed them to were the first and second assistants in the girls' school.

To-day Mrs. Bardwell said I should not again return to the class.

I have the honor to inform you that I feel very grieved at what has occurred, and beg that you will grant me protection in this matter.

I have, &c.,  
MARIA CALLAN.

B.C. Secretary, 19/9/78.—J.W. B.C. Mrs. Bardwell. For report on the several statements made herein, *with the least possible delay*.—W.W., 19/9/78.

B.C. Secretary.

With regard to the letter written by, or for Miss Callan (most likely for—I have had her papers to correct, and know her incapable of writing even so poor a letter), some of the statements thereof are untrue, other grossly perverted.

The facts of the case are:—The girl is apparently instigated; she is systematically rude and insolent.

To the statement about my behaviour in overlooking her French, I reply that it was necessary that I should do so, because she has almost refused to correct after me. For example, during French course, August 5th, the grammar required a particular tense, which I wrote on board. She said it was not right, and after her error was shown her, she refused to correct and murmured loud enough to be heard, "I will ask Mrs. Duff."

The statement respecting my remarks on extravagance and fixing my eyes on Miss Callan is grossly perverted. After having asked the young ladies if they had put into practice any part of what we had been considering, I remarked that, as a rule, I did not think people practised things merely by being told, but by force of circumstances; that there were, however, people docile enough to learn by being told, and I felt there were of such present. I have had to watch Miss Callan, in order to keep order in the class, so that the attention of the other young ladies might not be distracted by her laughing and rudeness.

Miss Callan's statement, that she did nothing during the lesson to annoy me or to call for the threat of sending her out of the class is not true. She and Miss Fitzpatrick, their heads close together whispering, at other times nearly resting upon desks, were chuckling the greater part of the lesson, occasionally looking up defiantly at me. I left the room for awhile in order to bear it; when I returned, Miss Callan was turned round talking to a young lady in the rear. She gave me a defiant look; I then approached her and said "If you do not behave yourself I will send you out of the class."

Statement that I dragged the books from them is grossly false.

Having positive proof that Miss Callan ridiculed my lessons with the mistress, Miss Stephens, that she did so in my presence, and having heard that she and Miss Fitzpatrick were in the habit of doing so with Mrs. Duff. The lesson ended, I quietly said "I will take these books to see what subject there is in them to cause your ridicule of me with the mistress below. I feel sure I have given you nothing worthy of ridicule, but some people will scoff and ridicule everything good and beautiful." That I referred to religion I most indignantly deny; I have been always careful not even to mention that word there.

Miss Callan here stood up in the class and said in a most defiant manner "I will go tell this to Mr. Wright." "Go at once," I indignantly replied, "and return not again." "I most certainly will," she continued defiantly. Hurt at being thus threatened before the class, I said, perhaps louder than my usual tone—I am not sure I did not shout it—"I care not for Mr. Wright while I do my duty." That part of the statement that I cared not for her or anybody is false.

I have repeatedly asked Mr. Wright to interpose his authority to stop rudeness and insolence in the Training School. He always replied "Send them out of the class." I sent Miss Callen out, then went to him, requested the weight of his authority to stop her insolence in future, and said she could by asking to be excused return to the class. He replied "We will talk of that by and by." He has never talked of it since.

The statement that I acted unjustly to Miss Caldecotte because she could not *pronounce* French is false. It would indeed be unjust to punish young ladies for not pronouncing French well who, according to their own account, never heard it spoken till they heard me speak it. Miss Caldecotte *did not know* the lesson, and it would be waste of time to go on with her.

The statement, "Your manners must have cost much, they are so good," is true, and was called for by Miss Callen's systematic rudeness and insolence. Having had the advantage of being educated in the best Continental schools, selected for the education of their children by families of the highest rank, and intelligence, as that of the late Monsieur Guizot, enables me to know how a girl should behave and would behave if not instigated and encouraged from without. I say less therefore about Miss Callen than I otherwise should, because I feel certain that in this matter she is simply a tool in the hands of others.

I now on my part complain of the repeated and evidently studied insolence of Miss Callen, continued notwithstanding kind private remonstrance and reproof in the class, and notwithstanding repeated requests to Mr. Wright to interpose his authority to put a stop to it.

As you are aware, so soon as I was appointed to my present position an effort was made to oust me from it. The effort having failed in one direction, is, I believe, renewed in another.

Mr. Wright has *vilified* me, charged me with uttering language only used *par les femmes de la Halle*—language he uses himself, to the great edification of the students, who are to *teach* the youth of the Colony. Knowing that no stone will be left unturned to injure me, and that an attempt will be made to attack my capacity as a teacher, I beg that the papers, which I have corrected upon almost every subject taught in the Training School, be produced. Mr. Wright told me not to put my writing upon some of them, his motive being that the students should not see that I am capable of correcting his grammar papers, while he is endeavouring to impress upon them that I am not competent. I also beg to refer to Dr. Badham, to whom I have been introduced by letter from Sir John Hay, and to the Secretary of the Council, as to my thorough knowledge of the French language.

I am prepared to add several more facts to those here mentioned. I have positive proof that Mr. Wright asked a gentleman to form one of a clique of two and himself to oust the Secretary from his position.

I most earnestly request, therefore, that a full and searching inquiry be made into the causes of the want of discipline in the Training School, and the encouragement there given to rudeness and vulgarity; into the threat held out by Mr. Wright before I entered—that in spite of the Council I would be turned out in a month, and the efforts made to carry this threat into effect.

In connection with this letter I have the honor to enclose a copy of a letter I felt compelled to write to the head master, which, though effectual for the time in putting a stop to the brutal coarseness of which I complained, has not been sufficient to put an end to the system of persecution, of which the complaint now made to the Council against me is only a part.

Wrecked in health by the treatment I have received, and almost incapacitated for duty by gross brutality, I cast myself upon the mercy and justice of the Council, and I beseech it to grant me a full and searching inquiry into *all* the circumstances of the case.

I have, &c.,  
S. M. BARDWELL.

#### Annex to letter dated 23 September, 1878, from Mrs. Bardwell.

Mr. Wright, Sir,

"Nandamanu," Ocean-street, Woollahra, 29 July, 1878.

From the time when I had the honor to be appointed by the Council of Education to the position which I now hold in the Training School, it has been painfully evident that you disapproved of the choice which the Council made, and that you would do your utmost to render it impossible for me to continue to hold my appointment. In order to this you have repeatedly treated me rudely and contemptuously in the presence of the students, thus encouraging them to do the same, and rendering it difficult for me to secure their respect and attention. That I have continued to do so, notwithstanding (as I have), is surprising—and probably to none more surprising than yourself. I had hoped by patient submission and diligent attention to my duties to appease your animosity. Finding this hope vain, I am at last forced to protest against the extraordinary, unjust, and unmanly course which you have been pursuing.

During last session you gave me some Composition papers to correct, the subject of which was—"A rolling stone gathers no moss." It seemed strange to me that *all* the students treated the subject as meaning never to change one's place of residence, trade, profession or business, but to continue plodding on through life in the place of one's birth. I corrected a few of the papers by showing that the text meant the patient, constant, persevering pursuit of an end or object; that it did not mean to remain all one's life in one place, for often the pursuit of the object might necessitate one's going to a different place, and perhaps to a different country; and I illustrated this manner of treating it by examples from existing circumstances, from literature, commercial pursuits, and the arts.

On that occasion you treated me with the greatest disdain and contempt. You said the students had treated it rightly, and ordered me, in a most imperious manner, to bring the remaining papers to you, and not to touch any more of them. I simply obeyed without reply. I have since, however, submitted the question to gentlemen of the highest education in the Colony, and they said your treatment of it was puerile in the extreme.

On another occasion, while giving a lesson, one of the students behaved disrespectfully to me. I warned her that if she should repeat it I would be forced to send her out of the class. The next time the lesson was on, she began again, and I dismissed her the class.

You then came in before the students, and attacked me in a violent manner. You said the Council would not allow me to send the girl out of the class, and that I must receive her back without an apology; to

to which I simply replied—that if you brought her in I would walk out. On the instant you went off to the Secretary with a complaint against me; and that gentleman, after having impartially heard us both, showed, by his action in the matter, that I was in the right. Having thus given some instances of your treatment of me during the last session I come to the present.

I certainly hoped you would allow me to do my duty in quiet on entering upon the present session, but I have been disappointed. The first time I appeared before the students (July 17) you attacked me in a most boisterous manner in their hearing. You said I did not do my duty, that I would have to do what I was told to do or leave the place, and that you would see to it. You said I was impudent in the affair of sending the girl out of the class, and that if that matter had been brought before the Council it would be bad business for me.

Your object in thus attacking (as you virtually did) the decision of the Secretary in the above case, was evidently to deprive me of the influence over the students which I was calculated to have, and your course was intended to humiliate me before the students of this session, as you did before those of the last. I humbly requested you then, not in the hearing of my class, to deal more fairly with me, and I asked how you would like your superiors to abuse you in the hearing of your pupils as you did me that day. You replied to this by a jeer.

Unarmed and cowed, as a defenceless woman well might be by your unmanly harshness—brow-beaten and degraded in the presence of those whom I have to teach—I have nevertheless endeavoured to act respectfully to you, and to do my duty to the best of my ability; there is, however, a point beyond which *submission would be wrong*.

It has also to be remembered that the students now in the Training School may soon be in authority over others, and if they follow the example which they see you with impunity set before them, a spirit of tyranny and overbearing violence will prevail wherever they are. I feel bound, therefore, to make this firm remonstrance. If it is successful no one will be better pleased than I that the matter should not be referred to again in any way, but it is right to add that I keep a copy of this letter.

I remain, &c.,

S. M. BARDWELL.

## No. 2.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Nandamanu, Ocean-street, Woollahra, 28 September, 1878.

With reference to recent correspondence, I beg to submit specimens of my work in connection with the revision of Students' Exercises.

I have, &c.,

S. M. BARDWELL.

Annex to letter of September 28th, 1878.

S.M.B.

GRAMMAR.

FRANCIS J. GALLAGHER,  
September 3rd, 1878.

CORRECT the following and explain—

- (a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.
- (b) If an Aristotle or a Pythagoras or a Galileo suffer for their opinions, they are martyrs.
- (c) I beg pardon—you are not the person whom I thought it was.
- (d) It cannot be me.
- (e) I cannot tell who to compare them to.
- (f) Each of which have stamped their own impress on the character of the people.
- (g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

The army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile its miserable march. The correlative of the pronoun "their" is army, which is singular number; therefore, the pronoun "its," which is singular number, should be substituted for "their," which is plural number, and consequently incorrect.

(b) If an Aristotle or a Pythagoras or a Galileo suffer for their opinions, they are martyrs.

If an Aristotle or a Pythagoras or a Galileo ~~suffer~~ **suffers** for his opinions, he is a martyr. The names Aristotle, Pythagoras, and Galileo are each used in a separate sense, consequently they are singular number; and the pronoun "their," which is used ~~in place of them~~ (1) **Incorrect** should be "his," which is singular number, to agree with its singular correlatives, Aristotle, Pythagoras, and Galileo.

(c) I beg pardon—you are not the person whom I thought it was.

I beg pardon—you are not the person ~~who~~ **Object of the verb thought** (10) I thought you were. The words "it" and "whom" are in apposition, and the verb "was" takes the same case after it that it does before it. Consequently, "who," the nominative case, should be used instead of "whom" which is objective case.

(d) It cannot be me.

It cannot be I.

Here, the pronoun "it" and "I" are in apposition, and in this case, the verb "to be" takes the same case after it that it does before—that is, it takes the pronoun I, which is nominative case.

(e) I cannot tell who to compare them to.

I cannot tell whom to compare them to.

The preposition "to" governs the objective case; therefore the pronoun "whom" (obj. case) should be used instead of "who" (which is nom. case.)

(f) Each of which have stamped their own impress on the character of the people.

Each of ~~which~~ **whom** (10) has stamped his own impress on the character of the people.

The verb "have stamped" should be singular number to agree with its sing. nominative "each." The pronoun "their" should also be sing. number to agree with ~~its~~ **Does not refer to each correlative "each."**

(g)

(g) The commander of the detachment was killed and the soldiers they all fled.

The commander of the detachment was killed, and the soldiers all fled.

The pronoun "they" in the first place is unnecessary, and secondly, it is ungrammatical, because is used in the same clause with its correlative "soldiers." This is incorrect, as a pronoun and its correlative can never be used in the same clause.

S.M.B.

ANNIE BOUSFIELD,  
3rd September.

GRAMMAR.

Correct the following and explain :—

(a) The army, whom its chief had thus abandoned, pursued meanwhile their miserable march.

(b) If an Aristotle or a Pythagoras or a Galileo suffer for their opinions, they are martyrs.

(c) I beg pardon—you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army, whom its chief had thus abandoned, pursued meanwhile their miserable march.

The army ~~whom~~ **which** (10) its chief had thus abandoned, pursued meanwhile its miserable march.

The word "their" should be "its," because it is used instead of the noun "army." **This subject is best explained by stating the rule of syntax in each case**, and therefore should be in the singular number to agree with army, which is in the singular number, and pronouns must agree with the nouns they stand in place of, in number, person, and gender.

(b) If an Aristotle or a Pythagoras or a Galileo suffer for their opinions, they are martyrs.

If an Aristotle or a Pythagoras or a Galileo ~~suffer~~ **suffers** for his opinions he is a martyr.

"Their" should be "his," and "they are" should be "he is," because it does not mean the three are martyrs, but it means either one or other of the three.

(c) I beg pardon—you are not the person whom I thought it was.

I beg pardon—you are not the person ~~who~~ **whom** I thought it was **you were** (10.)

The pronoun "whom" should be "who," because it comes after the verb "was," and the verb "to be" always takes the same case after it as that which goes before it, namely, the nominative. "Whom" is not nominative, therefore it should be "who."

(d) It cannot be me.

This should be It cannot be I, because the verb "to be" takes the same case after it as before it, and "me" is always objective case.

(e) I cannot tell who to compare them to.

I cannot tell whom to compare them with.

"Who" should be "whom," because the objective case is required, and "who" is always nominative case.

"To" should be "with," because in comparing two things, we compare one with the other, and not one to the other.

(f) Each of which have stamped their own impress on the character of the people.

Each of ~~which~~ **whom** (10) has stamped its **his** own impress on the character of the people.

"Have," should be "has," because the nominative is singular, and the subject must be singular to agree with it. "Their," should be "its," because it stands in place of ~~each~~, which is singular.

(g) The commander of the detachment was killed, and the soldiers they all fled.

The commander of the detachment was killed, and all the soldiers fled.

"They," is not needed in the sentence, and if left will not be good composition, and "these" will be "the."

MARTHA CALDECOTT.

GRAMMAR.

Correct the following and explain :—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle or a Phthagros or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon—you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(a) The army ~~whom~~ **which** (10) its chief had thus abandoned, pursued "*its*" miserable march. "Their" should be "*its*" as "*their*" is plural number, and the singular number is required, because "army" is singular.

(b) If an Aristotle or a Phthagros or a Galileo suffer for their opinions they are martyrs.

(b) If an Aristotle or a Phthagros or a Galileo suffer for his opinion, he is a martyr. [The verb must agree with its nominative.] (10)

The word *their* should be "*his*" as it only stands for one, and this also refers to *they*.

(c) If I beg pardon, you are not the person whom I thought it was.

(c) I beg pardon—you are not the person ~~who~~ I thought it was. ["Whom," object of the verb thought.] (10)

"Whom" should be "*who*," as the verb "*was*" requires after it a nominative case, and "*whom*" is objective.

(d) It cannot be me.

(d) It cannot be I.

"Me" is incorrect, as "*be*" takes the nominative case after it, and "*it*" should be "*I*."

(e) I cannot tell who to compare them to.

(e) I cannot tell whom to compare them to.

"Who" should be "*whom*," as the verb takes the objective case after it, and "*who*" is always nominative.

(f) Each of which have stamped their own impress on the character of the people.

(f) Each of ~~which~~ **whom** (10) has stamped his own impress of the character of the people. "Have" should be "*has*" to agree with its nominative, and "*their*" should be "*his*," as the noun for which it stands is singular.

(g) The commander of the ~~people~~ was killed, and the soldiers they all fled.

(g) The commander of the detachment was killed, and all the soldiers fled.

The word "*they*" is not required, because "*soldiers*" is nominative case to "*fled*," and it is incorrect to have a pronoun and the noun it stands in place of in the same sentence.

GRAMMAR.

I. Correct the following and explain :—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle or a Pythagoris or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon—you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed, they all fled.

(a) The army ~~whom~~ **relates to army** its chief had thus abandoned pursued meanwhile their miserable march.

The army which its chief had thus abandoned pursued meanwhile, its miserable march. The pronouns ~~whom~~ and "*their*" relate to persons, and "*they*" should not be used with reference to the noun **army**.

(b) If an Aristotle or a Pythagoris or a Galileo suffer for their opinions they are martyrs.

If an Aristotle, a Pythagoris, or a Galileo suffer for ~~their~~ **pronouns agree with the nouns they represent in number, gender, and person** (10) opinions ~~they are~~ **a verb agrees with its nominative martyrs**. In this sentence the conjunction is used too often, which spoils the sound.

(c) I beg pardon—you are not the person whom I thought it was.

I beg pardon—you are not the person I thought you were. The third personal pronoun it is used for the second personal pronoun "*you*," and the word "*whom*" is unnecessary.

(d)

(d) It cannot be me.

It cannot be I. The object. case pronoun "me" used instead of the nom. case "I."

(e) I cannot tell who to compare them to.

I cannot tell to whom I should compare them, or, I cannot tell whom to compare them to. The nominative pronoun "who" is used instead of the objective pronoun "whom."

(f) Each of which have stamped their own impress on the characters of the people.

Each of ~~which~~ **whom** (10) have the word "each" requires the verb in the singular (10) stamped their impress on the character of the people. The word "own" is superfluous. **Not so.**

(g) The commander of the detachment was killed, they all fled.

The commander of the detachment being killed, they all fled, or—The commander of the detachment was killed, and all fled. This might either be two simple sentences, or a combined joined by "and."

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle or a Pythagros or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon—you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress of the character of the people.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

The army ~~whom~~ **which** its chief had thus abandoned pursued meanwhile *its* miserable march. "Their" should be "its," as "their" is plural number; the singular number is required, as the noun which it stands for is singular.

(b) If an Aristotle or a Pythagros or a Galileo suffer for *their* opinions *they* are martyrs.

If an Aristotle or a Pythagros or a Galileo suffer for his opinion he is a martyr. [The verb must agree with its nominative.] (10.)

The word "their" should be "his," as it only stands for one; and this also refers to "they."

(c) I beg pardon—you are not the person *whom* I thought it was.

I beg pardon—you are not the person ~~who~~ I thought it was **you were**. [Object of the verb thought.] (10.)

"Whom" is incorrect, as the verb "was" requires after it a nominative case.

(d) It cannot be *me*.

It cannot be *I*.

"Me" is incorrect, as the verb "be" requires after it a nominative case.

(e) I cannot tell *who* to compare them to.

I cannot tell whom to compare them to.

"Whom" should be used instead of "who," as it is in the objective case; "who" is always a nominative.

(f) Each of which *have* stamped *their* own impress of the character of the people.

Each of ~~which~~ **whom** (10) has stamped his own impress of **on** the character of the people.

"Have" should be "has" to agree with its nominative. "Their" should be "his," as the noun for which it stands is singular.

(g) The commander of the detachment was killed, and the soldiers *they* all fled.

The commander of the detachment was killed, and all the soldiers fled.

The word "they" is not required, because "soldiers" is nominative case to "fled," and it is incorrect to have a pronoun in the same sentence as the noun it stands for.

GRAMMAR.

Correct the following and explain:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle or a Phthagros or a Gallileo suffer for their opinions, they are martyrs.

(c) I beg pardon—you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed and the soldiers they all fled.

Correct the following and explain:—

"a" The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(a) The army, ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile its miserable course.

The word "their" should be "its," as "their" is plural number, and the singular number is required because "army" is singular number.

(b) If an Aristotle, or a Phthagros, or a Gallileo suffer for their opinions they are martyrs.

(b) If an Aristotle or a Phthagros or a Gallileo suffer for his opinion *they* are martyrs.

[Pronouns agree with the nouns they represent in number, gender and person.]

The word "their" should be "his."

(c)

(c) I beg pardon—you are not the person whom I thought it was.

(c) I beg pardon—you are not the person ~~who~~ I thought it **you** was **were**. [Object of the verb "thought"—10.]

The word "whom" should be "who," as "was" must take a nom. case after it, and "whom" is always objective.

(d) It cannot be me.

(d) It cannot be I.

The word "me" should be "I," as the case of "me" in above sentence is nom. after the verb, and "me" is always in objective case.

(e) I cannot tell who to compare them to.

(e) I cannot tell whom to compare them to.

Word "who" should be "whom," as "who" would have to be in objective case.

(f) Each of which have stamped their own impress on the character of people.

(f) Each of ~~which~~ **whom** (10) has stamped his own impress on the character of people.

"Have" should be "has," as the verb must agree with its nom. in number; "their" should be "his," as the noun for which it stands is singular.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(g) The commander of the detachment was killed and the soldiers all fled.

There is no need for "they;" the pronoun must not be used in same clause as the noun for which it stands.

Neat., 35 }  
Subj., 60 } 140.  
S.M.B.

MARY GRIFFITHS,  
Sept. 3rd, 1878.

GRAMMAR.

Correct the following and explain:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle, or a Phthagros, or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon, you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

The army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile its miserable march. The word "their" should be "its" because if "their" remained in the sentence it would be plural number and the singular number is required, therefore by changing "their" into "is" the sentence is made correct because army is singular number.

(b) If an Aristotle or a Phthagros or a Galileo *suffer* for *their* opinions *they are* martyrs (10).

(c) I beg pardon, you are not the person whom I thought it was.

I beg pardon, you are not the person *who* [object of thought] I thought ~~it was~~ **you were** (10).

The word "whom" should be "who" on account of the verb "was" being intransitive and not having an object. "Whom" is in the objective case, so it is incorrect, but by changing "whom" into "who" the sentence is made correct, for "who" is in the nominative after the verb "was."

(d) It cannot be me.

It cannot be I.

The word "me" should be "I" as me is in the objective case always, but if it were to remain in the sentence it would be parsed nominative after the verb which would be incorrect.

(e) I cannot tell who to compare them to.

I cannot tell whom to compare them to.

In this sentence the word "who" should be "whom" as "who" is always nominative, but if it were not changed it would be objective which would be wrong.

(f) Each of ~~which~~ **whom** (10) have stamped their own impress on the character of the people.

The word "have" should be "has" as the verb must agree with its nominative in person and number.

(g) The commander of the detachment was killed and the soldiers they all fled.

In this sentence the pronoun and noun for which it stands are in the same clause which is incorrect; therefore the pronoun could be left out and the sentence would be correct.

Neat., 30 }  
Subj., 60 } 140.  
S.M.B.

MARIA CALLAN,  
September 3rd, 1878.

GRAMMAR.

Correct the following and explain:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle, or a Pythagros, or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon; you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

"Their" should be "its," as "their" is plural number, and the noun which it stands for is singular. "The" army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile *its* miserable march.

(b)

(b) If an Aristotle, or a Pythagoras, or a Galileo suffer for their opinions, they are martyrs.

"If an Aristotle, or a Pythagoras, or a Galileo *suffer* for *his* opinions, *he is a martyr.*" [The verb must agree with its nominative.] (10)

"His" refers to either an Aristotle, or a Pythagoras, or a Galileo; it means only one, and therefore "his" should be substituted for "they." For the same reason the clause "they are martyrs" should be "he is a martyr."

(c) I beg pardon; you are not the person whom I thought it was.

"I beg pardon; you are not the person ~~who~~ **whom** [object of thought] (10) I thought it was."

"Whom" is incorrect, as it would be nominative after "was"; and as "whom" is always in the objective case, "who" should be used.

(d) It cannot be me.

"It cannot be I."

"Me" is incorrect, as it must then be nominative after "can be," in apposition with "it," which would be absurd, as "me" is the objective pronoun; but "I" being always nominative will be the proper word to use.

(e) I cannot tell who to compare them to.

"I cannot tell *whom* to compare them to."

"Whom" is to be used instead of "who," as it is objective, governed by the preposition "to;" and therefore "who," which is the nominative pronoun, is incorrect.

(f) Each of which have stamped their own impress on the character of the people.

"Each of ~~which~~ **whom** *has* stamped *his* own impress on the character of the people."

The nominative to "have" is third person singular number; therefore the verb should be the same. "Their" stands in place of "each," which is singular number, and therefore should be "his."

(g) The commander of the detachment was killed, and the soldiers they all fled.

"The commander of the detachment was killed, and the soldiers all fled."

It is incorrect to have a pronoun in the same clause as the noun it stands for; therefore "they" should be omitted.

Neat., 40 }  
Subj., 80 } 140.

ELIZABETH CHAFFER,  
September 3, 1878.

GRAMMAR.

Correct the following:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle, or a Pythagoras, or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon; you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell whom to compare them to.

(f) Each of which have stamped their own impress on the character of the people.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

The army which its chief had thus abandoned pursued meanwhile its miserable march.

The pronoun standing instead of army is put plural, it ought to be singular, "their" instead of "its."

[This subject is best explained by stating the rule of syntax in each case.]

(b) If an Aristotle, or a Pythagoras, or a Galileo suffer for their opinions, they are martyrs.

If an Aristotle, a Pythagoras, or a Galileo suffers for his opinion, he is a martyr.

When singular nouns are joined by the conjunction, or the verb remains singular. Here the verb is suffer instead of suffers.

(c) I beg pardon; you are not the person whom I thought it was.

I beg pardon, you are not the person ~~who~~ **whom** [object of thought], (10) I thought it was.

(d) It cannot be me.

It cannot be I.

Me is always in the objective case.

(e) I cannot tell who to compare them too.

I cannot tell whom to compare them too.

Who is incorrect, because it is never in the objective case, but always in the nominative.

(f) Each of which have stamped their own impress on the character of the people.

Each of whom *have* [the word each requires the verb in the singular], (10) stamped his (or her) own impress on the character of the people.

Which is never used in speaking of persons.

Their is put in plural instead of the singular; their relates to one.

(g) The commander of the detachment was killed, and the soldiers they all fled.

The commander of the detachment was killed, and the soldiers all fled.

It is incorrect to have both the noun and the pronoun, for which it stands in the same sentence.

Neat., 40 }  
Subj., 70 } 140.  
S.M.B.

EMILY J. RUSHFORTH,  
3rd September.

GRAMMAR.

Correct the following and explain:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle, or a Pythagoras, or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon; you are not the person whom I thought it was.

(d) It cannot be me.

(e)

- (e) I cannot tell who to compare them to.  
 (f) Each of which have stamped their own impress on the character of the people.  
 (g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile its miserable march.

Here the noun "army" is singular number; therefore the pronouns standing in its stead must also be singular.

(b) If an Aristotle, or a Pythagoras, or a Galileo *suffer* for his opinions, he is a martyr. [The verb must agree with its nominative.]

Here it is not Aristotle, Pythagoras, and Galileo, who suffer, but only one of them; therefore use the pronouns "his" and "he," instead of "their" and "they."

(c) I beg pardon; you are not the person ~~who~~ **whom** [object of "thought"] I thought it was. The pronoun "it" is nominative case to the verb "was," and the pronoun "who" nominative case after the word "was" in apposition with "it." Therefore "whom," being a pronoun always in the objective case, is incorrect.

(d) It cannot be I.

Just for the same reason as that in example c. "I" must be used here instead of "me," which is a pronoun in the objective case.

(e) I cannot tell whom to compare them to, or I cannot tell to whom to compare them.

Because the preposition "to" governs the pronoun in the objective case, "whom" must be used, and not "who," which is nominative.

(f) Each of ~~which~~ **whom** [refers to persons] (10) has stamped his (or her) own impress on the character of the people.

Here "each" being singular number requires a verb in the singular number, "has" instead of "have," and a pronoun also in the singular number "his," "her," or "it's," according to the gender of the noun understood.

(g) The commander of the detachment was killed, and the soldiers all fled.

"The soldiers, they all fled," is incorrect, because it is literally making the noun and its pronoun nominative to the same verb, which cannot be.

Neat., 40 }  
 Subj., 70 } 140.  
 S.M.B.

GEORGE D. COTTERILL,  
 September 3, 1878.

GRAMMAR.

Correct the following and explain:—

- (a) The army ~~whom~~ its chief had thus abandoned pursued meanwhile their miserable march.  
 (b) If an Aristotle, or a Pythagoras, or a Galileo *suffer* for their opinions they are martyrs.  
 (c) I beg pardon; you are not the person ~~who~~ I thought it was.  
 (d) It cannot be me.  
 (e) I cannot tell who to compare them to.  
 (f) Each of which have stamped their own impress on the character of the people.  
 (g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile their miserable march.

In this sentence "their" should be "its," because it stands for the singular noun "army." Corrected it would read "The army *whom* its chief had thus abandoned, pursued meanwhile its miserable march."

(b) If an Aristotle, or a Pythagoras, or a Galileo ~~suffer~~ **suffers** for their opinions, they are martyrs.

This is incorrect, because a singular nom. is used with a plural verb. The words "Aristotle," "Pythagoras," and "Galileo" are joined by the conj. "or," which implies that only one suffers; while the predicate and other parts of the sentence distinctly give the idea that all three suffer. It may be corrected in two ways, first by making the nom. plural, as "If an Aristotle and a Pythagoras and a Galileo suffer for their opinions, they are martyrs," and second, by making the predicate, &c., singular, as "If an Aristotle, or a Pythagoras, or a Galileo suffers for his opinions, he is a martyr." The latter is the more elegant.

(c) I beg pardon; you are not the person ~~who~~ I thought it was.

This should be:—"I beg pardon; you are not the person ~~who~~ **whom** [object of thought] (10) I thought ~~it was~~ **you were**;" because the proper word to be used is the nom. case after "was," in app. with "it," whereas "whom" is the objective case.

(d) It cannot be me.

This corrected reads thus:—"It cannot be I;" because the proper word to be used is the nom. case after "cannot be," in apposition with "it," whereas "me" is the objective case.

(e) I cannot tell who to compare them to.

The above should be:—"I cannot tell whom to compare them to;" because the proper word to be used is obj. case governed by the preposition "to," and "who" is the nominative case.

(f) Each of which have stamped their own impress on the character of the people.

This should be:—"Each of ~~which~~ **whom** (10) has stamped his own impress on the character of the people;" because the subject "each" is singular, and therefore the verb "have" and pronoun "their" should also be singular.

(g) The commander of the detachment was killed, and the soldiers they all fled.

This is incorrect, because the word "they" is unnecessary. The sentence should read thus:—"The commander of the detachment was killed, and all the soldiers fled."

Neat., 40 }  
 Subj., 80 } 140.  
 S.M.B.

ROBERT ANDERSON,  
 3rd September, 1878.

## GRAMMAR.

Correct the following, and explain:—

- (a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.  
 (b) If an Aristotle, or a Pythagoras, or a Galileo suffer for their opinions, they are martyrs.  
 (c) I beg pardon; you are not the person whom I thought it was.  
 (d) It cannot be me.  
 (e) I cannot tell who to compare them to.  
 (f) Each of which have stamped their own impress of the character of the people.  
 (g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursues meanwhile their miserable march.  
 This should be:—"The army *which* its chief had thus abandoned pursued meanwhile *its* miserable march.

"Whom" refers to a *person or persons*, but "which" refers to nouns which are neuter, as "army." The word "their" should be "its," because "army" is singular, and therefore the pronoun should also be singular.

(b) If an Aristotle, or a Pythagoras, or a Galileo suffer for their opinions, they are martyrs.  
 This sentence should be:—"If an Aristotle, or a Pythagoras, or a Galileo ~~suffer~~ **suffers** for *his* opinion, *he is a martyr.*"

A rule of syntax says:—"That two or more nouns separated by *or*, are followed by a *verb* in the singular number."

The idea of being a martyr refers only to one person, and therefore instead of saying, "they are martyrs," it should be said that, "he is a martyr."

(c) I beg pardon; you are not the person whom I thought it was.  
 The above sentence corrected would read thus:—"I beg pardon, you are not the person ~~who~~ **whom** [object of thought] (10) I thought *you were.*"

*Whom* is the objective instead of nominative after *was*. The person is spoken to, and the person speaking to him would not address him in the third person.

(d) It cannot be me.  
 This should be:—"It cannot be I."

"Me" is objective; whereas the nominative form "I" should be used after the verb "be."

(e) I cannot tell who to compare them to.

This sentence ought to be:—"I cannot tell *whom* to compare them to."

"Whom" is better to use than "who," because it is governed by the preposition "to," and "who" is the nominative case.

(f) Each of which have stamped their own impress of the character of the people.  
 The correct one is this:—"Each of ~~which~~ **whom** (10) *has* stamped *his* own impress of **on** the character of the people.

"Each" is singular number; and therefore the verb which agrees it, and also the pronoun used instead of it, should be singular.

(g) The commander of the detachment was killed, and the soldiers they all fled.  
 This should be:—"The commander of the detachment was killed, and the *soldiers all fled.*"  
 The noun and its pronoun should not be in same clause together.

Neat., 30 }  
 Subj., 70 } 140.  
 S.M.B.

AGNES ADAM,  
 3/9/78.

## GRAMMAR.

Correct the following, and explain:—

- (a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.  
 (b) If an Aristotle, or a Pythagirus, or a Galileo suffer for their opinions they are martyrs.  
 (c) I beg pardon, you are not the person whom I thought it was.  
 (d) It cannot be me.  
 (e) I cannot tell who to compare them to.  
 (f) Each of which have stamped their own impress of the character of the people.  
 (g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile *its* miserable march.  
 The army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile their miserable march.

The noun "army" is spoken of here in the singular number, and the pronoun which stands for army must also be singular number, so the word "their" should be "its."

(b) If an Aristotle, or a Pythagirus, or a Galileo suffer for their opinions they are martyrs.  
 If an Aristotle, or a Pythagirus, or a Galileo *suffer* [verbs agree with their nominatives] for his opinions *he is a martyr.*

In this sentence the word "their" should be "his," because each person is considered singly, and for the same reason the words "they are" must be put in the singular number.

(c) I beg pardon, you are not the person whom I thought it was.  
 I beg pardon, you are not the person ~~who~~ **whom** (10) I thought it was.  
 The word *whom* [object of thought] is incorrect, it should be "he," because it is nominative after the verb "was" and in apposition with "it," which is nominative.

(d) It cannot be me.

It cannot be I.

According to the rule of the verb to be taking the same case after it as it does before it, the word "me" must be changed into "I" after the verb "be."

(e) I cannot tell who to compare them to.  
The word "who" must be changed into whom, because who is nominative case and cannot be governed by a preposition.

(f) Each of which have stamped their own impress on the character of the people.  
Each of ~~which~~ **whom** (10) have stamped his own impress of the character of the people.  
The words "have" and "their."

Neat, 35 }

SUSANNAH DUMBRELL,  
Sept. 3rd, 1878.

GRAMMAR.

Correct the following, and explain:—

- (a) The army whom its chief had thus abandoned pursue meanwhile their miserable march.  
(b) If an Aristotle, or a Pithargros, or a Galileo suffer for their opinions they are martyrs.  
(c) I beg pardon, you are not the person whom I thought it was.  
(d) It cannot be me.  
(e) I cannot tell who to compare them to.  
(f) Each of which have stamped their own impress on the character of the people.  
(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursues meanwhile their miserable march.  
The army ~~whom~~ **which** [refers to army] (10) its chief had thus abandoned pursues meanwhile its miserable march.

The noun army being in the singular number requires the verb it is nominative to to be also in the singular number, and also the pronoun that stands for it.

- (b) If an Aristotle or a Galileo suffer for their opinions, they are martyrs.  
If an Aristotle or a Galileo ~~suffer~~ **suffers** for his opinions he is a martyr.

(c) I beg pardon, you are not the person whom I thought it was.  
I beg pardon, you are not the person ~~who~~ **whom** [object of thought] (10) I thought ~~it was~~ **you**

were.

It is incorrect to write "whom," because that is the objective form of the word, and the nominative form "who" is the one required.

- (d) It cannot be me.

It cannot be I.

I is used instead of me because it is nominative case after the verb can be, and me can never be in the nominative case.

- (e) I cannot tell who to compare them to.

I cannot tell whom to compare them to.

The object of the transitive verb "can tell" requires to be in the objective case, and "who" is the nominative form of that word, therefore it is necessary to use "whom."

- (f) Each of which have stamped their own impress on the character of the people.

Each of ~~which~~ **whom** (10) has stamped his own impress on the character of the people.

The nominative to "has stamped" is each, therefore it would be incorrect to write a verb in the plural number when its nominative is in the singular; and the pronoun must also be in the singular number that stands for the noun, therefore "his" is used instead of "their."

- (g) The commander of the detachment was killed, and the soldiers they all fled.

The commander of the detachment was killed, and the soldiers fled.

Neat, 40 }  
Subj., 70 } 140.

MARY FITZGERALD,  
3rd September, 1878.

GRAMMAR.

Correct the following, and explain.

- (a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.  
(b) If an Aristotle or a Pithargros, or a Galiol suffer for their opinions they are martyrs.  
(c) I beg pardon, you are not the person whom I thought it was.  
(d) It cannot be me.  
(e) I cannot tell who to compare them to.  
(f) Each of which have stamped their own impress on the character of the people.  
(g) The commander of a detachment was killed and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

CORRECTION:—The army ~~whom~~ **which** [refers to army] (10) its chief had thus abandoned pursued meanwhile its miserable march.

In (a) "their" used incorrectly because the noun it stands for is in the singular, and therefore it also should be in the singular because pronouns should agree with the nouns they stand for in number

(b) If an Aristotle or a Pithargros or a Galiol suffer for their opinions they are martyrs.

CORRECTION:—If an Aristotle or a Pithargros or a Galiol ~~suffer~~ **suffers** for his opinion he is a martyr.

Nouns joined by the conjunction "or" require a verb in the singular and also any pronouns following those nouns and alluding to them should be singular; therefore "their" and "they" in preceding, are incorrect because the words do not refer to these three persons but to one of them. "Are" is also incorrect because when "they" is changed into "he" the verb will require to be singular to agree with its nominative.

(c)

(c) I beg pardon you are not the person whom I thought it was.

CORRECTION:—I beg pardon you are not the person ~~who~~ **whom** [object of thought] (10) I thought it was **you were**.

Nouns and pronouns following the verb "to be" are nominative case and in apposition with those preceding, therefore in (c) the word "whom" is incorrect because it is objective case and does not agree with the rule; to be correct therefore it must be changed into "who," which is nominative.

(d) It cannot be me.

CORRECTION:—It cannot be I.

To agree with the preceding the pronoun following "be" in (d) should be in the nominative case, but it is the word "me" which is in the objective case and therefore incorrect. To be correct the nominative of "me," "I," should be placed after "be."

(e) I cannot tell who to compare them to.

CORRECTION:—I cannot tell whom to compare them to.

Prepositions govern nouns and pronouns in the objective case. In (e) the pronoun "who," which is governed by prep. "to," is in the nominative case, and therefore incorrect. To be correct it requires the objective case of "who," which is "whom."

(f) Each of which have stamped their own impress on the character of the people.

CORRECTION:—Each of ~~which~~ **whom** (10) has stamped its **his** own impress on the character of the people.

The verb should agree with its nominative in number. In (f) the nominative of "have" is singular, therefore "have" is incorrect because it is plural; the singular of have is has which placed in the sentence will be correct. "Their" is also incorrect, because it is a pronoun standing for the noun "each," which is singular, and it itself is plural.

(g) The commander of a detachment was killed, and the soldiers they all fled.

CORRECTION:—The commander of a detachment was killed and the soldiers all fled.

"They" in sentence (g.) is ~~superfluous~~ **superfluous** because the pronoun should not be used in the same sentence as its noun.

Neat., 30 }  
Subj., 45 } 140.  
S.M.B.

EMILY NICKISSON,  
4/9/78.

#### GRAMMAR.

Correct the following, and explain:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle or a Pithagorus or a Galileo suffer for their opinions they are martyrs.

(c) I beg pardon, you are not the person whom I thought it was.

(d) It cannot be me.

(e) I cannot tell who to compare them to.

(f) Each of which have stamped their own impress of the character of the people.

(g) The commander of the detachment was killed, and the soldiers they all fled.

(a) The army whom its chief had thus abandoned, pursued meanwhile their miserable march.

The army ~~whom~~ **which** (10) its chief had thus abandoned pursued meanwhile its miserable march.

The word their is used wrongly, it should be *it* [wrong (10), does not depend upon army], because it is used instead of army, which is singular number, their being plural.

(b) If an Aristotle, or a Pithagorus, or a Galileo suffer for their opinions, they are martyrs.

If an Aristotle, or a Pithagorus, or a Galileo *suffer* [the verb must agree with its nominative] for his opinions, he is a martyr.

The word "their" should be "his," because it is used instead of either Aristotle, Pythagorus, or Galileo, and not instead of the three, in which case their would be used. The word "they" also should be "he," as it is used instead of either of the three, Aristotle, Pythagorus, or Galileo.

(c) I beg pardon, you are not the person whom I thought it was.

I beg pardon, you are not the person ~~who~~ **whom** (10) I thought ~~it was~~ **you were**.

The word who should be substituted for whom, because whom is objective case and the pronoun should be nominative case after the verb "was," in apposition with "it."

(d) It cannot be me.

It cannot be I.

The word me is objective case, and the verb "to be" takes the same case after it as it does before.

(e) I cannot tell who to compare them to.

I cannot tell who to compare them with.

The word who should be whom, because it is objective case, governed by the preposition "with." Who is nominative case.

(f) Each of which have stamped their own impress of the character of the people.

Each of ~~which~~ **whom** (10) has stamped his own impress of the character of the people.

Have is plural, and the nominative of have is each, which is singular number, therefore the verb must be singular, hence has should be used.

(g) Not treated. (15)

CHARLES R. READ.

#### GRAMMAR.

Correct the following, and explain:—

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.

(b) If an Aristotle, or a Pthagoras, or a Galilea suffer for their opinions, they are martyrs.

(c) I beg pardon, you are not the person whom I thought it was.

(d)

- (d) It cannot be me.  
 (e) I cannot tell who to compare them to.  
 (f) Each of which have stamped their own impress of the character of the pupil.  
 (g) The commander of the detachment was killed and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.  
 The army, which its chief had thus abandoned, pursued meanwhile ~~their~~ **its** (10) miserable march.  
 ["Whom," when used, should refer to person or persons, and not to an inanimate object.]

(b) If an Aristotle, or an Phthagoras, or a Galileo, suffers for their opinions, they are martyrs.  
 If an Aristotle or a Phthagoras, or a Galileo, suffers for *their opinions they are martyrs*. [Pronouns agree with the nouns they represent in number, gender, person. II. A verb agrees with its nominative (10).]  
 When nouns or pronouns are connected by "or," the verb should be in the singular number.

(c) I beg pardon, you are not the person whom I thought it was.  
 I beg pardon, you are not the person who [Object of the verb thought (10).] I thought it was.  
 Whom is the objective case. Instead of whom should be placed who, which is the nominative case.  
 Here the nominative case is required after was, the verb to be, when both words refer to the same person.

(d) It cannot be me.

It cannot be I.

Me is the objective case, and the nominative case is required here, because the verb to be takes the same case after it as it does before it when both nouns and pronouns refer to the same thing.

(e) I cannot tell who to compare them to.

I cannot tell to whom to compare them.

The objective case is here required instead of the nominative. Who is nominative, whom objective case governed by to.

(f) Each of which have stamped their own impress on the character of the pupils.

Each of ~~which~~ [not applicable to persons] has stamped ~~their~~ **his** own impress on the character of the pupils.

Instead of a plural verb a singular verb is required to agree with the singular nominative.

(g) The commander of the detachment was killed and the soldiers they all fled.

The commander of the detachment was killed and the soldiers all fled.

The pronoun and its co-relative should not occur in the same clause.

Neat., 30 } 140.  
 Subj., 60 }  
 S.M.B.

JOHN McPHIE,  
 3rd September, 1878.

#### GRAMMAR.

Correct and explain the following :—

- (a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.  
 (b) If an Aristotle or a Phythargaros, or a Galleo suffer for their opinions, they are martyrs.  
 (c) I beg pardon, you are not the person whom I thought it was.  
 (d) It cannot be me.  
 (e) I cannot tell who to compare them to.  
 (f) Each of which have stamped their own impress on the character of the people.  
 (g) The commander of the detachment was killed and the soldiers they all fled.

(a) The army whom its chief had thus abandoned pursued meanwhile their miserable march.  
 The army, whose chief had thus abandoned it, pursued meanwhile ~~their~~ **its** (10) miserable march.  
 In this case "whose" is substituted for "whom its," because "whom" is redundant and "its" would not imply a plural meaning to agree with its co-relative "army."

(b) If an Aristotle, or a Phythargaros, or a Galleo, suffer for their opinions, they are martyrs.  
 If an Aristotle, or a Phythargaros, or a Galleo ~~suffer~~ **suffers** for his opinions, he is a martyr.  
 "Their" in this instance should be "his," because *reference* is one of each, and hence should be singular; for the same reason "they" should be "he," and "are" changed to "is" to agree with "he."

(c) I beg pardon, you are not the person whom I thought it was.

I beg pardon, you are not the person *who* [Objective of verb thought (10).] I thought you were.

"Whom" is changed to "who," to agree with its nominative "you" after "were," and "it" is changed to "you," to agree with its co-relative person; "was" is altered to "were" to agree with its nominative "you."

(d) It cannot be me.

(e) I cannot tell who to compare them to.

I cannot tell *to* whom to compare them.

Here "who" has been altered to "whom" because it governs it in the objective case.

(f) Each of which have stamped their own impress on the character of the people.

Each of ~~which~~ **whom** (10) has stamped *its* own impress on the character of the people.

"Have" is altered to "has" to agree with its singular nominative "each"; and "their" to "its" ["Its" is not a relative pronoun (10).] to agree with its co-relative "each."

(g) The commander of the detachment was killed, and the soldiers they all fled.

The commander of the detachment was killed, and all the soldiers fled.

## COMPOSITION.

The pain of death denounced  
 Deterred you not from achieving what might lead  
 To happier life,—knowledge of good and evil :  
 Of good, how just ! (If what is evil be real)  
 Why not known ?  
 Since easier shunned.  
 God therefore cannot hurt ye and be just ;  
 Not just, not God ; not fear, then not obeyed ;  
 Your fear of death itself removes the fear.

The pain of death being denounced against you has not deterred you from achieving what might lead to a happier life—knowledge of good and evil. Your fear of death removes the fear that you may achieve this happier life. Of good, how just. If what is evil be real, why is it not known not completed (50) since it is easier shunned? God therefore cannot hurt ye.

[This transposition changes the author's meaning. The evil is known. Satin argues that what appears as evil is only undeveloped good ; and the subtle rogue has many pupils at the present time who illustrate this meaning by saying, "That the apple, as a crab, is bad ; but when matured, excellent."]

TRANSPOSITION.

## TRANSPOSITION.

The pain of death being denounced, did not deter you from achieving that which might lead to a happier life—the knowledge of good and evil. [Apparently not comprehended.] It is not Is it not just that you should know the good. Why should you not know the evil (if there be such a thing as evil) since, if you know it you may the easier shun it? Therefore God cannot hurt you, and be, at the same time, just. If he be not just he is not God, and should not then be feared nor obeyed.

*The fear itself which you entertain of death removes that fear.* [The underlined not explained.] The fear of death lay in the eating of the forbidden fruit, and Satan argues:—that the eating of the fruit will remove the fear, by making them, like God, knowing good and evil, and like Him also in that He cannot die. [Words not in original should be put within brackets.] (10.)

## COMPOSITION.

The pain of death denounced  
Deterred you not from achieving what might lead  
To happier life,—knowledge of good and evil :  
Of good, how just! of evil (if what is evil  
Be real) why not known, since easier shunned?  
God, therefore, cannot hurt ye and be just :  
Not just, not God ; not feared then nor obeyed ;  
Your fear of death itself removes the fear.

The pain of death denounced gives you fear of death; but let it not deter you from achieving what might lead to a happier life, by knowing good from evil, which removes the fear of death; because then you are equal to God; then you know what is good and just, and what is evil, therefore can shun it. God, therefore, cannot hurt you since you are equal to Him. [In transposition words in the original are not changed, and words supplied are put within brackets. 20.]

## Memorandum to Training Master.

No. 78-18,537.

*Complaints preferred against you by Mrs. Bardwell.*

IN a letter received at this office from Mrs. Bardwell, assistant in the Public Training School, the following statements are made:—"Mr. Wright has vilified me, charged me with uttering language only used *par les femmes de la Halle*, language he uses himself, to the great edification of the students who are to teach the youth of the Colony. I most earnestly request, therefore, that a full and searching inquiry may be made into the causes of the want of discipline in the Training School, and the encouragement there given to rudeness and vulgarity; into the threat held out before I entered—that in spite of the Council I would be turned out in a month, and the efforts made to carry this threat into effect. In connection with this letter I have the honor to enclose a copy of a letter I felt compelled to write to the Head Master, which, though effectual for the time in putting a stop to the brutal coarseness of which I complained, has not been sufficient to put an end to the system of persecution of which the complaint now made to the Council against me is only a part."

I am accordingly to request that you will be good enough to furnish such an explanation in regard to these representations as you may desire to afford.

It is deemed desirable to explain that this communication has been delayed on account of your recent illness.

W. WILKINS,  
Secretary.

Council of Education Office,  
Sydney, 8th October, 1878.

No. 4.

## Memorandum to The Secretary.

*Mrs. Bardwell's charges against me. Your memorandum No. 78-18,537.*

IN reply to your memorandum I beg to state that I never vilified Mrs. Bardwell, nor charged her with using improper language. My language to the candidates will bear scrutiny. I never held out a threat that Mrs. Bardwell would be turned out of her situation in spite of the Council. The Training School is not in a bad state of discipline. I am most anxious there should be a full investigation.

J. WRIGHT,  
Training Master.

Training Master's Office,  
Fort-street, 8 October, 1878.

No. 5.

Training School.

I HAVE suspended from attendance hereat, pending the decision of the Council, Messrs. Bradstreet and Davies, who are charged by Mrs. Bardwell with insolence and insubordination towards her while giving them instruction.

W. WILKINS.

Council of Education Office, Sydney, 2nd October, 1878.

B.C. Examiner. This report is referred to you in order that you may inquire into the facts of the case. Mr. Kevin can supply some information on the subject.—W.W., 8/10/78.—J.G., 10/10/78.

No. 6.

Training School.

Charges preferred by Mrs. Bardwell against Messrs. Davis and Bradstreet, candidates in training.

IN conjunction with Mr. Forbes I investigated the above, at Fort-street, on the 9th instant.

The complaint against Mr. Davis is that, on the afternoon of the 1st instant, and while parsing the line "In their noonday dreams," occurring in the XXXVI Exercise of Book V, that gentleman was insolent to Mrs. Bardwell, the teacher for the time being, saying, in reference to her correction of an omission, "Mr. Wright teaches us to parse rightly, and you teach us to parse wrongly." The point in question was this:—Mr. Bradstreet had parsed the word "dreams" as objective case, governed by "in." Mrs. Bardwell, requiring more precision, called for further answers, and pronounced the rendering of Mr. Arkins to be the proper mode, namely, "governed by the preposition 'in.'" In relation to the above charge, Mr. Davis admits having said, "Mr. Wright teaches us one way, and you say it is wrong." The evidence of Messrs Spence and Byrne, the witnesses called by Mrs. Bardwell, show that these were the words used, or something very near them; but they acquit Mr. Davis of any intentional disrespect to the teacher, affirming that his manner is abrupt to all.

2. Mrs. Bardwell further complains that, while defending her views of the foregoing mode of parsing, and when she called for a show of hands from those who thought her wrong, Mr. Davis alone responded, by holding his hand aloft, saying at the same time, rudely, "Go; report it." In relation to this charge, it appears that when Mrs. Bardwell called for the show of hands, she had been remonstrating with the class for what she deemed rudeness; and Mr. Davis asked permission to explain. Mrs. Bardwell here, apparently dreading further distraction, told him to sit down. Mr. Davis admits having then said, "You can report it to Mr. Wright or the Council." The evidence at this stage shows that these were very nearly the words used, that Mr. Davis was excited, and that his manner was almost angry. It should be observed that the interruption or "rudeness" which he desired to explain away was attributed by the candidates to a blunder committed by Mr. Evans in dealing with the verb "are shaken." The untimely merriment arising from this error appears to have been regarded by Mrs. Bardwell as in some way directed against herself,—an inference to which the candidates warmly object, alleging that no such intention existed. Some even affirm that Mr. Davis has been heard to speak respectfully of Mrs. Bardwell out of the class. He is, however, impulsive, inconsiderate, prone to argument, and offends seemingly without knowing that he does so.

3.

3. As regards Mr. Bradstreet, the case is simply this—that, in relation to the parsing already quoted, he said “objective case governed by ‘in’” instead of saying “governed by the preposition ‘in,’” a correction which was supplied by the next candidate, Mr. Arkins, and approved by Mrs. Bardwell. That lady here states that Mr. Bradstreet then said, “I am right; I have parsed it as Mr. Wright taught it.” But none of the witnesses heard such words used. Mr. Arkins, who sat next in order, declares that Mr. Bradstreet muttered something, he could not say what, and that his manner was flurried; but this was all. He saw no sign of rudeness. Mr. Bradstreet admits having said, in reference to his mode of parsing, “Mr. Wright takes that form,” but nothing more; did not speak disrespectfully; has no unkindly feeling towards Mrs. Bardwell, and has of late been extremely careful in addressing her, because she seemed to regard him as discourteous. It is important here to observe that Mrs. Bardwell, on feeling dissatisfied with Mr. Bradstreet’s rendering, simply requested him to sit down, and passed on to the next candidate. She did not ask him to repeat or correct, and, necessarily, there was no refusal on his part to rectify.

4. Mr. Kevin was not present when the matters complained of by Mrs. Bardwell occurred. At the close of the hour, when he went to resume charge of the class, Mrs. Bardwell stated what had taken place, and repeated the expressions which she alleges were made use of by Messrs. Davis and Bradstreet, and appealed to Messrs. Byrne and Spence for their confirmation of her accuracy. She asserts that they agreed that she had given the words accurately; and Mr. Kevin supports her in this; but both Mr. Spence and Mr. Byrne, when called as her witnesses, denied that they admitted that she had given the identical words, the latter gentleman affirming that he said, “Or words to that effect,” in which statement he was supported by Mr. Evans, the student who sat next to him, although Mr. Kevin did not hear the words.

It is furthermore worthy of remark, that Mr. Kevin speaks favourably of the class as a whole, and says that although there are two or three of its members whose manner is unfavourable, he does not think that they are intentionally rude or insolent—and further, that he knows no reason for supposing that they would be designedly rude or disrespectful to Mrs. Bardwell. This was elicited by a special question put at the close of the investigation by Mr. Forbes.

6. Taking all the circumstances into account, it is a matter for regret that the foregoing incidents should ever have occurred. A little tact and courtesy would have rendered such an inquiry unnecessary.

J. GARDINER,

Examiner.

Sydney, 10th October, 1878.

#### No. 7.

#### Mr. H. W. Callan to The Council of Education.

Gentlemen,

Mort-street, Balmain, 14 October, 1878.

I beg most respectfully to draw your attention to the suspension of my daughter Maria Callan, a student in Training School, Fort-street, on charges brought by Mrs. Bardwell, and on which a partial inquiry took place on the 3rd instant. At that meeting I asked and was allowed to be present.

The first witness, Mr. Kevin, stated,—that he was told by Miss Stevens, Assistant Mistress, Fort-street School, that my daughter had ridiculed and made fun of Mrs. Bardwell’s lessons; but Miss Stevens when called denied having told Mr. Kevin any such thing, or said anything from which he could have supposed she intended him to draw such an inference. After considerable cross-questioning, which did not alter her evidence, Miss Stevens was told that her memory was very good in some things and very bad in others, and Mrs. Bardwell made a remark in French which I did not understand, but from her manner I am sure it was not complimentary to the witness.

Mrs. Bardwell next made a charge of “systematic rudeness and insolence” before the whole class and called a student, Miss Rushforth, who, however, said that she had never known Miss Callan rude or insolent, and that my daughter’s conduct was the same to Mrs. Bardwell as to Mr. Wright and others. Another young lady gave similar evidence, and Mrs. B. declined to call other witnesses.

When Miss Rushforth was leaving the room Mrs. Bardwell remarked,—“I did think *that girl* would speak the truth.”

The investigation was then adjourned.

My object is not to screen any faults my daughter may have, but that you be pleased to order that she may be honourably reinstated in her former position, or that a most thorough and impartial investigation may at once be made in the matter.

My daughter was a pupil-teacher in Fort-street School for three years, and entered the Training School in June last, and has always passed first class examinations and received highest reports from Masters and Mistress, and, I may add, at the last examination received the £5 bonus; during all that time has never before had any complaint made of her conduct.

It is now eleven days since the inquiry, and we have heard nothing further of it. The suspension and the delay deprives my daughter of the advantages of Mr. Wright and the other Master’s lessons, as well as Mrs. Bardwell’s, thereby imperilling her chance of passing successfully the next examination if reinstated in her position in the school.

I have, &c.,

HENRY W. CALLAN.

#### No. 8.

Council of Education Office, Sydney, 14 October, 1878.

Council of Education. Examiner’s Memorandum to Secretary.

*Training School.—Miss Callan’s Case.*

1. It appears to me that in this case much mischief was done by the thoughtlessness of Miss Stevens in the matter of the “lesson notes,” and subsequently through the representations of the assistant training master, who, instead of privately and kindly admonishing Misses Callan, Stevens, and Ogilvy, as to the unseemliness of their conduct, unnecessarily aroused the sensitiveness and suspicions of Mrs. Bardwell, by repeating to her Miss Stevens’ folly. To this largely may be traced Mrs. Bardwell’s bearing towards

towards her pupil. Miss Callan, on the other hand, unable to account for Mrs. Bardwell's apparent severity, seems to have thought herself too pointedly addressed at lessons, and unjustly treated. From this further irritation arose, and so on to subsequent bitterness.

2. Miss Callan I think acted ungenerously towards her teacher in the use made of the notes at lunch, &c. Were she willing to express regret for this, and to assure Mrs. Bardwell that she neither felt nor meant any disrespect at lessons, I am of opinion that this should be accepted as an atonement.

3. Mrs. Bardwell, on the other hand, might be a little more motherly, more kindly disposed, *i.e.*, to trust her pupils for truthfulness, and be less hasty in drawing sweeping conclusions. Playful they may be at inopportune times, perhaps thoughtless; but I cannot think they are as a class other than upright, honourable, attentive, and respectful. In fact I may say that the gaiety and discretion shown by the female candidates, considering their youth, have been to me a matter of gratification.

J. G.

## No. 9.

### Training School, Sydney.

Complaints of Mrs. Bardwell, Assistant Teacher.

Inquiry held by Messrs. Wilkins, Gardiner, and Forbes.

Minutes of Evidence.—16 October, 1878.

*Mr. Flashman* being examined, states: I was in training last session; never heard Mr. Wright speak disrespectfully to Mrs. Bardwell, nor of her; he never spoke ill, but always well of her; he supported Mrs. Bardwell's authority.

*To Mr. Forbes*: I do not think Mr. Wright showed any antagonism to Mrs. Bardwell; I was satisfied of his desire to support her authority.

*To Mr. Gardiner*: On one occasion, when there was some dispute in the class as to a point of Grammar, and Mrs. Bardwell had asked the class their opinions, it was found necessary to appeal to Mr. Wright, who decided in Mrs. Bardwell's favour; she did not exactly invite discussion on that occasion; she stated that she did not object to respectful questioning.

*To Mr. Wright*: I have had no conversation with you about this matter.

*Mr. John Moyes* being examined, states: I was a student last session; I have heard Mr. Wright speak to Mrs. Bardwell respectfully; I have also heard him speak of her—for example, he told us, "while she was here to instruct us that we were not to give her any trouble"; believes he meant to support Mrs. Bardwell; I remember Thursday, the 18th of April; Mr. Wright told us on that day that we were to have a new teacher, named Mrs. Bardwell, who had formerly been in the Training School, but had not gone through the whole course; Mr. Wright would not have been pleased if we gave her trouble; I can speak decisively on this point.

*To Mrs. Bardwell*: I did not hear Mr. Wright say why you did not go through the course, but I think Mr. Wright did not mean to disparage you in stating that you had not gone through the course.

*Mr. W. Teale* examined, states: I have heard Mr. W. speak respectfully to Mrs. B.; I do not remember hearing him speak of her before Mrs. B. came to the Training School; Mr. W. informed us she was coming, and that he did not know what she was then (*i.e.*, at the moment of speaking) but that some few years ago she was not able to go through the course here (*i.e.*, in the Training School); when the dispute arose respecting the point in grammar, Mr. W. told us to take Mrs. B.'s opinion, and not to question it.

*To Mr. Forbes*: Mrs. B. was supported in her position by Mr. Wright; he was desirous heartily to uphold her authority.

*To Mr. Wright*: I do not consider that you meant any disrespect to Mrs. B. in speaking of her not going through the training course.

*To Mrs. B.*: I thought your retirement was caused by incapacity.

*To Mr. Wilkins*: By "incapacity," I mean that at first I supposed she had withdrawn on account of health; but some time after a change was produced in my mind by the dispute about the grammar question, and by the fact that exercises corrected by Mrs. B. had been altered by some other person.

*To Mr. Wright*: The papers marked by Mrs. B. were re-marked by Mr. Kevin.

*To Mr. Forbes*: I came to my conclusion about her incapacity from my experience of her teaching.

*To Mrs. B.*: Without any bias, I should have observed the same faults.

*Mr. E. Larcombe*, examined: I have heard Mr. W. speak to Mrs. B., not frequently, but always respectfully; I have not heard him speak of her; he supported her authority, and was not antagonistic to her; he would have reported any student who would have been disrespectful or disobedient, and would not have supported them in such conduct.

*Miss Daly*, examined: I have heard Mr. W. speak to Mrs. B. respectfully about the affairs of the Training School; I never heard him speak of her on any occasion; I was in the Training School on the 18th April; I did not, to my recollection, hear Mr. W. speak of her on that day; Mr. W. checked the students when the dispute arose about grammar, telling them, "While you are here, it is your duty to obey;" Mr. W. was always disposed to support her authority; it would not have given satisfaction to Mr. W. if the students were troublesome to Mrs. B.

*To Mr. Gardiner*: From his manner, I inferred it was Mr. W.'s desire to support Mrs. B., and to secure for her the reverence and obedience of the students.

*Miss S. Picard*, examined: I have heard Mr. W. speak to Mrs. B. politely—never with a disrespectful expression; I have heard him speak of Mrs. B.; on the occasion when Mrs. B. found fault with Miss Ferguson he charged us to obey her; he desired to support her authority; I had no suspicion that he designed to undermine it; I have often thought how just it was to all; in the grammar case, I thought his procedure fair, honourable, and straightforward.

*To Mr. Forbes*: I saw nothing in his manner to lead me to suppose that he undervalued or slighted Mrs. B., or desired to undermine her authority; I never heard him make an unkind remark to her.

*Miss Ferguson* examined: I have heard Mr. W. speak to Mrs. B. invariably as a gentleman should speak to a lady; I once heard him speak of her; that was before she came to the Training School; Mr. Wright announced her appointment to the upper class of female students only, and stated that Mrs. B. had

had been in training for a time—for half the session,—and that she had resigned, not being able to keep up with the studies; I inferred that it was from mental incapacity; Mr. W. would not encourage rudeness or any disobedience on the part of the students; he always supported Mrs. B.; he prohibited the class from arguing with her.

*To Mr. Forbes:* I am not aware of any disrespect shown to Mrs. B. by the class; if there had been, Mr. W. would not have encouraged it; I have never heard him speak disrespectfully of, or to Mrs. Bardwell.

*Miss M'Neilly* examined: I have heard Mr. W. speak to Mrs. B. respectfully; I never heard him speak of her, except on her first appointment, when he said, "You are to have a new French teacher, named Mrs. Bardwell—she was once in the Training School, and that is all I know about her"; I do not remember his saying anything else; I have heard him tell the class to behave properly, and to avoid all scrapes, and so to conduct themselves that Mrs. B. would not have occasion to find fault; he supported her authority on all occasions; I do not think it would have improved a candidate's prospects to be disrespectful to her.

*To Mr. Forbes:* I am not aware that there was any feeling of disrespect in the class towards Mrs. Bardwell; if there had been, it would not have been encouraged by Mr. Wright; I have never heard him speak of or to her in a way to encourage the class to show disrespect.

*To Mrs. Bardwell:* I remember the day when you sent Miss O'Brien out of the class; Mr. Wright told you the Council would not allow it; I heard him speak before the class.

*To Mr. Wilkins:* He spoke to Mrs. B. in the hearing of the class, saying it was not according to rule to send the students out; he did not say authoritatively that Miss O'Brien should not be sent out; he only disapproved of it.

*To Mrs. Bardwell:* If I had a class in a school, and the head mistress spoke to me in the same manner that Mr. W. spoke to you, I think it would not tend to uphold my authority.

*To Mr. Wright:* You spoke in an undertone; I think you meant it as a friendly suggestion.

*To Mr. Gardiner:* There was no trace of menace or anger in Mr. W.'s tone when speaking to Mrs. Bardwell.

*To Mrs. Bardwell:* I do not remember Mr. Wright's coming twice into the class-room, or his speaking to you in the far corner.

*To Mr. Forbes:* I think that Mr. W.'s feeling was, that he should have been consulted before Miss O'Brien was sent out of the class; he did not approve of rudeness on the part of Miss O'Brien.

*Miss Cardwell,* examined: I have heard Mr. Wright speak to Mrs. Bardwell; he spoke quietly and respectfully; I heard him speak to her respecting Miss O'Brien; it was in this room, near the table; I was sitting in the second seat; he inquired why Miss O'Brien was removed from the class, and was told that it was for impudence; he then said she should not have been sent out without first asking him; I heard him speak to Mrs. B. in the far corner of the room; I thought Mr. W. wished to make it understood that a mistake had been made, and to instruct Mrs. B. as to the usual course in such cases; he did not speak angrily; some complaint was made about the correction of French exercises not having been made by all the students; Mrs. B. complained of this; and Mr. W. caused all the exercise books to be collected; he told us he did not like quarrelling, and that it was best for us to do what we were told; on the Thursday before Good Friday, I heard Mr. W. tell the class we were to have a new French teacher; but he did not know if Mrs. Duff was going to leave; I did not hear him say anything disparaging to Mrs. B.'s abilities; Mr. W. would not have been pleased with disobedient students; he said nothing hurtful to Mrs. B.'s feelings, or prejudicial to her authority.

*To Mr. Forbes:* Some students were disposed to be disrespectful to Mrs. B.; but Mr. W. did not encourage them; and the majority did not sympathize with, nor encourage them; there were two of these disrespectful students.

*To Mrs. Bardwell:* If I had a class of children in a school, and the Mistress spoke to me in their presence, as Mr. W. spoke to you, it would not make any difference in their respect for me.

*To Mr. Wright:* If a subordinate teacher turn out a pupil of the class, and say that the pupil should not return till an apology had been made, and the teacher should tell the head mistress so, it would not have a good effect.

*To Mr. Wilkins:* Never knew Mr. W. to say or do anything prejudicial to Mrs. B.'s authority; never saw any impropriety in the class; passed no notes; have asked questions as to lessons, nothing more.

*To Mr. Forbes:* When Mr. W. spoke to Mrs. B. relative to Miss O'Brien's exclusion, he did not speak loudly.

*Miss Emma Johnson,* examined: I have heard Mr. Wright speak to Mrs. Bardwell; he spoke very respectfully; I have also heard him speak of her; it was on Thursday before Good Friday; he stated that Mrs. B. had formerly been in the Training School, but that she had not gone through the final examinations; thought it was through inability as regards attainments, that Mrs. B. had withdrawn from the Training School; Mr. W. was a little excited; Mr. W. has in my opinion always treated Mrs. B. with kindness and consideration; he always took her side in case of disputes; I remember the lesson on Domestic Economy: Mrs. B. was not pleased with Miss Ferguson, on account of the position in which she sat; Mrs. B. spoke on the subject to Mr. W., who asked Miss F. what the offence was of which she had been guilty; this was not in Mrs. B.'s presence; Miss F. showed Mr. W. the position in which she had sat; my impression was that Mr. W. thought the offence trivial; I do not know if Mr. W. reprimanded Miss Ferguson.

*To Mrs. Bardwell:* The position in which Miss F. sat was with her elbows on the table, and her hands up to her face; I do not know if she drew down her eyelids; in Miss O'Brien's case, Mr. W. came twice into the class-room; The first time he stood in front of the class; he then called Mrs. B. over to the table; I heard what Mr. W. said; he spoke in a low tone; I heard Mrs. B. say that she would leave, if Miss O'Brien returned to the class; Mr. W. replied that the Council would not allow Miss O'Brien to be excluded; I did not hear you say that you would throw up your appointment if Miss O'Brien was sent back, but that you would walk out of the room.

*To Mr. Gardiner:* I did not see Miss Ferguson make gestures, or draw down her eyelids; heard Mrs. B. reprove her on account of her position.

*To Mr. Wright:* Mrs. B. said she would not take Miss O'Brien back for you, or the Council of Education; this was said in the far corner of the room, near the blackboard; I think that remark was not heard by all the students; I think Mrs. B. was the first to raise her voice; I do not exactly remember. (The witness here became confused and shed tears.)

To

*To Mrs. Bardwell:* You stated that all you required from Miss O'Brien was an apology.

*Miss Graham* examined: I have heard Mr. W. speak to Mrs. B. kindly and respectfully on all occasions; I have also heard him speak of Mrs. B.; once during a French lesson Mrs. B. spoke to Miss Campbell; on the Thursday before Good Friday, heard Mr. W. tell the students that Mrs. B. had been appointed by the Council; that she had at one time been in the Training School; and that she had not gone through the whole course; she was to teach French, and to be present at other times; I understood Mr. W. to assert that Mrs. B. had failed to go through the Training School, but I formed no opinion as to the cause of such failure; I do not think Mr. W. was *always* kind and considerate to Mrs. B.; I cannot mention any circumstance to illustrate that statement; Mr. W. would not have been pleased if any of the students were impertinent to Mrs. B.; I do not know whether he would have been displeased.

*To Mr. Forbes:* I have not heard Mr. W. speak disrespectfully to Mrs. Bardwell.

*To Mrs. Bardwell:* On the occasion when Miss O'Brien was sent out of the class, Mr. W. was at first near the blackboard when he spoke to you on the subject; he seemed to say that you had not taken the proper course, and that he would not allow a student to be excluded from the class without referring the matter to him; you then stated to Mr. W. that if he brought Miss O'Brien into the class you would walk out. The second time Mr. W. came in, he stood near the table; it was then you used the expression, "I will walk out of the room;" you said you would rather throw up your appointment than take Miss O'Brien back without an apology; you only required an apology from her.

*To Mr. Wilkins:* I cannot remember whether Mrs. B. said I will walk out, "if you bring Miss O'Brien back," or "if Miss O'Brien be brought back."

*To Mrs. Bardwell:* You only required an apology; Miss O'Brien could have returned if she had apologised; Mr. W.'s view seemed to be that you should have reported the matter to him; he spoke as an authority in an ordinary tone; there was some loud and angry talking; I do not know who began it.

*To Mr. Gardiner:* Did not hear Mr. W. say that Miss O'Brien "must come back" or "must be brought back."

*Miss Campbell* examined: I have heard Mr. W. speak respectfully to Mrs. B.; not kindly and not unkindly, but in a business-like way; I remember Thursday, the 18th of April, Mr. W. informed the students on that day that we were to have Mrs. Bardwell for a teacher; that she had been in the Training School, and had not gone through the course; I do not remember if he said why, or if he said anything about Mrs. B.'s examination and certificate; Mr. W. did not support Mrs. B.'s authority; Miss O'Brien's case is an example; Mrs. B. wished Miss O'Brien to apologise for something she had done, and told Mr. W. this; I believe that if Mr. W. had told Miss O'Brien to apologise she would have done so; on that occasion he came once into the room; he stood near the table, and spoke in a loud tone; he asked if Miss O'Brien could come into the class; Mrs. B. replied that she could if she first made an apology; Mr. W. then stated that Mrs. B. had no power to turn Miss O'Brien out of the class; Mrs. B. said she would apply to a higher power; I think no more took place; remember Mrs. B. saying that if Miss O'Brien came back, she would walk out; my impression was that Miss O'Brien could return on making an apology.

*To Mr. Forbes:* Mr. W. asked if Miss O'Brien could come into the class, and Mrs. B. stated that she wished for an apology; Mr. W. then said, that Mrs. B. had no power to turn her out, and told Miss O'Brien she had better go home again; Mr. W. was angry, and Mrs. B. was not; apart from Miss O'Brien matter, Mr. Wright supported Mrs. B.'s authority; I think Mr. W. would have been displeased had the candidates been rude or disrespectful to her.

*To Mrs. Bardwell:* I remember the case of Miss Ferguson, and Mrs. B.'s remonstrances with her as to improper position and gestures; Mr. W. asked Miss F. why Mrs. B. had complained, and she showed him the position; Mr. W. made no remark.

*To Mr. Wright:* I never complained to you of Mrs. B.'s conduct while I was in the Training School; I never went to your office crying at the way I was treated by her; I have had difficulties with Mrs. Bardwell in the class on account of not correcting my exercises; she took our note-books and made corrections, and told me to copy the corrections fairly; if any one asserts that I came to your office crying about Mrs. B.'s treatment of me, that person would be telling an untruth. I have received a note from Mr. Wilkins directing me to meet him here to-day; I had no conversation with any person yesterday about these matters.

*Miss Hodges* examined: I have heard Mr. W. speak to Mrs. Bardwell in this room; his manner in speaking was not objectionable; he did not speak louder than usual; I thought him rather angry; he spoke authoritatively, but respectfully; that was about Miss O'Brien's matter; he met Miss O'Brien in the passage, and asked her why she was not with the class; he then came to Mrs. B., and inquired why Miss O'Brien was excluded from the class; when he was informed that it was for impudence, Mr. W. then stated that Mrs. B. had not the power to exclude any one from the class; this took place in front of the class; I have heard Mr. W. speak of Mrs. B.; he said on the Thursday before Good Friday, "A new teacher, Mrs. B., is coming to take charge of the female students; she has been in the Training School before as a student, but did not pass through the whole course"; he did not say why she left; I thought she might have resigned through having to study too hard; Mr. W. said nothing about examination in connection with Mrs. B.; he was not angry when he made these statements; I never heard him speak disrespectfully or disparagingly of Mrs. B., nor heard anything to her disadvantage; I do not remember any instance; he would not have been pleased if any student was disobedient or disrespectful.

*To Mr. Gardiner:* I do not know if Miss O'Brien was excluded, or simply suspended from attendance; Mrs. B. would not admit Miss O'Brien at all; any young lady would not be re-admitted if sent out of the class.

*To Mr. Forbes:* Mr. W. would not encourage any student in slighting or disobeying Mrs. B.; his general manner to her was respectful; he generally speaks in a loud tone when teaching, and in speaking to Mrs. B. his usual tone was not altered; when he spoke of Mrs. B. on the Thursday before mentioned I did not get the impression that he wished to slight or to make us think little of Mrs. B.; he was always disposed to support Mrs. B.; one or two of the students were disposed to be troublesome; the remainder were not pleased with their conduct; one of these, Miss McNeilly, thought Mrs. B. disliked her.

*To Mr. Wright:* The troublesome students were Misses Ferguson and McNeilly.

*To Mrs. Bardwell:* If I took a class in the Model School for a time, and the head mistress told my pupils that I could not pass through the training course, that would not be likely to cause them to respect

respect me, nor could they have confidence in me ; I have heard the other students speak of the fact of you having been in the Training School, and wonder why you did not go through the whole course ; Mr. W. did not tell the class that you had resigned through ill-health ; If I sent a pupil out of my class, and the head mistress inquired the reason, and I thereupon stated to her that the pupil was rude and impertinent, but that I was willing to receive her if she apologised, I should expect the head mistress to support my authority ; I did not hear you say you would receive Miss O'B. if she made an apology ; I was not with the class ; I was engaged upon a different exercise ; I heard Mr. W. say to Miss O'B. that if she did not come into the class she might go home ; I do not know that Mr. W. has a habit of disparaging persons by innuendoes ; I have heard him say to the students, " You can go to the Singing Lesson, and what you learn will not do you any harm ; " I do not remember hearing him make a similar remark respecting you ; I remember that you had sometimes to remonstrate with, and reprimand Miss Ferguson, and that once you had to speak very decidedly to her ; I do not remember hearing Mr. W. ask Miss Ferguson what the *row* was about, nor did I see her show him the position you objected to ; I did not hear you say that Miss O'B. might return to the class if she made an apology ; Miss M'Neilly took no notice of your instructions, and you appealed to Mr. W. about the non-correction of exercises ; I do not remember whether Mr. W. spoke to the class generally on the subject, but he took our note-books to give to you.

*To Mr. Wright :* It was the day after Miss O'Brien's exclusion from the class that you became aware of it ; If I had sent a pupil out of my class, I ought not to have waited a day before reporting the case to the head mistress ; from your statement about Mrs. B. I thought she had to resign through bad health or too hard study ; your manner did not show any hostility to her ; you have said of your own lessons that they " would not do us any harm " ; I think you did not mean any disrespect to Mr. Fisher ; you spoke in plainer terms than innuendo ; I know Miss Campbell ; I have known her to exhibit bad feeling towards Mrs. B. on one occasion ; that was on the day the exercises were not corrected in the note-books ; she one day began to cry in Mrs. B.'s class ; I do not know if there was any special reason for Miss C.'s crying ; my impression of Miss C., as a student in training, was, that she liked to have her own way ; if she thought anything right, she did not like anyone to say it was wrong ; I have heard her reprimanded for inattention to duty ; if you reprimanded her, I think she would not be favourable to you afterwards ; I have heard Miss O'B. ask what was meant by " the Strata of Society next to Royalty. "

*To Mrs. Bardwell :* I think you have had occasion to reprimand Miss Campbell ; she manifested animosity to you afterwards, but it did not last through the whole term ; I think Mr. Wright's report upon a student would have a great effect upon her classification.

*To Mr. Wright :* When giving advice to the students, you have stated that half the marks determining classification depended upon our conduct and skill when practising in the model school, and the other half upon a written examination ; you never, as far as I know, told the class that you had power to influence their classification ; I did not think it more advantageous to be friends with you than with other teachers.

*Miss O'Brien examined :* I have heard Mr. W. speak to Mrs. B. in a proper manner ; he did not give me the impression of being disrespectful to her ; I have never heard him speak of her ; I was in the class on the Thursday before Good Friday ; I heard Mr. W. say that Mrs. B. was coming to be a teacher of French, and that he did not know why Mrs. Duff, whom he liked very much, was leaving ; I do not remember that he said any more ; I heard him say that Mrs. B. had been in the Training School ; I do not remember any more ; I heard him say that she left without going through the whole course ; he did not say why ; he said nothing about Mrs. B.'s examination ; the impression made upon me by his statement and manner was that he did not seem to care much for her ; this circumstance had no influence upon my own conduct towards Mrs. B. ; I never heard Mr. W. speak or hint anything to Mrs. B.'s disadvantage ; he would not have been pleased with students who were disrespectful, and gave them no encouragement ; I remember the case of Miss Ferguson ; I do not know if she was troublesome to Mrs. B. ; Miss M'Neilly was troublesome ; she would not correct the French exercises when told.

*To Mrs. Bardwell :* I had no ill-feeling towards you when I returned to the class after being sent out ; you did say it was a pity that Mr. W. had not done what he generally did in the matter ; this was in your room ; I liked you from the beginning, but there were some who felt otherwise—Misses Armstrong, M'Neilly, and Nolan ; I remember you speaking to Miss Ferguson about her improper attitudes, and heard her reprimanded ; I do not remember Mr. W. asking what the *row* was about ; I remember Miss F. placing herself, at Mr. W.'s request, in the attitude you complained of ; Mr. W. did not then reprimand her ; he said nothing ; if I bore ill-feeling towards you I should not have written a letter to you since leaving the Training School ; I do not know what impression Mr. W.'s remarks about you made in the minds of the students ; I have not heard them mention the matter ; I did not think Mr. W.'s report would of itself secure a good classification after the final examination ; I have heard Mr. W. speak of you in innuendoes ; he has said there were too many French exercises, and that French was not of much use to teachers.

*To Mr. Wright :* I was excluded from the class for an afternoon and a morning, before you were aware of it—from half-past 2 in the afternoon to 11 or 12 next morning ; I have asked what was meant by the Strata next to Royalty ; I asked Mr. Kevin, because I heard Mrs. B. say that she had mixed with people a little below royalty, and also with savages.

*To Mr. Wilkins :* My motive in asking the question was to know who were in the next rank to royalty ; I did not ask Mrs. B., because she was not speaking to me, but to the class ; I had no particular reason besides.

*To Mr. Wright :* I have heard you say that nothing in your report would keep any of the students out of the second class ; I heard you say your report would affect the classification of the students ; you said you would report to the Council about the bad test papers of certain students ; French was not included ; you spoke only of papers you gave ; I have heard you give information to the class to the effect that our practical skill in school management gave half the marks at examination, and the written tests the other half ; it was a common expression that your report would affect the classification of the students ; that circumstance did not make them think they had better be friends with you.

*To Mrs. Bardwell :* When you spoke of mixing with people in the next Strata to Royalty, you had assembled the students to inculcate respect to the Training Master ; you stated that they should show him the courtesy of rising when he met them in the class for the first time every day ; I heard Mr. Wright

say to you, "It will be your duty to teach geography to the lower division next session; begin to take notes now;" I am not certain about the exact words; I did not hear him say "Look it up—do you hear?" I do not think he spoke offensively.

*Mr. Stewart* examined: I was a student in the second session of 1877; I think a student would stand a bad chance if Mr. W. reported unfavourably of his conduct in the Training School; my impression was that it would be wise to keep friends with Mr. W.; he would report according to the deserts of the students; I have heard Mr. Wright use strange expressions—for example, "It is a pity the Council does not know what you are; if they had known, they would not have allowed you into training."

*To Mr. Forbes*: I never heard Mr. W. use low or vulgar expressions; I thought he would give every one his due; I never knew, or supposed, him to have favourites; he never told me that his report would have a great effect upon my classification; I expected my classification to depend upon my attainments, conduct, and capability in teaching.

*To Mrs. B.*: I have told Mr. Kevin of certain language used by Mr. Wright before the class; he used a vulgar expression—"bloody old whore."

*To Mr. Wilkins*: This expression was not addressed to the class, but spoken of in connection with an investigation case which occurred at the Glebe school years ago.

*To Mrs. B.*: I have never heard Mr. W. speak in innuendo about teachers, or the office.

*To Mr. Wright*: I do not think you capable of using immoral or filthy language.

*Mr. Kevin* examined: I have heard Mr. Wright speak to Mrs. Bardwell; I consider his manner was gruff and cutting. As an example, I will mention what took place with reference to certain composition exercises worked by the students on the theme "A rolling stone gathers no moss;" Mrs. B. had been engaged correcting these exercises, and, after going through five or six of them, remarked to Mr. W. that it was singular all the students should have taken the same view, which she regarded as erroneous, inasmuch as it was not necessary for success, in any sense of the word, for a person always to remain in the same place. Mr. W. objected to her view. Mrs. B. urged its correctness, and Mr. W. closed the discussion by saying—"That'll do; bring the papers back; I will do the rest myself"; these words were intended to hurt or offend her. I have frequently heard Mr. W. speak of Mrs. B. in anything but complimentary terms—in fact, in disparaging terms; he has stated that her attainments are next to nothing, that she is not up to her work, and that she does not even know French. I beg to hand in this written statement as containing my experience in this matter. (*Paper received, A.*)

*To Mr. Forbes*: Mr. W.'s manner to Mrs. B. was considerably different from his ordinary manner.

*To Mrs. B.*: I did not notice Mr. W.'s face or expression when you urged the example of Indian caste; he cut you short.

*To Mr. Wright*: You showed me these papers and asked my opinion respecting them; my reply was that I did not see any objection to view it in that light; I did not say the other view was wrong; I gave no decided opinion.

*Mr. Godfrey* examined: I have observed some of the female candidates communicating with the male students—with myself, for instance, and I with them; Miss Skerritt was one; these communications were on commonplace matters, sometimes on the business of the class; I never saw any written communications passing between them.

*To Mr. Wright*: The teachers were not in charge when these communications took place; it did not occur when the business of the class was going on, or when a teacher was present.

*To Mrs. B.*: I never heard Mr. W. speak directly or indirectly about you; I do not think Mr. W. has any power in getting a student a good or bad classification; if a student displeased Mr. W., it would not affect his classification.

*Miss Nolan* examined: I have heard Mr. W. speak to Mrs. B.—always as a gentleman—in a way to show respect; I never heard him speak of, or about her; I never heard him speak angrily to her; I never heard him speak of her; there was a feeling of antagonism among some of the student to Mrs. B., for example, in Misses Ferguson, O'Brien, and McNeilly; I know that Miss Ferguson often sat with her elbows on the table, and her hands up to her face; I did not see her drawing down her eyelids; I remember Miss Ferguson being reprimanded for this; she did not alter; it was a habit she had got into; Miss McNeilly used to ask needless questions; I do not know whether in doing so her intention was to irritate Mrs. B.; the general attitude of the class was respectful; there was a disposition to respect Mrs. B.'s authority.

*To Mrs. Bardwell*: I did not hear a report that the members of the upper class intended to subscribe in order to purchase for me a new silk dress in order to annoy you; I remember that Mr. W. came into the class-room to speak about Miss O'Brien; you said she could not return to the class without apologising; I heard Mr. W. say that she must come back; and you replied, "In that case, I walk out."

*To Mr. Wright*: You did not speak very loud.

*To Mrs. B.*: If Miss O'Brien had been brought into the class, she would not have regarded you with the same respect; Miss Ferguson was reprimanded; I do not remember Mr. W. asking her what the "row" was about; I did not see the occurrence; I do not know that Mr. W. has great power in the matter of students' classifications; we were afraid to offend Mr. W. because he used to be so angry; we did not think of the effect our conduct might have on our classifications.

*To Mr. Wright*: If the students offended Mrs. B., you would not have been pleased, but angered; you would not have spoken approvingly of such conduct.

*To Mrs. Bardwell*: I do not know if Mr. Wright was angry with you (in the Miss O'Brien case); I think he was.

#### *Mr. Kevin's Examination resumed, 23rd October, 1878.*

I do not wish to add to, explain, or eliminate anything contained in my written statement.

*To Mr. Forbes*: I have taken notes of the alleged conversations with Mr. Wright, or rather of his remarks upon such occasions; they could hardly be called conversations, as his remarks were frequently forced upon me; I began to take notes on the 19th of April last; I was prompted to do so for various reasons—

- I. Because I was satisfied, from the very beginning, before Mrs. Bardwell entered upon her duty, that trouble would arise; for Mr. W. had declared, before he knew certainly who Mrs. B. was,

was,

was, that if the lady appointed were the Mrs. B. who was trained here, she would not be long here. Hence I anticipated trouble; and I determined, if it should arise, to be in a position to say exactly what occurred.

- II. I was by no means edified by Mr. W.'s loyalty to the Council or to his superior officer; and, as before stated, I prepared myself to know exactly what occurred.
- III. Because I considered that Mrs. B. was not likely to be treated in a manly way in consequence of Mr. W.'s threats.

IV. Because I sympathized with her (Mrs. B.), as one likely to suffer, and who suffer unjustly. May I be permitted to add that I hereby charge Mr. Wright with being the sole cause of this trouble, as, from the first, he acted disloyally to the Council and Secretary, and frequently boasted to me that Mr. Wilkins dare not bring any matter in dispute between Mr. Wright and Mrs. B. before the Council; for, if he did, the Secretary would be the sufferer. "Had it not been for the Secretary," he said, "Mrs. B. would never have been appointed to the Training School." He also threatened more than once to bring the matter before the President in spite of Mr. W.

*To Mr. Forbes*, continued: I state emphatically that I did not keep these memoranda in the interest of Mrs. B., nor to protect her, but to protect myself; I thought I might need protection, as I did not know how I might be involved in a quarrel between two persons in the same department as myself; Mr. Wright endeavoured to involve me; I utterly deny that I kept these memoranda in order that I might some day use them to Mr. W.'s detriment; I was brought here much against my will, but having said certain things I determined to adhere to my statements to the extent of truth; I decline to give any opinion at all upon the question what my opinion or estimate would be of a subordinate who would keep a record or notes of my sayings or doings, if they were likely to be used to my own disadvantage; I remember one occasion only of any consequence, when I had any variance or misunderstanding with Mr. Wright; I was aware of some feeling of dissatisfaction on the part of Mrs. B. at Mr. W.'s conduct to her, and I decidedly did occasionally relate to her circumstances that might increase that dissatisfaction; my idea of the effect of such a course, and the probability of its removing Mrs. B.'s dissatisfaction is that it would have that effect; I did not tell her for the purpose of irritating her against Mr. W., nor did I tell her many things; what I did tell, was chiefly said with the object or purpose of making her reconciled to the circumstances—as in the case the other day; by incidentally mentioning certain things I hoped Mrs. B. would be reconciled to her uncomfortable position, and I disclaim any other intention; any misunderstanding between Mr. W. and myself occurred after the conversation with Mrs. B.

*To Mr. Gardiner*: I was not present on the Thursday before Good Friday when Mr. Wright spoke to the class respecting Mrs. Bardwell's coming.

HAVING been called upon to give evidence in this inquiry, I think I shall best subserve the ends of truth and justice by stating in a narrative form all that I know of the case and its surroundings.

In making this statement—which I do without fear or favour—I beg to be understood as giving a strictly truthful and impartial review of the whole case, as far as it has been brought, indeed, I might say *forced*, under my notice.

I disclaim all feelings of personal hostility to Mr. Wright or to any one else. I am simply the witness of truth.

The first intimation that Mr. Wright had of the appointment of a lady assistant to the Training School was received privately as a rumour, and from a Miss Armstrong, I think, who was trained in the first session of the present year. Miss Armstrong would appear to have heard this from her sister, who was then a pupil teacher in Mrs. Bardwell's Ladies' College, Woollahra. This was towards the end of March of the present year.

Shortly after, on 5th April, Mr. Wright was informed officially of the Council's intention to appoint a lady assistant in connection with the Training School, and, by letter dated the 17th of April, he was further informed that the lady's name was Mrs. Bardwell, and that she would enter on her duties on Thursday 23rd following.

On receipt of the information Mr. Wright became much excited, and used language which I considered extremely foolish, as well as indiscreet. He severely questioned Mrs. Bardwell's fitness for the position to which the Council had appointed her, and declared very emphatically his intention of "upsetting the appointment"—saying that he would "risk his position to put that woman out"—meaning Mrs. Bardwell.

This happened on April 19th, or on the Friday before the day upon which Mrs. Bardwell was expected to enter upon her duties.

On the 22nd of April the subject of Mrs. Bardwell's appointment was again brought forward by Mr. Wright. As before, he used very strong language with regard to Mrs. Bardwell herself, and to the Council of Education in appointing her—reiterating his former threat of "putting her out." I then ventured to reason with Mr. Wright, but he seemed darkly impenetrable to persuasion of any kind. I pointed out to him that the Council had appointed Mrs. Bardwell to her present position; that she had been, I believed, strongly recommended by the Secretary; and that, to attempt to do as he had said was flying in the face of his superiors, and appeared to me the very extreme of folly. Mr. Wright's reply to all this was at once painful and silly: he said, "What do I care for the Council? The Council and Wilkins can go to h—l."

I heard no more of the subject till the morning of the 25th of April, when I received a note from the Secretary asking me to have the female students assembled in one of the lecture rooms by half-past 9. I may observe here, that this note was addressed to me, as Mr. Wright had applied to the Council for leave of absence to visit Braidwood I think, and was, therefore, supposed to be absent.

Mr. Wright did not go, however, and, when he came to the Training School, I showed him the Secretary's note. He became much excited, and said if "he (the Secretary) were coming over to blow his horn too loudly in Mrs. Bardwell's favour, that he (Mr. Wright) would insult him before the class."

Mr. Wright then asked me to assemble the female students as directed. I did so in lecture room No. 2.

At half-past 9 exactly, the Secretary, in company with Mrs. Bardwell, arrived at the Training School.

After

After a few moments, Mr. Wilkins entered the room when I had the female candidates assembled; he was accompanied by Mrs. Bardwell and Mr. Wright. The Secretary then, in a few words, introduced Mrs. Bardwell to the female students; telling them that she had been appointed by the Council to assist in the work of the Training School generally; but that, in addition to this, the Council had in view one or two special matters in appointing Mrs. Bardwell, namely, that it was felt by the Council that the influence and instruction of a lady of culture and refinement, such as Mrs. Bardwell was, could not be otherwise than beneficial to the female students—particularly so in their tone, manners, and general conduct; and further, that the sympathetic presence of a lady among the female candidates would benefit them in many ways.

Mr. Wilkins then referred briefly to Mrs. Bardwell's fitness for the office to which the Council had appointed her; and concluded by expressing a hope that the female candidates would, at all times, cheerfully and spontaneously show Mrs. Bardwell the respect and consideration due to her office.

Judging from the countenances of the students themselves, they seemed to welcome the appointment of Mrs. Bardwell with pleasure and gratification.

The Secretary then directed the male candidates to be brought in, and he spent nearly an hour in reading and lecturing to the whole class.

When he had gone, Mr. Wright came up to me in the lecture room and said with a sneer,—“That was a grand speech,” alluding to Mr. Wilkins' introduction of Mrs. Bardwell, “but,” he continued, “I will neutralize every word of it.” How far this threat was carried into effect by Mr. Wright I had no direct means of knowing.

For some time after this things in the Training School were anything but pleasant. Mrs. Bardwell and Mr. Wright had frequent and serious misunderstandings. The female students, or, more correctly, a number of them, were a source of great anxiety and trouble to Mrs. Bardwell; and, at last, things assumed a serious turn by the direct refusal, I think, of one of the candidates of the French Class—a Miss O'Brien—to do as she had been told by Mrs. Bardwell. She was also, I believe, very offensive in her manner and language towards Mrs. Bardwell. I had no direct means of knowing the cause of Miss O'Brien's refusal to obey Mrs. Bardwell, but I know the Secretary himself came over and personally inquired into the matter. He, in my presence, reasoned and expostulated with Miss O'Brien on her conduct. At first Miss O'Brien was stubborn and contumacious; but eventually she said she would apologize to Mrs. Bardwell, and take great care to obey and respect her in the future.

I cannot help observing here that I was greatly astonished to see a candidate for the office of teacher hesitate—nay, absolutely refuse for a time—to act upon the suggestion of the highest executive officer of the Council, particularly as Mr. Wilkins treated Miss O'Brien with kindly forbearance, almost paternal.

Mr. Wright was absent on this day, as he was engaged at the Sussex-street Public School hearing the candidates of the present session giving their “test” lessons.

On his return, on the following morning, I told him that the Secretary had been over and had settled the misunderstanding between Mrs. Bardwell and Miss O'Brien. Mr. Wright seemed greatly pleased when he learnt that Miss O'Brien had at first refused to act on the Secretary's advice, calling her a “brick” for so doing, and saying that he was glad she had “so much pluck in her.” He appeared, however, anything but pleased that Miss O'Brien should have acted as the Secretary had advised her, and declared if *he* had been Miss O'Brien he would *not* have followed Mr. Wilkins' advice. I told him that Mr. Wilkins seemed worried and pained over the affair, and that I felt for him. Mr. Wright replied—I thought very unfeelingly—“The devil and h—l's cure to him; he brought it all on himself by his speech in introducing ‘that woman’ to the candidates, and by placing her over my head.”

As might have been expected from the foregoing threats and statements of Mr. Wright, much unpleasantness—to use the mildest word—has arisen in the Training School since the appointment of Mrs. Bardwell. I am not in a position to go into particulars—indeed I avoided at all times and as much as possible direct interference between Mr. Wright and Mrs. Bardwell—but from Mr. Wright's hostile and determined attitude and bearing towards Mrs. Bardwell, as well as from Mrs. Bardwell having frequently complained to me privately, and as a friend, of his “harsh and unmanly treatment,” I am forced into the belief that Mr. Wright's threat “to risk his position to put Mrs. Bardwell out” was uttered in all sincerity.

Before concluding, I think it is only due to myself to say that I more than once advised Mr. Wright to give Mrs. Bardwell a fair trial, and *judge her by her work*, and that if she failed to give satisfaction *then* he would have fair grounds for asking to have her removed. But I regret to say my advice was given in vain. Mr. Wright's invariable answer was that “she was incompetent, and that he would be held responsible for that which she could not do.”

Mrs. Bardwell will, I am sure, bear witness that my advice to her at all times was to have patience, and that probably things would change for the better after a time. In justice to Mrs. Bardwell I must say that, as far as I had opportunities for judging, her manner and bearing towards Mr. Wright were uniformly respectful and civil.

It pains me to have to make this statement, but having been called upon to give evidence in the case, I am simply a witness to the truth—knowing neither friend nor enemy—and I speak the truth fearlessly and without regard to consequences.

JOHN W. KEVIN,  
Assistant Training Master.

Sydney, 14 October, 1878.

No. 10.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Nandamanu, Ocean-street, Woollahra, October 19, 1878.

I have the honor to add, in reference to recent correspondence, the following facts:—

Since the time when I commenced duty in the Training School, the systematic rudeness and insolence of some of the students towards me has, at times, perplexed, pained, and surprised me; in that I had hitherto always commanded respect; and in that I felt I had done nothing to forfeit it in my relation with the students.

Attributing

Attributing their conduct to ignorance and want of refinement, a few days after my instalment I requested the female students to assemble in class, as I had something to say to them. They did so, and I remonstrated with them in reference to their general deportment. I endeavoured to impress upon them their serious responsibility as teachers—that in act, gesture, and general behaviour they taught far more than by lecture—and, therefore, the importance that in all these respects they should be examples worthy of being copied by their pupils. I indirectly referred to the rudeness towards myself, by requesting them to show more respect to their teachers, upon the principle that they would like to receive it themselves; and I asked them, as an act of courtesy, to be in their places at 9 o'clock each morning, and when the Head Master entered to salute him in the usual manner. I perceived that all were impressed by what I said; so, after a short pause, I continued, "Whosoever approves of what I have said, please raise the hand." They all did so. "I am very glad," I replied, "that you all appreciate what is good and right, and now I wish you good-morning, and trust you will practise it."

I here wish to direct attention to the fact that it is not, as Mr. Wright has endeavoured to impress, that I could not manage or command the class. I did and can do so, and I would continue to do so if no other influence had been brought to bear to destroy mine.

As a proof that an influence has been brought to bear to destroy it, when the session was about to end, and the fear which Mr. Wright inspires about to end with it, or partly so, the students in their relation to me were all that I could desire. Even some of those who had given me most trouble were studious in their attentions. They said at parting that they liked me from the beginning, begged me to pardon them, and try to think well of them in the future.

Such are the vraisemblances of instigation in the past session, and in the present the impudent letter of Miss Callen, which Mr. Wright admitted he told her to write, which he read and approved of, as shown by his initials, and by the fact that when summoned to attend the Secretary by a letter marked "immediate," she (Miss Callen) first remained ten minutes in the girls' school and then went to Mr. Wright, where she remained nine minutes consulting him. Further, the attempt of Mr. Wright to degrade me before the students the first day I met them are two of the plainest proofs of instigation that one can desire.

Mr. Wright was in and out during the lesson on that day; he saw the attention of the students in taking notes, &c., and after the lesson was ended he effectually destroyed the influence which he saw I was likely to have.

Never since have the students received me as on that first time; nor could it be expected that they would when Mr. Wright called me in their hearing an *impudent* woman—said I talked nonsense to the class—that if I did not do better I would have to leave there, and that he would see to it, &c., &c. On that occasion I wrote him the following letter, which proves that I have acted frankly and with generosity towards my adversary, though he acted treacherously and deceitfully towards me.

But to return to the circumstance of assembling the students, in which I had their confidence and esteem. The next morning, on entering the Training School, great was my surprise to see those very students in open rebellion against me. Some of them crowded my room and barred the entrance to it with their persons, so that I could not pass. I requested more than once to be allowed to pass, and at last when allowed, they impudently jostled up against me and laughed. The place was like a bedlam. I entreated no longer, but indignantly commanded them to take their places, said it was after 9 o'clock, and that Mr. Fisher was waiting. They defiantly answered, "We are not to take our places—Mr. Wright said we were not." "I do not believe it," I replied; "I wish you to take your places at once." At the entrance to the class they jostled against Mr. Fisher and laughed. I entered the class with them, and said, in presence of Mr. Fisher, "Never before have I met with such rudeness; I must report it to the Council." They laughed again, evidently counting upon support in their conduct.

Here I beg to direct attention to the fact that I did not, as has been said, bring that trouble upon myself, by allowing the students to a certain extent to have their own opinion in so far as it might be right; for while I permitted that liberty, I ever reserved and was always prepared, by conviction, to enforce my authority as Mistress, and I permitted that liberty because I considered it educative; and further, because I heard some of the students say that in consequence of Mr. Wright's arbitrary and tyrannical manner they left the Training School knowing very little more, and in some cases less, than when they entered; and it was added, "There is no use in complaining, for he is all-powerful, even in our classifications."

The next morning I reported to Mr. Wright the insolence and want of discipline mentioned above, and I asked him if he had told the students not to assemble in class at regular times. He said, "I have; I will not have them wait upon that old humbug." "But Mr. Wright," I earnestly continued, "it is not for the sake of Mr. Fisher nor that of any other man that I request you, but for the sake of the principle involved, for the sake of discipline, of decency, of common courtesy." Here I had to desist, for Mr. Wright broke out in violent invective, applying the most opprobrious epithets to Mr. Fisher, which did not much surprise me, knowing that scarcely any one connected with the Service or the Council's Office escapes Mr. Wright's invective and censure.

Perhaps, in that respect, I have little reason to complain in comparison with such gentlemen as the Secretary and those connected with his office, also Mr. Gardner and Mr. Forbes. The *mal propos* which Mr. Wright, by innuendo and directly attributes to the Secretary are too grossly absurd to be written. In my own hearing he has stigmatised the gentlemen connected with the work of the Council's Office as a pack of lazy imbeciles. I have had to refer to this point to supply an answer to a question which may arise. It may be asked how has it been possible for Mr. Wright to bring such a system of influence and intimidation to bear upon others? That he has done so is plain, not only from my own experience, but even, in the course of this investigation, from the reluctance with which in most cases evidence has been given which might tend to inculpate him. The answer is, by representing others who do the Council's work as weak and incompetent, and his own influence with the Council as paramount.

That Mr. Wright has had an influence in all that has led to the present unhappy affair is a lamentable fact. And what should we expect from the rising generation, when there is not a public teacher going forth from the Training School to teach the youth of the Colony whom Mr. Wright has not more or less stamped with the impress of his own mind, and that impress is coarse vulgarity, tyranny, injustice, and violence. Never have I heard the higher faculties of the students appealed to, except on two occasions, and that by the Secretary; but I have frequently heard their low propensities appealed to, which never ought to be called forth in any system of education whatever.

The

The facts mentioned here and in former correspondence in reference to this subject, by no means represent what I have had to endure from Mr. Wright. The looks of contempt and derision he has habitually given me, and before the students, are acts by which he has endeavoured to effect the threat held out before I entered. His manner of addressing me on several occasions was with overbearing and even bullying rudeness, using such expressions as:—"Do you hear—hold your tongue," &c., &c.

Among the instances in which he has endeavoured to impress upon the students by innuendo and directly that I was not competent for the position are the following:—In giving a dictation lesson he began it himself, and ordered me how to do it before the students, thus trying to impress upon them that even I was not competent to give a dictation lesson. Another time, after I had given the grammar lesson for the day, and some of the lady students said on that occasion that they were very much interested, and would like me to teach them always, Mr. Wright took the class again for the same subject, saying,—“Give the books for grammar; I don't suppose what you have had this morning has hurt you much.” Before some of the students of last session he said to me, “You will have to teach the geography of New South Wales next session; you had better look it up, do you hear?” Lately he gave me some grammar papers to correct, telling me not to write upon them, but merely to underline mistakes. His object in that was that the students might not see that I was capable of correcting them.

Such are instances of Mr. Wright's treatment of me—this too towards a weak and defenceless woman, who had a claim which no refined nature would have refused to acknowledge for help and support instead of rudeness and insult, and if only for my helplessness, for at least ordinary respect. But what can be expected from a man who uses language before the students too gross for publication—a mild form of it being—“Do you ever sweat?” and who could so far forget himself in the presence of a lady (even if he hated her) as *de se moucher avec les doigts*, and this filthy habit I have seen him do crossing the yard in presence of the students.

Mr. Wright has also said that I do not know French,—a charge the more absurd because I believe he knows not a word of the language, and that department had been so much neglected that many of the students confessed to me that they never heard French spoken till I spoke it to them, but only heard a little read out of a book or grammar. I was led to make inquiry into this, as I observed the students laughing when I spoke French, just as people almost naturally do when entering a foreign country and hearing the language spoken for the first time; and on asking the reason, was told that it sounded so strange to hear another language. As to the insinuation against my competency to teach the language, I am willing to submit to the judgment of any gentleman in Sydney who is qualified to form an opinion, and who is not prejudiced by professional jealousy. I might refer on this subject to Dr. Badham and to others, but the insinuation is beneath contempt. If, however, this matter is gone into at all, I must, in justice to myself, demand an investigation into the character of the instruction given in French to the students generally. After studying for three years, some are unable to make even a regular verb agree with its nominative. Miss Callen is one of the number, and her gross ignorance makes her forwardness the more intolerable. Nevertheless, referring to her case—I may say I have no desire to see any severe measures adopted with regard to her, feeling persuaded that she has been an instrument in the hands of others rather than a free agent.

It is plain, in view of the facts which I have stated, that an exposure of the influence at work in the Training School was sooner or later inevitable. That circumstances have forced the task or part of it upon me I deeply regret. I have had to refer to matters which no educated woman can mention without a sense of humiliation and shame. Having been driven to it, however, by a series of persecutions, which began at the very time I entered the school, before I had done or could have done anything to provoke enmity, and which have continued ever since.

I feel bound, therefore, to make this claim for justice, in full confidence that it will not be denied. I ask for justice, not only because of mental torture endured, of humiliation inflicted and health shattered, but also on behalf of all who may enter the Training School. Unless a remedy be applied to the degrading influence now at work in the Training School the students will all suffer, and so will every child who may hereafter come under their care. I therefore ask for justice on behalf of the well-being of the Colony.

I have, &c.,

S. M. BARDWELL.

### No. 11.

EXTRACT from a letter received from Mrs. Bardwell, Assistant in the Public Training School, Sydney.

“I am prepared to add several more facts to those here mentioned. I have positive proof that Mr. Wright asked a gentleman to form one of a clique of two and himself to oust the Secretary from his position.”

*Examiner's Memo. on the above.*

1. Mrs. Bardwell herself knows nothing of the alleged conspiracy; her information is derived solely from Mr. Kevin, the “gentleman” above mentioned. On his authority she affirms positively, and after careful deliberation, that Mr. Wright *did* ask Mr. Kevin to join a party of two with himself, the express object being “to drive the Secretary from his position.”

2. Mr. Kevin here declares that Mrs. Bardwell puts the case “too strongly.” On the morning of the 10th July, when walking down Church Hill, Mr. Wright, while complaining of a letter he had received from the “Office” in the case of Pupil Teacher John Thompson, said that “he wished he could organize a party to attack the Secretary,” hinting that he would be glad if Mr. Kevin would make one, as he had already three. Mr. Kevin hereupon asked, “What good would result?” Mr. Wright said “None, only to annoy the Secretary.” Mr. Wright did not say—nor even remotely hint who the “three” were. Mr. Kevin affirms that he had no unfriendly feeling towards Mr. Wright when he spoke of this matter to Mrs. Bardwell—merely spoke of it incidentally, and with no view to Mr. Wright's detriment. On cross-examination, however, he admitted that there had been a “misunderstanding” between Mr. Wright and himself about this time.

3. Mr. Wright, in his defence, most solemnly affirms that Mr. Kevin's statements as to the alleged conspiracy are lies, and that Mr. Kevin knows they are lies; that they have been fabricated by Mrs. Bardwell and himself, to ruin Mr. Wright in the Council's estimation; and that neither then nor at any other time has he ever contemplated such a thing as a combination of any kind to give the Secretary trouble. On the contrary, he shows that his constant effort has been to uphold Mr. Wilkins.

4. Mr. Kevin has no evidence to adduce in support of his allegations—cannot “even imagine who the alleged conspirators could be.”

5. The other parts of the information, namely, as to the “improper terms” alleged to have been applied to the Secretary, are—

I. That, in relation to an address made to the candidates, by Mr. Wilkins, when Messrs. Davis and Bradstreet were suspended, Mr. Wright had spoken of Mr. Wilkins as an “old pedagogue,” and as a “weak old woman.” Mrs. Bardwell did *not hear this said*—she was simply told it by Mr. Kevin.

Mr. Kevin being examined, denies all knowledge of the phrase “weak old woman,” but admits having reported the former, and declares its accuracy.

Mr. Wright here denies having said anything of the kind, but affirms that they are the words used by Mr. Kevin himself after Mr. Wilkins had concluded the giving of a reading lesson to the candidates; said Mr. Kevin—“After all, he cannot throw off the old pedagogue.” Mr. Wright here observed, “It sticks to people through life,” and denies that he ever used the term “pedagogue” as regards Mr. Wilkins.

Mr. Kevin and Mrs. Bardwell have no evidence beyond that here given. The latter heard nothing. The former has only his own statement.

II. Mrs. Bardwell again states that, on one occasion, when speaking of Mr. Fisher, Mr. Wright affirmed that he could not teach music—that Mr. Wilkins knew this, but still kept him there at Fort-street, knowing that Mr. Fisher was his enemy, and hated him intensely, &c., &c. Mr. Wright, while admitting the statement as to his own belief in Mr. Fisher’s incapacity for teaching music, and maintaining his belief also in the attitude assumed by Mr. F. towards Mr. Wilkins, utterly denies having said that “Mr. Wilkins knew Mr. F. could not teach music, and yet still kept him on at Fort-street.”

Mrs. Bardwell has no evidence beyond her own statements. The conversation, she says, took place in May last. She has no notes, and speaks from memory.

III. About the same time, Mrs. Bardwell further affirms that the following incident took place. Mr. Wright, in his office, said one day:—“Well, about twelve years ago, Mr. Wilkins was a nice man”—then (after a pause, during which Mr. Wright made some gestures and nods to imply what he did not express, he continued) “there was not a teacher in Sydney but loved him—would have laid down their lives for him—but now they would jostle up against him in the street with disrespect.”

Mr. Wright examined—gives the following as the words used on the occasion:—Twenty-two years ago Mr. Wilkins was the nicest man I ever met; he saved me from what appeared to be dismissal, from the then Secretary. I am astonished that he did not become a spoiled man from the way the teachers almost worshipped him; but now it is different—the teachers have got into cliques, and many would annihilate him. I have held on to him through every case, and have found no cause to alter my opinion of him.

6. Mrs. Bardwell had no evidence to adduce beyond her own statements, but declared that she would take an oath as to their correctness,—a most serious thing to do, seeing that she quoted from memory, of an event occurring last May, and had no record of the words used on the occasion. There were no further charges, and this terminated the inquiry, which lasted from 9 a.m. to 12.30.

I may, however, add that Mrs. Bardwell charged Mr. Wright with having used some objectionable expressions regarding the Examiners. Into this, however, we did not think it necessary to enter.

7. The whole case may be thus summed up:—

It does appear that Mr. Wright felt aggrieved on account of certain communications which he received from the office, and, in his usual outspoken way, said so, in a private conversation, to Mr. Kevin, but there is nothing to show that he has ever spoken of the Secretary in disrespectful terms, or that he has wavered in the attachment and fidelity he has consistently manifested through trying times. The whole evidence rather points to a feeling of pain and regret at the apparently changed relations existing between himself and the Council’s office. The Head Master was called at the instance of Mr. Wright, to speak as to the attitude of Mr. Wright in relation to the Secretary, and I may here give his words: “I had no idea that I should be called this morning, or even at all. I have known Mr. Wright for sixteen years, and up to the present time he has always spoken of Mr. Wilkins with the utmost respect. He has in fact, in certain quarters, brought odium upon himself by doing so. A combination to injure Mr. Wilkins is about the last thing he would be likely to contemplate; but did an idea so foreign to his habit and nature ever enter his mind I think I should be almost the first he would consult. Mr. Kevin would very likely be the last man he would take into his confidence.

Sydney, 22nd October, 1878.

J. GARDINER,  
Examiner.

## No. 12.

### Mr. J. Kevin to The Secretary, Council of Education.

Sir,

Public Training School, Fort-street, 24 October, 1878.

Mr. Wright having characterized as “a lie” and “a conspiracy” my evidence as given before Messrs. Gardner and Forbes on Monday last, 21st instant, and again on Wednesday, 23rd October instant, before yourself and the gentlemen named, declining to put any questions to me as he “had already,” he said, “given his opinion of the trustworthiness of my evidence,” I do myself the honor to state, for the information of the Council:—

1. As regards “a conspiracy” Mr. Wright did not say what the object of such “conspiracy” was, limiting himself to the statement; “that these two (Mrs. Bardwell and myself) had worked this matter up between them.” I only hope Mr. Wright may be able to prove this. For the present I shall content myself by indignantly and emphatically denying such a statement. I never at any time desired, wished, or tried to injure Mr. Wright in any way.

What

What should I have to gain by such insane conduct? I have risked much peace of mind, the good opinion of many, nay, almost my position, to come forward in the *cause of truth and justice*, and simply because I saw a man acting as he had no right to act, setting at defiance the very Council itself, and harassing a defenceless woman.

It is quite true I took a note on three or four occasions of certain expressions (from among a very great number) used by Mr. Wright in reference to the Council, to their Secretary, and to Mrs. Bardwell; but I did not note anything till I had thought, and thought seriously, that mischief would be likely to come of Mr. Wright's threats, and not for nearly a month before Mrs. Bardwell entered the Training School.

On examination of my evidence it will be found that the first expression of a hostile nature uttered by Mr. Wright towards Mrs. Bardwell is put down for the 19th of April last. But Mr. Wright was aware by rumour or otherwise for upwards of three weeks before that Mrs. Bardwell was likely to be appointed, and during these three weeks and upwards his almost constant talk was of Mrs. Bardwell, and what he would not do if such appointment turned out to be a reality.

It was then I saw mischief would be likely to arise, and that I determined to commit to paper one or two brief facts to aid my memory in case anything serious should follow Mr. Wright's threats.

I am ready to admit that my action in committing to paper certain expressions used by Mr. Wright in reference to Mrs. Bardwell's appointment, and quoted by me in my former statement, is of such a nature as to be misunderstood or perhaps to be open to misinterpretation. But I beg to say in explanation that at the time I wrote these words I had not the remotest intention of ever using them to Mr. Wright's injury; indeed I hoped that I should never be forced to use them at all, but simply as a protection to myself; for Mr. Wright's threats were so persistent and so vehement, and his language breathed such hostility to Mrs. Bardwell for the three weeks or more before Mrs. Bardwell entered the Training School (as well as for some time after), that I was quite prepared for action on his part that I thought might seriously compromise me. Indeed, I fully expected Mrs. Bardwell to be subjected to insult by Mr. Wright on the 23rd April, the day upon which she was to enter on her duties, and hence I felt much relief when I saw the Secretary had come over to introduce her to the students.

Under these circumstances then did I put pencil to paper, so that if anything serious resulted from all Mr. Wright's threats I might be in a position to show from *his own words* that he alone was responsible.

Again I saw from the first that Mr. Wright was acting in direct opposition to the Council's will. I warned him of this but he heeded me not.

Having then no sympathy with such conduct, and feeling almost certain that trouble would come of it some day, I felt myself compelled, both for my own safety as well as for the honor of the Council and their Secretary, to take note of Mr. Wright's expressions, so that should it ever be *officially* demanded of me I might be prepared to say for certain what action Mr. Wright had taken that was opposed to the Council in the appointment of Mrs. Bardwell.

As I said in my first statement, I several times advised Mrs. Bardwell to patience, and to give Mr. Wright no cause for complaint. In doing this I happened to mention, perhaps in a moment of weakness, one or two facts to show Mrs. Bardwell the cause of Mr. Wright's conduct towards her—for she was utterly puzzled to account for it; but I declare most sincerely that I had no idea of creating by this means any ill-feeling between Mr. Wright and Mrs. Bardwell.

How Mr. Wright can, in the face of the threats and language uttered by him *before Mrs. Bardwell entered the Training School at all*, charge me with "conspiracy" is a thing quite beyond my comprehension. Here was his future line of conduct clearly indicated; and if "conspiracy" can be brought home to any one it must be to Mr. Wright himself, as from the first he "conspired" to oppose the action and upset the appointment of the Council.

Instead of conspiring with Mrs. Bardwell to injure Mr. Wright I have more frequently "conspired" to kindle and keep alive a better feeling between them.\* In this, of course, I failed, as Mr. Wright would never reconcile himself to the appointment of Mrs. Bardwell.

I once more reiterate my former assertion—and I do so with pain—namely, that Mr. Wright is solely responsible for this inquiry, for if he had acted loyally and faithfully by the Council and the Secretary in this matter the pain and humiliation that must ever follow such conduct as his would have been spared him; Mrs. Bardwell would have had no reason to complain of unfair treatment; and I should have been spared what has been to me a most trying and painful ordeal—namely, giving and then defending my evidence in this case.

2. With reference to my statements being "lies," I very willingly leave that point to be decided by the Council.

I beg you will append this letter to my statement of the 14th October instant.

I have, &c.,  
JOHN KEVIN.

### No. 13.

#### The Assistant Training Master to The Secretary, Council of Education.

Sir,

Public Training School, Fort-street, 7 November, 1878.

I have the honor to state, for your information, the following facts, and to beg the interference of the Council:—

Almost immediately after the termination of the late inquiry at the Training School, Mr. Wright instructed the messenger, Flanagan, to bring, in the first instance, all letters addressed to persons in the Training School to him. Thus my correspondence—which is very small, as I have usually instructed my regular correspondents to address to my private residence—must pass through Mr. Wright's hands, and be subjected to his scrutiny before it can come into my possession. By this action I am in a measure treated like the candidates. I

\* The last occasion upon which I tried conciliation was about five weeks since, when Mr. Wright received a memo. from the Council directing him to allot more than ten hours per week in oral teaching to Mrs. Bardwell. I then advised Mr. Wright to hand over the *Reading lessons* (two hours per week) to Mrs. Bardwell, saying that I should willingly give up the subject to meet the case. He pointedly refused, and wrote back to the Council, saying that he could not make any arrangements by which Mrs. Bardwell could have more than the time already allotted, viz., ten hours per week. I

I must confess my ignorance of any regulation—written or otherwise—authorizing Mr. Wright to do as he has done in this matter.

Heretofore I received my correspondence without regard to any fixed rule; nor has Mr. Wright ever informed me that such a rule existed. Had he done so, no correspondent of mine should have ever addressed to me at the training school. I can only attribute Mr. Wright's action in this matter to a desire on his part to annoy and, if possible, humiliate me.

May I therefore request you will do me the favour to direct that for the future my correspondence shall be handed to me without first having to pass through Mr. Wright's hands.

I have, &c.,

JOHN KEVIN,

Assistant Training Master.

No. 14.

Memorandum to Training Master.

Training School: Complaint from Assistant Training Master as to Letters received by him.

(78/20,783.)

Council of Education Office, Sydney, 12 November, 1878.

In a communication received from the Assistant Training Master he states as follows:—"Almost immediately after the termination of the late inquiry at the Training School, Mr. Wright instructed the messenger, Flanagan, to bring in the first instance all letters addressed to persons in the Training School to him. Thus my correspondence must pass through Mr. Wright's hands and be subjected to his scrutiny before it can come into my possession. By this action I am, in a measure, treated like the candidates."

The Council would accordingly be glad to be furnished with any remarks you may desire to make in regard to this representation.

W. WILKINS,  
Secretary.

No. 15.

Memorandum to the Secretary.

Public Training School: Complaints against me by Assistant Training Master, as to his letters directed to the Training School. Your B.C., No. 78-20,783, dated 12th Nov. inst.

(78-167.)

Training Master's Office, Fort-street, 16th November, 1878.

It has for years been the rule here that all letters addressed to the Training School should be first brought to my office, and then the messenger distributes them as directed. In all cases the letters for the teaching staff are delivered to them (teachers) at once. From my knowledge of Mr. Kevin's desire to peer into other people's affairs, which leads him so far as to read private letters belonging to others when he gets a chance, I concluded that, he being now in the front room at the head of the stairs, he would stop the messenger to sort the letters; and in consequence I repeated my former directions to the messenger—that all letters must be first brought to me.

Now no letter addressed to Mr. Kevin ever comes into my hands, as I take none from the messenger but those addressed to myself and the candidates, and direct that Mr. Kevin's be immediately delivered; so much for my scrutiny of his correspondence.

The bringing of all letters addressed to the Training School to my office is in keeping with the first clause in No. 4 of "Instructions to Principal Teachers."

J. WRIGHT,  
Training Master.

No. 16.

Council's Minute upon Letter No. 28,691.

Training School.

The Council resolved that letters addressed to teachers in the Training School be delivered to them by the messenger direct; and that the Training Master be informed that the instructions to which he appeals do not apply to the Training School.—25/11/78.

No. 17.

Memorandum to Training Master.

Training School:—Complaints preferred against you by Assistant Training Master as to his letters. Your B.C., No. 78,167.

(No. 78-21360a.)

Council of Education Office, Sydney, 19 November, 1878.

ADVERTING to your B.C. memorandum of 16th instant (No. 78,167), I am to acquaint you that, in the absence of a specific instruction, you were not warranted in taking the course objected to by the Assistant Training Master simply on the strength of the direction cited by you, relating to principal teachers. The wide difference which exists between the position of assistant in a school and that of an assistant training master, renders it undesirable that the same course should be adopted in regard to the disposal of letters.

The Council's authoritative decision will be obtained at an early date. In the meantime, the former practice should be reverted to, and letters addressed to Mr. Kevin and Mrs. Bardwell should be taken to them *direct*, by the messenger.

W. WILKINS,  
Secretary.

## Memorandum to The Training Master.

Memorandum from the Secretary to J. Wright, Esq., Training-Master.

(No. 78-21211.)

Council of Education Office, Sydney, 18 November, 1878.

HEREWITH is transmitted a copy of the minutes of evidence taken at the investigation held at the Training School on the 16th and 23rd October ultimo; and I am to request that you will be good enough to state if you regard these minutes as containing an accurate account of the statements made by the several witnesses examined. If you think that there are any errors of omission or commission you should at once point them out.

W. WILKINS,  
Secretary.

No. 21.

## Memorandum to the Secretary.

Public Training School : Investigation at the Training School, Minutes of Evidence taken at, herewith returned.

Training Master's Office, Fort-street, 20 Nov., 1878.

IF compliance with the instructions in your B.C. No. 78-21,211, dated 18th instant, I herewith return the Minutes of Evidence taken at the investigation held at the Training School. The Minutes, so far as I can judge, are correct; there are one or two omissions, but they are not important; I feel quite satisfied that the minutes are just and truthful.

These minutes do not contain the evidence upon the charge that "I conspired to oust you from your office, or at least to so annoy you as to seriously damage you"—a charge unsurpassed in falseness, one, the very thought of which arouses my abhorrence of the preferrer.

J. WRIGHT,  
Training Master.

No. 22.

## Memorandum from The Secretary, Council of Education, to Mrs. Bardwell.

Council of Education Office, Sydney, 18 November, 1878.

HEREWITH are transmitted Minutes of Evidence taken at the investigation held at the Training School on the 16th and 23rd October ultimo; and I am to request that you will be good enough to intimate if you regard them as containing an accurate account of the statements made by the several witnesses examined. If you think that there are any errors of omission or commission you should at once point them out.

W. WILKINS,  
Secretary.

No. 23.

## No. 23.

Mrs. S. M. Bardwell to The Secretary, Council of Education.

Sir,

In reply to your Memo. No. 78/21,212 of the 18th of November instant, I have the honor to call your attention to the following commissions and omissions in connection with the Minutes of Evidence:—

*Report, page 2.*—Evidence of Mr. Teal—the word “then,” line 6, should be “now.”

*Report, page 5.*—In reference to the question: “Did you ever hear Mr. Wright speak of Mrs. Bardwell, which, at first, was answered in the negative by all, Miss M’Nielly is reported to have said:—“You are to have a new French teacher, named Mrs. Bardwell. She was once in the Training School, and that is all I know about her.”

I beg to say that the last clause in the foregoing sentence should be: “I do not know her.”

*In Report, page 8.*—It is stated that Miss Johnson, in reply to the question: “Did Mr. Wright always take Mrs. Bardwell’s side in cases of disputes?” answered in the affirmative.

I beg to say that her answer to the question was negative—and when required to give an example of such answer she gave the case of Miss Ferguson, and said: “Mrs. Bardwell spoke on the subject to Mr. Wright, and he said the offence was trivial.”

The Report states: “My impression was that Mr. Wright thought the offence trivial.”

*In Report, page 9,* it is stated that one of the witnesses “shed tears.” And this fact should have been mentioned with regard to Miss O’Brien and others, who evinced the greatest fear and emotion when forced to say anything to inculcate Mr. Wright.

*Report, page 10.*—Miss Graham, when required to state what language Mr. Wright used on the occasion when I appealed to him in the case of Miss Ferguson, *demurred and refused to tell*:—

I beg to direct particular attention to the fact of her refusal to tell the language used by Mr. Wright on that occasion. The answer was neither drawn from her, nor is there any mention of it in the Report.

*In Report, page 12,* it is stated that Miss Campbell said:—“Apart from Miss O’Brien’s matter, Mr. Wright supported Mrs. Bardwell’s authority. And in reference to Miss Ferguson’s case the same witness is further reported to have stated:—Mr. Wright made no remark.”

I beg to say that Miss Campbell gave the case of Miss Ferguson as a second instance in which Mr. Wright, on being appealed to by me, did not support my authority, and that after Miss Ferguson had shown Mr. Wright the position (or nearly so) which she was in the habit of assuming to annoy me, Miss Campbell stated:—“Mr. Wright laughed.”

*Report, page 15.*—In the evidence of Miss Hodges, referring to the case of Miss Ferguson, the following is omitted:—“You applied to Mr. Wright and he never reported her.”

*Report, page 17.*—Miss O’Brien, in answer to the question: “Did you ever hear Mr. Wright speak of Mrs. Bardwell?” replied, as did all the other witnesses when the question was first put to them, in the negative. But when the answer was dragged from them, with the utmost reluctance on their part, they had to acknowledge, *in silence, the falsehood* of their first answer. Miss O’Brien, however, after the answer to the first question was dragged from her, and in reply to the second question put by the secretary: “Is not that speaking of her?” positively asserted “yes,” and I have a note to that effect.

Further, in connection with the fact that Mr. Wright did speak disparagingly of me on the Thursday before Easter, before I had entered upon duty, I beg to say that his observations concerning me on that day are not so clearly brought out by the Minutes as they were by the students when giving evidence. Many of them clearly stated that Mr. Wright’s language concerning me on that occasion left the impression upon their minds of inability on my part for the position, and when asked what effect Mr. Wright’s language, if applied to themselves, would be likely to have, Miss McNeilly, Miss Campbell, Miss Hodges, and Miss Graham clearly admitted that his language tended to lessen me in the estimation of the students; and Miss Hodges asserted that Mr. Wright’s observations concerning me, on that occasion, was afterwards a subject of conversation among the students.

*In Report, page 18.*—Miss O’Brien is reported to have said: “You said it was a pity that Mr. Wright did not do what he generally did in the matter.”

I beg to say that the words acknowledged by Miss O’Brien were these: “You said you felt sorry that the Secretary should be troubled in the matter, and that he should have to come and do what you asked Mr. Wright to do in the first instance, and which if he had done all the trouble might have been avoided.”

*Report, page 19.*—The tenor of Miss O’Brien’s evidence is unintelligible through an omission of the words which she stated I had used, when referring to the extensive vulgarity prevalent and unchecked in the Training School,—the students passing each other and their teachers and even jostling them upon the stairs and elsewhere, without the least regard to the most ordinary courtesies of life, viz.: “You said also that you lived with savages, and that even they, on meeting each other for the first time in the day, wished each other good morning.”

Miss O’Brien expressly stated that I used these words.

I am simply asked to state errors of commission and omission, and I therefore refrain from comment.

I have, &c.,

S. M. BARDWELL.

## No. 24.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Public Training School, 25 November, 1878.

I have the honor to inquire if students, while present in the Training School, are allowed to absent themselves from my courses without asking me to be excused?

On the 5th instant the Misses Callen and Caldecott were absent during the course on Domestic Economy till within a few minutes of the lesson being ended, when they entered the class laughing. Again, on the afternoon of the same day, Miss Caldecott was absent at French course, though she showed herself at the window while the lesson was going on.

I have, &c.,

S. M. BARDWELL.

Training master to state if he authorized these students to absent themselves from any class.  
26/11/78.

101

No. 25.

## Memorandum from Secretary, Council of Education, to Training Master.

Training School.—As to students Miss Callan and Miss Caldecott.  
It is requested that you will be good enough to state if you have authorized Miss Callan and Miss Caldecott, students in training, to absent themselves, at any time, from any classes of the Training School.

Council of Education Office,  
Sydney, 27 November, 1878. }

W. WILKINS,  
Secretary.

No. 26.

## Memorandum of Training Master to Secretary, Council of Education.

Miss Callan and Miss Caldecott, students in training, as to your inquiry, if I authorized them to absent themselves from *any* classes.

In your memorandum No. 78-21,996, dated 27th instant, the following request is made: "Be good enough to state if you have authorized Miss Callan and Miss Caldecott, students in training, to absent themselves at any time from *any* classes of the Training School." In reply, I beg to say they have been absent from some lessons, viz.:—

1. On 2nd August last, Miss Caldecott was suffering severely from toothache, and at half-past 11 a.m. I gave her liberty to visit the dentist, to get the tooth extracted. She felt unwell after the operation, and I gave her leave to go home, and absent herself from the Training School for the remainder of the day.

2. On 5th November, Miss Caldecott had an attack of hysteria while in the singing class, and was carried out to the balcony; she did not recover for a considerable time, and I allowed Miss Callan to remain with Miss Caldecott, as the latter was unable to stand or even sit on a chair. Both were absent from some lessons on this day.

3. On 15th November, Miss Callan had a bilious attack about noon, and I gave her leave to go home at fifteen minutes past 2 o'clock p.m. She was scarcely able to walk, and as Miss Caldecott lives within a short distance of Miss Callan's residence in Balmain, I sent the former to assist the latter home. They were both absent from lessons during this afternoon.

4. I have never willingly allowed a candidate to be absent from any classes in the Training School; but in the cases referred to there was no alternative.

Training Master's Office,  
Fort-street, 28 November, 1878. }

J. WRIGHT,  
Training Master.

No. 27.

## James B. Byrne to The Council of Education.

Gentlemen,

No. 4, Bligh Terrace, Kent-street, 2 December, 1878.

I have the honor to call your attention to the treatment which I have received from Mrs. Bardwell during the last two months.

Since an investigation, which took place some time ago, and at which I was a witness, I have been subjected to a studied course of neglect during the time I am under her charge, and have scarcely ever been asked a single question on any subject.

On this day (Monday, December 2nd), during Geography Lesson, Mrs. Bardwell, without any provocation, attacked me in a most unbecoming manner, telling me I was a disgrace to any institution. During the whole time I never spoke a single word, and she concluded by telling me that if I spoke she would send me out of the room.

The other candidates can testify that I have never given Mrs. Bardwell any cause for such treatment, and I humbly request that you will be pleased to take such steps as will protect me from further insult during the remainder of the session.

I have, &amp;c.,

JAMES. B. BYRNE,  
Candidate in Training.

B.C., Mrs. Bardwell, for report.—W.W., 5/12/78. B.C., Secretary, report herewith.—S.M.B., 10/12/78.

No. 28.

## Mr. F. W. Spence to The Council of Education.

Gentlemen,

11, Jamieson-street, Sydney, 2 December, 1878.

I have the honor to report that during a lesson given by Mrs. Bardwell to-day, the male candidates of the lower division were asked the following question:—"How do mountains influence the character of a people?" Upon receiving no answer from them they were told that they would be reported to the Council of Education for insubordination. The ladies were then asked to answer the question and one of them said, "the people are brave." This was taken as the answer. Not seeing any connection between the question and the answer given, I said to the person next me, "I do not think that that is any answer." Mrs. Bardwell saw me and asked me what I was saying. I told her, and she then accused me,—

1st.—Of knowing the answer and refusing to give it.

2nd.—Of being rude.

Wishing to exculpate myself, I told her that I did not know the answer, but that I did not think that the answer given was correct because I could see no connection between the question and answer. Mrs. Bardwell then threatened to expel me from the class if I behaved rudely *again*.

As this is not the first time since the investigation held here (I was never spoken to previously to that) that I have been unjustly accused, and on more than one occasion insulted before the class. Mrs. Bardwell

Bardwell telling me once in reply to a question, "to go and find out," and on another "that she wished me in the Gulf of Bothnia," and also on several other occasions. And as I have every reason to believe that I have not deserved treatment like this, I humbly beg that you will be pleased to take such steps as will protect me from further insult during the remainder of my stay in the Training School.

I have, &c.,

FRED. W. SPENCE.

Mrs. Bardwell for report, 10/12/8.—W.W. B.C., Secretary, report herewith.—S.M.B., 10/12/78

No. 29.

Miss E. M. Fitzpatrick to The Secretary, Council of Education.

Sir,

4, Blyth-terrace, Kent-street, 4 December, 1878.

I have the honor to inform you, that I am compelled in justice to myself, to report to you the very unfair treatment exercised towards me during school hours by Mrs. Bardwell, who, among other statements, has accused me of ridiculing her to ladies of my acquaintance out of the school; and although I have given the accusation my firm denial, she still persists in demanding an apology from me. I do not consider I have given any cause for apology, so I respectfully refer to you for your kind consideration and interference in this matter.

I have, &c.,

E. M. FITZPATRICK.

Minutes on No. 29.

B.C., Mrs. Bardwell, for report.—W.W., 6/12/78. B.C., Secretary, report already furnished.—S. M. Bardwell, 10/12/78.

No. 30.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Public Training School, Fort-street, 9 December, 1878.

I have the honor to request your presence in the Training School, to check insubordination and insolence on the part of the male students of the lower division.

I have, &c.,

S. M. BARDWELL.

No. 31.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Public Training School, Fort-street, 9 December, 1878.

I have the honor to forward a paper connected with the report of the late investigation, and I beg to be excused for not sending it with the minutes of evidence.

Not having occasion to remark upon it I put it away carefully and forgot all about it when returning the minutes of evidence.

I have, &c.,

S. M. BARDWELL.

No. 32.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Public Training School, Fort-street, 9 December, 1878.

I have the honor to direct your attention to the case of Miss Fitzpatrick, before mentioned, in connection with that of Miss Callen on the 21st of September.

From the beginning of this session to the present time Miss Fitzpatrick has, in various ways, behaved very rudely towards me; and has caused me much annoyance by laughing and asking unnecessary questions during lessons.

On Tuesday, the 17th of September, during the course on domestic economy I had to reprove Miss Fitzpatrick two or three times for rudeness. She and Miss Callen, their heads close together whispering, at other times nearly resting upon the desk, occasionally looking up defiantly at me, were chuckling the greater part of the lesson. I had to leave the room in order to bear it. In short, Miss Fitzpatrick was on that occasion as insolent as Miss Callen, except that she did not threaten me with Mr. Wright. On that occasion I took her note-book, which I still have, because it proves she has taken unwarrantable liberties with my name, and that she has not taken exact notes during lessons.

It has always been very painful to me, in the interests of discipline and performance of duty, to be compelled to direct the Council's attention to the vulgarity and insolence allowed in the Training School, and to make against persons charges which might be injurious to them. I have, therefore, hitherto—even to my own detriment—avoided complaint as much as possible, and I have done my utmost to avoid it in this case by offering Miss Fitzpatrick conditions easy of her acceptance and not detrimental to my authority.

I called her into my office privately, and said if she would write me an apology acknowledging her fault, express sorrow for it, and promise to set a better example in future, I would pardon her and forego all charges against her before the Council. This she has refused to do.

I therefore beseech the Council to make an effective example to the others in the case of Miss Fitzpatrick and thus show its disapproval of the vulgarity and insolence allowed in the Training School, as such tends to bring disgrace upon the Institution.

I have, &c.,

S. M. BARDWELL.

## Mrs. Bardwell to The Secretary, Council of Education.

Sir,

"Nandamanu," Ocean-street, Woollahra, 9 December, 1878.

I have the honor to state that the complaints made by Messrs. Spence and Byrne and Miss Fitzpatrick are simply a part of the system of persecution to which I have been subjected since I entered upon my duties in the Training School.

The two male candidates have been repeatedly guilty of the gross vulgarity of staring me out of countenance, and annoying me in other ways; and they now are seeking to avoid censure by making an impudent counter-charge.

Mr. Byrne has received as much of my attention as any other candidate; but his manner towards me has been so offensive, that to question him on any subject is anything but pleasant. His bearing is that of surly independence, combined with that self-sufficiency always allied to ignorance, which is so objectionable, in no matter what relation, but especially so in a pupil towards a teacher. It would be difficult, indeed, for the students to certify to the vulgarity of Messrs. Spence and Byrne, for they have been so guardedly circumspect in their offensiveness that they could not be noticed by the others. Mr. Byrne, however, on one occasion, after he had sneered and whispered with Mr. Myres, said that what I stated "was not true." Mr. Byrne perverts the truth by stating that I said he was a disgrace to any institution. What I said was: "that the conduct of a good many of them tended to bring disgrace upon the institution."

Permit me to direct attention to the shameless impertinence of the statement of Mr. Spence: He acknowledges, in the very letter in which he makes complaint of being reproved by his teacher, a gross breach of discipline on his part, in talking during the lesson to his neighbour—a habit, combined with sneering, so much indulged in by him, as to hinder his taking the notes, and, hence, he has frequently required me, in a rude manner, to tell him again. It was on one of those occasions, and while the other students were waiting for me to proceed, that I might have said, "Go and find out." Mr. Spence tells a gross untruth in his statement "That the people were brave" was taken by me as a complete answer to the question: "How do the mountains of a country affect the character of its people?" That matter was fully explained by me and by Mr. Kevin, and yet not one of the male students would answer it when required; and when one of the female students did her best to answer it, Mr. Spence, as if annoyed that any one should answer me, sneered, and whispered to his neighbour that it was not the correct answer.

I here beg to state that that occasion was not the only one on which the students refused to answer me. They did so several times before, and once again to-day when required to answer the question, "How are latitude and longitude measured upon the earth?"

Previously, after I had carefully explained to them the foregoing matter, I put questions in various ways concerning it, and received answers thereto, so that they could, if they would, answer it to-day.

With regard to Miss Fitzpatrick the case is evident. Knowing that she has been guilty of gross misconduct, and that it was likely to be reported, she has, I believe, been advised to annoy me by making a complaint against me first. In addition to the charges which I have already brought against her is that of stating a gross untruth in her letter, viz., "That I persist in demanding an apology." I beg to say that I have never, but once, asked her to make me an apology, and that I did in kindness to her.

I beg most respectfully to report that the apology that Messrs. Bradstreet and Davis were directed to make me was made so impudently that I refused to accept it. When I observed to Mr. Bradstreet that his saying he did not mean to be rude did not amount to an apology, and contained no expression of regret, he replied, "I do not want to argue with you now," saying this in such a tone of vulgar insolence that I had to request him to leave the room.

I beg most respectfully to remark that if Messrs. Bradstreet and Davis had been punished for their insubordination and insolence on that occasion it would effectively have checked the vulgarity and insolence rampant in the Training School. Since that time Mr. Bradstreet's mode of annoying me is by stamping in ascending and descending the stairs. I have remonstrated with him relative to this behaviour, since when he has done it more markedly.

Last Thursday, at 3 o'clock p.m., while I had all the female students for composition, the males, as if incited by Mr. Bradstreet, made such an uproar on the stairs and the front balcony as must have arrested the attention of people passing in Prince-street. It made the female students stare at one another, and then at me, which, when I saw, I ventured to say, "Pretty conduct for a Government institution, is it not?" In short, it was such conduct as would tend to bring disgrace upon not only l'Ecole normal of Sydney, but upon any institution.

I beg most respectfully to request that the investigation into the charges I have made may be continued at the earliest possible opportunity, as the evidently premeditated arrangement on the part of Messrs. Spence and Byrne and Miss Fitzpatrick is concocted so as to injure the cause I am now pleading before the Council against Mr. Wright and his management of the Training School generally. When the investigation again begins I beg to call Mr. Fisher as a witness.

It is scarcely necessary to say that in the present position of affairs it is almost impossible for me to do my duty effectively. A defenceless woman open to the insult of every ill-bred, vulgar, malcontent student, who tries to crush her and everything which interferes with his animal propensities, and who knows that his efforts to carry out Mr. Wright's threat to drive me from my position will win him favour.

The charges brought against me on the whole are exceedingly frivolous, and give an insight into the character, as teachers, of the men who advance them against a woman.

It is not a little to be proud of, however, that in spite of the persistent malignity pursued against me, in which no stone has been left unturned, and even gross falsehood resorted to, in order to injure me, the frivolous charge of Mr. Spence, "That his teacher wished him in the Gulf of Bothnia," is the only serious one brought against me. Malignity should be congratulated upon her great triumph.

I have, &amp;c.,

S. M. BARDWELL.

## No. 34.

## Mr. J. Kevin to The Secretary, Council of Education.

Sir, Public Training School, Fort-street, Sydney, 10 December, 1878.

I do myself the honor to bring under your notice certain misconduct on the part of the following candidates: Messrs. Byrne, Bradstreet, Myers, and Richardson.

To-day, as these young men were going down stairs to drill, they made such an unseemly noise by stamping heavily on the steps of the stairs that but one interpretation could be put upon such conduct, namely, to show how little they care for the directions of their teachers.

They had been spoken to by Mrs. Bardwell before, and requested to go up and down in a proper and becoming manner. I must look upon their conduct to-day as a gentlemanlike response to this civil request of Mrs. Bardwell.

On their returning to class I spoke to them, before the class, on the matter, and they all pleaded guilty in silence—or rather did not seem to care, except Mr. Richardson, who urged that he did not mean to give offence, and had been in the habit of coming up and going down stairs in that way.

I make this report as Mr. Wright was not in the Training School at the time—nor for nearly an hour previous—and as, in his absence, I consider myself responsible for the proper working of this institution.

I have, &c.,

JOHN KEVIN,

Assistant Training Master.

## No. 35.

For Sir Alfred Stephen's consideration.

*Papers relating to recent inquiry and complaints,—*

1. The charges against Mr. Wright.
2. Notes of evidence taken at the inquiry and papers relating thereto.
3. Mr. Wright's replies.

NOTE.—One of the charges brought against Mr. Wright had reference to myself. This matter was inquired into by Messrs. Gardiner and Forbes, whose report is forwarded herewith in the same condition as when handed to me—unopened.

A letter from Mr. Kevin on the same subject is also appended.  
13 December, 1878.

W. WILKINS.

## No. 36.

## Mr. Fisher to The Secretary, Council of Education.

Singing-master's Office, 13 December, 1878.

*In re* discipline, &c., of candidates under training, and pupil-teachers, in Saturday morning classes.

Sir,

I have the honor to bring under the consideration of the Council certain matters connected with the discipline and conduct of the candidates in training, and the pupil-teachers, in the Saturday music classes, while under my charge. I consider that this subject has so important a bearing upon the future welfare and success of these young teachers, and upon the influence for good or evil they may hereafter exercise over the children entrusted to their care, that I offer no apologies for bringing it under the Council's notice. Indeed, I think I am perfectly justified in regarding this matter as one not merely of temporary, personal, or official interest, but of very significant, national, and social importance. So much, as I view it, depends upon the character and demeanour of the Teacher, and the earnestness and enthusiasm which he infuses into his work, that any defects in the former, or lack of the latter, must seriously militate against the value and success of his labours.

2. For some time past I have remarked a gradual but very evident deterioration in the conduct, and, to use a somewhat trite phrase for which I can find no substitute, the "moral tone" of the students in the Training School. This declension has been more noticeable during the present session than in any previous one. It has evinced itself in repeated instances of disrespect to myself as teacher, insubordination, frivolity, want of earnestness, indifference to reproof, and, perhaps, worst of all, the *vis inertia* of a passive but obstinate resistance to advice and instruction.

3. I should hesitate to speak thus forcibly, were I not compelled to do so from a feeling of the immense importance of the subject, and from a sense of the duty I owe both to the Council and myself. That I am not likely to be mistaken in the convictions at which I have arrived, may be inferred from the circumstance that I have been longer connected with the Training School than any other teacher; having, in fact, been associated with it from the inauguration of the Council. I have therefore had abundant opportunity of forming an opinion on these matters.

4. The faults of which I complain have, during the present session, been confined principally to the male candidates. At the commencement of the session in July last, I found it necessary, in a few instances, to admonish some of the female students. Since then their conduct has been as satisfactory as could be expected, considering the bad influence which the example of some of their male companions might have had upon them. Nor is it, of course, to all of the latter that my strictures are intended to apply.

5. It will be sufficient, in substantiation of my statements, to allude to two or three recent cases. I may state, however, that at the commencement of almost every lesson I have had to check the tendency to general and sometimes boisterous talking, which my entrance into the class-room had failed to silence. This inveterate habit must, in itself, prove a sure and fruitful source of subsequent disorder. I look upon it, that common courtesy, if no higher motive, demands that, when a teacher takes his place before his class, he should be at least received with respectful silence, be his position what it may.

6. On one occasion, finding that a considerable number of the male candidates appeared resolved to make no effort to do what I desired, after repeated trials to induce them to work, I requested some of them to leave the class for that lesson. They accordingly did so, and went into the other class-room, where they immediately commenced laughing so loudly as to interrupt my lesson, which I had resumed. I went to them, and remonstrated with them; when one of their number, while I was yet speaking, laughed derisively. On demanding his name, I found it was Davies.

7. A few days afterwards, after repeatedly requesting the male candidates to abstain from whispering to one another, and from other disorderly conduct, I took the opportunity, at the close of the lesson, to speak very seriously but kindly to them, in the absence of the ladies. My remonstrance appeared to have some effect upon them; and I hoped that I should have no further cause of complaint. Within a week, however, a candidate named Bradstreet, taking advantage of my turning to the blackboard, commenced speaking almost aloud. I had previously several times checked whispering from others; and I accordingly endeavoured to ascertain who was the new offender. For some time I failed to elicit any information, and it was only by resorting to an expedient, common enough in a Primary School, but which should certainly not be necessary in a class of adults, that I discovered the culprit. On asking an explanation of his conduct, he attempted to shelter himself under the childish subterfuge that he was not talking, but was only repeating something to himself.

8. I think the instances I have detailed will sufficiently indicate the faults of which I complain. I need only allude to such unseemly behaviour as stretching and yawning aloud, secretly sounding a tuning-fork, persistently lounging on the desks, surreptitiously reading books, &c., during an important lesson, to prove that some of these young teachers can scarcely yet have acquired a sense of that propriety of conduct which they themselves are expected to inculcate.

9. My letter is already so long that I will not trespass further, except to state that I have had occasionally to correct similar faults, though not perhaps of so inexcusable a character, on the part of some of the pupil teachers in the Saturday classes; but even there I have long felt the want of some greater power of checking abuses than I already possess.

10. I respectively submit these statements to the Council for their consideration. I do not think I am called upon at present to express any opinion as to the causes of the evils I have described. Suffice it to say that they certainly exist; and, unless I am mistaken, demand immediate attention and prompt measures for their correction. Any suggestions or instructions as to my own course of duty I shall gratefully receive, and faithfully endeavour to act upon in the future.

I have, &c.,  
J. C. FISHER,  
Singing Master.

#### Council's Minute upon Training School Inquiry.

##### TRAINING SCHOOL.

AFTER full and lengthened consideration the Council resolved,—

1. That Mrs. Bardwell has failed to substantiate the several charges she had preferred against the Training Master.
2. That, at the same time it is manifest that Mr. Wright, in addressing to the students, prior to her entry on duty, remarks respecting Mrs. Bardwell of a nature calculated to prejudice her in their estimation, failed to act with the discretion and good feeling which it was incumbent upon him to exhibit.
3. That the relations between the Training Master and his assistants, as disclosed at the investigation and in the correspondence, require that the latter should cease to hold office in the Training School, and that Mr. Kevin and Mrs. Bardwell be accordingly removed from their positions therein on the 31st December instant, but to be eligible for re-employment elsewhere.
4. That Mr. Kevin be also informed that the Council views with distrust his representatious respecting conversations between himself and the Training Master, and regards with great dissatisfaction his mode of dealing with the circumstances even if he has stated them exactly as they occurred.

#### Memorandum to Training Master.

*Training School: As to complaints made by Mrs. Bardwell against you.*

Council of Education Office, Sydney, 27 December, 1878.

THE Council has had under notice Mrs. Bardwell's complaints against you as Training Master, together with the minutes of evidence taken at the inquiry into the matter, and your statement in reply.

After full and lengthened consideration, the Council has resolved,—

1. That Mrs. Bardwell has failed to substantiate the several charges she had preferred against you.
2. That, at the same time, it is manifest that you, in addressing to the students, prior to her entry on duty, remarks respecting Mrs. Bardwell of a nature calculated to prejudice her in their estimation, failed to act with the discretion and good feeling which it was incumbent on you to exhibit.
3. That the relations between you and your assistants, as disclosed at the investigation, and in the correspondence, require that the latter should cease to hold office in the Training School, and that Mr. Kevin and Mrs. Bardwell be accordingly removed from their positions therein on the 31st December instant, but to be eligible for re-employment elsewhere.

W. WILKINS,  
Secretary.

## Memorandum from Secretary, Council of Education, to Mr. J. W. Kevin.

*Training Schools: As to complaints made by Mrs. Bardwell against the Training Master, Mr. J. Wright.*

Council of Education Office, Sydney, 27 December, 1878.

THE Council has had under notice Mrs. Bardwell's complaints against the Training Master, together with the minutes of evidence taken at the inquiry into the matter, and Mr. Wright's statement in reply.

After full and lengthened consideration the Council has resolved,—

1. That the relations between the Training Master and his assistants, as disclosed at the investigation and in the correspondence, require that the latter should cease to hold office in the Training School, and that Mr. Kevin and Mrs. Bardwell be accordingly removed from their positions therein on the 31st December instant, but to be eligible for re-employment elsewhere.
2. That Mr. Kevin be also informed that the Council views with distrust his representations respecting conversations between himself and the Training Master, and regards with great dissatisfaction his mode of dealing with the circumstances, even if he has stated them exactly as they occurred.

Secretary.

## No. 40.

## Memorandum from Secretary, Council of Education, to Mrs. Bardwell.

*Training School: As to your complaints against the Training Master.*

Council of Education Office, Sydney, 27 December, 1878.

THE Council has had under notice your complaints against Mr. Wright as Training Master, together with the minutes of evidence taken at the inquiry into the matter, and Mr. Wright's statement in reply.

After full and lengthened consideration the Council has resolved,—

1. That you have failed to substantiate the several charges you had preferred against Mr. Wright.
2. That, at the same time, it is manifest that Mr. Wright in addressing to the students prior to your entry on duty, remarks respecting you, of a nature calculated to prejudice you in their estimation, failed to act with the discretion and good feeling which it was incumbent on him to exhibit.
3. That the relations between Mr. Wright and his assistants, as disclosed at the investigation and in correspondence, require that the latter should cease to hold office in the Training School, and that Mr. Kevin and you be accordingly removed from your positions on the 31st December instant, but to be eligible for re-employment elsewhere.

W. WILKINS,  
Secretary.

## No. 41.

## Mrs. Bardwell to The President of the Council of Education.

"Nandamanu," Ocean-street, Woollahra, 28 January, 1879.

The Honorable Professor Smith, C.M.G., President of the Council of Education,—

Sir,

I have the honor to acknowledge the receipt of the Secretary's memorandum of the 27th of December ultimo, conveying the decision of the Council of Education on complaints preferred by me against Mr. Wright, and in reply thereto I beg most respectfully to express my surprise at the conclusion to which the Council has arrived.

In the second resolution of the Council it is admitted—"It is manifest that Mr. Wright, in addressing to the students, prior to your entry on duty, remarks respecting you of a nature calculated to prejudice you in their estimation, failed to act with that discretion and good feeling which it was incumbent on him to exhibit."

One of my principal charges against him bore upon this very point—in fact the matters complained of by me were but further developments of the same animus which he manifested before I had commenced duty in the Training School, and which, in order to effect his threat—"that he would drive me from my position in a month," he manifested to the end.

Further, as Mr. Wright, by the Council's own acknowledgment, is solely responsible for the relations existing between him and myself, I humbly beg the Council to consider whether it is altogether *equitable* that I alone should suffer punishment.

On these grounds I entreat the Council to reconsider the whole matter, to cause further inquiry to be made by disinterested persons, such inquiry to embrace not only the charges already investigated but also those contained in my letter of the 9th of December ultimo, upon all those points I have additional evidence to produce. And I further beg that, as a part of the case, it may be ascertained whether Mr. Wright gave me any, and if so, what directions for the performance of my duties in the Training School; or whether he did not leave me entirely without instructions in the hope that I might, in some respects, fail.

As the Council's decision deprives me of a livelihood, after I had relinquished other means of support in order to enter its service, and after my health has suffered by ill-treatment in its service, I trust my request may be considered reasonable; and I appeal with confidence to the sense of right and justice, which I am sure the members of the Council must have.

As I am desirous, sir, that this letter should come under your personal cognizance, I have taken the liberty of addressing it to yourself directly, in place of sending it through the ordinary channel; and I also beg to enclose a letter to you from Sir John Hay, which I have some months in my possession.

I have, &c.,  
S. M. BARDWELL.

107

No. 42.

## Council's Minute upon letter No. 79,3416.

Mrs. Bardwell.

THE Secretary was instructed to inform Mrs. Bardwell,—

1. That the Council sees no sufficient reason for reopening the inquiry into her charges against the Training Master.
2. That the Council does not admit, as she alleges, that the Training Master is solely responsible for the relations existing between him and herself.
3. That it was not the Council's intention to exclude her from its service, but that the Council is willing to appoint her to any vacant situation suitable to her qualifications.

No. 43.

## The Secretary, Council of Education, to Mrs. Bardwell.

Madam,

Council of Education Office, Sydney, 14 February, 1879.

I am directed by the Council of Education to acquaint you that the Council has had under notice your letter dated 28 January ultimo, requesting a reconsideration of the Council's decision in regard to the matters in dispute between you and the Training Master, Mr. Wright.

2. In reply, I am instructed to state that the Council sees no sufficient reason for reopening the inquiry into the charges made by you against the Training Master, and does not admit the correctness of your allegation that that officer is solely responsible for the relations which existed between him and yourself during your connection with the Training School.

3. I am to add that it was not the intention of the Council by the decision arrived at in this case to exclude you from its service, but that the Council is willing to appoint you to any vacant situation suitable to your qualification.

I have, &amp;c.,

G. MILLER,

(For Secretary).

No. 44.

## Mrs. Bardwell to The Secretary, Council of Education.

Sir,

Watson's Bay, 10 March, 1879.

I have the honor to acknowledge the receipt of your memorandum of the 14th ultimo, and in reply thereto I request the Council, as a matter of justice, to grant me an appointment socially not inferior to that which I relinquished to enter its service, and pecuniarily not inferior to that of which I have been deprived.

I would most respectfully suggest that the Council should appoint me teacher of French or German to the most advanced classes in the principal Public Schools in Sydney. Many of the students in the Training School expressed the great interest they took in learning French from hearing me speak it to them, saying that though they had learned it for two and three years, nobody ever spoke it to them before. I beg to refer to Dr. Badham as to my knowledge of the language, and my ability to speak it fluently.

In justice to myself, I must respectfully say that, had not the investigation been prematurely closed at a time when I asked that it might be continued, and when I was distinctly told that it was to be continued, I had witnesses to call who would have fully proved my case.

I have, &amp;c.,

S. M. BARDWELL.

*Minute by Council of Education.*

The Council resolved that it could not make any new office of the kind proposed, but that it is willing to appoint Mrs. Bardwell to any vacant school in the country.

No. 45.

## The Secretary, Council of Education, to Mrs. Bardwell.

Madam,

Council of Education Office, Sydney, 9 April, 1879.

I am directed by the Council of Education to acquaint you that the Council has had under notice your letter dated 10th ultimo, applying for re-employment, in which you suggest that you should be appointed as teacher of French or German to the most advanced classes in the principal Public Schools in Sydney.

2. In reply, I am to state that it is not deemed expedient to create any new office of the kind suggested in your communication. The Council, however, is willing to appoint you to any suitable vacancy in a country school, should such an arrangement accord with your wishes.

3. I am accordingly to inquire if you are prepared to accept appointment as indicated.

I have, &amp;c.,

W. WILKINS,

Secretary.

No. 46.

No. 46.

Mrs. Bardwell to The Secretary, Council of Education.

Sir,

"Nandamana" House, Ocean-street, Woollahra, 18 April, 1879.

In reply to your letter, dated the 9th instant, in which you inform me that the Council of Education cannot comply with my application for reappointment, but offer me a position in a country school, I beg to state that such a situation would not be acceptable to me. I intend, however, to continue the studies with which since leaving the Training School I have been principally engaged, and will in due course make application for examination for a first-class certificate, and thus prove my ability to discharge the duties of mistress of an important city school.

I have, &amp;c.,

S. M. BARDWELL.

[2s. 9d.]

## No. 1.

## Mrs. Bardwell to The Minister of Public Instruction.

Sir,

Nandamanu House, Ocean-street, Woollahra, 31 August, 1881.

I have the honor to request that the accompanying documents may be considered in dealing with the complaints brought against me by Mr. Rooney and others, viz. :—

1. Evidence in contradiction of Miss Booth's statement.
2. Evidence in contradiction of Miss M'Limont's statement.
3. Evidence as to performance of play-ground duty.

I have, &c.,  
S. M. BARDWELL.

## [Enclosures.]

*Evidence of girls belonging to the classes near which I was standing when I am said to have used the expression attributed to me by Miss Booth, the girls of which classes, it was said, must have heard me.—S. M. Bardwell.*

Sir,

16 June, 1881.

I was here on the occasion that Mrs. M'Taggart made the charge against the girls in Crown-street School that the girls endangered the lives of the infants; Miss Booth said that Mrs. Bardwell used that expression; I was in the room at the time when Mrs. Bardwell was telling us, and I can positively say that she used no such phrase.

Witness—S. F. BETTERIDGE.

MARTHA DAVIES.

I was present the day when Mrs. Bardwell told us of Mrs. M'Taggart's accusation of knocking down the infants, and I never heard her use the expression Miss Booth has attributed to her.

Witness—S. F. BETTERIDGE.

Crown-street Public School, 17 June, 1881.

ADA BOOTH, Fifth Class.

I, THE undersigned, was present the day Mrs. Bardwell told us of Mrs. M'Taggart's accusation about killing her infants, and I never heard Mrs. Bardwell use that expression Miss Booth attributed to her.

Witness—S. F. BETTERIDGE.

Crown-street Public School, 17 June, 1881.

JANET A. TELFER, Fifth Class.

Sir,

On the occasion of Mrs. M'Taggart's complaining of the rude behaviour of the Crown-street girls seriously endangering the life of the infants, Miss Booth said that Madame Bardwell (in telling the girls) used the expression.

I was in the room at the time when Madame B. was telling us, and I am positive that she used no such phrase. If she had I should most assuredly have heard it.

ALICE TOTTERDELL.

I NEVER heard Madame use the expression attributed to her by Miss Booth.

Witness—S. F. BETTERIDGE.

Crown-street Public School, 17 June, 1881.

ELLEN PETRIE, Fifth Class.

I, the undersigned, was present on the day that Mrs. Bardwell spoke of the accusation made by Mrs. M'Taggart, but did not hear her use the bad language that was attributed to her by Miss Booth.

Witness—S. F. BETTERIDGE.

17 June, 1881, Crown-street Public School.

AMY SMALL, Fifth Class.

I, ROSE Roberts, was present on the day that Mrs. Bardwell told us of Mrs. M'Taggart accusing us of killing the infants, and I never heard Madam use the expression that Miss Booth said she did.

Witness—S. F. BETTERIDGE.

Sydney, 17 June, 1881.

R. R.

I WAS present on the day when Mrs. Bardwell told us of Mrs. M'Taggart accusing us of killing the infants, and I never heard any such expression as Miss Booth attributed to her.

Witness—S. F. BETTERIDGE.

17 June, 1881.

JESSIE BREWSTER, Fifth Class.

I WAS present the day Mrs. Bardwell spoke about Mrs. M'Taggart accusing us of killing the infants, and I did not hear the expression which Miss Booth attributed to Mrs. Bardwell.

Witness—S. F. BETTERIDGE.

Crown-street Public School, 17 June, 1881.

ETHEL COLLINS, Fifth Class.

I NEVER heard Mrs. Bardwell use the language Miss Booth complained of.

Witness—S. F. BETTERIDGE.

Crown-street Public School, 17 June, 1881.

LENA GEHDE, Fifth Class.

I WAS present on the day that Mrs. Bardwell told us of the accusation made by Mrs. M'Taggart to the effect of killing her infants, but did not hear her use any bad language that was attributed to her by Miss Booth.

Witness—S. F. BETTERIDGE.

Crown-street P. School, 17 June, 1881.

ALICE BURNEY, Fifth Class.

I WAS at school the day that Miss Booth accused Mrs. Bardwell of using an improper expression, and I never heard it.

Witness—S. F. BETTERIDGE.

Public School, Crown-street, 17 June, 1881.

ROSENIA BLANCHE BOWMAKER, Fifth Class.

I WAS here the day Mrs. Bardwell told us of Mrs. M'Taggart accusing us of killing the infants, and I never heard her use the expression Miss Booth accused her of.

Witness—S. F. BETTERIDGE.

17 June, 1881.

LIZZIE COX.

Crown-

Crown-street Public School, 16 June, 1881.  
I WAS at school the day when Mrs. Bardwell was accused of using the expression charged with, and I declare I never heard it.

Witness—S. F. BETTERIDGE.

ADA PATERSON, Fifth Class.

Crown-street Public School, 17 June, 1881.  
I WAS present on the day that Mrs. Bardwell spoke of the accusation made by Mrs. M'Taggart, but did not hear her use the bad language that was attributed to her by Miss Booth.

Witness—S. F. BETTERIDGE.

ADA SMITHERS, Fifth Class.

*Evidence of girls belonging to the classes near which I was standing when I am said to have used the action attributed to me by Miss M'Lymont.—S. M. Bardwell.*

I WAS present the day Miss M'Lymont left, but I did not see Madame shake her hand at her.

Witness—E. C. HALL.

SUSAN YOUNG.

Sir,

I was present the day of Miss M'Lymont's leaving, and I did not see Mrs. Bardwell shake her hand in Miss M'Lymont's face.

Witness—E. C. HALL.

EDITH M. BROWNE.

I WAS present at school the morning of Miss M'Lymont's leaving, but I did not see Mrs. Bardwell shake her fist in Miss M'Lymont's face.

Witness—E. C. HALL.

Witness—E. C. HALL.

ALICE WOODWARD.

I WAS present on the day Miss M'Lymont left, and I did not see Mrs. Bardwell shaking her hand at Miss M'Lymont.

Witness—E. C. HALL.

ANNIE DANBY.

THIS is to certify that I never saw Mrs. Bardwell shake her hand at Miss M'Lymont.

Witness—E. C. HALL.

JESSIE PALMER.

I WAS present on the day that Miss M'Lymont and Mrs. Bardwell were talking together, and I never saw Mrs. Bardwell shake her fist at Miss M'Lymont—this was the day she left.

Witness—S. F. BETTERIDGE.

S. HADDEN.

I WAS present the day that Miss M'Lymont left, and I did not see Mrs. Bardwell shake her closed hand in Miss M'Lymont's face.

Witness—E. C. HALL.

ELLEN KENNY.

I WAS present, but did not notice Mrs. Bardwell shake her hand at Miss M'Lymont's face on the day she left.

Witness—E. C. HALL.

NINA PHELAN.

I WAS present the day Miss M'Lymont left, but I did not see Mrs. Bardwell shake her hand in Miss M'Lymont's face.

Witness—E. C. HALL.

MINNIE CROCKETT.

I WAS present the morning Miss M'Lymont left, but I did not see Mrs. Bardwell shake her fist in Miss M'Lymont's face.

Witness—E. C. HALL.

MABEL HARRIS.

Sir,

Sir, I was present the day Miss M'Lymont left, and Mrs. Bardwell did not shake her fist at Miss M'Lymont.  
 Witnessed by E. C. HALL. 16 June, 1881.  
 MARY MILLS.

THIS is to show that I was present the day Miss M'Lymont left, and I saw Mrs. Bardwell speaking to her, but did not see her shaking her closed hand.  
 Witness—E. C. HALL. BESSIE MORGAN.

THIS is to certify that I never saw Mrs. Bardwell shake her hand at Miss M'Lymont's face.  
 Witness—E. C. HALL. MAGGIE EARLE.

I WAS here the day Miss M'Lymont left, but I did not see Mrs. Bardwell shake her hand at Miss M'Lymont, only her finger.  
 Witness—E. C. HALL. FANNY WHITE.

I WAS present on the day Mrs. Bardwell and Miss M'Lymont were talking together, but I never saw Mrs. Bardwell shake her fist at Miss M'Lymont; and that was the day she left.  
 Witness—S. F. BETTERIDGE. LILY COLLINS.

I WAS present the day that Miss M'Lymont left, and I did not see Mrs. Bardwell shake her closed hand in Miss M'Lymont's face.  
 Witness—E. C. HALL. RUTH SALMON.

Sir, This is to certify that I did not see Mrs. Bardwell shake her hand at Miss M'Lymont.  
 Witness—E. C. HALL. 16 June, 1881.  
 POLLIE BENNETT.

*Evidence as to performance of Playground duty.*

I, THE undersigned, say that always when I have been here at dinner-time I have seen Miss Sullivan on the playground.  
 Witness—S. F. BETTERIDGE. Crown-street Public School, 16 June, 1881.  
 M. DAVISON, Fifth Class.

I HAVE seen Miss Sullivan on the playground during dinner-time regularly every day, whenever I have been present.  
 Witnessed—S. F. BETTERIDGE. Public School, Crown-street, 16 June, 1881.  
 LENA GEHDE, Fifth Class.

I HAVE seen Miss Sullivan on the playground at dinner-time whenever I have been here.  
 Witnessed—S. F. BETTERIDGE. DORA A. WRIGHT, Public School, Crown-street.  
 16 June, 1881.

I HAVE seen Miss Sullivan on the playground at dinner-time regularly every day, when I have been here.  
 Witnessed—S. F. BETTERIDGE. Public School, Crown-street, 16 June, 1881.  
 ANNIE MATHESON, Fifth Class.

I HAVE seen Miss Sullivan on the playground at dinner-time when I have been present.  
 Witnessed—S. F. BETTERIDGE. Crown-street Public School, 16 June, 1881.  
 ELLEN PETRIE.

ON my arrival at school after lunch, at about twenty minutes to 2 o'clock, I always see Miss Sullivan on the playground.  
 Witnessed—S. F. BETTERIDGE. 16 June, 1881.  
 AMY GRACE, Fifth Class.

I HAVE seen and spoken to, at lunch-time, Miss Sullivan, and to my belief she is always at her post.  
 Witnessed—S. F. BETTERIDGE. Crown-street Public School, 16 June, 1881.  
 ADA PATERSON, Fifth Class.

Sir, This is to certify that I have seen Miss Sullivan on the playground between 1 and 2 o'clock every day.  
 Witness—S. F. BETTERIDGE. 16 June, 1881.  
 E. DAVIES.

I HAVE seen Miss Sullivan on the playground of a morning and dinner-time, whenever I have been present.  
 Witnessed—S. F. BETTERIDGE. Public School, Crown-street, 16 June, 1881.  
 EMILY HOLLOWAY, Fifth Class.

Sir, This is to certify that I have seen Miss Sullivan on the playground between half-past 1 and 2 o'clock every day.  
 Witnessed by me—S. F. BETTERIDGE. 16 June, 1881.  
 LILLY CUNNEEN.

I HAVE seen Miss Sullivan on the playground regularly every day at dinner-time and play-time when I have been present.  
 Witnessed—S. F. BETTERIDGE. Public School, Crown-street, 16 June, 1881.  
 E. COLLINS, Fifth Class.

I HAVE always seen Miss Sullivan on the playground at dinner-time when I have been present and have spoken to her.  
 Witnessed—S. F. BETTERIDGE. LYDIA ROWE, Fifth Class.

I HAVE seen Miss Sullivan on the playground in the morning before school and at play-time and at dinner-hour.  
 Witnessed—S. F. BETTERIDGE. Public School, Crown-street, 16 June, 1881.  
 ELIZABETH PRIESTLY, Fifth Class.

I HAVE seen Miss Sullivan on the playground always at dinner-time when I have been at school.  
 Witness—S. F. BETTERIDGE. 16 June, 1881.  
 LIZZIE COX, Fifth Class.

Sir,

Sir, This is to certify that I have seen Miss Sullivan on duty on the play-ground during the period of about from half-past 1 to 2 o'clock every day. 16 June, 1881.  
Witnessed by me—S. F. BETTERIDGE. JANE CORBEN.

I HAVE always seen Miss Sullivan on duty in the playground at dinner-time, and have spoken to her. Crown-street Public School, 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. ETHEL PHILLIPS, Fifth Class.

I HAVE always seen Miss Sullivan on the play-ground when I come at  $\frac{1}{4}$  to 2 o'clock. Crown-street Public School, 15 June, 1881.  
Witnessed—S. F. BETTERIDGE. MAGGIE THOMSON, Fifth Class.

I HAVE seen Miss Sullivan on the playground at dinner-time when I have been here. Public School, Crown-street, 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. KATIE E. CUMMINGS.

Sir, This is to certify that I have seen Miss Sullivan on duty in the playground from half-past 1 to 2 o'clock every day. 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. EVA WETHERED.

WHENEVER I am at school during dinner-hour I have always seen Miss Sullivan on duty in the playground. Crown-street Public School, 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. ELIZABETH STEDMAN, Fifth Class.

I HAVE seen Miss Sullivan on the playground at luncheon and recess time. Crown-street Public School, 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. ROSE ROBERTS, Fifth Class.

WHENEVER I have been in the playground at dinner-time I have seen Miss Sullivan there. Crown-street Public School, 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. CONSTANCE TAYLOR, Fifth Class.

Sir, This is to certify that I have seen Miss Sullivan in the playground between 1 and 2 o'clock every day. 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. ALICE EDWARDS.

I HAVE frequently seen Miss Sullivan on duty at dinner-time in the playground. 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. FLORENCE MARKS, Fifth Class.

I HAVE seen Miss Sullivan in the playground on duty at dinner-time every time I have been present. Crown-street Public School, 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. J. REID, Fifth Class.

I HAVE always been here dinner-time, and always seen Miss Sullivan on the playground. 16 June, 1881.  
Witnessed—S. F. BETTERIDGE. DINAH COLLINS, Fifth Class.

I HAVE seen Miss Sullivan on playground duty when I am here. Crown-street, 16 June.  
Witnessed—S. F. BETTERIDGE. JANET TELFER, Fifth Class.

THE whole Fifth Class present on the day mentioned by Miss Booth deny that Mrs. Bardwell used the expression about "hell-fire." Alice Burney, Ada Smithers, Ethel Collins, Rose Roberts, Ada Booth, and several others may be called; also some of the Upper Fourth Class. K. Cummings also was present.

MARY SULLIVAN.

## No. 2.

### Mrs. Bardwell to The Minister of Public Instruction.

Sir, Nandamanu House, Ocean-street, Woollahra, 1 September, 1881.  
As it has been said that my private school was a failure, and that I benefited by entering the Public Service, I have the honor to request permission to lay before you the receipts from my private school during the two years of its existence, and also the amount received by me in the Government Service from the time the Council of Education did me the honor to appoint me, in April, 1878, up to the present time. By these two accounts it will be seen that I have lost considerably in a pecuniary point of view by entering the Public Service, not to speak of the injury done thereby to my health and character.

I have, &c.,  
S. M. BARDWELL.

## Mrs. Bardwell to The Minister of Public Instruction.

Sir,

Nandamanu House, Ocean-street, Woollahra, 1 September, 1881.

As my capacity to hold the position of Mistress of a Public School has been called in question, I beg you will consider the accompanying letters from Sir Charles Gavan Duffy, late Speaker of the Legislative Assembly of Victoria; Mrs. Lane, widow of an officer in the Public Service, whose daughters I educated at my private College, Woollahra; Arthur Griffiths, Esq., whom I taught music after he had learned it several years from others; Henry Britton, Esq., of the *Argus*; and a letter to Sir Henry Parkes, from David Blair, Esq., of Melbourne.

I request that Miss Sullivan, the First Assistant in the Girls' School at Crown-street, may be called to testify as to my ability as a teacher, and also some of the girls of the Fifth Class, many of whom have now become pupil-teachers. In short, every teacher who has seen me teach would testify as to my efficiency in that art, were it not that they are afraid of Mr. Wright and his agents, who, they believe, have power to affect their certificates, and therein their future welfare. I have endeavoured to induce the teachers of the Girls' School at Crown-street to teach the physical sciences as object lessons, with a view to the development of the girls' minds by lessons in which there is consecutive reasoning, instead of the usual mode in the schools of jumping from a kangaroo to starch, or such like disconnected subjects. For this innovation also they desire to crush me, and Mr. Rooney was never tired of ridiculing the method I taught the teachers to adopt in teaching these lessons to their classes. The day will come, however, when the physical sciences will be generally taught in the Public Schools, and I beg that the method I have initiated in teaching such lessons may be investigated, so as to see if it be worthy of Mr. Rooney's ridicule.

I have, &amp;c.,

S. M. BARDWELL.

## [Enclosures.]

Dear Madam,

Parliament, 19 April.

I regret to say that I cannot be of any service in the way you suggest; that the Speaker is prohibited by his position from interfering in questions of patronage, or asking favours of Ministers. Had I the appointment in the Department of Public Instruction to dispose of, I would be glad to secure a lady of your capacity and culture for the Public Service.

Mrs. Bardwell.

Believe me, &amp;c.,

C. G. DUFFY.

My dear Sir Henry,

Melbourne, 4 November, 1879.

Allow me to have the pleasure of introducing to you a very old and dear friend, Mrs. Bardwell. I have always held her in high esteem as a lady of very superior intellectual qualifications and true refinement. I learn from her that she has something of a complaint to make respecting her treatment at your Training School. I am quite certain that she has right on her side, and equally so that, simply in the interests of justice, you will see her righted, as you have the power.

The Honorable Sir Henry Parkes.

Believe me, &amp;c.,

DAVID BLAIR.

York House, Victoria Parade, Melbourne, 12 November, 1879.

I HAVE much pleasure in certifying that I have known Mrs. Bardwell for some ten years; that she is a lady of high character, as well as of refinement and culture; that she has linguistic gifts, being a good French and German scholar; that she also has a sound knowledge of music, and that she is peculiarly fitted to be the guardian and instructress of young ladies.

H. BRITTON.

Dawes Point, 5 May, 1880.

I HAVE had the pleasure of Mrs. Bardwell's acquaintance for more than four years, and have found her a refined and a very highly-educated lady. My daughters were educated in her school for more than two years, and made more progress during that time than for the several years they had previously been educated. I was very sorry indeed when Mrs. Bardwell gave up her school, for had they been with her one more year, they would have derived incalculable benefit from her admirable system of teaching.

MARY LANE.

To

To Mrs. Bardwell, Wynward Square.

Madam,

Woollahra, 13 November, 1879.

I having been a pupil of yours for some twelve months, or thereabouts, think it my duty to write to you thanking you for your kind endeavours to force me forward in music, while you at the same time took great care that I perfectly understood what I was going through. I improved a great deal more in the time that I was with you than I have done with any other music teacher. I must say that I like your system of teaching very well, as it so enforces a person's mind that it will not be easily forgotten. I was sorry that you left Woollahra when you did, thus preventing me from taking any more lessons from you, for I am sure I should not have left off taking lessons from you when I did, had you stayed in this locality. Trusting that you are enjoying good health,—I am, &c.,

ARTHUR D. GRIFFITHS.

#### No. 4.

### The Under Secretary of Public Instruction to Mr. J. P. Rooney.

Sir,

Department of Public Instruction, Sydney, 7 September, 1881.

I am directed by the Minister of Public Instruction to acquaint you that he has received your letter of the 12th August last, in which you request that certain statements contained therein may be considered, and further ask that, on account of your length of service, the decision to remove you from your temporary position in the Crown-street School may be reconsidered. You also appeal to the printed "Instructions to Principal Teachers" to show that you were warranted in making the charges against the Mistress of the Girls' Department, which led to that decision.

2. The charges in question, five in number, are thus described in your original letter of complaint:—

1. Violating the regulations.
2. Not attending to instructions.
3. Instigating subordinate teachers to disobey the Chief Inspector and the Head Master.
4. Absenting herself from duty.
5. General bad management of the Girls' Department.

3. It was in reference to the last of these charges that Sir John Robertson stated his opinion that the complaint relates to matters with which it was the special province of the Inspector to deal, and in which your interference was wholly uncalled for. You state that, in making that complaint, you were warranted by the terms of "Instruction 6," which provides that a "Principal Teacher will see that all the Teachers under his supervision conform to the rules and regulations, and will report all cases of misconduct or inefficiency occurring among the subordinate teachers." This Instruction, so far as it requires the Principal Teachers to report, refers to subordinate teachers only, which Head of Departments clearly are not, and they have never been so ranked. Their competency must be judged by their superior officers, the Inspectors, whose duty it is to ascertain, by inspection of schools and examination of pupils, whether the teachers in charge are inefficient, and if so, to recommend such steps to be taken as, under the circumstances, may be required.

4. The Chief Inspector and his assistant reported that the charges were not substantiated. You were, therefore, responsible for the waste of time and derangement of school business caused by the inquiry being held.

5. With respect to the allusion to indelicacy, I am to point out that, as the woman employed by you to keep the school premises clean was, at that time, under your direct control, it was open to you to cause her to remove the filth from the seats of the water-closets.

I have, &c.,  
W. WILKINS,  
Under Secretary.

1881.

## LEGISLATIVE ASSEMBLY.

## NEW SOUTH WALES.

## EDUCATION.

(MRS. BARDWELL, PUBLIC SCHOOL TEACHER—PAPER RESPECTING.)

*Ordered by the Legislative Assembly to be printed, 7 October, 1881.**[Laid upon Table in accordance with promise made in answer to Question 11, Votes No. 56, Friday, 7 October, 1881.]*

## 12. MR. MELVILLE to ask THE COLONIAL SECRETARY,—

- (1.) Did Mrs. Bardwell undergo the preliminary examination for admission to the Training School during the year 1876, and what was the result of same?
- (2.) Was Mrs. Bardwell afterwards admitted a month on trial to the Training School; if so, upon whose authority, and what were the reasons assigned for such admission?
- (3.) Was any report made by any of the officers of the Training Department on the termination of the month's trial; if so, of what nature?
- (4.) What date did Mrs. Bardwell gain classification I.B.?
- (5.) What was the nature of the Examiner's report on the recommendation for classification I.B.?
- (6.) What are the names of the Examiners who gave Mrs. Bardwell the marks for German and French, and what was the nature of their report in each case?
- (7.) With regard to the statements made by little girls contained in the additional papers laid upon the Table of the House, rebutting certain evidence given at a previous inquiry,—Was any officer of the Department present when such statements were made?
- (8.) Who were Mrs. Bardwell's sureties or bondsmen when she entered the Training Room?
- (9.) Did Mrs. Bardwell refund any of the money received by her as salary while in training, upon her not completing the terms of her bond?
- (10.) Will the Colonial Secretary lay upon the Table of the House the examination papers of Mrs. Bardwell previous to her entering the Training School in 1876?

## REPLY.

- (1.) I presume the Honorable Member has mistaken the year. In 1875 Mrs. Bardwell did undergo such examination, but was not considered eligible for admission.
- (2.) Yes; upon the authority of the Council of Education, Mrs. Bardwell having applied by letter and pleaded her nervous condition and delicate health at the time of examination.
- (3.) Yes; on 12th February, 1876, the Training Master reported that Mrs. Bardwell was possessed of very fair general information, and had made fair improvement in all subjects during her probation; and further recommended that, on account of her diligence and general information, she should be accepted as a candidate. On 18th February, 1876, the Inspector, Mr. E. Johnson, reported that Mrs. Bardwell possessed fair intelligence and general information, and that she was diligently studious, and under the circumstances had made reasonable progress. He recommended that she be allowed to attend the Training School for the remainder of the session.
- (4.) On 29th September, 1879.
- (5.) The Examiner, Mr. Forbes, reported as follows:—  
 "I certify that the attainments and practical skill of Mrs. Bardwell reach the limit (very good) required to entitle her to promotion to Class I Section B. Spelling defective."  
 "A. L. FORBES,  
 "Assistant Examiner."
- (6.) The gentleman who gave marks for the German paper was Mr. A. K. Farrar, who states:—  
 "I assess value of paper at 650—700 marks out of 1,000."  
 The gentleman who gave marks for French was Mr. James G. Davis, who states—"I would award 750 marks, the maximum being 1,000."  
 These estimates have reference to the written examination only, leaving out the question as to ability to speak French and German.
- (7.) No officer of the Department, other than Teachers, was present.
- (8.) Thomas W. Bowden and Samuel Thompson.
- (9.) Yes; £20, the whole amount paid to her.
- (10.) I doubt the propriety of the Minister laying examination papers on the Table of the House.

1881.

(CROWN-STREET PUBLIC SCHOOL—FURTHER PAPERS.)

*Ordered by the Legislative Assembly to be printed, 21 September, 1881.*

Complaint preferred against Mr. Drill-Instructor Lees  
by Mr. J. P. Rooney, Teacher in charge of Superior  
Public School, Crown-street.

NO.	SCHEDULE.	PAGE.
1.	Mr. J. P. Rooney to Mr. Inspector W. Dwyer. 1 December, 1880.....	1
2.	Mr. Inspector Dwyer's report on complaint, together with evidence adduced at inquiry; also memoranda of District Inspector and Chief Inspector. 7 February, 1881 .....	2

## No. 1.

## Mr. J. P. Rooney to Mr. Inspector W. Dwyer.

Sir, Public School, Crown-street, 1 December, 1880.  
I have the honor to report to you the following cases of misconduct on the part of Mr. Drill-Instructor Lees:—

1. *Intentionally producing, or trying to produce, disorder amongst the boys.* For example:—The 5th class has drill on Tuesdays from 9.30 to 10.15 a.m. In the early part of September I requested Mr. Lees to march the class to the school at the conclusion of the drill, and not to dismiss them in the playground, as was his custom; he complied until the 1st of November, when, taking advantage of my absence from the playground, he, at 8 minutes past 10, dismissed the class by fours in different parts of the playground, thus causing a great waste of time in reassembling them, as well as violating my instructions.
2. *Talking to teachers in the playground.*—Mr. Lees is in the habit of talking to teachers in the playground, and thereby diverting them from their duties.
3. *Mr. Lees insults and degrades the boys.*—On some occasions he appears before the classes in an excessive good humour, while at other times he seems as if he was vexed with every person about him. When in the latter mood his expressions and orders are not of the most edifying kind, such as, "Open your waistcoats"—"I'll see who are the dirty fellows"—"I'll make you, on next drill day, take off your boots and socks, and I'll examine your toe-nails."
4. *Mr. Lees insulted me in presence of the 5th and upper 4th classes.*—On the 30th ultimo the absence of the second assistant prevented the first assistant or myself from continually remaining in the playground while the boys were undergoing drill. Before the ranks were formed I informed Mr. Lees of this fact. Shortly after the commencement of the drill he shouted out—"Mr. Rooney, I cannot drill these boys—they are disorderly." I told him to send the disorderly boys out of the ranks; he did not send out any during the lesson. At the conclusion he asked me had I seen a boy who complained of illness. I replied in the affirmative. Mr. Lees said—"He is a schemer." I replied—"He is not—he is suffering from neuralgia." Mr. Lees then made use of the following expressions: "All the boys are confounded schemers—I can get no good of them; I cannot drill them unless a teacher is present; the class is in a disorderly state—the whole school is so; you are not fit to keep order; I have said so to people outside; how dare you speak to me; do you know whom you are speaking to?" All this occurred in the presence of the boys.

5. *Mr. Lees wilfully infringes the Regulations.*—When I took charge of the class at the conclusion of the drill he ordered two of the pupils to leave the premises, thus causing a breach of that discipline which it is his duty to promote.

In conclusion, sir, I deny Mr. Lees' statements concerning the order of the school, and I ask you to grant me an investigation of these charges at your earliest convenience.

I have, &c.,  
JOHN P. ROONEY.

## No. 2.

## Report by Mr. Inspector Dwyer.

Memorandum of Inspector to the District Inspector.

*Crown-street Public: Complaints of Head Master against Mr. James Lees, Drill Instructor, in a letter dated 1st December last.*

These complaints are as follow:—

1. Intentionally producing or trying to produce disorder amongst the boys.—Denied.
2. Talking to teachers in the playground.—Denied, except as regards official matters.
3. Insulting and degrading the boys.—Denied.
4. Insulting Head Master in presence of the 5th and upper 4th class.—Denied.
5. Wilfully infringing the Regulations.—Denied, as a whole. Admitted having sent his own sons home for fear of unpleasantness.

Respecting the first complaint: Mr. Rooney takes upon himself to decide that Mr. Lees intentionally produced or tried to produce disorder among the boys, from the fact that he requested him not to dismiss them in the playground, though after it occurred he did not further allude to it. The evidence of the first assistant, who was called by Mr. Rooney, points to the fact that disorder arose from the practice complained of, but does not attribute any intention to Mr. Lees, though not showing whether he was acting in harmony with Mr. Rooney or not. Mr. Hooworth made no mention of the disorder to Mr. Lees. Mr. M'Diarmid, pupil-teacher, attributes no intention of producing disorder to Mr. Lees, but heard him make remarks which made the boys laugh, such as "The boy with the hump on his back, fall out"—"the boy with his sister's hair on, fall out." Three other witnesses (5th class boys) stated that they never know Mr. Lees intentionally to produce or try to produce disorder. These were called by Mr. Rooney.

I think the charge of intentionally producing disorder may be dismissed as not a matter of fact, and therefore incapable of proof.

As regards the second charge, Mr. M'Diarmid states that four teachers, himself included, had a conversation with Mr. Lees in the playground, not in reference to the school at all, but in reference to the late champion boat-race in London. It did not last more than a minute or two.

I consider this a very trivial charge, and unworthy of serious consideration.

On the third charge the evidence discloses that no boy complained to Mr. Rooney about the remarks attributed to Mr. Lees as insulting and degrading to the boys; and it is not at all certain that Mr. Lees gave the alleged order—"Open your waistcoats"—as an order at all. These words, and the others about taking off boots, &c., appear to have been made use of, but it does not appear that they were seriously uttered. If, however, they were called for by circumstances, I do not see anything insulting or degrading in them. It appears that Mr. Hooworth said nothing about them to Mr. Lees, and all the boys examined testify that he never degraded or insulted them. I am therefore of opinion that this charge may be regarded as not sustained by the evidence.

Respecting the fourth charge, four witnesses were called by Mr. Rooney and three by Mr. Lees. The following words, attributed to Mr. Lees, viz., "All the boys are schemers—I can get no good of them—The whole school is so disorderly—I have said so outside—You cannot keep order"—were not remembered by three of the boys on Mr. Rooney's side. One heard him say, "You cannot keep order;" and "How dare you speak to me!" and three heard him say, "Do you know whom you are speaking to?" Two of these boys did not consider Mr. Lees' manner towards Mr. Rooney disrespectful. One declined to give any opinion on the matter. One of Mr. Lees' witnesses considered his conduct disrespectful to Mr. Rooney; one did not; and another would rather not say what he thought about it.

On this point it would seem that there was a want of prudent circumspection in both parties, Mr. Lees appearing really to complain of, while purporting to report the disorder, and Mr. Rooney retorting in a tone of equal warmth; so that, in view of the disputants, it is not surprising if the boys became more noisy and disorderly than usual. It is here, I think, that Mr. Lees acted indiscreetly in addressing Mr. Rooney in a querulous manner in presence of the boys,—a proceeding which appears to have precipitated the whole unseemly outburst of passion.

The fifth charge is based on the fact of Mr. Lees having sent his two sons away from the school after the scene before the pupils; but as, in sending them away, he only exercised his right as a parent, I do not see that he is guilty of infringing the Regulations.

Reviewing the whole, I am of opinion that, while charges 1, 2, 3, and 5, may be dismissed as not sustained by evidence, Mr. Lees must be held responsible for having improperly and inopportunistically addressed Mr. Rooney on the subject of disorder, in presence of the classes under drill. I would therefore suggest that Mr. Lees be informed accordingly, and requested to guard against the recurrence of any similar proceeding for the future.

Sydney, 7 Feby., 1881.

WM. DWYER,  
Inspector.B.C., Chief Inspector.—I concur with the Inspector's recommendation.—J.M.C., 10/2/81.  
Under Secretary. Approved.—E.J., B.C., 12/2/81.

## Evidence.

*Crown-street Public: Head Master's complaints against Mr. Lees, 25/1/81.*1.—*Intentionally producing or trying to produce disorder amongst the boys.*

Denied.—JOHN P. ROONEY, Head Master.

*To me:* I told Mr. Lees that I did not wish the boys to be dismissed in the playground; he had done so five or six times previously; I considered his non-observance of my directions about dismissing the boys was intentional, and that it produced disorder; I did not mention anything about this disorder to Mr. Lees.

*To Mr. Lees:* I did not report you at the time of the alleged misconduct because I had some doubts whether your motives were intentional or not.

JOHN P. ROONEY.

James

James W. E. Hooworth, 1st assistant.

*To Mr. Rooney*: When I came here first, in August last, I noticed that the boys were dismissed from drill in the playground; you or I had to re-assemble them; I remember that you remarked to me that such was a disorderly habit, and that you gave orders to have it put a stop to; it was stopped for several weeks; afterwards I remember that the same disorder again arose from the boys being dismissed in the playground.

*To Mr. Lees*: I never knew you to try to produce or to intentionally produce disorder among the boys; I can't say on what day it was that you dismissed the boys after receiving the order not to do so; I can't say whether you were ever spoken to after having dismissed the boys contrary to instructions; when I came here first the boys used to be dismissed for five minutes after the drill; I don't know that such is the practice in other schools.

*To Mr. Rooney*: I did not think so much of Mr. Lees' motive in dismissing the boys as of the trouble of getting them together again on that day; I would rather not say whether I think Mr. Lees was acting in harmony with you or not.

*To Mr. Lees*: I was present when you dismissed the boys after the order was given not to dismiss them; I did not mention anything on the matter to you at the time—I did not think about speaking to you on the subject.

JAS. W. E. HOOWORTH.

Allan M'Diarmid, 16 years and 9 months old, pupil-teacher.

*To Mr. Lees*: I do not remember that you ever intentionally produced or tried to produce disorder among the boys.

*To Mr. Rooney*: I don't know anything about your order to Mr. Lees; I heard Mr. Lees call out, "The boy with the hump on his back fall out and go to Mr. Rooney," and call back on this way, "Come back—I am ashamed of you;" also, "The boy with his sister's hair on fall out"; I have noticed the boys to laugh at such remarks.

*To Mr. Lees*: I don't know the boy with "the hump" on his back; you have complained to me of disorder in my class; I replied that the class (the lower 4th) was at times very disorderly in the classroom, and that I was almost unable to manage them; I don't remember stating any reason why I was unable to manage them; Mr. Rooney did not threaten to report me for telling you about the disorder.

ALLAN M'DIARMID.

Fredk. W. King, 3rd assistant.

*To Mr. Lees*: I have never noticed you trying intentionally to produce disorder or producing disorder in this school.

*To Mr. Rooney*: I was absent from school for about four months up to 14th December last.

FREDK. W. KING.

Sydney Cathels, 14 years, a pupil of the 5th class.

*To Mr. Lees*: I never knew you intentionally producing or trying to produce disorder among the boys; I have attended this school since January last year.

SYDNEY CATHELDS.

Henry Stockham, 13 years, a pupil of the 5th class.

*To Mr. Lees*: I never knew you intentionally producing or trying to produce disorder among the boys.

*To me*: No one has said anything to me about this inquiry.

HENRY STOCKHAM.

Alfred Roberts, 13 years, a pupil of the 5th class.

*To Mr. Lees*: I never knew you intentionally producing or trying to produce disorder among the boys; you have not spoken to me about this inquiry.

A. ROBERTS.

#### SECOND CHARGE.—*Talking to Teachers in the playground.*

Admits talking to teachers on official matters; denies diverting them from their duties.

Allan M'Diarmid:—

*To Mr. Rooney*: I remember one day in November last four teachers having been in conversation with Mr. Lees in the playground; you spoke to them and said you would report them for not being at their posts; this was about a quarter past 9 o'clock; I was present at the conversation; the subject was not in reference to the discipline of the school nor on school matters at all.

*To Mr. Lees*: I don't know the exact day, but believe it was the 18th or 19th November; I don't know how long you were on the ground before Mr. Rooney came out; you are generally on the playground just before the classes fall in; on the day referred to you did not call me—I went to you.

*To me*: The subject of the conversation was the late boat-race in London; it did not last more than a minute or two.

*To Mr. Rooney*: I found no one talking to Mr. Lees when I came down from lessons.

ALLAN M'DIARMID.

Mr. Rooney here remarked that Mr. Lees had several times spoken to him on the playground. No further evidence offered in reference to this charge.

#### THIRD CHARGE.—*Mr. Lees insults and degrades the boys.*

Denied.

James W. E. Hooworth, 1st assistant.

*To Mr. Rooney*: I have heard Mr. Lees order the boys, "Undo your waistcoats," and say, "I'll make you take off your boots and socks and examine the cleanliness of your toe-nails;" I have noticed Mr. Lees being in different humours; on the day he gave the above orders he was not, in my opinion, in bad humour.

To

*To Mr. Lees:* The order to open the waistcoats was executed, but not by all the boys; and I doubt whether Mr. Lees intended it to be executed; I have heard you give lessons on cleanliness to the boys under drill.

*To me:* I think the order was given with the intention of enforcing cleanliness.

*To Mr. Lees:* I could not say when this order was given, but think it was in October; I said nothing on this matter to you at the time.

*To Mr. Rooney:* I did not think it necessary to examine so minutely into the cleanliness of the 5th and upper 4th classes.

*To me:* No boy complained to me about the order above referred to.

JAS. W. E. HOOWORTH.

Albert Dryer, 16 years old, pupil of 5th class:—

*To Mr. Rooney:* I heard Mr. Lees say he would give the order next week to the boys "to open their waistcoats and take off their boots and socks—that he would see if there were any buttons missing—that cleanliness was part of his duty"; he did not single out any boy that was dirty; I did not know of any dirty boy in the upper classes; if that order had been given I would not have obeyed it.

*To Mr. Lees:* You never insulted me—I would have known if you had; you never degraded me in any manner.

ALBERT DRYER.

John Fitzgerald, 16 years old, pupil of 5th class:—

I never heard the order from Mr. Lees, "Open your waistcoats," or the remark, "I'll make you take off your boots and socks"; I was not present at three drill lessons.

*To Mr. Lees:* You never insulted or degraded me in any manner.

JOHN FITZGERALD.

Charles Blumer, 15 years, 5th class pupil:—

*To Mr. Rooney:* I have heard the order, "Open your waistcoats," and the remark, "I'll make you take off your boots, &c."; I was in the ranks when this took place; Mr. Lees said—"Some fine day," or "next drill day," "I will take you to the lavatory or shed and take off your boots and socks, and examine your toe-nails"; I am not sure that the order to open waistcoats was given; all the boys were tidy and clean, with one or two exceptions; I have noticed that sometimes Mr. Lees is more strict than at others.

*To Mr. Lees:* The order about taking off boots, &c., was never executed; you never insulted or degraded me in any manner; you have often given my class lessons on cleanliness.

CHARLES BLUMER.

Howard Nolan, 15 years, 5th class:—

*To Mr. Rooney:* I have noticed that on some drill days Mr. Lees appeared in better humour than on others—and that he was sometimes more strict than at others; I never heard the order, "Open your waistcoats," or "I'll make you take off your boots, &c."; I was away from several drill lessons.

*To Mr. Lees:* You never insulted or degraded me in any manner; I have heard you give lessons on tidiness.

*To Mr. Rooney:* The hands and hair of the boys are examined by the teacher before the boys are sent to drill.

HOWARD NOLAN.

*Called by Mr. Lees.*

Sydney Cathels, 14 years, 5th class pupil:—

*To Mr. Lees:* I never knew you to insult or degrade me in any manner; I have heard you advising the boys to be clean.

SYDNEY CATHELDS.

Henry Stockham, 13 years, 5th class:—

*To Mr. Lees:* You have never insulted me or attempted to degrade me in any way; I heard you tell us what military men do as regards cleanliness.

HENRY STOCKHAM.

Alfred Roberts, 13 years, 5th class:—

*To Mr. Lees:* You have never insulted or degraded me in any manner; I have heard you advise the boys to be clean and tidy.

A. ROBERTS.

Edward Connolly, 15 years, 5th class pupil:—

*To Mr. Lees:* You have never insulted or degraded me in any manner; I have heard you speak of cleanliness and tidiness.

EDWARD CONNOLLY.

4TH CHARGE.—*Mr. Lees insulted me (Head Master) in presence of the 5th and Upper 4th Class.—* Denied.

Charles Blumer (the same who was previously examined):—

*To Mr. Rooney:* On the last day of Mr. Lees' attendance I remember hearing words used by you as if you were annoyed with Mr. Lees; I heard Mr. Lees say, "Do you know whom you are talking to?" I don't remember Mr. Lees saying, "All the boys are schemers—I can get no good of them"; I heard him say, "The class is in a disorderly state"; I do not remember hearing him say, "The whole school is so," and "You cannot keep order"; I don't remember Mr. Lees saying, "I have said so outside"; I don't remember any of the boys saying anything of Mr. Lees' bad temper that morning.

*To Mr. Lees:* I heard you complain to Mr. Rooney that the classes were disorderly; I did not consider Mr. Rooney's manner to you insulting on the morning referred to; I did not consider your manner to Mr. Rooney insulting.

CHARLES BLUMER.

John

John Fitzgerald (previously examined) :—

*To Mr. Rooney :* I don't remember Mr. Lees making any remarks to you on the last drill day ; After drill, I heard some talk louder and sharper than usual between Mr. Lees and yourself ; I heard Mr. Lees say " I can get no good of the boys " ; did not hear him say " I cannot drill them unless a teacher is present " ; I heard him say " The class is in a disorderly state—the whole school is so " ; I don't remember him saying " You cannot keep order," or " I have said so to people outside," or " How dare you speak to me ! " but I heard him say " Do you know whom you are talking to ? " I heard these words before the drill was over.

*To Mr. Lees :* Some of the boys were disorderly ; I don't remember your sending any boys to Mr. Rooney ; I did not consider your conduct towards Mr. Rooney that morning insulting ; I object to say whether Mr. Rooney's conduct to you was insulting or not.

JOHN FITZGERALD.

Howard Nolan (previously examined) :—

*To Mr. Rooney :* I was present on the last day of Mr. Lees' drill instruction ; I don't remember hearing Mr. Lees say " I can get no good of the boys " ; I fancy he said " I cannot drill them unless a teacher is present ; I heard Mr. Lees say " The class is in a disorderly state " ; I don't remember him saying " The whole school is so," and " You cannot keep order," but I remember him saying " Do you know whom you are talking to ? " ; I am not sure that I heard him say " How dare you speak to me ! " ;

*To Mr. Lees :* I considered your manner towards Mr. Rooney was not quite right or quite respectful.

HOWARD NOLAN.

Albert Dryer (previously examined) :—

*To Mr. Rooney :* I remember Mr. Lees saying—" I can get no good of the boys," " I cannot drill them unless a teacher is present," " The class is in a disorderly state " ; I don't remember him saying " The whole school is so " ; or " You can't keep order " ; or " I have said so to people outside," but I heard him say " How dare you speak to me ! Do you know whom you are talking to ? " ;

*To Mr. Lees :* I considered the order was about the same on that morning as when Mr. M'Cormack was here ; I heard no snapping of hammers or thumping of carbines that morning ; I was not present when the other boys were putting away their carbines.

ALBERT DRYER.

Called by Mr. Lees.

Henry Stockham (previously examined) :—

*To Mr. Lees :* I did not consider your words or manner towards Mr. Rooney on the 30th November last disrespectful or abusive ; I noticed a good deal of snapping of hammers and pounding carbines when the boys were going to put up their carbines ; heard you say to Mr. Rooney that the boys were disorderly, and that you could not manage them ; a quarrel took place between you and Mr. Rooney ; you said the boys were not so orderly as when Mr. M'Cormack was here ; I heard Mr. Rooney say to you that if you could not manage a class you ought not to have them.

HENRY STOCKHAM.

Sydney Cathels (previously examined) :—

*To Mr. Lees :* I was present at your last drill lesson ; I did not consider your manner and conduct that morning disrespectful to Mr. Rooney ; I did not think Mr. Rooney's manner and conduct to you disrespectful ; I thought the boys disorderly that morning ; the disorder consisted in their snapping the hammers, knocking the carbines, and talking.

SYDNEY CATHEL'S.

Alfred Roberts (previously examined) :—

*To Mr. Lees :* I would rather not say what I thought of your manner and conduct towards Mr. Rooney on the morning of the 30th November last ; the majority of the boys were disorderly that morning.

A. ROBERTS.

## No. 1.

## Drill Instructor Lees to Captain Strong.

Sir,

Woodstock, Glenmore Road, Paddington, 30 November, 1880.

I have the honor to bring under your notice the following facts regarding my visit to the Public School at Crown-street this forenoon to give instructions in drill, and I beg to request that you will have the goodness to bring the matter under the notice of the Department of Public Instruction at your earliest convenience.

I visited the school at 9:30 a.m. this morning, and the upper 4th and 5th classes were given to me for instruction in rifle exercises. Finding most of the boys very disorderly, I directed one of the senior pupils to request the Head Master (Mr. Rooney) to come to me for a short time, my object being to ask him to speak to the pupils with a view of effecting an improvement in their conduct. Mr. Rooney came out bareheaded; I complained to him that the boys were disorderly; he then cautioned them that if they did not obey me I was to send them into school, and "he" would make them regret it. He then left the drill ground, and I cautioned the boys that if a repetition of the disorder occurred I should certainly send the disorderly ones to the Head Master for chastisement; at the same time I appealed to their honor not to require the adoption of such stringent measures.

During the remainder of the drill they were comparatively orderly, but not inclined to work. At the end of the drill, in marching to the usual place for putting away the carbines, the disorder again became general, and especially manifested itself in snapping the hammers, and were using the carbines roughly by knocking them against the flooring-boards. The carbines being placed, the classes were reformed in order to march into school. Mr. Rooney at this juncture came out and addressed me in the following terms:—"Well, are the boys any better?" I replied,—“They were very disorderly, and that I must have a teacher with me in future during the drill.” He replied,—“In all the schools he had charge of where a drill instructor attended he never sent a teacher on the playground during the time a drill master was in charge.” Sergeant Bowman to wit, he never wanted a teacher with him, and he thought a man standing in front of a class that could not keep them orderly was not fit for his position. Adding,—“See how I can keep them in order.” He marched the classes once around the playground, and their appearance was certainly not such as to impress a looker-on with a favourable idea of the governing power of the Head Master.

He next called "a halt," and addressed the boys in my presence in the following manner:—"I always find the disorder on a Tuesday morning when Sergeant Lees visits the school. He stands in this manner (attempting in an absurd way to mimic me) with his cane under his arm, giving his blustering orders, right and left, turn to take up the carbines, which causes a great deal of disorder." Turning to myself he said—"You use unbecoming language to the boys too—you have said they had dirty toe-nails, and several of their parents have complained to me about it, and I am sorry I did not report it to the Council. I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else." I replied—"I cannot understand your abuse, Mr. Rooney; if I have done anything wrong, why not report it to the proper authorities?" It may here be added that two of my own sons, aged respectively fourteen and sixteen, were in the division, and fearing that some unpleasantness might arise in the school, in consequence of what had taken place on the playground, I requested my sons to quietly go home, for fear they might get mixed up in any further disorder.

The 4th class were then being marched out for drill, under the care of a pupil-teacher (Master M'Diarmid), who asked if I would take his class now. I replied—"You drill them this morning—I wish to see an Inspector."

I arrived at this determination owing to the uncalled for passionate language of Mr. Rooney. On further consideration, however, I determined to report the matter fully to you, in order that the facts of the case might be correctly placed before you. Regarding Mr. Rooney's reference to the "dirty toe-nails," I may explain that it is my custom occasionally to direct the attention of the boys to habits of cleanliness, and at such times I have referred to the practice of soldiers in this respect, and the care taken that the skin be thoroughly clean—even the toe-nails cared for.

Apologising for the length of this letter, and trusting that you will deal with this matter as early as possible,—

I have, &amp;c.,

JAMES LEES,  
Drill Instructor.

## No. 2.

## Drill Instructor Lees to Mr. Inspector Jones.

Sir,

Woodstock, Glenmore Road, Paddington, 1 December, 1880.

I have the honor of submitting to you my monthly report ending November 30th, of the schools visited by me for instruction in drill.

The progress for the past month is as usual satisfactory, and the boys seem to take great interest in their military exercises, except in the Crown-street Public School, where, within the past month, I have found them very disorderly, inattentive, and impossible for me to give any instruction in military drill. According to my appointment and instruction from the Under Secretary, I reported the matter to the Head Master, Mr. Rooney, who highly abused me in the presence of the pupils.

I have reported the matter officially to Captain H. W. Strong, and beg to request that he will have the goodness to bring it under the notice of the Department of Public Instruction, at his earliest convenience.

I have, &amp;c.,

JAMES LEES,  
Drill Instructor.

## No. 3.

## Captain Strong to The Under Secretary of Public Instruction.

Military Drill.—Memorandum to Under Secretary.

*Crown-street Public: Mr. Drill Instructor Lees' letter of 30th ultimo.*

For your information. The letter was received by me on the evening of the 3rd instant, after my return from Bathurst.

Cadet Office, Victoria Barracks, 4 December, 1880.

H. W. STRONG, CAPT.,  
Superintendent of Drill.

## No. 4.

## No. 4.

## Memorandum from Chief Inspector to Mr. District Inspector M'Creddie.

*Crown-street: Complaints preferred against Teacher, Mr. Rooney, by Drill Instructor Lees.*

URGENT.—This matter was referred to Mr. Inspector Dwyer on the 10th December last, for inquiry and report, but a report thereon has not yet been received at this office.

The matter has become an urgent one, owing to the length of time it has been in the hands of the Inspector, and it is therefore very desirable that steps should be taken by you to ensure the necessary report being furnished with as little further delay as possible.

E. JOHNSON,  
Chief Inspector.

Department of Public Instruction, Sydney, 1st February, 1881.

## No. 5.

## Mr. Inspector Dwyer's Report.

Memorandum of Inspector to the District Inspector.

*Crown-street Public: Complaint of Mr. James Lees, Drill Instructor, against the Head Master, in letter dated 1st December last, and in letter to Captain Strong, received on the 13th of same month.*

In this matter Mr. Rooney admits—

That he reprovved or corrected Mr. Lees on the 30th November last, by using the following expressions:—

1. "In all the schools I had charge of, where a drill instructor was employed, I never sent a teacher on the playground while the drill-master was in charge. Sergeant Bowman to wit—he never wanted a teacher with him, and a man standing in front of a class that could not keep them orderly was not fit for his position"
2. "I always find the disorder on a Tuesday morning when Sergeant Lees visits the school"
3. "You [meaning Mr. Lees] use unbecoming language to the boys too"
4. "I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else"

but denies that these constitute abuse of Mr. Lees; also that he mimicked or mocked him, or said the words, "With his cane under his arm, giving his blustrous orders, right and left, turn to take up carbines."

In support of his complaint Mr. Lees called three witnesses, 5th class pupils, against whom Mr. Rooney called only one witness, the first assistant. The evidence is hereto appended. That of two of the boys goes to show that the classes were not disorderly during drill; while that of the third shows that some were disorderly and some not. One boy considered Mr. Rooney's manner to Mr. Lees abusive; one thought it corrective, but not abusive; and the other did not hear his remarks. Mr. Hooworth, 1st assistant, says he "does not know of Mr. Rooney mimicking or mocking Mr. Lees on the 30th November last."

It appears to me that the remarks admitted to have been addressed by Mr. Rooney to Mr. Lees in the presence of the two highest classes were wholly uncalled for, and out of keeping with the character of a Head Master. Mr. Lees dismissed the boys contrary to Mr. Rooney's directions; but it does not appear that he was reminded of the oversight; and, such being the case, the language used is certainly unsuited to the occasion, and calculated, in my opinion, not to cure or prevent a recurrence of the evil, but to augment and intensify it, and without any show of authority, as far as I understand the mutual relations of the parties. The implication contained in the allusion to Ministers of religion and Members of Parliament seems to have no relevance to the alleged breach of discipline on the part of Mr. Lees, and can only be understood as a rather boastful exhibition of supposed superiority on the part of Mr. Rooney.

Reviewing the whole matter, I consider the points denied by Mr. Rooney, excepting the corrective or abusive tenor of his remarks, which are by far the lightest part of the accusation, have not been proved; while those admitted are serious, evincing as they do an unbecoming display of temper, and a very injudicious assumption and expression of authority. I would therefore suggest that Mr. Rooney be informed that he has detracted materially from the influence and efficiency of his position by his undignified outburst of temper, and requested to abstain from any similar display in future.

W. DWYER,

Inspector.

Chief Inspector. Inspector's recommendation approved.—J.M'C., 10/2/81. Under Secretary.  
Approved.—E.J., B.C., 12/2/81.

I understand that Mr. Rooney acknowledges that he said to Mr. Lees—"I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else." I think that before going further with this matter Mr. Rooney should have an opportunity to offer any explanation he may desire to make, or stand under the imputation of having insinuated that the late Council of Education, in appointing Mr. Lees, was influenced by Ministers of religion or Members of Parliament, and not by Mr. Lees' merit.—JOHN R., 19/2/81.

## Evidence.

*Crown-street Public School—Boys' Department.*

Investigation of complaints made by Mr. J. Lees, Drill Instructor, against Head Master, and *vice versa*, 20/1/81.

## 1. Mr. Lees' complaint.

That on reporting to the Head Master, on the 30th November last, certain disorder and inattention on the part of the boys, he, the Head Master, highly abused him in the presence of the pupils.

Details of this abuse are given in Mr. Lees' letter to Captain Strong, all of which was read for Mr. Rooney in the presence of Mr. Lees. Mr.

*Mr. Rooney* denied the above statement with the word "abused" in it, but admitted having "reproved" him.

Denied that any one came for him, but that he was passing to the class-room, and *Mr. Lees* called out—"These boys are disorderly."

Denied having said—"Well, are the boys any better?"

Admits having said—"In all the schools I had charge of where a drill instructor was employed, I never sent a teacher in the playground while the drill-master was in charge."

Admits having instanced Sergeant Bowman and used the words following, as far as the word "position."

Does not remember having said—"See how I can keep them in order."

Admits having said to *Mr. Lees*, in presence of the boys, the following: "I always find the disorder on a Tuesday morning when Sergeant Lees visits the school." But denies having mimicked him, or having said the words, "With his cane under his arm, giving his blustrous orders, right and left, turn to take up the carbines."

Admits having said—"You use unbecoming language to the boys too," &c.—to the word "Council," which he may or may not have made use of.

Admits having said—"I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else."

Charles Blumer, 15 years old, a pupil of 5th class:—

*To Mr. Lees*: I was present on the last morning you attended for drill instruction; I stood alongside of you, assisting in forming the classes, on that morning; I did not notice the boys disorderly during drill; you sent me to *Mr. Rooney* or *Mr. Hooworth*, to request either of them to come down to the classes under drill; I do not remember delivering the message; afterwards I heard *Mr. Rooney* address the class, and thought he spoke in stronger language than usual; I don't remember that *Mr. Rooney* came back with me to the class.

*To Mr. Rooney*: I heard snapping of the hammers of the carbines before you came to the school, and saw the carbines given out through the windows; this was the cause of the lower part of the window-frame being slightly damaged; saw the carbines passed through the window when *Mr. McCormack* and *Mr. Lees* were present, but after a time *Mr. McCormack* stopped the practice; I remember having seen boys sent to you by *Mr. Lees*, and called back before they could get to him; you have not spoken to me on the matter of this investigation.

*To Mr. Lees*: I think *Mr. Rooney* addressed the boys after the drill on the day referred to; I do not remember what he said; I believe you prevented the passing of the carbines through the windows as well as *Mr. McCormack*; on the following Tuesday *Mr. Rooney* drilled the boys himself, and said—"I'll drill you myself this morning and until another instructor is appointed, or the late drill instructor comes and apologises to me," or words to that effect.

CHARLES BLUMER.

Howard Nolan, 15 years old, a pupil of 5th class:—

*To Mr. Lees*: I was present the last drill morning you attended the school; you sent some one with a message to *Mr. Rooney*—I think it was *Master Blumer*; *Mr. Rooney* came on the ground soon after, and I think he spoke to you first; he addressed the boys about the disorder; I did not notice any difference in the order that morning from what I saw at other times; I did not hear any snapping of hammers or thumping the floors with the muskets (*Mr. Lees* put the question whether, in this boy's opinion, the order of the school has not fallen away since *Mr. McCormack* left? Disallowed on *Mr. Rooney's* objection); I did not hear *Mr. Rooney* say, "Well, are the boys any better?"; I did not hear you request *Mr. Rooney* to have a teacher on the ground during the drill; I heard *Mr. Rooney* say he would drill us himself until *Mr. Lees* came back, or another in his place, but I did not hear the word "apologise"; I would not consider *Mr. Rooney's* manner and tone of voice towards you, on the last morning you were here, abusive, but corrective.

*To Mr. Rooney*: The carbines have been passed through one window since you came to this school; you have not spoken to me on the subject of this investigation, nor has any one on your behalf.

*To Mr. Lees*: I saw *Mr. Rooney* punish a boy for having spilled ink in another boy's pocket.

HOWARD NOLAN.

Edward Connolly, 15 years, a pupil of 5th class:—

*To Mr. Lees*: I was present the last drill morning you attended here; some of the boys were disorderly and some were not; after drill I heard some snapping of the hammers and thumping the carbines on the floor when the boys were placing them on one side; I don't know whether I snapped the hammer or thumped my own carbine on the floor; I saw *Mr. Rooney* put a cane under his arm and walk away; he said something to you about persons complaining of their dirty toe-nails; I think *Mr. Rooney's* manner and words towards you that morning abusive.

*To Mr. Rooney*: I had often before heard the snapping of the hammers while the classes were in charge of *Mr. Lees*; I do not know whether your position before the class was mocking *Mr. Lees* or not; I did not hear any one say that you mocked *Mr. Lees*.

EDWARD CONNOLLY.

Called by *Mr. Rooney*.

James W. E. Hooworth, 1st assistant teacher:—

*To Mr. Rooney*: I noticed that on some occasions *Mr. Lees* was more strict with the boys than at others; I noticed the boys giving out the carbines in a disorderly manner; I understood that *Mr. Lees* had charge of the class while the carbines were being distributed; I often heard the hammers of the carbines snapped before the 30th November; I once heard *Mr. Lees* give the order, "Undo your waistcoats," or words to that effect, also say that he might take them to the shed or lavatory, and take off their boots and socks and see if their toe-nails were clean; I have heard *Mr. Lees* send a boy out of the class with directions

directions to go to Mr. Rooney or myself, and before the boy could reach either call him back; I don't remember any boys having been sent out from the drill during the month of November for punishment; I did not know of your mimicking or mocking Mr. Lees on the 30th November last; I am of opinion that the whole tone of the school is considerably raised from what it was when I first came here.

*To Mr. Lees:* I have always heard you spoken of as an efficient drill instructor; you frequently complained to me about the disorder of the classes sent to you for drill; this was particularly so after I entered on duty here, but lately these complaints are not so frequent; I never made use of the words that "I could not teach while Mr. Rooney was in the school"; but I said I could not teach satisfactorily with the noise in the room; this was when I first came.

*To Mr. Rooney:* I did not think it was proper for Mr. Lees to go to the assistants with complaints; I remember that the boys were dismissed by Mr. Lees contrary to your directions from the drill.

*To Mr. Lees:* I remember that the last-named irregularity occurred only once; I was present at the time.

JAS. W. E. HOOWORTH.

No. 6.

The Chief Inspector to Mr. Rooney.

Department of Public Instruction, Sydney, 14 March, 1881.

Memorandum from the Chief Inspector to J. P. Rooney, Esq., Teacher of the Superior Public School at Crown-street.

*Complaints preferred against you by Mr. James Lees, and counter-charges made by you against him.*

THE Minister has had under notice Mr. Inspector Dwyer's report upon his inquiry into the complaints made against you by Mr. James Lees, Drill Instructor, and the counter-charges preferred by you against Mr. Lees.

With reference thereto, I am to call your attention to the following statement which you acknowledge to have made to Mr. Lees:—"I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else."

Before going further with the matter of the charges and counter-charges, Sir John Robertson has directed me to afford you an opportunity of furnishing any explanation you may desire to make in regard to the statement quoted; otherwise you must stand under the imputation of having insinuated that the late Council of Education, in appointing Mr. Lees, was influenced by Ministers of religion or Members of Parliament, and not by a consideration of Mr. Lees' merits as a drill instructor.

E. JOHNSON,  
Chief Inspector.

No. 7.

Memorandum from Chief Inspector to Mr. District Inspector M'Creddie.

Department of Public Instruction, Sydney, 14 March, 1881.

*Crown-street: Drill Instructor Lees' complaint against Teacher, and Teacher's counter-charges.*

Your memo. of 10th ultimo on Mr. Inspector Dwyer's report upon.

THE Teacher, Mr. J. P. Rooney, has been requested to furnish any explanation he may be able to afford in regard to the following statement which he admits having addressed to Mr. Drill Instructor Lees:—"I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else." He has been informed that, in the absence of a satisfactory explanation, he must stand under the imputation of having insinuated that the late Council of Education, in appointing Mr. Lees, was influenced by Ministers of religion or Members of Parliament, and not by a consideration of Mr. Lees' merits as a drill instructor.

D. J. COOPER,  
(For Chief Inspector).

No. 8.

Mr. J. P. Rooney to The Chief Inspector.

Sir,

Superior Public School, Crown-street, 16 March, 1881.

In reply to your memorandum of the 14th instant, No. 81/1,970, inviting me to furnish an explanation of a certain statement made by me to Mr. Drill Instructor Lees, viz. :—"I did not obtain my position through Ministers of religion or Members of Parliament—I obtained it through merit and nothing else." The words actually used by me were,—“I have not obtained my position by either clerical or political influence, but by merit alone.”

I have the honor to most respectfully assert that, when using the above expressions, I had not the slightest idea that they would bear the following interpretation:—"That the late Council of Education, in appointing Mr. Lees, was influenced by Ministers of religion or Members of Parliament, and not by considerations of Mr. Lees' merits as a drill instructor.”

I was at the time under the impression that Mr. Lees had been speaking of me in a manner which led me to believe that he wished to convey the idea that I had obtained my position in some indirect way; and this impression was strengthened when, in the presence of some of my pupils, he stated that I was not fitted for the position I occupied. On the spur of the moment, I thought he meant that I had been appointed to an important office through other influence than merit. I denied that by stating that neither clerical nor political influence was ever used by or for me.

Knowing the purity of the motives by which the late Council was actuated in all its appointments, I exceedingly regret that the quotation referred to should even appear capable of an interpretation other than that I have given in this explanation.

I have, &c.,

JOHN P. ROONEY.

District Inspector M'Creddie for report. B.C., 22/3/81. Inspector Dwyer, for report. B.C. 26/3/81. District Inspector. Memo. No. 81/268. Mr. Rooney made no amendment in the expression forming the subject of this letter when read to him by me at the inquiry. As regards the reflection implied therein on the late Council, I am of opinion that his disclaimer may be taken, as he appears to have been mainly, if not wholly, swayed by anger when using the words referred to.—W.D., 13/4/81. Chief Inspector,—While accepting Mr. Rooney's disclaimer of intending any reflection on the late Council, I think he should be censured for the use of language involving such an insinuation.—J.M'C., 15/4/81. Under Secretary,—I would recommend that the original recommendation made in this case be adopted.—E.J., 22/4/81. Approved.—JOHN R., 29/4/81.

## No. 9.

## Memorandum from Chief Inspector to Mr. Rooney.

*Complaint preferred against you by Mr. Drill Instructor Lees.*

Department of Public Instruction, Sydney, 31 May, 1881.

THE Minister has had under notice Mr. Inspector Dwyer's report upon the charges preferred against you as Teacher of the above school by Drill Instructor Lees.

Having considered the evidence adduced in the case, Sir John Robertson has instructed me to point out that, by your undignified outburst of temper on the occasion complained of by Mr. Lees, you have materially detracted from the influence and efficiency of your position.

I am to express a hope that you will be careful to abstain from any similar display in future.

E. JOHNSON,  
Chief Inspector.

## Memorandum from Chief Inspector to Mr. District Inspector M'Creddie.

*Crown-street : Drill Instructor Lees' complaint against the Teacher.*

Your Memorandum of 10th February last.

Department of Public Instruction, Sydney, 31 May, 1881.

As recommended, the Teacher has been informed that, by his undignified outburst of temper on the occasion complained of by Mr. Lees, he has materially detracted from the influence and efficiency of his position. He has been urged to be careful to abstain from any similar display in future.

E. JOHNSON,  
Chief Inspector.

## Complaint against Mr. J. P. Rooney, Teacher in charge of the Superior Public School at Crown-street.

## SCHEDULE.

NO.		PAGE.
1.	Mr. Petschler to the Minister of Public Instruction, together with memoranda of Under Secretary of Public Instruction, District Inspector, Mr. Inspector Morris, Chief Inspector, and minute of Minister of Public Instruction. 25 April, 1881 .....	10
2.	Mr. Petschler to Under Secretary of Public Instruction. 30 May, 1881 .....	11
3.	Under Secretary of Public Instruction to Mr. Petschler. 11 June, 1881 .....	11

## No. 1.

## Mr. Petschler to The Minister of Public Instruction.

Sir, Sydney, 1, Clifton Reserve, off Crown-street, Surry Hills, 25 April, 1881.

I consider it my duty to make the following statement before the Hon. the Minister for Public Instruction:—

I reside at No. 1, Clifton Reserve, Crown-street, adjoining the Public School. Some weeks ago, during play-hours, a stray ball or stone, thrown from the playground, passed over the fence and broke a large pane of glass in the front window of my house. (A window was once broken before, but I took no notice of it.) I complained, in writing, to the Head Master, and he, finding out the boy that had thrown the missile, requested me to have the breakage replaced at his expense. The glazier, Mr. Mote, of Oxford-street, presented his bill of 6s. to the Head Master, which the latter refused to pay, saying in a great passion he would pay no more than 2s. 6d. I made inquiries and ascertained that 6s. for the size and quality of glass and the trouble given is by no means an overcharge.

I regard the conduct of the Master as discreditable, and not at all calculated to improve the temper and disposition of the children placed under his charge.

I have, &c.,  
C. PETSCHLER.

District

District Inspector M'Credie, for report.—E.J., B.C., 5/5/81. Inspector Morris, for report. B.C., 10/5/81.—J.M'C.

District Inspector,—Mr. Rooney says that he agreed to pay for the re-glazing of the broken window. I measured the pane and inquired at three glaziers' shops as to cost, and their testimony goes to show the value to be about 5s. I recommend that it be suggested to Mr. Rooney that it would be well for him to pay Mr. Petschler 5s. It does not appear to be necessary to command, as it seems to me almost a private matter between Mr. Rooney and Mr. Petschler with which the latter has troubled the Minister.—R. N. MORRIS, 18/5/81.

Chief Inspector,—I am of opinion that Mr. Rooney should pay the sum charged, viz., 6s., and I recommend that he should be so informed.—J.M'C. B.C., 19/5/81.

Under Secretary,—I do not think the Department should be troubled with this matter. Mr. Rooney should pay the account; if he do not, Mr. Petschler can adopt the usual mode of obtaining redress.—E.J., B.C., 20/5/81. Approved.—JOHN R., 27/5/81.

### No. 2.

Mr. Petschler to The Under Secretary of Public Instruction.

Sir, 1, Clifton Reserve, Crown-street, Surry Hills, 30 May, 1881.

I am in receipt of your letter of 2nd instant, merely acknowledging mine of 25th April. My application to the Head Master of Crown-street Public School for payment of damage to my window has been without result, although the glazier Mote, at my request, has reduced his claim to 5s.

Before I take ulterior proceedings in a Court of law, I should like to be informed whether it is the intention of the school authorities to see that justice be done to me; by so doing avoiding a public scandal.

I refer you again to my letter of above date, and remain, Sir,

Your most obedient servant,

C. PETSCHLER.

### No. 3.

The Under Secretary of Public Instruction to Mr. Petschler.

Sir, Department of Public Instruction, Sydney, 11 June, 1881.

With reference to your letter of the 30th May, concerning your claim against the Head Master of the Public School at Crown-street on account of damage to one of your windows by a pupil in the school, I am directed to acquaint you that the Minister of Public Instruction is of opinion that this Department should not be asked to interfere in a matter of the kind. If Mr. Rooney thinks proper to decline to settle your claim, it is in your power to adopt the usual mode of obtaining redress.

I have, &c.,

W. WILKINS,

Under Secretary.

1881.

## EDUCATION.

### No. 1.

Inspector O'Byrne to The Chief Inspector.

INSPECTOR'S Report upon the proposed Public School site at Bulla Creek.

Mittagong, 18 August, 1880.

1. Description of land :—2 acres, county of Monteagle, parish of Woodonga: Commencing at the south-west corner of Thos. Puxley's conditional purchase of 40 acres, transferred—Taylor; and bounded on the north by said conditional purchase of Thos. Puxley, bearing 4 chains east; on the east by Thos. Puxley's additional conditional purchase bearing 5 chains south; on the south by a line bearing west 4 chains to a point; and on the west by a line bearing 5 chains north along public road, to point of commencement.

A rough plan is enclosed.\* (\*Appended.)

2. Is the land centrally situated? Yes.
3. Is it accessible to all the residents? Yes.
4. Is its situation healthy and pleasant? Yes.
5. Is it level and otherwise suitable for building purposes? Yes.
6. Is it close to water fit for drinking? Yes.
7. If not, can water be obtained by sinking on it? Water can be obtained by sinking a few feet.
8. Is it thickly or thinly timbered? Thinly timbered.
9. Is it Crown Land, or private property? Crown Land.

G. O'BYRNE,  
Inspector.

B.C., Chief Inspector. I beg to advise that application be made to the Under Secretary for Lands for this site.—W.M., 19/8/80.

### No. 2.

The Rev. J. M. Ware to The Minister of Public Instruction.

Sir,

The Parsonage, Young, 14 October, 1880.

My attention was called yesterday to a notification copied out of the Government Gazette, that it was the intention of Government to build a school at Bulla Creek, and I was surprised to hear that a site had been decided upon without reference to me, as the correspondent who initiated the movement, or to those parents at whose request I did so.

I have the honor now to direct your attention to the following reasons, I think substantial ones, against the site proposed (as I am informed) by the Inspector, viz. :—

1. That the land is a road dedicated by the Government for the purpose, and which has for many years been in use by the public.
2. That this road, at the proposed site, lies between lands occupied by the same owner, who possesses the only permanent water available for school purposes, and who, feeling himself aggrieved (and I think not without reason) by the proposal to build a school where it will be a serious inconvenience to him, and on land which was surveyed off from the portion purchased by him for the public road, positively refuses to allow access to the water.
3. That the proposed site is and has been for a long time the habitual camping ground of waggoners, hawkers, tramps, and travellers generally, and is therefore most unsuitable for a school.
4. That although there is space for the actual school-buildings on dry ground, yet that, in a wet winter, the water almost surrounds and partially covers any space immediately adjacent, so that there is no dry thoroughfare approaching it.
5. That there is not sufficient space for either play-ground, or the small paddock so necessary in a bush school, for the horses of the children who may attend from a distance.
6. That the site is disapproved of by the majority of the parents because they have reason to believe that it has been chosen, despite its unsuitableness, by interested parties from unworthy motives; and
7. That there is within 200 yards an unexceptionable site, on dry sloping ground, surrounded by more than 30 acres of Crown Land which cannot be selected from it containing less than 40 acres, and which block of land is already fenced on three sides, so that it could easily be made into a paddock for the horses of the children, and for a horse and cow or two for the teacher.

I shall be most happy to meet the Inspector at any time, and introduce him to the parents of the children likely to attend the school, when I am very confident that he will endorse the decided opinion which I venture to express.

I have, &c.,  
J. MAITLAND WARE,  
Incumbent of St. Mark's, Bulla Creek.

### No. 3.

Inspector O'Byrne to The District Inspector.

Mittagong, 13 November, 1880.

Rev. Mr. W. Ware's letter regarding school site at Bulla Creek.

WITH reference to Mr. Ware's complaining that the site in question was chosen without reference to him, I beg to say that the first thing I did on reaching Young was to call at the Parsonage to consult the Rev. Mr. Ware with regard to the establishment of a school at Bulla Creek. Mr. Ware was then in Melbourne,

Melbourne, and not expected home for ten days ; I was, greatly to my regret, deprived of the benefit of his local knowledge and of his advice ; evidently no discourtesy was offered or meant.

I shall endeavour to deal with the statements contained in this letter as they are numbered in the paragraphs.

1. As I understand the matter, and as it was represented to me by the inhabitants, there is abundance of ground in the place selected without in any way encroaching on the public road. The additional conditional purchase of Puxley (now Taylor's) commences about 6 chains back from the road, and with that depth and an almost unlimited frontage to the road, surely a block of 2 acres can be got for a school.

2. It is true that Mr. Taylor's land bounds the proposed site on north and east, and that his homestead is on the opposite side of the road to the west ; but why he should feel aggrieved that a school should be built near him on Crown Land is more than I can understand. Should he refuse access to the spring of water alongside his fence it would be very easy to sink a few feet in the school ground, and then without doubt we should get our share of the water.

3. The statements contained in paragraph 3 prove that the site is an eligible one ; waggons, travellers, and tramps are known to have a quick eye for a good camping ground. It is presumed if this land is taken for school purposes neither waggons nor tramps will find a resting place there.

4. In my opinion the land is unobjectionable on the score of dryness. Several persons interested in the school think the site a very good one. We examined the ground twice before deciding.

5. Answered in No. 1 (see rough sketch.)

6. I do not think the site is objected to by the majority of the inhabitants, and I am certain it was not chosen from interested motives. I saw the following persons in connection with this inquiry, and all, save Mr. Taylor, were in favour of having the school at the place indicated :—Messrs. Taylor, Freudenstein, Robertson, Cox, Anderson, Summerhayes, Hepple, the schoolmaster, and Mrs. Fowler ; these, I think, represent the majority.

7. I believe the 30-acre reserve is nearly half-a-mile to the south of the site chosen, and the residents to the north would not be satisfied to have the school on this reserve. It would be entirely out of the reach of Mr. Kelly's family. Otherwise I see no objection to the 30-acre reserve as a site.

Finally, the matter stands thus : A provisional school is wanted at Bulla Creek ; I think it will, in time, merge into a Public School. The residents promised to erect and furnish suitable buildings on the site now under consideration ; they would not agree to build on the reserve mentioned in Mr. Ware's letter. On the strength of their promise I advised that application should be made for the land, and I am still of opinion I took the right course.

The school is wanted, and aid should be granted when the buildings are provided.

G. O'BYRNE,

Inspector.

B.C., Chief Inspector. As Mr. Inspector O'Byrne's report on this matter appears to me to be satisfactory, I approve of his recommendation to apply for the land.—W.M., 15/11/80. Under Secretary,—I concur.—E.J., B.C., 17/11/80. Approved.—JOHN R., 30/11/80.

#### No. 4.

The Under Secretary of Public Instruction to The Rev. J. M. Ware.

Rev. Sir, Department of Public Instruction, Sydney, 6 December, 1880.

With reference to your letter of 14th October last, pointing out that the proposed school site at Bulla Creek is not suitable, I am directed to acquaint you that a further report has been received from the Inspector, from which it appears that the site chosen near Taylor's conditional purchase is both central and suitable. The Minister for Lands has accordingly been asked to dedicate the land for Public School purposes.

2. As regards your expression of surprise that the site was selected without reference to you, I am to add that Mr. Inspector O'Byrne thus explains his action in the matter : "The first thing I did on reaching Young was to call at the Parsonage to consult Rev. Mr. Ware with regard to the establishment of a school at Bulla Creek. Mr. Ware was then in Melbourne, and not expected home for ten days. I was, greatly to my regret, deprived of the benefit of his local knowledge and his advice."

I have, &c.,

W. WILKINS,

Under Secretary.

#### No. 5.

The Under Secretary of Public Instruction to The Under Secretary for Lands.

Sir, Department of Public Instruction, Sydney, 6 December, 1880.

I am directed to request that the under-described land at Bulla Creek, parish of Woodonga, county Montecagle, may be dedicated for Public School purposes :—

Two acres, bounded on the north by Taylor's (late Thomas Puxley's) conditional purchase ; on the east by Taylor's (late Puxley's) additional conditional purchase ; and on the west by the road from Young to Gerrybane.

I have, &c.,

W. WILKINS,

Under Secretary.

#### No. 6.

Memo. from The Under Secretary of Public Instruction to The Chief Inspector.

Department of Public Instruction, Sydney, 6 December, 1880.

Bulla Creek :—Your memo. of 17th ultimo on Rev. J. M. Ware's objections to site.

MR. WARE has been informed that the site chosen adjoining Taylor's conditional purchases is considered central and suitable, and the Minister for Lands has been asked to dedicate the land for Public School purposes.

W. WILKINS,

Under Secretary.

No. 7.

## No. 7.

The Rev. J. M. Ware to The Minister of Public Instruction.

Sir,

The Parsonage, Young, 8 December, 1880.  
I have the honor to acknowledge a communication from the Under Secretary of your Department, bearing date 6th instant, and am sorry to find that without any reference to those really interested the Minister for Lands has been asked to dedicate the land at Bulla Creek for Public School purposes. The essence of my objection to the site proposed is that the land has been already dedicated to me (as one of the public) for a road, and that therefore I and every other traveller have a right, which, as far as I can understand, is inalienable (except by special Act of Parliament) to use, travel through, or camp in the site proposed for the school-house.

As there is both a population reserve and unoccupied Crown Land within 200 yards in one direction, and 500 yards in the other, I hope that you will excuse my differing most utterly from the Inspector's opinion that the site is both central and suitable, and asking you once more to allow the voice of the parents of the children who will use the school, to be heard.

I remain, &amp;c.,

J. MAITLAND WARE.

P.S.—I most cordially acknowledge that during my absence from home Mr. Inspector O'Byrne may have called upon me, but I did not hear of it; had he left any letter or memorandum I must have done so.—J.M.W.

## No. 8.

Memo. from Inspector O'Byrne to The Under Secretary of Public Instruction.

Mittagong, 4 January, 1881.

Bulla Creek: Rev. Mr. Ware's letter of 8th December, 1881.

1. The ground of objection now taken by the Rev. Mr. Ware is essentially different from those urged in his letter of 14th October; he practically concedes—

1. The question of centrality.
2. The suitability of the sites as regards dryness and size.
3. The alleged opposition of the majority of the inhabitants.

2. The point now urged is that he, as one of the travelling public, has an inalienable right to use, travel through, or camp on the proposed site,—it, as he alleges, being part of the public road. No proof has been given as to the correctness of this statement, and the people whom I saw had no idea that the land was portion of the road. One thing is certain, that there is ample scope both for the road and the school.

As I have already stated, there can be no reasonable objection to the site on the 30-acre reserve proposed by the rev. gentleman, save that it is not so central as that selected by me, and therefore is not so likely to give satisfaction to the majority of the inhabitants.

I beg to enclose two letters from a resident which will show that the people were perfectly satisfied with the action I took regarding the establishment of the school. Had they been left to carry out these arrangements a provisional school would have been in operation long ago at Bulla Creek.

G. O'BYRNE,

Inspector.

The Chief Inspector.—As it appears the site chosen is central, suitable, and approved of by the majority of the inhabitants, I see no good grounds for altering it. The objection that it has been dedicated for a camping ground will no doubt be carefully considered by the Minister for Lands. I would recommend Mr. Ware be informed accordingly, and the decision regarding the site adhered to.—W.M., B.C., 5/1/81. Under Secretary. I concur.—E.J., B.C., 13/1/81. Approved, but with the addition of a copy of both Inspectors' reports.—JOHN R., 22/1/81.

[Enclosures.]

Mr. M. Frendenstein to Inspector O'Byrne.

Dear Sir,

Ten-mile, Young, 13 November, 1880.

In reply to your favour of 10 inst., I beg to say that there is no truth in what has been said—that the majority of the residents wish the site of the school changed.

Indeed, so far as I can learn, the Rev. Mr. Ware has spoken to none of his congregation here on the subject, and the only objector to the site, so far as we know, is the party you name.

We have done nothing yet towards building, as we now wish to get a grant for a Public School right off instead of a Provisional School as first proposed.

Yours, &amp;c.,

MARTIN FRENDENSTEIN.

B.C., District Inspector. For your consideration in connection with the Bulla Creek papers. I am led to believe that Rev. Mr. Ware wrote his letter on the *ex parte* information of Mr. Taylor, who is an interested party. I am strongly of opinion that a Provisional School will meet the required wants of the place for some time to come.—G.O'B., 16/11/80.

Mr. M. Frendenstein to Inspector O'Byrne.

Dear Sir,

Bulla Creek, 15 November, 1880.

I received yours of the 10th instant, in which you state that the Rev. Mr. Ware strongly objects to the school site selected by you. I am much surprised to hear this, as the Rev. Mr. Ware has not consulted either me or Mr. Summerhayes or Mr. Sweeny, and I wish to state that the majority is in favour of the site that you selected; and I have every reason to believe that your opinion is correct as regards Mr. Taylor's influence. I am sorry to say that there is no building up. The reason is thus:—I took a subscription list round to the neighbours and collected a very fair sum, and having occasion to go to town I took the list with me. I called on Mr. W. J. Watson for a little assistance, and he told me he did not see why we should put ourselves to any expense, as we were justly entitled to a Public School, and if we left the matter to him he would do his best for us; so the affair has stood ever since, and I should like to know how much longer it will remain so; may be you could oblige

Yours, &amp;c.,

M. FRENDENSTEIN.

## No. 9.

The Under Secretary of Public Instruction to The Rev. J. M. Ware.

(D. 81-535.)

Rev. Sir,

Department of Public Instruction, Sydney, 28 January, 1881.

I am directed to acquaint you that the Minister of Public Instruction has had under notice your letter of 8th ultimo, urging further objections against the proposed school site at Bulla Creek, near Young.

2. The Minister has obtained further reports from Inspectors on the subject, from which it appears that the site chosen and applied for is central, suitable, and approved of by the majority of the residents. With regard to your objection that it has already been dedicated for other than school purposes, it is presumed that the Minister for Lands will keep that point in view when dealing with the case.

3. Under the circumstances the Minister is not prepared to depart from his former decision.

4. The Inspector's last reports\* on the subject are enclosed for your information.

\* Nos. 3 and 8.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 10.

Memo. from The Under Secretary of Public Instruction to The Chief Inspector.

Department of Public Instruction, Sydney, 28 January, 1881.

Bulla Creek: Your memo. of 13th instant on Rev. J. M. Ware's further objections to site.

THE Minister has decided to adhere to the site chosen by Mr. Inspector O'Byrne, and Mr. Ware has been informed accordingly.

W. WILKINS,

Under Secretary.

## No. 11.

The Rev. J. M. Ware to The Minister of Public Instruction.

Sir,

Young, 16 February, 1881.

I have to apologise for unavoidable delay in acknowledging communication from your office of 28th ultimo.

Will you allow me respectfully to suggest that it will tend to economy of time, temper, and tattle, if you will kindly ascertain, not only the willingness of the Secretary for Lands, but the right of the Crown, to first proclaim a public road in the Government Gazette, then grant land with frontage to that proclaimed road, and afterwards dedicate a portion of that road to other purposes.

On being assured that the Crown has this right I shall be happy to lay before you the opinion of all the parents whose children are interested, as to the suitability (or the reverse) of the site and situation for a Public School proposed by your Inspector.

I am, &c.,

J. MAITLAND WARE.

This inquiry is evidently intended for the Minister for Lands.—JOHN R. The Under Secretary for Lands, B.C., 10/3/81.—W.W.

## No. 12.

The Under Secretary of Public Instruction to The Rev. J. M. Ware.

Rev. Sir,

Department of Public Instruction, Sydney, 11 March, 1881.

In acknowledging the receipt of your letter of 16th ultimo, with reference to mine of 28th January last, No. D81-535, respecting Bulla Creek, I am directed to acquaint you that your communication has been forwarded to the Department of Lands.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 13.

District-Surveyor Twynam to The Surveyor General.

Application for dedication of School site near the Village of Bulla, county Monteagle, and objection thereto; for report, under B.C. 81-94.

THIS application is for the dedication of a site for Public School, being part of driftway reserve 1,215, notified 27th June, 1877. The position of the site selected appears to me to be fairly open to objection on the ground that it is distant only 30 chains from the village of Bulla; and surely when a school is intended to meet the requirements of a scattered population around Bulla it would be as convenient to the inhabitants generally to erect the school buildings within the village boundaries.

It would appear to be forgotten that villages are designed in suitable places for the concentration of rural settlement, which object is defeated to some extent by the erection of public buildings, as proposed in this case, just sufficiently distant to make the evasion remarkable.

It will be observed that there is an extensive settlement around the village of Bulla, which is designed at the intersection of two thoroughfares, the one being an alternative road from Young to Grenfell, the other chiefly a driftway from Bland Plains *via* Burrangong, Bulla, and Murringo towards Burrowa; thus there is reasonable prospect for village settlement, although at present the only buildings erected comprise two places of public worship, a store, and smithy.

With

With the utmost deference to the opinion of the School Inspectors, I think that sufficient weight has not been given to the facts above stated; and unless some valid argument can be advanced on their part, I submit that the Public School should be erected within the village, where there are many eligible sites.

Touching the objection raised by the Rev. J. M. Ware, viz., that the site selected having been otherwise appropriated cannot now be resumed for school purposes, I would state that I am not aware of any legal difficulty to the revocation of a part (2 acres) of the reserve for driftway, No. 1,215, should the Department of Public Instruction insist upon that site as approved by their officers. Such revocation would not materially interfere with the use and object of the driftway, and does not encroach upon and is distinct from the road to Young.

24 February, 1881.

E. TWYNAM, D.-S.

This report should probably be forwarded for the information of the Department of Public Instruction.—G. LEWIS (for Sur. Gen.), B.C., 18 March, 1881. U.S. Lands. Under Secretary of Public Instruction.—C.O. Dept. of Lands, B.C., 28/3/81.

#### No. 14.

#### Certain Residents of Bulla to W. J. Watson, Esq., M.P.

Dear Sir,

Bulla Creek, 19 March, 1881.

We are reluctantly compelled to bring under your notice the great delay in the erection of a Public School at Bulla Creek, and as we are given to understand that the Rev. J. Maitland Ware objects to the site selected by Mr. Inspector O'Byrne, we, the parents of children who will avail themselves of the benefits of this school, wish to state that the said site is the most eligible one, on account of spring water being upon it, besides its central position; that we have to request you to use your influence in urging the Government to build the Public School there with the least possible delay.

#### No. 16.

#### Mr. J. Gordon to The Minister of Public Instruction.

Sir,

Young, 1 April, 1881.

I have the honor, on behalf of the residents of the district of Bulla, to forward herewith a petition praying for the alteration of the site of the Public School-house at the village of Bulla, and have to request that the prayer of their petition may have your early and favourable consideration.

I have, &c.,

JAMES GORDON.

The Chief Inspector for report. I should be glad if you would be so good as to deal with this matter as a very urgent one.—W. W., B.C., 5 April, 1881.

[Enclosure.]

## [Enclosure.]

To the Honorable Sir John Robertson, Knight, Companion of St. Michael and St. George, a Member of the Legislative Council of New South Wales, and Minister of Public Instruction.

The petition of the undersigned residents of the district of Bulla, near Young, in the said Colony,—

Respectfully sheweth:—

That your petitioners are desirous of having the site on the main public road from Young to the village of Bulla, which has been selected to erect the Public School-house on, altered to a site situated on the village reserve.

That the village reserve is the most desirable position for the Public School, on account of its central situation with regard to the residences of your petitioners and the inhabitants who will benefit by the school, and it will be more convenient and safe for the children to attend a school built on the village reserve than it will be for them to attend a school built on the public road, where they will be liable to accidents from teams and working bullocks, travelling stock, and other traffic using the said road.

Your petitioners therefore humbly pray that you will be pleased to alter the present site on the public road to a site on the village reserve.

And your petitioners will ever pray.

## No. 17.

The Under Secretary of Public Instruction to Mr. M. Frenenstein.

Sir,

Department of Public Instruction, Sydney, 6 April, 1881.

With reference to your letter of 19th ultimo, signed by twelve others, and addressed to Mr. W. J. Watson, M.L.A., I am directed to acquaint you that on the 6th December last application was made to the Minister for Lands for the dedication, for Public School purposes, of 2 acres of land adjoining Taylor's conditional purchases at Bulla Creek, on the eastern side of the Young Road. The Rev. J. M. Ware and several residents have, however, objected to this land, and the objections are now under consideration. Mr. District-Surveyor Twynam has also reported unfavourably on the land.

2. Will you be good enough to state whether there is any building in the locality in which the school could be conducted temporarily, pending the erection of the permanent structure, which cannot be commenced until a site has been secured.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 18.

The Under Secretary of Public Instruction to W. J. Watson, Esq., M.P.

Sir,

Department of Public Instruction, Sydney, 6 April, 1881.

With reference to the letter dated 19th ultimo, addressed to you by certain residents of Bulla Creek, I am directed to acquaint you that Mr. M. Frenenstein, on behalf of the writers, has been informed that a school site adjoining Taylor's conditional purchases was applied for on the 6th December last, and that the school buildings cannot be commenced until the site has been secured. The Rev. J. M. Ware and several residents have objected to the land, and the objections are now under consideration. Mr. District-Surveyor Twynam has also reported unfavourably on the land.

2. Mr. Frenenstein has also been asked whether there is any building in the locality in which the school could be conducted temporarily, pending the erection of the permanent structure.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 19.

Mr. M. Frenenstein to The Under Secretary of Public Instruction.

Sir,

Bulla Creek, Young, 13 April, 1881.

In reply to your letter of 6th instant, which has just come to hand, I will briefly reply thereto, having reference to a school being erected here.

1.

1. Without knowing what the objections the Rev. Mr. Ware and Mr. Twynam and others have to the site suggested by us, it is impossible to reply to that portion of your letter.
2. As to whether there is a suitable building in the locality, there is but one, owned by Carlo Marina, Esq., of Moppity. We have not as yet been able to see him on the subject, to ascertain whether he would let it. It is a brick and weatherboard house, of about six rooms, well suited for temporary purposes, and sufficiently near to be available to those parents having children in the neighbourhood. The twelve parties whose names are attached to the original petition are the only persons a school would be available for, by reason that other families in the neighbourhood reside at too far a distance.
3. If the school is built on the Big Reserve it will be totally unsuitable for those having children who would attend, being too far from their homes.
4. We understand that a counter-petition is in course of being signed, and that many of the signatures thereto, namely, Fowler is 7 miles, Chew 5 miles, Webb 6 miles distant, and is signed by shepherds and others who have no children, and the children of these parties, wherever the school is built, would not benefit, whilst Taylor has no family and through whose influence the counter-petition is got up.
5. There is a very suitable place immediately opposite David Taylor's, the Water Reserve, and why not take 2 acres out of his selection where there is a permanent supply of water, which would conduce to the health and cleanliness of the children attending school.

I have, &c.,

MARTIN FRENDENSTEIN.

P.S.—The portion of land I refer to adjoins the portion of land which Mr. O'Byrne approved of, but lies on the north of that piece.

### No. 20.

Inspector O'Byrne to The District Inspector.

Crookwell, 30 April, 1881.

Bulla Creek: As to school site. Your B.C., dated 4/4/81.

FROM a perusal of Mr. District-Surveyor Twynam's report, it will be observed that there is no difficulty in the way of obtaining the school site described by me. Therefore, the Rev. Mr. Ware's objection as to previous dedication of said land for a road falls to the ground. All his other objections I respectfully submit were fully disposed of in my report on his letter addressed to the Under Secretary.

With regard to Mr. Twynam's report, I freely admit that the question is fairly and clearly discussed in it. I take no exception, and no exception can be taken, to the general principles he lays down. All things else being equal, there can be no second opinion as to the desirableness of erecting public buildings (schools) on "reserves designed in suitable places for the concentration of rural settlement." Having admitted this, I take leave to view the question from a different stand-point from that apparently taken by Mr. Twynam. No one knows better than the author of "Free Selection before Survey," that what is designed or mapped out in partially settled districts as centres of rural settlements may not become such centres until the remote future, or perhaps never. The existing, not the designed, location of the population must determine the position of the school. My knowledge of the location of the families has been gained from a house to house visitation (hasty I admit) of the persons applying for the school. Mr. Twynam's information I presume is principally derived from consulting the map of the county Montagle. The 30 chains so lightly spoken of means nearly a full mile a day extra for the children. It is not the proverbial last straw, but the last bundle.

In selecting the site in question, I was guided solely by what I had observed of the wants of the locality, and by the almost unanimous opinion of those requiring the school. I have already furnished some proofs of this unanimity. Whilst the rev. gentleman who objects merely asserts that the majority favour his views. Where are his proofs? Everyone knows how easy it is for an able and respected clergyman to secure the concurrence of his own people with his views as against the opinions of an unknown Government official. Rev. Mr. Ware has taken some pains to upset the arrangements I made with the people of Bulla Creek, and I respectfully submit that the absence of proof that the people agree with him is very strong proof that I am right.

It is I think much to be regretted that the people of Bulla Creek were not encouraged to carry out the original arrangement made with me, viz., to comply with the regulations under which Provisional Schools are aided. The greater part of the money for providing and furnishing the building had been subscribed or promised, when their action was unaccountably stopped, and I fear it will be hard to move them again.

Finally, a Provisional School is what is wanted on Bulla Creek at present. A grant of about £80 would provide a sawn slab school-house which would meet the requirements of the locality for some time to come. In partially settled districts the thing to be done is to get a school in the most convenient place at once. The question of permanent site will be the more easily determined as settlement on the land proceeds.

#### Recommendation.

I beg leave to repeat the recommendation that the site chosen be adhered to, and that aid be granted to a Provisional School when a suitable building shall have been erected on that site.

G. O'BYRNE,  
Inspector.

The Chief Inspector,—I see no reason to alter the proposed school site at Bulla Creek, and I recommend it be adhered to.—W.M., B.C., 3/5/81. Under Secretary,—I concur.—E.J., B.C., 5/5/81. Approved.—JOHN R., 23/5/81.

## No. 21.

The Under Secretary of Public Instruction to The Under Secretary for Lands.

Sir,

Department of Public Instruction, Sydney, 28 June, 1881.

With reference to your B.C. memorandum of 25th March, forwarding a report from Mr. District-Surveyor Twynam, relative to the proposed school site at Bulla Creek, and to the Rev. J. M. Ware's objections thereto, I am directed to acquaint you that the Minister of Public Instruction has caused careful inquiry to be again made into the question of the most suitable site for a school at that place.

2. It appears from reports received that under all the circumstances the site already applied for is the one best suited to the requirements of the place. Sir John Robertson has therefore decided to adhere to that site, and would be glad if the Minister for Lands would cause it to be dedicated for Public School purposes as requested in my letter of 6th December last, No. D 80-4,219, returned herewith.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 22.

The Under Secretary of Public Instruction to Mr. M. Frendenstein.

Sir,

Department of Public Instruction, Sydney, 28 June, 1881.

With reference to your letter of the 13th April last, further respecting the proposed school site at Bulla Creek, I am directed to acquaint you that the Minister of Public Instruction has decided to adhere to the site already selected, which fronts the east side of the road from Young to Jerrybang, and is bounded on the north and east by Taylor's (late Puxley's) conditional purchase and additional conditional purchase. The Minister for Lands has been asked to dedicate that site for Public School purposes.

2. With regard to the information furnished by you relative to a building for temporary use as a school, I am to inquire if you have yet ascertained whether Mr. Marina would be willing to let the house in question for school purposes, and if so on what terms.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 23.

The Under Secretary of Public Instruction to Mr. J. Gordon.

Sir,

Department of Public Instruction, Sydney, 28 June, 1881.

With reference to your letter of 1st April last, forwarding a petition from certain residents of Bulla Creek, objecting to the proposed school site at that place, I am directed to acquaint you that having caused careful inquiry to be again made into the matter, the Minister of Public Instruction has decided to adhere to the site already chosen, fronting the east side of the road from Young to Jerrybang.

I have, &c.,

W. WILKINS,

Under Secretary.

## No. 24.

Memo. from The Under Secretary of Public Instruction to The Chief Inspector.

Department of Public Instruction, Sydney, 28 June, 1881.

Bulla Creek: As to site. Your memo. of 5th ultimo.

THE Minister of Public Instruction has decided to adhere to the site already applied for for Public School purposes.

It does not appear that you have yet returned to this department the petition from residents and letter from Mr. J. Gordon relative to the site, which were referred to you on the 8th April last. Will you therefore be good enough to return those communications as soon as possible, as copies of the correspondence are required for presentation to the Legislative Assembly.

W. WILKINS,

Under Secretary.

## No. 25.

Inspector M'Credie to District Inspector Hicks.

Of the forty-nine persons whose names are attached to this petition—

4 live	10 miles from the Village Reservé.
1 lives	9 " " "
2 live	7 " " "
8 "	6 " " "
6 "	5 " " "
1 lives	4 " " "
3 live	3 " " "
3 of the petitioners are bachelors, and	
4 have no children.	

Total..... 32

Of the remaining seventeen petitioners I saw but two, Messrs. Applex and Haires, and they informed me that their names were attached to the petition without their knowledge or authority. I have grave doubts as to the genuineness of several other signatures.

The site secured by Mr. Inspector O'Byrne is the most central and suitable for the locality. It is adjacent to a never failing spring, and is less than  $\frac{1}{2}$  mile south of the reserve. The majority of the applicants for a school in this neighbourhood live on the south side of the reserve, two or three being about 2 miles distant. The furthest of the applicants on the north side is less than 2 miles from the site.

I would recommend:—

1. That the prayer of the petitioners for the alteration of the site be not granted.
2. That the site recommended by Mr. Inspector O'Byrne be approved.

J. M'CREIDIE.

B.C., 13/7/81. B.C., Chief Inspector,—I concur in Inspector M'Creddie's recommendations.—  
D.S.H. Wagga Wagga, 14 July, 1881.

---

No. 26.

The Chief Inspector to The Under Secretary of Public Instruction.

D. 81-7,567-8. THE papers in question are returned herewith. It will be perceived from Mr. Inspector James M'Creddie's report thereon that the result of his inquiries confirms the opinion that the site selected by Mr. Inspector O'Byrne is the most suitable.

B.C., 18/7/81.

E.J.

(RULES RELATING TO LEAVE OF ABSENCE TO TEACHERS.)

*Ordered by the Legislative Assembly to be printed, 9 September, 1881*

In communicating to you the following Rules which have been adopted by the Minister of Public Instruction for observance in the matter of granting leave of absence to Teachers, I have to request that, when you apply for permission to absent yourself from School duty, you will be careful to give strict attention to the directions embodied herein :—

1. Teachers seeking to obtain leave of absence must arrange for the due performance of their duties by other Teachers of the School, or by competent substitutes, to be approved of by the Inspector, and to be paid by the Teachers whose duties they perform.
2. Subject to the foregoing rule, leave of absence for one or two days may, on sufficient grounds, be granted by the Inspector to a Teacher in charge of a School, or a Department, as also to subordinate teachers.
3. One day's absence from duty on the part of an Assistant, or a Pupil-teacher, may be sanctioned by the Principal Teacher, provided that the same Assistant or Pupil-teacher may not have been previously absent during the then current School quarter : in which case application must be made to the Inspector, who should at the same time be apprised of the former absence. The Principal Teacher will be expected to keep, in the Daily Report Book, a record of the absences of the subordinate Teachers, for the information of the Inspector when visiting the School.
4. Applications for leave of absence for more than two days must be addressed to the Chief Inspector, and transmitted through the Inspector, who will note thereon his concurrence or dissent, and forward them to this Department. Applications from Pupil-teachers, and other Teachers of the School, must be endorsed by the Principal Teacher before transmission to the Inspector, and the arrangements proposed for the performance of the duties of those for whom leave of absence is sought should be clearly stated on the applications.
5. Every applicant for leave of absence will be required to state the periods (specifying dates) during which he may have been absent from duty in the preceding twelve months, and the causes of such absences.
6. If the leave applied for be granted, the Chief Inspector will notify the fact to the applicant by Memorandum, which the latter will sign and forward to the Inspector, for his information.
7. As a condition to the granting of leave of absence on account of sickness, it will be incumbent on the applicant to furnish a sufficient medical certificate of illness, showing that the nature of the complaint is such as to necessitate absence for the time asked for.
8. Subject to the foregoing rules, leave of absence on account of sickness may be granted to Teachers of all ranks for a period not exceeding one month, on full salary.
9. Extended leave, after the expiration of the first month, may be granted to Pupil-teachers without salary, to other teachers for a further period not exceeding one month, on half salary, in cases of continued illness.
10. Should additional leave be then applied for, and granted, payment of salary will be discontinued in all cases during such extension.
11. Leave of absence to Female Teachers at the time of their accouchement will be restricted to one month, on full salary, if a substitute be provided ; after that period, salary will be discontinued.
12. The Minister of Public Instruction reserves to himself the power to declare any case in which application is made for leave of absence in consequence of sickness to be a special case, and to deal with it on its merits.

I have the honor to be,

Your most obedient servant,  
E. JOHNSON,  
Chief Inspector.

EDUCATION.

(PUBLIC SCHOOL AT CARROLL—STATEMENT RESPECTING.)

---

*Ordered by the Legislative Assembly to be printed, 21 October, 1881.*

---

*[Laid upon Table, in accordance with promise made in answer to Question 7, Votes No. 64, Friday, 21 October, 1881.]*

*Question No. 7.*

7. MR. JOSEPH P. ABBOTT *to ask* THE COLONIAL SECRETARY,—

- (1.) When may I expect replies to my letters of the 11th and 20th of April last in reference to the Public School at Carroll?
- (2.) Has the attention of the Minister for Public Instruction been directed to the delays of his Department in replying to correspondence?

*Answer.*

SIR JOHN ROBERTSON desires me to state that a statement of the facts appears to him the most satisfactory mode of dealing with this question.

Mr. J. P. Abbott, M.P., wrote two letters, dated respectively the 11th and 20th April last, reporting the unfitness of the existing Public School buildings. These letters were replied to in one communication, dated 27th April last. In that letter Mr. Abbott was informed that no action had been taken to erect new buildings, but that the matter had been referred to the Chief Inspector for report. Mr. Abbott was also informed that when the report was received, and the Minister had arrived at a decision thereon, a further communication would be addressed to him.

A report was in due course received from the Chief Inspector, who recommended that new buildings be erected. This was approved of by the Minister, and the architect was instructed to prepare the necessary plans.

The further communication promised was not, however, sent to Mr. Abbott, through an oversight arising from pressure of work in the Department.

1881.

## LEGISLATIVE ASSEMBLY.

## NEW SOUTH WALES.

---

 MR. JOHN KEVIN, INSPECTOR OF PUBLIC SCHOOLS.  
 (RETURN RESPECTING.)
 

---

*Ordered by the Legislative Assembly to be printed, 4 October, 1881.*

---

*[Laid upon Table in accordance with promise made in answer to Question 3, Votes No. 53, Tuesday, 4 October, 1881.]*

## 5. MR. McCULLOCH to ask THE COLONIAL SECRETARY,—

- (1.) Has Mr. John Kevin been appointed an Inspector of Public Schools?
- (2.) What was the date of his entering the service of the Council of Education, what appointments has he held therein, and how long did he hold them respectively?
- (3.) When was he examined, and what certificates did he obtain?
- (4.) What were his qualifications for the appointment as Inspector, and by whom was he recommended for that promotion?
- (5.) Was the appointment applied for by other gentlemen in the service of higher status than Mr. Kevin?

---

 Reply :—SIR JOHN ROBERTSON desires me to state,—

- (1.) Yes.
  - (2.) 1st January, 1867, the date on which the Public Schools Act of 1866 came into force. He has held the following appointments :—
    - Assistant Teacher, St. Mary's Roman Catholic School, 1st January, 1867, to 24th October, 1869.
    - Teacher, Kent-street South Roman Catholic School, 24th October, 1869, to 31st May, 1874.
    - 1st Assistant Teacher, Fort-street Model School, 1st June, 1874, to 28th February, 1875.
    - Assistant Teacher, Training School, 1st March, 1875, to 31st December, 1878.
    - Teacher, Balmain Public School, 1st January, 1879, to 31st December, 1879.
    - Temporary Clerk in Office of Council of Education, 1st January, 1880, to 22nd August, 1880.
  - (3.) Mr. Kevin was twice examined—first in 1870, when no promotion was awarded; and secondly, in 1877, for a First-class Certificate. On this occasion promotion was at first withheld, but was subsequently granted by the Council of Education, and he was awarded a classification of 1B.
  - (4.) Mr. Kevin's qualifications were his classification by the Council of Education, his length of service, and his experience and effective work in the Model and Training Schools. The two principal officers of the Department having differed as to the choice between Mr. Kevin and a gentleman who was junior in length of service though of the same rank, I selected Mr. Kevin.
  - (5.) So far as I can learn, no application was made for the appointment of Inspector by any other gentleman in the service of higher status as regards classification and general efficiency.
-

NEW SOUTH WALES.

**PUBLIC INSTRUCTION ACT OF 1880.**

(REGULATIONS UNDER 11TH SECTION OF.)

Presented to Parliament, pursuant to Act 43 Vic. No. 23, sec. 37.

Department of Public Instruction, Sydney, 8 April, 1881.

**REGULATIONS UNDER THE 11TH SECTION OF THE PUBLIC INSTRUCTION ACT OF 1880,  
AS TO THE PAYMENT OF SCHOOL FEES.**

THE following Regulations under the Public Instruction Act of 1880, have been made by his Excellency the Governor, with the advice of the Executive Council, in accordance with the 37th section of that Act.

JOHN ROBERTSON.

**REGULATIONS AS TO THE PAYMENT OF SCHOOL FEES UNDER THE 11TH SECTION OF THE PUBLIC INSTRUCTION ACT.**

In all schools established or aided under the provisions of the Public Instruction Act :—

1. The fee payable for each child shall be three pence per week up to four children of one family, and for four or any larger number from the same family the total amount of fees shall not exceed one shilling.
2. Such fees shall be paid to the Teachers in charge on or before School closing on Friday in each week.
3. The Teachers shall demand and receive such fees, and shall record the receipt thereof at the time in the Roll Books of the Schools.
4. All sums received by Teachers as school fees shall be remitted by such Teachers respectively to the Cashier of the Department of Public Instruction, for payment into the Consolidated Revenue Fund, together with statements in the forms appended hereto marked A and B.

**PUBLIC INSTRUCTION ACT OF 1880.**
(REGULATIONS UNDER 7<sup>TH</sup> AND 18<sup>TH</sup> SECTIONS OF.)

---

 Presented to Parliament, pursuant to Act 43 Vic, No. 23, sec. 37.
 

---

Department of Public Instruction, Sydney, 16 June, 1881.

**REGULATIONS UNDER THE 7<sup>TH</sup> AND 18<sup>TH</sup> SECTIONS OF THE PUBLIC INSTRUCTION ACT OF 1880.**

THE following Regulations under the Public Instruction Act of 1880, have been made by His Excellency the Governor, with the advice of the Executive Council, in accordance with the 37th section of that Act.

JOHN ROBERTSON,

1. The general religious teaching, for which provision is made in 7th section of the Public Instruction Act shall be that contained in the Books of Lessons, including the Scripture Lessons, compiled and published under the authority of the Commissioners of National Education in Ireland, that is to say :—

- First Book of Lessons.
- Second Book of Lessons.
- Sequel No. 1 to the Second Book of Lessons.
- Sequel No. 2 to the Second Book of Lessons.
- Third Book of Lessons.
- Fourth Book of Lessons.
- Supplement to the Fourth Book of Lessons.
- Scripture Lessons, Old Testament, No. 1.
- Scripture Lessons, Old Testament, No. 2.
- Scripture Lessons, New Testament, No. 1.
- Scripture Lessons, New Testament, No. 2.

2. Such Books of Lessons and Scripture Lessons shall be read by the pupils of the various classes, as prescribed in the Course of School Instruction laid down in the Regulations.

3. If the parents or guardians of any pupil object to the reading of such Books of Lessons or Scripture Lessons by such pupil, they shall so inform the principal teacher of the school attended by such pupil; and the principal teacher upon receipt of such notification shall not require such pupil to read the said books.

---

1881.

## NEW SOUTH WALES.

## PUBLIC INSTRUCTION ACT OF 1880.

(REGULATIONS UNDER 13TH, 17TH, AND 19TH SECTIONS OF.)

Presented to Parliament pursuant to Act 43 Vic. No. 23, sec. 37.

Department of Public Instruction, Sydney, 8th April, 1881.

## REGULATIONS UNDER THE 13TH, 17TH, AND 19TH SECTIONS OF THE PUBLIC INSTRUCTION ACT OF 1880.

THE following Regulations under the 13th, 17th, and 19th sections of the Public Instruction Act of 1880, have been made by His Excellency the Governor, with the advice of the Executive Council, in accordance with the provisions of that Act, in substitution of Articles 48, 49, 50, 51, and 68 of the Regulations of 4th May, 1880.

JOHN ROBERTSON.

## REGULATIONS UNDER THE 13TH SECTION OF THE PUBLIC INSTRUCTION ACT.

1. Parents or guardians desiring to be relieved from the payment of school fees must apply to the Minister in the form prescribed for that purpose.

2. In any case where, after due inquiry, the inability of parents or guardians to pay school fees is satisfactorily shown, a certificate of exemption from such payment will be issued under the authority of the Minister for a period not exceeding three months.

FORM A.

## APPLICATION TO BE RELIEVED FROM THE PAYMENT OF SCHOOL FEES.

I, \_\_\_\_\_ of \_\_\_\_\_ hereby apply to be relieved from payment of School Fees for my \_\_\_\_\_ for the period of \_\_\_\_\_ from date, on the ground that \_\_\_\_\_  
Signature of applicant

## REGULATIONS UNDER THE 13TH, 17TH, AND 19TH SECTIONS OF THE PUBLIC INSTRUCTION ACT OF 1880, RESPECTING THE DUTIES OF PUBLIC SCHOOL BOARDS.

1. Every Public School Board at the first meeting thereof shall elect from the members a Chairman, whose duty will be to correspond with the Minister on behalf of the Board; and the Board may in like manner appoint such other honorary officers, being members of the Board, as the Board may deem expedient.

2. A Public School Board may, by resolution passed at a duly constituted meeting thereof, appoint any member or members to perform the duty, prescribed by the 19th section of the Public Instruction Act, of visiting any of the schools placed under the supervision of the Board, and it shall be the duty of the member or members so appointed to report the results of any such visitation to the Board.

3. In the inspection of schools placed under the supervision of a Public School Board in accordance with the aforesaid section of the Act, the Board may be represented by a quorum thereof, and the Board may, if it see fit, report the result of such inspection to the Minister; the Board is not however to interfere with the professional duties entrusted to the Inspectors as set out in the Regulations under the head of Duties of Inspectors.

4. The grounds upon which any Public School Board should exercise the power conferred on it by the section beforementioned to suspend a Teacher for misconduct should be the following:—Unfitness on the part of such Teacher to perform his duties from intemperance; immoral conduct; gross neglect of duty; or, continued absence from duty without leave.

5. Public School Boards shall report to the Minister any case in which a Teacher is suspended by them before leaving the school under inspection at the time, and apprise the Inspector having charge of such school by letter.

6. Public School Boards should use every endeavour to induce parents to send their children regularly to school, and should report, in cases coming under their notice, the names of any parents or guardians who refuse or fail to educate their children, for which purpose necessary forms will be provided.

7. When the course laid down in the Regulations under the 13th section of the Public Instruction Act for relieving parents and guardians from payment of school fees by the Minister is not convenient application may be made by parents or guardians to the Public School Board of the district, and if satisfied as to the inability of the applicants to pay school fees, such Public School Board may issue a certificate of exemption from payment thereof for a period not exceeding three months, and shall thereupon report the case to the Minister.

8. In fixing, in consultation with any Teacher, the hour for Special Religious Instruction in accordance with section 17 of the Public Instruction Act, the Public School Board should take care that the daily routine of the school as laid down in the Regulations is not unduly interfered with.

1881.

## TECHNICAL EDUCATION.

### The President of the Sydney Mechanics' School of Arts to the Under Secretary of Public Instruction.

Sir,

Sydney Mechanics' School of Arts, 9 August, 1881.

In compliance with the request contained in your letter of 8th May last, I do myself the honor to submit, for the consideration and approval of the Honorable the Minister of Public Instruction, a Report from the Committee of the Technical or Working Men's College upon the past, present, and proposed future operations of that institution.

As the Sydney Mechanics' School of Arts is now in existence nearly half a century, its Committee consider it also desirable to furnish the Minister with an historical account of its growth, from the original foundation up to the present time; and respectfully to offer suggestions for the consideration of Sir John Robertson for still further increasing its educational usefulness, as well as that of the other Mechanics' Institutes of the Colony.

The draft of this Report was prepared by Mr. Edward Dowling (the original proposer of the Technical College, Chairman of its Committee, and a Honorary Secretary to the late Technological Conference), Mr. Norman Selfe, C.E., M.I.C.E. (Vice-President of the School of Arts), and Mr. Alexander Kethel, J.P. (also a Vice-President of that institution.) For the purposes of this Report, and in addition to his many valuable services, Mr. Dowling recently visited Victoria, and procured much information respecting the working of the Schools of Mines, Schools of Design, and other Technical institutions in that Colony, which could not be obtained from any published document or satisfactorily in any other way. Mr. Selfe has given many important suggestions from his large practical experience as to the kind of teaching required by artisans, and incurred considerable trouble and expense in preparing for the Report various plans which are appended, showing the buildings and appliances of the Sydney School of Arts at different periods of its history, and the increased accommodation now needed for the Technical College. Mr. Kethel has prepared a tabulated statement giving the statistics of the School of Arts in its several departments from 1833 to 1881, and showing the small amount of the Government grant during that period in comparison with the sums obtained from the subscriptions of its members. Mr. F. J. Thomas, the Treasurer of the School of Arts, has furnished a balance sheet, a statement respecting the fees charged for the Classes, and an estimate of the probable expenditure on account of the Technical College for the present year, and for 1882.

As this Report has also received the careful revision and approval of the General Committee of the Sydney School of Arts, it also contains the results of the experience of representative men from many Colonial industries, who have spent much time for several years past in conducting the pioneer Technological Institution of the Colony. I therefore trust that the recommendations contained in the Report will receive the favourable consideration of the Government, and assist proper legislation on the most important question of Technical Education for the working classes of New South Wales.

I have, &c.,

JOHN SUTHERLAND,

President of the Sydney Mechanics' School of Arts.

## TECHNICAL OR WORKING MEN'S COLLEGE.

### REPORT from the Committee of the Technical College at the Sydney Mechanics' School of Arts, to the Honorable the Minister of Public Instruction of New South Wales.

History of School of Arts.

THE Sydney Mechanics' School of Arts is the oldest and largest institution of the kind in Australasia. It was founded nearly half a century ago by a band of emigrant mechanics, desirous of continuing by its means the mutual instruction commenced on board the ship in which they arrived in the Colony. His Excellency Sir Richard Bourke (Governor of New South Wales), Major Sir Thomas Mitchell (Surveyor General), the Rev. Henry Carmichael, M.A. (of the Australian College), Mr. Robert Band (surgeon), its first honorary secretary, Mr. Peter Gardner (of the Bank of Australia), its first honorary treasurer, and the Rev. Dr. Lang also assisted greatly in its inauguration, and took much interest subsequently in its educational work. Its annually elected committees included amongst their members some of the leading men of the Colony, and its list of Presidents contains the names of Sir Thomas Mitchell, Colonel Barney, Sir Charles Nicholson, Mr. G. K. Holden, Dr. a'Beckett, Rev. Dr. Woolley, Mr. N. D. Stenhouse, Mr. Justice Windeyer, and the Honorable John Sutherland, M.P. For many years the Sydney Mechanics' Institute has also received the able assistance, as lecturers, teachers, and examiners, of gentlemen connected with the other educational institutions of the Colony, among whom may be specially mentioned the late Professor Woolley, Principal of the Sydney University, the Hon. Professor Smith, C.M.G., Mr. William Wilkins, Under Secretary of Public Instruction, and Mr. A. B. Weigall, B.A., Head Master of the Sydney Grammar School. The early years of the School of Arts were distinguished by the delivery of many popular lectures by representatives from the learned classes in the Colony. Much attention was also given to the collection of apparatus for scientific experiments, and Dr. (now Sir Charles) Nicholson assisted for several years as its honorary curator. This apparatus was so increased in quantity by donations and purchase that in 1842 some part of it was found to be damaged, owing to the want of a larger museum in which to keep it. The Sydney School of Arts has had also attending its classes many persons now occupying important positions in the community, who owe much of their success in life to the instruction they received in this institution.

The

The early committees of management of the School of Arts were ever mindful of its special mission as a Mechanics' School of Arts, and as far as means would permit endeavoured to afford evening instruction to any artisans and apprentices desirous of improving their minds. It will therefore be evident that through its library, reading room, lectures, and classes, this institution has for over forty-eight years performed excellent service in diffusing literary and scientific tastes in the early stages of the community. The first Industrial Exhibition held in New South Wales was conducted by the committee of the School of Arts at the opening of its new hall in 1861, and the success attending that experiment prepared the way for the much larger Intercolonial and International Exhibitions since held in the Colony. Proposals for the formation of an Economic Museum at the School of Arts were submitted to its committee by His Excellency Sir William Denison, then Governor of the Colony, and received the consideration of a sub-committee, as far back as the year 1855, of which the late Mr. G. K. Holden was chairman; but it was considered that the Colony was not then ripe for such an institution, although apparatus was recommended to be obtained to form a nucleus for it. Prior to the opening of the Sydney International Exhibition it was resolved by the committee to avail themselves of that opportunity to collect materials for the College museum; but as the trustees of the Australian Museum subsequently commenced to gather examples of the various processes used in the arts and manufactures, in addition to specimens of natural history already in that institution, it was resolved to confine the operations of the College to its more important function of imparting industrial instruction by means of educational classes and popular lectures. It is, however, recommended that the buildings of the country Schools of Arts should be utilised for the formation of small local museums of examples of the natural products and industries of the surrounding districts, as such collections would be very valuable for illustrating popular lectures at these institutions, and give much information respecting the resources of the various localities. It would also be of great advantage to the Technical College if the loan of specimens to illustrate free popular lectures at the metropolitan Mechanics' Institute could be obtained from the trustees of the Australian Museum. The School of Arts may also claim to be the first institution in the Colony to take action with regard to the question of technological instruction, as twelve years ago technical classes were formed as far as the accommodation of the institution would permit. Very successful science classes were held since 1869, and courses of lectures delivered on geology, mineralogy, chemistry, and physics, by Messrs. Coutts, Rennie, Thompson, O'Brien, Pentecost, and other gentlemen.

For many months after its inauguration the members of the School of Arts held their meetings at rooms of the Surveyor General's Office, on Church Hill, kindly lent for that purpose by Sir Thomas Mitchell. Ninety-one members paid subscriptions for the first year—a number considered large at the time, but small in comparison with the members and students now on the roll of the institution. In 1835 the committee leased an allotment in Pitt-street (the site of the present library), 34 feet frontage by 116 feet deep, and in 1836 contracted for a building, which was finished the next year, at a cost of about £675. These premises contained a theatre, lecture room, museum, and library. A view of the front of the original School of Arts is attached, as well as that of the premises at the present time. Shortly after the completion of the first building additions had to be made to it by the erection of two rooms. In 1839 His Excellency Sir George Gipps granted the institution an allotment of land at the corner of Hunter and Pitt Streets, which inspired the members with such energy that competitive plans were invited for a new building, and a premium of £50 was awarded to the successful competitor. These plans provided for accommodation of a very advanced character for so early a period in the history of the Colony, but the enthusiasm of the members at the time led to the handsome sum of £981 being obtained by subscriptions towards the building fund. It was found in 1841 that owing to the Tank Stream running through the land in Hunter-street it would cost £3,000 to arch it over, so as to secure a proper foundation, and the idea of building on that spot had therefore to be abandoned. In 1843 the land leased by the School of Arts in Pitt-street was offered for public sale by the proprietor, and the Government therefore consented to grant a new site for the institution near the Haymarket. In 1845 the Pitt-street property, until then held under lease, was purchased for £720. In 1846 the first class was started, with a fair amount of success. In 1853 the land near the Haymarket, not being considered central, was sold for £3,500, and in 1855 the Independent Chapel adjoining the institution in Pitt-street was purchased for £3,300. Owing to the accommodation at this time being greatly increased, additional educational classes were established. In 1856 the original theatre was converted into the reading room, and the adjoining chapel altered by suitable openings, so as to form the lecture hall of the institution. In 1859 the plan of the front portion of the present building was submitted for the approval of the members, and the necessary contracts entered into. In 1861 the altered premises were opened by the Acting-Governor, His Excellency Lieut.-Col. Kempt, and in the same year the chapel building was enlarged and converted into the present hall.

In 1873 the proposal by Mr. Edward Dowling for establishing a Technical or Working-men's College was entertained by the members of the School of Arts, and three allotments at the rear of the premises, having a total measurement of 79 feet by 59 feet, leased for that purpose. From 1874 to 1877 the question of further class accommodation was considered by the several committees, but no active steps taken in the matter until the previous mortgage of £5,000 had been redeemed and a sum of over £1,500 stood to the credit of the institution. In 1877 the members authorized the expenditure of £5,000 for alterations and additions to the institution, which amount was obtained from the Savings Bank at 5½ per cent. interest. In 1878 Parliament granted £2,000 towards the inauguration of the Technical or Working Men's College, and several of the classes were commenced in the new buildings erected for the purpose early in that year. The remainder of the School of Arts' premises were re-modelled and re-opened in May, 1879. An accompanying table shows the comparative areas of floor space in the School of Arts at different periods of its history, and also its present dimensions, from which it will be seen that the buildings now cover nearly ten times the ground available in 1836, or 13,480 feet as against 1,340 feet. Of the 13,480 feet, 4,532 feet belong to the college buildings proper. Appended are plans of the institution showing the interior arrangements at different periods of its history, and the elevations of the original and present buildings.

In tracing the gradual development of the School of Arts it will be seen that on several occasions in its history large sums of money have been expended in erecting additions to its buildings, in order to meet the growing educational wants of the members. Prior to the last extension, on several occasions the Government subsidy towards building amounted to £1 for every £1 collected, but for the late alterations only

only £2,000 was granted, although £8,000 had to be expended, principally to afford accommodation for the Technical College. Unlike the country Mechanics' Institutes, who have a Government grant of £1 for every £2 collected in members' subscriptions and for building purposes, the metropolitan School of Arts only obtains an annual subsidy of £200, although its receipts last year from members' subscriptions alone amounted to over £1,700. More than half the Government endowment (viz., £108) has of late years to be paid to the City Corporation for taxes levied on the premises of the institution. Appended is a statement of the sums annually received by the Sydney School of Arts from subscriptions of members, and its annual endowment from Government since the foundation of the institution. It will be seen that notwithstanding the inauguration of late years by the Government and Municipal Councils of large free circulating and reference libraries, both in the city and suburbs, the Sydney School of Arts has made rapid progress, although supported almost solely by the subscriptions of its members and receipts from the letting of the large hall for concerts and other entertainments. About £1,000 has to be annually expended in purchase of books and periodicals for the library and reading room, in order to satisfy the intellectual wants of the members, who numbered last year 2,167.

Appendix E.

Incorporation Act.

The valuable property belonging to the Sydney School of Arts, and the necessity for obtaining legislative power to manage its affairs, led in the year 1874 to its being incorporated by a special statute, providing for the election of its officers, and giving legal power to the committee to make by-laws for better carrying out the objects of the institution. A copy of the "Sydney Mechanics' School of Arts Incorporation Act" is appended, and of the by-laws made thereunder.

Central position in Sydney.

The central position that the School of Arts occupies in Pitt-street, with back entrance from George-street, and its excellent library of nearly 20,000 volumes, large reading room, excellent lecture halls, chemical laboratory, art class rooms, mechanical apparatus, and other appliances, render it a most suitable institution for imparting technical knowledge in the city, and a convenient depôt for diffusing instruction in Schools of Arts throughout the Colony. It would, however, be impossible for the Sydney Mechanics' School of Arts, with its limited monetary resources, to undertake the sole financial responsibility of conducting a large institution like the Technical College, and the imparting of science and art instruction at the other Mechanics' Institutes in New South Wales, unless some guarantee is given, similar to that granted to the Sydney University, as to permanence of the annual endowment.

College Committee.

The success attending the operation of the college is principally due to the fact that its committee have given for several years past a large amount of time to the work of inaugurating and carrying it on, meeting weekly and submitting for approval a monthly report to the general committees of the School of Arts. Prior to commencing the College its committee placed themselves in communication with the heads of similar institutions and other educational authorities in England and elsewhere, and obtained a large amount of information of great service in its inauguration. In 1876 all the publications procurable relating to industrial education were ordered through the agents of the college in London, in order to furnish the committee with information respecting the working of technical institutions in other countries. Mr. Thomas Twining, the founder of the Twickenham Economic Museum in England, a Vice-President of the London Society of Arts, and author of "Technical Training," also gave valuable counsel respecting the curriculum of the college. The experience of the Liverpool College of Science proved the necessity of extensively advertising the programme of an educational institution, especially its popular science lectures and sessional classes, and printing and advertising are therefore among the largest items of the college expenditure. To obtain a knowledge of the educational requirements of the artisans of the city, several interviews took place between the College Committee and the Engineering Association, Trades and Labour Council, Builders' and Contractors' Association, and many manufacturers and other gentlemen interested in the furtherance of technical training in the Colony. A Honorary Council of Advice has been elected under the college rules, and consists of the following gentlemen:—The Members of the existing Ministry, the Mayor of Sydney, Mr. W. M. Alderson, J.P., Mr. James Barnett (Colonial Architect), Mr. Alexander Bruce (Chief Inspector of Stock), Mr. Edward Combes, C.M.G., M.P., Mr. E. C. Cracknell (Superintendent of Telegraphs), Mr. M. Lovey, Professor Liversidge (Sydney University), Mr. Charles Moore (Director of the Botanic Gardens), Mr. J. S. Paterson, LL.D., Mr. John Plummer, Mr. Thomas Richards (Government Printer), Mr. E. P. Ramsay (Australian Museum), Hon. Professor Smith, C.M.G., M.L.C., Mr. William Wilkins (Under Secretary of Public Instruction), Mr. A. B. Weigall, B.A. (Head Master, Sydney Grammar School), Mr. P. B. Walker (Assistant Superintendent of Telegraphs), and Mr. Justice Windeyer. The College Committee have also been indebted to the members of the teachers' council of advice, who have rendered valuable assistance to them in the work of the college, especially Mr. Dixon, F.C.S., lecturer in chemistry, and the late Mr. E. E. Waters (of Owens College, Manchester), lecturer on English literature and history. Appended are printed papers on Technical Education, prepared at the request of the Committee, by Mr. Dixon and Mr. John Plummer. Advantage was also taken of a recent visit to Victoria of Mr. E. Dowling, the Chairman of the College Committee, for obtaining information respecting the working of the many Technical Institutions in that Colony.

Council of Advice.

Class Fees.

On the receipt of the Government endowment in 1880 the fees for those unable to pay the full amount were reduced one-half, but as a large number of persons well able to pay the full fee took advantage of this concession, and thereby entailed a great strain on the limited resources of the college, it was intimated in March of the present year that in future it would be necessary that a certificate be produced as to the inability of students or their parents to pay the full fee. The fees charged to students attending the Technical College classes are as follows, viz. :—

Subject taught.	No. of Lessons per week.	Fees charged, per quarter.
English Grammar and Reading	One	7s. 6d.
Writing, Arithmetic, and Bookkeeping	Two	10s.
Elocution	One	10s.
Latin	Two	15s.
Greek	One	15s.
French	Two	10s.
Italian	Two	10s.

Subject taught.	No. of Lessons per week.	Fees charged, per quarter.
German ... ..	Two	15s.
Mathematics ... ..	One	10s.
Applied Mechanics and Steam Engine ... ..	Two	21s. p. course of 50 lectures or 12s. 6d. per half course.
Mechanical Drawing ... ..	One	12s. 6d.
Freehand Drawing (advanced class) ... ..	Two	10s.
Freehand Drawing (elementary class) ... ..	Two	10s.
Drawing (Ladies' Afternoon class) ... ..	Two	21s.
Drawing (Ladies' Morning class) ... ..	Two	42s.
Experimental Physics ... ..	One	12s. 6d.
Design ... ..	One	10s.
Architectural Drawing ... ..	One	12s. 6d.
Architecture and Building Construction—12 Lectures ... ..	One	15s.
Phonography ... ..	One	10s.
Practical Geometry and Perspective ... ..	One	10s.
Geodesy and Survey ... ..	One	10s.
Navigation ... ..	Two	21s.
Practical Chemistry—in Laboratory ... ..	One	21s.
Chemistry—50 Lectures ... ..	Two	31s. 6d.
Telegraphy ... ..	One	21s.
Natural Philosophy—10 Lectures ... ..	One	Free.
Materia Medica and Pharmacy ... ..	One	10s.
Theoretical Mechanics ... ..	One	12s. 6d.
Modelling ... ..	Two	10s.
Wood-carving ... ..	Two	10s. 6d.
Political Economy—21 Lectures ... ..	One	Free.
Physiology, Anatomy, and Simple Surgery—20 Lectures ... ..	One	12s. 9d.
Twicing's "Science-made-Easy" Course—10 Lectures ... ..	One	Free.
Photography ... ..	One	21s.
Field Naturalists' Club... ..	One	2s. 6d.

Only half these fees are charged to students who furnish the committee with a satisfactory certificate to the effect that the applicants or their parents are unable to pay full fees. Appended will be found copies of the correspondence between the Engineering Association and the committee of the School of Arts respecting the scale of fees charged, and the action taken in requiring a certificate as to inability to pay full fees from students desiring to obtain instruction at half fees. On pages 11 to 13 of the pamphlet on "Technical Education," presented to the committee by Mr. Dixon, will be found some reasons given for maintaining the existing scale of fees, which will no doubt receive due consideration. As, however, considerable difference of opinion exists on the subject, the committee resolved to refer the matter to the Honorable the Minister of Public Instruction to decide whether the present scale of fees shall be maintained or reduced; whether students under a certain age shall be admitted to the classes at a lower scale of fees; and whether the regulation requiring a certificate from those unable to pay full fees shall be enforced. Appendix K.  
See pages 66 and 67.

Although the college premises have 4,532 feet of floor space, and a class-room of 520 feet in the main building is also available for teaching purposes, the great increase in the number of students attending the classes, has already imposed upon the committee the necessity of obtaining temporary accommodation elsewhere, and the old Pitt-street Public School (60 feet by 24 feet, or 1,440 feet area) has been rented at the nominal sum of 16s. per week. Great inconvenience is caused by several of the classes being held in different buildings, but a modelling class could not have been formed without the extra accommodation thus obtained, and the commercial classes before their removal were so overcrowded as to be both inconvenient and unhealthy for teaching purposes. The large number of classes now formed in connection with the college have necessitated more room being obtained, and nearly twelve months ago an application was made for part of the Garden Palace in which to hold classes and store the valuable scientific apparatus belonging to the college. The modelling class already so successfully formed in connection with the college, under Mons. Henri, will it is believed be found of great service to persons employed in several branches of architectural work and in the decoration of pottery. Classes are now also being formed in the branch schoolroom for teaching carving in wood and stone, for the especial benefit of workers in those materials. Although at present a regular Trade School could not well be founded in the Colony, it is suggested that instruction should be provided in those branches of the useful arts not obtainable in the ordinary workroom; and that as there are a number of Government workshops in the city, such as those of the Railway Department, Telegraph Department, Mint, &c., students of the Technical College might, when considered necessary by the teacher, have the privilege of seeing the processes and appliances in these establishments. Branch school room.  
Modelling class. Appendix F.  
Trade Schools.

In order to further Technical Education amongst the industrial classes in England, several of the Livery Companies of London have devoted an annual endowment of nearly £12,000 out of their funds towards the founding of a Technical College and the subsidizing of existing technological institutions. These Trade Guilds represent the following industries, but other companies have since joined in with this educational movement:—The Carpenters', Mercers', Drapers', Fishmongers', Goldsmiths', Salters', Ironmongers', Clothworkers', Cordwainers', Coopers', Plaisterers', Bakers', Dyers', Needlemakers', and Armourers'. The following is a report of the Executive Committee appointed by the City of London Corporation and the Livery Companies, of which Lord Selborne was Chairman, on suggestions for founding this Technical College, prepared at their request and embodied in lengthy reports by Sir W. G. Armstrong, C.B., The City and Livery Companies of London Technical College.

C.B., F.R.S., G. T. C. Bartley (author of "Schools for the People"), Lieut.-Col. Donnelly, R.E., Capt. Douglas Galton, C.B., F.R.S., Professor T. H. Huxley, F.R.S., and H. T. Wood, Esq., M.A. (Secretary to the London Society of Arts):—"The object which the Livery Companies have in view is the improvement of the technical knowledge of those engaged in the manufactures of this country, whether employed as workmen, managers or foremen, or as principals. It appears to your Executive Committee that, except in some very special instances, such as the introduction of a new industry or the revival of an old one, the Companies should not endeavour to effect this improvement by teaching the workman to be more expert in his handicraft, as, in their judgment, this form of improvement is one which must be derived from greater assiduity in their workshop and from longer practice therein, and they therefore are of opinion that except in special cases it would be unwise to establish any place for teaching the actual carrying out of the different trades—that is to say, a place in the nature of a model manufactory or workshop, or to provide instructors for instance in sawing and planing, and in chipping and filing, but they advise that the direction to be pursued in improving Technical Education should be one which will give to those employed in manufactures the knowledge of the scientific or artistic principles upon which the manufacture may depend. As illustrative of these views, they would refer to two great industries—iron and textile fabrics. With respect to iron, it is believed that it would be unwise to endeavour to improve that manufacture by instructing a puddler how to handle his tools in a superior manner, or the blast furnaceman how to manipulate his furnace; but on the other hand, your Executive Committee think it would be of great utility to give to such men (and especially to managers of ironworks) the scientific instruction which will enable them to know why it is that occasionally, in spite of manual dexterity and in spite of attention, the puddle bar is bad, or the pig-iron is unsaleable, except at a reduced price. The application of the science of chemistry to the manufacture of iron affords this knowledge: Instructed in such application, the iron-master, his foreman, and even his workmen, will know how, when varying fuel, or varying mineral ore fluxes are brought under treatment, to alter that treatment to suit the particular foreign (and commonly noxious) matters which are found accompanying the fuel, the flux, or the ore, and how, notwithstanding the admixtures, to succeed in producing an excellent quality of iron. Similarly, as regards the manufacture of textile fabrics. While in the opinion of your Executive Committee it would be unwise to follow the plan which has been pursued in some places upon the Continent, of endeavouring to give extra dexterity to the operative by establishing model manufactories or workshops, it would be most wise to give the chemical knowledge and artistic instruction which would enable the workers to grapple with differences in the quality of the water, differences in the quality of dyes, and of the materials to be dyed, and would likewise secure the designer from violations of the canons of good taste; and your Executive Committee are glad to say that in the foregoing views they are, without exception, fully supported by the reports of those who have kindly assisted them with their advice." These recommendations of the London Livery Companies' Executive Committee are fully endorsed by the Committee of the Sydney Technical College as being in accordance with their experience in working that institution.

Professor  
Huxley's  
Recommendations.

The following recommendations were made by Professor Huxley respecting the curriculum of the Livery Companies' Technical College:—"I suppose that a complete system of Technical Education will be directed towards the following objects: 1st. The diffusion among artisans and others occupied in trades and manufactures of sound instruction in those kinds of theoretical and practical knowledge which bear upon the different branches of industry, whether manufactures or art. 2nd. Adequate provision for the training and supply of teachers qualified to give such instruction, and for the establishment of schools or isolated classes to which the industrial population may have ready access; and further, for a proper system of examinations whereby the work done in the schools and classes may be tested. 3rd. The organization of arrangements for effecting the apprenticeship of scholars of merit in the branches of industry for which they show aptitude; for enabling such scholars to continue their studies beyond the ordinary school age by means of exhibitions; and for opening to the rest of them a career as teachers or as original workers in applied science. Upon these several topics I submit the following observations:—The theoretical and practical acquirements which are of importance to industry may be grouped under the following heads: I.—The general principles of mathematical and physical science—(a) mathematics; (b) physics (including mechanics and all other branches of natural philosophy); (c) chemistry; (d) biology; (e) mineralogy; (f) geology. A sound knowledge of elementary mathematics and the principles of physics and chemistry are absolutely indispensable for the intelligent practice of many branches of industry. The general principles of animal and vegetable physiology are needful for the agriculturalist; mineralogy and geology are of still more importance to the miners. II.—Special branches of applied science, such as—(a) surveying; (b) applied mechanics and machine construction; (c) telegraphy; (d) metallurgy; (e) dyeing; (f) the theory of various chemical manufactures; (g) agricultural chemistry; (h) the theory of breeding, and the hygiene of domestic animals. III.—Skill in the employment of the hands and eye—(a) the use of tools; (b) mechanical drawing; (c) freehand and decorative drawings and colouring, with pattern drawing; (d) modelling and carving. IV.—Means of learning from foreign nations—ability to read French or German, or both. V.—Bookkeeping. It appears to me that if every person who is engaged in an industry had access to instruction in the scientific principles on which that industry is based, in the mode of applying these principles to practice, in the language of those people who know as much about the matter as we do ourselves, and, lastly, in the art of keeping accounts, Technical Education would have done all that can be required of it." A comparison of the curriculum of the Sydney Technical College with that thus suggested by Professor Huxley will show that its programme already includes most of the subjects in which he recommends instruction should be given at such an educational institution.

College Calendar.  
Appendix G.

Technological  
Conference.

There are about 100 Mechanics' Institutes scattered throughout the Colony, possessing property estimated to be worth over £100,000, but the returns forwarded from these institutions to the Technological Conference, held under the Presidency of Sir Henry Parkes, K.C.M.G., in October last, and the Report of the Inspector of Public Institutions, show that there are few classes in operation at them, although many possess good lecture halls, libraries, reading and class rooms. The following resolutions passed by the delegates from the country Schools of Arts and Trade Societies at the Technological Conference were communicated by a large deputation from it to the Minister of Public Instruction (Sir John Robertson, K.C.M.G.):—" (1.) That in order to properly develop the resources of New South Wales it is considered desirable that Technical Education should receive greater support in the Colony, and that the instruction imparted in the Technical or Working Men's College, at the Sydney Mechanics' School of

Arts

Arts, be extended to the suburbs of the city, and to the principal country towns, so far as their requirements may demand. (2.) That it is therefore respectfully suggested that the Government should institute a proper system of Technical Education in science and art throughout the Colony, under the direction of competent lecturers and teachers, and that the instruction afforded be principally of a practical character. (3.) That consequent upon the last preceding resolution being carried into effect there should also be evening classes instituted in every populous locality, for affording elementary instruction to young men and youths whose education has been neglected, so that they may be enabled to avail themselves of any course of Technical Instruction provided by the Government." In compliance with a request of Sir John Robertson that the members of the deputation would embody in a more specific form their views as to the best means to be adopted to carry out the objects of the Conference, the following suggestions were submitted for the Minister's consideration:—(1.) That the Government be requested to bring forward next Session a Bill dealing with Technical Education, and thereby supplementing the Public Instruction Act of last Session. (2.) That the Government be requested to put a sum on the Estimates in aid of Technical Schools or Colleges, to be established in connection with Schools of Arts, Mechanics' Institutes, and Public Schools."

That there are so few educational classes in the country Schools of Arts no doubt principally arises from the want of means to pay lecturers and teachers, and the difficulty of obtaining suitable instructors in the inland towns of the Colony. Several deputations from the Committees of the Sydney School of Arts have during the last ten years brought under the notice of the Government the recommendations of the Royal Commission on Scientific Instruction in Great Britain, under the Presidency of the Duke of Devonshire, urging the necessity for the formation of science classes and the delivery of popular lectures in all centres of population, in order to further the development of the arts and manufactures in the various districts, and bring to light their hidden natural resources. It is now respectfully suggested that a sum for imparting Technical Education be allowed to country Schools of Arts, as recommended by the Inspector of Public Institutions, equal to the Government subsidy given to their reading rooms and libraries, and not exceeding the annual sum raised by private subscriptions from their members, thus making in future the endowment £1 for every £1 collected by each institution. The expenditure of the allowance for Technical Education should, however, be strictly confined to payments for science and art teaching by means of classes and lectures, and a separate account kept from the other funds of the Mechanics' Institute, according to the present practice of the Technical College. It is further suggested that payments to teachers by the Committees of country Schools of Arts should as far as possible be similar to those of the Technological Commission in Victoria, namely, besides the fees, a capitation allowance given per quarter for every student attending a certain number of evenings during that term. It is also recommended that, as in the neighbouring colony, the fees charged to scholars attending schools of design and science classes should be fixed on as low a scale as possible. Payment by results is not adopted by the Victorian Technological Commission, and although recommended by Professor Liversidge, it is believed by your Committee that it would also be very unsuitable for furthering science and art teaching in this Colony. Professor Huxley (for years an examiner of the London Science and Art Department), in his recent report on Technological Education, says:—"Payment upon certain results inevitably tends towards teaching for such results. That is to say, there is a certain proclivity towards teaching, not to make the taught know, but to enable them to pass an examination, which may be, and often is, quite another matter, especially when the examination is entirely a written one." Mr. H. Trueman Wood, M.A., Secretary of the London Society of Arts, says, on the same subject:—"It would appear that more valuable results may be hoped for from the establishment of special institutions than from any general payments, such as the South Kensington payment on results." It is considered that the best means to commence imparting elementary scientific instruction in the interior of the Colony would be the delivery, by itinerant lecturers, of Twining's "Science-made-Easy" lectures on the elements of chemical physics, mechanical physics, natural history, botany, physiology, &c. The subjects at present prescribed by the Science and Art Department in England would, it is believed, be of too advanced a character to commence with in the country towns of the Colony, especially as, unlike the cities of Great Britain, the local industries are of a miscellaneous character, and comparatively but few persons engaged in them. Lectures on diseases of cattle and horses, sheep and wool, breeding of stock, agricultural chemistry, scientific tillage of the soil, forest conservancy, arboriculture, cultivation of economic plants, preservation of meat and fruit, practical farming, manufacture of wine, dairy management, &c., which have been suggested by the committees of the Mechanics' Institutes in the country districts, would also afford suitable topics for practical lectures in the inland towns. In order to properly develop the great pastoral and agricultural resources of New South Wales, it is also suggested that arrangements should be made in conjunction with the local Mechanics' Institutes and Agricultural Societies for the imparting by them of somewhat similar practical instruction to that given at the Farming Schools in America, England, and Scotland. The combination of these established institutions could be made to afford the industrial instruction needed by farmers and graziers, the local School of Arts furnishing the science teaching, and the Agricultural Societies the encouragement of the practical work. The use of the lecture hall is granted by the Technical College committee to the Horticultural Society of New South Wales for holding monthly shows and reading papers descriptive of the exhibits of flowers and plants, and the same privilege should be given to similar institutions by the committees of country Mechanics' Institutes. Annexed is an account of the working of the Agricultural College at Cirencester, in England, whose curriculum would be worthy of adoption in many districts in this Colony.

The difficulty of obtaining suitable instructors and examiners would at present debar the adoption of the South Kensington system by the Mechanics' Institutes in the interior, but the examinations at the Technical College in Sydney could be conducted on the principles laid down by the London Science and Art Department, and thus prepare for the extension of that system hereafter to the country institutions. Similar technological examinations to those conducted by the London Society of Arts, and recently transferred to the Livery Companies Technical College, might also be instituted with advantage at the central institution in Sydney. The following are the subjects in which examinations are now held by the London Livery Companies:—Alkali manufactures, blowpipe analysis (practical), brewing, calico bleaching, dyeing, and printing, carriage building, cloth manufacture, cotton manufacture, electro-metallurgy, gas manufacture, glass manufacture, goldsmiths' and silversmiths' work, iron manufacture, lace manufacture, oils, colours, and varnishes manufacture, paper manufacture, photography, pottery and porcelain, printing, silk manufacture, steel manufacture, sugar manufacture, tanning leather, telegraphy, watchmaking, wool dyeing, fuel, oils (illuminating and lubricating), mine surveying, mechanical preparation and dressing of ores, mechanical engineering, &c.

## Schools of Mines.

Applications have been made on behalf of the Mechanics' Institutes of the Colony for the services of lecturers on geology, mineralogy, mining, and chemistry, provided for in the Mining Act, and a promise was obtained from the Minister that the request would receive the favourable consideration of the Government when these lecturers are appointed. Schools of Mines similar to those at Ballarat and Sandhurst, but on a smaller scale, would be of great service to the miners at Newcastle, Lithgow, Inverell, and other mining townships, provided that much of the instruction be imparted to miners in their spare time; and it is suggested that the local Mechanics' Institutes could be well utilized for that purpose. Examinations should also be held as in Victoria, not only in the science subjects taught in the Schools of Mines, but also for certificates as captain of shift, underground manager, engine-driver, general mining manager, telegraphist, &c. Although the Marine Board and Pharmacy Acts require that mates, engineers, and chemists should pass certain examinations, there is no public institution in the city that affords the necessary instruction except the Technical College. Arrangements have been made with the Pharmaceutical Society whereby the classes of a School of Pharmacy are included in the college course, and the use of the hall is given free for the lectures of that society.

## School of Pharmacy.

## Loan of Apparatus.

In order to assist country and suburban Mechanics' Institutes, as far as the resources of the college will permit, the following resolutions were approved by the General Committee of the Sydney School of Arts, respecting the loan of the college apparatus, and as to the payment for the services of the operator:—“(1.) That the College Committee be empowered to entertain applications from country Schools of Arts for the loan of apparatus when not in use, and to lend apparatus belonging to the institution upon a satisfactory guarantee being given for its preservation and for compensation in case of loss or damage, and on undertaking to pay the charges for transmission of such apparatus to and from the institution. (2.) That the College Committee be empowered to entertain applications from country Schools of Arts, for the services of the operator to work the oxy-hydrogen lantern for lantern readings and popular lectures, when his services are not required in the institution; and that the charge for his services be ten shillings and sixpence per diem during his absence from Sydney, exclusive of travelling expenses, which must be paid by the applicants for his services.” At the request of the committees of a number of

## College Lecturers at Country Institutions.

these institutions. These lectures have been delivered to large and appreciative audiences. Popular lantern readings, illustrated with the college apparatus, were also very successfully given, and not only attended by numbers of adults, but also, on subsequent evenings, enjoyed by hundreds of the Public School children of the locality. In order to extend the operations of the college in a working-class neighbourhood, Twining's course of “Science-made-Easy” lectures were delivered free to the artisans of the district in the Sussex-street Mission Schoolroom, by Mr. J. H. Maiden, who had been previously engaged in a similar capacity by Mr. Twining, the London School Board, the London Artisans' Institute, and other bodies. The apparatus, diagrams, and letter-press for each of Mr. Twining's lectures, arranged in separate boxes, are made very suitable for travelling purposes, as each case contains all the appliances required for the delivery of a popular scientific discourse. This educational apparatus obtained a first award at the Sydney International Exhibition, and the enclosed description of it shows its great utility for the work for which it is designed.

## Twining's Lectures.

## Appendix I.

## Secondary Education.

The minute prepared by the late Council of Education on the subject of Technical Education alludes to the want of co-ordination in the secondary educational institutions of the Colony, and suggests the expediency of securing unity of purpose in them. It is therefore highly satisfactory to find that it is the intention of the Government to carry out the recommendations made at the recent Technological Conference, by introducing a measure this Session dealing with these educational establishments, in the same way as has been done with the Primary Schools under the Public Instruction Act. Although considering the character and history of the Sydney School of Arts it was met that the Technical College should be initiated by that institution, yet the future of industrial instruction in the Colony must before long assume such proportions as to entail a greater financial responsibility than should be cast upon any other than a regularly recognized Government institution. It is also certain that a proper relation should exist between the Public Schools and the Technical Schools in continuing the education of the apprentice by evening instruction after entering upon the business of life. It is therefore respectfully suggested that Technical Education should be administered by the Department of Public Instruction in conjunction with primary education, thereby securing a closer connection in the educational institutions of the Colony. Recent statistics, quoted by writers on educational reform, show that the great proportion of prisoners in the goals of America and Europe had not been brought up to any industrial occupation, and the present tendency in numbers of youths in the Colony to despise manual occupations should therefore be deprecated, and the dignity of labour upheld by proper technical education being imparted to the masses. The teaching when practicable of the scientific and artistic principles which lie at the base of each trade would not only evidence the utility of culture to the artisan and allow youths to follow their natural bent by preventing a training only for clerical duties, but also help greatly in securing an intelligent development of the resources of the Colony. The subjects in which elementary science and art teaching should be given in the Primary Schools can be best judged by the Inspectors of the Public Schools, but it is suggested that the programme adopted should be so arranged as to agree with the curriculums of the secondary educational institutions of the Colony. National Scholarships should also be founded, similar to those of the Science and Art Department in England, enabling scholars leaving the Primary and Evening Schools and students at country Mechanics' Institutes to continue their education at the Technical College. The Technical College should also be affiliated with the Sydney University, and bursaries provided to enable youths passing the college curriculum to attend the University course. This proposed system of prizes at our educational institutions would form a great incentive to the Australian youth, as such rewards have done in the mother country, and help considerably the development of the industries of the Colony. Mr. G. C. T. Bartley, author of “Schools for the People” says:—“The effect which the Art Schools of England have had on manufactures, or, in other words, the superior technical education which they have brought about, has been very great, and much of the improvement in art manufactures, in glass, china, carpets, textile fabrics, wall papers, &c., can be traced, partly at least, to their influence.” In accordance with the Despatch from the Secretary of State for the Colonies, notifying that the Whitworth Scholarships of £3,000 yearly (being the interest on the £100,000 given by Sir Joseph Whitworth for the encouragement of Mechanical Science) were open for competition to persons resident in New South Wales, it is believed that students can now be prepared at the Technical College in the scientific knowledge

## Scholarships.

## Whitworth Scholarships.

required

required for these exhibitions, especially as a successful English competitor for one of them (Mr. W. H. Warren) is the lecturer on applied mechanics to the college, and he has submitted valuable suggestions towards that object. Scholarships of £50 yearly should be provided for the Northern, Southern, and Western Districts of the Colony, to enable successful students to live in the metropolis, and the classes at the Technical College also be open free to these competitors. As stated in the late Annual Report of the Minister of Public Instruction, it would be advisable when initiating the High Schools provided for in the Public Instruction Act to endeavour to make them useful in imparting technical instruction, and the Technical College and country Mechanics' Institutes might thus be utilised for imparting instruction during the day as well as of an evening. The Bristol Trade School (referred to in the minute of the late Council of Education respecting Technical Education) has recently been taken as a model by the London Trade Guilds, as an institution for imparting art and science instruction to youths who are desirous of obtaining technical training before entering upon the business of life. In order that apprentices living in districts where no evening classes are in operation may have the opportunity of availing themselves of the Technical College classes, it is suggested that suburban station-masters should be empowered to allow them the same privilege on the railway lines as that granted to children going to and coming from the Public Schools.

Besides the Science and Art branches of the Technical College there is a Commercial branch, for imparting the knowledge needed by persons engaged in business operations, with classes for bookkeeping, correspondence, phonography, grammar, arithmetic, writing, French, German, Italian, and Latin. Several of these elementary classes are found to be necessary to enable youths whose primary education has been neglected to undergo the course of instruction in science, with profit to themselves and satisfaction to the teacher. The Evening Schools now being started in the Colony, under the Public Instruction Act, will also prove of great service in supplying this elementary knowledge; and these institutions must further prove excellent feeders for the Technical College, and for the Science and Art classes of the country Mechanics' Institutes. The course of lessons on Practical Cookery given last year by Mrs. Macpherson at the Technical College was very successful, and attended by a large number of lady students; and it is believed that similar instruction should be given at the Mechanics' Institutes in the principal inland towns, not only for adults, but also for the senior girls in the primary schools. The theatre at the Sydney School of Arts is now let for concerts and other entertainments, and produces a revenue of about £1,000 yearly, which is expended in the purchase of books and periodicals for the library and reading room of the institution. It is however considered that this large hall could be better utilised by the Technical College, in giving popular science lectures and readings, illustrated by the valuable apparatus belonging to that institution. These lectures could not only be utilised for artisans and apprentices, but by arrangement with the head masters of Public Schools of the metropolis the senior scholars should also be admitted in accordance with the plan adopted at the Sandhurst School of Mines. It is therefore suggested that the Hall of the School of Arts be leased by the Government for the purposes of the college, as proposed at the recent interview with Sir John Robertson, at a rental of (say) £1,000 yearly. It is also believed that the premises of the Technical College could be utilised as a Science and Art Training School, in order that the country institutions may have competent instructors trained for their classes. Its scientific branch might be placed under one of the Professors of Applied Science, such as the Lecturer on Chemistry, who would be required to give practical instruction to teachers, both during the day and of an evening. The laboratory of the college could also be better utilised for the manufacturers of the Colony, and others desirous of obtaining a knowledge of and experimenting upon the materials used in the several processes of their work. It is stated as the experience of the Professors at the Melbourne Technical Laboratory, that "most persons attending come with the intention of solving some special technical problem, and have neither the time necessary nor the desire to study theoretical science." The art branch, it is recommended, should consist of a School of Design, under the direction of one of the instructors, who would be required not only to supervise the drawing, modelling, and carving classes, but also to prepare students as teachers for the country and suburban Schools of Arts. Advantage could also be taken by the Department of Public Instruction of the present teaching staff and models, by forming classes during the day for the instruction of teachers in science and art. For example, under this arrangement, the teachers and pupil teachers of the metropolitan and country schools could avail themselves of the advantages of instruction in the Technical College, by joining special classes at convenient times and using the chemical laboratory, South Kensington casts, and the scientific apparatus belonging to the college, to prepare them for imparting elementary lessons to their scholars.

Technical education has many phases, which are divisible into several distinct branches, such as the higher forms of instruction required by the professional man, which belongs properly to a University—the teaching of the elements of popular science, which should be taught in the Primary School—the encouragement of the higher branches of art, such as painting in oil and water colours, which should be given in connection with the Art Gallery—the collecting of raw materials and manufactured articles, which lies within the province of a Technological Museum—and the imparting of special branches of knowledge to artisans and apprentices, by classes and lectures, which can be best taught at and properly belongs to the Technical or Working Men's College and the Mechanics' Schools of Arts of the Colony, without encroaching in any way on the functions of other institutions. The difference between the technical training required for "the professional man, the scientific chemist, the engineer, and the architect," as compared with that which it is desirable should be imparted to "the artisan, the engine-driver, and the foreman of a workshop," has been pointed out by Professor Liversidge in his valuable report upon the Technical Institutions of other countries; and his recommendations "that the Sydney University should be so extended as to include courses in engineering, mining, agriculture, forestry, surveying, and architecture," for the instruction of professional men are, it is believed, worthy of adoption by the Senate, and would greatly increase the usefulness of that institution. Many of Professor Liversidge's recommendations for evening classes for imparting technical and scientific instruction were, however, already anticipated by the instruction given at the Technical College long before his report was published, and the correctness of his remark "that the teacher should not be dependent upon either the fees or a fixed sum alone" is borne out by actual experience. As the endowment to the Technical College is so small, in comparison to the large number of students to be taught, it has been found impossible to guarantee to the teachers the fixed salary suggested by Professor Liversidge, and therefore only the fees from the students have been paid to them. There are about thirty lecturers and teachers on the staff of the Technical College, who are imparting

imparting instruction in a variety of subjects, and the necessary payments for apparatus, salaries, lighting, advertising, printing, &c., have to be defrayed out of the small Government endowment, as there are no funds available from any other source, and as yet no bequests have been given for the purpose. Professor Liversidge's recommendation, however, that special classes be organized at the University by its staff for instructing Public School teachers to carry out the practical branches of Technical Education, and that a limited number of them be selected annually to attend these lectures in order to prepare them as instructors of artisans, would, it is believed, in the light of actual experience, not be found of the most satisfactory character. If the science and art teaching at the Technical College, as well as that in evening classes at country Mechanics' Institutes, is only to be of a general and elementary nature, an intelligent schoolmaster could doubtless be trained to give it; but practical experience of the knowledge which is of most value to the mason, carpenter, engine-fitter, turner, boat-builder, and other trades most practised in the Colony must lead to the conviction that these operatives should be taught by educated practical men from their own trades, who have shown that they are superior in attainments to their fellow workmen, and thus trained in a special way as instructors. The teaching of the ordinary schoolmaster is of too abstract and general a nature to efficiently compare for practical results with that imparted by a superior instructor of the same trade as the pupil to be taught, as the tradesman will take care not to encumber the students with subjects not absolutely required in his business. By teaching of a practical kind is here meant that education which the mechanic or tradesman can immediately put to use; and without undervaluing thorough theoretical teaching in its proper place, that scientific instruction is of the most use which renders the workman of more value to himself, to his employer, and to the community at large. As there are great differences between the customs and requirements of the trades and manufactures of the Colony and similar trades as carried out in Great Britain and on the continent of Europe, persons who have practical experience in the management and working of Colonial industries should be better qualified to direct instruction for the improvement of the artisans engaged in them (at any rate in some branches) than those who, having devoted themselves solely to literary work, derive their knowledge of Technical Education from what is done where the conditions are quite different to those existing in the Colony. It may do a carpenter no harm to teach him pure mathematics, but it will be of much greater advantage to him to be instructed in practical geometry and the elements of strength in framed structures; the theory and practice of forming mortices, tenons, trusses, the proper angle for the cutting edge of his tools, &c., such practical knowledge would cost less and give more solid results than the study of the higher branches of mathematics. Mr. J. Scott Russell, the celebrated engineer, in his well-known work on "Systematic Technical Education," says:—"For a mere philosopher and for a practical mechanic the science of physics must be taught in quite a different way; certain elementary principles are, no doubt, the same for all men and for all circumstances, but that is only the purest and most abstract science. To the man of science, the science itself is the end and aim. To the technical man, science is the mere tool and instrument, and what he wants to know is not the mere science only, but the means of shaping it to his end and the best way of using it, so as to achieve his purpose" (page 285.) At another place in the same work Mr. Russell says:—"Give men the benefit of a sound practical acquaintance with just as much science as they require, without any avoidable technicalities or any time unnecessarily bestowed on those ever-changing theories and forms of nomenclature which confuse the most practised memories."

The Executive Committee of the London Trade Guilds, in their report to those companies, made the following recommendations on this subject:—"With regard to the trade schools, foremen, workmen, apprentices, and others who could show that they had already received sufficient elementary instruction in the principles of science and art to follow the teaching in those schools, should be taught the application of science and art to particular trades, by teachers having a competent knowledge of the actual practice of those trades, as well as the scientific and artistic principles to be applied to them." Mr. Thomas Twining, in his valuable work on "Technical Training," says of some kinds of scientific instruction given in England:—"The teaching has been too technical in the sense of addressing technical phraseology to unaccustomed ears, and not sufficiently technical in the sense of supplying the necessary link between theoretical knowledge and its practical applications. In some cases the instruction, guided by a special professor, has gone the way that suited him, rather than the way that suited the wants of general or local industry."

Without in any way discouraging instruction to mechanics and other operatives in the higher branches of learning, and believing that in due course, as Technical Education is more developed in the Colony, this kind of teaching must be provided, it yet appears that the system hitherto adopted in connection with the Technical College is well adapted for the requirements of colonial workmen for some time to come. Professor Liversidge says:—"It would be absurd to form special schools for mining, agriculture, engineering, architecture, or similar courses at the evening classes of Mechanics' Institutes, and that such classes should not be too ambitious." The latter statement may be admitted as a truism, but the extent to which the conductors of such classes should carry their work without being ambitious depends entirely on the capacity of the students and the ability of the teacher. As a matter of fact such classes have been conducted in this institution, and in the opinion of those most qualified to judge (that is, men who have afterwards seen the students at their actual daily work) have produced substantial results. Classes for mechanical drawing were first formed in the institution by Mr. Norman Selfe, M.I.C.E., several years ago, and among those who have attended them were persons now having important positions in the Government service in this and other colonies. Similar classes have since been conducted by gentlemen holding the offices of Superintendent Engineer of the Australasian Steam Navigation Company's Works, Mort's Engineering Company's Works, and by several of the Presidents of the Engineering Association—all practical men. The architectural drawing class, formerly under the direction of Mr. Sapsford, now City Architect, Mr. Alexander Elphinstone, jun., Mr. J. Kirkpatrick, and other professional gentlemen, is now conducted by Mr. Cyril Blacket, A.R.I.B.A., who is also delivering a course of lectures on architecture and building construction. The applied mechanics class, formerly taught by Mr. W. H. Humphreys, C.E., late President of the Engineering Association, is now under the guidance of Mr. W. H. Warren, Associate M.I.C.E., a successful Whitworth scholar. The frechand drawing and design classes are conducted by Mr. Thomas Phillips, late a National Scholar at the South Kensington School of Art, who during the last year has been training a large number of students in the system of instruction approved by the Committee of the Council of Education in England. Mr. Phillips was employed as a practical designer in London, and brought to the Colony strong recommendations from Sir Philip Cunliffe Owen (Director of the South  
Kensington

Suitable Instructors for Colonial artisans.

Mechanical Classes.

Architecture and building construction.

Applied mechanics and steam engine. School of Design.

Kensington Museum), certifying as to his ability and knowledge of the system adopted in that institution. Mr. E. Combes, C.M.G., M.P., who—in addition to his other valuable services to the Technical College—recently examined the classes of the School of Design, congratulated the Committee on having inaugurated and developed in the Colony this admirable system of art instruction. The modelling class, under the direction of Mons. L. F. Henri, is also of great practical value to many workmen in the community. The chemical laboratory was placed under the care of Mr. Dixon, F.C.S., F.I.C., who undertook to furnish it with apparatus, supply re-agents, fuel, gas, and any assistance required. The number of students attending the college laboratory has already averaged more than those entering many similar institutions elsewhere, and one of its students recently obtained a first place and a gold medal in chemistry at a leading European University. Mr. Dixon has also made good use of the laboratory in original research since his appointment as chemistry lecturer, as he has contributed to the Royal Society valuable papers on the inorganic constituents of the coals of New South Wales, and on the chemical composition of salt bushes and other native fodder-plants. For several years Mr. Dixon has analysed for the Department of Mines a large number of minerals found in the Colony, and prepared an exhaustive report on the coals of Australasia, compared with those of other countries with which they have to compete. At the late Sydney International Exhibition Mr. Dixon acted as chairman of the committee for judging minerals, &c., and devoted a considerable amount of time to that work.

Since the formation of the Technical College many courses of lectures have been and are now being delivered in connection with it, amongst which may be mentioned those on chemistry (50 lectures), geography (10 lectures), applied mechanics and steam engine (2 courses—70 lectures), natural philosophy (10 lectures), English literature (12 lectures), political economy (20 lectures), cookery (12 lectures), architecture and building construction (24 lectures), materia medica and pharmacy (weekly), physiology (12 lectures), anatomy and simple surgery (20 lectures), and photography (12 lectures). During the holding of the Sydney International Exhibition a course of Exhibition Lectures was delivered in the College Hall by representatives from the various countries exhibiting, many of which were interesting descriptions of the articles shown in the Garden Palace. Courses of Popular Science Lectures have also been delivered during the winter months, several of which were attended by between 500 and 600 persons, who were admitted to them free of charge. Special courses of class lectures on domestic economy were delivered, and practical lessons on the cutting out and making of clothes given by lady teachers, for the benefit of those needing such instruction. A Naturalists' Field Club has been formed in connection with the college, and its members have had several excursions to interesting spots near Sydney, with descriptive papers afterwards read at its meetings.

The success attending the instruction at the Technical College is recently evidenced by the drawing classes winning the School of Design Certificate, equal to a gold medal, for the best collection of drawings at the Melbourne International Exhibition, and by two of its late students obtaining honors at the Edinburgh University.

The following is a return of the students attending the classes since the formation of the Technical College:—

RETURN of the number of Students who entered Courses of Study at the Technical or Working Men's College during each quarter, from 1st January, 1878, to 30th June, 1881.

Year.	1st Quarter.	2nd Quarter.	3rd Quarter.	4th Quarter.	Total.
1878 .....	140	152	173	130	595
1879 .....	137	140	282	149	703
1880 .....	179	282	293	293	1,047
1881 .....	389	378	.....	.....	767
	845	952	748	572	3,112

The numbers now attending the classes would, it is conceived, warrant more accommodation being provided for the college, and a larger annual endowment granted it by the Government. One object of this report is to point out that the buildings occupied by the college are insufficient for its present requirements; and therefore that good reasons exist for obtaining more ground and the means of erecting additional class rooms. The accompanying plans of the present college buildings and adjoining premises show that the increased accommodation can be secured at a moderate cost, in proportion to the educational work which may be accomplished through its instrumentality. It will be observed from Appendix B that the ground on which the buildings are erected is held under three separate leases, and as one of these is only during the tenure of two lives only the small lecture hall has been erected upon it. The Committee now deem it desirable that this leased land should be acquired as a freehold, and would therefore recommend that it be resumed for the educational purposes of the college. A great increase of accommodation is not at present sought for, as it is probable that the greatest efficiency will be reached with a moderate sized institution; but the committee respectfully suggest that the Government should take steps to also resume the land cross-lined on Appendix A, with a frontage to George-street of about 28 feet, and an allotment with a small store upon it, adjoining the present College Hall. As these pieces of land are next to the present college premises they can easily be connected with the School of Arts, without interfering with its existing buildings, and if obtained will afford the accommodation now needed for the students, and give an entrance from George-street, without interfering with the present right-of-way, which is usually blocked up by drays belonging to the adjoining proprietors. There are no valuable buildings upon the ground proposed to be resumed, and the desired frontage to George-street is not large. The whole of these premises, as shown on the plans, could now be well utilised for the purposes of imparting Technical Education in several of its most important branches. On Appendix A, fig. 1 shows the land adjoining the institution it is desired to obtain for the college; fig. 2 an arrangement of additional class and lecture rooms; and fig. 3 the first floor plan of the buildings on fig. 2. By adopting the foregoing suggestions, the large room occupied by the Central Boot Company would afford, at very little outlay, space for two class-rooms, each 50 ft. x 20 ft., lighted from the roof, and a corridor from George-street.

On

On Appendix A are also shown, adjoining the College Hall, two large class or lecture rooms desirable to be obtained, having over them one large room suitable for the drawing classes, about 56 feet x 30 feet. When the site of the College Hall is secured on a better tenure it is proposed to raise the roof and erect a gallery around its three sides, as this arrangement would afford room for storing a large quantity of apparatus, and enable a proper optical chamber to be constructed for the oxy-hydrogen lanterns; at the same time the sitting accommodation for the audience would be greatly increased. The extra rooms shown correspond very closely with the requirements stated in the suggestions addressed to the Committee by Mr. Dixon, the chemical professor of the college. It is thought unnecessary to enter further into the minor details of the proposed arrangements for securing additional accommodation for the college, but it would be desirable, in the event of such an extension of its operations being approved of by the Minister, to provide for motive power, such as a gas-engine, to be applied for artificial ventilation, and to drive a dynamo-electric machine, machine tools, and the apparatus required in a physical laboratory.

Apparatus.  
Appendix I.

Appended is an inventory of the teaching appliances of the college. Through the liberality of the Government a large portion of this apparatus was selected from the various Courts at the late Sydney International Exhibition, and is therefore admirably adapted for imparting instruction. Much of the apparatus previously owned by the School of Arts has been damaged, and is now of too antiquated a type, except, perhaps, for helping to illustrate the recent great progress made by inventors of machinery and teaching appliances. The college has not, however, proper sets of appliances for illustrating pneumatics, heat, sound, and light, but it is hoped that the committee will be enabled shortly to obtain them, as classes are about to be formed for studying these subjects. Professor Huxley states that a Technical College should have a small operator's workshop attached to it, with lathe and other machines for making and repairing scientific apparatus; and the appliances in the operator's room could also be used in teaching students the theory of abrasion and that underlying cutting tools, &c. The apparatus for teaching purposes now in the possession of the college may be classified as under:—

- I. Casts, models, copies, art works, modelling stands, &c., for School of Design.
- II. Chemical laboratory fittings, furnaces, &c.
- III. Physics, natural philosophy, &c., apparatus.
- IV. Mechanical, engineering, and architectural models.
- V. Lanterns and accessories, optical appliances, &c.
- VI. Anatomical models, physiological preparations, &c.
- VII. Mineralogical specimens, fossils, &c.
- VIII. Maps, diagrams, and general accessories for classes and lectures.
- IX. Specimens of manufactured goods and raw material, consisting of art pottery, examples of wood-carving, samples of wool, silver, &c.

An organized  
national system  
of education.

Mr. Thomas Twining, one of the best authorities on Technical Education, in his "Science for the People: a Memorandum on various means for propagating scientific and practical knowledge among the working classes, and for thus promoting their physical, technical, and social improvement," addressed to Lord Henry Gordon Lennox, M.P., Chairman of the Council of the Society of Arts, in 1870, makes the following remarks, which are now as applicable to the secondary educational institutions of this Colony as they were ten years ago to those of Great Britain:—"A national scheme of education, founded on data supplied from all parts by all parties, and elaborated by the collective wisdom of our ablest economists, would show what institutions of various kinds and degrees are required for securing our industrial progress in all its departments, and how they should be organized and conducted from an overlooking centre in order to requite with success the exertions or pecuniary aid of their originators and promoters. Thus, existing institutions would be gradually induced to purge themselves of incongruities, profiting as well as the new ones by the prescriptions of authoritative experience, and all would fall by degrees into the regular rank of a definite educational hierarchy."

Necessity for  
Technical Edu-  
cation.

In the preface to a work recently issued by the "City and Guilds of London Institute for the Advancement of Technical Education," dated May of the present year, its Council remarks:—"There can be no doubt that England is awakening none too soon to the importance of educating, with special reference to their future careers, those who are to be engaged in industrial operations. In every walk in life it may be assumed that the success of the individual depends quite as much on the character and extent of his special technical training as on his earlier and more general education. In certain professions this truth has been long since recognized; in others it has only now begun to be understood; but it is admitted on all sides that the future development of the trade and commerce of this country will greatly depend on the success of the efforts that are being made to provide efficient Technical Schools and Colleges in which primary and secondary education may be adequately supplemented. Both here and abroad it is generally felt that the old apprenticeship system is no longer sufficient to make operatives fully conversant with the 'mysteries' of their craft. The introduction of machinery into nearly every branch of industry has greatly changed the character of the relationship between the master and his apprentice; and the application of science to industrial operations has, in not a few cases, transferred from the foreman or works' manager to the practical science teacher the key to those mysteries, and has rendered necessary for workmen of every grade a different kind of training from that which was considered sufficient not many years ago."

Teaching  
required by  
artisans.  
Appendix V.

Regularly equipped Trade Schools could not be formed without great expense to the Colony, but technical classes for giving practical instruction to masons, bricklayers, turners, tailors, pattern makers, moulders, printers, and other workmen, similar to those on the curriculums of the London Artisans' Institute and the South London Working Men's College, would be of great service to apprentices and operatives in a new Colony. The Council of the City and Livery Companies Institute of London have recently resolved to subsidize a number of institutions giving practical instruction to those engaged in many important industries in the mother country.

Weaving Schools  
Appendix U.

The samples of woollens and tweeds shown at the Sydney International Exhibition prove that excellent articles from Australian fleeces can now be manufactured in the colonies, but, in order to progress with the times, technical classes for weavers, dyers, and designers are needed in the neighbourhood of factories, similar to those in the appended description of the Huddersfield Mechanics' Institute, and other weavers' schools recently founded or largely subsidized by the Clothmakers' Company, and other bodies in the United Kingdom.

As the Sydney Technical College now numbers its students by hundreds, it is evident that its formation has supplied a great want in the community, and the results from the classes prove that good work has been already done both by the lecturers and scholars. In view of the foregoing considerations, the committee therefore respectfully submit the following recommendations for the consideration of the Honorable the Minister of Public Instruction, with the view of ensuring the permanence of the Working Men's College, and extending Technical Education by means of the other Mechanics' Institutes of the Colony:—

Recommendations.

- I. That, in order to secure unity and co-ordination in the Educational Institutions of the Colony, it is recommended that Technical Education be administered in connection with the teaching provided for by the "Public Instruction Act of 1880."
- II. That, as the requirements of the Technical College are constantly increasing and necessitate an assured subsidy, an annual grant of not less than £2,500 should be provided for the present by Act of Parliament—in the same way as the endowment to the Sydney University—towards payment of lecturers, teachers, and other expenses, in imparting scientific instruction at the Working Men's College.
- III. That in future the country Mechanics' Institutes should be subsidized £1 for every £1 subscribed, on condition that not less than one-half the amount so granted be expended on evening science and art classes and popular lectures of an educational character.
- IV. That the Technical College and country Mechanics' Institutes should be utilized for educational classes during the daytime when considered desirable, and that the services of any lecturers and teachers now employed of an evening be availed of for giving such instruction.
- V. That, in order that students living in localities in which there are no evening science and art classes may have an opportunity of availing themselves of the advantages of the Technical College, suburban station-masters should be empowered to allow them the same privilege of travelling free to the city as already granted to children going to and coming from the Public Schools.
- VI. That, in order to meet the growing requirements of the Technical College, additional accommodation should be provided, by resuming the land and buildings shown on the plans marked Appendices C and D.
- VII. That the theatre or large hall of the Sydney School of Arts be leased by the Government, at the rate of £1,000 per annum, for the purpose of delivering courses of Popular Science Lectures of an evening, illustrated with the valuable apparatus belonging to the Technical College, and so that the senior scholars attending the Public Schools and the working classes may be admitted free of charge.

The following is a balance sheet of the Technical College for the last half-year. An estimate of the probable expenditure for the present half-year and for 1882 is submitted for the approval of the Minister of Public Instruction:—

THE Treasurer in account current with the Technical or Working Men's College in connection with the Sydney Mechanics' School of Arts, from 1st January to 30th June, 1881.

APPENDICES TO THE REPORT.

Appendix.

[Printed with report.]

- A—Plan showing suggested extension of Technical College Buildings.  
 B—Plan showing departments of the Sydney Mechanics' School of Arts at several stages of its history.  
 C—Plan showing the present premises of the School of Arts and the new buildings erected for the Technical College.  
 D—Sketches of the original School of Arts and its present buildings.  
 E—Table of comparative statistics of the School of Arts from 1833 to 1881.  
 F—Sketch of Modelling Class in branch schoolroom.
- [Copies enclosed.]
- G—Technical College Calendar for 1881.  
 H—Description of Agricultural College at Cirencester.  
 I—Description of Twining's course of "Science-made-Easy" Lectures.  
 K—Correspondence with Engineering Association respecting fees charged to students.  
 L—List of the apparatus and appliances belonging to the Technical College.  
 M—Report of the meeting at which the Technical College was founded.  
 N—Previous published correspondence between the Government and the School of Arts Committee respecting Technical Education.  
 O—Sydney Mechanics' School of Arts Incorporation Act and By-laws made thereunder.  
 P—Paper by Professor Dixon, F.C.S., on Technical Education.  
 Q—Paper by Mr. John Plummer on Technical Education.  
 R—Paper read before Intercolonial Trades Union Congress of Australia respecting Technical Education, by Mr. Edward Dowling.  
 S—Report of the Committee of the Sydney Mechanics' School of Arts for 1880.  
 T—Balance sheets of Technical College for 1879.  
 U—Description of the Weaving Classes at the Huddersfield Mechanics' Institute and Trade School.  
 V—Courses of study in the Practical Classes at the London Artisans' Institute.  
 W—Constitution and calendar of the Ballarat School of Mines.  
 X—List of classes and examinations at the Sandhurst School of Mines.  
 Y—Regulations of the Technological Commission of Victoria respecting Schools of Design.  
 Z—Suggestions for promoting Agricultural Education in New South Wales.

## APPENDIX G.

CALENDAR of the Technical or Working Men's College in connection with the Sydney Mechanics' School of Arts for 1881.

The Technical College is founded for the purpose of affording systematic instruction in the Sciences bearing on such branches of Art and Industry as are already or are capable of being successfully developed in New South Wales, and is principally intended for the education of persons engaged in industrial pursuits.

## CALENDAR, 1881.

## JANUARY.

#### POPULAR SCIENCE LECTURES.

Arrangements will, if possible, be made for the delivery of popular lectures every week during the winter months in the College Hall, to which the public will be admitted free of charge.  
Twining's course of "Science-made-Easy" Lectures will also be delivered in the City and Suburban and Country Schools of Arts as opportunities offer.

#### LANTERN READINGS.

Occasional Popular Lantern Readings will be given on Saturday evenings for the benefit of students and members, to which the public will also be admitted on payment of a small fee.

#### NATURALISTS' FIELD CLUB.

Papers will be read and excursions take place to suitable localities at convenient times under the guidance of competent leaders.

#### DEBATING CLUB.

Debating Club meets in College Hall every Monday evening. Visitors invited.

#### HORTICULTURAL SHOW.

Horticultural Show in College Hall on first Wednesday in each month. Admission free.

#### ANATOMY, PHYSIOLOGY, AND SIMPLE SURGERY.

Dr. Thomas Dixon.

*About twenty popular lectures in College Hall.*

General account of the Body.  
Element from which the Body is constructed.  
Framework of the Body.  
Motion and its accessories.  
Blood; what it is, how and where found and how circulated.  
Digestion; its Organs; Food; Secretion; Excretion.  
Breathing; the Organ; Air, &c.  
Speech; Sight; Smell; Touch; the Organs and Functions.  
The Nervous System; Brain; Spinal Cord and other nerve centres, &c.; Thinking; Feeling, &c.; where are located the organs for these functions; Dreams and other nervous phenomena.  
Difference between Man and other animals.  
Death:—Partial and General.  
To be illustrated by diagrams, specimens, and experiments (aided when necessary by the Tri-unial Lantern).  
The general aim of the course is to describe and illustrate practically the construction of the human body in a simple manner, and to show the action of the various organs, and the processes by which life is sustained.  
Thursdays at 8.  
Fee, 12s. 6d. for the course, or 1s. single admission.

#### APPLIED MECHANICS.

Mr. W. H. Warren, A.M., I.C.E., Whitworth Scholar, Society of Arts Technological Scholar, Royal Exhibitor, Past Student of Owens College, and the Royal College of Science, Dublin.

*[Course of about fifty lectures.]*

Principles of Statics—Representation of forces by lines. Parallel forces. Moments. Centre of gravity.  
The principle of work and its application to the simple machines. Horse power.  
Strength and Properties of Materials—Tensile. Compressive. Shearing and twisting strains. The calculation of the strains on framed and braced structures treated graphically.  
The Elements of Mechanism—Teeth of wheels. Transmission of power by wheel work and belting. Speed cones.  
Screws and screw cutting. Link and parallel motions. Machine tools. Lathes, planing and slotting machines.  
The principles of hydrostatics, hydraulics, and pneumatics, with their applications to pumps, presses, hydraulic cranes, hoists, water wheels, diving bell.  
Heat and the Steam-engine—Expansion of bodies by heat. Specific and latent heat. Mechanical equivalent of heat.  
Conduction, radiation, and absorption.  
Expansion of steam in the cylinder of a steam engine. Construction of steam engines and boilers.  
The large collection of Mechanical Models and apparatus lately purchased by the Committee will be used to illustrate the lectures, which will be made as practical as possible—complex formulae being avoided, and graphic representations freely used.  
Tuesdays and Fridays, at 8.  
Fee—£1 1s. for course; 12s. 6d. for half the course; or 1s. single admission.  
Free Introductory Lecture, Tuesday, 19th July, 1881.

ARCHITECTURAL

ARCHITECTURAL DRAWING.

Mr. Cyril Blacket, A.R.I.B.A. (Architect.)

The use of Scales in Drafting—Lines—Beauty of Curves—Drawing a complete Set of Plans of House costing (say) £1,500—The Use of Colours—Detail Working Drawings for Carpenter, Mason, Bricklayer, and Ironsmith—The Strength of Australian Timbers—The Strength of Metals and Sydney Freestone—Perspective Drawing—The Styles of Architecture. Text Books—Gwilt's Encyclopædia of Architecture—Ferguson's Handbook of Architecture—Owen Jones's Grammar of Ornament.

Mondays, at 7.30.  
Fee, 12s. 6d. per quarter.

ARCHITECTURE AND BUILDING CONSTRUCTION.

Mr. Cyril Blacket, A.R.I.B.A. (Architect.)

[Course of twelve lectures.]

1. Ancient Architecture from the earliest times up to the Roman Period.
2. Architecture from the Roman Period up to the Early Gothic.
3. Famous buildings before the 12th Century, and their Architects.
4. English Gothic.
5. Materials appropriate to various styles.
6. Modern Classic, both Greek and Roman.
7. Principles of Design and Proportion.
8. Beauty in Building construction.
9. Hospitals, past and present.
10. Ancient and Modern English Gentlemen's Houses.
11. Continental and American plans and elevations.
12. Architectural Wonders of the World.

Once a fortnight. Thursday at 8 p.m., beginning April 7th.  
Fee—for course, 15s.

CHEMISTRY.

Professor Dixon, F.C.S., F.I.C.

[Course of about fifty lectures in College Hall.]

Introductory.—The place of Chemistry amongst the sciences. The line of investigation it takes up, and its bearing on manufactures.

Hydrogen.—General properties of matter in the gaseous form.  
Chlorine, Bromine, Iodine, and Fluorine.—Their occurrences, preparation, and properties. Compounds with Hydrogen. Monobasic acids, combination by volume and weight. Law of definite proportions.  
Oxygen.—Properties, Combustion, Flame. Ozone—allotropic modifications. Compounds. Water—properties of matter in the liquid and solid forms.

Sulphur.—Occurrence and extraction. Crystallization. Compounds. Dibasic acids. Law of multiple proportions.

Phosphorus. Preparation uses. Oxides and acids. Tribasic acids.

Nitrogen.—Ammonia, Oxides and acids. The atmosphere.

Boron and Silicon Occurrence, Compounds, preparation and uses.

Carbon Modifications. Preparation. Use of Fuel. Compounds, gaseous and liquid hydrocarbons.

The metals will be treated of in the following order:—

Potassium Group.—Occurrence, Properties, Treatment, Manufacture of Glass, Soap, &c.

Calcium Group.—Occurrence and Properties, Mortar and Cement.

Aluminium Group.—Occurrence, Properties, Pottery, Bricks, Fire-resisting goods, Dyeing.

Zinc, Iron, Lead, Gold, and Platinum Groups.—Their occurrence, properties, metallurgy, and applications.

Text-book—Fownes' Manual of Inorganic Chemistry.

Tuesday and Friday, at 8 p.m.

Fee, £1 11s. 6d. for the Session.

CHEMICAL LABORATORY.

Students are instructed in Qualitative and Quantitative Analysis in the Laboratory, which is open from 10 to 5 daily, and on Saturday till 1 p.m., and from 7.45 to 9.45 on Monday evenings.

Students are supplied with fuel and gas, the use of a set of reagent bottles, the common reagents, and any of the larger and less commonly used apparatus, as balances, burettes, pipettes, measuring flasks, condensers, &c.; also with a working bench, cupboard, and drawer; except, that in case of the cupboards and drawers being occupied, short time students must give place to those of longer time, and provide a box for their apparatus.

Students are to supply themselves with what they require of beakers, blow-pipes, crucibles, evaporating basins, flasks, funnels, filter stands, filter papers, test glasses, test tubes and stands, small tongs, triangles, glass tubing and rod, watch glasses, platinum wire, foil, and crucibles, towels, chloride of platinum, nitrate of silver, iodine and iodide of potassium (for standard solutions); and if studying Metallurgy, all crucibles, scorifiers, cupels, borax glass; and assay lead and silver.

All students of Quantitative work must attend at least three full days per week, except those learning the use of the Pharmacopœia standard solutions.

Each student works independently under the direction of the Professor, and they may attend—

Daily .....	Fee per quarter	£13 13 0
Three days per week .....	"	7 7 0

ELECTRICITY.

Mr. John V. Dalgarno.

Course of lectures.

Early History.

Frictional, Thermo, and Voltaic Electricity.

Electro Metallurgy. Metallurgy.

Electro Magnetism and Magneto Electricity.

The various practical applications of Electricity, illustrated by experiments when practicable.

To be delivered on Thursday evenings, at 8 o'clock.

ELOCUTION.

Mr. John Connery.

Practical Lessons in Articulation, Pronunciation, Pause, Inflection of the Voice, Gesture, and Delivery.

Text Book: "The New Speaker," by J. Connery.

Tuesday, at 7.

Fee—10s. per quarter.

ENGLISH HISTORY AND LITERATURE.

## ENGLISH GRAMMAR AND READING.

Mr. John Connery.

Orthography, including Spelling by Dictation; Etymology and Syntax.  
Text Book: Lennie's English Grammar.  
Tuesdays, at 8.5.  
Fee—7s. 6d. per quarter.

## EXPERIMENTAL PHYSICS.

Mr. J. H. Maiden (of London University).

*A course of class lectures. Fee 12s. 6d. per quarter.*

Expansion of *Solids* by heat—linear, superficial, and cubical. Coefficient of expansion. Breguet's metallic thermometer; Gridiron pendulum; Graham's mercury pendulum. *Liquids*.—Apparent and real expansion. Various kinds of thermometers. Maximum density of water. *Gases*.—Expansion, Air thermometer.

Fusion. Influence of pressure on melting-point. Alloys. Fluxes. Latent heat. Specific heat. Solution. Solidification. Crystallization. Freezing mixtures.

Vapours, Measurement of their tension. Evaporation. Laws of ebullition. Influence of pressure on boiling-point. Franklin's experiment. Measurement of heights by boiling-point. Papin's digester. Cold due to Evaporation.

Liquefaction of vapours and gases. Stills and condensers. Spheroidal state. Density of vapours. Hygrometry. Conductivity of solids, liquids, and gases. Convection. Radiation and absorption. Calorimetry. Mechanical equivalent of heat.

## FREEHAND DRAWING.

(On the system approved by the Science and Art Department of the United Kingdom.)

Mr. T. Phillips (National Scholar, late of the National Art Training School, South Kensington, London).

Freehand Drawing.—Shading from the Flat and Round.

Students provide drawing materials, except copies.

Wednesdays and Saturdays, at 7.30 p.m.

Fee—10s. per quarter.

## DESIGN.

Mr. T. Phillips.

The Principles of Ornamental Design.

Tuesdays, at 8 p.m.

Fee—10s. per quarter.

## ELEMENTARY DRAWING.

Mr. T. Phillips.

Tuesdays, from 8 to 9.30; Thursdays, from 7.30 to 9.30.

Fee—10s. per quarter.

## AFTERNOON DRAWING.

Mr. T. Phillips.

Thursdays, from 5.15 to 6.15.

Fee—£1 1s. per quarter.

## FRENCH.

Mr. R. Curtis.

*Senior Class.*

Advanced Grammar and Exercises, Fables and Tragedies, Conversation, Dictation.

Text Books—Noel and Chapsal's Grammar and Exercises, Lafontaine's Fables, Racine's Tragedies.

*Junior Class.*

Accidence, Regular and Irregular Verbs, Exercises in Syntax and Idioms.

Text Book—Cassell's French Lessons.

Mondays and Thursdays—Ladies at 5.30; gentlemen at 7.

Fee—10s. per quarter.

## GEODESY AND SURVEY.

Mr. F. Beville.

Logarithms, and their use, as applied to Trigonometry.

Trigonometry, Practical and Analytical, Plane and Spherical.

Calculation of Areas by double Longitudes, and by Mensuration.

Laying out and dividing up Land.

Laying out Railway Curves.

Calculation of Heights and Distances, Contents of Tanks.

Magnetic Variation, and other problems involving calculations in Trigonometry, Mensuration, and Plotting.

Practical Field Surveying (if possible).

The students are taken individually, so that they may enter at the beginning of any quarter, and any instruction addressed to the class generally is of such a character as to be understood by all.

Text Book—Chambers's Practical Mathematics.

Wednesdays, 7 to 8.30.

Fee—10s.; extra fee for field surveying, 2s. 6d.

## GEOLOGY.

## GERMAN.

Herr Julius Levy.

*Senior Class.*

Irregular Verbs, Syntax, Composition, and Literature.

Text Book—Dr. Emil Otto's Conversative Grammar.

*Junior Class.*

Article—Declension of Nouns, Pronouns, and Adjectives, Prepositions, Auxiliary and Regular Verbs.

Tuesdays and Fridays, 6.45 to 8.45.

Fee—15s. per quarter.

## GREEK.

Mr. M. C. Howe, LL.D.

Tuesdays at 8.

Fee—15s. per quarter.

## ITALIAN.

## ITALIAN.

Signor A. Ferrari.

Mondays and Wednesdays at 8.  
 Fee—10s. per quarter.

## LADIES' DRAWING CLASSES.

Miss Marsh.

Subjects—1st, Elementary Freehand Drawing from the Flat.  
 Do. 2nd, do. do. do. from the Round.

Pupils attending these Drawing Classes will be instructed in all the principles of the Art; and that they may obtain the full benefit of the instructions given during the period of their attendance in class, they will be expected to apply themselves at their own homes to the regular practice and study of the work given them by the teacher.

Monday and Thursday afternoons, 2.45 to 4.45. Private class on Tuesdays and Fridays, 9 to 11.

Fee—For afternoon class, £1 1s. per quarter; morning class, £2 2s. per quarter.

## LATIN.

Mr. M. C. Howe, LL.D.

*Senior Latin Class.*

Text Books: Inno's Latin Syntax—Livy, Horace.

First and Second Quarters: Exercises on Cases—Exercises, 40 to 50; Livy, Book XXI.

Third and Fourth Quarters: Exercises on Moods—Exercises, 51 to 100; Horace, Odes, Book III.

*Junior Class.*

Declension of Nouns and Adjectives—Exercises, 1 to 14.

Comparison of Adjectives; conjugation of sum—Exercises, 15 to 24.

Conjugation of Regular Verbs, active and passive—Exercises, 25 to 36.

Conjugation of Irregular Verbs—Exercises, 37 to 48.

Text Book—Smith's Principia Latina.

Tuesdays and Fridays, at 7.30.

Fee—15s. per quarter.

## MATHEMATICS.

Mr. J. Wright.

Algebra Text Book—Todhunter's Algebra for beginners. Plane Geometry. Text Book—Todhunter's Euclid, Book 1, 2, 3, 4, 6, and 11, with exercises.

Thursdays, 7.30, 9.30.

Fee—10s. per quarter.

## MINERALOGY.

## MECHANICAL DRAWING.

Mr. W. H. Humphreys.

The use of Drawing Instruments—Copying Drawings of portions of Machinery—Designing—Perspective and Isometrical Projection.

Fridays, at 7.30 p.m.

Fee—12s. 6d. per quarter.

## MODELLING CLASS.

(In Branch School-room.)

Mons. L. F. Henri.

Class meets twice a week, Mondays and Fridays, at 7.30.

Fee—10s. per quarter.

Modelling—1st day, Modelling from the cast.

2nd day, from nature, foliage, flowers, and animals (Australian).

Before joining the class every student must procure a certificate from one of the teachers of the School of Design certifying to his proficiency drawing.

This class is started for the purpose of affording an opportunity to young Australian artists to bring into practical use their knowledge of Drawing, and should be attended by young men employed in pottery and architectural works.

## MATERIA MEDICA AND PHARMACY.

Mr. Fred. Wright, M.P.S.

Synopsis of Class Lectures.

Simplest forms of drugs. Crude drugs. Solution of drugs. Active principles. Tinctures, official and unofficial. Materia medica of Tinctures. Leaves, roots, flowers, herbs, barks, seeds, gums, simple tinctures, compound tinctures. Flavouring matter in tinctures. Colouring matter in tinctures. Ammoniated tinctures. Alcoholic strengths. Pharmaceutical strengths. Methods of preparation. Maceration percolation. The hot process. Burton's process. Tests for strength. How to compose a formula.

*Liquors.*—Of the metallic elements; of the non-metallic elements; of extracts, of vegetable alkaloids, of oleo-resins. Mode of preparation, tests for strength and purity. Formula for an unofficial liquor.

*Extracts.*—Alcoholic, Aqueous, Acetic. Fluid extracts. Compound extracts. Methods of preparation, consistency, common adulteration. Tests for purity and quality.

*Syrups.*—Colouring Agents, Flavouring Agents. Phosphatic syrups. Glyceroles of phosphates. Liquors for preparation of syrups. Specific gravity of syrups.

*Infusions and Decoctions.* Methods of preparation. Compound and simple infusions. Materia medica of infusions. Concentrated decoctions, preservation of aromatic principles. Methods of preservation.

*Waters.*—Medicinal, flavouring, modes of preparation, concentrated waters.

*Spirits.*—Etherial, of essential oils.

*Succi* of the Pharmacopœia.

*Mucilages* of the Pharmacopœia.

*Gums* of pharmacy, of the Pharmacopœia.

*Oils.*—Essential and fixed oils.

*Pills.*—Materia medica of ingredients. Fineness of powders. Preparation of mass. Excipients. Coating.

*Plaisters.*—Preparation of Pharmacopœia Plaisters.

*Suppositories* and their preparation. Climatic influence on formula.

*Ointments.*—Climatic influence. Consistency, Preservation. Oleates.

*Powders* of the Pharmacopœia.

*Acids.*—Their strength, purity, &c. Diluted Acids. Anhyrous Acids. Vegetable Acids. Methods of preparation.

*Mercurial* preparations.

*Iron* preparations.

*Potash* and *Soda* preparations.

Similar.y

Similarly all the important groups.  
And so on throughout the Pharmacopœia.  
Demonstrations in Practical Pharmacy with the Lectures.  
Wednesdays at 7.30.  
Fee—10s. per quarter.

NATURAL PHILOSOPHY.  
Rev. Joseph Campbell, B.A.

*Synopsis of Lectures.*

Lecture I.—Wednesday evening, February 9th.—Preliminary remarks; definition; rest and motion; force and matter; properties of water; first law of motion; applications of this law.  
Lecture II.—February 16th.—Recapitulation; second and third laws of motion; application of these laws; circular motion; figure of earth, &c.  
Lecture III.—February 23rd.—The Pendulum; its application for the purpose of measuring time and the force of gravity; centre of gravity; the mechanical powers, viz., the lever and the wheel and axle.  
Lecture IV.—March 9th.—The Mechanical Powers continued, viz., the pulley, the inclined plane, the wedge and screw; the catenary; the history of the arch; to conclude with a few remarks on the interaction of natural forces.  
Lecture V.—March 16th.—Pneumatics—General properties of air; atmospheric pressure; the barometer; the air-pump—numerous experiments.  
Lecture VI.—March 23rd.—Pneumatics continued—Hydrostatics, or the general properties of liquids at rest. Properties of fluids; hydrostatic paradox; Brahma's press; equilibrium of floating bodies; specific gravity; the hydrometer, &c., &c.  
Lecture VII.—March 30th.—Hydrodynamics, or the properties of fluids in motion; springs and fountains; geysers; various kinds of pumps; fire engine, &c., &c.  
Lecture VIII.—Sound; chemical harmonics; echo; qualities of musical sound; the siren; optics; propagation of light; photometer; reflection of light; sextant, &c.  
Lecture IX.—Optics continued; refraction; mirage; lenses; magic lantern; microscope; telescope, &c., &c.  
Lecture X.—The eye; its construction; considered as an optical instrument; phenomena of long and short sight, &c.  
These Synopses are merely to give an idea of the ground which will be gone over during this course of lectures. Many interesting matters not enumerated will also be dealt with.

NAVIGATION.

Captain Eedy.

Geographical Problems in relation to Navigation—The use of Logarithms, Traverse Tables, &c. The use of the Mariner's Compass.  
Plane Trigonometry, in its application to Navigation.  
Finding a ship's position at sea by means of plane navigation.  
The Use of the Sextant, Quadrant, and Charts.  
Finding a ship's position at sea by means of Astronomical Problems.  
Law of Storms—Correcting Compasses for Deviation by means of Magnets and Soft Iron.  
Text Books.—Raper's, Norrie's, Riddle's and Bergin's Navigation, Ainsley's Guide to Marine Board Examination, Piddington's Horn Book (Law of Storms).  
Thursdays and Saturdays at 7.30.  
Fee—£1 1s. per quarter; 10s. per month, or 2s. per lesson.

PRACTICAL GEOMETRY AND PERSPECTIVE.

Mr. T. Phillips.

Text-books—Gill's Second Grade Geometry; Birchett's Practical Plane Geometry.  
On Evenings to be arranged.  
Fee—10s. per quarter.

PHONOGRAPHY.

Mr. Henry Chapman.

Phonography—Reading and Writing. Text-book—Pitman's Shorthand.  
Monday at 7. Fee—10s. per quarter.

POLITICAL ECONOMY.

Rev. Evelyn G. Hodgson, M.A., S.C.L., Vice-Warden of St. Paul's College, Sydney University, late Denyer and Johnson Scholar in the University of Oxford.

*The Production of Wealth.*

Lecture I. Political Economy: Its Definition and Scope.  
Lecture II. The Requisites of Production: Natural Agents and Labour.  
Lecture III. The Requisites of Production: Capital.  
Lecture IV. The circumstances which regulate the varying degrees of Productiveness in the requisites of Production.  
Lecture V. The Laws which regulate the increase of the aggregate stock of the requisites of Production.

*The Distribution of Wealth.*

Lecture VI. Property. Lecture VIII. Wages.  
Lecture VII. The Classes among whom the Produce is distributed. Lecture IX. Profits.

*The Exchange of Wealth.*

Lecture X. Wages. Lecture XIII. Money.  
Lecture XI. Value. Lecture XIV. Credit.  
Lecture XII. Rent. Lecture XV. International Trade.

*The Influence of Government.*

Lecture XVI. Taxation.

*Supplemental Lectures.*

I. Systems of Land Tenure. IV. Influence of the Progress of Society upon Production and Distribution.  
II. Ricardo's Theory of Rent. V. Governmental Interference.  
III. Paper Currency.

N.B.—No actual Text-book will be used in these lectures, but gentlemen preparing to attend the course are recommended to provide themselves with Adam Smith's "Wealth of Nations," and either John Stewart Mill's "Principles of Political Economy," or Professor Fawcett's "Manual of Political Economy."

Wednesday at 8. Lectures delivered in the College Hall.  
Fee—12s. 6d. for the course, or 1s. single admission.

PHOTOGRAPHY.

## PHOTOGRAPHY.

Mr. L. Hart.

[Course of twelve Lectures.]

- |   |  |
|---|--|
| 1. History of Photography.                                | 7. Carbon Processes and their application.   |
| 2. Salts of Silver, Positive and Negative Baths.          | 8. Enlarging Processes.                      |
| 3. Collodion Sensitive Services; Action of Light thereon. | 9. Fatty Ink Processes, Woodbury Type, &c.   |
| 4. Theory of Development, Fixing, &c.                     | 10. Other Processes not in general practice. |
| 5. Dry Plates and Emulsions.                              | 11. Applications of Photography.             |
| 6. Silver Printing—Glass, Paper, Porcelain, &c.           | 12. Practical Photography.                   |
- Text-book:—History of Photography by Gustave Tissardin, translated by G. G. Thompson, Sampson Low & Co.  
 Fee—for course, £1 1s.

## TELEGRAPHY.

Mr. John V. Dalgarno.

[Of the Government Telegraphic Department.]

- |  |  |
|--|--|
| Static Electricity.                                  | Testing for Line Faults.   |
| Voltaic Electricity.                                 | Duties required to be Performed by Operators and Persons in charge of Telegraphic Offices. |
| Electro-Magnetism.                                   | Qualifications Necessary to ensure Success as Practical Telegraphists.                     |
| Magneto-Electricity.                                 | Fridays at 7.  |
| The Laws of Conductivity, Induction, and Resistance. | Fee—£1 1s. per quarter.  |
| The Leading Systems of Telegraphy.                   |  |
| Construction of Aerial and Submarine Lines.          |  |

## THEORETICAL MECHANICS.

Mr. J. H. Maiden.

Class Lectures, 12s. 6d. per quarter.

## I. Statics—REST.

Inertia. Force. Illustrations of Inertia. Specification of Forces. Resultant and Components. Parallelogram of Forces. Composition of any number of forces acting at a point. Parallelepiped of forces. Resolution of forces. Illustration from sailing vessel.

Centre of Gravity defined. Equilibrium of a body suspended at a point. Centre of gravity of triangular lamina; of two or more particles; of various solid bodies, &c.

Equilibrium—Stable, Unstable, and Neutral.

Machines—Definition of a Machine. Mechanical advantage of a machine. Three kinds of levers—Illustrations. Wheel and axle; windlass; capstan; toothed wheels. The three systems of pulleys—Inclined plane; wedge; screw.

## II. Dynamics—MOTION.

Velocity—Uniform and accelerated. Space passed over by a moving body. Relation between final and initial velocity of a moving body.

Composition of velocities—Resultant velocity. Formulae of motion. Parallelogram of velocities.

Geometrical representation of motion.

Falling bodies. Bodies falling freely. Application of general principles of motion. Height to which a body rises. Whole time of flight.

Matter. Mass. Momentum. Density. Force. Unit of Force. Gravitation. Weight. Pressure.

Atwood's Machine. Dynamical formulæ.

The three laws of motion—Reaction; tension; impact; recoil of a gun.

Memo.—Much attention will be paid to the solution of problems.

## WRITING AND ARITHMETIC, IN BRANCH SCHOOLROOM.

Messrs. A. Adams, and S. J. Hardy (Assistant).

## Writing.

1st Quarter—Large Hand, from Copy Lines, Illustrations. Mulhauser's System.

2nd Quarter—Round and Small Hand from Copy Lines.

3rd Quarter—Bills, Promissory Notes, Receipts, &c.

4th Quarter—Letter Writing, Essays or Transcription.

Collins's Progressive Copy Books.

## Arithmetic.

1st Quarter—Theory with Illustrations on black-board of Notation, Numeration, and simple Rules, with exercises.

2nd Quarter—Theory; Reduction and Compound Rules with exercises.

3rd Quarter—Theory: Vulgar Fractions, Proportion, and Practice, with exercises.

4th Quarter—Theory: Decimal Fractions and Square Root, with exercises.

Text-books: Colenso's, Barnard Smith's, or Thompson's Arithmetic.

Tuesdays and Thursdays, 7:30 to 9.

Fee—10s. per quarter.

## WOOD-CARVING.

Mr. J. Clark.

The rudiments of general carving. Truth of outline and cleanness of finish.

Carvings from drawings, castings, fruits, flowers, carved models for fret-sawing.

The class should be attended by young men, apprentices to carpenters and joiners, who should be proficient in freehand drawing. Students to find their own gauges.

Wednesdays and Saturdays at 7:30.

Fee—10s. 6d. per quarter.

## CLASS ROOMS AND HOURS.

## 1. Drawing-room.

Monday—Ladies Drawing, 2:45 to 4:45. Architectural Drawing, 7:30 to 9. Thursday—Ladies Drawing, 2:45 to 4:45. Afternoon Drawing, 5:15 to 6:15. Elementary Drawing, 7:30 to 9:30.

Tuesday—Ladies Drawing, 1 to 11. Design, 7 to 8. Elementary Drawing, 8 to 9:30. Friday—Ladies Drawing, 9 to 11. Mechanical Drawing, 7:30 to 9.

Wednesday—Freehand Drawing, 7:30 to 9:30. Saturday—Freehand Drawing, 7:30 to 9:30.

## 2. Large Room 1st Floor.

Monday—French, 5:30 to 6:30, Ladies; 7 to 8, Gentlemen. Thursday—French, 5:30 to 6:30, Ladies; 7 to 8, Gentlemen.

Tuesday—Elocution, 7 to 8. English Grammar, 8:5 to 9. Architecture, 8:15 to 9.

Wednesday—Pharmacy, 7:30 to 9. Friday—Telegraphy, 7 to 8.

Saturday—

3. Small Rooms Floor.

Monday—Italian, 7 to 8.  
 Tuesday—Latin, 7 to 8. Greek, 8 to 9.  
 Wednesday—Geodesy, 7 to 8. Italian, 8 to 9.

Thursday—Mathematics, 7:30 to 9.  
 Friday—Latin, 7:30 to 9.  
 Saturday—

4. Committee Room.

Monday—Phonography, 7 to 8.  
 Tuesday—German, 6:45 to 8:15.  
 Wednesday—

Thursday—General Committee Meeting.  
 Friday—German, 6:45 to 8:15.  
 Saturdays—

5. Lecture Hall.

Monday—Debating Club, 8 to 9.  
 Tuesday—Applied Mechanics, 8 to 9.  
 Wednesday—Political Economy, 8 to 9.

Thursday—Anatomy and Physiology, &c., 8 to 9.  
 Friday—Applied Mechanics, 8 to 9.  
 Saturday—Lantern Readings, 8 to 9.

6. Branch Schoolroom.

Monday—Modelling, 7:30 to 9.  
 Tuesday—Writing and Arithmetic, 7:30 to 9.  
 Wednesday—Wood-carving, 7:30 to 9.

Thursday—Writing and Arithmetic, 7:30 to 9.  
 Friday—Modelling, 7:30 to 9.  
 Saturday—Wood-carving, 7:30 to 9.

TIME-TABLE FOR 1881.

APPENDIX H.

From "Technical Education in England," by Mr. G. C. T. Bartley.

Description of the Agricultural College, Cirencester.

*Agriculture.*—The teaching of agriculture is one of such importance and of so technical a nature that it should be included in any general scheme for promoting Technical Education.

Technical instruction in agriculture requires—

1. A knowledge of agricultural science, and of the practical application of agricultural science to the cultivation of the soil. Such instruction should not only be a preparation for learning the theory of farming, but it should also be a means for learning much of the practice.
2. A knowledge of mechanical science. This is an important preliminary for knowing how our various agricultural implements should be constructed, so as to meet the requirements of different soils, and to economise power and cost, whilst securing effective implements. The management of the steam-engine and steam implements constitutes also a most important branch of instruction.
3. A knowledge of drawing and construction of building in relation to farm buildings and estate management.

One important feature connected with this branch of technical instruction is, how far practical instruction upon a farm is of absolute necessity in order that youths may acquire instruction in the practice of the farm. Under certain circumstances a farm school, where instruction is given during one half of the day, and the pupils are employed upon the land during the rest of their time, would have unquestionable advantages, and without some such instruction the teaching could not be practical or technical.

The object of the Agricultural College, Cirencester, is to train men for agricultural employment, whether as owners or occupiers of land, land agents, or stewards, and as such it must be included among those institutions giving Technical Education.

*Agriculture.*—Instruction in agriculture is given by lectures and daily practical classes on the farm.

The agricultural course of instruction thus embraces not only a scientific discussion of established methods of cultivating different kinds of soils in different climates, of the breeding, rearing, and general management of stock, and of the use of machinery, but also affords a good illustration of the cultivation of a Cotswold farm, to which, by an arrangement made with the tenant, the students have free access.

Each student is required to keep a daily journal of all the operations on the farm, and to make himself thoroughly acquainted with the monetary transactions.

Students who wish it have special work allotted to them—some taking charge of the horses or cattle, some of the sheep or pigs. Excellence in this work is rewarded, as well as in ploughing and sheep-shearing. In the laboratory instruction in chemical manipulation and analysis is given, and the students, after studying the properties of the more commonly occurring substances, are taught to analyse a series of compounds, proceeding from simple to more complex cases, and to apply the knowledge thus obtained to the analysis of manures, soils, ashes of plants, farm products, and other substances, with which the practical agriculturalist is more immediately concerned.

In

In addition to the above methods of instruction, systematic courses of illustrated lectures are given on inorganic organic, and agricultural chemistry, as well as catechetical lectures.

Analysis of artificial manures, oilcakes, waters, &c., are daily performed in the college laboratory, and chemico-agricultural researches undertaken by the more advanced students, under the immediate direction of the professor and assistants.

*Natural History.*—During the winter months lectures are given in geology. Excursions are also made in the surrounding neighbourhood, in which different formations from the Silurian to the chalk are easily accessible.

In the summer the lectures include courses on structural and systematic botany, and practical lessons in which the students are required to write out descriptions of plants dissected by themselves. The lectures are illustrated by extensive collections of specimens and diagrams. The materials for the practical work are supplied from a botanic garden containing collections of indigenous and cultivated plants.

*Veterinary Surgery.*—Instruction in this department includes lectures on anatomy, pathology, and therapeutics, illustrated by cases in the hospital attached to the college. In order to make the teaching in this department as practically useful as possible, students are required to record the particulars of all cases admitted for treatment, especially the result of *post mortem* examinations.

*Lathe, Carpentry, and Smith's Work.*—To such students as desire it, instruction in these is given in shops attached to the college and farm buildings.

In addition to these specially technical subjects, the college curriculum includes most of the ordinary subjects of education, such as mathematics, mechanics, natural philosophy, drawing, bookkeeping, &c.; and also a complete course of training in the abstract sciences underlying the whole of agriculture. It should also be mentioned that a museum is attached to the college, containing specimens which are most useful to the technical teaching carried on. Further than this experimental work, as it may be called, research is undertaken at the college in connection with the Cirencester Chamber of Agriculture, and under the superintendence of the professors of agriculture and chemistry.

The syllabus of the whole of the course at this college is too long to insert, but it will perhaps be interesting to give the one on agriculture, as it shows that complete combination of theoretical and practical instruction so often referred to in this paper as essential to Technical Education.

#### AGRICULTURE.

##### Session 1.

1. Origin, distribution, and physical properties of soils—improvement of soils by draining—subsoiling—trenching—claying—lining—marling—chalking—warping and general cultivation. 2. Treatment and application of farm-yard manure—liquid manure—composts—green crop manuring—sea-ware—application and uses of “portable” or “artificial” manures. 3. Ploughs and ploughing—cultivators—other tillage implements—sowing machines and manure distributors—hay-making machines—reaping and mowing machines—thrashing and dressing machines—barn implements—carts and waggons—chaff-cutters, turnip-cutters, and pulpers—implements used in stock-feeding—implements of less general use.

##### Session 2.

*Crops.*—1. Rotations suitable for various soils—bare fallow—root forage, cereal, and other crops treated with reference to the soil best adapted for their growth—preparation of the land—times and methods of sowing—kind and quantity of manure—seed—after cultivation—harvesting—consumption or preparation for market—cost of production—probable yield. 2. Laying land down to grass—arable *v.* pasture land.

##### Session 3.

*Live Stock.*—1. Agricultural horses: Breeds of—general management—feeding—number required—cost of maintenance—capital sunk in. 2. Sheep: Breeds of—management of ewe flock—summer management of lambs—winter-feeding—shed-feeding—relations of food to increase—wool—dipping and salving—number maintained per acre. 3. Cattle: Position in animal kingdom—Shorthorns—other British breeds—bringing up calves—summer and winter management of young stock—the fattening process—relation of food to increase—dairy management—butter and cheese manufacture—realization. 4. Swine: Breeds of—management of sows—stores—fattening pigs—bacon curing. 5. Farm buildings: Position of—central *v.* scattered—general design and dimensions—construction and cost. 6. Fences. 7. Capital. 8. Land valuing. 9. Entering and quitting farms—leases and agreements. 10. Labour: Taskwork. 11. Steam cultivation.

##### 1st, 2nd, and 3rd Session.

*Field Classes.*—Practical classes are held. The instruction includes—the inspection of field operations as they occur—examination of implements—the weighing of animals—handling and estimating the value of fat and lean stock, &c.

##### Session 4.

*Field Classes* as above are held, and excursions to neighbouring farms are undertaken in addition.

*Practical Work.*—Ample opportunity is afforded for this on the college farm. The professor of agriculture is also to find definite employment for students desiring it, by giving them the following posts on the experimental farm as they become vacant:—Bailiff, shepherd, under shepherd, pigman, clerks of experiments, &c.

## APPENDIX I.

SUGGESTIONS for developing the Elements of the Science of Daily Life in the Primary Schools of the People, with the aid of the “Science-made-Easy” Course. By T. Twining, author of “Technical Training,” &c.

*Supplied free to Teachers on application to William Hudson, Esq., B.Sc. (London), Economic Museum, Twickenham.*

### PREFATORY NOTICE.

A measure fraught with valuable results for the propagation of Science among the Industrial Classes has been adopted within the last year by the School Board for London. Boxes of Apparatus for Object Teaching, devised by Dr. J. H. Gladstone, F.R.S., and prepared by Messrs. Griffin & Co., of Garrick-street, Covent Garden, have been supplied on demand to the several schools under the Board, together with an explanatory list showing the chief purposes for which such apparatus may be employed in order to render the teaching of common things experimental, as well as visual, and thus to instil early notions of scientific facts. The paper read by Dr. Gladstone on the 18th December, 1878, at the Society of Arts, has clearly shown that it is desirable that these notions should be developed in a practical direction, and it is in furtherance of this view that I addressed to the School Board the following communication:—

*Memorandum concerning assistance offered to the School Board for London, by T. Twining, in providing competent teachers for the proposed scientific object lessons.*

In order to derive full value from the measures adopted by the School Board for London, at the suggestion of Dr. John Hall Gladstone, F.R.S., for introducing the elements of the science of common things in the lower standards of primary schools, and also in order that this early initiation may be followed up by a progressive development, leading ultimately to the “special subjects” of the code, it is obvious that such initiation and development should be entrusted to teachers thoroughly qualified for the discharge of their important duties. They should not only have, as it were, at their fingers’ ends, the knowledge they are called upon to diffuse, but be specially trained in the peculiar art of explaining, in a pleasing manner, with a limited supply of cheap apparatus, the applications of elementary science to the familiar requirements of daily life, and able to turn to account with ingenuity and originality every available resource, thus producing a maximum of results with a minimum of outlay.

The elementary notions of physics, chemistry, natural history, and physiology, embraced by my “Science-made-Easy” course, having been selected and developed with a special view to purposes like these, it may be hoped that the School Board will favourably consider my offer to place that course at the free disposal of its teachers of both sexes, in a series of twenty class lessons, specially adapted to pedagogic requirements, to be held at the Middle-class Schools, Cowper-street, City Road. A full

full collection of the required apparatus and diagrams is permanently located there for the regular instruction of the boys by Mr. John A. Bower, the science master, and that gentleman, whose abilities and experience are well known, would take charge of the proposed pedagogic course. Not only would no expense be incurred by the Board or the teachers, but a suitable prize fund would be provided in connection with the examinations at the close of the course.

Sir, School Board for London, Victoria Embankment, W.C., 10 November, 1879.

Your memorandum offering assistance to the School Board for London in providing competent teachers for the proposed scientific object lessons has been carefully considered by the School Management Committee.

I am directed, in reply, to state that they are very glad to hear that such lectures are going to be delivered, and they will be pleased to facilitate the attendance of the teachers.

I am, &c.,

G. H. CROAD,

Clerk of the Board.

T. Twining, Esq., Twickenham.

In consequence of this favourable reply I have taken the necessary steps for the delivery of the proposed course immediately after the Christmas holidays. In the meantime I have revised for publication the following considerations as to the manner in which science of a simple and essentially practical character might be incorporated in the education of the people, with prospective benefit to health and capabilities, well-being, and morality. Since these views were committed to writing, about twelve years ago, much has occurred to confirm them. It has been proved by actual results that scientific facts properly selected and presented in an entertaining form, instead of interfering with what may be called the business routine of a Primary School, tend rather to make it proceed more smoothly, because they refresh and invigorate intellects apt to be wearied by monotonous work. I have retained the form of questions and answers in which my paper was originally written, making however the alterations and additions required for bringing it to bear on the present purpose.

T. TWINING.

P.S.—Since the above was set in type I have been favoured with a copy of the "Instructions" concerning "object teaching," issued by the School Management Committee, and seeing on how many points my "suggestions" appear to coincide with their views, I should be happy to place at the disposal of the Board a full set of "Science-made-Easy" apparatus and diagrams for being circulated to a number of schools in succession. (See note to page 29.)

#### THE SCIENCE OF DAILY LIFE.

What is the science of daily life? The science of daily life teaches those natural laws by the observance of which we may hope, under the Divine blessing, to secure in the ordinary ways of life the greatest possible share of health and comfort. It may be said to consist of two parts:—*Firstly*, the indispensable facts and principles of certain branches of elementary scientific knowledge; and, *secondly*, the applications of this elementary knowledge to the various departments of domestic or household economy, and to sanitary economy or hygiene.

What branches of elementary knowledge are indispensable as a groundwork of the science of daily life? A practical investigation of the intellectual and physical requirements of the working classes, for which peculiarly favourable opportunities were afforded by the Twickenham Economic Museum, has demonstrated that such a groundwork ought to include the elements of mechanical and chemical physics, chemistry, and physiology, with outlines of natural history.

What is meant by domestic or household economy? Domestic economy embraces not only the principles on which household matters should be conducted, but also the study of every means by which a home may be made comfortable, and the due appreciation of every resource with the help of which life may be rationally enjoyed.

What is meant by sanitary economy? Sanitary economy includes all those interesting applications of science to either public or personal requirements, by which good health may be maintained, indifferent health improved, and suffering of any kind alleviated.

To what classes of society is the knowledge of the science of daily life more especially useful? To those whose means are limited. Whilst it is useful to all classes of society, it is more especially needed by the working classes, to whom it is a matter of vital importance to possess a knowledge of all available resources, and a practical ability for turning them to the best advantage.

What means may be considered as most appropriate for propagating a knowledge of the science of daily life among the people? Among the most appropriate means are:—1. Public Economic Museums. 2. Economiums, cabinets of common objects, and boxes of simple apparatus for schools. 3. Printed courses of lectures or familiar discourses, and science primers, devised like the "Science-made-Easy" course for popular instruction. 4. A special training of the teachers of the people, both as regards the knowledge to be possessed and the necessary aptitude for imparting it to the young.

What is an Economic Museum? It is a classified selection of specimens, models, diagrams, and other means of illustration, showing the distinctive characters, origin, and preparation of the things appertaining to daily life, of which the practical value should be duly impressed on the mind by means of explanatory labels, descriptive hand-books, or otherwise. Thus all classes of society, and especially those whose income is small, may be taught how their dwellings should be constructed in accordance with sanitary principles; what household improvements they may derive from the discoveries of science, or borrow from the customs and appliances of other nations; what fabrics they should wear; what food they should eat, and how it ought to be cooked; how they may distinguish things which are genuine, wholesome, substantial, durable, and really cheap, from those which are cheap only in appearance; and, in short, how they may live with judgment and get the best money's worth for their money. A Museum of Hygiene includes all things that have a direct bearing on health. An Economic Museum superadds whatever else may rationally promote our bodily comfort and advantage. The only museum of this kind hitherto carried out with a view to embrace, in methodical order, all the departments of domestic and sanitary economy, was that at Twickenham, near London, which was intended to form, when completed, a convenient pattern affording every facility and encouragement for the establishing of similar museums throughout the kingdom, varying in dimensions, and to some extent in character, in accordance with the resources and requirements of each locality. The food collection of South Kensington, now at Bethnal Green, shows the food department of an economic museum expanded to the proportions which every department ought to assume if carried out on a national scale. The Twickenham Museum was unfortunately destroyed by fire in April, 1871, just as it was becoming sufficiently complete for being transferred to some London Institution.

What are the *economiums* and other collections of common objects or apparatus, mentioned as suitable for introducing the science of daily life in schools? As regards *economiums*, I must state that one of the objects of the Twickenham Economic Museum was to induce the formation of small collections, similar to it in character, but brought down to the limits of space and outlay which schools of various categories could afford. The formation of these collections, which might appropriately have been called *economiums*, was prevented by the destruction of the parent museum; but now that the advantages of introducing science in schools are rapidly growing in public estimation, there is reason to hope that if a suitable example were set by some influential educational establishment, it might lead to a rapid propagation of the system. The excellent little Cabinets of Objects brought out some twenty-five years ago by Mr. Thomas Dexter, Master at the Royal Military Asylum, Chelsea, appear to have been nearly lost sight of. An institution that has done much to facilitate the study of common objects is the Home and Colonial School Society, where particular attention has been devoted to all that relates to the *Kindergarten* system; to say nothing of the good work accomplished by the Fröbel Society, the representative of that system in this country. Particularly deserving of attention, as the initiation of a system of useful progress, is the measure adopted by the School Board for London, of distributing small collections of apparatus specially devised for giving a scientific turn to object teaching. To enable the teachers to whom this educational appliance is entrusted more effectively to foster and expand the notions of practical knowledge thus instilled into youthful minds, is the purpose of the pedagogic course of "Science-made-Easy," to be delivered at the Cowper-street schools. "The aim is first to develop in the children's minds an interest in the things round and about them, to teach the use of all the senses, and to form habits of observation. Next, to lead to the exercise of the judgment in showing the relations of the different parts of bodies, and how their different qualities fit them for the uses to which they are applied." (Paper read by Dr. Gladstone at the Society of Arts, December 18, 1878.)

What are the special features of the "Science-made-Easy" course? Its chief peculiarities are as follows:—1. Being based on the experience of the Twickenham Economic Museum, it embraces the whole range of elementary scientific knowledge already mentioned, namely, mechanical and chemical physics, chemistry, physiology, and outlines of natural history, uniting in a methodical and progressive discourse, these branches of knowledge which are commonly taught separately, and connecting them for mutual support. 2. The most important elementary facts and principles of these branches of science have been carefully selected and condensed into ten lectures, each subject receiving the relative proportion of attention

to

to which it is fairly entitled by its importance. In these lectures everything is reduced to its least complicated form, and expressed in a simple and familiar style, rather cheerful than otherwise. Care is taken, and this particularly applies to chemistry, not to involve in present explanations things not yet come to. The least possible use is made of hard words, and in introducing for the first time any of these that may be necessary, either their sense is made plain by the context, or a homely explanation is added. Each scientific principle is as far as possible illustrated by examples borrowed from domestic and industrial life, and the advantage of knowledge of this kind to purse and person brought into relief; without however allowing selfish feeling to detract from a due sentiment of pious thankfulness for the bounties which nature lays in store for those who seek them. Such are a few of the peculiarities to which this course probably owes the popularity which it has acquired among the working-class audiences, to whom it has year after year been delivered on the binary system. 3. The mode of delivery called binary, of which this course offers the first example, consists in the joint action of a reader and a demonstrator. Whenever a specimen is to be shown, a diagram to be pointed to, or an experiment to be performed, a reference number in the text warns the reader to make any pause that may be required. The demonstrator, who has before him a list of instructions, with every device for enabling him to be ready at the right moment, does the needful, and the reading is resumed without the least embarrassment or loss of time. 4. The published course consists of six parts, one apportioned to an indispensable introduction, the other five containing each two lectures. These, independently of the convenience offered for home study by woodcuts, notes, appendices, &c., have been specially printed, so as to facilitate their binary delivery, either professionally or by amateurs. A set of more than forty pictorial diagrams has been brought out at prices within reach of institutes and schools with limited means, and a special catalogue, published by a London firm, shows that the same pains have been bestowed on simplifying the apparatus. The manufacture of the latter has been handed over to commercial enterprise. The publication of the book and diagrams is carried on at the expense of the author, for whom profit is entirely out of the question. 5. The arrangement of the text in sections and minor divisions facilitates the separation of each lecture into two class lessons, or its breaking up into materials for school use, whilst appropriate questionnaires subserve the holding of examinations on a plan equally fair to the candidates, and satisfactory to the examiner. 6. An attentive consideration of the requirements of industrial life shows that the range of subjects included in the "Science-made-Easy" course, independently of its bearings on health and physical well-being, presents to the artisan a peculiarly suitable general scientific foundation for any more advanced studies that may be required by the technical nature of his calling, drawing and mathematics being superadded wherever necessary. 7. This range is purposely so designed as not to interfere with those studies which constitute the indispensable groundwork of all education, namely, reading, writing, arithmetic, and moral instruction, or with such subjects as drawing, mathematics, physiography, including outlines of astronomy, grammar, history, and social or political economy.

Does the "Science-made-Easy" course represent the whole of the science of daily life? Certainly not. The science of daily life consists, as before stated, of two parts:—Firstly, the necessary foundation of elementary science; and, secondly, the applications thereof to household and health economy taken in so wide a sense as to include all the material concerns of ordinary life. The "Science-made-Easy" course supplies the elementary foundation, and in doing so it introduces by way of illustration the rationale of many of the common domestic processes, and of all the most important among the laws of health; it gives in fact as much information on these matters as can well be expected to be included for the present in the primary education of the people. But a methodical knowledge of domestic and sanitary economy, such as will perhaps be included at some future time in secondary schools, and such as every intelligent adult of the working classes should strive to possess, can only be obtained by reviewing systematically their several departments. A review of this description is intended to form a sequel to the "Science-made-Easy" course, and is to embrace the following subjects:—Dwellings, as they should be: Site, design, materials, and construction; Fixtures, furniture, and household utensils; Textile materials, fabrics, and clothing; Food; Warming, lighting, and cleaning; Domestic and personal hygiene; Safety from injury, and means of relief; Scientific appliances in common use; Household management and thrift. Many portions of this applied range are already in manuscript, as for instance those relating to the design and construction of dwellings on sanitary principles, to warming appliances, and especially to food. To condense these ample materials, to supply what is wanting, and to arrange the whole as an appropriate sequel to the "Science-made-Easy" lectures, will be, however, a time-taking task. Indications of some of the best existing educational books on the subjects included in the above range will be found in an appendix.

What special training is required by the teachers of the Science of Daily Life in the schools of the people, as regards the knowledge they should possess? The word *special* is susceptible of being used, in reference to education, in two very distinct acceptances, which it is important not to confound. Studies may be of a special character, either in the sense of being restricted to a *special subject*, or department of knowledge, or in the sense of being carefully adapted to the *special requirements* of a given class or category of students. The former principle must necessarily prevail, more or less, among those who aspire to conspicuous scientific eminence; though even in thus aiming at special distinction general knowledge must not be disregarded. As for the teacher who prepares himself for introducing the elements of practical science in the primary instruction of the children of the people, the latter principle should govern his studies. He must not follow the bent of any special aptitude or predilection of his own, but impartially consider what scientific knowledge is most useful in a working man's career. Common sense at once proclaims the paramount importance of health, for sustaining labour, and for enjoying in comfort the fruits thereof. Now, the laws of health and comfort cannot be understood without an insight into the structure and functions of the human frame, and the necessity for a certain amount of physiological knowledge is therefore undeniable. But physiology, in its turn, cannot be understood without a preliminary knowledge of the elementary principles of chemistry, nor can the rationale of the things most essential to our physical well-being be anywise mastered without adding to chemistry, not only a sound elementary knowledge of mechanical and chemical physics, but also certain methodical notions of the resources offered us by the three Kingdoms of Nature. Thus the thoughtful mind is led by an unerring concatenation of ideas to select *theoretically*, as the groundwork of the Science of Daily Life, the very same range of elementary knowledge of which the necessity became *practically* obvious in the elaboration of the Twickenham Economic Museum. As before stated, this elementary foundation, comprising as it does much practical information, is about as much as can be expected to be included for the present in the primary schooling of the people; but teachers of either sex who may be inclined to add to these elements a regular inquiry into their domestic and sanitary applications cannot be too much encouraged to do so. Excellent opportunities will thus be obtained for further developing the several branches of science of which the study has been initiated, and for adding to the appreciation of their intrinsic interest an impressive idea of their applied value. They will find particularly useful the hygiene of dwellings, of warming, of lighting, and, above all, of food. To the latter, to the value of which attention has of late been drawn by the Schools of Cookery, female teachers will do well to add the hygiene of dress, to say nothing of the management of infants and of the sick. Some of the books named in the Appendix may render teachers good service in these various directions. They will also find there catalogues of diagrams, apparatus, and instructive toys, of which it is desirable that they should possess a good general knowledge.

By what special training may teachers be enabled to impart to the young the Elements of the Science of Daily Life? One of the chief objects of the "Science-made-Easy" course is to subserve this purpose, offering a variety of resources for the instruction of children as well as of adults in the elementary knowledge in question. Hence the arrangements which have been made at the Cowper-street Schools for its special delivery to teachers of both sexes, with appropriate pedagogic remarks. The result will, however, much depend on their improving this opportunity with self-instruction. They should make themselves acquainted with the spirit and purpose of the course, as explained in its introduction, and with the various educational devices therein described. Then they should so master the simple facts and principles contained in the text, as to have, as it were, the gist thereof at their fingers' ends, and to be able to express it at any time in their own words. Bestowing particular attention on the instructions and practical duties of the demonstrator, they should aim at obtaining success with simple and cheap apparatus, and at devising makeshifts where the right thing cannot be had. It is particularly important that they should endeavour to perfect themselves in an intelligent readiness for turning to account educational opportunities and resources, and for creating them when they fail; at the same time always taking care that their scientific illustrations have as much as possible a practical bearing on the familiar concerns of daily life, or serve to impart interest to common things, by showing the spark of science concealed in them. They must remember that homeliness in the examples produces economy of expenditure, which is always a matter of importance in a primary school. The cleverest science teacher would be one who could accomplish a maximum of educational results with a minimum of outlay.

In what manner could a teacher thus trained initiate the elements of practical science at an early age, and progressively develop them? The mode of early initiation is indicated by the box of apparatus for object teaching, with its explanatory list;

list; and Dr. Gladstone's discourse at the Society of Arts shows the practical and utilitarian direction in which that initiation should be progressively developed, confirming the suggestions to the following effect contained in chapter I. of "Technical Training":—"Many of the visible and tangible features or properties of common objects, which children at an early age are found capable of noticing and retaining, may be amalgamated with illustrations of simple scientific facts, and worked into a kind of visual entertainment or show, in small progressive parts; and these properties and facts may further be impressed, whenever opportunities present themselves or can be created, by exciting little curiosities which science may be made to satisfy, and by raising little difficulties which science may be made to overcome; in short, every available means should be pressed into the service for rendering the instruction visible and tangible, impressive and entertaining, and making scientific lessons a boon and a treat, and never a bore. Evidence is supplied by many existing schools as to the capability of children for learning things demonstrated visibly and tangibly, vastly better than those which are matters of thought or memory, and especially things of which they see the purpose or enjoy the zest, far better than those which they only know to be deserving of attention, because they are told so." "After a time the properties and facts, which were before matters of opportunity, may be renewed in connected sequence, and separated into groups belonging to distinct branches of science." Thus by degrees the teacher might adopt a methodical arrangement like that of the "Science-made-Easy" course, and a work of that description might be regularly introduced, say in the 5th standard. Generally it has been found convenient for such purposes to split each "Science-made-Easy" lecture into two class lessons, and indications for this object, based on practical experience, are supplied in the second edition of the Introduction.\* The lessons, as a rule, are delivered single-handed by the teacher, that is to say, he combines the duties of the reader and of the demonstrator, taking advantage of the greater colloquial freedom thus obtained to repeat or explain conversationally the passages which he perceives that some of his pupils have not satisfactorily taken in. On the whole, a lesson giving in this way the text of half a lecture, may be assumed to take about as much time as a complete lecture on the binary plan. The first lesson is naturally introduced with a brief account of the purpose of the course, and each succeeding one begins with an examination of the pupils in the subject-matter of the preceding lesson. Each is concluded with the answering of relevant questions, which the pupils are invited to ask, or appropriate remarks are addressed to them according to their age, &c. Boys may be shown how they can amuse themselves at home by imitating some of the experiments of the lesson in an even simpler form, and how, by and by, as artisans, they may apply the principles they imbibe to the benefit of their handicrafts. Sometimes apparatus borrowed for the further elucidation of the subject that has been treated of may be appropriately introduced, taking care not to diverge too much from the practical nature of the course. Some of the most welcome additions would be illustrations of applied science selected from the subjects reserved for the sequel to "Science-made-Easy." Such as mechanical contrivances in common use; warming and lighting appliances; static and dynamic electricity, magnetism, telegraphy, &c.; chemistry applied to homely processes and simple manufactures, or to food and nutrition; microscopic illustrations of structural botany; growth of exogens and endogens; useful woods for building and joinery; selections from economic botany and zoology. As to introducing physiological demonstrations, it should be remembered that many of them which are free from reproach when conducted by skilled hands and enlightened minds might lead to cruelty in the hands of boys. With boys in the 6th standard it might be advisable to adopt the binary plan of delivery, making those lads who might be clever enough take the parts of reader and demonstrator. Much more numerous would be those who could join in the preparation of the apparatus. Independently of the saving of expense, which is an important consideration, nothing tends more effectively to make instruction interesting than the co-operation of the pupils in the preparation of its paraphernalia. Moreover, it is exceedingly useful for training them to that clever use of common tools, and that general manual dexterity, of which the value for young artisans, whatever may be the special direction of their callings, is now advocated by high educational authorities. Certain experiments involving much time, as for instance the letting up of a good sized balloon, would appropriately form the occasion for a little recreation out of school-hours, to which friends of the boys might be invited.

What considerations require attention respecting the concluding stages of a young artisan's school-career? The foregoing might lead to the taking up of the special subjects of the code for the sake of the Government grants, and ultimately to studying for S. K. certificates. Here, however, certain considerations present themselves which demand to be carefully weighed by the elementary science teacher, who must remember that the whole sequel of his artisan-pupil's studies will very much depend on his initiation and advice:—1. The selection of the branch or branches of science which an artisan should pursue specially, that is to say, beyond the general scientific foundation which all require, depends very materially on the nature of his calling, and at all events he must take science not by its theoretical side, as if he were learning for the satisfaction of his mind, but by its practical side, in order that he may be able to apply it without difficulty to his technical wants, and use it as a means for improving his work, and consequently his earnings. 2. Science teachers, who, in training candidates for the S. K. examinations, look chiefly to payments by results, cannot always be considered as impartial guides; they are apt to be too much in love with the particular knowledge which personal taste, or fortuitous facilities, have led them to acquire; or they are prone to flatter a young student's predilections, and to use his innate abilities rather than to consider impartially his future needs. 3. It is important to foster exceptionally any really promising capabilities of an aspiring young mind, but it must be remembered, as a rule, that the working man has neither time nor means to spare for speculative inquiry, which, unless discreetly guided, tends oftener to loss than to profit.

What differences suggest themselves between the duties of the male and female teachers of the science of daily life? There is very little in the "Science-made-Easy" course which female teachers need not to be acquainted with; but they must be generally reminded that in imparting scientific knowledge to girls they must make, especially in the lower standards, a somewhat different selection of subjects from that which would be most appropriate for boys. Thus, for instance, the applications of the mechanical powers are more obviously connected with the occupations of boys than with those of girls; whilst, on the contrary, knowledge relating to food is specially useful to those who have to prepare it. There are also many precepts of hygiene, of which the practical application is most appropriately diffused among the sex which has the care of infancy and the nursing of the sick.

What further remarks suggest themselves as to the general tenor of the instruction in the Science of Daily Life that should be given to the children of the people? Three things may be mentioned which the teachers of both sexes should constantly have in view:—

1. However utilitarian in character may be the information conveyed by the "Science-made-Easy" lectures, it can only receive its full value through the way in which it is implanted and made to thrive. As stated in "Technical Training," what the teacher should prize and foster in the children's minds, much more than the storing up of facts and precepts in the memory, is a ready ability to bring them to bear on the right purpose at the right time. It is through common sense and presence of mind that scientific knowledge becomes actually and effectively the science of daily life. Ever thoughtful, vigilant, and active; ever ready to secure a legitimate benefit, or to avert an injury; having a word of advice for every difficulty, and a word of comfort for every mishap; a trusty guide at all times, and a true friend in the hour of need.

2. So constant is the reciprocal action of the body and brain, or, in other words, so close is the connection between personal and mental hygiene, that the two should be equally included in the careful solicitude of the teacher for the present progress and future welfare of his pupils. The practical results of his scientific instruction will much depend on its being conveyed to minds in a healthy and active condition, and this consideration acquires peculiar force in reference to a course in which health, physical well-being, and industrial success are the prominent aims.

3. There is another aim which, though not so conspicuously brought to the front, is nevertheless an essential principle of the "Science-made-Easy" course. It is to make knowledge conducive to morality, and science the handmaid of religion. Nothing, in fact, can supply a more effective advocacy of thoughtfulness and self-control in every department of conduct than the study of the unerring relations of cause and effect developed so beautifully in the physical sciences, and so practically in their applications to hygiene. The man who has been brought to hold in honor the dictates of common sense, and at the same time trained to reflect with gratitude on the laws which govern the marvellous machinery of the world for our benefit, can scarcely fail to be inspired with an earnest desire to accomplish conscientiously his appointed task, uniting with his fellow men in furtherance of all that is good and holy, as he sees the great agencies of nature combine and help each other in realising the designs of an all-wise Providence.

#### APPENDIX.

\* A first-class firm in a central part of the metropolis would undertake to circulate complete sets of the apparatus, chemicals, &c., required for a twenty-lesson course. The boxes for each lesson might be transferred from school to school, and the sets might be sufficiently numerous to supply the Board Schools of London.

## APPENDIX.

Educational resources for propagating the Science of Daily Life in the Primary Schools of the People.

## A.—Preparation at an early age.

See the catalogue of the Home and Colonial School Society, including various collections of common objects.

——— Catalogue of the National Society, do. do.

——— Catalogue of the S.P.C.K., including a series of 210 prints of animals with text; also a chart of the comparative size of animals, and many other useful prints.

——— Catalogue of Messrs. Myers, 15 Berners-street, W., including the Zoological Atlas issued in Germany; 48 large sheets, at 1s. 6d. each. Also 4 diagrams of animals, containing a total of 545 figures; price 12s. each diagram; a numerous assortment of prints, Kinder-Garten Objects, Games, &c.

——— Catalogue of W. Shepherd, City Kinder-Garten Dépôt, 30 Paternoster Row, E.C.

Lessons on objects, by Miss Mayo. (Sceley, Jackson, & Co.)

The Philosophy of Common Things. First and second series. Price 1s. each. (Religious Tract Society.)

Common Things made plain; by James Menzies. (Groombridge.)

## B.—Introduction and development of the most necessary branches of Elementary Science.

The cheap set of apparatus for Object Teaching, prepared by Messrs. Griffin & Co., of 22 Garrick-street, Covent Garden, W.C., for the London School Board; price 5s.

"Science-made-Easy," a course of ten lectures, by T. Twining, on the elements of Mechanical and Chemical Physics, Chemistry, Natural History, and Physiology, published in 6 parts at 1s. each; by David Bogue, 8 St. Martin's Place, Trafalgar Square, W.C. The prospectus gives a list of 42 diagrams. For complete lists of the special apparatus see the catalogue published by Messrs. Jackson & Co., 65 Barbican, E.C. For other extensive assortments of cheap scientific apparatus, see Griffin's Descriptive Catalogues; also the various price lists of Messrs. Jackson & Co., and of Messrs. Aug. Bel & Co., 34 Maiden Lane, Strand, W.C.

List of books suited for the pursuit of the several branches of science are given in parts II, IV, V, and VI of "Science-made-Easy."

## C.—Complementary Knowledge of the Applications of Science to Domestic Economy and Hygiene (see p. 27.)

*Domestic Economy in general.*

A Manual of Domestic Economy; by W. B. Toetmeier. Price 1s. 6d. (Groombridge.)

Handbook of Domestic Economy. Price 1s. (Routledge.)

Household Economy, by M. Gordon. Price 2s. (Gordon.)

Household Management and Cookery, by W. B. Toetmeier. Price 1s. (Macmillan.)

Domestic Economy for Girls, edited by the Rev. J. P. Faunthorpe. Price 2s. 6d. (Stanford.)

*Economic Architecture, &c.*

The Construction of Dwelling Houses. Price 2s. (Parker.)

## APPENDIX K.

The Secretary, Engineering Association, to The Secretary, Mechanics' School of Arts

Sir,

Engineering Association of New South Wales, 24 December, 1879.

At a general meeting of the above, held on the 11th instant, I was instructed to communicate with you with reference to the fees charged to students attending the various classes in connection with the Working Men's College.

It was the opinion of the meeting that the fees charged, as stated in the list kindly supplied by you, were too high; and the Engineering Association having been partially instrumental in procuring the Government grant of one thousand pounds in aid of the College, were of opinion that the same should be used in such a manner as to enable the fees to be reduced to such a degree as would enable students to attend several classes at a time, which at the present scale of charges is without the power of the majority of young men who would be the most likely to attend the College.

Would you kindly bring the matter before the committee at an early opportunity, and oblige,—

Yours, &c.,  
WILLIAM HY. BOOTH,  
Secretary.

The

The Registrar, Sydney Mechanics' School of Arts, to The Secretary, Engineering Association.

Sir, Sydney Mechanics' School of Arts, Technical or Working Men's College, 8 January, 1880.  
In reply to your letter of the 24th ultimo I am directed by the committee of the above institution to say they are very desirous of making the class fees as low as possible, but the amount of the Government vote at their disposal being limited they have not felt justified in making the fees lower than they are at present.

The scale of fees for similar schools, as enclosed, will show that the charges are moderate, and by the calendars accompanying this letter you will observe that provision has been made for the reduction of fees where pupils join more than one class.

I have, &c.,  
WILBER S. GALE,  
Registrar.

Your letter will be submitted to the Council of Teachers for opinion.—W.S.G.

The Secretary, Engineering Association, to The Secretary, Sydney Mechanics' School of Arts.

Sir, Engineering Association of New South Wales, 6 March, 1880.  
At a meeting of a sub-committee of the above, appointed to inquire into the subject of the Technical College, it was decided to communicate to you the result of that the first meeting.

1st. The committee was of opinion that the 2s. 6d. per quarter for the use of the School of Arts class-rooms should not be charged to non-members, as at present.

2nd. That your attention should be directed to your letter to the Colonial Secretary, dated October 21st, 1874, in which the following passage occurs:—"It is proposed that many of these classes shall be free to members of the institution engaged in the industrial arts"—vide correspondence ordered to be printed by the Legislative Assembly.

3rd. The fact of students who wish to pass examination having to attend as many as seven (7) classes per week, some of which are held twice a week, appears to the committee impossible and absurd.

4th. That the short time in which the session will now commence requires, if any alterations are to be made, immediate and prompt action to be taken in the matter.

5th. That you be asked if you would kindly arrange for some evening on which the sub-committee could meet the whole or part of the committee of the School of Arts for the purpose of discussing this subject more fully.

Awaiting your reply,—

I am, &c.,  
WILLIAM HY. BOOTH,  
Secretary.

P.S.—In arranging for the meeting of the two committees, I may as well state for your convenience that Thursday would be our most convenient evening. If possible do not fix on Monday or Wednesday.

Will you address any communication you may have to make as below.—W.H.B., Locomotive Engineer's Office, Regent-street, Redfern.

The Registrar, Sydney Mechanics' School of Arts, to The Secretary, Engineering Association.

Sir, Technical or Working Men's College, Sydney Mechanics' School of Arts, 11 March, 1880.  
I have the honor, by direction of the committee of the above institution, to state, in reply to your letter of the 6th instant, that the college committee does not know of or recognize any committee of inquiry upon its proceedings; but in answer to the special points of your communication 1 and 2, the committee will reduce the fees for attendance at classes and make free classes as soon as practicable, provision having already been made to admit poor students to any of the classes without charge.

No. 4. The arrangement at studies preparatory to examination will receive further consideration.  
5th. That so much time has already been lost in conferring with other bodies, that the committee must decline to delay actual work by additional conferences at present; but will at all times thankfully receive any practical suggestions for improvement in the working of the college that may be tendered in writing.

I have, &c.,  
WILBER S. GALE,  
Registrar.

The Committee, Engineering Association, to The President and Committee, Sydney Mechanics' School of Arts.

Gentlemen, Sydney, 25 June, 1880.  
The committee of the Engineering Association having received your late circular, showing the classes in operation at the Technical or Working Men's College, would again take the liberty of respectfully addressing you on the subject of fees charged for some of the classes necessary for the "training in technical science" the artisans and apprentices of the city. It is for the apprentices we appeal to you, and in doing so we hope and trust the matter will be considered and dealt with in the spirit which actuated the School of Arts' Committee, when, in their letter dated 21st October, 1878, soliciting assistance from Government to build a Working Men's College, they, after enumerating a number of classes which would be formed, said,—"It is proposed that many of these classes shall be free to members of the institution engaged in the industrial arts." It was the constant advocacy of these views, and the growing convictions in society that the education of our artisans and apprentices in the knowledge requisite for success in their special callings was not only an individual but a public benefit, which at length induced Government and Parliament to grant £2,000 towards building the college, and also to vote since its erection £1,000 a year for paying teachers, £500 to purchase models, &c.; and the classes now in operation being the result, we presume the cost of education in night classes of the Working Men's College for the artisans and apprentices of the city is now fairly open to review. The first glance at the circular (hereto attached) shows that there are no free classes for members. Let us see what an apprentice to engineering who wished to attend (say) the following three classes would have to pay for one year's tuition:—

	£	s.	d.
Mechanical drawing, 12s. 6d. per quarter .....	2	10	0
Applied mechanics—course of forty-eight lectures .....	1	11	6
Practical chemistry, £1 1s. per quarter .....	4	4	0
Use of class-rooms .....	0	10	0
<b>Fees for 144 nights .....</b>	<b>£8</b>	<b>15</b>	<b>6</b>
Nearly 1s. 3d. per night for school fees alone.			
Let us now take three classes for the building trade:—			
Architectural course of twelve lectures .....	0	15	0
Freehand drawing and design, 10s. per quarter .....	2	0	0
Architectural drawing, 12s. 6d. per quarter .....	2	10	0
Use of class-rooms .....	0	10	0
	<b>£5</b>	<b>15</b>	<b>0</b>

Nearly 1s. 1d. per night for school fees alone; and when it is taken into consideration that there are, in addition, instruments, books, papers, &c., to provide, we think it will be admitted that these fees would be a heavy tax on apprentices who in their first year of apprenticeship receive 2s. or 3s. for wages per week. We have been informed by the Registrar of the college that provision has been made for poor students. In reply to this, we would remark that it is not always the poorest or most deserving students who will plead poverty, and accept charity most readily, and we think that giving assistance in such a manner would be injurious to the spirit of independence and self-reliance which should be inculcated and taught in all educational institutes.

We beg leave therefore respectfully to recommend that the following classes, viz., practical chemistry, applied mechanics, freehand drawing and design, mechanical drawing, natural philosophy and physics, applied mathematics, and architectural drawing, should be made free to all apprentices at any of the mechanical trades, during the period of their apprenticeship, who are or may become members of the School of Arts.

We are, &c.,  
W. HUMPHREYS, President.  
J. LAING.  
W. CRUICKSHANK.

The

The Secretary, Sydney Mechanics' School of Arts, to The President, Engineering Association.

Gentlemen,

Sydney Mechanics' School of Arts, 3 July, 1880.

Referring to your letter of the 25th ultimo, respecting the fees charged for students attending the classes at the Technical or Working Men's College, I am directed by the committee of the Sydney Mechanics' School of Arts to express regret that copies of your communication should have been published in the newspapers on the day that it was received by me, and before it could be submitted for their consideration, especially as several of the statements and figures contained in it are incorrect. No apprentice belonging to the engineering or building trades could with justice to himself take simultaneously and in one year the number of classes enumerated in paragraphs of your letter, and the amount now charged for tuition in the college is far less than the average sums quoted by you. Many of the classes are only 10s. per quarter, and several of the most important (e.g. the freehand drawing and design class) meet twice a week, and not once, as reckoned in your calculations of the average price payable per night.

The question of reducing the class fees has been by the College Committee submitted on several occasions to the Council of Teachers, of which the President of the Engineering Association (Mr. Humphreys) is a member, and on inquiry it was found that the fees now charged were similar to those at the Ballarat School of Mines, with a far larger Government endowment proportionally, and only equal to those paid at Owens College in Manchester. The committee not having sufficient funds to reimburse the teachers for the loss sustained by any reduction of the class fees, they deferred making any alteration until the receipt of the whole of the Government subsidy; and Mr. Laing was informed to that effect a few weeks ago by Mr. Dowling, the Chairman of the College Committee. As the Appropriation Act is now passed, I am happy to state that the committee have decided to allow youths engaged in trades and professions to join the classes at one-half the published fees, and that no extra charge will be made to non-members of the School of Arts for attending the college.

Your request that several classes named by you be made free to apprentices, if adopted, would be manifestly unjust to the teachers and students of the other classes, and contrary to the dictum laid down in your letter, that giving assistance in such a manner "would be injurious to the spirit of independence and self-reliance which should be inculcated and taught in all educational institutes." Popular science lectures are however delivered weekly, to which the public are admitted free of charge, and the fee to most of the classes will now be less than 6d per week for an apprentice. From the inauguration of the college it has been announced that any person unable to pay the fees would be allowed to attend the classes free of all cost.

In attention to a request from the Trades and Labour Council that the Technical College should extend its benefits to the suburbs of the city, it has been decided by the committee to assist that body in forming evening classes at the Suburban Mechanics' Institutes, or in other public buildings, by lending apparatus, and in any other way practicable. The adoption of all the suggestions of the Engineering Association would require that the Technical College should receive a fixed yearly endowment equal to that of the Sydney University, and that the present class accommodation at the School of Arts be greatly increased. The Committee of the School of Arts have expended over £8,000 on buildings, only £2,000 of which was received from the Government, and the large block of buildings erected for the Technical College are already found too small for the classes now in operation.

During the last twelve months there have been classes formed for practical chemistry, pure mathematics, applied mechanics, natural philosophy, architecture, geodesy, freehand drawing and design, mechanical drawing, architectural drawing, English literature, photography, geography, telegraphy, elocution, English grammar, writing and arithmetic, cookery, domestic management, dressmaking, phonography, and ladies' drawing. At present there are over twenty teachers conducting classes at the college, and during the last twelve months over 1,000 persons, male and female, have attended its courses of study.

Trusting that the various trade societies and employees of the city will continue to assist the committee of the Technical College in extending its benefits to the artisans and apprentices of the Colony,—

I remain, &c.,

JOHN ROGERS, Secretary.

The Secretary, Sydney Mechanics' School of Arts, to The Secretary, Engineering Association.

Sir,

Sydney Mechanics' School of Arts, 14 April, 1881.

Referring to my letter to you of 3rd July, 1880, intimating that it was the intention of the committee of the above institution, on receipt of last year's Government endowment, to reduce by one-half the fees charged to youths attending the classes, I do myself the honor to inform you that it has now been decided, in view of the large number of persons who have taken advantage of this reduction, and the consequent strain on the limited financial resources of the college, that students will in future be required to satisfy the college committee as to their inability, or the inability of their parents, to pay the full fees.

I have, &c.,

JOHN ROGERS, Secretary,

(Per H. A. Podmore).

The Committee, Engineering Association, to The President and Committee, Sydney Mechanics' School of Arts.

Gentlemen,

Engineering Association, 3 June, 1881.

We have been instructed to reply to a letter addressed to the Engineering Association of New South Wales by your secretary on the 14th April, in which, after referring to your former letter of the 3rd July, 1880, and the reduction of fees to apprentices and youths attending classes at the Technical School, in consequence of the Government grant of that year, he informs us "it has now been decided, in view of the large number of persons who have taken advantage of the reductions, and the consequent strain on the limited financial resources of the college, that students will in future be required to satisfy the college committee as to their inability, or the inability of their parents, to pay the full fees."

We assure you it is with extreme surprise and regret that we read the above statement, which, to put it in other words, says that the success attending the reduction of fees in attracting young students to attend the classes, thereby causing an expenditure of £92 9s. 4d. (out of a Government grant of £1,500), to recoup the loss to teachers' fees, is felt as a severe financial strain, although, as shown in the college balance-sheet at the end of last year, there was an available balance of £382 6s. 10d. standing on the credit side of the account.

The publication in the daily press of the letters intimating to us the reduction of the fees, so as to "allow youths engaged in trades and professions to join the classes at one-half the published fees," and the insertion in the annual report adopted at the general meeting of your members on 1st of February last of the following paragraph, viz.—"On the receipt of the Government endowment it was resolved that the college fees be reduced one-half to all apprentices, and that students should not be required to be members of the School of Arts, the teachers being reimbursed from the annual grant the difference in the amounts and for the students unable to pay. It is also decided to make a reduction to students attending more than one class in the School of Design."

This paragraph was in the same report which showed an available credit balance of £382 6s. 10d., and induced us, and we believe the public also, to look on the reduced fees as established, and to feel gratified with the apparent success of the college; and seeing by the same balance-sheet that the debt standing over from 1879 was discharged, and thinking the heavy items for apparatus, fittings, furniture, and advertisements could only be incidental to the first opening up of the college, we thought the financial condition was favourable for making a larger portion of the grant of £1,500 available for teaching and teachers this year; and having, as you are aware, always taken a warm interest in the spread of Technical Education, we would respectfully ask you to reconsider your decision to double the fees to youths. We would remind you that in all your letters and memorandums to Government asking for a grant of public money the key-note has been the advantages it would confer on those engaged in the "industrial arts," and that "many of the classes would be free" on the payment of an annual subscription of £1, whereas the full fees for each class range from £1 10s. to £4 4s. annually, there being only one under £2; and it may be a subject worthy consideration whether after publishing the reduction of the fees both in the daily press and your annual report, the sudden increase again to double the amount may not cause reaction in the public feeling which has hitherto favoured your efforts, peril the Government grant, and reduce the means at your disposal for the support of a "Working Men's College" under the control of the School of Arts, or in connection therewith, if the lowest paid class is to cost a youth 7d. per night, or 7s. 6d. per quarter for tuition one night per week.

We have only to add that this subject being of public interest we will place your letter with this at the disposal of the Press.

We remain, &c.,

WM. HUMPHREYS.

WM. CRUICKSHANK.

J. LAING.

The

The Secretary, Sydney Mechanics' School of Arts, to The Committee, Engineering Association.

Gentlemen,

Sydney Mechanics' School of Arts, 13 July, 1881.

In reply to your letter of 3rd ultimo, I am instructed to inform you that when my letter of 14th April was forwarded to your Association the liabilities on account of the Technical College were considerably in excess of the Bank balance, and it was very uncertain what portion of the sums voted for Technical Education would be granted to this institution. A statement prepared on the 22nd April showed that £363 17s. would be required to cover the expenses to the end of the month, and that it was estimated £650 would be required to cover the expenses of the college to 30th Juné. It was not until the 5th May that the £650 required for the half-year was received; and this sum was granted on the express understanding that the Minister could not authorize further payments until an estimate of future expenditure was proposed for his approval, together with a full report of the working of the institution.

The payments made to teachers to make up for the deficiency in fees paid by some of the pupils were £55 6s. 3d. for the month of January, and £20 12s. 1d. for the month of February. It does not appear that the conditions since enforced as to admission to the Technical College classes at reduced fees have prevented students from joining the classes or pursuing their studies, the fees received for last quarter being about 25 per cent. in excess of the fees received from pupils for the first quarter of the year; and in the opinion of the committee the conditions are in accordance with the principle under which free education is authorized by the Public Instruction Act.

The special report of the committee will shortly be ready for presentation, and as it is intended to submit the whole question as to the rates of fees to the Minister of Public Instruction, the future action of the committee will be determined by the instructions that may be received from the Minister.

I have, &c.,

JOHN ROGERS,

Secretary.

The Committee, Engineering Association, to The President and Committee, Sydney Mechanics' School of Arts.

Gentlemen,

Engineering Association, 14 July, 1881.

We have the honor to acknowledge receipt of your letter, dated 13th instant, in reply to our former letter of the 3rd ultimo, respecting the increase of fees charged to apprentices and youths under the age of 21 years wishing to attend classes at the "Working Men's College."

In your letter the reason given for the increase is the want of funds. You say that for the half-year ending 30th June you received from Government £650; this added to £382 6s. 10d., the balance from last year, gives £1,032 6s. 10d. available for the first half of the year, independent of the fees paid by the scholars. It is also stated that you paid in the two months—January and February—£75 18s. 4d. for the pupils who could not pay; this still left £966 8s. 6d. available for the classes; and we are still of opinion that it would be better to devote part of that sum to repay teachers the loss caused by a reduced scale of fees than to retain a high scale which compels many young persons to plead not only their own poverty but the poverty of their parents before they can avail themselves of the benefits provided for them from the public funds. Independent self-reliant men form the best citizens of a commonwealth, and it is repulsive to such to plead poverty to obtain assistance; therefore all educational institutes, established for the special purpose of improving the social, moral, or intellectual status of working men, should make it one of their highest objects to cultivate feelings of self-respect and self-reliance in the young.

2nd. We cannot understand how you can consider high fees to be in accordance with the principle under which free education is authorized by the Public Instruction Act.

The Public Instruction Act did exactly what we wish you to do, viz. :—It reduced the fees to such a rate (3d. per week) as would in ordinary circumstances enable all to pay for education who respect themselves and love their children, making provision at the same time for the free education of those who, by misfortune, have no means of paying; and we hope the Minister for Public Instruction, when revising the rules for the "Working Men's College," will act on the same principle; and it might assist him to a right conclusion if you would inform him and the public how much has been paid for teaching out of the Government grant since the college was first opened. At present the fees charged for teaching are higher per hour than the rates charged in the Grammar School, a middle-class institution.

Hoping this will meet with your favourable consideration,—

We remain, &c.,

J. LAING.

WM. CRUICKSHANK.

W. HUMPHREYS.

Received Friday, 22nd July, 1881.

Mr. J. Laing to The Secretary, Sydney Mechanics' School of Arts.

Sir,

16/7/81.

In your letter of the 13th instant to the sub-committee of the Engineering Association, respecting the fees charged to pupils, apprentices, and others, you say :—"It does not appear that the conditions since enforced as to admission to the Technical College classes at reduced fees, &c., &c." I am instructed to inquire from you if the fees have been reduced since the date of your letter of the 14th April, informing us that half fees were abolished.

Yours, &c.,

J. LAING.

The Secretary, Sydney Mechanics' School of Arts, to Mr. J. Laing.

Dear Sir,

Sydney Mechanics' School of Arts, 19 July, 1881.

I am instructed by the college committee to acknowledge the receipt of your note of yesterday, having reference to their letter of the 13th instant, and to inform you that as the previous letter which they received was from the Engineering Association, they cannot possibly treat with your communication except by the same channel, viz., the General Committee, to whom I will submit it at their next meeting.

Yours very truly,

JOHN ROGERS,

Secretary.

Mr. J. Laing to The Secretary, Sydney Mechanics' School of Arts.

Dear Sir,

Engineering Association, 22 July, 1881.

I am instructed by Committee of Technical Education to acknowledge your letter of the 19th instant, informing us that you cannot give us the information asked for in my note of the 16th instant without referring the matter to the General Committee. We think that if information as to the matter referred to cannot be given without reference to the General Committee it is not worth wasting their time on the matter.

Yours respectfully,

J. LAING.

## APPENDIX L.

### Apparatus and appliances belonging to the Technical College.

#### Optical Apparatus

One highly finished tri-unial lantern, by Middleton, 4½-inch condenser.

One well finished bi-unial lantern, cases for travelling, and gas bags, jets, and all necessary appliances.

Oxy-hydrogen microscope, kaleidoscope, kaludiatrope, alpengscope, polariscope.

Sets of slides for lantern readings, illustrating mines and mining, Arctic regions, Paris Exhibition, London, natural phenomena, Continent of Europe, America, British Museum, astronomy, chameleon, statuary, natural history (from life), insect preparations for microscope, colour wheel, wheel of life, photo-micrography, polariscope objects, micro plant specimens, chorentoscope, animalcular troughs, and sundries, about 400; prism on stand.

Electrical

*Electrical Apparatus (Static).*

Plate machine, cylinder machine, Leyden jars.	Daniels battery (magurto).
Discharges, Electric Cannon.	Old dynamo machine.
Cylinder machine (voltaic).	Box of magnetic apparatus.
Ruhmkoff's coil, large and small.	Electro-magnet.
Do. small, in case, with cells and vacuum tubes.	Two Morse machines.
Groves battery, Daniels battery, large liclanche tubes.	

*Mechanics, Pneumatics, Hydraulics, and Engineering Construction.*

Set of pulleys and tackle on frame.	One low-water indicator.
Do. with capstan and pile-driver.	Two gauges (part in section).
Multiplying power.	One fusible plug.
Winch with differential barrels.	One Pearson's lubricator.
Archimedian screw for water, in metal; do., in wood.	One top-water gauge (in section).
Water-wheel, set of 3 pumps, with glass barrels.	One long barrel.
Air pump and receivers (old).	One round.
Condensing syringe receiver and fittings (old).	Two whistles.
Two pair Magdeberg hemispheres.	Two gland cocks.
Two whirling tables with fittings to illustrate centrifugal force	One cylinder cock.
Clock escapement; watch escapement.	Two double grease cups.
Three stands, with sets of levers and counterweights.	One oil syphon.
Tank to show the effect of water-pressure.	One blow-off cock.
Four stands showing working of various wheels.	One check valve.
Five piston rods and cross-heads.	One ball clock-box.
Four stands, circular motion connected into rectilinear.	One steam valve.
Four models on boards of toothed-wheel construction.	One steam valve with flanges.
Nine shaft bearings.	One valve.
Plumber blocks and hangers.	Two gland cocks.
Two bolts and nuts.	Two steam cocks.
Five couplings.	One gland cock flange.
One cock.	One safety valve, lever and weight.
Five cranks.	One elbow safety valve.
Four rivetted plates.	One gland cock.
Two injectors (in section).	

*Heat and the Steam-engine.*

Sectional model of condensing beam engine (old).	Gas-engine, with coil to explode, mixture in cylinder (working model).
Working model of four parallel motion (old).	Lehman calorific engine (working model).
Spherical boiler and safety valve.	Highly finished and very complete condensing engine, with paddle-wheels and boiler complete.
Thero steam-engine.	Model of machinery of steamer "Ipswich" (presented by the A. S. N. Co.), wall governor, buss pseudostatic governor.
Model of marine tubular boiler.	
Do. reverberatory furnace.	
Sectional horizontal engine, with double heat.	
Valves and piston working.	
Steam engine and boiler (working model) with additional engine in section.	

*Sundries.*

One Carilletet's apparatus for the liquefaction of gases (to compress to 300 atmospheres).	Set of decimal weights and measures, in case (French).
One polarising microscope.	Five gas-holders of different kinds and sizes.
One registering syren.	Small still for perfumes, &c.
	Prism and stand, Bunsen burner.

*Building, Construction, and Design, Stereometry, &c., Architecture, &c.*

Three models framed, principals for roofs.	Seven models of spiers.
Six models, wooden bridges.	Six models of columns.
One model ground vault, with removable raissures.	122 models { Regular and irregular slides. Intersections of solids. Carpentry and construction, &c., &c.
One model, ground alcove or nich.	
One timber dam.	
Three stands, with solids and diagrams on glass to illustrate perspective.	

*Anatomy, Physiology, &c.*

4 models head, sectional, natural size.	3 torsos (one life size).
2 do. brain, do., do.	1 do. digestive organs.
1 do. entire head.	1 do. the skin.
4 do. the ear.	1 do. the hand.
2 do. the eye.	2 do. the foot (one human, one forefoot of horse).
6 do. larynx and tongue.	1 do. the heart of the horse.
2 do. the heart.	Small models of the arm, leg, muscular action, the eye, &c.
1 large model contents of chest, all removable.	

*Mineralogy and Geology.*

4 glass cases of mineralogical specimens.	1 large case of geological specimens (fossils).
1 cabinet do. do.	4 sets of model criptals.

*Models for Drawing Classes, &c.*

(Selected by Sir Charles Nicholson.)—In plaster, by Bucciuni.	
1. Apollo.	15. Leg of Laocoon.
2. Head of Young Caesar.	16. Ornament from the Erichtheum at Athens.
3. Venus de Milo.	16-42. Hand, arm, human figure, detail, &c.
4. Venus de Coll.	43-52. Heads of Animals.
5. Diamede.	53-60. Fruit.
6. Diana.	64-140. Casts, ornamental designs from Wurtemberg schools (from Exhibition).
7. Hermione.	141-150. Physiognomy and phrenology (old).
8. Young Hercules or Bacchus.	1 iron stand, with universal joint to carry models.
9. Head of Gladiator.	6 iron models of solids.
10. Mask of Moses (M. Angelo).	13 do. do. outline.
11-14. Male and two female reclining figures (M. Angelo).	

*Drawing School Fittings.*

Tables.	Mounted copies for drawing class, frochand.
2 black-boards.	Do. do., architectural.
Glass-case for models of pedestals, &c.	Do. do., mechanical.

Sets of apparatus to illustrate Twining's course of Science-made-Easy Lectures (each set packed in a box).

- |                              |                                      |

1 specimen of carving, scroll-work and panel, from the Austrian Court (panel in pine tree).  
1 do. do. do. do. (small panel in walnut).

APPENDIX M.

ANNUAL MEETING OF SYDNEY MECHANICS' SCHOOL OF ARTS, 1873.

*Extract from S. M. Herald, 5 February, 1873.*

THE Chairman then called for any resolutions of which notice had been given.

Mr. Dowling moved,—“That a Working Men's College be formed in connection with this institution, as suggested some years ago by its late president, Dr. Woolley.” He should have felt very diffident in moving this resolution had it not been that some years ago he had heard the late lamented Dr. Woolley, at one of the annual meetings, express a desire that such a college should be formed; and had not that lamented gentleman perished it would, as he believed, have been long ere this in existence. In the report they saw amounts set down for a library and reading-room, and other matters; but the part of the institution which he considered most valuable was unnoticed. There were other libraries in Sydney, but this was the only institution which afforded the means to labouring men of attending the evening classes and participating in the benefits of education. In the report for the year 1857 the committee had regretted the absence of a Working Men's College; and it was ascribed to the want of means to provide substantial rewards to the diligent. The institution had been largely fettered by debt; but that debt would be cleared off, he believed, in the course of this year, and he thought the time would then arrive for the establishment of scholarships and degrees in science. The experiment had been tried in England, and found to work successfully, as Ruskin and other eminent men could testify. According to the last census it appeared that there were 10,000 mechanics and apprentices in Sydney. It would be well if some of these could be gathered in and stimulated to study. There was the apparatus lying idle; they had £400, and gifts to about the same value, which were lying upon the shelves unused. He thought our youths ought to be stimulated to study science. In Melbourne so much stir had been made about this matter that a Technological Commission had been appointed. In England scholarships worth £100 and other large rewards were offered to industrious students in science; and he thought that if a college were established here many young men might be sent home to participate in these advantages. He adverted to the great progress in science made upon the Continent owing to the advantages of such colleges. He felt convinced that if a working man's institute could be formed many large-hearted men would come forward and endow it with scholarships, &c. He felt a great interest in this institution, of which he had been a member since he was nine years of age—(cleers)—and as a native of the city, and a working man himself, he felt that the time had arrived to make a stand in this respect. He considered that the class-rooms ought to be extended; those at present used were incommensurable and ill-ventilated. He urged that the mechanics and apprentices of the city ought to be brought in to participate in the advantages of this institution. He referred to Mr. Scott Russell's work on the progress of the colleges upon the Continent.

Mr. Dalgarno seconded. He felt assured that the suggestions made would have due weight with the meeting.

Mr. Wannan said the proposer had hardly sketched out his scheme. He had no doubt, however, that if the matter were properly placed before the Government it would be supported.

Mr. M'Rae said that, while the project could hardly fail to meet with sympathy, he feared that it would be altogether beyond the means of the institution at present. The absence of a mechanical class was simply due to the want of an application for that purpose by half-a-dozen members of the institution. So far as the desirability of a Working Men's College was concerned, he would be willing to support the resolution; but in its present shape he considered that it went rather too far.

A gentleman in the body of the hall expressed a desire for more particulars. Such a college was very desirable there could be no doubt. If anything could be done to supply a deficiency in this institution (one of the creditable fruits of which was Mr. Dowling), he for one should be very willing to support any endeavours which might be made.

Mr. M'Rae moved as an amendment, “That it be an instruction to the committee to take steps with a view to determine whether it is practicable to establish a Working Men's College in connection with this institution, and, in the event of such being found practicable, a special general meeting to be called for the purpose of discussing the propriety of its establishment.”

Mr. Dowling replied upon his motion. He was willing to accept the amendment. All he desired was that the matter should be well ventilated. His own view was that the Working Men's College should not interfere with existing classes, and the prizes—diplomas or certificates—should be given to any of the meritorious students. He thought, however, that it was very desirable that the tuition should be under the auspices of the School of Arts. Four years ago he had moved for the establishment of classes in geology and mineralogy; but after establishment they had been discontinued for want of a teacher. In a college such as he proposed, however, he firmly believed that, with the support he believed they should receive from the outside public, gentlemen of attainments could be obtained to take charge of these classes. He quoted from and referred to two English works, “Learning and Working” and “The Working Men's College Magazine,” in which a great deal of information was to be obtained. He again urged the desirability of stimulating the youthful mechanics to studies in science.

The original proposition was withdrawn, and the amendment was carried without dissent.

## APPENDIX N.

1876-77.—Legislative Assembly, New South Wales,  
LECTURES FOR PROMOTING TECHNICAL EDUCATION.—CORRESPONDENCE.

Ordered by the Legislative Assembly to be printed, 18 September, 1877.

RETURN to an Order of the Honorable the Legislative Assembly, dated 6th June, 1877, That there be laid upon the Table of this House,—

“Copies of all Correspondence between the Government and the Committee of the Sydney Mechanics' School of Arts, the Trustees of the Free Library, the Council of the Royal Society, the Senate of the Sydney University, the Committee of the Engineering Association, or any other body, respecting the formation of Evening Classes, and the delivery of courses of Scientific Lectures for promoting Technical Education in the Colony.”

(Mr. Dibbs.)

SCHEDULE.

No.	Sydney Mechanics' School of Arts.	Page.

Sydney Mechanics' School of Arts.

No. 1.

The Secretary, Sydney Mechanics' School of Arts, to The Colonial Secretary.

Sir,

A deputation from the Committee of the Sydney Mechanics' School of Arts having been appointed to wait upon the Government respecting proposed extensions to its educational system, and also to endeavour to secure, on behalf of the Mechanics' Institutes of the Colony, the benefit of any instruction in science provided under the new Mining Act, I do myself the honor to request that you will be good enough to state at what time you will be pleased to receive such deputation. I have the honor also to enclose herewith a memorandum of request from the Committee, together with other papers relating to this institution.

I have, &c.,  
JOHN ROGERS,  
Secretary.

[Enclosure.]

MEMORANDUM of request to the Government of New South Wales from the Committee of the Sydney Mechanics' School of Arts.

PROVISION having been made in the new Mining Act for courses of lectures on science to be delivered by Professors appointed by the Government, the Committee of the Sydney Mechanics' School of Arts conceive, in view of its central position and large educational appliances, that it would be the most suitable place in the city for imparting a knowledge of the sciences of geology, mineralogy, and chemistry. Its large number of members proves it to be the most successful School of Arts in the Colonies, and having been founded in the year 1833 it may be cited as the Mother of the Mechanics' Institutes in Australasia. Some time since it was resolved to increase the present class operations by establishing a Working Men's College for giving evening instruction to the artisans and apprentices of the city. One great obstacle to the extension of its educational course has been the difficulty of obtaining and providing for suitable teachers on technical science in relation to the arts and manufactures; and it is believed if a School of Mines were affiliated with the Sydney Mechanics' Institute practical teaching in mineralogical science could be effected, and a great want in the community met. It is also thought that as there are seventy-six Schools of Arts in the Colony subsidized from public funds, that by a union of these institutions they could be enabled to have arranged courses of scientific lectures by the teachers appointed by the Government. The following excellent recommendations of the recent Royal Commission on Scientific Instruction in Great Britain, under the presidentship of the Duke of Devonshire, are respectfully suggested as being worthy of adoption in this Colony:—

That courses of lectures be given in connection with the collection of physical and mechanical instruments, the establishment of which we have proposed, the object of these lectures being to illustrate the progress of scientific and mechanical discovery and invention.

That the establishment of lectures on science, accessible to all classes on payment of a small fee, should be promoted by the Government in the great centres of population.

That,

That, in the first instance, with the view of carrying out the preceding recommendations the system of instruction of this kind, which has already been established by the Government in the metropolis, should be developed by the institution of courses of lectures on the principal branches of experimental and natural science.

The concluding paragraphs of the final report state that throughout the Commissioners have been guided by two convictions,—

The first, that the diffusion among the people of a general knowledge of science is in itself an object of great importance, and that in particular an acquaintance with the manner in which abstract science is brought to bear upon industrial occupations is of the greatest moment to the working classes of this country, not merely as tending to increase the skill of the artisan in his handicraft, but as the best means of awakening his intelligence by forcing him to reflect upon the general laws which are exemplified by the processes with which he is familiar in his daily life.

The second, that no real advancement of knowledge, and none of the higher benefits of science as educational discipline, are to be hoped for from merely general and occasional scientific instruction, whether it be derived from books or from lectures, but that such advancement and benefits will result only from systematic and sustained study.

In submitting their request to the Government the Committee desire to point out that for the past forty years the Sydney Mechanics' School of Arts has been the principal means of instruction to the youths and adults of the city, and that within the past three years the classes have been extended so as to include female students, with successful results. Some members, both male and female, have creditably passed the senior and junior examinations at the Sydney University. The following are classes of the institution, and 294 pupils attended them during the past year:—Latin, French, Chemistry and Physics, Writing and Arithmetic, Phonography, English Grammar and Elocution, School of Design, Ornamental Art, Architectural and Mechanical Drawing, Water Colors, and Singing. Very successful courses of class lectures on geology and mineralogy have been delivered during the past few years, but owing to the resignation of the teacher they have been recently discontinued, as the Committee cannot obtain a suitable lecturer. A well-attended course of lectures on experimental physics is now being delivered by the teacher of the chemistry class. There are also in connection with the institution a large chess club and a successful debating class. The reading room contains all the principal English, Foreign, and Colonial newspapers and periodicals, together with a large reference library. The circulating library consists of about 17,000 volumes of well-selected literature and works relating to the Colony, and during last year was used by over 2,000 different members. The class accommodation is now fully occupied, and the Committee are desirous of establishing at once a Working Men's College, as nearly as possible upon the model of the one in Great Ormond-street, London, of which Thomas Hughes, Esq., M.P., is Principal. It has therefore been decided to resume the apartments now occupied by the Secretary, and to enlarge and improve the present building so as to supply the following additional class accommodation:—

Rooms—No. 1, about 26 × 15 feet.

No. 2, " 24 × 15 "

No. 3, " 24 × 15 "

No. 4, " 26 × 15 "

No. 5, a room on the ground floor, fitted with shelves, presses, &c., for

chemicals and specimens, table for lecturer, and seats for students, say about 24 × 15 feet.

No. 6—a room on upper floor, with skylight, fitted with hanging desks to walls and with sunlight, say about 35 feet × 25 feet, for School of Design.

A separate ladies' reading room is also to be provided and the library accommodation increased 50 per cent. Other important improvements are to be made in the ventilation of the present building and to provide for the comfort and convenience of the members.

The principal reason for instituting a Working Men's College is that under present arrangements it has been found that owing to neglected elementary education and long hours of labour the artisans and apprentices are placed at great disadvantage in keeping up with and competing against those whose labour being of a less exhausting nature are in a better position to study. The Working Men's College will embrace the following classes:—English Grammar, English Literature, Physical Science, Political Economy, Arithmetic, Algebra, Mensuration, Geometry, Practical Geometry, School of Design (Mechanical Drawing, &c.), Mechanics, &c. It is proposed that many of these classes shall be free to members of the institution engaged in the industrial arts. Scholarships will be founded, and the degree of Associate conferred upon the students distinguishing themselves at the yearly examinations.

To meet the pressing requirements for increased class accommodation, competitive designs have been called for to afford the necessary room, and it is now hoped that the Government will place a sum of money on the Estimates for 1875 towards the proposed extensions. In order to help forward the development of the resources of this new country it is imperative that our artisans and apprentices should have technical instruction in mechanical and chemical science as applied to the arts and manufactures, and this it is believed can best be secured by evening scientific lectures in our Schools of Arts.

Should the Government accede to the request of the Committee, expense in subsidizing two rival institutions for performing a similar work will be avoided, and the lectures can commence without delay, as there are now in the Sydney School of Arts excellent geological and mineralogical cabinets. It cannot but be admitted that efficiency and economy in working will be best promoted by all evening instruction in science being given at one central place in the city, and in connection with one institution. In affiliating the Mining School with the School of Arts the lecturers and students would have the advantage of a library and reading room containing the latest scientific publications and receiving all new books of special interest. The labours of the professors could not but be greatly assisted by the elementary knowledge obtainable by students in the various classes of the School of Arts. If the School of Mines were affiliated with the Sydney University it could only be used by a few students, and numbers of persons who cannot attend any but evening lectures will be practically debarred from profiting by any instruction in science provided by the Government.

A large block of land at the rear of the School of Arts, with entrance from George-street, has recently been secured by the Committee, and it is suggested that it would be a central and convenient site for the erection of a building should a School of Mines be affiliated with the Sydney Mechanics' Institute. On this land could also be erected an Industrial and Technological Museum similar to institutions in the manufacturing towns of Great Britain, with apparatus for illustrating science in its relation to agriculture, mining, and manufactures. The Engineering Association of New South Wales have recently applied to the Committee of the Sydney School of Arts for accommodation to give technical instruction in matters affecting the iron trades, and it cannot but be considered highly expedient that the thousands of apprentices and workmen employed in this city should have training in the science relating to their several callings, at our Mechanics' Institute.

[Copy of Act of Incorporation of the Sydney Mechanics' School of Arts—Report from the Select Committee of the Legislative Assembly on the Sydney Mechanics' School of Arts Incorporation Bill, ordered by the Legislative Assembly to be printed on 27th March, 1874—also, Annual Report of the Sydney Mechanics' School of Arts for 1873, with Circular, inviting competitive plans for alterations to School of Arts—forwarded with this communication.]

The Minister of Justice and Public Institution.—H.P., 23/10/74. The Under Secretary, Law Department.—H.H., B.C., 24 Oct., 1874.

No. 2.

The Principal Under Secretary to The Secretary, Sydney Mechanics' School of Arts.

Sir,

I am directed by the Colonial Secretary to acknowledge the receipt of your letter of the 21st instant, requesting that a time may be stated to receive the deputation appointed to wait upon the Government respecting various matters relating to the Sydney Mechanics' School of Arts, and to inform you that your communication has been brought under the notice of the Minister of Justice and Public Instruction.

Colonial Secretary's Office, Sydney, 24 October, 1874.

I have, &c.,

HENRY HALLORAN.

No. 3.

37

No. 3.

The Under Secretary of Justice, &amp;c., to The Secretary, Sydney Mechanics' School of Arts.

Sir, Department of Justice and Public Instruction, Sydney, 28 October, 1874.

Referring to your letter of 21st instant to the Colonial Secretary's Department, inquiring at what time a deputation will be received from the Committee of the Sydney School of Arts respecting proposed extension to its educational system, I am directed to inform you that the Minister of Justice and Public Instruction will receive the deputation on Friday next, the 30th instant, at 11 a.m.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

No. 4.

The Secretary, Sydney Mechanics' School of Arts, to The Minister of Justice, &amp;c.

Hon. Sir, Sydney Mechanics' School of Arts, 5 April, 1875.

I do myself the honor, by direction of the Committee of the above institution, to inquire at what time you will be pleased to receive a deputation from it respecting the proposed alterations and additions to that institution, and also for the purpose of respectfully suggesting that in the proposed new Mining Bill provision should be made for courses of lectures on mineralogical science in connection with the Mechanics' Institutes of the Colony.

I have, &c.,  
JOHN ROGERS,  
Secretary.

No. 5.

The Under Secretary of Justice, &amp;c., to The Secretary, Sydney Mechanics' School of Arts.

Sir, Department of Justice and Public Instruction, Sydney, 6 April, 1875.

Referring to your letter of the 5th instant, inquiring what time the Minister of Justice and Public Instruction would receive a deputation from the Sydney Mechanics' School of Arts respecting proposed alterations and additions to that building, and for making provision in new Mining Bill for courses of lectures on mineralogical science in connection with that institution, I am directed to inform you that Mr. Docker will receive the deputation on Thursday next, the 8th instant, at 11 a.m.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

No. 6.

The President, Sydney Mechanics' School of Arts, to The Under Secretary of Justice, &amp;c.

Sir, Sydney Mechanics' School of Arts, 31 May, 1875.

With reference to the vote of £2,500 lately passed by the Assembly in aid of the Sydney Mechanics' School of Arts, I do myself the honor to request information as to whether the Government would pay the institution £1,500 of the sum voted on the institution showing that it had to the credit of its building fund in a Bank £3,000, of which sum £2,000 would be money raised on mortgage by the institution, and £1,000 its accumulated savings, not including any part of the £200 annually voted by Parliament. Should the sum of £1,500 be granted to the institution on these terms, we should not require any further portion of the sum of £2,500 voted by the Legislature, as that sum was asked for on the supposition that the institution would only have to raise pound for pound.

I am aware that the terms suggested are somewhat different to those on which aid is usually granted to institutions such as this, but I would at the same time point out that as the credit of the institution is good, and its affairs prosperous, we cannot expect the public to make donations to it such as less flourishing institutions obtain, in order that the Parliamentary vote may be secured.

And I would submit that the successful management which enables the institution to raise money to a certain amount upon its credit, but at the same time cuts it off from the ordinary resource of donations, should not be allowed to stand in the way of its obtaining the portion asked for of the Parliamentary vote.

The money will be entirely devoted to the improvement of the building as a teaching institution, and will be expended upon the enlargement of our library and reading-room, and in providing increased accommodation for our classes, the steadily increasing number of our members, of whom there were for the year ending the 31st of March last 2,101 on the roll, rendering the necessity for these improvements day by day more clearly apparent.

Trusting that this application may receive your favourable consideration,—

I have, &c.,  
W. C. WINDEYER,  
President, Sydney Mechanics' School of Arts.

Cabinet, for consultation.—J.D., 4/6/75. Cabinet is of opinion that this request must be declined.—JOHN R. 21/6/75.

No. 7.

The Under Secretary of Justice, &amp;c., to The President, Sydney Mechanics' School of Arts.

Sir, Department of Justice and Public Instruction, 23 June, 1875.

Referring to your letter of 31st ultimo, requesting that £1,500 of the sum voted for the Sydney School of Arts should be paid to the institution on its showing a Bank credit of £3,000 to the building fund, I am directed by the Minister of Justice and Public Instruction to state that the matter has been submitted for the consideration of the Cabinet, and they are of opinion that your request cannot be complied with.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

No. 8.

The President, Sydney Mechanics' School of Arts, to The Colonial Secretary.

Sir, Sydney Mechanics' School of Arts, 25 November, 1875.

Referring to my interview with you relative to the payment by the Government of the sum of £2,500 voted by Parliament in aid of this institution, I do myself the honor to submit for the consideration of the Government the following circumstances as sufficient to justify the Government in paying over a portion of the money to the institution.

The sum of £2,500 has been voted by Parliament on the usual terms—that double that amount be raised by private subscription. The circumstances, however, of the Sydney Mechanics' School of Arts preclude all hope of moneys being subscribed by the public in its aid, as by successful management the institution has been able to save £1,000 towards a building fund, and its financial position is such that it is in a position to borrow to a certain extent on mortgage, though not sufficiently to enable it to carry out proposed improvements. Under these circumstances it is quite impossible for the institution to obtain subscriptions as if struggling in difficulties, and as it did in its earlier days.

I would, however, submit that the success of the institution should not be allowed to prejudice its interest in its claim upon the consideration of the Government; and I would urge that the good use to which the aid annually granted it, in common

common with other similar institutions, has been put, gives it an additional claim for help in extending the sphere of its usefulness. I would submit that all that Parliament really required in voting this money, on condition that a certain sum should be contributed by private subscription, was an assurance that some interest was taken in it by the public—a safeguard against the whole burden of such institutions being thrown upon the Government, and a guarantee that self-interest would secure a judicious outlay of the money voted in their aid.

The sum required by the institution for the erection of new class-rooms and the extension of its library and reading rooms is £4,500; and I would submit that, for the reasons given by me, the Government would be justified in paying the institution £1,500 of the amount voted by Parliament on condition that the institution raised £3,000, £1,000 of which would be money saved by it, and £2,000 raised upon mortgage of its property. In earnestly pressing our request upon the consideration of the Government I would point out that the Sydney Mechanics' School of Arts more nearly approaches the ideal of what such an institution should be than any other in the country, as will be seen by the returns recently made to the Assembly. Of 2,000 members 600 are mechanics and youths. We have a library of over 16,000 volumes, a most excellently supplied reading room, and a number of classes in full work, all which advantages are offered to our members for an annual subscription of £1. Trusting that our request may be acceded to.

I have, &c.,

W. C. WINDEYER,

President.

Immediate. This letter, although addressed to the Colonial Secretary, would appear to have been intended for the Minister of Justice, &c., and was placed under cover to this Department. The previous papers are forwarded herewith by direction of Mr. Docker. The Principal Under Secretary, B.C., 30 November, 1875.—W.E.P.

£1,500 has been placed on Estimates of the Minister of Justice for 1876. Papers returned to Mr. Under-Secretary Plunkett.—H.H., B.C., 1/12/75. Inform.—J.D., 7/11/75. Mr. Windeyer, 9/12/75.

#### No. 9.

The Under Secretary of Justice, &c., to The President, Sydney Mechanics' School of Arts.

Sir,

Referring to your letter of 25th ultimo to the Colonial Secretary, applying, for reasons therein stated, that a portion of sum of £2,500 in aid of building fund of the Sydney Mechanics' School of Arts may be paid to that institution, I am directed by the Minister of Justice and Public Instruction to inform you that £1,500 has been placed on Estimates for 1876 to replace a portion of the sum voted on Estimates for present year in a manner unsuited to position of that institution.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

#### No. 10.

The Secretary, Sydney Mechanics' School of Arts, to The Minister of Justice, &c.

Honorable Sir,

Sydney Mechanics' School of Arts, 16 May, 1877.

I do myself the honor to inform you that, at a general meeting of the committee of the above institution, a deputation of certain members of that committee was appointed to wait upon you for the purpose of representing the claims of this institution to some grant from the public funds for the furtherance and support of the Technical classes and Working Men's College about to be established in connection with the institution.

Secondly. I beg also to enclose a memorandum concerning the imparting of scientific instruction in connection with the Mechanics' Schools of Arts of the Colony, and other information respecting the action taken by this institution in the matter of Technical Education.

Thirdly. If it should, as I trust it will, be agreeable to you to receive the deputation, I have the honor to request that you will communicate to me the time when you would be pleased to meet them.

I have, &c.,

JOHN ROGERS,

Secretary.

#### [Enclosures.]

MEMORANDUM respecting imparting of Technical Scientific Instruction in connection with Mechanics' Schools of Arts.

MECHANICS' Institutes are now established in nearly every important town of New South Wales, and the greater majority of them possess substantial buildings and good libraries. From a recently published Parliamentary return it appears that in the year 1874 the sixty-eight Schools of Arts of the Colony had 6,887 members, of whom 1,981 were artisans and apprentices. The value of the property held by these institutions is now estimated at nearly £100,000. Very few lectures have been delivered in connection with Mechanics' Institutes, owing to the great difficulty of obtaining suitable lecturers. Evening classes were only in operation at twelve Schools of Arts in 1874. It is now believed that Mechanics' Institutes should be enabled to better accomplish their original mission by the initiation of a general scheme of Government Technical Scientific Instruction in connection with them.

The total amount of the annual Government subsidy given to Schools of Arts in 1874 only amounting to £3,102, which sum was divided amongst sixty-eight institutions, at the rate of £1 for every £2 paid as subscriptions by their members, the yearly receipts of nearly all these institutions have been found barely sufficient for the purpose of their libraries and reading rooms, leaving no funds available for the payment of teachers or lecturers.

On the passing of the Mining Act of 1874 it was considered desirable to endeavour to secure for Schools of Arts the services of the lecturers referred to in its 8th clause, and a deputation from the committee of the metropolitan School of Arts waited upon the Government in the matter. As no School of Mines has yet been formed, it is hoped that the Mechanics' Institutes of the Colony may be allowed the instruction in geological, mineralogical, and chemical science provided for in the Mining Act.

The classes of the Sydney Mechanics' School of Arts have for a great many years imparted instruction to a large number of students, and the committee are now extending its operations by forming in connection with it a Working Men's College for training in technical science the artisans and apprentices of the city. Being centrally situated, and having already an excellent circulating and reference library, elementary classes and apparatus, it is believed that, with the increased accommodation about to be erected, that this institution will be found to be the most suitable place in the metropolis for imparting popular scientific instruction. In order to ascertain the views of the artisans of the city on the question of technical education, a sub-committee of the Sydney Mechanics' Institute some months since had several conferences with the Trades and Labour Council of New South Wales and the Engineering Association, and both these bodies expressed themselves highly favourable to the formation of a Working Men's College in affiliation with the Sydney School of Arts.

It is hoped, therefore, that in any scheme for diffusing a knowledge of technical science throughout New South Wales that the claims of the various Mechanics' Schools of Arts of the Colony may receive favourable consideration at the hands of the Government.

Extract from *Herald*, 21 June, 1872.

MINERALOGICAL SCIENCE.

Sir,

To the Editor of the *Herald*.

The present discussion in your columns as to the best means for securing popular instruction in mineralogy induces me to state a few facts in support of your assertion as to the want of science-teaching in this Colony. In the recent impetus given to mining enterprise a great necessity has been felt for the diffusion of a knowledge of the principles of mineralogy. Many ludicrous mistakes have been made owing to prospectors not understanding how to apply its simplest tests. As pointed out by Mr. Krefft, the mere exhibition of groups of minerals would not, however, supply the instruction required, or afford much information to the casual observer. Even with the help of Dr. Thomson's excellent manual, the student would need

oral

oral instruction in making experiments for distinguishing the chemical composition of minerals. The suggestion made some time since by Mr. W. Tufts, M.P., for the delivery of systematic courses of scientific lectures in connection with the Schools of Arts of the Colony, should be adopted with the founding of Mineralogical Museums. The intimate relation subsisting between geology, chemistry, and mineralogy, renders it necessary that the subject matter of lectures should embrace these sciences. In 1869, on my motion, classes for the study of geology and mineralogy were formed in connection with the Sydney Mechanics' School of Arts. The splendid collection of geological and mineralogical specimens in that institution, for many years unused, were thus brought into requisition. By the kind help of Dr. Thomson, and other gentlemen connected with the Sydney University, several courses of lectures were then delivered on these sciences. Owing to the departure for Europe of one of the lecturers, and the pressing studies of another, these classes had to be discontinued. For over twelve months efforts have been made to secure suitable teachers for these classes, but without success. Lectures on chemistry, are, however, now being delivered every Friday by Mr. E. H. Rennie, B.A., affording instruction in this very useful science. Several members of the science-classes at the School of Arts, being Public School teachers, have made use, as object lessons in their schools, of the information thus acquired. Would not a knowledge of the elements of mineralogy be of as much use to our Colonial youth as a smattering of a classical language? Instruction for one hour weekly for a few months would teach the senior scholars in our schools the use of the blowpipe tests. After leaving the primary school, any youth having thus acquired a taste for science might continue his studies in a Mechanics' Institute. It would be too much to expect, however, that our Schools of Arts should bear the expense of a series of courses of scientific lectures, including fees and travelling expenses, especially as the small annual subsidy allowed to them of late years has been reduced one-half. The complaint as to the small attendance at lectures in this city is not true respecting scientific subjects popularly handled by a good lecturer. Could not the lecturers to the Mechanics' Institutes of Great Britain, in connection with the Society of Arts, be induced to deliver courses of scientific lectures in this Colony? On their return to England they would thus be furnished with reliable information as to our resources, which could be used in lecturing in the interest of the Colony. The endowment of science scholarships in connection with our Mechanics' Institutes would be a great stimulus to youth. We offer large rewards for the training of the body in aquatics, running, walking, &c., but little stimulus for the training of the mind. The scanty justice meted to the Rev. W. B. Clarke—the father of Australian geology—is very little inducement to our young men to undertake scientific observation; and yet if we wish for an intelligent development of the resources of our native country, our motto should be "Science with practice."

Blue's Point, June 19, 1872.

Yours &c.,

E. DOWLING.

ANNUAL MEETING OF SYDNEY MECHANICS' SCHOOL OF ARTS, 1873.

*Extract from S.M. Herald, 5 February, 1873.*

THE Chairman then called for any resolutions of which notice had been given.

Mr. Dowling moved,—“That a Working Men's College be formed in connection with this institution, as suggested some years ago by its late president, Dr. Woolley.” He should have felt very diffident in moving this resolution had it not been that some years ago he had heard the late lamented Dr. Woolley, at one of the annual meetings, express a desire that such a college should be formed; and had not that lamented gentleman perished, it would, as he believed, have been long ere this in existence. In the report they saw amounts set down for a library and reading room, and other matters; but the part of the institution which he considered most valuable was unnoticed. There were other libraries in Sydney, but this was the only institution which afforded the means to labouring men of attending the evening classes, and participating in the benefits of education. In the report for the year 1857 the committee had regretted the absence of a working men's college; and it was ascribed to the want of means to provide substantial rewards to the diligent. The institution had been largely fettered by debt; but that debt would be cleared off, he believed, in the course of this year, and he thought the time would then arrive for the establishment of scholarships and degrees in science. The experiment had been tried in England, and found to work successfully, as Ruskin and other eminent men could testify. According to the last Census it appeared that there were 10,000 mechanics and apprentices in Sydney. It would be well if some of these could be gathered in and stimulated to study. There was the apparatus lying idle; they had £400, and gifts to about the same value, which were lying upon the shelves unused. He thought our youths ought to be stimulated to study science. In Melbourne so much stir had been made about this matter that a Technological Commission had been appointed. In England scholarships worth £100 and other large rewards were offered to industrious students in science; and he thought that if a college were established here many young men might be sent home to participate in these advantages. He adverted to the great progress in science made upon the Continent owing to the advantages of such colleges. He felt convinced that if a working man's institute could be formed many large-hearted men would come forward and endow it with scholarships, &c. He felt a great interest in this institution, of which he had been a member since he was nine years of age—(Cheers)—and as a native of the city, and a mechanic himself, he felt that the time had arrived to make a stand in this respect. He considered that the class-rooms ought to be extended; those at present used were incommodious and ill-ventilated. He urged that the mechanics and apprentices of the city ought to be brought in to participate in the advantages of this institution. He referred to Mr. Scott Russell's work on the progress of the colleges upon the Continent.

Mr. Dalgarno seconded. He felt assured that the suggestions made would have due weight with the meeting.

Mr. Wannan said that the proposer had hardly sketched out his scheme. He had no doubt, however, that if the matter were properly placed before the Government it would be supported.

Mr. M'Rae said that while the project could hardly fail to meet with sympathy, he feared that it would be altogether beyond the means of the institution at present. The absence of a mechanical class was simply due to the want of an application for that purpose by half-a-dozen members of the institution. So far as the desirability of a working man's college was concerned, he would be willing to support the resolution; but in its present shape he considered that it went rather too far.

A gentleman in the body of the hall expressed a desire for more particulars. Such a college was very desirable there could be no doubt. If anything could be done to supply a deficiency in this institution (one of the creditable fruits of which was Mr. Dowling), he for one should be very willing to support any endeavours which might be made.

Mr. M'Rae moved as an amendment, “That it be an instruction to the committee to take steps with a view to determine whether it is practicable to establish a working man's college in connection with this institution, and, in the event of such being found practicable, a special general meeting to be called for the purpose of discussing the propriety of its establishment.”

Mr. Dowling replied upon his motion. He was willing to accept the amendment. All he desired was that the matter should be well ventilated. His own view was that the working men's college should not interfere with existing classes, and the prizes—diplomas or certificates—should be given to any of the meritorious students. He thought, however, that it was very desirable that the tuition should be under the auspices of the School of Arts. Four years ago he had moved for the establishment of classes in geology and mineralogy; but after establishment they had been discontinued for want of a teacher. In a college such as he proposed, however, he firmly believed that, with the support he believed they should receive from the outside public, gentlemen of attainments could be obtained to take charge of these classes. He quoted from and referred to two English works, “Learning and Working” and “The Working Men's College Magazine,” in which a great deal of information was to be obtained. He again urged the desirability of stimulating the youthful mechanics to studies in science.

The original proposition was withdrawn, and the amendment was carried without dissent.

*Extract from Annual Report, 1874.*

THE WORKING MEN'S COLLEGE.

At the last annual meeting the committee were instructed to endeavour to make arrangements for forming technical science classes for the instruction of the artisans and apprentices of the city. Although your committee are impressed with the necessity for the School of Arts fulfilling to a greater extent its mission as a Mechanics' Institute, the lack of sufficient accommodation has hitherto prevented them from obtaining teachers of science in relation to the arts and manufactures. The committee have, however, now succeeded in leasing, with the option of purchase, a portion of land at the rear of the institution with entrance from George-street, with a view of providing increased accommodation for the present or any future departments of the institution. Designs for the additions have been kindly furnished by several architects; and the Honorable the Colonial Secretary has promised that, on approved plans being submitted, the Cabinet will consider the advisability of placing on the Estimates a Government grant. Your committee have had several meetings for the consideration of the plans, but owing to the high price of labour and building material, and other causes, they have not been able to arrive at any definite conclusion on the subject. The following important reports have been received from the sub-committee appointed to consider the feasibility of these subjects:—

Report

The committee appointed to consider the above subject beg to report to the general committee:—

That two meetings have been held; at the first of which they considered more especially the primary objects for which they were appointed, which they consider to be, how to improve the present system of classes in connection with the institution by making them, or a portion of them, more practical than at present they appear to be, and to add some others which might prove of great utility to the members. In this they were urged by the fact of the Government, in the Mining Bill now before the Assembly, providing, in one of its clauses, for appointing lecturers in various sciences, such as geology, mineralogy, chemistry, &c., in connection with the School of Mines proposed to be established; and your committee considered that with the many advantages possessed by our institution, the Government might be induced to expend a portion of the sum to be voted for such purpose in establishing primary classes in the above sciences, from which students who may have successfully passed in their annual examinations may be admitted into the upper school, whenever it may be established, free of all fees that may be payable therein.

These are the somewhat crude ideas that your committee considered, and believing that the Mining Bill would be brought up without delay for discussion, they thought no time was to be lost in laying before some of the Members of the Assembly their thoughts on the subject. With this object they consulted Messrs. Macintosh, Wearne, Tunks, and Hoskins, gentlemen more especially connected with this and kindred institutions, all of whom were more or less favourable to the plan proposed, but suggested that, as the Mining Bill was not likely to be considered this session, our plans should be more matured, and laid before the Premier, asking his co-operation. Concurring in this view, your committee propose that a deputation of the general committee should wait upon Mr. Parkes, stating the objects to be more especially—

1. The appointment of lecturers for the above purpose, as provided in the Mining Bill, who shall have classes not only in the Sydney School of Arts but in various institutions within a certain range, which may be divided into districts, giving courses of lectures, which may be varied, in the different sciences in each session. This would make the diffusion of the above sciences more general than if confined to Sydney alone, whilst the same course of lectures would suffice for the various districts.

2. To bring to his notice the special advantages possessed by the Sydney School of Arts in rooms, specimens of mineralogy and geology, apparatus for mechanical science, &c., all of which could be utilized for the object in view.

3. The peculiar position of our institution, being so central and available for evening classes, which—now that the institution is no longer encumbered by a debt that has, in a measure, restricted their usefulness by a want of space—can, we hope, shortly have better accommodation afforded them.

4. Should the plan proposed by Dr. Liversidge, in the *Herald*, be adopted, of placing the above School of Mines in the University, it would have so many disadvantages, and be so purely local, as compared with our modification, which would make a knowledge of the above sciences general throughout the Colony.

5. Quote from the journal of the Society of Arts of the 10th January, 1873, what is being done at Melbourne by the Government in connection with the technological school.

6. Examinations might be held for honors, and the obtaining of the Whitworth Fellowships open to our colonists. These would be invaluable to our mechanics, enabling the possessor to visit the most celebrated workshops of Europe.

These, we submit, are proposals worthy of the consideration of the general committee, and connected with the object for which we were appointed, and if not successful in obtaining any promise from the Government of this Colony, might, we venture to submit, be the province of the general committee to carry out, after due deliberation of the merits or demerits of the subject now mooted.

Report dated 5th June, 1873.

The committee would urge upon the general committee the necessity of immediately carrying out the suggestion made in a previous report, namely, that a deputation wait upon the Honorable the Colonial Secretary, in order to endeavour to obtain for the institution the services of any professors or lecturers who may be appointed in connection with the Department of Mines.

Your committee are of opinion that it is advisable to extend the working of the classes, so as to place the educational advantages of the institution within the reach of the mechanics of the city and suburbs. For this purpose it is recommended that classes for mechanics be established, namely, mechanical drawing, architectural drawing, practical geometry, arithmetic, and mensuration; and further, that if possible these classes be free. In order to carry out this scheme it will be necessary to make alterations in the building, so as to allow of the erection of a large class-room. In connection with this matter the committee advise that the working of the Commission for promoting industrial and technological instruction in the colony of Victoria be brought under the notice of the Government with the view of securing similar aid.

#### Classes.

For several years past the committee have recorded their regret that the institution had so few well-ventilated class-rooms for the use of the students. The want of suitable meeting-rooms has been more especially felt by the debating and chess clubs, and by the science classes.

Notwithstanding, however, this great drawback, the classes in operation generally show increased attendance, and the teachers report satisfactory results. Although the classes are the most important of the educational agencies in connection with the institution, your committee cannot but regret that hitherto no scholarships have been founded, so as to make them more popular with the rising youth of Sydney. It is to be lamented that the leisure time of great numbers of the young men of the city is devoted to questionable amusements, and, not being members of any literary society, that they cannot have realised the truth of an expression by the late lamented Dr. Woolley, "That an educated man is a gentleman, no matter what his occupation." If employers of labour could be induced to take a greater interest in the moral and intellectual welfare of their apprentices, there is no doubt that numbers might be persuaded to spend their evenings profitably in the classes of this institution.

Extract from *Herald*, 11 August, 1874.

#### ART SCHOOLS.

To the Editor of the *Herald*.

Sir,

The assertion of Mr. J. H. Thomas, that technical education has been found to be a mistake in England may easily be disproved by reference to the final report from the recent Royal Commission on Scientific Instruction in Great Britain, presided over by the Duke of Devonshire. With a view to still further extend the benefits of technical education, that Commission has made the following recommendations:—

"That the establishment of lectures on science, accessible to all classes on payment of a small fee, should be promoted by the Government in the great centres of population.

"That, in the first instance, with a view of carrying out the preceding recommendation, the system of instruction of this kind which has already been established by the Government in the metropolis should be developed by the institution of courses of lectures on the principal branches of experimental and natural science.

"That the proposed lectures be of two kinds:—First, lectures of an elementary character, on the general principles and most important facts of science; secondly, lectures specially intended for the working classes, on the application of science to the arts and industries of the country."

The concluding paragraphs of the report state that throughout the Commissioners have been guided by two convictions:— "The first, that the diffusion among the people of a general knowledge of science is in itself an object of great importance, and that, in particular, an acquaintance with the manner in which abstract science is brought to bear on industrial occupation is of the greatest moment to the working classes of this country, not merely as tending directly to increase the skill of the artisan in his handicraft, but as the best means of awakening his intelligence, by forcing him to reflect upon the general laws which are exemplified by the processes with which he is familiar in his daily life."

The second, "That no real advancement of knowledge and none of the higher benefits from science as educational discipline are to be hoped for from merely general and occasional scientific instruction, whether it be derived from books or from lectures, but that such advancement and benefits will result only from systematic and sustained study."

A great Conference of Mayors of the principal towns in Great Britain, Chairmen of Science and Art Schools, and others, was held in London, on the 20th May last, to urge upon the Government the necessity of carrying out the recommendations

of

of the Royal Commission, and appropriate resolutions were passed by a "representative meeting, at which there were deputies from all parts of the United Kingdom." The Chairman (Lord Houghton) in his opening address said, "The object of this meeting was to discuss the necessity on the part of the Government to extend the usefulness of our public museums and galleries and make them subservient to the technical instruction of the people. The reasons for this action were twofold. It was desired to promote those industrial and important effects which result from the introduction of museums and objects of art into the crowded localities of this country, an object which all who had turned their attention to the subject knew to be of essential importance to the manufacturing interests of the country, and which had been rather too much neglected." (*Fide* Journal of the Society of Arts, 22nd May, 1874.)

Mr. Thomas thinks that the only place where technical education should be obtained is between the walls of the workshop; but even the *employes* of the Sydney firms named by him have decided otherwise, and, in meeting together for mutual instruction under the name of the "Engineering Association," they have had many valuable discussions on subjects in technical science. It is for the purpose of still further carrying out the objects of this Association, and to enable workmen and apprentices in the other branches of the arts and manufactures to share in similar advantages, that the Scientific College is to be founded at the Sydney Mechanics' School of Arts.

If the name of school of design be sometimes a misnomer, it is attributable to the fact that in some of the schools the pupils are taught to ignore the study of technical art; and, as in the case of many of the Mechanics' Institutes, broadcloth and silk have ousted moleskin and print. The work displayed at the exhibitions of the schools of design in Victoria prove that they are not to be despised as educational institutions.

In the matter of the ornamentation of railway stations, I do not understand the canons of art-criticism sufficiently to decide between the dictums of Ruskin and Mr. Thomas, but it is evident that even in this city the comfort and utility of some of its largest edifices have been sacrificed to a weakness for architectural display.

Professional jealousy and a desire to keep intact the secrets of the workshop have often retarded the progress of the arts and manufactures. It is to be hoped, therefore, that in this Colony the practical teachings of such educational reformers as Albert the Good, Whitworth, and Scott Russell may have attention, and the material interests of the Colony be promoted by the encouragement of mechanical science. In nearly every colony under the British Crown industrial or technological instruction is afforded by the Government. Let it not be said of New South Wales that she refused to take part in the race for commercial greatness, but with stately slowness refused her sons that scientific training which, by introducing new industries, might enable them to place Sydney in its proper position as one of the largest manufacturing cities in the world.

Blue's Point, 10th August, 1874.

Yours truly,  
E.D.

Extract from *Herald*, 31 August, 1874.

#### ART SCHOOLS.

To the Editor of the *Herald*.

SIR,—The recent report from the Royal Commission on Scientific Instruction in Great Britain, which strongly recommended the extension of instruction in technical science, has received but scant justice at the hands of Mr. J. H. Thomas. Australians have been charged with a lack of reverence, but I trust no countryman of mine would be guilty of so lightly treating the well matured opinions of the many high educational authorities who gave evidence before this Commission. I am, however, glad to find that although Mr. Thomas is not in favour of giving instruction in technical science, he earnestly advocates the formation of a Working Men's College. Some time since, on my motion, it was resolved that a Working Men's College be founded in connection with the Sydney School of Arts, and competitive designs are now advertised for to afford the necessary class accommodation. It has been thought that in the educational course of the proposed college technical science should have a place, in order that the School of Arts may fulfil one of its objects as a mechanics' institute. The great impetus given of late years to the study of physical science, and the spirit of the times, also require that popular evening instruction be afforded in mechanical, chemical, and mineralogical science. It is one of the fundamental principles of the Working Men's College in London that "it endeavours to impart to each man that knowledge he is most in need of"; and Dr. Birkbeck, the founder of mechanics' institutes, was first induced to start them by noticing the inquisitive countenances of a circle of operatives who had crowded round a model of a centrifugal pump which had been constructed for him in their workshop. The original prospectus issued by Dr. Birkbeck is as follows:—"I shall during the next session deliver a course of lectures upon the mechanical affections of solid and fluid bodies, abounding with experiments and conducted with the greatest simplicity of expression and familiarity of illustration solely for persons engaged in the practical exercise of the mechanic arts; men whose situation in early life has precluded the possibility of acquiring even the smallest portion of scientific knowledge, and whose subsequent pursuits not always affording more than is necessary for their own support and that of their dependent connections, have not enabled them to purchase that information which curiosity, too active for penury wholly to repress, or the prevailing bias of their natural genius might prompt them to obtain. I have become convinced that much pleasure would be communicated to the mechanic in the exercise of his art, and that the mental vacancy which follows a cessation from bodily toil, would often be agreeably occupied by a few systematic philosophical ideas upon which at leisure he might meditate. It must be acknowledged, too, that greater satisfaction in the execution of machinery must be experienced when the uses to which it may be applied, and the principles upon which it operates are well understood, than where the manual part alone is known, the artist remaining entirely ignorant of everything besides; indeed I have lately had frequent opportunities of observing with how much additional alacrity a piece of work has been undertaken when the circumstances were such as I have now stated." Dr. Birkbeck fully realised his expectations, and Mr. Robert Hunt, F.R.S., who for over twenty years regularly lectured to the mechanics' institutes of Great Britain, also says:—"I believe that the artisans of England will support any institution in which they can really learn. When I have seen the eager attention of 650 working men night after night listening to lectures on physics, on chemistry, on metallurgy, on geology, on natural history, and on mineralogy, and when I know that 1,500 applications have been made within a few hours to attend those lectures which have been given by the Professors of the Government School of Mines, I cannot but believe that a large and influential class are eager to learn, read, and inwardly digest the truths of science and the beauties of literature."

The opinion of Mr. Thomas that the technical scientific instruction provided on the Continent by the various Governments would not be suitable for the British workman, was not shared by the deputation of artisans from the various trades who were appointed to visit France, and report upon the Paris Exhibition. Mr. J. Scott Russell, in his work on "Systematic Technical Education," says, respecting that deputation:—"It is impossible to go through the evidence of the eighty-six representatives of the skilled workmen of England without sharing their profound conviction: 1st. Of the pressing evil of the nation in regard to manufacturing pre-eminence. 2nd. Of the culpability of the educated classes and of the executive Government in having neglected the education of the people. 3rd. That it is satisfactorily proved by these reports that the reluctance of the working classes to receive superior technical education, to bear taxation for that purpose, and to accept the active agency of Government institutions and officials (which reluctance has been put forward as an excuse for this neglect) has no existence in fact, that it is therefore the negligence, apathy, and reluctance of the governing classes and the Government which have hitherto alone prevented the organization of systematic technical education. 4th. It appears that until the mission to France of the English artisans in 1867, they, the working men of England, were not aware that the Governments of other countries had organized complete education in all trade crafts, from the lowest mechanical labour to the highest professional skill. 5th. Throughout the whole of these reports there runs a feeling of profound admiration for the system of education given in France; but they were evidently not aware that the educated men and statesmen of France had themselves become conscious that their system was far below the level of excellence of the educated German nations; that a Royal Commission, under the presidency of M. Belin, formerly Minister of Commerce, had recently been occupied with that subject, and had arrived at the conclusion that the technical education of France, which our artisans admired in Paris, was, as a national system of technical education, extremely defective; and the investigations of this Commission prove that if England is the worst educated of the first-class powers of Europe, France is the second worst. 6th. There runs parallel with these convictions a consciousness that the English workman is by nature the best of workmen, and that with systematic education their works would excel those of competing nations."

Sir William Hamilton and Archbishop Whately differed in defining the terms "science" and "art," but Mr. Thomas should have no difficulty over the word "technical," as modern usage and requirements have stamped it in the English language with an univocal signification.

Our Premier, Mr. Parke, has done much for the cause of primary education. It yet remains for him to continue his noble work by enabling the mechanics' institutes to afford technical scientific instruction, and thus aid in the development of arts and manufactures in our midst. The letter from Mr. Stevens, in to-day's issue, shows what is being done for technical education by the Government of Victoria. Judging from the eager groups daily assembling in Pitt-street, the only scientific instruction received in this city by numbers of young men is in the art of betting and bookmaking, and a large number of students are now being easily plucked by the professors.

Yours, &c.,  
E.D.

Blue's Point, 19 August, 1874.

*Editorial Article in Empire, Monday, October 2, 1874.*

THE provision in the Mining Act which authorizes the establishment of a School of Mines is in accordance with public opinion. The progress of mining industry on the one hand, and the influence of the general intellectual training which promotes a desire for scientific knowledge on the other, combine to produce a popular demand for such an institution. Not long ago we had occasion to comment in these columns on the praiseworthy effort made at Hill End to set up a local School of Mines for that gold-field. In this effort Hill End is following the example of Ballarat, and probably similar projects will be taken up in other gold-fields of this Colony. Meanwhile the Government are pledged, by the Act which they got passed through Parliament, to set up a central School of Mines for the benefit of the whole country. And, as appears by the report of the deputation to the Minister of Justice and Public Instruction, which was published in last Saturday's issue, the Committee of the Sydney School of Arts are desirous to have a School of Mines established in the building to be erected for the advancement of science on the ground lately purchased for the extension of that institution.

There is thus a remarkable unanimity on the part of the Parliament, the Ministry, a large section of the mining population, and members of the community who have interested themselves in the advancement of science—all earnestly seeking the establishment of a School of Mines. Then the Parliament has provided, in the Mining Act, that the School of Mines may be connected with the University of Sydney; and in that case the School of Mines "shall be under the control and management of the Senate of the University, and the Senate shall appoint such professors and readers and other persons as may be required." Thus, without expressly binding the Government to connect the School of Mines with the University, the Legislature has pretty clearly indicated its opinion that the University, as the chief centre of learning and science in the country, is the fitting head of the proposed scientific institution. There is, therefore, a multitude of counsellors at hand to guide the forthcoming School of Mines. The difficulty is to determine, in the manner which will best promote the public interest, where the institution shall be set up, and to whose hands the management shall be entrusted. As to the place, there can be no question that for the public interest, and for the advancement of the design of the Legislature in making provision for a School of Mines, a central position in the city would be the best. The Committee of the School of Arts purpose to establish a Working Men's College, as nearly as they can make it, like that in Great Ormond-street, London, of which Thomas Hughes, Esq., M.P., is Principal. This college is to furnish instruction in English grammar, English literature, physical science, political economy, arithmetic, algebra, mensuration, geometry, mechanics, &c.; and in association with these it would be well that those working men who desire it should have opportunities of receiving such instruction as a School of Mines is designed to afford. The document presented on behalf of the Committee of the School of Arts by Mr. Macintosh, M.L.A., says truly:—"In order to help forward the development of the resources of this new country, it is imperative that our artisans and apprentices should have technical instruction in mechanical and chemical science, as applied to the arts and manufactures"; and this object might be effectually promoted "by evening lectures in our School of Arts."

The position of the School of Arts in the centre of the city, and the prospect of the early establishment there of a Working Men's College, are strong reasons for acceding to the proposal that the School of Mines should be set up in that locality.

*Extract from Sydney Morning Herald, 31st October, 1874.*

Proposal to connect a School of Mines with the Sydney School of Arts.

A DEPUTATION, consisting of the Hon. John Sutherland, Messrs. J. Wearne, M.L.A., W. M. Alderson, J. Macintosh, M.L.A., J. Fowles, F. Bridges, J. Rogers, E. A. Rennie, and E. Dowling, waited upon the Hon. G. W. Allen, Minister of Justice and Public Instruction, yesterday, for the purpose of asking the Government's assistance in establishing a School of Mines in connection with the School of Arts. The Hon. R. P. Abbott, Minister for Mines, was present.

In the absence of the President of the School of Arts, the deputation was introduced by the Hon. John Sutherland, senior Vice-President.

The following memorial was presented to the Minister of Justice and Instruction two or three days ago, and it was therefore spoken of as having been read:—

Memorandum of request to the Government of New South Wales, from the Committee of the Mechanics' School of Arts.

PROVISION having been made in the new Mining Act for courses of lectures on science, to be delivered by lecturers appointed by the Government, the Committee of the Sydney Mechanics' School of Arts conceive—in view of the central position and large educational appliances of that institution—that it would be the most suitable place in the city for imparting a knowledge of the sciences of geology, mineralogy, and chemistry. Its large number of members proves it to be the most successful School of Arts in the Colonies; and, having been founded in the year 1833, it may be cited as the mother of Mechanics' Institutes in Australasia. Some time since it was resolved to increase the present class operations by founding a Working Men's College, for giving evening instruction to the artisans and apprentices of this city. One great obstacle experienced to the extension of its educational course has been the difficulty of obtaining and providing for suitable teachers in technical science in relation to the arts and manufactures; and it is believed if a School of Mines were affiliated with the Sydney Mechanics' Institute practical teaching in mineralogical science could be effected, and a great want in the community met.

It is also thought that, as there are seventy-six Schools of Arts in this Colony subsidized from public funds, by a union of these institutions they could be enabled to have arranged courses of scientific lectures by the Professors appointed by the Government.

The following excellent recommendations of the recent Royal Commission on Scientific Instruction in Great Britain, under the presidency of the Duke of Devonshire, are respectfully suggested as being worthy of adoption in this Colony:—

- "That courses of lectures be given in connection with the collection of physical and mechanical instruments, the establishment of which we have proposed, the object of these lectures being to illustrate the progress of scientific and mechanical discovery and invention.
- "That the establishment of lectures on science, accessible to all classes on payment of a small fee, should be promoted by the Government in the great centres of population.
- "That, in the first instance, with the view of carrying out the preceding recommendations, the system of instruction of this kind, which has already been established by the Government in the metropolis, should be developed by the institution of courses of lectures on the principal branches of experimental and natural science."

The concluding paragraphs of the report state that throughout the Commissioners have been guided by two convictions:—

- "The first, that the diffusion among the people of a general knowledge of science is in itself an object of great importance, and that in particular an acquaintance with the manner in which abstract science is brought to bear upon industrial occupations is of the greatest moment to the working classes of this country; not merely as tending directly to increase the skill of the artisan in his handicraft, but as the best means of awakening his intelligence by forcing him to reflect upon the general laws which are exemplified by the processes with which he is familiar in his daily life.
- "The second, that no real advancement of knowledge, and none of the higher benefits of science as educational discipline, are to be hoped for from merely general and occasional scientific instruction, whether it be derived from books or from lectures, but that such advancement and benefits will result only from systematic and sustained study."

In submitting their request to the Government, the Committee desire to point out that for the last forty years the Sydney Mechanics' School of Arts has been the principal means of instruction to the youths and adults of the city, and that within the past three years the classes have been extended so as to include female students with successful results. Some members of these classes, both male and female, have creditably passed the Senior and Junior Examinations at the University. The following are classes of the institution, and 294 pupils attended them during the past year:—Latin, French, chemistry and physics, writing and arithmetic, phonography, English grammar, elocution, school of design (water colours, &c.), ornamental art, mechanical drawing, architectural drawing, and singing. There is also a large chess club and a debating club. Very successful courses of class lectures on geology and mineralogy have been delivered during the last few years, but owing to the resignation of the teacher they have been recently discontinued, as the Committee cannot obtain a suitable lecturer. A well-attended course of lectures on experimental physics is now being delivered by the teacher of the chemistry class. The reading-room contains all the principal English, Foreign, and Colonial newspapers and periodicals, together with a large reference library. The circulating library consists of about 17,000 volumes of well-selected literature and works relating to the Colony, and during last year was used by over 2,000 different persons. As the class accommodation is now fully occupied, and the Committee are desirous of establishing at once a Working Men's College, as nearly as possible upon the model of the one in Great Ormond-street, of which Thomas Hughes, Esq., M.P., is Principal, it has been decided to resume as class-rooms the apartments occupied by the secretary, and to enlarge and improve the present building so as to supply extra class accommodation. The principal reason for instituting a Working Men's College is that, under present arrangements, it has been found that, owing to their education having been neglected, and long hours of labour, the working men and apprentices are placed at great disadvantage in keeping up with and competing against those whose labour being of a less exhausting nature are

in

in a better position to study. The Working Men's College will embrace the following classes:—English grammar, English literature, physical science, political economy, arithmetic, algebra, mensuration, geometry, practical geometry, mechanical drawing, mechanics, &c. It is proposed that many of these classes shall be free to members of the institution engaged in the industrial arts. Scholarships will also be founded and a degree of Associate conferred upon the students distinguishing themselves at the yearly examinations.

To meet the pressing requirements for increased class accommodation, competitive designs have been called for to afford the necessary room; and it is hoped the Government will consent to place upon the Estimates a sum of money towards the proposed extensions. In order to help forward the development of the resources of this new country, it is imperative that our artisans and apprentices should have technical instruction in mechanical and chemical science, as applied to the arts and manufactures, and this it is believed can be best gained by evening scientific lectures in our School of Arts.

Should the Government accede to the request of the Committee, expense in subsidizing two rival institutions at the same place for performing a similar work will be avoided, and the lectures can commence without delay, as there are now in the School of Arts excellent geological and mineralogical cabinets. It cannot but be admitted that efficiency and economy in working will be best promoted by all evening Government scientific instruction in the city being given at one central place, and in connection with one institution. In affiliating the Xining School with the School of Arts the lecturers and students would have the advantage of a large library and reading-room, containing the latest scientific publications, and receiving all new books of special interest. The labours of the professors cannot but be greatly assisted by the elementary knowledge obtainable by students in the various classes of the School of Arts. If the School of Mines were affiliated with the Sydney University it could only be used by a few students, and numbers of persons who cannot attend any but evening lectures will be practically debarred from profiting by any instruction in science provided by the Government. A large block of land at the rear of the School of Arts, with entrance from George-street, has recently been secured by the Committee, and it is suggested that it would be a central and convenient site for the erection of a building, should the School of Mines be affiliated with the Sydney Mechanics' Institute. On this land could also be erected an Industrial and Technological Museum, similar to institutions in Great Britain, with apparatus for illustrating science in its relation to agriculture, mining, and manufactures. The Engineering Association of New South Wales have recently applied to the Committee of the Sydney Mechanics' School of Arts for accommodation to give instruction in matters affecting the iron trade; and it cannot but be considered expedient that the thousands of apprentices and workmen employed in the city should have training in the science affecting their various callings, at our Mechanics' Institute.

Mr. Macintosh explained that the Committee of the School of Arts were anxious to extend their educational appliances, and had purchased a block of land at the rear of the present institution, on which they proposed to erect buildings for a Working Men's College; and it was thought that the Government would find it advantageous in helping the Committee to establish a School of Mines in connection with the College. Plans of the new buildings were nearly ready, and they would be furnished to the Government without delay.

Mr. Allen said that so far as he understood the document that had been presented to him, the School of Arts Committee wanted two things—that the School of Mines which might be hereafter established by the Government should be affiliated to the Mechanics' School of Arts, and that the Government should place a sum of money on the Estimates to assist the Committee in carrying out the proposed building alterations. He should be glad if some member of the deputation would explain in what way the Committee proposed to affiliate the School of Mines with the School of Arts, because, according to the Mining Act, the School of Mines which the Government were empowered to establish must be under the control of the Minister for Mines.

Mr. Macintosh pointed out that the Committee of the School of Arts contemplated the establishment of a School of Mines long before the Mining Act was passed.

Mr. E. Dowling referred to the proposed alterations, and said that the School of Mines, though connected in some way with the School of Arts, might still be under the control of the Mining Department. It would be necessary to have a separate and distinct building for a School of Mines. The School of Arts was a much more central place for scientific lectures than the University; and besides that, it was proposed that the lectures of the mining professors should, as at Ballarat, be given in the evenings, when the working classes specially could have the opportunity of attending.

Mr. Bridges said that, amongst other things, the Committee of the School of Arts contemplated the erection of a large class-room which would hold 150 or more students, for giving them oral instruction in various branches of science. The Government might appoint its own professors, who would lecture on mineralogy one or two evenings a week. Special accommodation would be provided for such lectures. There was already in connection with the institution a set of geological specimens.

Mr. Allen thought the benefits of a School of Mines might be largely increased if it was established in a more central place than the University, where the evening lectures could be given.

Mr. Bridges said there was no doubt that the time would come when the School of Mines would have to be a separate institution; but it was thought that a commencement might be made by connecting it with the School of Arts.

Mr. Abbott pointed out that as the law now stood it would be impossible for the Government to take the course pursued at Ballarat; a School of Mines was there endowed by the Government, but they had no control over it. It would be injudicious to have a School of Mines partly under Government control and partly under the control of a Committee of the School of Arts.

Mr. Bridges thought the Government might give the members of the School of Arts and others the benefit of the lectures.

Mr. Abbott said that before that could be done lecturers would have to be appointed and a School of Mines formed.

Mr. Fowles did not think the Committee of the School of Arts contemplated having the management of the School of Mines.

Mr. Abbott thought the School of Mines would not be so widely useful as it might be made if it were established at the University.

Mr. Fowles said that if the Government decided to initiate the School of Mines at the School of Arts, the plan of the proposed new buildings might be modified as it was found necessary.

Mr. Alderson said that the Committee of the School of Arts were anxious that no time should be lost in establishing a School of Mines; and they thought its establishment would be facilitated if the Government consented in the first instance to connect it with the School of Arts. When the time came for the establishment of a museum in connection with the School of Mines, then the Government could provide a separate institution, and the School of Arts rooms could be used for something else.

Mr. Wearne said that the Committee of the School of Arts did not wish to confine the advantages that might be derived from a School of Mines to the Sydney Mechanics' Institute. There were in nearly all large centres of population in the Colony Schools of Arts, and the lecturers might travel about lecturing at the principal townships.

Mr. Macintosh thought it would be better not to speak of the proposal as an affiliation of the School of Mines with a School of Arts. The word "affiliation" did not really convey what was meant. It was more of a Working Men's College than a School of Mines that was intended.

Mr. Allen thought he could promise, on behalf of his colleagues and himself, that the matter should have their earliest and most favourable consideration. It was possible that the School of Arts might render material service towards the establishment of a School of Mines. With regard to the request for pecuniary assistance, he thought everybody must recognize the great good that had been done by the Sydney School of Arts; and he should be happy to bring under the notice of his colleagues the question of placing a sum of money on the Estimates to aid in the erection of the new buildings. It would be necessary that the Government should be informed as to the cost of the proposed buildings.

Mr. Fowles: About £5,000.

Mr. Bridges thought the request for money divided itself into two parts—a request for assistance in putting up the new buildings, and a request for assistance in the erection of the Working Men's College. He thought the second was the special application.

Mr. Allen thought it would be well for the Committee of the School of Arts, when making application for money, to state distinctly for what purpose it was wanted, and the conditions under which it would be accepted, if given.

After a few other remarks the deputation thanked the Minister for his courtesy, and withdrew.

Extract from Annual Report—February, 1876.

STEPS had previously been taken with a view to obtain a promise from Government of assistance in effecting the important alterations contemplated by the Committee. Advantage was therefore taken of the appointment of a deputation from the general committee to wait on the Minister of Justice and Public Instruction, in accordance with the recommendation of the sub-committee on the Working Men's College (quoted in last year's report), to bring the whole matter under the notice of the Government. The deputation consisted of John Macintosh, Esq., M.L.A., Joseph Wearne, Esq., M.L.A., and Messrs. Fowles, Alderson, Bridges, Dowling, Rennie, and Rogers, who waited on the Minister of Justice, the Hon. G. W. Allen, on October 30th, to whom they were introduced by the Hon. John Sutherland, M.L.A., the senior Vice-President of the institution. The

Hon.

Hon. R. P. Abbott, Minister for Mines, was present during the interview. The primary object of the deputation was to request that the School of Mines, provided by the "Mining Act of 1874," be affiliated with the School of Arts, and also to seek for assistance in establishing a proposed Working Men's College. It was stated by Alderman Macintosh that the committee of the School of Arts wished to make several improvements, in order that they might have greater facilities for educational purposes than exist at present; that there was sufficient room on the ground which had been secured at the rear of the present premises to erect a building in which a School of Mines and Working Men's College could be established; that for the purpose of carrying out such matters he believed that the School of Arts was entitled to a certain amount proportionate to the subscription that might be raised; but in order to carry out the improvements proposed, the committee were of opinion that a special grant ought to be made by the Government for the purpose. After Messrs. Dowling and Bridges had explained some of the details of the proposed additions to the resources of the institution, Mr. Fowles stated that when the present front of the School of Arts building was erected he formed one of a deputation which waited upon the then Colonial Secretary (Mr. now Sir Charles Cowper) to ask for a grant of money, as they then only contemplated the erection of a portion of the proposed building. £2,000 were placed upon the Estimates—the School of Arts contributing a similar sum; and Mr. Cowper promised that when the other part of the building was completed the Government would give an equal sum. He thought, therefore, that when the plans had been selected they could be sent to the Minister, with a solicitation that a moiety of the estimated cost should be borne, as the building would be entirely for educational purposes. Mr. Allen said in reply that he was glad to hear from Mr. Fowles that the proposal was not to ask the Government for a sum of money independent of private subscriptions. He thought that everybody must recognize the great good which the Sydney School of Arts had effected, and it therefore had a claim upon the Government; he would be happy to bring their application under the notice of his colleagues; but it would first be necessary for him to know what the cost of the proposed building would be. Mr. Fowles remarked that it would be about £5,000. Mr. Allen said if they would send him the plans he would submit them to his colleagues. The Committee have now the pleasure to report that since the interview of the deputation with the Minister of Justice the sum of £2,500 has been placed upon the Estimates for the purpose of effecting the proposed improvements in the institution. They trust, therefore, that in the next year's report their successors will be enabled to record the commencement, at least, of these important additions to the building.

As the selected design provides for the utilising of the whole of the present building for educational purposes, it becomes necessary to make arrangements for the Secretary's residence elsewhere. The Committee therefore voted the sum of £80 per annum to that officer as house rent, in lieu of his present quarters on the premises.

The treasurer's financial statement is highly satisfactory, showing a balance to the credit of the institution of £631 18s. 2d. The receipts for 1874 amounted to £2,195 6s. 4d., against £2,066 6s. 2d. for the year 1873.

During the year applications were received from the Engineering Association and the Trades and Labour Council for the use of one of the class-rooms; and it has accordingly been let to those societies for the occasional use of their members. The Committee, however, hope that when the proposed alterations are completed they will be enabled to effect some more advantageous and permanent arrangement.

The number of members subscribing to the institution is as follows:—

	1st qr.	2nd qr.	3rd qr.	4th qr.
1875... ..	1378	1522	1586	1447
1874... ..	1322	1389	1484	1319
Increase ... ..	56	133	102	128

The average increase of members during each quarter as compared with the previous year is 104·75.

The scheme for the establishment of a Working Men's College in connection with the School of Arts, the desirability of which was affirmed by the annual meeting of members in February, 1873, has necessarily remained in abeyance until the requisite accommodation could be afforded by the completion of the proposed additions to the building. It must be obvious, however, that the Committee would be greatly assisted in their endeavours to carry out the expressed wishes of the members were the class of persons who it is considered would be benefited by such a scheme to avail themselves more largely of the existing resources of the institution by joining the classes already established. It may appear almost unnecessary to remind members that instruction in writing, arithmetic, grammar, mathematics, natural science, and mechanical and architectural drawing—for which purpose, amongst others, the establishment of a Working Men's College has been frequently urged—is provided for in the present classes of the institution.

*Extract from Herald, 4 February, 1877.*

#### ENGINEERING ASSOCIATION.

YESTERDAY evening a special meeting of members of this Association was held at the Society's rooms, School of Arts, for the purpose of considering the following subject:—Technical classes as a branch of public education in the Colony. The attendance was small. Mr. Macintosh, M.L.A., Dr. Paterson, Mr. Rogers, Mr. E. Dowling, officers or committeemen of the School of Arts, were present by invitation. Mr. G. Davidson (the president) occupied the chair, and called upon Mr. Laing to open the subject. Mr. Laing said that the main object of their association had been to promote a technical education of the young men of the city, though they had never succeeded in carrying it out to the extent that they would have desired. He contended that there were no adequate facilities in the Colony for enabling apprentices to the engineering to acquire a scientific knowledge of the business. The country had spent millions in the construction of railways, and yet no schools had been provided for the education of those who would have to work these railways. And no means had been provided for the youth of the Colony to enable them to develop profitably the vast mineral resources of the Colony, or to teach them the best methods of turning our raw produce into manufactured goods. He read extracts from various works to show that America and continental countries were in advance of England in the matter of providing technical instruction to the artisans of the country. However, the great exhibitions had had the good effect of awakening the attention of English people to the importance of the subject, and now in the mother country both elementary and more advanced scientific education was being given in special schools and classes formed in all the great centres of industry. He moved the following resolution:—"That the members of this Association having seen and felt the great loss and inconvenience arising from the want of schools to supply the technical education required for carrying on successfully the various trades and industries with which they are or have been connected, consider that the establishment of a polytechnic college school or schools for teaching the various branches of knowledge required in engineering, building, mining, manufacturing, and agricultural industries, would be advantageous for the development of the intellectual, material, and industrial resources of the Colony. That such college school or schools should be conducted in such a manner as would enable boys after leaving the primary schools, and being apprenticed to any trade or profession, to continue their education at evening classes, and thereby acquire such special instruction and technical knowledge as would assist their progress in the trade, business, or profession they had adopted as their future pursuit in life. Seeing that provision has been made out of the public funds for primary education, grammar schools, and a university, we think a polytechnic college school or schools should also be provided for and established in connection with our Public Schools. It would render the system more complete, and by enabling the artisans, manufacturing, mercantile, and agricultural classes to obtain technological training, would meet a want of instruction existing in practical life which none of our educational institutions as at present constituted can supply." Dr. Paterson expressed his concurrence in the proposals to promote technical education, not merely in engineering, but in all branches of trade. The School of Arts was not altogether what it should be in regard to this matter. Technical knowledge in several branches was already given under the auspices of the institution, but this ought to be greatly extended. There were certain rooms in the building which were available six days in the week to those who wished to obtain practical knowledge; and the committee of the School of Arts were fully alive to the importance of the matter. A sub-committee, consisting of Mr. Dowling (a gentleman who had given much attention to the subject), Mr. Rogers, Mr. Oram, and himself, had waited upon the Council of the Trades and Labour Association with a view to secure their sympathy in this grand object, and he thought that that body had not listened to their proposals disagreeably. They had not yet heard what the Council intended to do with regard to the proposal; but he thought their reply would be favourable. He might say that the Committee of the School of Arts desired no extraneous aid in carrying out this object of imparting a technical instruction in all branches of trade. Of the importance of such instruction there could be no doubt, and the education of our youth would be incomplete without

without it. He quoted from a recent work by Mr. Twining to show what was being done in England and elsewhere in promoting technical instruction. Mr. Twining proposed that there should be schools of arts, colleges, and a university; that examinations should be held and degrees should be given to stimulate the students. To follow a trade successfully, a man should have a knowledge of the science underlying it. Perhaps they could not here expect to go so far as to have a university, but they might by means of the schools of arts do much to extend technical knowledge. It was for such objects that these institutions were founded; and if they carried them out they would be much more worthy of the assistance of the State than they were at the present time. Mr. Macintosh said he would be very happy to co-operate with the Association of Engineers in the matter under discussion, and he trusted that the engineers would aim at securing the co-operation of other branches of trade, for all were interested in technical education, or what he called practical education. Mr. E. Dowling also addressed the meeting on the advantages of a technical education, and showed how its importance had been enforced by a Royal Commission appointed in England; and how practical demonstration of its benefits had resulted in the working of technological museums and institutions in England and Victoria. If rich persons in the community would only provide scholarships an immense impetus would be given to young men to seek to make themselves efficient in technical knowledge. The committee of the School of Arts hoped to establish a technological museum; and he thought that under the auspices of that institution classes might be formed and education given more advantageously than in connection with the primary schools. Mr. Laing maintained that if the scheme were merely carried out in schools of arts it would have only a local interest. It should be part and parcel of the Public School system. Mr. Dowling said that no feeling of localism need be engendered by the carrying out of the system in schools of arts. Any person could join the classes at the Sydney School of Arts without being a member of the institution, and it was proposed that there should be affiliation with all the schools of arts throughout the country. The committee of the School of Arts proposed to form classes without any outside aid, although he thought the youth of the country were as much entitled to have an institution for technical education as were comparatively few to have a University. Mr. Cruickshank commented on the want of models and other appliances for the impartation of practical knowledge of the engineering profession. The deputation from the School of Arts then withdrew, when Mr. Laing's resolution was seconded by Mr. H. Davis and passed, and the further consideration of the subject, on the motion of Mr. Cruickshank, was deferred until the next monthly meeting of the Association.

#### SYDNEY MECHANICS' SCHOOL OF ARTS.

##### Classes.

The following, for Ladies and Gentlemen, are now in operation:—

*Chemistry*.—Mondays, at 7 p.m.; 10s. quarter.

*Civil Service*.—Tuesdays, at 7 p.m.; 21s. quarter.

*Drawing, Architectural*.—Mondays, at 7:30 p.m.; 12s. 6d. quarter.

„ *Mechanical*.—Wednesdays, at 7:30 p.m.; 12s. 6d. quarter.

„ *Ladies' Class*.—Mondays and Thursdays, from 3 p.m. till 5 p.m.; 21s. quarter.

*Elocution*.—Tuesdays, at 7 p.m.; 10s. quarter.

*French*.—Mondays and Thursdays, at 6 p.m. for Ladies, and 7:30 p.m. for Gentlemen; 10s. quarter, 15s. half-year, 21s. year.

*Latin*.—Wednesdays, at 7 p.m.; Free—5s. deposit as security for punctual attendance.

*Mathematics*.—Wednesdays and Fridays, at 7:30 p.m.; 10s. quarter.

*Reading and Grammar*.—Fridays, at 7:30 p.m.; 7s. 6d. quarter.

*Shorthand*.—Mondays, at 7 p.m.; 10s. quarter.

*Singing*.—Thursdays and Saturdays, at 7:30 p.m.

*Writing and Arithmetic*.—Tuesdays and Fridays, at 7:30 p.m.; 10s. quarter.

Non-members of the institution can join any of the above classes (except Latin) by payment of an extra fee of 2s. 6d. per quarter.

#### No. 11.

The Under Secretary of Justice, &c., to The Secretary, Sydney Mechanics' School of Arts.

Sir,

Department of Justice, &c., 21 May, 1877.

In reply to your letter of 16th instant, representing that a deputation of certain members of the Committee of the Sydney Mechanics' School of Arts is desirous of waiting upon the Minister of Justice and Public Instruction, with reference to a grant in support of the Technical Classes and Working Men's College in connection with the institution, I am directed to inform you that Mr. Suttor will be happy to receive the deputation on Wednesday next, 23rd instant, at 11 a.m.

I have, &c.,

W. E. PLUNKETT,

Under Secretary.

#### No. 12.

The Secretary, Sydney Mechanics' School of Arts, to The Under Secretary of Justice, &c.

Sir,

Sydney Mechanics' School of Arts, 6 June, 1877.

In compliance with your request to be informed in writing of the precise object of the deputation from the General Committee of this institution, which lately waited on you respecting the establishment of a Technical or Working Men's College in connection therewith, I have now the honor to state,—

1. That the object of the deputation was to endeavour through you to prevail on the Government to place upon the Estimates for the present year a sum of £2,000, to be granted to the Sydney School of Arts without the usual conditions, such sum to be expended by the committee in carrying out the extensive additions and alterations to the building which will be required for the establishment of such a college as that referred to.

2. From the printed report of our Improvement Committee which was laid before you, together with the plans connected therewith, it will be seen that the contemplated additions and alterations are calculated to increase the accommodation afforded by the institution to considerably more than double of that which exists at present, and this, together with the establishment of the new technical classes and the introduction of the other improvements, will amount nearly to a re-modelling and re-organization of the institution.

3. The Committee are convinced that such increase of accommodation is now absolutely necessary for the preservation of the popularity which the institution since its foundation in 1833 has uniformly enjoyed, for the extension of its usefulness to meet the ever-increasing requirements of the public, and placing and keeping it on a level with the many similar institutions in Great Britain, where the education of the industrial classes both in general knowledge and in technical subjects is systematically carried on.

4. The Committee have found it impracticable to effect these improvements (which have been estimated to cost between £4,000 and £5,000) with the means at present at their command. There is a balance in the bank to the credit of the institution amounting to £1,300, and it would be futile under such circumstances to ask for special subscriptions to the building fund. The Committee therefore, knowing the liberality of the Government in promoting the cause of education generally, and believing that a special regard would be paid by it to the educational wants of the industrial classes, and considering further that the circumstances under which the special grant now sought to be obtained were quite exceptional, thought themselves justified in representing the whole case to the Government, and applying for its assistance in the terms stated to you by the deputation.

5. You were pleased to ask the deputation whether the money now standing to the credit of the Sydney School of Arts was not made up partly from funds granted by Government in previous years in aid of the institution; such is certainly the fact, but the proportion which the funds supplied by the Government bears to the total income of the institution is so small

small that little account (it is submitted) should be taken of it in the consideration of this application. I append for your information a return showing the revenue of the Sydney School of Arts for the last fifteen years, from which it appears that during that period the Government aid amounted to £2,750, while the sums raised by the institution itself amounted to £24,674 6s. 8d. The Sydney School of Arts is not subsidized by Government to the same extent as similar institutions throughout the Colony. It receives a fixed grant of only £200 a year, whatever may be the amount of its proper income, which has lately exceeded £2,000 a year; whereas the country institutions receive £1 for every £2 subscribed by their members.

6. You were also pleased to ask the deputation for information respecting the tenure of the land upon which it is proposed to erect the new buildings. In reply I beg to state that the portion upon which the most substantial of these will be erected, and which will be principally used as class-rooms in connection with the Technical College, is held on a ninety-nine years' lease. Another portion, on which it is proposed to erect a large lecture hall, is held on a lease for two lives, with option of purchase after its termination; while of the third portion a lease for seven years has been obtained, with a promise in writing to the Committee that at the end of that time the fee-simple of it may be purchased by them.

7. I venture to think that the Minister for Justice and Public Instruction will be gratified to learn that the General Committee have already been on several occasions in communication with the Engineering Association and the Trades and Labour Council of New South Wales, both of which bodies have expressed their concurrence with the views of this Committee, and have indicated their desire to co-operate with us in carrying these views into effect. But as yet no definite arrangement has been arrived at between us in consequence of the want of means to provide suitable accommodation for carrying out the objects we have in common.

8. For further and more detailed particulars of the condition and prospects of this institution, the work it has done, and the objects at which it aims, I beg respectfully to again refer you to the several documents which have been laid before you in connection with this application, and pray that you will be pleased to recommend it to the most favourable consideration of the Government.

I have, &c.,  
**JOHN ROGERS,**  
 Secretary.

[Enclosure.]

REVENUE of the Sydney Mechanics' School of Arts for the past fifteen years, exclusive of Government aid.

REPORT OF IMPROVEMENT COMMITTEE TO GENERAL COMMITTEE OF THE SYDNEY SCHOOL OF ARTS.

Gentlemen,

Your Committee, in arriving at a decision in reference to the plans for improving the accommodation of the Sydney School of Arts, were, to some extent, influenced by what appeared to be the general opinion of the members, and which resulted in the plans submitted to them last year being withdrawn, after discussion at two Special Meetings.

The two chief objections which were then raised to those plans seemed to be—firstly, because the vacant land at the back was not utilised for building purposes, thereby causing the various departments of the institution to be much crowded together; and secondly, because of the proposal to place the reading room on the first floor of the building.

To endeavour to remedy these and other defects, it was suggested at the second Special Meeting of members that the Committee should try to obtain a fresh site on which to build. But every endeavour having been made to secure an eligible site, without success, this Improvement Committee was appointed to report on the best means of carrying out the much needed additions and improvements to the institution.

Your Committee have therefore, after much consideration, had new plans prepared, which they now submit, with a recommendation that they be adopted.

In framing these plans they have kept in view the great future of this institution; and have endeavoured to provide sufficient accommodation in all departments, to meet its ever-increasing requirements, for a long time to come.

Moreover, with a view to making the institution more popular, they are desirous of adding several new and important features to it.

The most important is, perhaps, the proposed great extension of the usefulness of the library, where, it is suggested, members shall have the same privileges that they may enjoy at any public library.

In the new library books will be so arranged and classified, on low shelves, that they will be within easy reach of all readers and students.

To this room will also be transferred the reference library and cases of geological specimens now in the reading room.

*Library.*—To meet all these requirements your Committee have set apart a very large room on the first floor of this building, having a superficial area of about 2,400 feet, and extending over the whole length of the front of the building, and back over the whole length of the present reading and chess rooms. Thus forming a magnificent room, which, if properly fitted up and conducted, will rival the Public Library of Sydney.

*Reading room.*—Another new feature that your Committee wish to add to the institution is to make the reading room of more general usefulness than it has hitherto been. The news of the day, the arrival and departure of steamers, and other matters of public information and interest, should be duly recorded here. They therefore propose that the greater portion of the old building which constitutes the present reading room, and the chess room, shall be pulled down, and a new reading room built in their place, leaving a passage about 6 feet wide between that and the hall.

This gives a fine room 63 feet x 24 feet, or a superficial area of 1,500 feet. It is lit by windows front and back, as well as by a borrowed light from an opening in ceiling, through the floor of the library above, leading to skylight in roof of building; thus providing both good light and efficient ventilation in the centre of both rooms.

*Ladies' Room.*—A third new feature in the proposed alteration is a ladies' room, which your Committee think will be a great acquisition to the institution.

This room is on the ground floor, formed out of a portion of the present library. It will be fitted with a small lift, by which books may be passed to the new library above.

This lift will prove a convenience to persons who may desire to exchange books, without the exertion of going up stairs to do so.

Office.

*Office.*—A small office for the secretary is also shown in the old library room. It is placed where he will be accessible to all, and be in a good position for general control.

*Stairs.*—The grand stairs leading to the new library will be commodious and of easy gradient, viz., 5 feet broad, with a rise of 6½ inches, and about 12-inch tread. Starting from the floor of the old library they will ascend by three flights to the landing, which is placed opposite to the end window in the new library.

This completes the alterations which it is proposed to make in the present old building.

*Hall.*—The hall, with its retiring rooms, remain as at present.

*Class room and Keeper's Quarters.*—The class room, which is now over those retiring rooms, which measures 40 feet by 13 feet, as well as the keeper's quarters, which are over that again, will also remain as at present.

These rooms will be approached by stairs from the vacant land adjoining.

*Chess room.*—A chess room 35 feet by 10 feet 6 inches will be built in old yard, on the site of the present out-houses, which will be removed to the vacant land at the back.

*Area and Passage.*—An area is left in the old yard, and a passage through to the land at the back, and thence through to George-street.

*Vacant Land.*—We now come to the vacant land. Here it is proposed to erect class rooms and a working men's college.

In planning these buildings your Committee have been careful to put the more permanent structures on that portion of the land for which we have the longest tenure.

The land is divided into three sections, with a reserved lane added. One section has been secured for ninety-nine years. Another during the lives of two people. The third is secured only for about seven years, when in all probability we may be able to purchase it.

Thus, on the first-named block, it is proposed to erect a three-story building for class rooms and chemistry lecture room.

*Class rooms.*—The class rooms are five in number, and of the following dimensions, viz. :—One 32 feet by 16 feet; two, 16 feet by 15 feet; one, 13 feet by 16 feet; and one large one for drawing class, 48 feet by 16 feet.

*Chemistry room.*—There is also the chemistry lecture room, 35 feet by 17 feet 6 inches, a portion of which will be built on the adjacent block of land, for which we have only the seven years certain tenure. This, however, with the out-houses, are the only buildings proposed to be put on that portion of the land.

*Lecture-room.*—The Working Men's College and lecture room is provided for on that section of land which we hold on the tenure of two lives.

It is a large room, 48 feet by 27 feet 6, or superficial area of 1,320 feet. It will have an open roof, and there will be a passage to it from both Pitt and George Streets.

This completes the buildings proposed to be erected as additions to the institution.

*Summary.*—The whole accommodation may be comparatively summarized as follows :—

	At present.	As proposed.
Reading room ... ..	1,150	1,512 feet
Library... ..	560	2,420 "
Ladies' room ... ..	—	255 "
Chess room ... ..	220	367 "
Working Men's College ... ..	—	1,320 "
Chemistry room ... ..	220	647 "
Six class rooms ... ..	1,730	2,500 "
	<u>3,880</u>	<u>9,021 feet</u>

In addition to the above, by the alterations proposed, more crush room will be provided at the entrance to the hall. The passage also will be widened from 4 feet, as at present, to about 6 feet.

In submitting the accompanying plans to the General Committee, we would recommend that the buildings on the vacant land be erected first, so that, as far as practicable, the business of the institution may be conducted there while the alterations are progressing in the old building.

*Portico.*—Your Committee are also of opinion that a portico should be erected at the Pitt-street entrance, and would submit the accompanying sketch, which it will be seen also provides for the efficient lighting of the front :—

Approximate estimate of cost of first section, viz., buildings on the vacant land ... ..	£2,500
Approximate estimate of cost of second section, viz., alterations to old building ... ..	1,200
Approximate estimate of cost of portico ... ..	300
	<u>£4,000</u>

CHARLES M. FISHER,  
Chairman of Improvement Committee.

Sydney, 27th April, 1877.

Acknowledge and inform that this application will receive due consideration when preparing Estimates for next year.—F.B.S., 20/6/77.

No. 13.

The Under Secretary, Department of Justice, &c., to The Secretary, Sydney Mechanics' School of Arts.

Sir,

Department of Justice and Public Instruction, Sydney, 25 June, 1877.

I am directed by the Minister of Justice and Public Instruction to acknowledge the receipt of your letter of the 6th instant, respecting the establishment of a Technical or Working Men's College in connection with the School of Arts, and requesting that £2,000 may be granted without the usual conditions, and to inform you that the matter will receive due consideration when preparing the Estimates for next year.

I have, &c.,

W. E. PLUNKETT,  
Under Secretary.

Sydney University.

No. 14.

The Chancellor of the Sydney University to The Minister of Justice, &c.

My Dear Mr. Docker,

Barham, Darlinghurst, 11 November, 1876.

The Senate of the University has appointed a deputation to wait upon you in order to bring under your notice and that of your colleagues an application which it has been determined to make to the Government for a permanent annual addition of £4,000 to the present endowment of £5,000, thus bringing up the amount to that of the permanent endowment which has been enjoyed by the Melbourne University since its first establishment. The special reasons for making this application at the present time will be found detailed in the accompanying copy of a resolution of the Senate passed at its last

fast monthly meeting. I may mention that the Senate has been anxious for some time past to extend the curriculum of subjects now taught in the University, but has been prevented from doing so by the want of funds. The largely increased number of students who matriculated at the last examination offers a further reason for pressing the attention of the Government upon the subject at the present time.

May I ask when it will be convenient to you to receive the deputation.

Yours, &c.,

E. DEAS-THOMSON.

Forward copy of reply to the Honorable the Colonial Treasurer.—J.D., 13/11/76. The Colonial Secretary, for consultation.—J.D., 29/11/76.

[Enclosure.]

Resolution passed by the Senate, 1st November, 1876.

THAT in making application to the Government for an increased endowment of £4,000 per annum to the University the Minister should be informed—(1.) That the present endowment of £3,000 per annum is insufficient, after deducting the amount necessary for the preservation and repair of the University buildings, for giving proper instruction in those branches of knowledge now professedly taught in the institution, viz., Latin, Greek, mathematics, chemistry, natural philosophy, experimental physics, geology, and mineralogy. (2.) That it is utterly impossible, without increased means, to provide instruction in the important subjects of history, law, mental philosophy, biology, animal and vegetable physiology, and engineering. (3.) That the long contemplated establishment of a school of medicine in connection with the University will necessitate the appointment of a Professor of Anatomy and several professional lecturers on such subjects as surgery, practice of medicine, therapeutics, pathology, clinical medicine, surgery, and midwifery. (4.) That the formation of a School of Mines is also necessary. (5.) That lectures on many of the subjects above-mentioned, if not in all, might be given by the University, if the annual endowment were increased to £9,000 per annum—the amount of endowment given to the Melbourne University.

ENDOWMENT OF THE UNIVERSITY OF SYDNEY.

THE following scheme is submitted to the Minister of Justice and Public Instruction as an approximation to the way in which it is proposed to use the increased endowment now asked for the University :—

*Professors :—*

1. Classics, mental philosophy .....	£1,000
2. Mathematics, natural philosophy .....	1,000
3. Chemistry—Inorganic, organic, and practical .....	1,000
4. Biology, geology, and mineralogy .....	1,000
5. Anatomy, physiology .....	1,000

*Assistants, Lecturers, &c.*

1 Master for junior classics and mathematics .....	300
1 Assistant in practical chemistry and metallurgy .....	250
1 Assistant to the chair of natural philosophy as lecturer on mechanics and engineering .....	250
1 Demonstrator in practical anatomy .....	200
6 Professional lecturers on medical subjects .....	600
2 Lecturers in law .....	400
1 Lecturer in history and English literature .....	300
1 Registrar .....	500
7 Servants, messengers, &c. ....	800

£8,600

The balance of £400 with the fees from lectures will, it is believed, meet all the other expenses of the institution, such as those of the chemical laboratory, the school of anatomy and physiology, natural history, mechanics, &c.

By the system above proposed the University would gain over and above what is at present taught :—1st. Instruction in mental philosophy, law, history, and English literature; 2nd. All the education necessary for the medical profession; 3rd. A complete course of natural philosophy, coupled with mechanics and engineering; 4th. The addition of organic chemistry and metallurgy to the chemical school; and 5th. Biology (including animal and vegetable physiology). The Senate would also then be in a position to establish a Faculty of Science, as proposed by Professor Liversidge, on the London University system, giving the degrees B.Sc. (Bachelor of Science), and D.Sc. (Doctor of Science). Degrees in medicine also could then be conferred on those who had received their education on the spot.

Two buildings, detached from the main building of the University, are absolutely necessary for carrying out the above scheme—one for a chemical laboratory, the other for anatomical purposes. The first, Professor Liversidge thinks, should be a temporary building, costing not more than £1,000, with fittings and apparatus costing another £1,000—£2,000 in all. £1,000 would be ample for a temporary anatomical building; it could be built of iron, and should consist of four rooms—1. A dissecting room; 2. A room for making preparations, or for physiological investigations; 3. A room for anatomical preparations, and a pathological museum; and 4. A class-room, which might be used for most of the lectures on medical subjects.

The Government should be asked, therefore, to place on the Estimates the following sums :—

Building and fitting laboratory .....	£ 2,000
Building for anatomical purposes .....	1,000
Annual vote for repairs of buildings .....	500

£3,500

Although the foregoing is the general scheme of the way in which it is proposed to appropriate the endowment, if, as now requested, it should be increased to £9,000, it must of course be subject to any change or modification which the Senate from time to time may deem to be necessary or expedient.

It is proper also to point out that, in order to enable the Senate to enter into a permanent engagement with the additional professors and lecturers whom it will be necessary to appoint, and to give an assurance to the public of the permanency of the system, it is highly desirable that the increased endowment should, as the original one, be provided for by an Act of the Legislature, and not be subject to an annual vote.

Regular accounts of the expenditure should, of course, be required to be laid annally before Parliament.

No. 15.

The Minister of Justice, &c., to The Honorable Sir E. Deas-Thomson.

My dear Sir Edward,

Department of Justice and Public Instruction, Sydney, 13 November, 1876.

I have received your note of the 11th instant, in which you inform me the Senate of the University are desirous that I should receive a deputation from that body on certain matters enumerated in a resolution of the Senate, bearing date the 1st instant.

As

As the question involved in the resolution is of great importance, I considered it desirable that one of my colleagues should be present at the interview.

The Treasurer has kindly consented to assist me in receiving this deputation, and if Friday, the 17th, at 11 a.m., will suit the convenience of the Senate, I would desire to fix that day and hour for the interview.

I remain, &c.,  
JOSEPH DOCKER.

Copy of above forwarded for information of Colonial Treasurer.—B.C., 13 November, 1876.

No. 16.

The Minister of Justice, &c., to The Honorable Sir E. Deas-Thomson.

My dear Sir Edward,

Department of Justice and Public Instruction, Sydney, 20 March, 1877.

In reference to the letter I received from you on the 11th of November last on the subject of an increased endowment to the University, and the information and memoranda furnished by the deputation of the Senate, which I promised to lay before my colleagues, I have now the honor to inform you, for the information of the Senate, that I duly carried out that promise, and the subject has been two or three times under consideration.

But I regret to be compelled to add that the multifarious and harassing matters which have been forced upon the attention of the Cabinet has prevented my colleagues from bestowing that exclusive attention to this important matter which they would otherwise have desired to enable them to have arrived at a definite conclusion.

I am therefore reluctantly compelled to leave all further proceedings for consideration by my successor.

I have addressed these remarks to you as you have been the medium of communication with me on behalf of the Senate.

I remain, &c.,  
JOSEPH DOCKER.

No. 17.

The Under Secretary of Justice, &c., to The Honorable Sir E. Deas-Thomson.

Sir,

Department of Justice and Public Instruction, 23 July, 1877.

Referring to letter of 20th March last from the Minister of Justice respecting the application of the Senate of the University for increased endowment to that institution, I am directed by the Minister of Justice and Public Instruction to inform you that the Government do not consider it desirable at present to ask Parliament to increase the endowment to above institution.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

Engineering Association.

No. 18.

EXTRACT from *Sydney Morning Herald* of 5th May, 1876, containing report of Deputation from Engineering Association to Minister of Justice, respecting Technical Education.

YESTERDAY morning a deputation, consisting of Mr. J. Sutherland, M.L.A., Mr. Davidson, President of the Engineering Association of New South Wales, Messrs. Cruickshank, Laing, and Davies, members of the same Association, Mr. John Young, President of the Builders' and Contractors' Association, Messrs. Giles, Edwards, Baldwin, Dooley, Peys, Dixon, and White, members of the Trades and Labour Council of New South Wales, waited upon the Honorable the Minister for Justice and Public Instruction at his office, Macquarie-street.

Mr. J. Sutherland introduced the deputation, and said their business there was to try and impress upon the Minister the necessity for assisting the youth—and he might say also the old age of the country—to educate themselves; to provide, with the help of the Council of Education, teachers to form night-classes for the instruction of youth. He would be glad to see one started to begin with; he did not care where it was, so long as it was in a central position, and he was sure the necessity for this sort of thing would soon be apparent throughout the whole country. It was only by the assistance of the Council of Education that this could be done. The Engineering Association had been working in this direction, and for some years past had one or two classes in operation at the School of Arts; but the committee and officers of the School of Arts, however willing to assist, had not the means to do what the country requires, and they had now come to the head of the Educational Department of the country, hoping that he would consider this matter carefully; and no doubt the Council of Education would give him every assistance. Very little money would be required, for he believed there were already sufficient teachers at the disposal of the Council of Education. At a future time they might make application for suitable buildings for the purpose. He reminded the Minister how much the Owens College at Manchester and the Andersonian University at Glasgow had done towards educating the people. It was not mechanics alone, but every one in the community, that would be benefited by the course proposed. We should no longer see our young men hanging about at the street corners, but they would be more profitably engaged in improving themselves.

Mr. Davidson read a brief statement which he had caused to be written out, bringing under the notice of the Minister the great necessity for the establishment of evening training schools, in which technical knowledge might be acquired. He drew attention to the fact that in the old country, and on the Continent, every inducement was given to young men to study the principles of their profession. We are placed at a great disadvantage here in this respect. The mechanical and commercial prosperity of the Colony depend upon the amount of intelligence which the people possess for the development of our resources. We have Grammar Schools, and a University for the learned professions, but the most important link was missing, and it could only be supplied by the establishment of evening training schools. He then briefly described the institutions of this kind which exist in England and Scotland, and contended that great benefit would arise from the establishment of similar institutions here. They only asked that some portion of the education grant should be set apart for this object.

Mr. Dixon, as a member of the Trades and Labour Council, representing a large body of all sections of working men, fully agreed with what had been said, more particularly because they, as a body, needed this more than perhaps the Engineering Association, because there was a large number of them who had never had the benefit of early education, and felt the want of it now. There was ample machinery for this purpose at the command of the Council of Education, and it could easily be brought into operation, and it would be one of the best things for this country that Mr. Suttor could possibly be identified with. In the race between nations, if our youth are not well educated in the respective branches of knowledge, we shall soon fall behind, and we do not wish to do that. We have the blessing of a good system of primary education, to complete which we only needed the establishment of such schools as had been pointed out. He went thoroughly and heartily in favour of this scheme, believing that it was highly necessary at the present time. The Trades and Labour Council would do all in their power to impress upon their youths the necessity of taking advantage of these schools.

Mr. Laing desired to point out that not only the mechanical but also the pastoral and agricultural interests would be benefited by this being carried out. The course of study might include the science of the application of ploughing, mowing, thrashing, chemistry, practical physics, the nature of manures, and the kinds of grasses which would be suitable to different soils. In a country like this, to be good colonists, there was an absolute necessity for general knowledge, so that a young man might be able to turn his hand to more than one thing. If this plan were carried out in connection with our Public School system, each Local Board might define the educational requirements of its own district. They sought this for the benefit of the producing classes, so that with a knowledge of natural physics they might suitably employ the natural productions of the Colony, and know how to make the most of them.

Mr.

Mr. F. B. Suttor said, that from the opinions they had placed before him he could see they were engaged in a laudable object—to give a technical education to the young men who now only receive primary education. He agreed with them that this was not a party question, nor a question for the benefit of one class alone. In a country like this they should offer every inducement to young men to rise in the position to which their talents might entitle them; they should hold out every inducement to them to perfect their education. He was glad the deputation had waited upon him, because without any concert between them, a deputation from the Senate of the University had waited upon him a few days ago, and urged upon him almost the same matter in regard to the University. They were anxious that their endowment should be increased, so that they might establish new Chairs, and to employ lecturers to educate young men after they go to the University in these very subjects. By this system the University would gain over and above what is at present taught:—1. Instruction in mental philosophy, law, history, and English literature. 2. All the education necessary for the medical profession. 3. A complete course of natural philosophy, coupled with mechanics and engineering. 4. The addition of organic chemistry and metallurgy to the chemical school. 5. Biology (including animal and vegetable physiology). They were anxious to employ professors to give young men a practical education. If they could popularize the University by doing this, it would be a great step in the right direction. He hoped he should be able to carry out the views of the Senate in that respect; and the fact that this deputation had waited upon him with a similar request would strengthen his hands. He was desirous of doing everything he could to educate every man in this country. He would give this matter his very best attention. He would consult with the Council of Education, and if there was no great difficulty in the way he hoped before long to be able to do something to meet their wishes.

After some further conversation the deputation thanked Mr. Suttor and retired.

[Enclosures.]

Sir,

Sydney, 4 May, 1877.

We have been deputed by the Engineering Association and Trades and Labour Council to wait upon you for the purpose of bringing under your notice the great necessity which exists for the establishment (in connection with our Public School system) of evening training schools, in which tradesmen and young people could acquire that technical knowledge which is so necessary for their success in life. We would also draw your attention to the fact that in the old country and on the Continent every facility and encouragement is given to induce young men to study the principles of their respective professions after they leave the primary schools; and being deeply sensible of the importance of technical training, we feel that we are placed at great disadvantage in not having the same opportunities of acquiring knowledge as they have at home.

The mechanical and commercial progress of this Colony depends (in a great measure at least) upon the amount of intelligence which the people possess for the successful development of our resources; and if we have not the same opportunities and inducements we must of necessity drop behind in the race.

We have Grammar Schools, a University, &c., for the learned professions, but to the largest portion of the community the most important link is missing, and can only be supplied by the establishment of evening training schools.

In England, Scotland, and Ireland these schools have become permanent and popular institutions, and there is now a Public Department for the spread of scientific knowledge.

The London Society has upwards of 115 local boards, whose object is to establish training schools for those who cannot attend during the day.

In the Anderson University of Glasgow, during the session of 1874-5, there were 953 day and 1,324 night students.

At the Glasgow Mechanics' Institute, during the session of 1875-6, there were 2,595 night students. Professor Roscoe, of the Owens College, Manchester, in a letter to Mr. Laing, of the Engineering Association, says:—"In this college we have upwards of 1,000 evening students—young men who are occupied during the day and who spend their evenings in the prosecution of some branch or branches of science or literature. This is one of our most useful spheres of action."

These examples show what has been done at home; we therefore take the present opportunity of pointing out the great benefit which similar schools and classes would confer upon this Colony, and we respectfully ask that some portion of the educational grants may be set apart for the above object.

THE OWENS COLLEGE, MANCHESTER.

Session 1876-7.

1. The Evening Session will be opened with an introductory address by Alfred T. Bentley, Esq., M.A., Fielden Lecturer in Mathematics, on Monday, the 16th October, 1876, at 7:30 p.m., and will end on Tuesday, the 1st May, 1877. The introductory address will be open to the public without charge. On the following evening the class lectures will be commenced. There is a vacation at Christmas from the 23rd December to the 12th January, inclusive.

2. The registration of new students (only) will take place on Wednesday, the 11th, Thursday, the 12th, and Friday, the 13th October, from 6:30 to 9 p.m. Each candidate will be required to produce a letter of recommendation from his employers, or such other testimonial as may be approved by the Principal.

In order to expedite the work of registration, each student is recommended to be prepared with a form filled up with his name and address, and a list of the classes which he proposes to enter. Blank forms may be obtained from the porter in attendance.

3. Former students may re-enter on Tuesday, the 17th, to Friday, the 20th October, inclusive, from 6:30 to 9 p.m., and on each evening of the week (except Saturday) to the end of October, from 7 to 8 p.m.

4. After the period above-mentioned students can only be admitted between the hours of 10 a.m. and 5 p.m. (Mondays to Fridays inclusive), and new students must apply to the Principal between the hours of 12:30 and 2:30 p.m. After the month of November any person desiring to enter a class must apply personally, or by letter, to the Lecturer, and obtain his consent before he can be admitted.

5. Each lecture course, except where otherwise stated, consists of twenty lectures, and the fees, which are to be paid on entrance, are as follows:—

Admission fee (charged to new students only)* .....	£0 2 6
Each full lecture course .....	0 10 6
Practical mechanical drawing .....	0 10 6
Freehand drawing .....	0 15 0
Each division of the laboratory course (including the use of apparatus and chemicals) .....	4 4 0

6. The first lecture will be given in each class whatever the number of students may be who have entered to it; but unless five persons at least shall have entered at the date of the second lecture the class will not be held, except at the desire of the lecturer.

7. Examinations of all the classes will be held at the end of the session. On the results of these examinations exhibitions† will be awarded. The public award of exhibitions will take place on Tuesday, the 1st of May, at 7.30 p.m.

8. The library of the college is open to all evening students on payment of a library fee of 2s. 6d. for the whole period of studentship. Students in the evening classes who entered previously to the session 1874-5, and all who have once paid the library fee, will receive a free ticket for the library on application to the Registrar. Each student using the library must show his ticket to the librarian on his first attendance, and he must produce the same on any future occasion if demanded.

The library hours are from 6.30 to 9 p.m., on Mondays, Tuesdays, Wednesdays, and Thursdays, until the termination of the regular courses. The library is closed to readers during the college vacations, and on incidental college holidays. Admittance to the library and to the use of its books is in the case of all persons conditional upon the strict observance of its rules (see *Calendar*). Books are not to be taken out of the library, and application must be made to the librarian for those required for use in the library. Works of reference are kept apart, and can be taken from the shelves by the students. Conversation and reading aloud are prohibited in the library.

9. The courses of instruction for this session comprise the following:—

#### Greek.

- Lower Junior Class.*—Dr. Hagar. (*Mayor's Greek for Beginners.*)  
*Higher Junior Class.*—Mr. England. (Ditto and selections from Xenophon.)  
*Lower Middle Class.*—Prof. Wilkins. (Homer, *Odyssey*, Book XII; Syntax.)  
*Higher Middle Class.*—Dr. Hagar. (Xenophon, *Cyropaedia*, Book I.)  
*Senior Class.*—Prof. Wilkins. (Herodotus, Book II.)  
*Greek Testament Class.*—The Principal. (*St. Mark* and one of the shorter Epistles.)

#### Latin.

- Junior Class.*—Prof. Wilkins. (Elementary.)  
*Lower Middle Class.*—Mr. England. (Selections from Cicero.)  
*Higher Middle Class.*—Mr. England. (Horace, *Odes*, Books III and IV.)  
*Senior Class.*—Mr. England. (Livy, Book IX.)  
*Composition Class.*—Prof. Wilkins. (On Latin Syntax.)

#### English Language.

- First Course.*—Dr. Adams. (Grammar and History of the Language.)  
*Second Course.*—Mr. Toller. (Early English.)  
*Third Course.*—Mr. Toller. (The English subjects for the first B.A. Exam.)

#### English History and Literature.

- Literature Class.*—Prof. Ward. (History of English Poetry from Chaucer to Spenser.)  
*History Class.*—Prof. Ward. (English History from the close of the 10th to the close of the 13th Centuries.)

#### Mathematics.

- Junior Geometry Class.*—Mr. Millar. (Elementary.)  
*Middle Geometry and Algebra Class.*—Mr. Bentley. (Elementary Plane Geometry and Solid Geometry. Algebra from Quadratic Equation.)  
*Senior Geometry Class.*—Mr. Bentley. (Analytical Geometry of two dimensions.)  
*Junior Algebra Class.*—Mr. Millar. (Todhunter's *Algebra for Beginners.*)  
*Senior Algebra Class.*—Mr. Gwyther. (Commencing with Permutations.)  
*Trigonometry.*—Mr. Gwyther. (Plane Trigonometry up to the Solution of Triangles.)  
*Differential and Integral Calculus.*—Prof. Barker.

#### Mechanics.

- Experimental Course.*—Mr. Poynting. (Matter, Force, Simple Mechanical Powers and their combinations, &c.)  
*Mathematical Course.*—Mr. Poynting. (Elementary Statics and Dynamics.)

#### Physics and Astronomy.

- Experimental Physics.*—Prof. Core. (Magnetism and Electricity.) If a second class can be formed the subject of heat will be taken up in it.  
*Astronomy.*—Prof. Core. (Astronomical Instruments and the Heavenly bodies.)

#### Engineering, and Geometrical and Mechanical Drawing.

- Civil Engineering.*—Prof. Reynolds. (Surveying and Surveying Instruments, &c.)  
*Mechanical Engineering.*—Prof. Reynolds. (Theory of Mechanical connexion and Hydraulic Machinery, &c.)  
*Geometrical Drawing.*—Mr. Millar. (Plane and solid.)  
*Practical Drawing Class.*—Mr. Millar.

NOTE.—Free admission to the Drawing Class is given to—

(a) Workmen, or sons of workmen, being over fourteen years of age, who were on the 24th August, 1869, or who at any time, and from time to time thereafter may be, employed as workpeople at the Works at Openshaw, of the "Ashbury Railway Carriage and Iron Company, Limited."

(b) Pupil teachers, for the time being, of the Wesleyan Schools at Openshaw.

Persons claiming free admission must produce certificates of eligibility.

The exemption of payment does not extend to the College admission fee.

#### Logical and Political Economy.

- Logic.*—Prof. Adamson. (Deductive and Inductive Logic.)  
*Political Economy.*—Prof. Adamson. (Industry, Trade, Finance, &c.)  
 (Elementary Course, for Pupil teachers only.)

Acting teachers and assistant teachers in schools within the Boroughs of Manchester and Salford, supported wholly or in part by public contributions, are admitted to the Political Economy Classes free of fee, under the provisions of the Cobden Endowment. (See *Syllabus*.)

#### Jurisprudence and Law.—Prof. Hopkinson.

- Elements of English Law.* (This class will not be formed unless twenty students, at least, enter for it in the **last** week.) *Chemistry.*

\* A day student entering to the evening classes, or *vice versa*, will be required to pay the admission fee accordingly.

† Details respecting exhibitions open to the competition of evening students will be found in the Evening Class Syllabus.

*Chemistry.*

*First Lecture Course.*—Prof. Roscoe. (The Non-Metallic Elements.)

*Second Lecture Course.*—Mr. Williams. (The Metals.)

*Third Lecture Course.*—Prof. Schorlemmer. (Organic Chemistry.)

*Fourth Lecture Course.*—Mr. Muir. (Chemistry of Food.)

*Laboratory Course.*—Prof. Roscoe, Mr. Williams, and Mr. Muir.

*Natural History.*

*Zoology.*—Prof. Williamson. (Anatomy and Physiology of the Animal Kingdom.)

*Animal Physiology.*—Prof. Gamgee.

*Geology and Palæontology.*—Professor Dawkins.

*Special Course.*—Prof. Dawkins. Six lectures on Field Geology, after Easter. (See Syllabus.)

*Botany.*—(The course will be omitted this Session.)

*French.*—Mr. J. F. H. Lallemand, B. ès Sc.

*Lower Junior Class.*—Grammar, Accidence (first part). Exercises. Reading. (An Elementary Knowledge of French Grammar is expected.)

*Higher Junior Class.*—Grammar, Accidence (second part). Exercises. Reading.

*Lower Senior Class.*—Grammar, Syntax (first part). Reading.

*Higher Senior Class.*—Grammar, Syntax (second part). Commercial Letters.

*Composition and Literature Class.*—Augier, *Le Gendre de M. Poirier*, Conversation, &c.

(The work of this class is conducted entirely in French. Students desiring to enter it will be required to pass a short preliminary examination in the accidence of French Grammar, and on the principal rules of Syntax.)

*German.*—Prof. Theodores.

*Junior Class.*—Grammar, Accidence. Exercises. Composition.

*Senior Class.*—Grammar, Syntax. Reading. Commercial Correspondence.

*Spanish.*—Señor Alvarez.

*Junior Class.*—Grammar, Accidence. Exercises. Reading.

*Senior Class.*—Grammar, Syntax. Reading. Commercial Correspondence.

*Italian.*—Signor Guidal.

Grammar, Exercises, Conversation, Correspondence, &c.

*Freehand Drawing.*—Mr. William Walker.

The subject will be taught both theoretically and practically.

*Harmony and Musical Composition.*

*Junior Class.*—Mr. Hecht. (Thorough Bass, &c.)

*Senior Class.*—Mr. Hecht. (Counterpoint, Canon, Fugue, &c.)

## EVENING CLASSES.—GENERAL TIME-TABLE, 1876-7.

	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.
6 to 7.	Chemical Laboratory, Junior and Senior. (6 to 8.)			Chemical Laboratory, Senior. (Lent Term, 6 to 8.)	Political Economy, Pupil Teachers.
	French Composition and Literature.				Chemical Laboratory, Senior. (Mich. Term, 6 to 8.)
7 to 8.	Greek Testament.	Greek, Lower Middle.	Greek, Higher, Junior.	English Language, First Course.	Greek, Lower Junior.
	Latin, Junior.	English History.	Geometry, Senior.	Mechanical Drawing, Practical (7 to 9).	Geometry, Junior.
	Latin, Higher Middle.	Physics, Experimental.	Mechanics, Experimental.	Spanish, Junior.	Trigonometry.
	Civil Engineering.	Geometrical Drawing, Lecture.	Zoology.	1 Italian.	Differential and Integral Calculus.
	French, Higher Senior.	Political Economy, Senior.	Physiology.		Geology.
			French, Lower Junior.		Freehand Drawing (7 to 9).
8 to 9.5.	Greek, Senior.	Latin Composition.	Latin, Lower Middle.	English Language, Second Course.	Greek, Higher Middle.
	Latin, Senior.	English Literature.	Geometry and Algebra, Middle.	Chemistry Lectures, Fourth Course.	Algebra, Junior.
	Mechanical Engineering.	Astronomy.	Mechanics, Mathematical.	Spanish, Senior.	Algebra, Senior.
	Chemistry Lectures, First Course.	Logic.	French, Higher Junior.		Chemistry Lectures, Second Course.
	Chemistry Lectures, Third Course.		German, Senior.		Harmony, Senior.
	French, Lower Senior.				

A detailed syllabus of the several courses of lectures for the Session 1876-7, and of the scholarships, exhibitions, and money prizes open to evening students, together with the Principal's report, the award of exhibitions and honors, and the examination papers of the preceding Session, may be procured (price 6d., by post 7d.) from Mr. Cornish, Piccadilly, the bookseller to the College; and from other booksellers in Manchester.

## ANDERSON'S UNIVERSITY.

James Young, Esq., of Kelly and Durris, F.R.S., President.

*Syllabus of Classes.*—1876-7.

## 1.—FACULTY OF ARTS.

*Physics and Natural Philosophy.*—Prof. George Forbes, M.A., F.R.S.E.—Lectures and Demonstrations twice a week at 9 a.m., commencing in November. £1 1s. per course of five months.

*Physical Laboratory.*—Prof. George Forbes.—The construction and use of apparatus, commencing in November. £1 1s. per month for six hours a week.

*Chemistry*

*Chemistry* (Lectures and Demonstrations).—Prof. Wm. Dittmar, F.R.S.E.—Daily, 10 a.m., commencing in November. £2 12. 6d. per course of six months.

*Laboratory* (Instruction in Analysis, &c.)—Prof. Wm. Dittmar, F.R.S.E.—Daily (Saturday excepted), commencing in November. Session of six months.

*Demonstrations on, and Practical Instruction in, Analysis*.—Five times a week, from 11 to 12. Fee during the first quarter, £1 1s.; to laboratory students, free.

*Technical Chemistry* ("Young Chair").—Prof. E. J. Mills, D.Sc., F.R.S.—Daily, Laboratory, 10 a.m. to 4 p.m. Saturday, 10 a.m. to 1 p.m. Lectures three days per week, at 9 a.m., commencing in November. £18 per session of nine months, £7 per quarter of three months, or £2 10s. per month.

*Applied Mechanics*.—Prof. W. T. Rowden, B.Sc. (London), Associate Royal School Mines.—Tuesdays and Fridays, 10 to 12 a.m.; Mondays and Thursdays, 7.15 to 9.15 p.m. Fee, £1 1s. [7s. 6d. to artisans and others, under certain conditions, in the evening classes.]

*Machine Drawing*.—Prof. Rowden.—Tuesdays, at 11 a.m. and 7.15 to 9.15 p.m. Fee, 10s. 6d. [5s. to artisans.]

*Practical, Plane, and Solid Geometry*.—Prof. Rowden.—Wednesdays, 7.15 to 9.15 p.m. Fee, 10s. 6d. or 5s.

Prof. Rowden's classes will commence on 16th October.

*Mathematics*.—Prof. Alexander Laing, LL.D.—Hours, from 9 to 2 daily.

*Arithmetic, Theoretical and Practical*.—15s. per quarter.

*Algebra, Geometry, Trigonometry, &c.*—£1 1s. per quarter.

*Evening Classes*.—Tuesdays and Thursdays.—Session of six months, commencing 1st October.

*Arithmetic, Algebra, &c.*—From 7 till 8. £1 1s. per session.

*Geometry, Plane and Solid*.—From 8 till 9. £1 1s. per session.

## 2.—FACULTY OF MEDICINE.

Winter Session.—Beginning on Tuesday, 24th October, and closing in April.

*Chemistry*, 10 a.m.; *Laboratory Instruction*, daily, 10 till 5 (Saturdays excepted).—Prof. Dittmar, F.R.S.E.

*Surgery*, 3 p.m.—Prof. Dunlop, M.D.

*Anatomy (Lectures)*, 11 a.m.; *Demonstrations on Practical Anatomy*, 1 p.m.; *Dissection*, daily, 9 till 4.—Prof. Buchanan, A.M., M.D., and Demonstrators.

*Institutes of Medicine* (Physiology), 12 noon.—Prof. Eben. Watson, M.D.

*Materia Medica*, 4 p.m.—Prof. Morton, M.D.

*Practice of Medicine*, 5 p.m.—Prof.

*Ophthalmic Medicine and Surgery, and Clinical Instruction at Ophthalmic Institution*, daily, 1 p.m.—J. R. Wolfe, M.D., F.R.C.S.E.

*Hospital Practice in Royal Infirmary*, visit at 9 a.m.

*Clinical Lectures*, do. do., 9 a.m.

Summer Session.—Beginning on the first Tuesday of May, and closing at the end of July.

*Botany*, 10 a.m.—Mr. Henedy.

*Operative Surgery*, 11 a.m.—Prof. Dunlop, M.D.

*Practical Physiology*, 10 a.m.—Prof. Eben. Watson, M.D.

*Surgical Anatomy*, 12 noon; *Dissection*, from 6 a.m.; *Osteology*, for beginners, daily.—Prof. A. M. Buchanan, A.M., M.D., and Demonstrators.

*Practical Medical Chemistry*.—Prof. Dittmar, F.R.S.E.

*Midwifery*, 3 p.m.—Prof. J. G. Wilson, M.D., F.R.S.E., F.R.C.S.E.

*Medical Jurisprudence*, 4 p.m.—Prof. Alexander Lindsay, M.D.

*Ophthalmic Medicine and Surgery, and Clinical Instruction at Ophthalmic Institution*, daily, 1 p.m.—J. R. Wolfe, M.D., F.R.C.S.E.

*Hospital Practice in Royal Infirmary*, visit at 9 a.m.

*Clinical Lectures*, do. do., 9 a.m.

*Class Fees*.—For each of the above courses of lectures (chemistry excepted), first session, £2 2s.; second session, £1 1s.; afterwards, free.

*Anatomy Class Fees*.—For both courses (lectures and demonstrations), first session, £4 4s.; second session, £4 4s.; summer session, with dissection, £1 1s.

*Practical Anatomy*.—The dissecting-room is free for two sessions to those who attend both courses of anatomy. After the second year the fee for practical anatomy is £1 1s. per session.

*Ophthalmic Surgery*.—Attendance gratis, by paying a matriculation fee of 5s.

The fees for all the lectures and hospital practice required of candidates for the diplomas of physician and surgeon amount to £50.

Certificates of attendance on the lectures at this school are received by the Royal Colleges of Physicians of London and Edinburgh; by the Royal Colleges of Surgeons of England, Ireland, and Edinburgh; by the Faculty of Physicians and Surgeons of Glasgow; by the Army, Navy, and East India Boards; and by the Apothecaries' Hall. They also qualify for graduation in the University of London and the University of Edinburgh.

Students attending the medical classes have the opportunity of witnessing the practice of the following hospitals, viz.:—Lying-in Hospital, £1 1s. for six months; Ophthalmic Institution, including systematic lectures, 5s. for course of six months; Dispensary for Skin Diseases, £1 1s. for three months; Royal Infirmary, 560 beds, where medical and surgical clinical lectures are delivered. The number of patients admitted to the Royal Infirmary amounts to 6,000 annually, besides 13,000 out-patients treated at the dispensary; and the average number of surgical operations is 450 annually. The patients admitted to the Ophthalmic Institution average 3,000 annually; and there are upwards of 300 important operations on the eye annually.

The laboratory for instruction in practical and analytical chemistry is open from 10 till 4.

The Materia Medica Museum contains a valuable collection of plates and specimens, recently much enlarged.

A valuable medical library is attached to the Medical School.

The University Museum contains a splendid collection of specimens in Natural History, including more particularly those of zoology, geology, mineralogy, and antiquities. The museum is open free of charge to all students attending the University.

## 3.—CLASSES.

*French*.—Mons. A. L. Gorecki.—Monday and Thursday—Beginners, 7 to 8; advanced, 8 to 9. Fee for the session, 25s. Special classes for pupil teachers; fee for the session, 15s. Classes for masters, assistants, and governesses, on Saturday; fee for the session, £1 1s. Morning classes will be formed if desired.

*German*.—Herr Gustav Walter (of Berlin).—Evening classes, Tuesday and Friday—7 till 8, beginners; 8 till 9, advanced. Commencing September 26th; fee, £1 5s. per session of six months. Morning classes will be formed if desired.

*Hebrew*.—Mr. Macklin.—£1 1s. per quarter.

*Latin and Greek*.—Mr. Macklin.—Five days a week each; 15s. per quarter, or £1 2s. 6d. each for two classes or two quarters. Saturday, principally for teachers; two hours upon same terms.

*Writing and Book-keeping*.—Mr. D. C. Maclean.—Monday, Tuesday, Wednesday, Thursday, and Friday, from 9 a.m. till 3 p.m., and 8 till 9 p.m., except Friday evening. Writing, junior pupils, 8s. 6d. per quarter; advanced do., 10s. 6d. per quarter; 16s. for two hours. Book-keeping, 16s. per quarter; do., two hours, £1 1s. per quarter; do., per session of five months, £1 1s.; do., two hours per session of five months, £1 12s. 6d. Writing, per session of five months, 17s., including stationery.

### Popular Evening Lectures and Classes.

*Applied Mechanics*.—Mondays and Thursdays, 7.15 to 9.15 p.m.

*Machine Drawing*.—Tuesdays, 7.15 to 9.15 p.m.

*Practical Geometry*.—Wednesdays, 7.15 to 9.15 p.m. Prof. W. T. Rowden.—To artisans. 7s. 6d. for Applied Mechanics, and 5s. each for other courses. To commence on 16th October.

Natural

*Natural Philosophy [Astronomy, Navigation, and Meteorology].*—Prof. George Forbes, M.A., F.R.S.E.—Tuesdays, half-past 8 p.m., commencing 3rd October. Fee for course of six months, with use of library, 2s. 6d.

*Anatomy and Physiology.*—Prof. A. M. Buchanan, A.M., M.D.—Wednesdays, half-past 8 p.m., commencing 4th October. Fee for course of six months, with use of library, 2s. 6d.

*Chemistry.*—(Organic Chemistry).—Prof. Dittmar, F.R.S.E.—Fridays, half-past 8 p.m., commencing in November. Fee for course of six months, with use of library, 2s. 6d.

*Music.*—(Scientific, Theoretical, Historical, and Biographical).—Mr. Brown.—Thursdays, 8 p.m., commencing 5th October. Fee for course of six months, with use of library, 2s. 6d., with additional fee for examination of class exercises.

*Art and Practice of Vocal Music.*—(Tonic-Sol-Fa Method).—Mr. Anderson.—Mondays, quarter-past 8 p.m., commencing 2nd October. Fee, gentlemen, 4s.; ladies, 2s.; for the course of six months.

*Botany.*—Mr. Henneidy.—In summer, Mondays, half-past 8 p.m. Fee for course of four months, with use of library till October, 3s.

*Practical and Analytical Chemistry in the Laboratory.*—Once a week.—Prof. Dittmar, F.R.S.E.

Students attending the Popular Evening Lectures and Classes have the privilege of competing for the prizes and certificates offered by the department of Science and Art.

The Evening Popular Lectures have connected with them an extensive and well-selected library of works on science and general literature, amounting to upwards of 6,000 volumes, to which considerable additions of new and valuable works are constantly being made.

Glasgow, September, 1876.

J. B. KIDSTON, Secretary.

#### GLASGOW MECHANICS' INSTITUTION, 38, BATH-STREET.—SESSION 1876-7.

##### EVENING LECTURES AND CLASSES.—SESSION OF SIX MONTHS.

The second quarter commences at the beginning of January.

*Chemistry.*—By Mr. Robert R. Tatlock, F.R.S.E., F.C.S. On Friday evenings, at 8 o'clock, for six months. Introductory lecture, Friday, 6th October. Fee, 5s., with library during the course.

*Natural Philosophy.*—By Mr. Peter Alexander, M.A. On Tuesday evenings, at 8 o'clock, for six months. Introductory lecture, Tuesday, 3rd October. Fee, 5s., with library during the course. For both of the above courses, with library for one year, 10s.; or for the half session, 5s. Students holding tickets for either of the above courses are members of the institution while they hold such tickets.

*Music.*—By Mr. W. M. Miller. Beginners' class, from 7 till 8 p.m.; fee, 5s. Advanced class, from 8½ till 9½ p.m.; fee, 7s. 6d. For six months, commencing on Wednesday, 1st November. ~~6s.~~ Ladies' and apprentices' tickets half-price for each of the above courses.

*Theoretical Mechanics.*—By Mr. Peter Alexander, M.A. On Thursday evenings, at 8 o'clock, for six months, commencing 5th October. Fee, 7s. 6d. per quarter, or 12s. 6d. per session.

*French.*—By Monsieur Dutoit. Commencing on Monday, 25th September. Evening classes:—Initiatory, Monday and Thursday, from 8 till 9:30; advanced, Tuesday and Friday, from 8 till 9:30. Fee, 21s. for the whole session of six months.

*Latin and Greek.*—Mr. Geo. M'Crindle. Commencing Monday, 2nd October. Greek, on Monday and Wednesday, from 9 till 10 p.m. Latin:—Junior, on Monday, Wednesday, and Friday, from 7 till 8 p.m.; senior, on Monday, Wednesday, and Friday, from 8 till 9 p.m. Fee, 12s. 6d. per quarter, or 21s. for session of six months.

*Spanish.*—By Mr. Archd. Revie. Commencing on Tuesday, 3rd October. Junior, on Tuesday and Friday, from 8 till 9 evening. Senior, on Tuesday and Friday, from 9 till 10 evening. Fee, 12s. 6d. per quarter, or 21s. for the whole session of six months.

*Elocution.*—By Mr. William Moffatt. On Thursday evenings, for six months. Introductory readings on Thursday, 5th October, at 8 o'clock. Elementary class, from 8 till 9 o'clock; fee, 7s. 6d. Advanced class, from 9 till 10 o'clock; fee, 9s. Text book:—"Moffatt's Practice of Elocution."

*Phonography.*—By Mr. William Silver. Commencing on Wednesday, 4th October. Initiatory, Wednesday evenings, from 8 till 9 p.m. Advanced, Wednesday evenings from 9 till 10 p.m. Fee, 5s. per quarter, or 8s. for the whole session of six months.

*Geology.*—By Mr. John Young, F.G.S., Vice-President of the Geological Society, Glasgow. On Monday evenings, at half-past 7 o'clock. Commencing 5th November. Fee, 5s.

##### EVENING CLASSES.—SESSION OF NINE MONTHS.

First quarter commences on Monday, 4th September; second quarter commences on Monday, 27th November; third quarter commences on Monday, 26th February.

*Advanced Arithmetic and Mathematics.*—By Mr. Archibald Thom. Junior Class, on Monday and Wednesday, from 6 till 7:30 p.m., and from 7:30 till 9:30 p.m. Fee, 7s. 6d. per quarter, or 20s. for the whole session of nine months. Advanced class on Tuesday and Thursday, from 7:30 till 9:30 p.m. (embracing the more advanced books of Euclid, Analytical Trigonometry, Analytical Geometry, and the Differential and Integral Calculus.) Fee, 9s. per quarter, or 23s. 6d. for the whole session of nine months.

*Mechanical Drawing.*—By Mr. William Brown, engineer. On Tuesday and Thursday, from 7:30 till 9:30. Fee, 7s. 6d. per quarter.

*Drawing, Painting, and Architecture.*—By Mr. A. D. Robertson, artist. On Wednesday and Friday, from 8 till 10 evening. Ornament and architecture; fee 7s. 6d. per quarter. Water-colour drawing and landscape painting; fee, 15s. per quarter.

*English Grammar, Composition, and Literature.*—By Mr. J. D. Reid, M.A. On Monday, Wednesday, and Friday. Elementary class, from 8 till 9 p.m.; fee 7s. 6d. per quarter. Advanced class, from 9 till 10 p.m.; fee, 9s. per quarter.

*Writing, Arithmetic, and Book-keeping.*—By Mr. John Macgregor. Tuesday, Thursday, and Friday, from 6 till 8 p.m. and from 8 till 10 p.m. Fee for writing and arithmetic, 8s. per quarter. Fee for writing and arithmetic and book-keeping, 9s. 6d. per quarter.

*Evening class for Females.*—By Mr. John Higgins. For reading, grammar, writing, and arithmetic, on Monday, Wednesday, and Friday, from 8 till 9:45. Fee, 6s. per quarter; with book-keeping, 7s. 6d. per quarter.

The institution is in connection with the Department of Science and Art. Students are entitled, free of charge, to compete for the valuable certificates and prizes, and other advantages offered to competitors.

##### LIBRARY.

Fee for the library for six months, to students attending any of the classes, 2s. 6d.

The library contains about 8,000 volumes in the various departments of Literature and Art. It is open to the public at the annual charge of 6s. The leading Monthly and Quarterly Magazines and Reviews are added on publication.

Fees payable to Mr. Alexander Buchanan, at the Institution Library, 38, Bath-street.

##### SYLLABUS OF LECTURES.—SESSION 1876-77.

*Chemistry.*—By Mr. Robert R. Tatlock, F.R.S.E., F.C.S. Introductory lecture on the evening of Friday, 6th October, at 8 o'clock. Subject:—"Crystallization."

The course this session will be devoted chiefly to the chemistry of the leading metals and their compounds, and will be profusely illustrated by experiments, specimens, and diagrams. It will consist of twenty-five lectures, extending over six months. The principal chemical manufactures will receive a large amount of attention. Special facilities will be given to students intending to present themselves for examination at the end of the session by the Government Department of Science and Art, for successful appearance at which Queen's Prizes and Certificates are granted by the Department. The following is an outline of the course which will be pursued:—

*Chemical action and laws relating to chemical combination; chemical formula and nomenclature; general properties of gases; the non-metallic elements and their leading compounds.*

General

*General properties of Metals*—Their detection by the spectroscope and other means—History, preparation, properties, and uses of the leading metals and their compounds, including potassium, sodium, lithium, barium, strontium, calcium, magnesium, aluminium, zinc, iron and steel, tin, arsenic, antimony, bismuth, lead, copper, mercury, vanadium, silver, gold, platinum.

*Résumé*—An excellent collection of first-class works on modern chemistry has been added to the library during the past session. This includes "Watt's Dictionary of Chemistry," 7 vols; "Ure's Dictionary of Arts, Manufactures, and Mines;" and Roscoe's, Frankland's, Fresenius's, and Crookes's Works.

A gold and silver medal and some book prizes are offered for competition at the ordinary examinations of the class, which are held monthly.

*Natural Philosophy*—By Mr. Peter Alexander, M.A. Introductory lecture, Tuesday, 3rd October, at 8 o'clock p.m.  
Subject :—"A Night with the Coil."

The following is an outline of the course :—

*Sound*—Production and propagation, velocity of propagation in solids, liquids, and gases, reflection, echoes, refraction, noise and musical note, intensity, resonance, interference, beats, pitch, siren, modes of vibration of bodies, nodes and loops, harmonics, quality of musical sounds, musical instruments, the voice, musical intervals, the diatonic scale, the ear.

*Light*—Theories, undulatory theory, wave length, colour, intensity, velocity, reflection, mirrors, single refraction, lenses, rainbows, prism, spectrum, spectrum analysis, dispersion and achromatism, total reflection, mirage, double refraction, polarization, interference, diffraction, colours of thin films, Newton's rings.

*Heat*—Thermometry, expansion of substances, maximum density of water, the three states of matter, specific heat, latent heat, calorimetry, three modes of transference of heat, conduction, radiation, convection, heat of chemical combination, fuel, thermodynamics.

*Applied Mechanics*—By Mr. Peter Alexander, M.A. Commencing Thursday, 5th October, at 8 o'clock p.m.

*Materials employed in the Arts*—Principles and processes by which they are converted into the conditions and forms required in the arts, the mechanical powers and their combinations into simple machines, mechanical contrivances by which the condition, direction, and rate of motion are changed, fly-wheels, governors, &c., strength of beams, pillars, shafts, &c., prime movers, water, steam, air, &c., engines, structures, roofs, bridges, foundations.

*Geology*—By Mr. John Young, F.G.S., Vice-President of the Geological Society of Glasgow. Introductory lecture, Monday, November, 6th, at 7:30 p.m.

The course will consist of twenty lectures, embracing sketches of the physical features, mineral composition, Fauna and Flora of the several geological formations, and will be illustrated by maps, diagrams, minerals, rocks, and fossils.

Excursions of the class to localities of geological interest around Glasgow will take place on the Saturday afternoons, during the spring and early summer months. An opportunity will also be afforded to the class of studying the collection of minerals, rocks, and fossils in the Hunterian Museum, University of Glasgow.

*Text Books* :—"Lyell's Elements of Geology for Students," "Page's Advanced Text Book of Geology," "Dr. Young's Physical Geography," "Nicholson's Manual of Palaeontology."

The Council of Education. Favour of report.—F.B.S., 7/5/77. The Secretary to the Council of Education.—B.C., 8 May, 1877.—W. E. PLUNKETT.

## Council of Education.

No. 19.

### Minute of the Secretary, Council of Education.

Technical Education :—Question of establishing Evening Schools for.

The Council has adopted a minute hereon, of which the annexed is a copy.

Council of Education Office, Sydney, 8 August, 1877.

W. WILKINS,  
Secretary.

The Under Secretary, Department of Justice and Public Instruction.—B.C., 8 August, 1877.

[Enclosure.]

Technical Education—Question of establishing Evening Schools for.

FROM the accompanying papers it appears that a deputation waited upon the Honorable the Minister for Justice and Public Instruction, and placed before him certain information bearing on the subject of "Technical Education."

The deputation consisted of Mr. J. Sutherland, M.L.A., and of officers and members from the undermentioned Associations of New South Wales :—

- "The Engineering Association."
- "The Builders' and Contractors' Association."
- "The Trades and Labour Council."

The deputation desired that the Council of Education would establish in Sydney and throughout the Colony, in connection with the Public School system, "Evening Schools" for the technical training of artisans, farmers, and others.

The request is based upon the following grounds :—

- (a.) That such training is required to educate the producing classes in the knowledge that would teach them how to make the most of the resources and natural productions of the country; and thus enable the Colony to compete with Great Britain and other countries where, it is stated, young men, have facilities and inducements to study the scientific principles which underlie the mechanical processes of their various occupations.
- (b.) That the Government is applied to in the matter, because it is believed that such schools cannot be successfully established and maintained except in connection with the Public School system.

It is further asserted by the deputation that the mechanical and commercial progress of the Colony must depend in a great measure upon the efficient training of youth in technical knowledge; and as evidence that evening training schools have proved useful where properly established and conducted, it is further stated that in three institutions alone in Great Britain—The "Anderson University" and the "Mechanics' Institute, Glasgow," and "Owens College, Manchester"—such schools are attended in a year by about 5,000 students. The deputation also cited an expression of opinion on the subject by Professor Roscoe, of Owens College, who, it appears, stated that he considers the teaching of evening science classes, &c., to be one of the most useful spheres of action in connection with that institution.

No estimate of the number of persons likely to attend evening classes, if established in Sydney or elsewhere, is given; though the deputation appear to wish it to be understood that there are many youths connected with the prominent industries of the Colony who would at once be ready to become students in evening schools. They further expressed their intention to use their influence with the working men and youths of the Colony, in order to induce them to take advantage of the instruction that may be imparted in such schools when established.

The deputation do not specify the particular branches of technical knowledge they desire to have taught, but they refer generally to those branches immediately connected with mechanical industries, agriculture, mining, &c., and they appear to think that the course should be similar to that introduced into the principal institutions of Great Britain. In connection with this part of the matter they suggest that, if the classes be organized in connection with the Public School system, each local Board might define the educational requirements, as regards technical knowledge, of its own district.

It may be as well at once to dispose of the suggestion as to the part that might be taken by local Boards in this matter. Experience shows that any expectation of usefulness on the part of these bodies, in connection with such questions, would in the vast majority of cases be utterly futile. It is not necessary therefore that this suggestion should be further considered.

Without

Without doubt, the importance of the subject however renders it desirable that means should be devised for giving instruction to youths who have left school, and to others of maturer years, in the various branches of science which are connected, more or less directly, with the daily work of artisans and others, who depend for their subsistence upon their manual skill. In many countries practical steps have been taken to secure industrial training of this kind. Among the first to recognize the importance of the subject were several of the North German countries, in which technical schools have long been established.

"The German 'Gelehrtschulen,' says a recent writer, are intended both for apprentices and journeymen, chiefly in the following trades: carpenters and joiners, cabinetmakers, machinists or engine-fitters, pattern-makers, cutlers and hardware manufacturers, modelers and plasterers, tailors, and shoemakers, &c. Persons also who aspire to be master builders come to the schools; but regular architects would be trained at the Polytechnic or Gymnasium school. The instruction given at the Bremen school is much the same as that communicated by our science and art teachers under the South Kensington department; but at the schools in Hamburg, Holz-Minden, Einbeck, Hannover, Nurnberg, &c., there are, in addition, workshops where practical teaching is given by skilled workmen. The director (Gelehrtschul-Consulent) of the Bremen School told me that he would much like to have such workshops connected with his school, taught by practical skilled workmen, that his students might learn how to apply the scientific and artistic knowledge which they were gaining there to the actual material in which they would have to work when engaged in their respective trades, whether wood, iron, stone, plaster, clay, &c. In Holland also, I may mention, the need of these workshops, with skilled workmen for teachers, as a most important addendum to all schools for the instruction of artisans, is being fully recognized; and its Ambacht or technical trade schools the practical teaching of the workshop has for some time been part of the established system. At Amsterdam and Rotterdam, these Ambacht schools, I am told, are particularly admirable; but I am not aware of any other similar schools existing at present in that country. I was informed, however, that to those schools only apprentices were admitted. It is earnestly to be hoped that the Government of this country, before very long, may see the propriety of so far extending the powers and scope of the science and art department as to permit of their giving the same payments to skilled workmen of approved competency, in the capacity of teachers, as they now give to certified teachers, under the existing regulations. So long as such teachers can pass an examination proving their fitness to impart the practical and scientific kind of instruction required, surely their inability to come up to quite a different and higher standard ought not to be a barrier in the way of their receiving the Government grant as 'payment for results.' \* \* \* What is right and necessary for improving and completing the technical education of Continental workmen cannot be altogether unnecessary or wrong for British workmen, who, on the whole, have fewer opportunities for art culture and technical improvement generally.

There cannot be a doubt that these workshops are as necessary for completing the technical and scientific training of artisans, as the laboratory for chemical and mining students, or the dissecting room and the hospital for medical pupils.\*

In France, and Switzerland also, technical education has long been considered necessary, and means for providing it have been adopted. In the United States of America great attention has also been given to the subject.

No steps appear to have been taken to supply this instruction in Great Britain, nor does the necessity for it seem to have been perceived until the Paris Exhibition of 1867 revealed the comparative inferiority of British workmen to their Continental brethren. Since that time, however, energetic steps have been taken to retrieve the character of British workmanship. After inquiry by a commission the "Science and Art Department" was expanded, schools and classes were established throughout the country, in which various branches of mathematical and natural science, together with drawing, designing, and other branches of art, are taught; and even in the ordinary day schools teachers are specially remunerated for success in instructing their pupils in the rudiments of the same subjects. Besides the provision made by the State, various public bodies, private associations, and individuals have taken up the subject with great zeal and liberality, and in the mother country technical instruction is now obtainable in any place above the rank of a mere village. The following brief account of a "Trade School" will show the range of instruction supplied in such institutions:—

"Having recently visited the Bristol Trade School, \* \* \* I may mention here that it consists of two departments, one for those under, and another for those above, the age of eighteen; also a preparatory department for boys not under nine years of age. The subjects taught in the middle school are mathematics, descriptive geometry, mechanical and experimental physics, chemistry, art drawing, &c., and in the adult department, chemistry and chemical analysis, machine drawing and building construction, vegetable physiology and botany, applied and theoretical mechanics, steam, freehand, model, and perspective drawing, Latin, French, German, &c. There is also the 'mining department' school, which is well equipped with educational appliances, and the 'chemical laboratory' department, both of which have convenient and well-furnished rooms for practical chemistry, for chemical analysis, and assaying. The neighbourhood of Bristol abounds in subjects of geological instruction, and the owners of coal mines give every facility for study on the part of the students in the trade school.\*"

To come nearer home, the neighbouring Colony of Victoria has made considerable advances towards the provision of technical instruction. In accordance with a resolution of the Legislature a Commission was appointed in 1869 "to promote by lectures and otherwise technological and industrial instruction among the working classes," and funds have since been voted annually towards the carrying out of that object. The Commission, however, was subsequently superseded by another of a more comprehensive nature, having charge of the Public Library, Museums, and National Gallery of Victoria. In connection with these institutions technical instruction is systematically given upon various departments of science and art.

Up to the present time no direct attempt appears to have been made to supply technical instruction in New South Wales to persons of the operative class. It is true that in the better description of Public Schools some success has been achieved in the teaching of elementary mathematics and drawing; that in some of the Mechanics' Schools of Arts similar instruction has been imparted, and that a School of Design and the Academy of Art have, in their respective spheres, laboured to promote education in art. But of none of these can it be said that the object of the deputation has been the purpose kept in view.

Assuming the desirability of providing means for industrial instruction in this Colony, fuller information is required before any arrangements for teaching could be determined upon. No definite information for example has been furnished as to the number of persons likely to offer themselves for instruction, the subjects upon which instruction is desired, or the terms upon which it may be given. This and any other necessary information could probably be elicited by means of circulars addressed to—

1. The several organizations of professional men and artisans.
2. The Committees of Mechanics' Institutes.
3. Employers of labour.
4. Teachers and Boards of Schools in the more important towns.

Until such information has been obtained it would be premature to consider other questions which suggest themselves in connection with this matter, such as the delivery of lectures, the establishment of classes, the terms of admission, the inducements to be held out to young persons to join such classes, the mode of ascertaining the results of teaching, the introduction of an elementary course of instruction in technical knowledge for advanced pupils in the ordinary schools under the Council's supervision, special lectures to teachers employed by the Council and to students in the Public Training School, and the establishment of a Technological Museum with necessary appliances, including workshops for practical training.

But perhaps the first question in point of urgency that requires to be decided relates to the authority by which the work could be carried on, whether by the Minister, by the Council of Education, by irresponsible bodies such as the Committees of the different Schools of Arts, or, as in the mother country, by these latter in conjunction with, but in subordination to, an administrative commission appointed by and responsible to the Government. On this point it may be remarked that the educational institutions of the Colony already suffer from the absence of unity of purpose, and that with the view of preserving some appearance of co-ordination among them it seems desirable to retain the power in the hands of either the Minister or the Council.

But the Council has not hitherto regarded technical education as falling within the scope of its duties and responsibilities. As the Public Schools Act, from which the Council derives its authority, contains an express provision (section 6 of that measure) restricting the application of the Parliamentary grants "for Public Instruction" to elementary instruction, and as the general tenor of Parliamentary debates on the subject support the view that the Act contemplates the provision of primary school education only, of which technical instruction does not properly form a part, the Council is of opinion that, with its present powers, this matter does not fall within the scope of its duties. Whatever may be the advantage of or necessity for technical teaching, it is admittedly less a constituent of primary instruction than of that higher kind of education sometimes denominated "secondary education."

Council of Education Office, Sydney, 23rd July, 1877.

W. WILKINS,  
Secretary.

#### ANNEX A.

##### TECHNOLOGICAL COMMISSION OF VICTORIA.

To His Excellency Sir John Henry Thomas Manners-Sutton, K.C.B., Governor, &c., &c.

Sir,

Offices of the Technological Commission, Exhibition Buildings, 11 November, 1869.

We have the honor to submit to you a further report with reference to "promoting technological and industrial instruction, by lectures and otherwise, among the working classes of Victoria," a duty imposed upon us by your Excellency's Commission.

In

In our former report we addressed your Excellency on the subject of lectures, a school of design, and a technological or industrial museum, as some of the obvious and necessary means of promoting such instruction. We purpose now to submit some further observations upon these subjects.

#### Lectures.

In the report alluded to we expressed our opinion that lectures on industrial instruction—that is, on the application of scientific knowledge to industrial occupations—should be delivered in Melbourne in the first instance, and then in other centres of population throughout the country, and announced that we were engaged in making arrangements for the delivery of such lectures. In conformity with this, we considered it advisable to collect as much of public opinion as we could with reference to the delivery of these lectures, and accordingly we had a circular letter addressed to the Mayors of the several Borough Councils throughout the country on the subject. The circular contained among others the following query:—“Whether, in your opinion, a course of lectures on some of the sciences, in their application to our prominent industries, would be acceptable to the artisans and working classes in your Municipality.”

From answers to these communications we had every reason to suppose that the proposal would be well supported, and letters generally approving of the project were received from the Corporation of Geelong and the following Borough Councils:—

Ballarat	Footscray	Maryborough	Talbot
Ballarat East	Geelong	Portland	Taradale
Brunswick	Hamilton	Richmond	Wangaratta
Buninyong	Heathcote	Sale	Warrnambool
Creswick	Hotham	Sandridge	Williamstown
Dunolly	Jamieson	Sebastopol	Woodend
Eaglehawk	Kew	Smythesdale	
Emerald Hill	Kilmore	Steiglitz	
Essendon and Flemington	Kyneton	St. Kilda	

Strengthened in our opinion by these communications, and feeling that the lectures, in order to command success, should be of the highest order, and judging from the *dictum* of Professor Tyndall that lectures of such a character can be rendered acceptable to mixed audiences, as the lectures of Professor Huxley to the working classes at Nottingham have been, we put ourselves in communication with gentlemen of high scientific attainments with the view of preparing a course of such lectures for delivery in Melbourne in the first instance.

Selections from the following courses were provisionally adopted:—

#### Introductory Lecture.

Industrial instruction—The applied sciences.

##### Mining, &c.

1. On the chemistry and metallurgy of gold.
2. On the chemistry of other metals and alloys.
3. On precious stones, and on discriminating the different formations producing them.
4. On building stones: the supply, and their permanent qualities as tested by experiment and use.
5. On sands and clays, as used for glassmaking and pottery.
6. On the ventilation of mines in theory and practice.
7. On gunpowder, gun-cotton, nitro-glycerine, and their respective economic value in mining.
8. Practical mechanics, &c.

##### Agriculture.

1. On the chemical principles involved in modern agricultural practice.
2. On the chemistry of soils, and method of analysis.
3. On vegetable foods.
4. On fertilising manures, their origin, composition, and value, with instructions as to testing the same.

##### Manufactures.

1. On the chemistry of wine-making and distillation.
2. On the chemistry of brewing.
3. On the chemistry of oils and fats, &c.
4. On the chemistry of the preservation of meats, &c.
5. On the chemistry of tanning, and the tanning properties of our indigenous and other barks.

The delivery of a selection from the above in Melbourne would have been of a tentative character, and after their delivery arrangements were proposed for the re-delivery in other places.

We had also been assured that a gentleman of known ability as a lecturer was willing to inaugurate the course by a lecture on technological instruction. We then applied to the Government for the use of the Octagon Hall in the Exhibition Building, then unoccupied, for the delivery of the same. The Chief Secretary replied, that “The requirements of the Commission would be met by the enlarged trust about to be issued,” referring to a Commission which he had announced the determination of the Government to constitute, for the joint management of the Public Library, Industrial Museum, and Art Collection.

Under these circumstances we delayed, persuaded that the only proper place for their delivery was in a building erected for kindred purposes, and where the expensive material for illustrating such lectures could be kept in safety and without expense.

We have only now to express a regret that this attempt upon our part to “fuse scientific with general knowledge” has been impeded by want of access to a room for the delivery of these lectures, which was not in any other use at the time.

#### SCHOOLS OF DESIGN.

In our former report to your Excellency we stated that we proposed to confer with the representatives of the several trades “for the purpose of ascertaining how far Schools of Design would be supported by the mechanical classes, and that, from some information which we already had received,” we expressed our belief that the result would be satisfactory. At the time of presenting this report to your Excellency we were in consultation with Mr. S. H. Roberts and some of the members of the Painters’ and Decorators’ Society, who took an interest in the matter; and the result of these interviews has been the establishment of the Artisans’ School of Design.

The progress of the school has since then been most successful. The pupils on the books of the school number 160, and the average attendance is about 90; and upon several occasions, when members of the Commission happened to visit the school, there were over 100 pupils actively engaged. There are classes now formed at which Messrs. Buvelot, Clarke, Shew, Roberts, and Burtt teach gratuitously. Considering that the Committee of Management have no public funds at their disposal, we deemed it of great importance to assist such an undertaking, and we presented the Committee with the sum of £10 out of the funds at our disposal, for the purchase of easels, drawing boards, and other necessary materials of instruction. Since then the school has far exceeded what was anticipated, and we have resolved to present the Committee with a further sum to be expended in the same manner. From what we have seen of the expenditure already incurred, we must say that the money is most judiciously and economically spent.

The success of the members of the Painters’ and Decorators’ Society was sure to have effect with other trade organizations, and some members of the Society of Carpenters and Joiners have already founded a school for technical instruction. We were invited to visit and confer with that body, and found that, although the school had only been opened for four nights, there were twenty pupils; that it was proposed to have a preparatory class for younger pupils; that a class for geometry was formed; that classes for other branches of scientific instruction were contemplated; and that classes for the making of models and for mechanical and other drawing were in progress. We considered that the wants of this school required some assistance, and we have resolved to present the Committee with the sum of £5 for the purchase of models and other materials. The Committee appear to be most anxious to provide for the instruction of the students. The Society have a small library of valuable books bearing on their trades, and are most anxious to increase it; and many have expressed their belief that lectures on scientific subjects in relation to constructing and manufacturing trades would be most desirable.

We are in communication with other bodies upon these subjects, and we hope for further results. We hope that in some of the suburban municipalities—such as Collingwood, Prahran, Williamstown, &c., where the artisan classes are resident, that kindred schools may be opened. One of the most gratifying features in this movement is the self-reliant spirit which we have found among the artisan class, and the earnest desire to prosecute their instruction in every possible way; and we should not be doing our duty if we did not specially recognize the services of the members of the Painters' and Decorators' Society, before alluded to, for to them is due the eminent success of the Artisans' School of Design.

#### THE TECHNOLOGICAL OR INDUSTRIAL MUSEUM.

We regret to say that no progress has been made with reference to this institution, if we except the action of the late Treasurer, who has placed the sum of £1,000 on the Estimates for the purchase of cases. It is now near three years since the Intercolonial Exhibition was closed, and we cannot help remarking that since then, with one or two exceptions, the building has been used for purposes foreign to the intentions of Parliament, as expressed when voting the moneys for its erection. And while the leading statesmen in England are, by their action in Parliament and by their private subscriptions, forwarding the creation of museums (such as we are now alluding to) throughout the manufacturing districts, the matter here has been kept in a state of suspense and uncertainty, disappointing and discouraging to the artisan and manufacturing classes. We, however, are glad to find that through the personal exertions of the Secretary of Mines, Mr. Brough Smyth, the very valuable collection of geological specimens, the property of the Mining Department, is again arranged for public inspection, and, at the request of some of the members of the Intercolonial Exhibition, he has taken charge of the remnant of exhibits which were left for the then intended Museum; and further, that the specimens of Australian woods collected by the Exhibition Commissioners have been cleaned and placed together for public purposes hereafter.

#### EXHIBITION OF RAW MATERIAL—THE FINE ARTS AND MANUFACTURES.

We may be permitted to remind your Excellency of the letter from the Agent General of Victoria, together with the report of the eminent lapidary, Mr. Harry Emanuel, on the diamond and other precious stones of this country, and of the strong opinions expressed by Mr. Emanuel as to the economic value of the recent discovery with reference to these stones. Taking this correspondence into consideration, we thought to organize a small exhibition of such stones in the rough, as coming from the debris which contained them; also to exhibit specimens of the debris, with the view of making the eye of the minor more practically conversant than at present with the appearance of these products, and the character of the formations where they are found. It was also proposed that the process of testing with the blow-pipe and by "water-weighing" should be explained at the Exhibition. The proposal to have types of the different precious stones exhibited, as we intended, has since been commended in a recent publication by Professor Thomson, of the Sydney University. We accordingly applied to the Chief Secretary for permission to hold the Exhibition in the Exhibition Building, but we were not able to carry out our intention in consequence, as we have heard, of objections on the part of the trustees of the Public Library.

*The Fine Arts.*—In the course of the year there were four exhibitions of the Fine Arts—one at Melbourne and another at Geelong, held at the same time; one at Ballarat and another at Sandhurst, both open contemporaneously. Independent of these there was one held in New Zealand at the same time with the Melbourne Exhibition, to which some Victorian artists had forwarded exhibits before the Melbourne Exhibition was announced; and it is to be hoped that in future not more than one exhibition shall take place in this country at the same time. We believe if there was a properly organized responsible body with reference to Fine Arts, such clashing of exhibitions could not take place.

*Manufactories.*—We find that at present there is in England a great desire to hold local and departmental or sectional exhibitions, and in the last year several exhibitions of this special class have been held; also on the Continent—in France, with reference to the fisheries, and recently in the Netherlands for products for domestic uses.

We have it in contemplation to recommend something of the sort. One year it might be, for example, an exhibition of timber and its applications, or of household furniture; another, perhaps, of agricultural implements, and so on. However, on this matter we intend to confer with the leading trades and manufacturers before we come to any resolution.

#### TECHNOLOGICAL INSTRUCTION IN SCHOOLS.

After the perusal of the several Parliamentary Reports on Industrial Instruction submitted to the Imperial Parliament, and which have been forwarded to us by the Agent General for Victoria, through the Chief Secretary, we find that it is considered of the first importance that "Natural Science" should at an early period constitute a part of general instruction; and with the view of acquiring information how far this is carried out in Victoria, we have applied by circular and queries for information. A great amount of interesting information has already been received, and we hope shortly to report specially on the subject.

*Apprentices.*—We have also addressed in the same manner the employers of labour, with a view of eliciting their opinions as to the means of affording apprentices and journeymen in their respective trades instruction in certain branches of science as applicable to their working engagements.

*Nautical Schools.*—We find, by the report of the Committee of the Privy Council on Education, that schools of this class are most anxiously looked after by the Imperial Government, and aided by money and otherwise. Here, as yet, there has not been any care of this description, while the peculiar position of such towns as Williamstown and Sandridge would appear to demand some attention of the sort. We find that our trading fleet registered in Melbourne numbers forty-four steamers and 340 sailing vessels, and there must be a very large number not only of nautical men but of engineers required for such a fleet; and it is submitted to your Excellency that the special instruction of such a class should be as much an object of interest to us as it is to the people of England. With a view of acquiring accurate information upon this subject, we have applied, through the Chief Secretary, to the Agent-General of Victoria for information as to the formation and management of such schools, and as to the amount of aid received from the Government for the purpose; and when such information is received we shall endeavour to act upon it.

#### MECHANICS' INSTITUTES.

There are about eighty of these institutions throughout the country. There does not appear to be any united action among them, or conference, as far as we know, for the more effectual carrying out their objects; and with a view of arriving at more perfect information with reference to their working and management, we have addressed circular inquiries to the Secretaries on the subject. We may remind your Excellency that in Lancashire alone there are about ninety Mechanics' Institutions associated with the Society of Arts in London; that by this system their self-government and independence is secured and great advantages conferred. Books, models, &c., can be exchanged, concerted arrangements carried out for the delivery of lectures, and many advantages accrue to each which would not take place if they occupied isolated positions. It is with the view of considering how far combined action can be carried out, such as we describe, that we have sought the information alluded to; and when this has reached us it will be our duty to report more fully.

We may now close our report by stating that we believe that special and fitting instruction of a scientific character among the artisan classes is of as much importance to the community at large as is a special instruction for the professions. The latter is amply provided for by the State here, while the former has not received much attention. The artisan in this country should at least receive as much care from the Government as he does in England—that is, if it is expected he can compete with the English artisan. And we have no hesitation in stating that he has not the advantages of instruction here as in England, where Schools of Design, Lectures, and Museums of Industry and Art are daily on the increase. Whenever we conferred with the artisans, we had reason to know that they are most intent on acquiring information, and although opinion appears unanimous on the subject, it is not as effective as it should be for want of organization. It is, therefore, in contemplation to have a Conference in the early part of the year with representatives of the several trades and manufactures who can meet with us and others, and confer upon many of the topics which we have now alluded to. This course has been adopted in London on several occasions with advantage, more especially at a Conference of Working Men recently presided over by the Earl of Lichfield. We hope for similar results here.

SAMUEL H. BINDON, *Chairman.*  
J. J. BLEASDALE, D.D.  
DAVID BLAIR, M.P.  
J. G. BURTT, M.P.  
FREDERICK M'COY, Prof. Un. Melb.  
GEORGE ROLFE, M.P.  
D. THOMAS, M.P.  
W. M. K. VALE, M.P.

## ANNEX B.

## INDUSTRIAL INSTRUCTION.

On Distributing the Prizes at the Ballarat School of Design, in June, 1873, Judge Bindon, who presided, delivered the following Address:—

BEFORE I proceed to address this large audience on the subject of industrial instruction, I must first express my thanks for being permitted to occupy the chair this evening, and assure the Committee of the School of Design how sensible I am of the honor conferred upon me by having been invited to distribute their prizes upon this the second occasion of my doing so. It is an honor the more appreciated when I remember the importance of this city and district; remarkable for mineral wealth and the enterprise of its miners; remarkable for the agricultural wealth of the surrounding country, and the intelligence of its farmers, if I may judge from the admirable papers which have been read before the Farmers' Club, and which should have been printed before now in a collected form for the use of other districts; a city which I trust will be as famous for its woollen manufactory as it is now for its iron works, which turn out machinery that would be no discredit to the manufactory of a Stephenson or a Krupp.\*

Since last I had the pleasure of presiding here, I need scarcely remind you that the question of public instruction has undergone quite a revolution. I am not going to allude to the merit or demerit of a measure which is now the law of the land. There may be differences of opinion among you, and it would be wrong in me, a stranger, to intrude mine—no matter how decided it may be. But there can be no difference of opinion as to the manner in which the Attorney General carried the measure through the House, or that the cause of public instruction is raised to a higher stage in public opinion than it ever was before.

The elections for Boards of advice are exciting the greatest interest throughout the country, and public opinion is as active as it can be. In England there are two Cabinet Ministers charged with the interests of public instruction, while here there was not even one. But now we have a Minister of Public Instruction responsible to Parliament, and the question no longer occupies a subordinate place, or rather no place at all, in the consideration of the Cabinet, but one which must be present whenever the Minister of Public Instruction is there.

However, satisfactory as much of this may appear, there is very much more to be done; and I earnestly hope that no spirit of contentment, resulting from any measure of success which has attended Mr. Stephen, will blunt his energy, or prevail with the Boards of Advice, or with the people, with whom the question ultimately rests. A state of contentment, no doubt, is very agreeable to an individual—"rest and be thankful"—but very fatal to the progress of a people. History, as well as our own experience, tells us that every benefit which has resulted to the people has come "not from smooth but troubled waters."

As far as I am informed, the Minister of Public Instruction has not yet publicly approached the question of technical education—or, as I have called it, industrial instruction—and therefore it appears a fitting opportunity for us to consider some facts with reference to it.

There are at present in this country nineteen Schools of Design associated with the Technological Commission, with a roll of over 1,400 pupils. Few persons imagined, when attention was first called to the question, about four years ago, that the result would be so satisfactory. The modest sum of £200 was first granted, and this has been since increased to an annual vote of £500; and the satisfactory result which has followed so small an expenditure is owing to the zeal of the several committees of management, to the ability and liberality of the teachers, and above all, to the desire upon the part of the students to improve themselves, and nowhere has all this been more prominent or more successful than in Ballarat, and I see nothing to prevent the number of schools which I have mentioned being greatly increased throughout the country. I am satisfied that students can be had wherever there are three or four zealous persons willing to act together in the matter, and for many reasons it is desirable that this branch of industrial instruction should be extended.

In every branch of the constructive or mechanical trades facility of design is of the highest value. A drawing does for many branches of knowledge what a map does for geography. The roughest sketch will often convey to the mind what pages of writing would fail to do. Young people take pleasure in drawing, and delight in returning from the school with their little sketches. The parent has an opportunity of testing the latent ability of his child, and selecting for him—often a very difficult task—a suitable trade or occupation. And I am satisfied that, as in nature there is a soil and a climate suitable for every plant, so in the world of industry there is a place for every worker if we could but find it out; and these Schools of Design act as a sort of trial or "convincing ground" to enable us to do so.

But, although Schools of Design may form a very important section in the course of technical instruction, more is required. We want night-schools, at which miners, manufacturers, and artisans, especially the apprentice class, can improve themselves in arithmetic, in algebra (the shorthand of calculation), in geometry, mineralogy, and chemistry, which is so essential in many manufactures; and I see no difficulty in grafting them on to many of the State schools throughout the country—that is, if the people are wise enough to insist upon it.

I am at a loss to know why the working classes in this country should not have the same advantages as the working classes in England. They must compete with the English workmen, and how can they without similar knowledge and advantages? I think many of you will be a little surprised when I point out how scientific industrial instruction is provided by the Imperial Parliament for the British and Irish workmen. According to the last Parliamentary returns there are in England 527 scientific schools or classes receiving aid from the Government, with 25,355 students; in Scotland, 34 schools, with 4,824 students; and in Ireland, 212 schools, with 8,397 students. All these schools, as they are called in the Parliamentary report, are under the Department of Science and Art at South Kensington. The governing body for the time being consists of two Cabinet Ministers. The present Ministers are the Marquis of Ripon and the Home Secretary, the President and Vice-President of the Committee of the Privy Council for Education. I hold in my hand a map of Great Britain, and beg of you to look it over and see how thickly grouped the red spots are upon it, showing the localities of these schools. Look also at the map of Ireland, which is before me, with the schools similarly marked. Look now at the map of Victoria, and what a contrast. Not one such school that I know of. Well, it is the duty of the Minister of Public Instruction to fill in his map, and to give to the working classes here, at all events, the same advantages as the working classes enjoy in Great Britain and Ireland.†

But if we want to see the value of technical instruction in the broadest light, and the material or trade advantages resulting from it, let us look at Switzerland, a country without coal to any extent, without a seaboard, a country of mountains, and beset with hostile tariffs. What has she done? She rivals England in many branches of her trade. She has beaten Macclesfield and Coventry in its ribbon trade. The annual value of her ribbon trade amounts to £1,600,000; that of England to £61,000. Look at Zurich, a small canton or province in Switzerland, with a population equal to a third of that of Victoria. She has a most efficient University, with forty-two professors, where what are called the "learned professions" are taught, and most efficiently. But she has besides what I particularly direct your attention to, and what, I think, is of more importance to the bulk of the population—a Technological Institution, where the "working professions" are taught, with its 600 matriculated students. Of these, 150 are studying civil engineering and 169 mechanical engineering, and with buildings larger than Buckingham Palace. These facts are so remarkable that I had better state that I am indebted to the lectures of Professor Lyon Playfair and to Parliamentary papers for every fact and figure which I give.

The importance of the economic results arising from this system of education may be further measured by the fact that the embroidery trade alone is equal to more than £1,500,000. "Every young girl, as she tends her flock, may be seen with her needle and her tambour. Everywhere the work goes on." Says M. Reybaud, "Let me give you a contrast. I recently saw a young girl, near Dandenong, tending her flock. Her costume may have looked picturesque, but it was rather incomplete. She sat on a fence, watching her cows, to prevent them from breaking into a cultivated paddock. She was not knitting, which was a little required, but reading a novel by Mr. Anthony Trollope."

The

\* The ironworks of Messrs. Krupp, at Essen, in Prussia, are, I believe, the largest in the world. There are 8,000 hands employed, and the present Director rose from the position of workman to that of Director. All the fitters are so skilled in designing that whenever called upon they can furnish the Director with an accurate drawing of the work upon which they are engaged. The technical education of the apprentices and young workmen is closely attended to.—*Letter of Mr. Samuelson, M.P., Parliamentary Paper, 28th November, 1867.*

† Some of the subjects taught at the Science Schools alluded to include mathematics, mechanics, mineralogy, metallurgy and mining, chemistry, geology, acoustics, zoology, botany, nautical astronomy and navigation, steam, magnetism, and electricity, &c. The examinations are chiefly conducted by officers of the Royal Engineers, quartered throughout the country, and more than seventy officers acted as inspectors and examiners in 1871. Besides these Science Schools there are 463 schools, with night classes for drawing, and 16,140 pupils, receiving aid from the Science and Art Department of the Government, in the same manner as the Science Schools, but independent of them.

The British Minister in Switzerland, in accounting to the late Lord Clarendon for the wonderful state of industrial prosperity among the Swiss people, after giving full credit to industrial instruction and workmen's organization, says that democracy has greatly served to advance the cause of the operatives. Let us use it here for the like purpose.

I will now ask you to consider some facts in reference to France. At the period of the Paris Exhibition in 1867 the Society of Arts in London organized a band of artisans for the purpose of sending them over to Paris to report on foreign and English manufactures there exhibited, and on the means of instruction or improvement available for the foreign and English workmen. The number of workmen selected for this purpose was no less than eighty, and they represented about fifty of the mechanical and manufacturing trades of England. I hold the reports of these workmen in my hand, and never was there more complete and decisive verdict in favour of the foreigners than that which they give. The advantages of instruction available to the French and other foreign workmen appear, in their judgment, to be far in excess of what is available to the English artisans, and the result appeared throughout the different exhibits—English and foreign. Another body of artisans were sent over under the direction of a committee of noblemen and gentlemen, with a similar verdict. Now, these inquiries were carried on apparently with as much care as if they were judicial proceedings. And, as far as France is concerned, let us remember this extraordinary fact—that, after being crushed by war in such a manner as a surviving nation never was before, her wheels are as ready for your wool as ever they were, and at a greatly increased price; while her manufactured exports to America have increased in proportion as 65 to 59; exhibiting an amount of activity in her manufactures which is astonishing, considering her misfortunes.

In a young country like this it is particularly desirable that we should carefully look to the new rather than the old world; and I will now mention some facts relative to technology in America. I am indebted to an article in the *Quarterly Review* for stating that five American gentlemen have recently contributed £63,000 to the Technological Institute of Boston. We are apt to regard the Americans as a pleasure-loving, money-making people—not in this respect unlike ourselves; but recent events have proved that no place on earth affords to science and its teaching a more hospitable home than does America. Last year Professor Tyndall visited New York for the purpose of lecturing on science. His reception was enthusiastic, as if he had been a royal personage, or some celebrated warrior. The streets were so crowded with persons trying to get admission to his lectures that the traffic was interrupted. Three hundred thousand copies of his lectures have been printed. The *New York Tribune* published a three-cent edition with illustrations. The Professor delivered thirty-five lectures, and his receipts were nearly £5,000, and the surplus of such receipts, after payment of expenses, he has nobly devoted to the teaching of science in America. When shall we welcome him here? I believe in the history of young America there will be no brighter page than that which describes the reception of Professor Tyndall, nor a nobler gift recorded than that of his.\*

I have now ventured to point out to you the state of science more particularly in its application to industry, and its economic results in Switzerland, and I have alluded to industrial institutions in England, in France, and in America. There are many striking proofs of the value of technical education yet to be noticed which I have not time to mention. And I have gone so far at this particular juncture, because there appears to be a feeling in some quarters—as yet but timidly expressed—that our system of public instruction will have gone far enough if it includes elementary knowledge, reading, writing, and arithmetic. If this becomes a fact, it will be a great calamity. To use the words of Professor Playfair, "It will vulgarise education, and render it comparatively useless for the purposes of the working classes." There is no such limit in a University, where the learned professions are taught.† Why, then, should there be a limit where the working classes are taught? Another distinguished man, Professor Huxley, says that confining the public system of education to reading, writing, and arithmetic, reminds one of teaching a child how to use a knife, a fork, and a spoon, without giving them the food to practise on. It may be as aptly said that it is like teaching the use of the rifle without a bullet. The "three R's" are but the tools of education, and not education either industrial or productive; and productive education should be the aim of the State, and nothing less will justify the expenditure.‡

I hope the testimony of such men will have weight with the Minister, will have weight with the Boards of Advice, will have weight with you. I hope the action of such men as Sir Joseph Whitworth and Sir Josiah Mason will have weight. Sir Joseph Whitworth has given £100,000 to promote technical instruction in England. Sir Josiah Mason in his deed of gift founding a college for technical instruction, tells us an instructive story. He says that in the course of his life he has taken up several branches of the mechanical trades one after the other, and that in all he felt the great difficulty he had to contend with was the want of scientific knowledge; and that in order to remove this, he has determined to found an institution for the teaching of science in its application to industry. Mr. Young, the great manufacturing chemist, has told us the same story, and can we afford to disregard such testimony? As I have told you, we have near three times the population of Zurich. We are vastly richer; let us promote industrial instruction as she has done, and youths and men will soon find their "billets."

Before I conclude, I must say that Ballarat has done its duty. You have formed your School of Design with very little assistance; it is second to none as far as I can see. Its students have won their prizes in Sydney. Although encumbered with many difficulties, you have founded your School of Mines, which has an admirable laboratory, as efficient as it can be, and remarkable to my mind for its economy in construction, without any of those feeble attempts at ornamentation or display which constantly consume so much public money, and which in this case have been rigorously avoided.

I must now beg to thank you, and with your permission will proceed to the distribution of the prizes, &c.

## APPENDIX O.

### NEW SOUTH WALES.

Anno Tricesimo Septimo—Victoriae Reginae.

An Act to incorporate the Sydney Mechanics' School of Arts and for other purposes therein mentioned. [Assented to, 4th May, 1874.]

#### Preamble.

WHEREAS a certain literary Society or Institute was established in Sydney in the year one thousand eight hundred and thirty-three under the name or style of the "Sydney Mechanics' School of Arts" the objects of the said institution being the intellectual improvement of its members and the cultivation of literature science and art And whereas by three Acts of the Legislature of this Colony passed respectively in the sixteenth nineteenth and twenty-second years of the reign of Her present Majesty certain land and buildings were vested in the president senior vice-president and treasurer for the time being of the said Institution to hold the same in trust for the purpose of the said Institution and subject to the rules and regulations thereof and with power to mortgage or sell the same And whereas it is expedient to incorporate the members of the said Institution and to vest the real and personal property held in trust for or belonging to the said Institution in the corporation to be created by this Act and also to confer on such corporation certain corporate powers and otherwise to regulate the said Institution Be it therefore enacted by the Queen's Most Excellent Majesty by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled and by the authority of the same as follows:—

#### Short title of Act.

1. This Act may be cited for all purposes as the "Sydney Mechanics' School of Arts Incorporation Act of 1874."

Repeal

\* The reader can form some opinion of the value set upon museums in America from the fact that the Senate of the State of Massachusetts, on a recent occasion, made an official visit to the Cambridge Museum of Zoology, and were conducted through the museum and its class-room by Professor Agassiz.

† Each student in the University of Sydney costs the general revenue £78 annually. Each University student here cost the general revenue in 1871 over £70, not taking into consideration the cost of building the University.

‡ Where instances occur of nations abounding in pauper and criminal classes being made prosperous and happy in less than a generation, through the powerful influence of education that has never been confined to a smattering of the "R's." Such an instance is Baden, which, by eight years of industrial education, lessened the number of prisoners from 1,426 to 691—to such an extent, that prisons had to be closed for want of occupants.—*Professor Playfair*.

*Repeal of Acts.*

2. The Acts enumerated in the Schedule hereto shall be and the same are hereby repealed but such repeal shall not affect the past operation of any enactment in any of the said Acts contained or any proceeding act matter or thing instituted done or commenced thereunder.

*Incorporation of Members of Sydney Mechanics' School of Arts.*

3. All persons who have already become or who may hereafter become members of the Sydney Mechanics' School of Arts (hereinafter termed the "Institution") shall be and they are hereby constituted a body corporate by the name of the "Sydney Mechanics' School of Arts" and by that name shall have perpetual succession and a common seal and may sue and be sued implead and be impleaded answer and be answered proceed and be proceeded against in all Courts whatsoever.

*Transfer of real and personal property to corporation.*

4. All real and personal property of what nature or kind soever vested in or held by any person or persons whether as trustees or otherwise in trust for the said Institution shall on the passing of this Act be and the same is hereby transferred to and vested in the said body corporate.

*Power to hold and deal with property.*

5. The said body corporate are hereby empowered to take purchase hold and enjoy to them and their successors for ever all the said real and personal property hereby transferred to and vested in them and also may take purchase hold enjoy and receive any other real or chattel property whatsoever necessary or proper for the purpose of the Institution and may sell grant convey assure demise or otherwise dispose of either absolutely or by way of mortgage any such real or personal property hereby vested in or hereafter to be acquired by such body corporate. Provided always that no sale mortgage demise encumbrance or other disposition whatsoever of any such real or personal property shall be lawful unless the same shall have been previously sanctioned by resolution of a general or special meeting of the members of the Institution.

*Management of Institution by Committee.*

6. The management and control of the Institution shall be entrusted to a committee to be elected as hereinafter provided and such committee shall consist of a president four vice-presidents a treasurer and twelve committee-men.

*Power of Committee.*

7. The said committee shall have power to make repeal amend or alter by-laws for the general regulation of the affairs of the Institution and the good conduct thereof and shall also have power to fine suspend or expel any member thereof subject to such member's right to appeal to a general meeting to receive expend and manage the funds of the Institution to let any room or part of the said Institution for any period not exceeding six months to regulate the admission of persons not being members thereof to engage and dismiss the paid officers to dispose of by public auction or private contract any of the old damaged or worn out books papers apparatus or other effects belonging to the said body corporate to institute conduct and defend all legal proceedings and to transact generally all the business of the Institution.

*Custody and use of corporate seal.*

8. The said committee shall have the custody and use of the common seal of the said body corporate and the form thereof and all other matters relating thereto shall from time to time be determined by the said committee and a majority of the members thereof present at any meeting shall have power to use or direct the use of such seal for all purposes whatsoever requiring to be evidenced by the corporate seal of the said body corporate. Provided always that it shall not be necessary to require such seal to be affixed as evidence of the appointment of an attorney or solicitor by the said body corporate in or for the prosecution of any action suit or other proceeding.

*Existing by-laws confirmed. Evidence of by-laws.*

9. The rules and by-laws of the Institution in force at the time of the passing of this Act are hereby confirmed and shall except so far as repealed altered or amended in pursuance of the provisions of this Act be and continue binding on the members of the Institution and all other persons as fully and effectually as if the same had been made under this Act and a printed copy of such by-laws or of any by-laws made under the authority of this Act sealed with the seal of the said body corporate and purporting to be certified by the secretary of the Institution for the time being as correct shall be received in all Courts as conclusive evidence of such by-laws and of the same having been duly made under the authority of this Act.

*Auditors.*

10. There shall be three auditors of the Institution to be elected at each annual meeting.

*Qualification of members of committee and auditors.*

11. All members of the Institution of at least six months standing who shall not be subject to the disqualification mentioned in the next section shall be eligible as members of the committee and auditors.

*Disqualification.*

12. Any person deriving pecuniary advantages or emolument from the Institution or contracting or agreeing therewith for the supply of any goods material or work thereto shall be disqualified from holding office or acting as a member of the committee or as an auditor whilst so deriving such advantage or emolument or contracting or agreeing as aforesaid.

*Election how conducted.*

13. The election of the committee of management and auditors shall be by ballot and shall be conducted in the following manner:—

An alphabetical roll of all the members eligible for election (distinguishing those in office) shall be prepared by the secretary and placed in the reading-room or vestibule of the Institution at least fourteen days prior to the annual meeting.

Any member may nominate any other member whose name is entered on such roll as a candidate for election by giving notice thereof in writing to the secretary at least seven days prior to the annual meeting and only those members whose names appear on such roll shall be entitled to vote at any such election.

The secretary shall prepare a list setting forth the names of candidates and their proposers together with the offices for which they are nominated and such list when complete shall be exposed in the vestibule and the names of the candidates shall also be advertised on the day of the ballot in two Sydney newspapers.

The ballot shall take place on the day of the annual meeting under the direction of the committee and shall commence at 4 p.m. and close at 8 p.m. At the annual meeting three scrutineers not being candidates for election shall be chosen from the members present and shall report the result of the voting to the chairman of such meeting who shall in the event of any equality of votes have a casting vote and in the event of such chairman being one of the persons for whom an equal number of votes has been recorded then the meeting shall elect a chairman for the purpose only of receiving such report and giving if necessary a casting vote and such report shall be preserved among the records of the Institution until the next annual meeting. The result of the election shall be announced at the annual meeting or at an adjournment thereof.

*Insufficient nominations.*

14. In the event of there not being sufficient nominations in accordance with the last rule the committee shall prior to the annual meeting supply the omissions and if there be only sufficient candidates for any office no ballot will be held with respect to such office.

*Vacancies*

*Vacancies how to be supplied.*

15. In the event of any vacancy occurring during the year in the offices of president vice-president treasurer or auditors the same may be filled up by the committee from amongst their number until the next annual meeting. Other vacancies in the committee shall be filled up by them for the like period from the scrutineers' report in the order of majority of votes recorded.

*Monthly meetings.*

16. The committee shall meet at least once in every month for the transaction of business. Five members shall form a quorum and the chairman shall be entitled to a casting vote only.

*Special meetings.*

17. It shall be competent for the president for two vice-presidents or for any three members of committee to call a special meeting of the committee provided twenty-four hours previous notice of such meeting be given by the secretary to every member of the committee.

*Offices in committee may be forfeited.*

18. If any member of the committee shall resign or absent himself from the meetings thereof for three consecutive months without sufficient cause in the opinion of the committee or become otherwise disqualified under the twelfth section of this Act his seat shall be declared vacant at the next meeting of the committee.

*Annual meeting.*

19. A general meeting of the members of the institution of which seven days notice shall be given by advertisement in two daily papers shall be held annually on the first Tuesday in February commencing at 8 p.m. for the transaction of the general business of the Institution and at such meeting the report of the preceding year shall be presented for adoption.

*Special general meetings.*

20. A special general meeting of the paid members may at any time be called by a majority of the committee or by fifty members of the Institution on a requisition in writing to the secretary signed by them and notice of such meeting stating its object shall be published in two daily newspapers in Sydney at least ten days prior to the day of meeting.

*Matters to be entertained at meetings.*

21. No motion for winding up the institution or for repealing altering adding to or amending any of its rules or for any other purpose except motions of course shall be proposed at any general meeting unless seven days previous notice thereof in writing be given to the secretary and a duplicate of such notice be at the same time posted in the vestibule of the Institution.

*Chairman.*

22. At every general meeting the president or in his absence one of the vice-presidents shall preside and in the absence of the president and all the vice-presidents the chairman shall be elected from the members of committee present.

*Voting.*

23. At every general meeting the voting unless otherwise provided by the by-laws shall be by show of hands in the first instance but it shall be competent for the chairman or any six members to demand a division.

## LIBRARY BY-LAWS.

1. The Library shall be open daily, from 9 a.m. till 8 p.m., Sundays and Public Holidays excepted.
2. Members when exchanging books shall first hand those for return to the Librarian, to be noted in the Issue Book, after which they may select such books as they require, but shall not take the same out of the Library until they have taken them to the counter to be duly entered.
3. No member shall be entitled to take from the Library, at the same time, more than one complete work, or more than three volumes of the same work, except such plans, maps, and references as are bound separately, and are connected with the contents of the work (By-law No. 10 excepted), and no member shall be entitled to more than three issues in one week. Provided that the Librarian may allow any gentleman, preparing lectures for or acting specially in the interest of the Institution, such books as they may require therefor.
4. Any member taking a book from the Institution, except in the ordinary course of issue, shall be liable to be expelled, and may be proceeded against as the Committee may determine.
5. The periods allowed for keeping books shall be as follows:—

For Ordinary Works	...	...	...	...	...	7 days.
„ Periodicals bound	...	...	...	...	...	14 „
„ „ in parts	...	...	...	...	...	4 „
„ Works labelled "New"	...	...	...	...	...	4 „

If any member detain a work longer than the specified period, he shall incur a fine of one penny per day during such detention, and, if ordered by the Committee, shall not receive any further issue of books until such fine be paid.

6. If any member lose, mutilate, or deface any book, such member shall either replace a perfect copy of the same or pay the value thereof, such value to be determined by the Librarian; and, if ordered by the Committee, he shall not receive any further issue of books until the same be replaced or the value thereof paid, and if due compensation be not made within one month the Committee may take such steps as they may think necessary for the recovery of such compensation.

7. Only officers of the Institution and members of Committee shall be admitted behind the Librarian's counter.

8. Every Member shall produce his or her card of membership when it is demanded by any officer of the Institution.

9. Members shall have the privilege of selecting and reading books in the Library, but if any book be taken away from its case to be read at a table, it shall be left on such table to be replaced by the Librarian.

10. Life members and yearly subscribers shall have the privilege of receiving one volume or number of any periodical in addition to the books allowed by By-law No. 3.

11. Any member may propose books for addition to the Library on entering the titles, prices, and other particulars in the book kept for that purpose in the Library.

12. The Library shall be closed annually for stock-taking, from the 15th to the 30th November inclusive, and all books must be returned to the Library on or before the first-mentioned date. Any member not duly returning all books he has in his possession belonging to the Library shall be liable to a fine of twopence per day for each volume retained after the above-mentioned date, and if ordered by the Committee such fine shall be added to the next ensuing subscription, and no books shall be issued to the defaulting member until such fine be paid.

13. The Librarian or his assistants, at the request of members, will assist in finding such books as they may require, but members must furnish a written list of such books, together with their library folio, and must wait until the Librarian or his assistants are disengaged.

## READING ROOM BY-LAWS.

1. The readingroom shall be opened at half-past 8 a.m. during the summer months, and at 9 a.m. during the winter months, and shall remain open till 10 p.m. every day, except Sundays and Public Holidays, provided that it shall be open from 7 p.m. till 10 p.m. on Public Holidays, except Christmas Day and Good Friday.

2. No member shall be entitled to use the reading room without producing his current card of membership, if requested by any officer of the institution.

3. The monthly and quarterly periodicals shall lie on the tables of the reading room until the arrival of the succeeding numbers. Files of the newspapers for the current and previous months shall also be kept on the tables. Members attending the reading room shall return each newspaper and book, after perusal, to the file or shelf from which it was taken.

4. Should any member desire to borrow a book of reference, magazine, or newspaper, such member must apply to the Librarian, who shall grant or refuse such application according to his judgment, but if granted, such applicant shall deposit with the Librarian a sum of money equal to the value of the work as security for the due return of such work (such value and time of loan to be determined by the Librarian); but no work shall be lent for a longer period than three days. If such work be detained beyond the time specified, the Librarian may deduct ten per cent. of the value from the deposit for every day the work is detained beyond the specified time. But this shall in no way interfere with the right of the committee to take such steps as they may consider necessary for the recovery thereof.

5. No book, magazine, newspaper, plan, or drawing belonging to the reading room shall be taken out of it by any one except an officer of the institution, who will deliver such as may be lent to members in the library down stairs. Any member violating this rule, or mutilating or defacing any newspaper, periodical, or book may be expelled from the institution, or otherwise proceeded against as the committee may determine.

6. No conversation or other conduct tending to disturb the order of the reading room will be permitted. Any member offending against this rule may be forthwith removed by any officer of the institution.

## APPENDIX P.

### TECHNICAL EDUCATION, BY PROFESSOR DIXON, F.C.S., F.I.C.

*Outlines of Practical Scheme to carry out a system of Technical Education through the Schools of Arts of New South Wales, based on that now in operation in the Technical College in connection with the Sydney Institution.*

To the President and Committee of the Sydney Mechanics' School of Arts.

Gentlemen,

In the latter part of 1880, Mr. Plummer supplied the committee of the School of Arts with some "suggestions for a practical scheme," in connection with this subject, which was laid before a meeting of the Technical College Committee, and a number of gentlemen who had been requested to act as a council of advice with them. At that meeting I, whilst approving of much that was contained in the pamphlet, which was indeed the same as I had advocated again and again to the committee, and which has been for a year or two in actual work, objected strongly to some portions of the scheme as introducing the worst features of the English educational system; to some, as showing an unscientific division of the subjects taught; and to others, as going beyond the proper scope of a scheme of technical education. As I had the honor of taking a principal part in drawing out the rules and the first calendar for the Technical College, I have been requested by the College Committee to draw out an independent scheme, with the view of laying it before the council of advice, and if approved by them, as suitable for a foundation, of ultimately presenting it to Sir John Robertson, the Minister for Education.

The committee explained to me that they did not so much require a criticism of that already presented to them—such as I had already given—as an independent expression of my views. I may observe, however, that Mr. Plummer's scheme appeared to me to be chiefly one for examination, whilst in my opinion we do not so much want to find out what people know, as to teach them what they don't know. In the body of the paper, I have not gone into the question of the importance of the subject, as that is almost universally admitted—by our legislators, as shown by the promise of Sir Henry Parkes to introduce a measure on the subject into Parliament, and by the frequent utterance of sentiments in its favour on the hustings during the late elections—by the people, as shown by the almost unanimous approval of these sentiments when there expressed, and by the interest taken by representative men from every trade and district at the conference held last year.

I have endeavoured to treat the whole subject in as definite a manner as possible, presenting such arguments as appear to me of weight, and have confined myself strictly to the subject in hand. Only these subjects are included which are absolutely necessary for Technical Education, and therefore a number of the classes now in operation there are excluded from consideration, as they belong either to primary or higher education, into neither of which subjects have I ventured to enter.

I remain, gentlemen,

Your obedient servant,

WILL. A. DIXON, F.I.C., F.C.S.

### TECHNICAL EDUCATION.

In approaching the subject of Technical Education it may be observed at the outset that there are two distinct lines of training advocated by different people, and which are carried on together at some of the large technical educational institutions on the Continent, valuable details concerning which are to be found in the reports of Professor Liversidge and Mr. Combes. These are—1st, the actual teaching of the trades intended to be afterwards practiced as a means of livelihood by the pupils; and 2nd, the teaching of the arts and sciences which bear on these trades. My opinion, as clearly expressed in the rules for the Technical College, is that, at first at all events, our teaching should be confined to the latter. The reasons which weigh against the immediate adoption of the trade schools system are numerous, and amongst them may be pointed out that there would be great danger of overstocking at any time the labour ranks of any trade so taught, and causing injury to the pupils as well as to the trade in general. At the same time the articles made in the trade school entering into competition in the outside market with those otherwise produced, whatever the state of the trade may be—and this especially in a small community—would be sure to produce dissatisfaction, as may be seen from the occasional grumblings that are heard with regard to the products of the enforced Trade Schools now conducted by the Government, *i.e.*, the goods. Neither of these results are so likely to occur under the apprenticeship system, however carelessly conducted, at all events in those trades in which premiums are not paid, as no man would engage an apprentice unless he had a reasonable expectation of finding him employment without overstocking the market with goods, and in this way the supply follows the demand naturally.

The reason of the gradual disuse of the apprenticeship system has been stated to be the jealousy of the journeymen, who do not wish to teach those who are bound to a master for a series of years, and who, they think, might supplant themselves in an emergency. And further, that the journeymen object to allow apprentices to do more work than is proportionate to the wages paid them without regard to the fact that part of their wages consists of their instruction. These reasons, if the true ones, would be equally against Government trade schools, which if carried on in opposition to these ideas would soon be blotted out by political influence.

In the second place, it has been found that the simple making of models and small work is a nearly useless training to a trade, and the successful trade schools are in reality large Government workshops, the erection and plant of which have cost from £100,000 and upwards in Europe; and it seems beyond the bounds of possibility that our Government or Parliament would devote the requisite amount of money to make such an experiment a success.

The annual cost of such an institution, obtained from the references made to the famous one at Moscow, in the reports of Mr. Combes and Professor Liversidge, are as follows:—

The Technological School of Moscow was established under the immediate patronage of the Emperor, and is completely set up with class-rooms, workshops, and offices, and endowed with a fund of £400,000 (Combes, 124.) The orders amount to about £8,000 annually. (Combes, 237.)

In 1877 there were 582 pupils, of whom 300 boarded at the college. (Combes, 238.)

The annual receipts of the school amount to about £32,000, and the expenses to £28,000. (Liversidge, 205.)  $£4,000 =$  £48 per pupil per annum.

All the causes of failure of previous technical trade schools stated by M. Victor de la Versé would be apt to arise here; they are—

- 1st. The apprentices' workshops, designed for the practical studies of the pupils, have always been of too small dimensions.
- 2nd. The practical studies in the workshops have only been followed by a few pupils at one time on account of the scanty room, and their being non-compulsory.
- 3rd. It has scarcely ever been thought necessary to make pupils follow a course of practical science in the same manner as chemistry would be taught in the laboratories.
- 4th. The outlay allotted for the establishment and working of these workshops has always been too stinted.
- 5th. The time proposed to give to a complete course of study in polytechnical schools was insufficient for the proper arrangement of practice and theory in the technical arts. (Combes, 239.)

The

The Government could indeed, for one branch of engineering, make their workshops available by taking apprentices and compelling them, besides learning thoroughly the manual part of their trade, to attend lectures and classes, as is the practice in the Continental Trade Schools, and thus raise up for the service of the country a race of thoroughly trained men in that department. The idea of establishing weaving schools and others for trades not now practised to any great extent in the Colony seems an interference with free trade, directing the labour of the population into artificial channels when it could probably be more profitably employed in other directions.

The teaching of the arts and sciences to these already engaged, or about to be engaged, in any industry stands on an entirely different footing to that already discussed, and it is this that the Technical College in connection with the School of Arts has attempted for the last year or two with a considerable amount of success. That this has been its object is shown by the rule affixed to the title page of the calendar, namely,—“It is founded for the purpose of affording systematic instruction in the sciences bearing on such branches of art and industry as are already or are capable of being successfully developed in New South Wales, and it is principally intended for the education of persons engaged in industrial pursuits.”

The effect of such teaching is simply to make better and more intelligent workmen, and therefore better fitted to compete with those of other countries; and it appears to me that to the development of this education our energies should be directed.

With reference to this, Huxley says—“Technical Education may be regarded not as the teaching of technicalities, but as the act of training best fitted to enable the pupil to learn them for himself; any measure of Technical Education which tended to delay the period at which a boy entered in the business of his trade, by an undue prolongation of his school life, would be impracticable both from the employers' and workmen's point of view.”

It was for this end that Mechanics' Institutes were originally founded, and, in Scotland at all events, those in the principal towns have confined themselves almost entirely to their first purpose, and their utility is shown by the superior rank taken by the workmen who have availed themselves of the education offered, and even of those who have not, but have obtained it at second-hand through those who have. To the means by which such training may be supplied in the Colony the remainder of this paper will be devoted. Before passing on, however, to the subject proper, it may be observed that the instruction hitherto given in the Technical College has been almost entirely carried on by evening classes, so as to render it available to those engaged in earning their livelihood, and that this has enabled many persons to take advantage of it who would otherwise be debarred from attending. It is to be hoped that this system will be continued, as it is particularly suitable in this Colony, where the general hour of leaving off work is 5 o'clock. It has further been the custom to confine the greater number of classes to the winter months, as it has been found that during the summer the warm weather produces a certain languor which is not conducive to real study, whilst the longer light induces young men to spend their time in cricket, boating, and other out-door sports. At the same time, the summer months are, to many persons in Sydney, the busiest of the year, the whole, or almost the whole, shipment of wool then taking place. This practice has long been in force in Scotland, with the happiest results, and has been adopted for some of these reasons by the Victorian University, late Owens College, Manchester, an institution whose rapid and continuous growth in usefulness and popularity are the best evidence of its being managed in a business-like manner, and so as to meet the wants of the eminently practical people amongst whom it is placed. It is to be hoped that this system will be allowed to continue in force amongst us.

#### CENTRAL METROPOLITAN INSTITUTION.

The first part now to be entered upon deals entirely with a central metropolitan institution, whilst the wants of the country are treated by themselves.

#### SUBJECTS.

The subjects to be taught naturally divide themselves into two classes—first, Art, or that department of knowledge in which *creations of the mind* agreeably affect the taste and imagination; second, Science, under which are included those subjects which *investigate the laws* of mind and matter.

Under the Art sections the classes required for Technical Education are—

1. Drawing, including freehand from the flat and round and perspective.
2. Design, including the Principles of Ornamental Design, the Laws of Colour, &c., taught by lectures delivered to the pupils.
3. Architecture, including Building and Construction, taught by lectures; architectural drawing.
4. Mechanical Drawing.
5. Modelling, taught by actual practice on plastic materials.

Under the Science section the classes required are—

1. Chemistry—*a.* Including General and Agricultural Chemistry and Metallurgy, taught by lectures.  
*b.* Practical and Analytic Chemistry, taught by actual work in the laboratory.
2. Physics—*a.* Including the demonstration by lectures of the laws of Heat, Light, Sound, Electricity, and Magnetism, treated experimentally.  
*b.* Practical Physics, the use of instruments, telegraphy, &c., in the laboratory.
3. Natural Philosophy and Mechanics, taught by lectures on the properties of matter at rest and in motion, the effect of force applied to matter, as in tension, compression, &c., the resistance of matter to force, and the construction of machines.
4. Geology, including Mineralogy and Palæontology, taught by lectures.
5. Mining—Descriptive and Theoretical Ventilation, Drainage, and Ore Dressing.
6. Geodesy, by class and field work.
7. Physiography, by lectures.
8. Botany, by lectures and field work.
9. Materia Medica and Pharmacy, by lectures.
10. Mathematics, pure and applied; and Geometry, practical, plane, solid.
11. Navigation, including Nautical Astronomy.
12. Political Economy.

These are absolutely necessary; but to these might be added some subjects, such as History and the study of Languages, which, although not necessary for Technical Education, are advantageous for general culture, and of these a number are now taught in the institution.

The most convenient and scientific method of assigning the subjects of instruction to the students is to take the dominant science bearing on the pursuits of the latter as the lines of demarcation, and this is much superior to a division into Agriculture, Mining, and Manufactures, as the trades are either more or less purely mechanical or chemical. Agriculture is to a great extent dependent on chemistry, Mining is principally mechanical, while Manufactures divide themselves into two classes according to their nature, some intermediate ones shading off, however, from one division to the other. Thus brewing, dyeing, smelting, gas and oil making, soap making, and others are purely chemical; whilst ship-building, indeed building of all kinds, houses, furniture, carriages, steam-engines, are as purely mechanical as are also spinning and weaving, and to class all these together as manufactures appears to be a mistake. The use of art comes into both sections; thus we have art-chemical pursuits, as for example in photography, electro-plating and typing, and confectionery; on the other hand, we have art-mechanical pursuits, as book-binding, engraving, plastering, &c.

It has been proposed to split up some of the subjects into several sections, as for example, Chemistry, into Inorganic, Organic, Analytical, Agricultural, and Metallurgy; but it will be long before it will be possible to do more than teach the general principles, which are the same for all, by lectures. Having acquired these, it will be easy for the student to branch out for himself and follow his own particular line; not so satisfactory, perhaps, as taking each in detail after the principal foundation has been laid down, but the only course which is at present likely to succeed. Chemistry can only be divided at present into general and practical, and in the latter, after a grounding in analytical methods, each student can direct his attention to his own branch—the agriculturalist to manures, soils, &c., the metallurgist to metals. In some of the large institutions, especially on the Continent, this splitting up of subjects is carried very far, lecturers and professors who are specialists in each branch being appointed, and such a course has both its advantages and disadvantages. The principal of the former

former is, that a man who makes any branch of science his particular study can naturally give his students the benefit of his special knowledge in that branch. On the other hand, the principal disadvantages are, that it is necessarily expensive from the number of teachers to be supported; and further, it has a tendency to give the instruction a want of breadth; showing the student only a special part, he is not so likely to know about processes, &c., in other branches, which if he did know he might advantageously import into his own.

In speaking of art teaching at South Kensington, the writer of the magazine article already referred to says:—"The object of the art teaching at South Kensington is not, and ought not to be, to give students different education for particular trades, but to offer them all the same general art education, though they may of course pursue this with some bias towards the particular vocation they may have chosen for themselves.

#### GOVERNMENT ASSISTANCE.

To carry out the proposals it would be necessary to obtain from Government, or otherwise, an annual sum, to be used for the following purposes:—

- 1st. For buildings and apparatus.
- 2nd. For the management of the college.
- 3rd. For rewards to students.
- 4th. For payment of teachers and examiners.

That Government assistance is required to carry on this important work is shown by the experience of all European nations; even in Great Britain, where as a rule such institutions are left to the liberality and enterprise of private individuals, the Government have felt bound not only liberally to assist private undertakings, but also to found and support the Central Institution at South Kensington. Speaking of this, Professor Walter Smith, State Director of Art Education, Massachusetts, in a letter on the organization of a Museum of Art in Philadelphia, says:—"It is generally acknowledged that the initial step for the improvement of Industrial Art in England was taken when Parliament voted a sum of fifty thousand dollars for the purchase of industrial masterpieces from the International Exhibition, held in London, in 1851. The sum was small, but its significance was greater than its amount, for the grant recognized the principle 'that it is as much a part of good Government to increase the value of its industries as to keep an open market for them, when the steps required for such an improvement cannot be taken by private enterprise, and can be successfully accomplished by public action.'"

#### 1. Buildings, &c.

The first necessity in this respect is to have a central metropolitan building of sufficient accommodation, and although the present home of the Technical College answers admirably as to the first of these requirements, it is somewhat deficient as regards the second.

In addition to the present accommodation, there are required—

- 1st. A class room for lectures on natural philosophy and mechanics, where the models and apparatus now belonging to the Institution or to be acquired in future could be so placed as to be available for teaching. It would be advantageous if the room was so arranged that it could also be used for teaching mechanical drawings.
- 2nd. A physical laboratory, to contain the apparatus required for teaching that subject. The room should be so arranged as to enable students to learn the manipulation of physical appliances, in making determinations and measurements in the different departments of the science, as photometry, calorimetry, telegraphy, &c. To this room might be added a workshop, with lathe and tools, for repairs and alterations to apparatus. A complete stock of apparatus would have to be acquired for this laboratory and for the lectures on the same subject, as there is almost nothing of value of this description now belonging to the Institution, the models and instruments being chiefly for natural philosophy and mechanics.
- 3rd. Increased accommodation for the drawing classes, to be used for that purpose only, so that models and furniture may remain where placed until done with, as having them moved from time to time, as at present, causes much annoyance and waste of time.
- 4th. A room for modelling in plastic materials.
- 5th. A lecture-room suitable for experimentally illustrated lectures, the present hall, although well suited for those illustrated by diagrams only, being somewhat unsuitable for showing experiments to advantage.

To these would have to be added, it is to be hoped at no distant date, a mechanical laboratory, where students may be trained in the practical testing of mechanical constants, as, for example, the resistance of our iron, wood, stone, cement, &c., to strains.

#### 2. For the Management of the College.

At a meeting of the council of teachers held early in 1880, the following resolution was arrived at after thorough discussion:—"That it is of importance that a professional officer be appointed with the following functions:—To arrange the course of study, to supervise the material arrangements of the College, to advise the students in their studies, to consult with the teachers as to the branches of science and art which they individually take up, to act as the representative of the College with the outside public, and to be the executive officer of the College Committee, and as such, to act as the medium of communication between the College Committee and the teachers."

That some such officer is required is shown by the fact that every successful institution has such a head—whether named principal, dean, or director if educational, or manager if commercial, and the mover of the above resolution, now unfortunately no longer amongst us, stated, from his personal knowledge and observation, that much of the success of Owens College in Manchester was due to the skilful management of the principal, Dr. Greenwood. The first thing done by the London City Guilds when they decided on entering on their splendid scheme of Technical Education, was to advertise for a gentleman able to undertake the duties above expressed, which is sufficient evidence of the importance attached to them by men who had themselves been successful in life.

To undertake the duties, which are sufficiently expressed in the resolution, it is necessary that the appointment should be filled by a gentleman accustomed to teaching some one or other of the sciences, and who has at the same time such a fair general knowledge of the whole range of subjects taught as to be able to advise students as to what they should do, and to arrange with the teachers the lines of instruction they take up, so as to prevent a waste of energy caused by two or more going over the intermediate or overlapping ground which so frequently lies between two distinct sciences. This causes not only a waste of energy on the part of the teacher but also of time on the part of the student, which requires some authoritative management to prevent. The duties of this position are usually undertaken, except in very large institutions, by someone who is also on the teaching staff, and as they would occupy only a portion of his time, a similar arrangement could be made here if it could be so arranged as to have someone readily accessible for inquiry or consultation.

Such an appointment would relieve the Committee of the numerous details which are always much better managed by a single person, and yet leave them a general control and complete charge of financial matters. For the latter purpose there would be required a registrar, as at present, to receive fees, &c., keep the books, and undertake the clerical work in general.

#### 3. Rewards to Students.

It appears advisable to present to the student some tangible reward for diligence and proficiency in the subject he has studied, and this could be satisfactorily done by awarding to each class from £5 upwards, according to the number attending, such sum to be divided ratably amongst all students who obtain say over 70 per cent. of the marks appended to the examination papers. These rewards need not necessarily come entirely from the Government, for, although we have precedents in the rewards given by the British, French, and other Governments, there are infinitely more presented for such purposes by private donors; and doubtless persons here interested in the various pursuits which it is attempted to benefit would contribute if the subject was brought under their notice. This method is more satisfactory than giving distinct prizes for the first and second best papers, as in a class the students soon find out who are likely to be best, and, believing themselves to have no chance of the honor of a prize, lose heart, and are more easily led away from their studies than would be the case were they to remain in the expectation of getting placed in the first class.

Details as to the rewards given by the British Government through the Science and Art Department may be found in the Appendix to Professor Liversidge's Report, pp. 48 *et seq.*

It appears scarcely advisable to found scholarships or exhibitions for the College students to proceed to the University or elsewhere, because the College is established mainly with a view to give instruction to those who have already elected to devote their lives to some particular business. Working for a scholarship would tend in various ways, both when attending

the College and afterwards, to unsettle young men in their proper pursuits. A man might easily be induced, by the prospect of such a reward and the hope of rising rapidly into what is considered a higher step in the social scale, to neglect his proper business for the purpose of study. For this reason, if he did not get the scholarship he would remain an indifferent tradesman; if he did get it, he would probably abandon his original pursuit, and so instead of getting a good tradesman thoroughly grounded in the principles and practice of his business, and enabled thereby to rise to the highest rank in it, the country would probably get an indifferent lawyer or doctor. There are, of course, exceptions to such a result, but this would be the rule; and unfortunately most men, and especially most young men, are too apt to consider themselves exceptions to the ordinary standards of capacity. It should be the aim of the Institution not to divert the current of a man's life into some new channel, but to enable him to absorb every trickling rill until he gathers strength enough to be a powerful agent in turning the mill wheel of national industry.

Hence also the education of women has not been taken up, and although this has been done at South Kensington, it is not on that that the Science and Art Department rely for public support. In support of this, we find in Mr. Combes's report, p. 206: "The instruction of women in art is a piece of philanthropy we must not grumble at paying for, so that it shows fair promise of future profit to themselves and to us. It has met with hopeful success at South Kensington, and may fairly be urged as one of the reasons for the liberal maintenance of that Institution. But however encouraging its aspects, the teaching of women is not, and can never be, the chief business at the head-quarters of national art, or even at the branch schools, and the system of Government Art Instruction must seek to justify itself and its art chiefly by what it achieves with the male students. The reason of this is not that the State leans more to the side of the men than of the women, but, in the first place, that the art tutelage of each sex stands upon an entirely different footing from that of the other; and, in the second place, that when all is said and done, it must be owned that the work of the world, whether in art or otherwise, is done by men, and that a subsidized system of art education which only devoted its attention to, or was only successful with women, could never result in any great and permanent gain to the community. The reason why the Art Education of each sex stands upon a different footing is plain enough. In taking a hundred women of any class and teaching them art, we take them for nothing in particular, and should the work which they are taught to do turn out unproductive, the Government have wasted so much money in a philanthropic experiment, but the community is no worse off. A philanthropic experiment has been tried, and has failed, that is all. But with the men the case is different. Their education has been diverted into an abnormal channel, and they have been withdrawn from trades and pursuits in which they would certainly have done good work." There is some difference in the circumstances of Great Britain to those of this Colony, which have to be taken into consideration. In Great Britain, from its being a manufacturing country supplying the world with its productions, there is immediate employment for those who have to undergo a thorough artistic training, and this in innumerable directions, as in art pottery, printed cottons, bookbinding, paperhangings, lace, &c. In the Colony, on the other hand, there is much less chance of immediate employment in such direction, and we therefore do not propose to take men from an employment to train them in art, but to give those who are already employed in art industries such instructions as will improve them, and make them better fitted to carry on their industry.

#### 4. *Payment of Teachers and Examiners.*

It is evident that some payment should be given to the teachers for the work done in instructing their pupils. Free classes have been again and again tried in the institution, and the result has invariably been the same, namely, that some amateur teacher has come to the front full of the idea that there is much to be done, and that he can do it; but after a time the zeal flags, the regular plodding work which is required to produce any permanent good is disliked, and the good work is thrown up in disgust. The payment requires the characteristic of stability to keep the teachers regularly to their work. This may seem a commonplace remark, but that it requires to be insisted upon may be gathered from a passage in an article on China in its foreign relations, by Rutherford Alcock, in a late contemporary review, where he says:—"Adequate remuneration and fixity of tenure are the essential conditions of honest and efficient service—not in one country, but in all. Wherever the salary is inadequate, or its payment uncertain, or the tenure of office is itself uncertain, the service itself must be vitiated by defects which react in many ways upon the zeal, the constancy, and the honesty of the occupants."

It may be observed that the payment to the teachers advocated by Mr. Plummer in the paper already referred to was to be based on a system of payment by the result of examinations adopted bodily from that in existence at South Kensington. This system is inherently bad, for reasons to be presently referred to, and is one which was unanimously rejected by the supporters of your recent reform in primary education, and it is scarcely likely therefore to find acceptance at the hands of the Minister for Education.

Payment by results in Technical Education is suggested by Professor Liversidge in his report, though he says:— "(XXV.) The system of payment by results is not perhaps a very satisfactory one, but it is a very cheap and convenient method." Such a system is not in force in the primary schools. It is never suggested for University teaching. Why therefore should these go one way and technical training another? The satisfactory results apparently accomplished by this system of payment show it to be a good method of ensuring preparation for examination; but whether it is of any value as a scientific training is an entirely different matter. The method is undoubtedly available for deciding on the merits of a system of art instruction where a pupil's whole work, if need be, may be inspected and made to appeal directly to the eye; and this was its origin at South Kensington, which was established for "more especially devoting itself to the advancement of drawing and the art of design" (Combes 229, also 217). Drawing and design are absolutely necessary for a manufacturing country like Great Britain, whose products compete with those of all nations; but the Colony being more a producing country, and not likely for long to enter into the competition in the lighter art manufactures, a knowledge of science is of even greater relative importance, and it is necessary that we adopt the best means of instruction not for art but for science.

The better plan would be to affix to each lecture a minimum guaranteed payment, which, placing them at a low rate, might be as follows:—

- 1st. For each class meeting for work as distinguished from lectures, £1.
- 2nd. For each lecture, illustrated or not by diagrams, models, or specimens, £2.
- 3rd. For each lecture, illustrated by experimental demonstrations, £3.

In this scale it is supposed that the class-work needs little, or comparatively little, immediate prior preparation. Lectures unillustrated, or illustrated only by diagrams (including lantern diagrams), &c., require considerable prior preparation, and, therefore, occupy very much more time than that actually employed in delivery, whilst to those experimentally illustrated the same remarks apply with even greater force, much time being occupied in preparing experiments, in addition to the literary preparation required.

These are, as stated, to be minimum guaranteed payments, and such payment would be reduced to the Government by the fees obtained from the students, whilst, if by making his class attractive, the teacher could draw such a number of pupils as to exceed the minimum, he would reap the benefit of his exertions, whilst the endowment would be relieved entirely. For example, suppose a class conducted one night per week, the fee to the students being 10s. 6d. per quarter, with 20 pupils the Government would pay £3 3s. per quarter, or with 26 or over nothing, whilst with fewer pupils they would pay more.

This is somewhat according to the view of the matter taken by D. C. Williamson, F.R.S., who, in his evidence before the University Commission, said:—"If the teachers were, as frequently happens, solely dependent on fees, I think that that is undesirable. On the other hand, I think they ought not to be independent of fees. The French system of giving an endowment as the sole support is, I think, undesirable. It takes from the professors a sufficient inducement for exertion, and I should not recommend that system; but some small salary, which would not satisfy their reasonable requirements or their ambition, ought, I think, to be given to everybody concerned. You ought to render the position such that it might be looked forward to by a young man as a reasonable career to devote himself to. At present it is, on prudential grounds, not considered so usually, and I think that is wrong. It may be said that in this way the less work done the more the Government would have to pay for it, but it must be remembered that within certain limits the amount of work involved does not depend on the number of pupils. The labour connected with actual lectures is nearly the same, whether there are many or few attending them. With large numbers the examination of class papers, which are essential to the proper teaching of scientific subjects, as they show to the teacher the progress and understanding of the pupils, take up much of his time."

At the same time it must be taken into consideration that mere numbers attending give but a faint outline of the good done to the community, and it will be found by examining the reports of Prof. Liversidge and Mr. Combes that if we take all the institutions where the number of pupils and teachers are given, the average comes to seventeen of the former to one of the latter. Now, the fees from such a number could scarcely keep the teachers, and, therefore, it is evident that the Governments supporting

supporting them must pay, and consider it worth while to do so, a considerable balance. The lecturers hitherto have been paid by the fees from the students; the fees have been small, and the number of students attending each class by no means large, so that in all cases the amount paid them has been a mere fraction of their income, which is mainly derived from teaching or in the practise of their profession during the day elsewhere; indeed many would be pecuniarily better off did they pay attention to that panacea for fortune-making, viz., "minding their own business." The college has in many instances suffered from this state of things, as men get appointed to the teaching staff, naturally enough expecting to obtain some return for the money, time, and labour spent on their own education, as well as the time actually occupied; and when they find they get neither, they either drop off at once, or, persevering for a time in the hope of improvement, their fervour for the institution gradually becomes undermined, and they do so at length, leaving their classes in confusion. The above proposals would obviate this to some extent, but from the low scale proposed it must be evident that even then the greater part of a man's income must be otherwise procured.

The teachers would be better enabled to give the kind of instruction required if they were practically engaged in the practise of a profession connected with the subject taught, and not merely teachers. It has been advocated that school teachers should be taught some science, and then instruct in that science; but it would be better that, for example, architecture should be taught by an architect, engineering or mechanics by an engineer, as there would be learners as well as teachers, and their minds being continually directed to some branch of the subject taught, they would be better able to connect the theoretical with the practical work. In the evidence given before the University Commissioners great stress was laid upon the importance of original research, and referring to this they said in their report:—"The Commissioners have no doubt that for a professor the duty of teaching is indispensable, but they agree with the witnesses whom they have examined that original research is a no less important part of his functions. The object of an University is to promote and to maintain learning and science, and scientific teaching of the highest kind can only be successfully carried on by persons who are themselves engaged in original research. If a teacher once ceases to be a learner it is difficult for him to maintain any freshness of interest in the subject he has to teach; and nothing is so likely to awaken the love of scientific inquiry in the mind of the student as the example of a teacher who shows his value for knowledge by making the advancement of it the principal business of his life.

The Commissioners consider it a point of great importance that the Universities should increase the number of persons employed to such a number as will, while preventing their offices from being sinecures, leave them with time and energy enough for original research.

The actual daily practise of the profession, a branch of which he taught, would to a certain extent stand in place of this original research which is so strongly insisted on for University teaching.

With regard to the fees to be paid by students, it is frequently argued that the fees should be fixed at as low a scale as possible, and even from these that considerable reductions should be made for students attending several classes at the same time. The writer has frequently advocated directly opposite views, and now thoroughly believes that all things are valued as a rule at about their cost, and that the double stimulus of a considerable prize in view and some sacrifice on the student's part in the form of fees, would cause greater exertion, on the one hand, to obtain the prize, with its accompanying honor, and, on the other, to get value for his money. This view will be found borne out by the regulations of the Science and Art Department, South Kensington, as given in Prof. Liversidge's report, p. 48, where the following sentence occurs:—"Payment of fees by students is essential, and local committees of schools and classes should impose as high a scale of fees as they consider can be raised, the standard of fees varying in different localities according to the rate of wages, &c." This paragraph requires serious consideration, as it must be admitted that the wages obtained here are better than those in Manchester, and it will be seen that there (Prof. Liversidge's report, p. 103), for evening lectures for each full course (actually about 15 lectures) the fee is 10s. 6d.; mechanical drawing, 10s. 6d.; freehand drawing, 15s.; practical chemistry, £4 4s. The fees charged for the different classes carried on in the Technical College during 1880 may be found on reference to the calendar, and by reducing them to a uniform number of meetings, which may be taken at that of Manchester, we have—

	Manchester.	Adults.	Sydney.	Youths.
For each course of lectures ...	10s. 6d.	9s. 5d.		4s. 8½d.
Mechanical drawing ...	10s. 6d.	14s. 5d.		7s. 2½d.
Freehand drawing ...	15s.	11s. 6d.		5s. 9d.
Practical chemistry ...	£4 4s.	£1 4s.		12s.

It is thus seen that in all cases, with the exception of the mechanical drawing class, the fees charged here are actually lower than in Manchester, in the case of adults, instead of the reverse, as should be the case by the regulation of the Science and Art Department, whilst in the cases of apprentices they were last year very much lower. In the case of practical chemistry, in Manchester the students are supplied with all apparatus, whilst here they have to supply themselves with some of the smaller apparatus, but as sufficient may be obtained for a pound to begin with, and that, with ordinary care, to avoid breakage, another pound's worth will last them for twelve months, when it still remains their own property, the difference in the scale remains very great. A decrease in the fees is supposed to lead to an increase in the number of students, but the result of last year's work shows that so far as the chemistry class is concerned, at all events, the decrease of the fee to one-half for apprentices has not increased the attendance by a single individual.

In some of the classes there was certainly a temporary increase, but it appears probable that a more permanent one, and hence more conducive to thorough training, would have been obtained had the money devoted to reducing the fees been given in the form of prizes as already suggested.

With regard to making a reduction to students attending several classes at once, experience shows that this is not a thing to be encouraged, but the reverse. They should be discouraged from attending classes on more than two, or at most three nights per week, and rather induced to spread their studies over several sessions. For real serious work, and no other is productive of any permanent good, the attendance at two lectures per week should require the devotion of other two nights to the study of notes and text book, whilst the lecture is fresh in the mind, and as the effect of all work is proverbial, it seems necessary to leave the remaining evenings to relaxation of some sort. Young men entering with enthusiasm in a cause which they consider, and are told, will ultimately be of great advantage to them, are too apt to undertake more than they can carry out, the result being that they become disheartened with their ineffectual efforts to master so many subjects at once, and often end by mastering none.

It will be seen that the subject of examinations has been placed at the end, and this is so because examinations and examinations are the least important, although unfortunately in England the most considered part of education. The excessive prominence given to examinations in the English system is a step in a downward direction, leading at length to an effete civilization of a Chinese character, as in that country every chance of promotion and honor depends on passing examinations in old and, to a certain extent, useless knowledge, and this is the invariable tendency of all examinations. The old system of continual examinations and payment by their result, leads to one end, namely, that teachers by a study of previous examination papers acquire a knowledge of the general tendency of the questions, and then by constant reiteration cram the minds of the pupils with that which will serve to pass, to the exclusion of all true scientific teaching. The passing of an examination requires the cultivation of the memory, whilst scientific teaching should have quite a different end, namely, to teach men to think as well as to know. That the writer is not alone in the opinion expressed above may be readily found from an examination of those of Huxley, Crookes, Roscoe, and others; indeed it may be said all others in the scientific world, unless connected with South Kensington. In a terse address to students, in the *Chemical News* of September 17th, 1880, Crookes says:—"Formerly, and even at present in some countries, the student had to keep in view one paramount object only. To whatever science he had devoted himself he had to make himself thoroughly master of its principles and methods. The purpose of study was not so much to acquire a mere summary of what had already been discovered by others as to become capable of continuing their work adding to the stores of truth which they had accumulated. The power of effecting such continuations and making such additions is surely the best, the all-sufficient proof that the student's time had not been misspent. But in higher education, as conducted in modern England, this unity of purpose no longer exists, and this test of proficiency is no longer accepted. The student is required not merely to make himself, if possible, thoroughly acquainted with his subject, but to satisfy certain official persons that he has obtained such an acquaintance. If he does not succeed in the latter object, his actual proficiency in the science in question will be no avail, and if a due knowledge of such science be part of the preparation required for some professional career his time will have been in one sense wasted. Hence this latter object assumes the preponderance—the shadow outweighs the substance, and in the never-to-be-forgotten words of Professor Huxley, 'we study in these days not to know but to pass, the consequence

consequence being that we pass and don't know.' When a man has got so far as to define, even in his secret thoughts, science as a mere something to be examined in, he is intellectually dead."

Professor Ferguson, in an address to the medical graduates of Glasgow in 1878, says:—"It is nevertheless strange—that it should be considered likely that a higher pitch of knowledge will be attained and a broader scientific and special education given, by leaving the student to get his knowledge from any quarter, and then passing him through an examination mill as the test of his ability to enter on the practise of medicine. The system defended and commended by some is, get your knowledge where you like, come to me to be examined, and I will decide by a few questions whether you are worth 50 marks or 50½ marks, and how much better 50½ marks are than 50.

The late Dr. George Wilson, Lecturer on Chemistry, and afterwards Professor of Technology, in Edinburgh, was asked to take the Chemistry chair in one of the London medical schools, but after some consideration gave up the idea. He says:—"The London students are notoriously the most unscientific students on the face of the earth. My English friends need not take offence at this, for the Englishmen who come here are abundantly characterized by scientific enthusiasm; but the professional business spirit of the London schools is alien to the true study of their subjects, and in such things as chemistry they only ask *what will pass the halls*. I had full opportunity of seeing this last winter in the practical class of Griffith, of St. Bartholomew's Hospital. An experienced and popular teacher told me it was useless to discuss law or theory before them, they did not care for it."

The whole body of the Institute of Chemistry of Great Britain and Ireland, comprising all the scientific chemists of the country, are evidently so impressed with the insufficiency of examination alone that candidates for the associateship must produce evidence of three years' training, and in lieu of examination will admit on account of scientific work actually done.

See also Combes's report, 250, when speaking of Kindergarten, it is said,—"That the possession of a good memory is often mistaken for a good general quality of brain power, while the thinking powers may be very weak, and therefore an undue cultivation of the memory may leave far behind other essential intellectual faculties."

Liversidge also quotes Huxley, who, speaking of trade schools, says, xxvii,—"And above all should not have gone through too much preparation for examinations, which frequently tends to destroy the vigour and elasticity of the mind if carried to excess."

Mr. P. Tempel, of Brussels, says,—"In middle class instruction the only object is to cram the young men for examinations. They develop exclusively the faculties of literary criticism or mathematical calculation according to the particular case. In primary instruction they manage to destroy the equilibrium of the faculties without cultivating any one in particular." "It is true that our system is apt to deceive us in the value of the attainments of our young men, who may be really without real science or judgment. It only requires a good memory to pass the examinations, but how many are there who, having worked conscientiously during the whole of the term, have at the end entirely worn out their brain force.

Dr. Manning says, in a paper on the causation and prevention of insanity, *Journal R.S., N.S.W.*, xiv., 353,—"Newspapers, medical and lay, have frequently of late pointed out the evils of our present system of stuffing our youth and making all boyhood and girlhood one long period of cramming for examination. The examinations at the London and other Universities and for professions have become almost encyclopedic in their range. The whole system tends to confuse and distract the mind, to unfit it for the work of the world, to stunt originality, and to induce what has not inaptly been termed 'brain-fog.' Where there is no absolute break-down at the time, and instances of this are much more frequent than is commonly supposed, seeds are planted for the growth of mental disorder later in life, and many a brain is upset which had it been subjected to more moderate pressure would have escaped unharmed. I know no stronger evidence as to the evil done by overwork at schools and competitive examinations than that of Dr. Andrew Clarke, who states that he has discovered temporary albuminuria in 10 per cent. of the candidates sent to him for examination as to physical health after passing the Civil Service examination for India."

Examinations should be conducted on the plan of those of the Scotch Universities, and which has been adopted in Manchester. There the examinations are conducted by the teachers and professors themselves, with the assistance of one or two assessors, who are changed every two years or so, and whose duty is to see that the standard is kept up, and by looking over the papers to see that the marks awarded have been fairly earned, and if dissatisfied on these points they report to the Senate. Some such plan should be adopted here, the end examination being supplemented by papers set frequently to the student during the currency of the course, so as to induce him to work up his subject outside the class, such papers to be taken in connection with the final examination. Such a method tends to encourage systematic study instead of mere cram; and to further discourage the latter, the student only, and not the teacher, should benefit by the result of the examination. The assessors would at first have to be chosen from outside, but might after a time be chosen from pupils of the college who had distinguished themselves in the subject for which they are appointed. The position would soon come to be looked upon as a distinction, and the fees paid to the examinees need be only of a moderate amount, though some fees should certainly be paid.

#### COURSES OF STUDY.

It is of great importance in any such scheme as is here sketched out that the course of study should be systematic, as desultory work for the amount of labour actually undergone produces comparatively poor results. In the first place it is necessary that the pupil before entering on any of the higher branches should possess sufficient ordinary primary education as to be able to take advantage of the instruction offered. This could be discovered either by a preliminary examination as is arranged for in the present rules of the college, or by certificate from the master of the primary school he had attended. Some such preliminary certificate showing that the pupil has sufficient primary education is found almost without exception in every successful educational institution. A few such uneducated pupils in a class either reap no benefit for themselves, and so to some extent bring the teaching into disrepute, or they retard the progress of the whole class. Having given satisfactory evidence on that point, the next thing is to get the student to regularly enter for the course which should be laid down for each business, a rough outline sketch of which is to be found in the present rules of the college. The course should extend over two, or even better, three sessions, the classes being taken in appointed order, and having passed satisfactory examinations during and at the end of each session he should receive a certificate as associate. To encourage this system desultory students, distinguished in the German schools from regular students as "auditors," should not be allowed to participate in the benefits or rewards offered. These matters, however, being already laid down in the calendar, it is unnecessary to enter further into the consideration of them in this place. There is just one point, however, to be considered, and that is, whether the certificate should include an examination in the technology of the trade or business of the student. The Society of Arts carry out such examinations, examples of which will be found in Professor Liversidge's report; but the business of the college should be to teach, not to examine, and it appears therefore that it would be more consistent that the college should only grant certificates on what has been there taught (it being found that the student has learned it), and leave the examination on technology alone until it can be taught for different trades.

Prior consideration should be given in this direction rather to the country than the town, as there are not to be found there such facilities for acquiring information on the technology of subjects of such primary importance to the prosperity of the community as forestry, economic plants and crops, breeding of animals, &c., as are available to persons carrying on their industries in the town.

#### COUNTRY SCHOOLS OF ARTS.

The most difficult part of the problem, namely, how to give assistance in the matter of technical education in the country towns, still remains to be considered. The comparatively small population in any of even our most important country towns precludes the idea of the institutes attracting any great number of students at each, and their distance from one another and their diverse industries, render any union for the purpose of obtaining instruction difficult. The obtaining of an occasional lecture on some scientific subject could probably be managed, but such popular lectures, though certainly a higher form of entertainment than a so-called "nigger concert," are of little more value for educational purposes.

At the conference on the subject of Technical Education held last year in the college hall it seemed to be assumed by many that the lecturers at the central institution could easily arrange to give series of lectures at different country institutes. This, however, would as a rule be found to be almost practically impossible; first, because the lecturers have not hitherto been paid sufficient to make them independent of professional work, and it is not now proposed that they should be, as already explained under the proper heading. Again, as during the winter months the lecturers are and will be engaged on two or three nights per week in the Sydney institution, even if they were otherwise disengaged, except in preparation, they could not find the time to travel to different places in the intervals. And as the objections to summer classes in Sydney apply with even greater

greater force to the country towns, especially to those whose climate is hotter, it is evident that but little assistance could be drawn from the lecturers here.

Having now examined the negative side of the question, let us see what could be done on the positive. In the first place, it has been found almost everywhere that drawing has been one of the most successful and satisfactory classes to begin with. In England freehand has been that most in request, whilst in Germany, as was to be gathered from the remarks made by Dr. Reuleaux in Sydney, ornamental drawing and designing possesses an equal attraction to the pupils, whilst the method of instruction he explained seemed admirable. Now, surely in some of the principal country towns some one could be found able and willing to undertake a drawing class on one or two evenings per week, on the same terms as are proposed for Sydney. It is also possible that some gentlemen could be obtained in the various towns to take up in addition some other subject on the same terms.

For the teaching of elementary science, which appears to be all that is possible under the circumstances, an adoption of the system of Mr. Twining appears to be the most likely to succeed. For this purpose a young man of scientific tastes could easily be trained in the central institution to make a series of experiments to illustrate a written course of lectures in an efficient manner, and could then travel to the various institutions, where classes could be formed. If the lecture season were spread over the eight cooler months of the year, he could visit, say, Maitland and Newcastle—which could be visited on alternate evenings from their proximity—Bathurst, Goulburn, and Grafton, spending two months in each, every year. Such a scheme could be managed with comparatively little expense, paying a moderate salary and travelling expenses. The remaining four months, which would probably be reduced to three by time occupied in travelling, could be occupied by the lecturer in study in one of the laboratories of the central institution. The subjects of the course could be so arranged as to be those most suitable for the district, omitting any which had been taken up locally. The classes could be examined at the end, as in Sydney, and to any pupil who after attending two courses, say one on chemistry, and one on physics, which would be given in different years, showed sufficient ability, a small scholarship could be awarded to proceed to the central institution to perfect himself, following in this respect the example of South Kensington. Such scholarships should amount to little more than might be assumed to be the difference in cost between living in Sydney and at home, as it should be assumed that he will obtain employment whilst there, and the amount should only be paid on condition of his continuing his education satisfactorily at the college.

Fees should be paid by the students attending country institutions, their amount being fixed on the principle already laid down, a part at least of which should be paid to the lecturer as an inducement to make his classes attractive. As it would not be advisable to occupy more than three evenings per week in one institution, he might be allowed to give occasional lectures in smaller institutions in the district, receiving the fees obtained.

If the result was found satisfactory two such lecturers might be employed, one taking physics, the other chemistry; there could then be formed two classes of two months each in the towns enumerated.

#### EXPENSE TO GOVERNMENT.

The expense to the Government in connection with the country institution would be :—

- 1st. The payment of the difference between the fees and a stated sum for each class, as in Sydney.
- 2nd. The payment of salary and travelling expenses to a lecturer, on Twining's system.
- 3rd. The payment of scholarships to the central institution for the country districts.

#### MINING DISTRICTS.

In mining districts advantage might be taken of the presence of the mining surveyors in connection with the Department of Mines in any district by encouraging them to give short courses of lectures on geology and mineralogy in the evenings to the mining population by the payment to them of fees on the college scale. As these courses would be very short it might be unnecessary to enforce fees from those attending them, and they would not necessarily interfere with the officer's duty to his own department.

Nothing has been said in this paper on the subject of higher or University, or of pure Art education, as with both the University and Academy of Art are connected men both able and willing to advocate their own views. Each have their own distinct duties, and in the former the ratio of students to the teaching staff is quite equal to that found in the older Universities of Europe; it has therefore enough to do without taking up evening instruction, and if the public sometimes grumble, as some of them do, at the expense, they do so without reason, and in ignorance of the cost of higher education elsewhere. The Technical College has taken up a line distinct from both these valuable institutions, namely, the evening instruction of persons who have already chosen and entered upon the employment of their lives, in art and science, and more especially in those which will enable them to carry on their vocation to the best advantage to themselves and the country. Hitherto, thanks to the energy of the committee, and the diligence of the teachers, the success has been very considerable, in spite of a continuous scarcity of funds for carrying on the work. It was the first and is now the only institution of the kind in the Colony, and it is to be hoped that it will not suffer the fate of so many Sydney institutions, and remain mediocre for want of united effort. With a population one-fourth of Manchester, of Liverpool, of Glasgow, Sydney has more scientific societies, more musical societies, more municipalities, more halls, more fire brigades, than any of them; we have quantity, they have quality. Let us hope that the result to the Technical College may be an exemplification of "United we stand," and that in the future it may be an example for older institutions.

#### TECHNICAL EDUCATION.

*Suggestions for a Practical Scheme intended principally for the Artisan Classes of New South Wales.*

To the President and Council of the Sydney Mechanics' School of Arts.

Gentlemen,—

Having been honored by a request from the Committee of the Technical or Working Men's College to lay before them certain views, based on the results of practical experience, respecting what, in my opinion, appear to constitute the most efficient means of enabling the labouring classes of New South Wales to obtain the various kinds of scientific and other instruction, which, under the general name of "Technical Education," are found essential to the industrial progress and well-being of the Colony, I have been induced to respectfully offer the following remarks, in the hope that they may prove of some little service in the direction indicated.

During the last few months the public mind of the Colony has become strongly impressed with the conviction that facilities for acquiring a certain amount of improved scientific and artistic instruction should be placed within the reach of those engaged in the different branches of productive and manufacturing industry. Respecting this, Professor Liversidge, in his interesting and comprehensive report on technical education, says :—

"The skilled artisan requires a general education in the first instance, to be followed by elementary instruction in certain branches of science, according to his future occupation, sufficient to give him an intelligent interest in the principles of his trade; and finally, his trade education itself, which may be obtained in a trade school and the workshop, or in the workshop alone. The education of the artisan has to be of an elementary nature, simply because he cannot afford the time to go beyond the preliminary stages."

Further on we are informed that,—

"By technical education in England is usually understood that instruction which is necessary, and is especially intended, to assist in training persons for some particular industry, trade, handicraft, or art. Technical education, however, should not be understood to consist solely of instruction in the handicrafts or arts, but rather the education necessary to enable a boy to become an intelligent workman—one who can see the principles underlying the methods of work—one who can give a reason for doing anything in a certain way, and does not blindly follow a certain rule because he was so taught; in fact, he should know something of the science of art, for every art is based upon certain scientific principles. The practise of but very few arts can be taught except in the workshop, but the principles or science of most arts can be taught either before the young artisan enters the workshop as an apprentice or during the period of his apprenticeship."

As one means of supplying the desired technical education, Professor Liversidge appears inclined to recommend the system of trade schools. He says :—

"It is admitted on all hands that it is necessary to have trade schools to supply the deficiency caused by the decay of the old apprenticeship system; hence, one or more trade schools are to be met with in almost every town of importance in Austria,

Austria, Belgium, France, Germany, Holland, Switzerland, &c., where it is almost the general opinion that the students in the trade schools get on much faster than the boys who are apprenticed to master-workmen in the ordinary way."

Perhaps it will not be deemed presumptuous on my part if, while agreeing with all that Professor Liversidge has stated with respect to the subject of higher scientific education, such as that imparted at the Sydney University, I venture to dispute the accuracy of his views regarding the general utility of trade schools, especially in a country like New South Wales, in which there at present exist no staple manufacturing industries. As a substitute for the old apprenticeship system the proposed trade schools would inevitably prove a failure. All who have studied modern industrial history are aware that the decline of the apprenticeship system is a direct result of the introduction of new manufacturing modes and processes, the principal features of which are based on the minute division and subdivision of labour and the development of the factory system, whereby the cost of production becomes considerably economised, frequently to an almost incredible extent. In fact, the old prevailing conditions of labour have become largely modified, if not completely revolutionised, by the continual introduction of new processes and improved appliances.

Now, what is actually required is some practicable means for enabling a mechanic or artisan desiring the same, to acquire a certain amount of practical scientific or artistic knowledge, not easily obtainable in the workshop, and which shall enable him not merely to adapt himself to the ever-changing conditions of industrial toil, but also to anticipate, so far as such may be possible, those likely to occur in the future. Take, for instance, the sewing machine manufacture. When this new industrial appliance was first introduced into England there were not half-a-dozen mechanics in that country capable of repairing it when injured or otherwise out of order. Yet nothing can be more simple than its efficient repair when once the principles of its construction are understood by the workman, but there were none to explain these to the English mechanic. In due time, however, the deficiency became remedied, but it would never have been felt had there existed at the time a larger amount of practical scientific knowledge amongst English mechanics. It is this want of ability, the result of defective scientific instruction, to understand or adopt necessary mechanical and other improvements or modifications in the art of industrial production which has so repeatedly endangered the industrial supremacy of England. But before proceeding further, permit me to contrast the old and the new systems of production. In the furniture trade it is no longer necessary, as in former times, that a chairmaker should produce or shape with his own hands each and every portion of a chair. Originally, he had to buy the wood, ascertain that it was properly seasoned, cut it into pieces of the requisite length and thickness, turn or carve the ornamental portions, and put the whole together according to a given design. All this has now become changed. The wood is duly selected and seasoned for him, one man shapes the legs, another the back, while a third labours at the rough framework, and so forth. This is division of labour as practised at the present moment. The new system requires of the workman a less amount of practical knowledge than was formerly deemed necessary. All that he has to learn is how to produce in a certain manner a given portion of the chair. In other words, he becomes a mechanical producer rather than a trained and intelligent artisan. Now, suppose that, in accordance with the views expressed by Professor Liversidge, a trade school for chairmakers were established, in what manner would it improve the character of the chairmaking industry, or open to the young chairmaker a means of more profitably utilising his skill and experience? It must, to be of any real service, teach him something which he cannot learn in the workshop—say the art of preparing designs for chairs. To become proficient as a designer of chairs it is essential that he should possess some knowledge of the principles of construction, mechanical and freehand drawing, harmony of colour, and variety of style. This knowledge, combined with any natural or acquired taste possessed by him, immediately enhances his value as a producer. He is no longer the mere routine workman, but a practical creator of new and improved forms of chairs. Even if he remain with his fellow-workmen in a subordinate capacity, their united labours must surely be found capable of higher results than were previously possible. As a matter of fact, they would be enabled to finish in an artistic style the finest and most costly descriptions of furniture.

Where trade schools have been successfully established, as described by Professor Liversidge, it will be found that they are generally situated in the centre of districts devoted to particular branches of manufacturing industry, where it is highly desirable that the workmen should obtain certain kinds of knowledge not procurable in the workshop. Theoretically the students are supposed to be treated as apprentices, receiving instruction in the various technical details of their trade; but practically, it is invariably found that the knowledge imparted is of a higher scientific or artistic character than they would be otherwise able to procure. When the Spitalfields School of Design was established, a silk-weaving loom was erected in one of the rooms, for the use of intending designers, it being regarded as necessary that a designer of silk fabrics should have some knowledge of the art of silk-weaving. But the loom was seldom or never used, it being found that the requisite information could be obtained without the loss of time incurred in learning to become a silk-weaver. Professor Liversidge says:—

"When it is decided to start trade schools in the Colony, I would recommend that in the first instance a weaving school should be established, inasmuch as wool forms so important a part of the produce of the Colony, and it is desirable that as much of it should be manufactured in the Colony as possible; a school also for masonry and stone-carving would probably be very successful in or near Sydney on account of the large demand there is for masons in the towns and surrounding districts; to these branches of trade other schools, such as for cabinet-makers, locksmiths, dyers, and so on, could be added from time to time as experience is gained and the demand for them felt."

Here, again, exception must be taken to the well meant advice thus proffered. If at any time it be found desirable that the woollen manufacturing industry of the Colony should become further developed, a sufficiency of skilled labour will always be procurable from Europe, and by the side of this cheap and abundant skilled labour that supplied by the proposed trade schools would appear dear and inefficient. The same may be said of the proposed schools for masonry and stone-carving. There exists a sufficiency of ordinary labour in our midst; what is required is the higher class of skilled and artistic labour, to secure which instruction in the laws of mechanical construction and the principles of architectural design and ornament is essential. It must not be supposed that there exists any desire on my part to detract from the value of Professor Liversidge's report. None can fail to recognize the able, conscientious, and comprehensive manner in which it has been prepared; but inasmuch as it must naturally, as an official document, influence any legislative action which may be deemed necessary, it becomes a matter of supreme importance to indicate these portions to which exception may fairly be taken. There can, however, be no objection to the formation of schools furnished with the necessary appliances for imparting practical instruction in the various mechanical principles, as in several English and American technical colleges, but this is a question for subsequent consideration.

Whatever may be the system of technical education finally recognized by the Government as that most suitable for adoption in the Colony, certain features will be found essential. It must be adapted to the character and capabilities of a country in which there exists no staple manufacturing industries; it must not be too expensive, nor demand any elaborate machinery; it must utilise, so far as such may be possible, existing educational institutions; and it must be capable of indefinite expansion corresponding with the development of colonial industrial enterprise and progress. These various conditions appear to be most efficiently secured by a careful modification of the system on which the British Science and Art Department at South Kensington is based, and which is the result of a careful study of the various modes of imparting technical education common in France, Belgium, Germany, and elsewhere. The advantages of the system are now being fully recognised in the very countries which furnished the ideas animating its promoters, and it is generally admitted to have aided largely in producing the new and improved class of workmen who have of late years enabled England to make such rapid strides in the higher and more scientific or artistic branches of industrial production. Such a system could be introduced here with comparative ease under the direction of the Government, and without in any way impairing the efficiency or lessening the independence of existing educational institutions, as will be perceived by the following outline of a scheme which is the result of a comparison of the educational deficiencies of the colonial workman with the facilities at present possessed by him for remedying the same. A considerable portion of the cost would have to be borne by the Government, as in England, but after the preliminary expenses have become defrayed, the sum annually expended would bear a certain definite proportion to the results actually obtained.

#### PROPOSED SYSTEM OF TECHNICAL INSTRUCTION FOR COLONIAL ARTISANS.

##### *Government Assistance.*

A sum of money to be annually voted by Parliament, to be administered by the Public Instruction Department. The funds thus provided to be distributed in the form of grants for—

1. Examinations of teachers in science and art, at which certificates of competency are awarded.
2. Examinations of children attending public and other elementary schools in the rudiments of specified branches of science and art, at which certificates of merit are given.

3. Examinations of students in science and art classes, at which State prizes, in the form of scholarships, exhibitions, and medals, together with certificates of merit, are awarded.
4. Payments to institutions or teachers on the results of examinations and attendance.\*
5. Building and similar purposes.
6. Purchasing apparatus, &c.
7. Special assistance to teachers and students.
8. Special assistance to practical lecturers, travelling teachers, &c.

The Sciences in which instruction is given to include—

- |  |  |
|--|--|
| 1. Practical, Plane, and Solid Geometry. | 14. Mineralogy.                              |
| 2. Machine Construction and Drawing.     | 15. Animal Physiology.                       |
| 3. Building Construction.                | 16. Elementary Botany.                       |
| 4. Naval Architecture and Drawing.       | 17. Biology, including Animal and Vegetable. |
| 5. Pure Mathematics.                     | 18. Morphology and Physiology.               |
| 6. Theoretical Mechanics.                | 19. Principles of Mining.                    |
| 7. Applied ditto.                        | 20. Metallurgy.                              |
| 8. Acoustics, Light, and Heat.           | 21. Navigation.                              |
| 9. Magnetism and Electricity.            | 22. Nautical Astronomy.                      |
| 10. Inorganic Chemistry.                 | 23. Steam.                                   |
| 11. Organic ditto.                       | 24. Physiography.                            |
| 12. Analytical ditto.                    | 25. Principles of Agriculture.               |
| 13. Geology.                             | 26. Agricultural Chemistry.                  |

Other Sciences to be added from time to time as required.†

The Art teaching includes—

- |                                     |                                      |
|-------------------------------------|--------------------------------------|
| 1. Freehand Drawing from the flat.  | 7. Anatomy.                          |
| 2. Practical Geometry.              | 8. Architecture.                     |
| 3. Linear Perspective.              | 9. Modelling in plastic materials.   |
| 4. Freehand Drawing from the round. | 10. Laws of Colour.                  |
| 5. Shaded Drawing from the round.   | 11. Principles of Ornamental Design. |
| 6. Advanced Perspective.            |                                      |

Together with such other subjects as may be deemed necessary.

In the Science division each subject to be divided into three groups or stages—Elementary, Advanced, and Honors, except Mathematics, which is to be subdivided into seven stages, with "Honors" in three groups of stages.

The examinations to be conducted on the same principles and in the same manner as those of the British Science and Art Department, with such modifications as may be requisite for the purpose of meeting colonial requirements.

#### ELEMENTARY TEACHING IN PUBLIC SCHOOLS.

With the view of rendering more efficient the secondary teaching given in the proposed science and art classes, the instruction imparted in the Public Schools to be extended and amended so as to include the rudiments of certain branches of scientific knowledge and a more systematic and practical course of instruction in elementary freehand drawing from the flat.

#### THE TECHNICAL OR WORKING MEN'S COLLEGE.

The present premises in Pitt-street to be enlarged and altered, so far as may be practicable, for the purpose of enabling proper instruction in science and art to be imparted to the students attending the additional classes to be established. This would necessitate the formation of—

- A new and larger chemical laboratory, with special class rooms provided with all needful appliances for the study of Electricity, Photography, &c.
- Additional class rooms for the study of Mining, Principles of Metallurgy, &c.
- Studio and class rooms for art instruction.

Each class room to be provided with the necessary appliances, models, and books required by the teachers and students attending the same. The art studio should be as large as the present lecture hall, and be amply furnished with the requisite examples.

All candidates for admission to pass preliminary examinations in the rudiments of the subjects in which they desire to be instructed.

The course of instruction in each class or group of classes to extend over three years, and to be divided into three stages—Elementary, Advanced, and Honors; no student to enter the second stage until he has shown himself proficient in the first.

The principles and modes of scientific instruction to be based on those adopted at the Museum of Practical Geology, the Royal School of Mines, and kindred institutions in the United Kingdom; the art teaching to be in the same manner as at South Kensington.

The whole of the scientific subjects taught to form three divisions—

1. Agriculture.
2. Mineralogy and Mining.
3. Manufactures.

These, in their turn, would become subdivided so as to enable an artisan to properly study the various sciences bearing more directly on his calling.‡

When the scheme has sufficiently advanced, examinations in the Technology of Arts and Manufactures, similar to those conducted by the Royal Society of Arts, London, might be established. These would include all the leading productive and manufacturing industries of the Colony, comprising Carriage-building, Pottery, Ornamental Iron-work, Jewellery, Wool-dyeing, &c.

The awards to successful students to take the form of University Scholarships, Exhibitions, Medals, and Certificates of Merit. No medals to be awarded students during the first stage.

All students, except the holders of scholarships and exhibitions, to pay the regular fees; these latter to be framed on the lowest scale possible.

Scholarships and exhibitions to be endowed by Government, permission being given to increase the number or value by means of special subscriptions or donations from public bodies or private individuals.

#### COUNTRY STUDENTS.

To enable provincial Schools of Arts and kindred institutions to participate in the advantages furnished by the Technical or Working Men's College they should become formed into an organization on the basis of that in England known as "The Yorkshire Union of Mechanics' Institutes," whereby each, while retaining its own independence and individuality as at present, might obtain the many advantages derivable from systematic co-operation. The objects of this organization would be—

1. Obtaining the assistance of competent lecturers and instructors.
2. Furnishing facilities for obtaining elementary instruction in the subjects taught in the Technical College.
3. Superintending periodical local elementary examinations in the same subjects.
4. Procuring educational works and appliances on the most favourable terms.
5. Participating, so far as such may be possible, in the advantages afforded by the Technical College.
6. The establishment of additional scholarships for country students at the Technical College.

#### HIGHER

\* These payments to be in addition to the salaries received by the teachers, thus forming a kind of bonus in proportion to the success achieved.

† There can be no objection to re-arranging these subjects, together with those included in the art teaching, as proposed by Dr. Dixon.

‡ In suggesting the grouping of the various subjects into three divisions there was no desire to interfere with the system at present in force at the Technical College, which is admirably adapted to the purpose required.

## HIGHER SCIENTIFIC AND ART EDUCATION.

A certain number of University Scholarships in Practical Chemistry, Geology, and Mineralogy, to be specially endowed by the Government for annual competition by students attending the science classes of the Technical College, and the various institutions affiliated with the same. The *curriculum* might ultimately become extended in such a manner as to include Engineering and Applied Science generally, as at University and King's Colleges, London. Scholarships in connection with the art classes at the New South Wales Gallery of Art might likewise be established.

The University authorities might assist in providing suitable examiners for a portion of the science examinations, the remainder consisting of professional men and others possessing the requisite qualifications.

Where practicable the classes and scholarships to be open to female students.

It will be perceived that while leaving the administration of the funds provided by Government in the hands of the Department of Public Instruction, the proposed system would in nowise interfere with the management of any existing educational institution, beyond laying down the conditions necessary to secure a portion of the money annually voted for the promotion of Technical Education. Supposing the system to be adopted as suggested, its practical working could easily be traced. The workman's child would commence his educational career, as at present, in a Public School, where during the latter portion of his period of attendance he would receive instruction in the rudiments of the simpler branches of scientific knowledge and in the elements of freehand drawing. On leaving the Public School he would become enabled to continue his studies in a more extended and systematic form for three, six, or more years, in the science and art classes organized in connection with the Technical College. If a resident in the country, where the scarcity of population prevents the establishment of class rooms, with the necessary means of practical scientific instruction, he might compete for a scholarship at the Technical College, tenable for one, two, or three years, as might be agreed upon. Once fairly started on his new educational career, the proper use of the facilities provided would rest with the student himself. He might remain content with an amount of scientific or artistic information sufficient to enable him to fairly develop his skill and experience as an ordinary workman, or he might persevere with the view of qualifying himself for the post of foreman or manager in a large industrial establishment. If he display unusual ability or talent, the University Scholarships would provide him with the means of obtaining the higher education necessary in the case of mechanical engineers, analytical chemists, architects, and others engaged in those industrial pursuits requiring scientific knowledge of the soundest and most extended character.

Encouragement to students in the science and art classes, preparing themselves for particular industries, might be afforded, as previously hinted, by means of periodical examinations in the technology of art and manufactures.

In order to pass these examinations the candidate (who must be actually engaged in the special branch of industry in which he desires to be examined) would be required to possess, in the first place, such an elementary knowledge, at least of abstract science, as would enable him thoroughly to understand the scientific principles of which his art or manufacture is an application; and, in the second place, such a knowledge of the application of those principles in his trade as would show that he was practically conversant with the various processes and manipulations of the factory or workshop. The examination of each industry would consist of three parts:—

1. Those branches of science a knowledge of which is requisite as a foundation for sound technical instruction in that particular industry.
2. The technology of the manufacture, or the special application of the various branches of science to it.
3. Practical skill in the manufacture itself.

The candidate's knowledge of general science would be tested by the periodical examinations of the Technical College; the examination in technology by a special examination paper, worked in conjunction with these examinations; and the practical skill by the returns of the candidate's employment for some time past in the particular art or manufacture. In those branches of industry in which freehand and mechanical drawing, painting, and designing for manufactures are required, the candidate's power would be tested by the examinations of the Technical College, or the New South Wales Gallery of Art. On the result of the combined examinations, certificates of three grades, according to the proficiency of the candidate, would be awarded as follows:—

1. The Elementary grade.
2. The Advanced grade.
3. Honors.

Each grade would be farther divided into first and second class. A candidate who obtained an elementary or advanced certificate could be examined for one of a higher grade in a future year.

The manner in which these examinations should be conducted is shown by the following programme, based on that of the Society of Arts for the guidance of candidates engaged in the carriage-building industry:—

*Part 1.—General Science.*

1. The Elementary Certificate.—For this certificate the candidate is required to have passed in the elementary stage of one of the following subjects:—

- Practical, plane, and solid geometry.
- Theoretical mechanics, or in
- Applied mechanics.

He may then count marks in the other subjects given in paragraph 4.

2. The Advanced Certificate.—For this certificate he must have obtained at least a first-class in the elementary stage of—

- Practical, plane, and solid geometry, and in
- Freehand drawing.
- Theoretical mechanics, or in
- Applied mechanics.

He may then count marks in any of the other subjects given in paragraph 4.

4. The following sciences are more or less involved in the manufacture of carriages:—

- Practical, plane, and solid geometry.
- Machine construction and drawing.
- Pure mathematics.
- Theoretical mechanics.
- Applied mechanics.

*Part 2.—Technology.*

The nature and properties of the various timbers employed in carriage-building, and the arrangements for felling, seasoning, and converting.

The nature and properties of the various materials used, some of which are supplied in a partial state of manufacture, and others in a finished state—iron, steel, brass, cloth, silk, leather, canvas, linen, &c.

A general knowledge of designing, as applied to carriages; the general considerations that fix the height of the body from the ground; also from the floor to the seat, and from the seat to the roof. A knowledge of freehand drawing and geometry is also desirable.

The general considerations that should guide him as regards size, weight, height of wheels, length of carriage, length of axles for carriages of all kinds.

A knowledge of the machinery in use, and of the various labour-saving machines and tools; and the parts of carriage-building to which machinery may be applied with advantage.

A general knowledge of the processes of carriage painting and varnishing.

A general knowledge of the mode of planning and converting materials to avoid waste.

The various kinds of carriages made in Australia, as well as those produced in Europe and the United States.

*Part 3.—Practical Knowledge.*

The candidate must forward to the examiners a certificate from his employer, stating the nature of his employment in the manufacture, and showing that he is practically acquainted with at least one part of it. The

The proposed establishment of a Technological Museum has not been referred to, as it would in nowise affect the general character of the proposed scheme, into which it could with little difficulty become efficiently dovetailed.

Should the plan thus broadly sketched out receive the approval of those for whose consideration it is principally intended, the details might become filled in with comparative ease, so as to enable a good and popular working scheme to be elaborated, which may furnish the Government with a safe and practical basis for their promised legislative action.

Perhaps it may fall short of the high expectations formed by some, or fail to harmonise with the views entertained by others, but in its absence of pretension, in its thoroughly practical character, will be found the surest guarantee of its real usefulness and prospects of success.

In the Technical or Working Men's College the Colony possesses the nucleus of a broad and comprehensive system of scientific and artistic instruction of the best description, readily accessible to labouring classes. This advantage is immeasurably increased by the respect and confidence which the institution enjoys on the part of those whose interests it is mainly intended to promote; and in giving such prominence to the Technical College in the foregoing remarks, I have simply acted to the best of my judgment and with an earnest desire to promote, in the most practical manner, the industrial welfare and prosperity of the colonial community.

Sydney, November 24, 1880.

I am, &c.,  
JOHN PLUMMER.

## APPENDIX R.

Technical Education in New South Wales: a Paper prepared at the request of the Trades and Labour Council, by Mr. Edward Dowling, Chairman of the Committee of the Technical or Working Men's College, and read before the First Intercolonial Trades' Union Congress, held in 1879, in the College Hall at the Sydney Mechanics' School of Arts. (Published by authority of the Trades and Labour Council of New South Wales.)

Saturday, 11 October.

THE President occupied the Chair, and after the transaction of some formal business, he informed the Congress that Mr. E. Dowling was prepared to read a paper on "Technical Education." The announcement was received with demonstrations of applause.

### TECHNICAL EDUCATION.

Mr. Dowling, who had a seat on the platform, then came forward, and said:—One of the sights which should impress the young Australian at the Sydney International Exhibition is the collection of educational apparatus and diagrams for imparting technical scientific instruction to the working classes of the nations of Europe and America. For example, the excellent and well-executed mechanical, architectural, and physiological models in the German Court strikingly illustrate the course of teaching pursued by the Polytechnic or Technical Universities of Germany, and show the Colonial artisan what is being done in one European nation to give instruction to young workmen and apprentices in the sciences relating to their daily callings. The beautiful plaster casts and wooden carvings, exhibited by the German Workmen Schools, are the production of poor students in their leisure time, who, by this means, repay to the institution in which they are educated the charges for their instruction in drawing, modelling, and design. It cannot, therefore, but be a source of great congratulation that these mechanical models and casts are not to leave this Colony, as they have now been purchased for the Technical or Working Men's College in connection with the Sydney Mechanics' School of Arts. A great benefit from the International Exhibition will be, I take it, to show what is being done in other countries to diffuse a knowledge of the sciences relating to the arts and manufactures amongst the masses of the people, and it is to be hoped that our legislators will be thereby incited to encourage further the spread of scientific information in this Colony, by the formation, in connection with its Mechanics' Institutes, of local Technical or Working Men's Colleges, having popular lecturers, science classes, and industrial museums attached to them. The following recommendations of the Royal Commission on Scientific Education in Great Britain, under the presidency of the Duke of Devonshire, are also well worthy of adoption in this Colony:—

That courses of lectures be given in connection with the collection of physical and mechanical instruments, the establishment of which we have proposed, the object of these lectures being to illustrate the progress of scientific and mechanical discovery and invention.

That the establishment of lectures on science, accessible to all classes on payment of a small fee, should be promoted by the Government in the great centres of population.

That, in the first instance, with the view of carrying out the preceding recommendations, the system of instruction of this kind which has already been established by the Government in the metropolis should be developed by the institution of courses of lectures on the principal branches of experimental and natural science.

The concluding paragraphs of the final report state that throughout the Commissioners have been guided by two convictions,—

The first, that the diffusion among the people of a general knowledge of science is in itself an object of great importance, and that in particular an acquaintance with the manner in which abstract science is brought to bear upon the industrial occupations is of the greatest moment to the working classes of this country, not merely as tending to increase the skill of the artisan in his handicraft, but as the best means of awakening his intelligence by forcing him to reflect upon the general laws which are exemplified by the processes with which he is familiar in his daily life.

The second, that no real advancement of knowledge, and none of the higher benefits of science as educational discipline, are to be hoped for from merely general and occasional scientific instruction, whether it be derived from books or from lectures, but that such advancement and benefits will result only from systematic and sustained study.

The late speech of the Honorable Saul Samuel, Postmaster General, at the opening of the Wallsend Mechanics' School of Arts shows that the present Government are now fully alive to the necessity for a greater extension of systematic scientific instruction in connection with the educational institutions of the Colony, and as whatever differences there may be about the education question, there can be none as to the necessity for such technical knowledge, it is to be hoped that the necessary provision will shortly be made for its initiation in the various centres of population in the Colony. Mechanics' Institutes are now established in nearly every important town of New South Wales, and the great majority of them possess substantial buildings and good libraries. From a recently published Parliamentary return it appears that in the year 1874 the sixty-eight Schools of Arts of the Colony had 6,887 members, of whom 1,981 were artisans and apprentices. The value of the property held by these institutions is estimated at nearly £100,000. Very few lectures have been delivered in connection with Mechanics' Institutes, owing to the great difficulty of obtaining suitable lecturers. Evening classes were only in operation at twelve Schools of Arts in 1874. It is now believed that Mechanics' Institutes should be enabled to better accomplish their original mission by the initiation of a general scheme of Government technical scientific instruction in connection with them, similar to that in operation in the technological institutions of Europe and America. The total amount of the annual Government subsidy given to Schools of Arts in New South Wales in 1874 only amounted to £3,102, which sum was divided amongst sixty-eight institutions, at the rate of £1 for every £2 paid as subscriptions by their members. The yearly receipts of nearly all these institutions have been found barely sufficient for the purposes of their libraries and reading rooms, leaving no funds available for the payment of teachers or lecturers. Some years ago Schools of Arts were subsidised £1 for every £1 collected, now only £1 for every £2 received as subscriptions from members is given by the Government. Although the average number of members of the Sydney School of Arts has exceeded 2,000 for many years past, only £200 annually has been received from the Government. £2,000 has, however, been granted by Parliament towards the inauguration of a Technical or Working Men's College, and £1,000 for payment of lecturers, teachers, &c. £8,000 has been recently expended on the new building to this institution. On the passing of the Mining Act of 1874 it was considered desirable to endeavour to secure for Schools of Arts the services of the lecturers referred to in its 8th clause, and deputations from the committee of the Metropolitan School of Arts have on several occasions waited upon several Governments in the matter. As no School of Mines has yet been formed, it is to be hoped that the Mechanics' Institutes of the Colony may be allowed the instruction in geological, mineralogical, and chemical science provided for in the Mining Act; and the present Minister for Mines (the Hon. E. A. Baker) has kindly promised that the subject will receive his early and favourable attention. It is hoped, therefore, that in any scheme for diffusing a knowledge of technical science throughout New South Wales, that the claims of the various Mechanics' Schools of Arts of the Colony will receive adequate consideration at the hands of the Government, and that these institutions may be enabled by the services of itinerant scientific lecturers to accomplish an important work in the cause of secondary education. The classes of the Sydney Mechanics' School of Arts have for a great many years imparted instruction to a large number of students, and its committee are now extending its operations by forming in connection with it a Working Men's College for training in technical science the artisans and apprentices of the city. Being centrally situated, and having already an excellent circulating and reference library, elementary classes and scientific apparatus, it is believed that, with the increased accommodation, completed at the cost of many thousands of pounds, this institution will be found to

be the most suitable in the city for imparting popular scientific instruction. In order that the manufacturers of the colony may be enabled to compete with the productions of other lands, and that its natural resources may be properly developed, it is imperatively necessary that instruction should be provided in the practical science relating to the several industries capable of being carried on in our midst. The Trade Guilds or Livery Companies of London have recently voted £12,000 yearly out of their funds for the promotion of technical scientific instruction, in order that artisans in the great metropolis may have similar educational advantages to those enjoyed by workmen in Germany, France, Belgium, and Switzerland. If science teaching is so necessary in old countries with well established manufactories and skilled artisans, how much more is it required in a new colony like New South Wales, in order that it may be enabled to hold a place in the markets of the world. Our present Premier (Sir Henry Parkes) has inaugurated a noble system for the educational training of the children of the Colony, but it yet remains for him to initiate a proper scheme of technical education for the people. A great mistake is made in conceiving that the education of the boy is completed when he leaves the primary school, and the consequence is that "larrikinism" is rampant in the Colony. If our fast-growing youthful population can be induced to spend their spare time in our literary institutions instead of grouping in mobs about street corners, and indulging in questionable amusements, a great moral reform will be accomplished. Young men will meet together, if not for good for evil, and it would be well if our rulers endeavoured to entice youths from bad habits by the beauties of science and literature before passing a Bill for whipping the "larrikins." If employers could also be induced to take a greater interest in the education and welfare of their apprentices, much good would be done to the young men of Australia. The beautiful works of art and design in the Sydney International Exhibition show that if Australia is to take a place amongst the manufacturing nations of the world it is requisite that its artisans should have a proper training in the sciences relating to their various trades in the educational institutions of the several Colonies. It is not my intention in this short paper to refer at any length to the educational systems of Europe and America, as the able addresses of Professor Reuleaux, Dr. Cox, and Mr. E. Combes, C.M.G., at the Technological Conference in this hall last evening, to which you were invited by the Committee of the Working Men's College, afforded you an excellent opportunity of acquainting yourselves with the working of the many magnificent technical institutions in those countries. The valuable publications on Technological Education which were ordered from England several years ago by the Committee of the Sydney School of Arts are now also before you, and I am sure you will find in them much food for reflection in comparing the educational progress of the several countries of the world. The following short extract, however, from one of the publications shows the utility of Technical Education, and the value of International Exhibitions in stimulating manufacturers and workmen to secure greater excellence in their work. Mr. Swire Smith, the Hon. Secretary to the Trade School Council and Mechanics' Institute at Keighley, in England, says:—"After the Exhibition of 1851, foreigners, and especially Germans, went to their homes with a conviction that it was useless to attempt to compete with us in mineral productions, and that they must begin by training the faculties of their men. In addition to the good primary education which they had already received, they began systematically to carry out on a vast national scale what had already been attempted in a limited degree, a scheme of Technical Education, spreading everywhere through the land the class of schools and colleges that was most needed to help the industries of the localities. And with what results? The Exhibition of 1862 revealed a state of things which was not expected. Our neighbours one after another had advanced with wonderful rapidity; we were actually beginning to be rivalled in the manufacture of machinery and other articles which we had long considered as specialties of our own. There were not wanting those who gave forth the note of warning; but manufacturers who saw these things for themselves pointed to the demand which still kept up for their goods, and laughed at the so-called alarmists. Orders still came in abundantly, they were realizing large profits, and with great capital at their command, and a well-earned connection to fall back upon, many of them continued in the old way, and might be compared with the razor-seller who didn't care whether or not his razors would shave so long as they sold. It was the International Exhibition of Paris in 1867 that brought the people of England face to face with the fact that as a manufacturing nation we were overtaken in almost every branch of industry by one or more of the Continental States: and that even our name and fame, which had blinded our customers in reference to the proficiency of others, were ceasing to prop up our tottering supremacy any longer. We all know that we have to depend for almost everything upon our trade, and so serious was the matter considered that eminent jurors were appointed by our Government to make a thorough investigation at the Paris Exhibition and elsewhere of the products and manufactures of different nations, so as to trace its rapid improvements to its source. The Society of Arts sent out workmen representing various trades with the same object. Some gentlemen sifted out the matter at the fountain head, visiting Continental factories and workshops. Mr. Bernard Samuelson, M.P., began an inquiry at home, and direct from the factories and workshops of England he proceeded to Paris, examined the productions of the nations there exhibited, after which he visited the principal workshops and establishments in France, Germany, and Switzerland, where many of the best works which he had seen at the Exhibition were produced. The report of the jurors and of the workmen appointed by the Society of Arts was published, and will be familiar to many of you, while Mr. Samuelson's letter to the Council of Education was printed by order of the House of Commons. It is not necessary for me to quote from the voluminous documents—although I would advise all who have not read them to do so—which are startlingly unanimous upon one point, that the great progress made by those States whose competition is most to be feared was due in a great measure to the fact that the workmen received a sound elementary education, supplemented by a training in the arts and sciences bearing upon their trades. There was unanimity also in the warning that unless we in England adopted a system which should give similar results, we should most certainly lose our commercial superiority. The question was taken up by Parliament, and a committee was appointed in 1868 to inquire into the state of scientific instruction in Great Britain and our manufacturing position as compared with that of other countries. A ponderous blue book containing most valuable evidence confirmed in the main the views of the jurors." Mr. J. Scott Russell (the celebrated engineer), in his work on "Systematic Technical Education," says, respecting the deputation appointed to visit France and report upon the Paris Exhibition:—

It is impossible to go through the evidence of the eighty-six representatives of the skilled workmen of England without sharing their profound conviction: 1st. Of the pressing evil of the nation in regard to manufacturing pre-eminence. 2nd. Of the culpability of the educated classes and of the executive Government in having neglected the education of the people. 3rd. That it is satisfactorily proved by these reports that the reluctance of the working classes to receive superior technical education, to bear taxation for that purpose, and to accept the active agency of Government institutions and officials (which reluctance has been put forward as an excuse for this neglect), have no existence in fact; that it is therefore the negligence, apathy, and reluctance of the governing classes and the Government which have hitherto alone prevented the organization of systematic technical education. 4th. It appears that until the mission to France of the English artisans in 1867, they, the working men of England, were not aware that the Governments of other countries had organized complete education in all trade crafts, from the lowest mechanical labour to the highest professional skill. 5th. Throughout the whole of these reports there runs a feeling of profound admiration for the system of education given in France; but they were evidently not aware that the educated men and statesmen of France had themselves become conscious that their system was far below the level of excellence of the educated German nations; that a Royal Commission, under the presidency of M. Behic, formerly Minister of Commerce, had recently been occupied with that subject, and had arrived at the conclusion that the technical education of France, which our artisans admired in Paris, was, as a national system of technical education, extremely defective; and the investigations of this Commission proved that if England is the worst educated of the first-class powers of Europe, France is the second worst. 6th. There runs parallel with these convictions a consciousness that the English workman is by nature the best of workmen, and that with systematic education their work would excel those of competing nations.

Although the long-bow, wooden ships, and stage coaches answered the purposes of our English ancestors, it is quite evident that for the purpose of defence or locomotion nothing could satisfy the modern Briton but needle-guns, iron-clads, and railways. As in matters material, so in matters educational, what might suit a nation a quarter of a century ago would not be acceptable to it at the present day. The recent great success attending the founding of the Owens College in Manchester, and the Yorkshire College of Science, shows what can be accomplished in England by educational institutions suitable to the requirements of its people. In Scotland the Watts Institute in Edinburgh and the Andersonian Institute in Glasgow are examples of success attending institutions in which technical science is taught. It was given in evidence before a Royal Commission that Glasgow owes much of its success as a manufacturing city to the character and scientific teaching of its educational institutions. Comparing the number of artisan students in Glasgow to its population, Sydney ought to have in the same proportion 1,500 students attending the technical classes in the Working Men's College. This institution has, however, only recently been inaugurated, and it is satisfactory to find that several of the technical classes recently formed during the last few months have proved very successful, and that already over 550 students have enrolled themselves in the classes during the past three quarters of the present year. A class just formed for the study of freehand drawing, modelling, and design, on the course pursued under the Science and Art Department at South Kensington, is already attended by forty-five students of the working classes, several of the students being elderly men, who find that if they intend to compete with foreign workmen they must receive the necessary art instruction. The other three drawing classes, namely, mechanical drawing, architectural drawing, and ladies' class, are also well attended. In the excellent minute of the Council of Education of New South Wales, in answer to the deputations from the Trades and Labour Council, the Engineering Association, and the Builders' and

and Contractors' Association, who waited upon the Minister for Justice and Public Instruction in the matter of Technical Education, it was recommended that the several institutions and other bodies interested in the matter should be consulted as to the nature of their requirements and the best method of imparting the needed scientific instruction. As representative of that section of the community most deeply interested in a good system of Technical Education, it is, therefore, very desirable that the opinion of the present Trade Congress should be taken as to the best course to be pursued to reach the masses in any scheme of technological instruction. Mr. E. Combes, C.M.G., and Professor Liversidge were requested by the Government, when recently in Europe, to visit the Technical Institutions of that Continent; and the reports from those gentlemen, as the results of investigation of two educated and intelligent observers, will, I am sure, be found to be very valuable documents. In Victoria technological education was undertaken by the Government ten years ago; and in a recent conversation which I had with Mr. Burt, one of the Victorian Technological Commission, he assured me that the course of instruction pursued in that Colony has been attended with most satisfactory results. If a similar Commission were appointed in this Colony—on which representatives of the industrial classes should be placed—I have no doubt that its inquiries into the educational institutions of this Colony and its subsequent recommendations would also be productive of much good. The want of unity of purpose in the educational institutions of the Colony was pointed out in the minute of the Council of Education on Technical Education; and in the new Bill for furnishing the Sydney University with an increased endowment to teach the professional sciences provision is also made for affiliating any technical college which may be formed for imparting scientific instruction. It is very satisfactory to find that the Sydney University, which was formed on the old conservative models of Oxford and Cambridge, has been, like its English prototypes, compelled to frame its curriculum to meet the spirit of the times. A University ought to be a place of universal learning, and on its programme the professional as well as the liberal sciences should have a place. Sir William Hamilton, in his excellent lectures on metaphysics and logic, has denounced the utilitarian spirit of the present age, but it is evident that if our highest educational institution is to be a success, what he terms the "bread-and-butter" sciences must no longer be ignored. It is the fact that professional sciences have been taught at the Scottish Universities, which has made those institutions so popular with the comparatively large number of students attending them, who wisely wished, whilst training their minds, also to obtain useful knowledge in practical sciences for use in after life. One of the greatest drawbacks to the Sydney University is the situation of its buildings outside the bounds of the city, and the non-delivery of evening lectures in connection with it. The formation of the School of Mines at the University would therefore be of little service to the working classes, as in the "battle for bread" they cannot attend its classes during the day. One of the conditions on which the London School of Mines was allowed to be formed by the British Government was that the professors would be required to deliver popular lectures to the working classes in the evening on geology, mineralogy, chemistry, and mining. It is to be hoped, therefore, that a similar regulation will be put in force in this Colony, so that the artisans of the country towns may have the advantage of any instruction in science provided by the Government. The scholarly spirit evinced by several of the professors and students of the Sydney University in lecturing and teaching at our metropolitan Mechanics' Institute in years gone by has endeared them to many members of the artisan class who have received instruction at their hands; but as a great difficulty has been experienced of late years in obtaining lecturers and teachers it is requisite that provision should now be made for securing science teaching in connection with the Schools of Arts of the Colony. That is now being done, and necessary apparatus is being provided for the Sydney Technological College; therefore it is to be hoped that the Schools of Arts throughout the country will assist in the good work. As a scholar of a quarter of a century ago in this city, in both denominational and national schools, I am now greatly pleased with the improved system of teaching carried out in our public schools at the present day. To be capable of receiving instruction in technical science necessitates that the student shall previously have received a good elementary education, and this, it must now be admitted, is imparted in our primary schools. The Public Schools Act has, however, now been in operation for thirteen years, and the question naturally arises, what has become of the large number of youths who have left the primary schools, and how do they spend their leisure time? Unfortunately a very common belief exists, both with the parents and scholars, that a boy's education is finished when he leaves the primary school, and that no further instruction is needed. The consequence of this mistake is that comparatively few continue their education in our literary institutions, and their spare time is devoted to amusements, so that we are tempted to exclaim, with one of old,—

"The misfortune hath befallen us, the heart of the people is sunken in the mire and is no longer capable of noble desires."

As with Ovid's similitude,—

"The first part of the peasant's life looks towards Heaven, the remainder, like the cattle he tends, towards the earth."

The great truth that,—

"On earth there is nothing great but man, and that in man there is nothing great but mind,"

should be more strongly enforced on the young by our educators, and then there would not be so much "larrikinism" in these colonies. One other mistake made by numbers of our fast-growing youthful population is in preferring what Gladstone terms "the paradise of pen and ink" to learning a useful trade. A recent able American writer has conclusively shown by exhaustive statistics that the great proportion of those found in the goals and charitable institutions of the United States had not been brought up to any industrial occupation, and, therefore, eloquently pleads for a national system of trade instruction for the countries of the world. The dignity of labour appears to be overlooked by numbers of our youths and maidens, and the mechanical arts and domestic service foolishly despised. "An educated man is a gentleman, no matter what his occupation," was a saying of the lamented Professor Woolley; and the absurd idea that there is any degradation in manual labour is being rapidly exploded in Europe and America. It is to be hoped therefore that this feeling will not find a permanent home in these democratic colonies, and that it will be discouraged both by parents and teachers. In Boston, a boy before entering on his apprenticeship may, at the Trade School (which is fitted with the best machinery used in the several mechanical arts), after a short practical experience, choose the occupation most congenial to his taste. An institution of this kind, no doubt, prevents a boy being put to learn a business for which he has no natural aptitude, and also accustoms him to the use of tools and the best machinery, which cannot but be useful in after life. It would hereafter also tend to promote domestic comfort in thousands of homes in this Colony if the mothers of the future were trained to a knowledge of domestic economy and cookery by means of some technical institution. Numbers of young females are now growing up who when called upon to preside over a household will find themselves totally unprepared for the arduous work required of them, and the consequence must be many unhappy homes. Along with the many reforms now being made in England in order that the female sex should have equal educational advantages with men, there are classes in which working girls can learn cookery, needlework, and the shaping and cutting out of clothing, and other qualifications for a good housewife, as they have otherwise but little opportunity to learn domestic duties, and thousands of women are now engaged in occupations heretofore performed by men. In this city the same necessity exists for similar instruction for the large number of females employed in our workshops and warehouses. If "the greatest good to the greatest number" be the chosen motto of a democratic community, it is very desirable that the students attending working men's colleges should have, as well as University scholars, some impetus given them to pursue the study of nature, science, and art. Nearly £50,000 has been given for scholarships in the Sydney University, but no such inducements to study are obtainable for the Working Men's Technological College. The resolutions carried by Mr. Windeyer during the last Parliamentary session for founding scholarships to enable a few of the most deserving lads in our primary schools to have further instruction in the Grammar School, and perhaps afterwards the benefit of a University training, will doubtless prove a great incentive to many youths who are desirous of carrying off the few coveted prizes. In our Working Men's College the young artisan, however wearied with the employment of the day, has far greater difficulties in the pursuit of knowledge than the University student, and, unlike him, with no scholarships or rewards to incite him on with his studies. It is no wonder therefore that the young mechanic often gets disheartened and soon discontinues his evening studies, and as far higher rewards appear to be offered in the prizes to athletic sports, he chooses what is most congenial to his tastes, and neglects the noblest part of his nature. There are, however, hundreds of young men and young women in the Sydney School of Arts who devote their spare time to study, remembering that "there is beauty for the body, there is beauty for the reason, and there is beauty for the spirit," and that for a symmetrical character, physical, mental, and moral excellence should be obtained. The noble band of Scotch emigrant mechanics who, forty-five years ago, determined to continue the studies commenced on board the ship in which they were brought to the Colony, and thereby founded the Sydney Mechanics' School of Arts, in whose buildings we are at present, showed an excellent example to us native-born Australians, as we are now enjoying in this magnificent institution the benefit of their earnest labours. Several of our present legislators, and many of our professional men, received in years gone by a great deal of their education in the institution in which we now meet; and it is to be hoped that the Technical or Working Men's College, which has been recently inaugurated, and is already attended by several

hundreds of artisans and apprentices, may prove a great power for good in this city, and materially help forward the manufacturing and commercial greatness of the Colony. The suburban and country Mechanics' Institutes have, no doubt, proved very useful as circulating libraries and reading rooms, but it is very desirable that before long a system of technical instruction may be carried on in connection with them, so that they may rightly fulfil their mission as Mechanics' Schools of Arts. If employers required their apprentices, as in some countries in Europe, to attend technical scientific instruction on some evenings in the week, plenty of material for the formation of educational classes would be found in the present residents of our suburbs and country towns. In any scheme of technical instruction I take it that it would be very unwise to call into existence new institutions, but that those already established should be reformed and utilised. The Mechanics' Schools of Arts throughout the colonies should be required to perform more satisfactory educational work by the initiation of Technical or Working Men's Colleges in connection with them. The technological college recently started, on a motion moved by myself in 1873, at the Sydney Mechanics' School of Arts, has proved very successful, and notwithstanding the large block of buildings just erected, the greatest difficulty found by the Committee is in providing sufficient accommodation for the science and art classes. The classes now in operation are for the study of chemistry, history, geography, architectural drawing, mechanical drawing, freehand drawing, modelling and designing on the South Kensington principle, freehand drawing for ladies, elocution, English literature, French, Latin, elementary mathematics, elementary mechanics, photography, reading, grammar, shorthand, surveying, writing, and arithmetic. In a recent publication on the schools and colleges of the United Kingdom it has been well pointed out that there have been great changes in many of the educational institutions of England during the last quarter of a century. New studies have been commenced, new methods of instruction have been adopted, new facilities for students have been afforded, and new rewards for training have been given. The English Universities were closed, on denominational grounds, against the great bulk of the English people. Their curriculum excluded studies demanded by a scientific and progressive age, and the growing requirements of a great commercial people. All these obstructions have been broken down through the action taken by the masses of the people, and now the highest rewards are open to all, irrespective of social rank or denominational profession. The Army, Navy, and Civil Service of England have also been thrown open to competitive examination, and the obnoxious systems of purchase and patronage in Army officers' commissions abolished. In this Colony it yet remains for some statesman to adopt the suggestion given to a living Imperial legislator:—

Mr. Foster would deserve the gratitude of this country as a statesman even for the framing and passing of the Endowed Schools Act in England were it the only measure of successful parliamentary legislation that he could lay claim to, for in that measure he established a principle of profound wisdom by making secondary education national in the sense of opening up a way by which the *poorest might receive a training of the highest order*.

If the following resolution which was adopted by the sixteen artisans who were sent to the Vienna Exhibition is applicable to England, with all its grand educational institutions and developed manufacturing industries, how much more is it suitable to the requirements of new colonies; and it is therefore very desirable that this Congress may arrive at a similar conclusion, and place the result of its deliberations on record:—

We desire to express our united conviction that some great effort should be made to afford artisans in this country similar facilities for obtaining art and technical knowledge as are placed within the reach of the workmen of nearly every Continental country. We are aware that we are but echoing a cry that has been heard for years, but the result of our visit is the belief that unless some more thorough and practical steps are taken than have been hitherto, the effect of the lack of such facilities for the education of workmen in the essentials of their trade will prove of serious effect on the manufacturing industries of the country. Our opinion is, that some scheme should be devised that shall afford instruction to all classes of workmen, both in the great manufacturing centres as in more remote and less populous districts.

Throughout the reading Mr. Dowling was frequently applauded, and at the close a hearty vote of thanks was accorded to him.

Mr. Dooley moved, "That, in the opinion of this Congress, a thorough system of technical education is necessary for the whole of these Colonies, to enable them to keep their place in the race of nations." He said they would never have a proper system of education in this Colony until primary education was made free. Then, and then only, would technical education receive that amount of support which it deserved from the working classes. Education should be free in primary schools, grammar schools, and universities, and any strong marks of talent in youths should be developed at the expense of the State, as it would be of advantage to the country generally. Pressure should be brought to bear on the Government to make education free and compulsory.

Mr. Harvey, who seconded the motion, said that primary education might well be left for the people generally to deal with. No doubt it was a necessary introduction to technical education. This technical education was of great importance to artisans. It consisted of a training in the different arts and sciences which applied to their several callings. The great advancement in machinery and mechanical sciences in the last half century had changed the whole aspect of labour, making it necessary that nations who wished to win in the race of industrial supremacy should see that its artisans were instructed and skilled in the arts and sciences relating to their manufactures.

Mr. Stephenson said those countries which had made progress in technical education had become greater in consequence of it. It must be plain to all who looked around that America and Germany, within the last few years, had outstripped England in this particular of training in mechanical skill. Not only in technical, but in primary, schools should physiology be taught.

Mr. Cleary said Professor Reuleaux's address on Friday evening showed how much interest had been taken in this subject on behalf of the working classes of Europe. Dr. Cox also told them the same evening how it affected not only individual workmen, but also nations. It was shown how, for want of technical education, that people had to go to other countries for goods they could, with knowledge, manufacture for themselves.

The President understood the term "technical education" to presume that primarily the party to be educated had been instructed. His idea of technical instruction was this: Primary schools threw aside their functions when the pupil came to working age, so that the youth up to that time was instructed only in the general principles common to all. What was wanted was to say to the State that working men now required a higher class of schools, which left the curriculum of primary schools out of the question. They wanted these schools open at night to apprentice boys. This system he believed the School of Arts sought to develop. As to the advantages of technical education few could be ignorant, but few men could ever say that their technical education was altogether finished. The intention of the resolution was that the Congress believed that the system inaugurated in this institution should be carried throughout the Colony. He supported the resolution.

Mr. Wynn rose to move an amendment, adding words to the effect that primary education should be compulsory and free.

The Chairman ruled that this amendment could not be accepted; it was out of order.

Mr. Dooley replied.

The resolution was agreed to unanimously.

## APPENDIX S.

The Annual Report of the Sydney Mechanics' School of Arts, to the 31st December, 1880. Established March 22nd, 1833.

OFFICERS OF THE INSTITUTION FOR THE YEAR 1881.

*Patron:*

The Right Honorable Lord Augustus Loftus, G.C.B., Governor-in-Chief, &c., &c.

*President:*

Hon. John Sutherland, M.P.

*Vice-Presidents:*

Goodlet, J. H.  
Kethel, Alexander

Macintosh, John  
Selfe, Norman, M.I.C.E.

*Treasurer:*

*Treasurer :*

Thomas, F. J.

*Committee :*

Dalgarno, James	Oram, Edward
Dowling, Edward	Pottie, John
Dowling, Neville	Reid, William
Elphinstone, A. L., Jun.	Renwick, W. C.
Jones, E. A.	Tecce, Richard
Martin, W. F., M.P.	White, Rev. Dr.

*Auditors :*

Andrews, John	Brown, W. F.	O'Connor, Patrick.
---------------	--------------	--------------------

*Secretary and Librarian :*

Rogers, John.

*Assistant Secretary and Librarian :*

Podmore, H. A.

*Junior Assistants :*

Rogers, W. J.	Passmore, Frank.
---------------	------------------

**THE ANNUAL MEETING.**

The following Resolutions were unanimously passed at the Annual General Meeting of the Members of the Sydney Mechanics' School of Arts, held on Tuesday, 1st of February, 1881.

Hon. John Sutherland, M.P., President, in the Chair.

Resolved—"That the report as printed be considered as read."

Moved by Mr. E. Dowling, seconded by Mr. William Reid, "That the report now read be adopted, and, together with the Treasurer's account, be printed, under the direction of the General Committee, for circulation among the members."

Moved by Mr. J. Woods, seconded by Mr. Martin, "That the thanks of the members of the Sydney Mechanics' School of Arts be and are hereby given to those gentlemen who have afforded the valuable aid of their talents in the teaching and examination of classes, and the giving of lectures, and to those who have made donations to the library, as also to the proprietors of newspapers who have supplied copies to the reading room gratuitously."

Moved by Mr. N. Dowling, seconded by Mr. Maroney, "That the thanks of this meeting be awarded to the President, Vice-Presidents, Treasurer, Auditors, and members of Committee, for their services during the past year."

Moved by Mr. E. Dowling, seconded by Mr. Donovan, "That the thanks of this meeting be accorded to the Scrutineers."

Moved by Mr. W. Reid, seconded by Mr. Martin, "That the thanks of this meeting be given to the Secretary and other officers of the Institution for their efficient services during the past year."

A vote of thanks to the Chairman was carried by acclamation.

**Report of the Committee of the Sydney Mechanics' School of Arts, for the year 1880.**

In reviewing the proceedings of the past year the Committee have to congratulate the members upon the continued prosperity of the Sydney Mechanics' School of Arts. The year has been specially interesting and encouraging on account of the remarkable development of the educational features of the Institution. This is more fully manifested in the section of this report devoted to the operations of the Technical or Working Men's College; and it is gratifying to observe that the subject of technical education, which only so recently as the year 1873 was viewed as one of an almost utopian character, is now engaging the attention of influential persons in all directions. Industrial training formed one of the topics in the programme of many of the candidates at the general election of Members for the new Parliament, and this fact augurs well for the future of technical education in this Colony. The success that has attended the pioneer efforts at the Sydney Mechanics' School of Arts points in a practical way to the necessity that exists for special legislation to meet a growing educational want.

A very interesting public conference on the subject of technical education was held in the college hall on the evenings of the 28th and 29th October last. The Premier of the Colony (Sir Henry Parkes, K.C.M.G.) presided at one of these meetings and delivered an important address. It transpired on the occasion that he is personally favourable to the object of the conference, and that it is the intention of the present Government to give its attention to this subject with a view to speedy legislation in this direction.

The following resolutions were submitted by a large deputation of representatives from the trade societies and Schools of Arts of the Colony, to the Honorable Sir John Robertson, K.C.M.G., M.L.C., Minister of Public Instruction, and he promised to give them his favourable and early consideration, viz. :—

"That in order to properly develop the resources of New South Wales, it is considered desirable that technical education should receive greater support in the Colony, and that the instruction imparted in the Technical or Working Men's College, at the Sydney Mechanics' School of Arts, be extended to the suburbs of the city, and to the principal country towns, so far as their requirements may demand."

"That it is therefore respectfully suggested that the Government should institute a proper system of technical education in science and art throughout the Colony, under the direction of competent lecturers and teachers, and that the instruction afforded be principally of a practical character."

"That, consequent upon the last preceding resolution being carried into effect, there should also be evening classes instituted in every populous locality, for affording elementary instruction to young men and youths whose education has been neglected, so that they may be enabled to avail themselves of any course of technical instruction provided by the Government."

**MEMBERS.**

It will be seen from the following comparative statement that there was a large increase in the number of members during the year 1880, viz. :—

	1st quarter.	2nd quarter.	3rd quarter.	4th quarter.
1879 ... ..	1,559	1,595	1,779	1,648
1880 ... ..	1,847	2,018	2,167	2,029

814 of the above members were females.

During the year the register shows 314 female members, against 130 for 1879, it thereby being apparent that the ladies are beginning to largely appreciate the advantages of the Institution.

The extraordinary accession of new members was to some extent owing to the interest created by the proceedings connected with the proposal to open the reading room on Sunday afternoons. The question was first considered at a special meeting of the members held on the 2nd March, when it was by a majority determined to carry the proposal out. No count of the division was taken on that occasion, and this circumstance led to another special meeting being called for the 19th March. In the meantime some members of the committee considered it desirable to ascertain the views of the members by circular letter. This course was adopted, with the following result :—

For the opening .....	615
Against the opening .....	691

At this stage of the proceedings a large number of new members joined the institution, and, at the meeting held on the 19th March, the previous decision was reversed by a majority of forty-one—278 members voting against the opening of the reading room, and 237 for it. The matter was then allowed to rest until the 10th of August, when it was again considered at a special meeting, and again resolved in the negative by a majority of 138—377 members voting against the proposal, and 239 for it. Your Committee do not feel called upon to make any comment upon this history of the Sunday question.

COMMITTEE.

## COMMITTEE.

In consequence of the resignation of Mr. John Thomas Hobbs, one of the members of the Committee, the vacancy was filled up in accordance with the Incorporation Act by the election of Mr. William Tunks, on the 6th May. Subsequently Mr. Tunks retired from the position, and Dr. J. S. Paterson, who had for many years held the office of Vice-President, also retired at the same time. The Committee, on the 4th November, unanimously elected Mr. Norman Selfe in the place of Dr. Paterson, and filled up the two remaining vacancies on the Committee by appointing the Rev. Dr. White and Mr. John Moring, being those next on the scrutineers' report.

Your Committee have lately had occasion to consider the special literary and other services rendered to the Sydney Mechanics' School of Arts and to this Colony by the late Nicholas Drysdale Stonhouse, during the period from the year 1854 to 1869, when he was a member of the Committee, and subsequently, from 1867 to 1873, when he occupied the important position of President, and, as some slight recognition of his valuable labours, it is recommended that his widow be elected an honorary member of the institution.

## LIBRARY.

According to the last stock-taking the number of works in the library was 10,409 (representing 19,799 volumes). During the year it was used by 2,729 members, to whom 66,264 works (90,678 volumes) were issued. Since the publication of the new catalogue at the beginning of the year two additions thereto have been issued, and arrangements have been made for the printing of supplementary catalogues at intervals of about three months.

The system of affording members access to the shelves of the library for the purpose of selecting books has met with general approval, and is doubtless a great improvement upon the former arrangement. It has, however, been found that many members take works away from the library and neglect to have them entered in the Issue Book, while it is feared that many works have been stolen. These facts have only just been fully realised through the Secretary's report on the stock-taking just completed, and it will become the duty of the new Committee to devise such measures as will be calculated to prevent this loss of books. When the new system was introduced it was anticipated that the loss of books would be greater, but it was considered that the advantages to members under the new plan would compensate for this increased loss. If, however, the loss is hereafter found unreasonably great, and many persons do not value the advantages afforded, or use them for improper purposes, it will become a matter for consideration whether the privileges now enjoyed should not in some measure be restricted.

A quantity of old magazines, &c., were, in accordance with the usual custom, distributed during the year amongst some of the charitable institutions of the Colony.

## READING ROOMS.

The reading rooms have been largely used throughout the year, and at times they have even been overcrowded, owing to the increased number of members.

It has been found necessary to provide in the larger reading room a glass case for the purpose of properly preserving those expensive books of reference which belong to the collection.

The Committee have taken steps to ensure a speedier delivery by the publishers of some of the magazines and newspapers than was found to be the case at the early part of the year.

## FINANCE.

*Income.*—It is satisfactory to observe that since the year 1878 there has been a progressive increase in the annual amounts of subscriptions to the library and reading room. The subscriptions for the year 1878 showed a decrease of £22 19s. 6d. as compared with the amount received for 1877, but the years 1879 and 1880 show an increase of £56 6s. and £447 2s. 6d. respectively over the subscriptions for 1877; the increase in subscriptions for the year 1880 over the year 1879 being £390 16s. 6d.

The subscriptions for the four years were as follows, viz. :—

1877.	1878.	1879.	1880.
£1,298 19 0	£1,275 19 6	£1,355 5 0	£1,747 1 6

The following is a comparison of the income received for hire of hall, viz. :—

	1877.	1878.	1879.	1880.
Lodger balances .....	£939 17 8	£923 16 8	£1,511 12 8	£961 5 1
Charges for gas .....	79 12 0	25 11 0	73 0 0	.....
Gross income .....	£1,019 9 8	£949 7 8	£1,584 12 8	£961 5 1

showing a decrease of £623 7s. 7d. for 1880 as compared with 1879. It must, however, be remembered that in 1879 there was an exceptional demand, and a higher rate was charged during the International Exhibition for the hall. The income for hire of hall for 1880 is slightly more than for 1878, and slightly less than for 1877.

*Government Aid.*—The usual amount (£200) was received from the Government for the year 1880. In proportion to subscriptions this amount would represent about 2s. 4d. in the pound, a subsidy far below the proportionate allowance to the country Schools of Arts, and much less than the annual interest payable on the mortgage debt. Believing that this institution deserves a larger annual grant for public services rendered, your Committee have applied to the Government to place a larger endowment on the Estimates for the year 1881.

*Expenditure compared with Income.*—The ordinary expenditure (£3,099 0s. 6d.) for the year exceeded the ordinary income (£2,947 11s. 5d.) by £151 9s. 1d.

The chief items showing an increase in expenditure are the following, viz. :—

	1879.	1880.	Increase.
Library and reading room .....	£907 7 3	£1,067 2 4	£159 15 1
Rates and taxes .....	66 8 9	108 9 7	42 0 10

There is an apparent increase of £51 0s. 11d. in the lighting account, but this is owing to the fact that lighting account was credited, and hire of hall account was debited, with £73 in 1879; whilst the whole amount paid appears to the debit of lighting account for 1880. Exclusive of the Technical College lighting account, the total amount paid to the Gas Company on account of the School of Arts was £280 13s. 1d. for 1879, against £258 14s. for 1880.

It is evident that either the expenditure must be reduced or the income must be increased to enable your Committee to have a sufficient surplus of income over expenditure to reduce the mortgage-debt by annual instalments. Already steps have been taken to economise as much as possible in the price paid for books which are not required immediately after publication. It is difficult, however, to restrict very much the purchase of suitable scientific and popular modern works as soon as possible after publication, because it is necessary to meet the requirements of subscribers in order to retain them and endeavour to increase their number.

*Catalogue Account.*—During the year 1880 £307 10s. 3d. was expended (in addition to £25 16s. 8d. expended in 1879) in producing a new catalogue. The receipts for advertisements and sale of catalogues (in 1880) amounted to £173 16s. 6d., leaving a balance of £133 13s. 9d., as per balance-sheet. There are about 4,000 catalogues on hand for sale.

*Reduction of Mortgage.*—The amount due on mortgage account has been reduced during the year to £4,500, by the appropriation to that purpose of the balance (£500) standing at fixed deposit on 31st December, 1879.

*Technical College Accounts.*—The balance-sheet shows that there was an available balance of £143 15s. 4d. at the commencement of the year 1880, and that the usual grant of £1,000 for general expenses was received from the Government, together with a special grant of £500 for the purchase of apparatus.

The amount expended for apparatus received into stock during the year equals £401 5s. 1d., per balance-sheet. The following apparatus has been ordered, the cost of which has not been included in the account for 1880, viz. :—

	Estimated cost.
An electric lantern for spectrum analysis .....	£60 0 0
Slides for oxy-hydrogen lantern .....	40 0 0
Polariscope and slides .....	20 0 0
Lathe and tools .....	40 0 0
	£160 0 0

Your

Your committee have also authorized £50 to be expended on fittings required for establishing a modelling class, and other classes, in a branch school room which has been rented, making a total of about £210 against the available balance of £382 6s. 10d. on the 31st December, 1880.

The allowance of £92 9s. 4d. to teachers, in addition to the amount of fees paid by students (£521 0s. 1d.), represents the amount paid out of the college grant to make up the difference between the usual fees and the fees paid by those students who have been encouraged to study at reduced rates.

#### TECHNICAL OR WORKING MEN'S COLLEGE.

It is with feelings of great pleasure that your Committee report that the college during the past year has met the educational wants of a large number of persons in the city and suburbs engaged in various trades and professions.

The programme of instruction contained in the published calendar was adhered to when classes for the study of the subjects could be formed, and new features were added as occasion offered, and lecturers and teachers could be obtained.

Amongst the new subjects in which instruction has been provided, were a course of practical lessons on cookery by Mrs. Macpherson (from the South Kensington Training School), which were much appreciated by a large number of ladies attending them, and the information thus obtained found useful in conducting the culinary department of many a household. Afternoon classes formed for the study of domestic economy, hygienic, and the cutting and fitting of clothes, were not, however, so well appreciated; but it is hoped that these subjects will hereafter receive the attention from every intending Australian housewife they deserve.

Nothing is of more importance in the prevention of disease than a knowledge of the formation of the human body, and it is therefore pleasing to report that a series of lectures on physiology, delivered by Mr. E. P. Field, of the Sydney Grammar School, and illustrated with the excellent anatomical models the property of the college, were also well attended. Arrangements have now been made with Dr. Thomas Dixon for commencing during the present month a course of popular lectures on Medical Science, including physiology, anatomy, and such simple surgery as is required at sea, in the bush, or for the recovery of persons apparently drowned.

One of the classes about to be formed is that for modelling in clay and wax, under the management of Monsieur Henri, which will prove of great service to persons engaged in the several branches of architectural decoration, pottery, &c.

In order to encourage the study of botany, your Committee have granted to the Horticultural Society the use of the College Hall for monthly exhibitions and papers on plant and flower culture, to which members and students of the institution will be admitted free of charge. Arrangements are being made by the College Committee for the formation of a Field Naturalist Club, similar to those found so successful in England and in the neighbouring colony of Victoria.

The trustees of the Sussex-street Mission Chapel having offered the use of that building for weekly popular lectures to the large numbers of the working classes residing in that locality, it is proposed to arrange for the delivery of "Twining's Familiar Lectures on the Elements of Scientific Knowledge most required in Daily Life," the reading and illustration of which have proved very acceptable to similar audiences in London.

The tri-umal lantern purchased at the Sydney International Exhibition has been brought largely into requisition in illustrating many of the popular weekly lectures. The instrument is worked by an operator, who has been engaged to take charge of the apparatus belonging to the college.

In order to present instruction in a pleasing form to the youth of the community, a number of lantern readings were given on Saturday evenings, which proved not only attractive to members and students but also to the general public, who were charged a small fee for admission. The following is a list of the subjects of these popular readings:—"The Tower of London," "Westminster Abbey," " Mines and Mining," "Arctic Regions and Arctic Discovery," "Astronomy," "From London to the Falls of Niagara," "Italy," "Paris before and after the Commune," "Popular Places of Interest in India," "Paris during the Commune," "Tour through Switzerland," and "The Nile."

The entries for the four quarterly sessions of study, and for courses of class lectures in 1880, is as follows, but the number of students and average attendance will be found in the teachers' reports. The names of students on the roll books of the several classes amounted during the year to 771:—

Chemistry ... ..	58	Physiology ... ..	35
Architectural drawing ... ..	78	Domestic economy ... ..	3
Freehand drawing ... ..	149	Mathematics ... ..	19
Telegraphy ... ..	19	Natural philosophy ... ..	2
Elocution ... ..	49	Design ... ..	5
English Grammar ... ..	54	Italian ... ..	6
Latin ... ..	35	Shorthand ... ..	44
Writing and arithmetic ... ..	264	Cookery ... ..	151
French ... ..	99		
Mechanical drawing ... ..	46	Total number of entries in 1880 ... ..	1,198
Ladies' drawing ... ..	36	Total number of entries in 1879 ... ..	478
German ... ..	19		
Geodesy ... ..	21	Increase ... ..	720
Applied mechanics ... ..	6		

*Trades and Professions of Students who have attended the classes for the year 1881:—*4 sailors, 5 soldiers, 4 iron-moulders, 11 labourers, 11 grocers, 7 tailors, 14 bootmakers, 7 butchers, 57 painters and signwriters, 12 plasterers, 3 telegraphic operators, 11 saddlers, 36 stonemasons, 28 drapers, 2 millers, 5 soapmakers, 1 boilermaker, 11 jewellers, 16 blacksmiths, 6 coppersmiths, 2 electro-platers, 3 dentists, 44 engineers, 15 architects' assistants, 63 carpenters and joiners, 25 chemists, 39 teachers, 4 solicitors, 17 surveyors' assistants, 10 compositors, 34 draughtsmen, 5 merchants, 186 clerks, 159 no occupation given, 64 schoolboys, 2 lawyers, 2 japanners, 3 cutters, 2 stationers, 1 lithographer, 3 bricklayers, 2 seedmen, 4 warehousemen, 4 confectioners, 1 engraver, 7 fitters, 3 plumbers, 2 commission agents, 2 dairymen, 8 messengers, 1 locksmith, 1 fruiterer, 1 reporter, 1 auctioneer, 1 dealer, 1 manager, 1 music-seller, 2 carriage-builders, 1 patternmaker, 2 cellarmen, 4 upholsterers, 1 burnisher, 1 mailboy, 2 modellers, 1 carver, 8 photographers, 1 artist, 7 teachers, 9 printers, 10 ironmongers, 4 bakers, 1 sculptor, 1 miner, 1 cooper, and 1 carrier. In addition to these, 151 females attended the cookery class.

In no similar period in the history of the Sydney School of Arts have so many popular lectures been arranged for the benefit of its members as during the past year, and the attendance in several instances reached to over 500 persons—the public being admitted free of charge. The warm thanks of the community are due to those gentlemen who have delivered the following discourses on subjects relating to the arts and sciences during the last twelve months:—

"The Cinchona and their Alkaloids" .....	A. H. Whiffen, Esq.
"The Sewerage of Berlin" .....	Professor Reuleaux.
"Geodesy, its History and Application" .....	F. Beville, Esq.
"Electroplating in the United States" .....	W. H. Graves, Esq.
"Practical view of the Study of Political Economy" .....	Professor Elkington.
"Popular Physiology" .....	E. P. Field, Esq.
"Edison's Electric Pen" .....	H. H. Kinsbury, Esq.
"Hardware in the Garden Palace" .....	J. T. McCrae, Esq.
"Lighting Dwellings by Gas and Kerosene" .....	T. J. Clarke, Esq.
"Queensland Agricultural Exhibits in Exhibition" .....	A. Macpherson, Esq.
"French Plate" .....	J. T. McCrae, Esq.
"Technical Education on the Continent" .....	J. Henderson, Esq.
"Manufacture of Perfumery" .....	T. Piesse, Esq.
"Geography" .....	F. Beville, Esq.
"Exportable Exhibits of South Australia" .....	P. F. N. Twopeny, Esq.

Owing to ill-health Mr. E. Masters had to discontinue a course of class lectures on natural philosophy commenced by him; but arrangements have now been made with the Revd. Joseph Campbell, B.A., to deliver a series of popular lectures on this subject, which it is believed will be found very attractive.

At the request of several employes in the banking institutions of the city, a class for the study of political economy is about being formed, under the direction of the Revd. Evelyn G. Hodgson, M.A., of Saint Paul's College, which should prove very useful to those desirous of systematically studying the great principles relating to trade and commerce.

Your committee regret that they were unable to obtain during the past year the services of the lecturers on geology and mineralogy provided for in the Mining Act, but the Honorable E. A. Baker, Minister for Mines, has kindly promised the desired instruction when these gentlemen are appointed. A largely-attended course of ten popular lectures on geography, illustrated with the tri-unial lantern, were delivered by Mr. F. Beville, M.A., in the College Hall.

In order to illustrate the most important industry of the Colony a large collection of samples of wool were obtained through Mr. P. N. Trebeck, from the International shows at the Sydney Exhibition; and it is proposed, if possible, to obtain a course of lectures on the production, classification, and assortment of that staple for the benefit of those connected with pastoral pursuits and the wool trade of the city.

In order to assist suburban and country Schools of Arts to illustrate popular lectures an excellent bi-unial lantern has been recently purchased, which now can be loaned to these institutions, and so prevent the large tri-unial lantern being removed from the college.

To awaken a still greater interest among artisans on the subject of Technical Education your committee deputed Mr. Alfred Allen, as their agent, to visit various large manufactories in the city and suburbs, and deliver addresses on the subject. On each occasion he was warmly welcomed by employers, and by the large numbers of working men, who listened to his discourses.

In order to obtain the assistance of gentlemen interested in the extension of Technical Education in the Colony it was resolved to elect the following gentlemen as honorary members of the College Council of Advice:—The members of the existing Ministry, the Mayor of the city, Professor Smith, C.M.G., M.L.C., Professor Liversidge, and Messrs. Edward Combes, C.M.G., M.P., William Wilkins, A. B. Weigall, Charles Moore, E. P. Ramsay, E. C. Cracknell, Thomas Richards, James Barnett, and John Plummer.

On the receipt of the Government endowment it was resolved that the college fees should be reduced one-half to all apprentices, and that students should not be required to be members of the School of Arts; the teachers being reimbursed from the annual grant the difference in the amounts, and for the fees of students unable to pay. It is also decided to make a reduction to students attending more than one class in the School of Design.

Your Committee have to express their regret at the early death of Mr. Ernest E. Waters, the teacher of English history and literature, who greatly assisted as a lecturer the work of inaugurating the college, and by affording the benefit of his recent experience in connection with Owens College, Manchester.

The commercial intercourse now taking place between residents in this Colony and foreign nations would, it was thought, warrant the formation of additional classes for the study of European languages; but the German class, under Herr Levy, and the Italian class, under Signor Ferrari, have not been as well attended as expected.

During the year large additions have been made to the educational apparatus of the college; and more than the sum voted by the Government expended at the Exhibition and otherwise in the purchase of many of the best working models of steam-engines, and other machinery, specimens of art pottery, wood-carving, &c. Several beautifully illustrated works of art have been also added to the college library, and will be found of great service to the students in learning the principles of decoration. Amongst the apparatus ordered from England, which are not yet to hand, are screen spectrum apparatus and electric lamp by Browning, photographic slides for lantern, polariscope and objects, microscopic objects, &c.

A model of a condensing engine for river steamers, with wheels and boiler, presented by the Directors of the Australasian Steam Navigation Company, is a valuable addition to the appliances of the institution. Specimens showing the various materials used in the manufacture of glass were also kindly presented from the Sydney Exhibition by Messrs. Myers & Cantor.

Early in the year 1880 application was made to the Government for the use of the Western Tower of the Garden Palace as a museum for the large quantity of apparatus belonging to the college, and the Premier has promised that the request will receive due consideration. Notwithstanding the large premises occupied by the college the accommodation afforded has been found too small for its extensive operations, and in order to obtain increased room it is found necessary to lease the old Pitt-street Public School-room, at the low rental of 16s. per week, for new classes, and for some of the elementary classes which have grown too large for the present class-rooms. To meet the demand for additional room Messrs. Elphinstone and Selfe (members of your committee) prepared plans for gaining more space by altering the college hall, but as this would involve an outlay beyond the present means of the institution, it is hoped that the Government will assist in the matter.

The following is a list of the classes, and reports of the teachers and examiners:—

**Chemistry.**—Conducted by Professor Dixon, F.C.S., F.I.C., who reports as follows:—

The winter course of lectures, instead of beginning in April as arranged in the calendar, did not open till June, in consequence of the lecture room being otherwise occupied. Nineteen students entered for the course; and although four or five of them only attended a few lectures at the beginning, the average attendance was 11.5. Fifty lectures were delivered on the non-metallic elements and the metals of the alkalies and alkaline earths, magnesian group, lead group and silver group; special attention being devoted to these elements and their compounds which are of industrial importance.

Papers were frequently set up for the students to work out at home, and I offered a prize for the best set of answers, the result being that Messrs. Reid and Cooper were equal, and were each presented with a bound copy of Ganot's Physics. Nine of the students sent in papers, and four did so on every occasion, the majority being very satisfactory. I announced that there would be an examination at the end of the course, but none sent in their names; the prize-takers thought they would appear too grasping, whilst the others perhaps thought they had no chance.

**LABORATORY.**—The laboratory has been attended during the year by sixteen students, three of whom attended during the day, the remainder on Monday evenings. Their attendance and progress have been in general satisfactory, though some of them have laboured under the disadvantage of having had no previous knowledge of the science. It cannot be too strongly impressed on students that they should first attend a course of lectures, and acquire a general knowledge of the properties of matter, of chemical combinations and decompositions, and the methods of reasoning thereon, and only after doing so learn to manipulate for themselves, as it is only by so doing that their progress can be satisfactory.

**School of Design—Frechand Drawing Class.**—Mr. Thomas Phillips reports:—

My class has been well attended, the number of students averaging throughout from thirty-five to forty, the latter number being as many as the room will conveniently accommodate. The students, who are solely composed of the artisan classes, have shown themselves most patient and industrious, and evinced a great desire to improve themselves. The class being so large, I could not give each student as much attention as I wished. So, at my suggestion, Mr. Minchen was appointed to assist me, and his services have facilitated the progress of the class. Many of the students are desirous of applying their acquired knowledge to their trades and professions, to further which it is my intention to commence at once a course of lectures on geometry (practical plane), perspective, and design. I have already given a few preliminary lectures on design, and from the attention accorded by those students who attended them, I feel confident that similar lectures will prove a success.

**Architectural Drawing Class.**—This class has been conducted by Mr. J. Kirkpatrick (Architect), but no report has been received from the teacher.

**Mechanical Drawing Class.**—Mr. W. Humphreys reports:—

I have again had the honor of carrying on the mechanical drawing class in connection with your Technological Institute during another twelve months, and am glad to be able to report such class to be in a flourishing condition. A large number of new pupils have joined at different quarters, and the attendance by the class-book averages fourteen. The pupils are exceedingly attentive, and evidently desirous of improving themselves. Some of their productions have been sent for exhibit to Melbourne, and a few drawings were selected for prize competition. Such drawings are in themselves highly creditable, I am happy to say, when the time such pupils have been learning is taken into account.

*Ladies'*

**Ladies' Drawing Class.**—Miss Marsh states :—

I have much pleasure in testifying to the continued satisfactory progress of the pupils of my drawing class. I have not, however, forwarded specimens, as in the usual course, owing to the recent collection of drawings submitted for your inspection only last October, and which, I flatter myself, met with your fullest satisfaction and approval, inasmuch as you saw it desirable to forward them to the Melbourne Exhibition. The average attendance throughout the year has been twelve in number.

At the request of the Committee Mr. Edward Combes, C.M.G., M.P., examined the classes in the School of Design. Although many of the best drawings of the students of the various classes are now at the Melbourne Exhibition, he has furnished the following satisfactory report. The Committee have to express their great indebtedness to Mr. Combes for this and many other valuable services which he has rendered to the Technical College :—

In the architectural class, the drawing of George Seale, F. A. Le Messurier, A. G. Hinder, and Thomas Dingle are fairly good, and prove that these students have worked honestly, and progressed favourably. I would however strongly recommend them to pay great attention to freehand drawing, in order to give more firmness and precision to the outlines of leaves, scroll work, and other objects of ornamentation.

In the mechanical class, James D. Ritchie stands first, and William Iseusee, fairly good.

The most satisfactory work is to be found among the freehand drawings, which evince generally the greatest amount of progress. In this class, William Phippard's drawings are decidedly the best, while E. S. Phippard's and A. G. Tindall's may be classed as fairly good. I also desire to commend the work of George Taubman, A. R. Cooper, T. Lillie, E. Patino, William Mitchell, J. Richards, and V. R. Hallams, as indicating considerable application and consequent improvement.

I cannot allow this opportunity to pass without recording the pleasure I feel to find that the admirable system of freehand drawing practised at South Kensington is taught in such a masterly manner in Sydney, and I beg to congratulate Mr. Phillips upon having obtained in so short a time such excellent results as the studies I have this day examined.

**Shorthand Class.**—Mr. Henry Graham, its teacher, reports :—

I think that the class made more progress last year than heretofore, and is becoming more popular.

The total number of names on the books for the year, twenty-seven; number registered last quarter, sixteen. The most advanced pupils in the order named,—A. R. Cooper, R. W. McCoy, A. B. Macintosh, J. Cochrane, W. G. Bowden, and R. Pollock.

The above members have all acquired the art of writing phonography, and require but sufficient practice to become shorthand writers and reporters.

**French Classes.**—Mr. R. Curtis reports as follows :—

It gives me much pleasure to be able to report favourably of these classes during the past year. They have been well appreciated and numerously attended. The roll-book shows that sixty-two (62) persons have inscribed their names as pupils—thirty-nine ladies and twenty-three gentlemen. Of these the majority have been remarkably persistent and regular in their attendance, though I regret to say that in the case of a few of the gentlemen who joined the class for a quarter or two, and then retired, a sad want of perseverance has been apparent.

The ladies' class, which numbered fifteen at the beginning and twenty-four at the end of the year, has been working in three divisions. The first of these, conducted entirely in French, has been occupied in reading Racine's *Athalie* and *Iphigénie*, in correcting the exercises in Noël and Chapsal's first book of exercises, in writing from dictation, in doing the last part of Ollendorff's book, and in translating into French a portion of Dickens's Christmas Carol. The second division has been engaged in conjugating the irregular verbs in all their forms, and in writing the exercises from Cassell's excellent book. While the third division, made up of beginners only, has been learning the regular conjugations, and doing the exercises in Ahn's First Book, used temporarily because Cassell's is not procurable in Sydney.

The gentlemen's class, composed of mere tyros, has been occupied in a similar way to that of the ladies' third division.

The papers from the French classes were examined by Mons. Lalchere, who has placed the students as follows :—Ladies' Class—1st Division, Miss Mary Burrows; 2nd Division, Miss Elizabeth M. Dowsett. Gentlemen's Class, Mr. H. R. Cruickshank.

**Writing and Arithmetic Class.**—This class is still conducted under the excellent supervision of Mr. A. Adams, Assistant Training Master in Fort-street Model School, who reports as follows :—

This class has made very satisfactory progress during the past year. The total numbers enrolled was 178, including 18 females, and the average attendance 51.

Finding the number of pupils in attendance greater than I could conveniently instruct, and knowing that adults (of whom there are many in the class) require a great deal of individual attention, I engaged two youths as assistants. This arrangement enabled me to give more time to tradesmen and mechanics, many of whom required special instruction in those subjects or parts of arithmetic more immediately bearing upon their several employments.

On the whole the conduct of the pupils has been very good and their diligence most encouraging, rendering any labour taken in instructing them a decided pleasure.

**Mr. Samuel J. Hardy, who examined this class, reports as follows :—**

I have much pleasure in testifying to the marked improvement in this class since I examined it last year. The general proficiency is good, and reflects much credit on the teacher. The students seem thoroughly earnest in their desire to improve; their persevering industry and orderly conduct are very commendable. The arithmetic shows a very fair knowledge of theory. The writing, with one or two exceptions, is very satisfactory. I place the first six names under the respective headings in the order of merit :—

*Arithmetic.*

D. Healy  
E. Bradley } equal  
G. Munro  
J. Quinn  
W. E. Bromley  
A. Carruthers

*Writing.*

Miss A. F. Jay  
J. Archibald  
D. Healy  
A. T. Saunders  
E. Bradley  
T. Mahony

**Elocution Class.**—This class is conducted by Mr. John Connery, who states :—

The elocution class has been well attended during the past twelve months, and a decided improvement in the pupils is very apparent. As must be the case with the constant accession of new pupils, the old ground had to be gone over again, and the practical exercises in articulation and pronunciation, together with what may be termed the grammar of elocution, repeated from time to time. I have endeavoured throughout to make this class as attractive as possible—encouraging my pupils to commit to memory chosen passages from the poets and dramatic authors; all of which when clearly written out I have carefully marked and annotated with the various inflections of the voice, pauses, gesture, and other symbolic aids for the proper rendering of each sentence. I have always experienced in the conduct of this class that the most difficult point to attain in the practical teaching of elocution is a clear and intelligible style of reading, and this more remarkable so in prose than in verse, in which latter the pupils are naturally assisted by the rhythmical flow of poetical language. I have endeavoured to make this class the more attractive by reading myself to them choice passages from Shakespeare, as well as from the poets, orators, and celebrated prose writers in the English language. The result of the examination, which I was necessarily obliged to conduct myself, leaves Mr. Lauder with 48 points, Mr. Milgrove with 41 points, Mr. Tighe with 38 points, Mr. Cook with 36 points, Mr. Mahony with 31 points, Mr. Hogan with 25 points.

**English Grammar Class.**—Mr. J. Connery reports as follows :—

This class has been well attended during the past year; but, owing to the pupils being nearly all beginners, very little progress has been made, with regard to the amount of grammar taught. I have, however, been enabled to bring them up to syntax. The result of the examination by written questions is as follows :—Mr. Cook 56 points, Mr. Mahony 49 points, Mr. Asser 30 points, Mr. Jones 25 points, Mr. Robinson 6 points, Mr. Meliska 2 points.

**Mathematical Class.**—Mr. J. Wright reports :—

This class has been under my charge during the past three quarters, during the first of which the attendance only averaged about five, but has since increased. The results achieved have been on the whole very satisfactory, and the pupils show diligence and a strong desire to progress. The examination places Mr. J. Kavanagh at the head of the class.

**German Class.**—Herr Julius Levy reports as follows :—

The progress made is to be considered very satisfactory, although the irregular attendance of some students proves a hindrance to others. For regular attendance, as well as efficiency in grammar, Miss Dowsett deserves the first prize.

**Latin Class.**—Mr. C. Howe, LL.D., reports as follows :—

Having had charge of this class only for the fourth quarter of 1880, I can report only for that period. The class numbered eleven, and the average attendance was nine. With one or two exceptions, the industry and attention of the pupils were quite satisfactory; and their progress, for the time, was equal to what I could expect.

**Applied Mechanics' Class.**—Mr. Humphreys reports as follows :—

The Applied Mechanics' Class in connection with your Institute, I am sorry to say, during the past six months was not a success, so far as the number of students were concerned, the number of pupils only reaching seven; these pupils were present at my first lecture, and attended regularly to the end, and, I must say, showed great interest in the different subjects lectured upon. I am afraid that the fees of one pound eleven and sixpence were considered too high at the commencement. The great labour involved in delivering fifty lectures during six months will preclude me carrying on this class for the ensuing term, as such paucity of attendance, being in itself disheartening, leaves no margin of profit at the conclusion.

**Telegraphy Class.**—Mr. John V. Dalgarno reports :—

As there were no telegraphic instruments at the college I applied to Mr. Cracknell, the Chief Superintendent of Telegraphs, for the loan of a duplicate set of Morse recording instruments, and he very courteously complied with my request. The mode of instruction which I have adopted has been as follows :—On the assembling of the class I have delivered short lectures upon the different departments of electricity which are brought into operation in the Morse system, and then I have devoted a certain portion of time, say, from 15 to 20 minutes, to each student in instructing him in the practical branch of the study. This method has necessarily extended the time allotted to this class from one to three hours. In addition to the instruction thus personally given I have arranged the instruments in such a way that the students can place them "in circuit" for private practice when the room is not engaged for other classes. This has acted as an important auxiliary to my teaching, as it enables the pupils to make more rapid progress in the acquirement of the necessary manipulating power than would otherwise be the case. Fifteen persons have joined the class during the year. Looking at the results of the first year's work I think I am justified in the opinion that this class will eventually become an important and useful adjunct to the college.

Technical or Working Men's College.—Sydney Mechanics' School of Arts.

Evening Classes.

- PRACTICAL CHEMISTRY.—Professor W. A. Dixon, F.C.S., F.I.C.—Monday, at 7.45—Fee, £1 1s. per quarter; also daily, at hours and fees to be arranged with the Professor.
- MATHEMATICS.—Mr. J. Wright—Thursday, at 7.30—Fee, 10s. per quarter.
- ARCHITECTURAL DRAWING.—Cyril Blacket, A.R.I.B.A. (Architect)—Monday, at 7.30—Fee, 12s. 6d. per quarter.
- FREEHAND DRAWING.—Mr. T. Phillips, late of the National Art Training School, South Kensington—Wednesday and Saturday, at 7.30—Fee, 10s. per quarter.
- DESIGN.—Mr. T. Phillips—Lectures, Tuesday, at 7.30—Fee, 10s. per quarter.
- GEOMETRY AND PERSPECTIVE.—Mr. T. Phillips—Fee, 10s. per quarter.
- LADIES' DRAWING (from the Round) AND WATER-COLOUR PAINTING.—Miss Marsh—Monday and Thursday, from 3 to 5—Fee, £1 1s. per quarter.
- MECHANICAL DRAWING.—Mr. W. H. Humphreys (President, Engineering Association)—Friday, at 7.30—Fee, 12s. 6d. per quarter.
- MODELLING CLASS.—Mr. Lucien Henri—Friday, 7.30—Fee, 10s. per quarter.
- ANATOMY AND PHYSIOLOGY.—Dr. T. Dixon, M.B., C.M., Edinburgh—Course of about twenty lectures on Thursday evenings, at 8 o'clock—Fee, 12s. 6d. for course, or 1s. single admission.
- NATURAL PHILOSOPHY.—Rev. J. Campbell, B.A.—Course of lectures, Wednesday evenings, 8 o'clock—Members and students free, adults 6d., youths 3d.
- TELEGRAPHY.—Mr. John V. Dalgarno (Telegraph Department)—Friday, at 7—Fee, £1 1s. per quarter.
- FRENCH.—Mr. R. Curtis—Monday and Thursday, at 7—Ladies at 5.30—Fee, 10s. per quarter.
- GERMAN.—Herr Julius Levy—Tuesday and Friday, at 6.45—Fee, 15s. per quarter.
- LATIN.—Mr. M. C. Howe, LL.D. (late Head Master, Newington College)—Tuesday and Friday, at 7.30—Fee, 15s. per quarter.
- ELOCUTION.—Mr. John Connery—Tuesday, at 7—Fee, 10s. per quarter.
- ENGLISH GRAMMAR.—Mr. John Connery—Tuesday, at 8.5—Fee, 7s. 6d. per quarter.
- PHONOGRAPHY.—Mr. Henry Graham—Monday, at 7—Fee, 10s. per quarter.
- WRITING AND ARITHMETIC.—Mr. A. Adams—Tuesday and Thursday, at 7.30—Fee, 10s. per quarter.
- Apprentices and youths under twenty-one are charged only half the above fees.
- Students need not be members of the School of Arts, and can join at any time.
- Lantern readings on Saturday evenings—Members and students free; non-members, admission 6d.

## APPENDIX U.

## From Technical Education in England ; by Mr. G. C. T. Bartley.

Description of the Weaving, Dyeing, and Designing Classes at the Huddersfield Mechanics' Institution and Trades School.

To this Institution I think is due the credit of having had one of the first, if not the very first, really technical class in this country. The district of Huddersfield, as is well known, is the centre of the fancy woollen manufacturing industries, and for some thirty years efforts have been made to add technical teaching to the ordinary theoretic instruction given at the Mechanics' Institution. The notion has been held that people who have to engage in manufactures should know something at least of those sciences on which the manufactures depend, and also of the why and the wherefore of the processes through which the wool and the cotton they have to make into cloth must pass. More than this, not only is the scientific knowledge, pure and simple, necessary, but it must be specially and practically directed to the peculiar branches of industry it is designed to promote and develop. As stated recently by Mr. Councillor Marriott, to a deputation on the subject of a Trade School for Huddersfield, the weaver should at least be intelligently educated in the sciences which have a direct bearing upon weaving. He ought to know the difference between a fibre of wool and a fibre of cotton; he ought to know their physical construction; certainly he should have seen a fibre in its natural state, and examined it under the microscope. The process of scouring also is intricate, and requires a good knowledge of general science to understand it thoroughly. This involves a knowledge of chemistry, and the student must go through a course of chemistry before he can master details. And the question does not end here. If an individual learns the process of weaving as it is carried on by power-looms, he ought to know something of mechanics and mechanical drawing; for if he could not put his ideas on a black-board they would be of little use to him. This shows that before a man can go into a weaving class he should have gone through a course of instruction in mechanics. In addition to this there is designing, which is not simply drawing; and although in the Huddersfield trades pupils do not require such an elaborate knowledge in this direction as in districts where lace, silks, or paperhangings are manufactured, yet they want sufficient training to put their ideas upon paper. It is obvious that a man who can take a piece of chalk and a black-board, or a piece of pencil and paper, and place ideas upon them, stands at a much greater advantage than the man who cannot do this. Before a weaving class can be entered to advantage knowledge of this sort is essential.

In the trade of a dyer, also, it is important that every dyer should be a chemist, so that he may know the effect of the combination of colours, and the effect produced by dyes upon material. The whole of those requirements show that a large amount of technical and special training is necessary in addition to the theoretic and abstract science, without which however the technical training is comparatively valueless.

So strong are these views that the committee state that they believe the future material prosperity of Huddersfield will largely depend on the application of science to its manufactures. They are therefore most anxious to afford to the working classes the means of self improvement, and to engraft upon the present system of education in the district a course of instruction bearing as far as possible on handier trades, which shall be continued from the age of thirteen (at which education now too often closes) to manhood.

The technical classes carried on here, which owe much of their success to Mr. Jarman, are as follows:—

*The Chemistry of Dyeing.*—In addition to the lectures, the students are occupied in scouring, bleaching, and dyeing operations; the preparation of dyers' solutions, mordants, &c.; the testing with the view of ascertaining the commercial values of dye wares, soda ash, tin solutions, &c.; the use of the best forms of hydrometers in testing the strengths of various solutions employed in the dye-house, the dyeing of patterns in wool and mixed goods, according to the best formula in use in Great Britain and on the Continent.

The syllabus of the instruction in this subject is as follows:—

*Water.*—Suitability for manufacturing and dyeing purposes; causes of permanent and temporary hardness, and methods of testing for these; action of various salts contained in waters on the materials used in dyeing, scouring, &c., and methods of testing these salts.

*Scouring.*—Theory of scouring; composition and mode of testing the various detergents used in this neighbourhood, and their action on oils, fats, &c. Evils arising from the action of various waters on the materials used for scouring.

*Bleaching wool, stoving.*—The action of sulphurous acid, sulphites, and bisulphites, on the colouring matters contained in wool tinting; sulphopurpuric acid.

*Indigo.*—Sulphindigotic acid; extracts of indigo; white and blue indigo; the Woad vat; Schutzenberger and Lalandes vat.

*Mordants, definition.*—Their uses and action; chemical and mechanical mordants; modes of preparing and testing mordants—alum, salts of iron, chromium, tin, copper, &c.; theory of the fixation of colour.

*Logwood.*—Its history; colouring principles, hæmatein and hæmatoxylin, their action on the mordant metallic hydrates. Its applications in the dyeing of wool.

*The Red Woods.*—Saunders, Camwood, Barwood, Calistour, Peachwood, Safranwood—Their uses in dyeing.

*The Yellow Woods and other Yellow Dyes.*—Fustic, Flavine, American Bark, Turmeric, Persian Berries—Their colouring principles and uses as dyes.

*Cochineal and Lac Dyes.*—Their uses as dyes for wool. The new colour Eosin, and its use as a scarlet on wool.

*Astringents.*—Substances containing tannic acid, used in wool-dyeing; Sumac and Myrabolams—burl dyeing.

*Aniline and other Coal-tar Colours.*—Reds, Blues, and Violets.

*Aniline and other Coal-tar Colours.*—Browns, Yellows, Oranges, Scarlets, Aniline Black, use of Vanadium Salts.

Concluding remarks:—

The Committee of this Institution state that so far as regards the woollen trade of Huddersfield, it is almost as important to excel in the production of colours as in designs, especially now when the prevailing shades are so constantly changing. It is of the utmost importance that this district should be able, not only to keep abreast of all its rivals, but if possible to outstrip them; and it is the opinion of the Committee that this can only be done by an adequate number of artisans being made thoroughly acquainted with chemistry and its application to practical dyeing. They therefore suggest to manufacturers in the circular issued by them that they should select one or more of the most promising youths in their employ and arrange for his or their attendance at these technical classes.

The Committee further state that although actual expertness in working operations must be acquired in the workshop, yet the establishment of this class will be of incalculable benefit to all concerned in dyeing, from the master down to the humblest workman, as the students will have the advantage of scientifically and technically studying the materials and processes relating to their industry. They therefore earnestly hope that employers will assist them in their efforts to impart technical knowledge to the industrial classes of Huddersfield.

*Designing and Weaving Classes.*—In these the students are taught plan drawing, drafting, and designing, and also practical weaving on large and small hand-looms provided for the purpose. The classes are held both in the daytime and in the evening, the day classes being for the sons of merchants, manufacturers, and others who can pay larger fees. The designing class has been carried on for some thirty years, and for several years a Jacquard loom for fancy woollens has been in use at this Institution for the special purpose of affording technical instruction.

## APPENDIX V.

## From Technical Education in England ; by Mr. G. C. T. Bartley.

Description of the Artisan Institute, 29, Castle-street, St. Martin's Lane, W.C., London.

I BEGIN with this Institution, not on account of the magnitude of its work, but because its objects seem to bear with some considerable weight on the subject we have in view. The main idea of this Institution is to do something more than the theoretic work aimed at by purely scientific classes. The want which undoubtedly exists, and which this Institution endeavours to supply, is the mode of applying to practice the theoretic instruction of a scientific class. One in building construction for example: A young carpenter of energetic habits, and anxious to become as efficient as possible in his trade, attends,

say, classes in geometrical drawing, building construction, and applied mechanics. He learns there how to use planes, and how, theoretically, to erect a roof, a staircase, &c. In his practical work in the shop however his attention is entirely directed to one thing. He perhaps makes doors or windows, and for years is kept at this, and the greater his skill in this one article the more chance there will be that he will be kept at it, both because he can earn more and also because he becomes more and more expert at this one speciality. This is owing to a great extent to the immense subdivision of labour which now exists, in consequence of which the great mass of workmen (who were formerly trained as intelligent artisans to go through the whole of a trade) are often turned into mere machines, working in an intelligent manner, attending to the mere fragment of industry, learning little, and being comparatively helpless, except so far as the one particular groove in which they have been accustomed to work is concerned.

The Artisan Institute classes aim at amending this. The theoretic idea is that the pupil coming to these classes is a competent mechanic, as far as the use of tools is concerned; for no pupil is admitted to the technical classes unless he is, or has been, apprenticed, or has some recognized means of livelihood, and able to understand partially, at least, working plans, and, to a certain extent, the scientific part of his trade shall be taught, not only by the aid of models, but by practically making such things as roofs, staircases, &c., to scale from plans, the special technical and practical work of his trade, which he can obtain in no other way. The teacher of these classes must be a practical man, as well as a man who has been taught and fully understands the abstract scientific theory on which the trade or industry on which he is engaged is based; and he should be, if possible, a specialist in each particular technical work he teaches.

It may be said that this instruction should be obtained by the apprentice during his term, and no doubt there is some truth in this statement. The practical fact, however, is that such instruction is not given to apprentices, except in rare instances. The master but too often takes the apprentice solely with a view of getting as much out of him as possible, for he imagines that if he were to try to teach him in the way aimed at by the classes at the Artisan Institute, although the apprentice would ultimately become a better mechanic, yet he would do so, the master would think, at his (the master's) expense.

The various technical classes which have been established in the Artisan Institute are as follows:—Pattern-making and moulding in metal. Bricklaying. Carpentry and joinery. Tailors' geometrical cutting out. Tin-plate and zinc working. Turning in metal. Turning in wood. Applied mechanics. Typography.

The syllabus, or the general outline, embraced by each subject is as follows:—

*Pattern-making and Moulding in Metal.*—Pattern-making—elementary and advanced, practical instruction in the various joints in woodwork, theory and practice of wheel-making, the construction of screw propellers, valves of all kinds, the use of the lathe in pattern work, practical geometry and engineering formulæ as applied to find the horse-power of steam-engines, weights of metals, gearing, transmission of motion, pumps, hydraulics, &c., the nature of the various woods used, the composition and properties of cast metals, the principle of green and dry sand and loam moulding.

*Bricklaying.*—Technical details of bricklaying, plane geometry as applied to brickwork generally, mensuration, and all matters affecting brickwork, with a view of improving the condition of the workmen and trade.

*Carpentry and Joinery.*—The treatment of woods, with regard to shrinking and warping, executing work from architects' drawings and otherwise, practically setting out working drawings, the application of geometry to carpentry and joinery as required in the construction of hip roofs, sky-lights, groins, niches (plain and spherical), bracketing for coves and cornices, soffits in straight and circular walls, domical roofs, stair-casing, hand-railing, &c.

*Tin-plate and Zinc Working.*—Construction of patterns, in round, oval, and hexagonal tapering articles, and other patterns, geometrical problems, method of describing ovals, elementary instruction for younger students.

*Turning in Wood.*—History of adaptation and improvements of lathe for wood-turning, description of different kinds of chucks, backstays, tools, rests, screw-cutting in wood, different styles of work for architectural purposes, for cabinet-makers, pattern-makers, couch-makers, tool-makers, &c. Old English style.

*Turning in Metal.*—True method of centring, setting shafts, speed to run, self-act on metals and their diameters, the art of chucking, forging and hardening tools, with their proper shapes and angles, shrinking of metals, theory and practice of screw-cutting, crank-turning, how a wheel may be cut in a lathe, chasing and tools for ditto, with other useful knowledge connected with the lathe, and ultimately with engineering.

*Applied Mechanics.*—The various materials used in the arts, and the general principles of the processes by which they are brought into a state suitable for practical purposes; means of ascertaining the strength of the various substances, effect of form of beads, &c., upon their strength, various kinds of gear used in changing the direction of motion, and transmitting motion from one point to another, including shafting, toothed wheels, cams, &c., the laws of friction, and the various appliances used in modifying its effects in mechanical apparatus.

*Typography, &c.*—Every description of general jobbing and display work.

The length of time taken to complete any of these courses necessarily varies much with the nature of the subject. At the same time many mechanics would require to go through more than one of the subjects before they could be regarded as completely educated to their trade. A carpenter and joiner, for instance, would require a great deal more instruction than a bricklayer. This last trade, indeed, if a practical bricklayer came with a theoretic knowledge of plans, such as he would learn in a building construction class, would not require more than a few months' instruction, or a session at the outside, in the practical and technical details, which, simple as they may appear, are nevertheless not learned at all by a large number of bricklayers, for want of this special teaching.

## APPENDIX W.

The Constitution, Statutes, and Examination Regulations of The School of Mines, at Ballarat, Victoria.

Inaugural Address delivered by His Honor Sir Redmond Barry, on Wednesday,  
October 26th, A.D. 1870.

*Ingenio Effodere Opes.*

THE SCHOOL OF MINES, BALLARAT.

April Term, 1881.

NOTICE is hereby given that the April Term begins on Monday, the 26th April, and ends on Saturday, the 2nd July. All persons desirous of enrolling themselves as students are invited at once to apply at the registry.

Both day and evening classes will be formed, and special students can be received for instruction in all subjects.

The following is a list of subjects and lecturers:—

Telegraphy—W. D. Campbell.

Mathematics—Arithmetic, algebra, euclid, logarithms, trigonometry.—John Victor (T.C.D.), J.P.

Mining and Land and Engineering Surveying—including practical astronomy and hydraulics.—Chas. Wm. Thomas (M.V.I.S.)

Mechanics and Natural Philosophy—including acoustics, heat, and hydrostatics.—John Victor (T.C.D.), J.P.

Mechanical Engineering—Drawing.—W. H. Shaw, assisted by H. Reid, Phoenix Foundry Company (Limited).

Geology—including palæontology and mineralogy.—F. M. Krause.

Metallurgy—including assaying.—Joseph Flude.

Chemistry—elementary, inorganic, organic, analytical, technical, and pharmaceutical.—Joseph Flude.

Mining (scientific)—including geological surveying.—F. M. Krause.

Mining (practical).—T. H. Thompson.

Magnetism—including electricity.—F. M. Krause.

Botany.—Joseph Flude.

Materia Medica—including pharmacy and physiology.—J. F. Usher, M.D., L.A.H.D.

Fees:—

Fees :—One guinea per Term for any subject. This rate is reduced in the case of a student entering for a series of Terms, or taking more than three subjects during a Term.

Examinations will be holden every March and September of persons desirous of obtaining the certificates of the School of Mines :—As captain of shift, as underground manager (in alluvial or quartz gold mines), as engineer, as engine-driver, in botany, in pharmacy, in materia medica, in telegraphy. And in June and December in the undermentioned subjects :—Mathematics, surveying (mining, land, and engineering), mining, engineering, mechanics, natural philosophy, mineralogy, geology (as applied to mining), as assayer (metallurgy, assaying), in inorganic chemistry, in magnetism and electricity, as mining engineer, as mining surveyor, as captain of shift, as underground manager (in alluvial or quartz gold mines), as engineer, as engine-driver.

Analyses, assays, and determination of specimens are undertaken by the school at reasonable rates.  
All further information can be obtained on application at the school.

W. HY. BARNARD, Registrar.

OFFICE BEARERS :

*Visitor.*

His Excellency the Governor.

*President.*

His Honor Sir Redmond Barry.

*Vice-President.*

R. W. Newman, Esq.

*Trustees.*

*Collector and Secretary.*

James Baker, Esq.

CONSTITUTION.

CHAPTER I.—OF OBJECTS.

1. The primary object of the school is to impart instruction in the various branches of science relating to mining, the theory and practice of mining, mine management, mining surveying, and mining engineering.
2. It is proposed, as soon as practicable, to extend the operation of the School so as to impart instruction in those branches of technical science which may be considered most likely to exert a beneficial influence upon the prosperity of Victoria.

CHAPTER II.—OF GOVERNMENT.

1. The school shall be under the control and management—as hereinafter provided—of a Visitor, President, Vice-President, Council, and Administrative Council.
2. Visitor.—The first visitor shall be, and is hereby declared to be, His Excellency Viscount Canterbury, K.C.B., Governor of the Colony of Victoria, who shall continue to hold office as long as he continues to be Governor of the Colony of Victoria; and every succeeding visitor shall be elected by the governors and subscribers for a period not exceeding seven years.
3. The visitor for the time being shall have the ordinary visitatorial jurisdiction of the visitor of a college or corporate body.
4. President.—His Honor Sir Redmond Barry is hereby declared to be the first President, and elected to hold office until the annual meeting in December, A.D. 1875.  
Every future President shall be elected by the governors and subscribers, and shall continue to hold office for a period of five years.
6. The President shall have the right to preside at all meetings of the Council or Administrative Council, and all other meetings of the School, and to present to successful candidates certificates of efficiency and of merit, and other distinctions to be conferred by the School. In addition to his deliberative vote, he shall have a casting vote at all meetings where the votes are equal.
7. Vice-President.—The Vice-President shall be elected by the Council, which shall elect one of its own members to that office, and shall continue to hold office for a period of three years; and in the absence of the President the Vice-President shall have, exercise, and enjoy all the authority, power, and privileges of the President. In the absence of the President and

Vico-

Vice-President, a chairman may be elected by the quorum present at any meeting, and such chairman shall have similar authority and power—including casting vote—as the President or Vice-President would have had if present at such meeting.

8. Council.—The Council shall consist of twenty-nine members, namely, the President, the Vice-President, six (6) to be appointed by the Crown (who shall continue to hold office for a period of five years), the Chairman for the time being of each of the seven Mining Boards in the Colony of Victoria, and fifteen (15) elective members.

9. The fifteen elective members of the Council shall be elected by the governors and subscribers, and shall continue to hold office for a period of three years, provided that councillors shall retire from office by rotation, five at the end of each year. And at the ordinary meeting of the Council next preceding the annual meetings of governors and subscribers, to be held in 1871 and 1872, the Council shall decide by lot who the five retiring councillors shall be. Retiring members of Council shall be eligible for re-election.

10. Members of Council shall cease to hold office if absent from the Colony more than twelve months, or if absent from more than four consecutive ordinary meetings of the Council without the consent of the Council, or if they become bankrupt or insolvent, or be convicted of treason, felony, or infamous crime, or become incapable of acting by reason of mental or bodily infirmity, and this rule shall apply to trustees, except that they are exempt from attending the meetings of Council.

11. No person shall be eligible for the office of elective councillor who is not an annual or life governor, and any elective member of Council who shall cease to be an annual or life governor shall thereupon cease to be a member of the Council.

12. Six members of the Council shall be a quorum at any meeting thereof.

13. The Council shall frame all statutes for the government of the school, and for the government of the Council and Administrative Council, shall grant all certificates, elect the Vice-President, Administrative Council, Professors, Examiners, Curator, Registrar, and Master, regulate by annual or other vote the revenues of the School, and appoint honorary, life, or annual governors in recognition of valuable services rendered or moneys collected. Provided that no person shall be elected honorary life governor unless and until he shall have collected from persons not previously subscribers to the School the sum of £50, or have rendered services equal to the full value of £50.

14. Administrative Council.—The Administrative Council shall consist of the President, Vice-President, and seven members, who shall be elected by the Council from its own members at the first meeting of the Council after the annual meeting of governors and subscribers, and three members shall be a quorum at any meeting of the Administrative Council.

15. The Administrative Council shall have entire executive control of the School, with power, at any special meeting called for that purpose, to suspend or dismiss the Professors, Examiners, Lecturers, Curator, Registrar, or the Master, provided that such dismissal or dismissals shall be subject to appeal to the Council; shall superintend examinations, and have the control of the revenues of the School and their expenditure, subject to the annual or other vote of the Council for their appropriation; shall have and exercise full proctorial authority over the pupils, including the power of expulsion, but such expulsion shall be subject to appeal to the Council. The Administrative Council shall have power to appoint and remove the porter and all other inferior officers.

#### CHAPTER III.—OF TRUSTEES.

1. The premises lately known as the old Ballarat Court-house, and now known as the School of Mines, together with the land and all out-buildings and edifices comprised in a lease for seven years, dated 7th April, 1870, from the Board of Land and Works of the Colony of Victoria, to Sir Redmond Barry, Knight, one of the Judges of the Supreme Court of the Colony of Victoria, and Somerville Livingstone Learmonth, of Ercildoune, Esquire, and Rivett Henry Bland, of Clunes, Esquire, to be used for the purposes of a Mining School, Library, and Museum, are hereby declared to be held by the said Sir Redmond Barry, Somerville Livingstone Learmonth, and Rivett Henry Bland, as trustees for the Ballarat School of Mines, Library, and Museum. And it is further declared that they, the said Sir Redmond Barry, Somerville Livingstone Learmonth, and Rivett Henry Bland, are and shall be the first trustees of the said School of Mines, Library, and Museum, and shall continue to hold office during the term of their natural life respectively, or during the continuation of the school, unless their trust shall be sooner determined as herein provided.

2. In the event of the office of trustee becoming vacant by resignation, death, or any other cause, such vacancy shall be filled up at the next annual meeting of governors and subscribers after such vacancy shall have occurred.

#### CHAPTER IV.—OF GOVERNORS AND SUBSCRIBERS.

1. A donation of £50 shall constitute the donor thereof a "Life Governor"; the annual payment of £3 3s. shall constitute the contributor thereof an "Annual Governor"; and the annual subscription of £1 1s. shall constitute the subscriber thereof an "Annual Subscriber." Honorary Life Governors, or Honorary Annual Governors, for one or a greater number of years, may be appointed by the Council in recognition of valuable services rendered to the School, subject to the provisions in clause 13, chapter II hereof.

2. The governors and subscribers shall hold annual or other meetings at such time or times, place or places, as shall be determined by the statutes, provided that the annual meeting shall be held in each and every year some time during the month of December.

3. All ordinary vacancies in the offices of President, Vice-President, Elective Members of Council, and Trustees shall be filled up at the annual meeting of governors and subscribers. Interim vacancies may be filled up by the Council *pro tem.* in such manner as the statutes shall provide.

4. At each annual meeting of the governors and subscribers there shall be presented by the Council a report of the operations and proceedings of the School, together with a duly audited balance-sheet of the receipts and disbursements.

5. The order of the business at the annual and other meetings shall be provided for by the statutes, and pending the adoption of statutes for that purpose, the usual rules by which well-regulated public meetings are governed shall be observed, and the ruling of the Chair upon all points of order shall be final and absolute.

6. *Honorary Life Governors* shall have all the rights, powers, and privileges of "Life Governors," and "*Honorary Annual Governors*" shall have all the rights, powers, and privileges of "Annual Governors." At all meetings of governors and subscribers, life governors shall have two votes each, annual governors and subscribers one vote each; and any corporate body shall have power to exercise, through its duly appointed representative, all the functions of a life governor. And governors shall have power, subject to the statutes, to present pupils for admission to the school free of entrance fees, namely, life governors two pupils in a year, and annual governors one pupil in a year.

#### CHAPTER V.—OF PROFESSORS AND MASTERS.

1. The professor or professors, master or masters, and all other teachers shall be appointed by the Council, and may be suspended or dismissed by the Council, or by the Administrative Council.

2. The master shall attend the school daily during such hours and shall impart to the pupils instruction in such branches of education and science as the Council may either by statutes or written resolution from time to time determine, and until the statutes shall otherwise provide he shall instruct so far as to prepare the pupils for the professors' lectures in—

Arithmetic, Geometry, Algebra, and Mechanics.

Mensuration, Surveying, Drawing, and so to apply these as to enable the pupils to read plans, to plot from field books, and to take mining surveys both on surface and below ground.

Engineering.—As applied to mining in all its branches.

The Theory and Practice of Mining.—To include periodical attendance with the pupils at mines.

Chemistry, Geology, and Metallurgy.

3. The Council shall create professorships and appoint professors of such and so many of the various branches of science as the Council may determine, provided that the first professorships which shall be established shall be in chemistry and geology.

4. The professors shall deliver lectures upon such subjects, on such days, and at such hours, as shall from time to time be determined upon by the Administrative Council, and may also act as examiners.

5. Examinations shall be held so often and upon such subjects as shall from time to time be fixed by the statutes.

#### CHAPTER VI.—OF PUPILS.

1. All persons desirous of entering as pupils will, unless nominated by a governor, be required to submit their names to the Administrative Council, when, if eligible, they will be entered on the roll on paying the entrance fee.

2. All pupils will be required to pay such term fees as shall be fixed by statute for instruction and lectures.
3. All persons nominated by a governor will be entitled, without the payment of any entrance fee, to be enrolled as pupils on presenting their nomination to the master or registrar, but will have to pay the same annual or term fees for instruction and lectures as non-nominated pupils.
4. All pupils must on entry sign the pupils' roll, and submit themselves to the discipline of the school as provided by the statutes or otherwise.

#### CHAPTER VII.—OF CERTIFICATES.

1. Certificates shall be granted for efficiency in such branches of science as may from time to time be provided by the statutes, particularly in mining, engineering, chemistry, assaying, and mining surveying.
2. All certificates shall be sealed with the seal of the school, and be signed by the President, Vice-President, and Registrar; shall be in form as prescribed by statutes, and each certificate shall contain the signature of the person to whom it shall have been granted.
3. In no case shall certificates be granted without the consent of the Council.
4. The Council shall have power to substitute for attendance upon lectures at the school attendance upon lectures at any University or School of Mines.
5. The Council shall charge such reasonable fees for certificates as shall from time to time be fixed by the statutes.

#### CHAPTER VIII.—OF THE NAME OR TITLE.

The name or title of the school shall be "The School of Mines and Industries and Library and Museum of Ballarat," but in all legal and other documents it may be cited as "The School of Mines, Ballarat."

The foregoing amended constitution was adopted at a meeting of governors, held at the office of the School, on the 15th day of December, 1870.

R. W. NEWMAN, Vice-President.  
JAMES BAKER, Secretary.

### STATUTES.

#### CHAPTER I.—OF THE COUNCILS.

1. The Council shall meet at the hour of eight o'clock p.m., on the third Thursday of the months of December, March, June, and September of each year, for the dispatch of business, and shall have power to adjourn to any intermediate period. Provided that if the third Thursday shall fall on a public holiday the Council shall meet on the following Thursday.
2. The Administrative Council shall meet on the second Thursday of each month, at the hour of eight o'clock p.m., and shall have power to adjourn for any intermediate period. Provided that if the second Thursday shall fall on a public holiday the Administrative Council shall meet on the third Thursday.
3. All proceedings of the Council and of the Administrative Council shall be entered in a journal.
4. The minutes of the preceding meeting shall be read at each meeting of the Council or Administrative Council, and confirmed or amended thereat, and the presiding chairman shall sign them as confirmed or amended.
5. The President or Vice-President shall have power to call a special meeting of the Council or Administrative Council for the consideration of business which either may wish to submit to the Council or Administrative Council as the case may be.
6. The President or Vice-President, or, in their absence, the Registrar, shall convene a meeting of the Council or Administrative Council upon receiving a written requisition of four members of Council setting forth the objects for which the meeting is required to be convened, and the meeting shall be called within seven days after the receipt of the requisition.
7. Each member shall be supplied by the Registrar with a written or printed notice of all matters to be considered at the next ensuing meeting of the Council or Administrative Council, whether special or ordinary, and such notice shall be delivered or transmitted by post at least two days before the day of meeting.
8. The Registrar shall insert in a book, to be called "The Notice of Motion Book," the date of each notice of motion, that of its discussion, and the final result. And no member shall make any motion initiating a subject for discussion except in pursuance of notice given at least three days previously.
9. If a quorum of the Council or Administrative Council be not present within half an hour after the time appointed for the meeting, whether ordinary or special, all business which should have been transacted at such meeting shall stand over for the next ordinary meeting and take precedence thereat.

#### CHAPTER II.—OF THE SEAL.

The seal of the school shall be entrusted to the President or Vice-President, and shall not be affixed to any document except by order of the Council or of the Administrative Council.

#### CHAPTER III.—OF TERMS.

The year shall be divided into four terms, commencing respectively January, April, July, and October. There shall be two vacations in each year, namely, two weeks at midsummer and two weeks at midwinter, and public holidays shall be observed.

#### CHAPTER IV.—OF THE PROCTORIAL BOARD.

1. The Administrative Council shall form a Proctorial Board for the consideration of all questions relating to studies and discipline.
2. The Administrative Council shall arrange the days and hours of all lectures and examinations, and prescribe the subjects of examination.
3. The Administrative Council shall make regulations for the maintenance of discipline among the students, and shall have the power of inflicting punishments by fines, or expulsion, for breaches of good order and propriety.
4. The Administrative Council shall make regulations for the management of the library and museum.
5. The Administrative Council shall regulate the duties of the porters and servants, and shall have the power of punishing them by fine or removal.
6. The Administrative Council shall furnish to the Council such information as may from time to time be required.

#### CHAPTER V.—OF THE REGISTRAR.

1. There shall be a Registrar of the school, whose duty shall be to prepare and have charge of the records of the school; to keep all registers and books of account which may be requisite, and to conduct all correspondence and answer all inquiries connected with the school.

#### CHAPTER VI.—OF CURATOR.

1. There shall be a curator of the museum appointed by the Council, who shall have the charge of all the minerals and specimens belonging to the school, and who shall also perform the duties of librarian.

#### CHAPTER VII.—OF CERTIFICATES.

1. No pupil shall be admitted under the age of fourteen years, unless and until he shall have passed an examination.
2. Every student shall upon entrance sign his name in the school roll-book, and make the following declaration:—  
"I do solemnly promise that I will faithfully obey the statutes and rules of the school, so far as they may apply to me, and that I will submit respectfully to the constituted authorities of the school."

3. Four classes of certificates will be issued, namely:—

- 1st. Mining engineering.
- 2nd. Chemistry.
- 3rd. Assaying.
- 4th. Mining surveying.

4. Students who shall have fulfilled all the conditions prescribed by the statutes and regulations for any certificate may be admitted to that certificate, at a meeting of the governors and subscribers.

5. Pupils shall be divided into two classes—one for senior and the other for junior students—which classes shall respectively attend, at the appointed hours, the lectures of the Professors.

6. Students shall be examined half-yearly, and no person shall be admitted to any certificate in the Ballarat School of Mines and Industries till he shall have signed the following declaration in the roll-book:—

“ I do solemnly promise that I will observe the statutes and regulations of the Ballarat School of Mines and Industries, and that I will not make use of the privileges now about to be conferred upon me so as in any way to cause injury to the school.”

7. The fees payable by students and candidates shall be—

<i>For Instruction, including Lectures—</i>	<i>Payable in advance.</i>
Entrance fee .....	£3 3 0
Juvenile pupils, per quarter .....	3 3 0
Adult do. do. ....	2 2 0
Extra charge for Chemistry or Assaying, per quarter.....	1 1 0
 <i>For Certificates—</i>	
1. Mining Engineering .....	£3 3 0
2. Chemistry .....	2 2 0
3. Assaying .....	2 2 0
4. Mining Surveying .....	1 1 0

8. *Regulation for attendance.*—No candidate for any certificate shall be qualified to present himself at any examination without a written statement from the master or lecturer, to the effect that he has attended two-thirds of the lectures in each quarter, unless by special permission of the Council, and pay such special fee for examination as the Council may determine.

#### CHAPTER VIII.—OF MEETINGS OF THE GOVERNORS AND SUBSCRIBERS.

1. The governors and subscribers shall meet in the lecture hall of the school, in the months of December and June of each year.

2. The President or Vice-President shall have power to convene a special meeting of the governors and subscribers.

3. The President or Vice-President shall, within fourteen days after receipt of a written requisition signed by ten governors or subscribers, setting forth the object for which the meeting is to be convened, convene a special meeting of the governors and subscribers.

4. Every such special meeting shall be convened within one calendar month, not less than fourteen days from the date of the notice thereof or the receipt by the President or Vice-President of such requisition, and in the event of the President or Vice-President refusing or neglecting to convene a special meeting within the time prescribed, the requisitionists shall have power to convene such meeting.

5. The governors and subscribers shall have power to adjourn any of their meetings, general or special, from time to time.

#### CHAPTER IX.—OF PRIZES.

A sum of money, to be voted for the purpose by the Council, shall be expended each year in the purchase of prizes.

Adopted 7th December, 1870.

R. W. NEWMAN, Vice-President.  
JAMES BAKER, Secretary.

#### EXAMINATION STATUTES.

In addition to the statutes touching examinations and certificates, and in substitution of the regulations of 7th December, 1870, the following statute is passed:—

*Article 1.*—Entrance examination shall be conducted by the Master upon the application of the parents or guardians of candidates under fourteen years of age for admission to the school.

The subjects of such examination to be—

- First book of Euclid.
- Arithmetic, to Decimals.
- Algebra, to Simple Equations.

*Article 2.*—Examinations shall be holden by the several examiners from time to time appointed by the Council in June and November in each year in the following subjects:—

1. Euclid (first 6 books).
2. Algebra, to Quadratic Equations.
3. Logarithms.
4. Trigonometry.
5. Description and use of Mathematical Instruments.
6. Drawing, including Plans and Sections and plotting from Field Book.
7. Mining and Land Surveying.
8. Levelling.
9. Calculations of Areas and Quantities.
10. The Principles of Mining, including ventilation of mines.
11. Drawing Plans for and construction of Machinery.
12. Selected Specifications.
13. Mechanics—Theoretical and Applied, with calculations of strength and strain of materials.
14. Natural Philosophy, including Heat, Hydraulics, Hydrostatics—the Steam-engine.
15. Mineralogy.
16. Geology as applied to Mining.
17. Metallurgy—Theoretical and Practical.
18. Assaying.
19. Inorganic Chemistry—Theoretical and Practical.

*Article 3.*—Any pupil of the school, and any student of the University of Melbourne or of any Technological School in the Colony, and any person presenting a recommendation signed by two governors of the school or by a member of the Council of the school, may present himself for examination in all or any of the subjects included in Article 2 of this statute, but must give not less than fourteen days' notice of his intention, and in the case of a person not being an enrolled pupil of the school, must pay to the Registrar a fee of 2s. 6d. for each subject in which the candidate proposes to present himself for examination.

*Article 4.*—A candidate for examination passing in any subject of examination shall be entitled to a certificate of his having passed in such subject on payment to the school of a fee of 5s. for each subject in which he shall have passed.

*Article 5.*—To entitle any person to a certificate in mining surveying, mining engineering, assaying, or chemistry, under Chapter VII of the statutes, he must have enrolled himself as a pupil of the school, and if above fourteen years of age such enrolment may be either before or after he shall have passed in any of the subjects of examination, and must pass the school examinations in the following subjects:—

*For*

*For the Certificate of Mining Surveyor in—*

The first six books of Euclid.  
 Algebra to Quadratic Equations.  
 Logarithms.  
 Trigonometry.  
 Description and use of Mathematical Instruments.  
 Drawing, including Plans and Sections and Plotting from Field Book.  
 Mining and Land Surveying.  
 Levelling.  
 Calculation of Arcs and Quantities.

Candidates may either present themselves for all these subjects at one examination, or they may present themselves for the first three subjects at one examination, and for the remaining six subjects at a second examination, but not more than two half-yearly examinations must intervene between the first and second examinations.

*For the certificate of Mining Engineer—*

The candidate must, in addition to the foregoing subjects of examination for certificate of surveyor, pass in the following subjects:—

Mineralogy.  
 Geology, as applied to mining.  
 Metallurgy.  
 Inorganic Chemistry, Theoretical and Practical.  
 Assaying.  
 The Principles of Mining, including Ventilation of Mines.  
 Drawing Plans for, and Construction of, Machinery.  
 Selected Specifications.  
 Mechanics, Theoretical and Applied, and calculation of strength and strain of materials.  
 Natural Philosophy, including Heat, Hydraulics, Hydrostatics, the Steam-engine.

Candidates may either present themselves for all the above subjects at one examination or they may present themselves for the first five subjects at one half-yearly examination, and the remaining five subjects at a second examination, but not more than two half-yearly examinations must intervene between the first and second examinations.

*For the certificate of Assayer—*

The candidate must pass in—

Assaying.  
 Metallurgy, Theoretical and Practical.

Candidates may either present themselves for both of the above subjects at one examination, or they may present themselves for the first subject at one half-yearly examination, and for the remaining subject at a second examination, but not more than two half-yearly examinations must intervene between the first and second examinations.

*For the certificate in Inorganic Chemistry—*

The candidate must pass in—

Inorganic Chemistry.  
 Practical Chemistry.

Candidates may either present themselves for both of the above subjects at one examination, or they may present themselves for the first at one examination, and for the last at a second examination, but not more than two half-yearly examinations must intervene between the first and second examinations.

*Article 6.*—A pupil of the school intending to present himself for examination for any certificate provided for in Article 5 of this statute must give not less than fourteen days' notice to the Registrar of his intention, and pay the fee of 5s. for each subject in which he shall pass.

*Article 7.*—The following fees shall be payable to the school by pupils who shall have passed the necessary examination to entitle them to any of the following certificates:—

For the certificate of Mining Surveyor.....	£1 11 6
"    "    Mining Engineer.....	2 2 0
"    "    Assayer.....	1 1 0
"    "    in Inorganic Chemistry .....	1 1 0

Adopted by the Council, October 24th, 1872.

R. W. NEWMAN,  
 Vice-President.  
 W. H. BARNARD,  
 Registrar *pro tem.*

At a meeting of governors and subscribers held on the 8th day of February, 1872,—  
 It having been resolved,—“That other examinations than those which were originally contemplated be holden and certificates granted, the following statute is passed, and shall be taken as an addition to statutes already passed relative to certificates and examinations.”

*Article 1.*—Examinations in the several subjects set forth in Article 3 of this statute shall be holden by the examiners from time to time appointed by the Council in July and December in each year.

*Article 2.*—Any person may present himself for examination in the subjects referred to in Article 3 of this statute, but must give not less than fourteen days' notice of his intention, and pay to the registrar a fee of 2s. 6d. for each and every subject.

*Article 3.*—To entitle any person to a certificate as captain of shift, underground manager, engineer, or engine-driver, he must have enrolled himself by payment of a nominal entrance fee of 2s. 6d., and have subscribed the required declaration as a pupil of the school either before or after he shall have passed the school examinations in the following subjects:—

*For the certificate of Captain of Shift in—*

Keeping men's time.  
 Sinking and timbering shafts.  
 Opening out and timbering chamber.  
 Cutting and timbering drives.  
 Fixing and management of pumps.  
 Measurement of firewood.

Every candidate for certificate as captain of shift must have been employed at least three years as a miner, or one year as a captain, and must produce satisfactory certificates thereof, and of good conduct, to entitle him to be examined.

The examination of captains will be *viva voce*.

*For the certificate of Underground Manager—*

The candidate must, in addition to the foregoing subjects of examination for certificate of captain of shift, pass in the following subjects:—

Preparation of wages sheets.  
 Surveying surface and underground and plotting.  
 Ventilation.

Every candidate for certificate as underground manager must have been engaged for a period of two years as captain of a shift, or one year as underground manager, and must produce satisfactory certificates thereof, and of good character, to entitle him to be examined.

The

The holder for one year of a 1st class certificate as captain of shift shall be entitled to be examined for an underground manager's certificate.

The examination of underground managers shall be in writing.

For the certificate of Engineer—

The candidate must, in addition to the subjects of examination for certificate of engine-driver, pass in the following subjects:—

- Power of engines.
- Pumps.
- Strength of materials.
- Deterioration of materials, &c.
- Setting boilers.
- Strength of boilers.
- Safety valves.
- Miscellaneous.

Every candidate for certificate as engineer must have been engaged for a period of five years in either branch of mechanical engineering or as engineer at a mine, and must produce satisfactory certificates thereof, and of good character, to entitle him to be examined.

The examination of engineers shall be in writing.

For the certificate of Engine-driver—

The candidate must pass in the following subjects:—

- Feeding boilers.
- Safety valves.
- Working of engines.

Any person who shall have been engaged in driving or stoking and driving a stationary locomotive or marine engine for a period of one year, and shall produce a satisfactory certificate to the effect that he has while so engaged efficiently discharged his duties, shall be entitled to be examined for a 3rd class certificate.

Any person who shall have been engaged for a period of one year driving a stationary locomotive or marine engine, and also for a period of one year in driving a winding engine, and shall produce satisfactory certificates to the effect that he has while so engaged efficiently discharged his duties, shall be entitled to be examined for a 2nd class certificate.

Any engine-driver who has held a 2nd class certificate for a period of one year, and has during that period performed his duties satisfactorily to the engineer under whom he has been employed, shall, on production of a certificate to that effect, be entitled to be examined for a 1st class certificate.

The 1st and 2nd class certificates shall be for driving winding engines, and the 3rd class for driving pumping, puddling, and crushing engines, and each certificate shall specify the description of engine which the holder is competent to drive.

Candidates for engine-drivers' certificates must produce satisfactory testimonials of character.

Article 4.—The certificates to be granted to candidates who shall have passed the necessary examinations as engine-drivers shall be of a 1st, 2nd, and 3rd class respectively.

Article 5.—The certificates to be granted to candidates who shall have passed the necessary examinations as engineers, underground managers, and captains of shifts, shall be in each case of a 1st and 2nd class.

Article 6.—The class of certificate to be granted to any candidate, except as hereinbefore provided, shall depend upon the nature and number of the questions answered to the satisfaction of the examiners, and upon the nature of the testimonials of character and ability produced.

Article 7.—Every certificate shall be in the form subjoined, and shall be subject to the right of the school, by its Administrative Council, to cancel or suspend the same in the event of the misconduct or negligence of the holder of the certificate, the nature of such misconduct or negligence to be determined by the Administrative Council upon such inquiry and in such manner as they shall consider just, and such determination shall be forthwith published in the Government Gazette and such newspaper as the Administrative Council shall in each case deem expedient.

FORM OF CERTIFICATE.

THIS is to certify that A.B., whose signature is hereto appended, has passed the examinations of the School of Mines, Ballarat, and that the Council, on the report of the examiners, have awarded to the said A.B. a class certificate for competency, experience, steadiness of conduct, and skill, to discharge the duties of

Given under the seal of the School of Mines, Ballarat, } [L.S.] C.D., President or Vice-President.  
 this day of , . . . . . } E.F., Registrar.

This certificate is liable to suspension or cancellation, and publication of such suspension or cancellation, in accordance with the provisions of Article 7 of the statute, in the event of any misconduct or negligence on my part.  
(Signature)

Article 8.—The fees payable to the school by candidates who shall have passed the necessary examinations entitling them to certificates shall be:—

For the certificate of captain of shift .....	£0 10 6
"    "    underground manager .....	0 10 6
"    "    engineer .....	1 1 0
"    "    engine-driver .....	0 10 6

Adopted by the Council, October 30th, 1872.

R. W. NEWMAN,  
 Vice-President.  
 W. HY. BARNARD,  
 Registrar.

Address on the Opening of the School of Mines, at Ballarat, Victoria, delivered by His Honor Sir Redmond Barry, on Wednesday, 26th October, A.D. 1870.

MR. Chairman, and Ladies and Gentlemen,—We assemble this evening to elect directors for the management of the School of Mines for Ballarat. It affords me much pleasure to assist on the occasion. My good fortune has associated me before this with the inhabitants of Ballarat in furthering the cause of voluntary mental improvement. Their zeal, discretion, and perseverance prepared me for the exhibition of similar invaluable qualities in the members of your provisional Council; that expectation has been completely realized; and their exertions, ably regulated by the good judgment and unwearied assiduity of your provisional Vice-President, Judge Rogers, have matured within a short time, and in the face of many difficulties, the plan for the organization of the school.

My first duty is to thank very heartily the gentlemen who initiated these proceedings for the honor they have conferred on me by naming me the provisional President, and to assure them, as well as the members of the provisional Council, that I am very sensible of the distinction. Indeed, these gentlemen have left me nothing more to do now, and but little to say, because as the school has become, in the phraseology of the day, "an accomplished fact," it may be presumed that everything connected with its establishment and maintenance has been thoroughly debated and determined upon. Nevertheless, it is quite possible for an entire community to accept the conviction that it is expedient and desirable to open a school, and yet it may not present itself to the minds of all that the maintenance in a perfect state of efficiency will require something more substantial than their mere approval of the project.

You

You may already have considered the advisability of making this a proprietary establishment. Such a system possesses numerous advantages, not the least of which is the direct pecuniary interest which the proprietors have in the good management. This has a talismanic effect on the regular attendance of directors.

You may reasonably expect that the Government will help you, more particularly as in other countries where such schools exist they originate with and are supported mainly at the cost of the State, and especially as you have proposed to give to the Crown the power of nominating six of the members of your Council. You may for the like reason look for the support of the seven Mining Boards. You may further rely, and with reasonable confidence, on the sympathies of many of the general public. Still something more is required. Liberal salaries must be provided for your masters, lecturers, and teachers: a library must be formed; collections of minerals, models, &c., must be made; other things indispensable for the course of instruction must be got together.

You will doubtless see the advantage of founding exhibitions for the encouragement of your pupils; the question of maintenance becomes consequently one which addresses itself earnestly to a much wider circle than the audience who honor us with their presence here to-night.

Although it be not probable that in this community, so forward to avail itself of opportunities to assist in enlightened movements, any will be found actually opposed to the establishment of this school, there may be some persons indifferent to change, and of that timid disposition which shrinks from the responsibility of supporting any novel scheme; or perhaps there may still linger amongst us a few of that courageous old conservative stamp who, long since driven from their outworks by the advancing waves of general education, still hold the citadel in defence of the practical man, and contend strongly that all goes on well enough as it is.

The first will meet us with the inquiry—What is the use of such an institution? When such questions were put to Benjamin Franklin, not unfrequently in the vein of petulant interrogation, depreciating the value of his scientific pursuits, the philosopher replied by asking another, "What is the use of a baby?" Indeed, as an abstract proposition it is not easy for any person, except the idolising mother or proud father, to pledge himself prospectively for the eventual utility of any individual infant. Yet Wordsworth has said:—

"The child is father of the man;"

Or, as was sung before by Milton—

The childhood shows the man,  
As morning shows the day.

And truly the culture of this scion, which is to be developed into a rational, accountable member of the body politic, clothed with his rights and duties, and his responsibilities here and hereafter, is deserving of our solicitude.

Those who have meditated on the subject have been made uneasy by the growing tendency to obliterate childhood—to hurry on our youth either to drudgery for which the physical powers are unequal, or to occupations which induce an impatience of parental control—an independence for which it is not ripe; and disquieted by the fatal propensity to sharpen youths, who should be boys, into imperfect men. In no regions can uneasiness on this point be more keenly felt than where the population lives in that state of chronic excitement caused by the search for gold, amongst which speculation is so rife, so stimulating, so contagious. Nowhere can the compensating influences of education be more required to moderate these precocious inclinations; and no kind of education can be devised better suited to calm the juvenile enthusiasm, to steady the volatile, and give a wholesome discipline to the mind, than a sound training in moral and physical science, in mathematics, engineering, geology, mineralogy, chemistry, and metallurgy, which we undertake to teach.

This simple statement would, of itself, suffice to show that the school is one of the best and most useful that the community could project. Your excellent prospectus, which has, it is hoped, had an extensive circulation, declares the uses which this school is expected to serve. Quoting from it with your permission, it states:—"The object sought to be obtained is the combination of the highest scientific with the most practical training for all men engaged in the enterprise of mining in its various branches—whether so engaged as mining managers, engineers, surveyors, mechanists, working miners, directors, or promoters of companies."

"Hitherto in this colony no means of scientific education in this most important occupation have been provided. The result has been an enormous waste of capital, time, and labour. Indeed, it may be fairly stated that the present depression in the mining market, and the distrust of mining property as an investment, may in great part be traced to the numerous failures of enterprises either ignorantly entered upon or unscientifically conducted. The scientific education of those engaged in mining pursuits would, it is believed, not merely render gold-mining a safe and generally more productive speculation, but would bring into profitable prominence and activity many branches of mining now wholly neglected, or distrustfully, and consequently unsuccessfully, pursued."

Here, then, is an exposition which completely exhausts the subject, and puts the question beyond the reach of controversy. For institutions, political, social, and educational, there is, as for mankind, an infancy; and you may be congratulated on the rapidity with which this has emerged from its swaddling clothes. The sum of £600, wanted to enable you to commence operations, has been subscribed. The Government has so far recognized your movement as to grant you a lease, at a nominal rent, of the house in which we are met, formerly the building in which were held the sittings of the Supreme Court. It has been repaired and adapted to the requirements, and you are now ready to set work.

If there be amongst us any indifferent to the movement on account of its novelty, to them may be said, with all deference for striking on so low a chord—You cannot afford to be listless—your self-interest demonstrates the imperative necessity for action. Your calling, whatever it may be, is so interwoven with, so dependent on, the mining for gold, which has enlisted so large a part of the population of the district, that the question is brought home to you in a serious light. You cannot decline to move on with the times.

Only sixteen years ago, when the valleys around this spot were crowded with upwards of 40,000 stalwart diggers working amidst the alluvial drifts with an energy almost incredible, an admonition was given, which sounded prophetic, and was consequently disregarded; yet the verification of this has come upon us in our generation with a startling and unpleasant truthfulness.

Many a one of you, when consulting the author of *Siluria*, for guidance in your operations, to which his profound and philosophic investigations have imparted such pre-eminent value, may have paid but scant attention to the conclusion of the sixteenth chapter. Let me read it to you. Speaking of these alluvial workings, he says:—"Now, as every heap of these broken auriferous materials in foreign lands has as well defined a base as each gravel-pit of our own country, it is quite certain that hollows so occupied, whether in California or Australia, must be dug out and exhausted in a greater or less period. In fact, all similar deposits in the old or new world have had their gold abstracted from heaps whose areas have been traced, and whose bottoms were reached. Not proceeding beyond the evidences registered in the stone book of nature, it may be therefore affirmed that the period of such exhaustion in each country (for the deposits are much shallower in some tracts than in others) will, in great measure, depend on the amount of population and the activity of the workmen employed in each locality. Anglo-Saxon energy, for example, as applied in California and Australia, may in a few years accomplish results which could only have been attained in centuries by a scanty and lazy indigenous population, and thus the present large flow of gold into Europe from such tracts will, in my opinion, begin to diminish within a comparatively short period."

These italics are his own. You may answer whether undue emphasis be thus given to the passage. What is the obvious moral to be drawn from this pregnant sentence? Does it not show that what has occurred on this spot within this short time, under our own eyes, proves amply that, in this quarter at least, the era of the cradle and the tin dish has already passed away into an antiquity as dim and distant as the age of Tubal Cain; that the present epoch of deep leads to reach the banks of what were at some remote geological period superficial streams, or to follow out, what may be of still more or less ancient formation, gold-bearing veins of quartz, demand agencies wholly different from those which hitherto sufficed; that while you will still rejoice to possess the help of the miner's brown arm, the time has come when the calculating and inventive brain and the cultivated intelligence must play their part; and that you now must enlist higher forms of sagacity, employ auxiliary forces, and that these forces must be directed to suit the altered circumstances which have arisen.

But our old and valued conservative friends, who conceive that new-fangled ways and contrivances are all weariness and vexation of spirit, and who rest their faith on the proverbial "practical man," will allow me in all amity to remind them that the practical man does not want to be pampered and coddled, to be nurse-tended and protected after their fashion. Self-training, practical experience, hard-earned knowledge, and other similar expressions, worn threadbare long since, are captivating to some. Nevertheless, the self-trained practical man who rises to eminence—after all, one in many hundreds of his order—

is the last person in the community to be seduced by them. He knows that nature's precepts are the same as they have been before all worlds, and that while none can claim a monopoly in them, no one can appropriate them without a long and earnest servitude to acquire them. He recognizes the truth announced by the poet's description of gravitation:—

"That very law which moulds a tear,  
And bids it trickle from its source,  
That law preserves the earth a sphere,  
And guides the planets in their course."

He knows that he has had to earn his knowledge by studying the same laws of nature and physics, and gaining the same general information which others do who have attended schools and universities—a privilege denied to him. He feels that he has had to struggle alone under a thousand discouragements to reach by rugged and circuitous tracks the same goal; that he has been like one trying to decipher unaided a secret writing, who has had to compare symbols in different positions and under different combinations, obliged to conjecture many a time and oft what their meaning may be, until, after a multitude of fruitless experiments, he comprehends their separate and relative significations. No such man would decline the help of teachers familiar with every branch of science he desires to master, or the use of a library, collections of properly classified minerals, which you will doubtless cause to be assembled, or of apparatus to illustrate for him at once problems by which he has been a long time perplexed.

Apart, however, from this, let us view the matter in a broader light, and strike a key more in consonance with the liberality of sentiment with which you wish this matter should be treated. When we reflect on the distinction between science which collects principles, and art which applies them, we may acknowledge the force of the more rational persuasion of enlightened men of every age, that theory and practice, instead of being hostile, are only different phases of the same form of thought, that to impose on them the ban of celibacy is for practical purposes the most impracticable of things, and that they should be allowed to continue undivided, for ever bound together in indissoluble bonds of holy matrimony.

While discussing this, your attention may be called to the opinion of Robert Stephenson. He was, as you know, son of George, father of railways, who, when the unknown brakesman of Killingworth, disputed with Davy of world-wide reputation the priority of invention as well as usefulness of the safety-lamp, and who stinted the indulgence of his days of sparingly-requited labour in order to give his son the best education to enable him to aid his own acknowledged deficiencies. Writing from South America in 1825, whither he had been sent to superintend the working of gold-mines at St. Anna, he says:—"Practical men are certainly to be esteemed as such, but I am far from attaching the importance to them which our masters appear inclined to do. Indeed, in the working of gold and silver in veins in this country it is absolutely essential that theory and practice should be united and go hand-in-hand."

It is difficult indeed to know how to repress this natural proclivity to innovate, or by what rigour to restrain this stationary mediocrity so erroneously attributed to the practical man. He, himself, rises in rebellion against the favourite code prepared for him, for no sooner does he allow his genius to soar above his mechanical occupations, and to speculate on some improvement on his servile toil, than he becomes himself a theorist—one of the obnoxious body of philosophers looked upon as idealists or dreamers.

Is it not manifest then that when a knowledge of mathematics and mechanical principles affecting the direction and pressure of forces, an ability to estimate the strength, the elasticity, and other properties of materials, with a view to economy, convenience, safety, and durability, has been gained by a man before he enters on the practical application of the principles of construction, and sets himself to build a house, &c., he will have an immeasurable superiority over the one whose performances have been for years chiefly imitative, who has not been able to find time to learn, or find others with leisure or inclination to teach him those principles calculated to simplify or expedite his unvarying handiwork, but who has been obliged to rest on the actual experience of his own working hours. Might we not as well expect to find a person skilled in the art of navigation who is ignorant of the science of astronomy; or of mensuration, who knows not geometry; or of logic, who was unacquainted with the science of reasoning; as an engineer, who had not mastered the science of mechanics; or one able to direct the search for and profitable working of minerals, to whom geology, chemistry, hydraulics, and other cognate sciences were not familiar.

The question is sometimes narrowed as to what are the best means of acquiring technical proficiency, and it is asserted that the practical details of civil engineering may be best learned by pupils in the field, and in the offices of engineers engaged in the execution of extensive works—in fact, dealing with the professional man as with an ordinary tradesman, and insisting that he should be taught as is the apprentice to the shoemaker or hatter. Now, we are not obliged to admit or deny this proposition, for it embraces only one portion of the general subject, and the conclusion drawn from it, that private tuition, under an exceptionally favourable state of circumstances in both master and pupil, is, or may be, that best calculated to ensure a certain proficiency, is not the true issue. What is required is, not a partial adept in some one branch, or a few branches of work, but a man with comprehensive learning, which embraces the wide range of philosophic theory, the precepts of which invigorate the understanding, and keep him from the perpetual blunder and mischance into which the practical empiric is so prone to fall; and who, in addition to this, can apply those precepts with readiness and aptitude. Yet even on this point it may be well maintained that isolated pupilage amongst seniors of different dispositions, engrossed with their own independent responsibilities, more prompt to neglect or chide than to instruct, cannot be so congenial to the young man as the association with his fellows of the same age, all mutually bringing to bear on each other in honorable rivalry the knowledge which they daily acquire. And as it is in a great degree a parent's question, the school presents the protection of superintendence, the exercise of moral restraint, and the absence of temptation to idleness and dangerous self-indulgence, not so well insured against in the early emancipation of the other system.

But what testimony can be more eloquent than the lamentations of our most distinguished practical workers at their not having been blessed with the benefit of education in early life? What more touching than their struggles, what more worthy of respect than the spirit of inquiry and perseverance by which they were animated? What more convincing than the care they took and the expense they incurred to secure for their children that early instruction the want of which was by them so feelingly deplored? However profitable it might be to exhibit instances of this, displaying in almost every variety of form, intelligence, strength of character, firmness of purpose, frugality, intense sensitiveness, and many a manly virtue—such would be more suitable for another occasion.

It is not to be imagined that those invited to give their support to this institution are to be stirred solely by appeals to self-interest, or by an exposition of the fallacies of obsolete prejudices. Members of an intelligent community, when in search of reasons to guide them at such a juncture, will look back upon the experience of the past to guide their actions, forward for a motive for their conduct.

Now, there is in history, perhaps, nothing more deserving attentive consideration from the point of view we are now regarding it than the astonishing impulse given to all the industrial and mechanical arts since the beginning of the present Century. That this is to be ascribed in some degree to the increase of population and the very augmentation of wealth which reduplicates itself, is true; nevertheless far the greater portion of the prosperity is due to the improved means of intercourse, the discoveries painfully elaborated by means of the singular intellectual activity of the age, the spirit of inquiry, and the bold and persevering researches of scientific men. While nothing is so truly surprising as to observe the rapidity of development of several of these grand implements of pacific revolution swelling from the tiny nucleus which was seen on our own horizon to the gigantic proportions which they have already assumed.

Chemistry, enfranchised from the superstitious trammels of alchemy, had moved forward for some time with halting steps and slow; but it is within our own day, so to speak, that she has enlisted the services of those utilitarian workers, unnecessary to enumerate by name here, who investigated the mysteries of nature, evolved from inert matter a host of elementary substances, the existence of which as such was unsuspected before, capable of forming new alliances, and in simple compound or allotropic forms delighting us by the unexpected nature and energy of their action, their usefulness, and their beauty. Operations in most of the industrial arts, including the cultivation of the soil, were now conducted upon true principles of economy, are largely indebted to the discoveries of chemists, and it is well known that some, productive of no inconsiderable gains, could not be worked profitably but for the appliances thus obtained. At the same time, in the more speculative walks of science, it is with her help that astronomers, now learned in the laws which govern the composition and relations of the rays of light, and using the spectroscope, are enabled to determine the primary constituents of planets which lie beyond the limits of space reached by the best optical instruments employed by their immediate predecessors.

Electricity, but recently deemed a pursuit only for the amusement of the curious, has been enlisted as an additional servant, obedient to man's behests, and exhibits its tractability to perform offices of the most various kinds. The years 1793-4 witnessed

witnessed the contention between Galvani and Volta,\* which established the distinction between animal and contact electricity, and now we hear of electro-magnetism, diamagnetism, magneto-electricity, magno-crystalline action, diamagnetic polarity, and hundreds of other wondrous things which wait on Dr. Tennant like attendant Ariels on the magician Prospero. The electric light irradiates the blackness of darkness with its peculiar effulgence. The telegraph wire, conveyed by land and under the sea for hundreds of thousands of miles, flash messages everywhere—already almost round the globe—a circuit which it is expected will be complete in less than three years; and powerful magneto-electric machines worked by steam generate heat which yields a current of electricity used to produce a chemical change in the precious metals, and deposit gold and silver on moulds with a delicacy and precision incapable of achievement by the hands of the most practised goldsmith.

Steam, substituted for the uncertain powers of water and wind, and for the muscle, sinew, and nerve of man and beast, saved from waste, or called from a dormant state into existence as a labour agent, and directed at will, now accomplishes more work than could be performed by the united operation of the adult male members of the human race; and the daily growth of perfection in the construction of machinery, as also the adaptation and adjustment of each kind to its special duty, so augments the power of production, in a ratio of such velocity, as to set completely at defiance the sobriety of calculation of what it may reach within the next fifty years.

Or take the advance of engineering science in the improvement of means of locomotion, from the canals of Brindley, Rennie, and Telford, to the railroads which now traverse continents, scale mountain ranges on gradients within our memory deemed impracticable,† perforate Alps through tunnels excavated by methods of applying the forces of water and of air, as new as they have proved effectual. It may be observed incidentally that this process is now being worked at Waltham, near the Tangil mines of Gippsland. Also to cross straits and rivers by such bridges as those of Menai, of Montreal, of Friburg, of Niagara, or valleys by such viaducts as the Indre, Nogent Sur Marne, or of Congleton, or our own highly creditable Moorabool, only 66 feet shorter than the great wrought-iron tubular Britannia bridge.‡

Or consider the progress made in providing for means of accelerated intercourse on the ocean, the highway of nations, from 1802, when the first steam-tug was launched on the Clyde, and compare her lilliputian apparatus with the engine used in many a Cornish mine, or those which worked the pumps, with cylinders 144 inches in circumference, employed to drain the lake of Haarlem. Or contrast the first steam passenger vessel, the "Comet," which plied on the same river in 1812, with the "Great Eastern," 619 feet long, or 87 feet longer than St. Peter's at Rome, registering 18,914 tons, with a capacity of 25,000, built of iron, a species of engineering Cosmos, containing within herself an example of almost every improvement in construction known when she was built, moving through the water under two independent systems of propulsion, paddle-wheels and screw, of the power equal to the combined strength of 8,400 horses, as large, in fact, as 350 vessels of the size of that in which Christopher Columbus ventured to cross the Atlantic.

A leap like this is almost as great as was accomplished in naval architecture in three thousand years, from the launching of the good ship "Argo"§ to that of the "Comet."

No attempt is made in this cursory retrospect to present to you anything not known to all of you. My desire is to suggest by this brief recapitulation an idea which arises out of it. Each of these sciences, with many others to which no allusion has been made, are the willing handmaidens of the art of mining. Knowledge of the suitable locality in which to sink your shafts, and of the direction in which to push your drives—how to support them with due regard to economy and safety in working them, to drainage, lighting, ventilation, and the precautions for the preservation of health and life, the expulsion of foreign subjects which detract from the value of the ore and interfere with the direct action of your quicksilver on gold, or of the fluxes and reagents employed for refining other minerals, even the means of speedy carriage to the port of departure and transit to the ultimate market—concerns you all; and though it may not enter into the calculation of the gentlemen who with such eagerness ply their vocation in the sale of scrip at your "Corner," ignorance, or the misapplication of ill-digested science in the elaboration of any one of the stages of the lengthened series of operations, may make a sensible difference in the actual tangible amount of the dividend promised when you associate yourself with the latest "floated" company, professing to be conducted on the most approved scientific principles.

We have glided so imperceptibly into the enjoyment of many advantages, comforts, and luxuries, the offspring of these discoveries—we have familiarized ourselves so complacently with the results—that we do not fatigue our minds to investigate how these results have been brought about; nor do we reflect as attentively as we should do what the future of this country is to be, and how those who succeed us must acquit themselves.

\* Galvani attributed the contraction of the muscles of the frog's legs to animal electricity. Volta accounted for the phenomenon by the contact of the heterogeneous metals, zinc, &c., within the muscles. Galvani replied by showing that the contraction may be produced without metals. Volta retorted by producing electricity without frogs.

† The Summering, between Gratz and Vienna, 1 in 40; the Bohr Ghaut, between Bombay and Poona, 1 in 37; the Blue Mountains, between Sydney and Bathurst, 1 in 30; Mont Cenis, 1 in 13.

‡ 1. Menai, 570 feet long, — feet above the water; 2. Britannia, 1,458 do. — do.; 3. Montreal, 6,592 do. — do.; 4. Friburg, 880 do., 150 do.; 5. Niagara, 500 do., 350 do.; 6. Indre, 2,463 do.; 7. Nogent S. M., 2,722 do.; 8. Congleton, 2,870 do.; 9. Moorabool, 1,426 do.

§ The Argo is described as a pentaconter, propelled by fifty oars; she carried fifty horses, as some authors say, or 100 according to others. The pseudo-Orpheus\* sings, that after Jason had taken the golden fleece he passed up the Tanais, and the ship was transported by land to the head waters of a river which flowed into the Baltic. Hence she made her way through the German Ocean by Ireland to the Straits of Gibraltar, and up the Mediterranean to her port of departure. She must thus have been of light construction, and a tolerably good sea boat. Others† tell us she returned by the Southern Ocean, which, to meet the exigencies of that version, flowed from the Red Sea across what is now the dry land of Northern Africa. Prose authors,‡ to whom of course the least credit is given, suggest as likely that she came back the way she went. Unravelling the meaning of traditions, respective events said to have happened about a generation before the siege of Troy, may amuse antiquarians and perplex historians, but is not very profitable to us. Still you may be detained for a moment, as one of the interpretations of the objects and results of this expedition goes to show the antiquity of one of the contrivances employed in gold-washing; and that it has been perpetuated by the like means and by artificial substitutes amongst various people, separated from each other by distances of time and space. We may suppose that the people of Colchis were in the habit of collecting the particles of fine gold washed down from the Caucasus by placing sheepskins in the stream, as is now done in South America by using ox-hides for that purpose; or as it is done daily at every quartz claim here by placing baize or blankets on your shaking-tables or ripple-boxes, to the pile or filaments of which the laminated gold adheres. The strictness with which they preserved the secret, and the jealousy with which they protected their treasure, may account for the fable of the golden fleece guarded by dragons. Chrysonallus, the gigantic ram, engendered by the god Neptune and Theophane, daughter of Brisaltis, King of the Island of Cremliss, may then be sobered down to a sagacious old gentleman who combined the operations of sheep-farmer and alluvial digger—who depastured his numerous flocks on the banks of the Phasis, between Trebizond and the Straits of Kertch, and turned his fleeces to a double purpose—subject, nevertheless, to the royalty imposed by King Aetes; that Jason, a buccaneering young Greek, invaded the country, and contrived to outwit the monarch, eased him of his two chief staples of export, wool and gold, eloping at the same time with his daughter, the fair enchantress Medea. Another instance of the similarity of the method of mining in ancient times and in modern days, when resort is had to simple means unaided by scientific appliances, is furnished by Monsicur Caillaud, the persevering mineralogist, who recently discovered the famous emerald mines of Mount Zeborah, in the Isthmus which separates the Nile from the Red Sea; and confirms in all respects the testimony of Strabo and other writers. Worked during the dynasty of the Ptolemies, more than 2,000 years ago, excavations following the veins of mica, talc, and schist were driven for many hundred yards into the granite mountain. Subterranean canals, huge causeways, and other massive structures, show on what an extensive scale, and on what rude and uninformed principles, the work was carried on. It would seem that the operations were suspended, and the miners withdrawn suddenly, from what cause is unknown (not improbably from a panic fear of goblins, ghouls, or evil genii entertained by the superstitious workmen), for ropes, baskets, levers, grinding-stones, vases, lamps, tools, and utensils, in all respects like those in use by the Arabs of the present time, were found lying about, as though the owners had retired five minutes before these implements were found.

The Latin version of the portion of the *Argonautica* of the pseudo-Orpheus relating to this (*ineert. auct.*) is given:—

Inde sub Arctoio angusto rapta meatu,  
Finitibus oceanum versus prolabitur Argo,  
Defessi noctesque novem, totidem quoque soles  
Iniquimus hinc atque hinc ignotas nomine gentes,  
\* \* \* \* \*  
Atque ubi diva diem jam clarum Aurora revexit  
Rhiphaeas valles attingimus, inde repente  
Prosiliit angusti puppis per littora ponti,  
Oceanumque intrat, Saturnius ipse vocatur  
Pontus Hyperboreis à gentibus, et mare mortuum,  
Unde etiam lethum fugiendi nulla fuit spes,  
Ni puppiis validis Aeneas viribus actam,  
Innixus pulchra temonibus arte dolatis,  
Dextra coëgisset cursum per littora ferre.  
\* \* \* \* \*  
At multa Aeneas temonem dirigit arte,  
Insulaeque ante omnes offertur Iernis, et Argo  
Insequitur metuens atram non stulta procellam,  
Nelaque franguntur.

\* Of this way of thinking are also Timæus and Semyrus of Chios.

† Pindar, Pythian Ode 4

‡ Herodotus and Diodorus Siculus.

Our most accomplished geologists assure us that the area of auriferous drift is far from having been yet explored; that the extent of gold-bearing rocks is wholly unknown; that the depth to which they may be profitably worked is still undetermined; that unmistakable indications announce the presence of other minerals of no mean value; while the natural products already so abundantly cultivated, and those capable of bearing acclimatisation, display unbounded resources to employ industry, and for manufactures demanding a higher order of scientific and technical instruction than has been hitherto available for their judicious development. For it is not by wrestling against the inflexible laws of nature which compel the industry of man to conform to the conditions of soil and climate, and the limits of his own knowledge; nor by ill-advised competition with the capital of older communities, employed under circumstances which give it an overwhelming superiority; nor by a contest with the stubborn principles of political economy, that we can expect to establish the permanent prosperity of our adopted land.

We are not, even in our time, satisfied to import the discoveries of others, and to invite the man of science and the skilled artisan to direct their operations. Australia can point with a modest satisfaction to the invention of Osborne in photo-lithography, and the test for blood by Dr. Day; to the cure for snake-bite by Professor Halford; to the method of removing pyrites, that inveterate enemy of the metallurgist, as well as the native alloys from gold, and toughening the metal by the use of chlorine gas, by Mr. Miller, of the Sydney Mint; to the scientific preservation of the meat of our redundant flocks and herds, so largely exported; and also to many others, mention of which would detain you too long, the omission to specify which will be pardoned, and not deemed invidious by the able and zealous men to whom the community is so much indebted.

Far be it from me to depreciate the benefits to be derived from sitting at the feet of those great masters who instruct mankind in Europe, or to underrate the incalculable advantages to be gained by travel in expanding the mind, making it receive readily, almost involuntarily, impressions of the most improving description. Still, it is not to be supposed that parents will sever themselves from their children, or that they can afford to incur the risks and expense of educating their sons in another hemisphere, when it is possible to procure for them, all things considered, a good training in this busy human hive, where, in the midst of mines, factories, and workshops, with gifted operatives in every branch of every trade at hand, opportunities for the technical illustration of every department of theory exist, such as it is rare indeed, if not impossible, to find assembled in any other spot in such close proximity. We should not, then, ungraciously under-estimate the faculties of our young men, and deem them incapable of holding their ground with their own relatives resident in the countries from which we have come. We should not act towards them in a manner at once ungracious and unjust, by denying them means to prove their ability and to try their constancy.

As the ranks of the learned professions become more densely filled, other sources of equally useful and honorable employment must be sought for those who come after. Your surveyors, your engineers, your architects, must be called into existence here, and the time will come when Victoria may, with pride, address to her own sons the mandate—

"Bid harbours open, public ways extend,  
Bid temples worthier of God ascend,  
Bid the broad arch the dangerous flood contain,  
The mole projected break the roaring main,  
Back to his bounds their subject sea command,  
And roll obedient rivers through the land."

Let those, then, who desire that such things should be come to the front, and with good will and open hand support your school.

It is not my intention to delay you by dilating on the detail of the course of study to be pursued here, already mapped out with much discernment from those of the great schools of Europe, our safest guides. You would not, however, excuse a neglect to acknowledge gratefully the obligation we are under to the eminent geologist Sir Roderick Murchison, the venerable director of the Jermyn-street School of Mines, for the advice with which he has kindly favoured us, and the donation of books which form so acceptable a contribution to our library. That he should express, as he has done, a lively interest in the formation and success of this school is natural, when so many references are being constantly made by him to the geology, natural history, and peculiar characteristics of this portion of the globe. In his address to the Royal Geographical Society in May, 1868, he made especial allusion to the subject when passing on Sir Charles Lemon (a name honored by every true Cornishman) a well-deserved eulogium, of whom he says:—"In a word, no man of my time was ever more generally respected and beloved"; and adds,—“In the year 1846, being President of the Royal Geological Society of Cornwall, he invited me, his guest, to attend an anniversary meeting of that body, and say something which might give encouragement to the tin-miners, who were at the time in a suffering state, and many of them out of work. It was then—referring to what I had been speculating upon in our own society and at other places in the two previous years, as to the auriferous character of the Australian rocks when compared to those of the Ural Mountains—that I ventured to counsel these tin-miners to emigrate to Australia and dig for gold. Some of them took my advice, and in 1848 I was in possession of small specimens of ore sent home by them. Thereon I took more courage, and warned Her Majesty's Government of the great event which was about to be fulfilled. I will only add that the so mis-called discovery of gold, *i.e.*, the diggings, on a profitable scale, were not opened out till 1851, and that my much earlier letter to the Colonial Secretary is printed in the Blue Book on Gold.”

Having, as it is my apprehension, already trenchanted too largely on your indulgence, you will allow me, in conclusion, to add that there is one principle which cannot be too forcibly recommended to you, in the value of which the rational concurrence of the Council may be expected. It is, that the standard of the education to be given in the school be fixed sufficiently high at first, and kept up, unreaxed by a too ready compliance with ill-judged solicitation or remonstrance. You are aware that the teaching is to be special—of a nature to unfold the most active faculties of the pupil's mind—not by dwelling exclusively on the ideas of others, but by enlarging the circle of his own thoughts, and inculcating an habitual self-reliance. The teaching must therefore be thorough and honest, or it may not only be useless, but mischievous and dangerous.

We charge ourselves with the training of young men, to whom may eventually be entrusted the expenditure of considerable sums in preliminary inquiries and trials, on which will depend the investment of capital (to form, perhaps, in some instances, the source of maintenance for persons who cannot labour), the preservation of property liable to injury or destruction, the winning of minerals under circumstances of uncertain and unexpected danger, and who will consequently be responsible for the safety of lives of many human beings. Such training is different in quality from that in other schools, in which the precision exacted by physical science is not enforced. There are no degrees of mathematical accuracy—the results must be correct, or they are wholly vicious. Moreover, the admixture of subjects, practical and theoretical, to be taught here will have a peculiar use in enabling you to resist any such attempts—the pupil's hand will be busied in forwarding the improvement of his understanding. When employed in tracing, fitting, moulding, verifying, and putting together the parts of machinery, in making drawings, working plans, &c., calculating quantities, he will have to think out the process by which he directs the instruments he uses, in a manner very different, on the one hand, from committing to memory languages or the theories of philosophers; on the other, from the traditional practice of the hereditary artisan. Facilities will be thus afforded for testing the soundness of his work at every stage of his advance. This will, to a great extent, correct the unwholesome system of "cramming." This will show those who imagine that loading the memory with dates, events, maxims, and rules will suffice, that something beyond a superficial varnish of accomplishments is expected here, and that, as when they become professional men, it will be required of them that they will not permit vamping or scamping of work to pass with their approval, so it is their duty now to prepare themselves for the discharge of those responsible functions by a faithful devotion to the course of teaching laid down for them here.

Another feature in this school fortifies the position you may assume. There will be, as it strikes me, something eminently agreeable to the well-constituted mind of a youth who is to attend this school, to behold the full-grown man—perhaps father of a son of his years—applying himself after the exhausting labours of the day to the drudgery of self-improvement. If anything can be conceived more likely than another to arouse the indolent, to abash the trifler, to restrain the irregular, to encourage the diffident, to stimulate the ardent, it should be such a prospect—manhood voluntarily placing itself under the ferrule, and labouring by the voluntary cultivation of the intellect to make itself more useful, more trustworthy, more respected. If there be anything more than another more likely to instil into your young men that reverential feeling towards their parents, and to cherish a due regard for the feelings, the wishes, and the affections of their seniors, without which virtues, whatever be the material wealth of the country, it will not be fit to live in—it is this; if there be anything more likely than another to make them sensible of the wisdom of your strictness and the justice of your severity—it is this. Better for them that our young men should be warned betimes of their inaptitude for the profession they seek to join, by reason of want of capacity, or power of sustained attention which is to qualify them, so that they may fit themselves for some more congenial occupation, than that they should be permitted to lounge through your school empowered to practise on public credulity under the colour of your certificate.

When

When Napoleon I decreed that a University should be established, he proclaimed,—“The Emperor wants a body whose teaching may be free from the influence of the passing gusts of fashion—a body that may be kept moving even though the Government be lethargic.” It is not for us in the modesty of our humble efforts to promulgate such a manifesto; but we may remind ourselves that all who feel an interest in the success of this school, and look forward hopefully to its sending out in fulness of time a band of well-educated professional men, expect that the standard of proficiency once established will not be lowered without substantial reason; also, that such improvements in the system as may be suggested by the intelligence of others, or dictated by our own experience, be adopted without delay. The cautions reiterated on this head by many persons competent to offer unprejudiced comments have been numerous; to multiply quotations would be superfluous, when the principles accord so completely with common sense. It is right, therefore, at the outset, to dispel any expectation which may be entertained by the pupils that the standard of qualification is to fluctuate according to the scale of their shortcomings. The announcement will be the best means of inspiring them to do what is demanded of them.

It is well also to remember that in cases of imperfect training under a system tolerated by supine administration and weak concessions, the discredit will not fall exclusively on the pupil: much will be expected from our teachers, much must be left to our examiners, in whose firmness and discrimination faith must be reposed—a faith which ought not to be lightly shaken. Much will depend on the council of directors you proceed to elect to-night. If it be not unbecoming me to say so, the assurance given by the ability with which the provisional administration has been conducted justifies me in expressing a belief that the gentlemen who are to become the objects of your choice will enter office convinced of their responsibility, and determined to do their duty.

If, then, these precautions being taken, our efforts be crowned by the success we invoke—to the reputation for enterprise and energy in acquiring wealth, as well as for liberality in applying it to the worthiest uses, which was won by your Maiden City before the recently conferred honors were bestowed upon her—you will add the credit of founding an institution calculated to meet a peculiar want of the country and of the age. You will thus elevate her to the level of those venerable seats of learning which, though wanting in many of the natural sources of material prosperity which exist on the surface of the soil around us, and altogether destitute of those found in the earth beneath our feet, are rescued from geographical insignificance and obscurity, and deserve an honorable pre-eminence by reason of the encouragement they afford to literature and to arts of that becoming order which lend a grace to life.

(COPY.)

My dear Sir Redmond,

Jermyn-street, London, 15 March, 1870.

I was much pleased to receive your letter of the 4th January, in which you do me justice in stating that I took especial interest in the Mineral Branch of the Victorian Department of the great Exhibition here in 1862, and I willingly accede to your request—to give you my opinion regarding the best system to be adopted in the establishment of a new Mining School at Ballarat, in Victoria.

I think that with a slight addition and a certain modification the curriculum of studies here may be very efficiently applied to your Colony; but you must add to the studies Elementary Mathematics, or at all events Arithmetic, Algebra, and Trigonometry, which we presume to be acquired by our students prior to their admission.

In a mining colony like Victoria I think that Surveying, both above and below ground, might with advantage be substituted for a course of Natural History; for Geology, including Palæontology and Mineralogy, as well as Metallurgy, being taught, pure Zoology is scarcely called for in your Ballarat school. I do not see that this curriculum need in any way interfere with the University at Melbourne.

I send you by this packet whatever books are at my disposal, which are few in number, as our Government limits presentation and authors' copies to fifty for the world at large.

I remain,

My dear Sir Redmond,

Yours most faithfully,

ROD. MURCHISON.

To Sir Redmond Barry.

## EXTRACTS FROM VISITORS' BOOKS.

His Excellency Sir George Ferguson Bowen, G.C.M.G.—28th May, 1873.

“I have had great pleasure in visiting the School of Mines, and in observing the provision made there for technical and scientific instruction which are so necessary (as I remarked in my reply to the address presented to me) to enable the workman to become an artisan, and the artisan to become the manager of large and important undertakings.”

His Worship W. G. Murray, J.P., Mayor of St. Kilda.—15th November, 1873.

“The impression left on my mind by a hurried visit to the School of Mines is one of admiration at finding that the youth of Ballarat have such thorough means within their reach of becoming better and scientifically acquainted with this wonderful district, and also a feeling of regret that circumstances prevent my entering myself as a student.”

Sir C. Gavan Duffy, M.L.A.—26th February, 1874.

“I have had the pleasure of visiting the School of Mines at Ballarat for the first time, and am much struck by its practical usefulness.”

B. G. Davies, M.L.A.; John Whiteman, M.L.A.; E. J. Dixon, M.L.A.; W. Murray Ross, J.P.; J. M. Templeton, J.P.—Friendly Societies' Royal Commission.—19th July, 1875.

“Having examined the various sections of the School of Mines, we desire to express our satisfaction, and to state that in our opinion it is such an institution as to deserve the support of the Government as a National School.”

The Right Rev. Dr. Thornton, Bishop of Ballarat.—13th September, 1876.

“This my first visit to the School of Mines has sufficed to convince me of the immense practical value of such an institution. So far as I am able to form a judgment, the school seems admirably arranged and organized to the extent of the means at command. I shall feel a very great interest for the future in watching its development.”

Benjn. H. Dods, C.E., Sandhurst.—16th February, 1877.

“I feel much gratified with what I have been shown here to-day, and only trust it may receive that fostering care, not only from the citizens of Ballarat, but also from the Government, to which it is fairly entitled.”

John Garbutt, Principal Ballarat College.—24th March, 1877.

“I have just been through the School of Mines, Ballarat, and was much astonished and pleased with what I saw.”

Rev. F. Coghlan, B.A., Baliol College, Oxford, Chaplain to the Bishop of Perth, W.A.—10th May, 1877.

“I consider the School a great credit to Ballarat, and worthy of the support of the whole Colony.”

The Right Rev. Dr. O'Connor + Bishop of Ballarat.—18th May, 1877.

“I visited the School on the 18th May, and have been greatly pleased indeed by the excellent arrangements of the whole establishment, and more particularly the laboratories. I think it is very much to be regretted that greater interest is not taken in this School both by the Government and the public generally, as it is one eminently calculated to communicate instruction of the most useful as well as interesting kind.”

J. E. Bromby, D.D., Melbourne.—28th May, 1877.

“Every department of the work, not only interesting to inspect, but giving proof of extreme care and attention. Well calculated to further both the mining interest of the Colony and every other metallurgic enterprise.”

His

His Excellency Sir Wm. F. Drummond Jervois, K.C.M.G., Adelaide.—5th July, 1877.

"Extremely gratified at having had the opportunity of inspecting the School, which appears in every respect to be admirably organized, and is calculated to be of great benefit to the community."

H. B. de la Poer Wall, M.A., Hamilton and Western District College, Hamilton.—14th July, 1877.

"I am much pleased with the progress made, and would suggest a great effort on the part of the Council to secure the co-operation of the principals of our leading educational institutions."

Charles H. Pearson, Commissioner of Education.—17th July, 1877.

"I have been greatly pleased with my visit to the School of Mines. It appears to do a great deal of useful work at very small cost."

W. Carrington, C.E., Melbourne.—25th March, 1879.

"Greatly pleased with the models and collection—a credit to any part of the world."

T. Brodrigg, Senior Inspector of Schools, Kew.—7th April, 1879.

"Very much gratified with the excellent arrangements of this institution. I should be glad to learn that additional buildings were provided."

Wm. Nicholas, F.G.S., Melbourne.—27th August, 1879.

"I have had much pleasure in hastily viewing the mineral collection of this School. The collection is much superior to what I anticipated seeing. I shall add to its treasures as opportunity allows me."

T. Couchman, Secretary for Mines, Melbourne.—9th September, 1879.

"I have inspected the School with much pleasure, and consider the arrangements to be very good."

J. Alfd. Griffiths, Assoc. M.I.C.E.; M.I.M.E.; Assoc. R.S.M., London; Whitworth Scholar, &c., Manchester.—28th October 1879.

"Very much interested. The appointments will compare very favourably with the Royal School in London."

The School and Museum are open for inspection free, and an officer is always ready to accompany and afford information to visitors.

The Library contains books of reference, and a case of superior works lent by the Trustees of the Melbourne Public Library.

The Laboratories, open to pupils during Term. Superintendent, Joseph Flude; Assistant, Charles Flude, Asst. S.M.B. Analyses and assays undertaken on application to the Superintendent.

The cost of all the buildings and apparatus to 31st December, 1879, has been £2,932 8s. 1d.

The Chemical Laboratory has eighteen well-appointed tables, with all the usual reagents and apparatus.

The Metallurgical Laboratory comprises, besides twelve smelting furnaces, a weighing-room, samples of ores and tailings, &c., for assay.

Donations of specimens, books, &c. can be forwarded free of cost:—

By the Government Lines of Railway.

„ Messrs. Bright Brothers & Co., by the steamers in which they are interested.

„ the Gippsland Steam Navigation Co.'s steamers.

„ Messrs. W. McCulloch & Co.—Murray River steamers.

„ Messrs. McMeekan, Blackwood, & Co.'s steamers, trading to the neighbouring Colonies.

„ Messrs. McCulloch & Co., and Pernewan, Wright, & Co., to and from Railway Stations.

„ Messrs. Hudson & Watkins, the Tasmanian steamers of which they are the agents.

„ Messrs. W. Siddeley & Co., as Agents for the A.S.N. Company, Sydney; by any of the Company's steamers.

„ Messrs. Cobb & Co.'s coaches throughout the Colony, at half parcel rates.

Any further information relating to the School of Mines can be obtained, either on personal or written application to

W. HY. BARNARD, F.G.S.,  
Registrar.

## APPENDIX X.

### SCHOOL OF MINES, BENDIGO.

*Per Varios Usus Artem Experientia Fecit.*

#### PROSPECTUS:

THIS institution has been founded for the purpose of giving miners and others a thorough education in those subjects that are of importance in any community, but of paramount importance in a district like Bendigo, where the development of mining and the fabrication and erection of machinery have reached so great a height. Persons interested in mining, whether as mine-owners or workmen, are earnestly solicited to further the welfare of this school by subscriptions and otherwise, for it is evident that any means that can be used whereby the production of gold is cheapened, and more effectually carried out, must be of great value to them by making mines payable that are at present unremunerative, thus causing a greater abundance of work for the miner and engineer, and largely stimulating those commercial and manufacturing operations directly and indirectly concerned. It must be borne in mind that the instruction given in this school is eminently practical, and calculated to provide its students with the most approved methods of overcoming the various difficulties of their daily occupations. In other respects, the school must prove of increasing utility to the community. Beyond the occupation of mining, its cognate industries, and the few manufactories already established, it is anticipated that the time is not far distant when woollen and other important factories will be initiated. The school will here be found valuable, by supplying trained talent for the preparation of plans for the various machinery required, as well as for the erection and supervision of the same. The agricultural interest should give its support to the school, for the analyses of soils and manures carried on in its laboratory have a great economic value to the settler. These analyses, if judiciously resorted to, will often prevent a loss, and frequently produce a considerable profit. As the district develops, so it will be the aim of the management of the school to enlarge its operations, and make it the centre for reference and special instruction. To do this, the active co-operation of the public is necessary, not only pecuniarily, but by advice, by employing its pupils, by a preference for its certificated mining managers, engine-drivers, &c., and by gifts of technical books, plans, specimens, and models. The certificate of the school is a guarantee of the competency of the holder, and consequently a valuable safeguard to employers for the lives of their workmen and the security of their property.

*Subjects taught.*—Writing, Arithmetic, Algebra, Euclid, Mensuration, Trigonometry, Plotting, Mechanics, Hydrostatics, Hydraulics, Weight and Strength of Materials, Mechanical, Plan, and Architectural Drawing, Electric Telegraphy, Theoretical and Practical Chemistry; Qualitative, Quantitative, and Blowpipe Analysis; Mining and Land Surveying, Geology and Practical Mining, Mineralogy; Ornamental, Landscape, Freehand, and Model Drawing, Shorthand.

The fees for all these subjects have been fixed unusually low, in order to attract students. Examinations held, and certificates issued, for mining and engine-driving. Examinations on other subjects will be shortly instituted.

#### PLAN OF INSTRUCTION ADOPTED IN THE LABORATORY OF THE SCHOOL OF MINES.

The course of study pursued is so designed that those unacquainted with chemistry at the outset are gradually made familiar with the theory and practice of the science in so systematic a manner that the vast variety of facts is readily retained.

As a preface, a sketch of physics, in so far as they relate to chemistry, is given—light, electricity, heat, and specific gravity coming under notice; the conversion of degrees on various thermometric scales, latent heat, the taking of the gravities of liquids and solids naturally occupying first place. Chemical philosophy is next dwelt on, the laws on which the science depends are

are explained, and the use of symbols, formulæ, equations, diagrams, and atomic weights introduced and expounded. Considerable stress is laid on the atomicity of elements or their quantivalence, a species of exchange, and this is freely illustrated by symbolical and graphic formulæ, according to the most recent theories, the new notation being used throughout. In all subsequent lectures this is brought forward, and used to express the value of bodies in the various equations explanatory of reaction occurring in analysis. The next lectures deal with the most important elementary and compound gases, oxygen, hydrogen, nitrogen, chlorine, carbonic oxide, and anhydride, and light and heavy carburetted hydrogen, all being prepared at the lecture table, their various modes of collection and manipulation shown, and their varied and intrinsic properties exhibited. The nature and properties of flame are then dwelt on, which naturally introduce the use of the blowpipe as a means of research. An especial series of lectures on this instrument is arranged for miners and explorers, in which, after explanations of the more pertinent terms, the detection of metals by the colours imparted to flame, by the colours exhibited with the borax bead, by results on charcoal, including the extraction of beads of metals from their ores, are systematically shown, the course concluding by phenomena exhibited by various non-metallic and saline bodies, with the view to their recognition.

Qualitative analysis, by the wet-way, is then proceeded with, the lectures being arranged so that the science and the art of chemistry go hand in hand. Experiments carefully selected to exhibit the text, in the clearest manner, are performed, the reactions being likewise explained by equations and diagrams on the black-board. This branch is ordered in a methodical manner, the metals being taken chiefly according to their behaviour with group reagents, thus—potassium, sodium, ammonium; barium, strontium, calcium, magnesium; zinc, manganese, cobalt, nickel, iron, aluminium, chromium; arsenic, antimony, tin, bismuth, cadmium, copper; mercury, lead, silver; gold, platinum, &c., &c. The course of study next enters the domain of the acidulous radicals, all the important ordinary, and many of the rarer, being systematically brought forward, their preparation shown, their chemistry duly explained.

The theory of the constitution of salts as a whole is then discussed; next follow lectures on some dietic, tinctorial and other bodies; on starches, sugars, cellulose and gun-cotton; alcohols, ethers, chloroform, glycerine, soaps, oils, fats, resins, camphors, &c., &c., these being determined by the pursuits of the attendant pupils. Throughout the whole course of instruction the various scientific names requisite for the comprehension of the science are gradually introduced and so explained that the mind is not burdened by them, but receives them pleasantly.

The laboratory is a spacious building, divided: one portion containing six various sized furnaces for metallurgical pursuits, with appropriate fixings, and apparatus for distilling. The second, is the general laboratory and lecture room, lighted by skylights; working tables supplied with gas jets, bunsen burners, &c., occupy two sides, the various bottles of chemicals, reagents, apparatus, &c., being at hand. Not only are the bottles clearly labelled, but the chemical constitution and composition of their contents shown as aids to the pupils in their work. Upon a solidly built pillar rests one of Birtling's assay balances, moving to the thousandth of a grain, other coarser scales being likewise at hand, analytical charts and table of the elements are suspended on the walls for reference, some standard works on chemistry are available, and liberal supplies of glass tubes and appliances are provided, free of charge, to the students.

That useful work is performed by the lecturer on chemistry, for the public, and for private persons, may be seen by the following list of some of the analyses made in the building, and extracted from the laboratory book.

Analysis of sodawater, colonial ale, magnesium lime stone, road metal, well water, caustic soda, lime stone, tin ores, oxide of manganese, contents of stomach in cases of poisoning, samples of genuine and spurious porter, yellow soap, water from mines, several samples; gas liquor; auriferous quartz from Western Australia; copper ores from Queensland; water from local brewery; mineral for the Government Geologist, New Zealand; and some dozens of samples of pyrites, mundie, blanket sand, galena, antimony ores, &c., &c., from local and foreign mines.

Lectures on Geology and Mineralogy, as applied to Mining, &c., by William Nicholas, F.G.S. (Lecturer on Mining, Melbourne University.)

SYNOPSIS OF LECTURES.

Value of a general knowledge of Geology to Miners, Prospectors, and Mining Investors, Engineers, Architects, Farmers, &c., especially in colonies.

Outline History of the Primary Rocks, particularly Granite and Silurian: their natural joints, &c.

Auriferous Belts in Victoria.

Birth (origin), Growth and Structure, Death and Disintegration of Quartz Reefs, Casings, &c.

Classification of Auriferous Quartz Reefs in Victoria:—

1, Regular Reefs; 2, Irregular Vein Foundations; 3, Cross Reefs; 4, Veins in Dykes; 5, Veins in Granite

(Illustrated by Sections of Reefs at Sandhurst, Clunes, Ballarat, Stawell, Walthalla, &c.)

Shoots of Gold, their dips; Nuggets in Reefs.

Strikes (bearing) and Bends; Underlies and Widths of Reefs.

Antimony Veins, Peculiarities, &c., of.

Lava and Elvan Dykes.

Slides; Faults; Earthquakes; Rise and Fall of Ground.

Signs and hints in the Reefs, Casings, and Bounding Rocks, &c., for the use of quartz miners.

Quarrying: Granite, Slate, &c.

Outline History of the Formation of the Secondary and of the Recent Rocks, with reference to their economic mineral contents.

Auriferous Washes, Gutters, Gullies.

Mineralogy: Physical characters; easy tests of economic minerals—worked in mines and quarries.

N.B.—The whole of the lectures will be illustrated by models, diagrams, specimens of quartz and rocks, &c. That the lectures may be easily understood, as few scientific terms as possible will be used.

Examination Papers for Captains of Shift and Underground Managers, June, 1875.

PRELIMINARY QUESTIONS AS TO FORMER EXPERIENCE, &c.

1. Show by rough sketch and explain what is the difference between a mineral lode and an alluvial gutter.
2. Show by sketch and explain what is meant by the terms: *Saddle reef*, *Underlie reef*, and the *strike* and *dip* of a reef or lode, and the *dip* of an *alluvial gutter*. Also explain the meaning of the terms *foot-wall* and *hanging-wall* of a lode, and what is meant by the terms *branches* or *spurs*, and the term *country*. Also, what is meant by the terms *washdirt* and *high reefs* of an *alluvial gutter*. Also give a sketch and explain what is meant by *faults* and *slides*, and *cross-courses*, and their general effects as regards *lodes*.
3. A shaft having been sunk on the course of a lode, or gutter, for the purpose of prospecting and working the same, describe the way in which you would proceed with it, showing the position of the shaft with reference to such lode or gutter, and the method of timbering you would adopt. Show also and explain the method of preparing such timber, both for slabbed shaft, and by framed sets, so as to get the greatest amount of strength from the timber. Candidate to cut out model of set.
4. The shaft having been sunk to the required depth for testing the lode at a first level, without the lode having been cut, describe the mode of procedure you would adopt to find such lode, and the way you would proceed to test it at a further depth when found.
5. Show by sketch or model and explain the method of timbering you would adopt, and the size of timber you consider necessary for securing a drive of the ordinary size, in soft or swelling ground.
6. Having a drawing lift two hundred (200) feet long (as shown in plan), the water being three (3) feet above the bucket door, and the door leaking so much that the pump could not lower the water, how would you proceed?
7. A level having been driven along the course of a lode at a depth of say seventy (70) feet below the one above, the lode varying from say eighteen (18) inches to ten (10) feet in thickness, and underlying say three (3) feet in a fathom, show by sketch and describe the best method of working out such lode, between the levels, so as to properly timber and secure the ground from which it has been taken; provide ventilation to any lower workings, &c.

8. Show by sketch and describe the best method of working out the cap of a saddle reef, or a flat vein, such being of an average width of say thirty (30) feet by fifty (50) feet deep through the lode; the best method of securing the ground, &c.

9. Describe the differences between a *drawing lift* and *plunger pump* workings. Describe also what is meant by the terms *working barrel*, *windbore*, *H piece*, *clack piece*, and *bucket-change piece*, and the position of each in the column as they should be placed for working.

10. What is meant by changing the bucket and clack of a drawing lift? Describe the manner in which you would proceed to do it.

11. Supposing you had charge of a shift of men sinking a wet shaft and the pumps from any cause would not take away the water, state what means you would take to ascertain where the fault lay, and when found out to remedy it?

12. What do you consider the greatest height a plunger or draw-lift column of pumps should be worked in a shaft? and state your reasons.

13. What do you consider the greatest number of strokes per minute the pump rods should go in the shaft with safety, taking into consideration the size of the workings and the length of the stroke?

14. Show how you would strike out the pattern of a gearing for a bucket for a draw lift, say eight (8) inches diameter, and give the size the different portions of the bucket should be made, as regards the working barrel.

15. Supposing you had a lift of pumps, say nine (9) inches diameter, and two hundred and fifty (250) feet high, taking the water from another lift below, would you put in both of an equal size, or would you have one larger than the other? What size timber would you put in to carry the weight of the upper column with the cistern, &c., supposing you had to put it in such a position that you could not get a bearing for it on the solid ground? And what would you consider should be a sufficient bearing for the ends of the timber in soft sandstone or slate country, and in hard sandstone or rock?

16. Can you give the approximate weight of such a column of pumps with plunger workings, &c.? The pipes, &c., to be the ordinary thickness of iron; and also the weight of water in such column.

17. Supposing you had a quantity of water to pump out of a shaft and workings that had been idle for some time; in such a shaft eight (8) inch pumps were fixed. After working the pumps for some time without lowering the water much, it was thought advisable to put in more pumps, and the choice was offered you to take out the lift you had in the shaft and put in a twelve (12) inch, or to put in another eight (8) inch with the one you had there, which would you do? Which do you think would take out the water quickest—the two (2) eight (8) inch, or the twelve (12) inch going the same speed or stroke. State your reasons, and show why you gave the preference to either.

18. Supposing again you found after pumping for some time the lift was not heaving the quantity of water it ought to do, and you ascertained the fault was in the bottom clack leaking, and the water in the shaft being such a depth over the clack that you were not able to get at it to put in a new one, what course would you adopt to get the water down?

19. Supposing you had a balance-bob to fix on a shaft, show the position as regards vibration of the rods in which you would fix it. State the reasons.

20. A shaft having been sunk to a depth of say eight hundred (800) feet perpendicularly, and pumps carried down to that level, a lode was met with in the shaft there underlying three (3) feet in a fathom, which it was decided to follow down by an underlie shaft, with pumps to drain it, show and explain the mode you would adopt to carry that out.

21. A lode having been found at the surface, and followed down by a shaft on the underlie of say two (2) six (6) inches in a fathom, for a distance of one hundred and fifty (150) feet, and it was deemed advisable to sink a permanent shaft to intersect such lode at a depth of say three hundred (300) feet from the outcrop, at what distance from the same should the new shaft be started, the surface then being level?

22. Suppose, in sinking a shaft, a strata of loose, gravelly, or sandy ground, containing a quantity of water, was met with, which, if not kept back, would run and fill the shaft, what steps would you take to sink the shaft securely through such ground?

23. After having sunk the shaft the required depth, and cut the lode, it was decided to sink another seventy (70) feet for stoping, what distance would a cross-cut require to be driven, to intersect the lode again, supposing it continued with the same underlie?

24. Describe what means you would adopt to ventilate a shaft, or different portions of a mine, where the air was bad.

25. What do you consider a safe speed to wind at, with good gear?

26. How many tons will a block of quartz give of an average width of two (2) feet six (6) inches, two hundred (200) feet along the course of the lode, and seventy (70) feet between levels.

27. How many tons of firewood, fifty (50) cubic feet per ton, are contained in three (3) stacks, one ninety (90) feet, one seventy-five (75) feet, and one sixty-eight (68) feet long, six (6) feet high, and the wood five (5) feet lengths, and what will be the cost of the same at seven (7) and six (6) pence per ton.

28. How many superficial feet of timber does it take for a shaft three hundred and fifty (350) feet deep, nine (9) feet long, by three (3) feet wide in the clear, the outside timbers three (3) inches thick, with two (2) centres two (2) inches thick, and what will be the cost of same at fourteen (14) shillings per hundred (100) feet superficial?

29. Do you understand the use and adjustment of instruments generally used in making surveys for ascertaining your proper position underground?

30. Do you understand the use of scales, protractor and parallel rulers, and can you make a plan of a mine, from measurements furnished?

31. Describe the instruments you would use in making an underground survey, and by what means you would connect the underground with the surface.

32. Describe how you would, on the surface, show the position of a point that is distant from the shaft, by three (3) drafts, first (1st) draft N. 7° E. 70 feet, second (2nd) draft East 100 feet, third (3rd) draft North 100 feet, show by diagrams.

33. Describe how you would sink a winze from the 500 feet level, at any given distance from the shaft, and also at what distance 600 feet level you would commence a rise to make both meet, the underlie being two (2) feet in six (6) feet, the winze being at right angles to the 500 feet level?

34. A general manager, to be entitled to a first-class certificate, should be able to pass the examinations for captains of shifts and underground managers. He should also be able to make surveys of the workings of a mine, and plot the same on a working plan, so as to be able to show what ground has been wrought, and where the different formations of lodes, &c., have been met with. He should also be a fair accountant, so as to be able to keep the accounts of the mine. He should also have a knowledge of mechanics and engineering, and the strengths of materials used in mining.

#### Examination Papers for Engine-drivers, June, 1875.

##### 1. A first-class engine-driver:—

Should be competent to drive and manage all the different kinds of engines used in mining with perfect safety and economy, and thoroughly understand the management of stoking in order to do the largest amount of crushing, pumping, or winding, with the least consumption of fuel, oil, wear and tear, &c.

Should understand the principle and action of all gauges, and how to keep them in proper order.

Should manage the feed with hot or cold water.

Should be able to pack the various parts when they require it.

Should understand the approach of danger, and how to act in all such cases, whether they arise from over-speed, want of water in the boiler, or over-pressure of steam, and be able to make a steam-joint in case one failed.

Must present before examination a certificate of having driven each of the different kinds of engines used in mining for a period of not less than six (6) months without accident or mishap.

And be able to give a satisfactory answer, written or otherwise, to the following questions:—

2. In taking charge of a new and strange mine, what should you do first if put to a winding engine? What if put to a pumping engine? And what if put to a crushing engine condenser, or non-condenser?

3. How do you know when a feed-pump is acting properly? The contrary.

4. Explain the action of the feed pump?

5. Describe a case in which it will not act, all the parts being in good order?

6. Explain the signs consequent on the retention valve not acting—will a boiler take feed under such conditions?

7. How do you know when any particular valve is not acting properly?

8. Supposing the feed-pump is in good order to all appearances, and to have utterly refused, as it were, to act—what would you do?
9. Where two or more boilers are connected (say No. 1, No. 2, and No. 3), how would you keep the feed in all with one pump. Suppose No. 1 is feeding and you want to feed No. 3, what would you do? Can you feed all at one time?
10. Are there any evil consequences from too much water? What are they?
11. What quantity of water do you consider too little? What is the proper quantity?
12. Explain the reason of all the cocks and gauges being placed in their respective positions, and their uses?
13. How do you know when the glass water-gauge is indicating wrong? How when right?
14. In cases where two or more boilers are connected, and each furnished with a steam-gauge, but all indicating different pressures, how are you to know which is right, and the pressure under which each boiler is working?
15. How do you know when a boiler is working under a safe pressure? What do you consider a safe pressure on each of the different kinds of boilers used? What pressure unsafe?
16. Supposing steam on the point of blowing off and no water in the glass, what would you do?
17. Suppose the steam was at working pressure and the water disappeared, leaving you in uncertainty as to how low it was, what would you do?
18. Supposing the last case, and the water to have got below the back of the tube, and to have attained a temperature considerably above that of the water or steam, what would you do?
19. Suppose the steam to be low, say half the working pressure, and similar to last case, what would you do?
20. If put to an engine where the weight on the safety-valve lever would not give enough of steam to do the work, what would you do, the weight being proper?
21. Is a blow-off cock of any service, or what is its use?
22. Is it of any consequence to open a blow-off cock full, and shut it suddenly?
23. In case it got immovably stuck, what would you do?
24. Describe your method of stoking, and when once set should the damper be altered?
25. In repairing a bad joint, what do you consider of first importance?
26. In packing your engine is there any principle to be attended to? If so, what?
27. What do you understand by a condensing engine? And what by a non-condensing engine?
28. How should a condensing engine be started?
29. How do you know when the proper quantity of injection water is being admitted? And how when too much or too little?
30. How do you know when the air-pump is out of order? How when acting properly?
31. What is the use of cocks in the ends of a condensing engine's cylinder? Does their use entail any evil? If so, how do you deal with it?
32. What is the use of a barometer on a condensing engine? Do you know anything of the principle on which it acts?
33. How do you know when the least possible quantity of fuel is being used? How when any waste is taking place?
34. What do you understand by a winding-engine? How many kinds of winding-engine have you worked with?
35. Describe how each kind acts.
36. In stopping the engine, for any purpose, describe how the different parts should be used.
37. How, in starting an engine.
38. At what speed would you work a twelve (12) inch cylinder engine, supposing it required full steam to do the work?
39. At what speed would you work a twenty (20) inch, to a twenty-four (24) inch cylinder engine, four (4) feet stroke with winding drums, say ten (10) to twelve (12) feet diameter on the first motion?
40. How do you check the speed and stop exactly at top to land cage or bucket, as the case may be? Do you throw the steam against the engine, to check the speed, in winding direct, or otherwise.
41. In heaving up or lowering men what speed would you work at?
42. Suppose a confusion of signals, and men going down or coming up at same time, what would you do?
43. Suppose an indistinct signal given, and men going down or coming up, what should be done?
44. Suppose an indistinct signal given, and men on, or supposed to be on, and same signal thought to be "heave up men," what would you do?
45. Suppose a distinct signal given to heave up or lower, and some unusual hitch or tremor took place in starting, or on its passage either way, how would you act?
46. Are there any signs that can be taken as forerunners to accidents in the machinery and gear? If so, what are they?
47. Are there any means to be employed to guard against accidents? If so, what?
48. Describe how to know when any particular internal part of the engine or boiler is unsafe, or out of order, and requires examination and repair.
49. How are you to know when a winding rope is sound and trustworthy, whether made of Manilla or any other kind of fibre?
50. How do you judge as to the trustworthiness, or otherwise, of wire ropes.
51. How should wire ropes be treated with the view to being kept in proper order?
52. What size of proof coil chain would you use on the end of a five (5) inch round Manilla rope to be of equal strength with the rope? What size on five (5) inch flat rope. What size should be used on, or would be of equal strength to, a seven-eighth ( $\frac{7}{8}$ ) inch steel wire rope?
53. Give a simple rule for finding the strength of ropes and chains, and what fraction of the strength would you consider a safe working load?

Visitor—His Excellency the Marquis of Normansby, G.C.M.G.

President—Alex. Bayne, Esq.

Vice-President—C. W. Chapman, Esq.

Classes.

**MATHEMATICS, MECHANICS, SURVEYING, MINING.**—E. T. Brown, Certificated Mining Surveyor and Authorized Land Surveyor.

**MINERALOGY AND GEOLOGY.**—Wm. Nicholas, F.G.S., Lecturer at Melbourne University.

**CHEMISTRY, THEORETICAL AND PRACTICAL, MATERIA MEDICA, BOTANY.**—E. L. Marks, Mem. Phar. Soc., G.B.

**METALLURGY AND ASSAYING, EXPERIMENTAL PHYSICS.**—A. Mica Smith, B.Sc., F.I.C.

**MECHANICAL, PLAN, AND ARCHITECTURAL DRAWING.**—W. H. Ed. Nicolai, C.E.

**SCHOOL OF DESIGN.**—Hugh Fegan, Gov. Drawing Master, C. H. Darvall, Gov. Drawing Master.

**SHORTHAND BOOK-KEEPING.**—

The Chemical Laboratory is open daily, except Saturday. The Metallurgical Laboratory on Mondays and Tuesdays.

Class Hours:—Evening classes, 7 to 9 p.m.; day classes in surveying, geology, mineralogy, chemistry, metallurgy, drawing, design and painting.

Fees from 5s. to 21s. per quarter. Laboratory classes according to a scale, beginning with 21s. per quarter. Special attention is given in each class to the directly practical bearing of the subjects taught.

**EXAMINATIONS.**

## EXAMINATIONS.

NOTICE.—It is hereby intimated to candidates that examinations are held in the Museum of the School, McCrae-street, Sandhurst, in June and December of each year, for certificates as—

	Captain of Shift. Engine-driver.		Underground Manager. General Mining Manager.
		Also for certificates in	
Mathematics.	Mineralogy.		Metallurgy.
Mechanics.	Chemistry—Theoretical and Practical.		Physics.
Surveying.	Materia Medica.		Mechanical, Plan, and Architectural Drawing.
Mining.	Botany.		Freehand Drawing.
Geology.			

Entries are received up to the end of the month preceding the examinations.

The next examination will be held as above, beginning on Monday, 27th June, 1881.

## AD INTERIM REPORT.

It is a principle now beyond all question that for successful competition in any industry theory and practice must go hand-in-hand. Whitworth, Fairbairn, Scott-Russell, and other leaders in applied science; Lyon Playfair, Huxley, Tyndal, and others in the van of scientific thought and educational reform, not only admit this truth, but have made great effort, by voice and purse and pen, to impress upon the country its national importance. The most intelligent workmen, moreover, are quite as zealous in advocating the claims of technical education as the masters whom they have assisted to wealth.

But there is an authority for it yet greater than these, for statistics prove incontrovertibly that those nations which give most attention to industrial instruction are precisely those amongst which the arts and industries chiefly flourish, and in proportion to the fulness of the education is the excellence of the practical results.

In a mining community like our own this applies with conspicuous force. Time has been when luck and a strong arm alone commanded success in the gold-field, but now that our chief industry is becoming daily more systematised and stable in its character, the advantage of trained labour and trained experts to assist in its further development becomes plainly evident.

It is to meet this want that the School of Mines and Industries has been instituted. Its primary object is to impart a thorough training in all branches of theoretical and practical science directly bearing on the mining industry—the theory and practice of mining, mine management, mining surveying and mining engineering; to hold periodical examinations, and issue certificates of competency in the various subjects taught, which certificates will be a guarantee to the public that the holders are thoroughly reliable in their work to the extent of their certificates.

The sections and classes embraced in the course of study, with the subjects treated under each, are given in detail in the appended syllabus.

In the classes of Mathematics and Applied Mechanics or Engineering each student is separately instructed in whatever portion of these sciences he desires to study, and when change of shift or other cause necessitates absence, his work continued out of class hours is faithfully supervised.

The instruction in the survey class extends over a very full course, including field practice, and prepares students for examination in mining and land surveying. This is a study of very great importance to those entrusted with the management of mines. Ability to find out the relative position of any point, and to tell whether the drive is leading, would give greatly increased confidence, and oftentimes enable those in charge to avert approaching danger. Time, and labour, too, would often be saved by the knowledge that could be readily acquired at this class to determine accurately underground position.

The importance of the mining section, with its three classes in geology, mineralogy, and practical mining, respectively, is too obvious to require comment. The methods of working mines of all descriptions are passed in review, so that the student is made familiar with the general principles on which mining is based, and is offered opportunity to assimilate the best ideas from the working of other mines and the treatment of other ores. These he will find of the utmost value when he tries to perfect or improve upon the operations on which he is engaged. And this is still more wanted as our yield of material diminishes, or the cost of raising it increases, through deeper sinking or rise in the price of labour, for then we have the greater need of the most economical processes by which we may make the most of the vein-stuff at our disposal, to lessen the expense of raising it by improving the appliances, to get more out of it, and to extract that more cheaply. The lecturer proposes to widen this section in the class of operative mining by giving practical instruction in the grounds of the school, in the methods of timbering, testing the strength of materials, and other similar operations.

In the Chemistry and Metallurgy lecture classes the principles of these sciences and their bearings on the mining industry will be fully entered upon. But the school interests itself in the other industries of the district, and will provide instruction in these so far as its resources will allow. Agriculture, the next in importance, will be treated for the present only in so far as it is under the guidance of chemistry. Of the other industries, those which involve chemical operations will receive attention in the projected class of industrial chemistry. The processes concerned in local industries will be explained, other chemical manufactures, however, being brought forward as examples of industrial method—general chemical technology illustrated by and elucidating local chemical manufacture. In the laboratories, which are open daily, practical instruction will be given in chemical analysis and assaying, the testing of ores and minerals, the methods of analysing soils, manures, and other agricultural, industrial, and commercial products.

It is further proposed to afford facilities to the students for conducting chemical and metallurgical investigations, such as the working out of new processes on the small scale, by which, it is hoped, an opportunity will be presented to many who may have ideas for improvements in mining operations, or in agricultural or industrial processes, of prosecuting their inquiries under favourable circumstances. This can be provided for as yet only to a limited extent, and the nature of the work will be strictly subject, in all points, to the approval of the lecturer.

In the Plan, Mechanical, and Architectural Drawing Class the range of instruction is as varied as the trades and occupations of the students, each student being separately assisted. Whilst the setting out of mines, mining machinery, &c., is taught by the aid of a very large assortment of plans, the engineer, draughtsman, or artisan, whatever his speciality, will receive instruction suited to his calling.

The School of Design in connection with this institution is directly concerned in the industrial portion of the programme. In this class members of all the artistic trades and professions will find abundant opportunity of training the eye and hand, acquiring facility of execution, and, what is of at least equal importance, cultivation of their taste by continued association with well-selected studies in form and colour.

The school is, therefore, open for the manager and the miner, the civil and mining engineer, the land and mining surveyor, the artisan, the manufacturer, the agriculturist, the student, professional or amateur.

The mining knowledge, on a sound scientific basis, acquired at the school will place men in a position to appreciate discovery and invention, and assist them in adapting these to their own cases. It will make the miner, whatever his position, whatever his work, more efficient in the exercise of his duty, and so advance the interests alike of employer and employed.

The apprentice will be taught the principles on which his art is based, which will enable him to pursue his art more intelligently. From the study of the principles in the class-room he will pass to the application of these principles in the workshop, manufactory, or field. It will awaken within him a new interest in his work, and open up to him the large possibilities of his art.

The Telegraphy class in this institution has as yet been entirely monopolised by lady students. It is believed that, as it becomes better known, this opportunity of learning telegraph operating will be more largely taken advantage of.

The school will endeavour to bring prominently forward all new discoveries, inventions, and suggestions relating to the mining industry, procuring for exhibition, when it can, descriptions, drawings, plans, or models of these, and invites early reliable information on all new processes, proposed or in operation. It will further receive, and endeavour to have carefully digested and forwarded to the proper quarters for recognition, information on matters of general or local interest connected with mining.

The

The museum, which forms a notable feature of the institution, is to be devoted chiefly to the illustration of mining and local industries, arranged with especial view to ready reference. Besides being of value for class illustrations, it is hoped that the public in search of such information will take advantage of the opportunity offered to consult the large geological collections, the maps, general and local, the mining plans, models, and other objects of interest already at hand for examination, or that may be added from time to time.

The mining, industrial, and general public are invited to co-operate with the school authorities and endeavour to make the institution worthy of its important aims, and of the rich gold-field around.

The school hopes to do its duty zealously by those entrusted to its care, and so, in time, command success by creating a demand for its finished students. At present it is dependent on the Government and the public for support. It is most respectfully desired to press upon the attention of that public, that Government, with discriminating hand, help us as we help ourselves.

Sandhurst, September, 1876.

ALF. MICA SMITH, B.Sc.,  
Registrar.

#### COURSE OF STUDY.

(See Details.)

- Section I.—Mathematics. Lecturer or Instructor, Mr. E. T. Brown, certificated mining surveyor.  
 II. Surveying (underground and surface), with field practice—Mr. E. T. Brown.  
 III. Engineering. 1 Applied Mechanics and Hydraulics, Mr. E. T. Brown; 2, Mechanical plan and architectural drawing, Mr. W. H. Ed. Nicolai.  
 IV. Mining.—1 Geology; 2 Mineralogy; 3 Practical Mining, Mr. G. Thureau, M.E., F.G.S., &c.  
 V. Chemistry.—1 Lectures, Elementary and Advanced; 2 Laboratory Practice, Mr. E. L. Marks, M.P.S.G.B.  
 VI. Metallurgy and Assaying.—1 Lectures; 2 Laboratory Practice, Mr. A. M. Smith, B.Sc.  
 VII. The School of Design.—Mr. F. Tayler, assisted by Mr. Hayward.  
 Telegraphy—Mr. G. H. Matear. Writing, Shorthand, Pen and Ink Sketching—Mr. J. S. Abbott. Bookkeeping—Mr. E. T. Brown.  
 Projected courses of lectures on "Chemistry Applied to Agriculture," "Chemistry Applied to Manufactures."  
 Course of Popular Science Lectures, by the staff of lecturers.

#### DETAILS.

I. MATHEMATICS (theoretical and practical).—Arithmetic, algebra, geometry (descriptive and practical), logarithms, trigonometry (plane, analytical, and spherical), mensuration of surfaces and solids, astronomical problems, geodesy, dialling. Text books.—Chambers, Colenso, Todhunter, Molesworth, &c.

II. SURVEYING.—Underground and surface surveying, chain, stave, and tape practice, practical determination of the meridian, mine and field work, plotting. Text books.—Gillespie, Simms, Baker, &c.

III. ENGINEERING.—1. Applied mechanics and hydraulics.—Statics, dynamics, hydrostatics, and hydraulics. Text books.—Galbraith and Haughton, Macquorn Rankine, &c. 2. Plan, mechanical, and architectural drawing.—Junior class: The use of instruments, plane linear drawing, the principles of shading and colouring; geometrical, perspective, and isometrical drawing; the use of the scale. Senior class: Each pupil taught with a view to the requirements of his trade or occupation.—Enlarging from copies the different parts of machinery, setting out of wheels, spurs, bevils, &c., mitre wheels; drawing from rough sketches; drawing the steam-engine, pumping machinery, slide lathe, punching and shearing machines, &c., &c.; drawing and shading from diagrams sections of mines and machinery connected with mining; drawing of the different parts and construction of buildings, bridges, &c., and the principles of the art of construction for stonemasons, bricklayers, carpenters, civil engineers, &c., &c.; drawing from models, and from the machines as erected.

IV. MINING.—1. Geology.—This course to embrace a full practical description of the crust of the earth as applied to mining, including the drawing of surface and underground geological plans. Text book.—Advanced text book of geology, Page. 2. Mineralogy.—The rudiments, including crystallography and other marks by which minerals may be recognized. Text books.—Rudimentary treatise on mineralogy—Varley (Weale); Dana's mineralogy. 3. Practical Mining.—Lectures and practical application of mathematical and mechanical rules as required. Occurrence of and search for minerals—boring; strength of materials; various methods of working mines; timbering of; ventilation of; drainage of; raising of vein-stuff; reduction of minerals; pumps; steam-engines. The whole illustrated by diagrams and models. Text book—Guide to the Art of Mining—Lottner and Serlo. As many classes will be formed in this section as the attendance and progress of the students justify.

V. CHEMISTRY.—1. Lecture classes, with experimental demonstrations; Chemical physics—heat, light, crystallography, specific gravity. Chemical philosophy, new notation: Laws of chemical combination, quantivalence, symbolic and graphic. Non-metallic elements, preparation and properties: Nature and structure of flame and use of blow-pipe. Metals: Classification, properties, uses, and methods for their detection. Acids: Definitions, quantivalence, &c. Salts: Organic substances—industrial, dietetic, and other uses; starch, dextrine, malt, illustrations of isomerism, allotropy, polymorphism, cellulose (gun-cotton, &c.), sugars, alcohol, ethers, chloroform, fusel oil, glycerine, solid and liquid fats, oils, &c.; the chief alkaloids. Text books.—Miller's Chemistry, Goodeve's series; Roscoe's Chemistry, Macmillan; Fownes' Chemistry, Churchill and Sons. 2. Laboratory Practice.—The chemical laboratory is open daily for instruction in manipulative chemistry, qualitative and quantitative analyses, and use of the blow-pipe. Text books.—Roscoe and Jones' Junior Course, Bloxham's Laboratory Teaching, Thorpe's Quantitative Chemical Analysis, Fresenius' Qualitative and Quantitative Chemical Analysis. As many classes will be formed in this section as the attendance and progress of the students justify.

VI. METALLURGY AND ASSAYING.—1 Lectures, illustrated by diagrams and experimental demonstrations:—Characteristic properties of the metals; the general principles of metallurgy; the general principles of assaying; fuel, furnaces, ovens, materials used for furnaces, crucibles, modes of occurrence, means of recognizing ores, methods of extraction and preparation, assay of ore and metal, chief uses of the metal and its compounds in the arts for iron, copper, gold, silver, lead, tin, zinc, mercury, arsenic, antimony, cobalt, nickel, &c. Text books.—Metals, Bloxam (Longmans); Elements of Metallurgy, J. A. Phillips (Griffin). 2 Laboratory practice.—The metallurgical laboratory will be open daily for practical instruction in metallurgy and assaying. Discrimination of minerals, the use of the microscope, spectroscope, and blow-pipe, and the application of flame re-actions and wet processes in the testing of ores and minerals; methods of qualitative and rough quantitative assay, suitable for prospectors; the accurate quantitative assay of the metals by the wet and dry processes—gravimetric, volumetric, and blowpipe, including the bullion assay. Text books.—Makin's Metallurgy, Mitchell's Manual of Practical Assaying, Percy's Metallurgy. For Agricultural Chemistry:—Fownes (Weales' Series), Johnson's How Crops Grow, Church's Laboratory Guide. For Industrial Chemistry:—Chemical Technology, Wagner and Crookes.

#### VII.—THE SCHOOL OF DESIGN:—

LANDSCAPE.—Simple outline, shading, and sketching from the model and from nature.

FIGURE.—Pure outline of parts of figure and of whole form; graduated exercises in shaded studies from the antique, drawing from the round.

PERSPECTIVE.—Book perspective, practical application to object drawing at sight, graduated exercises.

ORNAMENTAL DESIGN.—Exercises in plain and curved lines; graduated exercises in ornamental outline and shaded design; original design.

PAINTING.—Landscape in sepia and neutral tints to full water-colour; heraldic painting in oils and coloured ornamental designs in water-colours and oils; figure in coloured chalks and water-colours; flowers.

Students in full colouring are admitted to a morning's class.

 Total number of individuals, 151.  
 These 151 students represent 31 different trades or occupations.

## APPENDIX Y.

## COMMISSION FOR PROMOTING TECHNOLOGICAL AND INDUSTRIAL INSTRUCTION.—MINUTE IN REFERENCE TO GRANT-IN-AID.

THE Commissioners for the Promotion of Technological Instruction transmit, for the information of the Secretary and Teachers of the School of Art and Design at the substance, as stated below, of a minute adopted by them:—

1. "That in order to promote the establishment of Schools of Art and Design throughout the Colony, there shall be paid, from the funds placed at the disposal of the Commission by the Government, to every School which is conducted upon principles approved by the Commission and open to its inspection, an allowance of two shillings and sixpence per quarter for each pupil who shall have attended such school at least eight times during the quarter."
2. "That this minute shall take effect from the 1st of April, 1870."

In order to obtain the benefit of the foregoing minute, it will be necessary for the Secretary of each School of Art and Design to keep an exact register of the attendance of every pupil. This register, with an abstract, certified by the Secretary, showing the number of pupils who have attended once, twice, &c., up to thirteen times during the quarter, must be forwarded at the end of each quarter to the Hon. the Chairman of the Technological Commission, Exhibition Building, Melbourne.

Office of the Technological Commission,  
 Exhibition Building, June 7th, 1870.

## SCHOOLS OF ART AND DESIGN, VICTORIA.

THE Schools already in existence in Victoria have been founded and conducted by the efforts of local committees, in whose hands the whole of the business arrangements are left. The funds of the Schools are obtained from the subscriptions or fees of the pupils, and from a quarterly grant-in-aid from the Commission.

The fees payable by pupils vary in the different Schools from two shillings to ten shillings per quarter. The Commission recommend that in all cases the fees charged should be as low as possible.

All correspondence between the School Committees and the Commission should be conducted through the Secretary of the School, and addressed to the Secretary of the Commission.

It is not allowed that any School of Design conducted as a private speculation should receive aid from the Commission.

A proper report and return has to be furnished to the Commission quarterly from each School, giving full accounts of the attendances, &c. As the aid depends upon the regularity of the pupils' attendance, the necessity of such regularity ought to be impressed on the pupils.

The primary object of the Schools being to disseminate such knowledge and to teach such manipulation as shall be useful in the workshops of the Colony, the Commission desire that the following subjects shall receive the most attention:—

- Practical Geometry.
- Mechanical and Architectural Drawing.
- Isometrical Perspective.
- Frechand Drawing of the Figure, Ornament, and Plants; Drawing from Models and from Nature.

## NOTICE TO SECRETARIES.

The quarterly returns are to be sent in within ten days of the expiration of each quarter.  
 Vouchers for payments received from the Commission should be returned, properly signed, by the next mail.

## PROPOSED COMPETITIVE EXHIBITION FOR STUDENTS OF SCHOOLS OF DESIGN ASSOCIATED WITH THE COMMISSION.

IN each of the following classes prizes, of the value of £2, £1, and 10s., will be awarded for drawings, at a Competitive Exhibition to be held on a day in May, hereafter to be named, open to all who have been for six months previous to the day of exhibition Students at any School of Design associated with the Commission, subject, however, to conditions hereinafter expressed.

## FIRST CLASS.

*First Division.*—Outline drawing of the human figure or any portion thereof. Open to students of any age.  
*Second Division.*—The same. Open to students under 15 years of age.

## SECOND CLASS.

*First Division.*—Drawing of the human figure, or any portion thereof, on tinted paper in two chalks. Open to students of any age.  
*Second Division.*—The same. Open to students under 15 years of age.

## THIRD CLASS.

*First Division.*—Ornamental drawing in outline. Open to students of any age.  
*Second Division.*—The same. Open to students under 15 years of age.

## FOURTH CLASS.

*First Division.*—Ornamental drawing on tinted paper in two chalks. Open to students of any age.  
*Second Division.*—The same. Open to students under 15 years of age.

## FIFTH CLASS.

*First Division.*—Landscape drawing, in pencil or two chalks. Open to students of any age.  
*Second Division.*—The same. Open to students under 15 years of age.

## SIXTH CLASS.

*First Division.*—Mechanical drawing in outline. Open to students of any age.  
*Second Division.*—The same. Open to students under 15 years of age.

## SEVENTH CLASS.

*First Division.*—Architectural Drawing. Open to students of any age.  
*Second Division.*—The same. Open for students under 15 years of age.

## CONDITIONS.

All drawings to be on the size of imperial or half-imperial paper, accompanied by a certificate from the master that the drawings are the *bonâ fide* work of the exhibitor, done in the school, and of a different size from copy when drawn from the flat.

In case of want of space, the Commissioners, acting under the advice of professional gentlemen, reserve the right to make a selection from proposed exhibits.

SPECIAL PRIZES, UNDER THE ABOVE CONDITIONS, WILL BE GIVEN BY THE HON. GEORGE ROLFE.

*To the student who passes the best examination in Practical Geometry; open to students of any age.*

First Prize...	...	...	...	...	...	...	...	...	value	£2	0	0
Second Prize	...	...	...	...	...	...	...	...	"	1	0	0

*To the student who produces the best working drawing in Carpentry.*

First Prize...	...	...	...	...	...	...	...	...	value	£2	0	0
Second Prize	...	...	...	...	...	...	...	...	"	1	0	0

"Cassell's Linear Drawing," "Gleig's Practical Geometry," and "Davidson's Drawings for Carpenters and Joiners," are recommended as the basis of examination for special prizes.

15th February, 1871.

By order of the Commission,  
 SAMUEL H. BINDON.

## THE SIXTH ANNUAL SCHOOLS OF DESIGN EXHIBITION, 1877.

THE Exhibition of the works of pupils in the various Schools of Design associated with the Technological Commission will be opened on the 10th July, 1877.

The Examinations will be held on the 17th and 18th July.

Exhibitors and competitors must have been pupils at one of the Schools of Design for at least six months previous to 30th of June, 1877.

## CONDITIONS.

*N.B.*—These conditions will be strictly enforced, and drawings not in accordance will be disqualified.

All drawings to be of the size of imperial paper (30 x 22), or half-imperial (15 x 22).

Drawings for exhibition must be sent in on or before Thursday, 5th July.

No drawings will be received except through the Secretary of the school to which the exhibitor belongs.

The Secretaries of the various schools are requested to forward those drawings only that the teachers think worthy of exhibition, and that are the *bonâ fide* work of the student exhibiting, done in the school; and to see that the name and age of the exhibitor, and the name of the school to which he belongs, shall be written plainly on the front of each drawing.

Each drawing sent must be of a different size from the copy, if drawn from the flat.

In case of want of space, the Commissioners will make a selection from the proposed exhibits.

The prizes in any class may be withheld, if, in the opinion of the examiners, the works in that class are not of sufficient merit to deserve them.

No student can receive a prize twice in the same class; but will, if successful, receive a Certificate of Merit.

The drawings in the several classes may be executed either in pencil, chalks, or colours.

The Senior Division of each class is open to students of any age. The Junior Division is open only to students under fifteen years of age.

No competitor will be allowed to receive more than three prizes; but, for excellence in more than three classes, certificates will be given.

The exhibits will be arranged in classes (and not in schools, as heretofore); the name of each school will be attached to each exhibit.

## PRIZES AND CERTIFICATES

Will be awarded to the students exhibiting the best works in the following classes, subject to the foregoing conditions:—

DRAWING OF THE HUMAN FIGURE.	
Senior Division.	Junior Division.
ORNAMENTAL DRAWING.	
Senior Division.	Junior Division.
LANDSCAPE DRAWING.	
Senior Division.	Junior Division.

This class will include finished landscapes, and details of landscape, as studies of trees, rocks, flowers, fruit, leaves, &c.

**MECHANICAL**

**MECHANICAL DRAWING.**  
 Senior Division. Junior Division.  
**ARCHITECTURAL DRAWING.**  
 Senior Division. Junior Division.  
**DRAWING FROM NATURE OR FROM THE ROUND.**  
 Senior Division. Junior Division.  
**COLOUR, APPLIED TO DECORATION.**

Prizes will be given for the best Geometrical arrangement of Colour, and for Coloured Designs in the Greek and Pompeian styles.

**DESIGN.**

Prizes will be given for the best Design, or Series of Designs, from Australian Plants, Trees, Leaves, or Flowers.

**EXAMINATIONS.**

*Open to all students who have been members of a School of Design for six months previous to the 30th June, will be held on Tuesday, 17th July.*

Principles, Harmony, and Contrast of Colour, and Rules for Application of Colour to } Decorative Purposes ... ..	2 p.m.
Perspective Drawing ... ..	4 p.m.
Mechanical Drawing ... ..	7 p.m.

**Wednesday, 18th July.**

Architectural Drawing... ..	2 p.m.
Geometrical Drawing ... ..	4 p.m.
Freehand Drawing ... ..	7 p.m.

**CONDITIONS OF THE EXAMINATION.**

No competitor can be admitted to the room after the hours named.  
 One hour and a half will be allowed for each subject.  
 Any candidate using books or memoranda, copying from, or speaking to other students, will be disqualified.  
 In each examination paper will be provided, but candidates must bring all other requisites.  
 In the Freehand Drawing Examination no ruling, measuring, or folding of papers will be allowed.

**SYSTEM OF EXAMINATION.**

*Practical Geometry.*—Problems in Elementary Practical Geometry will be set before the pupils. The lines of construction must be left on the paper.

In the Mechanical and Architectural Examinations the candidates will be examined as to their knowledge of the use of drawing instruments and drawing of details.

In the Examination in colour prizes will be awarded for the best answers (written) to questions respecting the theory and use of colour in the Decorative Arts. Redgrave's *Manual of Colour* is recommended as class-book. The diagrams issued by the Commission and Owen Jones's *Grammar of Ornament* will afford illustrations of principles and practice.

In the Examination in Perspective problems and questions will be set before the pupils.

In the Freehand Examinations there will be set, either a Group of Models, Plaster Casts of Ornament, Figures, from the Round or Flat examples, as the examiners may decide.

The Secretaries of the several Schools are requested to send in lists of the students desirous of competing, to the Secretary of the Commission, a week before the Examination.

Caesell's *Linear Drawing*, Gleig's *Practical Geometry*, Davidson's *Drawing for Carpenters and Joiners* are recommended as the basis of the Geometrical Examination; and the examiners will be requested to base the examination on these text-books.

The Commission will endeavour to make the usual arrangements with the Railway Department to enable Students and Teachers from the country to attend the Exhibition and Examination.

Only the Examiners and the Secretary to the Commissioners will be allowed to take part in the Examination.

By order of the Commission.

SAMUEL H. BINDON, Chairman.

S. H. ROBERTS, Inspector of Schools and Acting Secretary.

May 20th, 1877.

**LIST OF SCHOOLS OF DESIGN.**

*Associated with the Commission, with the members on the Roll and the Members attending eight times during the quarter ending December, 1876.*

Ninth Annual Report, 1878, of the Artisans' School of Design, Trades' Hall, Melbourne.

The first Public School of Industrial Art established in the Colony.

*Founded by the Painters' and Paperhangers' Society of Victoria, 21 May, 1869.*

The prizes were distributed at a public meeting at the Trades' Hall, on Friday evening, 16 August, 1878.

The classes of the school are open every Friday evening at eight o'clock, and are intended principally for workmen, their sons and apprentices—but are open to all. Fee, two shillings per quarter.

The following branches of technical science are taught:—

Practical Drawing. Architectural Drawing. Mechanical Drawing. Elementary Mathematics.	Elementary Drawing. Ornamental Drawing. Figure Drawing. Landscape Drawing.
--	---

Every

Every effort will be made to make the instruction specially applicable to the trade requirements of the pupils. Students are requested to be punctual and regular in their attendance.

*Teachers.*  
Mr. S. H. Roberts,  
Mr. J. Carter,  
Mr. J. Williams, M.A.

*Committee.*

Mr. R. Crichton,  
Mr. C. J. Fletcher,  
Mr. S. H. Roberts, } Hon. Secs.  
Mr. W. Murray, }

ARTISANS' SCHOOL OF DESIGN.—REPORT, 1878.

THE School has now been in existence for nine years, having been established in May, 1869, and is still managed by a Committee elected by the Painters' and Paperhangers' Society.

Since its establishment the School has proved useful to many hundreds in their trades and professions, and the Committee are much gratified by the number of their ex-pupils who are now filling good positions, chiefly through the knowledge and skill acquired in the School.

On another page is a return of the trades and occupations of the pupils.

The Committee desire to express their thanks, on behalf of the pupils, for the following donations to the Prize Fund:—

Mill Sawyers' Society	...	...	...	...	...	...	...	...	£2	2	0
Seamen's Union	...	...	...	...	...	...	...	...	2	0	0
Francis Graham, Esq.	...	...	...	...	...	...	...	...	0	10	0
W. Dean, Esq.	...	...	...	...	...	...	...	...	1	1	0
S. H. Roberts, Esq.	...	...	...	...	...	...	...	...	1	1	0

The thanks of the school are also due to the Technological Commission for the grant-in-aid of 2s. 6d. for each pupil attending eight times during the quarter, and to the Press for numerous kindly notices of its progress. The use of the Trades' Hall is still granted for school purposes, for which also the Committee tender their thanks.

Public Library, Museums, and National Gallery of Victoria. Incorporated by Act 33 Vic., No. cccvii. Industrial and Technological Museum (Melbourne). Laboratory Notes and Museum Record. No. 1.

*Committee of Trustees.*

Hon. SIR JAMES M'CUCCLOCH	Hon. WILLIAM M. K. VALE
Hon. SAMUEL H. BINDON, <i>Chairman</i>	REV. J. J. BLEASDALE
CHARLES E. BRIGHT, ESQ.	Hon. JOHN MACGREGOR.
J. COSMO NEWBERRY, B. Sc., <i>Superintendent of Museum and Laboratories.</i>	
G. H. F. ULRICH, F.G.S., <i>Curator of Mineral Collections.</i>	
FREDERIC DUNN, <i>Laboratory Assistant.</i>	
W. T. ADAMS, <i>Pupil Assistant in Laboratory.</i>	
THOMAS M'MILLAN, <i>Acting Curator of Phytological Collections.</i>	
R. J. TERRILL, <i>Instructor in Engineering and Mechanical Drawing.</i>	

INTRODUCTORY NOTE.

The laboratories of the Industrial and Technological Museum were opened to students in September, 1870, with the view of affording an opportunity to persons who desired to acquire a knowledge of Practical Chemistry, Metallurgy, and Mineralogy, or such portions of these subjects as might enable them to more economically conduct their daily work, and aid in developing the resources of the country.

Up to the present time 250 persons have availed themselves of the instruction given in the laboratories.

The courses of instruction are of a thoroughly practical nature. Most of the persons attending come with the intention of solving some special technical problem, and have neither the time necessary nor the desire to study theoretical science. The majority can only spare one, or, at most, two evenings per week; and no attempt is made to carry out systematic scientific courses of lectures, such as are given in schools of science. It has also been the expressed wish of the Committee of the Trustees that the Museum instruction should not attempt to compete with that given at the University of Melbourne.

For the purpose of showing the useful character of the work done in the laboratories, and as a means of diffusing information which may be of value to manufacturers and miners, it has been decided to publish, from time to time, a few pages of these Laboratory Notes—principally by students—giving also brief notices of the special work of the officers of the Museum, and of the alterations and additions to the collections.

STUDENTS FOR THE FIRST TERM, 1877.

Chemistry, Assaying, &c. ... ..	23
Practical Mineralogy ... ..	10
Telegraphy ... ..	33
	—
	66

Owing to the necessity of constant personal supervision of the work of each student, the classes are limited. In Practical Chemistry, &c., the limit was fixed at 24; but as students are allowed to select the hours most convenient, and all do not attend at the same time, the number has often been exceeded. The laboratories are open for practice from ten to four each day (Saturdays and Sundays excepted), and from eight to ten on Thursday and Friday evenings. On each alternate Thursday evening, Mr. F. Dunn, laboratory assistant, delivers a lecture on Elementary Chemistry. The Mineralogy class, under Mr. G. H. F. Ulrich, F.G.S., is held on Monday and Tuesday from half-past four to six p.m. This class receives practical instruction in the recognition of simple and compound substances, and actual assay determinations by means of the blow-pipe. The number for this class is limited to twelve.

The telegraphy class, under Mr. George Smybert, meets for practice daily, and for lecture instruction in the theory of the subject on Tuesday and Friday afternoons. The number of this class is limited to thirty.

SUBJECTS AT PRESENT UNDER INVESTIGATION.

1. Adulteration of Food.
2. Chronic Iron and the Ores from Port Lempriere, Tasmania.
3. New methods of Blow-pipe Assay.
4. Yield of Charcoal and Potash of native woods.
5. Determination of amount of Gold in Pyrites, and losses by the present methods of treatment on the gold-fields.
6. Mine Waters—Analysis.
7. Portable Waters.
8. Concentration of Ores.
9. Tanning Materials.
10. Adulteration of Drugs.
11. Methods of Extracting Nickel.
12. Valuation of Pyrites for contents other than Gold.
13. Building Stones—the causes of decay.
14. Microscopic Examination of Rocks in thin sections.

CONFECTIONERY ANALYSIS.

About 270 examinations of confectionery have been made, consisting of forty different samples. Many of the samples contained flour—in some instances to a very large extent; notably, conversation, ginger, musk, rose, cayenne, lavender, and lemon lozenges; also fancy cuts, medallions, conversation rings, and peppermints.

Two samples of lolly-stick, such as is often seen in many of the retailers' show windows, were examined. One was striped with red, blue, and yellow colours; these were broad and deep. They proved to be cochineal, ultramarine, and chromate of lead. The other lolly-stick was striped with red, blue, yellow, and green colours; these penetrating nearly halfway into the sample, and were found respectively to consist of cochineal, ultramarine, chromate of lead, and sesquioxide of chromium, mixed with chromate of lead. A sample of liqueur drops of a green colour on the upper part was found to contain chromate of lead, mechanically mixed with very finely divided smalt (cobalt glass). Metallic copper was obtained from this sample, also from two samples of "marbles," and in a sample of stick liquorice (solazzi) numerous pieces of metallic copper were found, in some instances weighing as much as half a grain. This no doubt is owing to careless manufacture. Most of the samples were examined for sulphate of lime and chalk, but were found to be perfectly free from adulteration of this kind. The highest mineral ash obtained was from a sample of rose lozenges, which only gave 0.23 of a per cent.

Chromate of lead will be seen (on comparing the table of examinations in July, 1876) to have been almost universally used. In some cases the comfits were only slightly coated with this poisonous mineral colour; but from many of the samples metallic lead was obtained, which was distinctly visible to the naked eye, even from a single lozenge—notably from cinnamon, ginger, fruit, and conversation lozenges. A sweetmeat, which was purchased from a confectioner in Smith-street, Collingwood, and which is known by the name of a "cob of corn," which it greatly resembled, one side being coloured red and the other yellow; the red was a vegetable colour, but the yellow was found to be chromate of lead, and this was mixed so unevenly that in many places patches of pure chromate of lead were distinctly discernible, in fact it had the appearance of having been daubed with chromate of lead. This delicious comfit, to make it all the more attractive, was flavoured with essence of peppermint. A quantitative analysis was made of each of the following sweetmeats, in order to ascertain the amount of chromate of lead used:—

In a pound weight (avoir.) of the following sweetmeats there were obtained:—

From a sample of lolly-stick ... ..	38.88	grs. of chromate of lead.
" " coconut cream ... ..	17.92	" "
" " cinnamon cream ... ..	19.52	" "
" " turkey rock ... ..	63.52	" "

The following is a list of samples examined:—

BLUE COLOURS.

Name of Comfit.	Number coloured with Indigo.	Number coloured with Ultramarine.	Number coloured with Prussian Blue.	Number coloured with Aniline.
Lavender Lozenges, Fancy Cuts, Marbles, Conversations, and Liqueur Rings...	1	10	1	1

Eight samples of medicinal lozenges were examined. The following is the result:—

Name of Lozenge.	Number examined.	Coloured by	Flour.
Ginger.....	2	One chromate of lead ..... " vegetable colour .....	Very large quantity
Ipecacuanha .....	1		Large quantity
Lavender .....	1	White colour .....	" "
Musk .....	1	Cochineal .....	" "
Paregoric .....	1	" .....	" "
Rose .....	2	" .....	{ Small quantity Very large quantity

## RED COLOURS.

Thirty-eight samples of this colour were examined, being principally lolly sticks, conversations, fancy cuts, coconut creams, raspberries, rose, musk, and cayenne lozenges; these were all coloured by cochineal.

The following are the names of those free from flour:—

Name of Comft.	White Colour.	Red Colour.	Yellow Colour	Blue Colour.
Cigars.....	0	0	1	0
Cinnamon Cream .....	0	0	1	0
Coconut Cream .....	0	2	0	0
Fruit Lozenges .....	1	2	1	0
Imitation Almonds .....	0	0	1	0
Lolly Eggs.....	0	1	1	0
Lolly Sticks .....	4	1	1	0
Marbles .....	1	0	0	1
Raspberries .....	0	1	0	0
Shells .....	1	0	0	0

One sample of liquorice was examined. It was marked in the shop windows as "Best Liquorice," and sold at one penny per small stick. Upon analysis it gave in 100 parts:—

Percentage of Water ... ..	11.54
" Dry Extract of Liquorice ... ..	35.75
" Potato Starch ... ..	43.85
" Cane Sugar ... ..	5.80
" Mineral Ash ... ..	3.56

100.00

This sample was of even composition, and to all appearance of fair quality; but, as will be seen by the analysis, only a little more than one-third was found to be liquorice, the remainder consisting of potato starch and a little cane sugar.

Twenty-five samples were of a white colour, consisting of conversations, fancy cuts, peppermints, conversation rings, coconut creams, and shells; most of these were found to contain large additions of flour. A sample of "fig toffee" was examined, and it was found to be coloured by some ferruginous earth, which gave it a dirty brown colour, and contained small pieces of preserved fig, which were widely diffused, and bearing anything but a tempting appearance.

## YELLOW AND ORANGE RED COLOURS.

Table of Comparison showing the result of an examination made in July, 1877, and July, 1876:—

Name of Comft.	JULY, 1877.			JULY, 1876.		
	Number of Samples Examined.	Number coloured by the Chromates of lead (Poisonous).;	Number coloured by Vegetable colours (Harmless).	Number of Samples Examined.	Number coloured by the Chromates of Lead (Poisonous).	Number coloured by Vegetable colours (Harmless).
Caraways.....	2	0	2	0	0	0
Cinnamon Lozenges .....	6	1	5	8	8	0
Conversations .....	11	1	10	10	8	2
Conversation Rings.....	5	0	5	5	4	1
Coconut, Lemon, Raspberry, and Galatea Ice Creams	7	0	7	3	2	1
Lolly Eggs .....	3	0	3	1	0	1

Fruit Lozenges .....	6	0	6	5	5	0
Ginger Lozenges.....	7	2	5	8	7	1
Lolly Sticks.....	9	1	8	7	7	0
Medallions and Mottos .....	3	0	3	3	2	1
London and Scotch Mixtures .....	5	1	4	0	0	0
Marbles .....	5	0	5	2	2	0
Raspberries .....	2	0	2	3	3	0
Sugared Almonds .....	6	0	6	2	2	0
Victoria and Ristori Drops .....	3	0	3	0	0	0
Miscellaneous Assortment, consisting of Scissors, Shells, Walnuts, Lolly Apples, and Lemons, &c., &c.	7	0	7	8	8	0
	95	7	88	73	66	7

By making a comparison of the percentages of chrome and vegetable coloured goods, the following fact will be noticed:— That last year the percentage of poisonous coloured sweets amounted to 90.41, and the percentage of those which were coloured by "harmless vegetable colours" was 9.59; whereas this year, 7.36 are found to be coloured by the chromates of lead, the remaining 92.64 per cent. being the percentage of sweets which are coloured by "harmless vegetable colours."

During the investigation which was made as regards the state of confectionery in July, 1876 (the results of which were published in the *Argus*), various creams—such as those of cinnamon, lemon, raspberry, coconut, and galatea ice—were, in most instances, found to be saturated with chrome. This year a sharp look out was kept; and it is gratifying to state that out of seven samples of the abovementioned creams all were found to have been coloured by harmless vegetable colours. None of the noted "Turkey Rock" could be obtained.

Many of the samples marked in this year's examination as being coloured by chromate of lead were only very slightly coloured, for instance, cinnamon and ginger lozenges. Last year the poison could be recognized by taking a quarter of a single lozenge; this year it took four, three, and two lozenges respectively to detect the adulteration. These were from several manufacturers (whose goods were examined in 1876), thus showing they had reduced the amount of chrome to 1-16th, 1-12th, and 1/8th respectively.

Ten samples of colours as used by confectioners were also examined.

Five colours were of English manufacture, and bore a label stating that they were purely vegetable colours, and contained no mineral salts, &c. Sufficient data will be found in the results of the examination to prove the falsity of these statements. Each sample was in a very pasty condition. The following are the results in 100 parts of the ordinary air-dried colour:—

No. 1. Apricot yellow, gave 5.03 per cent. of mineral matter.
No. 2. Lemon yellow " 64.07 " " "
No. 3. Orange yellow " 45.93 " " "
No. 4. Orleans plum " 36.27 " " "
No. 5. Green " 66.82 " " "

From the lemon yellow, orange, and green colours metallic tin was obtained. No tin was found in the Orleans plum, but alumina was found in large quantity. Each ash was of a gray colour, with the exception of the green, which was slightly pink, owing to a little oxide of iron.

Four

Four other colours, signed by "Bidard" (?), and believed to be of French or German manufacture, were also examined. These were in a more pasty condition than the above, and bore a lable equally as false. Each gave in 100 parts of the ordinary air-dried sample:—

No. 1.	Yellow colour	gave	30.42	per cent.	of mineral ash.
" 2.	Brown	"	17.12	"	"
" 3.	Orange	"	35.29	"	"
" 4.	Red	"	25.34	"	"

The colour of each of these ashes was of a reddish-brown, and showed the presence of large quantities of oxide of iron. Metallic tin was also obtained from each of these samples by the usual treatment.

A brown colour, which is often used by confectioners, gave upon analysis in 100 parts:—

Percentage of Oxide of Iron	...	...	...	...	48.40
" Sand and clayey matter	...	...	...	...	37.24
" Water	...	...	...	...	14.17
" Loss...	...	...	...	...	0.19
					100.00

F. DUNN.

MILK ANALYSIS.

The method of examination adopted is that which is recommended by J. A. Wanklyn, Esq. The samples were purchased at the uniform price of twopence per pint (with but one or two exceptions). It will be seen by comparing the tables that the country milk is chiefly characterized by its deficiency in cream, and the town milk by a similar defect plus an extra addition of water.

Average genuine milk contains in 100 parts (according to the analyses of J. A. Wanklyn) 9.3 per cent. of "milk solids, not fat," 3.2 per cent. of "milk fat," 0.72 per cent. of mineral matter, the remaining 86.78 per cent. being the amount of water.

COUNTRY MILK, IN 100 GRAINS.

METHODS OF BLOW-PIPE ASSAY.

F. DUNN.

ASSAY OF COPPER ORES, WITHOUT ROASTING.

Take 1 grain of ore in fine powder, 3 grains of pure antimony in fine powder, 2 or 3 grains of a flux composed of 2 parts of carb. of soda and one of borax, or if little or no silica is present, borax only; mix well together and fuse in soda-paper on charcoal with a good reducing flame until the alloy unites into one globule, then change the flame to oxidising till the globule appears bright and free from iron and tin. When cold, separate the large globule from slag, and treat it alone on charcoal with the oxidising flame till it is hot enough to oxidise without the aid of the flame. Stop blowing, and observe the globule as it sets; if a skin form quickly, or it be very dark when cold, owing to tin or iron, add a little borax and treat with the oxidising flame. If no skin form, and it be of a whitish colour when cold, the whole of the antimony may be blown away by continuing the oxidising flame a few moments after the antimony fumes have disappeared. The remaining globule should present the usual copper appearance, but will probably be a little darker on top. If the globule be very small, about one grain of gold may be added to facilitate handling.

Gold, silver, nickel, cobalt, lead, and bismuth, if present in the ore, will remain with the copper, and must be separated by means of boracic acid and cupellation, as described by Plattner.

No. II.

EXAMINATION OF MIXED PYRITES &C., FOR GOLD, SILVER, COPPER, NICKEL, COBALT, LEAD, BISMUTH, TIN, AND IRON.—  
THE ORE MAY BE ROASTED OR NOT.

Mix one to ten grains of ore with three to thirty of antimony and two to twenty of a flux composed of two parts of carb. of soda and one of borax (if there be little or no silica present, borax alone would be a better flux, as the slag must not spread over the charcoal), fuse in soda-paper on charcoal, in a good reducing flame, until the alloy has collected into one large globule. It is then poured on the anvil, or allowed to cool on the charcoal; when cold, separate globules from slag, and fuse all together with fresh borax in the oxidising flame. If iron be present, it will form a skin over the alloy, and colour the borax yellow. If there be much tin present, it will also form a skin over the alloy, and will dissolve in the borax, from which it may be reduced on charcoal in a good reducing flame. When the alloy appears bright and fumes freely, it should be freed from the borax and fused by itself on charcoal. When hot enough to oxidise, continue the blast on the globule without the flame, until it sets; then fuse with successive portions of borax, stopping occasionally to observe the colour of the same; when it appears saturated, or begins to change in colour, free the alloy, and fuse with fresh borax; the first borax will show iron and tin if not all taken out before blowing the antimony away; the second, cobalt, and probably tin; the third, nickel. If the alloy, when fused by itself on charcoal, give a yellow incrustation, the incrustation should be scraped off and mixed with sulphur and iodide of potassium, and fused on charcoal. Bismuth, if present, will give its characteristic red sublimate at some distance from the test; and lead, a yellow one much nearer the test. Hydrochloric acid and flame will now show whether there is any copper present. Cupel and part remainder for silver and gold; if not looking for gold and silver, a bead of gold may be added at first to facilitate handling.

The following is an illustration of the qualitative analysis completed in a few hours by means of the blow-pipe, and which, under ordinary circumstances, would have taken a much longer time; some of the directions of Plattner and other authors were followed, together with the above-described antimony method.

About equal parts of the following ores, &c., were ground to a fine powder, and well mixed together, viz.:—Iron and copper pyrites, oxide of cobalt, silicate of nickel, bismuth, pyrites from battery containing 1 per cent. of gold and 2 per cent. of mercury, tin ore, chromate of lead; sulphides of zinc, lead, and antimony; oxide of manganese, tetrahydrate containing 1 per cent. of silver.

About half a grain of the above mixture treated alone on charcoal fused to a brittle magnetic mass indicating ... .. Iron  
 Giving at the same time the characteristic sublimates of ... .. Antimony & Zinc  
 And one indicating either lead or bismuth, or both; part of the fused mass treated on wire after being moistened with hydrochloric acid indicated... .. Copper  
 Residue, mixed with carbonate of soda and fused on charcoal, gave malleable globules principally ... .. Lead  
 And the slag gave reaction for ... .. Sulphur  
 About half a grain of the original powder, mixed with sulphur and iodide of potassium, and fused on a large piece of charcoal, gave reaction for ... .. Bismuth  
 About one grain mixed with iron filings and carbonate of soda, and heated in the closed tube, gave ... .. Mercury  
 About one grain mixed with antimony, carbonate of soda, and borax, and fused on charcoal, gave a globule of alloy, a dark slag, and a sublimate indicating ... .. Zinc  
 A portion of the slag added to a borax bead on wire gave reaction for ... .. Chromium  
 A portion of the slag added to a carbonate of soda bead on wire gave reaction for ... .. Manganese  
 Residue dissolved in nitric acid and evaporated to dryness, and then water slightly acidulated added, left a residue of ... .. Silica  
 The globule of alloy fused with borax in the oxidising flame gave reaction for ... .. Iron  
 This bead of borax in the reducing flame gave a slight indication of ... .. Tin

Most of the antimony was then driven off by treating the alloy alone on charcoal, and the remaining globule fused on charcoal with successive portions of borax.

First portion in oxidising flame gave strong reaction for cobalt.  
 " " in reducing " " slight " " tin.  
 Second " in oxidising " " " " cobalt.  
 " " in reducing " " strong " " tin.  
 Third " in oxidising " " " " nickel.

The remaining globule moistened with hydrochloric acid, and held in the blow-pipe flame, gave reaction for Copper  
 Residue cupelled and parted gave... .. Silver and Gold.

The advantage of using antimony in the quantitative assay of other metals, besides copper, has not yet been fully determined, but from what has already been done it is evident that it will be of much value.

J. L. MORLEY.

DETECTION

## DETECTION OF TANNIC AND GALLIC ACIDS

(BY MEANS OF CHLORIDE OF GOLD.)

If to an exceedingly weak solution of tannic acid a few drops (one or two) of the ordinary chloride of gold solution is added, a beautiful claret-red colour will be the result. If this be now boiled and allowed to cool, it will assume a blue colour.

Galic Acid—A very weak solution gives with chloride of gold a beautiful blue colour, which upon boiling changes to a claret-red colour.

A solution of caramel gives a dark red colour in the cold, which becomes very dark red if boiled. When caramel and tannic acid are in solution together, on adding the test and boiling, if there is only a very small percentage of tannic acid present, after shaking, the froth will assume a purple or blue colour, whereas no blue or purple tint is seen if the test is added to a solution of caramel, and boiled, so that a trace of tannic acid can be detected in presence of a large amount of caramel.

## TEA ANALYSIS.

According to J. A. Wanklyn, M.R.C.S. (Public Analyst for Buckinghamshire and High Wycombe), genuine tea contains between 5 and 7 per cent. of mineral matter, 3 per cent. of which consists of soluble salts. In its ordinary air-dried condition pure tea yields an extract equal to 32 per cent., and some choice samples have been found to yield so much as 50 per cent. The following are the results obtained from the examination of various samples of tea which are sold in Melbourne.

In 100 Grains of Sample of Tea.

Price per lb.	Mineral Matter.	Extract	Soluble Salts.	REMARKS.
<i>Green Teas.</i>				
Nos. s. d.	Grains.	Grains.	Grains.	
1 — 3 0	27.19	25.70	2.60	Bad. Highly faced with Prussian blue and turmeric. Leaves genuine; adulterated with clay, sand, magnetic oxide of iron, and sulphate of lime. These are entirely covered by the curling up of the leaf.
2 — 2 6	16.50	23.75	2.00	Very bad. Highly faced with Prussian blue and turmeric. Foreign leaves are present. Sand, magnetic oxide of iron, clay, withered leaves, faced nutshells, red-hole, and sulphate of lime were found.
3 — 3 0	15.18	25.61	1.90	Very bad. Faced with Prussian blue and turmeric. Leaves very much broken. Adulterated with sand, magnetic oxide of iron, sulphate of lime; faced nutshells, chips of cedar, canary and burley seeds were found.
4 — 2 3	12.90	26.43	1.86	Bad. Highly faced with Prussian blue and turmeric. Foreign leaves, sand, clay, and magnetic oxide of iron were found.
5 — 3 0	18.00	19.69	1.95	Very bad. Highly faced with Prussian blue and turmeric. Leaves in fair condition, but adulterated with foreign leaves. Sand, clay, magnetic oxide of iron, pieces of starch-paste, and chips of cedar were found.
6 — 2 6	13.40	20.09	1.15	Very bad. Faced with Prussian blue and turmeric. Genuine leaves very much broken, and adulterated with foreign leaves, withered leaves, excess of stalks, sand, clay, and magnetic oxide of iron.
7 — 2 6	12.73	24.04	1.88	Bad. Faced with Prussian blue and turmeric. Leaves in bad condition, and mixed with foreign and withered leaves, sand, magnetic oxide of iron, and sulphate of lime.
8 — 3 4.	14.15	27.10	2.91	Bad. Faced with Prussian blue and turmeric. Leaves much broken, and adulterated with foreign leaves, sand, clay, pieces of starch-paste, and sulphate of lime.
9 — 2 9	12.54	29.30	2.83	Faced with Prussian blue and a very large amount of turmeric. Adulterated with withered and foreign leaves, and portions of a thick, succulent plant, sand, magnetic oxide of iron, and sulphate of lime.
10 — 3 0	13.69	30.95	2.96	Inferior. Faced with Prussian blue and turmeric. Sand, clay, magnetic oxide of iron, and sulphate of lime.
11 — 2 9	5.89	31.93	3.80	Good. Faced with Prussian blue and a large amount of turmeric. Genuine leaves, much broken.
12 — 2 6	24.50	27.79	3.72	Highly faced with Prussian blue and turmeric. Adulterated with foreign and withered leaves, excess of stalks, sand, clay, magnetic oxide of iron, and sulphate of lime (gypsum).
13 — 3 0	8.8	32.58	2.91	Good. Faced with Prussian blue and turmeric. Leaves in fair condition, small quantities of sand, and magnetic oxide of iron.
14 — 2 0	6.3	32.16	2.55	Good. No Prussian blue or turmeric detected. Leaves are genuine and very large.
15 — 2 0	6.5	41.23	3.34	Very good. No Prussian blue or turmeric detected. Leaves are genuine.
<i>Black Teas.</i>				
16 — 2 6	6.08	30.20	2.85	Good leaves and in fair condition, small particles of Prussian blue and turmeric were present.
17 — 2 0	5.60	19.57	2.49	Bad. Large quantity of stalks and exhausted leaves, small particles of Prussian blue and turmeric.
18 — 2 0	5.50	25.90	1.21	Bad. Large quantity of stalks and exhausted leaves, small particles of Prussian blue and turmeric.
19 — 2 7	3.70	30.58	4.90	Good. Leaves are genuine and in fair condition.
20 — 2 0	3.81	26.46	3.05	Bad. Leaves mixed with foreign leaves, an exceedingly large amount of stalks, pieces of starch-paste, bread-crust, straw, nutshells, and splinters of wood were found.
21*—18 0	5.43	39.97	4.13	Very good. Leaves are in perfect condition, and are on small stems. No foreign or withered leaves, nor was any Prussian blue or turmeric found.
22*— 3 6	5.12	45.77	3.57	Very good. Leaves are genuine, no Prussian blue or turmeric.
23*— 2 0	4.77	39.32	3.75	Very good. Leaves are genuine, no Prussian blue or turmeric.
24 — 2 0	6.22	22.42	2.53	Bad. Leaves are in fair condition, but adulterated with exhausted tea leaves.
25 — 3 0	5.85	28.26	2.49	Bad. Leaves are in fair condition, small particles of Prussian blue and turmeric were found.
26 — 2 6	5.86	32.97	2.72	Good. Leaves are genuine and in fair condition, a few green tea leaves are present.
27 — 3 0	5.48	30.98	2.99	Good. Leaves are genuine and in fair condition.
28 — 2 6	5.47	26.78	2.56	Leaves are in fair condition. No foreign leaves present.
29 — 2 0	5.88	23.31	2.10	Bad. Leaves in bad condition, and exhausted leaves have been used to adulterate the sample.

\* These are samples of Chinese tea (imported direct from China), and were obtained at Beechworth.

## THE LAND.

## AGRICULTURAL EDUCATION.

IN September last, when dealing with certain proposals anent the formation of experimental farms, we expressed our conviction that Agricultural Education should not rest with the State, and should emanate from some comprehensive liberal scheme. We pointed out that small beginnings were not always judicious, for we felt convinced then, as we do now, that it is dangerous to deal out aid from the State coffers in a piecemeal fashion. Mr. Greville, M.L.A., has been the first to take the path which we indicated, and, as we stated two weeks back, he has stepped out fearlessly. He proposes the formation of a Department of Agriculture, with a Minister at its head, presupposing the adoption by Parliament of a system of policy which would have for one of its objects the diffusion of agricultural knowledge, or in plainer terms, Agricultural Education. Mr. Greville has given us a rough sketch, which a correspondent, "Stockowner," in this issue makes more complete by furnishing certain details which embrace preliminary acts, which the proposed department should perform. This writer has evidently studied his subject carefully, and he deals with it ably and almost exhaustively. With the object of bringing Mr. Greville's paper to a practical issue, he endeavours to show that a Department of Agriculture is necessary, how the funds may be raised for its formation and support, and how such a department would aid Agriculture and impart Agricultural Education; these are matters which will soon engage the attention of the Agricultural Society's Council, and possibly that of our Legislature; they must, therefore, be considered seasonable, and although some of "Stockowner's" proposals may be deemed crude or impracticable, fairly reviewed the contents of his letter are highly valuable, its contents at least ideas which are worthy of attention, and suggestions which should aid in accelerating action towards the desired end. That which Mr. Greville alluded to, but did not enlarge upon, "the necessity which exists for the formation of a Department of Agriculture," is ably treated by the writer in question, and an interesting link in the chain, the absence of which we regretted in a former article, is thus furnished.

That Agricultural Education would tend to the prosperity of this Colony few will have the hardihood to deny, and that some aid is necessary to promote agriculture, which is far from being in a satisfactory condition at present, may be accepted as a forgone conclusion. The land is passing away from the Crown at locomotive speed, while agriculture keeps on at a snail's pace. The time will come, and we hope it is not far distant, when some check will be placed upon this wholesale alienation. If the process is not made somewhat slower, the supply must soon become exhausted, but so long as the contest for land occupation, or the "land fever" holds, our settlers will not perceive that the consideration of the best means of turning land to profitable uses is of vital importance. The men of the present are not compelled to notice that which their children, the men of the future, must study. It would be short-sighted policy indeed not to foresee that such a want of knowledge will arise, if there is not the demand already. The responsibility rests with the State. The present is the time, when the Land Revenue is at its zenith, to initiate some system of education which will influence the future and ensure the Colony's prosperity.

Our correspondent "Stockowner," in his interesting letter, refers to the American system of education and American farming as being worthy of imitation. In this we cordially agree with him. But to America must not be given the palm for originality, for she modelled her scheme after that which is existent in Germany. A score years ago legislators in America discussed the subject of which we now treat. The land law in that country was most liberal, and as a consequence the land there was soon covered by settlers from all parts of the world. The State recognized the fact that next to settling the people on the soil, their mental culture should be considered. The object was to make farmers of their settlers, and in 1862 the first steps were taken. "An Act donating public lands to the several States and Territories which may provide Colleges for the benefit of Agriculture and the Mechanic Arts" was passed in that year, and an area of public lands equal to 30,000 acres for each Senator and representative in Congress was granted to each State. The result of this policy is seen in the record of 1873, which states that in 1872 when the Act had been only ten years in operation, thirty-eight Colleges had been established under its provisions in thirty-five different States of the Union; that these had been endowed with lands varying from 90,000 acres to 999,000 acres; and that a perfect system of Technical Education had been introduced, a system which is not equalled in any other country. These American Colleges are supported principally by the interest paid at the rate of from 6 to 8 per cent. on the funds derived from the United States Land Scrip. An interesting description of one of the Colleges, the "Iowa," which we take from the annual report for 1874 of the Victorian Department of Agriculture, appears in another column. "Stockowner's" statements anent American advance in agriculture are by no means overdrawn. It is quite true that England now looks to America for food. Our readers may remember the account which appeared in these columns a few months back of the formation of a British Dairymen's Association. Why was it formed? Simply because the dairymen of England, once so noted for the manufacture of cheese, found that the Americans were fast outstripping them, and could place on the English or other markets cheese which commanded a trade. When we see a collection of so called "notions" from America such as we have had at the recent Exhibition, we exclaim, "Well, those Yankees are ingenious," when we should say, "Those Americans are well-educated."

In England, the Cirencester Agricultural College, with an experimental farm attached, imparts instruction by means of lectures and practical classes. The course of study extends over a period of two years, and embraces instruction in agriculture; chemistry, inorganic, organic, and agricultural, including analytical work in each branch; mathematics, including mensuration, bookkeeping, surveying, and mechanics, natural and mechanical philosophy; natural history, embracing botany, geology, and zoology; veterinary science, including anatomy, physiology, pathology, and therapeutics; architectural and mechanical drawing, carpentry, and smith's work. The College year is divided into two sessions, each extending over a period of four and a half months. Instruction in agriculture is given by lectures and daily practical classes on the farm. In the Edinburgh University the Science of Agriculture is ably taught, and throughout England and Scotland agricultural experimental stations have performed and are effecting great service. Agricultural Education aided by the State has effected great good in Ireland, where its beneficial effects have been felt since 1838. The Glasnevin or Albert Institution, which is near Dublin, bears an excellent name as an Agricultural School, where students, for a moderate fee, can obtain instruction of a high class; and throughout Ireland there are scattered about a score of model schools with farms attached, all partially supported by the State.

State. In France agricultural education is afforded at several schools; but it is in Germany that the most complete system exists. In that country there are no less than 150 establishments, each with a full complement of science teachers. Recently in Canada the Government of Ontario established a College of Agriculture with a large experimental farm attached. In India, too, we find attached to the Department of Public Instruction the Madras Agricultural College, and an experimental farm of 280 acres, both recently formed. From the prospectus of these Indian institutions we learn that the instruction will embrace a thorough study of agriculture, and of such portions of chemistry, geology, zoology, botany, and the veterinary art as bear on the theory and practice of agriculture. In addition to the special subjects the following will also receive attention: farm bookkeeping, land surveying, mensuration, and drawing. The instruction to be given by means of lectures, class-room discussions, and field classes. Six lecturers are retained for this purpose, and for a time no fees will be charged.

But it has been asked, "Why not allow Australia to proceed as Britain has done, and thus leave agricultural education to private enterprise?" A direct reply to this question comes from that highly-famed country, Scotland. In a recent issue of the *North British Agriculturalist*, we find the following remarks about agricultural education:—"After what has been done for scientific agriculture in Germany and other parts of the Continent, what is being carried out in Canada, Madras, and other distant lands, the question naturally arises in one's mind, What is this country doing in that laudable direction? Is it keeping abreast of the times or of its neighbours? Who can say that it is? Who can say that Scotland, or Britain rather, is doing all that it might accomplish or should do in this matter? It may be argued—it has often been in fact stated that agriculturally speaking we are in advance of our neighbours. To a certain extent this we admit is true; but have the agriculturalists of this country not a great deal to learn. Do they not want reliable information on various subjects which they might have been in possession of? Instead, however, of grumbling or lamenting over what might have been done in the past, but was not, let us look to the future. Glancing forward only twenty years we ask, Are there not many points on subjects intimately connected with the farming life on which the application of science could throw light which would be of great benefit to agriculture and to the nation? No doubt of it; scarcely a day passes but the occupiers of land feel this. This complaint is made, although England and Scotland are not without experimental farms, for it is well known that Mr. J. B. Lewes and Mr. Mechi have long laboured with the latter, and later, that the Duke of Bedford has instituted an experimental farm at Bedford, while in Aberdeenshire experimental stations are in course of formation.

In conclusion, we regret that time and space will not permit us to enter on this subject more fully. But although the details we furnish are meagre when compared with the mass of information which is attached to the systems of agricultural education in various countries, we are bold enough to assume that we have proved that the request about to be made in this Colony for aid from the State in the cause of Agricultural Education cannot be regarded as singular or unprecedented.

#### A DEPARTMENT OF AGRICULTURE.

To the Editor of the *Sydney Mail*.

Sir,

I was very glad to see that you attach so much importance to the excellent paper read by Mr. Greville, M.L.A., on this most pressing subject. I was utterly astonished to notice that a writer in one of the papers attempted to throw cold water on Mr. Greville's statesmanlike proposal, and foolishly tells us to leave the education of our rising race of graziers and farmers, as in England, to private enterprise and the teachings of Agricultural Societies.

When he enunciates these exceedingly short-sighted views, he entirely forgets the difference between the circumstances of England and this Colony. What may be suitable for an old, populous, and highly-cultivated country like England, may be quite unfit for these colonies; and what may be a matter of urgent necessity here, may not be required there. The fact, however, is that the want of a Department of Agriculture has long been felt by the more advanced agriculturalists in England. More than one memorial has been presented to the Government, praying that such a department should be established, and before many years are over there is no doubt it will be so. But if we are to look for a country at all analogous to our own, we must turn to America and not to England; and if we do, we see there a Department of Agriculture established on a most extensive scale, and doing its work in a most efficient manner, with agricultural schools and colleges and model and experimental farms in almost all the Northern States. The result of all this is that the farmers in the States, taking them man for man, know more in regard to the science of the calling than those in similar positions in England, who no doubt do good work, but principally because they farm on the experience of their fathers and grandfathers, while the farmers in the States, so far from having these advantages, have had to get rid of the bad farming and mistaken ideas which the ignorance and slovenliness of many of the early settlers induced.

The farmers in the United States have for years supplied a very large proportion of the imported wheat, flour, cheese, bacon, and hams consumed in Great Britain, and it will be noticed that they are now sending over such quantities of fresh beef and mutton as to create quite a panic among the farmers at home. In short, the farmers in the States, aided as they have been by the establishment of a Department of Agriculture, have steadily combined scientific knowledge with practical experience, and are industriously turning to account the vast natural resources of that great country; and if we are to make anything like fair progress in this Colony, we are bound to follow in the same direction as America; only in so doing we must be careful to keep steadily in view the difference which exists in many of the circumstances of the two countries (though they are not nearly so great as between these colonies and England), and to bestow the chief attention on those branches of agriculture for which our Colony is specially adapted, and the produce of which can be turned to best account.

This leads me to notice here a mistake which the writer alluded to, and a great many others like him, make with respect to the meaning of the term "Agriculture." They think it means, or is synonymous with "Tillage" or "Cultivation," whereas the term, when used with reference to a Department of Agriculture, means a department having under its management and supervision all matters relating to any calling which is dependent upon the produce of the soil, whether such produce be obtained from the soil in its natural state or in a state of cultivation. But this will appear more clearly when I enumerate the subjects under the control and management of the Department of Agriculture in the United States of America. They are the following:—The cultivation of the soil; the introduction and propagation of new animals; birds, fishes, trees, plants, and seeds; the breeding of live stock; zoology, pisciculture; beekeeping; sericulture; the management and preservation of forests; water saving; plain and ornamental gardening; rural embellishment; veterinary art; the prevention of diseases in stock; trees and plants; rural health, economy, and meteorology; the improvement of agricultural implements; the preservation of food; the conveyance of stock and produce to market; the regulation of fairs, markets, and exhibitions; and all other matters connected in any way with agriculture.

Your readers will be able to gather from this list how far the writer referred to and those who, like him, are inclined to give the term "agriculture" the contracted meaning which they do are mistaken, and they will also see not only how very multifarious the subjects are with which a Minister for Agriculture would have to deal, but how exceedingly important these matters are, and how closely they are connected with the well-being and progress of the Colony.

Having offered these explanatory remarks, I will now, with a view of helping to bring the proposals made by Mr. Greville in his very able paper to a practical issue, state, as fully and concisely as I can—1. The reasons which render the establishment of a Department of Agriculture in this Colony necessary; 2. How it might be initiated; and 3. How the funds for its support might be raised.

#### I.—The necessity for a Department of Agriculture.

In dealing with this part of the subject I will notice the effect which the establishment of a Department of Agriculture would have on the three branches of agriculture, the returns from which form the principal sources of our income, and upon the prosperity of which the well-being and progress of the Colony mainly depend, namely—(1) Sheep-farming, (2) tillage or cultivation, and (3) horse and cattle breeding.

As regards sheep-farming it may be safely averred that with better and more general information as to the breeding and management of the sheep, and the preparation of the wool for market, the general average price of our clip would, in the course of a few years, be raised 2d. to 3d. per lb. in value. This, with a corresponding improvement in the carcase, would add another million sterling a year to our income from sheep and wool, which is now about £5,000,000. To see that this might easily be effected, we have only to recollect that while we have men like Bayly, Cox, and Clive, in the north-western portion of the Colony, and like Fisher, Gilbert, and Jennings in the south-western, obtaining even in these times of depression an average return of say 7s. 6d. to 8s. per sheep for their wool, the general average for the Colony does not exceed 3s. 6d. to 4s., which shows that there is vast room for improvement in the growth and "get up" of a great deal of our wool, for not only

only is it evident that the general average return for sheep is only half that obtained by those far-famed breeders, but that there must be a very large number of growers whose returns are greatly under the general average to bring it so low as it is.

It is not of course to be expected that any great number of our sheepowners would ever, with all the teaching they could possibly receive, bring their flocks to the same degree of excellence as those belonging to the breeders I have named; but although this is the case there are a very great many steps on the ladder between those where the large majority of growers now find themselves and where these distinguished breeders now sit, with lots of room for those growers who are now on the lower rungs to go higher up without joining those on the top.

What I have here feebly attempted to explain was very much more forcibly and pointedly demonstrated by Mr. Abbott, of Messrs. Mort & Co., in his excellent and exceedingly practical paper on "Wool and Wool Exhibitions," illustrated, as his statements were, by the series of samples which he exhibited, showing the advantage of growing good wool and of properly preparing it for market. I must also allow that Mr. Abbott struck the right chord when he so forcibly insisted that while our wool shows, "so far as the quality of many of the exhibits is concerned, are almost all that could be desired," "these shows failed to supply the want which is all but universally felt by our sheep-farmers—*i.e.*, the want of information as to how the excellence possessed by these beautiful exhibits had been attained, and why other growers were not as successful as these exhibitors." To remedy this defect Mr. Abbott proposed that sheep-owners should be invited to send samples of the general average of their clips, with full particulars as to breeding, country, climate, &c., for examination and report by experts; and I believe if that suggestion were adopted a great deal more useful information would be obtained and disseminated in one year than is now afforded in ten under the present system of wool showing. But, after all, this would be little less than a mere makeshift, for the more the subject of technical teaching is looked into the more it is apparent that it must, to be at all effective, be commenced early; and I am afraid that although Mr. Abbott's suggestions were once acted upon by the Society, his anticipations would not be realized through owners neglecting to forward samples for report. This is a part of the subject which I have thought over for years, and, so far as regards those of our sheep-farmers who have reached the years of discretion, I have come to the conclusion that through the pre-occupation of the large majority of them with what they conceive to be more important and pressing matters, the actual want of time on the part of others, and the conceit and self-sufficiency of others, it is useless to attempt to teach them anything in regard to their calling. We might as soon, in one sense, ask the successful tradesman or merchant, who had not received a classical education, to begin to learn Greek and Latin. Shortly stated, they have not the inclination, and I think they have not the time, to learn the theory or science of that calling with which the majority of them imagine they are practically and thoroughly acquainted. Besides, our sheep-farmers are very seldom in town, and when they are their ordinary business and other engagements have hitherto at least prevented them from attending the reading and discussion of papers dealing with the subjects in which they are often deeply interested.

We must, therefore, if we are to do any good in this direction, begin with the young; for if we begin with them we not only get our pupils at the right age to learn, but what is also of great importance, at an age when the desire to learn can be instilled and cultivated. Again, we would have them during regular sessions not only hearing lectures, but, as I conceive, attending their professor at the wool stores, wool-scouring establishments, and sheep sale-yards, where he could point out to them the excellence and defects in the sheep and wool they were examining; and he would also have the opportunity of discoursing to them on these subjects when examining—as he would of course do—the samples of wool sent to him from the country for report.

As regards tillage or cultivation, better information with respect to the proper treatment of the soil would bring us a very large increase in agricultural produce, and a very great improvement in its quality and value; while it would save our cultivated lands from being exhausted by the ruinous system now followed of cropping the same land continuously year after year without manuring it.

It is well known that land in the county of Cumberland which some forty years ago was yielding forty bushels of wheat to the acre would not now, through over-cropping, return more than the seed, and the occupier has to grow oatmeal hay upon it, and be content with the miserable return of half a ton to the acre.

This is what is going on all over the Colony—Our farmers, as a rule, do not cultivate; they merely turn up the soil year after year, throw in the seed, take off crop after crop, and having thus robbed the land of its fertility—as the Americans in early days did—they move farther afield and select a fresh piece of virgin soil, to ruin it next. And, like the Americans, we shall find to our cost that this fertility can never be again restored, although the land may be rested for half a century or more, and all the science of modern agricultural chemistry applied to it.

It would not, as a rule, pay our farmers as yet, in the bush at least, to manure; but they might adopt another course which would to some extent answer the same purpose. They could be careful not to exhaust the land, but to give it periodical rests. Thus, on the land being cleared and broken up only one—one, two, or three, successive grain crops, according to the strength and fertility of the soil—should be taken. It could then be carefully laid down with some suitable cultivated grass, and allowed to rest for six or eight years, when it might be again tilled, and a single grain crop taken, and again properly laid out in grass. In this way the increased returns from the artificial grasses would more than repay the cost of laying them down, while the land would, all the time it was under grass, be recovering its fertility. Our agricultural lands are not like those in America—to a large extent illimitable; and if tillage is to continue to make any real progress without exhausting the soil, the present thrifless system must be at once discontinued. It is highly essential, therefore, that a change should be brought about, and that our farmers and selectors should be shown how they can obtain fair returns from their land without exhausting it, as they are now doing in nine cases out of ten.

We frequently hear the hope expressed that the time may soon come when New South Wales instead of importing will export wheat and flour; but I trust that time will never come, for if we can grow more wheat or other grain than we require for human consumption—and we will soon do that—we ought not to export our surplus, but turn it into beef, mutton, pork, or dairy produce, the production of which all tend to enrich the soil and increase our income and trade, while the export of grain grown on lands which are not manured—in fact they cannot, unless in exceptional cases, be so if the grain be not consumed on the ground—means exhaustion of the soil and ultimate beggary to its owners.

Then, again, very few of our farmers know anything of dairy management in the proper sense of the term, and the breeding and feeding of pigs and poultry. In America, under the teaching of Agricultural Schools and Colleges, the farmers' returns from dairy produce and pigs are many millions sterling annually. The amount of dairy produce made yearly in the States is simply immense, and the number of pigs enormous. In 1870 (the latest statistics available in this Colony) it exceeded 25,000,000.

As regards Horse and Cattle Breeding, the remarks made and the arguments used in the foregoing portion of this paper on the necessity for a Department of Agriculture for the improvement of our Sheep and Wool apply with force to the breeding of our Horses and Cattle; and, although some advancement has of late years been made in this direction, a very great deal still requires to be done to bring up their general quality to anything like the desired pitch. Crude and erroneous ideas in regard to the rules which should guide an owner in breeding have to give place to thoroughly enlightened and well established principles; and better and more provident systems of management require to be introduced. The establishment of the projected department would to a large extent, in the course of a few years, effect these improvements, and when it did there would, putting the improvements at only 10s. a head on the average price of fat cattle, and say 40s. a head on that of horses, be an annual increase in value on these two descriptions of stock of something like a quarter of a million sterling.

From what has been said it will, I think, be allowed that—1st, that a vast deal has yet to be learned by the majority of our sheep-farmers, inasmuch as they are comparatively unacquainted with the principles which should guide them in the breeding of their sheep and the growing of the wool, while they are to a large extent unable to prepare their clip properly for market, and are altogether unacquainted with the uses to which it is turned by the manufacturer; 2nd, that our tillage is languishing, and our arable lands are being ruthlessly exhausted and ruined for the lack of knowledge on the part of our farmers; 3rd, that the majority of our horse and cattle breeders are but little acquainted with the correct principles of breeding, while their modes of managing their studs and herds stand greatly in need of improvement; and, if this be the case, it must be allowed that I have made out my case and proved that it is highly necessary that a Department of Agriculture should be established.

## II. *Department of Agriculture might be Initiated.*

I agree entirely with Mr. Greville in his suggestion that the proposed department should be combined with that of Mines, for two reasons; 1st, because the Minister for Mines has sufficient time to attend to the duties which would arise out of this new department; and, 2nd, because the two departments would work very well together.

If this arrangement were carried out, the Minister for Agriculture would, as Mr. Greville points out, be able to relieve the Minister for Lands, who is greatly overtaxed, of a good deal of work, which not only adds considerably to his labour and worry, but which itself suffers through not receiving time and attention at his hands, overwhelmed as he is with work more immediately connected with the Department of Lands. In this way he would be relieved of the management and preservation of forests, the conservation of water, the management of our reserves, parks, domains, botanical gardens, and fisheries, and of the Stock and Brands branches, and the Treasurer might also be relieved of the charge of the Abattoirs.

Then, while it would not be necessary to do more in the meantime towards the establishment of an Agricultural College than to appoint, say, one professor to lecture on sheep and wool, and another on mixed agriculture and the breeding of stock, the Government might at once, as was done in America, make reserves of 1,000 to 10,000 acres in suitable localities throughout the Colony—say, near Deniliquin, Albury, Gundagai, Forbes, Goulburn, Cooma, Sydney, Mudgee, Scone, Narrabri, Armidale, and Grafton—for experimental and model farms, and for their support and that of the agricultural schools and colleges which we hope in the course of time to see established.

Although these reserves were made at once, in order to secure the land, it is probable that it would not be necessary to do anything farther in regard to them for some years to come, unless in the case of that near Sydney, where a model farm should be at once commenced, under the management of a Board, consisting of say nine members, four of whom the Minister of Agriculture would appoint, four might be elected by the Council of the Agricultural Society, and the ninth would be the Professor of Mixed Agriculture, who would be *ex officio* a member of the Board. The principal duty of the Board would be to direct what experiments should be carried out on the farm, and its management should be entirely in their hands.

Besides the advantage of thus affording the rising race of sheep-owners, stock-breeders, and farmers a sound technical education, there is no doubt that if professors were appointed, and a model farm established as here suggested, we should be able to secure the attendance of a large proportion of the sons of our well-to-do stock-owners, who now, instead of going, as they ought to do, from school to the University, leave for the bush at perhaps 17 to 19 years of age, to follow their fathers' calling, with what may be termed only a second-rate education; for if they joined any of these technical classes, they would be likely also to attend classes on other subjects, such as natural history, natural philosophy, chemistry, and perhaps also some of the classes in classics, the practical subjects drawing them on, as it were, to the others. While this would make our stock-owners and farmers a very much better educated class than they are, it would also tend to fill the classes at the University as they ought to be, and thus remove the reproach, which now so justly falls upon the middle and upper classes, of neglecting to avail themselves of the inestimable advantages which our University is so well suited to afford.

III.—*The Funds for its support.*

These might be readily and fairly raised by enacting that a sum not exceeding 1 per cent. of the gross annual revenue derived from the lands of the Colony, whether by sale, lease, or otherwise, be devoted for that purpose, the rate to be annually fixed by the Governor, with the advice of the Executive Council, but always at a figure sufficient to meet the current expenses of the department.

These might for the first two years be set down at something like the following:—

Two professors, at salaries of say £600 each, exclusive of fees... ..	£1,200	0	0
Experimental farm and expenses of board, say ... ..	4,000	0	0
Collection of agricultural statistics ... ..	1,800	0	0
Departmental expenses ... ..	3,000	0	0
	<u>£10,000</u>	<u>0</u>	<u>0</u>

Then taking the gross revenue from lands for last year in round numbers at £2,500,000 (I believe it was over £2,700,000), we find that a rate of one-half per cent. would be more than sufficient to meet these expenses.

That it is right to devote a portion of the land revenue to the proposed department there cannot be the shadow of a doubt, for the owners and occupiers of land have a legitimate claim on the Government for aid in mastering the principles and details of their calling; and the information afforded in this way would be a very good investment for the Colony, not only in the increase and improvement of our agricultural produce, but in the advanced value which the better knowledge of agriculture would be certain to give to our unsold lands.

“STOCKOWNER.”

[Seven diagrams.]

1881.

NEW SOUTH WALES.

## UNIVERSITY OF SYDNEY.

(REPORT FOR 1880.)

Presented to Parliament pursuant to Act 14 Victoria, No. 31, sec. 22.

The Acting Registrar, Sydney University, to The Under Secretary of Public Instruction.

Sir,

University of Sydney, 13 June, 1881.

I have the honor to forward herewith the Report of the Senate of the University for the year 1880, in accordance with the terms of the Act of Incorporation 14 Vic. No. 31.

The report is accompanied by a University Calendar for the Academic year, 1880-81, and a "Manual of Public Examinations" for the present year.

I have, &amp;c.,

H. E. BARFF,  
Acting Registrar

*REPORT of the Senate of the University for the year ended 31 December, 1880.*

1. The Senate of the University of Sydney, in pursuance of the Act of Incorporation, 14 Victoria, No. 31, has the honor to transmit the account of its proceedings during the year 1880, for the information of His Excellency the Governor and the Executive Council.

2. Out of a total of seventy-two students who presented themselves for matriculation in June, fifty qualified themselves. Of this number four were allowed exemption from attendance upon lectures, it having been certified by the examiners that in their case the concession was warranted by their attainments, and that the attending circumstances justified it.

3. Four students were admitted "*ad eundem statum*" as undergraduates from other Universities, proper evidence having been furnished of their alleged status and of their good character.

4. The following is the list of honors obtained by undergraduates.

## (I.) SCHOLARSHIPS.

## (a) Awarded to first year students.

Three University Scholarships for general proficiency:—

Tom Rolin,	} Aeq.
John Woolcock,	
Albert B. Piddington.	

## (b) Awarded to second year students.

The "Lithgow" Scholarship, for proficiency in Classics—

Frederick R. Barlee.

The "George Allen" Scholarship, for proficiency in Mathematics.

Charles A. Flint.

The "Levey" Scholarship, for proficiency in Natural Science—

George E. Rennie,	} Aeq.
John Sutherland,	

## (c) Awarded to third year students.

The "Cooper" Scholarship, for proficiency in Classics—

Won by John G. Cribb, but awarded to R. U. King, Cribb being the holder of two other scholarships.

The "Barker" Scholarship, for proficiency in Mathematics—

Won by John G. Cribb, but awarded to J. F. Macmanamey and J. Elphinston, Aeq., Cribb being the holder of two other scholarships.

The Deas-Thomson scholarship, for proficiency in Natural Science—

Alexander G. Ralston.

The "Renwick" Scholarship, for proficiency in Natural Science—

John G. Cribb.

(II.) Prize books, stamped with the University Arms, were awarded to all who obtained first classes at the yearly examinations. The list is as follows:—

## (a) CLASSICS.

<i>First Year.</i>	<i>Second Year.</i>
F. R. Barlee,	J. G. Cribb,
G. E. Rennie,	R. U. King.
F. Butler,	
F. Wilkinson,	
C. Ayers,	
G. B. Somerville.	

## (b) MATHEMATICS.

<i>First Year.</i>	<i>Second Year.</i>
C. A. Flint.	J. G. Cribb,
	J. Elphinston,
	J. F. Macmanamey, } Aeq.

## (c) NATURAL SCIENCE.

<i>First Year.</i>	<i>Second Year.</i>
G. E. Rennie, } Aeq.	J. G. Cribb, } Aeq.
J. Sutherland, }	A. G. Ralston, }

(III.) Honours at the B. A. Examination:—

CLASSICS.	MATHEMATICS.	NATURAL SCIENCE.
<i>Class I.</i>	<i>Class I.</i>	<i>Class I.</i>
W. H. Linsley,*	None.	None.
W. L. Moore,	<i>Class II.</i>	<i>Class II.</i>
W. P. Cullen,	W. P. Cullen.	A. Bowman, } Aeq.
W. Berry,	<i>Class III.</i>	W. J. Munro, }
J. L. Campbell,	W. L. Moore,	
L. B. Badham,	F. Brennan, } Aeq.	
G. Dalton,	W. J. G. Mann, }	
W. H. Lander.		

(IV.) Special annual prizes were awarded as follows:—

“Wentworth” Medal, for the best English essay—

W. H. Linsley.

“Nicholson” Medal, for the best Latin verse—

F. R. Barlee.

“Belmore” Medal, for proficiency in Geology and Practical Chemistry, with special reference to Agriculture—

J. L. Campbell.

“Professor Smith’s” prize, for proficiency in Experimental Physics—

R. M. Fuller.

5. The following degrees were conferred after examination:—

M.A.:—J. C. Corlette, J. W. Debenham, R. Jackson, E. Russell, W. H. Yarrington.

B.A.:—L. B. Badham, W. Berry, A. Bowman, E. Bowman, F. P. Brennan, G. R. Campbell, J. Campbell, W. P. Cullen, G. T. A. Dalton, A. H. Feez, H. H. Hills, W. H. Lander, W. H. Linsley, W. J. G. Mann, W. Mathison, S. Moore, W. L. Moore, W. J. Munro, C. T. Tange, J. A. Thompson, H. L. Wilkinson.

6. Bursaries were awarded as under:—

“Burdekin” Bursary—U. M’Evelly.

“Hunter Baillie” Bursary, No. 1—J. Marrack.

“Hunter Baillie” Bursary, No. 2—C. F. Davis and A. B. Piddington.

7. At the Public Examinations held in the month of November, in Sydney, and in the following sixteen centres, Albury, Armidale, Bathurst, Brisbane, Burrowa, Goulburn, Grafton, Ipswich, East Maitland, Mittagong, Newcastle, Queanbeyan, Singleton, Tamworth, Toowoomba, and Yass, 66 candidates presented themselves for the senior examination, and 381 for the junior examination, of whom 54 senior candidates and 209 junior candidates were successful.

The prizes given for general proficiency at these examinations were awarded as follows:—

“University” prizes for males—

Senior Examination—Frank Leverrier.

Junior Examination—James A. Hay.

“Fairfax” prizes for Females—

Senior Examination—Eliza M. Holt.

Junior Examination—Marion O’Brien.

“John West” Medal for proficiency in the Senior Examination—

Frank Leverrier.

A complete analysis of the examinations will be found in the “Manual of Public Examinations” hereto appended. The Rules and Regulations for conducting the Public Examinations have again been under consideration, and several changes have been made, by the most important of which the number of subjects which a candidate is allowed to take up is limited, senior candidates being allowed to take not more than ten, and junior candidates not more than seven.

8. Four examinations for candidates for the Civil Service were held during the year, at which sixty-nine candidates obtained certificates.

9. Two vacancies having occurred in the Senate through the resignation, on account of failing health, of Sir William Macarthur, and the non-attendance at the regular Senate meetings of the Hon. William Forster, absent from the Colony, convocations of the electors were held on the 3rd of March and the 7th of April, which resulted in the election of Edmund Barton, Esq., M.L.A., and the re-election of the Hon. William Forster, to fill the vacancies.

10. Additional leave of absence for a period of twelve months from the meetings of the Senate has been granted to Sir Charles Nicholson, on account of the many eminent services which he has rendered to the University, both in the Colony and as its representative in England.

11. The Senate report with great regret that Mr. Hugh Kennedy, the Registrar was at the close of the year incapacitated for carrying on his duties through mental illness. He has been granted twelve months leave of absence, and in the interim the duties of the Registrar are discharged by Mr. H. E. Barff.

12. The Senate has much pleasure in announcing the following donations to the University for the year:—

(a) A sum of £1,000 from the District Grand Lodge of Freemasons for the foundation of the "Freemasons' Scholarship." This scholarship is open to the sons of Freemasons "belonging to the English Constitution, and who shall have belonged thereto for not less than five years," and is awarded after competition to a student who has passed the matriculation examination.

(b) A second sum of £50 from Mr. Justice Faucett, to be awarded as a prize at the examination for the degree of Bachelor of Laws. The donor has signified his intention of giving a like amount during the year 1881 for the same purpose.

13. The Chancellor has already, in his letter of the 10th June, 1880, apprised the Minister for Public Instruction of the munificent bequest recently made to the University by the late John Henry Challis, Esq. That gentleman by his will, dated in 1878, bequeathed his residuary estate (after certain legacies and annuities), amounting to about £180,000, as follows:—

*First*, to his widow for life, or until marriage.

*Secondly*, to his children, if any such should exist and reach maturity, absolutely.

*Lastly*, on failure of children, then absolutely to this University, subject only to an instruction that the funds should be accumulated at interest for five years before final transfer.

The bequest is subject to a claim of 10 per cent. for legacy duty, which has been put forward by the Commissioners for Inland Revenue.

14. In anticipation of a large increase in the number of students for the Academic year, 1880-81, application was made to the Government by the Chancellor and Vice-Chancellor, in June, for increased means to enable the Senate to appoint additional lecturers to assist the professors in the various schools. The application was met by an advance, which enabled the Senate to make the necessary appointments. Mr. Thomas Butler, B.A., Mr. H. E. Barff, B.A., and Mr. Albert Helms, M.A., Ph. D., were accordingly chosen as assistant lecturers to the Professors in the schools of Classics, Mathematics, and Natural Science respectively.

15. A by-law has been passed by the Senate, by which only candidates for honors in the Natural Science school are required to take up the subject of Mineralogy at the B.A. examination.

16. Appended is an account of the receipts and disbursements of the University during the year, certified by the Auditor, the Honorable Geoffrey Eagar.

H. E. BARFF,  
Acting Registrar.

## UNIVERSITY OF SYDNEY.

## No. 1.

The Under Secretary of Justice, &c., to The Honorable E. Deas-Thomson.

Sir, Department of Justice and Public Instruction, Sydney, 23 July, 1877.  
Referring to my letter of 20th \*March last, respecting the application of the Senate of the University for an increased endowment to that institution, I am directed by the Minister of Justice and Public Instruction to inform you, that the Government do not consider it desirable at present to ask Parliament to increase the endowment to above institution.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

## No. 2.

The Chancellor and Vice-Chancellor of the Sydney University to The Minister of Justice, &c.

Sir, The University, Sydney, 5 August, 1878.  
Referring to the interview with which you favoured a deputation from the Senate on the 30th ultimo, we have now the honor to comply with your request that the matter of that interview should be placed before you in writing for presentation to your honorable colleagues.

1. The general object of the deputation was to urge on behalf of the University that it might be enabled to enlarge its public usefulness by means of an increased endowment. The increase asked for was five thousand pounds (£5,000) per annum in addition to the like amount granted by the original University Act, in the year 1852.

2. The Senate having long felt that the means at its disposal were insufficient to meet the advanced requirements for University education, passed on 14th October, 1876, certain resolutions embodying a scheme of extension which it proposed to submit to the Government; and accordingly successive deputations waited with that object upon three of your predecessors in office, namely, on Mr. Docker on 14th November, 1876; on Mr. Lackey on 4th April, 1877; and on Mr. F. B. Suttor on the 14th November, 1877.

These deputations received much encouragement from the Ministers to whom they severally addressed themselves; but nothing has yet been practically done.

3. The scheme provided for the following additions to the University teaching, viz. :—

- “1st. Instruction in mental philosophy, law, history, and English literature.
- “2nd. All the education necessary for the medical profession.
- “3rd. A complete course of natural philosophy, coupled with mechanics and engineering.
- “4th. The addition of organic chemistry and metallurgy to the chemical school.
- “5th. Biology (including animal and vegetable physiology).”

It also contemplated assistance to junior students in classes already established.

4. The increase of endowment which was then thought to be necessary was £4,000 a year; but it would now appear desirable to extend this amount to £5,000, in order to provide more largely for applied science or technical education as well as to ensure greater completeness in carrying out the above scheme.

5. The proposals of the Senate would enable the University to establish a Faculty of Medicine, including surgery, and a Faculty of Science, embracing various branches and including applied science.

6. *Medical School.*—The most costly and important as well as the most pressing of the proposed extensions is that of medicine; and the deputations therefore directed your attention more particularly to that subject. We were the more induced to do so, because of certain doubts which had been expressed at the late commemoration (but in which the Senate does not concur) as to the advisability of establishing a complete school of medicine at the outset.

7. The Senate definitively proposed by its scheme of 1876, and now again proposes the immediate establishment of a complete medical school in connection with the “Prince Alfred Hospital, so that the youth of this and of neighbouring Colonies, who may desire to adopt the medical profession, may qualify themselves wholly within this University and may here obtain their diplomas for practice.

We learn that from thirty to forty young men of this Colony alone are seeking qualification for practice in distant schools of medicine; and we are informed that New Zealand and Queensland may be expected to furnish additional medical students to our University, if the opportunity were offered.

These facts, together with the approaching completion of “Prince Alfred Hospital,” and the existence of other hospitals within ready access to our University students, have satisfied the Senate that the time has come when the establishment of a complete medical school is urgently required.

8. We may here remind you that the “Prince Alfred Hospital” received its building site within the University grant, with an express view to the establishment by the University of a medical school in connection with it; and that the Statute (36 Vic. No. 28) by which the site was granted, with the consent of the University, makes distinct provisions for the purpose.

The Act provided that a portion of the land given to the hospital should be reserved for a medical school; and it vested the appointment of the medical and surgical officers of the hospital in a board consisting jointly of the University Senate and the directors of the hospital. It also gave to the University Senate power to make by-laws regulating the medical school and the appointment of its professors and lecturers.

Thus

\* NOTE.—Mr. Plunkett's letter of the 20th March, 1877, and the application of the Senate to which it relates cannot now be traced.

Thus it will be seen that Parliament has already authorised the medical school, and has made all the necessary provisions for it, save the bestowal of the financial means required for giving effect to the Legislative intention thus declared.

9. *Faculty of Science.*—Having regard to the great strides that have been made of late years, and which are daily being made in the various departments of science, and to their increasing value to society, and also to the greater estimation in which science is now held as a part of higher education, the Senate earnestly desires to be placed in a position to establish courses of instruction in its more prominent and useful branches. But it is powerless to do so without the further endowment which is now solicited.

10. And in the direction of applied science and technical education the Senate is not less anxious to make the University more serviceable to the country. Its members do not abate anything of their estimate of high classical attainments, both for their own sakes and as a foundation for various intellectual superstructures; but they are convinced that the University of such an industrial community as ours should adapt itself more closely to the various views of its students concerning the occupations which shall constitute the future industry of their lives.

The Senate would therefore gladly give opportunities for special preparations within the University, or in connection with it, for all the educated professions and for those technical occupations which are associated with science. They believe that such opportunities would be regarded as most welcome boons, and that more students would be attracted to the University; whilst at the same time no elevation would be given to the professions and occupations which it helped.

11. *Endowment.*—In advocating the University's claim to £10,000 a year instead of the present £5,000, the positions of other Universities in our neighbourhood were mentioned to you; and I now beg to repeat what was said in this respect at our interview.

In Victoria, whose University was founded in 1853—or one year only after that of Sydney—and at a time when the population of that Colony was far short of our own present numbers, the original endowment was £9,000 a year; and we have been informed that an expansion is contemplated which will necessitate grants of far greater amount. The more munificent endowment of the Melbourne University has enabled it to take in a wider scope of education; and it has had a complete medical school for the last sixteen years, and a not less complete law school for five years; and its instruction has embraced mining and engineering.

We would strongly urge upon you the impolicy—to say no more—of allowing the educational power of this University to continue so much behind that possessed in Victoria, and of thus compelling our own youth either to forego branches of instruction which are offered at Melbourne, or to seek them at the more liberal hands of our neighbours.

One of the New Zealand Universities or Colleges—we think that of Dunedin—was early endowed with a grant of land, which has become so valuable as to give a superfluity of means for present requirements.

In Adelaide the University was commenced with a private donation from Mr. W. W. Hughes of £20,000, which is supplemented by moderate Parliamentary assistance; and it received from the Government, by the authority of Parliament, a grant of 50,000 acres of country land for purposes of revenue.

12. We do not wish it to be inferred from our mention of land endowments elsewhere that it was any part of the object of our deputation to solicit like endowments to this University; though we venture to observe that such was the practice adopted in most of the college foundations of England, and that it is followed at this day in the United States; and that it has the great advantage of giving growth to University education in some proportion to that increase of population which ordinarily enhances the value of land.

13. We ask only that our endowment should surpass to a small extent that which the University of Melbourne has enjoyed for twenty-six years; and we conceive that the amount is no more than is very urgently needed to enable this University to fulfil its mission to the country. It is indeed far less than the Victorian University seems likely to receive ere long; and within our own Colony it bears but a small proportion to the munificent endowment of over £300,000 a year which our Parliament now devotes to primary education.

14. Having now stated and urged the wishes of the Senate, we must, on its behalf, remind you that its only possible object in presenting its claim is to become of greater service to the country; and we take leave to repeat in its name the words used by one of us at the late Commemoration, as follow:—

“Let it be remembered that this is essentially a public institution; that we in the Senate are only trustees for the public good; that we submit our plans to the Government and Parliament; that our expenditure is open to criticism by them and by the public at large; and that as far as concerns ourselves the Senate only offers to take upon itself additional labour and responsibility.”

15. It only remains to acknowledge, on behalf of the deputation, our sense of the courtesy with which you were pleased to receive us, and to express the great pleasure given to us by your pronounced approval of our proposals as an individual member of the Government, and by your promise to bring them favourably under the attention of your honorable colleagues.

We venture to hope that the public may receive from the hands of the present Ministry and Parliament that duplication of the University's usefulness which it was the object of our deputation to advocate.

We have, &c.,  
W. M. MANNING,  
Chancellor.  
ROBERT ALLWOOD,  
Vice-Chancellor.

For consideration of the Cabinet. Approved by the Cabinet that the sum of £5,000 be placed upon the Estimates for 1879 for within purposes.—J.L., 7/8/78. It has subsequently been decided to submit a Bill to Parliament for permanent or increased endowment in the manner suggested herein.—J.L., 14 August, 1878.

## No. 3.

## The Under Secretary of Justice, &amp;c., to The Chancellor and Vice-Chancellor of the Sydney University.

Gentlemen, Department of Justice and Public Instruction, Sydney, 8 August, 1878.

In acknowledging the receipt of your communication of the 5th instant, on the subject of increased endowment for the Sydney University, I am directed by the Minister of Justice and Public Instruction to state, for the information of the Senate, that the matter having been brought by Mr. Leary, under the notice of his colleagues, the Cabinet has approved of the sum of (£5,000) five thousand pounds being placed upon the Estimates for 1879, as increased endowment for the University, to meet the proposals specified by you.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 4.

## The Under Secretary of Justice, &amp;c., to The Chancellor and Vice-Chancellor of the Sydney University.

Gentlemen, Department of Justice and Public Instruction, Sydney, 14 August, 1878.

In acknowledging the receipt of your communication of 5th instant, on the subject of increased endowment for the Sydney University, I am directed by the Minister of Justice and Public Instruction to state, for the information of the Senate, that the matter having been brought by Mr. Leary under the notice of his colleagues, the Cabinet has approved of the sum of (£5,000) five thousand pounds being provided for the above purpose, and the requisite instructions have been given for the preparation of a Bill to be submitted to Parliament for permanent or increased endowment of the Sydney University.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

## No. 5.

## The Registrar of the Sydney University to The Under Secretary of Justice, &amp;c.

Sir,

University, 30 September, 1878.

I have the honor to inform you that the Chancellor of the University having been in communication with the Parliamentary Draftsman on the subject and terms of the proposed Bill for the further endowment and extension of the University, submitted a draft of such Bill to the Senate on the 25th instant, for consideration and approval, and that the Senate, after deliberating on and agreeing to certain amendments, approved of the draft in the form and terms of that which is herewith enclosed.

2. I have now the honor, by authority of the Senate, to submit the draft as the Bill which it begs to suggest to the Government for presentation to Parliament.

I have, &amp;c.,

HUGH KENNEDY, Registrar.

For my successor.—J.L., 20/12/78.

[Enclosure.]

## A BILL to make provision for the further endowment of the University of Sydney and for extending the Faculties and Schools therein.

Preamble.

WHEREAS by the Act of the Governor and Legislative Council of this Colony passed in the fourteenth year of Her Majesty's reign intituled "*An Act to incorporate and endow the University of Sydney*" power was given to the Senate of the University to confer the several degrees of Bachelor of Arts Master of Arts Bachelor of Laws Doctor of Laws Bachelor of Medicine and Doctor of Medicine but no other degrees and by way of permanent endowment of the said University the Governor was empowered by warrant under his hand to direct to be issued and paid out of the general Revenue of the colony by equal quarterly payments the sum of five thousand pounds in each and every year And whereas by the "*Prince Alfred Memorial Hospital Site Dedication Act of 1873*" provision was made for the establishment of a medical school within the University and in connection with the Prince Alfred Memorial Hospital And whereas it has been found that the endowment of five thousand pounds a year is insufficient to provide for such medical school and for a school of law within the University and for other branches of instruction which it is desirable that the University should henceforward undertake And whereas it is also expedient that the Senate should have power to establish Faculties and Schools in Science and applied science and in any other departments of knowledge except theology and after examination to confer degrees therein respectively Now therefore it is enacted by the Queen's Most Excellent Majesty by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled and by the authority of the same as follows:—

Further endowment of the University.

1. By way of further permanent endowment of the said University the Governor is hereby empowered by warrant under his hand to direct to be issued and paid out of the Consolidated Revenue Fund of the Colony by four equal quarterly payments on the first days of January April July and October in every year commencing on the first day of January one thousand eight hundred and seventy-nine as a further fund for the purposes in the said first recited Act and herein mentioned the annual sum of five thousand pounds in addition to the endowment provided by the said firstly recited Act Provided that such additional endowment shall be subject to the provisions in the said Act contained respecting the full annual accounts of the University and the examination and audit thereof.

Senate empowered to establish Faculty of Science &amp;c. and grant degrees.

2. The Senate is hereby empowered to establish within the said University a Faculty of Science and such other Faculties and Schools as it may consider necessary in any department of knowledge except theology and after due examination to confer such degrees or other marks of honor or competency as the said Senate may deem appropriate Provided that no student in the University shall be required to attend lectures upon or to pass examinations in any of the following subjects to which he shall object namely—ethics metaphysics and modern history.

Access to hospitals &amp;c. by professors and students.

3. All hospitals receiving aid from the Government shall be open to the professors lecturers and medical students of the said medical school and to all other persons authorized by the Senate subject to such regulations as the Senate may with the approval of the Governor in Council make in that behalf And all museums botanical collections public libraries and other literary and scientific institutions wholly supported by grants from the public funds shall be in like manner open to all professors lecturers and students of the University subject to regulations to be made as aforesaid.

Affiliation &amp;c. of certain institutions and schools. Short title.

4. It shall be lawful for the Senate under by-laws to be made in that behalf to receive into affiliation or other connection with the University any literary or scientific institution or any school of applied science upon such terms and conditions and with such privileges as to certificates or other marks of competency and honour as to the Senate may seem fit.

5. This Act may be cited as the "*University further Endowment and Extension Act of 1878.*"

## No. 6.

## Report of Medical School Committee of the Senate of the Sydney University.

University, 5 February, 1879.

THE Committee having considered the matters referred to them and having kept in view the limit of £5,000 of the additional endowment which the Senate hopes to receive, have agreed that it is desirable to devote to the purposes of a medical school the annual sum £2,700, which the Committee propose should be distributed as follows (subject always to rearrangement as circumstances may appear to demand):—

Professor of Anatomy and Physiology	...	...	...	...	£1,000
Practice of Medicine (6 months)	...	...	...	...	200
"    Surgery    "	...	...	...	...	200
"    Midwifery    "	...	...	...	...	200
Materia Medica and Therapeutics	...	...	...	...	200
Medical Jurisprudence	...	...	...	...	200
General Pathology	...	...	...	...	200
Classical Medicine and Clinical Surgery	...	...	...	...	200
Anatomical Demonstrator	...	...	...	...	200
Attendant and housekeeper	...	...	...	...	100
					£2,700

The Committee might have modified and extended its proposals for a medical school if it had not been necessary to bear in mind the requirements of other proposed branches of study, especially those belonging to the schools of science and law. Having regard to the limit of £5,000 a year of the proposed increased endowment the Committee, though appointed only to inquire and report as to the proposed medical school, found it necessary to embrace within its inquiries the demands for such other branches; and they consider that the following amounts should be set apart for them:—

<i>In Science.</i>					
Professor of Natural History	...	...	...	...	£1,000
Lecturer in Mechanics and Engineering	...	...	...	...	400
<i>In Law.</i>					
Two Lecturers	...	...	...	...	500
<i>In Arts.</i>					
Assistant to Professor in Mathematics and Natural Philosophy					250
					£2,150

There would remain a balance of £150 out of the expected £5,000, which amount, together with the fees, would be barely sufficient for the necessary incidental outlay.

(Extract from Report of Committee of the University Senate.)

W. M. MANNING,  
Chancellor.

The Government having had this Bill under consideration have arrived at the decision that it is not desirable to submit it to Parliament this session on account of the general desire to bring the session to a close and the large number of Bills still to be considered by the House.—F.B.S., 21/2/79.

## No. 7.

## The Under Secretary of Justice, &amp;c., to The Chancellor of the Sydney University.

Sir, Department of Justice and Public Instruction, Sydney, 21 February, 1879.

Referring to recent correspondence on the subject of the introduction of a Bill providing for increased endowment for the University of Sydney, I am directed by the Minister of Justice and Public Instruction to state, for the information of the Senate, that the Government having had this Bill under consideration have arrived at the decision that it is not desirable to submit it to Parliament this session on account of the general desire to bring the session to a close, and the large number of Bills still to be considered by the House.

I have, &c.,

W. E. PLUNKET,  
Under Secretary.

## No. 8.

## Memorandum by Registrar of Sydney University to The Under Secretary of Justice, &amp;c.

University of Sydney, 24 June, 1879.

A COMPLETE scheme for the establishment of a school of medicine in the University, inclusive of lecture-rooms and other buildings required, was adopted by the Senate on the 5th February, 1879. At the same time schemes for the faculties of arts and law were adopted. No steps have been taken in the matter, pending the result of the application to Government for increased endowment.

HUGH KENNEDY,  
Registrar.

## No. 9.

## The Chancellor of the Sydney University to The Minister of Justice, &amp;c.

My dear Mr. Suttor,

16 September, 1879.

I am not well enough to call upon you at present, and I may not be able to do so before starting on circuit, otherwise I should have presented myself to you, as our ministerial chief, to urge upon the Government the passing of the University Extension Bill during the approaching session of Parliament. Failing a personal interview, allow me to write to you semi-officially upon the subject.

The Senate is so firmly convinced of the value of the measure, and I personally feel so intensely that it is demanded by the educational interests of the public and for the honor of the Colony, in contrasting our University with those of our neighbours, that I cannot refrain from pressing it upon the Ministry with the utmost earnestness. I will not indeed attempt to dilate upon the subject in now writing to you, as I believe you cordially approve of our scheme and fully appreciate the reasons advanced by me in my two commemoration addresses. But I hope it will not be too much, considering the great importance of the matter, to ask such of your colleagues as have not already done so to peruse those portions of my addresses that bear upon it. I will only trouble you with one additional fact or feature, which is this: That the sudden and unprecedented increase of matriculations this year, doubling those of any former year, can only be accounted for by the existence of a wide-spread expectation that the University is on the eve of expansion in directions which will open up professional careers which have hitherto been unattainable to the youth of the Colony without a costly and morally dangerous expatriation.

I feel great confidence that this expansion is desired by the public at large, and I cannot persuade myself that Parliament will hesitate to accept the measure and provide the required funds—small as they are in comparison with the munificent bestowals on primary education.

Let me now very earnestly beg that the Bill prepared under your authority, and approved by the Senate, during last Session, may be now introduced by the Government and supported by its full weight; and I would venture to suggest that it should be brought forward at an early period of the Session, both in order to expedite the Senate's arrangements for the proposed new "schools" of learning, and to escape the Parliamentary obstacles that will be apt to arise at a later date.

Believe me, &amp;c.,

W. M. MANNING,

Ch., Syd. Univ.

Allow me to refer you to the joint letter of the Vice-Chancellor and myself to your predecessor,\* dated 5th July, 1878, explaining the views of a deputation which had called upon him.—W.M.M.

## No. 10.

## The Registrar of the Sydney University to The Under Secretary of Justice, &amp;c.

Sir,

University, 14 December, 1879.

In pursuance of a resolution passed at their last meeting, it is proposed that the Chancellor, Vice-Chancellor, and Senate should wait upon the Minister for Public Instruction to urge upon him the necessity for an increased endowment to the University.

I now have the honor to request that you will have the goodness to inform me as to the day on which it will be convenient for Mr. Suttor to receive the deputation?

I have, &amp;c.,

HUGH KENNEDY,

Registrar.

Will receive deputation on Tuesday, 23rd instant, at 11 o'clock a.m.—F.B.S., 18/12/79.

A deputation from the University, consisting of Sir William Manning, Sir Alfred Stephen, Mr. Justice Fawcett, Hon. W. Macleay, M.L.C., Canon Allwood, Mr. Barton, M.P., Dr. Renwick, M.P., and Mr. Hugh Kennedy, waited upon me and urged the desirability of the Government submitting to Parliament the Bill prepared by the Senate, providing for a further endowment, &c., of the University. I promised that the matter should receive the early attention of the Government.—F.B.S., 30/12/79.

## No. 11.

## The Under Secretary of Justice, &amp;c., to The Registrar of the Sydney University.

Sir,

Department of Justice and Public Instruction, Sydney, 18 December, 1879.

I am directed to acknowledge the receipt of your communication of the 14th instant, intimating that the Chancellor, Vice-Chancellor, and Senate are desirous of waiting upon the Minister of Justice and Public Instruction, to urge upon him the necessity for an increased endowment to the University, and to state that Mr. Suttor will be happy to receive the deputation on Tuesday next, the 23rd instant, at 11 o'clock a.m.

I have, &amp;c.,

W. E. PLUNKETT,

Under Secretary.

\* Presumed to be 5th August.

## No. 12.

The Under Secretary of Justice, &c., to The Registrar of the Sydney University.

Sir, Department of Justice and Public Instruction, Sydney, 22 December, 1879.  
Referring to my letter of the 18th instant, intimating that the Minister of Justice and Public Instruction would be happy to receive a deputation of the Chancellor, Vice-Chancellor, and Senate, respecting increased endowment for the University, on Tuesday next, the 23rd instant, at 11 o'clock, a.m., I have the honor to inform you, that owing to domestic trouble, Mr. Suttor regrets he will be unable to receive the gentlemen on the day named, but that he will be happy to receive them on the following Tuesday, the 30th instant, at the same hour.

I have, &c.,  
W. E. PLUNKETT,  
Under Secretary.

## No. 13.

The Chancellor of the University to The Minister for Public Instruction.

Sir,

10 June, 1880.

In reference to the many communications which have been made from time to time by the Senate of the University to successive Governments, praying for an increase of the University's public endowment, it is proper that I should now apprise you of the bequest recently made to the University by the late Mr. John Henry Challis.

I have therefore the honor to inform you accordingly :

Mr. Challis, by his will dated in 1878, bequeathed his residuary estate (after certain legacies and annuities), amounting, as I am informed by the executors, to over £150,000, as follows : First,—to his widow for life or until re-marriage, in which event she would fall back on an annuity of £1,500 a year. Secondly,—to his children absolutely, if any such should exist and should reach maturity. Lastly,—on failure of issue, then to the University absolutely, subject only to an instruction, that the fund shall be accumulated at interest for five years before final transfer.

The testator having, as we are informed, left no children, we believe that there is nothing between the University and the fund except the widowhood of Mrs. Challis and the term of accumulation.

Having regard to the conviction of the Senate that the University requires a prompt accession of income, it seems necessary to state that the age of the widow is such that the bequest may possibly not come to its relief for thirty years or upwards, although, of course, it may do so at a much earlier date. That contingency cannot be relied upon, nor will it be possible for the Senate, legally and consistently with the intention of the testator, to anticipate the inheritance to any extent whatever.

It may be right further to state that whenever Mr. Challis' bequest shall fall in the Senate will probably consider that a portion of it should be specially dedicated to his honor in some way in connection with University purposes, and that the remainder only should be applied to working purposes.

The latter, however, would constitute the bulk of the fund, and would suffice for a long period to relieve the Parliament from any demand for University expansion.

I have, &c.,  
W. M. MANNING,  
Chancellor.

## No. 14.

The Chancellor and Vice-Chancellor of the Sydney University to The Minister for Public Instruction.

Sir,

The University, 23 September, 1880.

Referring to the representations made to successive administrations of the Government by deputations from the University Senate, as to the need for University extension, and to letters addressed to Minister for Public Instruction on that subject (especially as noted in the margin), and referring also to the announcement made by me to yourself of the bequest of the late Mr. Challis,—

5 August, 1878,  
Chancellor and  
Vice-Chancellor  
to the Minister.

We have the honor respectfully to submit a request that the Government will be pleased to propose to the Parliament during its next session the increase of endowments from £5,000 a year to £10,000 a year, which has been proposed on former commemorations, with this proviso, that it shall be limited to such interval as may elapse before the falling in of Mr. Challis's request, on the decease or re-marriage of his widow.

18 September,  
1879, Chancellor  
to Minister.

I would call your attention to the fact that a Bill for the then proposed permanent increase of endowment was prepared in 1875 by the Parliamentary Draftsman, under the authority of the then Minister for Public Instruction, with the concurrence and assistance of the Chancellor on behalf of the University; and that it was, with the sanction of the Minister, submitted to the Senate and received its approval. That Bill subject only to the limitation of time which Mr. Challis's bequest enables us now to propose, will, we believe, be suitable, in all respects, for introduction to the Parliament.

The income which will ultimately come to the University under Mr. Challis's bequest will, we are informed, reach about £8,000 a year, and will probably meet, but be no more than sufficient for, all the wants of the University at the time when it falls in; but the Senate believes that the proposed additional interim endowment of £5,000 a year will suffice for all that is most urgently required, including the establishment of a medical school upon a sound commencing basis.

We have, &c.,  
W. M. MANNING, Chancellor.  
ROBERT ALLWOOD, Vice-Chancellor.

Submit when the elections are over.—JOHN R.

No. 15.

The Under Secretary for Public Instruction to The Chancellor and Vice-Chancellor  
of the Sydney University.

Gentlemen,

Department of Public Instruction, Sydney, 18 January, 1881.

I have the honor, by direction of the Minister of Public Instruction, to acquaint you that your letters of the 10th June and 23rd September last, the former reporting the bequest made to the University of Sydney by the late Mr. John Henry Challis, and the latter requesting that the endowment in favor of that institution may be increased to £10,000 per annum, have been under consideration.

2. In reply, I am to state that the Government intends to introduce to Parliament a Bill for the purpose of dealing generally with University matters, and that it is unwilling in the meantime to take action of the kind requested in your letter of the 23rd September last.

I have, &amp;c.,

W. WILKINS,  
Under Secretary.

1881.

## NEW SOUTH WALES.

## SYDNEY GRAMMAR SCHOOL.

(REPORT OF TRUSTEES FOR THE YEAR 1880.)

Presented to Parliament, pursuant to Act 18 Vic., No. 16.

## The Secretary to Trustees, Sydney Grammar School, to The Minister of Public Instruction.

Sir,

Sydney Grammar School, 28 June, 1881.

I have the honor, by direction of the Trustees of the Sydney Grammar School, to transmit to you, for the purpose of being laid before Parliament, the following Report of their proceedings and the progress of the school during the year 1880.

The Trustees at their first meeting elected M. H. Stephen, Esq., Chairman, and Professor Gurney Vice-Chairman, of the Board for the year.

On the 23rd February, W. W. Wardell, Esq., C.E., was elected a Trustee in the room of the late Professor Pell.

At a special meeting of the Trustees, held on the 14th June, six months' leave of absence without pay was granted to Mr. Edward Meyrick, the Second Classical Master, to enable him to visit England on private business. To fill this temporary vacancy the Trustees appointed Mr. C. E. Hewlet, B.A., late Demy of Magdalene College, Oxford, as an Assistant Master for six months, at a salary of £250 a year. Mr. Thomas Dawson, M.A., Gold Medalist of Glasgow University, was also made a probationary Master, at £200 a year, to fill the vacancy occasioned by the resignation of Mr. Field.

Mr. Pratt, the Mathematical Master, on the 26th July, applied for, and obtained, from the Trustees, twelve months' leave of absence, on half-salary and emoluments, from the 1st of November last. Mr. Pratt has worked at the school without intermission from its opening in 1857. During Mr. Pratt's absence the Trustees have arranged with Mr. J. H. Skinner, the Second Mathematical Master, to undertake Mr. Pratt's work.

Soon after Mr. Dawson's appointment he resigned, and to fill the vacancy the Trustees secured the services of the Rev. W. J. M. Hillyar, B.A., as a Temporary Master until the end of the year.

Mr. James G. Davis placed his resignation in the hands of the Trustees on the 15th of November, and the vacancy was filled up by the appointment of Mons. R. A. Martin, who is to be employed exclusively in teaching French.

At the request of the Trustees, Edwin Bean, Esq., B.A., late Scholar of Trinity College, Oxford, and J. Wheatcroft, Esq., B.A., late Scholar of St. John's College, Cambridge, conducted the annual examination in classics and mathematics. Their reports are annexed.

The Trustees have the pleasure to report that at the matriculation examination held in 1880 at the Sydney University two out of the three scholarships awarded to the matriculating students were gained by the pupils of the Sydney Grammar School, and that out of the forty-two candidates who passed the matriculation examination, twenty were pupils of this school.

Since the date of the last report the Trustees have not found it necessary to make any further regulations for the management of the school.

The average attendance of pupils during the year was 402½.

An account of the whole income and expenditure of the school during the year is hereto appended.

I have, &c.,  
W. H. CATLETT,  
Secretary.

## APPENDIX.

## Report of the Classical Examiner.

To His Excellency the Governor and the Trustees of the Sydney Grammar School.

Your Excellency and Gentlemen,

I have the honor to submit a report of the examination of the Upper and Lower Schools in classical subjects.

In the Upper School, besides Latin and Greek Grammar and composition, the following authors were presented for examination:—

*Form VI.*—Livy, Book XXI; Horace, Odes III; Virgil, Aen. VI., and Georgics, Books I, II, III; Plato, Apology; Homer, Iliad V; Demosth., Or. 14, 15, 16, 17; Aristophanes, Clouds.

*Form V.*—Livy, XXI; Horace, Od. III; Virgil, Aen. VI; Homer, Il. V; Demosthenes, Or. 14, 15, 16, 17; Aristophanes, Clouds.

*Form IV.*—Virgil, Aen. VI. Cæsar Bk. III, Xenoph., Anab., Bk. III.

*Upper Remove.*—Extracts from Ovid, and Greek Delectus.

*Moderns I.*—Extracts from Cicero, Virgil, Aen. VI.

*Moderns II.*—Cæsar, Book III.

In the Lower School each form took up portions of Thue's Delectus or Smith's First Principia, while III A. presented extracts from Cæsar V., and III B. some fables from Phædrus.

In addition to the subjects already mentioned for the Upper School, a severe test of the general classical knowledge was the setting of pieces for translation at sight, or what is technically called unseen translation. It will be readily understood that a boy must have been thoroughly taught if he can accurately interpret without help from dictionary or grammar the meaning of a passage which he has never before seen.

I will now proceed to report the results obtained from the various forms:—

*Forms VI and V.*—The unseen pieces consisted of difficult passages from Plato and Cicero's Letters, and two easier passages from Homer's Odyssey, and Lucan's Pharsalia.

The Latin part of the paper was well done by nearly all the boys, 13 out of 16 obtaining more than 50 per cent. marks, and the sixth form gaining an average of 70 per cent. Armstrong, Halliday, Tarplee, Morrice, Fairfax, Leverier, all did well.

In the Greek unseen, which was partly taken from a scholarship paper at Rugby, Armstrong obtained 90 per cent., Halliday coming next with 54. The passage from Homer, though far easier than the Plato, was less well rendered, owing probably to the short time that the boys have studied the Epic dialect. It may be remarked of the whole paper that the force and niceties of expression, both in Latin and Greek, and the grammatical construction also, were carefully brought out, what errors there were chiefly arising from unfamiliarity with the terms themselves rather than with the inflections of them.

The Latin and Greek composition of these forms is also of a good standard: that of Armstrong and Tarplee, excellent. In a continuous passage from Latin prose, also taken from a Rugby sixth form paper, Armstrong obtained 80 per cent., Tarplee, 60; and in one for Greek prose, Armstrong gained 74 per cent., Halliday 66, Tarplee 63, Fairfax 56, Broomfield 54; but the difference in ability and classical knowledge became far more apparent, as shown by the greater intervals in marks between boy and boy. Some Latin idioms were admirably done throughout, the highest (Armstrong) obtaining 95 per cent., and even the lowest boy 45 per cent.

Under Latin composition I should not omit a very good copy of Latin verse by Armstrong, the only boy who attempts Latin verse in the school. The rendering was close, and the versification perfect, though the antithesis in two of the lines might have been more marked. The passage set was two verses from an ode by Sir Henry Wotton.

A difficult task paper, containing questions on more general subjects connected with the books presented, was well answered throughout, and excellently by Armstrong and Tarplee, and Halliday,—Tarplee's paper on the comparison of participial constructions in English, Greek, and Latin, being at once original and comprehensive, and showing considerable power.

Of the rest of the Upper School the work throughout is satisfactory; that of the IV decidedly good and evenly distributed through the form, and the I Moderns deserve especial praise. The modern side, having its chief work out of the region of classics, is hardly to be judged at the same standard; but I remarked the excellent choice of English for the unseen translations of Moderns I—a proof of good teaching. The parsing, however, of Form IV, and the spelling of the moderns was not proportionately advanced.

In Form IV, Russell (2), was easily best throughout, Savage and Delohery doing well. The whole form worked well together, only two boys out of 21 "tailing off." I am glad to see that the fourth form maintains the standard of through work, which has been made traditional in the form for six years past—ever since Mr. Francis became its form master.

In the Upper Remove Grecians the papers were possibly too hard for the standard of the form; certainly the Latin composition was so. The translation, however, was excellent, and as many boys have only been in the form for six months, the disparity between boy and boy which I found is accounted for satisfactorily. Campbell, Leibius, and Beechag did well.

In the Lower School I was at once struck with the general improvement in parsing, and, as a rule, even the beginners made intelligible mistakes—by which I mean, that when a boy made an error it was possible, by a process of questioning, to lead him to correct his own mistakes. This is a proof of good system and clearness of method, and is the more satisfactory when it is understood that six years ago such a process was unworkable even in the fifth form, the master having to attempt both ground work and higher work at the same time.

III A seems hardly to maintain the position of the leading form in the Lower School. The translation of some passages seemed to be specially got up, while an easy passage, which had not been studied lately, produced very inaccurate and unsatisfactory results.

The work of this form is uneven, and though that of M'Pherson, White, M'Dermott, and Lendall shows that the teacher has put good models before his class yet the work has not been brought home to the boys in general.

III B is a good form, and well together. 17 boys out of a total of 28 obtained more than 50 per cent., and of the remainder four were partly absent from examination.

It may be said, in qualification of this praise, that III B took up far shorter subjects than III A. Thomson (2), Collins, Henderson (2), Cadell (1), M'Intyre, Cork, and Langley, did well.

III C did fairly, but here also there is the same result as in III A, viz., considerable disparity between the best boys and the rest. As, however, it is evident that this form contains a large proportion of big backward boys, the standard is rather lower than for a form ordinarily constituted. Of those who did well Buchanan and Whiting, also Brown and Williamson and Bohrsman, deserve mention. The rest, being about four-fifths of the form, gained less than half marks.

II A is a very large form—too large to be taught thoroughly; consequently two-thirds of the form answered moderately only, and of these last nearly half did badly. Pelletier and Armstrong (2) just deserve notice. It is evident that the master's attention has been devoted to keeping his team together, but a considerable proportion of them seem to have been idle. As they are mostly young boys with whom the school has a fair chance this is to be regretted, though the exigencies of classification no doubt compel it.

II B. have learned thoroughly the work of the half-year, but their back work is very unsound; it would probably have been better to take up a narrower gauge, and keep the groundwork well in hand. Cosh (1), Jay, Jenkins, Littlejohn (2), Meyrick (2), Williamson (3), answered fairly.

The lower remove are well together and very well disciplined, and Solomon, Bernasconi, and Inglis (2) did excellently.

I was also pleased with Form I. The master has to take beginners at various standards; consequently the form has to be divided into sets which must distract his attention. The boys also vary somewhat in age; though few of them have been more than six months at the school, it is evident that they are beginning good habits of study.

On the whole then there is every reason to be satisfied and more than satisfied with the improvement of the school. Having been a master here three years ago, when I look back upon the classical work of that time, I can say, without hesitation, that most of the forms in the Upper School have advanced a whole standard since that time, while in the Lower School, though the work could hardly be expected to be higher (seeing that the new comers are just as backward and ungrounded as ever they were) it is far more systematic.

But while you may well be satisfied when you consider the school as contrasted with its former self; on the other hand if we take as a standard the classical training of the great schools at home, there is room enough for improvement.

"Hills peep o'er hills, and Alps on Alps appear."

The very able and devoted staff of masters which you have the good fortune to have secured is capable of producing, I will not say higher but broader results than have yet been obtained, if only fair scope is afforded them. But that this is not so is only too evident. Statistics kindly furnished me by the masters go to show that the average length of a boy's stay at the Grammar School is three years; about two-thirds of the boys who come are fourteen years and over, many even seventeen years; they come from the Public Schools and elsewhere, well trained no doubt in mathematics, and possibly in English work, but most ignorant, or what is worse, badly grounded in Latin. The Latin and Greek have to be studied here, and though the system adopted is as good as it can be for the time and age at which boys come it is a hurried and unsatisfactory course.

In the great English Schools a boy takes from six to eight years to study classics. Instead of having every difficulty smoothed away, and having to be coached over-night in order to understand his lessons, he is given dictionary and grammar and made to puzzle them out by an inductive process, which is a grand mental discipline. But such a process requires time, and if attempted at all must be very imperfectly executed here. The consequence is that boys who leave this school for business life before reaching the V or VI forms have not gained that benefit by the process which could be produced if only the term of school life were longer. Not only so—Roman and Greek History, Philology, are abandoned here, and very wisely too considering the time.

This shortness of school life is the great defect of this and other schools. It lies with parents and public opinion to alter it, and until an improvement takes place in this respect it will be in vain to look for higher results at your University. It is unfair to a public foundation like the Sydney Grammar School that boys should be sent at such ages and for so short a time; but the part of the school work which is chiefly affected and obstructed is undoubtedly the department of classics.

I have, &c.,

E. BEAN, B.A.,

Examiner.

### Report of the Mathematical Examiner.

Gentlemen,

Sydney Grammar School, Christmas, 1880.

I have been much gratified at having assigned to me the honor of examining this school in mathematics, and I have to congratulate you on many excellent features which are presented by the results of the examination. Some of the work, especially that of the best boys, I have taken great pleasure in looking over. It has been of the best that I think school boys are capable of. The papers in conic sections, trigonometry, and statics were very nearly of the same degree of difficulty as those set for entrance to Woolwich, where the examination is competitive and notoriously searching. In these subjects Halliday and Leverrier did extremely well, and would be sure to distinguish themselves in mathematics at any University. Pratt also did well, showing considerable originality, but not quite so much knowledge of the subject as the other two boys.

I will now consider the mathematics generally of Div. I and II of the Upper School—classical side. The euclid was excellent, Halliday and Leverrier obtained full marks, a fact which is its own commendation; Russell (2) also did very well, while most of the rest did at least creditably.

The algebra was well done by Div. I, the work of Halliday and Leverrier being as usual excellent; Russell (2) and Armstrong were also very good. Div. II did not come off so well in this subject, two of the boys getting no marks at all.

The arithmetic paper produced the least satisfactory results; no boy, in my opinion, was excellent in it. There was far too much inaccuracy shown, and want of knowledge of methods for saving labour. Halliday and Savage, in Div. II, did best. Those of the Moderns who had these higher papers did very creditably, quite holding their own with Div. II.

The rest of the Upper School had other papers in euclid, arithmetic, and algebra.

On the classical side the euclid was well done by the great majority of the boys in Division III, and by a fair number in Division IV.

The other subjects could scarcely be considered satisfactory, both papers being done in a very inaccurate manner, and the average number of marks obtained being very low. On the modern side the results in euclid and algebra were good, but the arithmetic was poor.

Division IV doing very badly indeed; Division II, however, did better than any of the sets who had the same paper.

In the Lower School those boys who did euclid showed up very good papers almost all through. Adams (3), Wilson, and Collins especially distinguished themselves. This general excellence in a subject in which young boys are so apt to fail must be considered as highly satisfactory. The algebra also seemed to be fairly well done. Alderton's paper was excellent. In the Third Form the arithmetic does not seem to be in a satisfactory state. There are a few good boys in it, but a great proportion of the form appear to be able to do little or nothing.

The simpler paper in arithmetic given to the Lower Forms was done fairly well on the whole, the lower remove getting a high average. The best papers were done by Penfold and Thompson (3). There is one fault that I must notice here, one that is very prevalent among boys of the Lower School, i.e., the want of neat and orderly arrangement of their work. Very often they did not seem to care how they sent up their papers, and sometimes it required an extended search to find out the figures that were intended for the answers. This is a serious drawback, for order and neatness are great helps to accuracy, and encourage the examiner to look through the work more carefully in order to find out good points that are worth marking.

In conclusion then, gentlemen, I feel justified in making the following general statements:—The extent to which the study of mathematics is carried in the school ought to be gratifying to you. There is certainly the proper proportion of boys who are working in advanced subjects, and those boys have been well taught. Their knowledge is so sound that it appears to me almost a pity that they have not made a step farther and have not taken up the study of the calculus. Perhaps, however, that could only have been done at the expense of the lower subjects. The euclid was well done, and the algebra was fair, but the mathematics of the school can scarcely be considered quite satisfactory as long as the arithmetic is so weak. To me one cause of the weakness appears to be the classification which in the Upper School is faulty, and in the Lower School scarcely seems to exist. Masters consequently are needlessly harassed by having to teach classes of boys who are in very different stages of progress, the efficiency of their teaching being thereby much reduced. The staff of masters appears to be sufficient; and I do not think that the general organization of the school can be at fault, for large groups of boys are left to be classified mathematically, groups so large that it appears to me they can admit of very complete classification.

I have, &c.,

J. WHEATCROFT.

## NEW SOUTH WALES.

## LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(RESUMPTIONS OF LAND FOR PUBLIC SCHOOL PURPOSES AT GRESFORD, LOUTH, MILLER'S FOREST, TERRARA, AND WANGANELLA.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

## NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA, No. 16.

NEW SOUTH WALES, } By His Excellency The Right Honorable Sir AUGUSTUS WILLIAM FREDERICK  
to wit. } SPENCER LOFTUS (commonly called Lord AUGUSTUS LOFTUS), Knight Grand Cross  
(L.S.) } of the Most Honorable Order of the Bath, a Member of Her Majesty's Most  
AUGUSTUS LOFTUS, } Honorable Privy Council, Governor and Commander-in-Chief of the Colony of  
Governor. } New South Wales and its Dependencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by the Lands for Public Purposes Acquisition Act, by this notification, published in the Gazette and a newspaper circulated in the police district wherein the said land is situated, that is to say, in the *Singleton Argus* newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith; and that the said land hereinafter described is resumed with the intent that, by the publication in the Government Gazette and in a newspaper circulated in the police district of Patrick's Plains of this notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever; and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction, as a trustee, as in the said Act is provided: And I declare that the following is the parcel of land hereinafter referred to as resumed by this notification, that is to say:—All that piece or parcel of land forming part of Charles Boydell's 640 acres, situated in the parish of Gresford, county of Durham, containing by admeasurement 2 acres: Commencing on the east boundary of George Townshend's (now Dr. Lindeman's) 820 acres at a point bearing north and distant 3 chains and 88 links from the south-west corner of Charles Boydell's 640 acres; and bounded thence on the west by part of the east boundary of the 820 acres aforesaid bearing north 4 chains and 48 links to the south side of the road from Gresford to the Paterson township; thence on the north by that side of that road bearing east 4 chains and 48 links; on the east by a line bearing south 4 chains 48 links; and thence on the south by a line bearing west 4 chains and 48 links to the point of commencement.

In testimony whereof, I have hereto set my hand and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this tenth day of June, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fourth year of Her Majesty's reign.

By His Excellency's Command,  
JOHN ROBERTSON.

GOD SAVE THE QUEEN!

## NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA, No. 16.

NEW SOUTH WALES, } By His Excellency The Right Honorable Sir AUGUSTUS WILLIAM FREDERICK  
to wit. } SPENCER LOFTUS (commonly called Lord AUGUSTUS LOFTUS), Knight Grand Cross  
(L.S.) } of the Most Honorable Order of the Bath, a Member of Her Majesty's Most  
AUGUSTUS LOFTUS, } Honorable Privy Council, Governor and Commander-in-Chief of the Colony of New  
Governor. } South Wales and its Dependencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by the Lands for Public Purposes Acquisition Act, by this notification, published in the Gazette and a newspaper circulated in the police district wherein the said land is situated, that is to say, in the *Central Australian and Bourke Telegraph* newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith; and that the said land hereinafter described is resumed with the intent that, by the publication in the Government Gazette and in a newspaper circulated in the police district of Balranald of this notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction, as a trustee, as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—All that piece or parcel of land, being allotment 1 of section 5 in the private township of Louth, parish of Yandagulla, county of Yanda, containing 2 roods: Commencing at a point bearing north 60 degrees 16 minutes east 1,332 links from the south-west corner of portion No. 5-2, being Thomas Mathews' conditional purchase of 40 acres; and bounded thence on the west by Hughes-street bearing north 8 degrees 30 minutes east 200 links; thence on the north by allotment 2 of said section 5 bearing south 81 degrees 30 minutes east 250 links to a lane 30 links wide; thence on the east by that lane bearing south 8 degrees 30 minutes west 200 links to Becker-street; and thence on the south by that street bearing north 81 degrees 30 minutes west 250 links, to the point of commencement, being included partly within the said portion 5-2 of 40 acres and partly within portion 5-3 of 140 acres, Thomas Mathews' additional conditional purchase.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this fourteenth day of April, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fourth year of Her Majesty's reign.

By His Excellency's Command,  
JOHN ROBERTSON.

GOD SAVE THE QUEEN!

## NOTIFICATION OF RESUMPTION OF LAND UNDER 44 VICTORIA, No. 16.

NEW SOUTH WALES, } By His Excellency The Right Honorable Sir AUGUSTUS WILLIAM FREDERICK  
to wit. } SPENCER LOFTUS (commonly called Lord AUGUSTUS LOFTUS), Knight Grand Cross  
(L.S.) } of the Most Honorable Order of the Bath, a Member of Her Majesty's Most  
AUGUSTUS LOFTUS, } Honorable Privy Council, Governor and Commander-in-Chief of the Colony of  
Governor. } New South Wales and its Dependencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by the Lands for Public Purposes Acquisition Act, by this notification, published in the Gazette and a newspaper circulated in the police district wherein the said land is situated, that is to say, in the *Newcastle Herald* newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith; and that the said land hereinafter described is resumed with the intent that, by the publication in the Government Gazette and in a newspaper circulated in the police district of Newcastle of this notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee-simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction, as a trustee, as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—All that piece or parcel of land situated in the parish of Alnwick, county of Northumberland, being part of lot 20 of subdivision of Simeon Lord's 2,000 acres, known as the Lidney Estate, and containing by admeasurement 2 acres more or less: Commencing on the west side of a road 50 links wide at the north-east corner of lot 20, as shown on plan of subdivision of Lidney Estate deposited in Lands Titles Office, being a point bearing south 18 minutes west, and distant 94 chains and 83 links from the north-east

north-east corner of Simeon Lord's 2,000 acres ; and bounded thence on the east by the western side of the road aforesaid bearing south 4 chains ; thence on the south by a line bearing north 88 degrees 30 minutes west 5 chains ; thence on the west by a line bearing north 4 chains to the north boundary of lot 20 aforesaid ; and thence on the north by that boundary bearing south 88 degrees 30 minutes east 5 chains, to the point of commencement : together with a right-of-way 6 feet wide from Scotchman's Creek Road, and situated on the northern side of a line bearing south 86 degrees east 15 chains ; and thence on the western side of a line north 19 degrees west to a point on the south boundary and 50 links easterly from the south-west corner of the above described portion (said to be part of the late William King's estate).

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this fourteenth day of April, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fourth year of Her Majesty's reign.

AUGUSTUS LOFTUS, } Honorable Privy Council, Governor and Commander-in-Chief of the Colony of  
Governor. } New South Wales and its Dependencies

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith : And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School : Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by the Lands for Public Purposes Acquisition Act, by this notification published

in

in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the *Deniliquin Pastoral Times* newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith, and that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette, and in a newspaper circulated in the Police District of Deniliquin of this notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever; and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction, as a trustee as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—

All that piece of land in the village of Wanganello, parish of Wangonilla, county of Townsend, containing 1 acre, being allotment 5 of section 17: Commencing at the intersection of the southern side of Lang-street with the western side of Brougham-street; and bounded thence towards the north by Lang-street for two chains; thence on the west by allotment 4 for five chains; thence on the south by a line easterly two chains to Brougham-street; and thence on the east by that street five chains, to the point of commencement.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this fourteenth day of April, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fourth year of Her Majesty's Reign.

By His Excellency's Command,  
JOHN ROBERTSON.

dencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, SIR AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by "The Lands for Public Purposes Acquisition Act," by this notification published in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the "Sydney Morning Herald" newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith; and that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette, and in a newspaper circulated in the Metropolitan Police District of this notification of the said and being so resumed the said land shall forthwith become and be vested in the Minister of Public

Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction, as a trustee as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—

All that piece or parcel of land forming part of John Gurner's grant of 7 acres 2 roods, situated at Glenmore Road, parish of Alexandria, county of Cumberland, containing 2 acres: Commencing on the eastern side of the Glenmore Road, at a point bearing south 13 degrees 56 minutes west, and distant 3 chains 43 links from the alignment post on the Glenmore Road, which forms the building-line of the southern side of Alma-street; and bounded thence on the north by a line east 4 chains 1 link; thence on the north-east by a line bearing south 20 degrees east 4 chains 26 links; thence on the south by a line bearing bearing west 6 chains 30 links to the eastern side of the Glenmore Road aforesaid; and thence on the west by that side of that road bearing north-easterly, to the point of commencement.

Together with a right-of-way 20 feet wide, being parallel with and northerly of a line bearing south-easterly from the south-east corner of the above-described 2 acres to the north-east corner of John Gurner's 2 acres 2 roods and 30 perches.

In witness whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereunto affixed, at Government House, Sydney, this fourteenth day of October, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fifth year of Her Majesty's Reign.

By His Excellency's Command.

SPENCER LOFTUS (commonly called LORD  
AUGUSTUS LOFTUS), Knight Grand Cross  
(L.S.) of the Most Honorable Order of the  
AUGUSTUS LOFTUS, Bath, a Member of Her Majesty's Most  
Governor. Honorable Privy Council, Governor and  
Commander-in-Chief of the Colony of  
New South Wales and its Dependencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by "The Lands for Public Purposes Acquisition Act" by this notification, published in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the "Sydney Morning Herald" newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith: And that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette, and in a newspaper circulated in the Metropolitan Police District, of this notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction as a trustee as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—

All that piece or parcel of land within allotments 10 to 16 and 18 to 25 of section No. 3 and allotments 1 to 14 of section No. 4 of the Blackfriars Estate, parish of Alexandria, county of Cumberland, containing in all an area of about 2 roods 33 perches, hereinafter described as parcels 1, 2, and 3—

Parcel 1. Containing an area of about 33 perches: Commencing on the northern side of Blackfriars-street at its inter-

section with the eastern side of Ludgate-street; and bounded thence on the south-east and south-west by the northern side of Blackfriars-street bearing north-easterly and south-westerly to the south-east corner of allotment No. 10 at the western side of a lane; thence on the north-east by that side of that lane bearing north-westerly 109 feet 6 inches to the north-east corner of allotment No. 10 aforesaid; thence on the north-west by the south-eastern side of that lane aforesaid bearing south-westerly 106 feet 9 inches to the eastern side of Ludgate-street aforesaid; and thence on the south-west by that side of Ludgate-street bearing south-easterly 76 feet, to the point of commencement.

Parcel 2. Containing an area of about 37½ perches: Commencing on the southern side of Grafton-street at its intersection with the eastern side of Ludgate-street; and bounded thence on the north-west by that side of Grafton-street and a line bearing north-easterly 81 feet 2 inches to the north-east corner of allotment No. 21 at the western boundary of St. Benedict's Church property; thence on the north-east by a line which forms the eastern boundary of allotments 21, 20, 19, and 18, bearing south-easterly 125 feet 9 inches to the south-east corner of the latter allotment on the northern side of a lane; thence on the south-east by the northern side of that lane bearing south-westerly 81 feet 2 inches to the eastern side of Ludgate-street aforesaid; and thence on the south-west by that side of that street bearing north-westerly 125 feet 9 inches, to the point of commencement.

Parcel 3. Containing an area of about 1 rood 21½ perches: Commencing on the southern side of Grafton-street at its intersection with the eastern side of Buckland-street; and bounded thence on the south-west by that side of Buckland-street bearing south-easterly 215 feet 1 inch to the northern side of Blackfriars-street; thence on the south-east by that side of Blackfriars-street bearing north-easterly 78 feet to the western side of Ludgate-street; thence on the north-east by that side of Ludgate-street bearing north-westerly 215 feet 1 inch to the southern side of Grafton-street aforesaid; and thence on the north-west by that side of that street bearing south-westerly 78 feet, to the point of commencement.

In testimony whereof I have hereunto set my Hand and caused the Great Seal of the Colony to be hereto affixed at Government House, Sydney, this twenty-sixth day of October, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fifth year of Her Majesty's Reign.

New South Wales and its Dependencies

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore, I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by the "Lands for Public Purposes Acquisition Act," by this notification, published in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the "Sydney Morning Herald," newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith: And that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette and in a newspaper circulated in the Metropolitan Police District of this notification of the said land being so resumed the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors on behalf of her Majesty for the purposes of the said Act, for an estate of inheritance in fee

simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction as a trustee as in the said Act is provided. And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—

All that piece or parcel of land originally forming part of reserve dedicated to the Corporation of Sydney, on the 5th October, 1866, being part of section No. 3, as shown on Corporation subdivision plan, containing by admeasurement 1 rood 1½ perches, more or less, situate in the parish of Alexandria, county of Cumberland: Commencing on the east side of Selwyn-street, at the north-west corner of the land resumed for Public School purposes on the 18th October, 1881; and bounded thence on the west by that side of Selwyn-street bearing northerly 87 feet, to its intersection with the southern side of Napier-street; thence on the north by that side of Napier-street bearing easterly 130 feet, to its intersection with the western side of Iris-lane; thence on the east by that side of that lane bearing southerly 87 feet, to the northern boundary of the land resumed aforesaid; and thence on the south by part of that north boundary bearing west 130 feet, to the point of commencement.

In testimony whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this eighteenth day of November, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fifth year of Her Majesty's Reign.

By His Excellency's Command,

F. B. SUTTON.

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.  
(RESUMPTION OF LAND AT SURREY HILLS FOR PUBLIC SCHOOL PURPOSES.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER  
44 VICTORIA No. 16.

NEW SOUTH WALES, } By His Excellency The Right Honorable  
to wit. } Sir AUGUSTUS WILLIAM FREDERICK  
SPENCER LOFTUS (commonly called Lord  
AUGUSTUS LOFTUS), Knight Grand Cross  
(L.S.) of the Most Honorable Order of the  
AUGUSTUS LOFTUS, Bath, a Member of Her Majesty's Most  
Governor. Honorable Privy Council, Governor and  
Commander-in-Chief of the Colony of  
New South Wales and its Dependencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by "The Lands for Public Purposes Acquisition Act," by this notification published in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the "Sydney Morning Herald" newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith; and that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette, and in a newspaper circulated in the Metropolitan Police District of this

notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction, as a trustee as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—

All that piece or parcel of land containing by admeasurement 1 rood 2½ perches, situated at Surrey Hills, parish of Alexandria, county of Cumberland: Commencing on the east side of Riley-street at its intersection with the south side of Collins-street; and bounded thence on the north by that side of Collins-street bearing east 100 feet; thence on the east by a line south 115 feet 6 inches; thence on the south by a line west 100 feet to the east side of Riley-street aforesaid; and thence on the west by that side of that street bearing north 115 feet 6 inches, to the point of commencement.

In testimony whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed at Government House, Sydney, this eleventh day of November, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fifth year of Her Majesty's Reign.

By His Excellency's Command,

JOHN ROBERTSON.

GOD SAVE THE QUEEN!

LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.  
(RESUMPTION OF LAND AT WILLOW TREE FOR PUBLIC SCHOOL PURPOSES.)

Presented to Parliament pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER  
44 VICTORIA No. 16.

NEW SOUTH WALES, } By His Excellency the Right Honorable  
to wit. } Sir AUGUSTUS WILLIAM FREDERICK  
SPENCER LOFTUS (commonly called  
Lord AUGUSTUS LOFTUS), Knight Grand  
Cross of the Most Honorable Order of  
(L.S.) the Bath, a Member of Her Majesty's  
AUGUSTUS LOFTUS, Most Honorable Privy Council, Governor  
Governor. and Commander-in-Chief of the Colony  
of New South Wales and its Depen-  
dencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School, and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now, therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by the "Lands for Public Purposes Acquisition Act," by this notification, published in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the "Murrurundi Times" newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School, and of buildings in connection therewith; and that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette, and in a newspaper circulated in the Police District of Murrurundi, of this notification of the said land being so resumed, the said land shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and

his successors, on behalf of Her Majesty, for the purposes of the said Act, for an estate of inheritance in fee simple in possession freed and discharged from all trusts, obligations, estates, interest, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction as a trustee as in the said Act is provided: And I declare that the following is the parcel of land hereinafter referred to as resumed by this notification, that is to say:—

All that piece or parcel of land forming part of the Australian Agricultural Company's grant of 249,600 acres, containing by admeasurement 2 acres, more or less, situate at the Willow-tree, parish of Loder, county of Buckland: Commencing on the eastern side of the Great Northern Road, at its intersection with the north boundary of Britton's land which originally formed part of the Australian Agricultural Company's grant aforesaid; and bounded thence on the south by part of that north boundary bearing east 532 links; thence on the east by a line north 350½ links; thence on the north by a line west 613 links to the eastern side of the Great Northern Road aforesaid; and thence by that side of that road bearing south 13 degrees 1 minute east 360 links, to the point of commencement.

In testimony whereof I have hereunto set my Hand, and caused the Great Seal of the Colony to be hcretto affixed, at Government House, Sydney, this eleventh day of November, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fifth year of Her Majesty's Reign.

By His Excellency's Command,  
JOHN ROBERTSON.

GOD SAVE THE QUEEN!

## NEW SOUTH WALES.

## LANDS FOR PUBLIC PURPOSES ACQUISITION ACT.

(RESUMPTION OF LAND AT ROTHBURY FOR PUBLIC SCHOOL PURPOSES.)

Presented to Parliament, pursuant to Act 44 Vic. No. 16, sec. 6.

NOTIFICATION OF RESUMPTION OF LAND UNDER  
44 VICTORIA No. 16.

NEW SOUTH WALES, } By His Excellency the Right Honorable  
to wit. } Sir AUGUSTUS WILLIAM FREDERICK  
SPENCER LOFTUS (commonly called  
Lord AUGUSTUS LOFTUS), Knight Grand  
(L.S.) Cross of the Most Honorable Order of  
AUGUSTUS LOFTUS, the Bath, a Member of Her Majesty's  
Governor, Most Honorable Privy Council, Governor  
and Commander-in-Chief of the Colony  
of New South Wales and its Depen-  
dencies.

WHEREAS the parcel of land hereinafter described is required for the purpose of the erection thereon of a Public School, and of buildings to be used in connection therewith: And whereas I, as such Governor as aforesaid, with the advice of the Executive Council of the said Colony, have sanctioned the acquisition of the said land for a site for a Public School: Now therefore I, Sir AUGUSTUS WILLIAM FREDERICK SPENCER LOFTUS, the Governor aforesaid, with the advice of the said Executive Council, in pursuance of the power and authority given to or vested in me by "The Lands for Public Purposes Acquisition Act" by this notification, published in the Gazette and a newspaper circulated in the Police District wherein the said land is situated, that is to say, in the "Maitland Mercury," newspaper, declare that the parcel of land hereinafter particularly described has been resumed for the purpose of the erection thereon of a Public School and of buildings in connection therewith: And that the said land hereinafter described is resumed with the intent that by the publication in the Government Gazette, and in a newspaper circulated in the Police District of Maitland, of this notification of the said land being so resumed, the said lands shall forthwith become and be vested in the Minister of Public Instruction of the said Colony and his successors, on behalf of Her Majesty, for the purposes of the said Act for an estate of inheritance in

fee simple in possession, freed and discharged from all trusts, obligations, estates, interests, contracts, charges, rights-of-way, or other easements whatsoever, and that the legal estate therein, together with all powers incident thereto or conferred by the said Act, shall be vested in the Minister of Public Instruction as a trustee as in the said Act is provided: And I declare that the following is the parcel of land hereinbefore referred to as resumed by this notification, that is to say:—

All that piece or parcel of land situated in the parish of Rothbury, county of Northumberland, Colony of New South Wales, being part of that part of Jane Coulson's two thousand acres, now belonging to Joseph B. Holmes, containing by measurement two acres: Commencing at the intersection of Joseph B. Holmes' west boundary with the proclaimed road from Cessnock to Branxton, being a point bearing south fourteen degrees east 63 chains from the south-east corner of J. McDonald's 500 acres; and bounded thence on the west by part of the west boundary of Joseph B. Holmes' land, being a line bearing north one degree east 3 chains and 35 links; thence on the north by a line bearing east 4 chains; thence on the east by a line bearing south 6 chains and 60 links to the north boundary of the main road; and thence on the south-west by the north boundary of that road, being a line bearing north 51 degrees 15 minutes west 5 chains and 20 links, to the point of commencement.

In testimony whereof, I have hereunto set my Hand, and caused the Great Seal of the Colony to be hereto affixed, at Government House, Sydney, this thirtieth day of November, in the year of our Lord one thousand eight hundred and eighty-one, and in the forty-fifth year of Her Majesty's Reign.

By His Excellency's Command,

F. B. SUTTON.

GOD SAVE THE QUEEN!
