(	FITZ ROY DRY DOCK, COCKATOO ISLAND.  Conditions.  All vessels belonging to H. M. Navy, the Colonial Government, and menof-war of other nations, will be admitted to repair in the Fitz Roy	3	
Governor and Executive Council	Dock, Sydney Harbour, free of any dock dues or rates, but they will be required to repay all actual expenditure of stores, wages, and material.  All other vessels will be liable to a minimum dock-rate of 6d. per ton per diem, if of 1,500 tons register or upwards, and an additional 1th of a penny per ton for every decrease of 50 tons or portion of 50 tons down to a maximum rate of 9d. per ton for a vessel of 300 tons, and all below, as set forth in the scale attached hereto.  Double rates will be charged for the day of docking.  The I ock dues will include and cover the cost of pumping, shoring wedges, and blocking, and the cost of all labour connected with opening and closing the Dock, and all incidental labour connected with the actual operation of docking a vessel.  No vessel will be permitted to enter the Dock with gunpowder or combustible anumunition on board.  **Workshops and Machinery*.		30 Aug., 1861.
	Vessels in Dock and private engineering establishments will be permitted to avail themselves of any portion of the machinery of the Dockyard workshops on payment of a rate per hour; preference being always given to the requirements of a vessel in Dock. These charges will be in addition to Dock dues, and in accordance with the rates mentioned in the subjoined Schedule.  The rate for the machinery will include the cost of putting and maintaining the machine in motion, the use of the 20-ton overhead traversing crane, and all tools belonging to the Machine in use, but nothing further.

# THE REGISTRAR-GENERAL'S REPORT TO THE HONORABLE THE COLONIAL SECRETARY.

Registrar-General's Department, Sydney, 15 October, 1884.

The several parts of the Statistical Register for 1883 having been already forwarded to you and presented to Parliament, I now do myself the honor to submit my Report thereon.

# PART I.

### POPULATION, IMMIGRATION, &c.

It was estimated that the population on the 31st December, 1883, was Fopulation. 869,310, namely, 480,497 males and 388,813 females, being an increase of 51,842 since the previous year, or at the rate of 6.34 per cent. The increase during the year ended 31st December, 1882, was at the rate of 4.63 per cent., by which it will be seen that the rate of augmentation of the population last year exceeded the previous twelve months by no less than 1.71 per cent. The natural increase by births over deaths was 19,032, and that by immigration over emigration was 32,810, so far as it could be ascertained; but in this respect there is always an element of uncertainty, inasmuch as thousands of persons cross the borders of the Colony of which no record can be kept. It is believed, however, that the figures given above will be below the actual numbers, and that the population is increasing at even a greater rate than is shown by the tables. The percentage of males over females has increased during the year, the proportions being 55.27 per cent. for the males and 44.73 per cent. for the females, as against 54.71 and 45.29 per cent. respectively at the close of the year 1882. This is accounted for by the large number of male adults who have arrived in the Colony during the year 1883.

The Decennial Returns of the Population of the Colony, and of the numbers of Marriages, Births, and Deaths, as also the number of Marriages celebrated by each of the religious denominations and by Registrars, will be found on pages 2 and 3.

596—b

There

Marriages.

There were 7,405 Marriages celebrated in 1883, as against 6,948 in 1882, being an increase of 457 on the previous year. This, however, is a falling off in the rate of increase of marriages, inasmuch as there were 664 more Marriages in 1882 than in 1881, while 1881 exceeded 1880 by 712. The number of celebrations has increased in all the principal Churches, with the exception of the Presbyterian, in which there was a falling off of 5 during the year.

Births

The Births registered in 1883 numbered 31,281, showing an excess of 1,579 over the Births of the previous year. The excess of Births in 1882 over those of 1881 was 709, by which it will be seen that the increase was more than doubled in 1883.

Deaths.

The Deaths registered in 1883 numbered 12,249, while in 1882 there were 12,816, showing a decrease during the year of 567, notwithstanding the increase of the population.

Immigration.

The total number of Immigrants who arrived in the Colony seaward during the year was 67,206; of this number 58,837, including 1,936 Chinese, came to the Colony at their own expense, and 8,369 were introduced at the public expense under the "Regulations for Assisted Immigration." The following numbers show the nationality of the assisted Immigrants, viz.:—England and Wales, 5,382; Scotland, 937; Ireland, 1,903; and other countries, 147. Of these, 6,442 were Protestants, 1,758 Roman Catholics, and 169 belonged to other religious persuasions.

Emigration.

The number of persons who left the Colony by sea during the year 1883 was 34,396, so that the gain to the Colony by excess of Immigration over Emigration was 32,810 persons, as against an excess of the previous year of 19,317. What the Colony may have gained by migration between the other Colonies overland there are no means of ascertaining.

Charitable Institutions Hospitals.

Return No. 8 shows the number of charitable institutions in the Colony. Of the 60 Hospitals, 4 of them have not furnished the information required; but of the remaining 56 the number of persons admitted, discharged, and who died is shown, as also the receipts and disbursements thereof. The number of cases admitted into the Sydney Hospital during the year 1883 was 3,118. There were 2,796 patients discharged, and 309 died. On the 31st December there remained in that Institution 221 persons. 8,904 paupers had received out-door relief during the twelve months. The receipts in aid of the Sydney Hospital during the year were as follows:-From the Colonial Treasury, £30,377; and from voluntary contributions, fees, &c., £4,575, making a total of £34,952. The total disbursements amounted to £37,772, but this included £18,057 expended on the building. The aggregate number of admissions to the other Hospitals from which returns have been furnished was There were also 4,063 discharges and 487 deaths. The receipts for these Institutions during the year 1883 were £45,722; namely, £20,795 from the Treasury, and £24,927 from voluntary contributions, fees, &c. The disbursements amounted to £46,186, which included £10,609 expended on the Hospital buildings. The gross amount received for the Hospitals of the Colony during the year was £80,675, of which £51,172 was paid from the Treasury, and £29,503 from voluntary contributions, &c.

Benevolent Asylums, &c. For Benevolent Asylums the total amount received for the year was £30,407, of which amount £29,012 was contributed from the Public Treasury, and £1,395 was raised from voluntary subscriptions, &c. This shows a falling off in voluntary aid of £1,482 as compared with the previous year. The cost of maintaining the three establishments at Hyde Park (Sydney), Parramatta, and Liverpool amounted to £19,078.

The total number of admissions to the Benevolent Institutions during the the year (including 350 children and births) was 3,476, and the number of discharges (including 488 children) was 3,187. There were 492 deaths, and at the close of the year there were 1,835 persons remaining.

The two Benevolent Societies at Bega and West Maitland were maintained at a cost of £618. The receipts towards their support were £690, of which amount £248 was paid to the West Maitland Institution from the Public Treasury; the remainder was raised by voluntary contributions. The Bega Society afforded out-door relief only, to 27 persons, at a cost of £33. In the Maitland Institutions,

37 were admitted during the year, 33 were discharged, and 1 died. There were 16 remaining at the end of the year. In addition to these, out-door relief was afforded to 218 persons.

То

To the Orphan and Industrial Schools, 9 in number, the Public Treasury Orphan and contributed £27,880, and the sum of £11,104 was the result of voluntary Schools. contributions, fines, fees, &c. Out of the latter sum £210 was received by the Sydney Female School of Industry, which institution does not receive any support from the Treasury. The number of inmates in these institutions on the 31st December, 1882, was 1,999. There were 449 admitted, 633 discharged, and 20 died during the year 1883, leaving 1,735 on the rolls on the 31st December.

At the beginning of the year 1883, the total number of insane persons in the Hospitals for various Hospitals for the Insane was 2,307, namely, 1,430 males and 877 females. the Insane The admissions during the year were 322 males and 325 females. There were 167 males and 231 females discharged, and 111 males and 45 females died during the So that at the end of the year there were 1,274 males and 926 females same period. remaining in the several establishments. These figures show an improvement on those of 1882, inasmuch as last year there were 188 fewer admissions than during the previous twelve months. This improvement was especially apparent in the males, as there were 218 fewer admissions last year than the year before, while the admissions of females increased by 30. There was, however, a falling off in the number of discharged, as only 527 left these institutions in 1883, as against 601 in The total amount received in aid of these institutions was £145,222. sum was expended in maintainance, repairs, alterations, and additional buildings, including £62,821 the cost of erecting a new Lunatic Asylum at Callan Park.

Under the head Miscellaneous there are 7 charitable institutions, 5 of which Miscellaneous. are supported entirely by voluntary contributions; the other 2, Infants' Home, Ashfield, and the Hospital for Sick Children, Glebe, received £1,737 from the Treasury, and £2,108 from voluntary contributions.

The total amount received on account of Charitable Institutions for the year 1883 was £302,117, of which £255,271 was provided by the Colonial Treasury, and £46,846 was raised by voluntary contributions, fees, &c.

On pages 10 and 11 will be found returns showing the number of Suicides Suicides. during the year and the previous nine years, and also the number of cases of disease treated in the various gaols and police gaols during the year 1883. With reference to the Suicides, it will be found that the percentage as compared with the population has been gradually decreasing during the decennial period. The percentage in 1874 was 1.09 in every 10,000 of the population, and in 1883 it had fallen off to 0.68 in every 10,000 persons.

On pages 12 to 14 are given decennial tables of the average rate of wages for Rates of the different classes of labour in the Colony, and the average prices of clothing and Wages, &c., It is remarkable how few changes have been made in the rate of visions, &c. Clothing. remuneration for artisans during the last few years.

### PART II.

#### RELIGION, EDUCATION, AND CRIME.

Table No. 17, Ecclesiastical Return, shows the amounts received as Ecclesiastical. salaries and allowances, and the amounts paid from the Church and School Estates to four of the religious denominations.

The following Abstract gives the sums received by each denomination:—

Sunday Schools. The total number of children on the rolls of the various Sunday Schools throughout the Colony at the end of the year 1883 was 105,162, as against 102,141 in 1882, being an increase of 3,021 or 2.87 per cent. for the year. The average attendance is stated to be 77,815, or 74.0 per cent. of the number on the rolls. The number of Teachers engaged in the Sunday Schools was 9,793, comprising 3,969 males and 5,824 females, being an increase of 240 males and 363 females on the numbers of Teachers in 1882.

Private Schools. The Private Schools have increased in number since 1882 from 491 to 588, and the scholars from 19,746 to 32,107, or at the rate of no less than 62 6 per cent. This extraordinary increase is accounted for by the fact that in the return of Private Schools are included several establishments which in 1882 ranked as Denominational Schools, and were numbered amongst those which received pecuniary aid from the State.

Cost of Public Instruction under the Department. The amount expended under the Department of Public Instruction during the year was £821,853. The sum of £51,427 was received as fees and paid into the Treasury, so that the net cost of education under the Department was £770,426, an increase of £202,938 over the cost for 1882.

Public Instruction. The number of scholars in the various schools under the Department of Public Instruction in 1883 was 155,824, as against 159,490 in 1882. There were also in that year 29,651 pupils in Denominational Schools, making a total of 189,141 under the Department, showing a falling off in the number of pupils in the Public Schools of 3,666 in addition to the Denominational pupils. The note at the foot of Return No. 21 explains the apparent discrepancy:—"Up to and inclusive of 1882 the annual gross enrolment or aggregate of attendances in schools under the Department of Public Instruction was given in the Statistical Return under the head of Numbers of Scholars; but as the attendances of the same scholars at two, three,

or more different schools in the year are counted separately in making up the gross enrolment, it follows that such enrolment must necessarily be largely in excess of the actual number of scholars. To prevent further misconception with regard to the numbers given, it is deemed advisable to furnish for 1883 the actual number of distinct individual scholars attending the schools in the year."

The number of Schools and Scholars under the Department of Public

Instruction in the year 1883 is shown as under:

				No	o. of Schools.	No. of Scholars.

Of these 155,824 scholars there were 80,709 males and 75,115 females, and

they were superintended by 2,987 teachers—1,527 males and 1,460 females.

Taking the number of pupils in the Public Schools and those in the private Number of schools, 32,107, we have a total of 187,931 scholars attending the various educational pupils under tuition. establishments in the Colony. This however does not represent the whole of the children under tuition. In 1881, when the Census was taken, there were 19,792 children being educated at home. Assuming that these children have increased at the same ratio as the population since 1881, there would be at the end of 1883 about 23,000 children being educated at home, making a total of about 212,900 pupils under tuition, exclusive of those who were being educated in the various Benevolent Institutions.

In the Orphan Schools, Asylum for Destitute Children, Deaf and Dumb and Blind Institution, and the Reformatories, there were 1,393 children receiving instruction, the cost of which is paid out of the Government funds contributed for the maintenance of those institutions. In 1882 there were 1,586 of these children, and in 1881 there were 1,592, so that it will be seen there has been a gradual diminution of the number of children in these charities during the last two years. This is particularly observable in the Orphan Schools, as in 1881 there were 548, and in 1883 they had been reduced to 419. In the Asylum for Destitute Children also the falling off during the same period has been from 662 to 612. in the Reformatories have increased from 304 to 362, and in the Deaf and Dumb Institution from 78 to 82.

The total cost to the State of the Sydney University, the Affiliated Colleges, Sydney University, and the Sydney Grammar School during the year 1883 was £20,288, and the sum Affiliated of £16,446 was realized from voluntary contribution, fees, and other sources, making Colleges, and a total of £36,734. At the University there were 128 students, St. Paul's College Grammar 16, St. John's 8, St. Andrew's 23, and at the Sydney Grammar School 402.

At page 21 is given a Decennial Return of the number of students at the University, the number of those who have gone up for examination, and the number of those who have passed. Another return shows the number of graduates during the last ten years; and a third gives the annual receipts and expenditure since the year 1874 inclusive. The receipts for 1883 amounted to £19,649, and the expenditure to £19,769.

On page 22 is given a Return of the National Art Gallery, showing that the Art Gallery. amount received from the Government in aid thereof to the 31st December, 1883, was £37,627. The total amount disbursed for works of art was £32,204. total number of visitors from the day of opening, on the 22nd September, 1880, to the 31st December, 1881, was 140,266; during 1882, 209,468; and in 1883, 265,184; making a grand total of 614,918 visitors in 1,019 days upon which the gallery was The amount expended in wages, repairs, &c., was £3,095. The return shows the number and description of the various works of art purchased, and a column is devoted to a description of the presentations which have enriched the gallery.

The amount received from the Government in aid of the Australian Museum Australian for 1883 was £8,900, and the expenditure was £9,052, of which sum £5,944 was paid for purchases and £3,108 for salaries and wages. The number of visitors during the year was 86,114 on week days and 51,287 on Sundays; total, 137,401; as against 134,041 in 1882. The attendance increased by 4,518 persons on the week days, but decreased by 1,158 on Sundays in 1883, as compared with the previous year. The

Free Public Library.

The number of visits recorded to the Free Public Library during 1883 was 155,431, as against 135,731 in 1882, showing an increase of nearly 20,000. The number of volumes, pamphlets, &c., in the Library at the end of the year was 59,554, being an increase of 4,617 during the twelve months. The number of volumes presented during the year was 404, of the estimated value of £70. This makes a total of 3,933 volumes, of the value of £1,940, which have been given to the institution. The amount received from the Government in aid of the Library, exclusive of salaries and maintenance, was £3,084 during the year.

Schools of Art, Public Libraries, &c. Return No. 30, on pages 24 to 27, shows that there are 125 Schools of Art and Public Libraries in the Colony. At the close of the year 1882 they numbered 79, by which it will be seen that vast strides have been made in this direction during the year 1883. The return gives the names of the institutions, the dates upon which they were first opened, whether the property is freehold or leasehold, the cost of erection of buildings, the amounts received from the Government and from private contributions during the year, the number of volumes in each institution, and the total number of visits paid to them during 1883.

Crime. Gaols. The remaining portion of Part II of the Register refers to the crime of the Colony. Returns Nos. 31 and 32 show the number of prisoners received into the various gaols of the Colony during the year 1883 to have been 18,566, comprising 14,049 males and 4,517 females. Of this number, 28 were debtors—27 males and 1 female; 2,454, viz., 2,128 males and 326 females, were under committal for trial; 679—585 males and 94 females, in transitu; and 15,405—11,309 males and 4,096 females, were under various sentences. Of the total number of males received 86.50 per cent. could read and write, 2.96 per cent. could read only, and 10.54 per cent. were unable to read. Of the females received, 83.34 per cent. could read and write, 3.85 per cent. could read only, and 12.81 per cent. were unable to read. The remaining part of the same table refers to the nationalities and religions of the prisoners, by which it would appear that of the male portion—

Education of prisoners.

Nationalities of prisoners.

4,867 or 34 67 per cent. were Australian-born.
3,793 ,, 27 00 ,, born in England and Wales.
3,079 ,, 21 91 ,, ,, Ireland.

Of the female portion—

1,769 or 39·17 per cent Australians.
779 ,, 17·25 ,, England and Wales.
1,677 ,, 37·13 ,, Ireland.
227 ,, 5·03 ,, Scotland.
64 ,, 1·42 ,, other countries.

When the Census was taken in 1881, the various nationalities in proportion to the total population was as follows:—

Of the male population—

63·05 per cent. were Australian-born.
17·21 ,, England and Wales.
8·88 ,, Ireland.
3·85 ,, Scotland.
7·01 ,, other countries.

Of the female population—

74·25 per cent. Australian.
11·72 ,, England and Wales.
9·60 ,, Ireland.
2·72 ,, Scotland.
1·71 ,, other countries.

Assuming that these proportions have not materially changed in the interim, we find that the Australian-born are by far the least criminal, as will be seen by the above figures, for while they comprise more than two-thirds of the total population they form but little more than one-third of the criminal class. Leaving out decimals, we find that there are:—

By the above figures it will be seen that while the Protestants form nearly seven-tenths of the total population, they only contribute about one-half to the criminal class. The Roman Catholics, who comprise about three-tenths of the total population, contribute fully one-half to the criminal class, as shown in table No. 36.

Returns Nos. 37 and 38, on pages 56 to 64, show the number of Supreme and Supreme and Circuit Court cases and Quarter Sessions cases in 1883. In the Superior Courts there were 111 cases of felony and 49 of misdemeanour, against 190 and 57 respectively in of Quarter 1882, being a falling off of 87 cases. The number of cases at the Quarter Sessions Sessions. was 1,507, as against 1,599 in 1882, showing a falling off of 92 cases.

Return No. 39 is a decennial table of the number of convictions for felonies

and misdemeanours. The number in 1883 was 1,012, as against 1,066 in 1881 and

1,065 in 1882, showing an improvement of 53 cases in the last twelve months.

The remaining tables in Part II show the number of executions, the offences reported to the police, the number of summonses, summary convictions, apprehensions, &c.

#### PART III.

#### TRADE AND COMMERCE.

The first Return, No. 48, on pages 74 and 75, shows the total value of the Imports and Imports and Exports of the Colony during the year 1883, by which it will be seen Exports. that the total value of the Imports was £20,960,157, and of the Exports was In 1882 the value of the Imports amounted to £21,281,130, and the £19,886,018. Exports to £16,716,961, so that there was a decrease in the Imports to the value of £320,973, and an increase in the Exports to the value of £3,169,057. The increase

in the value of the total trade of the Colony amounted to £2,848,084. The Imports per head of the estimated mean population was £24 18s. 8d., and the Exports £23 13s. 2d.; so that the total trade per head of the population was £48 11s. 10d.

Imports.

The following table shows the values of the Imports from the United Kingdom, British Possessions, and Foreign States for the years 1881, 1882, and 1883:—

	1881.	1882	1883.
United Kingdom	£8,986,838	£11,155,917	£10,624,081 '

		<del></del>	
	£17,409,326	£21,2 $\$$ 1,130	£20,960,157

By the above figures it will be seen that, although there was a small falling off in the value of the Imports between 1882 and 1883, there was an increase of over . three and a half millions since 1881.

Of the value of Imports in 1883 the British Colonies produced £8,409,911. The following Foreign States supplied the greater portion of the remaining Imports:—

Between the years 1881 and 1882 there was an increase of £667,458, and between 1882 and 1883 the increase in value was £3,169,057. The latter amount was made up as follows:—From the United Kingdom by £2,574,516; British Colonies, by £209,515; and Foreign States by £385,026.

From page 76 to 144 are shown the Imports and Exports of all descriptions of merchandise during the year. The Decennial Returns are given on pages 145 to 170.

Produce and Manufacture of the Colony. On page 171, Return No. 55 gives the decennial abstract of the total value of articles exported the produce or manufacture of the Colony, by which it will be seen that there has been a steady increase from year to year, with the exception of the years 1878 and 1879, when there was a slight decrease. In 1874 the value of articles exported was £12,345,603; in 1883 the value had risen to £19,886,018, being an increase in the decade of £7,540,415, or 61 per cent., or at the average rate of over 5 per cent. per annum. The greatest increase has, however, been during the last year, being nearly 19 per cent.

Live Stock.

Tables 56 and 57 are Decennial Returns of Live Stock imported into and exported from the Colony. The total value of the stock imported during the decade was £2,168,422, and of that exported was £8,952,257, the excess of value in favour of exports being £6,783,835.

The Decennial Return No. 58, of the value and quantity of Wool exported from and the produce of the Colony, shows a very large increase in the decade. The quantity has increased from 75 million lbs. in 1874 to over 188 million lbs. in 1883; and the value has nearly doubled, namely, from £5,010,125 to £9,598,761. Of the latter amount Great Britain absorbed Wool to the value of £6,027,919. Victoria was the recipient of £2,496,610 worth, most of which was no doubt sent via Melbourne to Great Britain.

The number of vessels which cleared outwards in 1882 was 2,340, and their tonnage 1,610,045, so that there was an increase in the outward trade of the Colony in 1883 of 434 ships, carrying 461,003 tons.

There were during 1883 102 vessels built in the Colony, of an aggregate of vessels built. 7,253 tons, of which 52 were steamers, with a capacity of 5,368 tons, and of the remainder 12 were schooners, 1 barquentine, 4 ketches, 3 cutters, and 30 luggers.

The number of vessels built in 1882 was 65, with a carrying capacity of 4,734

tons, showing an increase in favour of 1883 of 37 vessels and 2,519 tons.

The number of vessels registered in the Colony was 155, and their aggregate Vessels regisregister was 19,972 tons.

Return No. 70, on page 180, gives the stocks of merchandise in bonded ware-Bonded ware-Bonded warehouses at the end of the year 1883.

The

Customs Revenues, &c.

The total amount of Revenue collected by the Customs Department from the 1st January to the 31st December, 1883, inclusive, was £1,527,863, being an increase over the preceding twelve months of £13,600. The largest amounts of Revenue were derived from the following sources: -Wine, beer, and spirits, £814,920; tobacco and cigars, £138,894; tea, £75,719; sugar (refined and raw), £51,580; opium, £14,135; rice, £13,855; dried fruits, £50,597; specific duties, £266,579. For Pilotage, Harbour and Light Rates and Removal Dues, the sum of £49,484 was realized.

# PART IV.

### MILLS AND MANUFACTURES.

Grain mills.

The number of Mills for grinding and dressing grain in the Colony at the close of the year 1883 was 154, of an aggregate of 2,847 horse-power. In these mills there were 685 hands employed, and 390 pairs of stones were in operation. Of these Mills there were 145 steam, of 2,759 horse-power,

and 9 water, of

> 154 2,847

Return 72, on page 184, shows the number and power of Mills for grinding and dressing grain in each Electoral District of the Colony in 1883, and the next is a Decennial Keturn on the same subject.

Manufac-

Return 74, on pages 186 to 189, shows the number of Manufactories, Works, tories, Works, &c., in each of the Electoral Districts, by which it will be seen that there were 20,218 of such establishments at work at the end of 1883. This, however, includes a large number of Reaping machines, Hay-cutting machines, Chaff-cutters, and other machines not absolutely used in manufactures. The Decennial Return bearing upon this subject shows an increase of over cent. per cent. since the year 1874.

The next return, No. 75, on pages 190 and 191, shows the number of Manufactories and Works in the absolute production of manufactures within the Colony. The total number was 3,111, employing 33,399 hands—31,003 males and 2,396 females. This does not, however, show nearly the total number of artisans and mechanics who were employed in the Colony, inasmuch as there are a vast number of both sexes engaged in various trades which are not included in this return.

The following table shows the number of Works and Manufactories in 1883, and the number of hands employed in connection with the various industries included in the Return No. 75:

	Number.	Hands employed.
Connected with or dependent on Agriculture	204	2,777 2,937

	3,111	33,399

The above shows an increase on the year 1882 of 75 manufactories and works, and 739 hands.

Woollen factories.

Soap and Candles.

There were 9 Woollen Manufactories in operation during 1883; but one of these has declined for the last seven years to furnish me with any information as to the production of that particular establishment. From the other 8 mills the quantity of Cloth and Tweed manufactured was 202,000 yards. The decennial table shows considerable fluctuations in the manufacture of Woollen goods, and a considerable falling off since 1874.

Of Soap and Candles the manufacture of 34 establishments produced 121,794 cwt. of the former and 25,069 cwt. of the latter during the year 1883.

The

The quantity of Tobacco manufactured at 14 factories amounted to 19,452½ Tobacco. cwt.; this shows a falling off, as compared with 1882, of 3,362 cwt.; but it is an increase on the production of any former year of the decade, with the exception of

1879, when 24,654 cwt. was manufactured.

The Sugar manufactured in 1883 amounted to 314,470 cwt. at 93 mills, sugar, &c. 79 of which, with an aggregate of 2,651 horse-power, were worked by steam, and 14 with 44 horse-power, were worked by cattle. The same mills produced 490,138 gallons of Molasses. This shows an increase on the quantity of Sugar manufactured in 1882 of  $103,901\frac{1}{2}$  cwt., and a decrease in the quantity of Molasses of 133,105 gallons.

The two Sugar Refineries at work in the Colony during the year produced Sugar Refineries.

514,500 cwt., an increase of 6,000 cwt. as compared with 1882.

There were 42 Boiling-down Establishments at work during the year 1883, Tallow and at which were slaughtered 333,041 sheep and 21,199 horned cattle, producing 222,485 Lard. 730 pigs were killed, which produced 4,320 lbs. of Lard. A large quantity of Tallow is annually made from the refuse of butchers' shops.

The concluding return, No 83, of this Part of the Statistical Register shows Colonial the quantity of Colonial Distilled Spirits made during the last ten years. In 1883 Spirits. there were 152,766 proof gallons of Rum made from 31,596 cwt. of Molasses.

#### PART V.

#### MONETARY AND FINANCIAL.

From pages 198 to 236 is devoted to returns showing the Duties, Fees, &c., Sources of and all other sources of Revenue specified under the respective laws and authorities Revenue, Rates of Disby which they are derived, also the course of Exchange, showing the rate per cent. count on Bills, per annum Discount on Local Bills and the Rate of Exchange on Bills on London &c. in the year 1883, and the Rates of Interest allowed on Deposits in the Banks.

Return No. 89, on page 236, shows the total value of Coin and Bullion in the Coin and Sydney Branch of the Royal Mint and in the various Banks in the Colony on the Bullion. 31st December, 1883, to have been £2,920,766. Of this sum, £2,861,980 was repre-

sented by Coin and £58,786 by Bullion.

No. 90 is a Decennial Return of the amount of Coin and Bullion in the Mint

and Banks on the 31st December in each year.

Return No. 92 is an estimate of Coin—Gold, Silver, and Bronze—in the Colony Total amount at the end of the year 1883. It is estimated that there was £5,427,444 in Gold, Colony. £401,875 in Silver, and £21,798 in Bronze; making a total of £5,851,117, of which £3,008,016 was in private hands and £2,843,101 in the Banks.

Return No. 93, on page 238, shows the amount of the New Silver and Bronze New Silver Coin issued from the Sydney Branch of the Royal Mint since the year 1868, and and Bronze Return No. 94 shows the quantity and value of Worn Silver Coin withdrawn from

circulation since 1873.

The amount of the Notes of the several Banks in circulation on the 31st Paper December, 1883, as shown by Return No. 95, was £1,812,336, the average for the currency. year being £1,680,472.

Return No. 96 is a General Abstract of the Average Assets and Liabilities, Bank Assets and the Capital and Profits of the various Banks of the Colony for the year 1883.

The following is the aggregate, for each Quarter of the year, of Liabilities,

Assets, and Dividends:

Return No. 97, on page 241, shows that there were 45,442 Depositors in the Savings Bank several branches of the New South Wales Savings Bank at the close of the year 1883, of New South with £1,822,319 to their credit. The Sydney Depositors numbered 36,376, with £1,450,821, and the Country Depositors 9,066, with £371,498 to their credit. The total amount at the credit of Reserved Fund was £167,860. At the close of the year 1882 there were 42,274 Depositors, with an amount to their credit of £1,856,641, by which it will be seen that the number of Depositors had increased by 3,168 in

1883, but the amount to the credit of Depositors had decreased by £34,322. The diminution in the amount of deposits is accounted for by the fact that the withdrawals were needed for the purchase of allotments of land and for building purposes. Considerable activity was displayed during the year in this respect by Depositors in the provident desire to become possessed of houses of their own to live in.

The following table gives the number of Depositors, and the amount to their

Credit, under and over certain specified sums:—

accounts opened.

Government Savings Banks." At the end of 1883 there were 248 Government Savings Banks in the Colony. The number of accounts open at the end of the previous year was 38,853. There were in 1883, 25,009 new accounts opened and 18,141 closed, so that at the end of the year there were 45,721 accounts remaining open, with the sum of £1,183,519 to the credit of depositors. The amount on deposit at the end of 1882, was £1,158,454, by which it will be seen that the number of depositors had increased by 6,868, and the deposits by £25,065.

Gold received and issued at the Mint.

The next return, No. 101, on page 245, gives the weight and value of gold received at the Mint for coinage, and the value of gold coin and bullion issued, as also the revenue derived from Mint charges, &c., from the opening on the 14th May, 1855, to the close of the year 1883. The amount of gold for coinage received in 1883 was 374,141 ozs., of the value of £1,353,665. The gold coin issued was 1,108,000 sovereigns and 220,000 half-sovereigns. 30,895 ozs. gold bullion, of the value of £124,610, was also issued. The total value of gold coin and bullion was £1,342,610.

The number of stations opened for the transmission of telegrams at the end of the year was 368, and the number of miles of wire was 17,272. The total cost of construction of Telegraphs in the Colony amounted to £564,316.

On page 251 will be found a decennial return, No. 107, of the number of Post Offices. Post Offices in the Colony on the 31st December in each year, showing the number of letters, newspapers, &c., transmitted, and the number of persons employed in the service up to the same period. At the close of the year 1883 there were 1,046 Post Offices and 188 Receiving Offices. The number of persons employed was 1,960 and the extent of the postal lines was 25,162 miles. There were 35,426,400 letters transmitted, of which 4,168,100 or 11.8 per cent. were foreign and British, and 31,258,300 or 88.2 per cent. were for delivery within the Colony. This shows an increase in the total number of letters, as compared with 1882, of 6,099,900. There were also 19,577,300 newspapers and 1,648,900 packets in 1883, as against 18,082,300 newspapers and 1,262,800 packets in 1882. The income for the year 1883 was £261,813, but there was a further sum of £24,000 which was transferred to Stamp Duties as the approximate value of Postage Stamps used for Duty Stamp purposes during the year. The expenditure for the year was £326,674, exclusive of outstanding liabilities.

The following is a comparative statement of the business of the Post Office for 1882 and 1883, showing the increase:—

Local Revenues, Sydney Municipal Council.

On page 256, Return No. 113 shows the receipts and disbursements of the Sydney Municipality for the year 1883. The total revenue for the year amounted to £225,192. This amount included the sum of £50,000 received from the Colonial Government on account of the city endowment. The disbursements were: Office of Mayor, £9,007; wages, £62,772. City improvements, £15,573 for metal, and £59,958 for various street works. Miscellaneous expenditure, including lighting the city with gas, £33,535. The sum of £44,346 was paid to the Union Bank in liquidation of balances due to that Bank for the years 1882 and 1883.

Municipalities. Return No. 114, on page 257, shows the total estimated value and annual value of ratable property in the various Boroughs and Municipal Districts of the Colony (Sydney excepted), together with the receipts and expenditure, &c., of each Municipality during the municipal year ended 4th February, 1884. The total estimated value of ratable property was £35,101,265, and the estimated annual value was £2,716,449. The total receipts amounted to £331,086, and the total expenditure to £343,596. The total extent of roads and streets under the control of the various Municipal Councils was 3,588 miles.

The concluding return, No. 115, of this Part of the Register shows the receipts and disbursements of the several Road Trusts in the year 1883, and also the number of miles of road under the care of the Commissioners.

#### PART VI.

#### PRODUCTION.

Gold.

The quantity of Gold, the produce of the Colony of New South Wales, received into the Sydney Branch of the Royal Mint for coinage during the year 1883 amounted to 121,777 ounces, of the value of £450,766, averaging £3 14s. per ounce. Of the quantity received, there were 73,198 ounces sent by Escort, valued at £272,755. The following table gives the production of each district:—

Return No. 118 shows the estimated quantity and value of Gold, the produce of the Colony, from the year 1851 to the end of 1883 to be 9,432,758 ounces, of the value of £34,971,319. But this return can only be taken to be approximately true. The quantity shown must be much below the actual production of the Colony during this period, as thousands of ounces have left the Colony of which no record was obtainable.

Mines : Coal. During the year 1883 there were 59 Coal-mines in operation. The quantity of Coal raised was 2,521,457 tons, valued at £1,201,941. The number of hands employed was 5,481.

The

The Northern Coal-mines produced 1,899,621 tons, of the value of £928,327, while the quantity raised from the Western and Southern Mines was 621,836 tons, valued at £273,614. The average price of the Northern Coal was 9s.  $9\frac{1}{4}$ d. per ton, and of the Southern and Western, 8s.  $9\frac{1}{2}$ d per ton.

The above shows an increase in the production as compared with 1882 of 412,175 tons, of which the Northern Coal-fields contributed 330,104 tons, and the Southern and Western 82,071 tons.

There were 834 more hands employed in Coal-mining in 1883 than in the previous year.

The quantity of Shale raised was 49,250 tons in 1883, as against 48,065 tons shale in 1882, the increase being 1,185 tons. The total value was £90,861, or about £1 16s. 10d. per ton. There were 293 men employed in the Shale-mines.

During 1883 there were  $6,442\frac{1}{2}$  tons of Copper produced, of the value of Copper £368,049. Cobar alone contributed 4,765 tons, valued at £286,819. Tuena came next with 1,030 tons, worth £37,080; Rockley 520 tons, valued at £36,400; and Burrowa  $127\frac{1}{2}$  tons, of the value of £7,750.

Of Tin, the total quantity produced was 6,897 tons, of the value of £341,124. Tin. Tingha produced 2,636 tons, value £178,164; Emmavile 2,509 tons, value £125,450. Wilson's Downfall 450 tons, value £22,500; and Glen Innes 302 tons, value £15,010.

The production of Iron from Lithgow was 3,434 tons, value £26,908. This Iron shows a falling off as compared with 1882 of 4,042 tons.

There were 383 tons of Antimony produced in the Armidale District, valued Antimony. at £3,521.

The following table is a recapitulation of the quantity and value of the various minerals produced in the year 1883:—

Return No. 121, on pages 265 and 266, shows the number of Live Stock in Live Stock. each Electoral District of the Colony on the 31st March, 1884. The Horses numbered 326,964; Horned Cattle, 1,646,753; Sheep, 34,418,488; and Pigs, 189,050. As compared with 1882–3, there was a decrease in the number of Horses of 1,062, and in the number of Horned Cattle of 213,232. This is accounted for by reason of the serious drought which existed in the Colony during the summer of 1883–4 and in the autumn of 1884. Of Sheep there was an increase of 2,622,180, and of Pigs 34,235.

The next return, No. 123, is an abstract of the Agricultural Statistics in each Agriculture. Electoral District of the Colony. This return shows the number of holders of land of one acre and upwards, the extent of land under cultivation, the extent enclosed but not cultivated, the extent unenclosed, and the total extent of holdings, the area and description of the various crops, and the produce thereof.

The total number of holders of land was 40,793. The aggregate area of the land held by them was 29,707,451 acres freehold and 3,645,547 acres leasehold. The total number of acres under crop was 789,082. Land enclosed but not cultivated covered an area of 27,241,009 acres, and the land unenclosed was 5,322,906 acres. In the year 1882 there were 733,583 acres under crop, and 24,977,048 acres enclosed but not cultivated, by which it will be seen that there was an increase of 55,499 acres under cultivation, and of 2,263,961 acres enclosed uncultivated land in 1883 as compared with the previous year.

The following table shows the Acreage and Produce of the various kinds of Crops in the year 1883:—

In 1882 the Sugar produced from 6,362 acres of productive Cane was 11,650,688fbs., by which it will be seen that the quantity was more than trebled in 1883.

The vineyards in 1883 covered an area of 2,660 acres of Grapes for wine-making purposes, and 1,027 acres for table use. The aggregate quantity of Wine produced was 589,604 gallons; in addition to which there were 4,162 gallons of Brandy manufactured.

There were 17,455 acres devoted to Gardens and Orchards, and 7,268 acres to Orangeries. The quantity of Oranges produced being 8,102,658 dozens, an increase

of no less than 3,123,829 dozens on the previous year's produce.

The average yield of Wheat was about 15 bushels to the acre, of Maize 362 bushels, of Barley 21 bushels (nearly), of Oats 21 bushels, and of Potatoes 2½ tons to the acre.

The yield of wheat was less by  $1\frac{1}{2}$  bushel to the acre than in 1882; of oats, nearly 4 bushels less. Maize, on the other hand, yielded over 2 bushels more than in the previous year.

#### PART VII.

#### MISCELLANEOUS.

The Public Works of the Colony are dealt with in the next Part of the Statistical Register. Return No. 126 occupies from page 272 to 310 inclusive, and shows the expenditure in all branches of the Department to the 31st December, 1883.

The aggregate amount expended on the several lines of Railway finished to the end of the year 1883 was £16,055,264. The sum expended on unfinished lines to the same period was £3,133,200, and the gross amount paid during the year 1883 was £2,411, $\bar{0}$ 57.

The account for Tramways shows that the snm of £579,439 had been expended on the finished lines; a further sum of £104,686 had been expended on lines in course of construction to the 31st December, 1883, and £238,836 was expended during the year.

The sum expended under the head of Electric Telegraphs during the year 1883 was £33,860.

The expenditure for Roads and Bridges during the year was £609,232, and the sum disbursed by the Sewerage Branch of the Department was £105,608.

The Harbours and Rivers Department absorbed the sum of £733,620, of which sum £368,043 was expended on the works for the Sydney Water Supply. The sum of £340,777 was expended on the various public buildings of the

Colony during the year 1883. The amount expended on the Sydney Sewers up to the 31st December, 1883,

Water Supply. was £835,151, and £44,138 was disbursed during the year. On the Water Supply the sum of £1,400,879 was expended up to the end of the year 1883, and £66,776 was spent during the twelve months.

Pages 311 to 319 inclusive are devoted to an abstract of Meteorological Observations taken at the Sydney Observatory, and at various stations throughout the Colony during the year 1883. Return

\*Includes £1,113 10s. 4d., additions, repairs, &c., Protestant Orphan and Roman Catholic Orphan Schools.

\*School Fees received and paid into the Treasury, £51,427 7s. 10d.

\*Includes £1,500 for scientific apparatus, £3,633 17s. 11d. additions and repairs, £5,000 endowment, and £7,000 additional lecturers and additional endowment; also £154 7s. 6d., lighting lamps.

\*The following statement will explain the apparent discrepancy between the "number of scholars" as returned for 1882, and the same return as furnished for 1883:—Up to and inclusive of 1832 the annual "gross enrolment" or "aggregate of attendances" in Schools under the Department of Public Instruction was given in the Statistical Return under the head of "Number of Scholars"; but as the attendances of the same scholars at two, three, or more different schools in the year are counted separately in making up the "gross enrolment," it follows that, such enrolment must necessarily be largely in excess of the actual "number of scholars." To prevent further misconception with regard to the numbers given, it is deemed advisable to furnish for 1883 the actual number of distinct individual scholars attending the schools in the year.

Note.—The Public Examinations are similar to the *Middle Class* Examinations of Oxford and Cambridge. They are held annually, in November, and are intended to test the qualifications of boys attending schools or being instructed privately. They are divided into Senior and Junior, and certificates of competency in the several subjects of examination are given to the successful candidates. These examinations are distinct from the examination for the Civil Service.

Memo.—It will be observed that the proportion of felonies to misdemeanours is larger in the Return for the year than in that for last year. This is to a great extent accounted for by the fact that, in the Criminal Law Amendment Act, which came into force on 1st July of last year, a large number of offences formerly classed as misdemeanours are now classed as felonies.

27 Vict., No. 13 (22 April, 1864)	Vessels under 30 tons	1" Vict., No. 36	1 Jan., 1854.
Governor and Executive Council	FITZ ROY DRY DOCK, COCKATOO ISLAND.  Conditions.  All vessels belonging to H. M. Navy, the Colonial Government, and menof-war of other nations, will be admitted to repair in the Fitz Roy Dock, Sydney Harbour, free of any dock dues or rates, but they will be required to repay all actual expenditure of stores, wages, and material.  Al. other vessels will be liable to a minimum dock-rate of 6d. per ton per diem, if of 1,500 tons register or upwards, and an additional 4th of a penny per ton for every decrease of 50 tons or portion of 50 tons down to a maximum rate of 9d. per ton for a vessel of 300. tons, and all below, as set forth in the scale attached hereto.  Double rates will be charged for the day of docking.  The Tock dues will include and cover the cost of pumping, shoring wedges, and blocking, and the cost of all labour connected with opening and closing the Dock, and all incidental labour connected with the actual operation of docking a vessel.  No vessel will be permitted to enter the Dock with gunpowder or combustible ammunition on board.  Workshops and Machinery.  Vessels in Dock and private engineering establishments will be permitted to avail themselves of any portion of the machinery of the Dockyard workshops on payment of a rate per hour; preference being always given to the requirements of a vessel in Dock. These charges will be in addition to Dock dues, and in accordance with the rates mentioned in the subjoined Schedule.  The rate for the machinery will include the cost of putting and main taining the machine in motion, the use of the 20-ton overhead traversing crane, and all tools belonging to the Machine in use, but nothing further. <sup>\*</sup> This includes the amount of the postage contributions of the United Kingdom and the Australian Colonies to the cost of Ocean Mail Subsidy. 

\* Of this amount the sum of £13,995 18s. Id. was received on account of postage due to the Colony by the United Kingdom for the years 1875 and 1876.

\* This number embraces all letters posted in the Colony for delivery within the Colony, and includes those letters hitherto classified as Town Letters.

\* The total collections for this year amounted to £24,000 more; this sum was transferred to Stamp Duties as approximate value for Postage Stamps used for Duty Stamps purposes during the year.

\* This does not include outstanding liabilities, but is the total amount expended during the year irrespective of date of claims.

### VITAL STATISTICS.

THE REGISTRAR-GENERAL TO THE HONORABLE THE COLONIAL SECRETARY.

TRANSMITTING ABSTRACTS OF

### MARRIAGES, BIRTHS, AND DEATHS,

FOR THE YEAR 1882:

#### WITH PREFATORY REPORT.

Sir,

Registrar-General's Department, Sydney, 4 June, 1883.

I have the honor to submit to you the detailed Abstracts of Marriages, Births, and Deaths, which were registered in the Colony during the year 1882.

The estimated population of the Colony on 31st December, 1882, was 817,468 persons; the per-repulation centage of males being 54.97, and of females 45.03. These figures show an actual increase of 36,203 persons on the estimated population at the end of the previous year. The natural increases to the population for the year, that is the excess of births over deaths, was 16,886 persons. The natural increase for the decade was 147,775 persons. The excess of arrivals over departures amounted to 19,317 persons.

### MARRIAGES.

Comparing the number of Marriages with the estimated population at the middle of the year, we find that the rate per 1,000 was 8.71, being the highest rate of any one year of the decade, and 86 in advance of the average rate of the same period. The marriage rate for Sydney for the year was 17.80, that of the previous year being 17.41, and the average for the ten years 14.68. In the Suburbs the rate for the year was 8.65, showing an advance of 1.74 on that of the previous year and on that of the average rate of the decade. The Country Districts had a marriage rate for the year of 6.94, which is slightly over the figures of the previous year and also over the average of the ten years.

There were 1,261 illegitimate births registered in the Colony during the year 1882, consisting of Illegitimates. 635 males and 626 females. The percentage of these births to total number of births was 4.24. The number registered in Sydney was 440, in the Suburbs 161, and in the Country Districts 660. In proportion to the total number of births registered in each of these divisions, we find the percentage of illegitimate births to be as follows:—Sydney, 11.72; Suburbs, 2.74; and Country Districts, 3.28. The high percentage of these births in Sydney is caused by the number registered from the Benevolent Asylum, which contributes nearly one half of the total of these births.

### INFANTILE MORTALITY.

The deaths of children, under 5 years of age, which were registered during the year 1882, numbered 5,452, being 42:54 per cent. of the total number of deaths registered. This proportion is slightly higher than that of the preceding year, and 0:46 lower than the average of the decade. The percentage for the year for Sydney is 39:21; for the Suburbs, 54:26; and for the Country Districts, 39:86. Comparing these results with those of the previous year, we find an increase in Sydney of 1:46 per cent., a small decrease in the Suburbs, and a decrease of 0:42 in the Country.

The average infantile mortality of the ten years for Sydney and Country Districts is 2.95 and 0.28 per cent. respectively in excess of the year's percentage, and there is scarcely any variation for the Suburbs.

### VITAL STATISTICS.

THE REGISTRAR-GENERAL TO THE HONORABLE THE COLONIAL SECRETARY,

TRANSMITTING ABSTRACTS OF

### MARRIAGES, BIRTHS, AND DEATHS,

FOR THE YEAR 1883:

#### WITH PREFATORY REPORT.

Sir.

Registrar-General's Department, Sydney, 11 June, 1884.

I have the honor to submit the general Abstracts of Marriages, Births, and Deaths, registered in the Colony during the year 1883, with my report thereon.

The population of the Colony at the end of the year 1883 is estimated at 869,310 persons; comprising 480,497 males and 388,813 females, being 55.27 per cent. and 44.73 per cent. respectively. The excess of births over deaths was 19,032 persons.

Àrrivals by sea numbered 67,206 persons, and departures in like manner were 34,396 persons, which leaves a balance of 32,810 persons on the side of arrivals. The total increase for the year was 51,842 persons, as against 36,203 persons in the previous year; the difference in favour of the year 1883 being 15,639 persons.

The number of marriages registered in the Colony in the year 1883 was 7,405, being 457 in advance of the previous year. This increase is not so large by 207 as that of the year 1882 over 1881.

There were 31,281 births recorded in the year, as against 29,702 in the previous year, being an increase of 1,579 births.

The total number of deaths registered during the year was 12,249, being less by 567 than the deaths of the previous year.

So far as the records of marriages and births are concerned, I believe very few escape registration; but I fear a number of deaths occur of which no account is taken. My attention has been called to this subject for some years past. I am aware that the Registrars exercise great vigilance to ensure the registration of all deaths, and no doubt with some degree of success. In order to remedy the defects of the present system, I advise that the Registration Act (19 Vic. No. 34) be repealed by the substitution of one which would more effectually carry out the objects for which registration is designed.

#### MARRIAGES.

The decennial table of marriages shows the marriage rate of the Colony for the year 1883 to be 8.80 per 1,000 of estimated population, which is slightly higher than the figures for the previous year. This rate has not been exceeded by any one year in the decade, the average rate of which was 7.92, and this is 0.88 lower than the rate for the year under consideration.

The number of marriages celebrated in Sydney in the year 1883 was 2,039, being an increase of 86 on the preceding year. The rate per 1,000 of estimated population is 0.17 lower; the figures being 17.80 for 1882, and 17.63 for 1883. The average for the ten years is 14.93.

Marriages celebrated in the Suburbs numbered 1,243, as against 1,109 in the previous year. The rate per 1,000 of population is 9.19, which is 0.54 higher than the figures of the previous year. The ten years average stands at 7.35.

In the Country Districts there were 4,123 marriages registered, showing an increase of 237 on the previous year. The rate per 1,000 of population is 6.99, which is about the same as the figures for the previous year, and 0.39 higher than the average of the decade.

### BIRTHS.

There were 31,281 births registered in the Colony in the year 1883, being 1,579 in excess of the births of the previous year. Male births numbered 16,014, and female 15,267, being 51 19 and 48 81 per cent. respectively. The year's birth-rate of the Colony per 1,000 of estimated population was 37 21. This is slightly lower than that for the previous year, and also under the rate of any year (except one) in the decade, the average rate of the decade being 37 68. The rate for Sydney was 32 48, which is 1 74 lower than that for the previous year, and 2 09 under the average rate of the decade. The Suburban birth-rate was 48 34, which is 2 51 in advance of the previous year's rate, and with but one exception the highest of the decade, the average of which is 43 70. In the Country Districts we find the rate to be 35 58, being a shade lower than that for the preceding year, and also lower than any year of the decade, the average of which is 37 01.

Table D, immediately following, shows the number of births registered in the Colony during each quarter of the decade, and the same information is given as regards Sydney, Suburbs, and Country Districts.

### DEATHS.

During the year 1883 there were 12,249 deaths recorded in the Colony. Male deaths numbered 7,116 and female deaths 5,133, being 5809 and 4191 per cent. respectively. The death-rate for the year is 1457, which is 150 under the rate of the previous year, and lower than any one year of the decade. It is also 116 under the average rate of the decade. The city records show 2,233 deaths, consisting of 5580 per cent of males and 4420 per cent. of females. The rate per 1,000 of estimated population is 1930.

<sup>†</sup> Two still-born.

This is lower than the rate of the previous year by 3.72, and also 3.98 under the average rate of the decade. The death-rate of the City is raised from deaths which occur in the Hospitals, Asylums, &c. These deaths formed 22 per cent. of the total deaths of the City. The mortality of the Suburbs is shown by the registration of 2,715 deaths, which amounts to 20.08 of estimated population. These figures are in excess of the rate for the previous year by 0.61, but a little under the average of the last ten years. In the Country Districts there were 7,301 deaths registered, which makes the rate per 1,000 of population to be 12.38. This is 1.55 lower than the rate of the previous year, and 1.06 under the figures of the ten years' average.

Infantile mortality The total number of deaths registered in the Colony of children under the age of 5 years was 5,304. As compared with these deaths in the previous year, we find a decrease of 148. The percentage of these deaths to the total number of deaths is 43:30. Though there is an actual decrease in the number as compared with the previous year, there is an increase of 0.76 on the percentage of that year. The average percentage of infantile mortality of the decade is 43:49, which is higher by 0.19 than the figures for the year under review. The percentage of these deaths registered in Sydney to total deaths is 42:09, which is 2:88 higher than the previous year, but slightly lower than the average of the ten years.

There

There were 1,455 deaths of children under 5 years of age registered in the Suburbs during the year. As compared with the total number of deaths registered, we have a percentage of 53 59. This is the lowest of any year in the decade, and 0.67 under the figures of the previous year, and also 1.60 lower than the average percentage of the decade. The percentage of these deaths registered in the Country Districts was 39.84, being nearly the same as the previous year's figures, and 0.72 lower than the average percentage of the decade.

The principal causes of death under the *Zymotic Class* of diseases during the 'year 1883 were as follows:—Measles, 47; Scarlatina, 46; Diphtheria, 235; of this number, 140 were cases of children under 5 years of age. Croup, 220; Whooping Cough, 52; Typhus and Infantile Fever, 397; Influenza, 40; Dysentery, 100; Diarrhæa, 670; Cholera, 80; Rheumatism, 59; Syphilis, 28; Want of Breast Milk, 48; Alcoholism, 81; Delirium Tremens, 13; Thrush, 37. Comparing the number of deaths registered under this class with the previous year's records, we find a decrease of 293.

Under the Constitutional Class we find 1,668 deaths recorded. Phthisis heads the list with 941 cases; next in order comes Cancer, with 215 cases; then Tabes Mesenterica, numbering 189, and Dropsy, 143. There is an increase of 32 in this class on the previous year's figures.

The Local Class of diseases shows a total of 4,912 deaths. The principal causes being as follows:—Cephalitis, 213; Apoplexy, 235; Paralysis, 155; Epilepsy, 92; Convulsions, 690; Brain Disease, &c., 176; Heart Disease, 583; Bronchitis, 620; Pneumonia, 617; Congestion of Lungs (Pulmonary), 121; Gastritis, 168; Enteritis, 293; Peritonitis, 87; Hepatitis, 54; Liver Disease, &c., 132; Nephria, 101. The total deaths in this class are 270 in excess of those for the previous year.

The number of deaths recorded under the *Developmental Class* is 2,415, which is a few in excess of the previous-year's figures. Premature Birth and Teething are credited with 315 and 247 respectively; Atrophy and Debility, 832, of which 721 are deaths of children under 1 year. Old age numbers 868 deaths, of which 186 were from 70 to 75 years of age, and 483 from 75 years and upwards.

Under the class of *Violence* there were 850 deaths during the year. The number of deaths from accident or negligence were as follows:—Fractures and Contusions, 310; Wounds, Gunshot and Cuts, 39; Burns and Scalds, 85; Sunstroke, 21; Poison, 44; Drowning, 213; Suffocation, 35; Snake or Insect Bite, 4.

Homicide shows 17 cases, viz.:—Murder, 9; Manslaughter, 8. There were 54 Suicides, from the following causes:—Wounds, 22; Poison, 6; Drowning, 2; Hanging, 15. Violent deaths (not classified) in which open verdicts were given, 15.

Table K shows the percentage of deaths to total deaths for the last ten years under the different orders in each class of diseases.
