## MR. OLIVER SAUNDERS.

## No. 1.

J. P. Abbott, Esq., M.P., to The Minister of Justice.

Sir

Sydney, 28 December, 1881.

I have the honor to bring under your notice the following statement made to me. The facts are as follows:—"Mr. Oliver Saunders, J.P., and a contractor for the erection of the Post and Telegraph Office at Cassilis, has during the term of his contract been resident at Cassilis, and of course has had to employ a considerable amount of labour in the performance of his contract. Himself and his employés board at Piper's Hotel, all eating at the same table. One of his employés, after seven or eight weeks' work, sought a settlement, and was duly paid the amount owed to him. The landlord of the hotel (Mr. Geo. Piper) naturally expecting a settlement of his account for board and lodging, &c., was surprised to find on making inquiries that the man had levanted during the night, leaving him, the landlord, a victim to the extent of £6. Determined not to be so done, he applied to Mr. Oliver Saunders, J.P., for a warrant for the apprehension of the absconder, and obtained one. Armed with this, Mr. Piper and a constable tracks the absconder to Coolah, overtakes him just as he was entering an hotel at Coolah to sojourn for the night. The constable exhibits the warrant, apprehends the man, who, on finding the fix he was in, at once paid Mr. Piper his account and became again a free man. The constable and Mr. Piper then returned to Cassilis. The constable returns the warrant to the Police Court at Cassilis, where it is recorded by W. F. Parker, Esq., P.M., as having been illegally issued."

My correspondent asks—"Is this not legalized bushranging?"

I may add that the Mr. Saunders referred to has been a Justice of Peace for many years, and there are many complaints made concerning his actions as a Justice of the Peace; but the one I now desire to bring under your notice is so very outrageous, and so strongly shows that Mr. Saunders used his powers as a Justice of the Peace either for the purpose of assisting a friend to recover money due to him or through such ignorance that in either case he is unfit for the position he now holds. I would suggest that Mr. Garrett, the Police Magistrate at Scone, should be directed to hold an inquiry into the circumstances before-mentioned by me, and into the general conduct of Mr. Saunders as a Justice of the Peace, because if he lent himself to Piper as is suggested he should be removed from the Commission of the Peace.

I have, &amp;c.,

J. P. ABBOTT.

*Minute by the Minister of Justice.*

The Police Magistrate at Scone may be asked to inquire into and report upon the allegations contained in this communication, and to procure copy of warrant referred to.—W.J.F., 30 December, '81. The Police Magistrate, Scone.—W. E. PLUNKETT, B.C., 3rd January, 1882.

## No. 2.

The Under-Secretary of Justice to J. P. Abbott, Esq., M.P.

Sir,

Department of Justice, Sydney, 3 January, 1882.

In acknowledging the receipt of your letter of the 28th ultimo, respecting the conduct of Mr. O. Saunders, J.P., and asking for inquiry in the matter, I am directed by the Minister of Justice to inform you that your communication has been referred to the Police Magistrate at Scone, with a view to his report being obtained in reference to the matter of your complaint against Mr. Saunders.

I have, &amp;c.,

W. E. PLUNKETT,

Under-Secretary.

## No. 3.

The Police Magistrate, Scone, to The Under-Secretary of Justice.

Sir,

Police Office, Scone, 16 January, 1882.

I have the honor to state that, in compliance with the instructions received from the Minister of Justice, I visited Cassilis to inquire into and report on certain allegations contained in a letter of Mr. J. P. Abbott, M.P., having reference to the granting of an illegal warrant by Mr. Oliver Saunders, J.P.

The result of my inquiries is that the allegations contained in Mr. Abbott's letter are substantially borne out by the evidence, namely, that in the month of June last year, on the application of Mr. Piper, Mr. Saunders ordered the Clerk of Petty Sessions to draw up an information and fill in a warrant for the arrest of a man named Williams, who had left Mr. Piper's house without paying for his board and lodging. These documents were taken by Mr. Piper to Mr. Saunders, who swore him to his information, signed the warrant, told him to take a constable with him and follow the man, and in Mr. Piper's presence told the constable that if the man paid the money he was not to execute the warrant.

Mr. Piper and the constable overtook Williams at Coolah. Mr. Piper told him that if he did not pay the amount due the constable had a warrant for his apprehension. The man paid the money. They returned to Cassilis, and the constable returned the warrant to the Clerk of Petty Sessions there.

Herewith you will find a copy of the information and warrant, also the depositions of the Clerk of Petty Sessions, Mr. Piper, and Mr. Saunders, bearing on the case. I was also instructed to report on the "general conduct of Mr. Saunders as a Justice of the Peace."

I have known Mr. Saunders for several years, and speaking generally I am of opinion that Mr. Saunders has never stood well in the estimation of the Magistrates in the districts where he has resided, some having even refused to sit with him.

On

On the authority of Mr. Thompson, the present Clerk of Petty Sessions at Cassilis, I may state that on one occasion recently there, when Mr. Saunders took his seat on the Bench, two Justices then present left the Court and Mr. Thompson had to request Mr. Saunders to retire so that the other Justices might return and dispose of the business.

On two different occasions some years since I have reported on the conduct of Mr. Saunders. The first of these was at Merriwa, where he kept a store. Mr. Saunders granted the Court-house to some of the residents for a dancing party. My present impression is it was after permission had been refused by other Justices. The result was injury to the building and furniture. I reported the circumstances to Mr. Docker, the then Minister of Justice, and at my suggestion a circular was issued that the use of Court-houses should only be granted by the Justices in Session.

The other occurred in Scone, and in substance was as follows:—An old man named John Flood, a resident in the neighbourhood of Merriwa, who being ill was sent, on the recommendation of Mr. Saunders, to the Muswellbrook Hospital, and from there to the hospital at Scone. He was received, and the committee, as is the practice, inquired into his circumstances. It turned out that he had upwards of £100 in the Savings' Bank at Maitland, and by inquiry made through the police this was ascertained to have been the fact. It was found that this money had been drawn out by Mr. Oliver Saunders. The order by which this was done was examined; it was found to be on a printed form, filled in, *in favour of "Mr. Saunders,"* the signature of the drawer being attested *by Mr. Saunders as a Magistrate.*

The circumstances were of so suspicious a character that some members of the Committee took up the old man's case, and Saunders was sued to the District Court in June, 1876; a verdict was obtained for the amount, with costs on the highest scale, the whole to be paid within forty-eight hours. The Judge commented very severely on Saunders' conduct in thus using his position as a Magistrate, and on the way he had obtained the money from the old man. This case I reported to the Colonial Secretary at the time. Some years since, when he was a resident at Merriwa, he applied for an auctioneer's license at the annual meeting, and it was granted, but he failed to pay the license fee into the Treasury before the 31st of December following.

Some month or two afterwards, having some sales in view, he sent the license fee to the Treasury, but it was returned to him as not having been paid within the prescribed time. He notwithstanding held the sales—I cannot say how many. The police reported the matter to the proper authority, but no proceedings were taken.

During his residence in Merriwa District, public rumour has always been unfavourable to Mr. Saunders as a Magistrate; but as to the foundation for these rumours, I have no personal knowledge.

I have, &c.,

JOHN GARRETT, P.M.

[Enclosures.]

The Court-house, Cassilis, 11 January, 1882.

An inquiry into the circumstances connected with the issuing of a warrant by Mr. Oliver Saunders, Justice of the Peace, for the arrest of one Thomas Williams, charged with leaving his lodgings with intent to defraud George Piper of the payment of the sum of £3 10s. due for board. The warrant dated the 15th day of June, 1881. By John Garrett, Esq., Police Magistrate, Scone.

*James Holloway Tompson* states: I am Clerk of Petty Sessions at Cassilis; on the morning of the 15th June, 1881, Mr. George Piper, innkeeper, at Cassilis, attended the Court-house for the purpose of obtaining a warrant for the arrest of one Thomas Williams, whom he stated had left his licensed house that morning about 2 o'clock, and at the time being indebted to the said George Piper in the sum of £3 10s. sterling for board and lodging; I explained to Mr. Piper that no Magistrate would receive an information for such a purpose, and advised him to summon the man Williams in the Court of Requests, which Piper said he would not do, as the man would probably not be found; I refused to give him the form of information and warrant, and stated to him at the time that such proceedings were quite illegal, whereupon Piper left the office, stating he could get a Magistrate to sign the forms, and returned again in about ten minutes and said Mr. Saunders sent me back to you to get the information and warrant and he, Mr. Saunders, would sign them at once; I gave him the papers in question, and again told him it was incorrect to issue a warrant; shortly afterwards the information was returned to me by Constable Douglas, who has I understand since left the Police Force, and the warrant was retained; a few minutes after I saw Constable Douglas in company with Mr. Piper leave the town, going in the direction of Coolah.

J. H. TOMPSON, C.P.S.

Taken before me, at the Court-house, Cassilis, this 11th January, 1882,—

JOHN GARRETT, P.M.

*George Piper* states: I am an innkeeper, and reside at Cassilis; in June last, some of the men in the employ of Mr. Keane were boarding at my house; one of them was named Thomas Williams; he left my house on the night of the 14th or the morning of the 15th June last, he left my house indebted to me in the sum of £3 10s. sterling; I went to the Court-house, and asked the Clerk of Petty Sessions what steps I was to take; I afterwards went to Mr. Saunders and stated my case to him; Mr. Saunders instructed me to go to the Clerk of Petty Sessions to file an information and warrant for the purpose of arresting Thomas Williams for the said debt; I then laid the information now produced, marked A, which bears my signature, on the order of Mr. Saunders; the Clerk of Petty Sessions gave me the warrant now produced, marked B, which bears Mr. Saunders' signature, which I saw him write; Mr. Saunders advised me to take a policeman with me and follow the man; Mr. Saunders at the same time, in my presence, told the constable, Thomas Douglas, if the man Thomas Williams paid the money not to execute the warrant; we overtook Thomas Williams a few minutes after he arrived at Coolah; I spoke to the man, and told him he had left my house without paying, and that if he did not pay me I had a constable with me who had a warrant for his arrest; Williams then and there paid me the sum of £3 10s. due for board and lodging; Mr. Saunders told both myself and the constable that when we overtook the man, that if he, Williams, paid the amount due that the warrant was not to be executed, which orders Constable Douglas obeyed.

GEORGE PIPER.

Taken before me, at the Court-house, Cassilis, this 11th January, 1882,—

JOHN GARRETT, P.M.

*Oliver Saunders* states: I am a Magistrate of the territory and reside at Cassilis; on the 15th June last at Cassilis Mr. George Piper brought the information and warrant filled in to me, and on oath swore to the contents of the information and signed it; I then signed the warrant; the information now before me, marked exhibit A, is the one he signed, and the warrant now before me, marked exhibit B, is the one I signed; I do not recollect having had any conversation on the subject with Mr. Piper, but I may have done so; it is so long ago that I cannot recollect.

By Mr. Garrett,  
P.M.

OLIVER SAUNDERS, J.P.

Taken before me at the Court-house, Cassilis, this 11th January, 1882,—

JOHN GARRETT, P.M.

No. 11.

Information—(General Purposes.)

New South Wales,  
Cassilis,  
to wit.

Piper v. Williams.

BE it remembered, That on this fifteenth day of June, in the year of our Lord one thousand eight hundred and eighty-one, at Cassilis, in the Colony of New South Wales, George Piper, of Cassilis, appears before me, the undersigned, one of Her Majesty's Justice duly assigned to keep the Peace of our Lady the Queen in and for the Colony of New South Wales, and informs me, that on the fourteenth day of June, in the year of our Lord one thousand eight hundred and eighty-one, one Thomas Williams did leave my house on the night of the 14th instant, taking with him certain money due to me, whereby the said Thomas Williams left with intent to defraud me of the sum of three pounds ten shillings sterling, due for board and lodging only, and I pray that a warrant may be granted for his arrest, contrary to the Act in such case made and provided; whereupon the said George Piper prays that I, the said Justice, will proceed in the premises according to law.

GEORGE PIPER.

Charges—Information, 1st folio 1s.; additional folios, 2s.; affidavit, 1s.; summons, 2s. 6d.—6s. 6d.

Sworn at Cassilis, in the said Colony, on the day first above written, before me,—

OLIVER SAUNDERS,

Justice of the Peace.

## Exhibit B.

G. 56.

[Duplicate true copy of original.]

(C. 11 and 12 Vic., Cap. 43.)

Warrant in the first instance.

To Thomas Edward Douglas, a Constable in the Police Force for the Colony of New South Wales, and to all other Constables in said Force.

WHEREAS information hath this day been laid before the undersigned, one of Her Majesty's Justices of the Peace in and for the Colony of New South Wales, for that one Thomas Williams did, at Cassilis, in the Colony aforesaid, on the fourteenth day of June, in the year of our Lord one thousand eight hundred and eighty-one, leave the licensed house of George Piper, of Cassilis, taking with him certain money due for board and lodging, with intent to defraud the said George Piper of the sum of three pounds ten shillings sterling, and oath being now made before me, substantiating the matter of the said information: These are therefore to command you, in Her Majesty's name, forthwith to apprehend the said Thomas Williams and to bring him before some one or more of Her Majesty's Justices of the Peace in and for the Colony aforesaid, to answer to the said information, and to be further dealt with according to law.

Given under my hand and seal, this fifteenth day of June, in the year of our Lord one thousand eight hundred and eighty-one, at Cassilis, in the Colony aforesaid.

[I.S.] OLIVER SAUNDERS,  
Justice of the Peace.

Mr. Tompson has omitted to copy a minute which was on the back of the original warrant, written by and signed by Mr. Saunders, to the effect that it was cancelled. JOHN GARRETT, P.M.

## No. 4.

J. P. Abbott, Esq., M.P., to The Minister of Justice.

Sir,

Sydney, 2 February, 1882.

Referring to my letter to you of the 28th December last, in reference to Mr. Oliver Saunders, a Justice of the Peace, my attention has been called to the fact that a petition to you against his removal is being prepared, and that the Secretary to the movement in favour of the petition is a Mr. James Inchan, who is a notorious character and well known to the police; and I would suggest to you, before giving any credence to the statements of the petitioners, to get a police report upon the same and the reputation of the people signing it.

I have, &amp;c.,

J. PALMER ABBOTT.

Has petition come to hand?—W.E.P., 7/2/82. Not yet.—8/2/82. Let inquiry be made respecting the petition referred to.—W.J.F., 10th February, '82. The Colonial Secretary.—W.J.F., 7/3/82. The Under-Secretary, Colonial Secretary's Department, B.C., 7th March, 1882.—W.E.P.

## No. 5.

J. McLaughlin, Esq., M.P., to The Minister of Justice.

Dear Sir,

Temple Court, King-street, Sydney, 3 February, 1882.

I understand that a complaint has been made against Mr. Oliver Saunders, of Cassilis, J.P., alleging misconduct in his official capacity, by Mr. J. P. Abbott, M.P., and that at Mr. Abbott's suggestion Mr. Garrett, P.M., of Scone, held an inquiry into the alleged charge. Mr. Saunders is a constituent and client of mine, and I shall be glad to be furnished on his behalf with a copy of Mr. Abbott's letter, the evidence taken, and Mr. Garrett's report thereon.

When in Cassilis I learned that Mr. Garrett was nominated by Mr. Abbott, who was the person making the charge. In my opinion, the person holding the inquiry should have been the nominee of the Minister, and not of either the prosecutor or the accused. I should also be glad to learn who Mr. Abbott's informant is, if the matter is to be proceeded with, as I understand the residents of Cassilis are nearly unanimously of opinion that Mr. Saunders should be retained in the position of Justice of the Peace.

Yours faithfully,

JOHN McLAUGHLIN.

*Minute of the Minister of Justice.*

Communications such as those sought by Mr. McLaughlin are of such a confidential nature that, irrespective of their contents, it would be contrary to the rule to furnish them to the attorney of the person affected thereby.—W.J.F., 8/2/82.

[Enclosure.]

Cassilis, 20 February, 1882.

To the Hon. W. J. Foster, Esq., Minister for Justice,

Sir,

The humble Petition of the residents of Cassilis and the adjacent districts,—

Respectfully sheweth,—

That the public view with great regret the steps which have been taken by some person in bringing forward some alleged error said to have been committed by O. Saunders, Esq., J.P., many months ago, and which has almost become forgotten, with a view of removing that gentleman from the Commission of the Peace.

As soon as Mr. O. Saunders had made up his mind to become a permanent resident here at Cassilis, this untoward step was taken, and the error brought under your notice with a malicious intent. We, your humble Petitioners, have convened a public meeting, and it has been unanimously declared that an almost irreparable injustice and inconvenience would be done us by removing Mr. O. Saunders from the Bench.

That we have noticed that while he has been Administrator of Justice here, and at other places, he has performed the duties appertaining to that office with conscientiousness and the strictest impartiality.

We, your humble Petitioners, therefore respectfully submit that if an error has been committed inadvertently, it is an ordinary error of judgment, not justifying either the humiliation or punishment of Mr. O. Saunders.

Your humble Petitioners assure you that his removal from the Bench would be attended with very great public inconvenience.

Soliciting your favourable attention to this Petition and representation, we, your humble Petitioners, as in duty bound, will ever pray,—

Petition from residents of Cassilis.

To the Honorable Sir John Robertson, K.C.M.G.

Sir, the humble petition of the residents of Cassilis and its surrounding districts, Respectfully sheweth,—

That the public view with great regret the steps which have been taken by some person in bringing forward some alleged trivial error committed by O. Saunders, Esq. (many months ago), with a view of removing that gentleman from the Commission of the Peace.

As soon as Mr. O. Saunders had made up his mind to become a permanent resident at Cassilis, the step is taken with malicious intent, and the alleged error brought under your notice.

We, your humble petitioners, have convened a public meeting, where it has been unanimously declared that a great injustice would be done us by removing Mr. O. Saunders from the Bench.

We have noticed that while he has been administrator of justice here he has performed faithfully the functions appertaining thereto.

Your petitioners further add that if the alleged error be true, it is an ordinary error of judgment committed by many Justices of the Peace, and not strong enough to warrant Mr. Saunders' humiliation or punishment.

Leaving the matter for your favourable consideration, we, your humble petitioners, will ever pray.

New South Wales, }  
to wit. }

BE it remembered, that on this 29th day of August, in the year of our Lord one thousand eight hundred and eighty-two, at Molong, in the Colony of New South Wales, Michael Hanly, of Molong, appears before me, the undersigned, one of Her Majesty's Justices duly assigned to keep the peace of our Lady the Queen in and for the Colony of New South Wales, and on oath informs me, that on the 23rd day of August, in the year of our Lord one thousand eight hundred and eighty-two, from information received, one Philip Owen did unlawfully and maliciously inflict grievous bodily harm on one Jimmy Cum, of Molong,—and Doctor Ross has informed me that the said Jimmy Cum is in a dangerous state, and further, that he, the Doctor, stated that he would swear he was in a dangerous state,—contrary to the Act in such cases made and provided: Whereupon the said Michael Hanly prays that I, the said Justice, will proceed in the premises according to law, and issue a warrant to apprehend the said Philip Owen.

Sworn at Molong, in the said Colony, on the }  
day first above written, before me,— }

JAS. HASLAM, Justice of the Peace.

M. HANLY.

(C. 11 & 12 Vic., cap. 43.)

*Warrant in the first instance.*

To Michael Hanly, a Sergeant in the Police Force for the Colony of New South Wales, and to all other Constables in said Force.

WHEREAS information hath this day been laid before the undersigned, one of Her Majesty's Justices of the Peace in and for the Colony of New South Wales, for that one Philip Owen did, at Molong, in the Colony aforesaid, on the 23rd day of August, in the year of our Lord one thousand eight hundred and eighty-two, unlawfully and maliciously inflict grievous bodily harm on one Jimmy Cum, of Molong, and oath being now made before me, substantiating the matter of the said information: These are therefore to command you, in Her Majesty's name, forthwith to apprehend the said Philip Owen, and to bring him before some one or more of Her Majesty's Justices of the Peace in and for the Colony aforesaid, to answer to the said information, and to be further dealt with according to law.

Given under my hand and seal, this 29th day of August, in the year of our Lord 1882, at Molong, in the Colony aforesaid.

JAS. HASLAM,  
Justice of the Peace.

Court-house, Molong, 30 August, 1882.

Before W. H. Cousins, J.P.

Philip Owen, in custody charged with unlawfully and maliciously inflicting grievous bodily harm on one Jimmy Cum, on the 23rd August, 1882, at Molong.

*Michael Hanly*, having been sworn, saith: I am a Sergeant of the Police, stationed at Molong; by virtue of the warrant produced I arrested the prisoner now before the Court, about 5 or a little after 5 o'clock yesterday evening; I read the warrant over to him and showed it to him, and gave him the usual caution; the prisoner replied, "Who laid the information?" the warrant is under the hand and seal of James Haslam, a Justice of the Peace; I made no reply to the prisoner; the warrant is dated the 29th day of August, 1882, wherein the prisoner is charged with having, on the 23rd day of August, 1882, unlawfully and maliciously inflicted grievous bodily harm on one Jimmy Cum; the prisoner was taken to the lock-up by Constable Heard. I pray for a remand of this case until Tuesday next, for the production of witnesses.

Taken and sworn before me, at Molong, }  
this 30th August, 1882,— }

W. H. COUSINS, J.P.

M. HANLY.

Remanded to Tuesday, the 5th September. Bail allowed—self in £50, and two sufficient sureties of £25 each.

W. H. COUSINS, J.P.

Court-house, Molong, 5th September, 1882.

Before J. T. Lane, P.M., L. N. Smith, J.P., W. H. Cousins, J.P., A. G. Petersen, J.P., and W. Ross, J.P.

Philip Owen in custody charged with unlawfully and maliciously inflicting grievous bodily harm on one Jimmy Cum, on the 23rd August, 1882, at Molong.

*Cross-examined by prisoner's attorney.*—*Michael Hanly* having been sworn, saith (recalled): I personally arrested the prisoner; the prisoner was previously charged on the same charge; the objection was raised that the prisoner was illegally in custody, as the police did not witness the assault; the case fell through

on

on the grounds that the Magistrate had no jurisdiction; the present case was laid about a week after the former charge; at the time the warrant was obtained for the present offence I was perfectly aware that the prosecutor had obtained a charge of assault against the prisoner on the same facts; it was after that that I laid the information of which I am the informant; there was an objection taken that the prisoner was illegally in custody, and after his discharge on the 23rd August last, I asked the prosecutor's oath to be taken and a warrant be issued; that application was refused, and a summons was issued to prosecutor; in consequence of something told me by Dr. Ross, I thought it my duty to take out a warrant; this was several days afterwards.

Sworn and taken before us, at Molong, }  
this 5th September, 1882,—

M. HANLY.

JOHN T. LANE, P.M.  
W. H. COUSINS, J.P.  
WM. ROSS, J.P.  
LANCE N. SMITH, J.P.

*Jimmy Cum*, having been sworn by blowing out a match, saith: I was in Mr. Stockwell's service as cook on Wednesday morning, the 23rd August last; I had to prepare an early breakfast that morning for one gentleman, and sent it into the parlour at a quarter to 7, and sent a breakfast also to the gentleman's groom; at the same time I sent a tea-pot by the servant girl; it was full of tea; I said something to Kate about the tea-pot; she brought it back and put it by the fire to keep it warm; I told Kate 7 o'clock was too early to leave it in the dining-room, it would be cold if left till 8 o'clock breakfast, and that when the boss got up he would complain—it would be so cold; at the time Kate brought it and laid it at the kitchen-fire, I saw the prisoner outside of the kitchen-door; he was going for water with a jug and tea-kettle; I did not speak to him; he spoke to me and said, "What you talk about the bloody tea?" and repeated this; I made no reply; he threw down the jug and the kettle and came into the kitchen and said the third time,— "What you say about the bloody tea?" I said "Nobody talk to you—who talk to you?" he walked over towards me and caught me by the throat, and gave me a punch in the belly with the other hand, and shoved me back into the fire in the kitchen; it was a large fire; there was a 10-gallon boiler full of water hanging over the fire, and a fountain of water hanging over the fire also; when I fell my head was in the fire under the boilers; I sang out the water is scalding me; the prisoner said, "You b—— I will kill you dead"; I kept singing out murder; he repeated it twice, saying, "You b—— I will kill you dead"; he still kept a hold of my throat; I tried to get up but could not as the prisoner held me down; when the prisoner came into the kitchen I was cooking steak; John the groom came to my assistance in the kitchen; I was lying by the fire; the prisoner was holding me down; John said to defendant, "Let him go, he can't hurt you now;" he let me go and I got up; I gave John a meat-chopper I had in my hand; when the prisoner first came into the kitchen he said to me, "Do you think I can't get a cup of tea?" I said, "You can get a cup of tea if you like, it has nothing to do with me;" it was then he put me in the fire; I tried to get away from the fire; I could not, as the prisoner was too strong; the prisoner shoved my head three times in the fire; every time I tried to get up; I went to the doctor, but he was in Sydney; I went back to him on the Saturday morning when he had returned from Sydney, and saw him; my head was scalded and my arm was burned by the fire.

*Cross-examined by prisoner's Attorney*: When the prisoner came into the kitchen I had a chopper in my hand cutting steak; I was not angry with the prisoner that morning, or anybody; I did not see any of the girls about the kitchen about the time of the assault; there was no girl there when the prisoner caught me by the throat, only myself; nor was there any while he was speaking to me; but before this the girl brought out the tea-pot; the prisoner did not say to me, "Why can't I have a cup of tea, as the boss says I can?" I don't remember saying to the prisoner, "Who the bloody hell is speaking to you?" I never rushed at the prisoner with the chopper before he caught hold of me; I did not chop at the prisoner; I never was in the dining-room at all; I did not see the prisoner drinking a cup of tea in the dining-room; I did not make any objection to Kate about all hands drinking tea in the dining-room; I did not know who the groom spoke to, me or the prisoner, as I was on the ground and in pain; when John came into the kitchen, whether he put his hands on me or the prisoner I could not see; I did not feel John's hands on me.

*Cross-examined by Police*: I had the chopper all the time in my hand; I let it go to John; I was then on the ground.

*By the Bench*: I never tried to strike the prisoner with the chopper before he caught me by the throat; I did not threaten to strike the prisoner with the chopper; I said nothing more and did nothing more than what I said to the Court; when the prisoner said he would kill me he did not say what he was going to kill me for; I don't know what was said after I got up; the prisoner and I have always been good friends.

JAMES CUM.

Taken and sworn before us, at Molong, }

JOHN T. LANE, P.M.  
W. H. COUSINS, J.P.  
WM. ROSS, J.P.  
LANCE N. SMITH, J.P.

*Andrew Ross*, having been sworn, saith: I am a medical practitioner, residing at Molong; I know the last witness who has just given his evidence; he called at my surgery on Saturday, the 26th August last; he was in a very weak and prostrate state, and scarcely able to speak or walk, and almost pulseless; his head and face were covered with such an article as was presented in Court to-day—a cloth or handkerchief; I examined him carefully and found him suffering from a most extensive and severe scald on the face, head, neck, back of the neck, and down the breast; the wounds in reality were considerably swollen and inflamed, and the ears (left ear especially) of a dark purple colour, indicating mortification; the face, neck, and breast, and back of the neck were one mass of sores and scabs, and cuticle almost removed or destroyed; his right eye was greatly blood-shot and inflamed, and it was with difficulty he could look up; his left eye had evidently been destroyed.

destroyed some time ago ; I discovered also, under the chin, over the wind-pipe, a swelling and puckering, as if great violence had been used, or an attempt made of strangulation at his throat ; on his right arm, just above elbow, I discovered extensive bruises, as if from an assault or grasping, and on the fore-arm, underneath, I discovered a large extensive burn, which was completely denuded at the cuticle and suppurating ; the patient was in a serious and dangerous state full of the extensive nature of the scalding and burns he was suffering ; I told him so, and prescribed for him, and visited him several days subsequently ; the character of the case being a serious and dangerous one, I felt it my duty to see the sergeant, and reported the matter to him ; he is still suffering considerably from the injuries he has received, and may probably require care and attention for some time to come before he recovers his usual state of health ; the injuries referred to may have been inflicted some two or three days prior to the time I examined him.

*Cross-examined* : I cannot say how far he had walked that day ; the injuries the prosecutor had suffered were not aggravated by the application.

Taken and sworn before us, at Molong, }  
this 5th September, 1882,— }

JOHN T. LANE, P.M.  
W. H. COUSINS, J.P.  
WM. ROSS, J.P.  
LANCE N. SMITH, J.P.

ANDREW ROSS, M.D.

*Kate Kerwick*, having been sworn, saith : I am a servant at Mr. Stockwell's ; I was in his service on the 23rd August last ; I had to attend a breakfast at half-past 6 in the morning ; there was one prepared for the parlour and dining-room ; I took a tea-pot full of tea from the kitchen to the dining-room ; about three-quarters of an hour I took it back to the kitchen, and put it on the stove in the kitchen ; I saw the cook here this morning—Jimmy, the Chinaman ; he was in the kitchen when I took the tea-pot there ; the prisoner came to the kitchen-door just as I was leaving the kitchen ; I went into one of the rooms—the dining-room ; after I left the kitchen I heard a noise ; I could hardly hear it ; I was going into the hall of the house from the kitchen, when Jimmy spoke about the tea-pot ; the prisoner was present ; Jimmy, the cook, told me to fetch the tea-pot to the kitchen-fire, as it would be getting cold in the dining-room ; Jimmy said all hands are having tea in the dining-room ; he did not say that Mr. Stockwell would complain of it ; when I saw Jimmy again he was burnt about the head.

*Cross-examined* : I was not in the dining-room when Jimmy brought something in ; the prisoner said to Jimmy, "Can't I have a cup of tea?" Jimmy said, "Who the bloody hell is talking to you?" Jimmy has always been growling and making disturbances ; the prisoner has always treated the Chinaman kindly ; the stones are all broken out near the fire-place ; there was a boiler and a fountain on a crane in the fire-place ; it was a rule of Jimmy for having the boilers always full ; the crane was out of the fire-place, over flag-stones ; there were coals out on the flag-stones for cooking purposes ; they were about 2 yards from the fire-place ; if a person gave the least knock to the boiler it would run over ; when Jimmy spoke to the prisoner his manner was cross ; it would be impossible to put a person into the fire while the boiler was in its present position ; I was frightened when Jimmy spoke so cross ; I ran away ; the boiler was about 2 feet above the ground.

*Cross-examined by the Police* : Jimmy does not always look cross ; prisoner always treated Jimmy kindly ; nothing ever occurred before between prisoner and Jimmy.

WM. ROSS, J.P.  
LANCE N. SMITH, J.P.

JOHN LANE.

*For the Defence.*

*Annie Kerwick*, having been sworn, saith : I am a servant at Mr. Stockwell's ; I know the Chinaman and the prisoner, they were servants at Mr. Stockwell's with me ; I remember the morning when there was a disturbance at Mr. Stockwell's ; a gentleman was having breakfast in the parlour-room ; his servant

was

was having breakfast in the dining-room ; prisoner asked me for a cup of tea ; I said " Yes," and gave him a cup of tea ; while he was at tea in the dining-room the Chinaman came in for some tea ; the Chinaman gave an awful look at the prisoner when he came into the room ; the Chinaman went into the kitchen again ; I went in shortly afterwards ; the Chinaman was jawing my sisters, saying all hands were having tea in the dining-room ; the prisoner asked what the Chinaman said ; my sister Kate did not answer ; the Chinaman said to the prisoner, " Who the bloody hell is talking to you ?" he took up the chopper from the table and made a rush at the prisoner.

*Cross-examined by the Police:* I did speak to Sergeant Hanly on the morning of the 23rd August last ; I did tell him that I heard a small scream in the kitchen when I was in the room on the other side of the yard ; that was in reply to Sergeant Hanly, asking if I heard any screams in the kitchen ; I saw Sergeant Hanly a second time at Mr. Stockwell's ; I was just speaking to him ; I was at the door in the room on the other side of the yard when I heard the row ; all the swearing I heard was Jimmy asking the prisoner " Who the bloody hell is talking to you ?" I was standing at my bed-room door, and looked across the yard, and through the kitchen window, when I saw the Chinaman rush at the prisoner ; from this position I could see both the Chinaman and the prisoner ; the Chinaman's hand raised as he advanced towards the prisoner with the chopper in his hand ; the prisoner caught hold of the Chinaman with his two hands to catch the chopper ; the distance where I stood is the full distance of the yard ; there is a verandah over the kitchen window ; there is a little step from the yard to my door ; I could see the chopper from where I was.

Taken and sworn before us, at Molong, }

ANNIE KERWICK.

JOHN T. LANE, P.M.  
W. H. COUSINS, J.P.  
WM. ROSS, J.P.  
LANCE N. SMITH, J.P.

*Alfred Taylor*, having been sworn, saith : I am a chemist residing at Molong ; I attended the prisoner after he was discharged ; there was a wound  $1\frac{1}{2}$  inch long and  $\frac{1}{4}$  of an inch in width ; I could not ascertain the depth of the wound, but I should think  $\frac{1}{2}$  an inch ; I should think it would be caused by an instrument with a long blade ; I put two stitches in the wound and dressed it ; the right temple was very much burnt, also the fingers and from the wrist upwards appeared to have been scalded ; when I was dressing the wounds the prisoner was very sick ; I saw the Chinaman when the prisoner was apprehended the second time ; the Chinaman was walking about out towards the Orange Road.

*By the Bench :* The prisoner had his head burned ; the wound on the arm was not a clean cut, it was a jagged cut ; I would imagine a chopper would cause such a wound ; the Chinaman if he was walking about the time I have mentioned could not have been in danger, but he could have been four days previously ; I saw the Chinaman professionally ; I attended on the prisoner after he was discharged ; I did not see the wound on the prisoner for some hours afterwards.

## No. 2.

## Sergeant Hanly to Sub-Inspector Garvin.

Police Station, Molong, 24 August, 1882.

SERGEANT HANLY reports that between 7 and 8 a.m. yesterday morning, a Chinese cook in the service of Mr. Stockwell came to the Barrack and reported that the barman at Mr. Stockwell's assaulted him and threw him into the kitchen fire, and forcibly kept him in the fire, his head being under two boilers filled with boiling water. The Chinaman presented a frightful appearance from burns and scalds. There was a large burn on the back of the neck, the skin being removed, several blisters not broken on the throat, the only eye he has appeared either burnt or bruised, the crown of the head burnt, an extensive burn on the lower part of the right arm showing the flesh red and raw.

The Chinaman wanted to give the barman into custody for assaulting him and causing the injuries then visible.

The

The sergeant accompanied him to the bar-door of Mr. Stockwell's hotel; the barman was behind the counter attending to his work. Mr. Stockwell was present and constable Madden. The sergeant said to the Chinaman, if that was the man who threw him into the fire and assaulted him, &c. He replied, "Yes," and the barman was taken into custody. The prisoner showed a wound on his wrist, and said the Chinaman assaulted him with a chopper.

Two hours later the case was brought before the Court with a view of getting a remand, and to give the prisoner an opportunity to get bail to suit the convenience of Mr. Stockwell, who had requested that bail would be taken.

Mr. Kenna appeared for the prisoner, the prosecutor was present and exhibited his injuries. Mr. Haslam was the magistrate. The sergeant was the only person who gave evidence, and that was merely describing the injuries he saw on the Chinaman (who had been previously ordered out of Court), and that the Chinaman had given the prisoner into custody for causing the injuries and assaulting him.

Mr. Kenna raised two objections: 1st. That the prisoner was illegally in custody, on the ground that no constable has any authority whatever to take in charge any person for assault, unless he sees the assault committed or has a Magistrate's warrant. The sergeant asked the advocate if he meant all kinds of assaults, and he said, "Yes." 2nd. That the Magistrate had no jurisdiction as the charge on the book was "assault," and that it was a common assault requiring the attention of two Justices.

The sergeant said it was visibly not a common assault, and as there was no information laid, whatever omission the C.P.S. made in hurriedly entering the charge could be amended, and applied to have the words "causing actual bodily harm" added. It would not be given.

He applied for a remand of the case. It was refused. The prisoner was discharged.

M. HANLY.

Forwarded for Mr. Lydiard's information. Offender should have been charged with inflicting grievous bodily harm, under 16 Vic. No. 17, sec. 4. This appears to be a serious case, and should not in my opinion be allowed to drop through an informality in laying the charge. The police should have rearrested him.—THOS. GARVIN, Sub-Inspector, Orange, 25/8/82. Mr. Supt. Lydiard, Bathurst.

A very gross miscarriage of justice. The attorney entirely wrong. A constable is perfectly justified in arresting a person charged with assaulting. There is sufficient evidence to show that a violent assault has been committed which was evident in this case. The case must be heard again; an information laid and a warrant applied for—such a disgraceful case does not often happen. I am really surprised that the Magistrate should have discharged the prisoner; was not complainant heard? The case must not be allowed to drop merely because the complainant is a Chinaman.—C.T.P.L., Supt., 26/8/82.

Forwarded for sergeant Hanly's attention. Have case set down for hearing before P.M. if possible.—THOS. GARVIN, Sub-Insp., Orange, 27/8/82.

### No. 3.

#### Sergeant Hanly's Report to Sub-Inspector Garvin.

Police Station, Molong, 26 August, 1882.

SERGEANT HANLY reports, in reference to a previous report which was forwarded on the 24th instant, the subject being the arrest and subsequent discharge of a prisoner for seriously assaulting a Chinaman, that Dr. Ross came to the Police Station to-day and informed the sergeant that he (the doctor) had examined the Chinaman, and found that he (the Chinaman) is in a dangerous state from inflammation of the head and throat, and said he otherwise was in a state of "imperfect reaction and collapse," and the doctor also said that the man who committed the assault ought to be in custody.

As the Chinaman has already laid an information and taken out a summons, the sergeant does not think he would be justified in rearresting the offender without a warrant unless the Chinaman becomes much worse.

The sergeant, at the time the prisoner was discharged, applied for a warrant to rearrest, the prosecutor being present to swear the information. A summons was given instead for a common assault. The case is to come on for hearing on the 5th proximo.

The sergeant begs to be allowed to remark that the case is not coming before the Court in a way to meet the serious and dangerous offence that has been committed. It is an indictable offence, and not a case for summary jurisdiction.

The evidence of the doctor can be procured, now that he has examined and attended to the Chinaman. Perhaps Mr. Garvin will give the sergeant instructions.

M. HANLY.

Sergeant Hanly has already been instructed what to do in this case. Return all papers, with report of result. Dr. Ross should be subpoenaed as medical evidence.—THOS. GARVIN, Sub-Inspector, Orange, 28/8/82. Sergeant Hanly, Molong.

### No. 4.

#### Telegram from Sub-Inspector Garvin to Sergeant Hanly.

28 August, 1882.

Re assault on Chinaman, full instructions posted you yesterday. An information should be laid and offender charged with inflicting grievous bodily harm. Gross miscarriage of justice has occurred. Never mind any outside influence; prosecute offender upon this charge. He should have been at once rearrested when Magistrates discharged him. Never heard of more glaring case.

## No. 5.

## Further Report from Sergeant Hanly to Sub-Inspector Garvin.

Police Station, Molong, 6 September, 1882.

SERGEANT HANLY, No. 1,334, begs to report that in accordance with directions he obtained a warrant on the 29th August last, and arrested Philip Owen on the charge of inflicting grievous bodily harm on Jemmy Cum, at Molong, on the 23rd August last.

The prisoner was taken before the Court next day, the 30th, and remanded till Tuesday, the 5th instant.

The case was heard yesterday, the 5th instant, before the Police Magistrate and four Justices. The prisoner was defended by two attorneys. The prosecutor (Jemmy Cum) gave evidence, and stated that whilst engaged in preparing to cook in his kitchen the prisoner assaulted him, shoved him backwards into the kitchen fire, having a hold of him by the throat, and by force held him down until the groom came; that he was burnt and scalded by water from a boiler that was then on the fire. This evidence was not damaged by cross-examination.

The groom gave evidence, and stated he heard an unusual noise and went into the kitchen. The prisoner was on top of the Chinaman, who was on the ground, his head near the fire, the prisoner holding the Chinaman down. He separated them, and took a meat-chopper from the Chinaman.

A servant girl gave evidence of seeing the prisoner going into the kitchen as she left it, and that she ran away frightened as she was apprehensive of a row. Soon after she saw the Chinaman injured.

The doctor gave lengthy evidence of the scalds and burns and marks of strangulation on the wind-pipe; that the cuticle in several parts was destroyed, eyes severely injured, one ear showing mortification, other parts suppurating, and that the Chinaman "was in a serious and dangerous state"; and that he (the Doctor) considered it his duty to personally report the matter to the sergeant; that the Chinaman is still in a condition requiring care and attention to his injuries.

The case was dismissed.

M. HANLY.

Forwarded for Mr. Lydiard's information.—THOS. GARVIN, Sub-Inspector, Orange, 7/9/82. Mr. Superintendent Lydiard, Bathurst.

## No. 6.

Criminal Offence.—Apprehension or further information.—Western District, Molong Station.

OFFENCE, inflicting grievous bodily harm; offender's name, Phillip Owen. Full particulars:—Charged on warrant with inflicting grievous bodily harm on a Chinaman named Jimmy Cum, by assaulting him and pushing him into a fire, thereby inflicting extensive scalds and burns. Has been arrested by Sergeant Hanly and Constable Heard. Discharged, as the Magistrates were of opinion some provocation must have been given.

Molong, 7/9/82.

M. HANLY,  
Sergeant.

Send me copies of proceedings in this case that I may refer them to the Minister of Justice. Provocation is no excuse for half burning a man. I must see this case through, and shall most decidedly bring it under notice of the Government.—C.T.P.L., Superintendent. Sergeant Hanly. I should like to know the result of this case. Have not further steps been taken?—C.T.P.L., Superintendent, 10/9/82.

Memo. forwarded for Mr. Lydiard's information:—The whole of the correspondence in reference to this case was returned to Mr. Lydiard by me on 7th instant.—THOMAS GARVIN, Sub-Inspector, Orange, 13/9/82. Mr. Superintendent Lydiard, Bathurst.

## CHARLES WAUDBY.

No. 1.

Mr. W. Forster, M.P., to The Minister of Justice.

Sir,

Sydney, 18 June, 1882.

I took the appended statement down myself from the father of the child whose death is mentioned therein, and which took place on Wednesday afternoon. I do myself the honor to forward, for your information and consideration, Charles Waudby's statement, under the impression that the Coroner has not properly fulfilled his functions, in having refused to receive preliminary information, and to take whatever steps might have been necessary under the circumstances, at whatever hour or in whatever place the application was made. And by his refusal or neglect it appears that the corpse of the child remained unburied from Wednesday afternoon until late on Friday, and that the unfortunate parents were subjected to great distress and perplexity, besides being put to loss by being detained from their ordinary occupations. It is obvious that in this case, as in many others, it would have been better for public interests, and the interests of justice in particular, not to speak of the private convenience of the parties chiefly concerned, if any ordinary Magistrate had been authorized to act, and that in fact the institution of Coroner has stood in the way of right. Supposing the child to have died of putrid or any other dangerously infectious disease, it is easy to conceive that disastrous consequences might have followed.

However, I have the honor to submit the case to yourself and colleagues, in full confidence that you will take such measures as may be necessary for the public interest, and to prevent in future whatever may be reprehensible in the proceedings.

I have, &amp;c.,

WILLIAM FORSTER.

[Enclosure No. 1.]

Extract from *The Eastern Suburbs Argus*, Saturday, 17 June, 1882.

Sudden Death.—On Wednesday, at about 3 p.m., a child named Minnie Waudby, seven months old, daughter of Charles Waudby, stone-mason, residing in Cameron-street, Paddington, died suddenly. From the statement of the child's mother, it appears that the deceased had been in delicate health since its birth, but had not been attended by any medical man. At 8 a.m. she was sleeping in bed in charge of a sister named Charlotte, whilst the mother went out washing, and on the latter's return in the afternoon she found her dead. Dr. Nott saw the body and gave it as his opinion that death resulted from internal convulsions, but declined to give a certificate to that effect, as he had not seen her before death. The Coroner has since given a certificate without an inquest.

[Enclosure No. 2.]

My name is Charles Waudby; I live in Cameron-street, Paddington; my occupation is that of stone-mason; I am married and have six children now alive; on Wednesday afternoon my youngest child, a girl, died suddenly; no one was in the house but my daughter Charlotte, in charge of the child, who was about seven months old; it had been previously to all appearance quite healthy; I know nothing to account for the child's sudden death; I sent for Dr. Nott, who declined giving a certificate or definite opinion other than that the child died of internal convulsions, because he had not seen the child before its death; Sergeant Brennan came in and saw the child after its death on Wednesday afternoon; another policeman came in the same evening and made inquiries; I gave him all particulars; I think he is a sergeant named Long; he ordered me to remain at the house until I should hear further from the police; I stayed accordingly until past 2 o'clock on Thursday; about mid-day Sergeant Brennan came, and said we might hear something about 2 o'clock; at that hour, as no one came, I and my wife went to the police station at Woollahra; the man in charge could give me no information, but said I might hear something in another half-hour; I waited half an hour, when some other policeman came, who could give me no instructions or information; I was then advised by one of the police to seek the Coroner at his private residence; I went there at once, but he was not at home; I went again between 6 and 7, and saw the Coroner; I took with me the girl who had been in charge of the child when it died; I tried as well as I could to state my business, but the Coroner interrupted me, and without hearing all I had to say he told me I had no business coming there, as there was an office in Sydney, to which he directed me to go next day at 9 in the morning; I told him I had brought the little girl with me, and for what purpose, but he would not listen and went away abruptly, closing the door near which we were standing; I went to the Coroner's office and met my wife there; she had in the meantime been called upon by the police and taken there; she had got from the Coroner a certificate or permission, or document of some sort, which enabled us to register the death of the child, which had all the time remained at my house unburied; the same day, Friday, the child was buried.

CHARLES WAUDBY.

Signed at Hazelmere, Edgecliffe Road, Woollahra, June 18, 1882.

The Coroner, for favour of such observations as he may think fit.—W.J.F., 19/6/82. B.C., 20 June, 1882, T. E. McNEVIN, for U.S.

My reply will be found on a separate sheet appended.—H.S., C., 21/6/82.

No. 2.

The City Coroner to The Minister of Justice.

Remarks on Mr. Forster's letter, re the death of Charles Waudby's child.

A POLICE report of the death of the child mentioned in Mr. Forster's letter reached me about 9 a.m., the 15th instant. The whole of that day, from 9 until near 5 o'clock, I was engaged in Court, having had two inquests to get through, one of them being a tram accident. Arrangements for the holding of those inquests had been made, and jurors summoned, before the report in Waudby's case came to hand. From the tenor of the police report, and Dr. Nott's opinion, I arrived at the conclusion that the case was not one demanding an inquest, and would have certified to that effect at any time during the day had an application been made during that day. I inquired frequently of the constable on duty whether any one had called from Woollahra about the child, and learning at a late hour in the afternoon that no person had done so, I directed him to proceed to No. 3 Police Station, and request the officer in charge to secure the attendance of

of one of the parents at my office at 9 o'clock on the following morning. The mother of the deceased came accordingly, and after hearing her statement, I at once gave her a certificate dispensing with an inquest, and directed her what to do.

The father of the child called upon me at my private residence, on the evening of Thursday, the 15th instant, about 7 o'clock. He had a little girl with him. I had previously resolved on dispensing with an inquest, and consequently did not require any lengthened statement from him, more particularly as he admitted he knew nothing of the circumstances connected with the child's death. I told him that I had been at my office all day until a late hour—that no one called, neither police nor parents, to ascertain my intention; that that was my private residence, and that I was then having my tea, but that if he would call at my office the following morning at 9 o'clock I would grant a certificate authorizing interment, which was accordingly done; his wife having called as stated.

It is unnecessary to submit any observations in reference to Mr. Forster's impression that I had not properly fulfilled my functions. I hardly think he will maintain that I am bound to get out of bed at 1 o'clock in the morning to attend to any application that might be made, yet I have been forced to get up at that hour in response to importunate calls. I have been also called out of church on a matter which might with propriety have remained for decision until the following morning. Yet, according to Mr. Forster, I do not properly fulfil my functions unless I take whatever steps may be necessary under the circumstances, at whatever hour or in whatever place the application is made.

22/6/82.

HENRY SHIELL,  
Coroner.

I cannot see that the City Coroner is in any degree to blame in this matter. This may be communicated to him. It appears to me that the child lay unburied, not through the neglect of the Coroner, but through the neglect of the parent to call at the proper time and place to obtain the certificate. The police who called at his house appear, according to his statement, to have told him to remain at his house, and then prevented him from going to the Coroner. As to this, I should be glad if the Inspector-General of Police would favour me with report.—W.J.F., 26/6/82. The police appear to be in no way to blame in this matter.—W.J.F. The Inspector-General of Police, B.C., 26th June, 1882.—W. E. PLUNKETT. Memo.—Superintendent Read will please to obtain a report in this case.—E.F., I.G. Police, 28th June, 1882.

### No. 3.

#### The Under-Secretary of Justice to The City Coroner.

Sir,

Department of Justice, Sydney, 26 June, 1882.

Referring to report furnished by you in connection with the matter of the death of child of Charles Waudby, brought under the Minister's notice by letter from William Forster, Esq., M.P., on the 18th instant, I am directed by the Minister of Justice to inform you that he cannot see that you are in any degree to blame in reference to the above-named matter.

I have, &c.,

W. E. PLUNKETT,  
Under-Secretary.

### No. 4.

#### The Inspector General of Police to The Under-Secretary of Justice.

POLICE reports forwarded herewith, for the information of the Minister of Justice.—EDM. FOSBERY, I.G.P. The Under Secretary of Justice, B.C., 1 July, 1882.

[Enclosure 1.]

Senior-sergeant Long to Inspector Waters.

Woollahra Police Station, 29 June, 1882.

SENIOR-SERGEANT Long begs to report, with reference to the statement of Charles Waudby *re* the death of his child, that Waudby's statement is incorrect, as the sergeant never was at Waudby's residence or ever had any communication whatever with him.

The only members of the Force who saw Waudby with reference to the death of his child were Senior-constable Brennan and Constable Blackburn, from whom reports are herewith forwarded.

WILLIAM LONG,  
Senior-sergeant.

Forwarded for the information of the Superintendent in charge.—GEO. WATERS, Inspector, 30/6/82. Forwarded to the Inspector-General of Police.—G. READ, Superintendent, 1/7/82.

[Enclosure 2.]

Senior-constable Brennan to Superintendent Read.

Woollahra Police Station, 29 June, 1882.

SENIOR-CONSTABLE Brennan (No. 1,576) respectfully reports, in reference to the death of Charles Waudby's child, that about 5 p.m. on the evening of the 14th instant Dr. Nott called at the Woollahra Police Station, and reported that a child belonging to Charles Waudby had died suddenly, and that he declined to give a certificate, not having seen the child before death, but that he was of opinion that the child died from internal convulsions brought on by teething. Senior-sergeant Long directed Senior-constable Brennan to go to Waudby's residence and get the particulars of the death. The senior-constable went there and saw the mother of the child, who gave him the information that was subsequently embodied in the report forwarded to the City Coroner.

Senior-constable Brennan saw Charles Waudby, the father of the child, about 10 a.m. on the morning of the 15th instant, and he asked the senior-constable what time the inquest would be held. The senior-constable told him that the Coroner could not have seen the report before 9 a.m. that morning, and that it being then only about 10, there was hardly time for any instructions to be received from him, but that in all probability the necessary instructions would be received in the course of an hour or so. The senior-constable *did not order Waudby to remain at home.*

The senior-constable again saw Waudby about 9 p.m. that evening, when he told him (the senior-constable) that he had seen the Coroner at his private residence, who directed him to attend at his office at 9 a.m. the following morning, and that he would give him a paper.

JAMES BRENNAN,  
Senior-constable.

Forwarded to the Inspector General of Police.—G. READ, Superintendent, 1/7/82.

[Enclosure

[Enclosure 3.]

Constable Blackburn to Inspector Waters.

Woollahra Police Station, 29 June, 1882.

CONSTABLE William Blackburn begs to report, with reference to the death of Charles Waudby's child, that on the 15th instant, about 2 p.m., Waudby and his wife called at the station and asked the constable when the inquest would be held on their child; he informed them that a constable had been sent to No. 3 Station for information about it and would return shortly; they then remained at the station about half an hour, when the Constable Lees returned and said that no information had yet been received from the Coroner. Constable Blackburn then advised them to call at the Coroner's office and tell him what they knew about the matter, and he might probably dispense with an inquest altogether; they said they would do so, and left the station evidently with that intention, but it appears they did not call on the Coroner, as a message was received from him about 8 p.m. that evening, requesting some of the family who knew something about the matter to call at his office at 9 a.m. the next morning, which message was conveyed immediately to Waudby.

WILLIAM BLACKBURN,  
Constable.

Forwarded to the Inspector General of Police.—G. READ, Superintendent, 1/7/82.

Mr. Forster's letter in this matter has not as yet been replied to. Perhaps he may be informed that the Minister has caused careful inquiry to be made, and that it does not appear, from the official reports furnished, that the City Coroner or police are in any way to blame in this matter. Sub. 4/7/82.

Inform Mr. Forster that upon inquiry I do not find that the Coroner has been to blame. I have also made investigation as to the action of the police in the matter. They do not bear out the statement of Charles Waudby, and they also appear blameless in the matter. It seems that the police, while assisting in carrying out the law, did not interfere so as to hinder Waudby from doing his clear duty by reporting the matter to the Coroner at the office during office hours, the day after the death.—W.J.F., 5/7/82.

Mr. Forster, M.P., informed, 6/7/82.

No. 5.

The Under-Secretary of Justice to W. Forster, Esq., M.P.

Sir,

Department of Justice, Sydney, 6 July, 1882.

Referring to your letter of the 18th ultimo, submitting statement of Charles Waudby respecting the death of his child, and the action taken by the City Coroner and the police in the matter,—I am directed by the Minister of Justice to inform you that upon inquiry he does not find that the Coroner is to blame; and he has also made investigation as to the action of the police in the matter, but they do not bear out the statement of Charles Waudby, and they also appear to be blameless.

It seems to Mr. Forster that the police, while assisting in carrying out the law, did not interfere so as to hinder Waudby from doing his clear duty by reporting the matter to the Coroner at the office during office hours, the day after the death of his child.

I have, &c.,  
THOS. E. MACNEVIN,  
(For Under-Secretary).

No. 6.

W. Forster, Esq., M.P., to The Minister of Justice.

Sir,

Sydney, 23 August, 1882.

With reference to the letter from your office of July 6th, on the subject of Charles Waudby's statement respecting the death of his child, and the action taken by the City Coroner and the police in the matter, I have the honor to state that I am not aware of having blamed or intended to blame the police, otherwise than in regretting their failure to adequately direct Charles Waudby what course to take, which may or may not have been their duty; but as regards the Coroner, I have the honor to express my surprise that you do not find the Coroner to blame, and my regret at being forced to the conclusion that your exculpation of the Coroner is mainly founded on his own mere *ex parte* account and explanation of the circumstances, and his peculiar and (as I think) erroneous view of his duties. Admitting, in accordance with your view, which so far corresponds with his, that it was the clear duty of Charles Waudby to report the matter to the Coroner, I cannot assent to the further implication that such report could not be properly made otherwise than at the Coroner's Office during office hours; to me it appears that it ought to have been made, and that it was the clear duty of Charles Waudby to make it to the proper authority with the least possible delay; but whenever made, unless I greatly misconceive the duties of Coroner and the peculiar uses of such an officer, it was the clear duty of the Coroner to receive and patiently listen to such a report anywhere and at any time consistently with due attention to other duties and necessities; I cannot understand how the peculiar duties and functions of Coroner, involving so far as possible immediate investigation into strange or mysterious circumstances and quick apprehension of evidence as well as of persons, liable to suppression or disappearance, can be properly limited to certain times and places. One need only imagine the very probable case of a sudden or mysterious death occurring on a Saturday, or any day before a holiday or number of holidays, just after closing of the office, or at a time when the Coroner may be engaged in a distant quarter upon business, which however important, might be less so or less pressing than immediate inquiry into a sudden and mysterious death. In such a case no report could be made or received, and a body or bodies might have to remain unburied until a long time had elapsed, and in the meantime offenders might escape and valuable testimony be suppressed or elude subsequent search. The case of Charles Waudby is really a case in point; he and his wife are working-people, without sufficient education or information to guide them in cases of difficulty and emergency such as occurred to them in this instance. Their infant, previously to all appearances in excellent health, died suddenly and mysteriously in the absence of medical supervision. The parents, from ignorance what course to take, remained several days out of work, with the dead infant in their house, which the police prevented their burying, apparently under the impression that the Coroner or some other competent authority would intervene, though no notice appears to have been given for at least one or two days to any such authority. When at last the father did give verbal and personal notice to the Coroner he was by his own account rudely repulsed, and told to come to the office in office hours. At any rate no formal judicial inquiry was made into the circumstances, either then or afterwards; for strangely enough when the father appeared next morning at the office, he was informed that the Coroner, upon the verbal information of the mother or the police, had come to the conclusion

conclusion that no further inquiry was necessary, and had given permission to bury the child. It appears to me still very doubtful whether this conclusion was right, and the case one which ought to have been so summarily passed over; but even admitting that further inquiry was unnecessary, it is plain enough that if the Coroner had taken a higher view of his duties, and had attended to the matter when first informed of the circumstances, not only would much unnecessary hardship and inconvenience have been spared to the unfortunate parents of the dead infant, but the interests of justice would have been better served and considerations of decency and humanity less neglected, with all of which the fact of the child's body remaining so long unburied without apparent necessity is not easily reconcilable. The occurrence of such a case proves that there must have been a fault somewhere, either in the law or the Coroner, or the rules by which his functions are regulated; and I confess my inability to perceive any advantage in the Coroner's office as distinct from that of any ordinary Justice of the Peace, if its functions can be so circumscribed by technicalities as to deprive them of those peculiar uses in cases of emergency which do not appertain to ordinary magisterial functions.

I have, &c.,

WILLIAM FORSTER.

Inform Mr. Forster that I am unable to offer fuller explanation of this matter, but that the original papers will be at his service if he desires to see them, and that a perusal of them will in all probability be sufficient; or if he still thinks the matter worth the expense of printing, there will be no objection to producing them if called for in the House.—W.J.F., 25/8/82. Mr. Forster, M.P., informed, 26/8/82.

No. 7.

The Under-Secretary of Justice to W. Forster, Esq., M.P.

Sir,

Department of Justice, Sydney, 26 August, 1882.

With reference to your letter of the 23rd instant, further respecting the death of the child of Charles Waudby and the circumstances connected therewith, I am directed by the Minister of Justice to inform you that he is unable to offer fuller explanation of this matter, but that the original papers will be at your service if you desire to see them, and that a perusal of them will in all probability be sufficient; or if you still think the matter worth the expense of printing, there will be no objection to producing them if called for in the House.

## STEPHEN MURPHY.

No. 1.

Mr. S. Murphy to The Minister of Justice.

Sir,

George-street, Waterloo, 3 February, 1882.

I was plaintiff in the cause No. 1,622 at the June sittings of the District Court, 1881, but was nonsuited through the solicitors I employed not pleading my case according to my instructions, and keeping me out of Court all the second day my case was on, on the plea that I must find the defendant and serve him with a subpoena to produce the books of account, which were my chief evidence. In my absence from Court I was nonsuited as stated, and the other side put the bailiffs in my house to recover the costs, which amounted to £41 15s. 4d.; and so as to prevent me from ever again seeking redress in the said Court my solicitors sent in their bill for £46 5s. 3d., out of which I paid £15 5s., every penny I was possessed of, and among the items they stated that it was a verdict for the defendant, with costs, which had been given in cause No. 1,622, June sittings, 1881; but having found out to the contrary, and that I was nonsuited, I again applied to the District Court for redress at this February sittings, and through want of means was compelled to make out my own case as I best could.

I received my plaint note, No. 44, and attended the District Court yesterday, and His Honor Judge Dowling would not hear me, as the defendant through his counsel told him that I had not paid the costs of the former case, which I am unable to do from want of means. The case was, by His Honor's order, and at defendant's counsel's request, postponed as an undefended case until next sittings. His Honor told me that that was favourable towards me, so I gave my consent. I now wish to ask your Honor if I am to be deprived of justice and a hearing at the next sittings if I am unable to pay the costs, for I have no means of paying them?

There is another matter I respectfully wish to bring under your Honor's notice, as follows:—The justice I am seeking is to be reinstated in a benefit society, from which I was turned out by Lynch law, after paying in nearly fifteen years' contributions, for inquiring after the lodge funds, being told that to succeed with my case at this sittings I would first have to pay up my arrears of lodge contributions, which amounted to £5 5s. I raised the money on my furniture, and not being able to find the secretary of the lodge I paid my contributions under a mistake to the Registrar of the Court, Mr. Lucas, who has given me a receipt for the same, but he refuses to return them. My wife begged of Judge Dowling to return them, as I and my family need the money, and he refuses to return them until the case is finished, which will be never if I have to first pay the costs.

Enclosed is a copy of the memo. to the Registrar. Will your Honor kindly give me an order to withdraw my contributions, and to obtain a hearing of my case at this or the next sittings without having to pay costs first.

I have, &amp;c.,

STEPHEN MURPHY.

## [Enclosure.]

In the Metropolitan and Hunter District Court, holden at Sydney.—No. of Plaint, 44.

Between Stephen Murphy, residing at George-street, Waterloo, plaintiff, and James Horan, Treasurer and Trustee of the Loyal United Brothers Lodge, No. 3,592, I.O.O.F., M.U., defendant.

I, THE said Stephen Murphy, plaintiff, a good subscribing member of the above Lodge, do hereby tender with this memo. the sum of £5 5s. (five pounds five shillings) to the Registrar of the District Court, J. A. Lucas, Esq., respectfully requesting that he will cause to be paid therefrom the Lodge contribution money owing by me to the said Lodge, according to the 53rd and 183rd General Rules of the said Society, as I am unable to find the Secretary.

Dated at Sydney this 31st day of January, 1882.

I shall be glad if Judge Dowling can see his way to furnish such information as will enable me to forward a suitable reply to this communication, particularly as regards the £5 5s. said to have been paid into Court in error.—W.J.F., 4 February, 1882. Judge Dowling, B.C., 7 February, 1882.—W. E. PLUNKETT.

No. 2.

Report of Mr. District-Court Judge Dowling to The Under-Secretary of Justice.

In June last Mr. Murphy brought an action in this Court against a Friendly Society from which he had been expelled, to compel the Society to receive him as a full member thereof. Judge Cohen heard the case, and after a long trial dismissed the same with costs, which were duly taxed at £40 18s. 10d.

In January, this year, Mr. Murphy issued a plaint against the same Society for the same cause of action. Subsequently, on the 31st January, Mr. Murphy tendered in the office £5 5s., which he said at the time was the amount due by him as a full subscriber to the said Society, hoping thereby, I presume, to strengthen his chance of success in the second case.

He was told at the time by the Registrar that he was making a mistake in paying the amount into Court, and that if he did so he would not be able to get it back without an order from the defendant, inasmuch as it would be credited to the cause for the defendant's use. Notwithstanding this he insisted on paying the amount into Court. Afterwards an application was made to me by Mrs. Murphy to order the payment out to her of the said five guineas, which order I declined to make, stating at the time it must be impounded, and not paid to either party until the case was disposed of. At that time I was led to believe the case would be heard in a day or two. When the case was called on the 2nd instant (the first day of the sittings), the attorney for the defendants drew my attention to the fact that the costs in the first action had not been paid, and that the cause of action was the same as that tried by Judge Cohen in June last, and which statement was not denied. In order to give the plaintiff an opportunity of paying the costs of the first action I postponed, with his consent, the trial of the case until the March sittings. At

At no time was my attention drawn to the peculiar wording of the enclosed document, otherwise I should have ordered the Registrar to return the money to the plaintiff.

I think the money ought not to have been received for the purpose therein mentioned. The money was not paid for the purpose of the suit, but paid in error. I did order on the last-mentioned day the money to be impounded, to await the order of the presiding Judge in March. The defendant having been informed of the five guineas having been paid, claimed it in Court as part payment of the costs due. I certainly did suggest that the plaintiff should pay the costs of the first action before he should be heard in the second, but made no order in the matter, leaving this to be determined by the presiding Judge.

JAMES S. DOWLING,

9 February, 1882.

Inform the writer that the question of the return of the £5 5s. must now await the order of the presiding Judge in the month of March next.—W.J.F., 11 February, 1882. Mr. Murphy informed.—14/2/82.

### No. 3.

#### The Under-Secretary of Justice to Mr. S. Murphy.

Sir,

Department of Justice, Sydney, 14 February, 1882.

Referring to your letter of the 3rd instant, respecting a case heard in the District Court, Sydney, in June, 1881, in which you were the plaintiff, and with reference to the sum of £5 5s. paid by you in error to the Registrar of the District Court, being amount of a lodge contribution due by you to the defendants, and asking that the same may be returned, I am directed by the Minister of Justice to inform you that having caused inquiry to be made the question of the return of the amount of £5 5s., paid by you into Court, must now await the order of the presiding Judge of the District Court, in the month of March next.

I have, &c.,

W. E. PLUNKETT,

Under-Secretary.

### No. 4.

#### Report of Mr. District-Court Judge Cohen to The Minister of Justice.

His Honor Judge Dowling has handed to me, as the Judge who adjudicated in the case *Murphy v. Chapman*, these papers for my report, which I now have the honor of submitting to the Minister.

The case *Murphy v. Chapman* was an application by Murphy to be reinstated in the Loyal United Brethren Lodge, No. 3,592, because, as he alleged, he had been wrongfully and unequitably expelled therefrom, was heard by me in June last, and occupied nearly, if not quite, two whole days in the hearing.

At the termination of the plaintiff's case, and after hearing the argument of counsel on both sides, I dismissed the application with costs, intending my decision to be, as I think it legally, as tantamount to a verdict for the defendant in an ordinary action at common law, and so disposed of the case upon its merits as they were placed before me in evidence. Murphy, not having paid the costs of that suit, brought on the 14th of the present month to obtain a re-hearing of his case in a suit, *Murphy v. Horan*, by substituting Horan treasurer and trustee of the lodge for Chapman (the secretary) as defendant, but he admitted what was apparent on the face of his plaint that he was bringing the suit for the same causes of complaint as were involved in the action *Murphy v. Chapman*; I therefore dismissed the application in *Murphy v. Horan*, with costs.

Whether in the proceeding *Murphy v. Chapman*, Murphy had difficulties to encounter in producing evidence, or failed to produce evidence in consequence of obstacles thrown in his way by the other side, I cannot say, but supposing this to be true it can in no way afford him legal grounds for reopening his alleged grievances in this Court. With reference to the £5 5s. paid into Court under the circumstances stated by his Honor Judge Dowling in his Minute of February 9th last, I would state that in dismissing the application, *Murphy v. Horan*, I ordered this £5 5s. to be impounded, to give the defendant in either suit an opportunity of recovering some portion of the costs he had incurred.

H. E. COHEN,

22/3/82.

### No. 5.

#### Mr. S. Murphy to The Minister of Justice.

Sir,

George-street, Waterloo, Sydney, 19 August, 1882.

I respectfully apply to you to cause a thorough enquiry to be made into the case of injustice described in the pages hereunto annexed, numbered from 1 upwards to 12, and to allow me to be present thereat, and kindly inform me as soon as possible as to whether the late acting District-Court Judge Cohen ordered me to pay £60 15s. 4d. costs in cause 1,622, *Murphy v. Chapman*. Did he order said costs to be taxed, and did he order execution to issue against my goods under the District Court seal, and the District Court bailiffs to keep possession of my premises two days, and was it a non-suit verdict or dismissed in said cause, and what were the amount of costs allowed? Copy of said cause:—

In the Metropolitan and Hunter District Court, holden at Sydney, Thursday, June 23, 1881, before His Honor Mr. Justice Cohen.

*Murphy v. Chapman*. No. 1,622.

His Honor was engaged throughout the day in hearing evidence and arguments in an application made on behalf of Mr. Stephen Murphy to be reinstated a member of the Loyal United Brothers Lodge, No. 3,592 M.U. Dr. Sly, instructed by Messrs. Stephen Lawrence and Jaques, appeared for the plaintiff, and Mr. Pilcher, instructed by Mr. S. C. Brown, for Mr. A. W. Chapman, the secretary of the Lodge, who is the nominal defendant. It was alleged that plaintiff had wrongfully and inequitably and without a fair and impartial hearing, and in contravention of natural justice, been expelled. For the defence it was sought to prove that the applicant had made some reflections upon some of the members of the Lodge; that he had failed to prove such assertions; and that he had, in accordance with the 44th rule of the Society, been expelled. Such rule is as follows:—“Any member slandering another, designing, printing, or publishing, or by any means circulating any article or document so as to bring any member into contempt, shall, on

proof

proof thereof, be expelled, or suffer such less other punishment as a committee of the lodge or district may think proper to inflict." At 5 o'clock the further hearing of the case was adjourned. The reflections I made were in reference to the books of account, which were not produced in Court; therefore it was impossible for the case to be heard or decided, and I could and still can prove by the said lodge books of account that I am not guilty of slander, that I only did what I considered it was my duty as an officer of the lodge holding the highest degrees of merit to do when he saw anything wrong in the matter of the funds—to bring it under the notice of the paid examining officer of the Order. This I fearlessly did, and for doing so I was considered a dangerous man and turned out in the most arbitrary manner. Relying on Sir George Innes' written opinion that if the facts of my case were as stated in the written instructions laid before him I could successfully apply to the District Court for redress, I instructed my solicitors to call for all the Lodge books of account and documents necessary to prove my innocence of slander, and that all I did was for the good and welfare of the Lodge, and that everyone of the assertions complained of were true with the exception of the word "combined." They agreed to plead my case, and charged me £15 5s., which I paid them, but when the case came before His Honor Judge Cohen the defendant, through his counsel, tried to throw the case out on the most frivolous points, but His Honor Judge Cohen decided to go on with the case, and directly he did so the defendant disappeared from the Court. This was on the 23rd of June, 1881. On the morning of the 24th of June, 1881, my solicitor's clerk told me that I would have to find the defendant and serve him with the subpoena appended herewith, and I was to meet him at Dr. Sly's office at 10 o'clock on the same day. I there saw Dr. Sly and told him I could not find the defendant. Afterwards he (Dr. Sly) told me that unless I could find the defendant and serve him with the subpoena to bring up the books he could not go on with my case. While the plaintiff and defendant were out of Court, the former hunting the latter up all over town trying to find him, the case was settled in some way. All I know about it was (through being out of Court all day) that the first day's proceedings appeared in the *Sydney Morning Herald* and *Echo* of 24th June, 1881, and no further report of the case has appeared since. In those papers it states that my case was adjourned. On the evening of the same day, at my solicitor's office, I saw Mr. Lawrence, who had charge of my case. He told me the case had been brought in against me. On the 30th of June, 1881, my solicitors sent me word that the costs of the action *Murphy v. Chapman*, No. 1,622, were rendered to them at £60 15s. 6d.; that such costs had been taxed, and that they had succeeded in having them reduced to £40 18s. 10d.; and that unless paid the bailiff would be sent out. On the following Friday, July 8th, the District Court bailiffs were put in possession of my goods under warrant of execution for the judgment represented by them to have been obtained against me in the said action for £41 15s. 4d. The shock to my wife, who was hourly expecting her confinement, nearly cost her her life, and she has been ailing ever since, for through my unjust expulsion from the Lodge she was deprived of medical attendance and medicines in her confinement, and almost of the necessaries of life, through paying the £15 5s. to my solicitors, which nearly ruined us, and I was laid up at nearly the same time through an accident I met with. My solicitors sent me word in writing on the 21st of October, 1881, that in the case *Murphy v. Chapman*, No. 1,622, the Judge had given a verdict for defendant with costs on 24th of June, 1881. In December, 1881, I obtained a copy of the *Daily Telegraph* of 25th of June, 1881, and I saw by the report of my case therein that His Honor Judge Cohen had dismissed my application, to be reinstated with costs which I since find were barristers' fees seven guineas, solicitors' fees then ditto, on the grounds that I had not adduced sufficient evidence of unfairness to warrant him in disturbing the decision of the lodge, and that such decision should not be disturbed unless on the most unquestionable evidence of unfairness, which in my case had not been shown through my not being able to produce the books of account. His Honor could not possibly give any other decision, seeing that from the cause mentioned I was unable to produce the books of account before His Honor. I then applied for a summons, so as to bring the case on again and cause the books to be produced, and when applying for a præcipe on the 9th of January, 1881, to cause those books to be produced, the Registrar of the Court told me that it was a verdict for defendant with costs, but Mr. Halloran had told me previously that it was a nonsuit, and that I could bring my case on again. He told me that there were £41 15s. 4d. costs against me in the Court. I asked him if I should have to pay these costs first, and he replied that I could pay them or not, whichever I chose. I am under the impression that I have been dealt with as though His Honor Judge Cohen had given a verdict for defendant with costs, which would have been equal to finding me guilty of slander, but, according to the newspaper report alluded to, I can bring the case on whenever I am able to produce stronger evidence of unfairness, which I am now able to do, viz., the lodge books of account and documents called for in cause No. 44 and 1,401 by præcipe and subpoena now filed in the District Court. I earnestly and respectfully beg of your Honor as Minister of Justice to cause inquiries to be made as to whether it was a verdict for the defendant, nonsuit, or dismissed, in the cause mentioned, No. 1,622, for my side of the case has never been heard yet; and whether the Judge ordered these costs to be paid before the case was finished; and if he ordered a warrant of execution, No. 284, to be issued against my goods upon the alleged judgment obtained against me in that action, for I have obtained no satisfaction whatever for all the money I have expended, for although my solicitors had my case in hand six months they did nothing for me but induced me to go to law and then left me in the lurch after making a cat's-paw of me and taking every penny I was possessed of. I am still aggrieved, and can obtain no redress for a grievous wrong done me. I would also respectfully request that inquiries may be made as to whether the costs which my solicitors say were rendered to them at £60 15s. 6d. were ordered by the Judge and taxed, for I never received any item. I have been fifteen months seeking redress in the Sydney District Court, under the most trying circumstances, to clear my name from the disgrace of being expelled from a benefit society like a rogue and vagabond after paying in my hard-earned contributions for nearly 15 years, and I am now under the disadvantage of having to plead my own case, No. 2,065, through want of means.

STEPHEN MURPHY.

P.S.—The subpoena alluded to herein is now in the District Court.

The inquiries the writer asks me to make are as easily within his reach as mine. The records or quasi records of the Court, of which he can obtain copies on payment of a very small sum, will show him what was done. He appears to complain of his solicitor's conduct of his case, but that is a matter which I can in no way even inquire into, solicitors not being responsible in any way to this Department—W.J.F., 21/8/82. Mr. Murphy informed.—22/8/82.

No. 6.

## The Under-Secretary of Justice to Mr. S. Murphy.

Sir,

Department of Justice, Sydney, 22 August, 1882.

With reference to your letter of the 19th instant, asking for inquiry into the case of *Murphy v. Chapman*, heard at the District Court, Sydney, on the 23rd June, 1881, I am directed to inform you that the inquiries you ask the Minister of Justice to make are as easily within your reach as his, and the records or quasi-records of the Court, of which you can obtain copies on payment of a very small sum, will show you what was done.

I am to add that you appear to complain of your Solicitor's conduct of your case, but that is a matter which Mr. Foster can in no way even inquire into, solicitors not being responsible in any way to this department.

I have, &amp;c.,

W. E. PLUNKETT,

Under-Secretary.

No. 7.

## Mr. S. Murphy to The Minister of Justice.

Sir,

20, George-st., Waterloo, 5 September, 1882.

I have to complain of His Honor Judge Forbes' partiality contrary to the 61st District Court rule; he first heard all the defendant in cause 2,065, entered in Sydney District Court to be heard at August, 1882, Sittings, when said cause came on for hearing on 31st of August, 1882; he then accepted a document from the Registrar purporting that I had costs to pay before getting a hearing of said cause. I on oath denied the truth of that document, and was prepared to prove to His Honor by the 73 and 74 District Court Rules that I have no costs to pay, yet His Honor would not hear one word I had to say.

I filed an affidavit in said Court on 2nd of August, 1882, to plaintiff 2,065, that my application for an order under the 15th section of the Friendly Societies Act, under which I am applying to the Court, has not been heard or adjudicated upon; therefore how could it be possible I could have to pay costs? I deny that any order as to costs was made by His Honor Judge Dowling in plaintiff 1,401. I was present in Court; all he said in the matter was that he advised me to get counsel as I could not plead that case myself on the 31st of August. His Honor Judge Forbes said that he would allow plaintiff 2,065 to remain on the list twenty-four hours, and then it was to be struck off the list if the costs were not paid. The case was not struck off to-day, and I have good cause to think the case is again put off without my knowledge to be brought on at some time through the month, when I am not present, and then struck off, when defendant will claim costs. I earnestly beg of you as Minister of Justice to immediately inquire into such injustice as to His Honor Judge Forbes not allowing me to say one word as plaintiff, whilst the defendant was allowed to vilify and slander me, and of not hearing my case, although I am prepared to prove on oath that I have no costs to pay, which is His Honor's only objection to my being heard, and find out if His Honor refuses to hear plaintiff 2,065 what is to be done with it. This is the third time justice and a hearing of my just cause of complaint against the Loyal United Brothers Lodge, No. 3,592, Manchester Unity, Horan defendant, has been denied me; all other plaintiffs, no matter what their grievance, are patiently heard. I am not allowed to say one word although I have paid £1 0s. 6d. for each summons. I pray for a thorough inquiry into this case of injustice, and that my case be heard as it is on the list of defended cases still, and I can prove that I have no costs to pay in. I already forwarded you the particulars of my case on 19th of August, 1882.

Yours, &amp;c.,

STEPHEN MURPHY.

[Enclosures.]

A.

In the Metropolitan and Hunter District Court, holden at Sydney. No. 2,065.

BETWEEN Stephen Murphy, residing at George-st., Waterloo, plaintiff, and James Horan, Treasurer and Trustee of Loyal United Brothers Lodge, No. 3,592, Independent Order of Odd-Fellows, Manchester Unity, residing at 470, Kent-st., distant from the Court-house, Macquarie-st., within 1 mile, defendant.

This plaint is entered by the plaintiff in person to recover restitution of rights.

*Particulars of plaintiff's claim.*

I RESPECTFULLY apply to this Court for redress and to issue an order to compel the abovenamed defendant and other officers of the abovenamed Lodge to allow me, a good subscribing member, having an interest in said Lodge of (£200) two hundred pounds, to use the Lodge as before, on the grounds that I was unlawfully without cause and in contravention of natural justice, the rules of the Society, and section 14 Friendly Societies Act, deprived of fifteen years' contributions and all benefits of said Lodge for self and family, by an illegal resolution (copy appended herewith) through the wilful and unjust conduct of an interested member, who illegally presided as Chairman on the 4th of August and 22nd September, 1880, of said Lodge meetings held on said dates, and crushed me for standing up for the good and welfare of said Lodge and its members, on the 13th of March, 1882; the abovenamed defendant impounded my Lodge contributions £5 5s., in this Court on the 7th of June, 1882; I tendered all contributions owing by me to that date to said defendant.

Dated this 15th day of July, A.D. 1882.

Application of—

STEPHEN MURPHY,

Plaintiff in person,

Under 15th section Friendly Societies Act.

B.

Copy of illegal resolution by which I am deprived of fifteen years' contributions and all benefits of the said Lodge for self and family.

Mr. Stephen Murphy,  
Sir,

Loyal United Brothers Lodge, No. 3,592, I.O.O.F., M.U., 22 September, 1880.

You are hereby expelled from membership of the above Lodge under No. 13 resolution.

JONATHAN HOCKING, Noble Grand.

W. H. BAKER, Secretary.

Rules 23, 110, 111, 163, 164, 168, Friendly Societies Act, 14, 15, 16.

I do not see any matter requiring my interference. There is a charge of partiality but nothing to establish it. If Mr. M. thinks the Judge's conduct wrong in law his course is to apply to the Supreme Court to set him right; at least there is no other course of which I am aware available.—W.J.F., 19/9/82. Mr. Murphy informed, 19/9/82.

## No. 8.

## The Under-Secretary of Justice to Mr. S. Murphy.

Sir,

Department of Justice, 19 September, 1882.

With reference to your letter of the 5th instant, preferring complaint against Judge Forbes, in connection with the case *Murphy v. Horan*, heard before the Sydney District Court in July last, I am directed by the Minister of Justice to inform you that he does not see that this is a matter requiring his interference, and there is nothing to establish the charge of partiality against the Judge.

I am to add that if you think the Judge's conduct wrong in law, your course is to apply to the Supreme Court to set you right; at least there is no other course available of which Mr. Foster is aware.

I have, &amp;c.,

W. E. PLUNKETT,  
Under-Secretary.

## No. 9.

## Mr. S. Murphy to The Minister of Justice.

Sir,

20, George-street, Waterloo, 4 October, 1882.

I have to complain that in cause No. 1,622, the particulars of which case are already before you, I was non-suited without my knowledge or consent while out of Court on 24th June, 1881, by my counsel's instructions searching for the defendant all over town trying to find him to serve him with a subpoena to bring up the lodge books, which were and still are my material evidence that I am not guilty of slander for which I was arbitrarily turned out of the Loyal United Brothers Lodge, No. 3,592, Manchester Unity, and deprived of fifteen years contributions and all benefits of the lodge for self and family, which I value at £200, for standing up for the good and welfare of the lodge, and bringing under the notice of the paid examining officer of the Order the fact that an incorrect return of the funds had been sent into him and the Registrar of Friendly Societies for the year 1879. Before that case No. 1,622 was heard and without judgment or order having been made against me, a bailiff of the Sydney District Court levied on my goods for costs £41 15s. 4d., under a notice stamped with the seal of the said Court, and purporting to have been sent with warrant of execution No. 284 against my goods; that notice was served on my wife, and possession kept of my house and goods two days, the shock nearly causing my wife's death. On the 15th June, 1882, I and my wife were shown by the District Court officials plaint No. 1,622, which was taken with my two other plaints, No. 44 and No. 1,401, from amongst the undisposed of cases, and it was endorsed dismissed with costs, barrister's fees seven guineas, solicitor's fees three guineas. On the 6th of September, 1882, my wife was shown the District Court Judgment Book, and under date of 28th of June, 1881, a verdict in cause No. 1,622 is recorded in my favour for £41 15s. 4d. On the 4th of October, 1882, my wife saw the District Court Minute-book, and under date of 2nd of June, 1881, cause No. 1,622 is dismissed, no judgment or order is made; His Honor Judge Josephson gave my wife permission to search the books and records on 4th instant. After declaring before His Honor that all the books and plaints shown to him by the Registrar were not the genuine books or plaints, as shown to her on 15th June and 6th of September, 1882, the Court Registrar and other Court officials refused to allow my wife to refer to the genuine books and documents, or to the entry of the 28th of June, 1881, in the minute-book, or to search what became of plaints 44, 1,401, and 2,065, none of which have ever been heard, although I paid £1 0s. 6d. for each summons, on the objection always taken by defendant's counsel, Stephen Campbell Brown, that I have to pay taxed costs of first application £41 15s. 4d., which is untrue. On the other hand the defendant, by his counsel, is allowed to vilify and slander me before the Court, and say all he wishes to say, while I as plaintiff am not allowed to say one word. I never sued for money or damages in either plaint, but for an order to compel the Lodge of United Brothers, No. 3,592, M.U., to allow me to use the Lodge as before, on the grounds that I was unlawfully, without cause and in contravention of natural justice, the rules of the Society, and Friendly Societies Act, turned out by a member who had no right or authority to preside, for standing up for the good and welfare of the Lodge and its members, and inquiring after Lodge Funds paid over by myself while an officer of the Lodge. I never received a bill of costs, nor was I present at any taxation, for the reason that none ever took place, as judgment and a decision has yet to be given in my case, as my affidavit filed to plaint 2,065, still on the August, 1882, defended list, will show; and a further proof that my case has not been heard or decided is the fact of the Lodge having impounded my lodge contributions, £5 5s., in the Court pending decision. His Honor Judge Dowling told my wife at the time it was admitted before His Honor that cause No. 1,622 was a non-suit, 2nd February, 1882, that the £5 5s. was to be impounded until the case was heard when my wife is to get the money back, and His Honor Judge Forbes declined to give costs on 31st of August, 1882, in cause 2,065, on the grounds that it was not heard, and I can prove by the District Court Rules that I have no costs to pay, therefore my goods were unlawfully seized, and the seal of the Sydney District Court unlawfully used against me, and I am unlawfully denied a hearing that the perpetrators of such a wrong may not be found out and punished as they richly deserve to be. I hold the highest certificates of merit from the lodge, and two months previous to making inquiries after the lodge moneys I was presented with an illuminated certificate of merit, and a special vote of thanks is recorded in the Lodge minute-book for the efficient manner in which I performed my duties as Noble Grand. I am an honest man and a citizen of Sydney seventeen years, and I think it very hard that of all the many litigants of all classes, creeds, and countries seeking redress at the District Court, I am the only person who is not allowed to say one word before the Court, where my case has been fifteen months, and from which I have been ordered by some of the Judges who allowed themselves to be prejudiced against me as though I were a felon, while the Registrar of the Court declares that if we lived a thousand years we will get no redress in that Court.

STEPHEN MURPHY.

This should perhaps be referred to Captain Armstrong, who is now in town, for his remarks.—C.W., 6/1/82. Approved.—JOHN R., 6/1/82. Captain Armstrong.—B.C., 7 Jan., 1882. (To be returned) —C.W.

## No. 2.

## Captain Armstrong to The Colonial Secretary.

Sir,

12 January, 1881, % McDonald, Smith, &amp; Co., Hunter-street, Sydney.

*Re* Lord Howe Island.

In acknowledging the receipt of your B.C. communication of the 7th instant, covering a petition signed by certain persons resident at Lord Howe Island, requesting that I may be removed from that place, I have the honor to draw your attention to the fact that there is no charge whatever preferred against me, and I enclose a memo. of character of said petitioners, which upon perusal will I think speak for itself.

I have, &amp;c.,

RICHD. R. ARMSTRONG,  
Resident Magistrate,  
Lord Howe Island.

*Minute of the Colonial Secretary.*

Say to the writers that they must make some sufficient charge before the question on which they have invited attention can be dealt with.—JOHN R.

## [Enclosures.]

MEMO.—Some of the more minute details as to personal habits and peculiarities, &c., &c., may seem at first sight as being almost trivial even; but in such a case as this it seems to me absolutely necessary that you should know all the merest details, as it is all but impossible for any one to judge of the annoyances and trouble I have had to bear and forbear with; and in fact foreseeing how little any sort of restriction on the semi-lawless habits of an isolated community like this would be tolerated, unless used with the utmost tact and judgment, I have studiously avoided all possible outward appearance of authority so far as in any way compatible with my position.

RICHD. R. ARMSTRONG, R.M.  
Lord Howe Island.

[Official, Private, and Confidential.]

Lord Howe Island, January, 1881.

Partial history and my private opinion of the character of the people of Lord Howe Island.

William Nichols. Very lazy, emaciated, and in former years very dissipated, a theatrical stroller, great smoker, and no worker.

Mrs. W. Nichols. Hard worker, but very dirty, half idiotic, had several children, only one alive, does not know the difference between *meum* and *tuum* when opportunity offers.

Nathan

Nathan Thompson. Sharp, shrewd Yankee, a clever hard-working carpenter, blacksmith, wheelwright, shipwright, and boat-builder; his gardens in better order than anyone's on the island; has experienced great annoyances by other settlers, especially T. Nichols and family; he with another American brought three native women from the King's Group to this island twenty-eight years ago, the partner eventually left one of the women, who died shortly after, leaving two with Thompson, another died about a year after my arrival, and I persuaded him to marry the mother of the children (five in number); they are well behaved, and very intelligent.

Mrs. Field. Widow, husband lost in the "Sylph," is very industrious, hard-working woman, but when opportunity offers drinks very heavily, then the true low Irish character comes out.

C. Williams. An old whaler, wife supposed to be in a lunatic asylum, he is very cantankerous, quarrelsome, and a thief.

Mrs. Andrews. A crippled old woman, husband and herself in former years were servants to a Captain Pool, who brought them from Tasmania many years ago.

Mr. Thos. Nichols. Also from Tasmania, married Mrs. Andrews' only daughter, got six children, he has had charge of three or four small crafts, but could not keep them any time; the last charge he had was the "Australasian," packet, belonging to a Mr. Bell, of Sydney; Nichols lost the vessel off one of the reefs to the north of Noumea, whilst at anchor, a very light wind blowing at the time, the whole affair very mysterious; the wreck was sold by Nichols, and he received the money, none of which however the owners ever received; Nichols then had the character of being a heavy drinker; he found his way to Norfolk Island, where he paid off some old debts, and eventually came back to the island (Lord Howe), suffering severely from the effects of D.T.'s, and was a long time before he got over it. He is a very lazy troublesome fellow, a sea lawyer, drinks heavily when he has the opportunity, had a small still at work shortly after his arrival, is continually causing mischief on arrival of vessels by making false reports of the inhabitants, is also very treacherous, makes his children work very hard, and though only sending two was the first to withdraw them from the school; his children though well behaved are the most backward in education on the island; he says he does not see the necessity of authority; and claims the island as his birthright, declaring that the Government have no right to disturb them; he has no system whatever in working his grounds, and is always trying to secure absentees' lands; his neighbour, C. Williams, is continually complaining of losing his poultry, which he declares are shot and killed by Stevens and Nichols' party; he also lost a good house dog directly after having a dispute with Nichols.

Mrs. T. Nichols. A very vindictive woman, and causes much mischief among the other women folk, bore a bad reputation when Mr. Amora was down here for some months, during her husband's absence in 1879 and 1880; she also proclaims loudly against any interference of authority.

C. Stevens was mate in the "Australasian Packet," with Nichols; he married the woman whose father was charged and tried for murdering her husband after repeated quarrels; Stevens had been living with this woman previous to their marriage.

Mrs. Stevens. A very vindictive temper, very lazy, and had the character of having always caused the quarrels between her former husband and her father.

Mr. Mosely. An old sailor, a thorough thief and liar, a most confirmed swearer, works hard, but no system, very dirty.

Mrs. Mosely. Very dirty, works hard, swears as hard, and no system; both were without any stores, and in a state of rags for clothing, when I first arrived I assisted them for two years.

Harry Wilson. An old hand from a whaler, very dirty in his habits, was no good whatever, was working with a cook of a whaler, but landed about eight years ago as sick; from the character the islanders had of him when he landed no one would take him in for a long time, eventually Mosely took him, but he caused so much mischief that he was turned out; Mr. Thompson then took pity on him, but found him such a thief, liar, and tell-tale, and lazy and cruel, that he got rid of him, and Mosely has again taken him in, but neither are satisfied. I have often caught him hiding and sneaking about in the bushes watching Thompson's children, he is never without a pipe or chew of tobacco in his mouth, he professes to have kept an account of all Nichols' proceedings during his stay here in the "Australasian Packet," and declares that Nichols landed many stores belonging to the ship, or stowed them away in his house; he is a most cruel and dangerous fellow, and has threatened the life of the late schoolmaster more than once. On many occasions I have lost large quantities of vegetables and tools from my gardens, also meat and stores from and around my house, and he is the man whom I charge in connection with Mosely; in two cases I caught Mosely in the act of stealing tools, and to which he had marked his initials; he afterwards confessed to the theft.

Mrs. Mooney, now Robbins.—A hard-working industrious woman, who with her late husband were engaged on a farm in Melbourne, after her husband's death (who was also lost in the "Sylph"); she was much tormented by T. Nichols and his wife, who had induced Mooney on first landing to join them in partnership, and getting nearly all his ready money. When Mooney disappeared, Mr. and Mrs. T. N. often threatened to shoot or otherwise dispose of Mrs. Mooney's cattle, and continued to frighten her with other threats; for some years this lasted until my arrival.

J. Robbins, to whom she (Mrs. M.) was married last year, is a miner by trade, a very hot and vindictive temper, very abusive, and at times swears terribly; his time is much taken up in running to neighbours' houses gossiping and raising meetings; he is also of the same opinions as the Nichols party, and strongly objects to authority, and (though the youngest settler) has more to say as regards the laws of the island than most of the others.

William Brown.—A quiet old sailor, on his last legs.

Perry Johnson.—A black man from America, who is living with a black woman from the Cape; they both have great objections to authority. I have tried to persuade this couple to marry without avail.

Edward King, commonly known on the island as "liar king," has also great objections to authority, is very ignorant, cannot read or write, and though many years on the island, has no improvements whatever to show on his grounds, which are and always have been in a most neglected state; has on two or three occasions lately caused much trouble through lying, and I now hold a statement of his in which he acknowledges before a notary public and solicitor in Sydney, to be a misrepresentation of his and false.

R.R.A.,  
R.M. and P.M., Lord Howe Island.

#### The Principal Under-Secretary to The Inhabitants of Lord Howe Island.

Gentlemen,

Colonial Secretary's Office, Sydney, 7 February, 1882.

In acknowledging the receipt of your petition dated the 20th December last, requesting the removal of Captain R. R. Armstrong from the office of Resident Magistrate of Lord Howe Island, I am directed by the Colonial Secretary to inform you that you must make some sufficient charge against Captain Armstrong before the question to which you have invited attention can be dealt with.

I have, &c.,  
CRITCHEFF WALKER.

Mr.

## Mr. Moore's Charges, and Report by Inspector-General of Police.

No. 4.

The Director of Botanic Gardens, to The Colonial Secretary.

Sir,

Botanic Gardens, Sydney, 6 January, 1882.

Referring to the accompanying letter from Mr. Ponder, of Lord Howe Island, charging Captain Armstrong, the Resident Magistrate there, with removing plants and seeds from the island; and as the latter gentleman is now in Sydney, I think it right, and this a very proper time, to bring under the notice of the Government a very unsatisfactory transaction bearing on this subject, which I had with Captain Armstrong.

I may promise the observations I have to make relative to this matter by stating that in March, 1880, in order to protect the natural vegetation, the then Minister for Lands placed all the unalienated lands of Lord Howe Island under my charge. I consequently wrote to Captain Armstrong to the effect that no plants or seeds should be removed from the island without my knowledge and consent; and, in reply, as will be seen by his letter of 24th September following, he promised that he would conform to my wishes.

About that time I required seeds of palms from the island, with which to supply my correspondents, Messrs. Veitch & Sons, of London. Mr. Shepherd, nurseryman, Sydney, being also desirous of obtaining similar seeds, applied to me to be allowed to bear half the expense of collecting, &c., on condition that he received half the quantities that might be sent me. With this object in view, I placed in Captain Armstrong's hands, who was then in Sydney, the sum of £30 to meet the cost of gathering, packing, and forwarding to me as many palm seeds as could be procured. On his return to the Island, a resident there named Edward King had collected for me and ready for shipment, 9 bushels palm seeds, which, instead of being forwarded to me by King as at first intended, were sold to Captain Armstrong, at his request, at the rate of 8s. per bushel. These were then shipped for Sydney, in charge of this gentleman's agent, Mr. Rose. Of these seeds I only received about 1 bushel, the remainder having gone to Mr. Creswell, seedsman, George-street, by order of Mr. Rose. I subsequently received on 29th December, 1880, about 4 bushels; on 15th March, 1881, about 4 bushels, and on 2nd April, 1881, about 1 bushel, making in all about 10 bushels, which, at the rate paid for them to King, and for which they can now be collected on the Island, amounts to £4. Making a liberal allowance for packing and freight, &c. (say £5), the whole cost could not exceed £9.

Finding it impossible to obtain the necessary quantity of seeds through Captain Armstrong, I felt myself compelled, in order to carry out my engagements with Messrs Veitch and Shepherd, to send a man direct to the Island to collect these seeds, at an additional cost of nearly £30.

Although by a letter from the Colonial Secretary's Office, dated 10th May, 1880, the Resident Magistrate was directed to render every facility in shipping seeds, &c., for this establishment, my collector informed me that on applying for such assistance he was positively refused any aid by Captain Armstrong's agent, who stated he was so acting under authority.

In a letter to Captain Armstrong, dated 5th May, 1881, I drew his attention to this subject, and also to the unaccounted balance of the money placed by me in his hands, as well as stating that unless a satisfactory statement was made I would feel it my duty to submit the matter for the consideration of the Government; but in reply he refused to admit any further liability.

I may also state that at the present time there is a vessel—the schooner "Levuka"—just arrived from Lord Howe Island, which I am informed was specially chartered for the purpose of conveying seeds and plants from the island, and on board of which there is or was a large quantity of both kinds.

The whole may be briefly summed up thus:—

1. From the statements made in Mr. Ponder's letter, as well as by other evidence, it would appear that Captain Armstrong is making use of the seeds and plants of the island for his private purposes, in contravention of positive instructions from me to the contrary.
2. Of the sum of £30 paid him to procure palm-seeds for me, it has been shown that seeds to the value of not more than £9, including collecting, freight, &c., have been received by me.
3. Notwithstanding the balance standing unaccounted for, he refuses to admit any liability.

I am therefore constrained to press for an inquiry into these matters; and should it be granted, I am in a position to prove, from documents in my possession, as well as by the evidence of the man King (who sold the seeds in the first instance to Captain Armstrong, and whom I subsequently sent to the island to collect for me), that the statements herein made can be substantiated.

I have, &c.,

CHARLES MOORE.

*Minute of the Colonial Secretary.*

The statements of Mr. Moore and Captain Armstrong so far differ that I am at a loss to determine how to settle the issue. I shall be glad if Mr. Fosbery and Mr. Maclean will oblige me early by inquiring and making a suggestion for final settlement.—JOHN R., 3/2/82. The Inspector General of Police, B.C., 3/2/82.—C.W.

[Enclosure.]

Mr. C. E. Ponder to R. D. Fitzgerald, Esq.

Dear Sir,

Lord Howe Island, 20 December, 1881.

Being the representative of the firm of Henderson and Macfarlane, of Auckland, who are the lessees of the Admiralty, Mutton Bird Island, from Messrs. O. Hanlon and Wood, of George-street, I have taken the liberty to make complaints to you of the conduct of the resident Magistrate of this island.

Since I have resided on the island I have done all in my power to assist the settlers; I have given them all employment in various ways, and a considerable amount of money, stores, &c., have remained here; but I must complain of Captain Armstrong, who has tried in every way to bring the residents and myself into enmity. From what I can understand, the settlers of this island are prohibited from interfering with any of the plants whatsoever on the reserves; but I can give you proofs that Captain Armstrong is continually sending plants and seeds to Sydney by our schooners.\*

Per "Waimera"..... 5 bags seeds, 2 cwt. plants.  
Per "Josephine"..... 10 " 7 "

I

\* Consigned to C. F. Creswell.

I would not swear these are the exact quantities, but should you require it you can obtain them from T. Henderson who will have the duplicates of the bills of lading.

The schooner "Levuka," at present in port, is taking large quantities of seeds, some thirty bags, pandanus nuts, &c.; I should say at least fifteen sacks of palm-seeds, besides plants from the reserves. Since Mr. Creswell arrived here, and up to date, viz., fourteen days, Captain Armstrong's men have been gathering seeds; all over the island you can find traces of where the palm-trees have been robbed of their seeds.

I can also state and bring witnesses to prove that the Government whaleboat was refused to Mr. King to take his seeds to the steamer. I have told Mr. King that I place my whaleboat entirely at his disposal, and will do all in my power to assist him.

Trusting, dear sir, my lengthy note will not have placed you to any inconvenience, I beg to remain,

Yours respectfully, &c.,  
CH. E. PONDER.

Forwarded to Mr. C. Moore, to whom as Trustee for the island this letter should have been addressed.—ROBT. D. FITZGERALD, 31 Dec., /81.

### No. 5.

#### Captain Armstrong to The Principal Under-Secretary.

Sir, 14 January, 1882; c/o Messrs. McDonald, Smith, & Co., Hunter-street, Sydney.

I am given to understand that Mr. C. Moore, Curator of the Botanical Gardens, has made complaint to your Government to the following facts; and though I am not as yet supplied with particulars of complaint, I am anxious, as my stay in Sydney is short, to clear myself of such a charge he makes, viz.:—That Mr. Moore and Mr. Shepherd subscribed the amount of £30, which they presented to me, requesting me to collect them plants and seeds indigenous to Lord Howe Island.

I beg to enclose papers to show that, though the opportunities of communication have been rare, yet I have taken advantage of them. Mr. Shepherd, it appears, was dissatisfied with his share of what he got from Mr. Moore, who wrote to me enclosing the complaint, and also stated that they had made arrangements with one Edward King, of that island, and would not require me to have any more collected for them. I consider (as enclosed particulars will show) that I have sent *considerably* more than the said amount of £30 would cover.

I may here state that I have also on occasions gathered seeds and plants from my own grounds and disposed of them as I thought best. I presume I have every right to do so, as in clearing my land the young plants of about a foot high (which have been gathered) would otherwise have been destroyed, and the seeds, if left on the ground, would only rot, or be a temptation to attract the wild pigs from the mountains, and which often make raids on the cultivated grounds to feed on the nuts and destroy the cultivations. On my first appointment to this island I had positive instructions from the Government to destroy these pigs, and have made a point every week of sending out my labour to kill what they could and bring them in.

You will no doubt perceive the difficulties I am placed in when Mr. Moore or others give ear to such characters as I describe in enclosed, and with whom I have had much trouble. I have now instructions from Mr. Moore that Mr. Shepherd be allowed to purchase, or otherwise, any plants or seeds from this island. Am I to understand that Mr. Shepherd only be allowed the privilege?

Trusting, sir, this may give sufficient explanation of my transactions with Messrs. Moore and Shepherd,—

I have, &c.,  
RICHD. R. ARMSTRONG.

[The Enclosures to this letter are missing.]

### No. 6.

#### Captain Armstrong to The Principal Under-Secretary.

Sir, 16 January, 1882.

I beg to request that you will be pleased to attach the enclosed letter from Mr. John Bell to my report, in a charge made by Thos. Nichols and party, of Lord Howe Island.

I am, &c.,  
RICHD. R. ARMSTRONG.

Since writing the report I have received news that Mr. C. E. Ponder has been removed from the island by his employers, and Thos. Nichols has left the island for New Zealand.

[Enclosures.]

Mr. John Bell to Captain Armstrong.

Dear Sir, 18, Park Road, Sydney, 14 January, 1880.

Mr. Thomas Nichols was employed by me in the year 1878 as master of the barque "Australasian Packet," for the purpose of procuring béche-de-mer, vessel and outfit cost me over £6,000. I eventually heard of the loss of the vessel, which was wrecked at the S. S. Islands, and as I was afterwards informed solely through Nichols' continued intemperance after leaving Sydney. The wreck was sold by him to some traders, excepting the boats belonging to the vessel, he had them taken to Noumea and there sold, receiving the whole proceeds of sale of vessel, boats, &c., although I appointed an agent at Noumea to act on my behalf, whom Nichols would not acknowledge. He has neither written to me or accounted in any way for the loss of the vessel or the sale of the wreck, and everything connected with the affair has been most mysterious and unsatisfactory. I had purposed at the time taking out a warrant against him, but in consequence of the great difficulties in the way of getting at him (he having gone to his home at Lord Howe Island) and the extra and great expense I would have been put to, I was advised to withhold my prosecution.

Mr. Campbell Stevens, who was mate of the same vessel at the time of her loss, returned to Sydney, and he could, but would not, give me a satisfactory report of her loss or sale of the wreck; he, I understand, is also at Lord Howe Island.

The crew of the vessel, on their return to Sydney, reported to me that Nichols took the vessel (after leaving Sydney) to Lord Howe Island, and stayed there for several weeks, and also sent a large quantity (by boat-loads) of the ship's stores to his house, and to which he had no right whatever; his instructions were on leaving Sydney to take the vessel to her destination which he did not comply with.

In conclusion I may state that the vessel and trade was uninsured, and I lost over £6,000 by the transaction.

I remain, &c.,  
JOHN BELL.

Mr. John Mason to Captain Armstrong.

Dear sir,

Having just arrived per s.s. "Hero," from Auckland, Mr. Thos. Henderson, junr., has instructed me to acquaint you that Mr. Ponder, who acted as his agent in Lord Howe Island, has been dismissed with ignominy. I may state I anticipated meeting with you here, and therefore I prepared myself for the event. You are as well aware as I am that Mr. Ponder

is the *bête noire* of my communication. It has taken some time to find out and defeat his machinations, but it appears to me that whilst he was trying to undermine your position as a Magistrate on the island, he at the same time was playing double with Mr. Henderson. It is now in your power to recall any asperity you may have shown towards Mr. Henderson's application for certain leases of land in Lord Howe Island supposed to contain guano, and to use your influence to secure them to him, for better or for worse. This you had better attend to during your residence in Sydney, as in all probability Mr. T. Henderson's present substitute will remain on the island till your return.

I remain, &c.,  
JOHN MASON.

## No. 7.

### Report of Inspector-General of Police.

Sir,

Police Department, Inspector-General's Office, Sydney, 4 February, 1882.

I have the honor to report that, in accordance with the Colonial Secretary's instructions, I have held an inquiry into certain charges preferred by Mr. Moore, the Director of the Botanic Gardens, against Captain Armstrong, the Resident Magistrate of Lord Howe Island.

Mr. Maclean being absent from town, I held the inquiry without his assistance, in accordance with the Colonial Secretary's desire.

Herewith I submit rough minutes of the statements made by the witnesses examined, which I regret (owing to the necessarily hurried manner in which the investigation had to be conducted) are not in a more official shape.

As some of the witnesses could not attend until this morning, I was unable to complete the business yesterday.

The note from Captain Armstrong (marked B) was delivered to me this morning. It will be seen therefrom that he excused himself from further attendance at the inquiry, and makes a statement, which I have underlined, apparently admitting his indebtedness on account of the £30 advanced to him by Mr. Moore.

Though the propriety of Captain Armstrong trading in the seeds and specimens gathered on the island may be questioned, I am not aware if he has been prohibited from engaging in such transactions when the seeds, &c., are gathered from his own leased land.

It seems clear, however, that he did not confine himself to his own land in gathering seed; but the manner in which he gave his evidence was not very candid.

It is abundantly proved to my mind that the Director of the Botanic Gardens has not received anything like the supply equivalent in value to the £30 advanced. Captain Armstrong ought therefore, in my opinion, to be instructed either to refund (say) £20 forthwith, or to supply a full equivalent in seeds and specimens, whichever Mr. Moore may think best.

I further respectfully suggest that Captain Armstrong should be informed that his explanations regarding the transaction are not considered satisfactory; and further, that in future he is to be strictly governed by Mr. Moore's instructions regarding the conservation of the vegetation of the island, and in the disposal of the seeds and plants therefrom.

It may be considered advisable to prohibit Captain Armstrong from trading in future in seeds or specimens, or from giving the same away in presents, without the consent of the Trustee, Mr. Moore; of course the latter would not refer to the product of his own leased land.

As I have had but a few minutes to prepare this report, and the whole proceedings were so hurried, I trust no further excuse will be necessary for the unofficial manner in which the business has been conducted.

I have, &c.,  
EDMUND FOSBERY,  
Inspector-General of Police.

#### *Minute of Colonial Secretary.*

It would be, I think, only fair to allow Captain Armstrong to see this report.—JOHN R., 6/2/82.  
Captain Armstrong has seen this report.—C.W., 6/2/82.

#### APPENDIX.

MINUTES of Inquiry held on the 3rd February, 1882, by direction of the Colonial Secretary, into certain charges preferred by the Curator of the Botanic Gardens against Captain Armstrong, Resident Magistrate at Lord Howe Island, as disclosed in Mr. Moore's letter, dated 16th January, 1882, and referred to in correspondence attached thereto.

Mr. M'Lean being out of town, the Inspector-General of Police conducts the investigation alone.  
Mr. Chas. Moore, Curator of the Botanic Gardens, states as follows: I have heard my letter of the 6th of January read, and I adhere to the statements therein made; I have nothing to add, and, if necessary, can bring proof to substantiate my statements.

By the Inspector-General: I considered that I had no alternative but to permit Mr. Shepherd to share with me, as I was collecting for a London nurseryman who was my agent; I have reason to be satisfied that Mr. Shepherd got half the seed delivered and no more; I cannot state in the absence of my officer who received the seeds, and whether or not Captain Armstrong's statements of consignments (marked A) is correct, but I can say that the charge of 8s. per bushel is the charge for which the seed can be at present obtained, to which freight and other charges should be added.

Taken before me this 3rd of February, 1882,—  
EDMUND FOSBERY.

CHARLES MOORE.

Captain Armstrong states as follows: I occupy a leasehold from the Government on Lord Howe Island, and I consider I have absolute control on my own property and the right to dispose of the proceeds. The largest portion of the seeds consigned to Mr. Moore came off my own land; considering the expense at which I have been at for labour, I should make no profit whatever according to the rate at which I charged as per account A; I have lost considerably at having to store seeds and plants waiting for freight; I do not understand how King could gather seeds at 8s. per bushel; I purchased seed at 8s. per bushel from King, the seeds remained on my hands for six months when they became rotten and useless; I have consigned seeds and plants to Mr. Creswell at a profit; they were entirely the produce of my own land; I have made presents of seeds and plants to persons in Sydney and elsewhere, but have not traded with any one else except Mr. Creswell; I have never sold off the Government land any plant or seeds whatever; I may have allowed to be taken away from the Government land seeds of the umbrella palm and other plants without payment; I consigned to Mr. Moore seeds and plants which cost me far more than the sum of £30 entrusted to me.

Taken before me this 3rd February, 1882,—  
EDMUND FOSBERY.

RICHD. R. ARMSTRONG.

George

*George Harwood* states as follows: I am the propagator employed in the Botanic Gardens; seeds and plants have been consigned to the Gardens from Lord Howe Island by Captain Armstrong; it was my duty to receive them. (Examination here deferred to enable Mr. Harwood to produce his books. Letter, marked B, from Captain Feb'y. 4th. Armstrong, excusing himself from attending inquiry, read.)

*George Harwood* further examined: I have examined my books, and can now state the quantities of seeds and plants received from Capt. Armstrong; I produce a rough list of quantities received, in all about ten bushels and a half of palm seeds; the cost of collecting should be about 8s. per bushel; the cost of collecting the remainder of the plants and seeds C. might be about £7. Some few shipments have been received since; I cannot say by whom consigned. Taken before me, this 4th of February, 1882,—

EDMUND FOSBERY.

GEORGE HARWOOD.

*Edward King* states: I reside at Lord Howe Island; I have been employed by Mr. Moore to collect seeds and plants on the island; I was to be paid 8s. per bushel for palm-seeds and 7s. per day collecting other specimens; I sold Captain Armstrong, for Mr. Moore, some plants and seeds—35s. I believe for the former and 8s. a bushel for nine bushels of seed; I have no ill-feeling towards Captain Armstrong; he has been in the habit of collecting seeds, including mountain palms, which he cannot get on his own ground, and shipping them to Sydney; I cannot say to whom. I should consider 8s. a bushel a fair price for collecting palms; pandanus seeds are about the same price.

Taken before me, 4th February, 1882,—

EDMUND FOSBERY.

his  
EDWARD + KING.  
mark

*John M'Lachlan* states: I produce letter, dated 24th November, 1880, signed by the master of the "Colleen Dhas," D. to the effect that he had brought from Lord Howe Island, consigned by Captain Armstrong, three cases of plants, two By Mr. Moore. casks of palm-seed, and three boxes of palm-seed, and two bunches of pandanus-seed, and that Mr. Creswell, nurseryman, of George-street, received the whole of the seeds and plants; but Mr. Rose, Captain Armstrong's agent, brought about one bushel of the palm-seed to the Botanic Garden and about two dozen plants out of the above consignment. I also produce copy of instructions given to Captain Armstrong by Mr. Moore. I am aware that an expenditure of £25 and other E. charges were incurred by Mr. Moore in sending an agent specially to Lord Howe Island to meet engagements, in consequence of Captain Armstrong's failure to supply.

Taken before me, this 4th February, 1882,—

EDMUND FOSBERY.

JOHN M'LACHLAN.

A.

[This exhibit which is referred to in No. 5 is missing.]

B.

Captain Armstrong to E. Fosbery, Esq.

Dear Sir,

Sydney, 4 January, 1882.

I feel so thoroughly sick and pressed for time that I must beg of you to excuse my non-attendance at the proposed meeting this morning at 9.30. *If Mr. Moore requires his and Mr. Shepherd's money back or an equivalent in seeds, &c., I will do so*, but only on the conditions that I am not to be troubled any more by orders from them. The vessel is advertised to leave at noon and I have not time to complete my commissions. Trusting you will excuse my hurried note, and that my written statements, &c., &c., will be sufficient to clear such charges,—

I remain, &amp;c.,

RICHD. R. ARMSTRONG.

On looking over my papers I find that Messrs. Shepherd, Moore, and Fitzgerald have been dealing with this man King for years for seeds, plants, &c., and why they should have the monopoly I cannot conceive. I admit that the island is strewn with these seeds and plants, but I consider that others should be allowed to gather rather than let them lie waste and eventually be destroyed by pigs and goats, which are increasing by thousands. This does not in any way affect the timber or forest of the island. I am anxious to open up the development of the island, which is capable of producing largely, but to which however these gentlemen seem to have strong objections. I would be glad if you would read a description of the island which is at present in the hands of the Under-Secretary for Mines, and which will give you an insight of its capabilities.

D.

Schooner "Colleen Dhas," Sydney, November 24, 1880.

I, the undersigned, hereby declare that I brought up from Lord Howe's Island three cases of plants, two casks of palm-seeds, three boxes of palm-seeds, and two bunches of pandanus-seeds, from Captain Armstrong, of Howe's Island; and that Mr. Creswell, nurseryman, of George-street, Sydney, received the whole of the seeds and plants from me, on an order from Mr. Rose, who is Captain Armstrong's overseer on Howe's Island and was a passenger by my vessel.

Witness,—JOHN DUFF.

PETER O'BRIEN,

Master of the "Colleen Dhas."

E.

Memo. for Captain Armstrong:—

Botanic Gardens, Sydney, 22 October, 1880.

To prevent any misunderstanding arising respecting seeds or plants from Lord Howe's Island which may from time to time be sent by you to this establishment, it has been arranged that all such shall be sent direct here addressed to the Director, and be re-distributed to such parties as may require them.

At the present time seeds of all the various palms growing on the island are much wanted, both for the use of this establishment and for the requirements of Mr. Shepherd, Darling Nursery, Newtown, who has agreed to share with Mr. Moore the expense of collecting them.

In addition to the £20 already placed by Mr. Moore in your hands he encloses herein a cheque for £10, making in all £30 received by you from him. This total is to be employed by you in collecting seeds and in paying freight for the same to Sydney and other incidental expenses connected therewith.

It is most desirable that as many ripe seeds as possible should at once be collected and forwarded by the first opportunity to Sydney, and that on any future occasion within the next twelve months where an opportunity occurs of direct communication to Sydney, a further supply as large as can be obtained should be sent here of these palms.

Enclosed is a descriptive list referring to a few plants of certain ferns required, particularly for this garden, which can be readily collected by Edward King, who knows the habitats where they can be found.

CHARLES MOORE.

N.B.—It is particularly requested that the seeds of the hatch palm and of the curly palm should be kept separate and be marked with their names respectively.—CHARLES MOORE.

### Captain Armstrong to The Minister of Public Instruction.

Sir,

21 March, 1881, c/o Messrs. M'Donald, Smith, & Co., Hunter-street, Sydney.

I have the honor to report that I have had an interview (according to your directions) with Captain Neitenstein, of the training-ship "Vernon," and beg to state that the boys named in the margin will (with your permission) be perfectly willing to apprentice themselves to me for the usual term of years as seamen, &c., &c., for service at Lord Howe's Island.

The boys would be of great service to me also as boat's crew.

I have, &c.,

RICHD. R. ARMSTRONG, R.N.,  
Lord Howe Island.

No. 9.

### Captain Neitenstein to The Under-Secretary of Public Instruction.

Sir,

N.S.S. "Vernon," 24 March, 1881.

I have the honor to forward the appended application from Captain R. R. Armstrong, late R.N., who is Resident Magistrate at Lord Howe Island, for six boys from this vessel to be apprenticed to him as seamen.

Joseph Godfrey, 15, ready to leave here 20th March.  
James M'Ginley, 15, ready to leave here 8th April.  
Edw. Holliday, 14 years 6 months, ready to leave here now.  
John Wright, 15, ready to leave here now.  
Adw. McElhone, 16, ready to leave here now.

Captain Armstrong visited me on board and informed me that he had seen Sir John Robertson upon the subject, who had expressed his willingness to allow boys from this institution to go to him, provided any would volunteer.

The five boys named in the margin have all volunteered and are desirous of going with Captain Armstrong to be educated in the profession of seamen, and as they have all, prior to coming here, been addicted to habits of thieving or vagrancy, and will require after leaving the "Vernon" for some time constant and strict supervision to prevent a resumption of their old habits, it would be a good opportunity to place them with Captain Armstrong, who is known to me as a kind but strict disciplinarian, who will exercise over them the watchfulness they require.

They will have been twelve months on board on the dates placed against their respective names.

I have, &c.,

FREDK. W. NEITENSTEIN.

Approved.—JOHN R., 25/3/81.

No. 10.

### Minutes by The Minister of Public Instruction and the Colonial Secretary.

N.S.S. "Vernon"

I understood that Captain Armstrong, Resident Magistrate at Lord Howe's Island, has had apprenticed to him four or five of the "Vernon" boys; I wish to know the names of these lads, and the date when they were handed over to Captain Armstrong. Let me have all the papers relating to Captain Armstrong's application.

F.B.S.,

4/2/82.

Submitted with former papers. The Colonial Secretary, for his information.—F.B.S., 2/3/82.  
The Principal Under-Secretary.—W.W. B.C., 3/3/82. To be returned.

As Dr. Bowie Wilson is about proceeding to Lord Howe's Island under instructions received from the Colonial Secretary, I would suggest that he be requested to inquire into the condition of these lads and ascertain if they have any complaints to make as to their treatment. In the Colony it is usual for the police to visit the boys apprenticed from the "Vernon" and ascertain how they are being treated; so far no report has been received respecting the lads apprenticed to Captain Armstrong, and I think Dr. Wilson might be requested to furnish one.—F.B.S., 25/3/82. (Urgent).

The Principal Under-Secretary.—W.W. B.C., 27/3/82.

In moving for an inquiry into the position and conduct of Captain Armstrong my action was greatly influenced by an observation made by that gentleman to me in the presence of Mr. Walker, the Under-Secretary, and one or two other gentlemen; this observation was in answer to an inquiry of mine as to how he obtained certain seed, &c. His answer was "sending out my own labour." I inquired what he meant by his own labour, to which he rejoined, "Vernon boys and Kanaka boys." It seemed clear to me then that whatever else might or might not be wrong, it would be absolutely necessary to inquire into the position of these boys.—JOHN R., 27/3/82.

No. 11.

### Captain Armstrong to The Colonial Secretary.

Sir,

Lord Howe Island, 3 March, 1882.

I have the honor to refer again to the subject of a petition sent up to you by some of the islanders here, and referring especially to myself.

It will be seen from the enclosed that the whole matter was got up at the instigation of two turbulent members, viz, Messrs. C. E. Ponder and Thos. Nichols, of this community, and that signatures were obtained to it on false pretences.

The

The two leading spirits of this movement have since left the island and will probably trouble it no more. Meantime all are anxious to obey the law and to carry out all measures calculated to the advancement of the island's prospects.

I have, &c.,  
 RICHD. R. ARMSTRONG,  
 Resident Magistrate.

*Minute of the Colonial Secretary.*

If the Colonial Secretary should see fit to refer this to the Hon. J. B. Wilson, there is likely to be an opportunity of sending it by the "India" on Thursday.—11 April, 1882. Approved.—JOHN R. The negotiations opened by the Inspector-General of Police with the master of the "India" as to his calling at Lord Howe Island were not successful. The Hon. J. B. Wilson having now returned to Sydney, these papers might (it is suggested) be referred to him.—19 April, 1882. Forward under B.C. to Dr. Wilson, who has now returned.—C.W., 19/4/82. B.C., The Hon. J. B. Wilson, &c.

[Enclosures.]

Lord Howe Island, 3 March, 1882.

We, the undersigned, having heard that a section of the islanders have forwarded a petition to the Government adverse to Captain Armstrong, hereby declare that, though among the oldest settlers, we have never taken part in the movement, and, on the contrary, express our confidence in every way with Captain Armstrong.

Witness—  
 WM. CLARSON.

Lord Howe Island, 15 February, 1882.

The following is a substance of a statement by the four "Vernon" boys, Edwin Holliday, James M'Ginley, John Wright, and Joseph Godfrey, on Wednesday, the 15th February, to Captain Armstrong, in the presence of Mr. William Clarson, who took notes on the occasion.

They stated, in allusion to their late rebellious conduct, that in whatever they had done they had been encouraged by the support and advice of Messrs. C. E. Ponder, Thos. G. C. Nichols and wife, J. Mosely and wife, and Harry Wilson.

They were invited to the houses of these people and were constantly being asked pumping questions as to Captain Armstrong and his treatment of us boys; they asked us if we got enough to eat, and we said no; they gave us fruit and other things; Mr. Ponder and Thos. Nichols offered to write to Sydney and get our indentures cancelled, and we know that they have written something about us and against Captain Armstrong.

Question 1st: As a matter of truth, do you get enough to eat? Answer: Yes; and we have often gone away from our meals leaving plenty in our plates. We get meat or fish with a plentiful supply of Irish or sweet potatoes (3) three times a day, and always much more than we ever got on board the "Vernon."

Question 2nd: Who encouraged you to go away without leave on the 26th January and other occasions, and to misbehave generally? Answer: Harry Wilson, Mosely, T. Nichols and Ponder; on the 26th January Harry Wilson said it was a public holiday and we ought to have it, and we left in a body and were called back by Mr. Clarson; H. Wilson who was present answered him that it was a shame to make the boys work, and we all went away for the day and late at night.

Question 3rd: What made you boys say you had not enough food? Answer: Ponder and Nichols told us to say so.

Question 4th and answer: In reply to Captain Armstrong, the boy James M'Ginley stated that on the day previous to Andy McElhone's leaving he gave him the Captain's message, "That if he did not attend to his work he would be punished." Andy made no reply, but next morning got up and dressed and went into the bush without any explanation.

The boys fully confirm the Captain's suspicion that they were being used by some of the islanders as a means of annoyance to him, and that they were being thoroughly demoralized by the encouragement they received in disobeying orders; especially was this noticeable in the boys—contrary to express orders—staying out at the settlers' houses late at night.

We, the undersigned, having had the foregoing read over to us and thoroughly explained, desire to sign our names to its being a correct statement in every particular.

We have seldom been punished, but when we have it was what we justly deserved.

Signed and witnessed this day, February 25th, 1882.

EDWIN HOLLIDAY.  
 JAMES MCGINLEY.  
 JOSEPH GODFREY.  
 JOHN WRIGHT.

## Erection of School-house.

No. 12.

Captain Armstrong to The Minister of Public Instruction.

Sir, 8 September, 1880; % Messrs. M'Donald, Smith, & Co., Hunter-street, Sydney.  
*Re* Lord Howe Island.

I have the honor to represent to you that the inhabitants of Lord Howe Island are much in need of a small substantial building which could be used for a general reading-room, school-house, and for religious observances on Sunday.

Prior to my appointment in charge of the island there was a small structure used by them as a church, but this was unfortunately consumed by fire, and now there is no other covered place of meeting than the small school-shed, which is not sufficiently large even for the use of the school.

At a general meeting of the inhabitants, held on the island before I left, I was requested respectfully to ask the Government to grant them a sum of money (say £80) for the provision of a suitable building which they are willing to construct.

I have pleasure in reporting that, under the tuition of the school-master, Mr. Wilson, the children attending the school are progressing most favourably, and that the community in general is orderly and well disposed.

Trusting, Sir, you will be pleased to approve of this application,—

I am, &c.,

RICHD. R. ARMSTRONG,  
 Resident Magistrate.

There is a vested site of 1 acre at Lord Howe's Island.—C.O., 17/9/80.

		£62 9 6

Captain Armstrong to write officially.—U.S.

October 1880.

PROPOSED disbursement of balance after amount (£62 9s. 6d.) being paid to Mr. Chadwick for framework, &c., of school and reading-room for Lord Howe Island:—

To shipping, landing, conveying timber, and erecting ..... £17 10 6

Voucher passed.—H.A.S., 26/10/80.

Memo. as to building.—The sum of £80 was granted in 1880 towards providing a building at Lord Howe Island. R. Chadwick's account amounted to £62 9s. 6d. This was for the framework, materials, &c., also for two iron tanks. The balance (£17 10s. 6d.) was to be disbursed by Capt. Armstrong in defraying cost of shipping, landing, and erecting the structure. Vouchers for the disposal of this balance have not, however, yet been submitted.—G.M., 11/1/82.

Request Capt. Armstrong to furnish accounts of expenditure already incurred by him in connection with above.—G.M., 11/1/82. Urgent. Capt. Armstrong written to, 16/1/82.

No. 14.

Captain Armstrong to The Minister of Public Instruction.

Sir, Lord Howe Island, 20 December, 1881.

I beg to enclose the refusal of Mr. R. C. Rose to accept the appointment of schoolmaster of this island, reasons for which he states in his letter.

On the completion of the skeleton of the building, I withheld the timber for the partition for the present, as I consider the schoolroom would be made too small had it been erected, and I hold the timber in my

my possession until it is further decided what to do with it. I have also taken possession of the tanks until the school is in use, as otherwise should I have left them on the ground without being in the school-master's charge they would be seriously damaged.

I have had to give directions for the construction of a table and stools for the use of the pupils, accounts for which I enclose, and trust you will see the necessity of allowing.

I regret to say that I anticipate much trouble with some of the most turbulent spirits here, in non-attendance of their children to school, more especially one Thos. Nichols' family, who, though promising and well behaved, are the most backward children on the island, and all the parents seem to care for is to get them at the work of the farm, &c. They strongly object to any interference of Government, and are very obstinate as to the advantages to be derived therefrom.

I have, &c.,  
RICHD. R. ARMSTRONG.

### No. 17.

#### Minute Paper for the Executive Council.

Lord Howe Island Inquiry, Colonial Secretary's Office, Sydney, 27 March, 1882.

Complaints having been made against Captain Armstrong, the Resident Magistrate, &c., &c., &c., at Lord Howe Island, and the inhabitants of that island having in a communication addressed to the Colonial Secretary urged his removal, it is deemed advisable that some steps should be taken to obtain a full and fair inquiry into his conduct.

That being so, it is desirable that some competent person should be sent to the island to hold such inquiry, and the Honorable J. B. Wilson (a Magistrate of the Territory, and for many years a Minister of the Crown) having intimated his willingness to undertake it, I advise that he be requested to proceed there and hold full investigation into all the complaints of the various Departments of the Government with which Captain Armstrong is connected, and report thereupon.

I also recommend that Mr. Wilson be furnished with all the papers in the various cases, and that the Government steamer "Thetis" be placed at his disposal for the purpose of conveying him to the island. Also that in the meanwhile Captain Armstrong be suspended from all his appointments in connection with this Government, and that he be supplied with copies of all charges against him, and called upon to furnish to Mr. Wilson full explanation of his whole conduct as an officer of this Government.

I also recommend that the opportunity be taken to have a full and comprehensive report made of all matters connected with the island that may appear to him to require attention, and to add if possible his opinion of the prospects and resources of the island.

JOHN ROBERTSON.

## No. 18.

## Minute by the Executive Council.

At the Colonial Secretary's Office, Sydney, 28 March, 1882.

PRESENT :—

His Excellency the Governor,  
 The Honorable the Acting Colonial Secretary and Secretary for Lands,  
 The Honorable the Colonial Treasurer,  
 The Honorable the Secretary for Works,  
 The Honorable the Minister of Justice,  
 and  
 The Honorable the Postmaster-General.

Minute No. 16,  
28th March, 1882

HIS Excellency the Governor lays before the Council a minute paper by the Honorable the Colonial Secretary, on the subject of Lord Howe Island.

It appears that for some time past complaints have been made against Captain Armstrong, R.N., the Resident Magistrate, by several of the Government Departments, Sydney, and the inhabitants of the island have in a communication to the Colonial Secretary urged his removal.

Under the circumstances, the Acting Colonial Secretary is of opinion that steps should be taken to obtain a full and fair inquiry into Captain Armstrong's conduct, and therefore recommends that the Honorable John Bowie Wilson (a Magistrate of the Territory, and for many years a Minister of the Crown), who has signified his willingness to undertake the duty, be appointed to proceed to the island and hold full investigation into all the complaints of the various Departments of the Government with which Captain Armstrong is connected, and report thereupon; also that a comprehensive report be made of all matters connected with the island that may appear to require mention, and to report generally upon the prospects and resources of the island.

(A copy of the minute of the Honorable the Colonial Secretary is hereto appended.)

The Council having carefully considered the subject, approve of the course recommended, and accordingly advise that the Honorable John Bowie Wilson be appointed to hold a full inquiry into the conduct of Captain Armstrong, R.N., Resident Magistrate at Lord Howe Island, and to report upon the prospects and resources of the said island.

ALEX. C. BUDGE,

Clerk of the Council.

## No. 19.

## The Clerk of the Executive Council to Captain Armstrong.

Sir,

Executive Council Office, Sydney, 28 March, 1882.

I am directed to inform you that His Excellency the Governor, under the advice of the Executive Council, has approved of your suspension from all your appointments under the Government, pending the result of an inquiry to be held by the Honorable J. Bowie Wilson into certain charges made against you, and generally into your official conduct.

The charges referred to may be summarized as under :—

*Botanic Gardens.*

Mr. Moore charges Captain Armstrong with removing plants and seeds from the island, and with failing to supply him with seeds to the full value of money (£30) placed in his hands for that purpose.

*Department of Public Instruction.*

Report that Captain Armstrong has not accounted for expenditure of a sum of £17 10s. 6d., handed over to him for the freight, erection, &c., of a school building.

*Inhabitants.*

Requesting Captain Armstrong's removal.

*Post Office.*

Delay in delivering of mails at Lord Howe Island on the 28th October, 1881.

I am also to inform you that the several papers relating to the complaints above specified will be open to your perusal, and to request that you will furnish to Mr. Wilson full explanation of your conduct as an officer of the Government on all matters which he may find it necessary to investigate.

I have, &amp;c.,

ALEX. C. BUDGE,

Clerk of the Council.

P.S.—This letter will be handed to you by the Honorable J. B. Wilson or his secretary.

## No. 20.

## The Principal Under-Secretary to The Hon. J. Bowie Wilson.

Sir,

Colonial Secretary's Office, Sydney, 31 March, 1882.

I am directed by the Colonial Secretary to inform you that His Excellency the Governor, with the advice of the Executive Council, has been pleased to appoint you to proceed to Lord Howe Island, and hold full investigation into all the complaints against Captain Armstrong, the Resident Magistrate, &c., &c., &c., at that island, made by the various Departments of the Government with which that officer is connected, and report thereon.

2. I am desired to transmit to you herewith the papers enumerated in the accompanying schedule.

3.

3. I am also desired to invite attention to the concluding paragraph of the Executive Council minute, by which you will perceive that it is desired that a full and comprehensive report be made of all matters connected with the island that may appear to you to require attention, with the addition, if possible, of your opinion of the prospect and resources of the island.

I have, &c.,  
CRITCHETT WALKER.

[*Appendices.*]

Charges made against Captain Armstrong, of Lord Howe Island.

*Botanic Gardens.*

Mr. Moore charges Captain Armstrong with removing plants and seeds from the island, and with failing to supply him with seeds to the full value of money (£30) placed in his hands for that purpose.

*Department of Public Instruction.*

Report that Captain Armstrong has not accounted for expenditure of sum of £17 10s. 6d. handed over to him for the freight, erection, &c., of a school building.

*Inhabitants.*

Requesting removal, but not assigning any reason for it.

*Post Office.*

Delay in delivery of mails at Lord Howe Island on the 28th October, 1881.

Captain Armstrong's appointments, &c., &c., &c.

*Resident Magistrate.*

On the 1st August, 1879, Captain Armstrong was appointed Resident Magistrate at Lord Howe Island, with salary at rate of £180 per annum, special powers being granted under Petty Sessions Act.

*Forest Ranger.*

Appointment made 1st September, 1878, by Secretary for Mines; salary, £10 per month. He was authorized to prosecute trespassers upon Crown Lands, and instructed to render assistance to a surveyor then about to conduct a survey; and in addition to taking steps to prevent the destruction or removal of indigenous trees, &c., to guard against the destruction of animals. It was intimated to Captain Armstrong that it was hoped that he would endeavour to repress evil influences, and forward to the best of his ability any measures undertaken to increase the moral and material advancement of the community. No complaints in Department of Mines.

*Coroner.*

Magisterial inquiries are held under the special powers granted under Petty Sessions Act. For each inquiry held a fee of £1 is paid. No complaints in Department of Justice.

*Postmaster.*

Appointed 1st June, 1881, Receiving Office-keeper; salary, £5 per annum, and 3 per cent. commission on sale of postage-stamps. One complaint—delay in delivery of mails at the island.

*Registrar of Births, &c.*

Appointed 1st September, 1878; fee of 3s. for each entry. No complaints in the Department of Registrar-General.

*"Vernon" boys.*

Authority was given on 26th March, 1881, for the apprenticing to Captain Armstrong of five inmates of the N.S.S. "Vernon," who had expressed their willingness to be apprenticed to him as seamen and as a boat's crew.

*Lease of 100 acres.*

A lease of 100 acres of land was granted to Captain Armstrong, at an annual rental of 5s., for the purpose of working fibre on the usual terms.

Papers also relating to applications for other leases.

No. 21.

Mr. J. Bowie Wilson to The Colonial Secretary.

Sir,

Lord Howe Island, 17 April, 1882.

I have the honor herewith to hand in the following reports, viz. :—

1. On the charges made against Capt. Armstrong, Resident Magistrate at Lord Howe Island.
2. Mr. Moore's charges against Capt. Armstrong.
3. On state of Government boats.
4. On Moorings.
5. On "Vernon" boys.
6. Inquiry into destruction by fire of Capt. Armstrong's kitchen and Government Store.

The report on the present state and prospects of the island will be handed in as soon as I get the several reports of the scientific gentlemen who have accompanied me, as they are to be appended thereto.

I have, &c.,  
J. BOWIE WILSON, J.P.,  
Commissioner.

[*Enclosures.*]

Report on charges made against Capt. Armstrong, Resident Magistrate at Lord Howe Island.

Sir,

Lord Howe Island, 17 April, 1882.

In accordance with the instructions contained in your letter of 31st March, 1882, directing me to proceed to Lord Howe Island, and hold a full investigation into all the complaints against Capt. Armstrong, the Resident Magistrate at that island, I left Sydney on the forenoon of the 1st April, in the Government steamer "Thetis," and anchored at the island on the morning of Tuesday, the 4th. Shortly after anchoring the "Thetis" was boarded by Capt. Armstrong, to whom I at once handed your letter suspending him from all the Government offices which he held. We landed and formed a camp on the island on that day, and it was fortunate that we did so, as on Wednesday a severe south-westerly gale came on, accompanied by torrents of rain, compelling the captain of the steamer to put to sea, where he was kept for several days.

Harry Wilson,  
A. J. Mosely,  
Mrs. Mosely,  
J. Robbins,  
Edward King,  
Perry Johnson,  
Mrs. Johnson,  
Campbell  
Stevens, and  
Charles Williams

2. On Wednesday, the 5th, I assembled nearly all the inhabitants, and having read to them my letter of instructions I explained to them the object the Government had in directing this inquiry, and also the manner in which I proposed to conduct it; and with the view of giving them time for reflection I appointed the following day to take evidence as to the reasons they had for petitioning the Government to remove Capt. Armstrong from his office of Resident Magistrate, but owing to the bad weather the inquiry had to be postponed until Saturday, the 8th. On that day I examined the witnesses named in the margin, who had all signed the petition for Capt. Armstrong's removal, but T. G. C. Nichols being absent from the island, and his wife having been confined the previous day of course could not be examined; but Mrs. Nichols sent to me by her son some documentary evidence, particularly an account of Capt. Armstrong's, against her husband, hereto attached, and marked "A"; also a letter from Capt. Armstrong addressed to herself attached hereto, and marked "B." William Nichols was confined to his bed from sickness, and Mrs. Andrews, William Brown, and Mrs. Field being advanced in years I did not think it necessary to examine. The evidence of the above witnesses is hereto attached. Capt. Armstrong was present, and took notes of the evidence given.

3. The charges made against Capt. Armstrong may be summarized as follows:—

1. Allowing his Kanaka boys to wantonly destroy the pigs on the island, on which the inhabitants depend at times for their subsistence.
  2. The neglecting to prosecute the charge made against one of his Kanakas, named Tommy, for a criminal assault on a girl of tender years, of which evidence is hereto attached, marked "I."
  3. Giving undue preference in the distribution of Government work.
  4. Attempting to monopolize the trade of the island.
  5. The selling of intoxicating drink to the inhabitants, or in other words illegal grog-selling.
4. I may state that, with regard to these charges, I have not been guided entirely by the evidence taken, but also by observation and general inquiries, and that at times when the evidence given would not be taken down in writing, and have arrived at the following conclusions with regard to each charge:—

1. There is strong presumptive proof of the truth of this, although the evidence is not conclusive.
2. This charge appears to be well substantiated; for although the father of the girl has given Captain Armstrong a letter to the effect that he was drunk at the time, and did not now believe the charge, it must be borne in mind that the writer was in Captain Armstrong's employment and an inmate of his house, and it conveys to me a strong impression that it is an attempt to lush the matter up. The statement of the two women who were called in to see the girl is hereto attached.
3. I have not been able to obtain satisfactory evidence as to this charge.
4. The evidence I have been able to collect bears out this charge, namely, the attempt of Captain Armstrong to monopolize the trade of the island; but even if this charge is too strongly put, the very fact of his opening a store and exporting on his own account the natural products of the island, shows that he has placed himself in direct antagonism with the inhabitants instead of having stimulated their exertions, and also underrates his want of appreciation of the dignity and responsibilities of his office as paid Resident Magistrate.
5. This is the most serious charge—sly grog-selling,—and the evidence of the truth of the charge is overwhelming. Three of Captain Armstrong's accounts are attached hereto, namely, to Captain Nichols, John Robbins, and H. Wilson, wherein they are severally charged for intoxicating drink. Exhibits marked A, F, and G.

Sly grog-selling.

5. Having disposed of the charges made by the petitioners, there is one matter that I cannot possibly overlook, which is as follows:—On the petition being sent to Captain Armstrong "for his remarks," he returns the petition with a letter, in which he states that there is "no charge preferred against him"; but he also "encloses a memo. of the characters of said petitioners," and in this memo., S2/209, he slanders and blackens the character of every individual signing the petition. Captain Armstrong headed this memo., "official, private, and confidential," forgetting that he was not the servant of an arbitrary despot, but the paid representative of a free and enlightened Government. I have taken great pains to investigate the truth of the various statements in said "memo.," and have come to the conclusion that the whole of the statements are either gross exaggerations or absolutely untrue. Captain Armstrong in the presence of Mr. Taylor admitted to me that the most serious charge in the memo. was made on the statement of a man who he said he knew to be an unprincipled scoundrel. He states, with regard to Captain Nichols, that he "drinks heavily when he has the opportunity," and yet Captain Armstrong sells to this very man sixty bottles of wine and twelve bottles of brandy, as shown in account marked "A"; a more unmanly attempt to stab in the dark and ruin the characters of the inhabitants cannot be conceived.

6. With regard to the second charge against Captain Armstrong, viz., his not having taken steps to prosecute the Kanaka for the criminal assault (see evidence herewith, and marked J), I would have initiated proceedings had I not learned that not only the father of the child but also the principal witness were both absent from the island, and as twelve months have elapsed I thought it better not to do so; but as several of the women on the island have stated that they can no longer go about the island with the same freedom as formerly, being afraid of the Kanakas, I would recommend that one of H.M. ships of war be requested to call at the island and demand Captain Armstrong's license to hold them, and as I am informed he has no such license, to take the necessary steps to have them removed.

7. After careful consideration of the whole case I am decidedly of opinion that a Resident Magistrate is not required at Lord Howe Island, and that the inhabitants generally do not require one, and considering the serious nature of the charges against Captain Armstrong, I recommend that his suspension be confirmed.

8. The question naturally arises are the inhabitants to be left entirely without supervision of any kind? Decidedly not, for considering the absence of all regular communication with Sydney, and the inability of the settlers disposing of their produce, I would strongly recommend that the Government send a Stipendiary Magistrate in a Government steamer every three months to the island. The Sydney Stipendiary Magistrates might take the trip in rotation, and the expense incurred would be far more than covered by the salary at present paid to the Resident Magistrate, and a great boon and stimulus to exertion would be conferred on the inhabitants by having an opportunity afforded them of sending their produce to market, a reasonable charge being made for passage and freight.

Copy herewith,  
marked H.

Marked K.

9. Seeing the impropriety of leaving the island without even the semblance of protection, I have sworn in two special constables, and given them each a letter of instructions as to the duties they are required to perform. I have appointed them as guardians of all Government property received from Captain Armstrong—an inventory of which is attached—and also to act as forest rangers. For performing these duties I recommend that they receive the sum of £30 each per annum—Captain Armstrong received £120 for nominally performing the same duties—and I see no reason to doubt that these men will perform the duties required in a satisfactory manner. The names of these men are Campbell Stevens and John Robbins. They were nominated to the office by the unanimous vote of the leaseholders, and I am satisfied that the selections are judicious.

Marked J.

10. I have thought it advisable to confine this report to the charges made by the residents against Captain Armstrong, and make supplementary reports as to Mr. Moore's charges against Captain Armstrong, the "Vernon" boys, Public School, moorings, the State and Prospects of the Island, &c., which I will have the honor of laying before you. Captain Armstrong's remarks on the evidence taken appended hereto. It is much to be regretted that the wet weather and the protracted severe south-westerly gales have caused so much delay in prosecuting this inquiry, at least a week having been lost from the above reasons, but I assure you that every diligence has been used to have it completed with as little delay as possible.

I cannot close this report without acknowledging the valuable assistance I have received from Mr. Taylor, who has performed the duties of Secretary with intelligence and zeal. The whole of his time has been devoted to the work.

I have, &c.,

J. BOWIE WILSON, J.P.,  
Commissioner.

A.

Lord Howe Island, 1st January, 1881.

B.

Captain Armstrong to Mrs. T. Nicholls.

Lord Howe Island, 29 March, 1882.

Madam,

Your note of this morning's date\* reached me about 11 a.m. I wish you would be good enough to get some one to write for you, as I am not supposed to understand such ungrammatical composition and writing as you send me; however, I gather that you complain of some of my cattle being on ground far away from that allotted to you, and which I recognize as Government reserve. And I now give you notice (on behalf of the Government) that I will consider you a trespasser if you cultivate or occupy such land.

Your communications I will forward to the Government for their edification.

I do not see the necessity of calling to-day (as I had otherwise purposed doing), before receiving your *originals* of I am, &c.,

RICHD. R. ARMSTRONG, R.M.

\* See bottom of page 24.

C.

C.

Mrs. M. Nichols to Captain Armstrong.

Sir,

Lord Howe Island, 30 March, 1882.

In answer to your letter of the 29th, I beg to ask a few questions. Will you be kind enough to inform me what you mean by complaining I sent you a protest, not a complaint; and if the ground I sent the protest about is far away from that allotted to me, it is still farther from that allotted to you. Also please inform me where the Government reserve is, so that I may not trespass as you threaten in your letter. Also be good enough to tell who applied to the Government for the land allotted to me; I see by the lease they have sent it according to application.

Now, sir, can you tell me why, on the 15th or 16th of last month, one of your black labourers was found by my children standing at the corner of my kitchen, evidently listening. It was after dark; and after I retired to bed, upon my children informing me of the circumstance, I got up and asked him what he was doing there; he made answer that you sent him to look for a runaway Vernon boy. Now I think if you wanted to know if your boy was at my place there was another way to find out, and not send a black labourer about my house after dark, particularly after the offence and outrage to decency that was committed or was attempted upon a child under ten years old during your absence. I was requested by the child's father to hear her statement, which I did, and was disgusted. Also please tell me why the work my husband done on behalf of the Government and under your direction has not been paid or you have not accounted for it. I believe my husband made you his agent in the matter, for I must send my bill in to the Government the first opportunity.

Now, sir, I have yet another question to ask. I heard there was a letter for me and addressed to me in the mail that came by schooner "Water Witch"; and if so, why it has not been sent to me?

Now, sir, as I will not be writing to you again, or I may not see you in person, I may as well state here what I have to say.—On the night of the 16th of February, after having thought matters over, I let one of my dogs off the chain, thinking she would bark if any one came around my house. On the second day of this month of March the said dog died in great agony, which led to think of having her opened, which I did, and found in her stomach besides the food I had given her a small piece of raw goat meat about 2 inches long, and cut on three sides, which I believe caused her death.

I remain, &c.,  
MARY NICHOLS.

D.

Captain Armstrong to Messrs. Mosely, Nichols, and Robbin.

Gentlemen,

Lord Howe Island, 20 December, 1881.

In reply to your note, this moment (4-30 p.m.) to hand, asking for the use of the schoolroom wherein to hold a meeting this evening, I have to inform you—as I think you must be already aware—that at the urgent request of some of the settlers, and for the convenience of the inhabitants generally, I have granted the use of the unoccupied schoolroom to the charterers of the schooner "Levuka" for a few days as a place wherein to expose the articles they have for the inspection of the islanders; and as the goods are all opened out, under these circumstances you will of course see that your request has reached me too late for anything to be done this evening; and I suggest that you make other arrangements or postpone your proposed meeting till Thursday, when I will endeavour to have the room ready. Should you decide on the latter course, be good enough to state the object of the meeting.

I am, &c.,  
RICHD. R. ARMSTRONG,  
Resident Magistrate.

E.

Captain Armstrong to Mrs. T. Nichols.

Madam,

Lord Howe Island, 14 February, 1882.

In consequence of the repeated absence without leave of the five Vernon boys placed under my charge by the Government, I have hereby to request that no encouragement or shelter be given them unless by special permission, otherwise I shall have to maintain discipline among these boys by prosecuting such persons as may harbour or encourage them in their absence from this station.

Yours respectfully,  
RICHD. R. ARMSTRONG, R.M.

F.

Mr. John Robbins Dr. to Captain R. R. Armstrong.

Duties to be performed at Lord Howe Island by Special Constables John Robbins and Campbell Stevens.

1. To take charge of and protect all Government property, such as boats, &c., on the island.
2. To board vessels, receive and deliver mails.
3. To protect and preserve from destruction as far as possible all indigenous plants and trees, and prevent the exportation of plants except under the express authority of the Government.
4. To protect any trees that may be planted by the Government.
5. To prevent as far as circumstances will allow any trespass on the island by unauthorized persons, or any attempt to effect a permanent settlement on the island by persons not holding a special lease or authority.
6. To observe generally the conduct of all persons residing on or landing on the island, and take notice of any overt acts committed on the island, with a view of reporting such to a Magistrate or other officer of the Government who may periodically visit the island.
7. To prevent as far as lies in their power the landing of intoxicating drink on the island for sale or barter, and in case of such drink being sold or bartered to collect such proof as will lead to a conviction of the offender.
8. It must be borne in mind that all the property belonging to the Government on the island, such as boats, &c., have been provided for the benefit of the inhabitants generally and not for the use only of Government officials.
9. The Government will be recommended to provide adequate remuneration for the services performed.
10. Messrs. Robbins and Stevens are requested to take an inventory of all the property delivered over to them by Captain Armstrong and hand me a copy thereof.

Lord Howe Island, 6th April, 1882.

J. BOWIE WILSON, J.P.,  
Commissioner.

## I.

*Nathan C. Thompson* : I recollect April, 1881, when Mr. Rose accused a Kanaka boy of assaulting with intent one of his daughters ; my son-in-law, Mr. Wilson, was sent for, and in the morning informed me of the occurrence ; I saw Mr. Rose standing in the door and Mr. Nichols outside ; Mr. Rose took me into the kitchen and informed me that an assault had been committed ; I saw that Mr. Rose and Nichols were groggy ; I also saw the child, who did not appear excited and answered several questions I put to her ; the girl stated to me that Tommy had been playing with her and hurt her near her private parts ; I then examined the child and could see no sign of her having been hurt ; I then questioned the Kanaka, who was under restraint, and he said he had done no harm, as he was only playing with the child ; Captain Nicholls was much excited, and appeared to be jealous of my interference in attempting to make peace, and wanted Mr. Rose to fight him ; a consultation was then held as to what was to be done with the native ; I offered to take him, but as Mr. Stevens informed me that he should not be allowed to work I declined ; Captain Nichols offered to take him and chain him up in his store ; Mr. Rose then said there was nothing in it and the Kanaka could go back to work ; this took place from one hour to one hour and a half after my arrival ; we then dispersed ; on remarking I saw no signs of hurts on the girl I meant internal as well as external hurts ; no one proposed the child should be examined by any of the matrons on the island whilst I was present ; the day on the evening of which the Kanaka was accused of committing the assault Mr. Rose and the Kanaka with several other of the inhabitants boarded the "City of Melbourne" steamer and received a bottle of gin for the natives to drink, but what quantity they drank I cannot tell ; all those who went off had grog on board the steamer ; Mr. King brought a bottle of spirits, of which we all partook at Mr. Robbins' ; we had two glasses of spirits round ; while we were at Robbins' the natives took the boat and came round to Captain Armstrong's ; when we left Robbins' we were not drunk ; while we were at Robbins' it is said this assault was said to have taken place ; after leaving Robbins' I remained at Captain Armstrong's for about half an hour and then went home a little before sundown ; I heard nothing of this charge before going home.

Witness,—

J. BOWIE WILSON, J.P.

N. C. THOMPSON.

Lord Howe Island, 14th April, 1882.

Mrs. Thomas Nichols states, with reference to a criminal assault upon Mr. Rose's daughter, a child of nine years of age, that on a night in the month of April, 1881, she was awoke by Mr. Rose knocking violently at her door and calling for Captain Nichols ; on being admitted he asked for a revolver and for assistance to secure a Kanaka named Tommy ; Captain Nichols refused to give him the revolver, but went with Mrs. Nichols and their eldest son to Captain Armstrong's house, where Mr. Rose resided—Mrs. Rose and Captain Armstrong being absent from the island ; I requested that Mrs. Robbins might be sent for, that she might hear the child's statement along with me ; we did not examine the child, but simply heard her statement to the effect that the Kanaka Tommy had thrown her down and committed an assault with intent ; the child also stated that this was not the first time that the same Kanaka had so assaulted her ; the child was very much excited and crying.

Mr. Rose, the father of the child, stated in the presence of several of the inhabitants that he had to take his children into his own room for protection.

Several of the inhabitants state they are afraid to move about the island after dark from fear of these Kanakas.

Witness—

J. BOWIE WILSON.

MARY NICHOLS.

Lord Howe Island, 14 April, 1882.

Mrs. John Robbins states : I have heard the evidence of Mrs. Thomas Nichols, and as far as it affects myself is correct ; I have heard Mr. Rose state, and I believe he has so stated to others, that he was obliged to take the children out with him on Sundays, as he was afraid to leave them in the house on account of the Kanakas.

1 package rhubarb pills, one parcel borax.		1 part bottle myrrh aloes.

## Post Office.

2 large leather bags, two receipt books, one box letters, two dies, one letter-balance.

## Law Books.

2 Government Gazette (79), nine Public Stat., with Index.

CAMPBELL STEVENS,  
JOHN ROBBINS.

### Inquiry into Management, &c., of Lord Howe Island.

Lord Howe Island, 8 April, 1882.

THE HON. J. BOWIE WILSON, Commissioner.

Capt. R. R. Armstrong present.

Examination of Albert William Stanley Nichols, eldest son of T. G. C. Nichols—father at sea, mother unable to attend through confinement.

Produced a memorandum written and signed by his father, and witnessed by J. Robbins, relative to the causes of complaint against Capt. Armstrong, which are to the following effect:—

That Capt. Armstrong being a Resident Magistrate, sent here on his own representations to protect the interests of the islanders, does trade, keeping a private store, selling wines, spirits, and other commodities; also trading with vessels touching here, to the detriment of the settlers on the island generally.

2. That a criminal offence and an outrage to decency has been committed on Capt. Armstrong's premises. The father of the girl informed the settlers of the island of the matter, who held an investigation, and decided to await Capt. Armstrong's return. No steps were taken by him to investigate the case publicly, and the offender is still at large working for Capt. Armstrong.

3. That Capt. Armstrong, having sent away large quantities of palm-seeds and plants from off the island in different vessels to Auckland and Sydney, and led me to believe that I could not send away any plants or palm-seeds except a few as presents to friends, and for these palm-seeds and plants Capt. Armstrong told me get a pass from him, which I did, stating that they were to be sent on board as coming off my own land.

4. That Capt. Armstrong caused to be cleared a breakwind close to the boundary of land held on lease, thus breaking a law passed by the settlers and respected by them. He also hands in an account marked A from Capt. Armstrong to Capt. Nichols for general merchandise and large quantities of wines and spirits; also a letter signed Mary Nichols, marked C, relative to the criminal assault by Capt. Armstrong's servant, and complaining that an account due to Capt. Nichols by Capt. Armstrong was not paid, and that the account would be sent to the Government on the first opportunity, and also complaining that their dog had been poisoned; also a letter from Capt. Armstrong to Mrs. Nichols, marked B, criticising the style of her letter, and stating he is not supposed to understand such ungrammatical composition and writing; also that certain cattle of Capt. Armstrong's, of which complaint had been made of their straying, he states were on Government reserve. Letter marked D, from Capt. Armstrong to Messrs. Mosely, Nichols & Robbins, declining to allow the inhabitants the use of the schoolhouse for a public meeting upon a date specified, as he had granted the use of the schoolroom to the charterers of the schooner "Levuka" as a place to expose the articles they had for the inspection of the islanders, and requesting them to make other arrangements or postpone the proposed meeting. Letter B, from Capt. Armstrong to Mrs. Nichols, requesting that no encouragement or shelter be given the five Vernon boys unless by special permission, otherwise he will have to maintain discipline amongst these boys by prosecuting such persons as may harbour or encourage them.

*Allan Isaac Mosely* states that he has resided on the island since 1843, having previously been chief officer of a whaler; signed a petition for himself and wife for removal of Captain Armstrong on the following grounds:—that living adjoining Captain Armstrong his fowls were shot and his dogs poisoned; his fowls were shot by Mr. Clarsou, who at the time was employed by Captain Armstrong during the absence of the latter in Sydney; and I believe one or two were shot by one of Captain Armstrong's Kanaka boys named "Tom."

2. That when Captain Armstrong's cattle trespassed in my garden, corn and potato patches, and complaining of the same to Captain Armstrong he took no notice of such complaint.

3. *Mrs. Mosely* states that Captain Armstrong showed her a box which he stated contained poison to destroy her fowls, and she asked if the Government gave him poison to destroy her property; I know nothing against the character or previous history of William Nichols; I know Nathan Thompson is not aware he has experienced great annoyance from the settlers; I believe there have been trifling differences between him and Captain Nichols; I know Mrs. Field—have never known her to drink heavily; she takes a glass when she can get it, when she becomes abusive if thwarted; I know Charles Williams; I am not aware he is cantankerous, dishonest, or quarrelsome; I know Mrs. Nichols; it is not the case she is a vindictive woman and causes mischief among the other women of the island; do not believe there was any impropriety between Mrs. Nichols and Captain Amora; they were very hard up for tea and sugar when Captain Armstrong arrived; have received no stores or property from him except what has been paid for; I know J. Robbins; sometimes he is hot tempered.

A. J. MOSELY & WIFE.

J. BOWIE WILSON, Witness.

*Charles Williams* states: Have been eleven years on the island; was master and mate of a whaler before coming to the island; signed the petition for the removal of Captain Armstrong on the following grounds:—requested Captain Armstrong to settle a boundary dispute between myself and Campbell Stevens which he neglected doing; has no other complaint; have worked for Captain Armstrong and receive payment in stores; have never bought wine or brandy from Captain Armstrong; the work performed by me was assisting in making a corn-house.

his  
CHARLES × WILLIAMS.  
mark

J. BOWIE WILSON, J.P.

*John Robbins*: Have resided two years on the island and married to Mrs. Mooney, the widow of a previous settler on the island; signed the petition for the removal of Captain Armstrong on the following grounds:—that his (Captain Armstrong's) cattle trespassed on his ground several times and injured his cow; on one occasion I complained to Captain Armstrong, and on another to Mr. Rose, who I believe to have been Captain Armstrong's superintendent; have not been annoyed since Captain Armstrong examined injuries to the cow; I have to complain to the grog-selling on the island by Captain Armstrong; I myself have bought wine and brandy from Captain Armstrong, and produce an account dated 15th February, 1881, in which I am charged with five bottles of brandy and five bottles of wine; the brandy and wine so bought was not for medicinal purposes; at one time there were nine or ten casks of wine landed on the island for Captain Armstrong from Sydney; the only complaint I am aware the settlers make is to the grog-selling.

2. I have also to complain of the conduct of Captain Armstrong with regard to a criminal assault on a child of tender years committed by one of his Kanaka boys named Tom, in not investigating the case in a proper manner; the child was a daughter of Mr. Rose's, at that time a superintendent of Captain Armstrong's; Mr. Rose told me of the assault; the females on the island are afraid to go about on account of the Kanakas.

3. I also have to complain of Captain Armstrong's Kanakas wantonly destroying wild pigs, one of our sources of livelihood.

4. I have to complain of Captain Armstrong monopolizing the trade of seeds and plants on the island, leading the settlers to suppose they had no right themselves to do so; I have assisted Edward King to collect seeds for the Government, and have been paid at the rate of 7s. per diem.

I have known Mr. Rose—acting for Captain Armstrong—to refuse the boat to settlers to carry nuts and plants on board a vessel for the Government; I have not known Captain Armstrong personally to refuse the use of the boat.

JOHN ROBBINS.

*Edward King*, who has been seventeen years on the island, states as follows:—I am one of the parties who signed the petition for the removal of Captain Armstrong, and did so on the following grounds:—

1. I complained to Captain Armstrong of his Kanakas shooting a pig and leaving it in the bush; when he asked what proof I had, I replied, his Kanakas had been shooting in the bush the day previous, and that none of the settlers would do such a thing; and that Captain Armstrong took no notice of the complaint.

2. Having been requested by Mr. Moore, of the Botanic Gardens, to report to him as to what seeds were collected or trees injured, I have done so on several occasions, and have seen Captain Armstrong's Kanaka boys collecting seeds and plants, and believe that they destroyed several trees owing to their not having proper appliances for collecting the seeds. I have seen eleven trees so destroyed.

I have been collecting seeds and plants for several years for Mr. Moore, of the Botanic Gardens, and, on the authority of Mr. Moore, collected seeds for Mr. Shepherd; I receive 8s. a bushel for collecting seeds of all kinds, including pandanus cones; it takes from six to eight pandanus cones to make a bushel of seed; I receive 2s. a dozen for collecting plants, but am now engaged at 7s. per diem; can generally collect 1½ bushel of seed and from six to seven dozen plants per day; for tree-ferns of over a foot I get from 2s. to 3s. each; I have known Mr. Creswell, seed merchant, of Sydney, come here and collect seeds and plants; I believe he was assisted by Captain Armstrong's servants; the eleven trees previously alluded to as having been destroyed were destroyed when Mr. Creswell was on the island; Mr. Nathan Thompson has collected seeds for Mr. Creswell; I saw his son collecting them; I sometimes get some of the settlers to assist me in collecting seeds, and pay them 7s. per day; I never applied to Captain Armstrong for the use of the Government boat, but to Mr. Rose, Captain Armstrong's manager, who refused the use of the boat, who said he had a letter from Captain Armstrong to refuse me the use of the boat to ship plants and seeds for Mr. Moore on board the "Gunga"; I had to hire a boat from Captain Nichols, and pay a crew for shipping these plants and seeds; I have never bought any wines or spirits from Captain Armstrong; I received a bottle of wine from Capt. Armstrong, without charge, when I was ill.

his  
EDWARD + KING.  
mark.

Witness—J. BOWIE WILSON.

*Perry Johnson*, twenty-four years a resident of the island, a seaman previous to residence on island, states as follows:—The reason why I signed petition for removal of Captain Armstrong is that on applying to captain of an American whaler for purchase of stores and provisions, he informed me that he could not let me have them, as he had to supply Captain Armstrong; he objected generally to Captain Armstrong trading, as owing to the number of servants he (Captain Armstrong) had he could supply vessels cheaper than the settlers could; that on their shipping goods on board the "Policeman" they could not get their bills of lading signed, owing to the captain of the vessel being drunk, and I believe he obtained the drink from Captain Armstrong; although the owner of the vessel acknowledged the receipt of the goods, we have received no return for them; have purchased stores, including one bottle of rum, bottle of brandy, and one bottle of wine, from Captain Armstrong, but not for medicinal purposes, consequently we have no other complaint against Captain Armstrong but as above stated.

Mrs. Johnson, wife of abovenamed Perry Johnson, agrees with this statement.

his  
PERRY + JOHNSON.  
mark

J. BOWIE WILSON, witness.

*Harry Wilson* has resided nine years on the island, seaman on board a whaler before residence on island, signed petition for removal of Captain Armstrong on following grounds:—

I am living with Mr. Mosely, whose land adjoins Captain Armstrong's, and have to complain of the annoyance given us by Captain Armstrong by shooting the fowls, and throwing poison down to the fowls; cannot say if many of the fowls died.

2. I object to Captain Armstrong's Kanaka boys destroying the pigs; I am aware of my own knowledge of their doing so; I have bought one gallon of wine from Captain Armstrong's place; I hand in account from Captain Armstrong, marked "G," in which a gallon of wine is entered as being sold to me on 23rd August, 1880; there are also numerous entries for goods amounting to £6 15s. 8½d.

HARRY WILSON.

J. BOWIE WILSON, witness.

*Campbell Stevens* has resided off and on twenty years on the island; has signed petition for removal on the following grounds; before doing so I wish to state that I personally have no grounds of complaint against Captain Armstrong, so far as regards his magisterial capacity.

1. I object to Captain Armstrong on account of his unfair distribution of Government work.

2. There being a number of pigs on the island, which the settlers looked upon as their joint property, which Captain Armstrong has allowed his Kanakas to shoot, in many cases leaving the carcasses in the bush; this was not done by the settlers, and could only have been done by Captain Armstrong's men.

3. I object to the introduction and sale of intoxicating drinks by Captain Armstrong. I have never bought any intoxicating drink from Captain Armstrong, but I have seen its deleterious effects on the settlers, and on assisting to unload the "Calleen Dhas" one of the crew showed me nine hogsheads of wine which was landed for Captain Armstrong.

I was chief officer of the "Australasian Packet," of which Captain Nichols was commander, owned by a Mr. Bell, of Sydney. This vessel was lost on the New Hebrides group; Captain Nichols was a heavy drinker, but never when he had any duty to attend to. I believe after the wreck he went to Norfolk Island from Noumea in command of a small vessel. I never heard he was suffering from *delirium tremens* on his return to the island. I have known Captain Nichols from my youth, and he has not been looked upon as a lazy troublesome fellow. I have never heard him accused of making false reports of the inhabitants.

CAMPBELL STEVENS.

J. BOWIE WILSON, witness.

## No. 2.

### Mr. Moore's charges against Captain Armstrong.

I HAVE taken a great deal of pains to arrive at the truth concerning this matter, and acting on a statement furnished me by Mr. Duff (who is at present on the island), of the Botanic Gardens, of the quantities of seeds and plants received by Mr. Moore from Captain Armstrong, marked as "A B" hereto attached, and collecting all the evidence I could, I have arrived at the conclusion that Captain Armstrong would be liberally paid for all the seeds and plants sent to Mr. Moore with £15 whereas the amount received by him was £30.

It is an undoubted fact that seeds and palms, of all kinds can be collected on the island at 8s. per bushel, and plants at 2s. per dozen; and Mr. Nathan Thompson, one of the residents, informed me that Captain Armstrong had offered his son 2s. 6d. per bushel for seeds, whereas Captain Armstrong has charged Mr. Moore 30s. per bushel for thatch and curly seed, and 40s. per bushel for pandanus nuts.

It can be distinctly proved that very little indeed of the seed sent, if any, and few or none of the plants were obtained from Capt. Armstrong's household, but were gathered and collected over the island generally.

It has been proved to my satisfaction that Captain Armstrong has led the inhabitants to believe that he alone was authorized to collect and export seeds and plants, and through his manager, Mr. Rose, refused to allow Edward King the use of the Government boat to put on board seeds and plants he had been ordered to collect for Mr. Moore, of the Botanic Gardens, while at the same time he was exporting large quantities for Sydney seedsmen, particularly Mr. Creswell.

In

In these and many other matters more particularly alluded to in my report on the inhabitants' petition for his removal from office, Captain Armstrong has shown that he does not in any way comprehend the responsibilities attached to his office of Resident Magistrate, and the relations that should exist between himself and the residents over whom he is placed, and whose interests it was his bounden duty to protect, but has appeared to think that he was justified in looking after his own pecuniary interests at their expense.

I therefore beg respectfully to recommend that Captain Armstrong be called upon to refund the sum of £15 overcharged, in accordance with the offer contained in his letter to the Inspector-General of Police, dated 4 January, 1882.—reg. No. 82-1,097.

Lord Howe Island, 10 April, 1882.

J. BOWIE WILSON,  
Commissioner.

#### AB.

Plants and seeds received in the Botanic Gardens, Sydney, from Captain Armstrong of Howe Island.

- 1880, November—1 bushel palm-seeds.  
2 dozen fern plants.  
1880, December, 28—4 bushels palm-seeds.  
6 pandanus cones.  
2 Hemitecia Moorei.  
15 pandanus plants.  
5 dozen fern plants.  
1881, March 26—1½ bushels palm-seeds.

NOTE—The following seeds and plants have been received from Howe Island, but we cannot tell by whom they were consigned:—

- 1881, August 24—2 cases and 1 sack of fern plants, in all about 70 plants.  
1 case of dried plant specimens.  
1 case of palm-tree specimens.  
1 sack pandanus seeds, about 1 bushel.  
1881, September 27—380 palm-plants.  
1882, January, 4—2½ bushels palm-seeds.

Government Boats, Lord Howe Island.

In conjunction with Capt. Hatton, of the "Thetis," I examined the Government boats in the possession of Capt. Armstrong, and have to report as follows:—

No. 1 boat is a centre-board, useless, and was not at any time a suitable boat for the island; she is damaged beyond repair.

No. 2 boat is a whale-boat (centre-board); there are several places in her bottom stove in and patched with tin, evidently been allowed to bump against the rocks, the centre-board is also out of repair. She requires re-painting and repairing, at a probable cost of £8. I have paid £2 to have immediate repairs executed.

No. 3 boat is a skiff dingy, in fair condition, with one rollock, requires repainting.

Lord Howe Island, 15 April, 1882.

J. BOWIE WILSON, J.P.,  
Commissioner.

#### No. 4.

Moorings—Lord Howe Island.

Sir,

Having consulted Capt. Hatton and several of the residents of the island, I have arrived at the conclusion that the moorings laid down outside of the reef on the west side of the island are of very little use. The anchorage is good, but can only be availed of when the wind is easterly; and whenever the wind blows strongly from the west all vessels must either go to sea or seek shelter on the eastern side of the island, and it would be impossible for a vessel to remain at the moorings when a strong westerly wind is blowing.

We have had practical experience of this, as on the present occasion the "Thetis" has been obliged to go to sea.

However, as considerable expense has been incurred in providing and laying the moorings, and as the buoy has broken adrift and is now in a safe position on the beach, the shackle having slipped or broken, I would recommend that on the next trip of a Government steamer to the island that a new shackle be provided, and grapnels sent to allow the chain to be recovered and the buoy refixed.

There are two awkward rocks in the north-west passage through the reef which might be easily removed by a few blasts of dynamite. The residents are willing to do the work gratuitously provided the Government supply the dynamite, which I am of opinion should be done.

Lord Howe Island, 14 April, 1882.

J. BOWIE WILSON,  
Commissioner.

#### No. 5.

"Vernon" Boys—Lord Howe Island.

Capt. Armstrong having brought his five "Vernon" boys apprenticed to him, and stated that he was not in a position to instruct them in seamanship, and that owing to his being frequently absent from the island he was unable to exercise proper control and supervision over them, and the boys offering no objection, the Court cancelled the indentures and ordered the boys to be returned to the "Vernon."

I would recommend that in future no "Vernon" boys be apprenticed to any person on the island, as it is not in the interest of these boys that they should be placed under the arbitrary control of any individual unrestrained by public opinion.

Lord Howe Island,  
14 April, 1882.

J. BOWIE WILSON,  
Commissioner.

The Honorable J. Bowie Wilson to The Colonial Secretary.

Sir,

With regard to the papers forwarded to me this day, being a letter from Capt. Armstrong, dated 3rd March, 1882, and accompanying documents, I do not think it is necessary for me to make any remarks thereon, as the matter is fully entered into in my report and the documents appended thereto.

I would only like to remark that, with respect to the statements made and signed by four of the "Vernon" boys before Capt. Armstrong, that it is directly opposed to the statements made by the boys to me, and that I believe they were induced to make this statement by their dread of the lash.

The boys are however now on board the "Vernon," and can be examined free from fear, if this should be thought necessary, but as their indentures are cancelled I think this matter might be allowed to drop.

I have, &c.,

J. BOWIE WILSON.

Magisterial inquiry into destruction by fire this morning of Capt. Armstrong's two kitchens and Government store, 15th April, 1882.

Mrs. Rose stated, who is at present residing with Capt. Armstrong:—Went to bed about a quarter to 9 o'clock, and being disturbed by my baby I had been awake about one hour, I saw a light through the roof and immediately afterwards the window was illuminated by the reflection of fire; this was about 1 o'clock in the morning; I immediately jumped out of bed and cried out some one has set fire to the store; I then heard Capt. Armstrong jump out of bed; I heard no one about the place during the time I was awake.

Witness—J. BOWIE WILSON, J.P.

NELLIE ROSE.

Capt.

*Capt. R. R. Armstrong* states:—That I send the Vernon and Kanaka boys to school every other night; I am in the habit of not going to bed until they return; the Vernon boys returned in a body about a quarter past 9 o'clock; I asked Andrew M'Elhone where he had been during the day, he said he had been to Mosely's and Mrs. Thomas Nichols's, they then went up to their kitchen; I asked them why they did not go to bed, and told them to do so at once; they said they had not had their tea; I asked why they had not had their tea, and they replied they had not time before going to school; after walking on the beach I returned and found one fire out and a few embers alight in the other, which I banked with some sand; shortly afterwards I smelt a strong smell of mutton-bird fat burning, I went round but could not see any fire; I then retired to bed; about 1 o'clock I awoke and heard Mrs. Rose calling out that the store was on fire; I immediately ran out of the house and cried out fire, and cooeyed to the boys; I saw the store on fire, and the corner of the kitchen just catching fire; I saw one of the Vernon boys coming towards the store; on their coming from night-school I threatened to report Andrew M'Elhone to Dr. Wilson and get him punished for disobedience; we all set to work to put the fire out and cut away the covered way between the house and the kitchen; the Vernon boys slept in a hut about 20 yards, and the Kanaka boys about 300 yards from the store; in the fire I lost a fibre devil and a quantity of stores, the kitchen and dairy utensils, and tools; there was a small quantity of stationery and a few small articles, together with three rifles the property of the Government, destroyed, the greater part of the Government property having been removed to the boat-house the day previous; the whole of my property is insured.

Witness—J. BOWIE WILSON, J.P.

RICHD. R. ARMSTRONG.

*Eva Rose*, daughter of Mrs. Rose, aged 9½ years, being examined, states:—My sister Violet, aged 8 years, who sleeps with me, and I were awake and saw a light near the store which light moved about as if being carried by some one, the light went round the store twice and appeared to stop at the chimney of the kitchen; I saw nothing more of it and after trying to go to sleep was aroused by Capt. Armstrong calling out the store is on fire.

Witness—J. BOWIE WILSON.

EVA ROSE.

There is no evidence to show how the fire originated, and there does not appear to be any justification for the suspicion attempted to be cast on the "Vernon" boys. I did not consider it necessary to examine them, as should their evidence be required by the Insurance Company they can be examined in Sydney.

J. BOWIE WILSON, J.P.

## No. 22.

### Report on Public School, Lord Howe Island.

Sir,

Sydney, 25 April, 1882.

In accordance with instructions, I called on Captain Armstrong for the vouchers relative to the expenditure of £17 10s. 6d., being the balance of the sum of £80, handed to him for the erection of a Public School on Lord Howe Island. Captain Armstrong handed me the letter addressed to the Honorable the Minister for Education, herewith and marked "A," showing an expenditure of £12 17s. 6d., and gave me in cash £4 13s., a cheque for which sum is hereto attached.

The vouchers for the £12 17s. 6d. consist of a receipted account of N. C. Thompson's for £6 2s. 6d., which appears to be correct, but that of R. C. Rose for £6 15s. is not to me satisfactory, as will be seen by the statements of Messrs. Stevens, Robbins, and King, hereto attached, marked "B."

On speaking to Captain Armstrong about Mr. Rose's account and telling him that I had been informed that Mr. Rose was not on the island when the school was erected, he acknowledged that such was the case, but said the charge was for the labour of the Kanaka boys. Now these Kanakas are Captain Armstrong's servants, and it appears strange that while the other inhabitants of the island worked gratuitously in the erection of the school-house, that Captain Armstrong should allow a charge to be made for the labour of his own servants—even if they did do the work—seeing that they also were to derive a benefit from its erection by being taught therein.

I visited the schoolhouse and found it a wooden frame building, unlined, 30 feet x 12 feet and 8 feet high, without partition, as although a partition was provided it is not now in existence and must have been used for some other purpose. It is situated in a pretty dense scrub, and I consider that a small sum of money should be expended in providing a partition, painting the house and clearing the scrub surrounding it. The site appears to be a suitable one.

At present there is no teacher, and it is urgently required that a competent master and mistress be, with as little delay as possible, sent to the island.

A teacher of very high educational attainments is not necessary, but what is of far greater importance a person of high moral character, discretion and good temper should be selected. A mistress is of even more importance than a master, as the most of the children are young and the majority of them girls.

The mistress sent to the island should be supplied with calicoes and prints, to be sold to the inhabitants at cost price, as material for teaching the girls useful needle-work.

On examining the school register I found that before the holidays the number on the roll was twenty-nine and the daily average attendance twenty.

I do not think that the Honorable the Minister for Education should adhere strictly in such a case as this to the rule laid down for the payment of teacher, but that a liberal salary should be given. The teacher and his wife can obtain comfortable lodgings with Mrs. Field, widow of the late Captain Field.

The children on Lord Howe Island well deserve the care and attention of the Government, for in no locality could a more intelligent, respectful, and well-behaved set of children be found. The simplicity and frankness of their manner are remarkable, which I attribute in a great measure to their isolated position and entire freedom from the contaminating influence of the cities and busy thoroughfares of the world.

I have, &c.,

J. BOWIE WILSON,  
Commissioner.

[Enclosures.]

A.

Captain Armstrong to The Minister for Public Instruction.

Sir,

Lord Howe Island, 11 April, 1882.

I beg herewith to forward particulars of expenditure of part account £17 10s. 6d., balance *re* schoolhouse of this island, and balance not expended, in cash.

I must inform you that the inhabitants neglected erecting the building for over twelve months after its arrival here, and it was only at last carried on on my threatening to return it to the Government. This will in a measure account for particulars

particulars of expenditure of balance not being sent in before, and on my last visit to Sydney I had not all particulars with me. The freight of the timber was, I believe, included in the general charge of charter; therefore, there is no extra charge except as per enclosed, which I hand over to the Honorable J. Bowie Wilson for safe delivery to your Department.

The tank and partition I also turn over, for which I will get receipts.

I am, &c.,

RICHD. R. ARMSTRONG.

Report of evidence *re* charge by Mr. R. C. Rose.

Erection of Public School, Lord Howe Island.

THE following evidence has been collected relative to a charge by Mr. R. C. Rose, amounting to £6 15s., for assisting in the erection of Public School:—

*Mr. Campbell Stevens* states that the timber for the Public School arrived at the island per "Colleen Dhas," and the material was landed by the inhabitants; Mr. Rose did not assist in the work, nor did he assist in any way in conveying the timber to the school-house, nor in erecting and clearing the site for schoolhouse, being at the time of the erection of the schoolhouse absent from the island, and only returning on the day of the schoolhouse being finished, viz., on the 28th October, 1881.

J. BOWIE WILSON, J.P., Commissioner,  
15th April, 1882.

CAMPBELL STEVENS.

*John Robbins* states that, after having heard the evidence of Mr. Campbell Stevens as to erection of schoolhouse at Lord Howe Island, corroborates the said statement in every particular.

J. BOWIE WILSON, J.P., Commissioner,  
15th April, 1882.

JOHN ROBBINS.

*Edward King* also certifies to the correctness in every particular of Mr. Campbell Stevens' statement; and further, that he, with the assistance of Mr. W. Nichols, drew the timber from the beach to the site for the schoolhouse. The inhabitants did the work gratuitously, not expecting or receiving any reward.

J. BOWIE WILSON, J.P., Commissioner,  
15th April, 1882.

his  
mark.

No. 23.

Captain Armstrong to Mr. J. Bowie Wilson.

Sir,

I beg to hand in answers or replies, &c., to statements made by various individuals of this island before you on the 8th ultimo. Trusting you will give them a fair and unprejudiced perusal and consideration,—

Lord Howe Island, 11 April, 1882.

I have, &c.,

RICHD. R. ARMSTRONG.

[Enclosures.]

J.

[This is also Exhibit J, referred to on pp. 14 and 17.]

Replies to the statements and answers to the charges made by various individuals to the Honorable J. Bowie Wilson, Commissioner, &c., relative to Capt. Armstrong, on April 8th, 1882.

1st. T. G. Nichols' written statement as to trading with the islanders and selling wines and spirits to them:—

(a.) Answer.—Finding on my first arrival on the island the people were frequently and actually at that time without many of the necessaries of life or the means of purchasing them, I, at their solicitation, determined on having a few absolutely necessary articles in food and clothing brought down (as at that time communication at Lord Howe Island was so very irregular and at long intervals, on occasion six and eight months on a stretch), and kept in stock, so that in any case of emergency they might draw on me for supplies, paying me as best they could, either in their own produce or in any labour I might require at their hands. I have from time to time and until about a year ago allowed several to have stores in this way, but seeing very little chance

chance of their ever being able to pay in any way for the articles they had, I abandoned the idea of getting more goods. The total value of articles disposed to the islanders would amount to about £250, and of this I have only received in cash about £10; in produce another portion, while a large amount is still owing, and that by the very people who make it a grievance that I kept a store for their use, there being no other place on the island where any supplies whatever could be procured. I particularly call attention to the fact that I was solicited by the islanders to supply them with stores. I may further state that as a rule, much of the produce obtained as payment was frequently of little or no value, in the absence of any chance of getting the same to market.

(b.) As to my retailing intoxicating beverages the facts will speak for themselves. Several of the islanders have on many occasions represented the condition of their health as requiring a light stimulus in the shape of more generous drink than water. For some time I used to give a little light colonial wine or whatever spirits I had, but I found I could not afford to do this as a rule, and I then let them know that whatever they had must be paid for in some way, either in produce or labour. (The wines and spirits were my own private stock, and never purchased with the idea of selling.) I also did this in order not to foster a pauper spirit in the community. I let it be widely known that only in case of sickness or necessity could I supply these articles, and I have always used my best judgment in every case as to whether the necessity existed. I submit that being on the island without medical aid or advice, I felt that the health of the community was practically in my keeping. It has often been my duty to decline altogether to supply anything; and some of the very complainants have from time to time been refused by me on the ground of their being unable to make a proper use of such. T. Nichols, the complainant in this case, is an instance; he was frequently in the habit of distilling a coarse fiery spirit from bananas, previous to and since my arrival, for which I had to correct him. I may here solemnly state that I have never known a single instance where any excess has followed from wine, &c., supplied by me, neither have I been called upon nor seen the necessity during my administration to take any public action to check the use of drink, except in the instance of this one party, T. Nichols; and I may certainly state that the idea of making any profit from the sale of drink was never entertained by me for a single moment.

(c.) The charge of neglecting to investigate into the matter of an alleged outrage on the island is utterly false, as on my return to the island the whole subject was investigated and found to be false, as reported by me to your Government at the time.

(d.) As to seeds and plants I have always admitted the right of the settlers to collect seeds, but as to plants I have discouraged in sending away of such, except to a very limited extent;—when according to my written instructions by Mr. Moore I have demanded a statement as to the nature and a list of all plants sent off the island. In accordance with this reading of my instructions I have collected seeds and plants from my own land, giving the preference to those growing on land intended for cultivation. These have been for private disposal and as presents, it being really a matter of choice whether they were left for the wild pigs to devour or be utilized in the way I have suggested.

(e.) As to destroying breakwind. This statement is altogether denied, and has been previously reported on by me to the Honorable the Minister of Mines, and I believe is only brought up again here in consequence of my having to prohibit the encroachments of complainant by clearing and occupying land illegally, and interfering with the rights of other settlers.

(f.) The other items of complaints by the wife of Nichols are but repetitions of the foregoing matters.

(g.) As to account due to complainant not being paid, this account is one of a pound or two for labour, &c., performed in Government work, and at the time I was last in Sydney had not been passed for payment. I may add here that I have paid the rent to the Government for this family's holdings for some years, which is still to my credit.

(h.) As to poisoning the dog, I know nothing whatever of the matter beyond Mrs. Nichols's letter (attached with others) informing me of the fact; her eldest son (aged eighteen years) denies that the dog was poisoned at all, and states, in his belief, the dog died of old age. I have dogs of my own always loose, and nothing has happened to them. It is scarcely likely that I should go, or authorize any one else to go, to throw poisoned meat to other people's dogs. The accusation is all of a piece with the other malignant features of these charges. At the present time this family is indebted to me for the sum of £20 for clothing, &c., also cash lent.

(i.) As to my suggesting Mrs. Nichols should get assistance in inditing her letters, I thought that, as it was likely such letters would be made public, it was due to her that she should have her letters free from blunders in diction and orthography; and at the time I was under great annoyance at the receipt of several most abusive and improper epistles from the same person.

(j.) As to cattle straying to damage of complainant's holding, I may state that my two bullocks, cow and calf are systematically tethered, and at the time referred to were tethered at a long distance from any habitation or cultivation, on a piece of cleared land belonging to an absentee of some years, but which, as in several instances, has been taken possession of by the Nichols, without any legal right, and under the protest of others of the islanders.

(k.) As to not granting the school for public meeting, this charge is altogether unfounded and unjust. On the arrival of the schooner "Leruka," last December, the schoolhouse not being in use at the time, I was requested by the islanders to allow its use for the opening out of the stores brought for sale to the people, there being no other building available. After 4 o'clock one afternoon I received a note from two or three others requesting the use of the schoolroom for that same evening. I at once replied that it was quite impossible to comply for that evening, as the charterers of the "Leruka" had over £100 worth of stock opened out all over the room, and of course would be unable to clear out and re-arrange their stock in the short time allowed.

(l.) As to my caution relative to "Vernon" boys, I found that several of the islanders were encouraging the boys to stay out late at night contrary to my rules, and I found such was destroying discipline and encouraging insubordination among the boys; more especially as they (the people) had all signed a petition to the Commanding Officer of H.M.S. "Alacrity" objecting to the landing of the said boys; the Nichols and Robbins' withdrawing their children from the school in consequence of these boys having been landed against their express wish (although the boys were not attending the school). And yet, in spite of all this, I find that during my last absence in Sydney they had encouraged them at their houses at all hours and incited them to hold meetings, causing much insubordination and neglect of their duties. I had therefore to notify all that only by express permission could I allow them to go to the islanders' houses.

#### Statement of Mr. Mosely and wife.

(a.) These people, on my arrival in 1879 were in a state of absolute destitution, and on many occasions I gave them flour, tea, sugar, fish, meat, and other things without charge. For these I have never received a single penny; and for other supplies since I have taken produce, much of which decayed when in my possession.

#### Shooting their fowls and poisoning dog.

(b.) I know nothing whatever of the dog, but as to the fowls I have repeatedly had to complain of the destruction caused by the semi-wild birds professed to be owned by Mosely. He suggested that I should shoot all found in my garden, and I agreed with him then that I would do so during the seed-time, when they were most destructive, and that I would pay him a shilling each for every bird killed. This agreement has been faithfully observed by me, as my credit account will show, and has never till now been objected to by Mosely. Altogether not a dozen fowls have been killed during the three years I have had the garden.

(c.) As to cattle straying, it is quite true that on one occasion one of my bullocks broke loose, and no damage was done or claimed by Mosely to have been done.

The fourth clause of charges I deny altogether and defy the slightest proof. The examination of Mosely as to general character of the islanders could, of course, elicit nothing like the truth. The whole of the details given in my account to the Government cannot only be substantiated by many people but are general topics of every-day conversation on the island, and have come before me. This particular witness, Mosely, has been repeatedly caught taking pumpkins, potatoes, implements from my gardens and premises, and has been privately reprimanded by me, as I could not act publicly in prosecuting him for the offence in my case.

Since my return from Sydney last February, he has flatly denied being a party to the petition sent for my removal, or that he understood the nature of the document he signed. I have forwarded a written statement (signed by him) to that effect to the Government.

#### Mr. C. Williams.

(a.) This man also denies having any knowledge of the nature of the petition he was got to attach his mark to (and this was also sent to the Government); he states that Captain Armstrong did not adjudicate upon and settle a dispute between Stevens and himself when applied to. Now, as a matter of fact, this affair was duly inquired into and settled, as the enclosed memorandum will show.

Mr.

## Mr. John Robbins.

(a.) The wine and spirits referred to by Robbins represent the total quantity had during two years; they were had on the occasions of his wife suffering from a long attack of rheumatic fever, and during a very severe and dangerous confinement, when stimulants were considered absolutely essential.

(b.) As to my having brought nine (9) wine casks of wine by one vessel, as a matter of fact several of these were vinegar, for pickling purposes.

(c.) As to families being afraid to go about on account of my three Kanaka labourers, the statement is altogether untrue, as these boys are great favourites with most of the islanders, and are justly deemed most exemplary and industrious, and altogether inoffensive. I can safely affirm that there are very many of the islanders about who would testify to all this.

(d.) As to the destruction of pigs—in the destruction of these I am simply carrying out my definite instructions, as they are known to be most damaging to the indigenous plants and flora of the island. These pigs, although no longer numerous on the cultivated land, abound in thousands on the mountains, and make occasional raids on the crops at certain seasons of the year.

(e.) As to boat, I have never refused or given instructions to refuse the use of the boat, but have repeatedly made it known that the islanders could use it on any occasion when their own boats were not suitable, always stipulating as to its being properly manned, as I took the responsibility of the safe keeping of the boat.

## E. King's statement.

(a.) Some months ago this man came to me with a complaint as to a wild pig being shot and left in the bush, and accusing my men of having done it. He could not produce the slightest proof, and all my men denied the charge. I considered at the time it was probably a pig that had been worried by dogs, as at that time several dogs belonging to the islanders had been left behind and lost in the bush for several days together, whereas at that time my men had no dogs whatever. I therefore consider the charge malicious and frivolous.

(b.) As to seeds and plants. King states that he believes, but is quite unable to offer the slightest proof, or to state any one instance or occasion on which I, or those in my employment, have done damage to any tree or plant. If such trees were found destroyed, they would probably be by the islanders taking timber and palm stems for building purposes.

(c.) I may state that one of the causes of the annoyance felt by this man is my having, in compliance with Mr. Moore's instructions, requesting him to give a list of plants and seeds taken by him from the island. This witness has on several occasions taken away seeds, &c., for private nurserymen in Sydney, notably for Mr. Shepherd.

(d.) It will be noticed by this man's admission, I have on occasions of illness given him wine and other medicines without charge.

## Perry Johnson's statement.

(a.) The statement as to my interfering with his getting supplies from any vessel visiting this port is utterly untrue. On one occasion I got a supply of clothing for my boys; but this charge is too absurd to be taken notice of.

(b.) This charge is also ridiculous and absurd. I have never traded with any vessels whatever, with the exception of supply of clothing above mentioned.

(c.) As to the statement of his being unable to get bills of lading, owing to the drunkenness of the captain of the ship, that is no concern of mine. I believe the man was drinking, but he certainly did not get spirits from me or at my place; they had supplies of spirits on board. The owner of the ship I am aware got into financial difficulties, which is, I suppose, the reason of no account sales being sent to Johnson; his transaction, as I afterwards found out, being about two or three pounds.

(d.) As to wine and spirits. During the three years past he has, as medical necessities, had a bottle of rum, &c., he speaks of in his evidence.

## H. Wilson's evidence.

(a.) The whole of this man's statements are untrue; he is supposed to be a servant of Mosely, and has no lease or title to occupy land. He has always been a troublesome character, and on several occasions has openly abetted insubordination in those employed by me, and has openly threatened to do his best to get me removed.

(b.) As to the destruction of pigs, my previous answer to this charge will reply to this man also. He with others of the islanders go once or twice a week to get these pigs for food, just as my own men do.

## Mr. Stevens' complaint.

(a.) This person says that I have not given to him a fair share of Government work. The work which he refers to has been such as required the trained skill of a carpenter or shipwright, neither of which he understands, and it was also within my knowledge that he had neither tools or material for the execution of such work; but he complains that I should at least have paid him the compliment of offering him the work to do. As to Stevens' statement that Nichols used to be a heavy drinker, I can only refer to the statements of other of the islanders and the generally known habits of Nichols when drink is available.

RICHD. R. ARMSTRONG.

## Settlers, Lord Howe Island, to Captain Armstrong.

Sir,

Lord Howe Island, 20 December, 1881.

We, the undersigned settlers on Lord Howe Island, respectfully request the use of the schoolroom for a public meeting to be held there to-night at 7 p.m., as we understand from you it was for this purpose as well as schoolhouse.

We have, &c.,

A. T. MOSELY.  
G. C. NICHOLS.  
JOHN ROBBINS.

## Captain Armstrong to Messrs. Mosely, Robbins, and Nichols.

Sirs,

Lord Howe Island, 20 December, 1881.

In reply to your note, this moment (4:30 p.m.) to hand asking for the use of the schoolroom wherein to hold a meeting this evening, I have to inform you—as I think you must be already aware—that at the urgent request of several of the settlers, and for the convenience of the inhabitants generally, I have granted the use of the unoccupied schoolroom to the charterers of the schooner "Levuka" for a few days as a place wherein to expose the articles they have for the inspection of the islanders; and as the goods are all opened out, under these circumstances you can of course see that your request has reached me too late for anything to be done this evening, and I suggest that you make other arrangements or postpone your proposed meeting till Thursday, when I will endeavour to have the room ready. Should you decide on the latter course, be good enough to state the object of the meeting.

I am, &c.,

RICHD. R. ARMSTRONG,  
R.N.

## Mary Nichols to Captain Armstrong.

Sir,

Lord Howe's Island, 29 March, 1882.

This morning again I find your cattle tethered on the piece of ground I wrote to you about yesterday. Now I think one protest is quite enough; and if you do not remove them by 12 o'clock to-day I will call a meeting of the people of the island and have it settled by them, for I see you are making it a point to try and annoy me.

MARY NICHOLS.

Mrs.

Mrs. Mary Nichols to Captain Armstrong.

Sir,

Lord Howe Island, 28 March, 1882.

I beg to protest against you allowing your cattle to be tethered at the lower end of the church paddock on the north side of the surveyed ground. When Mr. Berry surveyed the ground on the south side, my husband told him about the mulberry tree being ours, also the garden it belongs to, and it having been sent down from the Sydney Botanic Gardens. The answer Mr. Berry made was that he would not anywhere near the tree or the garden the tree belong to. Now this morning I find one of your cattle tethered to the branches of the said tree; will you send and have them removed as soon as possible, for I have pumpkins planted in the garden.

I remain, &c.,

MARY NICHOLS.

When I send the original to the Government for their edification, I will take your advice and get some one to write me a copy of this and the letter you sent with the above document to Captain Spurling.

I remain, &c.,

MARY NICHOLS.

Mrs. Mary Nichols to Captain Armstrong.

Sir,

Lord Howe Island, 30 March, 1882.

In answer to your letter of the 29th, I beg to ask a few questions. Will you be kind enough to inform me what you mean by complaining. I sent you a protest, not a complaint. And if the ground I sent the protest about is far away from that allotted to me, it is still farther from that allotted to you. Also please inform me where the Government Reserve is, so that I may not trespass as you threaten in your letter. Also be good enough to tell me who applied to the Government for the land allotted to me. I see by the lease they have sent it according to application.

Now, sir, can you tell me why on the 15th or 16th of last month one of your black labourers was found by my children standing at the corner of my kitchen evidently listening, it was after dark and after I had retired to bed. Upon my children informing me of the circumstance I got up and asked him what he was doing. He made answer that you sent him to look for a runaway "Vernon" boy. Now I think if you wanted to know if your boy was at my place there was another way to find out, and not send a black labourer about my house, after dark particularly. After the offence and outrage to decency that was committed, or was attempted, upon a child under ten years old during your absence, I was requested by the child's father to hear her statement, which I did and was disgusted.

Also please tell me why the work my husband done on behalf of the Government and under your direction has not been paid, or you have not accounted for it. I believe my husband made you his agent in the matter, for I must send my bill in to the Government the first opportunity.

Now I have yet another question to ask. I heard there was a letter for me and addressed to me in the mail that came by schooner "Water Witch," and if so why has it not been sent to me.

Now, sir, as I will not be writing to you again, or may not see in person, I may as well state here what I have to say. On the night of the 16th of February, after having thought matters over, I let one of my dogs off the chain, thinking she would bark if any one came around my house. On the second day of this month (March) the said dog died in great agony, which led me to think of having her opened, which I did, and found in her stomach, besides the food I had given her, a small piece of raw goat-meat about 2 inches long and cut on three sides, which I believe caused her death.

I remain, &c.,

MARY NICHOLS.

Dear Madam,

Lord Howe Island, 16 January, 1882.

Will you be kind enough to inform me if you were in my garden, and at the mulberry tree known as Spurling's any time yesterday. Why I ask is because the footmarks came from south and went back that way. This is not the first, second, or third time that I have seen footmarks around my trees, and the fruit taken. I think the least people might do is to ask if they wanted the fruit. It is a little too bad for me to pay a lease and when I come to take the fruit find some one has been there before me. If you will send an answer you will oblige.

Yours, &c.,

MARY NICHOLS.

Mrs. Nellie Rose to The Resident Magistrate, Lord Howe Island.

Dear Sir,

Lord Howe Island, 19 February, 1882.

I enclose you a most insulting letter I received during your and my husband's absence from Mrs. T. Nichols, implying that I had been *stealing* fruit from her garden. I need not tell you that I have treated the letter with contempt, but I show it you that you may see the vindictive spirit of the woman, as it could only have been done for insolence, as she could not possibly suspect me of such a thing.

I remain, &c.,

NELLIE ROSE.

T. G. C. Nichols to Captain Armstrong.

My dear Captain Armstrong,

Lord Howe Island, 21 September, 1881.

Kindly let the bearer have a bottle of wine for Mr. Brown, as Mrs. Johnstone will take charge of it and give it to him occasionally with egg, &c. With respects,—

Yours truly, &c.,

T. G. C. NICHOLS.

T. B. Wilson to Captain Armstrong.

Dear Captain Armstrong,

19 May, 1881.

Please let the bearer have for me two bottles of wine. We are all nearly drowned here and miserable. Good-bye dear sir; I believe we are off this evening.

I am, &c.,

T. B. WILSON.

T. B. Wilson to Captain Armstrong.

Dear Captain Armstrong,

Lord Howe Island, 2 January, 1881.

Mr. Thompson has requested me to ask you to be kind enough, as he is very low-spirited, to let him have a bottle of brandy. Also, for myself, a piece of salt beef, say 10 or 12 lbs.

I am, &c.,

T. B. WILSON.

T. B. Wilson to Captain Armstrong.

Dear Captain Armstrong,

Lord Howe Island, 21 July, 1881.

I am sorry to inform you that Thompson is again ill with the same complaint as he had during my absence. On the occasion of the inquiry at your house Mrs. Rose made him a glass of wine hot which did him good, and he thinks that possibly the same may relieve him now, so if you would let bearer have two bottles of wine for Thompson you would oblige him.

I am, &c.,

T. B. WILSON.

Mr. John Bell, Sydney, to Captain Armstrong.

[True Copy from Jno. Bell, Sydney, re T. G. C. Nichols.]

Dear Sir,

18 Park-street, Sydney, 14 January, 1882.

Mr. Thos. Nichols was employed by me in the year 1878 as master of the barque "Australasian Packet," for the purpose of procuring *bêche-de-mer*, &c. Vessel and outfit cost me over £6,000. I eventually heard of the loss of the vessel, which was wrecked at the S.S. Islands, and as I was afterwards informed solely through Nichols, continued intemperance after leaving Sydney. The wreck was sold by him to some traders, excepting the boats belonging to the vessel; he had them taken to Noumea and there sold, receiving the whole proceeds of sale of vessel, boats, &c. Although I appointed an agent at Noumea to act on my behalf, whom Nichols would not acknowledge, he has neither written to me or accounted in any way for the loss of the vessel or the sale of the wreck, and everything connected with the affair has been most mysterious and unsatisfactory. I had purposed at the time taking out a warrant against him, but in consequence of the great difficulties in the way of getting at him, he having gone to his home at Lord Howe Island, and the extra and great expense I would have been put to, I was advised to withhold for the present my prosecution.

Mr.

Mr. Campbell Stevens, who was mate of the same ship at the time of her loss, returned to Sydney, and he could, but would not, give me a satisfactory report of the loss or sale of the wreck. He, I understand, is also at Lord Howe Island. The crew of the vessel on their return to Sydney reported to me that Nichols took the vessel (after leaving Sydney) to Lord Howe Island and stayed there for several weeks, and also sent a large quantity (by boat-loads) of the ship's stores to his house, and to which he had no right whatever. His instructions were on leaving Sydney to take the vessel to her destination, which he did not comply with.

In conclusion, I may state that the vessel and trade was uninsured, and I lost over £6,000 by the transaction.

I remain, &c.,  
JOHN BELL.

No. 24.

Captain Armstrong to The Colonial Secretary.

Sir, 21 April, 1882, c/o Messrs. McDonald, Smith, & Co., Hunter-street, Sydney.

I beg to draw your attention to the unfair manner in which I was treated at the late Court of Inquiry held at Lord Howe Island, inasmuch as I was not allowed to cross-examine the witnesses, nor given an opportunity to produce witnesses on my behalf.

See statement herewith, marked A B.

Hon. J. B. Wilson.—B.C., 21/4/82, C.W.

I have, &c.,  
RICHD. R. ARMSTRONG.

[Enclosures.]

A.

We, the undersigned, inhabitants of Lord Howe Island, beg hereby to declare our disapproval of the unfair manner in which we consider the inquiry relative to the Resident Magistrate, Captain Armstrong, has been proceeded with. After complying with the request of the Commissioner, we walked 3 miles on two days to the Court, and waited the whole of the time from morning till night without being called upon. We consider that, as being among the oldest residents, we had a right to testify as to the general conduct of Captain Armstrong, who has, we believe, been uniformly kind and considerate for the welfare of the islanders on all occasions.

We feel it only due to that gentleman that other evidence of a favourable nature should have been heard.

N. C. THOMPSON, and for  
Wife and Family.

Witness—WM. CLARSON.

B.

To Capt. R. R. Armstrong, R.N., Resident Magistrate.

Sir,

We, the undersigned community of Lord Howe Island, deeply regret to hear of some false reports in Sydney of the unjust and harsh manner you have treated us in your capacity as Resident Magistrate on this island, and we now take this opportunity of most flatly contradicting such foul statements; for, on the contrary, we beg to thank you for the exertions you have undertaken for our interests, and for the fair and upright manner in which you have distributed justice and settled any discussions between us. We are also grateful to you for the stores and clothing you have brought down to us on several occasions, whereas we otherwise would have been hard pressed for want of proper covering and provisions.

No. 25.

Mr. J. Bowie Wilson to The Colonial Secretary.

Sir,

Sydney, 22 April, 1882.

In answer to the accusation contained in Captain Armstrong's letter of 21st instant (82-2,851), of unfair treatment in the manner in which the inquiry, held by me at Lord Howe Island, was conducted, in so far as he was not allowed to cross-examine the witnesses, nor given an opportunity to produce witnesses in his behalf, I beg to state that the parties examined by me were those who had signed the petition for his removal—as to their reasons for so doing. They were examined in Captain Armstrong's presence; he took full notes of the statements made, and was informed that any remarks he chose to make in writing relative to the charges then made would be appended to the statements of the persons examined, which has been done. Captain Armstrong received every consideration that it was possible to give him.

The document appended to Captain Armstrong's letter, marked A, is of no weight whatever, as neither N. C. Thompson nor Mrs. Field signed the petition. Mary Wilson is Thompson's daughter, about eighteen years of age, and William Thompson is a son of his, about sixteen years of age.

Neither Thompson nor Mrs. Field were invited to give evidence, as, having no complaints to make, they did not sign the petition. Mrs. Field is an elderly widow. Captain Armstrong did not ask that either of these parties should be examined, or in fact any other person.

The examination was not into the general conduct of Captain Armstrong, but into particular complaints made against him by individuals, concerning which neither Thompson nor Mrs. Field apparently had any knowledge.

Nathan C. Thompson was examined by me as to the alleged criminal assault by one of Captain Armstrong's Kanaka boys.

With

27

With regard to the other communication, marked B, addressed to Captain Armstrong, signed by fourteen individuals, and attached to his letter, it can have no bearing on the proceedings taken at Lord Howe Island, nor on the charges then made, as Captain Armstrong has noted it as having been received by him on 6th November, 1881, but the document itself has no date. It evidently refers to certain reports said to have been circulated in Sydney previous to the above date. Five of the signatures are those of Nathan Thompson's children, the oldest, I have been informed, then only seventeen years of age.

I have, &amp;c.,

J. BOWIE WILSON.

No. 26.

## Minute Paper for the Executive Council.

Colonial Secretary's Office, Sydney, 24 April, 1882.

## Suspension of Captain Armstrong.

HAVING perused the report and appendices, so far as they are completed, of the Honorable J. B. Wilson, who was appointed on the 28th March last to inquire into and report upon certain charges and complaints made against Captain Armstrong, the Resident Magistrate at Lord Howe Island, which report exhibits a line of conduct pursued by that gentleman in selling without license wine and spirits to certain of the inhabitants of that island, so irregular and unbecoming a public officer, that I recommend that his suspension be confirmed, and that he be called upon to show cause why he should not be removed from the Public Service, including his position as a Magistrate of the Colony.

JOHN ROBERTSON.

No. 27.

## Minute of the Executive Council.

At the Colonial Secretary's Office, Sydney, 26 April, 1882.

PRESENT :—

His Excellency the Governor.  
The Honorable the Acting Colonial Secretary and Secretary for Lands.  
The Honorable the Colonial Treasurer.  
The Honorable the Secretary for Works.  
The Honorable the Minister of Justice.  
The Honorable the Secretary for Mines.

REFERRING to the proceedings of the 28th March last, when the Council advised that the Honorable John Bowie Wilson should be appointed to hold a full inquiry into the conduct of Captain Armstrong, R.N., Resident Magistrate at Lord Howe Island, as also to report upon the prospects and resources of the said Island, His Excellency the Governor now lays before the Council a Minute Paper by the Honorable the Colonial Secretary submitting the report made by Mr. Wilson in the premises, with the appendices thereto, so far as they are completed.

Minute No. 21,  
26th April, 1882.

The acting Colonial Secretary is of opinion that the report exhibits a line of conduct pursued by Captain Armstrong, in selling without license wine and spirits to the inhabitants of the island, so irregular and unbecoming a public officer, that he recommends that Captain Armstrong's suspension be confirmed, and that he be called upon to show cause why he should not be removed from the Public Service, his position as a Magistrate of the Colony being included.

2. The Council having carefully considered the subject approve of the course recommended, and accordingly advise that Captain Armstrong's suspension be confirmed; and that he be called upon to show cause why he should not be removed from the Public Service, his position as a Magistrate of the Colony being herein included.

EDWD. W. M'KENNY,  
Acting Clerk of the Council.

No. 28.

## The Acting Clerk of the Executive Council to Captain Armstrong.

Sir,

Executive Council Office, Sydney, 4 May, 1882.

Referring to the letter from this office of the 28th March, respecting your suspension from official duty pending the result of an inquiry to be made by the Honorable J. B. Wilson into certain charges made against you, and generally as to your official conduct, I am directed to inform you that Mr. Wilson's report having been received and considered, His Excellency the Governor, under the advice of the Executive Council, now directs that your suspension be confirmed, and that you be called upon to show cause why you should not be removed from the Public Service—your position as a Magistrate of the Colony being herein included,—for selling without a license wines and spirits to the inhabitants of the island.

I am therefore to require you to show cause accordingly within seven days from this date. The Report referred to will, I am to add, be open to your inspection at this office.

I have, &amp;c.,

EDWD. W. M'KENNY,  
Acting Clerk of the Council.

No. 29.

## Captain Armstrong to The Acting Clerk of the Executive Council.

Sir, Hunter-street, Sydney, c/o Messrs. M'Donald, Smith, & Co., 8 May, 1882.

I have the honor to acknowledge the receipt of your letter of May 4th, informing me of the action taken by the Executive Council relative to myself, and calling upon me to show cause why I should not be removed from the Public Service.

I observe that while in the report submitted by the Honorable J. Bowie Wilson to the Government several other matters of grave importance to myself are dwelt upon (and as I think greatly to my detriment), your letter mentions only the charge of selling wines and spirits without a license. I propose therefore to confine myself in this letter solely to answering that charge; but as the other matters referred to in the Commissioner's Report must have had considerable weight with the Government in calling upon me to show cause against my removal, I think it well for the information of the Government and in my own defence to enclose my full answers to those charges, inviting the attention of the Government to them.

*Selling wines and spirits without a license.*

Answer.—As a matter of fact I have supplied wines and spirits on various occasions to the islanders, under the circumstances which I think will have due weight with the Government.

The probable total value of such during the three years would not exceed £20, of which amount not £5 have been paid, part in produce and part in labour.

Finding on my arrival at the island more than three years ago that several of the islanders were distilling a rough fiery spirit from the banana and wild figs, I remonstrated with them, and was instrumental in checking the evil. On occasions too when vessels touched at the island a large portion of the produce was bartered by some of the islanders for spirits, and but little work was done until the stock thus procured was exhausted.

Seeing these evils, I let the inhabitants know that in cases of sickness or necessity I would be prepared to give a little from my own private stock. This I did, to remove what I thought the chief incentive to their laying in a stock, to cement a friendly feeling towards myself, and to gradually bring about a better tone of feeling among the people. At first this took the form of my giving the islanders a glass of colonial wine on their calling at my house, or a bottle of wine in case of reported necessity in their families. This was sometimes reciprocated by a present of a bunch of bananas or a little present of some other produce of the island.

Anxious as I was to serve the needs of the people, I soon found that I could not afford to supply them gratuitously; and wishing to keep in check the practice of applying for wine and desirous of not encouraging the spirit of pauperism, I let it be known that any supplied must be represented by such produce as they might have for disposal or by labour I might require at their hands. It was this which led to the keeping an exact account of all that was supplied. The very three accounts referred to in your Commissioner's Report represent supplies furnished to three families suffering from illness, as I judged at the time, and, as was represented to me, mainly caused by low poor diet.

In the case of H. Wilson, he represented that himself and the family he lived with, viz., Mosely and wife, were suffering from poorness of blood, which I thought would be removed or mitigated by a gentle stimulant in the shape of wine. The account of this man for wine amounts I believe to about £1 during three years, which is not yet settled. In the case of Robbins, I may state that his wife had been nearly three months prostrated with rheumatic fever, followed by a very difficult and dangerous confinement. I inquired into the case, and at the earnest solicitations of her husband allowed him to have the brandy, having from time to time given him from my own stock (without charge) several bottles of wine.

In the case of Nichols—for a long time the wife had also suffered from rheumatic fever, general prostration and debility; the children too (a numerous family) were weak and ill, and Nichols represented to me that a light stimulant was absolutely necessary in their case, and informed me that he added a little wine to their porridge, finding it very beneficial. On no occasion did I let this man get wine or spirits from me without his representing that it was required for medical purposes. The declaration of Nichols' son (a young man of known integrity on the island), a copy of which is attached (marked A), will fully establish this fact. I had purposed not making use of this statement, but as the charges appeared to be so serious without one hearing both sides, I have been advised to do so. I submit, that being on the island without medical aid or advice, and so remote from Sydney, I felt that the health of the community was practically in my keeping. It has often been my duty to decline altogether to supply either wine or spirits, and this in cases where I thought they would be abused.

I may here solemnly state that I have never known a single instance where any excess has followed from wine or spirits supplied from my stock, neither have I been called upon or seen the necessity during my administration to take any public action to check the use of stimulants except in the case of this man Nichols, whom I declined to allow to have any more, nearly six months ago.

Finally, and in view of the foregoing, I may be allowed I think to take exception to the term "sly grog-selling" as expressed in your Commissioner's Report. Every transaction was represented in my books, and an account sent to the parties. It would have been a simple matter, had I desired to traffic in drinks for my own profit, to have got a license for my manager to sell, but as I had the strongest objection to the liquor traffic being legalized on the island did not do so. By myself supplying these matters I was able to exercise my discretion as to whether they were necessary, and to comply or decline as my judgment directed. I may state that some such system is in operation on Norfolk Island, where the Magistrate has to give special permission to the storekeeper to supply the islanders. If in consideration of the foregoing statement the Government should still think it is a case of a breach of the law, I submit that the extenuating circumstances are such as to suggest that it would be wrong to brand me with disgrace of dismissal from my duties; and if the Government deem that a Resident Magistrate is no longer required on the island, I be reinstated and allowed to resign at a fixed period, and save me from a humiliation by reason of acting as I believed in the best interests of the Government and the inhabitants, whose government was practically entrusted to me.

I have, &c.,

\_\_\_\_\_ RICHD. R. ARMSTRONG.

Referred

Referred to the Colonial Secretary.—A.L., 18/5/82. Although I have from the first perusal of this letter of Captain Armstrong's felt convinced that I should have no other course open to me than to recommend his removal from the Public Service, I determined to submit his case for the consideration of my colleagues, and for that purpose the papers have been fully perused by many of them. After consideration yesterday in Cabinet, with the papers before us, I am, on my own behalf, and on that of my colleagues, constrained to advise that he be removed from the Public Service.—JOHN R.  
Approved.—A.L., 30/5/82.

## No. 30.

## Captain Armstrong to The Acting Clerk of the Executive Council.

Sir,

Hunter-street, Sydney, c/o M'Donald, Smith, &amp; Co., 8 May, 1882.

In another letter I have dealt with the distinct charge of selling wines and spirits without license to the inhabitants of Lord Howe Island.

With your permission I beg to lay before the Executive Council my answers to the various charges referred to in the report of the Commissioner to the Government.

I have, &amp;c.,

RICH'D. R. ARMSTRONG,

Late Lord Howe Island.

NOTE.—For convenience of reference I have taken the clauses as numbered and summarized in the Commissioner's Report, a copy of which has been furnished to me.—R.R.A.

Charge 1.—Allowing his Kanaka boys to wantonly destroy the pigs on the island, on which the inhabitants depend at times for their subsistence.

*Answer.*—These wild pigs I was specially instructed to reduce in number, their ravages, according to the Government Botanist's report being most destructive to the indigenous flora of the island. On one occasion a pig was found dead in the bush, and it was charged to one of the black boys, who denied that he had left it. On investigation I decided that the animal had probably been worried by some of the islanders' dogs, which for days were left lost on the mountains; these wild pigs and goats abound in thousands on the mountains, and at certain seasons make raids on the cultivated lands, and if not kept in check will so increase as to lay the island desolate, or at least denuded of verdure; the complainant in this case has no cultivated lands, and therefore has no concern as to the increase of pigs and goats in the wild state.

Charge 2.—The neglecting to prosecute the charge made against one of his Kanakas named Tommy, for a criminal assault on a girl of tender years, of which evidence is hereto attached, marked J.

*Answer.*—This charge is utterly groundless, as on my arrival on the island, May 11th, 1881 (the alleged offence having taken place on April 11th), on hearing of the circumstances I had the evidence taken upon the subject, and after the fullest inquiry came to the conclusion that there was no justification of the charge, and that the whole excitement about the matter was the result of drink obtained from a steamer during my absence. By the next outgoing opportunity I duly sent on a report to the Government on the subject, as showing how unnecessary any further action was in the matter. I was strengthened in this opinion by the evidence and written statements on the case by Mr. N. Thompson, one of the oldest and most respectable residents, by Mr. F. B. Wilson, the late schoolmaster, and by that of the father of the child. Other evidence of those present on the occasion of the alleged offence fully confirms me in the views I had taken of the matter. To have held any public investigation would only have been pandering to a morbid and depraved taste, and would have done incalculable injury to the little community.

Charge 3.—Giving undue preference in the distribution of Government work.

*Answer.*—The complainant in this case not having the training or skill of a carpenter or shipwright, nor the necessary tools, could not have executed the work referred to. On my speaking to him of this, he replied that "I ought at least to have paid him the compliment of asking him" (*vide* evidence of C. Stevens).

Charge 4.—Attempting to monopolize the trade of the island.

*Answer.*—Finding that at times the islanders were in great straits as to the supply of flour, sugar, tea, and other necessaries of life, I, at their earnest solicitations got down a small supply; there being no other store on the island, or opportunity of getting supplies other than by a chance vessel. I have frequently given some of these stores, &c., to islanders unable to pay for them, and such as I sold I have not been paid for, or had to take out the amount in such produce as they have liked to spare. So far from selling produce to ships, I have always sent what little produce I had from my ground in a regular way to the Sydney or other markets.

The land which I hold on the island was leased to me by the Government, for the purpose of working fibre, growing coffee, &c., and I consider that through my energy and outlay of capital, that I have given a great impetus to the rest of the islanders, and shown them that if their cultivations are kept up with spirit, that there is a great future for them in disposal of their produce, &c.

Charge 5.—Charge of making a damaging statement to the Government, as to the character of some of the islanders.

*Answer.*—A copy of the petition for my removal having been sent to me by the Government for my remarks thereon, and there being no charges whatever set out in the Petition, I thought the most pertinent remarks I could offer was to show the characters of some of the islanders I had to deal with, but thought it advisable to head the communication private, official, and confidential; the real object of those who were leading the movement against myself was to get rid altogether of magisterial adjudication or control. This is manifest from their conduct all through the agitation.

I have endeavoured to keep as closely as possible to the text of charges referred to in the Commissioner's Report, and have not dealt with other clauses of the evidence taken by him at the island, none of which was sworn to by the various parties giving it, nor was I allowed to ask a single question of any of the witnesses, or even to call evidence on my own behalf.

In conclusion, I have, &amp;c.,

RICH'D. R. ARMSTRONG.

[Enclosure.]

[Enclosure.]

A. W. S. Nichols to Captain Armstrong.

Dear Sir,

Lord Howe Island, 12 April, 1882.

I, Albert William Stanley Nicholls, aged eighteen years, and eldest son of Thomas Nicholls, of this island, hereby conscientiously and solemnly swear that I make the following statements, with all knowledge of the seriousness of the position I hold in making such statements, against my parents; neither have I had any quarrel or disagreement with them.

Hearing of certain accusations made by them, I consider you have been most grossly maligned, and I now wish, out of justice to you, to make this statement, that on every occasion I have been sent by my parents to you for wine or spirits, that they have told me to ask for it medicinally, on account of illness in the family—more especially by my father. I also know that on occasions you have lent them money, especially when they wanted to send me to Sydney, and they promised, in my presence, to return the loan in a few days, which I am convinced they did not do, as you had to take out the value in produce from our homestead at our own prices, though such produce was almost valueless to us.

I may state that I have never known you to act in any way but most gentlemanly and honorably towards all of us on the island; and you have at all times given us the very best of advice and counsel, especially to the young people, while your manner has always been kind and considerate to all.

I regret to say that I am perfectly ashamed of the conduct of my parents of late towards you.

There are several other statements I have lately heard against you which are also false, and I am prepared to swear at any moment, before any Court of law, to the truth of my statements.

In my presence they have on many occasions stated that they will do their utmost to have you removed off the island, as they did not consider a Government official is required here. I know also that, since your decision in Court in the case of Mr. Ponder and my father, that my parents are both dissatisfied, and have had great ill-feeling towards you ever since.

I feel sure, indeed I know, that they have influenced the feeling of others against you in every way to your detriment.

P.S.—I have frequently known my father to distil spirits from bananas in large quantities.

Witnessed—A. E. ROSE.

ALBERT W. S. NICHOLS.

C. STUART MILLER (constable, steamer "Thetis").

True copy.—Wm. CLARSON.

No. 31.

Captain Armstrong to The Clerk of the Executive Council.

Sir,

Hunter-street, Sydney, May 16, 1882.

Referring to the general subject of the recent inquiry by Commission into my administration of affairs at Lord Howe Island, I think it right to bring under your notice the following, and beg you will attach this to my former papers.

I was appointed by your Government in 1878 to make inquiry into the cause of disturbance between a Mr. Amora and others and the inhabitants of the island; and on my return the Government, evidently being satisfied with the result of my duties, appointed me as Government Resident, and since that period I have carried out the duties of Resident and Police Magistrate, Forest Ranger, Postmaster, Registrar for Births, Deaths, Marriages, &c. My duties have been most varied and complicated, and with the number of inhabitants who had been up to the time quite unaccustomed to any authority. It has therefore required great tact and judgment to study the characters of these people, and I am happy to state that till lately I succeeded in establishing law, order, and sociability amongst them. Unfortunately, last year a Mr. Ponder arrived here amongst us as agent for the Guano Company, and whom I tried to assist as much as possible, as I thought I saw a good future for the welfare of the people; he had not, however, been long on the island before he caused disturbances and dissensions amongst the people, unhappily leading one or two, of the most turbulent spirits with him. I had to report Mr. Ponder officially for breaches of his employer's agreement with the New South Wales Government, which aroused his vindictiveness, and he declared he would not rest until he had me removed from the island.

On my arrival here in 1878, and undertaking the duties appointed to me, I found a number of the inhabitants without the ordinary sufficient supply of food and clothing; I supplied them with these articles, but as they had no money wherewithal to pay, I allowed them to either work it out in labour, or supply produce from their gardens at their own prices. In some cases I have had to wait for over two years in getting any returns, and even now several accounts are unpaid. I consider, through my assistance, that they are considerably improved in their respective positions. I have introduced a large quantity of seeds and plants from different parts of the world at my own cost, which I consider will be eventually a profitable resource to the islanders, and otherwise given them information and encouragement, which is now tending to their benefit.

I have always held the interest of the island in my consideration, and have secured the inhabitants many conveniences which they would otherwise have been without. I have laid out a large amount of money in developing the resources of the island, and which the people have of course derived a large benefit therefrom.

During the last three years I have freely employed my own labour in improving the harbour and passages through the reefs, and making a good road on the island. I have had to use my own men as a boat's crew in boarding vessels for inails, &c., and in other Government work, there being no allowance of any kind to me for such duties. I had not at my command either police or other means of enforcing obedience to the law.

I beg to attach a brief statement\* of my former services from Navy List, 1881.

I have, &c.,

RICHD. R. ARMSTRONG.

Forwarded to the Honorable the Colonial Secretary.—ALEX. C. BUDGE, Clerk of the Court, 16/5/82.

No. 32.

Captain Armstrong to The Clerk of the Executive Council.

Sir,

Hunter-street, Sydney, 18 May, 1882.

You will observe that the Commissioner in his report on my administration on Lord Howe Island, refers in very harsh terms to a communication sent by me some months ago to the Government relative to the chief agitators for my removal, and which communication I marked private, official, and confidential.

As

\* Not with papers in this case.

As confirmatory of the said letter, I beg to enclose one just received in reference to these two very men who are accused—

1st—Of losing the ship "Australasian Packet," through reported drunkenness and neglect; and secondly, with having sold the wreck, boats, &c., without ever sending in the accounts or moneys to her owners.

Comment I think is unnecessary.

I remain, &c.,  
RICHD. R. ARMSTRONG.

[Enclosure.]

Mr. J. Bell to Capt. Armstrong.

[Private.]

Dear Sir,

18, Park Road, Sydney, 16 May, 1882.

Hearing that you were in Sydney, I thought I would like to see you in reference to Capt. Nichols, concerning whom I wrote you some months ago relating to the loss of my ship the "Australasian Packet," through his mismanagement, and as was reported drunkenness, and the sale of the wreck without rendering any accounts of same to me of moneys received by him for. I should like to know if Stevens, who was mate with Nichols, at the time of the wreck, and would not give me any satisfactory account of the loss, is at Howe Island.

Yours respectfully,  
JOHN BELL.

[Nos. 32, 33, and 34] Transmitted to the Principal Under-Secretary.—ALEX. C. BUDGE, Clerk of the Council, 29/5/82. Submitted, 29/5/82.

### No. 33.

#### Captain Armstrong to The Clerk of the Executive Council.

Sir,

Hunter-street, Sydney, May, 1882.

In one of the clauses of the Commissioner's Report upon my administration of affairs of Lord Howe Island, a reference is made to some Kanakas in my service there. He suggests that a man-of-war should be commissioned to demand from me my license for holding these boys, and to remove them if necessary.

To prevent any unnecessary trouble and expense in carrying out any such suggestion, I wish for the information of the Government to report that these boys were duly hired by me from the French authorities in Noumea, for a term which expires next August.

Had I known the Commissioner wished for any information on the subject, he could of course have obtained it on reference to myself. These boys are perfectly inoffensive, very industrious and well behaved, and are general favourites with the islanders. During the nearly three years they have been with me I have never had to reprimand one of them for any offence.

I have, &c.,  
RICHD. R. ARMSTRONG.

### No. 34.

#### Captain Armstrong to The Clerk of the Executive Council.

Sir,

c/o Messrs. M'Donald, Smith, & Co., Hunter-street, Sydney, 29 May, 1882.

I beg to forward you enclosed note to me from Mr. William Clarson, who was a visitor at Lord Howe Island for over seven months during the apprenticeship of the "Vernon" boys to me. I think this statement will be sufficient to show that my treatment of them has not been so severe as has been reported.

I remain, &c.,  
RICHD. R. ARMSTRONG.

[Enclosure.]

Mr. William Clarson to Captain Armstrong.

My dear Captain Armstrong,

70, Pitt-street, Sydney, 26 May, 1882.

As I hear you have been taken to task for your treatment of the five "Vernon" boys apprenticed to you at Lord Howe Island, I think it but my duty to forward you my simple testimony as to my experience of these boys.

You will remember that during your six weeks' absence in Sydney they were under my direction, and I have known them and their doings intimately during the last seven months.

I consider they were well fed, their meals actually consisting of the same materials used for your own table, cooked by the same cook, and frequently taken from the very same vessels. Boiled or fried fish, fresh or cured potatoes, sweet potatoes, vegetable marrows, sweet corn, salt or fresh pork, pumpkins, or other vegetables in season, biscuits, &c.; and these in such abundance that I have often had to notice waste and wanton destruction of good food by these boys.

Their duties were light and easily executed, they not being called upon to do any work at all beyond their strength or capacity; weeding, hoeing, and general farm and garden work and occasional boating were the general duties they had to perform. Altogether I consider their life might have been a very pleasant one, and their training would I think have fitted them for a useful career in any country or under any circumstances, and certainly I should not object to any one belonging to me leading the life, as I knew it on the island, led by these boys.

I know it was at your special request that the schoolmaster held a night class three times a week for these boys' benefit, and I believe they would have been, fairly good boys but for their being made the means of annoyance to you by one or two leading agitators on the island. Having made up their minds to get rid, if possible, of anything like a representative of law and authority on the island, these agitators sought by every device and subtle scheme to annoy and harass you, and lost no opportunity of demoralising the "Vernon" boys by encouraging them in resisting the salutary discipline and regulations you had enjoined.

I think it a great misfortune for these boys that the useful career open to them should have been frustrated by the indirect interference of any one.

I refrain from referring to the antecedents and conduct of these boys at your place, but I believe all the trouble has arisen from the subtle plotting of one or two men anxious to be rid of you as representing law and order.

I am led to this belief by a knowledge of the scandalously false accusations levelled by these people against you, but which I believe, if there is any justice in the land, will only tend to your credit on proper investigation.

Very sincerely yours,  
WILLIAM CLARSON.

P.S.—Pray call on me at any time to state my knowledge of these matters.

## No. 35.

## Minute of the Executive Council.

The Colonial Secretary's Office, Sydney, 30 May, 1882.

PRESENT :—

His Excellency the Governor,  
 The Honorable the Acting Colonial Secretary and Secretary for Lands,  
 The Honorable the Colonial Treasurer,  
 The Honorable the Secretary for Works,  
 The Honorable the Minister of Public Instruction, and  
 The Honorable the Secretary for Mines.

Minute No. 26,  
30th May, 1882.

REFERRING to the proceedings on the 26th April last, when the Council advised that Captain Armstrong, Resident Magistrate, &c., at Lord Howe Island, now under suspension, should be called upon to show cause why he should not be removed from the Public Service, for selling wines and spirits to certain of the inhabitants of the said island,—His Excellency the Governor now lays before them the explanation offered by Captain Armstrong of the charge referred to, together with a minute by the Honorable the Colonial Secretary.

2. After careful consideration of the said charge and the explanation of Captain Armstrong, the Council are of opinion that Captain Armstrong has failed to disprove the charge of selling wines and spirits without a license to certain of the inhabitants of the said island, and therefore advise that he be removed from the Public Service.

ALEX. C. BUDGE,  
 Clerk of the Council.

## No. 36.

## The Clerk of the Executive Council to Captain Armstrong.

Sir,

Executive Council Office, Sydney, 31 May, 1882.

Referring to former correspondence on the subject of charges made against you which formed the subject of inquiry and report by a Special Commissioner, and to a communication from this office dated the 4th instant, calling upon you to show cause why you should not be removed from the Public Service for selling without license wines and spirits to certain of the inhabitants of Lord Howe Island, I am now directed to inform you that, after careful consideration of the said charge of selling wines and spirits without a license, and of the explanation you offered, His Excellency the Governor, under the advice of the Executive Council, has approved of your removal from the Public Service, as you have failed to disprove the charge alluded to.

I have, &amp;c.,

ALEX. C. BUDGE,  
 Clerk of the Council.

## No. 37.

## Captain Armstrong to The Colonial Secretary.

Sir,

c/o Messrs. McDonald, Smith &amp; Co., Hunter-street, Sydney, 7 June, 1882.

*Re* Lord Howe Island.

I have the honor to acknowledge receipt of letter informing me of the decision of the Executive Council.

I take the liberty of expressing to you my conviction that, in the absence of any representative of authority, trouble of a serious nature will before long arise on the island.

I beg to represent to you that, in order to facilitate the inquiry and to be on the spot to give any further information, I availed myself of the opportunity offered by the "Thetis" of coming to Sydney, and necessarily had to leave my affairs on the island in a somewhat unsettled state; the detention here has been a cause of great loss and inconvenience, and I am desirous of getting back to the island to wind up matters and to settle generally my affairs.

I have the honor to request therefore that you will be good enough to allow me such sum of money as you may deem right to proceed to the island.

I have, &amp;c.,

RICHD. R. ARMSTRONG.

Captain Armstrong has gone down to the island. May be put by for the present.—9/8/82.

**CRIMINAL LAW AMENDMENT BILL.**

(PETITION OF NEW SOUTH WALES SOCIAL PURITY SOCIETY.)

---

*Received by the Legislative Assembly, 19 September, 1882.*

---

To the Honorable the Members of the Legislative Assembly, in Parliament assembled.

The humble Petition of the New South Wales Social Purity Society,—

SHOWETH:—

That your Petitioners, in reference to the proposed amendments in the criminal laws now under the consideration of your Honorable House, feeling assured that many females of tender age (particularly under pressure or excitement) fail to realise the enormity of the crime of illicit sexual intercourse and its disastrous consequences, humbly pray that it be enacted "That every one who carnally knows any girl (with or without her consent) under the age of fifteen years shall be guilty of felony."

And your Petitioners will ever pray, &c.

Signed by Chairman, Secretary, and other members of Committee on behalf of the Society.

## MR. H. CZERWONKA.

### No. 1.

#### The Engineer-in-Chief's Minute to The Secretary for Public Works.

Sydney, 10 October, 1879.

Mr. Henrich Czerwonka, C.E., to be engaged as general assistant for the Sewerage Works on the temporary staff for that branch; to have £450 per annum, with actual expenses; to arrange and superintend surveys in the field, and superintend plans and preparation of designs in the office, with all calculations, &c., for same.

I recommend this gentleman's appointment.

W.C.B., 10/10/79.

Under-Sec., B.C. Approved.—J.L., 14/10/79. Roads.—G.H., 14/10/79. Mr. Czerwonka commenced duty on 10th October.—P.H.F., 3/11/79.

### No. 2.

#### Copy of Minute in Attendance-book.

I AM astonished to see the gross neglect of duty in signing this book. I came into the office this evening and find no one there but Mr. Piper. Mr. Czerwonka will please sign this book himself, and see that each gentleman coming into the office for a day or part of a day signs it regularly. It is to be submitted to me once a week by Mr. Piper.

I think it is a most culpable neglect of Mr. Czerwonka, the officer in charge, not to have insisted on this, indeed to have been the first to neglect the duty himself.

W.C.B., 10/2/80.

### No. 3.

#### The Engineer-in-Chief to Mr. H. Czerwonka.

Sydney, 12 February, 1880.

I OBSERVE that Mr. Czerwonka has not signed the attendance-book; it is absolutely necessary he should do so. I have myself a year or two since signed the attendance-book in this office, until it became patent that I arrived first and left last.

Mr. Czerwonka has only lately joined the service; his office is very remote from mine; it is absolutely necessary that there should be a record in the office of the days he is engaged in the office and of the days in the field; it is impossible I can visit his office every day. I wish Mr. Czerwonka to clearly understand that it is impossible I can certify for his pay unless this book is signed. Every officer employed in the field will also have to sign the book.

W.C.B., 12/2/80.

Is not the diary a sufficient record of one's daily occupation?

### No. 4.

#### Mr. H. Czerwonka to The Engineer-in-Chief.

##### Signing of Attendance-book.

Sewerage Office, Sydney, 14 February, 1880.

I HAVE the honor to acknowledge receipt of the Commissioner's memo. of the 12th instant, and to offer the following remarks in reply thereto, as well as to the Commissioner's minute of the 10th instant in the attendance-book.

When at the end of October last I was instructed to requisition for an attendance-book, and to desire the young men in the office to sign it on arrival and departure, I fully understood that it was for the purpose of promoting regular attendance on the part of the junior hands employed in the office.

That the field officers were to sign was not mentioned to me even in the faintest way, in consequence of which I have never invited them to do so.

On any large engineering works it is almost impracticable to confine the work of the professional officers to stated hours; and I am of opinion that any attempt to do so merely cramps their energies, deprives them of interest in the work, and tends to the detriment of the whole business. For my own part I can only express utter astonishment at finding myself charged with "culpable neglect of duty" for not signing a time-book.

No mention was ever made to me at the first that such would form part of my duties. Had I been so informed I could not—consistently with my own views—have done otherwise than decline an engagement containing such an altogether unusual condition; and I object now to have duties imposed upon me which I did not bargain for. I have spared neither time nor trouble to further the work by all means in my power, and had imagined that I was faithfully carrying out the duties I had undertaken.

It is somewhat of a surprise to have my mind disabused of this impression in so abrupt a manner and on such a subject.

H. CZERWONKA.

The Commissioner for Roads and Bridges.

I forward herewith to the Minister a reply sent me by Mr. Czerwonka when instructed to sign the attendance-book, as it is impossible subordination can be preserved in the office if Mr. Czerwonka is allowed to refuse signing this book. I have to recommend that this letter be accepted as a resignation.—W.C.B., 14/2/80. Under-Secretary, B.C.

No. 5.

## No. 5.

## The Engineer-in-Chief to Mr. H. Czerwonka.

Sydney, 14 February, 1880.

I HAVE to express my regret that Mr. Czerwonka declines to comply with my instructions. I could not expect to preserve subordination in the Department if I allowed this to pass; I have therefore forwarded his minute to the Minister, recommending that it be accepted as a resignation. Mr. Czerwonka is well aware that every one in the Roads Office, and those in the field who occasionally attend office, all sign the attendance-book.

I have to certify for the payment of the officers, and it is absolutely necessary I should know where they are engaged—the attendance-book is my only means of doing so.

Will Mr. Czerwonka hand over papers in the office to Mr. Home and Mr. Smail, and I will as soon as possible advise him of the Minister's acceptance of his resignation.

W.C.B., 14/2/80.

The keys to drawers of writing-table, covering letter-books, and a few quantities, have been in Mr. Piper's possession since Saturday last; all other official documents are in the office accessible to every one, and I shall formally hand them to the gentlemen named in the Commissioner's minute. Any further information they might require will of course be freely given to them by me on that occasion, or at any time thereafter.—H. CZERWONKA, Member Constituted German Architects and Engineers, 17/2/80.

It appears to me that Mr. Czerwonka should not hesitate to comply with the rules of the Department in which he is employed. Mr. Bennett states that it is essential to his proper control of his Department that the attendance-book should be signed; this being the case I hope Mr. Czerwonka will see that it is undesirable to interpose any objection.—J.L., 19/2/80. Roads, B.C., G.H., 19/2/80. Mr. Czerwonka, B.C., 19/2/80.—W.C.B.

While thanking the Minister for the view he has been pleased to take of this subject, and in deference to his distinctly expressed wish, I will waive the decided objection which I entertain on broad grounds against signing an attendance-book. I take the opportunity, however, of expressing my surprise that the necessity for such a course, which is now represented as being so essential to the proper control of the Department, should only have been made apparent after the lapse of four months.—H. CZERWONKA, 21/2/80. Seen. File.—W.C.B., 23/2/80.

## No. 6.

## Increase of Salary to Mr. H. Czerwonka.

Sewerage Works, Sydney, 10 November, 1880.

ONE contract is now in progress; the tender for another recommended for acceptance; a third ready to invite tenders for, and the plans and specifications for the large outlet sewer far advanced; the work is very intricate and onerous; the duties involve very serious responsibility. I recommend that Mr. Czerwonka's pay be raised from £450 to £550 per annum, the same pay as Messrs. Daniels, Rothwell, and Wells, and as is usually given to professional men doing such important duties. Mr. Czerwonka was promised an increase of pay if he carried out his work in a satisfactory manner, which he has done.—W.C.B., 10/11/80. Under Secretary, B.C. Approved.—J.L., 24/11/80. Roads, B.C., 24/11/80. From 1st instant.—J.R., 25/11/80. Treasury, 26/11/80.

## No. 7.

## The Engineer-in-Chief as to duties of Officers.

MEMORANDA as to the duties of the officers employed in the Sewerage Department.

Sydney, 2 May, 1881.

For the better management of the sewerage works, now assuming the definite aspect of works under contracts, it is desirable the position, responsibilities, and duties of the officers in charge should be defined.

Mr. Czerwonka, as assistant engineer next to myself, will, in addition to the general charge of the office, exercise such supervision over the work in progress and the officers in charge as will enable him safely to countersign their certificates, depending on them for detailed quantities, but seeing that the quantities correspond generally with the office quantities; he will see that the work is carried out thoroughly in accordance with specifications; that the materials are strictly up to the standard specified; and that the work is fairly and honestly done.

It is desirable that any orders from Mr. Czerwonka should be given in writing through the officer in charge. This may be managed by the officer having a small pocket order-book, in which the order can be entered; all such orders to be copied into the journal, and submitted to me once a week. Any orders for extra work, or likely to produce legal or financial complications, should be submitted to me before being issued.

When any of the officers in charge are in the central office, Mr. Czerwonka will please advise me that I may have an opportunity of a personal conference with them—Mr. Czerwonka being present; they will report weekly through Mr. Czerwonka.

Mr. Czerwonka will, through Mr. Carden, exercise such check over the lines and levels as will enable him to be certain of their accuracy. He has already, during the progress of the survey, had the levels taken by the officers employed all put before him, to collate and arrive at the closest possible approximation to the reduced levels of the various bench marks.

Mr. Smail, in charge of the Bourke-street sewer, will take his instructions from Mr. Czerwonka in writing, and be responsible under Mr. C. for the levels and the character of the work done, and materials used; he will submit journal to me, with Mr. Czerwonka, once a week.

No deviation from the contract is to be permitted, or extra work ordered, without my signature to the order. Mr. Smail will report weekly on the conduct of his inspectors.

Mr.

Mr. M'Mordie will have charge of the Prince Alfred Hospital Sewer and the Rushcutters' Bay sewer, with Husband as inspector at the Prince Alfred, and Mr. Dunstone at Rushcutters' Bay—the first being a miner, the second having considerable knowledge of concrete constructions.

Other officers will be appointed from time to time, or the duties of Messrs. Smail and M'Mordie extended as may be required.

Every deviation from the contract, or infraction of same, by bringing inferior material on the ground, is to be reported at once, by special messenger, to Mr. Czerwonka. Should the contractor refuse or neglect in any obstinate way to carry out orders it must be at once reported, through Mr. Czerwonka, to me.

The measurements will be made by the local officers at alternate times, and in the presence of their inspector, if possible, and otherwise, as set forth in specifications; they will then be made up and shown approximately on the drawings, and gone over with Mr. Czerwonka by the local officer.

Should illness incapacitate officer in charge from work, he will advise me without delay.

Mr. Czerwonka will submit any reports or questions of importance to me without delay, and all other decisions of his once a week; he should visit each work once a week; it is not necessary he should examine each face of small tunnels, but be satisfied with Mr. Cardew's reports on them. The first duty of every officer will be to look to the safety of the public and those employed, and the next to see that the work is honestly done in accordance with specification and promptly paid for.

Having generally sketched out the duties and responsibilities, I must rely on the good sense and the good feeling of each officer employed for the harmonious and faithful performance of his duty.

W.C.B., 2/5/81.

Mr. Czerwonka, Mr. M'Mordie, and Mr. Smail to note.—W.C.B., 2/5/81. Seen.—D. M'M., 3/5/81. Noted.—J.M.S., 6/5/81. Mr. Piper, please make two copies.—H. Cz., 4/5/81. Copies made; one given to Mr. Czerwonka, one given to Mr. Smail.—F.C.P., 5/5/81.

## No. 8.

### *In Re* Certificate on Progress Return Sheets.

THE certificate contains five different sentences:—

1. Examined the work generally on the ground.
2. Found it in accordance with specification.
3. Have checked the quantities with the plans.
4. Quantities generally agree with plans.
5. Rates are correct.

*Ad.* 1. Right enough.

*Ad.* 2. How, if work is not in accordance with specification, even done entirely without specification (as it sometimes might be) yet fairly good and answering its purpose? How if the material used does not come up to the standard on the samples tendered from?

*Ad.* 3. I fail to understand the bearing of that sentence.

*Ad.* 4. How can two quite different things agree with each other?

*Ad.* 3 x 4. Am I to be responsible for the quantities? If so, I must do the measuring every time myself. If I am to check only the computations of the superintending officers, their detailed measurement sheets must be supplied to me and adequate office assistance provided, for it is obvious I cannot do all the arithmetical figuring myself.

*Ad.* 5. Right enough.

H. Cz., 7/6/81.

Am I to understand that Mr. Czerwonka declines to sign the certificates for Topham, Angus, & Co., and for Mr. Macquarie, and if he has any specific reason for not signing in their case, he having signed for Kernaghan? If so, it is necessary he should state the reason he has not reported to me that the material or work is defective or not up to specification in any respect.—W.C.B., 8/6/81. Mr. Czerwonka.

The purpose of my above minute was merely to ascertain from the Engineer-in-Chief the interpretation he puts on the certificate, the bearing of which I do not fully understand. It arose from the very natural wish to know clearly what I was expected to certify to. As soon as I shall have obtained the Engineer-in-Chief's interpretation I shall be in the position to answer the questions contained in his minute.—H. Cz., 8/6/81. The Engineer-in-Chief for Sewerage. It is impossible I can interpret this to Mr. Czerwonka; he should not have left the office and this matter undecided. The words are clear and plain, and required no interpretation. I have no time for this puerile hair-splitting. The certificate is for the protection of the Government in the first instance and as a warrant for me to sign. I cannot have any further correspondence on this. If the certificate is not signed by 10 o'clock to-morrow morning, I will assume that Mr. Czerwonka refuses to sign and act accordingly. I have a great deal too much work to attend to to be wasting time in this way.—W.C.B., 8/6/81. My instructions are that I should see Mr. M'Mordie when in office; he did not see me this day.

Signing Certificate on Progress Sheets.—Sewerage, Sydney, 8 June, 1881. It must be evident to the Engineer-in-Chief that it is impossible for me to certify for all the work that I have found in accordance with specification, and that I have checked the quantities when I have not the time to do one or the other. If it is required under the above circumstances that I shall sign the certificates I must do so.—H.C.

Mr. Czerwonka has signed the papers in question, and I have sent them on to prevent delay in payment or the Government being exposed to actions at law. Mr. Czerwonka has not answered my question as to why he signs for contract No. 2 and not for the others. Is the work or material inferior, or is there anything wrong with them in any respect, and, if so, why did he not report it, and if not, why does he refuse to sign in those instances when signing for No. 2? I am entitled to a clear and distinct reply on this point. Before going further into the matter will Mr. Czerwonka make his reply as concise as possible. It is clear if there is all this writing that it will be impossible to get through the work in any reasonable time.—W.C.B., 8/6/81. Mr. Czerwonka. The

The progress payments for contracts No. 1 and 3 were initialled by me on the hitherto usual form on the afternoon of Thursday, the 2nd inst.; from that time till the afternoon of Tuesday, 7th inst., the payments were delayed, owing to the introduction by the Engineer-in-Chief of new forms, which did not comply with the requirements of the Treasury.

From half-past 3 o'clock p.m. on the 7th inst., till 3 o'clock p.m. of the following day, the new pay-sheets remained unsigned by me, because I did not fully comprehend the wording of the certificate, and had therefore to ask the Engineer-in-Chief what meaning it was intended to convey.

The progress-sheet for contract No. 2 was signed by me on the 7th inst., immediately on receiving it, because a simple process of mental arithmetic enabled me to arrive at the quantities with sufficient exactness.—H. Cz., 10/6/81. The Engineer-in-Chief.

This should be settled and Mr. Czerwonka's unconditional signing of certificates wanted, as he has seen original quantity which was taken out under his eye, and there is no reason whatever he should not sign.—W.C.B., 16/6/82. Seen.—F.W., 5/7/81. After hearing this forenoon the Commissioner's arguments I will sign as required.—H. Cz., 3/11/81. The Engineer-in-Chief for Sewerage. Mr. Wells to see with reference to Mr. Czerwonka's statement to him that he signed under protest as Mr. Wells was present.—W.C.B., 4/11/81. As stated by the Commissioner, Mr. Czerwonka did at first object to sign the printed certificate at all, but on my positive refusal to sign and pass the accounts unless he did, Mr. Czerwonka signed, but did so under a verbal protest.—F.W., 4/11/81. I find I have defined the nature of certificate, &c., in my memo. of 2nd May, 81-156.—W.C.B., 4/11/81.

### No. 9.

#### The Acting Commissioner for Roads to The Under Secretary for Public Works.

15 August, 1881.

Distribution of duties—Roads and Bridges Department.

HAVING been appointed Acting Commissioner and Engineer-in-Chief for Roads and Bridges, I beg to submit for approval the following distribution of duties:—

The general control and direction of the Department to rest in myself personally, all papers and correspondence passing through me to the Under Secretary.

The designing of all bridges, &c., and the immediate charge of the draughtsmen, to be undertaken by Mr. Daniells, Assistant Engineer, with whom I also consult on all matters connected with engineering.

The Finance of the Department should be entrusted to the Principal Accountant (Mr. Flynn), who, assisted by Mr. Hiles, is also fulfilling the duty of Chief Clerk; the Account Branch being strengthened by the transfer to it of Mr. Selkirk from the Records. I suggest that all cheques and abstracts should be signed by me, and countersigned by Mr. Flynn (the Chief Accountant) and by Mr. Steel. I would then make a daily inspection of the Bank book, which shows the disbursement of all cheques signed.

The Sewerage Branch I propose to leave in immediate charge and control of Mr. Czerwonka, the Assistant Engineer, subject to my supervision.

I am happy to say that in cases of difficulty I am promised the assistance and advice of the Engineer-in-Chief for Harbours and Rivers.

Under this distribution of duties I hope to obviate the necessity of any additional assistance during the absence of the Commissioner.

F. WELLS,  
Actg. Commr. Roads.

Approved.—J.L., 16/8/81. Treasury informed, 16/8/81. Returned to Roads, B.C., 16/8/81.

H. Cz., 17/8/81.

Mr. Piper,—Please make an extract from the accompanying minute, No. 4,740, P.W. Dept., of clauses 1 and 5, and communicate them in the form of a circular to the officers of the Sewerage, for their information and guidance.—H. Cz., 18/8/81. Done, 19/8/81.

### No. 9a.

#### Minute of Acting Commissioner and Engineer-in-Chief for Roads and Bridges.

Sydney, 19 August, 1881.

Extract of Mr. Wells' minute, dated 15th instant, approved of by Minister for Public Works on 16/8/81. HAVING been appointed Acting Commissioner and Engineer-in-Chief for Roads and Bridges, I beg to submit for approval the following distribution of duties:—

The Sewerage Branch I propose to leave in immediate charge and control of Mr. Czerwonka, the Assistant Engineer, subject to my supervision.

F. WELLS,  
Acting Commissioner, &c.

## No. 10.

Acting Commissioner's Minute, *re* changes in Field.

(Circular—Memo.)

Sewerage, 6 September, 1881.

Mr. Czerwonka having represented that he is not able, with due regard to his more important duties, to pay frequent visits of inspection to the various works in the field, recommends that Mr. Bagge, the 2nd Assistant Engineer, should periodically make inspection of all contracts and report on same.

Mr. Bagge will therefore for the present make such inspections in lieu of Mr. Czerwonka, who will only inspect at intervals.

As it is also advisable that Mr. M'Mordie should be relieved of the charge of the Rushcutters' Bay sewer contract No. 3, and confine his attention to the Prince Alfred Hospital sewer contract No. 1, Mr. Bagge will take charge of contract 3, which, with the assistance of Mr. Dunstone, he should be able to superintend in addition to the above duty.

As the drainage of St. Andrew's College is to be most probably connected with the Prince Alfred Hospital sewer, Mr. M'Mordie will make the requisite surveys as directed by Mr. Czerwonka.

F. WELLS,

Actg. Engr.-Chf., Sewers.

To see and initial.—H. Cz., 7/9/81. Mr. Bagge. Seen.—C. H. O. BAGGE, 7/9/81. Mr. M'Mordie. Seen.—D.M'M., 7/9/81. Mr. Dunstone. Seen.—J. DUNSTONE, 8/9/81. Mr. Small. Noted.—J.M.S., 9/9/81.

## No. 11.

## Mr. H. Czerwonka's Minute to The Acting Engineer-in-Chief for Sewerage.

Application for inquiry.

Sewerage, 20 August, 1881.

HAVING, at the end of this forenoon's inspection of some works on contract No. 3, expressed my inability to concur in the superintending officer's views with regard to the seriousness of the damage done by blasting, the said officer deliberately accused me "of having for a long time past designedly arranged matters in such a way as to lead him into trouble with the contractors, and of failing to support him afterwards."

While bringing this matter under the notice of the Acting-Engineer-in-Chief, I request that a searching inquiry be made into the accuracy or otherwise of the abovementioned accusation, for it is evident that, under existing circumstances, official relations between Mr. M'Mordie and myself cannot continue.

H. CZERWONKA.

## No. 12.

## Mr. D. M'Mordie to The Acting Engineer-in-Chief for Sewerage.

Sir,

27 August, 1881.

After leaving your office on Saturday, Mr. Czerwonka and I further discussed the subject of his complaint. I told him what I had already said in your office—that I fully and unreservedly disclaimed any intention of imputing "design," and suggested that other differences might be settled without any grave unpleasantness.

Mr. Czerwonka will, I believe, already have informed you that he withdraws his complaint.

I am, &amp;c.,

D. M'MORDIE.

This matter is now arranged, without necessity for forwarding these papers further.—F.W., 2/9/81.

## No. 13.

## Mr. H. Czerwonka to The Acting Engineer-in-Chief for Sewerage.

Proposal for Distribution of Duties, &amp;c.

Sewerage, Sydney, 22 August, 1881.

1. From the minute of 15/8/81, No. 4,740, which proposes to leave the Sewerage Branch in my immediate charge and control, subject to the Acting Engineer-in-Chief's supervision, and which proposal has been approved of by the Minister for Works on 16/8/81,—

2. It must be inferred that the immediate charge and control includes the whole *personnel* of the said Branch without exception, and all arrangements concerning it.

3. On this assumption it is recommended, for the more vigorous carrying on of the business of the sewerage, and in accordance with the requirements thereof, that,—

4. Re-distribution of duties, and more precise defining of the functions of the various officers take place upon the following outlines:—

5. In regard to works at present under contract, the second assistant engineer to occupy the position of and have the functions usually exercised by a resident engineer.

6. Each contract now in course of execution to be under the local supervision of a separate superintending officer, who shall be vested with the powers usually exercised by an engineer's assistant, and be assisted, according to the nature of the works under his supervision, by one or more overseers.

H.C.

Approved. The Clerk,—Mr. Piper being expected in matters of finance he will deal through the Chief Accountant with me.—F.W., 2/9/81. Will the Acting Engineer-in-Chief be good enough to instruct the second assistant engineer and the various superintending officers accordingly.—H.Cz., 5/9/81. Instructed by circular memo. as to change in duties.—F.W., 6/9/81.

No. 14.

## No. 14.

## Minute of Mr. H. Czerwonka to Mr. D. M'Mordie.

## Transfer of supervision of Works.

Sewerage, Local Office of Contract No. 3, 6 September, 1881.

By direction of the Acting Engineer-in-Chief Mr. M'Mordie is hereby requested to hand over all papers, drawings, and other matters, relating to the supervision of the works of Contract No. 3 to Mr. Dunstone, and to inform him also of all details respecting the present state of those works.

Having done this Mr. M'Mordie will please devote his whole time to the supervision of the works of Contract No. 1.

The Acting Engineer-in-Chief has consented to acquire Mr. M'Mordie's private table, at present in use in this office, for purposes of the Department.

H. CZERWONKA.

## No. 14A.

## Mr. D. M'Mordie's to Acting Engineer-in-Chief.

RECEIVED at 6 p.m., 6/9/81. This minute evidently cancels, at least in part, the pencil memo. attached, but says nothing as to what officer is to take charge of the supervision of the work, and Mr. Dunstone informed me on morning of 7th that he had seen Mr. Czerwonka the previous evening, and did not understand that he was to take charge of the work commenced, preparation of inventory. In afternoon of 7th received Acting Engineer-in-Chief's circular dated 6/9/81, directing that Mr. Bagge should take charge of this contract. On 8th Mr. Bagge came to Rushcutters' Bay and assumed charge of the work and office.

D.M'M., 10/9/81.

On 9/9/81, when I visited the work in Mr. Bagge's presence, Mr. Dunstone told me differently.—H. Cz., 12/9/81. Seen.—F.W., 14/9/81. First seen by me, 6/10/81.—W.C.B.

## No. 15.

## Mr. H. Czerwonka's Minute to Acting Engineer-in-Chief.

## Works of Contract No. 1.

Sewerage, 10 September, 1881.

1. While inspecting the tunnelling of contract No. 1 on the 7th instant, preparatory to appearing before the Committee of the Legislative Council, I noticed so much water in the drives that I am compelled to again urge the construction of a drain in all parts of the sole where the invert has not yet been laid, feeling certain that in the present state of things the lining cannot be satisfactorily carried out. A.

2. I would further suggest that the lining be proceeded with systematically and not in disconnected patches, leaving the water to accumulate between two executed portions, and thus rendering its removal very troublesome.

3. If deemed unavoidable, a disconnection piece of the executive invert lining should rather be removed than be allowed to seriously impede the drainage.

4. The water should be removed from the workings more frequently than appears to be the case now, and certainly never be allowed to fill the sumps brimful.

5. Since there is such unexpected delay in the execution of the lining, some parts of the drives might require timbering.

6. The piercing of the rock having been performed very irregularly the clear size of the inclined tunnel is very variable, both in width and height.

7. It appears, therefore, advisable in cases, where the excess is one-sided, to introduce strengthening ribs of 14" work hard on to the solid rock, and fully supporting or under-pinning it where it overhangs. B.

8. At points where the excess is uniform all round, or nearly so, to use 9" lining all round, and not merely rely upon the packing behind.

9. The distances of the strengthening ribs from each other, or the lengths of the 9" lining required, should be judged on the spot in every special instance, for which purpose the sewer axis will have to be set out and visibly defined.

9a. Wheepholes in the arch might be judicious.

10. It will be preferable if the concrete-blocks—the use of which instead of brickwork has been applied for by Contractor, and recommended both by the Superintending Officer and myself—be made not less than 6" thick. C.

11. Decision regarding the substitution of those concrete blocks in lieu of brickwork is highly necessary, since even with *them* the completion of the work is scarcely probable to be accomplished before the end of the current year.

H. Cz.

Mr. M'Mordie.—W.C.B., 22/11/81.

## WORKS OF CONTRACT NO. 1.

## Remarks of Engineer-in-Chief on Mr. Czerwonka's Minute, dated 10/9/81.

A. The work has been done without this, and so it is much better.

B. Mr. Czerwonka now tells me that the brick lining has advanced so far as to render the adoption of this precaution impossible. I presume that in all such places the sewer is well backed up.

C. This has been so long undetermined that bricks have come in freely, and considerable progress is now being made.

No. 16.

## No. 16.

## Mr. D. M'Mordie's reply to Mr. H. Czerwonka's Minute of 10/9/81.

I saw Mr. Czerwonka on the work when he had made his inspection of 7th September, and I was not aware, until the receipt of this paper on the 23rd instant, that there was anything in the mode of carrying on the work of which he did not approve.

As I now see that Mr. Czerwonka did not approve of the work, I wish to offer a few explanations.

Mr. Czerwonka's suggestions in paragraph 2 that the lining should have been executed from one end continuously through to the other, working from one face could not have been carried out without seriously interfering with the progress of the work. Moreover, the department had no authority to direct the contractors to carry out the work in the way suggested, as the specification, 8th clause, under head "Brickwork in Cement," orders the work to be executed in what Mr. Czerwonka describes as "disconnected patches." As the lining referred to as causing "the water to accumulate between two disconnected portions" was only 4½" thick, and the fall in the tunnel is 1 in 157, it will be seen that the accumulation must have been very trifling indeed, and there could not be any difficulty in removing this water when its removal was required.

In paragraph 4 Mr. Czerwonka says the sumps should never be brimful. The first sump above the place where brickwork is in progress must be kept down, but I am not aware of any objection to the other sumps being allowed to overflow, but if there be any objection the sumps can be kept bailed out.

I cannot agree with paragraph 6 of Mr. Czerwonka's report as to the nature of the driving. That there was some faulty driving done I have from time to time reported; but speaking of the driving as a whole it has been well and carefully done. As to the strengthening recommended in paragraphs 7, 8, and 9, I must point out that Mr. Czerwonka never pointed out a place to me where he thought the lining defective in strength, and until I read this report I understood that the lining was done in accordance with his views. In this report I observe that no particular places are mentioned as requiring extra strength in the lining, and places can easily be defined as the tunnel was all marked out underground by chain pegs, with the distances in most cases marked thereon. I think I could not properly have avoided making these explanations, believing as I do that the work has been carried through in a thoroughly satisfactory and workmanlike manner.

D. M'MORDIE.

Engineer-in-Chief.—30/11/81. Seen by me on the 30th.—W.C.B., 30/11/81.

## No. 17.

## Mr. H. Czerwonka's Minute to Superintending Officer, Contract No. 3.

Contract No. 3.

Alteration of Sewer form from B to C.

Sewerage, Sydney, 21 September, 1881.

HEREWITH are forwarded two tracings of drawing No. 14, one of which is for transmission to the contractor. This cross-section of the sewer has been decided on for extension between B and C, in lieu of that shown on contract drawings, and is also to be carried across the five arches, which have been decided upon recently by the Acting Engineer-in-Chief. A rough sketch on tracing cloth, indicating the manner in which it is intended to carry the sewer across these arches is also enclosed, but merely for the purpose of conveying to the Superintending Officer an intimation.

The concrete shown on drawing No. 8 had not been commenced by contractor on the date of my last inquiry about them. They may therefore now be constructed in two parts as regards height, one for arches up to sewer invert straight, the other on for sewer barrel above invert slanting, and Superintending Officer will please get out a design for them, as also for such increase of width or depths of foundations of abutments at C, as may appear necessary to him after exposure and proper scrutiny of the ground.

H.Cz.

Noted.—C.H.O.B., 22/9/81.

## No. 18.

## Mr. H. Czerwonka's Minute to Engineer-in-Chief.

Sewerage, 26 November, 1881.

Contract No. 3.

THE Engineer-in-Chief having stated to me yesterday afternoon that he regretted my having in his absence introduced changes from the contract design, I desire to repeat what I have already mentioned verbally, viz., that the changes which were proposed by me in consequence of the ordered widening to 9' and 12' respectively of the foundations between B and C, and assented to by the then Acting Engineer-in-Chief, can easily be countermanded by the Engineer-in-Chief, should he prefer doing so.

Up to yesterday at noon the contractor had nowhere commenced executing the altered cross-section of the sewer above invert line, nor had he made any preparation whatever for sinking or even constructing the 12' wide foundation wells beyond delivering on the ground one iron curb.

As far as I have heard, there is, moreover, little probability of contractor making much progress with the works before the question raised by him in regard to broken stone for concrete shall have been definitely decided.

H.Cz.

Will Mr. Czerwonka state why this was not given to me on the day it is dated?—I only received it this morning.—W.C., 29/11/81. Because I wrote it on Saturday after office hours.—H. Cz., 30/11/81. The Engineer-in-Chief for Sewerage. Why was it not given on Monday morning?—I only received it on Tuesday.—W.C.B., 30/11/81. Because I was fully occupied during the day with other official things.—H. Cz., 30/11/81. The Engineer-in-Chief for Sewerage. To

To rescind the orders given would only give the contractor further claim for delay and fresh alterations. With reference to the concrete I have told Mr. Czerwonka the specification is to be carried out. Mr. Czerwonka surely can interpret that clause relating to concrete which was drawn by him. I think the contractor should not have been delayed waiting my return to decide on this.—W.C.B., 1/12/81. Mr. Czerwonka, B.C. This paper was taken from Mr. Czerwonka's drawer and handed to me by him on 17th February, 1882.—F.C.P., 20/2/82. This paper has since been dealt with. See document in reference to settlement of all claims and disputes *re* Contract No. 3. It can now be filed.—C.H.O.B., 21/2/82. Put with other papers.—W.C.B., 21/2/82.

No. 21.

The Engineer-in-Chief to Mr. H. Czerwonka.

Dear Sir,

Sewerage, 7 December, 1881.

I am instructed by the Engineer-in-Chief to write and request that as you are too unwell to attend at office you will be good enough to forward by bearer the keys of your press, as any official papers therein may be required. Should there be any private papers they will be taken charge of by any person you may name, until such time as they are required by you.

The specification for ironwork, Contract No. 5, written by Mr. Bagge, cannot be found. If you know where it is will you please state in reply to this?

Yours respectfully,  
F. C. PIPER.

---

No. 22.

The Engineer-in-Chief to The Under-Secretary for Public Works.

*Re* Mr. Czerwonka's application for Leave of Absence.

8 December, 1881.

I FORWARD Mr. Czerwonka's application for leave. I hesitate what recommendation to make under the circumstances. Two years ago Mr. Czerwonka was recommended by me from his evident ability to manage under me the sewerage surveys, designs, and works.

For some time he worked very fairly but then began to evince a captious impracticable disposition, finding fault with every person engaged with him and proving most difficult to deal with.

I tried in consequence of his unquestionable ability in some ways to get on with him and make him useful, but during my visit to England he recommended the alteration of all my arrangements for the management of the works, recommended Mr. Bagge's transfer from this office to the field, removed Mr. M'Mordie, an officer with Indian experience, from charge of Rushcutters' Bay works, for which he had special fitness on account of his Indian experience in well foundations, and made a number of changes in the design for those works which I fear will cause a law-suit with contractor.

Kept contractors waiting my arrival for a settlement of the stone to be used in the concrete, in order that I might settle a defective point in a specification drawn by Mr. Czerwonka himself; he excused himself for not having advanced any further with the designs for the sewers by the statement that he had no draughtsman, though an additional mechanical draughtsman was employed during my absence, whom he now states could only do the mechanical drawing.

Mr. Czerwonka also visited the works, and without pointing out any defects to the officers in charge put most severe and indeed unjust remarks in writing after some time had elapsed; he has also evinced a desire to make everything as expensive and complex as possible, and submitted with much additional and objectionable matter a specification for the first section of big tunnel, the original of which corrected and altered in my writing was nearly complete before I left, and when asked for the drafts in my writing for comparison, stated that they had been thrown in the waste-paper basket; his estimate submitted with this was also excessive, nearly double what the work is likely to cost. Altogether Mr. Czerwonka, in my opinion and that of Mr. Wells, was making himself so impracticable that I had admonished him that things could not go on so any longer,—that our duty was to get the city sewerage done,—that the works were not progressing from wrangling with contractors and others, all traceable to Mr. Czerwonka's impracticability,—that I must bring the matter before the Minister, and advise his removal.

Mr. Czerwonka then sends in the certificate attached.

I

I am willing to believe that much of the disposition complained of proceeded from illness, but I think it necessary for my own safety to put the foregoing facts on record. Mr. Czerwonka does not make sufficient allowance for the material and men he has to deal with; things cannot be done with the slowness and precision that they can in Germany, where there is a Technical College, and a host of professors close to every work. It has also been pointed out to me in this morning's paper that Mr. Czerwonka has a lawsuit against him from New Zealand going on in the Courts; all may have conduced to the illness complained of, to which I fear Mr. Czerwonka contributes himself by excessive smoking; however it might be advisable to allow him the leave asked for, and at the expiration of the time have a medical examination as to Mr. Czerwonka's fitness to remain in the Service.

I will have the duties carried on in the meantime, but it will involve close application on my part to mature further contracts with Mr. Bagge as Mr. Czerwonka has been all this time studying the ground and levels, with a view to the preparation of designs, and this has to be all gone over again, with a host of other duties to attend to.

Should Mr. Czerwonka on his return to duty not prove that he is working with a will his services should be no longer retained.

If it is decided to give him the leave the simple intimation of the fact would be best, as other matters may only neutralize the advantage to be derived from the rest. This minute can be if it is thought fit given to him on his return to duty.

WILLIAM C. BENNETT.  
12/12/81.

Leave to date from day of certificate.

I think it right that before Mr. Czerwonka resumes duty that he should see this paper. We are now two and half years engaged on these sewerage matters, and no real progress has been made with the work. It is my opinion that no progress will be made as long as Mr. Czerwonka occupies the chief position in the office; this is not my experience alone but that of Mr. Wells' to support this view. However Mr. Czerwonka had better reply to this himself.

Mr. Czerwonka.—W.C.B., 17/1/82. Reply of this date herewith.—H.Cz., 25/1/82.

## The Engineer-in Chief's Minute to Under-Secretary for Works.

*Re* Mr. Czerwonka's suspension from duty.

Sydney, 25 January, 1882.

THE six weeks leave given to Mr. Czerwonka having expired on the 17th instant, he reported himself to me on that date.

I have given him the papers relating to his leave with the comments which I thought necessary to make on his conduct; he promised to give them to me on the following morning with reply, when I received the telegram herewith. I then asked him to come to the office; he did so, promising the replies on the following day; that was not complied with. He was again in the office on Monday morning and promised the replies next morning; instead I received the accompanying telegram.

I have not yet received reply, and as full time has been allowed him and I cannot arrange some important matters with the contractor while Mr. Czerwonka's position in the office is undetermined, and as I believe from the interviews I have had with him that there is not the slightest prospect of his being of any practical use in the Department, I have written to him this day suspending him from duty, and now recommend his removal from the service.

The works are of the greatest importance, and human life is being endangered and shortened every day.

Mr. Czerwonka has had every possible consideration, but has proved thoroughly impracticable, and insubordinate.

I beg the Minister will at his earliest convenience confirm Mr. Czerwonka's suspension and removal from the service, as his services are no longer required.

## Mr. H. Czerwonka's reply to Engineer-in-Chief's Minute.

Copy of Mr. Bennett's minute of 8/12/81  
and 17/1/82:—

Mr. Czerwonka's reply:—

I forward Mr. Czerwonka's application for leave. I hesitate what recommendation to make under the circumstances.

Two years ago Mr. Czerwonka was recommended by me, from his evident ability to manage, under me, the sewerage surveys, designs, and works.

For some time he worked very fairly,

but then began to evince a captious impracticable disposition, finding fault with every person engaged with him, and

proving most difficult to deal with.

I tried, in consequence of his unquestionable ability, in some ways to get on with him and make him useful, but

during my visit to England he recommended the alteration of all my arrangements for the management of the works.

Recommended Mr. Bagge's transfer from this office to the field.

If I recollect rightly the Engineer-in-Chief's recommendation for increase of my salary says something rather different.

Was that found out only after my conversation with Mr. John Rae on the tramcar?

This is an assertion requiring proof. I have certainly sent back to Mr. Bennett several persons who were manifestly incompetent for the work which was at that time required in connection with the Sydney sewerage; by so doing I have very likely displeased some people; but I deny most distinctly ever having found fault with anyone who was up to his work.

With how many people of similar position as myself has Mr. Bennett already "tried" to get on? Am I, or is my position at the Sewerage, that of an inanimate thing merely to be made use of as caprice might will it?

Up to the Engineer-in-Chief's departure for England I had been compelled by him not only to arrange for all the surveys, and to supervise the construction of all the works under contract (being ordered to inspect each of them at least once a week, and even to inspect and pass all materials supplied), but also to attend to the correspondence—to sign and be responsible for the correctness of all vouchers—to originate and, more or less, work out in detail all designs, and to draft the specifications and general conditions, as well as to read their proofs and otherwise to see them through print. For all this work I had as help in the office only three inexperienced cadets at the best of times, and not a single competent draughtsman, it being far more than any one person could satisfactorily perform for a lengthened period; and with the range of operations daily extending, I recommended that the works under construction should be placed in charge of a qualified engineer, to whom the superintending officers should be subordinate in every respect. This written recommendation of mine was approved of by the Acting Engineer-in-Chief, who fully admitted the judiciousness of the proposed arrangement, and would have been given effect to had the latter not felt that his position as *locum tenens* would last but a very short time.

As a matter of fact the course proposed by me was not carried out, and only the merest shadow of it initiated by Mr. Wells appointing Mr. Bagge to relieve me of the weekly inspection of the works in course of construction.

Mr. Bagge's name may have been mentioned by me in connection with the above recommendation, as the officer upon whom the said engineership would probably have to devolve in due course of seniority, but the arrangements actually carried out were altogether at variance with my recommendation, and contrary to my desire.

Although the aforesaid two sentences of Mr. Bennett's minute literally take exception only to my having "recommended" yet their wording is very apt to mislead anyone who is not acquainted with the actual facts.

I have therefore thought it judicious to clearly state the latter.

As regards the literal charges, *i.e.*, of having dared to make recommendations at all, I can only say that I always did and still do consider it my duty to recommend the alteration of anything I perceive or know to be defective be it arrangement or anything else.

The above two charges read in conjunction with the one that during 2½ years no real progress had been made (see Mr. Bennett's minute of 17/1/82) might, perhaps, go far to throw light upon the real state of things, viz., that Mr. Bennett makes the arrangements, and afterwards blames me for their bad consequences.

removed

removed Mr. M'Mordie, an officer with Indian experience, from charge of Rushcutters' Bay works for which he had special fitness on account of his Indian experience in well foundations, and made a

number of changes in the design for those works which I fear will cause a law-suit with contractor.

Mr. M'Mordie's removal from the local supervision of contract No. 3 (Rushcutters' Bay) did take place against my distinctly expressed wish, by positive orders of the Acting Engineer-in-Chief, on account, I believe, of some very pronounced disagreement between Mr. M'Mordie and Mr. Francis, the Contractor's Agent.

It was beyond my power to make any changes at all in the design. The change in width of foundations of that part of the sewer which extends from the arches near C to the sea-shore was ordered by the Acting Engineer-in-Chief after consultation—I believe with Mr. Moriarty—and without reference to me. In consequence of that change I recommended for very good constructive reasons—

- (1.) A differently shaped sewer trunk, and
- (2.) Enlarging of the external diameter of the only four foundations wells, which the Acting Engineer-in-Chief had ordered for execution.

The latter having consented to my proposals in implicit reliance upon my professional knowledge, I am fully prepared to take upon myself any blame which can be proved to arrive from that course. It is, however, not on the strength of any changes recommended by me, and adopted by Mr. Wells, that the contractor could make good a claim for loss of time, but rather—if at all—upon the following grounds:—

- (a) Delay in determining the foundations to be executed between New South H. Road and the sea.

When the excavation of the trench reached a certain depth and exposed to view the substances of which the lower strata are composed, it became clear to me that it would be unsafe to carry out the sewer as designed, and I recommend to the Engineer-in-Chief that the well foundations should be continued to the outlet. After inspection of ground, and I believe consultation with Mr. Moriarty, Mr. Bennett declined to act upon my recommendation, but did not state what else he wished to be carried out.

He left for England, and Mr. Wells had ultimately to come to a decision—

- (b) Stoppage of works on the portion from near C to the abutment at D by order of the Acting Engineer-in-Chief, who preferred to leave the decision of the kind of foundation to be executed on that portion to Mr. Bennett himself, although until then no uncertainty whatever had existed in regard to that part of the foundations.

Up to the commencement of my leave of absence no decision had been given on this subject, although I had made the Engineer-in-Chief aware of its existence in a minute addressed to him.

- (c) Delay in answering contractor's letter to the Acting Engineer-in-Chief concerning the kind of stone to be used for concrete.

The said letter was received at the office several weeks before the Engineer-in-Chief's return.

Mr. Wells preferring to leave the settlement of that question to Mr. Bennett himself the matter was, on the latter's return, duly placed before him. Up to the commencement of my leave the contractor had, however, not yet received a written reply to his letter.

I flatly deny any such thing. As soon as the contractor's sandstone sample was submitted to me, I rejected it most unreservedly, gave the same opinion to the Acting Engineer-in-Chief in contractor's presence, and have also embodied it in the minute hereinbefore referred to under B. As soon as my opinion was asked it was promptly given, but I had no authority to give a final decision over-riding the opinion of my superior, or to answer the contractor's letter which was not addressed to me.

On the contrary, the general instructions received by me upon the point of correspondence are most positive in denying me any such powers.

The increase in price of 23/ per cubic yard of concrete made, or to be made, with granite gneiss, or similar hard stone, and which was as good as settled between Mr. Bennett and the contractor, I could not justly recommend, though

the

Kept contractors waiting my arrival for a settlement of the stone to be used in the concrete.

in order that I might settle a defective point in a specification drawn by Mr. Czerwonka himself.

he excused himself for not having advanced any further with the designs for the sewers by the statement that he had no draughtsman.

Though an additional mechanical draughtsman was employed during my absence

whom he now states could only do the mechanical drawing. Mr. Czerwonka also visited the works, and without pointing out any defects to the officers in charge put

most severe and indeed unjust remarks in writing

after some time had elapsed.

he has also evinced a desire to make everything as expensive and complex as possible and submitted with much additional and objectional matter a

specification for the first section

of a big tunnel

the Engineer-in-Chief very much desired it, in order, apparently, to shift the responsibility for granting such increase off himself.

I never asked Mr. Bennett to do so; moreover, I think, he knows by this time that I am fully able to interpret my own specifications, although I might not be able to satisfactorily do the same with his.

The defect is not in the specification but rather in the carrying out of its provisions: Clause 90 of specification states: "All materials supplied by contractor shall be the best of their respective kinds, and must be submitted to the engineer for his approval. None but the approved materials may be used in the works," and clause 97 runs thus:—"Broken stone shall be of well burnt unglazed earthenware pipes, hard burnt bricks, hard red sandstone, granite, gneiss, basalt, or similar hard stone."

To my mind there is but one interpretation of these clauses, viz., that the choice of the material is optional with contractor, so long as the quality satisfies the engineer's requirements, and that in the event of his being unable to furnish of sufficient good quality one of the specified kinds of stone, he must supply some of the other kinds named in the specification at the schedule rate contracted for.

There was no occasion to excuse myself on that point, my time had been fully occupied with multifarious other duties.

Mr. Bennett should know, and perhaps he does, that without competent assistance greater progress could not be reasonably expected.

I had frequently applied for such but it had always been refused, and therefore the blame does not rest with me.

How could it be an additional one, if before Mr. Hammer came the office could not boast the possession of any draughtsman at all, either a mechanical or an unmechanical one?

Would it be right to expect from a professed mechanical draughtsman any other than mechanical drawing?

I was compelled to do so by the Engineer-in-Chief's instructions.

To Mr. M'Mordie I have frequently pointed out defects. Whether there was any necessity for doing so to Mr. Smail I do not recollect at present.

They could have been much severer in some cases.

How does Mr. Bennett know that they were unjust?

How is it that I have never before been informed of this?

Until the correctness of that general assertion is proved to me I absolutely deny it, and certainly till I shall have been made aware of the case or cases referred to.

Technical questions require deliberation and often very much study indeed, besides not unfrequently reference to documents; moreover, everything cannot be done first, and things done hastily are seldom done well.

Everything is rather a comprehensive term.

Not knowing what this refers to I cannot meet the charge.

I hold that it is my business to make important documents upon which depends the judicious expenditure of many thousands of pounds, as complete as I possibly can on the basis of my general instructions, and without infringing absolutely prohibitory orders.

In this case the Acting Engineer-in-Chief trusted entirely to me for getting that specification ready for tendering.

Was I knowingly to pass over what by me were considered evident deficiencies in that complex document which was on its way down to the Under-Secretary to be advertised for tenders, when the Engineer-in-Chief's return from England put a dead stop to all further action with it, although I had been obliged, during the preceding three weeks, to work at it every night till late in order to comply with promises made by the Minister for Works to Parliament. If such deficiency had become apparent during the execution of that contract No. 4, would Mr. Bennett not perhaps have blamed me "for drawing a defective specification" with greater approach to truth than he has done as hereinbefore cited in regard to the stone question of contract No. 3? Whether the additional matter is really as objectionable as represented is a question upon which opinions might be found to differ.

Tho

The original of which corrected and altered my writing was nearly complete before I left

and when asked for the drafts in my writing for comparison, stated that they had been thrown in the waste-paper basket.

His estimate submitted

with this was also

excessive, nearly double what the work is likely to cost.

Altogether, Mr. Czerwonka, in my opinion and that of Mr. Wells,

was making himself so impracticable,

that I had admonished him—

that things could not go on so any longer—that our duty was to get the city sewerage done—

that the works were not progressing from wrangling with contractors and others—all traceable to Mr. Czerwonka's impracticability—

that I must bring the matter before the Minister and advise his removal.

Mr. Czerwonka then sends in the certificate attached. I am willing to believe that much of the disposition complained of proceeded from illness, but I think it necessary for my own safety to

put the foregoing facts on record.

Mr. Czerwonka does not make sufficient allowance for the material and men he has to deal with; things cannot be done with the slowness and precision that they can in Germany, where there is a Technical College and a host of professors close to every work.

It has also been pointed out to me in this morning's paper that Mr. Czerwonka has a law-suit against him from New Zealand going on in the Courts; all may have conduced to the illness complained of, to which, I fear, Mr. Czerwonka contributes himself by excessive smoking; however, it might be advisable to allow him the leave asked for, and at the expiration of the time have medical examination as to Mr. Czerwonka's fitness to remain in the Service.

Does Mr. Bennett thereby mean to imply that he had effected any particular improvement upon my draft?

The words "nearly complete" seem to me to be an admission that certain deficiencies existed; if so I was bound to supply the want according to the best of my judgment, even by the introduction of additional matter.

The draft was not in the Engineer-in-Chief's writing.

The waste paper-basket is usually the fate of printer's copy when done with, and sometimes a draft specification is consigned to the same place even before having been set in type, as I suppose Mr. Bennett's draft of specification for Contract No. 2 was.

Supposing the estimate to be excessive, what harm would that be?

And how has that fact been ascertained, if fact it be at all?

I hope not by comparing with any estimate made by Mr. Bennett himself, for the experience of all former sewerage contracts having proved him not to be the best judge in such matters, as for instance Contract No. 1 (Prince Alfred Hospital), which was estimated by him at about £6,500, and is far more likely to cost nearer £12,000.

Would it not be better to allow Mr. Wells to speak for himself, and to adduce reasons for any views he might entertain?

If by impracticable is meant that I have not been pliable enough to sign documents and to make recommendations when I could not conscientiously do so, I plead guilty to the charge; but in all other respects I have endeavoured to carry out the views of my superior officers, or to make the best of the arrangements ordered, however little I may have professionally approved of them.

Mr. Bennett is in the habit of making all sorts of apparently random statements, and preventing their being refuted on the spot by pleading "that he has not time to listen."

There is no difference of opinion about that between Mr. Bennett and myself, but there might be about the best remedy—quite so.

It is very easy to make indefinite assertions; but if such charges are to be answered the cases referred to should be distinctly specified; until that is done I maintain that Mr. Bennett's vague statements are unwarranted by facts. I trust that before accepting Mr. Bennett's the Minister will cause a fair and searching investigation to be made into all the circumstances of the case.

Not a minute too soon, unless I wished that my reason should suffer permanently.

My illness was the result of mental overwork and excessive worry, which latter is well known to be far more injurious than any amount of quiet and steady hard work.

What Mr. Bennett is pleased to call foregoing facts are not facts at all, but a string of unfounded assertions and misrepresentations.

There is no valid reason why material and men here should not be as good as anywhere else.

Habitual slovenliness and self-sufficient ignorance are not good excuses in my eyes.

Mr. Bennett's ideas of the relation between professors and works do not seem to be very clear.

Any certainty is not half so bad as a constant sense of insecurity arising from the knowledge of being surrounded at every step by hidden danger.

I have heard medical men assert that smokers are generally of better disposition and temper than non-smokers.

Is there no other officer in regard to whom this plan might be adopted with far more advantage to the Public Service?

I will have the duties carried on in the meantime, but it will involve close application on my part to mature further contracts with Mr. Bagge, as Mr. Czerwonka has been all this time studying the ground and levels, with a view to the preparation of designs, and this has to be all gone over again, with a host of other duties to attend.

Should Mr. Czerwonka on his return to duty not prove that he is working with a will his services should no longer be retained.

If it is desired to give him the leave, the simple intimation of the fact would be best, as other matters may only neutralize the advantage to be derived from the rest.

This minute can, if it is thought fit, be given to him on his return to duty.

WILLIAM C. BENNETT,  
12/12/81.

Leave to date from day of certificate.

I think it right that before Mr. Czerwonka resumes duty that he should see this paper. We are now two and a half years engaged on the sewerage matters, and no real progress has been made with the work.

It is my opinion that no progress will be made as long as Mr. Czerwonka occupies the chief position in the office. This is not my experience alone, but that of Mr. Wells to support this view. However, Mr. Czerwonka had better reply to this himself.

Mr. Czerwonka.

W.C.B.,  
17/1/82.

One would think from this that "all this time" I had really done nothing else than study the ground and levels?

Need not be done, since all information gathered by me or at my instance is fully recorded on the plans and sections.

Why does Mr. Bennett take upon himself more than he is able to attend to?

There is in this sentence a base insinuation which will not bear investigation.

Very thoughtful.

I am told that a report had emanated from the office that I was not likely to return any more. In that case I should of course never have seen these accusations. This would have curtailed the leave by two days.

The startling assertion of the Engineer-in-Chief that for two and a half years no real progress has been made with the work under his charge is a very grave one indeed; whether literally true or not, the very fact of its having been made at all does not reflect credit upon himself.

Still less creditable is his attempt to fasten his own shortcomings on a comparatively helpless subordinate officer, who has had no option but to carry out his superior's orders, however much they may have been at variance with his own judgment; who has frequently been forced to omit things which he knew to be necessary, and to do others which he knew to be positively foolish; whose attempts at bringing about a better state have been disparaged and frustrated; who has often lamented the shortsightedness and vacillation in technical matters of his superiors; who has long seen the deplorable state the sewerage was drifting into, yet been utterly powerless to prevent it; who had at last become utterly sick at heart and worried almost to death, had to seek change of air and scene in order to prevent permanent injury to his health. Who now, on reporting himself for resumption of duties, is suddenly met with a series of most unwarranted accusations, which, though cleverly composed of a grain of truth with plenty of the reverse, would nevertheless on close investigation be found amply sufficient to convict their originator of insincerity, and who is precluded from properly vindicating himself unless a full inquiry be granted him upon special petition.

It must be apparent to most people, and is indeed well known to many, that the real cause of the slow progress made with the Sydney sewerage since its commencement in October, 1879, is amongst others the absence of proper organization of the whole Department and of a larger staff of efficient assistants, the fact of the Engineer-in-Chief not being abreast with the times in regard to the subject he has undertaken to deal with, and the consequent want on his part of clear views respecting the general requirements of the design and the best means of accomplishing what is wanted.

I trust due allowance will be made for my unvarnished reply; but Mr. Bennett's unprovoked attack is of such a nature that regard for my professional standing requires plain speaking.

The use of much plainer language would indeed have been far casier to me and taken less time.

H. CZ.,  
25/1/82.

The above having been written from memory, for want of access to official records, dates and figures could only be stated approximately.—H. Cz., 25/1/82.

No. 33.

The Engineer-in-Chief to Mr. H. Czerwonka.

Sir,

Sydney, 27 January, 1882.

The letter enclosed was written to you on the 25th instant, and Mr. Piper was instructed to forward it on that day if no communication was received from you, but it was delayed by him on receipt in office of your paper of same date.

I now forward the letter, as I see no reason in your paper to recall the suspension.

I have forwarded your paper to the Minister with memo. of the 25th instant, with further recommendation.

I have, &c.,

WILLIAM C. BENNETT,  
Engineer-in-Chief.

No. 34.

Mr. H. Czerwonka to The Engineer-in-Chief.

Sir,

3, Leoville-terrace, Randwick, January 30, 1882.

While acknowledging receipt, on the 28th instant, of your two letters dated January 25th and 27th respectively, I enclose a letter to the Honorable the Minister for Public Works, and request prompt despatch of the same to its address.

As regards your P.S. at back of the first above-mentioned letter, I am compelled to class its accuracy with that of the many statements made by you in the correspondence which has been referred to in the enclosure, and regret therefore my utter inability to comply with your request.

I have, &c.,

H. CZERWONKA.

I forward the papers to the Minister herewith.—W.C.B., 1/2/82. The paper in question was returned by Mr. Czerwonka himself with his reply.—W.C.B., 1/2/82.

No. 35.

The Engineer-in-Chief to The Under-Secretary for Public Works.

Mr. Czerwonka's reply to statements on paper granting him leave.

I FORWARD the enclosed paper to the Minister, also a minute written by me on the 25th instant. Mr. Czerwonka's paper herewith was left in office on that date and only opened by me on the 26th; the paper, which I think it unnecessary to comment on, appears to give all my reasons for his removal from the service additional force and of itself subjects him to removal for writing him an insubordinate and insulting letter. With respect to myself, if the Minister thinks it necessary to inquire into any of the allegations of Mr. Czerwonka I will devote all my attention and energy to clearing up any of his statements; but as it is clear Mr. Czerwonka's services can no longer be retained, and as he has had seven weeks off duty already, the sooner he is informed his services are no longer required the better.

W.C.B.,

27/1/82.

Under-Secretary, B.C. It seems to me from the correspondence that the relations between Mr. Bennett and Mr. Czerwonka are of such a character that it would be most injudicious that they should be permitted longer to exist. Under the circumstance the recommendation above will be carried out.—J.L., 7/2/82. Mr. Czerwonka.—8/2/82. Mr. Bennett, B.C., 8/2/82.—J.R.

No. 36.

Mr. H. Czerwonka to The Secretary for Public Works.

Sir,

3, Leoville-terrace, Randwick, 30 January, 1882.

On reporting myself for resumption of duty at the expiration of my leave of absence (17/1/82), two minutes No. 624, the one double dated 8/12 and 12/12/81, the other dated 17/1/82, were handed to me by the Engineer-in-Chief, with the intimation that I would not be allowed to do any work in connection with the sewerage before those minutes had been answered by me.

In the afternoon of the 25th instant a letter, addressed to the Engineer-in-Chief and containing my reply, was tendered by me to the Sewerage Clerk, who peremptorily refused its acceptance on the plea "that he was not Mr. Bennett's messenger."

Mr. Bennett being at that time absent from the office, the junior messenger kindly consented to deliver it to him, and I have since been favoured by the Engineer-in-Chief with the two letters, dated January 25th and 27th respectively, copies of which are enclosed herewith.

In consequence thereof I have the honor to ask as a favour that you may be pleased to cause a searching inquiry to be made into the truth, or otherwise, of the statements made by the Engineer-in-Chief in the hereinabove cited documents.

I have, &c.,

H. CZERWONKA,  
First Assistant Engineer for Sewerage.

18

No. 37.

The Engineer-in-Chief to Mr. H. Czerwonka.

Dear Sir, Sewerage Department, Sydney, 14 February, 1882.  
I am instructed to write and ask if you will be good enough to send, or call at the office with the keys belonging to the drawers of your table. If you should have any private papers in them, they will be taken care of by anyone you may name, until such time as will be convenient for you to call yourself.

I have, &c.,  
F. C. PIPER.

No. 38.

The Engineer-in-Chief to Mr. H. Czerwonka.

Dear Sir, Sewerage Department, 21 February, 1882.  
Will you be good enough to call at the office for your cheque for the amount of salary and out-door expenses, which has been ready for payment since 20th instant, on which date you stated you would call, and oblige

Yours, &c.,  
F. C. PIPER.

P.S.—I would have paid it into the Bank for you had I known which one to have lodged it with.—  
F.C.P.

No. 39.

Mr. H. Czerwonka to The Secretary for Public Works.

Sir, 3, Leoville-terrace, Randwick, 27 March, 1882.  
Finding it extremely difficult to obtain further professional employment in Sydney without being able either to produce a certificate of my last occupation or to assign a valid reason for my recent abrupt dismissal from the sewerage, I request that you will be good enough to favour me with a certificate as to the manner in which I have discharged my professional duties while engaged at the Sydney Sewerage (from 10/10/79 to the 8/3/82), and also distinctly state the reason for my sudden dismissal.

I have, &c.,  
H. CZERWONKA.

Mr. Bennett, B.C.—J.R., 30/3/82.

The reasons for Mr. Czerwonka's removal are stated in my report of the 25th January herewith. The only testimonial received from Mr. Czerwonka when he joined the Department is herewith, and might be returned to him, retaining copy.—W.C.B., 3/4/82. Under-Secretary, B.C.

Return testimonial.—J.L., 5/4/82. Copy attached.—H. CZERWONKA, 12/4/82. Commissioner for Roads, B.C., 12 April, 1882.—G.H.

No. 40.

The Acting Under-Secretary for Public Works to Mr. H. Czerwonka.

Sir, Department of Public Works, Sydney, 12 April, 1882.  
In reply to your letter of the 27th ultimo, I am directed to inform you that the reason of your removal from the Public Service is contained in my letter to you of the 8th February last.

I am to add that it is unusual in the Public Service to give testimonials, and the only one presented by you on your appointment is enclosed herewith.

I have, &c.,  
GERALD HALLIGAN,  
For the U.S.

No. 41.

Mr. H. Czerwonka to The Secretary for Public Works.

Sir, 460, Old South Head Road, Paddington, 2 October, 1882.  
I do myself the honor to acknowledge receipt of your letter of the 12th April, 1882, No. 82/2,129, informing me that the reason of my removal from the Public Service is contained in your letter of the 8th February last, and adding that it is unusual in the Public Service to give testimonials, &c. On referring to that letter I fail, however, to detect a single sentence which could be understood to convey a reason for my dismissal, and I shall therefore thank you for being more explicit upon that point.

While regretting that it is unusual in the Public Service to give testimonials, I cannot but take exception to the statement, that a testimonial had been presented by me on my appointment. As a matter of fact no such thing has been done by me.

In connection therewith I beg to point out that the note enclosed with the abovementioned letter, No. 82/2,129, and therein referred to as a testimonial, is a private letter of introduction from a friend of mine to a gentleman in Sydney, and had found its way into the records of the Sowerage Branch entirely without my knowledge. That so many inaccuracies should have crept into a short letter, emanating from your Department, might justly cause surprise but for the fact that that said letter bears the initials of Mr. W. C. Bennett, which leads to the inference that it has been drafted under the inspiration of that gentleman, who has more than once given ample proof of his consummate skill in distorting facts and managing correspondence, and whose incompetence in professional matters, coupled with his many shifts to hide the same, has been such a fruitful source of unnecessary friction in the Department, besides in other respects proving highly detrimental to the public interest.

I have, &c.,  
H. CZERWONKA.

Roads, B.C., 5/10/82.—J.R. Seen.—W.C.B., 6/10/82.

No. 42.

19

No. 42.

## Mr. H. Czerwonka to The Engineer for Existing Lines.

Sir, 3, Leoville-terrace, Randwick, 28 March, 1882.

I have the honor to apply for employment on the Tramways under your charge, and in doing so desire to state distinctly that I do not seek any permanent position, but merely temporary occupation from day to day and terminable on either side at twenty-four hours' notice.

Enclosed are copies of two previous certificates. Regarding my last employment, I have applied for one but as yet not received it. I believe, however, that I am sufficiently well known here in professional circles, so that personal inquiry, if deemed necessary, could easily supply that want.

Awaiting the favour of a reply at your earliest convenience,

I have, &c.,  
H. CZERWONKA.

Inform no vacancy at present.—G.L., per G.C., 30/3/82.

## [Enclosures.]

General Institute of German Architects and Engineers, Baden Branch.

Carlsruhe, 15 May, 1878.

MR. HENRY CZERWONKA, civil engineer, having been elected by the General Institute of German Architects and Engineers, to be a Foreign and Corresponding Member of the said Institute, the present document is issued in witness thereof.

R. BAUMEISTER, Professor,  
President.  
F. ENGLISSER, Civil Engineer,  
Secretary.

Polytechnic School of the Grand Duchy of Baden.

Carlsruhe, 23 May, 1882.

THIS is to certify that Mr. Henry Czerwonka, of Königsberg i Prs., civil engineer, has been a student of engineering in the above-named Institution during the years 1862 and 1863. The lectures attended by Mr. Czerwonka embraced all branches of technical science which constitute the curriculum for engineers at this Technical University, and more particularly the subjects of general engineering, and railway, hydraulic, and bridge engineering.

All of his studies having been pursued by Mr. Czerwonka with praiseworthy zeal and very great success; he occupied during the second year the position of Assistant to the Professor in the Senior professional course.

H. STERNBERG,  
Engineer-in-Chief and Professor.

R. BIRNBAUM,

[L.S.] Director of the Polytechnic School of the Grand Duchy of Baden.

## The Engineer for Existing Lines to Mr. H. Czerwonka.

Sir, Railway Department, Office of Engineer for Existing Lines, Sydney, 31 March, 1882.

In reply to your letter of the 28th inst., applying for employment, I have to inform you that there is no vacancy at present.

I am, &c.,  
GEORGE COWDERY.

No. 44.

## Mr. H. Czerwonka to The Engineer for Existing Lines.

Sir, 3, Leoville-terrace, Randwick, 11 April, 1882.

Hearing that the rapid extension of the Tramways necessitates the augmentation of your staff, I again offer my services in any capacity, and on the distinct understanding that my employment be merely temporary from day to day, and terminable on either side at 24 hours' notice.

Copies of certificates have been attached to my previous application.

Awaiting the favour of a speedy reply,

I am, &c.,  
H. CZERWONKA.

I recommend that Mr. Czerwonka be employed temporarily as draftsman in this office at £4 15s. per week.—G.C., 11/4/82. Commissioner. Appd. temporarily.—CH. A. G., 11/4/82. Mr. Cowdery, B.C. Noted.—G.L. per G.C., 13/4/82. Commissioner. Examiner, B.C., 17/4/82.—G.B. Seen.—J.P.F., 21/4/82.

No. 45.

## Mr. H. Czerwonka to The Chief Draftsman, Railway Department.

Dear Sir, 3, Leoville-terrace, Randwick, 15 May, 1882.

I beg to inform you that it is impossible for me to attend at the office to-day and to-morrow, since in addition to sickness in the family I have not only to find a new roof whereunder to place them, but also by Wednesday next a sum of money wherewith to satisfy the present demands of the official assignee before ratification of the directions given at the meeting of my creditors on the 3rd inst. will take place.

I hope that under these very pressing circumstances my absence from the office will be excused.

I am, &c.,  
H. CZERWONKA.

Mr.

Mr. Czerwonka has been absent Wednesday, 3rd Absent.  
 4th Half-day.  
 5th Worked three hours.  
 8th Half-day.  
 9th Absent.  
 13th do.  
 15th do.—A.L.

In consequence of the irregular time kept by Mr. Czerwonka, I recommend that his services be dispensed with at the end of the present month.—G.C., 22/5/82. Commissioner. Appd.—He was only taken on temporarily.—Ch. A. G., 25/5/82. Mr. Cowdery, B.C. Noted.—G.L., per G.C., 29/5/82. Commissioner. Examiner, B.C., 30/5/82.—G.B. Seen.—J.P.F., 6/6/82.

No. 46.

The Engineer for Existing Lines to Mr. H. Czerwonka.

Railway Department, Office of Engineer for Existing Lines, Sydney, 27 May, 1882.

Memorandum to Mr. Hyndman.

THE services of Mr. Czerwonka as a draftsman in this Department are to be dispensed with after the 31st May.

Please inform him accordingly.

GEORGE COWDERY.

Mr. Czerwonka informed.—R. A. H., 29/5/82.

1882.

## NEW SOUTH WALES.

## DEPARTMENT OF LANDS.

(REPORT FOR 1881.)

Presented to Parliament by Command.

Sir,

Department of Lands, Sydney, 17 August, 1882.

I have the honor to submit for your consideration the Second Annual Report upon the working of this Department, being for the year ended 31st December, 1881.

The accompanying returns, Nos. I to XVII, show in a tabular and concise form the action taken by the Department with respect to the alienation of Crown Lands by sales at auction, and by after auction selection; in virtue of improvements; and under the 9th, 10th, 11th, and 12th clauses of the Crown Lands Alienation Act of 1861; the leasing of Crown Lands under pre-emptive or grazing right, and by auction; as well as other matters of general interest dealt with during the year.

Schedules I, II, and III show the result of the various auction sales of land, and that the average prices realized were, for—

	£	s.	d.	per acre, as against	£	s.	d.	per acre in 1880.
Town land .....	30	7	5	17	8	0	17	8 0
Suburban „.....	5	13	6	4	5	0	4	5 0
Country „.....	1	3	6	1	4	2	1	4 2

the small reduction in the price of country land being mainly caused by sales at £1 per acre after the land had been previously offered at a higher rate, but not bid for, and having remained for a time open to selection after auction at such higher rate.

On comparison with the corresponding Schedules in the Report for 1880 briefly summarised as follows—

	1880.						1881.							
	Offered.			Sold.			Per cent. sold (about.)	Offered.			Sold.			Per cent. sold (about.)
	a.	r.	p.	a.	r.	p.		a.	r.	p.	a.	r.	p.	
Town.....	927	3	38½	485	2	1¾	52	1,162	1	9	600	3	8	51½
Suburban .....	4,398	2	2½	1,668	1	28	38	5,362	2	20	2,291	0	17	42½
Country .....	2,015,397	3	0	346,487	3	0	17	1,258,427	1	37	523,657	1	37	41½

It will be seen that though 25 per cent. more town land was offered, the sales increased proportionately, and that there was a still greater demand for suburban land, though 37 per cent. more of such land was submitted to auction; as regards country land, the result is even more noticeable. In 1880, 2,015,397 acres 3 roods were offered for sale, resulting in the alienation of 346,487 acres 3 roods; in 1881, 1,258,427 acres 1 rood 37 perches were offered (being 756,970 acres less than in the previous year), and 523,657 acres 1 rood 37 perches sold, being an increase of over 50 per cent., and the proportion of sales to the area offered rose from 17 per cent. in 1880 to 41½ per cent. in 1881.

In addition to the area thus alienated at auction, is that selected under the 25th clause of the Lands Acts Further Amendment Act of 1880, after submission to auction without being sold, viz., 328,202 acres 3 roods 33 perches, which realized £348,876 15s. 9d., or an average price of £1 1s. 3d. per acre (see Schedule IV), as against that sold in the last seven months of 1880, i.e., from the date the Further Amendment Act of 1880 became law, viz., 39,419 acres 1 rood 20 perches, for the sum of £42,652 13s. 10d., averaging £1 1s. 8d. per acre, being an increase in area of 288,783 acres 2 roods 13 perches.

The total area so alienated by auction and by after auction selection being—

	a.	r.	p.	£	s.	d.
In 1880 .....	388,061	0	4¾	478,207	18	8
In 1881 .....	854,752	1	15	996,414	14	5

Schedule

Schedule V shows the manner in which the guarantee deposits have been appropriated, and the large increase in the applications under the 30th clause of the Amendment Act of 1875, to have land measured for sale, viz., from 395,674 acres in 1880 to 1,056,045 acres in 1881, being no less than 660,371 acres more, tends to show that the demand for land to be sent to auction sale was increasing.

It may be pointed out that these amounts do not agree with the Treasury returns, for the following and perhaps other reasons, that while this Department shows the area sold, and the amount offered for the land during the year, the Treasury reports the absolute receipts, which include the balances due on sales made in the last three months of 1880, which became payable in the early part of 1881, and exclude the greater part of the balances of the sales in the corresponding portion of that year, similarly due in 1882.

Schedule VI deals with Volunteer Land Order applications, which indicates a steady decrease, owing to the change in the Volunteer Law.

Schedule VII shows the land applied for in virtue of improvements, under the 2nd clause of the Lands Acts Amendment Act of 1875, by pastoral tenants, the holders of pre-emptive leases, and the occupants, under miners' rights and business licenses, of land on Gold-fields, and is intended to exhibit the result of the action taken on all cases.

There is a decrease in the number of these applications, as compared with 1880, of 457, the area applied for being less, viz., 105,243 acres 1 rood 17½ perches; this reduction is principally owing to many lessees having already purchased the maximum area permitted by the 13th clause of the Lands Acts Further Amendment Act of 1880.

During the year the total area sold was 474,098 acres 3 roods 26½ perches, the purchase money amounting to £487,694 17s. 9d., (exclusive of a sum of £1,618 2s. 2d. collected by way of fines), being double that alienated in the previous year. The increase may be accounted for partly from the services of the surveyors being more readily available for dealing with this class of sales, in consequence of which it has been found possible to dispose of a large number of applications made prior to the passing of the Lands Acts Further Amendment Act of 1880, as well as a fair proportion of those made under that Act, and also from the present system of valuations, in lieu of appraisements, except where claimed, or considered necessary by the Minister, enabling cases to be dealt with in a more expeditious manner.

It has been deemed advisable to continue to exhibit separately the areas gazetted for sale during the first nine and the last three months of the year, as none of those approved during the latter period need be completed until the following year, when the amounts received will be accounted for.

Schedule VIII exhibits an analysis of the average prices obtained for land so sold, from which it appears that while the price obtained for town land diminished, that for suburban land increased, and for country land was slightly higher.

Schedule IX shows the alienations made under the 9th, 10th, 11th, and 12th clauses of the Crown Lands Alienation Act of 1861, providing respectively for the sale of reclaimed land, the purchase of unnecessary roads, the disposal of areas so small or so peculiarly situated as not to fall under ordinary sale, and the rescission of reservation and alienation of water frontages, being a considerable reduction on the area sold in 1880 under the same clauses of the Act.

The difference between the figures given in these returns and those furnished by the Treasury is made up by £2,648 paid as deed fees on improvement purchases, added to balances and deed fees on applications under the 31st clause of the Lands Acts Amendment Act of 1875, which have been completed during the year, and by sales made under the Crown Lands Purchases Validation Act of 1881, being a gross amount of £4,229 2s. 1d.

Of the applications under the (since repealed) 31st clause of the Lands Acts Amendment Act of 1875 remaining undisposed of at the end of 1880, 12 for 1,353½ acres were refused, 12 for 1,960 acres were, together with 25 per cent. of the deposit, forfeited, the remaining 75 per cent. being refunded according to law, and 70 for 7,776 acres were approved, the land being appraised at an average of £1 1s. 5d. per acre; thus leaving 143 applications for 19,175 acres 3 roods 23 perches still outstanding, and on the point of being finally dealt with.

Schedule X specifies the various dedications for recreation and other public purposes, those for religious purposes being in satisfaction of promises given prior to the 11th May, 1880, the date of the first resolution of the Legislative Assembly prohibiting such grants for the future. In addition to the sites dedicated for schools, temporary reservations of adjoining lands in areas not exceeding 40 acres are also made for school paddocks, playgrounds, &c., where the land is available.

Under the Public Railway Land Resumption Act of 1874 the following resumptions have been made:—

Gunnedah to Narrabri ... ..	15 portions, containing 102 acres
Dubbo to Nyngan ... ..	8 " " 60 "
Uralla to Glen Innes ... ..	29 " " 145 "
Orange to Dubbo ... ..	4 " " 7 "
Wallerawang to Mudgee ... ..	32 " " 127 "
Narrandera to Hay ... ..	1 " " 20 "

During the year it has been found necessary to obtain Parliamentary authority for the resumption of 62 portions of land dedicated for religious and other public purposes, being cases where the land was found, after dedication, to be unsuitable, which entailed a large amount of work.

There were 83 conflicting cases dealt with by appraisal, being chiefly disputes between lessees and conditional purchasers as to the value of improvements. Appraisements were also made in eight cases as to the value of improvements on reserved land which had been conditionally purchased after the revocation of the reserves, as provided by the 12th clause of the Lands Acts Further Amendment Act of 1880.

There were submitted to and approved by His Excellency the Governor and the Executive Council 2,150 cases dealing with reservations from sale and lease, temporary commons, designs of towns and villages, alteration of such designs, and the appointment of trustees for recreation grounds, cemeteries, &c.

Many complications were prevented by the new system of notifying to the local Land Agents all reservations and revocations of reserves immediately on the same being gazetted, tracings being subsequently forwarded with the least possible delay; 3,300 such notices have been issued.

Packets containing 16,160 copies of 1,370 lithographs of counties, parishes, towns, and villages were forwarded to the local Land Agents for sale, in addition to a large number supplied direct to private individuals.

Abstracts

Abstracts of all reserves, dedications, &c., were regularly laid before Parliament during the session, at the commencement of each month.

All matters relating to the oyster-beds are now dealt with in the Department of the Colonial Secretary, excepting the leasing of the foreshores, which is first referred to this Department as to objections.

Schedule XI indicates the number of deeds prepared (in duplicate) during the year, and the clauses of the Acts under which sales were effected. In some of the cases of the Volunteer Land Order grants the areas were consolidated and single deeds of grant issued, which accounts for the area being apparently in excess of that prescribed by law.

There was a marked increase in the number of deeds prepared, viz., from 6,374 for 688,665 acres 3 roods 32 perches in 1880, to 9,080 for 1,158,616 acres 3 roods 23 perches in 1881—being an increase of 2,706 deeds for 469,950 acres 3 roods 31 perches, or over 42 per cent. more deeds than in the previous year.

There was a sudden and unprecedented increase in every portion of the work dealt with in the Lease Branch, the benefits derived from the grazing rights granted in virtue of all classes of alienations conferring a privilege to lease becoming each year more apparent, and to a greater extent availed of.

Further efforts were made to bring this branch into a state of thorough efficiency, and steps taken to amend the practice for some time past in operation, so that the holders of numerous adjoining freehold portions and conditional purchases belonging to different series or groups were restricted to leases which strictly adjoin their land, and were not allowed to command very large areas by obtaining leases beyond their first leases in virtue of scattered portions or additions made to their original holdings included therein.

Schedule XII exhibits in a tabular form the action taken during the year on prelease applications, as well as a comparison between the work of the year and that preceding, of which the following summary may be of more than usual interest.

	Applications Received.		Applications Refused.	Preleases Gazetted.		Preleases Renewed.		Rent paid.
	No.	Area.	No.	No.	Area.	No.	Area.	
1880	2,606	acres. 2,451,993	505	1,349	acres. 1,303,726	14,552	acres. 12,465,173	£ 40,098 s. 7 d. 4
1881	4,450	4,616,168	1,001	2,796	2,679,057	15,680	13,674,345	44,633 18 7
Increase in 1881...	1,844	2,164,175	496	1,447	1,375,331	1,128	1,209,172	4,535 11 3

At the close of the year there were 1,235 cases outstanding of which about 500 had not been finally disposed of in the Survey Office, about 400 had been partially acted on, but could not be completed until after the measurement of the conditional purchases in virtue of which the claims were made, and the remainder consisted of applications which had been only recently received, or were in the earlier stages of action.

The sum of £5,458 10s. 8d. was authorized for refund in 1,715 cases, on account of refusal of applications, cancellation of leases, reductions in area, and payments made in excess of the sums actually due, being £281 9s. 8d. less than in the preceding year, but 363 in excess of the number of cases.

Schedule XIII exhibits the state of the lands submitted to lease by auction, as compared with 1880. It shows that there was an increase in the number and area offered from 744 of 527,749 acres in 1880 to 911 representing 653,630½ acres in 1881; that there was a decrease of 7 leases and 12,020 acres in the land so leased; and that the annual rent obtained on the greater area, 214,234 acres, sold in 1880, viz., £857 10s. 7d., had increased to £1,029 3s. 8d., on the lesser area leased in 1881.

Schedules XIV and XV give the number, area, and annual rent of the pre-emptive and auction leases paid for on account of the year 1881; the greater portion of the rent having being paid in 1880, it is impossible to check the amounts by the Treasury Returns.

The total receipts at the Treasury, including renewal rents and deposits on applications, amounted to £63,968 5s. 10d., or £8,553 1s. 1d. in excess of the receipts for 1880, of which amount £53,546 16s. 2d. represents the annual rental, and shows an increase for the succeeding year of £4,164 2s. 5d.

It having become apparent that in former years persons alienating freeholds or conditional purchases were not in the habit at the same time of transferring the pre-leases held in virtue thereof, steps were taken to have all pre-emptive leases transferred to the names of the present holders of the purchases in virtue of which they were obtained.

Schedule XVI exhibits the number of letters received during the years 1880 and 1881, and shows an increase of 11,447, or 27 per cent., notwithstanding that every effort has been made to curtail as much as possible the registration of papers.

The books of the Account Branch show transactions to the extent of £102,053 8s. 6d. to have taken place during the year. Of this sum £22,359 19s. 2d. is chargeable against the Votes of 1880 and previous years, leaving the expenditure for the year at £79,693 9s. 9d., which includes payments to the extent of £18,561 4s. 5d. for fencing cemeteries, improving recreation grounds, and other items, classified in the Estimates under the head of Miscellaneous Services.

On the 31st December, 1881, the permanent staff was composed of 38 clerks and 11 messengers and office-keepers, with salaries ranging from £46 to £400 per annum, and the temporary staff consisted of 24 clerks, receiving from 7s. 6d. to 17s. 6½d. per diem, being a reduction in both numbers and pay as compared with the previous year.

The correspondence issuing from each of the branches, exclusive of that of the Conditional Sales, is shewn in Schedule XVII, and discloses an increase of 5,901, or over 14 per cent.

There were prepared for Parliament 35 returns, containing 397 pages of printed matter, 58 of which were in a tabular form.

During the year a code of instructions to Land Agents was issued. This was prepared with great care and trouble, and deals with almost every conceivable matter relating to the Land Laws which appertain to the duties of the Land Agents. It is also a compilation of the numerous instructions issued to those officers from time to time, many of which clashed with others promulgated at earlier dates.

It appears to be a suitable time to bring under notice the unsatisfactory nature of the arrangements which existed with respect to the employment of clerks and draftsmen on the Temporary Staff. According to the Appropriation Act for the year 1881, Parliament voted, exclusive of the Field Staff of Conditional Land Sales, and of the Triangulation and General Survey of the Colony, the following amounts for salaries :—

Permanent Staff	...	...	...	...	£102,267
Temporary Staff	...	...	...	...	£52,300

So that one-third of the total sum voted was applicable to temporary services, which are in reality permanent, and so far as can be foreseen will probably remain so.

It has been found, during the year, that the arrangements as regards Crown Lands Agents holding combined offices have worked very unsatisfactorily, and the increase of the Land business, and other causes, has rendered it impracticable, in many instances, to longer continue, with convenience to the public and the Department, such combination. However this matter has been brought under notice elsewhere in another form.

I think it right to add that the work throughout the whole Department has increased to a very considerable extent.

The reports of the Chief Commissioner of Conditional Sales and the Surveyor General are herewith, and do not appear to call for any special allusion on my part.

I have the honor to be,

Sir,

Your most obedient servant,

CHARLES OLIVER,

Under Secretary.

The Honorable Sir John Robertson, K.C.M.G., M.P.,  
Secretary for Lands.

SCHEDULE I.

RETURN of Auction Sales of Town Lands under the 23rd section of the Crown Lands Alienation Act of 1861.

Land Districts.	No of portions offered.	Area offered.	Portions sold.	Area sold.	Area not bid for.	Per-centage sold.	Amount realized for land.	Average price per acre.	Deed fees.	Purchases voided for non-payment of balance under 23 section of above Act.	Deposits forfeited.	Area forfeited.

## Report of Chief Commissioner of Conditional Sales.

Sir,

Department of Lands, Conditional Sales Division, 16th August, 1882.

In resuming the subject of the report which I had the honor to submit, under date 27 January, 1881, for presentation to Parliament as part of the Report of the operations of the Department of Lands during the year 1880, I have to regret my own inability at that time to do any justice to the subject, and that not having been able to resume duty for some time afterwards, I had not the opportunity of revision which would perhaps have enabled me to repair some omissions and to prevent some errors that appear in the documents as printed.

II. The returns which I now append are in continuation of those presented last year, the more important of which are for convenience sake briefly summarised. They embrace the following:—

- Return A, showing the total number and area of conditional purchases in each year respectively from 1862 to 1880 inclusive.
- “ B, “ conditional purchases during the year 1881 in each Land District, distinguishing original selections subject to conditions of residence and improvement, additional selections by the holders of these, additional selections by the resident owners of freeholds, and selections for mineral purposes.
- “ C, “ (is here omitted as a separate statement, the information being embraced in return A.)
- “ D, “ number and total area of conditional purchases from 1 January, 1862, to 31 December, 1880, deducting the areas cancelled, forfeited, and lapsed respectively.
- “ E, “ total area of conditional purchases to 31 December, 1880, on which deposits have been refunded.
- “ F, “ the like information for 1881, distinguishing Land Districts and grounds of refund.
- “ G, “ number and total area of conditional purchases forfeited in each year to 1880 inclusive.
- “ H, “ the like information for 1881, distinguishing Land Districts.
- “ I, “ number and total area of conditional purchases lapsed in each year to 1880 inclusive.
- “ J, “ the like information for 1881, distinguishing Land Districts.
- “ K, “ transfers of conditional purchases to 31 December, 1881, showing the number transferred during each year and the number and area in 1881, distinguishing Land Districts.
- “ L, “ number of cases referred to each Inspector of conditional purchases during 1881, distinguishing Land Districts and grounds of reference.
- “ M, “ number of cases reported on by Inspectors of conditional purchases during 1881.
- “ N, “ number of cases referred to and of reports received from Commissioners of conditional purchases during 1881.
- “ O, “ number and area of conditional purchases declared upon during 1880 and 1881, with an appended statement of certificates issued.
- “ P, “ number and area of conditional purchases prior to 1875, which have been brought during 1881 under the provisions of the Act 39 Vict., No. 13, as to payment of balances by instalments.
- “ Q, “ number and area of conditional purchases for which balances have been paid sent on for preparation of grants during 1881.

III. It will be seen that, while the year 1879 exhibited a falling off in the conditional purchase of land of no less than 664,111 acres 2 roods and 18 perches as compared with the previous year, the area conditionally purchased in 1880, though still very considerably below that of several previous years, was 222,865 acres 1 rood and 39 perches in excess of that purchased in 1879; and during 1881 the total area amounted to 2,329,202 acres and 15 perches—or over a third of a million acres more than in any previous year.

The return for 1880 was given in a form which exhibited the area conditionally purchased under each of the selection clauses prior to the Act of 1880 (which came into operation on the 25th May), as contrasted with the remainder of that year. Under that Act the conditions of selection were modified and rendered, in some respects more stringent: in others, less so. The term of compulsory residence on future purchases was extended from three to five years; the right of transfer previously allowed, pending fulfilment of the conditions, was withdrawn; as also the power of making more than one original selection during five years. On the other hand, the amount required to be expended in improvements was reduced from £1 to 10s. per acre, and the period allowed for the expenditure enlarged.

I thought that the comparison would be interesting as showing the effect of this modification upon the conditional purchase of land, but I am unable to point to any such effects which may not be referred to other causes. It was generally known for some time prior to the passing of that Act, that a change in the law in the directions indicated was tolerably certain to take place, and it might have been anticipated that the more stringent conditions would have led to increased activity in the purchase of land, at any rate, under the sections to be affected by them in the meantime. Again, the reduction as to improvements having been made applicable to existing purchases, nothing was to be gained by deferring new purchases on this account. But on comparing the two periods it is found that the purchases of 1880, up to the 24th May, were rather below the average of the whole year, while in excess of the rate of the year preceding; and that the transactions of the remainder of the year were above the average of the earlier period as well as of the whole year; and, the increase in the succeeding year having been very considerable, it further appears that there was a gradual and progressive improvement from the beginning of 1880.

In the enclosed returns I have left the transactions of 1881 up to the latest land office day in May still distinguished from those of the remainder of the year, not that the distinction has any significance, but for convenience of comparison with the previous year.

IV. In examining statements of conditional purchases recently made, interest chiefly and naturally centres in those made under the 13th and 14th clauses of the Land Act of 1861, as being new transaction offering

offering guarantees for the actual settlement of industrial occupants for at least five years. Selections under clauses 21 and 22 represent merely the enlargement of existing holdings, which may themselves like other small properties have merged into larger ones, and purchases under clause 19 pertain to a different class of industry. In 1881 the purchases under clauses 13 and 14 amounted to 5,545, covering an area of 1,416,393 acres 2 roods and 26 perches (or more than the total area purchased under all the conditional clauses in either of the two previous years), and averaging for the whole Colony about 260 acres to each applicant. This large increase may be due to several causes—a period of greater prosperity—the extension of railways into new districts—the enlargement of the area allowed to be selected, which has induced and enabled the owners of selections in the earlier settled districts who have completed the conditions and obtained negotiable titles, to sell and settle further out (a large proportion of the new purchases being in districts heretofore commonly regarded as purely pastoral). But whatever the cause the fact is worthy of observation.

Any enlargement of the maximum acreage would be likely to offer an inducement to select to some persons who would not otherwise become conditional purchasers unless by purchasing completed selections from others. It is certain that much of the land now being conditionally purchased could not have been profitably used in holdings much smaller than the present maximum, even with the pre-emptive right of leasing three times the area of adjacent Crown Lands where available. Of course this maximum can operate only temporarily and indirectly upon the size of holdings. The average will ultimately be determined by general considerations and circumstances; but it is interesting to inquire how far the area that may be acquired direct from the public by one individual under his personal covenants contributes to *bona fide* settlement.

V. The area of land conditionally purchased for mining purposes in 1880 was 25,398 acres, in 275 selections; in 1881 the area was 43,259 acres 3 roods and 32 perches in 425 selections. It is my impression that this increase, though partly, is not wholly due to the legitimate requirements of mining enterprise, and that with the rise in the value of land generally the practice had somewhat extended of acquiring land under the mining conditions, with the object not of mining but of securing land, if but temporarily only. This is not new, but the operation had previously been more exceptional. The deposit on such lands is 10s. per acre; an expenditure of 24s. per acre in mining operations must be exhibited to the Minister's satisfaction at the expiration of three years, and the balance of purchase money, 30s. per acre—or interest thereon—paid, and a further expenditure of 16s. per acre must be incurred within a further period of two years—should the extension be authorized—bringing up the total amount to £4 before a title can be obtained. These terms are such that in few instances only can it be worth while to obtain pastoral land by such means, though it may occasionally be convenient to retain the possession of particular blocks for three years, and then forfeit them. There is not, therefore, any ultimate loss to the public in such cases, but rather a gain, for the land is either paid for at a high price or again becomes (with the forfeited deposit) the property of the public.

VI. It is inevitable that there should always be a considerable number of applications to purchase that cannot be complied with, and of consequent refunds of the deposit money paid by the applicants. The conditional purchases declared void during 1881 amounted to 1827, and the deposits authorised to be refunded (including partial refunds), £74,812 13s. 2d.

This duty entails inevitably very serious responsibility, necessitating critical examination of claims to refund (which are not always well grounded), and any delay is attended with pressure and solicitude from interested parties. The routine has been made as effective and simple as practicable, to obviate delays, which, so far as the causes lie within control, have been brought to a minimum, but from the nature of the case the requisite information is not in general immediately available.

There are also numerous instances in which the deposits are found insufficient, and the deficiency has to be recovered.

VII. The amount received for deposits on conditional purchases during 1881 was £592,965 16s. 1d. as against £293,112 17s. 7d. for the previous year.

The revenue under the head of instalments amounted to £120,580 9s. 4d., as against £113,603 1s. in 1880. This increase represents the annually progressive increment arising from the first instalment of one shilling per acre becoming due on account of the balance of purchase money of conditional purchases made three years previously, exclusive of those declared void, lapsed, and forfeited, and on which the balance has been paid in full.

The balances of purchase money paid in 1881 amounted to £91,979 1s. 9d., being more than double the amount paid in the previous year. Payment of the full balance being entirely optional with the purchasers, who are only required to pay in any year the instalments and interest at 5 per cent., the balances credited are always liable to fluctuation, and indicate only the proportion of purchasers who for various reasons find it convenient to complete the transactions and take up their deeds of grant.

The payments for interest are annually progressive in the total amount, like the instalments, and for a similar reason. The revenue of 1881 for interest was £253,353 1s. 11d., being an increase of £48,718 19s. 4d. upon the revenue for 1880. This increase represents the first payment of interest on the balance of purchase money in respect of conditional purchases made four years previously, and for which the first payment of instalment was made in the year preceding.

VIII. The number of selections forfeited for non-observance of conditions, after inquiry before Commissioners, during 1881 was rather in excess of that for the previous year, being 557 as against 492, and of an acreage of 71,924 acres 3 roods 3 perches, as against 66,658 acres. The number of forfeitures is not at any time a subject for congratulation. A certain proportion of failures to carry out conditions must always be anticipated, and a proportion greater or smaller, according to the activity and risks of detection, in which the conditions are evaded or disregarded. There are also many cases in which purchases are taken with the intention of ultimately forfeiting, and with the object of forestalling other applicants and retaining possession for a time. This of course entails a very heavy cost to the purchaser, to the benefit of the Revenue, but I cannot say that I think the normal proportion of forfeitures has yet been disclosed, or that the existing proportion can be taken as equivalent to the measure of evasion. But I think a sensible impression has been produced, and that the system of repression is becoming more effective.

IX. What are known as lapsed selections are those in respect of which the declarations that are required to be made at the end of three years as to residence and improvements, and accompanied by the balance or instalment and interest upon the purchase money, are not received from the conditional purchaser. For the convenience of applicants notice is sent from this office to the holder of each selection on which the declaration is about to become due, and 9,835 such notices were issued last year in respect to the conditional purchases

purchases made during the second, third, and last quarters of 1878, and the first quarter of 1879. There is a period of three months' grace allowed by law after expiration of the three years for transmission of the declarations, and it is customary to defer the publication of the lists of lapsed conditional purchases for a further period of about three months to allow for the returns of the land agents and the delays of communication. There is, nevertheless, always a proportion of cases of default at this stage in which after-inquiry proves that the substantial conditions have been fulfilled. During 1881, 990 conditional purchases, under all clauses, of an area of 119,880 acres 2 roods and 34 perches, were notified as lapsed.

X. The notices of transfer examined, passed, and recorded in 1881, amounted to 9,240, and included 17,780 conditional purchases of a total area of 2,155,357 acres. Each of these documents is submitted from this office, prior to completion, to the Commissioner for Stamps, for stamping (or endorsement of exemption), and also to the Office for Registration of Deeds, for registration pursuant to the Act 42 Vic. No. 26. This business employs only two clerks. No difficulties have arisen that have not been promptly adjusted, and neither delays nor arrears have been permitted to occur. When the multiplicity of these transactions, the large number and value of the properties, and the immense area embraced by the system are considered, and that these transfers are, under the law, equivalent to, and generally the only conveyances, the importance of this branch of duty will, I think, be recognised, as well as the efficiency, simplicity, and cheapness of its operation.

XI. The number of cases referred specially to the Inspectors of Conditional Purchases during the year amounted to 12,833, and the number reported upon, 11,768. It has on former occasions been pointed out that without systematic observation it would be difficult to prevent wholesale evasions of the conditions of purchase, or to distinguish between real settlers and others attempting the various forms of deception or abuse developed by ingenuity (and perhaps impunity) during a series of years. Even now it is a difficult matter to obtain satisfactory evidence even in some flagrant cases of default; but the disposal of arrears, bringing the business of a more recent period more prominently under view, has contributed to the detection and prevention of such cases. The false notion that the system of inspection would be a measure of oppression—though long sedulously encouraged, for transparent reasons—has, I believe, been dissipated; and it is now recognised that for real settlers the measure is one of protection and advantage.

XII. There were referred for inquiry before Commissioners during 1881, 1,324 complaints or notices of default, and 276 claims of previous years which the inspection had failed to verify, and which were referred to afford the claimants an opportunity of establishing the fulfilment of conditions by sworn evidence. Altogether the references amounted to 1,600, and the reports received dealt with 3,387 cases in all, inclusive of previous references.

By such a system of inquiry a very useful and necessary function of the department is effectively discharged. The operation of the Courts has been systematised and rendered uniform, and it has been sought to make them a convenience to claimants coming before them to establish their claims, and at the same time effective agencies for the elucidation of default. The Commissioners' reports are always very carefully considered, and I am in a position to declare that it has never been the desire of the Government to press for forfeitures, in any other than cases in which default, disregard, or evasion of the law, has been established. On the contrary, in many instances the Commissioners have reported selections for forfeiture, and I have endorsed the recommendation, but the Minister deciding upon the case has taken a less rigid view.

At the close of the year 1881 a reduction took place in the number of Commissioners, from nine to six. By an adjustment and enlargement of their spheres of duty, and concurrent rearrangements in this office, provision has been made for carrying on the service with the reduced staff.

XIII. As the result of the reports of Inspectors, or reports of Commissioners after inquiry, 11,984 certificates of fulfilment of conditions were issued to conditional purchasers during the year. The systematic issue of these certificates has supplied a want and operated in other ways most beneficially. The insecurity common to the numerous unverified claims during former years may be said to have passed away, and the certificates issued from the Department are called for in all transactions of sale or mortgage, and held as securities to the convenience of all parties concerned.

XIV. Several questions affecting the administration of the law, with respect to the conditional purchase of Crown Land, were determined by the decision of the Supreme Court, or of the Privy Council on appeal, during 1881, and I will take this opportunity of inviting attention to considerations suggested by the circumstances of some of these cases which appear to me most important.

The first to which I would allude is the case of *Blackburn v. Flavelle*, in which the legality of the resale of a forfeited conditional purchase was the principal question involved. It had been the practice of the Department, fortified originally by opinions obtained from Sir John Darvall and Sir James Martin, when Attorneys-General of different Administrations, to permit such resales; but the Supreme Court had decided in the case referred to that this was not in accordance with the Crown Lands Alienation Act. The Legislature promptly interposed by passing the "Forfeited Purchases Declaratory Act of 1880," to remove doubts as to the validity of any such selections not then under litigation, and, by arrangement with the plaintiff, an appeal to the Privy Council against the decision was made, at the instance of the Government. The appeal was based on the legal opinions already alluded to, and on the view of the law as to this point, expressed some years ago by the late Chief Justice, Sir Alfred Stephen, in a well-known case (*Drinkwater v. Arthur*). The decision on the appeal was confirmatory of that of the Supreme Court; but happily the disastrous results that must have otherwise ensued in the numerous titles which would thereby have been unsettled had been obviated by the action of the Legislature.

XV. Not less important (in some respects more so) is a case which has recently come into prominence before the public by the subsequent action of the parties, namely, *Robertson v. Day*. In this case the action arose out of the conditional purchase by Day—at the time of the opening of the Yanko Reserve, in 1876—of some portions of land which Messrs. Robertson had previously applied to purchase under the 31st section of the Act of 1875, but for which their application was not entertained because the land was not within a leasehold block of 5 miles square. The decision of the Court here was in favour of the conditional purchaser—in effect, that the terms "5 miles square" and "25 square miles" are not convertible,—but Messrs. Robertson appealed to the Privy Council, where the decision appealed against, (being undefended), was reversed. It was commonly understood that such an appeal was likely to be made, and that combined interests were concerned in the issue, if they did not help to bring it about. I have never been able to find that the Government was applied to or invited to aid in the defence of the appeal, and it is much to be regretted that it was not defended, if only on account of the important effect of an adverse decision upon the administration of the law and the rights of other parties than the immediate litigants. But when that

decision was given the Government was asked for compensation, and the costs of a proceeding to which it had not been a party, and of which had it been, the result might well have been different. The Lords of the Privy Council in their judgment question the objects which the local Legislature could have had in view in extending to a leasehold tenure of 5 miles square a right of purchase not applicable to one of 25 square miles. The answer is obvious, though resting on local circumstances which could not have been within their Lordships' view. Simply, in the one case the leaseholds (old runs of various shapes and sizes) had already been for many years subject to a preferent right of purchase which was then for the first time extended to runs leased in blocks of 5 or 10 miles square.

When the Act of 1875 was before the Legislature, the words "25 square miles" were, in view of these facts, omitted by an express vote, and the words "5 miles square" inserted in lieu. A glance at the admirable compilations by Mr. Du Faur, lately of the Lands Occupation Branch, showing the runs in the districts of Darling, Warrego, and Albert, and others taken up under the present Land Laws, will suffice to show the force of this statement. The parties immediately concerned may not perhaps be deserving of much sympathy, but there are other cases in which it cannot be denied that the decision on this appeal, in which the Government was not heard, has enabled parties to complete purchases in opposition to the intentions of the Legislature (expressed in language of mathematical precision), if it has not deprived others of the fruits of their industry invested in reliance upon the public faith.

XVI. Another very important question depending upon a ruling in the Supreme Court in the case of *Moore v. Bernholt*, was brought under the notice of the late Minister, Mr. Hoskins, in the minute which I here append, feeling that I cannot too pointedly or prominently call attention to the considerations that it suggests:—

"In a case tried last week in the Supreme Court, before Mr. Justice Windeyer, the question of the effect of improvements of the value of £40, or upwards, in excepting from conditional purchase measured areas of greater extent came under review, and a ruling appears to have been laid down, which, following a previous ruling of the same Judge (in the case of *Pearson v. Stevens*), some months since, and (inferentially) the decision of the full Court in the case of *Blackwood v. Dobbin* must, if it is to be accepted as a final statement of the bearing of the law in such cases, very seriously embarrass the administration of the Acts relating to the conditional purchase of Crown Lands, and certainly operate in a way never contemplated by the Legislature. It may be stated that it is not, and never has been, questioned that improvements to the value of £40 or upwards, situated upon an area of land measured, or admitting of being measured, into a portion of corresponding extent, are by several concurrent provisions of the law made to bar the selection of such portion; but the ruling to which attention is now directed goes much further, and holds that improvements valued at or over £40 bar the selection of any measured portion, although the extent of it may far exceed a corresponding acreage to the improvements; and although, in fact, neither the whole portion nor any single acre, or part of the portion, may be so improved as to admit of being measured with improvements amounting to the value of £1 per acre.

"The importance of this ruling will be understood when it is considered that lands of the character thus held to be debarred from conditional purchase, have, by every successive Administration that has been charged with carrying out the land laws since their original passing, and up to the very case last in question, been held to be open to conditional purchase, and at each successive review of the question by the Legislature it has been so understood and taken for granted.

"In the case in which the point first arose—that of *Blackwood v. Dobbin*—it affected one only of several portions that were in question, and the Chief Justice and Mr. Justice Faucett, who formed the majority of the Court, seem to have based their judgments upon the larger questions affecting the whole, and not to have treated this part of the question much in detail. It may be seen, however, from the remarks of Mr. Justice Manning on that occasion, that he anticipated the difficulty that might arise in holding a measured portion improved to the value of £40—but not in any part to the value of £1 per acre—to be debarred from selection, and his concurrence in the judgment was given with doubt and hesitancy on this account.

"It may be well to trace briefly the course of legislation on the point. Under the original Act 1861, section 13, Crown Lands 'not containing improvements' are declared to be open to conditional selection in the manner therein prescribed. By the interpretation clause (section 1 of that Act) 'improvements' are defined as being 'not less than the unimproved value of the land, \* \* \* not being less than £1 per acre.' Under other sections of the same Act land could not be so purchased in less areas than 40 acres; and if measured must have been taken in portions as measured. Thus it came to be held that improvements must in all cases be of a minimum value of £40, and so situated, whether in measured or unmeasured land, as to cover and protect a corresponding area if measured in accordance with the general rules as to measurement prescribed by law and the recognized usage of the Survey Department.

"It having been held by the Court in a certain case that lands containing improvements worth £1 per acre were nevertheless open to conditional purchase when the value of the land itself exceeded that amount, provision was made in the Act of 1875, section 5, that improvements should be 'deemed sufficient for such exemption (*i.e.*, from conditional purchase) if of the value of 20s. per acre' (and of course, impliedly, of no less amount.) In section 16 of the same Act provision is made for the subdivision, subject to the Minister's approval, of any measured portion improved 'to not less than £40,' and the selection of the residue, not being less than 40 acres.

"It will thus be seen that from the outset there has been a distinct relation and dependence between the value of the improvements and the area on which they have been placed. Such a relation in the case of unmeasured land is an obvious necessity, otherwise it would be impossible to prescribe limits to the improved area; and the same principle applies, of course, to the subdivision of a measured portion improved in part. And it has been shown how jealously up to and inclusive of the legislation of 1875 the Legislature prescribed a minimum value of 20s. per acre as that which should constitute improvements. But under the ruling now in question a measured portion of (say) 640 acres, if improved to the value of £40, or any larger amount, is debarred from selection, although no part of it may be improved to 20s. per acre, or anything approaching that amount; and the provision in section 16 of the Act of 1875 would actually be rendered nugatory because it would be impossible to distinguish the improved part. And it must be supposed that the Legislature, while expressly coupling the minimum value of £40 with 20s. per acre, and enacting that land thus improved should not be open to selection unless by way of subdivision of a measured portion of which part only might be thus improved, should have contemplated the inconsistency of also exempting from selection either wholly or in part measured land improved only to a fraction of 20s. per acre, and on which £40 worth of improvements could only be discovered by ignoring the corresponding acreage.

"I trust the Minister may see fit to confer with his colleague, the Attorney General, with a view to the law, if in doubt, being authoritatively settled on appeal to the full Court; and I submit that, if it should have been correctly laid down in the case adverted to, the emergency is sufficiently grave to call for immediate application to the Legislature.—15/12/81."

The defendant's attorneys were, by Mr. Hoskins' desire, communicated with, with a view to its being considered whether an appeal against Mr. Justice Windeyer's ruling to the full Court, or if necessary to the Privy Council, would not be advisable. It appeared, however, that the case was not a convenient one to select as a test of the principle, or one that would have admitted of being taken to the Privy Council; and the Government were not concerned in the appeal to the full Court that subsequently took place, when Mr. Justice Windeyer's ruling was confirmed. As an illustration of the law as now declared it may be pointed out that on two measured portions of the same extent, and improved to the same value—say £40—the one improved in part to £1 per acre is open to selection of the residue, while the other having no part improved to £1 per acre is not open to selection at all; and again the same improvements, which in the case of unmeasured land would have no effect in preventing its conditional purchase, become a barrier on the land being measured. I may be pardoned for still believing that the Legislature never intended this, and, further, that the enactments do not express it; and it would not be difficult to adduce authority (and legal authority of eminence) for this belief.

XVII. When the Act of 1875 was passed provision was made, in view of obvious contingencies, to exempt from the condition of residence, selections devolving upon, or becoming vested in, any person by testamentary disposition, or by operation of law. Attempts were made at an early period to strain this provision so as to embrace selections sold by the Sheriff, or by Registrars of District Courts, or by Official Assignees in insolvency, and many such sales were brought about by collusion to evade the conditions of residence. Notwithstanding extreme, and at times influential, pressure, and in the face of much difficulty, the action of the department uniformly resisted such attempts, and many of these selections were forfeited from time to time. In the Act of 1880 the law in this respect was made more clear; but the question was brought before the Supreme Court last year in the case *Pearson v. Stevens*, and under such circumstances that the Minister was induced to take steps to ensure its being properly argued before the Court. The ruling of Mr. Justice Innes, by whom the case was tried, sustained the action of the Department, and this ruling was subsequently confirmed by the full Court, before whom the question came on an appeal, which was only defended at the expense of the Government.

XVIII. The official correspondence of this division during 1881 exceeded in amount that of any previous year, the number of letters and reports registered as received into the office (without including the conditional purchase applications or land agent's returns) having amounted to 59,214, as against 55,158 in the previous year, or (say) 187 for each working day in the year. My efforts have been directed towards diminishing correspondence, which is sometimes apt to increase when business is not promptly transacted, or satisfactorily to the parties. Still, if not the best test that could be suggested of the efficiency of a Department, it is an illustration of the extent of the business, and the demands upon the attention of the officers. The manuscript correspondence despatched from the office amounted to 7,027 letters, and the formal intimations of various kinds (which have been made to include as much as possible of the routine business) 63,420, in all 70,447. I do not think I exaggerate in pointing out that this correspondence is not exceeded by that of any Public Department or Institution in this Colony, or perhaps in this hemisphere.

The office establishment comprises thirty-three clerks on the permanent staff with salaries ranging from £450 (the salary of the chief clerk), to £100 per annum. But in addition to the regular staff there has been for many years past a temporary staff of about an equal number of clerks, (thirty-five in 1881), paid from a contingent vote of £5,000 for temporary clerical assistance. In the report for 1880 as on other occasions I have represented that this arrangement is in many respects unsatisfactory, but that the strength of the office had never been properly adjusted to the extension of its business. The business for which this vote has been taken is but in a very small part temporary, and one result of the state of things that has grown up is that temporary clerks have frequently been placed in charge of divisions of the regular business and of the work of clerks on the permanent staff; that they receive in some instances higher salaries than the latter, who cannot obtain any increase of salary without awaiting a special vote, (unless on vacancies occurring), and cases have occurred of permanent clerks applying to be placed on the temporary list on account of the better prospects of advancement.

I have the honor to be,  
Sir,

Your most obedient servant,

A. O. MORIARTY,  
Chief Commissioner.

The Under Secretary for Lands.

RETURN A, showing the number and area of Conditional Purchases made from the years 1862 to 1880, inclusive.

Report of The Surveyor-General.

Sir, Surveyor-General's Office, Sydney, 16 August, 1882.

In preparing the Annual Report for 1881 I have, where the circumstances are unchanged, adopted the wording of that of 1880 ; in fact I could not devote the time required to re-construct the whole report without neglecting some other equally important duty.

The Survey Department of New South Wales is comprised of two divisions, Field and Office.

In the former the officers are classed as District, First Class, Second Class, Licensed Surveyors, and Grades. Temporary Salaried Surveyors ; these officers are paid by salary with the exception of the Licensed Surveyors who are paid by fees ; their names, salaries, &c., will be found at pages 45, 46, 47, Schedules A B C and D.

The district surveyors and several of the first-class surveyors are employed almost exclusively in reporting on questions requiring local knowledge and field inspection, in supervising and distributing the work of licensed surveyors, and, occasionally, act themselves in cases where the duty cannot properly be done by licensed surveyors. District surveyors.

They also keep the district survey offices open for inquiry at all times when not absent in the field, and when they are assisted by a draftsman the office is open at all times to the public. In most cases where such access is afforded, the maps of the local land agent are not much referred to by the public, and when a district survey office has once been established it is found most difficult on public grounds to remove it, although for departmental reasons it might be more effective elsewhere. This, with the frequent applications for additional district survey offices, leads to the question of how far this department should be required to supply information which ought in my opinion to be available at the district land office. The complaint is that the maps in the Lands Office are in arrear. This is comparatively true as regards the district survey office maps, which are charted up from plans in transit to the head office without stopping to examine them, and therefore they afford the earliest information that could be supplied. The district survey office does not hold itself responsible for information given in anticipation of approval, and in their reports the district surveyors continually refer to the satisfaction afforded to the public in supplying such information. The cost of a district surveyor's party and expenses is about £1,000 per annum. As a matter of fact the public are better informed on all matters regarding land in districts where there are survey offices. District Survey Offices. Information afforded to the public.

In these respects an improvement to some extent is being developed in the employment of technically qualified officers in new appointments to the office of Land Agent.

The other salaried surveyors are employed in duties to which the scale of fees for licensed surveyors would not apply, as for instance, topographical survey examination of country for roads, designs for subdivisions, alignment of streets, and reports on questions of all sorts involving local information and occasionally in the examination of the work of licensed surveyors, supervision, &c. Surveyors.

The number being quite insufficient for future prospects has been supplemented by the addition of twelve new salaries for 1882.

In consequence of the great demand during the year for surveyors who have had experience in city and suburban work, and the difficulty in obtaining qualified officers, several of the junior licensed surveyors have been employed as assistant surveyors at salaries of from 10s. to 17s. per diem, under experienced supervision, until they can be reported efficient. This practice has been very successful, and may lead to the adoption of a grade of assistant surveyors at salaries averaging £200 and upwards per annum, should the demand for such services continue. Assistant Surveyors.

The field assistants or cadets, fourteen in number, are appointed from the volunteer draftsmen, who, having passed the second competitive examination, are sent to assist the salaried surveyors and learn the field practice of the profession. They are paid 6s. per diem, and find their own horses, camp equipment, &c. The number not being sufficient, it is occasionally supplemented by temporary field assistants, and the cadet class supplies the bulk of the most successful candidates at our examinations for licensed surveyorships. Cadets.

A number of the licensed surveyors were employed on temporary salary in clearing off arrears of measurements, in topographical surveys of difficult country, examining roads or land with a view to survey, in the survey of Sydney for sewerage purposes &c., but never in work that could be done by the licensed surveyors at scale of fees. The number so employed has increased from thirty-four in 1880 to forty-seven in 1881 ; this is only to be expected as it always follows that extraordinary activity in the alienation of lands, public and private, is accompanied by a corresponding increase of the requirements of Municipal and other measurements, and in carrying out these the determination of the boundaries of many old grants falls upon the Department. The number will, however, be reduced by twelve, that number of additional salaries having been voted upon the permanent staff. The majority of licensed surveyors are located in 118 districts (see Schedule E, page 48, and map at the end of report), into which the Colony is at present divided ; they are employed and paid by fees in measuring lands for alienation under the various provisions of the Land law, and occasionally on the marking of roads, defining reserves, survey of features, &c. When on such service the licensed surveyor is under the supervision of the district surveyor, and as long as he is able to keep out of arrears, that is, has no instructions unacted on longer than six months, applications for alienation are sent for measurement ; but if otherwise, the district surveyor is instructed not to regard the licensed surveyor's customary interest in the local appointment, and may send any other surveyor to work within the limits assigned. Considerable fluctuations occur in the earnings of licensed surveyors— these depending to a great extent upon seasons and consequent abundance or scarcity of feed and water, also upon the demand for land in the districts in which they are employed. Licensed surveyors.

The total area measured in 1881 exceeded that of 1880 by half-a-million acres, conditional purchases being 100,000 acres in advance of the previous year. Increase of work during the year.

Notwithstanding the increased amount of work still to be done by the Department—treated of further on in this report—the effective strength of the Field Staff remains the same as last year ; this arises from the resignations and removals being equal to the new men available and to the necessity for employing as many surveyors as possible who might otherwise have been employed in the field as draftsmen in the office where arrear is increasing. The

The following table shows the average cost per acre of measurements by licensed surveyors from 1873 to the end of 1881, viz. :—

	s.	d.		s.	d.
1873 ... ..	1	5 $\frac{3}{8}$	1878 ... ..	0	9 $\frac{3}{8}$
1874 ... ..	0	11	1879 ... ..	1	2 $\frac{3}{8}$
1875 ... ..	0	10 $\frac{1}{4}$	1880 ... ..	1	2 $\frac{3}{8}$
1876 ... ..	0	8 $\frac{3}{8}$	1881 ... ..	1	1 $\frac{1}{4}$
1877 ... ..	0	8 $\frac{3}{8}$			

In estimating the cost of survey per acre it has been the practice to include in the amount all lineal measurements, some of which, roads and feature surveys for instance, are but indirectly concerned. With this addition the cost for the year is 1s. 1 $\frac{1}{4}$ d. (see Schedule F, page 48), against 10 $\frac{1}{4}$ d., the actual cost of acres measured by fees alone. The reduction in cost of survey per acre is in consequence of the increased demand for measurement for auction sale.

Surveys in anticipation of demand have, during the latter part of the year, fallen off, in consequence of the increased amount of land applied for, directly, under the various sections of the Land Acts, which has afforded the surveyors but little opportunity to pursue this kind of measurement; and I do not advise the practice being continued during periods of activity in demand for land.

There are, however, exceptions to this rule, notably in the coast brush districts, where the advantage is so evidently in favour of measurement in advance that it would not be advisable to restrict such operations absolutely.

The licensed surveyors admitted during the year are as follows :—

Messrs. J. Anderson, W. Jones, S. Mills, H. M. Terry, I. Smith.	Messrs. S. J. Pinnington, P. V. Tuxen, E. H. Johnson, J. S. Peppercorn.
---	--

The usual December sitting of the Board of Examiners was postponed until January, 1882.

Those licensed under the Real Property Act are as follows :—

Messrs. L. A. Curtis, R. B. Mackenzie, J. Granter, J. H. Cardew,	Messrs. H. Welchman, F. Poate, C. W. Laing, O. Pariola.
---	--

The following statement of instructions for measurement, report, &c., in the hands of licensed surveyors at the beginning and end of 1881 shows, compared with the year before, that the increase of work (from 2,701 to 4,984 instructions) has been more than the surveyors could deal with in an exceptionally dry season, but notwithstanding this there are but 12 more old arrears than at the beginning of the year. This is favourable, but I do not anticipate being in a position to report so satisfactorily at the end of the current year.

On 1st January, 1881, the licensed surveyors had on hand, instructions under

	<hr/>

To deal economically with the system of surveying by licensed surveyors, considerable discretion has been allowed in the matter of time for action, otherwise the surveyors could not undertake the general duties of their districts without a considerable increase on scale rates of payment.

The average amount of accounts rendered during the year by licensed surveyors is £641, but this is too low an estimate, as it includes accounts rendered by those who have worked only a portion of the year, and probably a fair average, £711, might be taken by excluding those whose earnings severally are less than £100. Considering that licensed surveyors have to meet all expenses, such as labour, horses, forage, equipment, &c., in advance, and to wait for payment of balances of accounts, there is evidently a limit to compulsion in carrying out instructions that can only be executed at a loss; consequently some latitude has been allowed in time when claims for measurement are not pressing. Occasionally, under exceptionally difficult circumstances, travelling expenses or a charge at per diem is allowed, but only on special occasions.

OFFICE STAFF—PROFESSIONAL.

Having described the duties, &c., of the field staff, I proceed to the other great division of the Survey Department, the office. The purely professional business is under my own special direction, and the office-professional under that of the Deputy Surveyor-General, and represents all the work at the Department not done by surveyors, and may be divided into the following heads, viz. :—Charting, Roads, Reserves, Compiling and Publication, Auction, Leasing, Conditional Purchase Issue, Improvement Purchase, Miscellaneous, District Maps, Noting, Diagrams, Descriptions, Conditional Purchase Tracings, Custody of Plans, Sale of Maps, and Plan Mounting.

The general supervision, discipline, attendance, and distribution of work and appropriation of services is under the control of the Chief Draftsman, whose time is mostly occupied in visiting branches, inspecting and dealing with questions referred to him on the various subjects under his province in Sydney. With the exception of that of the Secretary and Cashier, every branch of the office is subject to his inquiry.

The

The officers of the Department consist of permanent and temporary draftsmen. The permanent draftsmen were selected in the first instance after competitive examinations, and are under ordinary Civil Service rules. In the year 1877, when the strength of the Department was utterly unable to cope with current work, it was found necessary to employ temporary draftsmen, who were selected by a "Pass examination," and employed at per diem, for 5½ days per week, so that their services could be dispensed with, if not required, at a week's notice. I was therefore enabled to employ persons not eligible for the permanent staff, but whose services were of great value at a time when every one capable of passing an examination found employment.

The number of temporary draftsmen employed is 166, the work of the Department having increased to such an extent that I advertised for, and employed every one, who could pass the necessary examination; seven were transferred to the permanent staff during the year.

Notwithstanding the increase in surveyors' work to be dealt with, the number of temporary draftsmen in December was only one more than at the beginning of the year, and as a body they are weakened through the loss of fifty-three experienced men, who have left the service or been transferred to the field; their places have been supplied by thirty-six newly passed candidates, eighteen newly passed licensed surveyors seeking office experience, some field assistants recalled, and draftsmen re-employed, &c.

The officers of the temporary staff are not paid for time absent from their duties; therefore in fixing their remuneration rates of payment were determined on equalising their position to that of officers of the permanent staff of similar grade.

In dealing with promotions, &c., in the temporary staff, seniority of appointment has little or no weight, efficiency only being regarded.

During the year 1881 the pressure of work prevented the appointment of a Board to rate the services of the temporary staff, but it is intended to do so as soon as circumstances will permit.

In addition to the staff of draftsmen, permanent and temporary, forty temporary clerks are employed in the professional branch in duties not requiring skill in drawing.

They are principally employed in keeping books of entry and despatch of papers, assisting in various ways, thus saving the time of the professional officers.

#### CHARTING BRANCHES.

The examination, testing, and final adoption of all surveys made under the alienation clauses of the Land Act forms the most important, costly, and responsible duty of the office staff, and involves action on professional questions requiring submission to a higher authority arising after measurement, the greater number of such questions originating out of conflicting applications, &c.

The branches during the year numbered eight, six of them being under geographical division, and conducted upon principles fully described in the report for 1880.

In consequence of the great pressure of work during the years 1878, 1879, 1880, and 1881, five special examiners were appointed to assist in the examination of charting. These gentlemen are equally conversant with the work of the Charting Branches and Lands Acts, regulations, precedents, &c. Their duties are more particularly directed to the examination of work after charting and the submission of cases that come under their notice requiring the consideration of a higher authority. They rank equally with heads of Charting Branches, and their employment tends to equalize and regulate action in those branches.

Information as to plans received, dealt with, and remaining in each Charting and Geographical Division will be found at pages 55 to 61, and which have been summarized on page 110.

The number of cases in hand in Charting Branches on 31st December, 1879, was 7,096; on 30th June, 1880, 4,809; on 31st December, 1880, 3,410; on 30th June, 1881, 3,731, and at the end of the year, 3,336.

In consequence of the impossibility of procuring the services of qualified draftsman, and the withdrawal of a number of surveyors who were employed in this office in that capacity, it is only to be expected that the arrears will increase during 1882, and continue until juniors who are now being engaged become efficient.

At the end of 1881 twenty more draftsman would have been employed if I could have obtained their services.

The premises occupied by the Department are as follows, and those marked \* will be given up when the portion of the new building now nearly complete is finished:—

Head office, Bridge-street.

\*Account and Clerical Branch, Elizabeth-street North.

\*District Map Branch, Macquarie Place.

Trigonometrical, General Survey, Compiling and Publishing Branches, Wolfen's Buildings, Bridge-street.

\*Charting Branch, Lyons' Buildings, George-street.

Charting and I. P. Branches, Sutton's Buildings, George-street.

\*Lease Branch, Gladstone Terrace, Bligh-street.

Diagram, Description and Noting Branches, Exchange Buildings, Bridge-street.

#### CHARTING BRANCHES UNDER GEOGRAPHICAL DIVISION.

The old system divides the office into branches, each dealing with a clause or group of clauses under the Land Act. Under the new system, which is one of decentralization, the work of all classes belonging to one district is dealt with in the same room.

In January, 1878, an experiment was made with two divisions, each comprising a group of Land Agents' districts, in which parish maps had been completed. In these divisions all the work except roads, reserves, and preparation of descriptions and diagrams for deeds, was dealt with in the same room, and under charge of the same officer, therefore all information required to deal with a case must be in that room when wanted. The success of the system of Geographical divisions being now thoroughly established, the number has been extended from two in the early part of 1881 to six out of an ultimate seventeen divisions, into which it is proposed to divide the Colony.

Parish maps.

As the formation of more Geographical Divisions depends entirely upon the production of parish maps it is to be regretted that during the year the demand for the services of draftsmen in the Alienation Branches of the office has seriously interfered with anticipated progress in this important work, so much so that I find myself unable to estimate the probable time at which all the districts will be complete. Delay is to be regretted as the parish maps being on a scale of 4 inches to the mile, sufficient space is afforded to note on the map itself an index to the whole of the transactions involved in dealing with the portions chartered thereon thereby saving an enormous amount of reference to papers. It saves time to the surveyor in readily supplying information as to impending, conflicting, contemporaneous, or prior claims; complications are readily detected, selectors' descriptions easily investigated, and the number of cases requiring reference to the Minister for decision correspondingly lessened.

Decentralization.

All the work of a district represented in one geographical division of the office being done therein and by the same staff, it will be seen that plans and papers must be at hand and readily obtainable—an advantage that is appreciated by the public. A duly referenced plan of the building exhibited on the ground floor of the office will enable any person desiring to inquire about a case, and knowing in what part of the Colony it is situated, or the name of the surveyor, will eventually be able to go straight to the counter of the branch in which inquiry should be made. This of course can only be done when the whole Department is in one building.

Charting.  
Auction returns.

The charting work performed by the six geographical divisions in operation is shown at pages 55 to 59. The auction returns of these divisions show the number of applications for measured and unmeasured land received during the year to be 600, the area measured without reference to date of instruction to be 327,594 acres; and the number of portions included in Schedules with descriptions furnished to the clerical division of the Department of Lands for auction sale 3,227, containing 634,472 acres, of which 305,099 acres had been offered twice; a summary will be found at page 111.

The amount of work in course of action in the six Geographical Divisions is 737 cases for issue to surveyors, including applications under the various sections of the Acts;—2,077 cases for charting after receipt of plan and report from surveyor, and miscellaneous cases for special and other action.

The conditional purchase and volunteer land order returns show 3,500 conditional purchase applications received for an area of 663,564 acres; and volunteer land order applications, 59.

The improvement purchase, conditional improvement purchase, and special purchase returns show 573 improvement purchase applications, having an area of 101,179 acres.

## ASSISTANT OFFICE PROFESSIONAL BRANCH.

Duties.  
Duties.

This branch is of a professional character, and under the Deputy Surveyor-General, and reports on cases under the alienation clauses of the Lands Acts. It also deals with cases under the Validating Act of 1881.

## ROADS BRANCH.

The Roads Branch of this Department reports in all cases of application for roads through alienated land, under the Act 4th William IV, No. 11; the alignment of streets, under Act 2nd Victoria No. 2; the alienation of unnecessary roads, under section 10 of 25th Victoria No. 1; the granting of one road in lieu of another, under section 26, and resumption of land for roads from any conditional purchase, under section 27 of 43 Victoria No. 29; and granting of public gates under 39th Victoria No. 10. It is under the charge of an officer, who reports for the Surveyor General to the Department of Mines, and in some cases to the Under Secretary for Lands, and he is assisted by two other professional officers as heads of divisions and a staff of draftsmen and clerks, who carry out the necessary action respecting the roads of the Colony in two divisions, north and south, and in these branches several improvements peculiar to the geographical divisions of the Alienation Branch have been adopted, and the records kept are in a very efficient state.

Amount of  
work done.

The number of papers received during the year 1881 reached 5,100 and on many of these separate and distinct action had been several times taken. The number of miles of road surveyed was 1,061, delineated by 248 plans; 427 applications for roads, deviations in roads, and for alignment of streets have been received; 543 reports from surveyors, irrespective of 248 reports accompanying plans of survey; 256 objections and claims for compensation investigated; and 987 recommended to be granted upon reports from this branch. There are many hundreds of thousands of roads in this Colony, any one of which may form the subject of inquiry, complaint, application for re-survey, dedication, &c., or may be applied for to be purchased under the 10th section of the Crown Lands Alienation Act of 1861. On each and every such inquiry, or application, the necessary information is given personally to the public or is supplied in the shape of a minute of recommendation to the Under Secretary for Mines, and in some cases to the Under Secretary for Lands.

## RESERVE BRANCH.

The work performed by the Reserve Branch is as follows, viz.:—Recommending reservations from sale and lease, consisting of water supply, timber, travelling stock, camping, temporary commons, public recreations, &c., the cancellation and modifications of reserves under the 6th section of the Crown Lands Alienation Act of 1861, reporting on resumptions for public parks and recreation reserves; reservations for public purposes of all kinds under the 4th section of that Act; and applications to purchase in virtue of improvements within reserves; dedications for recreation and permanent Commons; boundaries for proclamation for New Gold Fields, under the Mining Act; reserves from sale on account of gold, under the Crown Lands Alienation Act of 1861; town and suburban boundaries; alterations in designs of same; population reserves; boundaries under the Towns, Police, and Municipal Acts, and modification and alteration in mining and municipal districts. The preparation of Electoral, Registration, School, Licensing and Police districts is acted upon by the officer in charge of this branch; also applications to mine under reserves and roads.

This branch also carries out the examination of all plans received of land for auction sale, for the purpose of ascertaining, before sending in, whether sufficient reservations had been made for public purposes.

During the year in addition to the current work a considerable effort has been made in revising the reservations in the Western district, which has eventuated in eliminating reservations found to be excessive and opening considerable frontages as settlement progresses; this elimination has been effected after present and probable future public requirements have been fully considered, and after personal inspection and survey of improvements, where such are found to exist.

The

The provisional passages for stock, known as driftways, which in some cases include several hundred miles of water frontage, have, in a large number of cases been revised with the desired object of providing reserves at regular distances for the grazing of travelling stock, and at the same time to interfere as little as possible with the demands of increasing settlement. Where natural depressions are found to exist they are preserved for the benefit of stock. The advantages of this method are apparent when it is considered that as the necessities of travelling stock arise, reservations of this character can where necessary be withdrawn from lease and placed under inspection.

Camping reserves for stock were being marked on the ground as speedily as the resources of the department admitted.

During the year attention has been given to the very important subject of marking reserves. Owing, however, to the demand for surveyors in the alienation of land, progress has been slower than was anticipated; still, a large number of reserves have been marked upon the ground, thereby removing all uncertainty as to their correct position, and preventing individual loss in time and money in the construction of improvements which might otherwise after survey be found reserved from sale.

During the year 1880, 9,742 cases were received in this branch and action taken upon 9,630. In 1881, 11,397 cases were received and action taken upon 11,528, showing the steady increase of business. The number of cases in course of action at the end of 1880 was under 200, at the end of 1881 over 500, which is principally owing to the very large increase in the work and the difficulty experienced in procuring draftsmen; therefore this branch is not in so favourable a position as in 1880, but as the Reserve Branch is one that must be strengthened to efficiency at whatever sacrifice, the following arrangements were made in November, 1881, under which the arrears will be worked off as soon as vacancies, five in number, can be filled.

In consequence of the enormous increase of work, and with a view to the more speedy dispatch of business in connection therewith, it became imperatively necessary to relieve the head of this branch, of the detail, and an amount of responsible work which is performed by officers whose special qualifications and experience fitted them for the positions. The office professional portion of the work was therefore geographically arranged in two main divisions, and again subdivided; the charting of reserve information, &c., on county, parish, town, and local maps forming a third division. It is anticipated that the above arrangement will fully meet the increased demand.

#### COMPILING AND PUBLISHING BRANCH.

The above branch deals with the preparation of new maps, which are compiled from the latest information obtainable in the office. Description and duties.

Under the first head, Compiling, are county, parish, town and duplicate maps, feature surveys, and contract tracings; under the second, Lithography, are lithographic drawings, engraving, and lithographic printing, maps prepared on scales of 1 and 2 miles to an inch. Only six maps on a scale of 2 miles, and two sheets on a scale of 1 mile to an inch have been compiled during the year, as the strength of this branch has principally been devoted to the compilation of parish maps. County maps.

Parish maps are prepared on a scale of 20 chains to an inch, and then reduced by photo-lithography to a scale of 40 chains, and when published they are at once supplied to Land Agents for sale to the public. The total number of parish maps compiled in this branch during the year was 631. In addition to these about 369 parish maps have been compiled in the various charting branches; their production is, however, regulated by the amount of current work in the branch, charting having the preference. Parish maps are produced from the best data at hand, but they are often insufficient as regards strict accuracy; therefore they must be looked upon as the nearest approach to it that the means at command will admit. However, the maps fulfil the purpose for which they were designed, the total cost being only one-seventh of a penny per acre, including compilation, lithography, and printing. With these parish maps as a basis the production of county maps therefrom is performed with a considerable saving of time, and with sufficient accuracy for practical purposes by photography. Parish maps.

When all the parishes in a county have been compiled, an "index" county map is prepared on a scale of 4 miles to an inch, showing all parish and land district boundaries, roads, tracks, principal reserves, and travelling stock routes, towns and villages, and prominent geographical features. These maps are found to be a great convenience to the public. Index maps.

Town and village maps are prepared on a scale of 8 chains to an inch, showing all information required by the public; but in consequence of the scarcity of draftsmen only five of these maps have been compiled during the year. Town & Village maps.

The work of preparing duplicate maps of counties on a scale of 2 miles to an inch was, during the year, almost entirely abandoned, with the exception of occasionally charting up former compilations for immediate use pending the preparation of parish maps. Most of the officers formerly employed in the duplicate map branch are now engaged upon the compilation of parish maps. Duplicate map

All work in connection with feature surveys required for the production of new maps on a better basis is dealt with by this branch. Instructions for the survey of 1,081 miles have been issued, and 2,530 miles of survey examined; also 2,257 miles of survey received during the year. Topographical surveys.

The distribution and examination of tracings and drawings made by contract, for the information of officers of this and other Departments, and for Parliamentary returns, is done in connection with this branch. 4,054 tracings, drawings, lithographs chartered up, and copies of documents have been made during the year. Tracings by contract.

Only two engravers are employed, their services being chiefly directed to adding new matter to engraved maps. Engraving.

In addition to the general work above mentioned this branch deals with miscellaneous work of various kinds. On account of the draftsmen being principally employed on the compilation of parish maps, and the difficulty of obtaining more assistance, the work of compiling a new map of the Colony has not yet been commenced. Miscellaneous work.

In consequence of the number of parish maps required to be published, the work of lithography and printing has greatly increased. During the year 1,575 publications have been issued, and 198,227 sheets printed.

**Work performed.** At pages 66 to 75 will be found a return showing the work performed by the various sub branches of the Compiling and Publishing Branch, and at the end of the Report a diagram marked A showing the increase of work from the year 1861 to 1881 inclusive.

#### AUCTION BRANCH.

(Survey Department.)

**Duties.** The duties of this branch are to receive from General Auction Branch all applications, except those in the Geographical Divisions, for auction measurement, and if they appear unobjectionable to note them for the District Surveyor, if objectionable to submit such cases to a higher authority—to inquire whether any lands measured for auction sale are within pre-emptive or auction leases, or lands required to be reserved for public purposes, to forward to Department of Mines for report all lands within gold-fields—to prepare Schedules of lands to be submitted for sale—to examine proof with plans and papers before sending to Auction Branch "Lands"—and to observe that all plans are noted with date of sales and the necessary tracings and lithographs, as the case may be, and forwarded to the Auction Branch "Lands" for transmission to local Land Offices.

#### LEASE BRANCH.

**Duties and amount performed.** This branch acts on technical questions arising under the 11th, part of 12th, part of 13th, 16th, and 20th clauses of the Crown Lands Occupation Act of 1861; the 34th, 35th, 36th, and 39th of the Lands Acts Amendment Act of 1875; and the 14th and 18th clauses of the Further Amendment Act of 1880. Applications to lease land are sent from the General Lease Branch to ascertain if available; if so, the lease is charted, and a report returned to that effect, with a tracing for the Land Agent of the district. On the contrary, if objections arise through alienation, reservation, previous leasing, &c., the case goes back with a report that for reasons assigned the applications must be refused. The amount of work performed by this branch may be inferred from the return at pages 83 and 84; in addition thereto, 4,605 cases were received from the General Lease Branch for reports on conflicting claims, transfers, &c.

3,514 cases received from the Auction Branch for report as to any interference with pre-leases.

673 from Improvement Purchase Branch for report as to land being under lease to applicant.

7 cases of applications for refund reported on.

160 notifications received from Reserve Branch, and charted on maps of new reservations from lease.

2,038 cases were re-charted from old to new maps.

**Arrears.** The number of cases in hand at the end of the year was only 300, most of which were partly dealt with.

#### CONDITIONAL PURCHASE ISSUE BRANCH.

**Duties.** The duties of this branch are initiatory, and apply to the first examination of all applications for conditional purchases and Volunteer land orders, to ascertain whether the land applied for is sufficiently identified, and that the applications will not clash with previous conditional purchases or lands, either alienated or contracted, under the Act. It furnishes replies to queries from the Chief Commissioner of Conditional Sales respecting the identity, validity, &c., of conditional purchases, often involving careful investigations and reference to maps in all branches of the office. It submits all doubtful and difficult cases (arising prior to issue to the surveyor) to a higher authority, with a report dealing with the question, and recommends action in approval, refusal, modification, or avoidance, as the case may direct; and if no objection is apparent the instruction is issued to the surveyor.

**Cases submitted.** The number of recorded cases passing through the branch during the year is 9,766, and those submitted to a higher authority, 1,817.

The number of Conditional Purchase and Volunteer Land Order cases acted on in the six geographical divisions will be found at pages 85 to 88, and are not included herein.

**Arrear.** The state of this branch was not at the end of the year so satisfactory as I should have wished, for, notwithstanding the fact that the conditional purchase issue work of four new geographical divisions, equal to rather more than one-fourth of the Colony, has been transferred from this branch, the increase of cases to be dealt with in 1881 was 25 per cent. in advance of 1880. During the year the branch was deprived of the services of the officer in charge, through his resignation. His successors being comparatively new to the work, were at first unable to meet the demand upon their services through the extraordinary increase of work. Although the branch is numerically stronger than in 1880 it is weaker in experience, so many officers having left.

It is, however, satisfactory to state that the number of cases acted on during November and December last equals the number received; therefore it may be fairly assumed that the arrear will soon be reduced.

#### IMPROVEMENT PURCHASE BRANCH.

**Duties.** The Improvement Purchase Branch acts on the office professional work inseparable from cases under the 11th clause of the Crown Lands Alienation Act of 1881, the 2nd clause of the Amendment Act of 1875, and the 13th clause of the Further Amendment Act of 1880, prior to the issue of instructions to survey, and up to the time the surveys are ready for charting. It divides the Colony in two parts, each half being under a permanent officer of the second class. Its duty is to act on improvement, conditional improvement, and special purchase cases, involving considerable professional and general skill. It is not considered necessary to go fully into the details of the working of this branch, as it will cease to exist as soon as the supply of parish maps enables me to transfer its duties to geographical divisions. The loss of valuable time in this branch in following up and waiting for maps required elsewhere is in the meantime to be deplored.

**Transfer to geographical divisions.**

During the year 12,636 cases were received, against 11,069 in 1880. Of these 12,302 were acted on, leaving 334 in hand, while 706 remained at the close of 1880. The branch is therefore out of arrear, as the number of cases received averages about 600 per month.

MISCELLANEOUS

## MISCELLANEOUS BRANCH.

This branch reports on all technical questions relating to dedication and reservation of sites for public purposes, reclamations, rescissions of reservations of frontages, special leases, leases of oyster-beds, resumption for railway purposes, and other duties connected with charting not dealt with in the ordinary branches. Duties and amount per formed.

At page 98 will be seen a return giving particulars of the work done by this branch, which is summarized and compared as follows :—

Cases received in 1880	...	...	...	...	...	...	3,984
Cases acted on	...	...	...	...	...	...	3,685
Cases remaining in branch	...	...	...	...	...	...	438
Cases received in 1881	...	...	...	...	...	...	3,744
Cases acted on	...	...	...	...	...	...	3,821
Cases remaining in branch	...	...	...	...	...	...	361

which is a very satisfactory result, when it is considered that eight draftsman either resigned employment, or were withdrawn from the branch during the year, and their places filled by persons of less experience, and also that the head of the branch now takes the supervision of examinations of candidates for employment as draftsmen, numbering 51, during the year. In consequence of special knowledge of draftsmanship, disputed cases of cost of drawing by contract are also referred to him for estimation.

The branch is now out of arrear.

Arrears.

## DISTRICT MAP BRANCH.

The duty of this branch is to prepare Land Agents' maps, charted up to date of issue, showing all alienated and measured lands the surveys of which have been accepted, reservations from sale and lease on account of gold, water supply, commonages, sites for villages, and any other public purpose. These maps are generally copies of the county maps, upon a scale of either 1 mile or 2 miles to an inch; but in cases where parish maps have been constructed these are charted up to date and supplied in preference. Duties.

The diagram at the end of the Report, marked B, shows the annual production of Land Agents' maps from the year 1861, and some of the causes of unequal action in supply. The diagram ends at 175, there being some twenty districts to which sending maps more than once a year would be a waste of time. Production.

The return at page 99 shows the duty performed by the branch during the year.

The branch was strengthened by the employment of draftsmen on piece-work during the year, and was enabled, with that assistance, to supply a set of maps every six months to each Land Agent.

## NOTING BRANCH.

The duty of this branch is to note the name of purchaser and clause of the Act under which alienations occur, upon the original plan of the survey, to enter the name of purchaser upon the parish map, county map, or town map, and in the book of reference thereto. Duties.

Two additional draftsmen were lent to the branch in the early part of the year 1881, but in June and November last the services of the two most efficient officers were withdrawn for services in the field. Notwithstanding this disadvantage the branch was in a better position as to arrear at the end than at the beginning of the year. During the year 9,374 deed cases were received; 9,723 were noted; and 583 remain in the branch against 932 remaining at the end of 1880. The number of portions noted sold and unsold during 1881 is 16,574. The branch is in very good working order.

The amount of work performed by this branch is shown at page 107.

## DIAGRAM BRANCH.

This branch is employed in the preparation of diagrams or small plans on Crown grants, and the examination of the same. There are two examiners of diagrams, and they compare them first with the description and then with the original plan. This often necessitates reference to the original plans of adjoining measurements, to county maps, and even to surveyors' letters, before finally sending the diagrams to the Under Secretary for Lands for preparation of the deed. The diagrams are drawn by contract draftsmen, who are supplied with description, plan, and deed-forms. One copy is prepared on parchment and one on paper. Before issuing to the draftsmen the different kinds of deed forms are placed with each case; the diagrams are then drawn on the margins of the proper form, usually to a scale of 40 chains to 1 inch, showing the land intended to be alienated, together with the adjoining lands. A full and accurate delineation of the lands conveyed I hold to be of greater importance than a written description, and in two of the Australian Colonies engrossed descriptions are now dispensed with. Duties.

This branch was created at the passing of the Real Property Act in 1862, and has been well and carefully conducted from its commencement.

During the year 1880 the diagrams prepared amounted to 11,464; in 1881, 18,362 diagrams were drawn. This branch was free from arrear at the end of the year.

## DESCRIPTION BRANCH.

This branch is employed in the preparation of descriptions of all alienated or dedicated lands, and for certificate under the 14th clause of the Crown Lands Amendment Act of 1875. Duties and

Work is received from the following branches, viz. :—Noting, Miscellaneous, Charting, and from the Under Secretary for Lands. Papers received from the Noting Branch are for descriptions to be engrossed in deeds of grant, including all classes of alienation under the Land Acts; those received from the Miscellaneous Branch are for descriptions to be used in Gazette notice prior to dedication, and those received from the Charting Branches and Under Secretary for Lands are for descriptions from which the certificates under the 14th clause of the Amendment Act of 1875 are prepared. In the latter case, the papers being unaccompanied by plans, these have to be obtained by the branch, and great loss of time occurs in tracing them. The

**amount performed** The head of this branch examines all papers to ascertain the form to be used, &c., before issuing to the description writers, and occasionally examines descriptions when written.

The description writers are paid at a uniform rate for each description, and supplied with forms and plans of the portions to be described.

During 1881 the number of cases received was 16,813; acted on, 15,684, remaining 1,149—equivalent to a months' work, which is more than it is advisable to have at one time. The accumulation occurred partly on account of the absence of the head of the branch on sick leave during the latter part of the year. If the present staff is not able to overtake the work it will be necessary to strengthen the branch, which however is in good working order. The increase of work during the year was 1,416 cases in excess of 1880.

The return at page 107 shows the amount of work performed in this branch during the year.

#### CONDITIONAL PURCHASE TRACING BRANCH.

**Duties.** This branch is charged with the preparation of tracings for conditional purchase inspectors; it will be merged into the Geographical Divisions when they all come into operation.

This branch also utilizes the services of a number of persons not eligible for salaried employment—some of them are ladies. If the services of responsible draftsmen were available, it would be cheaper to employ them by salary on this work, when the work would only occasionally require examination.

A return showing the work performed will be found on page 108.

#### CUSTODIAN OF PLANS.

**Duties.** This officer has the custody of original plans of county and town lands in general use, except those kept in the geographical divisions of the Charting Branch, and receives and records plans from the Charting Branches as they are dealt with. He receives and issues all applications made to him for plans, carefully noting in a record book kept for the purpose the names of officers to whom they are issued, and receipt of plans when returned.

The number of plans recorded and kept in this branch is 135,000, and the amount that has been spent upon their production is estimated at about two millions sterling.

A return showing the work performed will be found on page 108.

#### EXHIBITOR AND SALESMAN OF PUBLIC MAPS.

**Duties.** This officer has charge of all the plans that are open for the inspection of the public, and those in general use by the office staff, comprising county, town, parish, and environ maps, and for general convenience keeps a daily record showing whether the maps are in his room at the head office, or in the branch offices, and the names of the particular officers with whom the map or maps are to be found. He is custodian of all published lithographs, and is salesman of the same; he keeps a book showing the stock in hand and disposed of, either by purchase or issue for office use, for Land Agents or officers in the field or of other Departments, forwarding each day to the Secretary and Cashier a statement of lithographs sold. He notes applications and supplies the required lithographs; sells to persons applying verbally, and exhibits maps to the public, and attends to the telegraphic instrument for messages to and from the head office to the branch offices.

A return showing the work performed will be found at page 108.

A marked increase in sales of lithographs appears during the year, the receipts having risen from £170 19s. 4d. in 1880 to £284 10s. 11d. in 1881.

#### CLERK OF CHARTING BRANCHES.

**Duties.** This officer's duty is to record all registered papers received for charting purposes from the Record Branch, the number for 1881 being 30,779, giving required information respecting such papers, and forwarding the same to the proper officers, noting when issued and returned. He has also charge of the following plans, &c., viz. :—Surveys of old grants, old parish and town maps, old feature surveys, squattage features, designs for towns, field-books, reference maps, printed forms in use in the Charting Branches, and those for correspondence with surveyors on points connected with field-work.

#### PLAN MOUNTER.

The duties of this officer need not be described. A return showing the work performed appears on page 108.

#### ACCOUNT AND CLERICAL BRANCH.

**Duties and cost.** This branch employed officers both on the fixed and temporary staff, eighteen of the former and nineteen of the latter, during the year 1881; the salaries ranged from £50 up to £450 per annum, and the total cost of the branch, including rent of premises, was £7,138 7s. 9d.

The business of the branch is divided into the following heads, viz. :—

Accounts.  
Correspondence.  
Record of Measurements, &c.  
Stores.  
Statistics.

The duties of the branch may be summarized as follows :—

The total amount of accounts rendered for services of the past year was	...	£242,088	0	0
The amount of balances of licensed surveyors' accounts for 1880, and previous years passed for payment	...	20,124	0	0

Total amount of salaries and contingencies paid was	...	£262,212	0	0
		244,572	0	0

The balance	...	£17,640	0	0
-------------	-----	---------	---	---

being represented by a percentage withheld from licensed surveyors for services of the year, pending the examination and passing of their surveys by the charting draftsmen.

The

The total number of letters, &c., written, recorded, and despatched during the year was over 32,000 on professional subjects, and 838 on questions requiring Ministerial approval.

The number of letters received from surveyors—salaries and licensed—was about 22,000.

The number of special cases submitted for my decision direct from this branch was over 5,250.

The value of the stores issued during the year and on hand is—

To professional draftsmen ... ..	£1,380	0	0
Clerical branch ... ..	131	0	0
The value of stock on hand for both branches amounts to ... ..	2,031	0	0
Of instruments, horses, &c., in the hands of surveyors ... ..	5,812	0	0
Of instruments, &c., at head office ... ..	1,023	0	0
And of photographic apparatus at printing office ... ..	365	0	0

Showing a total value of stock on hand or in use of ... .. £10,742 0 0

The number of returns prepared during the period was five, one of which was of a very exhaustive character, and occupied a considerable time in preparation.

The clerks employed on the permanent list have of late years been selected from those youths who have been successful in passing the Civil Service examination, and who had an additional special recommendation from employers, teachers, &c., as to their capabilities for the duties required. Where more than one has been nominated the successful competitor at an examination held in this office has been appointed to the vacant salary. The annual rate of pay after a short probationary service has been £50, and the conditions the same as those in the Service generally, increases as a rule being only obtainable when vacancies occurred.

In the temporary staff the rates are now daily commencing at 6s. 5d., and rising by degrees to 15s. 11½d., the highest rate paid during the year, the conditions of service having been re-arranged so as to place members on the same footing, as regards pay and leave of absence, as the temporary staff in the Ministerial office, payment being made for six days in the week.

On page 48, schedule F, will be found a return showing the cost of measurement of land by licensed surveyors for the year, to which the approximate cost of supervision, design, &c., has been added. The rate per acre may appear high, but it must be borne in mind that it includes all measurements, town allotments, isolated portions, &c.

The total amount voted for 1881 was £266,208, but in consequence of the continued drought in most parts of the Colony the licensed surveyors have not been able to carry out their instructions; consequently the sum of £24,120 was unexpended.

At page 50 appears a return showing the cost of each survey district, the number of instructions issued and carried out, the balance representing those transferred or remaining on hand at the end of the year; the number of instructions remaining on hand at the end of the year is no criterion of the energy or otherwise of the surveyor, the number being affected by the return of instructions by other licensed surveyors who resign or change districts. Following this is a similar return respecting the services of the first-class, second-class, and temporary salaried surveyors; two of the number have been unavoidably employed on duties belonging to the triangulation and general survey of the Colony.

At pages 51 to 54 is given a return showing the number of instructions in the hands of each of the licensed surveyors, the lapse of time since the issue of same, the number issued during the year, also particulars of those dealt with and remaining on hand at the end of the year.

A synopsis of these returns appears at page 109, and will give some idea of the extraordinary increase of the work of the Department during the year.

GENERAL SURVEY.

The principle of this system of survey was sufficiently described in the first Annual Report, and need not now be repeated.

During the year 1881 the energies of the branch have been principally directed to the increased work in the county of Cumberland. County of Cumberland.

The large number of road, alignment, reclamation, alienation, and other surveys has necessitated the employment in this county of thirty-one surveyors, against fourteen so employed in the previous year. Nearly all these surveys have been carried out by connection with the trigonometrical stations, and when these were not readily accessible the parallelism of meridians was ensured by determining the true meridian and applying thereto a correction for convergence.

In all surveys made under the triangulation in the county of Cumberland, the necessity for parish maps is kept in view, consequently a larger amount of measurement is done in many cases than the circumstances of the case actually under consideration would indicate. The parishes of Botany and Alexandria were particular instances of this; in fact the whole time of one surveyor was taken up in these surveys.

The City detail survey, which has for its object the publication of a map (in sheets) of the city and suburbs, has been pressed forward as much as possible; but such progress has not been made as would have been the case had the surveyors been continuously employed thereon. They have been so much carried away by urgent instructions for alienation and other surveys as to seriously retard its progress. Notwithstanding this, a survey of all the street frontages between Hunter-street and Park-street has been completed, as well as the interior details of several of the city sections. A survey has also been made of the entire details of that area lying between Circular Quay and Hunter-street which is bounded on the east by Macquarie-street and by George-street on the west, the plan of which will shortly be received. The plans of all surveys within the city are now being drawn to the scale recommended in his City Sewerage Report by the late Mr. Clark, C.E.—viz., 40 feet to the inch—in order that they may be utilized for all purposes of house drainage, water supply, &c.; and as each section of the city is completed it is proposed to issue for public use maps thereof, similar to those to be found at the end of the Report, marked G and H, which represent that block of buildings bounded by Hunter, Castlereagh, King, and Pitt Streets. City surveys.

The

Sewerage  
surveys.

The requirements of the Engineers for the proposed scheme of sewerage, in plans showing all details along the routes of the proposed sewers, have been almost completed. These comprehend surveys of a large number of the streets in the city, as well as the entire details of route of the sewer on the southern fall—*i.e.*, to Cook's River and Shea's Creek. A survey of Webb's grant, on the south-east side of Cook's River, which it is proposed shall be used as a sewerage farm, has also been made. These plans have been examined in this branch, and copies have been supplied for the information of the sewerage engineer.

Office.

As mentioned above, the work of thirty-one surveyors was forced upon the branch without any corresponding increase in the number of draftsmen, consequently the examination of plans, &c., occupied so much of their time that instead of a large addition to the published maps only the following were issued:—Sheets S2 and S1W1 of the Sydney survey have been published, and sheets N2E1, N2E5, and N3E5 have been completed and placed in the lithographer's hands, but owing to pressure of other work in the lithographic branch the publication could not appear. The plotting of sheet N1W1 on the scale of 2 chains to an inch was well advanced and progress made with two others, *viz.*, S2W1 and E1. Evidence of the use which has been made of the maps of the city and suburbs to the scale of 2 chains to an inch is given by the fact that the first edition of three of the sheets has been exhausted by sale, &c., and it has been found necessary to obtain further prints.

Twenty-two parishes of the county of Murray have been compiled, with the assistance of "Trig. points," the relative positions of which had been determined by the trigonometrical survey, and nineteen of these are in office use, the remainder being withheld till receipt of certain test surveys which were desirable. Besides these, ordinary compilations have been made of five other parishes. Ninety-one plans of connections from measured portions to trigonometrical stations were received and examined, seventy-four of which were in the county of Murray, and these have been used in the abovementioned compilation.

The station register has been further added to by descriptions of 373 trigonometrical stations and intersections, and the positions of 234 of these (88 stations and 146 intersections) were determined during 1881, making a total of over 1,700 stations now fixed by observation.

#### TRIGONOMETRICAL SURVEY.

During 1881, observations of the principal series of triangles connecting the base lines at Lake George and Richmond were completed, with the exception of those at one station. This long series, extending over 250 miles, will supply a reliable test of the accuracy of the whole survey. The objects of and methods employed in the triangulation having been explained at length in my report for 1880 need not be repeated here.

A diagonal series of triangles is in process of being formed, which, when finished, will unite the two base lines by the most direct route practicable. This is necessary for the extension of the survey, and also as an independent test of the triangulation; the observation of a series of triangles easterly from the Richmond base would have been completed had the weather not been singularly unfavorable in consequence of the long continued drought and unsteadiness of atmosphere consequent thereon. This work requires the utmost care, as on it depends the accuracy of the unit of measure for the Sydney and Suburban surveys, which will then be compared with and expressed in terms of the Richmond base.

During the progress of the main triangulation, observations have been made to determine the differences of altitude of all the stations of the series, and, in order to verify the values thus obtained (which are known to be liable to very considerable uncertainty, owing to the variations of atmospheric conditions, which largely affect the co-efficient of refraction) the heights have been tested wherever practicable by check-levelling to the railway. In this manner the heights of Lake George base-line, Mount Lambie, Blackheath, and the Richmond base, have each been compared, and the greatest difference between these values and those deduced by computation from the trigonometrical observations does not exceed 3 feet. The heights of all first-class stations, and of many other points, are now therefore available for meteorological or other scientific purposes and for general information.

The triangulation of the suburbs of Sydney has been carried on without interruption throughout the year, and by this means the populous suburbs of Petersham, Canterbury, Ashfield, and Botany, also Curl Curl, and part of Lane Cove and Parramatta Rivers' watersheds have been covered with triangles of suitable dimensions, so that every ordinary survey connected therewith can be tested in the office.

During 1881 suitable sites have been selected and cleared, sufficient, with a few exceptions, to complete the primary and secondary triangulation of the whole of the county of Cumberland and part of Northumberland. In some of the most densely populated localities, and especially along the routes of the proposed lines of railway to Newcastle and Illawarra, other trigonometrical points will be necessary, which will be chosen and fixed at the time the angular observations are being made.

I cannot leave this subject without testifying to the liberal spirit almost invariably manifested by the owners of property when asked to permit stations to be erected upon their land and timber cut in order to obtain the necessary sights.

The extraordinary demand for surveys required to define the course of public roads through or bounding old properties now being brought forward for sale, the alignment of streets, the survey of public reserves, and other cases in which the onus of establishing the accuracy falls upon this Department, has caused the regular extension of triangulation to be broken in order that urgent necessities for fixing trigonometrical points and bearings may be met, the result being that the work has been done in patches, and consequently the work of the year 1881 cannot be expressed in the usual form showing area covered and cost per acre; the following statement is therefore substituted.

In the principal series of triangles, which extend from Ball Hill trigonometrical station to the Richmond base, the angles have been observed with the 18-inch altazimuth instrument, and thence towards Sydney as far as Riverstone. The area included by these triangles is 371,500 acres.

The secondary triangulation of county Cumberland, observed with 10-inch and 8-inch instruments, has been carried on in the vicinity of Windsor and Penrith, covering an area of 185,000 acres.

In the detail triangulation of Sydney and suburbs that part of the scheme which includes Petersham, Canterbury, Ashfield, Botany, Curl Curl, with part of the watershed of the Lane Cove and Parramatta rivers, has been finished; 89 new stations have been selected and completed.

The north population boundary of Sydney, to the eastward of the road, Lane Cove to Pittwater, has been surveyed and marked in connection with the trigonometrical survey, special points having been chosen  
and

and fixed for this purpose, in order to secure the utmost precision in the position of this important boundary, the land adjoining which may at some time become of great value, and an error of a few feet only in the exact position might seriously affect individual interests.

#### QUEENSLAND BOUNDARY.

The survey and marking of the boundary between this Colony and Queensland, from Barrigun eastwards to the Macintyre River, a distance of  $199\frac{1}{2}$  miles, was completed. At average intervals of 35 miles, all through the survey, observations for latitude were taken with the zenith telescope, and the results are such as to establish beyond question the close agreement of the marked line with its true geographical position, viz., the 29th parallel of south latitude. A series of chords to the small circle, which the parallel forms on the earth's surface, were set off on the ground with an 8-inch theodolite and the bearings of the chords checked by astronomical observations for azimuth, at intervals of about 5 miles, so as to avoid the effect of a possible accumulation of small errors, which in so great a distance might have produced an appreciable difference. The chainage was made with an oval steel wire,  $2\frac{1}{2}$  chains long, carefully adjusted and tested to the standard at the Observatory. The boundary has been marked throughout with a well-squared post at every mile and a smaller post sunk into the ground at every 20 chains. Extra large posts have been erected at the termini and at the intersection of all main roads, marked  $\uparrow$  latitude 29. The coincidence in position of the boundary by this survey, at the points where it was observed by Messrs. Gregory and Greaves, is very satisfactory, the greatest discrepancy amounting to about 3 chains on the Macintyre; on the Culgoa it is only  $68\frac{1}{2}$  links. Taking into consideration the nature of the country in which this survey has been made, and the privations to which the party was exposed on account of difficulty in obtaining water, and the scarcity of grass for the horses, I am of opinion that the manner in which it has been carried out by Mr. Cameron, the surveyor entrusted with this onerous duty, is highly creditable to that officer.

#### COMPUTING BRANCH.

In addition to the routine work of checking angle-books, weighting the bearings of the main stations of the triangulation, and entering the results in the abstract and bearing books, programmes of latitude and azimuth stars, and of zenith pairs for the Queensland boundary, have been supplied to the trigonometrical surveyors during 1881, and the latitudes of four stations on the Queensland boundary, together with the latitudes and azimuths of five first-class stations on the main triangulation, have been calculated.

The longitude of Mount Lambie has been computed from moon culminations and from an occultation of Antares, and the result compared with that found by telegraph from Sydney.

The catalogue of latitude stars has been increased by the addition of 160 stars (the positions of most of which depend on Sydney observations) and was at the end of the year in the hands of the printer.

In connection with the main triangulation the observations made by Mr. Conder at Richmond for the purpose of determining the variations in the lengths of the wooden rods used in measuring the base-lines, corresponding to different temperatures, have been reduced and the quadrilaterals formed by the following stations:—North Base, South Base, Pound, Allen-Ovens, Lowe's, Bindo, Lambie; Bindo, Blackheath, Bald, Lambie, have been balanced by the method of least squares.

In county Mitchell forty new stations and intersections have been fixed, and the calculations in connection with the triangulation of Botany, Petersham, Curl Curl, Lane Cove, Canterbury, and Ashfield have been completed, fixing eighty-nine new stations and 146 intersections. In addition to this ten stations in Sydney and suburbs have been refixed from additional data supplied to the branch.

The work of the Computing Branch being well out of arrear the first assistant computer was employed in his capacity as a surveyor from June till August in carrying out some urgent field work in connection with the branch.

At page 49, Schedule H, is a return showing the total cost of the Trigonometrical survey for the year.

#### REMARKS.

The year 1881 has been one of exceptional pressure of work of all kinds, especially upon the heads of branches and divisions, arising from the withdrawal of so many valuable assistants from the various Drafting Branches and the impossibility of suddenly supplying their places; also, in consequence of the number of claims upon the Department for new surveys of all descriptions, and the necessity for some extensive examinations into old surveys, arising from indefinite descriptions in the grants. The recent impetus in the subdivision of old grants, now private property for sale, has caused an unusual increase in this line of business.

The Conditional Purchase Issue Branch, which was at the end of 1880 fairly out of arrear, had at the end of 1881 fallen somewhat into arrear through an increase of conditional purchase applications and other unforeseen causes. The branch has been reorganized and strengthened, and will, it is hoped, in a few months be as far as possible out of arrear.

In the Reserve Branch the reduction of assistance and increase of work has affected the branch so much that the utmost endeavours have been insufficient to prevent an accumulation of some three weeks' work at the end of 1881, at which time five draftsmen's seats were vacant. Remedial steps were initiated in November last to meet the occasion, and the arrear will have ceased before this report appears.

The work of the office in connection with the alienation of land (charting) is now nearly equally divided between the old Charting Branches and the new Geographical Divisions; therefore, until it is all done under one system, I cannot put the state of it before the public in such a lucid manner as I should desire; and, unfortunately, the want of draftsmen to prepare parish maps may still further protract the attainment of this important object.

In the production of parish maps I must admit that the results shown, comparing the year 1880 with 1881, are not as satisfactory as I could wish, the falling off being no less than  $31\frac{1}{2}$  per cent.; this is accounted for by the great increase of work in the Department generally, and the want of experienced officers to carry on the business in an efficient manner.

The diagram marked C at the end of the Report shows the number of persons who were employed in the Department, only six more than in 1879 when the work was coming in slowly, notwithstanding the advertisements for draftsmen in this and the adjacent colonies, and employing every one who could pass the examination. If the services of all those who have resigned or been sent to the field could have been retained in the office there would have been no arrears, and the public would have been satisfied, instead of the reverse, as at the end of 1881.

The diagram marked D at the end of the report shows the average salary paid compared with previous years. In 1861 it was £274; in 1870, £243; in 1881, £222; and I am certain that economy in this respect has been carried too far, and the fact was admitted by Mr. Secretary Hoskins in raising several salaries for 1882.

The diagram marked E at the end of the report, shows the number of communications received, and a diagram marked F, at the end of the Report, shows the cost of the Department; in both cases the results would have been greatly in excess had it not been for the drought which has so much retarded the operations of the licensed surveyors.

I have the honor to be,

Sir,

Your obedient servant,

P. F. ADAMS.

The Under Secretary for Lands.

Preparing maps of the following counties for office use:—County of Anckland (North and South sheets), Cowper, Culgoon, Gunderbooka, Goulburn (sheets Nos. 1 and 3), Hume (sheets Nos. 1 and 2), Tandora, Windeyer, and Yanda. Preparing tracing of County of Hawes, and various other work too miscellaneous to specify.

NAMES of Parishes compiled during the year by Sub-branch Compiling Branch.

Name of County.	Names of Parishes compiled during 1881.
Baradine .....	Bullerawa, Cubbo, Dubbo, Etoo, Merimborough, Minnon, Moglewit, Talluba, Teni, Tunie.
Benarba .....	Balerang, Bunarba, Bucknell, Bibble, Tala, Galloway, Hamilton, Narrawall, Turrawah, Tycawina, Yarronah, Wadden, Boonangar, Boronga, Boomi, Boroo, Bringalow, Bundori, Carraa, Currali, Cowmerton, Coubal, Noora, Cooobong, Dindierna, Greaves, Kunopia, Umbri, Newcastle, Tyrrell, Whalan, Winslow, Werrina.
Burnett .....	Russell, Blue Nobby, Burnett, Monsoon, Clare, Adams, Boobah, Myalia, Vickers, Oregon, Mandoc, Parkhurst, Coolati, Ottley, Hollingsworth, Codrington, Gugumbarra, Gournama, Abererombie, Gincroi, Stack, Wanaldia, Bledger, Pepper Box.
Denham .....	Bergan, Benn, Denham, Myall, Tareela, Katambone, Eastlake, Baraneal, Tholoo, Jarrell, Gorian, Cryon, Pearce, Thalata, Cabul, Denuleri, Buriembri, Nungerarra, Reynolds, Murra Murra, Pagan, Barwan, Roberts, Browne, Finley, Eton, Christie, Merrywinbone, Dewhurst, Murkadool, Pokataroo, Long Point.
Gowen .....	Tarambijal, Eringuerin, Pibbon, Wallumburrawang, Bearbung, Piangula, Burrendah, Tunderbrine, Kirban, Mundar, Toorawcanah, Dilly, Youlbung, Biralbung, Belar, Yalcogrin, Windurong, Gulargambone, Wilber, Terrabile, Callangoan, Naman, Caraghman, Wingabutta, Uargon, Tannabar, Yarrawin, Derringulla, Urabile, Balumbidal, Gowang.
Gregory (2nd Edition).	Marinebone.
Hawes .....	Mernot, Woko and Crosbie, Cobb, Dewitt, Myra, Barnard, Tomalla, Muc, Coolcumba, Vant, Campbell.
Hume .....	Castlestead, Burrumbuttock, Brocklesby, Richmond, Billabong Forest, Lowes.
Hunter .....	Capertee, M'Lean, Parry, Stuart, Innes, Wolgan, Wirraba, Wolmi, Six Brothers, Cook, Parr, Melong, Argorawa, Colo, Hawkesbury.
Inglis .....	Haning, Muluerindie, Bendemeer, Pringle, Retreat, Winton, Looanga, Tamworth, Congi, Scott, Tara, Moorbi.
Jamison .....	Quecrbri, Gundemain, Gommel, Galathera, Meriah, Tarlec, Bobbiwaa, Doyle, Nundi, Keera, Wangan, Edgeroi, Coorong, Bibil, Mellburra, Boorah, Moema, Woolabrar, Waterloo, Myall Hollow, Manamoi, Dobikin, Gehan, Meruh, Drildool, Cubbaroo, Coolga, Jamison, Dewhurst, Warrambool, Yarranbar, Orel, Vickery, Burrendong, Nowley, Denham, Markham, Bulycroi, Millie, Clements, Banna.

NAMES of Parishes, &c.—*continued.*

Name of County.	Names of Parishes compiled during 1881.
Leichhardt .....	Collinonic, Bulgah, Mundare, Ellis, Moolambong, Tahronc, Magometon, Tobin, Coocyah, Warrah, Wingudee, Dahomey, Toora, Gigidinbilla, Moora, Warragan, Colmai, Toloora, Oural, Nugal, Dinoa, Yarragoora, Thara, Bulgah, Nelgowrie, Urawilkie, Ningcar, Coninbia, Moolambong.
Murray (Trig.) .....	Burra, Googong, Queanbeyan, Keewong, Yarrow, Urialla, Tantangera, Gigerline, Purrorumba, Wamboin, Bywong, Tuggeranong, Gundaroo, Majura, Amungula, Carwoola, Molonglo, Butmaroo, Mulloon.
Murray (Ordinary)...	Yarrowlunda, Narrabundah.
Nandewar .....	Bulkawa, Deriah, Durrisdcer, Killarney, Moonbil, Narrabri, Tipperena, Vickery, Wallah, Wean, Eulah, Lindsay, Willuri, Mihi, Byar, Connor, Rusden, Borobil, Coryah, Ningadhun, Gunmenbene, Bogabri, Bellycena, Barburgate, Breentry.
Napier .....	Bullinda.
Phillip .....	Tonbong, Dungerece, Price.
Robinson .....	Cobar, Kalooglegny.
Wellesley .....	Tangaroo, Boco, Jettiba, Tivy, Cooper, Wellington, Mount Trooper, Biddi, Byadbo, Tarrabandra, Merrumbulo, Alexander, Tingaringi, Rodney, Grenville, Currowang, Tombong, Wollondibby, Delegete.
Wellington .....	Wiadre, Werouera, Trianbil, Biraganbil, Erudgere, Grattai, Millenbong, Tatuani, Avisford, Kerr, Canning, Walters, Rouse, Wear, Sutter, Brombee.
Westmoreland .....	Langdale, Kowmung, Drogheda, Abercorn.
White .....	Bohena, Boral, Brigalow, Crowie, Goona, Mallee, Quinn, Robertson, Coormore, Galloway, Arrarownic, Boral, Bulgarna, Cocaboy, Cox, Dangar, Denobollie, Dewhurst, Gorman, Humphrey, Iredale, Loder, Lloyd, Manum, Mallaltee, Orr, Parkes, Tannawanda, Yaminba.
Hardinge .....	Abington.
Oxley .....	Kungerbil, Mungeribar.

## COMPILING AND PUBLISHING BRANCH—FEATURE SURVEYS.

RETURN of work performed by Sub-branch Compiling Branch during the year 1881.

Amount of mileage of feature surveys received .....	Miles.
Do. do. examined .....	2,257
Do. do. awaiting examination .....	2,530
Do. do. awaiting examination .....	Nil.
Number of miles for which instructions have been issued .....	1,081
Number of feature surveys examined .....	193 plans

Return showing the amount of miscellaneous contract drawings and tracings prepared during the year 1881:—

Applications for maps, tracings, &c., from Surveyors and various branches of the department:—	
Number of tracings and charted-up lithographs of county, town, and parish maps, or portions thereof .....	493
Number of county map references written and charted-up for photo-lithography .....	8
Number of applications received .....	528
Number of tracings from plans and of charted-up lithographs .....	3,167

Work for other departments, and for municipalities, tracings, and drawings for Parliamentary Returns:—

Number of tracings and charted-up lithographs .....	194
Number of maps carefully drawn on paper for photo-lithography .....	96
Number of applications received .....	53
Total number of requisitions received .....	581
Total number of drawings, tracings, lithographs, and references, &c., charted-up .....	4,054

- Counties*, which are compiled on a scale of 1 mile to an inch, are usually engraved on copper and printed from stone, those on the scale of 2 miles to an inch are either lithographed or photo-lithographed, and those used as index maps are photo-lithographed on a scale of 4 miles to an inch and printed in colours for the better delineation of the principal reserves, land districts, and gold-fields.
- Towns, Villages, and Environs* are generally lithographed from the original designs on lithographic transfer paper, this being the readiest method, except in the case of some of the larger towns, where the alienations have been more considerable, which are drawn on stone.
- Parishes* are reduced by photo-lithography from the original compilations, charted up to date and completed on stone, and issued on a scale of 40 chains to an inch to land agents, surveyors, conditional purchase inspectors, &c., and for public sale at a uniform charge of 1s. each.
- Miscellaneous Maps* comprise published lithographs not otherwise described in this return, such as ordinary and special editions of the maps of the Colony, gold-field maps, trigonometrical survey of Port Jackson and City of Sydney, land in the vicinity of railway lines, harbour maps, star map, public parks, military, and electoral maps.
- Auction Sale Plans*, with few exceptions, are photo-lithographed and printed for transmission to the country land offices and for sale in Sydney, in anticipation of all lands offered for sale under the 23rd and 24th clauses of the Crown Lands Alienation Act of 1861.
- Official Forms and Documents* comprise memoranda for use at head-quarters, and in the field foolscap circulars, surveyors' notices, and all lithographs other than those issued for public sale or record purposes.
- Lithographs for other Departments* are executed for the Colonial Secretary, Observatory, Mines, Post Office, Railways, Harbours and Rivers, Roads and Bridges, Marine Board, and for the public departments generally, when a degree of precision and excellence is required which may be unattainable in private offices or when prompt urgency is desirable.

NEW SOUTH WALES.

## THIRD ANNUAL REPORT

UPON THE

## OCCUPATION OF CROWN LANDS BRANCH

OF THE

## DEPARTMENT OF MINES,

NEW SOUTH WALES,

FOR THE YEAR

1881.

---

Printed in accordance with Resolutions of both Houses of Parliament.

---

SYDNEY: THOMAS RICHARDS, GOVERNMENT PRINTER.

1882.

## THIRD ANNUAL REPORT.

---

TO THE HONORABLE ARTHUR RENWICK, M.P., &C., MINISTER FOR MINES.

Sir,

In submitting herewith the Report upon the working of the Occupation of Crown Lands Branch of this Department for the year 1881, I have the honor to propose that it shall be published separately from the Reports of the Stock Branch and the Roads and Gates Branch.

I beg leave to invite attention to the increase of work in the Branch, which is to some extent indicated by the correspondence. The necessity which now exists for a more careful computation of the areas comprised in the pastoral leaseholds, both for the purpose of determining the rents thereof and for supplying to the Lands Department information required in connection with the working of the 13th section of the Lands Acts Further Amendment Act, adds to the work of the Branch.

There is also a considerable increase in the work connected with leases for special objects: this is partly due to the leases of tanks and wells for the supply of water to travelling stock, &c. In view of the probable increase in the number and importance of these works, and the fact that the general supervision of them is in the Stock Branch, it may be found expedient to relieve the Occupation Branch of the onus of dealing with these leases, and to let the duty rest upon the Stock Branch.

The work connected with forest conservancy, in addition to its natural growth, has been considerably augmented by applications under the Act recently passed relating to ringbarking. The Occupation Branch will, however, in future be relieved of the work connected with forests, by the creation of a separate Branch which takes charge of this important interest.

As pointed out by the Chief Officer, the effect of the survey and revision of run boundaries has been to increase the estimated area of 2,237 runs by 9,323 square miles.

During 1881, five tenders for new runs were accepted and ten leases were sold at auction, while during the year sixteen leases became forfeited.

Since the Lands Acts Further Amendment Act came into operation the rents of runs have been increased by £90,306; but only about two-fifths of the land held under five years pastoral leases has yet been brought under the operation of that Act.

The numerous applications for extension of leases at the old rates is doubtless due to the operation of the law of 1880; but they indicate the improvements made in the grazing capabilities of a large number of runs, and the applications granted show that in 222 cases the grazing capabilities have been increased by artificial means to the extent required by law to entitle the lessee to a renewal of his lease at the old rent.

The increase in the revenue from leases for special purposes appears satisfactory, the rents for 1881 being nearly three times as great as for 1877, and the estimate of value of the material obtained under these leases is no less satisfactory.

As regards the forests, the revenue is gradually increasing, and for the year 1881 it exceeded the expenditure by £3,062 8s. 9d.

By Mr. Du Faur's resignation of the office of Chief Draftsman the Department has lost the services of a very able and experienced officer, but I am happy to say the duties pertaining to the office are being efficiently performed by Mr. Gerard, the Acting Chief Draftsman, who possesses both ability and experience.

I have the honor to be,

Sir,

Your most obedient servant,

HARRIE WOOD,

Under Secretary.

Department of Mines,  
Sydney, 17th June, 1882.

## REPORT from Chief Officer.

Sir,

Occupation of Lands Office, Sydney, 10 May, 1882.

I have the honor to forward a report upon the work performed by the office of Occupation of Lands during the year 1881.

Staff employed  
Appendix A.

The staff employed is shown in Appendix A, together with the date at which each officer employed entered this office, and the salary voted for his services.

This is shown under two headings, viz., the Head Office and Country Districts.

The registered correspondence with the office has increased from 15,805 letters in 1880 to 18,531 in 1881, whilst the expenditure on salaries in the Clerical Branch has been decreased by £125.

Appendix B.

In Appendix B is shown the changes made in the staff by increase or reduction.

The staff in the Head Office has been increased by the appointment of an Inspector of Forests, at a salary of £350 a year, and it has also been considered necessary to employ three temporary draftsmen, whilst during the latter part of the year the office has been deprived of the services of the chief draftsman, who resigned his office on 30th September.

The staff in the country districts has been reduced by the discharge of Commissioners of Crown Lands, together with the assistants and campkeepers attached to their offices, numbering in all twenty-five persons, the expenditure upon whose salaries for 1880 was £5,699 3s. 4d.

Receipts and  
Expenditure  
Appendix C.

In Appendix C is given a comparative statement of the details of expenditure and receipts during the past three years, but the pastoral rents credited to revenue for each year must not be regarded as the rent due for such year—that amount is given under the head of pastoral leases.

The cost of appraisements amounted to £8,113 3s. 11d., but a portion of this amount should be charged against appraisements for 1880 which were not completed in that year.

## DRAFTING BRANCH.

This office suffers from the loss of the services of the late chief draftsman, who organized, and for twelve years conducted the business of the drafting branch.

The requirements of the Act of 1880, and the different mode of conducting appraisements, have added considerably to the demands upon this Branch.

Work of staff.

A critical revision of the area of each run to be appraised is necessary (as was explained in the report of last year); the reports of appraisers as to the area withdrawn at appraisement require verification and correction; an investigation of the area withdrawn since the last appraisement is indispensable in cases where compensation is demanded for area so withdrawn; and information with regard to position of runs must be supplied to appraisers who are no longer local or permanent officers.

The limitation to extent of improvement purchase imposed by section 13 causes the Department of Lands to apply incessantly for diagrams and descriptions of the boundaries of runs, as well as for information concerning the area withdrawn from such runs by the action of the Alienation Act or otherwise.

The staff is also employed upon the amendments required in existing descriptions of run boundaries, by the embodiment of information acquired by survey, by the adjustment of boundaries between runs, or on account of subdivision permitted.

Maps.

Tenders for new runs are also investigated and reported upon.

The returns furnished by the Drafting Branch show that no maps have been published during the past year, and that the commencement of a map of the Colony is the only compilation undertaken. This map, which is being compiled by one draftsman specially appointed for the purpose, will be on the scale of eight miles to an inch, and will show all the runs in the Colony, together with rivers, towns, and railways.

Survey.

The extent of run boundaries which have been surveyed and marked reached to 1,165 miles. 900 of these were measured by direction of the Minister, under the powers given by the 41st section of Lands Acts Amendment Act of 1875, 66 were measured in accordance with the provisions of reg. 4, chap. 2, Part II of Regulations of 1880, and 199 were marked by that portion of the territorial boundary with Queensland which has been recently surveyed. For connections and other necessary purposes 92 miles in addition were surveyed, which do not represent boundaries of runs.

Appendix D.

In Appendix D three schedules are supplied, showing—

1. Mileage of run boundaries surveyed in each pastoral district under 41st clause in 1881, with the cost of survey.
2. The estimated area in each pastoral district of runs whose leases expired in 1881, and the extent of survey upon them.
3. The result of revision of area of each run prepared for appraisement.

The extent of survey under 41st clause is shown in twenty-six items which represent the number of instructions to survey which were issued.

Cost of survey.

The cost of survey includes all charges for connecting lines for observations and for plans, whilst the mileage given does not include 92 miles 70·72 chains which required survey but were not on the lines of run boundaries.

The mileage surveyed for territorial boundary (199 miles 18·35 chains) is also not included, as though the boundaries of runs are thereby marked, the survey was not undertaken by instructions issued from this office.

Amended estimate of area.

The area now estimated to be within the boundaries of the 855 runs revised in 1881 amounts to 1,417,679 acres more than the estimates given for those runs in 1878; this added to the increase of 4,748,459 acres shown last year on 1,382 runs, gives a total area of 6,166,138 acres (or 9,322 square miles); that is to say, more accurate information, derived from survey, has enabled this office to arrive at the conclusion that this large area must be included within the boundaries of 2,237 runs, in addition to that given as the estimate of their area in 1878.

The late chief draftsman, in the report for 1880, explained very fully the need for these revisions, the causes which led to the imperfection of former estimates, and the means whereby such a large correction became possible.

PASTORAL

## PASTORAL LEASE BRANCH.

There have been ten tenders for new runs received during the year 1881, and thirty-two remained undealt with at the end of the year 1880. Five tenders have been accepted and six have been declined, leaving thirty-one still to be dealt with. Tenders.

The five accepted tenders were for runs in Liverpool Plains, Macleay, Maneroo (2), and Warrego Districts; they represent an additional area estimated at 185,480 acres placed under lease.

Ten leases have been sold at auction, representing an area estimated at 242,500 acres; the rent fixed for these runs was £382, and the amount of premium bid for the right of leases at that price was £123. The details are given in Appendix E. Distributing the premium over five years as rent, it would show £1 1s. 6d. a section to be the rent obtained at auction. Leases sold.  
Appendix E.

Eight new tenures have been created by subdivision of existing runs, the area under lease not being thereby affected. Subdivisions.

Sixteen leases have become forfeit for non-payment of rent. The area reported to be under lease at the last appraisal of these runs was 91,787 acres. Forfeited leases.

The total number of runs in 1881 is thus left at 4,336, against 4,329 in 1880.

The amount claimed for the three last payments of rent due is appended:—

	£	s.	d.
Rent for 1880 ... ..	158,414	10	0
„ 1881 ... ..	214,499	15	10
„ 1882 ... ..	248,721	0	10

Number of runs.  
Rents.

The area under lease for which this rent was claimed cannot be obtained from any existing record. If the total area purchased and held under pre-lease outside the settled districts were furnished, the area under lease could be approximately arrived at, but the incomplete state of the survey of the whole Colony would still leave remaining a large margin for error in an estimate of the extent of land remaining under five years' lease. Area under lease.

A compilation from the reports attached to the appraisements made during the past two years is appended, which shows the area which it was estimated remained under lease at the time of appraisal in the runs whose leases were renewed. By deducting this area from the full extent of the runs as estimated, the amount withdrawn from these runs is obtained, but the area withdrawn since appraisal (amounting probably to 3,000 square miles) must be added to arrive at the existing state of the runs.

The average rate per section of rent determined is also given.

Year.	No. of Runs.	Estimated original Area.	Area withdrawn.	Reported Area appraised.	Rent.	Rate per Section.
1880 .....	1,592	sq. m. 74,458	sq. m. 15,835	sq. m. 58,623	£ 101,393	£ s. d. 1 14 7
1881 .....	628	29,367	2,030	27,337	52,775	1 18 7½

There were 444 claims preferred to an extension of lease at the former rent on account of increased grazing capabilities produced by artificial means, and such claims were conceded in 227 cases. Extension of leases.

In Appendix F is shown the area for each pastoral district reported to be under lease in the runs for which new leases were granted, and also the area of those whose leases have been extended. Appendix F.

There were 891 runs appraised; but this number includes those whose leases were extended, and those which were appraised during the currency of a lease on account of a change of circumstances. Appraisements.

The number of runs whose rents have been determined under the Act of 1880 is 2,220, leaving 2,116 still to be brought under its action when their present leases shall have expired. Application of Act of 1880.

The estimated area within the boundaries of those whose leases have been renewed is 103,825 square miles, and in the remainder 147,905 square miles.

The rent of the leases which have been renewed under the present law shows an increase of £90,306 upon that paid for expired leases, representing an increase of above 17s. 6d. per section of area appraised.

The rent of leases renewed at the end of 1881 was £18,744 15s., and the rent determined for new leases is £52,775, or an increase of £34,030 5s. Rent for 1882.

In Appendix G is given an alphabetical list of runs for which new leases have been granted since the Act of 1880 came into force, the area reported to be still under lease in each run, and the rent determined. Appendix G.

A return was appended to the report of 1880 showing all runs then paying rent, together with particulars as to names of lessees, area of runs, area under lease, and rent determined. At the end of five years a fresh consideration of the circumstances of each run and of the rent to be paid under the provisions of the Act of 1880 will have taken place, and it is proposed that another return shall be then prepared embodying the same information.

The number of applications for refund of rent, in compensation for land withdrawn from lease after rent had been determined, was 154, and twenty-three were outstanding from 1880. Sixteen only of these have been dealt with, leaving 161 to be acted upon. Refunds.

The area shown to have been withdrawn in the sixteen cases dealt with is 250 sections, and the amount authorized to be paid in compensation is £310 5s.

A statement of transfers of leases of runs in the several pastoral districts during the past two years is given in Appendix H. There has been an increase of nearly 300 during 1881. Transfers.  
Appendix H.

## MISCELLANEOUS BRANCH.

A statement of collections and expenditure is given in Appendix C, which shows an increase in the amounts received for leases for special objects and for timber, the receipts for the former amounting to £2,490, and for the latter to £10,807; those for 1880 being £1,673 and £8,990 respectively. Revenue.

Rents and numbers of leases. A summary of rental received and number of leases held during the past five years is appended.

	1877.	1878.	1879.	1880.	1881.
Number of Leases .....	101	111	200	214	279
Rental .....	£ s. d. 882 2 0	£ s. d. 1,065 7 0	£ s. d. 1,319 8 0	£ s. d. 1,673 17 0	£ s. d. 2,490 18 0

Of the additional leases in 1881, twenty have been granted at a rental of £657 6s. for 200 acres each of land surrounding tanks constructed by the Government, one of the conditions being that the public shall have the use of the water conserved in such works at a specified rate of charge. The conditions and rates will be found in Appendix I.

Appendix I.

Other occupation of land.

There were also in 1880 thirty-five holdings of land not provided for by the law, yielding a revenue of £54 5s. for the right of occupation permitted; during the year 1881 similar holdings have been permitted in four other instances, with an addition to the revenue of £102 12s. 6d., making a total of £156 17s. 6d. to be added to the above summary.

Material obtained.

The value of material obtained from the land leased is estimated to be—

Lime	...	...	...	...	£2,100
Agricultural produce	...	...	...	...	150
Stone	...	...	...	...	820
					£3,070

To this may be added 621,000 bricks, valued at £1,242, and 45 tons of mulberry leaf.

#### FOREST CONSERVANCY.

Appendix J.

In Appendix J five schedules are supplied, showing—

1. Comparative statement of revenue and expenditure during the past five years.
2. Particulars of revenue received during 1881.
3. Details of revenue apportioned to the several reserves supplying it.
4. Summary showing number and area of reserves.
5. Distribution of reserves amongst forest rangers.

Revenue.

The revenue derived from timber shows an increase year by year since 1877. During the year 1881 the amount received for the issue of ordinary licenses was increased by £1,653, and returns from the reserves worked show an increase of above £360.

The income for 1881 was £3,719, against a loss to the revenue of £425 in 1877.

The expenditure has likewise increased yearly; in 1878 an additional number of officers was employed; in 1880 an addition of 50 per cent. was made to the travelling allowance of forest rangers; and in 1881 the appointment of an Inspector of Forests added yet further to the expenditure.

This latter officer not having been placed under the control and supervision of this Branch, no comment upon the duties undertaken or performed by him can be made.

Reserves.

The total area reserved for forest purposes is 5,874 square miles, of which 560 were added in 1881.

It may be noted, for the purposes of comparison, that a report upon forests in India shows 15,127 square miles to have been there included in forest reserves in 1879, to which 217 square miles were added in 1880, making a total of 15,344 square miles dealt with as forest lands; the total area of the British possessions in India being estimated at above 908,000 square miles, and the area of New South Wales at 310,937 square miles.

The present law does not provide for the establishment and control of reserves for nurseries and plantations, and nothing has been done by the officers of this Branch towards that end, beyond some collections of seeds, &c., for the purposes of the Director of the Botanical Gardens.

Trespasses.

Action has been taken for the removal of trespasses by occupation in sixty-two cases, irrespective of those cases where trespass has been committed by illegal removal of timber or other material. In thirty-one cases trespass has been abated without recourse to legal proceedings being necessary; twenty cases have been brought before Courts of Petty Sessions, and twelve convictions obtained. The total amount of fines inflicted was £15 10s.

Illegal removal.

Prosecutions for illegal removal of material were undertaken in 149 cases, the result being 121 convictions. The total amount of fines inflicted was £86 9s.

Seizures.

Material supposed to have been illegally obtained was seized in sixty-four cases, and in eighteen of these a Bench recognized an ownership in the person claiming it. The proceeds of sales of seized material was £430 9s. 2d.

I have, &c.,

T. WARRE HARRIOTT,

Chief Officer.

The Under Secretary, Department of Mines.

## APPENDIX I.

The leases for Tanks and Wells are subject to the following conditions, viz. :-

1. The lease not to confer any right to purchase the land in virtue of improvements or otherwise.
2. A bond to be entered into for the due fulfilment of the conditions of lease, by the lessee and two approved sureties, in the sums of £100 and £50 each respectively.

3. The lessee, on receipt of the necessary authority from the Department, shall enter upon the possession of the works; and if he fail to do so within the time specified in the authority, a caretaker will be employed at his risk and expense.
4. The lease shall be liable to forfeiture upon breach or failure of any of the conditions. The evidence of such breach or failure to be determined upon by the Minister.
5. The lease will also be liable to forfeiture upon the lessee becoming insolvent, or upon conviction of the lessee or of any one in his employ of illicit traffic in liquor, or of keeping a disorderly house, or of harbouring improper characters, or other offence against the Vagrant Act.
6. The lessee shall not be entitled to any compensation for improvements should his lease become forfeited.
7. Upon the lapsing of the lease, the lessee shall, with the consent of the Minister, be entitled to apply for compensation for improvements effected with his sanction in furtherance of the objects of the lease, and the amount of such compensation may be determined by arbitration under the Lands Acts, when considered necessary by the Minister.
8. No transfer of the lease shall be permitted without the sanction of the Minister.
9. Should the lessee desire to renew his lease, three months' notice of such desire must be forwarded to the Minister for his consideration, otherwise the lease will be resumed at the end of the current year.
10. The lessee to keep the works, drains, approaches, and all appliances in thorough and efficient order and repair, to the satisfaction of any officer appointed by the Minister to supervise the same.
11. Stock to be permitted to water without delay, and arrangements made to ensure safety and convenience.
12. The water to be kept free from pollution, and supplied by the lessee in troughs, where provided by the Government.
13. No stock, excepting travelling stock in charge of a drover supplied with a travelling statement or permit as required by the Act 41 Vic. No. 19, and teams or horses used by travellers, shall be supplied with water by the lessee, but the lessee may water stock, not exceeding thirty head, required for his use and service.
14. All travelling stock as above defined, and all teams and horses in use by travellers shall, on prepayment of the prescribed charges, be permitted to water, and their turn to water shall be determined by the time of their arrival, but working horses and cattle arriving at the same time as travelling stock shall be first served.
15. The charges for water shall not exceed those named in the following Schedule:—
- |   | s. | d. |
|---|----|----|
| Horses, per head .....                                      | 0  | 1½ |
| Cattle .....  | 0  | 1  |
| Sheep, not exceeding 50 .....                               | 0  | 6  |
| Do. for any number exceeding 50 and not exceeding 100 ..... | 0  | 9  |
| Do. for every additional 100 or portion of 100 .....        | 0  | 9  |
- Any other travelling stock according to agreement, and such charges shall belong to the lessee.
16. A table of rates to be charged shall be conspicuously set up, and maintained in a legible condition,—the name of the lessee and of the person in charge to be appended thereto.
17. The lessee will be furnished with a copy of these conditions, which he shall produce when required by any traveller, teamster, or drover.
18. The lessee shall cause to be kept in a book to be supplied for that purpose, an account of all stock watered, and such book shall be open for the inspection of the Inspector and Overseer of Tanks and Wells, the Inspector of Stock, or other officer instructed by the Minister, at all reasonable times.
19. The lessee shall forward to the Chief Inspector of Stock, Sydney, at the end of each month, upon forms to be supplied, a return showing the number of each description of stock watered during the preceding month, and also a statement of the depth of water during each week of the preceding month as recorded by the gauge fixed at the tank or well.
20. Upon the receipt of notice from the officer charged with the supervision of the works, the lessee shall forthwith effect necessary repairs, or failing therein within fourteen days of such notice, such repairs may be made by the Inspector, and payment of the cost of such repairs enforced under the lessee's bond.
21. No remission of rent to be allowed on account of damage to works by floods or otherwise.

## APPENDIX J.

## CROWN LANDS.

### No. 1.

#### Application by Mr. H. Harriott.

C. [Alienation Act, section 13.]

Application for the conditional purchase, without competition, of unimproved Crown Land.

District of Yass.

No. 89 of 1871.

Application by Hugh Harriott for the conditional purchase, without competition, of 60 acres unimproved Crown Land.

Received by me, with a deposit of £15, this 7th day of September, 1871, at 11 o'clock.

LEOPOLD YATES,

Agent for the Sale of Crown Lands at Yass.

Sir,

7 September, 1871.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 60 acres; and I herewith tender the sum of £15, being a deposit at the rate of 5s. per acre on the area for which I apply, and on which it is my intention to reside.

I am, &c.,

HUGH HARRIOTT,

To the Agent for the Sale of Crown Lands at Yass.

Yass.

#### Description.

County of King, parish of Yass, 60 acres, being a portion of 98 acres occupied by Samuel Wilson, of Cowridge: Commencing at the west corner of Hilder's 27 acres; thence by a line bearing east to Wilson's purchase; thence by a line bearing north to Barber's 880 acres; and thence bearing south to the corner of Hilder's purchase called Alfredson.

#### Minutes on No. 1.

It is recommended that this application be cancelled, as the land applied for is part of a measured portion of 98 acres.—R.D.F., for Surveyor-General, 5/1/72. Before cancellation applicant should have the option of taking the extra 38 acres. If he wishes to do so, he should lodge the necessary additional deposit with the Land Agent within one month from this date.—W.W.S., 13/1/72. Approved—J.B.W., 13/1/72. Hugh Harriott informed.—7/2/72. Mr. Armstrong, Licensed Surveyor, to report on residence.—W.A.T., *pro* Surveyor-General, 9 April, 1872. B.C., 2 May.

### No. 2.

#### The Under-Secretary for Lands to Mr. H. Harriott.

Sir,

Department of Lands, Sydney, 7 February, 1872.

With reference to the application made by you at Yass on the 7th September last, for the conditional purchase of 60 acres, I am directed to inform you that the land applied for is included in a measured portion containing 98 acres, and therefore your application must be cancelled, unless you are willing to take the extra 38 acres, in which case it will be necessary for you to pay to the Land Agent at Yass, within a month from this date, the extra deposit of £7 on the additional area.

I have, &c.,

W. W. STEPHEN.

### No. 3.

#### Notification of Alienation to Mr. J. Harriott

H.

Notification of alienation of conditional purchase under the Crown Lands Alienation Act of 1861 when there is no additional conditional purchase in virtue thereof.

Notification of alienation of conditional purchase by Hugh Harriott, of Yass, in the district of Yass.

[Alienation Act, section 13.]

I HEREBY notify to you, as the Agent for the Sale of Crown Lands for the district of Yass, that I have, after a residence thereon of at least twelve months, this day alienated to James Harriott, of Yass, the 98 acres of land, situate in the county of King, parish of Yass, which I selected at Yass, as a conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, on the 7th September, 1871, as also the following additional purchases (to be inserted with particulars thereof if necessary):—

HUGH HARRIOTT,

Dated at Yass, this 8th August, 1873.

Yass.

I have duly registered the above notification of alienation in the records of this office.

LEOPOLD YATES,

District of Yass, Land Office, 8th August, 1873.

Agent for the Sale of Crown Lands.

#### Minutes on No. 3.

Accept the transfer and refer paper to Chief Draftsman, in order that the surveyor may be requested to expedite.—29/7/73. Chief Draftsman accordingly.—29/7/73. Reminder accordingly.—C.E.F., for Chief Draftsman, 2/10/73. Licensed-Surveyor Armstrong informed.—10/10/73. See No. 4

No. 4.

No. 4.

The Surveyor-General to Mr. Licensed-Surveyor Armstrong.

Sir,

Surveyor General's Office, Sydney, 10 October, 1873.

<sup>1</sup>See minute on No. 1.

I beg to invite your attention to my letter\* of the 2nd day of May, No. 73/96, whereby you were directed to report on residence on Hugh Harriott's conditional purchase (71-3,293), and I have to request that you will carry out the instructions above referred to with as little delay as possible, and report on this memo. when the instruction will probably be carried out.

I have, &c.,  
**JOHN F. LANDERS,**  
 For the Surveyor-General.

No. 5.

Mr. Licensed-Surveyor Armstrong to The Surveyor-General.

REPORT on Conditional Purchase, county of King, police district of Yass.

Land Office No.	Name of Purchaser.	Date of Purchase.	Selection.	Area.	Situation.	Date of Inspection.	Nature of Improvements.	Value of Improvements.	Residence.	Remarks.
89 of 1871	Hugh Harriott	7/9/71	13	No. 125 08 acres.	Parish of Yass	25/10/73	½ mile new two-rail of fencing, 1 mile old two-rail of fencing, 7 acres partially cleared.	£ 60 s 0 d 0	.....	In accordance with application this land was originally selected by Hugh Harriott, and appears to have been held by him for about eighteen months; he then transferred it to his brother, James Harriott, who is alleged to have been in possession about five or six months, and was again transferred* by him to Henry Boswell in October last. I am not in a position to state whether Hugh or James Harriott complied with the residence clause of the Act. At date of inspection Boswell, the present claimant, did not reside on the land in question, but was engaged in erecting a hut thereon; he has been cautioned not to proceed with his improvements pending your decision in this case. Reported on in accordance with your B.C. instructions of the 2nd May, 1873.

\* No transfer in favour of H. Boswell has been received. Such transfer could not be accepted, as a year would not have elapsed from date of last transfer.—W.B., 17/1/74.

J. ARMSTRONG,  
 Licensed Surveyor.

15 November, 1873.

Minutes on No. 5.

Is the present owner of the conditional purchase to show cause? I think not, under the surveyor's report. There appears to be some confusion, and the other papers should be looked at before any further action is taken.—J.H.C., 24/12/73.

As the transfer in favour of James Harriott was received and passed before the surveyor's report was received, it is submitted that the present alienee, J. Harriott, should be called upon to show cause; no subsequent notice of alienation in favour of H. Boswell has been furnished; *vide* surveyor's report.—17/1/74.

Yes.—19/1/74. James Harriott informed.—31/1/74. As no reply has been received to the above letter the selection should be declared forfeited.—W.B., 29/4/74. Approved.—J.S.F., 16/5/74.

No. 6.

Gazette Notice.

Department of Lands, Sydney, 4 September, 1874.

Forfeited Conditional Purchases.

HIS Excellency the Governor, with the advice of the Executive Council, directs it to be notified that the undermentioned portions of Crown Lands, conditionally purchased under the Crown Lands Alienation Act of 1861, having, by the non-residence of the purchasers, or their legal alienees, on the original selections, been abandoned, within the meaning of the said Act, the same are hereby declared forfeited; and such of the said lands as shall not in the meantime be conditionally purchased will be sold accordingly, by auction, on a day or days to be hereafter notified.

JAMES S. FARNELL

No. of C.P.	Name.	Place of selection.	Date of selection.	Area.
71-3293	Hugh Harriott, now James Harriott .....	Yass .....	4 September, 1871 .....	a. 98 r. 0 p. 0

## No. 7.

Messrs. Wilson &amp; Ranken to The Secretary for Lands.

Sir,

227, George-street, Sydney, 21 September, 1874.

In the Gazette of the \*4th September, the selection of Hugh Harriott, now James Harriott, \*See No. 1. made at Yass, on the 7th September, 1871, of 98 acres, is declared forfeited, and as we are in a position to prove that all the requirements of the law have been complied with, both as to residence and improvements, we have to request that you will hold the forfeiture in abeyance, to allow the selector to furnish the necessary proof, and in the meantime instruct the Land Agent at Yass not to allow it to be reselected.

We have, &amp;c.,

WILSON &amp; RANKEN.

*Minute on No. 7.*

Withdrawn, pending inquiry.—W.W.S., 22/9/74.

## No. 8.

Telegram from Under-Secretary for Lands to Land Agent, Yass.

22 September, 1874.

WITHDRAW Hugh Harriott's, now James Harriott's, forfeited conditional purchase, dated 7th September, 1871, from selection, pending inquiry.

## No. 9.

Messrs. Wilson &amp; Ranken to The Secretary for Lands.

Sir,

227, George-street, Sydney, 19 October, 1874.

Referring to our letter\* of 21st September, with reference to the forfeiture of Hugh Harriott's conditional purchase, the said conditional purchase having been transferred by Hugh to James Harriott, on the 8th August, 1873, and by him transferred to the present occupant, Henry Boswell, on 14th October, 1873, we now enclose declaration of residence by Henry Boswell, both as to the time he occupied it himself, and also as to the residence of the two Harriotts, and appended thereto a certificate, by two respectable farmers, as to the residence of the Harriotts. The Harriotts having left the neighbourhood, it is impossible to hand in their declaration, and we therefore forward the only proof in our power, which we hope will be deemed sufficient.

\*See No. 7.

We have, &amp;c.,

WILSON &amp; RANKEN.

[Enclosure to No. 9.]

Declaration by H. J. Boswell.

In the Colony of New South Wales.

I, HENRY James Boswell, of near Yass River, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of 98 acres of land, in the parish of Yass, in the county of King, which was on the 7th day of September, 1871, conditionally purchased, at Yass, by Hugh Harriott; that the said land was the *bona-fide* residence of the said Hugh Harriott from the period of selection and first occupation to the 8th day of August, 1873, upon which date the said Hugh Harriott alienated the said land to one James Harriott, and the latter, to the best of my knowledge and belief, resided on the said land from that date until the alienation of the same by him to me; that the said land has been my *bona-fide* residence from the time of such last-mentioned alienation to the present date. I further declare that I am unable to obtain declarations from the said Hugh Harriott and James Harriott, because they have left the district. And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial Oaths and Affidavits."

HENRY BOSWELL.

Taken and declared at Yass, this 15th day }  
of October, 1874, before me,—

LEOPOLD YATES, a Magistrate of the Territory of New South Wales.

We, the undersigned farmers, residing near Yass, do hereby certify that the land mentioned in the above declaration was the *bona-fide* residence of Hugh Harriott and James Harriott respectively during the period each of the said parties held the said land.

EDWARD ROACH,  
JOSEPH THOMAS FAULDER,*Minutes on No. 9.*

Submitted for decision as to whether the forfeiture of the purchase should remain. The proof of the residence appears to be satisfactory, but no transfer in favour of the present holder, H. Boswell, has been received, and such transfer in his favour could not properly have been made on 14th October, 1873. The declaration has not been made, and is only now due, the transfer in favour of the alleged transferee or James Harriott having only been made on 8th August, 1873, namely, three months previously.—W.B., 1/12/74.

## No. 10.

Declaration by H. Boswell.

E.

Declaration of conditional purchaser under the 13th section of the Crown Lands Alienation Act of 1861.

Alienation Act.

I, HENRY James Boswell, of near Yass River, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of fencing, clearing, and a house, and to the value of £100, have been made on such land; and I declare further, that the said land has been the *bona-fide* residence, continuously, of Hugh Harriott and, to the best of my belief, James Harriott, from the period of selection

selection and first occupation to the present date (and that no alienation of the land has been made by the abovenamed Hugh Harriott until after the residence thereon of such holder for a period of one whole year, and that the said James Harriott resided thereon from the date of alienation by the said Hugh Harriott to the date upon which he the said James Harriott alienated to me, each alienation having been notified to the Land Agent of the district within one month of its having been made). And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial Oaths and Affidavits."

HENRY BOSWELL.

Taken and declared, at Yass, this 20th }  
day of November, 1874, before me,— }

LEOPOLD YATES, a Commissioner of Affidavits.

Description.

County of King, parish of Yass, 98 acres, near Yass River, being conditional purchase No. 89, of 1871, in the district of Yass, made on the 7th September, 1871.

### No. 11.

The Under-Secretary for Lands to Messrs. Wilson & Ranken.

Gentlemen,

Department of Lands, Sydney, 24 December, 1874.

\* See No. 9.

98 acres, section  
13. Yass, 7th  
September, 1871.

With reference to your \*letter of the 19th October last, respecting the forfeited conditional purchase noted in the margin, originally made by Hugh Harriott, in which you state it has been transferred to Mr. Henry Boswell, I am directed to apprise you that the proof of residence furnished by your client, Mr. Henry Boswell, appears to be satisfactory, but no transfer in his favour has been received.

2. I am to inform you that a transfer of the land in favour of Mr. Boswell could not have been properly made on the date named by you, viz., 14th October, 1873, it not being legal for a transfer to be accepted until twelve months have elapsed since last alienation of the purchase, unless the usual declaration as to residence and improvements has been furnished, which had not been done in this case.

I have, &c.,

W. W. STEPHEN.

### No. 12.

Messrs. Wilson & Ranken to The Minister for Lands.

Sir,

227, George-street, Sydney, 4 January, 1875.

\* See No. 11.

Referring to the letter\* from the Department of Lands, dated 24th December, 1874, relative to a selection made by Hugh Harriott, at Yass, transferred to James Harriott, and transferred by him to H. Boswell, in which it is stated that there is no record of the transfer to Boswell by James Harriott, we beg to state that the transfer was noted at Yass on the 16th October, 1873, and that the Land Agent states that notification of transfer was forwarded by him to Sydney. Under these circumstances we beg respectfully to request that the decision in this case may be reconsidered.

We have, &c.,

WILSON & RANKEN.

#### Minutes on No. 12.

The transfer alluded to in favour of Mr. Boswell has not been received, and the Land Agent should not have received it, if made, as only three months, instead of one year, had expired since the date of the last transfer. Further action may perhaps remain in abeyance, and pending receipt of usual declaration at end of thirty-seven days now due, Messrs. Wilson & Ranken should be so apprised.—W.B., 18/1/75.

Mr. Harper, please state whether a notice of transfer in favour of H. J. Boswell has since been received. No.—11/2/76.

A declaration has been received which has been made by Boswell. May it be forwarded to the Land Agent, in order that one may be made by James Harriott, the recognized owner of the land, and furnished to this Department? I do not think that, under the circumstances of this case, Boswell should be recognized. The alienee, Harriott, has surely not vanished so completely that he cannot be found.—W.B., 21/2/76.

The conditional purchase in this case was declared forfeited on the 4th September, 1874, on the ground that James Harriott, the transferee from Hugh Harriott, had apparently abandoned it after holding it for five months, and when he is stated to have alienated it to the present claimant, Henry James Boswell. But there is no record of any such alienation having been recorded or applied for, and if it had been it would have necessarily been refused, as contrary to the 18th clause of the Alienation Act. There has been no revocation of the forfeiture, though the Land Agent has been instructed not to receive applications (a course to which I have represented the objections), and the last claimant, Boswell, makes the final declaration and asks to be recognized as the holder of the conditional purchase. There can be no recognition, of course, unless the Governor and Executive Council should see fit to revoke the forfeiture; and it is not clear upon what grounds this could be recommended, in view of the surveyor's report that he warned Boswell against improving, and that there is no attempt to prove that James Harriott resided for twelve months, as required by the Alienation Act, before alienating the selection, if he did alienate it. Should this defect in the fulfilment of the conditions be condoned by the Government, and should the forfeiture be revoked, the claim of Boswell, as purchaser from James Harriott, might perhaps be inquired into before a Commissioner under the Lands Acts Amendment Act, 1875. I see no reason to recommend such a course.—A.O.M., 1/3/76.

I cannot see any other course than to allow the forfeiture to proceed. Boswell may then conditionally purchase in his own name, but certainly the course of telegraphing to the Land Agent not to allow a forfeited conditional purchase to be conditionally purchased again is an illegal course.—T.G., 13/3/76.

## No. 13.

## The Under-Secretary for Lands to Messrs. Wilson &amp; Ranken,

Gentlemen,

Department of Lands, Sydney, 12 February, 1875.

With reference to your \*letter of the 4th ultimo, respecting the conditional purchase originally made by Hugh Harriott, but which you state has since been transferred to H. Boswell, I am directed to apprise you that the transfer alluded to in favour of H. Boswell has not been received, and it would have been illegal for the Land Agent to have received it, if made, as only three months, instead of one year, had expired since the date of last transfer. \*See No. 12.

2. I am also to inform you that it has been decided that any further action shall remain in abeyance pending receipt of the usual declaration due at the end of the three years, which have now expired.

I have, &amp;c.,

W. W. STEPHEN.

## No. 14.

## Memorandum by Under-Secretary for Finance and Trade.

Conditional Purchases.

Name of Land Agent, Leopold Yates.—District of Yass.

Remittance, £215 1s. 1d. ; collected 29th March and 4th April, 1875.

Boswell H. J., alienee of J. Harriott, £3 13s. 6d. ; 7th September, 1871, 98 acres ; suspended, 6th April, 1875.

WILL the Under-Secretary for Lands be good enough to favour me with a reply to my [B.C. of 16th December, 1874, respecting the above purchase.—G.E., the Treasury, B.C., 13th May, 1875.

## No. 15.

## Mr. S. Wilson to The Minister for Lands.

Sir,

Cowridge, 19 August, 1875.

I beg to be informed if I can select the undermentioned land in virtue of my 139 acres purchased at Yass on 27th December, 1858. There is about 130 rods of fencing upon this land, erected thirteen years ago; a hut, 10 x 12, erected shortly after the land was advertised as forfeited. No other improvements upon this land. There is a fence erected upon Barber's land, near the north boundary of this land, but I think too far from the line to be considered improvements upon this land. If I cannot select, please inform me if I can get a renewal of pre-emptive lease, having held this land previous to 1870. My lease had not expired at the time this land was selected. My homestead, upon my 139 acres, stands within 180 yards of this land. I send a sketch showing position of fence, hut, &c.

I have, &amp;c.,

SAMUEL WILSON.

Description of land:—Area, 98 acres; county of King, parish of Derringullen. Forfeited C.P. of Hugh Harriott.

*Minutes on No. 15.*

The writer may be informed he may take up the land in question, either under the 13th clause of the Crown Lands Alienation Act of 1861, complying with the conditions of residence and improvements, or under the 21st section of the Crown Lands Amendment Act of 1875.—R. D. FITZGERALD, for Surveyor-General, 28/8/75. Samuel Wilson informed, 21/9/75.

See No. 16.

## No. 16.

## The Chief Commissioner to Mr. S. Wilson.

Sir,

21 September, 1875.

With reference to your letter of the 19th ultimo, inquiring whether you can select a portion of 98 acres in virtue of your 139 acres purchased at Yass, on 27th December, 1858, I am directed to inform you that you may take up the land alluded to under the 13th clause of the Crown Lands Alienation Act of 1861, complying with the conditions of residence and improvements, or under the 21st section of the Crown Lands Acts Amendment Act of 1875.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner.

## No. 17.

## Application by Mr. S. Wilson.

G.

[Alienation Act, section 22.]

Application by Samuel Wilson for the conditional purchase, without competition, of 98 acres, unimproved Crown Land, under section 22 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £24 10s., this 23rd day of September, 1875, at 2.30 o'clock.

LEOPOLD YATES,  
Agent for the Sale of Crown Lands at Yass.

Sir,

Land Agent's Number	Dates of previous Conditional Purchases.	Area of each Conditional Purchase. acres
Freehold (if any) contains per deed		139
1	January, 1863...	100
144	March, 1864.....	68
5	January, 1869....	51
306	September, 1873	98
Total area...		456

This is the fourth selection made by me in virtue of my conditional purchase or freehold of 139 acres.

Sir,

23 September, 1875.

I am desirous of purchasing, without competition, under the 22nd section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 98 acres, which adjoins my conditional purchase or freehold property of 139 acres, upon which I am now residing, or upon which I have resided for three years, and I herewith tender the sum of £24 10s., being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,

SAMUEL WILSON,

Cowridge, Yass.

To the Agent for the Sale of Crown Lands at Yass.

Description.

County of King, parish of Yass, 98 acres, bounded by Barber's and Hilder's land, and by a road dividing it from my 139 acres. Road from Deringale to Yass runs through this land.

Minute on No 17.

Mr. Licensed-Surveyor John Armstrong is requested to report if the land conditionally purchased was improved at date hereof to an extent to bar conditional purchase. He reported that it was improved on 25th October, 1873, to the extent of £60.—F. W. RUTTER, for Surveyor-General, 9/6/76.

No. 18.

The Land Agent, Yass, to The Under-Secretary for Lands.

Sir,

Lands Office, Yass, 27 September, 1875.

I do myself the honor to draw your attention to Mr. Wilson's application, No. 306, lodged with me on the 23rd instant, under the 22nd clause of the Crown Lands Alienation Act of 1861, for the purchase of 98 acres, in the county of King, and parish of Derringullen, and to state that such application is for the portion of land which has been withdrawn from selection in accordance with your directions per telegram of 22nd September, 1874, pending inquiry.

See No. 8.

2. Mr. Wilson has on several occasions caused inquiries to be made at this office with reference to this portion, with a view to selecting it, but my answer has been that the land was not at present open to conditional purchase.

3. In consequence of the land, as applied for by Mr. Wilson, not being as fully described as it might have been, I received the application and inadvertently passed it, without drawing your attention by a special note in regard to the matter.

I have, &c.,

LEOPOLD YATES,

Crown Lands Agent.

No. 19.

Mr. S. Wilson to The Minister for Lands.

Sir,

Cowridge, 13 October, 1875.

In reference to my letter of the 19th August, asking if I could select a portion of 98 acres of land situated in county King, parish of Derringullen, in virtue of my 139 acres, receiving an answer, dated 21st September, 1875, informing me I could, I accordingly selected said land at the Land Office, Yass, on 23rd September last, marked boundary of said land, since which time my possession has been disputed by a person called Boswell, by his running sheep and otherwise trespassing upon said land. I humbly request that you will inform me when my application for said land has been approved of, and have steps taken to give me undisputed possession of said land.

See No. 15.

See No. 16.

I have, &c.,

SAMUEL WILSON.

Minutes on No. 19.

The Land Agent should be requested to transmit the substance of the telegram alluded to in his letter.—P.F.A., Surveyor-General, 9/3/76. Copy of telegram attached.—28/3/76.

See No. 8.

No. 20.

Mr. S. Wilson to The Minister for Lands.

Sir,

Cowridge, 15 January, 1876.

I beg to be informed if any application for conditional purchase of 98 acres selected at Yass in September, 1875, has been approved of, as I intend fencing in said land as soon as possible. Hoping for a quick reply,—

I have, &c.,

SAMUEL WILSON.

Description of land.

Area, 98 acres; situate, county King, parish Derringullen: Bounded by Hilder's land on the east and south, by Barber's land on the north, and on the west by my 139 acres.

No. 21.

## No. 21.

## Messrs. Wilson &amp; Ranken to The Secretary for Lands.

Sir,

227, George-street, Sydney, 6 April, 1876.

Referring to our letter\* of 19th October, 1874, enclosing declaration by Henry Boswell as to his residence on the above conditional purchase, also certificate from two respectable farmers as to the residence of Boswell's predecessors, we would respectfully request that some decision may be come to in this case. Boswell's residence on the ground for the last two years, we would submit, proved his intention to act up to the spirit of the law, although there may have been some informality in his title. A person named Samuel Wilson has lately, we believe, selected this ground and impounded Boswell's sheep. According to the Land Law this selection is void, as the ground carries improvements to the value of £1 per acre. We would, therefore, earnestly request that Boswell's title should be confirmed, as by such means he may be saved from the vexatious interference of others who can have no title.

We have, &c.,  
WILSON & RANKEN.

*Minutes on No. 21.*

It is recommended that the writer be informed that Mr. Licensed-Surveyor Armstrong has been instructed to report, and that as it now appears by surveyor's report that the land conditionally purchased by Samuel Wilson on 23rd September last, under 22nd clause, was improved on 25th October last to the value of £60, that that conditional purchase will be declared void if Mr. Licensed-Surveyor Armstrong reports that land was improved on 23rd September last to an extent to bar conditional purchase.—F. W. RUTTER (for Surveyor General), 23/6/76. James Wilson, and Wilson & Ranken, agents, informed, 6th September, 1876. See Nos. 26 & 27.

## No. 22.

## The Under-Secretary for Lands to Messrs. Wilson &amp; Ranken.

Gentlemen,

Department of Lands, Conditional Sales Division, 18 April, 1876.

In reference to my \*letter, addressed to you on the 12th February, 1875, on the subject of the conditional purchase noted in the margin, declared forfeited 4th September, 1874, I am directed to apprise you that the purchase was declared forfeited, on the ground that James Harriott, the transferee from Hugh Harriott, had apparently abandoned the land after holding it for five months, only when he is stated to have alienated it to the present claimant, Henry James Boswell. \*See No. 12. Hugh Harriott, 98 acres, Yass, 7th September, 1871.

2. But there is no record of any such alienation having been recorded or applied for, and if it had it would necessarily have been refused, as contrary to the 18th clause of the Alienation Act.

3. There has been no revocation of the forfeiture, though the last claimant, Boswell, now makes a final declaration and wishes to be recognized as the holder of the purchase.

4. In view of the surveyor's report, that he warned Boswell against improving, and that there is no proof that James Harriott resided for twelve months, as required by the Act, before alienating his selection; I am to state that the Minister for Lands cannot see any other course than to allow the forfeiture of the purchase to clapse. Boswell may make a conditional purchase of the land in his own name.

I have, &c.,  
W. W. STEPHEN.

## No. 23.

## Application by Mr. H. J. Boswell.

C.

[Alienation Act, section 13.]

Application for the conditional purchase, without competition, of unimproved Crown Land.

District of Yass.

No. 186 of 1876.

Application by Henry James Boswell for the conditional purchase, without competition, of 98 acres unimproved Crown Land.

Received by me, with a deposit of £24 10s., this 27th day of April, 1876, at 10-30 o'clock.

LEOPOLD YATES,  
Agent for the Sale of Crown Lands at Yass.

Sir,

Yass, 27 April, 1876.

I am desirous of purchasing, without competition, under the 13th section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 98 acres; and I herewith tender the sum of £24 10s., being a deposit at the rate of 5s. per acre on the area for which I apply.

I have, &c.,  
HENRY JAMES BOSWELL,  
Yass.

To the Agent for the Sale of Crown Lands at Yass.

## Description.

County of King, parish of Yass, 98 acres, adjoining Charles Barber's freehold estate, called Bellevalle, being a measured portion selected by Hugh Harriott, on 7th September, 1871, alienated by him to James Harriott, and alienated by James Harriott to Henry James Boswell, which said portion was declared forfeited on 4th September, 1874.

## No. 24.

## Mr. M. C. Law to The Under-Secretary for Lands.

Sir,

Yass, 9 May, 1876.

I have the honor to request, on behalf of Samuel Wilson, of Yass, county King, that you will cause instructions to be issued in the following case, viz.:—The applicant addressed a letter to your Department, and in accordance with advice in reply thereto, by letter of the 21st September, he selected measured portion No. 125, containing 98 acres (original conditional purchase by Hugh Harriott on the 7th September, 1871, declared void on the 4th September, 1874), on the 23rd September, 1875, under the 22nd section. He is now informed that Henry Boswell selected the same portion on the 27th April, 1876, under the 13th section. Applicant having acted in compliance with your instructions as per letter quoted above, desires to be informed at as early a date as possible which of the parties abovenamed is to be declared the conditional purchaser of the portion alluded to. Improvements have been effected by applicant.

I have, &amp;c.,

M. C. LAW,

Pro SAMUEL WILSON.

See No. 16.

## No. 25.

## Messrs. Wilson &amp; Ranken to The Minister for Lands.

Sir,

227, George-street, Sydney, 11 May, 1876.

On behalf of Henry Boswell, we beg to apply for a refund of the sum of £8 10s. 6d., being interest on Hugh Harriott's conditional purchase taken up at Yass on 7th September, 1871. Boswell having purchased from Harriott, at the expiration of the three years paid the interest, particulars of which we annex, but the conditional purchase has since been forfeited from an informality in the transfer. We have therefore respectfully to request that the refund may be granted without delay.

We understand the money now stands at Suspense Account in the Treasury.

We have, &amp;c.,

WILSON &amp; RANKEN.

## Interest paid.

	£	s.	d.
September to December, 1874 ... ..	1	3	6
January to December, 1875 ... ..	3	13	6

Total... ..	£8	10	6

*Minutes on No. 25.*

Forwarded to the Under-Secretary for Finance and Trade, with a request that he will be good enough to refund the interest money placed in suspense, as the purchase remains forfeited.—W.B. (for the Under-Secretary), B.C., Department of Lands, 31 October, 1876. Vouchers have been passed for refund of amount in Suspense Amount.—G.E., the Treasury, B.C., 6 November, 1876. The application enclosed should now be noted for dispatch to surveyor for report as to residence.—C.N., 15/11/76.

## No. 26.

## The Under-Secretary for Lands to Messrs. Wilson &amp; Ranken.

Gentlemen, Department of Lands, Conditional Sales Division, Sydney, 6 September, 1876.

With reference to my \*letter, addressed to you on 18th April last, on the subject of the forfeited conditional purchase of Hugh Harriott, claimed by your client, Mr. Henry Boswell, I am directed to apprise you that the matter has now been sent on to Mr. Licensed-Surveyor Armstrong for his special report as to the value of the improvements at date of Mr. Wilson's fresh selection of the land (23rd September, 1875), and if it be found that they were then of sufficient value to bar the selection his purchase will be declared void.

I have, &amp;c.,

W. W. STEPHEN.

\*See No. 22.

## No. 27.

## The Under-Secretary for Lands to Mr. Samuel Wilson.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 6 September, 1876.

With reference to your \*letter of the 9th May last, respecting your conditional purchase noted in the margin, which embraces the same land as Hugh Harriott's forfeited selection, and is claimed by a person named Henry Boswell, I am directed to apprise you that it appears from the reports of the surveyor which have been obtained in the case, that on the 25th October last, and perhaps subsequently to the date of your application, the improvements on the land were worth £60.

2. I am, however, to inform you that the matter has now been referred to Mr. Licensed-Surveyor Armstrong for his special report as to the value of the improvements at date of your selection (viz., 23rd September, 1875); and if it is found that they were then of sufficient value to bar the land from purchase your application will have to be declared void, and your deposit money refunded.

I have, &amp;c.,

W. W. STEPHEN.

## No. 28.

## Mr. Licensed-Surveyor Armstrong to The Surveyor-General.

Sir,

Yass, 18 November, 1876.

In accordance with your instructions\* of the 9th June, 1876, I do myself the honor to state that I have again inspected the improvements on portion No. 125, 98 acres, parish of Yass, county of King, and find that the same improvements were on the land, as enumerated in my report of the 15th November, conditional purchase by Hugh Harriott, and valued at £60, at the date of selection made by Samuel Wilson, with the addition, I believe (not having my report mentioned to refer to), of about 44 chains of party fencing, erected by A. McCallum, the lessee of George Barber's 990 acres, valued at £64 per mile. It is alleged that Henry James Boswell received permission from your Department to select the land in question, and that he did so on the 27th April, 1876. I found him occupying the same. I enclose a memo. received from Boswell's solicitor, which supplies valuable information in the case.

I have, &amp;c.,

J. ARMSTRONG.

*Minutes on No. 28.*

Memo. on information form to Mr. Licensed-Surveyor Armstrong, to show on sketch the position of the improvements referred to.—F.W.R., 2 Feby., 1877.

Conditional purchase application 76/186 (Yass) should be declared void, as the land required was previously conditionally purchased by Samuel Wilson. With regard to the question of improvements raised, it would appear from this report that the improvements (fence and hut) are not of sufficient value, and are so placed that they do not form a bar to Wilson's conditional purchase.—R. D. FITZGERALD (for the Surveyor-General), 23/3/77.

Applicant, with refund order, c/o Messrs. Wilson & Ranken, agents, and Treasury informed.—12/4/77.

## No. 29.

## The Surveyor-General to Mr. Licensed-Surveyor Armstrong.

Sir,

Surveyor-General's Office, Sydney, 13 December, 1876.

I have to invite your attention to my blank-cover instructions of the 9th day of June, 1876, whereby you were directed to report on conditional purchase 75/306 (Yass), and to request that you will carry out the instructions above referred to with as little delay as possible.

I have, &amp;c.,

J. W. ELLIS,

For the Surveyor-General.

## No. 30.

## Mr. Licensed-Surveyor Armstrong to The Surveyor-General.

Charting Branch.

Approximate position of improvements represented on tracing annexed. Boswell resided on portion No. 125 at date of last inspection.

J. ARMSTRONG.

The following is forwarded for the information of Mr. Licensed-Surveyor Armstrong:—In his report of 18th November, 1876, on the improvements on portion No. 125, parish of Yass, county of King, Mr. Armstrong has failed to furnish a sketch showing the position of the improvements, which perhaps cannot be included within an equivalent area measured according to the Regulations. He will therefore be good enough to show on the tracing herewith, as well as he can, the relative position of the improvements referred to in his report lately made, and  $\frac{1}{2}$  mile new two-railed fencing, 1 mile old railed fencing, and 7 acres partly cleared. Further, as to the person residing at date of last inspection.

F. W. RUTTER.

2nd February, 1877.

## No. 31.

## Messrs. Wilson &amp; Ranken to The Minister for Lands.

Sir,

227, George-street, Sydney, 14 March, 1877.

We beg leave respectfully to draw your attention to our letter\* of 6th April, 1876, forwarding declaration and certificates as to the residence of Henry Boswell on the land selected by him, and requesting that a decision might be come to in the case, but no steps have yet been taken, although it has been shown that this land is improved to over £1 per acre. It has been selected by one Samuel Wilson, who has impounded Boswell's sheep, and insists on keeping possession of the land, although Boswell has continued to reside and hold the selection as his own.

We have therefore respectfully to urge that no further delay may be allowed to take place in settling this matter and the cancellation of Samuel Wilson's selection.

We have, &amp;c.

WILSON &amp; RANKEN.

*Minutes on No. 31.*

Register,—I should be glad to have the papers as soon as possible.—A.O.M., 15/3/77. I think Wilson & Ranken have paid the fee for an appraisalment in this case.—A.O.M., 17/4/77. £1 ls. credited 14th April, 1877, and reported to the Lands same date—W. EDWARDS, 18/4/77.

No. 32.

## No. 32.

The Chief Commissioner to Mr. H. J. Boswell.

Sir, Department of Lands, Conditional Sales Branch, Sydney, 12 April, 1877.

Deposit paid,  
£24 10s.

I am directed to inform you that the application made by you, at Yass, on the 27th April, 1876, for the conditional purchase of 98 acres of land, is void, the land applied for having been previously selected by Samuel Wilson.

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasury, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &amp;c.,

WILLIAM BLACKMAN,  
(For Commissioner.)

P.S.—The improvements are not of sufficient value, and are so placed that they do not form a bar to Wilson's selection.

## No. 33.

The Chief Commissioner to The Under-Secretary for Finance and Trade.

Sir, Department of Lands, Conditional Sales Division, Sydney, 12 April, 1877.

District, Yass.  
Name, Henry J.  
Boswell.  
Date of selection  
27 April, 1876.  
Area, 98 acres.  
Deposit, £24 10s.

I am directed to inform you that the conditional purchase noted in the margin being void, as the land required was previously conditionally purchased by Samuel Wilson, you will be good enough to refund to the selector the sum of £24 10s., being the deposit money paid thereon.

2. I am to add, that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up the same and transmit it to the Treasury.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner.

## No. 34.

The Chief Commissioner to The Land Agent, Yass.

Sir, Department of Lands, Conditional Sales Division, Sydney, 12 April, 1877.

I am directed to inform you that the application of Henry James Boswell, on the 27th April, 1876, for the conditional purchase of 98 acres of land, is void, as the land required was previously conditionally purchased by Samuel Wilson.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner.

## No. 35.

Messrs. Wilson &amp; Ranken to The Minister for Lands.

Sir, 227, George-street, Sydney, 13 April, 1877.

On behalf of Mr. Henry James Boswell, we beg leave to respectfully return the enclosed refund voucher for £24 10s., which refund is made on the supposition that the improvements on the ground were not of sufficient value to bar Samuel Wilson's selection; but as Mr. Boswell is in a position to prove that the value of the improvements at the date of Wilson's selection was considerably over £1 per acre, we have to request that their value may be determined by arbitration. The Treasury fee for £1 1s. is hereto attached, being the arbitration fee.

We have, &amp;c.,

WILSON &amp; RANKEN.

*Minute on No. 35.*

The sum of £1 1s. has been credited this day.—W. NEWCOMBE, Trecasry, 14th April, 1877.

## No. 36.

Messrs. M'Carthy, Robertson, &amp; Fisher to The Under-Secretary for Lands.

Sir, Pitt-street North, Sydney, 1 May, 1877.

Referring to the number in the margin hereof, we have the honor to protest, on behalf of our client, Mr. Samuel Wilson, against the matter being referred to arbitration.

We have, &amp;c.,

M'CARTHY, ROBERTSON, &amp; FISHER.

*Minutes on No. 36.*

The grounds of objection or protest are not stated, but it is apparent that Samuel Wilson, who has selected land declared to be improved, has no ground for objecting to the appraisement of the improvements.—A.O.M., 2/5/77. M'Carthy, Robertson, & Fisher informed.—28/5/77.

## The Under-Secretary for Lands to Mr. M. Asher.

Sir,

Department of Lands, Sydney, 21 May, 1877.

I am directed to forward herewith your formal appointment as Appraiser, under the Lands Acts Further Amendment Act of 1880, to determine the value of the improvements which belong to Henry Boswell, of Yass, and which existed on the land therein specified at the date it was conditionally purchased by Samuel Wilson, of Cowridge, Yass.

The leading facts of the case are recounted in that letter, but I may state that on the 23rd September, 1875, Samuel Wilson, of Yass, applied to purchase, under the 22nd section of the Crown Lands Alienation Act of 1861, 98 acres of land, in the parish of Yass, county King, and that Henry Boswell, of Yass, claims No. 77-8,321 C.S. the land on account of it containing improvements of sufficient value to bar conditional purchase.

A copy of those Regulations, under the Act referred to, which have special reference to the subject of appraisements, and in strict accordance with which the present appraisement must necessarily be carried out, is appended for your information; and as it is not improbable that, in previous instances, you have conducted appraisements under the provisions of the 28th clause of the Crown Lands Alienation Act of 1861, I may point out that the Lands Acts Further Amendment Act of 1880 differs from that Act, by withholding from the claimant the privilege of concurring in the appointment of the Government Appraiser, or of appointing a second Appraiser upon his own behalf.

*(Copy of the Regulations referred to)*

## APPRAISEMENTS.

## Appointment of Appraisers.

13. Whenever it shall become necessary or desirable to hold an appraisement, it shall be conducted in manner hereinafter mentioned (that is to say),—

The Minister will appoint one or more appraisers. The appointment shall be made in writing, shall be delivered to the appraiser or appraisers, and attached to the appraisement when made; and such appraisement shall, unless altered or vetoed by the Minister after the receipt of a report and recommendation from three such appraisers, be binding, final, and conclusive upon all persons and to all intents and purposes whatsoever.

## In case of death or failure to act by Appraisers.

14. In case such appraisers, or any of them, die or become incapable to act before the making of their appraisement, or fail to make their appraisement within sixty days after their appointment, or within such extended time (if any), not exceeding thirty days, as shall have been duly appointed by them for that purpose, the matters referred to them shall be again referred to appraisement as if no former reference had been made.

## Appraisers to give notice of time and place appointed for Appraisement.

15. The appraiser or appraisers shall appoint a time and place for holding a Court of Appraisement at some convenient place in the district; and shall give not less than fourteen (14) days' notice in writing thereof to all parties interested.

## Appraisement to be conducted in open Court.

16. The appraisement shall be made in open Court, and upon due inquiry and consideration of any evidence documentary or otherwise, which may be laid before the appraiser or appraisers by the claimant, or which may have been produced at their own instance or at the instance of the Government; and the appraiser or appraisers may examine the parties as witnesses on oath.

## Appraisement to be transmitted to the Minister for Lands.

17. Every appraisement or award shall be in writing, and shall be transmitted to the Minister and deposited in his office.

You will observe that the appraisement must be conducted in open Court; that not less than fourteen days' notice in writing of the time and place appointed for the holding of it must be given to Henry Boswell and Samuel Wilson and to all persons interested in the case, and that, to prevent the delay, inconvenience, and disappointment of a second reference, it must be made within a period of, at furthest, ninety days from the date of your appointment. This period, however, as will be noticed, comprises a term of sixty, with an allowed extension of thirty, days; and if it be found necessary to take advantage of this extension, proper notice must be given to all parties, and the fact clearly represented when you furnish your award.

As the determination of the question at present rests with you alone, the necessity of the exercise upon your part of the greatest care will readily be recognized; and you should, by rigidly adhering to the Regulations, by giving due publicity to the proceedings, and by attentively weighing any matters that may come under your consideration, endeavour to prevent any complaint being urged either against your valuation or the means by which you arrived at it. And as the character of the improvements, apart from the consideration of their value, may materially affect the case, you will be good enough to make a careful inquiry into their nature, construction, and uses—to report whether they answer the requirements of law,—to show in the award the appraised value of each item,—to state, if possible, whether they are capable of being included in an area corresponding to their value and measured in accordance with the Regulations,—and to show upon the enclosed tracing their relative positions, with sufficient accuracy to enable the Department, without further reference, to determine this point.

Care should be taken that the declaration, printed on the back of your letter of appointment, be made prior to the commencement of the inquiry. When the award is furnished, it should be accompanied by a report containing, with whatever information may be valuable, the names of the persons upon whom the required notice was served, the place where the appraisement was conducted, the date upon which it was held, and the names of those who were present and supplied evidence. It is necessary that your letter of appointment should be returned, and it is desirable that the minutes of any evidence should, at the same time, be transmitted to this Department.

I have, &amp;c.,

W. W. STEPHEN.

## No. 38.

## The Under-Secretary for Lands to Messrs. Wilson &amp; Ranken.

Gentlemen,

Department of Lands, Sydney, 21 May, 1877.

I have the honor to inform you that on the 23rd September, 1875, Samuel Wilson, of Yass, applied to purchase, under the 22nd section of the Crown Lands Alienation Act of 1861, 98 acres of land in the parish of Yass, county of King, and that Henry Boswell, of Yass, claims the land on account of it containing improvements of sufficient value to bar conditional purchase.

The appraisement has been instituted under the Lands Acts Further Amendment Act of 1880; and in order that you may understand its provisions in regard to the matter of appraisements, a copy of those Regulations which have special reference to the subject is hereto appended.

*(Copy of the Regulations referred to.)*

## APPRAISEMENTS.

## Appointment of Appraisers.

13. Whenever it shall become necessary or desirable to hold an appraisement, it shall be conducted in manner herein-after mentioned (that is to say),—

The Minister will appoint one or more appraisers. The appointment shall be made in writing, shall be delivered to the appraiser or appraisers, and attached to the appraisement when made; and such appraisement shall, unless altered or vetoed by the Minister after the receipt of a report and recommendation from three such appraisers, be binding, final, and conclusive upon all persons and to all intents and purposes whatsoever.

## In case of death or failure to act by Appraisers.

14. In case such appraisers, or any of them, die or become incapable to act before the making of their appraisement, or fail to make their appraisement within sixty days after their appointment, or within such extended time (if any), not exceeding thirty days, as shall have been duly appointed by them for that purpose, the matters referred to them shall be again referred to appraisement as if no former reference had been made.

## Appraisers to give notice of time and place appointed for appraisement.

15. The appraiser or appraisers shall appoint a time and place for holding a Court of Appraisement at some convenient place in the district, and shall give not less than fourteen (14) days' notice in writing thereof to all parties interested.

## Appraisement to be conducted in open Court.

16. The appraisement shall be made in open Court, and upon due inquiry and consideration of any evidence, documentary or otherwise, which may be laid before the appraiser or appraisers by the claimant, or which may have been produced at their own instance or at the instance of the Government; and the appraiser or appraisers may examine the parties as witnesses on oath.

## Appraisement to be transmitted to the Minister for Lands.

17. Every appraisement or award shall be in writing, and shall be transmitted to the Minister and deposited in his office.

Mr. Morris Asher, appraiser, of Yass, has been appointed appraiser, and the date of his appointment, it may be mentioned, corresponds with that of this letter. His attention has been particularly drawn to the fact that the appraisement must be conducted in open Court; that not less than fourteen days' notice in writing of the time and place appointed for the holding of it must be given to you and to all parties interested in the case; and that, to prevent the delay, inconvenience, and disappointment of a second reference, it must be made within a period of, at furthest, ninety days from the date of his appointment. This period, however, as will be observed, comprises a term of sixty, with an allowed extension of thirty, days; and it has been explained to him that due notice must be given to you and to all persons concerned, should he find it necessary to take advantage of the extension.

As the character of the improvements, apart from the consideration of their value, may materially affect the case, the appraiser has been instructed to make a careful investigation into their nature, construction, and uses, and to report whether, in his opinion, they answer the requirements of law.

I have, &amp;c.,

W. W. STEPHEN.

## No. 39.

## The Under-Secretary for Lands to Mr. S. Wilson.

Sir,

Department of Lands, Sydney, 21 May, 1877.

Whereas on the 23rd September, 1875, you applied to purchase, under the 22nd section of the Crown Lands Alienation Act of 1861, 98 acres of land, in the parish of Yass, county of King, and whereas Henry Boswell, of Yass, claims the land on account of it containing improvements of sufficient value to bar conditional purchase, it has been deemed advisable to submit the matter to arbitration.

The appraisement has been instituted under the Lands Acts Further Amendment Act of 1880; and in order that you may understand its provisions in regard to the matter of appraisements, a copy of those Regulations which have special reference to the subject is hereto appended:—

*(Copy of the Regulations referred to.)*

## APPRAISEMENTS.

## Appointment of Appraisers.

13. Whenever it shall become necessary or desirable to hold an appraisement, it shall be conducted in manner hereinafter mentioned (that is to say),—

The Minister will appoint one or more appraisers. The appointment shall be made in writing, shall be delivered to the appraiser or appraisers, and attached to the appraisement when made; and such appraisement shall, unless altered or vetoed by the Minister after the receipt of a report and recommendation from three such appraisers, be binding, final, and conclusive upon all persons and to all intents and purposes whatsoever.

## In case of death or failure to act by Appraisers.

14. In case such appraisers, or any of them, die or become incapable to act before the making of their appraisement, or fail to make their appraisement within sixty days after their appointment, or within such extended time (if any), not exceeding thirty days, as shall have been duly appointed by them for that purpose, the matters referred to them shall be again referred to appraisement as if no former reference had been made.

## Appraisers to give notice of time and place appointed for appraisement.

15. The appraiser or appraisers shall appoint a time and place for holding a Court of Appraisement at some convenient place in the district, and shall give not less than fourteen (14) days' notice in writing thereof to all parties interested.

Appraisement

## 15

Appraisement to be conducted in open Court.

16. The appraisement shall be made in open Court, and upon due inquiry and consideration of any evidence, documentary or otherwise, which may be laid before the appraiser or appraisers by the claimant, or which may have been produced at their own instance or at the instance of the Government; and the appraiser or appraisers may examine the parties as witnesses on oath.

Appraisement to be transmitted to the Minister for Lands.

17. Every appraisement or award shall be in writing, and shall be transmitted to the Minister and deposited in his office.

Mr. Morris Asher, appraiser, of Yass, has been appointed appraiser, and the date of his appointment, it may be mentioned, corresponds with that of this letter. His attention has been particularly drawn to the fact that the appraisement must be conducted in open Court; that not less than fourteen days' notice in writing of the time and place appointed for the holding of it must be given to you and to all parties interested in the case; and that, to prevent the delay, inconvenience, and disappointment of a second reference, it must be made within a period of, at furthest, ninety days from the date of his appointment. This period, however, as will be observed, comprises a term of sixty, with an allowed extension of thirty, days; and it has been explained to him that due notice must be given to you and to all persons concerned, should he find it necessary to take advantage of the extension.

As the character of the improvements, apart from the consideration of their value, may materially affect the case, the appraiser has been instructed to make a careful investigation into their nature, construction, and uses, and to report whether, in his opinion, they answer the requirements of the law.

JOHN ENGLISH.

No. 43.

Mr. S. Wilson to The Minister for Lands.

Sir,

Yass, 4 October, 1877.

I beg to call your attention to the following fact: that I cannot get any satisfaction concerning my selection of 98 acres, through false reports having been made to the Government concerning it. The last I heard was that Mr. Asher had been instructed to appraise and report in this case, which he has not done. I cannot get any answer from him concerning it. As it is now in the third year since I selected this land, I most humbly request that you will take the matter into consideration, and have steps taken to have it settled with as little delay as possible.

I have, &c.,

SAMUEL WILSON.

Minutes on No. 43.

This case is under reference to the District Appraiser. The writer may, perhaps, be informed.—J.E., 26/10/77. Yes, and that the appraiser, in usual course, should communicate with him.—L.G.T., 1/11/77. Informed.—12/11/77.

No. 44.

Mr. Appraiser Asher to Messrs. S. Wilson and H. Boswell.

Sir,

Sydney, 12 October, 1877.

Referring to the letter\* of the 30th July, from the Under-Secretary for Lands, informing you of my appointment as appraiser on behalf of the Crown to value the improvements therein described, I do myself the honor to inform you that I intend holding an Appraisement Court at the Court-house, Yass, at 12 o'clock a.m., on the 19th instant.

I have, &c.,

MORRIS ASHER,

Appraiser.

Adjourned, by consent of both parties, to the 20th instant.

No. 45.

Report of Mr. Appraiser Asher and John English.

HAVING heard the evidence of the various witnesses, also our own inspection of the improvements, we come to the conclusion that the improvements are of the value of £130 3s. 3d., made up as follows:—

Hut	...	...	...	...	...	...	...	£10	0	0
203½ rods old fencing	...	...	...	...	...	...	...	35	12	3
203½ rods old fencing, @ 3s. 6d. per rod	...	...	...	...	...	...	...	60	11	0
Clearing four acres, @ £6 per acre	...	...	...	...	...	...	...	24	0	0
Total	...	...	...	...	...	...	...	£130	3	3

We have, &c.,

MORRIS ASHER,

Government Appraiser.

JOHN ENGLISH.

Dated at Yass, this 20th October, 1877.

[Enclosure to No. 45.]

Court of Appraisement, held at the Court-house, Yass, Saturday, 20th October, 1877, to determine the value of improvements said to exist upon portion of land claimed by Henry James Boswell. Mr. Boswell being called and sworn, states— I am a farmer residing at Snugsborough, near Yass, and took up a selection of 98 acres; I took it up on the 27th April, 1876, but I took it up previously, and it was transferred to me by James Harriott; when I took it up, and prior to Wilson selecting it, there was upon it a hut built of slab and bark; that hut is still upon it, and it is worth £10; there is also one old line of fencing, 203½ rods, which I value at 3s. 6d. per rod, £35 12s. 3d.; also another line of fencing, 173 rods, which I value at 8s. per rod, £69 4s.; there is also about four acres of land stumped, which cost me £6 10s. an acre for stumping, £26; this is all the improvements upon the land in question, making in all £140 16s. 3d.; there is over £40 worth of improvements upon 40 acres of this land, in fact there is fully £60 worth of improvements which were there before Wilson selected it.

HENRY BOSWELL.

By Mr. Wilson: Did you improve any portion of this land since I took it up, 23rd September, 1875? I felled one tree; I did not grub it. How many trees are there grubbed? There are some hundrels; I paid one man about £15 for grubbing, and also paid Harriott about £3 for grubbing, besides rations; I was grubbing upon this land myself, and another man also; at the time the grubbing was done it belonged to me; the land was transferred to me on 14th October, 1873. Question— Is the fence upon the north side of this land upon the ground now in dispute? I will not swear it is; I believe it is; I will swear that the greater portion of the fence is upon the land; I know it is upon the ground by the marked trees, which trees appear to be marked by the surveyor; the trees are upon both sides of the fence; the rations supplied to the men cost 10s. a week.

HENRY BOSWELL.

Joseph

*Joseph Thomas Faulder*: I am a farmer, and reside near Yass; I know the land in question; it adjoins my property and know it well; I have resided there about thirty-six years; Mr. Boswell called upon me in the month of September, 1875, to inspect the improvements upon this land; I went and saw some stumping, about 5 acres, which I value at about £7 per acre; there were some very large trees upon it; there was a line of old fencing also upon it, worth 3s. 6d. per rod; that line of fencing is still upon the ground; there was also a line of new fencing, which I valued at 6s. per rod; that fence is still up, and I know it is upon the land; there was a hut, the same as now stands upon the land, worth £10; a portion of the land where the hut is (say 40 acres) would contain improvements worth fully £60; the old fence is about 280 rods, and the new fence about 180 to 200 rods.

*By Mr. Wilson*: The old fence is up about eighteen or twenty years; won't swear it is worth 3s. 6d. per rod, but I would give 2s. 6d. a rod to remove it, and it would cost me 1s. to put it up again; I would not swear the whole of the new fence is upon the land, but I will swear that the greater portion is; I know it is upon the land by the section lines, also by pegs and marked trees, which I believe to be done by surveyors.

JOSEPH T. FAULDER.

*Michael Cusack*, being sworn, states: I reside near Yass; I know the land in dispute for about twenty years; I went upon the land in company with Faulder, Shannon, and Kemp; it was about two years ago; I saw about 4 acres stumped, worth fully £7 an acre stumping; it was heavily timbered, and took about 200 tons of billet wood off this land myself; there was an old line of fencing upon it; it was either 268 or 280 rods, worth 3s. 6d. per rod; I also saw a line of new fencing, about 160 rods, worth 6s. 6d. per rod; I went there to inspect and value the improvements upon this land; I valued everything under value; there was a hut also upon the ground worth £10; a portion of 40 acres where the hut is contains improvements worth fully £60.

MICHAEL CUSACK.

*Samuel Wilson*, being sworn, states: I am a farmer, and reside near Yass; I selected this 98 acres of land in September, 1875, and I will swear that the improvements are, to the best of my belief, not worth £40, nor were they when I selected it; the new fence, to the best of my belief, is not upon the ground, nor any portion of it; I knew when I selected it that it was improved land; I took it up as unimproved land; I knew it had been measured; I think I told Mr. Yates that it was a measured portion.

SAMUEL WILSON.

*Durant Trotter*, being sworn, states: I am a licensed engineer and surveyor; I know the land in dispute; I saw a corner pin in the ground, which Mr. Wilson pointed out to me as the boundary pin from which I could tell where the line ought to run, and from which I can state that the new fence is not upon the line; I started from the north-west corner; all that was necessary to determine the lines I did.

DURANT TROTTER, C.E.

#### Appointment of Umpire by two Appraisers.

WE, Morris Asher, appointed by the Minister for Lands, and John English, appointed by Henry James Boswell, as appraisers, to appraise and determine the value of certain improvements situate in the parish of Yass, county of King, a description of which is set out in the Schedule hereinafter written, do appoint Robert L. Hall, of Yass, in the Colony of New South Wales, to be umpire in the matter of the said appraisement.

In witness whereof, we have hereunto set our hands, this 20th day of October, 1877.

MORRIS ASHER, Government Appraiser.

JOHN ENGLISH, Co. Appraiser.

Schedule referred to.

98 acres of land, in the parish of Yass, county of King.

I, the within-named do solemnly and sincerely declare that I am not directly or indirectly interested in the matter referred to me, and that I will faithfully, honestly, and to the best of my ability, hear and determine the matters referred to me, under the Crown Lands Alienation Act of 1861.

Subscribed and declared, this            day of }  
A.D. 18    , before me,—            }

#### No. 47

#### Appraisement of Improvements by two Appraisers.

To all to whom these presents shall come—

Morris Asher, of Sydney, in the Colony of New South Wales, and John English, of Yass, in the said Colony, send greeting:—

Whereas on the 30th day of July, 1877, the said Morris Asher was duly appointed by the Minister for Lands to appraise the value of the improvements on certain Crown Lands situate in the parish of Yass, and which said lands are described in the Schedule in the paper writing hereto annexed, marked and to fix the value of the same at the date upon which the land was applied for by Charles Wilson: And whereas, on the 15th day of August, the said John English was duly appointed by Henry James Boswell, on behalf of the said Henry James Boswell, to appraise the value of the said improvements: And whereas the said Morris Asher and John English, before proceeding to enter upon the said appraisement, duly appointed an umpire and did all things necessary to authorize and enable them to proceed with the said appraisement: Now know ye, that the said Morris Asher and John English having heard and considered the allegations and witnesses on behalf of the Minister for Lands and of the said Henry James Boswell respectively, do hereby declare the sum of £133 3s. 3d. to be the value of the said improvements at such date, and do further fix the costs to be paid by the said            for this appraisement at the sum of            which said sum they direct shall be paid by the Minister for Lands, and the costs to be paid to the said John English for this appraisement at the sum of £1 1s., which said sum they order and direct shall be paid by the said Henry James Boswell, also the sum of £2 2s. to Mr. Hall as umpire in the case.

In witness whereof, the said Morris Asher and John English have hereunto set their hands, this 20th day of October, A.D. 1877.

MORRIS ASHER, Government Appraiser.  
JOHN ENGLISH.

*Minutes on No. 47.*

The award does not bear the signature of the Co. appraiser. I presume it will be necessary to call upon Mr. Asher to supply the omission.—J.Mc.G., 9/3/78. Yes.—20/3/78. Returned to Mr. Appraiser Asher, with a request that he will have the goodness to cause Mr. English to affix his signature to this award.—L.G.T., B.C., for the Under-Secretary, Department of Lands.—28/2/78. The award as to the valuation of the improvements is submitted for approval.—J.Mc.G., 7/6/78. L.G.T. Approved.—J.S.E., 15/7/78.

## No. 48.

## The Under-Secretary for Lands to Mr. S. Wilson.

Sir,

Department of Lands, Sydney, 12 November, 1877.

Referring to your letter\* of the 4th October last, respecting the selection noted in the margin hereof, I am directed to inform you that the case is under reference to the District Appraiser, who should, in the usual course, communicate with you.

I have, &amp;c.,

W. W. STEPHEN.

\*See No. 43.  
98 acres, parish  
of Yass, county  
of King.

## No. 49.

## Mr. M. C. Law to The Under-Secretary for Lands.

Sir,

Yass, 17 November, 1877.

I am desired by Mr. Samuel Wilson to communicate with you praying your assistance in the following case, viz. :—Some few weeks ago an Arbitration Court was held in Yass, before Mr. Appraiser Asher, for the purpose of determining the value of certain improvements on the said land, and which Mr. Boswell, as opponent, declared to be of such value as to bar Mr. Wilson's conditional purchase, the said conditional purchase being 98 acres, in parish of Derringullen, county of King. In this case Mr. Wilson complains that he had no opportunity of calling witnesses to the improvements, and that the value set upon a fence is far too high, the said fence costing little more than half the recent valuation; also, that the value for clearing a portion of the land was too highly valued. Under these circumstances, therefore, he, Mr. Wilson, prays that you will ordain that the disputants be allowed to appoint each an umpire and a referee, to whom the case shall be referred; that in the event of their being found value of £40 on any 40 acres, that Mr. Boswell be called upon to pay subdivision, and that Mr. Wilson be allowed to retain the remainder; or that the land as it now stands be put for sale by auction. Trusting that in your discretion you may be pleased to inquire further into this case.

I have, &amp;c.,

M. C. LAW.

*Minutes on No. 49.*

The papers in this case are, I think, under submission. However, perhaps the writer may be informed that the matter is now in the hands of the appraisers, and further action must await their report.—J.E., 22/11/77. If the papers are under submission, what is the use of telling him the matter is in the hands of the appraiser? Please quote papers.—28/11/77. The papers are now herewith, having been put at Records for end of month, Mr. Wilson having been informed that the matter awaits the result of the appraisement. The papers in any case of the kind might, I think, be under submission and the matter will be in the hands of the appraiser.—J.E., 29/11/77. Just so, but it would be of little use to inform the applicant so.—L.G.T. Inform of reference to appraiser, as provided by the 28th section, Alienation Act.—L.G.T., 13/2/78.

## No. 50.

## Mr. H. J. Boswell to The Minister for Lands.

Sir,

Alfred Vale, Yass, 31 January, 1878.

Would you let me know is the decision of Mr. Asher ratified in case of 98 acres in dispute between me and S. Wilson, which was declared in my favour.

Yours, &amp;c.,

HENRY J. BOSWELL.

## No. 51.

## Mr. W. F. Wilkinson to Messrs. Wilson &amp; Ranken.

*Re Boswell and Wilson.*

Dear Sirs,

Yass, 26 April, 1878.

The arbitration in this matter took place here on the 20th October last, and I believe the award and all papers connected therewith were sent to the Lands Department immediately thereafter, and the award I am aware was in favour of Boswell.

Since that time we have not heard a word of the intention of the Government, and as Boswell is very anxious concerning the matter, please find out what the Department intends doing, and let me know at your earliest convenience.

Yours, &amp;c.,

W. F. WILKINSON.

## No. 52.

## Mr. H. J. Boswell to The Minister for Lands.

Sir,

Yass, 20 July, 1878.

You will consider a conversation that you did me the honor to allow me to have with you this morning (Saturday) at Mr. Dodd's "Commercial Hotel," Yass, *re* 98 acres of land which was in dispute between me and Mr. Samuel Wilson, of Cowridge, near Yass. The 98 acres in question were selected on the 7th September, 1871. The land was then transferred to James Harriott, by his brother, Hugh Harriott, (the

(the first conditional purchaser), and it was subsequently transferred to me by this James Harriott, and after that it was cancelled, and I again reselected it on the 27th April, 1876. Since reselecting it I have had the land surveyed, and there are two lines of fencing on it. Mr. Samuel Wilson has selected this land. I have gone to considerable expense in improving the land, and Mr. Wilson has not spent a farthing on it. The land being in dispute between me and Mr. Wilson, it came on for hearing at the Appraisement Court at Yass, before Mr. Asher, the Government Appraiser, in October of last year, and the result was that Mr. Asher and Mr. John English, the other arbitrator, not only found, after hearing all the evidence, that I had put £1 worth of improvements on the land, but that the whole value of the improvements amounted to £130 3s. 3d. To this fact I refer you to the appraisers' report. I now most respectfully draw the attention See No. 45. of the Minister for Lands to this fact, that notwithstanding the appraiser's report which must be in the office of the Minister for Lands, that I am prevented from using the land by this Mr. Samuel Wilson. I can also state that the Minister for Lands has given me power to repurchase the land, on condition that I would make a declaration that I have put £1 worth of improvements on the land. This I have done, and the appraiser's report will prove that fact. I have lived on the land since I reselected it, in April, 1876, and I have complied with the Act in every respect. Mr. Wilson has never resided on the land, nor has he put one farthing's worth of improvements on it.

The arbitrators having decided in my favour, I now most respectfully apply to the Honorable the Minister for Lands to give me an order to take possession of the said land, or to rule in some way, from the appraiser's report, that I am the only person entitled to the report.

I have, &c.,  
HENRY JAMES BOSWELL.

No. 53.

Mr. H. J. Boswell to The Minister for Lands.

Sir,

Yass, 31 July, 1878.

I have not yet received any reply from you to my \*letter of 20th instant, respecting my 98 \*See No. 52 acres of land, which was decided at the Court of Appraisement held in Yass by Mr. Appraiser Asher, on 20th October last. The Court ruled in my favour that there was £130 3s. 3d. worth of improvements on the land, and without I get an order from you I cannot get possession of the land, not even in a Court of law. I therefore again ask you for the order, and respectfully request you will let me have it by return post.

I have, &c.,  
HENRY JAMES BOSWELL.

No. 54.

Mr. M. Conlon to The Minister for Lands.

Dear Sir,

Yass, 13 August, 1878.

Will you kindly fulfil a promise you made me in Yass, on the balcony of the "Commercial Hotel," and that is, to see after Mr. Henry Boswell's claim to his land, consisting of 98 acres. Mr. Boswell has (acting upon your suggestion) written no less than three letters to you on the matter, and he has not received an answer to either of them. The Minister for Lands has actually given him permission to erect a public gate on this land, and Boswell holds the receipt for £3 3s., the amount required before permission could be given. The appraiser (Mr. Asher), or rather the Court of Appraisement, says that Boswell has £103 3s. worth of improvements on the 98 acres, still Wilson claims the land, and all Boswell wants is the report of the appraiser and the order from you that he is the *bona-fide* owner of the land. Unless you can do this, these (beyond any doubt) Courts of Appraisement are all bosh, and the office of an appraiser is only a sinecure. I hope you will give the matter your serious consideration, for which I shall feel ever grateful.

I am, &c.,  
M. CONLON.

*Minutes on No. 54.*

Mr. Moriarty, will you please see to this.—J.S.F. The land was a forfeited selection of the present applicant, reselected by Samuel Wilson, on the 23rd September, 1875, and, again, by the writer, on the 27th April, 1876. The latter selection was cancelled, as being for the land alienated to the former. The result of the appraisement is to show that at the date of the selection by Wilson the land was improved to an extent beyond £1 per acre. This selection should also, therefore, be cancelled. Neither party has, therefore, any legal right to the land, the improvements on which are partly the property of the public, and partly, apparently, erected by the lessee of the original purchase of Mr. George. Submitted, that before any steps are taken for reconsidering the selection of the applicant, he should be required to afford satisfactory proof that the improvements described by the appraisers had been his property. A complaint has been made on the part of Wilson, that he had no opportunity of giving evidence. He should, of course, have had such an opportunity, but the omission does not invalidate the appraisement.—A.O.M.. 22/8/. Approved.—J.S.F., 26/8/78.

No. 55.

Mr. M. Conlon to The Minister for Lands.

Sir,

Yass, 20 August, 1878.

You have not thought proper to even give a reply to Mr. Boswell's letters, or to my letter in his See No. 54, behalf. I will not ask you to do so any more; but I must say this, the claim Boswell made, and the claim I made for him, was just, and what is more, honest. I shall quietly wait till Parliament meets, and then I shall have Boswell's claim brought before the House by a leading member of the Opposition. In passing, I will just remark that I, a native of forty years standing in Yass, have more interest and influence in the electorate than any "new chum" land agent.

I am, &c.,  
M. CONLON.

E.

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861. I, SAMUEL WILSON, of Cowridge, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 22nd section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of dwelling, buildings, fencing, and clearing, and to the value in the aggregate of £1 per acre, have been made on such land and on my adjoining; and I declare further, that the said freehold of 139 acres freehold land has been the *bona-fide* residence, continuously, of myself, from the period of selection and first occupation to the present date. And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial Oaths and Affidavits."

SAMUEL WILSON.

Taken and declared at Yass, this 26th day of }  
September, 1878, before me,— }

LEOPOLD YATES, a Commissioner of Affidavits.

## Description.

County of King, parish of Derringullen, 98 acres, at Derringullen, being conditional purchase No. 306, of 1875, in the district of Yass, made on the 23rd September, 1875.

No. 60.

Messrs. Wilson &amp; Ranken to The Minister for Lands.

Sir,

227, George-street, Sydney, 10 October, 1878.

Enclosed please find the declaration asked for made by Mr. Henry James Boswell, as to the improvements erected by him on his conditional purchase of 98 acres, taken up at Yass on the 27th April, 1876, and have respectfully to request that the matter may be at once attended to.

We have, &amp;c.,

WILSON &amp; RANKEN.

*Minute on No. 60.*

The purchase of Wilson's conditional purchase, 75/306, has not yet been declared void, as directed in Sec No. 54. minute 23/8/78. That action should now be taken. The statutory declaration of Boswell as to ownership of improvements, enclosed, is submitted.—C.N., 19/11/78.

*[Enclosure to No. 60.]*

I, HENRY JAMES BOSWELL, of Alfred Vale, near Yass, in the Colony of New South Wales, farmer, do solemnly and sincerely declare that I conditionally purchased at Yass, on the 27th April, 1876, 98 acres of land situated in the parish of Yass, county of King, and that prior to that date the following improvements, namely, hut, old fencing, new fencing, and clearing, to the value of £130 3s. 3d. were made on such land by me at my sole expense, and the said improvements have always been my property; and I make this solemn declaration conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

HENRY BOSWELL.

Made and signed before me at Yass, this }  
4th day of October 1878,—

LEOPOLD YATES, J.P.

No. 61.

Mr. M. C. Law to The Chief Commissioner.

Sir,

Rossi-street, Yass, 4 November, 1878.

I have the honor, on behalf of Mr. Samuel Wilson, of Yass, to request that the following case may receive your early attention, viz. :—Some time since a portion of land containing 98 acres, portion No. 125, parish Yass, county King, was selected by him; since this a dispute has arisen between himself and an adjoining selector, Mr. Boswell. Mr. Wilson has recently received notice to declare, and he has done so and paid interest thereon. It appears that fencing has been commenced by Wilson, who has been threatened by Boswell, and the men employed are deterred by such threats of cutting down the fence, as this is likely to lead to litigation. I have the honor, on behalf of Mr. Wilson, to pray that he receive official notification of his right to the land in question as early as possible.

I have, &amp;c.,

M. C. LAW.

*Minutes on No 61.*

Instructions were given by the late Minister, under date 26/8/78, for the cancellation of the selection of Samuel Wilson, as being improved land at date of application. I regret to find that these instructions, which were specific, have not been acted upon. This oversight is very unsatisfactory, and should be at once repaired. Having regard to the cause of the original forfeiture by the present claimant of the improvements, Henry Boswell, and to the permission to reselect the land given him by the late Minister on the 13th March, 1876, I beg leave to recommend that the cancellation of the conditional purchase of 27 April, 1876, be now revoked.—A.O.M., 28/12/78.

Dealt with in Charting Branch. Whilst the correspondence has been going on a Public School site of 1 acre has been excised out of the portion (originally) of 98 acres. Reference is therefore made to the Miscellaneous Branch (Survey Office) as to that excision.—F.W.R., 19 March, 1879.

No. 62.

Mr. M. Conlon to The Minister for Lands.

Sir,

Yass, 14 November, 1878.

I hope you have not lost sight of my letter about Mr. H. Boswell's land. If I or Mr. Boswell do not get an answer from you this week, to inform him that he is the *bonâ-fide* owner of the land in question, I shall positively bring the matter before the House next week.

I have, &amp;c.,

M. CONLON.

No. 63.

Mr. M. Conlon to The Minister for Lands.

Sir,

Yass, 4 December, 1878.

*In re* Boswell, one would have thought that the decision of John English, as honest and as upright a man as breathes Almighty God's breath, the decision of the appraiser, and the sworn testimony of Boswell (as asked for by you), would have satisfied you that Boswell was correct, and that you would have made the order asked for. It seems different though. It would appear you prefer the opinions only of Wilson and his land agent (Mr. M. C. Law). I hope you will have a majority this evening. If you do I shall stick to it; if not, I must only keep pressing your successor.

I have, &amp;c.,

M. CONLON.

## No. 67A.

Mr. M. Conlon to The Minister for Lands.

Sir,

Yass, 3 March, 1879.

On October 12th, 1877, a Land Court of Inquiry was held in Yass, when an arbitration case—Boswell v. Wilson—was heard before Mr. Appraiser Asher. The case was settled entirely in favour of Boswell, and a short time ago Mr. Moriarty wrote to Mr. Law (Wilson's agent) informing him that the Minister for Lands had decided that the land in question should go to Boswell. Now, as Boswell's agent, I do myself the honor to apply to you for a similar order, as without it we have no power in Court.

I have, &c.,  
M. CONLON.

## No. 68.

## Mr. M. Conlon to The Minister for Lands.

Sir,

Yass, 14 March, 1879.

I again do myself the honor to apply to you for an order on behalf of Mr. Boswell, of Snugsborough, near Yass, similar to that which the Minister for Lands, through Mr. Moriarty, sent to Mr. M. C. Law, agent for Mr. Wilson. All I want is an order to Mr. Boswell, intimating to him that the Government, or Minister for Lands rather, upholds the decision of the arbitrators. If the Minister for Lands would send Mr. Wilson's agent an order to the effect that the land was Boswell's, surely there cannot be any harm in sending Mr. Boswell's agent a similar document. If you doubt my genuineness in the matter, I refer you to the Honorable M. Fitzpatrick and the Honorable J. Watson, Colonial Treasurer; and if you do not like to send me the order, you may send it direct to Mr. Boswell.

I have, &amp;c.,

M. CONLON.

## No. 69.

## Mr. S. Wilson to The Minister for Lands.

Sir,

Sydney, 40, Hunter-street, 20 March, 1879.

I do myself the honor to bring under your notice the unfair way in which I have been treated in respect to my selection of 98 acres, situated in the county of King, parish of Yass, taken up at Yass by authority of the Honorable the Minister for Lands, in September, 1875. The facts of the case are these:— In September, 1878, I made the necessary declaration and paid the first instalment of 1s. per acre to the Land Agent. When I went to pay the second instalment he refused to accept it, on the grounds that the selection was declared void owing to its being improved at the date of application. He, at the same time, informed me that a party by the name of Boswell selected the same land in April, 1876, and was declared the present legal owner. If such be the case, I beg respectfully to request that you will be pleased to inform me on what grounds his claim was approved of in preference to mine. The same improvements were on the land when Boswell selected as there were when I took up the ground in 1875; and I may say that during the time I was in possession of the selection I expended no less than £20 for fencing, &c., and still I am led to believe that Boswell, who has not made any improvements whatever, not even resided upon this selection, has been by some unfair means, I am perfectly satisfied, allowed this land. Trusting you will give this application your favourable consideration, and allow me to retain that which properly belongs to me,—

I have, &amp;c.,

SAMUEL WILSON,

Per E. OATLEY.

## No. 70.

## Mr. S. Wilson to The Minister for Lands.

Sir,

40, Hunter-street, Sydney, 24 March, 1879.

Referring to my letter\* of 20th instant, I do myself the honor to further state, in connection See No. 69. with the selection taken up by me, that when I made application for the land in question I enclosed a tracing showing the improvements that were then upon the ground. Shortly after Boswell selected a hut was partly erected by him, although he had received instructions from a Government officer to make no improvements, and it was subsequently completed by him, upon a notice appearing in the Gazette declaring the land forfeited. Hoping you will take these facts in conjunction with the others into consideration,—

SAMUEL WILSON,

Per E. OATLEY.

*Minutes on No. 70.*

The papers are enclosed. The land was found upon appraisement to be improved to the extent of £1 per acre, when selected by the present applicant, with improvements belonging to the other claimant, whose selection has been sustained.—A.O.M. 28/3/79.

As this case has been decided by Sir John Robertson and Mr. Farnell, I must decline to re-open it.—  
J. H.—1/4/79.

## No. 71.

## Mr. H. Boswell to The Minister for Lands.

Sir,

Snugsborough, Yass, 29 March, 1879.

In the arbitration case heard at Yass, on 19th October, 1877, before Mr. M. Asher, Government Appraiser (Boswell v. Wilson), as to the right of 98 acres of land, situated in the parish of Yass, county of King, and originally conditionally purchased by Hugh Harriott, on the 7th September, 1871, the arbitrator (Mr. John English) and the Government Appraiser unanimously agreed that I had put on the 98 acres in question improvements to the value of £130 3s. 3d. The Minister for Lands subsequently wrote to Mr. M. C. Law (Mr. Wilson's agent), and informed him that he upheld the decision of the appraiser and arbitrator, and that the land was mine. Now, I have requested my agent (Mr. M. Conlon) to write to the Minister for Lands and ask him for a similar order, which would show in any Court of Justice that I was the proper owner of the land. Mr. Conlon has told me that he has written twice to you, and has not got any answer. I therefore now most respectfully apply to you for a similar order as that given to Mr. Law. I simply want it to protect myself in Law Courts, and put a stop to the question of "dispute as to the ownership of land" arising, and I sincerely hope that you will not consider me impertinent when I say that if Mr. Wilson received an intimation through his agent that the land is mine, that I am at least entitled to the same consideration. I apologise for the length of this letter, and

I have, &amp;c.,

HENRY BOSWELL.

## No. 72.

## Declaration by H. J. Boswell.

C.P. No. 76/186.

D.

[Alienation Act.]

Declaration of conditional purchase under the 18th section of the Crown Lands Alienation Act of 1861.

I, Henry James Boswell, of near Yass, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements consisting of dwelling, fencing, and grubbing, and to the value of £100, have been made on such land; and I declare further, that the said land has been the *bona-fide* residence, continuously, of myself, from the period of selection and first occupation to the present date. And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Yass, this 2nd day }  
of May, 1879, before me,— }

HENRY JAMES BOSWELL.

LEOPOLD YATES,

Commissioner for Affidavits.

Description.

County of King, parish of Yass, 98 acres, near Yass, being conditional purchase No. 186, of 1876, in the district of Yass, made on the 27th April, 1876.

*Minute on No. 72.*

Instalment credited at Treasury, 6th May, 1879.—W.H.B.

## No. 73.

## The Chief Commissioner to Mr. S. Wilson.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 6 May, 1879.

Adverting to your letters\* of the 20th and 24th March last, relative to your cancelled selection quoted in the margin, I am directed by the Secretary for Lands to inform you that as this case has already been decided by Sir John Robertson, and also by the late Secretary for Lands (Mr. Farnell), he must decline to re-open it.

I have, &amp;c.,

A. O. MORIARTY,

Chief Commissioner.

## No. 74.

## Mr. S. Wilson to M. Fitzpatrick, Esq., M.P.

Sir,

Cowridge, 26 June, 1879.

I beg you will excuse me for troubling you again in respect of my selection, as I cannot get justice from the Lands Office. I enclose statements made by two respectable men, who are willing to prove the same upon oath, if required. My reason for not calling evidence when the inquiry was held was this: Mr. Asher, who inspected the improvements, told me that there were not improvements upon the land to bar my selection, and that he would report the matter according to his own judgment, no matter what evidence he heard. I humbly request that you will ask the Honorable the Minister for Lands to allow a fresh inquiry to be held in this case, to prove who is justly the owner of the land, Boswell or J.

I have, &amp;c.,

SAMUEL WILSON.

Conditional purchase 75-306, area 98 acres, situated in the county of King, parish of Yass, selected by me on 23rd September, 1875.

*Minutes on No. 74.*

Mr. M. Fitzpatrick, M.P., who left these letters with me, to be informed that this matter has received careful consideration from two previous Ministers, viz., Mr. Farnell and Sir John Robertson, and after reading the papers in the case I see no reason for disturbing their decision.—J.H., 3/7/79.

Mr. Fitzpatrick informed.—17/7/79.

[Enclosure A to No. 74.]

Mr. A. McCallum to Mr. S. Wilson.

Sir,

"Commercial Hotel," Yass, 24 June, 1879.

In reference to our conversation yesterday about the 98 acres that is in dispute between you and Mr. Boswell, and which was allowed to Mr. Boswell on his making a declaration that he had erected improvements to the amount of £1 per acre: The new two-rail fence that Mr. Boswell claims as part of his improvements was put up by me as a boundary fence, and I never received a penny from him for it. The cost was £70 per mile. At or previous to the time Mr. Boswell made the declaration there were not improvements on the said 98 acres to the amount of £1 per acre.

I remain, &amp;c.,

ARGYLE M'CALLUM.

P.S.—If Mr. Fitzpatrick looks over his papers he will find some correspondence that I had with him on this matter.—A.M'C.

[Enclosure B to No. 74.]

Mr. J. Bain to Mr. S. Wilson.

Sir,

25 June, 1879.

With regard to the 98 acres selected by you at Yass, on the 23rd of September, 1875, I beg to state that at that time there were not the improvements to the value of £1 per acre on the land; and I further state, that the improvements which Mr. Boswell claims were not his.

I remain, &amp;c.,

JOHN BAIN.

No. 76.

Mr. S. Wilson to The Minister for Lands.

Sir,

Cowridge, 6 August, 1879.

Having received a letter through Michael Fitzpatrick, Esq., from the Commissioner, stating you saw no reason to alter the decision in respect of the conditional purchase in dispute between Boswell and I, I beg to state that the reasons I here give ought to be just grounds for a fresh inquiry in the matter. I can call respectable evidence to prove they are true :-

- 1st. That there were not improvements upon the land to bar selection, viz., to the value of £1 per acre; the same improvements being still upon the land speak for themselves.
- 2nd. That I improved the land by fencing, &c.
- 3rd. That the declaration made by Boswell is false, as he never made the improvements nor had any claim to them.

If you decide that this false declaration entitles Boswell to hold the land, and the case rests as at present, will you allow me compensation to the amount of £30, being £20 less than the actual expenses incurred by me in fencing and otherwise in regard of this land, and also refund £24 10s., deposit money, and £4 18s., instalment of purchase money.

Trusting an answer at your earliest convenience,—

I have, &amp;c.,

SAMUEL WILSON.

*Minutes on No. 76.*

The question of the value of the improvements having been settled by appraisement cannot be re-opened. I do not think the present applicant has any claim for compensation; he must have been aware that the land was improved, and was not open to selection. He will receive, if he has not already received, refund of his deposit and instalment, for which an order was sent to his agent (M'Bean) on 8th January, 1879.—A.O.M., 26/8/79.

Approved. Inquiries should be made with the view of ascertaining whether the deposit and instalment have been forwarded to writer.—J.H., 29/8/79. Not yet refunded from the Treasury.—11/9/79. Mr. Samuel Wilson informed.—13/9/79. The description in this case cannot be prepared until the plan of the Public School site, measured within this selection, is accepted.—5/5/80.

Brothers.

## No. 84.

## Mr. J. Carroll to The Chief Commissioner.

Sir, 13, Church Hill, Sydney, 5 September, 1881.

I have the honor, on behalf of Samuel Wilson, to request that, in view of the facts stated hereunder, you will have the goodness to submit his claim, noted in the margin, for the reconsideration of the Honorable the Minister for Lands. In asking this favour, I regret to say that I feel I am placing Mr. Secretary Hoskins in an unpleasant position, as the decision I appeal against is the act of a former Minister; but to obtain redress for the unintentional injustice done my client is the only excuse I can offer for the delicacy he may have to re-open a case decided by his predecessor. The grounds of my protest against the decision are briefly these:—

1st. If the land were not improved to the value of £1 per acre, my client's application was good, and its voidance was illegal.

2nd. If, on the other hand, it was improved to an extent sufficient to bar selection, Boswell's subsequent application was illegal, and should have been declared void. (*Vide* Supreme Court Judges' decision in the case of *Peterson v. Prowse*, in which a father could not select his son's improvements.)

3rd.

Yass,  
C.P. 75/306, 98  
acres, 23/9/75,  
Samuel Wilson,  
81-18, 512,  
81-22, 533.

3rd. I contend that the improvements were not sufficient to bar selection, and could not possibly be so from their very nature, consisting, as they did, of two lines of fencing. One line, the northern, only 100 rods, erected by Mr. M'Allum, at a cost of 4s. 4d. (four shillings and fourpence) per rod, whereas the same was appraised at 8s. 6d. (eight shillings and sixpence) per rod. The other fence, the southern, erected by my client over twenty years ago, is at the present time not worth more than 1s. per rod. The timber was felled on about 4 acres, partly by my client after selection, the cost of which should not exceed £5.

The next item is a slab and bark hut, 12 x 10 feet, not worth more than £5. That these miserable improvements (?) should bar 98 acres is surely just ground for my client's protest.

4th. No area of 40 acres can be found to embrace £40 worth of improvements.

5th. Lastly, if the ownership of the improvements was a motive for influencing the decision of the former Minister, as sometimes has been the case in undisputed claims, that was a point in my client's favour, who erected more than half of them, whereas Boswell effected none. Yet I contend that to entertain that point at any time, and under any circumstances, is beside the law, more especially in cases involving conflicting interests, which call for the most impartial decisions and the strictest adherence to the letter of the law, thereby eliminating from the Minister the "discretionary power" accorded him by the Act in certain cases, and vested in him by the Legislature, not with a view to override the Act, but more effectually to carry out its provisions.

In conclusion, I respectfully request that as my client is in a position to advance the sworn evidence of a host of highly respectable witnesses, if opportunity be afforded him, the Honorable the Minister for Lands will graciously be pleased to refer the case to a competent officer for appraisalment.

I have, &c.,

JAMES CARROLL,

Agent for Samuel Wilson.

P.S.—My client is willing to pay expenses of appraisalment.—J. C.

*Minutes on No. 84.*

The purchase was declared void on 8th January, 1879, on account of land containing improvements at date of selection sufficient to bar conditional purchase.

Submitted, as to whether there are any grounds for a reconsideration of the case as herein requested.—

## CROWN LANDS.

### No. 1.

#### Application by Angus Robertson & Bros.

B. [Lands Acts Amendment Act, 1875.]  
Application for the purchase of Crown Lands in virtue of intended improvements by the holder thereof,  
under a lease or promise of lease for pastoral purposes.

Sir,

We hereby apply to purchase, without competition, under the provisions of the 31st clause of the Lands Acts Amendment Act, 1875, the Crown Land described hereunder, on which we intend to erect the improvements detailed below, and we herewith tender the sum of £516, being a deposit of £1 per acre on the area for which we apply.

The Crown Lands Agent, Urana.

Yarrabee, Urana, 17 October, 1876.

We have, &c.,

ANGUS ROBERTSON & BROTHERS.

#### Description of land.

Name of Run, Yarrabee; county of Urana, parish of Howell, being measured portions 146, 147, and part of 148, on Yarrabee Run.

#### Describe intended improvements in detail.

Fencing, clearing, stock-yard, and stockman's cottage.

#### *Minutes on No. 1.*

Refused, not being within a block of 5 miles square of leasehold. Applicant advised.—A.O.M. Charles L. C. Badham, Crown Lands Agent, Urana, 17 October, 1876. Tendered with deposit of £640.

### No. 2.

#### Application by George Day, Junior.

C. [Alienation Act, sections 13, 14, and 19.]  
No. 182 of 1876.  
District of Urana.  
Application by George Day, junr., for the conditional purchase, without competition, of 259 acres unimproved  
Crown Land.

Received by me, with a deposit of £64 15s., this 19th day of October, 1876.

CHAS. L. C. BADHAM,

Agent for the Sale of Crown Lands at Urana.

Sir,

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 259 acres; and I herewith tender the sum of £64 15s., being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,

GEORGE DAY, JUNIOR,

To the Agent for the Sale of Crown Lands at Urana.

Urana.

#### Description.

County of Urana, parish of Howell, 259 acres, being measured portion 146.

### No. 3.

#### The Crown Lands Agent, Urana, to The Under-Secretary for Lands.

Sir,

Crown Lands Office, Urana, 24 October, 1876.

I have the honor to forward herewith certain applications, noted at foot, for purchase of land in virtue of intended improvements (clause 31), tendered last Wednesday, which were refused for the reasons noted on each of them.

I have, &c.,

CHARLES L. C. BADHAM,

Crown Lands Agent.

	Acres.	County.	Parish.
Angus Robertson and Brothers .....	630	Urana.....	Bingagong.
James Brennan's conditional purchase (ditto)...	640	do. ....	do.
Angus Robertson and Brothers .....	484	do. ....	Betts.
Do. do. ....	516	do. ....	Howell.

#### *Minutes on No. 3.*

Submitted, 30 October, 1876.

Ask Mr. Badham by telegram to forward particulars of the remaining refused purchases which were returned to the applicants. The particulars were noted on the envelope sheet in which the enclosed were left.—A.O.M. Await reply. Copy not obtainable.

At the date of these applications the Yarrabee Run contained 28,890 acres. The Binjagong, 27,639 acres. Both these runs were included in the schedule of runs on Yanco and Colombo Creeks, which contained more than 16,000 acres, but not a block of 5 miles square.—REGINALD G. S. BRANSBY (for Surveyor-General), 7 September, 1877.

Therefore the applications must be rejected, or rather the rejection by Mr. Moriarty is confirmed.—T.G., 10/9/77.

No. 4.

## No. 4.

## The Under-Secretary for Lands to Messrs. Wilson &amp; Ranken.

Gentlemen,

Department of Lands, Sydney, 17 October, 1877.

Messrs. Angus Robertson and Brothers' four applications (C.I.P., 1,088 to 1,091) to purchase, under the 31st clause of the Lands Acts Amendment Act of 1875, certain lands on the Yarrabee and Binge-gang Runs, which applications were refused by the Land Agent at Urana, on the ground that neither of the runs in question contained a block of 5 miles square wholly under lease, whilst the area of each was over 16,000 acres—I am directed to inform you that the Secretary for Lands has determined that the decision of the Land Agent at Urana must be confirmed.

I have, &amp;c.,

W. W. STEPHEN.

## No. 5.

## Mr. Inspector Mackenzie to The Chief Commissioner of Sales.

Report by R. J. Mackenzie, Inspector of Conditional Purchases, respecting the selection of George Day, junior, made at Urana, on 19th October, 1876.

C.P. No. 76,182. Place: Colombo Creek. Date: 16th November, 1877.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 15th November, and that I found the selector then non-resident upon his selection.

The land, which consists of plain and timbered land, and comprises 259 acres, is occupied and used by Frauenfelder as horse-paddock, and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz:—

	£	s.	d.
Weatherboard house, two rooms, floored 18 x 10, galvanized iron-roof	50	0	0
116 chains 7-wire fence, at £75 per mile	108	15	0
5-wire fence, old (station fence) 68 chains 60 links	51	0	0
	£209 15 0		

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

From the appearance of the hut it has not been used much, and not lately.

I have, &amp;c.,

R. J. MACKENZIE,

Inspector of Conditional Purchases.

*Minutes on No. 5.*

Inspector reports that appearances are against continuous residence. Submitted as to whether it is a case for the Commissioner.—J.J.H., February 1, '78. For Commissioner.—A.O.M., 5/2/78. Included in Schedule.—W.H.C. B.C., Commissioner Clarke, 20 March, 1878.

## Gazette Notice.

Department of Lands, Conditional Sales Branch, Sydney, 16 March, 1878.

It is hereby notified, for the information of all parties interested, that information having been received to the effect that the conditions as to residence or improvements have not been, or are not being, fulfilled in respect to the undermentioned conditional purchases, the claims of the holders of such purchases have been severally referred to Commissioners for inquiry, pursuant to the Lands Acts Amendment Act, 1875.

Due notice will be given by the respective Commissioners of the times and places appointed by them for holding such inquiries.

JAMES S. FARNELL.

## The Chief Commissioner of Sales to Mr. G. Day, Junr.

Sir,

Conditional Sales Division, Department of Lands, Sydney, 20 March, 1878.

I am directed to invite your attention to the notice in the *Government Gazette* of the 16th instant, by which you will perceive that your claim to the conditional purchase made by you at Urana on the 16th October, 1876, has been referred by the Minister for Lands to Commissioner Clarke for inquiry, in accordance with the 25th clause of the Lands Acts Amendment Act of 1875, and the Regulations relating thereto, as to the fulfilment by you of the conditions thereof.

2. I am to inform you that due notice of the time and place appointed for the purpose will be given you by the Commissioner referred to.

I have, &amp;c.,

WM. BLACKMAN,

*(pro* Chief Commissioner of Conditional Sales.)

## No. 8.

## Mr. Commissioner Clarke to The Chief Commissioner of Sales.

REPORT of an inquiry held at Urana on the 24th June, 1878, by the Commissioner for the central south-western division, respecting the conditional purchase of George Day, junior, made at Urana on the 16th October, 1876.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875," held by me in pursuance of the reference notified in the *Gazette* of the 16th March, 1878, in the matter of the above-described conditional purchase.

The claimant having been duly served with notice of the time and place of holding the inquiry was present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz. :—

Mr. Inspector Mackenzie deposed that when he visited this selection in November, 1877, he found a good house upon it, which bore traces of residence, which however did not appear to have been continuous. The improvements on the land were of the value of £209 15s. He did not see the claimant there.

The claimant stated that within three months of selection he resided on this land, and had since made it his home, and lived there more than elsewhere. He had built a house there and effected improvements of the value of upwards of £200. When Mr. Mackenzie visited the selector he was absent, in attendance at the Supreme Court at Albury. At that period he resided in a small log hut in a corner of the selection, as the house had only just been finished. Joseph Frauenfelder gave corroborative testimony of residence by the claimant.

I have therefore to report that I find such conditions to have been fulfilled, and to recommend that this conditional purchase be upheld.

I have, &c.,

G. O'MALLEY CLARKE,  
Commissioner.

*Minutes on No. 8.*

Not a case for further present interference.—A.O.M., 22/8/78. Dealt with in Charting Branch. Mr. Underwood, for description.—J.R.C., 22/5/79. Description prepared.—W.S., 19/6/78.

## [Enclosure.]

Court of Land Enquiry, Urana, 24 June, 1878.

In the matter of George Day, junior, for nonfulfilment of conditions of residence in respect of 259 acres, parish of Howell and county of Urana.

The Claimant appears.

*Robert Jones Mackenzie*, sworn, states:—I was recently employed as an inspector of conditional purchases, and in that capacity visited the selection under inquiry on the 15th November, 1877; upon it I found a good house; there were traces of residence about it, which however did not appear to have been continuous; the improvements consisting of the house and fencing wire of the value of £209 15s; I did not see the claimant there.

R. J. MACKENZIE.

Taken and sworn on this 24th June, 1878,—

G. O'MALLEY CLARKE, Commissioner.

For the Claimant.

*George Day, junior*, sworn, states:—I am the claimant in this case, and remember taking up this land in October, 1876; within three months afterwards I went to reside there; I have since made it my home; I reside there more than elsewhere; I have built a house there and have effected improvements of the value altogether of £200; when Mr. Mackenzie visited the land I was absent in Albury in attendance at the Supreme Court at an action; at that time I resided in a small log hut in a corner of the selection, as the house had only just been finished.

GEORGE DAY, JUNIOR.

Taken and sworn on this 24th June, 1878,—

G. O'MALLEY CLARKE, Commissioner.

*Joseph Frauenfelder*, sworn, states:—I know George Day's selection; it is about half a mile from where I live; I know that he has resided there since January, 1877; he spends most of his time there; he had his tea and breakfast there and slept there; he had his dinner sometimes with me, and sometimes with other friends.

J. W. FRAUENFELDER.

Taken and sworn on this 24th June, 1878,—

G. O'MALLEY CLARKE, Commissioner.

## No. 9.

## Description of George Day, Junior's, Conditional Purchase.

C.P. 76,182.—E. Lot.

259 acres, county of Urana, parish of Howell, portion 146: Commencing on the north-eastern side of a road 1 chain wide at the southern corner of portion 136 of 320 acres, and bounded thence on the south-west by that road bearing south 65° east 80 chains 86 links; on the south-east by a line bearing north 63° east 26 chains and 81 links; on the north-east by a line bearing north 39° west 20 chains; on the north-west by a line bearing south 64° west 15 chains; again on the north-east by lines bearing north 39° 11' west 50 chains, and thence by a line and part of the south-western boundary portion 145 of 361 acres 1 rood, bearing north 65° degrees west 24 chains and 94 links; and again on the north-west by the south-eastern boundary of portion 136 aforesaid, bearing south 25° west 40 chains to the point of commencement, exclusively of a reserve 5 chains wide, passing through this land in a northerly direction, the area of which has been deducted from the total area.

## No. 12.

## The Chief Commissioner to The Crown Lands Agent, Urana.

(No. 6. C.P. No. 76,182 ; Land Agent's No., 182 ; Alienation No., 78-27,489.)

Sir, Department of Lands, Sydney, 14 September, 1878.

With reference to my circular letter, forwarded to you, respecting the conditional purchase of Mr. George Day, junior, who was reported by the local surveyor as non-resident on the land, I am directed to apprise you that the further inquiry alluded to in the circular has taken place, and that under the report of Mr. Commissioner Clarke, Commissioner of Conditional Purchases, the Minister for Lands does not consider it necessary to interfere at present with the applicant's holding.

2. You are therefore requested to make the necessary notation of this decision in the register of your office.

3. Should a transfer of the land have been made it will now be dealt with as speedily as possible.

I have, &amp;c.,

WM. BLACKMAN,  
(*Pro* Chief Commissioner.)

## No. 13.

## Declaration by George Day, Junior.

(C.P. No. 76-182.)

I, GEORGE DAY, junior, of Howell, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1865, of the land here-under described, and that improvements consisting of house, fencing, clearing, and orchard, and to the value of £281, have been made on such land ; and I declare further, that the said land has been the *bona fide* residence, continuously, of myself from the period of selection and first occupation to the present date. And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various departments of the Government of New South Wales and to substitute Declarations in lieu thereof and for the suppression of voluntary and extra-judicial Oaths and Affidavits."

GEORGE DAY, JUNR.

Taken and declared at Urana, this 20th day }  
of October, 1879, before me,— }

CHARLES L. C. BADHAM,  
A Commissioner for Affidavits.

Description.

County of Urana, parish of Howell, 259 acres, being conditional purchase No. 182 of 1879, in the district of Urana, made on the 19th October, 1876.

*Minute on No. 13.*

£12 19s. Instalment credited at Treasury, 29 January, 1880.

## No. 14.

## Mr. Inspector Handsaker to The Chief Commissioner.

Report by Inspector Handsaker, Inspector of Conditional Purchases, respecting the selection of George Day, made at Urana, on 19th October, 1876.

Sir,

Jerilderie, 3 November, 1879.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 25th September, 1879, and that I found the selector then resident upon his selection.

Portion 14C,  
Howell, Urana.

The land, which consists of forest and scrub, and comprises 259½ acres, is occupied and used by the selector as grazing land, and the selector, who follows the avocation of a grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

Weather-board house, iron roof, two rooms . . . . .	£120	0	0
¾ mile 7-wire fencing . . . . .	75	0	0
100 acres ringing, @ 1/6 . . . . .	7	10	0
Clearing scrub . . . . .	40	0	0
Orchard with paling fence . . . . .	40	0	0
	£282	10	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon his selection.

(Bond fide and resident.)

I have, &amp;c.,

J. H. HANDSAKER,

Inspector of Conditional Purchases.

Section 13 ; area, 259½ acres ; improvements, £282 10s. Residence complete. For final report. Declaration now overdue.—6/5/80.

## No. 15.

## Messrs. Wilson &amp; Ranken to The Secretary for Lands.

Sir,

227, George-street, Sydney, May, 1880.

On the 17th October, 1876, Messrs. Angus Robertson Brothers made at Urana a selection of 640 acres under the 31st clause of the Lands Acts Amendment Act of 1875, and deposited the purchase money. The Land Agent refused to accept the application and purchase money, and endorsed the application to the effect that it was refused because the land applied for was not within an area of 5 miles square of unalienated land.

This land was afterwards conditionally purchased by Mr. Day, against whom Messrs. Robertson Brothers entered an action for trespass, which action was decided by the Privy Council in Messrs. Robertson's favour, the Court declaring that the application by Messrs. Robertson was a legal and valid application which ought to have been accepted, and consequently the selection by Mr. Day was illegal and void.

Messrs. Robertson Brothers, having now paid into the Treasury the deposit required and deed fee, respectfully request that steps may be immediately taken so as to allow the sale to them to be completed and the deed of grant issued.

We enclose a copy of the original application, with the endorsement thereon.

We have, &amp;c.,

WILSON &amp; RANKEN.

Sir,

227, George-street, Sydney, 19 July, 1880.

On behalf of Messrs. Angus Robertson Brothers, of Yerrabee, we beg to draw your attention to our letter of 10th May, requesting that steps may be immediately taken so as to allow the sale to them to be completed of the selection of 640 acres under the 31st clause of the Lands Act Amendment Act of 1875, as no answer has been received to that communication, and respectfully request that this matter may be now acted on without further delay.

We have, &amp;c.,

WILSON &amp; RANKEN.

## No. 21.

## Petition by George Day, the younger, to The Honorable the Legislative Assembly.

[Presented by J. S. Farnell, 23 July, 1880.]

To the Honorable the Legislative Assembly of New South Wales.

The humble Petition of George Day, the younger, of the parish of Hovell, on the Yanko Creek, in the county of Urana, selector,—

SHOWETH :—

That on the 19th day of October, 1876, your Petitioner conditionally purchased from the Crown two hundred and fifty-nine acres of land, under the 13th section of the Crown Lands Alienation Act of 1861, being measured portion 146 in the parish of Hovell, in the county of Urana, and duly complied with the provisions of the said Act and the Regulations thereunder in respect of the said purchase.

That, without any previous notice to your Petitioner, on the 8th day of September, 1877, an action of trespass was commenced in the Supreme Court of the Colony of New South Wales against your Petitioner by Angus Robertson, Duncan Robertson, and David Sheriff Robertson, the lessees of Yarrabee Run, in respect of occupying the said conditional purchase, and to this action your Petitioner pleaded that as to the land trespassed on he was entitled to such lands by virtue of such conditional purchase; and on the 14th day of February, 1878, a verdict by consent was found for the plaintiffs with forty shillings damages, subject to the opinion of the Supreme Court sitting in Banco upon a special case to be settled between your Petitioner and the plaintiffs.

That on the 18th day of February, 1878, a special case was accordingly filed in the said Supreme Court, whereby it appeared that the plaintiffs were lessees of the Yarrabee Run, on which your Petitioner had made the said conditional purchase; that the said run consisted of forty-two thousand two hundred and forty acres of land, of which twenty-eight thousand eight hundred and ninety-four acres were Crown Lands held under lease by said plaintiffs; and that the plaintiffs being such lessees, on the 17th day of October, 1876, delivered to the Land Agent at Urana an application to purchase six hundred and forty acres of land on the said run, under the 31st clause of the Lands Act Amendment Act of 1875, at the same time tendering the sum of six hundred and forty pounds, which application was refused by the said Land Agent, who indorsed on the same the following memorandum :—“Refused, not being within a block of five miles square of leasehold—Applicant advised—Tendered with deposit, six hundred and forty pounds”; and that the said run did contain several areas equal to an area of five square miles, but each of such areas contained some portion of purchased land, and no area of five miles square could be found on the said run which did not include some portion of purchased land, and it was contended by the plaintiffs that the land selected by your petitioner was land lawfully contracted to be granted in fee simple to the plaintiffs, and therefore not open to conditional purchase; and your Petitioner contended that the land was not so contracted to be sold by reason of the land applied for by the plaintiffs not coming within the provisions of the 31st clause of the Lands Act Amendment Act of 1875, and the question for the opinion of the Supreme Court was whether the land so applied for by the plaintiffs could be purchased by them under the provisions of the 31st clause, and if the Court should be of opinion that the above question should be answered in the affirmative, the verdict for the plaintiffs should stand; if not, the verdict for the plaintiffs to be set aside, and a verdict entered for your Petitioner.”

That

SO-4,234 Misc.

Letter referred to returned.

That on the 22nd day of March, 1878, the Supreme Court delivered its judgment, by which it was ordered that the verdict found for the plaintiffs be set aside and the verdict entered for your Petitioner. No appeal made to the Government to defend the case.

That on the 26th day of March, 1878, the Supreme Court granted the plaintiffs leave to appeal to Her Majesty's Privy Council from the said judgment.

That on the 29th day of November, 1879, Her Majesty's Privy Council ordered that the said judgment in favour of your Petitioner be reversed with costs, and on the 23rd day of March last the said order was made a rule of the Supreme Court of New South Wales.

That your Petitioner has resided on the said selection from the said 19th day of October, 1877, to the present time, and has expended the sum of two hundred and eighty pounds in making improvements thereon.

That your Petitioner incurred two hundred and forty pounds eight shillings and seven-pence for his own solicitor's costs of defending the said action.

That in addition to the plaintiff's costs of appealing to the Privy Council, which were allowed at two hundred and eighty pounds nine shillings and two-pence, your Petitioner is also liable to the plaintiffs for the costs of the action and of the special case before the Supreme Court, which are not yet taxed, but which are estimated at about three hundred pounds.

That your Petitioner estimates his loss in connection with the said selection as follows:—

	£	s.	d.	
Law costs to his own solicitor	240	8	7	
Cost of your Petitioner attending trial at Sydney	25	0	0	
Plaintiffs' costs of appeal to Privy Council	280	9	2	
Plaintiffs' costs of trial and special case before Supreme Court	300	0	0	
Expended on improvements on said selection	280	0	0	
Loss of time—from the time of taking up selection until recently	400	0	0	
Paid as deposit of purchase money	65	0	0	} Will be refunded of course.
Interest paid Government, three years after selection	13	0	0	
Making a total of	£1,603	17	9	

That your Petitioner selected the said land on the faith of the opinion of the Attorney-General, the Honorable William Bode Dalley, given to the Minister for Lands, the Honorable Thomas Garrett, on the 10th day of October, one thousand eight hundred and seventy-six, and acted on by Minister for Lands and the Lands Department and your Honorable House.

That your Petitioner, in consequence of the judgment of Her Majesty's Privy Council, is obliged to give up possession of the said selection to the lessees of the said run, and by reason of the matters aforesaid is wholly ruined.

That your Petitioner, under the circumstances before set out, humbly submits that this is a case which your Honorable House should take into its most favourable consideration.

Your Petitioner therefore humbly prays that your Honorable House will be pleased to take such steps in reference to your Petitioner's said case as to your Honorable House may seem meet.

And your Petitioner, as in duty bound, will ever pray.

GEORGE DAY, the Younger.

Dated at Yanko Creek, this eighth day of June, 1880.

*Minutes on No. 21.*

Mr. Farnell, M.P., promised me that he would furnish a statement in detail showing how the various amounts specified in the Petition are made up. This information is required for the Government. Mr. Farnell, as a Member of previous Governments, must be aware that such items as are included in Mr. Day's Petition require to be carefully scrutinized by the Law Department, as well as by this Department, to enable the Government to definitely decide what course they should take in respect to this application. Mr. Farnell, M.P., should be written to fully in terms of my minute.—J.H., 19/8/80.

Conditional Sales Branch, 20/8/80. This case is resubmitted for consideration of the general question as set out in minute on separate paper herewith.—L.G.T., 25/8/80.

No. 22.

Messrs. Wilson & Ranken to The Secretary for Lands.

Sir, 227, George-street, Sydney, 17 August, 1880.

On behalf of Messrs. Angus Robertson and Brothers, we beg leave respectfully to draw your attention to our letter of 10th May last, relative to the selection under the 31st clause of the Lands Act Amendment Act of 1875 on 17th October, 1876, at Urana, and beg that no further delay may take place in the completion of the purchase and the issue of the deed of grant. We have, &c.,

WILSON & RANKEN.

No. 23.

Memorandum by Mr. L. G. Thompson.

THE Privy Council held that according to the true construction of the proviso, 31st clause, a Crown lessee has a right of pre-emptive of 1 square mile if it forms part of a block which is equivalent to an area of 5 miles square, i.e., which contains an area of 25 square miles irrespective of whether such block forms or contains a geometrical figure 5 miles square.

I presume, therefore, that in the case herein referred to, the Messrs. Robertson will be entitled to the portion of land for which they have applied under the 31st clause.

L.G.T., 18/8/80.

This case, the importance of which from its bearing upon all other cases in which the opposing claimants may press their respective claims, must be admitted, is submitted for special consideration. The facts of the present case (Robertson v. Day) are fairly set forth in this enclosed printed petition of George Day.—W.W.S., 19 August, 1880.

## No. 24.

The Chief Commissioner to J. S. Farnell, Esq., M.P.

Sir, Conditional Sales Division, Department of Lands, Sydney, 20 August, 1880.

C.P. 76,182, G.  
Day, Junior. 19  
October, 1876.  
Urana.

Referring to the petition presented by you on behalf of Mr. George Day (the younger) in regard to loss of his conditional purchase in the action Robertson *v.* Day, and to the promise made to the Minister that you would furnish a statement showing how the various amounts specified in the petition are made up, I have the honor to state that this information is required for the Government, and that you, as a member of previous Governments, must be aware that such items as are included in Mr. Day's petition require to be carefully scrutinised by the Law Department as well as by this Department, to enable the Government to definitely decide what course they should take in respect to Mr. Day's application.

I have, &amp;c.,

WILLIAM BLACKMAN,  
(For the Chief Commissioner.)

## No. 25.

Messrs. Wilson &amp; Ranken to The Secretary for Lands.

Sir,

227, George-street, Sydney, 10 September, 1880.

On behalf of Messrs. Angus Robertson and Brothers, we beg leave respectfully to again draw your attention to our letter of 10 May, 1880, and also to our letter of 17 August last, relative to the selection under the 31st clause, made by them on 17th October, 1876, at Urana, and request that no further delay may take place in completion of the purchase by the lessees of the deed of grant.

We have, &amp;c.,

WILSON &amp; RANKEN.

*Minutes on No. 25.*

The Privy Council decision is in opposition to the past administration of the 31st clause of the Lands Act Amendment Act of 1875. The question to be determined on the papers herewith is as to the issue of the deed of grant to Messrs. Robertson for the land (which involved the question of improvements) applied for under the clause quoted, the cancellation, it is presumed, of Day's conditional purchase, refund of the deposit and interest paid thereon, and disposal of claim for expenses, &c. With regard to the latter, the sum asked for on account of loss of time would appear to be excessive. On the subject of the claim for compensation, Mr. Farnell, M.P., was written to on the 20th ultimo, but has not replied. The sum of £641 has been lodged in suspense account, Treasury, in respect to 31st clause application.—C.O., 15/9/80. The local District Surveyor should be asked to report with as little delay as possible whether any person is in occupation at the present time of this portion of land; also, if any and what improvements have been made thereon, their value, and by whom such improvements were made.—J.H., 16/9/80. Inform Messrs. Wilson and Ranken of proposed action at once.—C.O., 17/9/80. Instruction to District-Surveyor Bolton *re* value, date, and ownership of improvements on portion 146, also 147 and 148.—J.F., 29 Sept., 1880. Report received *vide* 80-17,619 Ml.—J.F., 8 Dec., 1880.

## No. 26.

The Under Secretary for Lands to Messrs. Wilson &amp; Ranken.

Gentlemen,

Department of Lands, Sydney, 23 September, 1880.

516 acres, county  
of Urana, parish  
of Howell, Yar-  
rabee Run,  
portions Nos.  
146, 147, and  
part of 148.  
Date of applica-  
tion, 19 October,  
1876.

In reference to your letter of the 10th instant, requesting that the application of Messrs. Angus Robertson Brothers to purchase the land noted in the margin hereof under the 31st clause of the Lands Acts Amendment Act of 1875 might be dealt with and the deed issued without delay, I am directed to inform you that the Secretary for Lands has called for a report from the district surveyor as to whether any person is at the present time in occupation of the land; also, if any and what improvements have been made thereon, their value, and by whom effected. So soon as the required information shall have been supplied the matter will be finally disposed of.

I have, &amp;c.,

CHARLES OLIVER,  
*Pro* Under-Secretary.

## No. 27.

Memo from The Surveyor-General to Mr. District-Surveyor Bolton.

Miscellaneous Branch.

Surveyor-General's Office, Sydney, 29 September, 1880.

Subject.

Mr. District-Surveyor Bolton is requested to report with as little delay as possible whether any person is in occupation of portion No. 146, parish of Howell, county of Urana; also, what improvements have been made thereon, giving date of erection, value, and ownership of same; at the same time to report on the value, &c., of improvements on adjoining portions Nos. 147 and 148 (tracing attached), also form for report.—

P.F.A.

Reply.

Replied to my letters Nos. 80-177 and 178 of 17th November, 1880.

C. F. BOLT ON,  
District Surveyor.

## No. 28.

## Bill of Defendant's Costs, Robertson v. Day.

## No. 29.

## Mr. District-Surveyor Bolton to The Surveyor-General.

Sir,

District Surveyor's Office, Wagga Wagga, 17 November, 1880.

I beg to acknowledge the receipt of your memorandum of the 29th September, 1880, No. 450, directing me to report on the occupation of portion No. 146, parish of Howell, county of Boyd, and in reply I do myself the honor to inform you that I visited the locality and inspected the land in question, and find on inquiry that it is occupied by Messrs. Angus Robertson & Brothers, in virtue of their having established their claim to it under the 31st section of the "Lands Acts Amendment Act of 1875," by means of legal proceedings. The land, with portion 147, constitutes the subject of a law-suit wherein Angus Robertson & Brothers obtained a verdict against James Day and others at the Supreme Court, Sydney. This verdict was reversed by the Full Court. Messrs. Robertson Brothers then appealed to the Privy Council, when the case was decided in their favour, with full costs. The costs were paid by the Robertsons, and they now claim all improvements on the land made by the Days as a set-off against money that should have been paid to defray costs of action, but which has not been paid.

Messrs. Angus Robertson & Brothers claim to have twelve months to put on improvements, from 11th May, 1880, being the date when £641 was received in virtue of their having established their claim to the land under the decision of the Privy Council.

The improvements on 146 consist of a two-roomed cottage, sawn timber, iron roof, in good repair, worth about ... ..	£45	0	0
Fencing, 128 chains, six and seven wires, gum-posts ... ..	120	0	0
Clearing and stacking underwood ... ..	15	0	0

Lodged by Wilson & Ranken for Angus Robertson and Brothers. Submitted.—L.G.T., 2/12/80.

### No. 31.

#### Memorandum by Under-Secretary for Lands.

Messrs. Robertson Brothers v. George Day, junior.

Mr. Farnell has lodged a bill of costs (80-42,216 conditional sale) which forms only portion of the particulars promised, and represents the costs incurred by Mr. Day.

Messrs. Wilson and Ranken have handed in Messrs. Robertson Brothers' bill of costs. (See No. 80-18,129.)

In Mr. Day's petition his costs are stated to be £240, but the bill of costs shows £242 9s. 3d.

It is further stated in the petition that the plaintiffs' costs may be estimated at £580 9s. 2d., but the bill now lodged shows them to have been £696 7s. 2d.

Mr. District-Surveyor Bolton reports (by No. 80-17,619) the value of the improvements on portion 146, the conditional purchase by George Day, made by the conditional purchaser to be £180, which is £100 less than the amount claimed in the petition.

No explanation is offered as regards the sum of £400 claimed by Mr. George Day for loss of time.

It appears to me that steps should be taken to have the bills of costs lodged, certified to as correct, and when so certified to the amounts may be accepted.

The expenditure in improvements may be fixed at the amount of £180, estimated by Mr. Bolton. As to the amount of £400, claimed for loss of time, it is observed that it will be very difficult to arrive at a satisfactory determination as to the sum which should be allowed, but £400 appears excessive.

The claim of £25 for Mr. Day's expenses while in Sydney attending the trial appears to be reasonable. The deposit paid on conditional purchase was £64 15s., and one year's instalment £12 19s., which will of course be refunded.

The conditional improvement purchase may be subsequently separately dealt with.

In Mr. Bolton's report a value is placed upon the improvements made by Mr. James Day on his conditional purchase, but the petition now in question makes no reference to a claim in connection therewith.

Submitted for the direction of the Minister.—C.O., 15/12/80.

## No. 32.

## The Under-Secretary for Lands to The Crown Solicitor.

Sir,

Department of Lands, Sydney, 28 December, 1880.

See No. 43.

The enclosed bills of costs in the case Robertson Brothers v. George Day, junior, are, by the direction of the Minister for Lands, forwarded to you with a view to your advising whether the amounts are such as should be paid by the Government in the event of it being determined to reimburse the parties their costs.

I am to request that you will favour me with a reply before the 11th proximo, as on that date the question of the payment of the costs will be brought before the Legislative Assembly.

I have, &amp;c.,

CHARLES OLIVER.

Received 28th December, 1880.—J.W.

## No. 33.

## The Crown Solicitor to The Under-Secretary for Lands.

Sir,

Crown Solicitor's Office, Sydney, 30 December, 1880.

See previous correspondence.

I have the honor to return herewith the papers relating to the bill of costs in the case of Robertson and another v. Day, and to state that with respect to the plaintiffs' bill of costs in the action the amount for which Mr. Day is liable has been or should be ascertained by the taxation of the bill of costs in the usual way by the Prothonotary from the copy costs with the papers; however it does not appear that they have been taxed as yet.

The amount of costs payable by Mr. Day by his attorney, Mr. Flood Nagle, should also be taxed by the Prothonotary, and at the taxation I should attend nominally on behalf of Mr. Day, but in fact on behalf of the Government. I have no doubt but that Mr. Day will consent to the matter being so arranged and that Mr. Nagle or his Sydney agent will attend the taxation. I cannot advise what amount should be paid as I do not know what in fact has been done, but upon taxation this will have to be shown to the Prothonotary, and I may further mention that Mr. Nagle may object to my taxing his account as not being the officer whose duty it is to tax, which is a reason why the taxation should be made in the usual manner.

I have, &amp;c.,

JOHN WILLIAMS,

Crown Solicitor.

*Minutes on No. 33.*

Submitted.

It appears from the Crown Solicitor's letter that it would be well to write to Messrs. Wilson and Ranken and Mr. Farnell, M.P., who lodged the bills of costs and intimated that they must be taxed before the claims can be entertained. The Crown Solicitor may be asked to take whatever steps may be necessary to be present at the taxation.—C.O., 31/12/80.

Mr. Farnell, M.P., should be informed that on the advice of the Crown Solicitor the plaintiffs' and defendant's law costs in the case of Robertson and Day have been referred to the Prothonotary to be taxed, and that when returned he (Mr. Farnell) will be further communicated with.—J.H., 3/1/81.

## No. 34.

## The Under-Secretary for Lands to The Crown Solicitor.

Sir,

Department of Lands, Sydney, 4 January, 1881.

Papers.

In reference to your letter of the 30th ultimo, suggesting, in reference to the bills of costs incurred in the case of Robertson and another *versus* Day, that they should be forwarded to the Prothonotary to be taxed, I am directed to return the papers, and to request that you will be good enough to take whatever steps may be necessary for their taxation, as also to be present thereat.

I have, &amp;c.,

CHARLES OLIVER.

## No. 35.

## The Under-Secretary for Lands to J. S. Farnell, Esq., M.P.

Sir,

Department of Lands, Sydney, 4 January, 1881.

With reference to the bill presented by you representing the costs incurred by Mr. Day in the case of Robertson *versus* Day, I am directed to inform you that on the advice of the Crown Solicitor the law costs of both plaintiff and defendant in the case referred to have been forwarded to the Prothonotary with a view to their being taxed, and upon return thereof you will be further advised.

I have, &amp;c.,

CHARLES OLIVER.

## No. 36.

## Mr. S. C. Brown to The Crown Solicitor.

Robertson *versus* Day.

Dear Sir,

77, Pitt-street, Sydney, 16 February, 1881.

The costs in the cause herein have been taxed and allowed at £170 3s. 9d. The costs of obtaining leave to appeal and preparing transcripts have been taxed and allowed at £56 17s. 6d., and the costs, as allowed by the order of the Privy Council of the 29th November, 1879, amount to £280 9s. 2d., making a total of £507 10s. 5d.

I have, &amp;c.,

S. C. BROWN.

No. 37.

No. 37.

The Crown Solicitor to The Under-Secretary for Lands.

Sir,

Crown Solicitor's Office, Sydney, 1 April, 1881.

I have the honor to return herewith your letter of date 4th January last, No. as in margin, and to state that I am informed by Stephen Campbell Brown, Esq., in a letter of date 16th February last, sent herewith, that the plaintiffs' costs in the action Robertson *versus* Day have been taxed and allowed at the sum of £170 3s. 9d., the costs of obtaining leave to appeal at £56 17s. 6d., and that the costs under the order of the Privy Council are £280 9s. 2d., in all £567 10s. 5d., which sum appears to be the amount Mr. Day is liable to pay the plaintiff in this action.

Copy of these costs can probably be obtained from Mr. Day, whose solicitor I presume attended the taxation, or from Mr. Brown upon payment of the usual charges.

The costs payable by Mr. Day to his own attorney, Mr. E. Flood Nagle, have been taxed and allowed at the sum of £198 7s. 11d. I forward copy of the bill as taxed herewith.

I have, &c.,  
JOHN WILLIAMS,  
Crown Solicitor.

Minutes on No. 37.

A copy of the plaintiffs' costs, as taxed, should, it is presumed, be obtained.—J.D.D., 5/4/81.  
L.G.T., 7/4/81.

Perhaps the Minister will accept the amounts stated in Mr. Brown's letter; the total sum for law expenses alone is £705 18s. 4d. If this sum is allowed, the other amounts claimed for improvements, loss of time, &c., may then be considered.—C.O., 9/4/81.

No. 38.

Messrs. Wilson & Ranken to The Secretary for Lands.

Sir,

227, George-street, Sydney, 12 April, 1881.

We herewith hand in a statutory declaration by Mr. Duncan Robertson, of the firm of Messrs. Angus Robertson & Brothers, certifying to the value of the improvements erected on the conditional improvement purchase of 640 acres on Yarrabee Run, being on portions Nos. 146, 147, and part of 148, parish of Howell, county of Boyd.

We have, &c.,  
WILSON & RANKEN.

[Enclosure to No. 38.]

I, Duncan Robertson, of Goree, do solemnly and sincerely declare that I am a member of the firm of Angus Robertson & Brothers, lessees of the Yarrabee Run, who, on the 17th October, 1876, made a selection of 640 acres under the 31st clause on that run, being portion Nos. 146, 147, and part of 148, parish of Howell, county of Boyd, and that improvements consisting of fencing, buildings, drafting yards, and clearing to the value of £641 has been erected thereon; and I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits."

D. ROBERTSON.

Made and signed before me, this 13th day of }  
April, 1881,—

J. BOWIE WILSON, J.P.

No. 39.

Memorandum by The Under Secretary for Lands.

REPORT on George Day's claim for compensation for loss of conditional purchase, and for law costs in suit "Robertson v. Day."

ON the 17th October, 1876, Robertson Brothers made application at Urana for the purchase of 640 acres of land under the 31st clause of the Conditional Lands Alienation Act of 1875, and tendered therewith a deposit of £640 as purchase money.

This application was among others refused by the Land Agent at the time of lodgment, on the ground that the land was not within a block of 5 miles square of leasehold, and such refusal was sustained in this Department by a Ministerial decision given on the 10th September, 1877.

On the 19th October, 1876, George Day, the younger, selected, under the 13th section of the Crown Lands Alienation Act of 1861, 259 acres of portion No. 146 of the same land, and paid a deposit of £64 15s.

On the 8th September, 1877, an action of trespass was commenced in the Supreme Court by Robertson Brothers against George Day in which a verdict by consent for 40s. was entered for plaintiffs, subject to the trial in Banco of a special case between both parties.

This special case was subsequently adjudicated on the 22nd March, 1878, when the verdict previously given in favour of Robertson Brothers was set aside, and a verdict entered for George Day.

Against the latter judgment an appeal was made to the Privy Council on the 29th November, 1879, when it was ordered that the judgment setting aside the previous verdict should be reversed with costs as against George Day.

On

On the 16th June, 1880, George Day, through Mr. Farnell, M.P., presented a petition for compensation for the following loss sustained in connection with the said selection, viz. :—

	£	s.	d.
Law costs to his own solicitor ... ..	240	8	7
Cost of his attendance at trial ... ..	25	0	0
Cost of trial, and of special case before the Supreme Court ...	300	0	0
Cost of appeal to Privy Council ... ..	280	9	2
For value of improvements ... ..	280	0	0
For loss of time from date of selection, &c. ... ..	400	0	0
Deposit of purchase money ... ..	65	0	0
Interest paid Government three years after selection ... ..	13	0	0
	<hr/>		
	£1,603	17	9

On the 19th August, 1880, Mr. Farnell was by direction of the Minister requested to furnish particulars of the various amounts sought as compensation in the petition, and on the 4th October, 1880, he presented the bill of costs of defendant's attorney, as between attorney and client, for services performed in the actions at the Supreme Court, amounting to the sum of £252 10s. 7d., together with a statement showing the value of the improvements on the selection which it was stated were as follows, viz. :—

	£	s.	d.
A dwelling-house (weatherboard) ... ..	130	0	0
A six-wire sheep-proof fence ... ..	100	0	0
Clearing, ringing, burning, &c. ... ..	56	0	0
	<hr/>		
	£286	0	0

On the 1st December, 1880, Robertson Brothers, through Wilson & Ranken, tendered a bill for defendant's costs, including costs of appeal, amounting to the sum of £696 7s. 2d.

On reference of the above law bills to the Crown Solicitor for taxation by the Prothonotary, the bill presented by Mr. Farnell was taxed at £198 7s. 11d., or reduced by the sum of £54 2s. 8d., and the bill presented by Messrs. Wilson and Ranken taxed at £507 10s. 5d., or reduced by the sum of £188 16s. 9d., thereby making the amount payable as law costs, £705 18s. 4d. instead of £948 17s. 9d., as originally rendered, a saving to the Government through taxation of £242 19s. 5d.

In reference to the claims for compensation for loss of improvements, the District Surveyor (Bolton) on the 17th November, 1880, reported the value of the improvements to be as under :—

	£	s.	d.
Two-roomed cottage ... ..	45	0	0
Fencing 128 chains, 687 wires, grooved posts ... ..	120	0	0
Clearing, burning, and stacking underwood ... ..	15	0	0
	<hr/>		
	£180	0	0

or £106 less than the amount claimed.

The next item to be dealt with appears to be Day's claim for compensation for loss of time, £400.

There is also a claim for £25 for attendance at trial in Sydney.

The amount of deposit and interest should be refunded.

To recapitulate, the following are the amount of the claims as amended :—

Law costs to Day's solicitor ... ..	198	7	11
Robertson Brothers' law costs ... ..	507	10	5
Value of improvements ... ..	180	0	0
Expenses for attendance at trial ... ..	25	0	0
Deposit of purchase money ... ..	65	0	0
Interest paid Government three years after selection ... ..	13	0	0
Compensation for loss of time ... ..	400	0	0
	<hr/>		
Total ... ..	£1,388	18	4
	<hr/>		
	£	s.	d.
The amount originally claimed was ... ..	1,603	17	9
as amended... ..	1,388	18	4
	<hr/>		
Reduction of ... ..	£214	19	5

The sums as taxed for law costs may be considered as the amounts which must be allowed by the Government, leaving the other items for consideration.

C.O.,  
6/5/81.

*Minutes on No. 39.*

By direction of Mr. Secretary Hoskins, and in pursuance of a decision of the Cabinet, Ministerial authority is sought for placing the following amounts on the Estimates :—

Law costs to Mr. Day's solicitor ... ..	198	7	11
Robertson Bros' law costs ... ..	507	10	5
Value of improvements made by Mr. Day, as reported by Mr. District-Surveyor Bolton ... ..	180	0	0
	<hr/>		
	£885	18	4
	<hr/>		
	£	s.	d.
Mr. Day's expenses while attending trial in Sydney ... ..	25	0	0
	<hr/>		
	£910	18	4

Authority

Authority is also requested for the refund of £64 15s., paid by Mr. Day as deposit on the conditional purchase made by him, and of £12 19s., paid as instalment and interest.—C.O., 20/6/81.

Approved.—H.P., 24/6/81. The Accountant.—C.O., 24/6/81.

Reconsidered on representations made to the Government of Mr. Day's losses. Cabinet agree to allow the full value claimed for improvements (£280) in consideration of losses sustained by delay, &c., making a total of £1,010 18s. 4d.; also refund as above of £64 15s.; and amount of instalment and interest, £12 19s.; total, £1,088 12s. 4d.

For Cabinet.—H.P. Received, 27/9/81. Provided for in Estimates.—C.O., 27/9/81.

### No. 40.

#### Mr. George Day, Junior, to The Colonial Secretary.

Sir,

Albury, 29 June, 1881.

I wrote to you in reference to the following case:—On the 19th of October, 1876, I conditionally purchased, at Urana, 259 acres of land, on the Yanko Creek, under the 13th section of the Crown Lands Alienation Act of 1861, being measured portion No. 146, in the parish of Howell.

On the 1st September, 1877, an action of trespass was commenced against me in the Supreme Court by Robertson Brothers, the lessees of the Yarrabee Run. As you are aware, the Supreme Court set aside the verdict and on appeal the Privy Council ordered a verdict for plaintiffs, on the ground that plaintiffs had tendered the purchase money of 640 acres, which the officers of the Lands Department refused to accept as the land was not within a block of 5 miles square of leasehold. I petitioned the Executive Council for compensation for the loss of the selection and in addition to law costs of plaintiff and my own law costs claimed—

	£	s.	d.
My costs of attending trial at Sydney as a witness, with costs...	25	0	0
Expended on improvements of selection ... ..	280	0	0
Selection till the time of presenting petition ... ..	400	0	0
Deposit paid to Government on purchase ... ..	64	15	0
Interest on selection ... ..	13	0	0
	£782	15	0

The Executive Council promised to put an amount on the Estimates sufficient to pay the law costs of plaintiffs and defendants and the value of the improvements and deposit and interest, but not for any compensation for me for attending trial in Sydney or loss of time from time the land was selected.

I most respectfully submit that I am entitled to remuneration for my three years loss of time from 19th October, 1866,\* the time I took up the land, until the 1st June, 1880, as I was obliged to reside on the land for three years, and it was necessary for me to attend the trial in Sydney as a witness. \* Qy. 1876.

The Crown Solicitor has taxed my solicitor's costs and also the plaintiffs' costs.

I write to you hoping you will see justice done to me and recommend payment of the full claim sent in by me, otherwise I shall be wholly at the loss of my three years labour and time without any remuneration.

You will also see that I have been the sufferer all through. In the first place I put in an application to select 640 acres. There were several applicants, and lots were drawn, and I got one half of what I applied for. 2. I held undisputed this land for about twelve months before any action was taken by the lessee. 3. This question came before the House, and the then Attorney-General (Mr. Dalley) decided that the selections were valid and that the squatters could not claim without having a block 5 miles square. 4. Then this action was brought against me, but it was virtually a test question to test if the Government were acting legally or not, and I have been made the means of test. 5. I applied to the Government of the day to vote money to have the suit defended in England. This was also refused, although applied for by petition. 6. As a test question I had to contend against all the capital of Riverina; that is, the Squatters' Association, and what would be in costs to me £1,000 would not cost Robertson Brothers £20, as the whole law costs are paid by the Association. 7. I have never had any intimation from the Minister for Lands or the Government that my selection was not valid; but I have received intimation that if I did not pay up the interest the selection would be forfeited, and I have now paid the interest twice. 8. I have applied for fair compensation for loss of time. I have not made any exorbitant charge—merely what I am out of pocket by loss of time and my land, as I could not put stock on the land to try and make anything out of it, litigation taking up all my time and money.

I now make this appeal to you hoping you will see me justly treated. I ask nothing but what is fair and just and honest, and I leave myself in the hands of the Executive, believing that I shall be justly done by and my case considered on its merits.

I have, &c.,

GEORGE DAY, JUNIOR.

### No. 41.

#### Memorandum from The Secretary for Lands to The Chief Commissioner.

[Urgent.]

It has been represented to this Department by Messrs. Robertson Brothers that the portion of land which was the conditional purchase of G. Day, junior, and was the subject of an appeal to the Privy Council in the case of Robertson *versus* Day has been transferred by Day to another party, and as the Crown will have to give a valid title to this portion to Robertson Brothers, I have written this memo. to the Chief Commissioner, requesting that gentleman to take the necessary steps of preventing the registration in this office of the transfer of the conditional purchase of George Day, junior, to any other person.

J.H.,  
24/8/81.

Minutes

*Minutes on No. 41.*

Mr. Yorke.—Please make notation in register with a view to prevent any transfer of George Day's conditional purchases being registered as herein directed.—M.L., 24/8/81. Notation made in Conditional Purchase Register.—J.R.Y., 24/8/81.

As the decision of the Privy Council is held to have affirmed the validity of the purchase by Messrs. Robertson under the 31st clause, that of Mr. George Day, junior, of portion No. 146 is void, and the deposit and instalments, &c., paid thereon may be refunded immediately without waiting for the Parliamentary vote to be passed.—A.O.M., 21/11/81. Approved.—J.H., 22/11/81.

## No. 42.

The Chief Commissioner to Mr. G. Day, Junior.

Sir, Department of Lands, Conditional Sales Division, Sydney, 29 November, 1881.

posit paid,  
15s.

I am directed to inform you that the application made by you at Urana on the 19th, 1876, for the conditional purchase of 259 acres of land is void, as the land was previously applied for by Messrs. Robertson Brothers under the 31st clause.

2. Enclosed is a form which, on being filled up in accordance with the instructions thereon, and forwarded to the Treasury, Sydney, will enable you at once to obtain the refund of your deposit.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner,  
*per* J. B.

P.S.—The instalment of the balance of the purchase money paid by you will be refunded on application at the Treasury.

## [Enclosure.]

[Special Payments Form No. 2.]

NEW SOUTH WALES.

Conditional Purchase.—Revenue refunded.

{ L.A. No. 182.				
Land Office at Urana; date of selection, 19th day of October, 1876; deposit paid on 259 acres; selection void to the extent of 259 acres, the land having been previously applied for by Messrs. Robertson Brothers under the 31st clause.				
Deposit to be refunded on 259 acres .....		£	64	15 0

## No. 43.

The Chief Commissioner to The Crown Lands Agent, Urana.

Sir, Department of Lands, Conditional Sales Division, Sydney, 29 November, 1881.

I am directed to inform you that the application of George Day, junior, on the 19th October, 1876, for the conditional purchase of 259 acres of land is void, as it conflicts with an improvement purchase, the validity of which has been affirmed.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner.

## No. 44.

The Chief Commissioner to Mr. G. Day, Junior.

Conditional Purchase.—Revenue refunded.

(C.P. No. 76-182; C.S. No. 81-37,750.)

Sir, Department of Lands, Conditional Sales Branch, Sydney, 29 November, 1881.

Urana; George  
Day, Junr.;  
19 October, 1876;  
259 acres.  
Deposit, £64 15s.

I am directed to inform you that the conditional purchase, noted in the margin, being void, as it conflicts with an improvement purchase, the validity of which has been affirmed, you will be good enough to refund to the selector the sum of £64 15s. (sixty-four pounds fifteen shillings), being the deposit money paid thereon.

2. I am to add that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner.

P.S.—Applicant has been informed that a refund of instalment money at Treasury will be paid.

## No. 45.

Mr. G. Day, Junior, to The Under-Secretary for Lands.

Sir,

Sydney, 29 December, 1881.

I have the honor to request that you will have the kindness to order payment of the amount of compensation voted to me on the Estimates for 1882, viz., £1,010 18s. 4d., to George Day, M.P., being special vote for claim for compensation in the law-suit Robertson *versus* Day.

Will you also kindly order the payment of deposit paid to Land Agent for the land, viz., £64 15s., and also first and second instalment of interest, two amounts of £12 19s. each,—in all £1,101 11s. 4d.

By your attention to this matter you will greatly oblige me.

I have, &amp;c.,

GEORGE DAY, JUNR.

*Minutes on No. 45.*

The Under-Secretary for Lands to Mr. G. Day, Junior.

Sir,

Department of Lands, Sydney, 30 December, 1881.

In answer to your letter of the 29th instant, I have the honor to inform you that the Under-Secretary for Finance and Trade has to day been advised to pay the sum named in the margin to you or your order, the same being the amount voted by Parliament as compensation for legal and other expenses incurred in the suit Robertson *v.* Day. £1,010 18s. 4d.

With regard to the refund of deposit and instalments, the necessary instructions were forwarded to the Treasury on the 29th November last, to which effect you were at that time duly informed.

I have, &amp;c.,

CHARLES OLIVER,

Under-Secretary.

## No. 47.

The Under-Secretary for Lands to The Under-Secretary for Finance and Trade.

Sir,

Department of Lands, Sydney, 30 December, 1881.

I am directed by the Secretary for Lands to request that you will be good enough to cause the sum of £1,010 18s. 4d. to be paid to George Day, junior, or his order, for legal and other expenses incurred in the suit "Robertson *v.* Day," which arose through an erroneous sale of Crown Lands. £1,010 18s. 4d.

2. This expense will be charged against the vote for £1,011, item 442, Appropriation Act, 1882.

I have, &amp;c.,

CHARLES OLIVER,

Under-Secretary.

## No. 48.

Messrs. Wilson &amp; Ranken to The Secretary for Lands.

Sir,

247 George-street, Sydney, 27 January, 1882.

We herewith forward a memo. of the case Robertson *v.* Day, and on behalf of Messrs. Angus Robertson Bros. have respectfully to request that you will be pleased to cause this business to be now settled by the issue of the deed for the 640 acres to the Messrs. Robertson Bros. Herewith

I have, &amp;c.,

WILSON &amp; RANKEN.

*Minutes on No. 48.*

The case alluded to herein has been submitted to me on behalf of Robertson Bros. I should like to have the views of the chief officers of this Department, whose duty it has been to watch the case submitted with much care, not only in rejoinder to this case but otherwise thoroughly. As I am connected with Messrs. Robertson I do not wish to offer any opinions of my own in the matter.

It is my intention, when all the papers are ready, to place my duties with regard to the matter in the hands of my honorable colleague, Mr. Wisdom, who has kindly expressed his willingness, under the circumstances, to deal with it in the same way as he would were he Minister for Lands.—JOHN R. Chief Commissioner.—C.O., 5/2/82.

Pursuant to the wish expressed by the Minister in his minute, written on the other side, I submit the following remarks, and shall endeavour, as briefly as the importance of the case to the several parties, as well as in its bearing upon the administration of the land laws, will admit, to pass the leading facts under review.

The application now enclosed by Messrs. Robertson Brothers, to purchase conditionally under the 31st clause of the Lands Acts Amendment Act of 1875, 516 acres, being measured portions 146, 147, and part of 148 on the Yarraba Run, was tendered at Urana on the 17th October, 1876. I have been requested by the Minister to supervise the arrangements at the opening of the Yanko Reserve to conditional purchase and was thus present, and Mr. Badham, the land agent, acting under my instructions, refused to receive the application, it appearing that the area did not form part of a leasehold of 5 miles square as required by the Act. This action was in accordance with an opinion previously given by the Attorney-General of the administration then in office; on which the Minister issued instructions, and was, moreover, subsequently ratified by the Minister on being reported to him. On

On the 19th October, 1876, one of the above-mentioned portions (146) was conditionally purchased by George Day, junior; portion 147 by James Day, and portion 148 by Joseph Frauenfelder, all under the 13th clause of the Crown Lands Alienation Act of 1861.

It appears that subsequently an action was commenced by Robertson Brothers against George Day, junior, and after an appeal to the Full Court on the construction of the 31st clause a judgment was given in accordance with the opinion of the Attorney-General above-mentioned and the view of the law under which the Department had acted. An appeal to the Privy Council was made by Robertson Brothers, not defended by Mr. Day or the Government, and the result has been a judgment reversing that of the Supreme Court here, and affirming the advisability of the original application by Robertson Brothers, dated 17th October, 1876. These parties now claim the issue of a deed of grant, alleging that they have fulfilled the conditions of their own purchase.

Mr. George Day, junior, has petitioned Parliament for compensations for loss of his selection and improvements, and for reimbursement of legal costs, including the costs of the appeal to the Privy Council. A sum of money has been voted and paid. He has also been refunded the deposit paid upon his conditional purchase. With this matter of compensation I have not any present concern, nor have I had any official transaction. I did not hesitate to express in person a decided opinion that the appeal to the Privy Council, the object of which was to reverse the view of the law acted upon by the Government on a most important branch of administration of the public lands, affecting the rights of a number of individuals not parties to the litigation, and is affirmed on appeal by the Full Court here, should not have been carried through by default, without the Government having at least the opportunity of defending the appeal in the public interest and that in the circumstances the claim for costs was, to say the least, an extreme one. I think I must have been informed if any application had been made to defend the appeal. I am not aware of any such. On the contrary, I observe a note by the late Minister on one of the enclosed papers to the effect that "no appeal was made to the Government to defend the case." I may be allowed to state my conviction that if the appeal had been defended the result would have been different. This may seem presumption on my part, but the case and the subject matter involved were in a peculiar degree dependent upon local and technical considerations the full force of which must necessarily have been more apparent to the Court here, by which the question was decided, than to any other Court, however high dealing with them *ex parte*. The final judgment, for example, assumes that there can have been no motive for the local Legislature in distinguishing between a block of 5 miles square and one of 25 square miles, and of course there was no means of pointing out that the distinction was technically a well-known and practical one, serving to distinguish between the tenures under the Orders in Council, over which a pre-emption had existed for a number of years, and those under the Land Laws of 1861, under which no such right existed.

But it is of course palpable that however unfortunate in its incidence the decision of the Privy Council is now past question.

As regards the selection of George Day, junior, there is now no objection to the claims of Robertson Brothers.

In the case of portion 147, selected by James Day, the land has been resided upon and improved, by the latest report, to £319 in November, 1879. By direction of the late Minister I wrote, on the 26th November last, to the present holder, George Hord, requesting cause to be shown why the selection should not be declared void, as included in the previous purchase of Robertson Brothers. In reply, the holder contends that his case is on a different footing to that of George Day, junior, and asks the Government not to interfere in pending litigation between him and those parties. It is contended that this portion is not upon the Yarrabee Run, but upon another, Bunjegong, also held by Robertson Brothers. I have investigated this matter sufficiently to satisfy myself that it would not be desirable to encourage litigation on this point, and that the result would probably be to increase the inevitable claim for compensation. The boundary-fence between Yarrabee and Bunjegong leases, portion 147, on the latter, but it does not appear to be in the position of the dividing-line between the respective leases. I see, therefore, no alternative to the selection of James Day, junior, being also declared void, and the deposit being re-paid; nor can due compensation, as I regard the matter, be refused to the present holder for the loss of his purchase and improvements.

Portion 148 is stated to have been purchased from the selector by Robertson Brothers. There appears, therefore, now to be no competing claim to this which should prevent the completion of the sale under the 31st clause on the Minister being satisfied that the conditions thereof have been completed.—A.O.M., 16/2/82.

The Under-Secretary for Lands should now be good enough to furnish any observations that to him may seem desirable, so as to enable my colleague, Mr. Wisdom, to have before him the case from his point of view. There should be no unnecessary delay.—JOHN R.

See separate memo.—C.O.

[Enclosure.]

Memo. of case.

On the 17th October, 1876, Messrs. Angus Robertson, Duncan Robertson, and David Sheriff Robertson, being the lessees from the Crown of a certain station or run, situated in the district of Murrumbidgee, in the Colony of New South Wales, lodged with the Land Agent at Urana (being the proper office, and such day being a proper lands office day), a written application for the purchase, under the 31st clause of the Lands Act Amendment Act of 1875, of 640 acres, situate in the county of Urana, in the parish of Howell, being measured portions, 146, 147, and part of 148 on Yarrabee Run, and stating the description of the intended improvements, and at the same time the applicant tendered to the said Land Agent the sum of £640, being the price of said land, and the sum of £5, being the estimated cost of subdividing said portion 148; the said Land Agent refused the said application, Mr. Moriarty, the Commissioner for Conditional Purchases, being present and across the application so made was written by the said Mr. Moriarty, and signed by the said Land Agent, the words "Refused, not being within a block of 5 miles square of leasehold."

On the 19th of October, 1876, one George Day, junior, applied to the said Land Agent, at Urana, for the conditional purchase of measured portion 146, county of Urana, parish of Howell, being part of the said 640 acres, so applied for by the said Messrs. Robertson, which application was received, and the said George Day, junior, entered into possession of such measured portion No. 146.

On or about the day of . . . , 1876, the Messrs. Robertson, conceiving that they had the legal right to the said portion by virtue of their said application, commenced an action in the Supreme Court against the said George Day, junior, for trespass on the said portion, in which action a verdict was returned for the plaintiff, subject to the opinion of the Full Court on a special case agreed on between the parties, the question to be determined by the Court being "Whether the land so purchased by the said Messrs. Robertson could be purchased under the provision of the 31st clause of said Act."

The

The said special case came on for argument before the full Court on or about the day of A.D. 187 , when the Court, by a majority (the Chief Justice dissenting), determined the question in the negative, and judgment was ordered to be entered for the defendant with costs.

Against this decision the Messrs. Robertson appealed to Her Majesty's Privy Council, who, after argument, reversed the said decision of the Supreme Court, and decided that the said land so applied for by the said Messrs. Robertson could be purchased under the 31st clause of the said Act, and they ordered that judgment in the said action should be entered for the plaintiff with costs.

This order has been duly entered on the records of the Supreme Court, and the costs in the said action have been duly taxed.

The Parliament has since voted a sum of money (which has been paid to the said George Day, junior) to compensate him for the moneys paid by him and the costs to which he was rendered liable by reason of the acceptance of his said application to conditionally purchase (including improvements made by him), and the said action.

The Messrs. Robertson now apply for a grant of the said 640 acres of land. It has been decided that their application was perfectly legal, and that it was no fault of theirs that it was refused. They have paid the purchase money which was so refused when tendered with the application, and are willing to pay for the improvements effected by the said George Day, junior, and which have been repaid him by Parliament, and they submit that they have a legal and equitable title to said grant from the Government.

## No. 49.

### Memorandum by The Under-Secretary for Lands.

It is a matter for considerable regret that the conditional purchases which were effected by the Messrs. Robertson Brothers, 31st clause application, was not finally disposed of long ago. The decision of the Privy Council in Robertson v. Day was made a rule of the Supreme Court of this Colony on the 20th March, 1880, and whatever opinions may have been held by the department as to the decision, it was useless to attempt to disregard it. It is too late now to consider whether or not the case was properly placed before the Privy Council.

The department was fully aware of the intention of the Messrs. Robertson to appeal, and provision should have been made to have all the points of the case fully laid before the Council, as it could not have been otherwise than apparent how seriously the Government would be affected by a decision adverse to the practice of the department.

The conditional purchase of George Day, junior, has been disposed of, and the deposit and interest paid thereon refunded. In addition to the refund made, the sum of £1,010 18s. 4d. has been paid to Mr. Day, and was made up as follows:—

	£	s.	d.
Law costs to Mr. Day's solicitor ... ..	198	7	11
Messrs. Robertson Brothers legal expenses (for which Mr. Day was liable) ... ..	507	10	5
Value of improvements made on the land by Mr. Day ... ..	280	0	0
Mr. Day's expenses while attending trial in Sydney ... ..	25	0	0
	<hr/>		
	£1,010	18	4

The sum last-mentioned was that claimed by Mr. Day, less costs taxed off, and an amount of £400 for loss of time, which was disallowed. I think it proper here to mention that it has been verbally represented to me that Mr. Day, junr., has not applied the money to the purpose for which it was sought and obtained, nor indeed as Mr. Day, M.P., informed me, it certainly would be.

However, the matter is now one between Mr. Day, junr., and those to whom legal expenses are due.

Joseph Frauenfelder's conditional purchase admits of being readily disposed of, as it is represented that he has sold his interest to the Messrs. Robertson. The conditional purchase may therefore be cancelled or subdivided, and any sums paid for deposit and interest refunded.

The conditional purchase of James Day (now Hord) must apparently be also cancelled, as there can, it seems to me, be no question that, although it was not considered when the case of Robertson v. Day was before the Privy Council, the 31st clause application was pronounced to be good, and therefore all other applications for land embraced in the former must be bad.

I look upon the question of the boundary between Bingegang and Yarrabee Runs as a mere after-thought. It is surprising how Mr. Hord became aware of there ever having been a doubt as to the exact position of the boundary, as the matter has remained for years undisturbed, and thereby the boundary as claimed by Messrs. Robertson virtually recognized.

With the decision of the Privy Council before us no other course appears open, or to have been for the last two years, but to deal with James Day's conditional purchases as suggested with regard to Frauenfelder's, and re-establish the 31st clause application. No doubt Hord, who has been improperly allowed to acquire an interest in James Day's conditional purchase, will advance a claim for compensation; but it will better to deal with one made under existing circumstances than await the result of further legal proceedings, which can only increase the demand for compensation.

As soon as the conditional purchases of Frauenfelder and Hord's are disposed of, the 31st clause application can be dealt with. The clause mentioned (now repealed) required that improvements equal to the value of £1 per acre should be placed on the land within twelve months from the date of application.

The Messrs. Robertson cannot declare that this was done, and it is evident that the land was not so improved.

This state of the case was brought about by the action of the department, and although the course pursued has been pronounced by the Privy Council to have been incorrect, it is doubtful whether the sale of the land in question to Messrs. Robertson Brothers under the 31st clause of the Land Acts Amendment Act of 1875 can now be completed.

It would appear that the sale will require to be made under the authority of a Validating Bill.

C.O.,  
18/2/82.

*Minutes on No. 49.*

This case is now quite ready for the consideration and decision of my honorable colleague, Mr. Wisdom, who, in consideration of my connection with the Messrs. Robertson, was good enough to say that he would act for me in it, in the same way as he would if he had been Secretary for Lands.—JOHN R., 20/2/82.

Having carefully considered this case, I am of opinion that a grant of the land in question should be issued to Robertson Brothers, the Privy Council having held an appeal that their application to purchase the land under section 31 (since repealed) of the Lands Act Amendment Act was wrongfully refused, and that the land applied for was land lawfully contracted to be granted and was therefore not open to selection (Robertson v. Day, L.R. 5 app. cases, 63). The only difficulty in the case is that pointed out by the Under-Secretary for Lands, Mr. Oliver, with respect to the improvements required by the section referred to not having been placed upon the land within twelve months from the date of the application. This however was not the fault of the Messrs. Robertson, but of the Government, which improperly refused their application, and the Government certainly should not take advantage of its own wrong. In order to obviate the difficulty raised, I would suggest that the Messrs. Robertson be allowed an extension of time for the completion of the requisite improvements—the grant not to issue until they are completed. For greater caution it might be as well to include this case in some future Validating Bill.—R.W., 31/3/82.

Submitted,—The land has already been improved—*Vide* declaration S1-6,639 mis.—F.H.W., 6/4/82. C.O.—6/4/82. The decision of Mr. Wisdom to be carried out.—JOHN R. The action in the first instance on the conditional purchases. The Chief Commissioner.—C.O., 11 April, 1882. For cancellation of the conditional purchase of James Day, for portion 147. Reduction of area on conditional purchase of Frauenfelder must await remeasurement of portion 148.—A.O.M., 24/4/82.

## No. 50.

## Summons for Examination of Witnesses, on application of Official Assignee or Creditor.

In the Supreme Court of New South Wales. }  
In Insolvency. } No. 17,077.

In the insolvent estate of George Day, the younger, of Day's Dale, near Albury, in the Colony of New South Wales, late free selector. Upon the application of Lancelot Threlkeld Lloyd, Official Assignee of the abovenamed estate, I do order that you Charles Nicholson Jewell Oliver, be summoned; and I do hereby summon and require you to appear before me, George Hibbert Deffell, Esquire, Chief Commissioner of Insolvent Estates, at the Court-room, Supreme Court-house, King-street, Sydney, on Monday, the eighth day of May now next, at the hour of eleven of the clock in the forenoon, and thence from time to time, and at such times as the matter hereinafter mentioned may from time to time be adjourned to, until the same shall be concluded; then and there to be examined, and give evidence concerning the trade, dealings, and estate of the said insolvent; and I further require and direct that you bring with you and produce at the time and place aforesaid, all books, papers, documents, and other writings, in your possession or power relating to the estate, trade, and dealings of the said insolvent, and in particular all papers in the office of the Minister for Lands, relating to the application of the abovenamed insolvent, George Day, the younger, for compensation for having been deprived of certain lands selected by him on the Yarrabee Run, in the county of Urana, including all letters written by the said George Day, the younger, or any other person to the Minister for Lands in relation thereto, also all minutes of the Minister for Lands in or upon such application. Also all reports of any officer in the Department of Lands or any other person in relation to such applications; also all or any papers showing how the claim for compensation was made up, and also all drafts or copies of all letters written to the said George Day, the younger, or any other person, in reference to such application, or the compensation granted, and also all papers relating to the payment of refund to the said George Day, the younger, on the said selection.

And herein fail not at your peril.

Given under my hand, at Sydney, this twenty-fifth (25th) day of April, A.D. 1882.

GEORGE HIBBERT DEFFELL, (L.S.)

Chief Commissioner of Insolvent Estates.

I, Lancelot Threlkeld Lloyd, Official Assignee of the Insolvent Estate of George Day, the younger, do hereby apply for the issuing of a summons or order, as within drawn; and I certify that I verily believe the person proposed to be examined thereunder is capable of giving evidence material to the purposes of the sequestration in this matter.

Dated this 25th day of April, A.D. 1882.

LANCELOT T. LLOYD,  
Official Assignee.

To His Honor the Chief Commissioner of Insolvent Estates.

## Minutes of Evidence before the Chief Commissioner in Insolvency.

Special examination under summons.

In the Supreme Court of New South Wales, }  
In Insolvency. }

Before the Chief Commissioner of Insolvent Estates.

Monday, the 8th day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger. No. 17,077.

*Charles Nicholson Jewell Oliver*, being duly sworn, was examined by His Honor, and saith as follows:—I was served with a copy of the summons produced, dated 25 April last.

*By Mr. S. C. Brown*, for Official Assignee: I am the Under-Secretary for Lands; I produce the papers relating to selections made by the insolvent on Yarrabee Run, of which Messrs. Robertson are the lessees; the insolvent was a selector on that run, in respect of which land legal proceedings were taken against

against him ; I produce a report dated 6 May, 1881, by myself, as Under-Secretary, in reference to a claim for compensation made by the insolvent, and that document contains memoranda of Sir Henry Parkes and also of the Cabinet (*document marked Exhibit A*) ; I produce the printed copy of the original petition made by Mr. George Day upon which I made the report already marked exhibit A (*petition marked Exhibit B*) ; the whole of the items mentioned in the petition were voted, with the exception of £400 claimed for loss of time, that item being struck out ; I produce the petition of the insolvent, dated the 29th June, 1881, to Sir Henry Parkes (*Exhibit C*) ; I produce a letter from the Crown Solicitor, dated 1 April, 1881, as to Robertson's costs (*Exhibit D*) ; I also produce a letter from the Crown Solicitor, 30 December, 1880, as to the insolvent's (Day) costs (*Exhibit E*) ; I know now the £1,011 was made up either immediately before or after I authorized the money to be paid (date of my authority, 30 December, 1881) ; I saw Mr. Day, the last witness, in my office, the accountant, Mr. Cohen, being present ; he had presented a letter from the insolvent authorizing him, Mr. George Day, to receive the money ; at that interview I told him (Mr. Day) that Day, junior, would have to pay Messrs. Robertson's costs ; Mr. Day said, "Of course," or something to that effect ; it was after I had heard that the costs had not been paid that I had a conversation with him in King-street ; I met him and stopped him and told him what I had heard ; he said, "That would be all right," or something to the effect.

 Monday, the 8th day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

*James McKern*, being duly sworn, was examined by His Honor and saith as follows:—I was served with a copy of the summons produced, dated 29 April last.

*By Mr. S. C. Brown*, for Official Assignee : I am a clerk in the Audit Department ; I produce a voucher for the refund of £64 15s. to George Day, junior, for refund of deposit on conditional purchase of 19 October, 1876 ; that money was paid to George Day ; it was paid on an order of George Day, junior, which I produce ; it was paid on 4 January, 1882 ; the receipt is signed "George Day, on behalf of George Day, junior" (*Exhibit G*) ; I produce a voucher for £1,010 18s. 4d., "for legal and other expenses incurred in the suit Robertson v. Day, which arose through an erroneous sale of Crown lands ;" that money was paid on the 6th January, 1882, to George Day, M.P., on the order of George Day, junior, which I produce (*Exhibit H*) ; I produce a voucher for £25 18s. refund "interest and instalment" to George Day, junior, in respect of conditional purchase having been declared void ; that amount was paid to George Day, M.P., on 14 January, 1882, on the order of George Day, junior ; I produce that order.

 Before the Chief Commissioner of Insolvent Estates.  
 Monday, the 8th day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

*George Day*, being duly sworn, was examined by His Honor, and saith as follows:—I was served with a copy of the summons produced, dated 25th April last, for my examination in this matter.

*By Mr. Brown (for Official Assignee)*:—The insolvent is my nephew ; I knew the insolvent had selected on Yarrabee Run ; I was aware of the legal proceedings of Robertson v. Day in respect of these selections ; I was aware that the Privy Council had decided against him ; I was aware as one of the public that the insolvent was liable for legal costs, but I did not hear it from either insolvent or his father ; I may have heard it from his father ; I presented the petition to the Legislative Assembly from the insolvent ; I look upon a copy of the petition presented to the Legislative Assembly.

*By His Honor.—Question*. Having looked at the paper writing handed to you, were you not formally aware that Messrs. Robertson had a specific claim for cost against the insolvent.

*Answer*. I was not aware of it.

*By Mr. S. C. Brown*:—Either the insolvent or his father or Mr. Nagle, the solicitor, sent me the petition to present ; I don't recollect whether I had any conversation with either of those named upon the subject of the petition ; I asked Mr. Farnell to move in the Assembly to obtain the compensation sought by the petition ; Mr. Farnell may have told me that Messrs. Robertson's claim must be included in the claim for compensation ; I believe Mr. Farnell told me that the Government were going to put money on the Estimates for the compensation mentioned in the petition ; I look upon a letter, dated 22nd February, 1881, written by me to Messrs. Robertson.

*Question*. Were you not aware at the time you wrote that letter that the compensation to be placed on the Estimates included the costs payable by your nephew to the Messrs. Robertson ?

*Answer*. I was not aware further ; I did not know the money would be placed on the Estimates ; I did not know when the money was voted that it included the costs of Messrs. Robertson ; I was not in the House when the money was voted ; I saw the amount was on the Estimates ; I never inquired anywhere how the amount was made up, but I won't swear that I did not ; I won't swear that Mr. Oliver did not tell me how the amount was made up ; I don't think I have been at the Lands Office since Mr. Farnell was employed ;

employed ; I did not think the amount included costs to Messrs. Robertson ; the money voted was paid to me ; the insolvent sent orders to me ; I think he sent a letter to the Minister asking for the money ; I look upon letter dated 12th January, 1882, to S. C. Brown, Esq., solicitor, for Messrs. Robertson (*Exhibit J*) ; I produce my cheque, dated 6th January, 1882, for £1,010 18s. 4d., which I paid to the insolvent George Day, the younger (*Cheque—Exhibit K*) ; I got two items of refund for my nephew for £64 15s. and £25 18s. ; I sent these two amounts to the insolvent's father ; I produce a cheque of mine for £64 15s., dated 4th February, 1882 ; I sent the cheque for £25 to insolvent's father on the 21st or 22nd April last ; I won't swear that I did not know about the £400 for compensation being refused by the Minister ; I don't remember ; I wrote the letter to Messrs. Robertson before I knew the money was placed on the Estimates ; I won't swear that Mr. Oliver did not explain in the presence of the accountant how the amount was made up, but I don't think he did ; I won't swear that I did not tell Mr. Wilson that Robertson's costs were included in the vote, but I have no recollection ; I may have done so ; Mr. Farnell may have told me that the compensation to be placed on the Estimates included Robertson's costs.

*By His Honor.—Question.* Did you not know at the time you received the money from the Treasury for that vote that it included the payment of Robertson's costs ?

*Answer.* No—cannot say I did ; I was under the impression it was voted for George Day.

Sworn by the deponent on the day first above-  
mentioned, at Sydney, before me,—

Monday, the 8th day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

*James Squire Farnell*, being duly sworn, was examined by His Honor, and saith as follows:—  
I was served with a copy of the summons produced.

*By Mr. S. C. Brown (for Official Assignee):*—I am a Member of the Legislative Assembly, and was so in June, 1880 ; I know Mr. Day, he is also a Member of the Legislative Assembly ; I took charge of some matter for him in the Assembly, to enable his nephew to get some compensation ; I never got any payment ; Mr. Day had no authority to mention anything about payment to me ; I never intended to ask payment ; I took the matter up to oblige Mr. Day as a fellow member ; I was informed what amount was to be placed on the Estimates, and what it was for ; after that I had a conversation with Mr. George Hay about the £400 claimed by his nephew for loss of time ; I told him the Government would only allow the law-costs of Messrs. Robertson's and his own, the deposit and instalments, and allowance for improvements, they would not allow the £400 for loss of time ; I knew that £1,011 had been placed on the Estimates ; after that I had a conversation with Mr. George Day with reference to the matter ; I also told him I thought his nephew was entitled to something for loss of time, but that the Government would only allow his own and Robertson's costs, and a small allowance for improvements ; after the amount had been placed on the Estimates Mr. George Day knew that it included Messrs. Robertson's costs.

Sworn by the deponent on the day first above-  
mentioned, at Sydney, before me,—

GEORGE HIBBERT DEFFELL,

Chief Commissioner of Insolvent Estates.

In the Supreme Court of New South Wales, }  
In Insolvency. }

Before the Chief Commissioner of Insolvent Estates.

Monday, the 8th day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

The Insolvent, *George Day*, the younger, being duly sworn, was examined by His Honor, and saith as follows:—I am the person whose estate was compulsorily sequestrated on the petition of Messrs. Robertson ; I look upon my affidavit, sworn in April last, verifying Schedule of assets and liabilities ; I was served with a copy of the summons produced, dated 25th April last.

*By Mr. S. C. Brown (for Official Assignee):*—My father's name is James Day ; I am at present residing with him ; I selected on the Yarrabee Run ; I made improvements on that run ; I swear that I slept on that selection six (6) months out of the year ; I never heard that Mr. Frauenfelder paid for the improvements, and that my father let him have the use of the run ; I had no stock to put upon the selection ; I had none ; I borrowed the money for the deposit from my father ; I had an action brought against me by Messrs. Robertson ; I petitioned the Assembly ; I look upon my signature to the petition of 29th June, 1881 (*Exhibit C*) ; my father wrote that petition ; I did not know how much the Government were going to give me ; my father said, what the Government were going to give was not enough ; I did not read the petition before I signed it ; I did what my father asked me ; I did not know that the Government had placed anything additional on the Estimates ; I know my uncle, Mr. George Day ; my father received a letter from him, and he told him what I was getting ; there was an item for Robertsons' costs ; I know that the item of £1,010 included the costs of Messrs. Robertson ; I received a cheque from Mr. George Day, £1,010 18s. 4d. ; took it to the Bank and got it cashed ; I got it in notes and silver and took it to my father, and we went down to Mr. Nagle's office, and my father handed Mr. Nagle £300 ; my father has £810 left in his hands ; I knew that I owed Messrs. Robertson's costs ; I received a letter from you on 28th January last, asking for Messrs. Robertson's costs ; I sent the answer, dated 5th February, 1882 (*Exhibit L*), to you ; I showed Mr. Brown's letter to my father, and he told me how to reply ; I made up no account  
with

with my father as to what I owed him ; he kept me in clothes, board, and pocket money for six years ; I knew I could not pay Messrs. Robertson after I gave my father the money ; I suppose my father knew that I owed Robertson's law costs ; my father knew that I had been sued by Messrs. Robertson ; I did not receive anything besides £1,010 18s. 4d. ; I did not get the refund and interest ; I gave my uncle, George Day, power to receive those amounts.

Sworn by the deponent on the day first above-  
mentioned, at Sydney, before me,—

Before the Chief Commissioner of Insolvent Estates.

Monday, the 8th day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

*James Day*, being duly sworn, was examined by His Honor, and saith as follows:—I was served with a copy of the summons produced, dated the 25th April last, for my examination in this matter.

*By Mr. S. C. Brown*:—I am the father of the insolvent, George Day, and brother of George Day, a Member of the Assembly ; I am living on my brother William's property ; I look upon the petition marked exhibit C ; my son handed me £1,010 in January last, in notes and silver ; I paid Mr. Nagle £200 ; I paid Hayes, the miller, an account due by myself, £40 ; Mate & Co. about £40 ; a chemist £10 or £12 ; paid £114 for sixty cattle to Mr. Griffiths ; I sold some of the cattle ; I received about £20 for fourteen cattle ; I left the balance of cattle in charge of a man named Williams ; I paid the most to my brother William, £650, in Bank of Australasia, at Albury ; I borrowed money from my brother William ; I have no property ; until I got the money from my son I was living in my brother William's county ; I placed the £650 to the credit of my brother William ; I wrote and told him I had done so ; I don't recollect whether I told my brother how I got the £650 ; I don't think my brother has asked me how I got the money ; I placed the amount to my brother's credit on 17th or 18th January last ; my brother William paid the interest on the selection ; I think Messrs. Robertson's costs were included in the amount of £1,010 18s. 4d., received by George Day, the younger ; when I paid the money to my brother's credit I knew that Messrs. Robertson's costs were included in the note ; I got £64 15s. from my brother George ; I spent it ; I got another sum of £25 18s. about two or three weeks ago ; I have the £25 18s. at the present time ; I will hand it over to the official assignee ; I don't believe my brother William knew how I got the money ; I might have told my brother William that when we got the money I would pay him.

Sworn by the deponent on the day first above-  
mentioned, at Sydney, before me,—

JAMES DAY.

GEORGE HIBBERT DEFFELL,

Chief Commissioner of Insolvent Estates.

Special Examination under Summons.

In the Supreme Court of New South Wales, }  
In Insolvency. }

Before the Chief Commissioner of Insolvent Estates.

Monday, the 22nd day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

*William Day*, being duly sworn, was examined by His Honor, and saith as follows:—I was served with a copy of the summons, dated 12 May instant, for my examination in this matter.

*By Mr. S. C. Brown (for Official Assignee)*:—I live at Mohanga, 60 miles from Albury ; I am a sheep-farmer and selector ; I have a brother named James Day ; he lives at Day's Dale, near Albury ; I don't know what he is, but he lives on a place he rents from me ; he agreed to pay me £150 a year for the place ; in April, 1880, he agreed to pay the rent ; he has not paid me any rent particularly ; there are about 900 acres in "Day's Dale ;" I can't say whether he has any stock in his place ; he cultivates a vineyard ; the extent of the vineyard is about 100 acres to the best of my belief ; I don't know how my brother James gets his living, he makes his living chiefly by what I advance him ; I have advanced him money ; I commenced by advancing him money in 1879 or 1880 ; I did not advance him any money at that time, but I gave up 200 acres of land to his creditors, which I valued at £20 an acre ; he had no claim to that land ; he had no interest in that land whatever ; I gave it up to try and clear him ; he did not owe me any money at that time ; I have to the best of my belief advanced him about £300 in various sums from £10 up to £50 ; on 22 October, 1881, I lent my brother James £10 by a cheque ; on 13th September, 1881, I lent him £10 ; those two amounts were included in the £300 he owed me ; James Day had paid no portion of the rent up to the end of December, 1881 ; I may have asked him for the rent at different times ; he said he had not got it ; my brother had not the means of paying me when I lent him the money or rented the place to him ; I claim £400 for the land I gave my brother's creditors, about £300 cash lent him, and £300 for rent up to the end of 1881 ; my brother was unable to pay me any of those items ; I did not this year see my brother James about money ; I can't say what was the last time I asked my brother James for money ; my brother said if he ever got any money he would pay me ; I bank at the Bank of Australasia, Albury ; on the 16th January last the sum of £150 was paid to my credit by my brother James ; on the 19th January, 1882, he paid £510 to my credit, the other £40, paid in on 3rd February, was part of £60 for wool (bank pass book produced, marked exhibit A) ; the £150 James Day paid to my credit on 16th January last was the first amount he paid me since I gave up the land to his creditors ; I don't think my brother wrote to me when he paid in the £150 ; I think he paid in the £150 and £510 ; I swear to the best of my belief my brother did not say where he got the money, but I won't swear that he did not tell me where he got the money ; I don't think

think I wrote to my brother about the £650 ; I swear to the best of my belief I did not write to my brother ; I swear that I have not spoken to my brother about the £650 ; I swear that I did not write or speak to my brother about the £650 ; I had no idea whatever where my brother got the money ; I have spoken to my brother since, but I did not mention about the £650 ; I know my nephew George Day the younger ; I heard that he was applying to the Legislature for compensation, but I did not ask him about it, because it was no business of mine ; I know my brother George Day, Member for Albury ; I had no conversation with him about the money ; the amount paid to the Commercial Bank on the 13th January, 1882, for £680, was for the purchase of land from the Commercial Bank ; I owe the Commercial Bank £640 still on the land transaction ; I had an overdraft at the Bank of Australasia ; I had a limit of £1,200 afterwards to £2,000 ; the £680 had nothing to do with the amount paid in by James Day ; I believe I took the cheque to the Commercial Bank ; I must have been in Albury on the 10th January, 1882 ; I can't swear whether I saw my brother James on that day ; I swear that I had no conversation with my brother James Day on the 13th January, 1882 ; I did not know whether I was overdrawn ; my brother paid in those two amounts without having any conversation about them ; I know now where the £660 came from ; I don't believe my brother ever told me about his having received the compensation ; I did not advance my brother the money to free-select with, but I paid two amounts for interest.

Sworn by the deponent on the day first above-  
mentioned at Sydney before me,—

GEORGE HIBBERT DEFFELL,  
Chief Commissioner of Insolvent Estates.

WILLIAM DAY.

In the Supreme Court of New South Wales, }  
In Insolvency. }

Before the Chief Commissioner of Insolvent Estates.

Monday, the 22nd day of May, 1882.

In the matter of the Insolvent Estate of George Day, the younger.

*Victor Cohen*, being duly sworn, was examined by His Honor, and saith as follows :—

I was served with a copy of the summons produced for my examination in this matter, dated 12th instant.

*By Mr. S. C. Brown*, for Official Assignee :—I am the Accountant in the Lands Department ; I have looked at Insolvent's letter, dated 29th December last, asking to have the compensation of £1,010 18s. 4d. paid ; I think I have seen the Insolvent once ; Mr. George Day came to the Lands Department with a gentleman who I believe to be the Insolvent ; Mr. George Day, the Member, acted as spokesman ; Mr. Day stated that he was anxious to get the money paid, and wished me to pass on the authority to the Treasury as soon as possible ; I told Mr. Day it was necessary for an application to be lodged for the money ; Mr. Day then told me that one had been lodged ; they then went away ; the application came to me on the 30th December, 1881, and I took the necessary proceedings to have the authority lodged at the Treasury that same day, and wrote to Mr. Day to that effect ; after that authority was lodged, I had some conversation with Dr. Wilson in the Under Secretary's room ; I knew then that Dr. Wilson was agent for the Messrs. Robertsons ; after the interview, I saw Mr. George Day, the Member, in the Under-Secretary's room ; I reminded the Under-Secretary whether he did not intend to speak to Mr. Day about the compensation to George Day, the younger ; the Under-Secretary said, "Mr. Day, the Messrs. Robertsons are anxious about their costs," Mr. Day replied, "They need not be frightened, they will be paid all right," or they would get them all right, or words to that effect ; I believe the conversation took place with the first fortnight of this year ; I have not the slightest doubt Mr. Day said the costs would be paid ; that was in reply to the Under-Secretary.

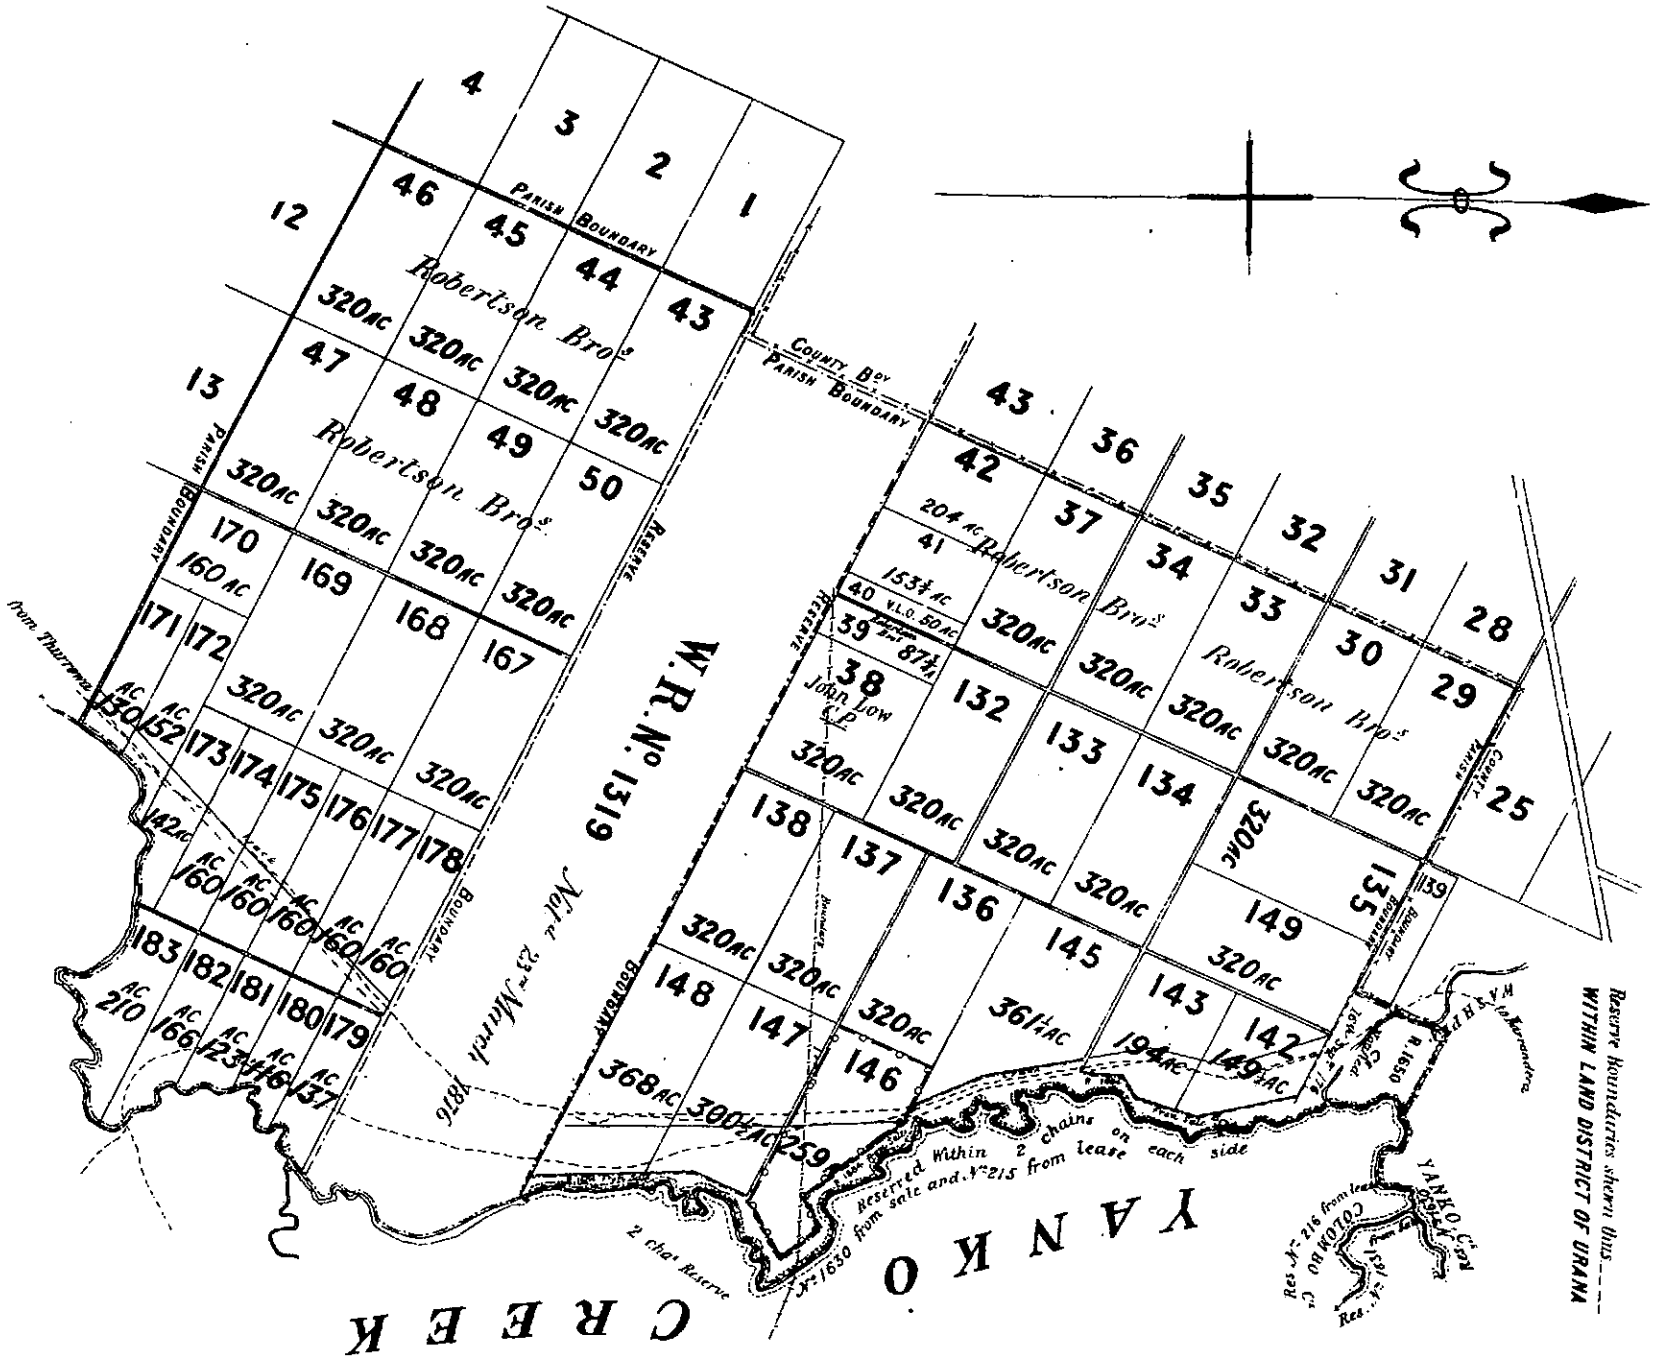

Sworn by the deponent on the day first above-  
mentioned at Sydney, before me,—

GEORGE HIBBERT DEFFELL,  
Chief Commissioner of Insolvent Estates.

VICTOR COHEN.

## CROWN LANDS.

No. 1.

Application by Mr. W. Goodwin.

D. [Alienation Act, section 13.]

Application for the conditional purchase, without competition, of unimproved Crown Land.

District of Gundagai.

No. 75-71 of 1875.

Application by William Goodwin (10 years) for the conditional purchase, without competition, of 40 acres unimproved Crown Land.

Received by me, with a deposit of £10, this 11th day of February, 1875, at 11-30 o'clock.

A. C. S. ROSE,

Agent for the sale of Crown Lands at Gundagai.

Sir,

11 February, 1875.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 40 acres; and I herewith tender the sum of £10, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &amp;c.,

WILLIAM GOODWIN,

(By his agent, A. L. SMITH),

To the agent for the sale of Crown Lands at Gundagai.

Jugiong.

Description.

County of Harden, parish of Beggan Beggan, 40 acres, adjoining the eastern boundary of Salting's 320 acres freehold, to run east, then south, &c.

No. 2.

Application by Mr. J. S. Futter.

E. [Alienation Act, sections 21 and 22.]

Application by John Sedley Futter for the conditional purchase, without competition, of 100 acres unimproved Crown Land, under section 22 of the Crown Lands Alienation Act of 1861.

Received by me, with a deposit of £25, this 1st day of June, 1876, at 11 o'clock.

CHARLES W. WEEKES,

Agent for the sale of Crown Lands at Gundagai.

Sir,

1st June, 1876.

I am desirous of purchasing, without competition, under the 22nd section of the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 100 acres, which adjoins my freehold property of 320 acres, upon which I am now residing, or upon which I have resided for three years; and I herewith tender the sum of £25, being a deposit at the rate of 5s. per acre on the area for which I apply.

This is the first selection made by me in virtue of my conditional purchase or freehold of 320 acres.

I am, &amp;c.,

JOHN S. FUTTER,

To the agent for the sale of Crown Lands at Gundagai.

Murrumburrah.

Description.

County of Harden, parish of Beggan Beggan, 100 acres, adjoining the south-eastern corner of my freehold of 320 acres, portion 1, running to the west boundary of portion 29; then north by that and by the west boundary of portion 33, to the south boundary of F. Bollard's conditional purchase of 80 acres, by that boundary west to the east of my said freehold.

*Minutes on No. 2.*

At the time of survey a report as to applicant's residence on freehold should be made, in accordance with section 21 of Lands Acts Amendment Act of 1875.—J.J.R. (for Surveyor-General), 27th July, 1876. Transferred to Mr. Licensed-Surveyor Hosie.—W. A. SHOOBERT, Licensed Surveyor, 15/3/79.

No. 3.

Mr. Licensed-Surveyor Shoobert to The Surveyor-General.

Sir,

Cootamundra, 23 June, 1876.

I have the honor to transmit herewith the plan of one portion of land, containing 40 acres, numbered 352, in the parish of Beggan Beggan, in the county of Harden, conditionally purchased by William Goodwin under the 13th section of the Crown Lands Alienation Act, and measured by me on the 13th June, 1876, in compliance with your instructions by B.C., No. 136, dated the 4th May, 1875, to Mr. Licensed-Surveyor James Evans, transferred to me. I have to report that at time of survey improvements had been effected as follows:—A hut, worth £3, and about 100 rod of fencing, worth £12 10s.; the total value of the improvements being £15 10s. The applicant was residing upon this portion at date of survey. The fencing shown upon the accompanying plan was not erected by the applicant, but by the original proprietor of portion 2.

I have, &amp;c.,

WILD A. SHOOBERT.

C.

[Alienation Act, section 13.]

Application for the conditional purchase, without competition, of unimproved Crown Lands.

District of Gundagai.

No. 378 of 186.

Application by Michael Joseph Goodwin (19 years) for the conditional purchase, without competition, of 100 acres unimproved Crown Land, 13th section.

Received by me, with a deposit of £25, this 14th day of September, 1876, at 11 o'clock.

CHARLES W. WEEKES

Agent for the sale of Crown Lands at Gundagai.

Sir,

14 September, 1876.

I am desirous of purchasing, without competition, under the Crown Lands Alienation Act of 1861, the portion of unimproved Crown Land hereunder described, containing 100 acres; and I herewith tender the sum of £25, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &amp;c.,

MICHAEL J. GOODWIN,

To the agent for the sale of Crown Lands at Gundagai.

Jugiong.

Description.

County of Harden, parish of Beggan Beggan, 100 acres, having a frontage to Cooney's Creek, and adjoining the east boundary of William Goodwin's conditional purchase of 40 acres.

*Minute on No. 4.*

Mr. Licensed-Surveyor Sheaffe to measure if unobjectionable.—J.J.R., (for Surveyor-General), 3rd October, 1876.

## No. 5.

## Notification of Alienation of Conditional Purchase from Mr. M. J. Goodwin to Ellen Goodwin.

H.

[Alienation Act, section 13.]

Notification of alienation of conditional purchase under the Crown Lands Alienation Act of 1861.

Notification of alienation of conditional purchase by Michael Joseph Goodwin (full age), in the district of Gundagai.

I HEREBY notify to you, as the agent for the sale of Crown Lands for the district of Gundagai, that I have (after a residence thereon of at least twelve months) this day alienated to Ellen Goodwin, spinster, 17 years of age, of Jugiong, the 100 acres of land, situated in the county of Harden, parish of Beggan Beggan, which I selected at Gundagai as a conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, on the 14th September, 1876.

MICHAEL J. GOODWIN,

Witness,—C. H. B. PRIMROSE.

Jugiong.

Dated at Cootamundra, this 29th December, 1877.

To the agent for the sale of Crown Lands at Gundagai.

I HAVE duly registered the above notification of alienation in the records of this office.

CHARLES W. WEEKES,

Agent for the sale of Crown Lands.

District of Gundagai, Land Office, Gundagai, 5th January, 1878.

## No. 6.

## Mr. W. Goodwin to The Chief Commissioner of Conditional Sales.

Sir,

Beggan Beggan, Jugiong Post Office, 5 February, 1878.

Having in February, 1875, selected 40 acres of land in parish of Beggan Beggan, county of Harden, adjoining the east boundary of Salting's freehold, to run east then south, which has since been surveyed, but in such a way that it has no frontage to Cooney's Creek, though the creek runs along its eastern boundary, as now surveyed, at a distance of not more than 3 chains. This land, as now surveyed, being cut off from water is quite useless to me. Upon seeing how this land was surveyed not according to application, I applied to Mr. Surveyor Shoobert (who surveyed it) to have it resurveyed according to application, which he declined to do, without, as he said, having orders from his chief to do so. I respectfully submit this case to your favourable consideration, and earnestly hope you will issue the necessary orders for the resurvey of this land.

I am, &amp;c.,

WILLIAM GOODWIN.

P.S.—With regard to the truth of what I state about the surveying of this land, I beg to refer you to the map of the district.—WILLIAM GOODWIN.

*Minutes on No. 6.*

There are later papers in this case which cannot be obtained. The survey has not been carried out in accordance with the regulations, and does not embrace applicant's principal improvements. Mr. Licensed-Surveyor Shoobert has consequently been instructed to remeasure the conditional purchase so as to embrace those improvements and with frontage to Cooney's Creek. He has also been directed to leave about 40 acres to the south of Goodwin's conditional purchase, which will be available for conditional purchase or auction sale. The writer may be informed. Papers then to Charting Branch.—R. D. FITZGERALD, (for Surveyor-General), 28/1/79. The Chief Commissioner. After action return to Mr. Finch.—C.J.B., 31/1/79. Approved.—J.H., 5/2/79. Inform.—A.O.M., 6/2/79.

No. 7.

## No. 7.

## Declaration by Mr. W. Goodwin.

D.

[Alienation Act.

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861. I, WILLIAM GOODWIN, of Beggan Beggan, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements, consisting of hut, grubbing, ringbarking, and fencing, and to the value of £40, have been made on such land; and I declare further that the said land has been the *bona fide* residence, continuously, of myself from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the abovenamed holders, until after the residence thereon of such holder for the period of one whole year). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

Taken and declared at Beggan Beggan, this } his  
9th day of May, 1878, before me,— } WILLIAM x GOODWIN.  
JOHN S. FUTTER, J.P. } mark

## Description.

County of Harden, parish of Beggan Beggan, 40 acres, at Beggan Beggan, being conditional purchase 25-430 of 1875, in the district of Gundagai, made on the 11th February, 1875.

*Minute on No. 7.*

Interest credited at Treasury, 23rd May, 1878.—W.H.B., 1st June, 1878.

## No. 8.

## Ellen Goodwin to The Under-Secretary for Lands.

Sir,

Jugiong, 28 June, 1878.

On the 11th February, 1875, William Goodwin selected 40 acres of land at Gundagai, which is described as follows:—Parish of Beggan Beggan, adjoining the east boundary of Salting's freehold of 320 acres, to run east, then south, &c. On 1st June, 1876, Mr. J. S. Futter selected 100 acres, described as follows:—Parish of Beggan Beggan, adjoining south-east corner of his freehold (Salting's) of 320 acres, portion 1, running east to the west boundary of portion 29; then north by that boundary and the west boundary of portion 33 to the south boundary of Ballard's conditional purchase of 80 acres; and by that boundary west to the east of his said freehold. On the 14th September, 1876, Michael J. Goodwin, who has since alienated to me, selected 100 acres, described as follows:—Parish of Beggan Beggan, having a frontage to Cooney's Creek, and adjoining the east boundary of William Goodwin's conditional purchase of 40 acres.

William Goodwin's 40 acres conditional purchase starts at the south-east corner of Salting's 320 acres, running east, then north, &c.

Mr. Futter's 100 acres, which has been recently surveyed, starts at the south-east corner of William Goodwin's conditional purchase of 40 acres, and includes within the area my conditional purchase of 100 acres, which is described as adjoining William Goodwin's conditional purchase of 40 acres on the east.

I am aware that Mr. Futter's application was lodged over three months earlier than mine; but as his application contains a misdescription, inasmuch as he describes his 100 acres as starting from the south-east corner of his (late Salting's) 320 acres, whereas upon survey it is found that if his application is allowed it must start from the south-east corner of William Goodwin's 40 acres, I submit that I am entitled to ask that Mr. Futter's application of the 1st June, 1876, may be declared void, and that the land in question may be surveyed for me. Praying your early attention,—

I have, &amp;c.,

ELLEN GOODWIN.

*Minutes on No. 8.*

Forwarded to Mr. Licensed-Surveyor Shoobert for action and report, in view of my instructions (Form F) of 28th January, 1874, in reference to resurvey of W. Goodwin's conditional purchase; also, the instructions referred to above.—CHARLES E. FINCH (for Surveyor-General), B.C., 14th March, 1879. Mr. Licensed-Surveyor Shoobert. Transferred to Mr. Licensed-Surveyor Hosie, to whom I believe the above mentioned papers have been forwarded by Mr. Acting District-Surveyor Schleicher.—W. A. SHOOBERT, L.S., Camp, 1/4/79.

## No. 9.

## Memorandum by the Surveyor-General.

Surveyor-General's Office, Sydney, 28 January, 1879.

MR. Licensed-Surveyor Shoobert is requested, at his early convenience, to attend to the following:—

In carrying out the survey of William Goodwin's conditional purchase, 75-71, Gundagai, Mr. Shoobert has virtually ignored Cooney's or Kitticarara Creek as a frontage, it having been adopted as such in the measurements of portions 29 and 33 on the east bank. Moreover, the survey does not embrace applicant's principal improvements. A resurvey should be made, in order that the creek may be made a frontage, and the applicant's principal improvements may be embraced. In carrying out this survey, an area of about 40 acres should be left to the south of the conditional purchase, and a plan of the same may be submitted with a view to that land being brought to auction sale. The track shown on tracing by brown lines passing through the conditional purchase, Mr. Shoobert has omitted to show on his plan. He is requested to state whether he has provided any road in lieu of that one.

R. D. FITZGERALD,

(For Surveyor-General.)

## The Chief Commissioner of Conditional Sales to Mr. W. Goodwin.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 14 February, 1879.

Adverting to the correspondence which has taken place relative to your selection noted in the margin, I am directed to inform you that Mr. Licensed-Surveyor Shoobert has been instructed to remeasure your conditional purchase, so as to embrace your improvements, and with frontage to Cooney's Creek, leaving 40 acres to the south of your selection for conditional purchase or for auction sale.

Gundagai, C.P.  
75/71, 40 acres,  
William Goodwin.

I have, &amp;c.,

A. O. MORIARTY,

Chief Commissioner.

## No. 11.

## Mr. Licensed-Surveyor Shoobert to Mr. Acting District-Surveyor Schleicher.

Dear Mr. Schleicher,

Camp, 15/3/79.

Before transferring the enclosed papers to Mr. Hosie, I considered that as I held a memorandum on the subject (and upon which I had a conversation when in Sydney with Mr. Finch), it would be better to send it to you with an explanation, viz. :—From what I know of the locality I feel pretty confident that if the suggestion conveyed in enclosed office memorandum is carried out, that there will not be sufficient area remaining to leave 40 acres south of Goodwin's resurvey, and to leave 40 acres south would necessitate Goodwin's resurvey being put further north, and in that case he would take in Mr. Futter's improvements, which could never be allowed, at least I don't think so. Mr. Finch and myself agreed that it would be better for me to go upon the ground again, and, by measurement, ascertain the area of the whole, and then submit a design so as to give Goodwin a frontage to the creek. If you prefer that Mr. Hosie does this work, would it not be as well to explain all this to him, personally if possible? or will I reply to the memorandum and state that I have transferred the papers to Mr. Hosie. I send you for perusal the original memorandum and a copy of what I intended to say in reply. Let me have your answer as soon as possible, and I will carry out your wishes with all expedition. Futter and Goodwin's applications were in the Cullinga papers, and hence your not finding them.

Yours, &amp;c.,

WILD A. SHOOBERT.

*Minute on No. 11.*

All these papers are transferred to Mr. Hosie for survey to meet the application, and if necessary to resurvey portion 352.—ADELBERT SCHLEICHER, Acting District-Surveyor, 17th March, 1879.

## No. 12.

## Mr. Licensed-Surveyor Hosie to The Surveyor-General.

Sir,

Young, 24 March, 1879.

In complying with instructions from the District Surveyor, dated 17th March, 1879, to survey to meet the applications, and if necessary to resurvey portion 352, and in furtherance of your instructions conveyed to Mr. Licensed-Surveyor Sheaffe by B.C. No. 201, dated 10th October, 1876, and B.C. No. 163, dated 27th August, 1876, also to Mr. Licensed-Surveyor Sheaffe, and memorandum 79-2, dated 28th January, 1879, to Mr. Licensed-Surveyor Shoobert, being respectively the conditional purchases noted in the margin, I have the honor to report that I went upon the ground and carefully examined, and estimated the improvements, and from the result it is evident that this land is barred from selection, and therefore I now return the three conditional purchase applications abovenamed as objectionable, the improvements being upon the Bouyeo Run, now held under promise of lease by Messrs. Cottee and Allan, and in possession of their agent, J. S. Futter. I have further to report that the improvements are as follows, viz. :—A complete set of drafting-yards, constructed with a four-rail split fence; seven divisions, in addition to crush and race; very substantial; large round posts at every intersection, and at each side of every gate. This yard in its present condition is worth £30. Surrounding these yards are receiving-yards capable of holding 20,000 sheep; they are constructed with forks and horizontal poles, made sheep proof, with saplings fastened vertically against them; present value, £10 (they are much dilapidated); there is also 33½ chains of two-rail fencing, eleven of which have three wires additional, and the rest two wires; present value, £25; 3 chains of four-rail fence, worth £3. There is 25½ chains of two-rail fence that originally stood in the position indicated on the accompanying sketch, but was removed by Goodwin to the line marked A.B. After Mr. Shoobert measured portion 352 as conditional purchase 75-71, this fence is worth £12 10s., and was worth that money before removal. The large trees have been grubbed and removed from about 10 acres (also indicated on sketch); labour done worth £30. I may here state, that nearly 3 acres of this has been included within portion 352. The improvements above mentioned are the property of the leaseholders of the Bouyeo Run, and with the exception of 11 chains of two-rail fence, and the wiring, were all erected previous to any of the conditional purchases herein referred to. It will be seen by the sketch that though the total value of the improvements is £110 10s., the land available, including portion 352, is only about 100 acres or less, and therefore is wholly barred from selection. It will be further noticed that the improvements are in close proximity to Beggan Beggan (Bouyeo Run homestead), and connected to other improvements of great value, thus rendering them indispensable to the station, and I cannot explain why Mr. Shoobert measured application conditional purchase 75-71 referred to in your memorandum to him, 79-2, dated 28th January, 1879.

Not with papers.

Enclosures—  
C.P. Apr., 76/375  
" " 163  
" " 75/71  
with sketch at  
Gundagai.

The

The improvements which have been effected by William Goodwin, consist of a bark humpy, worth £4, half of which only is on the land measured, £2. About 3 acres partially cleared, £9; ringbarking and gathering fallen saplings, £3; sapling fence, £5—altogether, £19. The labour in removing the old fence is worth £5, which, if added to the other, make in all £24. I have informed William Goodwin, as also the other applicants the action I have taken in this matter, and cautioned them against further improving until further notice.

The accompanying sketch illustrated this report.

I have, &c.,

H. HOSIE.

P.S.—Since writing the foregoing report I have received enclosed letter, dated 25th March, 1879, from John S. Futter (agent for Cottee and Allan), protesting against survey in any form of Goodwin's application conditional purchase, 75-71, referred to in foregoing report.

*Minute on No. 12.*

See also additional report covering this, dated 27th March, 1879, and bearing the same registered No.—C.E.F.

No. 13.

Mr. J. S. Futter to Mr. Licensed-Surveyor Hosie.

Sir,

Beggan Beggan, 25 March, 1879.

As I understand you have received instructions to resurvey Goodwin's application for 40 acres on the Beggan Beggan drafting-yards, so as to include those yards, I beg most respectfully, as the agent for Messrs. Cottee and Allan, lessees of the Bouges Run, to protest against any such survey, as the improvements—consisting of the yards, clearing, and fencing—far exceed £40 in value. When the selection was measured as it now stands I was unaware that the measurement was not in accordance with the regulations, or I should most certainly have protested against it then, and as the question has to be reopened, I now hereby enter my protest against Goodwin getting the land at all. Even in the way the selection is now measured it embraces a considerable amount of improvements belonging to the run, in the shape of clearing and fencing; and in whatever way the land might be measured to satisfy the claim, besides including some improvements, it would most materially interfere with, and render useless, the adjoining improvements, made at considerable cost by the former lessces of the run. In point of fact it is quite apparent to any unprejudiced person that Goodwin's application was not a *bona fide* application for unimproved land, but was made for the purpose of annoyance and injury to the lessees of the run.

I have, &c.,

JOHN S. FUTTER,

Agent for COTTEE and ALLAN.

No. 14.

Application by Messrs. Cottee and Allen.

Mr. Rutter, 22/5/79.—Please place papers 76-25,316 and C.S. 78-4,429 herewith, and return to the Charting Branch.—W.A.T., 2/6/79. Mr. Rutter.—All papers herewith. Case is urgent.—C.E.F., 11/6/79. Charting Branch memorandum sent to Mr. Licensed-Surveyor Hosie for full particulars as to date and No. of papers of improvement application, also date of improvements on the land herein referred to, and selected by William Goodwin's conditional purchase 75-71.—W.A.T., 14/6/79.

## No. 17.

## Mr. Licensed-Surveyor Hosie to The Surveyor-General.

Sir,

Young, 17 May, 1879.

I have the honor to transmit herewith the plan of one portion of land, containing 86 acres, numbered 370, in the parish of Beggan Beggan, in the county of Harden, applied for by Messrs. Cottee and Allen under the 2nd section of the Crown Lands Acts Amendment Act of 1875, and surveyed by me on the 28th March, 1879. This portion is situated on the Bouyeo Run.

I have to report to you that at the time of survey improvements had been effected consisting of—set of drafting-yards, £30; receiving-yards, £10; fencing, £30 10s.; and grubbing trees, £30—altogether worth £110 10s.

These improvements are in the possession of the applicants, who are the lessees of the above mentioned run. There is also upon the land improvements effected by William Goodwin, consisting of a bark humpy worth £4; 3 acres partially cleared, £9; ringbarking, £2; gathering fallen timber, £1; and a sapling fence worth about £5—altogether worth £21. The land upon which these improvements are erected was applied for to be conditionally purchased by William Goodwin, John Sedley Futter, and Michael Joseph Goodwin, under conditional purchases 75, 71, 75, 203, and 76-378, at Gundagai, which applications were returned as objectionable and reported upon in my letter No. 42, dated 24th March, 1879.

See No. 12.

That portion shown on the plan by broken lines, and numbered 352, which is now covered by my survey, was measured by Mr. Licensed-Surveyor Shoobert in satisfaction of conditional purchase 75-71, but was objected to by the applicant, and also protested against by the lessees of the Bouyeo Run. For a full report on this matter I refer you to my letter, No. 42, above mentioned.

See No. 12.

I have, &c.,  
 H. HOSIE.

## No. 18.

## Memorandum by the Surveyor-General, with report from Surveyor Hosie.

## Charting Branch.

MEMORANDUM of subjects requiring explanation or completion in connection with the Survey Report on W. Goodwin's conditional purchase, parish of Beggan Beggan, county of Harden, transmitted by Mr. Licensed-Surveyor Hosie, letter No. 42, of 24th March, 1879, and on which Mr. Licensed-Surveyor Hosie's report in explanation is requested.

## Subject.

With reference to your supplementary report, dated 24th March, 1879, you say that Messrs. Cottee and Allen have applied for the land referred to therein, in virtue of the improvements thereon, and you would therefore measure the land and submit plan at an early date. In sending in the above report you should have given full particulars with reference to the improvement purchase, viz., the date of application, also quoting No. of papers, &c., &c.; also the date should be given on which the lessee improved the land applied for by William Goodwin's conditional purchase 75-71, portion 352, of 40 acres, or a statement that, as far as you could learn, the land applied for was improved to the value of at the date of that application.

F. W. RUTTER,  
 (For Surveyor-General).  
 14/6/79.

Urgent.

## Report.

The plan of this portion has been transmitted with my letter No. 70, dated 28th March, 1879, and the application by Messrs. Cottè and Allan accompanied the plan and report. The improvements were reported upon as having been erected by the lessees of the run, and previous to Goodwin's conditional purchase 75-71; and I may now state that they have been erected many years (over ten years, I should suppose), and kept in good and constant use by the leaseholders, and were, and still are, in the possession of the applicants. The application was made but recently, and handed to me, together with a protest against survey of Goodwin's conditional purchase, and which papers have all been forwarded, with reports and letters herein referred to.

H. HOSIE.

## No. 20.

## Memorandum by Mr. District-Surveyor Twynam.

District Surveyor's Office, Goulburn, 12 July, 1879.

MR. HOSIE'S attention is drawn to the vacant space between the south boundary of portion 365 and Cooney's Creek, the object of which he is requested to explain; if this be vacant land and designed for thoroughfare, then why is not access provided thereto.

Portion 365 is represented upon the plan as extending across Cooney's Creek in rather a remarkable manner or form.

E. T.,  
District Surveyor.

[Enclosure to No. 20.]

Reply by Mr. Licensed-Surveyor Hosie to memorandum by Mr. District-Surveyor Twynam, of 12th July, 1879.

THE portion 365 was measured by Mr. Licensed-Surveyor Shoobert, the plan of which I have not. The vacant space referred to on north side of creek had doubtless been left for access or a continuation of road from Mutta Mutta to Murrumburrah. The lines I have shown I found marked upon the ground, the corner pegs, lockspit, and numbers on trees indicating measured portion 365. I presume by the marked lines that the road is reserved through the curious corner of No. 365, and thence left between the boundary and bank of creek, and thence between No. 2 and No. 365.

H. HOSIE,  
14/7/79.

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861.

I, JOHN SEDLEY FUTTER, of Beggan Beggan, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 22nd section of the Crown Lands Alienation Act of 1861, of the land hereunder described, and that improvements on freehold, consisting of house, dam, clearing, fencing, &c., and to the value of £3,000 have been made; and I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

JOHN S. FUTTER.

Taken and declared, at Murrumburrah, this 28th day }  
of August, 1879, before me,—

CHARLES CUTCLIFFE,  
Commissioner for Affidavits.

Description.

County of Harden, parish of Beggan Beggan, 100 acres, at Beggan Beggan, being conditional purchase 203 of 1876, in the District of Gundagai, made on the 1st June, 1876.

## No. 22.

## Memorandum by the Deputy Surveyor-General.

ON the 11th February, 1875, W. Goodwin (C.P. 75-71) applied under 13th clause for 40 acres of land, parish of Beggan Beggan, county of Harden, described as adjoining the eastern boundary of Salting's 320 acres, freehold, to run east, then south, &c. On the 1st June, 1876, J. S. Futter (C.P. 76-203) applied under 22nd clause for 100 acres in virtue of improvements by description, including the above 40 acres. On the 14th September, 1876, Michael J. Goodwin (C.P. 76-378) applied for 100 acres adjoining the east boundary of W. Goodwin's 40 acres as above.

In satisfaction of W. Goodwin's conditional purchase, portion 352, was measured by Mr. Licensed-Surveyor Shoobert, but being objected to by the applicant a remeasurement was ordered.

The resurvey of conditional purchase 75-71 being placed in Mr. Licensed-Surveyor Hosie's hands, a protest is entered by the lessees of the Bouyeo Run, of which this land is situated, on the ground that they have effected valuable improvements upon the land in question and adjoining land.

An application under 2nd clause of the Act of 1875 is likewise made by them to purchase 100 acres, including measured portion 352.

Mr.

Mr. Licensed-Surveyor Hosie has measured under that application (letter 17th May, 1879, No. Sec. No. 79-70), and has furnished a report dated 24th March, 1879, No. 79-42, dealing with the case. It is now submitted that conditional purchases 75-71, 76-203, and 76-378 be declared void, not being open to conditional purchase by reason of improvements thereon at dates of selection, and which are valued at £110 10s. *vide* Mr. Licensed-Surveyor Hosie's report of 17th May, 1879. Sec. No. 17.

1st September, 1879.

R. D. FITZGERALD,  
(For Surveyor-General.)

*Minutes on No. 22.*

Will Charting Branch be pleased to advise as to the objections, if any, to the measurement of Goodwin's conditional purchase between the southern part of the eastern boundary line of portion 2 and Cooney's Creek. This, though including some of his improvements, would embrace others, and would meet the objections to the survey formerly made, as to its not having frontage to the creek.—A.O.M., 9/9/79. Charting Branch.—In reference to the Chief Commissioner's memorandum, 9/9/79, the reason why Goodwin's conditional purchases are recommended to be declared void is that the area applied for is situated within an area of 86 acres protected by improvements, valued at £110 10s., and which were erected years previously to the application.—R. D. FITZGERALD, for the Surveyor-General, 12/9/79. Chief Commissioner, Conditional Sales. For approval.—A.O.M., 16/9/79. Approved.—Applicant for the conditional purchase of 40 acres, W. Goodwin should be informed that he can have an appraisalment of value of improvements.—J.H., 29/9/79. To Improvement Purchase Branch to deal with improvement purchase.—J.J.S., 20/11/79. The improvement purchase cannot be dealt with till the conditional purchaser's claim is settled. He has asked for an appraisalment of the improvements.—W.M., 25/11/79.

William  
Goodwin.

I am directed to inform you, that as it appears from a recent report from the Survey Department, that the land comprised in your selection, noted in the margin, has been claimed in virtue of improvements by the lessees of the run, the Minister for Lands has decided that such selection must be cancelled. I have, therefore, to send you the accompanying voucher for refund of deposit money thereon; but it is permitted you to apply under the law for an appraisalment of the improvements in question.

I have, &amp;c.,

A. O. MORIARTY,  
Chief Commissioner.

[Enclosure to No. 29.]

(Special Payments Form No. 2.)

NEW SOUTH WALES.

Conditional Purchase No. 75-71.—Revenue Refunded.

Department of Lands, Conditional Sales Division, Sydney, 22nd October, 1879, Dr. to William Goodwin, for the following refund, viz. :—Land Office at Gundagai; date of selection, 11th day of February, 1875; deposit paid on 40 acres; selection withdrawn or void to the extent of      acres; deposit to be refunded on 40 acres, £10.

11

No. 30.

The Chief Commissioner of Conditional Sales to The Under-Secretary for Finance and Trade.

(Special Payments.—Supplement to Form No. 2.)

Conditional Purchase No. 75-71.—Revenue Refunded.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 22 October, 1879.

I am directed to inform you that the conditional purchase, noted in the margin, being void, not being open to conditional purchase by reason of improvements thereon at date of selection, you will be good enough to refund to the selector the sum of £10, being the deposit money paid thereon.

2. I am to add, that a receipt form for the disposal of the money has been forwarded to the applicant, with instructions to fill up same and transmit it to the Treasury.

I have, &c.,

WM. BLACKMAN,  
(For Chief Commissioner.)

Gundagai,  
William  
Goodwin, 11th  
February, 1875,  
40 acres, £10.

No. 31.

The Chief Commissioner of Conditional Sales to The Land Agent, Gundagai.

(C.P. No. 75-71.)

Sir,

Department of Lands, Conditional Sales Division, Sydney, 22 October, 1879.

I am directed to inform you that the application of William Goodwin, on the 11th February, 1875, for the conditional purchase of 40 acres of land is void, not being open to conditional purchase by reason of improvements thereon at date of selection.

2. A form for refund of deposit has been forwarded for the signature of the applicant, the nature of which you will be so good as to explain to him, if required.

I have, &c.,

WM. BLACKMAN,  
(For Chief Commissioner.)

No. 32.

Mr. W. Goodwin to The Chief Commissioner of Conditional Sales.

Sir,

Jugiong, 4 November, 1879.

I have received your communication of the 22nd October, accompanied by voucher for refund of deposit on 40 acres conditional purchase, made by me on 11th February, 1875, at Gundagai, and informing me that the Minister for Lands has decided that said selection must be cancelled in consequence of being claimed by the lessees of the run, in virtue of improvements, but that it is permitted me under the law to apply for an appraisalment of the improvements in question. I therefore do hereby make application that the improvements in question be referred to appraisalment. Enclosed is the voucher sent me as I refuse to receive back the money paid by me for this selection until the ownership thereof is finally decided.

I am, &c.,

WILLIAM GOODWIN.

P.S.—Should the Honorable the Minister for Lands be pleased to refer to Mr. Surveyor Tozer, who was then District Surveyor for this part, who knows all about it, for information in this matter he could enlighten him and do me justice.—W. GOODWIN.

*Minutes on No 32.*

See minute on paper enclosed as to conditional purchaser's claim for appraisalment.—W.W.S., 5th December, 1879. Ask him to pay the appraisalment fee.—L.G.T., 15/12/79. H. Goodwin, informed.— 27th January, 1880. See No. 29. cc No. 32.

No. 33.

Ellen Goodwin to The Chief Commissioner of Conditional Sales.

Sir,

Jugiong, 4 November, 1879.

I have received your communication of the 22nd October, with voucher, informing me that the application of M. J. Goodwin, made at Gundagai, on the 14th September, 1876, for 100 acres of land (since transferred to me) is void, as the land is not available owing to improvements. I beg to inform you that there were no improvements on the land in question when selected.

It has been surveyed by Mr. Surveyor Shoobert in July or August, 1878, as a selection, and no objection was then made by either the surveyor or the lessee of the run.

Some three months ago I received an intimation from the Lands Department that the balance of purchase or interest thereon would have to be paid on 14th December, and that declaration of residence would also have to be made on that date. Feeling satisfied that there were no improvements on this land to debar its selection, I refuse to receive back the deposit paid on this land, and do hereby make application that the improvements referred to, be appraised. Enclosed are voucher and communication I received.

I am, &c.,

ELLEN GOODWIN.

## Declaration by Ellen Goodwin.

(C.P. No. 7.)

D.

[Alienation Act.]

Declaration of conditional purchaser under the 18th section of the Crown Lands Alienation Act of 1861. I, ELLEN GOODWIN, of Jugiong, do solemnly and sincerely declare, that I am the lawful owner, by conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, of the land hereunder described; and I declare further, that the said land has been the *bona fide* residence, continuously, of myself and Michael Joseph Goodwin, from the period of selection and first occupation to the present date, (and that no alienation of the land has been made by any of the abovenamed holders, until after the residence thereon of such holder for a period of one whole year); and I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits."

ELLEN GOODWIN.

day of December, 1879, before me,— }

W. J. BARNES, J.P.

## Description.

County of Harden, parish of Beggan Beggan, 100 acres, at Cooney's Creek, being conditional purchase No. of 18, in the district of Gundagai, made on the 14th September, 1876.

*Minutes on No. 34.*

£5 paid to Suspense Account, this conditional purchase being void.—G.E. The Treasury, B.C., 17/12/79. The Chief Commissioner, Department of Lands.

## No. 35.

## Ellen Goodwin to The Minister for Lands.

Jugiong, 9 December, 1879.

I wish to have granted to me extension of time for making improvements on my conditional purchase of 100 acres, made at Gundagai, on the 14th day of September, 1876, it not having been surveyed for about two years after selection.

I have, &amp;c.,

ELLEN GOODWIN.

## No. 36.

## The Under-Secretary for Lands to Mr. W. Goodwin.

Sir,

Department of Lands, Sydney, 27 January, 1880.

\*See No. 32.

In reply to your letter\* applying for an appraisement of the improvements upon the land conditionally purchased by you at Gundagai, on the 11th February, 1875, I am directed to inform you that you should pay into the Treasury the necessary appraisement fee of £1 1s.

I have, &amp;c.,

W. W. STEPHEN.

## No. 37.

## Mr. W. Goodwin to The Under-Secretary for Lands.

Sir,

Beggan Beggan, 2 February, 1880.

\*See No. 36.

I have received your communication of the\* 27th instant, informing me that my application for an appraisement of the improvements upon the land conditionally purchased by me at Gundagai, on the 11th February, 1875, should be accompanied by a fee of £1 1s., paid into the Treasury. I was not aware that such fee was necessary. Enclosed is a Post Office Order for the amount required.

I have, &amp;c.,

WILLIAM GOODWIN.

*Minutes on No. 37.*

The sum of £1 1s. appraisement fee was credited as requested, on 3rd February, 1880. B.C., 6th February, 1880.—G.E. The Chief Commissioner of Conditional Sales. Papers for Miscellaneous Branch, 25/2/80. The question is submitted as to whom the case should be referred. Mr. Conroy is the local surveyor, Mr. Twynam the district surveyor, and Mr. O'Malley Clarke the Commissioner. Mr. Clarke has had some experience in appraisements.—H.A.C., 16/4/80. For decision as to who is to be appointed appraiser.—L.G.T., 26/4/80. Perhaps the instructions may be issued to the local surveyor, Mr. Conroy.—W.W.S., 16/7/80. I prefer that the Commissioner of Conditional Purchases for the district should conduct this appraisement.—J.H., 20/7/80.

## No. 38.

## Appointment of Appraiser by The Minister for Lands.

WHEREAS on the 11th February, 1875, William Goodwin made an application to conditionally purchase the land specified below, which was measured as portion 352. The measurement not having been made with a frontage of Cooney's Creek, and having been objected to by the selector, a resurvey was ordered, but as the surveyor reported that the land would embrace improvements made by Messrs. W. A. Cottee and William Allan, the lessees of Bouyco Run, of sufficient value to bar selection, the conditional purchase was declared void. William Goodwin has now appealed against the surveyor's estimate of the improvements, and has claimed that their value shall be determined by appraisal.

Now I, the Minister for Lands, in pursuance of the powers vested in me, under and by virtue of the Lands Acts Further Amendment Act of 1880, do hereby appoint George O'Malley Clarke, of Young, in the Colony of New South Wales, to be the appraiser to determine the value of the said improvements which existed on the land at the date of William Goodwin's conditional purchase, viz., 11th February, 1875.

In witness whereof, I have hereto set my hand, this 10th day of August, 1880.

JAMES HOSKINS.

## Description.

40 acres, parish of Beggan Beggan, county of Harden, adjoining the eastern boundary of Salting's 320 acres, freehold, to run east, then south, &c.

I, the within-named George O'Malley Clarke, do solemnly and sincerely declare that I am not directly or indirectly interested in the matter referred to me, and that I will hear and determine it faithfully, honestly, and to the best of my skill and ability.

GEORGE O'MALLEY CLARKE.

Subscribed and declared this 29th day of October, }  
A.D. 1880, before me,— }  
S. ROBINSON, J.P.

## No. 39.

## Mr. A. H. Bray to The Chief Commissioner of Conditional Sales.

Sir,

267, George-street, Sydney, 24 August, 1880.

On behalf of Mr. J. S. Futter, I have the honor to beg that you will be pleased to instruct the Treasury to refund the sum of £5, being interest paid on the selection noted in the margin, which has been refused.

I have, &c.,

A. H. BRAY.

C.P., June, 1876,  
J. S. Futter,  
Gundagai,  
100 acres.

*Minutes on No. 39.*

Mr. Bray should be informed that application should be made to the Treasury for the refund of the interest money. Papers then to Mr. Elwin, and finally for Miscellaneous Branch.—C.N., 16/9/80. A. See No. 40.  
H. Bray, informed—29th September, 1880.

## No. 40.

## The Chief Commissioner of Conditional Sales to Mr. A. H. Bray.

Sir,

Department of Lands, Conditional Sales Division, Sydney, 29 September, 1880.

With reference to your letter of the 24th ultimo, on behalf of Mr. J. S. Futter, requesting that the Treasury be instructed to refund the sum of £5, being the amount of interest paid on the cancelled selection noted in the margin, I am to inform you that application should be made to the Treasury for the refund of the amount in question.

I have, &c.,

WM. BLACKMAN,

(For the Chief Commissioner.)

Gundagai,  
Conditional  
Purchase, 70-208  
(cancelled 22nd  
October, 1879),  
100 acres,  
J. S. Futter.

## No. 41.

## Appraisement of Improvements.

Messrs. W. A. Cottee and William Allan, lessees of the Bouyco Run, and William Goodwin.

Sir,

Young, 4 November, 1880.

In transmitting the attached\* award, I have the honor to state that the appraisement was made strictly in accordance with the requirements of the Regulations under the Lands Acts Further Amendment Act of 1880. Fourteen days' notice, in writing, of the time and place appointed for the holding of it was given to Messrs. W. A. Cottee, William Allen, and William Goodwin. It was conducted in open court, at Murrumburrah, on the 30th October, 1880, and during the investigation there were present the following persons, who were examined as witnesses upon oath:—Alfred George Keith, John Sedley Futter, John Goodwin, Edward Murphy, Patrick Callan, Samuel Billingsley, and Michael Goodwin. With respect to the \*evidence, minutes of which are forwarded herewith, and the general merits of the case, I may state that although the improvements actually embraced on portion 352 at the date it was selected by William Goodwin were not of sufficient value to bar selection, still that area was comprised on portion 370, measured in satisfaction of the lessee's improvements, which I find to be of the value of £97.

The value of the improvements on the area of 40 acres selected by Goodwin, at the date he took it up, I appraise to have been £33 18s. It was found necessary to take advantage of the allowed extension of thirty days for the appraisement, and due notice was given to the parties concerned.

The prescribed declaration was made previously to the appraisement, and my letter of appointment is herewith returned.

I have, &c.,

GEORGE O'MALLEY CLARKE.

[Enclosure

\*See Enclosure  
A.

B.

## [Enclosure A to No. 41.]

Award.

To all to whom these presents shall come—

I, George O'Malley Clarke, of Young, in the Colony of New South Wales, Land Commissioner, send greeting:—  
 WHEREAS on the tenth day of August, in the year of our Lord one thousand eight hundred and eighty, I was duly appointed by the Minister for Lands, in the Colony of New South Wales, as the appraiser to determine the value of the improvements which belong to Messrs. H. A. Cottee and William Allan, and which existed on the Crown Land specified below, at the date, viz., 11th February, 1875, upon which it was conditionally purchased by William Goodwin: And whereas I have entered upon the consideration of the value of the said improvements, and have heard and considered the evidence produced before me: Now I, the said George O'Malley Clarke, do hereby declare that the improvements specified in the following Schedule were the improvements which existed on the land at the date before mentioned, and declare that the sums set against them respectively were the values of the said improvements at that date:—

Description of improvements.	When Commenced.	When Completed.	Appraised Value.
Fencing .....	.....	Prior to 11th February, 1875 .....	£ s. d. 15 18 0
Clearing .....	.....	" " " .....	18 0 0
		Total.....£	33 18 0

In witness whereof, I have hereunto set my hand, this 4th day of November, 1880.

GEORGE O'MALLEY CLARKE,  
Appraiser.

## Description.

40 acres, parish Beggan, county Harden, adjoining the eastern boundary of Salting's 320 acres, freehold, to run east, then south.

The improvements were made at the expense of the lessees of the Bouyeo Run, and are now the property of Messrs. W. A. Cottee and William Allan. Without exception they have not been previously used to satisfy a claim in virtue of improvements; they are without exception of a fixed and permanent character; without exception they have been effected *bona fide* for the working and beneficial occupation of the land for pastoral purposes; and without exception they are still in existence.

GEORGE O'MALLEY CLARKE,  
Appraiser.

## [Enclosure B to No. 41.]

Court-house, Murrumburrah, 30 October, 1880.

MINUTES of evidence taken at a Court of Appraisalment, held to determine the value of certain improvements which existed on 40 acres of land in the parish of Beggan Beggan, county of Harden, at the date it was conditionally purchased by William Goodwin, viz., on 11th February, 1875.

*Alfred George Keith*, sworn, states: I know the land the subject of this appraisalment, and examined it a few days ago; I found thereon a drafting-yard for sheep, constructed of good, substantial split four-rail fencing; the fencing was old, and there were 65 rods of it; I value that fence at £33; there is also a receiving-yard, the fence of which is in very bad repair; although difficult to value this yard, I estimate the fencing and clearing of it to be worth from £8 to £9; I also saw some cleared land, estimated at 10 acres; I value the clearing at £40; there are 210½ rods of two-rail fence, worth £29; these are all the improvements on the land.

Cross-examined: I understood the clearing to have been effected by the lessees of the run; some of these improvements are not on the 40 acres measured for Mr. Goodwin; the yards are not on that portion, and some of the clearing is not on it; there is an undergrowth on the cleared land; it would not be as hard to clear as any other part of the bush; as far as I can judge, half the clearing is on the selection; the receiving-yard is not fit to hold stock; the other yards are fit for use; I cannot say how long they have been erected.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

A. G. KEITH.

*John Sedley Futter*, sworn, states: I know the selection of 40 acres taken up by William Goodwin; it is on the east boundary of Salting's 320 acres, and is contained in a portion of 86 acres applied for and remeasured as an improvement purchase for the lessee of the Bouyeo Run; I went to reside at Beggan Beggan, in May, 1875, and the selection had been taken up by Goodwin in the previous February; at that period the improvements on the 86 acres were drafting-yards (130 rods), of the value of £30; a receiving-yard, £10; it was worth that money in 1875; 10 acres had been grubbed, worth £30; there were about 200 rods of two-rail split fencing, worth £29; these improvements had been effected by the lessees of the Bouyeo Run, and were in existence at the date of Goodwin's selection.

Cross-examined: A selection of 100 acres which I took up, and which included a portion of the land subsequently selected by Goodwin, was cancelled, as it was shown that there were sufficient improvements on the land to bar selection; I have at times repaired the outside fences; on the 40 acres applied for by Goodwin are 106 rods two-rail fencing, worth £16; there are 6 acres of grubbing, worth £18.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

J. S. FUTTER.

*John Goodwin*, sworn, states: I am the father of William Goodwin, and know his selection taken up on 11th February, 1875; I also know the position of 86 acres applied for by the lessees of the Bouyeo Run; my son's selection is comprised in that portion; at the date of my son's selection the following improvements were on the 40 acres he took up, viz.:—105 rods of two-rail split fencing worth £10, the grubbing of twenty-four trees worth £2; there were no other improvements; I saw some yards on the other portion of the 86 acres, but cannot value them; I swear that there were not, at the date of my son's selection, improvements on the 86 acres of the value of £1 per acre.

Cross-examined: Since the 40 acres have been selected some of the land has been cleared on about 4 acres, which I value at £5 per acre; the timber has been ringbarked, worth 1s. per acre; the dead timber has been gathered and burnt off, worth 7s. per acre; there is dog-log fence on the north and west boundary, worth 10s. per chain—about 18 chains; I removed the two-rail fencing, and put it up on another boundary of the selection; there is also a hut, worth from £4 to £5.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

JOHN GOODWIN.

*Edward Murphy*, sworn, states: I know William Goodwin's conditional purchase of 40 acres; I have known the land for the last twenty-five years; at the date of Goodwin's selection there were the following improvements upon it, viz.:—210 panels of two-rail fence worth 1s. per panel, about twenty-four trees had been grubbed worth 2s. per tree; these were all the improvements on the 40 acres; within the last week I have inspected the land and saw the improvements I have detailed; I had seen the improvements before; there are some improvements on adjoining land—some sheep-yards constructed of split four-rail fencing—143 panels, worth 5s. per rod; there are the remains of a receiving-yard, now valueless; there is some grubbing, worth about £2.

Cross-examined: There appears to be more land grubbed outside Goodwin's selection than inside; there are about 6 acres grubbed on the selection, including that effected by the lessees of the run; I cannot say that the land cleared by Goodwin is grubbed; out of the 6 acres of clearing I am of opinion that about 5 acres have been cleared by Goodwin; the clearing

clearing by the lessees is comprised in about 1 acre; grubbing and clearing are worth £5 per acre; I value Goodwin's clearing at £5 per acre; when the yards were erected the fencing was worth 13s. per rod; this was in 1854; the land comprised in the yards had been cleared; the receiving-yards were put up more recently; there are about 50 rods of fencing in them; I do not know the value of it.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

EDWARD MURPHY.

*Patrick Callan*, sworn, states: I know William Goodwin's conditional purchase of 40 acres, and remember it being taken up by him; at that time the following improvements were upon the 40 acres; some grubbing, about 2 acres, worth £2 per acre; 210 pannels of two-rail split fencing, worth 2s. per rod; on land outside the 40 acres are some old sheep-yards about 71½ rods, worth 5s. per rod; there are about eighty-eight pannels of two-rail fence worth 2s. per rod; I saw where there had been a receiving-yard, now valueless; there is a line of fencing running from the sheep-yards to the old dam, worth the same price per rod as the other I have described; I do not know its length, but is about the same as the eighty-eight pannels; the total value of the two-rail fencing would be £19 6s.; the fencing in the yards is worth £17 15s.; there are about 6 acres cleared altogether; the two-rail fence is worth more than a dog-leg fence; I do not know the value of dog-leg fencing.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

PATRICK CALLAN.

*Samuel Billingsley*, sworn, states: I reside at Cooney's Creek, and know William Goodwin and his conditional purchase of 40 acres; I remember his taking it up; at that time there were some improvements upon it, consisting of the grubbing of a few trees, worth £2; 300 pannels of two-rail split fence, worth 2s. per rod; on the adjoining land are some sheep-yards of four-rail split fence, 5s. per rod for about 143 pannels; some trees have also been grubbed outside Goodwin's fence, worth £2 or £3.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

SAMUEL BILLINGSLEY.

*Michael Goodwin*, sworn, states: I am a brother of William Goodwin, and know his conditional purchase of 40 acres; at the time he took it up the following improvements were upon it, viz.:—210 pannels of old two-rail fence worth 1s. per rod; twenty-four trees had been grubbed, worth 1s. per tree; outside the selection were some old sheep-yards, worth £16 or £17; a few trees grubbed about sixteen, worth 1s. per tree.

Taken and sworn on this 30th October, 1880,—

GEORGE O'MALLEY CLARKE, Appraiser.

MICHAEL GOODWIN.

#### No. 42.

#### Memorandum by Mr. L. G. Thompson.

Cottee and Allan v. Goodwin.

PORTION 352 of 40 acres was surveyed under conditional purchase 75-71, but the measurement not having frontage to Cooney's Creek was regarded as objectionable, and on this account was protested against by the selector. (*Vide* 78-4,429). The land, however, outside the portion was, with the portion itself, included in a measurement of 86 acres (numbered 370), made in satisfaction of the lessee's improvements, valued by the surveyor at £110 10s. In view of this fact the conditional purchase was declared void, but, at the instance of the selector, the question as to the value of the improvements was submitted to appraisal. Mr. Clarke, it might appear, has directed the investigation rather to the improvements embraced within the boundaries of portion 352 than to those which might fall within the limits of the selection under a fresh survey; and it may not be considered undesirable to submit the question to the appraiser, whether he appraised the whole of the improvements with the same amount of care as he did those which he has specified in the body of his award. Should this inquiry be considered unnecessary under his statement in the letter attached to the award that he valued the improvements at £97, there would not appear any ground for altering the action already taken, or refusing the lessee's claim to purchase. The appraisal was made in accordance with the regulations.—L.G.T., 19/11/80.

#### No. 43.

#### Memorandum by Mr. J. Carroll, Agent for W., M., and E. Goodwin.

215 Macquarie-street, Sydney, 22 November, 1880.

WILLIAM GOODWIN held for five years his 40 acres conditional purchase 75-71, fulfilled all the conditions, paid instalment of deposit, and interest, &c., to date.

The applicant took exception to the measurement, as it did not give him a frontage to the creek as he had expected. On the 14th February, 1879, he was informed per letter by the Chief Commissioner that the land would be remeasured by Mr. Licensed-Surveyor Shoobert, with a frontage to the creek. The land has not been remeasured. The first and only measurement was a violation of the regulations, inasmuch as Cooney's Creek is what is known as a "*frontage creek*," and therefore the portion should have a frontage to it.

If measured as required none of the lessee's improvements would be included.

\*Even as measured the improvements are not of a value to bar selection.

†The lessee must have also considered the land improved when he selected the whole area available on the 1st June, 1876. His application was disallowed because it embraced my client's measured portions. Failing thus to become possessed of his neighbour's justly acquired property, ‡Futter, nothing daunted nor abashed, applies to purchase the land, after being five years held by Goodwin in virtue of improvements. As a matter of justice, §I contend that this second application should be refused also, for these reasons—because it should have been made five years previously; and, secondly, because the land was conditionally purchased previous to the improvement purchase application. ¶I further contend that William Goodwin's application.

See covering B.C.

See covering B.C.

\* See Mr. Appraiser Clarke's award and report, also covering B.C.

† The lessee applied to purchase under section 22, in the same manner as other lessces who have been allowed to select land on their leaseholds, that they may have improved land that was open to him to purchase in right of improvements.

‡ The lessee objected to the conditional purchase by letter to the Surveyor (25th March, 1879), who had been directed to make the survey of Goodwin's conditional purchase.

§ I question whether it is necessary for a lessee to enter a formal protest when his property or rights are interfered with, or that he forfeits such property or rights by failing to enter such a protest.

¶ See my B.C. covering this letter; also Mr. Lindsay Thompson's memo. covering Mr. Appraiser Clarke's award.

application, conditional purchase 75-71, cannot be legally voided, the improvements being stated by appraisement to be not more than £33, and being a conflicting case must be considered on its merits, as compared with those of the improvement purchase application. And if measured with a frontage to the creek, as the Government promised, and as the Regulations justify, \*there would not be a particle of improvements on the land, beyond those erected by the selector; and I may here mention that my client, feeling assured that his conditional purchase would have, as he intended, a creek frontage, commenced to improve on the very bank of the creek, which was one reason why the Department issued fresh instructions to Mr. Licensed-Surveyor Shoobert to remeasure. In defence of my client, I must also state that the Government has compromised itself to Goodwin in various ways, and justice demands that his application should stand. Futter should not be encouraged in his cowardly and repeated efforts to oust him, changing his tactics, after failing in one direction he renews his attacks in another. If Futter were to succeed in this instance, no *bona fide* selector in the country would be safe from the lessees of runs, not even many years after the former had settled down in homes. In conclusion, I now leave the case in the hands of the Department, whose good sense I have no doubt will award an impartial and just decision.

JAMES CARROLL,

Agent *pro* William, Michael, and Ellen Goodwin.

*Minutes on No. 43.*

Submitted in connection with memo. covering Ms. 80-16,895.—L.G.T., 26/11/80. A report as to the survey is requested. Goodwin claims a frontage to the creek.—C.O., 1/12/80. Urgent. Mr. Finch.—H.A.G.C., 2/12/80.

No. 44.

Memorandum by the Deputy Surveyor-General.

Goodwin *v.* Futter (for Cottee and Allan, Lessees).

GOODWIN described his conditional purchase 75-71 as adjoining Salting's 320 acres, "to run east and north." This description is vague, as it gives no starting point, and consequently the land could not be located in any particular part of the east boundary of Salting's 320 acres. However, the application was forwarded to the surveyor who provisionally measured portion 352. This survey was objectionable on account of its not fronting Cooney's Creek, and was objected to by applicant for the same reason. It also appeared to exclude (on the north) some of applicant's improvements. A resurvey was therefore directed, and then for the first time the Department became aware of the existence of the lessees' improvements, which the surveyor had omitted to make any special reference to. If the lessees' improvements were not in existence, or if they were insufficient in value to bar selection, Goodwin's conditional purchase 75-71 would be remeasured fronting Cooney's Creek, as shown by red lines starting at points A and B on tracing, with 79-16,059 conditional sales, or with similar lines some 10 chains further north, so as to embrace the "lumpy" and "partly cleared" land. The land upon which the lessees' improvements stand comprises an area of 86 acres, which from Mr. Appraiser Clarke's report appear to be improved by the lessee to the value of £97. This sufficiently confirms the report of Mr. Licensed-Surveyor Hosie, and supports the view taken by the Minister in his minute of 29th September, 1879, in accordance with which Goodwin's conditional purchase 75-71 was declared void. I would draw attention to my memoranda in the margin of Mr. Carroll's letter, 80-49,649; and in regard to two of the points raised in that letter, I may respectfully state that when Goodwin was informed by letter of 14th February, 1879, that his conditional purchase would be remeasured, and the Department was not aware of the fact that the land was "improved," and that, consequently, the conditional purchase was illegal, also that the lessees' improvements protect an area equivalent to their value, and consequently the land claimed by Goodwin, although not in itself "improved," is not open to conditional purchase, as it forms part of the larger area protected by the lessees' improvements. The 86 acres have been measured as portion 370, in satisfaction of the lessees' application (I.P. 78-1,948) to purchase under 2nd section of Act 1875, and action on the survey is awaiting decision on this case under Mr. Appraiser Clarke's award.

R. D. FITZGERALD,

(For Surveyor-General),

B.C., 9th December, 1880.

No. 45.

Mr. J. Carroll to The Under-Secretary for Lands.

Sir,

215, Macquarie-street, Sydney, 16 December, 1880.

With reference to the case noted in the margin, I have the honor to supplement my memorandum of the 22nd November ultimo with a few further facts in support of my client's claim, and to protest against the late appraisement, among other, for the following reasons:—

1. At the Court of Appraisement Futter and his witnesses included in their valuation all the improvements on the land indiscriminately, whereas they should have omitted £40 worth belonging to Goodwin, and declared by him to have been erected in compliance with the provisions of the 18th section of the Crown Lands Alienation Act of 1861.
2. Some of Futter's improvements were erected since the land was selected, and therefore to the extent of the value of those subsequent improvements there is no legitimate bar to the conditional purchase.
3. The improvements referred to in paragraph 2 comprise ninety-one panels of a two-rail fence, with three wires, and worth about £15. A two-rail fence of 191 panels, which was about thirty years old, and scarcely worth anything at the date of selection, had been recently repaired by replacing old rails and posts by new ones, and adding three wires along the whole of it. The value of the latter item I am not prepared to state.
4. If those items and Goodwin's own improvements be deducted from the amount of the award, the remainder will be very small indeed, very far below the minimum. In

\* The improvements supposed to have been effected by the conditional purchaser, and excluded from portion 352 are those subsequently found to have been effected by the lessee. The surveyor showed no improvements on the bank the creek. Goodwin's improvements are valued, May, 1879, by Mr. Licensed-Surveyor Hosie, at £21.

See enclosure to No. 12.

See No. 10.

Goodwin *v.* Futter, 80-49,649 C.S.

In view of the above facts I respectfully contend that the appraisalment is *informal*, and I therefore request that a fresh appraisalment be instituted at an early date, and that some competent officer of the Government, say, the Conditional Purchase Inspector of the district, or the nearest licensed surveyor, be appointed to inspect the improvements and give evidence at the Court of Appraisalment. I would further add that if there be any doubt as to my client's title to the second selection, surely there can be none to the first. Is it because Goodwin objects to the survey that he is to be deprived of the land altogether? Or is it for the equally insufficient reason that it contains £33 worth of improvements? Or is it because the *contiguous* improvements, if added to those selected, would (according to the appraisalment) be over £40? To attempt to answer the first two questions would be nonsensical; and without deigning to reply to the last question, for I have not so much forbearance, I ask a further query—Can the contiguous improvements be *legally* added when not embraced by the application? The absurdity of this question is also self-evident. Upon what grounds, then, I ask again, can the first application be refused?

In conclusion, I must reluctantly state that, so far, my client has received but scanty justice, and I beg to resubmit the case for your most earnest consideration.

I have, &c.,  
JAMES CARROLL,  
Agent *pro* W. GOODWIN.

*Minutes on No. 45.*

It does not appear to me that there is any ground for revoking the cancellation of Goodwin's conditional purchase. However, as Mr. Commissioner Clarke's appraisalment is questioned in reference to some of the improvements valued, he might possibly be asked to report on the allegation made by Mr. Carroll in Goodwin's interest. With regard to the question raised as to Goodwin's conditional purchase not being considered objectionable when the first survey was made, and the allusion to a promise of resurvey, it is pointed out that the Department was not, although it appears to me that it should have been, aware of the existence of the lessee's improvements.—C.O., 22/12/80. Approved.—J.H., 29/12/80. G. O'Malley Clarke, Esq., Commissioner, Young.—L.G.T. (for the Under-Secretary), B.C., Lands Department, 17th January, 1881. To be returned. Urgent.

No. 46.

Memorandum by Mr. G. O'Malley Clarke.

Cottec and Allan v. Goodwin.

Memorandum on Mr. Carroll's allegations respecting the appraisalment.

1. The statement that Mr. Futter and his witnesses included in their valuations *all* the improvements on the land in question indiscriminately, is, to say the least, very disingenuous. There is no reference by those persons to any improvements believed by them to have been effected by Goodwin, and as a matter of fact no improvements constructed by him were included in the award.

2. None of the lessee's improvements erected since the land was selected were included in the award, which was based on and referred to those actually in existence at the date of Goodwin's conditional purchase. The whole of the improvements on the portion of 86 acres were as carefully inquired into and considered as those on the area embraced by Goodwin's selection as at present measured. The question of the improvements which might fall within the limits of a fresh survey formed no element in the appraisalment. I apprehend the lessee's improvements must be considered to include the whole area measured in satisfaction thereof.

GEORGE O'MALLEY CLARKE,  
Young, 20/1/81.

*Minutes on No. 46.*

Under this report the action already proposed should, it is submitted, be taken. (*Vide* enclosed memorandum.)—L.G.T., 11/3/81. The cancellation of the conditional purchase should be upheld, and the improvement purchase dealt with on its merits. The refund voucher returned by Mr. Goodwin should be again forwarded to him.—C.O., 12/3/81. Approved.—J.H., 16/3/81. Writer informed, 13/4/81.

No. 47.

Mr. E. Brown to Mr. J. Carroll.

Sir,

Department of Lands, Conditional Sales Division, 13 April, 1881.  
Referring to your letter of the 16th December last, protesting against the value of certain improvements as fixed by Mr. Commissioner Clarke in his appraisalment of the case noted in the margin, I am directed to inform you that your objections have been referred to Mr. Clarke, and after his report thereon the Minister for Lands has decided that the cancellation of the purchase in question noted in the margin should be upheld.

I am, &c.,

EDWARD BROWN,  
(For the Chief Commissioner.)

P.S.—I enclose refund vouchers for deposit, which has been returned.

No. 48.

Mr. W. L. Murdoch to W. Forster, Esq., M.P.

Honorable Sir,

Cootamundra, 17 September, 1881.

See enclosure.

I have the honor to enclose particulars in a case of Futter against Goodwin. My client, John Goodwin, has asked me to write to you and ask if you can help him in the matter. You will see by the particulars, that an Appraisement Court has been held and the case been virtually closed by the Lands Department who have ordered the selections to be cancelled. What my client wants, if he can possibly get it, is a fresh inquiry to be ordered, and if it could be held upon the ground where the appraiser could see for himself and have the different matters pointed out to him, it would be more satisfactory to all parties, and Goodwin has not the slightest doubt, if such a course is taken, and the matter fairly inquired into, that he will be able to prove himself in the right and obtain justice. It might be said that when the case has been closed, such as this one has, the question cannot be reopened, but I have been told of a case (the name I am not aware of) that was so closed but reopened through the instrumentality of Mr. Garrett. I feel sure that gross injustice has been done in this case, and am of opinion that if you would kindly use your great interest in the matter, and cause inquiry to be made into the case, it would be the means of justice being done to one of your constituents, who otherwise will be turned out of the home he has worked for during the last six years. I admit that the surveyor's report is against my client, but we can get over that by bringing good and substantial evidence to prove that the surveyor included improvements made by Futter after the land was selected by my client. I was in Sydney last week, and called at the Assembly, but was never fortunate enough to see you. In case you should want to see the papers in the Lands Office, the reference No. is S1-1,220 Misc. My client wishes me to forward the enclosed letter. Trusting that you will give this case the benefit of your valuable consideration.

I have, &c.,  
W. L. MURDOCH.

*Minutes on No. 48.*

The case has been fully investigated by Mr. O'Malley Clarke, and in view of his award, which is regular, the matter does not appear to be one calling for further consideration.—J.M.G., 23/9/81. See also decision on S1-1,220.—F.H.W., 24/9/81. This case was determined by appraisement. The award made by Mr. Commissioner Clarke is regular and binding, final, and conclusive on all parties unless frauds can be proved, which is a matter for the Supreme Court to deal with.—C.O., 24/9/81. Mr. W. Forster, M.P., should be informed fully to that effect, and further, that Mr. O'Malley Clarke was the appraiser, and that that gentleman has made two reports to the Department on the subject.—J.H., 27/9/81. Mr. Forster, M.P., informed, 30th September, 1881.

*[Enclosure to No. 48.]*

ON February 11th, 1875, William Goodwin selected 40 acres, described as follows:—County Harden, parish Beggan Beggan, adjoining the east boundary of Salting's freehold of 320 acres, to run east then south. This selection was surveyed in May, 1876, by Mr. Surveyor Shoobert, and had not been objected to until after declaration of residence and improvements had been made, and interest paid on the balance of purchase up to the receipt of voucher October, 1879. For the 40 acres, the rent was received for the year 1880. This selection not having been surveyed as applied for, which, if done so, would have given it a frontage to Cooney's Creek, and not getting such frontage by the first survey caused William Goodwin to write to the Lands Department about it and received a reply dated 14th February, 1879, to the effect that Mr. Surveyor Shoobert had been instructed to remeasure the conditional purchase so as to embrace improvements, and to give a frontage to Cooney's Creek. This, as a matter of fact, was never done, and the resurvey never made.

About three months after the survey by Mr. Shoobert, in May, 1876, of the selection of 40 acres, Michael Goodwin, son of William Goodwin, in order to secure a frontage to the creek, a part of which frontage the above described selection of 40 acres should have got, applied for a selection of 100 acres described as follows:—Michael Goodwin, 100 acres, county Harden, parish Beggan Beggan, having a frontage to Cooney's Creek, and adjoining the east boundary of William Goodwin's conditional purchase of 40 acres, selected 14th September, 1876. A short time after the last selection was made, Mr. Futter commenced to erect a fence on it. Michael Goodwin gave him notice that the land belonged to him, and to desist from fencing. In reply, Goodwin received a note saying that the land was selected long before Mr. Goodwin had lodged his application. This was the first intimation the Goodwins ever had that the land was disputed, and the dispute then being about the 100 acres selected by Mr. Goodwin, nothing whatever being said about W. Goodwin's selection of 40 acres. Futter made his application for a selection previous to Mr. Goodwin and was as follows:—John S. Futter, 1st June, 1876, 100 acres, parish Beggan Beggan, adjoining the south-east corner of his freehold 320 acres, portion No. 1, running east to the west boundary of portion No. 33 to the south boundary of Bollard's conditional purchase of 80 acres, and by that boundary west to the east of his said freehold. This application was void on account of its embracing a part, if not the whole, of W. Goodwin's 40 acres, which was surveyed before his Futter's application was made, and the description was wrong, as the 40-acre selection came between Futter and the land he wished to adjoin. Futter abandoned any claim he may have had under his application, and since Hosie made his survey has claimed the land on the ground that it was not free for selection owing to improvements. After repeated applications and a great deal of correspondence with the Lands Department, the 100 acres was in 1878 surveyed by Mr. Shoobert, who at the time was asked for whom the land was surveyed, he replied he did not know, that the Lands Department would decide that. The dispute could not be decided until surveyor's report sent for on 10th October, 1876, was received. The surveyor was D. S. Sheaffe, who never went on the ground at all. The 100 acres was alienated and transferred by Michael Goodwin to Ellen Goodwin, in December, 1877, or in January, 1878. In April, 1879, another surveyor (Mr. Hosie) went on the land and upset both W. Goodwin's 40 acres and Ellen Goodwin's 100 acres by resurveying the whole in a different form, for Futter as being protected according to his valuation by improvements made on the land before selection. At the time of this survey the Goodwins had no idea for what reason the resurvey was made. There was nothing further done in the matter until 7th June, 1879, when Ellen Goodwin received a letter from the Lands Department, informing her that the declaration of residence would have to be made, and balance of money due, or interest thereon, would have to be paid on or before the 14th December, 1879. These conditions were complied with, and an application was made for an extension of time for improvements to three years from date of survey. The money was received, awaiting decision of Minister for Lands in the matter in dispute; this was only in Ellen Goodwin's case.

After a further lapse of time, Ellen Goodwin received a voucher for refund of the deposit paid on 100 acres, accompanied by a letter stating that no land was available, as it was claimed by Cottee and Allen, lessees of the Bouyeo Run, by virtue of improvements made upon it. This voucher was sent back with a statement saying the land was available as there were no improvements upon it to bar selection.

In March of 1880, another instalment of 1s. per acre was paid on the 100 acres. In April, 1880, or about that time, William Goodwin received a letter from the Department of Lands, informing him that Mr. Surveyor Hosie's report stated that sufficient improvements were made years ago on the land by the lessees of the run, Messrs. Cottee and Allen, and was claimed by them under the improvement clause. The letter also stated that if he (Goodwin) thought the improvements over-valued, it was optional with him to refer it to appraisement which was done. The appraisement took place on the 30th October, 1880, in the Murrumburrah Court-house, before G. O'Malley Clarke. Up to that time Ellen Goodwin was not aware what quantity of land was in the piece in dispute. As a matter of fact it was 86 acres. The improvements

improvements upon this, together with William Goodwin's 40 acres, were valued in one. For Goodwin's, there were five witnesses—three of them, Samuel Billingsley, Edward Murphy, and Patrick Callen, swore to having known the improvements, which consist of fencing and a few trees grubbed, and the remains of old sheep-yards for the last thirty years, and that the improvements on both pieces did not amount to anything like £40. Two more also swore that the value of the improvements on both pieces was much under £40. For Futter there was only a man named Keith examined besides himself, what amount they valued the improvements at Goodwin is not aware. On being cross-examined, Keith could not swear positively to the value of the improvements, but only to the best of his belief. Neither could he say who effected the improvements, whether by the Goodwins, or by Futter, or by the lessees of the run, as he had never seen the land until a few days previous to the appraisement, and it was then at the request of Futter he did so. Goodwin asked for a copy of the depositions but could not get them. The appraiser stated in Court that Mr. Surveyor Hosie's report would be void for not attending the Court to prove value of improvements. It can be proved that after the land was selected Futter caused improvements in the shape of repairing the sheep-yards, &c., to be made, and there can be no doubt that Surveyor Hosie included all the improvements in his survey. The whole question is whether the land at the time of selection by Goodwin was barred from selection by value of improvements notwithstanding Surveyor Hosie's report. Goodwin can bring enough proof to place the matter beyond all doubt, that when he selected he had a perfect right to do so, and people who have known the place for the last thirty years will swear that up to the time of Goodwin selecting it there were not sufficient improvements to bar selection.

---

No. 49.

The Under-Secretary for Lands to W. Forster, Esq., M.P.

Sir,

Department of Lands, Sydney, 30 September, 1881.

With reference to Mr. W. Murdoch's letter of the 17th instant, presented by you to this Department, No. 48. requesting a further inquiry in the matter of the appraisement of the improvements on certain land in dispute between Messrs Futter and Goodwin, situated in the parish of Beggan Beggan, county of Harden, I am directed by the Secretary for Lands to inform you that the matter has been fully investigated by Mr. Commissioner G. O'Malley Clarke, who has furnished two reports in connection therewith, and his award being regular is binding, final, and conclusive on all parties, unless fraud can be proved with regard thereto. In view of which the case cannot be reopened.

I have, &c.,  
 CHARLES OLIVER,  
 Under Secretary.

No. 50

Questions and Answers in Legislative Assembly.

Goodwin v. Futter.

Questions.—

26 October, 1881.

Mr. William Forster asked the Secretary for Lands in the matter of Goodwin v. Futter, lately the subject of correspondence between myself and the Department,—

- (1.) Is it a fact that Goodwin claimed under, or held, a prior conditional purchase?
- (2.) Is there any probability or possibility that a fresh appraisement will be ordered or permitted?
- (3.) Have fresh appraisements never taken place in such cases?
- (4.) Is it intended by the Government to compensate Goodwin in any way?

Answers.—

Mr. Hoskins answered,—

- (1.) The claims of Goodwin, dealt with in the correspondence to which the Honorable Member makes reference, are based on his conditional purchase of the 11th February, 1875, and that of Michael Goodwin of the 14th September, 1876.
- (2.) The appraisement already made is final.
- (3.) Fresh appraisements have in some instances taken place when the first appraisements have been found to be, for some reason, irregular.
- (4.) There is no intention of compensating Goodwin, who selected land forming part of an area containing improvements the property of other parties.

---

APPENDIX.

Memorandum by Surveyor Wild A. Shoobert.

WHEN I went upon the ground to make this survey, the applicant, William Goodwin, was present with his father, who acted as spokesman for him. Mr. John S. Futter, the owner of Beggan Beggan Station, was also on the ground, to protest against the survey being made to include his valuable sheep-yards, claimed as improvements by Goodwin. Now, as a matter of fact, Goodwin had not, nor ever had a shadow of a claim to these improvements, the same having been erected by the representatives of the late S. K. Salting, the then proprietors of the station, and sold by them to John S. Futter. Goodwin's actual improvements consisted of a bark hut, worth £3. When these people were on the ground it was arranged between them that the survey should be made as it was, to include the hut only, and exclude the valuable sheep-yards, the property of the station-owner: and Goodwin expressed his satisfaction at the matter being amicably settled. Under these circumstances, I cannot think that I was in error in measuring as I did, except in not running the northern boundary of Goodwin's selection, to the creek, and adopting it as a frontage, which should have been done no doubt. If these facts have not been brought under your notice before, I now respectfully submit them for your further consideration, viz., if I am to include J. S. Futter's improvements on Goodwin's selection.

I have, &c.,  
 WILD A. SHOOBERT.

SYDNEY: THOMAS RICHARDS, GOVERNMENT PRINTER.

1882.

1882.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE  
LEGISLATIVE ASSEMBLY.

VOTES No. 13. TUESDAY, 12 SEPTEMBER, 1882.

7. MRS. CLYNE'S CONDITIONAL PURCHASE :—Dr. Ross moved, pursuant to Notice, "That" this House will, on Friday next, resolve itself into a Committee of the Whole to consider an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Estimates for 1883 a sum not exceeding £1,000, to compensate Mrs. Clyne for losses sustained by her through having been deprived of a Conditional Purchase at Burrawong, in the County of Gordon.

Debate ensued.

Mr. Copeland moved, That the Question be amended by the omission of all the words after the word "That," with a view to the insertion in their place of the words "a Select Committee be appointed, with power to send for persons and papers, to inquire into and report on the claim of

"Mrs. Clyne for losses sustained by being deprived of her Conditional Purchase."

"(2.) That such Committee consist of Mr. Joseph P. Abbott, Mr. Cooke, Dr. Ross, Mr. Melville, Mr. Kerr, Mr. Jacob, Mr. Martin, Mr. Burns, Mr. G. A. Lloyd, and the Mover."

Question,—That the words proposed to be omitted stand part of the Question,—put and negatived.

Question,—That the words proposed to be inserted in place of the words omitted be there inserted,—put and passed.

Question then,—

(1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report on the claim of Mrs. Clyne for losses sustained by being deprived of her Conditional Purchase.

(2.) That such Committee consist of Mr. Joseph P. Abbott, Mr. Cooke, Dr. Ross, Mr. Melville, Mr. Kerr, Mr. Jacob, Mr. Martin, Mr. Burns, Mr. G. A. Lloyd, and the Mover,—put and passed.

VOTES No. 17. TUESDAY, 19 SEPTEMBER, 1882.

7. MRS. CLYNE'S CONDITIONAL PURCHASE :—Dr. Ross (*by consent*) moved, without Notice, That the correspondence in reference to the Conditional Purchase of Alexander Clyne, laid on the Table of the House on 23rd August, 1881, the Petition of Susan Clyne, presented on the 15th November, 1881, and the Petition from inhabitants of the County of Gordon, presented on the 16th November, 1881, be referred to the Select Committee now sitting on "Mrs. Clyne's Conditional Purchase."

Question put and passed.

VOTES No. 24. TUESDAY, 3 OCTOBER, 1882.

3. MRS. CLYNE'S CONDITIONAL PURCHASE :—Ordered, on motion of Dr. Ross, that the following Message be carried to the Legislative Council :—

MR. PRESIDENT,

The Legislative Assembly having appointed a Select Committee on "Mrs. Clyne's Conditional Purchase," and the Committee being desirous to examine the Honorable Francis Lord, a Member of the Legislative Council, in reference thereto, requests that the Legislative Council will give leave to its said Member to attend and be examined by the said Committee on such day and days as shall be arranged between him and the said Committee.

*Legislative Assembly Chamber,  
Sydney, 3rd October, 1882.*

VOTES No. 25. WEDNESDAY, 4 OCTOBER, 1882.

6. MESSAGES FROM THE LEGISLATIVE COUNCIL :—Mr. Speaker reported the following Messages from the Legislative Council :—

(1.) Mrs. Clyne's Conditional Purchase :—

MR. SPEAKER,

In answer to the Message from the Legislative Assembly, dated the 3rd instant, requesting leave for the Honorable Francis Lord, a Member of the Legislative Council, to attend and be examined before a Select Committee of the Legislative Assembly on "Mrs. Clyne's Conditional Purchase," the Council acquaints the Assembly that leave has been granted to its said Member to attend and be examined by the said Committee, if he think fit.

*Legislative Council Chamber,  
Sydney, 4th October, 1882.*

JOHN HAY,  
President.

**MRS. CLYNE'S CONDITIONAL PURCHASE.**

---

---

**REPORT.**

---

THE SELECT COMMITTEE of the Legislative Assembly appointed on the 12th September, 1882,—“with power to send for persons and papers, to inquire into and report upon the claim of Mrs. Clyne for losses sustained by being deprived of her Conditional Purchase,” and to whom were referred, on the 19th September, 1882, “the Correspondence in reference to the Conditional Purchase of Alexander Clyne, the Petition of Susan Clyne, and the Petition from Inhabitants of the County of Gordon,”—have agreed to the following Report:—

1. Your Committee having examined the witnesses named in the List, See List, page 9. whose evidence will be found appended hereto, find as follows:—

- (1.) That on the 14th April, 1877, Mr. Francis Lord, senr., through his agent, Mr. Ross, applied to purchase, in virtue of improvements, 87 acres of land on his Burrawang Run, in the county of Gordon.
- (2.) That after the necessary preliminary steps had been taken, the then Minister for Lands, by Minute of 2nd June, 1879, recommended Mr. Lord's application, which was approved by His Excellency the Governor on the 3rd of the same month.
- (3.) That, under date 13th June, 1879, it was notified in the *Government Gazette* that Mr. Lord would be permitted to purchase the land on compliance with the usual conditions.
- (4.) That the Deed of Grant for the land was delivered to Mr. Lord on 4th December of the same year.
- (5.) That Mr. Lord obtained the 87 acres through the fictitious valuation of his improvements by Mr. Surveyor W. B. Simpson, as the evidence and papers clearly show that the said improvements could not have been worth, at the outside, more than £20, whereas Mr. Simpson valued them at £87.
- (6.) That on 17th July, 1879, Mr. Alexander Clyne applied under the 13th section of the Crown Lands Alienation Act of 1861, to purchase 100 acres, which included the 87 acres that had about a month before been gazetted in favour of Mr. Lord, under the belief that he could legally do so, as there were not improvements to the amount sufficient to bar selection.
- (7.) That about a month after Mr. Clyne selected he was cautioned by Mr. Lord's agent not to continue improvements, as Mr. Lord claimed the land.

(8.)

- (8.) That by letter of 13th of October, 1879, from the Chief Commissioner of Conditional Sales, Mr. Clyne was informed that his application was declared void because of Mr. Lord's claim.
- (9.) That the improvements made by Mr. Clyne, up to his being cautioned, consisted of two log huts with bark roofs, valued at £6, and that the whole of his improvements effected during the three months from his selecting to the date of voidance was estimated by Mr. Surveyor Crouch, deputed by the Lands Department for the purpose, at £55 18s. 1d., and from the voidance to Mr. Clyne's death, which occurred in May, 1880, at £95 16s.—in all, £151 14s. 1d., since which last-mentioned date Mrs. Clyne has held possession and there have been no further improvements made.

2. Your Committee therefore, under all the circumstances of the case, recommend that Mrs. Clyne's claim be considered by the Government.

ANDREW ROSS, M.D.,  
Chairman.

No. 3 Committee Room,  
Sydney, 31 October, 1882.

---

PROCEEDINGS OF THE COMMITTEE.

TUESDAY, 19 SEPTEMBER, 1882.

MEMBERS PRESENT:—

Dr. Ross,		Mr. Burns,
Mr. Cooke,		Mr. Jacob.

Dr. Ross called to the Chair.

Entry from Votes and Proceedings, appointing the Committee, read by the Clerk.  
Committee deliberated.

[Adjourned to To-morrow, at half-past *Two* o'clock.]

WEDNESDAY, 20 SEPTEMBER, 1882.

MEMBERS PRESENT:—

Dr. Ross in the Chair.

Mr. Burns,		Mr. Martin,
Mr. Jacob,		Mr. Kerr.

Entry from Votes and Proceedings, referring Papers to the Committee, read by the Clerk.

Printed copies of the Correspondence in reference to the Conditional Purchase of Alexander Clyne, the Petition of Susan Clyne, and the Petition from Inhabitants of the County of Gordon, before the Committee.

Philip Francis Adams, Esq. (*Surveyor-General*), called in, sworn, and examined.

Committee deliberated.

*Ordered*,—That W. B. Simpson, Esq., and Henry A. Crouch, Esq., be summoned to give evidence next meeting.

[Adjourned to Tuesday next, at half-past *Two* o'clock.]

TUESDAY, 26 SEPTEMBER, 1882.

MEMBERS PRESENT:—

Dr. Ross in the Chair.

Mr. Burns,		Mr. Jacob,
		Mr. Cooke.

William Butler Simpson, Esq., called in, sworn, and examined.

Witness withdrew.

Henry Augustus Crouch, Esq. (*Acting District Surveyor, Orange*), called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

*Ordered*,—That Charles N. J. Oliver, Esq., and W. B. Simpson, Esq., be summoned to give evidence next meeting.

[Adjourned to To-morrow, at half-past *Two* o'clock.]

WEDNESDAY, 27 SEPTEMBER, 1882.

MEMBERS PRESENT:—

Dr. Ross in the Chair.

Mr. Burns,		Mr. Jacob.
------------	--	------------

Charles N. J. Oliver, Esq. (*Under-Secretary for Lands*) called in, sworn, and examined.

Witness *produced* Papers in the case of Lord v. Clyne, and *handed in* a copy of the Report of Mr. Surveyor W. B. Simpson on the improvements made by Mr. Lord on the land afterwards applied for by Mr. Clyne, and a copy of the Report of Mr. Surveyor H. A. Crouch on the improvements made by Mr. Lord and Mr. Clyne respectively on the same land, which were ordered to be appended. (*See Appendices A 1 and A 2.*)

Witness withdrew.

William Butler Simpson, Esq., called in, sworn, and further examined.

Witness withdrew.

Committee deliberated.

*Ordered*,—That Mr. William Ross, Mr. Henry Sherringham, and Mrs. Susan Clyne be summoned to give evidence next meeting.

[Adjourned to Tuesday next, at half-past *Two* o'clock.]

TUESDAY, 3 OCTOBER, 1882.

Dr. Ross in the Chair.

Mr. Burns,		Mr. Joseph P. Abbott,
Mr. Martin,		Mr. Cooke.
Mr. Jacob,		

Mr. William Ross (*Grazier*) called in, sworn, and examined.

Witness withdrew.

Mr. Henry Sherringham (*Farmer and Grazier*) called in, sworn, and examined.

Witness withdrew.

Mrs.

Mrs. Susan Clyne called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

*Resolved*,—That the Chairman move the House that a message be sent to the Legislative Council requesting leave for the Honorable Francis Lord, M.L.C., to attend and be examined by this Committee.

Re-assembling of the Committee to be arranged by the Chairman.

[Adjourned.]

TUESDAY, 10 OCTOBER, 1882.

MEMBERS PRESENT :—

Dr. Ross in the Chair.

Mr. Burns,

Mr. Cooke,

Mr. Jacob.

Entry from Votes and Proceedings, granting leave to the Honorable Francis Lord, M.L.C., to attend and give evidence before this Committee, read by the Clerk.

The Honorable Francis Lord, M.L.C. (*Grazier*), called in, sworn, and examined.

Witness withdrew.

James Greer, Esq. (*Solicitor*), called in, sworn, and examined.

Witness withdrew.

Committee deliberated.

Re-assembling of the Committee to be arranged by the Chairman.

[Adjourned.]

TUESDAY, 24 OCTOBER, 1882.

MEMBERS PRESENT :—

Dr. Ross in the Chair.

Mr. Jacob,

Mr. Burns.

Committee deliberated.

[Adjourned to Tuesday next, at half-past *Two* o'clock.]

TUESDAY, 31 OCTOBER, 1882.

MEMBERS PRESENT :—

Dr. Ross in the Chair.

Mr. Joseph P. Abbott,

Mr. Burns,

Mr. Jacob,

Mr. Copeland.

Mr. Jacob submitted Draft Report, which was read 1° as follows :—

“ 1. Your Committee having examined the witnesses named in the List, whose evidence will be found appended hereto, find as follows :—

“ (1.) That on the 14th April, 1877, Mr. Francis Lord, senr., through his agent, Mr. Ross, applied to purchase, in virtue of improvements, 87 acres of land on his Burrawang Run, in the County of Gordon.

“ (2.) That after the necessary preliminary steps had been taken, the then Minister for Lands, by Minute of 2nd June, 1879, recommended Mr. Lord's application, which was approved by His Excellency the Governor on the 3rd of the same month.

“ (3.) That, under date 13th June, 1879, it was notified in the Government Gazette that Mr. Lord would be permitted to purchase the land on compliance with the usual conditions.

“ (4.) That the Deed of Grant for the land was delivered to Mr. Lord on 4th December of the same year.

“ (5.) That Mr. Lord illegally obtained the 87 acres through the fictitious valuation of his improvements by Mr. Surveyor W. B. Simpson, as the evidence and papers clearly show that the said improvements could not have been worth, at the outside, more than £20.

“ (6.) That on 17th July, 1879, Mr. Alexander Clyne applied under the 13th section of the Crown Lands Alienation Act of 1861, to purchase 100 acres, which included the 87 acres that had about a month before been gazetted in favour of Mr. Lord, under the belief that he could legally do so, as there were not improvements to the amount sufficient to bar selection.

“ (7.) That about a month after Mr. Clyne selected he was cautioned by Mr. Lord's agent not to continue improvements, as Mr. Lord claimed the land.

“ (8.) That by letter of 13th October, 1879, from the Chief Commissioner of Conditional Sales, Mr. Clyne was informed that his application was declared void because of Mr. Lord's claim.

“ (9.) That the improvements made by Mr. Clyne, up to his being cautioned, consisted of two log gnyahs with bark roofs, valued at £6, and that the whole of his improvements effected during the three months from his selecting to the date of voidance was estimated by Mr. Surveyor Crouch, deputed by the Lands Department for the purpose, at £55 18s. 1d., and from the voidance to Mr. Clyne's death, which occurred in May, 1880, at £95 16s.—in all, £151 14s. 1d., since which last-mentioned date Mrs. Clyne has held possession and there have been no further improvements made.

“ 2. Your Committee therefore, under all the circumstances of the case, recommend that Mrs. Clyne's claim be favourably considered by the Government in regard to the improvements made by her late husband up to the date of voidance.”

Draft

Draft Report read 2° paragraph by paragraph.  
 Paragraph 1 read.  
 Amendment proposed (*Mr. Joseph P. Abbott*), To omit "illegally" in sub-paragraph 5.  
 Amendment put and agreed to.  
 Further amendment proposed (*Mr. Jacob*), To add at the end of sub-paragraph 5 the words  
 whereas Mr. Simpson valued them at £87."  
 Further amendment proposed (*Mr. Chairman*), To omit "gunyahs" in sub-paragraph 9 and  
 insert "huts."  
 Amendment put and agreed to.  
 Paragraph as amended agreed to.  
 Paragraph 2 read.  
 Amendment proposed (*Mr. Joseph P. Abbott*), To omit "favourably" in line 2.  
 Question,—That the word proposed to be omitted stand part of the paragraph,—put.  
 Committee divided.

Aye, 1.	Noes, 3.
Mr. Copeland.	Mr. Joseph P. Abbott, Mr. Burns, Mr. Jacob.

And so it passed in the negative.  
 Further amendment proposed (*Mr. Joseph P. Abbott*), To omit all the words after "Government."  
 Amendment put and agreed to.  
 Motion made (*Mr. Burns*) and Question,—That the Draft Report, as amended, be the Report of the  
 Committee,—put and passed.  
 Chairman to report to the House.

1882.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

MRS. CLYNE'S CONDITIONAL PURCHASE.

WEDNESDAY, 20 SEPTEMBER, 1882.

Present:—

MR. BURNS,  
MR. JACOB,

MR. KERR,  
MR. MARTIN,

DR. ROSS.

ANDREW ROSS, Esq., M.D., IN THE CHAIR.

Philip Francis Adams, Esq., Surveyor-General, called in and examined:—

1. *Mr. Burns.*] Have you any knowledge of the case that has been referred to this Committee? It has not come under my notice, being in a part of the office that I do not deal with. P. F. Adams,  
Esq.  
20 Sept., 1882.
2. Was it an officer of your department that reported upon the improvements that had been made by Mr. Lord before the selection was made by Mr. Clyne? Yes; two officers of my department have reported upon the value of the improvements. The first was the surveyor who measured the land, Mr. W. B. Simpson, and the second was Mr. Crouch, who acted as an officer of the Lands Department in appraising the value.
3. Have the reports of these gentlemen been brought under your observation? I saw them this morning for the first time, after I opened the notice summoning me to attend here.

TUESDAY, 26 SEPTEMBER, 1882.

Present:—

MR. BURNS,

MR. COOKE,

MR. JACOB.

ANDREW ROSS, Esq., M.D., IN THE CHAIR.

William Butler Simpson, Esq., called in and examined:—

4. *Mr. Burns.*] I believe you are a licensed surveyor? I am not now; I have been employed as a licensed surveyor and still hold a certificate, but I do not practise. W. B.  
Simpson,  
Esq.  
26 Sept., 1882.
5. Have you seen the petition that Mrs. Clyne has sent to Parliament touching the selection made by her husband? I have not read the petition; I know there has been such a petition.
6. You have some knowledge of the facts of the case? Yes.
7. Did you value the improvements made by Mr. Lord upon that land on behalf of the Government? In a general way I did. In those days it was the duty of surveyors to value improvements.
8. At what time did you make the valuation? I cannot remember the date; I have no papers with me. I happened to be in Sydney when the notice was sent summoning me to attend here, and it was sent down to me; consequently I have had no opportunity of referring to my notes.
9. Did you make the valuation after Clyne made his selection? I believe so, but I could not swear to that without some reference.

W. B.  
Simpson,  
Esq.  
26 Sept., 1882.

10. You cannot fix from memory the date when you made the valuation of the improvements? I really cannot.
11. *Mr. Jacob.*] Not even the year? I think it was in 1880, but without reference to my notes, or something, I would not like to say.
12. *Mr. Burns.*] You recollect the circumstance that Clyne had made a selection upon the same land? Yes.
13. And you are aware there has been a dispute between Clyne and Mr. Lord in respect to the land? Yes; I have been twice to the Supreme Court in consequence of it.
14. You are aware that the whole question turns upon the value of the improvements made upon this land before the selection was applied for by Mr. Clyne? Yes, I am aware of that.
15. What did the improvements consist of, as far as you recollect? There was some fencing, which was part of the run fencing, the run owned by Mr. Lord, and the rest was in the shape of clearing—cleared land.
16. How much of the land had been improved? How much cleared, do you mean?
17. Yes? There seemed to be some old land that had been cleared and also some new land. There was some new land to the amount of 7 or 8 acres on the top of the hill, and some other clearing. I do not remember the exact area, or even that I gave the quantity cleared in my report.
18. How much land had Mr. Lord in this particular place? I could not tell you that. It was close to his head station.
19. Do you recollect what report you made to the Government as to the value of the improvements? I believe I valued the fencing at £10, and the clearing at £77.
20. Will you look at the petition of Mrs. Clyne, and say whether the statement she makes as to the value of the improvements is correct? It is not correct.
21. Is her statement correct as to the amount of your valuation of the improvements? Yes, £10 and £77.
22. *Mr. Jacob.*] Do you, upon your oath, now say that the improvements were worth the valuation you then put upon them—£1 per acre for 87 acres? I do, as I valued them; they were equal to the amount.
23. There is a petition here from inhabitants of the County of Gordon, which states “that the said Francis Lord, to the knowledge of your petitioners, had not improved the said land to over the value of £12 or £14”—is that correct? No, I think it is ridiculous.
24. You are satisfied your valuation was a correct one? Yes; I made it on no other principle.
25. You say you think you made your valuation in 1880—? I could not state the date. Of course if I had my papers I could do so.
26. Would a Gazette notice be issued, approving of Mr. Lord’s application to purchase in virtue of improvements, before you had made your valuation? No.
27. Then your valuation must have been made before the 13th of June, 1879, which is the date of that notice? Yes, I presume so. The ordinary course was that I was called upon to value the improvements, when directed to survey the land. I was constantly at work at that time on Mr. Lord’s run, and saw the improvements before I knew I would have to value them. The fact is that Mr. Lord put men on for the purpose of securing several lots of land by improvements, and this was one of the blocks.
28. Your valuation must have been made before June, 1879? Yes, they would hardly issue that notice from the department without having some appraisalment of the land and improvements, from me or someone else.
29. *Chairman.*] Do you know when Mr. Lord, the lessee of the run, put in his application for this improvement purchase? No, I cannot remember the date.
30. Would the applicant in his application specify the improvements in virtue of which he desired to purchase the land? Yes, I believe he specified his improvements.
31. From your knowledge, could you specify what the improvements consisted of, as stated in Mr. Lord’s application? I understood that clearing was the main improvement; I am speaking only from memory.
32. According to these papers, Mr. Lord, on the 14th April, 1877, applied for permission to purchase this land, and specified that his improvements consisted of “9 acres of cultivated land, a fence, partly three-rail and one wire, partly brush fence, and ringbarking 50 acres.”
33. And now you have stated that the improvement consisted of clearing; how can you reconcile the discrepancy? As I said before, I am only speaking from memory. If I saw the paper containing that statement, I would know if it was the paper I received.
34. Would that paper be placed in your hands? Yes, I believe it was; it went with the instructions to survey.
35. How can you reconcile your statement with Mr. Lord’s description of his improvements? There may have been some discrepancy.
36. From your recollection, was there any discrepancy as to the number of the improved portion? I understood that the application was for unmeasured land, which would have no number.
37. What was the number of that portion when you gave in the measurement? I cannot remember; the plan will show the number.
38. Can you recollect whether your number coincided with the number given by the applicant, or was it different? I cannot say. In the multitude of things I had to do in that way, it is impossible for me to remember all these matters.
39. Did you appraise the improvements on this land previous to having received any communication from the Department respecting it? I am not sure whether I had the description actually in my possession at the time.
40. Did you value these improvements prior to the receipt of any communication from the Lands Department? I cannot say; I was surveying about there on several adjoining pieces, and I may have made some notes of what Mr. Lord’s improvements were.
41. *Mr. Cooke.*] Is it usual for surveyors to report sometimes from memory and general knowledge of the land? Yes, quite usual.
42. Did you go specially to visit this area of land before reporting upon it? I could not answer that question. I may have noticed it at the time I made the adjoining surveys, and afterwards finished the survey and sent it in. That land was surrounded on three sides by my own surveys, so that I may have measured it before I knew of this application. I know well that I saw the improvements.
43. *Chairman.*] What induced you to make the valuation of the land? Because it was the ordinary use of business, that when we sent a plan in we sent in a report of the value of the improvements.

W. B. Simpson, Esq. 26 Sept., 1882.

- 44. Do you think it likely you could have made a report from memory without going specially to survey the land? It might have been so. Since I received this notice to attend here I have not been at home, so that I have had no opportunity of refreshing my memory.
- 45. *Mr. Burns.*] If you got all the papers from the Lands Office, could you answer any question then? Yes; or if I were to see my own depositions in the Supreme Court.
- 46. *Chairman.*] Do you remember the result of the case? I believe they gave it against Clyne.
- 47. Was it on a point of law or on the facts? I could not say; I gave my evidence and went away.
- 48. You were present when the Jury brought in their verdict? Yes.
- 49. What was the nature of that verdict? I could not tell you, except that it was in favour of Mr. Lord; but I believe the Jury said the improvements were not up to the amount required.
- 50. *Mr. Jacob.*] Were you examined as to the value of the improvements? Yes.
- 51. Did you swear that the improvements were worth £1 an acre for the land sold to Mr. Lord? Yes, I believe I did; I believe that was the substance of my evidence.

Henry Augustus Crouch, Esq., called in and examined :—

H. A. Crouch, Esq. 26 Sept., 1882.

- 52. *Mr. Burns.*] Are you a licensed surveyor? I am Acting District Surveyor of the district of Orange.
- 53. Have you at any time, on behalf of the Government, examined the improvements made upon the land selected by Alexander Clyne, which was under lease at the time, I believe, to Mr. Lord? I have.
- 54. At what time? I believe it was about the last day or two of November, or early in December, 1881.
- 55. Did you identify the land as the selection that had been made by Mr. Clyne? Yes.
- 56. Did you make a careful inspection of the improvements? I did.
- 57. What was your estimate of the value of the improvements? At the date of my inspection I think my valuation was about £150; I have a copy of my report, which I presume I may look at. I reported by letter, dated 8th December, 1881. I was directed in my instructions to report upon the improvements effected within the three months between the taking up of the selection on 17th July, 1879, and its being declared void, which was on the 13th October, 1879, and also as to the improvements effected subsequent to that date.
- 58. Had your valuation any reference to the improvements made by Mr. Lord before the selection was taken up by Mr. Clyne? No; to make the matter clear, I took the evidence of two adjoining proprietors and that of Mrs. Clyne and her eldest son. I was of necessity compelled to rely upon the evidence of others for the basis of my report.
- 59. For whom did you value these improvements? For the Government.
- 60. The improvements you valued were those made by Mr. Clyne? There were certain improvements made before Mr. Clyne selected; those I had nothing to do with. The improvements made by Mr. Clyne within the three months from the date of selection, 17th July, 1879, to the date of voidance, 13th October, 1879, I estimated at £55 18s. 1d.; the improvements effected by Mr. Clyne, subsequent to 13th October, up to the date of my inspection, I valued at £95 16s.
- 61. Then the improvements you estimated at £151 14s. 1d. altogether were improvements made by Mr. Clyne? Yes.
- 62. Had you any means of ascertaining what improvements were on the land before Clyne selected? Only by the evidence given by the same people. I was not personally acquainted with the land before.
- 63. Did they point out any improvements made by Mr. Lord? The improvements effected prior to the date of selection, according to the evidence before me, were 7¼ acres of land grubbed, but the trees left lying, and an acre and a quarter of felled timber—the trees being simply felled, not grubbed. There is a distinction of course between felling and grubbing. That was in another part of the same ground. Then there were 14½ chains of wire fencing, with five wires and a sapling top-rail. These were the whole of the improvements prior to the sale of selection, according to the evidence given to me.
- 64. What was your estimate of what these improvements were worth at the time the land was selected by Clyne? I did not give any valuation of them.
- 65. Could you give an estimate of the value? The grubbing of 7¼ acres of land would have been worth 30s. an acre, with the trees left lying, say £11 12s. 6d. an acre and a quarter of trees felled at 15s. an acre would be 18s. 9d.; and 14½ chains of wire fencing at £35 a mile would be about £6 5s.; in all £18 16s. 3d.
- 66. Then as far as you could judge, that would be about the value of the improvements at the time Mr. Clyne selected? It was the value I should have given if I had been valuing them. The valuation I have given is for the original\* value of the fence—it was nearly all down when I saw it.
- 67. Had any undergrowth taken place which might have obscured any other clearing which might have been done? No, because the 7¼ acres were afterwards utilized by removing the trees and ploughing. According to the evidence given before me, the trees were simply grubbed and left there, and Clyne removed them and made a log fence of them.
- 68. Did you find any difficulty in distinguishing between the improvements made by Mr. Lord and those made by Mr. Clyne? None whatever, on the evidence given before me.
- 69. Were you examined on the trial "Lord v. Clyne"? I was not.
- 70. Were you in attendance on the Court? I was not.
- 71. Did you send in a report to the Government as to your estimate of the improvements made by Mr. Lord? I sent simply a statement of what the improvements were. These calculations of value I have not made until this moment.
- 72. If you were told that those improvements had been estimated at £87 you would be surprised? According to the evidence given before me they were not worth that amount.
- 73. You had no doubt about the identity of the land? None whatever.
- 74. You were not likely to be misled as to the improvements made by Mr. Lord and those made by Mr. Clyne? No, because I had a sketch prepared before holding the inquiry, which sketch was transmitted with the papers and laid before the witnesses.
- 75. Did the evidence of the witnesses confirm your own personal observation as to which were the improvements made by Mr. Lord? Of course as to that I was wholly dependent on their testimony. I had no opportunity of judging from personal observation, because the land had been further improved by Clyne after selection. I had to rely upon their evidence that these trees were simply grubbed at the time of selection.

\* Revised :—value at date of selection.

- H. A. Crouch, Esq.  
26 Sept., 1882.
76. How many witnesses had you? Two witnesses besides Mrs. Clyne and her eldest son.
77. Who were the other witnesses? Messrs. M'Cudden and Sherringham; they were occupiers of land on either side of this portion.
78. Both farmers? Yes.
79. *Mr. Cooke.*] Had they been residing there for some years before? Yes.
80. *Mr. Burns.*] Did they give you their evidence as to the improvements made by Mr. Lord? Yes. The notes of the evidence are with the papers.
81. Was Mr. Lord or any member of his family examined at the inquiry? No.
82. *Mr. Cooke.*] Why were not some of the Lords examined? I had no reason, only that I could not have compelled their attendance. I simply went there to make a report, and the inquiry I held was on the ground; these persons came there of their own accord.
83. *Mr. Jacob.*] They were voluntary witnesses and were not on oath? Yes; they were not on oath.
84. And not responsible for their statements? No; beyond this, that both expressed their willingness to make a statutory declaration. I may mention that in my report I stated that these witnesses had given evidence in the Supreme Court, and that if necessary their statements to me could be verified by such evidence.
85. Mr. Lord made an application for the land in virtue of improvements? Yes.
86. Do you know what the improvements were in virtue of which he applied for the land? No.
87. You will see that in his application they are stated as follows:—"9 acres of cultivated land, fence, partly three-rail and one wire, partly brush fence; ringbarking 50 acres."—Did you see any ringbarking? No.
88. Could there have been 50 acres of ringbarking on this land? Certainly not.
89. There is a memorandum here by an officer of the department—Mr. M'Guinn, which states that "the selection was voided, as the land was improved to the value of £87." In your judgment, is that far outside of the true valuation? Yes, according to the statements made to me.
90. *Mr. Cooke.*] And according to what you saw? Yes.
91. *Mr. Jacob.*] Was there any question as to the identity of the land—as to the land claimed by Mr. Lord being the same as that selected by Mr. Clyne—was there any dispute about that—is there any doubt upon your mind? I have a doubt as to whether the description of the land applied for by Mr. Lord covered the land that was measured; but there is no doubt the land measured and sold to Mr. Lord is the land applied for by Mr. Clyne.
92. *Chairman.*] Had there been fifty acres of timber ringbarked you must have observed it? Certainly.
93. And you saw no timber ringbarked? Not outside the cultivated portion.
94. So that the improvements were not in accordance with the description given by the applicant? They were not.
95. You are not now filling the same position in the Government Service as you were when you made this report? No.
96. You are in another department? I am in the same department, but not exactly in the same position. I was then a Government Surveyor; I am now Acting District Surveyor.
97. You received your instructions from the Government to proceed to the spot and inspect and report upon this land? Yes.
98. Were you aware at the time that the question had been remitted to the Supreme Court? Yes.
99. Were you aware what had been the verdict in the case? I was.
100. Were the papers that were before the Supreme Court remitted to you? No; I only knew of the verdict as reported in the newspapers.
101. And you are quite certain the value of the improvements made by Mr. Lord amounted to only £18 16s. 3d.? I think that is a fair value.
102. From your knowledge of the law, would that be considered sufficient improvement to bar selection? Of course not.
103. What is the amount—the statutory limit? £40.
104. And you are quite positive there were not £40 worth of improvements on the land before selection? There were not, according to the evidence given to me.
105. *Mr. Cooke.*] And according to what you saw? Yes.
106. *Mr. Jacob.*] Under what circumstances were you called upon to value the improvements made by Clyne? As far as my memory serves me, I was simply instructed to report upon the improvements made by Clyne before the date of voidance.
107. Then you cannot say exactly why you were set in motion after the deed of grant was issued to Mr. Lord? No.
108. You do not know whether the Department was re-opening the question? My impression was that it was with a view to compensate Mrs. Clyne for the improvements made before the date of voidance.
109. It appears by Mr. Clyne's own letter that he was warned a month after making his selection that Mr. Lord claimed the land on account of improvements? He was warned by Mr. Lord's agent, not by the Department.
110. Could you tell the value of his improvements during that month? No, I could not. I gathered that Clyne did not do anything for a fortnight after making his selection, and that within the first month he erected two log gunyahs with bark roofs. According to the evidence, there were no improvements during the first month except these two bark huts.

WEDNESDAY, 27 SEPTEMBER, 1882.

Present:—

MR. BURNS, | MR. JACOB.

ANDREW ROSS, Esq., M.D., IN THE CHAIR.

Charles N. J. Oliver, Esq., called in and examined:—

111. *Chairman.*] You are Under-Secretary for Lands? Yes.
112. Do you produce the papers in the case of *Lord v. Clyne*? Nearly all of them; some of them are not here; they have been lost, or are not accessible at the present moment. (*Papers produced.*)
113. *Mr. Burns.*] Have you got amongst those papers the report of Mr. Simpson as to the improvements made by Mr. Lord upon the land held by Mr. Lord, and afterwards applied for by Mr. Clyne? I cannot produce the original paper, but I produce what purports to be a copy of it. Mr. Simpson's report is dated 20th August, 1878, and in it he particularizes the improvements and states their value.
114. Will you state what the improvements consisted of as described in that document? They were said to consist of wire-fencing, value £10, and clearing valued at £77.
115. Anything else? No other improvements are stated in this report.
116. Will you read the report? (*Report read. See Appendix A 1.*)
117. *Mr. Jacob.*] Would the Gazette notice, approving of the purchase by Mr. Lord, be issued prior to the valuation of the improvements by the surveyor? No, afterwards.
118. What is the date of the report? 20th August, 1878. The land was measured in 1877.
119. *Chairman.*] And valued in 1877? I cannot say when it was valued.
120. Have you a copy of Mr. Lord's application to purchase? I have the original application. (*Produced.*)
121. *Mr. Burns.*] Have you the report by Mr. Crouch as to the improvements by Mr. Lord and Mr. Clyne respectively on this land? I have his report here, dated 8th December, 1881. (*Produced. See Appendix A 2.*)
122. What is the value he puts upon Mr. Lord's improvements? I do not think Mr. Crouch states their value; he merely specifies the improvements.
123. What does he state? That the improvements effected prior to the date of selection consisted of  $7\frac{1}{2}$  acres grubbed, trees left lying,  $1\frac{1}{2}$  acre felled timber, 14 chains wire fence, five wires and top-rail. He does not give a value. He then goes on to state the whole of the improvements placed on the land by Mr. Clyne.

C. N. J.  
Oliver, Esq.  
27 Sept. 1882.

William Butler Simpson, Esq., called in and further examined:—

124. *Mr. Burns.*] Have you since yesterday had access to the papers in the Lands Office with respect to the selection of Mr. Clyne? Yes.
125. Have you referred to your report? Yes.
126. Does that report confirm your previous impression as to the improvements made by Mr. Lord? Yes.
127. You observe that the application was made by Mr. Ross, on behalf of Mr. Lord, on 14th April, 1877, to purchase certain land in virtue of improvements, which I understand is the land in dispute between Mr. Lord and Mrs. Clyne. It is there stated that the improvements consist of 9 acres of cultivated land, a fence, partly three-rail and one wire, and partly brush fence, ringbarking 50 acres, situated 1 mile from Burrawang head station, on the west bank of the creek, parish of Burrawang Run, Wellington District. Was that application referred to you for report as to the improvements? It was forwarded to me for survey, and the instructions to surveyors were at that time to report upon the value of improvements.
128. Did you see the land which was ringbarked on this property? No, I did not notice any ringbarking, or I should have stated so in my report. The improvements I noticed were stated in my report.
129. Do you recollect whether you went specially to inspect the land before you made your report? I saw the land long before, and I saw the improvements when measuring other land in the neighbourhood; if I saw them once I saw them twenty times.
130. How many times did you see them? I made a good many surveys on the creek, and crossed the land backwards and forwards to Burrawang constantly. I knew they were Mr. Lord's improvements; in fact the overseer informed me he had made several improvements with a view to purchase. I saw a clearing, and naturally thought it was a selector's clearing, till I inquired and was told it was Mr. Lord's. Mr. Lord put in a whole host of these applications at one time; he made the improvements first and put in the applications afterwards.
131. *Mr. Jacob.*] Is there any question about the land you valued on behalf of Mr. Lord being included in the selection of Mr. Clyne? I should think not. I have had nothing to do with Clyne's selection whatever, except that I was called to the Supreme Court as a witness. I never had anything to do with it as a surveyor.
132. Apart from any ringbarking, you valued the improvements at what you have stated? Yes; my letter, I think, said the improvements were sufficient to cover the area applied for.
133. Wire fencing £10, and clearing £77? Yes. If I had seen any other improvements that I considered belonged to Mr. Lord, I should have mentioned them in my report.
134. *Chairman.*] You have stated just now that the overseer asked you to look at the land? Yes, I was in constant conversation with him as to the pieces he had improved.
135. And you say he had a host of these improvements? I saw, I think, three; I will swear to two. As a surveyor travelling about, it was my business to see what people had land and know what I had to do before me in the shape of surveys in my district.
136. At this time you had not received the application? No, it had gone astray; it had been sent to the wrong surveyor.
137. While surveying neighbouring selections, you took the trouble to inspect this ground and to put a valuation upon the improvements? Yes, while I measured the surrounding blocks.
138. How long after this did you receive the application? I could not tell you how long. The date is on the application no doubt. It appears to have been sent to Mr. Burnside in the first instance, and he transmitted it to me. His date is, "Orange, 10th July, 1877."
- 139.

W. B.  
Simpson,  
Esq.  
27 Sept., 1882.

W. B.  
Simpson,  
Esq.

27 Sept., 1882.

139. Whose selections were you measuring at the time you saw this land? I could not say now. They were adjoining pieces on either side of the piece applied for by Mr. Lord. It was almost unnecessary to survey this piece, because it was surrounded with surveys.
140. What was the area of the adjoining pieces? I cannot remember.
141. Would that be any guide to you (*referring to sketch attached to No. 15 of the printed papers*)? They appear from this to be 40 acres respectively.
142. That is not your plan, is it? It is a sketch from it I should suppose.
143. Have any of your surveys or reports been objected to by the Department? Yes.\*
144. Have they been objected to often? Several times.
145. Has the Department ever complained of this survey or report? I have not heard of it.
146. How many years were you surveying in that district? Eighteen or twenty years.
147. Did you resign office of your own accord? Yes, and my resignation was accepted.
148. Were you requested to do so? I was not. Certain circumstances arose respecting which I quarrelled with some of the officers of the Department. It was unpleasant to me, and I thought it better to resign.
149. It was not in consequence of this case? No, decidedly not. The cause was discrepancies in some surveys they accused me of, which I denied.
150. And irregularities? No irregularities—discrepancies in surveys. They went over some of my surveys and disputed them, and I said they were not incorrect. I have followed the same lines since, and have found them not to be incorrect. It had nothing to do with this case whatever—not to my knowledge.
151. With the papers now before you, would you send in a similar report as to the value of the improvements? Very likely I would have done so. I saw them in 1877, and valued them as I had been accustomed to value other people's.
152. You said that when on the ground surveying adjoining selections this ground was pointed out to you by Mr. Lord's overseer, and at this time you had not seen the application—it was simply through the overseer that you took the trouble to value the ground? Yes, and knowing that as the surveyor of the district the application would be sent to me.
153. At this time you had not the application in your possession, when you valued the improvements? I believe I had not.
154. And the consequence was that when you saw these improvements you said the value of the wire fencing was £10, and of the clearing £77? Yes.
155. You see the description given by the applicant as to the nature of the improvements—will you read it? As far as the position of the land goes, there could not be a better description.
156. Speaking of the nature of the improvements, how do you account for this discrepancy? I have no way of accounting for it. I could only report on what I saw; my report referred to what I saw.
157. Could these 9 acres in cultivation and the 50 acres of ringbarking have been on the ground without your seeing it? No, I do not think they could.
158. How do you account for the discrepancy that exists between this application and your report? As I said before, I reported upon what I actually saw upon the land. If Mr. Lord's application had a discrepancy in it, of course I was not to know that, because the position of the land was the main thing so far as the application went; the improvements I could see for myself. What I had to see to was that this was the land he applied for, and that it was accurately described. It is accurately described from the head station, and therefore this must be the land referred to in the application. There were several applications put in about the same time, and he may have put the wrong improvements to this one; but it does not follow from that that when I valued the improvements I was not making a fair valuation of what I saw.
159. How often had you seen the land? Several times.
160. Have you seen it since making this report? Yes.
161. Have you seen it lately? No, not since the action took place, or long before; I have not been in the locality for two years and a half.
162. *Mr. Burns.*] Has it ever occurred to you that the valuation of £77 for clearing 8 acres of land was a high one? It may appear to be a high one. I have seen land that is worth more than that to clear.
163. Was the land very heavily timbered? It was remarkably so. Where it was cleared, when I saw it, the trees were lying as thick as they could be.
164. How did you arrive at the conclusion that it would take £9 12s. 6d. per acre to clear this land? From my general knowledge. If I have valued one piece I have valued a thousand.
165. Do you think it would have cost £77 to clear 8 acres of land in that locality by contract? One may do things cheaper by contract. I believed it was worth the value. I valued it as if it had been free selector's land, or any other.
166. I want to arrive at how you made this estimate of £77—in what way did you make up your calculation that it would cost £9 12s. 6d. per acre? From my knowledge of what clearing was worth, I considered the land was improved well up to the requirements—that the improvements would cover the valuation.
167. Do you know what has been the usual charge for clearing land in that locality? No.
168. Are you aware that Mrs. Clyne states in her petition that similar land could be cleared for £1 10s. an acre? I consider Mrs. Clyne's petition decidedly wrong.
169. As to the value of the improvements? Yes; she says they were only worth £20.
170. Do you find that her statements do not correspond with the facts? Yes; I noticed that in some part of her petition she says the improvements were valued by Mr. Lord and a surveyor who was paid by him. That would read as if I was paid by Mr. Lord for this valuation. Now I say that is a decidedly unfair and untrue statement. That was one item that struck me.
171. *Chairman.*] That is a misapprehension? It reads that way. I say Mrs. Clyne's valuation of the improvements is absurd.
172. *Mr. Burns.*] Did the adjoining land to this land cleared by Mr. Lord—which had not been cleared—seem to be land that would cost a very large sum to clear? Some of it was cleared.
173. I presume his other land was not cleared? It was particularly heavy timbered.

\* ADDED (on revision):—Only on account of survey—not on account of the report.

- 174. Do you think the uncleared land would cost as much to clear as this land? Perhaps it would not.
- 175. Was this piece of land more heavily timbered than the rest? Yes, it struck me so; and it was stated by Mr. Ross that it was the largest timber he could see, and he worked at that first.
- 176. What kind of timber was it? Yellow-box principally. The whole country is of that class.
- 177. Were the trees very large? They were.
- 178. *Mr. Jacob.*] Did I understand, on the last occasion you were here, that you gave evidence at the trial of "Lord v. Clyne"? Yes.
- 179. Did you give evidence about the value of the improvements? Yes.
- 180. Similar to what you are giving now? I cannot recall the evidence I gave.
- 181. Were you examined closely on the value of the improvements? Yes; they looked upon me as a material witness, so the solicitors informed me.
- 182. Can you recollect whether your evidence was to the purport of what you have given now? Substantially I believe it was, and would be again.
- 183. *Chairman.*] You are still positive there were 7½ acres cleared? I am not positive as to the area.
- 184. How many acres do you state there were cleared? I fancy I said 8 acres at the Court on the trial.
- 185. From your own knowledge can you state how many there were? I consider there were between 7 and 8 acres.
- 186. You are positive there were 8 acres cleared? No, not positive; I say between 7 and 8 acres.
- 187. What do you mean by cleared? Cleared of timber.

W. B.  
Simpson,  
Esq.  
27 Sept., 1882.

TUESDAY, 3 OCTOBER, 1882.

Present:—

MR. JOSEPH P. ABBOTT,	MR. BURNS,
MR. COOKE,	MR. JACOB,
MR. MARTIN.	

ANDREW ROSS, Esq., M.D., IN THE CHAIR.

Mr. William Ross called in and examined:—

- 188. *Chairman.*] What is your occupation? I am a grazier, and reside at Dilga, near Molong.
- 189. Will you tell the Committee what you know in connection with the conditional purchase of the late Alexander Clyne, which has been claimed by Mr. Francis Lord,—any information in reference to the improvements that were made on the land before Clyne got it, and of what value they were. You know the land, I suppose? I knew it before either Clyne or any one else took it up.
- 190. *Mr. Burns.*] Had you been over the ground and observed improvements on it, before Clyne made his selection? I had.
- 191. How long before? I suppose about four months.
- 192. Of what, at that time, did the improvements consist? There was some fallen timber on the land; the timber had been grubbed up, and was lying on the land.
- 193. Anything else? There had been part of a fence put up, but it was then broken down and worth nothing.
- 194. Had any of the land been ploughed? None whatever.
- 195. What do you consider was the value of the improvements made upon the land four months before Clyne selected it? When giving evidence before the Supreme Court I valued the improvements at £19, and that was the extreme value; and as I said then, if I had been selling the land or buying it, as a squatter I should not have taken such improvements into consideration, as they were of so little value; the timber lying on the ground was more of a nuisance than anything else; nothing could get through it, nothing could cross it.
- 196. Did you observe whether there was any ringbarking on the land, or near it? Not at that time; my attention was called to it some time afterwards.
- 197. How long afterwards? When Clyne got it—after he had selected it.
- 198. Are you sure upon that point? I am quite certain; in fact my attention was called to it.
- 199. Within your own knowledge, was Mr. Clyne on the land at the time the ringbarking took place? I think so; he must have been.
- 200. How far do you live from the selection made by Mr. Clyne? Ten miles.
- 201. Are you in the habit of going backwards and forwards much? Regularly.
- 202. Is it on the road to a post or a market? To the post-town. I did not pass through the land every time I went that way, but I passed close to it.
- 203. Did you observe the improvements which Clyne was making there? I did repeatedly.
- 204. You gave evidence before the Supreme Court as to the value of the improvements made on the land before Clyne selected it, and the value of the improvements made by Clyne after he took up the land: what do you think is the value of the improvements which Clyne made? They were far greater than I would have made under the conditional purchase clause of the Act.
- 205. That is to say, there were more improvements than the law required? Yes; if I had taken up the land I would not have made such improvements; Clyne was making a homestead.
- 206. I presume you have no doubt that the land which Clyne selected is the same which Mr. Lord some time afterwards obtained a conveyance of? Yes, it is the same land.
- 207. You know the place well? Well; there was no other land—all the rest was taken up.
- 208. *Mr. Abbott.*] You know the date of Clyne's selection, 17th July, 1879? I have heard that was the date, but I do not know of my own knowledge.
- 209. The area was 100 acres? Yes.
- 210. The application of Mr. Lord appears to have been made on the 14th April, 1877, for an area of 87 acres—do you know that? No, I do not know when he made his application.
- 211. Did you know the land on the 14th April, 1877? Yes.
- 212. Can you say that at that time 9 acres of that land had not been cultivated? I cannot say; but I could say later, in 1879.

Mr. W. Ross.  
3 Oct., 1882.

- Mr. W. Ross. 213. *Mr. Jacob.*] It had not been cultivated? It had not been cultivated.
- 3 Oct., 1882. 214. *Mr. Abbott.*] But in April, 1877, can you say whether it was cultivated or not? No, I cannot.
215. When you knew the land at the time Clyne selected it in 1879, you say there were no traces whatever of its having been cultivated? Not an inch, as far as I saw.
216. There was no land cleared? There was no land cleared, and it could not have been cultivated.
217. It was part of Mr. Lord's claim that 9 acres had been cultivated? There was no land cleared, and none cultivated.
218. Then there was a fence—partly three-rail and one wire, and partly a brush fence—said to have been there in 1877? I never saw it.
219. Was it there in 1879 when Clyne selected the land? There was no wire fence, except Mr. Lord was claiming part of a fence belonging to a selector in the neighbourhood.
220. But on the land in question? There was no fence, only a broken down wire fence.
221. Mr. Lord also claimed for 50 acres that were ringbarked? There are not 5 acres ringbarked now.
222. That is on the 87 acres—there is no ringbarked timber on it? No.
223. Therefore there could have been none at the time Clyne selected the land? Not a tree.
224. If the land had been cultivated, as was stated by Mr. Lord's agent in 1877, you must have known of it? I must have known of it.
225. You say you have known the land for thirty years? For thirty odd years.
226. And in 1879, when Clyne selected it, it was in the same natural state? Just so, except some timber fallen on the land, and this 324 yards of a broken wire fence.
227. Otherwise the land was just as you had known it for thirty years? Yes; in fact I would rather have had the timber standing than fallen. I think I valued the improvements at an extreme rate when I said £19.
228. On whose behalf did you value the land? The question was put to me by the Judge in the Supreme Court, and I said that if I had been buying the land I would have valued the improvements at £19.
229. How did you arrive at the value? I allowed 30s. an acre for 7½ acres, and I allowed £5 for the fence.
230. If that land had been fenced at all, as stated by Mr. Lord in his application, you must have known of it? Yes.
231. *Mr. Martin.*] Did you ever see wheat or corn planted amongst the trees? I never saw any cereals.
232. Not amongst the trees? No; I have grown it myself amongst trees.
233. You saw neither corn nor wheat on the land in question? I saw nothing whatever in the way of cereals of any description on the land.
234. You said something about 8 acres improved? Stumped, grubbed, but not cultivated; the timber had just been felled and left to lie on the ground.
235. *Mr. Jacob.*] Is there any doubt as to the land claimed by Mr. Lord being in Clyne's selection? No, it is in Clyne's selection.
236. There is no dispute on that point? No.
237. Why did you value the land for Mr. Lord—were you asked to do it? No, I valued it for Mrs. Clyne.
238. I thought you said you valued it for Mr. Lord? No, I gave him the benefit of any doubt, because others were valuing it at much less than I was doing.
239. You were not employed by Mr. Lord? No.
240. The improvements were not worth more than you have valued them at? I would not give more.
241. And you valued them at—? At £19.
242. Then if the valuation has been fixed on oath at £87, it is too high a valuation altogether? It is too high altogether—it is nothing like that. If Mr. Lord had improved to the extent of £25, I would have been inclined to give him the value of £40 to secure 40 acres, because for £25 you might improve 200 acres.
243. You say there was not a single tree ringbarked on the land? There was not.
244. *Mr. Martin.*] If I mistake not, I think I heard Rose say there were about half-a-dozen trees ringbarked? Yes, afterwards, after Clyne took up the land; he ringbarked a few trees just outside the fence, to admit the sun.
245. *Mr. Burns.*] How much do you suppose it would have cost to have properly cleared and stumped 8 acres? £4 at the very most to have cleared the land properly; it could have been properly cleared and stumped for £4 an acre.
246. Was the land very full of timber? It was just bush land.
247. I suppose you are aware that Mr. Simpson, a surveyor, valued the clearing of the 8 acres at £77? I am.
248. That would be at the rate of £9 12s. 6d. per acre? It would be about that I think.
249. Have you known that price to be paid for clearing and stumping land in the neighbourhood at any time? No, not even including fencing.
250. Was the land in this particular locality more heavily timbered than elsewhere? No; it was nothing like my own.
251. What should this land have cost to clear and stump? I have paid as much as £6 15s. to clear and stump, but that is the highest figure I have ever paid.
252. And you say your land is more heavily timbered than Clyne's? Yes, much more—three to one more.
253. How came you to value the land in the first instance in respect to improvements; in whose interest did you value it? It was nothing to me for whom I valued it. I gave evidence as much for as against.
254. Did you look at the improvements before giving evidence? I did.
255. *Mr. Martin.*] Mr. Burns asked you at whose instance you valued the improvements on the land? Before the case came before the Supreme Court, I was asked by Mrs. Clyne, the defendant.
256. *Chairman.*] You are quite sure that if 50 acres had been ringbarked you must have observed it? Yes, up to this day I should have observed it.
257. And there is no such thing on the land? No.

Mr. Henry Sherringham called in and examined:—

258. *Chairman.*] What is your occupation, and where do you reside? I am a farmer and grazier, and reside at Burrawong.
259. *Mr. Burns.*] How far is your residence from the selection made by Mr. Clyne on Mr. Lord's run? About a mile and a half.
260. Had you been residing there long before Clyne made his selection? Yes; I went there some time before.
261. Had you noticed any improvements that Mr. Lord was making? I saw some timber grubbed.
262. Anything else? Nothing else.
263. No ploughing? No.
264. Any ringbarking? No; I cannot say exactly; there may have been from half an acre to an acre chopped down with the axe, besides the grubbing that was done.
265. How many acres do you suppose were grubbed? I and two other men measured it carefully, and we made 7 acres 30 roods of it. We measured it properly, as if we were getting it done for ourselves and paying for it.
266. Did you observe whether the land which Clyne selected, or land near there, contained more timber than other land? No, it did not.
267. It was ordinary land? Yes.
268. What have you been in the habit of paying per acre for clearing land? From 27s. to 32s. per acre.
269. Was that for falling and grubbing? Grubbing the same as Mr. Lord's land was grubbed. I have got less done under 30s. than over 30s.
270. Does that price include stumping and clearing? Not clearing, but just felling the timber and letting it lie.
271. How much per acre do you consider would have been a fair charge for grubbing, stumping, and clearing the land in question? What we are allowed, and what I think is a fair thing, is £5 per acre.
272. *Mr. Cooke.*] That is for clearing? Yes—getting it ready for the plough.
273. *Mr. Burns.*] I think you gave evidence in the Supreme Court in the action "Lord v. Clyne"? Yes.
274. You are aware that Mr. Simpson valued the improvements for Mr. Lord at £77? I came into possession of that knowledge through the evidence he gave at the Supreme Court.
275. I conclude, from the evidence you gave, that his estimate of £77 for what is called clearing the land was excessive? Yes.
276. You think that at the outside £5 an acre would be enough? What Mr. Lord had done was only worth £10 10s.
277. He had not stumped the land? He had stumped it, but the trees were left lying there.
278. To have done similar work to that which was done should not have cost—? It should not have cost more than 30s. per acre.
279. You regard Mr. Simpson's estimate, £9 12s. 6d. per acre, as excessive? Of course I do.
280. His estimate for improvements is £77? Yes.
281. And you regard that as an extravagant estimate? Of course I do. I know I could have done the same work as Mr. Lord had done for £14.
282. Did you observe any ringbarking done by Mr. Lord on this land? No; there is none at the present day.
283. Did you see Clyne making improvements there? Yes, poor man, he lost his life through it. He cleared and grubbed a good deal of land there, and built a fine house on it, and also two temporary places, in which his family lived for four or five months.
284. What do you consider the value of the improvements made by Mr. Clyne up to the time of his death—the improvements he made altogether on the land? There is a 6-acre paddock fenced and cleared by him, with not a tree on it; he had a large crop on it. For clearing and fencing we are allowed £6 an acre.
285. Then you say he built a house? Yes, but there was more land than the 6-acre paddock cleared and grubbed. I am not quite certain of the quantity, but there are 11 or 13 acres grubbed, and the wood chopped up ready to be removed—that is, the wood chopped in lengths.
286. What is your estimate of the work done in that respect? I estimate it at 50s. per acre.
287. What else did he do? There was the house; it was a very fine house; I am certain it could not have been done for less than £100 or £120; all this was done before Clyne died.
288. The widow still resides there with her family? Yes.
289. Did she continue to make improvements? No, she only just lives in the house.
290. That is owing to the dispute with Mr. Lord about the land? Of course; she has lost two crops already.
291. Owing to the litigation with Mr. Lord as to the right to the land? Yes.
292. *Mr. Martin.*] Did you know anything about Simpson going there to value the land? Not until the case came before the Court.
293. You say you measured the improved portion of the land at 7 acres 30 roods? Yes.
294. Do you recollect the year that that was in? It was before the old man was killed.
295. Do you know whether the improvements were made by Clyne or by Lord? The grubbing, which I calculated to be worth 30s. per acre, was done by Mr. Lord—that is for the 7 acres 30 roods.
296. *Chairman.*] Were all the improvements you speak of made before Clyne's death? Oh yes.
297. You recollect me presenting to the Assembly a petition signed by the residents in the neighbourhood of Clyne's selection? Yes.
298. Do you know whether the signatures were genuine? They were.
299. *Mr. Jacob.*] You know when Clyne selected? Yes.
300. Could you say, from your own knowledge, what was the value of the improvements he made within a month of his selection? In the first month?
301. Yes, either in the way of building huts or clearing? I cannot.
302. *Mr. Martin.*] You are aware of a fence being there? Yes.
303. That was before Clyne selected? Yes; it was there before I went there, and I was there a considerable time before Clyne.
304. You think the fence was put up by Mr. Lord? It was not worth a penny.

Mr. H.  
Sherringham.  
3 Oct., 1882.

Mrs. Clyne called in and examined :—

- Mrs. Clyne. 305. *Chairman.*] Do you recollect, Mrs. Clyne, in what year your husband made a selection on Mr. Lord's run? I cannot remember exactly, but it was three years ago on the 17th of last July.
- 3 Oct., 1882. 306. Did your husband commence to make improvements soon after he made the selection? Yes, directly afterwards.
307. What did he first do? He put up two huts.
308. Did you go to live there? Yes.
309. You and the whole of the family? Yes.
310. He next commenced to make improvements upon the land? Yes, he had a man and a team of bullocks to shift the timber that had been felled.
311. Timber that was lying on the ground when he went there? Yes.
312. And was the timber all removed by your husband? Yes.
313. What was done next? He and his servant grubbed 8 or 9 acres—I do not know exactly how much—and then fenced it.
314. How long had you been on the ground when you received notice from Mr. Dwyer that Mr. Lord claimed the land? I think we had been there about four months.
315. And within that time you had made all the improvements you have spoken of? Yes.
316. Were you with your husband when he first went on the ground? Yes.
317. That was immediately after he made the selection? Yes.
318. At that time did you observe any improvements other than the fallen timber? None.
319. Did you see an old fence there? Yes, it is there now.
320. Is it of any value? I do not think it is.
321. Did you see any ploughing done about the land or any thereabout? No.
322. Or any trees ringbarked? Not one was ringbarked.
323. Did you see the surveyor come to examine the improvements? No, I did not.
324. Do you know what was paid by your husband or by your neighbours for falling timber? The highest price is about 35s. per acre; some only give 30s.
325. What do you suppose the work done by Mr. Lord on the land before you went there was worth? Some say it was worth only £12.
326. Could you get the same quantity of timber felled in the same way, for about the same amount now? I could not say, but the work is cheaper now; some men will grub land for £1 an acre.
327. You are still living in the house on the ground with your family? Yes.
328. *Mr. Martin.*] I suppose you have no idea of the value of the improvements, or what it cost your husband for improving the land during the first month after he selected it? I cannot say; we paid for taking the timber off the ground.
329. During the first month after taking the place? They cleared the timber off, and then ploughed the ground for the purpose of sowing corn; they started doing that within the first month, but did not finish.
330. Was the timber felled by Mr. Lord before you took the land? Yes, I understood so.
331. That is the timber for which your husband procured the services of a man and a team of bullocks to clear off? Yes.
332. *Mr. Cooke.*] How many acres were cleared in that way? I thought it was about 8 or 9; the surveyor has since been there, and he told me there were only 7.
333. *Mr. Martin.*] The timber on those 7 or 8 acres was felled and left lying on the ground? Yes, it lay there for three years before Mr. Clyne took it up.
334. What sort of fence was there? It had been a wire fence, but it was all in ruins, and there was only one rail on the top.
335. *Chairman.*] Of course your husband is dead and cannot give evidence—but do you remember at the time he took up the land at the Molong Land Office, whether any objection was made to his taking it up? Not the slightest; he told me that when he came home.
336. There was no objection whatever made by the land agent as to the ground having been taken up previously as an improvement purchase? Not a word.
337. You are aware that the deposit money was paid on this 100 acres? Oh yes.

TUESDAY, 10 OCTOBER, 1882.

Present:—

MR. BURNS, | MR. COOKE,  
MR. JACOB.

ANDREW ROSS, Esq., M.D., IN THE CHAIR.

The Honorable Francis Lord, M.L.C., attending by leave of the Legislative Council, examined :—

- The Hon. Francis Lord, M.L.C. 338. *Chairman.*] You are lessee of the Burrawang Run? I am.
- 10 Oct., 1882. 339. Do you know anything in reference to the case now before this Committee—in respect to your overseer having taken up the land under improvement purchase? Yes.
340. Do you know when it was taken up? On the 14th April, 1877.
341. At the time it was taken up, can you of your own knowledge describe what improvements were on the land? Not of my own knowledge—only from information from my superintendent.
342. *Mr. Jacob.*] Have you not been on the land since? No, I have not.\*
343. *Chairman.*] In the management of the station I suppose there were books kept by the manager? Yes.
344. Would you know from those books how much money was paid for the improvements on this ground? No. I applied for that information for the purposes of the trial in the Supreme Court, but could not obtain it. It appeared from the information I obtained that a number of cases had been included in a lump sum, but none were accounted for separately. There were improvements in various places on the run going on at the same time, and I could not get the particulars of those on this piece of ground; otherwise they would have been submitted to the Supreme Court when the trial took place. I could only get the total amount paid

\* ADDED (on revision) :—Except as hereinafter stated, viz., in March, 1880

paid for improvements in a given time, but not distinct accounts. I tried to get the evidence of the superintendent, Mr. Ross, but he refused to come. He resides I don't know how many hundred miles away in Queensland.

The Hon.  
Francis Lord,  
M.L.C.

10 Oct., 1882.

345. He is not in your employment now? No, he has left me.

346. *Mr. Jacob.*] It was Mr. Ross that made application on your behalf? Yes.

347. *Chairman.*] Would it be possible for your overseer without your knowledge to draw cheques for the amount of improvements, without the improvements having been placed on the ground? I should think not; I always found him honest; I do not think he would give a cheque without the improvements were made. I may say that at the trial I did not rely upon the improvements at all. I took it for granted that my title was good, as the Government had contracted to sell the ground to me, and therefore I did not go to the trouble of getting all the evidence I could to show that the improvements had cost more than £40.

348. *Mr. Burns.*] I think it was on that ground that the Jury gave the verdict for you? Yes, they gave the verdict on the ruling of the Judge, which was confirmed on appeal to the full Court.

349. *Chairman.*] Do you remember the nature of the Jury's finding on that occasion? Yes.

350. What did it imply? It implied that the land belonged to me, but that £40 had not been expended in improvements, in opposition to the evidence of the Government surveyor, who swore that £40 had been expended.

351. Have you been on the ground at any time? Yes; I went on the ground to warn these people against making improvements on it—I begged of them not to do so.

352. Can you form any idea what was the value of the improvements at that time? I should say £120 would cover everything.

353. Were those improvements made by you? No, I mean Clyne's improvements; he put up a hut, did a little fencing, and cultivated some ground.

354. Was any person with you at the time you went there? Yes, my overseer was present.\*

355. Did he point out to you what improvements had been made by your previous overseer? Yes, he showed me.†

356. Did you think they were worth £40? Yes, certainly.

357. What did they consist of? Fencing and clearing the ground. It is on the different value placed on grubbing and clearing ground that the whole valuation depends. One person thinks £3 an acre sufficient, while another thinks it worth £5, and so on. If I could have arrived at what it cost from the books, that ought to have been conclusive; but I could not arrive at it.

358. How many acres were cleared? That is another disputed point, because it was not measured.

359. You could not from your own knowledge state how many acres? No, I could not, but I think there must have been at least 15.

360. How much per acre would you reckon that at? I had to pay, when I was up there, £3.

361. *Mr. Jacob.*] From your own judgment, could you say what the value of the improvements effected was, which the surveyor estimated at £87? I could not tell you, because it was done before I went there, and a good deal had been destroyed. ‡ Clyne had taken away the fence, or done something with it, and it did not appear when I saw it as it would have done when the improvements were effected.

362. Do you know anything about Clyne's selection—the time when he took it up? He took it up on 17th July, 1879.

363. When did you see it afterwards? I saw it in March, 1880.

364. Was Clyne then proceeding with his improvements? Yes. He was repeatedly cautioned by my overseer not to do so, and I went myself to warn him. I was getting on very well with Clyne himself when he was alive, but his wife was a very violent woman, and I was glad to get out of her reach.

365. The improvements they had effected were worth about what? I think I am far within the mark when I say £120.

366. You could not say how long they had been effected? It was a common ordinary hut, with a thatched roof, and they had done a little log fencing and grubbing, and had been doing other things about the place. There is a road that separates the land in two pieces, but the improvements generally speaking are on the right-hand side of the road. I went to caution these people and to warn them, but I got so treated that I was very glad to leave, and when my overseer took the writ to serve on them they very nearly brained him. §

367. Could you say what amount of improvements were effected by Clyne during the first month, before he was warned by your overseer? Very little; all that has been done by the Clynes has been done in the face of remonstrances and warnings which ordinary people would have taken notice of. They must have had bad advisers.

368. *Chairman.*] Was it customary at the time this ground was taken up by you on improvement purchase to put in such applications at the local land office, or to send them direct to Sydney? I should fancy the application to purchase the land in virtue of improvements was made direct to Sydney.

James Greer, Esq., called in and examined:—

369. *Chairman.*] You are a solicitor? I am.

370. Were you engaged for the defendant in the case of "Lord v. Clyne"? I was.

371. Would you tell this Committee the verdict of the Jury on that occasion? The Jury found that the improvements were under the value of £20, namely £19, but the Judge directed a verdict for the plaintiff, on the point of law that the Government had contracted with Mr. Lord for the sale of the land to him before Clyne's selection was taken up, and the full Court upheld this ruling.

J. Greer,  
Esq.

10 Oct., 1882.

372. *Mr. Burns.*] Were you in the Court when the Judge delivered his address to the Jury? No, I was not in the Court at the time the Judge was charging the Jury.

373. How did you come to know that the Jury gave the verdict on the point of law as advised by the Judge? I knew by the rule being applied for for a new trial, I knew that the ruling of the Judge was upheld by the full Court.

374.

\* NOTE (on revision):—I find it was my son—not overseer.

† NOTE (on revision):—My overseer pointed out the improvements, &c., &c.

‡ NOTE (on revision):—Fencing was injured by F. Lord, and the grubbed trees used by Clyne for a log fence.

§ ADDED (on revision):—So he informed me.

- J. Greer,  
Esq.  
10 Oct., 1882.
374. Was there evidence at the time of the trial that the improvements made by Mr. Lord had not amounted to £40? Yes.
375. That was part of the defence? Yes, that was part of the argument of counsel for a verdict to be entered for the defendant.
376. You, acting for the defendant, brought witnesses to show that the improvements made by Mr. Lord had not amounted to £40? Yes; I brought about ten witnesses to prove that the improvements were not to the amount of 20s. an acre.
377. And upon that ground you expected a verdict? Yes.
378. It was on the law of the case that the verdict went for the plaintiff? Yes, on the ground that the Crown had contracted with Mr. Lord to sell to him, and therefore the Court could not interfere.
379. *Mr. Jacob.*] Did it come out in evidence that the grant had issued to Mr. Lord before the selection was made by Mr. Clyne? No. The grant was issued on 3rd November, 1879; Mr. Lord's application was made in April, 1877.
380. The selection was made by Clyne in July, 1879? Yes.
381. Then the grant was issued after the selection? Yes.
382. *Chairman.*] Was it your opinion at the time that the ground was not improved to the extent of 20s. per acre, so as to bar selection? Yes; the law is clear that there must be improvements to the amount of 20s. an acre, and our argument went directly to that question.
383. In reality the verdict of the Jury on the merits of the case was in favour of the defendant? The verdict of the Jury was that the improvements were not worth £20.
384. Implying that the verdict should be for the defendant? Yes; although the law gave it to the plaintiff.
385. And you tested the question before the full Court, and the full Court decided against you? Yes.
386. *Mr. Burns.*] The verdict, whatever the grounds may have been, was upheld by the full Court? Yes.
387. *Chairman.*] You are aware that Mrs. Clyne was put to a large outlay in connection with this matter? I am. The trial was first set down for the 24th June, 1880, but went over till May, 1881. Mrs. Clyne brought her witnesses down for the first trial, and she was here for about three weeks; then the witnesses were brought down the second time to attend the trial when it came on in May, 1881, and they were in town for about a week—a little over a week.
388. Can you give the Committee any idea of the expense? Each witness cost about £50 for the two trips—£25 for each trip—and there were ten witnesses—say £500.
389. Irrespective of legal expenses? Yes; the costs and barristers' fees and refreshers came to about £300 for the two, including the new trial.
390. About £800 altogether? Yes; I have here an opinion of Mr. Darley, if you would like to hear it.
391. Does it support the case? Yes; it is a question about free selection under somewhat similar circumstances. A man named Starkey had taken up land on improvement conditions, and another man named Alce took up the same land, alleging that there were not improvements upon it to the extent of 20s. an acre, and he resided upon it for about three years. Starkey applied for the land under the improvement clause, and the Government gave it to him. There was a good deal of correspondence about it, and the opinion of Mr. Darley was taken upon the question as to whether the free selector had not a right to hold the land, on the ground that there were not improvements on it made by the other man to the extent of 20s. an acre. Mr. Darley gave a very strong and emphatic opinion. He said: "I have considered this case. The difficulty, if any there be, in determining the position of the parties, has arisen from the Minister interfering in a matter in which he has no more jurisdiction or power than I have. Where in the Act is there any power given to the Minister to cancel a selection once taken up? I am not aware of it, yet, from my own experience, I can state that the Minister for the time being is always trying to exercise this power, which case after case has settled does not belong to him. If, on the 15th June, 1871, this land was open to selection, no power could prevent Mr. Alce selecting it, and now holding it as against all comers. It was open to selection if, being Crown Lands, it did not come within some one of the prohibitions mentioned in section 13, one of which is 'containing improvements,' which are defined as not being less than a pound an acre. But who is to decide this—the Minister? Certainly not. No, this dispute must be settled, whether it exist between subject and subject, or between subject and the Crown, in the Supreme Court. My advice to Mr. Alce is, if he is in possession of the land, and is satisfied that it did not contain improvements at the date of selection to the extent of £40, to defend his possession against all comers, Starkey included, and to bring trespass as against any one who ventures to enter upon him. \* \* \* I advise him to disregard the action of the Government altogether, and to act as if there had been no hostile decision of a Minister, who has no power to decide anything in the case." So that Mr. Darley's opinion was that when there were not improvements to the extent of £1 an acre, any free selector can come in and take it and hold it against anybody.
392. *Mr. Jacob.*] Even though the Crown has contracted to sell or has issued the grant? He says it can be held against anybody. There is another point: that where there is a contest whether sufficient improvements have been put upon the land or not, there should be appraisers appointed; and there were no appraisers appointed in this matter at all—the Government refused to appoint them.
393. *Mr. Jacob.*] Did not the Judge who presided at the trial "*Lord v. Clyne*" decide contrary to the opinion of Mr. Darley, and was not his decision upheld by the full Court? Yes, no doubt; but Mr. Darley is very strong and emphatic.
394. Which should prevail, Mr. Darley's opinion or the opinion of the Court? Of course the Court must prevail. If appraisers had been appointed there might have been a different result, but there were none. Mr. Clyne made an application to have an appraiser appointed, but it was refused. If the Crown had appointed an appraiser the whole question might have been settled without going into Court.

## Private inquiry held at Cummoek, Burrawang Cross-roads, 7th December, 1881.

*Mrs. Susan Clyne's statement:* I am the widow of the late Alexander Clyne, who selected 100 acres in the parish of Burrawang, county of Gordon, on the 17th July, 1879; my husband erected two little huts on the land directly after he selected (shown as gunyahs on sketch), and we went to live therein about a month or six weeks after date of selection; when we went to reside on the ground the only improvements thereon were trees grubbed at the place marked A on sketch, and a wire fence crossing the portion; the trees had only been grubbed, and none of them had been removed; as soon as we went to reside on the land my husband, four sons, aged 22, 19, 16, 12 years at the time, and John Fogarty with a team of bullocks, first went to work to clear away the trees that had been grubbed in paddock A, to erect the fence, and to plough and sow the land; a man named John Tierney was engaged with two horses to do the ploughing; they were planting the paddock with maize at the time I received notice about the selection being voided; some of the land near the house had also been grubbed at the date of the notice being received; I cannot say how much after the notice was received; my husband and sons went on clearing paddock B, which was also cleared, fenced, and sown with corn the same season; I think the house was commenced about October, 1879—I cannot say positively when—and was finished in about four or five months; my husband went on grubbing the land on the west side of the road, until he was killed in the act of grubbing a tree thereon, on the 6th May, 1880; since his death I have done nothing to improve the land, but have lived there all the time; I am prepared to take a statutory declaration that this is a true statement at any time if so required; we went on improving the land after receiving notice of the selection being voided, because we were quite positive that sufficient improvements were not upon the land to debar it from selection, and so thought that there must have been some mistake.

Witness,—HENRY A. CROUCH.

SUSAN <sup>her</sup> × CLYNE.  
mark

*Re* Alexander Clyne's voided Selection of the 17th July, 1879.

*Alexander Clyne's statement:* I am the eldest son of the late Alexander Clyne, who selected land at Molong on the 17th July, 1879; my age is now 24 years; I remember my father taking up the selection; I first went to work upon it about a fortnight after he selected; I helped to build the two gunyahs; my mother and sisters went to live in them about six weeks after date of selection; at the time the selection was made the only improvement on the land was about 8 acres grubbed, and about 1 acre of trees chopped down at the spot marked A on sketch, and a wire fence running across the portion; none of the trees grubbed had been removed; the fence was broken in about the same state it is now; the first improvement effected by my father was to clear off the trees and fence the paddock A; it was also cultivated; I remember my father getting notice of the selection being voided; we were then planting corn in the upper paddock A; some of the paddock marked B was also cleared at that time; it had been all grubbed, and some of the trees cleared off; I cannot say whether any of the fence had been erected at that time; none of the land on the west side of the road had been grubbed at that time; corn was planted in paddock B about a fortnight after that in paddock A; the clearing of the two paddocks was carried on partly at the same time; we commenced to build the house about five weeks before Christmas; we had been getting the timber before that; the fence round paddock B was erected by my father; the dog-leg fence on the north side remained until last winter, but has been used for firewood; I think the fence round paddocks A and B to be worth £60 to £70 per mile; I reckon the paddocks as cleared now are worth from £5 to £6 per acre; I think the improvements to paddock A were worth from 30s. to 35s. per acre at date of selection; I estimate the gunyahs were worth about £10 when erected; I estimate the value of the house we lived in about £100—I cannot say positively; I am prepared to take a statutory declaration that this is a true statement at any time if required.

ALEXANDER CLYNE.

Witness,—HENRY A. CROUCH,  
6th December, 1881.

I have frequently heard my father say that as there were not enough improvements to debar selection that he must gain possession of the land, and so he kept on improving; he had the improvements inspected for value before he selected; we took about a month clearing paddock A.

*John M'Cudden's statement:*—I am a selector residing on the Doughboy Creek; I remember Alexander Clyne selecting 100 acres on that creek on the 17th July, 1879; my selection is on the opposite side of the creek; at the time he selected the land there were on it about 7 or 8 acres grubbed at the spot marked A on sketch; as the timber had fallen so it lay; there was also an inferior wire fence crossing the land; it was not sheep-proof in 1875; I think it was about three weeks after Clyne selected before he commenced to reside on the land; he then built two gunyahs; the first thing he did was to clear away the grubbed trees in paddock A and to fence it; he employed a man with bullock-team and his four sons; fenced and planted it with corn; they finished clearing paddock A before they tackled paddock B; before paddock A was ploughed the greater part of paddock B was cleared; I think it was about three or four weeks after paddock A was sown before paddock B was sown; I do not remember when the house was commenced; I consider the grubbing of paddock A at the date of selection to have been worth £14; I think the complete clearing of the paddock A, including erection of fence, to be worth £5 per acre; I think the gunyahs were worth £6 when first erected; I think a fair value for the house on the selection would be £40; I have no interest whatever in the land; I am prepared to take a statutory declaration that this is a true statement at any time if required.

JOHN M'CUDDEN.

Witness—  
HENRY A. CROUCH,  
6th December, 1881.

*Henry W. Sherringham's statement:*—I am a selector living next the land selected by Alexander Clyne; I remember Mr. Clyne making the selection; the improvements then on the land were about 7 or 8 acres grubbed at the part marked A on sketch; the trees had not been removed nor fence erected; there was a five-wire fence crossing the selection; I think Mr. Clyne commenced to clear some of the land within a week of his selecting it; the first improvement effected by him was falling trees near the house, and then erecting the two huts; he afterwards with his sons cleared paddock A, and then went on with paddock B; I do not remember his receiving notice that his selection was voided; he was continuously at work on the selection up to the time of his death; corn is usually planted here about October, and from then on to December; I think the value of the work done at paddock A at date of selection would be from 30s. to 35s. per acre; I think its present value, completely cleared, is about £5 per acre, including fencing; I think paddock B is about the same; I cannot say as to the value of the gunyahs, but I think two men ought to put one up in a week; I cannot say as to the value of the house; I have had experience in thatching; I think it would be worth £8 to thatch it as it now is; I have no interest in the selection; I am prepared to take a statutory declaration that this is a true statement if at any time so required; I do not remember if any of the clearing in paddock A was done before the sowing of paddock A.

H. W. SHERRINGHAM.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

LANDS DEPARTMENT.

(CHRISTIE v. HOSKINS.)

*Ordered by the Legislative Assembly to be printed, 30 August, 1882.*

RETURN to an *Order* of the Honorable the Legislative Assembly of New South Wales, made on the 9th December, 1881, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House,—

“A Return showing the costs in the case *Christie v. Hoskins*, with the names of the witnesses on behalf of the Government, showing the time engaged, the distance travelled, distinguishing the names of those who gave evidence.”

(*Mr. Murray.*)

RETURN showing the costs in the case *Christie v. Hoskins*, with the names of the witnesses on behalf of the Government, showing the time engaged, the distance travelled, distinguishing the names of those who gave evidence.

1882.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## DEPARTMENT OF LANDS.

(REPORT OF BOARD ON FRAUDS COMMITTED BY LATE ACCOUNTANT.)

*Ordered by the Legislative Assembly to be printed, 26th October, 1882.*

REPORT of the Board appointed to inquire into the frauds committed by  
 H. V. Harris, late Accountant of the Department of Lands, together with  
 Minutes of Evidence, &c. ; also subsequent papers relating thereto.

## SCHEDULE.

NO.	PAGE.
1. Report of the Board appointed to inquire into the "Harris Defalcations," together with minutes of evidence, &c. 27 February, 1882 ..	3
2. Mr. C. Rolleston (Chairman of the Board) to the Honorable G. Eagar. 1 March, 1882 ..	i
3. Memorandum by Mr. Under-Secretary Oliver, relative to the report of the Board. 17 May, 1882 ..	i
4. Memorandum by Mr. Chief Inspector Thomson on the subject. 12 June, 1882 ..	iv
5. Further Memorandum by the Under-Secretary for Lands. 4 July, 1882 ..	v

## APPOINTMENT OF THE BOARD.

Inspecting Branch, The Treasury, New South Wales, Sydney, 7 December, 1881.

Minute Paper.—Subject: The Harris swindles.

As it is now ascertained that Mr. Harris, the late Accountant in the Department of Lands, has been forging the names of several officers in that Department to refund vouchers, &c., by which the Treasury has been imposed upon, and under which large sums have been obtained under fictitious names, I think it is absolutely necessary that a Board should be at once appointed to inquire into this matter and endeavour to find out the full extent of the loss which the Government has thereby sustained. The Board should also be instructed to inquire into the whole system of refunds, in order to discover whether the check is loose, and if so, to devise one of a more satisfactory description. As both the Treasury and the Audit Departments have been imposed upon by the forgeries committed by Harris, I would recommend that an officer from each Department should be upon such Board; indeed, the Auditor General himself might very properly be appointed Chairman of it.

JAMES THOMSON, C.I.

I have conferred with Mr. Hoskins on this matter, and he concurs in the recommendation, and will prepare a minute on the subject.—J.W. Mr. Thomson.—G.E., 12/12/81.

### Memorandum for the Under Secretary.

In view of the extensive character of the frauds which it has been ascertained have been perpetrated by Mr. Harris, the late Accountant of the Department of Lands, I consider it would be advisable that a searching investigation should be made by some reliable and intelligent officers in the Civil Service of the Colony who are not in any way connected with the Department of Lands, and would therefore suggest that the Chief Inspector of Accounts in the Treasury (Mr. Thomson) and an officer from the Auditor General's Office should be requested to undertake that duty. I therefore trust that the Honorable Colonial Treasurer will approve of my suggestion.

J.H., 8/12/81.

The Under Secretary for Finance and Trade.—C.O., B.C., 9 Dec., 1881.

### Treasury Minute.

The Treasury, New South Wales, Sydney, 3 January, 1882.

The forgeries of the late Accountant of the Lands Department.

THE extensive character of the frauds and forgeries committed by the late Accountant of the Lands Office (H. V. Harris), as reported by the Chief Consulting Accountant of the Treasury to me, discloses a state of affairs quite unprecedented; and in view of the possible injury to the general public, I think it highly desirable that a Board should be appointed to inquire into the matter, and with the concurrence of the Secretary for Lands (or rather the late Secretary for Lands, Mr. Hoskins) I appoint—

The Auditor General (Mr. Rolleston),  
The Collector of Customs (Mr. Powell),  
The Chief Consulting Accountant to the Treasury (Mr. Thomson),

a Board to inquire into and report to me the extent of the forgeries and defalcations of the late Accountant (H. V. Harris) of the Lands Department, and also to inquire and find out the full extent of the loss which the Government has sustained, and also the extent to which the general public may be involved, by forgeries (if any) or otherwise; and as the question of refunds appears to have been involved in the defalcations referred to, I think it desirable the Board should inquire into and report upon the whole system of refunds, in order to discover whether the check is loose, and if so to devise one of a more satisfactory character; and I shall be glad to receive from the Board any suggestions, with a view to an improvement on the system now adopted in the office of the Accountant in the Lands Department.

J.W.

Request Mr. Rolleston, through the Colonial Secretary's Office, and advise Mr. Powell and Mr. Thomson.—J.W. Mr. Ross.—Letter to C.S. Dept. asking that Mr. Rolleston may act, do. to Mr. Powell, then forward papers to Mr. Thomson.—G.E., 3/1/82. Done.—M.R., 4/1/82. I think the Under Secretary for Lands should be informed also, and requested to provide a room for the accommodation of the Board.—J.T., 4/1/82. U. S. Lands accordingly.—M.R.

## REPORT.

THE Board appointed by the Honorable the Colonial Treasurer, by his Minute of the 3rd ultimo, to inquire into the extent of the forgeries, frauds, and defalcations committed by W. V. Harris, late Accountant of the Lands Department, and into the system of refunds now in operation in connection with the working of the Lands Acts of 1861 and subsequent amending Acts, as well as into the past and present management of the Account Branch of that Department, have the honor to submit the following Report for the information of the Government.

During the course of the inquiry the principal officers of the Lands, Audit, and Treasury Departments have been examined, also Mr. W. W. Stephen, late Under Secretary for Lands; two of the agents employed by Harris in connection with his frauds upon the Treasury; and Mr. Fearon, Teller in the Government Branch of the Bank of New South Wales.

From the evidence thus obtained the Board have arrived at the following general conclusions, viz. :—

1. That the frauds of Mr. Harris amount in the aggregate to £1,435 12s. 1d.
2. That no blame attaches specially to any officer in particular in respect to these frauds.
3. That the Account Branch of the Lands Department has not been conducted upon any intelligible principle.
4. That Harris did not possess the necessary qualifications for the position of Accountant.
5. That the system of refunds now in operation is not satisfactory.

In reference to the first of these, the Board desire to state that although £1,435 12s. 1d. is the amount of Harris' frauds, so far as they have been ascertained, the loss to the public will be only £435 12s. 1d., as £1,000 has to be recovered from the Society which guaranteed his fidelity. Two officers unconnected with the Department of Lands were appointed to examine and compare the books of that Department with those of the Treasury and Audit Office, with a view to ascertain whether any frauds had been committed beyond those which had been previously discovered

discovered by the Under Secretary for Lands and Mr. Freeman. This further examination has resulted in the discovery of four additional frauds, amounting in the aggregate to £70 13s. 9d. (*See Appendix W.*) The forgeries and defalcations discovered may be summarised thus:—

1. Forged cheques on the Under Secretary for Lands' Public Account in the Bank of New South Wales	£	s.	d.
	185	6	9
2. Forged authorities for payments to be made direct from the Treasury ... ..	1,212	4	6
3. Cheques abstracted ... ..	27	6	0
4. Minor deficiencies ... ..	10	14	10
Making together the amount above stated ...	£1,435	12	1

With respect to the forged cheques, Mr. Fearon, Teller in the Government Branch of the Bank of New South Wales, stated in his evidence that the signatures of the Under Secretary for Lands attached thereto are fac-similes of the signature supplied to the Bank by the Treasury at the time the account was opened in his favour, and that he believes they are Mr. Oliver's own signatures. On the other hand, Mr. Oliver distinctly states that he is prepared to swear they are forgeries, chiefly however on the ground that they were drawn for fictitious claims. In consequence of these conflicting assertions, the Board find it impossible to arrive at any satisfactory conclusion as to whether the signatures to the cheques are or are not genuine, although they are inclined to believe it quite possible that Harris placed these cheques before Mr. Oliver and that he signed them in full reliance upon Harris' integrity, which, until November last, had never been doubted.

It appears from the evidence of the Under Secretary for Lands, and of Mr. Ireland, the Accountant's assistant, that a new form of departmental cheque was introduced during Harris's tenure of office, but that no intimation of the change was made to the Bank, nor were the old cheque-books either locked up or destroyed. This unfortunate oversight was seized upon by Harris as a good opportunity for effecting his nefarious transactions, as it was by means of these obsolete or discarded cheques that all the frauds on the Bank were perpetrated. Had these cheque-books, which were marked "cancelled" on the covers, been either destroyed by fire or placed under lock and key by the Under Secretary, the forgeries on the Bank would have been rendered almost impracticable.

The forged authorities for payments to be made direct from the Treasury are chiefly of two descriptions, namely, fictitious claims against a vote of £1,000 taken in 1881 for compensation for land resumed for road purposes, and refunds of pre-emptive lease rents. Under the former of these heads Harris succeeded in passing no less than ten fictitious claims, amounting in the aggregate to £374 1s., and under the latter several of a similar character, amounting to £650 17s. 6d.

In addition to these, he perpetrated a clever fraud upon the Treasurer's Advance Account for the large sum of £187 6s. The authority for the payment of this amount purported to be signed by Mr. Oliver, and it stated that it was for "Compensation to Mr. William Richards for loss of improvements on land granted to him under an erroneous survey." This reason appeared so genuine, and so plausible, that the Treasurer unhesitatingly authorized the amount to be paid out of his Advance Account. After that, the document passed through the hands of several officers

officers in the Treasury and Audit Departments without question. The amount was placed upon the Supplementary Estimate and duly appropriated by Parliament.

In carrying out these frauds upon the Treasury, Harris employed several persons as agents, assigning as a reason for employing them that his position as a Government officer precluded his acting himself as agent for friends in the country. His motive for dividing his commissions amongst a number of persons is too apparent to require comment. The Board examined two of his agents, namely, Mr. Joseph Sutton, land agent, Sydney, and Mr. William Nicholls, warehouseman to Messrs. Saddington & Sons, of Barrack-street. The former of these, Mr. Sutton, seems to have been most frequently employed in this work, as from a return furnished to the Board by that gentleman (*Appendix S*), it appears that he acted as Harris' agent on twelve different occasions; and that in the aggregate his collections amounted to £823 9s. 5d., for which he received fees to the amount of £12 15s. Mr. Nicholls, it appears, only collected two sums, namely, £50 and £38 16s., for which he received fees of one guinea each. This gentleman stated to the Board that he and Harris had married into the same family, and that these transactions took place before the marriage of the latter.

The Board, having closely examined both Sutton and Nicholls, are of opinion that neither of them had any suspicion that Harris was acting dishonestly. At the same time they are not quite clear that the first-named agent has not rendered himself liable for two of the amounts received from the Treasury, owing to the irregular manner in which he conducted the cases to which these sums refer. The first of these cases is that of a sum of £74 0s. 8d., received from the Treasury on the 7th February, 1881, on account of Mr. Thomas Robertson, Hay; the second, a sum of £103 6s. 4d., received also from the Treasury, on the 30th March, 1881, on behalf of Mr. William Rudd, of Wanganilla, in the Hay District. In both cases Mr. Sutton, representing himself to be the authorized agent of the two abovenamed gentlemen, wrote to the Under Secretary for Lands, requesting that the requisite authorities be forwarded to the Treasury for the payment of their respective claims to him, which authorities, in accordance with such request, were duly sent, and the amounts paid to Sutton. Instead of remitting the money to his clients, Mr. Sutton states that he paid it to Harris. (*See question 2164 et seq.*)

The Board suggest that the opinion of the Law Officers of the Crown be obtained as to whether proceedings should be taken for the recovery of the amounts improperly received by Sutton, as the unauthorized agent of Messrs. Robertson and Rudd.

In support of the second conclusion, "that no blame attaches specially to any officer in particular in respect to these frauds," the Board desire to point out that as Harris entered the Department of Lands with excellent recommendations from the Auditor General, under whom he had served for a period of fifteen months with credit to himself and to the satisfaction of his superior officers, confidence was from the first reposed both in his integrity and his ability. There is abundant evidence that he was an efficient clerk, but not an accountant in the usual acceptation of the term. It was probably in consequence of his being a good penman, an expert clerk, and

and possessing a peculiar aptness for figures, that he was afterwards selected for the position of Accountant in the Lands Department on the retirement of Mr. Croft.

Another reason which induces the Board to believe that no blame attaches to any officer in particular in regard to these frauds is the fact that many of them have been perpetrated by clever forgeries not only of the names of officers of the Lands Department, but of presumed claimants and others, and by the concoction of fictitious claims of such a genuine appearance as to disarm suspicion and throw every one through whose hands they passed completely off their guard.

With respect to our third and fourth conclusions, which are to the effect that the books of the Account Branch had not been kept, during Harris's tenure of office as Accountant, upon any intelligible principle, and that he did not possess the necessary qualifications for that office, we had the evidence of two Treasury Inspectors, also that of Mr. Cohen the present Accountant, and of Mr. Ireland the Accountant's assistant. These officers all stated that the Cash-book—which should be the principal book of any system of accounts—was practically useless, as it was one-sided only. No entries had been made on the debtor side, and those on the credit side included payments by cheque on the public account of the Under Secretary for Lands in the Bank of New South Wales, as well as the amount of all claims forwarded to the Under Secretary for Finance and Trade for direct payment from the Treasury. Such a system as this was worse than useless, for it almost precluded the possibility of effecting a reconciliation between the balance in the Bank and the Cash-book, in which no balance was ever struck. It will be seen from the statements submitted to the Board by Mr. Inspector Kirkpatrick that there are numerous discrepancies between the balances on Parliamentary votes as exhibited by the Ledger kept in the Lands Department and the balances shown by the Treasury books, irrespective altogether of the discrepancies resulting from Harris' frauds. These discrepancies prove that the books have been carelessly kept, and that they are in consequence unreliable and almost useless for reference.

From the joint report of Mr. Pinhey and Mr. Oliver, who were instructed by the late Secretary for Lands, Mr. Hoskins, upon the discovery of Evans' delinquencies, to inquire into the system of accounts then in operation, and to make such recommendations as they thought necessary to place the Account Branch upon a satisfactory footing in future, it would naturally have been expected that any suggestions made by them with this object in view would have been carried out under the management of a new Accountant. It is, however, a remarkable fact that the most important recommendations contained in that report have been disregarded. When Mr. Oliver was questioned with regard to matters relating to the Account Branch, he stated that he was not aware these recommendations had not been carried out, and that he never had time to examine the books of the Accountant. Notwithstanding the very unsatisfactory state in which the books have been found, Mr. Oliver does not admit that Harris was incompetent for the position of Accountant; on the contrary, he says he was highly competent, but that he did not do his work properly. While the Board agree with Mr. Oliver that the work was not properly done, they go further and say they are perfectly satisfied, both from a personal inspection of the books and from the evidence of competent officers, that Harris did not possess the necessary qualifications for the office. Had the Bank pass-book been periodically compared  
with

with the Cash-book of the Department, the alleged fraudulent cheques would have been at once discovered; but this necessary and important duty was only performed on two occasions, and then in such a way by Harris as to prevent his assistant, Mr. Ireland, from becoming aware that such cheques had been drawn.

In support of the last conclusion,—“That the system of refunds now in operation is not satisfactory,” the Board think it sufficient to point to the very easy manner in which Harris successfully conducted frauds of this nature—frauds which, but for suspicions aroused in another direction, might have been going on still, as there appear to have been no means of detecting them in any of the Departments through which refund vouchers necessarily pass. In addition, however, to this self-evidence, the Board would also refer to the evidence of several of the officers whom they examined on this particular point, from which it will be seen that they do not consider the present system satisfactory, because it admits of too many officers authorizing on their own responsibility, although under competent authority, refunds of public money to almost any extent, and that too seemingly under no sufficient Departmental check. The Board entirely concur in this view, because they feel satisfied that under such a system frauds could, with the utmost facility, be perpetrated by the officers entrusted with the preparation of refund vouchers. Although as a rule these documents pass through the hands of one or two clerks before they are presented to the head of the Branch for signature, there is clearly nothing to prevent any one individual from doing all that is necessary himself, and then forging the signature of the officer authorized to sign on behalf of the Under Secretary for Lands.

While the Board are of opinion that the system of refunds now in operation is not satisfactory, they deem it only fair to state that the manner in which the refund business has been conducted in the Conditional Sales Branch has been less open to abuse; and that, so far as has been disclosed by the evidence, no frauds of any kind have been committed in connection with that Branch of the Lands Department.

It was, no doubt, the loose manner in which the refund business was conducted in the Lease Branch (where he was for some time engaged), and his knowledge of the Audit Office style of verifying these documents, which induced Harris to attempt this description of fraud, which he continued to perpetrate even after he had left the Branch and assumed the duties of Accountant. The vouchers which he fraudulently prepared when engaged in the latter capacity bore the alleged forged signature of Mr. Oliver, the Under Secretary for Lands, whose name was accepted for refunds at the Treasury and Audit Departments without question, notwithstanding the names of the officers authorized to sign refund vouchers had been previously duly notified to those Departments. From the evidence of several witnesses the Board is very much disposed to believe that some of the signatures attached to refund vouchers improperly prepared by Harris are genuine, although fraudulently obtained. They are the more inclined to this opinion from the fact that the officers themselves could not declare positively that they were forgeries.

Until the discovery of Harris' frauds, the refund voucher forms have apparently not been under the special charge of any one in particular, but allowed to lie about in a loose way, so that any officer could pick them up, and, if so inclined, use them

in a like fraudulent manner. Under such a system, or rather absence of system, it is a matter of surprise to the Board that frauds have not been perpetrated or attempted on a much larger scale than those which have been brought to light.

Many plans for establishing a check in future upon the issue of refund vouchers have been suggested to the Board, but the most of them, if not wholly impracticable, are of such a character as to relieve the Lands Department of its legitimate responsibility only by casting upon another Department a duty which does not properly appertain to it. After due deliberation, and after having carefully weighed the various propositions made, the Board have decided upon the following recommendations, in the full assurance that they will, if adopted and carried out in their integrity, prevent frauds in future in connection with refunds, or if they have not that effect, they will at all events enable the Auditor General to speedily detect them, unless such frauds should be the result of collusion on the part of all the officers concerned, on which it would be almost impossible to establish any check :—

1. That an officer of high standing—such as an Assistant Under Secretary or Chief Clerk—should be deputed by the Minister for Lands, to sign on his behalf refund vouchers of every description emanating from his Department.
2. That for this purpose this officer, whoever he may be, should on certain days visit the different Branches, and before signing the vouchers satisfy himself from a personal inspection of the papers in each case that the sums included therein are really the amounts which should be refunded.
3. That the refund voucher forms should be supplied by the Government Printer in books of 100 each, with butts attached; that both forms and butts should be numbered consecutively, and that each form should have the name of the Branch from which it emanates printed on the top of it.
4. That these voucher forms and their butts should, when required, be filled up by a trustworthy clerk, the refunds therein specified entered in a Refund Register by another clerk, and that both forms and butts should be initialled by the officer in charge of the Branch before they are submitted for the signature of the officer appointed by the Minister to sign them.
5. That, on being so signed, all refund vouchers, excepting those for lease rent refunds—which should be sent direct to the Auditor General for verification—should be forwarded to the Treasurer by the officer who signed them, in a specially prepared description of envelope kept under his own charge.
6. That monthly statements of all refund vouchers thus passed on for payment should be prepared and signed by the head of each Branch, and published in the Government Gazette, not only for general information, but to enable the Auditor General to effect a more complete and satisfactory check upon this description of payments; and that a copy of such notice, duly authenticated by the Under Secretary for Lands, be furnished to the Auditor General as an official record.
7. That so soon as the new form of voucher is brought into use, all the old loose forms should be destroyed by fire.

8. That the books containing the new forms should be kept under lock and key by the heads of the different Branches, who should be held accountable for every form by the officer deputed by the Minister to sign refund vouchers.
9. That all the officers connected with the preparation and signing of refund vouchers should be placed under security proportioned to their respective responsibilities.

With respect to the management of the Account Branch since the removal of Harris, the evidence submitted to the Board satisfies them that the present Accountant, Mr. Cohen, is a reliable and competent officer of considerable experience, and that he has already succeeded in placing the accounts of the Department upon a more satisfactory basis. Some of the books formerly in use are dispensed with as unnecessary, while those retained are being kept in accordance with the system adopted in other Government Departments, which admits of a periodical comparison with the books of the Treasury. The Board, however, recommend that either the Under Secretary or one of the higher officers of the Department of Lands should occasionally visit the Account Branch to see that the books are properly written up, and that the Bank pass-book be regularly compared with the Cash-book. They also recommend that all old cheque-books be either destroyed by fire or returned to the Government Printer, and that the Bank be instructed to honor no cheques but those of the new form, a specimen of which should be forwarded to the General Manager for his information as well as for the guidance of the Bank Teller.

Before drawing their Report to a close, the Board desire to express their appreciation of the ready, willing, and intelligent manner in which the various gentlemen they found it necessary to examine gave their evidence,—a circumstance which contributed in no small degree to facilitate the inquiry.

CHRISTOPHER ROLLESTON (CHAIRMAN).  
JAMES POWELL.  
JAMES THOMSON.

## HARRIS DEFALCATIONS BOARD.

## MINUTES OF EVIDENCE.

WEDNESDAY, 18 JANUARY, 1882.

Present:—

MR. POWELL, | MR. THOMSON,  
MR. ROLLESTON.

CHRISTOPHER ROLLESTON, Esq., IN THE CHAIR.

Charles Nicholson Jewel Oliver, Under Secretary for Lands, examined:—

1. *Chairman.*] You have, I suppose, collected as much information as possible in connection with Harris's defalcations? Yes; I did so until the Board was appointed, and I think I have arrived at their full extent; but as the frauds are by forgeries, it is impossible to say with certainty how far they may extend. Frauds have been traced back as far as August, 1879, and I think it is probable that none occurred before that date, as Harris was only appointed in April, 1879.

2. He was not Accountant then, was he? No; his appointment as Accountant took effect from 1st November, 1880, but he was acting in that capacity before; he had some connection with the Account Branch from the time that Evans's defalcations were discovered. When I went to that Branch to inspect the accounts I found Harris there—I suppose by Mr. Stephen's directions—endeavouring to unravel the difficulties and confusion caused by those defalcations. His connection with the Account Branch may be said to have commenced some time in July, 1880, although he was not appointed at the time.

3. Are you aware to what extent the defalcations have reached? In round numbers about £1,300, so far as discovered, and on account of the frauds I have made a claim against the Insurance Company of £900 odd.

4. Have you a statement in writing of the amounts, so far as you have discovered them? Yes; the total amount is £1,369 18s. 4d.

5. And you have the particulars which make up that amount? Yes (*producing paper*). This is recorded in the office, but I will send a certified copy of it. (*Appendix A.*) The claim I have made on the Insurance Company against that sum is £967 1s. 7d.

6. Why did you not claim the full amount? Because Harris's bond only dates from a certain time, and I could not make a claim for frauds committed before the date of the bond.

7. Can you tell us whether these defalcations are the result of forgeries in all cases, or only in some of them? They are all the results of forgeries except three; there were three cheques stolen,—one for £10, and two for £8 8s. each. These were cheques payable to individuals who were to call for them, and were in the custody of the Accountant, who cashed them through friends. I succeeded in tracing them, and from the discovery I made I laid the first information against Harris.

8. How did you first become aware or suspect that anything was wrong in connection with the Accountant? I fancied that he had not sent me the adjustments of advances so regularly as usual. I asked him for them, and he said he would bring them to me the next day. I told him on no account to delay doing so, and he said he would not. He brought them up to me. I am in the habit of going through the papers to see that vouchers correspond with the adjustment sheet which accompanies them. In doing so on this occasion I noticed one amount of £10 for which there was no voucher. I wrote a memo. asking Harris why he had presented that schedule as being correct. He made no written explanation, but said that the paper in question was not intended to come before me. I told him to let me have the voucher in proper form without delay; and I then made up my mind to go through his Branch and look over his accounts. I did not suspect fraud at that time, but I thought his accounts might be in arrear. But when I was on the point of doing this, an occurrence, which I need not further allude to than to say that it was in connection with the taking of the Census, occupied my undivided attention and put this matter of Harris's accounts out of my mind for the time. I then heard of a transaction with the Bank of New South Wales, which appeared then to be entirely outside the office, but which brought my thoughts back to the missing voucher; and thinking Harris's conduct very strange, I resolved to lose no further time in making an inspection of his Branch. Then it seemed to me that if I commenced an inspection and he had committed fraud he might levant. My suspicions being aroused, and wishing to prevent the possibility of Harris absconding, I obtained the services of a detective. The arrangement for surveillance by a detective was merely a matter between the Inspector-General of Police and myself. I did Harris no injury by getting a detective; the investigation might have proved him to be an honest man, instead of which it proved him to be a rogue. I sent for Harris, let the detective see him, and instructed the detective not to lose sight of him, or to take such steps as would ensure his being always in somebody's view. I went up to the Bank later in the day, and from information received I felt convinced that the transaction with the Bank had been as close to a fraud as possible, without there being then actual proof of it. Saw Harris and demanded his keys; he said they were at home. I thought that very strange, and told him to bring them the first thing in the morning. I said—"You have been guilty of some irregularities with the Bank of New South Wales" (I did not then know the full particulars), "and from what I see I think it is very improbable that you will be allowed to retain the position you hold in the Lands Department; bring me your keys in the morning." During the evening it occurred to me that

C. N. J.  
Oliver.  
18 Jan., 1882.

Harris might go to the office early the next morning, get access to his room, and destroy documents which would make it very difficult to arrive at a solution in respect to any irregularities which might have occurred. So I went to the office myself at about 7 o'clock in the morning and locked up his room, and told the housekeeper to refer any one to me who wanted to go into the Account Branch. A very few minutes afterwards Harris came there, went up to the place where the key of his office was kept, and not finding it there, asked the housekeeper, who told him that I had taken it. Harris then whistled and walked out, evidently, as I interpreted it, knowing that he was found out, and that I had locked up his room on that account. I had not the keys of his drawers then, but of course I could easily have broken them open. My great anxiety was to find out whether he had been playing the rogue—to get such information as I could and have him arrested, and then to take my own time in going through the books. For although I had taken all the precautions I could to prevent him from getting away, such precautions are not always successful, and I did not wish to be in a position to be told afterwards that I had entertained suspicions of an officer in my Department and had not taken the proper steps. I sent for Mr. Freeman, who is Head of the Ministerial Branch in the Lands Department, and told him to go to the Account Branch, giving him the key, and explaining to him that I had some suspicion of Harris, and to remain there and to see that Harris did not take away any books or destroy any documents, but otherwise not to interfere with him. But that precaution was unnecessary, as Harris did not come to his office again. Later on in the day I met him and asked him for his keys, and I said—"Judging from your action, you have committed some gross irregularity in the Department." He said he had been a great villain, and I should soon find it out. He said—"You could not help it, you will soon find it out." I told him it was useless to think of getting away, as I had taken precautions to prevent it, and that he had better go home and I would send for him if I wanted him. I then went back to the office and traced a £10 cheque which had been cashed, and looked for the voucher, which is now in the hands of the law officers; I found it was not receipted. The cheque I found had been lodged to the credit of Mr. Boyd, of Stubbs & Co., of George-street. I saw Mr. Boyd, and had some difficulty in getting any information from him. At last he admitted that he had cashed the cheque; it was in favour of Mr. P. W. Street. I then found Mr. J. R. Street, and asked him formally whether he had received payment in any other form on his brother's behalf, and he said he had not. Then I went to the Water Police Court, laid an information against Harris, and had him arrested at once, and after that I gave Mr. Freeman instructions to go on with the inspection of the books and documents in the Account Branch.

9. And the result of that inspection has been the discovery of defalcations amounting to £1,369 18s. 4d.? Yes.

10. Do you produce Mr. Freeman's reports on the subject? Yes, I have them here (*producing papers*). I will furnish certified copies of them (*Appendices B, C, D, and E*). One is dated 28th November, another 3rd December, and two others 6th December, 1881.

11. *Mr. Powell.*] I should like to ask whether your suspicions were aroused in the first place by any private matter not connected with the office? The £10 cheque was really the starting-point; it was a cheque in favour of Mr. P. W. Street, but it was made payable to Mr. J. R. Street.

12. *Chairman.*] For what services was it due? It was due to Mr. P. W. Street for travelling expenses; he is one of our conditional purchase inspectors; it was a good cheque—it was, in fact, a stolen cheque.

13. *Mr. Thomson.*] And you traced it to Mr. Boyd? Yes. Mr. Boyd stated that Harris alleged he had no banking account, and, as a friend, Boyd cashed it for him.

14. *Mr. Powell.*] And at this time you had no suspicion of any fraud? No.

15. *Chairman.*] You had no suspicion of the forgeries which were afterwards discovered? None whatever.

16. What was it that first aroused your suspicion? Certain cheques on the Bank of New South Wales. I had great doubts about the signatures being mine. Of course I had the particulars of them, but I suspected the cheques themselves; I felt perfectly satisfied they were forgeries, although excellent imitations of my signature, and so I looked up the cheque-books from which they were taken; this is one of them (*producing cheque-book*).

17. In whose charge was that book? It was kept in the safe which was in charge of the Accountant.

18. *Mr. Thomson.*] Did you get all the cheques back? No. I have three of them here which Harris has been charged with forging.

19. But seeing that he was charged with forgery, did you not consider it right to get all the cheques back to see if there were any more forgeries? No; I found the other cheques were legally drawn and had been properly applied. The first of the forged cheques was one for £5 in favour of petty cash, numbered 158,617, and dated 9 March, 1881. This was taken from a cheque-book (*producing cheque-book*) marked by myself "cancelled," and I could not possibly, under any circumstances whatever, have signed a cheque in that book, because the word "cancelled" is written in blue by me on the cover, and the office arrangements having been altered the form of the cheque itself is obsolete. The butt of this cheque has been taken out, and I never sign a cheque without seeing that the butt is properly filled up. Consequently, although the signatures are like mine, I am certain they are not genuine.

20. You say that you saw the other cheques at the Bank of New South Wales, and that they were for proper claims? Yes; I saw some of them only.

21. But when you discovered that Harris could forge signatures to cheques so cleverly, did you not think it possible that he might have imposed upon you in respect to claims also. For instance, he might have put cheques before you to sign purporting to be on account of proper claims while they were really fictitious ones? I do not think so; but if you ask me how we could arrive at the extent of his forgeries, I must say that can only be done by reference to every voucher in the office of the Auditor General for claims against the Department of Lands.

22. *Chairman.*] Mr. Thomson wishes to know whether the claims themselves may not have been entirely forged? Well, it is possible; there was the appointment of Mr. G. T. Hunt to the position of temporary clerk in the Lands Department, Conditional Sales Division, at 12s. 6d. a day; that was an imposition.

23. *Mr. Powell.*] That was altogether a fictitious claim for salary; in fact, he himself was Mr. Hunt? Yes, he was guilty of a fraud of that kind, but that and similar ones I have detected.

24. *Mr. Thomson.*] But how was it that, in the case of Hunt, Harris could draw the money—Is it not a fact that you give cheques to pay all the salaries of the Department? It was very simple; he signed the authority which purported to come from me, which was duly sent to the Treasury, and the money paid in to my credit; he then obtained the amount from the Bank by means of a forged cheque.

25. Was the cheque paid in your office? No, at the Bank; it was a forgery.
26. But are not the abstracts for such payments witnessed? Some of them are; but I find that in some cases the witnessing is dispensed with.
27. Then Mr. Harris could have filled up any number of abstracts and got the money for them? Hardly, because we should have become insolvent—that is to say, we should have found it out by the amounts. The next cheque, No. 158,618, is also, like the first, in favour of petty cash, and drawn on 17th March; the butt is not filled up.
28. Did the Bank not take exception to the cheques on account of the numbers not following in natural sequence? No.
29. Who kept the key of the safe? Mr. Harris had the only key; there is no duplicate key to that safe; it is one that was got originally by Mr. Lindsay Thompson, and I had it transferred to the Account Branch. Under any circumstances, if there had been two keys I should have given one to the Accountant.
30. Did you keep a large stock of these cheques on hand? There was a large quantity of them. Some time in July, 1881, I got permission from the Treasury to alter the form of the cheque-book, as to the size of the book, and the words Accountant and Under Secretary. When I had these alterations made, the old cheque-books which we had on hand were left in the safe, and it was these books which Harris used to commit the forgeries.
31. *Chairman.*] The blank cheque-book in use is kept in the safe in the office, and is entirely under the control of the Accountant? Yes.
32. What was his mode of procedure in getting these cheques signed for issue—I mean the ordinary cheques of the office? He produced to me the vouchers and the cheque-book; the cheques were drawn either by him or by Mr. Ireland, his assistant, and countersigned by him. If they are to be paid in to the credit of any one and the Bank is known, they are crossed “— Bank, to the credit of so and so,” and the Bank is stated. I see that this is done, and I insist upon having the same notation on the butt, so that I have, as far as possible, a *fac simile* of the cheque in the book. Of course when cheques are drawn for persons who call at the office for them they are not crossed. I never sign a cheque without the cheque-book being produced.
33. And of course after signing these cheques you have done with them? Yes.
34. And they go back to the Accountant for him to deal with? Yes; they are either paid to the persons who call for them or into a Bank. I may state that on one occasion—my attention was called to it by Mr. Ireland—Mr. Harris brought the cheque-book to me, and in signing the cheques, of which there were about fifteen, I turned over two leaves at once and left one of the cheques unsigned. Harris, it appears, tore these cheques out and brought one back to me, saying,—“You have forgotten to sign this one,” and I refused to sign it until he had brought me the cheque-book and voucher, which he did at once.
35. Is the signing of cheques a matter of daily occurrence? Of course it is not always the case, but I very frequently have to sign cheques for officers in the country, for travelling expenses and payments of that kind.
36. Are the salaries of the officers in your Department paid to them directly at the Treasury? No; the amount is paid in to my credit.
37. And then you sign the cheques for the salaries yourself? Yes.
38. The abstracts being signed in your Department? Yes; as a rule, all the officers at head-quarters receive their money personally,—all, I believe, with the exception of the Chief Commissioner and myself. The payments to inspectors and officers in the country are lodged in a Bank to their credit, and the teller signs for them.
39. *Mr. Powell.*] Are the butts of the cheques examined and compared with the Bank pass-book, as in a private establishment? Yes.
40. I mean that if you find £5 charged in the pass-book, you refer to a corresponding entry in the butt of the cheque-book? Yes.
41. Then a cheque drawn in the wrong book would be found to be a fraud? Yes; but the whole thing was in Harris’s own hands; he forged my signatures as well as his own counter-signatures. With regard to these forgeries, I may tell you that they are all his own handwriting from beginning to end.
42. *Mr. Powell.*] Do you insist upon Mr. Ireland initialling the cheques? No; he draws them, I sign them, and the Accountant countersigns them.
43. But supposing Mr. Ireland were directed by Mr. Harris to draw a certain cheque, would he insist upon seeing the voucher, or would he, acting under the Accountant’s authority, draw it without? That I cannot say positively, but from what I know of Mr. Ireland I certainly think he would want to know where the voucher was. To obtain a cheque properly drawn he would have had to use a different form, and he could not have handed the cheque-book I have produced to Mr. Ireland. I have no doubt—at least that is my impression—that, in comparing the Bank pass-book, Ireland would call out the amounts from the butts of the cheque-book in use, Harris taking the pass-book.
44. *Mr. Thomson.*] Or he might have done the whole thing himself? He might.
45. *Chairman.*] Is the Bank pass-book posted according to the numbers or the dates of the cheques? The numbers.

FRIDAY, 20 JANUARY, 1882.

Present:—

MR. POWELL, | MR. THOMSON,  
MR. ROLLESTON.

CHRISTOPHER ROLLESTON, ESQ., IN THE CHAIR.

C. N. J. Oliver, Under Secretary for Lands, further examined:—

46. *Chairman.*] We have read Mr. Freeman’s reports on the frauds which are the subject of investigation, and Mr. Thomson will re-open the inquiry by putting certain questions, which we shall be glad if you will answer as concisely as possible.
47. *Mr. Thomson.*] When were you appointed Under Secretary for Lands? On the 14th December, 1880, my appointment taking effect from the 7th November preceding, but I had been acting as Under Secretary before that time.

C. N. J.  
Oliver.  
18 Jan., 1882.

C. N. J.  
Oliver.  
20 Jan., 1882.

48. How long were you acting as Under Secretary before November, 1880? I think from about the end of August.
49. You were previously Inspector of Land Offices? Yes.
50. While acting in that or any other capacity, did you ever inquire into the working of the Account Branch? Yes.
51. What was the result of that inquiry? The result of that inquiry was the disclosure of certain irregularities in connection with the business of the Branch, and also the discovery of certain defalcations.
52. What was the amount of the defalcations that were then discovered? £988.
53. Who was the defaulter? The Assistant Accountant.
54. What was the name of the Assistant Accountant? J. E. Evans.
55. Who was the Accountant then? James Croft.
56. There was no defalcation on the part of Croft? No.
57. It was entirely on the part of Evans? Yes.
58. Do you remember the amount of defalcations for which Mr. Evans was apprehended? £818 15s.
59. Was there any forgery on that occasion? Yes, but it was forgery of a peculiar nature.
60. A cheque was manipulated? Yes, after signature; the cheque not having been properly filled up when signed.
61. There was no forgery of the name? No.
62. Had the Accountant any other assistant besides Mr. Evans at that time? No.
63. Then the Account Branch consisted only of the Accountant and his assistant, Mr. Evans? Yes.
64. Did you make any recommendation for improving the system of keeping the accounts on that occasion? Yes.
65. Can you describe that recommendation? It was in respect to the way in which the books should be kept, also as to how advances for petty cash should be obtained from the Treasury and adjusted, and also with regard to the manner in which cheques should be drawn and signed.
66. *Chairman.*] Were those suggestions put on record? Yes, I believe so; they were embodied in a report which I have not with me—it is at my office; it was a joint report by Mr. Pinhey and myself to the Minister for Lands.
67. *Mr. Thomson.*] Were your recommendations approved and carried out then? Yes, I believe they were, as a whole.
68. When was Mr. Harris appointed Accountant? On the 14th December, 1880, his appointment taking effect from the 1st November preceding.
69. What salary did he receive? £300 a year.
70. Do you think that sum was a fair remuneration for the duties he had to perform? I think an Accountant with like responsibilities might be paid a higher salary; at the same time I think it was a very fair salary to commence with.
71. Did he ever complain of its being inadequate? No.
72. What assistance had he as Accountant? He had one assistant, Mr. Ireland.
73. What salary does Mr. Ireland receive? He is on the temporary staff; I am under the impression that he gets 12s. 6d. a day, six days in the week.
74. How long was Harris in the Department before he was appointed Accountant? He was first appointed to the Department, I think, on 11th April, 1879. I know it was in April, '79.
75. And to what Branch was he appointed? To the Pre-emptive Lease Branch.
76. Who was the Head of that Branch at the time? Mr. Charles Brown.
77. What salary did he then receive? I think he entered the Department at 10s. a day.
78. And did he get any increase between that time and the date of his appointment as Accountant? Yes.
79. Can you tell us what the increase was? I believe it was 2s. 6d. a day.
80. Do you know what Mr. Harris's duties were in the Pre-emptive Lease Branch? They were chiefly in connection with keeping the pre-emptive lease rent books, and attending to the adjustments and the queries of the Auditor General.
81. In reference to the pre-emptive leases? Yes, of which there were a great number; also in connection with the refunds of pre-emptive lease rents paid in error or overpaid.
82. Do you think he had any opportunity then of committing forgeries or frauds of any kind? Yes, I know he did commit forgeries, because I have since discovered them.
83. Has Mr. Freeman's investigation gone back to that period? Yes, so far as it could be carried out, before it was determined to appoint this Board.
84. Has it gone back to the very commencement of Mr. Harris's services in that Branch? Yes, that is to 1879.
85. Was Mr. Harris in the Public Service before he entered the Lands Department? Yes, I believe so.
86. In what Department? In the Auditor General's Department.
87. I suppose you are not aware of the nature of his duties while there? No.
88. How is it that he left that Department and joined the Lands Department? He was specially asked for, I believe, by Mr. Brown, who was then the Head of the Pre-emptive Lease Branch in the Lands Department, for the reason that he was considered a highly efficient officer and particularly acquainted with the business pertaining to pre-emptive lease rents.
89. *Chairman.*] The business of the Pre-emptive Lease Branch was then in great confusion and arrear? Yes.
90. *Mr. Thomson.*] Did Harris come with good recommendations from the Audit Department? Yes, excellent.
91. When he became Accountant in your Department, did he receive any written instructions defining his duties? No written instructions.
92. He was allowed then to ascertain what his duties were as best he could? He received verbal instructions from me.
93. Had he any control over any other Branch of the Department—for instance, over the Record Branch? No.
94. How then did he come to intercept a Treasury letter, or rather a B.C. communication, authorizing the payment of £187 6s. from the Treasurer's Advance Account? He did not intercept the paper; it was sent to him as Accountant. I may tell you that I do not open all the letters that come to the Department; that would not be possible. I endeavoured to do so for a time, but it interfered too much with

with important duties. The number of letters on business which comes under my immediate control reached 60,000 last year. The morning post is opened by two officers specially directed to do so. Letters arriving during the day are opened by the gentleman in charge of the Record Room. All letters, after being recorded in the proper way, are sent to the Head of the Branch, who has charge of the particular business to which the communications relate, and in that way I have no doubt the paper to which you refer was sent to the Accountant.

C. N. J.  
Oliver.  
20 Jan., 1882.

95. Then was this letter or paper authorizing the payment of £187 6s. out of the Treasurer's Advance Account registered, or did it not pass through the Record Branch? It was registered.

96. Actually registered? Yes, after its return from the Treasury.

97. Did not that create suspicion at once? No; for no one could ever suppose that we could anticipate a forgery.

98. Is it not usual for letters leaving your Department for other Departments to be registered before they are sent away? No, nor in any other Department in the Service to my knowledge.

99. Then how can they be traced afterwards? By the press copies.

100. Was this letter press copied in the regular book? There is no press copy in the office letter-book, but I judge from its appearance that it has been press copied.

101. It has been press copied, but not in the office records? No; there is no press copy of it in the office. I produce the letter itself; it is dated 12th May, 1881. (*Appendix F.*) I discovered that Harris, in order to give a thoroughly genuine appearance to the letters he forged, was in the habit of press copying them, as it is well known that letters written in copying ink, if not copied, have a different appearance to those press-copied; they also differ if written in common ink. He was in the habit of writing them in copying ink, press copying them on the sheets at the end of a letter-book and then tearing out the copies and destroying them. As an illustration of this practice I produce press copies of three forgeries which were found among his papers (*exhibiting forms with forged signatures—Appendix G.*)

102. Did he give a fictitious number to that letter of 12th May, 1881? Yes.

103. Then was it not possible for the Record Clerk to discover when it came back that it was a forged letter? Yes, it was possible.

104. Because it was out of the proper run of numbers? It was possible, but only if the Record Clerk had obtained the paper which was quoted, and then compared them to see whether it related to the matter referred to in the letter. The number quoted is 81/7,088 C.S. This number was attached to papers referring to a proper claim against the Department by one Simon Richards, and these papers were with the Accountant. When the letter in reference to the advance from the Treasurer's Advance Account was returned from the Treasury, it was registered and connected in pencil, as is the proper custom, with the paper quoted, and a note made on the paper registered that the former paper 81/7,088 was with the Accountant. The paper last registered was sent to the Accountant, as relating to a matter coming within his Branch. It will be seen from what I have stated that the number on the forged letter was that properly attached to Simon Richards's case, and I may state that there is no such case in the Department as that mentioned in the letter to the Treasury of 12th May, 1881.

105. You say your Record Clerk connected the forged letter with the paper quoted. In so connecting the papers in his register, would he not be able to discover that the amount mentioned in the letter to the Treasury was different from the amount mentioned in Simon Richards's case? In all probability there would be no amount mentioned in the register in connection with Simon Richards's claim. A claim would be made by Simon Richards, and the amount would be determined afterwards. The decision would be arrived at on papers already recorded, therefore the amount would not be stated in the register, as it was not determined or known when the letter was received.

106. *Chairman.*] What does your registration proper provide for? The numbers of letters received.

107. The name and date of receipt? Yes, and the residence of the writer, and the subject of the letter.

108. *Mr. Thomson.*] Is it the usual practice of your Record Clerk to send papers to other Branches of the Department before they are seen by yourself? Yes.

109. Then you do not initial these papers or mark them off? No.

110. But you surely distinguish between that kind of correspondence and correspondence of a more urgent character? I have no means of distinguishing.

111. Are no letters submitted to you at all? Yes, they are all submitted to me, but they are not opened by me; they are opened as before stated.

112. But, as I understand you, these letters go to the Heads of other Branches without your knowledge? Yes.

113. Well, that being the case, would the letters go from the Record Branch to you? No; the Department is divided into certain Branches or Divisions, for each of which a record book is kept, and there is a Head to each Branch. When the letters are opened in the morning, they are sorted according to the class of business to which they relate, and handed to the different Record Clerks in the Record Room and registered. Former papers are quoted or obtained if possible and connected, and then they are sent to the Heads of the Branches which have to do with the particular business to which they relate, who then submit them to me.

114. *Chairman.*] Then this process in many cases must occupy a considerable time before the letters come to you? Yes; but all urgent cases are, by direction, brought specially to me.

115. *Mr. Powell.*] All the correspondence is supposed to go through your hands, is it not? Yes, in the manner stated.

116. *Chairman.*] Can you give us the names of the persons who open the letters? Yes; Mr. Freeman, the Head of the Ministerial Branch, and Mr. Patterson, who is in charge of the Record Room.

117. Then Mr. Freeman and Mr. Patterson together classify the letters, and they are distributed under their orders to the different Branches to which they belong? Yes.

118. *Mr. Powell.*] And are they separately recorded in each Branch? In the Record Room registers are kept for each Branch, and they are registered there.

119. *Mr. Thomson.*] Do these two gentlemen record the letters themselves in any book? No.

120. They simply open and classify them? Yes; and if there is any money in the letters it is entered in a book kept for the purpose and brought to me. I go over the amounts and see that the entries are properly made and endorsed on the letters, and that the different amounts have been initialled by Mr. Freeman or Mr. Patterson; that is my security that the money has been received and entered, and Mr.

Freeman

C. N. J.  
Oliver.  
20 Jan., 1882.

Freeman or Mr. Patterson, whoever has initialled the amounts, is responsible for it until he gets some one to take the responsibility from him, which is generally the Receiver at the Treasury. Of course it is well known that we do not collect revenue, but large amounts of money are improperly sent to the Department.

121. How long did Mr. Harris hold the position of Accountant before suspicions of his integrity were aroused? Nearly twelve months.

122. You had full confidence in him up to that time I presume? Yes; he came to me with the highest testimonials that a man could possibly have; there was no question of his ability, his attendance was regular—in fact I do not think I ever sent for him that he did not come or give some satisfactory reason for his non-attendance.

123. Was he a married man? He was not when he was appointed, but he married since.

124. Did you ever hear that he was an extravagant young man? No.

125. About what date were your suspicions first aroused? About November last.

126. Then after that how long was it before you had him arrested? From the date that I had well-grounded suspicions of him only two days elapsed until he was arrested.

127. Did any of the forgeries or swindles take place in the interim? No.

128. Nothing of that kind took place? No; in fact there was £86 in the Treasury awaiting payment that I prevented him getting.

129. When did you instruct Mr. Freeman to investigate his accounts—was it before or after his arrest? After his arrest.

130. You stated that the result of his inquiries has been to bring to light forgeries and frauds to the amount of £1,369 18s. 4d. Now can you tell us into how many classes of fraud this amount can be divided—that is, how many forged documents were sent to the Treasury, what sums entrusted to him were embezzled, and how many forged cheques there were? He forged cheques to the amount of £195 6s. 9d., the stolen cheques, and moneys embezzled amounted to £28 16s., and the balance were forgeries on the Treasury.

131. Did any of these frauds occur in Mr. Stephen's time; if so, can you state how many and to what amount? As far as I can state there were five, making a total of £149 17s. 5d.; these are the forged authorities for payment (*producing them*).

132. Were these forgeries? I believe so, for this reason, that there were no such claims in existence, and the refunds were not properly payable.

133. Have you submitted them to Mr. Stephen? No; those purporting to be signed by Mr. Wilson are, I believe, frauds.

134. Then you are not quite positive on the point? No; but I have very little doubt of it. The reason I think they are forgeries is that no such amounts could be properly refunded.

135. But you could not swear that they are forgeries? No.

136. Before Harris was arrested did you submit any of these accounts or documents to him and ask for an explanation? No.

137. I suppose you are not certain that you have discovered all Harris's frauds? No; but I fancy they have all been discovered, although there may be some yet undiscovered.

138. But it is quite possible that others may be discovered? Quite possible. I did not attempt to complete my researches when I was informed that a Board was about to be appointed.

139. Did any one outside the Department give you information which enabled you to discover any of these irregularities? Yes; the bulk of them were discovered through information received from outside the office, as there is no record in the office of any of the transactions with the exception of two. If I had not obtained information outside the Department none of the frauds by refund would have been discovered, and the same may be said of some of the others.

140. Who gave you this information? Various persons employed by Harris.

141. Can you give us their names? Mr. J. Sutton of the Exchange, Mr. William Nichols, Mr. A. J. Campbell, Mr. A. Gilder, and Mr. C. B. Walsh appear to have acted as agents. I obtained information from the first three named.

142. Do you think these persons would be willing to give information before the Board? I am perfectly satisfied Mr. Sutton would, and I have no doubt the others would, if to be found.

143. *Chairman.*] Have you any reason to think they were at all in collusion with Harris in the transactions in which he was engaged? I can only accept the assurance of those to whom I have spoken. Sutton said he believed that Harris was doing this business for some friends, and that he accepted Harris's statement that he could not attend at the Treasury and receive the money.

144. Harris divided the business with these persons, did he not? Yes, although Sutton was his principal agent.

145. But he gave enough to the others to divert suspicion from Sutton? Yes; but Sutton is a land agent and no amount of business would create suspicion in respect to him.

146. *Mr. Powell.*] What business do the other three persons follow? Campbell is a collector in this town, Nichols is a storeman, Gilder, I believe, is a lawyer's clerk, and Walsh is not to be found, he was formerly with Willis & Co. I have made every possible effort to find him; it is supposed he went to Queensland.

147. *Mr. Thomson.*] Do you not suppose from the nature of some of these persons' occupations that they must have been in collusion with Harris? I should not like to say. I can only state that, after a little squeezing, I got information from Messrs. Sutton, Nichols, and Campbell which enabled me to detect frauds which I am quite sure would not otherwise have been discovered.

148. I suppose you are not aware that Harris acted as agent for any one in the country? No; if he had he would have lost his position in the Department.

149. As a matter of fact, did you ever find that he acted as a *bona fide* agent for any one? No, so far as the documents disclose his action.

150. Although you may have given the information before, I would like you to answer this question for another purpose—How many forged cheques were paid by the Bank? Thirteen (*referring to papers*).

151. What do they amount to? £195 6s. 9d.

152. Does the Bank admit that they are forgeries? I never asked.

153. Have you included the amount of these forged cheques in your claim against the London Accident and Guarantee Company of £967 6s. 9d.? Certainly; their policy is an absolute indemnity against loss; it

it was on that account that I made the claim. I do not know that we may not afterwards have to make a claim against the Bank, but, as I considered it my duty to recover the money in the easiest possible way, I claimed the amount from the Guarantee Company. I consider the Company liable under their policy for any loss whatever.

154. Have you had any legal opinion on the subject? The Crown Solicitor made a claim on the Company with the full knowledge that the claim embraced forgeries.

155. Supposing you had to exclude from your claim on the Company some of these forged cheques, could you not make up the sum of £967 6s. 9d. out of other forgeries, such as those on the Treasury? No, not from the information of which I am at present possessed. The claim I have made is only a preliminary one, and does not prevent me from preferring a further claim at any future time.

156. Can you positively state that the cheques are all forgeries? Certainly they are forgeries, and I am prepared to prove it to the satisfaction of any intelligent jury.

157. How are you sure that they are forgeries—is it because they are drawn for fictitious claims, or what is it? There were no such sums payable, and, although in many cases the signatures are very like mine, it was impossible for me to have signed any cheques in the books from which these were taken, at that date.

158. Do you mean to say that if these forged cheques had been brought to you to sign, you would have detected that they were not properly drawn and taken out of the proper book? Yes; I am not in the habit of signing any cheques except in the cheque-book, and I am always particular that the Accountant initials the butt of the cheque.

159. You did not do that yourself? No.

160. Can you tell us what books you had in the Account Branch during Mr. Harris's time? There was the appropriation ledger and the cash-book, besides auxiliary books.

161. *Chairman.*] Had you an advance register separate from the general ledger? No, the advance register is not separate.

162. *Mr. Thomson.*] Did Mr. Ireland keep any of these books? Yes. I may say generally that he kept all the books except the petty cash book.

163. Mr. Harris kept the petty cash book? Yes.

164. Can you inform us whether any of the payments for forged cheques have been entered in the cash book? They only appear in the Bank pass-book.

165. So that Mr. Ireland had no opportunity of making any discovery? No, except in comparing the Bank pass-book with the cheque-book, and I have already explained how that could be done, so that he would not discover any irregularity.

166. Since you were last before the Board have you not asked Mr. Ireland that question—whether he compared the Bank pass-book with the cheque-book? No, I have not spoken to him since.

167. I understood you to say that you did not consider it part of your own duty to compare the Bank pass-book with the butts of the cheque-book? Yes, it would be impossible for me to do it; the Accountant attends to this matter; he gives security for £1,000 for fidelity.

168. Had Mr. Ireland charge of the vouchers for payment? As a rule he prepared the forms of adjustment, and for that purpose he would have the vouchers, but in the case of forgeries of course he would not.

169. Did he examine the claims before they were submitted to you? No, it was not part of his duty.

170. That was the duty of the Accountant? Yes.

171. You did not then look at the vouchers to discover whether they had been initialled by Mr. Ireland? No. It is the duty of the Accountant to initial all vouchers.

172. Were the adjustments of advances in arrear at the time of Mr. Harris's apprehension? No; I think they were all within three months, being the period allowed.

173. You say that Mr. Harris kept the petty cash book. What amount did you allow him at one time for petty demands? We have been in the habit of obtaining an advance of £25 for this purpose. That £25 was paid into the Bank, and I drew cheques against it when required.

174. And how much did you give him at one time? I think £10 was the largest amount I ever drew; as a rule I used to draw £5 at a time. Our rule with regard to petty cash is this: we never apply for a fresh advance until we have adjusted the previous one, so that any fraud that might be committed must be limited to the £25 last drawn.

175. Do you examine the accounts in adjustment of the advances from the Treasury? Yes; I write to the Treasury stating that I have adjusted the previous advance, the adjustment accounts having then gone to the Audit Department. If that were not carried out I should not get the further advance. That is one of the suggestions contained in the joint report by Mr. Pinhey and myself previously referred to.

176. *Mr. Powell.*] You are not prepared to say that these cheques are forgeries? I am prepared to say that they are forgeries.

177. But not from the evidence of the cheques themselves. Are you prepared to take one of these cheques and say "this is a forgery"? No.

178. You are only prepared to say that they are forgeries because the documents they represent are forgeries? Yes, I am prepared to swear that I never signed one of these cheques.

179. That you never signed one of these cheques? I know that I could not have signed them, but they are filled up by the Accountant who signed them, and the only forgery is my signature, and the imitation is excellent. If that signature on a blank document were put before me I should not like to swear it was not mine.

180. As there is only the Accountant and an extra clerk in the Account Branch the work must be very light? It is not very heavy, but quite enough, if not too much, for two officers.

181. And there is very little money passing through their hands? There were sums amounting to £79,000 which passed through last year.

182. *Mr. Thomson.*] But that sum does not pass through your hands: your Departmental vote does not represent that sum; for instance, you have a large vote for recreation reserves, but you do not keep the accounts of those reserves in your books, and the money does not pass through your hands? No; but the amount of work in authorizing the Treasury to pay the amount is just as large as if we paid it ourselves.

183. *Chairman.*] But the responsibility of handling the money does not rest with you? No.

184. *Mr. Powell.*] In your opinion, would any person unacquainted with the ramifications of the land system and the working of your Department be able to perpetrate these frauds? No, I do not think so.

C. N. J.  
Oliver.  
20 Jan., 1882.

185. When Mr. Croft was Accountant, was Evans an extra clerk? No, but Ireland is an extra clerk.  
186. Then there were no extra clerks in Croft's time? No, not in the Account Branch.  
187. So that Ireland was under the control of Harris, who could get him removed if he liked? He could not be removed without a full investigation.  
188. But would Ireland's position allow him to feel himself independent? He might not feel independent, but he is so far as any subordinate can be.  
189. *Mr. Thomson.*] Since the discovery of these frauds have you sent to the Audit Office to see if any of the petty cash adjustments have been manipulated? No; the adjustments were examined and passed, and I did not think it necessary to re-examine them.  
190. You would not sign the abstracts without going through the vouchers, would you? No; I examine the vouchers before I sign the adjustment sheet, though I should not, perhaps, make a specially critical examination, but sufficiently critical to detect fraud, as all expenditure on account of petty cash is passed by me before payment.

MONDAY, 23 JANUARY, 1882.

Present:—

MR. POWELL, | MR. THOMSON,  
MR. ROLLESTON.

CHRISTOPHER ROLLESTON, ESQ., IN THE CHAIR.

C. N. J. Oliver, Under Secretary for Lands, further examined:—

C. N. J.  
Oliver.  
23 Jan., 1882.

*Witness:* Before I give any further evidence I would like, with the permission of the Board, to say a few words in reference to a question put to me on Friday last on the subject of Evans's defalcations during the time Mr. Stephen was Under Secretary for Lands. It is of course well known that Mr. Stephen's removal from that office was connected with those defalcations, or presumed so. A question was put to me as to the amount of Evans's defalcations. I did not answer it at the time, but I supplied the information afterwards. The amount was £988. Another question was put to me as to the amount of the fraud upon which Evans was arrested, which I was obliged also to answer; it was £818 15s. That is as far as the questions went, and then the subject of Harris's frauds was resumed. Now, when the result of this inquiry in the shape of a recommendation from the Board and the evidence taken goes before the public, it will appear that Mr. Stephen lost his position because an officer in the Department under his control committed defalcations to the extent of £988, while Harris has committed defalcations amounting to £1,300 odd; the inference without further explanation being that a heavier censure apparently attaches to the Under Secretary in connection with Harris's case than Evans's. Nothing appears in the evidence as to the manner in which the Account Branch was conducted when the Evans frauds occurred; there is the bald statement that in his case, and while Mr. Stephen was Under Secretary, the defalcations amounted to £988, while in the case of Harris it is clearly shown that there have been various frauds extending over a long period of time amounting to £1,300; and the mere facts given, without evidence as to the way in which the frauds were carried out in both cases, would lead to invidious comparison. I think it only right to draw attention to this matter in my own interest. If the Board have power to go back to Evans transactions, let them be gone into fully, or not at all.

*Mr. Thomson:* My object in questioning you as to what occurred in Mr. Stephen's time was merely to elicit the fact that there had been an inquiry by a Board and that you had put the Branch on a different footing since; it was not, as you seem to think, for the purpose of contrasting the defalcations in Mr. Stephen's time with those which have occurred in yours.

*Chairman:* I do not see that the facts which have been elicited prejudice you in any way.

*Witness:* I am quite satisfied to have been allowed to draw attention to the matter, so as to avoid being placed in a false position hereafter.

191. (*Examination resumed.*) *Mr. Thomson.*] Have you any idea of the amount of lease rents annually refunded by your Department? No; last year there were 4,000 applications for leases, of which about 2,700 were granted; some are not yet disposed of, and about 700 have been refused, and refunds of the amounts of rent paid in the latter authorized. That is all I can say at present, but I can supply a statement giving the exact amounts; it is a matter that requires calculation and cannot be answered off-hand. (*Appendix H.*)

192. Will you kindly describe, if you can, the nature of these refunds? They are various. An application is made to lease land, and the rent is deposited with the local land agent. The money is then transmitted by the local land agent to the Treasury. The application is sent to the Department of Lands and recorded in the Pre-emptive Lease Application Register, and the question of the land being available or not is then gone into. If the land is available the lease is granted; if not, it is refused, and any money paid on account of a lease which is not granted is authorized to be refunded.

193. *Chairman.*] Does not a year or two often elapse before it is ascertained whether the land is available or not? Not now; that was the case before the reorganization of the Pre-lease Branch, when leases were granted without inquiry being made as to whether the land was available or not; but now all claims are investigated as soon as possible after the receipt of the application and before the leases are approved and gazetted. Another cause of refund is the total alienation of a lease. It happens that holders of many and extensive pre-emptive leases continue to pay rent for some time after the land has actually been alienated, and then claim a refund.

194. Do you mean that the lease has been alienated or the conditional purchase? The land which forms the lease, and the lessee then applies to the Department for a refund and gets it.

195. *Mr. Thomson.*] Will you explain to us how a lease can be alienated to another person and the rent paid by the original leaseholder? A conditional purchaser, for instance, has a pre-emptive lease, under which he possesses certain rights, but the law does not prevent that pre-emptive lease from being taken up by conditional purchase, nor does it prevent the land from being sold by auction if the Minister for Lands sees fit to sell it; and therefore in that way the holder of a pre-emptive lease may lose the whole of it by alienation, and yet he may have paid rent in ignorance of the fact.

196. Have you ever made a refund on account of a pre-emptive lease having been granted to a person who had selected land on another person's pre-emptive lease? A pre-emptive lease is never granted out of a pre-emptive lease.

C. N. J.  
Oliver.

23 Jan., 1882.

197. By whose authority are these refunds made? When the amounts are small, on the authority of the Under Secretary for Lands; the refund of large amounts are submitted to the Minister for approval.

198. Then as a matter of fact they come before you before the refund is authorized? Yes.

199. Do you keep a register of the amounts authorized? Yes, a "Refund Book" is kept in the Pre-emptive-lease Branch. There was no such book kept before that Branch was reorganized by me.

200. In what year was that? I think it was in 1879.

201. Who prepares the refund authorities for submission to you? The refund vouchers are scarcely ever submitted to me.

202. They are sent with the papers? The refunds are authorized on papers submitted to me.

203. The authorities are signed by the Head of the Pre-lease Branch? Yes, he holds an authority from me to do so, and that authority is communicated to the Treasury.

204. Then you never see what action has been taken after you have initialled the papers or authorized the refund? Seldom in these particular matters: the refund being claimed, approved of, and payable, it is only a matter of form to fill up the document and send it to the Treasury in order that the money may be paid.

205. After that the whole responsibility rests with the officer in charge—the Head of the Branch? Yes.

206. Is it possible for the Head of the Branch to forge these documents without the knowledge of any person in the ranch? Yes, as Harris did.

207. *Chairman.*] As he did when he was employed in the Pre-emptive Lease Branch? Yes.

208. It was there, I think I understood you to say, that these frauds commenced? Yes.

209. *Mr. Thomson.*] How many of these refund leases were forged by Harris, can you tell us (*referring to papers*)? So far as I have discovered there were nine, each refund embracing more than one forgery.

210. That is the order to receive—? No, I do not even refer to that: there is the forged letter to the person in whose favour the refund is authorized sent to the care of the agent who acted as it were for him, but really for Harris, and the forged authority for the refund sent to the Treasury.

211. Can you tell the Board the nature and amount of the forgeries committed by Harris under each head or description of forgery? Yes—

Forged cheques ... ..	£185	6	9
Forged authorities on vote for resumption of land for road purposes. Item 363,			
Appropriation Act, 1881 ... ..	374	1	0
Forged authority for payment from Treasurer's Advance Account ... ..	187	6	0
Forged authorities for lease rent refunds ... ..	580	3	9
Larceny or embezzlement ... ..	37	6	3
Other deficiencies. (particulars not known) ... ..	14	7	
	<u>£1,364</u>	<u>18</u>	<u>4</u>

212. You said, I think, that it was in 1879 that you reorganized the Pre-emptive Lease Branch? Yes.

213. I find that in 1879 no less than £4,703 were refunded on account of 1878 and previous years? Yes.

214. That proves, does it not, that the work was very much in arrear? Yes, it was very much in arrear; I think there were 5,000 cases in arrear in 1879.

215. I presume that you have examined all these nine cases, and satisfied yourself that in each case the signature to the authority for refund is a forgery? Yes, except in the cases of Mr. Brown's and Mr. Stephen's signatures. I could not satisfy myself as to Mr. Brown's signature, because of his ill health, and I did not think it necessary with regard to Mr. Stephen's, there being no claim in existence like that for which the amount was paid.

216. Do you think it possible that other cases of forgery exist besides those you have discovered? It is possible.

217. Do you think it is probable? I should not like to say it is probable; because, although I did not complete my researches, I think, having gone back as far as August, 1879, it is scarcely probable that Harris commenced his forgeries before, as he only entered the Department in April, 1879. At the same time, there is only one way of arriving at the extent of his forgeries, and that is by a strict examination of every voucher deposited in the Audit Office. My discoveries have been made apart from anything that could possibly be detected in the Department. None of these forgeries are recorded in our books, and if a staff of Inspectors were appointed to make the most searching inquiry they would find no trace of any of them. It is only from information I gathered from Sutton and others with regard to amounts received by them and paid to Harris that I was able to trace the forgeries. It is hardly necessary to mention that I obtained the vouchers from the Audit Office, where they had been accepted as genuine.

218. *Chairman.*] And you have them in your possession now? Yes; I have given a receipt for them.

219. *Mr. Thomson.*] Did any of these forgeries occur after Harris had left the Pre-lease Branch? Yes.

220. And how did he obtain possession of the forms—had he access to the Pre-emptive Lease Branch at all times? He would have access to the Branch, having been formerly connected with it, and no doubt at times referred to it in connection with matters that he had specially to attend to; he was probably in that Branch at various times. I do not say this of my own knowledge, and I cannot say when or under what circumstances he went there.

221. *Chairman.*] Mr. Wilson, who had charge of the Branch, would be able to tell us? Yes, Mr. Wilson or Mr. Curry, who is now in charge.

222. *Mr. Thomson.*] Then you are not aware whether these forms were kept under lock and key, or whether any person could have access to them and fill them up? I am not aware that they were, or that any forms are kept under lock and key.

223. Would it not be as well that these forms should be in books with butts to them, and that all the loose forms lying about should be destroyed? No doubt that would be an improvement.

C. N. J.  
Oliver.  
23 Jan., 1882.

224. Do you know who received the money from the Treasury in these forgery cases? Several persons; I have mentioned their names before—Sutton, Nicholls, Campbell, Welsh and Gilder.

225. Do you think any blame attaches to the Treasury officers in regard to the payment of these forged authorities? It could not be known at the Treasury that the orders were forged.

226. But was there, in your opinion, any precaution they could have exercised which they did not? I think there is one precaution which might be adopted, and that is to ascertain that the Magistrate attesting a signature, or the person represented as attesting the signature, is really a Magistrate. In many instances the names attached to these authorities are not the names of Magistrates.

227. Then if it were possible for the Treasury to have adopted this precaution, it was still more the duty of the Audit Department? I know nothing about the system of audit, and therefore I should not like to express an opinion about it.

228. *Chairman.*] You think a comparison of the signatures on the authorities to pay with the list of Magistrates would be desirable? I think so. Even the actual signatures of all Magistrates might be obtained, and kept in a Signature Book. I do not know whether it would be practicable for the Treasury to have the signatures of every Magistrate in the Colony, but I do not see why it could not be done. The Savings Bank have a great many thousand depositors, and they have the signatures of these depositors recorded, and before they pay any money reference is made to the Signature Book as to the signature of the payee being genuine. I do not see why the same plan should not be pursued in the Treasury in respect to refunds.

229. *Mr. Thomson.*] Even supposing the Treasury had had the signatures of all the Magistrates of the Colony to refer to, could he not have selected one of these? Yes; but he did not do it; and it was only because I discovered that in one instance the man whose name he had signed had been dead for two years that my suspicions were aroused. I then sent the whole of the documents to the Colonial Secretary's Office to have them compared with the list of Magistrates, and, so far as could be ascertained, the names, with one exception, were not those of Magistrates. Referring to my previous remark about the Savings Bank, I have here a list of their transactions for last year, which shows that there were 36,929 depositors, and of course the Savings Bank must be in possession of the 36,929 signatures of these depositors.

230. You have no reason to suspect forgeries by any other person in the Pre-lease Branch? No.

231. That being the case, you have taken no steps to satisfy yourself on the point? No; I do not see what steps I could have taken unless I had obtained from the Auditor General all the vouchers he had, as before suggested.

232. Would it not be very easy to get these vouchers and compare them with the authorized amounts in the Register? I do not think that would be very easy. I have spoken to Mr. Rennie about it. He thought not; but of course it could be done.

233. There are only 4,000 of them? It would not be a very easy matter. There is one thing which I think might be done in future. The Treasury publish the total amount refunded on all accounts, but they give no particulars. If particulars were given we could compare our Refund Book with the published statement. This would be a complete check. At present, the Treasury statement being a general one, we have no means of knowing how the total is made up.

234. When refunds of these amounts are authorized, is it the invariable practice of the Department to inform the parties concerned? Yes.

235. Do you furnish them with a letter of authority to obtain the money, as you do in regard to refunds of conditional purchases? Yes, this is the form (*Appendix I*) we send to the Treasury, and this is the one (*Appendix J*) we send to the parties (*handing in papers*). You will see that the party is informed that when the money is payable the Treasury will communicate with him.

236. Is not a form similar to that used for conditional purchase refunds? I do not think it is exactly similar, but it is a form which was decided upon some years ago, after a consultation between the Treasury and the Lands officials.

237. It seems to me that the conditional purchase form is much better, because it must be produced before the money is paid? Not necessarily; it is a more compact form, but a forgery could be committed with it as easily as with the other, because it only requires to be filled up and made payable to some one.

238. In the one case the signature has to be verified by a Magistrate, while in the other the verification comes in when the money is applied for, that is if the person gives an order to collect it? Yes, but it is not necessary for him to give an order to collect—he may order the money to be paid into a Bank. The only difference between the forms is that in one the authority for the disposal of the amount is detached, and in the other it is part and parcel of the voucher. The facilities for forgery are the same in one case as in the other.

239. In Harris's case did he forge the letters of advice as well as the letters to the Treasury? Yes, he forged both.

240. You do not keep any duplicates of these letters? They are all press-copied when they are genuine.

241. That is the manuscript portion? Yes; we do not copy the printed matter; the printed form is pasted in the beginning of the book, and the press copy shows the manuscript, and thereby a complete record is preserved of the original.

242. Did Harris copy any of these letters in your books? No, he did not press copy any of them.

243. Did he make any record of them in the Register? He entered one, only one, in the Refund Book.

244. What was the amount of that one? £20 5s.; he entered it himself. There were a number of other proper refunds entered at the same time, and I have no doubt he entered that one by mistake.

245. And no one discovered it? No.

246. *Mr. Powell.*] Was that a fictitious claim? Yes. I will tell you why no one discovered it. It was Harris's duty to do so; he had charge of the Refund Book at the time.

247. *Mr. Thomson.*] How many of these frauds were committed after he left that Branch—He got possession I suppose of some of these forms after he became Accountant—Have you any idea how many frauds were committed after that? Three frauds by forgeries; the total amount obtained by them being £303 3s. 10d.

248. Are you aware whether any check upon the refund of lease rents exists in the Treasury? I do not think there is any check; I believe the Treasury books only show totals.

249. Do you know how the Audit Department can check double refunds? They are posted there in detail.

250. The Audit Department, however, cannot tell whether the first refund should be made or not? No, not in every case; but there are cases, at all events I have one, which I think ought to have been detected.

251. A case of improper refund? Yes; and I only mention it as it might prevent the same thing occurring in future. It is an amount of £115 2s. 6d., the refund purporting to be authorized on 20th September, 1880, to Mr. George Lec, and the reason for refunding the amount was (I quote the exact words) "As there is no land available to satisfy applicant's claim to the pre-lease, his freehold being entirely cut off from vacant Crown land by water reserve No. 15, and land in the possession of J. Strickland and R. R. Horsley, forfeited.—G.G., 12 Aug. /80."

252. *Chairman.*] What district was that in? The district of Forbes.

253. When was the refund made? On 12th October, 1880; it was verified on 7th October.

254. *Mr. Thomson.*] In what way could the Audit Office have discovered that to be an improper refund? It is stated in the letter that the lease was forfeited in August, 1880, and therefore having been forfeited there could be no refund until that forfeiture had been reversed; refunds are never made when forfeiture has taken place. Except in this case, I think the Audit Department could not from the document only say whether sums were or were not refundable.

255. Can you point out any law or regulation which provides that the amounts paid for leases which have been forfeited are not to be refunded? I think the word itself is sufficient; if you forfeit, you forfeit everything. The clause which effects it is the 12th clause of the Crown Lands Alienation Act of 1861, sub-section 12. In this case Mr. Lec forfeited for non-payment of rent.

256. There could be no refund where the rent was not paid? The refund was made for rent paid during the currency of the lease.

257. Are these leases not annual leases? Yes. The lease was forfeited for non-payment of rent after having been some time in existence. The refund was made for rent paid for the previous years and prior to forfeiture; but the lease having been declared forfeited there was no refund to be properly made. You cannot get a refund from the Treasury on a conditional purchase in that way—a forfeiture must be reversed before refund would be made, and I think the same plan should be adopted in respect to pre-emptive lease rents.

258. Do you retain the original papers in connection with these refunds in your Department? In many of these cases there are no original papers, because the claims do not exist.

259. I am not now referring to Harris's frauds, but to the general system. Do you retain the original papers in your own Department? Yes.

260. They do not go on to the Auditor General? No.

261. Do you consider that the present system works well? It works well, but it is not a reliable system.

262. You think it is open to improvement? Decidedly.

263. Has it never struck you as remarkable that all these frauds continued so long without detection? No; they never would have been detected but from information obtained from outside the Department. As I have already explained, there is no record of them in the office except in one solitary instance, and therefore no investigation in the Lands Department would have brought them to light. The letters were accepted as genuine at the Treasury as a Bank might accept forged cheques, and the documents having been passed on to the Audit Office, they would never have been brought out again if I had not asked for them.

264. Are there many refunds on account of leases of land in reserves? No, not many; there have been some few, but they are never made if we can possibly avoid it.

265. How do they occur then? Owing to the exact position of the reserve not being known, if it is clear the land has been occupied, it is held that the occupier is liable for the rent, and not entitled to a refund.

266. Do land agents accept lease rents without question from the holders? They are not allowed to accept rents, except during the time prescribed by law—that is to say, if an application is made for a pre-emptive lease, between 1st January and 30th June, the whole year's rent must be tendered at the time of application; or if it is made between the 1st July and 31st December, a half-year's rent must be tendered for the area mentioned. All renewal rents are payable between 1st and 30th September in each year for the year next ensuing, and only in accordance with this law are land agents allowed to receive rents, except as otherwise specially instructed—I mean in case of the Minister approving of the receipt of overdue rent, which is generally subject to a penalty of 10 per cent.

267. That being the case, how is it that there are such a large number of refunds throughout the year? Because the leases in a very large majority of cases are not granted, for reasons of which the land agents could not possibly be aware.

268. *Mr. Powell.*] I think you said, in reference to the cheques referred to, that you were satisfied the signatures were forgeries, only because of the absence of any claims on the Department for the amounts they represented? No, not altogether for that reason; it was not only the absence of any claim for the money, but the fact that the cheques had been drawn in a book which was not in use.

269. But the absence of any claim for the money was one of the reasons? Yes.

270. That in fact these claims were fictitious claims? Yes, entirely so.

271. Then, if these were fictitious claims, how is it that they went to the Auditor General and were verified by him before payment? I understand you now to refer to pre-lease rent refunds. The leases specified in the authority for refund did exist, and the rent which was mentioned as being refundable was duly paid on the date specified in the letter purporting to authorize the refund. The lease having become forfeited or ceased to exist for some reason, there would be no further rent payable upon it, and I presume it would simply stand in the books of the Auditor General as having terminated. Harris then represented that certain money which had been properly paid was refundable for a cause that did not exist. The Auditor General could not possibly, under the present system, determine whether that cause was a correct one or otherwise. In the case of a refund to Messrs. Learmonth Bros., it is stated that the area has been reduced from 52,076 and 36,024 acres respectively to 26,347 and 21,485 acres, being all the land available.

272. In point of fact there is no letter from the lessees on the subject? No, nothing of the kind; but this lease having ceased to exist, the reason was accepted in the absence of any evidence to the contrary, as a genuine one for the refund of rent which was overpaid during the currency of the lease.

C. N. J.  
Oliver.

23 Jan., 1882.

- C. N. J. Oliver.  
23 Jan., 1882.
273. *Chairman.*] Can you suggest any means by which a check upon frauds of that kind could be adopted? Yes; I think a simple check might be made by extending the Refund Book, and making it a book which should be initialled by the Head of the Pre-lease Branch, and sent up with the authorities, and initialled again by some responsible officer in the Treasury or the Audit Office. That would not be a perfect check, for no perfect check is possible, but it would reduce the possibility of fraud to a minimum.
274. *Mr. Thomson.*] Could not the original papers be sent to the Auditor General with the refund authorities? They could.
275. *Mr. Powell.*] Is the refund voucher the only document the Auditor General receives? Yes.
276. And the Examining Branch in the Treasury—is that the only document they receive? That is the only document authorizing the refund.
277. Then in both cases it is an unsupported statement made by the Accountant? Yes.
278. To which your signature is forged? Yes, or that of the officer signing for me.
279. *Chairman.*] Do you think the Audit Department should question the authority which this form of refund conveys? I do not think so, unless there is some evidence to show that the land has been dealt with in such a way that the refund is not payable, and I only know of one instance of that kind.
280. Do you think that the forwarding to the Audit Department the original papers would be an effective check upon the passing of fraudulent claims? I think generally it would be, but of course it could be defeated if it were possible in any way to intercept the papers.
281. It would involve a vast amount of work? Yes, it would be a very troublesome check.
282. It would impose upon the Audit Office a check which the law does not contemplate, and would be a source of very serious delay in the passing of that class of accounts? Yes, and I do not think the Audit Office would be able to decide definitely whether a claim was payable or not from the papers; I do not think their officers would understand them.
283. The duty of the Audit Office is to see whether the money claimed is refundable or not; it is for that sole purpose that the form is sent by the Treasury to the Audit Office to be verified, as to whether it is refundable or not? Yes, and the Audit Office officers cannot possibly be in possession of the details.
284. *Mr. Powell.*] Is it not a fact that these payments were made on the authority of your signature only, and that had it been the practice to send all the documents connected with the case along with the voucher, it would have involved the necessity on Harris's part of committing a number of other forgeries, and the process would not have been so easy to carry out? The forwarding the documents to the Audit Office would certainly bear improvement upon the present system, but if the suggestion I made with reference to the extension of the Refund Book were carried out, there would be no necessity for an examination of the original papers by the Audit Office. And if those papers were so applied, I should like to know what would become of them eventually, as we could not do without them.
285. *Mr. Thomson.*] Of course they would be returned to your Department. Can you explain why the refund authority is sent to the Treasury first? I can only repeat what I said before, that this form was decided upon after a consultation between the Treasury and the leading officials of the Lands Department. If you ask my opinion, I should say it would be better if they were sent to the Auditor General first.

WEDNESDAY, 25 JANUARY, 1882.

Present:—

MR. POWELL, | MR. THOMSON,  
MR. ROLLESTON.

CHRISTOPHER ROLLESTON, ESQ., IN THE CHAIR.

C. N. J. Oliver, Under Secretary for Lands, further examined:—

- C. N. J. Oliver.  
25 Jan., 1882.
286. *Chairman.*] I think, when we separated on Monday last, you said you had some further information to give us in connection with other branches of this subject, and that you wished to be allowed to give it in your own form, so that the Board upon that information could question you in any way they thought fit. Am I right in that understanding? Yes, there are other frauds upon which the Board have not yet touched, amounting to £374 1s. (*Witness submitted for the inspection of the Board the vouchers comprised in the following list*):—

VOTE OF £1,000. ITEM 363, APPROPRIATION ACT OF 1881.

*Fraudulent Vouchers successfully negotiated.*

John Retalleck, of Penrith ...	...	...	...	...	£65	0	0
Patrick Francis Henry, of Hay ...	...	...	...	...	38	16	0
J. W. King, of Campbelltown ...	...	...	...	...	50	0	0

C. N. J.  
Oliver.

25 Jan., 1882.

287. *Mr. Thomson.*] But the £374 1s. is included in the £1,369 18s. 4d., is it not? Yes.
288. *Chairman.*] We will take the first case in your list, that of John Retalleck, of Penrith, £65. Will you kindly explain to the Board the nature of the fraud in connection with that case? On the Estimates for the year 1881, there is a sum of £1,000 for compensation to persons from whom land is taken for road purposes, under the 27th clause of the Crown Lands Further Amendment Act of 1880. If there is any genuine claim, and compensation is authorized, it is dealt with by a letter being addressed to the Treasury intimating that the payment of a certain sum of money has been approved of to a certain person for loss of land taken for road purposes, and a form is used similar to that which I now hand in (*exhibiting form*).
289. Instead of dealing with the general practice, I think if you were to confine your remarks to the particular case under consideration it would save time, as we shall probably have to go through each case? They are all in the same category, and the same explanation will suffice for them all. At the time the letter is written to the Treasury, a letter is also written to the party interested, intimating that the payment of the sum in question has been approved of and that it will be paid by the Treasury.
290. Does that letter addressed to him from the Lands Department accompany the claim that he makes to the Treasury for payment? Not necessarily. The Treasury then pay the money to the person in whose favour the authority is made out, upon his personal application, or to any person he may direct to receive it, upon production of an order in accordance with the form used by the Treasury for that purpose.
291. Then this order for refund remains in the Treasury until the claimant personally or some one duly authorized by him applies for it? I think so.
292. And may remain there for some considerable time? Yes; I do not think any particular verification is required; I do not think the authorities for payment are sent to the Audit Office until after payment of the amount; they remain at the Treasury until the sum is paid, and are then sent to the Audit Office.
293. Then will you tell the Board in what way this particular fraud was committed? The claim alleged to have been made by John Retalleck is altogether fictitious; no such claim has ever been made against the Department, nor could it have been made; it is a mere fabrication, having no foundation whatever; the letter to the Treasury is forged, and the order for the payment of the money is forged.
294. To whom was the money paid? It was made payable by the forged order to Mr. Joseph Sutton, on behalf of John Retalleck.
295. Mr. Sutton is a land agent, is he not? Yes, he is a private land agent; and the forged order was accepted by the Treasury, and the amount, £65, paid to Mr. Sutton. The letter to the Treasury purporting to authorize the payment of this sum was also a forgery, as I have before stated.
296. And you can swear that the signature to this letter is a forgery? I am certain it is.
297. Is it a good imitation of your signature? Yes, very good.
298. *Mr. Thomson.*] Is there anything in connection with the case that should have enabled the Treasury or the Auditor General's Department to discover that the claim was a fictitious one? I think so, if it had been ascertained whether the attesting witness was a Magistrate or not.
299. Is there anything in the nature of the claim itself? Nothing in the nature of the claim; the claim put forward is to all appearance a genuine one.
300. Whose signature does that of the attesting witness purport to be? That of Mr. William Moore. I believe there is no Magistrate of that name.
301. *Chairman.*] You believe so, but you are not quite sure of it? I did not make the inquiry myself, but I ascertained through one of the officers in the Colonial Secretary's Department that there is no such Magistrate as Mr. William Moore.
302. Then you think it would be desirable that either the Treasury or the Audit Department, one or both, should compare the signatures attached to these authorities with the list of Magistrates in the Colony? I think so; if that had been done in these particular cases the frauds would have been detected long ago.
303. Do these authorities come under your cognizance at all? No, I never see them; they are forms used by the Treasury.
304. And they are not obtained from the Lands Department? No; they are supplied by the Treasury, I believe, for the convenience of the public, and to furnish a special form of authority for persons to receive money on behalf of others.
305. And you do not see them at all? No; having nothing to do with the actual refund of the money, it is not necessary for me to see them.
306. I understand you to say that the other cases set down in the list partake of the same character of fraud as the one we have been investigating? Yes, they are all forgeries; there is not a genuine claim among them.
307. Not one genuine claim out of the ten contained in this list? Not one.
308. The total amount is £374 1s.? Yes. There were two other frauds committed, but I was fortunate enough to stop the payment of the money, £86 5s.; it would have been paid on application to the Paymaster at the Treasury had I not stopped payment.
309. Were those frauds of the same description? Yes.
310. *Mr. Thomson.*] Do I understand you to say that this authority for payment is a fabrication throughout? Yes; you refer now to the authority purporting to be signed by me.
311. And it was paid at the Treasury on your signature, which you say is a forgery? Yes.
312. And that the document bears no other forged signature? No.
313. When it passed through the Examining Branch at the Treasury, had the officers in that Branch no other document before them in support of the claim? No, there is only that document. I refer to the documents purporting to be signed by me.
314. I see in one of the documents before the Board that Sutton signs for Retalleck; is that signature also a forgery? Retalleck's is a forgery; Sutton's signature is genuine. Sutton has admitted to me that he frequently received money on Harris's behalf, presuming that Harris acted as a friend of the persons to whom it was alleged the sums were payable; and that after receiving the different amounts he paid them to Harris, less a fee for commission in each case. These are receipts for sums paid by Sutton to Harris (*exhibiting papers*) after he had received them from the Treasury.
315. *Chairman.*] In the ordinary scope of Harris's duty, it was his business to prepare these documents for payment? It was.
316. It was part of his duty? Part of his duty; it was an account matter, being the payment of money.

C. N. J.  
Oliver.  
25 Jan., 1882.

317. But did he usually prepare these documents in his own handwriting, or had he a clerk to assist him? There was only one genuine claim during the year 1881, and I cannot say who prepared the letter in that case. All these forgeries are in Harris's handwriting.

318. Supposing a claim to be genuine, in what Branch of your Department would the claim first come under cognizance? It would be dealt with in the Roads Branch. That was formerly a Branch in the Department of Lands, but was transferred to the Department of Mines. The payment of any sums on account of land taken for road purposes, however, still remains with the Department of Lands.

319. *Mr. Thomson.*] If the claim should have originated with the Roads Branch, how was it that the papers came into the Accountant's hands? There were no papers.

320. I am referring to a genuine claim? There was only one genuine case in 1881.

321. Was not the voucher for that genuine claim made out in the Roads Branch? No; the Roads Branch would send the papers to me for payment, the vote being under the control of the Minister for Lands; I would then send them to the Accountant to make out the voucher, which is in the form of a letter to the Treasury authorizing payment of the money to the person to whom it would be due, who would also be written to.

322. *Mr. Powell.*] Do I understand you to say that there were eleven claims paid at the Treasury for the year 1881, out of which ten were forgeries? Yes.

323. *Chairman.*] Among a number of these cases I see a claim for compensation in the name of William Scott, of Merrylands, and the authority to pay is witnessed by James Graham, J.P. Are you aware whether that is a forgery? There is no Magistrate of the name of James Graham. I am very familiar with the signature of James B. Graham, the Police Magistrate at Tenterfield, and this signature to my mind, from the way it is written, is an attempt to forge his name; except for the omission of the initial B., it is not unlike his signature.

324. How would it be possible for the Treasury or the Audit Department to discover that? By referring to the list of Magistrates they would find that there was no such Magistrate as James Graham.

325. Do you suppose that the Treasury or Audit Department would make such a critical examination of every document that comes before them? I think some such examination should be made. In this case I am inclined to think it should be made by the Treasury, because they make the payments.

326. In another of these authorities (*referring to papers*) I see the attesting witness is James Muir, J.P. Is that a forgery? That is a forgery. I can only state, as I did before, that I am informed by the Colonial Secretary's Department that there is no such Magistrate. On my last examination I was asked a question—whether I could suggest any check upon refund frauds. I think a very simple check might be adopted by the Treasury or the Audit Office furnishing me confidentially—to ensure its reaching me and no one else—with a list of the refunds paid. That list could be placed in the hands of an officer not connected with the Branch authorizing the refunds, and be examined and certified to as correct. That could be done once a month, which would limit if not prevent these frauds, as they could only extend from the date of one list to the date of the next.

327. I think the object of the Board in putting that question to you was to know whether you could suggest any check in your own Department, not at present exercised, which might in a great measure prevent the commission of these frauds? No, I could not, because no check in the Lands Department could detect these frauds, there being no record of the transactions in the Department.

328. But supposing these documents, before they left the Lands Department, had had to be examined and verified and initialled by an officer appointed for that purpose, would he not have discovered the fraud? No; because, as a matter of fact, Mr. Harris forged everything connected with the documents. Where it was necessary to initial a document to give it the appearance of being genuine, he forged the initials with the greatest ease.

329. So that such a check would fail? I only say that in Harris's case it would not have stopped the frauds. In a number of instances he has forged the initials of Mr. Wilson, who was in charge of the Pre-emptive Lease Branch. Mr. Wilson, however, never saw the documents until I obtained them from the Audit Office and desired an explanation as to their being genuine.

330. *Mr. Thomson.*] Referring to the list of frauds by Mr. Harris (*Appendix A*), will you tell us who drew up that paper? It was prepared by Mr. Freeman.

331. Then I presume Mr. Freeman could give us information with reference to every item embraced in that statement? He could only give information as to the amounts of the different items.

332. Was it not Mr. Freeman who investigated and discovered these items? I have already explained that the discovery of these items came about in this way:—Mr. Sutton informed me that he had received certain moneys from the Treasury for Harris, and had paid them over to Harris. This struck me as being very strange, and I asked him if he would give me the particulars, which he did.

333. And it was through information received from Mr. Sutton that the frauds were discovered? Yes; and, therefore, Mr. Freeman could only give you the information which I have given from the forged documents themselves.

334. Were not all the sums comprised in this £1,369 18s. 4d. brought under your notice in Mr. Freeman's three reports, which we have before us? I think they are included in his reports, but the discoveries were not made from any information forthcoming from the books of the Department—they were made from information obtained from Sutton.

335. But seeing that Mr. Freeman has reported upon the whole case, would he not be in a position to give fuller information on the subject than yourself? No doubt he could give you a good deal of information, but I think not more than I have given you. Of course I have acted upon these reports, and it is to be presumed that I have gone thoroughly into them and understand them.

336. I think you informed us that some of these frauds were committed by Mr. Harris before he became Accountant? Yes.

337. And that he entered the Pre-lease Branch somewhere about April, 1879? Yes.

338. And that he was appointed Accountant in December, 1880? Yes; his appointment taking effect from 1st November preceding.

339. I find in this list (*Appendix A*) a payment of £12, purporting to have been made to one John Dickson, on the 4th August, 1879;—that, I presume, was during the time Harris was in the Pre-lease Branch? Yes; he was in the Pre-lease Branch in August, 1879.

340. Then, according to this list, I do not see that he committed any further fraud until 17th June, 1880? I think I stated that there was a fraud committed in August, 1879, but not this one; it was a fraud for a sum

C. N. J.  
Oliver.  
25 Jan., 1882.

sum of £18, by means of the forgery of the signature of Mr. C. Brown. It is very possible that there were frauds committed between 4th August, 1879, and the next date given in the list; but, as I have already informed the Board, my investigation was brought to a sudden termination by the intimation I received from the Minister for Lands that the matter would be taken up by a Board. I believe that this case of Dickson's was one of the last discovered, and that it was discovered in the way I have already indicated, from information received outside the Department. As I have on two or three occasions stated to the Board, it is my opinion that no satisfactory result will be arrived at without a strict examination of all the vouchers in the Audit Department. I am satisfied that no investigation can be final and conclusive unless this is done; and therefore I am perfectly prepared to admit, although I have no knowledge of it, that there may have been forgeries between 4th August, 1879, and the next date mentioned in the list. I am sure that had I proceeded with the inquiry I should before the present time have been able to state the exact amount that Harris has obtained by fraud, but my investigation was brought to a sudden conclusion.

341. *Chairman.*] Do the dates given in this list represent the dates of payment by the Treasury of those sums, or the dates of the claims? I think they represent the dates of payment.

342. *Mr. Thomson.*] I think you said that you stopped your inquiry in consequence of the appointment of this Board? Yes.

343. Was there anything in the letter intimating to you the appointment of the Board to justify that stoppage? I did not receive the intimation in the first instance from the Treasury; it was made to me by the Secretary for Lands, weeks before I received the Treasury letter stating that a Board had been appointed.

344. When the Secretary for Lands informed you of the appointment of the Board, did he instruct you to stop your inquiry? I think if you will refer to one of the printed papers I put in (*Appendix B*) you will find that question answered by a minute by Mr. Hoskins, dated 17th December, 1881, in which he says that as a Board is about to be appointed he does not see what further action can be taken by the Department.

345. The paper to which that minute is attached is dated 8th December, 1881. Can you tell us when Mr. Hoskins, the Minister for Lands, informed you that the Board had been appointed? It was between that date and the 17th December, 1881. Mr. Hoskins told me it was not necessary for me to go on with my investigation outside the office, as it had been thought desirable by his colleagues and himself to appoint a Board of Inquiry; that was between the 8th and 17th December last, and I did not go on with the investigation.

346. When were you informed by the Treasury of the appointment of the Board? On the 6th of this month.

347. Then from the time Mr. Hoskins intimated to you that a Board was to be appointed up to the present time you have done nothing further in the way of investigation? Nothing, except that I have possibly made some few inquiries in connection with the cases I have discovered. I have made no effort to discover fresh cases. As I have stated before, the only way of determining the extent of the forgeries would be to apply to the Audit Department for all the vouchers, and the fact of my not having done so is evidence that I have not proceeded further in the matter.

348. *Chairman.*] Have you made any application to Harris for a statement of the frauds he has committed? No, I should not have thought of doing so. He has volunteered a statement and asked me to visit him in the gaol, and he would give me full particulars of his frauds as far as his memory would serve him. I acted upon Mr. Hoskins' instructions. I asked him if I should go, and he said certainly not. Harris's offer to make admissions was after he had been sentenced.

349. *Mr. Thomson.*] Do you think it possible for either the Treasury or the Audit Department to discover any of these frauds, even by a thorough inspection of the vouchers? Not by an inspection of the vouchers alone. By the Audit Office getting out all the vouchers and sending them to the Department of Lands an accurate statement of the frauds might be prepared—it could be ascertained with very little trouble whether the refunds had been properly made, or it could be done by sending the documents themselves; but the Auditor General would not probably care to send such valuable documents in large numbers out of his own Department.

350. Then you think that without such comparison it would be impossible for the Board to discover any further frauds? I think so; similar information cannot be obtained from the Treasury, as I understand that amounts only are stated in the Treasury books.

351. Seeing that Mr. Harris commenced these frauds in August, 1879, do you not think it probable that he committed a number of frauds between that date and 17th June, 1880? It is probable; and I certainly think a thorough investigation should be made as to whether he did or did not. From information to hand at present, I am however bound to say he did not. Still that information has been obtained in such a way that it cannot be looked upon as disclosing the whole of Harris's frauds.

352. I find from this record of payments (*Appendix A*) that there were just four frauds committed by Harris before he became Accountant? Yes.

353. I also find from this statement that the frauds on the Treasury amount to £1,131 10s. 9d.? Yes; I have no doubt you are correct, as you have a list before you.

354. And that the greater part of these frauds were committed during the time he was Accountant. Yes.

355. That being the case, I should like to know why you did not take these as the foundation of the claim against the Insurance Society? Because Harris's fidelity bond was dated 1st December, 1880, and it was only for frauds committed on and subsequent to that date and during the currency of the bond that a claim could be made.

356. Quite so; but if you look at that document you will find that the whole of the items making up that amount are included in the amounts under date 1881, with the exception of £60 15s.? Not having the original schedule (*Appendix A*) here I cannot answer your question, but I will supply the information you require.\* On reference to the original schedule I find a clerical error has occurred in the copy, making it appear that the five frauds last mentioned were committed during the currency of the bond. It is not so however. I have now corrected the error.

357.

\* My dear Sir,

The year immediately above the last five items in Appendix A should be 1880, and the last item should be dated 19th September, 1879. This information meets Mr. Thomson's last question of to-day, and I will add it on receipt of evidence for revision. The error is a clerical one.

O. Rolleston, Esq., C.M.G.

Sydney, 25 January, 1882.

Yours faithfully,

CHARLES OLIVER.

C. N. J.  
Oliver.  
25 Jan., 1882.

357. And you can also at the same time furnish us, I suppose, with the number of forged cheques included in the claim against the Insurance Society? I can tell you now: they amount to £195 6s. 9d.
358. Why did you include these forged cheques, seeing that you had claims for forgeries on the Treasury? I do not admit now that I had claims; that is the very question I could not answer without reference to the original papers. I have not verified this list (*Appendix A*) myself. The addition to my answer No. 356 now explains the matter.
359. *Chairman.*] If these refund vouchers were looked up, it would only be the officers of the Lands Department who could discover whether they are forgeries or not? I suppose so, unless under the Audit Act you could send an officer down to inspect the books of the Department of Lands.
360. The documents would have to be sent to the Lands Department for critical examination? I am of opinion that a statement as to whether the documents were genuine or not might be made by comparing a list of them, giving particulars, compiled from the vouchers in the Audit Department, with the books of the Department of Lands.
361. Without the production of the documents themselves? Yes; in any suspicious cases it would be necessary to see the documents afterwards, but a comparison of the documents would be preferable.
362. *Mr. Powell.*] In Dickson's case, on 4th August, 1879—was the fraud accomplished by Harris in the same manner as the others? I believe so; it was I think a refund of pre-emptive lease rent, and was effected precisely in the same way as the others.
363. His connection with the Account Branch you say commenced in July, 1880? Yes.
364. Had he anything to do with the Account Branch prior to that time? I do not think so.
365. Then this fraud of August, 1879, must have been committed in a different manner from the other frauds, because the Accountant of that date would draw the pay voucher? That is not an amount which the Accountant would require to deal with in any way. It is, I have no doubt—although I have not the papers here—a refund of pre-emptive lease rent, and would not have to be dealt with by the Accountant at all; it was a fraud committed by Harris in his capacity of clerk in the Pre-lease Branch; it is a refund in favour of John Dickson, of £12, which amount was not refundable, and is a forgery similar to the other forgeries of refunds of pre-emptive lease rents.

Thomas Ireland, Clerk in Account Branch of Lands Department, examined:—

T. Ireland.  
25 Jan., 1882.

366. *Chairman.*] You are engaged in the Account Branch of the Lands Department? Yes.
367. Were you so engaged during Mr. Harris's incumbency of the office of Accountant? Yes, during the whole time.
368. Were you in that Branch prior to that, in Mr. Evans' time? No, I went there after he left.
369. Mr. Harris was engaged in investigating the accounts of the Lands Department prior to his permanent appointment to the office of Accountant, was he not? Yes.
370. How long was he so engaged? Some few weeks—five or six weeks I think.
371. And were you employed under him during the whole of that time? I was then carrying on the current work of that Branch, which he was not interfering with.
372. Was it not somewhat in confusion at that time? Yes.
373. Was that owing to Evans' defalcations? Yes, and from the books not having been properly kept.
374. Who had occupied the position you entered upon prior to your appointment? Mr. Evans.
375. Mr. Evans was not the Accountant then? No, Mr. Croft was Accountant.
376. Did you receive directions as to your duties from Mr. Harris? Yes.
377. And you were bound to carry them out? Yes.
378. Was it your duty to prepare refund vouchers in cases of pre-lease rents or for other claims? No.
379. You had nothing to do with that? Nothing at all.
380. What were your duties confined to? I had to take charge of papers and accounts coming to the Branch, to take them to Mr. Harris, post them in the books, and up to July, 1881, to send them on to the Treasury for payment.
381. Was it your duty to fill up the cheques that were drawn to pay the officers of the Department? Yes, I generally did it.
382. Did it frequently happen that this was done by Mr. Harris? No, very rarely.
383. Did you always enter the particulars in the butts of the cheques? Always.
384. Did you initial the butts? No, Mr. Harris did that.
385. And was it his habit to take the book to the Under Secretary to sign? Yes, in every case.
386. Did the Under Secretary initial the butts as well as sign the cheques? No, I do not think so.
387. Did you fill up the cheques from a list supplied by Harris, or from the documents themselves? From the documents themselves.
388. In all cases? In all cases. I think the only cheque I made out without the voucher was one for engrossing the deeds of the Lands Department for £16 5s. Mr. Harris asked me to fill it up in the butt of the cheque—that was the only occasion.
389. You did not see any voucher in support of the cheque so drawn? No.
390. When the cheques were signed were they returned to you? Yes, as a rule.
391. For payment or distribution according to directions? Yes.
392. That is to say, you paid them into a Bank if they were so directed, or personally to the persons in whose favour they were drawn? Yes.
393. Where the cheques paid into Banks always crossed? Yes.
394. And the payments to officers of the Department were made on demand? Yes.
395. It was the practice of the Department to pay all its clerks in the office? Yes.
396. When had you any reason to suspect that there was anything wrong in Mr. Harris's accounts? I never suspected anything until I heard that he had been arrested.
397. Was there anything in his conduct to arouse your suspicions? Nothing whatever.
398. Did you sit in the same office with him? Yes, in the same room.
399. Were your hours the same? He frequently remained in the office after I left at 4 o'clock.
400. Then he had opportunities of committing these frauds without your knowledge? Oh yes; I have heard him say that he has remained in the office as late as 7 or 8 o'clock, completing his work.
401. He was a quick, intelligent officer? Very.

402. And until you heard of his apprehension you had not the slightest suspicion that anything was wrong? Not the remotest suspicion. T. Ireland.
403. There was nothing in connection with the books that you kept to arouse suspicion in your mind? Nothing whatever; the first intimation he gave me was the evening before he was arrested; we were leaving the office together, and as we walked along he said—"You may hear of something to-morrow that will astonish you," but I had no idea what it was. 25 Jan., 1882.
404. Do you think there is any Departmental check that could be instituted to prevent frauds of the class that we are inquiring into? I have not given the subject much consideration, but I do not think so—we have a complete check upon almost everything; when I receive the accounts I look over them myself, and then hand them to the Accountant for inspection and examination, to see whether any account of the same nature has been previously paid. Then they are put into abstracts and sent on to the Treasury, and up to July last the Treasury were in the habit of paying them. Since July an arrangement has been made that we should pay all the cheques ourselves and pay them into the Bank.
405. There were some cheque-books in the Account Branch that had been cancelled? Yes, there were some old books that were out of use—we had special forms of cheques provided.
406. In whose custody were these books? They were lying about—not in any particular custody.
407. So that any one could have got them? Yes.
408. Was there no safe to put them in? Yes, but they were never put into it; they were lying on a desk in the office.
409. It was by means of these cheques, I believe, that some of the frauds were committed? Yes, the old books.
410. Had you no means of detecting them? No, because I never looked at these cheque-books after we used the new ones; I never had any occasion to refer to them.
411. Did you suggest to Mr. Harris that it would be desirable to put them under lock and key? No, it never occurred to me.
412. Then it is quite impossible that you could have been cognisant of these frauds committed by the use of these cancelled cheque-books? Quite impossible.
413. Did any of these frauds pass through your books? Not one so far as I know.
414. Your books are posted entirely from the vouchers that come before you? Yes.
415. And you post nothing except so vouched? Nothing except from the vouchers.
416. Do you keep a Refund Register? No.
417. You have nothing to do with that? No, we have nothing to do with refunds at all.
418. That is not kept in your Branch? No, we never see a paper in connection with refunds.
419. Your books are principally for expenditure? Yes, simply expenditure.
420. How do you obtain cash for petty expenses? By requisition from the Treasury.
421. To what amount? We generally get £25 at a time.
422. Have you a petty Cash Book in which this expenditure is entered? Yes.
423. Is it entered in detail? Yes, and every voucher is entered; and when the £25 has been adjusted we obtain another £25.
424. Do you keep up your adjustments pretty regularly? Yes, since I have been there.
425. There used to be a great deal of irregularity before? Yes, I believe so.
426. Have you any assistant? No, there is only the Accountant besides myself.
427. And the work has not been more than you could satisfactorily perform? Yes it was, and I asked frequently for a lad to go with messages and to do the copying, as I had invariably to take work to do at home two or three nights in the week. I believe Mr. Harris asked for an assistant, but we never had one.
428. Mr. Thomson.] What books do you keep? A Cash Book, an Abstract Book, and an Appropriation Ledger, besides copying the records.
429. Do you keep a Register of Advances also? We did not keep a regular book for that; we had no register then.
430. Do you keep one now? Yes. I simply enter them from the press copy book of letters sent to the Treasury.
431. Then you appear to have kept all the books in the Account Branch? Yes, I kept them altogether; Mr. Harris rarely interfered. When he first came he opened the books, and after that he left them to me altogether.
432. And what was the nature of Mr. Harris's duties, seeing that you kept all the books? He had to deal with all the papers and conduct the correspondence.
433. Were those duties sufficiently heavy to occupy the whole of his time? Yes, very nearly. Sometimes he used to be out when I did not know where he was, but as a rule he was very fully employed.
434. Was he, as a rule, attentive to his duty? Very attentive.
435. And regular in his attendance? Yes.
436. Do you remember his having private conversations with persons outside the Department? Yes; several persons used to come to the office to see him, and he would go out to them—Mr. Sutton and one or two others.
437. You recognised Mr. Sutton? Yes; I knew Mr. Sutton previously.
438. And there was nothing in the visits of those persons to arouse your suspicions of something wrong? No; Mr. Harris always went outside to see Mr. Sutton, so that I did not know what was going on.
439. Did not that in itself arouse your suspicions? No, I never saw anything in his conduct to create suspicion.
440. You simply thought that Mr. Sutton's business was of a private nature? Yes, I thought it was entirely private.
441. Had you any interviews with Mr. Sutton when Mr. Harris was absent? Yes, but we only talked about general matters, being old acquaintances; we never talked about business.
442. And Mr. Sutton never stated the object of his visit? Never, on any occasion.
443. You say you kept the Cash Book? Yes.
444. And that you entered all the payments from the vouchers themselves? Yes.
445. Was it your duty to compare your Cash Book with the Bank pass-book? No; Mr. Harris and I did it on several occasions, but not latterly. I have got the pass-book, and brought it to him without his instructions, and asked him to call over the items, and he always professed to be busy, and said he would call them over some other time.

- T. Ireland. 446. *Chairman.*] Then, as a matter of fact, they were not called over? They were called over up to a certain time, but not I think for two or three months before he was found out.
- 26 Jan., 1882. 447. *Mr. Thomson.*] On those occasions did he take the pass-book or you? He did.
448. And you called over the entries in the Cash Book? Yes.
449. It was therefore impossible from that method of checking for you to know whether there were any cheques entered in the Bank pass-book which did not appear in your Cash Book? Yes, it was quite impossible, because I had so much work to do that I never had time to look over the pass-book, and having no suspicion whatever, it did not occur to me to do so.
450. You never attempted to compare your Cash Book with the Bank pass-book yourself? No.
451. Have you established that check since these frauds were discovered? No, Mr. Cohen has not done so yet.
452. Do you not think it very important that the two books should be compared? Yes; I suggested to Mr. Cohen that we should do it every week, and he agreed with me, but he has not done so yet.\*
453. How long has Mr. Cohen been in charge of the Account Branch? Since the 1st December last.
454. When the new cheque-book was provided, was the Bank informed of the change? I do not think it was; I do not remember seeing any letter to the Bank to that effect; I have not gone through the letter-book specially to see, but I do not think the Bank has been written to.
455. Do you not think it was necessary to do so? No, it never occurred to me.
456. Do you think the Bank was justified, after the introduction of the new form of cheque, in paying cheques drawn upon the old form? Well, I have been surprised at the Bank doing so, and I said so to the Teller once when we were talking about the matter, and remarked that it was strange they should cash those cheques when we were using the new forms, and he said so long as a cheque had Mr. Oliver's signature he should pay it on whatever form it might be; in fact they will not admit, neither Mr. Nasmyth, the Bank Accountant, or the Teller in the Government Department of the Bank, that the signatures are not Mr. Oliver's.
457. *Chairman.*] You never saw Mr. Harris yourself use one of those old cheque-books? No, I never saw him do so at any time; he must have done it when I was away.
458. Do you not think the old cheque-books ought to have been destroyed? I think they ought to have been put under lock and key. When Mr. Cohen came I suggested that the new cheque-books should be taken up to the Under Secretary and deposited with him, which has been done; I believe the old books have been taken up also.
459. *Mr. Thomson.*] I suppose you have seen some of these forged cheques? Yes; Mr. Nasmyth showed me some of them.
460. Would you take them to be forgeries? Well, at the first glance I could hardly detect the forgery; it was only after close examination, and with the knowledge that forgery had been committed, that I could do so; but if they had been put before me without any suspicion of the kind I believe I should have taken them without hesitation.
461. Have you compared any of these cheques with the entries in your Cash Book? No.
462. So that you cannot tell whether they appear in your books? Yes, there are none of them entered in our books. Mr. Freeman and I went over the books.
463. Then so far as your duties extend you had no opportunity of discovering any of Harris's frauds? None whatever.
464. *Chairman.*] Was it Mr. Harris's duty to prepare the forms for refund? I do not think so, because we had nothing to do with refunds; compensation for lands resumed for public roads is a matter we have had to deal with.
465. Was the Accountant authorized to sign for the Under Secretary? Not that I am aware of; I never heard of any such instruction.
466. In no case? Not in any case.
467. *Mr. Powell.*] When did Mr. Sutton's visits to Mr. Harris commence—how soon after the latter became Accountant? They began very shortly afterwards; I could not state the exact time.
468. *Mr. Thomson.*] Had he paid any visits prior to Harris's appointment as Accountant? No, not while I was there.
469. How long had you been there? About six weeks or two months before Mr. Harris came.
470. Were you not assistant to Mr. Croft? No, I only went there after Mr. Evans's defalcations.
471. Had you been employed in the Department prior to that? Not in the Account Branch; I had been in the Correspondence Branch.
472. *Chairman.*] You say that Mr. Harris, when you suggested that your Cash Book should be compared with the Bank pass-book, said to you on several occasions that he was busy and would do it at some other time? Yes.
473. Do you recollect on how many occasions you called over the books? Only two occasions I think during the time I was in the Account Branch.
474. And then he took the pass-book and you took the Cash Book and called out the entries to him? Yes.
475. Did it never occur to you to compare them by yourself? No; he kept the pass-book on his table, and therefore I never took it upon myself to remove it.
476. *Mr. Thomson.*] Did those two occasions on which you called over the books exhaust the whole period during which Harris was Accountant? Oh no; they were during the first portion of his time; the books were not called over for I think two or three months before he was detected.
477. *Chairman.*] Did you suggest to him the desirableness of continuing that check? Yes, I asked him to do it on several occasions.
478. And he put you off by saying he was busy and would do it at some other time? Yes; previous to his coming I used to get the pass-book every ten days or so and compare it with the Cash Book.
479. Did you not consider that was a duty which devolved upon him? Yes; when I was there by myself I always compared my Cash Book with the Bank book once a week. I have always been accustomed to do so ever since I was connected with business.
480. Did not the fact of his putting you off create any suspicion in your mind? Not the slightest—I had not the slightest suspicion.
481. *Mr. Powell.*] As an extra clerk, Mr. Ireland, you would act under his instructions? Entirely; I never

\* NOTE (on revision) :—Since giving the foregoing evidence I find that Mr. Cohen has compared the Cash Book with the Bank pass-book. As this was not done with me I was not aware of the fact.

never did anything without his instructions. There is one thing perhaps you will allow me to mention. On one occasion there were some eight or ten cheques sent up with the vouchers for signature, and when they came back and I was attaching the cheques to the vouchers I found one of the cheques unsigned. Mr. Harris took it back and Mr. Oliver refused to sign it until he had the voucher before him and the butt of the cheque, which were brought to him.

T. Ireland.  
25 Jan., 1882.

482. *Chairman.*] I think you said that the cheques were prepared by you in almost every case? Yes; it was a very exceptional thing for Mr. Harris to prepare a cheque, unless it might be for petty cash.

483. Do you transfer the entries from the petty cash book into the Cash Book? No, we simply post the amount without giving the details.

484. How do you keep your Appropriation Ledger—according to the Votes of Parliament? Yes; each vote is entered separately, and there are distinguishing headings for the different Estimates. For the Department of Lands there are “Salaries,” “Temporary Clerks,” and “Incidental Expenses.” These are all under one head in the Appropriation Act, although they are three different accounts in the Abstract. But in the Ledger it all goes under one head.

485. *Mr. Thomson.*] Do you occasionally compare your balances with the Treasury balances? We have only done that once since these defalcations occurred.

FRIDAY, 27 JANUARY, 1882.

Present:—

MR. POWELL,

MR. ROLLESTON.

MR. THOMSON,

CHRISTOPHER ROLLESTON, ESQ., IN THE CHAIR.

Stephen Freeman, in charge of the Ministerial Branch of the Lands Department, examined:—

486. *Chairman.*] How long have you held your present position as Head of the Ministerial Branch of the Lands Department? About five months.

S. Freeman.  
27 Jan., 1882.

487. What are the duties of that position? I have charge of the correspondence and clerical work connected with appointments, the supply of postage stamps to land agents, and a variety of other duties of a miscellaneous nature which do not come under other Heads of Branches in the Department of Lands.

488. Does it depend upon yourself to define your duties in connection with the Department, or do they clash at times with those of other Heads of Branches? No; if there is any doubt as to the Branch to which certain papers pertain, the Under Secretary generally sends them to me.

489. Do you open the letters that come to the Department? Yes.

490. All the letters? No, only those which come through the post; they are opened by me and the officer in charge of the Record Branch.

491. And who distributes them? We both distribute them. I usually open the smaller letters which contain remittances, and he opens the larger official ones.

492. Are these letters recorded by you as received, or are they registered in the different Branches to which they are sent? They are all registered in the Record Branch.

493. They go from you then, not to the different Branches, but to the Record Branch? Yes, to the General Record Branch, to be recorded.

494. And then they come back to you to be distributed? No, the Record Clerks understand where to send them to.

495. Then the Record Clerks are really the distributors of the papers? Yes, after they are recorded, with certain exceptions—money letters, for instance.

496. And what is done with money letters? Upon receipt of a money letter I enter the name of the sender, the amount and nature of the remittance, and the reason it is sent. I initial the entry and date it. I then take the moneys with that book to the Under Secretary; he compares the remittances with the entries, signs any money-orders or drafts in his favour, and sees generally that the remittances are in accordance with the entries.

497. And you keep a register for that purpose? Yes a sort of cash book for that purpose.

498. *Mr. Thomson.*] And for that only? Yes; and then these money letters are registered in a similar manner to the others.

499. *Chairman.*] You were appointed, I believe, by the Under Secretary for Lands to investigate the accounts in the Account Branch? Yes.

500. Had you any previous connection with the Account Branch? None whatever.

501. And you discovered some irregularities in the accounts? I did.

502. You have, I think, furnished the Minister for Lands with some reports, and a statement of the defalcations you discovered? Yes, so far as I discovered them.

503. Will you look at the statement contained in this paper (*handing paper to witness, Appendix A*): was that drawn up by yourself? Yes, it was written by me from other statements.

504. Will you tell the Board whether that statement is correct? I make the total £1,364 18s. 4d., instead of £1,369 18s. 4d. This discrepancy is entirely due to a misunderstanding on the part of the clerk who prepared the particulars during my absence in the country. He noticed in my first report that I had put down the item of £5 for petty cash as a forgery. The cheque had been altered to £10, but he omitted to state that, although it had been so altered, vouchers had been paid for £10, so that it was not a defalcation although a forgery.

505. How did you proceed to investigate the affairs of the Account Branch when you were appointed for that purpose? First of all it was desirable to find out whether Harris was dishonest or not; there was no proof of it at the time. I went down to his room. The first thing was to look for cheques recently signed and for the expenditure of the money. An unsigned voucher for £10 turned up and the cheque was missing; it had been cashed at the Bank, that was found out by the Under Secretary. Two other items of 8 guineas each were found out immediately afterwards of a similar character. It then became evident that he was dishonest; the Under Secretary having found that this cheque for £10 had passed through Harris's hands,

506.

- S. Freeman. 506. When did you first discover a forgery in connection with his papers? I think it was the next day.
- 27 Jan., 1882. 507. What were the particulars of that forgery? I am not certain which forgery was discovered first; I am under the impression that it was a cheque for £16 5s., in the name of G. T. Hunt, cashed on the 5th August, 1881. My suspicions were aroused at the name, as I found a voucher apparently signed by the Under Secretary authorizing the payment of £16 5s. to G. T. Hunt as a clerk in the Department of Lands.
508. Let me draw your attention to the fact that this cheque of £16 5s., to which you allude in your statement, was dated 10th May? There are four payments to Mr. Hunt; this one was cashed on the 5th August. My suspicions were aroused by finding this voucher—the initials had been altered; there had been an erasure, and the name of G. T. Hunt had been put in. There being three accounts in the office relating to persons of the name of Hunt, I asked Mr. Ireland the initials of these persons, and found that none of them were G. T.; therefore, whenever I found these initials afterwards I put them down as frauds.
509. *Mr. Powell.*] The forgery was that of the Under Secretary's name? Yes, and the insertion of the name of an imaginary person, G. T. Hunt; there was no signature by G. T. Hunt; but the document was a forgery, inasmuch as there was no person of that name in existence, so far as we knew.
510. *Chairman.*] Do you think the system which permits forgeries of this kind is a sufficiently effective one for ordinary purposes? In the light of circumstances that have since transpired I do not think it is. You refer, I presume, to the salary payments in favour of Hunt.
511. Where do you think the defect lies? I have not given the subject much thought; but I imagine that the original papers in connection with appointments should be forwarded to the Treasury or Audit Office.
512. Do you not think it would be a better plan to distribute the business in the Accountant's Branch between two or more officers of good standing, who would be a check upon each other, instead of leaving it in the hands of one officer? Undoubtedly it would be better.
513. Mr. Ireland's position, I believe, was merely that of a clerk under Mr. Harris? Yes.
514. And outside Mr. Harris's directions he had no power or authority to do anything? No.
515. Did not your investigations lead you to suppose that it would be desirable, seeing the large amounts that pass through the Account Branch, that there should be a more effective staff to conduct that Branch of the Department? As I said before, I have not given the matter much thought, and my investigation had not proceeded very far when we were told that it had been taken out of the hands of the Department and put into the hands of a Board. It certainly would be better if some officer of good standing had a check over the Account Branch.
516. Could such a check be exercised effectively by yourself as Head of the Ministerial Branch of the Department? That I am not in a position to say, as until recently I had never seen the books or accounts of that Branch, and had only been there once or twice about vouchers in which I was interested; but I presume that I could institute a check.
517. *Mr. Thomson.*] There is nothing very complicated in the accounts? No, except that the system as worked by Harris is defective. The account books themselves are good enough; but Harris did not keep the accounts in accordance with the forms provided.
518. *Chairman.*] What books are kept in that Branch? Three in addition to the Petty Cash Book. The "Ledger," which we call the "Appropriation Ledger," the Cash Book, and the Abstract Book.
519. What are the entries in the Appropriation Ledger confined to? First of all to the amounts appropriated by Parliament under each head, which are shown on one side, and on the other side the expenditure of money on account of these votes.
520. And that is the purpose of the Appropriation Ledger? Yes.
521. And what is the next book? The Cash Book.
522. What does that contain? Expenditure only.
523. The entire expenditure of the Department, or any particular class of expenditure? All expenditure from the votes mentioned in the Ledger.
524. How is that entered, and from what? First of all, as I am informed by Mr. Ireland, from the cheques; that is in all cases of payment direct from the Under Secretary's account, and in cases of authority sent to the Treasury in connection with which the money is to be paid there—the particulars are taken from the authority itself, and entered in the Cash Book.
525. And are they in any way marked so as to distinguish them from the other entries? I believe they are, because—I am speaking from memory—the Cash Book shows the number of the cheque, if payment was made from our Department.
526. And what is the third book? The Abstract Book.
527. What does that show? It shows all payments authorized by the Department to be made direct from the Treasury; and also those from the Under Secretary's account.
528. That embraces all the payments shown? Yes.
529. *Mr. Thomson.*] Do you not think you are wrong in stating that all the claims which are sent to the Treasury for payment are entered in the Cash Book? No, I believe I am right.
530. If they have to be paid at the Treasury, what connection have they with your Cash Book? That is what I want to know; but still I am under the impression that I am correct; anyhow, reference to the book will show.
531. Do you not think the payments shown in the Cash Book are confined to cheques drawn by the Under Secretary? I do not.
532. *Mr. Powell.*] What kind of Cash Book is it—is it a single entry book, or does it show both Dr. and Cr.? There is a place for Dr. and Cr., but the payments only are shown.
533. Is there a balance shown? No, there could be no balance struck, because only the payments are shown.
534. Then the books only show a rough memorandum of the payments made? And the authorities.
535. Has there been any posting up from that Cash Book? Yes, into the Abstract Book.
536. That you call the Abstract Ledger? That is what it really is, because it contains headings like a ledger according to the nature of the payments.
537. *Chairman.*] Are you aware whether there are any written rules or instructions under which the Account Branch of the Lands Department is conducted? I am not; I believe that after the inquiry into the defalcations by Mr. Evans there was a report made, and upon that report some directions were given, but I cannot say with certainty; I have not read the papers.
- 538.

538. Then from whom does the Accountant receive his instructions? From the Under Secretary.
539. Orally, or in writing? Both orally and in writing.
540. Who is responsible for the system of book-keeping established in the Account Branch? I do not know. S. Freeman.  
27 Jan., 1882.
541. Was a new system introduced after the Evans' defalcations were discovered? I do not know, but I believe it was.
542. Did you notice any cancelled blank cheque-books? Yes, a number of them; but the cheque forms were not marked as cancelled—only the covers were so marked.
543. Where were they? Some, I believe, were in the safe, and the others were, I think, on a table in the Account Branch Office.
544. Had those cheque-books been destroyed at the time they were out of use some of these frauds could not have taken place? I believe not; but with a clever forger there can be no certainty as to that.
545. Did you discover the cheques taken from the cancelled cheque-books? Yes, I discovered that by noticing in the Bank pass-book that the numbers of some of the cheques were entirely different from those latterly used, and I immediately asked for the old cheque-books. Then I noticed that the cheques had been torn out and the butts had not been filled in.
546. *Mr. Thomson.*] Was it Mr. Harris you asked for these books? No, I asked Mr. Ireland. I never saw Mr. Harris about the accounts—he was not in the room after I went there.
547. *Chairman.*] Did not you think that the difference in the numbers should have drawn the attention of the Teller at the Bank so as to create suspicion? I think it should, but I say it with diffidence, not knowing what work he has to do.
548. You have seen several of these forged signatures, have you not? I have.
549. And would you have passed them in the ordinary course of your duties? Yes, all of them, with one or two exceptions; and I am not prepared to say positively that at a glance I should not have passed those, as they were countersigned by the Accountant.
550. They were so cleverly done that in the ordinary course of business you would have passed them as correct? I would, so far as the signatures were concerned.
551. Then there was nothing in these documents that should have drawn particular attention to them either in the Treasury or the Audit Departments—I am referring to the refund vouchers? Well, I am not prepared to say there was not; I think there was. For instance, I do not think a refund should be considered proper, on a forfeited lease, unless the forfeiture had been reversed and the lease declared cancelled.
552. But does not the document itself reverse the forfeiture? I think it simply authorizes the refund on certain information; but whether that authority is sufficient or not I am not prepared to say; I do not think it is.
553. And to what extent do you think the Treasury or the Audit Department should go to procure finality? I understood that the Audit Department had to be satisfied of the correctness of the authority before they passed it—whether, for instance, the authority was properly founded; and it appears to me that there is no proper foundation for a refund when the lease is forfeited. I do not of course for one moment desire to criticise the working of the Audit Department, but I think I understand it in this respect.
554. Are not forfeitures frequently revoked? Yes; but I understand that in this instance the forfeiture was not revoked.
555. *Mr. Thomson.*] In the case of refund to which you refer, where you say the lease was forfeited, can you tell me how many years' rent were authorized to be refunded? I cannot from memory.
556. What would the forfeiture refer to? The forfeiture of the lease, and all rights accruing thereby, as well as all payments on account of it.
557. For that particular year I suppose? For all time. I may explain that the forfeiture would be caused by non-payment of rent.
558. In this case there were three years' rent authorized to be refunded because the lease was cancelled? I do not say what particular lease was forfeited, but that has been the case in some instances. It appears to me strange that a refund should be authorized on a forfeited lease, the forfeiture of which had not been reversed.
559. But supposing that three previous years' rents were authorized to be refunded twelve months after the last one had been paid, in consequence of there not being sufficient land to admit of the lease being taken up, would it not be right for the Minister to authorize refund of the rents that had been improperly paid before? That is a case that has never occurred to me.
560. That is really the case in point, and the reason given in the voucher for the refund was that the land was not available? That certainly puts a different complexion upon it.
561. The Minister has the power under the law of revoking forfeitures, and frequently exercises it? I do not say he has a right to do so—I should be sorry to express an opinion on that point, but he exercises it.
562. *Chairman.*] You think that the indication of forfeiture in the margin of one of these refund vouchers should have been sufficient to induce the Auditor General to refuse his verification? Yes, or to make further inquiry.
563. Or to make further inquiry before refunding the money? Yes, before allowing the refund.
564. Then, Mr. Freeman, you were instructed to discontinue your inquiry after a certain date? Yes.
565. What date was that, are you aware? I cannot say from memory.
566. Who gave you instructions to that effect? The Under Secretary.
567. The reason being that the Minister had signified his intention to appoint a Board? Yes.
568. Do you think you had pretty nearly got to the end of Harris's forgeries or frauds when you left off? I cannot say that; the man was so exceptionally clever and carved out so many new lines for himself that he would be a very bold man who would say that they were all found out.
569. Did you see Harris after his apprehension? I saw him at the Police Court.
570. Had you any communication with him? No.
571. Did he offer to make a clean breast of it? No; I never spoke to him.
572. He did not make any such offer in writing? In no way.

- S. Freeman. 573. Is there reason to suppose that there are many frauds still undiscovered? I cannot say there is reason to suppose it, nor can I say there is not.
- 27 Jan., 1882. 574. What do you think is the best way to make the investigation? To obtain from the Audit Department and examine every voucher for payments authorized by the Lands Department since Harris entered the office as a clerk.
575. Who do you think should conduct that examination? I do not know; it would be a very lengthy job, and a difficult one.
576. Do you think that a copy of the Refund Register kept in the Lands Department compared with the Register kept in the Audit office, would lead to a certainty in the matter, so far as pre-leases were concerned? It would probably lead to a discovery of the extent of frauds so far as pre-lease refunds were concerned; but fraudulent refunds may have been entered in the Refund Register.\*
577. Are you aware whether it was the practice of the Account Branch of the Lands Department to compare their books with the Bank pass-book at regular periods? Of my own knowledge I can say nothing. Mr. Ireland informed me that he and Harris had compared the Bank pass-book with their own cheque-books on two or three occasions.
578. You are not aware whether it was the regular rule to do so? I am not.
579. Do you consider it a desirable rule to establish? Unquestionably, a thing to be regularly done.
580. If you were an accountant, would you be satisfied to go on for months without calling in the pass-book and comparing it with your own books? I should compare it regularly with the butts of the cheques drawn in the office, and otherwise.
581. Did you ever hold the office of Accountant? No; except as a Collector of Revenue in the country.
582. *Mr. Thomson.*] And then you carried out that system? Yes.
583. *Chairman.*] The absence of that practice was in itself a serious defect in the working of the Account Branch? Yes.
584. Are you aware whether any more stringent regulations or instructions have been issued to the present Accountant for the conduct of the Branch? I am not aware what instructions he has received.
585. In fact, since Mr. Cohen was appointed, you have had no further communication with the Account Branch? During the first two or three days that Mr. Cohen was there, I was engaged there in looking up one or two matters, but I have not been there since.
586. *Mr. Thomson.*] Before you began this investigation you were Clerk of Petty Sessions and Land Agent at Forbes, were you not? I was.
587. Did you keep your accounts by a system of double entry? Yes.
588. So that you have had considerable experience in book-keeping? I would not say that—my experience was confined to one particular system at one place; I had no other experience, with the exception of a very few months when I was junior clerk at the Asylum for the Infirm and Destitute some years ago, when I had a few entries to make in the cash book.
589. But your experience of book-keeping at Forbes was such as to lead you to see at once that the Cash Book used in the Account Branch of the Lands Department was a very improper one? The book is a proper Cash Book, but the mode of entering it was very improper.
590. Did you draw Mr. Oliver's attention to that? No, I was not asked, and had not sufficient time to report upon the way the accounts should be kept; I was simply asked to try and find out what frauds Harris had committed.
591. How many reports did you send in to Mr. Oliver about these frauds? Four.
592. Did those four reports include the whole sum of £1,369 18s. 4d., shown in the statement before the Board? I am under the impression that they did not include the whole of it; some of the items were found when I was ill in bed, and I knew nothing of them until afterwards.
593. So that you really have made no summary of the whole? No.
594. Can you give us a summary now of that £1,369 18s. 4d., somewhat similar to that given in your report of the 28th November last? Yes. I make out the total to be £1,364 18s. 4d., and so far as I can make them out the summary is as follows:—Forged cheques, £185 6s. 9d.; forged authorities for resumption of land for road purposes, £374 1s.; forged authority for payment from the Treasurer's Advance Account, £187 6s.; forged authorities for lease rent refunds, £580 3s. 9d.; stolen cheques, £27 6s.; larceny, £10 14s. 10d.
595. That makes a total of £1,364 18s. 4d., which is the amount shown in the Schedule before the Board (*Appendix A*) less £5, which you have explained was a clerical error in putting down £10 in place of £5? Yes.
596. Did you discover any of these frauds in connection with the refund of lease rents? No. I may tell you how that discovery was made. Up to the time my first report went in we had not an opportunity of seeing Mr. Sutton. I had some difficulty in finding him, but I looked him up and got him to go to the Under Secretary. He stated then that he had received a good many amounts for Harris's friends. The Under Secretary asked him for particulars, and he said he would try and get them, and afterwards he brought a list of the sums he had received. Looking at this list, we observed that some of the payments were of much earlier date than Harris's appointment as Accountant. The Under Secretary immediately thought as I did, that they might be lease rent refunds, because we could think of nothing else he had to do with before he went to the Account Branch. An examination of the Audit Office vouchers proved that to be correct in some of the cases.
597. Then you discovered nothing yourself—it was only through information given by Mr. Sutton? Nothing about the lease rent refunds; there was nothing to create suspicion.
598. Upon obtaining this information from Mr. Sutton, did you think it necessary to inquire into the system of refunds generally? I had no time; my time was wholly taken up in getting details and examining vouchers.
599. So that you are not aware of the system adopted in the Lease Branch for authorizing lease rent refunds? No.
600. And you cannot therefore make any suggestion to the Board to improve the system, having no knowledge of it? No, I have no knowledge of it.

\* NOTE (on revision) :—I intended to point this out, and think I did so.—S.F.

601. Had you any reason to suspect that forgeries or frauds might have been committed in connection with refunds in the Conditional Purchase Branch? I had no reason to suspect it, but it is quite possible in the light of the revelations we have had of Harris's transactions.
602. The authorities sent to the Treasury and the forms are much the same? They are very much alike.
603. Did Mr. Oliver never suggest an inquiry in that direction? Not to me.
604. In your first report, dated 28th November, 1881, I find that you give a statement of liabilities and assets in connection with Mr. Oliver's banking account? Yes.
605. You there state that the balance in the Bank is £156 17s. 6d., and that deducting outstanding cheques, £120 8s., it is reduced to £36 9s. 6d. On the other side you put down liabilities amounting to £139 10s. 4d., which leaves the amount to be made good £103 0s. 10d. Will you explain why you put down the item of £21 9s. 11d. petty cash as a liability against the Bank balance? Because that sum remained un-accounted for out of an advance of £25, and was supposed to be in the Bank.
606. As a matter of fact that money had actually been drawn out? Yes.
607. Then as it was drawn out how could you make it a liability against the Banking account? I take it that the Department was liable for £21 9s. 11d.
608. You state in the same report (*Appendix B*), "On looking at the Petty Cash account I find that during the present year four advances of £25 each have been obtained. Of these the first three were duly adjusted by the production of expenditure vouchers. Payments to the extent of 19s. 5d. have been made out of the fourth, and a sum of £2 10s. 8d. in cash is in hand. This leaves a balance of £21 9s. 11d. to be accounted for."? Yes.
609. Did you include this £21 9s. 11d. as part of Harris's defalcations? No.
610. In the same same report I notice among the items which you state have been fraudulently made use of a cheque No. 210402, drawn in favour of P. F. Richardson, on 1st July, 1881, for the sum of £53 12s. 7d. A little further down in the same page the same amount is stated "as salary of Wm. Wallace, C.P. Inspector, from 1st April to 26th May, 1881." Will you kindly explain the seeming discrepancy? It is very easily explained: Harris obtained the advance ostensibly for the payment of Wallace's salary, and afterwards drew a cheque for the amount payable to P. F. Richardson—a forged cheque. I presume he thought it would be awkward to use Wallace's name in the cheque.
611. Do you mean that to obtain the money from the Treasury he sent up an abstract in the name of William Wallace, but that when he knew the money had been lodged in the Bank to the credit of the Under Secretary, he then forged a cheque in favour of P. F. Richardson? Yes.
612. Have you any idea why he did that? No; I see that he used Mr. Richardson's name on two occasions; Mr. Richardson was land agent at Lismore at the time.
613. Could the Treasury have discovered that that voucher in favour of Wallace was a fraud? No, I do not see how they could; Harris very cunningly neglected to inform the Audit Office that Wallace's services had been dispensed with; that was done for obvious reasons as it turns out, so that he might continue to draw Wallace's salary.
614. Is it usual to intimate to the Treasury or to the Audit Office that an officer has ceased to be employed in the Department? I have not been long enough in the Department to know; it should be done, and I think the original papers should be sent, both in cases of appointment and removal.
615. Then that intimation not having been given to the Audit Office, the Auditor General would be entirely exonerated from any blame in passing that voucher? Entirely.
616. Did you get these forged cheques back from the Bank? We got some of them—those that were necessary for the Police Court proceedings.
617. You did not get the whole of them? No, not the whole of them.
618. Did you give the Bank a receipt for those you got? I do not know; I believe the Under Secretary got them.
619. Are you aware whether the Bank acknowledges these cheques to be forgeries? I do not know as a matter of fact; I have heard certain statements made, but I do not know.
620. You consider that the Bank is liable for forgeries? I do not know, but that is my opinion; they hold money in trust for certain persons, and I believe they are liable for forgeries, however clever such forgeries may be.
621. When the new cheque-books which contained some material alterations in the form of cheque were used, do you think the Department should have informed the Bank of the change? I have no opinion either one way or the other. I know that the Banks frequently change the form of their own cheques, and they will pay cheques whatever the form may be, so long as they are satisfied with the signature.
622. They never do that with Government cheques? I do not know that; I have noticed some of the officials in the country use private forms for Government business; sometimes they use Government forms and sometimes they do not.
623. Are you aware whether, in this instance, the Under Secretary for Lands obtained the permission of the Treasury to alter the form of cheque? I know nothing whatever about it.
624. *Mr. Powell.*] Were you taken off your ordinary duties to attend to this matter of Harris's defalcations? Yes, I may say I was. During the examination of the accounts there were occasional interruptions.
625. I understand you to say that in one case Harris gave notice to the Audit Office of a fictitious appointment, and in another that he suppressed the fact of Wallace's removal? Yes.
626. *Mr. Thomson.*] I think you told us that the only correspondence that goes direct to Mr. Oliver is that containing money? I do not think I said the only correspondence; except very important letters, the money letters are the only letters taken direct to the Under Secretary.
627. Are you aware of the practice pursued with regard to letters that come in during the day? Yes, they are opened by the Chief Record Clerk, Mr. Patterson.
628. And what does he do with them? He has them registered and distributed.
629. Just the same as post letters? Yes, in the same way.
630. You have seen the document authorizing the payment to William Richards of £187 6s., dated 3rd June, 1881? I have.
631. Are you aware that that was returned from the Treasury with the Treasurer's approval noted thereon? Yes.
632. How did it get into Mr. Harris's hands? In the ordinary course of business it would go to the Chief Record Clerk for registration, and would then be sent to the Accountant, as it related to the business of his Branch.

S. Freeman.  
27 Jan., 1882.

- S. Freeman.  
27 Jan., 1882.
633. Do you think it is proper that refunds should be authorized on the signatures of the Heads of Branches, and not by the Under Secretary himself? I should be sorry to hazard an opinion on the subject. I know that the Under Secretary's duties are very laborious, and I doubt whether he could spare the time for it in addition to his other work, as of course he would have to examine each case to see that a refund was authorized.
634. Do you think it would be a check upon these refunds to have the forms in books with butts to them, and numbered consecutively, and kept under lock and key when not in use? It would be a check, but the question arises who is to keep them under lock and key—presumably the officer who signs the refunds.
635. Supposing they were kept under lock and key and only taken out when required, one officer would fill up the form from the papers, another would enter it in the Register, and then the Head of the Branch would sign the authority. Would not that be a good check? I do not see that it would, because there would be nothing to prevent the man who had charge of the forms from forging the signatures.
636. But the document would have to pass through three persons' hands? It would be a better check than at present exists, a very much better check.
637. I suppose you are aware that these forms of refund are lying about loose in the office, under no one's special charge? They are printed forms, and I believe are kept in the same press as the forms, under no special charge.
638. Open to any officer in the Branch? I presume so.
639. Do you think it would be an additional check if the original papers were sent on to the Audit Office with the authority? A very good check.
640. And do you think there is any necessity for these authorities to go to the Treasury before they go to the Auditor General? Are the payments made by the Treasury before the Audit Department have an opportunity of examining the authority?
641. Oh no? Then I do not see the necessity for any reference to the Treasury in the first instance.
642. *Chairman.*] Would not this system of check, by throwing the whole of the onus upon the Audit Office, be apt to produce carelessness on the part of the officers in the Lands Department? I do not think so. I understand that the Audit Department examine those vouchers at present.
643. But they never see any papers with them? In most cases there would be very few papers.

Thomas Ireland further examined:—

- T. Ireland.  
27 Jan., 1882.
- (*Witness produced three books kept in the Account Branch of the Lands Department, viz., the Cash Book, the Appropriation Ledger, and the Abstract Book for 1881.*)
644. *Mr. Thomson.*] When you were here the other day, I think you told us that for several months you established a check between your Cash Book balance and the Bank balance? Yes.
645. How could you do that when you have no entries on the receipt side of the Cash Book? I took the payments from the butts of the cheques which were entered in the Cash Book and compared them with the cheques paid by the Bank. Then I took the abstracts sent to the Treasury, which form the receipts. We send an abstract to the Treasury for a certain sum which is paid into the Bank, and I check these abstracts with the Bank book to see whether the money has been paid in.
646. Does the Paymaster at the Treasury inform you of every sum that is paid into the Bank to the credit of the Under Secretary for Lands? He does not give me formal intimation of it; the only intimation I receive is the return of the voucher authorizing the payment. There is no correspondence on the subject.
647. When you get these vouchers back from the Treasury, do you not think it is necessary that you should make an entry in your Cash Book of the sum paid into the Bank? It should be entered. I have frequently called Mr. Harris's attention to the Cash Book being one-sided.
648. Has any alteration been made in that system since Mr. Cohen was appointed? Mr. Cohen has made an alteration in the Cash Book by which he debits the book with all the amounts received from the Treasury.
649. *Mr. Powell.*] In checking your Cash Book, then, you take the abstracts, compare them with the receipts in the Bank and then the unpaid cheques on the other side form the balance? Yes; I take the Bank pass-book and check it with the amount of the abstracts I send to the Treasury; that checks one side. Then, on the other, I take the cheques paid and compare them with my Cash Book, and the unpaid cheques form the balance.
650. *Mr. Thomson.*] You have had some experience in commercial business? Yes, a good deal.
651. Did you ever see a Cash Book kept like the one now before the Board? Never; it is not a Cash Book, it is simply an expenditure book.
652. Having a knowledge of the commercial way of keeping books, did it never strike you as necessary that you should debit cash with the amounts paid into the Bank? Oh yes, and I spoke to Mr. Harris frequently about it.
653. But without Mr. Harris's instructions you could not keep the cash book as it ought to be kept? No, I had no power to do so. Mr. Harris gave me the books to keep in a certain way.
654. You see that this Cash Book is prepared for the purpose of debiting cash with all moneys paid into the Bank? Just so.
655. Were you in the Account Branch before Mr. Harris went there? Yes.
656. Was there any Cash Book in use then? Yes.
657. When he came in, was the system of keeping it altered? Yes, in the former Cash Book every advance was entered on the debit side.
658. And you entered nothing on the credit side but cash payments? Nothing but cash payments.
659. That was the proper mode of keeping it? Yes.
660. *Chairman.*] Are you aware of any written instructions to the Accountant as to the mode of keeping the accounts? I never saw any; there was a paper, I think, but it had reference to the petty cash.
661. *Mr. Thomson.*] Who introduced the system you have now in operation? Mr. Harris himself.
662. *Chairman.*] And that was supposed to be a great improvement upon the system in operation before his time? I suppose so—he introduced it as an improvement.
