NEW SOUTH WALES.

THE BRUNEI ORDER IN COUNCIL, 1890. (DESPATCH RESPECTING.)

Presented to Parliament by Command.

Department of Justice, Sydney, 24th March, 1891.

His Excellency the Governor directs the publication, for general information, of the following Despatch, dated the 10th December, 1890, from the Principal Secretary of State for the Colonies.

ALBERT J. GOULD.

[Circular.]

Downing-street, 10th December, 1890.

Sir,

In continuation of my Circular Despatch of 9th January last, I have the honor to enclose, for the information of the Government of the Colony under your administration, a copy of an order of the Queen-in-Council, issued under "The Foreign Jurisdiction Act, 1890," entitled "The Brunei Order in Council, 1890."

I have, &c., KNUTSFORD.

The Officer Administering the Government of New South Wales.

ORDER IN COUNCIL RESPECTING BRUNEI.

Windsor, 22nd November, 1890.

At the Court at Windsor, the 22nd day of November, 1890.

Present :

THE QUEEN'S MOST EXCELLENT MAJESTY.

Lord President. | Earl of Yarborough.
Marquess of Salisbury. | Mr. Ritchie.
Lord Justice Kay.

WHEREAS, by Treaty, grant, usage, sufferance, and other lawful means, Her Majesty the Queen has power and jurisdiction within the dominions and territories of the Sultan of Brunei :

Now, therefore, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Foreign Jurisdiction Act, 1890," and otherwise in Her vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows :-

1. This Order may be cited as "The Brunei Order in Council, 1890."

2. This Order is divided into parts as follows :-

Table with 3 columns: Parts, Articles, and corresponding descriptions of legal sections.

PART I.—INTERPRETATION AND APPLICATION.

3. In this Order, unless the subject or context otherwise requires—

"The Secretary of State" means one of Her Majesty's Principal Secretaries of State;

"Prescribed" means prescribed by any Consular Instructions, or by any order of notification signed or authorised by the Secretary of State;

The expression "Brunei," or "the limits of this Order," mean the dominions for the time being of the Sultan of Brunei and the islands and territorial waters belonging to the said dominions: Provided that expressions referring to the District Court "at Brunei" shall be construed as referring to the District Court held at the town or Settlement called Brunei.

"Consular officer" includes any person for the time being acting in Brunei by virtue of Her Majesty's Commission, or with the authority or approval of the Secretary of State as Deputy Commissioner, or Consul-General, Consul, or Vice-Consul, or Consular Agent;

"Consul" means any person for the time being acting as Deputy Commissioner and Consul for Brunei, or as Consul-General or other principal Consular officer for the time being for Brunei;

"Treaty" includes any Convention, Agreement, or Arrangement made by or on behalf of Her Majesty with any State or Government, King, Chief, people, or tribe, and any Regulation appended thereto;

"Court" means any Court or person exercising jurisdiction under this Order;

"Supreme Court" means the Supreme Court of the Straits Settlements;

"British subject" includes a person enjoying Her Majesty's protection in Brunei, and includes subjects of the several Princes and States in India residing and being in Brunei;

"Foreigner" means a person, whether a native or subject of Brunei or not, who is not a British subject, as above defined;

"Native" means a native or subject of Brunei;

"Person" includes a corporation or association of persons;

"Oath" or "Affidavit" includes affirmation and declaration;

"Month" means calendar month.

The plural includes the singular, and the singular the plural, and the masculine the feminine.

Expressions referring to print or to writing include either print or writing, or a combination of both.

"Crime" includes offence.

4. The powers conferred by this Order shall extend to the persons and matters following, in so far as by Treaty, grant, usage, sufferance, or other lawful means Her Majesty has power or authority in Brunei in relation to such persons and matters, that is to say:—

(1.) British subjects as herein defined.

(2.) The property and personal and proprietary rights and obligations of British subjects in Brunei (whether such subjects are or are not within Brunei), including British ships, with their boats and the persons and property on board thereof, or belonging thereto.

(3.) Foreigners as herein defined who submit themselves to a Court in accordance with the provisions of this Order.

(4.) Foreigners as herein defined with respect to whom any State, King, Chief, or Government whose subjects or under whose protection they are has by any Treaty as herein defined or otherwise agreed with Her Majesty for or consented to the exercise of power or authority by Her Majesty.

#### PART II.—GENERAL LAW.

5. All Her Majesty's jurisdiction exercisable in Brunei for the judicial hearing and determination of matters in difference between British subjects, or between foreigners and British subjects, or for the administration or control of the property or persons of British subjects, or for the repression or punishment of crimes committed by British subjects, or for the maintenance of order among British subjects, shall be exercised under and according to the provisions of this Order, and not otherwise.

6.—(1.) Subject to the other provisions of this Order, the civil and criminal jurisdiction aforesaid shall, so far as circumstances admit, be exercised upon the principles of and in conformity with the substance of the law for the time being in force in and for England, and with the powers vested in and according to the course of procedure and practice observed by and before Courts of Justice and Justices of the Peace in England, according to their respective jurisdictions and authorities.

(2.) Except as to offences made or declared such by this Order, or by any regulation or rule made under it, any act other than an act that would by a Court of Justice having criminal jurisdiction in England be deemed a crime, making the person doing such an act liable to punishment in England, shall not, in the exercise of criminal jurisdiction under this Order, be deemed a crime making the person doing such act liable to punishment.

7. Crimes, wrongs, and breaches of contract against or affecting the person, property, or rights of natives of Brunei or other foreigners as herein defined, committed by persons subject to this Order, are punishable or otherwise cognizable under the provisions of this Order, with the consent of such natives or foreigners, in the same manner as if they were committed against or affected the person, property, or rights of British subjects.

#### PART III.—CONSTITUTION OF COURTS.

8. A District Court shall be held at Brunei by the Consul or such other Consular officer as he directs, and other District Courts shall be held at such other places as may from time to time be appointed under this Order.

A District Court is held by a Consular officer, and may be styled the Consular Court at Brunei or elsewhere, as the case may be.

9. It shall be lawful for the Consul from time to time, by order in writing, with the previous or subsequent authority or approval of the Secretary of State, to appoint places at which District Courts shall be held, and to assign the district in and for which each such Court shall act, and to designate the Consular officer who is to hold each such Court, and to deter-

mine the description and number of the officers to be attached to any such Court, and the mode of their appointment and removal, and their duties and remuneration, and any matters incident to any of the abovementioned purposes.

A printed copy of any such order purporting to bear the seal of the Consul or of a District Court shall, in all causes and matters, be admitted as evidence of the contents and due making and publication thereof.

Each District Court shall have such seal as may be prescribed by any such order as aforesaid.

10. The Consul shall have, in all matters, civil and criminal, an extraordinary original jurisdiction throughout Brunei concurrent with the jurisdiction of the several District Courts, such extraordinary jurisdiction to be exercised by him as a District Court subject and according to the provisions of this Order, and subject to appeal to the Supreme Court in the same manner as from an ordinary District Court.

The Consul shall also have jurisdiction to try in Brunei crimes which cannot under this Order be tried by a District Court, and for that purpose shall have the power of the Supreme Court.

The Consul may, from time to time, visit in a magisterial or judicial capacity any District Court, and there inquire of, or hear and determine, any case, civil or criminal, pending in that Court, or arising within its district.

A District Court may, of its own motion, or on the application of any person concerned, report to the Consul the pendency of any case, civil or criminal, which appears to the District Court fit to be heard and determined by the Consul.

The Consul shall thereupon direct in what mode and where the case shall be heard and determined, and (notwithstanding anything in this Order) the same shall be so heard and determined accordingly.

11.—(1.) The Supreme Court shall have appellate jurisdiction under this Order.

The appellate jurisdiction of the Supreme Court shall be exercised by the full Supreme Court sitting in the Straits Settlements in such manner and according to such procedure as, subject to the provisions of this Order, and of any rules made under this Order, the Supreme Court from time to time determines.

Judgments or orders of the Supreme Court in the exercise of its appellate jurisdiction shall be certified by the Supreme Court to the Court in Brunei from which the appeal is brought, or, when the appeal is from the judgment or order of a Judge of the Supreme Court acting in Brunei or in the Straits Settlements, then to such District Court in Brunei as the Supreme Court thinks fit, and (subject to any appeal to Her Majesty in Council) that District Court may and shall execute and give effect to the same in like manner as to its own judgments or orders.

(2.) The Supreme Court, on Petition presented to it in accordance with any rules to be made under this Order, or in such manner as the Supreme Court directs, and alleging that any order of a District Court or of the Consul has the effect of a refusal of justice to any suitor or complainant, may, after such inquiry (if any) as it thinks fit to direct, issue an order directing the proper Court to take cognizance of the matter, and may, if satisfied that such an order has not been properly coupled with, entertain and determine the matter of the suit or complaint, and shall certify its determination to the proper Court, which shall give effect thereto.

(3.) Except as provided by this Order, the Supreme Court shall not exercise any control over a District Court or the Consul, whether by way of mandamus, prohibition, certiorari, writ of habeas corpus, or otherwise.

12. The Supreme Court shall, for the purposes of this Order, have original jurisdiction as follows:—

(1.) When, under this Order, a person accused of crime is sent for trial to the Straits Settlements, the Supreme Court shall have the like jurisdiction, and may proceed in the same manner as if the crime had been committed in the Straits Settlements, except that the criminality of the act charged and the punishment to be inflicted must be determined according to the Law applicable under this Order in Brunei.

(2.) On the request of the Consul, made with the consent of the Government of the Sultan of Brunei, the Supreme Court may exercise in Brunei in relation to any civil or criminal matter any original jurisdiction which can be exercised by the Consul, and all the provisions of this Order shall apply accordingly (*mutatis mutandis*), and any appeal shall be to the full Supreme Court.

(3.) On the like request made with the like consent, the Supreme Court may hear and determine at any place within the limits of this Order any criminal case which could under this Order be sent for trial to the Straits Settlements, and for that purpose shall have the like jurisdiction and may proceed in the same manner as nearly as may be as if it were trying the same case in the Straits Settlements, or as if it were the Consul trying in Brunei a criminal case within the jurisdiction of a District Court.

(4.) The Supreme Court may hear and determine within the Straits Settlements any civil case arising in Brunei, with the consent of the parties and of the Consul, and for that purpose may adopt any procedure proper either in the Straits Settlements or in Brunei. In such case any appeal shall be to the full Supreme Court.

(5.) For the purposes of the exercise of original jurisdiction under this Article, such Judge or Judges of the Supreme Court, as the Chief Justice of the Straits Settlements from time to time nominates, shall exercise the powers of the Supreme Court.

(6.) Every District Court in Brunei may and shall, according to its powers, execute, enforce, and give effect to any judgment or order of the Supreme Court in the exercise of its original jurisdiction, and may and shall, for the purposes of anything to be done preliminary to a sitting of the Supreme Court—as, for instance, the summoning of a jury, or of Assessors, or of witnesses—exercise (*mutatis mutandis*) all the powers which such District Court has for any purpose under this Order in a case or matter pending before itself.

#### PART IV.—GENERAL POWERS OF COURTS AND GENERAL PROCEDURE.

13.—(1.) All Her Majesty's jurisdiction, civil and criminal, exercisable in Brunei, shall, except as otherwise provided by this Order, be exercisable by the District Courts each for and within its own district.

(2.) Every District Court in Brunei and the Supreme Court shall be auxiliary each to the other in all particulars relative to the administration of justice, civil or criminal, under this Order.

(3.) Every Court shall, in the exercise of every part of its respective jurisdiction under this Order, be a Court of Record and a Court of Law and of Equity.

(4.) In any matter, civil or criminal, a District Court within whose district (in civil matters) the matter of complaint wholly or in part arose or happened, or the subject in dispute is wholly or partly situate, or the contract in question was wholly or partly made, or the breach thereof wholly or partly occurred, or the defendant resides or carries on business, or (in criminal matters) the crime was wholly or partly committed, or the accused person happens to be, shall have jurisdiction, and may deal with the case, as if every material fact or thing had happened or was situate within its district; but any such Court, if, in its opinion, justice or convenience so requires, may decline or suspend the exercise of jurisdiction, and may, if it thinks necessary or just, require security from the defendant or accused person for his appearance before some other Court having jurisdiction in the matter, and for obedience to any judgment or order of such other Court, and further, in a criminal case, if necessary, may arrest and commit the accused person, and cause him to be removed under warrant and in custody, to be dealt with by such other Court.

(5.) Every Court acting under this Order shall have power to rehear any civil matter, and to review its judgments or orders in any civil case in which, in the opinion of the Court, justice so requires, on such terms as to costs and otherwise as the Court thinks just.

14. In every case, civil or criminal, heard in a District Court, proper minutes of the proceedings shall be drawn up, and shall be signed by the Judge or officer before whom the proceedings are taken, and sealed with the seal of the Court, and shall, where Assessors are present, be open for their inspection, and for their signature if concurred in by them.

The minutes, with depositions of witnesses and notes of evidence taken at the trial by the Judge or officer, shall be preserved in the public office of the Court.

15. Each District Court held by any Consular officer other than the Consul shall, every six months, furnish to the Consul a report respecting every case, civil and criminal, brought before it, in such form as the Consul from time to time directs.

16. Any Registrar of a Court, or person acting as Registrar, and any other officer of the Court designated in this behalf by the Consul, may administer oaths, and take affidavits, declarations, and affirmations.

The Judge of any Court shall be, and act as, the Registrar of the Court, if there is no other person appointed to be Registrar there.

17.—(1.) In a civil case, any Court may order such costs, charges, and expenses as to the Court seem reasonable, to be paid by any party to the proceedings, or out of any fund to which the proceeding relates.

(2.) All costs, and all charges and expenses of witnesses, prosecutions, punishments, and deportations, and other charges and expenses, and all fees, fines, forfeitures, and pecuniary penalties payable under this Order, and all judgments, may be levied or enforced by distress and seizure and sale of ships, goods, and lands, and in default of sufficient distress by imprisonment; and no bill of sale, or mortgage, or transfer of property made with a view to security in regard to crimes committed, or to be committed, shall be of any avail to defeat any provision of this Order.

(3.) Imprisonment in default of distress shall not, except as may be provided by rules of procedure made under this Order, operate as a discharge or satisfaction.

(4.) Where money ordered by the Court to be paid is due for seamen's wages, or is other money recoverable under the Merchant Shipping Acts or other Law relating to ships, and the person ordered to pay has not paid as ordered, the Court, in addition to other powers for compelling payment, shall have power to direct that the amount unpaid be levied by seizure and sale of the ship.

18.—(1.) The Consul shall have all the powers and authorities of the Sheriff of a county in England, with all the privileges and immunities of the office, and as such Sheriff shall be charged with the execution of all decrees, orders, and sentences made and passed by a Court, on the requisition in that behalf of the Court, he shall not be liable to any action or proceeding for anything done, or purporting to be done, or anything omitted by him as such Sheriff.

(2.) A District Court shall execute any writ, order, or warrant directed by a Consul to a District Court; and may take security from any person named therein for his appearance personally or by attorney, according to the writ, order, or warrant; or may cause such person to be taken in custody or otherwise to a Court, or elsewhere, in Brunei, according to the writ, order, or warrant.

19. A District Court may promote reconciliation, and encourage and facilitate the settlement in an amicable way of any suit or proceeding pending before it.

A District Court may, with the consent of the parties, refer to arbitration the final determination of any suit or proceeding pending before it, or of all or any matters in difference between the parties on such terms, and with such directions as to appointment of an Arbitrator and other things, as may seem fit, and may, if it thinks fit, take from the parties, or any of them, security to abide by the result of the reference.

In any such case, the award shall be final and conclusive.

On the application of any party, a decree of the Court may be entered in conformity with the award, and such decree shall not be open to any appeal or rehearing whatever, except on the ground that it is not in conformity with the award.

Every agreement for reference to arbitration or submission to arbitration by consent may, on the application of any party, be made a rule of a Court having jurisdiction in the matter of the reference or submission, which Court shall thereupon have power and authority to enforce the agreement or submission and the award made thereunder, and to control and regulate the proceedings before and after the award in such manner and on such terms as may be just.

20. No proceeding under this Order shall be invalidated by any informality, mistake, or omission, so long as, in the opinion of the Court before which any question arises, the essential requisites of law and justice have been complied with, or may be met by amendment.

#### PART V.—SPECIAL POWERS (BANKRUPTCY, PROBATE, &c.).

21. A District Court shall be a Court of Bankruptcy, and as such shall, as far as circumstances admit, have for and within its own district, with respect to British subjects and to their debtors and creditors, being either British subjects or foreigners submitting to the jurisdiction of the Court, all such jurisdiction as for the time being belongs to any judicial authority having for the time being jurisdiction in bankruptcy in England.

22. A District Court shall have, and may exercise, for and within its own district, with respect to British subjects, all the powers, rights, and duties appertaining to the office of Coroner in England, but it shall not be necessary to summon a jury in holding any inquest.

23. The District Court at Brunei shall be a Vice-Admiralty Court, and as such shall, for and within the limits of this Order, and for vessels and persons coming to and within those limits, have all such jurisdiction as for the time being ordinarily belongs to Vice-Admiralty Courts in Her Majesty's possessions abroad.

The said Court shall have all powers and jurisdiction which can be exercised by Justices or a Vice-Admiralty Court under or for the purposes of the Acts relating to merchant shipping or the passenger Acts, or relating to quarantine.

24. The District Court at Brunei shall, so far as circumstances admit, have for and within the limits of this Order, with respect to British subjects, all such jurisdiction relative to the custody and management of the persons and estates of persons of unsound mind as for the time being belong to the Lord Chancellor or other person or persons in England intrusted with the care and commitment of the custody of the persons and estates of persons found, by inquisition in England, idiot, lunatic, or of unsound mind.

25.—(1.) The District Court at Brunei shall be a Court of Probate, and as such shall, as far as circumstances admit, have for and within the limits of this Order with respect to the property of British subjects having at the time of death their fixed places of abode in those limits, all such jurisdiction as for the time being belongs to the Probate Division of Her Majesty's High Court of Justice in England.

(2.) Every District Court shall also have power to grant probate or administration where this is no contention respecting the right to the grant, and it is proved on oath that the deceased had at the time of his death his fixed place of abode within the jurisdiction of the District Court.

26. Probate or administration granted by a Court shall have effect over all the property of the deceased within the limits of this Order, and shall effectually discharge persons dealing with an executor or administrator thereunder, and that notwithstanding any defect afterwards appears in the grant.

Such a grant shall not be impeachable by reason only that the deceased had not at the time of his death his fixed place of abode within the particular jurisdiction.

27. Any person having in his possession or under his control any paper or writing of a deceased British subject, being or purporting to be testamentary, shall forthwith deliver the original to the District Court within the district whereof such person is at the time of his first knowledge of the death of the deceased, and deposit it there.

Any person neglecting to do so for fourteen days after having knowledge of the death of the deceased shall be liable to such penalty, not exceeding fifty pounds, as the Court thinks fit to impose.

28. From the death of a British subject, having at the time of death his fixed place of abode in Brunei, intestate, until administration granted, his personal property in Brunei shall be vested in the Consul.

29. If any person, other than one of Her Majesty's Consular officers takes possession of or in any manner administers any part of the personal property of any person deceased without obtaining probate or administration within three months after the death of the deceased, or within one month after the determination of any suit or dispute respecting probate or administration (if there is any such which is not ended within two months after the death of the deceased), he shall be liable to such penalty, not exceeding £100, as the Court having jurisdiction in the matter of the property of the deceased thinks fit to impose; and in every such case the same fees shall be payable by the person so administering as would have been payable by him if he had obtained probate or administration.

30. Where a British subject, not having at the time of death his fixed place of abode in Brunei, dies there, the District Court within whose district he dies shall, where the circumstances of the case appear to the Court so to require, forthwith on the death of the deceased, or as soon after as may be, take possession of his personal property within the particular jurisdiction, or put it under the seal of the Court (in either case, if the nature of the property or other circumstances so require, making an inventory), and so keep the property until it can be dealt with according to law.

31. (1.) In a case of apparent intestacy, where the circumstances of the case appear to the Court so to require, for reasons recorded in the Minutes, the Court having probate jurisdiction may, if it thinks fit, of its own motion, or otherwise, grant administration to an officer of the Court.

(2.) Any officer so appointed shall act under the direction of the Court, and shall be indemnified thereby.

(3.) A commission of 2½ per cent. may be charged on an estate administered under this Article.

(4.) All expenses incurred on behalf of the Court in the execution of this Article, and the said commission, shall be the first charge on the personal property of the deceased in Brunei; and the Court shall, by sale of part of that property or otherwise, provide for the discharge of those expenses and the payment of the said commission.

32. Where it appears to the Court having probate jurisdiction that the value of the property or estate of a deceased person does not exceed £100, the Court may, without any probate or letters of administration, or other formal proceedings, pay thereout any debts or charges, and pay, remit, or deliver any surplus to such persons in such manner as a Secretary of State from time to time directs, and shall not be liable to any action, suit or proceedings in respect of anything done, or purporting to be done, under this Article.

#### PART VI.—CRIMINAL LAW AND PROCEDURE.

33. The crimes punishable under this Order are:—

(1.) Any acts or omissions which are for the time being punishable in England, on indictment, by death, penal servitude, or imprisonment, as treasons, felonies, or misdemeanours.

(2.) Acts or omissions by this Order, or by any regulations made by virtue of this Order, declared to be punishable as offences against this Order.

In case an act or omission is punishable both as a crime under the law in force in England and as an offence against this Order, the accused person may be tried and punished for such act or omission either as a crime, as aforesaid, or as an offence against this Order, but he shall not be liable to be tried or punished in both ways.

34. Any British subject being in Brunei may be proceeded against, tried, and punished under this Order for the crime of piracy, wherever committed.

If the Court before which a British subject charged with the crime of piracy is brought is a District Court held by a Consular officer other than the Consul, the Court shall report to the Consul the pendency of the case.

The Consul shall thereupon direct in what mode and where the case shall be heard and determined, and (notwithstanding anything in this Order) the case shall be so heard and determined accordingly.

35.—(1.) If any British subject does any of the following things without Her Majesty's authority, that is to say:—

Levies war, or takes any part in any operation of war, against, or aids or abets any person in carrying on war, insurrection, or rebellion against the Sultan of Brunei;

Every person so offending shall be deemed guilty of an offence against this Order, and on conviction thereof shall be liable (in the discretion of the Court before which he is convicted) to be punished by imprisonment for any term not exceeding one year, with or without hard labour, and with or without a fine not exceeding £1,000, or by a fine not exceeding £1,000, without imprisonment.

In addition to such punishments, every such conviction shall of itself, and without further proceedings, make the person convicted liable to deportation; and the Court before which he is convicted may order that he be deported from Brunei to such place as the Court directs.

(2.) If any British subject, without the authority of Her Majesty (proof whereof shall lie on the party accused), takes part in any operation of war in the service of the Sultan of Brunei against any persons engaged in carrying on war, insurrection, or rebellion against the Sultan of Brunei, he shall be deemed guilty of an offence against this Order, and on conviction thereof shall be liable (in the discretion of the Court before which he is convicted) to be punished by imprisonment for any term not exceeding one year, with or without hard labour, and with or without a fine not exceeding £1,000, or by a fine not exceeding £1,000, without imprisonment.

(3.) If the Court before which any person charged with having committed such a misdemeanour as in this Article mentioned is brought is a District Court, held before a Consular officer other than the Consul, the Court shall report to the Consul the pendency of the case.

The Consul shall thereupon direct in what mode and where the case shall be heard and determined, and (notwithstanding anything in this Order) the case shall be so heard and determined accordingly.

36. If any British subject is guilty of publicly deriding, mocking, or insulting any religion established or observed in Brunei, or of publicly offering any insult to any religious service, feast, or ceremony established or kept in any part of Brunei, or to any place of worship, tomb, or sanctuary belonging to any such religion, or to the ministers or professors thereof, or of wilfully committing any act tending to bring any such religion, or its ceremonies, mode of worship, or observances into hatred, ridicule, or contempt, and thereby to provoke a breach of the public peace, he shall be deemed guilty of an offence against this Order, and shall be liable (in the discretion of the Court before which he is convicted) to imprisonment for any term not exceeding six months, with or without hard labour, and with or without a fine not exceeding £100, or to a fine not exceeding £100, without imprisonment.

Notwithstanding anything in this Order, every charge against a British subject of having committed any such offence shall be heard and determined in a summary way, and any District Court shall have power to impose the punishment aforesaid.

Her Majesty's Consular officers shall take such precautionary measures as seem to them proper and expedient for the prevention of such offences.

37. If any person subject to the criminal jurisdiction of any Court exercising jurisdiction in Brunei under this Order does any of the following things, namely:—

(i.) Wilfully by act or threat obstructs any officer of or person executing any process of the Court in the performance of his duty; or

(ii.) Within or close to the room or place where the Court is sitting, wilfully misbehaves in a violent, threatening, or disrespectful manner to the disturbance of the Court, or to the intimidation of suitors or others resorting thereto; or

(iii.) Wilfully insults any member of the Court, or any juror or assessor, or any person acting as a clerk or officer of the Court during his sitting or attendance in Court, or in his going to or returning from Court; or

(iv.) Does any act in relation to the Court, or a Judge thereof, or a matter pending therein, which if done in relation to a Superior Court in England would be punishable as a contempt of such Court, or as a libel on such Court, or the judges thereof, or the administration of justice therein;

Such person shall be liable to be apprehended by order of the Court, with or without warrant, and on inquiry and consideration, and after the hearing of any defence which such person may offer, without further process or trial, to be punished with a fine not exceeding £10, or with imprisonment not exceeding twenty-four hours.

A Minute shall be made and kept of every such case of punishment, recording the facts of the offence and the extent of the punishment, and a copy of the Minute shall be forthwith sent to the Consul in the case of punishment so inflicted by a District Court held by any Consular officer other than the Consul, or to the Secretary of State in the case of punishment so inflicted by the Consul.

Provided that, if the Court thinks fit, instead of proceeding under the preceding provisions, it may direct or cause the offender to be tried in a separate criminal prosecution or proceeding, in which the offender shall be liable to be tried and punished for his offence as an offence against this Order.

Nothing herein shall interfere with the power of the Court to remove or exclude persons who interrupt or obstruct the proceedings of the Court.

38. If any person in Brunei does any act or makes any publication of such kind, and under such circumstances, that, in the opinion of the Consul, grave danger to public order is thereby occasioned, the Consul shall have the same powers as under this Order a District Court has in relation to apprehended breaches of the peace.

39. If any clerk or officer of any Court acting under this Order in Brunei, acting under pretence of the process or authority of the Court, is charged with extortion, or with not duly paying any money levied, or with other misconduct, the Court may (without prejudice to any other liability or punishment to which the clerk or officer would in the absence of the present provision be liable) inquire into the charge in a summary way, and for that purpose summon and enforce the attendance of all necessary persons in like manner as the attendance of witnesses and others may be enforced in a suit, and may make such order thereupon for the repayment of any money extorted, or for the due payment of any money levied, and for the payment of such damages and costs as the Court thinks just; and the Court may also, if it thinks fit, impose such fine upon the clerk or officer, not exceeding £100 for each offence, as seems just.

40. Any act which, if done in the United Kingdom or in a British possession, would be an offence against any of the following Statutes of the Imperial Parliament or Orders in Council, that is to say—

“The Merchandise Marks Act, 1887”;

“The Patents, Designs, and Trade Marks Acts, 1883 to 1885”;

Any Act, Statute, or Order in Council for the time being in force relating to copyright, or to inventions, designs, or trade marks;

Any Statute amending or substituted for any of the above-mentioned Statutes—

Shall, if done by a British subject in Brunei, be punishable as an offence against this Order, whether such act is done in relation to any property or right of a British subject, or of a foreigner, or otherwise:

Provided—

(1.) That a copy of any such Statute or Order in Council shall be published by the Consul in his public office, and shall be there open for inspection by any person at all reasonable times; and a person shall not be punished under this Article for anything done before the expiration of one month after such publication, unless the person offending is proved to have had express notice of the Statute or Order:

(2.) That a prosecution by or on behalf of a prosecutor who is not a British subject shall not be entertained without the consent in writing of the Consul who may withhold such consent, unless he is satisfied that effectual provision exists for the punishment in Consular or other Courts in Brunei of similar acts committed by the subjects of the State or Power of which such prosecutor is a subject, in relation to or affecting the interests of British subjects.

41. A District Court shall have jurisdiction to make an order requiring a person to contribute, in such manner as the Court directs, to the support of his wife or child, whether legitimate or not, being in the opinion of the Court under the age of sixteen years. Any such order may be made in a summary way, as if the neglect to provide for the support of such wife or child were an offence against this Order, and a failure to comply with any such order shall be deemed to be an offence against this Order, and shall be punishable accordingly, and the Court may direct any penalty imposed for such offence to be applied for the support of such wife or child in such manner as the Court thinks fit.

42. Where any act or remission is, by virtue of this Order, or of any regulation made under this Order, an offence against this Order, and no penalty or punishment is specified in respect thereof, such offence shall be punishable with imprisonment for not exceeding three months, or fine not exceeding £100, or both.

43. A District Court may cause to be apprehended and brought before it any British subject being within the district of the Court, and charged with having committed a crime in Brunei, and may deal with the accused according to the jurisdiction of the Court and in conformity with the provisions of this Order, or where the crime is triable and is to be tried, in Her Majesty's dominions, may take the preliminary examination, and commit the accused for trial, and cause or allow him to be taken to the place of intended trial.

44.—(1.) Where a person is charged with an offence on a summons or warrant issuing out of a Court, he shall be brought before the Court within forty-eight hours after service of the summons or execution of the warrant, unless, in any case, circumstances unavoidably prevent his being brought before the Court within that time which circumstances shall be recorded in the Minutes.

(2.) In every case he shall be brought before the Court as soon as circumstances reasonably admit, and the time and circumstances shall be recorded in the Minutes.

45.—(1.) Where an accused person is in custody he shall not be remanded at any time for more than seven days, unless circumstances appear to the Court to make it necessary or proper that he should be remanded for a longer time, which circumstances, and the time of remand, shall be recorded in the Minutes.

(2.) In no case shall a remand be for more than fourteen days at one time, unless in case of illness of the accused person or other case of necessity.

46.—(1.) Except in cases of murder, an accused person may be admitted to bail at any stage of the proceedings.

(2.) Where the offence charged is one of the following, it shall be in the discretion of the Court before whom such person appears or is tried to admit the accused to bail or not, according to the circumstances, namely:—

Felony (not being murder);

Riot;

Assault on an officer of a Court in the execution of his duty, or on any person acting in his aid;

Neglect or breach of duty by an officer of a Court.

(3.) In all other cases except murder the Court shall admit the accused to bail, unless, in any instance the Court having regard to the circumstances, see good reason to the contrary which reason shall be recorded in the Minutes.

(4.) The Consul may, if he thinks fit, admit to bail a person charged with any offence, except murder, although any other Court, in the exercise of its discretion, has not thought fit to admit the accused to bail.

47. Crimes punishable under this Order are to be tried as follows (subject to the provisions of this Order as to the powers of the Consul, and of the Supreme Court, or a Judge thereof):—

(1.) Crimes by this Order directed to be tried in a summary way are to be tried by a District Court without a jury or assessors.

(2.) Crimes which are not punishable with a longer term of imprisonment than three months, nor punishable with fine exceeding £50, shall be tried in a summary way by a District Court without a jury or Assessors.

(3.) Crimes other than as aforesaid, and except crimes punishable with death or with penal servitude for seven years or upwards, shall be tried on indictment by a District Court with Assessors or a jury. Provided that if the accused person desires to be tried in a summary way, and the Court is of opinion that the case is such that, if proved, it can be adequately punished under the powers of a District Court the Court may hear and determine the case in a summary way.

(4.) In every case of crime punishable with death, or with penal servitude for seven years or upwards, the Consul shall direct to what Court the accused person shall be committed for trial. Such Court shall be either the Supreme Court acting in the Straits Settlements, or acting in Brunei, or the Consul acting in Brunei with the powers of the Supreme Court; and the trial shall be by such Court with a jury if the trial takes place in the Straits Settlements, or if the accused person at the time of his being committed for trial in Brunei so requires: Provided that, in case of inability to obtain a jury, or if the accused person does not require a jury, the Court may try the case with Assessors.

(5.) Whenever a District Court commits a person for trial, it shall take all proper steps by commitment, bail, or otherwise for securing the attendance of the accused person to take his trial, and by recognizance or otherwise for securing the attendance at the trial of the prosecutor and of the witnesses for the prosecution and for the defence respectively, and shall transmit to the proper Court the depositions and any documents, recognizances, or things necessary for the purpose of the trial, with a certificate under the seal of the District Court specifying the depositions, documents, and things so transmitted. Such certificate shall be *prima facie* evidence of all the matters stated therein to have been done by or before the District Court, and that the depositions transmitted therewith were duly taken.

48. A District Court may impose the punishment of imprisonment for any term not exceeding six months, with or without hard labour, and with or without a fine not exceeding £200, or the punishment of a fine not exceeding £200, without imprisonment.

49. Every Court and authority in imposing and inflicting punishments under this Order shall have regard, so far as circumstances admit, and subject to the other provisions of this Order, to the punishments imposed by the Law of England in like cases, and to the mode in which the same are inflicted in England.

50. Any Court acting under this Order (but, in the case of a District Court, held by a Consular officer other than the Consul, subject to the approval of the Consul) may order any person convicted before it of any crime or offence to pay all or any part of the expenses of or preliminary to his trial and of his imprisonment or other punishment.

Where it appears to any Court that any charge made before it is malicious, or is frivolous and vexatious, the Court may order all or any part of the expenses of the prosecution to be paid by the person making the charge.

In either of the two last-mentioned cases the amount ordered to be paid shall be deemed a debt due to the Crown, and may, by virtue of the order, without further proceedings be levied on the property of the person convicted or making the charge, as the case may be, or may be enforced by imprisonment for not exceeding one month, or until payment.

51.—(1.) A Court may, if it thinks fit, order a person convicted of an assault to pay to the person assaulted, by way of damages, any sum not exceeding £20.

(2.) Damages so ordered to be paid may be either in addition to or in lieu of a fine, and shall be recoverable in like manner as a fine.

(3.) Payment of such damages shall be a defence to an action for the assault.

52.—(1.) If, on a trial, a Court is of opinion that the accused attempted to commit the offence with which he is charged, but did not complete it, he shall not be therefore acquitted, but the Court may find him guilty of the attempt, and may adjudge him to be punished as if he had been charged with the attempt.

He shall not be liable to be afterwards prosecuted for the offence.

(2.) If, on the trial of a person charged with robbery, a Court is of opinion that the accused committed an assault with intent to rob, but did not commit robbery, he shall not be therefore acquitted, but the Court may find him guilty of the assault, and may adjudge him to be punished as if he had been charged with the assault.

He shall not be liable to be afterwards prosecuted for the assault.

(3.) If, on a trial for any of the following offences, namely, burglary, or stealing in a dwelling-house, or breaking and entering and stealing in a shop, warehouse, or counting-house, or a building within the curtilage of a dwelling-house, or larceny, or feloniously receiving property stolen, embezzled, or otherwise feloniously taken, obtained, or disposed of, the facts proved authorise a conviction for one of those offences, not being the offence charged, the Court may find the accused guilty of that other offence, and may adjudge him to be punished as if he had been charged with that other offence.

He shall not be liable to be afterwards prosecuted for that other offence.

(4.) If any person procures, or endeavours to procure, or incites any other person to commit a crime or offence, he shall be punishable on conviction in the same manner as if he were convicted of an attempt to commit that crime or offence. If the crime or offence is actually committed in pursuance of the procurement or incitement, both persons may be tried and punished for that crime or offence as principal offenders.

53. Where a person charged with having committed a crime or offence in the district of one Court escapes or removes from that district and is found within the district of another Court, the Court within the district of which he is found may proceed in the case to examination, indictment, trial, and punishment, or in a summary way (as the case may require), in the same manner as if the crime or offence had been committed in its own district; or may, on the requisition or with the consent of the Court of the district in which the crime or offence is charged to have been committed, send him in custody to that Court, or require him to give security for his surrender to that Court, there to answer the charge and be dealt with according to law.

Where any person is to be so sent in custody a warrant shall be issued by the Court within the district of which he is found, and such warrant shall be sufficient authority to any person to whom it is directed, to receive and detain the person therein named, and to carry him to, and deliver him up to, the Court of the district within which the crime or offence was committed, according to the warrant.

54. Where any person is charged with the commission of a crime or offence the cognizance whereof appertains to any of Her Majesty's Courts in Brunei, and it is expedient that the crime or offence be inquired of, tried, determined, and punished within Her Majesty's dominions, the accused may, in accordance with "The Foreign Jurisdiction Act, 1890," be sent for trial to a British possession to which, under the next following Article, he could be sent for execution of a sentence of imprisonment.

The Consul may, where it appears expedient, by warrant under his hand and seal, cause the accused to be taken for trial accordingly.

55.—(1.) Sentences of imprisonment shall ordinarily be carried into effect in such prisons within Brunei as the Consul directs, either by any general directions or in any particular case. A warrant of the Consul, or of a Court before which a person is convicted, shall be sufficient authority for the removal of the person to the prison named in the warrant, and for his detention there.

(2.) Where any offender convicted before a Court in Brunei is sentenced to imprisonment in respect of the crime or offence of which he is convicted, and it appears to the Consul to be expedient that the sentence be carried into effect within Her Majesty's dominions, the offender may, in accordance with "The Foreign Jurisdiction Act, 1890," be sent for execution of his sentence as follows:—

(a.) In the case of a prisoner who is, or who appears to be, a person signing the warrant under the said fifth section to be, a native of Burmah or of any other part of British India, and not of European descent, to Her Majesty's possession of Burmah, or some other part of British India.

(b.) In the case of any other prisoner, to the Colony of the Straits Settlements, or to some other part of Her Majesty's dominions out of the United Kingdom the Government whereof consents that offenders may be sent thither under this Article.

And the Consul shall have authority for the purposes of the said section,

56.—(1.) In cases of murder or manslaughter, if either the death or the criminal act which wholly or partly caused the death happened within the jurisdiction of a Court acting under this Order, such Court shall have the like jurisdiction over any person being a British subject, who is charged either as the principal offender, or as accessory before the fact to murder, or as accessory after the fact to murder or manslaughter, as if both such criminal act and the death had happened within such jurisdiction.

(2.) In the case of any crime committed on the high seas, or within the Admiralty jurisdiction, by any British subject on board a British ship, or on board a foreign ship to which he did not belong, a Court acting under this Order shall have jurisdiction as if the crime had been committed within the district of such Court. In cases tried under this provision, no different sentence can be passed from the sentence which could be passed in England if the crime were tried there.

(3.) The foregoing provisions of this Article shall be deemed to be adaptations for the purposes of this Order, and of "The Foreign Jurisdiction Act, 1890," of the following enactments described in the first Schedule to that Act (that is to say):—

"The Admiralty Offences (Colonial) Act, 1849."

"The Admiralty Offences (Colonial) Act, 1860."

"The Merchant Shipping Act, 1867," section 11.

And the said enactments shall, so far as they are repeated and adapted by this Article (but not further or otherwise) extend to Brunei.

57. "The Fugitive Offenders Act, 1881," shall apply to Brunei as if Brunei were a British possession, subject to the conditions, exceptions, and qualifications following:—

(i.) The said Act shall apply only in the case of British subjects.

(ii.) The Consul is, for the purposes of the said Act, substituted for the Governor of a British possession, and for a Superior Court, or a Judge thereof, in a British possession, and for a Magistrate or Justice of the Peace in a British possession.

(iii.) So much of the fourth and fifth sections of the said Act as relates to the sending a Report of the issue of a warrant, together with the information, or a copy thereof, or to the sending of a certificate of committal and Report of a case, or to the information to be given by a Magistrate to a fugitive, shall be excepted.

(iv.) So much of the sixth section of the said Act as relates to *habeas corpus*, and as requires the expiration of fifteen days before issue of a warrant, shall be excepted.

(v.) The said Consul shall not be bound to return a fugitive offender to a British possession unless satisfied that the proceedings to obtain his return are taken with the consent of the Governor of that possession.

(vi.) For the purposes of Part II of the said Act, Brunei and the Colony of the Straits Settlements shall be deemed to be one group of British possessions.

58. "The Colonial Prisoners Removal Act, 1884," shall apply to Brunei as if Brunei were a British possession, and part of Her Majesty's dominions, subject as follows:—

The Consul shall, in relation to Brunei, be substituted for the Governor of a British possession.

59. The Consul shall, when required by the Secretary of State, send to the Secretary of State a Report of the sentence passed in every case heard and determined by him, with a copy of the Minutes of proceedings and notes of evidence, and may send with such Report any observations he thinks fit.

Every Court (other than the Consul) shall forthwith send to the Consul a Report of the sentence passed by it in Brunei in every case not heard and determined in a summary way, with a copy of the Minutes of proceedings and notes of evidence, and with any observations the Court thinks fit. The Consul shall, when required by the Secretary of State, transmit the same to the Secretary of State, and may send therewith any observations he thinks fit.

60.—(1.) Where any person is sentenced in Brunei to suffer the punishment of death, the Court pronouncing the sentence shall forthwith send a Report of the sentence, with a copy of the Minutes of the proceedings and notes of the evidence in the case, and with any observations the Court thinks fit to make, to the Governor in Council of the Straits Settlements.

(2.) The sentence shall not be carried into execution without the order of the Governor of the Straits Settlements in Council.

(3.) In any such case, if the said Governor in Council does not order that the sentence of death be carried into execution, he shall direct what punishment in lieu of the punishment of death is to be inflicted on the person convicted, and the person convicted shall be punished accordingly.

61. The Governor in Council of the Straits Settlements shall have power, in the name of Her Majesty, to remit or commute in whole or in part any sentence passed by a Court exercising criminal jurisdiction under this Order, and every such Court shall give effect to any such remission.

62. Nothing in this Order shall be deemed to affect Her Majesty's prerogative of pardon.

PART VII.—APPEALS.

63.—(1.) Where any decision of a District Court, sitting with or without Assessors, or a decision of a Judge of the Supreme Court acting under this Order, with or without Assessors, either in Brunei or in the Straits Settlements, is given in a civil case in respect of a sum or matter at issue of the amount or value of £50 or upwards, or determines, directly or indirectly, any claim or question respecting property of the amount or value of £50 or upwards, any party aggrieved by the decision may apply to the Court for leave to appeal to the Supreme Court, and shall be entitled to leave on the terms prescribed by Rules made under this Order, and subject to any restrictions and exceptions therein contained.

In any other case the Court or Judge may, if it seems just and expedient, give leave to appeal on like terms.

In any case the Supreme Court may give leave to appeal on such terms as seem just.

(2.) In any matter in which an appeal lies, as of right or otherwise, to the Supreme Court, it shall be lawful for the Supreme Court, by special leave, to enlarge the time for appealing, or to permit an appeal to be brought on such terms as to costs or otherwise as it thinks fit, although the time limited for appeal has elapsed, or any other former requisite for an appeal has not been complied with.

(3.) The said Supreme Court, on the hearing of any appeal, may admit fresh evidence in such cases and on such terms as he or they think just, subject to any Rules to be made under this Order.

64.—(1.) Where any final decree or order of the Supreme Court on appeal under this Order is made in a civil case in respect of a sum or matter at issue of the amount or value of £500 or upwards, or determines, directly or indirectly, any claim or question respecting property of the amount or value of £500 or upwards, any party aggrieved by the decree or order may, within fifteen days after the same is made, apply by motion to the Supreme Court for leave to appeal to Her Majesty in Council.

(2.) If leave to appeal is applied for by a party adjudged to pay money or perform a duty, the Supreme Court shall direct either that the decree or order appealed from be carried into execution, or that the execution thereof be suspended, pending the appeal, as the said Court considers to be in accordance with substantial justice.

(3.) If the said Court directs the decree or order to be carried into execution, the party in whose favour it is made shall, before the execution of it, give security to the satisfaction of the said Court for the due performance of such Order as Her Majesty in Council may think fit to make.

(4.) If the said Court directs the execution of the decree or order to be suspended pending the appeal, the party against whom the decree is made shall, before any order for suspension of execution, give security to the satisfaction of the said Court for the due performance of such Order as Her Majesty in Council may think fit to make.

(5.) In all cases security shall also be given by the appellant to the satisfaction of the said Court, to an amount not exceeding £500, for the prosecution of the appeal, and for payment of all such costs as may be awarded to any respondent on appeal to Her Majesty in Council.

(6.) If the last-mentioned security is given within one month from the filing of the motion paper for leave to appeal, then, and not otherwise, the said Court shall give leave to appeal.

(7.) In any case other than the cases hereinbefore described, the Supreme Court may give leave to appeal on the terms and in the manner aforesaid, if it considers it just or expedient to do so.

(8.) In every case where leave to appeal is given as aforesaid, the appellant shall be at liberty to prefer and prosecute his appeal to Her Majesty in Council according to the Rules for the time being in force respecting appeals to Her Majesty in Council from Her Colonies, or such other Rules as Her Majesty in Council from time to time thinks fit to make concerning appeals from the Supreme Court.

(9.) Nothing in this Order shall affect the right of Her Majesty at any time, on the humble Petition of a party aggrieved by any decision of the Supreme Court, to admit his appeal thereon on such terms and in such manner as Her Majesty in Council may think fit, and to deal with the decision appealed from in such manner as may be just.

65. In any case in which an appeal lies under this Order from a District Court to the Supreme Court as of right, or leave to appeal is given by the District Court, the parties may agree that the appeal shall be to the Consul, and upon any such agreement in writing being filed in the District Court, or upon such agreement being made in open Court and embodied in any order of the District Court, the appeal shall be to the Consul, who shall hear and dispose of the appeal in a summary way in such manner as he thinks fit, and may make any order which could have been made by the District Court, and shall certify his order to the District Court, and that Court shall give effect thereto.

Any such order shall be final, and shall not be subject to any further appeal, either to the Supreme Court or to Her Majesty in Council.

This Article does not apply to cases which are in the first instance heard by the Consul in the exercise of any jurisdiction under this Order.

66.—(1.) Where any person is convicted otherwise than in a summary way of a crime or offence, the Court trying the case may, if it seems fit, upon or without written application by the prosecutor or defendant, reserve for the consideration of the full Supreme Court any question of law arising on the trial.

The Court shall then state a special case, setting out the question reserved, with the facts and circumstances on which it arose, and shall send the case to the Supreme Court.

(2.) Where any person is convicted in a summary way of a crime or offence, and is dissatisfied with the conviction as being erroneous in point of law, the Court trying the case may, on his application in writing, and on compliance by him with any terms prescribed by the Rules made under this order, state a special case, setting out the facts and the grounds of the conviction, for the opinion of the Supreme Court.

(3.) Where a special case is stated, the Court stating it shall, as seems fit, either postpone Judgment on the conviction, or respite execution of the Judgment, and either commit the person convicted to prison, or take proper security for him to appear and receive Judgment, or to render himself in execution (as the case may require) at an appointed time and place.

(4.) The Supreme Court shall hear and determine the matter, and thereupon shall reverse, affirm, or amend the Judgment, conviction, or sentence in question; or set aside the same, and order an entry to be made in the Minutes of proceedings to the effect that in the judgment of the Supreme Court the person convicted ought not to have been convicted, or arrest the Judgment, or order Judgment to be given at a subsequent sitting of the Court stating the case, or order a new trial, or make such other order as justice requires, and shall also give the necessary and proper consequential directions.

(5.) The Judgment of the Supreme Court shall be delivered in open Court after the public hearing of any argument offered on behalf of the prosecution or of the person convicted.

(6.) Before delivering Judgment the Supreme Court may, if necessary, cause the special case to be amended by the Court stating it.

(7.) If on an application for a special case the Court refuses to state a case, the Court so refusing shall forthwith send to the Supreme Court a Report of the sentence, with a copy of the Minutes of proceedings and notes of evidence, and any observations the Court thinks fit, and with the copy of the application for a special case.

(8.) The Supreme Court shall examine the Report and documents so sent, and may, on the application in that behalf of the appellant, if made within one month after the refusal of a special case, proceed to hear and determine the matter according to the foregoing provisions, as nearly as may be, as if a special case had been stated.

(9.) In this Article expressions referring to the Court which tries a case include a District Court or a Judge or Judges of the Supreme Court acting under this Order either in Brunei or in the Straits Settlements, or the Consul acting with the power of the Supreme Court.

PART VIII.—EVIDENCE.

67.—(1.) In any case, criminal or civil, and at any stage thereof, a District Court either of its own motion, or on the application of any party, may summon a British subject to attend to give evidence, or to produce documents, or to be examined.

(2.) If the person summoned, having reasonable notice of the time and place at which he is required to attend, fails to attend and be sworn, and give evidence or produce documents, or submit to examination accordingly, and does not excuse his failure to the satisfaction of the Court, he shall be guilty of an offence against this Order.

(3.) A person punished under this article shall not be liable to an action in respect of the same matter; and any such action, if begun, shall be stayed by the Court in such manner and on such terms as the Court thinks fit.

(4.) In a criminal case, where it is proved that a British subject is likely to give material evidence, either for the prosecution or for the defence, and that he will not voluntarily attend to give evidence, the Court may issue a summons for his attendance.

(5.) If he does not obey the summons, and does not excuse his failure to the satisfaction of the Court, then, after proof of service of the summons, the Court may issue a warrant to compel his attendance.

(6.) Where it is proved that he will not attend to give evidence unless compelled to do so, the Court may issue a warrant in the first instance.

(7.) In civil cases any Court may, where the circumstances appear to justify it, order that the expenses of a witness, on his appearing to give evidence, shall be defrayed by the parties, or any of them.

68.—(1.) Any person appearing before a District Court to give evidence in any case, civil or criminal, may be examined or give evidence on oath in the form or with the ceremony that he declares to be binding on his conscience.

(2.) Any British subject wilfully giving false evidence in any suit or proceeding, civil or criminal, or on any arbitration, or in any affidavit, shall be deemed guilty of wilful and corrupt perjury.

69.—(1.) Judicial notice shall be taken of this Order, and of the commencement thereof, and of the appointment of Consular or other officers, and of the constitution and limits of any jurisdiction, Court, or district, and of Consular seals and signatures, and of any rules or regulations made or in force under this order, and no proof shall be required of any of such matters.

(2.) Every signature or seal affixed to any instrument purporting to be the signature of any Consular officer or person acting under this Order, or to be the seal of any Court, shall, for all purposes under this Order, without any proof thereof, be presumed to be genuine, and shall be taken as genuine until the contrary is proved.

70. A person attending to give evidence before a District Court shall not be compelled or allowed to give any evidence, or produce any document, if, in the opinion of the Consul signified by him personally or in writing to the Court, the giving or production thereof would be injurious to Her Majesty's service.

71.—(1.) The provisions of "The Evidence Act, 1851" (14 and 15 Vict., cap. 99), sections 7 and 11, relating to the proof of judicial and other documents, shall extend and be applied for all purposes as if the district were in a British Colony.

(2.) The following Acts, namely:—

"The Foreign Tribunals Evidence Act, 1856."

"The Evidence by Commission Act, 1859,"

"The Evidence by Commission Act, 1887,"

or so much thereof as is for the time being in force, and any enactment for the time being in force amending or substituted for the same, are hereby extended to all places and Courts to which this Order applies, with the adaptations following, namely:—

In the said Acts, the Consul is hereby substituted for a Supreme Court, or the Judge of a Court in a Colony.

(3.) The following Acts, namely:—

"The British Law Ascertainment Act, 1859,"

"The Foreign Law Ascertainment Act, 1861," or so much thereof as is for the time being in force, and any enactment for the time being in force amending or substituted for the same, are hereby extended to all places and Courts to which this Order applies, with the adaptations following, namely:—

In the said Acts the Consul is hereby substituted for a Superior Court in a Colony.

#### PART IX.—JURIES AND ASSESSORS.

##### *Juries.*

72.—(1.) Every male British subject resident in Brunei, being of the age of twenty-one years or upwards, being able to speak and read English, having, or earning a gross income at the rate of not less than £50 a-year, not having been attainted of treason or felony, or convicted of any crime that is infamous (unless he has obtained a free pardon), and not being under outlawry, shall be qualified to serve on a jury.

(2.) All persons so qualified shall be liable so to serve, except the following:—

Persons in Her Majesty's Diplomatic, Consular, or other Civil Service in actual employment;

Officers, clerks, keepers of prisons, messengers, and other persons attached to, or in the service of, any of Her Majesty's Courts;

Officers and others on full pay in Her Majesty's navy or army, or in actual employment in the service of any Department connected therewith;

Clergymen and ministers in the actual discharge of professional duties;

Advocates and attorneys in actual practice;

Physicians, surgeons, and apothecaries in actual practice;

And except persons disabled by mental or bodily infirmity.

73. On or before the fourteenth day of January in every year each District Court shall make out a list of the persons so qualified and liable resident within its district.

The list shall, on or before the twenty-first day of the same respective month, be affixed in some conspicuous place in the Court, and shall be there exhibited until the end of that month with a Notice annexed that on a day specified, not being sooner than the seventh or later than the fourteenth day of the then next month, the Court will hold a special sitting for the revision of the list.

The Court shall hold such special sitting accordingly, and at such sitting, or at some adjournment thereof (of which public notice shall be given), shall revise the list by striking out the name of any person appearing to be not qualified or not liable to serve, and by inserting the name of any person omitted, and appearing to be so qualified and liable, either on the application of the person omitted, or on such notice to him as the Court thinks fit.

The list shall be finally revised and settled not later than the twenty-first day of February in every year, and when settled shall be affixed in some conspicuous place in the Court, and be there exhibited during not less than two months.

Such list, as settled, shall be brought into use on the first day of March, and shall be used as the Jury List of the Court until the first day of March next after the time of its being brought into use.

74. Where, in pursuance of this Order, a jury is ordered, the Court before which the trial is to be had shall summon so many of the persons comprised in the Jury List, not fewer than seven, as seems requisite.

Any person failing to attend according to such summons shall be liable to such fine, not exceeding £10, as the Court thinks fit to impose.

Any such fine shall not be levied until after the expiration of fourteen days. The proper officer of the Court shall forthwith give to the person fined notice in writing of the imposition of the fine, and require him within six days after receipt of the notice to file an affidavit excusing his non-attendance if he desire to do so. The Court shall consider the affidavit, and may, if it seems proper, remit the fine.

75. Where a suit relates to money, goods, or other property, or any matter at issue appearing to the Court to be of the amount or value of £300 or upwards, or is brought for recovery of damages of the amount of £300 or upwards, the suit shall on the demand of either party, be, under order of the Court before which the trial is to be had, tried with a jury.

In any case a suit may be tried with a jury, if the Court, of its own motion or on the application of either party, thinks fit so to order.

76.—(1.) The foregoing provisions relating to the preparation of Jury Lists and the summoning of juries shall not, as regards any District Court, come into operation until the Consul so directs by order in writing, published in such manner as he thinks fit.

He may from time to time by any such order, as regards any district, alter the number of jurors to be summoned, or the quorum of a jury.

He may suspend the operation of any such order from time to time, or revoke any order.

(2.) If, in any civil or criminal case where a jury is ordered, or is required by this Order or by any Rules of Procedure, a sufficient jury cannot be obtained, the Court before which the trial is to be had may either hear the case without a jury, or with a jury of less than the proper number, or postpone it in order to obtain a jury or Assessors, as the Court thinks just.

77.—(1.) Subject to the other provisions of this Order, the number of the jury shall be five.

(2.) In criminal cases tried with a jury, the verdict of the jury must be unanimous. In civil cases the verdict must be unanimous, unless the parties otherwise agree.

(3.) No challenge shall be allowed except for cause shown to the satisfaction of the Court.

(4.) No grand jury shall be summoned.

78. Where a District Court proceeds, in pursuance of this Order, to hear and determine any case, civil or criminal, with Assessors, the Court shall nominate and summon as Assessors not less than two and not more than four indifferent British subjects of good repute, resident in the district of the Court, or belonging to a British ship.

Where, by reason of local circumstances, the Court is able to obtain the presence of one fit person only as Assessor, the Court may sit with him alone as Assessor; and where, for like reasons, the Court is not able to obtain the presence of any fit person as Assessor, the Court may (notwithstanding anything in this Order) sit without an Assessor; but in every such case the Court shall record in the Minutes of proceedings its reasons for sitting with one Assessor only, or without an Assessor.

An Assessor shall not have voice or vote in the decision of the Court in any case, civil or criminal; but an Assessor dissenting in a civil case from any decision of the Court, or in a criminal case from any decision of the Court, or the conviction, or the amount of punishment awarded, may record in the Minutes of proceedings his dissent and the grounds thereof; and an Assessor dissenting shall be entitled to receive gratis a certified copy of the Minutes.

79. In civil cases any party who has a right to demand a trial with a jury may, in lieu thereof, demand a trial with Assessors, unless a trial with a jury is ordered, and can be had. If no party demands a jury or Assessors, the Court before whom the trial is to be had may, if it thinks fit, summon Assessors.

80. If any person summoned to act as Assessor fails, without lawful excuse, to attend at the trial, or at any adjournment thereof, or to continue to serve throughout the trial, he shall be liable under a summary order of the Court to a fine not exceeding £10, to be levied by attachment and sale of his goods within the district, and in default of recovery thereof of the fine, to be imprisoned for any time not exceeding six days, if the fine is not sooner paid.

#### PART X.—RULES OF PROCEDURE.

81.—(1.) The Consul, with the approval of the Chief Justice of the Straits Settlements, may from time to time frame Rules for any purpose for which it is in this Order expressed or implied, that Rules of Procedure or practice are to be made for the execution of Judgments or orders, and for the regulation of appeals in civil and in criminal cases, and of rehearings, and generally for the purpose of making any provision proper or

necessary for the proper or effectual exercise of the jurisdiction of Courts under this Order, and may thereby impose reasonable penalties, and may provide for the enforcement of any Judgment or order by imprisonment for not exceeding one month.

(2.) Rules affecting the conduct of civil suits shall be so framed as to secure, as far as may be, that cases shall be decided on their merits according to substantial justice, without excessive regard to technicalities of pleading or procedure, and without unnecessary delay.

(3.) Rules framed under this Article shall not have effect unless and until they are approved by the Secretary of State, save that in case of urgency declared in any Rules framed by the Consul, the same shall have effect unless and until they are disapproved by the Secretary of State, and notification of such disapproval is received and published by the Consul.

(4.) Provision may, amongst other things, be made by Rules under this Article, authorising any Court to grant and enforce search warrants, and to enforce awards, and to enforce by distress or by attachment or commitment, Judgments or orders of any Court, or payment of any damages, costs, penalties, fines, or forfeitures, and for the sale of things forfeited, and for garnishee process, and for attachments of property in order to compel appearance or submission to the jurisdiction or process of any Court, and authorising any Court to compel by fine, distress, or recognizance, or in default of security by commitment, the attendance of witnesses before any Court, or before a Colonial Court to which a case is sent for trial, and to fix and enforce the fees to be taken in respect of any proceedings under this Order, not exceeding, as regards any matters provided for by the Act of 6 Geo. IV. cap. 87, fees fixed and allowed from time by any Order in Council made under that Act, and to take and transmit depositions of witnesses for use at trials in a Colony or in England, and to appoint forms of indictment or charge in criminal proceedings, and for regulating the conditions on which persons may be admitted to practice as barristers, advocates, or solicitors in proceedings in any Court, and for suspending or excluding such persons from practice in case of misconduct: Provided that the scales of all fees fixed under the provisions of this Order shall have been sanctioned by the Commissioners of Her Majesty's Treasury.

82. A copy of the Rules for the time being in force shall be exhibited conspicuously in each District Court and Consulate.

Printed copies shall be provided and sold at such reasonable price as the Consul from time to time directs.

No penalty shall be enforced in any District Court for the breach of any Rule until the Rule has been so exhibited in the Court for one month, unless the person offending is proved to have had express notice of the Rule.

A printed copy of any Rule purporting to be certified under the hand of the Consul shall be for all purposes conclusive evidence of the due framing, approval, and publication of the contents thereof.

From and after the commencement of any Rules made under this Order, all Rules and Regulations theretofore in force in the district in respect of any matter in respect whereof Rules are made under this Order shall cease to operate.

PART XI.—TREATIES AND QUEEN'S REGULATIONS.

83. If any British subject violates or fails to observe any stipulation of any Treaty made with, or by, or on behalf of Her Majesty, for the time being in force, in respect of the violation whereof any penalty is stipulated for in the Treaty, he shall be deemed guilty of an offence against the Treaty, and on conviction thereof under this Order shall be liable to a penalty not exceeding the penalty stipulated for in the Treaty.

84.—(1) The Consul may, from time to time, subject and according to the provisions of this Order, make, on behalf of Her Majesty, such Regulations as to him seem fit for the peace, order, and good government of British subjects resident in, or resorting to, Brunei.

(2.) The power aforesaid extends to the making of Regulations for securing observance of the stipulations of Treaties between Her Majesty, Her heirs and successors, and the Sultan of Brunei, and for enforcing any local law or customs, whether relating to trade, commerce, revenue, or any other matter, and for maintaining friendly relations between British subjects and native subjects and authorities, and for requiring Returns to be made of the nature, quantity, and value of articles exported from or imported into Brunei, by or on account of any British subject or in any British ship, and for prescribing the times and manner at or in which, and the persons by whom, such Returns are to be made.

(3.) The Consul may, as he thinks fit, make any Regulation under this Order extend either throughout Brunei or to some one or more only of the Consular districts in Brunei.

(4.) The Consul, in the exercise of the powers aforesaid, may, if he thinks fit, join with the Ministers or representatives of any foreign Powers in amity with Her Majesty, in making or adopting Regulations for the municipal government of any foreign Concession or Settlement in Brunei; and, as regards British subjects, joint Regulations so made shall be as valid and binding as if they related to British subjects only.

(5.) The Consul may, by any Regulation made under this Order, repeal or alter any Regulation made under any Order in Council relating to Brunei.

(6.) Regulations made under this Order shall not have effect unless and until they are approved by Her Majesty, that approval being signified through the Secretary of State, save that, in case of urgency declared in any such Regulations, the same shall take effect before that approval, and shall continue to have effect, unless and until they are disapproved by Her Majesty the Queen, that disapproval being signified through the Secretary of State, and until notification of that disapproval has been received and published by the Consul.

That approval, where given, shall be conclusive, and the validity or regularity of any Regulations so approved shall not be called in question in any legal proceeding whatever.

85. Any Regulations made under this Order may, if the Consul thinks fit, impose penalties for offences against the same.

Penalties so imposed shall not exceed the following, namely: for any offence, imprisonment for three months, with or without hard labour, and with or without a fine of £10, or a fine of £100 without imprisonment; with or without a further fine, for a continuing offence of £10 for each day during which the offence continues after the original fine is incurred.

Regulations imposing penalties shall be so framed as to allow in every case of part only of the highest penalty being inflicted.

In addition to or in lieu of penalties, such Regulation may provide for forfeiture of any goods, receptacles, or things in relation to which, or to the contents of which, any breach is committed of such Regulations, of any Treaty, or any native Law or Ordinance the observance of which is provided for by such Regulations.

86. All Regulations made under this Order, whether imposing penalties or not, shall be printed, and a printed copy thereof shall be affixed, and be at all times kept exhibited conspicuously in the public offices of each Consulate in Brunei.

Printed copies of the Regulations shall be kept on sale at such reasonable price as the Consul from time to time directs.

Where a Regulation imposes a penalty or forfeiture, the same shall not be enforceable in any Consular district until a printed copy of the Regulation has been affixed in the public office of the Consulate for that district, and has been kept exhibited conspicuously there during one month, unless the person offending is proved to have had express notice of the Regulation.

A printed copy of a Regulation purporting to be made under this Order, and to be certified under the hand of the Consul, shall be conclusive evidence of the due making of the Regulation and of its contents.

87. A charge of an offence against a Regulation made under this Order imposing a penalty or forfeiture shall be inquired of, heard, and determined as an ordinary criminal charge under this Order, except that where the Regulation is one for securing observance of the stipulations of a Treaty, the charge shall be heard and determined in a summary way, and (where the proceeding is before a District Court) without Assessors.

88. The respective powers aforesaid extend to the making of Regulations for the governance, visitation, care, and superintendence of prisons in Brunei, and for the infliction of corporal or other punishment on prisoners committing offences against the rules or discipline of a prison; but the provisions of this Order respecting penalties, and respecting the printing, affixing, exhibiting, and sale of Regulations, and the mode of trial of charges of offences against Regulations, do not apply to Regulations respecting prisons and offences of prisoners.

PART XII.—FOREIGNERS AND NATIVES.

89.—(a.) Where a foreigner desires to institute or take a suit or proceeding of a civil nature against a British subject, or a British subject desires to institute or take a suit or proceeding of a civil nature against a foreigner, a District Court may entertain the suit or proceeding, and hear and determine it (and if all parties desire, or the Court directs a trial with a jury or Assessors, then with a jury or Assessors) at a place where such a trial might be had if all parties were British subjects, and in all other respects according to the ordinary course of the Court.

(b.) Provided that the foreigner (i) first files in the Court his consent to the jurisdiction of the Court; and (ii) also, if required by the Court, obtains and files a certificate in writing from a competent authority of his own Government, to the effect that no objection is made by that Government to the foreigner submitting in the particular cause or matter to the jurisdiction of the Court; and (iii) also, if required by the Court, gives security to the satisfaction of the Court, to such reasonable amount as the Court directs, by deposit money or otherwise, to pay fees, costs, damages, and expenses, and to abide by and perform the decision to be given by the Court or on appeal.

(c.) A counter claim or cross suit cannot be brought or instituted in the Court against a plaintiff, being a foreigner who has submitted to the jurisdiction, by a defendant, except by leave of the Court first obtained.

(d.) The Court, before giving leave, shall require proof from the defendant that his claim arises out of the matter in dispute, and that there is reasonable ground for it, and that it is not made for vexation or delay.

(e.) Nothing in this Article prevents the defendant from instituting or taking in the Court against the foreigner, after the termination of the suit or proceeding in which the foreigner is plaintiff, any suit or proceeding that the defendant might have instituted or taken in the Court against the foreigner if no provision restraining counter claims or cross suits had been inserted in this Order.

(f.) Where a foreigner obtains in the Court an order against a defendant being a British subject, and in another suit that defendant is plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the order pending that other suit, and may set off any amount ordered to be paid by one party in one suit against any amount ordered to be paid by the other party in the other suit.

(g.) Where a plaintiff, being a foreigner, obtains in the Court an order against two or more defendants, being British subjects, jointly and in another suit one of them is plaintiff and the foreigner is defendant, the Court may, if it thinks fit, on the application of the British subject, stay the enforcement of the order pending that other suit, and may set off any amount ordered to be paid by one party in one suit against any amount ordered to be paid by the other party in the other suit, without prejudice to the right of the British subject to require contribution from his co-defendants under the joint liability.

(h.) Where a foreigner is co-plaintiff in a suit with a British subject who is within the particular jurisdiction, it is not necessary for the foreigner to make deposit or give security for costs unless the Court so directs; but the co-plaintiff British subject is responsible for all fees and costs.

90.—(a.) Where it is shown to a District Court that the attendance of a British subject to give evidence, or for any other purpose connected with the administration of justice, is required in a native Court, or before a judicial officer in Brunei of any State in amity with Her Majesty, the Court may, in cases and under circumstances which would require the attendance of that British subject before one of Her Majesty's Courts in Brunei, and if it seems to the Court just and expedient so to do, make an order for the attendance of the British subject in such Court or before such judicial officer, and for such purpose as aforesaid, but so that a District Court shall not have power to make an order for such attendance of a British subject at any place beyond the particular jurisdiction of the Court.

The order may be made subject to conditions as to payment or tender of expenses or otherwise.

(b.) If the person ordered to attend, having reasonable notice of the time and place at which he is required to attend, fails to attend accordingly, and does not excuse his failure to the satisfaction of the Court, or if he refuses to give evidence, or wilfully gives false evidence, or fails to produce documents which he is properly required to produce, he is, independently of any other liability, guilty of an offence against this Order, and for every such offence, on conviction thereof, by summary trial, is liable to a fine not exceeding £100, or to imprisonment for not exceeding one month, in the discretion of the Court.

91. When, pursuant to the Agreement dated the seventeenth September, one thousand eight hundred and eighty-eight, between Her Majesty and the Sultan of Brunei, a civil proceeding is brought by a native against a British subject, an officer appointed by the Government of the Sultan shall be entitled to be present at, and to take part in the proceedings, but shall have no voice in the decision.

#### PART XIII.—DEPORTATION AND REMOVAL.

92.—(1.) Where it is shown on oath to the satisfaction of a District Court that there is reasonable ground to apprehend that any British subject within the district of such Court is about to commit a breach of the public peace, or that the acts or conduct of any British subject are or is likely to produce or excite to a breach of the public peace, the Court may cause him to be brought before it and require him to give security to the satisfaction of the Court to keep the peace, or for his future good behaviour, as the case may require.

(2.) Where any British subject is convicted under this Order of any crime or offence, a District Court within the jurisdiction whereof he happens to be may require him to give security to the satisfaction of the Court for his future good behaviour.

(3.) In either of these cases, if the person required to give security fails to do so, the Court may order that he be deported from Brunei to such place as the Court directs.

(4.) The place shall be a place in some part of Her Majesty's dominions prescribed by the Secretary of State, or a place the Government whereof consents to the reception therein of persons deported under this Order. The order for deportation may, in any case with reference to which the Secretary of State by any general or special directions so directs, provide for the deportation of the person to whom it refers in the first instance to any place, as above mentioned, and also for his further deportation from that place to any other place to which he could lawfully have been deported in the first instance.

(5.) A District Court shall forthwith report to the Consul any order of deportation made by it, and the grounds thereof. The Consul may reverse the order, or may confirm it with or without variation, and in case of confirmation shall direct it to be carried into effect.

(6.) The person to be deported shall be detained in custody until a fit time and opportunity for his deportation arrives.

(7.) The Consul shall (and in the case of a person convicted, either after execution of the sentence, or while it is in course of execution), by warrant, cause the person to be taken to the place of deportation.

(8.) The Consul may order that the person to be deported do pay all or any part of the expenses of, or preliminary to, his deportation.

(9.) The Consul shall forthwith report to the Secretary of State any order of deportation made or confirmed by him, and the grounds thereof.

(10.) Where any person is deported to Singapore, he shall, on his arrival there, be delivered, with the warrant under which he is deported, into the custody of the Superintendent of Prisons of Singapore, or other officer of Her Majesty there lawfully acting as such, who, on receipt of the person deported, with the warrant, shall detain him, and shall forthwith report the case to the Governor or person administering the Government of the Straits Settlements, who shall either, by warrant if the person is a native of the United Kingdom and if the circumstances of the case appear to make it expedient, cause the person so deported to be taken to England, and in the meantime to be detained in custody (so that the period of such detention do not exceed three months), or else shall discharge him from custody.

(11.) If any person deported returns to Brunei without the permission of the Secretary of State or of the Consul, in writing under his hand, he shall be guilty of an offence against this Order, and shall be liable, on conviction thereof, to punishment (in the discretion of the Court before which he is convicted) by imprisonment for any term not exceeding one month, with or without hard labour, and with or without a fine not exceeding £40, or by a fine not exceeding £40, without imprisonment, and also to be forthwith again deported in manner hereinbefore provided.

93.—(1.) Whenever under this order any person is to be taken into custody or otherwise, for trial or imprisonment, or by way of deportation, or for any other purpose, any place in or out of Brunei, the Court or other authority by this Order authorised to cause him to be so taken may for that purpose (if necessary) cause him to be embarked on board one of Her Majesty's vessels of war, or if there is no such vessel available, then on board any British or other fit vessel, at any port or place whether within or beyond the particular jurisdiction or district of that Court or authority, and in order to such embarkment may (if necessary) cause him to be taken, in custody or otherwise, by land or by water, from any place to the port or place of embarkment.

(2.) The writ, order, or warrant of the Consul, or of a District Court in Brunei, or of the Supreme Court, or the warrant of the Governor or person administering the Government of the Straits Settlements (as the case may be), by virtue whereof any person is to be so taken, shall be sufficient authority to every constable, officer, or other person acting thereunder, and to the commander or master of any vessel of war, or other vessel (whether the constable, officer, or other person, or the vessel or the commander or master thereof, is named therein or not), to receive, detain, take, and deliver up such person, according to the writ, order, or warrant.

(3.) Where the writ, order, or warrant is executed under the immediate direction of the Court or authority issuing it, the writ, order, or warrant shall be delivered to the constable, officer, or other person acting thereunder, and a duplicate thereof shall be delivered to the commander or master of any vessel in which the person to whom the writ, order, or warrant relates is embarked.

(4.) Where the writ, order, or warrant is made or issued by the Consul, and is executed by a District Court in Brunei, and where the writ, order, or warrant issues from the Supreme Court of the Straits Settlements, and is executed by any of Her Majesty's Courts in Brunei, a copy thereof certified under the seal of the Court executing the same shall be delivered to the constable, officer, or other person acting thereunder, and to the commander or master of any vessel in which the person taken is embarked; and any such copy shall be for all purposes conclusive evidence of the order of which it purports to be a copy.

#### PART XIV.—REGISTRATION.

94.—(1.) Every British subject resident in Brunei, being of the age of twenty-one years or upwards, or being married, or a widower or widow, though under that age, shall, in the month of January, in the year one thousand eight hundred and ninety-one, and every subsequent year, register himself in a register to be kept at the Consulate of the Consular district within which he resides, subject to this qualification, that the registration of a man shall be deemed to include the registration of his wife (unless she is living apart from him), and that the registration of the head of a family, whether male or female, shall be deemed to include the registration of all females,

being relatives of the head of the family (in whatever degree of relationship), living under the same roof with the head of the family at the time of his registration.

(2.) Every British subject not so resident arriving after the commencement of this Order at any place in Brunei where a Consular officer is maintained, unless borne on the muster-roll of a British vessel there arriving, shall, within one month after his arrival, register himself in a register to be kept at the Consular office but so that no such person shall be required to register himself more than once in any year, reckoned from the first day of January.

(3.) Any person failing so to register himself, and not excusing his failure to the satisfaction of the Consular officer, shall not be entitled to be recognized or protected as a British subject in Brunei, and shall be liable to a fine not exceeding two pounds for each instance of such failure; but he shall nevertheless be subject to the jurisdiction of the Courts for all purposes.

(4.) Every person shall, on every registration of himself, pay a fee of 2s. 6d.

(5.) The Consular officers shall issue to every person so registered a certificate of registration under his hand and Consular seal; and the name of a wife (unless living apart from her husband) shall be indorsed on her husband's certificate; and the names and descriptions of females whose registration is included in that of the head of the family shall be indorsed on the certificate of the head of the family.

#### PART XV.—MORTGAGES AND BILLS OF SALE.

95.—(1.) A deed or other instrument of mortgage, legal or equitable, of lands or houses in Brunei, executed by a British subject, may be registered at any time after its execution at the District Court of the district wherein the property mortgaged is situate.

(2.) Registration is made as follows: The original and a copy of the deed or other instrument of mortgage, and an affidavit verifying the execution and place of execution thereof, and verifying the copy, are brought into the Court; and the copy and affidavit are left there.

(3.) If a deed or other instrument of mortgage is not registered at the Court within the respective time following (namely):—

(i.) Within fourteen days after its execution, where it is executed in the district wherein the property mortgaged is situate;

(ii.) Within two months after its execution, where it is executed in Brunei, elsewhere than in that district;

(iii.) Within six months after its execution, where it is executed elsewhere than in Brunei; then, and in every such case, the mortgage debt secured by the deed or other instrument, and the interest thereon, shall not have priority over judgment or simple contract debts contracted before the registration of that deed or other instrument.

(4.) Registered deeds or other instruments of mortgage, legal or equitable, of the same lands or houses, have, as among themselves, priority in order of registration.

(5.) The provisions of this order do not apply to a deed or other instrument of mortgage executed before the commencement of this Order.

96. The power given by this Order for framing Rules from time to time is hereby extended to the framing of Rules for prescribing and regulating the making and keeping of indexes, and of a general index to the register of mortgages, and searches in those indexes, and other particulars connected with the making, keeping, and using of those registers and indexes and for authorising and regulating the removal from the register of any deed or other instrument of mortgage, or the registering of any lease or satisfaction in respect thereof.

97. The provisions of this Order relating to bills of sale—

(i.) Apply only to such bills of sale executed by British subjects as are intended to affect chattels in Brunei;

(ii.) Do not apply to bills of sale given by Sheriffs or others under or in execution of process authorising seizure of chattels.

98.—(a.) Every bill of sale must conform with the following Rules (namely):—

(1.) It must state truly the name, description, and address of the grantor.

(2.) It must state truly the consideration for which it is granted.

(3.) It must have annexed thereto or written thereunder an inventory of the chattels intended to be comprised therein.

(4.) Any defeasance, condition, or declaration of trust affecting the bill not contained in the body of the bill must be written on the same paper as the bill.

(5.) The execution of the bill must be attested by a credible witness, with his address and description.

(b.) Otherwise the bill is void to the extent following, but not further (that is to say):—

(i.) In the case of failure to conform with the Rule respecting an inventory, as far as regards chattels omitted from the inventory; and

(ii.) In any other case wholly.

(c.) The inventory, and any defeasance, condition, or declaration as aforesaid, respectively, is for all purposes deemed part of the bill.

99. A bill of sale conforming, or appearing to conform, with the foregoing Rules may be registered at the Court of the district wherein the chattels are, within the respective time following, and not afterwards (namely):—

(i.) Within fourteen days after its execution, where it is executed in the district wherein the chattels are;

(ii.) Within two months after its execution, where it is executed in Brunei, elsewhere than in that district;

(iii.) Within six months after its execution, where it is executed elsewhere than in Brunei.

100.—(1.) Registration is made as follows: The original and a copy of the bill of sale, and an affidavit verifying the execution, and the time and place of execution, and the attestation thereof, and verifying the copy, are brought into the proper office of the Court; and the copy and affidavit are left there.

(2.) If a bill of sale is not registered at a place and within the time by this Order appointed and allowed for registration thereof, it is, from and after the expiration of that time, void to the extent following, but not further (that is to say):—

(i.) As against trustees or assignees of the estate of the grantor, in or under bankruptcy, liquidation, or assignment for benefit of creditors; and

(ii.) As against all Sheriffs and others seizing chattels under process of any Court, and any person on whose behalf the seizure is made; but only

(iii.) As regards the property in, or right to, the possession of such chattels comprised in the bill as, at or after the filing of the petition for bankruptcy or liquidation, or the execution of the assignment, or the seizure, are in the grantor's possession, or apparent possession.

101. Registered bills of sale affecting the same chattels have as among themselves priority in order of registration.

Chattels comprised in a registered bill of sale are not in the possession, order, or disposition of the grantor within the law of bankruptcy.

102. If in any case there is an unregistered bill of sale, and within or on the expiration of the time by this Order allowed for registration thereof, a subsequent bill of sale is granted affecting the same or some of the same chattels, for the same or part of the same debt, then the subsequent bill is to the extent to which it comprises the same chattels and is for the same debt, absolutely void, unless the Court is satisfied that the subsequent bill is granted in good faith for the purpose of correcting some material error in the prior bill and not for the purpose of unlawfully evading the operation of this Order.

The registration of a bill of sale must be renewed once at least every twelve months.

103. Renewal of registration is made as follows: An affidavit stating the date of and parties to the bill of sale, and the date of the original registration, and of the last renewal, and that the bill is still a subsisting security, is brought into the proper office of the Court of original registration, and is left there.

If the registration of a bill of sale is not so renewed in any period of five years, then on and from the expiration of that period the bill cannot be again registered.

104. A transfer or assignment of a registered bill of sale need not be registered; and renewal of registration is not necessary by reason only of such a transfer or assignment.

105.—(1.) Where the time for registration or renewal of registration of a bill of sale expires on a Sunday, or other day on which the office for registration is closed, the registration or renewal is valid if made on the first subsequent day on which the office is open.

(2.) If in any case the Court is satisfied that failure to register or to renew the registration of a bill of sale in due time, or any omission or misstatement connected with registration or renewal, was accidental or inadvertent, the Court may, if it thinks fit, order the failure, omission, or misstatement to be rectified in such manner and on such terms, if any, respecting security, notice by advertisement, or otherwise, or any other matter, as the Court thinks fit.

(3.) The provisions of this Order do not apply to a bill of sale executed before the commencement of this Order.

106. The power conferred by this Order for framing Rules from time to time is hereby extended to the framing of Rules for prescribing and regulating the making and keeping of indexes, and of a general index, to the registers of bills of sale, and searches in those indexes, and other particulars connected with the making, keeping, and using of those registers and indexes, and for authorising and regulating the removal from the register of any bill of sale, or the registering of any release or satisfaction in respect thereof.

#### PART XVI.—PARTNERS.

107.—(1.) Persons claiming or being liable as partners may sue or be sued in the firm name, if any.

(2.) Where partners sue in the firm name, they must, on demand in writing on behalf of any defendant, forthwith declare the names and addresses of the partners.

(3.) Otherwise, all proceedings in the suit may, on application, be stayed on such terms as the Court thinks fit.

(4.) When the names of the partners are so declared, the suit proceeds in the same manner, and the same consequences in all respects follow as if they had been named as the plaintiffs in the Petition.

(5.) All subsequent proceedings, nevertheless, continue in the firm name.

(6.) Where partners are sued in the firm name, the Petition must be served either on one or more of the partners within the jurisdiction, or at the principal place of the partnership business within the jurisdiction, on some person having then and there control or management of the partnership business.

(7.) Where one person, carrying on business in the name of a firm apparently representing more persons than one, is sued in the firm name, the Petition may be served at the principal place of the business within the jurisdiction on some person having then and there control or management of the business.

(8.) Where partners are sued in the firm name they must appear individually in their own names.

(9.) All subsequent proceedings, nevertheless, continue in the firm name.

(10.) Where a person, carrying on business in the name of a firm apparently representing more persons than one, is sued in the firm name, he must appear in his own name.

(11.) All subsequent proceedings, nevertheless, continue in the firm name.

(12.) In any case not hereinbefore provided for, where persons claiming or being liable as partners sue or are sued in the firm name, any party to the suit may, on application to the Court, obtain a statement of the names of the persons who are partners in the firm, to be furnished and verified on oath or otherwise, as the Court thinks fit.

(13.) Where a Judgment is against partners in the firm name, execution may issue—

(i.) Against any property of the partners as such; and

(ii.) Against any person who has admitted in the suit that he is a partner, or who has been adjudged to be a partner; and

(iii.) Against any person who has been served in the suit as a partner, and has failed to appear.

(14.) If the party who has obtained Judgment claims to be entitled to issue execution against any other person, as being a partner, he may apply to the Court for leave so to do; and the Court, if the liability is not disputed, may give such leave, or if it is disputed may order that the question of the liability be tried and determined as a question in the suit, in such manner as the Court thinks fit.

(15.) The provisions of Part XVI may be from time to time varied by Rules made under this Order.

#### PART XVII.—OFFICIAL.

108. Notwithstanding anything in this Order a District Court shall not exercise any jurisdiction in any proceeding whatsoever over the Consul, or his official or other residences, or his official or other property.

109. Except as in this Order expressly provided nothing in this Order shall preclude any of Her Majesty's Consular officers from performing any act, not of a judicial character, which Her Majesty's Consular officers might by law, or by virtue of usage or sufferance, or otherwise, have performed if this Order had not been made.

110. Whenever an Acting Consular officer has commenced the hearing of any cause or matter, civil or criminal, he may, unless the Consul otherwise directs, continue and complete the hearing and determination thereof, notwithstanding that his authority to act as such Consular officer has otherwise ceased by reason of the expiration of the time for which he was appointed to act, or by reason of the happening of any event by which his authority is determined.

111. Any suit or proceeding shall not be commenced in any Court in Brunei or the Straits Settlements against any person for anything done, or purporting to be done, or anything omitted in pursuance, or execution or intended execution of this Order, or of any Regulation or Rule made under it, unless notice in writing is given by the intended plaintiff or prosecutor to the intended defendant one clear month before the commencement of the suit or proceeding, nor unless it is commenced within three months next after the act or omission complained of, or in case of a continuation of damage within three months next after the doing of such damage has ceased.

The plaintiff in any such suit shall not succeed if tender of sufficient amends is made by the defendant before the commencement thereof; and if no tender is made the defendant may, by leave of the Court, at any time pay into Court such sum of money as he thinks fit, whereupon such proceedings and order shall be had and made in and by the Court as may be had and made on the payment of money into Court in an ordinary suit.

#### PART XVIII.—FEES AND EXPENSES.

112. All fees, fines, forfeitures, confiscations, and pecuniary penalties, and all commissions, levied or received under this Order, shall be accounted for, paid, and applied as the Secretary of State, with the concurrence of the Commissioners of Her Majesty's Treasury, from time to time directs.

113. Subject to the other provisions of this Order, all expenses of removal of prisoners and others, and the expenses of deportation and of the sending of any person to England, or to the Straits Settlements, or India, or British Burmah, including expenses of maintenance, shall be defrayed in such manner as the Secretary of State, with the concurrence of the Commissioners of Her Majesty's Treasury, from time to time directs.

#### PART XIX.—SUPPLEMENTAL.

114. Where by virtue of any Imperial Act or of this Order, or otherwise, any provisions of any Imperial Acts, or of any Law or of any Orders in Council other than this Order are applicable in Brunei, or any Form, Regulation, or Procedure prescribed or established by or under any such Act or Law or Order, are made applicable for any purpose of this Order, such Act, Law, Order, Form, Regulation, or Procedure shall be deemed applicable, so far only as the constitution and jurisdiction of the Courts and the local circumstances permit; and for the purpose of facilitating application, may be construed or used with such alterations and adaptations as may be necessary, and anything required to be done by or to any Court, Judge, officer, or authority may be done by or to a Court, Judge, officer, or authority having the like or analogous functions, or by any officer designated by the Secretary of State or by the Court (as the case may require) for that purpose; and the seal of the Court may be substituted for any other seal; and in case any difficulty occurs in the application, it shall be lawful for the Secretary of State to direct by and to whom and in what manner anything is to be done, and such Act, Law, Order, Form, Regulation, or Procedure shall be construed accordingly.

115. Sums of money, fines, forfeitures, penalties, or fees payable under this Order, shall be calculated and paid in English money, or, with the consent of the Court, in its equivalent in local currency or produce, or bills of exchange approved by the Court.

#### PART XX.—TEMPORARY PROVISIONS.

116. This Order shall commence and have effect as follows:—

(1.) As to the making of any warrant or appointment under this Order immediately from and after the date of this Order.

(2.) As to the framing of Rules of Procedure or Regulations, and the approval thereof by the Secretary of State, immediately from and after the date of this Order.

(3.) As to all other matters and provisions comprised and contained in this Order, immediately from and after the expiration of one month after this Order is first exhibited in the public office of the Consul; for which purpose he is hereby required forthwith, on receipt by him of a copy of this Order, to affix and exhibit the same conspicuously in his public office, and he is also hereby required to keep the same so affixed and exhibited during one month from the first exhibition thereof; and notice of the time of such first exhibition shall, as soon thereafter as practicable, be published in every Consular district in Brunei, in such manner as the Consul directs; and, notwithstanding anything in this Order, the time of the expiration of the said month shall be deemed to be the time of the commencement of this Order.

(4.) Proof shall not in any proceeding or matter be required that the provisions of this Article have been complied with, nor shall any act or proceeding be invalidated by any failure to comply with any of such provisions.

117. A copy of this Order shall be kept exhibited conspicuously in each Court and Consulate in Brunei.

Printed copies shall be provided and sold at such reasonable price as the Consul directs.

And the Most Honourable the Marquess of Salisbury, the Right Honourable Lord Knutsford, and the Right Honourable Viscount Cross, three of Her Majesty's Principal Secretaries of State, and the Lords Commissioners of the Admiralty, are to give the necessary directions herein as to them may respectively appertain,

C. L. PEEL.

**RULES OF THE SUPREME COURT.**

(IN DIVORCE AND MATRIMONIAL CAUSES JURISDICTION.)

---

 Presented to Parliament, pursuant to Act 36 Vic. No. 9, sec. 48.
 

---

In the Supreme Court of New South Wales.

DIVORCE AND MATRIMONIAL CAUSES JURISDICTION.

*Tuesday, the thirty-first day of March, A.D. 1891.*

1. I, WILLIAM CHARLES WINDEYER, being the Judge duly appointed under the Divorce and Matrimonial Causes Act of 1873, do hereby, in pursuance of the several powers vested in me by the said Act, order and direct that in all cases of appeal to the Full Court for a new trial under the provisions of the above-mentioned Act, the moving party, unless the Judge appointed under the said Act otherwise order or allow further time, shall, within fourteen days after the filing of the notice of appeal, file with the Registrar in Divorce four printed copies of the issues and evidence other than the exhibits, and shall within the like time also serve a like number of such printed copies on each opposing party or upon each solicitor on the record.

2. All documents of which printed copies are, by the preceding rule ordered to be printed, shall be printed upon cream-wove white foolscap folio paper in pica type, leaded, with an inner margin an inch wide, and an outer margin two inches and a half wide.

W. C. WINDEYER, J.

In the Supreme Court of New South Wales.

DIVORCE AND MATRIMONIAL CAUSES JURISDICTION.

*The twenty-sixth day of March, in the year of our Lord one thousand eight hundred and ninety-one.*

I, WILLIAM CHARLES WINDEYER, being the Judge duly appointed under the Divorce and Matrimonial Causes Act of 1873, do hereby, in pursuance of the several powers vested in me by the said Act, order that from and after the date hereof all decrees absolute be engrossed on parchment in duplicate, and that one of such decrees be filed in the Registrar's Office as of record.

WILLIAM C. WINDEYER, J.

NEW SOUTH WALES.

# RULES OF THE SUPREME COURT.

(IN BANKRUPTCY.)

Presented to Parliament, pursuant to Act 51 Vic. No. 19, sec. 119.

In the Supreme Court of New South Wales.

IN BANKRUPTCY.

GENERAL RULES MADE PURSUANT TO SECTION 119 OF THE "BANKRUPTCY ACT."

Wednesday, the 25th day of March, 1891.

It is ordered that these Rules come into force on the 1st day of April, 1891.

*Proof of Debt.*

1. The Registrar may refer any proof of debt to the Official Assignee, who shall inquire into the matter and state in writing either that he has no objections to the proof, or, if he has objections, his objections specifically. He shall also state what vouchers, if any, should in his opinion be produced. The Official Assignee shall cause a copy of his objections to be served on the alleged creditor, and the Registrar may then appoint a time for the hearing of the proof before him when the Official Assignee and any proved creditor shall have audience. At the hearing the Registrar may examine such persons and receive such evidence as he may think fit.

*Appeal from the Registrar.*

2. Whenever any person affected by any order or decision of the Registrar desires to appeal therefrom, he shall within fourteen days after the making or pronouncing thereof file in the office a notice of such appeal, signed by the party appealing or his solicitor; which notice, after specifying the order or decision in substance, shall state shortly the particular matter complained of therein, and the grounds of such complaint. No evidence shall be used on the hearing of an appeal other than such as was used before the Registrar, except with the special leave of the Judge. Whenever any question shall arise as to what evidence was used before the Registrar it shall be determined exclusively by his certificate.

*Rehearing.*

3. If it shall appear to the Judge that any material evidence can be offered by the person appealing, which could not have been tendered on the original hearing, then the Judge may on such terms as he may deem reasonable, direct a rehearing before the Registrar.

*Time for filing Affidavits.*

4. All affidavits to be used on the hearing of any application in which the time for filing affidavits is not already fixed by rule of Court shall be filed on or before the day previous to such hearing.

*Certificate of discharge—Notice of Opposition.*

5. Any creditor intending to oppose the granting of a bankrupt's certificate of discharge shall file in the office a notice in writing of his intention to do so two days before the hearing of the bankrupt's application, which notice shall state specifically the grounds of the intended opposition with reasonable certainty as to the particular transaction or matter referred to: Provided any such specification may be amended at any time by leave of the Judge or Registrar on such terms as he shall think fit.

*Report of Official Assignee.*

6. The Official Assignee in every report on a certificate application shall state either that the bankrupt did keep proper books in the business or occupation carried on by him and the name and character of such books, or if he did not keep proper books shall specify the books which in his opinion should have been kept by the bankrupt, and shall state clearly the names and character of those which the bankrupt has omitted to keep.

*Supplementary statement of Bankrupts affairs.*

7. The bankrupt shall if required by the Official Assignee within ten days after being so required by (or within such extended time as the Judge or Registrar may allow) make out and file in the office a verified statement containing the following particulars for the period of six months preceding the sequestration (or if the Judge or Registrar shall so order for any longer period), that is to say: First, an account of all sums received by the bankrupt or any one for his use, and when in particular and from whom and for what purpose and consideration; and an account of all sums paid by him or by his order, and when in particular and to whom and for what purpose and consideration. Secondly, an account of all property of any kind parted with by the bankrupt, and when in particular, and how and to whom and for what consideration.

8. The Official Assignee shall give a receipt for all books lodged with him by the bankrupt specifying the same; such receipt shall be in duplicate, and such duplicate shall be signed by the bankrupt as correct and then lodged in the office by the Official Assignee.

9. The accounts required by rule 136 shall be filed by the bankrupt in the Bankruptcy Office.

## NEW SOUTH WALES.

# RULES OF THE SUPREME COURT.

(IN EQUITY.)

Presented to Parliament, pursuant to Act 44 Vic. No. 18, sec. 81.

In the Supreme Court of  
New South Wales. }  
In Equity.

## REGULÆ GENERALES.

THURSDAY, THE 7TH MAY, 1891.

In pursuance of the several powers vested in us in that behalf, We do order and direct in manner following:—

### PRELIMINARY.

I. From and after the 25th day of May, 1891, all the Rules and Orders which have been heretofore made and established in the Equity jurisdiction of this Court shall be rescinded; and in lieu thereof the following shall constitute the Standing Rules of the Court in its Equitable jurisdiction, except that this rescinding shall not extend to or affect any General Rules and Orders now in force, where embodied in General Rules and Orders distributively or collectively applicable to the general administration and business of the several jurisdictions of the Supreme Court, nor any of the following Rules and Orders:—

The General Rules of Court of 1st March, 1856, as to the officers and offices of the Court, or any General Rules as to proceedings in vacation.

II. Notwithstanding anything herein expressed, the rescinding hereinbefore made shall not affect any practice of the Court in its Equitable jurisdiction, or any practice or usage of, in, or connected with, the offices of the said Court, or the officers thereof, which originated in or was sanctioned by any of the Rules and Orders hereby rescinded, or by prior usage of the Court, except so far as the same may be inconsistent with anything hereinafter contained.

III. Where any of the Rules and Orders hereby rescinded were intended to abolish any writ, practice, matter, or thing, such rescinding shall not have the effect of reviving the same.

IV. Every Rule or part of a Rule herein contained, which is a repetition, without variation, of a Rule or Order, or part of a Rule or Order, hereby rescinded, shall have the same construction as was put on such rescinded Rule or Order, or part of a Rule or Order, and shall operate not as a new Rule, but in the same manner as such rescinded Rule or Order, or part of a Rule or Order, would have operated if these Rules had not been made.

V. Every Rule or part of a Rule herein contained, which is a repetition, with variation, of a Rule or Order or part of a Rule or Order hereby rescinded, shall receive the same construction as was put on such rescinded Rule or Order, or part of a Rule or Order, and shall operate, not as a new Rule, but in the same manner as such rescinded Rule or Order, or part of a Rule or Order, would have operated if these Rules had not been made, except so far as such variation indicates a contrary intention.

VI. Where there is no established practice or usage of the Court, as hereinbefore mentioned, and where none of the Rules now made shall be applicable, then the practice of the Supreme Court of Judicature in England, exercising its equity jurisdiction, shall be followed so far as applicable.

VII. In these Rules the following words have the several meanings hereby assigned to them, unless there be something in the subject or context repugnant to such construction, viz.:—

- (1.) Words importing the singular number include the plural number, and words importing the plural include the singular number.
- (2.) Words importing the masculine gender include females.
- (3.) The word "person" or "party" includes a body politic or corporate.
- (4.) The word "statement of claim" include information.
- (5.) The word "plaintiff" includes informant.
- (6.) The word "affidavit" or "oath" includes affirmation, statutory declaration, and the promise in lieu of oath under the Act 40 Vic., No. 8; and the word "sworn" includes affirmed, declared, and promised.

(7.)

- (7.) The word "receiver" includes consignee and manager.
- (8.) The words "the Court" mean the Primary Judge in Equity, or any Judge sitting in Equity, in Court, or in chambers, unless the subject be a matter before the Court of Appeal.
- (9.) The words "the present practice of the Court" mean the practice of this Court at the time of the coming into force of these Rules.
- (10.) The title "Deputy Registrar" includes that of "Assistant Taxing Officer."
- (11.) The word "Master" means the "Master in Equity."

#### PROCEEDINGS GENERALLY.

1. All proceedings shall be commenced and continued in the Equity Office, and each suit or matter shall be there kept in a distinct and separate form, entitled  
 "In the Supreme Court  
 of New South Wales.  
 In Equity."

2. A book shall be kept in the Equity Office, to be called the Suit Book, which shall contain a chronological entry of every proceeding in every suit or matter.

3. All pleadings and proceedings shall be written in a clear legible hand, or in type, and the same shall not be received unless so written.

4. All statements of claim, statements of defence, and subsequent pleadings, interrogatories, answers, and exceptions, and copies thereof respectively, and all petitions, reports, decrees, and decretal and other orders, shall be on foolscap paper, written briefwise, on one side only, with a quarter margin, and having not less than five folios nor more than seven folios of seventy-two words on each page, and divided into convenient paragraphs, with the numbers of the paragraphs severally written on the inner edge of the margin.

5. All affidavits and all examinations, cross-examinations, and re-examinations on references shall be on foolscap paper, in the form now ordinarily used, divided into convenient paragraphs, with a quarter margin, but written on one side only of the paper, and folded lengthwise, with the name of each deponent or examinant indorsed thereon. And there shall not be less than three folios nor more than four folios of seventy-two words on each page.

6. All orders, except Chamber Orders, and all decrees shall be signed and passed by the Master, and then sealed with the seal of the Court and entered in the entry-book.

7. All Chamber Orders shall be entered in the same manner and in the same office as orders made in open Court are entered. Save as aforesaid, the practice as to orders made in Chambers shall be the same as at Common Law.

8. All writs shall be sealed with the office seal of the Court or Master, and tested in the name of the Primary Judge in Equity.

9. Every summons, writ, and ordinary certificate shall be signed by the Master, Deputy Registrar, or the Chief Clerk.

10. Certificates by the Master, Deputy Registrar, or Chief Clerk of the filing of any pleading or documents shall not be required when such pleading or document is produced in Court.

11. All statements of defence, sworn pleas, and answers to interrogatories shall be taken before the Master, Deputy Registrar, or Chief Clerk and filed forthwith: Provided that statements of defence, sworn pleas, and answers of any party residing more than five miles from the Equity Office may be taken before a Commissioner of Affidavits or a Justice of the Peace, and the same shall be immediately sealed up and endorsed by such Commissioner or Justice of the Peace as aforesaid, as the case may be, with his signature, and transmitted to the Equity Office with the least possible delay, and filed on receipt thereof; and the signature of the party swearing the same shall be affixed or acknowledged by such party in the presence of the person before whom the same are sworn.

12. The practice respecting erasures or interlineations in affidavits shall extend and apply to statements of defence, answers, and pleas.

13. On the filing of any statement of defence, or any subsequent pleading, plea, demurrer, interrogatory, or answer, an attested copy thereof shall be forthwith served on the opposite party.

#### ABATEMENT AND COMPROMISE.

14. Where any suit becomes abated, or is compromised after the same is set down to be heard, the solicitor for either party shall certify the fact to the Master, and thereupon an entry thereof shall be made in the Suit Book opposite to the title of such suit.

15. Where any suit shall have been standing for one year in the Suit Book marked as "abated," or "compromised," or shall have been standing over generally, such suit shall at the expiration of the year be struck out of the Suit Book.

#### AFFIDAVITS.

16. Any solicitor or person filing an affidavit not in accordance with the form prescribed in the General Rules of the Supreme Court applicable to affidavits, shall not be allowed the costs of preparing or filing such affidavit in any taxation of costs.

17. All affidavits shall state distinctly what facts or circumstances deposed to are within the deponent's own knowledge; and, where any fact or circumstance is stated upon information derived from other sources than his own knowledge, he shall distinctly state what such sources are.

18. The costs of affidavits not in conformity with the preceding Rule shall be disallowed on taxation, unless the Court shall otherwise direct.

19. Before any affidavit is used in Court or before the Master, such affidavit shall be first filed in the Equity Office; and no order grounded upon an affidavit shall be drawn up, unless such affidavit be first so filed: Provided that no copy need hereafter be served for the purpose of any motion or petition, or of any proceeding in the Equity Office, and that every affidavit so filed may be read without any office copy having been taken.

#### ATTACHMENT.

## ATTACHMENT.

20. The Sheriff shall bring to the bar of the Court every person arrested upon any writ of attachment on the first day on which the Court shall sit in Equity next after such arrest, or as soon afterwards as practicable: Provided that the Sheriff may take bail for the appearance of the person arrested

21. If the person arrested be not so brought before the Court, or if, being so brought, no motion be made for his committal, he shall be discharged out of custody by the Sheriff, without payment by him of the costs of his contempt, which in such case shall be paid by the party obtaining the attachment. But, in case of continued disobedience of the rule, decree, or order of the Court for a period of eight days after such discharge, the Court may order a fresh attachment to issue.

22. Where a party is in prison under an attachment, or being already in prison is detained under an attachment, and is not brought to the bar of the Court within thirty days from the time of his being actually in custody or detained under such attachment, he shall be discharged in respect of such attachment by the Sheriff, or keeper of the gaol in whose custody he is, without payment of the costs of his contempt, which in such case shall be paid by the party obtaining the attachment. But, in case of continued disobedience of the rule, decree, or order of the Court for a period of eight days after such discharge, the Court may order a fresh attachment to issue.

## DEPUTY REGISTRAR AND CHIEF CLERK.

23. The Deputy Registrar or Chief Clerk may sign for the Master any process issuing out of this Court which now requires the signature of the Master.

24. The Deputy Registrar, when directed by the Court or Master, may discharge the duties of Registrar and the duties of Taxing Officer, and he may take accounts and prosecute inquiries as directed by the Court or Master, and for the purposes aforesaid shall have all the powers hereby given to the Master.

25. Certificates of taxation and of funds in Court may, in the absence of the Master, be signed by the Deputy Registrar.

## ELECTION OF JURISDICTION.

26. In all cases in which it is alleged that the plaintiff is prosecuting the defendant in this Court and also at Law for the same matter, the defendant may at any time after appearance, or in case the plaintiff shall have filed interrogatories seven days after filing a sufficient answer thereto, apply to the Court as of course in chambers, for an order that the plaintiff make his election in which Court he will proceed, with the usual directions in that behalf.

## INTERLOCUTORY APPLICATIONS.

27. Interlocutory applications in a suit may be made by motion or petition and supported by affidavit or otherwise, according to the present practice of the Court, save only that applications for orders of course may be by summons in Chambers, and that a petition shall be used in applications for special orders where so provided by Act of Parliament, or where, from the circumstances of the case or the position of the parties sought to be affected by the order applied for, the notice of motion would not sufficiently convey information of the facts and circumstances upon which the application is based.

28. Any party to a suit may at any stage thereof apply by motion on notice to the Court for such order as he may, upon any admission of fact in the pleading, or under the 108th of these Rules, be entitled to, without waiting for the determination of any other question between the parties (provided that where the execution of a document is admitted, such document may be put in evidence), and the Court may, on such application, give such relief, subject to such terms, if any, as the Court may think fit.

29. Every petition shall, upon being presented and before any copy thereof is served upon any person intended to be served therewith, be filed in the Equity Office, and every person intended to be served with a copy of such petition shall be served with a written copy thereof according to the practice in reference to the service of statements of claim, together with an indorsement thereon, in the form or to the effect set out in Schedule J to these Rules, with such variations as circumstances may require, stamped with the proper stamp by one of the clerks of the Equity Office.

## MOTIONS AND PETITIONS.

30. Every notice of motion shall express the day on which it is intended to be made.

31. All petitions shall be addressed to the Primary Judge in Equity; and the Master, Deputy Registrar, or Chief Clerk shall endorse thereon the usual directions.

32. At the foot of every petition preferred to the Court, and of every copy thereof, a statement shall be made of the persons (if any) intended to be served therewith; and, if no person is intended to be served with such petition, a statement to that effect shall be made at the foot of the petition, and of every copy thereof.

33. Unless the Court gives special leave to the contrary, there must be at least two clear days between the service of a notice of motion or petition and the day appointed for hearing the notice of motion or petition; and in the computation of such two clear days Sundays and Holidays shall not be reckoned.

## NE EXECAT.

34. In all cases where the Supreme Court of Judicature in England would grant or direct a writ of *Ne execat Regno* to issue, a writ of *Ne execat Colonia* may be directed to issue under the seal of this Court, and tested in the name of the Primary Judge in Equity, and signed by the Master, Deputy Registrar, or Chief Clerk; and such writ shall have the same effect in this Colony, and shall be applied for and served in the like manner, and under the same circumstances, and subject to the same rules of practice, as the writ of *Ne execat Regno* in England.

## NOTICE TO ADMIT.

35. Notice to admit documents under section 43 of the "Equity Act of 1880" may be in the form set forth in Schedule C to these Rules.

SHERIFF.

## SHERIFF.

36. All duties formerly discharged in the High Court of Chancery in England in respect of process issued out of that Court or otherwise by a Sergeant-at-Arms shall be discharged in respect of process issued out of this Court by the Sheriff; and all such process shall be directed to the Sheriff.

## SERVICE.

37. In every case where a party shall institute or defend any suit or proceeding, or appear in any matter, by a solicitor, service by or upon such solicitor shall (except for the purpose of bringing the party into contempt) be equivalent to service by or upon the party himself.

38. Where any party shall proceed or appear in person, he shall, except in the case of statements of claim and appearance thereto, hereinafter provided for, leave a memorandum in writing in the Equity Office, at the time of his taking the first step in the matter, setting forth his full name and address; and also if his address shall be at some place more than one mile from the Equity Office another proper place to be called his address for service which shall not be more than one mile from the said Equity Office; and service at the address for service set forth in the said memorandum shall be good service on him.

## SOLICITOR.

39. A solicitor shall not (except by leave of the Court) act in any suit or matter for more than one party, unless the parties represented by him are in the same interest; and all the members of a firm may, for the purposes of this rule, be deemed one person.

40. Where upon the hearing of any suit or matter it appears that the same cannot conveniently proceed by reason of the solicitor for any party having neglected to attend personally or by some proper person on his behalf, or having omitted to procure the production of or to deliver any necessary document or paper which ought to have been produced or delivered, such solicitor shall personally pay to all or any of the parties such costs (if any) as the Court shall think fit to award.

## SUBPÆNAS.

41. Where it is intended to sue out a *subpœna*, a *præcipe* for that purpose in the usual form, and containing the name or firm and the place of business or residence of the solicitor intending to sue out the same, and, where such solicitor is an agent only, then also the name or firm and place of business or residence of the principal shall in all cases be filed in the Equity Office.

42. Writs of *subpœna* shall be in the forms used at Common Law, with such alterations and variations as circumstances may require.

43. No more than four persons shall be included in one *subpœna*: Provided that the party suing out the same shall be at liberty to sue out a *subpœna* for each person, if it shall be requisite.

44. In the interval between suing out and service of any *subpœna*, the party suing out the same may correct any error in the names of parties or witnesses, and may have the writ resealed upon leaving a corrected *præcipe* of such *subpœna* marked with the words "altered and resealed," and signed with the name and address of the solicitor suing out the same.

45. The service of *subpœnas* shall be effected by delivering a copy of the writ, and at the same time producing the original writ.

46. Affidavits filed for the purpose of proving the service of a *subpœna* must state where, when, and how such *subpœna* was served, and by whom such service was effected.

47. The service of any *subpœna* shall be of no validity if not made within twelve weeks after the teste of the writ.

## PARTIES.

## I.—PERSONS UNDER DISABILITY. II.—PAUPERS.

## I.—PERSONS UNDER DISABILITY.

48. Married women and infants may respectively sue as plaintiffs by their next friends, according to the present practice of this Court, and infants may, in like manner, defend any suit by their guardians appointed for that purpose. Married women may also, by the leave of the Court, sue or defend without their husbands and without a next friend, on giving such security (if any) for costs as the Court may require.

49. Any person who shall for the time being be of unsound mind, and whether or not so found by inquisition or declared under the Lunacy Act of 1878, may sue as plaintiff in any suit by his committee or guardian, if any such shall have been appointed, or if not, by his next friend; and may, in like manner, defend any suit by his committee or guardian appointed under the said Act, or by his guardian *ad litem*.

50. Where any person required to be served with notice of a decree or order pursuant to the 6th Rule of sec. 7 of the Equity Act of 1880 is an infant or a person of unsound mind not so found by inquisition or declared under the Lunacy Act of 1878, the notice shall be served upon such person or persons and in such manner as the Court or Master may direct.

51. Guardians *ad litem* appointed for infants, or for persons of unsound mind not so found by inquisition or declared under the Lunacy Act of 1878, who shall be served with notice of any decree or order, shall be appointed in like manner as guardians *ad litem* to defend are appointed in suits.

52. At any time during the proceedings in any suit or matter, the Court may require a guardian *ad litem* to be appointed for any infant, or person of unsound mind not so found by inquisition or declared under the Lunacy Act of 1878, who has been served with notice of such decree or order, or who shall be required to be served with notice in any suit or matter; and the Master shall have like power under references to him.

## II.—PAUPERS.

53. Any person may be admitted to prosecute or defend a suit *in forma pauperis* according to the present practice of the Court, provided that he obtain a certificate of counsel to the effect that the case is proper for relief in this Court.

54. After a person has been admitted to sue or defend *in forma pauperis*, no fee, profit, or reward shall be taken of him by any counsel or solicitor for the despatch of his business during the time it shall depend in Court and he shall continue a pauper; nor shall any agreement be made for any recompense or reward afterwards; and any person offending herein shall be deemed guilty of a contempt of Court; and the pauper who shall give any such fee or reward, or make any such agreement, shall be thenceforth dispaupered.

55. The counsel or solicitor assigned by the Court to assist a pauper may not refuse to do so, unless such counsel or solicitor satisfy the Court with some good reason for his unwillingness to be so assigned or to continue to act under the assignment.

56. No process of contempt shall be issued at the instance of a pauper until signed by his solicitor in the suit; and no notice of motion served or petition presented on behalf of a pauper (except for the discharge of his solicitor) shall be of any effect, nor shall any person served with such notice or petition be bound to appear thereon, unless such notice or petition be signed by the solicitor of the pauper; and such solicitor shall take care that no such process be taken out, and that no such notice or petition be served, needlessly or for vexation, but upon just and good grounds.

#### PLEADINGS GENERALLY.

57. Statements of claim, statements of defence, and all subsequent pleadings, demurrers, and pleas shall, except by leave of the Court, be signed by counsel.

58. All pleadings in a suit shall be as brief as the nature of the case will admit, and shall not contain any scandalous or irrelevant matter. Deeds, writings, or records shall not be unnecessarily set out *verbatim*, but only so much of them or the substance and effect thereof as may be pertinent; and in adjusting the costs of the suit the Court or Master may inquire, at the instance of any party thereto, into any unnecessary prolixity, and may order the costs thereby occasioned to be borne by the party chargeable with the same.

59. No pleading shall be of record or be used in Court until the same has been filed in the Equity Office.

#### PROCEEDINGS IN SUIT BEFORE DEFENCE.

I.—STATEMENTS OF CLAIM. II.—INDORSEMENT ON STATEMENT OF CLAIM. III.—SERVICE OF STATEMENT OF CLAIM. IV.—APPEARANCE. V.—DEFENDANTS SUBMITTING OR ADMITTING. VI.—NOTICE OF PROCEEDINGS, WHEN UNNECESSARY. VII.—DEFAULT OF APPEARANCE. VIII.—SECURITY FOR COSTS.

##### I.—STATEMENTS OF CLAIM.

60. Statements of claim shall be in the form set out in Schedule A to these Rules, with such variations as the nature and circumstances of each case may require.

61. Any person or persons trading under the name of a firm may be sued in the name of a firm, and any party to a suit may in such case apply by summons to the Court for a statement of the person or persons who are trading under the name of such firm, to be furnished in such manner and verified on oath or otherwise as the Court may direct.

##### II.—INDORSEMENT ON STATEMENT OF CLAIM.

62. The indorsement on a statement of claim shall be varied from the form set out in the Schedule of the Equity Act of 1880, and shall be as follows—

VICTORIA R.

To the within-named defendant A.B. [*or where there is more than one defendant, defendants A.B. and C.D.*] greeting: We command you [*and every of you where there is more than one defendant*] that within \_\_\_\_\_ days after the service hereof on you, exclusive of the day of such service, you cause an appearance to be entered for you in the Equity Office of our Supreme Court to the within statement of claim. And that you do, at the same time of entering your appearance, file in the Equity Office a memorandum stating in effect that you dispute or admit in whole or in part the plaintiff's claim, or submit to such decree or order as the Court may think fit to make, or disclaim all right, title, or interest in the subject matter of the within statement of claim. And if you admit the plaintiff's claim, you may, on the Tuesday following the eighth day after such appearance, or so soon after as you can be heard, attend either personally or by counsel or solicitor before the Judge sitting in Chambers at Chancery-square, in the City of Sydney, at ten of the clock in the forenoon, and submit to such decree as is within prayed or shall be just.

Witness the Honourable A.B., the Primary Judge in Equity, at Sydney, the \_\_\_\_\_ day of \_\_\_\_\_, in the year of our Lord one thousand eight hundred and ninety-\_\_\_\_\_, and in the \_\_\_\_\_ year of our reign.

NOTE.—Appearances are to be entered in the Equity Office of the Supreme Court, at Chancery-square aforesaid, and if you neglect to enter your appearance, or to file a memorandum as above mentioned, or personally, or by counsel or solicitor to attend at the place and time above mentioned, you will be subject to such order as the Court may think fit to make in your absence.

63. The solicitor of a plaintiff suing by a solicitor shall indorse upon every statement of claim the address of the plaintiff, and also his own name or firm and place of business, and also, if his place of business shall be more than one mile from the Equity Office, another proper place to be called his address for service, which shall not be more than one mile from the Equity Office, where writs, notices, petitions, orders, summonses, warrants, and other documents, proceedings, and written communications may be left for him. And when any such solicitor is only agent of another solicitor, he shall add to his own name or firm and place of business, the name or firm and place of business of the principal solicitor.

64. A plaintiff suing in person shall indorse upon every statement of claim, his place of residence and occupation, and also, if his place of business shall be more than one mile from the Equity Office, another proper place to be called his address for service, which shall not be more than one mile from the Equity Office, where writs, notices, petitions, orders, summons, warrants, and other documents, proceedings, and written communications may be left for him.

III.

## III.—SERVICE OF STATEMENT OF CLAIM.

65. Service of a statement of claim shall be effected by serving a copy personally, or by leaving the same with a servant of the defendant, or some member of his family, at his dwelling-house or usual or last known place of abode. But such service shall not be required when the defendant by his solicitor agrees to accept service: And if it be made to appear to the Court that from the defendant being absent from the Colony, or from any other cause, the plaintiff is unable to effect prompt service as hereinbefore directed, the Court may make such order for substituted or other service, or for the substitution of notice for service, as may be just.

## IV.—APPEARANCE.

66. When a defendant within the jurisdiction of the Court is duly served with a statement of claim, he shall, if he reside within 100 miles from Sydney, appear thereto within eight days; and, if he reside above 100 miles and less than 200 miles, within twelve days; and, if he reside above 200 miles, within sixteen days, after service.

## V.—DEFENDANTS SUBMITTING OR ADMITTING.

67. When a defendant enters his appearance he shall file a memorandum to the effect either that he disputes or admits the plaintiff's claim, or some part thereof, specifying what part, or that he desires to submit to such decree or order as the Court may think fit to make, or that he disclaims all right, title, or interest in the subject matter of the statement of claim.

68. The solicitor of a defendant appearing by a solicitor shall state in such memorandum his place of business, and a place to be called his address for service, which shall not be more than one mile from the Equity Office.

69. A defendant appearing in person shall state in such memorandum his address, and a place to be called his address for service, which shall not be more than one mile from the Equity Office.

70. If the memorandum does not contain such address, it shall not be received; and if any such address shall be illusory or fictitious, the appearance may be set aside by the Court, on the application of the plaintiff.

## VI.—NOTICE OF PROCEEDINGS—WHEN UNNECESSARY.

71. When a defendant, being one of a number of defendants, some of whom dispute that the plaintiff is entitled to the relief prayed by the statement of claim, shall enter his appearance and shall file a memorandum to the effect either that he admits that the plaintiff is entitled to the relief prayed, or that he desires to submit to such decree or order as the Court may think fit to make, or that he disclaims all right, title, and interest in the subject matter of the statement of claim, it shall not be necessary that such defendant be served with notice of any proceedings in the suit, except of or until the hearing of the suit or of any application for the dismissal of such suit.

## VII.—DEFAULT OF APPEARANCE.

72. Where any defendant, not being an infant or person of weak or unsound mind, unable of himself to defend the suit, is duly served with the statement of claim, and does not enter an appearance thereto within the time limited by the indorsement, the plaintiff may, after seven days from the time so limited for appearing thereto, apply to the Court on affidavit of service of the claim for a decree or order against such defendant in his absence, and thereupon the Court may, if satisfied of the due service of the claim, make such decree or order, or give such directions as to the taking of evidence and otherwise, for the further prosecution of the suit, as may seem just.

73. A defendant, notwithstanding his default of appearance, may at any time apply to the Court for leave to appear and defend upon such terms as to costs and otherwise as the Court may direct.

74. Where, upon default made by defendant in not appearing to a statement of claim, it appears to the Court that such defendant is an infant, or a person of unsound mind not so found by inquisition or declared under the Lunacy Act of 1878, so that he is unable of himself to defend the suit, the Court may, upon the application of the plaintiff, order that one of the solicitors of the Court be assigned guardian of such defendant, by whom he may appear to and defend the suit: But no such order shall be made unless it appear to the Court, on the hearing of such application, that a copy of the statement of claim was duly served; and that notice of such application was, after the expiration of the time allowed for appearing to the statement of claim, and at least six clear days before the day in such notice named for hearing the application, served upon, or left at the dwelling-house of, the person with whom, or under whose care, such defendant was at the time of serving such copy of the statement of claim; and also, in the case of such defendant being an infant, not residing with or under the care of his father or guardian, served upon or left at the dwelling-house of the father or guardian of such infant, unless the Court, at the time of hearing such application, shall dispense with such last-mentioned service.

## VIII.—SECURITY FOR COSTS.

75. If it appears upon the statement of claim or otherwise, at any time during the prosecution of the suit, that the sole plaintiff, if only one, is, or if more than one, all the plaintiffs are, residing out of the jurisdiction of the Court, the defendant shall be entitled as of course to an order for the plaintiff or plaintiffs to give security to the Master for costs. And the Court may order such security, if it shall think fit, in respect of any one or more of several plaintiffs who shall be out of the jurisdiction; and no further proceedings shall be taken in the suit except by leave of the Court until after such security shall have been given.

76. Security for costs may be given by bond to the Master according to the custom of the Court in the penalty of £100: Provided that the Court may, if it shall think fit, direct a greater or less amount of security to be given; and that in any case the amount of security may be paid into Court in place of giving a bond.

77. The day on which an order that a plaintiff do give security for costs is served, and the time thenceforward until and including the day on which such security is given, shall not be reckoned in the computation of time allowed to a defendant to plead, file his statement of defence, or demur, or otherwise make his defence to the suit.

## DEFENCES—INTERROGATORIES, &amp;c.

I.—DEMURRER. II.—PLEA. III.—STATEMENT OF DEFENCE. IV.—REPLY AND SUBSEQUENT PLEADINGS. V.—ADMISSIONS. VI.—INTERROGATORIES. VII.—EXCEPTIONS. VIII.—CONSEQUENCES OF DEFAULT.

## I.—DEMURRER.

78. No demurrer shall be filed without a memorandum at the foot, stating shortly in substance the ground or grounds thereof, or the point or points intended to be relied on; of which memorandum a copy shall be served, as part of such demurrer.

79. A defendant, demurring alone, may file a demurrer to a statement of claim within eight days after his appearance thereto, but not afterwards. And either party may set down the demurrer for argument immediately.

80. Where a demurrer is overruled, the defendant shall pay to the plaintiff the taxed costs occasioned thereby, unless the Court shall otherwise direct.

81. Where a demurrer to the whole or part of a statement of claim is allowed upon argument, the plaintiff, unless the Court shall otherwise direct, shall pay to the demurring party the costs of the demurrer, and, where the demurrer is to the whole statement of claim, the costs of the suit also.

82. Where a demurrer to the whole or part of a statement of claim is not set down for argument within twelve days after the filing thereof, and the plaintiff does not within such twelve days serve an order for leave to amend the statement of claim, the demurrer shall be held sufficient to the same extent and for the same purposes, and the plaintiff shall pay to the demurring party the same costs, as in the case of a demurrer to the whole or part of a statement of claim allowed upon argument.

83. Where any grounds of demurrer are urged in arguing a demurrer beyond the grounds therein expressed, and the grounds which are so expressed are disallowed, the defendant shall pay the same costs as if the demurrer were overruled, although on the grounds so newly urged the demurrer may be allowed, unless the Court shall otherwise direct.

84. Any party may demur to any pleading of the opposite party, or to any part of a pleading setting up a distinct cause of action, ground of defence, set-off, counter claim, reply, or as the case may be, on the ground that the facts alleged therein do not show any cause of action, or ground of defence to a claim or any part thereof, or set-off, or counter claim, or reply, or, as the case may be, to which effect can be given by the Court, as against the party demurring.

85. A demurrer shall state specifically whether it is to the whole or to a part, and if so, to what part of the pleading of the opposite party. It shall state some ground in law for the demurrer, but the party demurring shall not, on the argument of the demurrer, be limited to the ground so stated.

86. A defendant desiring to demur to part of a statement of claim, and to put in a defence to the other part, shall combine such demurrer and defence in one pleading. And so, in every case where a party entitled to put in a further pleading desires to demur to part of the last pleading of the opposite party, he shall combine such demurrer and other pleading.

87. If the party demurring desires to be at liberty to plead as well as demur to the matter demurred to, he may, before demurring, apply to the Court for an order giving him leave to do so; and the Court, if satisfied that there is reasonable ground for the demurrer, may make an order accordingly, or may reserve leave for him to plead after the demurrer is overruled, or may make such other order and upon such terms as may be just.

88. While a demurrer to the whole or any part of a pleading is pending, such pleading shall not be amended, unless by order of the Court; and no such order shall be made except on payment of the costs of the demurrer.

89. When a demurrer is overruled, the Court may make such order, and upon such terms as to the Court shall seem right, for allowing the demurring party to raise by pleading any case he may be desirous to set up in opposition to the matter demurred to.

## II.—PLEA.

90. A defendant may file a plea to a statement of claim within fourteen days after his appearance thereto, but not afterwards except by leave of the Court. And either party may set down the plea for argument immediately.

91. A plea may be put in without oath, where the matter of plea appears upon record, but, where the matter of plea does not appear upon record, the plea must be put in upon oath.

92. The dependency of a former suit for the same matter is a good plea, but, where the plaintiff disputes the truth of the plea, he may obtain an order of course for inquiry as to the truth thereof: And such order, and the report in pursuance thereof, shall be obtained within twenty-one days after the filing and service of such plea, otherwise the defendant may obtain as of course an order to dismiss the suit with costs.

93. Where a plea is overruled, the defendant shall pay to the plaintiff the taxed costs occasioned thereby, unless the Court shall otherwise direct.

94. Where a plea to the whole or part of a statement of claim is allowed upon argument, the plaintiff, unless he undertakes to reply to the plea, or unless the Court otherwise directs, shall pay to the party by whom the plea is filed the costs of the plea; and, where the plea is to the whole statement of claim, the costs of the suit also; and in such last-mentioned case the order allowing the plea shall direct the dismissal of the suit.

95. Where a plea to the whole or part of a statement of claim is not set down for argument within fourteen days after the filing thereof, and the plaintiff does not within such time either serve an order for leave to amend the statement of claim, or by notice in writing undertake to reply to the plea, the plea shall be held good to the same extent and for the same purposes, and the same costs shall be paid by the plaintiff, as in the case of a plea to the whole or part of a statement of claim allowed upon argument; and, where the plea is to the whole statement of claim, the defendant by whom such plea was filed may at any time after the expiration of such fourteen days obtain as of course an order to dismiss the suit with costs.

96. Where the plaintiff undertakes to reply to a plea to the whole statement of claim, he shall not, without special leave of the Court, take any proceedings against the defendant by whom the plea was filed till after replication.

## III.—STATEMENT OF DEFENCE.

97. A defendant who has not filed a demurrer or plea shall file a statement of defence within three weeks after the time limited for the appearance of such defendant, or within such extended time as may be consented to by the plaintiff, or as the Court may, on application for that purpose, allow. And a statement of defence shall, except in the cases of corporations aggregate, be on oath. And corporations aggregate may put in a statement of defence under their common seal: Provided that in such case the Court may nevertheless order that a statement of defence be put in on oath by such member or officer of the corporation as it shall think fit.

98. Where a defendant disputes the validity of a patent, he shall deliver to the plaintiff at the time of delivering his statement of defence, or within such further time as the Court may direct, particulars stating on what grounds he disputes it, and where one of the grounds is want of novelty, must, unless the Court shall otherwise direct, state the time and place of the previous publication or user alleged by him; and at the hearing no evidence shall, except by leave of the Court, be admitted in proof of any alleged infringement or objection of which particulars are not so delivered.

99. Statements of defence shall be in the form set out in Schedule B to these Rules, with such variations as the nature and circumstances of each case may require.

100. A defendant, in his statement of defence, shall set forth all matters not appearing in the statement of claim, and all grounds of defence, upon which he intends to rely.

101. Where any defendant sets off or sets up any right or claim by way of counter claim, he shall in his statement of defence state specifically that he does so by way of set off or counter claim, and shall pray specifically for the relief that he may consider himself entitled to.

102. When a defendant does not know, and is not in a position either to admit or deny a fact alleged in the plaintiff's statement of claim, he may state that he does not know, and that he is not able to admit that fact.

103. It shall not be sufficient for a defendant in his defence to deny generally the facts alleged in the statement of claim, or for a plaintiff in his reply to deny generally the facts alleged in a defence by way of counter claim; but each party must deal specifically with each allegation of fact of which he does not admit the truth.

## IV.—REPLY AND SUBSEQUENT PLEADINGS.

104. Subject to the last preceding Rule, the plaintiff by his reply may join issue upon the defence, and each party in his pleading, if any, subsequent to reply, may join issue upon the previous pleading. Such joinder of issue shall operate as a denial of every material allegation of fact in the pleading upon which issue is joined; but it may except any facts which the party may be willing to admit, and shall then operate as a denial of the facts not so admitted.

105. A plaintiff shall deliver his reply, if any, within two weeks after the defence or the last of the defences shall have been delivered, unless the time shall be extended by the Court.

106. No pleading subsequent to reply, other than a joinder of issue, shall be pleaded without leave of the Court, and then upon such terms as the Court shall think fit.

107. Subject to the last preceding rule, every pleading subsequent to reply shall be delivered within one week after the delivery of the previous pleading, unless the time shall be extended by the Court.

## V.—ADMISSIONS.

108. Any party to a suit may give notice, by his own statement or otherwise, that he admits the truth of the whole or any part of the case stated or referred to in the statement of claim, defence, or reply of any other party.

## VI.—INTERROGATORIES.

109. A plaintiff may, by leave of the Court, at any time before the expiration of fourteen days after the suit is at issue, file interrogatories for the examination of a defendant; and the defendant shall, on oath, answer such interrogatories and file such answers within fourteen days after the service of the interrogatories on him: And the answer shall be deemed sufficient, unless exceptions are filed thereto within seven days after the filing of such answer.

110. A defendant may, by leave of the Court, and either at the time of filing his statement of defence or subsequently, before the expiration of fourteen days after the suit is at issue, file interrogatories for the examination of the plaintiff, to which interrogatories shall be prefixed a concise statement of the subject on which a discovery is sought. And the plaintiff shall, on oath, answer such interrogatories and file such answer within fourteen days after service on him of the said interrogatories; and the answer shall be deemed sufficient, unless exceptions are filed thereto within seven days after the filing of such answer: Provided always that it shall not be competent to any defendant to file interrogatories until he has answered any interrogatories previously filed by the plaintiff for his examination.

111. If any party to a cause or matter be a body corporate or a joint stock company, whether incorporated or not, or any other body of persons, empowered by law to sue or be sued, whether in its own name or in the name of any officer or other person, any opposite party may apply at Chambers for an order allowing him to deliver interrogatories to any member or officer of such corporation, company, or body, and an order may be made accordingly.

112. Under special circumstances the Court may allow either party to file interrogatories at a later period in the suit.

## VII.—EXCEPTIONS FOR INSUFFICIENCY.

113. Exceptions for insufficiency may be filed to any answer or further answer to interrogatories within seven days after the filing of such answer or further answer. And such exceptions shall describe the passages which are alleged to be insufficient.

114. Where exceptions are allowed, the Court may direct that a further answer be filed, or that the party in default be examined *vidé voce*.

## VIII.—CONSEQUENCES OF DEFAULT.

115. If any party fail to comply with an order to answer interrogatories, or for discovery or inspection of documents, he shall be liable to attachment: And he shall also, if a plaintiff, be liable to have proceedings in the suit stayed until compliance; and, if a defendant, to have his defence (if any) struck out, and to be placed in the same position as if he had not filed a memorandum of dispute or statement of defence; and the Court may order accordingly.

116. Where a party has filed interrogatories, and has just reason to believe that the party interrogated means to abscond before answering, the Court may, on the *ex parte* application of the party interrogating, order an attachment to issue against him, returnable at such time as the Court shall direct.

117. Where a party is brought up in custody for want of an answer to interrogatories, and makes oath in Court that he is unable, by reason of poverty, to employ a solicitor to put in such answer, the Court, if satisfied as to the truth of that allegation, may assign a solicitor and counsel for such party to enable him to put in an answer.

118. Where a party, in contempt for want of answer or discovery, obtains upon filing an answer or affidavit of discovery the common order to be discharged as to his contempt, on payment or tender of the costs thereof; or where the party obtaining the attachment accepts the costs without order, it shall not be necessary, in case the answer or affidavit is insufficient, to recommence the process of contempt, but the party obtaining the attachment may take up the process at the point to which he had before proceeded.

PROCEEDINGS BETWEEN DEFENCE AND HEARING.

I.—DISMISSING SUIT FOR WANT OF PROSECUTION. II.—PRODUCTION OF DOCUMENTS. III.—PRELIMINARY ACCOUNTS AND INQUIRIES. IV.—MOTION FOR DECREE. V.—CLOSE OF PLEADINGS. VI.—DEFAULT OF PLEADING. VII.—SETTLING ISSUES OF FACT. VIII.—SETTING DOWN SUIT FOR HEARING.

I.—DISMISSING SUIT FOR WANT OF PROSECUTION.

119. Any party may move to dismiss a suit or counter claim for want of prosecution when the opposite party has not, within the time fixed by the Rules in that behalf, or by an order of the Court, taken such step as may be then necessary in the suit or counter claim.

120. Upon any application to dismiss a suit or counter claim for want of prosecution, the Court may make an order to that effect, or such other order, or may impose such terms as may appear just and reasonable.

II.—PRODUCTION OF DOCUMENTS.

121. Any party may, without filing any affidavit, apply to the Court for an order directing any other party to the suit to make discovery on oath of all the documents which are, or have been, in his possession or power relating to any matter in question in the suit.

122. The party against whom such an order has been made shall make an affidavit specifying the documents which he has, or has had, in his possession or power, and also which, if any, of such documents he objects to produce; and it shall be in the form set out in Schedule D to these Rules, with such variations as circumstances may require.

III.—INQUIRIES AND ACCOUNTS.

123. The Court may at any stage of the proceedings in a suit or matter direct any necessary inquiries or accounts to be made or taken, notwithstanding that there is some special or further relief sought for, or some special issue to be tried, as to which it may be proper that the suit or matter should proceed in the ordinary manner.

IV.—MOTION FOR DECREE.

124. Sixteen days' notice shall be given to the defendant of any motion for a decree or decretal order under section 28 of the Equity Act of 1880.

125. All affidavits to be used in support of such motion shall be filed before the service of such notice, and a list of such affidavits shall be set forth at the foot of such notice.

126. The defendant, within ten days after service of such notice, shall file his affidavits in answer, and deliver to the plaintiff a list thereof.

127. Within four days after the expiration of such ten days, or other period to which the time for filing the defendant's affidavits has been enlarged, the plaintiff shall file his affidavits in reply, and he shall deliver to the defendant a list thereof.

128. No further evidence on either side shall be used upon such motion for a decree or decretal order without leave or direction of the Court.

129. Every notice of motion for a decree or decretal order shall be set down for hearing on such day as the Court may, by any order or general rule, direct.

V.—CLOSE OF PLEADINGS.

130. As soon as either party has joined issue upon any pleading of the opposite party simply without adding any further or other pleading thereto, the pleadings as between such parties shall be deemed to be closed.

VI.—DEFAULT OF PLEADING.

131. If the plaintiff does not file a reply or demurrer, or any party does not file any subsequent pleading or a demurrer, within the period allowed for that purpose, the pleadings shall be deemed to be closed at the expiration of that period, and the statements of fact in the pleading last filed shall be deemed to be admitted.

132. Any decree or order by default may be set aside by the Court, upon such terms as to costs or otherwise as such Court may think fit.

VII.—SETTLING ISSUES OF FACT.

133. Where in any suit it appears that the pleadings do not sufficiently define the issues of fact in dispute between the parties, and it shall be deemed desirable that they should be so defined, the Court may on the application of any party or of its own motion after replication settle such issues.

VIII.—SETTING DOWN SUITS FOR HEARING.

134. Within seven days after a joinder of issue, the plaintiff shall set down the suit for hearing on some day, except by leave of the Court not earlier than the fourteenth nor later than the twenty-eighth day after so setting down the suit; and the plaintiff shall forthwith serve notice of the suit being so set down for hearing upon all the defendants thereto.

135. If the plaintiff does not set down the suit for hearing within seven days after a joinder of issue, any defendant may set down the suit for hearing, within like periods as hereinbefore provided for setting down by the plaintiff, and shall forthwith serve on the plaintiff and the other defendants notice thereof.

HEARING

HEARING—EVIDENCE.

I.—GENERALLY. II.—EVIDENCE BY COMMISSION

III.—TRIAL BY JURY.

I.—GENERALLY.

136. Suits which are to be treated as Consent Matters or as Short Matters, or in which the defendant ought to attend in Court in pursuance of the endorsement on the statement of claim, shall be set down for hearing on such days as the Court may specially appoint for the hearing of such matters and suits.

137. If the parties to any suit have agreed upon the terms of the decree to be asked from the Court, the suit may come on to be heard on any day after it has been set down that may be appointed for hearing Consent Matters.

138. Any suit may, by the consent of the parties thereto, or by order made with notice in chambers on summons, come on to be heard as a Short Matter upon any day after it has been set down that may be appointed for hearing such matters, or that the parties may agree upon and the Court may order.

139. If the plaintiff refers to the statement of defence or any part of it as evidence in support of his case, the Judge shall take a note of such reference; and the plaintiff shall not enter into evidence as to such matters as are established by such reference; and, if he enters into evidence as to them, he will render himself liable to pay the costs thereof.

140. The Court or any party may, before, or at any time during, the hearing of a suit, require the evidence or judgment to be taken down by a shorthand writer, who shall be duly sworn; but it shall not be necessary for the witnesses to sign the notes of their evidence; and the Court may make such order as it shall think fit for the costs of employing such shorthand writer. The Judge's notes, or the notes of such shorthand writer, shall for all the purposes of the suit be *prima facie* proof of the evidence of the deposition of witnesses.

II.—EVIDENCE BY COMMISSION.

141. Where any party has obtained a commission for the examination of witnesses, he shall, unless the Court otherwise direct, cause notice of the time and place of such examination to be served on the parties entitled to notice seven days at least before the day of examination; and every such commission shall be returnable on some day to be fixed in each case by the Court, and shall, with the examination of witnesses under the same, be returned to the Equity Office in like manner as statements of defence taken in the country are returnable.

III.—TRIAL BY JURY.

142. Any question of fact, or any question of the amount of damages, directed to be tried by a jury, shall be reduced into writing in the form set forth in Schedule E to these Rules, and shall be called the "Record for Trial," and shall be filed in the Equity Office within two days after such order shall have been made, and within seven days after such filing shall be entered for trial at such time and place and in such manner as the Court shall direct.

143. When the Court shall order any question of fact, or any question of the amount of damages, to be tried by a jury, the course of proceedings shall be in all respects in accordance with the law and practice as to trial of issue and assessments of damages at Common Law.

144. The notice of any application for a new trial shall be given within eight days after the verdict or finding of the jury shall have been filed, or within such other time as the Court may direct.

145. Where the Court shall decree damages to any person, and shall order the amount of such damages to be assessed by a jury before any Judge of the Supreme Court, or in any Circuit Court, the person to whom such damages shall be decreed shall be at liberty to sue out from the Equity Office a writ of inquiry of damages.

146. The Rules now in force in the Courts of Common Law relative to writs of inquiry and trials shall be applicable to writs of inquiry to be issued by virtue of the last preceding Rule.

147. The writ of inquiry, together with the return thereto of the verdict or inquisition, shall within seven days after such return be filed at the Equity Office, or within such other time as the Court shall allow.

148. Any application to set aside the verdict or inquisition on any such writ of inquiry, and to direct a new inquiry, shall be made within eight days after the finding thereof, or within such other time as the Court shall allow.

149. On the day appointed for any trial, and previously to the commencement thereof, a copy of the Record for Trial, together with a copy of the statement of claim, statement of defence, and other pleadings, shall be left with the Judge before whom such trial is appointed to be had by the person at whose instance the same may have been entered for trial.

150. The verdict or finding of the jury, together with the names of the jurors who were sworn, shall be endorsed by the associate of the Judge before whom the trial has taken place on the Record for Trial, and shall be signed by him and then returned to the Equity Office to be filed. And the Judge may certify whether he is satisfied or otherwise with such verdict or finding of the jury.

AMENDMENT OF PLEADINGS.

151. The Court may, at any stage of the proceedings, allow either party to alter his statement of claim, or defence, or reply, or may order to be struck out or amended any matter in such pleadings respectively as may be scandalous, or which may tend to prejudice, embarrass, or delay the fair trial of the cause; and all such amendments shall be made as may be necessary for the purpose of determining the real questions or question in controversy between the parties.

152. The plaintiff may, without any leave, amend his statement of claim once at any time before the expiration of the time limited for reply and before replying, or, where no defence is filed, at any time before the expiration of four weeks from the appearance of the defendant who shall have last appeared.

153. A defendant who has set up in his defence any set-off or counter claim may, without any leave, amend such set-off or counter claim at any time before the expiration of the time allowed him for pleading to the reply, and before pleading thereto, or, in case there be no reply, then at any time before the expiration of twenty-one days from the filing of his defence.

length; except in the case of residues or shares of residues remaining after a portion directed to be applied for particular purposes, the amount of which cannot be ascertained at the time of making the decree or order; in which cases the amount of such residues or shares of residues shall be verified by affidavit, without any direction for that purpose in the decree or order, unless such residues or shares shall be certified by the Master, who shall be at liberty to certify the same without a direction for that purpose in such decree or order.

172. Where a residue of stock, funds, shares, or securities or moneys, is directed by any decree or order to be operated upon by the Master, the exact amount of such residue, where the same can be done, shall, on settlement of the minutes, be verified by affidavit or otherwise, and shall be expressed and specified in the decree or order in words at length, so that the amount of such residue may appear on the face of the decree or order.

173. All persons, whether representatives or others, who are directed to pay into or deposit in Court any sum of money, securities, or other effects with the privity of the Master, or to transfer any stock, funds, shares, or moneys, into his name and with his privity; and all persons, whether representatives or others, to whom any sums of money, stock, funds, shares, securities, or other effects are directed to be paid out, transferred, carried over, or delivered out, shall, except in the case of bodies corporate, companies, or societies, be described by name in the decree or order, and not merely as plaintiffs or petitioners or the like, unless such payments, transfers, carryings over, or deliveries, are directed to be made to or by representatives, and no probate or letters of administration shall have been taken out at the time of making such decree or order; and the Christian names and surnames or titles of honor of all such persons, and the titles of all such bodies corporate, companies, and societies shall be written at length and without abbreviation in such decrees or order.

174. In all decrees or orders directing the payment of interest, dividends, annuities, or other periodical payments, the time when the first of such payments, and when all subsequent periodical payments, whether quarterly, half-yearly, yearly, or otherwise, shall be made, shall be specified and expressed in words at length; and, where the same has not been so specified and expressed, then the respective payments shall be made yearly.

175. Where any stock, funds, shares, or securities standing in the name of the Master in trust in, or to the credit of, any suit, matter, or account, or any part thereof, are or is directed to be divided and transferred or delivered out of Court to or among several persons, or to be carried over to several separate accounts, and where any money is directed to be paid out to or among several persons, or carried over to several separate accounts, the Master shall be at liberty, where it shall appear to him to be more convenient so to do, to state the respective amounts of such stock, funds, shares, securities, or money to be so transferred, paid, or carried over, in a schedule at the foot of the decree or order, and it shall be sufficient to refer to such schedule in the mandatory part of the decree or order; but in every such case the total amount of the stock, funds, shares, securities, or money respectively to be dealt with in such schedule, shall be stated in words at length in the mandatory part of the decree or order.

176. Where upon or after the death of any person to whom the interest or dividends of any stock, funds, shares, securities, or money standing in the name of the Master in trust in, or to the credit of, any suit, matter, or account, or any part of such interest or dividends were or was payable for life, an order is made for the sale, transfer, or delivery or payment, of such stock, funds, shares, securities, or moneys, or for the payment of the interest or dividends to accrue due thereon subsequently to the death of such person, the same order shall also provide for the payment to the legal personal representative of such person of such proportion of the interest or dividends on such stock, funds, shares, securities, or moneys, as shall have accrued between the last period of payment and the day of his death, unless the Court shall be of opinion that such legal personal representatives are not entitled thereto, or shall for any other reason otherwise direct.

177. Every decree or order made in any suit or matter requiring any person to do an act thereby ordered shall state the time or the time after service of the decree or order within which the act is to be done; and upon the copy of the decree or order, which shall be served upon the person required to obey the same, there shall be indorsed a memorandum in the words or to the effect following, viz.:—"If you the within-named A.B. neglect to obey this Decree (or Order) by the time therein limited, you will be liable to be arrested under a Writ of Attachment issued out of the Supreme Court, and also be liable to have your estate sequestrated for the purpose of compelling you to obey the same Decree (or Order)." And in any case where money only has to be paid to any person, then the memorandum shall be to the effect following:—"If you the within-named A.B. neglect to obey this Decree (or Order) by the time therein limited, a Writ of *steri facias* may be issued against you to levy upon your goods and chattels and lands and tenements and also you will be liable to have your estate sequestrated for the purpose of compelling you to obey the same Decree (or Order)."

178. Where a defendant, at the hearing, objects that a suit is defective for want of parties, and has not, by plea or statement of defence, taken the objection, and therein specified by name or description the parties to whom the objection applies, the Court, if it shall think fit, may add the parties upon such terms as to costs or otherwise as may be deemed just, or may make a decree saving the rights of such parties.

179. If the plaintiff, after the suit is set down to be heard, causes the statement of claim to be dismissed on his own application, or if the suit is called on to be tried or heard in Court and the plaintiff makes default, and by reason thereof the statement of claim is dismissed, such dismissal, unless the Court shall otherwise direct, shall be equivalent to a dismissal on the merits, and may be pleaded in bar to another suit for the same matter.

180. Every decree or order for an account of the estate of a testator or intestate shall, unless the Court shall otherwise direct, contain a direction for an inquiry as to what parts (if any) of such estate are outstanding or undisposed of.

181. Notice of a decree or order served pursuant to the 6th rule of the 7th section of the Equity Act of 1880 shall be entitled in the suit, and there shall be indorsed a memorandum in the form or to the effect following, that is to say:—"Take notice, that from the time of the service of this notice, you [*or, as the case may be, the infant, or person of unsound mind*] will be bound by the proceedings in the above Suit in the same manner as if you [*or the said infant or person of unsound mind*] had been originally made a party to the suit; and that you [*or the said infant or person of unsound mind*] are

at

at liberty to attend the proceedings under the within mentioned Decree [or Order]; and that you [or the said infant or person of unsound mind] may, within one month after the service of this notice, apply to the Court to add to the Decree [or Order]."

182. A memorandum of the service upon any person of notice of the decree in any suit under the 6th Rule of the same section shall be entered in the Equity Office, upon due proof by affidavit of such service.

183. The time within which a party served with notice of a decree under the 6th Rule of the same section may apply to the Court to add to the decree shall be one month after such service, unless the Court shall extend the time or shall otherwise direct.

184. Clerical mistakes in decrees or orders, or errors arising, from any accidental slip or omission, may at any time be corrected upon summons in chambers.

185. Where any person who has obtained any decree or order upon condition does not perform or comply with such condition, he shall be considered to have waived or abandoned such decree or order, so far as the same is beneficial to himself; and any other person interested in the matter may, on breach or non-performance of the condition, take either such proceedings as the decree or order may in such case warrant, or such proceedings as might have been taken, if no such decree or order had been made, unless the Court shall otherwise direct.

#### ORDERS ON FURTHER DIRECTIONS.

186. When any suit shall, at the original or any subsequent hearing thereof, have been adjourned for further consideration, the plaintiff or party having the conduct of the suit shall, after the expiration of eight days and within fourteen days from the filing of the certificate of the Master, set down the suit for hearing on further directions on some day (except by leave of the Court) not earlier than the eighth and not later than the fourteenth day after setting down the same, and the plaintiff or party having conduct of the suit shall forthwith serve notice of the suit being so set down upon the defendants or parties thereto other than the party having the conduct of the suit.

187. If the plaintiff or other party having the conduct of the suit does not set down the suit for hearing on further directions within fourteen days from the filing of the Master's certificate as aforesaid, any defendant or party having the conduct of the suit may set down the same for such hearing within the periods as hereinbefore provided for setting down by the plaintiff, and shall forthwith serve on the plaintiff or party having the conduct of the suit notice thereof.

188. When any suit is so set down for hearing on further directions as aforesaid, the party so setting down the same shall at the same time lodge in the Master's Office short minutes (omitting formal parts) of the decree or order he deems himself entitled to.

#### PROCESS TO ENFORCE DECREES AND ORDERS.

189. No writ of attachment, sequestration, or assistance, shall be issued without special order, to be obtained on motion with affidavit of the circumstances of the case; but it shall not be necessary to serve the person against whom such writ is sought to be issued with notice of the motion.

190. If any party directed by an order or decree to pay money (whether money only, or costs only, or money with costs) shall, after due service of such order or decree, neglect to pay the same as thereby directed, the party prosecuting such order or decree shall, at the expiration of the time limited for the performance thereof, be entitled to proceed by writ of *fiari facias* for the recovery of the money thereby payable in the manner directed by the Act of 5 Victoria, No. 9, section 43. Provided nevertheless, that an attachment may issue when the decree or order directs the payment of any money into Court.

191. In respect to the payment of costs, when the amount of such costs shall have been duly taxed and certified, and payment thereof demanded from the party by whom payable or his solicitor, execution shall be issued under a writ of *fiari facias* upon an affidavit of due demand from the party by whom the same is payable or his solicitor.

192. Every person, not being a party to the suit, who shall have obtained an order, or in whose favour any order shall have been made, shall be entitled to enforce obedience to such order by the same process as if he were a party to the suit; and every person not being a party to the suit, against whom obedience to any order may be enforced, shall be liable to the same process for disobedience to such order as if he were a party to the suit.

193. When any party who by any order or decree is ordered to deliver possession of any lands, tenements, or hereditaments, within a limited time shall, after due service of such decree or order, refuse or neglect to obey the same, the party prosecuting such order or decree shall (on proof made of demand and refusal to obey the same) be entitled to a writ of assistance or of *habere facias*.

194. Where any party who by any order or decree is ordered within a limited time to do some act other than to pay money or deliver possession of lands, tenements, and hereditaments shall, after due service of such order or decree, refuse or neglect to obey the same, according to the exigency thereof, the party prosecuting such order or decree shall, at the expiration of the time so limited, be entitled to a writ of attachment or to a writ for the delivery of any property other than money, lands, tenements, and hereditaments, which shall have been decreed or ordered to be delivered or a writ of sequestration, as the Court may in each case deem to be just.

195. Upon the Sheriff's return of *non est inventus* to an attachment, the party suing out the same, upon affidavit that due diligence has been used in endeavouring to apprehend the person, and stating the facts of such endeavour, shall be entitled to a writ of sequestration.

#### APPEALS.

196. Any person intending to appeal to the Full Court from any decree or order under section 70 of the Equity Act of 1880, shall, within fourteen days next after the pronouncing of the same, or within such extended time as the Court below may have allowed, enter and file in the Equity Office a notice of appeal, signed by one counsel, and setting forth therein the grounds and reasons of and for such appeal; which notice shall be in a form similar to the form in Schedule F to these rules; and a copy of such

such notice of appeal shall, within ten days next after filing the same, or within such extended time as the Court below shall allow, be delivered to each of the Judges of the Supreme Court, and shall within like time be served upon all parties intended to be served therewith, or their solicitors.

197. The time within which a respondent shall give notice that he intends upon the hearing of the appeal to contend that the decision of the Court below should be varied or altered shall be fourteen days from service of the appellant's notice of appeal; and such notice shall be signed by one counsel, and shall specially set forth the grounds and reasons for contending that the decision should be varied or altered.

198. Every appeal shall hereafter be set down for the first day for the hearing of appeals in Equity which shall happen next after the making of the deposit or giving the security required, unless the Court shall otherwise order; and every appeal not so entered shall be deemed to have been abandoned.

199. In appeals to the full Court, the moving party, unless a Judge otherwise order or allow further time, shall, within twenty-eight days after the filing of the notice of appeal, lodge in the Equity Office seven printed copies of the pleadings (including petition, notice of motion, and summons), the evidence (other than the exhibits), the decree or order appealed from, and the judgment of the Judge on making such decree or order approved by him, and shall, within the like time, also serve a like number of such printed copies on each opposing party, or upon each solicitor, on the record.

200. All documents of which printed copies are, by the preceding rules, ordered to be lodged, shall be printed upon cream-wove white foolscap folio paper, in pica type, leaded, with an inner margin an inch wide, and an outer margin two inches and a half wide.

#### REFERENCES, INQUIRIES, AND ACCOUNTS.

201. The Court may for the purpose of obtaining the assistance of conveyancing counsel, accountants, merchants, engineers, actuaries, or other scientific persons, under section 46 of the Equity Act of 1880, refer to any such persons any matter at issue, or arising in the suit, for a report thereon, and may at the time of such reference and from time to time give such directions with relation thereto, as to the Court may seem necessary.

202. In case of reference to the Master, he shall enter in a book the names and title of every suit or matter referred to him, and the date and description of every step taken before him, and the attendance or non-attendance of the several parties on each of such steps, so that such book may exhibit the whole course of proceedings which is had before him in each particular suit or matter; and in case of reference to the Deputy Registrar, a similar book shall be kept and entered up by him.

203. Proceedings on reference to the Master shall be by summons or appointment. Such summons may be in the form set forth in Schedule G, and such appointment may be in the form set forth in Schedule H to these Rules.

204. At the time when any summons or appointment is obtained, an entry thereof shall be made in a book called the Summons and Appointment Book, stating the date on which the summons is issued or appointment made, the name of the suit or matter, and by what party, and, shortly, for what purpose such summons or appointment is obtained.

205. A list of all matters to be heard, and business to be transacted, before the Master, in pursuance of such summons or appointment, shall be made out and kept exhibited in the Office.

206. When a reference has been made by the Court to settle any decree or order, the Master shall direct what proceedings shall be taken thereunder, and the decree or order so settled shall be submitted to the Court for approval.

207. In directing what proceedings shall be taken under any decree or order the Master may direct what parties are entitled to attend future proceedings, the necessary advertisements, and which of the several proceedings may be properly going on *pari passu*, and the manner in which inquiries and accounts are to be prosecuted, and the evidence to be adduced in support thereof; and if the Master shall think it expedient so to do, a certain time or certain times shall be fixed within which the parties are to take any proceedings, and all such directions may afterwards be added to or varied from time to time.

208. Where the party entitled to prosecute a decree or order does not proceed therein within the time fixed or limited for that purpose by the Court or Master, or by any Rule for the time being in force in that behalf, then the Court or Master may, upon the production by any other party, interested either as a party to the suit or as one who has come in and established his claim under the decree or order of the certificate of the Clerk of the Records in the Equity Office, that the party entitled to prosecute such decree or order has not proceeded therein within such time as aforesaid, commit to such other party the further prosecution of the said decree or order, and from thenceforth the party making default shall not be at liberty to attend as prosecutor of the said decree or order, and the certificate shall be indorsed accordingly, and such indorsement shall be signed by the Master.

209. Where by any decree or order of the Court books, papers, or writings are directed to be produced before the Master for the purposes of such decree or order, it shall be in the discretion of the Master to determine what books, papers, or writings are to be produced, and when and for how long they are to be left in the office; or, in case he shall not deem it necessary that such books, papers, or writings should be left in the office, then he may give directions for the inspection thereof by the parties requiring the same, at such time and in such manner as he shall deem expedient.

210. The Master may of his own motion part with the custody of any exhibits put in evidence in the course of taking any accounts or making any inquiry before him.

211. No more than one summons or appointment shall be taken out for the time during which the Master, shall continue or adjourn the proceedings under such summons or appointment.

212. Every summons or appointment before the Master, shall be considered peremptory, and in case the Master shall not be attended by the solicitor or a competent person on behalf of the solicitor of any party, the Master, shall in such case disallow the usual fee for the solicitor's attendance, and he shall mark such determination in his book.

213. Where some or one, but not all the parties, shall attend the Master at an appointed time, whether the same be fixed by the Master personally or upon summons or appointment, then the Master shall be at liberty to proceed *ex parte* if he thinks proper considering the nature of the case, so to do.

214. When the Master has proceeded *ex parte*, such proceeding shall not be reviewed by him unless he shall, upon special application made to him for that purpose by the party who was absent, be satisfied that the party was not guilty of wilful delay or negligence.

215. Upon any application made by any person to the Court in the course of a reference, the Master, if required by the person making the application, shall, in as short a manner as he conveniently can, certify to the Court the several proceedings which shall have been had in the office in the same suit or matter, and the dates thereof.

216. Unless ordered by the Court, no summons to review before the Master any proceedings taken before him shall be allowed, except by his permission upon special grounds.

217. All affidavits and evidence which have been previously made or taken and read in Court upon any proceeding in a suit or matter may be used before the Master in all references to and proceedings before him; and, where any other or further evidence may be required, it shall be lawful for the Master to take such evidence as he shall think fit: Provided that, if it shall be thought necessary to examine a witness who has given evidence at the hearing as to matters upon which he shall have been examined before, then, in case of objection, an order of the Court shall be obtained for that purpose.

218. Every summons or appointment to proceed upon any matter before the Master shall be issued and served two clear days before the time fixed, and, upon any proceeding whereon evidence is to be given, the Master shall be at liberty to direct, from time to time, that evidence shall be taken separately upon any selected point or points, and the evidence shall be taken accordingly.

219. All proceedings on which the Master's decision shall have to be indorsed shall be left in the office before taking evidence thereon; but they shall not be filed until his decision shall have been indorsed thereon, and no such matters shall be withdrawn, added to, or altered without his authority, or under an order of Court, or by consent.

220. The Master shall be at liberty to direct that service of any summons, document, or other matter formerly used to be served on any person, shall be dispensed with.

221. No affidavit shall ordinarily be made of any summons, appointment, document, or other matter requiring service thereof, to be shown to the Master; but the Master may take proof thereof when requisite *inâ voce* or by affidavit; and, where such proof shall have been required, the Master shall make and file, with the proceedings, a note stating that the party has given or failed to give such proof, as the case may be.

222. In cases where it shall be necessary for any party to go into evidence subsequently to the hearing, or on any inquiry, account, or reference before the Court or Master, such evidence shall be taken, proceeded with, and closed under the direction of the Court or Master, in the same manner (as nearly as may be) as upon an issue of fact at Common Law, or in such other manner as the Court may in any case specially direct.

223. If any party wishes to complain of any matter introduced into any state of facts, affidavit, or other proceeding before the Master, on the ground that it is scandalous or irrelevant, or that any examination is insufficient, he shall be at liberty, without any order of reference by the Court, to apply to the Master to examine such matter, and the Master shall have authority to expunge any scandalous or irrelevant matter, and to direct any further examination as he shall see fit.

224. After the evidence shall have been closed, the Master shall indorse on the state of facts, account, or other matter whereon evidence shall have been given, his decision thereon; and after such indorsement, no further evidence shall be taken without an order of Court, or by consent; but he shall be at liberty, nevertheless, to alter his decision, and the indorsement thereof, at any time before signing his certificate or report.

225. Whenever, in any proceeding before the Master, the same solicitor is employed for two or more parties, the Master may at his discretion require that any of the said parties shall be represented before him by a distinct solicitor, and may refuse to proceed until such party is so represented.

226. All references to the Master to appoint guardians, new trustees, or receivers shall be for appointment by the Master in the first instance, unless the Court shall otherwise order; and a certificate by him of such appointment shall be filed in the Equity Office.

227. In order to prevent inconvenient delays, the Master may allow any decree, order, certificate, report, or other document to be engrossed or copied by the solicitor requiring the same, and in such cases the solicitor shall be allowed sixpence per folio for such engrossment or copy, and no office fee shall be payable except, in case of office copies being obtained, the fee payable for certifying the same.

#### ACCOUNT.

228. All accounting parties shall bring in their accounts, verified by affidavit, in the form of debtor and creditor, and the items on each side are to be numbered consecutively; and any party not satisfied with the account so brought in shall be at liberty to examine the accounting party *inâ voce*, or upon interrogatories, as the Master shall direct: Provided that, in taking any account directed by any decree or order, all just allowances shall be made, without any direction for that purpose in such decree or order.

229. It shall not be necessary in any charge upon the debtor and creditor account to set forth all the items of receipt, but only the further items with which the accounting party is sought to be charged. No formal discharge by the accounting party shall be required, but the payments set forth in his debtor and creditor account shall be treated as his discharge, and he shall be bound to vouch his payments and establish their propriety, if disputed, in the same manner in all respects as if they had been included in a discharge.

#### ADMINISTRATION.

230. In suits wherein creditors are permitted or required to come in and prove their debts before the Master no creditor (other than a party to the suit) shall be entitled to attend on any matter not connected with the proof of his own debt, except by direction of the Master or order of the Court. Any creditor so proving shall be entitled to the costs of establishing his debt, and the sum to be allowed for such costs shall be fixed by the Master, without taxation, at the time the Master allows the debt of such creditor, unless the Master shall think that such costs ought to be taxed in the regular mode. And  
in

in all such suits the Master may (if he shall think fit), where the proof is not opposed, or for a sum under £10, allow the debt on the affidavit of the claimant alone, and also, if he shall think fit, without any claim in writing having been brought in: Provided that in such last-mentioned case the allowance or disallowance of the debt shall be indorsed on such affidavit.

231. Where a decree or order is made directing an account of debts, claims, or liabilities, or an inquiry for next of kin or other unascertained persons, the Master shall cause advertisements for the same to be inserted in the *Government Gazette* and other newspapers, as he may think fit, and fix a peremptory day for that purpose; and, unless otherwise ordered, all persons who do not come in and prove their claims within the time which may be fixed for that purpose by advertisement shall be excluded from the benefit of the decree or order.

232. Where a decree or order is made directing an account of the debts of a deceased person, interest shall, unless otherwise ordered, be computed on such debts, as to such of them as carry interest, after the rate they respectively carry, and, as to all others, after the rate of 5 per cent. per annum, unless the Court shall otherwise order, from the date of the decree or order.

233. A creditor whose debt does not carry interest, who comes in and establishes the same under a decree or order, shall be entitled to interest upon his debt after the rate aforesaid from the date of the decree or order out of any assets which may remain after satisfying the costs of the suit, the debts established, and the interest on such debts as by law carry interest.

234. Where a decree or order is made directing an account of legacies, interest shall be computed on such legacies after the rate of 4 per cent. per annum from the end of one year after the testator's death, unless the Court shall otherwise order, or unless any other time of payment or rate of interest is directed by the will, and in that case according to the will.

#### CERTIFICATE OR REPORT.

235. The certificate or report of the Master upon or in relation to any matter referred to him may be in the form set forth in Schedule I to these Rules, with such variations as the circumstances of the case may require; and, when prepared and settled, it shall be transcribed by the solicitor prosecuting the proceedings, in such form and within such time as the Master shall require, and shall then be signed by the Master at an adjournment to be made for that purpose. But where, from the nature of the case, the certificate or report can be drawn and copied in the Master's office whilst the parties are present before the Master, the same shall be then completed and signed by him without any adjournment.

236. No certificate or report to be made by the Master shall, unless the special circumstances of the case so require, set out the decree or order, or any documents or evidence or reasons; but shall refer to the decree or order, documents, and evidence, or particular paragraphs thereof, so that it may appear thereby to the Court upon what the result stated in such report or certificate is founded.

237. The Master shall be at liberty in all cases to state special circumstances in his certificate or report.

238. In all matters referred to him the Master shall be at liberty, upon the application of any party interested, or without such application, to make a separate certificate or report from time to time as to him shall seem expedient, the costs of such separate certificate or report to be in the discretion of the Court.

239. Where the Master shall make a separate certificate or report of debts or legacies, he shall be at liberty to certify, as he thinks fit, with respect to the state of the assets; and every person interested shall thereupon be at liberty to apply to the Court, as he shall be advised.

240. The time within which any party is to be at liberty to take the opinion of the Court upon any proceedings which shall have been concluded, but as to which the certificate or report of the Master shall not have been adopted by the Court, shall be four clear days after the same shall have been signed by the Master.

241. Any party desiring to take the opinion of the Court as mentioned in the last preceding Rule, shall within four clear days after the certificate or report shall have been signed by the Master obtain a summons for such purpose.

242. At the expiration of four clear days after the certificate or report shall have been signed by the Master, if no party has in the meantime obtained a summons to take the opinion of the Court thereon, the Master shall submit the certificate to the Court for approval; and the Judge may thereupon, if he approve the same, testify his adoption thereof as follows:—"Approved this        day of       "; and thereupon the certificate or report shall be filed.

243. The time within which an application may be made, by summons or motion, to discharge or vary any certificate which has been signed and adopted by the Judge in chambers, shall be eight clear days after the filing of such certificate.

244. In cases where any computation of interest, or the apportionment of any ascertained fund, is directed by the Court to be made and acted upon, it may be acted upon after four clear days from the filing of the report or certificate thereof.

#### CONVEYANCE—SETTLING OF.

245. When the Master is ordered to settle any conveyance, in case the parties differ about the same, a statement in writing of the required alterations shall be served by the party objecting to the draft on the party by whom the same was prepared within eight days after the service of notice of leaving such draft with the Master.

#### COSTS.

246. Whenever it shall appear to the Master that the costs, or part of the costs, of any attendance, or of any proof before him, or costs incurred through any non-attendance or review, ought not to abide the general event of the reference to him, but that it is just and reasonable that the same should be paid specially by any party or claimant, it shall be lawful for him, in his discretion, to award the payment of such costs, or part thereof, or a fixed sum in lieu of such costs, as, and by whom, he shall in that behalf direct.

## SALE BY COURT.

247. Where an order is made directing any property to be sold, the same shall, unless otherwise ordered, be sold with the approbation of the Master to the best purchaser that can be got for the same, to be allowed by him; and all proper parties are to join therein, as the Master shall direct.

248. When any property is ordered to be sold by or by the direction of the Master, he shall by memorandum in writing without any proposal being laid before him, appoint an auctioneer to sell such property, who shall proceed to the sale in the usual manner, and be paid a percentage or stated sum, to be fixed by the Master at the time of such appointment; and such auctioneer shall immediately after he shall have received any deposit pay over the same to the Master to the credit of the suit in which the order was made, and shall state what he has done in respect of the sale, upon affidavit to be filed in the Office.

249. No order shall be necessary for allowing any party to the record to bid at such sale, if he would be allowed by law to bid at the same sale in case it had not been under an order of Court.

## RECEIVERS.

250. Unless otherwise ordered, where an order is made appointing a receiver, the person to be appointed shall first give security, to be allowed by the Master, and to be taken before himself, or, if necessary, before a commissioner in the country, duly to account for the rents and profits for the receipt of which he is appointed, at such periods as the Court or Master shall appoint, and to pay the same as the Court shall direct, or, as the case may be, to be answerable for what he shall receive in respect of the personal estate for the getting in and collection of which he is to be appointed, and to account for and pay the same as the Court shall direct. And the person so to be appointed shall be allowed by the Court a proper salary or commission for his care and pains in receiving such rents and profits, or, as the case may be, shall have an allowance made to him in respect of his managing and collecting such estate.

251. Unless otherwise ordered, when a receiver or guardian shall have been appointed, the Master shall fix the days upon which the receiver or guardian shall (annually or at longer or shorter periods) leave and pass his accounts, and shall also afterwards be at liberty to extend or diminish the same, and on the passing of such accounts the Master shall fix the days upon which such receiver or guardian shall pay such sums as shall be found due and shall be directed to be paid. And with respect to such receivers or guardians as shall neglect to leave and pass their accounts, and pay the balances thereof at the time so to be fixed for that purpose as aforesaid, the Master shall from time to time, when their subsequent accounts are produced to be examined and passed, not only disallow the salaries or commissions therein claimed by such receivers or guardians, but also charge them with interest after the rate of £8 per cent. per annum upon the balances so neglected to be paid by them during the time the same shall appear to have remained in the hands of such receivers or guardians.

252. Whenever the accounts of any guardian or receiver are not brought in to the Master's office, or are not proceeded with and completed, in the manner and within the time respectively prescribed in that behalf,—or whenever any party or solicitor has omitted duly to prosecute and enforce the matter, or to bring the case before the Court, within a time limited by the Master, for that purpose,—the Master may commit to the Crown Solicitor the conduct of such matter, and direct him to bring the case before the Court, or may certify the above facts to the Court.

253. Receivers of rents and profits of lands, now or hereafter appointed, shall, when the yearly value of any such land shall not exceed one hundred pounds, have power to let the land, with the approval of the Master: Provided that any such letting shall be void if the Court shall make an order to that effect at any time before the expiration of one month.

254. When the value shall not exceed the rate of fifty pounds yearly, receivers shall have power to let the land from year to year, or for a less period, without the approbation of the Master previously signified: Provided that every such case shall be subject to the Master's control as to future lettings, in case of any complaint made to him.

255. In no case within either of the two last preceding Rules shall any certificate or report to the Court be made of any letting: Provided that the Master may in all cases direct such notices to be given of any proceeding under these Rules as he may think fit.

256. Receivers may, without the previous direction of the Master, lay out in repairing the property, when necessary, any sum not exceeding fifty pounds in one year, and the Master in passing their accounts shall allow the same, if he shall be of opinion that it has been expended for the benefit of the persons interested in the property.

## STOP ORDERS.

257. Where any stock, funds, shares, securities, or moneys are standing in Court in trust in, or to the general credit of, any suit or matter, or to the account of any class of persons, and an order is made to prevent the transfer or payment of such stock, funds, shares, securities, or moneys, or any part thereof, without notice to the assignee of any person entitled in expectancy, or otherwise, to any share or portion of such stock, funds, shares, securities, or moneys, the person by whom any such order shall be obtained, or the said share or portion of the stock, funds, shares, securities, or moneys affected by such order shall be liable, at the discretion of the Court, to pay any costs, charges, and expenses which, by reason of any such order having been obtained, shall be occasioned to any party to the suit or matter, or any person interested in any such stock, funds, shares, securities, or moneys.

258. Any person making a motion or presenting a petition for any such order as aforesaid shall not be required to serve notice of such motion or petition upon the parties to the suit, or upon the persons interested in such part of the stock, funds, shares, securities, or moneys, as are not sought to be affected by any such order.

## MONEY IN COURT AND SECURITIES.

259. All moneys paid into Court, in any estate, cause, or matter in Equity, shall be forthwith deposited in such bank as may for the time being be named by the Government of the Colony, in that behalf, to the credit of the Colonial Treasurer, at the rate of interest as arranged between the Court and the Colonial Treasurer: Provided that the Court may in its discretion invest any of the aforesaid moneys in Government debentures or stock of this or any other of the Australasian Colonies, or on real security in this Colony, or by deposit at interest in any incorporated bank carrying on the business of banking in Sydney which shall have been approved by the said Court: Provided that no such deposit shall be made in any bank in which the liability of the shareholders thereof is limited to the amount of their shares in the subscribed capital, or wherein there shall not exist a further liability to not less than the like amount.

260. Separate accounts shall be kept by the Master of all the estates, causes, or matters in respect of which any moneys shall have been paid to the credit of the Treasury, and of all payments thereout, whether for principal or interest.

261. The Master shall, in the months of January, April, July, and October, exhibit to the Primary Judge, and file in the Equity Office of this Court, accounts of all payments received by him, and by him paid into the said Bank to the credit of the Treasury, and of all payments made thereout by him within the preceding period of three months; and every such account shall also show the balance to the credit of each account and the balance in the Treasury or Bank to the credit of the Court at the commencement and termination respectively at such period. A certified copy of such account shall be forwarded to the Colonial Treasury for safe custody.

262. For every sum so deposited duplicate receipts shall be required of and given by the Colonial Treasurer, or by some Officer of the Treasury or Bank duly authorised by him on that behalf, of which one receipt shall be kept by the Officer making the payment, and the other shall be forthwith lodged in the Equity Office and entered in a book to be kept for that purpose.

263. No money so deposited shall be withdrawn or paid from the Treasury or the said Bank on its account otherwise than under the authority of a decree or order of the Court. Provided that the said Bank or the Colonial Treasurer shall not be bound to inquire whether any such decree or order has been made, or whether it sufficiently authorises such withdrawal or payment, but shall make payments under orders signed as hereinafter next mentioned.

264. No such withdrawal or payment shall be made by the said Bank or the Colonial Treasurer without an order signed by the Master or in his absence or illness by the Deputy-Registrar, or Chief Clerk respectively, and countersigned by the Accountant in Equity or in his absence by the Assistant Accountant.

265. Every such order shall be payable to order, but shall mention thereon the name of the cause, matter, or estate, in which or in respect of which the same is drawn: Provided that the said Bank or Colonial Treasurer shall not be bound to inquire into the correctness of such particulars.

266. Where the party to whom money exceeding £10 is ordered to be paid out of Court does not request payment thereof through the post, as in rule 273, hereafter mentioned, or attend the Equity Office in person, the power of attorney to receive the same must be in accordance with the provisions of the Act 17 Vict. No. 22. Provided that a common power of attorney without any declaration shall suffice where the money is paid on the day of the execution of such common power of attorney.

267. When any person is entitled under a decree or order to receive a dividend or any other periodical payments from the Master's office, and the Master requires evidence of life or of the fulfilment of any conditions affecting such payments, such evidence may be furnished by statutory declaration or affidavit to be filed in the Master's office.

268. Any order or other document by which payment of money is effected, when indorsed or signed by the payee or his lawful attorney, shall be a good discharge to the Master for the amount therein expressed. Provided that nothing herein contained shall prevent the Master from demanding a receipt for any payment made by him.

269. When money, debentures, or other securities in Court are by any decree (*or order*) directed to be paid, transferred, or delivered to any person (except he be entitled thereto as a trustee, executor, or administrator, or otherwise than in his own right or for his own use), such money, debentures, or other security, or any portion thereof, for the time being, remaining unpaid, or untransferred, or undelivered, may unless the decree (*or order*) otherwise directs, on proof of the death of such person, whether on or after, or in the case of payment directed to be made to creditors as such before the date of such decree (*or order*), be paid, or transferred, or delivered to the legal representatives of such deceased person, or to the survivors of them. If the Master is satisfied that no administration has been taken out to any such deceased person who has died intestate, and whose assets do not exceed the value of £100, including the amount of the money, debentures, or other securities directed to be so paid, transferred, or delivered to him, such money, debentures, or other securities may be paid, transferred, or delivered to the Curator of Intestate Estates to be administered by him.

270. When money in Court is by any decree (*or order*) directed to be paid to any persons described in the decree (*or order*), or in any certificate of the Master as co-partners, such money may be paid to any one or more of such co-partners, or to the survivor of them.

271. When money, debentures, or other securities in Court are by any decree (*or order*) directed to be paid, transferred, or delivered to any persons as legal representatives, such money, debentures, or other securities, or any portion thereof for the time being remaining unpaid, untransferred, or undelivered, may, upon proof to the satisfaction of the Master of the death of any of such representative, whether on or after the date of the decree (*or order*) directing such payment, transfer, or delivery, be paid, transferred, or delivered to the survivors or survivor of them.

272. No money, debentures, or other securities shall under the last two rules be paid, transferred, or delivered out of Court to the legal personal representatives of any person under any probate or letters of administration purporting to be granted at any time subsequent to the expiration of six years from the date of the decree (*or order*) directing such payment, transfer, or delivery, or in case such money, debentures, or other securities consist of interest or dividends from the date of the last receipt of such interest or dividends under such decree (*or order*).

## PAYMENTS TO BE MADE BY POST.

273. (a) When money (other than a periodical payment as in part (c) of this rule mentioned) is by a decree (or order) directed to be paid to a person who has an account at a Bank in this Colony, the Master shall remit the same by post by registered letter, upon receiving a request to that effect, together with a receipt for such payment in the proscribed form, and signed by such person and attested by a Justice of the Peace, a Commissioner for Affidavits, or a Notary Public. The order for such payment will be sent to the address stated in the request, and will be specially crossed to his account at the named Bank, and will not be negotiable.
- (b) When money not exceeding £500 (other than a periodical payment in part (c) of this rule mentioned) is by a decree (or order) directed to be paid to a person residing in this Colony who has not an account at a Bank in this Colony, the Master shall remit the same by post by registered letter to such person upon receiving a request to that effect, together with a receipt for such payment, both in the proscribed form, and signed by such person and attested in the same manner required in the preceding part of this rule (a). The order for payment will be sent to the address stated in the request, and will be crossed so as to be payable only through a Bank.
- (c) Any person residing within this Colony entitled under a decree (or order) to any interest, dividend, annuity, or other periodical payment may send to the Master a request in the proscribed form for the remittance of the same by post, from time to time, as it accrues due. Such request to be signed by such person and attested in the manner prescribed in the preceding parts of this rule (a and b), and the Master may then afterwards, as such periodical payment falls due (and upon receiving a receipt for each such payment together with evidence of life or of the fulfilments of any conditions of payment as referred to in rule 267) remit the same by post to the address stated in the request. The order for payment will be crossed so as to be payable only through a Bank.

Provided that the Master may refuse to make a remittance under this rule in any case in which he sees reason for so doing. And provided also that the transmission by post, upon a request, of any crossed order for payment shall be at the sole risk of the person at whose request it is sent.

Requests and receipts for payment under this rule, and notification of changes of addresses of persons entitled to periodical payments shall be in such form as may from time to time be prescribed by the Master with the approval of the Colonial Treasurer. The forms in Schedules L. M. N. have been duly settled by the Master and approved by the Colonial Treasurer.

## PROCEEDINGS UNDER THE STATUTORY JURISDICTION.

I.—*Trustee Relief and Security Act, 21 Vict. No. 7.*

274. Any Trustee desiring to pay money to the account of the Master, or transfer or deposit stock or securities, into or in the Master's name, under the Statute 21 Vict. No. 7, shall file an affidavit entitled in the matter of the trust and in the matter of the Act, and setting forth—

- (1) His own name and address.
- (2) The place where he is to be served with any petition or any notice of any proceeding or order of the Court relating to the trust fund.
- (3) The amount of money, stock, or securities which he proposes to pay, or transfer into, or deposit in Court to the credit of the trust.
- (4) A short description of the trust and of the instrument creating it.
- (5) The names of the persons interested in or entitled to the fund, to the best of the knowledge and belief of the trustee.
- (6) The submission of the trustee to answer all such inquiries relating to the application of the money, stock, or securities paid in, transferred, or deposited under the Act, as the Court may think proper to direct.

275. The Master, on production of the affidavit, shall give the necessary directions for payment, transfer, or deposit, and place the money, stock, or securities to the account of the particular trust; and such payment, transfer, or deposit shall be certified in the usual manner.

276. The Trustee having made the payment, transfer or deposit, shall forthwith give notice thereof to the several persons named in his affidavit as interested in or entitled to the fund.

277. Such persons, or any of them, or the Trustee, may apply by petition or motion, as occasion may require, respecting the investment, payment out, or distribution of the fund, or of the dividends, or interest thereof.

278. The Trustees shall be served with notice of any application made to the Court respecting the fund, or the dividends or interest thereof, by any person interested therein or entitled thereto.

279. The persons interested in or entitled to the fund shall be served with notice of any application made by the Trustee to the Court, respecting the fund in Court, or the interest or dividends thereof.

280. No petition shall be set down to be heard, and no motion made, until the petitioner or applicant has first named in his petition, or notice of motion, a place where he may be served with any petition or notice of any proceeding or order of the Court, relating to the trust fund.

281. Petitions presented, and notices of motions served and affidavits filed, and all proceedings had under the said Act, shall be entitled in the matter of the particular trust, and in the matter of the Act 21 Victoria No. 7.

282. Any order made, or direction given, by the Master in such matters may be discharged or varied by the Court; and the costs in every such matter shall be in the discretion of the Court, and shall be paid by such person or out of such fund as the Court shall direct.

II.—*Act 26 Vict. No. 12.*

283. All petitions, summonses, statements, affidavits, and other proceedings under the 30th section of the last-mentioned Act, shall be intitled in the matter of the particular trust, will, or administration, and in the matter of the Act 26 Victoria No. 12; and every such petition or statement shall state the facts concisely, and shall be divided into paragraphs numbered consecutively; and every summons shall, as nearly as may be, and except as to its title, be similar to the form set out in Schedule K. 284.

284. At the time when any such summons is issued, the statement upon which the same is grounded shall be filed in the Master's office.

285. Every such petition or summons shall be served eight clear days before the hearing thereof, unless the person served shall consent to a shorter time.

286. The opinion, advice, or direction of the Judge shall be passed and entered, and remain of record in the same manner as any order made by the Court or Judge; and the same shall be termed "a judicial opinion," or "judicial advice," or "judicial direction," as the case may be.

III.—*Charter of Justice, s. 18 and 11 Vict. No. 27.*

287. Upon every application for the appointment of a guardian to an infant, or for an allowance for his maintenance, the evidence to support the same must show the following particulars:—

1. The age of the infant.
2. The nature and amount of his property and income.
3. Where and under whose charge the infant generally resides, and at whose expense he is maintained.
4. What relations he has.
5. The position in life of such infant and of his parents.
6. The residence, age, and position in life of the proposed guardian.
7. Any other circumstances showing his fitness for that office.
8. The written consent of such proposed guardian to act.

288. Unless special circumstances require a reference for such appointment and allowance, the costs of an application to the Court for a direct appointment only will be allowed.

IV.—*Act 20 Vict. No. 2.*

289. Upon any application to obtain the sanction of the Court to an infant's making a settlement on marriage under the Act 20 Vict. No. 2, evidence must be produced in support of the same, showing the following particulars:—

1. The age of the infant.
2. Whether he has any parent or guardian.
3. With whom and under whose care he is living; and if no parent or guardian, what near relations such infant has.
4. The position in life of the infant and of his parents.
5. What his property consists of.
6. The age and position in life of the person whom such infant proposes to marry.
7. What property and income such person has.
8. The fitness of the proposed trustees under the settlement.
9. Their written consent to act.

290. The heads also of the proposed settlement must be specified in the petition, or in some affidavit in support of such application.

291. These regulations apply severally to all infants, female as well as male.

V.—*Acts 16 Vict. No. 19, 17 Vict. No. 4.*

292. Upon any application by petition, for the appointment of new trustees under the Trustee Acts of 1852 and 1853, the evidence to support the same must show the following particulars:—

1. The nature of the trusts still subsisting.
2. The nature and value of the property subject to such trusts.
3. The persons beneficially entitled.
4. The fitness of the proposed new trustees.
5. Their written consent to act.

293. Unless special circumstances require a reference for such appointment, the costs of an application to the Court for a direct appointment only will be allowed.

RULES AS TO TIME.

294. Where time is prescribed by these rules to any party to a suit for doing any act, he shall be allowed half as many more days if he resides above 100 miles from Sydney, and twice the stated number of days if he resides above 200 miles from Sydney: Provided that the Court may enlarge or abridge such time on sufficient cause shown.

295. Service of all writs, notices, summonses, orders, documents, and other proceedings not requiring personal service shall, unless otherwise ordered, be made before half-past 4 o'clock in the afternoon, except on Saturday, when it shall be made before 1 o'clock in the afternoon.

296. Where the Master is authorised to fix the time for doing any act, he may enlarge or abridge the time so fixed on sufficient cause shown.

297. Where any time from or after any date or event is appointed or allowed for doing any act or taking any proceeding and such time is not limited by hours, the computations of such time shall not include the day of such date or of the happening of such event, but shall commence at the beginning of the next following day, and the act or proceeding shall be done or taken at the latest on the last day of such time according to such computation.

298. Where the time for doing any act or taking any proceeding is limited by months, such time shall be taken to be calendar months.

299. Where any limited time less than eight days from or after any date or event is appointed or allowed for doing any act or taking any proceeding, Sundays and other days on which the offices are closed shall not be reckoned in the computation of such limited time.

300. Where the time for doing any act or taking any proceeding expires on a Sunday, or other day on which the office in which the act is required to be done or the proceeding to be taken is closed, and by reason thereof such act or proceeding cannot be done or taken on that day, such act or proceeding shall, so far as regards the time of doing or taking the same, be held to be duly done or taken, if done or taken on the day on which such office shall next open.

COSTS,

## COSTS, CHARGES, AND EXPENSES GENERALLY.

301. Where the Court appoints one of the solicitors of the Court to be guardian *ad litem* of an infant or person of unsound mind, the Court may direct that the costs to be incurred in the performance of the duties of such office, shall be borne and paid either by the parties or some one or more of the parties to the suit in which such appointment is made, or out of any fund in Court in which such infant or person of unsound mind may be interested; and may give directions for the repayment or allowance of such costs, as the justice and circumstances of the case may require.

302. Where costs are ordered to be paid to a party suing or defending *in forma pauperis*, such costs shall be taxed as ordinary costs, unless the Court shall otherwise direct.

303. Where the plaintiff is directed to pay to the defendant the costs of the suit, the costs occasioned to a defendant by any amendment of the statement of claim shall be deemed to be part of such defendant's costs in the suit, except as to any amendment which may have been made by special leave of the Court or which shall appear to have been rendered necessary by the default of such defendant, but there shall be deducted from such costs any sum which may have been paid by the plaintiff, according to the course of the Court, at the time of any amendment.

304. Where upon taxation a plaintiff, who has obtained a decree with costs, is not allowed the costs of any amendment of the statement of claim upon the ground of its having been unnecessarily made, the defendant's costs occasioned by such amendment shall be taxed, and the amount thereof deducted from the costs to be paid by the defendant to the plaintiff.

305. Where the Court is of opinion that any petition or affidavit, or any part thereof, is improper or of unnecessary length, the Court may direct the Master to ascertain the costs occasioned to any party thereby, and may make such order as is just for the payment or allowance of such costs.

306. Where the same solicitor is employed for two or more defendants, and separate statements of defence are filed, or other proceedings had, by or for two or more of such defendants separately, the Master shall consider in the taxation of such solicitor's bill of costs, either between party and party or between solicitor and client, whether such separate defence or other proceedings were necessary or proper; and, if he is of opinion that any part of the costs occasioned thereby has been unnecessarily or improperly incurred, the same shall be disallowed.

307. Where any party submits to exceptions for insufficiency, he shall pay to the excepting party twenty shillings costs if before the order of reference, and thirty shillings if before the report, unless other costs are specially certified by the Master. And, where the costs of suit are ordered to be paid to any party, the costs occasioned to him by the insufficiency of any answer to interrogatories shall be deemed to be part of such costs; any sum being deducted therefrom which shall have been paid to him upon the exceptions being submitted to, or the answer certified to be insufficient.

308. The plaintiff, having duly caused an appearance to be entered for any defendant, shall be entitled as against the same defendant to the costs of and incident to entering such appearance, whatever may be the event of the suit; and such costs shall be added to any costs which the plaintiff may be entitled to receive from such defendant, or be set off against any cost which he may be ordered to pay to such defendant; but payment thereof shall not be otherwise enforced without the leave of the Court.

309. Where no account, payment, conveyance, or other relief is sought against a party, but the plaintiff (or the defendant under a counter-claim) requires such party to appear to the statement of claim or counter-claim, the costs occasioned by such party having been required so to appear, and the costs of all proceedings consequent thereon, shall be paid by the party requiring such appearance, unless the Court shall otherwise direct.

310. Expenses incurred in consequence of affidavits being prepared or settled by Counsel shall be allowed only when the Master shall in his discretion, and on consideration of the special circumstances in each case, think such expenses properly incurred; and in such case he shall be at liberty to allow the same, or such parts thereof as he may consider just and reasonable, whether the taxation be between solicitor and client, or between party and party.

311. Where a suit which stands for hearing is called on to be heard, but cannot be decided by reason of a want of parties, or other defect on the part of the plaintiff, and is therefore struck out of the paper, and the same suit is again set down, the defendant shall be allowed the taxed costs occasioned by the first setting down, although he does not obtain the costs of the suit.

312. Where a suit, being in the paper for hearing, is ordered to be adjourned upon payment of the costs of the day, the party to pay the same shall pay the sum of ten pounds, unless the Court shall otherwise direct.

313. Where a party gives a notice of motion, and does not move accordingly, he shall pay to the other side costs to be taxed by the Master, unless the Court itself shall direct what sum shall be paid for costs.

314. Where two or more Counsel appear for the same party, upon the hearing of any suit or matter, and it appears to the Master to have been proper for the party to retain such Counsel to appear, the costs occasioned thereby shall be allowed.

315. Where costs are to be taxed as between party and party the Master may allow to the party entitled to receive such costs all such just and reasonable expenses as appear to have been incurred in

Advising with Counsel as to the institution or defence of the suit;

The service and execution of writs, and the service of orders, notices, petitions, and summonses;

Advising with Counsel on the pleadings, evidence, and other proceedings in the suit;

Procuring Counsel to settle and sign pleadings and such petitions and affidavits as may appear to be proper to have been settled by Counsel;

Procuring consultations of Counsel, and procuring the attendance of Counsel in the Master's Office where the Master may consider the case proper for Counsel to attend;

Procuring evidence by deposition or affidavit, and the attendance of witnesses, and supplying Counsel with copies of or extracts from necessary documents.

316. But, in allowing such costs, the Master shall not allow to such party any costs which do not appear to have been necessary or proper for the attainment of justice, or for defending his rights, or which appear to have been incurred through over-caution, negligence, or mistake, or merely at the desire of the party.

317. Any party who may be dissatisfied with the allowance or disallowance by the Master of the whole or any part of any item or items in any bill of costs may, at any time before the certificate is signed, deliver to the other party interested therein, and carry in before the Master, an objection in writing to such allowance, or disallowance, specifying in a short and concise form the matter objected to, and may thereupon apply to the Master for a summons to review the taxation in respect of the same.

318. Upon the application for such summons, or upon the return thereof, the Master shall reconsider and review his taxation upon such objection; and he may, if he shall think fit, receive further evidence in respect thereof; and, if so required by either party, he shall state either in his certificate of taxation, or by reference to such objection, the grounds and reasons of his decision thereon, and any special facts or circumstances relating thereto.

319. Any party who may be dissatisfied with the certificate of the Master, or with his allocatur, if the costs form a sum to be afterwards inserted in a report or certificate, may, as to any item or part of an item which may have been objected to, apply to the Court for an order to review the taxation as to the same, and the Court may thereupon make such order as to the Court shall seem just. But the certificate or allocatur of the Master shall be final and conclusive as to all matters which shall not have been so objected to.

320. Such applications shall be heard and determined upon the evidence which shall have been brought in before the Master; and no further evidence shall be received upon the hearing thereof, unless the Court shall otherwise direct.

321. Upon interlocutory applications, where the Court deems it proper to award costs to either party, the Court may order payment of a sum in gross, in lieu of taxed costs, and direct by and to whom such sum in gross shall be paid.

322. Where a suit or petition or a counter claim is dismissed with costs, or a motion is refused with costs, or any costs are by any general or special order or decree directed to be paid, the Master may tax such costs without any order referring the same for taxation; unless the Court, upon the application of the party alleging himself to be aggrieved, prohibits the taxation of such costs.

323. Where it is directed that costs shall be taxed in case the parties differ about the same, the party claiming the costs shall bring the bill of costs into the Equity Office, and give notice of his having so done to the other party; and at any time within eight days of such notice, such other party shall have liberty to inspect the same, if he thinks fit. And at or before the expiration of the eight days, or such further time as the Master shall in his discretion allow, such other party shall either agree to pay the costs, or signify his dissent therefrom, and shall thereupon be at liberty to offer payment of a sum of money for the costs. But, when he makes no such offer, or when the party claiming the costs refuses to accept such offer, the Master shall proceed to tax the costs; and when the taxed costs shall not exceed the sum offered, the costs of the taxation shall be borne by the party claiming the costs.

324. Where any costs are by any decree or order directed to be taxed, and to be paid out of any money in Court, the Master, in his certificate of taxation, shall state the total amount of all such costs as taxed.

325. There shall be no more than one Certificate of Costs under any decree or order unless the Master shall otherwise direct.

#### FEES, &c.

326. The amount of fees and allowances to Solicitors in reference to proceedings in Equity shall be those mentioned in the annexed scale.

#### TIME OF OPERATION, &c.

327. These rules shall come into operation on the 25th day of May, 1891, and may be cited as the "Consolidated Equity Rules of 1891."

From four shillings to eight shillings per day, in addition to the above-mentioned allowances, and in addition to the sum reasonably paid for travelling expenses.

SCHEDULES.

A.

(Referred to in Rule 60.)

FORM OF STATEMENT OF CLAIM.

In the Supreme Court }  
of New South Wales. }  
In Equity. }

Between John Lee Plaintiff and James Styles and Henry Jones Defendants.

Statement of claim :

1. The defendant James Styles being seized in fee simple of a farm called Blackacre in the parish of A in the County of B and Colony of New South Wales with the appurtenances did by an indenture dated the 1st of May 1870 and made between the defendant James Styles of the one part and the plaintiff of the other part grant and convey the said farm with the appurtenances unto and to the use of the plaintiff his heirs and assigns subject to a proviso for redemption thereof in case the defendant James Styles his heirs executors administrators or assigns should on the 1st of May 1871 pay to the plaintiff his executors administrators or assigns the sum of £5,000 with interest thereon at the rate of £5 per centum per annum as by the said Indenture will appear.

2. The whole of the said sum of £5,000 together with interest thereon at the rate aforesaid is now due to the plaintiff.

3. The defendant Henry Jones claims to have some charge upon the farm and premises comprised in the said indenture of mortgage which charge is subsequent to the plaintiff's said mortgage.

4. The plaintiff has frequently applied to the defendants James Styles and Henry Jones and required them either to pay the said mortgage debt and interest or else to release the equity of redemption of the premises but they have refused so to do.

5. The defendants James Styles and Henry Jones allege that there are some other mortgages charges or incumbrances affecting the premises but they refuse to discover the particulars thereof.

6. There are divers valuable timber and timber-like trees growing and standing on the farms and lands comprised in the indenture of mortgage of the 1st May 1870 which trees and timber are a material part of the plaintiff's said security and if the same or any of them were felled or taken away the said mortgaged premises would be an insufficient security to the plaintiff for the money due thereon.

7. The defendant James Styles who is in possession of the said farm has marked for felling a large quantity of the said trees and he has by hand-bills published on the 2nd December instant announced the same for sale and he threatens and intends forthwith to cut down and dispose of a considerable quantity of the said trees on the said farm.

The plaintiff prays as follows :—

1. That an account may be taken of what is due for principal and interest on the said mortgage.
2. That the defendants James Styles and Henry Jones may be decreed to pay to the plaintiff the amount which shall be so found due together with his costs of this suit by a short day to be appointed for that purpose or in default thereof that the defendants James Styles and Henry Jones and all persons claiming under them may be absolutely foreclosed of all right and Equity of Redemption in or to the said mortgaged premises.
3. That the defendant James Styles may be restrained by the injunction of this Honorable Court from felling cutting or disposing of any of the timber or timber-like trees now standing or growing in or upon the said farm and premises comprised in the said Indenture of Mortgage or any part thereof.
4. That the plaintiff may have such further or other relief as the nature of the case may require.

M.M.

Counsel for the plaintiff.

NOTE.—This statement of claim is filed by Messrs. B. & Co. 281 George-street Sydney solicitors for John Lee George-street aforesaid Esquire the above-named plaintiff.

B.

(Referred to in Rule 99.)

FORM OF STATEMENT OF DEFENCE.

In the Supreme Court }  
of New South Wales. }  
In Equity. }

Between John Lee Plaintiff and James Styles and Henry Jones Defendants.

Statement of defence of James Styles one of the above-named defendants.

I James Styles do on my oath say as follows :—

1. I do not know and am not able to admit that the contents of the indenture of the 1st day of May 1870 in the first paragraph of the plaintiff's statement of claim are correctly stated thereon and I crave leave to refer to the said indenture when produced.

2. I believe that the defendant Henry Jones does claim to have a charge upon the farm and premises comprised in the indenture of mortgage of the 1st day of May 1870 in the plaintiff's statement of claim mentioned.

3. Such charge was created by an indenture dated the 1st day of November 1870 between myself of the one part and the said defendant Henry Jones of the other part whereby I granted and conveyed the said farm and premises (subject to the mortgage made by the said indenture of the 1st of May 1870) unto the defendant Henry Jones for securing the sum of £2,000 and interest at the rate of £5 per centum per annum and the amount due thereon is the said sum of £2,000 with interest thereon from the date of such mortgage.

4. To the best of my knowledge remembrance and belief there is not any other mortgage charge or encumbrance affecting the aforesaid premises.

(Signed) JAMES STYLES.

By way of counter-claim the defendant James Styles states as follows:—

1. On the 1st day of August 1880 the defendant James Styles entered into a contract in writing with the plaintiff for the sale to him of a farm called Whiteacre in the county of C. and Colony of New South Wales containing 3,000 acres or thereabouts for the price of £5,000 and it was mutually agreed by and between the plaintiff and the said defendant that the said purchase money should be set off against the debt secured by the said indenture of mortgage of the 1st day of May 1870 and that the plaintiff should forthwith reconvey to the said defendant the said farm of Blackacre freed and discharged from the said mortgage debt.

The defendant James Styles prays as follows:—

1. That the plaintiff may be decreed specifically to perform his said contract and to reconvey to the defendant James Styles the said farm of Blackacre freed and discharged from the said debt secured by the said indenture of mortgage of the 1st day of May 1870 the said defendant being ready and willing to perform the said contract on his part.
2. That for the purpose aforesaid all proper directions may be given declarations made and accounts taken.
3. That the said defendant may have such further or other relief as the nature of the case may require.

S.W.,  
Counsel for the defendant,  
JAMES STYLES.

NOTE.—This statement of defence and counter-claim is filed by Messrs. E. and F. 500 Pitt-street Sydney solicitors or James Styles of Parramatta in the Colony of New South Wales one of the above-named defendants.

The above statement of defence was sworn by the above-named James Styles at Sydney this 1st day of August 1880 before me.

Master in Equity (or Chief Clerk or Commissioner, or Deputy Registrar).

## FORM OF REPORT OF CERTIFICATE OF MASTER IN EQUITY.

In the Supreme Court  
of New South Wales.  
In Equity.

Between A.B. Plaintiff and C.D. Defendant.

In pursuance of the Decree [or Order] made on the hearing of this Suit [or as the case may be] on the day of 18 I have been attended by the Solicitors [or by the Solicitors and Counsel as the case may be] for both sides and I have proceeded to take the accounts and make the enquiries ordered by the said Decree [or Order] and I find and certify as follows :—

1. The Defendant the Executor of the Testator has received personal estate to the amount of £ and he has paid or is entitled to be allowed on account thereof sums to the amount of £ leaving a balance due from [or to] him of £ on that account.  
The particulars of the above receipts and payments appear in the account marked verified by the affidavit of filed on the day of and which account is to be filed with this report [or certificate] except that in addition to the sums appearing on such account to have been received the said defendant is charged with the following sums [state the same here or in a Schedule] and except that I have disallowed the items of disbursement in the said account numbered and [or in cases where a transcript has been made] The defendant has brought in an account verified by the affidavit of filed on the day of and which account is marked and is to be filed with this report [or certificate] The account has been altered and the account marked which is also to be filed with this report [or certificate] is a transcript of the account as altered and passed.
2. The debts of the testator which have been allowed are set forth in the Schedule hereto and with the interest thereon and costs mentioned in the Schedule are due to the persons therein named and amount together to £ . . .
3. The funeral expenses of the testator amount to the sum of £ which I have allowed the said executor in the said account of personal estate.
4. The legacies given by the testator are set forth in the Schedule hereto and with the interest therein mentioned remain due to the persons therein named and amount altogether to £ . . .
5. The outstanding personal estate of the testator consists in the particulars set forth in the Schedule hereto.
6. The real estate to which the testator was entitled consists of the particulars set forth in the Schedule hereto.
7. The defendant has received rents and profits of the testator's real estate (in a form similar to that provided with respect to the personal estate).
8. The incumbrances affecting the testator's real estate are specified in the Schedule hereto.
9. The real estates of the testator directed to be sold have been sold and the purchase moneys amounting altogether to £ have been paid into Court.

[N.B.—Above numbers are to correspond with numbers in the decree.]

After each statement the evidence produced is to be stated as follows :—

The evidence produced on this account [or inquiry] consists of the probate of the testator's will the affidavit of A.B. filed and paragraph number of the affidavit of C.D. filed

## NEW SOUTH WALES.

## RULES OF THE SUPREME COURT.

(PROBATE JURISDICTION.)

Presented to Parliament, pursuant to Act 54 Vic. No. 25, sec. 112.

In the Supreme Court of New South Wales, }  
 PROBATE JURISDICTION. }

## REGULÆ GENERALES.

Tuesday, the 10th day of February, A.D., 1891.

In pursuance of the powers vested in us, we do order and direct as follows:—

## I. PRELIMINARY.

1. From and after the 14th day of February, 1891, all the Rules and Orders which have heretofore been made and established in the Ecclesiastical Jurisdiction of this Court shall be rescinded, and in lieu thereof the following shall constitute the Standing Rules of the Court.

2. Where none of the Rules now made shall be applicable, and in so far as they may be insufficient for carrying into effect the objects of the Probate Act of 1890, then the Rules and Practice of the Supreme Court in Equity in this Colony, in force at the date of the passing of these rules, shall be followed, as far as circumstances will admit, and in so far as such last-mentioned Rules and Practice are not opposed to anything contained in the Act or in these Rules.

3. In these Rules the following words have the several meanings hereby assigned to them, unless there be something in the subject or context repugnant to such construction, viz.:—

- (1) Words importing the singular number include the plural number, and *vice versa*, and words importing the masculine gender include females.
- (2) The words "Statement of Claim," includes information; and the word "Plaintiff," includes Informant.

186—A

- (3) The words "the Court" or "the Judge," mean the Probate Judge or any other Judge acting in that behalf sitting in Court or Chambers, unless the subject be a matter before the Court of Appeal.
- (4) The words "the Act," mean the Probate Act of 1890.
- (5) The words "the Registry," mean the Office of the Registrar of Probates.

## NON-CONTENTIOUS BUSINESS.

4. Notice of an intended application for Probate or Administration shall be in the forms numbered 1 and 2 in the Appendix hereto, and shall in all cases be inserted in one Sydney daily newspaper, and if the deceased was resident at the time of his death more than thirty miles from Sydney, then also in a newspaper circulating in the district where he so resided, and when such application is by petition, in the *Government Gazette* in addition.

5. The Registrar (or Master in Equity, on the direction of the Judge), may exercise the powers of the Court in and about the granting of probates and administration of estates not exceeding one thousand pounds in value, where no contentions have arisen: Provided that the Registrar shall, where any party interested may so desire, and in cases where any doubt or difficulty may arise, refer the matter to the Probate Judge sitting in open Court.

*Probate.*

6. Application for probates and administration may be made either on motion or by petition, but in the latter case the petition must be signed by the party applying, or his lawfully constituted attorney, and all papers in support thereof, shall be filed in the Registry.

7. Such applications may be made through a proctor, solicitor, or attorney, or in person by executors and parties entitled to grants of administration; but personal applications will not be received by letter, nor through the medium of any agent.

8. All applications for probate shall be supported by the following affidavits:—

- (1.) Of the death of the Testator.
- (2.) That the testator has left a will and the date thereof, the names of the executors or executor, the subscribing witness thereto, and that he left goods, chattels, credits, and effects and real estate (or real estate only) within the jurisdiction of the Court, and that the executors will well and truly administer the same.
- (3.) Of due attestation by one of the attesting witnesses to the said will.
- (4.) Of the publication of the notice of the intention to apply, of the search for a later will at the office of the Registrar-General, and that no caveat has been filed.
- (5.) Duplicate affidavits under Stamp Duties Act.

9. Application for administration of the estate of any deceased person shall be supported by a bond in the form, numbered 3 in the Appendix hereto, and by the following affidavits:—

- (1.) Of the death of the intestate.
- (2.) That he or she died intestate.
- (3.) That the intestate left either real or personal property (or both) within the jurisdiction, that the applicant is the husband, widow, or next of kin (or as the case may be), and the names and ages of the persons entitled in distribution to the estate of the deceased, and that the applicant will well and truly administer.
- (4.) Affidavit of justification by sureties.
- (5.) Duplicate affidavit under Stamp Duties Act.

10. In all cases where a creditor shall intend to apply for administration, he shall, previous to such application, issue a citation calling upon the husband or widow and next of kin of the deceased to appear and show cause why administration should not be granted to him, and shall before the return day of such citation prove his debt before the Registrar, and enter into a bond with two sureties or a Guarantee Company, approved by the Court, to well and truly administer the estate and to pay the debts *pro rata*, such bond to be in the form numbered 4 in the Appendix hereto.

11. Applicants for probate or administration in matters where the curator has obtained an order to collect shall give seven days' notice in writing to the curator of the intended application and shall at the same time lodge with the curator for inspection all documents in support of such application.

12. All applications by motion for probate or administration shall be set down for hearing before the Judge upon the day set apart for that purpose, but may, with the leave of the Judge, be heard on any motion day.

I.—As to Probate of Wills and Codicils, and Letters of Administration, with the Will (or Will and Codicils) annexed.

#### *Execution of a Will.*

13. If, on the affidavit or affidavits filed, it appears doubtful whether the will or codicil has been duly executed, the applicant may be required to bring the matter before the Judge in open Court.

14. If both the subscribing witnesses are dead, or if from other circumstances no affidavit can be obtained from either of them, resort must be had to

other persons (if any), who may have been present at the execution of the will or codicil; but if no affidavit of any such other person can be obtained, evidence on affidavit must be procured of that fact and of the handwriting of the deceased and of the subscribing witnesses, and also of any circumstances which may raise a presumption in favour of the due execution.

#### *Interlineations and Alterations.*

15. When interlineations, erasures, alterations, or obliterations appear in the will (unless duly executed, or recited in, or otherwise identified by the attestation clause), an affidavit or affidavits in proof of their having existed in the will before its execution must be filed, except when the alterations are merely verbal, and are evidenced by the initials of the attesting witnesses.

#### *Deeds, &c., referred to in a Will or Codicil.*

16. If a will contain a reference to any deed, paper, memorandum, or other document of such a nature as to raise a question whether it ought or ought not to form a constituent part of the will, the production of such deed, paper, memorandum, or other document will be required, with a view to ascertain whether it be entitled to probate; and, if not produced, its non-production must be accounted for.

#### *Appearance of the Paper.*

17. If there are any vestiges of sealing wax, or wafers, or other marks upon the testamentary papers, leading to the inference that a paper, memorandum, or other document has been annexed or attached to the same, they must be satisfactorily accounted for, or the production of such paper, memorandum, or other document must be required; and, if not produced, its non-production must be accounted for.

#### *Married Woman's Will.*

18. In applications for probate of a married woman's will, or for administration with such will annexed, evidence must be adduced of the power under which the will purports to have been made.

#### *Codicils.*

19. The above rules and orders respecting wills apply equally to codicils.

### II.—AS TO LETTERS OF ADMINISTRATION.

#### *Notice to other next of Kin.*

20. Where administration is applied for by one or some of the persons entitled to administration only, there being another or other next of kin equally entitled thereto, or a husband or wife of the deceased within the jurisdiction, their consent duly verified must be filed or evidence must be adduced of their having been served with notice of the application, or that they cannot be found.

#### *Grants of Administration to Guardians.*

21. Grants of administration *durante minore etate* may be made to guardians of infants for their use and benefit, subject to such limitations or conditions as the Court may order.

22. Infants above the age of seven years may elect a guardian, but in other cases a guardian must be assigned by the Court, and upon any application for administration by such guardian evidence of his election or assignment must be produced.

23. In a family where there are infants both above and under the age of seven years, an elected guardian may act for all the infants without special assignment.

#### *Administrator's Oath.*

24. Any person other than a creditor applying for administration, or for administration with the will annexed, shall state on oath his relationship to

the deceased person, and also the names of any person or persons having a right to the administration prior to or equal with himself.

#### *Administration Bonds.*

25. Administration bonds shall be attested by the Registrar or by a Commissioner or other person now or hereafter to be authorised to administer oaths; but in no case by the proctor, solicitor, attorney, or agent of the party who executes them. The signature of the administrator or administratrix to such bonds, if not attested by the Registrar, must be attested by the same person who administers the oath to such administrator or administratrix. Such administration bonds shall be in the forms numbered 3 and 4 in the Appendix hereto unless otherwise ordered by the Judge.

26. In all cases of administration, except in the case of a Guarantee Company, approved by the Court, or unless otherwise ordered, two sureties shall be required to the administration bond, and the bond given in the amount of the property to be placed in the possession of or dealt with by the administrator by means of the grant. And in every case the sureties to the bond must justify by affidavit, to the satisfaction of the Registrar.

27. All applications for the reduction of the amount of the bond, or for the modification of the last rule, must be made by motion in open Court, supported by affidavits of the facts relied on.

### III.—GENERAL RULES AND ORDERS.

#### *Time of issuing Grant.*

28. In every case where probate or administration is, for the first time, applied for after the lapse of six months from the death of the deceased, the reason of the delay is to be explained by affidavit when the application is made.

#### *Testamentary Papers to be Marked.*

29. Every will, copy of a will, or other testamentary paper, to which an executor or administrator with the will annexed is sworn, must be marked by such executor or administrator, and by the person before whom he is sworn.

#### *Renunciations.*

30. No person who renounces probate of a will or letters of administration of the estate and effects of a deceased person in one character, will be allowed to take a representation to the same deceased in another character.

#### *Citations.*

31. No citation shall issue under the seal of the Court until an affidavit, in verification of the averments it contains, has been filed in the registry.

32. Citations must be served personally when that can be done. Personal service shall be effected by leaving a true copy of the citation with the party cited, and showing him the original, if required by him so to do.

#### *Substituted Service.*

33. If personal service of citations or other proceedings cannot be effected by reason of the absence from the Colony of the person to be served, or if the Judge is satisfied by affidavit or other evidence on oath that such person is keeping out of the way to avoid such service, or that for any other cause prompt personal service cannot be effected, he may order substituted service to be made by the delivery of the proceedings to some adult inmate at his usual or last known residence or place of business, or by registered letter, or in such other manner as the Judge may direct.

#### *Notices to Crown Solicitor.*

34. In all cases where application is made for administration, either with or without a will annexed, of the goods of a bastard dying a bachelor, or a spinster, or a widower, or widow, without issue, notice of such application shall be given to the Crown Solicitor.

#### *Citation to bring in Testamentary Papers.*

35. Any person bringing in a will or testamentary paper, in obedience to a citation, shall deposit it at the registry, and may require a receipt therefor.

36. Any person served with a citation to bring in a testamentary paper may enter an appearance, on payment of the usual fees, if he thinks fit to do so.

#### *Time allowed for appearing to a Citation.*

37. The time fixed by a citation for entering an appearance to bring in a testamentary paper shall, in all cases, be exclusive of Sundays, Christmas Day, and Good Friday, or any public holiday.

#### *Petitions under the 36th Section.*

38. Notice of the petition of an administrator under the 36th section of the Act, or a case of partial intestacy, of an executor or an administrator with the will annexed, or of any person beneficially interested, shall be served personally on all parties beneficially interested, unless such service shall, upon application to the Court, be dispensed with; but in case any such person is an infant or is of unsound mind, and no committee of his person or estate has been appointed, or is out of the jurisdiction of the Court, or it is desired to serve notice on any such person within the jurisdiction of the Court in any other manner than above provided, or to dispense with service altogether, an application shall be made to the Judge in Chambers *ex parte* by the petitioner for directions as to the manner and mode of such service or otherwise, as to the Judge may seem fit.

39. All such petitions must be supported by affidavits setting out fully the circumstances of the case and the grounds upon which the order is applied for.

#### *Taxing Bills of Costs.*

40. Any bill of costs may be referred to the Registrar for taxation and no special order shall hereafter be required for the purpose.

#### *Filing and Passing Accounts.*

41. Every executor and administrator must, within twelve months after the grant of probate or administration, file in the Registry his accounts relating to the estate of the deceased, together with a plan of distribution where there is any balance available therefor, unless he shall obtain a special order from the Court extending the time for filing such accounts, and shall at the time of filing the said accounts take out an appointment for passing the same.

42. Notice of the filing of the accounts of any executor or administrator (in the form numbered 5 in the Appendix hereto), and of the day fixed for passing the same, shall be inserted in one Sydney daily newspaper, and if the person resided more than thirty miles from Sydney, in one local newspaper circulating in the district where the deceased was residing at the time of his death, fourteen days at least before the day fixed for passing the same, and if the said executor or administrator intend to apply for Commission, notice shall also be given of such intention.

43. In the case of an administrator, notice of the filing and the application to pass his accounts shall also be served on the sureties to the administration bond.

44. Any person wishing to object to the passing of the accounts of any executor or administrator, or the granting of Commission, shall file with the Registrar on or before the day fixed for the passing of such accounts, a notice of his intention to object, and also an affidavit stating his interest, and the nature and grounds of his objection.

45. Upon the taking of such accounts, the Registrar may make such order as to service upon any of the parties interested, as he may think fit.

46. Any person interested may attend before the Registrar upon the taking of such accounts.

47. Within fourteen days after the passing of the accounts by the Registrar, the accounting party shall enter such accounts for allowance by the Court, and for confirmation of the plan of distribution and allowance of commission, and in all cases where any objection shall have been taken before the Registrar, four days' notice of such application must be given to the objecting parties.

48. If an executor or administrator, or any other person interested, desires to appeal from the finding of the Registrar, on the passing of the accounts, he shall, four days before the day fixed for allowance by the Court, file a notice in the Registry, setting forth the nature and grounds of his appeal.

#### *Affidavits.*

49. Every application to the Court under the provisions of the Act must be supported by affidavit, which must be filed in the Registry at least two days before the application comes on to be heard, except where otherwise provided by these rules.

#### CONTENTIOUS BUSINESS.

##### *Caveat.*

1. Any person having any interest in an estate for which application is being made for probate or administration, and intending to oppose the same, must either personally or by his solicitor enter a caveat in the Registry; such caveat must be in the form numbered 6 in the appendix hereto and must state fully the nature of the interest of the caveator, and an address in Sydney where documents or notices may be served.

2. A caveat shall bear date on the day it is entered and shall remain in force for the space of six months only, and then expire and be of no effect, unless otherwise ordered.

##### *Statement of Claim.*

3. If the applicant for probate or administration does not see fit to obtain an *order nisi* under section 104 of the Act he shall within one month after notice of the filing of the caveat commence contentious proceedings by filing in the Registry a statement of claim in the form prescribed by the Consolidated Standing Equity Rules of the 29th June, 1883, and the 6th September, 1889, against the caveator as the defendant, and endorsed according to the form marked.

##### *Appearance.*

4. Appearance shall be entered by a defendant within eight days after service of the statement of claim at the address set out on his caveat.

When a defendant enters his appearance he shall file a memorandum to the effect either that he disputes the plaintiff's claim or that he merely intends to cross-examine the witnesses produced in support of the due attestation of the will.

##### *Default of Appearance.*

5. Where any defendant duly served with the Statement of Claim does not enter an appearance thereto within the time limited, the plaintiff may,

after seven days from the time so limited for appearing thereto, apply to the Court, on affidavit of service of the Statement of Claim, for a decree or order against the defendant in his absence.

##### *Statement of Defence.*

6. Every Statement of Defence must be filed within eight days after the time limited for appearance.

7. In a suit for probate, the statement of defence shall consist of the following defences alone, unless by leave of the Court, obtained on summons:—

i. That the paper writing, bearing date, &c., and alleged by the plaintiff (or defendant) to be the last will and testament (or codicil to the last will and testament) of A.B., late of, &c., deceased, was not duly executed according to the provisions of the Statute 1 Vic. c. 26, in manner and form as alleged.

ii. That A.B., the deceased in this cause, at the time his alleged will (or codicil) bears date, to wit, on the, &c., was not of sound mind, memory, and understanding.

iii. That the deceased at the time of the execution of the said alleged will (or codicil) did not know and approve of the contents thereof.

iv. That the execution of the said alleged will (or codicil) was obtained by the fraud of C.D., and others acting with him (setting out the fraud alleged).

v. That the execution of the said alleged will (or codicil) was obtained by the undue influence of C.D., and others acting with him.

And if the defendant desires to propound another will, he may, by leave of the Judge, do so by way of counter claim.

8. Upon the filing of the Statement of Defence, issue shall be deemed joined between the parties.

9. Copies of all pleadings shall be delivered at the address entered by both parties in the Registrar's office, which delivery shall be sufficient service, except where personal service is required; and all such copies shall be endorsed with the name and address so entered at the Registry.

##### *Orders.*

10. Minutes of all orders must be settled by the Registrar.

##### *Suits for the Revocation of Probate and Administration.*

11. In a suit for the revocation of probate or administration, proceedings shall be commenced by the issue of a citation in the form set forth in the appendix hereto against the party to whom the grant was made, requiring him to bring in and deposit the grant in the Registry; and within fourteen days after notice of such deposit the party issuing the citation shall file his statement of claim against the party cited, who shall be the defendant in the suit, and all subsequent proceedings shall be had and taken as in a contested suit for probate.

##### *Forms.*

12. The forms in the appendix hereto shall be followed in all proceedings under the Act, with such variations as the nature and circumstances of each particular case may require.

##### *Costs.*

13. The following scale shall be taken as the standing scale of costs to be allowed to Proctors for work done in connection with the obtaining grants of probates and letters of administration, and no further costs shall be allowed as a charge against an estate, provided that, in all cases where the Proctor

shall deliver a bill of costs to the executor or administrator (as the case may be), the Court may, on the application of the said Proctor, direct a taxation of such bill; but, if after taxation the said bill does not amount to the sum set out in the following scale, the costs of such taxation shall be paid by the said Proctor:—

Where the net value of the estate does not exceed £500 ... ..	S guineas.
Over £500, but not exceeding £1,000	10 "
" £1,000 " " £2,000	12 "
" £2,000 " " £5,000	15 "
" £5,000 " " £10,000	20 "
" £10,000 ... ..	25 "

*Scale of Fees.*

14. From and after the date hereof the following shall be the scale of fees chargeable in the probate jurisdiction of the Court:—

	£	s.	d.
Every search, including search for will deposited in Registrar-General's Office ... ..	0	1	0
Filing affidavit (except those in support of any application for probate or administration) ... ..	0	1	0
Filing account, including all necessary papers in support thereof, certificate, and order ... ..	0	15	0
Citation ... ..	0	5	0
Statement of claim ... ..	0	5	0
Statement of defence ... ..	0	5	0
Entering any appearance ... ..	0	3	6
Caveat ... ..	0	5	0
Setting down suit for hearing ... ..	0	10	0
Chamber summons ... ..	0	2	6
Notice of motion ... ..	0	2	0
Exemplification (including seal of Court)	1	0	0
Engrossing same if done in Registry (per folio) ... ..	0	0	8
Office copy of any will (per folio) ... ..	0	0	8
Office copy of any other document (per folio) ... ..	0	0	6
Attesting the execution of bond ... ..	0	2	6
Every order ... ..	0	2	6
Every decree ... ..	0	5	0
Filing any other document not specified	0	1	0
Taxing costs, whether in suits or between proctor and client ... ..	0	5	0
If exceeding one hour ... ..	0	2	6
Where bill exceeds thirty folios, for every thirty folios above the first thirty ... ..	0	5	0
Appointment to tax ... ..	0	1	0

*Power of Judge.*

15. The power of the Court and of the Judge sitting in Chambers to enlarge or abridge the time for doing any act or taking any proceeding, to adjourn or review any proceeding, and to give any direction as to the course of proceeding, shall be unaffected by these rules.

No. 3

*Administration Bond.*

Know all men by these presents, that we, of , in the Colony of New South Wales, and of in the Colony aforesaid, and of in the Colony aforesaid, are jointly and severally held and firmly bound unto Her Majesty the Queen, her heirs and successors, in the sum of pounds, of lawful British money, to be paid to Her said Majesty, her heirs and successors, for the due payment whereof we bind ourselves, and each and every of us, and for the whole, our heirs, executors, administrators, and assigns by these presents.

Dated this day of , in the year of our Lord one thousand eight hundred and ninety-

The conditions of the above-written bond or obligation are such, that if the above-bounden the intended administrator of all and singular the estate and effects of , late of , in the Colony aforesaid, shall well and truly administer, according to law, the estate and effects of the said deceased at the time of his death, and all other the estate and effects of the said deceased, which at any time hereafter, shall come into the hands or possession of the said , as such administrator into the hands or possession of any other person or persons for him. And further, shall make or cause to be made a true and perfect account of administration, within twelve months from the date of the grant of letters of administration, herein and afterwards from time to time as shall be lawfully required.

And all the rest and residue of the said estate and effects which shall be found from time to time remaining upon the said administration account (the same being first examined and allowed by the Court) shall, and do pay and dispose of in a due course of administration or in such manner as the said Court shall direct. Then the above-written bond or obligation to be void and of no effect otherwise to be and remain in full force and virtue. Provided always that a certificate or certificates under the hand of the Registrar of the said Court of the amount of which the said as such administrator as aforesaid is liable to pay and has not paid shall be sufficient and conclusive evidence against the said administrator, his heirs, executors, and administrators and against the above-bounden sureties, and each and every of them; and also as between the above-bounden sureties, and each and every of them, and Her Majesty the Queen, her heirs and successors of the truth of the contents of the said certificate or certificates and that the above-bounden sureties, and each and every of them, have had due notice of the passing of the said accounts as aforesaid, and that this bond has become forfeited by the said certificate or certificates to the amount of the sums therein respectively stated, and shall form a valid and binding charge and claim, not only against the said administrator, his heirs, executors, and administrators, but also about the above-bounden sureties, and each and every of them, and their respective estates without its being necessary for any legal or other proceedings to be first taken against the said administrator, his heirs, executors, or administrator for the recovery thereof; and without any further or other proof being given in any action, suit, or proceeding to enforce this bond against the above-bounden sureties, and each and every of them, or against the said administrator, his heirs, executors, or administrators, or by or on the part of the above-bounden sureties, and each and every of them, in any action or proceeding against the said administrator, his heirs, executors, or administrators of the amount of such damage or loss, or that the same has been sustained, incurred, or occasioned by and through the Act or default of the said administrator.

## No. 4.

*Administration Bond by Creditor.*

Insert after the word "him" in line 18 of the ordinary Bond the following clause:—

"And do out of the estate and effects of the said deceased which shall so come to and remain in his hands and possession, or in the hands or possession of any other person or persons for him, and, so far as the said estate and effects shall thereto extend, pay and satisfy all and singular the just debts of the said deceased in a due course of administration, ratably and proportionably, and according to the priority required by law, and not unduly preferring his own debt or the debts of any other of the creditors the of said deceased by reason of his being administrator as aforesaid."

## REGULÆ GENERALES.

The 4th day of May, A.D. 1891.

IN pursuance of the powers vested in us by the Act 54 Victoria No. 25, and of all other powers in that behalf enabling us, we do order and direct as follows:—

From and after the 8th day of May, 1891, all the Rules and Orders which have heretofore been made and established, relating to the collection and administration of estates of deceased persons by the Curator of Intestate Estates, shall be rescinded, and in lieu thereof the following shall constitute the Standing Rules of the Court:—

1. The present Curator of Intestate Estates, or any person who may hereafter be appointed Curator of Intestate Estates, shall, before entering upon the duties of his office, give security to Her Majesty and her successors, to the satisfaction of the Colonial Treasurer, in a bond in the Form No. 1 set forth in Schedule hereto to these Rules.

2. The Curator may appoint any person or persons he may think fit to act as his agent or agents in the

collection of estates, and such appointment shall be in the Form No. 2 Schedule hereto, and such agent not being a Clerk of Petty Sessions shall give security to the satisfaction of the Curator for the performance of his duties.

3. An application by the Curator to collect the estate of any deceased person shall be made upon petition, and shall be supported by an affidavit setting forth—(1) the death of the party; (2) the time and place thereof; (3) whether testate or intestate, leaving real or personal estate within the Colony of New South Wales, and that search has been made for a will of deceased in the office of the Registrar-General in Form No. 6, and whether any widow or next of kin, and any other particulars which may be deemed necessary.

(Forms of Petition Nos. 3, 4, 5, 6, and 7, and Affidavits Nos. 8, 9, and 10 Schedule hereto.)

4. Where the executors named in the will of a deceased person have renounced probate: Such renunciation shall be in Form No. 12 set forth in Schedule hereto and supported by affidavits in Forms Nos. 10 and 13, to which shall be annexed inventory of deceased's assets in form No. 5.

5. Where all the persons primarily entitled to administration have, by writing filed in the office of the Registrar, declined to apply for administration, such writing shall be in Form No. 12a in Schedule hereto, and a copy thereof shall be forthwith filed in the office of the said Curator.

6. Every applicant for probate of the will or administration of the estate of a deceased person of whose estate the Curator has obtained an order to collect, shall give seven days notice in writing to the Curator of his intended application in the Form No. 15 in Schedule hereto, and shall at the same time lodge with the Curator for inspection the documents in support of such application.

7. Whenever it shall be necessary to take any steps in connection with any estate being administered by the Curator, and whether the Curator shall be a party thereto or not, every petition, affidavit, summons, or other process shall be filed as of record in the office of the Curator; and any *ex parte* order calling upon the Curator to show cause obtained under section 81, shall state whether proof of the matter in relation to the complaint shall be heard orally or upon affidavit.

8. Upon the filing of the said order and affidavits it shall not be necessary for the Curator to serve copies of any affidavits made by him in reply, but he shall notify to the person obtaining such order the fact of such affidavits having been filed, and that copies thereof may be obtained upon payment of the fees set out in the Schedule to this Act.

9. Applications under sections 61, 86, and 95, for establishing the right or title of the husband, widow, or next of kin shall be by petition setting forth specifically the grounds on which such husband, widow, or next of kin claim to be entitled in distribution, which petition shall be verified by affidavit: Such petition and affidavit shall be filed in the office of the Curator at least seven days before the day appointed for hearing thereof.

10. Upon the receipt of every such petition and affidavit in support thereof, the Curator shall examine the same, and if he considers the evidence adduced in support of the claim in such petition sufficient he shall report thereon and forward same to the Probate Judge for his consideration and determination; but if the Curator consider the evidence insufficient, he shall call for such further or additional evidence as he may deem sufficient, subject to the right of any party to except to the ruling of the Curator and to take the decision of the Judge thereon.

11. Where the Curator shall have been authorised to sell or mortgage real estate it shall not be necessary for him to enter into any bond in respect of the moneys to be received by him.

12. Every order made by the Judge in any estate (except orders to collect) shall be settled by the Curator, and the party having the carriage of such order shall take out a summons in the Form No. 16, Schedule to these Rules, to settle the same within ten days after the making thereof.

13. The practice as to settling orders and carriage thereof shall be as far as practicable the same as at Equity.

14. All writs of subpoena shall be in the forms used at Common Law, with such alterations and variations as circumstances may require, and shall be sealed with the official seal of the Court or Curator, and tested in the name of the Probate Judge.

15. Every summons and writ shall be signed by the Curator or the Chief Clerk.

16. The practice as to the issue and service of subpoenas shall be as far as practicable the same as at Equity.

17. The Curator shall tax the costs of any proceedings taken in any estate being administered by him, but where he shall be a party to such proceedings he shall refer any bill of costs for taxation to the Master or Deputy Registrar in Equity, and the certificate of the Master or Deputy Registrar of such taxation shall be conclusive, and the practice as to taxation of costs and remedies therefor shall be as far as practicable the same as at Equity.

18. The Curator shall on the first and fifteenth days in each month (or on the next day if either of such days be a Sunday or holiday) pay into the Treasury all fees and commission on all moneys collected by him or his agents, after deducting therefrom all expenses and an allowance not exceeding £3 per centum by way of commission to his agents in respect of all moneys collected by them.

19. Every order for the payment of money upon the bank approved of by the Court and Colonial Treasurer shall mention therein the name of the estate in respect of which the same is drawn, and shall bear the endorsement of the person receiving same.

20. The Curator shall, after the expiration of six months from the date of the order for collection of any estate, apply by petition to the Court for an order empowering him to invest the moneys standing to the credit of such estate at that date, and until or in the event of no such order being obtained, the Curator shall invest all moneys belonging to such estates in Government Debentures of New South Wales, or deposit same at interest in any incorporated bank carrying on the business of banking in Sydney, which shall have been approved of by the said Court.

21. When any order for investment of moneys standing to credit of an estate shall have been made, or where such moneys shall have been invested or deposited at interest by the Curator as aforesaid, such interest shall be ratably credited against each sum or distributive share, and added thereto on the 31st day of December in each and every year.

22. When any balance at credit of an estate or any distributive share shall be paid, interest (if allowable) shall be added thereto up to the end of the quarter next preceding such payment.

23. In all matters not herein provided for the rules of practice and procedure in Equity for the time being in force shall so far as practicable apply.

#### SCHEDULE A.

##### No. 1.

KNOW all men by these presents that we and \_\_\_\_\_, gentlemen, are severally held and firmly bound unto The Honorable the Colonial Treasurer, his successors and assigns in and for the Colony of New South Wales, in the several sums next mentioned, that is to say, the said \_\_\_\_\_ in the sum of two thousand pounds, the said \_\_\_\_\_ in the sum of one thousand pounds, and the said \_\_\_\_\_ in the sum of one thousand pounds each, the said several sums to be paid to the said

Colonial Treasurer, his successors and assigns, for which payment to be made by us severally and respectively we do severally bind ourselves (each of us by himself) and our respective heirs, executors, and administrators, firmly by these presents. Sealed with our respective seals.

Dated at Sydney, in New South Wales, this \_\_\_\_\_ day of \_\_\_\_\_, in the year of our Lord one thousand eight hundred and \_\_\_\_\_

Whereas the said \_\_\_\_\_ has, in pursuance of the Act 54 Victoria No. 25, been appointed Curator of Intestate Estates, subject to the giving of this security by him for the performance of the duties of that office: Now the condition of this obligation is such that if the said \_\_\_\_\_ do, and shall in all things and at all times hereafter well and faithfully perform the duties of the said office and appointment of Curator of Intestate Estates, and do and shall duly and faithfully account for and pay over all such sums of money as he shall from time to time receive, and do and shall account for and distribute and dispose of all such goods and property as may at any time come into his hands as such Curator according to the duty of such office, or as he shall from time to time receive and do, and shall account for and distribute and dispose of all such goods and property as may at any time come into his hands as such Curator, according to the duty of such office, or as he shall be from time to time required by the Supreme Court of New South Wales, and shall not at any time retain or appropriate to his own use or for the benefit of any other person not by law entitled thereto, any such moneys, goods, or property, then this obligation shall be void, but otherwise it is to remain in full force.

Signed, sealed, and delivered by the said \_\_\_\_\_, in the presence of,—

## NEW SOUTH WALES.

## SALE AND USE OF POISONS ACT, 1876.

(BOARD OF PHARMACY—REGULATIONS.)

Presented to Parliament, pursuant to Act 40 Vic. No. 9, sec. 21.

Colonial Secretary's Office, Sydney, 28 January, 1891.

## BOARD OF PHARMACY—REGULATIONS.

THE following Regulations, made by the Board of Pharmacy under the "Sale and Use of Poisons Act, 1876," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

## RULES AND REGULATIONS OF THE PHARMACY BOARD OF NEW SOUTH WALES.

## REGISTRATION OF CHEMISTS AND DRUGGISTS.

EVERY Chemist and Druggist being a bona fide member of the Pharmaceutical Society of New South Wales shall, on payment of the usual fee of £1, be entitled to registration as a Chemist and Druggist under the Sale and Use of Poisons Act.

*Dealers in poisons other than Chemists and Druggists.*

All persons dealing in poisons other than chemists and druggists shall renew their licenses on the 1st day of February in each year, subject to the approval of the Board of Pharmacy, which Board consists of the Medical Adviser to the Government, the President of the Medical Board of New South Wales, and the members of the Council of the Pharmaceutical Society of New South Wales.

The Board shall meet on the first Tuesday in each month, or oftener if requisite,—four members of the Board to form a quorum.

The Board shall from time to time recommend to the Government, as occasion may require, any competent person to the position of Registrar.

The names of all members of the Board shall be forwarded to the Government by the Registrar on or before the 30th December in each year, for publication in the *Government Gazette*.

All vacancies on the Board through death, or resignation, or any other cause, shall, as soon as possible after, be forwarded to the Government for publication in the *Gazette*.

The name of any person appointed to fill any vacancy on the Board shall, as soon as possible thereafter, be forwarded to the Government for publication in the *Government Gazette*.

*Examination Fees.*

Apprentices, £2 2s.; assistants, £3 3s.

*Mode of conducting Examination.*

Examinations shall be conducted in the months of June and December in each year, or more frequently if the Board shall so direct. These examinations shall take place before, and be conducted by examiners to be appointed from time to time by the Pharmacy Board, and the subjects for examination shall be as follows:—Apprentices as per Synopsis No. 1; assistants No. 2.

## SYNOPSIS OF EXAMINATION No. 1.

Every person, must, before entering into articles of agreement to be an apprentice, pass a preliminary examination in the following three subjects. The examination is a written one, and comprises:—

LATIN.—Grammar. Translation of simple sentences from English into Latin. Translation into English of a paragraph from *De Bello Gallico*, Book I, or *Virgil—Æneid*, Book I.

ENGLISH.—Grammar and Composition.

ARITHMETIC.—Including first four Rules, Simple and Compound Vulgar and Decimal Fractions, and Simple and Compound Proportion. Thorough knowledge of the British and Metrical System of Weights and Measures.

These subjects may be varied or added to from time to time as the Board directs.

Every person who shall have obtained a certificate of having passed the preliminary examination, and who shall also have entered into articles of agreement as an apprentice, shall, on production of such certificate and of such articles of agreement, and upon payment of the fee of one guinea, be entitled upon application to the Registrar, within three months of the date of such articles, to have his name placed upon the Register of Apprentices.

If the candidate lodges a certificate that he has at a Matriculation Examination passed in the above or corresponding subjects, he shall not be required to pass this examination, provided the university, school, or college at which he has passed the examination is approved of by this Board.

## SYNOPSIS OF EXAMINATION No. 2.

This examination shall include Prescriptions, Practical Dispensing, Materia Medica, Botany, Pharmacy, and Chemistry.

The candidate must give to the Registrar notice of his intention to present himself for examination, and pay the fee of three guineas ten days prior to the day of examination.

Candidates for this examination must have passed the preliminary examination (or its equivalent).

In the case of a rejected candidate he may present himself for re-examination after a period of three months.

Each candidate must make a statutory declaration that for at least three years he has been registered and employed as an apprentice to a qualified chemist, keeping open shop for the compounding and dispensing of physicians' prescriptions.

The candidates will be examined in the following subjects:—

*Prescriptions.*

The candidate is required to read, without abbreviation, autograph prescriptions; translate them into English; and render a literal as well as an appropriate translation of the directions for use. To detect errors, discover unusual doses, and have a general knowledge of Posology; also, to render in good Latin ordinary prescriptions written in English.

*Practical Dispensing.*

To weigh, measure, and compound medicines; write the directions, in concise language, in a neat and distinct hand; to finish and properly direct each package. (In awarding marks in this subject the time taken by the candidate in doing the work is taken into account.)

*Pharmacy.*

To recognise the preparations of the Pharmacopœia which are not of a definite chemical nature, and have well-marked physical characters—such as extracts, tinctures, powders, &c.; to give the proportions of the active ingredients; and possess a *practical* knowledge of the processes, and the principles of the processes, by which they are made, and of the best excipients and methods of manipulation for forming emulsions, pills, &c.

*Materia Medica.*

To recognise specimens of roots, barks, leaves, fruits, resins, gums, animal substances, &c., used in medicine; give the botanical and zoological names of the plants, &c., yielding them, and the natural families to which they belong; name the countries and sources from which they are obtained, the official preparation into which they enter, and judge the quality and freedom from adulteration or otherwise of the specimens. It will also comprise a *practical* knowledge of the methods of estimating the value of important drugs, of obtaining their active proximate constituents in a separate state, of identifying them and ascertaining their purity or impurity by tests.

*Botany.*

This comprises an intimate acquaintance with the parts of the flower, fruit, and seed; the functions and mode of arrangement of the different organs of plants; a knowledge of the general principles of classification, and of the Linnæan and De Candolle's systems. The candidate must be able to distinguish, practically, between each of the following natural orders: Ranunculaceæ, Papaveraceæ, Cruciferae, Malvaceæ, Leguminosæ, Rosaceæ, Cucurbitaceæ, Umbelliferae, Compositæ, Geraniaceæ, Convolvulaceæ, Solanaceæ, Atropaceæ, Labiate, Scrophulariaceæ, Polygonaceæ, Euphorbiaceæ, Orchidaceæ, Iridaceæ, Liliaceæ, Melanthaceæ, Graminaceæ; and refer to their respective orders such specimens as may be shown to him.

*Chemistry.*

This comprehends an intimate knowledge of the laws of chemical philosophy; a *practical* knowledge of the nature and properties of the elements and their compounds, both organic and inorganic, especially those used in medicine or the arts. The different combinations and decompositions must be explained by equations. Also, the *qualitative* analysis of the more important chemicals—*e.g.*, Nitrates, Chlorides, Carbonates, Sulphates, Phosphates, Oxalates, Tartrates, &c., and the detection of impurities in them; and the *volumetric* estimation of the strength of all pharmacopœia preparations in which standard solutions are ordered to be used. An elementary knowledge of the properties of light, heat, electricity, and magnetism is also required.

These subjects may be varied or added to from time to time as the Board directs.

*Text Books.*

The following are the Text Books prescribed by the Board:—

“The British Pharmacopœia.”

Pereira's “Materia Medica,” edited by Professors Bently and Redwood.

Bentley's “Manual of Botany.”

Squire's “Companion to British Pharmacopœia.”

Attfield's “Chemistry—General, Medical, and Pharmaceutical.”

Fownes' “Manual of Chemistry.”

Proctor's “Pharmacy.”

CHARLES M'KAY, M.D., President.

F. NORTON MANNING, M.D., Medical Adviser to the Govt.

T. B. MELHUSH, President, Pharm. Society.

RICHARD THOS. BELLEMEY.

WILL. H. M'CARTHY.

LE. P. WILLIAMS.

H. S. BROTHWOOD.

(ADDITIONAL REGULATIONS FOR GIVING EFFECT TO PROVISIONS OF 4 VICTORIA NO. 29, 37 VICTORIA NO. 14, AND THE "CRIMINAL LAW AMENDMENT ACT OF 1883," 45 VICTORIA NO. 17.)

Presented to Parliament, pursuant to Act 37 Vic. No. 14, sec. 9.

Department of Justice,  
Sydney, 26th February, 1891.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Additional Regulations for giving effect to the provisions of 4 Victoria No. 29, 37 Victoria No. 14, and the "Criminal Law Amendment Act of 1883," 46 Vic. No. 17.

ALBERT J. GOULD.

ADDITIONAL REGULATIONS for giving effect to provisions of 4 Victoria No. 29, 37 Victoria No. 14, and the "Criminal Law Amendment Act of 1883," 46 Vic. No. 17.

1. Prisoners under sentences to penal servitude, or to hard labour on the roads and public works, or to imprisonment with hard labour, will become eligible for employment upon the public works at Trial Bay Prison under the following conditions, viz.:—Prisoners under sentences from three to five years, who have not been punished for misconduct within the previous six months, and who are favourably recommended by the Gaolers, at a period twelve months before they would become eligible for discharge under the ordinary remission regulations, and in anticipation of such discharge; in sentences of five to ten years similarly at a period of eighteen months anterior to discharge; in sentences of ten years and upwards at a period of two years anterior to discharge.

2. The Governor may, under exceptional circumstances, direct the employment at the Prison of any offender at any period of his sentence, and for such period as the Governor may fix.

3. The authority for the granting of the privilege of the modified servitude at the Prison will be issued by the Governor, and the privilege may be withdrawn by the Governor at discretion. Any prisoner who through misconduct may have rendered it desirable that he be returned to an ordinary Gaol, shall have the cost of his transfer deducted from the monetary reward which he may have earned during his servitude at the Prison.

4. The prisoners shall occupy such quarters as may be assigned to them, and shall be liable to ordinary prison punishment for any offences or disorder in like manner as in other prisons, and shall be subject to all the rules laid down for their treatment by the Comptroller-General of Prisons, authorised by the Minister of Justice.

5. The prisoners shall be supplied with rations according to the scale subjoined, and with clothing other than the Prison pattern.

6. They will further be allowed reward in money on accomplishment of specified tasks, or on the recommendation of officers directing their work, according to the authorised scale. The money so allowed will be credited to them from time to time until their discharge; but they will be allowed, at the

discretion of the Superintendent, a certain proportion, not to exceed one-third, for the purchase of extra articles of consumption. Those who may wish to do so may also remit money, subject to the approval of the Superintendent, to any immediate relatives who are in destitute circumstances; but such remittances must not exceed one-third of the total amount earned. Those who may avail themselves of this concession will still be permitted to expend the proportion allowed for extra articles of consumption.

7. All prisoners to be eligible for the prison will have to be passed as physically fit for quarrying, or other such labour, by the Surgeons of the prisons, and the favourable recommendation of the Gaolers must express a belief that the prisoner will conduct himself properly, and not abuse the privilege.

8. In case of prisoners who may not be eligible, either from physical or other causes, and therefore have to serve their sentence in ordinary prisons, the consideration will be allowed of an additional remission period beyond that specified in the Prison Regulations, on the following scale:—

In sentences of from 3 to 5 years—2 months.  
" " 5 to 10 years—4 months.  
" " 10 years and upwards—6 months.

9. Prisoners serving sentences under convictions for unnatural offences shall not be eligible for the privileges of the Prison, unless under very exceptional circumstances; but they shall be entitled to receive the additional remission provided for under condition 8.

Daily Scale of Rations for Prisoners at Trial Bay, referred to in condition No. 5:—

1 lb. bread, of fine wheat and maize flour, in the proportion of  $\frac{1}{3}$  of the latter.  
1½ lb. fresh meat.  
1 lb. vegetables.  
 $\frac{1}{2}$  oz. salt.  
 $\frac{1}{2}$  oz. soap.  
1 oz. rice.  
1 oz. sugar.  
 $\frac{1}{2}$  oz. tea.  
2 oz. tobacco, weekly.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

---

**CROWN LANDS ACT OF 1889.**

(REGULATION No. 133, SUBSTITUTED FOR SAME NUMBER NOW IN FORCE.)

---

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

---

Department of Lands, Sydney, 17 February, 1891.

Hrs Excellency the Governor, with the advice of the Executive Council, has been pleased to substitute the following Regulation, No. 133, under the "Crown Lands Act of 1889," for the Regulation bearing the same number at present in force under the said Act.

[Ms. Ls. 91-748.]

JAMES N. BRUNKER.

---

REGULATION NO. 133—ANNUAL LEASES.

Applications for annual leases of vacant Crown Lands not reserved from lease or license shall be made on Form 43, and shall be lodged with the Land Agent during office hours on any business day not being a Thursday or public holiday. The application shall be accompanied by a deposit which, in the case of annual leases offered for sale at auction and not bid for, shall be the amount of the upset rent, and in any other case shall be at the rate of £2 for every 640 acres or less area. If the application be withdrawn or refused the Minister may deduct from such deposit any costs incurred in dealing with the application, and the balance shall be refunded. When two or more complete applications for annual leases tendered at the same time to the Land Agent appear to him to be conflicting, or afterwards prove to be so, the priority of such applications shall be determined by ballot, as provided by Regulations 61 and 62 in the case of conflicting conditional purchase or conditional lease applications. Immediately after the ballot any applicant other than the applicant first in priority may withdraw his application, and obtain from the Land Agent a refund of all moneys paid in connection therewith.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

---

**CROWN LANDS ACT OF 1889.**

(REGULATION No. 161, SUBSTITUTED FOR SAME NUMBER NOW IN FORCE.)

---

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

---

Department of Lands, Sydney, 28 January, 1891.

His Excellency the Lieutenant-Governor, with the advice of the Executive Council, has been pleased to substitute the following Regulation, No. 161, under the Crown Lands Act of 1889, for the Regulation bearing the same number at present in force under the said Act.

[ML. 91-1,060.]

JAMES N. BRUNKER.

---

161. Any holder of a miner's right or mineral license may make application for a residential lease of Crown Lands within a gold or mineral field on Form 48 to the Land Agent of the Land District in which the lands applied for are situated, during office hours upon any business day, not being a Thursday or public holiday. Every such application shall be signed and tendered by the applicant in person, or by his agent duly authorised, for either or both purposes, in writing, and shall be accompanied by a deposit of £1, a survey fee according to the scale set forth in regulation 56, and a provisional rental, calculated at the rate of 1s. per acre or anything less than one acre of the land applied for. Measured portions shall be taken in portions as measured, and shall be so described, but measured portions and unmeasured lands may be applied for together: Provided that in every case, whether the land applied for is measured or unmeasured or both, the Board shall have power to modify or vary the boundaries, area, or confirmation thereof.

1891.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

CROWN LANDS ACT OF 1889.

(REGULATIONS NOS. 273 AND 274, SUBSTITUTED FOR SAME NUMBER NOW IN FORCE.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

Department of Lands,  
Sydney, 21st April, 1891.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations, viz., Nos. 273 and 274 under the Crown Lands Acts, being substituted for those at present in force bearing the same numbers; and of an Additional Form in connection therewith, viz., No. 73, hereunder set out.  
[Ml. 91-4,652 Dep.]

JAMES N. BRUNKER.

REGULATION No. 273.

Where a homestead lease is, before the expiration of the prescribed term of residence, transferred by way of mortgage or security, a statutory declaration in Form 73 as to the existence of the mortgage shall be made by the transferee, and be lodged with the transfer.

REGULATION No. 274.

Every holder of a pastoral lease who proposes to be registered as the holder of a homestead lease, and every holder of a homestead lease who proposes to be registered as the holder of another homestead lease, and every holder of a homestead lease who proposes to be registered as the holder of a pastoral lease shall, with his transfer, lodge a statutory declaration in Form 73, showing whether such transfer is by way of mortgage or not; and if it be by way of mortgage, what and whose moneys are intended to be secured thereby, and what portion of such moneys has already been advanced. The Minister may in any case require full particulars to be furnished and verified by statutory declaration as to all other pastoral and homestead leases held by the intending transferee, and as to all mortgages affecting such leases. It shall be in the discretion of the Minister whether he will allow any such transfer to be registered, and any registration obtained by fraud may be cancelled after notice has been given to the parties concerned.

FORM 73.

Crown Lands Acts. Regulations 273 and 274.

*Declaration to accompany a Transfer by way of Mortgage of a Lease.*

I [Mortgagee's name in full] of [Residence and occupation] do hereby solemnly declare and affirm that the transfer of [Lease or license] known as [Description of Holding transferred] No.            in the District of            by            to me is by way of bona fide mortgage only, and is taken for the purpose of securing the repayment of the sum of            pounds            shillings and            pence, of which            pounds            shillings and            pence have already been advanced to the said            and for no other purpose whatever; and I also hereby solemnly declare and affirm that I [If no other leases or licenses are held insert the words "do not." If otherwise, leave blank] hold [If no other leases or licenses are held insert the word "any." If otherwise, state the number] other [State class of lease or license held. If not held insert "lease" or "license"] by way of mortgage or security. And I make this solemn declaration as to the several matters aforesaid according to the law in this behalf made, and subject to the punishment by law provided for any wilfully false statement in any such declaration.

(Signature of Declarant).....

Made before me at            this            day  
of            189 .

[Must be attested by a Magistrate, Commissioner of the Supreme Court for taking Affidavits, Notary Public, or Land Agent.]

## NEW SOUTH WALES.

## CROWN LANDS.

(DEDICATION OF CERTAIN LANDS UNDER THE ACT 48 VIC. NO. 18, SEC. 105.

Presented to Parliament, pursuant to Act 48 Vic. No. 18, sec. 105

Department of Lands,  
Sydney, 15th May, 1891.**PROPOSED RESUMPTION OF ROMAN CATHOLIC CHURCH AND PRESBYTERY SITES AT MURWILLUMBAH, AND DEDICATION FOR GENERAL CEMETERY EXTENSION AND ROMAN CATHOLIC CHURCH PURPOSES IN LIEU.**

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Roman Catholic Church and Presbytery sites at Murwillumbah, area 1 acre 2 roods, viz., allotments Nos. 2 and 3 of section 14, dedicated 23rd September, 1881, and hereunder described, with a view to dedication of an area of 3 acres and 30 perches, to include the above, for extension to General Cemetery, and an area of 1 acre 1 rood 22 perches, also hereunder described, for Roman Catholic Church purposes in lieu.

[Ms. 90-19,252] JAMES N. BRUNKER.

## DESCRIPTIONS.

Roman Catholic Church and Presbytery sites proposed to be resumed.

County of Rous, parish of Murwillumbah, village of Murwillumbah, 1 acre 2 roods, allotments 2 and 3 of section 14: Commencing at the south-eastern corner of the section; and bounded thence on the south by Murwillumbah-street bearing west 6 chains; on the west by the eastern boundary of allotment 1 bearing north 2 chains and 50 links to a lane; on the north by that lane bearing east 6 chains to Polding-street; and on the east by that street bearing south 2 chains and 50 links, to the point of commencement,—shown on plan catalogued C. 861-1,984.

General Cemetery Extension proposed to be dedicated.

County of Rous, parish of Murwillumbah, village of Murwillumbah, containing an area of 3 acres 0 roods and 30 perches. The Crown Lands within the following boundaries: Commencing at the intersection of the north side of Murwillumbah-street with the west side of Polding-street; thence by the west side of the latter street bearing north 5 chains 31 links to the south-east corner of show ground, portion 49; thence by part of the south boundary of that portion west 6 chains to the north-east corner of General Cemetery, dedicated 14th October, 1881; thence by the east boundary of the General Cemetery south 5 chains 31 links to the north side of Murwillumbah-street; and thence by part of that side of that street east 6 chains, to the point of commencement,—being allotments 2, 3, 5, 6, 7, 8 of section 14 and intervening lanes,—as shown on plan catalogued Ms. 169 Grafton.

Area proposed to be dedicated for Roman Catholic Church purposes.

County of Rous, parish of Murwillumbah, village of Murwillumbah, containing an area of 1 acre 1 rood 22 perches: Commencing at the intersection of the north side of Murwillumbah-street with the eastern side of Waterloo-street; thence by the eastern side of the latter street north 44 degrees 35 minutes east 7 chains 45 links; thence south 5 chains 31 links to the north side of Murwillumbah-street aforesaid; thence by that side of that street west 5 chains 23 links, to the point of commencement,—as shown on plan catalogued M. 11-2,112.

Department of Lands,  
Sydney, 22nd May, 1891.**PROPOSED RESUMPTION OF RECREATION RESERVE AT GUNDAGAI NORTH, AND DEDICATION FOR RACECOURSE IN LIEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land at Gundagai North, area 123 acres, dedicated on the 12th March, 1869, for public recreation, and hereunder described, with a view to the dedication in lieu of 268 acres in the same locality, to include the above, for racecourse.

[Ms. 91-2,594 Dep.]

JAMES N. BRUNKER.

## DESCRIPTIONS.

Recreation Reserve proposed to be resumed.

County of Clarendon, parish of Gundagai, 123 acrs., at Gundagai: Commencing on the left bank of a lagoon, at a point bearing south 79 degrees 20 minutes east and distant 10 chains 86 links from the southern corner of allotment 2 of section 31, in the town of Gundagai; and bounded thence on the south-west by Sheridan-street bearing east 16 degrees 17 minutes south 9 chains 14 links; thence by Johnson-street bearing south 16 degrees 17 minutes west 11 chains and 50 links to Landon-street; again on the south-west by that street bearing east 16 degrees 17 minutes south 33 chains to Thackeray-street; on the south-east by that street bearing north 16 degrees 17 minutes east 33 chains to Hanley-street; on the north-east by Hanley-street bearing west 16 degrees 17 minutes north 37 chains and 77 links to the aforesaid lagoon; and on the north-west by that lagoon downwards, to the point of commencement,—as shown on plan G. 27-1,028.

Racecourse proposed to be dedicated.

County of Clarendon, parish of North Gundagai, containing an area of 268 acres. The Crown Lands within the following boundaries: Commencing on the right bank of the Murrumbidgee River, at a point where the eastern extremity of the south side of Neptune-street intersects it; and bounded thence by part of the south side of Neptune-street bearing west 14 chains and 41 links; thence by a line bearing south 25 degrees 19 minutes west 22 chains 64 links; thence by a line bearing south 46 degrees 22 minutes west 5 chains 4 links to the north-eastern side of Sheridan-street; thence by part of the north-eastern side of that street bearing south 73 degrees east 7 chains 52 links to the south-eastern side of Johnson-street; thence by part of the south-eastern side of that street bearing south 17 degrees west 11 chains 50 links to the north-eastern side of Landon-street; thence by part of the north-eastern side of that street bearing south 73 degrees east 11 chains 50 links to the south-eastern side of Maturin-street; thence by the south-eastern side of that street bearing south 17 degrees west 13 chains to the right bank of the Murrumbidgee River; thence by the right bank of that river upwards, to the point of commencement,—being portion 253, as shown on plan catalogued C. 2,944 1,578 Roll.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT ARAKOOK AND DEDICATION FOR THE  
SAME PURPOSE IN LIEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the General Cemetery at Arakook, area 8 acres 1 rood 8 perches, dedicated 11th March, 1881, and hereunder described, with a view to reservation for preservation of graves or other appropriations under the Crown Lands Acts, and to the dedication in lieu of 13 acres 1 rood 32 perches in the same locality, also hereunder described, for General Cemetery.

[Ms. 90-19,251]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

General Cemetery proposed to be resumed.

County of Macquarie, parish of Arakook, area 8 acres 1 rood 8 perches: Commencing at a point bearing about south 7 degrees 6 minutes 30 seconds west 62 chains 21 links from the south-west corner of section 2, village of Arakook; and bounded thence on the north by a line bearing east 8 chains; on the east by a line bearing south 10 chains 38 links; on the south by a line bearing west 8 chains; and on the west by a line bearing north 10 chains 38 links, to the point of commencement,—shown on plan O. 850-1,981.

General Cemetery proposed to be dedicated.

County of Macquarie, parish of Arakook, at Arakook, containing an area of 13 acres 1 rood 32 perches. The Crown Lands within the following boundaries: Commencing at a point bearing south 23 degrees 24 minutes west 36 chains 9 links from the northernmost south-east corner of reserve 217, notified 5th November, 1883; and bounded thence by a line east 11 chains; thence a line south 12 chains; thence a line west 11 chains; and thence a line north 12 chains, to the point of commencement,—as shown on plan catalogued Ms. 182, Gfn.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF SCHOOL OF ARTS  
SITE AT SAVERNAKE AND DEDICATION FOR  
MECHANICS' INSTITUTE IN LIEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the School of Arts site at Savernake, area 2 roods, viz., allotment 10 of section 19, dedicated 24th June, 1890, and hereunder described (the land having been alienated prior to dedication), with a view to the dedication in lieu thereof of allotment 2 of section 22, area 2 roods, also hereunder described, for site for Mechanics' Institute.

[Ms. 91-2,427 Dep.]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

Site for School of Arts proposed to be resumed.

County of Denison, parish of Savernake: Commencing at the intersection of the south-eastern side of Hay-street with the north-eastern side of Corowa-street, town of Savernake; and bounded thence on the south-west by a line bearing south 50 degrees 6 minutes east 2 chains to the western corner of allotment 9 of 2 roods, section 19; bounded thence on the south east by the north-western boundary of that allotment, being a line bearing north 39 degrees 54 minutes east 2 chains 50 links to the south-western side of a lane 31 links wide; thence on the north-east by part of that side of that lane, being a line bearing north 50 degrees 6 minutes west 2 chains, to the south-eastern side of Hay-street first mentioned; and thence on the north-west by part of that side of that street bearing south 39 degrees 54 minutes west 2 chains 50 links, to the point of commencement,—being allotment 10 of section 19, and containing an area of 2 roods, shown on plan catalogued Savernake 1.

Site for Mechanics' Institute proposed to be dedicated.

County of Denison, parish of Savernake: Commencing at the most eastern corner of allotment 1 of section 22, sold to Thomas Joseph and Edmund Daniel O'Dwyer; and bounded thence by the south-eastern boundary of that allotment, being a line bearing south 39 degrees 54 minutes west 2 chains 50 links, to a lane 31 links wide; thence by part of the north-eastern side of that lane bearing south 50 degrees 6 minutes east 2 chains to the most western corner of allotment 3 of section 22; thence by the north-western boundary of that allotment bearing north 39 degrees 54 minutes east 2 chains 50 links to the south-western side of Corowa-street; and by that side of that street bearing north 50 degrees 6 minutes west 2 chains, to the point of commencement,—being allotment 2 of section 22, containing an area of 2 roods, shown on plan catalogued Savernake 1.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF SITES FOR BENEVO-  
LENT ASYLUM AND MECHANICS' INSTITUTE  
AT SCONE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedications of the site for Benevolent Asylum at Scone, area 2½ acres, and the site for Mechanics' Institute, area 1 rood 19½ perches, both hereunder described, with a view to sale by auction or other appropriations under the Crown Lands Acts.

[Ms. 90-19,248]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

Benevolent Asylum Site.

County of Brisbane, parish of Scone, village of Scone, allotments 16, 17, 18, 19, and 20 of section 3, 2 acres 2 roods: Commencing at the north-west corner of the section; and bounded thence on the north by Liverpool-street easterly 5 chains; on the east by the western boundary-line of allotment 15 southerly, at right angles to Liverpool-street, 5 chains and ¼ link; on the south by the northern boundary lines of allotments 5, 4, 3, 2, and 1 westerly, parallel with Liverpool-street, 5 chains to Aberdeen-street; and on the west by that street northerly 5 chains and ¼ link, to the point of commencement. Plan S. 45-999.

Mechanics' Institute Site.

County of Brisbane, parish of Scone, village of Scone, allotment 3 of section 14, 1 rood 19½ perches: Commencing on the eastern side of Kelly-street, at south-western corner of allotment 2 of section 14, T. French's 3 roods; and bounded thence on the north by the southern boundary of that allotment bearing north 89 degrees 58½ minutes east 3 chains; on the east by part of the western boundary of portion 13, W. Dumaresq's 620 acres bearing south 1½ minutes east 2 chains 50 links; and on the south-west by part of a north-eastern side of the Great Northern Road, 1 chain 50 links wide, bearing north 50 degrees 13½ minutes west 3 chains 90½ links, to the point of commencement. Plan S. 47-999.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION AND REDEDICATION OF  
GENERAL CEMETERY AT FREDERICKTON.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to resume and rededicate the General Cemetery at Frederickton, dedicated 12th March, 1869, and hereunder described, an amended plan of the land in question having been furnished.

[Ms. 91-2,431 Dep.]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

General Cemetery proposed to be resumed.

County of Dudley, parish of Yarrabandini, area 7 acres 2 roods 1 perch: Commencing on the north side of a road 150 links wide, at the south-eastern corner of allotment 2 of section 2, 7 acres, within the suburban limits to the village of Frederickton; and bounded thence on the west by part of the eastern boundary of that allotment, being a line bearing north 8 chains, to the south-western corner of allotment 3; on the north by the south boundary of that allotment and that of allotment 4 of section 1, being a line bearing east 10 chains 38 links, to the western boundary of allotment 1, section 1; on the east by part of that western boundary, being a line bearing south 8 chains, to the north side of a road 150 links wide first mentioned; and thence by part of that side of that road, being a line bearing west 10 chains 38 links, to the point of commencement,—but exclusive of intervening road 100 links wide, as shown on plan catalogued C. 51-1,981.

General Cemetery proposed to be dedicated.

County of Dudley, parish of Yarrabandini, area 7 acres 2 roods: Commencing on the north side of a road 150 links wide, at the south-eastern corner of allotment 2 of section 2, 7 acres, within the suburban limits to the village of Frederickton; and bounded thence on the west by part of the eastern boundary of that allotment, being a line bearing north 8 chains, to the south-western corner of allotment 3; on the north by the south boundary of that allotment and that of allotment 4 of section 1, being a line bearing east 10 chains 38 links, to the western boundary of allotment 1, section 1; on the east by part of that western boundary, being a line bearing south 8 chains, to the north side of a road 150 links wide first mentioned; and thence by part of that side of that road, being a line bearing west 10 chains 38 links, to the point of commencement,—but exclusive of intervening road 100 links wide, as shown on plans catalogued C. 51-1,984 and Ms. 193 Gfn.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF SCHOOL OF ARTS SITE  
AT CARGELLIGO.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the School of Arts site at Cargelligo, area 2 roods, viz., allotment 3 of section 3, dedicated 6th October, 1882, and hereunder described, with a view to the reservation of that area for site for Post and Telegraph Office.

[Ms. 91-2,449 Dep.]

JAMES N. BRUNKER.

**DESCRIPTION.**

County of Dowling, parish of Gurangully, village of Cargelligo, allotment 3 of section 3, 2 roods: Commencing on the south-western side of Canada-street, at the eastern corner of allotment 1; and bounded thence on the north-east by that street south-easterly 2 chains; on the south-east by the north-western boundary line of allotment 4 south-westerly, at right angles to Canada-street, 2 chains and 50 links to a lane; on the south-west by that lane north-westerly, parallel with Canada-street, 2 chains; and on the north-west by the south-eastern boundaries of allotments 2 and aforesaid 1, in all north-easterly at right angles to Canada-street 2 chains and 50 links, to the point of commencement.  
[Plan C. 9-2,209 Roll.]

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF RECREATION RESERVE AT RAYMOND TERRACE, AND DEDICATION FOR TOWN HALL SITE AND PUBLIC RECREATION.**

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land at Raymond Terrace, area 62 acres, dedicated 15th August, 1871, for public recreation, and hereunder described, with a view to the dedication of 1 acre 2 roods 16 perches thereof for Town Hall site, and the rededication of the remainder, 60 acres 0 roods 26 perches, for public recreation.

[Ms. 91-3,055 Dep.]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

**Recreation reserve proposed to be resumed.**

County of Gloucester, parish of Eldon, town of Raymond Terrace, area 62 acres: Commencing on a northern boundary of R. Windeyer's 664 acres, at the south-western corner of the reserve for a general cemetery; and bounded thence on the north-east by the south-western boundary of that reserve and its extension bearing north 50 degrees west in all 10 chains; on the south-east by a line bearing north 40 degrees east 8 chains 50 links; on the south-west by a line bearing south 50 degrees east 9 chains 80 links to the north-east corner of the aforesaid reserve; on the east by a line dividing it from R. Windeyer's 664 acres aforesaid bearing north 1 degree 6 minutes west 7 chains 20 links to Kangaroo-street; again on the north-east by that street bearing north 60 degrees west 23 chains 30 links to Irrawang-street; on the north-west by that street bearing south 40 degrees west 38 chains 28 links; and on the south by a line dividing it from G. T. Graham's 640 acres and R. Windeyer's 664 acres aforesaid bearing north 89 degrees 54 minutes east 37 chains and 54 links, to the point of commencement,—exclusively of a road or street 1 chain 50 links wide from Kangaroo-street to Tod-street passing through this land along the north-west boundary of the cemetery reserve in a south-westerly direction, the area of which has been deducted from the total area.

**Town Hall site proposed to be dedicated.**

County of Gloucester, parish of Eldon, town of Raymond Terrace, area 1 acre 2 roods 16 perches: Commencing on the south-eastern side of Urawanga-street, at its intersection with the south-easterly prolongation of the north-eastern side of Glenelg-street, being a point bearing south 50 degrees east and 1 chain 50 links distant from the southern corner of John Coyle's allotment 10 of section 16; bounded thence on the north-east by a line bearing south 50 degrees east 6 chains 7 links to the north boundary of G. T. Graham's portion of 640 acres; thence on the south by part of the north boundary of that portion, being a line bearing south 88 degrees 54 minutes west 8 chains 6 links, to the south-eastern side of Urawanga-street aforesaid; and thence on the north-west by the south-eastern side of that street bearing north 40 degrees east 5 chains 31 links, to the point of commencement,—to include portion 6, as shown on plan catalogued G. 2,398 1,497.

**Recreation reserve proposed to be dedicated.**

County of Gloucester, parish of Eldon, town of Raymond Terrace, area 60 acres 0 roods 26 perches: Commencing at the intersection of the south-eastern side of Urawanga-street with the south-western side of Kangaroo-street, being a point bearing south 49 degrees 57 minutes east, and distant 150 links from the north-eastern corner of allotment 20 of section 14; bounded thence on part of the north-west by part of the south-eastern side of Urawanga-street aforesaid, being a line bearing south 39 degrees 54 minutes west 33 chains, to the northern corner of the site appropriated for Town Hall; thence on part of the south-west by the north-eastern boundary of that appropriation, being a line bearing south 50 degrees east and distant 6 chains 7 links, to the north boundary of G. T. Graham's 640 acres; thence on the south by part of that north boundary and that of R. Windeyer's 664 acres, in all a line bearing north 88 degrees 42 minutes east and distant 29 chains 64 links, to the western extremity of the southernmost boundary of the General Cemetery at Raymond Terrace, dedicated 16th July, 1863; thence on part of the north-east by the south-western boundary of that cemetery, being a line bearing north 53 degrees west and distant 10 chains 10 links, to its westernmost corner; thence on the south-east by the north-western boundary of that cemetery, being a line bearing north 40 degrees 4 minutes east and distant 8 chains 50 links, to its northernmost corner; thence on the remainder of the south-west by the north-eastern boundary of the cemetery referred to, being a line bearing south 52 degrees 14 minutes east 9 chains 74 links, to the western boundary of J. Windeyer's 1,208 acres; thence on the east by part of that west boundary, being a line bearing north 1 degree 42 minutes west 6 chains 77 links, to the south-western side of Kangaroo-street first mentioned; and thence on the remainder of the north-east by part of that side of that street, being a line bearing north 49 degrees 57 minutes west and distant 23 chains 54 links, to the point of commencement,—but exclusive of a road 1 chain 50 links wide from Kangaroo-street to Tod-street, passing through this land along in a south-westerly direction, the area of which has been deducted from the total area, shown on plan catalogued G. 16-2,066.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF PART OF PUBLIC  
SCHOOL RESERVE AT CUNNINGAR.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of that part of the land at Cunningar, dedicated 18th February, 1870, for Public School purposes, within the boundaries of measured portion 170 of 8 acres 3 roods 39 perches, parish of Cunningar, county of Harden, with a view to the reservation of that area for camping.

[Ms. 91-2,426 Dep.]

JAMES N. BRUNKER.

**DESCRIPTION.**

**EASTERN DIVISION.**

**LAND DISTRICT OF YOUNG.**

County of Harden, parish of Cunningar, containing an area of 8 acres 3 roods 39 perches. That part of Public School site, dedicated 18th February, 1870, within the boundaries of measured portion 170,—as shown on plan catalogued H. 5,340-1,716.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF PART OF PERMANENT  
COMMON AT WEST KEMPSEY.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of that part of the permanent common at West Kempsey, area 70½ acres, hereunder described, with a view to that area being included in a reserve for Racecourse.

[Ms. 91-3,050 Dep.]

JAMES N. BRUNKER.

**DESCRIPTION.**

**EASTERN DIVISION.**

**LAND DISTRICT OF KEMPSEY.**

County of Dudley, parish of Yarravel, area about 70½ acres. That part of the Kempsey Permanent Common, dedicated 1st June, 1866, included within the following boundaries: Commencing at a point 15 chains east from the north-east corner of camping reserve 12,996, notified 22nd November, 1890; and bounded thence on the south by a line east 80 chains; thence north to Warwick Creek; thence by that creek upwards to a point due north from point of commencement; thence south to that point,—being that part of portion 168 of 90 acres within permanent common, shown on plan catalogued D. 1,243-1,505.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED REVOCATION OF PUBLIC SCHOOL RESERVE AT QUIRINDI AND DEDICATION FOR PUBLIC SCHOOL SITE IN LLEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke Public School reserve 5,836, at Quirindi, area 1 rood 35 perches, viz., allotment 15 of section 19, proclaimed 24th March, 1888, and hereunder described, with a view to the dedication of that allotment and allotments 13, 14, and 16 of the same section, area 1 acre 3 roods 3 perches, for Public School site.

[Ms. 91-3,713 Dep.]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

Public School Reserve proposed to be revoked.

**EASTERN DIVISION.**

**LAND DISTRICT OF MURRURUNDI.**

No. 5,936 for Public School purposes. County of Buckland, parish of Quirindi, town of Quirindi, containing an area of 1 rood 35 perches. The Crown Lands within the following boundaries: Commencing on the east side of Hill-street, at the south-west corner of allotment 14; and bounded thence on the west by that side of Hill-street bearing south to the north-west corner of allotment 16; thence on the south by the north boundary of that allotment bearing east 4 chains 71½ links to the west side of a lane 30 links wide; thence on the east by part of that side of the lane bearing north to the south-east corner of allotment 14 aforesaid; and thence on the north by the south boundary of that allotment bearing west 4 chains 71½ links, to the point of commencement,—to include allotment 15 of section 19.

Public School Site proposed to be dedicated.

County of Buckland, parish of Quirindi, town of Quirindi, area 1 acre 3 roods 3 perches: Commencing at a point on the eastern side of Hill-street, town of Quirindi, being the south-western corner of allotment 12, section 19, dedicated for Church of England parsonage on 15th April, 1879; and bounded thence on the north by the south boundary of that allotment, being a line bearing east 4 chains 71 links, to the western side of a lane 30 links wide; bounded thence on the east by part of that side of that lane, being a line bearing south 3 chains 78 links to the north-east corner of allotment 17, same section, appropriated for Roman Catholic Church purposes; thence on the south by the north boundary of that appropriation, being a line bearing west 4 chains 71 links, to the eastern side of Hill-street first mentioned; and thence on the west by part of that side of that street, being a line north 3 chains 78 links, to the point of commencement,—to include allotments 13, 14, 15, and 16 of section 19, as shown on plans catalogued Q. 9 and Q. 19-1,613.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION AND REDEDICATION OF COOK'S SQUARE AND PARK, EAST MAITLAND.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of Cook's Square and Park, East Maitland, area 42 acres and 22 perches, dedicated 2nd April, 1887, for public recreation, and hereunder described, with a view to the reservation of 3 acres thereof for public pound, and the re-dedication of the remainder (39 acres and 22 perches) for public recreation.

[Ms. 91-3,907 Dep.]

JAMES N. BRUNKER.

**DESCRIPTIONS.**

Area proposed to be resumed.

County of Northumberland, parish of Maitland, town of East Maitland, area 42 acres 0 roods 22 perches: Commencing at the intersection of the north-western side of George-street with the north-eastern side of Flinder's-street; and bounded thence by part of that side of Flinder's-street, being a line bearing north 44 degrees 53 minutes west 7 chains 87.3 links; thence by a line bearing north 45 degrees 7 minutes east 5 chains 1.1 link, being the south-eastern side of a street 1 chain 25 links wide; thence by a line bearing north 44 degrees 53 minutes west 7 chains 25.3 links; thence by a line bearing south 45 degrees 7 minutes west 1 chain 42.8 links; thence by a line bearing north 44 degrees 38 minutes west 22 chains 86 links, being the north-eastern side of Adams-street; thence by a line bearing south 88 degrees 46 minutes east 8 chains 27.3 links; thence by a line bearing north 1 degree 20 minutes east 1 chain 2.4 links; thence by a line bearing south 44 degrees 33 minutes east 5 chains 35 links to the north-western side of Banks-street; thence by part of that side of that street, being a line bearing north 45 degrees 27 minutes east 5 chains, to the south-western

side of Rous-street; thence by part of that side of that street, being a line bearing south 45 degrees 19 minutes east 8 chains 77.5 links, to the south-eastern side of William-street; thence by part of that side of William-street, being a line bearing north 45 degrees 32 minutes east 9 chains 1.8 link, to the south-western side of Park-street; thence by that side of that street, being a line bearing south 44 degrees 50 minutes east 12 chains 62.5 links; thence by a line bearing south 45 degrees 42 minutes west 14 chains 39 links, and forming the north-western side of Park-street; thence by a line bearing south 44 degrees 20 minutes east 6 chains 25 links to the north-western side of George-street first mentioned; and thence by part of that side of that street, being a line bearing south 45 degrees 34 minutes west 10 chains 29.3 links, to the point of commencement,—but exclusive of school site and intervening streets, as shown on plan catalogued N. 52-2,071 Roll.

Area proposed to be dedicated.

County of Northumberland, parish of Maitland, town of East Maitland, area 39 acres 0 roods 22 perches: Commencing at the intersection of the south-eastern side of Glebe-street with the north-eastern side of Adams-street; and bounded thence by that side of Adams-street, being a line bearing north 44 degrees 38 minutes west 22 chains 86 links; thence by a line bearing south 58 degrees 46 minutes east 8 chains 27.5 links; thence by a line bearing north 1 degree 20 minutes east 1 chain 2.4 links; thence by a line bearing south 44 degrees 33 minutes east 5 chains 35 links to the north-western side of Banks-street; thence by part of that side of that street, being a line bearing north 45 degrees 27 minutes east 5 chains, to the south-western side of Rous-street; thence by part of that side of that street, being a line bearing south 45 degrees 19 minutes east 8 chains 77.5 links, to the south-eastern side of William-street; thence by part of that side of that street, being a line bearing north 45 degrees 32 minutes east 9 chains 1.8 link, to the south-western side of Park-street; thence by that side of that street, being a line bearing south 44 degrees 50 minutes east 12 chains 62.5 links; thence by a line bearing south 45 degrees 42 minutes west 14 chains 39 links, and forming the north-western side of George-street; thence by part of that side of that street, being a line bearing south 45 degrees 34 minutes west 6 chains 8 links, to the eastern corner of an area of 3 acres appropriated for public pound; thence by the north-eastern boundary of that appropriation, being a line bearing north 13 degrees 55 minutes west 6 chains 8 links, to its north corner; thence by a line bearing south 45 degrees 7 minutes west 7 chains 3.4 links to the north-eastern side of Flinder's-street; thence by part of that side of that street, being a line bearing north 44 degrees 53 minutes west 2 chains 69.3 links; thence by a line bearing north 45 degrees 7 minutes east 5 chains 1.1 link, and forming the south-eastern side of a street 1 chain 25 links wide; thence by a line and the north-eastern boundaries of lots 1 and 6, section 6, bearing north 44 degrees 53 minutes west 7 chains 25.3 links; and thence by a line bearing south 45 degrees 7 minutes west 1 chain 42.8 links, and forming part of the north-west boundary of lot 1, section 6, to the point of commencement; but exclusive of school site and intervening streets,—as shown on plan catalogued N. 52-2,071 Roll.

**PROPOSED RESUMPTION OF PART OF RECREATION RESERVE AT WEST KEMPSEY.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of that part of the recreation reserve at West Kempsey, area 90 acres, hereunder described, with a view to the reservation of that area for Temporary Common.

[Ms. 91-3,049 Dep.]

JAMES N. BRUNKER.

**DESCRIPTION.**

90 acres. County of Dudley, parish of Yarravel, near West Kempsey: Commencing on the north-western side of North-street, town of West Kempsey, on the southern corner of allotment 6 of section 29a, in the town of West Kempsey; and bounded thence on the south-east by that street bearing south 55 degrees west 21 chains; on the south by a line bearing westerly 15 chains 68 links; on the west by the eastern boundary of portion 145 of 90 acres 2 roods bearing north 37 chains 44 links; on the north by a line bearing easterly 15 chains 88 links; and on the east and north-east by lines dividing it from allotment 6 aforesaid bearing southerly 1 chain 29 links; and thence south 85 degrees 12 minutes east 29 chains 50 links, to the point of commencement. Plan catalogued D. 938-1,505.

NOTE.—The above is in lieu of the notice in the Government Gazette of the 10th November, 1886.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION OF PUBLIC LIBRARY  
SITE AT SCONE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Public Library site at Scone, viz., allotment 1 of section 14, area 2½ perches, dedicated 16th July, 1863, and hereunder described, with a view to the reservation of the area in question for trigonometrical purposes.

[Ms. 90-19,246]

**JAMES N. BRUNKER.**

**DESCRIPTION.**

County of Brisbane, parish of Scone, village of Scone, allotment 1 of section 14, 2½ perches: Commencing on the northern boundary of portion 15, R. Kelly's 1,920 acres, at the southern extremity of the eastern side of Kelly-street; and bounded thence on the south by part of the northern boundary of portion 15 aforesaid bearing south 89 degrees 57½ minutes east 65½ links; on the north-east by part of a south-western side of the Great Northern Road, 1 chain 50 links wide, bearing north 50 degrees 13½ minutes west 85½ links; and on the west by part of the eastern side of Kelly-street aforesaid, bearing south 1½ minutes east 54½ links, to the point of commencement. Plan S. 46-999.

Department of Lands,  
Sydney, 15th May, 1891.

**PROPOSED RESUMPTION AND REDEDICATION OF  
GENERAL CEMETERY AT NUNDLE.**

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the General Cemetery at Nundle, area 7½ acres, dedicated 16th July, 1863, and hereunder described, with a view to rededication with an area of 8 acres.

[Ms. 91-3,711 Dep.]

**JAMES N. BRUNKER.**

**DESCRIPTIONS.**

General Cemetery proposed to be resumed.

County of Parry, parish of Nundle, area 7 acres 2 roods, dedicated 16th July, 1863: Commencing on the west side of a road 1 chain wide at the north-east corner of portion 22 of 71 acres 3 roods 24 perches, in the parish of Nundle; and bounded thence on the east by that road bearing north 10 chains to another road 1 chain wide; on the north by that road bearing west 8 chains to the eastern side of a road 1 chain wide; on the west by that side of that road, being a line bearing south 10 chains; and on the south by part of the north boundary of portion 22 above mentioned, being a line bearing east 8 chains, to the point of commencement; but exclusive of a road 50 links wide passing through this Cemetery, as shown on plan catalogued C. 814-730.

General Cemetery proposed to be dedicated.

County of Parry, parish of Nundle, area 8 acres: Commencing on the west side of a road 1 chain wide at the north-east corner of portion 22 of 71 acres 3 roods 24 perches, in the parish of Nundle; and bounded thence on the east by part of that side of that road, being a line bearing north 10 chains, to the south side of another road 1 chain wide; on the north by part of that side of that road, being a line bearing west 8 chains, to the east side of a road 1 chain wide; on the west by that side of that road, being a line bearing south 10 chains, to the north side of portion 22 of 71 acres 3 roods 24 perches above mentioned; and thence on the south by part of that side of that portion, being a line bearing east 8 chains, to the point of commencement,—shown on plan catalogued C. 814-730.

## NEW SOUTH WALES.

## CROWN LANDS.

(PROPOSED DEDICATION OF CERTAIN LANDS UNDER THE ACT 48 VIC. No. 18, AND ACT 53 VIC. No. 21.)

Presented to Parliament pursuant to Act 84 Vic. No. 18, and Act 53 Vic. No. 21.

Department of Lands,  
Sydney, 22nd May, 1891.PROPOSED RESUMPTION OF RECREATION RESERVE  
AT GUNDAGAI NORTH, AND DEDICATION FOR  
RACECOURSE IN LIEU.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land at Gundagai North, area 123 acres, dedicated on the 12th March, 1869, for public recreation, and hereunder described, with a view to the dedication in lieu of 268 acres in the same locality, to include the above, for racecourse.

[Ms. 91-2,594 Dep.]

JAMES N. BRUNKER.

## DESCRIPTIONS.

Recreation Reserve proposed to be resumed.

County of Clarendon, parish of Gundagai, 123 acres, at Gundagai: Commencing on the left bank of a lagoon, at a point bearing south 79 degrees 20 minutes east and distant 10 chains 86 links from the southern corner of allotment 2 of section 31, in the town of Gundagai; and bounded thence on the south-west by Sheridan-street bearing east 16 degrees 17 minutes south 9 chains 14 links; thence by Johnson-street bearing south 16 degrees 17 minutes west 11 chains and 50 links to Landon-street; again on the south-west by that street bearing east 16 degrees 17 minutes south 33 chains to Thackeray-street; on the south-east by that street bearing north 16 degrees 17 minutes east 33 chains to Hanley-street; on the north-east by

Hanley-street bearing west 16 degrees 17 minutes north 37 chains and 77 links to the aforesaid lagoon; and on the north-west by that lagoon downwards, to the point of commencement,—as shown on plan G. 27-1,028.

Racecourse proposed to be dedicated.

County of Clarendon, parish of North Gundagai, containing an area of 268 acres. The Crown Lands within the following boundaries: Commencing on the right bank of the Murrumbidgee River, at a point where the eastern extremity of the south side of Neptune-street intersects it; and bounded thence by part of the south side of Neptune-street bearing west 14 chains and 41 links; thence by a line bearing south 25 degrees 19 minutes west 22 chains 64 links; thence by a line bearing south 46 degrees 22 minutes west 5 chains 4 links to the north-eastern side of Sheridan-street; thence by part of the north-eastern side of that street bearing south 73 degrees east 7 chains 52 links to the south-eastern side of Johnson-street; thence by part of the south-eastern side of that street bearing south 17 degrees west 11 chains 50 links to the north-eastern side of Landon-street; thence by part of the north-eastern side of that street bearing south 73 degrees east 11 chains 50 links to the south-eastern side of Maturin-street; thence by the south-eastern side of that street bearing south 17 degrees west 13 chains to the right bank of the Murrumbidgee River; thence by the right bank of that river upwards, to the point of commencement,—being portion 253, as shown on plan catalogued C. 2,944-1,578 Roll.

NOTE.—The above is in lieu of the notice in the Government Gazette of the 19th instant.

1891.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

CONDITIONAL PURCHASES MADE UPON BARRATTA RUN.

(PETITION FROM ROBERT BARBOUR TO HIS EXCELLENCY THE GOVERNOR AND THE EXECUTIVE COUNCIL.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

RETURN to an *Address* adopted by the Honorable the Legislative Assembly of New South Wales, on 2 July, 1890, That there be laid upon the Table of this House,—

“ A copy of a petition presented about February last to His Excellency the Governor and the Executive Council by Robert Barbour, with reference to the Report of the Select Committee on the Barratta forfeited Conditional Purchases, adopted by this House on the 3rd December, 1889; together with all documents, letters, memoranda, or minutes in reference thereto, made or received since the adoption of the Report.”

(*Mr. Barbour.*)

SCHEDULE.

NO.		PAGE.
1.	The Principal Under Secretary to the Under Secretary for Lands, forwarding petition from R. Barbour, Esq., M.P., requesting that an investigation may be made respecting issue of Crown Grants to Henry Ricketson, Barratta Run, with minutes and enclosures. 18 February, 1890 .....	1
2.	R. Barbour, Esq., M.P., to the Under Secretary for Lands. 10 April, 1890 .....	28
3.	Question and Answer, Legislative Assembly, with minute. 21 May, 1890 .....	28
4.	The Under Secretary for Lands to R. Barbour, Esq., M.P. 6 June, 1890.....	28
5.	The Under Secretary for Lands to the Crown Solicitor, with enclosures (see No. 1 in Schedule). 6 June, 1890...	28
6.	The Crown Solicitor to the Under Secretary for Lands, with minutes and enclosure. 9 June, 1890 .....	29
7.	The Under Secretary for Lands to R. Barbour, Esq., M.P. 12 June, 1890 .....	29

No. 1.

The Principal Under Secretary to The Under Secretary for Lands.

From whom received, R. Barbour; date of communication, 10 February, 1890.

*Subject* :—Forwarding Petition requesting that an investigation may be made respecting issue of Crown Grants to Henry Ricketson.

The Under Secretary for Lands.—C.W., B.C., 18/2/90. Principal Under Secretary. The Minister for Lands.—H.P., 18/2/90. Submitted.—W. H., 22/2/90.

Having carefully reviewed the report of the Select Committee, I am of opinion that it does not disclose any facts necessitating an opinion from my honorable colleague the Attorney-General, but Mr. Barbour, M.P., having approached His Excellency by Petition, I deem it my duty to submit the prayer of the Petition for the consideration of the Honorable the Attorney-General.—J.N.B., 5/6/90.

Mr. Barbour, M.P., 6/6/90.

178—A

[870 copies—Approximate Cost of Printing (labour and material), £55 13s. 6d.]

Enclosures.]

Unto His Excellency the Governor and Honorable Gentlemen of the Executive Council.  
The Petition of Robert Barbour, a Member of the Legislative Assembly of New South Wales for the Electoral District of the Murray.

HUMBLY SHEWETH:—

1. That your Petitioner was elected a member of a Select Committee to inquire into and report upon all conditional purchases made upon the Run of Barratta (Henry Ricketson, lessee), from January, 1872, till December, 1882; how many were lapsed or forfeited; what became of the improvements; how many were converted into improvement purchases.

2. That your Petitioner was elected Chairman of such Committee, and, along with the other members of the Committee, made a searching investigation. We examined witnesses, and gave the said Henry Ricketson, who was present, and also his Attorney, every opportunity of examining witnesses, and the Committee were engaged with this matter from 2nd April, 1889, till the 4th September, 1889, when we brought up the Report, and on the 3rd December, 1889, the Report (a copy is attached hereto) was adopted by the Legislative Assembly, which is as follows:—

1. The conditional purchases made upon Barratta Run from January, 1872, till December, 1882, numbered 89 (eighty-nine), and contained an area of about 20,000 (twenty thousand) acres.
2. How many were forfeited.—Seventy-five out of the eighty-nine conditional purchases were forfeited. One only obtained a certificate of conformity by Henry Ricketson, the owner of the run, the remaining thirteen being treated as null and void, as it does not appear that any improvements were effected upon them.
3. Improvements.—The improvements made upon the seventy-five forfeited conditional purchases, according to the valuation of the Inspectors, averaged nearly 20s. per acre, or a total of upwards of £18,000 (eighteen thousand pounds), and consisted of tanks or dams, fencing, and buildings.
4. What became of the Improvements.—Twenty-six of the forfeited conditional purchases were, sometime after, sold by auction to Henry Ricketson, and the value of the improvements was added to nine of them, and there is no evidence before the Committee to show that there were any improvements upon the other seventeen at the time they were sold by auction. Twelve of the forfeited conditional purchases are still Crown lands, and, so far as your Committee were able to ascertain, the improvements are still upon the land; and the land and improvements are in possession of H. Ricketson.
5. How many were converted into Improvement Purchases.—Thirty-seven of the forfeited conditional purchases have been purchased by Henry Ricketson as improvement purchases. Application was made by him to purchase each of these immediately after forfeiture had appeared in the *Gazette*. In twelve cases he made application only two days after forfeiture, viz., they were gazetted forfeited on the 7th of August, 1876, and his application is dated 9th August, 1876. In three other cases, three days elapsed; in others, seven days, fourteen days, twenty-one days, and so on. So far as your Committee could ascertain, the most of the improvements claimed in the applications appear to be those that are described as being upon the forfeited conditional purchases at the time of forfeiture. The area so dealt with is between 9,000 and 10,000 acres, and Crown grants have been obtained for the whole at prices varying from 20s. to 25s. per acre.

2. In the evidence given by the Under Secretary for Lands (questions 278 to 283) it appears that the Supreme Court has decided that when conditional purchases become forfeited the improvements thereon belong to the Crown. No evidence was adduced before your Committee showing that the improvements upon lands which Mr. Ricketson had been allowed to purchase as improvement purchases had not been erected by him either partly before and partly after, or wholly after the time the said lands had been conditionally purchased.

ROBERT BARBOUR,  
Chairman.

No. 3 Committee Room, Sydney, 4th September, 1889.

3. That your Petitioner, after investigating the several important matters in connection with this case, became fully convinced that the practices adopted to acquire land in fees were highly objectionable, and that the forfeited improvements, which were the property of Crown, were taken possession of and used by this lessee as if they were his own, and by this means he has acquired from 9,000 to 10,000 acres in fee simple, and also secured the improvements which belonged to the Crown.

4. That your Petitioner feels it to be incumbent upon him to inform you of the *modus operandi* adopted by this lessee. In the year 1872 and following years (par. 1 of Report) conditional purchases were made upon Barratta Run to the number of eighty-nine, comprising an area of 20,000 acres. These were improved by the erection of fences, tanks, and dwellings, but when the time came for the declaration by the various selectors at the end of three years, the declarations were not forthcoming, consequently all such were forfeited, and paragraph 2 of the Report says—that seventy-five out of the eighty-nine selections were forfeited, one only was in conformity with the law, the remaining thirteen were null and void, that is, blanks. Immediately after the selections were forfeited, by notice in the *Gazette*, they were applied for by Henry Ricketson in virtue of the forfeited improvements belonging to the Crown, in twelve cases only two days after forfeiture, in three after three days, &c. Now, it is self-evident that tanks of thousands of yards, and many miles of fencing, and dwelling-houses could not be erected in two days, and if possible for such legerdemain to be practised, what became of the tanks, the miles of fencing, and dwelling-houses that were on the land at the time of forfeiture of the conditional purchases? Paragraph 5 of the Report says that Mr. Ricketson has secured “thirty-seven of the forfeited conditional purchases, containing from 9,000 to 10,000 acres, as improvement purchases in virtue of improvements which belonged to the Crown.”

5. Your Petitioner is thoroughly convinced that the whole of the permanent improvements that had been made upon the seventy-five forfeited conditional purchases of the value of £18,000 (see paragraph 3), which undoubtedly were the property of the Crown, has been taken possession of by Henry Ricketson (as no one was ever permitted to rest his foot within his boundary gates) since the selections were forfeited, and the Crown has not received one shilling of the whole of this £18,000 worth of improvements.

6. Your Petitioner feels deeply that this case is a great moral teacher for good or for evil, and one that should be thoroughly sifted, and if any persons are found to have been guilty of malpractices they should be made an example of. Remarks are common all through my electorate, where Henry Ricketson resides, to this effect, “Surely the Government will not allow Ricketson to stick to all these forfeited improvements,” and the electors seem dissatisfied to think that he should be allowed to hold so much land obtained by misrepresentation.

Your Petitioner, therefore, humbly prays that your Excellency, and the Honorable Gentlemen of the Executive Council, will direct your Honorable Attorney-General to cause this case to be investigated, with a view to the withdrawal and cancellation of every Crown Grant that may have issued to the said Henry Ricketson upon misrepresentation, and take such steps as may be deemed necessary to vindicate the law in its highest prerogative—that of “being a terror of evil-doers, and a praise and protection to those that do well.”

And your Petitioner as in duty bound will ever pray.  
Sydney, 10th February, 1890.

ROBT. BARBOUR.

The Colonial Secretary.—CARRINGTON, 14/2/90.

REPORT from the Select Committee on Conditional Purchases made upon Barratta Run; together with the Proceedings of the Committee, Minutes of Evidence, and Appendices.

Ordered by the Legislative Assembly to be printed, 4 September, 1889.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

Notes No. 8. Tuesday, 2 April, 1889.

8. Conditional Purchases made upon Barratta Run:—Mr. Barbour moved, pursuant to amended Notice,—

(1.) That a Select Committee be appointed, with power to send for persons and papers, to inquire into and report upon all conditional purchases made upon the run of Barratta (Henry Ricketson, lessee), from January, 1872, till December, 1882; how many were lapsed or forfeited; what became of the improvements; how many were converted into improvement purchases.

(2.) That such Committee consist of Mr. Lyne, Mr. J. P. Abbott, Mr. Alison, Mr. Copeland, Mr. Chapman, Mr. T. G. Dangar, Mr. Brunker, Mr. Hugh Taylor, Mr. Woodward, and the Mover.

Question put and passed.

Votes

Votes No. 14. Tuesday, 16 April, 1889.

- 2. Conditional Purchases made upon Barratta Run:—Mr. Lamb presented a Petition from Henry Ricketson, of Barratta Station, referring to the Select Committee now sitting upon this subject; and praying that he might be heard by Counsel, Attorney, or Agent before such Committee, with liberty to adduce such evidence as may be within his power. Petition received.  
Mr. Lamb (*by consent*) moved, without Notice, That the prayer of the Petitioner be granted.  
Question put and passed.

Votes No. 87. Wednesday, 4 September, 1889.

- 4. Conditional Purchases made upon Barratta Run :—Mr. Barbour, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee for whose consideration and report this subject was referred on 2nd April, 1889, together with Appendices.  
Ordered to be printed.

CONDITIONAL PURCHASES MADE UPON BARRATTA RUN.

REPORT.

THE Select Committee of the Legislative Assembly, appointed on the 2nd April, 1889, "with power to send for persons and papers to inquire into and report upon all Conditional Purchases made upon the Run of Barratta (Henry Ricketson, lessee), from January, 1872, till December, 1882; how many were lapsed or forfeited; what became of the improvements; how many were converted into improvement purchases,"—have agreed to the following Report:—

1. Your Committee having examined the witnesses, whose evidence is appended hereto, find as follows:—
  - (1.) The conditional purchases made upon Barratta Run from January, 1872, till December, 1882, numbered 89 (eighty nine), and contained an area of about 20,000 (twenty thousand) acres.
  - (2.) *How many were forfeited.*—Seventy-five out of the eighty-nine conditional purchases were forfeited; one only obtained a certificate of conformity by Henry Ricketson, the owner of the run; the remaining thirteen being treated as null and void, as it does not appear that any improvements were effected upon them.
  - (3.) *Improvements.*—The improvements made upon the seventy-five forfeited conditional purchases, according to the valuation of the Inspectors, averaged nearly twenty shillings per acre, or a total of upwards of £18,000 (eighteen thousand pounds), and consisted of tanks or dams, fencing, and buildings.
  - (4.) *What became of the Improvements.*—Twenty-six of the forfeited conditional purchases were, sometime after, sold by auction to Henry Ricketson, and the value of the improvements were added to nine of them, and there is no evidence before the Committee to show that there were any improvements upon the other seventeen at the time they were sold by auction. Twelve of the forfeited conditional purchases are still Crown Lands, and so far as your Committee were able to ascertain the improvements are still upon the land, and the land and improvements are in possession of Henry Ricketson.
  - (5.) *How many were converted into Improvement Purchases.*—Thirty-seven of the forfeited conditional purchases have been purchased by Henry Ricketson as improvement purchases. Application was made by him to purchase each of these immediately after forfeiture had appeared in the *Gazette*; in twelve cases he made application only two days after forfeiture, viz., they were gazetted forfeited on the 7th of August, 1876, and his application is dated 9th August, 1876. In three other cases, three days elapsed; in others, seven days, fourteen days, twenty-one days, and so on; and, so far as your Committee could ascertain, the most of the improvements claimed in the applications appear to be those that are described as being upon the forfeited conditional purchases at the time of forfeiture. The area so dealt with is between 9,000 and 10,000 acres, and Crown grants have been obtained for the whole at prices varying from 20s. to 25s. per acre.

2. In the evidence given by the Under Secretary for Lands (questions 278 to 283) it appears that the Supreme Court has decided that when conditional purchases become forfeited the improvements thereon belong to the Crown. No evidence was adduced before your Committee showing that the improvements upon lands which Mr. Ricketson had been permitted to purchase as improvement purchases had not been erected by him either partly before and partly after, or wholly after the time the said lands had been conditionally purchased.

ROBT. BARBOUR,  
Chairman.

No. 3 Committee Room, Sydney, 4 September, 1889.

PROCEEDINGS OF THE COMMITTEE.

Wednesday, 10 April, 1889.

Members Present:—

Mr. Barbour, | Mr. Alison,  
Mr. Hugh Taylor.

Mr. Barbour called to the Chair.

Entry from Votes and Proceedings appointing the Committee read by the Clerk.

Committee deliberated.

Ordered,—That an intimation be sent to Mr. Henry Ricketson (lessee of the Barratta Run) that the Committee intended to proceed with the inquiry, and that it was open to him to petition the House for leave to be represented before the Committee should he so desire.

[Adjourned.]

Re-assembling of the Committee to be arranged by the Chairman.

Tuesday, 14 May, 1889.

Member Present:—

Mr. Barbour.

In the absence of a quorum the meeting called for this day lapsed.

Wednesday, 15 May, 1889.

Members Present:—

Mr. Barbour, | Mr. Chapman.

In the absence of a quorum the meeting called for this day lapsed.

Thursday, 16 May, 1889.

Members Present:—

Mr. Barbour in the Chair.

Mr. T. G. Dangar, | Mr. Woodward.

Entry from Votes and Proceedings, granting leave to Henry Ricketson to appear by Counsel before the Committee, read by the Clerk.

Committee deliberated.

Chairman submitted Draft Report.

On motion of Mr. Hugh Taylor, in consequence of the absence of Mr. Alison, a member of the Committee, who desired to be present when the Report was dealt with, the consideration thereof was postponed.

[Adjourned till Wednesday, 28 August, at Three o'clock.]

*Wednesday, 28 August, 1889.*

Member Present :—

Mr. Barbour.

In the absence of a quorum the meeting called for this day lapsed.

*Wednesday,*

Wednesday, 4 September, 1889.

Members Present :—

Mr. Barbour in the Chair.

Mr. Alison, | Mr. Brunker.  
Mr. Hugh Taylor.

Chairman submitted Draft Report, as follows :—

“ THE Select Committee of the Legislative Assembly, appointed on the 2nd April, 1889, ‘with power to send for persons and papers to inquire into and report upon all Conditional Purchases made upon the Run of Barratta (Henry Ricketson, lessee), from January, 1872, till December, 1882; how many were lapsed or forfeited; what became of the improvements; how many were converted into improvement purchases;’—have agreed to the following Report :—

“ 1. Your Committee having examined the witnesses, whose evidence is appended hereto, find as follows :—

- “(1.) The conditional purchases made upon Barratta Run from January, 1872, till December, 1882, numbered 89 (eighty-nine), and contained an area of about 20,000 (twenty thousand) acres.
- “(2.) How many were forfeited.—Seventy-five out of the eighty-nine conditional purchases were forfeited; one only obtained a certificate of conformity by Henry Ricketson, the owner of the run; the remaining thirteen being treated as null and void, as it does not appear that any improvements were effected upon them.
- “(3.) Improvements.—The improvements made upon the seventy-five forfeited conditional purchases, according to the valuation of the Inspectors, averaged nearly twenty shillings per acre, or a total of upwards of £18,000 (eighteen thousand pounds), and consisted of tanks or dams, fencing, and buildings.
- “(4.) What became of the Improvements.—Twenty-six of the forfeited conditional purchases were, sometime after, sold by auction to Henry Ricketson, but although all of these were improved, only upon nine of them was anything added to the upset price for the improvements, consequently seventeen of such cases, averaging nearly £300 each, of improvements, became the property of Henry Ricketson without anything having been paid for such improvements. Twelve of the forfeited conditional purchases are still Crown lands, and, so far as your Committee were able to ascertain, the improvements are still upon the land, and the land and improvements are in possession of Henry Ricketson.
- “(5.) How many were converted into Improvement Purchases.—Thirty-seven of the forfeited conditional purchases have been purchased by Henry Ricketson as improvement purchases. Application was made by him to purchase each of these immediately after forfeiture had appeared in the *Gazette*; in twelve cases he made application only two days after forfeiture, viz., they were gazetted forfeited on the 7th of August, 1876, and his application is dated 9th August, 1876. In three other cases, three days elapsed; in others, seven days, fourteen days, twenty-one days, and so on; and, so far as your Committee could ascertain, the most of the improvements claimed in the applications appear to be those that are described as being upon the forfeited conditional purchases at the time of forfeiture. The area so dealt with is between 9,000 and 10,000 acres, and Crown grants have been obtained for the whole at prices varying from 20s. to 25s. per acre.

“ 2. In the evidence given by the Under Secretary for Lands (questions 278 to 283) it appears that the Supreme Court has decided that when conditional purchases become forfeited the improvements thereon belong to the Crown. Your Committee are of opinion that the greater part, if not the whole, of the described improvements were upon the land at the time that the selections were forfeited, and were therefore the property of the Crown, and that Henry Ricketson wrongfully claimed the said improvements to be his own property, and, in consequence, he was allowed to purchase the land as improvement purchases, and he has thereby obtained thirty-seven Crown grants which should not have issued in the circumstances.”

Same read paragraph by paragraph.

Paragraph 1 read and agreed to.

Sub-paragraphs (1) to (3) read and agreed to.

Sub-paragraphs (4) read, amended on motion of Mr. Brunker, by *omitting*, from lines 2 to 7,—“but although all of these were improved, only upon nine of them was anything added to the upset price for the improvements, consequently seventeen of such cases, averaging nearly £300 each, of improvements, became the property of Henry Ricketson without anything having been paid for such improvements,” and *inserting*, “and the value of the improvements was added to nine of them, and there is no evidence before the Committee to show that there were any improvements upon the other seventeen at the time they were sold by auction,”—and agreed to.

Sub-paragraph (5) read and agreed to.

Paragraph 2 read amended, on motion of Mr. Brunker, by *omitting* from lines 3 to end of paragraph, the words “your” to “circumstances,” and *inserting* “No evidence was adduced before your Committee showing that the improvements upon lands which Mr. Ricketson had been permitted to purchase as improvement purchases had not been erected by him either partly before and partly after or wholly after the time the said lands had been conditionally purchased,”—and agreed to.

Chairman to report to the House.

MINUTES of Evidence taken before the Select Committee on Conditional Purchases made upon Barratta Run.

Thursday, 30 May, 1889.

Present :—

Mr. T. G. DANGAR. | Mr. BARBOUR.  
Mr. ALISON. | Mr. HUGH TAYLOR.

R. BARBOUR, Esq., in the Chair.

Thomas Robertson, Esq., Solicitor, appeared on behalf of Mr. Henry Ricketson.

Frank Griffin called in and examined :—

1. *Chairman.*] You are a clerk in the Lands Office? Yes; in the Conditional Sales Branch.
2. We want to know what conditional purchases were made on the Barratta Run from 1872 to 1882. What was the first one that was taken up after 1872? The first one I have any trace of is dated the 7th August, 1873.
3. What is the name? H. J. Ricketson.
4. What was the area? 320 acres.
5. What is the parish? Parish of Banangalite.
6. Have you any reports from Conditional Inspectors as to the improvements that were made upon that conditional purchase? Yes, a report by Mr. Keele; that is dated 1876.
7. What do you say about the date of lapsing? It was declared lapsed on the 7th May, 1877.
8. What does he report as to the improvements that were on that conditional purchase? Fencing, £140.
9. And what next? That is all that he reports.
10. Have you any other reports? Not on that conditional purchase.
11. What is the date of the inspection? The 2nd July, 1876, by Mr. Keele.
12. And the improvements were fencing? Yes.
13. Was that conditional purchase lapsed or forfeited? It was lapsed on the 7th May, 1877.
14. When was it gazetted? That was the date of the gazetted.
15. Was it gazetted as lapsed or forfeited? As lapsed.
16. The two words mean the same thing, don't they? No. Forfeiture would be for non-compliance with conditions of residence and improvements. A conditional purchase lapses when no declaration is sent in or no instalments are paid.
17. Both are for non-fulfilment of conditions? Yes. But one might be after inquiry in open Court.
18. Can you tell us anything more about that conditional purchase? Yes; that same land was applied for by R. Barbour, on the 20th November, 1873.
19. That was a long time before? Yes.
20. And whilst it was a conditional purchase? Yes.

21. And what was done with that? That was declared void, because it was the same land already applied for by H. J. Ricketson.
22. What was done with it after it lapsed? On the 28th May, 1877, Henry Ricketson applied for it as an improvement purchase.
23. What were the improvements described as in the Inspector's report? The report was dated the 5th September, 1883.
24. Is that the report upon the application for the improvement purchase? Yes.
25. What is the report on the improvements? Wool-scouring establishment, £180; fencing, £172; a tank, £90.
26. Do you know if that fencing is the same fencing as was described in the conditional purchase? No; I could not say.
27. How long was the date of it after the lapsing? Three weeks.
28. What was the number of acres applied for as the improvement purchase? 320.
29. Was it granted? Yes.
30. And have the deeds issued? Yes.
31. When did they issue? On the 6th November, 1884.
32. Can you tell us anything more about that improvement purchase? The price was £1 5s. per acre.
33. That is the whole, is it? Yes.
34. What is the next conditional purchase? The next is on the same date, by F. W. Ricketson.
35. What is the area of that? 240 acres.
36. Was there any inspection of that? Yes; on the 26th June, 1876, Mr. Keele inspected it.
37. And what were the improvements then? A bridge and a house valued at £240.
38. Was that subsequently lapsed or forfeited? That lapsed on the 7th May, 1877.
39. Was that applied for as an improvement purchase? Yes; on the 23th May, 1877.
40. And what were the improvements in connection with the improvement purchase on the date of the surveyor's valuation? Fencing, £109 17s.; a tank, £94 10s.; a bridge, £50.
41. No house? No house.
42. Was that improvement purchase sold? Yes; in November, 1884.
43. As an improvement purchase? Yes.
44. At £1 5s. an acre? Yes.
45. Can you tell us anything more about that purchase? No.
46. What is the date of the next conditional purchase? The 14th August, 1873.
47. What is the name of the purchaser? F. W. Ricketson.
48. What is the area? 320 acres.
49. Was there any inspection of that? Yes; Inspector Carne inspected it.
50. What is the date? 17th June, 1878. That is after it lapsed.
51. What were the improvements? Stable for Cobb & Co., £175; fencing, £160; and tank, £132 6s. 8d.; total, £468 6s. 8d.
52. Was that subsequently lapsed or forfeited? It was lapsed before that inspection, on the 7th May, 1877.
53. Was it afterwards applied for as an improvement purchase? Yes; on the 21st May.
54. In what year? 1877.
55. What improvements were reported? The improvements were the same. It was the same inspection connected with the improvement purchase, the inspection being after the lapsing.
56. What was the time between the lapsing and the application for it as an improvement purchase? About three weeks, and from the date of application to the date of inspection about twelve months.
57. What did the improvement purchase claim as an improvement? A house, tank, fencing, &c.
58. Is there any difference between the improvements mentioned in the application for the improvement purchase and the improvements reported? The only difference is that the house is called a stable in the report.
59. Can you tell us any more about that purchase? The deed was issued, and the price was £1 2s. 6d. an acre.
60. What is the next conditional purchase? The next was on the same date, by W. F. Ricketson, 14th August, 1873.
61. Can you give the area of that conditional purchase? Yes; 320 acres.
62. Was that inspected? Not till after it was lapsed.
63. When was it inspected? On the 17th June, 1878. It was lapsed on the 7th May, 1877.
64. What were the improvements on it? An iron house, £160; fencing, £160; and an old hut, £5; total, £325.
65. Was that applied for as an improvement purchase? Yes; on the 21st May, 1877.
66. What were the improvements mentioned in that application? A house, fencing, &c.
67. Do these correspond with what was reported as on the conditional purchase? Yes; but the improvement purchase was refused.
68. Has it been applied for again? No; it was sold at auction at the upset price of £1 12s. 6d. an acre.
69. Is there anything said in the papers about the improvements being included? I do not think so.
70. What is the next case? The next is on the same date, by C. M. Ricketson.
71. What is the area? 320 acres, in the parish of Ricketson.
72. Was that inspected? Yes; by Mr. Smith.
73. What was the date? 14th August, 1873.
74. What were the improvements reported by Mr. Smith on the 12th April, 1876? There was a hut, £15; fencing, £180; and a tank, £100. There was an inquiry by Commissioner Johnson, on the 8th May, in connection with that purchase, and it was declared forfeited on the 7th August, 1876.
75. Was it subsequently applied for as an improvement purchase? Yes; on the 9th August, 1876, by Henry Ricketson.
76. And what improvements were claimed for? I have not got the papers of that particular improvement purchase.
77. Have you any report upon it? Yes; Mr. Licensed Surveyor Finlay reported upon it.
78. What did he say the improvements were? Fencing, £160; tank, £150; hut, £15; £325 altogether.
79. Are these the same improvements that were on the forfeited conditional purchase? The same class—hut, fencing, and tank.
80. The total amount of the one corresponds with the total amount of the other? No; there was £295 worth on the conditional purchase, and £325 was the value for the improvement purchase.
81. They were the same items? Yes.
82. Can you tell us anything more about it? Yes; the deed issued for that purchase at £1 an acre.
83. On what date? The 20th August, 1879.
84. What is the next conditional purchase? On the same date, by Amy G. Ricketson.
85. What is the area? 320 acres.
86. In what parish? Ricketson.
87. Any improvements reported upon it? Yes; Mr. Smith, on the 12th April, 1876, reported a hut, £15; fencing, £180; a tank, £150; total value, £345. Commissioner Johnson held an inquiry on the 8th May. It was forfeited on the 7th August, 1876.
88. Was it subsequently applied for as an improvement purchase? Yes.
89. What was the date of the application? 9th August, 1876.
90. And what are the improvements claimed for? A house, a tank, post and wire fencing.
91. And the value? £350.
92. Is that for the same improvements that are on the conditional purchase? Yes, the same items—a hut, fencing, and a tank. Mr. Carne inspected that on the 7th September, 1879. He found a hut, value £30; a dam, £20; fence, £160; tank, £120; iron hut, £60; total, £390. It was again inspected by Mr. Loudon on the 15th June, 1881.
93. Do the improvements differ in any way? No; there were two tanks, fencing, and a hut, valued at £300.
94. Do they seem to be all the same improvements, but differently valued? The same class of improvements. Only 240 acres of that was granted out of the 320 acres applied for.
95. Have the deeds been issued for that? Yes; on the 30th July, 1883, at £1 1s. an acre; the balance of that portion is now an auction purchase.
96. What is the next case? The next is on the 20th November, 1873—George Boyd, selector, of 320 acres, in the parish of Billabong.
97. Was that inspected? No; that was declared lapsed on the 16th May, 1877.
98. Were there any improvements reported? No; it was sold by auction.

99. What was the next case after that? The next is on the same date, 20th November, 1873, by J. M. C. Orton.
100. Did anything come of that? That lapsed on the 16th May, 1877.
101. Were there any improvements reported? Yes; on the 12th October, 1878, by Inspector Carne.
102. What are the improvements? A house, £160; fencing, £180—£340 altogether. That was applied for as an improvement purchase on the 14th June, 1877, but it was refused.
103. Was it applied for again? No.
104. What was subsequently done with it? It was sold at auction.
105. What was the upset price? I have not got that.
106. What is the next case? The next is on the 20th November, 1873, by Frederick Geo, 320 acres, in the parish of Ricketson.
107. Was that reported upon? Yes; on the 24th December, 1874. Inspector Street reported upon it.
108. Was there a subsequent inspection? Yes, on the 7th September, 1879, by Inspector Carne.
109. What were the improvements reported on by Street? A hut with an iron roof.
110. And by Mr. Carne, in September, 1879? Fencing, £75; a tank, £20 9s. 4d.; and fencing again, £70.
111. Was there any subsequent inspection of that? Yes, in 1886.
112. And what were the improvements reported then? Fencing, £90; tank, £300.
113. Was that subsequently applied for as an improvement purchase? Yes, in 1877.
114. On what date? I cannot give the date; the application was refused.
115. Was there a subsequent application? I do not think so. It is now an auction purchase. I have no particulars as to the price.
116. What is the next case? The next one is on the 20th November, 1873, by Samuel Tucker, area, 160 acres.
117. Was that inspected? Yes, by Mr. Keele, on 7th July, 1876.
118. What did he report? A hut, value £5.
119. Was that all? That was all.
120. Was there any other inspection? Yes, on the 17th August, 1878, by Mr. Carne. He found a tank, £111 6s. 8d., and a hut, £10. Then Mr. Landon, on the 14th June, 1881, reported a hut, £20; a tank, £93 15s.; and 93½ acres were granted for the improvement purchase.
121. What was the date of the application for that improvement purchase? 13th June, 1877.
122. Did you say whether that was lapsed or forfeited? It was declared lapsed on the 16th May, 1877.
123. What is the next conditional purchase? On the 20th November, 1873, Fanny Barbour.
124. Was that reported on? That was an application for 320 acres, but only 158 acres were allowed. That is in the parish of Banangalite.
125. Was that inspected? It does not appear to have been inspected until after it was forfeited on the 19th March, 1878; it was inspected on the 10th July, 1880, by Mr. Carne.
126. What were the improvements? Cottage, £40; another, £25; shed, &c., £24; fencing, £134; total, £223.
127. Was that applied for as an improvement purchase? Yes, on the 26th March, 1878, by Henry Ricketson.
128. Was it allowed to be purchased? No; it was refused.
129. Do you know if anything was done with it subsequently? Yes; it was notified as reserved from sale and lease on the 26th March, 1878. That is the day on which it was applied for as an improvement purchase.
130. Do you know if anything has since been done with it? No; I think that case is proceeding now.
131. Is there anything to show whether it is gone from the Crown? It is still in the hands of the Crown.
132. What is the next case? The next case is that of Margaret Barbour, 20th November, 1873.
133. What is the area? 288½ acres.
134. Was that inspected? Not till after it was declared forfeited.
135. When was it declared forfeited? On the 7th August, 1876.
136. On what date was it inspected? On the 8th August, 1880, by Inspector Carne.
137. What were the improvements? Fencing, £180; tank, £140; house, £160; total, £480.
138. Was that applied for as an improvement purchase? That was applied for as an improvement purchase by Henry Ricketson.
139. On what date? On the 27th November, 1876, the application being allowed for 144½ acres.
140. What were the improvements claimed? It was originally applied for in connection with another conditional purchase, portions 3, 4, and 23, comprising 468½ acres, and that was afterwards split into three. That was claimed in virtue of three tanks, valued at £495, and fencing, valued at £169 10s.
141. Then what was the other conditional purchase that was joined on to that one? That was the purchase of Josiah Pitty, 180½ acres.
142. Have you Pitty's improvements? Yes. Pitty's improvements on the 12th April, 1876, were a hut, £20; fence, £90; another fence, £180; making a total of £290.
143. When was that forfeited? On the 7th August, 1876.
144. When was it applied for as an improvement purchase? On the 22nd November, 1876; but only 144½ acres were granted at that time.
145. Was some other land granted subsequently? Yes; it was granted in three lots.
146. And what were the improvements on the three lots? The improvements on the 144½ acres were valued by Surveyor Broughton on the 16th July, 1886—a tank, £62 10s.; fence, £85 10s.; total, £148; that is on portion 3. On portion 4 of the same area, he found a tank, value £117 10s.; a fence, £28 10s.; total, £146. On portion 23 of Pitty's selection, a tank, £162 10s.; a dam, £10; and fence, £11 5s.; total, £183 15s.
147. Do these improvements correspond with the improvements reported on the conditional purchase? They reported a tank and a fence, but I do not know whether they are the same.
148. Does the next correspond with them? No. The deeds were issued on this third portion on the 3rd February, 1888; £1 5s. an acre was the price.
149. Have you given us the improvements that were inspected on all those conditional purchases? Yes; there were only two conditional purchases, but three portions.
150. Then what is the next conditional purchase on the Barratta Run? The next is George P. Barbour's.
151. What is the area? 320 acres.
152. And the date? The 20th November, 1873.
153. Were the improvements inspected? Yes. On the 12th April, 1876, Inspector Smith found a hut, value £20; fence, £90; tank, £60; total, £170.
154. Has there been any further inspection? Yes; it was inspected by Mr. Carne on the 9th August, 1880.
155. What did he report? He found a tank made by the selector valued at £26 15s. 4d.; improvements made by the lessee of the run, tank and fencing, valued at £324 3s. 4d. That was forfeited on the 7th August, 1876; that is portion 14, in the parish of Ricketson.
156. When was it applied for as an improvement purchase? On the 31st December, 1877.
157. And was it sold as an improvement purchase? No; it was refused.
158. Is it still Crown land? It appears to be still Crown land.
159. What is the next conditional purchase? The next is George Pitty's, 20th November, 1873, 144½ acres; this is portion 5.
160. What improvements are reported? Inspector Smith, on the 12th April, 1876, found a hut, valued at £20, and a fence, £160. That was forfeited on the 7th August, 1876, and applied for as an improvement purchase on the 2nd May, 1878.
161. What improvements were claimed? A house and a tank.
162. Are those the same improvements that were on the conditional purchase? No; not according to the Inspector. He said there were a hut and a fence.
163. And the improvement purchase application is for a house and a tank? Yes.
164. What is the amount? On the 17th June, 1878, Inspector Carne found that there was a hut, £85, and a tank, £100.
165. Was that selection forfeited? It was forfeited on the 7th August, 1876.
166. When was it applied for as an improvement purchase? On the 2nd May, 1878.
167. Are the improvements different from the first one? The improvements made by the selector are valued at £76, and those of the lessee at £130 13s. 4d.

168. Was that sold as an improvement purchase? Yes, the deed was issued on the 24th October, 1881; the price was £1 an acre.
169. What is the next one? The next one is Thomas Kerr, 20th November, 1873, 320 acres. That was declared forfeited on the 1st October, 1878.
170. What were the improvements on it? They were not given till afterwards—the 7th September, 1879; there was a hut, tank, and fence, valued at £209 1s.
171. When was it applied for as an improvement purchase? On the 8th October, 1878.
172. What improvements were claimed? That was a conditional improvement purchase.
173. Have you any improvements reported? Yes; by Mr. Surveyor Orr, on the 6th July, 1881.
174. Was that inspection in consequence of the improvement purchase application? Yes.
175. What improvements did he report? A tank, £156 5s.; fencing, £125; a house, £110; total, £391 5s.
176. Do any of these correspond with the improvements on the conditional purchase? The same class of improvements—a hut, tank, and fence.
177. Was that sold as an improvement purchase? Yes; the deed was issued on the 2nd January, 1882, and the price was £1 5s. an acre.
178. What is the next conditional purchase? Mary K. Barbour, 20th September, 1873, area 320 acres, in the parish of Ricketson.
179. Was there any inspection of that conditional purchase? Yes; on the 24th December, 1874, Inspector Street reported that there were a hut and fencing, but no value was stated.
180. Was there any subsequent inspection? Yes; by Inspector Carne, on the 9th August, 1880.
181. What are the improvements? He found that the improvements made by the selector amounted in value to £105 16s. 8d., and those made by the lessee to £508 6s. 8d.
182. Was that applied for as an improvement purchase? Yes; on the 9th August, 1876. First of all it was applied for on that date as portions 10 and 11, 640 acres.
183. Was the conditional purchase of M. K. Barbour allowed to be purchased? Not at first; subsequently, on the application of 5th February, 1877, it was.
184. By whom? By Henry Ricketson, 640 acres.
185. That included Catherine Barbour's conditional purchase? Yes.
186. What is the area of the two portions? 640 acres.
187. What improvements are reported on the last conditional purchase? Inspector Carne, on the 9th August, 1880, valued the improvements by the selector at £145, and those by the lessee at £331 13s. 4d.
188. What was the date of the application for that improvement purchase? The one granted was dated 5th February, 1877.
189. And were those the improvements that the improvement purchase was sold for? Licensed Surveyor Rigaut, on the 29th March, 1887, found on the block of 640 acres a tank valued at £450 7s. 6d.; a dam at £20; another tank, £166 14s. 6d.; a cottage, £70—total, £707 1s. 6d.; and the deed issued for that block on the 1st June, 1880, at £1 an acre.
190. Inspector Carne's inspection was in 1880? Yes.
191. When was the conditional purchase forfeited? It was forfeited on the 27th August, 1876.
192. And when was the application for the improvement purchase dated? There were two applications. First, 9th August, 1876; that was refused. And the second on 5th February, 1877.
193. And the second time the two conditional purchases were joined? On both occasions they were.
194. Is there any reason given for the first improvement purchase being refused? Yes—for not being within a block 5 miles square. That was a conditional improvement purchase.
195. And that was altered? Yes, on the 5th February, 1877, it was applied for as an improvement purchase.
196. At first it was applied for as a conditional improvement purchase, and that was refused? Yes.
197. And subsequently it was applied for as an improvement purchase, and that was granted? Yes.
198. Are the same improvements stated in both? The improvements in the conditional improvement purchase would not be on it.
199. Have you any improvements reported on about the date of the conditional improvement purchase? No; not about that date, but about four years afterwards. The improvements intended to be erected on the conditional improvement purchase were a house, tank, and post and wire fencing.
200. Were they put on? I do not know; that application was refused.
201. Are the improvements that were on the conditional purchase traceable in the purchase that was afterwards granted as an improvement purchase? They may be. There was a cottage valued at £70 on the improvement purchase, and two huts on the selection; that would be all. There is no mention of the two tanks or the dams being on the selection.
202. I think you said Mr. Carne's report was that a certain value of improvements were effected by the selectors? On Catherine Barbour's conditional purchase to the value of £145.
203. What was the value of the improvements reported to have been made upon the other conditional purchase? £105 16s. 8d.
204. These sums should amount to what? £250 16s. 8d.
205. And these are the two conditional purchases that were subsequently amalgamated in the improvement purchase of 640 acres? Yes.
206. What is the next conditional purchase? The next is Leighton Barbour, 20th November, 1873, 320 acres.
207. What are the improvements reported? The improvements reported on 10th August, 1880, by Inspector Carne, are a tank, £500; fence, £40—made by the lessee.
208. Was that applied for as an improvement purchase? Yes, that in conjunction with Robert Barbour, junr.'s, conditional purchase.
209. Was it an improvement purchase or a conditional improvement purchase? Both; that case is not settled yet.
210. What is the next conditional purchase? The next is J. Dougharty, in the parish of Banangalite, 238½ acres.
211. What improvements are reported there? Inspector Smith, on 12th April, 1876, reported a hut, £15; tank £200; a fence, £78; total, £293. That was declared forfeited on the 7th August, 1876.
212. Was it applied for as an improvement purchase? Yes; on 9th August, 1876.
213. And what were the improvements claimed? A house, post and wire fencing, and a tank.
214. Are those the improvements that were on the conditional purchase? They are of the same class.
215. Do they differ in price or in the description? The valuation given by Mr. Finlay was only £263 6s. 3d.
216. And that was the valuation in consequence of the improvement purchase. Yes.
217. Does that differ from the first valuation? The first was £293.
218. Would a similar amount cover the necessary expenditure to enable the improvement purchase to be made? Yes; it is only 238 acres.
219. And the difference in price may be accounted for in that way? Yes.
220. Mr. Finlay finds the smaller amounts sufficient to cover the improvement purchase? Yes.
221. Was it sold? Yes; the deeds were issued on the 1st November, 1878, to Mr. Ricketson, for £1 per acre.
222. What is the next case? The next was J. Dougharty again, of 27th November, 1873, for 81½ acres, in the parish of Ricketson.
223. That would be an additional conditional purchase? Yes; to make up the area of 320 acres.
224. What improvements were reported in that case? The improvements were nil. It is now an auction purchase. It was forfeited on the 7th August, 1876.
225. What is the next case? J. Kelly, for 238½ acres, and also for 81½ acres.
226. That is an additional conditional purchase? Yes, the 81½ acres.
227. What are the improvements reported on it? On 12th April, 1876, Inspector Smith found a hut £15, and line of posts only for fence valued at £78.
228. Was there a subsequent inspection? No; that was forfeited on the 7th August, 1876.
229. Was either of these applied for as an improvement purchase? No; they were sold at auction.
230. At what price? I do not know the price.
231. What was the date of the grant? I do not know.
232. You cannot tell the upset price? No.
233. Can you say of your own knowledge that the document before you is a true and correct abstract of the papers bearing upon the several matters set forth in it? Yes; I drew it up myself.

234. Do you hand that in as an abstract of all the particulars contained in those papers? Yes; as regards the headings given in accordance with the Chairman's memo.
235. And you say that that is a true abstract statement of the particulars therein contained? Yes, as far as it goes. Of course it does not show what became of the improvements. [See Appendix A 1.]
236. *Mr. T. G. Dangar.*] Have Crown grants been issued in all the cases? No.
237. *Chairman.*] Does that paper show in what cases the Crown grants have been issued? Yes.
238. And whether they have or have not? Yes.
239. *Mr. T. G. Dangar.*] Do I understand that all these improvement purchases were originally conditional purchases, and that they were afterwards sold as improvement purchases? Some of them, not all.
240. *Chairman.*] What you have given were original conditional purchases, were they not? They were all conditional purchases.
241. Were they all subsequently sold as improvement purchases? Not all of them.
242. And that paper sets forth which were sold as improvement purchases? Yes.
243. *Mr. Robertson.*] The Chairman has asked about several improvements made during the currency of the conditional purchases—that is, if the improvements were mentioned in the improvement-purchase applications were not identically those mentioned in the conditional-purchase applications? There would be no way of showing.
244. Are you familiar with the Land Act? Yes.
245. When an application is made for the purchase of an improvement purchase the Department requires improvements to the amount of £1 an acre, and that the applicant shall himself be the owner of those improvements at the time he makes the application? Yes, and they are to be necessary for the working of the run.
246. All these essentials being there, the Department is satisfied? Yes.
247. Must not the Department have been satisfied, before granting leave to Mr. Ricketson to make improvement purchases that he had improved the land to the value of £1 an acre? Yes.
248. Do you know that all lapsed or forfeited conditional purchases revert to the run? Yes.
249. And that all improvements on these lapsed or forfeited conditional purchases then become the property of the lessee of the run? No. I did not know that.

Thursday, 4 July, 1889.

Present:—

Mr. HUGH TAYLOR, | Mr. ALISON,  
Mr. T. G. DANGAR.

R. BARBOUR, Esq., in the Chair.

Thomas Robertson, Esq., Solicitor, appeared on behalf of Mr. Henry Ricketson.

Mr. Stephen Freeman called in, sworn and examined:—

250. *Chairman.*] You are the Under Secretary for Lands? Yes.
251. We have taken evidence before in this case, and an abstract was handed in by one of your clerks, Mr. Griffin;—is he a reliable officer? Yes.
252. And, as far as you know, the evidence that he gave is correct? I have no knowledge of his evidence.
253. Do you know the Barratta Run? Yes, on the map.
254. Who is the lessee? Henry Ricketson, I believe.
255. He has been for some years? Yes, for a good many years.
256. Have you got a copy of the evidence given by Mr. Griffin? Yes, I have, and also a schedule handed in by him.
257. In addition to what is supplied there, are there some conditional purchases which were afterwards bought as improvement purchases? Yes.
258. And some were made as auction purchases? Yes, I believe they were.
259. Have you a list of the improvements, if any, that were on the selections at the time they were sold by auction? Yes. I should like to qualify that. I should mention that it is not possible for the Department to know exactly what improvements are on any portion of land that may be forfeited, because the inspection leading up to the forfeiture takes place some time before then, and delays occur, so that the forfeiture is not carried out until long after the inspection. It is impossible therefore for the Department to say what was the actual value of the improvements at the date of the forfeiture.
260. You have no personal knowledge of the matter? No.
261. And the evidence you give us will be from the records in your office? Yes.
262. There is a great number of them, and the Committee, on the last occasion, asked Mr. Griffin to tabulate them;—have you done the same thing? I have particulars of the forfeited conditional purchases sold at auction, showing the area, the parish, the portion number, date of auction sale, value of the improvements, if any, added to the upset price, and for whose benefit.
263. And the upset price? No, I have not the upset price. The upset price in those days was almost invariably £1 an acre, irrespective of any question of improvements.
264. Will you hand in the list? Yes. The list contains a few other notes for my information, which will enable me to say when the inspector visited the land in some cases, and what he found on the land.
265. To save time would you hand in the list to the Committee? Yes.
266. And do you say it is correct? I believe it is correct. I have not myself obtained the information, but it has been obtained in the office by reliable officers.
267. And you believe it is correct? I have no doubt about it.
268. *Chairman.*] Will you state to the Committee the full particulars of the statement contained in that list? Yes. The first is conditional purchase 73-8,450, portion 48, parish of Barratta, 320 acres; £321 18s. 6d. added to the upset price for Mr. Ricketson's protection, he being understood to be the owner of the improvements. The sale took place on the 2nd November, 1888. The next is conditional purchase 73-12,282, portion 10, parish of Billabong, 320 acres; nothing added to the upset price. Mr. Carne inspected the land in October, 1878, and found £340 worth of improvements on it. The sale took place in December, 1881, the land being sold by auction. Conditional purchase 73-12,289, portion 6, parish of Ricketson, 320 acres; nothing was added for improvements. Mr. Carne inspected the land in September, 1879, and found improvements on it to the value of £12 9s. 4d. The land was sold in May, 1879. Conditional purchase 73-12,526, portion 7, Banangalite, 238½ acres; nothing was added for the value of improvements. Inspector Smith saw the land in April, 1886, and found improvements on it to the value of £93. The sale took place on the 29th May, 1879. Conditional purchase 73-12,528, portion 11; Banangalite, 320 acres; nothing added to the value for improvements. Inspector Smith, in April, 1876, found improvements on the land to the value of £315. The sale took place on the 29th November, 1876. Conditional purchase 73-12,529, portion 28, parish of Ricketson, 320 acres, £160 added for the protection of the Crown; and conditional purchase 73-12,532, portion 27, the same parish, 320 acres, £212 added for the protection of the Crown. Conditional purchase 73-12,851, portion 3, parish of Staniforth, 320 acres, had nothing added. Inspector Keele, in January, 1876, found that there were £5 worth of improvements. The sale took place on the 26th September, 1877. Conditional purchase 73-12,855, portion 21, parish of Ricketson, 320 acres; value of improvements, £327, added for the protection of the Crown. Conditional purchase 73-12,856, portion 10, Banangalite, 320 acres, nothing added. Inspector Smith, in April, 1876, found £205 worth of improvements. The sale took place on the 29th November, 1876. Conditional purchase 73-12,859, portion 19, parish of Ricketson, 320 acres; nothing added for value of improvements. Inspector Keele, in June, 1876, found £180 worth of improvements. The land was sold in September, 1872. Conditional purchase 73-12,862, portion 22, parish of Ricketson, 320 acres; nothing added for improvements. Inspector Rigaut, in April, 1877, found improvements to the value of £337 10s. Sale took place on the 5th January, 1882. Conditional purchase 75-12, portion 30, Banangalite, 40 acres; nothing added for improvements. Inspector Carne, in September, 1877, found improvements on the land to the value of £50. The sale took place in December, 1878. Conditional purchase 75-100, portion 15, parish of Carribbarri, 320 acres, had £14 10s. added for improvements for the protection of the Crown. Conditional purchase 75-101, portion 72, same parish, 320 acres, had £109 added for the protection of the Crown.
269. In one case you said that the improvements were added to the upset price for Mr. Ricketson's protection? Yes.

270.

270. Did that mean that he did not pay anything for improvements, but paid only the price of the land? Yes, the price of the land irrespective of improvements.
271. Because the improvements were recognised as belonging to him? Yes.
272. In two of the cases £212 and £327 were added for the protection of the Crown;—does that mean that the Crown received those amounts in addition to the upset price of the land? Yes. There are five cases like that.
273. In those cases, where you say that the improvements belonged to the Crown, the Crown received payment in the purchase? Yes.
274. Was any application made for improvement purchases for any of those pieces which were subsequently sold by auction? I cannot say.
275. The Committee want you to furnish a list of what improvements were applied for under certain improvement-purchase applications; have you a list of those? Yes.
276. Can you hand that list in? Yes.
277. That list shows the applications for improvement purchases with the particulars of the improvements? Yes, the nature and value of the improvements in virtue of which the purchases were applied for.
278. Can you tell us whether any steps were taken to put those forfeited conditional purchases back into the leasehold? No step was necessary, the law in 1875 declaring that they fell back into the lease—section 19 of the Act of 1875.
279. Were any steps taken by the Department to value those lands and the improvements that were put on them in order to assess the rent to be paid? I cannot say that, but there is a Supreme Court decision which seems to bear on the point as to what should be charged for those lands.
280. Were any steps taken by the Department to ascertain? Not that I know of.
281. *Mr. Robertson.*] What case did you refer to? It is the case of *Peterson v. Prowse*, vol. 2, page 292, "Reports of Supreme Court Decisions." I will quote the part of the decision referring to this matter. Mr. Justice Fawcett in giving his decision said:—
- "The 90th section of the Act of 1875 says that when lands conditionally purchased are forfeited they revert to the lessee. It follows that the improvements go to the lessee for the term of his lease, and subject to such lease they are vested as well as the land in the Crown."
- That decision bears on the point, and definitely states that the improvements go to the lessee with the land.
282. *Chairman.*] That is the use of them? Yes, I suppose so.
283. Then comes the question again, were any steps taken by the Department to assess the rent. Of course those forfeited conditional purchases going back into the run would not go back for nothing;—would not the Department expect rent for them? The Department should expect rent for them, and I have not the slightest doubt that when the succeeding term of five years was under appraisalment it was the duty of the appraiser to consider the land that fell in to the lease prior to the appraisalment.
284. Can you tell us of your own knowledge whether they did carry out their duty and ascertain the rent? I cannot say that, because the records of these appraisements were destroyed in the Garden Palace fire.
285. Can you give the rents charged for the Barratta Run for the years 1876, 1878, 1879, and 1880? Yes. In 1876, 1877, and 1878 the rent was £65 a year; in 1879 it was £127, and in 1880 it was the same.
286. I saw by the schedule that was handed in by Mr. Griffin that in 1876 there were upwards of 7,000 acres forfeited or lapsed? I don't know whether that is so. No doubt it is so, but I have not inquired into that.
287. That was in 1876, and if the rent for 1877 was the same as in 1876 there was nothing added for that year for those lands that went back into the run? I cannot say that, because an area might have been selected in 1877 equivalent to that which fell in.
- 287½. But as far as is shown by the figures the rent was the same in 1877 as it was in 1876? Yes.
288. In 1877 then the area that reverted or lapsed was 8,000 acres, and as the rent for 1878 was the same as it was in 1877 the presumption is that nothing was added that year for the additional area? I cannot say that, because an equivalent area may have been selected.
289. *Mr. Robertson.*] With reference to the auction sale of land, with improvements valued at £318 19s. 6d., for the protection of Mr. Ricketson, I presume that that was bought by Mr. Ricketson? The whole of those lands were bought by Mr. Ricketson.
290. Had it been purchased by a stranger, would he not have had to pay the price with that amount added to it? Yes.
291. And the improvement money would not have been added in the case of Mr. Ricketson? Yes, that is so.
292. In the other cases the additional money would have gone into the Treasury? Yes.
293. But where you say it is for the protection of the Crown? Yes; anybody buying had to pay that to the Crown.
294. You mentioned a third class of cases where Inspector Carne reported certain improvements up to £50 in value, which were not taken notice of at the time of the sale? Yes.
295. If those improvements which Mr. Carne referred to had been made by Mr. Ricketson, and he became the purchaser at auction at the upset price, then I presume that no injustice was done? Not if those improvements were made by Mr. Ricketson during his tenure of the land; but if they were made by Mr. Ricketson during somebody else's tenure it would have been improper to add anything for Mr. Ricketson's protection.
296. Take one of the auction blocks advertised for sale without mentioning the improvements upon which Mr. Carne subsequently reported. That land having been sold without any additional price having been put upon it, the purchaser paid the upset price without any charge for improvements, but if the improvements had been made by Mr. Ricketson, no injustice was done either to the country or to Mr. Ricketson? No, certainly not, if Mr. Ricketson made those improvements whilst the land was under tenure to him.
297. *Chairman.*] But when it was under tenure to others? If the others forfeited their rights the improvements belonged to the Crown, and the Department should have seen that they were paid for.
298. *Mr. Robertson.*] But that would not have been the fault of Mr. Ricketson? Certainly not.
299. About the forfeited selections with improvements on them, you have read the judgment of Mr. Justice Fawcett that makes the improvements go to the lessee for the period of his lease? Yes.
300. Has a lessee any different ownership of improvements on other parts of his run? Yes.
301. In what respect? He has if he effects the improvements himself.
302. Assuming that the squatter makes improvements on his run, I want to know in what different position he stands in regard to those improvements from his position with regard to the improvements on the forfeited selections which may have reverted to his run? The distinction is rather marked. In the one case, where a pastoral tenant improves the run at his own expense, that fact is taken into account by the Crown when considering the sale of the land, if it should be sold.
303. We will assume that a squatter having improved a block of his own run to the amount of £320 comes to the end of his lease, what relationship does he hold in regard to those improvements? Under the existing law he has no claim for compensation in virtue of the improvements.
304. Therefore, inasmuch as Mr. Justice Fawcett said that the lessee would have the other improvements during the rest of his term, virtually both classes of improvements are on the same footing? At the end of the term they would be if his tenure expired.
305. Then they are no more and no less than the other improvements? I would again repeat that if the Crown is considering the sale of the land the fact of the pastoral tenant being the owner of the improvements is taken into account, and he is protected to the extent of his improvements if the ground is sold to some one else.
306. *Chairman.*] If the Crown owns the improvements, what then? Then the Crown gets the benefit under the existing law.
307. Does the Crown discriminate between the improvements that are the lessee's and improvements that are the Crown's? I cannot say, because the leases have not ended so far. There has been invariably a renewal of the leases where they have paid their rents.
308. But suppose that at the end of December in one year there are certain lands improved which are forfeited conditional purchases, and certain other improved lands which are leased to the pastoral tenant;—is there any distinction in those two cases? I don't quite follow you.
309. To whom do the improvements on forfeited conditional purchases belong? To the Crown.
310. *Mr. Robertson.*] Of course you have a form of application for purchases; a lessee of a run desiring to purchase has to apply in a particular form, and to state that he applies in virtue of the improvements, the words being, "which have been erected by me," or "of which I have become the proprietor"? Yes.

311. I think you have plainly demonstrated that a squatter is only in a limited sense the proprietor of the improvements made by himself,—that is, that at the end of his term they cease to be his, unless something happens which has not happened yet? Yes.

312. Therefore, the other improvements made on forfeited selections being in the same position in each case, the proprietorship for the time being appears to be the same? I am not sure about it, and I will tell you why. In the one case, under the law that was repealed in 1884, he might have been permitted to purchase in virtue of his own improvements. He certainly would not have been permitted to purchase in virtue of the other improvements, and there is the distinction.

313. We are speaking now of the time antecedent to that of 1884. We are speaking of the law under the Acts of 1861 and 1875. I want to see if it can be demonstrated that there is any distinction as to the ownership of the improvements during the currency of the lease? Yes; and I would define the distinction this way,—that where the Crown would recognise ownership to improvements effected by the pastoral tenant it would not recognise the ownership of improvements if application were made for the purchase of forfeited conditional purchases that had reverted to the lessee during the term of his lease.

314. If the return shows that, as a matter of fact, they have done so, what you mean is that in your opinion they ought not to have done so? I do not follow that.

315. If this return before us shows that in some instances selections were forfeited on a given day, and applied for within a week as improvement purchases, and the improvements reported to have been on those selections at the time of the forfeiture are the same as described in the application, and the purchases were allowed? I do not know that any of those purchases were allowed in virtue of improvements which were on the conditional purchases when they were forfeited.

316. That answer is equally satisfactory to me, because if it had happened, and I could show that it was legal, that would have been a complete answer. Can you say that it has not happened? I do not know that it has. I may have my own opinion, but my opinion is worth nothing. Mr. Ricketson may have been wonderfully quick in the way that he effected improvements. There is strong presumptive evidence in one or two cases that he did apply to purchase in virtue of improvements that were effected prior to forfeiture of the conditional purchase.

317. The words in the form do not say "having erected and become the proprietor," but it says, "having erected becomes the proprietor of" the improvements? Yes.

318. Under the Act of 1861 it was decided by the Privy Council that vicarious selection was lawful;—I am referring to the case of *Barton v Muir*? You are referring to selection before the Act of 1875 came into force.

319. But all these selections were taken up during the currency of the Act of 1861, at a time when vicarious selection or dummyism was lawful? Yes.

320. In the case of *Barton v. Muir*, I was solicitor for Mr. Barton, and sent the case Home. Muir was a shepherd in Mr. D. Barton's employ. Mr. Barton paid for his selection, and made all the improvements, Muir fulfilling the condition of residence. After the expiry of three years Barton called upon Muir to transfer the land to him, but Muir refused to do so, and set up the defence that nobody could be recognised in law but himself. The case came before the Supreme Court, and the Court decided that vicarious selection was illegal. Mr. Barton sent the case Home to the Privy Council, who decided that vicarious selection was perfectly lawful, and that the selection and all the improvements were the property of Mr. Barton. When that decision was made a judgment of our Supreme Court, Muir's selection was transferred to Barton. You will admit that if Mr. Barton had failed to make improvements on the selection it would have been forfeited? Yes; it should have been.

321. Consequently, when the property was made over to Barton, it was not only because he paid for the land, but because he was owner of the improvements? Yes.

322. Ergo, Barton had erected those improvements. Supposing, instead of all this litigation, Muir had failed to observe the terms of residence, and consequently that that selection had been forfeited, would not that selection under the Act of 1875 have gone back into Barton's run? Yes.

323. Could not Barton then with perfect truthfulness have sent in this application under form A, having erected the improvements therein detailed? He could have sent in the application.

324. And could he not have said, with the history of the Privy Council's decision behind him, that he erected those improvements? Yes.

325. Where the two things coincided, this was a portion of his run containing improvements to the value of about a pound an acre, and those improvements having been erected by himself, were not the requisites there to entitle the Government, if they chose—because it is only optional after all—to sell him the land by appraisalment? No; because the improvements were forfeited when the conditional purchase was forfeited.

326. But the forfeited conditional purchase reverts back to the run, and becomes part of the run. It has improvements on it, and those improvements were erected by the lessee. I am not speaking about the spirit of the law, but the letter of the application. According to that application, would not three incidents have happened—that is, first, a portion of a run under lease; second, improvements made upon the run; and third, that they were rented by the applicant;—would not those three incidents have arisen? They would have arisen, but if you mean to ask whether they would have entitled him to make the purchase, I must say no.

327. Is that not a matter of opinion? No; I do not think so. I had better explain why the form was drawn up in that manner. The form refers not only to improvement purchases made by a pastoral tenant on his leasehold, but to purchases under gold-field tenure (miners' rights owners). It frequently happens that a person who erects a house in a proper way, having a miner's right, sells his right to the house and clears out, and the buyer by the term is the person contemplated "having become the proprietor of" when that form was drawn up.

328. Suppose that I was acquainted with a gold-field licensee, and he says you put up a house for me, and I do so. By-and-by he wants to leave the diggings, and he transfers his right to me in order that I may be recouped my outlay. Can I not then apply for an improvement purchase, the improvements having been erected by me? Yes; but the Act itself goes further. The clause allowing improvement purchases says that the land shall be sold to the owner of the improvements.

329. I have shown that during the currency of the lease the squatter has a limited ownership of the improvements during the term of his lease, and has he not precisely the same with reference to improvements on forfeited selections according to Judge Faucett's dictum in this case? No; it is not precisely the same. The Judge said that improvements go to the lessee "for the term of his lease." That is not ownership.

330. You cannot draw any distinction between one class of improvements and the other. Both are the squatter's during the term of his lease. It appears that no squatter could apply under this form, as he cannot say that he is the owner, because at the end of his lease the improvements will go to the Crown, but, notwithstanding that, is he not allowed to say that he is the proprietor? No; it says that the improvements on forfeited conditional purchases will go to the lessee for the term of his lease. Interpreted by an average mind, that means that the improvements are held by him.

331. But his own improvements are just the same? No; they may have given him a right to purchase.

332. Suppose a lessee has a stockyard upon his run, he has the use of that during the term of his lease, and he applies for permission to buy? Yes.

333. In that case you do not say that he is not the proprietor, because at the end of the term he may lose the land? No. We recognise him as the owner in such a case, but we do not recognise him as the owner of improvements on a forfeited conditional purchase, but he is entitled to the use of them during the term of his lease.

334. *Mr. Alison.*] Is that your opinion, or has it been decided? I am quoting the decision of the Supreme Court.

335. *Mr. Robertson.*] That decision says that the improvements go to the lessee for the term of his lease—you have stated that the other improvements go a little further, and on the expiry of the lease the whole of the improvements remain behind him according to law? Yes.

336. We all know that under the law anything attached to the freehold by the tenant is supposed to become the property of the landlord, but I do not think that there has ever been any objection raised to squatters removing their fences, or their stockyards, or their woolsheds. I have never heard of a case? No, nor I. I do not know what right we have to object to it. The improvements are there during the term of the lease for the pastoral tenants to do what they like with.

337. During the term of the lease the squatter would have as much dominion over the improvements on the forfeited selection as he would have over improvements erected by himself? I do not think so. I should say that he could remove his own improvements—that he could alter, reduce, or increase them, but I question whether he could do that with the improvements on a forfeited selection.

338. *Mr. Alison.*] That is your opinion? It seems perfectly clear. The improvements are his during the term of his lease.

339. *Mr. Robertson.*] Suppose that a 40-acre selection was forfeited and falls back into a run, and that 40 acres is surrounded

- surrounded by a three-rail fence, and has upon it a hut and other improvements of that kind, do you contend that in that case the squatter must allow that 40 acres to remain fenced in for the rest of his term? I should contend that, undoubtedly. I should say that he has no right to remove that fence or that hut without the permission of the Crown.
340. The law says it forms part of his leasehold for the term of his lease. Is there anything in the lease that prevents a squatter from removing improvements? Nothing that I know of.
341. Then, when selections are forfeited and revert to the leasehold, by what law could you prevent the squatter from removing the improvements? I am aware of no law beyond this definition, that the improvements are his for the term of his lease. It seems to me a clear straining of the law to say that he should be allowed to remove the improvements on forfeited selections, as they are not his property.
342. You admit that there is nothing in the lease to prevent the squatter from removing his own improvements, and I want to know where you find a law that says that he shall not remove them? I do not know of any law to prevent him from removing his own improvements, or altering, adding to, or reducing them.
343. We are told that during the term of his lease the improvements are his, and the Judge would say exactly the same about his own improvements? The Judge said something more. He said that, subject to such lease, they are vested in the Crown.
344. The improvements on all runs when the lease is up belong to the Crown; but up to that time the squatter has a legal ownership—he is owner of those improvements subject to his tenure expiring? Whilst the Judge said the improvements go to the lessee, he said that they are vested, as well as the land, in the Crown, and the vesting defines the ownership.
345. My argument is that it is impossible to draw a distinction between the two classes of improvements—when the lease terminates they all become the property of the Crown? When the lease terminates there is no difference.
346. *Mr. Alison.*] It seems to me that if the opinion you have expressed is correct we have got a perfect *reductio ad absurdum*. Suppose that a 40-acre selection has been completely fenced all round without a gateway, has the lessee no right to touch that? I cannot say that he has any right to reduce the improvements in value, or to destroy or remove them.
347. Suppose that the land is completely fenced so that he could not get any stock on to it? It is impossible to suppose that. I never knew of such a case.
348. Suppose it were so? I cannot imagine it.
349. He would not be able to use the land at all? I could not suppose that such a thing would be.
350. At the same time it might? Any mechanical fact is possible.
351. Any selector, if he chose to do it, could do it; and if the land reverted to the run what could the lessee do? He could get the permission of the Crown to alter the improvements so as to make the land available and useful.
352. *Mr. Robertson.*] Can you show any distinction in the law as to the right of a lessee to a run to deal with improvements made by himself and with improvements which have been upon the selection subsequently forfeited? Yes. The sections of the Acts of 1861 and 1875 providing for the purchase of land by virtue of improvements to the "owner."
353. Show us the clause? Clause 8 of the Act of 1861 and clause 2 of the Act of 1875.
354. Can you show me any distinction between the two classes of improvements? Yes. In one case the Crown will allow the lessee to buy by virtue of improvements, but in the other case the lessee will not be allowed to buy. The word "owner" means that he is to be the owner of the improvements, but not as Mr. Justice Faucett put it in the other case—subject to the rights of the Crown and to his limited tenure.
355. *Chairman.*] You say that the Act says that the lessee is the owner, but that is only when he has actually purchased the improvements? I interpret the Act to mean that the man is the owner when he has paid for the improvements.
356. Would you apply the term owner to a man who held improvements on a forfeited selection belonging to the Crown? No. Section 8 of the Act of 1861 describes the person entitled to purchase as the "improver," or his alienee. Section 2 of the Act of 1875, which repealed the other, empowered the Crown to sell to the "owner" of the improvements. In one place it is the "improver" or his alienee, and in the other it is the owner.
357. You mean the man who paid for them? Yes.
358. *Mr. Dangar.*] You admit that the whole of the improvements on the forfeited selection go to the lessee during his lease. You must allow that they belong to him, because you allow him to purchase the land? Not in virtue of the conditional purchaser's improvements, but in virtue of improvements that were recognised to be his. Whether in this case of Mr. Ricketson's they were the same as the conditional purchaser made or not I cannot say.
359. These purchases reverted to the lessee of the run, and you allowed him to purchase them? I do not admit that he was allowed to purchase them by virtue of the improvements found on the forfeited selections. I say that the purchases are allowed in virtue of improvements that were claimed by the applicant and admitted to be his property.
360. The Crown did not challenge them because the deeds have been issued? I do not know that the Crown did not challenge them. I believe that in those days the administration was very lax in that and in many other matters.
361. *Chairman.*] Will you look at the list that was handed in by Mr. Griffin. On page 4 you will find conditional purchase 73-12,299? Yes.
362. What is the date of the forfeiture of that conditional purchase? It was forfeited on the 7th August, 1876.
363. What was the date of Mr. Ricketson's application to purchase it as an improvement purchase? The 9th August, 1876.
364. How long was that after the forfeiture? Two days.
365. What are the improvements said to be on that land? According to Mr. Smith's report, dated 12th April, 1876—a hut, £15; yard, £35; building, £15; fencing, £160—total, £225.
366. Is it possible that these improvements could be erected in two days? It is possible, but highly improbable.
367. On the next page you will find the selection of J. Doherty, conditional purchase portion 8;—what is the date of the forfeiture? 7th August, 1876.
368. What is the date of the application for the improvement purchase? 9th August.
369. How many days had elapsed? Two days.
370. Next you will find the conditional purchase of William Liscombe;—when was it forfeited? On the 7th August, 1876.
371. When was application made for the improvement purchase? On the 9th August.
372. What length of time had elapsed? Two days.
373. Look at the next one, A. W. Robertson's selection;—when was that forfeited? On the 7th August.
374. When was it applied for as an improvement purchase? On the 9th August.
375. What time had elapsed in that case? Two days.
376. Then there is D. Macpherson's purchase;—What is the date of the forfeiture of that? 7th August, 1876.
377. What is the date of the application by Mr. Ricketson to purchase the land by virtue of improvements? 9th August.
378. What time had elapsed? Two days.
379. Then there is the case of George Dogherty;—what was the date of the forfeiture of that lease? 7th August, 1876.
380. What was the date of the application to purchase by virtue of improvements? The 9th August.
381. How much time had elapsed in that case? Two days.
382. Then there is the case of William Dogherty;—what is the date of the forfeiture? 7th August.
383. What is the date of the application to purchase the land by virtue of improvements? 9th August.
384. What amount of time had elapsed? Two days.
385. The next is the case of Charles Miller;—what is the date of the forfeiture of that selection? 7th August.
386. And what is the date of the application to purchase it as an improvement purchase? The 9th August.
387. What was the lapse of time in that case? Two days.
388. There is another one, Fanny A. Carter;—what is the date of the forfeiture of that selection? 7th August, 1876.
389. What is the date of Ricketson's application to purchase by virtue of improvements? 9th August.
390. What time had elapsed in that case? Two days.
391. There is another case a little further down, that of Thomas Adams;—when did that lapse? On the 20th July, 1878.
392. When was it applied for as an improvement purchase? On the 29th August.
393. Were those forfeitures published in the *Gazette*? Yes.
394. Is the *Gazette* published in Sydney? Yes.
395. How long would it take for the *Gazette* to reach Deniliquin? In those days it would take about two days and a half.
396. Is it reasonable to expect that when those forfeitures appeared in the *Gazette* several days had elapsed before Mr. Ricketson could see them? Yes, if he was living at Deniliquin; but still it was possible for him to know about them within half an hour, as he might receive the information by telegraph, or he might know a week beforehand that they were

- were going to be forfeited. I think I should mention that a number of these applications made by Mr. Ricketson were refused, and other applications were afterwards made, which were granted.
397. And some were sold by auction, and he became the purchaser? Yes; but a number of his improvement-purchase applications were refused.
398. Did those forfeited lands go into the lease for any considerable time, or were they almost immediately applied for to be purchased by virtue of improvements or sold by auction? Almost immediately most of them were applied for to be purchased by virtue of improvements.
399. And some were sold by auction? Yes.
400. And in such cases as these, would they be likely to go into the lease? I do not quite understand. They did fall into the lease the moment that the forfeiture took place.
401. But as there was only two days between the forfeiture and the application to purchase in virtue of improvements, would those forfeited selections go into the lease? Unquestionably, the moment that the forfeiture took effect.
402. How long? Until the land was sold.
403. Suppose that no rent was paid at all for the selections, would they form any part of the lease? Yes, they would still form part of the lease.
404. Without payment of rent? Yes; that is a matter for the Department to look after.
405. Can a man be a leaseholder without being charged for rent? I do not see why a lease should not be granted for a nominal consideration.
406. Has anything been paid? For the lease—yes; but for these lands I fear there has not.
407. As far as you know? As far as I know, rent was probably not paid for some of these selections, for a time at any rate.
408. *Mr. Robertson.*] You notice that the whole of the selections which you refer to were made under the Act of 1861? Yes.
409. And if in these cases these people whose names have been given were the vicarious selectors or dummies of Mr. Ricketson, I suppose you are not prepared to say that as far as the Crown knows Mr. Ricketson did not make the improvements on those selections? I do not know. He may have made them for all I know. It is only right to say that the appraisements were carried out every five years, and the lands that fell into the lease were not taken into account until the five-years term had expired.
410. *Mr. Alison.*] In those days the rent was so much a block? Yes.
411. *Chairman.*] Was this charged for in that way? That is conclusive when I point out that the rent in 1876, 1877, and 1878 amounted to £1 7s. 7½d. per section, showing that it must have been calculated at per block.
412. What became of those forfeited conditional purchases? They reverted to the pastoral lease in which they were situated.
413. And they were declared to be—what? They were declared by the Supreme Court to go to the pastoral tenant for the term of his lease. Mr. Ricketson was the registered holder, from and after the 12th February, 1874. The Australian Mortgage Land and Finance Company transferred to him on that date.

Friday, 5 July, 1889.

Present:—

MR. ALISON, | MR. HUGH TAYLOR.  
R. BARBOUR, Esq., in the Chair.

Thomas Robertson, Esq., Solicitor, appeared for Mr. Henry Ricketson.

Mr. Henry Ricketson called in, sworn and examined:—

414. *Chairman.*] You are the lessee of the Barratta Run? Yes.
415. *Mr. Robertson.*] In the return which has been placed before the Committee there is a selection that was made on the 20th November, 1873, by Fannie Barbour, conditional purchase No. 73, portion 3;—what has become of this conditional purchase? I applied for it under the 31st clause of the Act, and put on my own improvements, which were passed.
416. The 31st clause gave the lessee a right to apply for land in virtue of prospective improvements—improvements which it was intended to make afterwards? Yes.
417. You stated that you intended to make certain improvements on the land? Yes.
418. And did you make those improvements? I did.
419. Have you obtained a grant of the land? No, not yet.
420. Then there is a selection in the name of Margaret Barbour;—what became of that? It was taken up by Margaret Barbour, and then forfeited.
421. And what happened after that? I applied for it under the 31st section of the Act, but it was refused. I was informed that I could apply under the 2nd section, which I did. It has been granted since.
422. Between the time of the first and the second application you improved the land? Yes.
423. And you applied under the 2nd clause, which gives a right to purchase by virtue of improvements? Yes.
424. And your application was granted? Yes.
425. And you have the Crown grant for that land? I think so; I do not know.
426. You have paid up for it? Yes.
427. I now come to another selection—R. Barbour's, portion 23, parish of Ricketson;—what was the history of that conditional purchase? It was taken up by J. Pitty, parish of Ricketson.
428. What did Pitty do with it? It was forfeited, and I applied for it, and that was dealt with in the same way.
429. You first of all applied for it under the 31st clause, and the Government granted it under the 2nd? Yes.
430. And you have a Crown grant? I believe I have; I paid for one.
431. I come now to portion 14, parish of Ricketson, selected by S. P. Barbour, 320 acres;—what is the history of that? It was forfeited.
432. What did you do after that? I applied for it under the 2nd clause, and put on the necessary improvements.
433. Was it granted? No; it is not granted yet.
434. Another selection was taken up by Mary K. Barbour—portion 10, parish of Ricketson;—what is the history of that purchase? It was forfeited.
435. It was forfeited on the 7th August, 1876;—did you apply for it afterwards? I applied for it under the 31st clause, but my application was refused, and I was told that I could have it under the 2nd clause, and it was granted under the 2nd clause.
436. There was another selection made by Catherine Barbour on the 20th November, 1873,—portion 11, county of Ricketson? It was taken up at the same time. They were forfeited, and I got them under the 2nd clause, having first applied for them under the 31st clause.
437. Another selection is that of Leighton Barbour, portion 13, parish of Ricketson. It was taken up on the 20th November, 1873;—was that forfeited? Yes; and I took it up under the 31st clause and put on the improvements.
438. *Chairman.*] Has it been purchased? It has not been granted yet.
439. *Mr. Robertson.*] Another selection is that of R. Barbour, junior—portion 12;—was that forfeited? Yes; I applied for that under the 31st clause, but to neither of these have I got a title.
440. The whole of these selectors whose names you have mentioned are I believe children of the Chairman of the Committee, except J. Pitty? Yes, and he is his brother-in-law.
441. When these conditional purchases were forfeited, had they any improvements upon them; and if so, what was the nature of the improvements, and what became of them? There were no improvements that were any good except what I had put on the land myself. What I had put on I removed and put on new ones.
442. *Mr. Taylor.*] What improvements were on the land when the selection was forfeited? There was fencing of my own there, and there is fencing put on by the selector which is useless—it can neither keep stock in nor keep them out. It was fencing made of pine sticks 15 or 17 yards apart with corroded iron ruined by salt water. These formed a part of what Mr. Barbour called improvements. These improvements were sold to me by Mr. Barbour.
443. *Mr. Robertson.*] When you speak of improvements made on the selections by you, do you mean boundary fences or improvements that you have made before the land was selected? Improvements made by me before the selections were forfeited to keep my stock off Mr. Barbour's land.

444. Then they were boundary fences? Yes.
445. Will you say that you purchased these improvements from Mr. Barbour;—I presume you are referring to an award in the matter of arbitration between you, by which you were adjudged to pay? Yes.
446. What were you ordered to pay for these improvements? I objected to their going into the reference paper. I told Mr. Barbour that he could not get the land in virtue of them, but he said that if I would let them go into the reference paper he would get the Government to put the land so that I should have it at 30s. an acre. He said he could get the land for £1 an acre if I would allow it to go into the reference paper. The improvements were useless; they were all pine sticks, except a few gum posts, which belonged to me. He got them off my land, and some he took after they had been put into a pile on the run. Some were rejected posts of mine. Mr. Barbour had no business with them. Evidence on that point has been given by a man named Isaac Everett.
447. Under the award you were adjudicated to pay Mr. Barbour 10s. an acre for the improvements upon his forfeited selections? Yes, when a grant was procured from the Crown.
448. Did you succeed in getting that grant? Never.
449. And consequently the condition on which you were to pay that money was not fulfilled? No.
450. And you refused to pay it? I refused to pay it.
451. And the improvements were of no use to you? Of no use whatever.
452. Does not Mr. Barbour consider that he has a grievance because you have not paid this 10s. an acre? He assumes to have a grievance, but he knows well that the improvements were no good. On portion 14 there is a fence which is useless—a calf could run through it—the posts are only little pine sticks. He could not get any others about there, the selectors having taken them all.
453. Is it not on account of Mr. Barbour's supposed grievance as to your not paying this 10s. an acre for the improvements that this Committee is sitting here to-day? Yes, it is. He tried to sell me the land the day after he selected it. He did not tell me the exact words, but I put a witness in the box who said that Mr. Barbour had stated that if I did not buy him out he would make the land cost me £5 an acre.
454. What have you done in reference to getting these grants? I had to put on the proper improvements and get the grants under the 2nd or 31st clause.
455. Have you made the improvements required by the Act in addition to Mr. Barbour's improvements? Yes, I have.
456. You are giving the Committee to understand that the Government refused to grant a selection on Mr. Barbour's improvements? Yes; they would not allow anything for them. I had to put on my own improvements. Mr. Barbour was to have got the land from the Government before he could give me a title.
457. Did Mr. Barbour ever threaten you with Parliamentary action unless you satisfied his claim? Yes; he told me one time, in front of the Exchange, that if I gave him £150 we would be good friends.
458. What followed from that? I told him that I would do nothing of the kind—that his improvements were no good, and that he had not carried out what he stated he would in the reference paper. I had carried out my part of the award, but he had not carried out his part. He told me that if I did not do so he would get roads gazetted through my run.
459. At any rate you believe that this inquiry is a result of your refusing to satisfy Mr. Barbour's demands? Yes.
460. What happened the second time he spoke to you? It was in the "Exchange Hotel" that he saw me again, and he asked me if I was going to give him anything; he repeated almost exactly what he had said before, and wanted me to give him some money. I said that I would do nothing of the kind, and turned my back on him. I told him that if he talked to me like that again I would put him in the logs. To the best of my recollection that was a year ago last April or May.
461. *Mr. Taylor.*] If Mr. Barbour had carried out his agreement, what amount would you have had to pay him at 10s. an acre? If he had carried it out I should have had to pay him £700 or £800, and it would have saved me twice that amount, because I had to put on good improvements.
462. *Mr. Robertson.*] I have a letter here which I intend to put in as evidence—you have heard this letter read, and the copy which you have handed in,—is that a correct copy? Yes. [*Appendix B 1.*]
463. In reference to the improvements generally upon Barratta Run, how many men did you keep employed there at the time of the forfeiture of the selections? The number varied. Sometimes 150 men. At that time I had about 450 men in my employment, and about 150 were on the Barratta Run.
464. And your object was to be able to put on by an almost instantaneous process any amount of improvements? Yes; I could put £3,000 worth of improvements on in a day in the shape of iron houses.
465. As a matter of fact you put on a number of iron houses? Yes.
466. And you made application in virtue of them, and the Minister refused the application? Yes.
467. He would not recognise them as anything but temporary structures? No.
468. Almost all this land that you have already obtained grants for, have you obtained a grant of any land to which you were not legally entitled? Not any. I may mention with regard to No. 27, on which it is said I put the improvements in two days, that my overseer made the application. Mr. Barbour himself saw that. On the 13th September he was in the tank, and it was finished that morning. The selection was forfeited on the 7th August, and on the 12th or 13th September the tank was completed. There was a little hole before, about 150 yards. On the morning of the 13th I saw Mr. Barbour in the tank—there was then about 30 yards to come out. The next day he went and selected 170 acres, and took the tank in with it, which the morning before he saw I was putting down. This was fifteen or eighteen days after it was forfeited. Mr. Barbour knows that I put on the improvements, and that my improvements were added to the selection, and I had to pay for them again. That was portion 27. I saw Mr. Barbour in the tank, and he got up and ran through the fence, which was close to the boundary of the selection taken up by his daughter Margaret.
469. If Mr. Barbour offered to give the whole of the money that you have expended in improvements on the Barratta Run, and in paying the Government for the land, with interest for the time in which you so invested your capital, would you be glad to get that money back? I should be very glad to get it back—the improvements that I have put on the Barratta Run would come to £45,000 or £50,000. Besides paying for the land, I have put down 160 tanks on the Barratta Run, and some I put down on purchased land after I had bought it.
470. How much have you expended on improvements? I should say £45,000, and a great deal of the land I have bought at auction. I bought 10,000 acres one day without any tank on it, and I put tanks on that land too.
471. How much has the Barratta Run cost you altogether? For land and the improvements, reckoning bank interest up to the present date, I should think £200,000—with bank interest, up to £250,000 or £300,000—more than I could get for it, a great deal. Taking the bank interest, the amount would come close up to £300,000; and as regards the selections, Mr. Barbour knows about Mr. Kelly's selection. About 100 yards out of that a small tank was made to hold water for the men to do work. When Mr. Barbour left portion 6, he knew that there was a tank on George Kelly's selection. He knew that it was not finished, and there was not over 150 yards out, yet after that £150 or £200 was put down for that tank, and they have charged for it, although Mr. Barbour knows that it was put down after the selection was forfeited, and it was added to my price. Mr. Barbour selected portion 27. He was in there on the 13th, and I think that on the 14th he selected it in the name of Ramsbotham. He had a man of that name in his employment.
472. You again repeat that not one block of land have you acquired except in accordance with law? Not one. My overseers put in applications, and Government officers were sent to inspect the improvements; but they would not recognise iron houses, and they would not pass the improvements until tanks were put down.
473. I suppose that a great many of your applications were refused in the first instance? Yes, they were, and further applications were sent in. I knew very well that there were always officers sent down to inspect the lands immediately they were forfeited. When the selections were forfeited my improvements were put on. I had to put on improvements to keep my stock off Mr. Barbour's land. I was not going to let Mr. Barbour get the better of me at law. He was waiting for that. I fenced all round portion 10. He ran up a fence between my boundary and portion 9, but it was no good. I had to put up another fence 6 inches from it. When I did that Mr. Barbour took up that fence and put it in another place. He then sent his children out there for three weeks, and they cut up the fence and burnt it. I put up a new fence there again. Mr. Barbour knows all that. A man named Beady was teaching his children for three weeks out there.
474. *Chairman.*] Will you look at this schedule—there is a selection there in the name of F. W. Ricketson, taken up by Henry Ricketson as agent for him, 320 acres;—when was that selection taken up? I think some time in August.
475. What improvements did you put upon that selection? Improvements enough.
476. Did you put up stables for Cobb & Co.? Yes.
477. When did you put up the improvements mentioned in the schedule? I think the day after the house went on the land, and after it was forfeited.

478. Were those improvements put on whilst it was a conditional purchase? They were not.
479. You applied to purchase that on the 21st May, and it was forfeited on the 7th May? Yes.
480. Do you want the Committee to believe that between the 7th May and the 21st—fourteen days—you put up stables that cost £175, fencing that cost £160, and made a tank that cost £133? Yes.
481. Do you expect the Committee to believe that in fourteen days you made improvements amounting to £463? Yes.
482. Were those improvements put up after the 7th May, and before the 21st May? Yes; the improvements in virtue of which I got the land were put on after the forfeiture of the selections.
483. The stables for Cobb & Co. £175, the fencing £160, the tank £133;—did you put all these improvements on the land between the 7th and the 21st May, a period of fourteen days? I could not swear to the fourteen days, but the stables were put up the day after the forfeiture. I was always looking out for these things.
484. Again I ask, did you erect the whole of these improvements in fourteen days? Some may have been later than fourteen days. I think I was on there some days after putting up a fence, and some of the officers visited the place. It was a month after. The men had not finished all the fencing, but there was enough to take the land.
485. Did you put any of those improvements on before the 7th May—before the selection was gazetted forfeited? Not to my knowledge, I had the fencing round the margin of my selections, ready to be put up.
486. Did you not put up the improvements before the 7th May, 1877? No; I did not. If there was anything at all there it would be a little hole to hold the water.
487. There is a selection in the name of C. N. Ricketson, No. 8 parish of Ricketson, 320 acres;—was that a selection you took up in the name of one of your children? Yes, it was.
488. What improvements did you put on during the time it was a selection? There were some improvements on the land before it was a selection.
489. That is not an answer to the question;—what improvements did you put on during the time that it was a selection? I do not really know. My overseers were there; they made out the application, but another went in after. I know that the improvements were put on after. I do not remember much about it; but I know that there was a tank there before the land was selected, which I think you saw.
490. When Smith, the Inspector of Conditional Purchases, visited that selection on the 12th April, 1876, he reported that there was a hut valued at £15; fencing, £180; a tank, £100? That was some months before the selection was forfeited. It was forfeited on the 7th August, and his report is dated the 12th April, 1876.
491. I suppose that that report is true, is it not? I know that there was some tank marked out, and Mr. Smith asked if I was going to put a tank there, and I told him I was.
492. At the time Smith called, when you took him round, he reported that there was a hut, valued at £15; fencing valued at £180; a tank, at £100;—were these improvements there when he visited the selection? I do not remember it; it is a number of years ago. I do not know what value he put on the improvements. I know there were tanks put down after the land was forfeited, and you remember it too. You saw the men at work there.
493. Will you answer my question. Were there any improvements made on this selection whilst it was a selection? Yes; I daresay there was something in the way of a hut, but I think that was put on before it was selected.
494. I wish you would say yes or no? It is a thing I cannot recollect.
495. You can say you don't know? I will say what is correct.
496. You say that there was something put on the land before it was selected? If it was it was taken off again, and other improvements were made.
497. You say something was put on;—was that the hut which is valued at £15? I know there was a hut on it.
498. Was the fencing valued at £180? I cannot remember. All the ground was laid out with fencing.
499. If you are determined not to answer the question say so, and I will not ask you any more? You can ask whatever questions you like. The improvements that the land was taken under were put on after it was forfeited.
500. Were those improvements which I mentioned just now put on the selection whilst it was a selection? I think there is some exaggeration as to their value.
501. Who removed them? I do not know—some of the men.
502. Who instructed them;—they could not do it without your instructions? I could move my fencing where I liked.
503. Did they remove it against your instructions? Some of the men would do it under the directions of the overseer.
504. *Mr. Taylor.*] You have overseers? Yes.
505. They could give orders? Yes.
506. *Mr. Alison.*] They might act without your knowledge? Yes.
507. *Mr. Taylor.*] They have the power? Yes; they have power to make paddocks.
508. *Chairman.*] You mean that the improvements were moved either by your consent or by your authority? If I put up a fence I had a right to take it down. They certainly knew my fencing from anything you put up. Your fences were all pine sticks.
509. They removed the improvements then without your authority? I do not know anything about it. What you call improvements were no use at all; anyone could knock them down with his hands. There were seven horses in a paddock, and when they were running one of them struck your fence and knocked seven panels down. A two-year-old foal got entangled in the wire and broke off a dozen of them.
510. The next selection is in the name of M. A. G. Ricketson;—was that also one of your children? Yes.
511. That selection was subsequently forfeited, was it not? Yes; and there was a tank on it before it was selected.
512. Were the improvements on it put on it by you for your daughter whilst it was a selection? If they were put there there were others put on afterwards.
513. There is a hut £15, fencing £180, tank £150;—those were improvements that Inspector Smith found there? Yes; those are portions 8 and 9. To the best of my knowledge the hut was put on before it was made a selection.
514. And was the fencing put on whilst it was a selection? No; to the best of my knowledge there was a portion of it fenced, but the fencing did not remain there.
515. Was the tank put on whilst it was a selection? No; it was finished after it was forfeited. The tank had been commenced, but was not completed. Almost all the work was put on after the forfeiture; you would hardly call it a tank that was there before the forfeiture.
516. It is reported by Smith as having been there? Yes, but it went on before.
517. Were the tank and fencing put on the land whilst it was a selection? No; I do not say any such thing. There was some fencing on it, but it came off.
518. Who took it off? My men, I suppose.
519. By your instructions? I do not remember instructing them. I told them to put a new fence on, so that we could apply for the land under the 2nd clause.
520. *Mr. Alison.*] There was some fencing, some sort of a tank, and some sort of a hut, I suppose? Yes; when it was taken up there was some sort of a tank on it, and I think the hut was on it. I put on the improvements.
521. *Chairman.*] Further on there is another selection taken up by you as agent for J. Dogherty—No. 8, Banangalite;—what improvements did you put on whilst it was a selection? I think there was a very small tank.
522. That selection was forfeited on the 7th August, 1876? Yes. To the best of my knowledge there was a small tank, which was made into a large one.
523. Was that inspected by Smith on the 12th April? I do not know.
524. He says there was a hut valued at £15, a tank valued at £200, and a fence £78;—is that true or not? I do not know. I cannot say what was Mr. Smith's valuation. It was certainly not worth that, but it was made up to that.
525. You were with him on the 12th April, some six months before the thing happened, and this is his report, as shown by the papers? I know that the tanks were all made into large tanks after the land was forfeited.
526. From April to August is four months; before the land was forfeited Smith found those improvements on it;—is that true or false? When Mr. Smith saw those improvements he asked me if I intended to finish the tank, and I said yes.
527. A few months afterwards Mr. Finlay visited the selection and found fencing to the value of £120, a tank valued at £133, and a hut valued at £10;—is that true? Yes; it was going on when Mr. Finlay was there.
528. Were they there when he called? There was fencing going on then. If there was any fencing on it had not been completed. The old fencing had been removed. It ran up against your house.
529. You took up a selection as agent for William Liscombe? Yes.

530. Did you put any improvements on the land whilst it was a selection? That I cannot say. There were improvements put on after. The officers inspected the land two or three times, and would not allow for the iron houses, and tanks were put down to make it up.
531. That was forfeited on the 7th August, and Smith had reported on 12th April that there was a hut valued at £15 and fencing of the value of £135? There was fencing and a house, but the fencing is outside the line; it is not on Liscombe's land.
532. The next selection is A. W. Robertson's;—did you take that up as agent for Robertson? Very likely I did.
533. Did you put any improvements on that land whilst it was a selection? A small tank, I think, and a hut.
534. And some fencing? There may have been some fencing. There was some fencing around the margin of the selection.
535. That land was also forfeited on the 7th August, 1876? Yes.
536. And Smith visited the land on the 12th April and reported these improvements, which you say were a hut, fencing, and tank? There might have been a small tank on it. There was a larger tank put on it afterwards.
537. Was that after the 12th April, the time when Smith was there? It was made into a large tank after Smith had been there.
538. There was a tank there when Smith was there? I would not swear it. If Smith reports that there was it was only a small tank.
539. There is another selection in the name of D. Macpherson;—did you take up that land in the name of D. Macpherson? Yes.
540. What improvements did you put on whilst it was a selection? A hut and a little tank, and that was going on at the very time when you were on the selection.
541. Was there a fence? Not a complete fence. I had fencing there.
542. If Smith reported that there was fencing there, would he be telling the truth? Oh, there would be some fencing there, I daresay, but the same fencing is not there now.
543. *Mr. Robertson.*] And you have not got the land? No; but I have some fencing there.
544. Have you removed the fencing there? Decidedly. I have not one mile of my old fencing that was standing on the 7th August. It was all renewed, to the best of my knowledge.

CONDITIONAL PURCHASES MADE UPON BARRATTA RUN.

APPENDIX to Evidence of F. Griffin.

30th May, 1889.

[Appendix to Evidence of Henry Ricketson.]

B 1.

Dear Sir,

Parliament, New South Wales, Sydney, 28/12/88.

In reply to your note of to-day, inquiring whether I have anything to communicate, I have nothing but to refer you to my former letters, that letter that had the postscript which you have been showing to some of the Denilquin people, to persuade them to sign your petition, several of whom have written to me to get their names struck off, as they say you misled them.

About the improvements, I will get a Select Committee when the House meets to go into the whole matter. They will deal with Barratta first, and take Arratulla, Cornallo, and the other stations after.

Henry Ricketson, Esq.

Truly yours,  
R. BARBOUR.

No. 2.

R. Barbour, Esq., M.P., to The Under Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 10 April, 1890.

In the beginning of February last I presented a petition to His Excellency the Governor, signed by myself, praying that His Excellency and the Executive Council would instruct the Attorney-General to take steps with respect to the Barratta forfeited conditional purchases. I traced the petition from the Governor to the Colonial Secretary, and from the Colonial Secretary to the Lands.

I shall take it kind if you will inform me of what has become of it, and whether it has yet reached the Attorney-General, and oblige

Yours, &c.,  
ROBT. BARBOUR.

No. 3.

Questions and Answers.

LEGISLATIVE ASSEMBLY, 21 MAY, 1890.

(18.) BARRATTA RUN:—MR. BARBOUR asked THE SECRETARY FOR LANDS,—

(1.) Was a petition presented to His Excellency and the Executive Council in February last by the Chairman of the Select Committee on the Barratta forfeited conditional purchases, praying, as certain facts were elicited in the evidence given requiring further legal investigation, that the report which has been adopted by this House and all the papers be sent to the Attorney-General for further action?

(2.) Have any steps been taken in connection therewith; and, if so, what?

MR. BRUNKER answered,—

(1.) A petition referring to forfeited conditional purchases on Barratta Holding was presented by Robert Barbour, M.P., to His Excellency the Governor, and was subsequently received in this Department.

(2.) The papers are at present before me, but have not yet been finally dealt with. They were submitted to me on the day that I had to leave the office by reason of ill-health, and I have not been able to look into them since. The papers will very likely be sent on to the Attorney-General this week.

To be placed with the papers in connection with the petition.—W.H.C., 16/6/90.

No. 4.

The Under Secretary for Lands to R. Barbour, Esq., M.P.

Sir,

Department of Lands, Sydney, 6 June, 1890.

In reply to your letter of the 10th April last, respecting your petition in connection with forfeited conditional purchases on Barratta Run, I am directed to inform you that, having carefully reviewed the report of the Select Committee, Mr. Secretary Bruncker is of opinion that it does not disclose any facts necessitating an opinion from his honorable colleague the Attorney-General, but your having approached His Excellency the Governor by petition, he deems it his duty to submit the prayer of the petition for consideration of the honorable the Attorney-General.

I have, &c.,  
WM. HOUSTON,  
Under Secretary  
(pro W.H.C.)

No. 5.

The Under Secretary for Lands to The Crown Solicitor.

Sir,

Department of Lands, Sydney, 6 June, 1890.

I am directed by the Secretary for Lands to forward herewith a Petition presented to His Excellency the Governor by Robert Barbour, M.P., respecting forfeited conditional purchases on Barratta Run, and to request that you will be good enough to submit the same for the consideration of the honorable the Attorney-General.

I have, &c.,  
WM. HOUSTON,  
Under Secretary  
(per W.H.C.)

## No. 6.

## The Crown Solicitor to The Under Secretary for Lands.

*Subject*:—Petition presented to His Excellency the Governor by Robert Barbour, M.P., respecting forfeited conditional purchases on Barratta Run.

Sir,

Crown Solicitor's Office, Sydney, 9 June, 1890.

I have the honor to return herewith the papers relating to the above matter which were forwarded to me from your Department on the 6th day of June, 1890, and to state that I have submitted them to Mr. Attorney-General Simpson, a copy of whose memo. thereon will be found upon the other side of this letter. (For enclosure  
see No. 1.)

I have, &amp;c.

JOHN WILLIAMS,  
Crown Solicitor.

Submitted.—W.H., 11/6/90. Inform Mr. Barbour, M.P.—J.N.B., 11/6/90. R. Barbour, M.P., informed, 12/6/90. Copy of letter enclosed.—W.H.C., 17/6/90.

## [Enclosure.]

## COPY MEMORANDUM.

The Minister for Lands, after carefully reviewing the Report of the Select Committee, is of opinion that it does not disclose any facts necessitating an opinion from the Attorney-General, but merely deems it his duty to submit the prayer of Mr. Barbour's petition to the Governor and Executive Council for my consideration.

It is no part of my duty as Attorney-General "to cause this case to be investigated, with a view to the withdrawal and cancellation of every Crown grant that may have issued to Henry Ricketson upon misrepresentation" (I quote the language of Mr. Barbour), and I am not aware of any steps which it is necessary for me to take in this case to "vindicate the law in its highest prerogative," that of "being a terror to evil-doers, and a praise and protection to those who do well" (I again quote the language of Mr. Barbour).

G. B. SIMPSON,  
A.-G., 9/6/90.

## No. 7.

## The Under Secretary for Lands to R. Barbour, Esq., M.P.

Sir,

Department of Lands, Sydney, 12 June, 1890.

Adverting to my letter of the 6th instant, intimating that your petition respecting forfeited conditional purchases subsequently alienated to Mr. Henry Ricketson, lessee of Barratta Run, had been forwarded for the consideration of the honorable the Attorney-General, I am directed by the Secretary for Lands to inform you that the honorable the Attorney-General, in a minute on the subject, states that it is no part of his duty, as Attorney-General, to cause this case to be investigated with a view to withdrawal and cancellation of every Crown grant that may have issued to Henry Ricketson upon misrepresentation as alleged by you, and he is not aware of any steps which it is necessary for him to take in this case to vindicate the law.

I have, &amp;c.,

WM. HOUSTON,  
Under Secretary  
(per W.H.C.)

--	---

## PLAN.

The proposed College for the Training of Teachers of Public Schools.

# PARLIAMENTARY STANDING COMMITTEE ON PUBLIC WORKS.

## COLLEGE FOR THE TRAINING OF TEACHERS OF PUBLIC SCHOOLS.

### REPORT.

THE PARLIAMENTARY STANDING COMMITTEE ON PUBLIC WORKS, appointed during the first Session of the present Parliament, under the Public Works Act of 1888, 51 Vic. No. 37, and the Public Works Act Amendment Act of 1889, 52 Vic. No. 26, to whom was referred the duty of considering and reporting upon "the Erection of a College for the Training of Teachers of Public Schools," have, after due inquiry, resolved that it is expedient the proposed College should be erected, and in accordance with the provision of subsection IV, of clause 13, of the Public Works Act, report their resolution to the Legislative Assembly:—

1. The proposed College is intended, it is explained, for the purpose of providing the necessary accommodation for male students in training as teachers of the Public Schools, the operations of the College to be so conducted as to obtain for the students not only the advantages of the instruction imparted within the College, but as full a benefit as is possible under the circumstances of their position from the course of lectures and studies in the University. To enable this to be done the College will be erected in the University grounds, and declared a College within the University. Its Principal will be recognised *ex officio* a member of the University, and he will have the same rights and privileges as are conferred by the University Act of 1861 on Principals of the affiliated Colleges. The management of the College, including the appointment of its staff, will be under the control of the Minister of Public Instruction, but the students will be subject to the rules and regulations of the University so far as these may affect them as undergraduates or members of that institution. It is contended by the Minister of Public Instruction that to ensure a sufficient supply of thoroughly qualified teachers for effectively carrying on the work of national education it is necessary that the State shall itself provide an efficient system of educational and professional training for candidates for the position of teachers, this training being of a kind which shall enable students to acquire full information in the subjects to be taught in schools, and have the advantage of the highest professional skill in the art of teaching.

2. The College will be a building of three stories, and it will contain accommodation for the residence and instruction of fifty-one students. Separate bed-rooms each 12 feet by 8, fitted with such conveniences as will enable the room to be used as a study for private work, will be provided for the students, and there will be five class-rooms for different kinds of work, and a lecture-room, for the accommodation of about 250 persons who, consisting of teachers generally, as well as the resident students, may be admitted to lectures. In addition to the class-rooms provision is made in the plans for a library and museum, a students' recreation-room, a gymnasium, and the necessary accommodation for servants and for other purposes associated with a building of the kind. A residence for the Principal will be erected apart from the main College building, but connected with it by an arcade; and there will be a porter's lodge at the entrance to the College grounds. The three buildings will be erected of Pyrmont stone externally, and internally of brick and coke concrete, the roof to be covered with slates, and the internal finishings to be neat and substantial, but not extravagantly ornate. The style adopted is English Norman of the 12th century.

Estimated  
cost.

3. It is estimated by Mr. W. E. Kemp, Architect for Public Schools, and the author of the design, that the cost of erecting the College and its appurtenances will be £37,500.

Witnesses  
examined.

4. It has not been necessary in this inquiry to examine many witnesses, the points upon which it has been desirable to obtain information being few, and the witnesses called by the Committee competent to explain everything clearly and satisfactorily. Mr. E. Johnson, Under Secretary of Public Instruction, laid before the Committee a statement of the case, and this with a printed document presented to Parliament, and published with the proceedings in this inquiry as an appendix to the evidence, formed a sufficient basis upon which to elicit the further information necessary to enable the Committee to arrive at a decision. Having had the Under Secretary before them the Committee examined Mr. W. E. Kemp with reference to the plans and specifications of the proposed College and the estimate of cost. Mr. J. C. Maynard, Chief Inspector of Public Schools, and Mr. J. C. Conway, Principal of the Training College, Fort-street, and the intended Principal of the proposed College, were called to obtain from them an explanation of the present system of training Public School teachers and the advantages which in their opinion the proposed College would afford in this training work. Mr. H. E. Barff, Registrar of the University of Sydney, was examined for the purpose of eliciting information from him relative to the cost of Colleges already erected in the University grounds, and his opinion as to the advantages or otherwise likely to be gained from the erection and use of the proposed College, including the relations that will exist between the College and the University. One other witness was called, Mr. W. L. Vernon, Government architect, and he was invited to report upon the plans and estimate of cost prepared by Mr. W. E. Kemp, so that the Committee might have before them the opinions of a second architect on these matters.

The evidence.

5. The evidence obtained by the Committee may be summarised under the following heads:—

- (a) Description and objects of the College.
- (b) Whether the plans are such as will provide the accommodation necessary in connection with a College of the kind.
- (c) Whether the plans are too elaborate, or the estimate is reliable.
- (d) Whether the College is likely to secure the objects desired.

Whether the  
plans will  
provide the  
accommoda-  
tion necessary.

6. The description and objects of the College have already been stated. The question whether the plans are such as will provide the accommodation necessary in connection with a College of the kind has been answered by most of the witnesses. Apart from the opinion of Mr. Kemp, the architect, Mr. Maynard, Chief Inspector of Public Schools, is of opinion that they will meet all requirements both for the present and the future. As to the site he considers it the best available in the University grounds, the situation being good and easily accessible; what was particularly wanted was to get close to the University, and this end has been secured. One thing only he objects to, and that is placing the residence of the Principal outside the main building. The Principal, he considers, should live inside the building to supervise the students. Mr. J. Conway, the Principal of the present Training School at Fort-street, is of opinion that the design provides all the accommodation required for at least the next quarter of a century, and Mr. H. E. Barff, Registrar of the University of Sydney, approves of the plans, with the exception that he thinks it would be better for the Principal to reside in the building occupied by the students. The style of architecture, and the building generally, will do well, he says, for the purpose intended, and will be in harmony with the University buildings. The chief evidence on the subject of the plans and the accommodation for which they make provision, apart from that given by Mr. Kemp, will be found in a report by Mr. W. L. Vernon, Government architect. In his opinion the plans fulfil the required conditions "in an ample but not extravagant manner, and each separate department appears to have been carefully studied and placed relatively in the most advantageous position." The building, he further states, is so planned that it is capable of enlargement, either on the flanks or on the front looking towards the University.

7. It does not appear, as far as the Committee can ascertain, that either the plans are too elaborate or the estimate of cost is excessive. The style of architecture selected by the architect, Mr. Kemp, was chosen by him, he explains, because it is, as far as is requisite, in harmony with the buildings already in the University grounds, and because it is one which is easily arranged to provide for modern wants. In Mr. Vernon's opinion the design, as far as the drawings disclose, is correct and conscientiously worked out; it will stand alone as an example of the particular period it represents in the history of design, and instead of clashing with the later styles adopted in the surrounding buildings will harmonise and have an educational effect. On the question of cost Mr. Vernon estimates it at £47,538. Mr. Kemp's estimate for the Principal's residence is between £2,000 and £3,000; Mr. Vernon's £4,734. Mr. Kemp estimates that the porter's lodge will cost about £1,000; Mr. Vernon considers it will cost £1,728. The cost of the main building Mr. Vernon estimates at £38,780, and he sets down £2,296 for excavations, roads, approaches, and boundaries, &c. With reference to Mr. Vernon's estimates and report Mr. Kemp states that, after reconsidering his own estimate, he can only come to the conclusion that Mr. Vernon has very much over-estimated the cost, and that he is still of opinion that his own estimate is ample. It is based upon properly drawn specifications, and he is firmly of opinion it will not be exceeded. Mr. Vernon's estimates, to a certain extent, have been based on the cost of the Medical School attached to the University, which Mr. Kemp states is a more expensive class of building than the proposed College, and though Mr. Vernon regards his estimates as fair he admits he has not read the specifications. Mr. Vernon disapproves of the size of the Principal's residence which he thinks unnecessarily large, and also of the size of the porter's lodge; but Mr. Kemp's reply to this is that the residence and the lodge are only in keeping with the main building, and are not excessive in size or cost. Regarding Mr. Kemp's figures as more likely to be correct than Mr. Vernon's, chiefly for the reason that Mr. Vernon when making his estimate had not the advantage of reading the specifications, and bearing in mind that by a provision of the Public Works Act the cost of the College cannot exceed 10 per cent. above the estimate laid before the Committee, there is some strong testimony in support of the reasonableness of the amount stated by Mr. Kemp, in the evidence given by Mr. H. E. Barff. Mr. Kemp's estimate for the proposed College, accommodating fifty-one students, is £37,500. Mr. Barff states the accommodation and cost of the existing Colleges in connection with the University, and with those buildings the proposed College compares in these two matters very favourably. St. Paul's College, accommodating thirty-six students, cost £35,000; St. Andrew's College, with accommodation for twenty-seven students, cost £28,200; and St. John's College, accommodating twenty-five students, cost between £36,000 and £40,000.

Whether the plans are too elaborate or the estimate is reliable.

8. The arrangements for carrying out the system intended to be brought into operation in the College appear to be very complete. Under the system at the Training School, Fort-street, the students are non-resident. Their board and lodging are paid for at considerable expense, but they live where they please, the consequence being that the teaching staff of the school know nothing of the students' places of residence or where they spend their evenings. Added to this the distance between the Training School and the University interferes greatly with the attendance of students at University lectures. The proposed College, it is claimed, will allow of supervision, good training, and economy; the students being constantly under the control of the teaching staff, provided with ample facilities for being thoroughly instructed in the duties of their profession, and supplied with comfortable residence and board at an expense less than is incurred under the present system at Fort-street. The site for the College has been given by the Senate of the University, and the Senate approve of the plans of the buildings, and will make satisfactory arrangements for the admission of the students to the University lectures, and for placing the Principal of the College on the same level as the Principals of the existing affiliated Colleges. Matters between the Department of Public Instruction and the University with regard to the College are consequently in a satisfactory condition, and the arrangements appear equally complete for the due carrying on of that portion of the training of the students which will be conducted within the College building. Mr. H. E. Barff says of the College that he thinks the method of training proposed will be the means of producing more efficient teachers than the existing methods; that

Whether the College is likely to secure the objects desired.

that they will derive immense advantage from residing with one another close to the University library, and to the University laboratories; that they will be much benefitted by taking part in the University Debating Society, and the various other associations connected with the University; and that they must be under better supervision in the College than they can be in scattered lodgings.

Decision  
arrived at by  
the  
Committee.

9. The Committee, having duly considered the evidence before them, arrived at the decision expressed in the following extract from the Minutes of Proceedings of Tuesday, 10th March, 1891 :—

Mr. Trickett moved—

“That, in the opinion of the Committee, it is expedient the proposed College for the Training of Teachers of Public Schools, as referred to the Committee by the Legislative Assembly, be carried out.”

Mr. Copeland seconded the motion, *pro forma*.

Mr. O'Sullivan moved—

“That the motion be amended by adding to it the following words:—‘But recommend that the designs for the residence of the Principal, and the Porter's Lodge, be less costly in character.’”

The amendment was not seconded.

The motion was passed on the following division :—

Ayes, 9.		Noes, 2.
Mr. Garrard,		Mr. Cox,
Dr. Garran,		Mr. Copeland.
Mr. Humphery,		
Mr. Trickett,		
Mr. Tonkin,		
Mr. O'Sullivan,		
Mr. Lee,		
Mr. McCourt,		
Mr. Garvan.		

JOHN LACKEY,  
Chairman.

# PARLIAMENTARY STANDING COMMITTEE ON PUBLIC WORKS.

## MINUTES OF EVIDENCE.

### COLLEGE FOR THE TRAINING OF TEACHERS OF PUBLIC SCHOOLS.

WEDNESDAY, 11 FEBRUARY, 1891.

Present:—

THE HONORABLE JOHN LACKEY (CHAIRMAN).

The Hon. ANDREW GARRAN.  
The Hon. FREDERICK THOMAS HUMPHERY.  
The Hon. WILLIAM JOSEPH TRICKETT.  
The Hon. GEORGE HENRY COX.  
JACOB GARRARD, Esq.  
HENRY COPELAND, Esq.

JAMES EBENEZER TONKIN, Esq.  
WILLIAM SPRINGTHORPE DOWEL, Esq.  
EDWARD WILLIAM O'SULLIVAN, Esq.  
CHARLES ALFRED LEE, Esq.  
WILLIAM McCOURT, Esq.  
JAMES PATRICK GABVAN, Esq.

The Committee proceeded to consider the proposed College for the Training of Teachers of Public Schools.

Edwin Johnson, Esq., Under Secretary of Public Instruction, sworn and examined:—

1. *Chairman.*] Have you a paper with you in reference to the initiation of this proposed building? I have.
2. Will you hand it in? Yes.
3. Does it consist of minutes from Ministers? Yes; and it contains a *précis* which I, myself, prepared for the Minister to submit to the Cabinet—an explanatory statement of the case.
4. Is there any other evidence which you would like to offer in reference to the proposed College? I think this statement contains all I desire to say on the subject.
5. Is it a full statement of the case? Yes; and is as follows:—

Proposed Establishment of a Training College for State School Teachers, within the University.

*A statement of the case.*

1. A site, approved by the Senate and Department, has been selected and surveyed.
2. The management of the College, including the appointment of its staff, will be under the sole control of the Minister for Public Instruction.
3. The Senate is agreeable to make satisfactory arrangements as to the students' matriculation and attendance at University lectures, and is prepared to accept an annual lump sum in lieu of lecture fees, &c., for students.
4. The Senate further suggests:—
  - (a) That the College, in common with the other colleges, shall be declared to be a College "within the University."
  - (b) That the Principal of the College shall be recognised as a member of the University, and have the same rights and privileges as are conferred on the Principals of the affiliated colleges by the University Act of 1861, 24 Vic. No. 13.
  - (c) That an arrangement be made in favour of the University, under which individual University students not belonging to the Training College can be admitted to the College teaching (or lectures) on the subject of "Pedagogy," or the "Science and Art of Teaching."
  - (d) That the Minister shall allow the Senate to see the plans and designs proposed for the College buildings and grounds, and favour it with an opportunity of communicating with him on the subject, should it see occasion to offer suggestions.
5. A Bill has been prepared under which the land selected as a site may be resumed, and the College established.

Respecting the Senate's suggestions, it may be stated that (a) and (b) will be advantageous to the College and will not interfere with its organization or work as a State Institution under the Minister's control; that (c) is in no way objectionable, provided the students referred to are admitted to the lectures on Pedagogy only, and that, for admission to such lectures, they pay the required fee; and that suggestion (d) is a reasonable one, inasmuch as it is the duty of the Senate to see that any buildings to be sanctioned shall, in their general appearance and design, be in keeping with those already erected on the University ground.

E. Johnson,  
Esq.  
11 Feb., 1891.

The chief advantages of having the Training College within the University may be summarised as follow:—

- (a) A class of superior teachers, with University training, will be provided for the more important Public Schools, Superior Schools, and High Schools under the Department, and from such class of teachers the Inspectors of Schools can be chosen.
- (b) The fact of the teachers receiving a University training will have great influence in moulding public opinion in favour of our schools; it will tend to foster the profession of teaching, by drawing to it young persons of high intelligence and promise; it will elevate the standard of culture among teachers, and invigorate the Public School system generally.
- (c) The present arrangements for enabling students to attend the University lectures are of a makeshift character, and under them proper supervision cannot be exercised by the Training School staff. The only effective remedy for this state of things is to establish the proposed residential College within the University.
- (d) As pointed out by the Principal of the Training School, the cost of maintaining students will be less under the proposed arrangement than it is under the present system.

Department of Public Instruction,

Sydney, 20th October, 1890.

E.J.

Submitted.—E.J., 20/10/90.

I submit this matter to the Cabinet, but not concurring in (c).—

J.H.C.

THURSDAY, 12 FEBRUARY, 1891.

Present:—

THE HONORABLE JOHN LACKEY (CHAIRMAN).

The Hon. Andrew Garran.

The Hon. Frederick Thomas Humphery.

The Hon. William Joseph Trickett.

The Hon. George Henry Cox.

Jacob Garrard, Esq.

Henry Copeland, Esq.

James Ebenezer Tonkin, Esq.

William Springthorpe Dowel, Esq.

Edward William O'Sullivan, Esq.

Charles Alfred Lee, Esq.

William McCourt, Esq.

James Patrick Garvan, Esq.

The Committee further considered the proposed College for the Training of Teachers of Public Schools.

William Edmund Kemp, Esq., Architect for Public Schools, sworn and examined:—

W. E. Kemp,  
Esq.  
12 Feb., 1891.

6. *Chairman.*] How long have you held your present position? For nearly eleven years.
7. You have been engaged in the supervision of the different buildings for the Public School Department during that time? Yes, since the passing of the present Public Instruction Act.
8. The design for the proposed building is yours? Yes.
9. What is its proposed cost? £37,500.
10. You have gone carefully into the design, I take it? Yes.
11. You are in a position to say with some degree of conclusiveness that the building could be carried out for that sum? I have no doubt whatever that it can be carried out for the sum stated.
12. Have you given much attention to the character of the buildings erected in different parts of the world for a similar purpose? I have given some consideration to what has been done in other places.
13. And you think that this building is, in its design, suitable for the purposes required of it? I think so.
14. Whereabouts is it to be constructed? Facing Bligh-street, on the University Grounds, between St. Paul's College and St. Andrew's College.
15. Do you think it contains the necessary accommodation? Ample accommodation for the number of students provided for—fifty-one.
16. Is it proposed that the students shall reside in the building, or simply go there for tuition? That they shall reside there altogether.
17. And the masters? There is a residence, attached to the College by a covered way, provided for the Principal.
18. The building provides accommodation for the teachers? For the Principal in the attached house, and for three teachers within the College itself.
19. What are the principal rooms in the building? Perhaps I had better go through the plan. Owing to the fall of the ground, there is a basement under half of the building, and in it the housekeeper and servants are provided for, together with all the kitchen and scullery accommodation. On the ground floor there is a dining-hall with a lift from the kitchen floor, and five class-rooms, a master's office, a waiting-room, and a lecture-hall capable of containing, perhaps, four or five times the number of resident students, in order that other students may be admitted to lectures. Then, in the right-hand wing, there is accommodation for seventeen students, with bath-rooms and closets. On the upper floor there is a similar group of bed-rooms for students in each wing, a museum, a library, a students' day-room, and a masters' common room.
20. There will be three stories altogether? Yes; the basement, the complete ground floor, and a complete upper floor. Under the lecture-hall, on the basement level, is the gymnasium.
21. What material do you propose to use for the building? Stone externally, and brick internally.
22. The outside walls will be of stone, and the partition and dividing walls of brick? Yes.
23. I see that one part of the building is lower than the other. Is that from the configuration of the land? Yes. There is a total fall in the length of the ground of nearly 30 feet, and of about 16 feet in that portion on which the building stands. The front elevation shows the fall of the ground. I propose to raise part of it to provide access to the College, and to excavate it lower down to give an area.
24. That will not detract from the appearance of the building? I think it will rather improve it. You will see the general effect of the building from the perspective drawing, which also gives you an idea of its position in relation to the University. You can see the Macleay Museum, and the back of the great hall of the University in the distance.
25. Is your water supply there perfect. What would be the altitude of the land? Above the sea?
26. Yes? That I do not know. Less than the altitude of the University or St. Paul's.
27. Then you would have no difficulty in getting water from the ordinary service? No. Speaking from memory, I should say that we are 20 feet below the level of the Newtown-road.

28. *Mr. Trickett.*] The paper before me says that the site of this building is to be resumed. I judge, therefore, that it is not Government land? It is University land, and I presume it will have to be resumed from the University authorities.

W. E. Kemp,  
Esq.

12 Feb., 1891.

29. You provide, as an addition to the College, a residence for the Principal; what do you estimate will be the cost of that building? It is included in the £37,500.

30. Yes, but how much do you set aside for it alone? As far as I remember, nearly £2,000.

31. In arriving at these estimates of cost, had you specifications prepared? Yes, the specifications are prepared.

32. Have they been gone into pretty carefully? Yes.

33. We were told yesterday, that if specifications were not prepared there could be no certainty as to what the cost of the building would be. You have gone carefully into the figures on a regular architect's specification? I have estimated the cost knowing exactly what my intentions are with regard to the building.

34. Do you think it was necessary to spread this building out so as to make it cover so much ground, for the accommodation of fifty-one students? Yes. I do not think you could get the accommodation, with due regard for light and air, if you had the buildings much closer together than that.

35. I see that some students are to be accommodated on the ground floor—is that a usual thing in a building of this kind? It is not at all an isolated instance of such an arrangement, and I do not think it is objectionable.

36. Have you considered whether the building could be erected for a less sum, making it, of course, of sufficient architectural beauty to be in keeping with the surrounding buildings? I think the building will be a very cheap form of structure considering its character. I do not think there would be any way of cheapening it without detracting both from its usefulness and from its character as an architectural work.

37. Do you know the other colleges in the vicinity—St. Paul's College? Yes.

38. How many students does it accommodate? I think they have some thirty or thirty-five students there now, and I think the building is full.

39. Have you any idea what that building cost? No, I have not.

40. Do you know what St. Andrew's College cost? I do not know the accommodation nor the cost of St. Andrew's College.

41. Could you give us any information as to cost respecting St. John's College—the Roman Catholic College? No, I do not know what its accommodation is, and I have only a vague idea that a good deal more money than £37,000 was spent on it.

42. Could you tell us how many servants you have provided accommodation for on this plan to attend upon these fifty-one students? I think I have provided four bed-rooms.

43. But they are large rooms? They will accommodate two or three servants each. I reckon that in a place like that, besides the kitchen servants, they will probably want three or four housemaids.

44. These students' rooms are 12 x 8 feet 6 inches. Is that a sufficient size for them? I think it is an ample size. It gives some 1,500 cubic feet of air space.

45. Notwithstanding that the room is to be used for purposes of study as well as for sleeping you think that its size is sufficient? I think it is sufficient, though I do not think it is excessive. I may say that the room will only be used for purposes of study during the small portion of the day a man may devote to private study. The principal part of the studying will be done in the classes and lecture-rooms.

46. But a large portion of the students' time will be devoted to private study? Not a very large portion.

47. Is this your only effort in designing plans for this building, or were any alternative plans prepared? This was the only plan prepared for this building, although six or seven years ago I prepared plans for training colleges for both male and female students, which it was proposed to erect at Hurlstone.

48. Were those plans of as elaborate a character as this is? They were of a totally different style. It was intended to build the colleges of brick, in the free, classic, Queen Anne style.

49. Before the plans were elaborated as you now see them, were any sketch plans prepared and submitted to the Minister? Yes. I might say that the lithographs before you were prepared from the sketch plans submitted to the Minister.

50. There do not appear to be very many large rooms in this building, though the lecture-hall is a large room, is it not? Yes.

51. How would it compare with the room in which we are? I should say it would be rather wider, and about the same length.

52. I suppose it would be 7 or 8 feet wider? Probably that.

53. Do you not think that it would be possible, by bringing these buildings closer together, and having the bed-rooms on an additional story, to make a much cheaper building of it? I do not think that you would reduce the cost materially. There would be the same amount of flooring, wall space, and windows; in fact, the only saving would be in the roof, and that, perhaps, would be more than made up by the additional cost of building higher, and by the additional staircases. There would be a very small saving, if any.

54. You do not know anything of the proposed working of the institution? No; I know nothing of it officially.

55. Will this £37,000 include all the improvements of approach, together with the roads, and fencing, and everything of that kind? Yes.

56. There will be no extras, as far as you can foresee? As far as I can see, that sum will cover everything.

57. *Mr. Cox.*] Is this building supposed to contain both male and female teachers? No; only male teachers.

58. *Mr. Humphery.*] What was your object in not providing residential quarters for the Principal in the College? Well, it appeared to me, and it does appear to me now, that it would be a better arrangement to have the Principal outside the building, so that his family and his servants might be kept apart from the College. I imagine, also, that the Principal would think it a more pleasant arrangement to be detached from the College.

59. In St. Andrew's College, is provision made for the Principal within the building? I do not know the arrangement at all. I have never been inside the building.

- W. E. Kemp, Esq.  
12 Feb., 1891.
60. Is there separate provision made at St. John's? There, I believe, everybody lives within the premises ; but that college is worked on principles different from ours.
61. Do you not think that the Principal would have better control over the resident pupils if he resided in the College, instead of living away from it? I should not think so. He is within such easy reach of the College that any unusual noise would be heard by him.
62. How would he know whether the students' quarters were occupied or not? I take it that there would be other masters in the College. There is a provision for the accommodation of a resident master in each of the dormitory wings.
63. You are unable to say whether, at St. Andrew's College, the Principal resides within the college? Yes.
64. What are the dimensions of the pupils' rooms? About 12 feet by, I think, 8 feet 3 inches. I think 9 feet was the dimension on which the building was set out, and there is a 9-inch wall to be taken out of that.
65. What is the width of the passages? I think they are 6 feet.
66. What is the height of the rooms? About 14 feet clear; 15 feet from floor to floor.
67. *Mr. McCourt.*] If the whole of the buildings were carried out in brick how much cheaper would it be—10 per cent., 15 per cent.? I should say about 10 per cent.
68. Would brick not be so good as stone? Not so good to look at. It might be as good for use.
69. In every other respect but appearance it would be as good? Yes; I suppose the building would be as durable in brick as in stone. I do not think the difference would be quite 10 per cent. in that building, because the whole of the interior work is already provided for in brick. There is merely the reduction on the cost of the external walls.
70. What will the cost of the building be per student? About £740.
71. Without the ground? Without the ground; but you have to take into consideration that the residential staff will also be provided for with that money—the Principal and his family, and all the servants, which would probably bring the number up to nearly eighty. There is also a porter's lodge included, which would probably be the residence of five or six people.
72. Do you consider £740 per student rather high a cost? No, I do not think it is. I think the Sydney University, which has no resident students at all, must have cost nearly as many thousands as this will hundreds per student.
73. *Mr. Garrard.*] I understood you to say that seven or eight years ago you prepared plans for a training college for both male and female teachers to be erected at Hurlstone—what accommodation did you provide for? I have never looked at the plans since a few months after they were prepared, and I can hardly tax my memory; but I think there was accommodation for fifty or sixty students in each building.
74. What was the estimated cost of those buildings? I do not think any very close estimate was ever made; the thing did not arrive at such a stage as to make it necessary to prepare specifications, or to go into any close estimate of cost.
75. Do you know any reason why the design has been altered from a combined college for both sexes to a college for male students only? I really do not know. My own impression is that since the female students are already provided for at Hurlstone it was thought proper to provide accommodation for male students only here.
76. How many students are provided for at Hurlstone? About fifty.
77. Are their requirements fully met? Fairly well met.
78. Is no project on the boards to enlarge that building, or to build a new college there? No; I do not think there is any such proposal at present.
79. You have about four acres of land here? Yes; I think there is rather more than four acres.
80. What is the object of that half-chain road down the side of the ground? That is a road reserved by the University authorities to give access to their own ground.
81. Supposing it were decided to give the female students the benefit of being close to the University, there would be no room on this site for another college? Another college could be built there, but not very conveniently, I think. The proposed College will cover considerably less than half the ground, so that an equally large building might be put up on the other half, but then the land would be crowded. The two buildings would be too close together, and no room would be left for a recreation ground.
82. Have these plans been submitted to the Senate of the University? They have been examined by some members of the Senate, I know. I do not know whether they have been submitted to the Senate itself.
83. If you were choosing a site, would you take this one, or would you try to get a better one without that ugly fall in the ground? I do not at all object to the fall myself—I think it rather improves the appearance of the building, and it makes it very convenient, keeping the domestic offices away from the rest of the building.
84. You had nothing to do, I suppose, with the choosing of the ground? No, I had not.
85. You were merely told, "There is a piece of land, and we want a college put upon it," and you have taken advantage of the form of the ground to put the best building up? Yes.
86. There will be slate roofs, I presume? Yes.
87. Is the pathway between the Principal's house and the College covered in at the sides as well as on top? On top, and on one of the sides.
88. There does not seem to me to be a very large amount of bath accommodation provided;—how many baths are there altogether? There are three for each group of seventeen students. There are seventeen beds in each wing and three baths. I do not know whether three bath-rooms are shown on the lithographs. They were taken from the sketch plan, which was necessarily subject to modifications.
89. I suppose there are other baths for the servants and general staff? Yes.
90. *Mr. O'Sullivan.*] I see that the style you have chosen is the English-Norman of the 12th century;—will that accord with the architecture of the other buildings there? Every building on the University ground is of a different period of architecture. St. Paul's, the building nearest to us, is 13th century; St. John's and St. Andrew's, about 14th century—St. Andrew's, with a strong tinge of Scotch; and the University is 15th century. I selected this style because it was one which is more easily arranged to provide for modern wants. Your windows may be of almost any size or shape you like, and they look as well single as they do grouped. There is not the same restriction about it as there is with some of the other Gothic styles.

W. E. Kemp,  
Esq.  
12 Feb., 1891.

91. In which direction will the building face? South, towards Newtown.
92. Do you know the Ormond College in Melbourne? I do not. I have never been in it.
93. It was built of stone, and only cost £30,000, and, I think, gives more accommodation for students than you propose to give? Is that a residential college?
94. For the staff? But not for the students, I think.
95. Do you think that if this building were a hotel to accommodate fifty boarders, it would cost as much as the sum named? The probability is it would be of very different style, and would be built in a great many more floors.
96. I suppose you have been guided in your design by a desire to erect a building in accord with the other buildings already there? Yes.
97. *Mr. Lee.*] With reference to the site;—is it a portion of the ground which is already vested in the Trustees of the University? Yes.
98. And it will have to be resumed by a special Bill? That I am not in a position to say; but, from what I see in the papers, I presume so.
99. You know nothing as to the title of the land? No. I know generally that the land is granted to certain Trustees for the University.
100. Do you know whether it is the intention to vest this site in the Public Instruction Department? I believe that that is the intention; but I do not know.
101. And thus remove it from the guardianship of the Trustees of the University? Yes.
102. In other words, the College, when built, will be solely the property of the Public Instruction Department? I presume that that is the position; but I do not know.
103. I see that some provision is made for the submission of the plans to the Senate for approval;—has that been made? I believe so.
104. And have they met with their approval? I presume so. I know that several members of the University have seen the plans, because I exhibited them to them myself in the Minister's office.
105. Have they offered any suggestions? No.
106. They were satisfied with the design submitted by you? I believe so.
107. *Mr. Copeland.*] Has the Colonial Architect seen these plans, and gone through them? Mr. Vernon? No.
108. Now that Mr. Vernon is appointed Colonial Architect, are you in any way subject to him;—does he supervise your work in any way? No.
109. You are entirely independent of the Colonial Architect? Yes.
110. You are simply the Architect for the Department of Public Instruction? Yes; and I am responsible solely to the Minister of Public Instruction.
111. And you do not submit any of your architectural designs to Mr. Vernon? No; and Mr. Vernon does not submit any of his designs to me. We are equally independent of each other.
112. But is he not appointed as the supervisor of Government buildings, or something of that sort? For the Public Works Department. All buildings under the control of the Secretary for Works are, I suppose, under the supervision of Mr. Vernon.
113. But he has nothing whatever to do with the Public Instruction Department? No.
114. *Mr. Doual.*] Do you consider the site that has been selected for this purpose a good one? Yes; I think that it is a very good site.
115. Is it good for drainage purposes? Yes; we have a good fall, and fairly good soil, and the main sewer is within very easy access of us.
116. What provision have you made as regards sanitary arrangements, so as to include the whole of the work in the specification? What do you understand by sanitary arrangements?
117. The work in connection with the sewers, cesspits, or closets? We have patent closets, which are to be connected with the main sewerage system.
118. All that provision is made and included in your specification? Yes.
119. Are you aware that the Secretary for Public Works has decided, since the appointment of Mr. Vernon to the position of Colonial Architect, that competitive designs shall be called for public buildings? I saw some such statement in the public press, but I have no other means of knowing what that Minister's designs are.
120. You have had no official information from the Secretary for Public Works that any future large buildings are to be thrown open to public competition? No.
121. Has the Minister of Public Instruction consulted with you at all in any way about calling for competitive designs for public buildings? He has proposed to invite competitive designs for a school—a first-class school. I believe he is going to send all over the world, and get a school which is to surpass all schools that have ever been built; but the sending away of the conditions is now being waited for.
122. Do you think it is necessary to send outside the colony for designs for these works? No; I do not.
123. Now, as regards this particular building, if the Minister had consulted you in reference to calling for competitive designs, do you think that you would have considered it a wise course to take? I do not myself think that any benefit will accrue to the country by inviting competitive designs in any case.
124. And, under the circumstances, you do not think that any benefit would be gained by calling for competitive designs for this building? No.
125. You have made a special study of this particular work in comparison with other colleges? Yes; this building is for a specific purpose, and other college arrangements do not, in many cases, meet the requirements of this building, though I know pretty well what has been done in the construction of colleges in other places.
126. Do you think that all requirements are fully met in the design? I think so.
127. Have you provided ample accommodation for the teachers and the Principal? Yes.
128. Now, with regard to the size of the dormitories, it has been suggested that they would be occupied a good deal by the students for the purpose of studying; but you appear to think that such would not be the case;—is that why you have made these dormitories rather small; are they not rather small? I do not think so; I think they are amply large.
129. You think they are sufficiently large for the health and requirements of the pupils? Yes.
130. *Mr. Tonkin.*] In drafting these plans, did you try to exercise any particular economy in the cost of construction, or did you just draft them to meet the requirements, without any consideration of the cost?

- W. E. Kemp, Esq.  
12 Feb., 1891.
- I designed the building to meet the requirements, bearing in mind, as I do in all my work, the necessity for the extremest economy in the expenditure of public money.
131. You could not reduce the price? Not without reducing the efficiency of the building in some way.
132. There is not too much spent on show alone? I think not.
133. Do you think there could be a material reduction if the appearance were not taken into consideration—if you were merely putting up a building to accommodate fifty-one students? If I were putting up a building to accommodate the same number of wool bags I should probably make a cheaper one, but for the purposes of a college I do not think it could be cheaper, unless all idea of appearance were thrown over, and absolutely plain, straight brick walls built. I do not think you could materially reduce the cost.
134. Then you have not expended any more money on the appearance of the building than you could possibly avoid spending, compatibly with its position? Taking into consideration the character of the buildings around it, I do not think the building could be reduced in cost.
135. *Chairman.*] Are all the buildings on the University Reserve of stone? The Prince Alfred Hospital is of mixed brick and stone.
136. Are the walls stone and the inside brick? Brick walls, with stone dressings; stone architraves and windows, and stone quoins, and so on. The facing of the wall is brick. That is the only brick building there, with the exception of the Principal's residence at St. Paul's College, which is of red brick, and the Macleay Museum, which, I think, is a cemented building. The main buildings on either side of this College—St. Paul's, St. Andrew's, and St. John's Colleges—are all stone.
137. What difference do you estimate there is between the cost of stone and the cost of brick for a building like this—what percentage? In this particular building, the external walls only being of stone, the saving would not be very large—it might be somewhere between 5 and 10 per cent.
138. Does position make any great difference in the relative cost of brick and stone. The site of this building is, I think, very near to where a great quantity of bricks are made. Would that affect the cost in any way? It is also within very reasonable distance of the principal quarries—the Pymont quarries—and nearer than most other Sydney buildings to a place from which we are getting a large quantity of good stone now—Arneliffe.
139. *Mr. Dowal.*] Was it not the practice of your Department a few years since to allow private architects to design and supervise the construction of public school buildings? I think in the first year in which I held office some two or three architects in Sydney were entrusted with the erection of these buildings—Mr. Mansfield had one, Blackman and Parkes two, and Mr. Mays two.
140. Did you find that that worked as economically and as satisfactorily as the present practice of the Department? I think not.
141. Was not the total cost of supervision and designing larger then than it is now? It is very difficult to make a comparison between the commission paid to an individual and the cost of carrying on a department like that of which I am the head.
142. In your opinion, do you think it would be cheaper and better to give this building to a private architect than for the Department to carry it out themselves? I think it would be better for the Department to do it themselves.
143. It would be cheaper and more satisfactory? That is my opinion.
144. *Mr. Garvan.*] You have stated that if you were to carry out this work in brick instead of in stone, it would make a difference of between 5 and 10 per cent. ? On the total cost of the building.
145. Then what induced you to design it of stone rather than of brick? The more ornamental and monumental character of the stone building when compared with a brick building, and the necessity of making the building compare favourably with the surrounding colleges.
146. On the whole, you think a stone building presents a better appearance than a brick one? I think, irrespective of any question of ornament, a stone wall is better looking than a brick wall.
147. And you think a stone wall itself is better than a brick wall? It is a better looking wall, and in many respects also a better wall.
148. Would it be more lasting? Probably not more lasting; I do not think there would be very much difference.
149. It is entirely a matter of appearance? Principally, and a little of additional strength. There is more strength in a stone wall than in a brick wall.
150. But for all the purposes of strength a brick wall would be equally effective? It would be sufficiently strong.
151. If, instead of costing 5 or 10 per cent. more, it cost 20 per cent. more to put up stone walls, would you recommend them? That is a wide question.
152. I have named a big difference, in order to elicit an opinion from you? I should not think the building would be worth 20 per cent. more in stone, except, as I said before, to look at. I take it that in this case we are bound not to put up any building which will not be fitted to its surrounding, this being the great educational centre of the country.
153. I presume you would have no definite instructions, when asked to prepare a plan, as to what material it should be built of? I had no definite instructions, but I was aware of the statement that the University Senate would permit of the erection of the building only in consideration of its being of such a character that it would not disgrace the site, but would bear favourable comparison with the surrounding buildings.
154. Could not a building with brick walls be put up that would not disgrace the site? You can make a brick building as ornamental as you like, but economy would very soon fail in that. You would find that a more elaborate brick building would cost as much as a stone building.
155. But if it cost 20 per cent. more to use stone instead of brick, would you recommend that the building should be constructed of stone? In this particular position I certainly should.
156. Supposing it cost 25 per cent. more, would you still recommend stone? Well, you can hardly say where you would draw the line.
157. I want to ascertain whereabouts you would draw the line? Well, for that position, I think a building of stone, which would bear favourable comparison with the other colleges, would be worth quite half as much again as a plain brick building.

John Charles Maynard, Esq., Chief Inspector of Public Schools, sworn and examined:—

J. C.  
Maynard,  
Esq.  
12 Feb., 1891.

158. *Chairman.*] You have held your position for some years? About five years.
159. Have you had anything to do during that time with the construction or designing of school buildings? Practically nothing, beyond advising as to the accommodation required.
160. You have advised as to the accommodation required? Yes.
161. You have been consulted by the Architect? It is my duty when an application is received for a school to say what space is required. I recommend a school of a certain kind, and then my responsibility ceases.
162. Had you anything to do with the proposed College? Only as far as giving the accommodation required.
163. You suggested that certain accommodation should be provided in the way of class-rooms, lecture-rooms, living-rooms, and so on? Yes; accommodation for about fifty students.
164. And you think that if the proposed building were erected, it would meet all the requirements of the purpose for which it is to be erected? I think so.
165. Is provision made for present or for prospective pupils? I think the building will meet all the wants of the pupils, both for the present and for the future.
166. Had you any experience in this sort of work in other parts of the world before you were employed here? No.
167. You think the design of the building meets all requirements? I think so.
168. Is it your opinion, from what you know of these buildings, that the expense is within reasonable bounds? I think it is.
169. You know the estimated cost—£37,500? Yes.
170. Do you think the work could be done for that amount? That I could not express an opinion upon.
171. Is the design submitted by the Architect in keeping with the recommendations which you have made from time to time? My recommendations only refer to the accommodation—nothing more.
172. So far as that goes, are the arrangements in keeping with your recommendations? Yes.
173. Do you think the site is a good one? The best available on the ground, I think.
174. Is it easily accessible to those who would have to go there? Yes.
175. How far is it from the Railway Station? I should say about half a mile.
176. And it occupies a tolerably uniform situation with the other buildings which surround it? The situation is good, I think.
177. *Mr. Cox.*] This school is only for male teachers? Yes.
178. Is it not desirable to have a college for female teachers as well? There is one, and that is why it was suggested that this College should be put up.
179. Where is the College for Female Teachers situated? At Hurlstone, Ashfield.
180. What was the cost of it? I could not say. It was an old school, purchased at a very cheap rate, and converted into a Training College, but I forget the price.
181. What number of teachers does it hold? Fifty; or fifty-three might be put in.
182. It did not cost £37,000? A very large piece of land was bought with it; I think 27 acres. The land was more valuable than the building.
183. Do you know the approximate value of the building? I could not give you any idea.
184. Having this College for Female Teachers, you are compelled now to put up a building for male teachers? Yes.
185. Was there not sufficient room upon this land which you now speak of for a college for male teachers? What we particularly wanted was to get close to the University.
186. What means have the female teachers of getting the necessary instruction where they are situated? They are driven down to the train at Summer Hill, and then they take the train to Newtown or Sydney, and walk or take the tram to the University.
187. Would not the same facilities be available for the male teachers? This arrangement is found to be very inconvenient for the female teachers, especially in wet weather.
188. Is the inconvenience so great that there is any probability of the school being removed? I think so. I think that ultimately the land will be sold and the Training College built near the University. That is the opinion of most of us.
189. *Mr. Tonkin.*] How many public school teachers have you in training at the present time? Always about 100—fifty male and fifty female students. It may be fifty-three or forty-nine in either place, but the average is fifty.
190. Where are the male teachers now studying? At Fort-street.
191. Do they board there? No; they board anywhere. That is the objection.
192. Do you think that there is not any likelihood of an increased number of teachers being required in the course of a few years? I think that fifty trained teachers will meet all requirements—that is, fifty every year.
193. Are fifty more than are required at the present time? At the present time we absorb about twenty-five male and twenty-five female trained students every year.
194. Do the others die out, or leave? Yes.
195. This College provides accommodation for fifty only? That is, for fifty boarders.
196. Possibly you may have a number of students resident in Sydney? Yes; if we really required them.
197. It would not be absolutely necessary for a student to become a resident at this College? It would be desirable; but if the College should become overcrowded we could make some of them day scholars, though we do not anticipate having to do that.
198. At present there will be no other students taken except resident students? That is all.
199. What advantage do you gain in having the students resident? The advantage of supervision. Now we have not the slightest knowledge of where they spend their evenings, or where they lodge, nor do we know anything about them. The College would allow of supervision, good training, and economy.
200. Would it not be more economical if they boarded themselves out? At present the students at Hurlstone cost £30 a year, but the young men who are boarded out are paid £6 a month, that is £72 a year, so that the boys cost £42 a year more than the girls. This College would make a saving of more than £2,000 a year.
201. You have been carefully through these plans? I should not like to say carefully. I merely made suggestions as to accommodation required.
202. Have you looked at the class-rooms—do you know their dimensions? Yes.

J. C.  
Maynard,  
Esq.  
12 Feb., 1891.

203. And the principal rooms that are required for the College? Yes.
204. Is it your opinion that they are sufficiently large? I think they are.
205. Is there anything in the plans which could be improved upon? There is only one thing, and that I objected to from the outset. It is the placing the Principal's residence outside the main building. I consider that the Principal should live inside the building, to supervise the students.
206. Are you still of that opinion? I am still of that opinion.
207. I suppose you could not say if that could now be altered? No.
208. How far would the Principal's house be from the College itself? Not many yards.
209. Is there provision for resident masters as well as for the Principal's accommodation? Yes.
210. The resident masters will live in the building? Yes.
211. So that the scholars will not absolutely be left to themselves? No; and the gentlemen who thought that the Principal might live outside the building considered that the resident masters would be a sufficient protection for the students.
212. Can you tell the Committee how many servants it is intended to have on these premises? I should say about five or six.
213. Does that include the kitchen servants and all? At Hurlstone there are a housekeeper, a cook, an assistant cook or scullery maid, and, I think, three servants—five or six altogether.
214. You think that this College would do with the same number? About the same number, I think.
215. Altogether, you think that the design could not be very much improved upon, and that the College is a great necessity? There is no question about that.
216. The site is all that could be required? Yes.
217. Your opinion is that the building is just what it should be? Yes; as to meeting necessary requirements.
218. *Mr. Humphrey.*] Were you consulted about the plans now before the Committee? I think not, after the preparation of the plans.
219. Did you see the plans before they were submitted to this Committee? Yes.
220. Did you offer any suggestion about making provision in the College for the Principal? Yes.
221. Why was not your suggestion embodied in the design? I do not know; I suppose it was overruled by the Minister's acceptance of the plans as a whole.
222. As far as you are concerned you are quite of opinion that the Principal's residence should be within the College, and not away from it? Yes.
223. Did you hear my question to the Architect on the subject, and the Architect's reply? Yes.
224. Do you agree with that? I think the Architect is of opinion that the Principal should live outside—I do not agree with that.
225. How long has the present Training School been in existence? To my knowledge, more than twenty-two years.
226. Since that school has been in existence have you had greater efficiency on the part of the teachers—has there been any improvement in the teachers? Yes.
227. Do you look for still greater efficiency by making provision for them in this Training College? Yes.
228. What did you say was the cost of each pupil at Fort-street? £72 a year. Every month each of the students receives a cheque for £6.
229. And the students find their own board and lodging? Yes.
230. If you divide the probable cost of this building, which you may put down at £40,000 in round figures, by fifty, you will find that the interest will come to about £40 a year for each pupil? Take the cost of the building at £40,000, the interest on that at 4 per cent. will be £1,600. At present we pay the students for lodging the difference between £72 and £30—that is, £42 a year. Fifty times that is £2,100.
231. But then there is the maintenance as well? I am reckoning £30 a year for maintenance.
232. So that there will be no appreciable difference between the cost of maintaining the teachers of the College and the present cost? Yes, there will be a difference of £42 if you discard the interest. They cost £72 at present, whilst the girls cost £30.
233. You have not added to the cost of maintenance the interest upon the cost of the College; therefore, as a matter of fact, there would only be a slight appreciable difference between the present cost of maintenance, and the cost of maintenance after erection? The difference between £2,100 and £1,600.
234. That is £500? Yes.
235. At present what portion of the scholar's time is devoted to the Fort-street School? The whole of the day.
236. What time has he for attending lectures? You mean at the University?
237. Yes? I include that in the day's work. The whole morning is spent at the University.
238. What portion of his time has he to spend at the Fort-street School in performing his duties there as a teacher, and what portion does he devote to study? Those that go to the University spend the whole of the morning there, and return at 1 o'clock. The whole of the afternoon is spent in Fort-street in study, or in practising in the school.
239. Would the same system be pursued at the College? Exactly the same.
240. The whole of the morning would be spent by the pupils residing at the College at the University? Yes. All the lectures at the University are given in the morning—none are given in the afternoon, so that half the day would be given by the students to the University, and half to their own study, or to practising teaching.
241. Is not the Fort-street site far less convenient than this site will be? Yes.
242. Therefore it would be an advantage, so far as convenience for attending to their duties goes, to have a College at the University? Yes.
243. While attending at the University, what schools would the students probably be obliged to attend in the afternoon? A practising school specially designed for them to work in.
244. Would they have to attend one particular school, or would they be distributed? One particular school.
245. Where is that school? At present it is at Fort-street; but when the University College is opened we shall use a school at the back of the College, which we call Newtown North.

J. C.  
Maynard,  
Esq.

12 Feb., 1891.

246. Within easy walking distance? Just on the opposite side of the road—you could throw a stone from one to the other.
247. So that there is no doubt that the College would be a great convenience for students? No doubt.
248. I observe that there are a number of dormitories on the ground floor—do you think that it is advantageous to have students on the ground floor? Certainly not advantageous—rather a disadvantage I consider, if it could be avoided.
249. Do you think the design could be improved by having the students' quarters above the ground level? I could not say that without going through the plan; it would be very desirable if it could be done.
250. At any rate, you do not approve of the students' quarters being on the ground floor? Not if it could be avoided.
251. For what reason? Simply that I think it would be healthier to sleep upstairs—no other reason.
252. Do you think it would be an improvement in the design if the Principal's quarters could be provided in the wing at present devoted to the students? I think it would be better for the government of the College.
253. *Mr. Garrard.*] Do you not think that if the Principal were a man with many olive branches, it would be very desirable, for the sake of discipline, that his family should be removed from the College buildings? That could be provided for. I never knew of a training college where the Principal did not live on the premises.
254. Are you in favour of this then, because it has been customary hitherto? No, but I have a recollection of pillow fights and things of that kind among students.
255. There will be two resident masters there—do you not think that they would be able to prevent pillow fighting? It is not altogether the suppression of pillow fighting I am thinking about, but the question of general supervision.
256. The Principal's residence is actually connected with the establishment? It is on the same site, but it is not connected with the College buildings.
257. It is connected by a covered way? I think that is sufficient to detach it.
258. I suppose if the buildings were of a very much larger character, some portions of them would be as far away from the Principal's residence if it formed part of them, as some portions of this building will be from it now. The lecture-hall is supposed to accommodate 250 people. I suppose it will be used for students outside the College attending lectures? Yes.
259. *Mr. McCourt.*] Would the students living in Sydney be required to go into residence in this College? Yes.
260. Whether they lived with their parents or not? Yes.
261. It would be compulsory upon them? Yes, and it is at present at Hurlstone.
262. *Mr. Garvan.*] You said you had an objection to the students sleeping on the ground floor on the score of health;—has any other objection suggested itself to you? No.
263. Is it undesirable to give the students the opportunity of easy ingress and egress? No, I did not think of that. I know that the grounds slope a good deal, and I think it would be better for them to sleep upstairs.
264. Now that your attention has been drawn to it, do you think there is anything in that objection? I think not.
265. On the score of health could not the dormitories be changed from the eastern wing to the western wing? I do not know to what extent that might interfere with the whole plan of the building.
266. You think it would be a decided advantage to have control over the students at night? Yes, and in the day-time too. There would be various advantages from this association of teachers with students, because there are many things to be learnt besides book knowledge.
267. You think it would give you a more perfect knowledge of the character of the teachers you were sending out if you had complete control of them in a College like this? Yes, and the association would do them good. They would get hints as to manners and things of that kind.
268. Is it not some advantage to let young people fight their way in the world a little, so that they may know something of human nature, as they would do in finding their own lodging, instead of being kept within the College? They get plenty of fighting their own way before they go into the College, and afterwards, too.
269. What ages are the people you train? From eighteen to twenty.
270. At that particular age you think it would be a decided advantage to have them within a Training College? I have no doubt about it.
271. *Mr. Dowel.*] Was the size of the bed-rooms, 12 ft. by 8 ft., suggested by you? No, I did not suggest the size of any of the buildings.
272. Do you think that those rooms are sufficiently large to be used as bed-rooms and studies? I do not think that the pupils should study in the dormitories—it was never intended that they should, and I think they would not be allowed to go there except at night, or at certain times in the day. There is a library provided for private study.
273. But suppose the bed-room was adapted as a study for private work, would you approve of that? No.
274. Do you think the rooms are sufficiently large? Not for students to sit in and to turn into a study.
275. Coming back to the size of the class-rooms—36 ft. by 25 ft.—that would be a room considerably less than this. Do you think it would be large enough for the purpose? The largest class would not number more than twenty-five, and it would be large enough for that class. The students are divided into two classes, seniors and juniors, so that there would never be more than twenty-five in a class.
276. Under the circumstances, you consider the rooms sufficiently large? Yes.

James Conway, Esq., Principal of the Training College, Fort-street, sworn and examined:—

277. *Chairman.*] You are Principal of the Training College? I am.
278. Where is it now situated? At Fort-street.
279. How long have you held the position? Since June, 1887.
280. Do you reside at Fort-street? I reside in a house next to the Fort-street Training School, between that school and the Observatory grounds.
281. How many students have you there now? There are sixty there at present, but ten will leave in March, leaving fifty for next year.

J. Conway,  
Esq.

12 Feb., 1891.

- J. Conway, Esq., 232. Are they resident or non-resident? They all board out.  
 233. You have written some letters with reference to these proposed buildings, have you not? Yes.  
 12 Feb., 1891. 234. Will you read them? The first is dated, Training School, Fort-street, 23rd August, 1890. It is as follows:—

Memorandum to The Under Secretary, Department of Public Instruction, Sydney.

I HAVE deferred reporting on the recommendations of the Committee of the Senate upon our proposed Training College, as several of the points raised therein appeared to require careful consideration and study of the various Acts of Parliament under which the University itself and the affiliated colleges have been incorporated. After a careful perusal of these Acts, as embodied in the calendar, I have come to the conclusion that it would be decidedly an advantage for our College to be declared "A College within the University," inasmuch as it will place our students in every way on an equal footing with those of the other colleges, a result much to be desired.

With reference to the appointment of Principal, however, there is one especial feature in which our College must always be distinct in its constitution. The object of our proposed College is to train teachers for our primary schools, and the first and most essential consideration in the selection of a Principal ought to be his qualifications for that all-important duty. A thorough knowledge of "the science and art of teaching," based upon actual experience, is, in my opinion, of far more importance than any academical honors for this particular position. I have no hesitation in saying that if, in the appointment of future Principals, this qualification be either overlooked or relegated to a subordinate place there will be great danger of the College failing to perform effectively that distinctive work, which alone would justify its existence.

J. CONWAY,  
Principal.

Upon that, Chief Inspector Maynard writes:—

I agree with the first and second recommendations, but not with the third, which would practically most seriously limit a Minister's choice in the appointment of Principal.

And there is a second minute:—

I THINK the recommendations of the Senate may be accepted. The other colleges in connection with the University are incorporated, ours will not be, and therefore the Affiliated Colleges' Act will not apply. The Senate are of opinion that a clause should be embodied in the new Act, to place the Principal of the Training College on the same footing as those of other colleges, that is to say, that he become at once a member of Convocation, and entitled to all the rights and privileges of a graduate of the University.

The adoption of these proposals will not, I have ascertained, place any restriction on the Department's choice of a Principal for the College.—E.J.

The second memorandum is dated the 14th October, 1890:—

THE correspondence in connection with the proposed Training College, on the University grounds, has now reached a very satisfactory stage as far as our Department is concerned. We have selected the best vacant site on the grounds, and every proposal which we have placed before the Senate has practically been conceded. The proposal of the Senate to make our College "a College within the University," is an admirable one, as it will at once place our students on the same footing as those of the other affiliated colleges. The possible danger of the University authorities interfering in the selection of a Principal, or in any other of the internal arrangements of the College, has been shown to be without foundation, Mr. Barff stating clearly and emphatically—and he made this statement, with the permission of the Senate—that no such interference was ever contemplated.

The admission of outsiders to lectures on pedagogy as suggested by Mr. Barff, is a mere matter of detail, and may well be left for discussion later on. Personally, I see no objection to it. The advantages of the proposed Training College within the University may be briefly summarised as follows:—

1. It will be utilised for the purpose of training the very best of our ex-pupil teachers (selected by competitive examination). We would thus, in course of time, have a supply of trained teachers, who would also be graduates of our University, and from these, the ranks of inspectors, teachers of high schools, and of superior public schools, would be recruited.
2. The University being, to a very large extent, a State endowed corporation, it follows that its labours should be as far reaching as possible—should, in fact, benefit the State as a whole, and this can most readily be done by making our teachers the medium of communication. In other words, the education received by our teachers at the College and University will be reflected upon the State through the medium of the public schools.
3. Under the extended system of training which came into force in January, 1889, the necessity for a closer contact with the University was recognised as a fundamental principle, and every step taken since then has pointed in the same direction.
4. The present arrangements for enabling students to attend the University lectures are very unsatisfactory, inasmuch as the seniors are practically beyond my control till 2:30 p.m. daily. There is, however, no remedy for this state of affairs except a resident college. In fact, the principle of sending our best ex-pupil teachers to the University having been admitted, the necessity for a resident college follows as a natural corollary.
5. The cost of maintenance of the resident Training College would, even allowing for the interest on the capital expended in its construction, be less than the present system.

J. CONWAY,  
Principal.

285. You still hold the opinions expressed in those letters? Certainly.

286. With reference to the residence of the Principal, are you of opinion that he should, or should not, reside within the College? I think it would be a mistake for him to reside in the building. I fancy that a detached residence would be preferable in many ways. Provided that I held the position of Principal, I should see that two teachers resided, one on each floor at the end of the line of dormitories, and I should hold them personally responsible to myself for the actions of the students while I was away; while I should take care that there were means of communication with myself at any time during the night, so that, practically, I would be in the same position as if I were residing in the College.

287. You would consider it essential that you should be within a reasonable distance of the College? Certainly.

288. Are there special objections to the Principal residing within the College? Should I happen to get the position of Principal, I have a small family and I should like to have a separate home; I have been used to that all my life.

289. Then it would be essential that the gentlemen whom you left in charge of the students, assuming that you were not in the College yourself, should be single men? There would be no difficulty about getting efficient single men to act as assistant masters.

290. That is the principal objection—that family life is inconsistent with residence in a place like this? Quite so.

291. Have you had experience of training schools like this in other parts of the world? No, I have not.

292. Do you believe the site to be a good one? I assisted in choosing it, and Professor Anderson Stuart remarked at the time that I had picked the eye out of the University. I replied that I thought the eye could not be used for a better purpose.

293. Is the design submitted in keeping with what you believe to be necessary and right? As far as I am able to judge. I am not able to express a positive opinion on that point.

294. Do you think it provides all the necessary accommodation, taking a prospective view of the requirements? Yes, for the next quarter of a century any way, and arrangements could then be made for increasing the size of the building.

295. *Mr. Trickett.*] From whom did this building emanate? Really, that is a very hard question to answer. It has been freely talked about among the head officers of the Department for many years past.
296. Was it a suggestion from the University? No, it came from the Department—not from the University.
297. I understand that the students have to reside for two years at the Training College? Yes.
298. But to enable them to get a degree at the University they will have to be there three years? Yes.
299. How will that work in? Very easily. A special circular was sent out by the Chief Inspector some time ago, inviting pupil teachers to prepare for matriculation before entering the Training School, and those doing so will be able to pass through their first and second years' course while in the Training School, and special arrangements will be made to keep them in Sydney, so as to enable them to take their third year's course by attendance at evening lectures.
300. So, to carry out this idea, it will be necessary for those who wish to become bachelors of arts to be resident in Sydney? Yes, and I should also mention that the three best would be allowed to remain a third year in the Training College.
301. Would it be compulsory that the students should try to obtain their degrees? No, it is not compulsory.
302. If, after two years' training in the College, they choose to go into the country, can they do so? No. At the end of the first year they have to pass an examination. If it proves that they have not made satisfactory progress in the subjects taught in the Training School, they will not have the option of a second year's training—they will simply be sent away to small schools in the country.
303. If at the end of the first year they do not seem fitted for advancement will they have no second chance? The examination is of such a character that a second chance would not be desirable or necessary. If they pass the first year's examination successfully, they are entitled to the second year's training.
304. Will they, during the first and second years, have to attend evening lectures at the University? If they matriculate before coming to the College they will get instruction in the morning at the University. If they do not matriculate first they will be prepared for matriculation in the Training College.
305. If they do not matriculate before they go to the Training School they will have to be there more than three years before obtaining a degree? Then they leave with the status of a first year's student at the University, and if they are young men with any ambition at all they will take care to finish the course themselves.
306. *Mr. Johnson* puts as one of the chief advantages of having a Training College within the University the statement that "the fact of the teachers receiving a University training will have great influence in moulding public opinion in favour of our schools." I want to know how they are going to get that University training in two years if the whole day is spent in their own College in learning to become public school teachers? The thing will work its own cure. An increasing number of pupil teachers, year by year, will matriculate before entering the Training School, then they will leave the Training College with the status of second-year students.
307. Matriculation is the permission given to become a student at the University? They will matriculate before entering the Training College, and they will be in the Training College for two years. At the end of the first year they will pass the first year examination at the University.
308. How do they get the necessary teaching? They are attending lectures at the University up to that time during the mornings. I mentioned that in my memorandum.
309. And in the afternoon they are taught the mode of teaching, that is, the practical work of a public school? Yes.
310. Have you any information which you can give us about the comparative cost of buildings of this character, here or elsewhere? No.
311. *Dr. Garran.*] Will your curriculum be in any way altered when you get this new College? No, it will not.
312. But the College will be more convenient? Very much more convenient in every way.
313. Do you admit students to this College other than children from public schools? So far we have only admitted pupil teachers who have served their course of apprenticeship; but there is a provision for the admission of outsiders.
314. If a young man, brought up at a Roman Catholic school, or at a grammar school, wished to become a public school teacher, would you admit him? That is a matter upon which the Minister would have to decide.
315. How do you do at present? We admit no one but those from our own service.
316. Then how do you get Roman Catholics? We have a large number of Roman Catholic pupil teachers in the Training School.
317. Where were they before they were pupil teachers? In the public schools chiefly.
318. You only take pupil teachers from those who have been in the public schools? No. Any child, educated no matter where, may apply for the position of pupil teacher.
319. The examination is the only test—they can come from anywhere? Yes.
320. And when they are pupil teachers they may pass on to this College? Yes.
321. There is no exclusiveness? None at all.
322. Do you see any objection to young men sleeping on the ground floor? I have been thinking over the matter since the objection was raised, but I cannot say that I do.
323. What is to prevent them from getting out of the windows? The door would be locked.
324. But the windows would not; you have not thought over the matter? No.
325. Have you looked into the ventilation of these bed-rooms? Yes; I have chatted over the matter with *Mr. Kemp*.
326. There is no fire-place in any of them? No.
327. Are there any ventilators? Yes; over the doors and in the walls.
328. Are they sufficient? I think so.
329. *Mr. Tonkin.*] Will this building afford you sufficient accommodation for your present requirements? For the next quarter of a century.
330. Did I not understand you to say that you had now sixty pupil teachers? Yes, but I stated that ten would leave in March—they are simply there temporarily.

J. Conway,  
Esq.  
12 Feb., 1891.

J. Conway,  
Esq.  
12 Feb., 1891.

331. Will there never be sixty again? This is a mere temporary arrangement. Special permission was given to ten of the students who passed the first year's examination in December last to sit for the honor examination in March next, and they were allowed to come to the Training School for study.
332. Will that never occur again? If so, it will be under the same conditions. They will stay at home at night and come to the College in the day-time.
333. There are fifty students to be placed in this College immediately? Yes.
334. And there is only accommodation for fifty? For fifty-one.
335. Do you think there will be no increase in the demand during the next five or six years? I do not think so—not for the class of teachers for which the College is intended.
336. And the maximum number of teachers that there will be for years to come is now reached? No, certainly not. The Training College is intended to supply teachers to the higher class of schools, and I feel quite convinced that if it provides accommodation for fifty students it will answer all requirements for the next quarter of a century. I believe for longer. Even if it does not, it is quite easy to add to the building.
337. What is the average attendance at Fort-street? Fifty—they are compelled to attend every day.
338. What is the average number which you have had on the roll, say for the last three years? It has averaged between thirty and fifty.
339. Has there been a steady increase from one year to another? No.
340. Could you give us the numbers each year for five years back? No, but I will send them to you if you like.
341. You see why I am asking. I have an idea that there must be an increase in the applications for admission in the future? You see there cannot possibly be an increase, because those who come to the College are selected. We select our students in this way,—fifteen scholarships and ten half-scholarships are open each year. All the first class pupil teachers (that is, all who have passed through a four years' apprenticeship) are examined at the end of four years, and the fifteen boys who get the highest marks are awarded full scholarships, that is, the Department pay the entire cost of training them, and the ten who get the next highest marks get half-scholarships, that is, the Department defray half their expenses; so you see that only twenty-five are admitted each year. They would be the twenty-five juniors. The twenty-five seniors would remain from the year before, so that, as long as the regulation remains as it is, the number cannot be increased.
342. But is there no probability of the regulation being altered? Yes, that is quite likely.
343. There will be a large increase of population during the next few years? Yes.
344. Will not that necessitate an increase in the number of scholarships? Mr. Kemp has made arrangements for increasing the accommodation if necessary.
345. You expect the public schools to increase in number? Certainly.
346. And the pupils? Yes.
347. And will not these scholars also increase? The scholarships will be increased as necessity arises.
348. Taking that into consideration, do you think it will be advisable to erect a building for present requirements only; do you not think it would be a little more sensible to look into the necessities of the future? I think we have done so. The matter has been well considered. We consider that accommodation for fifty-one students will answer all requirements for the next quarter of a century.
349. But you have got the fifty now; do you think there will be no increase in the next quarter of a century in the population? The increase will not be sufficient to warrant an increase in the number of students for a considerable time to come.
350. Have you formed any estimate of the probable increase in the number of schools or in the population during the next twenty-five years? I have not thought of that.
351. Then how can you say that the present accommodation will meet all the requirements for the next quarter of a century—you see that this is a very serious question? It cannot be regarded as a serious question, because we can always increase the accommodation if necessary. We are not bound down by hard and fast rules.
352. Have you not pupils enough now to fill this building if it were finished? Yes.
353. You have no further accommodation? No accommodation for any more.
354. In five years' time, perhaps six or ten more may be required. Do you not think it would be advisable to anticipate those requirements by increasing the accommodation now? I see no objection to that.
355. Do you know that it is more expensive to add to a building after it is finished, than it would have been to increase its size at first? I see no objection to that. If the Department of Public Instruction choose to provide accommodation for sixty when we only require fifty, I shall not object.
356. Do you not think it would be better than to only have accommodation for present requirements? I see no necessity for it at present.

TUESDAY, 17 FEBRUARY, 1891.

Present:—

THE HONORABLE JOHN LACKEY (CHAIRMAN).

The Hon. FREDERICK THOMAS HUMPHREY.	HENRY COPPELAND, Esq.
The Hon. WILLIAM JOSEPH TRICKETT.	JAMES EBENEZER TONKIN, Esq.
The Hon. GEORGE HENRY COX.	EDWARD WILLIAM O'SULLIVAN, Esq.
JACOB GARRARD, Esq.	CHARLES ALFRED LEE, Esq.

JAMES PATRICK GARVAN, Esq.

The Committee further considered the proposed College for the Training of Teachers of Public Schools.

Henry Ebenezer Barff, Esq., M.A., Registrar, University of Sydney, sworn and examined:—

H. E. Barff,  
Esq.  
17 Feb., 1891.

357. *Chairman.*] You are Registrar of the University of Sydney? Yes.
358. And have been for some years? Nine years.
359. Have you given any attention to the project of building a College for the Training of Teachers for Public

Public Schools? Yes. All the communications between the Department of Public Instruction and the University have been through my hands. H. E. Barff, Esq.

360. Then you are well acquainted with the whole subject? Yes.

361. Do you consider a building such as that proposed to be erected is necessary? I consider it would be a great advantage to the students at the Training College to be in residence at the University, and for the public school system generally.

362. You are acquainted with the site upon which it is proposed to construct the building? Yes.

363. I suppose you are aware of the design? I have seen it for a few moments, but I have not studied it. From a cursory glance at it I thought it was a very good one. It seemed to me to meet all the requirements. I saw the plans in Mr. Kemp's office. They appeared to me to contain all the necessary accommodation. Of course, I do not know anything about the question of architecture.

364. You think the plans are suitable so far as the architecture is concerned? Yes. If I were providing the requirements of the College it is not likely that I should make suggestions in exactly the same way.

365. A question arose the other day as to the propriety or wisdom of having the Head Master a resident of the College;—have you thought of that matter at all? I certainly think he should reside on the premises.

366. I inferred from the evidence of the Master that he proposed to be away altogether, and to leave the place in charge of two or more deputy-masters? According to the plan, I think there is a covered way connecting the two buildings, so that the Principal will not actually be away from the College.

367. Do you think that that would meet the requirements of the case? Of course, it depends on whether there are assistants residing on the premises; but some of the staff ought to be on the premises. In my opinion, it would be best for the Principal to be on the premises; but if some of the staff were on the premises, that might meet the requirements of the case.

368. Then with the master adjacent, and not very far off, you think that would be sufficient? I think it would.

369. You think the proposed site is a healthy one, as well as suitable for the purposes required of it? Yes, it is a very good site; it is on fairly high ground, and there is plenty of scope for good drainage.

370. *Mr. Copeland.*] I should like to ask you a few questions in reference to the policy of the State in undertaking the training of teachers;—do you think it is absolutely necessary that the State should burden itself with the preparation of young men for this particular branch of the Public Service? That is a matter to which I have not given a very great amount of attention. It seems to me that the officers of the Department of Public Instruction are the proper people to answer that question.

371. I think you, being connected with the highest branch of education in the State, ought to have formed some pretty clear notions on the subject;—would it not be possible for the State to allow young men to be educated and trained in other schools, or in other places, so long as they acquired the training and the education; would it not be equally serviceable for these men to become teachers irrespective of where they received their education or training? Do you mean without respect to the cost of the State?

372. Outside the State altogether. Is it necessary, in the interests of our educational system, that the teachers should go through one particular mill or one particular training college? My opinion is that a large number of people could be found who would be serviceable as public school teachers without going through this Training College. But I am placed in a very difficult position in being asked a question which is purely a matter of expediency in connection with the Department of Public Instruction. I take it for granted that if the Department had been able to get efficient teachers without the establishment of this Training College they would not have proposed its erection. They have found it necessary to have training schools, and they have found it necessary to educate their teachers there. It seems to be their opinion that they can make the most efficient teachers by sending them to the University.

373. Do you find any difficulty in the University in taking students who have been taught in different schools—even in different countries. So long as they have acquired the necessary standard of education is it not immaterial where they have acquired that education? Quite immaterial.

374. Do you not think the same thing would apply in reference to public school teachers. Of course, I am asking you the question as one of policy. We have to do with the question of policy as well as with the question of constructing the building, and I should like to have your opinion as representing the highest branch of education? Of course, it would not matter where the teacher gained his knowledge, but the success of a teacher depends a great deal upon his knowledge of the art of teaching and upon his practical skill in teaching, and I have always understood that the Training College, and the period of pupil teacherdom before the student goes into the College, are intended to give him that practical skill.

375. Do you think it is desirable or necessary that all teachers should pass through the one planing machine, as you may term it—that they should all come out of one mill; or do you think it would be better if teachers exercised individual judgment and experience of their own? I think it is well that they should make use of their experience and individual judgment.

376. You think there is nothing to be gained by the State in putting a whole host of young men through one process of drilling, like a lot of soldiers, and causing them to sink their own individuality, as I take it? Of course, if that is done it will be a great disadvantage.

377. Is that not likely to be done if we compel all the teachers of future generations to go through the one series of training and no other, without any opportunity of acquiring different ideas? I do not think that will be the case in regard to the University subjects, because, when the students are attending the lectures of the University they have the choice of a large number of subjects of study.

378. I am not speaking now of the University students, but of the students going through this College? But I understood the object of having the College on the University grounds is to enable all the students passing through it to become University students, and to attend the lectures at the University.

379. That is one object, but could not that object be gained equally as well without this Training College at all. Are not the University classes open now for young men residing anywhere about Sydney? Yes; and the students at the Training College do attend at the present time.

380. And other students besides the Training College students attend? Yes.

381. And it would be quite competent for any reasonable number of students desirous of becoming public school teachers to attend? Certainly.

382. And it would be competent for them to attend without the State erecting this College, which, in my opinion, may be likened to a machine which is going to turn out hundreds of young men of one stamp and

17 Feb., 1891.

- H. E. Barff,  
Esq.  
17 Feb., 1891.
- and of the same way of thinking, and with one particular mould of training? Yes, of course the University lectures are open to all students who may attend. One of the principal objects of the Training College was, I understood, to afford the advantages of college life to these men, to enable them to mix more with one another, and to enable the Principal and the teachers to have better supervision over them. Under present arrangements they are all boarded out in different parts of the town.
383. But will not the system proposed have a tendency to crush out all private enterprise in the shape of educational establishments? I do not see how the establishment of this College can interfere with private enterprise.
384. If the State undertakes the training from the cradle to the grave, almost, does it not necessarily preclude other people who have educational attainments from keeping private schools, and other educational establishments? I do not see how it can affect private schools, inasmuch as this College is for the training of Government teachers for Government schools only.
385. And you think it is desirable that there should be a training establishment for public school teachers, so that they should all have the same class of training? I think it is highly desirable, and I would go further, and say that persons who wish to teach in private or grammar schools should have the privilege of attending this Training College, in order that they may learn something of the practical art of teaching.
386. Do you think there is nothing to be gained by having numbers of different teachers having different ideas and different modes of imparting knowledge? A very great deal, of course.
387. Will not individuality of character be likely to be crushed out in going through this training mill? I cannot see that it will altogether, because the greater part of the student's time, when he is living at the College, will be spent in attending lectures at the University upon subjects which he can choose for himself. The particular instruction which he will receive at the College will be on the art of teaching, and a few school subjects which are not taught at the University; but his principal time will be spent in attending University lectures, and he can attend lectures on any subject he likes, so that they will not really all pass through the same mill.
388. *Mr. Humphery.*] In reply to a question from the Chairman, you were about to make a suggestion as to a better mode of giving effect to the proposal to establish a teaching institution in connection with the University? I do not think I intended to make any such suggestion. What I said was, that if I had furnished the information to the Architect for drawing up the plans, my suggestions would have been different.
389. Will you favour the Committee with the suggestions you would have made if you had been consulted? I have not given any attention to the matter.
390. Why do you say your suggestions would have been different? Well, it is not likely that the suggestions of any two men would have been the same.
391. Can you assist us by letting us know what your suggestions would have been? I have not sufficiently examined the plans, nor thought of the requirements of the College.
392. At present there is a training school in connection with the University? Not in connection with the University.
393. But teachers attending the Training School do attend the University? Yes.
394. Do you think the plan proposed will be the means of producing more efficient teachers than the existing plans? Yes.
395. In what way do you think greater efficiency will be attained? I think the students, whilst in training, will derive an immense advantage from residing with one another close to the University library, and close to the University laboratories; and they will also derive a large amount of benefit from taking part in the University Debating Society, and the various associations connected with the University. They will also be under better supervision in the College than they can be in lodgings.
396. Is it your opinion that it would be an advantage to the College that the Principal should reside within the building, instead of having a separate residence? Yes.
397. What is your reason for saying so? Because I think better supervision could be maintained. The Principal would know better what was going on in the College.
398. Have you any information as to the present cost of maintaining pupils at different colleges—at St. Andrew's and St. Paul's? I have no information on that point, but I could state the fees the students pay for residence and tuition.
399. Where could the information referred to be obtained? From the Principals of the colleges.
400. Who is the Principal of St. Andrew's? The Rev. Dr. Kinross.
401. Of St. Paul's? Canon Sharp, and of St. John's, the Rev. Dr. O'Brien.
402. Do you think the dormitories intended to be provided for these students are sufficiently large—12 feet by 8 feet 3 inches? They seem to be very small. In St. Andrew's College the rooms are 13 feet square.
403. No less than 13 feet square? Not less.
404. And the height? About 15 feet. In St. Paul's College they are about 14 feet square, and in St. John's College 15 feet by 13.
405. With one student in each room? Yes.
406. Therefore you consider 12 feet by 8 feet 3 inches is too small? I should certainly say it was too small if the student has to study as well as use the room as a dormitory.
407. If the room is simply used as a dormitory will it be large enough then? I should think it would.
408. For health and convenience, too? Yes; if it is properly ventilated.
409. *Mr. Tonkin.*] Is not the principal advantage to be derived from the erection of this College to give pupils a thorough understanding in practical teaching? Yes.
410. Do you not think that it is a very desirable thing to instruct teachers in the art of imparting their knowledge to others? Yes.
411. Is there not a large percentage of gentlemen who have taken high degrees at college who do not possess that necessary requirement? Yes; it very often happens so.
412. There are many who are themselves very clever, but they have not the ability to teach? Yes.
413. Under these circumstances, is it not necessary that there should be a college in which teachers should learn the art of teaching? Yes.
414. Do you see anything in the questions asked you by Mr. Copeland in regard to putting teachers through one training school? Of course, the ideal system of teaching would be to take each student individually.

individually. In that way you would bring out his individuality and all his good points; but it is quite impossible to do that. H. E. Barff,  
Esq.

415. They must go through the same class of training to make them teachers? Wherever you have teaching you must have classes, and wherever you have classes you must turn out a number of people from the same mould. 17 Feb., 1891.

416. Is there any other way of making teachers? I know of none.

417. Have you any knowledge of the number of pupils at present attending the lectures at the University from the Fort-street School? There were forty-five last year, including female teachers from Hurlstone College.

418. Can you tell us how many females and how many males there are? Seventeen or eighteen females, and the rest males.

419. Have you noticed whether, during the last year or two, there has been an increase in the attendance, or has it remained stationary? Last year was the first year in which pupils from the Training College attended the University lectures.

420. And have they increased this year much? The term does not commence until next month.

421. Can you give us any idea as to the number of pupils a building of this kind should accommodate? No; I only know from information I have received. I understand there are fifty students in the Training College, and that they do not intend to increase that number. Therefore, they propose to build a College with fifty rooms in it. That is all the information I can give.

422. Have you found any increase in the University attendance during the last few years? Yes; it has increased very fast.

423. Do you not think it will be the same in regard to other educational establishments throughout the colony? Yes; but I understand that this College is to provide for the residence of the students educated by the Department, and I see no particular reason why the Department should not provide for any number it thinks fit. Of course, the Department will not refuse to give employment to people educated elsewhere, and in the course of time there may be a number of competent applicants from outside, so that it will not be necessary to extend the College.

424. Then you think it will merely mean that there will be a keener competition in connection with the examinations for this privilege? Exactly.

425. And that will be more of a benefit than otherwise? Yes.

426. I suppose you have no doubt in your own mind that this is a move in the right direction? Not in the least.

427. And that the College will turn out better teachers than the general run of our Public Schools? Yes.

428. Men more qualified to teach and of better education? Yes.

429. *Mr. Garrard.* Have the plans of this proposed building been submitted to the Senate and received their approval? No.

430. Has the Senate the option of exercising any control over the size of the building? In writing to the Minister of Public Instruction, the Senate suggested that the plans should be submitted to it for approval before the building was commenced.

431. Has that been assented to by the Minister? I do not think it has been specifically assented to, but it is understood there is no objection.

432. You think the style of architecture and the building generally will do well for the purpose intended? Yes.

433. It will not be out of harmony with the present University buildings? No.

434. It will neither disgrace them nor put them into the shade? No.

435. The site of the proposed College is vested in the University Senate? Yes.

436. Have they power to allot a site for this purpose, or how would it come into the hands of the Department of Public Instruction? It will be necessary for an Act of Parliament to be passed to resume the land for this particular purpose.

437. And will it be necessary to pay the full price of the land to the University? No; the University does not propose to make any charge for it.

438. For the purpose of overcoming legal difficulties a Bill will have to be passed? Yes.

439. No demand for payment will be made by the Senate? No.

440. In a statement which has been put before us—I do not know whether you have a copy of it or not—the Senate submitted certain points to the Minister for consideration. They thought, for instance, “That an arrangement be made in favour of the University, under which individual University students not belonging to the Training College, can be admitted to the College teaching (or lectures) on the subject of ‘Pedagogy,’ or the Science and Art of Teaching.” Has that been agreed to by the Minister,—if you look at the bottom of the page, you will see that the Minister accepts everything but that particular arrangement;—will that be a difficulty in the way of coming to terms between the Senate and the Department of Public Instruction? I do not think the Senate will lay any great stress upon that. It is more a suggestion than a condition.

441. Therefore, if Parliament agreed to the expenditure of the money for the erection of this building, it is not likely that any difficulty will arise between the Senate and the Department of Public Instruction, which will in any way burke the scheme? No; I think not.

442. All the ground is clear? Yes; I do not think there will be any difficulty at all.

443. With regard to the question of the Principal residing on the premises;—if two resident masters, independent of the Principal, reside permanently in the building, would there not be sufficient oversight? Perhaps there would.

444. Have you any knowledge as to whether the Principals in the other colleges live on the college grounds? At St Paul’s College the Principal has a separate residence in the same way as is proposed in the present instance. In the other two colleges the Principals live within the walls of the colleges.

445. Is St. Paul’s the most recently built college? It is the oldest of the three colleges. But the warden’s lodge, as it is called, was built about four years ago.

446. And prior to the building of that, did the Principal reside within the college? Yes; he lived in a number of rooms originally intended for student’s rooms.

447. And when they became full they had to find a place for him elsewhere? Yes.

448. And instead of adding to the college buildings proper, they built a separate residence? Yes.

- H. F. Barff, Esq.  
17 Feb., 1891.
449. Do you not think that the Principal being away from the College, and yet close enough to it to have some supervision, is better than living within the college? No; I should think, for the purpose of supervision, it would be better to have the Principal inside.
450. As a rule the Principals are married men, and have families? Yes.
451. Is it not likely that their families might interfere with the discipline? It all depends on how the College is built. At St. Andrew's the Principal and his family live in one end of the building. It communicates with the rest of the building by a door which opens into a lower corridor, and I think there is a door into the upper corridor, so that the Principal's residence is in the building, although it is practically separate from it.
452. Is it not better to have "supervision by a covered way," than to have the Principals actually in the building? I think I should put them in the building.
453. Do you know of any instance of the Principal and his family residing in a college interfering with the discipline of the institution? I have no information of such an instance.
454. In view of the close proximity of the Principal's residence to the proposed College, and the fact that two masters will reside within the College, you think there will be sufficient supervision? Yes; I think that will answer the purpose fairly well.
455. *Mr. O'Sullivan.*] You will see by the plan that the front of the building faces Newtown on the south;—has the Senate been consulted in regard to the direction which the building should front? I do not think it has expressed any opinion.
456. Do you think that is the proper direction? Well, it is the only frontage to the street on the ground.
457. The back portion appears to overlook the University, does it not? The back portion looks more towards St. John's College than towards the University, or rather between the two, I should imagine.
458. You think, then, that that is the best frontage that they could obtain on the land? Yes, certainly.
459. *Mr. Trickett.*] How many students can reside in St. Paul's College? Thirty-six.
460. What was the cost of the building? £35,000.
461. When was it built? In 1858.
462. Are there many lecture-rooms or class-rooms in it besides students' residential apartments? There are a library and two large lecture-rooms.
463. What is the size of the lecture-rooms? I do not know. There are two large rooms, a chapel, a dining-room which will hold 100, and quarters for the providore and servants.
464. How many will the lecture-rooms accommodate? I cannot tell.
465. Do all the students reside on the first floor? Some of the students' rooms are on the first floor and some on the ground floor.
466. Has any objection been found to having rooms on the ground floor? I cannot say.
467. You have heard of no objections? No.
468. How many students can be accommodated at St. Andrew's College? Twenty-seven.
469. What was the cost of that building? £28,200.
470. That includes the Principal's quarters? Yes.
471. And the college was built ten years ago? Twelve or thirteen years ago.
472. How many students does St. John's College accommodate? Twenty-five.
473. Can you tell us the cost of that building? I understand it cost between £36,000 and £40,000.
474. Is the accommodation there much larger than it will be in the proposed building? It is a very large building. I think the accommodation is far greater there.
475. How many principals or assistant masters live there? The residential quarters are very extensive. They are all on the ground floor. I think only one assistant lives on the premises.
476. Is St. John's College completed now? No; the original plans included another large wing, which was to consist of nothing but students' rooms, at the end near the Newtown-road. There is to be a tower at the other end, near the Parramatta-road. Of course, if the building were completed, and this wing containing nothing but students' rooms were built, the cost per student would be very much diminished.
477. Then, judging by comparison, £37,500 for a building to accommodate fifty students is not a very large sum? Certainly not.
478. Evidence was given the other day to the effect that the course of study which these pupils would go through would be similar to that gone through in the University, and that being so, the students would be able to go up each year for their respective grades prior to getting a degree;—do you know whether that matter has been considered by the Senate? Under the arrangement made by the Instruction Department with the Senate, the students from the Training School will be regular University students. They will enter the University by passing the matriculation examination, and will reside at the College while attending the University lectures. They will attend the University lectures in the morning, and do their practical work in the afternoon and evening.
479. Has that been considered by the Senate? Yes; and approved of.
480. Then they will be able to attend evening lectures? Yes; if they think fit.

Walter Liberty Vernon, Esq., Government Architect, sworn and examined:—

- W. L. Vernon, Esq.  
17 Feb., 1891.
481. *Chairman.*] You are the Government Architect? Yes.
482. As Government Architect, have you anything to do with the supervision of public schools? Nothing whatever; they are under Mr. Kemp. I have to do with the University buildings, but not with the public schools.
483. The public school system is kept distinct from the University system? Yes; so far as I am concerned.
484. You are not consulted in any of the designs or plans? Not of the schools. They are under the control of Mr. Kemp.
485. Have you any knowledge of the proposed Training School for Teachers at the University grounds? I have not seen the plans yet. I only heard last night that you wished me to appear here to-day, and I have had no opportunity of obtaining the particulars or seeing the plans. I would suggest that I should go carefully through them, and send you a short report.
486. Have you seen the general plan? I have seen it for the first time to-day.

487. You would not like to venture any opinion about the building without examination? I could not.
488. Have you had to do with the erection of any of the University buildings? I followed my predecessor in completing certain works, and am now building some new Engineering Schools.
489. Could you form any estimate as to what a building to accommodate fifty teachers ought to cost? To tell you the truth, a Training School of this kind is a new feature to myself. I have had to do with ordinary colleges, but not with a Training School for State Teachers. I would rather make myself conversant with the amount of class-room and other accommodation, which will be requisite before giving an opinion.
490. *Mr. Tonkin.*] Do you believe in the principle of open competition amongst architects for the erection of public buildings? Yes.
491. You know that it is the intention of the Government in the future, in the Works Department, to adopt that system? Yes.
492. Do you think it ought to be adopted in connection with the Educational Department;—do you think there should be any difference between one Department and another? No; but it is possible that this particular scheme may have been initiated prior to the public competition system was thought of.
493. In the event of a public competition the plans, I suppose, are placed before you for your opinion? They would be in the case of the Public Works Department.
494. Do you not think that competition itself will result in better buildings for a less price, and a better style of architecture? I think in the general run of buildings it would; but it is possible that in a case of this kind, which is highly technical, that it would be difficult to grasp particular requirements. It is quite a new departure to build a school of this kind. It is a highly technical scheme.
495. Would not the same argument hold good in the case of a hospital? I do not think so. There are general lines laid down which govern all hospitals.
496. Would not this College be similar to the educational portion of the University? It might be by telescoping the different departments in a similar manner. In the University there is an assemblage of separate schools. The proposed building, I take it, will be more of a complete school in itself.
497. Then you believe the open competition system is a move in the right direction? Undoubtedly, as a general rule.

W. L. Vernon,  
Esq.

17 Feb., 1891.

THURSDAY, 26 FEBRUARY, 1891.

Present:—

THE HONORABLE JOHN LACKEY (CHAIRMAN).

The Hon. ANDREW GARRAN.	JAMES EBENEZER TONKIN, Esq.
The Hon. FREDERICK THOMAS HUMPHERT.	WILLIAM SPRINGTHORPE DOWEL, Esq.
The Hon. WILLIAM JOSEPH TRICKETT.	EDWARD WILLIAM O'SULLIVAN, Esq.
The Hon. GEORGE HENRY COX.	CHARLES ALFRED LEE, Esq.
JACOB GARRARD, Esq.	WILLIAM MCCOURT, Esq.
HENRY COPELAND, Esq.	JAMES PATRICK GARVAN, Esq.

The Committee further considered the proposed College for the Training of Teachers of Public Schools.

Walter Liberty Vernon, Esq., Government Architect, sworn and further examined:—

498. *Mr. Garrard.*] Will you kindly read your Report to the Committee on the plans of the proposed Training College for State School Teachers? Yes.

REPORT on Plans of proposed Training College for State School Teachers.

Sir, Department of Public Works, Government Architect's Branch, Sydney, 26 February, 1891.

In accordance with the instructions of the Public Works Committee, I have examined the plans and scheme for the proposed Training College, and do myself the honor to report upon them as follows:—

The accommodation required, I have ascertained from the Public Instruction Department, is for fifty resident students, with Principal, tutors, and servants, together with the necessary provision of means for embracing the whole of a three years' course of studies, excluding only those that I understand will be undertaken in the University buildings adjoining. I am of opinion that the plans submitted fulfil these conditions in an ample, but not extravagant manner, and each separate department appears to have been carefully studied, and placed relatively in the most advantageous position.

The building is so planned that it is capable of enlargement, either on the flanks, or on the front looking towards the University.

The main façade is shown to face Bligh-street, while the rear faces the University, and all things being equal as regards aspect, I think, from an architectural point of view, this is a mistake; and as it is designed to form another of the group of handsome buildings forming the University, its best front should be towards the main group and not to a thoroughfare of the comparative unimportance of Bligh-street. This will not, so far as I have ascertained, affect the present plans beyond a reversal of the accommodation.

I concur in the plan of providing the Principal with a separate residence, which is placed sufficiently near and with good access to the main buildings, but I am inclined to think it is unnecessarily large, and unless the Principal is in receipt of a handsome salary its proper maintenance would prove to be more of an incumbrance than otherwise. This opinion also applies to the porter's lodge.

The whole of the buildings are projected to be faced with cut and worked stone, and I gather this is also the case with the interior walls of Lecture Hall.

The style of design chosen is that of "Norman," somewhat approaching to "Byzantine," and I consider, so far as the drawings disclose the design, that it is correct, and conscientiously worked out, and will stand alone as an example of this particular period in the history of design, and instead of clashing with the later styles adopted in the surrounding buildings, will harmonise, and should have an educational effect.

Comparatively speaking, few modern buildings of any note (excepting in America) have reproduced this particular style, and it is generally conceded that more difficulty exists in reproducing the spirit and charm of its details, than almost in any other style of architecture.

I quite approve of the detail drawings for the work so far as I have seen them, but I may be pardoned for urging that the greatest care and ability will be required throughout its construction, to maintain the distinctive features and spirit of this particular style.

In estimating the cost of erection of this building I have been guided to some extent by that of the New Medical Schools, of which the conditions are somewhat similar.

The following is my statement of the approximate cost of erection, viz.:—

Excavations, roads, approaches, boundaries, &c. ....	£2,296
Main building .....	38,750
Principal's residence .....	4,734
Porter's lodge .....	1,728
Total.....	£47,538

I have, &c.,

W. L. VERNON.

499.

The Chairman, Public Works Committee

18—C

W. L. Vernon,  
Esq.

26 Feb., 1891.

W. L.  
Vernon,  
Esq.

26 Feb., 1891.

499. *Mr. Trickett.*] Mr. Kemp's estimate is £37,500? Of course, I have been careful to include all the boundaries, roads, gates, and so on.
500. And that is included in Mr. Kemp's estimate; have you gone carefully through the specifications and plans? I have gone through the plans, but not the specifications. I have based this report, to some extent, upon the Medical School. That building was built at a cost of 11½d. per cubic foot, and I think this will cost about the same; some portions a little less and some a little more.
501. Would it have been a better guide for you to have seen the specifications? It would; but I think I pretty well understand the matter.
502. £1,700 seems a large amount to be spent on a porter's lodge—on a residence for a man getting about £2 a week? It is necessarily of an ornamental character. It is built in the Norman style.
503. Do you see any way of decreasing the expense? I think that building and the master's residence might be reduced.
504. Without interfering with architectural beauty? I think it might, to some extent.
505. Can you say to what extent? Not without going into the plans. You might put up a very presentable building for a porter's lodge for £1,000 or £1,200.
506. Of stone? Yes; or stone and brick.
507. Do you consider the master's residence too large in regard to the number, or size of the rooms? The rooms are of ample size. It is a very handsome building altogether, and it will run into cost, no doubt. Of course, it is worth consideration whether you would not put a handsome building there for the sake of £800 or £900.
508. Is that residence in a very conspicuous position? It stands out by itself, connected by an arcade with the main building.
509. What is the number of the rooms? There are a drawing-room, dining-room, study, and six bed-rooms, I think, and the adjuncts are all very good.
510. What is the width of the hall? Nine feet.
511. That is a pretty good size? It is an extremely comfortable family house.
512. What is the size of the living rooms? Drawing-room 20 ft. x 15 ft., with a bay window; dining-room 20 ft. x 15 ft., study 15 ft. x 20 ft., with a bay window; kitchen 16 ft. x 14 ft., and the various offices are all in keeping.
513. How many bed-rooms are there in the main building? Six.
514. Besides the servants' bed-room? No.
515. What are the sizes? The sizes follow the rooms below.
516. Can you see where any saving can be made? Of course, so much depends on the position of the Principal himself. If it is a large institution it is not too large, but if it is confined to fifty students the house is full sized for a man of ordinary means. Of course, the larger the house, the more expense to keep in order.
517. You have had considerable experience in building private houses? I have built a good many.
518. What rent would a house of that character bring in a fairly good locality? In Double Bay it would bring about £270 a year.
519. What would it bring in Neutral Bay? £220 or £230.
520. Independent of the size of the house, do you think it is of a very expensive character? Of course, it is all in character with the main building, and I think it would be a pity not to retain that character.
521. Are the walls of the out-houses of such a character that they could be reduced? The walls are 18 inches thick; you might reduce them to 16.
522. That would not make very much difference? No.
523. If the building is carried out to its present size, you do not see any great chance of reducing the cost of it? The balconies and verandahs are all carried out with stone. Everything is very good.
524. If they are constructed as balconies generally are, with iron pillars, would it make any considerable difference? Yes.
525. Some hundreds of pounds difference? I would not like to say how much.
526. You advise that the position of the building should be altered—that the back should be placed in front? I think it should be considered.
527. Have you looked at the ground? Only on the plan. I know the ground from crossing it.
528. Could that alteration be made without increasing the expense? Yes.
529. It would only reverse the arrangement of the rooms? That is all.
530. Do you see any means of saving any money in the main building? I do not, unless the lecture-hall could be built of a less expensive material than stone; but I am not absolutely certain that it is of stone. Of course, it is a very handsome room.
531. If you had an opportunity of studying the specifications would you have a better opportunity of informing the Committee whether any saving could be made in your estimate? I do not think so, because the rooms are all built with one class of finish.
532. There being such a large discrepancy between you and Mr. Kemp, the Committee would like to be certain? I feel bound to go by the experience gained in the Medical School.
533. In this country? Almost adjoining. It cost £66,000. It works out to 11½d. per foot cube.
534. Do you approve of the arrangement of this building? I do.
535. Do you think a building of a more compact nature could be designed—three stories high instead of two;—to my idea this building seems to cover a lot of ground? I think Mr. Kemp has hit the right thing. If you decrease the area of the building and go higher, you make it extremely difficult to get your large common rooms, or lecture-hall and library of sufficient dimensions in the smaller area. Of course there is no difficulty about dormitories, but you lose the space you require in your common rooms.
536. Do you think the dormitories are suitable? They are very lofty. The cube contents are quite enough.
537. It is not intended to use them as studies? I presume each student might have a writing-table in them, but he would not use his room all day long.
538. You think they are amply large? Yes.
539. Have you studied the bath and closet accommodation? Yes.
540. Is it ample and convenient? Very, indeed.

541. What amount do you think could be reasonably saved in the lodge and the Principal's residence? You might save £1,500 on the work.
542. Have you consulted with Mr. Kemp on the matter at all? Mr. Kemp has not seen or heard of this Report until I read it just now. Mr. Kemp lent me his plans in the first instance, and told me the accommodation which was required.
543. *Mr. Dowel.*] You have referred to the Medical School as a building upon which you based your estimate;—is it not a fact that that building is a more expensive class of building than the one proposed to be erected? There may be a little more elaboration in some of the external portions, but I think that is met by the internal accommodation and the fittings required in this new building, besides which the ornamental external appearances of this new building are quite as elaborate, where they do exist, as those in the Medical School.
544. Is it not a fact that Mr. Kemp's mode of ascertaining the probable cost of this building would be more reliable than your mode of cubing—where, for instance, he has had the quantities correctly taken out? I cubed all mine.
545. Is it not a fact that the cube system is not so accurate as one in which all the quantities and details are taken out? I admit that. There is 10 per cent. variation.
546. Under the circumstances you would not pit your estimate against Mr. Kemp's as being most reliable? If Mr. Kemp has taken out the quantities I should, perhaps, prefer his estimate.
547. So far as quantities go, you would consider that he was in a better position to form a correct estimate than you would be under your method of cubing? I would.
548. *Mr. Humphery.*] What would be the additional cost of the main building if you were to make provision for the Principal in the College instead of giving him a separate residence? About the cost of a separate residence.
549. There would be no saving? I do not think there would.

W. L.  
Vernon,  
Esq.  
26 Feb., 1891.

TUESDAY, 3 MARCH, 1891.

Present:—

THE HONORABLE JOHN LACKEY (CHAIRMAN).

The Hon. ANDREW GARRAN.

The Hon. FREDERICK THOMAS HUMPHERY.

The Hon. WILLIAM JOSEPH TRICKETT.

The Hon. GEORGE HENRY COX.

JACOB GARLAND, Esq.

HENRY COPELAND, Esq.

JAMES EBENEZER TONKIN, Esq.

WILLIAM SPRINGTHORPE DOWEL, Esq.

EDWARD WILLIAM O'SULLIVAN, Esq.

CHARLES ALFRED LEE, Esq.

WILLIAM McCOURT, Esq.

JAMES PATRICK GARVAN, Esq.

The Committee further considered the proposed College for the Training of Teachers of Public Schools.

Edwin Johnson, Esq., Under Secretary of Public Instruction, sworn and further examined:—

550. *Mr. Trickett.*] What is the name of the Principal of the Training College? James Conway.
551. Has the residence attached to this College been designed especially for the accommodation of that gentleman and his family? No.
552. Do you know whether he was consulted in regard to the requirements of the building? I rather fancy that the Architect had some conversation with him on the subject.
553. What salary does he get? He gets £450 a year as Principal of the College.
554. Is that his whole salary? No; he receives £50 a year as Superintendent of the pupil teachers' classes, held on Saturdays, and he gets a fee of 60 guineas as a Member of the Board of Examiners.
555. Does his whole income amount to £563? Yes.
556. Does he get any allowance for house rent? He has a house rent free in Fort-street.
557. Have you compared that residence with the new residence? It is quite as commodious as the residence about to be erected.
558. Was it built for this gentleman? No. It was originally two houses occupied under the old National Board by the Secretary and the Chief Inspector of Schools.
559. It has occurred to the Committee that the proposed new residence is rather a palatial building for a gentleman in receipt of a salary of £563;—do you think that that is so? My recollection is that the building contains only four bed-rooms, a drawing-room, and a dining-room. I hardly fancy that a gentleman occupying that position could be properly accommodated with a less number of rooms.
560. They are very large rooms—20 feet by 18 feet, I think? 20 feet by 15 feet.
561. Do you think that it is a suitable residence for a gentleman in that position? I think so.
562. And that it is not too extravagant? I do not think so.
563. *Dr. Garran.*] Under your present system, what salaries or allowances do you give your pupil teachers from the time you take them in hand and attempt to train them? Male pupil teachers receive £42, £48, £60, and £72 in the successive years of their training.
564. How long has that system been in operation? This scale of salaries has been in operation for about twelve months. The principle of payment has been in force for the last thirty-eight years.
565. You could not get an adequate number of good teachers if you did not pay them? No.
566. Are there many professions in which persons are paid a salary while they are learning, and are taught at the public expense at the same time? I do not think it is a common thing, but instances do occur in other professions where it is done.
567. Did this system originate at a time when you could not get teachers unless you did so? Yes; and if we did not do it we could not get any pupil teachers now.
568. It is absolutely necessary? Yes; we have had to increase the salaries in order to induce male candidates to come forward.
569. The present rate of payment is not too high? No.
570. If you drop the allowances you would be short of teachers? We should get no candidates.
571. You have had a system of collegiate training in operation for some years in connection with female teachers—has your experience been in favour of the collegiate system as against the lodging system? Yes.

E. Johnson,  
Esq.  
3 Mar., 1891.

- E. Johnson, Esq.  
8 Mar., 1891
572. It has had a favourable influence on the teachers? Yes.
573. In what respect? It enables the Principal and her assistants to exercise a proper supervision over the students' studies at night, and to see that they are profitably engaged.
574. Does it establish a better *esprit de corps*? It does, and I think it gives a better tone to the students.
575. You think that the evidence so far is clearly in favour of that? Overwhelmingly in favour of putting these young teachers into residence.
576. You have not had this experience in regard to young lads? No.
577. Do you feel the want of it? We do.
578. You have good reasons for believing that the residential system would improve the tone of the young men? Yes.
579. And that it would make better teachers of them? Quite so.
580. That is one reason in favour of building this College? The chief reason.
581. There is no pecuniary gain? We should gain about £2,000 a year by the change.
582. In what way? We allow each student a monthly allowance of £6; we have ascertained at Hurlstone that the average cost of a student there is under £30 a year, and we infer that we shall be able to educate and board male students at about the same rate, which will leave a clear gain of £42 a year on each student.
583. You have allowed nothing for the interest on the outlay—you cannot get a building erected for nothing, you know? The estimated cost of the building is £40,000, which at 5 per cent. means an annual interest of £2,000, but then we shall have the use of the buildings which we now occupy for other purposes.
584. You will have to allow for rates and repairs? We are not troubled with many rates, fortunately.
585. You will have to repair? Yes, but we shall have the use of the buildings which we now occupy for other purposes, and that is an item which should be considered.
586. You will not make any pecuniary gain by it on the whole? I rather fancy that we shall.
587. The great gain is the gain in the moral tone in the young men? Yes.
588. You think that alone is sufficient justification for putting up the building? I do.
589. Looking at the plan, do you not see that on one side the bed-rooms of the pupils are on the ground floor? Yes.
590. Do you think there is any disadvantage in having their bed-rooms on the ground floor, where they can get in and out at any time without being seen? I think it would be well if it could be prevented.
591. Do you notice that the masters' rooms are on the inner side, where they have the least possible command or control over the bed-rooms. Is that a good position for the masters' rooms? It ought to be stated that, in addition to the supervision of the masters, one of the students will be captain of each bed-room. He will have the immediate supervision of the students, and the master will only be appealed to in the event of the authority of the captain of the room being found to be futile or ineffective.
592. Still you have put the masters exactly where they have least possible control over the various rooms of the students? Yes.
593. Might not that be improved upon? I daresay it might, but the Architect will be best able to answer that question.
594. You have put the Principal right outside the building, so that in the evening he will have very little control over the young men he is teaching, and practically will throw the control on to the masters and the captains of the rooms? I imagine that the Principal will be required to visit the dormitories at night once or twice.
595. Is that considered part of his duty? That is part of his duty.
596. Have you considered this question of the bed-rooms opening on to the ground floor? We did consider that. We tried to make better arrangements, but we could not secure the other advantages and at the same time make better arrangements.

William Edmund Kemp, Esq., Architect for Public Schools, sworn and further examined:—

- W. E. Kemp, Esq.  
3 Mar., 1891
597. *Mr. Garrard.*] You have read the paper, and also the evidence furnished by Mr. Vernon, the Government Architect, with reference to the proposed College Buildings? Yes.
598. Is there any portion which you desire to controvert or to challenge? I was very much astonished at his estimate of the cost of the buildings. Since he gave his evidence I have reconsidered my own estimate, and I can only come to the conclusion that he has over-estimated the cost very much. I am still of opinion that my original estimate is ample.
599. You based your estimate upon properly and sufficiently well drawn up specifications? Yes.
600. Mr. Vernon had not those specifications when he was preparing his estimate? No.
601. How do you think he arrived at his estimate? He states here that he arrived at it by a comparison with the cost of the Medical School. The Medical School is of a much more expensive character than this building will be.
602. He was guided therefore by the cost of the Medical School adjoining, which is of a far more expensive kind of building? Yes.
603. And, after duly considering the matter, you are firmly of opinion that your estimate of the cost will not be exceeded? I am of that opinion.
604. With reference to his evidence on the subject of the Principal's residence, do you agree with his estimate of its probable cost? I do not.
605. What is your estimate? I did not make a note of the figures, but I know that it was between £2,000 and £3,000.—Mr. Vernon's estimate is nearer £5,000.
606. And you based your estimate on carefully drawn specifications? Yes.
607. With reference to the porter's lodge, Mr. Vernon puts the cost of that building down at £1,728—what is your estimate of the cost? About £1,000.
608. I understand you to say that you do not think the Principal's residence or the porter's lodge are in any way out of harmony or proportion with the main building? I think not, and I may say that the Principal's residence contains nothing more than what I consider is absolutely necessary for the residence of a person occupying such a position. It might have been possible to make the rooms rather smaller; but the gain would be very small, and the loss to the occupant of the house I consider would be very great.
- 609.

609. You have heard Mr. Johnson, the Under Secretary, state that the Principal receives a salary of £563 a year. Now, would you, if you were a private gentleman in receipt of that salary and desired to have a house built, go to the expense of having it built on the elaborate scale which you have prepared in this case? I do not suppose that any man with such an income would build such a house for himself. W E. Kemp,  
Esq.  
Mar., 1891.
610. You look upon the house, then, as State property? Yes.
611. And you consider, therefore, a building of a substantial character should be erected? I consider it necessary to make this building correspond in style with the College buildings generally.
612. Do you agree with Mr. Vernon that the building should face the north instead of the south? No. I may say that the whole of the other buildings on the grounds face outwards, as our building does, towards the road. We should have had to put the back premises to the road, and consequently the access to the building would not have been so good as it is if it were built in the other way.
613. Your frontage is within a reasonable distance of Bligh-street? Yes, it is about 130 feet from the street, simply leaving room to get a carriage drive.
614. Your frontage, if it faced the north, would be a considerably greater distance from the road than it is at present? A quarter of a mile, I suppose.
615. Is St. Andrew's College on the east or west of your building? It is on the west, facing Miasenden-road.
616. What road does St. John's College face? It will face the Parramatta-road when it is completed.
617. And St. Paul's? It is in such an incomplete state that one can hardly say which is the front. I think the front will face the east.
618. So that each building erected upon the University grounds fronts the road it is nearest to, and you are adopting the same principle in the case of your building? Yes.
619. You differ, therefore, with Mr. Vernon in his suggestion that your building should be turned right about? Decidedly.
620. Is there any other point in his evidence to which you desire to refer? The only other point is in regard to his estimate of the value of the house. He said that such a house would fetch £260 or £270 a year. I think he as much over-estimates the probable annual rental of such a house as he does its prime cost.
621. *Mr. Tonkin.*] Is this residence placed in such a position that if it were built in a plainer manner it would be a kind of eyesore to the principal buildings? It is necessary to have a residence, and as that residence must be in immediate proximity to the College, it is necessary that it should correspond in style with the other buildings.
622. Suppose the building should require to be enlarged on either flank, could not the residence be attached to the main building so as to permit of the extension of the flanks at any time? It could have been so built, but it would interfere with the lighting of the building, and would preclude the possibility of any further extension of the wing it might happen to be built against.
623. Would not that reduce the cost of construction? No; I do not think there would be any saving; it would cost quite as much.
624. You do not think we could reduce the cost of constructing the residence without injuring the plan, from an architectural point of view? I do not think so.
625. You do not think the cost is out of proportion to the position which this residence occupies? I do not think it is.
626. And I suppose the same remark applies to the porter's lodge? Yes.
627. The cost of that lodge could not be reduced in any way? Not to supply what I consider sufficient accommodation for a man and his family.
628. Is a porter's lodge necessary from an ornamental point of view;—is it necessary that there should be a porter's lodge at all? One of the conditions made by the Senate of the University was that there should be a porter's lodge, and that it should be placed so as to command the entrance to the University as well as the entrance to our own building. Our porter will have charge of the University gate as well as our College gate.
629. Under these circumstances you do not think it is any too large or elaborate? I do not think so.

PARLIAMENTARY STANDING COMMITTEE ON PUBLIC WORKS.

College for the Training of Teachers of Public Schools.

APPENDIX.

A.

TRAINING COLLEGE FOR PUBLIC SCHOOL TEACHERS.

(EXPLANATION, ESTIMATES AND PLANS OF PROPOSED.)

Presented to Parliament, pursuant to the 13th section of Public Works Act, 1888.

Minute by the Minister of Public Instruction.

Proposed College for Training Teachers of Public Schools.—Explanation of the proposed work.

Department of Public Instruction, 21 November, 1890.

THIS proposed work is submitted and recommended by me for the purpose of providing accommodation for students in training as teachers of the public schools. This accommodation includes rooms for classes and for general purposes of instruction, as well as apartments for the Principal and staff, residential students and College servants. Full particulars on these and other details are to be found in the Architect's Report annexed. The estimated cost of the work is £37,500, exclusive of the value of the site which is situated in the University grounds, and has an area of 4 acres 1 rood and 9½ perches. The University Senate have agreed to surrender this site to the Crown without compensation or claim, in order to enable the Government to carry out this work. It is proposed to conduct the College for male students only, and to so conduct its operations as to gain for these students as full a benefit as is possible under the circumstances of their position, from the University course of lectures and studies. The College will be by its Act of Incorporation declared to be a College "within the University"; having a Principal recognised as *ex officio* a member of the University, and having the same rights and privileges as are conferred by the University Act of 1861 on Principals of the Affiliated Colleges. The management of the College, including the appointment of its staff, will be under the control of the Minister of Public Instruction, but the students will be amenable to the rules and regulations of the University so far as they may affect them as undergraduates or members of that body.

The Senate of the University have agreed to make liberal arrangements as to students' matriculation and attendance at lectures, and also to accept an annual lump sum in lieu of lecture fees, &c., for students, such sum being a very considerable reduction on the full fees, and only fairly covering the increased expenditure of the University in regard to the students.

The annexed outline of the training course will show certain details of the proposal as it affects the character of the educational work and the numbers of teachers or students comprised in this proposal.

Sketch plans of the site and proposed buildings are also attached.

J. H. CARRUTHERS,  
Minister of Public Instruction.

Report of the Architect of Public Schools on the accommodation provided, and estimated cost of new College for Training Teachers of Public Schools.

THE main building will provide the necessary accommodation for the residence and instruction of fifty-one students. Separate bedrooms are provided for the students, each room to be 12 feet by 8 feet fitted with conveniences for use as a study for private work, five classrooms are provided for different classes for various kinds of work, and a lecture room to accommodate about 250 for lectures, to which teachers generally, as well as resident students, can be admitted. This hall will be a very suitable room for singing practice, and being lighted only from the roof will be a good room for drawing classes.

In the basement provision is made for ample kitchen and scullery accommodation and stores and larders, and also for a sitting-room and bedroom for the housekeeper, and four good bedrooms for servants. The only communication between this part of the premises and the upper floors of the College is by a staircase which starts from the vicinity of the housekeeper's room, with a screen and door which cuts off communication.

An office for the Principal is provided near the main entrance, with waiting-room attached; and on the same floor is a dining-hall, with communication by lift to the basement.

In addition to the class-rooms there is provision for a library and museum, a common room for the resident masters, and a recreation room for the students.

A covered gymnasium forms part of the scheme, the space under the lecture-hall being utilised for that purpose.

Ample bath and closet accommodation is provided of the most modern and complete kind, the closets being in turrets with open lobbies to prevent any possible contamination of air in the sleeping-rooms.

The Principal's residence is attached to but separate from the College, and provides the usual requisites of a modern residence.

A porter's lodge is provided, which will command the entrance to the College grounds, and also a new road into the University grounds, between the Training College and St. Andrew's College.

It is proposed to erect the buildings with Pyramont stone externally, and internal walls of brick, and in part of coke concrete. The roof to be covered with slates, and all internal finishings to be neat and substantial, but not extravagantly ornate.

The style chosen, as shown by the drawings, is English Norman of the 12th century; a style which allows of a good deal of effect without excessive cost, and lends itself easily to modern requirements.

The estimated cost, including enclosing fences, drainage, &c., is £37,500.

WM. E. KEMP,  
Architect for Public Schools.

Outline of Training Course, &c., of proposed College for Training Teachers of Public Schools.

1. To carry on the work of National Education effectively a supply of thoroughly qualified teachers is absolutely necessary for State Schools.
2. To ensure such supply it is necessary that the State shall itself provide an efficient system of educational and professional training for teacher candidates.
3. This training must be of a kind to secure to candidates the best facilities for—
  - (a) Acquiring full information in the subjects to be taught in schools; and
  - (b) For obtaining the highest professional skill in the art of teaching or pedagogy.
4. The course of training has been arranged to extend over a period of six years, commencing from the time when a boy or girl candidate has finished the ordinary school curriculum.
5. The candidates pass the first four years of this course as pupil-teacher apprentices in State Schools under qualified teachers.
6. Pupil-teachers, as the term implies, are both pupils and teachers. As pupils they receive from the Principal of the school (out of school hours) instruction in school subjects, and in school organisation and methods of teaching; and as teachers they (during school hours) teach and manage junior classes under the Principal's direction and supervision.

7. Before admission as a pupil-teacher a candidate has to pass a competitive examination in reading, writing, dictation, arithmetic, grammar, geography, drawing, and vocal music; and is also required to teach a junior class in the presence of an Inspector.

8. At the end of each of the four years of apprenticeship, pupil-teachers must pass examination in attainments and skill; and if successful they are allowed to proceed with the next year's course.

9. In addition to their professional instruction and training during apprenticeship, pupil-teachers receive annual payments from the State, viz. :—

For first year—males.....	£42;	females.....	£24
„ second „ „ .....	£48;	„ .....	£30
„ third „ „ .....	£60;	„ .....	£36
„ fourth „ „ .....	£72;	„ .....	£48

10. At the close of their apprenticeship, pupil-teachers are about 18 years of age; and to render them fully competent for teachers' work in the large number of more important State Schools a further and higher course of training is necessary. Hence the most intelligent and best advanced among them are afforded an opportunity of entering the Training Institution, established for the purpose of providing this higher and completing course.

11. The ordinary Training College course extends over two years, examinations being passed by students at the end of each year. In this institution lessons and lectures are given in the theory and practice of pedagogy by professors of the highest qualifications for such work; and by making the institution a College within the Sydney University the students will have similar advantages in connection with the study of literary and scientific subjects.

12. This comprehensive and complete course of education and training for State School Teachers is absolutely necessary when the character of the educational work required of them is duly considered.

13. After leaving the Training College and University thus equipped, the students will be employed for two or three years, as assistants in large city and suburban schools, before being themselves appointed to the sole charge of country schools.

14. The expense to the State of training college education is not greater than that of pupil-teacher apprentices in their third and fourth years.

15. The advantages;—

(a) Will promote economy in the conduct of the Training College.

(b) Will foster the profession of teaching by drawing to it young persons of high intelligence.

(c) Will elevate the standard of culture among teachers.

(d) Will mould public opinion in favour of our State School system.

(e) Will invigorate the Public School system generally.

16. There are now 360 male pupil-teachers, about one-fourth of whom proceed to examination for student scholarships each year.

17. There are fifty scholarships and half-scholarships (a full scholarship being of the value of £72 per annum) tenable for two years for successful male students, although the number of students may exceed fifty by the division of scholarships.

18. The number of male students now in training is 56, of whom 13 reside at home, and 43 in licensed lodging houses.

19. The proposed College will give residential accommodation to the latter class, but affording equal facilities for instruction to all alike.

J. H. CARRUTHERS.

[Three Plans.]

1891.

NEW SOUTH WALES.

## EIGHTH REPORT

ON

## THE CREATION, INSCRIPTION, AND ISSUE OF STOCK,

UNDER THE PROVISIONS OF THE

"INSCRIBED STOCK ACT OF 1883" (46 VIC. No. 12).

To the Honorable William McMillan, Esq., M.P., Colonial Treasurer.

The Treasury, New South Wales,

Sir,

Sydney, 19th May, 1891.

I have the honor to submit the Eighth Annual Report under the provisions of the "Inscribed Stock Act of 1883."

The last Report was dated 23rd April, 1890. There has been no further issue of Stock in the interval.

A statement of the Stock created and inscribed under the provisions of the Act is given below :—

## FIRST INSCRIBED LOAN.

Created for the conversion of outstanding Debentures, on which a Loan had been raised on the 8th June, 1882, under authority of the Acts 41 Vic. No. 7 and 43 Vic. No. 11, with an obligation on the part of the Government to convert same into Inscribed Stock :—

Capital amount of such Stock	...	...	*£1,186,300.
Rate of interest thereon	...	...	4 per cent. per annum, payable half-yearly.
Currency	...	...	Fifty years.
Condition of redemption	...	...	Payment on maturity, at par.

## SECOND INSCRIBED LOAN.

Created for the purpose of raising a Loan under authority of the Acts 41 Vic. No. 7 and 43 Vic. No. 11 :—

Capital amount of such Stock	...	...	£3,000,000.
Rate of interest thereon	...	...	4 per cent. per annum, payable half-yearly.
Currency	...	...	Fifty years.
Condition of redemption	...	...	Payment on maturity, at par.

THIRD

\* The balance of this Loan, £813,700, is outstanding in Debentures.

## THIRD INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 43 Vic.  
No. 11, 44 Vic. No. 12, and 44 Vic. No. 28 :—

Capital amount of such Stock	...	£3,000,000.
Rate of interest thereon	... ..	4 per cent. per annum, payable half-yearly.
Currency	... ..	Fifty years.
Condition of redemption	... ..	Payment on maturity, at par.

## FOURTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 44 Vic.  
No. 28 and 46 Vic. No. 12 :—

Capital amount of such Stock	...	£5,500,000.
Rate of interest thereon	... ..	3½ per cent. per annum, payable half-yearly.
Currency	... ..	Forty years.
Condition of redemption	... ..	Payment on maturity, at par.

## FIFTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 44 Vic.  
No. 28, 45 Vic. No. 22, 46 Vic. No. 23, and 48 Vic. No. 26 :—

Capital amount of such Stock	...	£5,500,000.
Rate of interest thereon	... ..	3½ per cent. per annum, payable half-yearly.
Currency	... ..	Forty years.
Condition of redemption	... ..	Payment on maturity, at par.

## SIXTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Act 48 Vic.  
No. 26 :—

Capital amount of such Stock	...	£5,500,000.
Rate of interest thereon	... ..	3½ per cent. per annum, payable half-yearly.
Currency	... ..	Thirty-eight years.
Condition of redemption	... ..	Payment on maturity, at par.

## SEVENTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Act 48 Vic.  
No. 26 :—

Capital amount of such Stock	...	£3,500,000.
Rate of interest thereon	... ..	3½ per cent. per annum, payable half-yearly.
Currency	... ..	Thirty years.
Condition of redemption	... ..	Payment on maturity, at par.

## EIGHTH INSCRIBED LOAN.

Created for the purpose of raising a Loan under the authority of the Acts 48 Vic.  
No. 26 and 52 Vic. No. 16 :—

Capital amount of such Stock	...	£3,500,000.
Rate of interest thereon	... ..	3½ per cent. per annum, payable half-yearly.
Currency	... ..	Twenty-nine years.
Condition of redemption	... ..	Payment on maturity, at par.

I have, &c.,

F. KIRKPATRICK,

Acting Under Secretary for Finance and Trade.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

STATE OF CURRENT ACCOUNT IN LONDON.  
(RETURN SHOWING.)

*Ordered by the Legislative Assembly to be printed, 27 May, 1891.*

[Laid upon the Table of the House in answer to Question No. 7, Votes No. 5, 26 May, 1891.]

Questions.

(7.) LONDON ACCOUNT:—MR. GARVAN asked THE COLONIAL TREASURER,—

(1.) What money has been sent by the Government from Sydney to the credit of the London account from 1st January, 1870, to present date; giving particulars of date, and amount for each transaction?

(2.) Similar information with reference to money transmitted from London to Sydney?

Answers.

RETURN showing the money that has been sent by the Government from Sydney to the credit of the London Account, from 1st January, 1870, to 26th May, 1891; also the dates and amounts of each remittance.

## NEW SOUTH WALES.

## METROPOLITAN FIRE BRIGADES' BOARD.

(SEVENTH ANNUAL REPORT.)

Presented to Parliament, Pursuant to Act 47 Vic. No. 3, sec. 7.

The Chairman of The Fire Brigades' Board to The Colonial Secretary.

Sir, Head Quarters Fire Station, Castlereagh-street, Sydney, 3 March, 1891.

I have the honor, in pursuance of section 7 of "The Fire Brigades Act, 1884," to present the Report of my Board on the operations of the year 1890.

I have, &c.,  
CHARLES BOWN,  
Chairman.

## REPORT OF THE FIRE BRIGADES' BOARD FOR THE YEAR 1890.

In obedience to section 7 of the "Fire Brigades Act, 1884," the Fire Brigades' Board has the honor of presenting its Report for the year ending 31st December, 1890.

The seats held by the elective members of the Board became vacant, by effluxion of time, in the month of March,—the retiring members being Richard McCoy, Esq., J.P.; Alderman S. E. Lees, Esq., M.L.A.; Walter Church, Esq., J.P.; E. J. Love, Esq.; and William A. Gibb, Esq. The elections duly held to fill the vacancies resulted in the return of Alderman J. C. Beare, J.P., by the Municipal Council of the City of Sydney; Charles Hellmrich, Esq., J.P., by the other contributing Municipal Councils; Edward J. Love, Esq. (re-elected), by the Volunteer Fire Companies; Walter Church, Esq., J.P. (re-elected), by the Fire Insurance Companies having their head quarters in New South Wales; and M. W. S. Clarke, Esq., M.A., by the other Fire Insurance Companies doing business in the Colony.

Comparing the list of contributing Insurance Companies (*Vide Appendix I*) with that of the previous year a change will be observed in the omission of three Companies which have ceased business, and the addition of two contributors.

The amount held at risk in the metropolitan district is shown by the attested returns of the Insurance Companies to have been £57,148,388 on the 31st December, 1889,—an increase of no less than £3,565,388 upon that of the previous year—which, again was £3,054,632 in excess of the returns for December, 1887.

Appendix II gives a list of the municipalities contributing to the Board under the provisions of the Act. The total "assessed value" of their ratable property, according to the returns collected during the year 1889, upon which their contributions for 1890 were based, was £4,546,996, an increase of £127,703 over that of the previous assessment; the contributing municipalities remaining the same. During the year just passed, however, certain changes have taken place, which will affect the returns for the current year, to wit,—the extension of the Fire Brigades' Act to the municipalities of Granville and Kogarah; the amalgamation of the boroughs of St. Leonards, St. Leonards East, and Victoria, into the municipality of North Sydney; and the separation of Drummoyne from Five Dock. In other districts in the county of Cumberland movements are in progress to have the jurisdiction of the Board extended to them.

With the extension of its jurisdiction follows increased responsibility and necessity for extended provision for protection against fire; that responsibility the Board feels deeply, and has devoted the most careful consideration to the best methods of providing fire-protection, so far as the resources at its disposal will permit.

In the metropolis the erection of lofty buildings of great cubical capacity, frequently in narrow lanes and without proper precautions against fire, has continued unchecked, and the risk of disastrous conflagrations must increase in similar ratio. The Board has taken every opportunity in its annual reports and elsewhere to give earnest warnings to the authorities, and to the public generally, of the growing danger in that respect. Those warnings have unfortunately been severely emphasised during the past year by the occurrence of the most destructive fire that has yet been experienced in the Australian colonies. The fire referred to broke out on the 2nd October, in the premises of Messrs. Gibbs, Shallard, and Co., Hosking Place, and despite the efforts of the Metropolitan Fire Brigade, assisted by the Volunteer Companies, hampered as they were by narrow lanes, insufficient water supply, and high buildings erected without regard to the fire risk, the flames spread to Castlereagh, Moore, and Pitt Streets, and destroyed one of the most valuable blocks in the city, in which were some of the largest warehouses with most costly stocks. Among the buildings destroyed were,—that of Messrs. Gibbs, Shallard, & Co., Pomerooy Chambers,

with the large stock of the English and Australian Furnishing Co., the great wholesale warehouses of Messrs. Henry Bull & Co., Messrs. Feldheim, Gotthelf, & Co., Messrs. Lark, Sons, & Co., and others; the fine building of the City Bank was also involved in the widespread ruin; the Athenæum, the Gorman, and the Southern Clubs, together with large blocks of offices, were either completely burned out or severely damaged. Fortunately the efforts of the firemen, under the experienced direction of Superintendent Bear, prevented the fire from spreading across Moore-street, and the important block bounded by King, Pitt, Moore, and Castlereagh Streets was happily saved, though for some time it was in imminent danger. The firemen also succeeded in beating back the flames from a number of valuably stocked buildings in Pitt-street, though the back portions of the warehouses of Messrs. Newton, Bros., and other buildings, suffered considerable damage by fire, water, and falling walls.

Necessary precautions against fire.

It is reasonable to believe that if, in those valuable buildings, precautions against fire had been taken, such as the Board has faithfully and persistently asserted the necessity of—by means of iron shutters to windows, bricked-in lifts with iron doors, proper divisional walls, the prohibition of wooden bridges between buildings, &c.—the ravages of the flames might have been checked before they had spread over such a large area, and an immense amount of valuable property saved. Indeed the evidence at the official inquiry into the origin of the fire went to show that the flames spread from the upper story of Messrs. Gibbs, Shallard, & Co.'s premises, downwards, by way of the unprotected lift, and thus gained inextinguishable hold before the alarm was given. The Board has, also, unremittingly called attention to the necessity for an improvement in the water supply for the better protection of lofty buildings. The fire in question has conclusively shown that the Board did not do so without good reason.

Water supply.

Owing to the water-mains being placed less than two feet beneath the surface of the roadway, the pipes in Moore-street and Hosking Place, were broken by falling walls during the progress of the conflagration. The leakage thus caused greatly reduced the pressure in Castlereagh-street, and the firemen were thereby placed at a most improper disadvantage. A well-adjusted system of locks would have gone far towards preventing this, and the running of the water to waste, which lasted for days before it could be checked. The supply in Pitt-street was also inadequate to cope with a fire of such magnitude, the mains being much too small.

The fire was, fortunately, unattended by loss of life, but several firemen were severely injured by the collapse of the loosely bonded walls.

Cause of the fire's extension.

The following description of the premises occupied by Messrs. Henry Bull & Co. may help to explain how the fire extended so as to paralyse the firemen:—Originally there were two distinct warehouses, adjoining the City Bank, in Pitt-street. At the rear was a small court-yard, and at the east end was a bulk warehouse, opening on a lane leading to Hosking Place, on which was an iron shed for empty cases; it opened also to Moore-street at the rear of the City Bank. The warehouse immediately adjoining the Bank was then connected by galleries across the yard with the bulk warehouse; then openings were made between the two warehouses in Pitt-street; the rest of the court-yard was covered with floors, and a glass roof; thus making an unbroken risk from Pitt-street to Messrs. Lark, Sons, & Co.'s warehouse. But this was not all:—the shed for empty cases was removed to make way for a large warehouse of six stories, extending over the whole space from the bulk warehouse to Hosking Place, communicating throughout with every other part of the premises. There was thus no space for the firemen to act, and if, as it happened, the fire should extend from Gibbs, Shallard, & Co.'s premises to those of Messrs. Henry Bull & Co., there was no possibility of fighting it. The Board is of opinion that in this case the constant alterations that took place in covering the fire breaks, without the slightest let or hindrance on the part of the authorities, and practically establishing a gigantic flue communicating with Moore and Pitt Streets, and Hosking Place, pierced in several places with well-holes and lifts, is mainly responsible for a large part of the loss which took place on that occasion.

An unbroken risk.

Inquest.

By the courtesy of the Honorable the Minister of Justice, at the request of the Board, the scope of the inquest held by the City Coroner into the origin of the fire was widened as much as possible, so as to place emphatically before the public important facts concerning the necessity of fire precautions being taken in the erection of buildings in the city. The evidence taken at the inquiry has been printed by order of the Legislative Assembly, and the Board desires to commend, to all interested in city property, a careful study of the lessons it contains, especially the evidence given by the Superintendent of Fire Brigades, whose practical experience makes it particularly valuable. The inquiry extended over several days, and, though it did not effect the discovery of the actual means whereby the fire originated, was, nevertheless, not without good results, for many facts of vital importance to the safety of the lives and property of the general public were impressively brought before them, and must tend to good results in future. The jury returned an open verdict as to the cause of fire, but added three emphatic riders that forcibly support the views this Board has strongly and frequently urged, to which, therefore, it has the honor to call special attention in this place. The riders were:—

Verdict with emphatic riders.

“Rider I.

“The Jury suggest that an Act be at once brought into force in the City of Sydney—

- “1. That no large buildings be erected in any lane, place, or narrow street, in this city, without all side windows being protected, inside and outside, with iron shutters; and, in addition, all such large buildings be provided with fire-proof floors and iron shut-down doors.
- “2. That all bridges over any public or private roadway in the city, connecting buildings, be prohibited.
- “3. That partitions composed of lath and plaster, wood, or any other inflammable material in public buildings be strictly prohibited; and
- “4. That all lifts be enclosed with brickwork, and have iron shut-down doors to each floor.”

Rider II.—*Re Water Supply.*

“During the progress of the fire we find that the water supply was sufficient, but the mains in Pitt-street being only 4-inch they were not able to cope with it (the fire), as only one jet was obtainable to feed 1-inch nozzle between King and Hunter Streets, from each of the 4-in. mains.”

“We suggest that the 4-in. mains in Pitt-street, and all 3-in. and 4-in. mains in the city, be at once replaced with one 6-in. and one 9-in. main; also, all dead ends to be done away with.”

*Rider*

*Rider III.—Re Telegraph Wires.*

"That the attention of the Superintendent of Telegraphs be drawn to the dangerous manner (to life and property), in which telegraph wires are erected in the city, as they prohibit the use of salvage ladders and life-saving appliances in the case of fire. We also suggest that all wires be placed underground, as done in London and other large cities, &c."

The Board is of opinion that if the recommendations of the jury be carried out, an immeasurable loss both of life and property, that otherwise appears inevitable, may be prevented.

The height of the telegraph wires in the principal streets of Sydney is an element of danger which, at any moment, may have serious results; a fact which is made sufficiently obvious by the statement that in the fire above referred to the wires prevented the large fire ladders from touching the buildings, and rendered them useless for saving life or property.

Danger by telegraph wires.

Unless action be speedily taken to supply the want of a proper Building Act, and to empower the Board to prevent the erection of buildings which are so many dangerous fire-traps, a repetition, from time to time, of widespread and destructive fires must be expected. In the proposed Bill to amend the "Fire Brigades Act, 1884," submitted in the fifth annual report of this Department (*Vide* page 36, section 30), provision is made for conferring such powers, as in the public interest are urgently required; but up to the present, though every opportunity has been taken to press for action in this most important matter, the representations have remained without effect.

Necessity for a Building Act.

The Board has again to point out that, if it is expected to do its best in the way of prevention of fire, it must be furnished with power to prohibit the erection of structures which are dangerous to life and property when on fire, and the alterations which go on day by day, whereby what looks from the outside a fire-proof structure is turned into a hidden mine of destruction for itself and the neighbourhood. It is not possible for the City Council to act without receipt of information, and this information cannot be supplied without invidiousness to the informer.

The hourly notifications which are made to the Insurance Companies of apparently trivial alterations which are really of vital moment to the existence of large blocks of the city, if not of the city itself, are proofs that the City Council cannot be aware of what is going on, or if aware cannot prevent it. In some cities more than a certain cubical capacity is absolutely prohibited; and certainly no alteration should be permitted to any building, without public notification and permission. As it is only with reference to hazards from fire that such a law need be strictly acted upon, it is evident that the Fire Brigades' Board should have the power of dealing promptly with the cases as they arise.

Warehouses as now constructed are frequently little better than overgrown fireplaces, with chimneys in the shape of lift-shafts, and generally with a large central opening from cellar to roof, the floors being nothing more than wooden rings surrounding the central space; on these are piled heaps of merchandise which yearly becomes more combustible as chemical science progresses.

Take for example the substance known as celluloid, from which all kinds of articles are made,—combs, billiard-balls, tablets, shirt collars, &c. This is made from gun-cotton, with finely divided tissue paper and camphor gum, treated with sulphuric and nitric acids, and also with carbon bisulphide and mineral naphtha. The application of a match to one of these articles causes a blaze only extinguishable with great difficulty. The most innately combustible substances are now used extensively for all manufactures; and it might be that a building stored with admittedly combustible substances is not more dangerous than a seemingly harmless soft-goods or fancy-goods warehouse.

Increased danger in modern manufactures.

It is certainly a nice question to determine whether or how far a man has a right to imperil his neighbour; but this question never seems to trouble this community, as witness such things as saw-mills, &c., in the centres of some of the city blocks.

With reference to the water supply in the city this Department has been in frequent communication with the Water and Sewerage Department, and delegates from the two Boards have also held a conference during the year, with a view to arrive at a joint understanding. Though much still remains to be done to improve the supply of water for extinguishing fires, the Fire Brigades' Board has pleasure in testifying to the efforts being made by the Board of Water Supply and Sewerage to carry out much required improvements.

Board of Water Supply.

The year 1890 was again marked deeply in the fire annals, by another extraordinarily destructive outbreak on the 2nd December. This occurred at the kerosene bond, Messrs. Gibbs, Bright, & Co.'s wharf, Miller's Point. This was of wood, and adjoined one of the wooden jetties. Stored in the bond, which stood in dangerous proximity to a thickly populated portion of the city, were 176,000 gallons of kerosene oil. The oil became ignited, by some unexplained means, and the blazing liquid, floating on the surface of the harbour water, set alight to the jetties and wharfs, from which the vessels were hastily removed. The bond was destroyed, together with some valuable stacks of Baltic timber, and other property, and the wharfs in the vicinity more or less seriously damaged. The efforts of the Fire Brigades, who with all available engines, hose, and other appliances, were speedily at the scene of disaster, prevented the flames from spreading to the neighbouring wine and spirit bond, and thence probably sweeping the whole of Miller's Point; a calamity which for some critical minutes it was feared it would be impossible to avert.

Destructive fire at kerosene bond, Miller's Point.

Special attention is here directed to this fire, because of the repeated pressure of this Board for legislation to control the storage of large quantities of inflammable oils, explosives, &c., in the vicinity of other buildings. The Board has now recommitted for consideration the proposed Amended Act to place restrictions on the storage and sale of kerosene, &c.

Necessity for control of storage of inflammable oils, &c.

From the *Post Magazine* of London, 15th November, 1890, it appears that the attention of the London Council has been directed to the inadequacy of the present law relating to the storage and use of inflammable liquids. Public attention has been directed to this question by recent important fires in London, in which petroleum was involved. Amongst these may be mentioned the fire on the Metropolitan Railway, in Farringdon Road, and the fire at Cloth Fair City, at which several lives were lost. Both these fires were caused by the ignition of the highly inflammable vapour from petroleum spirit, and there have been many other serious fires from petroleum. The question of the amendment and extension of the Petroleum Act has been under the consideration of the Government for many years, but nothing has been done, though the necessity for controlling and regulating the storage of these dangerous liquids is generally admitted. In these circumstances the Council is pressing upon the Government the urgent necessity for bringing forward a measure, on the meeting of Parliament, adequate to protect London from the danger to which it is now constantly exposed.

Nothing

Nothing need be altered in the foregoing paragraph to make it apply to the City of Sydney. The Fire Brigades' Board, in 1888, spent considerable time over the question, but for some reason or other their efforts were in vain. The present Act is simply a fraud. The testing provided by the Act is of the most primitive description. There is not the least difficulty under it of allowing all the rubbish of other countries to be imported, nor are there any means of regulating the storage of mineral oils either in bulk or in smaller quantities.

**Explosives' Act.** The Gunpowder and Explosives Act is another instance of a Bill, perhaps properly drafted in the first instance, being rendered useless by the insertion of a few words. It occurred to an amender to make a distinction between "explosives" and "explosive substances"—each being carefully defined—but the wording of the subsequent clauses was not altered. The result is that "explosive substances" cannot be dealt with by law!

**Metropolitan Fire Brigade.** The Metropolitan Fire Brigade is in an admirable state of discipline and efficiency, is well officered, and can turn out, fully equipped, with steam fire-engine, &c., &c., in considerably less than half a minute. The complement of firemen of all ranks in the Brigade is 34, but the number must be increased when the northern fire station is erected. During the year the Brigade turned out to 331 calls. A list of the fires attended is supplied in a return on pages 12 to 23, with particulars of the destruction of property.

**Volunteer Fire Companies.** The Volunteer Fire Companies within the Board's jurisdiction are, generally, in a good state of efficiency, and under command of the Superintendent of Fire Brigades, have rendered effective service to the permanent Brigade at large fires, besides extinguishing small fires in their own localities, and checking their spread before they had time to make headway. On the occasion of the great fire on 2nd October, the city and suburban volunteers came in, to the number of some 130 men, and rendered valuable service. Most of the volunteer companies turned out to all the larger fires in the city; and those whose stations are nearest the city boundary, also attended numerous less serious fires. The Companies have, during the year, been subsidised by the Board to the extent of £2,066; besides which considerable sums have been devoted to their equipment with fire-extinguishing appliances, horses, &c. The Board has allotted to them different districts, within which the local Companies are to act. Further particulars concerning these Companies are given elsewhere.

**Newtown Fire Station.** By the gift of the Honorable the Colonial Secretary, at the solicitation of this Board, the old watch-house at Newtown Bridge was occupied as a fire-station in the month of July, after considerable outlay by the Board to fit it for the head-quarters of the Newtown Volunteer Fire Company. A few months afterwards, however, the Board received notice that the site was required by the Railway Department, and must be vacated by the 10th November, 1890; and Newtown was, thus, left without adequate protection against fire. This caused the Board much anxiety, and the deepest consideration has been given to the subject of providing a station for that important suburb. A committee of the Board, and the Superintendent of Fire Brigades, have personally visited and reported on various sites, with a view to secure one which would serve both Newtown and the adjoining suburb of Camperdown. The Board trusts that, in consideration of the circumstances under which the site of the Newtown Fire Station was resumed at such brief notice for the Railway Commissioners, and the stultified expenditure thereupon, it may confidently look to the Government for assistance to repair the loss which has placed that populous district at so great a disadvantage.

**Telephone Fire alarm system.** The Telephone Fire-alarm system has worked admirably, and has proved of the utmost importance as a rapid means of giving alarm, in a matter where speed is one of the most necessary conditions for success. The system has therefore been greatly extended. Telephone Fire-alarm Boxes, connected directly with one or other of the Fire Stations, have been multiplied throughout the city, placed in the most important centres, and extended to suburban districts. One has been placed as far away as Lackey-street, Summer Hill, and the telephone has been pushed out to the Ashfield Volunteer Fire Station; connections have also been made with the University, the Police Station at Cook's River, the Council Chambers at Randwick, and in other directions. In the last-mentioned suburb a reel has been placed, with the requisite gear, a shed erected to house them, and telephone connection effected with the Waverley Fire Station; which, in common with other Volunteer Stations, has telephone communication with the other stations in its district (the eastern suburbs), and with head-quarters.

**Fire Station to protect north end of city.** The long promised fire station to protect the wharfs and valuable stores at the northern end of the city has not yet been built, but the Board is pleased to notice that on the 17th December, 1890, the Legislative Assembly voted a sum of money for its erection. The site granted for the station is a most suitable one for the purpose, being near Queen's Wharf, and fronting George-street and a proposed new street. That a northern station is urgently required cannot be doubted; but if proof were required, the fire at Messrs. Gibbs, Bright, & Co.'s wharf, on 2nd December, certainly has demonstrated it. In that quarter of the city are numerous warehouses and bonds, stocked with valuable and frequently inflammable goods; and the shipping, wharfs, and accompanying sheds, characteristic of that portion of the metropolis, present elements of danger which call for special measures to prevent other great disasters in time to come. How unexpectedly the danger may at any moment be increased is testified to by the uneasiness manifested by property-owners, Insurance Companies, and the Police Department, during the recent great strike in the shipping trades. Acting in the best interests of the public, the Board caused a temporary station to be at once erected on the site granted by the Government. This was occupied on 19th September, by a complement of men, with a powerful steam fire-engine and a complete fire extinguishing equipment, and has since remained so occupied. The engine from it was the first to reach the two great fires above mentioned; both occurring in localities nearer to that station than to any other. On its erection it was immediately connected by telephone with head-quarters, and with various fire alarms placed in carefully chosen localities. This temporary station is at present worked by reliefs from Head-quarters and No. 2 Station, Metropolitan Fire Brigade; but the extra duty entailed is found to be very severe upon the limited number of members of the Brigade, even though volunteer assistance has been utilised as much as possible. The Board therefore desires to express the hope that the work of erecting the permanent station may be proceeded with as rapidly as possible; in order that the members of the Brigade may be relieved of the present undue strain, that accommodation may be provided for a more adequate number of firemen, and that a most important quarter of the city may have suitable protection.

**Powerful fire-engine.** Early in the year the Board, foreseeing that the present reckless custom of building, as aforesaid, must result in disaster, and feeling that the water pressure was altogether inadequate for the height of the premises if a conflagration occurred, decided, upon the advice of the Superintendent of Fire Brigades, to obtain

obtain a more powerful engine than any at present in its possession. Tenders were invited, and that of Messrs. Shand, Mason, and Co., of London, was accepted. This engine is being constructed to specifications drawn up by Superintendent Bear; it will be fitted with many improvements, and when complete will be the most powerful land steam fire-engine extant. It is expected to arrive in June, and will no doubt prove an efficient auxiliary in fighting large fires.

The Board regrets having to record that in July suspicions, which proved to be too well founded, were aroused concerning the integrity of its late Secretary—William Ager. Before inquiry could be made he had disappeared, and although detectives were at once put upon his track, all efforts have, as yet, failed to capture him. A special audit instituted by the Board revealed defalcations in his accounts amounting to £822, of which the sum of £500 was recovered from the Victoria Insurance Company (Limited), in which office a fidelity guarantee insurance had been effected. The vacancy was thrown open for public competition, and a large number of applications were received, out of which the Board's selection fell upon Mr. Z. Collis Barry, who has high testimonials. Secretary.

In compiling the estimates for the current year the most careful economy has been exercised. The income of the previous year was £11,325, and, notwithstanding extended jurisdiction causing necessity for increased expenditure, the estimates for 1891 only amount to £11,400. Since the adoption of the estimates, however, the two unusually large fires mentioned above occurred; and the consequent expenses, besides the necessity of replacing several hundred pounds worth of hose, which was destroyed by falling walls, made an unexpectedly large drain upon the Board's resources. Estimates

The question of electric lighting, daily becoming of more importance, should receive prompt attention at the hands of the Government. There are daily accidents in those cities which have adopted it, principally caused by bad materials, ignorance in fixing or installation, and laxity in supervision during erection. From the difficulty of discovering defects in the fittings of electric as well as gas lighting, it seems to be essential that regulations should be made that all parts should, as much as possible, be exposed to view, as is the case in the city of New York, as well as general regulations for safety of the public. If buildings were properly constructed, and gas fittings correctly fixed, it should be an impossibility for an apartment to be wrecked by a collection of gas therein. There have been several instances of the destruction of strong rooms owing to the absence of ventilation, although gas was adopted for lighting purposes. Surely architects and others should know better. The London authorities seem to be as slow as those at Sydney as regards protecting the public from the dangers of electric lighting, and at both places the only check is by regulations emanating from Insurance Companies; but this can never be a satisfactory method for the general public, as there may be hundreds of cases where this supervision cannot be called in. Electric lighting.

The Board cannot conclude without drawing attention to a serious fire in London during the year 1890, which occurred in the premises of Rowley and Brock, helmet and hat makers.—Though by the Petroleum Act 3 gallons of naphtha are allowed it was proved that no less than 25 gallons were brought in every week. By this fire eight persons lost their lives. It was pointed out at the inquest on the fire, that not only were the efforts of the firemen neutralised in saving the lives of the workpeople, but that they were themselves in danger of losing their own, owing to the suffocating nature of the fumes. Necessity for a complete Petroleum Act

This example shows the necessity of a full and complete Petroleum Act and trustworthy and vigilant officials to carry it out. The Board suggests that, as to it is entrusted the protection from fire of the inhabitants and property of the County of Cumberland, it should be armed with better powers than are given by the Act under which it exists. It would seem as if it were of vital importance that it should be *en rapport* with other Boards and Departments dealing with matters closely connected with fire hazards and means of extinguishing fire; and it should be an impossibility for a Chinaman to be able, with correctness, to inform the Superintendent that he has no power to order him to remove a single piece of wood in those admittedly dangerous nuisances, the Chinese carpenters' yards and shops—or, for that matter, for anyone else to be able to do so. Bosses' powers should be increased.

It has always been held unwise to lock the stable door after the steed is stolen, but no less foolish is it to expect that the Fire Department can overtake culpable neglect caused by defective Acts relating to building, &c., or violations of them, or neglect of carrying them into operation.

In conclusion, the Board trusts that the many occasions upon which the services of the Department have been called into requisition, as witnessed by the appended statements in this report, have proved that splendid service has been rendered by the Superintendent and the Brigade, and the Volunteer Firemen acting in conjunction with them. Service rendered.

In the appended report of the Superintendent of Fire Brigades, and in various tabulated statements also supplied, details are given to which attention is invited.

CHARLES BOWN,  
Chairman.

Head Quarters Fire Station,  
Sydney, 2nd March, 1891.

## APPENDIX VII.

Mr. Superintendent Bear's Report.

Metropolitan Fire Brigade Head Quarters Station,  
Sydney, 16 February, 1891.To the Fire Brigades' Board,  
Gentlemen,

I do myself the honor to submit to your Board, herewith, my Seventh Annual Report of the working and general efficiency of your Brigade and the several Volunteer Fire Companies, together with the details of fires attended in the City and Suburbs of Sydney for the year ending the 31st December 1890.

The total number of alarms received for fires or supposed fires was 298; of these, 44 were false alarms; 19 proved to be only chimney alarms, and 235 were actual fires. Of the actual fires 205 were slight or trifling, 12 were serious, and 18 resulted in total destruction. Of the 235 actual fires, 144 were insured, 33 not insured, and in 53 instances insurances on the buildings or contents could not be ascertained. In addition to the ordinary fires there have been 33 chimney fires requiring the attendance of firemen with hand pumps only, and 2 casualties, in which life was lost or endangered, but in which no damage was done to buildings or their contents,—making an aggregate total of 333 calls for fires, false alarms, chimney fires, and casualties.

The fires of 1890, as compared with those of 1889, show an increase of 10; in the chimney fires attended with engines, an increase of 5; and those attended by firemen with hand-pumps, an increase of 2.

In the fires which were slight there has been an increase of 26; in serious, a decrease of 5; and in fires which resulted in total destruction, a decrease of 11. Among the buildings totally destroyed are classed shed buildings, weather-board cottages, &c. Attached are detailed statements of the various fires attended by the Brigade and the Volunteer Fire Companies, as well as those unattended, but which have been reported to the Brigade from various sources, and a member of the Brigade has been sent to obtain the necessary particulars. The various summaries appended show the particular dates, times of call, times of outbreak, trades, localities, insurances, hourly and daily, weekly and monthly. There is also appended a summary of the "Supposed origin of Fires" for the year.

Referring to the summary of localities it will be noticed that in the city of Sydney alone there were 188 calls, 113 of which were for actual fires, 29 were false alarms, 16 were chimney-fires, reported as houses on fire, and 30 were chimney fires attended by firemen with hand-pumps only.

Of the actual fires in the city there were in Cook Ward, 22; Brisbane Ward, 19; Denison Ward, 17; Macquarie Ward, 16; Gipps Ward, 12; Fitzroy and Phillip Wards, 10 each; and Bourke Ward, 7.

In the suburbs there were 143 calls, of which 122 were for actual fires, 15 were false alarms, 3 were for chimney fires reported as houses on fire, 3 were for chimney fires which were attended by firemen with hand-pump only. The suburbs affected in regard to actual fires only were as follows, viz.—Glebe, 13; Balmain, Paddington, Petersham, and Redfern, 11 each; Manly, 8; Waterloo, and ships in the harbour, 7 each; Marrickville, 6; Ashfield, Newtown, and Waverley, 5 each; Leichhardt, 4; Parramatta and Woollahra, 3 each; Granville, Macdonaldtown, and St. Leonards, 2 each; Alexandria, Camperdown, Canterbury, Darlingtown, Randwick, and St. Peters, 1 each.

In summarising the trades, it will be observed that private dwellings have been mostly affected by fires, the number for all classes of damage being 84; but taking the actual trades into consideration, the most notable stand in the following order, viz.—Licensed victuallers, 15; stables, 9; boarding-houses, Government buildings, railways, &c., ships, printers, stationery and fancy goods dealers, 7 each; grocers, 6; fruiterers and green grocers, and ironfounders, 5 each. Drapers, milliners, and dress-makers, 4 each; boot makers and boot factories, cabinet makers, commission agents, and produce merchants, plumbers and gasfitters, storekeepers and stores, timber merchants and saw-mills, tobacconists, 3 each; bakers, butchers, buildings in course of erection, confectioners, emery cloth makers, general dealers, open yards, restaurants, saddle and harness makers, 2 each; other trades affected, 1 each. These are to be found in the "Summary of Trades."

The strength of the Brigade is as follows, viz., 1 large steam fire engine, 5 small steam fire engines, 1 7-inch manual engine, 4 6-inch manual engines, 6 under 6-inch manual engines, 3 telescope ladders, 1 ladder van, 1 hose van, 5 hose reels, 14,979 feet of 2½ inch hose, most of which is in good condition, 12 horses, 43 telephones erected, 6 telephone switch boards, 47 fire alarm telephones (erected), 34 firemen, including Superintendent, Principal Foreman, and coachmen.

The under-mentioned Volunteer Fire Companies hold plant on loan from your Board, viz., Alexandria, Ashfield, Burwood, Leichhardt, Manly, St. Leonards, Waverley, North City, Standard Brewery. Five Volunteer Fire Stations are also invested in the hands of your Board.

A hose reel and plant has been stationed at the Randwick Council Chambers during the past year. The North City and Standard Brewery Volunteer Fire Companies being supplied with our own hose and now running with horses, have proved a very great assistance to the Brigade.

The following comprise the Volunteer Fire Companies within your Board's jurisdiction, viz., Alexandria, subsidised by your Board £100; Ashfield, £100; Balmain (two stations), £200; Burwood, £100; Darlingtown, not subsidised for 1890; Glebe, £150; Leichhardt, £50; Manly, £75; Newtown, £175; North City, £100; Paddington, £150; Paddington Brewery, £100; Parramatta No. 1, £85; Parramatta No. 2, £85; St. Leonards (two stations), £200; Standard Brewery, £68 15s; Waterloo, £100; Waverley, £90; Woollahra, £150; total amount paid to Volunteer Fire Companies for the year, £2,066. Irrespective of the subsidies, new plant and extension of telephone communication has been granted to Suburban Volunteer Fire Companies during the past year. The approximate value of the whole of your Board's stations and plant is £49,782.

The undermentioned are the whole of the members of the Metropolitan Fire Brigade:—

Name.	Rank.	Date of Appointment.	Where stationed.
William Douglas Bear .....	Superintendent of Fire Brigades and Inspector of Kerosene.	Under Government, May, 1884.	No. 1, Head-quarters Station.

John Cannell.....	do .....	13 Oct., 1890....	do

During the year telephonic communication has been established between the University and No. 2 Station; also between Ashfield and No. 3 Station; and between Randwick and Head Quarters Station, *via* Waverley and Woollahra Stations. A 30-shutter switch-board has been fitted up in No. 2 Station; an extra 10-shutter switch-board has been fitted up in No. 3 Station, making a total of sixteen shutters at that station.

A 6-shutter switch board was fitted up at the Woollahra Volunteer Fire Company's Station, in anticipation of fire alarms being erected hereafter.

Arrangements have been made with the Telegraph Authorities to connect the Police Station at Cook's River with No. 3 station, Marrickville, and three fire alarms in Harris-street, Pyrmont, with No. 2 station, George-street West.

Additional telephone fire alarms were erected during the year, making a total of 47, as under:—

## TELEPHONE FIRE ALARMS.

No.	Fire Station to which the Box is connected	Position of Alarm.
1	Head Quarters M.F.B., Castlereagh-street .....	Corner of George and Park Streets.

45	" " " " .....	" George-street West and Newtown Road.
46	" " " " .....	" Regent and Cleveland Streets.
47	" " " " .....	" Redfern and Botany Streets, Redfern.

All the Volunteer Fire Stations, with the exception of Burwood and Parramatta, all theatres and music halls, the Government Printing Office, the Railway Department, the Town Hall, and Messrs Hoffmann & Co., are in direct communication with our three permanent Fire Stations. The police stations are also connected through the Central Police Station. The various wharfs, warehouses, business houses, and many public buildings are also in telephone communication by means of the General Post Office Exchange, which is open to receive and transmit calls for fires at any hour of the day and night, and arrangements have been made by which the watchmen employed by the principal business houses report through to Head Quarters Station several times during the night.

On the 19th of September a temporary northern fire station was erected on the Government land situated alongside of the site granted for the permanent station, and was supplied with a 50-shutter board; 13 telephone fire alarms were also erected around this station. A steam fire engine and a few men are in constant attendance day and night, but I may here state that the men having to do the three watches from the other three stations brings a great strain on the whole staff, and I am afraid I shall have to ask your Board for more men before the permanent station is erected. To relieve the men as much as possible, part of the tower duty has been done by two of the Paddington Brewery Volunteer firemen each night, at a cost of 8s. a night of eight hours. Two young men are also in attendance each night at the No. 2 and Northern stations from 10 p.m. to 6 a.m., and on Saturday night from 8 p.m. to 6 a.m. to assist with the telephone communication and to take charge of each station and keep up the communication in case of a fire, thereby giving us the assistance of two extra members of the M.F.B. at a fire.

During the past year many very high buildings have been erected throughout the city without any regard having been paid to the distance between them and other buildings. I must again repeat what I have stated in previous annual reports that if this recklessness of building continues without any protection by means of iron shutters we must expect very large fires, as was the case on the 2nd October, when about £50,000 worth of property was destroyed merely for the want of iron shutters on the buildings on either side of the street.

The Water and Sewerage Board has made great improvements in the water reticulation during the year, both in the city and suburbs, especially so in the city since the late large fire, by putting down large mains, but I trust they will continue to do away with the 3-inch and 4-inch mains in the principal thoroughfares, and where large buildings exist. About 400 screw-down hydrants have been fixed about the city, and a large number of the old-fashioned fire-plugs have been done away with and ball hydrants substituted in their place, both in the city and suburbs.

Through your Board I desire to thank the whole of the officers and members of the Volunteer Fire Companies for their valuable co-operation and assistance during the past year, especially so at the fires which occurred on the 2nd October and the 2nd December.

I have also to express my obligations to the officers and members of the police force, the city taracocks, and the citizens in general for their valuable co-operation.

The condition of the Brigade with regard to discipline and general efficiency is very satisfactory; although the duties are becoming rather heavy for such a small body of men they are cheerfully carried out. I take this opportunity of offering your Board my sincere acknowledgment for the great support it has given me on all occasions.

I have, &c.,

WILLIAM D. BEAR,  
Superintendent of Fire Brigades, and Inspector of Kerosene.

APPENDIX VIII.

List and Details of Fires attended by, or reported to, the Metropolitan Fire Brigade, or Volunteer Fire Companies, for the Year ending December, 1890, Sydney, New South Wales.

Date	When discovered	Time of Call.	Locality.	Name of Tenant.	How Premises occupied.	Construction of Premises.	Origin or supposed cause of Fire	Insurance		Extent of Damage, &c.	Extinguished by

## NEW SOUTH WALES.

**FIRE BRIGADES ACT, 1884.**

(GOULBURN FIRE BRIGADES BOARD—FIFTH ANNUAL REPORT.)

Presented to Parliament pursuant to Act 47 Vic. No. 3, sec. 7.

The Chairman of the Goulburn Fire Brigades Board to The Colonial Secretary.

Sir,

Goulburn, 9 February, 1891.

We have the honor to present you with the fifth Annual Report of the Goulburn Fire Brigade's Board.

We have pleasure in informing you that the new fire-station, in course of erection in Montague-street, on land the property of the Government, is now on the eve of completion.

We beg to inform you that this Board, in common with the other country Boards, is still without legal power to enforce payment of the contributions due by the insurance companies. Most of these bodies have, however, paid your Board certain specified contributions, but have guarded themselves against admitting any legal liability. Other companies have failed to pay any contribution whatever. Your Board venture to express the hope that an amending Fire Brigades Act may be passed by the Legislature early next session.

The Brigade numbers 27, all of the members being thoroughly efficient.

One fire only has occurred during the year, viz., at Denny's hay and corn store, the damage being estimated at about £100, and covered by insurance.

The Board have held 14 meetings during the year, which have been attended as follows, viz.:—Mr. Betts (chairman), 13; Mr. Riley, 14; Mr. Ball (Mayor), 10.

We beg to enclose herewith a statement, showing the Board's receipts and payments for 1890.

We have, &amp;c.,

A. M. BETTS, Chairman.  
R. T. BALL, Mayor.  
W. R. RILEY.

STATEMENT of Receipts and Payments by the Goulburn Fire Brigades Board, for the year ending 31st December, 1890.

37. Concluding Remarks .. .. .	47

## ANNUAL REPORT.

---

Department of Charitable Institutions,  
New South Wales, Sydney, May 1, 1891.

The Director of Government Asylums and Boarding-out Officer to The  
Principal Under Secretary.

Sir,

I have the honor to present, for the information of the Honorable the Colonial Secretary, a statement of the operations of the Department of Charitable Institutions for the year ended December 31, 1890, together with occasional references to the work of the previous year for the purposes of comparison.

My appointment as Director of Government Asylums and Boarding-out Officer dates from August 1, 1888, but previously, under the State Children's Relief Board, I directed the administration of the other principal division of the Department, namely, the State Children's Relief Branch, since August 1, 1878. This brief explanation is necessary in order that the report which follows may be made clear. Previous to August 1, 1888, the Asylums for Infirm and Destitute were under the control of a Manager of Asylums; and special investigations into all institutions wholly or partially subsidised from State funds were conducted by an Inspector of Public Charities. On that date, however, under the policy of reorganization adopted by Parliament upon the recommendation of the Colonial Secretary, those two offices were abolished; a new office, designated "Director of Government Asylums and Boarding-out Officer" was created; and, as reorganised, the Department of Charitable Institutions, as its work during the period under notice discloses, now includes the control of—

### SECTION I.

1. The Government Asylums for Infirm and Destitute Men and Women at Liverpool, Parramatta, and Newington.
2. The Boys' Cottage at George-street Asylum.
3. Cottage Homes (almshouses) for Destitute, Aged, and Infirm Married Couples.
4. Admissions into the abovenamed Institutions.

### SECTION II.

1. Subsidy claims of Hospitals, Benevolent Societies, and other Institutions partly supported by the State, when special inquiries are necessary.
2. Investigations (when directed by the Colonial Secretary) into the management of all Institutions, wholly or partly supported from the Consolidated Revenue.
3. Admissions into the Sydney Benevolent Asylum and other Institutions of inmates wholly supported by the Government.

SECTION

## SECTION III.

1. Distribution of relief to the Unemployed, and investigations into the same, when directed by the Colonial Secretary.

## SECTION IV (UNDER THE CONTROL OF THE STATE CHILDREN'S RELIEF BOARD).

1. State Children's Relief Department for boarded-out, apprenticed, and adopted children.
2. Cottage Hospitals for invalid children at Parramatta and Mittagong.

The Industrial and Reformatory Schools continue to be controlled by separate agencies—the former, under Act 30 Vic. No. 2, by the Minister of Public Instruction; and the Reformatory for Girls at Shaftesbury under Act 30 Vic., No. 4, by the Minister of Justice. It is therefore not part of my duty to report upon those institutions unless under special direction, except in regard to children selected from them for boarding out. The Government Asylums for Infirm and Destitute are not governed by legislative enactment, but the State Children's Relief Department is administered under Act 44 Vic., No. 24. The President of that Department (the Hon. Arthur Renwick, M.D., M.L.C.) reports annually to Parliament upon its operations; but no report has been forwarded to the Colonial Secretary on the management of the Government Asylums since the year 1855; and before resuming the yearly statements, I considered it would be well to permit an annual period to elapse subsequent to reforms which had been introduced tentatively under the new system of management, in order that their operation should be thoroughly tested. The results thus far have been highly satisfactory, and after dealing with them in detail, I think it will not be out of place to respectfully submit one or two suggestions for the Colonial Secretary's consideration, with a view to legislation for the more effective management of the institutions referred to under section I.

## ASYLUMS FOR INFIRM AND DESTITUTE.

The following table shows the number of inmates sheltered and under treatment in the Government Asylums for Infirm and Destitute during the year 1890:—

Institutions	In Institutions, 1 January, 1890		Admitted during 1890.		Discharged during 1890.		Died during 1890.		In Institutions on 31 December, 1890.		
	Men.	Women.	Men.	Women.	Men.	Women.	Men.	Women.	Men.	Women.	Total.
Liverpool .....	799	...	757	..	592	...	175	...	789	...	749
George-st., Parramatta ..	770	...	1,328	..	1,055	..	176	...	867	...	867
Macquarie-st., do ...	283	...	411	...	303	...	43	...	238	...	288
Newington .....	28	422	60	384	56	290	...	86	32	430	462
Cottage Homes, Parra- matta .....	18	21	4	19	3	17	...	...	19	23	42
Total .....	1,898	443	2,560	493	2,009	307	394	86	1,895	453	2,448

There has been a total increase of 107 in the admissions, but the difference has really arisen in connection with the Hospitals, to which just 100 patients were sent from the public infirmaries in excess of the number received in 1889, so that the increase in the general divisions of the four institutions was only 7. The admissions at Newington Asylum include both men and women. It is necessary to explain that from 36 to 40 old men are now generally employed at that establishment on the farm, dairy, piggeries, and in erecting and repairing buildings. They are completely isolated from the female division, and are under the direction of a careful attendant. There has been a decrease of 10 in the number of inmates at Liverpool, an increase

increase of 5 at Macquarie-street, of 12 at Newington, 97 at George-street, and 3 at the Cottage Homes for Aged Destitute Married Couples.

The next table indicates the average number of patients in the Asylum Hospitals during 1889 and 1890, and the ratio of increase in those divisions at each Institution :—

Asylum.	1889.	1890.	Increase.
Liverpool ... ..	306	312	6
George-street, Parramatta ... ..	294	364	70
Macquarie-street, Parramatta ... ..	151*	167*	16
Newington ... ..	137	145	8
	888	988	100

\* These figures include ophthalmic cases.

or an increase of 11.26 per cent.

OPHTHALMIC Cases treated in the Asylum, Macquarie-street, Parramatta, during 1890.

Trichiasis ... ..	13
Granular Ophthalmia ... ..	51
Xerophthalmia ... ..	5
Nebula ... ..	18
Nyctalopia ... ..	2
Conjunctivitis ... ..	50
Glaucoma ... ..	11
Cataract ... ..	33
Optic Atrophy ... ..	15
Hypermetropia ... ..	2
Choroiditis ... ..	8
Aphakia ... ..	13
Irido-cyclitis ... ..	1
Excision ... ..	2
Iritis ... ..	5
Neuritis ... ..	1
Lost eye ... ..	8
Ectropion ... ..	1
Presbyopia ... ..	1
Keratitis ... ..	1
Pterygium ... ..	1
Diplopia ... ..	1
Pannus ... ..	1
Leucoma ... ..	4
Ulcers ... ..	1
Entropion ... ..	2
Total ... ..	251

In addition to these, 139 less important ophthalmic cases were treated at George-street Asylum.

Both tables, in conjunction with the statistics of 1885 (the period of the last published report of the late Manager of Asylums) indicate that the constitution of these institutions has almost entirely changed during the past five years. They were first established solely for aged and destitute persons—that is, for those dependent classes of the community who, while not actively suffering from disease, had in consequence of old age or other causes become too infirm to earn a livelihood, and merely required comfortable refuges in their latter days. For example, in the year 1885 there were 1,280 in the general divisions of the asylums, and only 448 in the hospitals; but in 1890, the general wards contained 1,515 persons, and the hospitals 988. Thus, while there had been an increase of 235 persons, or 18.36 per cent., in the class properly designated “infirm and destitute,” the hospital patients had increased by the large number of 540, or 120 per cent., or a total increase between the two periods of 775 inmates and 44.85 per cent.

The

The difference between the maintenance cost of hospital patients at the Government asylums and in the public infirmaries is at least £25 in favour of the former; and as 297 such patients were received during the year 1890 (apart from those previously sent to the Asylums for Infirm and Destitute) from the Coast, Prince Alfred, and Sydney Hospitals, for whose full support the Government were directly liable), it is apparent that the asylums are in this particular effecting a large saving to the State.

Prior to 1887 the sick inmates did not enjoy the advantages of a trained nursing staff, but were attended to almost wholly by the more able-bodied inmates, who received for their services small gratuities varying from 3d. to 1s. a day—a system which has distinctly failed, and too frequently been attended with grave abuses wherever it has been tried. An official investigation disclosed that in this Colony it formed no exception to the rule; and in June, 1877, the Colonial Secretary wrote the following minute on the subject:—"In the division of the inmates under future management, those who are suffering from disease or wounds should be placed under hospital treatment, quite separate from those not so afflicted. Not only for these, but also for the very aged and infirm, I consider a limited staff of trained nurses should be provided." Shortly afterwards effect was given to this minute by the engagement of several female nurses for Newington Asylum for women, and a few trained male attendants, possessing general hospital experience, for the Parramatta Asylums. No opportunity has been afforded prior to this report of publicly notifying the result of this change. I have carefully watched its operation during the past two and a half years, and also extended the system as increases in the hospital divisions rendered additional help of the kind necessary; and there cannot be a doubt that it has proved a blessing to the hundreds of sick and afflicted poor who were previously in the hands of ignorant wardsmen, possessing neither the patience nor the professional training requisite for an office in which both qualifications are in the highest degree necessary. I can speak more freely in this important matter, because this improved method of nursing was initiated before my appointment. This, and several other changes, were not applied to Liverpool Asylum, because the Medical Superintendent, Dr. J. A. Beattie, who is one of the most humane and experienced officials in every phase of hospital management in this country, suggested that the old and new methods should be allowed to run side by side for a year or two, in order that there might be reliable comparisons of results. He now agrees with me, however, that no further exception should be made in connection with his institution, and the Medical Adviser of the Government also concurs in this opinion. There are five trained nurses at Newington Asylum, four at Macquarie-street, and four at George-street Asylum.

It will be gathered from the foregoing statistics that the Government Asylums for Infirm and Destitute have been so far diverted from their original purposes that they are now practically hospitals for chronic and incurable diseases, as well as homes for the infirm and indigent. They are relieving-houses for the metropolitan and country infirmaries, and the figures already quoted show that more than one-third of the inmates, or nearly 40 per cent., are classed as hospital patients. No other colony is in the same position with regard to cognate institutions. The asylums which can be most fairly selected for the purpose of comparison, are those of Victoria, and there the proportion of the afflicted to sound inmates is only 14 per cent. The general hospitals there are not relieved of their patients by the Benevolent Asylums to anything like the same extent that they are in this Colony.

The statement of diseases in the following mortality table furnishes ample evidence of the prime importance of the hospital divisions of the asylums, and the care, skill, and humanity required for their efficient management:—

The Government Asylums now deal with all the indigent consumptive patients, and cancer cases in the Colony, as well as with indigent persons suffering from heart disease, paralysis, and senile decay (imbecility arising from old age), from which complaints 349 out of the total of 480 deaths have resulted. It is thus apparent that buildings and conditions of management, which might have been suitable enough for these institutions a few years ago, are now obsolete and inadequate to their present requirements; and it is therefore desirable that the lines of a comprehensive and permanent system for administering relief to our dependent adults, who include the most sadly afflicted classes of the community, should be laid down with as little delay as possible, to avoid farther useless expenditure on several of the existing institutions, which are all very much overcrowded. Several suggestions with this object are under the consideration of the Colonial Secretary, and if it should be determined to select a sufficient area of land, a sum of £10,000, which has been voted by Parliament on the Loan Estimates of 1891, may be devoted toward the erection of buildings on the most approved modern principles, in which the various classes of inmates may be subjected to the distinct conditions of treatment that are necessary, if it is decided to continue the combination of hospitals for chronic and incurable diseases with asylums for infirm and destitute.

It was recommended to the Government in 1887 that the Randwick Asylum should be converted into a hospital for the reception of all classes of chronic disease; and it was estimated that the maximum number of persons who could with safety be received into the present buildings, after a large expenditure upon alterations, was

380. There were at that time 600 patients under treatment in the hospitals of the Government institutions, and it was pointed out that the number would probably "be largely added to by drafts from the coast hospitals and two great metropolitan hospitals," a prediction which has been verified by the increase of numbers to 988. Randwick Asylum would, therefore, not by any means meet existing requirements, and I think medical authorities will consider it unsuitable in one or two other more important respects. The consumptive patients and rheumatic inmates need a milder air and warmer temperature than that of the sea shore in the bleak winter months, and probably a site from 12 to 15 miles inland from Sydney would be more suitable, while it would be sufficiently easy of access from the metropolitan infirmaries. Some hundreds of these old people, too, are, if not actually bedridden, just able on occasions to crawl into the sunshine with assistance, and it would be a cruel proceeding to place them in dormitories from which they would be physically unable to go downstairs for the slight recreation which it is only just possible, under the most favourable circumstances, to afford to persons so hopelessly afflicted.

The best solution of the problem would be to obtain an estate of about 500 acres, or less, as a central site for all the institutions for dependent male adults. The women are already provided for at Newington, where there is sufficient area for the institution to be made one of the model establishments of its kind, after the addition of one or two buildings to admit of classification. It is probable that the Liverpool Asylum will eventually be required for railway workshops. The Railway Commissioners have already purchased the Liverpool Park for that purpose, and it is so close to the Government Asylum that it will not be possible to continue the institution as a refuge for persons suffering from nervous complaints and the other illnesses incidental to this particular class. The Parramatta buildings are admittedly unsuitable for hospitals. An estate of sufficient area could be sub-divided to contain buildings suitable for the requirements of all classes of inmates.

The best method of economically housing the permanently sick and decrepit poor is undoubtedly in brick pavilions of one floor, each capable of accommodating from thirty to forty inmates, with the necessary out-offices, day-rooms, and nurses' apartments. A most complete system of classification could be accomplished on such an estate. The management could be made more economical, and the general establishment largely self-supporting. There would be room for a farm, dairy, piggeries, poultry yards—industrial divisions in which inmates able to do light work could be suitably employed, and a regular gradation of departments, sufficiently isolated from each other to meet the needs of all classes fairly, without wasting philanthropy on the underserving or withholding indulgences from the meritorious.

These desiderata cannot be secured at present for want of such facilities for separation. The hospitals could be placed remote from the other divisions, and here again the principle of classification might be effectually applied, so as to secure the best results. The consumptive patients, who now number nearly seventy, need special treatment, and so do the unfortunate sufferers from cancer, of whom there are usually about thirty in hospital, and who ought to be treated at some distance from other inmates. There were twenty-four deaths from this frightful disease last year. Suitable environment is a prime factor in any slight happiness which these poor sufferers are permitted to enjoy, and it cannot be extended to them under present conditions. Writing of them recently, the Medical Superintendent of Liverpool Asylum said:—"Being situated in the front part of the building, where the afflicted patients are in full view of visitors and persons passing in and out, their removal to a less conspicuous and more ample ward—or better still, to an isolated building—would be less hurtful to the feelings of the men themselves, as well as less horrifying to those obliged

obliged to witness their sufferings." These words apply equally to the cancer ward at Macquarie-street Asylum; and the construction of both buildings prevents any better arrangements, while there is no ground to spare at either place for the erection of a separate ward. Then there are the aged sufferers from senile decay, now numbering upwards of 300, who are very helpless; indeed, are quite in the "second childhood" stage of existence, and need the kindly treatment and care requisite for children. An infirmary, with special appliances, is also required for eye patients, of whom there are over 200 under treatment. Dr. Odillo Maher, the visiting ophthalmic surgeon to the Asylums, has expressed an opinion that as much as is possible, with the present appliances, has been done during the past three years to ameliorate the condition of the patients who suffer from painful complaints of the eye; but the system is still very imperfect, because they cannot be, as they ought to be, completely isolated from other inmates in a suitable building. Dr. Maher has recommended, "That there be a separate ophthalmic hospital to which only shall be admitted those suffering from ophthalmic diseases, which can be cured or benefited by treatment," and that the patients be attended by a skilled ophthalmic nurse. He points out "that two great advantages might be thus secured—the ophthalmic patients, many of whom suffer from contagious eye disease, would not associate with those whose eyes are healthy, and thus the danger of contagion would be avoided; and a ward could be set aside for the treatment of children suffering from granular ophthalmia, many of whom are kept at the Government expense in the Sydney hospitals. By persistent and timely treatment the sight of many such children would be preserved, which, if neglected, would become totally or partially lost." Such an institution might easily be included under distinct arrangements in the hospital divisions. A small lock hospital is also required, as syphilitic patients are now occasionally received from the Coast Hospital and other infirmaries. The "dietetic system," providing for dieting inmates according to their physical needs and conduct, which has been adopted with remarkable success in connection with prisons and charities in one or two American states, might be applied throughout the whole establishment as a method of rewards and punishments, in conjunction with exclusion from recreation grounds, reading rooms, and amusements. Such an estate would possess an ample area for creating bright and healthful surroundings. The whole of this little colony of dependents should be placed under the local management of a medical superintendent and an assistant—for both of whom there would be plenty of employment—with resident dispensers, and a limited staff of trained nurses, aided by inmates paid by small gratuities as at present, the domestic arrangements to be under the control of matrons. The abolition of existing offices would make the new method of management less expensive than the present system, and hardship to individuals might be as far as possible avoided by reappointing them to the new posts. This, of course, is the mere outline of a scheme which is not at all utopian, and the details can be filled in without difficulty. Suitable buildings need not be of an expensive description, and indeed the sale of existing properties would almost provide for their cost. The Legislature has never hesitated to make very generous provision for the mentally afflicted, the criminals, and other dependent classes in this country. A corresponding generosity might well be extended, under their altered conditions of life, to the class now inhabiting the Asylums for Infirm and Destitute, in which suffering humanity in its most painful form seeks relief, and where there are many respectable old colonists whose decline from prosperity and happier days is due to illness or misfortune rather than to vice or crime.

We have happily not yet needed in this country institutions assimilating to the English workhouses for the relief of able-bodied paupers, and the statistics in this report, which have been submitted

to

to crucial tests of their correctness, should dispel any popular belief that our public charities, or at least those under the direct control of the Government, are abused to any great extent by persons physically and mentally capable of being bread-winners. In order to place this point beyond doubt, every inmate of the Government asylums was medically examined in June, 1890. At Liverpool, with 860 inmates, 13, apart from the working staff, were returned as being able to earn their own living, if suitable employment could be found for them; at George-street Asylum, Parramatta, only 2 were able to work out of 930; at Macquarie-street, 4 out of 310 were able to work; and at Newington Asylum, with 460 women, the return was "nil." Thus, out of 2,560 persons, only 19 were returned as being robust enough to earn a livelihood, and as the majority of these were over 70 years of age, it would have been cruel to cast them adrift.

Outdoor relief is not granted in connection with the Government Asylums of this Colony, although it is the main form of aid dispensed from the English workhouses, where the indoor dietary, accommodation, and routine, are so unattractive that they afford an almost infallible test of the *bona fides* of applicants who seek admission on the ground of pauperism. In New South Wales the only outdoor relief granted is from local Benevolent Societies, and it is not given to able-bodied paupers; but to widows or deserted wives and children, and a few aged persons who are infirm and past work. A comparison of our statistics of dependents with similar returns in the last report of the English Local Government Board will be interesting, as showing the singular extent to which this Colony enjoys immunity from both poor rates and pauperism; and I find, from intercolonial reports, that the figures quoted are quite as applicable to the other colonies. There are four sets of tables relating to New South Wales, and England and Wales, showing:—

1. Indoor adult paupers in both countries (including the Sydney Benevolent Asylum to make the comparison fair);
2. Indoor adult paupers and children;
3. Adult indoor and outdoor paupers;
4. Adult indoor and outdoor paupers and children:—

The return of New South Wales includes 1,200 boarded-out children, and inmates of the Reformatory and Industrial Schools. If all the children controlled by voluntary agencies in the two countries could also be taken into consideration, the English percentages would be comparatively much higher. The figures as they are, however, fully illustrate the happier conditions of life in Australia, where the term "pauperism," as it is interpreted in the mother country, is hardly understood practically.

The financial tables indicate that the Department has been economically managed. Table 1 contains a statement of the gross expenditure from January 1 to December 31, 1890, viz. :—

	<hr/>			4,111 13 1		
	<hr/>			£6,788 13 0		

From the above figures it will be seen that altogether £46,296 14s. 7d., was spent upon the Government Asylums for Infirm and Destitute, and Cottage Homes for Aged Destitute Couples, in 1890. This includes a sum of £2,854 4s. 10s. for repairs, and the balance of £43,442 9s. 9d. has to be further reduced by £3,929 8s. 2d., which is made up as follows:—Collections of revenue, £1,005 8s. 4d.; value of cows (less 15 per cent. written off for depreciation), £700 16s. 6d.; drugs, in stock, £41 10s.; clothing, in stock, £533 17s. 8d.; hardware, in stock, £390 7s. 5d.; conveyance of applicants and persons discharged from asylums, £1,257 8s. 3d. The item of £1,509 16s. 9d. for milk includes:—Cows, £313 14s.; milk, £564 14s. 3d.; fodder, £631 8s. 6d.; (the amount of £564 14s. 3d. for milk only, will be reduced during the current year by about £300.) The net expenditure upon maintenance, salaries, &c., has thus been £39,513 1s. 7d., from which should be deducted £1,283 3s. 3d., proportion of Cottage Homes' cost; and the annual cost of each inmate to the Government has, therefore, been £15 10s. 6d., exclusive of the cottage homes, which are dealt with under a separate heading. Following are the details of average cost in connection with each asylum:—

	Liverpool.	George-st.	Macquarie-st.	Newington.	Total.	Cottage Homes.	Total.

This compares very favourably with the cost elsewhere. In Victoria last year it was £16 7s. 9d.; and in Queensland, £16 17s. 5d. In both Colonies the number of patients in the asylum hospitals was only about a third of those in this Colony, and, therefore, the expenditure upon medical comforts was correspondingly less than in New South Wales. The average annual cost in England is £19 10s. per head. The treatment of the poor, however, is not so generous in the other Colonies, where the cost is higher, as it is in New South Wales. In Queensland, for instance, the report for 1890 states that it has not been practicable to give milk, except to the sick, in the hospitals, and to the women—that is to about a third of the total number; and the diet tables of other Colonies show a much less varied dietary than the poor of this Colony are now receiving.

In

In view of the progressive increase in the number of hospital inmates, who require expensive diet, it is not likely that this low average cost can be maintained. The high charge for medical comforts at Liverpool Asylum (£1 per head) needs explanation. It has been incurred principally in connection with the consumptive patients, who, in the opinion of the Medical Superintendent, require extra stimulants. The difference in the cost of clothing at Newington and Liverpool, as compared with George and Macquarie Street Asylums (£1 5s. 7d. and £1 8s. 2d. per head, as against £2 19s. 7½d. and £1 7s. 4½d., respectively), is also conspicuous. The cause is that the greater part of the wearing apparel is made on the premises at Liverpool and Newington; but want of room for workshops and appliances prevents it from being done at the other institutions.

One of the first duties delegated to me was a revision of the dietary throughout the Asylums. An official investigation into this matter in 1887 had elicited from Dr. Manning, Inspector-General of Insane, and now also Medical Adviser to the Government, the following emphatic opinion:—

He had had a considerable number of cases which having been cured by treatment in one or other Hospitals for Insane he discharged to one of the benevolent asylums, and which came back to him for treatment within a very short time. The impression he had formed with regard to these cases was that they had not been sufficiently fed, and that if they had been sufficiently fed they would not have returned. He considered that the general benevolent dietary, and the want of variety, were very objectionable. The mental condition of aged persons, and persons of weak mind, was liable to be aggravated by insufficient food, and when he received these old persons (from the Benevolent Asylums) into his hospitals for insane the essential part of his treatment consisted in feeding them up.

Dr. Maher and Dr. Morgan, Ophthalmic Surgeons to the Asylums, gave equally strong testimony on this point. The general dietary at that time consisted of dry bread, and tea without milk, for morning and evening meals, and, excepting on Christmas-day and Queen's Birthday, an unvaried dinner at mid-day of boiled meat in soup with vegetables. Tea was served out at the rate of 1 ounce to every five persons daily. The bread and meat allowances were each 1lb. per diem; and there was an objectionable practice of serving out the whole day's bread ration in the morning, so that by evening the majority of inmates were either without bread, or possessed a few dry remnants; subsequently, in consequence of the visits of a ladies' committee and an official inquiry, there was some improvement at Newington. On the other hand the issue of alcoholic stimulants appeared to be most excessive, the total cost for the year 1888 for Liverpool, Parramatta, and Newington Asylums, in which there were then altogether 2,200 inmates, being £2,723 16s. 4d. Tests applied to the quality of the provisions, which were not at that time supplied to the standard of samples, were most unsatisfactory. Tea, which was taken on more than one occasion from the daily supplies, and forwarded to the Government analyst to be tested, was declared to be "utterly without power of nutriment, and possessing none of the qualities of genuine tea"; and analyses of tobacco, spirits, and milk (of which large quantities were consumed in the hospitals) were equally unsatisfactory, the added water to the milk supplied under contract being on several occasions in proportions varying from 20 to 60 per cent. The system of supplying to samples and tests was at once introduced, and although there was a great deal of difficulty, at first, in keeping contractors up to the mark, they soon realised that the letter of their contracts must be strictly adhered to, and on the whole there is now very little cause of complaint.

After consulting the Medical Adviser to the Government, and several other high medical authorities experienced in the management of institutions, I decided to reduce the ration weight of bread and meat from 16 to 14 ozs., to increase the tea allowance to 1 ounce daily for four inmates; to abolish as far as possible the free use of stimulants,  
except

except when prescribed medically to hospital patients; and with the saving of cost thus effected, to substitute a varied diet of heat-giving food. The following table was adopted:—

WEEKLY DIETARY.—Compiled from dietary scale (weight).

Remarks.—Hospital dietary to be regulated by Medical Officer; and general record to be kept for inspection in diary. Wines, beer, and spirits to be issued only under authority of Medical Officer, except in cases of emergency.

Day.	Breakfast.	Dinner.	Tea.
SUN.	1 pint coffee.* 1 pint porridge, made with 2 oz. maizemeal or oatmeal; and 1 oz. treacle or sugar, at discretion of Superintendent. 4 oz. bread.†	Irish stew, made with 14 oz. mutton (including bone weight), 12 oz. potatoes, and other vegetables, onions, and herbs, 1 oz. flour. 4 oz. bread. Cabbage.	1 pint tea, made with $\frac{1}{4}$ oz. tea, $\frac{3}{4}$ oz. sugar, $\frac{1}{2}$ gill milk. 6 oz. bread. 1 oz. honey.
MON.	1 pint tea, made as for Sunday's tea. 6 oz. bread. 1 oz. jam.	14 oz. beef, roasted. 12 oz. potatoes. 2 oz. bread. 6 oz. pudding.‡	1 pint tea. 6 oz. bread. 1 oz. treacle.
TUE.	1 pint porridge, } made as above. 1 pint tea, } 4 oz. bread. }	Haricot, 14 oz. mutton and necessary vegetables. 4 oz. bread. 1 pint soup, made from liquor of beef bones of previous day, with 1 oz. barley, rice, or pease meal, and other vegetables.	1 pint tea. 6 oz. bread. 1 oz. jam.
WED.	1 pint coffee.* 6 oz. bread. 1 oz. treacle.	14 oz. boiled beef, with soup made as at present. 12 oz. potatoes. 4 oz. bread.	1 pint tea. 6 oz. bread. 1 oz. honey.
THU.	1 pint tea, } made as above. 1 pint porridge, } 4 oz. bread. }	Curry, 14 oz. mutton and necessary seasoning. 12 oz. potatoes—rice may be substituted for potatoes. 4 oz. bread.	1 pint tea. 6 oz. bread. 1 oz. treacle.
FRI.	1 pint coffee.* 6 oz. bread. 1 oz. honey.	14 oz. beef (weight includes bone) minced. 12 oz. potatoes. 4 oz. bread. Cabbage.	1 pint tea. 8 oz. currant cake, made with some ingredients as pudding.
SAT.	1 pint tea, } made as above. 1 pint porridge, } 4 oz. bread. }	Repeat Tuesday's dinner.	1 pint tea. 6 oz. bread. 1 oz. treacle.

\* One pint coffee, made with  $\frac{1}{4}$  oz. coffee,  $\frac{3}{4}$  oz. sugar,  $\frac{1}{2}$  gill milk.

† Bread to be cut up and served out in its proportions for each meal.

‡ Receipt for bread pudding for 250 men, each to receive about 8 oz.:—Bread, 50 lb.; flour, 12½ lb.; suet, 8½ lb. (dripping should be used when practicable); sugar, 8½ lb.; currants, 8½ lb.; spice, 2 oz. These quantities absorb 3 buckets of water. To be divided for boiling into puddings of required size. Daily record of breakfast, dinner, and tea to be entered in book kept for that purpose.

P.S.—The foregoing to form basis of diet, which may be so regulated or altered, at discretion of Superintendent, as to suit convenient working of establishment; so long as it is not inferior in quality and quantity, and is of the same general character.

Daily dietary scale for unemployed men.—14 oz. bread, 14 oz. meat, 12 oz. vegetables, 1½ oz. sugar, 1 gill milk,  $\frac{1}{4}$  oz. tea, 1 oz. jam, treacle, or honey, for tea, and same for breakfast with bread, when no porridge; 1 oz. pepper and 20 oz. salt for every 100 full daily rations. Any inmate requiring more bread at any meal should at once inform the superintendent, or any person authorized to receive request.

Men actively employed, such as cooks, laundrymen, gardeners, labourers, &c., may be allowed 1 pint coffee, 1 oz. cheese, 4 oz. bread, in addition to authorized scale—only when no spirits or beer are granted. The medical officer may order any extra articles of diet he may deem necessary in particular cases.

Daily dietary scale for working men.—16 oz. bread, 16 oz. meat, 12 oz. potatoes, 1½ oz. sugar; 1 gill milk,  $\frac{1}{4}$  oz. tea, 1 oz. jam, treacle, or honey for tea, and also for breakfast with bread, when no porridge.

The application of this diet table made an enormous reduction possible in the consumption of spirits at three of the institutions; and when tested subsequently by the death rate it gave some remarkable results, the reasons previously urged on behalf of the free use of alcohol being that it prolonged life.

The

The following tables show the operation of the change in detail ; and as a more certain guide the mortality tables of three years prior and two years subsequent to the alteration have been selected :—

Name of Asylum.	Cost of Stimulants, 1888.	Cost of Stimulants, 1890.
Macquarie-street, Parramatta .....	£ s. d. 540 8 7	£ s. d. 155 6 6
Newington .....	655 4 6	63 0 0
George-street, Parramatta .....	777 17 8	286 10 9
Total cost at Parramatta and Newington.....	1,973 10 9	504 17 3

Or a total reduction at once in the drink bill at three asylums of £1,468 13s. 6d. per annum. At Liverpool the cost increased in the same period from £750 5s. 7d. to £815 2s. 6d. from the cause already stated.

In the years 1883, 1884, and 1885, under the old system, the death rate was 24, 27, and 33 per cent. per annum, with average ages of those who died at 65, 63, and 64 years respectively. Then for two years (1886 and 1887) no statistics were prepared, but the death rate increased. Under the new system the death rate went down almost as rapidly as the stimulants, the returns showing 18 per cent. in 1889, with the average age at 63 years; and 20 per cent. in 1890, among patients averaging 65 years of age. The following table contains the particulars of the fall :—

	1883.	1884.	1885.	1889.	1890.
Deaths during year .....	341	474	605	455	480
Daily average number of inmates.....	1,802	1,683	1,723	2,347	2,503
Number in Hospitals .....	423	443	448	888	988
Average age of patients who died .....	65	63	64	63	65

The daily average number of inmates includes the lesser number in the hospitals. The points for consideration are the steady increase from the year 1883 to 1885 in the number of deaths, and of inmates in the general and hospital divisions; and the proportionate decrease of deaths following the provision of more generous diet, and abolition, to a large extent, of alcoholic stimulants, whilst the number of inmates in the general and hospital divisions was very much greater. This result is a very striking practical confirmation of the opinions expressed by Dr. Manning, Dr. Morgan, and Dr. Maher which have been quoted. It is well to point out also that the advance in hospital numbers in 1889-90 was not due to a falling off in the health of the general divisions, but wholly to the numerous transfers from the Sydney and country infirmaries direct to the asylum hospitals, which had increased between the two periods (from 1885 to 1890) from 448 to 988.

In connection with the new dietary, a change was made which, although trifling in itself, added much to the comfort of inmates at the Parramatta and Newington Asylums. The tables were broken up into messes of eight and ten inmates, with a mess captain at the head of each, who cut up and distributed the food to his particular division, so that every man was enabled to have a hot dinner. It will be easily understood that this was not possible (particularly in winter) when the dinners of from 500 to 600 men had to be laid on tables extending the whole length of the dining rooms before the meals commenced.

RETURN showing the Ages of the Inmates in the Government Institutions for the Infirm and Destitute, 1 May, 1891.

Institutions.	Under 10 years.	10 to 20 years.	20 to 30 years.	30 to 40 years.	40 to 50 years.	50 to 60 years.	60 to 70 years.	70 to 80 years.	80 to 90 years.	90 to 100 years.	Over 100 years.	Total.
Liverpool .....	...	...	15	35	55	97	213	259	117	11	2	804
George-street, Parramatta ...	1	2	9	30	47	123	204	317	223	33	1	990
Macquarie-street, Parramatta ...	...	...	5	17	28	49	80	95	31	...	...	305
Newington.....	...	2	13	32	46	94	127	125	41	4	2	486
Cottage Homes, Parramatta...	...	...	...	1	...	1	12	17	9	...	...	40
Total.....	1	4	42	115	176	364	636	813	421	48	5	2,625

Average age—about 70 years.

The table is an interesting one. It shows that at the date of this report there were in the asylums 2,625 inmates. Of these 5 were over 100 years of age—namely, 2 women at Newington; 1 man at George-street, Parramatta; and 2 men at Liverpool. 48 were between 90 and 100 years of age; 421 were between 80 and 90 years; 813 between 70 and 80 years; 636 between 60 and 70 years. There were thus 1,923 inmates, out of the whole number of 2,625, whose ages ranged from 60 to over 100 years. The lower standard of ages at Liverpool and Newington Asylums is caused by the majority of the phthisical patients being treated there. Indeed, special causes have led to the admission of all inmates under 70 years of age. They are either crippled, paralysed, rheumatic, consumptive, ophthalmic, or otherwise physically afflicted.

RETURN of Percentage of Deaths and Average Ages of Deceased Inmates at each Government Asylum for the Infirm and Destitute for the year 1885 (period of last report under old system) and the year 1890.

Institutions.	Deaths.		Percentage of Deaths.		Average of Age.	
	1885.	1890.	1885.	1890.	1885.	1890.
Liverpool Asylum .....	288	175	40·05	25·54	62·82	60·71
George-street, Parramatta.....	123	176	29·85	15·17	67·86	68·07
Macquarie-street, Parramatta ...	101	43	31·82	11·75	64·26	68·28
Hyde Park (now Newington) .....	93	86	30·29	23·06	63·52	63·84
Total .....	605	480	33·75	20·06	64·61	65·06

Seeing that in 1890 there was a daily average of 2,503 inmates and only 480 deaths, and in 1885 only 1,728 inmates and 605 deaths, the figures are very explicit, and afford an excellent counter check upon what has been stated respecting the results of the different methods of treatment, nursing, and dietary adopted under the old and new systems. It is only fair to point out that the higher percentages of deaths at Liverpool and Newington Asylums, and the lower average ages of deceased inmates, are due to those institutions being the main receptacles for all the dependent consumptives of the Colony who seek

seek admission to the public infirmaries. For example, the deaths from this disease at Liverpool among young men last year were 46, as against 9 at George-street and 1 at Macquarie-street Asylum, and there were 9 such deaths at Newington. A deduction of these cases from the whole number over which the percentage has been struck makes the mortality statistics at each of the institutions very equal.

The following table contains a statement of deceased inmates at each of the Government Institutions for the Infirm and Destitute for the year 1890:—

Institutions.	Above the age of—									
	10	20	30	40	50	60	70	80	90	Total.
Liverpool .....	...	13	18	19	22	29	46	22	6	175

Newington .....	1	2	8	10	7	16	27	12	3	86
Cottage Homes, Parramatta ...	...	...	...	...	...	...	...	...	...	...
Total .....	2	18	32	40	50	106	145	71	16	480

A comparative return has been prepared of the ratio of deaths throughout the Colony and in the Government Institutions for Infirm and Destitute for the year 1889 among persons of similar ages:—

RATIO of Deaths throughout the Colony, and in the Government Institutions for the Infirm and Destitute, year 1889.

Above the Age of	Mean Population—1,103,970.			
	In Colony.		In Government Institutions for the Infirm and Destitute.	
	Deaths.	Ratio per 1,000 living.	Deaths.	Ratio per 1,000 living.
10	643	·532	2	·002
20	1,173	1·062	20	·018
30	1,131	1·024	30	·027

Children.....	6,939	6,286	.....	.....
Total .....	14,796	13,400	455	·412

The above figures deserve particular attention, as they indicate how life may be prolonged under proper hygienic conditions, with plain wholesome food, warmth, and due attention to cleanliness. A similar calculation with the same result has been made in the children's division. At the asylums, the total ratio of deaths among inmates of all ages up to 100 years was less than one half per thousand of the mean population of the Colony in 1889, while the ratio outside was nearly  $13\frac{1}{2}$  per 1,000. It should be borne in mind also in considering these figures, that the proportion of sick and afflicted inmates to the healthy population is very much larger in the asylums than outside, which makes this return more striking. Almost the same proportion of deaths to the same ages is preserved throughout the table, so that the advanced ages only of the majority of inmates is no particular factor in the general result, which shows that the calculation has been made on a proper basis.

As the Statistical Register for 1890 will not be published for some time, a similar comparative statement in reference to the Government

ment establishments and the outside population cannot be prepared for last year, but I present a comparison between the two years in connection with the asylums only, for the purpose of showing how little the percentage has varied there :—

Mean Population of Colony, 1889 :—1,108,970.			Mean Population of Colony, 1890 (estimated) :— 1,145,400.	
Above the Age of	Deaths at Asylums.	Ratio per 1,000 living Population of Colony.	Deaths at Asylums.	Ratio per 1,000 living Population of Colony.
10	2	·002	2	·002
20	20	·018	18	·016
30	30	·027	32	·028
40	45	·041	40	·035
50	70	·063	50	·044
60	106	·095	106	·092
70	125	·113	145	·126
80	47	·043	71	·062
90	8	·007	16	·014
100	2	·002	.....	.....
Total .....	455	·412	480	·419

In any criticism of these figures it should be remembered that during the years 1889–90 all the asylums were from unpreventable causes very much overcrowded. The superintendents and medical officers made repeated representations on the subject. The principal cause, as I have pointed out, was the large influx of patients from the public infirmaries; the lower percentage of deaths also of course tended to keep up the numbers; and there was a third cause which came as a surprise upon the authorities. In former years it was customary for large numbers of inmates to go out in the summer months and return in winter; but the provision of additional comforts and better food largely reduced this migratory class; and many of the old men, instead of travelling as usual through the country in the warm weather, doing odd jobs or depending on outside charity, remained in the institutions. It has in consequence been necessary at different times to close Newington, Liverpool, and Macquarie-street Asylums against admissions, and during these periods the Medical Adviser of the Government has been good enough to refrain from sending in patients from the infirmaries. On September 7, 1890, the Government Medical Officer and Visiting Surgeon to the Parramatta Asylum wrote :—“The overcrowded condition has never assumed such proportions, and is so long continued that it can no longer be regarded as a temporary evil; the danger to health from overcrowding must be immediately averted. . . . I have never known the asylums to be so crowded at this season of the year. The atmosphere is vitiated by about 10 o'clock p.m., due to the exhalations arising from the bodies of the occupants, and is positively nauseous to sensitive persons.” The Government Medical Officer and Medical Superintendent of Liverpool Asylum wrote in equally strong terms, as did the Medical Officer at Newington, where at one period there were not less than 115 extra beds made upon the floors, in store rooms, lavatories, passages, or between the other beds.

The state of matters complained of is shown in the following table, which was drawn up in June, 1890 :—

Asylums.	Proper accommodation for.	No. now in.	Excess.	Able to work outside.
Liverpool .....	650	860	210	13
George-street, Parramatta .....	730	930	200	2
Macquarie-street .....	240	310	70	4
Newington .....	340	460	120	Nil.
Total .....	1,960	2,560	600	19

To

To abate the evils arising from the want of cubic space at George-street Asylum, additional windows were opened in the roof and the sleeping dormitories. The Colonial Secretary authorised the rental of ten houses close to the Institution, which afforded sleeping accommodation to 175 persons; and a new convalescent ward was erected at Newington to accommodate sixty women. The reading-rooms at George and Macquarie Street Asylums were also temporarily closed and used as dormitories. These expedients, and the closure of Liverpool Asylum against admissions until the discharges brought the number in the house down to a healthier standard, afforded temporary relief; but on 31st December, 1890, there were still about 480 more inmates than there was proper accommodation for, and this excess will not, in the ordinary course, decrease.

A sum of £3,000 is on the Estimates of 1891 for expenditure at Newington Asylum, and out of this it is intended to erect a few cottages (similar to those at Parramatta for destitute married couples) for the reception of women who "have seen better days," and who cannot, under existing circumstances, be separated from the general body of inmates. A step in this direction was taken some months ago by the conversion of an old storeroom into a sleeping apartment for ten of the superior women. Although the accommodation thus provided in a mere "lean-to" is far inferior to that in the dormitories, the change is much appreciated by those who are thus, to some extent, formed into a separate little society. A small consumptive hospital will also be erected out of this vote for phthisical patients, who now have to be treated in the ordinary sick wards, which is not at all desirable. The expenditure of the whole amount will probably afford accommodation for about seventy-five more inmates, and the additions should be completed by the end of the year.

An inexpensive addition has been made at Newington, which was much needed. The institution contains a number of women of such weak intellect that they are not capable of taking care of themselves, while they are physically strong enough to cause constant anxiety in consequence of their wandering habits, which led them into all sorts of dangerous places. A pleasant little enclosure, with a pavilion and some garden seats in it, has been set apart for their separate use, and they are here placed in charge of a reliable inmate, who is paid a small gratuity for looking after them. They are not in any way shut out from a view of the really bright surroundings of their new day-quarters, the only safeguard against their wandering being a picket fence, which is found quite sufficient.

The milk supplied to the four Government Asylums in 1889 cost at the rate of £1,500 per annum, and representations of the difficulty of obtaining it pure under contract for the use of hospital patients, with whom it was a staple article of food, led the Colonial Secretary to authorise the purchase of cows for all the institutions. The experiment had been tried previously, to a limited extent, at several of the asylums. £540 3s. 6d. has altogether been expended since for this purpose, and the change has been most beneficial. The dairy stock is renewed from time to time, dry cows being sold to the best advantage, and the proceeds paid into the Treasury. On grounds of economy there is no objection to this system, and in every other respect its advantages are obvious. It is estimated that thus far it is saving an expenditure of at least £500 a year, and the medical officers have no doubt that the general health of the inmates is largely benefitted by the plentiful supply of pure milk which they receive. It is now only necessary to purchase a partial supply for Liverpool Asylum, in consequence of the difficulty of obtaining grazing ground for additional stock near enough to the institution, but it is hoped that this obstacle will be overcome in the course of a few weeks, and Liverpool will then be in the same favourable position as the other asylums.

It has also been found desirable to alter the method of bread-supply to the Parramatta and Newington institutions during the past year. It was previously purchased under contract, but dissatisfaction was frequent with regard to both its quality and weight. It was ultimately decided to follow the plan adopted at Liverpool Asylum, and bake bread upon the premises. Ovens were accordingly erected at Macquarie-street Asylum; and that institution, George-street Asylum, Newington Asylum, the Cottage Homes for Aged Destitute Couples at Parramatta, and the Cottage Hospitals of the State Children's Relief Department at Pennant Hills, are now all supplied from the Government bakehouse. About 2,350 lbs. weight of bread is baked daily (including the quantity used at Liverpool), so that the work of this Department is not light, and it requires careful oversight. The change has been very satisfactory in every respect, a contingent advantage being that the inmates are able on one or two days of each week to have sweet currant cake substituted for a portion of the bread ration at the evening meal,—a cheap little luxury which the old people highly appreciate. Although the allowance of bread is nominally 14 ozs. daily to each person, I have given instructions that the inmates are to be permitted to eat as much as they require at meal times, but are not to remove any from the tables. The result is that the total consumption is generally well within the standard, and waste is prevented.

There must, of course, always be a certain quantity of refuse food at large establishments, but no attempt appeared to have been made to convert this into a source of profit at any of the asylums. Where practicable, it was consequently decided to establish piggeries. This could not be done at Parramatta, because the Asylums were within proscribed boundaries; but tenders were invited for the purchase of the refuse, and about £30 per annum was thus realized for payment into the Treasury. At Newington and Liverpool the waste food was made much more profitable in another way. Pigs were bred, bought, and re-sold at considerable profit. The returns since the experiment was tried at these institutions in 1889 have been:—Pigs purchased, £450 7s. 3d.; sold, £829 7s. 6d.; profit, £379 0s. 3d.; value of pigs in stock, £105. Thus, including the price of refuse sold at Parramatta (£60), a gross profit of £544 0s. 3d. has been realized in two years on waste which was previously valueless to the Government.

Greater attention to the cultivation of green vegetables at the institution farms since 1889 has resulted in a saving of money, and the provision to a much greater extent than formerly of a wholesome article of diet for the inmates. The yield from the present limited grounds has shown what might be done with a sufficient area. This has been particularly noticeable at Newington, Liverpool, and Macquarie-street (Parramatta) Asylums. At the latter alone, prior to 1889, the expenditure upon green vegetables was usually from £50 to £75 a year. This charge has since been wholly saved. The total yield last year was:—From Newington farm, 48,138 lb.; Liverpool, 20,315 lb.; Macquarie-street, 19,008 lb.; George-street, 11,207 lb.; total, 98,668 lb., or upwards of 44 tons. The farm labour is provided by inmates, so that its cost is very trifling.

As far as possible provision has been made for relieving the monotony of the sick wards, and enabling the general body of inmates to obtain some kind of mental enjoyment. During the past two years the expenditure of £140 upon books has been authorised. Nearly 2,000 vols. have been added to the various libraries, consisting mainly of entertaining works of fiction and standard magazines. The daily newspapers are also supplied to all the institutions for the use of inmates. A few books and periodicals have been presented privately, but they have not been of much value, although donations of literature would be thankfully received. Indeed the lack of interest manifested in this and other requirements of the inmates by the public is very singular.

singular. Our afflicted fellow creatures in these asylums, who now number between 2,000 and 3,000 souls, are certainly as susceptible to practical sympathy as any other dependent class in the community; yet it is almost withheld from them, with the exception of that bestowed by paid officials and a few ladies who are good enough to visit them occasionally. The cause probably is that the asylums are generally regarded as purely Government Institutions not needing voluntary aid of any kind; but it should be widely known that there is no obstacle to help being rendered of any description that would be likely to brighten the lives of the inmates or lessen the burden of the State. A donation of £500 was left last year to the Liverpool Asylum by the late Mrs. Fox of Redfern, "in recognition of the kindly treatment bestowed upon a patient who was once admitted at her request." It has been recommended that the amount be devoted towards the erection of a cancer ward, to be designated the "Fox Ward," when a suitable site has been obtained. Another philanthropic lady, Miss Nellic D. Brenan of Sydney, has undertaken to pay half the cost of a balcony at the George-street Asylum, in order that some hospital patients, who are unable to go downstairs may be wheeled out of their dormitories sometimes; and an inmate at Newington Asylum, now deceased (named Mrs. Margaret Bradley) bequeathed to the institution a sum of £90, which it was not known she possessed when she was admitted. These, I understand, are the only benefactions of the kind on record. Several concerts were given at the asylums during the year, and they seemed to be much enjoyed.

The Colonial Secretary sanctioned a humane provision for the relief of paralysed and crippled inmates in the hospital wards early in 1890. To enable these sufferers to enjoy outdoor recreation twenty-five invalid chairs have been purchased at a cost of £150, and distributed where most required; and it is not possible to overvalue the boon thus conferred on many poor creatures, who were previously either bedridden or confined to their wards. They are now in turn wheeled about in the open air in genial weather by more vigorous inmates, and this recreation not only contributes to their happiness, but effects a marked improvement in their general health.

It has been deemed advisable to make a permanent arrangement for the carriage of hospital patients to the various asylums from the railway stations on their arrival from the country infirmaries. An ambulance service was provided for this purpose in 1889. The only expenditure necessary was upon the purchase of a horse and ambulance waggon, which are managed by a trustworthy inmate. Indeed, the cost is much less than under the old method of carrying the sufferers in cabs or vans, which was often a source of great discomfort and undesirable for other reasons. This matter is of some importance, seeing that last year 190 patients were received direct from the country hospitals, as well as a large number of others from the interior under magistrates' orders who were too infirm to walk. The plan adopted is to request, as soon as admission orders are issued from the head office, that the Hospital Superintendents shall telegraph information of the departure of patients to the Superintendent of the Asylum they are despatched to. The ambulance then meets the trains, so that hardship to the sick from unnecessary detention is as far as possible avoided.

Although I am naturally disinclined to point out any defects which the re-organisation of the Government Asylums was intended to remedy, it is necessary to state that the books and records generally were in such a defective condition that it was not possible to preserve a check upon the expenditure, or to provide against the waste or misappropriation of stock and stores. There was no reason to suppose that there had been any misappropriation, except in one case to which it is unnecessary to refer further here inasmuch as it does not concern any present official; but the entire absence of ordinary commercial  
books

books placed it in the power of any official, or indeed any person who might improperly obtain access to the stores, to dispose of goods without fear of detection. The expenditure on clothing and hardware exceeded £5,000 annually, and upon drugs over £1,000; and no stock books were kept to indicate how these supplies were distributed. With the exception of Liverpool Asylum the financial books were also so defective that it was not possible to keep a reliable check upon the collections or disbursements. An Inspector was sent from the Treasury to report on the matter, and upon his recommendation complete book-keeping records were adopted, which have since been carefully kept. They include financial and stock books, in which receipts and disbursements of all moneys collected, and supply and distribution of stock and stores are entered. A general stock-taking of drapery, clothing hardware, drugs, &c., is held half-yearly; and the balances in hand at those periods are clearly accounted for. Weighbridges have been placed at all the Institutions to weigh the coal, wood, and other heavy goods, which were previously received without any such check. A further aid to economy has been sanctioned in the shape of a central store at the head office. This will admit of a forecast of the requirements of the institutions in this Department for each year. All goods will then be received at the central store, and distributed thence to the Asylums as required. The present plan is to send a half year's supply at once to the asylums on their own requisitions, and it is then beyond the control of the administrative centre. The Government Stores Department strongly recommend the change, which they are of opinion will obviate a good deal of inconvenience in connection with supplies; and, it is believed, effect a large saving.

A heavy expense has been cast on the Parramatta Institutions during the past two years, with which it is not at present in the power of the Department to deal. The nightsoil service is by law under the control of the Parramatta Borough Council, and it entails an outlay of nearly £450 a year on the George and Macquarie street Asylums, and the Cottage Homes for Aged Destitute Couples. I am not prepared to say that the price paid is out of proportion to the value of the service rendered; but it is quite certain that the soil might be made a profitable source of income if a desiccating plant could legally be placed under the control of this Department. Under the old method the disposal of this material did not cost more than £120 per annum. A plant of sufficient capacity could be procured for about £2,000; it might be erected on the Newington Estate; the annual cost of working it would probably not exceed £300. Desiccated nightsoil is the best manure, and it could readily be sold for £7 a ton—indeed, that price is now paid for it to the Ammonia and Poudrette Company of Botany by the Director of the Sydney Botanical Gardens. One plant could treat nightsoil from all Government institutions at Parramatta, including the gaol, hospitals for insane, and industrial school. Any surplus of reduced soil not required for the farms of these institutions and the asylums for infirm and destitute could be sold, or sent to Ham Common Agricultural College and other Government establishments, as, when thus treated, it is an odourless powder. This project is quite practicable, and the saving which it would at once effect in connection with the asylums of this Department would go far towards making it a financial success.

The consumption of gas at the Parramatta Institutions proved so costly that it became a question for serious consideration as to whether or not it should be continued. In order to reduce the cost, the gas-stoves used at George-street Asylum, for heating the hospitals, were discontinued, and charcoal was substituted, care being taken to provide safeguards against fire. Notwithstanding this alteration, gas at George-street last year cost £184 11s. 2d., and at Macquarie-street, £95 19s. 7d. Kerosene oil, at Newington, has been superseded by Hooker's system of manufacturing gas on the premises from oils. It  
affords

affords an excellent light, and the cost to this large institution, in 1890, was only £37 16s. 10d. Kerosene is still used at Liverpool Asylum, but the Government Architect has been requested to report on the cost of extending Hooker's method to Liverpool and Parramatta Asylums, and if it is adopted a large saving will be effected. It is an absolutely safe method of supply, and skilled labour is not required in connection with it.

At the two largest institutions (George-street, Parramatta, and Liverpool) tell-tale clocks have been placed in the hospitals, similar to those in use at the Hospital for Insane, and careful officials have been appointed as night watchmen, whose duty it is to visit those divisions frequently, ascertain if any patients need attention from the wardsmen, and generally to overlook the institutions at night. These officials keep report-books, which are submitted daily to the Superintendents, and the clock-tables prevent any neglect of duty from escaping detection.

In consequence of the infirm condition of inmates whose quarters are in that division of the George-street Asylum known as the "Mill side," on the bank of the Parramatta River, which consists of five flats, approached by narrow and steep flights of stairs, a report was procured from Mr. Bear, Superintendent of Fire Brigades, as to the liability of the institutions generally to fire, and the danger to inmates in the event of such a disaster. Mr. Bear's report was, on the whole, reassuring. It was to the effect that the character of the buildings rendered any serious outbreak of fire improbable, and some suggestions were made for safeguards, which were forwarded to the Colonial Architect to be dealt with. The principal of these was to connect the George and Macquarie Streets Asylums by telephone with the Parramatta Fire Brigade Station, so that, if required, fire engines could reach either of the institutions in a few minutes. An alteration was made to the iron stove-pipes which pass from the basement through the upper floors, for the purpose of heating the dormitories in cold weather. Where they came in contact with timber they were enclosed in clay drain-pipes, so that ignition of the floors became impossible. Fire-buckets are also kept filled with water in every dormitory. At Liverpool Asylum there is an excellent fire-engine, which is always kept in good order, and a plentiful supply of water is near at hand.

#### DEFAULTING RELATIVES.

The customary difficulties have been met with in inducing persons in good circumstances to contribute towards the support of relatives in the Government Asylums; and it is quite clear that the only remedy must be a legal one, as suggested elsewhere. There are not, so far as can be ascertained from information elicited (but this is very uncertain), very many such cases; but there are some of a very scandalous and cruel nature, in connection with which filial and fraternal affection seem dead among well-to-do persons moving in good society, who have not hesitated to cast parents or other near relatives upon public charity, and neither persuasions nor threats of exposure have brought them to a sense of their duty. Under the English law (43 Eliz., c. 2, s. 6), "children of every poor, old, blind, lame, and impotent person not able to work, being of sufficient ability, are made liable at their own charges to relieve such poor person"; but according to this law the liability could only be enforced so long as the patient was actually chargeable to the parish. In 1890 a measure was introduced into the British House of Commons, which is entitled the "Maintenance of Parents Act." This made it lawful for any poor person to summon his child, or children (including grandchildren), before two justices in petty sessions, or a stipendiary magistrate, and obtain a maintenance against his family, separately or jointly, up to £1 per week, to be enforced in the same manner as

affiliation orders, so that such parent should not become a charge upon the parish. This law, however, does not act both ways, inasmuch as it does not cast a similar liability upon well-to-do parents or grandparents with regard to adult pauper children. A few typical cases have been selected from the asylum records to show the necessity of such a law in New South Wales. Initials only are used. The heartlessness with which all ties of blood or kindred have been ignored in these cases would be incredible if the official records did not afford such undoubted proof of it.

F.B., aged 74.—Twenty-nine years in Government Service, N.S.W., as C.P.S., in two important districts; been in institution three and a half years; exemplary character; well educated; gentlemanly demeanour; wears own clothes; case excites such sympathy that he is allowed to go in and out at will; pleasant habits; brother a Police Magistrate, N.S.W.; son, bank manager; another son a magistrate, and well-to-do; all decline to support him, except bank manager, who allows 1s. a week; have all been written to on several occasions; was compelled to go into asylum to avoid starvation.

P.D., aged 75.—Fifty-five and a half years in Colony; two sons, postmasters in the Public Service, N.S.W.; one daughter, married to postmaster in an important town, N.S.W.; all relatives asked to contribute; one son allows 5s. a week; other replied that when he wanted advice from Director of Asylums as to how he should treat his father he would ask for it; daughter declined to contribute; head of non-contributing son's Department written to, and circumstances of case explained, but declined to interfere.

M.B., 63 years.—Fifty-one years in Colony; widow; son a well-known sporting man in good circumstances; refuses to assist her.

F.J.C.; 66 years; fifty four years in Colony; was in public service for twenty years; one brother bank manager; other in public service; will have nothing to do with him; is now imbecile.

E.J.; 67 years of age; twenty-four years a colonist; before admission to asylum was stopping at Night Refuge; son now retired; lately manager of an important bank in New South Wales; refuses to assist her, and stopped paying for board and lodging to force her into the poor house.

E.F.; aged 98 years; sixty-five years a colonist; daughter married to postmaster, who is also large landowner; declined to keep mother any longer, although well-to-do; was sent on by Magistrate's order; arrived in very weak state, and unable to get about; brought from train by Macquarie-street ambulance, and placed in hospital ward.

F.L.; fifty-two years colonist; paralysed; brother a rich squatter; sister leading resident of important inland town; other well-to-do relatives, who all refuse to have anything to do with him.

E.M.C.; 60 years; colonist for twenty-eight years; suffers from bronchitis; formerly in Camden Hospital; two sons, well-to-do tradesmen, written to, and refuse to support him.

W.G.S.; two sons and two daughters able to keep him, who refuse to assist in any way; one son in Government service.

And so the shameful list goes on. Forty such cases have been handed to me for citation, and those detailed are fair examples of the whole. There are among those not already mentioned the case of a man 73 years of age, fifty years a colonist, who has two sons (one in the Government service). Another of a man, 69 years of age, twenty years in the Colony, in feeble health, whose son, a Government servant, writes:—"I received no aid from him; why should I help him?" The head of this gentleman's department, on being appealed to, wrote:—"I do not see that I can in any way direct this man's actions; I have spoken to and advised him, but can do no more." Two other sons refuse to contribute. A man, 60 years of age, and thirty-nine years in the Colony, suffering from dropsy and heart disease, has a son in a leading Melbourne bank, who refuses to answer letters asking for help. A blind widow, 54 years old, fifty years in the Colony, has a son accountant in one of the largest Sydney firms, who refuses to contribute. R.W., 65 years, fifty years a colonist, has one brother C.E. clergyman in another Colony, another in business as a chemist; both decline to help him. A man has a well-to-do son, mayor of an important borough, who refuses to help him. It is very noticeable that, although a number of children are inhuman to parents, very few parents refuse to contribute something to their children's support, no matter what their age or character may be. It is quite possible that the subjects of some of these cases have led dissolute lives,

lives, and have brought trouble to their families, but it is certain also that many of them are well-behaved old people, whose poverty is their only crime. It may, perhaps, be asked—Why were these persons admitted? The answer is, they could not be permitted to die on the streets. Some have been brought by the police, some from the hospitals. All have presented the Government Medical Officer's certificate that they were infirm and destitute, and, on grounds of humanity, fit subjects for admission, their own kith and kin having cast them off; and I wish to emphasize the statement that every sort of moral influence has been brought to bear on their relatives, who are, however, impervious to all appeals to their benevolence, pride, or shame—indeed, to everything except the application of a law which does not yet exist.

#### THE BOYS' HOME AT GEORGE-STREET ASYLUM.

A division of the George-street Asylum now adjoining the pavilion hospital on the "mill side," was opened in 1882, for the reception of diseased, crippled, and deformed boys, and in that and the following years it contained fourteen inmates. It has since been more or less used for this class of unfortunates, and others who have included lads from ten years of age to young men of twenty. It is separated from the main division as far as possible; and the greatest care and kindness are bestowed upon the inmates, who are placed in charge of a careful and skilled wardsman. The cottage is also contiguous to the trained attendants' quarters, so that the lads have the advantage of their presence and oversight. I have endeavoured to avoid using this division of the institution; and am of opinion that it should be abolished. Although every precaution is taken to keep the lads distinct from the old men, there is a constant moral association which cannot be prevented; and its effect upon young persons must be to destroy their spirit of self-dependence, and probably ultimately cause them to be absorbed into the mass of the pauper population. The perpetual presence of some hundreds of old men having their daily wants supplied without effort of their own cannot be a wholesome spectacle for young minds, and the results of such association elsewhere afford convincing proof that these objections are not a mere question of sentiment. The highest authorities on matters of social science are unanimous as to the necessity for keeping as widely apart as possible the young and the old of the pauper and criminal classes, and except in New South Wales, it is very seldom indeed that they are sheltered in the same premises. Cottage Homes, or boys' farms and reformatories, have happily superseded the poor-house and the gaol. There are at present only eight occupants of the boys' cottage at George-street Asylum. There are one or two pitiable cases among the records of the year, and several others which should be dealt with in a reformatory, if we possessed such an establishment. One little fellow, aged 13, suffers from spinal injury and imbecility consequent, there is too good reason to believe, upon injuries inflicted by a cruel stepfather; another lad, aged 21, who has just died, suffered from disease of the heart and liver, and acute rheumatism. A young man, 19 years of age, is afflicted with dropsy of the legs and feet, and cannot move from his chair without assistance. Then there is a sturdy lad of 16, who, having been discharged from the Central Criminal Court, upon recognisances for his good behaviour for a year, after pleading guilty to a charge of criminally assaulting a little girl of 6 years old, was placed in this division because it was the only refuge for him from association with criminals. Another lad of 17, was sent in because he had, from his own misconduct, become unfit to live in a home outside; and lastly, there is a boy of 6½ years "under observation," who has been declared by the medical officer, matron, and committee of a leading public institution, to be morally unfit to mix with the other children, and particularly the little girls. Although the physical wants of all these lads are fully supplied,

supplied, there are no means of training those who are strong enough to receive instruction to any occupation that will be useful to them in after life; they are being brought up in comparative idleness, except that they potter about a little garden, and occasionally help with housework. The cottage is pleasantly situated, and the home is made bright for the sick children. Such cases as that of the child afflicted with spinal disease, are usually received at the invalid homes of the State Children's Relief Department, at Mittagong and Parramatta; but there was no opening there when he was sent temporarily to his present quarters, and he became so much attached to the latter, when he was in a much better condition of mind and body, that he has been permitted to remain. A recommendation has been made that all these lads should be removed from George-street Asylum, and placed in a separate home with plenty of ground attached to it (apart from any institution for adults) which can be used for others of their class, who are too old or too vicious to be sent to the children's homes at Mittagong and Parramatta, and in which they could, under a firm experienced matron, or a man and his wife, have good moral training, healthy surroundings, and, when requisite, plenty of hard work. I hope to report next year that it has been carried out. A farm home, with accommodation for about 20 to 25 lads, would meet existing requirements, and their maintenance cost would not exceed the usual reformatory charges. The child of  $6\frac{1}{2}$  years will be suitably boarded out in the country, where he cannot associate with other children until he is trained out of his present knowledge. It may seem singular that there is any difficulty in dealing with a youngster of such tender years; but cases of children of six and eight years of age, afflicted with the immorality and vices of criminals, are quite common with the State Children's Relief Department and the Industrial Schools, although they are generally amenable to good influences.

#### THE COTTAGE HOMES FOR DESTITUTE MARRIED COUPLES.

At the Government Asylums for Infirm and Destitute, in 1858, there were a number of respectable aged married couples who, in the decadence of life, after having perhaps been companions for nearly half a century, had fallen into poverty or chronic illness, and had separated—the husband to go to Liverpool or Parramatta, and the wife to Newington. Some of these cases were very sad; and the constant appeals of both husbands and wives for re-union were most painful. Such inmates had belonged for the most part to the respectable middle class of society, and included tradesmen and artizans, farmers, and in some instances persons of very good education. In August, 1888, the Colonial Secretary formulated the idea of re-uniting them in cottage homes or almshouses, and soon afterwards directed that steps should be taken to provide these refuges. It was decided to locate them so that the occupants might enjoy the privileges of ordinary citizens, and be free from the restrictions and surroundings of institutions. A site was purchased for £3,200 near the Parramatta railway station, and early in 1889 twenty cottages and a Superintendent's house were erected at an average cost of £140 each. A cottage was also set apart for three of the more able-bodied single women, who were appointed to do the laundry work, and clean and scrub the homes of the infirm. The buildings were built of brick, and each contained a bed-room, sitting-room, and kitchen, with an attractive garden in front of every home. They were also neatly but plainly furnished at the Government cost. During 1889, 26 men and 38 women were admitted, the numerical difference between the sexes representing the number of workwomen admitted at various times. A married couple was placed in each home, either from the Asylum or from among applicants awaiting admission. Careful inquiries were made into the character of those thus selected, and also as to whether there

there were relatives able to help them. When the homes were occupied, it was found that the combined ages of the oldest couple were 169 years, and of the youngest 129 years. The longest period of marriage among them was 50 years, and the shortest 20 years. The average combined ages of each couple was 141.75 years, and the average period of married life 40.95 years. These figures are very significant of the necessity which existed for the homes, and of the humanity of such a provision. During 1889, 7 men and 16 women (including the "cleaners") were discharged: in the case of the married couples, in consequence of husbands or wives falling into such ill-health that it was necessary for one or other to be returned to the asylum for active hospital treatment and careful nursing; and in such cases, when there was no hope of cure, the remaining member had to be again sent to an institution. One husband and one wife of different couples died in 1889; and on December 31, 1889, there were 18 couples, and 3 workwomen at the homes. During 1890, 4 new couples were admitted; 3 homes were broken up in consequence of the permanent illness of occupants; and on December 31, 1890, there were 19 couples and 4 workwomen at the cottages.

As soon as the selection of inmates commenced it was apparent that the old people had not separated until they had, in most cases, been compelled to do so by bodily infirmities; and that rather than live apart they had, up to the last, submitted to all the hardships of poverty. The cottages thus became practically hospitals for feeble persons requiring infirmary treatment, and diet; and, in nearly every case, medicines. It was necessary to appoint a medical officer, and Dr. Brown, junr., of Parramatta, accepted this post at a nominal honorarium (£75 a year), which about paid the cost of drugs. Thus, although the homes are, in a social and domestic aspect, highly successful, and constitute the most benevolent provision yet made for the sick or feeble poor of this Colony, they can only be maintained under their present circumstances at the rate which it has been estimated by the Medical Adviser of the Government it would cost to support a chronic hospital—namely, about £30 per inmate yearly. This cost might, of course, be much reduced, if more robust couples were selected; but that would be a departure from the main object of their provision, which was to re-unite in their last days those who had creditably fought the battle of life together until they were unable to longer bear the heat and burden of the day. It may be pointed out, however, that the heaviest item in the management cost (salaries, £9 2s. 8d. per head) would not be greater if there were double the number of cottages, and it will decrease proportionately as the homes are extended.

The total expenditure in 1890 was £1,283 3s. 3d., exclusive of repairs, or an average cost of £31 5s. 11½d. per inmate. The following table shows the items upon which the principal increases on ordinary institution charges occur:—

	Rations.	Fuel.	Light.	Water.	Hardware.	Salaries.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
Government Asylum rates, per annum, for each inmate.	6 6 6	0 10 4	0 2 11½	0 5 7	0 2 8	2 17 9
Cottage home rates, per annum, for each inmate.	13 2 4	1 15 1	1 4 5½	0 9 10½	1 1 8	9 2 8

The adjustment of the dietary was a matter of some difficulty. As each home received its allowance separately, it was necessary to watch the daily consumption of provisions carefully to prevent waste or extravagance; and at the same time to ensure that sufficient quantities were issued. Finally, the following table was adopted, as being fair in both respects, and it appears to give satisfaction. The milk

milk is nominally placed at two gills daily to each couple; but it is issued in any quantity prescribed by the medical officer, and it is a common article of diet for delicate inmates.

Rations issued to each cottage daily for one couple.

Food.	Sunday.	Monday.	Tuesday.	Wednesday.	Thursday.	Friday.	Saturday.

Hospitals .....	255														

I have furnished the tables for the past two years in order to show distinctly one or two important features. There has been a falling off in the total number of admissions of 273. The decrease among new applicants has been 419, and increase of re-admissions 221. The latter class consists of persons who may properly be designated the casual pauper population of the country. They are not actually hospital patients, nor are they able to earn a livelihood permanently. They drift in and out of the institutions as their bodily health fluctuates, and the custom, when the medical officers report them as being fit to travel or able to do light work, is to furnish them with railway passes to the interior, generally to neighbourhoods where they are known, and they hang about stations or homesteads cooking for shearers, or filling other light employments, subsisting on charity in many cases, and generally living precariously until the cold weather, or relapses into illness, compels them to again seek the shelter of the Institution. There is no opportunity of making a comparison of their number

number for more than two years, as no such return was previously published. There was in 1890 an increase of 1 in the number of patients received from the Coast Hospital, 33 from the Sydney Hospital, and 33 from the Prince Alfred Hospital, or a total of 67 in this class of patients from the metropolitan infirmaries.

The admission branch is a source of great anxiety, because it is impossible to deal with country applicants so as to ensure with certainty that they are eligible for admission. There is excellent provision against imposition with regard to applicants in Sydney, who constitute more than two-thirds of the cases. The Government Medical Officer, who is beyond the pressure of local influences, undertakes their medical examination at stated hours daily, and makes first inquiry into their circumstances; his investigations are checked by another personal examination, when applicants come to the central depôt for admission orders; and they are again medically examined at the asylums. The risk of receiving improper admissions exists in the country districts, and how to obviate it has been a matter of considerable difficulty. It was quite evident from some of the cases sent in that local hospitals receiving Government subsidy for the maintenance of their own sick poor were casting their responsibilities in a wholesale manner on the Government asylums, and so anxious were some of them to get rid of these unfortunates that many reached the institutions almost in a moribund state. Besides the hospital authorities, country police magistrates sent in patients of this class, who ought to have been treated locally. In more than one instance these patients have died very soon after their admission, and recently it was found necessary to hold an inquest on such a patient, who had been sent in on a medical certificate from Cowra to the effect that he "was physically and mentally fit to travel." He was met at the train by the ambulance, but fell dead at George-street Asylum while being taken out of the vehicle, after five minutes' conveyance from the railway station. The Medical Officer of the Institution expressed the opinion that "death was due to exhaustion owing to the long journey in his feeble state of health," and the jury returned a verdict accordingly.

In the beginning of 1890 an expedient was adopted which to a great extent checked this abuse of State charity, and largely put a stop to a practice which was most cruel. A circular was sent in response to every application from the country districts, and particularly from the hospital authorities, intimating that admission orders could only be granted under the following conditions:—

1. That applicant was both infirm and destitute, and had not any relatives in a position to support him outside a public institution.
2. That applicant was physically and mentally fit to travel.
3. That the case was not one which should be treated in a local hospital, or by a local benevolent society, subsidised for that purpose.
4. That in every case when practicable a medical certificate must be obtained as to the applicant's eligibility for admission into, or treatment in, one of the Asylums for the Infirm and Destitute.

It was further notified that as all the asylums were overcrowded no person must be forwarded unless such a course was indispensable; and medical officers of hospitals were warned that as every patient would be further medically examined on his arrival at the Government Asylums for Infirm and Destitute, it was very requisite that great care should be exercised in connection with the certificates, as it was not desirable that the annual statement to be furnished to the Colonial Secretary for publication in future should contain conflicting testimony. The first four months' operation of this circular brought the country admissions

admissions down nearly 40 per cent., and after nine months' trial the figures at the end of last year stood thus :—

Admissions from the country, January 1 to December 31, 1889.				Admissions from the country, January 1 to December 31, 1890.			
Police Magistrates...	...	...	514	Police Magistrates	...	...	437
Hospitals	...	...	255	Hospitals	...	...	190
Total	...	...	769	Total	...	...	627

A total decrease of 1 1/2 or nearly 19 per cent.

Although the terms of the circular were very explicit, and its result was satisfactory so far, it was still evident that medical certificates were carelessly given in many cases; and the Inspector-General of Police was then requested to allow his local officers to report on cases when practicable, principally with reference to applicants' means. The following *précis* of a few typical cases indicates what followed :—

*Case No. 1.*—From hon. sec. of hospital asking for four orders for inmates of his institution to be transferred to a Government Asylum, and sending four certificates from the hospital doctors. Police report showed that patient No. 1. had been sent to hospital for temporary treatment to recover from exposure and exhaustion consequent on his having been lost in the bush; he was a civil engineer; had quite recovered; was a strong man, and was merely waiting for a suit of clothes to enable him to leave hospital; did not want to go into Asylum. Patient No. 2, a labourer, appeared strong, and was found working as "yardsman," for which he would receive payment; had three married daughters in Queensland. No. 3 was an eligible patient. No. 4 was very doubtful, and was held over. Hospital secretary (who is also local clergyman) was informed that upon information received two orders were declined, and one was sent for patient No. 3; he replied, "You must allow me to say that the course adopted to examine cases upon which our medical officers (men of the highest character) had reported was a most improper one—a direct and uncalled for reflection upon these gentlemen," and concluded by again asking for the order. Was informed that on reports two orders must be declined, as patients were clearly ineligible for Government asylums, and that course adopted was only taken in usual way to protect interests of Government. Secretary replied, "Your statement that this step was necessary to protect the interests of the Government, and ascertain the exact circumstances of each case, only aggravates the insult to our medical officers. . . . The asylums, though improved under your direction are not attractive;" the police report was "untrue and absurd," and so on in similar terms. Orders still refused.

*Case No. 2.*—From a P.M. asking order for Newington Asylum, and enclosing medical certificate that woman was not a fit subject to be treated in local hospital or by local benevolent society, as she was suffering from diffuse carcinoma of uterus and vagina, and showed unmistakable specific symptoms. Referred application to Medical Adviser for his opinion as to whether a person suffering as described could be sufficiently and properly treated in local hospital and benevolent society. Medical Adviser replied, "I am decidedly of opinion that this case should be treated in local hospital and benevolent society." Order refused.

*Case No. 3.*—From a P.M. asking for order for patient in local hospital who was suffering from diarrhoea and needed medical attendance from time to time. Had a son (a farmer) residing 28 miles away who was willing to pay. Noted application to police for inquiry, and minuted it "If there is a local hospital and benevolent asylum subsidised by Government, it appears to me that this man should be treated locally. If not, he should reside with his son, who could obtain the necessary medicines from local hospital." Police sergeant reported that he had seen the son, who rented 1,000 acres of land and dealt in sheep, and he had consented to take his father home.

*Case No. 4.*—Hospital secretary asks for order, and encloses hospital doctor's certificate that patient is suffering from "general debility," and was fit for Liverpool Asylum. Police sergeant reports on this application that he found the patient at work; he had no wish to go into a Government asylum, as he could get his own living if his health kept as good as it was.

*Case No. 5.*—From hospital superintendent asking for a patient to be admitted into an asylum, and enclosing a medical certificate. Police sergeant reports that he found this man at work at his trade as a shoemaker in the town, and he was quite able to get a livelihood. He had not wanted to, nor would he go into any asylum.

There are many such cases recorded, but the foregoing examples are sufficient to show the necessity for stringent legal provisions for compelling country towns to contribute in a direct manner towards the support of such of their own sick and poor as they may decline to keep locally. Some practical suggestions to this effect are made in the outlines of proposed legislation under a different heading. It may be well to

to remark that the experience of New South Wales is not unique in this particular. The experience of all great civilized communities has proved that the only effectual way to prevent the spread of pauperism (the spirit of which is as contagious as the small-pox) is to strike at the root of it, and that is the desire to transfer all local obligations to the central government. There is happily always a disposition to err on the side of humanity, but it exists especially where there are facilities for "passing on" applications for relief, and then it leads to relieving indiscriminately. England has long ago settled the matter very practically by means of the tax-gatherer; and other countries which are still comparatively young among nations are giving the most earnest attention to this particular department of social science. In most of the American States the laws relating to the relief of the poor are very emphatic about compelling the counties to bear the whole maintenance cost of the indigent and the sick by means of local charges. The Canadian system seems best adapted to these colonies, however, and its universal application, while they are still young among the family of States, is worth consideration; for that is the time when the problem can be most easily grappled with. It is thus described:—"Its principle is to get over the difficulty between town and country by State payments of 20 cents a day for each *bona fide* hospital case treated; payments of 7 cents a day for chronic cases unsuitable for hospital patients. To meet the case of small hospitals, where this rate of payment would not be sufficient, a supplementary allowance is made of not more than one-fourth of the revenue from all local sources. For benevolent homes, or refuges for indoor poor, the rate of payment by the State is 5 cents per head per day, with a supplementary aid of 2 cents a day. All other costs for caring for paupers, whether in refuges or hospitals, is borne by the local bodies." Dr. Macgregor, C.M.G., who is an eminent authority, and who was selected by the New Zealand Government on that account to reorganise the general charities of that colony at a time when they were labouring under great abuses, strongly advocates the adoption of this method, as he has seen it working in Ontario.

#### OUTLINES OF NECESSARY LEGISLATION.

I have endeavoured to explain clearly the defects under which the charitable institutions of this Colony labour, in consequence of the absence of some necessary legal provisions; and, before concluding this division of my report, I beg to suggest the outlines of legislation which experience has shown to be required immediately, to make their management thoroughly efficient:—

- (1.) Providing for maintenance cost of inmates to be paid by relatives. Grandparents, parents, children, and grandchildren (whether married or single) to be compelled to contribute when they are in a position to do so.—[The necessity for a law of this character has been explained very fully.]
- (2.) Providing for uniform intercolonial legislation to prevent the transfer of paupers from one Colony to another, and making relatives liable in whichever Colony they may reside. [During the past year several cases have been dealt with in which persons have sent indigent relatives from other Colonies into New South Wales. For example, a son, who was in very comfortable circumstances, sent his mother from Queensland to this Colony twice, and on each occasion she was returned to him at the Government cost; but it was necessary to accommodate her temporarily at Newington Asylum.]
- (3.) Local rates to be chargeable for maintenance (wholly or in part) of all dependent persons transferred from their respective districts to Government Asylums.—[No such condition is embodied in the Local Government Bill, although it

provides for the very liberal endowment of proposed Municipal districts. The Victorian measure (38 Vic. No. 506, sec. 484) imposes this liability on every municipality, including the City of Melbourne and town of Geelong; and the Senate and House of Representatives of the Commonwealth of Pennsylvania—where some of the best managed institutions in the world exist—last year passed a law charging the maintenance of paupers upon their respective counties to the extent of 1 dollar 75 cents each per week, any excess being paid by the State. The division of this report, headed “Admissions,” indicates the extent to which the country authorities have sought to take advantage of the central charities, and the difficulty experienced in disposing of their applications.]

- (4.) Hospitals receiving Government subsidy to be charged with a portion of the maintenance cost of patients who, being under treatment for illness or accident, are in their convalescent stage forwarded to the Government Asylums for Infirm and Destitute for subsequent treatment at the Government cost.—[It is a common practice for country hospitals and benevolent asylums to endeavour to evade their responsibilities in this way, as a number of typical cases cited under the heading of “Admissions” show; although the prime condition under which they receive the subsidy is that “the Government, through Police Magistrates or other approved officers, have the right of recommending the admission of patients.”]
- (5.) Inmate’s pensions to be chargeable for their support.—[A number of the inmates are in receipt of small pensions insufficient to support them outside the Asylums, but from which deductions should fairly be made towards their maintenance cost. At present such payments are purely voluntary on their part, as the pensions cannot be drawn from the head office except with their consent.]
- (6.) Providing for voluntary aid in connection with the management cost.—[All the institutions for aged, infirm, and destitute in this Colony are now wholly supported at the Government expense. In other countries, where the public contributions equal a moiety of the total cost, the contributors are allowed to have an equal voice in the management under certain restrictions. There are also contingent advantages in connection with the voluntary system which it is not necessary to explain in detail here.]
- (7.) Providing for the occupation of inmates at suitable employments, with penalties for refusing to work.—[Although the statistical returns show that the asylums do not contain any able-bodied paupers, still there are many inmates who might, under a proper industrial system, contribute, as in the gaols, towards the cost of their maintenance, and at the same time themselves receive a portion of the profits. At present a good deal of the clothing, boots, and tinware, used at the asylums is made by inmates, who are paid small sums for their work; but the system might be so expanded under better conditions as to make the establishments largely self-supporting, and at the same time afford wholesome light employment to some hundreds of inmates.]
- (8.) Authorising the sale of manufactured articles to other public institutions at schedule rates to be determined by a Board, as in the case of the gaols.
- (9.) Providing for the appropriation and sale or investment of the property of permanent inmates (or moneys or property left by deceased inmates) as may seem most fair in the interests of

of the individual and the State.—[Although care is taken not to admit applicants with means, it not infrequently happens that by misrepresentation they obtain admission while possessing money or property, which they subsequently refuse to transfer to the public trust account. Several such cases are at present under consideration, and the Crown Law authorities state that the Government have no remedy; while in consequence of their physical or mental infirmities the inmates cannot be expelled from the asylums. In one instance a man blind and infirm has a large sum of money in a bank; in another, a deaf and partially blind epileptic has a large sum in the Savings Bank; in a third, the epileptic child of a lunatic has nearly £100 in the Savings Bank; and in a fourth, a man who had been blinded and otherwise seriously injured by an explosion of dynamite before his admission, has property which he declines to sell.]

- (10.) Inmates to open their letters in presence of Superintendent, and one other duly appointed officer, in order that any money contained in such letters may be dealt with under the trust accounts. Any inmate refusing to comply, to have his or her letters opened by Superintendent in presence of another official; and the money contents dealt with in the manner just specified.—[This may appear a trifling matter to embody in an Act of Parliament, but it cannot be dealt with by a mere regulation, because a law already exists relating to the opening of letters by persons other than the owners.]
- (11.) Inmates' money orders to be cashed upon the written authority of the Superintendent, and proceeds paid into the public trust accounts. (The existing law relating to money orders makes this section necessary.) All such orders to be liable for maintenance charges unless reasonable cause to the contrary can be shown.
- (12.) Inmates to be provided with free railway passes by authority of Director of Asylums, under medical certificate that they are able to earn a livelihood, to enable them to procure employment in the country districts, when such a course shall, after due inquiry, be considered desirable for the purpose of relieving the Government of the cost of their maintenance, provided no such pass shall be issued to the same person more than once in every half-year.
- (13.) Director of Asylums, or other duly appointed officer, to have power to take summary proceedings against any person for the recovery of any real or personal property or money owned by any inmate either prior or subsequent to his or her admission to an Asylum.
- (14.) Superintendents to diligently inquire of inmates as soon after admission as practicable as to ownership in real or personal property, and report result of such inquiries to Director of Asylums, in order that section 13 may be carried into effect.
- (15.) Applicants having property or means, and being helpless or infirm, and without relatives in a position to properly attend to them, to be admitted upon payment of maintenance charges according to their means, up to the full maximum cost incurred by the State.
- (16.) Providing for penalties on inmates who abscond, or offend against good order or decency.—[The asylums contain a number of men who would probably be deterred from committing these offences, which are not infrequent, if punishment by seclusion, low diet, or other light penalties were provided.]

(17.)

- (17.) Absconders to be handed over to police and dealt with as vagrants, except when their re-admission is considered desirable by the asylum authorities.
- (18.) Inmates may demand investigation into their treatment or other matters affecting their welfare, and such inquiry shall be made by Director of Asylums, or other duly authorised officer, within forty-eight hours after such demand, the result to be notified as soon as practicable to the applicant or other persons concerned, either of whom may, if dissatisfied, appeal to the Colonial Secretary for his determination in the matters at issue.
- (19.) Superintendents shall not expel or impose penalties upon inmates, except in cases of emergency, to be approved by the medical officer pending further inquiry, without first reporting the cases for approval or otherwise to the Director of Asylums, and records of such emergency cases in detail must be kept in a "punishment book" provided for that purpose.
- (20.) Providing for classification of inmates and separate treatment, according to their physical and mental condition, as to diet, employment, seclusion when requisite on medical grounds, and out-door indulgences.—[The change in the objects and character of the institutions during the past five years, as pointed out elsewhere, renders this section necessary.]
- (21.) Power to establish almshouses or cottage homes of two classes, viz.:—1. Those in which the premises only are granted; 2. Others in which inmates are wholly supported by the State.—[The advantage of such homes is fully explained in this report].
- (22.) Regulating admissions generally, and particularly those from the country districts.—[This is more fully explained under the head "Admissions." At present the Director of Asylums has power to accept or reject applications, whether recommended by Government Medical Officers or not, and the information usually afforded for his guidance is of the most meagre character. Clerks of Petty Sessions might in the first instance be required to inquire into the merits of local applications upon the reports of police, and forward details of cases, accompanied by medical certificates of the applicants' physical disability, to the Director of Asylums for determination, which shall be subject to the decision of the Colonial Secretary in cases of dispute.]
- (23.) Applicants, or any persons applying on their behalf, who make untrue statements, or obtain admission orders by means of misrepresentations, or under fictitious names, to be guilty of misdemeanour, provided they be informed of their liability by the authorities to whom their applications are made.—[Evidence of the necessity of this section is afforded almost daily at the central depot, and the institutions.]
- (24.) Providing for return of inmates to local benevolent asylums, or hospitals in receipt of Government subsidies, whose admission into the Government Asylums for Infirm and Destitute may have been improperly secured by means of misrepresentation on the part of the local authorities; and in cases where such inmates may be physically unfit to be so returned, the offending institutions to be chargeable with their full maintenance cost while in the Government Asylums in the form of deductions from subsidies. Board to determine such cases to consist of the Medical Adviser to the Government, the Director of Government Asylums, and a Police Magistrate when practicable, or otherwise a Justice of the Peace.
- (25.)

- (25.) Superintendents to have power to admit applicants in cases of emergency; and report same to Director of Asylums for investigation as soon as practicable after such admissions.
- (26.) Cases of accident, or other cases which should properly be treated in a general metropolitan or country hospital, not to be admitted into the Government Asylums except when delay in the transmission of such patients to the hospitals would endanger life; and all such patients (or their relatives as hereinbefore defined) to be charged, when able to pay, at the same rate as they would be if under treatment in the general hospitals.
- (27.) Director of Asylums to have power to suspend any official for neglect of duty, dishonesty, or ill-usage of inmates, pending the decision of the Colonial Secretary.
- (28.) Providing for the manner of appointing officers, attendants, and servants of the institution generally.
- (29.) All officials to carry out any instructions that may be given in writing by the Director of Asylums; but Superintendents and Medical Officers to have power of appeal to Colonial Secretary when such instructions appear to them to be improper or unreasonable.
- (30.) Providing for utilisation and treatment of nightsoil and sewerage matter.—[The power to deal with this at present is legally vested in the Borough Council, which has power to make any charge it may deem proper.]
- (31.) Medical Officer to furnish Director of Asylums annually, or when called upon, with reports on the condition of the hospitals, and generally on the sanitary arrangements of the institutions, together with any particulars required in reference to the inmates.
- (32.) Providing that all officials connected with the Department of Charitable Institutions shall be under the control of that Department.—[The medical officers and dispensers at Liverpool and Newington Asylums, and the Cottage Homes for Aged Destitute Couples, are officials of the Department of Charitable Institutions; while the visiting medical officers and dispenser at the George and Macquarie Streets Asylums, Parramatta, are attached to the establishment of the Medical Adviser to the Government. The Medical Adviser agrees that on grounds of discipline, and for other obvious reasons, this arrangement is not desirable, and experience has strongly indicated that the system of control should be uniform.]
- (33.) Providing for religious ministrations to inmates under the method adopted at the gaols and hospitals for insane by the payment of small stipends to clergymen of the principal denominations, the amount of which shall be determined by the Colonial Secretary from time to time.
- (34.) Relatives to be allowed to visit inmates at duly appointed periods; and inmates to be permitted to visit relatives and provided with means for that purpose when special circumstances appear to warrant such a course.
- (35.) Authorizing regulations defining the duties and responsibilities of officials and other employees; and for giving proper effect to legislation; and providing penalties other than those which may be imposed by law, for defaults.
- (36.) The Director of Government Asylums to report annually to the Colonial Secretary on all the Charitable Institutions and other departments under his control.
- (37.) Providing penalties and how to be recovered for breaches of any of the foregoing sections.

## SECTION II.

## SUBSIDY CLAIMS FROM HOSPITALS, BENEVOLENT SOCIETIES, AND OTHER INSTITUTIONS.

A number of subsidy claims from institutions in receipt of State-aid have been referred to this Department for investigation. It should be understood, however, that the following list does not include all such institutions throughout the Colony, but merely those in Sydney and suburbs. The method of inquiry is for an experienced official to compare accounts rendered to the Government with the books of the institutions, and investigate any items that may not be in accordance with the regulations under which subsidies are granted. The under-mentioned claims having been found correct were passed for payment without deductions :—

Institution for Deaf, Dumb, and Blind : £450 for 1889 ; £450 for 1890, for subsidies ; £157 10s., and £247 for inmates admitted by Government.

Home for Indigent Blind Women : Subsidy 1888, £150 ; 1889, £500 ; 1890, £500.

Sydney Benevolent Asylum : Maintenance of inmates, January 1 to December 31, 1889, £4019 13s. 6d. ; subsidy on collections, £500 ; maintenance, 1890, £4,200 17s. ; subsidy, £500.

Sydney Hospital : Claims for subsidy, 1888, £4,000 ; 1889, £4,000.

Prince Alfred Hospital : Subsidy, 1888, £4,000 ; subsidy, 1890, £4,000 ; maintenance of State child, £7 7s.

Hospital for Sick Children, Glebe Point : Subsidy, 1888, £763 17s. ; 1889, £703 4s. 5d. ; 1890, £700.

Infants' Home, Ashfield : Subsidy, 1889, £70 19s. ; ditto, £300 ; maintenance of children, £28 16s.

The following claims being in some particulars irregular, were reduced as indicated :—

Hospital for Sick Children : £633 6s. 1d., claimed for subsidy on collections. The account included an item of £186 17s. 8d., proceeds of an entertainment. In consequence of no larger contribution than £100 being allowed subsidy of like amount, the claim was reduced to £546 8s. 5d.

Infants' Home, Ashfield : Subsidy claimed for 1888, £437 9s. 4d. ; £226 5s. only allowed, the balance of £211 3s. being struck off because it was made up of items which could not be classed as subscriptions, such as £100 interest from the Walker bequest, and a number of payments from parents for the maintenance of children in the home. Subsidy for 1889, claimed on £354 4s. The sum of £229 1s. only was allowed, the books showing that the difference of £124 3s. had been received from parents for the support of children at the home.

Prince Alfred Hospital : Claim for £4,000 (the maximum subsidy) on collections for 1889. The total collections set forth in the account for 1889, amounted to £5,094 10s. 1d., but the Inspector reduced this by £1,440 14s. 10d., which, on scrutiny of the account, was found to be contributions towards the erection of a nurses' home. These had been carried to the general account, and presented in this form as items for subsidy. The claim was not allowed. Further subscriptions to the general fund were, however, added to the balance of £3,653 15s. 3d., until it amounted to the full sum of £4,000 voted by Parliament, which was then handed over to the institution.

Home for the Blind, Castlereagh-street : Subsidy claim for £190 7s. 10d. Disallowed altogether, for reasons stated under the next heading.

It would we well if the books of the country institutions were subjected to the same close scrutiny as those near the metropolis. There is no reason to suppose that they are not kept in a strictly accurate manner, or that the claims for subsidy are not based on legitimate data ;

data; but seeing that the amounts presented from the metropolitan and suburban institutions, as being entitled to subsidy payments, were reduced by £2,054 0s. 3d., when they were, doubtless, deemed by the local authorities to be correct, it would be more satisfactory if the accounts of all such institutions were checked under the same system, lest their managers may be deriving undue advantages from a similar misunderstanding.

## INVESTIGATIONS INTO MANAGEMENT.

### INFANTS' HOME, ASHFIELD.

By direction of the Colonial Secretary two important investigations have been held into the management of institutions subsidised from State funds; and full reports, accompanied by evidence, have been furnished to the Government in both cases. In the first, charges had been preferred by his Eminence Cardinal Moran against the Infants' Home at Ashfield on the following grounds:—1. That the Roman Catholic inmates were not allowed to see the clergyman at the Home; neither were they allowed to go out to Mass. 2. That no priest was admitted to baptize the children, or to administer the sacraments to the Catholic mothers. 3. That the Protestant clergyman visited the institution, and baptized the children of the Roman Catholic mothers. 4. That children who died, for whose interment the institution provides, were all interred in the Protestant cemetery. 5. That children who survived, and were cared for by the institution, were transferred to Protestant homes, and were all reared Protestants. It appeared that although quite 50 per cent. of the inmates professed the Roman Catholic faith, that particular denomination was never represented on the Committee, and no person belonging to it was employed on the staff. The evidence shewed that the charges were partly justified, and partly inaccurate; and some of the alleged conditions had existed eighteen months previously, but had been remedied by the present Superintendent. Several of the rules complained of also applied to Protestants as well as Catholics. A summary of the investigations into this matter showed:—Charge 1. That in accordance with the rule of the Home, from its initiation, neither Protestant nor Roman Catholic clergymen had ever been permitted to visit the Home officially. The only exception made in regard to this matter occurred on five occasions during ten years, when the Rev. Dr. Corlette was sent for to baptize Protestant infants who were supposed to be in a dying state. Further, neither Catholics nor Protestants were allowed to go out of the Home to church until the practice was altered by the present Superintendent. Charge 2. That although the late Superintendent must have been aware that the Rev. Dr. Corlette (Church of England) thus baptized Protestant children, she refused to allow the Rev. Mr. Long (Roman Catholic) the same privilege on the only occasion on which he applied to baptize a sick Catholic infant. The Committee had no knowledge of this occurrence, and the late Superintendent acted upon her own responsibility. From the evidence of the authorities, it further appeared that if the occasion arose the priest would be allowed to baptize any dying Catholic children at the Home. Charge 3. That on one occasion only a Roman Catholic child was baptized at the Home by the Protestant clergyman, at its mother's request (its father being a Protestant), because she thought it was dying, and the Protestant clergyman happened to be present baptizing a Church of England baby. Charge 4. That the children who died (including a number of Roman Catholics), for whose interment the institution provided, were, with one exception, interred in Protestant ground, between 24th February, 1885, and July 30th, 1888; but that since that time all children had been interred in the cemeteries of their respective denominations. The practice originally followed seemed to have arisen from a desire to save expense. Charge 5. That in 1883 two Roman Catholic children were erroneously discharged to the State Children's

Children's Relief Department by the Superintendent of the Infants' Home, as being Protestants, and were boarded-out accordingly. It appeared from the records that up to the end of 1888 the Home had received State subsidies amounting altogether to £9,064 16s. 5d. The subsidies since paid amount to £1,401 10s. 9d.; making the total amount of State aid £10,466 7s. 2d.

#### HOME FOR THE BLIND.

In connection with a subsidy claim for £190 7s. 10d., an inquiry was directed into the management of the Home for the Blind, Castlereagh-street, on 17th October, 1890, and it became apparent at once that a searching investigation was necessary. The avowed objects of the Institution were to afford sleeping accommodation and teach trades to blind men to enable them to earn a livelihood outside. Previous to the addition of the Inquiry Branch to the Department of Charitable Institutions, two annual subsidy claims had been paid to the Home without any inquiry into its management. The Home occupied an eight-roomed house in Castlereagh-street, at a rental of £3 per annum; there were four sleeping apartments, containing, altogether, twelve beds, the front room on the ground floor being used as a shop for the sale of halters, mats, &c. The Inquiry Officer's Report contained the following statements:—

The main object of the Institution is to provide free sleeping accommodation for blind men, the manufacture and sale of goods being secondary,—as the Industrial Blind Institution in the Boomerang Road meets this requirement. According to the Committee's Annual Report (attached), the number of beds provided last year was 1,825—or an average of five beds nightly. At present, however, I cannot find that more than three blind people sleep on the premises. These comprise the Manager, and a man and boy, who live altogether in the house, and are partially employed in the shop or in hawking goods. But admitting that the average number amounts to five, as mentioned in the report, it will be seen that this represents the whole of the work of any utility done by the Institution; and the cost of this is nearly £400 per annum, the subscriptions for 1889 being £190—and subsidy is now claimed for a similar amount. Apart from the above, I would respectfully invite attention to the following points in connection with the Home:—(1) Most of the goods exhibited for sale are purchased by the Institution, and not made by the blind. The man and boy kept on the establishment have little or nothing to do, but are retained and paid "bonuses." (2) The commission paid for collecting subscriptions is unusually large, namely 20 per cent.—the amount under this head last year being £36 19s. 9d., and travelling expenses £14 10s. 11d., for collecting £190. (3) Two of the four Committeemen are relatives of the Manager, while the Secretary is a granddaughter, and the housekeeper is his wife, receiving for her services £1 per week. (4) The accounts are audited (according to the books) by two members of the Committee. (5) The Manager is Treasurer as well as Manager. He states that the subscriptions received have either been paid into his private banking account or absorbed at once in the current expenditure, payment not being made by cheque. Thus it is impossible to certify to the correctness of the subscription-list under notice. [The Government subsidies have been paid direct by the Colonial Treasurer into the Savings Bank, and these have been drawn out as required.] The Committee are at present much hampered for want of funds. I may add that I have consulted disinterested authorities, as well as blind men themselves on the subject, and the unanimous opinion is that the deserving blind do not care, from a feeling of self-respect and independence, to avail themselves of such a charity, but prefer the domestic advantages of their own homes. The meagre call upon the Institution appears to bear out this view, and to point to the conclusion that the Home is not required.

The Committee having named a number of persons as having been taught trades at the Home, by which they were earning a living outside, an endeavour was made to trace them, when it was found that they were at the date of the inquiry employed as follows:—No. 1, blind, played violin outside Town Hall; No. 2, blind, sold halters, but lived mainly on charity; No. 3, blind, travels in country with an organ; No. 4, blind, played a flute; No. 5, not blind, working on a station; No. 6, bad sight, leading a blind man in the country; No. 7, had a little sight, acted as guide to blind men; 8, good sight, worked as labourer; 9, blind, had a selection; 10, blind, had applied for readmission; 11, blind, was learning a trade in another institution for the blind; 12, blind, was living with his father; 13, blind, lived by mendicancy; 14, blind, was in a charitable institution. The Manager

named

named a number of persons as being able to give evidence in favour of the Home, and they were all found, but their statements were of so grave a character (they have been furnished in detail to the Colonial Secretary) that, taking them in conjunction with the official reports, I deemed it my duty to recommend that the subsidy claimed be not paid, and that no further State-aid be given. Briefly stated, the principal grounds of objection to a continuance of support from the Government were thus summarised:—1. The Home was almost useless, inasmuch as it was seldom resorted to by blind men, and trades were not taught to any extent worth considering. 2. Few, if any, persons derived benefit from the Home, except the Manager and his family. 3. If the statements made were to be relied on subscriptions were solicited by means of deceit and misrepresentation. 4. The books were so loosely kept that it was impossible to trace the moneys collected, or obtain a satisfactory statement of accounts, the subscriptions received either having been paid into the Manager's private banking account (according to his own admission) or absorbed at once into expenditure, payment not being made by cheque. 5. The operations were extravagant, as it cost £51 in commission and travelling expenses to collect £190, and according to the last annual report £400 to accommodate five blind men nightly, sleeping accommodation only. Other evidence showed that the number had ranged from one to three, and sometimes there had not been any inmates in the Home at all. 6. The establishment seemed to be carried on as a family affair, the Manager being both Manager and Treasurer, while the Secretary was his grandchild, and the housekeeper was his wife. Two of the four committeemen were his relatives, one being a son-in-law, and the other related by marriage.

There were other equally unsatisfactory conditions in connection with the management, and several of the witnesses made much more serious allegations, which were set forth fully in the evidence submitted to the Colonial Secretary. The reports were forwarded to the Committee in order that they might have an opportunity of answering the charges, but their explanation not being considered satisfactory the subsidy allowance was withheld. As a consequence the establishment designated a "Home for the Blind" was broken up.

#### ADMISSIONS INTO SUBSIDIZED INSTITUTIONS.

Early in 1889 the duty of enquiring into and dealing with admissions of children, at the Government expense, into the Sydney Benevolent Asylum, and other institutions subsidized from the Consolidated Revenue, was transferred to this Department; and there is no doubt that the careful investigations into every such application have resulted in a considerable saving to the State. Care has been taken that no hardship should follow this change of system, by admitting at once applicants whose cases were apparently deserving of relief, and inquiring into them afterwards. By an arrangement with the Benevolent Asylum authorities, direct admissions were also referred to this Department, to be dealt with in the same manner as the ordinary cases just referred to. Under this method I have authorized the admission of 219 children at the cost of the Government in 1889, and 200 in 1890; and 100 such applicants have been refused on the official reports, on the ground that they did not need relief, or that responsible relatives were in a position to keep them. It is often very difficult to draw the line as to the circumstances under which parents or other relatives should be relieved of children. Frequently sober, decent men, in receipt of good wages, ask for their children to be taken over under payment, because they have drunken wives, who neglect the home and allow the little ones to run wild. Sometimes wives will apply under similar conditions, in connection with their husbands. It is worthy of remark, however, that the latter

cases are very rare. Long-suffering respectable women of this class often come to the Department for advice or help, but seldom for the purpose of relieving themselves of their offspring. Experience, too, has shown that when a man is relieved of his children, he pays the maintenance cost for a time, but is soon content to regard the State as their natural parent, ceases to take an interest in them, and in the end deserts them altogether. On the contrary, even the most depraved women seldom lose maternal affection or interest in their little ones; and a good deal of difficulty is in consequence caused by their persistent efforts to trace children who have been taken from them and placed in good homes under better moral influences. It is not possible to make a fixed rule in reference to the class of children eligible for State guardianship. The Department has to be guided by the circumstances of each case. Great care is taken not to break the parental tie unless the necessity for doing so is very urgent indeed, but where father and mother are both irreclaimable it is better, on grounds of social and political economy, for the State to secure the comfort and happiness of the children by incurring the expense of converting them into good citizens, than to reject them with the knowledge that probably they and their descendants will eventually have to be maintained at far greater cost in the poor-houses or the gaols. The following cases, selected from last year's returns, are a few examples of those which have been rejected:—

1. A Police Magistrate applies for the admission of four children, ages from 12 to 3 years, into an institution on the ground that the mother is deserted by her husband and unable to keep them. Usual inquiry directed. Report shows that mother and her sister keep a pie-shop, and appear to be making a living. Her husband is a shearer, and sends her money occasionally. A week before the application he forwarded her £3. Police report "both husband and wife are young and strong and well able to keep the children." It was suggested to the woman that if she was not obtaining enough money from her husband she should proceed against him, but she decided to let him alone until after the shearing "when he would have a large cheque."—Application refused.

2. Mother applies for four of her children to be taken over, leaving her with a baby, on the ground that husband, although regularly employed driving a milk-cart, drinks his earnings, and will not give her support. Report states, "appearance of house and children indicate want of means, although children look healthy and well nourished. Applicant taken no steps to compel husband to support his family, and appears little disposed to do so. I am not satisfied that it is not an arranged thing between the two to get Government to take the children, and am afraid that if this is done nothing more will be heard of parents."—Directed that woman must "apply to magistrate for order against her husband, or no help would be rendered. If she did this she should apply to the Benevolent Asylum for provisions, and report again to Department if she found it necessary to do so."

3. From local clergyman, asking for relief "for poor girl who has fallen a victim to deceitful men; has given birth to two children, and is now an outcast; her parents disown her; she has cast herself upon our mercy, and I recommend her to your care."—Official inquiries disclosed that the woman had two illegitimate children by different fathers, against both of whom she had taken legal proceedings, and who were both paying her for the children. Another report stated that apart from these lapses she was of good character, and could readily obtain employment. Instructions noted on application:—"I do not think this is a case in which the State should interfere. The woman has obtained Court orders against the fathers of her children, and she should, as is usual in such cases, go to service with the baby, which will enable her to make liberal provision privately for the elder child. Inform Mr. ——— accordingly."

4. Man applies for his two children to be taken over on the ground that his wife, a drunkard, neglected them; stated that he was only a fireman earning two guineas a week, and could not afford to provide for them privately, but would pay the Government 5s. a week for the two, and could pay no more.—Inquiries disclosed that the man was steady, and that he earned £3 10s. a week. Instructed that he must make arrangements privately for the children, and that the police might be informed of the condition and surroundings of the home, in order that if they thought the circumstances warranted such a course the mother might be punished.

5. Man applies for his two children to be taken charge of, on the ground that he cannot obtain employment; mother dead. Report showed that children were staying with grandmother, who was living on a little money left by her husband. Another son, a labourer, was living in the same house with four grown-up daughters. Applicant was strong, healthy and 35 years of age; a labourer. Directions issued:—"M. should ask relief from Benevolent Society until he gets work, which is now (1/9/99) easy enough to procure in any department of labour."

6. Father, a vanman, asks for four children to be boarded out, on the ground that the mother is of intemperate habits. Inspector reports:—"I cannot gather that she is so to the extent involving serious neglect of her children, to whom she appears attached. They looked thoroughly healthy, well-nourished, and happy; there was nothing in their condition to warrant State interference; the woman's husband ill-uses her. The case is one of ordinary domestic infelicity, and I respectfully submit whether applicant might not be left to make his own arrangements."—Order refused.

7. Man applies for three children to be taken over, as the mother is dead, and he cannot get work, having been out of employment some time. Inspector reports that the man is in regular employment at a boot-factory, earning good wages.—Order refused.

8. Step-daughter of a man applies for her two step-sisters to be boarded out, on the ground that the mother was dead, and their father did not look after them or give sufficient means of support. Inquiries disclosed that the man was in regular employment, and was able and willing to provide for the children.—Order refused.

### SECTION III.

#### RELIEF TO THE UNEMPLOYED.

In consequence of representations to the Colonial Secretary, on February 20th, 1890, to the effect that a large number of men were without food or shelter in Sydney, and could not obtain employment, and the weather at that time being very inclement indeed, it was directed that temporary shelter should be given to them in the drill-shed at Fort Macquarie, pending an inquiry into the necessity for continuing relief at the Government expense. I was instructed to undertake the administration of relief, in conjunction with an officer from the Colonial Secretary's office. The shed was opened on February 20, and 167 men presented themselves for shelter on the evening of that day. Their occupations were registered as follows:—Blacksmith, 1; bootmaker, 1; butcher, 1; carpenters, 2; cooks, 5; clerks, 4; dentist, 1; grocer, 1; labourers, 140; mason, 1; miners, 3; printer, 1; painters, 3; upholsterer, 1; lawyer, 1; sailor, 1. They were, with few exceptions, able-bodied; a very large proportion were young men; they were sober, and generally well clad. The daily official report presented to the Colonial Secretary on the following day stated that it was somewhat significant that the majority were recognised by two reliable public officials, who had a year previously acquired a thorough knowledge of this particular class of the community, in connection with the operations of the Casual Labour Board, as men who were almost invariably out of work. The greater number were usually on the Government Relief List at the period referred to, and quite eighteen per cent. were recognised as having been defaulters—that is, men who conducted themselves so unsatisfactorily that assistance to them had been discontinued. Although only 167 presented themselves on February 20th, it was represented that about 800 would probably require shelter. On the following night, however, only 80 men sought shelter, and they were classified as follows:—Labourers, 62; carpenters, 2; painter, 1; cook, 1; mason, 1; seamen, 2; blacksmith, 1; groom, 1; hatter, 1; brickmaker, 1; lawyer, 1; clerks, 2; printer, 1; miner, 1; bricklayer, 1; butcher, 1. The Casual Labour Board's books showed that 45 of these 80 had been on the old relief list, and 19 had been dismissed from the works for misdemeanours. On the third night 152 men applied for shelter, and their occupations were recorded as—labourers, 126; carpenters, 2; painters, 2; cooks, 3; mason, 1; seamen, 2; blacksmith, 1; groom, 1; baker, 1; brickmaker, 1; lawyer, 1; clerks, 3; printers, 2; miners, 2; bricklayer, 1; butcher, 1; chemist, 1; upholsterer, 1. 94 were recognised as having been almost continually employed by the Casual Labour Board, and of these 37 were recorded as defaulters. On the first night a new blanket was served out to each man, and on the following morning most of the blankets were so contaminated with vermin that they could not be returned to the Government stores; but were subsequently cleansed

as

as far as possible, and distributed among the poor families receiving relief from the Benevolent Society. After the third day relief was discontinued. On this occasion shelter, but not rations, was granted to the men.

On May 7, 1890, a similar application for relief was made by a deputation to the Colonial Secretary, on behalf of the unemployed, and it was again alleged that at least 800 men would require shelter. The same method was adopted as on the previous occasion. On May 8th, 136 men received shelter and the use of blankets. They were all of the same class as those relieved in February, and 32 were the same men. On the following day it was decided to grant applicants a ration of bread and cheese, and 168 men were sheltered and fed. 53 of them were recognised as having received relief at former periods. On the 10th May, 159 were sheltered, and 160 fed. On Sunday, the 11th, 200 were fed, and 190 sheltered. On the 12th, 203 men received rations, and 217 were sheltered. Upon these applicants being questioned as to where they came from, the following particulars were elicited:—From Victoria, 63; Queensland, 33; New Zealand, 21; South Australia, 10; Tasmania, 2; America, 9; Germany, 2; England, 20; Ireland, 20; Scotland, 5; and New South Wales only 25 of the whole number. Of these 25, 20 men were recognised by the police as habitual park loafers, who seldom or never worked. The only ration issued was 1 lb. of bread, and a  $\frac{1}{4}$  lb. of cheese; but as it was suspected from conversations among the men that a large number were also drawing rations from public institutions, the Superintendent of the Soup Kitchen was requested to attend the next distribution. He did so, and the information supplied by him led to a recommendation that relief should be discontinued. He stated that on Sunday, after obtaining the Government ration, 63 men applied for dinner at the Soup Kitchen, and on Monday there were 58 similar applicants. He had been present at the distribution of rations on both days. It was therefore decided to discontinue indiscriminate relief, but to administer relief to any deserving persons who might afford proof that they were really in distress. None of the men, however, made any further application, and consequently the relief was not continued. The figures are sufficiently instructive to render comment unnecessary.

## SECTION IV.

### THE STATE CHILDREN'S RELIEF DEPARTMENT.

This important division of the Department of Charitable Institutions has, as usual, done a large amount of work during the past year, under the control of the State Children's Relief Board, of which the Hon. Arthur Renwick, M.D., M.L.C., has been President since the initiation, in 1881, of the boarding-out system of dealing with dependent children in this Colony. His customary comprehensive report on the operations of the Department for the official year ending April 5, 1890 (the annual period prescribed by 44 Vic. No 24) will shortly be presented to Parliament, and it has not hitherto been customary outside that document for the officer directing or inspecting the Charitable Institutions to do more than state the results of the work carried on amongst these children in the time covered by his own annual statement,—that is, during each year ending December, 31. The President has suggested that in any new legislation—which he has from time to time recommended in some very important particulars for the more efficient management of State children generally—the annual periods shall be made to correspond. The present method requires a number of officials, who have no spare time, to devote nearly a week to the preparation of two sets of annual statistics within three months every year.

The

The particulars of the children under control on December 31 1889, and December 31, 1890, are placed in juxtaposition for comparison in the following table:—

	Boarders.		Apprentices.		Adopted without Payment.		Boarded-out without Payment.		Absconders' List.	
	1889.	1890.	1889.	1890.	1889.	1890.	1889.	1890.	1889.	1890.
Boys ... ..	786	735	462	560	56	53	8	14	13	20
Girls ... ..	478	478	240	287	86	86	5	13	2	4
	1,264	1,213	702	847	142	139	13	27	15	24

	Unofficial Children.		In Hospitals.		In Cottage Homes.		In Depôt.		Total.	
	1889.	1890.	1889.	1890.	1889.	1890.	1889.	1890.	1889.	1890.
Boys ... ..	3	2	1	1	49	43	...	3	1,378	1,431
Girls ... ..	11	3	3	3	62	73	1	2	888	949
	14	5	4	4	111	116	1	5	2,266	2,380

There are one or two features in connection with this table deserving of special remark. Although the difference between the admissions and discharges in the two years shows an increase of 44 in the total number of children under the control of the department on December 31, 1890, yet there has been a decrease in the number whose support is paid for by the State of 51 in the boarding-out division and cottage hospitals combined, these being the only branches against which a maintenance cost is chargeable. It is expected that the "adoption without payment" provision of the Act, which does not exist in connection with any other department controlling dependent children, in conjunction with the apprenticeship and service divisions, will so operate as time lapses that there will never be a material increase in the number of children who are a charge upon the Government. The numerical advance last year occurred principally in the apprenticeship branch, which increased from 702 to 847, and among those boarded-out without payment, as a preliminary to complete adoption, whose number advanced from 13 to 27. The class designated "unofficial," are children who, being above the age at which they can be legally taken over under the State Childrens Relief Act, and having been left without natural guardians, have voluntarily surrendered themselves for protection. Their number has decreased from 14 to 5, the other 9 having gone to situations on their own account. The absconders have increased by 9 in 1890, but the whereabouts of most of them are known. As they are nearly all of advanced ages, and are doing well in situations, it is not deemed advisable to bring them again under the rules of the department, which they refuse to comply with.

The

The Cottage Homes at Pennant Hills (Parramatta) and Mittagong continue to be a most beneficent provision for sadly afflicted children, who otherwise would have to remain in institutions. Since the establishment of the first home in 1885 (there are seven such refuges) 511 invalid children have been admitted into them, and 395 have been sufficiently cured to be placed in boarding-out homes among healthy children, or discharged in other ways. The nature of their complaints, and the work of humanity which is done in these homes may be judged from the following statement of diseases with which the children were afflicted when admitted:—

Abscesses ... ..	2	Delicate and lame ... ..	1
„ ... ..	1	„ ophthalmic ... ..	5

Necrosis of foot ... ..	1	Children who have passed through	
One eye ... ..	2	homes as apprentices ... ..	38

Only 1 child died at the Cottage Homes, and 5 boys and 2 girls died in the boarding-out division during 1890, which is a very low rate of mortality indeed, considering the classes and ages of children who are taken in charge.

The gross annual average cost per head of boarded-out children at the date of last statement was £14 7s. 5d., and after deducting £634 19s. 9d. payments by parents towards maintenance, the net cost to

to the Government was £13 18s. 5d. per child, which was the lowest charge recorded since the creation of the department in 1881.

At the Cottage Homes the average capitation cost in 1890 was £22, or 2s. 6d. per head less than in 1889. Under the one method there is a saving on institution charges of at least £7 per child, and by the other not less than £25 per head on the charges in hospitals, from which most of these little ones were taken.

#### CONCLUDING REMARKS.

I have to apologise for the length of this report; but as it is the first sent in under the new system of dealing with the charitable institutions of New South Wales, it has been necessary to explain the operations of each department in detail, in order that the results of the reorganization directed by the Colonial Secretary in August, 1888, should be clearly understood. I have at the same time to express my thanks to the various heads of the Government Departments, and other officers in the Service, who have rendered me much valuable assistance in carrying out the duties of my office.

I have the honor to be,

Sir,

Your most obedient Servant,

SYDNEY MAXTED,

Director of Government Asylums and Boarding-out Officer.

1891.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## MAINTENANCE OF SICK PAUPERS.

(REPORT ON VOTE FOR THE YEAR 1890.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

The Medical Adviser to the Government to The Colonial Secretary.

Sir,

Sydney, 22 April, 1891.

I do myself the honor to submit herewith a report on the administration of the vote for the maintenance of the sick poor, for the year 1890, together with certain returns in continuation of those for the year 1887-8-9 presented, with a report on this vote during those years, on the 1st of May, 1890.

The Hospital Admission Depot has been continued in rooms at the top of King-street during the year, and was in charge of Dr. Strong, from January 1 to May 1; but on leave being granted to this officer, prior to retirement from the Public Service, the duties were undertaken by Dr. Paton, the acting Government Medical Officer, who was in charge at the close of the year.

The following table shows the number of applicants for Hospital treatment during the year, together with the manner in which they were dealt with.

### HOSPITAL ADMISSION DEPOT, 1890.

TABLE showing how the Applications for Hospital treatment were dealt with.

Nature of Order issued and number refused.	Jan.	Feb.	Mar.	April.	May.	June.	July.	Aug.	Sept.	Oct.	Nov.	Dec.	Total.
Coast Hospital .....	129	97	106	125	110	114	112	121	110	94	106	106	1,330
Prince Alfred Hospital .....	50	44	42	47	54	31	39	42	50	44	49	36	528
Sydney Hospital.....	53	72	51	54	54	43	53	42	55	64	58	57	656
Moorecliff Ophthalmic Hospital .....	20	17	18	15	12	7	11	12	12	13	14	10	161
Asylums for Infirm and Destitute .....	81	77	72	86	90	89	108	90	98	119	110	117	1,137
For Outdoor Hospital treatment .....	120	95	104	149	97	53	71	60	103	94	76	85	1,107
Trusses .....	8	7	7	4	5	4	7	6	6	4	5	6	69
Refused Orders .....	46	42	48	60	39	44	38	21	43	29	35	52	497
Total .....	507	451	448	540	461	385	439	394	477	461	453	469	5,485

It will be seen that of 5,485 applicants, 1,330 received orders for the Coast, 656 for the Sydney 528 for the Prince Alfred, and 161 for the Moorecliff (Ophthalmic) Hospitals, whilst 1,137 were recommended for admission to the Asylums for the Infirm and Destitute, and 1,109 for out-door Hospital treatment. The large number of 497 were refused relief as being unfit subjects for aid from the Government votes, and 69 received orders for trusses.

On referring to the table for the year 1889 it will be seen that there were 732 more applicants in 1890 than during that year, and that in the disposal of these the stress fell mainly on the Asylums, for which a much larger number of recommendations were issued.

The Medical Officer at the Admission Depot is charged not only with the apportionment of the applicants to the Institutions for which their diseases and necessities best fit them, but through subordinate officers with making preliminary inquiries as to their fitness, on the score of poverty, for Government relief. During the year steps were taken to obtain much more complete information relative to the applicants for relief at the Hospital Admission Depot than had heretofore been collected, and this information, though not complete for 1890, will be available for future reports.

It is a somewhat curious fact that a considerable number of the orders and recommendations given are never presented to the institutions named therein. This, whilst especially the case with recommendations to the Asylums for the Infirm and Destitute, also applies to the Sydney and Prince Alfred Hospitals, fifty-six orders given during the year for the former, and six for the latter not having been presented. In some cases, notably those in which the recommendations are for the Asylums for the Infirm and Destitute, the applicants not being at the end of their resources refuse to take advantage of the proffered aid; and in others, especially in the case of the two main Hospitals, the patients not being recommended to the institution for which they have a preference, decline assistance at all. This is the more remarkable as the cases recommended for treatment in the Sydney and Prince Alfred Hospitals are, as a rule, suffering from the severer forms of disease.

In addition to the cases dealt with by the Government Medical Officer at the Hospital Depot a number are taken to the metropolitan hospitals who are found by the police in a critical condition, whilst others (severe cases of typhoid fever and urgent cases of disease especially reported) are sent with orders issued direct from the Medical Adviser's office. All these cases, as well as those admitted through the Hospital Admission Depot, are paid for by the Government at the rate of 3s. a day, and in addition ambulance charges and funeral expenses are, as a rule, paid for from the Government vote. The following table shows the number of such cases admitted to Hospital during the year:—

Orders issued for the Admission of special and urgent cases and cases taken to Hospital by Police or transferred from Government Institutions for special treatment.

<b>Total .....</b>	<b>96</b>	<b>64</b>	<b>160</b>	<b>933</b>	<b>654</b>	<b>1,637</b>	<b>884</b>	<b>592</b>	<b>1,470</b>	<b>92</b>	<b>49</b>	<b>141</b>	<b>103</b>	<b>77</b>	<b>180</b>	<b>266</b>	<b>177</b>	<b>443</b>	<b>37.15</b>	<b>60,063</b>	<b>£ 9,010 4</b>	<b>£ 87 1 6</b>	<b>£ 80 11 6</b>	<b>£ 46 9 0</b>	<b>£ 3,131 8 0</b>

It will be seen that the Prince Alfred Hospital received £3,717 12s. 6d., the Sydney Hospital £3,338 19s. 6d., and the Moorecliff (Ophthalmic) Hospital, which is managed as a branch of the Sydney Hospital, the large amount of £2,074 16s., and that the average stay of Government patients in these institutions was 37, 23, and 68 days respectively.

Calculated on the admissions (the numbers in Hospital at the close of 1889 and of 1890 being taken as nearly balancing each other) the cost to the Government of each patient has been, at the Sydney Hospital, £4 5s., at the Prince Alfred Hospital, £5 12s., and at the Moorecliff Ophthalmic Hospital, £10 7s., the cost being in proportion to the number of days in Hospital.

With regard to the Moorecliff Hospital, at which the large majority of cases are always at the charge of the Government, I desire to point out the very large Government expenditure. In addition to paying £2,074 16s. at the rate of 3s., per diem for each patient, the Government has also paid £400 as rent of the house in which the patients live. Considering that a considerable proportion of the patients on discharge go to Asylums for the Infirm and Destitute with more or less impaired vision, it seems doubtful if the benefits accruing are commensurate with the expenditure incurred, and reasonable to think that the Government might undertake the management of the Ophthalmic Hospital and carry out the work at a considerable reduction in the cost since the class of cases require but little expenditure for nursing and medicine, and but little beyond ordinary diet.

The following is a statement of the number and classification of all patients admitted to the Sydney, Prince Alfred, and Moorecliff Hospitals during the year 1890:—

Classification.	Sydney.	Prince Alfred.	Moorecliff.
Accidents .....	664	233	8
Urgent medical and surgical cases.....	657	369	20
<b>Total .....</b>	<b>1,321</b>	<b>602</b>	<b>28</b>
Pauper patients paid for by the Government at the rate of 3s. per diem .....	765	662	202
Paying patients contributing towards their maintenance at various rates .....	381	1,059*	58
Patients admitted under subscribers' orders.....	404	..	18
<b>Total admissions .....</b>	<b>2,871</b>	<b>2,323</b>	<b>306</b>

\* Four of these patients were admitted under the "Bed Donors" regulations.

From the above figures it will be seen—

- 1st. That the percentage of accidents and urgent cases admitted without charge at the Sydney on the total admissions, is 46·01; at the Prince Alfred, 25·92; and at Moorecliff, 9·15.
- 2nd. That the percentage of pauper patients, paid for by the Government, on the total admissions at Sydney, is 26·65; at Prince Alfred, 28·50; and at Moorecliff, 66·01.
- 3rd. That the percentage of cases paying towards their maintenance at Sydney, is 13·27; at Prince Alfred, 45·58; and at Moorecliff, 18·96.
- 4th. That the percentage of patients admitted on subscribers' orders at Sydney, is 14·67; at Prince Alfred, nil; and at Moorecliff, 5·88.

On consideration of all accidents and urgent cases brought to the Hospitals being admitted, the Sydney and Prince Alfred Hospitals are subsidised by the Government by payments of £ for £ for subscriptions collected, and the sums paid to them on this account for 1890 was £4,000 for each Hospital. Of these cases it will be seen that Sydney admitted 1,321 and Prince Alfred 602; the latter institution is therefore performing only half the work that Sydney does for the same consideration.

In conclusion I beg to point out that the arrangements under which the sick poor now receive Hospital relief are briefly as follows:—

- 1st. Accidents and urgent and necessitous cases taken to the Hospital are admitted at once, provided there are beds, and the cost met by the Hospitals from the annual subsidy granted by the Government.
- 2nd. Cases of sickness discovered either in the streets or elsewhere by the police are admitted at once by the Hospital authorities provided there are vacant beds, and orders are subsequently granted from the Medical Adviser's officer for payment at the rate of 3s. per diem from the vote for the maintenance of sick paupers.
- 3rd. In certain urgent and necessitous cases reported to the Medical Adviser by medical practitioners, orders are given for admission, and the patients are paid for at 3s. a day from the vote above mentioned.
- 4th. The Hospital Admission Depot, at the top of King-street, is open from 10 to 12 daily, except Sunday, Good Friday, and Christmas Day. All sick persons applying are examined by the Government Medical Officer as to their sickness, and also as to their means. All who are in necessitous circumstances are given orders to either the Coast, the Sydney, or the Prince Alfred Hospital, according to the special nature of the illness and the beds vacant at the respective Hospitals, and, in the case of the Sydney and Prince Alfred Hospitals, payment is made by the Government at the rate of 3s. a day.

Cases which, on examination, appear not to need Hospital treatment, and to be suitable for the Asylums for the Infirm and Destitute, are given recommendations for those Institutions.

I have, &c.,

F. NORTON MANNING, M.D.,

Medical Adviser to the Government.

1891.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**LOCAL OPTION.**

(RESULT OF VOTE TAKEN IN METROPOLITAN-SUBURBAN MUNICIPALITIES IN FEBRUARY, 1891.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

The Inspector-General of Police to The Principal Under Secretary.

Sir,

Police Department, Inspector-General's Office, Sydney, 27 April, 1891.

I have the honor to submit herewith, for the information of the Colonial Secretary and transmission to the Minister of Justice, a report received from the District Inspector of the Metropolitan Licensing District, together with a comparative return showing the result of the Local Option Vote taken in the Suburban Municipalities within the Metropolitan Licensing District during the aldermanic election in February last.

I have, &amp;c.,

EDMUND FOSBERY,

Inspector-General of Police.

Submitted.—28/4/91.      The Minister of Justice.—H.P., 30/4/91.      The Under Secretary of Justice.—C.W., P.U.S., B.C., 6 May, 1891.

[Enclosure.]

Sir,

Woolloomooloo Station, 27th April, 1891.

I do myself the honor to forward herewith a comparative return showing the result of the Local Option Vote taken in the Suburban Municipalities within the Metropolitan Licensing District during the aldermanic elections in February last.

When the vote was taken in February, 1888, there were on the Municipal lists 50,356 voters. This year there were 56,766, showing an increase during the last three years of 6,410.

Only 12,101 voted under Division A, and 11,626 under Division B, which result, omitting fractions, is about 21 per cent., being 1 per cent. more than when the last vote was taken.

There are 28 Municipalities which are divided into 94 wards, and 5 Municipalities undivided. Out of 99 elections the Local Option Vote was carried in 89 in the negative and 10 in the affirmative in both Divisions A and B.

There are at present 490 hotels in the city of Sydney, 18 in places not incorporated, and 351 in the Suburban Municipalities, showing an increase in the latter of 21 since the vote was taken in 1888, caused by the incorporation of Botany, North Botany, and Enfield, and the granting of licenses to large hotels which had the requisite number of rooms to overcome the Local Option Vote.

The following is the result of the licensing business in the suburbs since the Local Option Vote was taken in 1888:—

NEW PUBLICANS LICENSES.

Granted	...	...	...	...	...	...	...	...	...	1
Refused	...	...	...	...	...	...	...	...	...	3
Withdrawn, &c.	...	...	...	...	...	...	...	...	...	1

CONDITIONAL LICENSES.

Granted	...	...	...	...	...	...	...	...	...	17
Refused	...	...	...	...	...	...	...	...	...	47
Withdrawn, &c.	...	...	...	...	...	...	...	...	...	45

In the Suburban Municipalities in 1885 there were 298 hotels; in 1888 there were 330; and in 1891 there are 351.

1891.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**ADMINISTRATION OF JUSTICE.**

(SPIRITS, WINE, AND BEER—CONVICTIONS UNDER LICENSING ACT.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

FURTHER RETURN (*in part*) to an *Order* of the Legislative Assembly of New South Wales, dated 15th February, 1884, That there be laid upon the Table of this House, for the years 1881, 1882, and 1883, respectively,—

- “(1.) The quantity, in gallons, of spirits, wines, and beers, respectively, imported into this Colony.
  - “(2.) The quantity, in gallons, of spirits, wines, and beers, respectively, manufactured in this Colony.
  - “(3.) The quantity, in gallons, of spirits, wines, and beers, respectively, imported and manufactured, per head of the population of the Colony.
  - “(4.) Also, Returns from each Police District of the Colony, including the Metropolitan District, under the following heads:—
    - “(a) The number of licensed houses in each district.
    - “(b) The number of Colonial wine, wholesale wine and spirit, and brewers’ licenses, respectively, in each district; also, the number of licenses to distil spirits.
    - “(c) The number of convictions for drunkenness.
    - “(d) The number of convictions for drunkenness, with obscene or indecent language.
    - “(e) The number of convictions for drunkenness, with riotous behaviour.
    - “(f) The number of convictions for drunkenness, with common assault.
    - “(g) The number of convictions for drunkenness, with assault upon the Police.
    - “(h) The number of offences of the above nature committed between 8 a.m. on Saturday and 8 a.m. on Sunday; and the like between 8 a.m. on Sunday and 8 a.m. on Monday.
    - “(i) The number of convictions for selling on Sunday.
    - “(j) The number of convictions for selling during prohibited hours other than for Sunday-selling.
    - “(k) The number of convictions for selling adulterated liquors.
- “That such Returns in future be laid upon the Table of this House and printed as soon after the close of the year as possible.”

(*Mr. Hutchinson.*)

RETURN showing the number of Licensed (Publicans') Houses in each District for the year 1890, under the Licensing Acts of 1882-83.

NEW SOUTH WALES.

**PUBLICANS' LICENSES FURTHER RESTRICTION BILL.**

(PETITION FROM JOHN DAVIES, CHAIRMAN OF A CONFERENCE, HELD IN TEMPERANCE HALL, SYDNEY.)

*Received by the Legislative Assembly, 27 May, 1891.*

To the Honorable the Speaker and Honorable Members of the Legislative Assembly, in Parliament assembled.

The humble Petition of the undersigned Chairman of a Conference held in the Temperance Hall, Pitt-street, Sydney, at which the accredited representatives and other members of the New South Wales Local Option League, the Wesleyan Church, the Church of England Temperance Society, the Sons of Temperance, the New South Wales Alliance, the Women's Christian Temperance Society, the New South Wales Band of Hope Union, the Young Men's Christian Association, the Congregational Total Abstinence Society, the Sydney City Mission, and the Blue Ribbon Army,—

SHOWETH:—

That your Petitioners regard with much satisfaction the action of the Government in introducing in the last session of Parliament the Publicans' Licenses Further Restriction Act.

That it was resolved at this Conference to represent to your Honorable House that it was its earnest desire that the said Bill should pass into law.

It was also resolved to respectfully ask your Honorable House to make the following amendments:—

1. Believing that one-sixth of the electors was too large a number to be necessary to demand a poll, not less than one hundred to be substituted.
2. That no deposit be necessary when a poll is demanded.
3. That a simple majority instead of two-thirds be sufficient to carry the prohibitory resolution.
4. That a clause be inserted so as to include in the Local Option vote power over the sale of liquor in clubs.
5. That the provisions of the Bill be made to apply to all licenses and not to publicans only.
6. That in the event of a poll failing to bring in force either of the resolutions it be allowed to demand a fresh poll at the end of a year.
7. That no extension of from one to three years of a license be allowed.
8. It was further agreed that it was very desirable to retain in the Bill the very valuable power proposed to give electors to permit them to demand a poll on either of the three resolutions contained in the Bill, so that they might be enabled to veto new licenses, or have prohibition. It was believed that to omit either of these resolutions would wrongly curtail the rights which ought to belong to the people.

They therefore pray that your Honorable House will be pleased to take the foregoing Petition into your favourable consideration.

And your Petitioners, as in duty bound, will ever pray.

18th April, 1891.

JOHN DAVIES,  
As Chairman of the Conference.

1891.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

**PUBLICANS' LICENSES FURTHER RESTRICTION BILL.**  
PETITION FROM CALEB GAMBLING, CHAIRMAN OF A MEETING OF RESIDENTS OF CASTLE HILL

*Received by the Legislative Assembly, 28 May, 1891.*

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in  
Parliament assembled.

Your Petitioners, residents of Castle Hill and the surrounding districts, while thankful that the Government has introduced a measure dealing with the important question of liquor law reform, would humbly pray that the following provisions may be embodied in the Publicans' Licenses Further Restriction Bill now before your Honorable House:—

1. That Publicans' Licenses be limited as at present to one year.
2. That 100 electors be sufficient to demand a poll.
3. That no money deposit be required.
4. That the vote be taken on the simple issue of "License or No License"; that a majority of those voting decide the question; and that in the event of the vote being effective it shall come into operation at the expiration of the current annual licenses.
5. That in the event of a failure to obtain prohibition another poll may be demanded at the end of twelve months from the date of last vote.
6. That the vote embraces brewers, wine and spirit merchants, distillers, and grocers' licenses and be made to apply to clubs.
7. That not less than 100 electors who are qualified to vote can petition the Minister to test the validity of the poll, or to upset the decision arrived at by the majority of the electors.

Praying that your Honorable House will take the foregoing premises into your favourable consideration; and your Petitioners, as in duty bound, will ever pray.

Signed on behalf of the meeting,

CALEB GAMBLING,  
Chairman.

May 14th, 1891.

A similar Petition was received on 28th May, 1891, from members of Star of Hope Division, No. 14, Sons and Daughters of Temperance, Balmain.

1891.

## NEW SOUTH WALES.

**MILITARY FORCES OF THE COLONY.**

(FOR THE YEAR 1890.)

Presented to Parliament by Command.

The Major-General Commanding the Military Forces of New South Wales to The Principal Under Secretary.

Sir,

I have the honor to forward my report of the Military Forces for the year 1890. The strength and establishment is now embodied in a tabulated form attached, which will be found a more convenient method of conveying information than that hitherto adopted.

## PERMANENT ARTILLERY.

This Corps has been increased during the past year to 558 of all ranks, necessitated by the progressive nature of the service in regard to increased armament and stores, the better organisation of the Artillery, and the performance of work which has hitherto been in a great measure done by outside labour.

The non-effective list comprises 46 desertions, 1 death and 81 discharges, which are made up as follows:—

Termination of limited engagement	...	...	42
By purchase	...	...	8
Medically unfit	...	...	10
Free	...	...	5
Incorrigible and worthless	...	...	1
Misconduct	...	...	11
Inefficiency	...	...	1
Conviction by Civil power	...	...	3
Total	...	...	81

The desertions show an increase of 18 over those of last year, for which it is difficult to assign any special reason, and I fear that this item will always be a somewhat prominent feature, seeing the facilities with which men chafing under discipline can reach the adjoining colonies. This disability is, I believe, common to the Permanent Forces throughout Australia.

The number of Courts-Martial (30), chiefly on deserters, has varied but little from that of previous year, and, with this exception, the general conduct of the Corps has been good.

During the year the Government has approved of a fresh division of the Artillery Defences, and the consequent separation of the command of the Artillery Forces from that of the Permanent Artillery. This redistribution of labour and responsibility will enable the Artillery command to be satisfactorily administered, which was not possible under an officer, as heretofore, holding the dual office.

A Riding School has been established for the training and instruction of officers and non-commissioned officers of the Permanent and Volunteer Artillery, with encouraging results.

The increase in the number of horses, through the transfer of those belonging to the Permanent Mounted Infantry (on disbandment), has enabled Colonel Spalding, C.M.G., in temporary command of Artillery Forces, to partly horse the Volunteer Field Batteries, and thus generally increase their efficiency in a manner impossible with draught horses hired, as heretofore, from contractors. A considerable amount of transport of guns and stores has been done in connection with outlying forts.

Of the four junior officers recently appointed, all have passed the necessary qualifying examination, and have obtained "first-class" School of Gunnery certificates.

A proper proportion of skilled artificers has been enlisted for the manipulation of the comparatively complex mechanism of the recent types of gun, a precaution which should ensure their being maintained in a service condition, and the due execution of such repairs, &c., as may be required from time to time.

It is to be hoped that the action of the Government in sending Captain Bridges to England, to undergo a long course of instruction in artillery subjects at Woolwich and Shoeburyness, also in the duties of Fire-master and the use of the improved position and range-finding instruments, will be followed at intervals in the case of other officers.

The stable for the Field Battery horses is now available, and being in the the Victoria Barracks it saves a great deal of extra work and inconvenience.

The School of Gunnery at Victoria Barracks is rapidly approaching completion; and as several descriptions of guns, including the 6-inch B.L. gun, on hydro-pneumatic disappearing carriage, will be mounted, together with a large number of models, special facility will exist for the better instruction of this Corps and of the Volunteer Artillery.

The drill of the Corps fairly good; arms and accoutrements in good order; and books generally posted to date. The condition of the Field Battery is not entirely satisfactory, but as officers and men become more accustomed to the work an improvement no doubt will shortly be manifest. Barracks clean and in good order; the batteries in charge, magazines, and stores well arranged; ordnance fit for immediate service.

The Corps has been engaged during the year in mounting and dismounting ordnance, and has assisted the Commanding Engineer's Department in putting together and mounting the new type guns and carriages.

#### PERMANENT SUBMARINE MINERS.

There has been no variation in the establishment of this Corps, neither have there been any discharges or Courts-Martial.

The Corps is well conducted, and forms a most useful body, and its efficiency will be largely promoted by the completion of the depôt at Chowder Bay.

Warrant Officer Wood, R.E., has returned to England on the completion of his engagement, and application has been made for his replacement.

Captain Lee, the officer commanding the Corps, has been sent to England to undergo a special course of instruction.

The Corps has been exercised regularly in the practice of such work as is possible under present circumstances, viz., rowing, knotting, and splicing, bending thimbles into wire rope, jointing cores of cables, connecting up, slinging, laying out, and picking up electro-contact mines, flag and lamp signalling, laying out and picking up ground mines, making up batteries, mine-fitting, electric-testing, cables, apparatus, testing cases and insulating plugs by hydraulic tests, making up mark II insulating plugs, fitting test room and observing stations at Berry's Bay, Middle and George's Head; laying shore ends at Middle and George's Head, also multiple cable.

#### PERMANENT MOUNTED INFANTRY.

This Corps was disbanded during the year, as, through restricted numbers, it had no special place in the scheme of defence. A sufficient increase would have carried with it a corresponding expenditure, which it was felt could be better utilised in another direction.

MEDICAL

## MEDICAL DEPARTMENT.

The formation of a small Permanent Medical Staff Corps is now proceeding, by the transfer of the present Hospital Staff from the Permanent Artillery, as a nucleus; for the remainder, thoroughly qualified men will be selected. A small permanent body such as this is the keystone of efficiency of the Medical service generally.

During the year 185 recruits for the Permanent Forces presented themselves for medical examination, and of this number 156 were accepted, and 29 rejected as unfit.

The physique of those accepted was of a very high order, as the following averages show:—Height, 5 ft. 7 in.; chest, 36½ inches; weight, 10 st. 13½ lb.

There were 293 admissions into the Hospital, but many of the cases were of a slight character, and only requiring detention and treatment to enable the men to be marked as “fit for duty.”

The classification of diseases is as follows:—

Acute Specific	...	...	...	...	...	3
Injuries	...	...	...	...	...	52
Respiratory Organs	...	...	...	...	...	35
Genito-Urinary Organs	...	...	...	...	...	57
Alimentary Canal	...	...	...	...	...	25
Eye and Skin	...	...	...	...	...	30
Nervous System	...	...	...	...	...	7
General Diseases	...	...	...	...	...	94

Of these admissions into Hospital, there were 33 for intemperance, which is a high record, being 11 per cent. of the total admissions.

The recent appointment of a second Medical Officer has enabled the largely increased duties of this department to be carried out with more promptitude and efficiency, and without the employment and cost of civil practitioners.

That portion of the Medical Staff Corps recently formed from the ranks of the partially-paid force has made considerable progress, not only in the knowledge of special ambulance drill and duties, but also in the practical field work, in the shape of first aid to the injured, &c.

A class for Non-commissioned Officers has been held in practical pharmacy under W. O. Leslie, and in this class several have exhibited such proficiency as to qualify for the higher examination for compounders.

This corps requires a slight addition to bring it up to the establishment sufficient for two brigades—now accepted as the organization of the Field Force.

The recruit standard of chest measurement for partially-paid forces has been raised to 34 inches, minimum, with a most decided improvement in the physique of the men attested.

Registers for medical examination of recruits have been kept, and the following averages will show the stamp of men passed into the ranks:—

	Height.	Chest.
Cavalry	5 ft. 9½ in.	34½ in.
Artillery	5 „ 8 „	36 „
Engineers	5 „ 8¼ „	35½ „
Subminers	5 „ 8½ „	35¾ „
Infantry	5 „ 7¼ „	34½ „
Mounted Infantry	5 „ 9¼ „	36¼ „

A proportion of Non-commissioned Officers and men from all branches in the Metropolitan District (excepting Cavalry) have been trained in stretcher and bearer drill, and first aid to the injured.

The equipment ordered from England has arrived, and been so arranged that all branches of the Service are provided for, and any Regiment or Corps required to act separately can at once be furnished with the necessary equipment.

The Field Hospitals and Bearer Companies *matériel* has been most carefully organized, and is available for service at any moment.

The various Batteries throughout the Colony are now being furnished with a Standing Surgical Equipment, forming in fact part of the Battery Stores, and, in addition, a certain portion of a passage in each has been so fitted up that it might be available for the reception and treatment of injured men.

The Garrison Hospital is maintained in a thoroughly effective condition.

PROVOST.

## PROVOST.

The administration of discipline has been satisfactorily carried out, and the prisoners have, from time to time, done a considerable amount of work in the repair of roads and pathways, cleaning and whitewashing portions of the Barracks, and attention generally to sanitary matters.

## PARTIALLY-PAID FORCES.

*Cavalry.*

On the 1st January, 1890, the Cavalry was transferred from the Reserves, with the result of an improvement in discipline, drill, and efficiency. The periodical inspections have shown a manifest advancement in the appearance of the men, the care of arms, &c., and the manner of wearing equipment.

Special attention has been given to the practice of out-post duty, advance and rear guards, squadron drill, volley firing, dismounted and other branches of drill suitable to local requirements.

The complete arming of this Regiment with the lance will be shortly effected.

*Artillery.*

A slight change has taken place in the organization of this Corps by No. 2 Battery being converted into a Field Battery at Head-quarters, and the Bulli Battery armed with two 40-pounder R.B.L. guns of position and two 45 Nordenfeldt machine guns. One Field and one Garrison Battery are wanting to complete artillery requirements, and will be submitted on 1892 Estimates.

The Non-commissioned Officers and Drivers of No. 1 Battery completed a course of riding instruction under the supervision of the Chief Instructor, and have so far advanced in efficiency that they are now permitted to ride and drive the horses of the Permanent Field Battery.

The Garrison Batteries are well up in their drills, and the condition of the Corps may be generally taken as satisfactory.

The following is the description of ordnance to which batteries have been drilled:—6-pounder R.M.L., 16-pounder R.M.L., 40-pounder R.B.L., and 45 machine gun, 9 and 10-inch R.M.L., 10-inch 25-ton R.M.L., 80-pounder R.M.L.

Repository drill for all batteries. Arms, accoutrements, and clothing in good order.

*Engineers.*

The establishment of this Corps has now been raised to that of two Field Companies, viz., 120 of all ranks.

The Corps has been exercised in the usual routine of drills, and maintains its reputation for efficiency, utility, and good conduct.

*Submarine Miners.*

The establishment has been raised to 120 of all ranks.

Although every opportunity is taken to effectively train the Corps to those duties it would have to perform in time of war, the disabilities which confront the Permanent Branch are equally applicable in this case.

Useful work was, however, done during the year, and the Corps may be congratulated on the interest taken in the same, the creditable state of efficiency attained under the circumstances, and its uniform good conduct.

*Mounted Infantry.*

With one exception the progress of this Regiment has been satisfactory, and extra care has been exercised to keep the Non-commissioned Officers up to the mark, by examination and otherwise. The average attendance at parade has been remarkably good, and great interest is taken in the work. The creditable degree of efficiency arrived at in shooting and field-firing has been noted in another portion of this Report.

*Infantry.*

The drill, discipline, and efficiency of this branch of the Service are satisfactory, and the interior economy as administered by commanding officers is of a high order for an organisation short of that obtaining in the Regular Service.

The various regiments are possessed of a vast amount of *esprit de corps*, and they continue to maintain a reputation for good conduct, which it is not too much to say is remarkable with so large a body of men.

Advantage

Advantage has been taken of the whole-day parades to give special practice in outpost duty. Regiments are now well acquainted with the latest attack formation.

#### *Commissariat and Transport Corps.*

This Corps is now under process of formation, and renders the Military Forces of the Colony pretty well complete as regards component parts, thus rendering it possible to take field with every branch in harmonious accord and working to the common end. It is estimated that a considerable saving per annum will be effected by the establishment of this corps, and the Transport Service will be performed in a more satisfactory manner than heretofore.

#### *Reserves.*

The Scottish Rifles form a fine and well-conducted body, but are less than half of the establishment. It is only too evident that the cost of maintaining an expensive uniform deters men from joining, and drives others out of the Service.

This is the only portion of the Reserves which has hitherto been drilled; but it is intended to submit a scheme to the Minister, which will not only increase the utility and efficiency of the Reserves generally, but will bring them more into touch with the force they are intended to supplement in time of war. This, however, cannot be effected without a corresponding expenditure, for discipline and efficiency mean pounds, shillings, and pence.

The Rifle Companies now number 4,510, as compared with 3,392 of previous year, and are merely trained as regards musketry.

The majority of Corps exhibit a keen interest in shooting, and are thus developing considerable skill with the rifle. 3,024 went through musketry during the year, and earned the money grant for their Corps. Of these, 1,023 were marksmen; 1,024 first-class shots; 977 second-class; and 179 third-class.

#### *Musketry.*

It is to be gathered from the report of Captain Cuthell, Staff Instructor of Musketry, that the shooting during the past year has shown a slight improvement over that of previous years.

The total number of men of the Partially-paid Force which went through the course was 2,355, as compared with 2,161 in 1889. The averages are computed on 2,220, leaving out 200 Permanent and Volunteer Artillery, and the following classification is arrived at:—

	1889.	1890.
Marksmen ... ..	556	849
1st Class ... ..	399	616
2nd Class... ..	674	382
3rd Class... ..	293	373

The percentages are:—

	1889.	1890.
Marksmen ... ..	28.90	38.24
1st Class... ..	20.76	27.75
2nd Class... ..	35.07	17.21
3rd Class... ..	15.24	16.80

The figure of merit of the whole is 131.33.

The best shot in the force is Private H. Smith of the Maitland Company, 4th Regiment, with a total of 199 points.

Best shot, Engineer Corps	... Corporal Tait	... ..	188 points.
„ „ Sub. Miners	... Sapper J. Kelly	... ..	168 „
„ „ Mounted Infantry	... Corporal Insted	... ..	195 „
„ „ 1st Regiment	... Private C. Crouch	... ..	181 „
„ „ 2nd „	... Private J. Jackson	... ..	187 „
„ „ 3rd „	... Private J. Lennon	... ..	186 „
„ „ 4th „	... Sergeant E. Sage	... ..	192 „

The shooting and attendance of the Metropolitan Corps were affected by generally bad weather, and the closing of the Paddington range.

The

The Staff Inspector of Musketry speaks in the highest terms of the interest and improvement in musketry exhibited by the Mounted Infantry, and although of very recent formation has proved its superiority to the Infantry Regiments. The Martini-Henry rifle is about to be issued, which will further improve the shooting power of the former.

A most important and absolutely essential portion of the annual training of an Infantry soldier was introduced last year, viz., field-firing, as if in the presence of an enemy. It has proved a marked success, and has developed an interest in the course of training which was altogether wanting in the ordinary routine, and Officers and men highly appreciate the practical and valuable nature of the instruction.

The following is a condensed return of the operations of the year, which particularly marks the superior attendance and shooting of the 3rd and 4th Regiments, as compared with that of the 1st and 2nd Regiments for the years 1889-90.

*Continuous Training.*

The usual training of nine days at Easter was carried out at National Park for the Field Force, and at the Heads for the Garrison Artillery and Submarine Miners.

The attendance at the former numbered 3,204 of all ranks, and 641 horses, including the Field Battery Permanent Artillery and Permanent Mounted Infantry.

The Cavalry, Field Artillery, Engineers, Mounted Infantry, and Medical Staff Corps were each thoroughly practised in the exercises special to their respective branches.

The instruction of the Infantry was, to a great extent, confined to the attack formation, which is of paramount importance to that arm.

The tactical employment of the three arms could not be satisfactorily carried out in consequence of the restricted area of manœuvre, and indeed both Cavalry and Mounted Infantry injured a considerable number of horses by reason of the impracticable nature of the country. It is not to be expected they will bring valuable horses to the annual trainings under such conditions.

The Garrison, Artillery, and Submarine Miners, numbering 888 of all ranks, also did useful work.

The conduct of the troops in both Camps was, as usual, good; keen interest was exhibited by all ranks, and cheerful and ready obedience to orders was observed throughout.

Increased responsibilities and independence were imposed upon Commanding Officers at the National Park, and the manner in which the routine and administration of the various commands were carried out justified the confidence reposed in them.

## ORDNANCE STORE DEPARTMENT.

This important branch of the Public Service has at last been transferred to the Military Department, and, consequently, harmonious and more effective action has been secured. It is now conducted on Imperial lines as far as possible, and the supply services to the Forces have been carried out during the past year with as much promptitude and completeness as the nature of the duty, the want of accommodation, and the derivation of supplies would admit.

The Annual Board, as required by Imperial Regulations, was held during the month of August, and valuable recommendations emanated therefrom, which have either been acted on or are under the consideration of the Minister.

The reserve of small-arms ammunition, and that for other ordnance, is maintained on approved scale.

The practice of granting the use of camp equipment for other than Military, or even relief Services, has been continued, causing wear and deterioration, burdening the too-small labour staff of the Department with a heavy amount of unrecognised duty, and involving much expenditure of time, and some cost in handling and repair. The purpose for which this particular form of accommodation is frequently required is of the most twaddling description, and the contingent cost could more properly be borne by the individuals than the public, especially as no difficulty whatever exists in hiring suitable tents at a moderate cost.

It is proper to note that until suitable magazines are built on the site recommended at Newington, the conditions of storage cannot be carried out without risk, nor can the administrative changes recommended be adopted in their entirety.

## GENERAL REMARKS.

The withdrawal of certain portions of Estimates as submitted for 1890 and 1891 has left the Infantry numerically insufficient, but it is to be hoped that those of the ensuing year will provide for sufficient to complete the two Brigades.

A suitable rifle range at Randwick for the Head-quarter Force is in course of preparation, and may be shortly expected to be available for practice; but other matters, such as the provision of a proper ordnance store and gun wharf, a scheme of retirement for officers of the Permanent Forces, and the incorporation of the partially-paid as Militia, are as yet in abeyance.

During the past year lectures have been delivered at the United Service Institution as follows:—

- I. "The Defence of a Protected Harbour," by Lieutenant-Colonel Boddam, Assistant Engineer for Military Works.
- II. "Harbour Defence by Guard-boats, and their duties," by Commander Bosanquet, R.N., Commanding Naval Artillery Volunteers.
- III. "Round about Apia—Samoa," by Captain Castle, R.N., H.M.S. "Rapid."
- IV. "The Australian Soldier," by Captain McCutcheon, 1st Regiment.

Major Churchward, R.A., has been indefatigable in the instruction of a number of members in the War Game, several of whom took a very keen interest therein.

Major Lassetter, of the South Staffordshire Regiment, conducted classes in Elementary Military Topography.

The donations to the library have been very gratifying, and include a valuable contribution from the Secretary of State for War, through the Intelligence Department of the War Office, together with an intimation of further contributions from time to time.

The Library now contains about 600 books, journals, magazines, maps, &c., and the purchases by the Library Committee have been well chosen.

The action of the Government in deferring the order for the magazine rifle appears to be amply justified, seeing that up to the present moment the precise pattern of rifle and ammunition has not been finally decided upon by the Imperial authorities. When this is done, it will be time enough to give the order in the meantime our local troops possess an admirable weapon in the Martini-Henry.

At the latter part of 1890 I was directed to meet the Commandants of Victoria, South Australia, Queensland, Western Australia, and Tasmania, in Melbourne, for the purpose of inspecting and reporting upon the defences of Albany, Tasmania, Thursday Island, and Port Darwin. The Committee duly performed that portion of the work relating to the two first-named places, and their reports are now in the hands of the various Governments. That relating to the two last will be undertaken in the beginning of April next.

The Committee took advantage of the occasion to informally discuss the organisation, training, clothing, pay, &c., of the various local forces, with the view of recommending for adoption a common system of administration, &c., for the Military Defence Forces of Australia.

JOHN S. RICHARDSON, M.-G.,

Sydney, 16 March, 1891.

JOHN S. RICHARDSON, Major-General.

1891.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

ACCIDENT IN THE VICINITY OF COBBLER'S BEACH,  
NEAR MIDDLE HEAD.

(PROCEEDINGS OF A COURT OF INQUIRY.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

The Colonel Commanding the Military Forces to The Colonial Secretary.

Sir,

Military Staff Office, 20 April, 1891.

I have the honor to transmit herewith proceedings of a Court of Inquiry assembled to inquire into and report upon the cause of the deplorable accident which occurred in the vicinity of Cobbler's Beach, near Middle Head, on the 3rd instant.

The proceedings show that the Court have held a careful and exhaustive inquiry into the whole of the circumstances, and, in my opinion, have arrived at the only possible conclusion; for had the repeated directions and cautions, so carefully given by Colonel de Wolski, R.E., been obeyed, as might most reasonably have been expected from the high qualifications of the officers and non-commissioned officers immediately responsible—most notably the special order to pay out the whole of the cable connected with the mine to be fired—the disaster could not have occurred.

2. It will, I think, be some consolation to the friends and relatives of those lost and injured to be assured that from the evidence taken by the Court it is proved that the officers, non-commissioned officers, and men employed in the boat were cool and collected, and thoroughly imbued with the responsible, but not necessarily dangerous, nature of their duties.

3. As the officer immediately in command of the troops at Middle Head, I think it only due to myself to invite your attention to the somewhat peculiar statement handed in by Colonel de Wolski to the Court on the 13th instant, containing an apparently private letter signed "Robert Collins," from which it would appear that Colonel de Wolski expressed an opinion two or three hours before the explosion that danger attended the experiments, for which he properly  
takes

takes the whole responsibility. I can only say that if this was Colonel de Wolski's view it is an extraordinary thing that he made no official communication to me on the subject, and the first intimation I receive to this effect is by the importation (as before stated) of an apparently private letter having no bearing on the cause of the accident as disclosed by the evidence.

4. I would also direct your attention to that portion of Colonel de Wolski's statement wherein he expresses an earnest hope that this sad loss of life will not give rise to a loss of confidence in the safety of submarine mines. When it is taken into consideration that submarine mining practice has been carefully and successfully conducted for many years, under the direction of formerly our local officers, and subsequently by Imperial officers, I am satisfied no such loss of confidence will ensue. But these and other questions are but side issues of the sad proceedings I have to forward.

5. Colonel de Wolski's final statement, coming as it does from an Imperial officer, although in local employment, appears to me to be at the present stage more a question for the Government to consider than for me to comment upon.

I have, &c.,

WARNER SPALDING,  
Colonel Commanding Forces.

---

[Enclosure.]

[Enclosure.]

PROCEEDINGS of a Court of Inquiry assembled at Middle Head Camp, on the 3rd April, 1891, by order of Colonel W. W. Spalding, C.M.G., bearing date 3rd April, 1891, to inquire into and report upon the cause of accident to Sub-Marine Miners' boat this afternoon.

### FIRST DAY.

*President* :—

Colonel F. Wells, N.S.W.V.A.

*Members* :—

Lieut.-Colonel G. J. Airey, N.S.W.A. ; Lieut.-Colonel E. C. Cracknell, P.-P.Sub-Miners.

THE Court having assembled, pursuant to the above order, proceed to make the required declaration in paragraph 99 of the Volunteer Force Regulation Act.

The Court proceed to take evidence.

*Colonel F. R. de Wolski* having been duly sworn, states :—It was arranged, shortly after the inspection of troops by the Commander-in-Chief, two mines laid on the previous day by me should be fired from the jetty ; in addition to these, a number of charges of condemned gun-cotton were made up in india-rubber bags for experimental purposes ; some of these charges were fired on Thursday afternoon, and the others this morning, with the object of giving the officers and men practice ; shortly after luncheon, about 2.30 p.m., I walked down to the pier to give final instructions to the officers in charge, viz., Lieuts. Hammand and Bedford, with whom I had attached Corporal M'Kee, of the Royal Engineers, an assistant instructor in submarine mining ; in order to enable the charges to be fired rapidly in succession, I instructed Lieut. Hammand early in the morning to divide the cable in the boat into two portions ; two charges and two cables were thus prepared for firing ; to each charge was attached a float and a sinker, and the instructions were to lay the charge, row rapidly from it to nearly the full length of the cable, and then back-water, connect up, and fire ; the instructions were to fire the two 250 lb. mines laid out on Thursday, then to fire the experimental charges ; I reported to Colonel Spalding, immediately after Lord Jersey had addressed the officers, that the mines were ready to fire ; he replied that he would bring His Excellency to the point overlooking the mine field in a few minutes ; after waiting for some twenty minutes or more, and sending two officers to make inquiries, I determined to fire one of the mines on my own responsibility, as I could not accept the risk of keeping any longer loaded charges alongside the jetty which would take some time to lay out, as well as loaded mines lying in the fairway of the steamers ; I may mention that these two mines formed part of the three I had myself laid out on the previous day to explode in presence of the Premier, who had intimated his intention of visiting the camp ; the mine was successfully fired, and, His Excellency still not arriving, I telephoned down to the cutter to start laying out one of the 100 lb. gun cotton charges ; this was a distinct alteration to the programme I had pre-arranged with Lieut. Hammand, that the mines should be laid out first, and the extemporised charges afterwards, but as His Excellency had not arrived, I intended to reserve one of each type for him ; Lieut. Hammand telephoned back, asking the order be repeated, as No. 2 mine was ready ; the order was then repeated ; this only necessitated the dynamo being shifted from the pier into the cutter alongside, and, in my opinion, could make no possible difference in the work to be carried out ; the programme should have been adhered to, as loaded mines primed ready to fire should not have been allowed in dangerous proximity to a public jetty for such a long time ; I then signalled to the cutter to lay out the 100-lb. charge (one of the experimental ones) ; the cutter at once started from the jetty, proceeded to the marking buoy, which had been previously laid out, and I noticed she dropped the buoy connected with the charge, and rowed away about 100 yards from it ; the previously arranged signal for firing was made, viz., a red flag, which I answered by signalling to fire ; several seconds, I should say about thirty, elapsed before the charge was fired, and I noticed people in the stern of the boat moving about as if in doubt ; I then saw an explosion in the vicinity of the boat, and a number of fragments flying in the air ; on proceeding with Captain Morris, P.A., Dr. Ellis, and some others, to the scene of disaster, I got into a whaler and rowed to the charge which had been laid out by the boat just before ; I picked up the buoy to which the charge was attached, and found the charge unexploded ; there can be no reasonable doubt in my mind that the party in the boat had connected up the wrong charge to the dynamo exploder, and blown themselves up ; my instructions to Lieut. Hammand, with a view to avoiding the delay experienced the previous day, were to divide the cable into two lengths of about 110 yards each, and to connect each length to a charge ; instructions were given repeatedly to all the officers and non-commissioned officers employed in this work to keep the charges apart ; in the first camp, 1889, I declined to fire any extemporised charges, not knowing the officers and men, when asked to try by Colonel Roberts ; in 1890 we fired nothing but service charges, and this year we fired experimental charges ; for the two previous days exercised the officers, non-commissioned officers, and men at this work ; I had given special instructions that no charge should be laid down without a marking buoy, although this is not ordered in any Service Manual, such operation not being a drill manœuvre ; this precaution prevents the possibility of a charge after being laid

laid fouling the boat, and being dragged out of position at the time of explosion; the greatest care has always been taken to keep primed charges well apart, both in the store tent and in the boats, whether they were small or large, and I have seen this order carried out; the instructions to Corporal M'Kee and the officers in the boat, whom I regard as being under his instruction, were to backwater when the full length of the cable had been paid out, thereby assuring that the cable was attached to the proper charge; these instructions apparently could not have been carried out, for some unaccountable reason; there was plenty of time for the boat to get both charges properly separated, as she was lying alongside the jetty for an hour doing nothing; on the Thursday I had instructed Corporal M'Kee and those present to seal up the ends of cables of the strict service mines I had just laid, and instructed them this should be done as a safeguard; I had every confidence in Corporal M'Kee's knowledge of submarine mining and electricity; he had a thorough training in the Imperial Service; Lieut. Hammand was an experienced electrician, and Lieut. Bedford a careful experienced man in a boat; when I spoke to the officers and men in charge of the cutter at the jetty, shortly before the accident, they were calm and collected, and free from any excitement; the Captain of the Permanent Sub-Marine Miners is at Home undergoing a course of instructions, and the Warrant Officer Instructor has not been replaced; the duties of both these officers have devolved on me, and I have been present throughout the camp and have personally superintended every operation, such as laying out mines in Obelisk Bay, and making up mines and charges, working electric light, &c.; every reasonable precaution possible with a limited staff has been taken; as I accept the fullest responsibility for the arrangement of the programme, the details of the party, and for the order to fire both mines, I request to be allowed to be present during the proceedings.

The Court allows Colonel De Wolski's request.

*Dr. H. A. Ellis* is duly sworn, and states:—Being told an accident had occurred, I went down to the jetty at Cobbler's Beach; by request of Colonel de Wolski I went out with him in the whaler to pick up the buoy, and saw a 100-lb. charge attached to it still unexploded; the far or boat end of the cable only was injured, having been apparently blown up.

The witness withdraws.

It being now 11 p.m., the Court adjourns till to-morrow, the 4th April, at 9 a.m.

## SECOND DAY.

The Court re-assemble at 9 a.m., the 4th April, pursuant to adjournment. Present—The same Members as before.

*A. G. H. Morris*, Captain in the N.S.W. Artillery, being duly sworn, states:—I witnessed the accident yesterday afternoon; I was detailed by Colonel Spalding, at the request of Colonel de Wolski, to accompany him with Major Walker in the cutter to pick up the unexploded mine; the buoy was pulled up; the mine was unexploded, and was brought on shore immediately; I noticed the buoy before the explosion; where the explosion took place was about 100 yards from the buoy.

The witness withdraws.

*Sapper John Grant*, P.P.S.M., being duly sworn, states:—I was one of the crew of the boat in which the explosion took place, pulling an oar on the port bow; we left the wharf at about 3:15 p.m., and rowed out about 300 yards from the wharf; we had one charge of 100 lb. gun cotton hanging on the port quarter and two 50 lb. charges hanging over the starboard side; we lowered the 100 lb. charge with a buoy and flag attached, then we rowed some 70 or 80 yards away from the buoy, paying out cable, and were told to rest on our oars; I noticed that the flag of the buoy turned over; Lieut. Bedford gave the order to rest on our oars; I then noticed Corporal M'Kee connect the lead with the dynamo; as he was doing so Lieut. Hammand held up the red flag as a signal; then a signal came from the shore to fire; Lieut. Hammand turned the handle of the dynamo; the charge did not go off, and it was seen something was wrong; Corporal M'Kee then took up a cable, and held it against the dynamo; Lieut. Hammand was sitting next the handle of the dynamo; the explosion immediately occurred, and I knew nothing further; the dynamo was on the after thwart of the boat.

The witness withdraws.

*Sapper J. H. Bowmaker*, P.P.S.M., being duly sworn, states:—I was one of the crew of the boat in which the explosion took place, pulling No. 3 port oar; having laid the 100-lb. mine we pulled out to a safe distance, about 100 yards; the cable was connected with the dynamo, and Lieut. Hammand turned the handle to fire the charge, but the earth-plate was not in the water; he then threw the earth-plate overboard, and in doing so the cable was knocked off the dynamo; Lieut. Hammand then picked up a cable and attached it to the dynamo; he then turned the handle to fire and the explosion took place, the charge on the starboard quarter having exploded; the men who started in the boat, as far as I can remember, were Lieuts. Hammand and Bedford, Corporal M'Kee, Bugler Bennett, Sappers Brentnall, Borland, Blakeman, Adams, Tully, King, Bolin, Bowmaker, Grant, and Wailes; after the explosion I never saw anything further of Lieuts. Hammand and Bedford, Corporal M'Kee, and Bugler Bennett, who were all aft.

The witness withdraws.

*Lieut. A. Talbot*, P.P. Sub-Marine Miners, being duly sworn, states:—I was in charge of the jetty on the afternoon of Friday, 3rd instant, and was present when the cutter went away; I heard Colonel de Wolski instruct Corporal M'Kee to lower the sinker on the starboard quarter; I heard him also instruct them after lowering the charge to pull away from it to the full extent of the cable and hold water; officers and men had lunched at their usual messes; all officers and men were perfectly sober and free from any excitement; I recollect Colonel de Wolski telling Corporal M'Kee before leaving that he looked to him to see that all connections were properly made.

The witness withdraws.

*Lieut.*

*Lieut. John Yates Nelson*, of the P.P. Sub-Marine Miners, being duly sworn, states:—I am an electrician in the Telegraph Department; I was in charge of the field telegraph between the spectators' point and the jetty on the afternoon of the 3rd instant; I recollect Colonel de Wolski changing the orders after the first roburite mine had been exploded; he then gave directions for the gun cotton services to be fired; that order was queried by the operator at the jetty asking, "Should it not be No. 2 mine?" I repeated the message to lay out the gun cotton service; that order was acknowledged, and I saw the men getting away with the cutter; I have laid out these experimental charges myself; in every instance I have taken the precaution to see that the lead was perfectly clear and the boat at a safe distance, usually keeping the lead in my own hand, and putting over the earth-plate the last thing before connecting up; in any operation I have always been careful to ensure that I connected with the one leading to the charge to be exploded.

The witness withdraws.

*Lieut. John S. Alexander* of the P.P. Sub-Marine Miners, being duly sworn, states:—I was employed laying out extemporised charges on Thursday with Lieut. Talbot; Corporal M'Kee was there for about an hour in the afternoon; in the morning we fired four 5-lb. bags, in the afternoon two 50-lb., one 25-lb., and one 100-lb. charges; in every case there was a marking buoy out, and the boat was always at a safe distance; if two charges are in the boat it is usual to keep them separate; in the afternoon, about 3 o'clock, resumed duty on the cutter, and received two charges from the jetty; instructed the crew to place both in the boat, one in the bow, covered with a tarpaulin, the other in the stern ready for connecting up; before leaving the jetty Lieut. Hammand arrived to test the dynamo; as a precaution, he requested that I should shift the charge from the bow and put it alongside the one in the stern, that there might be greater safety whilst he was testing the dynamo in the bow of the cutter; I had the charge in the bow moved aft; immediately afterwards Colonel de Wolski arrived and called my attention to the fact that the charges ought to be kept separate; on all occasions care is taken to insure absolute safety; during Thursday afternoon, to show the care evinced always by Corporal M'Kee, he called attention to the cutter being very near one of the marking buoys of the roburite mines, and asked the coxwain of the boat to keep further away in passing it; he said he would not trust his own brother in sub-marine mining.

The witness withdraws.

*Sergeant R. Saunders*, of the P.P. Sub-Marine Miners, being duly sworn, states:—I have been in charge of the boat's crews on Thursday and Friday last; when Colonel de Wolski came down to the jetty on Friday afternoon I was in the boat; he noticed there were too many men in the boat, so called myself and two others ashore; Colonel de Wolski has given instructions always to buoy the charge, and as soon as they were laid to pull away to the end of the cable and to hold water; the last instruction was repeated by Corporal M'Kee on Friday afternoon; Colonel de Wolski was particular in seeing the men shifted towards the bow, so as to give plenty of room astern; the greatest care was taken when firing any charge; Corporal M'Kee was an exceptionally careful man; the greatest order prevailed amongst the crew, and there was no undue haste.

The witness withdraws.

*Colonel Warner Spalding, C.M.G.*, commanding the camp at Middle Head, being duly sworn, states:—Under certain conditions I consider that Colonel de Wolski had authority to fire the mine without reference to me; the conditions of safety or practice were under his supervision; I consider that under the conditions stated Colonel de Wolski was justified in exercising his own judgment; the charge that caused the accident was not laid before his Excellency the Commander-in-Chief arrived on the ground.

The witness withdraws.

The Court adjourns until Monday, at 10 a.m., for further evidence.

### THIRD DAY.

At 10 a.m., Monday, the 6th April, the Court reassembled. Present—The same members as before.

*Sapper W. Borland*, P.P. Sub-Marine Miners, being duly sworn, states:—I was in the boat on the afternoon of the accident at Cobbler's Beach, pulling stroke oar on the port side; there were two charges, one on each side; that of 100 lbs., on port side, was laid; the boat then pulled away about fifty yards or more; the whole of the coil was not paid out; a kink was in the cable, which was cleared by Corporal M'Kee, I believe; we then pulled on about twelve more yards, the whole of the cable was not paid out; a signal was made from the boat. Corporal M'Kee fixed the cable to the dynamo; Lieut. Hammand turned the handle of the dynamo; the charge did not explode; some one, I cannot say who, threw the earth-plate over the side of the boat; on its being found that it had not been in the water, Lieut. Hammand gave the dynamo two turns, and the cable caught the handle; Lieut. Hammand pulled the cable away from the dynamo, and gave it five turns; immediately afterwards the charge tied to the starboard side of the boat exploded; Lieut. Hammand worked the handle of the dynamo, and Corporal M'Kee made the connections, assisted by Bugler Bennett; one cable was placed in the bottom of the stern of the boat, the other was placed on the gang-board and stroke seat; the coils would be about 2 feet apart; the coil in the stern sheets was the one paid out first, I believe; I did not notice which cable was taken up and attached; the earth-plate referred to was a copper plate, 5 inches by about 8 inches; we were waiting at the jetty for about an hour, I think; there was a little undue hurry at the last moment; I do not remember any conversation between the officers and Corporal M'Kee; the charge on the starboard side was lashed about 6 inches below the gunwale of the boat, and was not lowered at all.

The witness withdraws.

*Sapper Arthur Adams*, of the P.P. Sub-Marine Miners, being duly sworn, states:—I was No. 4 on port side of the cutter; we had two charges, one of 100 lbs. on port side, and the other consisted of two 50-lb. lashed together; when we got about 300 or 400 yards out from the jetty, we cut the lashings of the 100-lb. charge on port side, and it dropped into the water; there was a buoy attached to it with a small red flag; we rowed away, paying out the cable; when we had gone about 50 or 60 yards the cable seemed to be drawn taut; Lieut. Bedford ordered us to back water, and cleared a kink which was in the cable;

cable; Corporal M'Kee attached the cable to the dynamo, assisted by Bugler Bennett; Lieut. Hammand turned the handle of the dynamo, and the charge which we had laid out did not explode; someone amongst the pullers called out that the earth-plate was not over; the earth-plate, which was a piece of copper about 6 inches square, was thrown over the port side of the boat by either Corporal M'Kee or Bugler Bennett; Lieut. Hammand turned the handle of the dynamo, and the cable got a turn round the handle; Lieut. Hammand then threw the cable off the handle and turned the handle several times again, and the explosion took place; I saw everything that passed, and I did not see a second connection made; to the best of my belief the coils were one on the top of the other; I forgot to say that Lieut. Hammand signalled to the shore when the cable tightened up; there were fourteen persons in the boat before the accident.

The witness withdraws.

*Second Corporal William John Stevens, R.E.*, attached to P.P. Sub-Marine Miners, being duly sworn, states:—On the morning of Friday, 3rd April, I drew 200 lb. of gun cotton from the store to make up two 50-lb. charges, and one 100-lb. charge; I filled the charges and took every precaution as laid down for the safety of gun cotton; about noon I handed charges over to Corporal M'Kee, who being assisted by a party of volunteer sub-marine miners, removed the charges to the pier at Cobbler's Beach; everything used in connection with these charges was of service material; the earth-plate for each charge comprised 12 feet of No. 18 gal. iron wire, in a coil of about 4 inches in diameter, and securely fastened to the top of the charge with spun yarn; I fell in on parade at 1:40 p.m., when Corporal M'Kee made the remark, "that everything was going off successfully"; detonators were all tested by Corporal M'Kee at Berry's Bay; the charges were all kept separate after being primed, and every precaution taken.

The witness withdraws.

*Sapper John Grant, P.P. Sub-Marine Miner*, previously sworn, deposed:—I have no reason to alter the evidence previously given by me; am certain that after Lieut. Hammand turned the handle of the dynamo, which failed to explode the torpedo, that Corporal M'Kee picked up a cable; the coils of both the cables did not appear free from where I was seated and seemed complicated; I am positively certain that the dynamo was on the after thwart, and that the coils of cable were overlapping; I did not see the cables put into the boat—nor do I know whether there were two separate cables, or only one coil; I saw the position Bugler Bennett occupied previous to the explosion; he had one knee on the seat situated on the starboard side, and the other leg stretched out towards the centre of the boat, and had his head leaning outboard; he had a piece of lashing in his right hand; all the men were very calm and collected, and very little conversation took place; everybody seemed to be extremely careful, and there was not the least excitement or hurry; the Court at my previous examination did not ask what occurred before leaving the wharf; the two 50-lb. charges were lying in the bow of the cutter before she left the wharf, and shortly before leaving the jetty Corporal M'Kee asked for the charges to be passed aft; I picked up one charge from underneath the bow thwart, and passed it astern; Sapper King handed the other along in a similar manner; I did not notice who received the charges in the stern, nor could I see who lashed them to the gunwale on the starboard side; it was after Colonel de Wolski had left the jetty that the charges were passed aft; all the handling of the charges beyond those stated was done aft, just before the explosion; Lieut. Hammand was seated on the port side of the after-thwart, with his feet in the stern sheets, body turned half round, and turning the handle of the dynamo with his right hand; Corporal M'Kee was kneeling in the centre of the cutter, facing the dynamo; Bugler Bennett was on the starboard side in the position already described; Lieut. Bedford was at the tiller.

The witness withdraws.

*Lieut. A. Talbot*, being recalled, on former oath, is re-examined, deposed:—I was the officer in charge of the wharf at Cobblers' Beach on the day of the explosion; the cable that was placed in the cutter was what is known as experimental cable; after the charges were attached to the boat's side, Corporal M'Kee connected the cable with the 100-lb. mine on the port side; after making the connection he counted the coils, and as nearly as possible cut the cable with a pair of clippers in the centre, and whilst doing so remarked "What's the use of this pair of clippers?" they being somewhat out of order; he then attached the other portion of the cable to the two 50-lb. mines on the starboard side. As the joint was being made, he (Corporal M'Kee) called out to Bugler Bennett, "You put on the india-rubber solution"; the cable lay in the stern sheets of the cutter in one coil, with the single exception that it had been severed by the clippers as nearly as possible in the centre, and remained in that condition when the cutter left the jetty; the explosion took place about 300 yards from the shore; sufficient time did not elapse from the departure of the cutter from the jetty up to the time of the explosion to enable the separate cables to be recoiled in another part of the boat; I saw the two 50-lb. charges on the starboard side as they were lashed on the cutter by Corporal M'Kee; they were lashed together, and placed vertically in position, hanging from the gunwale within a few inches of the water; heavy spun yarn was the material used in suspension of the charges; the two 50-lb. charges were connected up by a continuous circuit and the 100-lb. charge was connected to the cable; the united charges were also connected to the cable before the cutter left the wharf; just before leaving the wharf the dynamo was placed aboard the boat; the heads of the bags were up; the bottom of the bags did not touch the water by 6 inches.

The witness withdraws.

*Charles A. Smith*, Fellow Institute Chemistry, Fellow Chemical Society, London, Acting Examiner of Explosives, being duly sworn, deposed:—That he was at the jetty on Cobbler's Beach on the 3rd instant; saw the two 50 lb. bags being handed from the bow to the stern of the cutter; about an hour before the first roborite mine was fired; Corporal M'Kee took charge of the two charges, lashed them with tarred spun yarn, and made the necessary connection between the two bags; he had to break the connection again in order to put on the india-rubber tubing over the joint, and in order to do so pulled the wires apart; the bags were placed side by side in contact, and were hanging about 18 inches from the water; I did not observe any earth-plates attached to the charges; the whole of the cable was coiled up in the stern-sheets of the boat; Corporal M'Kee, with a jagged pair of pliers, severed the coil near the centre and drew the two ends out; he then cleaned the wire at one end and Bugler Bennett cleaned it at the

the other end; when I last saw the coils they were lying one on top of the other; I remember Colonel de Wolski giving orders for the sinker to be lowered, to prevent splash; after the first mine was laid Lieut. Talbot remarked, "I hope that they are not going to let off the first mine before they lower the second"; this was just prior to the explosion; there was no undue excitement, and all the men appeared to be calm and collected.

The witness withdraws.

5.30 p.m.:—The Court now adjourned until 10 o'clock to-morrow morning.

#### FOURTH DAY.

The Court reassembles at 10 a.m. Tuesday, the 7th of April. Present:—The same members as before.

*William Borland*, recalled, on his former oath, is examined, and states:—Bugler Bennett was sitting on the seat on starboard side just before the explosion, and I did not see him leaning over the gunwale, or doing anything to the charge; I could not say that he had any rope or line in his hand; I saw Corporal M'Kee use a pair of pliers to cut the cable at the wharf; one half the coil was lifted on to the seat; the other half was left in the bottom of the boat.

The witness withdraws.

*Sapper Arthur Adams*, recalled, on his former oath, states:—The dynamo was on the stroke thwart; I saw Bugler Bennett assisting Corporal M'Kee to cut away the lashing of first charge on port side; I am sure that both coils were in the stern sheet; at the time of the explosion Corporal M'Kee was doing something to the dynamo, but I cannot say what it was; I did not see Bugler Bennett leaning over gunwale on starboard side at any time; at the time of the explosion I was looking at Lieut. Hammand turning the handle of the dynamo.

The witness withdraws.

*Sapper Sydney Bolin*, P.-P. Sub-Marine Miners, being duly sworn, states:—I was pulling No. 2 on port side; the dynamo at the time of the explosion was on the after thwart; Lieut. Hammand was leaning over it about the middle of the thwart; I am not certain about the position of Corporal M'Kee; Bugler Bennett was on the starboard side of the boat; just over the two 50 lb. charges; I did not see him interfere with the charges; I do not think that the boat had list enough to bring the two charges into the water; the coils of cable were in the stern-sheets, one overlapping the other.

The witness withdraws.

*Sapper Percy Brentnall*, P.-P. Sub-Marine Miners, being duly sworn, states:—We connected up the two 50 lb. charges and hung them over the starboard side; we did the same with the 100 lb. charge over the port quarter; I assisted Bugler Bennett to connect the two 50 lb. charges on a continuous circuit; we then pulled about 100 yards from the wharf; Corporal M'Kee borrowed my knife, there being only one in the jointing-box; Bennett used the knife belonging to the jointing-box to cut the sinker away; Corporal M'Kee cut the lashings of the charge; the cable was paid over the port side; just previous to leaving the wharf the cable was divided by Corporal M'Kee—about five minutes before leaving the jetty; one coil of the cable was laying in the stern-sheets, the other was laying against the after thwart; a kink occurred in the cable in paying out; Lieut. Bedford gave us the order to back water; as soon as we had got the kink clear we pulled a few strokes more, and Lieut. Hammand said "That will do," and held up the flag a second time; I saw Corporal M'Kee making the connection to the dynamo, and Lieut. Hammand attending to the handle of the dynamo; in the morning the dynamo was on the after thwart, but it was taken ashore and we took it again on board about the last thing before starting; Lieut. Hammand gave three or four turns to the handle with no result; when some one sung out, "There is no earth-plate in"; some one called out, "Here it is," and Lieut. Hammand threw it overboard on starboard quarter; Bugler Bennett was on the starboard side; he was the nearest to me of the four; he had a service knife with a lanyard attached; I did not see him lean over the gunwale on the starboard side; Lieut. Hammand turned the handle, which is the last circumstance I remember; prior to that I saw Corporal M'Kee fumbling with the terminals; that was after they had tried to explode the mine and failed; I do not see how the earth-plate thrown over could have avoided crossing the charge on starboard side; I did not notice sufficient list on the boat to submerge the charge; it was a thin gutta-percha covered copper-wire from the dynamo to the copper plate; during the time that the earth-plate was being thrown overboard the handle of the dynamo was not turned; I did not see Colonel De Wolski on the wharf after dinner.

The witness withdraws.

The Court proceeded to Middle Head, and inspected the 100 lb. mine, which was not exploded on Friday, the 3rd of April, 1891. The lashings having been disturbed were re-lashed by Corporal Stevens, R.E., exactly as it was when issued to Corporal M'Kee, R.E. The earth coil was found undisturbed, and was again lashed on the top. The joint between the lead from the primer in the charge to the cable was found to be thoroughly sound, having been insulated with india-rubber tape and solution, over which a piece of indiarubber tubing had been secured according to the service practice. Colonel de Wolski then proceeded to lay out the charge under exactly similar conditions to those of Friday, and exploded it satisfactorily.

The Court then adjourned until 10.30 a.m. the next day.

#### FIFTH DAY.

At 10.30 a.m. on Wednesday, the 8th instant, the Court re-assembled. The same members as before being present.

*Corporal John Firman*, R.E., attached to P.S.M., on oath, states:—On Thursday, 2nd April, 1891, I was ordered to insulate the ends of the cable of the 250 lb. mines, which we had just laid; these ends are the ones the Court saw to-day on the pier; Colonel de Wolski ordered Corporal M'Kee to insulate them; Corporal M'Kee having two matters to attend to, ordered me to seal the ends; I did so; this is the custom of the Service; we always insulate the cables till connecting up; I assisted to fire five charges  
with

with the cables used; Lieut. Hammand and I tested the cables and the dynamo used on the day of the accident, in the chart room of the "Lilian," and found them correct; I remember Colonel de Wolski giving orders to Lieut. Hammand and Lieut. Alexander not to take two charges at a time; all five charges I saw were successfully fired from the boat.

The witness withdraws.

*James S. Fitzmaurice*, Officer-in-charge, Electric Light Branch, Electric Telegraph Department, having been duly sworn, deposed:—I recollect Colonel de Wolski instructing Corporal M'Kee, on Thursday, 2nd April, 1891, whilst some charges were being fired, that, in order to expedite the connection of the joints, as it was getting late in the afternoon, to try as an experiment not to cover with tape and solution, but merely to cover with india-rubber tubing well lashed over the insulation at each end; concurred with Colonel de Wolski that this would hold for a short time; Corporal M'Kee was under the impression that it would not; the charge was successfully exploded; I observed that whilst they were exploding charges, not more than half the length of cable was paid out, that being a safe distance; I did not, however, hear any instructions given about dividing the cable next day in order to expedite matters; there was a slight delay after the order to fire had been given, and Colonel de Wolski gave orders for everything to be ready, so that the earth plates could be connected immediately the order to fire was given; I witnessed the accident on Friday from a distance, but cannot give any information as to what took place in the cutter before she left the pier.

The witness withdraws.

*Corporal William John Stevens*, R.E, having been recalled on his former oath, stated:—That he remembered Colonel de Wolski, shortly after his arrival in the Colony, give instructions that all charges in laying out were to be marked by a buoy to show that the mine was actually in the position in which it was intended to remain; the instructions were issued in the presence of five or six officers, Warrant Officer Wood, and myself.

The witness withdraws.

*Capt. Alfred Broughton*, P.-P. Sub-Marine Miners, having been sworn, states:—On Thursday, the 2nd April, 1891, I was out in the "Lilian" with Colonel de Wolski, whilst the three roburite mines were being laid; I heard Colonel de Wolski give instructions to Corporal M'Kee on the pier: "You had better see that those cables are safely put away, and further see that the ends are carefully insulated to prevent any danger"; the cables were numbered 1, 2, 3, and 4, and also had the lengths marked on them; in case of a cable being cut, I certainly consider that the end should be marked after severance; this has been an instruction since I joined the Service; in every instance that I have been with Colonel de Wolski he has invariably stated that every precaution must be taken with regard to the laying of mines, and that no mine should be laid without being properly buoyed; I always found Corporal M'Kee to be a particularly careful man, and not likely to get flurried; I always considered Lieut. Hammand to be a careful officer and an experienced electrician, and would have trusted myself with him anywhere; it has always been the custom to test the cables before use, and a record of the test always kept; I heard Colonel de Wolski speaking about the high resistance, and also heard him instruct Corporal M'Kee to use a coil of wire instead of a copper plate.

The witness withdraws.

*Lieut. Arthur Chas. Logan*, P.-P. Sub-Marine Miners, being sworn, deposes:—I was on the jetty on the afternoon of Friday, the 3rd of April, 1891, between 2 and 2:30 p.m., and saw the charge placed in the cutter; they were at that time, one in the port quarter and the other on the starboard quarter; I knew nothing about the orders that had been given; I should say that the bags were hanging about 6 inches from the gunwale of the boat, and clear of the water by about a foot or 18 inches; I could not see the port charge slung from the jetty, but I noticed it on my way back to the cliffs; I saw the cable carefully coiled in one length in the stern-sheets of the boat in the morning after being used in three experiments; not being near enough, I did not hear Colonel de Wolski give them any directions as to how the cables leading to the charges were to be paid out; I did not see the sinker lowered under the water; there is no foundation for the statement that I was detailed for the duty that afternoon, and requested Lieut. Bedford to take my place; I was engaged on similar duty in the morning; I was looking through my glasses and saw the port charge lowered away, and about a minute before the accident I noticed the charges hanging on the starboard side in the same position as when the cutter left the wharf, and am positive that the starboard charge was not lowered into the water; I have passed my examination as far as the practical work is concerned, with the exception of testing, but I would not be put in charge of a loaded mine; to the best of my knowledge, every precaution was taken, and I would at any time have trusted myself with either Lieut. Hammand or Corporal M'Kee; the connections for the morning explosions were all made by Corporal M'Kee, and I consider that neither he nor Lieut. Hammand would be likely to get flurried; I was better acquainted with Lieut. Hammand than I was with Corporal M'Kee, but I consider the former to be a most clear-headed and careful officer; between the time of my leaving the jetty and the explosion there was ample time to have everything in proper order; there were a good many people on the jetty previous to the cutter leaving.

The witness withdraws.

The Court adjourned at 5:10 p.m. until Thursday, 9th instant.

## SIXTH DAY.

The Court reassembles on Thursday, 9th instant. Present:—The same members as before.

*Sapper Arthur Adams*, P.-P. Sub-Marine Miners, being recalled, on his former oath, states:—Two ends of a cable were given me to hold in the boat by Corporal M'Kee about a quarter of an hour before we left the wharf; we were not in our places then; the ends of cable were ready for connecting to the dynamo, and had previously been connected to the charges; we were then told to get into our places, and I handed the two ends of the cable to Borland; I was only told just to hold the two ends of the cable;

Corporal

Corporal M'Kee and Bennett, and Lieuts. Hammand and Bedford were on the jetty; that was before the big mine went off; these officers and non-commissioned officers got into the boat, and it was after that Corporal M'Kee handed me the two ends of the cable; he did not leave the boat after handing me the cable; I did not see the cables cut.

The witness withdraws.

*Sapper William Borland*, being recalled, on his former oath, states:—I recollect the ends of the cable being handed to Sapper Adams, who was sitting behind me, but I do not recollect his handing them to me; this was about a quarter of an hour before we left the jetty; there were two earth-plates on board; the one I saw thrown over was on the port side; one of the earth-plates, I cannot say which, was attached to a brass cleat on the gunwale of the boat on the port side; I cannot say who threw the earth-plate overboard; I saw the cable cut; it was just before the ends were handed to Sapper Adams; during the time that Lieut. Hammand was turning the handle of the dynamo my whole attention was fixed on him; he had been previously sitting on the starboard side seat, close up to the corner of the back seat; he stood up to turn the handle.

This witness withdraws.

*Sapper Percy Brentnall*, P.-P. Sub-Marine Miners, recalled, on his former oath, states:—The earth-plate I saw thrown overboard was picked up by Lieut. Hammand from behind the backboard of the boat, and thrown overboard by him on the starboard side; I saw two earth-plates on board, and one was attached to the shroud-plate on the port side, close alongside the stroke thwart; previous to our leaving the jetty this earth-plate was hanging over the side; it was brought on board after the cable was cut.

The witness withdraws.

*Sapper James King*, P.P. Sub-marine Miners, being duly sworn, subscribes to the following oath:—“The evidence that you shall give before this Court shall be the truth, the whole truth, and nothing but the truth. So help your God.” I was pulling the starboard bow oar; the dynamo was on the starboard seat aft; Lieut. Hammand was close to the dynamo, on the back seat to the right from where I was looking; Lieut. Hammand first turned the dynamo handle, and then it was found that the charge would not explode, and then I saw Bugler Bennet throw a plate overboard; the machine was turned again, and the explosion occurred; the earth-plate was thrown over the starboard side, the same side that I was sitting, a little bit ahead of the charge; I did not actually see it touch the water; I did not notice where the earth-plate was picked up from inside the boat; Bugler Bennett stepped aft two or three steps from where he was standing, turned back with the earth-plate in his hand, and dropped it overboard; at this moment Corporal M'Kee was doing something to dynamo connecting wires; the handle of the dynamo was towards port side of boat; owing to the shear of the boat I was able to see all that passed quite plainly; I did not notice any undue haste or flurry on the part of anyone.

This witness being perfectly deaf from the effects of the accident, the foregoing evidence is given him to read and sign,—after answering the questions in writing having been prepared for him to reply to verbally.

(Sd.) JAMES KING.

*Sapper James Henry Bowmaker*, recalled on his previous oath, states:—Just previous to the explosion I saw the dynamo on the after thwart in the centre of the boat; Bolin called out “Tell him the earth-plate is not in;” just previous to that I saw Lieut. Hammand throw the earth-plate over the starboard side. The cable to the mine that had been lowered was paid out on the port side close to the stern of the boat; I did not see the cable cut, and cannot tell when it was done; I am positive the dynamo was not on the seat with backboard, because Lieut. Hammand had his left leg over the gangway just previous to the explosion; shortly after I entered the boat, and before Lieuts. Hammand and Bedford had arrived I observed the cables in two coils, one on the port and the other on the starboard side partly covering the seats, they may have been overlapping; I noticed Corp. M'Kee hand two ends of a cable to Sapper Adams to hold; we were waiting about an hour at the jetty before starting and nothing was being done; I did not notice any undue excitement or flurry after the charge was laid; Sapper Bolin went up and had his dinner before we did, and when we came down to the wharf after 2 o'clock parade he was in the boat; no one else being in the boat at that time to the best of my knowledge.

*Sapper George Blakeman*, P.-P. Sub-Marine Miners, being duly sworn, states:—I was pulling No. 3 on the starboard side in the cutter and could see the two 50 lb. charges lashed to the starboard side; I did not see the 100 lb. charge on the port side; I am certain that the charges on the starboard side were not lowered at all; the dynamo was placed on the after thwart in the centre of the gangboard, and was being worked by Lieut. Hammand; I saw the earth-plate lying in the boat; I did not see anyone throw it over, but I subsequently saw Corp. M'Kee hold up the wire attached to it to enable Lieut. Hammand to turn the handle of the dynamo; I am positive that the two terminals and handles were on the same side as the earth-plate; I did not see the 100 lb. charge lowered, but saw the cable being paid out on the starboard side; I did not see the cable passed over Lieut. Bedford's head; whilst the cable was being paid out after the charge had been lowered the order was given “weigh enough,” so that the kinks could be taken out; when this was done we pulled on again; and after a few strokes the order was given to stop; shortly afterwards the signal to fire was given, but on Lieut. Hammand turning the handle of the dynamo a few times the mine did not explode; some one then called out the earth plate is not in the water; I then saw Lieut. Hammand give the dynamo one turn, and cannot recollect anything further.

The witness withdraws.

*Sapper David John Wailes*, P.-P. Sub-Marine Miners, being duly sworn, states:—I was pulling No. 4 on the starboard side of the boat, and cannot positively say whether the dynamo was situated on the after thwart or the starboard side seat, but I could see the handle under Sapper Brentnall's left arm; Lieut. Hammand was seated on the starboard side of the cutter; I saw Corp. M'Kee make a connection with the dynamo previous to the first attempt to fire the first mine; the earth-plate not being thrown over the mine did not explode; I then saw Corp. M'Kee drop it over the starboard side, but could not see whether it touched the water or not from where I was seated. I did not see any one holding up a wire whilst Lieut.

Hammand was turning the handle of the dynamo; immediately the earth plate was thrown over and Lieut. Hammand turned the handle the explosion occurred; Bugler Bennet was seated on the port quarter; Lieut. Bedford was at the tiller; I am certain that the handle of the dynamo was on the starboard side, otherwise I should not have seen it; I did not see any ends of the cable handed to Sapper Adams, and did not see the cable cut; we were at the jetty a long time doing nothing—probably an hour—after the charges had been slung; I saw Colonel De Wolski on the jetty, and heard him give orders for the suiker to be put under water to prevent any splash.

The Court at 5:10 p.m. then adjourned until 10 a.m., Friday, the 10th instant.

---

### SEVENTH DAY.

The Court re-assembled on Friday, the 10th instant. Present:—The same members as before.

*Major P. B. Walker*, of the P.-P. Sub-marine Miners, being duly sworn, states:—I went out with Colonel de Wolski after the accident on Friday afternoon, and picked up the unexploded charge, I believe 100 lb. in weight; I did not examine it minutely; it appeared to be in very good condition; I had no responsibility with regard to the charges; I was out on the morning of Friday, and exploded three charges, one of 100 lb., one of 50 lb., one of 25 lb. gun cotton; Lieut. Hammand, Lieut. Bedford, Lieut. Logan, and Corporal McKee were with me, also Sergeant Saunders; all three charges were in the boat at the same time, and were successfully exploded; we had but one cable in the boat, and each charge was connected and laid separately and exploded; we connected the first charge, laid and exploded it; then connected with another charge, laid that on the same cable, and so continued until the three charges were exploded; Colonel de Wolski detailed a party after morning parade, about a quarter past 9, for the purpose of exploding these charges, and I went with the party; during the morning's work I did not notice any flurry or irresolution in the officers and party engaged; I know nothing of the detail of the work in the afternoon—was merely a spectator; I think both Lieutenant Hammand and Corporal McKee were highly efficient officers, and have both together and individually exploded mines with me on several occasions; if there were any special difficulty to be overcome in sub-marine mining, Lieut. Hammand is the officer I should have selected in preference to anyone, being perfectly cool, self-possessed, and thoroughly competent; I remember that Colonel de Wolski, on his first arrival, did give a caution relative to the danger of firing charges unbuoyed, and he directed in future that buoys should be attached to all charges to prevent danger from towing or fouling the cable.

The witness withdraws.

---

*Colonel de Wolski*, R.E., examined on his former oath:—

1. After the evidence before the Court, and what you have seen, have you as an expert in torpedo work, any doubt that a wrong connection was made? I have not the slightest doubt that the cable from the starboard quarter was accidentally connected to the dynamo, instead of the charge which had been laid.
2. Although the charge on the starboard side of the boat was connected, would it not be necessary to complete the circuit before it would explode? Yes, it would be necessary to complete the circuit.
3. Is it not the case, under the conditions shown, that the circuit could only be completed by salt water or a metallic circuit? Yes, a circuit such as is described is absolutely necessary.
4. Would it not be necessary, in this particular case, in order to complete the circuit by water, that the earth-plate on the top of the starboard charge should be submerged? Yes, provided there was an earth-plate connected to the dynamo as well.
5. Would not the earth-plate thrown overboard and attached to the dynamo, after the first ineffectual attempt to fire the 100 lb. mine, if coming in contact with the wire earth connection on starboard charge, complete the circuit and fire the mine? Yes, it would, provided the handle of the dynamo were turned.
6. Can you explain to the Court why the cable was cut in two in the boat at the last moment, and why the cables were not severed earlier, and each cable lashed up separately and marked to prevent any mistake? No; I can offer no explanation as to why my instructions and the rules of the Sub-marine Mining Service were not carried out in this case.
7. In your evidence you stated you had arranged the programme for Friday, the 3rd instant. Do you not think it would have been better to have discharged the experimental charges singly, instead of having them both in the boat? Certainly, and this should have been done. Although it is highly undesirable, and was distinctly against my instructions, to have at the same time two primed charges connected up in the boat together, there is absolutely no danger attending such an arrangement, provided reasonable precautions be taken to follow out the general principles and instructions laid down for submarine mining practice. At a distance of 100 yards from a charge there is not the slightest shock, and the charge in a bag would not be subject to the slightest concussion.
8. Were Lieutenants Hammand and Bedford the only two officers of the P. P. S. Miners who assisted you in carrying out the operations on Friday, the 3rd instant? Yes; they were the only two officers to whom I gave orders.

---

### Statement by Colonel de Wolski, handed in to the Court.

It was notified to me that the Premier would visit the Camp on Thursday, and His Excellency the Governor on Friday, and Colonel Spalding, commanding the Camp, asked me verbally to have some charges exploded in the afternoon of each day. As soon as the mine field in Obelisk Bay had been laid out, I went to the Sub-marine Mining Establishment, at Chowder Bay, on the morning of the 1st April, with Lieutenant Hammand, in the s.s. "Julian," loaded three 250 lb. mine cases with Roburite, and brought them round to Cobbler's Beach. Next morning (2nd April), Corporal McKee, R.E., took the gun cotton primers for these mines on board, and Corporal Firmin, R.E., connected up and slung the mines

mines on the steamer for laying out. I superintended the laying out of these three mines at positions previously marked by buoys carrying red flags. Lieutenant Alexander measured the distance with a tight line from the jetty, viz.: 200 yards to each buoy, and he also took soundings. The mines were then tested by Lieutenant Hammand and Corporal M'Kee, from the jetty, the mine field being all clear. Lieutenant Hammand reported the resistance of each mine as about 13 ohms. I remarked that this was far too high, and directed him to examine his earth-plate. As the connection of the wire to the plate appeared defective, I directed him to substitute a coil of wire for the copper plate. The resistance then fell to 3 ohms. Shortly after I ordered the ends of the cables to be sealed up, which was done in my presence. I recollect telling Corporal M'Kee, in presence of Lieutenant Hammand, always to seal up the ends of the cable, to prevent them being tampered with. This precaution is laid down in the drill, and I gave the order because they appeared to have neglected to do so at once. While this was being done Lieutenant Alexander had orders to fire four charges of 5 lb. each from the cutter, and charges of 100, 50, and 25 lb. were got ready to be fired in the afternoon in the presence of the Premier, who was, however, unable to come, owing to the inclemency of the weather. As it was necessary to explode the charges which had been prepared, I sent a message to Colonel Spalding that there would be some charges fired about 4 o'clock. The first charge fired was one of 100 lb. The primer detonated, but did not explode the wet gun-cotton, which was composed of old cuttings, chips, &c. Finding that it would take some considerable time to connect up a fresh charge, and in order to counteract the bad impression which might possibly be conveyed by this failure, I proceeded to the jetty, and ordered No. 1 Koburite mine to be fired. This was successfully done. We then fired the remaining charges from the cutter. During the time these mines were being fired, I observed that the length of cable on board—about 220 yards—was unnecessarily long and bulky in the boat, and was never more than half paid out before we were at a safe distance from the charge. It was in consequence of this, and the time taken to connect up a fresh charge, that I instructed Lieutenant Hammand to have the cable divided into two next day, so that two charges could be prepared beforehand. I repeated this order to both Lieutenant Hammand and Corporal M'Kee at the morning parade, but I never authorised the slightest departure from my repeated instruction to officers, non-commissioned officers, and men—both at the store tent in camp, on the steamers, and in the boats—to keep the primed charges well separated. So careful were we that each primer and each charge were in separate tents. On the day before the accident, I checked an officer for having two charges in the stern of the cutter together, even where no cable was connected to them, and he explained that the second charge had been temporarily removed from the bows from under a tarpaulin during the time that Lieutenant Hammand was testing the dynamos. My hurried visit to the jetty at about 2:30 p.m. on Friday was not for the purpose of taking personal charge, but merely to ascertain if they would be ready in time, and if they required any further instructions. I did not get into the cutter. I only saw one charge—viz., that on the starboard side, and I had not the faintest idea that there was another lashed on the port side, or that it was ever intended to place one there. Had I seen the charge on the port side I would instantly have had it removed. I did not pay any particular attention to the second charge, as I made sure it was in a place of safety. When the explosion occurred I was under the impression that the charge had not been properly freed, and had been dragged after the boat. It was not until I saw the buoy in its proper position that it was evident there had been a second charge on board. I at once informed His Excellency the Governor and the two Ministers (Mr. O'Connor and Mr. Gould) that I had no knowledge of a second charge on board. I proceeded to the buoy laid out, with Captain Morris, N.S.W.A., and Major Walker, P.P.S.M. and picked up the unexploded charge. My instructions to Lieutenant Hammand were explicit, and referred only to the charge on the starboard side. The sinker of this charge being about 18 inches out of water, I thought the splash on cutting it away might disconcert those in the boat, so I had it lowered into the water. I recollect Lieutenant Bedford remarking in a jocular way that it would take the way off the boat, and I replied that it would make little difference as they only had a short way to go. My remarks as regards paying out the cable to the full length were only a repetition of my constant caution to ensure that the boat was at a safe distance—that the cable actually led to the charge, and had not fouled the boat and possibly dragged it. The practice of firing experimental charges in bags and small cases was not introduced by me—it has been carried on for many years past by the Submarine Mining Corps at Berry's Bay and elsewhere. It is, however, a curious fact that during the Easter Encampment of 1889 I checked one of the officers for laying out a charge without a marking buoy, and I then warned the officers of the danger of exploding charges unless they were at a safe distance, which they could only ensure by a knowledge of the actual position of the charge, and by seeing the cable leading to the buoy. I recollect instancing the case of a cutter's crew blown up alongside one of Her Majesty's ships. They thought they were at a safe distance, while in reality the cable must have fouled the rudder and been dragged under the boat. This accident was related to me many years ago by Major (now Colonel) Sale, R.E., and made a deep impression on me. I recollect calling out to Corporal M'Kee on leaving that we would be ready to fire in about an hour, and that I relied on him to see that all the connections were properly made. I had the most perfect confidence in both Lieutenant Hammand, with whom I had been in daily contact during the camp in all the previous operations, and also in Corporal M'Kee, and I expected them to carry out intelligently all the precautions laid down in S.M. practice and my instructions during the previous experiments. It is simply beyond my comprehension how such careful and experienced electricians and submarine miners as Lieutenant Hammand and Corporal M'Kee could have started off from the jetty after such ample time to get everything in perfect order, with two coils of cable connected to two live charges within a few feet of them without separating the cables, identifying the ends and sealing them up. The first principles of all electrical work, however trivial, however free from danger, is never to make a connection to any instrument without tracing the leads, and in submarine mining work, such as connecting up and laying out mines, even where no firing battery is near, the cables are invariably carefully lashed in coils, their ends identified and insulated, and the coils kept clear of one another. In laying out mines the lashings of the cables are never cut, and the coils freed, until the order to lower away is given. On the Tuesday and Wednesday before the accident, I personally superintended the laying out of twelve mines in Obelisk Bay. The drill was perfectly carried out. There was not one single hitch in the operation, and I have never seen mines more correctly and expeditiously laid in my life. Several of the officers of the corps remarked to me that it was the most perfect practice they had ever had. I would have considered it almost a reflection on the intelligence of Lieutenant Hammand and Corporal M'Kee had I interrupted their work to detail

detail all the precautions enjoined in the Service, and had I thought it necessary I need hardly say I would never have entrusted them with the duty. Having heard the evidence of the survivors, there is not the slightest shadow of doubt in my mind that the explosion of the gun-cotton charge which killed Lieutenants Hammand and Bedford, Corporal M'Kee, and Bugler Bennett, occurred in the following manner:—1. The wrong cable was connected to the dynamo, *i.e.*, the cable to a charge secured to the starboard side of the cutter was, by mistake, connected to one of the terminals of the dynamo instead of the cable of the charge which had been laid out. 2. The earth-plate attached to the other terminal of the dynamo, on being thrown over the starboard side of the boat after the failure to explode the charge occurred, must have fallen on the top of the charge instead of into the water, and coming into contact with the coil of wire forming its earth, completed the circuit when the handle of the dynamo was again turned. The evidence conclusively proves, to my mind, that the wrong cable was attached from the first to the dynamo; that the charge on the starboard side was never disturbed, nor lowered into the water, without which a circuit through the earth-coil on the charge to the earth-plate in the water was impossible; and that the fact of connecting the wrong cable to the charge could never have caused the explosion had it not been for the accidental contact between the earth-plate and the earth attached to the mine, and this could not have occurred had my caution of the previous day to have the earth-plate got ready to attach to the dynamo been observed. The invariable custom is to have the plates in the water, and the lead lashed to the side of the boat, as it appears to have been on the port side. Further, the cable was not fully paid out, as specially ordered by me during my hurried visit at about 2.30 p.m. This precaution alone would have absolutely ensured the slightest risk even with two charges on board. It is a very painful thing to cast any reflection on the dead, more especially on men who were carrying out their duty to the best of their ability, but there is no getting away from the fact that, apart from all other questions, there was a manifest want of ordinary prudence displayed by Lieutenant Hammand and Corporal M'Kee in placing the dynamo alongside a live charge, when ample room had been made for it on the clear side of the cable on the stroke-seat and gang-board—the position the dynamo invariably occupied on all previous occasions. Had this been done there could have been no accidental contact between the earth-plates.

Lieutenant-Colonel Cracknell having to attend a Committee for electric lighting the city, the Court adjourns till Monday, the 13th April.

The Court assembled on Monday the 13th, Lieut.-Col. Wells and Lt.-Col. Airey only being present. Lt.-Col. Cracknell, owing to a death in his family, being unable to attend.

The Court received a further paper from Col. de Wolski, R.E., which is attached to the proceedings, and the Court further adjourned.

### Colonel de Wolski's statement, handed in 13th April.

I LEARN with extreme regret that certain remarks, alleged to have been made by me to a representative of the press immediately after the accident, have conveyed an impression that I intended to reflect on the character of the work done at the Easter encampments, and on the discipline of the officers and men engaged. Nothing could be further from my thoughts—nothing further from the truth. My views on the question reported in the *Daily Telegraph* of Saturday, 4th April, can only bear such an interpretation in the minds of those persons who never miss an opportunity of describing the military forces and defences of this Colony. What I did intend to convey is very clearly stated in the following letter, addressed to me by Captain Collins, late R.N., the present Secretary of Defence in Victoria, who was a guest in our camp on the day of the disaster:—

My dear Col. de Wolski,

Sunday, 5th April, 1891.

I wish to express my sympathy with you for the very deplorable accident that occurred last Friday to the boat's crew engaged in laying out mines at Middle Head.

I entirely concur in the views you are reported to have expressed as to the danger that exists in making such work a spectacular display, and I am therefore pleased to bear witness that your objections to such a mixture of display and work were very strongly expressed to me by you before lunch at Middle Head on the very day of the accident. Your objections were, therefore, almost prophetic. You fully stated your belief in the danger that accompanies such displays, and I join with you in regret that it should have had so speedy and so fearful a demonstration.

Yours, &c.,

ROBERT COLLINS.

I may add that I am informed on high authority that the Admiralty have of late years forbidden such displays on the Royal Naval Torpedo training-ship "Vernon," at Portsmouth. I think it would be wise to adopt the same system here, at all events until steps have been taken to provide a small submarine establishment at Cobbler's Beach, and to reserve the jetty exclusively for military purposes, as I have previously intimated my intention of recommending. During Easter week I have seen four steamers alongside the jetty at one and the same time, and the pier so blocked from end to end with visitors that I was obliged to land my party with their stores on the rocks in boats. Under these conditions the submarine miners carried on their work with great difficulty.

I cannot close this statement without some reference to the manner in which my time and energies during a brief tour of service in this Colony, which will expire in a few months, have been wasted in a protracted struggle to remove the construction of the defence works of this Colony from incompetent civil control, in the preparation of evidence for boards of inquiry, and a Royal Commission. I have had in consequence but little leisure to devote to my legitimate duties, not the least important of which are the training of the submarine miners, and the preparation of a scheme of defence. The want of a properly equipped submarine mining establishment and an efficient staff has made this portion of my duties well nigh impossible, and I can only say that it speaks volumes for the spirit which animates officers and men of the P.-P. Submarine Mining Corps that, under trying conditions and after years of neglect, they work so zealously on all occasions and always endeavour to make the best of their opportunities.

The points which I have touched upon may possibly account for some of the causes which have tended to bring about an accident involving so many faults of omission and commission. I would express an earnest hope that this sad loss of life will not give rise to any unwarranted loss of confidence in the safety of submarine mines, but that it will bring home to the Government of this Colony the necessity not for protracted Royal Commissions and inquiries, but for arriving at a speedy decision as to the

the appointment of a Minister of Defence, with time and leisure and the necessary staff, for controlling the military administration and defence of the Colony, as recommended first by General Schaw and later by General Edwards. The country owes a great debt of gratitude to the Premier for the care and wisdom he has bestowed in dealing with military matters; but every day of my service in this Colony convinces me more and more of the imperative necessity of obtaining the undivided attention of a responsible Minister, and I therefore consider it my duty to add this recommendation to my statement.

F. R. DE WOLSKI,  
Colonel.

11/4/91.

The Court adjourns.

On Wednesday, the 15th April, 1891, the Court re-assembled to consider their report. Present:—  
The same members as at the commencement.

### Report.

THE Court having maturely considered the evidence, report that on Friday afternoon, April 3rd, as part of the experiments to be carried out by the Permanent Sub-Marine Miners and the Partially-paid Sub-Marine Miners, during the Easter Encampment at Middle Head, two charges of gun cotton were prepared to be exploded from the cutter belonging to the corps.

The whole of the detail of officers and the other arrangements were entirely under the directions of Colonel de Wolski, who accepts the fullest responsibility, (*vide* his evidence given at the Middle Head Camp, April 3rd, page 4).

The following officers and men were told off by Colonel de Wolski to perform this duty:—Lieutenants Hammand and Bedford, Partially-paid Sub-Marine Miners; Corporal M'Kee, R.E., Permanent Sub-Marine Miners (an instructor of sub-marine mining, attached from the Imperial Service); and Bugler Bennett, who lost their lives in consequence of this accident; Sappers Brentnall, Borland, Blakeman, Adams, Tulley, King, Bowmaker, Grant, and Wailes, Partially-paid Sub-Marine Miners, who were employed as boatmen, and to assist the officers when necessary.

Colonel de Wolski personally visited the jetty, at about 2:30 p.m., and gave his final orders to Corporal M'Kee and the officers in the boat, whom he regarded as being under Corporal M'Kee's instructions. These instructions do not appear to have been carried out. The cable was not divided, marked, and separated, as it should have been, but left overlapping and the coils somewhat in confusion. The severance having only been made a short time before leaving the jetty, resulted no doubt in the wrong end of the cable being connected to the dynamo.

The cutter left the wharf about 3:45 p.m., and rowed out about 300 yards, with one charge of 100 lb. gun cotton on the port quarter, and two 50-lb. charges on the starboard quarter aft. The 100-lb. charge was lowered with a buoy and flag attached, and the boat was removed 80 to 90 yards or so from the buoy. Corporal M'Kee connected a lead with the dynamo and Lieutenant Hammand turned the handle, but the charge did not explode, which no doubt was caused through the earth plate not having been placed overboard. Subsequently the earth plate was thrown over, and an explosion at once took place.

This is confirmed by the following witnesses, survivors, who were on board the cutter:—Sappers Grant, Bowmaker, Borland, Adams, Brentnall, Wailes, King, and others.

The evidence of Sapper Percy Brentnall, which is very clear, shows that Lieutenant Hammand threw over the earth plate on the starboard quarter, and turned the handle of the dynamo, prior to which Corporal M'Kee was fumbling with the terminals.

This was after they had tried to explode the 100-lb mine and failed. He also states that he could not see how the earth plate thrown over could have avoided crossing the charge on the starboard side.

This appears to the Court to be the full solution of the accident. The earth plate, when thrown over, must have come in contact with the bare earth connection of the charge on the starboard quarter of the boat, and the wrong cable being connected with the dynamo completed a metallic circuit which only required a few turns of the dynamo to explode the charge. There is ample evidence to prove this was done; in fact, there is no other explanation of the cause, as no mine or charge could have been exploded unless the circuit was completed either through the water as a return circuit or purely a metallic circuit through the conductor.

The Court, to make a conclusive test, proceeded to Middle Head on the afternoon of the 7th April, to inspect and explode the 100-lb. charge, which had been laid and unexploded on Friday 3rd April. The earth coil was undisturbed and was again lashed on the top of the bag. Colonel de Wolski laid the charge under exactly similar conditions to those of Friday and exploded it satisfactorily.

This is another proof that the wrong cable was attached to the dynamo or there would have been no failure on the day in question.

From the evidence, the Court can only arrive at one conclusion: that the only persons to blame for this sad calamity were Lieutenant Hammand and Corporal M'Kee, the one for attaching a wrong connection, and the other for transmitting a current from the dynamo without making perfectly certain that the cables and earth-plates were without doubt in their proper positions.

How such a catastrophe could have happened with two cool thoroughly trained men such as Lieutenant Hammand and Corporal M'Kee—the former who has had six years experience and had passed a more than an ordinary examination, and the latter, who was considered a most efficient man by the Imperial authorities—is more than the Court can explain.

This is more especially the case as it is proved beyond all doubt that the officers and men engaged were all perfectly calm and free from any excitement at the time of leaving the wharf, and had been engaged on both the previous day and on the morning of the accident in the same duties.

Colonel de Wolski appears, from direct evidence, to have used every care and precaution as Instructor to the corps, and to have given his personal supervision to the stores issued, which were of "service material" in every case. The cables also used on this occasion were properly tested.

The

The examination has been very much delayed owing to conflicting evidence of the witnesses in the boat and other causes. This, it appears to the Court, is due to the daze occasioned in the minds of the men by the shock, and the memories of the situations at previous drills being paramount. There can be no suspicion of wilful untruth on the part of anyone, and some of the statements are reconcilable, viz., as to the side on which the "earth-plate was thrown out," as there were two earth-plates in the cutter.

The Court in general give great credence to the statement of Sapper Brentnall, who was nearest the operations, and whose evidence was particularly clear.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

## THURSDAY ISLAND AND KING GEORGE'S SOUND, &amp;c.

(STATEMENT BY THE MAJOR-GENERAL COMMANDING THE MILITARY FORCES, REGARDING MEETING OF COMMANDANTS OF VARIOUS AUSTRALIAN COLONIES COMMISSIONED TO VISIT AND REPORT AS TO BEST MEANS OF DEFENCE OF.)

*Ordered by the Legislative Assembly to be printed, 26 May, 1891.*

The Major-General Commanding the Military Forces to The Principal Under Secretary.

Sir,

Head Quarters, 8 January, 1891.

I have the honor to state, that in accordance with the instructions of the Minister, Colonel de Wolski, R.E., and I left Sydney for Melbourne, on Friday, the 14th November last, to join the Committee of Commandants of the various colonies, appointed to report upon the defence of Albany, Thursday Island, Tasmania, and Port Darwin.

On the following Monday (17th) the duties of the Committee were commenced by an interview with the Honorable Sir Frederick Sargood, K.C.M.G., the Victorian Minister of Defence:—Present: Major-General Tulloch, C.B. (Victoria), Major-General Downes, C.M.G. (South Australia), Major-General Richardson, C.B. (New South Wales), Colonel French, C.M.G. (Queensland), and Colonel Bernard (Tasmania); Colonel de Wolski, R.E., and Major Hannay, R.E., also attended on behalf of New South Wales and Victoria, respectively.

The work before the Committee, and arrangements to be made in connection therewith, were duly discussed and agreed to, and General Tulloch then assumed the Presidency of the Committee.

On the 18th the Committee left for Adelaide by train *en route* for Albury per "Orient" steamer, which was reached on Sunday, the 23rd. Here the Committee were met by the representatives of Western Australia, in the persons of the Honorable T. A. Wright, and Major Phillips, the Acting-Commandant—Captain Moore, R.N., the representative of the Admiralty, here joined the Committee.

During the ensuing week the Sound, and country adjacent thereto, and that on both sides of the entrance of the harbour, were thoroughly inspected, and sites selected for the erection of the necessary works, &c. A portion of the Committee also visited Perth and Fremantle, on the invitation of the local authorities, with the view of advising as to the protection there required.

On the 29th the Committee left Albany by steamer "Austral," arriving in Adelaide on December 2nd. The following day I was permitted, by the courtesy of Major-General Downes, to inspect the Largs Bay and Glenelg Forts. Captain Wallcott, the Naval Commandant, was also good enough to show me over H.M.C.S. "Protector," and in the afternoon I continued my journey to Melbourne.

A meeting for formal discussion was held on Saturday, the 6th, and on the following Monday Colonel de Wolski returned to Sydney, his duties in connection with the fortification of Albany having been concluded. He, moreover, felt that his further absence from the active supervision of his important work in New South Wales was very undesirable, in which I fully concurred.

On the 9th a portion of the Committee (myself included) proceeded to Launceston, and were there joined by Colonel Warner, Acting Commandant, and Colonel Bernard. The afternoon of the 10th saw us *en route* to the north-west coast, and we considered the measures of defence proposed for the seaport towns of Devonport, on the River Mersey, Ulverstone, on the Leven, and lastly Emu Bay, returning to Launceston on the 13th, and thereon to Hobart same day. Generals Tulloch and Downes rejoined the Committee at the former place.

During our stay at Hobart the Queen's and Alexandra batteries, including both banks of the Derwent, were visited, and, indeed, the whole question of the defence of Hobart was exhaustively discussed.

On the 17th we again arrived at Launceston, and proceeded same day down the Tamar, to its mouth, inspecting the various points of vantage, and landing at the entrance. In the evening we were picked up by the Melbourne boat, and on arriving at Queenscliff, Captain Moore and I transhipped to a smaller vessel placed at our disposal by the Victorian authorities, to enable us to visit the various batteries at the entrance to the bay. We accordingly inspected the "Eagle's Nest," "Nepean Crow's Nest," and Swan Island Forts, as also the Submarine Mining Depot at last named, going on to Melbourne in the evening.

The

The 20th and 22nd were taken up in consultation and the adoption of reports. On the 23rd Captain Moore and I were kindly shown over the Victorian war vessels by Captain Mann, R.N., the Naval Commandant. During our stay in Melbourne Colonel de Wolski and I visited the Williamstown Rifle Range during the annual matches of the Association, thinking that in all probability we should be able to pick up (as we did) some information which would assist in the formation of the new rifle range at Randwick now in progress. On the 24th of December I arrived in Sydney, and reported myself to the Minister.

Opportunity was also taken by the President of the Committee to informally discuss various questions relating to the personnel of the military forces of the various Colonies, such as organisation, training, discipline, pay, allowances, clothing, &c., which I think will be of value, should it be determined to establish the defence forces on federal lines.

In consequence of information received as to the very unfavourable climatic condition of Thursday Island and Port Darwin during the months of January, February, and March—sufficient, indeed, to prevent the Committee satisfactorily performing their work—it was decided to refer the matter to the Victorian Minister for Defence. Subsequent inquiry confirmed the report, and it was then decided to postpone the visit of the Committee to the abovenamed places until the second week in April next.

The reports of the Committee were delivered to the Victorian Minister of Defence, copies of which are doubtlessly now with this Government.

In conclusion, I have the pleasure to inform Sir Henry Parkes that the utmost kindness, consideration, and courtesy was extended to the representatives of New South Wales by the various Governments and officials of the Colonies visited.

I have, &c.,  
 JOHN S. RICHARDSON,  
 Major-General Commanding.

Submitted, 12/1/91. Scen.—H.P., 31/1/91.

**MINING.**  
 (REGULATION.)
 

---

Presented to Parliament, pursuant to Act 37 Vic. No. 13.

---

Department of Mines, Sydney, 13 March, 1891.

**REGULATION UNDER THE MINING ACT OF 1874.**

His Excellency the Governor, with the advice of the Executive Council, has been pleased to adopt the following Regulation as a Regulation under the Mining Act of 1874.

SYDNEY SMITH.

NOTICE of time fixed for hearing an Application for permission to suspend work on a Gold-mining Lease.

When an application shall have been made to the Warden, in terms of the Mining Act of 1874 and the Regulations thereunder, for permission to suspend work on any Gold-mining Lease which shall have been duly registered, the Warden shall appoint a time and place for hearing such application, and shall cause to be posted up at the Warden's Office nearest the land demised under the lease particularised in such application, and to be served, where practicable, upon the holders of adjoining claims or leases, a notice under his hand, stating the time and place appointed by him for hearing the said application: Provided that such notice be given at least seven days prior to the date fixed for the hearing of the application for permission to suspend work.

## NEW SOUTH WALES.

**MUNICIPALITIES.**

(BOROUGH OF WAGGA WAGGA—BY-LAWS.)

**Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.**Colonial Secretary's Office,  
Sydney, 14th January, 1891.**BOROUGH OF WAGGA WAGGA.—BY-LAWS.**

THE following By-laws, made by the Council of the Borough of Wagga Wagga under the "Municipalities Act of 1867," having been confirmed by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

**BOROUGH OF WAGGA WAGGA.**

BY-LAWS for fixing and locating stands for public vehicles, cars, hackney-carriages, hansom cabs, omnibuses, and passenger-carrying vehicles, and for regulating the management and the fares to be charged by the proprietors, drivers, and conductors of such vehicles:—

1. The places specified in Schedule A, hereto annexed, are hereby respectively appointed public stands for licensed vehicles. The Council may by resolution from time to time, as they may see fit, alter the position of such stands or locate additional stands.
2. No person suffering from any infectious disease shall ride in or upon any licensed vehicle, and no driver or conductor of such licensed vehicle shall knowingly carry, or permit to be carried, any such person or (except to some police-office or watch-house) any corpse, or any person in a state of intoxication, or any person who is so noisily or violently conducting himself, or otherwise misbehaving, as to occasion any annoyance or to disturb the public peace; and no passenger shall carry on any licensed passenger-carrying vehicle any animal or any substance of any offensive character, or that might soil or damage the vehicle or the apparel of other passengers, and no driver or conductor shall sleep in or upon any licensed vehicle, or use the same for eating his meals therein.
3. The driver of any licensed vehicle carrying passengers shall (except when turning street corners or going over crossings) proceed with such hackney-carriage or cab at a speed not less than 6 miles an hour, unless when attending funerals, or when otherwise ordered by the hirer.
4. The driver of any licensed vehicle shall not stand or loiter in any place in the public street within the said Borough, excepting the places specified in Schedule A hereto, unless bona fide waiting for a passenger.
5. The fares payable by persons hiring licensed passenger-carrying vehicles shall be according to the scale fixed by Schedules B and C hereto annexed.
6. Copies of Schedules B and C, printed in type not smaller than brevier, shall be placed in each licensed vehicle by the proprietor or driver thereof, in such a position as to be easily seen by passengers.
7. For every offence against the provisions of any of the preceding By-laws to which no special penalty has been attached, the offender shall pay a penalty not exceeding ten pounds nor less than five shillings.
8. Whenever the word "vehicle" shall be used in the preceding or following By-laws, the same shall be understood to apply to either an omnibus, car, hackney-carriage, or hansom cab; and an omnibus shall mean a vehicle upon four wheels drawn by two or more horses; and a hackney-carriage shall mean a vehicle upon four wheels drawn by one or more horses; and a hansom cab, a vehicle upon two wheels drawn by one horse.
9. No proprietor or driver of any hackney-carriage or hansom cab within the said Borough shall demand, receive, or take more than the several fares or sums mentioned or set forth in the Schedules B and C to these By-laws, or such other sums as the Council of the said Borough shall from time to time determine or appoint in substitution thereof, as hereinafter provided; and every proprietor, driver, or conductor failing to comply with, or committing a breach of, this By-law shall for every such offence forfeit and pay a penalty or sum not exceeding five pounds nor less than five shillings.
10. No driver of any hackney-carriage or hansom cab shall refuse to take up any passenger or passengers unless already engaged for hire, nor refuse to convey such passenger or passengers to such place or places within the said Borough as he, she, or they may reasonably desire; and every person failing to comply with, or committing a breach of, this By-law shall forfeit and pay a penalty or sum not exceeding five pounds for every such offence.

11. No driver of any licensed vehicle shall be or remain at such a distance from his horse or horses, while attached to his vehicle, anywhere within the said Borough, as not to have immediate and full control over the same; and every person who shall commit a breach of this By-law shall for every such offence forfeit and pay a penalty or sum not exceeding five pounds nor less than five shillings.

12. The owner of every hansom cab or hackney-carriage or other licensed vehicle must provide, and the driver is bound to give every passenger on demand, a ticket containing a copy of Schedules B and C of these By-laws, printed as provided by the sixth of these By-laws, and on such ticket there shall be written or printed the number of the said hansom cab or hackney-carriage and the name and address of the owner thereof.

13. The driver of every hansom cab or hackney-carriage or other vehicle, who shall (except in the course of his hiring or at the request of passenger) stand with his vehicle at any place within the said Borough which is not included in Schedule A hereto, or has not been fixed or determined by resolution of the Council to be a stand within the meaning of these By-laws, shall for every such offence be liable to a penalty not exceeding sixty shillings, and in every prosecution under this By-law the onus of proving that he was bona fide waiting at the request of a passenger to whom he was then under hire shall be upon the person charged.

14. Every passenger hiring or travelling by a hansom cab or other vehicle shall be allowed 50lb. weight of luggage free of charge. Subject to this allowance the charges payable for the carrying of luggage shall be as provided by the scale in Schedule C hereto annexed.

15. If any person who shall hire a hansom cab or other licensed vehicle shall refuse on the termination of the hiring on demand being made therefor by the driver of such hansom cab or other licensed vehicle, or the conductor thereof, to pay at once in cash the lawful fare as provided in that behalf by the respective Schedules hereto, he shall on conviction thereof before two Justices pay a fine of not less than one pound and not more than ten pounds.

16. If any proprietor, driver, or conductor of any hansom cab or other licensed vehicle within the said Borough shall—after tender by the person hiring such vehicle of the lawful and proper fare chargeable in accordance with the Schedules B and C hereto annexed, or either of them—demand, receive, or take a sum in excess of the said fare, or of any fare which the Council of the said Borough may from time to time determine or appoint in substitution thereof by any By-law, to be duly passed and published in accordance with law, he shall, on conviction thereof before two Justices, forfeit and pay for every such offence a penalty or sum not exceeding ten pounds and not less than forty shillings.

17. Upon the conviction of any proprietor, driver, or conductor under the preceding By-law, the Mayor shall thereupon suspend the license of the offender, and report the matter to the next ordinary meeting of the Council, who may remove such suspension or confirm it for such period as they may think fit.

18. Unless specially stipulated for by the proprietor or driver beforehand, the fare for every journey begun by any licensed vehicle within the Borough and terminated within the Borough—whether the vehicle shall be in the meantime driven beyond the limits of the Borough or not—shall be in accordance with the Schedules hereto.

19. All existing By-laws made by this Council under the above heading and for the purposes set out therein are hereby repealed.

#### SCHEDULE A.

No. 1 Stand: For cabs and hackney-carriages.—On the north-eastern side of Fitzmaurice-street, from a point 18 feet south from its intersection with Little Gurwood-street to the Telegraph Office.

No. 2 Stand: For cabs and hackney-carriages.—On the south-eastern side of Little Gurwood-street, from a point 18 feet north-easterly from its intersection with Fitzmaurice-street to Tarcutta-street.

No. 3 Stand: For cabs and hackney-carriages.—On the eastern side of Collins-street, from its intersection with Edward-street to the railway gates.

#### SCHEDULE B.

Scale of fares to be charged by persons plying hansom cabs within the Borough of Wagga Wagga:—

- (a) For any time not exceeding one quarter of an hour, for one passenger—not exceeding one shilling.
- (b) For two passengers comprising one party, for any time not exceeding one quarter of an hour—not exceeding one shilling and sixpence.
- (c) For every additional quarter of an hour in either of the two preceding cases—not exceeding one shilling.
- (d) If engaged for one hour, or more than one hour, the charge shall not exceed the rate of four shillings per hour for one or two passengers for the first hour; and for every subsequent quarter of an hour or part thereof, the charge shall not exceed ninepence.

Scale of fares to be charged by persons plying hackney-carriages, omnibuses, or licensed vehicles other than hansom cabs, within the said Borough:—

- (e) For any time not exceeding one quarter of an hour for one passenger—not exceeding one shilling.
- (f) If hired by two persons, comprising one party, for any time not exceeding one quarter of an hour—one shilling and sixpence.
- (g) If hired for one hour or more than one hour, the charge shall not exceed the rate of four shillings per hour for the first hour for one or two passengers comprising one party; and for every subsequent quarter of an hour or part thereof, the charge shall not exceed one shilling.
- (h) If hired by three persons, comprising one party, for any time not exceeding one quarter of an hour—not exceeding one shilling and sixpence.
- (i) For every subsequent quarter of an hour or part thereof in the preceding case—not exceeding one shilling and sixpence.
- (j) If engaged for one hour or more than one hour, the charge shall not exceed the rate of five shillings per hour for three persons, comprising the one party, for the first hour; and for every subsequent quarter of an hour or part thereof, the charge shall not exceed one shilling.
- (k) If engaged by not less than three and not more than six persons, comprising one party, for any time not exceeding one quarter of an hour—not exceeding three shillings.
- (l) If engaged for more than one quarter of an hour, for every additional quarter of an hour or part thereof—not exceeding one shilling and sixpence.
- (m) If engaged for one hour or more than one hour the charge shall not exceed the rate of six shillings per hour for not less than three and not more than six persons comprising the one party.
- (n) After ten o'clock p.m. double fares may be charged.
- (o) For every journey within the Borough to or from any train arriving at the railway station after midnight and before 5 o'clock a.m.—for each passenger, two shillings and sixpence.

#### SCHEDULE C.

- (p) For carrying luggage within the Borough of Wagga Wagga, for every 50lb. weight for any time not exceeding one quarter of an hour—one shilling.
- (q) For every additional 50lb. weight of luggage or any part thereof, for any time not exceeding one quarter of an hour—one shilling.
- (r) If engaged for more than an hour, for every 50lb. or part thereof, for every additional quarter of an hour after the first hour—ninepence.

The above By-laws were made and passed, and adopted, by a resolution of the Council of the Borough of Wagga Wagga, at a meeting of the Council held on the ninth day of October last past, and the seal hereto was affixed by order of the said Council.—Dated this 20th day of November, A.D. 1890.

(L.S.) C. H. CROAKER,

J. HAWKES, Council Clerk,

Mayor.

NEW SOUTH WALES.

**MUNICIPALITIES.**

(BOROUGH OF WAGGA WAGGA—BY-LAWS.)

**Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 158.**Colonial Secretary's Office,  
Sydney, 6th February, 1891.**WAGGA WAGGA MUNICIPALITY.—BY-LAWS.**

THE following By-laws, made by the Council of the Borough of Wagga Wagga, under the "Municipalities Act of 1867," for regulating the admission of the public to the Town Hall Gardens, having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the provisions of the above-cited Act.

HENRY PARKES.

**BOROUGH OF WAGGA WAGGA.**

BY-LAWS for regulating the admission of the public to the Town Hall Gardens.

1. The Gardens shall be open to the public between the hours of 7 a.m. and 5 p.m. from the 1st day of May till the 31st day of August, both days inclusive, and from 7 a.m. till 9 p.m. from the 1st day of September till the 30th day of April, both days inclusive.

2. The entrance to and exit from the Gardens shall be by and at the gate on the western side fronting Baylis-street, and no person shall enter or leave the Gardens except at or by such gate.

3. If any person shall enter or leave the Gardens by any gate or opening, or in any other manner than at or by the gate specified in the preceding By-law, or shall enter the Gardens or be found or seen therein before or after the hours prescribed for the opening and closing thereof respectively by the first of these By-laws, or shall trample or walk or be upon any bed or place set apart for the propagation of plants or trees or the raising of seeds, or shall wilfully destroy, injure, pull up, remove, cut, or in any way damage any plant, tree, or shrub growing in the said Gardens, or shall commit any nuisance within the Gardens, or behave himself in a riotous or disorderly manner, or conduct himself in such a manner as to cause annoyance or offence to any person in the Gardens, he shall for every such offence on conviction thereof, before two Justices, be liable to a penalty not less than five shillings and not exceeding twenty pounds.

4. If any person shall deface, obliterate, throw, or cut down, or remove or alter the position of any notice, placard, or finger-post in the Gardens, he shall on conviction thereof, before two Justices, be liable to a penalty not less than five shillings and not exceeding ten pounds.

5. No dogs shall be allowed in the Gardens, and any person who shall allow his dog to stray therein shall on conviction thereof, before two Justices, be liable to a fine of not less than five shillings and not exceeding twenty shillings.

The above By-laws were passed by resolution at a meeting of the Council of the Borough of Wagga Wagga, held on Thursday, the 9th day of October instant.—Dated this 8th day of December, 1890.

J. HAWKES, Council Clerk.

## NEW SOUTH WALES.

**MUNICIPALITIES.**

(BOROUGH OF NEW LAMBTON—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Colonial Secretary's Office,  
Sydney, 14th January, 1891.

## BOROUGH OF NEW LAMBTON.—BY-LAWS.

THE following By-laws, made by the Council of the Borough of New Lambton, under [the "Municipalities Act of 1867," having been confirmed by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

THE Council of the Municipality of New Lambton do, by virtue of the authority vested in them by the Act to establish Municipalities, 31 Vic. No. 12, hereby make and establish the following By-laws for the regulation and control of public vehicles within the Municipality of New Lambton:—

*Interpretation.*

In the construction of these By-laws, unless the context shall otherwise indicate, the following terms in inverted commas shall bear the meaning and include the things hereinafter severally assigned or set against them.

"Council"—The Mayor and Aldermen of the Municipality of New Lambton.

"Inspector"—The Inspector of Vehicles, or Sub-inspectors now or hereafter to be appointed by the said Council.

"Vehicles"—shall include all vehicles hereafter defined in this By-law.

"Omnibus"—A vehicle used for the purpose of standing or plying for passengers to be carried for hire at separate fares in any public street or place, and including the following description:—Vehicle on four wheels drawn by two or more horses.

"Carriage"—Any vehicle used for the purpose of standing or plying for hire in any public street or place, and including the following descriptions:—Hackney carriages or vehicles on four wheels drawn by one or two horses, cab or vehicle on two wheels drawn by one horse.

"Dray"—Dray, wain, waggon, cart, van, or vehicle of any construction standing or plying for hire, and drawn by one or more horses.

"Owner"—Every person who alone or in partnership with any other person shall keep any vehicle for which a license shall, may, or ought to be obtained by or of which the license shall or may be transferred to him under these By-laws.

"Conductor"—Every person other than the driver engaged or employed in attending upon passengers in or upon any omnibus.

"Driver"—Every person engaged or employed in driving any vehicle.

"Passenger"—Every person carried in or upon any omnibus or carriage other than the driver or conductor.

"Horse"—Horse, mare, gelding.

And in the construction of these By-laws any word importing the singular number shall be understood to include several persons or things as well as one person or thing, and any word importing the plural number shall be applied to one person or thing, and every word importing the masculine gender shall extend and be applied to a female as well as a male.

*Public vehicles generally.*

No vehicle to ply or person to drive or conduct without a license.

2. No vehicle shall ply for hire, nor shall any person act as the driver or conductor of any such vehicle within the Municipality of New Lambton, unless licensed in the manner hereinafter mentioned, nor during the suspension or after cancellation of such license as hereinafter provided. The owner of any such vehicle shall not permit the same so to ply for hire until he shall have taken out the license therefor, and paid the fee provided in the Schedule hereto annexed marked C, applicable to the description of vehicle intended to be licensed.

*A requisition must be sent for licenses.*

3. Before any licenses shall be granted to the owner, driver, or conductor of any vehicle, the person requiring such license shall obtain from the Inspector, free of charge, a requisition in the form of the Schedule hereto annexed marked A, or to the like effect, and shall duly fill up and sign the same, and deliver it with a certificate from two respectable persons, stating that he is of good character, of the required age, and competent for the position under license applied for, to the Inspector, at his office, or such other place as may be appointed for that purpose.

No license to be granted for vehicle in bad condition.

4. No license for any vehicle shall be granted or renewed unless the vehicle, horse or horses, and harness shall have been examined by the Inspector, or other person appointed by the Council, and by him found to be in a fit state to be licensed; and no license shall be granted in respect of any vehicle which, in the opinion of the Council, shall be unsafe, in bad repair, or otherwise unfit for the accommodation and conveyance of passengers, or for the conveyance of goods or merchandise.

## Form of license.

5. Licenses for owners, drivers, or conductors shall be in the form provided in Schedule B for each such license respectively, or to the like effect.

## Licenses to continue in force until 31st December.

6. Every license granted under these By-laws shall be under the hand of the Mayor, and countersigned by the Council Clerk, and shall be in force from the date of such license up to and including the 31st day of December then next ensuing; and no such license shall include more than one vehicle: Provided that if by accident any vehicle shall become unfit for use it shall be lawful for the owner thereof, during such reasonable time as it shall be undergoing repairs, to use another vehicle as a substitute, but the substitute shall in all respects, except as to a license, be subject to these By-laws in the same manner as if a license had been granted for it, and the owner using it shall be liable for any non-compliance with these By-laws in respect thereof as if it had been licensed. In order to entitle an owner to the benefit of the above provision he shall, before using such substitute, give notice in writing of his intention to do so to the Inspector, stating the true cause of his being compelled to use such substitute, and the period during which it will be necessary to do so; and no such substitute shall be used until it shall have been inspected and approved of by the Inspector, or for a longer period than fixed by a certificate, to be signed by the Inspector, and delivered to the owner.

## Licenses—by whom made out.

7. Licenses shall be made out in duplicate by the Inspector or his assistant, and numbered in such order as the Council shall from time to time direct.

## Fee for license.

8. For every such license or annual renewal thereof there shall be paid to the Council Clerk the several rates set forth in the Schedule hereunto annexed marked C.

## Renewal of license.

9. Licenses may be renewed at the end of every year by endorsement, under the hand of the Council Clerk, provided that the applicant for such renewal shall have been reported by the Inspector as having conducted his business creditably and satisfactorily.

Owner not to part with license or licensed vehicle without the approval of the Council.

10. No owner shall be at liberty to part with or lend his license. Any owner transferring or selling his licensed vehicle shall immediately give notice thereof to the Inspector, and the transferee or purchaser shall thereupon apply to have the license transferred to him, and shall sign his name in the books of the Inspector and on the license, and until this By-law shall have been complied with the transferrer or seller shall remain liable as owner for the breach of any of these By-laws, and no transferee or purchaser shall use the vehicle or allow it to be used to ply for hire.

## Who deemed owner.

11. The person or persons in whose name or names a license shall appear on the books of the Inspector shall be deemed the owner of the vehicle in respect of which such license shall have been issued.

## Change of residence to be notified.

12. Whenever any person named as the owner, or one of the owners, driver, or conductor of a licensed vehicle shall change his place of abode, he shall, within two days next after any such change, give notice thereof in writing signed by him to the Inspector, specifying his new place of abode, and the same shall be endorsed upon the license granted to such owner, driver, or conductor, and entered in the Inspector's book.

13. Any holder of a license under these By-laws who, since the license shall have been issued to him, shall have been convicted of any felony or misdemeanour, or of having been intoxicated while in charge of a licensed vehicle, or of any two breaches of these By-laws within a period of six months, shall be liable to have his license cancelled or suspended by the Council, and no person shall, during the suspension or cancellation of his license, act as driver or conductor of any licensed vehicle.

14. The Council shall have power to suspend or cancel the license of any driver or conductor who shall have been guilty of any breach of these By-laws, notwithstanding the provisions of the next preceding By-law, and no person shall, during the suspension of his license, act as driver or conductor of any licensed vehicle.

## Driver and conductor not to part with license.

15. Every driver or conductor shall deliver to the owner employing him the duplicate of his license, but he shall not lend or otherwise part with his original license on any pretence whatsoever. No owner of any such vehicle shall employ an unlicensed person as the driver or conductor thereof, or without receiving from such licensed driver or conductor the duplicate of the license held by him, which duplicate the said owner shall hold during the time of such person's employment by him, and on discharging any such person he shall return to him the said duplicate.

16. The Council may, as often as they shall deem it necessary, cause an inspection to be made of all or any licensed vehicles, and of the harness and horse and horses, animal or animals, used in drawing the same, and if any vehicle, horse or horses, animal or animals, or harness shall be found by them, in their opinion, unfit for public use, notice in the form or to the effect contained in the Schedule annexed, marked K, shall be given to the owner of such vehicle, and no owner, after such notice, shall use or let for hire, or suffer to be used or let for hire, such vehicle, horse or horses, animal or animals, or harness, as the case may be, before the same shall, in the opinion of the Inspector, be in condition fit for public use. And the Council may suspend, for such time as they may deem proper, the license of such vehicle. And in case the owner shall neglect or refuse to attend with his licensed vehicle, horse or horses, animal or animals, and harness before the Council, when he shall be called upon for that purpose, the Council may suspend the license of such vehicle, and no owner of any such vehicle shall permit or suffer the same to ply for hire during the suspension of such license.

## Lamps to be lighted.

17. Every licensed vehicle shall be provided with a lamp on each side of the same outside, and the driver of same, when plying for hire between sunset and sunrise, shall light and keep such lamps lighted, and the conductor of an omnibus shall also, between the hours of sunset and sunrise, light and keep lighted the lamp inside such omnibus.

## No vehicle to be withdrawn without notice.

18. No owner of any licensed vehicle shall withdraw the same from hire for two successive days, or for any two days in one week, without leave from the Inspector, except in case of accident. Provided that any owner may obtain such leave to withdraw his vehicle on giving five days' notice in writing to the Inspector of his desire to do so.

## To ply from stands.

19. The owner or driver of any licensed vehicle shall not permit the same to stand or ply for hire except at or from an appointed stand.

## Stands in Schedule.

20. The places specified in the Schedule H, hereunto annexed, are hereby respectively appointed public stands for licensed vehicles, and the said Council may by resolution from time to time, as they may see fit, alter the position of such stands.

## Mode of driving on stands.

21. The driver of every vehicle shall, on its arrival at any public stand, drive the same to the end of the rank of any vehicle that may be on such stand, and be the last of the same, and at every public stand all vehicles shall be arranged in single rank only, and shall draw up in succession in order of arrival to the place vacated on such stand.

## Space to be left between every fourth vehicle.

22. At every fourth vehicle on every stand there shall be left a space of at least 8 feet for passengers to pass through.

## Driver and conductor to be in attendance.

23. The driver and conductor of any vehicle shall be constantly in attendance on the same when standing on a public stand or plying for hire, and no driver or conductor, when standing on a public stand or plying for hire, shall be at such a distance from the horse or horses attached thereto as to prevent his having control over the same, nor shall the driver or conductor at any time stand by or remain on the footway or pavement of any of the streets, lanes, or public places next adjoining any public stand, but every driver and conductor when not actually employed in or about his vehicle, or in feeding or watering his horses, shall remain on the driving box or step of his vehicle, and not elsewhere.

## Taking up or setting down passengers.

24. The driver of any vehicle taking up or setting down passengers at any place of public worship, or public amusement, or at any public meeting within the Municipality of New Lambton, or who is waiting for any of those purposes, shall obey the direction of the Inspector or other officer of the Council who may be on duty at such place or places, as to the taking up or setting down, or waiting for passengers, and as to the order and place in which any vehicle shall stand, and every driver shall perform his duty in a careful and quiet manner, and shall not push into or get out of the line or position fixed for the vehicle, so as to endeavour to arrive at his place of destination before any other vehicle, the driver whereof, from its position, would have a prior right to take up or set down passengers.

## Mode of feeding horses.

25. The driver of every vehicle shall place a muzzle upon the head of any vicious horse while on the stand, and whilst feeding his horse or horses shall use nose-bags to contain the forage, and shall not remove his horses' blinkers during the time of feeding.

## No loitering.

26. No driver of any vehicle shall suffer the same to stand or loiter in any street, or alongside of any other vehicle, in taking up or setting down any person, or wilfully, wrongfully, or forcibly prevent or endeavour to prevent the driver of any other vehicle from taking a fare.

27. Any owner, driver, or conductor who shall, whilst driving, loading, or unloading, or attending any vehicle, or whilst on any public stand, wilfully or negligently do or suffer or cause any damage to be done to the person or property of any one, shall upon conviction forfeit or pay to the person whose person or property shall have been damaged such sum for compensation not exceeding £10 (ten pounds) as the Justices hearing the case may award.

28. No driver or conductor shall, whilst acting as driver or conductor, be guilty of any breach of the peace, misconduct, or misbehaviour, or to be intoxicated, or make use of any threatening, obscene, filthy, indecent, blasphemous, profane, abusive, or insulting language, sign, or gesticulation, but shall at all times be sober and careful in the discharge of his duties.

29. No person using any licensed vehicle shall be guilty of any breach of the peace, misconduct, or misbehaviour, or be intoxicated, or make use of any threatening, obscene, filthy, indecent, blasphemous, profane, abusive, or insulting language, sign, or gesticulation, or wilfully or negligently injure or damage such vehicle or the driver or conductor thereof.

30. The driver of any carriage shall immediately upon any person entering the same, give to such person a table of the fares payable for the hire of licensed vehicles, printed in clear and legible characters.

Not to stand longer than necessary for loading, &c.

31. No driver shall, except whilst standing on an appointed stand, permit his vehicle, with or without a horse or horses, to stand in any part of the Municipality longer than may be absolutely necessary for loading or unloading, or for taking up or setting down passengers, nor shall he cause any obstruction in any part of the Municipality of New Lambton.

Driver to keep on near side of the road.

32. Every driver of any vehicle shall keep the same on the left or near side of the road, except in case of actual necessity, and shall permit any other vehicle to pass, having the right so to do, and when about to stop shall raise his whip straight up, so as to warn the driver of any vehicle that may be behind.

Driver to turn vehicle at a walk, &c.

33. The driver of every vehicle requiring to turn for the purpose of proceeding in an opposite direction on any street, road, or lane in the Municipality of New Lambton, shall bring the horse or horses to a walking pace before commencing to turn, and shall go at the same pace in turning the corner of any street.

Pace for omnibus and carriages, &c.

34. No vehicle, except a dray, shall be drawn through any part of the Municipality of New Lambton at a walking pace, except as before provided, or on Sunday, when all shall be so drawn when passing places of public worship during divine service, or whilst in a funeral procession, nor at a pace faster than that of a trot, which shall not be at a less rate than six miles an hour nor more than seven, at which rate all carriages shall be drawn, except when otherwise ordered by the hirer.

Condition of vehicle.

35. The owner of every vehicle shall at all times, when the same is plying for hire, make and keep it clean, strong, and in good order in all respects, and if with windows they shall be sound and unbroken, with the leathers or lifts suitably attached to the frames. The horse or horses shall be able and sufficient for their work, free from disease, and properly broken in to harness. The harness for each horse shall be perfect, good, and sufficient for the purpose. And every driver and conductor shall be clean in his person, and wear a good hat and other clean and respectable clothes, and conduct himself in a proper and decorous manner.

Who shall be carried.

36. No person suffering from an infectious or contagious disease shall ride in or upon any licensed vehicle, and no driver or conductor shall knowingly carry or permit to be carried any such person or (except to some police office or watch-house) any corpse, or any person in a state of intoxication, or who is so noisily or violently conducting himself, or otherwise so misbehaving as to occasion any annoyance, or to disturb the public peace; and no passenger shall carry inside any vehicle, except a dray, any animal or any substance of an offensive character, or that might soil or damage the vehicle or the apparel of other passengers; and no driver or conductor shall sleep in or upon any licensed vehicle, or use the same for eating his meals therein.

37. No driver or conductor shall smoke tobacco or other thing whilst driving or conducting any licensed vehicle engaged on any fare, nor shall any passenger smoke on any vehicle without the consent of the driver, or against the wish of any other passenger, and in no case shall any smoking be allowed inside any omnibus. No conductor shall enter any omnibus nor mount on the top of it whilst performing his journey for the purpose of collecting any fares, or for any other purpose, or permit any person to stand on the steps or monkey-board whilst he shall be conducting.

No person to drive without consent of owner.

38. No person, except the driver or conductor of a licensed vehicle (authorised by the owner of such vehicle) shall drive or conduct the same; no driver or conductor shall suffer or permit any other person to act as driver or conductor of such vehicle without the consent of the owner; neither shall the driver or conductor of any vehicle leave the same when plying for hire, and no person shall tout or solicit passengers for him.

Not to neglect to take a fare agreed for.

39. No owner or driver of any licensed vehicle having agreed to take a fare from any place at any time shall delay, neglect, or refuse to do so.

Vehicle whilst loading to be placed near side of street.

40. Every driver whilst engaged in loading or unloading his vehicle shall place it as near as conveniently may be to the near or left-hand side of the street parallel to the footway.

By-laws to be given to licensed persons.

41. Every person obtaining a license under these By-laws shall, at the time of registering his license, have given to him without charge a copy of these By-laws; each such copy to be signed by the Inspector, and to have the name of the owner, driver, or conductor, to whom the same shall be delivered, with the number of the license written distinctly thereupon, and each owners, drivers, and conductors respectively shall at all times have such copy of By-laws ready for production, and shall upon request produce the same for any person using or hiring any vehicle, and every driver and conductor shall at all times have his original license, and produce the same when required by any person as aforesaid, or to the Inspector or his assistants, or to any Justice of the Peace, or Inspector of Police requiring same.

The register of license.

42. Every owner, driver, and conductor receiving his license, shall sign a copy purporting to be such, and acknowledging the receipt of the original license, which copy shall be kept by the Inspector, and the production of which on any proceeding for breach of the By-laws shall be sufficient evidence that the person so signing is in fact the person to whom such original license was issued, and of his being so licensed, without any notice to produce the original.

## Omnibus and Omnibus-car Regulations.

Construction of omnibus furnishing—Necessary particulars to be painted.

43. Every omnibus and omnibus-car for which a license shall hereafter be applied for shall be of the dimensions herein directed, and shall be provided by the owner with the fittings and furniture, and have painted on it the words, figures, and notices detailed and described as follows:—

## Dimensions.

From floor to roof, in line with front of each seat, not less than five feet.

From top of seat of cushion to roof, not less than three feet six inches.

Each seat shall not be less than fourteen inches wide; space from seat to seat, between the inside seats, not less than two feet.

## Fittings and furniture.

The outside seats, when not of the rustic pattern, and all inside seats, shall be furnished with good cushions.

Springs shall be provided to all window frames of an improved pattern, effective to prevent noise.

Waterproof aprons shall be provided sufficient to cover the legs of all outside passengers, which aprons the drivers shall offer for use.

A bell or checkstring to warn the driver to stop when required.

Two lamps outside—one on each side of the omnibus or omnibus-car, of the colour prescribed for the line of road on which it shall ply—one lamp inside.

The number of license in black on the outside lamps.

The number of the license, four inches long, and of proportionate width, upon or near the driver's seat, and upon the panel of the door on the outer side.

The fare and name of the owner, the licensed number of passengers, on the outside of the door.

The name of the stands between which it shall be licensed to ply, on each external side clear of the wheels; also

On the end of the panel inside, in a conspicuous place, the names of stands between which it shall be licensed to ply, the licensed number of passengers, the time of journey, the fare, and the name of the owner; except where otherwise directed. All the above words and figures to be not less than two inches in length, free from flourishes or intricate designs, and of a colour opposite to, contrasting with, the ground on which they shall be painted. No alteration shall be made in any of the above without notice to the Inspector and approval of the Council: Provided that no alteration in the colour of the body of any omnibus or omnibus-car shall be enforced until it shall require to be painted. Provided also, that it shall not be lawful for the owner, driver, or conductor of any omnibus or omnibus-car, to suffer any notice, advertisement, or printed bill, or any names, letters, or numbers to appear upon the outside or inside thereof without the consent of the Inspector previously obtained.

Not to carry a greater number than licensed for.

44. No driver or conductor shall admit to the inside, or allow on the outside of any omnibus at any one time, a greater number of passengers than the number it shall be licensed to carry inside or outside, as the case may be; and no omnibus shall be licensed for more passengers than the same will accommodate upon fixed seats, properly cushioned, allowing for each passenger a space of eighteen inches, measuring in a straight line lengthwise on the front of each seat, nor shall any vehicle be taken off the line of road for which it shall be licensed: Provided that no child under five years of age sitting on the lap shall be deemed to be a passenger within the meaning of these By-laws: No passenger to carry more than one child without paying its fare. No omnibus shall be taken off its line of road except as herein provided.

Omnibuses to start in rotation.

45. The time of starting shall be according to the tables issued by the Council, or at such other times as may be appointed from time to time by resolution of the Council. The first omnibus to start on one day shall be the last on the next, and the others in their order, starting earlier by the interval appointed between any two omnibuses on such stand, unless arrangements have been made for the alteration of the order of starting from the stand in the morning between the owners of such vehicles, with the consent of the Inspector; and each owner shall furnish an omnibus to perform the journeys in every turn that falls to him, so as to keep a continuous rotation daily: Provided that at such stands as do not appear in Schedule II, there shall be an interval of ten minutes between the starting of every two omnibuses from any stand to the same place, or such other special cases as the Council may direct.

Line of road and time to be kept.

46. The driver of every omnibus or other vehicle shall on each line of road start with his vehicle from its stand and complete its journey and the parts thereof to its other stand (if any) for such road in the times shown in Schedule issued by the Council, or at such other times as may be appointed from time to time by resolution of the Council, without turning round or leaving the proper line of road from one stand to the other, as shown in Schedule J and in the license of such omnibus or other vehicle.

Extraordinary occasions.

47. The Inspector of licensed vehicles for the time being shall be at liberty to grant permission to the owner or driver of any licensed vehicle to leave the line of road for which such vehicle is licensed, and ply the same from any place not being an appointed stand; and no owner or driver of any licensed vehicle shall permit or suffer the same to leave the line of road for which such vehicle is licensed.

No blowing of horns, &c.

48. No driver or conductor of any omnibus, whilst standing at a public stand or plying for hire in any part of the Municipality of Lambton, shall endeavour to attract notice by ringing of bells, blowing of horns or other instruments, nor deceive any person in respect of the route or destination thereof by word or sign; nor shall the driver or conductor of any vehicle endeavour to attract notice by shouting on Sunday whilst standing at a public stand, or in any part of the said Municipality. Provided that the Inspector may in certain cases give the driver permission to blow a whistle or sound a horn.

Passing.

49. The driver of any omnibus shall not permit his vehicle to pass any other omnibus in the Municipality of New Lambton, proceeding in the same direction from or to the same stand, if the latter be proceeding on its journey at a pace faster than a walk.

Eligible passengers not to be refused.

50. No owner, driver, or conductor of any omnibus or other vehicle licensed to ply for hire from stand to stand, shall demand, receive, or take from any passenger a larger fare than shall be shown in large immovable figures in some conspicuous place,

both inside and outside the omnibus, as the fare for which such omnibus or other vehicle plies: Provided that no fare shall be increased except between the hours of 10 o'clock at night and 5 in the morning. And no driver or conductor of an omnibus or other vehicle as aforesaid shall neglect or refuse to admit and carry any person for whom there is room and to whom no reasonable objection can be made under these By-laws, nor, except in cases of accident or other unavoidable cause, shall any driver or conductor stop such vehicle upon any place where foot passengers usually cross the carriage-way.

51. Any person having taken his seat in or upon an omnibus or other vehicle as aforesaid shall pay the fare, as shown in Schedule G, when demanded after the commencement of his journey. And any person who shall refuse to pay the same shall be liable on conviction to a penalty of 10s.

#### Carriage and Cab Regulations.

Carrying capacity of hackney carriages, &c.

52. No license shall be hereafter granted for any vehicle to be used as a hansom cab, unless the said vehicle shall be of the following dimensions: Height inside, from bottom of floor thereof to roof (in front of seat), four feet ten inches; height inside, from top of seat to roof, three feet six inches; width of seat room, three feet; depth of seat, one foot two inches; space from front of seat to inside of door, eleven inches; width outside, immediately over door, not less than three feet seven inches. The number of the license granted for every hackney carriage or cab shall be painted in figures not less than two inches in height, and of proportionate breadth, of a colour to contrast with the colour of the ground on which it shall be painted, outside on the panel of each door on any hackney carriage, and on the sides of the boot of any cab, and upon each lamp on any of the aforesaid vehicles the same number of the same size shall be painted black, and all the aforesaid numbers shall be kept legible and undefaced during all the time such vehicle shall ply or be used for hire. The drivers of such vehicles respectively shall be bound to take, if required, exclusive of the driver, four persons inside and one person outside a hackney carriage, or two persons inside a hansom cab. The driver shall not be obliged to take any luggage exceeding fifty pounds in weight, being clean and of such a description as may be placed inside or outside the vehicle without injuring the same, and the driver shall be entitled to claim one shilling for every additional fifty pounds weight or portion thereof so carried; but the person hiring such vehicle shall be allowed eighty-four pounds weight of luggage when the number of persons is short of the number aforesaid. Whenever the number of persons carried shall exceed that named for each vehicle respectively, the driver shall be entitled to charge—by time or distance, as the hiring may be—one-third more for each adult or two children over five and under fifteen years of age. Further, the driver shall not allow any person to ride, drive, or be carried in or upon such vehicle without the consent of the hire.

Number of carriage and table of fares to be affixed inside.

53. The number of the license of every carriage on a card, six inches by three, printed in clear legible figures, and the table of fares to be fixed by the Council, shall be affixed at the back of the panel of such carriage, or in such other place as the Council may direct; and such card shall be kept so affixed, legible and undefaced, during all the time the carriage shall ply or be used for hire. No owner or driver of a licensed hackney carriage or cab shall demand, receive, or take more than the several fares set forth in the Schedule hereunto annexed, marked F.

Driver to draw to near side to put down, &c.

54. Every driver of a carriage whilst engaged in taking up or setting down any passengers shall, during such taking up or setting down, place his vehicle as near as conveniently may be to that side of the street, and in a line parallel with the kerbstone at which the taking up or setting down is required: Provided that he shall put down or take up on his near side.

Fares to be paid for vehicles sent for but not used.

55. Any person calling or sending for a carriage or cab and not further employing the same shall pay as follows:—For a hackney carriage, one shilling; for a cab, nine pence, or the fare from the stand or place from which the carriage or cab was engaged, at the driver's option. And if the person calling the carriage or cab shall detain the same more than five minutes, he shall pay for any time it may be detained not exceeding a quarter of an hour,—if a hackney carriage, nine pence; if a cab, six pence, and any further time in the same proportion, which amounts may be recovered in a summary way, together with costs.

56. Any person having hired a licensed carriage shall pay the legal fare when demanded; and any person refusing or neglecting to pay the same shall, on conviction before two Justices of the Peace, forfeit and pay the same with such amount of over damages, costs, and charges, for loss of time, or otherwise, as the said Justices shall think fit.

*Dray Regulations.*

No person to ride on dray without reins

57. No owner, driver, or any other person having the care and charge of any dray drawn by one or more horses, or other animals, shall ride thereon, unless he shall be provided with sufficient reins, or if such dray be loaded; and no block dray shall be allowed to proceed out of a walking pace.

Property left on dray.

58. In every case of goods or merchandise being left on any licensed dray, or with the driver thereof, by any person having hired or used the same, such property shall be delivered up to such person, or shall within eighteen hours be taken, in the state in which it shall have been found, to the Council's office, and there deposited with the Inspector.

Not to carry more than one ton on dray.

59. No owner or driver shall at any one time carry on any licensed dray, having only two wheels and drawn by one horse, a greater weight than one ton.

Detention.

60. Whenever any dray, hired by the load or distance, having taken up a load, shall be detained with the same more than fifteen minutes, the hirer shall pay for every fifteen minutes after the first, six pence, and so in proportion for any longer period.

How numbers placed on dray.

61. The number of the license granted for every dray shall be painted white on a ground of black, or the reverse, on the sides thereof, in a conspicuous place in figures not less than three inches in height and of proportionate breadth, with the letters N.L.B.C. of the same colour immediately above the figures, and the driver or owner of such dray shall at all times keep the same legible and undefaced.

Not to demand more than legal fare.

62. No owner or driver of any dray shall demand, receive, or take more than the several fares or amounts fixed by the Council by these By-laws, as shown in Schedule D, and no owner or driver of any dray shall permit or suffer any person to be carried therein as a passenger.

Fares for sending for but not using dray

63. Any person calling or sending for any licensed dray, and not further employing the same, shall pay the sum of two shillings, or the fare or hire from the stand or place where the dray was engaged, at the driver's option; he shall further, for any time the dray may be detained not exceeding a quarter of an hour, pay the sum of one shilling, and for any time not exceeding a second quarter of an hour the sum of six pence, and for any further time at the rate of six pence for every quarter of an hour.

To pay legal fare.

64. Any person having hired a licensed dray shall pay the legal fare when demanded, as shown in Schedule D.

Distance—how computed.

65. The distance shall be computed from the stand or place where the dray was hired.

Council appoint stands.

66. The places enumerated in the Schedule hereto marked E are hereby appointed public stands for drays.

Drays not to stand across street.

67. No driver of any licensed dray shall suffer the same to stand for hire across any street, except so directed by the Inspector, or alongside any other vehicle, nor obstruct the driver of any other dray in loading or unloading any goods or merchandise, or wilfully, wrongfully, or forcibly prevent, or endeavour to prevent, the driver of any vehicle from taking a fare or hiring.

*Miscellaneous Regulations.*

Property found in vehicles.

68. The driver of every vehicle and conductor of every omnibus shall carefully examine his vehicle immediately after setting down his fares, and in every case of property having been left in any vehicle by any person having used or hired the same, such property, if found by another passenger or other person, shall be delivered to the driver or conductor, who shall deliver the same, with any other property found by him, within eighteen hours after such finding to the Inspector's office, and there deposit it; and no owner shall detain any property delivered to him by any driver or conductor in his employment longer than the time before mentioned, but shall deposit it at the Inspector's office with the Inspector.

28—B

Additional fare after 10 p.m. and before 5 a.m.

69. For as much of every drive by time or distance as may be performed by any vehicle not an omnibus, after 10 o'clock at night and before 5 o'clock in the morning, an addition of one-half the ordinary fare shall be paid with such ordinary fare, and in case of an omnibus the charge shall be double the ordinary fare between the above-mentioned hours.

Information may be made on behalf of the complainant.

70. It shall be lawful for the Inspector on receiving a complaint from the owner, driver, or conductor of any licensed vehicle, or from any person using or intending to use, or hiring or intending to hire, any such vehicle, that any of these By-laws have been disobeyed, to cause the person against whom the said complaint shall have been made to be summoned to appear before the Justices.

Vehicles on a stand bound to take a fare.

71. Every vehicle, except an omnibus, standing or being on any public stand shall be deemed to be plying for hire, and the driver thereof shall be bound to take immediately any fare notwithstanding any pre-engagement: Provided, however, that no person shall be bound to take such fare unless the person requiring the same shall upon demand tender and pay the legal fare for the required hiring there and then. Further, if at any other place than a public stand the owner or driver shall solicit engagement by word or sign, he shall be bound to take a fare immediately, under the same conditions as before-mentioned as to the hirer.

Inspector may be appointed.

72. Such person or persons as may from time to time be in that behalf appointed by the Council shall be Inspector or Sub-inspectors, during the pleasure of the Council, of all licensed vehicles plying for hire in the Municipality of New Lambton, and such Inspector or Sub-inspectors shall every three months examine all such vehicles and report to the Council on the same, and shall at all times see that as far as possible the By-laws are duly observed; and any such Inspector or Sub-inspectors shall have power to order from any stand, or from being driven or used for hire, any vehicle, horse or horses, and harness attached thereto, which upon examination shall not be in a proper and cleanly state, and in all respects in accordance with the By-laws fit for work; and every owner, driver, or conductor shall comply with the orders and directions so given.

No persons to obstruct Inspector.

73. No owner, driver, or conductor, or other person shall obstruct or hinder any such Inspector or Sub-inspectors in the execution of his duties, or refuse to comply with any lawful order or direction to be given by him in relation to these By-laws.

74. For any offence against the provisions of these By-laws the offender shall be liable to and shall pay a penalty not exceeding £10 nor less than 5s.

**SCHEDULE A.****A requisition of license to**

To the Borough Council of New Lambton.

I, \_\_\_\_\_, residing in \_\_\_\_\_ street, do hereby request that license be granted to me to No. \_\_\_\_\_ within the said Municipality.

 From Adamstown or Glebe, by Regent-street, along Church-street to the stand, thence to Newcastle, Lambton, or Plattsburg by the Hamilton and Lambton Road.

SCHEDULE K.

To Mr. \_\_\_\_\_, owner of the \_\_\_\_\_ numbered \_\_\_\_\_  
 Take notice that I, the duly appointed Inspector of Public Vehicles for the Borough of New Lambton, have this day examined your \_\_\_\_\_ and find it defective, it being \_\_\_\_\_, and I therefore prohibit the same from being used or hired again until the repairs above noted are made, and approved of by me.

Inspector.

Lambton, 18 .

Made and passed by the Borough Council of the New Lambton Municipality, this nineteenth day of November, one thousand eight hundred and ninety.

(L.S.) JOSEPH W. OLDHAM,  
 Mayor.

JAMES HANN, Council Clerk.

1891.

## NEW SOUTH WALES.

# MUNICIPALITIES.

(BOROUGH OF DRUMMOYNE—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Colonial Secretary's Office,  
Sydney, 12th February, 1891.

## BOROUGH OF DRUMMOYNE.—BY-LAWS.

THE following By-laws, made by the Council of the Borough of Drummoyne, under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

## BOROUGH OF DRUMMOYNE.—BY-LAWS.

PROCEEDINGS of the Council and Committees; preservation of order at Council Meetings; duties of officers and servants, &c.

*Meetings of the Council.**Ordinary meetings.*

1. Unless otherwise ordered the Council shall meet for dispatch of business on every alternate Wednesday, at the hour of 8 p.m., unless such day shall happen to be a public holiday. In the latter case the meeting shall be held on such other day as the Mayor may appoint.

*Business of ordinary meetings.*

2. The following shall be the order of business at all meetings of the Council, other than special meetings:—
1. The minutes of the last preceding meeting to be read, corrected if erroneous, and signed by the Mayor or other Chairman. No discussion to be permitted on such minutes, except as to whether they are correct.
  2. Correspondence to be read, and order made thereon if expedient.
  3. Petitions (if any) to be read and dealt with.
  4. Reports from Committees and minutes from the Mayor (if any) to be presented, and orders made thereon.
  5. Questions as to matters under the jurisdiction, or within the official cognizance of the Council, to be put and replied to; and statements as to any facts, matters, or circumstances requiring attention by the Council, or any of the Committees or officers, to be made.
  6. Motions, of which notice has been given, to be dealt with in the order in which they stand on the business paper.
  7. Orders of the day to be disposed of as they stand on the business paper: Provided that it shall be competent for the Council at any time to entertain any particular motion, or to deal with any particular matter of business out of its regular order on the business paper without any formal suspension of this section; and also in like manner to direct that any particular motion or matter of business shall have precedence at a future meeting.

*Business at special meetings.*

3. At special meetings of the Council the business shall be taken in such order as the Mayor or Aldermen at whose instance the special meeting shall be called may have directed.

*Business paper for ordinary meeting, how prepared.*

4. The business paper for every meeting of the Council other than a special meeting shall be made up by the Council Clerk not more than four days nor less than one day before the day appointed for such meeting. He shall enter on such business paper a copy or the substance of every notice of motion, and of every requisition or order as to the business proposed to be transacted at such meeting, which he shall have received, or shall have been required or directed so to enter in due course of law, and as hereinafter provided. Every such entry shall be made (subject to the provisions of section 4 of this Part of these By-laws) in the same order as such notice, requisition, or direction shall have been received.

*Summons to Members.*

5. The summons to members of the Council for every meeting thereof shall be prepared from the business paper for such meeting, and shall embody the substance of such business paper.

*How business paper is to be disposed of.*

6. The business paper for each meeting of the Council shall, at such meeting, be laid before the Mayor or Chairman, who shall make a note upon such business paper of the mode in which each matter entered thereon has been dealt with, and such business paper so noted shall be a record of the Council.

Notice of motion, &c., to be numbered as received and preserved until disposed of, unless withdrawn before the business paper is made up.

7. All notices of motion, and all requisitions from Aldermen, and directions from the Mayor as to the entry of any particular matters of business for the consideration of the Council at the then next or any future meeting, shall be numbered by the Council Clerk as they are received; and each such notice, requisition, and direction shall be preserved by such clerk until after the matter to which it relates shall have been disposed of, and the record in the Minute-book of the manner

*How business paper is to be disposed of.*

8. The business paper for each meeting of the Council shall, at such meeting, be laid before the Mayor or Chairman, who shall make a note upon such business paper of the mode in which each matter entered thereon has been dealt with, and such business paper so noted shall be a record of the Council.

Notices of motion, &c., to be numbered as received and preserved until matter disposed of unless withdrawn before business paper made up.

9. All notices of motion and all requisitions from Aldermen and directions from the Mayor as to the entry of any particular matter of business for the consideration of the Council at its then, next, or any future meeting, shall be numbered by the Council Clerk as they are received; and each such notice, requisition, and direction shall be preserved by such clerk until after the matter to which it relates shall have been disposed of, and the record in the Minute-book of the manner in which such matter has been so disposed of shall have been duly verified, as required by section 3 of this Part of these By-laws: Provided, however, that the person giving or forwarding any such notice of motion, requisition, or direction to the Council Clerk shall be at liberty to withdraw the same at any time before the making up of the business paper.

After business paper made up, all notices, &c., to be the property of the Council.

10. After the business paper shall have been made up as aforesaid all the said notices of motion, requisitions, and directions as to which entries have been made thereon shall be the property of the Council, and shall not be withdrawn, altered, or amended without leave having been first obtained from the Council for such withdrawal, alteration, or amendment.

*Motions and Amendments.*

*Motions—how to be moved.*

11. Except by leave of the Council, motions shall be moved in the order in which they stand on the business paper, and if not so moved or postponed shall be struck out and considered to have lapsed.

*Absence of proposed mover.*

12. No motion of which notice shall have been entered on the business paper shall, except as hereinafter provided, be proceeded with in the absence of the Alderman by whom such notice shall have been given unless by some other Alderman producing a written authority for that purpose from such first-named Alderman.

*Motion to be seconded.*

13. No motion in Council shall be discussed until it has been seconded.

*Amendments may be moved.*

14. When a motion shall have been made and seconded, any Alderman shall be at liberty to move an amendment thereon, but no such amendment shall be discussed until it has been seconded.

*Motions and amendments to be in writing.*

15. No motion or amendment shall be discussed until it has been reduced into writing.

*Only one amendment at a time.*

16. No second or subsequent amendment shall be discussed until the previous amendment or amendments shall have been disposed of.

*Amended question—further amendment may be moved thereon.*

17. If an amendment be carried, the question as amended thereby shall become itself the question before the Council, whereupon any further amendment upon such question may be moved.

*How subsequent amendments may be moved.*

18. If any amendment, either upon an original question or upon any amended question, shall be negatived, a further amendment may be moved to the question to which such first-mentioned amendment was moved, and so on: Provided that not more than one question and one proposed amendment thereof shall be before the Council at any one time.

*Motions for adjournment.*

19. No discussion shall be permitted on any motion for adjournment of the Council; and if, upon the question being put on any such motion, the same be negatived, the subject then under consideration, or the next in order on the business paper, or any other on such paper that may be allowed precedence, shall be discussed before any subsequent motion for adjournment shall be receivable.

*Requisitions from Aldermen—how to be dealt with.*

20. Every requisition by an Alderman, that any particular matter of business be brought before the Council, shall be treated as a notice of motion by such Alderman that such business be taken into consideration by the Council. And he shall be called upon in due order to move that such business be so considered or to make any other motion which he may

think fit in reference thereto which shall be consistent with the notice of such business and with good order. And if any such Alderman be absent, or if, being present and so called upon, he shall make no such motion, then it shall be open to any other Alderman to make such motion. And when any such motion shall have been made it shall be dealt with in the same manner as if notice thereof had been given, subject, however, to any objection which may exist as to its not being in accordance with the notice actually given of such business or with good order. And if no motion shall be made in reference to such business, the entry relating thereto shall be struck out of the business paper.

*Orders of the Day.*

*Of what orders of the day shall consist.*

21. The orders of the day shall consist of any matter other than motions on notices which the Council shall at a previous meeting thereof have directed to be taken into consideration or which the Mayor or any Committee of the Council shall have directed to be entered on the business paper for consideration.

*How they are to be dealt with.*

22. Section 19 of this Part of these By-laws shall be considered applicable to orders of the day; and the Alderman who has the usual charge of, or who has previously moved in reference to, the particular business to which any such order of the day relates shall be the person called upon to move: Provided that as to any order of the day entered as aforesaid by direction of the Mayor, such Mayor may arrange with any Alderman to move, and may in such case call upon the Alderman with whom he has so arranged.

*Petitions.*

*Petitions to be respectfully worded.*

23. It shall be incumbent on every Alderman presenting a petition to acquaint himself with the contents thereof and to ascertain that it does not contain language disrespectful to the Council. The nature and prayer of every such petition shall be stated to the Council by the Alderman presenting the same.

*Petitions—how received.*

24. All petitions shall be received only as the petitions of the parties signing the same.

*How petitions are to be dealt with.*

25. No motion shall, unless as hereinafter provided, be permissible on the presentation of a petition, except that the same be received, or that it be received and referred to one of the permanent Committees hereinafter mentioned; or that it may be received, and that its consideration stand an order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice of a motion in reference to any petition, and such petition shall have been presented before such Alderman shall have been called upon to move such motion, the said motion shall, if otherwise unobjectionable, be considered in order.

*Correspondence.*

*Duties of the Mayor as to correspondence.*

26. The Mayor shall have the same duty in reference to letters addressed to the Council, before directing the same to be read, as by section 23 of this Part of these By-laws is imposed upon Aldermen presenting petitions. The Mayor shall direct as to the order in which all correspondence shall be read, and no letter addressed to the Council shall be presented or read by any Alderman. If the Mayor be absent, and shall not have examined such letters addressed to the Council, or have given any such directions as aforesaid, then the duties imposed by this section shall devolve upon the presiding Alderman.

*Section 26 to apply to letters.*

27. Section 25 of this Part of these By-laws shall be equally applicable to letters addressed to the Council.

*Letters sent not to be discussed, but every letter may be subject of motion.*

28. No discussion shall be permitted in reference to any letters which have been written and sent by the Mayor, or by any officer of the Council, though copies may be read to such Council: Provided, however, that any notice of motion, consistent with good order, may be entertained with reference to any such letters whether read or not, or with reference to any letters addressed to the Council, which the Mayor or presiding Alderman may not have ordered to be read as aforesaid.

*Reports from Committees and minutes from the Mayor—Form of report*

29. All reports from Committees shall be written on foolscap paper, with a margin of at least one fourth of the width of such paper, and shall be signed by the Chairman of such Committee, or in his absence, by some other member of the same.

*Mayor's minute.*

30. The Mayor shall have the right of directing the attention of the Council to any matter or subject within its jurisdiction or official cognisance, by a minute in writing. Every such minute shall be written upon paper of the same kind, and with the same margin as a report from a Committee, and shall be signed by such Mayor.

How reports, &c., are to be dealt with.—Duties of Chairman, &c., in certain cases.

31. No motion shall (unless as hereinafter provided) be permissible on the presentation of a report from a Committee or a minute from the Mayor, except the same be received, or that it be received and that its consideration stand an order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice in reference to any such report or minute, or if an order for the consideration of such report or minute shall have been entered among the orders of the day, it may, if otherwise unobjectionable, be moved or considered in due course. And when any such report or minute embodies any recommendation which cannot legally be carried out without such due notice, and it is nevertheless desirable that such report or minute shall be definitely ordered upon during the meeting of the Council at which it is presented, it shall be the duty of the Chairman, or member of such Committee signing such report, or of the Mayor, as the case may be, to give or transmit to the Council Clerk such a notice of motion, requisition, or direction as aforesaid, as will enable the Council Clerk to make the necessary entry on the business paper and to give due notice.

*Questions and Statements.*

Limitations as to question and statements.

32. No question or statement shall be allowed to be put or made which is inconsistent with good order, or is not in strict accordance with the requirements of section 3 of this Part of these By-laws.

Notice to be given.

33. Sufficient notice of every question shall be given to the person who is expected to reply thereto, to allow for the consideration of such reply, and if necessary, for a reference to other persons or to documents.

Answer not compulsory.

34. It shall not be compulsory upon any person questioned as aforesaid to answer the question so put to him.

Question to be put without argument, &c.

35. Every such question must be put categorically, without any argument or statement of fact.

Similar provision as to statements.

36. Every such statement must be made without argument. No discussion or question &c., rights of objection, and of subsequent motion reserved.

37. No discussion shall be permitted as to any such question or as to any reply or refusal to reply thereto, or as to any such statement, at the time when such question is put, or such reply or refusal to reply is given, or such statement is made: Provided, however, that nothing herein contained shall prevent the taking of any objection as to any such question or statement being out of order, or shall prevent the discussion, after due notice, as hereinbefore provided, of any matters properly arising out of or relating to any such question, or reply, or refusal to reply, or any such statement as aforesaid.

*Order of Debate.*

Mode of addressing the Council &c.

38. Every Alderman who shall make or second any motion, or shall propose or second any amendment, or shall take any part in any debate or discussion, or shall put or reply to any question, or shall make any statement, or shall in any other way, or for any other purpose, address observations to the Council, shall while so doing stand up in his customary place (unless he shall be prevented from so doing by reason of some bodily infirmity), and shall address himself to the Mayor or other Chairman then presiding: Provided that in the case of a question, such question may, by permission of such Mayor or Chairman, be put directly to the Alderman or officer to be questioned, and may be replied to in like manner; but in every such case the question so put and the answer thereto shall be subject to objection on the ground of disorder or irrelevancy, and all members of the Council shall, on all occasions, when in such Council, address and speak of each other by their official designation, as Mayor, Chairman, or Alderman as the case may be.

Speaker not to be interrupted if in order.

39. No Alderman shall be interrupted while thus speaking, unless for the purpose of calling him to order, as hereinafter provided.

Offensive language.

40. If any Alderman uses, whilst in Council, any offensive or insulting language, the words shall be written down, and he shall be asked to withdraw them. If he refuse to withdraw such language, and apologise, he shall be deemed guilty of misconduct, and be liable to a fine of not less than twenty shillings nor more than five pounds.

Limitation as to number of speeches, &c.

41. Every mover of an original motion shall have a right of general reply to all observations which may have been made in reference to such motion, or to any amendments moved thereon, as well as a right to speak upon every such amendment. Every Alderman, other than the mover of such original motion, shall have a right to speak once upon such motion, and on every amendment thereon. No Alderman shall speak oftener than once upon any question other than a question of order, unless when misrepresented or misunderstood, in which case he shall be permitted to explain, without adding any further observations than may be necessary for the purpose of such explanation.

Mover and seconder.

42. An Alderman who has moved any motion or amendment shall be considered to have spoken thereon. But an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded the same shall be at liberty to speak on such motion or amendment.

Speaker not to digress, &c.

43. No Alderman shall digress from the subject under discussion or shall make personal reflections on, nor impute improper motives to, any other Alderman.

Adjournment of debate.

44. A debate may be adjourned to a later hour of the day, or to any other day specified; and the Alderman upon whose motion such debate shall have been so adjourned shall be entitled to precedence on the resumption of the debate.

Mayor to decide as to precedence.

45. If two or more Alderman rise to speak at the same time, the Mayor or Chairman shall decide which of such Alderman shall be first heard.

Alderman may require questions to be stated, &c., under certain restrictions.

46. Any Alderman may request the question or matter under discussion to be read or stated for his information, or may require the production of any records of the Council bearing upon such question or matter which are readily accessible: Provided, however, that no such request or requisition shall be so made as to interrupt any other Alderman when speaking, or materially to interrupt the discussion. Also, that if any such request or requisition shall appear to the Mayor or Chairman not to have been made bona fide it shall not be complied with.

Mayor or Chairman may move or second motion, &c., and may address Council thereon.

47. The Mayor or Chairman may move or second any motion or amendment, or put any question. And such Mayor or Chairman shall have the same right as any other Alderman to speak once upon every such subject or amendment. The Mayor or Chairman shall rise when so speaking (unless prevented by some bodily infirmity from so doing) but shall be considered as still presiding.

*Questions of order.*

Mayor or Chairman to decide points of order.

48. The Mayor or Chairman shall preserve order and his decision on disputed points of order or practice shall be final, except in so far as the same may be questioned, as in manner hereinafter provided.

Acts of disorder.

49. Every member of the Council who shall commit a breach of any section of this Part of these By-laws, or who shall move or attempt to move any motion or amendment embodying any matter as to which the Council has no legal jurisdiction, or who shall in any other way raise or attempt to raise any question, or shall address or attempt to address the Council upon any subject which the said Council has no legal right to entertain or to discuss, or who shall use any other language which according to the common usage of gentlemen would be held disorderly, or who shall say or do anything calculated to bring the Council into contempt, shall be deemed to be out of order.

Mayor, &c., may call member to order.

50. The Mayor or Chairman may without the interposition of any other member of the Council call any Alderman to order, whenever, in the opinion of such Mayor or Chairman, there shall be a necessity for so doing.

Any member may raise question of order.

51. Every member of the Council shall have the right of calling the attention of the Mayor or Chairman to any motion, amendment, statement, argument, or observation, moved, used, or made by any other member which such first-named member may consider out of order.

Mode of proceeding thereon.

52. A member called to order shall withdraw while the question of order is being discussed or decided on, unless specially permitted to offer an explanation, retraction, or apology; but on obtaining such special permission such mem-

against any other person, except upon the order of the Council, or of the Mayor, or of the By-law Committee. And no such suit shall be directed to be brought, nor shall any such information be directed to be laid as aforesaid, except on an express resolution of the Council, in any case where the bringing of such suite or the laying of such information will be adverse to any previous direction by such Council, or where on trial or hearing of any such suit or information the same shall have been dismissed on the merits: Provided that in any such case the conduct or prosecution of any such suit or information may, on the order of the Council, be entrusted to an attorney.

*Levying Rates, &c.*  
Collection of rates.

56. All rates levied or imposed by the Council, under sections 165, 166, and 167 of the said "Municipalities Act of 1867" and "Amending Act of 1873," and for the purposes mentioned in the said sections, or under the provisions of any of the said sections, or for any of the purposes mentioned therein, shall be collected in such manner and shall be held to be due and payable on and after such day or days as the Council may by resolution at the time of making or imposing such rates or any of them have appointed.

Council Clerk to furnish list of defaulters.

57. It shall be the duty of the Council Clerk to furnish the Mayor and Council, or any Committee as directed, with lists of all persons so in default.

Mayor to enforce payment.

58. It shall be the duty of the Mayor to cause such defaulters to be sued for the amount of such rates in any Court of competent jurisdiction, or to issue distress warrants against all such persons, and to cause such warrants to be enforced.

Enforcement of distress.

59. The Bailiff shall be appointed by resolution of the said Council, and shall be at any time removable by a like resolution.

60. The Bailiff shall find two sureties to the satisfaction of the Mayor, to the extent of fifty pounds sterling each, for the faithful performance of his duties.

61. It shall be the duty of the Bailiff to make all levies by distress for the recovery of rates, in the manner hereinafter provided.

62. All levies and distress shall be made under warrant in the form of Schedule A hereto, under the hand of the Mayor or any Alderman who may for the time being be duly authorised to perform the duties of that office.

63. If the sum for which any such distress shall have been made shall not be paid with costs, as hereinafter provided, on or before the expiration of five days, the Bailiff shall sell the goods so distrained, or a sufficient portion thereof, by public auction, either on the premises, or at such other place within the Borough as the said Bailiff may think proper to remove them to for such purposes, and shall pay over the surplus (if any) that may remain after deducting the amount of the sum distrained for and costs as hereinafter provided, to the owner of the goods so sold, on demand of such surplus by such owner.

64. At the time of making a distress, the Bailiff shall make out a written inventory in the form of Schedule B hereto, which inventory shall be delivered to the occupant of the land or premises, or the owner of the goods so distrained, or to some person on his or her behalf resident at the place where the distress shall be made; and in case there shall be no person at such place with whom such inventory can be left as aforesaid, then such inventory shall be posted on some conspicuous part of the land or premises on which the distress is made; and the Bailiff shall give a copy of the inventory to the ratepayer on demand, at any time within one month after making such distress.

SCHEDULE A.

Warrant of distress.

I, **Mayor of the Borough of Drummoyne**, do hereby authorise you, **Bailiff of the said Borough**, to distrain the goods and chattels in the dwelling-house, or in and upon the land and premises of **\_\_\_\_\_** situated at **\_\_\_\_\_** for the sum of **\_\_\_\_\_** being the amount of Municipal rates due to the said Borough to the day of **\_\_\_\_\_** for the said dwelling-house, land, or premises, as the case may be, and to proceed thereon for the recovery of the said rates according to law.  
Dated this **\_\_\_\_\_** day of **\_\_\_\_\_** 18**\_\_\_\_\_** Mayor.

SCHEDULE B.

Inventory.

I have this day in virtue of a warrant under the hand of the Mayor of the Borough of Drummoyne, dated **\_\_\_\_\_** distrained the following goods and chattels in the dwelling-house, or in and upon the land and premises of **\_\_\_\_\_** situated at **\_\_\_\_\_** within the said Borough, for the sum of **\_\_\_\_\_** being the amount of rates due to the said Borough to the day of **\_\_\_\_\_** 18**\_\_\_\_\_**.  
Dated this **\_\_\_\_\_** day of **\_\_\_\_\_** 18**\_\_\_\_\_** Bailiff.

SCHEDULE C.

Costs.

	s.	d.
For every warrant of distress . . . . .	2	0
For serving every warrant and making levy— where the same is not more than £20 . . . .	2	0
Above that sum in addition for every £10 . . . .	1	0
For making and furnishing copy of inventory	2	0
For man in possession each day, or part of a day . . . . .	5	0
For sale, commission, and delivery of goods— per pound on proceeds of sale . . . . .	1	0

*Streets and Public Places, &c.*

New roads to be reported upon.

65. No new public road, street, way, park, or other place proposed to be dedicated to the public shall be taken under the charge and management of the Council until after such road, street, way, or park shall have been examined by a Committee for Works, and reported upon to the Council by such Committee.

Plans of proposed new roads, &c., to be deposited.

66. Whenever any proprietor or proprietors of land within the said Borough shall open any road, street, or way, or lay out any park or other place for public use or recreation through or upon such land, and shall be desirous that the Council shall undertake the care and management of such road, street, way, park, or other place, he or they shall furnish the Council with a plan or plans signed by himself or themselves, showing clearly the position and extent of such road, street, way, park, or other place as aforesaid. And he or they shall execute any instrument dedicating such road, street, way, park, or other place, as the Council may consider necessary.

67. The Surveyor of the Borough or other officer or person duly authorised by the Council in that behalf, shall be the proper officer for marking out, and shall fix, mark, and lay out the levels of all public roads, streets, lanes, and thoroughfares, and the carriage and foot ways thereof, which now are or shall hereafter be under or subject to the control, construction, care, or management of the Council. In marking out such roads, streets, lanes, and thoroughfares, recourse shall be had when practicable to the plans under which the land with frontage to the road, street, lane or thoroughfare in question shall have been sold or let. And it shall be the duty of such surveyor or officer to place posts at the corners or intersections of such streets, roads, lanes, and thoroughfares whenever the same may be deemed necessary or desirable by the Council, so as to give a width of 42 feet for the carriage-way and 12 feet for the foot-way on each side where the road, streets, lane, or thoroughfare shall be 66 feet wide, and in proportion, and in the discretion of the Council, in any such road, street, lane, or thoroughfare, or other public place of other width than 66 feet: Provided that there shall be no change of level in any such public road, street, lane, or thoroughfare, or public place, until the same shall have been submitted to and adopted by the Council as hereinafter provided: Provided further that this By-law shall be read subject in all respects to "The Width of Streets and Lanes Act of 1861."

Change of street levels.

68. Whenever it may be deemed necessary to alter the level of any such public road, street, or way as aforesaid, the Committee for Works shall cause a plan and section showing the proposed alteration to be exhibited at the Council Chambers for fourteen days, for the information and inspection of rate-payers, and shall notify by advertisement in some newspaper circulating in the Borough that such plan is so open to inspection. At a subsequent meeting of the Council the said plan and section shall, if adopted be signed by the Mayor or Chairman and the proposer and seconder of the motion for such adoption, and countersigned by the Council Clerk; and such plan and section so signed and countersigned shall be a record of the Council.

Footways may be levelled.

69. When any footway shall have been marked out in manner hereinbefore directed, the Surveyor or such officer or person so authorised as hereinbefore mentioned may cause the same to be levelled and made as nearly as practicable of equal height and breadth, with an equal slope and inclination, and for this purpose may remove any flagging, steps, or other matter, thing, or obstruction that may injure or obstruct the said footway or render it unequal or inconvenient, and which now is or may hereafter be erected or placed on the space marked out for any of the said footways.

Temporary stoppage of traffic for repairs, &c.

70. The Mayor may at any time cause the traffic of any street, lane, or thoroughfare, or any portion thereof to be stopped for the purpose of repairing the same or for any necessary purpose; and any person who shall travel on such street, lane, or thoroughfare, or remove or destroy any obstruction that may be placed thereon for the purpose of suspending the traffic, shall forfeit and pay a penalty of any sum not exceeding five pounds nor less than two pounds for every such offence.

## No encroachment allowed on streets, &amp;c.

71. Whenever any road, street, or lane has been marked out in manner herein provided, no house, shop, fence, or other structure shall, except as hereinafter mentioned, be allowed to project or encroach on any part thereof. And it shall not be lawful for any person to erect or put up any building, erection, obstruction, fence, or enclosure, or to make any excavation, hole, or opening in, under, upon, or near to any such road, street, lane, or thoroughfare, unless the consent of the Council or Mayor has been obtained to the erecting or making of any such building, erection, obstruction, fence, or enclosure, excavation, hole, or opening as aforesaid; and every person offending against this By-law shall forfeit and pay for the first offence a sum not exceeding five pounds nor less than two pounds, and for the second and every subsequent offence a sum not exceeding ten pounds nor less than three pounds.

## Laying gas, water, and sewerage pipes, &amp;c.

72. That a uniform charge of 2s. 6d. be made in every case where, for laying gas, water, and sewerage pipes, or any other purpose, the kerbing, asphaltting, or paving of any footpath within the Borough, or any roadway within the Borough, requires to be cut into, broken, or disturbed; that permission be first obtained in writing from the Council Clerk for the time being, and the said fee of 2s. 6d. be paid before any such work is commenced, the Council undertaking the repair of such kerbing, asphaltting, paving, or roadway; that a uniform charge of 10s. be made in every case where, for building or other purposes, it is necessary to cart material over the kerbing, asphaltting, or paving, a width of not more than 3 feet; that permission be first obtained from the Council Clerk for the time being, and the said fee of 10s. be paid before such carting is commenced, the Council undertaking the proper repair of such kerbing, asphaltting, or paving. Any person failing to comply with any of the provisions of this By-law shall upon conviction forfeit and pay a sum not exceeding forty shillings, in addition to the fees herein imposed.

## Obstructing public footways.

73. If the owner or occupier of any land situated on the side of any street or road in this Borough shall permit any tree, shrub, or plant, kept for ornament or otherwise, to overhang any footpath or footway on the side of any such street or road, and on demand made by the Council shall not cut, lop, or cause to be lopped, all such trees, shrubs, or plants, to the height of 8 feet at least, the said Council, by their servants, labourers, and workmen, may cut, or cause to be cut or lopped, all such overhanging trees, plants, or shrubs, and to remove or burn any such trees, plants, or shrubs, so cut or lopped without being deemed a trespasser or trespassers; and in case any person or persons shall resist or in any manner forcibly oppose the said Council or their servants, labourers, or workmen in the due execution of the powers given in this behalf by virtue of the "Municipalities Act of 1867," every person so offending shall on conviction of every such offence forfeit and pay any sum not exceeding ten pounds.

## No balcony, &amp;c., to project.

74. With regard to buildings hereafter to be built or rebuilt, it shall not be lawful for any awning, verandah, portico, balcony, or window forming part of or attached to any external wall to project beyond the building line of any street or road, except with the consent of the Council first obtained; nor shall any balcony or any other external projection as aforesaid, which may hereafter be added to any existing building, be allowed to project as aforesaid, under a penalty not exceeding twenty pounds nor less than five pounds, except with the consent of the Council first obtained: Provided that no such awning, verandah, portico, or balcony shall be permitted to be erected in any street less than 30 feet wide: Provided also that any person desiring to erect any such structure shall first submit a plan for the approval of the Council.

## Encroachments must be removed on notice.

75. The Surveyor or other such officer or person may at any time, on the order of the Council, and upon due notice of thirty days, direct the removal of any building, fence, or other obstruction or encroachments in and upon any road, street, lane, or thoroughfare under the charge of the Council. Notice shall in this be served either personally or at the usual last known place of abode of the person to whom such obstruction or encroaching structure belongs, or who has erected the same, or caused it to be erected.

## Council may remove encroachments.

76. In any case where after service of notice for the removal of any obstruction or encroachment as aforesaid, the person causing the same shall not remove it within thirty days, it shall be lawful for the Council to direct the removal of the same, under the superintendence of its own proper officer, and at the cost of the person so offending: Provided that the expenses thereby incurred shall in no case exceed the sum of ten pounds, or at the Council's option, to proceed against the offender for breach of By-law, the penalty not to exceed twenty-five pounds nor less than five pounds; and in case of every successive offence the penalty on conviction not to be less than five pounds.

## Or may proceed by action.

77. In every case where the obstruction or encroachment cannot be removed unless at a greater cost than ten pounds, it shall be open to the Council either to direct such removal, and to pay all the cost thereof above ten pounds from the funds of the Council, or to proceed by action for trespass against the person causing such obstruction or encroachment, or to proceed as for a breach of such By-laws as aforesaid.

## To apply also to obstruction by digging, &amp;c.

78. The foregoing provisions shall be equally applicable to obstructions by digging or excavation; and any person who shall wilfully obstruct or interfere with the Surveyor or other officer as aforesaid, or any person acting for or under him, or either of them, in the exercise of any of the duties or powers by these By-laws imposed or cast on the said Surveyor or officer shall on conviction forfeit and pay a penalty of not more than twenty pounds nor less than two pounds.

## Hoards or fences to be erected.

79. Every person intending to build or take down any building within the limits of the Borough of Drummoyne, or to cause the same to be so done, or to alter or repair the outward part of any such building, or to cause the same to be done where any street or footway will be obstructed or rendered inconvenient by means of such work, shall, before beginning the same, cause sufficient hoards or fences to be put up, in order to separate the building where such works are being carried on from the street, with a convenient platform and handrail, if there be room enough to leave as a footway for passengers outside of such hoard or fence, with such platform and handrail as aforesaid standing in good condition, to the satisfaction of the officer of the Council of the said Borough, during such time as the public safety or convenience requires, and shall, in all cases in which it is necessary, in order to prevent accidents, cause the same to be sufficiently lighted during the night; and every such person who shall fail to put up such fence, or hoard, or platform, with such handrail as aforesaid, or to continue the same respectively, standing in good condition as aforesaid during the period of such building or taking down, or who shall not, while the said hoard or fence is standing, keep the same sufficiently lighted in the night, or who shall not remove the same when directed by the officer of the Council of the said Borough within a reasonable time afterwards, shall for every such offence be liable to a penalty not exceeding two pounds for every day such default is continued.

## Offences.—Nuisances.—General good order of the Borough.—Damaging public buildings, &amp;c.

80. Any person who shall damage any public building, wall, parapet, sluice, bridge, road, street, footway, sewer, water-course, or other property of the Borough, shall pay the cost of repairing the same; and if the same be wilfully done, shall also forfeit and pay a sum not exceeding twenty pounds nor less than five pounds: Provided that such cost and penalty shall not exceed in the whole the sum of fifty pounds.

## Injuring public fountains, &amp;c.

81. Any person who shall injure any public fountain, pump, cock, or waterpipe, or any part thereof, shall pay the cost of repairing the same; and if the injury be wilfully done, shall also forfeit a sum not exceeding twenty pounds nor less than one pound; and any person who shall have in his possession any private key for the purpose of opening any cock, or who shall in any manner clandestinely or unlawfully appropriate to his own use any water from any public fountain or pipe, shall forfeit a sum not exceeding twenty pounds nor less than five pounds; and any person who shall open or leave open any cock of any public fountain or pump, so that the water shall or may run to waste, shall forfeit a sum not exceeding two pounds nor less than five shillings; and any person who shall wash any clothes, omnibus, carriage, cart, or other vehicle, or any horse or animal, at any public fountain or pump, shall forfeit and pay a sum not exceeding five pounds nor less than one pound.

## Injuring or extinguishing lamps.

82. Any person who shall wantonly or maliciously break or injure any lamp or lamp-post, or extinguish any lamp set up for public convenience in the said Borough shall, over and above the necessary expense of repairing the injury committed, forfeit and pay for such offence a sum not more than one pound nor less than five shillings.

## Damaging trees.

83. Any person who shall wilfully, or without the authority of the Council, cut, break, bark, root up, or otherwise destroy or damage the whole or any part of any tree, sapling, shrub, or underwood, growing in or upon any street or place under the management of the Council, or in or upon any public reserve or park, shall forfeit a sum not exceeding ten pounds nor less than two pounds.

## Throwing dead animals, &amp;c., into any water-course, &amp;c.

84. Any person who shall throw or cast any filth, rubbish, or dead animal, or any animal with intent to drown the same, into any water-course, water-hole, creek, or canal, or who shall

All claims to be examined and reported on by Finance Committee.

81. All accounts and demands of money against or from the Council shall be examined and reported on by the Finance Committee before any order shall be made for payment of such accounts or demands.

*Certificate required with each claim.*

82. No payment shall be so ordered unless there shall be a certificate or memorandum from the Committee, from the Mayor, or from the officer of the Council to whom the direction or guardianship of such expenditure properly belongs, showing that the demand is a legitimate one and has been duly authorised and inquired into.

*Common Seal and records of the Council.*

*Common Seal and press how secured—care of same.*

83. The Common seal and the press to which the same is attached shall be covered by a cover or box, except when such seal or press are in use, shall be kept locked. There shall be duplicate keys to the lock of this cover or box, of which keys one shall be kept by the Mayor and the other by the Council Clerk. Such common seal and press shall be in the custody and care of the Council Clerk.

*When and how common seal to be used.*

84. The common seal shall not be attached to any document without an express order of the Council. In every case when such common seal has been ordered to be attached to any document such document shall also be signed by the Mayor, or in case of the absence or illness of such Mayor, by two Aldermen, and countersigned by the Council Clerk.

*How books of account are to be kept and inspected.*

85. The Treasurer shall keep such books of account and such records, statements, and memoranda of receipts and expenditure in such manner and form as the Council may from time to time direct. It shall be the duty of the Finance Committee to inspect all such books of account, records, statements, and memoranda from time to time to ascertain that the same are properly kept and to report at once to the Council any act of neglect or appearance of inefficiency which they may have discovered in the keeping of the same. Also, to report to the Council from time to time any changes which such Committee may think advisable in the mode of keeping the accounts.

*Impression of seal not to be taken, &c., without the leave of the Council—Penalties.*

86. No member or officer of the Council shall be at liberty to take any impression of the Corporate Seal, or to show, lay open, or expose any of the books or records of the Council to any person other than a member of the same, without leave from such Council, except as otherwise provided by law. Any member or officer of the Council who shall be guilty of a breach of this section shall be liable on conviction for the first offence to a penalty of not less than five shillings nor more than two pounds, for a second offence to a penalty of not less than one pound nor more than ten pounds, and for a third and every subsequent offence to a penalty of not less than five pounds nor more than twenty-five pounds.

*Records not to be removed, &c.—Penalties.*

87. Any person removing any such book or other record of the Council as aforesaid from the Council Chamber, or the place where by direction of the Council such book or other record is usually kept, without leave for such removal having been first obtained from such Council, or without other lawful cause for such removal having been first obtained from such Council, or without other lawful cause for such removal as hereinafter provided, shall for every such offence be liable to a penalty of not less than ten shillings nor more than ten pounds.

*Penalty for defacing or destroying records.*

88. Any person destroying, defacing, or altering any record of the Council shall for every such offence be liable to a penalty of not less than five pounds nor more than fifty pounds.

*Officers and Servants.*

*Notice to candidates in certain cases.*

89. No appointment to any permanent office at the disposal of the Council to which a salary of fifty pounds per annum, or a salary or allowance of more than that amount is attached, shall be made until public notice shall have been given, as hereinafter provided, inviting applications from qualified candidates for the same; the salary or allowance attached to such office shall in every case be fixed before such notice is given, and shall be stated in such notice.

*Mode of appointment.*

90. Every such appointment shall be made by ballot, in such mode as may at the time be determined on, whenever there is more than one candidate for such permanent office.

*Exceptional cases.*

91. Nothing herein contained shall be held to prevent the employment as may be from time to time found necessary, and as may be ordered by the Council, of any workmen or labourers on the public works of the Municipality.

*Bonds for good conduct.*

92. All bonds given by officers or servants of the Council for the faithful performance of their duties shall be deposited with the attorney or bankers of the Corporation as the Council may order, and no officer or servant of the Council shall be received as surety for any other officer or servant of the Council.

*Duties of Council Clerk.*

93. The Council Clerk, in addition to the duties which by the Municipalities Act of 1867, or by the present or any other By-laws thereunder he may be required to perform, shall be the Clerk of all Revision Courts held in the district under the provisions of the said Municipalities Act. He shall also, under the direction of the Mayor, conduct all correspondence which may be necessary on the part of the Council. He shall likewise have charge of all the records of such Council, except such books or documents as may (as hereinafter provided) be intrusted to any other officer, and shall be responsible for the safe keeping of such records. He shall generally assist the Mayor in the performance of his duties, and in carrying out the orders of the Council.

*Duties of Treasurer, &c.*

94. The Treasurer shall have charge of such books of account and other records of the Council as are mentioned in section 87 of these By-laws, and shall be responsible for the safe keeping of the same; any other officer of the Council may have any other records thereof committed to his charge by an order of Council, and in such case shall be responsible for the safe keeping of such records.

*Duties of other officers and servants.*

95. The duties of all officers and servants of the Corporation shall be defined by such regulations as may from time to time, and in accordance with law be made.

*Special powers of Mayor.*

96. The Mayor shall exercise a general supervision over all officers and servants of the Corporation, and may order the preparation of any such return or statement, or the giving of any such explanation or information by any such officer or servant as he may think necessary, unless such return or statement shall have been already prepared, or such explanation or information already given, and such return, statement, explanation, or information is on record, or hereinbefore provided, or unless the Council shall have expressly forbidden or dispensed with the preparation of such return or statement, or the giving of such explanation or information. All such returns or statements shall be in writing, and shall be recorded. All such explanation or information may, except as hereinafter provided, be either rendered viva voce, or put into writing as the Mayor may direct.

*How complaints against officers, &c., are to be dealt with.*

97. All complaints against officers or servants of the Corporation must be in writing, and addressed to the Mayor, and must in every case be signed by the person or persons complaining. And no notice whatever will be taken of any complaint which is not in writing or is anonymous. All such complaints as aforesaid shall be laid by the Mayor before the Council at the next meeting thereof, which shall be holden after the Mayor shall have received the same, and shall be duly recorded.

*Miscellaneous.*

*Leave of absence.*

98. No leave of absence shall be granted to the Mayor or to any Alderman otherwise than by a resolution of the Council, adopted after due notice.

*Motion for rescission of previous orders, &c.*

99. Whenever a motion for the rescission of any order, resolution, or vote of the Council shall have been negatived, no other motion to the same effect shall be permissible until a period of three months shall have elapsed from the time of negativing such first-mentioned motion: Provided that nothing herein contained shall be held to prohibit the reconsideration and amendment of any proposed By-law which may have been submitted to the Governor for confirmation, and may have been recommitted to the Council with suggested amendments of the same, or the passage, after due notice as hereinbefore provided, and in due course of law of any By-law, for the repeal or amendment of any other By-law.

*Lapsed business.*

100. Whenever the consideration of any motion or matter of business shall have been interrupted by reason of a quorum not having been present, the resumption of such consideration may be ordered by resolution of the Council after due notice, and such consideration shall in such case be resumed at the point where it was so interrupted as aforesaid.

Suits and prosecutions for penalties, &c.

101. Such suits or informations for the enforcement of penalties for or in respect of breach of the Municipalities Act of 1867, or of any By-law made thereunder, or of any statute the operation of which may have been extended to the Municipality, as may have been directed by the Council or by the By-law Committee, or by the Mayor, to be commenced or laid, shall be so commenced or laid as follows:—When against a member of the Council or an Auditor or any officer of the Corporation, by the Council Clerk, unless such Council Clerk shall be the officer proceeded against, and in such case by any other officer named by the Council for that purpose; when against any other person, by the officer to whom the carrying out of the statutory provision or By-law imposing the penalty sought to be enforced has been intrusted; and if there shall be no such officer, then by any such officer or person as shall be appointed for that purpose by the Council or the By-law Committee, or the Mayor, as the case may be, on directing such suit or information as aforesaid; and no suit shall be brought or information laid as aforesaid against any member of the Council, or Auditor except by order of such Council, nor shall any similar proceeding be taken against any officer of the Council except on the order of such Council or of the Mayor, nor against any other person except upon the order of the Council, or of the Mayor, or of the By-law Committee. And no such suit shall be directed to be brought, nor shall any such information be directed to be laid as aforesaid except on an express resolution of the Council, in any case where the bringing of such suit or the laying of such information will be adverse to any previous direction by such Council, or where, on the trial or hearing of any such suit or information, the same shall have been dismissed on the merits: Provided that in any such case the conduct or prosecution of any such suit or information may, on the order of the Council, be intrusted to an attorney.

Mode of proceeding in cases not provided for.

102. In all cases not herein provided for, resort shall be had to the rules, forms, and usages of the Legislative Assembly of New South Wales, so far as the same are applicable to the proceedings of the Council.

Power to suspend temporarily certain portions of these By-laws.

103. Any of the foregoing By-laws, or any portion thereof, which relate to or affect the proceedings at meetings of the Council may be suspended pro tempore without notice in cases of emergency, if all the members of the Council then present shall deem such suspension necessary.

PART II.

Collection and enforcement of Rates.—Times and modes of collection.

Rates under section 164 to be collected half-yearly.

1. All rates levied or imposed by the Council under the provisions of section 164, Municipalities Act of 1867, and for the purposes mentioned in the said section, shall be collected half-yearly, and such half-yearly payments shall be held to be due and payable on and after such day or days as the Council shall by resolution at the time of making or imposing such rate appoint.

Special rates.

2. All rates levied or imposed by the Council under sections 165, 166, and 167 of the said Municipalities Act of 1867, and for the purposes mentioned in the said sections, or under the provisions of the said sections, or for any of the purposes mentioned therein, shall be collected in such manner and shall be held to be due and payable on and after such day or days as the Council may by resolution at the time of making or imposing such rates or any of them have appointed.

Office hours.

3. All rates shall be paid at the Council Chambers during the hours appointed by the Council for that purpose.

Defaulters.

4. Every person not paying his or her rates as aforesaid upon the or days so appointed for payment thereof shall be deemed a defaulter, and it shall be the duty of the Council Clerk to furnish the Mayor from time to time with a list of the names of all persons so in default.

Mayor to enforce payment.

5. It shall be the duty of the Mayor to take proceedings to enforce payment of all rates in default either by action at law or by issuing warrants of distraint upon the goods and chattels of the defaulter.

Enforcement by Distress.

Bailiff.

6. A Bailiff shall, when found necessary, be appointed by the Mayor.

Bailiff's sureties.

7. The Bailiff shall find two sureties to the satisfaction of the Mayor, to the extent of twenty-five pounds each, for the faithful performance of his duty.

Duty of Bailiff.

8. It shall be the duty of the Bailiff to make all levies by distress for the recovery of rates, in the manner hereinafter provided.

Warrant of distress.

9. All levies and distresses shall be made under warrant in the form of Schedule A hereto, under the hand of the Mayor, or any Alderman who may for the time being be duly authorised to perform the duties of that office.

Distress and sale, &c.

10. If the sum for which any distress shall have been made shall not be paid, with costs as hereinafter provided, on or before the expiration of five days, the Bailiff shall sell the goods so distrained, or a sufficient portion thereof, by public auction, either on the premises or at such other place within the said Municipality as the Bailiff may think proper to remove them for such purposes, and shall pay over the surplus (if any) that may remain, after deducting the amount of the sum distrained for, and costs as hereinafter provided, to the owner of the goods so sold, on demand of such surplus by such owner.

Inventory.

11. At the time of making distress the Bailiff shall make out a written inventory in the form of Schedule B hereto, which inventory shall be delivered to the occupant of the land or premises, or the owner of the goods so distrained, or to some person on his or her behalf resident at the place where the distress shall be made; and in case there shall be no person at such place with whom such inventory can be left as aforesaid, then such inventory shall be posted on some conspicuous part of the land or premises on which the distress is made; and the Bailiff shall give a copy of the inventory to the ratepayer on demand at any time within one month after making such distress.

Goods may be impounded.

12. The Bailiff on making a distress as aforesaid may impound or otherwise seize the goods or chattels so distrained, of what nature or kind soever, in such place or places, or in such part of the land or premises chargeable with rates, as shall be most fit and convenient for this purpose; and it shall be lawful for any person whomever, after the expiration of the five days as hereinbefore mentioned, to come and go to and from such place or part of the said land or premises where such goods or chattels shall be impounded or secured as aforesaid, in order to view and buy, and in order to carry off and remove the same on account of the purchaser thereof.

Owner to direct order of sale.

13. The owner of any goods or chattels so distrained upon may, at his or her option, direct and specify the order in which they shall be successively sold, and the said goods or chattels shall in such case be put up for sale according to such direction.

Proceeds of distress.

14. The Bailiff shall hand over to the Council Clerk all proceeds of every such distress within forty-eight hours after having received the same.

Costs.

15. There shall be payable to the Bailiff for the use of the Council, for every levy and distress made under this By-law, the costs and charges in the Schedule hereunto annexed, marked C.

SCHEDULE A.

I,                                  Mayor of the Municipal District of                                 , do hereby authorise you, the Bailiff of the said Municipality, to distrain the goods and chattels in the dwelling-house [*or in and upon the land and premises*] of                                 , situate at                                 , being the amount of rates due to the said Municipal District to the                                  day of                                  for the said dwelling-house [*or land or premises, as the case may be*], and to proceed thereon for the recovery of the said rates according to law.—Dated this                                  day of                                  189                                .  
   Mayor.

SCHEDULE B.

Inventory.  
 I have this day, in virtue of the warrant under the hand of the Mayor of the Municipal District of                                 , dated                                 , distrained the following goods and chattels in the dwelling-house [*or in and upon the land and premises*] of                                 , situate at                                 , within the said Municipal District, for                                 , being the amount of rates due to the said Municipal District to the                                  day of                                 , 189                                .—Dated this                                  day of                                 , 189                                .  
   Bailiff.

SCHEDULE C.

Costs.		s.	d.
For every warrant of distress .....		2	6
For serving every warrant .....		2	6
For making and furnishing copy of inventory .....		2	6
For man in possession, each day or part of a day .....		6	0
For sale, commission, and delivery of goods, per pound on proceeds of sale .....		1	0

*Notices not to be painted on pavement, &c.*

109. Any person who shall stamp, stain, paint, write, or post any advertisement or notice upon any footway or kerb-stone, waiting-rooms, wharves, or other property of the Council within the Borough, shall be liable to a penalty not exceeding two pounds nor less than ten shillings.

*Offensive or indecent placards.*

110. Any person who shall in any street or place within the Borough post, expose to view, or distribute any placard, hand-bill, or other document whatever of an offensive or indecent character, shall be liable to a penalty not exceeding ten pounds nor less than two pounds.

*Musicians to move on.*

111. Any street musician or vocalist who shall not when requested by any householder within the Borough of Drummoyne or his servant, or by any officer or servant of the Council of the Borough aforesaid, or by any police officer, depart from the neighbourhood of the premises of such householder shall be liable to a penalty not exceeding two pounds nor less than five shillings.

*Persons not to stand or loiter in the streets.*

112. All persons standing or loitering upon any of the carriage-ways, footways, or other public places in the Borough of Drummoyne, to the inconvenience of passers-by, or in any way interrupting the traffic who shall not discontinue to do so on being required by any officer or servant of the Council of the said Borough, or by any police officer, shall be liable to a penalty not exceeding two pounds nor less than ten shillings.

*Holes made for cellars, &c., to be enclosed.*

113. If any person shall dig or make, or cause to be dug or made, any hole, or leave or cause to be left any hole in or adjoining any street, road, lane, or public place for the purpose of making any cellar or cellars, or the foundation or foundations to any other house or other building, or for any other purpose whatsoever, and shall not forthwith enclose the same in a good or sufficient manner and keep up or cause to be kept up and continued any such enclosure, or shall not when thereunto required by the said Council or officer thereof, well and sufficiently fence or enclose any such hole within the time and in the manner provided by the preceding By-laws, and shall not place a light upon the said enclosure and keep the same constantly burning from sunset to sunrise during the continuance of such enclosure; then, and in every such case, any person so offending shall forfeit and pay for every such offence and for every such refusal or neglect any sum not exceeding five pounds nor less than ten shillings, and on conviction for every subsequent offence not less than one pound.

*Excavations, &c., to be protected by fence or wall.*

114. It shall not be lawful for any person to make any quarry, excavation, or opening in the ground on any property adjoining or near to any public road or footpath within the limits of this Borough until the owner or occupier of the said property shall have erected a good substantial fence or wall, at least four feet high, around such parts of the said property as adjoin such public road or footpath, and any person neglecting or refusing to enclose any premises upon which any such quarry or excavation shall be made shall forfeit and pay for every such offence a sum not exceeding five pounds nor less than ten shillings; and all existing quarries, excavations, or precipices situated within the limits of this Borough shall be closed and protected in the manner aforesaid within one week after due notice to that effect shall have been given by the said Council; and in the event of the failure or neglect of the owner or occupier of any such last-mentioned property to enclose the same, after such notice as aforesaid, such persons so offending shall be subject to the penalty before mentioned.

*Damaging hand-rail, &c.*

115. Any person who shall damage any hand-rail, wharf, waiting room, or any portion thereof, or other property of the Council, shall on conviction forfeit and pay the amount of the damage so caused, in addition to a penalty of not more than two pounds nor less than five shillings.

*Various obstructions and annoyances.*

116. Every person who, in any street or other public place or passage within the said Borough, shall commit any of the following offences, shall on conviction for any and for every such offence, forfeit and pay a penalty of not more than two pounds nor less than five shillings:—

Every person who shall hoist, or cause to be hoisted, or lower, or cause to be lowered, goods of any description from any opening in any house fronting any street or public place, and close to the footway thereof, without sufficient and proper ropes and tackling.

Every person who shall carry or convey, or cause to be carried or conveyed, in any street or public place the carcase, or any part of the carcase of any slaughtered animal without a sufficient and proper cloth covering the same for the concealment from public view, or shall hawk or carry about butchers' meat for sale without covering the same as aforesaid.

Every person who shall place any line, cord, or pole across any street, lane, or passage, or hang or place clothes thereon to the danger or annoyance of any person.

Every person who shall place any flower-pot in any upper window near to any street or public place without sufficiently guarding the same from being thrown down.

Every person who shall throw or cast from the roof or any part of any house or other building any slate, brick, wood, rubbish, or other material or thing (unless within a hoard or enclosure, when any house or building is being erected, pulled down, or repaired).

Every blacksmith, metal founder, limeburner, brick-maker, potter, or other person using a forge, furnace, or kiln, and having a door, window, or aperture fronting or opening into or towards any street, lane, or passage, and not enclosing such door, or not fastening the shutters or other fastenings of such window, and closing such aperture, or placing a screen before the same every evening within one hour after sunset, so as to effectually prevent the light from showing through the doorway, window, or aperture next or upon such street, lane, or passage.

Every person who shall, within the distance of one hundred yards from any dwelling-house, burn any rags, bones, cork, or other offensive substances (garden refuse excepted), to the annoyance of any inhabitant.

Every person who shall carry goods, tools, implements, ladders, scaffolding, or any frame, upon any footway to the annoyance of any person.

Every person who shall be the keeper of, or have any dog or other animal which shall attack or endanger the life or limb of any person in any street or public place within the said Borough.

No noisome or offensive trades to be carried on to the injury of any inhabitants.

117. No person shall carry on any noisome or offensive trade within the said Borough, so as to injure or be a nuisance as hereinbefore stated to the inhabitants thereof.

Mode of proceeding when a noisome and offensive trade is about to be commenced.

118. The like proceedings as mentioned in By-laws 102 and 103 shall be taken whenever there shall be a complaint as aforesaid that any manufacture, trade, calling, or operation is about to be commenced or entered upon, which is likely to prove "noisome or offensive" within the meaning of these By-laws, and the notice to be given as aforesaid shall be given to the person or persons about to commence or enter upon such manufacture, trade, calling, or operation, and shall require him, her, or them not to commence or enter upon the same; and the Council shall take such measures as shall effectually and permanently prevent the same from becoming noisome or offensive within the meaning of these By-laws to any resident within the Borough. And any person who shall in any such case commence, enter upon, or continue any such manufacture, trade, calling, or operation, so that the same shall be in any way "noisome or offensive" within the meaning of these By-laws, shall for every such offence forfeit and pay a sum not exceeding fifty pounds nor less than five pounds.

*Service of notice.—Liabilities.*

119. Service of any such notice as aforesaid upon the occupier or owner of any premises or land wherein or whereon any such manufacture, trade, calling, or operation is being conducted, followed, or carried on, or is about to be commenced or entered upon, or at the last known place of abode of such occupier or owner, or upon any person upon the said premises or land, shall be a good and sufficient service of such notice for all the purposes of these By-laws; and every person who shall be actually engaged in superintending, directing, or managing, or who shall be in any other way actually engaged or employed in any such manufacture, trade, calling or operation as aforesaid, shall be liable to be regarded and treated as a person conducting, following, or carrying on such manufacture, trade, calling, or occupation within the meaning and for all the purposes of these By-laws.

*Public Health.*

Houses to be purified on certificate of two medical practitioners.

120. If upon the certificate of any duly qualified medical practitioner it appears to the Council that any house, or part thereof, or the premises occupied in connection therewith, within the limits of the Borough, is in such a filthy or unwholesome condition that the health of any person is or may be liable to be affected or endangered thereby, and that the whitewashing, cleansing, purifying, or fumigating of any house, or part thereof, or the premises occupied in connection therewith, would tend to prevent or check infectious or contagious disease, the said Council shall give notice in writing to the owner or occupier or part thereof, or the premises occupied in connection therewith, to whitewash, cleanse, purify, or fumigate the same, as the case may require; and if the person to

whom notice is so given shall fail to comply therewith within the time specified in the said notice, he or she shall be liable to a penalty of not less than forty shillings nor more than ten pounds: Provided that each day during which such house shall, after such notice as aforesaid, remain uncleansed or unfumigated, shall be a separate offence: Provided also that no such penalties shall collectively amount to any greater sum than fifty pounds.

*Sale or letting of infected premises or goods.*

121. If any person shall sell, let, or cause to be sold or let, any dwelling-house or part thereof, or premises occupied in connection therewith, in the said Borough, which then is, or shall have been within thirty days prior to the date of such sale or letting, occupied by any person suffering from any infectious or contagious disease, without giving due notice thereof to the person or persons purchasing, renting, or hiring any such house or premises, the person so selling, letting, or causing to be sold or let, shall be liable to a penalty not exceeding fifty pounds nor less than ten pounds; and any person who shall sell, let, or cause to be sold in the said Borough, any article of furniture, bedding, household or personal effects, knowing the same to have been, within three months prior to the date of such sale or letting, used by any person or persons suffering from any infectious or contagious disease, shall forfeit and pay a sum not exceeding fifty pounds nor less than ten pounds.

*Exposing infected articles.*

122. Any person who shall expose or cause to be exposed in any road, street, public place, or enclosed land adjacent to any dwelling, road, street, or public place, any article whatsoever, knowing the same to have been in use or occupation of any person suffering from any infectious or contagious disease within thirty days prior to the date of such exposure as aforesaid, shall forfeit and pay a sum not exceeding fifty pounds nor less than ten pounds.

*Rubbish or offensive matter.*

123. No kind of rubbish or offensive matter shall be thrown upon any public or private property within the Borough without permission first obtained from the Borough Council and the owner or owners of such property. Persons found guilty of a breach of this by-law shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than ten shillings.

*Sewerage and Drainage.*

No private sewers to be made to communicate with the public sewers without notice.

124. It shall not be lawful for any person, without notice to the Council or otherwise than according to such plans and directions as such Council make and give, to make or branch any private drain or sewer into any of the public drains or sewers, or into any drain or sewer communicating therewith; and in case any person or persons shall make or branch any private drain or sewer communicating or to communicate therewith without such notice, or otherwise than aforesaid, every person so offending shall for every such offence forfeit and pay any sum not exceeding fifty pounds, and shall at his own expense make good all roads, streets, kerbing, &c., which shall have been injured by or through any such work; and all such repairs shall be performed to the satisfaction of such officer as the Council shall appoint to superintend such work; and any person who shall do or perform anything contrary to this clause, or shall neglect to make good all such damage as aforesaid, shall on conviction thereof forfeit and pay a sum not exceeding fifty pounds nor less than one pound.

*Proprietors of private sewers, &c., repair and cleanse same.*

125. All private drains or sewers communicating with any public drain or sewer shall from time to time be repaired and cleansed under the inspection and direction of the Council or officer thereof, at the cost and charge of the occupiers of the houses, buildings, lands, and premises to which the said private sewers or drains shall respectively belong; and in case any person shall neglect to repair and cleanse, or cause any such private drain or sewer to be repaired and cleansed, according to the direction of the Council, he shall forfeit and pay for every such offence any sum not exceeding five pounds nor less than ten shillings.

*Water from roofs, &c.*

126. Every owner or occupier of any dwelling-house, shop, or other building who shall permit rain-water to fall from any roof, balcony, or other projection, upon any street, road, lane, or footway, or to flow over the pathway of any such street, road, or lane, or shall cause or permit any such roof or rain water to be discharged by any pipe upon any such street, road, lane, or footway, shall, if such nuisance be not abated within seven days after notice to abate the same shall have been given by the Council, forfeit and pay for every such offence a sum not exceeding five pounds nor less than one pound.

*Drains in footpaths.*

127. No surface drain shall be made in any footpath, nor any pipes laid under or across the same, without the authority of the Council; and no such pipe or drain shall be used for the discharge into any street or roadway of any offensive liquid or matter of any kind whatsoever; and any person who shall so offend shall forfeit and pay a sum not exceeding fifty pounds nor less than one pound.

*Drains for discharging surface water from land.*

128. Every owner or occupier of land so situated that the surface or storm water from or upon the same shall overflow or shall tend naturally, if not otherwise discharged, to overflow any road, lane, or footway, shall within seven days next after the service of notice by the Council abate such nuisances where possible, and in default of compliance with any such notice within the period aforesaid, such owner or occupier shall forfeit any sum not exceeding five pounds; and if within seven days after such conviction such owner or occupier shall still have failed to comply with such notice, or be otherwise in default as aforesaid, he shall forfeit and pay a sum not less than two pounds nor more than twenty pounds; and every such owner or occupier who shall still have made defaults as aforesaid for more than seven days after such second or any future conviction, shall be held guilty of a further offence within the meaning of this section.

*Natural water-courses.*

129. Any person who shall close or intercept any natural water-course, by building or otherwise, shall provide another outlet for the surface water with pipes and sewers of a size and in a manner to be approved by the Council; and any person failing to comply with the provisions of this by-law shall forfeit and pay a sum not exceeding fifty pounds nor less than five pounds.

*Preventing and extinguishing fires—Fires and combustible materials, &c.*

130. Every person who shall place, or knowingly permit to be placed, in any house, yard, or workshop, out-offices, or other premises, fire, gunpowder, or combustible or inflammable article of any kind, in such a manner as to endanger contiguous buildings (except with the consent of the owners or occupiers thereof) shall on conviction for every such offence forfeit and pay a penalty of not more than five pounds nor less than one pound, and shall forthwith remove such fire, gunpowder, or combustible or inflammable article; and every such person who shall suffer any such fire, gunpowder, or combustible or inflammable article to remain as aforesaid for forty-eight hours after any such conviction, shall be deemed guilty of a further offence against this by-law.

*Inflammable fences, &c.*

131. Every person who shall erect any fence of brushwood, bushes, or other inflammable material, or shall make or place any stack of hay, corn, straw, or other produce, or place as or for the covering of any such stack any inflammable material, or shall place, keep, or store any hay, straw, or other inflammable material in any building so as to endanger contiguous buildings or properties, shall forfeit on conviction for every such offence a penalty of not more than five pounds nor less than one pound, and also remove such fence, stack, covering, or inflammable material within forty-eight hours after such conviction; and any person failing to remove such fence, stack, covering, or inflammable material within a reasonable time after any such conviction as aforesaid, shall be deemed guilty of a further offence against this by-law.

*Subsidy reserves to fire brigades.*

132. For the purpose of protecting life and property in the Borough, the Council may from time to time pay to the funds of any fire brigade established in the Borough such sum or sums of money as shall be determined by resolution of the Council. And, further, the Council shall pay to any fire brigade as shall with any engine have first and second in order attended at any fire within the Borough, such sums of money by way of reward as the Council may by similar resolution have fixed.

*Burning shavings, &c., in the streets.*

133. Any person burning any shavings or other things in any street, road, or public place shall forfeit and pay a sum not exceeding two pounds nor less than five shillings.

*Fireworks.*

134. Every person who shall light any bonfire, tar barrel, or firework upon or within sixty feet of any building, or public or private street, or any public place, or shall sell gunpowder, fireworks, or other combustible matter by any artificial light other than gas or electric light, shall forfeit a sum not exceeding five pounds nor less than ten shillings.

*Wilfully setting fire to chimneys.*

135. Every person who wilfully sets fire, or causes to be set on fire, any chimney, flue, smoke-vent, or stove-pipe, herein called in common a "chimney," shall forfeit a sum not exceeding five pounds.

*Public Amusements.**Unlawful games.*

136. No games of dice or other games of chance for money, prize-fighting, or any dog-fighting, cock-fighting, or other entertainment opposed to public morality, or involving cruelty to animals, or likely to cause a breach of the peace, shall be established, held, or given within this Borough; and any person or persons who shall establish, hold, give, or cause to be established, held, or given any such game, exhibition, or entertainment, shall for every such offence forfeit and pay a sum of not less than ten pounds nor more than fifty pounds.

*Places of amusement to be licensed.*

137. No dancing saloon, bowling or skittle alley, shooting gallery, or similar place of amusement (other than entertainments requiring to be licensed by law) shall exist or be established within the Borough, unless and until such place of amusement shall have been licensed by the Council as hereinafter provided; and in the event of any such licensed place of amusement being improperly conducted, or becoming a nuisance or an annoyance to any inhabitant, or violating public decency, or endangering the public peace, the Mayor shall, on representation to that effect being made, forthwith suspend the said license, and the Council at its next meeting shall, by resolution, cause the said license to be cancelled, or otherwise, as may appear necessary or desirable; and any person or persons having already established such places of amusement who shall not, within thirty days after these By-laws come into force, apply for such license, or any person or persons who shall open, establish or maintain any such place of amusement as aforesaid, without having obtained such license, shall forfeit and pay a sum of not more than twenty-five pounds nor less than ten pounds.

*Mode of granting license.*

138. Applications for licenses as aforesaid must be in writing, addressed to the Mayor and Aldermen, and must be indorsed by two householders, testifying to the respectability of the applicant. The application must describe clearly the nature of the entertainment for which the license is sought, and the premises in which it is to be held.

*License fees.*

139. License shall be granted by resolution of the Council, upon payment of license fees as follows:—For every license granted between the 1st January and 31st December, one pound one shilling. All licenses shall expire on the 31st December in each year, and may be renewed by resolution of the Council upon written application, and on payment of the annual fee of one pound one shilling.

*Polluting water reservoirs, &c.*

140. Whosoever shall bathe in any stream, reservoir, conduit, aqueduct, or other water works belonging to or under the management or control of the Council, or shall wash, cleanse, throw, or cause to enter therein any animal, whether

alive or dead, or any rubbish, filth, or thing of any kind whatsoever, or shall cause or permit, or suffer to run, or to be brought therein the water of any sink, sewer, drain, engine, or boiler, or other filthy, unwholesome, or improper liquid, or shall wash any clothes at the public fountains or pumps, or in or at any such stream, reservoir, conduit, aqueduct, or other water works as aforesaid, or shall do any thing whatsoever whereby any water or water works belonging to the said Council, or under their management or control, shall be fouled, obstructed, or damaged, shall, for the first offence, forfeit and pay any sum not exceeding five pounds; for second offence any sum not less than one pound nor more than ten pounds; and for a third and every subsequent offence a sum not more than twenty pounds nor less than five pounds.

*Supply of water in time of drought.*

141. In time of drought or scarcity of water the Council may, by resolution to that effect, cause water to be supplied to the inhabitants of the Borough by water-carts or otherwise, and shall, by such resolution as aforesaid, fix a price to be charged for water so supplied.

*Trees in streets.*

142. The Council shall have power to plant trees in the streets or public ways of the Borough, and any person wilfully injuring or destroying any such trees, or any railing or fence protecting the same, shall on conviction forfeit and pay a penalty of not more than ten pounds nor less than two pounds, in addition to the value of the tree, railing, or fence so injured or destroyed.

143. For the purposes of these By-laws, summer months shall mean and be taken to be the months from October to March inclusive, and winter months shall mean and be taken to be the remaining months of the year.

*Construction of terms.*

144. In the construction of the foregoing By-laws, the provisions of the Act 16 Victoria No. 1 shall be applied, so far as the same shall be applicable.

Made and passed by the Municipal Council of the Borough of Drummoyne, this third day of December, A.D. 1890.

(L.S.) MARK ANNESLEY WILLIAMSON,  
Mayor.

W. JOHNSON,  
Council Clerk.

1891.

## NEW SOUTH WALES.

## MUNICIPALITIES.

(BOROUGH OF MURRUMBURRAH—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Colonial Secretary's Office.

Sydney, 10th March, 1891.

## BOROUGH OF MURRUMBURRAH.—BY-LAWS.

The following By-laws, made by the Council of the Borough of Murrumburrah, under the "Municipalities Act of 1867," having been confirmed by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

## MURRUMBURRAH MUNICIPALITY.—BY-LAWS.

By-Laws made by the Council of the Borough of Murrumburrah, under the "Municipalities Act of 1867."

## SECTION I.

## Meetings of Council.

1. The Council shall meet at the Council Chambers every alternate Tuesday, at the hour of 7.30 p.m., but if such day be a public holiday, then on such day and hour as the Mayor may determine.

## Chairman in Mayor's absence.

2. If the Mayor shall be absent at the expiration of fifteen minutes after the time appointed for the holding of any meeting, the Aldermen present shall choose a Chairman, provided always that if the Mayor shall attend, such Alderman shall leave the chair to be taken by the Mayor.

## No quorum.

3. Whenever any meeting shall lapse or be adjourned for want of a quorum, the names of the members present shall be recorded by the Town Clerk, and such record shall be read at the next meeting of the Council.

## Order of business.

4. The business of each ordinary meeting shall be transacted in the following manner, viz. :—

1. Reading and confirming of minutes of last meeting.
2. Reading correspondence, and reception of reports and petitions.
3. Questions.
4. Adjourned motions, and motions of which notice has been given.
5. Such other business as may lawfully be brought before the Council.
6. Tenders.

Provided that the Council may, by resolution, take any particular matter out of the regular order on the paper.

## Power to suspend by-law.

5. The Council shall have power to suspend pro tem. one or more of the By-laws: Provided that no such suspension shall be allowed for the purpose of voting money, and that two-thirds of the members present consent.

## Postponement of debate or motion.

6. Any debate or order of the day when called on may be postponed to another time to be duly specified: Provided that no discussion shall be allowed upon such motion for postponement, and the Alderman upon whose motion any debate shall be adjourned shall be entitled to open the debate on resumption.

## Motions to be in writing and seconded.

7. All resolutions shall be in writing, and no motion or amendment shall be discussed unless and until it be seconded.

## Motion not to be withdrawn.

8. No motion of which notice has been given shall be withdrawn if any Alderman object; and if any Alderman who has given notice of motion fail, or decline to move it, the Mayor or any other Alderman may move the same.

## Questions—Twenty-four hours' notice to be given

9. No question shall be put to the Mayor, unless twenty-four hours' notice in writing shall have been given thereof to the Town Clerk.

## Amendments—Order of.

10. When any motion of Council shall have been made and seconded, any Alderman may move an amendment thereon; and if an amendment be carried, the question as amended thereby, becomes itself the question before the Council, whereupon any further amendment upon such question may be moved. If any amendment shall be negatived, then a further amendment may be moved to the question on which such first-mentioned amendment was moved, and so on: Provided that not more than one question and one proposed amendment thereof, shall be before the Council at any one time.

## Motions for adjournment.

11. Any motion for adjournment shall be put immediately without discussion. If such motion be negatived, the business then under consideration, or the next in order on the business paper, shall be discussed before any notice for adjournment may be moved.

## Alderman may call for division.

12. Any Alderman may call for a division. In such case the question shall be put first in the affirmative and then in the negative, and the Aldermen shall vote by show of hands;

and the names and votes of the Alderman present shall be recorded; and any Alderman present when a division is called for, who shall not vote (not being disabled by law from so doing), shall be liable, for every such offence, to a penalty not less than ten shillings nor more than forty shillings.

Motions which would rescind motions previously passed.

13. No motion, the effect of which, if carried, would be to rescind any resolution passed by the Council during the current municipal year, shall be entertained, unless at a special meeting of the Council called for that purpose; and no such motion, if negatived by the Council at such special meeting, shall be again entertained during the same municipal year.

Aldermen not to speak twice, nor longer than ten minutes, on any motion or amendment.

14. No Alderman shall speak twice on any motion or amendment, except in Committee, or in explanation where he shall have been misrepresented or misunderstood. The mover of every question shall have the right of reply: Provided that no Alderman shall speak upon any motion or amendment for a longer period than ten minutes, without the consent of the Council.

Aldermen to stand and address the Chair.

15. Every Alderman shall stand when speaking, and shall address the Chair.

Offensive personal reflections not to be permitted.

16. No Alderman shall make offensive personal reflections, upon, or impute discreditable motives to, any other Alderman. Any Alderman so offending shall, immediately upon being thereto required by the Mayor or presiding Aldermen, withdraw the offensive expressions, and retract any such imputation of motive, and make an apology satisfactory to the Council. Any Alderman declining so to apologise and withdraw the offensive expressions, or to retract the imputation of motive, shall be liable on conviction to a fine or penalty not less than one pound nor more than five pounds for every such first offence, and on a second conviction for a like offence he shall be liable to a fine or penalty of not less than two pounds nor more than ten pounds.

Committees.

17. The Rules of the Council shall be observed in Committee of the Whole, except the rule as to standing, and that limiting the number of times of speaking.

Points of order.

18. Any Alderman may at any time call the attention of the Mayor or Chairman to any Alderman being out of order; and every point of order shall be taken into consideration immediately upon its arising, and the decision of the Mayor or Chairman thereon shall be conclusive.

Speaking.

19. Any Alderman who has moved any motion or amendment shall be considered to have spoken thereon; but an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded the same, shall be at liberty to speak on such motion or amendment.

Petitions to be examined before being presented.

20. Any Alderman presenting a petition shall satisfy himself that the wording thereof is unexceptionable. All petitions shall be received only as the petitions of the persons signing the same, and no debate shall take place upon the presentation of a petition until notice has been given in the usual manner.

Motions for rescission of previous order, &c.

21. Wherever motion for the rescission of any order, resolution, or vote of the Council shall have been negatived no other motion to the same effect shall be permissible until a period of three months shall have elapsed from the time negativing such first-mentioned motion: Provided that nothing herein contained shall be held to prohibit the reconsideration and amendment of the proposed By-law which may have been remitted to the Governor for confirmation, and may have been remitted to the Council with suggested amendments of the same, or the passage, after due notice as hereinbefore provided, and in due course of law, of any By-law for the repeal or amendment of any other By-law.

Lapsed business.

22. Whenever the consideration of any motion or matter of business shall have been interrupted by reason of a quorum not having been present, the resumption of such consideration shall in such case be resumed at the next meeting at the point where it was interrupted.

Suits and prosecutions for penalties, &c.

23. Such suits or informations for the enforcement of penalties for or in respect of breach of the "Municipalities Act of 1867," or of any By-law made thereunder, or of any statute, the operation of which may have been extended to the Municipality, as may have been directed by the Council, shall be so commenced or laid by the solicitor of the Municipality, or by any officer named by the Council for that purpose imposing the penalty sought to be enforced. And no such

suit shall be brought or information laid as aforesaid against any member of the Council, or Auditor, or servant, except on an express resolution of the Council.

How notices are to be published.

24. In all cases where the public notice is or shall be required to be given by any By-law, such notice shall be given and published by advertising the same in some newspaper circulating in the Municipality.

Mode of proceeding in cases not provided for.

25. In all cases not herein provided for resort shall be had to the rules and usages of the Legislative Assembly of New South Wales, so far as the same are applicable to the proceedings of the Council.

Business at Special Meetings.

26. At special meetings of the Council the business, after the minutes shall have been read and verified, which shall be done in the same manner as at an ordinary meeting, shall be taken in such order as the Mayor or the Alderman at whose instance such special meeting shall have been called, may have directed.

Business paper at ordinary meeting—how prepared.

27. The business paper for every meeting of the Council other than a special meeting, shall be made up by the Council Clerk or other person acting as his substitute not less than forty-eight hours before the day appointed for such meeting. He shall enter upon such business paper a copy to the substance of every notice of motion and of every requisition or order as to business proposed to be transacted at such meeting which he shall have received, or shall have been required or directed so to enter in due course of law, and as hereinafter provided. Every such entry shall be made subject to the provisions of section 4 of this Part of these By-laws in the same order as such notice, requisition, or direction, shall have been received.

Business paper for special meeting.

28. The business paper for each special meeting shall contain only such matters as shall have been specially ordered to be entered thereon by the Mayor or Alderman calling such meeting.

Summons to Members.

29. The summons to members of the Council of every meeting thereof shall be prepared from the business paper for such meeting, and shall embody the substance of such business paper.

How business paper is to be disposed of.

30. The business paper for each meeting of the Council shall at such meeting be laid before the Mayor or Chairman, who shall cause a note to be made upon such business paper of the mode in which each matter entered thereon has been dealt with, and such business paper so noted shall be a record of the Council.

After business paper made up all notices, &c., to be the property of the Council.

31. After the business paper shall have been made up as aforesaid, all the said notices of motion, requisitions, and directions as to which entries have been made thereon shall be the property of the Council, and shall not be withdrawn, altered, or amended, without leave having been first obtained from the Council for such withdrawal, alteration, or amendment.

Standing and Special Committees.

Standing Committee

32. There shall be three Standing Committees, namely, a Works, and a Finance. These Committees shall be reappointed every year, at the first meeting of the Council, which shall be holden after the election of the Mayor.

Mode of reappointing Standing Committees.

33. The reappointment of the three Standing Committees may, on resolution of the Council, be made by ballot. In such case a list or lists of the members shall be handed to each then present, who shall mark against the name of each such member the title of the Committee to which, in his opinion, such member ought to belong; and the Mayor or Chairman shall thereupon examine such lists so marked, and shall declare the result, and if there shall be an equal number of votes for the appointment of any two or more members to any one of such Committees, such Mayor or Chairman shall decide which of such members shall be appointed.

By-law Committee

34. The By-law Committee shall prepare for the consideration of the Council, drafts of all such By-laws as may be required for the good Government of the Municipality.

Works Committee

35. The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, bridges, public reserves, and other public places under the care and management of the Council; they shall also inquire and report from time to time as to such improvements or repairs as they may think necessary, or as they may be directed by resolution of the Council to inquire and report upon.

*Finance Committee.*

36. The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of the municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect or to be likely to affect the finances of the Municipality, and as to such matters or subjects of the like nature as they may be directed by resolution of the Council to inquire and report upon.

*Records of transactions in Committee.*

37. The Chairman of each Standing Committee shall make, or cause to be made, in a book kept by him for that purpose, memoranda of all the transactions of such Committee, which book he shall, on ceasing to be such Chairman, hand over to his successor.

*Reports to lie on table twenty-four hours.*

38. All reports of Standing Committees shall lie on the table, for inspection of Aldermen, at least twenty-four hours prior to the meeting at which such reports shall be received.

*Probable cost of work to be ascertained before expenditure.*

39. No work affecting the funds of the Municipality shall be determined upon until the probable expense shall have been first ascertained by the Council, on the report of some officer nominated for the purpose, or the report of the Works Committee.

*Works to be let by tender.*

40. Works undertaken by the Council, and estimated to cost over (5) five pounds, shall be let by tender; and no tender shall be entertained unless it be accompanied by an agreement, signed by one or more respectable parties as sureties, for due performance of the contract. All tenders shall be accompanied by a cash deposit of ten per cent. of the amount of tender.

*Members of Council or its officers not to be surety.*

41. It shall not be competent for the Council, when surety is required for officers, servants, or contractors, to accept as such surety any of its members, or any person holding office under the Council.

*Urgent works may be ordered to be done.*

42. In cases of emergency arising between meetings of the Council, it shall be lawful for necessary works to be ordered without vote of the Council, viz.:—By the Mayor to the extent of five pounds; and with the consent of three Aldermen, any sum not exceeding twenty pounds.

*Vacancies—appointments to be advertised.*

43. No appointment to any office shall be made until public notice be given inviting applications for the same, and stating the salary affixed to such office; and every appointment may be by ballot or show of hands; and all officers shall give bonds for the faithful discharge of their duties, in such sums as the Council may determine.

*Cash balance.*

44. The Treasurer shall produce the cash-book and bank pass-book, balanced, at the regular meetings of the Council.

*Payments to be certified.*

45. No money shall be paid by the Council until the account for the same shall have been examined and reported upon by the Finance Committee, except in case of men employed daily or weekly, and cases of emergency.

*Rates to be collected half-yearly.*

46. The rates of the Municipality shall be collected half-yearly, and shall be due and payable on such days as the Council shall determine.

*Rates to be paid to the Town Clerk.*

47. All persons liable to pay rates or assessments shall pay the same to the Town Clerk, at the Municipal Council Chambers, during office hours, or in such other manner as the Council may from time to time direct.

*Bailiff.*

48. The Bailiff shall be appointed by the Council or the Mayor, and shall find two sureties to the extent of ten pounds each for the faithful performance of his duties.

49. The Bailiff shall make all levies and distress under warrant, in the form of the Schedule hereunto annexed and marked with the letter A, under the hand of the Mayor or any Alderman who may for the time being be duly authorised to perform the duties of that office.

50. The Bailiff shall be paid for every entry and levy made under these By-laws, according to the Schedule hereunto annexed and marked with the letter B.

51. The Bailiff, and such assistants as he may take with him, shall enter into any part of the land, building or tenement in respect of which a warrant has been issued for the recovery of any rate or rates as aforesaid, and to distrain the goods therein or thereon, and to remain in such building, tenement, or other property, in charge thereof; and if the

sum for which such distress shall have been made or taken shall not be paid on or before the expiration of two days, it shall be lawful for the Bailiff to sell the goods so distrained, or a sufficient portion thereof, and if the party distrained upon shall so require, by public auction, either on the premises or at such other place within the Municipality as the Bailiff may think proper to remove thereto, such party consenting in writing to pay the charges of the auctioneer, if sold; and the surplus, if any remain after deducting the amount distrained for, together with the expenses attendant upon such distress and sale, shall be paid over to the owner of the goods so sold: Provided that nothing herein contained shall apply to the sale of any produce whatever which may be growing upon the land at the time of making the distress: Provided always, that no distress shall be made on the goods of any casual visitor, or on the goods of any lodger in any house or apartment ordinarily let or used as a lodging-house or apartment.

52. At the time of making a distress, the Bailiff shall make out a written inventory in the form of the Schedule hereto annexed and marked with the letter C, which inventory shall be delivered to the occupant of the land or premises, or the owner of the goods so distrained, or to some person for his or her behalf, resident at the place where the distress has been made; and in case there shall be no person at such place with whom such inventory can be left as aforesaid, then such inventory shall be posted on some conspicuous part of the land or premises on which the distress has been made.

53. The Bailiff, in making a distress as aforesaid, may impound or otherwise secure the distress so made of what nature or kind soever it may be, in such place or part of the land or premises chargeable with the rate as shall be most fit or convenient for this purpose; and it shall be lawful for any person whatsoever, after the expiration of the two days hereinbefore mentioned, to come and go to and from such place or part of the said land or premises where any distress shall be impounded, in order to view or buy, and in order to carry off and remove the same on account of the purchaser thereof.

54. The owner of any goods so distrained upon may, at his or her option, direct and specify the order in which they shall be offered for sale; and the said goods and chattels shall in such case be sold according to such direction.

55. The Bailiff shall hand over to the Council Clerk, or the Treasurer, all proceeds of such distress, immediately after having received the same, with the particulars of the goods distrained, and of the sale thereof.

56. The Bailiff, with the sanction of the Mayor of the Municipality, may authorise any person to act temporarily as his deputy, and the person thus authorised shall have and exercise for the time being, all the powers of the Bailiff himself; but the Bailiff and his sureties shall, in every case, be held responsible for the acts of his deputy.

*Receipt for documents*

57. Every person removing any document or record with such consent as aforesaid, shall give a receipt under his hand for every such document, which receipt shall be carefully preserved among the records until the document or other record to which it refers shall have been returned, when such receipt shall be destroyed.

*Penalty for destroying or defacing records.*

58. Any person destroying or defacing, or wilfully or improperly altering any books, papers, or records, shall for every such offence be liable to a penalty of not less than five pounds nor more than twenty pounds.

*Officers and Servants.*

*Notice to candidates.*

59. No appointment to any permanent office at the disposal of the Council shall take place until notice shall have been given as hereinafter provided, inviting applications from qualified candidates for the same. The salary or allowance attached to the office shall in every case be fixed before such advertisement is published, and shall be stated in such advertisement.

*Mode of appointment.*

60. Every such appointment shall be made by ballot, in such mode as may at the time be determined upon.

*Appointment of officers, &c.*

61. The officers of the Council shall be appointed, and the engagement of any officer may be determined at any time by a vote of a majority of the whole Council: Provided that one month's notice shall be given to every such officer whose services are to be so dispensed with, and that any officer may resign his appointment by giving to the Council one month's notice in writing of his desire and intention to do so: And provided further, that nothing herein contained shall be taken or construed in any way to affect the powers of suspending officers, and of dismissing men for misconduct, vested in the Council by the 152nd section of the "Municipalities Act of 1867," 31 Vic. No. 12.

**Exceptional cases.**

62. Nothing herein contained shall be held to prevent the employment, as may be from time to time found necessary, and as may be ordered by the Council, of any workmen or labourers on the public works of the Municipality.

**Bonds for good conduct.**

63. All bonds given by officers or servants of the Council for the faithful performance of their duties, shall be deposited with the Attorney or Bankers of the Corporation, as the Council may order; and no officer or servant of the Council shall be received as surety for any other such officer or servant.

**Duties of Council Clerk.**

64. The Council Clerk, in addition to the duties which by the "Municipalities Act of 1867," and the "Municipalities Act of 1867 Amendment Act of 1874," or by the present or any other By-laws thereunder he may be required to perform, shall be the Clerk of all Revision Courts held in the Municipality under the provisions of the said Municipalities Acts. He shall also, under the direction of the Mayor, conduct all correspondence which may be necessary on the part of the Council. He shall likewise have charge of all the records of such Council, except such books or documents as may be intrusted to any other officer, and shall be responsible for the safe keeping of such records. He shall generally assist the Mayor in carrying out the orders of the Council and the duties of the Mayor, and shall make a half-yearly return of the revenue and expenditure.

**Duties of other officers or servants.**

65. The duties of all officers and servants of the Corporation, in addition to the duties which by the present or any other By-laws thereunder may be required to perform shall be defined by such regulations as may from time to time and in accordance with law be made.

**Special powers of Mayor.**

66. The Mayor shall exercise a general supervision over all officers and servants of the Corporation, and may order the preparation of any such return or statement, or the giving of any such explanation or information by any such officer or servant as he may think necessary, unless such return or statement, shall have been already prepared or such return or statement, explanation, or information, already given and on record, or unless the Council shall have expressly forbidden and dispensed with the preparation of such return or statement, or the giving of such explanation or information. All such returns or statements as aforesaid shall be in writing, and shall be recorded. All such explanations or information may be either rendered viva voce, or put into writing as the Mayor may direct.

**Complaints against officers.**

67. All complaints against officers or servants of the Corporation must be in writing, addressed to the Mayor, and must in every case be signed by the person or persons complaining. And no notice whatever shall be taken of any complaint which is not in writing, or which is anonymous. And such complaint as aforesaid shall be laid by the Mayor before the Council at the next meeting thereof, which shall be holden after the Mayor shall have received the same, and shall be duly recorded.

**Public Amusements.****Places of amusement to be licensed.**

68. No dancing saloon, bowling or skittle alley, shooting gallery, public billiard or bagatelle table, or similar place of amusement (other than entertainments requiring to be licensed by law), shall exist or be established within the Municipality, unless and until such place of amusement shall have been licensed by the Council as hereinafter provided; and in the event of any such licensed place of amusement being improperly conducted or becoming a nuisance, or an annoyance to any inhabitant, or violating public decency, or endangering the public peace, the Mayor shall, on representation to that effect being made, forthwith suspend the said license, and the Council at its next meeting shall, by resolution, cause the said license to be cancelled or otherwise as may appear necessary or desirable; and any person or persons having already established such places of amusement who shall not within thirty days after these By-laws come into force apply for such license, or any person or persons who shall open, establish, or maintain any such place of amusement as aforesaid, without having obtained such license, shall forfeit and pay a sum of not less than ten pounds and not more than fifty pounds.

**Mode of granting licenses.**

69. Applications for licenses as aforesaid must be in writing, addressed to the Mayor and Aldermen, and must be endorsed by two responsible householders, testifying to the respectability of applicant. The application must describe clearly the nature of the entertainment for which the license is sought, and the premises in which it is to be held.

**License fees.**

70. Licenses shall be granted by resolution of the Council upon payment of license fees, as follows:—For every license granted between the 1st of January and 1st of July, one pound one shilling, and between the 1st July and 31st December, ten shillings and six pence. All licenses shall expire on the 31st December in each year, and may be renewed by resolution of the Council upon written application, and on payment of the annual fee of one pound one shilling.

71. Licenses shall be issued by the Town Clerk to every person applying to be licensed to hawk or vend with a cart, dray, waggon truck, or other vehicle, on payment for the same of a fee of ten shillings; and to every person applying to be licensed to hawk or vend with a pack or basket, on payment of a fee of two shillings and six pence; and every such license shall be in force until the 31st day of December then next following the date thereof; and the Town Clerk shall keep a register of the names of all such licensed hawkers. But if any such license shall be issued after the 30th June in any year only half of the above fees shall be charged.

**No exhibition, &c., on Sundays, &c.**

72. No such exhibition or place of public amusement as aforesaid shall be held or kept open or used for the purposes of such public amusements on Sunday, Christmas Day, or Good Friday; and every person offending against this By-law in this behalf shall, on conviction, forfeit and pay a sum not exceeding five pounds nor less than two pounds for every such offence.

**Procession, parades, &c.**

73. Any person desiring to organise or carry out any procession or parade, in any street within the Municipality, shall first apply to the Mayor for the time being for permission for such purpose; and if any person shall organise or head any procession or parade of any kind within or along any of the said streets, for which the permission, in writing, of the Mayor has not been obtained, he shall be liable to a penalty not exceeding five pounds, and any person who shall join, or take part in any such procession, shall be liable to a penalty not exceeding two pounds. This By-law shall not apply to any Volunteer Military Corps or Fire Brigade, the members whereof shall be in uniform and in charge of an officer of such corps or brigade.

**Public exhibitions, &c., to be licensed.**

74. No exhibition, otherwise than hereinafter provided for, shall be held or kept for hire or profit within the said Municipality, nor shall any bowling-alley, or other place of public amusement other than licensed as hereinafter provided be held or kept within the Municipality, unless and until the same shall be duly registered, as hereinafter prescribed.

75. It shall and may be lawful for the Mayor, by writing under his hand, and without charge, to permit any such exhibition other than those required to be licensed as hereinafter provided, and which shall not be held or kept for more than one week; and in like manner, to allow any land belonging to the Council to be used for public amusement other than entertainments required to be licensed as hereinafter provided, for one week: Provided always that no such permission shall be given to the injury of any property of the Council, and that it shall be incumbent on such Mayor to inquire strictly into the nature of such exhibitions seeking the permission aforesaid before granting the same, and, in case of any exhibition or amusement being held to be opposed to public decency or endangering the peace of the public, the Mayor shall have power to peremptorily order the nuisance to be abated, under a penalty of forty shillings for every day such exhibition shall be so held; and it shall be lawful for the Mayor to levy a tax of not more than one pound per diem upon any temporary exhibition or amusement which, in his opinion, should contribute to the Municipal revenue.

76. Every occupier of any building or ground in which any exhibition is held or kept, or any public amusement conducted as aforesaid, shall in each year register at the office of the Council such building or ground, together with the situation and description thereof, and of the exhibition proposed to be held or kept, or the public amusements proposed to be conducted as aforesaid in or upon such building or ground, and the name of such occupier; and every person who causes, and every occupier of any such building or land, who permits any such exhibition to be held or kept, or any public amusement to be conducted for a longer period than one week in or on any such building or land not being registered for the purpose, or without such certificate of registration, as hereinafter mentioned, having been obtained for the same, shall forfeit for every such offence not less than one pound nor more than twenty pounds.

**Registration Fee.**

77. For every such registration as aforesaid the occupier of the building or land so registered shall pay to the Town Clerk, for the benefit of the said Municipality a fee of one pound; and every such registration, whenever the same may be made, shall be in force until the 31st day of December then next ensuing, and no longer.

*Change of occupancy.—Transfer fee.*

78. The person in whose name the building or ground as aforesaid shall be registered, or the person to whom the Mayor shall grant a temporary license, shall be deemed the occupier of such building or land for all purposes of these By-laws; and any change of occupancy shall be forthwith notified to the Town Clerk, and the Council may sanction the transfer of the license to the new occupier, and shall charge for such transfer the fee of five shillings.

*Swine, &c., not to wander about the streets.*

79. Any person who shall breed, feed, or keep any kind of swine in any house, yard, or enclosure, situate and being in or within forty yards of any street or public place within the Municipality, or shall suffer any kind of swine, or any horse, ass, cattle, mule, sheep, goat, or any other animal of the like nature belonging to him or her, or under his or her charge, to stray or go about, or to be tethered or depastured in any street, road or public place within the said Municipality shall forfeit and pay for every such offence a sum not exceeding forty shillings, and to be made liable for damages.

*Stables, cow-sheds, and pig-styes.*

80. The occupier of any land within the Municipality of Murrumburrah on which there shall be erected any stable, cow-yard, cattle-shed, or pig-stye, shall cause such premises to be kept in such a state, in respect of cleanliness, as not to be a nuisance or injurious to health, and shall cause all dung, soil, or manure produced or accumulated thereon to be collected in a place (to be approved of by the Inspector of Nuisances) in the yard of such premises, and to be there in an inoffensive condition, and so as not to be productive of any nuisance; and shall cause such dung, soil, or other manure to be, from time to time, removed from such premises, as often as the quantity of the same so collected or accumulated shall amount to two cubic yards. And if at any time the owner or occupier of any such premises, shall neglect or fail to have such dung, soil, or other manure removed therefrom as aforesaid, the same shall be removed by the Inspector of Nuisances, at the expense of such occupier.

*Water Closets.*

*Cleansing of privy cesspools.*

81. The occupier of every house, building, or tenement within the Municipality of Murrumburrah shall cause every privy cesspool thereon to be emptied and cleansed from time to time, so soon as any portion of the contents of such cesspool shall have so accumulated therein as to be within a distance of one foot from the top of the wall, side-, or lining of such cesspool: Provided that the contents of any privy shall not be removed or discharged therefrom except between the hours of ten (10) p.m. and five (5) a.m.: And provided also that the contents of any privy or cesspool shall not be removed or discharged therefrom until such contents shall have had mixed therewith a quantity of chloride of zinc, carbolic acid, common salt, or some other efficient deodoriser sufficient to effectually deodorise and disinfect the same.

*Where cesspools are not provided*

82. The occupier of every house, building, or other tenement on or in which the privy or closet belonging thereto shall not be provided with a cesspool, constructed in accordance with the provisions of the preceding By-law (No. 81), shall at all times cause to be kept in such privy or closet a supply of dry powdered earth, ashes, charcoal, lime, or other material efficient for deodorising night-soil; and shall cause all night-soil which may be deposited in any box, pan, bucket, or other receptacle in such privy or closet to be immediately, on the deposit thereof, covered with a quantity of dry powdered earth, or other deodorising material as aforesaid, sufficient to thoroughly and effectually deodorise the contents of such bucket, pan, or other receptacle.

83. No closet shall be erected except in such position as shall be approved of by the Council, or by the Inspector of Nuisances, or other officer appointed by the Council.

*Deposit of rubbish, manure, &c.*

84. No person shall deposit, or cause or suffer to be deposited in or by the side of any street, or on any road, street, or right-of-way, lane, passage, water-channel, or gutter, or in any creek, river, or reservoir, or in any other public place within the Municipality of Murrumburrah (not being a manure depot duly appointed by the Municipal Council of Murrumburrah as a place for the deposit of manure, rubbish, or other such refuse matter) any dust, mud, ashes, rubbish, filth, offal, manure, liquid manure, dung, or soil; and no person shall deposit, or cause or suffer to be deposited on any land, field, or garden within the Municipality of Murrumburrah any night-soil, blood, offal, or other offensive matter or thing without the written consent of the Mayor or Council, and any such offensive matter or thing which shall with such consent of the said Mayor or Council be so deposited, shall be immediately on the deposit thereof covered over by the person depositing the same with such a quantity of earth as will at once prevent the escape of any

noxious or offensive effluvia from any such manure, soil, or other offensive matter before mentioned: Provided that nothing contained in this By-law shall be construed or taken to prevent the use as manure, for any garden or land, of the contents of any earth closet, or any other privy or closet where such contents are deposited on any such field or land in a perfectly deodorised state, and so as not to cause nuisance or offence either at the time of the deposit of such contents or afterwards.

*Stables and nuisances not removed on complaint, &c.*

85. In case any privy, stable, cow-yard, pig-stye, or any other enclosure, place, or thing within the said Municipality shall be or become a nuisance, or shall be so close to a dwelling-house as to become a nuisance or injurious to the health of the inhabitants, it shall be lawful for the Council, by notice in writing, to order that such privy, stable, cow-yard, pig-stye, or other place or thing, being a nuisance or injurious to health, be remedied or removed off the premises within seven days after such notice shall have been given to the owner or occupier of the premises wherein such nuisance shall exist, or shall have been left for such owner or occupier at his or her last or usual place of abode, or on the said premises; and every such owner or occupier neglecting to remedy or remove such nuisance shall, for every such offence, forfeit and pay a penalty not exceeding five pounds.

*Drains, &c.*

86. All drains whatsoever, and the water-closets, earth-closets, urines, cesspools, and ash-pits within the Municipality of Murrumburrah, shall be constructed so as not to be a nuisance or injurious to health, and so as that there shall be no overflow, soakage, or leakage therefrom, and every cesspool within the said Municipality, which shall be formed or made below the surface of the ground, shall be also constructed so as that the water-tight walls or sides thereof shall project on all sides at least six inches above the surface of the ground in which such cesspools shall be formed or made.

*Drains in footpaths and slopes, &c.*

87. No surface drain shall be made in any footpath, nor any pipes laid under or across the same, without the authority of the Council; and no such drain shall be used for the discharge into any street or roadway of any offensive liquid or matter of any kind whatsoever; and any person who shall offend against this By-law, or any owner, occupier, or tenant from whose premises suds, offensive matter, slops, or filth shall flow over or on any footway, water-course, street, or lane shall forfeit and pay any sum not exceeding twenty pounds nor less than one pound.

*Natural water-courses.*

88. Any person who shall close or intercept, or keep closed or intercepted, any natural water course, by building or otherwise, shall provide another outlet for the surface water with pipes or sewers of a size and in a manner to be approved of by the Council; and any person closing or intercepting any such water-course, and failing to comply with the provisions of this By-law, shall forfeit and pay a sum not exceeding ten pounds nor less than two pounds, and each day that such water-course shall be closed or intercepted shall be a new offence.

*Stacking hay or straw*

89. No person shall stack any hay or straw, otherwise than in an enclosed building, nearer than two hundred feet to any building or public way, under a penalty not exceeding (£10) ten pounds.

*Live coals or hot ashes.*

90. Any person throwing hot ashes or live coals adjacent to any buildings or fences shall be liable to a penalty not exceeding twenty pounds and not less than one pound.

*Setting fire to chimneys.*

91. Every person who wilfully sets or causes to be set on fire any chimney, flue, smoke-vent, or stove-pipe, herein called in common chimney, shall forfeit a sum not exceeding five pounds.

*Burning shavings, &c., in the street.*

92. Any person who shall burn any shavings, rubbish, or any other matter or thing, in any road, street, lane, or public place within the said Municipality, or who shall, within ten yards of any dwelling-house, burn rags, bones, corks, or other offensive substance, shall for every such offence forfeit and pay a sum not exceeding forty shillings nor less than five shillings.

*Placards not to be affixed on walls without consent.*

93. It shall not be lawful for any person to paste or otherwise affix any placard or other paper upon any wall, house, fence, or other erection, or deface any such wall, house, fence, or erection, with chalk, paint, or other matter, unless with the consent of the owner thereof; and every person who shall be guilty of any such offence shall pay a sum not exceeding twenty shillings nor less than five shillings.

**Water-carts to be kept full.**

94. Every owner of a cart or carts supplying water to the citizens for payment shall in each year take out a license for each cart, at the office of the Town Clerk, such license to be signed by the Mayor, and to be in force until the 31st December in each year. A register to be kept by the Town Clerk of all licenses issued, and a fee of five shillings per annum for each registration to be paid upon application.

95. Every owner and driver of a licensed water-cart shall keep such cart loaded with water during all times after sunset and before sunrise, and shall, if any building, premises, or property be on fire within the Municipality, attend at the place of such fire with such cart loaded with water; and failing to comply with the provisions of this section, shall forfeit a sum not less than five shilling and not exceeding five pounds.

**Licensed water-carts.**

96. Any person hawking or carrying water for sale or hire, otherwise than in a licensed water-cart as aforesaid, shall upon conviction be liable to a penalty not exceeding one pound.

**Vehicles to be licensed.**

The following shall be the regulations for public vehicles :

97. All carriers and owners of vehicles plying or carrying passengers or goods for hire or reward within the said Municipality shall have their vehicles licensed by the Council, and the owners shall have their names painted in legible letters with the word "licensed" on some conspicuous part of such vehicles respectively. The license fee shall be at the rate of ten shillings per wheel, and be in force until the 31st December in each year. And every person driving any unlicensed vehicle with passengers, goods, or loading of any description for hire or reward, or who shall omit or fail to comply with the provisions of this By-law, shall forfeit a sum not exceeding forty shillings.

98. No person shall act as the driver or the conductor of any such vehicle, within the Municipality of Murrumburrah, unless licensed in the manner hereinafter described, and paying the fee for such license as provided for in Schedule D.

99. Before any license for plying a vehicle, or to drive or conduct the same, shall be granted, the party requiring such license shall obtain from the Council Clerk, free of charge, requisition in form or Schedule I hereto, or to the like effect, and shall duly fill up and sign the same, and deliver it to the Council Clerk.

100. No license shall be granted in respect of any vehicle which, in the opinion of the Mayor and By-law Committee shall be unsafe, or in bad repair, or otherwise unfit for the accommodation and conveyance of passengers.

101. Licenses for proprietors and drivers of vehicles shall be in form of Schedule H hereto, or to the like effect.

102. When a licensed vehicle shall be under repair, if the proprietor shall so desire, he may be permitted to substitute another for a period to be hereby specified by endorsement on the license under the hand of the Council Clerk.

103. No license shall be granted to any person to drive any vehicle unless he be 16 years of age or over.

104. All licenses shall be made out by the Council Clerk, and numbered consecutively.

105. No proprietor shall be at liberty to part with or lend his license, nor to part with his licensed vehicle, to any person without the knowledge and approval of the Mayor and By-law Committee, and the registry of the name of the purchaser in the books of the Council.

106. The person or persons in whose name or names a license shall appear to have been obtained shall be deemed the owner of the vehicle in respect of which the same shall have been taken out.

107. The Mayor and By-law Committee may revoke any license to the proprietor or driver of any vehicle granted under this Part of these By-laws whenever they shall think fit: Provided, however, such proprietor or driver shall have an opportunity to show cause against such revocation.

108. The Mayor and By-law Committee shall, as often as they deem it necessary, cause an inspection to be made of all licensed vehicles of any such vehicles, and of the harness and horse or horses used in drawing the same; and if any such vehicle, horse or horses, or harness, shall at any time be found by them unfit for public use, notice of the same shall be given by the Inspector of Vehicles to the proprietor of such vehicle, and if after such notice he shall use or let to hire such vehicle, or suffer the same to be used or let, until the same or the harness or horse or horses used in drawing the same, as the case may require, shall be in a fit condition for public use, the said Committee may suspend, for such time as they may deem proper, the license of such vehicle; and in case any person shall neglect or refuse to attend with his licensed vehicle before the said Committee when called upon for the purpose of having the same inspected, the said Committee may suspend the license of such vehicle.

109. The number of the license granted for every omnibus or car, in figures not less than three inches in height, and for every carriage or cab in figures not less than two inches in height, white upon a black ground, shall be painted outside on a panel of the door of such vehicles, or on a plate or plates affixed thereon.

110. No omnibus shall ply for hire within the said Municipality, unless there shall be painted the number of the license of such vehicle, and the number of persons such vehicle is licensed to carry according to these By-laws in words at length, in the following form, that is to say--Licensed to carry inside and outside.

111. Any person having taken his or her seat in any licensed vehicle, and not paying the fare when demanded at the beginning of the ride, shall on conviction forfeit and pay to the owner or driver of such omnibus or car such amount of over damages, cost and expenses for loss of time or otherwise, as the convicting Justices shall in their discretion think proper.

112. Every driver, whilst engaged in taking up or setting down any passenger, shall, during such taking up or setting down, place his vehicle as near as conveniently may be to that side of the street, and at a line with the kerb-stone or edge of the footpath, at which the taking up or setting down is required.

113. The driver of every licensed vehicle shall be constantly attendant upon the same when standing, or whilst plying or engaged for hire.

114. Every licensed vehicle plying or engaged after sunset shall be provided with a light on each side, and shall keep the same lighted until sunrise, if so long plying or engaged.

115. The owner of every licensed vehicle at the time of obtaining the license for the same, and every driver of any such vehicle at the time of registering his license, shall, without any charge, have a printed copy of this Part of these By-laws delivered to him, certified by the signature of the Council Clerk.

116. Such person or persons as may from time to time be in that behalf appointed by the Council shall be Inspector or Inspectors, during the pleasure of the said Council, of all licensed vehicles plying for hire within the Municipality, and such Inspector or Inspectors shall every three months examine all such vehicles, and report to the Mayor and By-law Committee, and shall at all times see that, as far as possible, these By-laws are duly observed.

117. No person suffering from any infectious disease shall ride in or upon any licensed vehicle, and no driver or conductor shall knowingly carry or permit to be carried any such person, or (except to some police office or watchhouse) any corpse, or any person in a state of intoxication, or who is so noisily or violently conducting himself or otherwise so misbehaving as to occasion any annoyance or to disturb the public peace; and no passenger shall carry on any licensed passenger-carrying vehicle any animal or any substance of any offensive character, or that might soil or damage the vehicle or the apparel of other passengers; and no driver or conductor shall sleep in or upon any licensed vehicle, or use the same for eating his meals therein.

118. All hackney-carriages and cabs carrying passengers shall (except when turning street corners, or going over crossings) proceed at a speed of not less than six miles an hour, unless when attending funerals, or when otherwise ordered by the hirer.

119. The driver of any licensed vehicle shall not stand or loiter at any place in any public street within the said Municipality excepting he be bona fide waiting for a passenger.

120. The places specified in Schedule G hereto annexed are hereby respectively appointed public stands for licensed vehicles. The Council may, by resolution, from time to time as they may see fit, alter the position of such stands or increase their number.

121. The fares payable by persons hiring licensed vehicles shall be those provided for in Schedule E hereto annexed.

122. The fees payable by persons hiring van or dray shall be those provided for in Schedule F hereto annexed.

123. Copies of Schedule E shall be placed in each licensed vehicle by the proprietors thereof, in such a position to be easily seen by passengers.

124. For every offence against the provisions of this Part of these By-laws to which no specific penalty has been attached herein, the offender shall pay a penalty not exceeding ten pounds nor less than five shillings.

125. Whenever the word "vehicle" shall be used in this Part of these By-laws, the same shall be understood to apply to either an omnibus, car, hackney-carriage, or cab; and an omnibus shall be meant to be a vehicle upon four wheels drawn by one or more horses; and a car is a vehicle upon two wheels drawn by one horse, and for which omnibus licenses have been taken out; and a hackney-carriage shall mean a vehicle upon four wheels, drawn by two or more horses; and a cab, a vehicle upon two wheels for which hackney-carriage licenses have been taken out.

**Vehicles to carry lights after dark.**

126. Every carriage, cart, dray, buggy, or other wheeled vehicle usually drawn by horses, which shall be in or upon any street, thoroughfare, or public place within the said Municipality earlier in the daytime than one hour before sunrise or later in the nighttime than one hour after sunset shall have attached to it one or more sufficient lights which shall be kept burning conspicuously in order to prevent collisions and accidents.

*Signboards and other obstructions.*

127. It shall not be lawful for any signboard or other obstruction of any kind to be erected across the footpaths, except with the consent of the Council, under a penalty not exceeding five pounds and not less than one pound.

*Public Health.**Houses to be purified on certificate of two medical practitioners.*

128. If upon the certificate of any duly qualified medical practitioner it appears to the Council that any house, or part thereof, or the premises occupied in connection therewith, within the limits of the said Municipality, is in such filthy or unwholesome condition that the health of any person is or may be liable to be affected or endangered thereby, and that the white-washing, cleansing, purifying, or fumigating of any house, or part thereof, or the premises occupied in connection therewith, would tend to prevent or check infectious or contagious disease, the said Council shall give notice, in writing, to the owner or occupier of such house, or part thereof, or the premises occupied in connection therewith, to white-wash, cleanse, purify, or fumigate the same, as the case may require; and if the person to whom the notice is so given shall fail to comply therewith within the time specified in the said notice he or she shall be liable to a penalty of not less than forty shillings first offence nor more than ten pounds: Provided that each day during which such house shall, after such notice as aforesaid, remain uncleaned or unfumigated shall be a separate offence. Provided also that no such penalties shall collectively amount to any greater sum than ten pounds.

*Exposing infected articles.*

129. No kind of rubbish or offensive matter shall be thrown upon any public or private property within the Municipality without permission first obtained from the Municipal Council and the owner or owners of such property. Persons found guilty of a breach of this By-law shall forfeit and pay for every such offence any sum not exceeding two pounds nor less than ten shillings.

*Cleansing butchers' shambles, &c.*

130. For preserving the cleanliness of the said Municipality, and the health of the inhabitants thereof, it shall be lawful for the Inspector of Nuisances, or for any other officer or officers appointed by the Council from time to time, and when and as often as he or either of them shall see occasion to visit and inspect the butchers' shambles, slaughter-houses, boiling down establishments, tanneries, fellmongering establishments, and manufactories in the said Municipality, and to give such directions concerning the cleansing of the said shambles, slaughter houses, tanneries, and establishments and manufactories, both within and without, as to him shall seem needful; and any butcher, or the owner or occupier of any such shamblic, slaughter-house, tannery establishment, or manufactory, who shall refuse or neglect to comply with such directions within a reasonable time, shall forfeit and pay a sum not exceeding ten pounds nor less than ten shillings.

*Slaughter-houses.**Inspection of animals, &c.*

131. Every Inspector of Slaughter-houses shall, upon receiving information of any cattle having been slaughtered, or of any cattle being intended to be slaughtered, and also in all cases in which notice shall have been given to him, or left at his usual place of residence, of the intention to slaughter any cattle, repair without delay to the place where such slaughtering has taken place, or is intended to be done, and shall examine and inspect the said cattle slaughtered or intended to be slaughtered, and shall take a particular description thereof, with the colour, mark or marks, brand or brands, sex, and apparent age, together with the name or names of owner or owners thereof, and of the time and place of slaughter, which particulars he shall carefully enter, or cause to be entered, in a book to be kept by him for that purpose, which book such inspector shall, when required, produce for examination by the Council, or by any person or persons deputed by the Council to make examination thereof.

*Notice of intention to slaughter, &c.*

132. Every person intending to slaughter any cattle within the limits of the said Municipality shall first give twelve hours, notice in writing to the Inspector of Slaughter-houses of the cattle intended to be so slaughtered, specifying the place and time, under the penalty of five pounds for each and every head of cattle which shall be so slaughtered without such notice having been given as last mentioned, unless it shall be made to appear to the Justices before whom such fine shall be sought to be recovered that such notice could not have been given, and that owing to some unforeseen accident it was necessary that such cattle should have been immediately slaughtered; and in all cases in which any cattle shall have been slaughtered within the said Municipality without having been previously inspected as aforesaid notice thereof shall be immediately given to the said Inspector, and the skins of such cattle shall be kept or preserved for three days, and be produced upon demand at the place of slaughter to the Inspector for the Municipality, under the penalty of five pounds for every skin so neglected to be preserved and produced.

*Where inspection to be made.*

133. Every inspection of cattle or sheep shall be made in the yards adjoining a licensed slaughter-house; and the owner or occupier of any such licensed slaughter-house shall keep the melts or spleens and lungs of all animals slaughtered therein for twelve hours after the same have been slaughtered, unless the Inspector shall have previously examined such melts, spleens, or lungs, and every owner or occupier as aforesaid who shall neglect or refuse to comply with these provisions, or any of them, shall forfeit and pay a penalty not exceeding five pounds for every such offence.

*Slaughter of diseased animals*

134. If the owner or occupier of any such slaughter-house shall knowingly cause, permit, or suffer any animal infected with any disease affecting the melt, or spleen, or lungs to be slaughtered in any such slaughter-house, or if after the slaughter of any animal, it shall be found to be diseased, and such owner or occupier, as soon as the animal is inspected and condemned, shall not immediately thereupon cause the entire carcass to be destroyed by fire in the presence of the Inspector, such owner or occupier shall, for every such offence, forfeit and pay any sum not exceeding fifty pounds, nor less than ten pounds: Provided, however, that should the owner of any animal which may be condemned by the Inspector object to the decision of that officer, such owner shall be at liberty to appoint some veterinary surgeon or other competent person as arbitrator in his behalf; and in the event of the Inspector and such veterinary surgeon or other competent person not agreeing, it shall be lawful to appoint a referee.

*Inspector may enter shops, &c., for certain purposes.*

135. Any such inspector may, and he is hereby empowered, at all reasonable times, with or without assistants, to enter into and inspect any shop, building, stall, or place kept or used for the sale of butchers' meat, or as a slaughter-house, and to examine any animal, carcass, meat, or flesh which may be therein; and in case any animal, carcass, meat, or flesh appear to him to be intended for the food of mankind, and to be unfit for such food, the same may be seized; and if it appear to a Justice of the Peace, upon the evidence of a competent person, that any such animal, carcass, meat, or flesh is unfit for the food of mankind, he shall order the same to be destroyed or to be so disposed of as to prevent its being exposed for sale or used for such food; and the person to whom such animal, carcass, meat, or flesh belongs, or in whose custody the same is found, shall be liable to a penalty not exceeding ten pounds for every animal or carcass, piece of meat or flesh, as found.

*Cleansing of slaughter-houses.*

136. Every slaughter-house within the said Municipality shall be thoroughly washed and cleansed within one hour after any animal shall have been slaughtered therein; and the blood, offal, and filth of all such animals as may be slaughtered in any slaughter-house, or in the premises or appurtenances thereto belonging shall be removed once at least in every twenty-four hours: and any owner or occupier of any slaughter-house who shall neglect to comply with this By-law shall forfeit and pay, on conviction for every such offence before any two or more Justices of the Peace in a summary way, any sum not exceeding ten pounds.

*Slaughtering in unlicensed premises.*

137. If any person or persons shall slaughter or cause to be slaughtered any animal in any house or place not licensed for such purpose according to law, such person or persons shall forfeit and pay any sum not exceeding ten pounds nor less than two pounds for each and every animal so slaughtered.

*Animals slaughtered for home consumption.*

138. Nothing in these By-laws contained shall extend to or affect any person or persons slaughtering at his or her or their own residences within the said Municipality, animals for the personal consumption of himself, herself, or themselves, or of his, her, or their family, servants or labourers: Provided that the place where any such animal so slaughtered be not less than fifty yards from any street or other public place, or from any residence other than the residence of such person or persons so slaughtering, as in the By-law aforesaid.

*Streets and public places &c.**New roads to be reported upon.*

139. No new public road, street, way, park, or other place proposed to be dedicated to the public shall be taken under the charge and management of the Council until after such road, street, way, or park shall have been examined by the Works Committee, and reported upon to the Council by such Committee.

*Plans of proposed new roads, &c., to be deposited*

140. Whenever any proprietor or proprietor of land within the said Municipality shall open any road, street, or way, or lay out any park or other place for public use or recreation through or upon such land, and shall be desirous that the Council shall undertake the care and management of such road, street, way, park or other place, he or they shall furnish the Council with a plan or plans signed by himself or them-

selves, showing clearly the position and extent of such road, street, way, park, or other place as aforesaid. And he or they shall execute an instrument dedicating such road, street, way, park, or other place as the Council may consider necessary.

*Roads and streets, encroachments thereon, &c.*

141. The surveyor of the Municipality, or other proper officer or person duly authorised by the Council in that behalf, shall be the proper officer for making out, and shall fix, mark, and lay out, when and where necessary in the opinion of the Council or Works Committee, the levels of all public roads, streets, lanes, and thoroughfares, and the carriage and foot ways thereof which now are, or shall hereafter, be under or subject to the control, construction, care or management of the Council. And it shall be the duty of such surveyor or officer to place posts at the corners or intersections of such streets, roads, lanes, and thoroughfares whenever the same may be deemed necessary or desirable by the Council, so as to give a width of 42 feet for the carriage, and 12 feet for the footway on each side, where the road, street, lane, or thoroughfare shall be 66 feet wide, and in proportion, and in the discretion of the Council, of any such road, street, lane, or thoroughfare, or other public place of other width than 66 feet: Provided that there shall be no change of level in any such public road, street, lane, thoroughfare, or public place until the same shall have been submitted to and adopted by the Council as hereinafter provided.

*Change of street levels.*

142. Whenever it may be deemed necessary to alter the street level of any such public road, street, or way as aforesaid, the Committee for Works shall cause a plan and section showing the proposed cuttings to be exhibited at the Council Chambers for fourteen days, for the information and inspection of ratepayers, and shall notify by advertisement in some newspaper circulating in the Municipality that such plan is so open to inspection, and no objection thereto shall be entertained by the Council unless made within twenty-one days after such notice shall have been given. At a subsequent meeting of the Council the said plan and section shall, if adopted, be signed by the Mayor or Chairman and the proposer and seconder of the motion for such adoption, and countersigned by the Council Clerk, and such plan and section so signed and countersigned shall be a record of the Council.

*Footways may be levelled.*

143. The surveyor may cause all footways to be levelled, and made as nearly as practicable of equal height and breadth and with an equal slope and inclination; and for this purpose may remove any flagging, steps, or other matter, thing, or obstruction that may injure or obstruct the said footway, or render it unequal or inconvenient, and which now is or may hereafter be erected or placed on the space marked out for any of the said footways.

*Temporary stoppage of traffic for repairs.*

144. The Committee for Works, or any officer or person acting under the authority of such Committee, may at any time cause the traffic of any street, lane, or thoroughfare, or any portion thereof, to be stopped for the purpose of repairing the same, or for any necessary purposes; and any person or persons offending against this By-law, either by travelling on street, lane, or thoroughfare, or by removing or destroying any obstruction that may be placed thereon for the purpose of suspending the traffic, shall forfeit and pay a penalty of any sum not exceeding five pounds for every such offence.

*No encroachment allowed on streets, &c.*

145. Whenever any road, street, lane, or thoroughfare has been marked out in manner herein provided, no house, shop, fence, or other structure shall be allowed, except as hereinafter mentioned, to project or encroach on any part thereof; and it shall not be lawful for any person, unless for any temporary or other purpose permitted by the Council, to erect or put up any building, erection, obstruction, fence, or enclosure, or make any excavation, or hole, on or near such road, street, lane, or thoroughfare, unless due notice of the same shall have been given to the Council of the Municipality at least one week before any such building, erection, obstruction, fence, or enclosure, excavation, or hole as aforesaid, shall be commenced to be erected or put up or made, and the assent of the Council first obtained. Any person or persons offending against this By-law shall forfeit and pay for every such offence a sum not exceeding five pounds nor less than forty shillings; and on every successive conviction for a similar offence shall forfeit and pay a penalty of not less than five pounds.

*Encroachments must be removed on notice.*

146. The surveyor or other officer of the Council may at any time, on the order of the Council, give seven days' notice in writing, directing the removal of any building, fence, sign-board, obstruction, encroachment, or erection of any kind, in and upon any reserve, road, street, lane, footway, thoroughfare, or place, under the charge of the Council, and such notice shall be served either personally or at the usual or last known place of abode of the person to whom such erection,

obstruction, or encroachment belongs, or who has erected the same, or caused it to be erected; and shall state that in the event of such notice not being complied with within ten days the work will be done at the risk and expense of the person served with such notice. And in any case where, after service of notice as aforesaid, the person served shall not comply therewith it shall be lawful for the Council to direct the removal of the same under the superintendence of its officer, and the cost thereof to be recovered from the person so served as aforesaid; and the person neglecting to comply with such notice shall, in addition to the cost of removal, be liable to a penalty not exceeding twenty-five pounds nor less than one pound; and in case of every successive offence the penalty on conviction shall not be less than five pounds.

*No balcony, &c., to project more than 18 inches.*

147. It shall not be lawful for any awning, verandah, portico, balcony, coping, parapet, overhanging eaves, cornice, windows, string-course dressing, or other erection or construction of any kind, to project more than eighteen inches beyond the alignment of any street, road, or thoroughfare, except with the consent of the Council first obtained, under a penalty not exceeding five pounds nor less than one pound.

*Or may proceed by action.*

148. Notwithstanding the above By-law the Council shall be at liberty to proceed by action for trespass in respect of any such excavation, obstruction, or encroachment.

*To apply also to obstructions by digging, &c.*

149. The provisions, remedies, and penalties contained in the last two By-laws shall apply in all cases of obstruction, injuries, or encroachments by excavating under, digging, or taking away any portion of any reserves, road, fence, street, lane, footway, thoroughfare, or place within the Municipality or under the charge of the Council.

*Persons obstructing overseer, &c.*

150. Any person who shall wilfully obstruct or interfere with the surveyor or other officers of the Council, or any person acting for or under him or them, in the exercise of any of the duties or powers by these By-laws imposed, shall on conviction forfeit and pay a penalty of not less than two pounds nor more than twenty pounds.

*Public Property.*

*Injuring or extinguishing lamps.*

151. Any person who shall wantonly or maliciously break or injure any lamp or lamp-post, or extinguish any lamp set up for public convenience in the said Municipality, shall over and above the necessary expense of repairing the injury committed, forfeit and pay for every expense any sum not less than one pound nor more than five pounds.

*As to damaging buildings.*

152. Any person who shall damage any building, toll-gate, toll-bar, toll-board, wall, parapet, fence, sluice-bridge, culvert, sewer, water-course, or other public property within the said Municipality, shall pay the cost for repairing the same, and if such damage be wilfully done shall forfeit and pay a sum not exceeding twenty pounds nor less than five pounds.

*Planting trees.*

153. Upon any ratepayer applying to the Council to have trees planted opposite his or her premises, on any street or road within the Municipality, and such ratepayer paying to the Council the sum of ten shillings for each tree, the Council may direct the Works Committee to have such trees planted at the cost of the Council.

*Damaging trees.*

154. Any person who shall wilfully and without the authority of the Council, cut, break, bark, root up, or otherwise destroy or damage the whole or any part of any tree, sapling, shrub, or underwood, growing in or upon any street or place under the management of the Council, shall forfeit any sum not exceeding ten pounds nor less than one pound.

*Obstructing public pathways.*

155. That the owner or occupier of any land situate on the side of any street or road in this Municipality who shall permit any tree, shrub, or plant, kept for ornament or otherwise, to overhang any path or footway on the side of any such street or road, so as to obstruct the passage thereof, and who, on demand made by the Council, or their overseer or inspector, shall not cut, or cause to be cut, lop, or cause to be lopped, all such trees, shrubs, or plants to the height of eight feet at least, the said Council and their servants, labourers, and workmen may cut, or cause to be cut or lopped, all such overhanging trees, plants, and shrubs, and to remove or burn any portion of such trees, plants, or shrubs so cut or lopped, without being deemed a trespasser or trespassers; and in case any person or persons shall resist, or in any manner forcibly oppose, the said Council or their servants, labourers, or workmen in the due execution of the powers given in this behalf by virtue of the "Municipalities Act of 1867," every person so offending, shall on conviction for every such offence forfeit and pay any sum not exceeding ten pounds.

*Preventing and Extinguishing Fires.**Fire or combustible materials &c.*

156. Every person who shall place, or knowingly permit to be placed, in any house, yard, work-shop, out-offices, or other premises, fire gunpowder, or combustible or inflammable materials of any kind, in such a manner as to endanger contiguous buildings, shall on conviction for every such offence forfeit and pay a penalty of not more than five pounds, and shall forthwith remove such fire, gunpowder, or combustible or inflammable materials, and every person who shall suffer any such fire, gunpowder, or combustible or inflammable materials to remain as aforesaid for twenty-four hours after any such conviction shall be deemed guilty of a second offence against this By-law.

*Inflammable fences, &c.*

157. Every person who shall erect any fence of brushwood, bushes, or other inflammable material, or shall make or place any stack of hay, corn, straw, or other produce, or place as for the covering of any such stack any inflammable material, so as to endanger contiguous buildings or properties, or any trees, shrubs, or other produce of such properties, or any chattels in or upon such buildings or properties, shall forfeit on conviction for every such offence a penalty of not more than five pounds, and fails to remove such fence, stack, or covering, within a reasonable time after such conviction as aforesaid, shall be deemed guilty of a second offence against this By-law.

*Setting fire to matter without notice.*

158. Any person who shall wilfully set fire to any inflammable matter whatever in the open air, within five yards of any dwelling-house or other building or boundary or dividing fence within the said Municipality, without having given notice in writing to the occupiers of the land adjoining the land upon which such matter is, that it is his or her intention so to do, or between the hours of six in the afternoon of any day, and six in the morning of the following day, shall for every such offence forfeit a sum not exceeding five pounds.

*Wilful trespass.*

159. Every person who shall wilfully let in or knowingly suffer to enter upon the reserves or public recreation ground any animals without due authority shall be deemed guilty of wilful trespass and shall be liable for every such offence to a penalty not exceeding twenty pounds nor less than two pounds.

*Penalty for destroying boundary marks.*

160. Any person pulling down, destroying, defacing, or injuring any marks, or any fence, or other erection without the authority of the Council, shall forfeit and pay any sum not exceeding ten pounds or less than one pound.

*Erection of houses, &c.*

161. No person shall be permitted to erect any house, shop or other building in any street, lane or place in the Borough without first serving notice, in writing, on the Mayor or Council Clerk, on any lawful day, between the hours of eight o'clock a.m. and eight o'clock p.m., stating such intention, and describing the proposed situation of the building or erection, and without having received an authority from the Mayor or Council Clerk, who will give the required level and alignment, if in a proclaimed street, on a payment of a fee of ten shillings. No person shall be at liberty to encroach beyond the building line in any street, or lane, by the erection of houses, verandahs, doorsteps, fences, or any other obstruction whatever.

*Houses &c., to be spouted*

162. All proprietors of houses within the Municipality having a frontage to any main thoroughfare shall be bound to have the same sufficiently spouted with down pipe, to be carried under the surface of the footpath into the gutter, under a penalty of ten shillings on conviction; and if not remedied at the expiration of seven days after such conviction the offender shall be again liable to a like conviction and penalty also for every succeeding seven days.

*Using bark for building in the main thoroughfares.*

163. No person shall erect any building of bark or roofed with that material or with calico within the populous parts of the town, except by express permission of the Council, and then for a temporary purpose only; any person so offending shall on conviction be liable to a penalty not exceeding ten pounds.

*Offences against public decency.**Bathing prohibited within certain limits.*

164. Any person who shall bathe near or within view of any inhabited house, or of any public wharf, quay, bridge, street, road, or other place of public resort within the limits of the said Municipality, between the hours of seven in the morning and eight in the evening, shall on conviction forfeit and pay a sum not exceeding one pound for every such offence.

*Penalty on indecent exposure of person.*

165. Any individual who shall offend against decency, by exposure of his or her person in any street or public place within the said Municipality, or in view thereof, shall on conviction forfeit and pay for every such offence a sum not exceeding ten pounds nor less than two pounds.

*Blasting Rock**No rock to be blasted without notice to the Council Clerk.*

166. Any person who shall be desirous of blasting any rock within one hundred yards of any street or public place or dwelling-house in the said Municipality, shall give notice in writing, twenty-four hours previously to the Council Clerk, who shall appoint a time when the same shall take place, and give such other directions as he may deem necessary for the public safety; and if any person shall blast or cause to be blasted any rock within the limits aforesaid without giving such notice, or shall not conform to the directions given to him by the said Council Clerk, he or she shall on conviction forfeit and pay for every such offence any sum not less than one pound nor more than five pounds.

*Expenditure.**Except in emergent matters, cost of all work to be estimated before undertaken.*

167. With the exception of emergent matters hereinafter especially provided for, no work affecting the funds of the Municipality shall be undertaken until the probable expense thereof shall have been first ascertained by the Council.

*Emergent matters and necessary current expenses—Expenses authorised to be reported—Outlay to be in accordance with the orders of the Council.*

168. For emergent matters, and for necessary current expenses during the intervals which may elapse between the meetings of the Council, outlay to the following extent may be incurred:—

1. By order of the Committee for works, or of the Mayor and one member of such Committee, for repairs or emergent works, to the extent of five pounds.
2. By order of the Mayor, for necessary current expenses, to the extent of ten pounds.

Provided that in every case, a detailed report in writing of every such outlay shall be laid before the Council at its next meeting, such report to be signed by the Chairman of the Committee for Works, or the Mayor.

All claims to be examined and reported upon by Finance Committee.

169. All accounts and demands of money against or from the Council shall be examined and reported on by the Finance Committee, before any order shall be made for payment of such accounts or demands.

*Certificate required with each claim—Salaries and wages to be payable on Mayor's order—Certificates to be attached to report.*

170. No payment shall be so ordered unless there shall be a certificate or memorandum from the Committee or Mayor, showing that the demand is a legitimate one, and has been duly authorised or inquired into. It shall be the imperative duty of the Finance Committee to see that this requirement is fulfilled, or to report specially as to the reasons for its non-fulfilment, before recommending payment. And provided further, that in regard to salaries and wages of labour for officers, servants, and labourers, employed at fixed rates of payment by order of the Council, the certificate of the Mayor of the amount due to such officer, servant, or labourer, and the order of such Mayor for payment of such amount shall be a sufficient authorisation for such payment.

*Common seal and records of the Council—Common seal and press, how secured—Care of same.*

171. The common seal, and the press to which the same is attached, shall be secured by a cover or box, which—except when such seal and press are in use—shall be kept locked. There shall be duplicate keys to the lock of this cover or box, of which keys one shall be kept by the Mayor, and the other by the Council Clerk. Such common seal and press shall be in the custody and care of the Council Clerk.

*When and how common seal to be used.*

172. The common seal shall not be attached to any document without an express order of the Council. In every case when such common seal has been ordered to be attached to any document, such document shall also be signed by the Mayor, or in case of the absence or illness of such Mayor, by two Aldermen, and countersigned by the Council Clerk.

*How books of account, &c., be kept.*

173. All books, deeds, memorials, letters, documents, and other records of the Council, except as hereinafter mentioned, shall be kept at the Council Chambers, in the custody and care of the Council Clerk, who shall be responsible for the safe custody of the same, but the Mayor or Council Clerk may for any special purpose authorise their removal.

*Books, &c., not to be shown or exposed to view without leave.*

174. No member or officer of the Council shall be at liberty to show, lay open, or expose any of the books, papers, or records of the Council to any person not a member of the Council, without the written permission of the Mayor. Any member or officer who shall commit a breach of this section shall be liable on conviction to a penalty of not less than ten shillings nor more than two pounds: Provided always that the rate-books shall at all reasonable times be open for inspection by ratepayers.

Records not to be removed.

175. Any person removing any such book, paper, or record from the Council Chambers, without leave from the Mayor or Council Clerk, in writing first had and obtained, shall be subject to a penalty of not less than ten shillings nor more than ten pounds. And nothing herein contained shall be held to affect the further liability of any person who shall have received such book, paper, or record, and shall not have returned the same, to prosecution for stealing such book, paper, or record, or to an action at law for detention of the same, as the circumstances of the case may warrant.

GENERAL BY-LAWS.

Cellars, or openings, &c.

Cellars or openings beneath footways prohibited.

176. It shall not lawful for any person to make any cellar or any opening, door, or window in or beneath the surface of the footway of any road, street, lane, thoroughfare, or other public place within the said Municipality; and if any person shall offend in the premises he shall forfeit and pay any sum not exceeding five pounds over and above the expense of remedying or removing any such cellar, opening, door, or window, such expense to be assessed and allowed by the convicting Justice or Justices, provided that such expense and penalty shall not together exceed fifty pounds.

Wells to be covered.

177. Every person who shall have a well situated between his or her dwelling-house or the appurtenances thereof and any street or footway within the limits of the Municipality, or at the side thereof, or in any yard or place open and exposed to such street or footway, shall, within the space of three calendar months from 1st February, 1891, cause such well to be securely and permanently covered over; and if any person having such well as aforesaid, shall fail to cover and secure the same within twenty-four hours after notice in writing shall have been given to him or her by any officer of the said Council, or shall have been left for such person at his or her usual or last known place of abode, or on the said premises, shall on conviction forfeit and pay the sum of ten shillings; and for every day after such notice that such well shall remain open or uncovered, contrary to the provisions hereof, such person shall be deemed guilty of a separate offence against this By-law.

Throwing of orange-peel or other substances on the footpaths.

178. Any person who shall cast, or throw orange-peel, or any other vegetable substances, or any offensive or noxious substance, upon any footpath within the Municipality shall forfeit and pay for each offence a fine not exceeding ten shillings.

For preventing obstructions of any streets or footways.

179. Any person congregating with others in any street or footway within the Borough so as to obstruct the free passage and traffic through, along, or upon the same, who shall refuse or neglect to move on so as to cease from and discontinue such obstruction upon being requested so to do by any police constable or officer, or by any inspector or other officer of the Corporation, such person so offending shall forfeit and pay a penalty of not less than five shillings and not exceeding forty shillings.

Driving or riding on footway.

180. Any person who shall run, roll, drive, draw, place or cause, permit or suffer to be run, rolled, driven, drawn, or placed upon any footway any waggon, omnibus, cart, dray, stage, bicycle, tricycle, carriage, wheelbarrow, truck, cask, or any other vehicle, or shall lead, drive, ride, or place any horse, cattle, or other beast upon any footway, shall forfeit and pay a penalty not exceeding five pounds nor less than ten shillings.

Driving carriages, &c., on footways, and throwing filth, &c.

181. Any person who shall throw, cast, or lay, or shall cause, permit, or suffer to be thrown, cast or laid, or to remain, any ashes, rubbish, offal, dung, soil, dead animal, blood, or other filth or annoyance, or any matter or thing, in or upon the carriage-way or footway of any street or other public place in the said Municipality, or shall kill, slaughter, dress, scald, or cut up any beast, swine, calf, sheep, lamb, or other animal, in or so near to any such street or other public place as that any blood or filth shall run or flow upon or over or be on any or either of any such carriage or foot way, or shall run, roll, drive, draw, place, or cause, permit, or suffer to be run, rolled, driven, drawn or placed upon any of the said footways of any such street or public place, any waggon, cart, dray, sledge, or other carriage, or any wheelbarrow, handbarrow, or truck, or any hoghead, cask, or barrel, or shall wilfully lead, drive, or ride any horse, ass, mule, or other beast upon any such footway, shall upon conviction forfeit and pay for the first offence a sum not exceeding forty shillings nor less than five shillings, for the second offence a sum not exceeding five pounds nor less than ten shillings, and for a third and every subsequent offence a sum not exceeding ten pounds nor less than one pound for each such offence.

Riding and driving round corners, &c.

182. Any person who shall ride or drive round the corner of any road, street, or lane within the said Municipality at a faster pace than a walk shall on conviction forfeit and pay any sum not exceeding twenty shillings nor less than five shillings.

Injuring or extinguishing lamps.

183. Any person who shall wantonly and maliciously break or injure any lamp or lamp-post, or extinguish any lamp set up for public convenience in the said Municipality, shall, over and above the necessary expense of repairing the injury committed, forfeit and pay for such offence any sum not less than one pound nor more than five pounds.

Placarding or chalking on walls, &c.

184. It shall not be lawful for any person to paste or otherwise affix any placard or other paper upon any wall, house, footpath, fence, or building within the limits of the said Municipality, nor to deface any such wall, house, or building by chalk, or paint or in any other manner; and any person who shall be guilty of any such offence shall, upon the complaint of the owner or occupier of any such wall, house, or building, forfeit and pay on conviction the sum of ten shillings.

Trees in streets.

185. The Council shall have power to plant trees, shrubs, and plants in the streets and public ways of this Municipality and any person wilfully injuring or destroying any of such trees, or any railing, fence, or thing protecting the same, shall on conviction forfeit and pay a penalty of not more than ten pounds nor less than one pound, in addition to the value of the trees, railing, fence, or thing so injured.

Fireworks.

186. Every person who, without leave of the Council previously had and obtained, shall light any bonfire, tar-barrel, or firework upon or within sixty yards of any public or private street or any public place; or who shall sell gunpowder, squibs, rockets, or other combustible matter, by gas, candle, or other artificial light, shall forfeit for every such offence a sum not less than ten shillings nor more than ten pounds.

Stacking or storing empty cases in the open air.

187. Every person who, being the occupier of, or having the control and use of any vacant land, yard, right-of-way, or passage of whatsoever description within the Borough shall place, or cause or permit to be placed, or suffer to remain after being placed in the open air on any vacant land, or in any yard, street, right-of-way, or passage, any cases, paper, shavings or crates whether containing merchandise or not, packed with straw or other inflammable substance, shall forfeit and pay a penalty of not less than one pound and not exceeding ten pounds; and each day's continuance of the same unabated or unremoved shall be deemed a separate offence, and every person so offending shall forfeit and pay a penalty of one pound for every day the nuisance shall remain and continue.

Miscellaneous.

Leave of absence.

188. No leave of absence shall be granted to the Mayor or to any Alderman otherwise than by a resolution of Council adopted after due notice.

Mode of calling for tenders.

189. Whenever it is decided that any work shall be executed or any material supplied by contract, tenders for the execution of such work, or the supply of such material, shall be called for by public notice as hereinafter provided.

SCHEDULE A.

NEW SOUTH WALES.

**MUNICIPALITIES.**

(MUNICIPAL DISTRICT OF CONDOBOLIN—BY-LAWS.)

**Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 158.**

Colonial Secretary's Office,  
Sydney, 14th January, 1891.

CONDOBOLIN MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Municipal District of Condobolin under the "Municipalities Act of 1867," having been confirmed by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

BY-LAWS OF THE MUNICIPALITY OF CONDOBOLIN.

PART I.

*Meetings of the Council.*

*Ordinary Meetings.*

1. The Council shall meet for the dispatch of business at the hour of eight o'clock p.m. the first Monday in each month, unless such day shall happen to be a public holiday. In the latter case, the meeting shall be held on such other day as the Mayor may appoint.

Election of Chairman in the absence of the Mayor—Adjournment for want of quorum.

2. If at any meeting of the Council the Mayor be absent at the expiration of fifteen minutes after the time appointed for holding such meeting, the Aldermen then present shall proceed to elect from among themselves a Chairman for such meeting. Whenever there shall be an adjournment of any such meeting for want of a quorum, the names of the members present shall be recorded in the Minute-book.

*Order of business.*

*Business of ordinary meetings.*

3. The following shall be the order of business at all meetings of the Council other than special meetings,—

- 1st. The minutes of the last preceding meeting to be read, corrected if erroneous, and verified by the signature of the Mayor or other Chairman. No discussion to be permitted on such minutes, except as to whether they are correct.
- 2nd. Petitions (if any) to be presented and dealt with.
- 3rd. Correspondence to be read, and, if necessary, dealt with.
- 4th. Reports from Committees and minutes from the Mayor to be dealt with.
- 5th. Questions as to any matters under the jurisdiction or within the official cognisance of the Council to be put and replied to; and statements as to any facts, matters, or circumstances requiring attention by the Council or any of its committees or officers, to be made.

6th. Motions of which notice has been given to be dealt with in the order in which they stand on the business paper.

7th. Orders of the day to be disposed of as they stand on the business paper: Provided it shall be competent for the Council at any time, by resolution, without notice, to entertain any particular motion, or to deal with any particular matter of business, out of its regular order on the business paper, without any formal suspension of this section; also, and in like manner, to direct that any particular motion or matter of business shall have precedence at a future meeting.

*Business at special meetings.*

4. At special meetings of the Council, the business, after the minutes have been read and confirmed, which shall be done in the same manner as at an ordinary meeting, shall be taken in such order as the Mayor or the Alderman at whose instance such special meeting shall have been called may have directed.

*Business paper for ordinary meeting—how prepared.*

5. The business paper for every meeting of the Council other than a special meeting shall be made up by the Council Clerk not less than two nor more than seven days before the day appointed for such meeting. He shall enter on such business paper a copy or the substance of every notice of motion, and of every requisition or order as to business proposed to be transacted at such meeting which he shall have received or shall have been directed or required so to enter; and as hereinafter provided, every such entry shall be made subject to the provisions of section 3 of this Part of these By-laws in the order in which such notice, requisition, or direction shall have been received.

*Business paper for special meeting.*

6. The business paper for a special meeting shall contain only such matters as shall have been specially ordered to be entered thereon by the Mayor or Alderman calling such meeting.

*Summons to members.*

7. The summons to members of the Council for every meeting thereof shall be prepared from the business paper for such meeting and shall embody the substance of such business paper.

in which such matter has been disposed of shall have been duly verified as required by section 4 of this Part of the By-laws; Provided, however, that the person giving or forwarding any such notice of motion, requisition, or direction to the Council Clerk shall be at liberty to withdraw the same at any time before the making up of such business paper.

*Motions and Amendments.*

*Motions—How to be moved.*

8. Except by leave of the Council motions shall be moved in the order in which they stand on the business paper, and if not so moved or postponed shall be struck from such business paper and be considered to have lapsed.

*Absence of proposed mover.*

9. No motion, of which notice shall have been entered on the business paper, shall be proceeded with in the absence of the Alderman by whom such notice shall have been given, unless by some other Alderman producing a written authority for that purpose from such first-named Alderman.

*Motions to be seconded.*

10. No motion in Council shall be discussed, unless and until it be seconded.

*Motions to be in writing and not withdrawn without leave.*

11. Every notice of motion shall be in writing, dated and signed by the Alderman proposing the same; and no motion shall be withdrawn without leave of the Council. No motion, the effect of which if carried would be to rescind any motion which has already been passed by the Council, shall be entered upon the business paper, unless a call of the whole Council has been duly made and granted for that purpose.

*Amendments may be moved.*

12. When a motion in Council shall have been made and seconded, any Alderman shall be at liberty to move an amendment thereon, but no such amendment shall be discussed unless and until it be seconded.

*How amendments to be put.*

13. No motion or amendment shall be discussed until it shall have been reduced into writing. If an amendment be carried, the question as amended thereby shall become itself the question before the Council, whereupon any further amendment upon such question may be moved. If any amendment, either upon an original question or upon any question amended as aforesaid, shall be negatived, then a further amendment may be moved to the question to which such first-mentioned amendment was moved, and so on: Provided that not more than one question and one proposed amendment thereof shall be before the Council at any one time.

*Aldermen presenting petitions to make themselves acquainted with contents.*

14. It shall be incumbent on every Alderman presenting a petition to acquaint himself with the contents thereof, and to ascertain that it does not contain language disrespectful to the Council. The nature and prayer of every such petition shall be stated to the Council by the Alderman presenting the same.

*Petitions and correspondence.*

15. The Council may at any meeting resolve, without previous notice, that any petition be received, and that the same or any correspondence read be referred to a Committee to report, or that the request contained therein be granted.

*Mayor to preserve order.*

16. The Mayor or Chairman shall preserve order, and may at any time call to order any Alderman who may appear to him to be out of order.

*Calls to order.*

17. Any Alderman may at any time call the attention of the Mayor to any Alderman being out of order, or to any point of order.

*Mayor's decision on points of order final.*

18. Every point of order shall be taken into consideration immediately upon its arising, and the decision of the Mayor or Chairman thereon shall be conclusive, except as hereinafter provided. Any Alderman who leaves any meeting without permission shall not be allowed to take part in any subsequent proceedings at such meeting.

*Mayor may take part in proceedings.*

19. The Mayor may take part in all proceedings of the Council or Committees thereof.

*Questions put by Mayor.*

20. The Mayor shall put all questions first in the affirmative and then in the negative (provided that where an amendment is moved to any motion the amendment shall be first put) and may do so as often as may be necessary to enable him to determine the sense of the Council thereon, and thereupon he shall declare his decision, which shall be final, unless a division be called for.

*Mayor to decide as to precedence of Aldermen.*

21. If two or more Aldermen rise to speak at the same time, the Mayor shall decide which of them shall be entitled to precedence.

*Aldermen to stand, while speaking, &c.*

22. Every Alderman shall stand while speaking, and shall address the chair.

*No Alderman to speak twice on the same question or amendment except in Committee.*

23. No Alderman shall speak twice on the same question unless in Committee, or in explanation where he shall have been misrepresented or misunderstood: Provided that any Alderman although having previously spoken, may speak once on every amendment, and that the mover of every question shall always have a right of final reply.

*No Alderman to make personal reflections.*

24. No Alderman shall digress from the matter under discussion, or make personal reflections on, or impute motives to, any other Alderman, or speak on any question more than twenty minutes.

*Aldermen using offensive expressions to apologise.*

25. When any member of the Council shall make use of any language or expression offensive, or capable of being applied offensively to any Alderman, the member so offending shall be required to withdraw such language or expression, and to make an apology satisfactory to the Council.

*Debate may be adjourned.*

26. A debate may be adjourned to a later hour of the same day or to another day.

*Aldermen adjourning debate entitled to precedence on resumption.*

27. The Alderman upon whose motion any debate shall be adjourned, shall be entitled to precedence on resumption of the debate.

*Adjournments.*

28. Any motion for adjournment, if seconded, shall immediately be put without discussion; but if such motion be negatived, it shall not be competent for any Alderman to make a similar motion until thirty minutes shall have elapsed.

*Division—Penalty for refusing to vote.*

29. Any Alderman shall be at liberty to call for a division; in such case the question shall be put first in the affirmative and then in the negative; and the Aldermen shall vote by show of hands, and the names and votes of the Aldermen present shall be recorded. Any Alderman who shall be present when a division is called for, and shall not vote on such division, not being disabled by law from so voting, shall be liable for every such offence to a penalty of not less than five shillings nor more than forty shillings.

*Divisions to be entered on minutes.*

30. All divisions of the Council shall be entered on the minutes of the proceedings.

*Questions to be read when required.*

31. Any Alderman may require the question or matter under discussion to be read once for his information, and upon such request the question or matter under discussion shall be read.

*Suspension of By-laws.*

32. Any of these By-laws relating to or affecting proceedings at meetings of the Council may be suspended pro tempore in cases of emergency, by resolution of the Council.

*Mode of proceeding in cases not provided for.*

33. In all cases not herein provided for, resort shall be had to the rules, forms, and usages of the Legislative Assembly of New South Wales, so far as the same are applicable to the proceedings of the Council.

*Standing and Special Committees.*

*Standing Committees.*

34. There shall be a Works Committee, a Finance Committee, a Lighting Committee, a Hall Committee, and Library Committee. These Committees shall be reappointed every year, after the first meeting of the Council which shall be holden after the election of the Mayor.

*Works Committee.*

35. The Works Committee shall have the general direction of all roads, ways, bridges, public reserves, and other places under the care and management of the Council. They shall also inquire and report from time to time upon such improvements, repairs, or other matters as they think necessary, or as they may be directed by resolution of the Council to inquire into and report upon.

*Finance Committee.*

36. The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of the Municipal revenue; they shall inquire and report from time to time as to all matters which they may consider to affect the finances of the Borough, and as to such matters or subjects of the like nature, as they may be directed by resolution of the Council to inquire into and report upon.

**Lighting Committee.**

37. The Lighting Committee shall once at least in each Municipal year make an inspection of the Borough, and shall recommend the erection of any additional public lamps they may consider necessary, or the removal of any existing lamps, and shall submit their report to the Council in writing.

**Hall Committee.**

38. The Hall Committee shall have charge of the Council Chambers Hall, and shall prepare a tariff of charges for the use of the hall, and shall also recommend in writing any repairs, alterations, or additions they may consider necessary.

**Library Committee.**

39. The Library Committee shall have general control of the Public Library, and shall once at least in each year submit to the Council a written report upon the same, as to its efficacy, usefulness, and the manner in which it is conducted; and may also recommend the purchase of additional books, or any other matter or thing they have reason to consider will be of benefit.

**Special Committee.**

40. Special Committees may consist of any number of members, and may be appointed for the performance of any duty which may be lawfully intrusted to a Committee, and for which, in the opinion of the Council, a special Committee ought to be appointed. And no Standing Committee shall interfere with the performance of any duty which may for the time have been intrusted to any such special Committee. The appointment of every such special Committee shall be made by resolution; and it shall be incumbent on the mover of such resolution to embody therein a statement of the duties proposed to be intrusted to such special Committee. The mover of any such resolution may name therein any such members as in his opinion ought to constitute such Committee; or he may propose that such Committee consist of a certain number of members, to be appointed by ballot; or an amendment to the effect that such special Committee be appointed by ballot may be carried.

**Rules to be observed in Committee.**

41. The rules of the Council shall be observed in a Committee of the whole Council, except the rule limiting the number of times of speaking.

**Reports of Committee to be signed.**

42. Every report of a Committee shall be signed by the Chairman thereof.

**Protection of Funds and Records.****Member or officer of Council not to be surety.**

43. In cases where surety is required by the Municipalities Act, it shall not be competent for the Council to accept as surety any of their members, or any person holding office under the Council.

**Duties of Council Clerk.**

44. The Council Clerk shall attend at the office of the Council, at the Council Chambers, for the purpose of receiving payment of rates, and transacting the ordinary business of the Council, every Monday and Friday afternoon, from 2 to 4, and every Tuesday and Thursday evening, from 7 to 9.

45. The Council Clerk, in addition to the duties which, by the "Municipalities Act of 1867," or by the present or any other By-laws thereunder, he may be required to perform, shall be the Clerk of all Revision Courts held in the Borough under the provisions of the said Municipalities Act; he shall also, under the direction of the Mayor, conduct all correspondence which may be necessary on the part of the Council; he shall generally assist the Mayor in carrying out the orders of the Council and the duties of such Mayor.

**Custody of records, seal, &c.**

46. The common seal and all charters, books, papers, and records of the Council, shall be kept in the Council Chambers or office of the Council, in the custody of the Council Clerk, unless the Council shall otherwise order for any purpose; and the common seal shall not be used, except with the signature of the Mayor.

**Bonds for good conduct, and deeds of real and personal estate.**

47. All bonds given by officers and servants of the Council for the faithful performance of their duties, and deeds of real and personal estate, shall be deposited with the bankers of the Corporation, as the Council may order; and no officer or servant of the Council shall be received as surety for any other such officer or servant.

**Records, &c., not to be defaced or altered.**

48. Any person who shall deface, alter, or destroy, or attempt to deface, alter, or destroy any such common seal, charter, deed, muniment, book, paper, or record, shall, on conviction thereof, forfeit and pay for the first offence a penalty not exceeding fifty pounds nor less than five pounds, and upon every subsequent conviction a penalty of not less than twenty pounds.

**Nor remove.**

49. Any person who shall remove or attempt to remove (except for the purpose of legal proceedings) any such seal, charter, deed, muniment, book, paper, or record from the Council Chambers, without leave from the Council first had and obtained, shall, on conviction thereof forfeit and pay a penalty of not more than twenty pounds nor less than two pounds, and for every subsequent offence a penalty not less than five pounds nor more than fifty pounds.

**Expenses of proposed works to be first ascertained—Accounts to be examined by Finance Committee.**

50. No work shall be undertaken until a probable expense thereof shall have been ascertained by the Council's Overseer, and all accounts to be paid by the Council shall be examined by the Finance Committee and reported on by them before any warrant shall be issued for the payment thereof.

**Outlay in urgent cases.**

51. In cases of emergency arising between meetings of the Council, it shall be lawful for the necessary work to be ordered without vote of the Council, viz., by the Mayor, to the extent of £20, provided that in the absence of the Mayor any four Aldermen shall have that power.

**Duties of officers and servants.**

52. The duties of all officers and servants of the Corporation shall be defined by such regulations as may from time to time be moved by the Council.

**Special powers of the Mayor.**

53. The Mayor shall exercise a general supervision over all the officers and servants of the Corporation, and may order the preparation of any such return or statement, or the giving of any such explanation or information by any such officer or servant as he may think necessary, unless such return or statement shall have already been prepared or such explanation or information already given, and such return, statement, or explanation, or information is on record, as hereinbefore provided; or unless the Council shall have expressly forbidden or dispensed with the preparation of such return or statement, or the giving of such explanation or information. All such returns or statements shall be in writing, and shall be recorded. All such explanation or information may, except as hereinafter provided, be either recorded viva voce or put into writing, as the Mayor may direct.

**How complaints against officers, &c., are to be dealt with.**

54. All complaints against officers or servants of the Corporation must be in writing, and must in every case be signed by the person or persons complaining; and no notice whatever shall be taken of any complaint which is not in writing or is anonymous. All such complaints must be addressed to the Mayor, who immediately upon the receipt of any such complaint, and without laying the same before the Council, shall have power to investigate the same. And if any such complaint be made to the Council, or any member or officer thereof, it shall be referred to and investigated by the Mayor before it shall in any way (otherwise than by such reference) be ordered upon or dealt with by such Council: Provided that every report, explanation, and information which may be made or rendered in reference to every such complaint shall be in writing. And such Mayor shall state in writing the result of every such investigation. And such complaint, with all reports, explanations, and information as aforesaid, in connection therewith, shall be laid before the Council at the next meeting thereof, which shall be held after the Mayor shall have made such statement and shall be duly recorded, and shall be dealt with at the next succeeding ordinary meeting of the Council. Provided further, that nothing herein contained shall be held to affect in any way the special powers conferred on the Mayor by section 152 of the "Municipalities Act of 1867," or any other special power which now is or hereafter may be conferred by statute upon such Mayor.

**Suits and prosecutions for penalties, &c.**

55. Such suits or information for the enforcement of penalties for or in respect of breaches of the "Municipalities Act of 1867," or of any By-law made thereunder, or of any statute, the operation of which may have been extended to the Borough, as may have been directed by the Council, or by the By-law Committee, or by the Mayor, to be commenced or laid, shall be so commenced or laid as follows, viz.:—When against a member of the Council or an Auditor, or any other officer of the Corporation—by the Council Clerk, unless such Council Clerk shall be the officer to be proceeded against, and in such case by any other officer named by the Council for that purpose. When against any other person—by the officer to whom the carrying out of the statutory provision or By-law imposing the penalty sought to be enforced has been entrusted; and if there shall be no such officer, then by any such officer or person as shall be appointed for that purpose by the Council or the By-law Committee, or the Mayor, as the case may be, on directing such suit or information. And no such suit shall be brought or information laid as aforesaid against any member of the Council or Auditor, except by the order of such Council; nor shall any similar proceeding be taken against any officer of the Council, except on the order of such Council or of the Mayor; nor

her may explain, retract, or apologise for the matter or remark alleged to have been out of order. And if such explanation, retraction, or apology be deemed satisfactory, no further discussion on the question of order shall be permitted. If any member on being called to order shall ask such permission to explain, retract, or apologise, as aforesaid, the Mayor or Chairman may, of his own authority, grant or refuse such permission as he may think fit, unless any member shall require the sense of the Council to be taken on this question. In such case it shall be the duty of the Mayor or Chairman to take the sense of the Council at once and without discussion, as to whether such permission shall be granted. And when any such explanation, retraction, or apology shall have been made or offered by permission of the Mayor or Chairman, the latter shall in like manner decide, or, if required so to do, shall take the sense of the Council as to whether such explanation, retraction, or apology is considered sufficient. If such permission be refused, or if such explanation, retraction, or apology be considered insufficient, the question of order shall be considered and decided before any further business is proceeded with: Provided that if such Mayor or Chairman shall have decided the question of order before any member shall have required the sense of the Council to be taken in reference thereto, such question of order shall not be reopened; and provided further that nothing herein contained shall be held to affect the right of such Mayor or Chairman to decide finally, as hereinbefore provided, upon any such point of order, after the same shall have been discussed.

*Decision of points of order.*

53. The Mayor or Chairman when called upon to decide points of order or practice, shall state the provision, rule, or practice which he shall deem applicable to the case, without discussing or commenting upon the same.

*Motions out of order to be rejected—Members to explain, retract, or apologise, &c.*

54. Whenever it shall have been decided as aforesaid that any motion, amendment, or other matter before the Council is out of order, the same shall be rejected; and whenever anything said or done in Council by any Alderman shall be similarly decided to be out of order, such Alderman shall be called upon by the Mayor or Chairman to make such explanation, retraction, or apology, as the case may require.

*Penalties for persisting in disorderly conduct.*

55. Any members of the Council who shall have been called to order and who, after having been twice requested to withdraw as aforesaid, shall refuse to do so, or who shall persist in any line of conduct or argument, or of observations, which shall have been decided as aforesaid to be disorderly, or who shall refuse to make such explanation, retraction, or apology as aforesaid, when required so to do, or who shall be guilty of any other act or disorder, as defined in section 49 of this Part of these By-laws, and shall refuse to make such explanation, retraction, or apology as the majority of the Aldermen then present shall consider satisfactory, shall be liable on conviction for the first offence to a penalty of not less than ten shillings nor more than five pounds, and on a second conviction for the like offence he shall be liable to a penalty of not less than one pound or more than ten pounds; and on the third conviction, and for every further conviction, for the like offence he shall be liable to a penalty of not less than two pounds nor more than twenty pounds.

*Power of Council as to altering rules on points of order.*

56. Any Alderman who is dissatisfied with the decision of the Mayor or Chairman on any such question of order or of practice, may by motion or notice respectfully worded, invite the Council to lay down a different rule or principle for the determination of any similar questions of order or of practice which may thereafter arise. Any rule or principle thus laid down shall be binding upon all parties unless and until it be rescinded, but shall have no retrospective operation.

*Mode of voting.*

*How questions are to be put.*

57. The Mayor or Chairman shall put to the Council all questions on which it shall be necessary that a vote be taken, and shall declare the sense of such Council thereon; and he shall be at liberty to put any such question as often as may be necessary to enable him to form and declare his opinion as to the opinion of the majority.

*Divisions—Penalty for refusing to vote.*

58. Any Alderman shall be at liberty to call for a division, in such case the question shall be put first in the affirmative and then in the negative; and the Aldermen shall vote by show of hands, and the names and votes of the Aldermen present shall be recorded. Any Alderman who shall be present when a division is called for and shall not vote on such division, not being disabled by law from so voting, shall be liable for every such offence to a penalty of not less than ten shillings nor more than five pounds.

*Protests.*

*Mode of protesting—Protest to be recorded, but may under certain circumstances be expunged.*

59. Every member of the Council (the Mayor included) may protest against any resolution or vote by the Council; notice of the intention so to protest must however be given at the meeting when such resolution is passed, or such vote is arrived at, and the protest itself must be handed or sent to the Council Clerk not later than seven days after such notice. The Council Clerk shall enter every such protest in the Minute-book, but if, in the opinion of the Council, it be inconsistent with the truth, or disrespectfully worded, it may (by resolution or notice) be ordered to be expunged. In such case the expunction shall be made by drawing a perpendicular line with the pen through the entry of such protest, with reference in the margin to the resolution ordering such expunction.

*Committees of the whole Council.*

*Business in Committee.*

60. The business Committees of the whole Council shall be conducted in accordance with the rules hereinbefore provided for meetings of the Council as nearly as the same shall apply, except that it shall not be necessary that any motion or amendment in Committee shall be seconded.

*Disorderly conduct in Committee—Refusal to vote.*

61. Whenever any member of the Council shall, while the Council is in Committee of the whole, be considered guilty of any offence against good order within the meaning of section 49 of this Part of these By-laws, it shall be competent to any Alderman to move that the Council resume its sitting, and that such matter be reported; and if such motion be carried such matter shall be reported accordingly, and an entry of such report shall be made in the Minute-book; and whenever any Alderman shall have failed to vote on any occasion in Committee of the whole Council as required by section 58 of this Part of these By-laws, the fact shall be reported to the Council, and such report on such facts shall be duly recorded in the Minute-book: Provided that in the case of an Alderman failing to vote as aforesaid, no special motion that the Council resume its sitting shall be necessary, but it shall be the duty of the Chairman of such Committee of the whole, in making his report of the proceedings in such Committee, whenever such report be made, to include in such report a statement of such failure to vote as aforesaid, and of the question as to which such Alderman has so failed to vote.

*Decisions in Committee on points of order may be reported.*

62. Whenever a decision upon any question of order shall have been given by the Chairman of a Committee of the whole Council, under the provisions of section 48 of this Part of these By-laws, any Alderman may move that such decision be embodied in the report to the Council of the proceedings in such Committee; and if such motion be carried, such decision shall be so embodied in such report, whenever the same shall be made.

*How progress may be reported, &c.*

63. Any Alderman may at any time during the sitting of a Committee of the whole Council move that the Chairman report progress (or no progress as the case may be), and leave be asked to sit again at a later period of the same day, or on some other day, or that no leave be asked to sit again; and if any such motion be carried the Council shall resume its sitting, and a report shall be made accordingly; but no discussion shall be permitted on any such motion, and if the same be negatived, the subject then under consideration shall be discussed before another such motion shall be receivable.

*Reports of proceedings in Committee—Want of quorum in Committee.*

64. All reports of proceedings in Committee of the whole Council shall be made to the Council viva voce by the Chairman of such Committees, and a report of such proceedings shall be made in every case, except when it shall be found, on counting the number of members during the sitting of any such Committee, that there is not a quorum present. In the latter case the sitting of the Council shall be resumed without any motion for that purpose, and the proceedings in Committee shall be considered to have lapsed: Provided, that in making any such report as aforesaid, it shall not be necessary to report any such proceedings in extenso, but only to state the result, general effect, or substance of such proceedings.

*How reports are to be dealt with.*

65. All such reports of proceedings in Committee of the whole Council shall be recorded in the Minute-book; but except as hereinafter mentioned, no such report shall be considered as adopted by the Council, nor shall any such application as aforesaid for leave to sit again be considered to have been granted by such Council, until the motion shall have been made and passed for such adoption, or for the granting of such leave. And every such motion for the adoption of a report or for the granting of leave as aforesaid, and the order of debate on such motion, shall be subject to all the same rules as other

motions in Council, and the order of debate on such other motions: Provided, however, that where a report shall have been made under section 61 of this Part of these By-laws, of disorderly conduct in Committee, or under section 58 of this Part of these By-laws, of failure to vote at division, or of any decision in Committee upon any question of order, such report shall, so far as it relates to such facts, be regarded and recorded as a statement thereof; and to that extent shall not, unless for the correction of a manifest error, be interfered with on any pretext whatever.

#### *Calls of the Council.*

How call may be ordered.

66. A call of the Council may be order by any resolution of which due notice shall have been given for the consideration of any motion or matter of business before such Council.

Such call compulsory in certain cases.

67. There shall, without any order to that effect be a call of the Council for the consideration of every motion which may be made under section 56 of this Part of these By-laws, and of every motion for the rescission of any resolution, order, or decision of such Council.

Mode of proceeding.

68. The call shall be made immediately before the motion or business for which such call has been ordered, or is required to be made by the last preceding section, shall be moved or considered, such call shall be made as follows:—The Council Clerk shall call the names of all the members in their alphabetical order; each member present shall answer to his name as so called; and if any members are absent a record shall be made of such absence; but if leave of absence to any such member shall have previously been granted, or if such an excuse in writing shall have been forwarded to the Mayor or Council Clerk, as a majority of the Council then present shall consider satisfactory, such absent member shall stand excused, and a record shall be made of such excuse and of the reasons for the same.

#### *Penalty for absence without legal excuse.*

Further call when question adjourned.

69. Any member of the Council who, having had notice of such call of the Council, shall not answer to his name as aforesaid, or who, being absent, shall not be legally excused as aforesaid, or who, if absent, and not so excused, shall fail to show that by reason of extreme illness or any other sufficient cause he has been unable to send an excuse in writing as aforesaid, or who, having answered to his name as aforesaid, shall not be present when a vote is taken on the motion or business as to which such call has been made as aforesaid, shall for every such offence be liable to a penalty of not less than ten shillings nor more than five pounds: Provided that if the consideration of every such motion or matter of business be adjourned to a future day, there shall be a further call on the resumption of such consideration; and the provisions herein as to penalties for absence shall have reference to such further call. And if there shall be more than one adjournment this proviso shall be taken to extend to the resumption of the consideration of such motion or matter of business after every such adjournment.

#### *Standing and Special Committees.*

\* Standing Committees.

70. Besides any such special Committees as may from time to time be found necessary, there shall be three standing Committees, namely,—A By-law Committee, a Committee for Works, a Finance Committee, each consisting of not less than three members. These Committees shall be reappointed every year at the first meeting of the Council which shall be holden after the election of the Mayor.

Mode of reappointing standing Committees.

71. The reappointment of the three said first-named Committees may, on resolution of the Council, be made by ballot. In such case a list or lists of the members shall be handed to each member then present, who shall mark against the name of each such member the title of the committee to which, in his opinion, such member ought to belong, and the Mayor or Chairman shall thereupon examine such lists so marked, and shall declare the result. And if there shall be an equal number of votes for the appointment of any two or more members to any one of such first-named Committees, such Mayor or Chairman shall decide which of such members shall be appointed to such Committee.

By-law Committee.

72. The By-law Committee shall prepare for the consideration of the Council drafts of such By-laws as may be required for the good government of the district. They shall also watch over the administration of the By-laws, and of any statute of which the operation has been or may be extended to the district; and shall take such steps as may be necessary for the prevention or punishment of offences against such By-laws or statutes, and for the preservation of public health, order, and decency.

\* Standing Committees may be appointed as required for improvement, lighting, water, hall, library, or general purposes.

Committee for Works.

73. The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, bridges, public reserves, and other public places under the care and management of the Council. They shall also inquire and report from time to time as to such improvements or repairs as they may consider necessary, or as they may be directed by resolution of the Council to inquire and report upon.

Finance Committee.

74. The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of the municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect, or to be likely to affect the finances of the district, and as to such matters or subjects of the like nature as they may be directed by resolution of the Council to inquire and report upon.

Special Committees.

75. Special Committees may consist of any number of members, and may be appointed for the performance of any duty which may be lawfully intrusted to a Committee, and for which, in the opinion of the Council, a special Committee ought to be appointed; and no standing Committee shall interfere with the performance of any duty which may for the time being have been intrusted to any such special Committee. The appointment of every such special Committee shall be made by resolution, after due notice, and it shall be incumbent on the mover of such resolution to embody therein a statement of the duties proposed to be intrusted to such special Committee. The mover of any such resolution may name therein such members as, in his opinion, ought to constitute such Committee, or he may propose that such committee consist of a certain number of members, to be appointed by ballot; and in the latter case, or if an amendment to the effect that such special Committee be appointed by ballot be carried, each member then present shall receive a list of all the members of the Council, from which list he shall strike out all names but those of the persons of whom, in his opinion, such special Committee ought to be composed, and the Mayor or Chairman shall examine such list and shall declare the result. And in the event of its becoming necessary, through an equality of votes, to decide as to which of two or more Aldermen shall serve on such Committee, such Mayor or Chairman shall so decide.

Chairman of Committee.

76. Every Committee of which the Mayor shall not be a member shall elect a permanent Chairman of such Committee within seven days after their appointment.

Committee meeting—how called.

77. The Council Clerk shall call a meeting of any Committee when requested so to do by the Chairman or any two members of such Committee.

Records of transactions in Committee.

78. The Chairman of each standing Committee shall make, or cause to be made, in a book to be kept by him for that purpose, memoranda of all the transactions of such Committee, which book he shall, on ceasing to be such Chairman, hand over to his successor.

Expenditure.

Except in emergent matters cost of all work to be estimated before undertaken.

79. With the exception of emergent matters hereinafter specially provided for, no work affecting the funds of the district shall be undertaken until the probable expense thereof shall have been first ascertained by the Council.

Emergent matters and necessary current expenses—Expenses authorised to be reported—Outlay to be in accordance with order of the Council.

80. For emergent matters and for necessary current expenses during the intervals which may elapse between the meetings of the Council outlays to the following extent may be incurred:—

1. By order of the Committee of Works or of the Mayor and one member of such Committee for repairs or emergent works, to the extent of five pounds.
2. By order of the Mayor for necessary current expenses, to the extent of two pounds.
3. By order of the Mayor and any two Aldermen, or, without the Mayor, of any four Aldermen, for any emergent purpose, to the extent of five pounds.

Provided that in every case a detailed report in writing of every such outlay shall be laid before the Council at its next meeting, such report to be signed by the Chairman of the Committee of Works or the Mayor, or the Mayor and Aldermen, or the Aldermen without the Mayor, as the case may be, by whom such outlay shall have been authorised; also, that such outlay shall only be permissible in reference to matters coming strictly within the jurisdiction or functions of the Council, and that no outlay involving a disobedience of any order or resolution of such Council shall on any pretence be thus authorised.

permit or suffer slops, suds, night-soil, sewerage matter, or filth of any kind to flow or be cast from his or her premises into any such water-course, water-hole, creek, or canal, or who shall permit or suffer any such slops, suds, night-soil, sewerage matter or filth to flow from his or her premises over any of the footways or streets of the Borough, or shall permit or cause by means of pipes, shoots, channels, or other contrivances, night-soil, sewerage matter, slops, suds, or filth of any kind whatsoever to flow or be cast into any water-course, water-hole, creek, or canal, or shall obstruct or divert from its channel any sewer or water-course, creek, or canal, shall forfeit any sum not exceeding five pounds nor less than one pound, and shall in addition to any such forfeiture, pay the cost of removing such filth or obstruction, or of restoring such water-course or canal into its proper channel.

**Throwing filth on roadways, &c.**

55. If any person shall, in any street, road, lane, or public place, throw, cast, or lay, or shall cause, permit, or suffer to be cast, thrown, or laid, any ashes, rubbish, offal, dung, soil, dead animal, blood, or other filth, or shall kill, slaughter, dress, scald, or cut up any beast, swine, calf, sheep, lamb, or other animal, in or so near to any of the said streets or roads as that any blood or filth shall run or flow upon or over, or be on any carriage or foot way, or shall run, roll, drive, draw, place, or cause, permit, or suffer to be run, rolled, or driven, drawn, or placed upon any footway, any waggon, cart, dray, sledge, or other carriage, or any wheelbarrow, or truck, or any cask, or shall wilfully lead, drive, or ride any horse, or other beast upon any footway aforesaid, shall forfeit and pay a sum not exceeding five pounds.

**Placing goods, &c., on roadways, &c.**

56. If any person shall set or place, or cause or permit to be set or placed, any stall, showboard, basket, or goods of any kind whatsoever, or shall hoop, place, wash, or cleanse, or caused to be hooped, placed, washed or cleansed, any cask or vessel in or upon or over any road, footway, or any public place within the said Borough, or shall set out, lay, or place, or shall cause or procure, permit or suffer, to be set out, laid or placed, any coach, cart, dray, harrow, truck, or other carriage, upon any footway, or if any person shall set or place, or cause to be set or placed, in, upon, or over any of the said carriage or foot ways, any timber, stone, bricks, lime or other materials or things for building whatsoever (unless the same shall be enclosed as hereinafter directed), or any other materials or things whatsoever, or shall hang out or expose, or shall cause or permit to be hung out or exposed, any meat or offal, or other thing or matter whatsoever, from any house or premises over any part of such footways or carriage-ways, or over any area of any house or premises, or any other matter or thing from and on the outside or any part of any house or premises over or next to any such street or road, and shall not immediately remove all or any such matter or things being thereto required by the Council or any officer thereof, and shall not continue and keep the same so removed, or if any person having in pursuance of any requisition as aforesaid, removed, or caused to be removed, any such stall, showboard, basket, goods, coach, cart, dray, harrow, truck, carriage, timber, stone, brick, lime, meat, offal, or other matter or things, and shall at any time thereafter again set, lay, or place, expose, or cause, procure, permit, or suffer to be set, laid, placed or exposed the same or any of them, or any other article or thing whatsoever (save and except as aforesaid) in, upon, or over any of the carriage or foot ways of or next unto any streets or roads as aforesaid, in every such case every person so offending shall forfeit a sum not exceeding two pounds nor less than ten shillings.

**Drawing or trailing timber, &c.**

57. If any person shall haul or draw, or cause to be hauled or drawn upon any part of any street, road, or public place, any timber, stone, or other thing, otherwise than upon wheeled carriages, or shall suffer any timber, stone, or other thing which shall be carried principally or in part upon wheeled carriages, to drag or trail upon any part of such carriage-way, so as to occupy or obstruct the street or road beyond the breadth of the said carriage, every such person so offending shall forfeit and pay for every such offence the sum of two pounds over and above the damage occasioned thereby: Provided that such penalty and damages shall not together exceed the sum of five pounds nor be less than one pound.

No turf, gravel, &c., to be removed from streets without leave, &c.

58. Any person who from any part of the roads, streets, thoroughfares, or public places, shall remove or cause to be removed any turf, clay, sand, soil, gravel, stone, or other material, without leave first had and obtained from the officers or persons having lawful charge of such roads, streets, thoroughfares, or public places, or who shall wantonly break up or otherwise damage a part of the said roads, streets, thoroughfares, or public places, shall on conviction forfeit and pay for every such offence any sum not exceeding five pounds nor less than five shillings, and for every subsequent offence shall forfeit and pay a sum of not less than one pound.

No driver to ride on vehicle without a person to guide his beast (vehicle with reins excepted), or to go to a distance from his vehicle, or drive on the wrong side, &c.

59. If the driver of any waggon, cart, dray, or vehicle of any kind, shall ride upon the same in any street, road or thoroughfare, not having some person on foot to guide the animals drawing the same (such vehicles as are drawn by horses, driven or guided with reins only excepted), or if the driver of any carriage or vehicle whatsoever shall be at such a distance from such carriage or vehicle, or in such a situation whilst it shall be passing upon such street, road, or thoroughfare, that he cannot have the direction or government of the horse or horses, or cattle drawing the same, or if the driver of any waggon, cart, dray, coach, carriage, or other vehicle, shall not drive on the left or near side of any such road, street, or thoroughfare; or if any person shall in any manner wilfully prevent any other person or persons from passing him or her, on any vehicle under his or her care, upon such road, street, or thoroughfare; or by negligence or misbehaviour prevent, hinder, or interrupt the free passage of any person, or vehicle, or carriage, in or upon the same, every such driver or person so offending shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than ten shillings.

**Name and place of abode, &c.**

60. The owner of every such waggon, cart, dray, or vehicle of any kind as last above mentioned, who shall allow the same to be driven through the said Borough without having his name and place of abode painted in full length on the off side legibly, the driver or person in charge of any such waggon, cart, or dray as aforesaid, who shall refuse to give his and the owner's name and address, shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than ten shillings.

**Lights on vehicles.**

61. Every person whilst driving, leading, or riding upon any cart, carriage, wain, waggon, luggy, or other vehicle whatsoever, drawn by any horse, ass, mule, or other animal, through any part of the Borough, between the hours of sunset and sunrise, shall carry a lighted lamp affixed in a conspicuous place on the off side of such cart, wain, carriage, buggy, waggon, or other vehicle, under a penalty not exceeding two pounds.

**As to riding or driving improperly through streets, &c.**

62. Any person who shall ride or drive through any road, street, or public place negligently, carelessly, or furiously, or so as to endanger the life or limb of any person, or to the common danger of the passengers, shall forfeit and pay a sum not exceeding ten pounds nor less than one pound.

**Riding or driving round corners, &c.**

63. Any person who shall ride or drive round the corner of any street, road, or public place within the said Borough at a pace faster than a walk, shall on conviction forfeit and pay a sum not exceeding two pounds nor less than ten shillings for every such offence.

**Loading or unloading vehicles, &c.**

64. All vehicles standing in the streets to load or unload goods shall stand parallel with the kerb, and every driver so offending shall forfeit and pay for every such offence a sum not exceeding one pound nor less than five shillings.

**Erection of houses, &c.—Fee for permission.**

65. No person shall be permitted to erect any house, shop, or other building in any street, lane, or place within the Borough, without having first served notice in writing to the Mayor or Council Clerk before commencing the same, stating his intention and describing the proposed situation of the building or erection, and shall at the time the said notice is given as aforesaid, pay to the Council Clerk a fee of five shillings for permission to erect any such fence, house, shop, or building in any street, lane, or other place within the said Borough, and every owner thereof, and every contractor for such house, shop, or building, or any part thereof, commencing to build or work thereon without such notice having been given, shall forfeit and pay for every such offence any sum not exceeding two pounds nor less than ten shillings.

**Affixing placards on walls, and chalking thereon.**

66. It shall not be lawful for any person to paste or otherwise affix any placard or other paper upon any wall, fence, house, or building, nor to deface any such wall, fence, house, or building, by chalk or paint, or in any manner, unless with the consent of the owner thereof; and any person who shall be guilty of any such offence shall forfeit and pay a sum not exceeding ten shillings.

**Swine, &c., not to wander about streets.**

67. Any person who shall feed, breed, or keep any kind of swine in any house, yard, or enclosure, situated and being in or within forty yards of any street or public place, or any dwelling-house in the Borough, or who shall suffer any kind of swine, or any horse, ass, cattle, mule, sheep, goat, or any other animal of like nature belonging to him or her, or under his or her charge, to stray or to go about, or to be tethered or depastured in any street, road, or public place within the Borough, shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than ten shillings.

Restrictions on certain trades, &c.

93. It shall not be lawful for the business of a soap boiler, tallow melter, tripe boiler, tanner, currier, pig keeper, or any other occupation, trade, or manufacture of an obnoxious or unwholesome nature, prejudicial to the health of, or otherwise offensive, to any of the inhabitants thereof, to be commenced or established within the limits of this Borough without consent of the Council first had and obtained; and whosoever shall offend against this By-law shall forfeit and pay on conviction a penalty not exceeding fifty pounds nor less than ten pounds, and a further sum of two pounds for each and every day during which he continues to offend.

Hours for removing night-soil, &c.

99. Any person who shall remove any night-soil ammoniacal liquor, bones, or other offensive matter, or shall come with carts or carriages for that purpose, between the hours of eleven o'clock at night and five o'clock in the morning, or shall at any time remove any such night-soil or ammoniacal liquor, otherwise than in properly covered and water-tight carts or vehicles, or in such a manner so as to upset, cast, spill, or strew any of the said night-soil, ammoniacal liquor, slops, urine, or filth, in or upon or near to any of the streets, roads, public places, or footways of the Borough; or shall deposit or throw night-soil, ammoniacal liquor, bones, or other offensive matter nearer to any street, road, or dwelling-house, than shall from time to time be directed by the Council, or by the Inspector of Nuisances, or shall allow vehicles used for this purpose to stand on any premises nearer to any road, street, dwelling-house, other than shall from time to time be directed by the Council or Inspector, shall upon conviction forfeit and pay for every such offence a sum not exceeding five pounds nor less than one pound; and in case the person or persons so offending cannot be found, then the owner or owners of such carts, carriages, or other vehicles employed in or about employing or removing such night-soil, bones, or other offensive matter, and also the employer or employers of person or persons so offending shall be liable to and forfeit and pay such penalty as aforesaid.

100. If any person shall take away night-soil from any house or premises within the said Borough, or shall come with carts or carriages for that purpose, except between the hours of eleven at night and five in the morning, or if any person or persons shall cast, or permit to leak or slop out of any cart or tub, or otherwise, any night-soil in or near any of the streets or public places, he shall forfeit and pay a penalty of five pounds for every such offence, and in case the person or persons so offending cannot be found, then the owner or owners of such cart, carriage, or other vehicle employed in and about emptying and removing such night-soil, and also the employer or employers of the person or persons so offending, shall be liable to and forfeit and pay such penalty as aforesaid.

Inspection of premises, yards, &c.—To be kept clean.

101. Upon the reasonable complaint of any householder that the house, premises, yards, closets, or drains of the neighbouring or adjoining premises are a nuisance or offensive, the Inspector of Nuisances, or other person appointed by the Council, shall make an inspection of the premises complained of; and the officers of the Council shall have full power, without any other authority than this By-law, to go upon such premises for the aforesaid purpose. Any owner or occupier of any house, place, or land within the said Borough who shall neglect to keep clean all private avenues, passages, yards, paddocks, and ways, within, attached to, or occupied in conjunction with the said house or place, so as by such neglect to cause a nuisance by offensive smell or otherwise shall forfeit a sum not exceeding two pounds and not less than ten shillings.

Definition of "noisome and offensive trades."

102. Any manufacture, trade, calling, or operation in the conducting, following, or carrying on of which, or in consequence of or in connection therewith, or from the premises where the same is conducted, followed, or carried on, any gas, vapour, or effluvia, or any large quantities of smoke shall be evolved or discharged, which gas, vapour, effluvia, or smoke shall be calculated to injure or be a nuisance to the inhabitants of the said Borough, shall be considered a "noisome and offensive trade" within the meaning of these By-laws.

Complaint.—Inquire and report.—Order of Council thereon.—Notice to discontinue, &c.—Penalty.

103. Upon complaint in writing by any householder that any noisome or offensive trade is being so followed or conducted, or carried on in the vicinity of his or her residence or property as to injure his or her health, or the health of any member of his or her family, or to be a nuisance to such householder, and to his or her family, the Inspector of Nuisances, or any other person or persons appointed by the Council, shall make an inspection of the premises where such trade is alleged to be so conducted, followed, or carried on as aforesaid, and of the premises or property of the complainant, and shall inquire into the grounds for such complaint, and shall report thereon to the said Council. And if the said Council shall, on the consideration of such report, or after any further inquiry as may be deemed necessary, be of opinion that the said complaint is well founded, and that any manufacture, trade, calling, or operation so complained of, and so being conducted,

followed, or carried on as aforesaid, is a "noisome and offensive trade" within the meaning of these By-laws, notice shall be given to the person or persons conducting, following, or carrying on such trade to cease and discontinue the same within such reasonable time, not less than fourteen days nor more than twenty-eight days, as the Council may direct, or so to conduct, follow, or carry on his, her, or their manufacture, trade, calling, or operation, as that within such reasonable time as aforesaid, the same shall wholly and permanently cease to be noisome and offensive within the meaning of these By-laws, either to the said complainant or to any other resident within the said Borough. And if such trade shall not be discontinued as aforesaid, or shall not be so conducted as that it shall wholly cease to be noisome and offensive as aforesaid, within the time named in such notice as aforesaid, any person conducting, following, or carrying on such trade as aforesaid shall for the first offence forfeit and pay a sum not less than forty shillings nor more than five pounds, for a second offence a sum of not less than five pounds nor more than twenty-five pounds, and for a third and every subsequent offence a sum of not less than ten pounds nor more than fifty pounds.

Discharging firearms, &c.

104. Any person who shall discharge any firearms without lawful cause, or let off any fireworks or other explosive matter, in or near to any road or street, shall forfeit and pay a sum not exceeding five pounds nor less than one pound.

No rock to be blasted without giving notice to the Surveyor, &c.

105. Any person who shall be desirous of blasting any rock within a distance of fifty yards of any dwelling-house, street, road, or other public place, shall give notice in writing twenty-four hours previously to the said Council or Surveyor thereof, who shall appoint in writing a time when the same may take place, and give such other directions as they or he may deem necessary for the public safety; and if any person shall blast, or cause to be blasted, any rock within the limits aforesaid without giving such notice, or shall not conform to the directions given to him by the said Council or Surveyor, he shall forfeit and pay for every such offence a sum not exceeding twenty pounds nor less than one pound.

Entrance to cellars, &c.—To be covered, &c.

106. If the owner or occupier of any premises having any rails or bars over the areas or openings to any kitchen or cellars, or other part of the said premises beneath the surface of the footway of any streets or public places, or having any doorway or entrance into the basement or cellar story thereof, shall not either keep the same or the rails of such kitchen, cellars, or other parts in sufficient and good repair, or constantly keep the same securely guarded by rails, or cover the same over with a strong flap or trap door, according to the nature of the case, and so as to prevent danger to persons passing and repassing; or if such owner or occupier shall leave open or not sufficiently or substantially keep covered and secured any coal or other hole, funnel, trap-door, or cellar-flap belonging to or connected with his premises (save and except only during reasonable time for use, alteration, or repair), or if such owner or occupier shall not repair, and from time to time keep in good and substantial repair, all and every or any such rails, guard-rails, flaps, trap-doors, and other coverings, then, and in every such case, the person neglecting so to do shall for every such offence forfeit and pay a sum not exceeding five pounds nor less than two pounds.

Cellars or openings beneath footways prohibited.

107. It shall not be lawful for any person to make any cellar or any opening, door, or window in or beneath the surface of the footway of any road, street, or public place within the said Borough except by permission of the Council; and if any person shall so offend he shall forfeit and pay any sum not exceeding five pounds over and above the expense of remedying or removing any such cellar, opening, door, or window, such expense to be assessed and allowed by the convicting Justices; Provided that such expense and penalty shall not together exceed fifty pounds.

Wells to be covered over, &c.

108. Every person who shall have a well situated between his dwelling-house or the appurtenances thereof and any public place, road, street, or footway within the limits of the said Borough or at the side of such public place, road, street, or footway, or in any yard or place open and exposed to such public place, road, or footway shall cause such well to be securely and permanently covered over; and if any person having such well as aforesaid shall fail to cover and secure the same within twenty-four hours after notice in writing shall have been given him or her by any officer of the said Council, or shall have been left at such person's usual or last known abode or at the said premises, in the manner and with such materials as the Council or its officer shall direct, and to their satisfaction, such person shall forfeit and pay a sum not exceeding ten shillings nor less than five shillings for every day that such well shall remain open or uncovered contrary to the provisions hereof: Provided that with respect to wells open at the time when this By-law shall come into operation such penalty shall not be recoverable if the same be properly covered within one week thereafter.

## PART III.

## Preventing or extinguishing fires.

1. If any chimney accidentally catch or be on fire, the person occupying or using the premises in which such chimney is situated shall forfeit a sum not exceeding forty shillings: Provided always that such forfeiture shall not be incurred if such person prove to the satisfaction of the Justices before whom the case is heard, that such fire was in no wise owing to the omission, neglect, or carelessness, whether with respect to cleansing such chimney or otherwise, of himself or his servant.

## Setting fire to matter without notice.

2. Every person who shall wilfully set fire to any inflammable matter whatsoever in the open air within five yards of any dwelling-house or other building or boundary or dividing fence within the said Municipality, without having given notice in writing to the occupiers of the land adjoining to the land upon which such matter shall be, of his intention so to do, or between the hours of six in the afternoon of any day and six in the morning of the following day, shall for every such offence forfeit a sum not exceeding five pounds.

## Fireworks.

3. Every person who, without leave of the Council previously had and obtained, shall light any bon-fire, tar-barrel, or fireworks upon or within sixty yards of any public or private street, or any public place, or who shall sell gunpowder, squibs, rockets, or other combustible matter by gas, candle, or other artificial light, shall forfeit for every such offence a sum not less than ten shillings nor more than ten pounds.

## PART IV.

## Notices, streets, and public places—Public health and decency, &amp;c.—Mode of calling for tenders.

1. Whenever it is decided that any work shall be executed or any materials supplied by contract, tenders for the execution of such work or the supply of such material shall be called for by public notice as hereinafter provided.

## Drafts of intended By-laws.

2. A draft of every intended By-law shall lie in the office of the Council for at least seven days before such draft shall be taken into consideration by such Council, and shall be open to the inspection of any ratepayer who may desire to inspect the same; and public notice shall be given as hereinafter provided that such draft is so lying for inspection.

## How notices are to be published.

3. In all cases where public notice is or shall be required to be given by any By-law of any appointment, resolution, act, order, or regulation of the Council, or any Committee thereof, or by the Mayor or any officer of the said Council, such notice shall be given and published by posting the same on or near the outer door of the Council Chambers for the space of seven days, and by advertising the same twice in some newspaper circulating in the Municipality.

## Persons obstructing officers of the Council.

4. Any person or persons who shall obstruct any officer of the said Council while in the performance of his duty, or who shall interfere with any officer of the said Council, doing or performing, or going to perform, or returning from the performance of any duty or act under these By-laws by using any threats, offensive language, hindrance, or insulting language towards the said officer in any street, road, or other place within the said Municipality, shall forfeit and pay for every such offence a penalty not exceeding twenty pounds nor less than two pounds.

## Kerbing to be fixed.

5. In all cases where owners of property apply for kerbing to be fixed on edge of footpath such kerbing shall not be done by the Council until all rates due by such owners of property, together with one-half the estimated cost of such kerbing is paid.

## Injury to kerb-stones, guttering, &amp;c., &amp;c.

6. No driver, carter, or other person shall wilfully or negligently do or suffer or cause to be done any damage or injury to the kerb-stones, gutters, or pathways of any street or roadway, and no person shall be at liberty to ride on horseback or drive a wheeled vehicle of any kind on the footways.

## Careless riding or driving.

7. No person shall ride or drive through or upon the streets or any public place so negligently, carelessly, or furiously that the safety of any other person shall or may be endangered, any person infringing this By-law shall on conviction forfeit and pay a sum not exceeding ten pounds nor less than two pounds.

## Erection of house.

8. No person shall be permitted to erect any house, shop, or other building in any street, lane, or place within the said Municipality, without first serving seven days' notice in writing on the Mayor or Council Clerk or other duly authorised officer before commencing the same, stating his intention and giving particulars of the proposed building; and every owner of, and

every contractor for such house, shop, or other building, or any part thereof commencing to build or work thereon without such notice having been given shall forfeit and pay for every such offence any sum not exceeding forty shillings nor less than five shillings.

## Pipes, gutters, &amp;c.

9. It shall not be lawful for any person to carry by means of pipes, gutters or other contrivances any rain-water from the roof of his or her premises or house upon any of the footways of any street or public place within the said Municipality; and any owner or occupier of any such house or premises who shall refuse or neglect to remedy or remove any such pipes, gutters, or contrivances when required to do so by any officer of the said Council shall on conviction forfeit and pay any sum not exceeding two pounds nor less than five shillings: Provided that the owner or occupier of any such premises or house may convey any such rain-water by means of pipes laid under the surface of any such footways into the gutter adjoining the same, subject to the approval of the Committee for Works or other duly authorised officer.

## No balcony, &amp;c., to project.

10. With regard to buildings hereafter to be built or rebuilt, it shall not be lawful for any awning, verandah, portico, balcony, coping, parapet, overhanging eaves, cornice, windows, string-cornice, string-course, dressing, or other architectural decoration forming part of, or attached to, any external wall to project beyond the building line of any street or road except with the consent of the Council first obtained; nor shall any balcony or any other external projection as aforesaid which may hereafter be added to any existing building be allowed to project as aforesaid under a penalty not exceeding five pounds nor less than one pound, except with the consent of the Council first obtained: Provided that no such awning, verandah, portico, or balcony shall be permitted to be erected in any street less than thirty feet wide: Provided also that any person desiring to erect any such structure shall first submit a plan for the approval of the Council.

## Encroachments must be removed on notice.

11. The surveyor or other such officer or person may at any time, on the order of the Council and upon due notice of thirty days, direct the removal of any building, fence, or other obstruction or encroachment in and upon any road, street, lane, or thoroughfare under the charge of the Council. Notice shall in this case be served either personally or at the usual or last known place of abode of the person to whom such obstruction or encroachment in structure belongs or who has erected the same or caused it to be erected.

## Council may remove encroachments.

12. In any case where, after service of notice for the removal of any obstruction or encroachment as aforesaid, the person causing the same shall not remove it within a reasonable time, it shall be lawful for the Council to direct the removal of the same under the superintendence of its own proper officer and at the cost of the person so offending: Provided that the expenses thereby incurred shall in no case exceed the sum of ten pounds, or, at the Council's option, to proceed against the offender for breach of By-law,—the penalty not to exceed twenty-five pounds nor be less than one pound; and in case of every successive offence the penalty on conviction not to be less than five pounds.

## Or may proceed by action.

13. In every case where the obstruction or encroachment cannot be removed unless at a greater cost than ten pounds, it shall be open to the Council, either to direct such removal and to pay all the costs thereof above ten pounds from the funds of the Council, or to proceed by action for trespass against the person causing such obstruction or encroachment, or to proceed as for a breach of such By-laws as aforesaid.

## No turf, gravel, &amp;c., to be removed from streets without permission.

14. Any person who shall form, dig, or open any drain or sewer, or remove or cause to be removed, any turf, clay, sand, soil, gravel, stone, or other material, in or from any part of the carriage or foot way of any street or other public place within the said Municipality, without leave first had and obtained from the Council, or who shall wantonly break up or otherwise damage any such carriage or foot way, shall on conviction forfeit and pay for every such offence any sum not exceeding five pounds nor less than one pound.

## Holes to be enclosed.

15. Any person or persons who shall dig or make, or cause to be dug or made, any hole, or leave or cause to be left any hole, adjoining or near to any street or public place within the said Municipality, for the purpose of making any vault or vaults, or foundation to any house or building, or for any other purpose whatsoever, or shall erect or pull down any building and shall not first enclose the same and keep the same enclosed in a good and sufficient manner, to the satisfaction of the Committee for Works of the said Municipality, or shall keep up or cause to be kept up and continued any such enclosure for

any time which shall be longer than shall be absolutely necessary in the opinion of the said Committee, and shall not place lights upon each side of the said enclosure, and keep the same constantly burning from sunset to sunrise during the continuance of such enclosure, shall forfeit and pay for every such refusal or neglect any sum not being less than forty shillings nor exceeding five pounds.

*Temporary stoppage of traffic for repairs, &c.*

16. The Committee for Works, or any officer or person acting under the authority of such Committee, may at any time cause the traffic of any street, lane, or thoroughfare, or any portion thereof, to be stopped for the purpose of repairing the same, or for any necessary purpose; and any person or persons offending against this By-law, either by travelling on such street, lane, or thoroughfare, or by removing or destroying any obstruction that may be placed thereon for the purpose of suspending the traffic, shall forfeit and pay a penalty of any sum not exceeding five pounds for every such offence.

*Drawing or trailing timber, &c.*

17. Any person who shall haul or draw, or cause to be hauled or drawn, upon any part of any street or public place within the said Municipality, any timber, stone, or other things otherwise than upon wheeled vehicles or barrows, or shall suffer any timber, stone, or other thing which shall be carried principally or in part upon any wheeled vehicle or barrow, to drag or trail upon any part of such street or public place, to the injury thereof, or to hang over any part of any such vehicle or barrow, so as to occupy or obstruct the street beyond the breadth of the said vehicle or barrow, shall upon conviction forfeit and pay for every such offence a sum of not more than forty shillings nor less than five shillings over and above the damages occasioned thereby.

*Driving carriages, &c., on footways, and throwing filth, &c.*

18. Any person who shall throw, cast, or lay, or shall cause, permit, or suffer to be thrown, cast, or laid, or to remain any ashes, rubbish, offal, dung, soil, dead animal, blood, or other filth or annoyance, or any matter or thing, in or upon the carriage-way or footway of any street or other public place in the said Municipality, or shall kill, slaughter, dress, scald, or cut up any beast, swine, calf, sheep, lamb, or other animal, in or so near to any such street or other public place as that any blood or filth shall run or flow upon or over, or be on any or either of any such carriage or foot way; or shall run, roll, drive, draw, place, or cause, permit, or suffer to be run, rolled, driven, drawn, or placed upon any of the said footways of any such street or public place, any waggon, cart, dray, or other carriage, or any wheel, wheel-barrow, hand-barrow, or truck, or any hoghead, cask or burrel, or shall wilfully lead, drive, or ride any horse, ass, mule, or other beast upon any footway shall upon conviction forfeit and pay for the first offence a sum not exceeding forty shillings nor less than five shillings; for the second offence a sum not exceeding five pounds nor less than ten shillings; and for the third and every subsequent offence a sum not exceeding ten pounds nor less than one pound for each such offence; and should the person in charge of such waggon, cart, dray, or other vehicle refuse to give his name and address, the owner of the same may be prosecuted under this By-law for causing a breach of the same.

*Riding on drays, careless driving, camping on roads, streets, &c.*

19. If the driver of any waggon, cart, or dray of any kind shall ride upon any such carriage in any street as aforesaid, not having some person on foot to guide the same (such carts as are drawn by one horse and driver, or guided with reins only, excepted), or if the driver of any carriage whatsoever shall wilfully be at such distance from such carriage, or in such situation whilst it shall be passing upon such street that he cannot have the direction and government of the horse or horses, or cattle drawing the same; or if the driver of any waggon, cart, dray, or coach, or carriage whatsoever meeting any other carriage shall not keep his waggon, cart, dray, or coach, or other carriage, on the left or near side of the road, street, or thoroughfare; or if any person shall in any manner wilfully prevent any other person or persons from passing him or her, or any carriage under his or her care upon such street; or by negligence or misbehaviour prevent, hinder, or interrupt the free passage of any carriage or person in and upon the same; or any person or persons camping with teams or otherwise in and upon any street, road, or public thoroughfare so as to obstruct the traffic thereon,—every such driver or person so offending shall upon conviction forfeit and pay any sum not exceeding forty shillings.

*Public Property.*

*Damaging trees.*

20. Any person who shall wilfully, and without the authority of the Council, cut, break, bark, root up, or otherwise destroy or damage the whole or any part of any tree, sapling, shrub, or underwood growing in or upon any street or place under the management of the Council, shall forfeit any sum not exceeding ten pounds nor less than one pound.

*Nuisances.*

Dead animals, &c., not to be thrown into any public water-course, &c.

21. Any person who shall cast any filth, rubbish, or dead animal, or any animal, with intent of drowning, into any public water-course, sewer, waterhole, river, creek, road, or pathway, or who shall suffer slops, suds, or filth of any kind to flow from his or her premises into any such water-course, waterhole, river, creek, or canal, or who shall permit or suffer any such slops, suds, or filth to flow from his or her premises over any of the footways or streets of the Municipality, or shall permit or cause by means of pipes, shoots, channels, or other contrivances, filth of any kind whatsoever to flow into any public water-course, waterhole, river, creek, or canal, or shall obstruct or divert from its channel any sewer, or water-course, river, creek, or canal shall forfeit any sum not exceeding five pounds nor less than two pounds.

*Dead animals—Mode of removal.*

22. If any animal shall die in any part of the said Municipality, and the owner of such animal, or the occupier of the place, if private property, where such animal shall have died, shall not cause such animal to be immediately destroyed by fire, or so effectually removed and disposed of that no nuisance can possibly result therefrom in any part of the said Municipality, he shall for every such offence forfeit and pay any sum not exceeding fifty pounds nor less than two pounds.

*Hog-sties to be one hundred feet from streets, and animals suffered to stray, &c.*

23. Any person who shall breed or keep so as to be a nuisance any kind of swine in any house, building, yard, garden, or other place situated and being within one hundred feet of any street or public place in the said Municipality, or shall suffer any kind of swine, or any horse, ass, mule, sheep, goat, cow, or any other animal of a like nature belonging to him or her or under his or her charge to stray or go about, or to be tethered or depastured in any street, road, or public place shall on conviction forfeit and pay any sum not exceeding forty shillings nor less than five shillings for such and every animal so bred, kept, suffered to stray or go about, or to be tethered or depastured in any street, road, or public place as aforesaid, and the owner or occupier of any house or premises or other place within the said Municipality, wherein any such swine, horse, ass, mule, sheep, goat, cow, or other animal is kept, fed, milked, or used in any way whatsoever shall, within the meaning of these By-laws, be deemed the owner of every such animal so bred, kept, suffered to stray, or to be tethered or depastured in any such street or public place as aforesaid. And the words any "house," "building," "yard," "garden," or "other place" wherein any kind of swine shall be bred or kept as aforesaid shall, respectively, be deemed hog-sties within the meaning of these By-laws; and word "horses" shall be sufficient designation for any entires, geldings, mares, or foals; and the word "cattle," for any bulls, oxen, cows, or calves when more than one is the subject of any information and summons under the provisions of these By-laws.

*Complaints respecting dirty premises.*

24. Upon the complaint of any householder that the house, premises, yards, closets, or drains of the neighbouring or adjoining premises are a nuisance or offensive, the Inspector of Nuisances or any other officer appointed by the said Council shall make an inspection of the premises complained of; and the officer of the said Council shall have the full power, without any other authority than this By-law, to go upon such premises for the aforesaid purpose; and any person who shall personally, or by any person in his employment or under his control, suffer any waste or stagnant water, or any muck, filth, soil, or other offensive matter in any cellar or place within any dwelling-house or premises within the said Municipality, or shall in like manner suffer the contents of any water-closet, privy, or cesspool to overflow or soak therefrom, shall for every such offence forfeit and pay a sum not exceeding five pounds nor less than one pound.

*Various obstructions and annoyances.*

25. Every person who, in any street or other public place or passage within the said Municipality, to the obstruction, annoyance, or danger of the residents or passengers, shall commit any of the following offences, shall on conviction for any and every such offence forfeit and pay a penalty of not more than two pounds:—

- (1.) Every person who shall hoist, or cause to be hoisted, or lower, or cause to be lowered, goods of any description from any opening in any house fronting any street or public place, and close to the footway, without sufficient and proper ropes and tackling.
- (2.) Every person who shall carry or convey, or cause to be carried or conveyed, in any street or public place, the carcase or any part of the carcase of any newly-slaughtered animal without a sufficient and proper cloth covering the same, for the concealment from public view, or shall hawk or carry about butcher's meat without covering the same as aforesaid.

- (3.) Every person who shall place any line, cord, or pole across any street, lane, or passage, or hang or place clothes thereon, or allow any tree or shrub overhanging the footpath, to the danger or annoyance of any person.
- (4.) Every person who shall throw or cast from the roof, or any part of any house or other building, any slate, brick, part of a brick, wood, rubbish, or other material or thing (unless within a hoard or enclosure when any house or building is being erected, pulled down, or repaired).
- (5.) Every person who shall, within the distance of one hundred yards from any dwelling-house, burn any rags, bones, or other offensive substance, to the annoyance of any inhabitant.
- (6.) Every person who shall carry goods or any frame to the annoyance of any person upon the footway of any street or other public footway.
- (7.) Every person who shall be the keeper of, or have any dog or other animal which shall attack or endanger the life or limb of any person who may have the right-of-way or use of any private yard, alley, street, or any other place within the said Municipality.

*Offences against public decency.*

*Bathing prohibited within certain limits.*

26. Any person who shall bathe near or within view of any inhabited house, or of any public bridge, street, road, or other place of public resort within the limits of the said Municipality, between the hours of six o'clock in the morning and eight in the evening, shall on conviction forfeit and pay a sum not exceeding one pound for every such offence.

*Penalty for indecent exposure of the person.*

27. Any individual who shall offend against decency by exposure of his or her person in any street or public place within the said Municipality, or in the view thereof, shall on conviction forfeit and pay for every such offence a sum not exceeding ten pounds nor less than five pounds.

*Rubbish or offensive matter.*

28. No kind of rubbish or offensive matter shall be thrown upon any public or private property within the town without permission first obtained from the Municipal Council, and the owner or owners of such property. Persons found guilty of a breach of this By-law shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than ten shillings.

**PART V.**

*Noisome and offensive trades.*

No noisome or offensive trades to be carried on to injury of any inhabitants.

1. No person shall carry on any noisome or offensive trade within the said Municipality so as to injure or be a nuisance as hereinafter stated to the inhabitants thereof.

*Definition of noisome and offensive trades.*

2. Any manufacture, trade, calling, or operation in the conducting, following, or carrying on of which, or in consequence of or in connection wherewith, or from the premises where the same is conducted, followed, or carried on, any gas, vapour, or effluvia, or any large quantities of smoke shall be evolved or discharged, which gas, vapour, effluvia or smoke shall be calculated to injure animal or vegetable life, or in any other way to injure or to be a nuisance to the inhabitants of the said Municipality shall be considered a noisome and offensive trade within the meaning of these By-laws.

*Complaint—Inquire and report—Order of Council thereon—Notice to discontinue, &c.—Penalty.*

3. Upon complaint, in writing by any householder, that any noisome or offensive trade is being so followed, conducted, or carried on in the vicinity of his or her residence or property as to injure his or her health, or the health of any member of his or her family, or to be a nuisance to such householder, and to his or her family, the Inspector of Nuisances, or any other person or persons appointed by the Council, shall make an inspection of the premises where such trade is alleged to be so conducted, followed, or carried on as aforesaid, and of the premises or property of the complainant, and shall inquire into the grounds for such complaint, and shall report thereon to the said Council. And if the said Council shall on the consideration of report, after any further inquiry as may be deemed necessary, be of opinion that the said complaint is well founded, and that any manufacture, trade, calling, or operation so complained of, and so being conducted, followed, or carried on as aforesaid is a noisome and offensive trade within the meaning of these By-laws, notice shall be given to the person or persons conducting, following, or carrying on such trade to cease and discontinue the same within such reasonable time, not being less than thirty days nor more than sixty days as the said Council may direct, or so to conduct, follow, or carry on his, her, or their manufacture, trade, calling, or operation, as

that within such reasonable time as aforesaid the same shall wholly and permanently cease to be noisome and offensive, within the meaning of these By-laws, either to the said complainant or to any other resident within the said Municipality; and if such trade shall not be discontinued as aforesaid, or shall not be so conducted as that it shall wholly cease to be noisome and offensive as aforesaid, within the time named in such notice as aforesaid, any person conducting, following, or carrying on such trade as aforesaid, shall for the first offence forfeit and pay a sum not less than forty shillings nor more than five pounds, for a second offence a sum of not less than five pounds nor more than twenty-five pounds, and for the third and every subsequent offence a sum of not less than ten pounds nor more than fifty pounds.

*Mode of proceeding when noisome and offensive trade is about to be commenced—Penalty.*

4. The like proceeding shall be taken as aforesaid whenever there shall be a complaint as aforesaid that any manufacture, trade, calling, or operation is about to be commenced or entered upon which is likely to prove noisome and offensive within the meaning of these By-laws, save and except the notice to be given as aforesaid shall be given to the person or persons about to commence or enter upon such manufacture, trade, calling, or operation, and shall require him, her, or them not to commence or enter upon the same, or to take such measures as shall effectually and permanently prevent the same from becoming noisome and offensive within the meaning of these By-laws to any resident within the Municipality; and any person who shall in any case commence, enter upon, or continue any such manufacture, trade, calling, or operation, so that the same shall be in any way noisome and offensive within the meaning of these By-laws, shall for every such offence forfeit and pay a sum of not less than ten pounds nor more than fifty pounds.

*Inspector of Nuisances may take legal proceedings.*

5. The Inspector of Nuisances or other person appointed by the Council may take legal proceedings against any person or persons committing any offence or offences against any of the By-laws of the said Municipality.

*Penalties to be paid to Treasurer.*

6. All penalties under any of these By-laws shall be paid over to the Treasurer of the said Municipality, to be appropriated as the Council may direct.

*Interpretation of "Mayor" and "Municipality."*

7. Whenever in any of these By-laws the word "Mayor" is made use of, it shall, unless the context shall indicate a contrary intention, be construed also to signify and include any Alderman lawfully acting for the time being in the place or stead of the Mayor; and whenever the word "Municipality" is made use of in the said By-laws it shall be understood to signify the "Municipality of Condobolin."

**PART VI.**

*Public exhibitions, &c.*

*Exhibitions, &c., to be licensed.*

1. No exhibition other than exhibitions licensed by the Colonial Secretary under the provisions of the Act 14 Victoria No. 23, or exhibitions of a temporary character hereinafter specially provided for, shall be held or kept for hire or profit within the said Municipality, nor shall any bowling-alley, dancing saloon, or other place of public amusement other than a place licensed as aforesaid, or a place for temporary amusement hereinafter specially provided for, be used as such, for hire or profit, within the said Municipality, unless and until permission in writing be granted by the Mayor.

*Penalty for exhibiting, &c., without license.*

2. Every person holding or keeping any such exhibition, or using any place within the said Municipality for public amusement as aforesaid, or causing or permitting such place to be so used, without such permission of such Mayor, shall forfeit and pay a sum not less than five shillings nor more than forty shillings for every day that such exhibitions shall be so held or kept, or such place shall be so used for public amusement as aforesaid.

*No exhibitions, &c. on Sundays.*

3. No such exhibition or place of public amusement as aforesaid shall be held or kept open or used for the purposes of such public amusements on Sunday, Christmas Day, or Good Friday; and every person offending against this By-law in this behalf, shall on conviction forfeit and pay a sum not exceeding five pounds nor less than two pounds for every such offence.

Passed by the Municipal Council of Condobolin, on the 8th day of September, 1890.

JAMES TOUGH,  
Council Clerk.

(I.S.) H. W. GREY INNES,  
Mayor.

1891.

## NEW SOUTH WALES.

**MUNICIPALITIES.**

(MUNICIPAL DISTRICT OF WINGHAM—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Colonial Secretary's Office,  
Sydney, 24th February, 1891.

## WINGHAM MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Municipal District of Wingham, under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

*Regulating and Licensing Timber Carriages.*

No timber-carriage, truck, trolley, or other vehicle used for a like purpose, or dray attached for the conveyance of timber or other material, will be allowed to ply or work within the Municipal District of Wingham unless the same be licensed. No timber-carriage, as heretofore mentioned, shall be licensed unless the tires of the wheels be at least five inches in width, and anyone who shall omit or fail to comply with the provisions of this By-law shall forfeit a sum not exceeding five pounds nor less than two pounds.

Made and passed by the Council of the Municipal District of Wingham, this fourteenth day of October, one thousand eight hundred and ninety.

W. H. ELSB, Council Clerk.

(L.S.) HENRY LAMBERT, Mayor.

Existing By-laws No. 31, section 4, and No. 16, section 7, are hereby rescinded.

17th October, 1890.

W. H. ELSB, Council Clerk.

HENRY LAMBERT, Mayor.

## AMENDED BY-LAW.

*Regulating the Keeping of Swine, Straying of Animals, &c.*

ANY person who shall breed, feed, or keep any kind of swine in any house, yard, or enclosure, situated and being within thirty feet of any street or public place in the Municipal District of Wingham, or who shall suffer any kind of swine, or any horse, ass, cattle, mule, sheep, goat, or any other animal of like nature belonging to him or under his charge to stray, or go about, or to be tethered or depastured in any street, road, or other public place within the Municipal District of Wingham between sunset and sunrise (except in the case of swine, which will not be allowed to stray at any hour), shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than five shillings.

Nothing in the above rule will prevent pigs being driven through the Municipal District of Wingham for shipment.

Amended in accordance with opinion of Attorney-General.

26th November, 1890.

W. H. ELSB, Council Clerk.

(L.S.) HENRY LAMBERT, Mayor.

1891.

**MUNICIPALITIES.**

(BOROUGH OF WEST MAITLAND—BY-LAW.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 158.Colonial Secretary's Office,  
Sydney, 14th January, 1891.

## BOROUGH OF WEST MAITLAND.—BY-LAW.

THE following By-law, made by the Council of the Borough of West Maitland under the "Municipalities Act of 1887," having been confirmed by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, is published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

## BOROUGH OF WEST MAITLAND.

WHEREAS the Borough of West Maitland has established bathing places in the Hunter River within the said Borough, and whereas it has been deemed expedient to make provision for the accommodation of persons bathing therein, the Borough Council of West Maitland, in pursuance of the powers vested in them under the provisions of the Municipalities Act of 1867, have made and adopted the following By-law in reference thereto:—

No person shall be permitted to bathe at any of the places in the Hunter River provided by the Borough Council of West Maitland for that purpose excepting between the hours of five o'clock a.m. and eight a.m., and between five p.m. and ten p.m., on ordinary week days, and not later than nine o'clock a.m. on Sundays.

Any person bathing in the said river at the places before appointed within hours other than those mentioned shall be liable to a penalty not exceeding twenty shillings.

Made and passed by the Borough Council of West Maitland, this twenty-seventh day of November, in the year of our Lord one thousand eight hundred and ninety.

THOS. HUGHES, Council Clerk.

(l.s.) R. A. YOUNG,  
Mayor.

---

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

---

Colonial Secretary's Office,  
Sydney, 30th April, 1891.

**WAVERLEY MUNICIPALITY.—ADDITIONAL BY-LAW.**

THE following Additional By-law, made by the Council of the Borough of Waverley under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, is published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

---

**BOROUGH OF WAVERLEY.—ADDITIONAL BY-LAW.***Council may kerb and gutter.*

THE Council may cause the footway in front of any house or land in any street or lane within the Borough to be kerbed and guttered and asphalted in such manner as the Council may deem fit, and charge one-half the cost of said work to the owner of the property benefited thereby.

Should the owner of any property thus benefited neglect, after receipt of notice signed by the Council Clerk, to pay into the office of the Council the amount payable under this By-law within one month from date of such notice, the Council may proceed for recovery of the said amount in a summary manner before any Court of competent jurisdiction.

---

By virtue of the powers and authority of the "Municipalities Act of 1867," the Council of the Borough of Waverley passed the foregoing By-law, on the second day of February, 1891.

(BOROUGH OF ALBURY—ADDITIONAL BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.Colonial Secretary's Office,  
Sydney, 19th May, 1891.

## ALBURY MUNICIPALITY.—ADDITIONAL BY-LAWS.

The following Additional By-laws, made by the Council of the Borough of Albury, under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

ADDITIONAL BY-LAWS made by the Borough Council of Albury under the "Municipalities Act of 1867,"  
for the formation of Pathways, &c.

No. 1. The Council may cause the footway or pathway in front of any house or land along any street or way within the Municipality to be kerbed, guttered, flagged, paved, or asphalted in such manner as the Council may think fit; and half the amount of expense thereof shall be borne and paid by the owner of such house or land, and may be recovered from such owner or from the occupier of such house or land in a summary way before any two Justices.

No. 2. No proceeding for the recovery of such amount shall be taken until at least one month after a requisition for payment of the amount, together with an account of the total expenditure, signed by the Council Clerk, has been sent or delivered to such owner or occupier.

No. 3. Nothing in this By-law shall extend to the maintenance or repair of such kerbing, guttering, flagging, paving, or asphaltting.

No. 4. Notwithstanding anything contained in the last preceding section of this By-law, owners of houses or land within the Municipality shall only be liable as compulsory contributors towards the cost of kerbing, guttering, flagging, paving, or asphaltting any footway or pathway in front of any house or land along any street or way, or any portion thereof, when a notice published in a local newspaper shall have declared the intention of the Council to make or repair such street or way (unless it be already formed), and to kerb, gutter, flag, pave, or asphalt the same or any portion thereof. But nothing in this By-law shall affect agreements between owners of property and the Council.

Made and passed by the Municipal Council of the Borough of Albury, this fifth day of November,  
one thousand eight hundred and ninety.

Jno. H. PAINE, Council Clerk.

## NEW SOUTH WALES.

# NUISANCES PREVENTION ACT, 1875.

(BOROUGH OF JUNEE—BY-LAWS.)

Presented to Parliament, pursuant to Act 39 Vic. No. 14, sec. 13.

Colonial Secretary's Office,  
Sydney, 5th February, 1891.

## BOROUGH OF JUNEE.—BY-LAWS.

THE following By-laws, made by the Council of the Borough of Junee, under the "Nuisances Prevention Act, 1875," having been approved by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

BY-LAWS of the Borough of Junee, made under and for carrying into effect the provisions of the "Nuisances Prevention Act."

1. On and after the 14th day of November, 1890, no person or persons shall be permitted to have on any premises within the Municipal Borough of Junee any open closet or cess-pit for the deposit of faecal matter, and any person or persons allowing any such closet or cess-pit to remain after receiving from the Inspector of Nuisances for the said Borough seven days notice to remove the same shall forfeit a sum not exceeding five pounds nor less than one pound; and after conviction, if not removed within a further period of seven days, shall forfeit a further sum not exceeding two pounds nor less than five shillings for each day that the same shall remain unaltered or unremoved.

2. No person or persons shall be permitted to cover up or cause to be covered up any existing cess-pit with earth or other material unless and until the same shall be emptied by the Council's contractor. Any person or persons offending against this By-law shall be liable to a penalty not exceeding five pounds nor less than one pound.

3. Every cess-pit to be constructed within the Borough shall not be less than 3 feet by 4 feet and 5 feet deep inside measurement, and shall be built of not less than 4½-inch brick work set in cement floor as well as walls unless in the opinion of the Inspector of Nuisances it shall be unnecessary, and the top of such cess-pit shall be at least 6 inches higher than the highest part of the surface of the ground immediately adjoining such cess-pit. In no case where practicable shall any cess-pit or closet be situated within 20 feet of a dwelling and 10 feet from the street, and any person being guilty of a breach of this By-law shall be liable to a penalty of not more than five pounds nor less than one pound.

4. A separate closet shall be provided for each tenement, in schools or factories where a number of persons shall be employed, separate closets shall be provided for each sex, with a door to fasten on the inside; where two or more closets shall adjoin each other there shall be a dividing wall between each to effect a complete separation, and any person or persons offending against the provisions of this By-law shall be liable to a penalty not exceeding ten pounds nor less than two pounds.

5. If in the opinion of the Inspector of Nuisances for the said Borough any alteration be required in existing closets, upon

the report of the said Inspector the said Council shall determine what alteration may be necessary for the preservation of health or decency, and such alteration shall forthwith be made by the owner or owners of the premises after receiving from the said Inspector seven days notice to that effect, and such owner or owners shall be liable to a penalty not exceeding five pounds nor less than one pound for each week's neglect or delay in effecting such alteration.

6. No pan, bucket, or other receptacle used as such in a dry-earth closet shall exceed in measurement 14 inches in depth and shall not exceed 14 inches in diameter.

7. Every householder shall employ the Council's contractor for the removal of refuse from all cess-pits or dry-earth closets, and shall provide a galvanized iron pan or bucket in such dry-earth closets to hold such refuse with a handle on each side.

8. The night-soil shall be removed by the Council's contractor in properly constructed water-tight carts between such hours as the Council shall determine, and the contractor shall be held responsible for the careful conveyance of the night-soil to the depot appointed by the Council, and shall dispose of the same by burying it in the earth a sufficient distance and covering it with earth so as to prevent any nuisance arising therefrom, under a penalty for neglect not exceeding twenty pounds nor less than five pounds.

9. The Inspector of Nuisances shall have power to visit and inspect any premises on any lawful day between the hours of 10 a.m. and 4 p.m., and any person or persons refusing admittance or obstructing or hindering the said Inspector in the discharge of his duty shall be liable to a penalty not exceeding five pounds nor less than one pound.

10. The Council shall from time to time fix the charges to be made for emptying and removing night-soil from closets which shall be emptied as often as may be considered necessary to the Inspector of Nuisances.

11. If the night-soil or any portion thereof shall be sold or given away by the Council, the person removing the same shall do so only at such times and in such manner as the Council may direct, and shall dispose of the same so as not to cause a public nuisance, and the person purchasing or obtaining it shall be held responsible for the same, under a penalty not exceeding ten pounds nor less than two pounds.

12. No closet shall be erected, or commenced to be erected, except in such place and in such position as shall be approved of by the Inspector of Nuisances, and shall be built with walls not less than 7 feet in height and not less than 4 feet 6 inches in length, with a width of not less than 3 feet 6 inches, and shall be provided with a door capable of being fastened in the inside. And any person being guilty of a breach of this By-law shall be liable to a penalty of not less than one pound nor more than five pounds.

13. Any person placing or causing to be placed any obstruction in the way of the Council's contractor entering upon any premises for the removal of night-soil at least once in each week from any dry-earth closet, or from any cess-pit when required, shall be liable to a penalty not exceeding ten pounds nor less than two pounds.

14. No person shall be permitted to connect any closet with any drain, watercourse, or sewer without the sanction of the Council; and any person so offending shall be liable to a penalty not exceeding twenty pounds nor less than five pounds.

15. Any person or persons about to construct new or to alter existing closets shall forward to the Council written notice to that effect so that the Inspector of Nuisances may visit and report thereon, and in default of such notice shall be liable to a penalty not exceeding five pounds nor less than one pound; and closets constructed or altered without such notice being given may be removed or altered as may be judged necessary by the Council, and the owner or owners thereof for each day they shall remain unaltered or unremoved after due notice to that effect shall have been received from the Council shall be liable to a penalty not exceeding ten pounds nor less than two pounds.

16. All expenses incurred by the Council in emptying any cess-pit or earth-closet shall be repaid to the Council by the owner or occupant of the premises whereon such cess-pit or earth-closet is situated within one week after a written demand of the amount made by the Council or Inspector of Nuisances shall have been served upon him, otherwise the same may be recovered in a summary way before any two Justices of the Peace.

17. The Inspector of Nuisances or other person authorised by the Council shall furnish the Council with a monthly return showing the number of cesspits emptied, the amount due and payable for each cesspit, and the amount of arrears due for emptying cesspits; he shall collect the amounts so due and payable and account therefor to the Council at least once in every month, as may be determined upon by such Council.

18. The maximum penalty for a breach of any of these By-laws shall in each case be ten pounds, and the minimum penalty one pound, unless otherwise provided for.

Made and passed by the Council of the Municipal Borough of Junee, this the fourteenth day of November, in the year of our Lord one thousand eight hundred and ninety.

(L.S.) T. C. HUMPHRYS,  
Mayor.

## NEW SOUTH WALES.

## NUISANCES PREVENTION ACT, 1875.

(MUNICIPAL DISTRICT OF MOSS VALE—AMENDED BY-LAWS.)

Presented to Parliament pursuant to Act 39 Vic. No. 14, sec. 18.

Colonial Secretary's Office,  
Sydney, 6th February, 1891.

## MUNICIPAL DISTRICT OF MOSS VALE.—AMENDED BY-LAWS.

THE following Amended By-Laws, made by the Council of the Municipal District of Moss Vale, under the "Nuisances Prevention Act, 1875," having been approved by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

HENRY PARKES.

## MOSS VALE MUNICIPALITY.

AMENDED By-laws passed on the 27th day of October, 1890, by the Municipal Council of Moss Vale, under the "Nuisances Prevention Act, 1875."

1. Every person about to erect a closet shall, before commencing any such work, give to the Council Clerk seven days' notice in writing of his intention, and of the proposed position of such closet; and in default thereof, or in case of his commencing such work without such notice, he shall be liable to a penalty not exceeding ten pounds (£10) nor less than ten shillings.

2. No closet shall be erected except in such position as shall be approved of by the Council or by the Inspector of Nuisances, or other person appointed by the Council.

3. Every closet shall be built with walls 7 feet high, and shall not be less than 3 feet 6 inches wide and 4 feet 6 inches long, and shall be provided with a door capable of being fastened from the inside, and shall have ventilating holes 4½ inches wide.

4. When two or more closets adjoin each other, there shall be a brick, stone, or wooden dividing wall of not less than 4½ inches in thickness between every two closets, and each wall shall extend from the floor of the closet to the roof, so as to effect a complete separation.

5. A separate closet shall be provided for every tenement, and a breach of this By-law shall make the owners or occupiers of any premises upon which there shall be a joint closet liable to a penalty not exceeding five pounds or less than one pound.

6. In schools or in factories, or other places of business where a number of persons exceeding twelve shall reside or be occupied or employed, one pan shall be provided for every twelve persons, with a capacity of not less than one cubic foot or more than two cubic feet; and separate closets shall be provided for each sex.

7. All persons shall use the closets solely for the deposit of fecal matter and human excrement, and shall cover such deposit with sand, lime, ashes, earth, or other such material. In case of any infectious disease occurring in the house of persons using the said closets, a sufficient quantity of some efficient disinfectant shall be used in a manner to be directed by the Inspector of Nuisances; and any person who shall

wilfully deposit or cause to be deposited any fecal matter or excrement in such closet without duly disinfecting the same shall be liable to a penalty of not more than three pounds nor less than one pound.

8. If any alteration shall be requisite in the opinion of the Inspector of Nuisances, or any other officer appointed by the Council on that behalf, for preserving public health or decency in the case of any existing closet, the owner or occupier of such premises shall receive seven days' notice to remove or alter the same; and if he fail to do so, and the Council shall adjudge such closet to be either injurious to the health or opposed to decency by exposure or otherwise, the same shall be altered by the Inspector of Nuisances or other officer, and the cost of such alteration shall be paid for by the owner or occupier of the premises whereon the same shall be.

9. When any new building is about to be erected, the builder or builders thereof shall first erect or cause to be erected on the premises a temporary closet not less than 3 feet by 2 feet 6 inches and 6 feet high (where such convenience does not already exist or is deemed necessary by the Council or Inspector of Nuisances), for the use of the workmen employed in the construction of the new building; and any person neglecting to conform to this By-law shall be liable to a penalty not exceeding five pounds nor less than one pound.

10. The place of deposit for night-soil shall be in such locality as may be from time to time determined upon by the Council, with the approval of the Governor; and no night-soil shall be deposited in any other locality within the Municipality except as allowed by By-laws.

11. Until otherwise provided by the Council, all night-soil shall be removed from closets by the servants of or contractors with the Council in water-tight covered vehicles, between the hours of 11 o'clock in the evening and 5 o'clock in the morning.

12. Until and unless otherwise provided by the Council, all night-soil shall be disposed of by burying it in the earth.

13. In case the Council shall sell or give away any night-soil, the same shall be removed in the same manner as above provided, and on being removed from the vehicles in which it is carried it shall be deodorized by chemicals, or in some other manner, or covered with earth, so as to prevent any offensive smell arising therefrom.

14. The Inspector of Nuisances, or other officer appointed by the Council, may visit and inspect any premises, or do any work authorized by the "Nuisances Prevention Act, 1875," on all days except Sundays and public holidays, between the hours of 10 o'clock in the morning and 4 o'clock in the evening.

15. All night-soil shall be removed at least once in every two weeks, or as often as deemed necessary by the Inspector of Nuisances, and buried in the earth.

16. No person shall be allowed to use any night-soil collected on his premises unless he has at least one acre of land attached thereto, and if any nuisance shall arise therefrom he shall be liable to a penalty not exceeding five pounds (£5) nor less than one pound (£1).

17. No person shall be at liberty to use on his premises any night-soil brought from elsewhere.

18. After the expiration of three months from the date of passing these By-laws, no person or persons shall be permitted to have on their premises any open closet or cesspit for the deposit of faecal matter, and any person or persons allowing any such closet or cesspit to remain after receiving sixty days notice to remove the same shall forfeit a sum not exceeding five pounds (£5) nor less than one pound (£1); and after such conviction, if not removed within a further period of twenty-one days, shall upon conviction forfeit a further sum of not less than five shillings nor more than two pounds for every day that the same shall remain unaltered or removed.

19. All closets shall be supplied with one or more iron pans with two side-handles or one over-handle, and shall not be more than fourteen inches in depth nor more than fourteen inches in diameter, and shall be kept in good order to the satisfaction of the Inspector of Nuisances. Breach of this By-law to carry a penalty of not less than ten shillings nor more than forty shillings.

20. No person shall be permitted to cover up or cause to be covered up any existing cesspit with earth or any other material prior to giving notice to the Inspector of Nuisances until the same shall have been properly emptied by the Council's contractor. Any person offending against this By-law shall be liable to a penalty not exceeding five pounds nor less than one pound.

21. The owner or occupier of any house, building, passage, yard, or premises within the Municipality, shall cause the yard and ground adjoining or belonging thereto to be kept in a cleanly condition, and so as not to be a nuisance or injurious to health.

22. Any person allowing night-soil from any closet to fall into any street, right-of-way, water-channel, gutter, creek, river, or reservoir, or in any other public place, shall forfeit and pay a sum not exceeding twenty pounds (£20) nor less than five pounds (£5).

23. If at any time the cesspit in any premises shall overflow or cease to be water-tight, the owner or occupier shall, within twenty-four hours, give notice to the Inspector of Nuisances, otherwise such owner or occupier shall be liable to a penalty not exceeding ten pounds.

24. The Council may recover, and the owner or occupier shall pay, such sum for the emptying of cesspits, earth-pans or boxes, as may be decided upon from time to time by resolution of the Council.

25. The owner or occupier of any premises within the Municipality, or any other person who shall have or erect upon his premises any closet otherwise than in accordance with these By-laws, or who shall refuse or neglect to comply with the provisions of any of the preceding By-laws, or who shall commit any breach thereof, shall (in cases where no special penalty is provided) forfeit and pay a penalty not exceeding five pounds.

26. The Inspector of Nuisances, so far as relates to these By-laws, and in all other cases the said Inspector of Nuisances or any other officer duly appointed by the Council, shall be the person to see the foregoing By-laws carried into effect, and to institute and prosecute all legal proceedings thereunder.

27. All the words occurring in these By-laws, and which also occur in the "Nuisances Prevention Act, 1875," shall have the like meaning assigned to them as are provided in the 4th section of the same Act.

(t. s.) N. HERBERT THROSBY,  
Mayor.

Sealed with the Seal of the Municipal Council of Moss  
Vale, on this 11th day of November, 1890, in the  
presence of,—

DAVID CLIFFORD,  
Council Clerk.

1891.

## NEW SOUTH WALES.

**MUNICIPALITIES ACT OF 1867, AND NUISANCES  
PREVENTION ACT, 1875.**  
(BOROUGH OF STOCKTON—BY-LAWS.)

**Presented to Parliament, pursuant to Acts 31 Vic. No. 12, sec. 158, and 39 Vic. No. 14, sec. 18.**

Colonial Secretary's Office,  
Sydney, 15th April, 1891.

STOCKTON MUNICIPALITY.—BY-LAWS.

The following By-laws, made by the Council of the Borough of Stockton, under the "Municipalities Act of 1867" and the "Nuisances Prevention Act, 1875," having been respectively confirmed and approved by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

HENRY PARKES.

BOROUGH OF STOCKTON.

By-Laws for regulating the proceedings of the Council of the Borough of Stockton, and the duties of the officers and servants of such Council; for preserving order at meetings of the said Council; for determining the times and modes of collecting and enforcing payment of rates; for preventing and extinguishing fires; for suppressing nuisances and houses of ill-fame; for preventing or regulating and licensing exhibitions held or kept for hire or profit, bowling-alleys and other places of amusement; compelling residents to keep their premises free from offensive or unwholesome matters; opening new public roads, ways, and parks; aligning and cleansing roads and streets; regulating the supply and distribution of water, sewerage, and drainage; preserving trees and shrubs; regulating free libraries; preventing or regulating the bathing or washing the person in any public water near a public thoroughfare; preserving public decency; providing for the health of the Municipality and against the spreading of contagious or infectious diseases, restraining noisome and offensive trades, and generally maintaining the good rule and government of the said Borough.

PART I.

*Proceedings of the Council and Committees.—Duties of Officers and Servants, &c.*

Ordinary meetings.

1. The Council shall meet for the transaction of business on such days and at such hours as the Council may from time to time appoint.

Election of Chairman in absence of Mayor.—Adjournment for want of quorum.

2. If at any meeting of the Council the Mayor be absent at the expiration of fifteen minutes after the time appointed for holding such meeting the Aldermen then present shall proceed to elect from among themselves a Chairman for such meeting. Whenever there shall be an adjournment of any meeting for want of a quorum the names of the members present shall be recorded in the Minute-book.

Business of ordinary meetings.

3. The following shall be the order of business at all meetings of the Council other than special meetings:—

(1.) The minutes of the last preceding meeting to be read, corrected if erroneous, and signed by the Mayor or other Chairman. No discussion to be permitted on such minutes except as to whether they are correct,

(2.) Correspondence to be read, and order made thereon if expedient.

(3.) Petitions, if any, to be read and dealt with.

(4.) Reports from committees and minutes from the Mayor, if any, to be presented and orders made thereon.

(5.) Questions as to any matters under the jurisdiction or within the official cognizance of the Council to be put and replied to, and statements of any facts, matters, or circumstances requiring attention by the Council or any of the committee or officers, to be made.

(6.) Motions of which notice has been given to be dealt with in the order in which they stand on the business paper.

(7.) Orders of the day to be disposed of as they stand on the business paper.

Business may be taken out of regular order.

Provided that the Council may by resolution, without notice, entertain any particular motion or deal with any particular matter of business out of its regular order on the business paper without any formal suspension of this section, and may in like manner direct that any particular matter of business may have precedence at a future meeting.

Business at special meetings.

4. At special meetings of the Council the business shall be taken in such order as the Mayor or the Alderman at whose instance such meeting shall have been called, may have directed.

Business paper of ordinary meeting—how prepared.

5. The business paper for every meeting of the Council, other than a special meeting, shall be made up by the Council Clerk not less than two nor more than four days before the day appointed for such meeting. He shall enter on such business paper a copy, or the substance of every notice of motion, and of every requisition or order as to business proposed, to be transacted at such meeting which he shall have received or shall have been required or directed so to enter, and as hereinafter provided. Every such entry shall be made subject to the provisions of section 3 of this Part of these By-laws in the order in which such notice, requisition, or direction shall have been received.

**Business paper for special meetings.**

6. The business paper for a special meeting shall contain only such matters as shall have been specially ordered to be entered thereon by the Mayor or Alderman calling such meeting.

**Summons to members.**

7. The summons to members of the Council for every meeting thereof shall be prepared from the business paper for such meeting, and shall embody the substance of such business paper.

After business paper made up, all notices, &c., to be the property of the Council.

8. After the business paper shall have been made up, all the notices of motion, requisitions, and directions as to which entries have been made thereon, shall be the property of the Council, and shall not be withdrawn, altered, or amended without leave having been first obtained from the Council for such withdrawal, alteration, or amendment.

**Motions—how to be moved.**

9. Except by leave of the Council, motions shall be moved in the order in which they stand on the business paper, and if not so moved or postponed shall be struck out and considered to have lapsed.

**Absence of proposed mover.**

10. No motion of which notice shall have been entered on the business paper shall, except as hereinafter provided, be proceeded with in the absence of the Alderman by whom such notice shall have been given, unless by some other Alderman producing a written authority for that purpose from such first-named Alderman.

**Motion to be seconded.**

11. No motion in Council shall be discussed until it has been seconded.

**Amendments may be moved.**

12. When a motion shall have been made and seconded, any Alderman shall be at liberty to move an amendment thereon; but no such amendment shall be discussed until it has been seconded.

**Motions and amendments to be in writing.**

13. No motion or amendment shall be discussed until it has been reduced into writing.

**Only one amendment at a time.**

14. No second or subsequent amendment shall be discussed until the previous amendment or amendments shall have been disposed of.

**Amended question—further amendment may be moved thereon.**

15. If an amendment be carried, the question as amended thereby shall become itself the question before the Council, whereupon any further amendment upon such question may be moved.

**How subsequent amendments may be moved**

16. If any amendment, either upon an original question or upon any amended question, shall be negatived, a further amendment may be moved to the question to which such first-mentioned amendment was moved, and so on: Provided that not more than one question and one proposed amendment thereof shall be before the Council at any one time.

**Motions for adjournment.**

17. No motion for adjournment of the Council shall be discussed. If seconded, such notice shall be put at once. If negatived, no similar motion will be permitted to be made until half an hour has elapsed after putting the one that has been negatived, and the subjects on the business paper shall be proceeded with in order.

**Orders of the Day.****Of what orders of the day shall consist.**

18. The orders of the day shall consist of any matter other than motions or notice which the Council shall at a previous meeting thereof have directed to be taken into consideration, or which the Mayor, or Chairman, or any Committee of the Council shall have directed to be entered on the business paper for consideration; and all such matters may be dealt with by the Council as if due notice of motion had been given in respect thereof.

19. Section 17 of this Part of these By-laws shall be considered applicable to orders of the day; and the Alderman who has the usual charge of, or who has previously moved in reference to the particular business to which any such order of the day relates, shall be the person called upon to move: Provided that, as to any order of the day entered as aforesaid, by direction of the Mayor, such Mayor may arrange with any Alderman to move, and may in such case call upon the Alderman with whom he has so arranged.

**Petitions.****Petitions to be respectfully worded.**

20. It shall be incumbent upon every Alderman presenting a petition to acquaint himself with the contents thereof, and to ascertain that it does not contain language disrespectful to the Council. The nature and prayer of every such petition shall be stated to the Council by the Alderman presenting the same.

**Petitions—how received.**

21. All petitions shall be received only as the petitions of the parties signing the same.

**How petitions are to be dealt with.**

22. No motion shall, unless as hereinafter provided, be permissible on the presentation of a petition, except that the same be received, or that it be received and referred to one of the permanent Committees hereinafter mentioned; or that it be received, and that its consideration stand an order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice of a motion in reference to any petition, and such petition shall have been presented before such Alderman shall have been called upon to move such motion, the said motion shall, if otherwise unobjectionable, be considered in order.

**Correspondence.****Duties of Mayor as to correspondence.**

23. The Mayor shall have the same duty in reference to letters addressed to the Council, before directing the same to be read, as by section 20 of this Part of these By-laws is imposed upon Aldermen presenting petitions. The Mayor shall direct as to the order in which all correspondence shall be read, and no letter addressed to the Council shall be presented or read by any Alderman. If the Mayor be absent, and shall not have examined any such letter addressed to the Council or have given any such directions as aforesaid, then the duties imposed by this section shall devolve upon the presiding Alderman.

**Section 22 to apply to letters.**

24. Section 22 of this Part of these By-laws shall be equally applicable to letters.

Letters sent not to be discussed, but every letter may be subject of motion.

25. No discussion shall be permitted in reference to any letters which have been written and sent by the Mayor or by any officer of the Council, though copies may be read to such Council: Provided, however, that any notice of motion consistent with good order, may be entertained with reference to any such letter whether read or not, or with reference to any letters addressed to the Council, which the Mayor or presiding Alderman may not have ordered to be read as aforesaid.

**Reports from Committees and minutes from the Mayor.****Form of report.**

26. All reports from Committees shall be written on foolscap paper, with a margin of at least one-fourth of the width of such paper and shall be signed by the Chairman of such Committee, or in his absence, some other member of the same.

**Mayor's minute.**

27. The Mayor shall have the right of directing the attention of the Council to any matter or subject within its jurisdiction or official cognizance by a minute in writing. Every such minute shall be written on paper of the same kind, and with the same margin as a report from a Committee, and shall be signed by such Mayor.

How reports, &c., are to be dealt with—Duties of Chairman, &c., in certain cases.

28. No motion shall (unless as hereinafter provided) be permissible on the presentation of a report from a Committee or a minute from the Mayor, except that the same be received, or that it be received and that its consideration stand an order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice in reference to any such report or minute, or if an order for the consideration of such report or minute shall have been entered among the orders of the day, it may, if otherwise unobjectionable, be moved or considered in due course; and whenever any such report or minute embodies any recommendation which cannot legally be carried out without such due notice, and it is nevertheless desirable that such report or minute shall be definitely ordered upon during the meeting of the Council at which it is presented, it shall be the duty of the Chairman or member of such Committee signing such report, or of the Mayor as the case may be, to give or transmit to the Council Clerk such a notice of motion, requisition, or direction as aforesaid, as will enable the Council Clerk to make the necessary entry on the business paper, and to give due notice.

**Questions and statements.****Limitations as to questions and statements.**

29. No question or statement shall be allowed to be put or made which is inconsistent with good order, or is not in strict accordance with the requirements of section 3 of this Part of these By-laws.

**Notice to be given.**

30. Twenty-four hours notice of every question shall be given to the person who is expected to reply thereto, to allow for the consideration of such reply, and, if necessary, for a reference to other persons or to documents.

**Answer not compulsory.**

31. It shall not be compulsory upon any person questioned as aforesaid to answer the question so put to him.

Questions to be put without argument, &c.

32. Every such question must be put categorically without any argument or statement of fact.

Similar provisions as to statements.

33. Every such statement must be made without argument.

No discussion on question, &c. Rights of objection and of subsequent motion reserved.

34. No discussion shall be permitted as to any such question, or as to any reply or refusal to reply thereto, or as to any such statement, at the time when such question is put, or such reply or refusal to reply is given, or such statement is made: Provided, however, that nothing herein contained shall prevent the taking of any objection as to any such question or statement being out of order, or shall prevent the discussion after due notice, as hereinbefore provided, of any matters properly arising out of or relating to any such question, or reply, or refusal to reply, or any such statement as aforesaid.

#### Order of Debate.

Mode of addressing the Council, &c.

35. Every Alderman who shall make or second any motion, or shall propose or second any amendment, or shall take any part in any debate or discussion, or shall put or reply to any question, or shall make any statement, or shall in any other way or for any other purpose address observations to the Council shall, while so doing, stand up in his customary place (unless he shall be prevented from so doing by reason of some bodily infirmity), and shall address himself to the Mayor or other Chairman then presiding: Provided that in the case of a question such question may, by permission of such Mayor or Chairman, be put directly to the Alderman or officer to be questioned, and may be replied to in like manner; but in every such case the question so put and the answer thereto shall be subject to objection on the ground of disorder or irrelevancy; and all members of the Council shall on all occasions when in such Council address and speak of each other by their official designations, as Mayor, Chairman, or Alderman, as the case may be.

Speaker not to be interrupted if in order.

36. No Alderman shall be interrupted while thus speaking, unless for the purpose of calling him to order as hereinafter provided.

Offensive language.

37. If any Alderman uses whilst in Council any offensive or insulting language, the words shall be written down and he shall be asked to withdraw them. If he refuses to withdraw such language and apologise, he shall be deemed guilty of misconduct, and be liable to a fine of not less than (.0s.) twenty shillings nor more than five pounds.

Limitation as to number of speeches.

38. Every mover of an original motion shall have a right of general reply to all observations which may have been made in reference to such motion, and to any amendments moved thereon, as well as a right to speak upon every such amendment. Every Alderman, other than the mover of such original motion, shall have a right to speak once upon such motion and on every amendment thereon. No Alderman shall speak longer than fifteen minutes nor oftener than once upon any question other than a question of order, unless when misrepresented or misunderstood, in which case he shall be permitted to explain, without adding any further observations than may be necessary for the purpose of such explanation.

Mover and seconder.

39. An Alderman who has moved any motion or amendment shall be considered to have spoken thereon, but an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded the same shall be at liberty to speak on such motion or amendment.

Speaker not to digress, &c.

40. No Alderman shall digress from the subject under discussion, or shall make personal reflections on, nor impute improper motives to, any other Alderman.

Adjournment of debate.

41. A debate may be adjourned to a later hour of the day or to any other day specified, and the Alderman upon whose motion such a debate shall have been so adjourned shall be intitled to preaudience on the resumption of the debate.

Mayor to decide as to preaudience.

42. If two or more Aldermen rise to speak at the same time the Mayor or Chairman shall decide which of such Aldermen shall be first heard.

Alderman may require question to be stated, &c., under certain restrictions.

43. Any Alderman may request the question or matter under discussion to be read or stated for his information, or may require the production of any records of the Council bearing upon such question or matter which are readily accessible: Provided, however, that no such request or requisition shall

be so made as to interrupt any other Alderman when speaking or materially to interrupt the discussion, also that if any such request or requisition shall appear to the Mayor or Chairman not to have been made bona fide it shall not be complied with.

Mayor or Chairman not to move or second motion, &c., but may address Council thereon.

44. The Mayor or Chairman shall not move or second any motion or amendment nor put any question as provided for by section 3 of this Part of these By-laws, except as is further provided for by section 35 of the same. But such Mayor or Chairman shall have the same rights as any other Alderman to speak once upon every such subject or amendment. The Mayor or Chairman shall rise when so speaking (unless prevented by some bodily infirmity from so doing), but shall be considered as still presiding.

#### Questions of Order.

Mayor or Chairman to decide points of order.

45. The Mayor or Chairman shall preserve order, and his decisions on disputed points of order or practice shall be final, except in so far as the same may be questioned, as in the manner hereinafter provided.

The Mayor may call member to order.

46. The Mayor or Chairman for the time being may, without the interposition of any other member of the Council, call any Alderman to order whenever in the opinion of such Mayor or Chairman there shall be a necessity for so doing, and if any Alderman shall so persist as to interfere with the proper conduct of the business of the Council, the Mayor or Chairman may at once adjourn the said Council meeting to another day.

Any member may raise question of order.

47. Every member of the Council shall have the right of calling the attention of the Mayor or Chairman to any motion, amendment, statement, argument, or observation, moved, used, or made by any other member which such first-named member may consider out of order.

Mode of proceeding thereon.

48. A member called to order shall withdraw while the question of order is being discussed and decided upon, unless specially permitted to offer an explanation, retraction, or apology; but obtaining such special permission, such member may explain, retract, or apologise for the matter or remark alleged to have been out of order, and if such explanation, retraction, or apology be deemed satisfactory, no further discussion upon the question of order shall be permitted. If any member on being called to order, shall ask such permission to explain, retract, or apologise as aforesaid, the Mayor or Chairman may of his own authority grant or refuse such permission as he may think fit, unless any member shall require the sense of the Council to be taken on this question. In such case it shall be the duty of the Mayor or Chairman to take the sense of the Council at once, and without discussion, as to whether such permission shall be granted, and when any such explanation, retraction, or apology shall have been made or offered by permission of the Mayor or Chairman, the latter shall in like manner decide, or if required to do so, shall take the sense of the Council as to whether such explanation, retraction, or apology is considered sufficient. If such permission be refused, or if such explanation, retraction or apology be considered insufficient, the question of order shall be considered and decided before any further business is proceeded with: Provided that if such Mayor or Chairman shall have decided the question of order before any member shall have required the sense of the Council to be taken in reference thereto, such question of order shall not be reopened: And provided further that nothing herein contained shall be held to affect the right of such Mayor or Chairman to decide finally, as hereinbefore provided, upon any such point of order, after the same shall have been discussed.

Decision of points of order

49. The Mayor or Chairman when called upon to decide points of order or practice shall state the provision, rule, or practice, which he shall deem applicable to the case without discussing or commenting upon the same.

Motions out of order to be rejected.

Members to explain, retract, or apologise, &c.

50. Whenever it shall have been decided as aforesaid that any motion, amendment, or other matter before the Council is out of order, the same shall be rejected, and whenever anything said or done in Council by any Alderman shall be similarly decided to be out of order, such Alderman shall be called upon by the Mayor or Chairman to make such explanation, retraction, or apology, as the case may require.

Penalties for persisting in disorderly conduct.

51. Any member of the Council who shall have been called to order, and who, after having been twice directed to withdraw as aforesaid, shall refuse to do so, or who shall persist in any line of conduct or argument, or of observations which shall have been decided as aforesaid to be disorderly, or who shall refuse to make such explanation, retraction, or apology as aforesaid, when required so to do, or who shall be guilty of any other act of disorder, and shall refuse to make such ex-

planation, retraction, or apology, as the majority of the Aldermen then present shall consider satisfactory, shall be liable on conviction for the first offence to a penalty of not less than ten shillings nor more than five pounds; and on a second conviction for a like offence he shall be liable to a penalty of not less than one pound nor more than ten pounds; and on the third conviction and for every further conviction for the like offence, he shall be liable to a penalty of not less than two pounds nor more than twenty pounds.

*Power of Council as to altering Rules on points of order.*

52. Any Alderman who is dissatisfied with the decision of the Mayor or Chairman on any such question of order or practice may, by motion on notice, respectfully worded, invite the Council to lay down a different rule or principle for the determination of any similar questions of order or of practice which may thereafter arise. Any rule or principle thus laid down shall be binding upon all parties unless and until it be rescinded; but shall have no retrospective operation.

#### *Mode of Voting.*

*How questions are to be put.*

53. The Mayor or Chairman shall put to the Council all questions on which it shall be necessary that a vote be taken, and shall declare the sense of such Council thereon; and he shall be at liberty to put any such question as often as may be necessary to enable him to form and declare his opinion as to the opinion of the majority.

*Divisions.—Penalty for refusing to vote.*

54. Any Alderman shall be at liberty to call for a division; in such case the question shall be put first in the affirmative and then in the negative; and the Aldermen shall vote by show of hands, and the names and votes of the Aldermen present shall be recorded. Any Alderman who shall be present when a division is called for, and shall not vote on such division, not being disabled by law from so voting, shall be liable for every such offence to a penalty of not less than ten shillings nor more than five pounds.

#### *Protests.*

*Mode of protesting.—Protest to be recorded but may, under certain circumstances, be expunged.*

55. Every member of the Council (the Mayor included) may protest against any resolution or vote by the Council; notice of the intention so to protest must, however, be given at the meeting when such resolution is passed or such vote is arrived at, and the protest itself must be handed or sent to the Council Clerk not later than seven days after such notice. The Council Clerk shall enter every such protest in the Minute-book, but if in the opinion of the Council it be inconsistent with the truth, or disrespectfully worded, it may (by resolution on notice) be ordered to be expunged. In such case the expunction shall be made by drawing a perpendicular line with the pen through the entry of such protest, with reference in the margin to the resolution ordering such expunction.

*Committee of the whole Council.—Business in Committee.*

56. The business Committees of the whole Council shall be conducted in accordance with the rules hereinbefore provided for meetings of the Council as nearly as the same shall apply, except that it shall not be necessary that any motion or amendment in Committee shall be seconded.

*Disorderly conduct in Committee.—Refusal to vote.*

57. Whenever any member of the Council shall, while the Council is in Committee of the whole, be considered guilty of an offence against good order, it shall be competent to any Alderman to move that the Council resume its sitting and that such matter be reported, and if such motion be carried such matter shall be reported accordingly and an entry of such report shall be made in the minute-book; and whenever any Alderman shall have failed to vote on any occasion in Committee of the whole Council as required by section 54 of this Part of these By-laws, the facts shall be reported to the Council and such report on such facts shall be duly recorded in the Minute-book: Provided that in the case of an Alderman failing to vote as aforesaid no special motion that the Council resume its sitting shall be necessary; but it shall be the duty of the Chairman of such Committee of the whole in making his report of the proceedings in such Committee whenever such report may be made, to include in such report a statement of such failure to vote as aforesaid and of the question as to which such Alderman has so failed to vote.

*Decisions in Committee on points of order may be reported.*

58. Whenever a decision upon any question of order shall have been given by the Chairman of a Committee of the whole Council, under the provisions of section 45 of this Part of these By-laws, any Alderman may move that such decision be embodied in the report to the Council of the proceedings in such Committee; and if such motion be carried such decision shall be so embodied in such report whenever the same shall be made.

*How progress may be reported, &c.*

59. Any Alderman may at any time during the sitting of a Committee of the whole Council move that the Chairman report progress (or no progress as the case may be), and that leave be asked to sit again at a later period of the same day, or on some other day, or that no leave be asked to sit again; and if any such motion be carried, the Council shall resume its sitting and a report shall be made accordingly; but no discussion shall be permitted on any such motion, and if the same be negatived the subject then under consideration shall be discussed before another such motion shall be receivable.

*Report of proceedings in Committee.—Want of quorum in Committee.*

60. All reports of proceedings in Committee of the whole Council shall be made to the Council, viva voce, by the Chairman of such Committee, and a report of such proceedings shall be made in every case, except when it shall be found on counting the number of members during the sitting of any such Committee that there is not a quorum present. In the latter case, the sitting of the Council shall be resumed without any motion for that purpose, and the proceedings in Committee shall be considered to have lapsed: Provided that in making any such report as aforesaid, it shall not be necessary to report any such proceedings in extenso, but only to state the result, general effect, or substance of such proceedings.

*How reports are to be dealt with.*

61. All such reports of proceedings in Committee of the whole Council shall be recorded in the Minute-book; but except as hereinafter mentioned, no such report shall be considered as adopted by the Council, nor shall any such application as aforesaid for leave to sit again be considered to have been granted by such Council until a motion shall have been made and passed for such adoption or the granting of such leave, and every such motion for the adoption of a report or for the granting of leave as aforesaid, and the order of debate on such motion shall be subject to all the same rules as other motions in Council, and the order of debate on such other motions: Provided, however, that where a report shall have been made under section 57 of this Part of these By-laws of disorderly conduct in Committee, or under section 54 of this Part of these By-laws of failure to vote on division, or of any decision in Committee upon any question of order, such report shall so far as it relates to such facts be regarded and recorded as a statement thereof, and to that extent shall not, unless for the correction of a manifest error, be interfered with upon any pretext whatever.

#### *Calls of the Council*

*How calls of Council are to be made.*

62. A call of the Council may be ordered by any resolution which may be moved without previous notice, for the consideration of any motion or matter of business before the Council.

*Such call compulsory in certain cases.*

63. There shall, without any special order to that effect, be a call of the Council for the consideration of every motion which may be made under section 52 of this Part of these By-laws, and of every motion for the rescission of any resolution, order, or decision of the Council.

*Mode of proceeding.*

64. The call shall be made immediately before the motion or business for which such call has been ordered shall be moved or considered, and all absent members shall be liable to a penalty of five shillings for such absence, recoverable in a summary manner, provided that the said Council may excuse such absence for any reasonable cause.

#### *Standing and Special Committees.*

*Standing Committees.*

65. There shall be three Standing Committees, namely, a By-law, an Improvement, and a Finance, but the Council shall have power to appoint such further or other Committees as may from time to time be considered necessary. These Committees shall be reappointed every year at the first meeting of the Council which shall be holden after the election of Mayor.

*Mode of reappointing Standing Committees.*

66. The reappointment of such Committees shall be made by ballot; a list or lists of the members shall be handed to each then present, who shall mark against the name of each such member the title of the Committee to which in his opinion such member ought to belong; and the Mayor or Chairman shall thereupon examine such lists so marked and shall declare the result, and if there shall be an equal number of votes for the appointment of any two or more members to any one of such Committees, such Mayor or Chairman shall decide which of such members shall be appointed.

*By-law Committee.*

67. The By-law Committee shall prepare for the consideration of the Council drafts of all such By-laws as may be required for the good government of the Borough. They shall also watch over the administration of the By-laws and of any

statute of which the operation has been or may be extended to the Borough; and shall take such steps as may be necessary for the prevention or punishment of offences against such By-laws or statutes, and for the preservation of public health, order, and decency.

*Improvement Committee.*

63. The Improvement Committee shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, bridges, public reserves, and other public places under the care and management of the Council. They shall also inquire and report from time to time as to such improvements or repairs as they may think necessary, or as they may be directed by resolution of the Council to inquire and report upon.

*Finance Committee.*

69. The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of the Municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect, or to be likely to affect, the finances of the Borough and as to such matters or subjects of the like nature, as they may be directed, by resolution of the Council to inquire and report upon.

*Chairman of Committee.*

70. Every Committee of which the Mayor shall not be a member, shall elect a permanent Chairman of such Committee within seven days after their appointment.

*Records of transaction in Committee.*

71. The Chairman of such Committee shall make or cause to be made, in a book to be kept by him for that purpose, memoranda of all the transactions of such Committee, which book he shall on ceasing to be such Chairman, hand over to his successor.

*Expenditure.*

Except in emergent matters, cost of all work to be estimated before undertaken.

72. With the exception of emergent matters hereinafter specially provided for, no work affecting the funds of the Borough shall be undertaken until the probable expense thereof shall have been first ascertained by the Council.

Emergent matters and necessary current expense—Expenses authorized to be reported—Outlay to be in accordance with orders of the Council.

73. For emergent matters and for necessary current expenses during the intervals which may elapse between the meetings of the Council, outlays to the following extent may be incurred:—

- (1.) By order of the Improvement Committee, or of the Mayor and one member of such Committee, for repairs or emergent works to the extent of five pounds.
- (2.) By order of the Mayor for necessary current expenses, to the extent of two pounds.
- (3.) By order of the Mayor and any two Aldermen, or without the Mayor of any four Aldermen, for any emergent purpose to the extent of five pounds.

Provided, that in every case a detailed report in writing of such outlay shall be laid before the Council at its next meeting; such report to be signed by the Chairman of the Improvement Committee or the Mayor, or the Mayor and Alderman or the Aldermen without the Mayor, as the case may be, by whom such outlay shall have been authorised—also that such outlay shall only be permissible in reference to matters coming strictly within the jurisdiction or functions of the Council, and that no outlay involving a disobedience or evasion of any order or resolution of such Council shall on any pretence be thus authorised.

Claims to be examined and reported upon by the Finance Committee.

74. All accounts and demands of money against or from the Council shall be examined and reported upon by the Finance Committee before any order shall be made for payment of such accounts or demands.

*Certificate required with each claim.*

75. No payment shall be so ordered unless there shall be a certificate or memorandum from the Committee, from the Mayor, or from the officer of the Council to whom the direction or guardianship of such expenditure properly belongs, showing that the demand is a legitimate one and has been duly authorised or required into.

Common seal and records of the Council—Common seal and press how secured—Care of same.

76. The common seal and the press to which the seal is attached shall be secured by a cover or box, which, except when such seal and press are in use, shall be kept locked. There shall be two locks of different construction to this cover or box, and of these two locks the Mayor shall keep one key and the Council Clerk the other, such common seal and press shall be in the custody and care of the Council Clerk.

*When and how common seal to be used.*

77. The common seal shall not be attached to any document without the express order of the Council. In every case when such common seal has been ordered to be attached to any document, such document shall also be signed by the Mayor, or in case of the absence or illness of such Mayor, by two Aldermen and countersigned by the Council Clerk.

*How Books of Account are to be kept and inspected.*

78. The Council Clerk shall keep such books of account and such records, statements, and memoranda of receipts and expenditure in such manner and form as the Council may from time to time direct. It shall be the duty of the Finance Committee to inspect all such books of account, records, statements, and memoranda from time to time, to ascertain that the same are properly kept, and to report at once to the Council any act of neglect or appearance of inefficiency which they may have discovered in the keeping of the same; also to report to the Council from time to time any changes which such Committee may think advisable in the mode of keeping the accounts.

*Impression of seal not to be taken, &c., without leave of Council—Penalties.*

79. No member or officer of the Council shall be at liberty to take any impression of the corporate seal, or to show, lay open, or expose any of the books or records of the Council to any person other than a member of the same without leave from such Council except as otherwise provided by law. Any member or officer of the Council who shall be guilty of a breach of this section, shall be liable on conviction for the first offence to a penalty of not less than five shillings nor more than two pounds; for a second offence to a penalty of not less than one pound nor more than ten pounds; and for a third and every subsequent offence to a penalty of not less than five pounds nor more than twenty-five pounds.

*Records not to be removed, &c.—Penalties.*

80. Any person removing any such book or other record of the Council as aforesaid from the Council Chamber, or the place where, by direction of the Council, such book or other record is usually kept, without leave for such removal having been first obtained from such Council, or without other lawful cause for such removal as hereinafter provided, shall for every such offence be liable to a penalty of not less than ten shillings nor more than ten pounds.

*Penalty for defacing or destroying record.*

81. Any person destroying, defacing, or altering any record of the Council, shall for every such offence be liable to a penalty of not less than five pounds nor more than fifty pounds.

*Officers and servants.*

*Notice to candidates in certain cases.*

82. No appointment to any permanent office at the disposal of the Council to which a salary or allowance of fifty pounds per annum, or a salary or allowance exceeding that amount, is attached, shall be made until public notice shall have been given, as hereinafter provided, inviting applications from qualified candidates for the same. The salary or allowance attached to such office shall in every case be fixed before such notice is given, and shall be stated in such notice.

*Mode of appointment.*

83. Every such appointment shall be made by ballot in such mode as may at the time be determined on.

*Exceptional cases.*

84. Nothing herein contained shall be held to prevent the employment, as may be from time to time found necessary, and as may be ordered by the Council, of any workmen or labourers on the public works of the Municipality.

*Bonds for good conduct.*

85. All bonds given by officers or servants of the Council for the faithful performance of their duties, shall be deposited with the attorney or the bankers of the corporation, as the Council may order, and no officer or servant of the Council shall be received as surety for any other such officer or servant.

*Duties of Council Clerk.*

86. The Council Clerk, in addition to the duties which by the Municipalities Act of 1867, or by the present, or any other By-laws thereunder, he may be required to perform, shall be the Clerk of all Revision Courts held in the Borough, under the provisions of the said Municipalities Act. He shall also, under the direction of the Mayor, conduct all correspondence which may be necessary on the part of the Council; he shall likewise have charge of all the records of such Council, except such books or documents as may (as hereinafter provided) be entrusted to any other officer, and shall be responsible for the safe keeping of such records; he shall generally assist the Mayor in the performance of his duties and in carrying out the orders of the Council; the Council Clerk shall also have charge of such books of account and other records of the Council, as are mentioned in sections 78, 79, 80, and 81 of these

By-laws, and shall be responsible for the safe keeping of the same; any other officer of the Council may have any other records thereof committed to his charge by an order of the Council, and in such case shall be responsible for the safe keeping of such records.

**Duties of other officers and servants.**

87. The duties of all officers and servants of the corporation shall be defined by such regulations as may from time to time, and in accordance with law, be made.

**Special powers of Mayor.**

88. The Mayor shall exercise a general supervision over all officers and servants of the corporation, and may order the preparation of any such return or statement, or the giving of any such explanation or information by any such officer or servant as he may think necessary, unless such return or statement shall have been already prepared, or such explanation or information already given; and such return, statement, explanation, or information is on record or hereinbefore provided; or unless the Council shall have expressly forbidden or dispensed with the preparation of such return or statement, or the giving of such explanation or information; all such returns or statements as aforesaid shall be in writing, and shall be recorded; all such explanation or information may, except as hereinafter provided, be either rendered *viva voce*, or put into writing as the Mayor may direct.

**How complaints against officers, &c., are to be dealt with.**

89. All complaints against officers or servants of the corporation must be in writing and addressed to the Mayor, and must in every case be signed by the person or persons complaining; and no notice whatever shall be taken of any complaint which is not in writing, or is anonymous; all such complaints as aforesaid shall be laid by the Mayor before the Council, at the next meeting thereof, which shall be holden after the Mayor shall have received the same, and shall be duly recorded.

**Miscellaneous.**

**Leave of absence.**

90. No leave of absence shall be granted to the Mayor or to any Alderman otherwise than by resolution of the Council, adopted after due notice.

**Motions for rescission of previous orders, &c.**

91. Whenever a motion for the rescission of any order, resolution, or vote of the Council shall have been negatived, no other motion to the same effect shall be permissible until a period of three months shall have elapsed from the time of negativing such first-mentioned motion: Provided that nothing herein contained shall be held to prohibit the reconsideration and amendment of any proposed By-laws which may have been submitted to the Governor for confirmation, and may have been remitted to the Council with suggested amendments of the same, or the passage, after due notice as hereinbefore provided, and in due course of law, of any By-law, for the repeal or amendment of any other By-law.

**Lapsed business.**

92. Whenever the consideration of any motion or matter of business shall have been interrupted, by reason of a quorum not having been present, the resumption of such consideration may be ordered by resolution of the Council, after due notice; and such consideration shall in such case be resumed at the point where it was so interrupted as aforesaid.

**Suits and prosecutions for penalties, &c.**

93. Such suits or informations for the enforcement of penalties for or in respect of breach of the Municipalities Act of 1867, or of any By-law made thereunder, or of any statute, the operation of which may have been extended to the Municipality as may have been directed by the Council, shall be so commenced or laid by the solicitor of the Municipality, or by any officer named by the Council for that purpose, imposing the penalty sought to be imposed; and no such suit shall be brought or information laid as aforesaid against any member of the Council, or auditor, or servant, except on an express resolution of the Council.

**How to suspend temporarily certain portions of these By-laws.**

94. Any of the foregoing By-laws, or any portion thereof that relate to or affect the proceedings at meetings of the Council, may be suspended *pro tempore* without notice, in cases of emergency, if all the members of the Council then present deem such suspension necessary.

**PART II.**

**Collection and enforcement of rates.—Rates when due and payable.**

1. All rates levied and imposed by the Council shall be held to be due and payable on and after such day or days as the Council shall by resolution, without any notice of motion, from time to time appoint.

**Office hours.**

2. All rates shall be paid at the Council Chambers during the hours appointed by the Council for that purpose.

**Defaulters.**

3. Every person not paying his or her rates as aforesaid upon the day or days so appointed for payment thereof, shall be deemed a defaulter, and it shall be the duty of the Council Clerk to furnish the Mayor from time to time with a list of the names of all persons so in default.

**Mayor to enforce payment.**

4. It shall be the duty of the Mayor to take proceedings to enforce payment of all rates in default, either by action at law or by issuing warrants of distraint upon the goods and chattels of the defaulter.

**Enforcement by distress.—Bailiff.**

5. A Bailiff shall, when found necessary, be appointed by the Mayor.

**Bailiff's sureties.**

6. The Bailiff shall find two sureties to the satisfaction of the Mayor, to the extent of twenty-five pounds each, for the faithful performance of his duty.

**Duty of Bailiff.**

7. It shall be the duty of the Bailiff to make all levies by distress for the recovery of rates in the manner hereinafter provided.

**Warrant of distress.**

8. All levies and distresses shall be made under warrant, in the form of Schedule A hereto, under the hand of the Mayor, or any Alderman who may for the time being be duly authorised to perform the duties of that office.

**Distress and sale, &c.**

9. If the sum for which any such distress shall have been made shall not be paid, with costs as hereinafter provided, on or before the expiration of five days, the Bailiff shall sell the goods so distrained, or a sufficient portion thereof, by public auction, either on the premises or at such other place within the said Municipality as the Bailiff may think proper to remove them to for such purposes; and shall pay over the surplus (if any) that may remain, after deducting the amount of the sum distrained for and costs, as hereinafter provided, to the owner of the goods so sold, on demand of such surplus by such owner.

**Inventory.**

10. At the time of making a distress the Bailiff shall make out a written inventory in the form of Schedule B hereto, which inventory shall be delivered to the occupant of the land or premises or the owner of the goods so distrained, or to some person on his or her behalf, resident at the place where the distress shall be made, and in case there shall be no person at such place with whom such inventory can be left as aforesaid, then such inventory shall be posted on some conspicuous part of the land or premises on which the distress is made, and the Bailiff shall give a copy of the inventory to the ratepayer on demand, at any time within one month after making such distress, and shall give a copy of the inventory to the Council Clerk.

**Goods may be impounded.**

11. The Bailiff on making a distress as aforesaid, may impound or otherwise seize the goods or chattels so distrained, of what nature or kind soever, in such place or places, or in such part of the land or premises chargeable with rates, as shall be most fit and convenient for this purpose; and it shall be lawful for any person whomsoever after the expiration of the five days, as hereinbefore mentioned, to come and go to and from such place, or part of the said land or premises where such goods or chattels shall be impounded or secured as aforesaid, in order to view and buy, and in order to carry off and remove the same, on account of the purchaser thereof.

**Owner to direct order of sale.**

12. The owner of any goods or chattels so distrained upon may at his or her option direct and specify the order in which they shall be successively sold, and the said goods or chattels shall in such case be put up for sale according to such direction.

**Proceeds of distress.**

13. The Bailiff shall hand over to the Council Clerk all proceeds of every such distress within forty-eight hours after having received the same.

**Costs.**

14. There shall be payable to the Bailiff for the use of the Council, for every levy and distress made under this By-law, the costs and charges in the Schedule herunto annexed marked C.

**Deputy.**

15. The Bailiff may, with the sanction in writing of the Mayor, or in his absence with the sanction of any two Aldermen of the Municipality, authorise by writing under his hand any person to act temporarily as his deputy, and the person so authorised shall have and exercise all the powers of the Bailiff himself, but the Bailiff and his sureties shall in every case be responsible for the acts of such deputy.

**SCHEDULE A.**

**Warrant of distress.**

I, Mayor of the Borough of Stockton, do hereby authorise you, the Bailiff of the said Borough, to distrain the goods and chattels in the dwelling-house (or in and upon the land and premises) of situated in street, Stockton, for being the amount of rates due to the said Borough, to the day of for the said dwelling-house (or land or premises) and to proceed thereon for the recovery of the said rates according to law.

**SCHEDULE B.**

**Inventory.**

I have this day in virtue of the warrant under the hand of the Mayor of the Borough of Stockton, dated distrained the following goods and chattels in the dwelling-house (or in and upon the land and premises) of situated in street, Stockton, within the said Borough for being the amount of rates due to the said Borough to the day of

Dated this day of Bailiff.

**SCHEDULE C.**

**Costs.**

	s.	d.
For every warrant of distress .....	2	6
For every levy .....	2	6
For man in possession each day or part of a day .....	5	0
Inventory, sale, commission, and delivery of the goods, 5 per cent. on the net proceeds of the sale.		

**PART III.**

**Preventing and extinguishing fires, fire or combustible materials, &c.**

1. Every person who shall place, or knowingly permit to be placed, in any house, yard, work shop, out-offices, or other premises, fire, gunpowder, or combustible or inflammable materials of any kind, in such manner as to endanger contiguous buildings, shall on conviction for every such offence forfeit and pay a penalty of not more than five pounds, and shall forthwith remove such fire, gunpowder, or combustible or inflammable materials, and every such person who shall suffer any such fire, gunpowder, or combustible or inflammable materials to remain as aforesaid for forty-eight hours after any such conviction, shall be deemed guilty of a further offence against this By-law.

**Inflammable fences, &c**

2. Every person who shall erect any fence of brushwood, bushes, or other inflammable materials, or shall make or place any stack of hay, corn, straw, or other produce or place as for the covering of any such stack, any inflammable material, so as to endanger contiguous buildings or properties, or any trees, slumps, or other produce of such properties, or any chattels in or upon such buildings or properties shall forfeit on conviction for every such offence a penalty of not more than five pounds, and also shall remove such fence, stack, or covering within a reasonable time after such conviction, and any person failing to remove such fence, stack, or covering within a reasonable time after any such conviction as aforesaid, shall be deemed guilty of a further offence against this By-law.

**Fireworks &c.**

3. Every person who shall light any bon-fire, tar barrel, or firework upon or within 60 yards of any public or private street or any public place, or shall discharge any firearms without lawful cause within the boundaries of the Borough shall forfeit a sum not exceeding five pounds.

**Wilfully setting fire to chimneys.**

4. Every person who wilfully sets or causes to be set on fire any chimney, flue, smoke vent, or stove-pipe herein called in common a chimney, shall forfeit a sum not exceeding five pounds: Provided always that nothing herein contained shall exempt the person so setting or causing to be set on fire any chimney, from liability to be informed against or prosecuted before any Criminal Court for such act as for an indictable offence.

**Setting fire to matter without notice.**

5. Every person who shall wilfully set fire to any inflammable matter whatsoever in the open air within five yards of any dwelling-house, or other building, or boundary or dividing fence within the said Borough without having given notice in writing to the occupiers of the land adjoining to the land upon which such matter shall be, of his intention so to do, or between the hours of six in the afternoon of any day and six in the morning of the following day, shall for every such offence forfeit a sum not exceeding five pounds.

**Water-carts to attend at fires.**

6. Every owner and driver of a licensed water-cart shall keep such cart loaded with water during all times after sunset and before sunrise, and shall if any building, premises, or property shall be on fire within the Municipality attend at the place of such fire with such cart loaded with water, and shall continue to cart water by full loads to such place and shall deliver such water in such manner as may be required by the Mayor or by any Alderman or officer or person duly authorised by the Council in that behalf, and then present for extinguishing such fire; and every such owner or driver who shall without reasonable excuse fail to comply with the provisions of this section, shall forfeit a sum not exceeding ten pounds.

**Compensation for attendance at fires—Rewards.**

7. There shall be paid out of the Municipal funds to the owner of every licensed water-cart who shall have attended with any water at the place of any fire as herein provided and delivered the same as required for extinguishing such fire such reasonable compensation as the Council shall by resolution have appointed in that behalf, and also to the owners of such carts as shall have first and second attended with loads of water such further sums, by way of reward, as the Council may by similar resolution have fixed.

**PART IV.**

**Mode of calling for Tenders.**

1. Whenever it is decided that any work shall be executed or any materials supplied by contract, tenders for the execution of such work or the supply of such material shall be called for by public notice as hereinafter provided.

**Drafts of intended By-laws.**

2. A draft of every intended By-law shall lie in the office of the Council for at least seven days before such draft shall be taken into consideration by such Council and shall be open to the inspection of any ratepayer who may desire to inspect the same, and public notice shall be given as hereinafter provided that such draft is so lying for inspection.

**How notices are to be published.**

3. In all cases where public notice is or shall be required to be given by any By-law of any appointment, resolution, act, order, or regulation of the Council or any Committee thereof, or by the Mayor or any officer of the said Council, such notice shall be given and published by posting the same on or near the outer door of the Council Chambers for the space of seven days and by advertising the same in some newspaper circulating in the Municipality.

**Persons obstructing officers of the Council.**

4. Any person or persons who shall obstruct any officer or the said Council while in the performance of his duty, or who shall interfere with any officer of the said Council doing, or performing, or going to perform, or returning from the performance of any duty or act under these By-laws by using any threats, offensive language, hindrance, or insulting language towards the said officer in any street, road, or other place within the said Municipality shall forfeit and pay for every such offence a penalty not exceeding twenty pounds nor less than two pounds.

**Plans of proposed new road, &c. to be deposited.**

5. Whenever any proprietor or proprietors of land within the said Municipality shall open any road, street, or way or lay out any park or other place for public use or recreation through or upon such land and shall be desirous that the Council shall undertake the care and management of such road, street, way, reserve, or other place, he or they shall furnish the Council with a plan or plans signed by himself or themselves, showing clearly the position and extent of such road, street, way, reserve, or other place as aforesaid.

**Dedications of new roads, &c.**

6. If the Council determine to take charge of any such road, way, or other place as aforesaid, the plan or plans, so signed as aforesaid, shall be preserved as a record or records of the Council, and the proprietor or proprietors aforesaid shall execute such further instrument dedicating such road, way, reserve, or other place, to public use or recreation as aforesaid, as may be considered necessary by the Improvement Committee, and such further instrument of dedication shall also be preserved as a record of the Council.

**Change of street levels.**

7. Whenever it may be deemed necessary to alter the level of any such public road, street, or way as aforesaid, the Council shall cause a plan and section showing the proposed cuttings to be exhibited at the Council Chamber for fourteen days, for the information and inspection of ratepayers, and shall notify by advertisement in some newspaper circulating in the Municipality, that such plan is so open to inspection; at a subsequent meeting of the Council the said plan and section shall, if adopted, be signed by the Mayor or Chairman, and the proposer and seconder of the motion for such adoption, and countersigned by the Council Clerk, and such plan and section so signed and countersigned, shall be a record of the Council.

## Improvement Committee to fix street levels, &amp;c.

8. The Improvement Committee, or any officer or person acting under the supervision of such Committee, shall, subject to such orders as shall from time to time be made by the Council in that behalf, fix and lay out the levels of the public roads, streets, and ways within the Municipality, and the carriage and foot ways thereof; and it shall be the duty of such Committee, officer, or person, to place posts at the corners or intersections of any such public roads and streets, and of the carriage-ways and footways of such roads and streets, whenever the same may be considered necessary or desirable by the Council: Provided that there shall be no change of levels in any such public road, street, or way, until the same shall have been submitted to and adopted by the Council as hereinafter directed.

## Kerbing, flagging, and tar-paving.

9. The Council may cause the footway or pathway in front of any house or ground along any street, private street, or lane within the Municipality, to be kerbed and flagged or asphalted in such manner as the Council may think fit, that one-half the amount of the cost of kerbing be borne and paid by the owner of such house or ground, and one-half the expense of asphalted be borne and paid by the said owner of such house or ground; such costs may be recovered from the owner of such house or ground in a summary way before any two Justices of the Peace: Provided also, that no proceeding for the recovery thereof shall be taken until at least one month after a requisition for payment of the amount, together with an account of the total expenditure, signed by the Council Clerk, has been delivered to such owner.

## Erection of house—fee for permission, &amp;c.

10. No person shall be permitted to erect any house, shop, or other building, in any street lane, or place within the said Municipality without first serving seven days notice in writing on the Mayor or Council Clerk, or other duly authorised officer, before commencing the same, stating his intention, setting out a plan, and giving particulars of the proposed building, and, at the time the said notice is given, paying to the Council Clerk, or other duly authorised officer, a fee of five shillings for permission to erect such house, shop, or other building, and every owner of, every contractor for, such house, shop, or other building, or any part thereof, commencing to build or work thereon without such notice having been given, shall forfeit and pay for every such offence any sum not exceeding forty shillings nor less than five shillings.

## Pipes, gutters, &amp;c.

11. It shall not be lawful for any person to carry by means of pipes, gutters, or other contrivances, any rain-water from the roof of his or her premises or house upon any of the footways of any street or public place within the said Municipality, and any owner or occupier of any such house or premises who shall neglect or refuse to remedy or remove any such pipes, gutters or contrivances when required to do so by any officer of the said Council, shall on conviction forfeit and pay any sum not exceeding two pounds nor less than five shillings: Provided that the owner or occupier of any such premises or house may convey any such rain-water by means of pipes laid under the surface of any such footways into the gutter adjoining the same, subject to the approval of the Improvement Committee or other duly authorised officer.

## No balcony, &amp;c., to project.

12. With regard to buildings hereafter to be built or rebuilt, it shall not be lawful for any awning, verandah, portico, coping, parapet, overhanging eaves, cornice, windows, string-cornice, string-course dressing, or other architectural decoration forming part of or attached to any external wall to project beyond the building line of any street or road, except with the consent of the Council first obtained, nor shall any balcony, or any other external projection as aforesaid, which may hereafter be added to any existing building, be allowed to project as aforesaid, under a penalty not exceeding five pounds nor less than one pound, except with the consent of the Council first obtained: Provided that no such awning, verandah, portico, or balcony shall be permitted to be erected in any street less than thirty feet wide: Provided also that any person desiring to erect any such structure shall first submit a plan for the approval of the Council.

## Encroachments must be removed on notice.

13. The Surveyor or any other such officer or person may, at any time on the order of the Council, and upon due notice of thirty days, direct the removal of any building, fence, or other obstruction or encroachment in and upon any road, street, lane, or thoroughfare under the charge of the Council. Notice shall in this case be served either personally or at the usual or last known place of abode of the person to whom such obstruction or encroachment in structure belongs, or who has erected the same, or caused it to be erected.

## Council may remove encroachments.

14. In any case where, after service of notice for the removal of any obstruction or encroachment as aforesaid, the person causing the same shall not remove it within a reasonable time, it shall be lawful for the Council to direct the removal of the same, under the superintendence of its own proper officer, and at the cost of the person so offending: Provided that the expense thereby incurred shall in no case exceed the sum of ten pounds, or at the Council's option to proceed against the offender for breach of By-law, the penalty not to exceed twenty-five pounds nor be less than one pound, and in case of every successive offence the penalty on conviction not to be less than five pounds.

## Or may proceed by action.

15. In every case where the obstruction or encroachment cannot be removed unless at a greater cost than ten pounds, it shall be open to the Council either to direct such removal, and to pay all the costs thereof above ten pounds from the funds of the Council, or to proceed by action for trespass against the person causing such obstruction or encroachment, or to proceed as for a breach of such By-law as aforesaid.

## To apply also to obstructions by digging, &amp;c.

16. The foregoing provisions shall be equally applicable to all obstructions by digging or excavations, and any person who shall wilfully obstruct or interfere with the Surveyor or other officer as aforesaid, or any person acting for or under him, or either of them, in the exercise of any of the duties or powers by these By-laws imposed or cast on the said Surveyor or officer, shall on conviction forfeit and pay a penalty of not less than two pounds or more than twenty pounds.

## Hoards or fences to be erected.

17. Every person intending to build or take down any building within the limits of the Municipality, or to cause the same to be so done, or to alter or repair the outward part of any such building, or to cause the same to be done, where any street or footway will be obstructed or rendered inconvenient by means of such work, shall, before beginning the same, cause sufficient hoards or fences to be put up in order to separate the building where such works are being carried on from the street with a convenient platform and handrail, if there be room enough to leave as a footway for passengers outside of such hoard or fence, and shall continue such hoard or fence with such platform and handrail as aforesaid standing in good condition to the satisfaction of the officer of the Council of the said Borough during such time as the public safety or convenience requires, and shall in all cases in which it is necessary in order to prevent accidents cause the same to be sufficiently lighted during the night; and any such person who shall fail to put up such fence, or hoard, or platform, with such handrail as aforesaid, or to continue the same respectively standing in good condition as aforesaid during the period of such building or taking down, or who shall not while the said hoard or fence is standing keep the same sufficiently lighted in the night, or who shall not remove the same when directed by the officer of the Council of the said Municipality within a reasonable time afterwards, shall for every such offence be liable to a penalty not exceeding forty shillings for every day such default is continued.

## No turf, gravel, &amp;c., to be removed from the streets without permission.

18. Any person who shall form, dig, or open any drain or sewer, or remove or cause to be removed any turf, clay, sand, soil, gravel, stone, or other material in or from any part of the carriage or foot way of any street or public place within the said Municipality without leave first had and obtained from the Council, or who shall wantonly break up or otherwise damage any such carriage or foot way, shall on conviction forfeit and pay for every such offence any sum not exceeding five pounds nor less than one pound.

## Holes to be enclosed.

19. Any person or persons who shall dig or make, or cause to be dug or made, any hole, or leave or cause to be left any hole adjoining or near to any street or public place within the said Municipality, for the purpose of making any vault or vaults, foundation, or to any house or other building, or for any other purpose whatsoever, or shall erect or pull down any building, and shall not first enclose the same, and keep the same enclosed in a good and sufficient manner, to the satisfaction of the Improvement Committee or authorised officer of the said Municipality, or shall keep up or cause to be kept up and continued any such enclosure for any time which shall be longer than shall be absolutely necessary in the opinion of the said Improvement Committee or authorised officer, and shall not place lights upon each side of the said enclosure, and keep the same constantly burning from sunset to sunrise during the continuance of such enclosure, shall forfeit and pay for every such refusal or neglect any sum not being less than forty shillings nor exceeding five pounds.

Open spaces and steps adjoining the footways to be enclosed under penalty.

20. Every owner or occupier of any house, building, premises, or land within the said Municipality having any entrance, area, garden, or other open space, or any vacant building lot, water-hole, or excavated space, adjoining the footway of any street or public place in such Municipality, shall protect and guard the same by good and sufficient paling fence so as to prevent danger to persons passing and repassing; and every such owner or occupier of any such house, building, premises, or land, having any steps adjoining the footway of any such street or public place shall in like manner protect and guard the same by fences, rails, or other enclosures, so as to prevent the like danger to persons passing and repassing, and on failure thereof every such owner or occupier shall, as often as he shall be convicted of such offence, forfeit and pay any sum not being less than forty shillings nor more than five pounds; and every such owner or occupier as aforesaid who shall fail to erect such rails, fences, or other enclosures as aforesaid, within seven days after any such conviction as aforesaid, shall be deemed guilty of a further offence against this By-law.

Wells to be covered over—Penalty.

21. Every person who shall have a well or underground tank, used for domestic or other purposes, situated between his or her dwelling-house or the appurtenances thereof, and any road, street, or footway within the limits of the said Municipality, or at the side of or in any yard or place open or exposed to such road, street, or footway, shall cause such well to be securely and permanently covered over, and if any person having such well or underground tank as aforesaid shall fail to cover over and secure the same within twenty-four hours after notice in writing shall have been given to him or her by any officer of the said Council, or shall have been left for such person at his or her usual or last known place of abode, or on the said premises, shall on conviction forfeit and pay the sum of ten shillings, and for every day after such notice that such well shall remain open or uncovered contrary to the provisions hereof, such person shall be deemed guilty of a separate offence against this By-law.

Temporary stoppage of traffic for repairs, &c.

22. The Improvement Committee or any officer or person acting under the authority of such Improvement Committee may at any time cause the traffic of any street, lane, or thoroughfare, or any portion thereof to be stopped for the purpose of repairing the same, or for any necessary purpose, and any person or persons offending against this By-law, either by travelling on such street, lane, or thoroughfare, or by removing or destroying any obstruction that may be placed thereon for the purpose of suspending the traffic, shall forfeit and pay a penalty of any sum not exceeding five pounds for every such offence.

Drawing or trailing timber, &c.

23. Any person who shall haul or draw, or cause to be hauled or drawn upon any part of any street or public place within the said Municipality any timber, stone, or other things otherwise than upon wheeled vehicles or barrows, or shall suffer any timber, stone, or other thing which shall be carried principally or in part upon any wheeled vehicle or barrow to drag or trail upon any part of such street or public place, to the injury thereof, or to hang over any part of any such vehicle or barrow, so as to occupy or obstruct the street beyond the breadth of the said vehicle or barrow, shall upon conviction forfeit and pay for every such offence a sum of not more than forty shillings nor less than five shillings over and above the damages occasioned thereby.

Driving carriages, &c., on footways, and throwing stones, &c.

24. Any person who shall throw, cast, or lay, or shall cause, permit, or suffer to be thrown, cast, or laid, or to remain, any ashes, rubbish, offal, dung, soil, dead animal, blood, or other filth or annoyance, or any matter or thing in or upon the carriage-way or footway of any street or other public place in the said Municipality, or shall kill, slaughter, dress, scald, or cut up any beast, swine, calf, sheep, lamb, or other animal in or so near to any such street or other public place as that any blood or filth shall run or flow upon or over, or be on any or either of any such carriage or foot way, or shall run, roll, drive, draw, place, or cause, permit, or suffer to be run, rolled, driven, drawn, or placed upon any of the said footways of any such street or public place any waggon, cart, dray, sledge or other carriage or any wheel, wheelbarrow, handbarrow, or truck, or any hogs-head, cask, or barrel, or shall wilfully lead, drive, or ride, any horse, ass, mule or other beast upon any such footway, shall upon conviction forfeit and pay for the first offence a sum not exceeding forty shillings nor less than five shillings; for the second offence: a sum not exceeding five pounds nor less than ten shillings; and for a third and every subsequent offence, a sum not exceeding ten pounds nor less than one pound for each such offence; and should the person in charge of such waggon, cart, dray, or other vehicle refuse to give his name and address the owner of the same may be prosecuted under this By-law for causing a breach of the same.

Placing carriages, goods, &c., on footways, &c.—Not removing when required.—Replacing the same after removal.—Not to prevent awnings being erected in front of shops.

25. Any person who shall set or place, or cause or permit to be set or placed, any stall, board, chopping-block, show-board (on hinges or otherwise), basket, wares, merchandise, casks, or goods of any kind whatsoever, or shall hoop, place, wash, or cleanse, or shall cause to be hooped, placed, washed, or cleansed any pipe, barrel, cask, or vessel in or upon or over any carriage or foot way in any street or public place within the said Municipality, or shall set out, lay, or place, or shall cause or procure, permit or suffer to be set out, laid, or placed any coach, cart, wain, waggon, dray, wheelbarrow, handbarrow, sledge, truck, or other carriage upon any such carriage-way, except for the necessary time of loading or unloading such cart, wain, waggon, dray, sledge, truck, or other carriage, or taking up or setting down any fare, or waiting for passengers when actually hired, or harnessing or unharnessing the horses or other animals from such coach, cart, wain, waggon, dray, sledge, truck, or other carriage; or if any person shall set or place, or cause to be set or placed in or upon or over any such carriage or foot way any timber, stones, bricks, lime, or other materials or things for building whatsoever (unless the same shall be enclosed as herein directed), or any other matters or things whatsoever, or shall hang out or expose, or shall cause or permit to be hung out or exposed, any meat or offal or other things or matter whatsoever from any house or other building or premises over any part of any such footway or carriage-way, or over any area of any house or other building or premises or any other matter or thing from and on the outside of the front or any other part of any house or other building or premises, or over or next unto any such street or public place, and shall not immediately remove all or any such matters or things, being thereto required by the Inspector of Nuisances or other proper officer of the Council; or if any person who, having in pursuance of any such requisition as aforesaid, removed or cause to be removed any such stall, board, show-board, chopping-block, basket, wares, merchandise, casks, goods, coach, cart, wain, waggon, dray, wheelbarrow, handbarrow, sledge, truck, carriage, timber, stones, bricks, lime, meat, offal, or other matters or things, shall at any time thereafter again set, lay, or place, expose or put out, or cause, procure, permit, or suffer to be set, laid, placed, exposed, or put out the same or any of them, or any other stall, board, show-board, chopping-block, basket, wares, merchandise, goods, timber, stones, bricks, lime, coach, cart, wain, waggon, dray, truck, wheelbarrow, handbarrow, sledge, meat, offal, or other things or matters whatsoever, save and except as aforesaid, in, upon, or over any such carriage or foot way of or next unto any such street or public place as aforesaid, shall upon conviction for every such offence forfeit and pay for the first offence a sum not exceeding forty shillings nor less than five shillings; for the second offence, a sum not exceeding five pounds nor less than ten shillings; and for a third and every subsequent offence a sum not exceeding ten pounds nor less than one pound: Provided that nothing herein contained shall be deemed to prevent any person from placing an awning in front of his or her shop or house in such a manner as that such awning shall be at least seven feet above the height of the footway, and that the posts be placed close to the kerbstone or outer edge of such footway.

Obstructing public pathways.

26. If the owner or occupier of any land situate on the side of any street or road in this Municipality shall permit any tree, shrub, or plant kept for ornament or otherwise, to overhang any footpath or footway on the side of any such street or road, and, on demand made by the Council, shall not cut, lop, or cause to be lopped, all such trees, shrubs, or plants, to the height of ten feet at the least, the said Council, by their servants, labourers, and workmen, may cut or cause to be cut or lopped all such overhanging trees, plants, or shrubs, and to remove or burn any such trees, plants, or shrubs so cut or lopped without being deemed a trespasser or trespassers, and in case any person or persons shall resist or in any manner forcibly oppose the said Council, or their servants, labourers, or workmen in the due execution of the powers given in this behalf by virtue of the Municipalities Act of 1867, every person so offending shall on conviction for every such offence forfeit and pay any sum not exceeding ten pounds nor less than one pound.

Slop, night-soil, &c., to be conveyed away only at certain hours.

27. Any person or persons who shall drive or cause to be driven any cart or other carriage with any night-soil or ammoniacal liquor therein through or in any street or public place within the said Municipality between the hours of five o'clock in the morning and ten o'clock at night, or shall fill any cart or other carriage so as to turn over or cast any night-soil, ammoniacal liquor, slop, mire, or channel dirt or filth, in or upon any such street or public place, or shall deposit night-soil, ammoniacal liquor, or other offensive matter nearer to any street, road, or dwelling-house, than shall be directed by the said Council, or by the Inspector of Nuisances, or shall remove night-soil or other offensive matter otherwise than in

properly covered and watertight carts or other vehicles, or shall cause any vehicle used for this purpose to stand on any premises nearer to any road, street, or dwelling-house than shall be directed by the said Council or the said Inspector of Nuisances, shall for every such offence forfeit and pay any sum not exceeding five pounds; and in case the person so offending shall not be known to the said Council or Inspector, then the owner of such cart or carriage in which such night-soil or other offensive matter shall be put or placed, and also the employer of the person so offending, shall be liable to and forfeit and pay such penalty as aforesaid.

*Riding on drays, carelessly driving, &c.*

28. If the driver of any waggon, wain, cart, or dray of any kind, shall ride upon any such carriage in any street as aforesaid, not having some person on foot to guide the same (such carts as are drawn by one horse and driver, or guided with reins only, excepted), or if the driver of any carriage whatsoever shall wilfully be at such a distance from such carriage, or in such a situation whilst it shall be passing upon such street that he cannot have the direction and government of the horse or horses or cattle drawing the same, or if the driver of any waggon, cart, dray, or coach, or other carriage whatsoever, meeting any other carriage, shall not keep his waggon, cart, dray or coach, or other carriage, on the left or near side of the road, street, or thoroughfare, or if any person shall in any manner wilfully prevent any other person or persons from passing him or her, or any carriage under his or her care, upon such street, or by negligence or misbehaviour prevent, hinder, or interrupt the free passage of any carriage or person in or upon the same, every such driver of person so offending shall upon conviction forfeit and pay any sum not exceeding forty shillings.

*Riding or driving furiously, &c.*

29. Any person who shall ride or drive through or upon any street or public place within the said Municipality so negligently, carelessly, or furiously that the safety of any other person shall or may be endangered, shall on conviction forfeit and pay a sum not exceeding ten pounds nor less than two pounds.

*Breaking in horses, &c.*

30. Any person or persons who shall in any road or public place within the said Municipality drive any carriage or carriages for the purpose of breaking in, exercising, or trying horses, or shall ride, drive, or lead, any horse, mare, or gelding, for the purpose of airing, exercising, trying, breaking, or showing, or exposing for sale any such horse, mare, or gelding, otherwise than by passing quietly through such streets or public places, shall forfeit and pay any sum not exceeding forty shillings; and any person who shall within the said Municipality furiously or carelessly drive any horse, mare, or gelding to or from any public watering place, creek, or river, or pasturage, or elsewhere, shall forfeit and pay any sum not exceeding forty shillings.

*Blasting rock—No rock to be blasted without notice to the Council Clerk.*

31. Any person who shall be desirous of blasting any rock within one hundred yards of any street or public place, or dwelling house, in the said Municipality, shall give notice in writing twenty-four hours previously to the Council Clerk, who shall appoint a time when the same may take place, and give such other directions as he may deem necessary for the public safety, and if any person shall blast, or cause to be blasted, any rock within the limits aforesaid without giving such notice or shall not conform to the directions given to him by the said Council Clerk, he or she shall on conviction forfeit and pay for every such offence, any sum not less than five pounds nor more than twenty pounds.

*Public Property.*

*Toujuring or extinguishing lamps.*

32. Any person who shall wantonly or maliciously break or injure any lamp or lamp-post, or extinguish any lamp set up for public convenience in the said Municipality, shall over and above the necessary expense of repairing the injury committed, forfeit and pay for every such offence any sum not less than one pound nor more than five pounds.

*As to damaging buildings*

33. Any person who shall damage any public building, toll-gate, toll-bar, toll-board, wall, parapet, fence, sluice, bridge, culvert, sewer, water-course, or other public property within the said Municipality, shall pay the costs of repairing the same, and if such damage be wilfully done, shall forfeit and pay a sum not exceeding twenty pounds nor less than five pounds.

*Affixing placards on walls, &c.*

34. If any person or persons shall paste, or cause to be pasted, or otherwise affix any placard or other paper, or chalk, or paint, upon any wall, fence, culvert, kerbstone pathway, handrail, or other property of the Council, shall forfeit and pay for every such separate offence, a sum not exceeding five pounds nor less than one pound.

*Damaging trees*

35. Any person who shall wilfully and without the authority of the Council, cut, break, bark, root up, or otherwise destroy or damage the whole or any part of any tree, sapling, shrub, or underwood, growing in or upon any street or place under the management of the Council, shall forfeit any sum not exceeding ten pounds nor less than one pound.

*Nuisances.*

*Dead animals, &c., not to be thrown into any public water-courses, &c.*

36. Any person who shall cast any filth, rubbish, or any dead animal, or any animal, with intent of drowning, into any public water-course, sewer, water-hole, river, creek, road, or pathway, or who shall suffer slops, suds, or filth of any kind to flow from his or her premises, into any such water-course, water-hole, river, creek, or canal, or who shall permit or suffer any such slops, suds, or filth, to flow from his or her premises over any of the footways or streets of the Municipality, or shall permit or cause by means of pipes, shotts, channels, or other contrivances, filth of any kind whatsoever to flow into any public water course, water-hole, river, creek, or canal, or shall obstruct or divert from its channel any sewer or water-course, river, creek, or canal, shall forfeit any sum not exceeding five pounds nor less than two pounds.

*Dead animals—Mode of removal.*

37. If any animal shall die in any part of the said Municipality, and the owner of such animal, or the occupier of the place, if private property, where such animal shall have died, shall not cause such animal to be immediately destroyed by fire or so effectively removed and disposed of that no nuisance can possibly result therefrom in any part of the said Municipality, he shall for every such offence, forfeit and pay any sum not exceeding fifty pounds nor less than two pounds.

*Hog-sties to be one hundred feet from streets, and animals suffered to stray, &c.*

38. Any person who shall breed or keep so as to be a nuisance, any kind of swine, in any house, building, yard, garden or other place situated and being within one hundred feet of any street or public place in the said Municipality, or shall suffer any kind of swine, or any horse, ass, mule, sheep, goat, cow, or any other animal of a like nature, belonging to him or her, or under his or her charge, to stray or go about or to be tethered or depastured in any street, road, or public place, shall on conviction forfeit and pay any sum not exceeding forty shillings nor less than five shillings for such and every animal so bred, kept, suffered to stray or go about, or to be tethered or depastured in any such street, road, or public place as aforesaid; and the owner or occupier of any house or premises or other place within the said Municipality wherein any such swine, horse, ass, mule, sheep, goat, cow, or other animal is kept, fed, milked, or used in any way whatsoever, shall, within the meaning of these By-laws be deemed the owner of every such animal, so bred, kept, suffered to stray, or to be tethered or depastured in any such street or public place as aforesaid; and the words "any house," "building," "yard," "garden," "or other place," wherein any kind of swine shall be bred or kept as aforesaid, shall respectively be deemed hog-sties, within the meaning of these By-laws; and the word "horses" shall be sufficient designation for any carties, geldings, mares, or foals; and the word "cattle" for any bulls, oxen, cows, or calves, when more than one is the subject of any information and summons under the provisions of these By-laws.

*Cleansing butchers shambles, slaughter-houses, &c.*

39. For preserving the cleanliness of the said Municipality and the health of the inhabitants thereof, it shall be lawful for the Inspector of Nuisances, or any other officer or officers appointed by the Council from time to time, and when and as often as he or either of them shall see occasion to visit and inspect the butchers shambles, slaughter-houses, boiling-down establishments, tanneries, and felmongering establishments, in the said Municipality, and to give such directions concerning the cleansing the said shambles, slaughter-houses, tanneries, and establishments, both within and without, as to him shall seem needful; and any butcher or the owner or occupier of any such shambles, slaughter-house, tannery, or establishment, who shall refuse or neglect to comply with such directions within a reasonable time, shall forfeit and pay a sum not exceeding ten pounds nor less than ten shillings.

*Complaints respecting dirty premises, &c.*

40. Upon the complaint of any householder that the house, premises, yards, closets, or drains of the neighbouring or adjoining premises are a nuisance or offensive, the Inspector of Nuisances, or any other officer appointed by the said Council, shall make an inspection of the premises complained of, and the officer of the said Council shall have the full power without any other authority than this By-law to go upon such premises for the aforesaid purpose; and any person who shall personally or by any person in his employment, or under his control, suffer any waste or stagnant water, or any muck, filth, soil, or other offensive matter, in any cellar or place within any dwelling-house or premises within the said Muni-

cipality, or shall in the like manner suffer the contents of any water-closet, privy, or cesspool to overflow or soak therefrom, shall for every such offence, forfeit and pay a sum not exceeding five pounds nor less than one pound.

**Various obstructions and annoyances.**

41. Every person who, in any street or other public place or passage within the said Municipality, to the obstruction, annoyance, or danger of the residents or passengers, shall commit any of the following offences, shall on conviction for any and every such offence forfeit and pay a penalty of not more than two pounds:—

- (1) Every person who shall hoist or cause to be hoisted, or lower or cause to be lowered, goods of any description from any opening in any house fronting any street or public place, and close to the footway thereof, without sufficient and proper ropes and tackling.
- (2) Every person who shall carry or convey, or cause to be carried or conveyed, in any street or public place, the carcass or any part of the carcass, of any newly-slaughtered animal without a sufficient and proper cloth covering the same for the concealment from public view, or shall hawk or carry about butchers' meat for sale without covering the same as aforesaid.
- (3) Every person who shall place any line, cord, or pole across any street, lane, or passage, or hang or place clothes thereon, or allow any tree or shrub overhanging the footpath to the danger or annoyance of any person.
- (4) Every person who shall place any flower-pot in any upper window near to any street or public place without sufficiently guarding the same from being thrown down.
- (5) Every person who shall throw or cast from the roof, or any part of any house or other building, any slate, brick, part of a brick, wood, rubbish, or other material or thing, unless within a hoard or enclosure, when any house or building is being erected, pulled down, or repaired.
- (6) Every blacksmith, whitesmith, or anchormith, nailmaker, metal-founder, limeburner, brickmaker, potter, or other person using a forge, furnace, or kiln, and having a door, window, or aperture fronting or opening into or toward any street, lane, or passage, and not enclosing such door, or not fastening the shutters or other fastenings of such window, and closing such aperture, or placing a screen before the same every evening within one hour after sunset, so as effectually to prevent the light from showing through the doorway, window, or aperture next or upon such lane, street, or passage.
- (7) Every person who shall within the distance of one hundred yards from any dwelling house, burn any rag, hay, cork, or other offensive substance, to the annoyance of any inhabitant.
- (8) Every person who shall carry goods, or any frame, to the annoyance of any person upon the footway of any street, or other public footway.
- (9) Every person who shall be the keeper of or have any dog or other animal which shall attack or endanger the life or limb of any person who may have the right of way or use of any private yard, alley, street, or any other place within the said Municipality.

**Premises in state to endanger public health.—Houses to be purified on certificate of two medical practitioners.**

42. If upon the certificate of any two duly qualified medical practitioners, it appear to the Council that any house or part thereof, or the premises occupied in connection therewith within the said Municipality is or are in such a filthy or unwholesome condition that the health of any person is or may be liable to be affected or endangered thereby, and that the whitewashing, cleansing, or purifying of any house or part thereof, or the premises occupied in connection therewith, would tend to prevent or check infectious or contagious disease, the said Council shall give notice in writing to the owner or occupier of such house or part thereof, or the premises occupied in connection therewith, to whitewash, cleanse, or purify the same, as the case may require, and if the person to whom no ice is so given shall fail to comply therewith within such time as shall be specified in the said notice, he shall be liable to a penalty not exceeding ten shillings for every day during which he continues to make default: Provided that no such penalties shall collectively amount to a greater sum than twenty pounds.

**Offences against public decency.—Bathing prohibited within certain limits.**

43. Any person who shall bathe near to or within view of any inhabited house, or of any public wharf, quay, bridge, street, road, or other place of public resort within the limits of the said Municipality, between the hours of six o'clock in the morning and eight in the evening shall on conviction forfeit and pay a sum not exceeding one pound for every such offence.

**Penalty on indecent exposure of the person.**

44. Any individual who shall offend against decency by exposure of his or her person in any street or public place within the said Municipality, or in the view thereof, shall on conviction forfeit and pay for every such offence a sum not exceeding ten pounds nor less than five pounds.

**PART V.**

**Noisome and offensive Trades.**

No noisome or offensive trades to be carried on to injury of any inhabitants.

1. No person shall carry on any noisome or offensive trade within the said Municipality, so as to injure or be a nuisance, as hereinafter stated, to the inhabitants thereof.

**Definition of noisome and offensive trades.**

2. Any manufacture, trade, calling, or operation, in the conducting, following, or carrying on of which, or in consequence of, or in connection therewith, or from the premises where the same is conducted, followed or carried on, any gas, vapour, or effluvia, or any large quantities of smoke shall be evolved or discharged, which gas, vapour, effluvia, or smoke, shall be calculated to injure animal or vegetable life, or in any other way to injure or to be a nuisance to the inhabitants of the said Municipality, shall be considered a noisome and offensive trade within the meaning of these By-laws.

**Complaint—Inquire and Report—Order of Council thereon—Notice to discontinue, &c.—Penalty.**

3. Upon complaint, in writing, of any householder, that any noisome or offensive trade is being so followed, conducted, or carried on in the vicinity of his or her residence or property, so as to injure his or her health, or the health of any member of his or her family, or to be a nuisance to such householder, and to his or her family, the Inspector of Nuisances, or any other person or persons appointed by the Council, shall make an inspection of the premises where such trade is alleged to be so conducted, followed, or carried on as aforesaid, and of the premises or property of the complainant, and shall inquire into the grounds for such complaint, and shall report thereon to the said Council, and if the said Council shall, on consideration of such report, or after any such further inquiry as may be deemed necessary, be of opinion that the said complaint is well founded, and that any manufacture, trade, calling, or operation so complained of, so being conducted, followed, or carried on as aforesaid, is a noisome and offensive trade within the meaning of these By-laws, notice shall be given to the person or persons conducting, following, or carrying on such trade, to cease and discontinue the same within such reasonable time not being less than thirty days nor more than sixty days, as the said Council may direct, or so to conduct, follow, or carry on his or her or their manufacture, trade, calling, or operation, so that within such reasonable time as aforesaid the same shall wholly and permanently cease to be noisome and offensive within the meaning of these By-laws, either to the said complainant or to any other resident within the said Municipality, and if such trade shall not be discontinued as aforesaid, or shall not be so conducted as that it shall wholly cease to be noisome and offensive as aforesaid, within the time named in such notice as aforesaid, any person conducting, following, or carrying on such trade as aforesaid, shall for the first offence forfeit and pay a sum not less than forty shillings nor more than five pounds, for a second offence a sum of not less than five pounds nor more than twenty-five pounds, and for the third and every subsequent a sum of not less than ten pounds nor more than fifty pounds.

**Mode of proceeding when noisome and offensive trade is about to be commenced.—Penalty.**

4. The like proceedings shall be taken as aforesaid whenever there shall be a complaint as aforesaid that any manufacture, trade, calling, or operation is about to be commenced or entered upon which is likely to prove noisome and offensive, within the meaning of these By-laws, save and except the notice to be given as aforesaid shall be given to the person or persons about to commence or enter upon such manufacture, trade, calling, or operation, and shall require him, her, or them not to commence or enter upon the same, or to take such measures as shall effectually and permanently prevent the same from becoming noisome and offensive, within the meaning of these By-laws, to any resident within the Municipality, and any person who shall in any such case commence, enter upon, or continue any such manufacture, trade, calling, or operation, so that the same shall be in any way noisome and offensive, within the meaning of these By-laws, shall for every such offence forfeit and pay a sum of not less than ten pounds nor more than fifty pounds.

**Inspector of Nuisances may take legal proceedings.**

5. The Inspector of Nuisances or other person appointed by the Council may take legal proceedings against any person or persons committing any offence or offences against any of the By-laws of the said Municipality.

**Penalties to be paid over to Treasurer.**

6. All penalties under any of these By-laws shall be paid over to the Treasurer of the said Municipality, to be appropriated as the Council may direct.

**Interpretation of "Mayor" and "Municipality."**

7. Whenever, in any of these By-laws, the word "Mayor" is made use of, it shall, unless the context shall indicate a contrary intention, be construed also to signify and include any Alderman lawfully acting for the time being in the place or stead of the Mayor; and whenever the word "Municipality" is made use of in the said By-laws, it shall be understood to signify the Borough of Stockton.

## PART VI.

*Public Exhibitions, &c.*

Exhibitions, &amp;c., to be licensed.

1. No exhibition, other than exhibitions licensed by the Colonial Secretary, under the provisions of the Act 14 Victoria, No. 23, or exhibitions of a temporary character, hereinafter specially provided for, shall be held or kept for hire or profit within the said Municipality, nor shall any bowling-alley, dancing saloon, or other place of public amusement other than a place licensed as aforesaid, or a place for temporary amusement hereinafter specially provided for, be used as such for hire or profit, within the said Municipality, unless and until permission in writing be granted by the Mayor.

Penalty for exhibiting, &amp;c., without license.

2. Every person holding or keeping any such exhibition, or using any place within the said Municipality for public amusement as aforesaid, or causing or permitting such place to be so used without such permission of such Mayor shall forfeit and pay a sum not less than five shillings nor more than forty shillings for every day such exhibition shall be so held or kept, or such place shall be so used for public amusement as aforesaid.

No exhibitions, &amp;c., on Sundays, &amp;c.

3. No such exhibition or place of public amusement as aforesaid shall be held or kept open or used for the purposes of such public amusements on Sunday, Christmas Day, or Good Friday, and every person offending against this By-law in this behalf, shall on conviction forfeit and pay a sum not exceeding five pounds nor less than two pounds for every such offence.

## PART VII.

Water supply—Polluting water, reservoirs, &amp;c.

1. Whosoever shall bathe in any stream, reservoir, conduit, aqueduct, or other waterworks belonging to or under the management or control of the Council, or shall wash, cleanse, throw or cause to enter therein any animal, whether alive or dead, or any rubbish, filth, stuff, or thing of any kind whatsoever, or shall cause or permit or suffer to run or to be brought therein the water of any sink, sewer, drain, engine, or boiler, or other filthy, unwholesome, or improper water, or shall wash any clothes at any public fountain or pump, or in or at any such stream, reservoir, conduit, aqueduct, or other waterworks as aforesaid, or shall do anything whatsoever whereby any water or waterworks belonging to the said Council or under their management or control shall be fouled, obstructed, or damaged, shall, for the first offence, forfeit and pay any sum not exceeding five pounds, for a second offence any sum not less than ten shillings nor more than five pounds, and for the third and every subsequent offence any sum not less than one pound nor more than twenty pounds.

Willful waste of water.

2. Whosoever being supplied with water by the Council from any waterworks, fountain, or reservoir, or of or belonging to or under the control or management of the said Council, or having access to any such waterworks, fountain, or reservoir for taking of water therefrom, shall wilfully or negligently suffer any water to run to waste from any pipe, pump, or conduit from or by which he shall be so supplied, or to which he shall have such access, shall forfeit and pay for the first offence any sum not exceeding five pounds, for a second offence any sum not less than one pound nor more than twenty pounds, and for a third and every subsequent offence any sum not less than five pounds nor more than forty pounds.

Damming up water without consent.

3. Whosoever shall, without the consent in writing of the Council, construct or place any dam or embankment, or allow any accumulation of drift or silt to accumulate in or across any river, creek, or natural water-course, shall forfeit and pay any sum not less than one pound nor more than twenty pounds, and shall remove such dam or embankment within a reasonable time after such conviction, or shall forfeit and pay any sum not less than five pounds nor more than fifty pounds, and if after such second conviction such person shall fail to remove such dam or embankment within a further reasonable time he shall forfeit and pay a sum of not less than twenty pounds nor more than fifty pounds; and if within a reasonable time after a third or any further conviction he shall still fail to remove such dam or embankment, he shall for every such offence forfeit and pay a sum of fifty pounds.

Diverting water from reservoirs

4. In any case in which the Council shall have the exclusive right of collecting for the supply of any reservoir or waterworks belonging to the said Council or under their management or control, the storm water having fallen on any gathering ground, whosoever shall by any means whatsoever divert any such water from the course of its natural flow, so that the same shall tend to flow elsewhere than to such reservoir or waterworks, or some water-course leading thereto, or shall flow to the same respectively in a foul state, shall forfeit and pay for the first offence any sum not less than one

pound nor more than twenty pounds, for a second offence any sum not less than two pounds nor more than forty pounds, and for a third and every subsequent offence any sum not less than five pounds nor more than fifty pounds.

## PART VIII.

*Sewerage and Drainage.*

No private sewers to be made to communicate with the public sewers without notice.

1. It shall not be lawful for any person without notice to the Council, or otherwise than according to such plans and directions as such Council may make and give, to make or branch any private drain or sewer into any other public drains, sewers, or channels, or into any drain or sewer communicating therewith; and in case any person or persons shall make or branch any private drain or sewer into any of the said public drains or sewers, or into any drain or sewer communicating or to communicate therewith without such notice or otherwise than as aforesaid, every person so offending shall for every such offence forfeit and pay any sum not exceeding fifty pounds.

Occupiers to repair and cleanse private sewers.

2. All drains or sewers communicating with any public drain or sewer shall from time to time be repaired and cleansed under the inspection and direction of the Council, at the costs and charges of the occupiers of the houses, buildings, lands, and premises to which the said private sewers or drains shall respectively belong, and in case any person shall neglect to repair and cleanse, or cause any such private drain or sewer to be repaired and cleansed according to the direction of the said Council, he shall forfeit and pay for every such offence any sum not exceeding five pounds.

Drains for discharge of surface water from lands.

3. Every owner or occupier of land in, adjoining to, or near any street, if such lands shall be so situated that surface or storm water from or upon the same shall overflow or shall tend naturally, if not otherwise discharged to overflow any footway of such street, shall within seven days next after the service of notice by the Council for that purpose construct and lay from such point upon such land being near to the footway as shall be specified in such notice by plan appended or otherwise, and higher in level than the bottom of the channel at the outer edge of the footway to the said channel, and through, under, and transversely to the footway, and keep to good condition such covered drain or trunk, as, and subject in the inspection of the Council or its proper officers; and in default of compliance with any such notice within the period aforesaid, or with the provisions of this section, such owner, or occupier shall forfeit any payment not exceeding five pounds and if within seven days after such conviction such owner or occupier shall still have failed to comply with such notice or be otherwise in default as aforesaid, he shall forfeit and pay any sum not less than one pound nor more than ten pounds, and for every further such offence he shall forfeit and pay any sum not less than two pounds nor more than twenty pounds, and every such owner or occupier who shall still have made default as aforesaid for more than seven days after such second or any further conviction, shall be held guilty of a further offence within the meaning of this section.

## PART IX.

*For the Regulation of Public Vehicles.*

BY-LAWS for the regulation and licensing of public carriers, carts, water-drawers, and public vehicles, omnibuses, cars, hackney-carriages, cabs, water-carts, drays, carts, or vans, and the drivers or conductors of passenger carrying vehicles.

All vehicles to be licensed.

1. No vehicle shall ply or be used for hire within the Municipality unless the same be duly licensed in the manner herein described.

Requisition to be made for license.

2. Before any license for plying a vehicle, or to drive or to conduct the same shall be granted, the party requiring such license shall obtain from the Council Clerk, free of charge, a requisition in the form of the Schedule A hereto, or to the like effect, and duly fill up and sign the same and deliver it to the Council Clerk, and in the case of drivers or conductors, shall also obtain a certificate from two respectable householders, to the effect, that the applicant is of good character and competent to act as such driver or conductor, as the case may be.

Condition under which licenses to be granted.

3. No license shall be granted in respect of any vehicle which in the opinion of three Aldermen, who shall be appointed by a resolution of the Council of the said Municipality, is unsafe, or in bad repair, or otherwise unfit for the accommodation and conveyance of passengers therein; nor until the number of such vehicle be painted thereon, on a plate or plates affixed

thereon, outside on the panel of each door of such vehicle, or on such other place or places, and in such manner as the said three Aldermen may direct.

**Licenses, and how to be issued.**

4. Licenses for proprietors, drivers, and conductors of vehicles, shall be in the form contained in the Schedule hereto annexed, marked with the letter B, or the like effect; and any person plying, driving, or conducting any vehicle for hire with passengers without such license, shall be deemed guilty of a breach of these By-laws.

**Licenses to be under Corporate Seal.**

5. Every license granted under these By-laws shall be under the Common Seal of the Council, and signed by the Mayor, and countersigned by the Council Clerk, upon production of a certificate signed by the Aldermen who shall be appointed as aforesaid, and shall be in force from the date of such license until the 31st day of December next ensuing, subject to the conditions in section 10 of this Part of these By-laws; and no such license shall include more than one vehicle: Provided that where the licensed vehicle shall be under repair, if the proprietor shall so desire, he may be permitted to substitute another for a period to be then specified and endorsed on the license, signed by the Mayor and countersigned as aforesaid.

**Age of drivers.**

6. No license shall be granted to any person to drive any passenger carrying vehicle, who shall be under the age of eighteen years.

**Licenses to be made out by the Council Clerk.**

7. All licenses shall be made out by the Council Clerk and numbered consecutively.

**Owner of vehicles.**

8. The person in whose name a license shall appear to have been obtained, shall be prima facie deemed to be the owner of the vehicle in respect of which the same shall have been taken out.

**Inspection of vehicles**

9. The three Aldermen aforesaid shall, as often as they may deem it necessary, cause an inspection to be made of all or any licensed vehicles, and of the harness, horse or horses, and if any such vehicle, harness, horse, or horses, shall at any time be found by the said Aldermen to be unfit for use, the Mayor may cancel the license of such vehicle on the written report of the said Aldermen.

**Number of license to be painted on vehicle.**

10. The number of the license granted to every omnibus or car, in figures not less than 4 inches in height, and for every hackney-carriage or cab, in figures not less than 2 inches in height, of proportionable breadth, white upon a ground of black, shall be painted outside on the panel of the door or doors of such vehicle, or on such other part or parts thereof as the Aldermen aforesaid shall direct, and such numbers shall be kept legible and undefaced during all the time such vehicle shall ply or be used for hire.

**Table of fares, &c., to be fixed to vehicles.**

11. The number of the license of every hackney-carriage or cab, on a card or plate 6 inches by 3 inches, painted or printed in clear legible figures, and the table of fares fixed by the Council, shall be affixed at the upper part of the front panel, or in such other place or places inside of such carriage or cab as the three Aldermen aforesaid may direct, and such card or plate shall be kept so affixed and legible and undefaced during all the time the carriage or cab shall ply or be used for hire.

**Term applied to vehicles.**

12. So far as concerns fares in these By-laws, any vehicle of whatever form or construction for which a hackney-carriage license has been taken out, if drawn upon four wheels shall be deemed to be a hackney-carriage, and if drawn upon two wheels a cab.

**Water-carts.**

13. The Council shall from time to time license to ply within the Municipality such carts for the sale and carrying of water as shall upon inspection be found fit for that purpose. Every such cart shall be or shall contain or carry a vessel or tank capable of containing not less than fifty gallons, and shall have the name of the owner, and the words "Licensed Water-cart" painted on such cart in legible letters.

**Water licenses, how obtained, &c.**

14. Every such license shall be issued on the written application of the owner thereof, in which application shall be set forth the name and surname and place of abode of the applicant; and for every such license there shall be paid to the Council the sum of two shillings and sixpence, and every such license shall be in force until the 31st day of December next ensuing after the granting of the said license.

**Hawking water.—Penalty.**

15. Any person hawking or carrying water for sale or hire, otherwise than in a licensed water-cart as aforesaid, shall upon conviction be liable to a penalty not exceeding one pound.

**Name and place of abode to be painted on licensed cart, &c.**

16. The name and place of abode, number of license, and the words "Licensed cart, dray, or van," as the case may be, are to be painted in letters one inch long upon the right or off side of such cart, dray, or van.

**Vehicles to carry lights.**

17. All vehicles licensed to carry passengers shall be provided with suitable carriage-lamps to burn candles, one to be fixed on each side of the driver's box and a third one inside of all omnibuses and closed coaches, and the same shall be lighted not later than one hour after sundown and be kept burning while the vehicles are on the stand or running in the streets, either with or without passengers.

**Number of passengers to be carried.**

18. When any carriage is submitted for inspection by the owner or other applicant, with a view to obtain a license, the Aldermen appointed by the Council for that duty shall then determine upon the number of passengers the vehicle shall be permitted to carry, and give a certificate to that effect, such number to be mentioned in the license.

**Legal fare, &c., to be painted on vehicles.**

19. The number of passengers the vehicle is licensed to carry and the legal fare shall be painted or printed in legible characters, and affixed within and without the vehicle in such places as the inspecting Aldermen shall direct.

**Penalty for breaking By-laws.**

20. For every offence against the provisions of these By-laws the offender shall upon conviction forfeit and pay a penalty of not more than twenty pounds nor less than ten shillings.

**Vehicles not to be drawn faster than a walk past places of worship on Sunday.**

21. No licensed vehicle shall be drawn by any animal or animals past a place of public worship on Sundays, during divine service, at a faster pace than a walk; and no bugle, horn, whistle, or other instrument shall be used on that day for the purpose of attracting the attention of passengers.

**Description of persons not allowed to travel in vehicles.**

22. No person suffering from an infectious or contagious disease shall ride in or upon any licensed vehicle, and no driver or conductor shall knowingly carry or permit to be carried any such person or (except to some police office or watch-house) any corpse, or any person in a state of intoxication, or who is so noisily or violently conducting himself or otherwise so misbehaving as to occasion any annoyance or to disturb the public peace, and no passenger shall carry inside any vehicle, except a dray, any animal or any substance of an offensive character, or that might soil or damage the vehicle or the apparel of other passengers, and no driver or conductor shall sleep in or upon any licensed vehicle nor use the same for eating his meals therein.

**Vehicle not to carry greater number of passengers than licensed for.**

23. No driver or conductor shall admit to the inside or allow on the outside of any omnibus at one time a greater number of passengers than the number it shall be licensed to carry inside or outside, as the case may be; and no omnibus shall be licensed for more passengers than the same will accommodate upon fit seats properly arranged, allowing for each passenger a space of 18 inches measuring in a straight line lengthwise on the front of each seat, nor shall any vehicle be taken off the line of road for which it shall be licensed: Provided that no child under five years of age sitting on the lap shall be deemed to be a passenger within the meaning of these By-laws; no passenger to carry more than one child.

**Fares not to be increased until 10 p.m.—Driver, &c., not to refuse to carry passengers.**

24. No owner, driver, or conductor of any omnibus shall demand, receive, or take from any passenger a larger fare than shall be shown in large immovable figures in some conspicuous place inside and outside the omnibus as the fare for which such omnibus plies: Provided that no fare shall be increased except between the hours of 10 o'clock at night and 5 o'clock in the morning, and no driver or conductor of an omnibus shall neglect or refuse to admit and carry any person for whom there is room and to whom no reasonable objection can be made under these By-laws, nor in cases of accident or other unavoidable cause shall any driver or conductor stop such vehicle upon any place where foot passengers usually cross the carriage-way.

**Fare to be paid upon taking seats, driver and conductor to be provided.**

25. Any person having taken his seat in or upon an omnibus shall pay the fare when demanded after the commencement of his journey. The owner of every omnibus plying for hire shall provide the same with a licensed driver and a licensed conductor.

**Property found in vehicles to be delivered at Council Clerk's Office.**

26. The driver of any carriage and conductor of every omnibus shall carefully examine his vehicle immediately after setting down his fare, and in every case of property having been left in any vehicle by any person having used or hired the

the same, such property, if found by another passenger or person, shall be delivered to the driver or conductor who shall deliver the same with any other property found by him within eighteen hours after such finding to the Council Clerk's Office, and there shall deposit it; and no owner shall detain any property delivered to him by any driver or conductor in his employment longer than the time before mentioned, but shall deposit it at the office at the Council Chambers with the Council Clerk or his assistant.

**License fees to be paid to Council Clerk.**

27. For every license issued under the By-laws in force for the time being in that behalf within the said Municipality there shall be paid to the Council of the said Municipality, by delivering the same to the Council Clerk or other person authorised to receive the same, the several sums mentioned or set forth in Schedule C to these By-laws for the general purposes of the said Borough.

**Terms to be applied to licensed vehicles.**

23. Whenever the word "vehicle" shall be used in these By-laws the same shall be construed to extend and apply to any omnibus, car, hackney carriage, or cab. The word "omnibus" shall extend and apply to any vehicle upon four wheels drawn by two or more horses, having seat accommodation for more than ten passengers and a driver. The word "car" shall extend and apply to any vehicle upon two or four wheels drawn by one or more horses, having seat accommodation for not more than ten or less than five passengers and a driver. The word "hackney-carriage" shall extend and apply to any vehicle upon four wheels drawn by two or more horses and having seat accommodation for not more than five passengers and a driver, and in respect of which a hackney-carriage license within the said Municipality shall have been obtained. The word "cab" shall extend and apply to any vehicle upon two wheels having seat accommodation for not more than two passengers and a driver in respect of which a cab license within the said Municipality shall have been obtained. The word "cart" shall extend and apply to any cart, dray, van, or waggon, drawn by one or more horses or other animals used wholly and for the carriage of goods and parcels. The word "water-cart" shall extend and apply to any cart used for the carriage of water within the said Municipality in respect of which a water-cart license shall have been obtained.

**Fares to be charged.**

29. No proprietor or driver of any hackney-carriage or cab, within the said Municipality shall demand, receive, or take, more than the several fares or sums mentioned or set forth in the Schedule D to these By-laws or such other sums as the Council of the said Municipality shall from time to time determine or appoint in substitution thereof as hereinafter provided; and every proprietor, driver, or conductor failing to comply with this By-law shall for every such offence forfeit and pay a penalty or sum of not exceeding five pounds nor less than five shillings.

**Power of Council to amend scale of fares, &c.**

30. The Council of the said Municipality may from time to time by resolution passed in that behalf, alter and vary, or amend the said Schedule D and the respective sums chargeable thereunder, or any of them, and such alterations, variations or amendments shall become in full force and effect so soon as the same shall have been publicly notified by advertisement in the New South Wales Government Gazette and at least one newspaper circulating in the said Municipality; and the Council of the Municipality shall not be responsible for any loss which such alterations or amendments may have or may be alleged to have occasioned to the holders of licenses for the time being or any of them.

**Toll to be paid by hirer.**

31. All tolls to be paid by the hirer of any hackney-carriage or cab in addition to the ordinary fare.

**Passengers to be taken up, &c.**

32. No driver of any hackney-carriage or cab shall refuse to take up any passenger or passengers unless already engaged for hire, nor refuse to convey such passenger or passengers to such place or places within the said Municipality as he or he or they may reasonably desire, and every person failing to comply with this By-law shall forfeit and pay a penalty or sum not exceeding five pounds for every such offence.

**Cab-stands, &c.**

33. The Council shall by resolution, to be publicly notified as in By-law 30 of this Part, from time to time appoint any place or places within the said Municipality as stands for licensed hackney-carriages and cabs within the said Municipality.

34. No vehicle shall be allowed to stand or remain stationary on any street within the said Municipality, except on the duly appointed cab-stands for the time being, for a longer period than the time reasonably necessary to take up or set down any passenger or passengers for the time being requiring or using

the same, or for loading or unloading, or receiving, or delivering the goods or parcels which the driver of such vehicle shall have been employed to carry, and any driver or proprietor of any such vehicle remaining stationary contrary to this By-law shall for every such offence forfeit and pay a penalty or sum of not exceeding five pounds nor less than five shillings.

**Driver not to leave his horse or horses.**

35. No driver of any licensed vehicle shall be or remain at such a distance from his horse or horses while attached to his vehicle anywhere within the said Municipality as not to have immediate and full control over the same, and every person so doing shall for every such offence forfeit and pay a penalty or sum not exceeding five pounds nor less than five shillings.

**Speed at which to travel.**

36. All hackney-carriages and cabs carrying passengers shall (except when turning street corners), proceed at a speed of not less than six miles an hour, unless when attending funerals or when otherwise ordered by the hirer, and every driver of any such carriage or cab failing to comply with this By-law shall forfeit and pay a sum not exceeding forty shillings nor less than five shillings.

**Copies of Schedule D to be printed and fixed at cab stands.**

37. Copies of said Schedule D hereto shall be printed or written in legible characters, and exhibited on boards placed in conspicuous positions, one at each cab-stand within the Municipality, and one at the Railway Station in such place as the Commissioners for Railways may approve.

**Copies of By-laws to be given with license.**

38. Copies of these and all other By-laws passed by the Council of the said Municipality for the regulation of licensed vehicles and still remaining in force, shall be delivered with each license issued, unless the person shall have previously received copies thereof.

**Penalty to be enforced for breach of By-laws.**

39. All proprietors and drivers of licensed vehicles shall at all times be amenable to and observe and comply with the By-laws for the time being in force for the care and management of the public roads, public streets, and public thoroughfares within the said Municipality, and for every breach thereof shall incur the same penalties as other persons.

40. Any person offending against any of these By-laws shall, except when otherwise expressly provided, forfeit and pay a sum not exceeding two pounds nor less than five shillings for every such offence.

**SCHEDULE A.**

**A Requisition for license.**

To the Municipal Council of the Borough of Stockton,  
I, \_\_\_\_\_, residing at \_\_\_\_\_ street, within the Borough, do hereby request that a license may be granted to me to \_\_\_\_\_ within the limits of the said Borough.  
Dated at \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, A.D. 18 \_\_\_\_.  
Description of vehicle. \_\_\_\_\_

**SCHEDULE B.**

**Form of license for driver or conductor.**

This is to certify that \_\_\_\_\_ of \_\_\_\_\_ street, is hereby licensed to \_\_\_\_\_ from the \_\_\_\_\_ day of \_\_\_\_\_, to the 31st day of December, 18 \_\_\_\_, inclusive, within the Borough of Stockton, subject nevertheless to all and every the By-laws, Rules and Regulations in force relating thereto.

**SCHEDULE C.**

## PART X.

## Hawkers to be licensed.

1. No person shall sell, offer, or expose for sale in any part of the Borough of Stockton, except in the house or premises of the person so selling, offering, or exposing for sale, or in the markets or open spaces adjoining, any poultry, fish, vegetables, garden produce, game, tripe, bacon, cheese, eggs, fruit, pastry, icecream, or green fodder, or any other commodity without a license authorising him to do so, signed by the Mayor, Clerk of the Market, or other duly appointed officer of the said Municipality; and every such license shall be numbered and registered, and shall be in the form contained in the Schedule hereto, and shall be in force for the term therein stated, and no longer.

## Hawkers to carry license.

2. Every person licensed as a hawker shall whilst engaged in hawking carry the license so granted with them, and upon being required by an officer of the Municipal Council or police officer produce and show the same.

## Name to be painted on vehicle.

3. Every licensed hawker shall whilst hawking have affixed on some conspicuous part of his cart, barrow, basket, vehicle, or tray a board or plate bearing his name and the words "Licensed Hawker" legibly painted thereon in letters not less than 1 inch in length.

## License fees.

4. The following fees shall be paid for such license for hawking with hand basket or tray, the sum of one shilling per week; with wheelbarrow, the sum of two shillings and six pence per week; with vehicle drawn by horses or other animals, the sum of four shillings per week.

5. Any person offending against these By-Laws shall for each offence upon conviction forfeit and pay a sum not exceeding ten pounds.

## SCHEDULE.

## Form of Hawker's License.

Borough of Stockton, Hawker's License No.

Address

This license entitles the holder to hawk with hand-basket or tray [or with wheelbarrow, vehicle drawn by horses, &c., as the case may be], for the week ending the \_\_\_\_\_ day of \_\_\_\_\_

Given under my hand this \_\_\_\_\_ day of \_\_\_\_\_  
A. B., Mayor [or &:]

## PART XI.

## Under Nuisances Prevention Act, 1875.

By-laws of the Borough of Stockton, made under and for carrying into effect the provisions of the "Nuisances Prevention Act, 1875."

1. Every person who shall be about to erect a closet, or form, excavate, or make a cesspit, shall before he shall commence to erect such closet, or to form, excavate, or make any such cesspit, deliver to the Council Clerk a notice in writing of the intention of such person to erect such closet or form, excavate, or make such cesspit, and of the place or position in which it is intended that such closet shall be erected, or such cesspit formed, excavated, or made, and if any person shall commence to erect any closet, or to form, excavate, or make any cesspit within the Borough without having given such notice in writing as aforesaid, and before the expiration of seven days after the delivery of such notice (except by the written authority of the Inspector of Nuisances or other officer for the time being appointed by the Council in that behalf, he shall forfeit and pay a penalty of not more than five pounds nor less than one pound.

2. No person shall erect or commence to erect any closet, or to form, excavate, or make any cesspit, except in such place or position as shall be approved by the Inspector of Nuisances or other officer as aforesaid; and any person who shall erect, or commence to erect any closet, or to form, excavate, or make any such cesspit without having obtained the approval of the said Inspector or other officer, or in any place or position other than the place or position approved of by the said Inspector or other officer as aforesaid, shall forfeit and pay a penalty of not less than ten shillings nor more than forty shillings. But any person who shall feel aggrieved by the decision of such Inspector or other officer, may appeal against the same to the Council.

3. Every cesspit to be constructed within the Borough shall be built of 9-inch brickwork set in cement, floor as well as walls, and the top of such cesspit shall be at least 6 inches higher than the highest part of the surface of the ground immediately adjoining such cesspit; and no cesspit shall be formed, excavated, or made under any dwelling house, nor at a less distance than 20 feet therefrom, area permitting. If any person shall so form, excavate, or make any cesspit which shall not be in accordance with the provisions of this By-law, or shall form, excavate, or make any cesspit under any dwelling-house, or at a less distance than 20 feet, area permitting, shall forfeit and pay a penalty of not more than five pounds nor less than two pounds.

4. For houses containing not more than four rooms and out-offices, the cesspit shall not be less than 3 feet by 4 feet, and 5 feet deep inside measurement; for houses containing more than four rooms and out-offices, the cesspit shall not be less than 3 feet 6 inches by 4 feet, and 5 feet deep inside measurement.

5. Every closet shall be built with walls 7 feet high, and shall not be less than 3 feet 6 inches wide and 4 feet 6 inches long, and shall be provided with a door capable of being fastened inside, and with a manhole in the floor not less than 2 feet square, clear internal measurement, to be covered with a trap door; and every person who shall build or erect any closet which shall not be in accordance with this By-law shall forfeit and pay a penalty of not more than two pounds nor less than ten shillings.

6. When two or more closets adjoin each other, there shall be a sufficient dividing wall, not less than 9 inches in thickness, between every two closets, and such wall shall extend from the bottom of the cesspit up to the roof of the closet, so as to effect a complete separation; and if any person shall erect any two or more closets adjoining each other, and not in accordance with this By-law, he shall forfeit and pay a penalty of not more than two pounds nor less than ten shillings.

7. A separate closet shall be provided for each tenement; and any person offending against the provisions of this By-law shall forfeit and pay a penalty of not more than five pounds nor less than two pounds.

8. In schools, factories, or other places of business where a number of persons exceeding twelve shall ordinarily reside or be occupied or employed, one closet shall be provided for every twenty persons, with a cesspit of a capacity of not less than 80 cubic feet, and separate closets shall be provided for each sex, and every owner, occupier, or tenant of such school, factory, or other place of business, and every other person who shall offend against this By-law, or fail to provide the number of closets, and of the capacity in this By-law mentioned, shall forfeit and pay a penalty of not more than five pounds nor less than one pound.

9. If any alterations shall be requisite in the opinion of the Inspector of Nuisances or other officer appointed by the Council in their behalf for preserving public health or decency, in case of any existing cesspit or closet, and the Council shall adjudge such cesspit or closet to be injurious to the health or opposed to decency, by exposure or otherwise, and the owner or occupier shall not make the necessary alterations after receiving fourteen days' notice from the Council Clerk, it shall be lawful for the Inspector of Nuisances or other officer appointed by the Council, to remove the said nuisance, and any expense incurred thereby may be sued for and recovered in a summary way before any two or more Justices of the Peace.

10. Owners of existing closets and soil-pits may be required to alter or improve them in such manner as may be necessary, in order to bring them into conformity with these regulations, on notice being given by the Inspector of Nuisances to that effect; persons failing to make such alterations or improvements within one month after the receipt of such notice, shall be liable to a penalty of not less than one pound nor exceeding the sum of three pounds for each and every week or portion of a week, during which they shall fail to comply with the terms of the said notice.

11. The night-soil shall be removed by contract, in properly constructed watertight covered vehicles, between the hours of 10 p.m. and 5 a.m., from the 1st day of October to the last day of March; and between the hours of 10 p.m. and 6 a.m., from the 1st day of April to the last day of September.

12. Persons desirous of using earth-closets may be permitted to do so on making written application to the Council, and intimating the arrangements to be made for their construction and management, provided that such arrangements shall be approved by the Council.

13. The Inspector of Nuisances or other officer appointed by the Council may visit and inspect any premises, or do any work authorised by the Nuisance Prevention Act, 1875, therein, on all days except Sundays and holidays, and any person who shall hinder or obstruct any Inspector of Nuisances or other officer as aforesaid, upon any such visitation or inspection, or in the doing or performing of any work, shall forfeit and pay a penalty of not more than two pounds nor less than ten shillings.

14. All expenses incurred by the Council in emptying any cess-pit shall be paid to the Council by the owner or occupier of the premises whereon such cesspit is situated, within one week after a written demand of the amount made by the Council or Inspector of Nuisances shall have been served upon him, otherwise the same may be recovered in a summary way before any two Justices of the Peace.

15. The Inspector of Nuisances shall furnish the Council with a monthly return showing the number of cesspits emptied, the amount due and payable for each cesspit, and the amount of arrears due for emptying cesspits; he shall collect the amounts so due and payable, and account therefore to the Council at least once in every month or as may be determined upon by such Council.

By-laws under Municipalities Act of 1867, confirmed by the adfixure of the corporate seal of the Borough, as authorised by resolution in Council, 29th August, 1890—

(I.S.) JOHN BEVERIDGE,  
H. A. GRAHAM, Council Clerk. Mayor.

By-laws under Nuisances Prevention Act, 1875, confirmed by the adfixure of the corporate seal of the Borough, as authorised by resolution in Council, 21st November, 1890—

(I.S.) JOHN BEVERIDGE,  
H. A. GRAHAM, Council Clerk. Mayor.

## NEW SOUTH WALES.

# MUNICIPALITIES ACT OF 1867, AND NUISANCES PREVENTION ACT, 1875.

(MUNICIPAL DISTRICT OF ADAMSTOWN—BY-LAWS.)

Presented to Parliament, pursuant to Acts 31 Vic. No. 12, sec. 153, and 39 Vic. No. 14, sec. 18.

Colonial Secretary's Office,  
Sydney, 11th March, 1891.

## ADAMSTOWN MUNICIPALITY.—BY-LAWS.

THE following additional By-laws under the "Municipalities Act of 1867" and By-laws under the "Nuisances Prevention Act, 1875," made by the Council of the Municipal District of Adamstown, having been respectively confirmed and approved by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

HENRY PARKES.

## BY-LAWS.

THE following additional By-laws for the regulation and licensing public carriers' carts, water drawers, and public vehicles, omnibuses, cars, hackney carriages, cabs, water carts, drays, carts, or vans, and the drivers and conductors of passenger-carrying vehicles, within the Municipal District of Adamstown.

## All vehicles to be licensed.

1. No vehicle shall ply or be used for hire within the Municipality unless the same be duly licensed in the manner herein described.

## Requisition to be made for license.

2. Before any license for plying a vehicle, or to drive or to conduct the same, shall be granted, the party requiring such license shall obtain from the Council Clerk, free of charge, a requisition in the form of Schedule A hereto, or to the like effect, and duly fill up and sign the same, and deliver it to the Council Clerk; and, in the case of drivers or conductors, shall also obtain a certificate from two respectable householders to the effect that the applicant is of good character and competent to act as such driver or conductor, as the case may be.

## Conditions under which licenses to be granted.

3. No license shall be granted in respect of any vehicle which, in the opinion of the persons who shall be appointed by resolution of the Council of the said Municipality, is unsafe or in bad repair, or otherwise unfit for the accommodation and conveyance of passengers therein, nor until the number of such vehicle be painted thereon on a plate or plates affixed thereon outside on the panel of each door of such vehicle, or any such other place or places and in such manner as the said person appointed may direct.

## Licenses, and how to be issued.

4. Licenses for proprietors, drivers, and conductors of vehicles shall be in the form contained in the Schedule hereto annexed marked with the letter B, or the like effect; and any person plying, driving, or conducting any vehicle for hire with passengers without such license shall be deemed guilty of a breach of these By-laws.

## Licenses to continue in force until 31st December.

5. Every license granted under these By-laws shall be under the hand of the Mayor, countersigned by the Council Clerk, and shall be in force from the date of such license up to and including the 31st day of December then next ensuing; and no such license shall include more than one vehicle: Provided that if by accident any vehicle shall become unfit for use, it shall be lawful for the owner thereof, during such reasonable time as it shall be undergoing repair, to use another vehicle as a substitute; but the substitute shall, in all respects except as to a license, be subject to these By-laws in the same manner as if a license had been granted for it, and the owner using it shall be liable for any non-compliance with these By-laws in respect thereof as if it had been licensed. In order to entitle an owner to the benefit of the above provision, he shall, before using such substitute, give notice of his intention to do so in writing to the Inspector, stating the true cause of his being compelled to use such substitute, and the period during which it will be necessary to do so; and no such substitute shall be used until it shall have been inspected and approved of by the Inspector, or for a longer period than fixed by a certificate to be signed by the Inspector and delivered to the owner.

## Change of residence to be notified.

6. Whenever any person named as the owner, or one of the owners, driver, or conductor of a licensed vehicle, shall change his place of abode, he shall, within two days next after any such change, give notice thereof in writing signed by him to the Council Clerk, specifying his new place of abode; and the same shall be endorsed upon the license granted to such owner, driver, or conductor, and entered in the Register of Licenses. Any holder of a license who, since the license shall have been issued to him, shall have been convicted of any felony or misdemeanour, of having been intoxicated while in charge of a licensed vehicle, or of any two breaches of these By-laws within a period of six months, shall be liable to have his license cancelled or suspended by the Council; and no person shall, during the suspension or cancellation of his license, act as driver or conductor of any licensed vehicle. The

Council shall have power to suspend or cancel the license of any driver or conductor who shall have been guilty of any breach of these By-laws; and no person shall, during the suspension of his license, act as driver of any licensed vehicle.

*Who deemed owner.*

7. The person or persons in whose name or names a license shall appear on the books of the Council shall be deemed the owner of the vehicle in respect of which such license shall have been issued.

*No vehicle to be withdrawn without notice.*

8. No owner of any licensed vehicle shall withdraw the same from hire without leave from the Inspector, except in case of accident.

*To ply from stands.*

9. The owner or driver of any licensed vehicle shall not permit the same to stand or ply for hire, except at or from an appointed stand.

*Mode of driving on stands.*

10. The driver of every vehicle shall, on its arrival at any public stand, drive the same to the end of the rank of any vehicles that may be on such stand, and be last on the same; and at every public stand all vehicles shall be arranged in single rank only.

*Driver and conductor to be in attendance.*

11. The driver and conductor of every vehicle shall be constantly attendant on the same when standing on a public stand, or whilst plying for hire; and no driver or conductor shall, when standing on a public stand or plying for hire, be at such a distance from the horse or horses attached thereto as to prevent his having control over the same, nor shall the driver or conductor at any time stand by or remain on the footway or pavement of any of the streets, lanes, or public places next adjoining any public stand; but every driver and conductor when not actually employed in or about his vehicle, or in feeding or watering his horses, shall remain on the driving-box or step of his vehicle, and not elsewhere.

*Taking up or setting down passengers.*

12. The driver of any vehicle taking up or setting down passengers at any place of public worship or public amusement, or at any public meeting within the Municipality, or who is waiting for any of those purposes, shall obey the direction of the Inspector or other officer who may be on duty at such place or places, as to the taking up or setting down or waiting for passengers, and as to the order and place in which any vehicle shall stand; and every driver shall perform his duty in a careful and quiet manner, and shall not push into or get out of the line or position fixed for the vehicles, so as to endeavour to arrive at his place of destination before any other vehicle, the driver whereof from its position would have a prior right to take up or set down passengers.

*Vehicles to carry lights, &c.*

13. All vehicles shall be provided with suitable carriage lamps to burn candles, one to be fixed on each side of the driver's box, and a third on inside of all omnibuses and closed coaches; and the same shall be lighted not later than one hour after sundown, and be kept burning while the vehicles are on the stand or running in the streets, either with or without passengers.

*No loitering.*

14. No driver of any vehicle shall suffer the same to stand or loiter in any street or alongside any other vehicle, in taking up or setting down any person, or wilfully, wrongfully, or forcibly prevent, or endeavour to prevent, the driver of any other vehicle from taking a fare.

*Wilfully or negligently damaging property.*

15. Any owner, driver, or conductor who shall, whilst driving, loading, unloading, or attending any vehicle, or whilst upon any public stand, wilfully or negligently do or suffer, or cause any damage to be done to the person or property of any one, shall upon conviction forfeit and pay to the person whose person or property shall have been damaged, such sum for compensation not exceeding ten pounds as the Justices hearing the case may award.

*Drivers and conductors guilty of misconduct.*

16. No driver or conductor shall, whilst acting as driver or conductor, be guilty of any breach of the peace, misconduct, or misbehaviour, or be intoxicated, or make use of any threatening, obscene, filthy, indecent, blasphemous, profane, abusive, or insulting language, sign, or gesticulation, but shall at all times be sober and careful in the discharge of his duties. And no license shall be granted to any person to drive any passenger-carrying vehicle who shall be under the age of eighteen years.

*Space to be left between every fourth vehicle.*

17. At every fourth vehicle on every stand there shall be left a space of at least 8 feet for passengers to pass through.

*No blowing of horns, &c.*

18. No driver or conductor of any omnibus or other vehicle, whilst standing at a public stand or plying for hire in any part of the Municipality, shall endeavour to attract notice by ringing of bells, blowing of horns, or other instruments, nor deceive any person in respect of the route or destination thereof by word or sign, nor shall the driver or conductor of any vehicle endeavour to attract notice by shouting on Sunday whilst standing at a public stand, or in any part of the Municipality: Provided that the Inspector may in certain cases give the driver permission to sound a horn or blow a whistle.

*Driver to keep on the near side of the road.*

19. Every driver of any vehicle shall keep the same on the left or near side of the road except in case of actual necessity, and shall permit any other vehicle to pass having the right so to do, and when about to stop shall raise his whip straight up, so as to warn the driver of any vehicle that may be behind.

*Driver to turn vehicle at a walk, &c.*

20. The driver of every vehicle shall bring the horse or horses to a walking pace before commencing to turn, and shall also go at the same pace in turning the corner of any street.

21. No driver or conductor of any licensed vehicle shall lend his license, nor shall the proprietor of any such vehicle employ any unlicensed person as the driver or conductor thereof.

22. No driver or conductor shall smoke tobacco or other thing whilst driving or conducting any licensed vehicle engaged on any fare, nor shall any passenger smoke on any vehicle without the consent of the driver, or against the wish of any other passenger, and in no case shall any smoking be allowed inside any omnibus or other vehicle. No conductor shall enter any omnibus nor mount on the top of it whilst performing his journeys, for the purpose of collecting any fares or for any other purpose, or permit any person to stand on the steps or monkey-board whilst he shall be conducting.

23. Any driver who shall stop short of the distance for which he is licensed to ply shall, on representation of the circumstances to the Inspector, be temporarily suspended from driving, and such suspension shall be reported to the Council, who shall have power to further suspend in proportion to the offence, or to dismiss the offender altogether, and shall notify the same to the other Municipalities.

*Line of road and time to be kept.*

24. The driver of every vehicle shall on each line of road start with his vehicle from its stand, and complete the journey and the parts thereof to its other stand without turning the same round or leaving the proper line of road from one stand to the other.

*Extraordinary occasions.*

25. The Inspector of Licensed Vehicles for the time being shall be at liberty to grant permission to the owner or driver of any licensed vehicle to leave the line of road for which such vehicle is licensed, and ply the same from any place not being an appointed stand; and no owner or driver of any licensed vehicle shall permit or suffer the same to leave the line of road for which such vehicle is licensed without such permission.

*Vehicles to stand alongside footpath.*

26. No person shall permit or suffer any vehicle under his or her charge or control to stand or remain in any street or roadway in the Municipality of Adamstown, without causing such vehicle to be placed alongside of and parallel with the footway of such street or roadway.

*Driver to be in attendance.*

27. No person having charge of a vehicle whilst the same is standing in any street or roadway in the said Municipality shall be at such a distance from such vehicle as to prevent him or her having control of the horse or horses attached thereto.

*Driving around corners, &c.*

28. No person shall drive any vehicle, or ride any horse, while crossing the intersection of any streets within the Municipality of Adamstown, or turn the corners of any streets, at a pace faster than a walk.

*Omnibus and Omnibus Car Regulations.*

Construction of omnibus and omnibus car.—Furnishing.—Necessary particulars to be painted.

29. Every omnibus and omnibus car for which a license shall hereafter be applied for shall be of the dimensions herein directed, and shall be provided by the owner with the fittings and furniture, and have painted on it the words, figures, and notices detailed and described, as follows:—

*Dimensions.*

From floor to roof, in line with front of each seat, not less than 5 feet.

From top of seat of cushion to roof, not less than 3 feet 6 inches.

Each seat shall not be less than 14 inches wide. Space from seat to seat between the inside seats not less than 2 feet.

**Fittings and furniture**

The outside seats, when not of the rustic pattern, and all inside seats, shall be furnished with good cushions.

Springs shall be provided to all window frames, of an approved pattern, effective to prevent noise.

Words, &c., to be painted.

The number of the the license, 4 inches long, and of proportionate width, upon or near the driver's seat, and upon the panel of the door on the outer side.

The fare and the name of the owner, on the outside of the door.

The name of the stands between which it shall be licensed to ply, on each external side clear of the wheels; also,

On the end panel inside, in a conspicuous place, the names of the stands between which it shall be licensed to ply, the licensed number of passengers, the time of journey, the fare, and the name of the owner, except where otherwise directed. All the above words and figures to be not less than 1/2 inches in length, free from flourishes or intricate designs, and of a colour opposite to, contrasting with the ground on which they shall be painted. No alteration shall be made in any of the above without notice to the Inspector and the approval of Council: Provided that no alteration in the colour of the body of any omnibus shall be enforced until it shall be required to be painted: Provided also that it shall not be lawful for the owner, driver, or conductor of any omnibus or omnibus car to suffer any notice, advertisement, or printed bill, or any names, letters, or numbers, to appear upon the outside or inside thereof without the consent of the Inspector previously obtained.

Not to carry a greater number than licensed for.

30. No driver or conductor shall admit to the inside, or allow on the outside, of any vehicle, at any one time, a greater number of passengers than the number it shall be licensed to carry inside or outside, as the case may be; and no vehicle shall be licensed for more passengers than the same will accommodate upon fit seats properly cushioned, allowing for each passenger a space of 18 inches, measuring in a straight line lengthwise, on the front of each seat: Provided that no child under five years of age sitting on the lap shall be deemed to be a passenger under these By-laws. No passenger shall carry more than one child without paying its fare.

31. No omnibus shall be taken off the line of road for which it shall be licensed excepting as is herein provided.

**Cancellation or suspension of license.**

32. Any holder of a license who, since the license shall have been issued to him, shall have been convicted of any felony or misdemeanour, or, having been intoxicated while in charge of a licensed vehicle, or of any two breaches of these By-laws within a period of six months, shall be liable to have his license cancelled or suspended by the Council; and no person shall, during the suspension or cancellation of his license, act as driver of or conductor of any licensed vehicle.

Further power of the Council to suspend or cancel license.

33. The Council shall have power to suspend or cancel the license of any driver or conductor who shall have been guilty of any breach of these By-laws, notwithstanding the provisions of the next preceding By-law; and no person shall, during the suspension of his license, act as driver of any licensed vehicle.

**Time of starting.**

34. One licensed vehicle shall start from the appointed stand at Adamstown every morning at 8 a.m. (Sundays, Christmas Days, and Good Fridays excepted), the second one to leave at 8.30, and one every ten minutes till 10 p.m.

**Mode of starting.**

35. All omnibuses and omnibus cars, &c., plying to and from Adamstown and Newcastle shall start from the Adamstown Stand every morning in rotation, the first vehicle to start on one day shall be the last on the next, and follow in rotation from day to day.

36. No vehicle shall be allowed to remain in any public street or any public stand without horse or horses attached, unless in case of accident, when permission may be granted by the Council or the Inspector for a sufficient time to remove the same.

**Fee of licenses.**

37. For every such license or annual renewal thereof, there shall be paid to the Council Clerk the several rates set forth in the Schedule hereunto annexed marked C.

**Renewal of licenses.**

38. Licenses may be renewed at the end of every year by endorsement under the hand of the Council Clerk: Provided that the applicant for such renewal shall have been reported by the Inspector as having conducted his business creditably and satisfactorily.

**Legal fares to be paid.**

39. Any person having hired a licensed carriage shall pay the legal fare when demanded; and any person refusing or neglecting to pay the same shall, on conviction before two Justices of the Peace, forfeit and pay the same, with such amount of over damages, costs, and charges for loss of time or otherwise as the said Justices shall think fit.

Additional fare after 10 p.m. and before 5 a.m.

40. For as much of every drive by time or distance as may be performed by any vehicle not an omnibus, after 10 o'clock at night and before 5 o'clock in the morning, an addition of one-half the ordinary fare shall be paid with such ordinary fare; and in case of an omnibus, the charge shall be double the ordinary fares between the abovementioned hours.

No license to be granted for vehicle in bad condition.

41. No license for any vehicle shall be granted or renewed unless the vehicle, horse, or horses, and harness shall have been examined by the Inspector or other person appointed by the Council and found by him to be in a fit state to be licensed; and no license shall be granted in respect of any vehicle which, in the opinion of the Inspector, shall be unsafe, in bad repair, or otherwise unfit for the accommodation and conveyance of passengers, or for the conveyance of goods or merchandise. The person or persons appointed by the Council shall then determine upon the number of passengers the vehicle shall be permitted to carry, and give a certificate to that effect, such number to be mentioned in the license.

Legal fares, &c., to be painted on vehicles.

42. The number of passengers the vehicle is licensed to carry, and the legal fare, shall be painted or printed in legible characters, and affixed within and without the vehicle in such places as the inspecting Aldermen shall direct.

43. Such person or persons as may from time to time be in that behalf appointed by the Council shall be Inspector or Sub-Inspector, during the pleasure of the Council, of all licensed vehicles plying for hire in the Municipality, and such Inspector or Sub-Inspectors shall every three months examine all such vehicles and report to the Council on the same, and shall at all times see that as far as possible the By-laws are duly observed; and such Inspector or Sub-Inspectors shall have power to order from any stand or from being driven or used for hire any vehicle which, with horse or horses and harness attached thereto, upon examination shall not be in a proper and cleanly state, and in all respects in accordance with the By-laws fit for work; and every owner, driver, or conductor shall comply with the orders and directions so given.

No person to obstruct Inspector

44. No owner, driver, or conductor, or other person, shall obstruct or hinder any such Inspector or Sub-Inspector in the execution of his duties, or refuse to comply with any lawful order or direction to be given by him in relation to these By-laws.

45. For any offence against the provisions of these By-laws the offender shall be liable to and shall pay a penalty not exceeding £10 nor less than 5s.

**Dray Regulations.**

No person to ride upon dray without reins.

46. No owner, driver, or other person having the care and charge of any dray drawn by one or more horses, or other animals, shall ride thereon, unless he shall be provided with sufficient reins, nor in any case if such dray be loaded; and no block dray shall be allowed to proceed out of a walking pace.

Property left on dray.

47. For every case of goods or merchandise being left on any licensed dray, or with the driver thereof, by any person having hired or used the same, such property shall be delivered up to such person, or shall within eighteen hours be taken, in the state in which it shall have been found, to the Inspector's office and there deposited with the Inspector.

Not to carry more than one ton on dray.

48. No owner or driver shall at any one time carry on any licensed dray, having only two wheels and drawn by one horse, a greater weight than one ton.

Detention.

49. Whenever any dray, hired by the load or distance, having taken up a load, shall be detained with the same more than fifteen minutes, the hirer shall pay for every fifteen minutes after the first, six pence, and so in proportion for any longer period.

How numbers placed on dray.

50. The number of the license granted for every dray shall be painted white on a ground of black, or the reverse, on the sides thereof, in a conspicuous place in figures not less than three inches in height and of proportionate breadth, with the letters H.M.C. of the same colour immediately above the figures, and the driver or owner of such dray shall at all times keep the same legible and undefaced.

Not to demand more than legal fare.

51. No owner or driver of any dray shall demand, receive, or take more than the several fares or amounts fixed by the Council by these By-laws, and no owner or driver of any dray shall carry for hire any persons as passengers.

Fares for sending for, but not using dray.

52. Any person calling or sending for any licensed dray and not further employing the same, shall pay the sum of two shillings, or the fare or hire from the stand or place where the dray was engaged, at the driver's option; he shall further pay for any time the dray may be detained, not exceeding a quarter of an hour, the sum of one shilling, and for any time not exceeding a second quarter of an hour the sum of six pence, and for any further time at the rate of six pence for every quarter of an hour.

Distance—how computed.

53. The distance shall be computed from the stand or place where the dray was hired.

To pay legal fare.

54. Any person having hired a dray shall pay the legal fare when demanded.

Drays not to stand across streets.

55. No driver of any licensed dray shall suffer the same to stand for hire across any street, except so directed by the Inspector, or alongside any other vehicle, nor obstruct the driver of any other dray in loading or unloading any goods or merchandise, or wilfully, wrongfully, or forcibly prevent, or endeavour to prevent, the driver of any vehicle from taking a fare or hiring.

56. Any person or persons riding or driving into or out of any yard or alley abutting on any street or road within the Municipality shall do so at a walking pace.

57. For any offence against the provisions of these By-laws the offender shall be liable to and shall pay a penalty not exceeding £10 nor less than 5s.

#### MUNICIPALITY OF ADAMSTOWN.

BY-LAWS for the Municipality of Adamstown, for carrying into effect the provisions of the "Nuisances Prevention Act, 1875."

1. No person shall erect or commence to erect any closet except in such place or position, and of such dimensions and description as contained in By-law No. 2 of these By-laws, unless by the written authority of the Inspector of Nuisances or other officer appointed by the Council. Any person or persons violating this By-law shall forfeit and pay a penalty of not more than two pounds nor less than ten shillings. But any person who shall feel aggrieved by the decision of such Inspector or other officer may appeal against the same to the Council.

2. The dimensions of each closet shall be 4 feet deep, and not less than 3 feet wide (inside measurement) and 6 feet 6 inches high from sole plate to wall plate, and to be built of material approved of by the Council or the Inspector of Nuisances.

3. A separate closet shall be provided for every tenement. In schools and factories, where a number of persons shall attend or be employed, separate closets, with a door to fasten on the inside, shall be provided for each sex; and a separate closet shall be provided for every twenty persons so attending or employed. All closets hereafter to be built shall be constructed of 4½-inch brickwork or approved sawn timber. Where two or more closets adjoin each other, there shall be a dividing brick wall between each of not less than 4½ inches in thickness to effect a complete separation; and any person offending against any of the provisions of this By-law shall incur a penalty not exceeding ten pounds nor less than two pounds, and a like penalty for every succeeding seven days.

4. Every closet, whether already built or hereafter to be built, shall be provided by the occupier or owner with a galvanized iron pan not exceeding 18 inches in depth nor more than 17 inches in diameter, and of a pattern to be approved of by the Council or their authorised officer, the Nuisance Inspector. Any owner or occupier committing a breach of this By-law shall forfeit and pay a penalty of not less than ten shillings or more than two pounds (£2), such pans to be kept in good order to the satisfaction of the Nuisance Inspector.

5. No person or persons shall bury or cause to be buried on his or her premises or any other persons premises any night-soil collected therefrom without the sanction of the Council or Inspector of Nuisances; any person or persons committing a breach of this By-law shall be liable to a penalty of not less than one pound or more than ten pounds.

6. If, in the opinion of the Inspector of Nuisances, any alteration is required in existing cesspits or closets, he shall report the same to the Council, which shall determine what alteration is necessary for the preservation of health or decency, and such alteration shall forthwith be made by the owner or occupier of the premises after receiving seven days' notice to that effect, under a penalty of not exceeding five pounds nor less than two pounds.

7. If at any time the earth-closet pan in any premises shall overflow or become a nuisance, the owner or occupier shall be liable to a penalty not exceeding two pounds nor less than ten shillings.

8. No person shall be permitted to connect any closet with any drain, water-course, or sewer without the sanction of the Council; and any person so offending shall be liable to a penalty not exceeding twenty pounds nor less than one pound.

9. The night-soil shall be removed by contract in properly constructed carts, between such hours as the Council may determine, and the contractor will be held responsible for the careful conveyance of the night-soil to the appointed depot, and shall dispose of the same as directed. For any breach of the conditions of this By-law he shall be liable to a penalty not exceeding twenty pounds nor less than five pounds.

10. If the night-soil or any portion thereof shall be sold or given away by the Council, the person removing the same shall do so only at such times and in such manner as the Council may direct, and shall dispose of the same so as not to cause a public nuisance; and the person purchasing or obtaining it, and so dealing with or disposing of it as to cause a nuisance, shall be liable to a penalty not exceeding ten pounds nor less than two pounds.

11. The Inspector of Nuisances shall have power to visit and inspect any premises on any lawful day, between the hours of 10 a.m. and 4 p.m.; and any person refusing admittance or obstructing or hindering such Inspector in the discharge of his duty shall incur a penalty not exceeding five pounds nor less than one pound.

12. The place of deposit shall be in such locality as may from time to time be determined upon by the Council, with the approval of the Governor.

13. Written notice must be given to the Council or the Inspector of Nuisances, by all persons about to construct new or alter existing closets, to enable the Inspector to visit and report on the same, under a penalty for neglect not exceeding five pounds nor less than one pound; and closets constructed without such notice being given must be removed or altered, if judged necessary by the Council, under a further penalty not exceeding ten pounds nor less than five shillings.

14. The Council shall from time to time fix the charges to be made for emptying and removing night-soil from closets, which shall be emptied every fourteen days or oftener as may be necessary in the opinion of the Inspector of Nuisances.

#### *Removal and Disposal of Night-soil and Payments for the same.*

##### *Interpretation.*

1. In these By-laws night-men means and includes any and every person employed by the Council to remove or assist in removing night-soil, whether as servants of the Council or as contractors thereunder, or as servants of such contractor. Night-cart means any vehicle used by any person for the purposes aforesaid. Depot means a depot for the deposit of night-soil.

##### *Night-soil depôts.*

2. Such depôts as shall from time to time be named by resolution of Council, with the approval of the Governor, shall be depôts for the disposal of night-soil.

3. No person shall be employed in the removal of night-soil, or in driving any cart for that purpose, within the limits of the Municipality of Adamstown, unless such person be authorised so to do by the said Council.

##### *Certificate.*

4. Such authority shall be evidenced by a certificate, under the hand of the Mayor and Council Clerk, which shall contain the name and place of abode of the holder, and shall be duly numbered and registered; such certificate shall be according to the form in the schedule to these By-laws.

##### *Revocation of certificate.*

5. Any such certificate may be revoked, cancelled, or suspended, at the will of the said Council, and thereupon such authority shall cease.

##### *Change of abode to be notified.*

6. Any authorised night-man or person engaged in the removing of night-soil changing his place of abode, shall within three days after so doing attend the Council Clerk, who shall note the change upon his certificate and register the same.

##### *Certificate to be carried and produced.*

7. Every night-man whilst engaged in removing night-soil, or in driving any vehicle for that purpose shall carry with him his certificate, and shall produce same when required by any officer of the Council or member of the Police Force of New South Wales. No night-man shall on any pretence part with or lend his certificate to any other person.

##### *Night-carts to be made water-tight and covered.*

8. Every night-cart or vessel used in the business of a night-man shall be kept by the owner thereof water-tight and free from leakage, and shall be provided with a proper covering, so as to effectually prevent the dropping, splashing, slopping, or spilling of anything carried therein.

Hours for emptying cesspits, &c.

9. No person shall empty any privy, cesspool, or remove any night-soil within the Municipality, or shall permit or suffer such to be done, or shall use or drive, or permit, or suffer to be used or driven, any night-cart or other vehicle for that purpose, except between the hours of 6 a.m. and 6 p.m.; or shall put, place, leave, spill, or cast out any night-soil in or upon any of the streets or public places of the said Municipality, or shall not carefully sweep up and cleanse every place in which any offensive matter is slopped or spilled: Provided that before commencing such work it shall be the duty of the night-man to report his intention so to do to the Inspector at least twelve hours before commencing such work.

Night-soil not to be brought into the Municipality.

10. No person shall bring or convey any night-soil to any depot within the limits of the said Municipality from any place beyond the said limits.

11. For every certificate under these By-laws, there shall be paid to the Council Clerk the following fees:—

	s.	d.	
For every cart .....	10	0	per annum.
For every master's certificate .....	5	0	do
For every driver's certificate .....	2	6	do
For every labourer's certificate ...	2	6	do

Inspection of carts, &c.

12. All night-carts, vessels, or pans used for the carrying of night-soil shall be kept in proper order, and shall be under the inspection of any person or persons appointed by the Council for that purpose.

Payments, and how made.

13. The removal of all night-soil shall be paid for quarterly in advance, the sum to be paid for as herein described. Where one pan is used, the sum of two shillings and nine pence shall be paid to the Inspector, at the Council Chambers, on the 1st day of January, 1st day of April, 1st day of July, and 1st day of October respectively; but in case of the aforesaid 1st day of January, April, July, and October falling on a Sunday, the same shall be paid on the 2nd of the aforesaid months; and if not paid for in twenty-one days from the above dates, the same may be recovered in a Court of law; the owner in all cases to be held responsible.

14. Any person requiring two or more pans at the same time shall pay for emptying the same in accordance with By-law 13, for the removal and payments of night-soil; and all persons requiring their pans emptied oftener than the ordinary appointments for the same shall pay seven pence halfpenny for each pan so emptied.

Breach of By-laws.

15. Every person guilty of a breach of any of the provisions of the foregoing By-laws shall be liable for every such offence (when not otherwise expressly mentioned) to a fine or penalty not exceeding twenty pounds nor less than five shillings.

1891.

## NEW SOUTH WALES.

## MUNICIPALITIES ACT OF 1867, AND NUISANCES PREVENTION ACT, 1875.

(MUNICIPAL DISTRICT OF TUMUT—BY-LAWS.)

Presented to Parliament, pursuant to Acts 31 Vic. No. 12, sec. 158, and 39 Vic. No. 14, sec. 18.

Colonial Secretary's Office,  
Sydney, 14th January, 1891.

## TUMUT MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Municipal District of Tumut, under the "Municipalities Act of 1867," and the "Nuisances Prevention Act, 1875," having been respectively confirmed and approved by His Excellency the Lieutenant-Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

HENRY PARKES.

SUPPLEMENTARY BY-LAWS of the Municipal District of Tumut,  
Part VII, under the "Nuisances Prevention Act, 1875."

1. Every person about to erect a closet shall, before commencing any such work, give to the Council Clerk seven days' notice in writing of his intention and of the proposed position of such closet; and in default thereof, or in case of his commencing such work without such notice, he shall be liable to a penalty not exceeding £5 (five pounds), or less than 10s. (ten shillings).

2. No closet shall be erected except in such position as shall be approved of by the Council or by the Inspector of Nuisances, or other person appointed by the Council.

3. Every closet shall be built with walls (7) seven feet high, and shall not be less than 3 feet 6 inches wide and 4 feet 6 inches long, and shall be provided with a door capable of being fastened from the inside, and shall have ventilating holes 4½ inches wide.

4. When two or more closets adjoin each other there shall be a brick, stone, or wooden dividing wall of not less than 4½ inches in thickness between every two closets, and each wall shall extend from the floor of the closet to the roof so as to effect a complete separation.

5. In schools or in factories, or other places of business where a number of persons exceeding twenty shall reside, or be occupied, or employed, one pan or closet shall be provided for every twenty persons with a capacity of not less than one cubic foot or more than two cubic feet, and separate closets shall be provided for each sex.

6. All persons shall use the closets solely for the deposit of fecal matter and human excrement, and shall cover such deposit with sand, lime, ashes, earth, or other suitable material. In case of any infectious disease occurring in the household of persons using the said closets, a sufficient quantity of some efficient disinfectant shall be used in a manner to be directed by the Inspector of Nuisances; and any person who shall wilfully deposit, or caused to be deposited any fecal matter or excrement in such closet without duly disinfecting the same, shall be liable to a penalty of not more than three pounds nor less than one pound.

7. If any alteration shall be requisite, in the opinion of the Inspector of Nuisances, or any other officer appointed by the Council on that behalf for preserving public health or decency, in the case of any existing closet, the owner or occupier of such premises shall receive seven days' notice to remove or alter the same; and if he fail to do so, and the Council shall adjudge such closet to be either injurious to the health or opposed to decency by exposure or otherwise, the same shall be altered by the Inspector of Nuisances or other officer, and the cost of such alteration shall be paid by the owner or occupier of premises whereon the same shall be.

8. When any new building is about to be erected, the builder or builders thereof shall first erect or cause to be erected on the premises a temporary closet not less than 3 feet by 2 feet 6 inches, and 6 feet high (where such convenience does not already exist or is deemed necessary by the Council or Inspector of Nuisances), for the use of the workmen employed in the construction of the new building; and any person neglecting to conform to this By-law shall be liable to a penalty not exceeding five pounds nor less than one pound.

9. The place of deposit for night-soil shall be in such locality as may be from time to time determined upon by the Council, with the approval of the Governor, and no night-soil shall be deposited in any other locality within the said Municipality except as allowed by By-laws.

10. Until otherwise provided by the Council, all night-soil shall be removed from closets, cesspits, boxes, pans, or other receptacles by the servants of or contractors with the Council, in water-tight covered vehicles, between the hours of 11 o'clock in the evening and 5 o'clock in the morning.

11. Until and unless otherwise provided by the Council, all night-soil shall be disposed of by burying it in the earth.

12. In case the Council shall sell or give away any night-soil, the same shall be removed in the same manner as above provided, and on being removed from the vehicles in which it is carried, it shall be deodorized by chemicals or in some other manner, or covered with earth so as to prevent any offensive smell arising therefrom.

13. The Inspector of Nuisances or other officer appointed by the Council may visit and inspect any premises or do any work authorised by "The Nuisances Prevention Act, 1875," on all days except Sundays and public holidays, between the hours of 10 o'clock in the morning and 4 o'clock in the evening.

14. All night-soil shall be removed from pans, boxes, or other receptacles excepting cesspits, once a week or oftener, and buried in the earth.

15. Every person shall be at liberty to use all night-soil collected on his premises in any garden attached thereto, as mentioned in By-law 34, Part IV; but if any nuisance shall arise therefrom, he shall be liable to a penalty not exceeding five pounds nor less than one pound.

16. No person shall be at liberty, without the permission of the Council or Inspector of Nuisances, or other officer appointed in that behalf, to use on his premises any night-soil brought from elsewhere.

17. No person shall be permitted to cover up, or cause to be covered up, any existing cesspit with earth or any other material prior to giving notice to the Inspector of Nuisances, until the same shall have been properly emptied by the Council's Contractor. Any person offending against this By-law shall be liable to a penalty not exceeding five pounds nor less than one pound.

18. The Council may recover, and the owner or occupier shall pay, such sum for the emptying of cesspits, earth-pans, or boxes, as may be decided upon from time to time by resolution of the Council.

19. The owner or occupier of any premises within the Municipality, or any other person who shall have or erect upon his premises any closet otherwise than in accordance with these By-laws, or who shall refuse or neglect to comply with the provisions of any of the preceding or following By-laws, or who shall commit any breach thereof, shall (in cases where no special penalty is provided), forfeit and pay a penalty not exceeding five pounds.

20. The servants of or contractors with the Council, appointed for the removal of night-soil, shall, under the direction of the Inspector of Nuisances or other authorised officer, make a trench or trenches on the depot or depôts appointed for night-soil, which shall from time to time be taken to such depot or depôts, and shall cover the whole of such night-soil with earth to a depth of 2 feet, and with disinfectants, approved by the Council, so as to prevent any nuisance or offensive effluvia from arising therefrom, and any servant of, or contractor with the Council or other person, who shall deposit night-soil or other offensive matter on any such depot or depôts otherwise than in such trench or trenches, or without covering and deodorising the same in manner aforesaid, shall be liable to a penalty not exceeding five pounds.

21. Any person or persons committing any breach of By-law No. 11, referring to the removal of night-soil by the Council's servants or contractors, shall be liable to pay to the said Council the charges payable for the removal of night-soil by such servants or contractors as if the work had been done by such servants or contractors, and shall also be liable to a penalty of not exceeding ten pounds.

22. The Inspector of Nuisances, so far as relates to these By-laws, and in all other cases the said Inspector of Nuisances or any other officer duly appointed by the Council, shall be the person to see the foregoing By-laws carried into effect, and to institute and prosecute all legal proceedings thereunder.

23. All the words recurring in these By-laws, and which also occur in the Nuisances Prevention Act, 1875, shall have the like meaning assigned to them as are provided in the 4th section of the same Act.

#### *Regulations.*

1. Whenever the Council shall enter into a contract with any person or persons for the removal of night-soil, the Mayor shall notify the same by publishing an announcement to that effect at least twice in the newspaper printed and regulated in the town of Tamut, giving the name and residence of the contractor. This shall be deemed sufficient notice to the householders or residents within the Municipal District of Tamut of the appointment of the said contractor.

2. Any householder or resident within the Municipal District of Tamut who shall require the contents of any closet, cesspit, pan, or other receptacle for night-soil removed, shall sign and give to the Inspector of Nuisances (by delivering the same to him personally, or by leaving the same addressed to him at the Council Chambers) a notice in the form approved by the Council.

3. This form shall be supplied on application to the Council Clerk. Upon receiving the form the applicant shall deposit with the Council Clerk the sum of one pound as security for payment of the fees appointed by the Council for the removal of night-soil, for which deposit of one pound the Council Clerk shall give the applicant a printed receipt.

4. The following shall be the charges to be paid by householders and residents within the Municipal District of Tamut for the removal of night-soil, as hereunder mentioned:—

For emptying a cesspit as often as may be required, four pence per cubic foot each time.

For emptying one pan once a week in each month, one shilling and eight pence per month.

For emptying one pan twice a week in each month, three shillings and four pence per month.

5. Should the contractor dissent from the dimensions of the contents of a cesspit, as stated by the applicant in the form above referred to, the question shall, unless it be amicably arranged between the contractor and the applicant, be referred to the Inspector of Nuisances, whose decision shall be final and binding on all parties concerned.

6. Upon the appointment of a contractor for the removal of night-soil under the By-laws aforesaid, the Inspector of Nuisances shall immediately thereupon, or within a reasonable time thereafter, accompany the said contractor on a tour of inspection of the closets, cesspits, pans or receptacles for night-soil within the said Municipal District of Tamut, and shall point out the same to the said contractor and shall at the same time intimate to the householders or residents concerned the necessity of delivering the notice aforesaid, and of complying with the requirements of these regulations.

7. In the event of default being made by any householder, or resident, or other person who may become liable under the promise contained in the above form, or under any By-law made in that behalf, in payment of the cost of the removal of night-soil, the Council may forthwith proceed to recover payment of the said cost without any further notice.

#### **PART VIII.**

##### *By-laws for regulating the traffic in the streets of the Municipal District of Tamut.*

###### *Vehicles to be driven on near side.*

1. All persons driving any vehicle through any street or roadway in the said Municipality shall, except in crossing for the purpose of setting down or taking up goods or passengers, keep such vehicle as near as practicable to the left-hand or near side of the street.

###### *Vehicles to stand on near side of footpath.*

2. No person shall permit or suffer any vehicle under his or her charge or control to stand or remain in any street or roadway in the said Municipality (except for the purpose of loading or unloading) without causing such vehicle to be placed alongside of and parallel with the footway of such street or roadway, and the wheels securely locked.

###### *Lights to be carried on vehicles, &c.*

3. No person shall use, drive, or conduct any vehicle along any street or roadway within the said Municipality between sunset and sunrise without carrying a light upon some conspicuous part of such vehicle, in such manner as that the same shall be distinctly visible to persons either meeting or following such vehicle.

###### *Placing fruit-skins, &c., on roadway.*

4. No person shall throw or place upon any street-crossing or footpath in the said Municipality any fruit-skin, rind, or peel.

###### *Penalty.*

Any person offending against any of the provisions in this part of the said By-laws shall for each offence upon conviction forfeit and pay a penalty not exceeding ten pounds nor less than one pound.

#### **PART IX.**

##### *By-laws relating to public vehicles.*

1. No vehicle shall ply for hire, nor shall any person act as the driver or conductor of any such vehicle within the said Municipal District of Tamut, unless licensed in the manner hereinafter described.

2. Before any license for plying a vehicle or to drive or conduct the same shall be granted the party requiring such license shall obtain from the Council Clerk, free of charge, a requisition in Form of Schedule A hereto, or to the like effect, and shall duly fill up and sign the same and deliver it to the Council Clerk; and the Mayor, or the By-law Committee, may grant a license for such vehicle, specifying the number of passengers such vehicle is licensed to carry, or to drive or to conduct a vehicle, upon payment of the license fee as prescribed in Schedule C hereto.

3. No license shall be granted in respect of any vehicle which, in the opinion of the Mayor, shall be unsafe or in bad repair, or otherwise unfit for the accommodation and conveyance of passengers.

4. Licenses for proprietors and drivers of vehicles shall be in the Form of Schedule B hereto, or the like effect.

5. Every license granted under these By-laws shall be in force from date of such license until the thirty-first day of December, or the thirtieth of June then next ensuing, and no such license shall include more than one vehicle: Provided that where the licensed vehicle shall be under repair, if the proprietor shall so desire, he may be permitted to substitute another for a period to be specified by indorsement on the license, under the hand of the Mayor or Council Clerk.

6. Licenses may be renewed each year or half-year by indorsement thereon, under the hand of the Mayor or Council Clerk, if the person applying for the renewal of such license be approved of by the Mayor, and the vehicle for which such renewal is required is in good repair and approved by the Mayor.

7. For every such license and renewal thereof there shall be paid to the Council Clerk, for the benefit of the Municipal District of Tumut, the several rates set forth in Schedule C hereto.

8. No license shall be granted to any person who shall be under the age of eighteen years.

9. All licenses shall be made out by the Council Clerk, or an officer of the Council, and numbered consecutively.

10. No proprietor shall be at liberty to part with or lend his license to any person without the knowledge and approval of the Mayor or the By-law Committee, and the registry of the name of the purchaser in the books of the Council.

11. The proprietor or person in whose name a license shall appear to have been obtained shall be deemed to be the owner or owners of the vehicle in respect of which the same shall have been taken out.

12. The license of the proprietor or driver of any vehicle may be suspended by the Mayor, who shall report such suspension at the next regular meeting of the Council, and such license then by resolution of the Council may be revoked.

13. The By-law Committee, or the Mayor, shall as often as they or he may deem it necessary cause an inspection to be made of all licensed vehicles, or of any such licensed vehicles, and of the harness and horse or horses used in drawing the same; and if any such vehicle, horse or horses, or harness shall at any time be found by them or by him to be unfit for public use, notice of the same shall be given by the Inspector of Vehicles to the proprietor of such vehicle; and if after such notice he shall use or let to hire such vehicle, or suffer the same to be used until the same, or the harness, or the horse or horses used in drawing the same, as the case may require, shall be in fit condition for public use. The By-laws Committee or the Mayor may suspend for such time as they or he may deem proper the license of such vehicle, and in case any person shall neglect or refused to attend with his licensed vehicle before the said Committee or Mayor at such time and place as he may be called, upon either by letter or notice in one of the local papers for the purpose of having the same inspected, the said Committee or Mayor may suspend the license of such vehicle.

14. The number of the license granted for every licensed vehicle shall be affixed thereon, in figures not less than two inches in height, white upon a black ground, in some conspicuous part of such vehicle.

15. No vehicle shall ply for hire within the Municipal District of Tumut unless there shall be painted the number of the license of such vehicle, and number of persons such vehicle is licensed to carry according to these By-laws, in words at length, in the following form, that is to say, Licensed to carry inside and outside.

16. No vehicle shall be allowed to carry at one time a greater number of passengers in the inside or upon the outside thereof than the same shall be licensed to carry. The driver of any vehicle infringing this By-law shall be liable to a penalty not exceeding five shillings for each passenger carried in excess of the number which the vehicle is licensed to carry.

17. Any person having taken his or her seat in any licensed vehicle, and not paying the fare when demanded during the ride, shall on conviction forfeit or pay to the owner or driver of such vehicle, an amount equal to three times the fare chargeable, in addition to such fine as the convicting Justices may inflict not exceeding forty shillings.

18. Every driver whilst engaged in taking up or setting down any passenger shall, during such taking up or setting down, place his vehicle as near as conveniently may be on that side of the street, and at a line with the kerbing or edge of the foot-path, at which the taking up or setting down is required.

19. The driver of every licensed vehicle shall be constantly attendant upon the same when standing, or whilst plying or engaged for hire.

20. Every licensed vehicle plying or engaged after sunset shall be provided with a light on each side, and shall keep the same lighted until sunrise, if so long plying or engaged.

21. The owner of every licensed vehicle at the time of obtaining the license for the same, and every driver of any such vehicle at the time of registering his license shall without charge have a printed copy of this part of these By-laws delivered to him, certified by the signature of the Council Clerk.

22. Such person or persons as may from time to time be in that behalf appointed by the Council shall be Inspector or Inspectors, during the pleasure of the said Council, of all licensed vehicles plying for hire within the Municipal District of Tumut; and such Inspector or Inspectors shall every three months examine all such vehicles, and shall at all times see that as far as possible these By-laws are duly observed.

23. For every offence against the provisions of this part of these By-laws, to which no specific penalty has been attached herein, the offender shall pay a penalty not exceeding five pounds.

#### SCHEDULE A.

To the Municipal Council of Tumut.  
I, \_\_\_\_\_ residing in \_\_\_\_\_ street, do hereby request that a license may be granted to me for \_\_\_\_\_ within the Municipal District of Tumut.  
Dated \_\_\_\_\_ 189 .

#### SCHEDULE B.

This is to certify that \_\_\_\_\_ is hereby licensed to \_\_\_\_\_ within the Municipal District of Tumut, from the date hereof to the \_\_\_\_\_ next, subject, nevertheless, to all and every of the By-laws, rules, and regulations in force relating hereto.  
Given under the seal of the Council for the Municipal District of Tumut, this \_\_\_\_\_ 189 .  
Council Clerk. Mayor.

For every 4-wheeled vehicle for three months	0	10	0
For every 2-wheeled vehicle for six months	0	10	6
For every 2-wheeled vehicle for three months	0	5	0
Licenses to drive per annum	1	0	0
Licenses to drive for six months	0	10	6

#### PART X.

##### By-laws relating to carters.

1. No cart or other vehicle shall be permitted to cart, draw, or carry for hire, merchandise, produce, wood, sand, earth, bricks, gravel, stone, or other material for building or other purposes, within the Municipal District of Tumut, unless licensed in the manner hereinafter described.

2. The Mayor shall from time to time license such carts, waggons, or drays as respectively after inspection by the By-law Committee or the Mayor, shall be found fit for public use, and also such carts to be used in carting wood for sale, and also for carts carting sand, gravel, stone, earth, bricks, or any other building material for sale, or carting for hire, or any person carting any of the above under contract, or any carts to be employed as night-carts within the Municipal District of Tumut, as shall after the like inspection be found fit for such purposes respectively, and for every such license there shall be paid to the Council Clerk such sum, as with respect to each kind of cart aforesaid, as set out in Schedule A hereto.

3. Every such license shall be numbered and registered by the Council Clerk, and shall be in force until the 31st day of December or 30th of June next ensuing, and the owners named in any license shall cause to be painted or marked, and to be kept so painted or marked, on the off or right-hand side of the cart thereby so licensed, the name of the Municipality, with the number of such license, in legible letters; and every such owner who shall omit or fail to comply with the provisions of this section, shall forfeit and pay a sum not exceeding forty shillings.

4. The driver of every licensed cart, waggon, or other vehicle, shall hold the license of such cart, waggon, or other vehicle, and shall when required by the Inspector of Licensed Vehicles, or by any other person wishing to hire, or having hired, such cart, waggon, or vehicle, produce for the inspection of the person so requiring such license. Any driver declining to produce such license when required shall be liable to a penalty not exceeding twenty shillings.

5. The word "cart" shall, for the purpose of this part of these By-laws, include every waggon, dray, or other such carriage, whatever be its construction, drawn by horses or other animals, used wholly or chiefly for the carriage of burthens or heavy goods. The word "wood-cart" shall mean a cart used in the hawking or carting of firewood for sale or under contract; and the word "night-cart" shall mean a cart used in carrying or removing of night-soil, offal, or other offensive refuse.

6. It shall be lawful for the Mayor to grant a transfer of any carter's license from the holder of such license to any other approved person, upon payment to the Council Clerk of a transfer fee of two shillings, such transfer fee to be indorsed upon such license, and duly registered by the Council Clerk.

SCHEDULE A.

	£	s.	d.
For 4-wheeled vehicles per annum ... ..	1	0	0
For 2-wheeled vehicles per annum ... ..	0	10	0
For 4-wheeled vehicles for six months ... ..	0	10	0
For 2-wheeled vehicles for six months ... ..	0	5	0

SCHEDULE B.

A Requisition for Carter's License, to the Mayor of the Municipal District of Tumut.

I,                      residing in                      street, do hereby request that a license may be granted to me for cart No.                      within the said Municipal District of Tumut.

This is to certify that a carter's license No.                      is hereby granted to                     , within the Municipal District of Tumut, from the date hereof to the                      day of next                      subject, nevertheless to all and every of the By-laws, rules, and regulations in force relating thereto.

Given under the Common Seal of the Municipal Council of Tumut, this                      day of                      189                     .

Council Clerk.

Mayor.

Plumbers to give notice and pay fee for permission to open roadway, &c.

1. Every plumber or other person desiring to open the roadway or pathway for the purpose of laying down pipes for water or drainage or for any other lawful purpose, shall give notice to the Council Clerk or other officer of the Council before commencing such work, and shall also pay the sum of two shillings and six pence for such permission before opening such roadway or pathway, and shall replace the same in good order to the satisfaction of the Council's officer, and any person or persons neglecting to comply with the provisions of this By-law shall be liable to a penalty not exceeding three pounds nor less than one pound for every such offence.

Vehicular entrances to private premises to be paved, &c.

2. Any person or persons desirous of having a vehicular entrance to his or her premises over any of the footways of the said Municipal District of Tumut must make application to the Council for such permission, and upon the same being granted the owner or occupier of the said premises shall cause the said vehicular entrance to be gravelled or otherwise to the satisfaction of the Committee for Works within seven days after such permission is granted, and in default he or she shall forfeit and pay any sum not less than ten shillings nor more than two pounds for every such offence: Provided also that all vehicular entrances as aforesaid now in existence shall be paved, gravelled, or otherwise, to the satisfaction of the

Committee for Works as aforesaid, within one month from the date of service of such notice to that effect on the owner or occupier of the premises as hereinbefore mentioned, and upon default he or she shall forfeit and pay any sum not exceeding two pounds nor less than ten shillings for every such offence.

Drainage, &c.

No private sewers or drains to communicate with the public sewers without notice.

3. It shall not be lawful for any person, without notice to the Council or Inspector of Nuisances, or otherwise than according to such plans and directions as such Council or Inspector of Nuisances may give, to make or branch any private drain or sewer into any of the public drains or sewers, or into any drain or sewer communicating therewith without such notice, and in case any person or persons shall make or branch any private drain or sewer communicating or to communicate therewith without such notice or otherwise than aforesaid, every person so offending shall for every such offence forfeit and pay any sum not exceeding fifty pounds nor less than five pounds, and shall, at his or her expense, make good all roads, streets, kerbing, &c., which shall have been injured by or through any such work, and all such repairs shall be performed to the satisfaction of such officer as the Council shall appoint to superintend such work; and any person who shall do or perform anything contrary to this By-law, or shall neglect to make good all such damage as aforesaid, shall on conviction thereof forfeit and pay any sum not exceeding fifty pounds nor less than two pounds.

Proprietors of private drains, sewers, &c., to trap, repair, and cleanse same.

4. All proprietors of private drains or sewers communicating with any public drain or sewer, now or hereafter constructed, shall have the same properly trapped, and when necessary, shall cleanse and repair the same under the inspection and direction of the Council, or officer thereof, at the cost and charges of the occupiers or owners of the houses, buildings, lands, and premises, to which the said private drains or sewers shall respectively belong; and in case any person shall neglect to trap, repair, and cleanse, or cause any such private drain, or sewer to be trapped, repaired, and cleansed, according to the directions of the said Council, or officer thereof, he or she shall forfeit and pay for every such offence any sum not exceeding five pounds nor less than one pound.

Owners or Lessee to construct drains, &c., and connect sewers.

5. The owner or lessee of every tenement, or premises, which shall have a frontage to, or abut upon, any street, or lane, in which a public sewer or drain is made, laid, or constructed, or may be so made, laid, or constructed, shall make, lay, or construct, or cause to be made laid or constructed, a drain or sewer of such size and material as the Inspector of Nuisances, or other officer appointed by the Council, may deem sufficient to carry the drainage of such tenement or premises, the said drain or sewer to be connected with the aforesaid public drain or sewer, any person after having received seven days' notice thereof, and in default of any of the provisions of this By-law shall forfeit and pay a penalty not exceeding five pounds nor less than two pounds for every such offence: Provided that after conviction every seven days' default shall be deemed a further and separate offence.

Made and passed by the Council of the Municipal District of Tumut this 23rd day of September, in the year of our Lord one thousand eight hundred and ninety.

## NEW SOUTH WALES.

MUNICIPALITIES ACT OF 1867, AND NUISANCES  
PREVENTION ACT, 1875.

(MUNICIPAL DISTRICT OF DENILIKUIN—AMENDED AND ADDITIONAL BY-LAWS.)

Presented to Parliament, pursuant to Acts 31 Vic. No. 12, sec. 158 and 39 Vic. No. 14, sec. 18.

Colonial Secretary's Office,  
Sydney, 28th April, 1891.

## MUNICIPAL DISTRICT OF DENILIKUIN.—AMENDED AND ADDITIONAL BY-LAWS.

THE following Amended and Additional By-laws, made by the Council of the Municipal District of Deniliquin, under the "Municipalities Act of 1867" and "Nuisances Prevention Act, 1875," having been confirmed and approved respectively, by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

HENRY PARKES.

## MUNICIPAL DISTRICT OF DENILIKUIN.

By a resolution passed by the Municipal Council of Deniliquin, at a Meeting held on the 15th day of December, 1890, the following clauses Nos. 35 and 37 of Part 1, made under the Municipalities Act of 1867, are hereby repealed, viz. :—

35. There shall be four standing Committees, namely, a By-law Committee, a Committee for Works, a Committee for General Purposes, and a Finance Committee—the three first to consist of the whole Council, three to form a quorum; the Finance Committee to consist of three Aldermen, two to form a quorum.

37. In cases of emergency any one of the standing orders may be suspended, provided the whole of the Aldermen present consider it necessary.

The seal of the Municipal District of Deniliquin was hereto attached.

(L.S.) W. J. DAVIES,  
Mayor.

In the presence of—  
THOMAS C. GILLIES, Council Clerk.

## MUNICIPAL DISTRICT OF DENILIKUIN.—ADDITIONAL BY-LAWS.

By a resolution of the Municipal Council of Deniliquin, the following Additional By-laws, made under the "Municipalities Act of 1867," were ordered to be inserted in the places respectively of repealed By-laws 35 and 37, Part 1, and to be in lieu thereof :—

## PART 1.

35. There shall be four standing Committees, namely, a By-law Committee, a Committee for General Purposes, a Committee for Works, and a Finance Committee. The two former to consist of the whole Council, three to form a quorum. The Committee for Works to consist of five Aldermen, three to form a quorum; and the Finance Committee, to consist of three Aldermen, two to form a quorum.

37. The Council shall have power to suspend pro tem. one or more of the By-laws: Provided that no such suspension shall be allowed for the purpose of voting money and that two-thirds of the members present consent.

Made and passed by the Municipal Council of Deniliquin, this 17th day of December, 1890.

(L.S.) W. J. DAVIES,  
THOMAS C. GILLIES, Council Clerk. Mayor.

ADDITIONAL BY-LAWS, made by the Municipal Council of Deniliquin, under "The Municipalities Act, 1867," and "The Nuisances Prevention Act, 1875."

## PART 1.

## Committees of the whole Council.

39. The business in Committees of the whole Council shall be conducted in accordance with the rules hereinbefore provided for meetings of the Council as nearly as the same shall apply, except that it shall not be necessary that any motion or amendment in Committee shall be seconded.

## Conduct in Committee.

40. Whenever any member of the Council shall, while the Council is in Committee of the whole, be considered guilty of an offence against good order within the meaning of section 20 of this Part of these By-laws it shall be competent for any Alderman to move that the Council resume its sitting and that such matter be reported; and if such motion be carried such matter shall be reported accordingly, and an entry of such report shall be made in the Minute-book; and whenever any Alderman shall have failed to vote on any occasion in Committee of the whole Council as required by section 25 of this Part of these By-laws, the facts shall be reported to the Council, and such report on such facts shall be duly recorded in the Minute-book: Provided that in the case of an Alderman failing to vote as aforesaid, no special motion that the Committee resume its sitting shall be necessary; but it shall be the duty of the Chairman of such Committee of the whole in making his report of the proceedings in such Committee, whenever such report may be made, to include in such report a statement of such failure to vote as aforesaid and of the question as to which such Alderman has failed to vote.

## Committee—Report of progress, &amp;c.

41. Any Alderman may at any time during the sitting of a Committee of the whole Council move that the Chairman report progress, or no progress as the case may be, and that leave be asked to sit again at a later period of the same day, or on some other day, or that no leave be asked to sit again, and if any such motion be carried the Council shall resume its sitting and a report shall be made accordingly; but no discussion shall be permitted on any such motion, and if the same be negatived the subject then under discussion shall be discussed before another such motion shall be receivable.

Report of proceedings.—Want of quorum in Committee.

42. All reports of proceedings in Committee of the whole Council shall be made to the Council *viva voce* by the Chairman, of such Committee, and a report of such proceedings shall be made in every case except when it shall be found on counting the number of members during the sitting of any such Committee that there is not a quorum present. In the latter case the sitting of the Council shall be resumed without any motion for that purpose, and the proceedings in Committee shall be considered to have lapsed: Provided that in making any such report as aforesaid it shall not be necessary to report any such proceedings in extenso, but only to state the result, general effect, or substance of such proceedings.

How reports are to be dealt with.

43. All such reports of proceedings in Committee of the whole Council shall be recorded in the Minute-book; but, except as hereinafter mentioned, no such report shall be considered adopted by the Council, nor shall any such application as aforesaid for leave to sit again be considered to have been granted by such Council until a motion shall have been made and passed for such adoption, or for the granting of such leave. And every such motion for the adoption of a report or the granting of such leave as aforesaid, and the order of debate on such motion shall be subject to all the same rules as other motions in Council and the order of debate on such other motions: Provided, however, that where a report shall have been made, under section 40 of this Part of these By-laws, of disorderly conduct in Committee, or under section 25 of this Part of these By-laws, of failure to vote in division, or of any decision in Committee, or of any question of order, such report shall as far as it relates to such facts be regarded and recorded as a statement thereof; and to that extent shall not, unless for the correction of a manifest error, be interfered with upon any pretence whatever.

The Committee for Works—Duties of.

44. The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, bridges, public reserves, and other public places under the care and management of the Council. They shall also inquire and report from time to time as to such improvements and repairs as they may think necessary, or as they may be directed by resolution of the Council to inquire and report upon.

Record of transactions in Committee.

45. The Chairman of each standing Committee shall make or cause to be made in a book to be kept by him for that purpose, memoranda of all the transactions of such Committee, which book he shall, on ceasing to be such Chairman, hand over to his successor.

How complaints against Officers, &c., are to be dealt with.

46. All complaints against officers or servants of the Council must be in writing and addressed to the Mayor, and must in every case be signed by the person or persons complaining. And no notice whatever shall be taken of any complaint which is not in writing or is anonymous. All such complaints as aforesaid shall be laid by the Mayor before the Council at the next meeting thereof, which shall be holden after the Mayor shall have received the same and shall be duly recorded.

Leave of absence to Officers.

47. No leave of absence shall be granted to any officer otherwise than by a resolution of the Council, except in cases of emergency when leave may be granted by the Mayor, who shall report the same at next meeting of the Council.

PART 3.

Dead animals—Mode of removal.

12. If any animal shall die in any part of the said Municipality, and the owner of such animal, or the occupier of the place (if private property) where such animal shall have died, shall not cause such animal to be immediately destroyed by fire, or so effectually removed and disposed of that no nuisance can possibly result therefrom in any part of the said Municipality, he or she shall for every such offence forfeit and pay any sum not exceeding twenty pounds nor less than one pound.

Animals dying in public places.

13. If any animal shall die in any public place or street within the said Municipality, and the owner or any person having charge of such animal cannot at the time be found or ascertained, it shall be immediately removed by the Inspector of Nuisances or other officer appointed by the said Council, and destroyed in the manner aforesaid at the cost of the Municipality; but should the owner or person in charge be found or ascertained subsequently, he or she shall recoup to the Municipality any expense the said Municipality shall have been put to in connection with the said animal, such sum or sums to be recoverable by process of law or otherwise.

Where swine are to be kept.

14. No person shall breed or keep any kind of swine in any house, building, yard, garden, or other place situated within the following boundaries: Commencing at the bridge on the north side of the River Edwards; thence along the said river in a north-westerly direction to the north side of Short-street; thence along the north side of Short-street to Charlotte-street; thence along the north side of Charlotte-street to Russell-street; thence along the west side of Russell-street to Henry-street; thence along the north side of Henry-street to Dick-street; thence easterly along Dick-street to Tarangile Creek; thence northerly along Tarangile Creek to its junction with the Edwards River; and thence northerly along the Edwards River to the point of commencement, under a penalty upon conviction of a sum not exceeding ten pounds nor less than one pound.

Pigs may be kept outside boundaries under certain conditions.

15. No person shall keep or breed any kind of swine in any house, building, yard, garden, or other place within the Municipality, situated outside of the boundaries fixed by By-law 14 of this Part, being within 150 feet of any road, street, public place, or residence under a penalty upon conviction of any sum not exceeding ten pounds nor less than ten shillings. And any person keeping or breeding any kind of swine within the Municipality in accordance with the above restrictions shall at all times keep their styes in a clean and healthy state, and shall at all times permit the Inspector of Nuisances access to see that they are kept in such state; and it shall be lawful for the said Inspector of Nuisances to give such instruction concerning the cleansing of the said styes within and without as to him shall seem needful; and any person refusing or neglecting to comply with such directions within a reasonable time shall upon conviction forfeit and pay any sum not exceeding ten pounds nor less than ten shillings.

Cleansing butchers' shambles, slaughter-houses, &c.

16. For preserving the health of the inhabitants of the said Municipality and the cleanliness thereof, it shall be lawful for the Inspector of Nuisances or any other officer or officers appointed by the Council from time to time, and when and as often as he or either of them shall see occasion to visit and inspect the butchers' shambles, slaughter-houses, boiling-down establishments, tanneries, and fellmongering establishments in the said Municipality, and to give such directions concerning the cleansing the said shambles, slaughter-houses, tanneries, and establishments both within and without as to him shall seem needful; and any butcher or the owner or occupier of any such shamble, slaughter-house, tannery, or establishment who shall refuse or neglect to comply with such directions within a reasonable time shall forfeit and pay a sum not exceeding ten pounds nor less than ten shillings.

Complaints respecting dirty premises, &c.

17. Upon the complaint of any householder that the house, premises, yards, closets, or drains of the neighbouring or adjoining premises are a nuisance or offensive, the Inspector of Nuisances or any other officer appointed by the said Council shall make an inspection of the premises complained of, and the officer of the said Council shall have full power without any other authority than this By-law to go upon such premises for the aforesaid purpose; and any person who shall personally or by any person in his employment or under his or her control suffer any waste or stagnant water, or any muck, filth, soil, or other offensive matter in any cellar or place within any dwelling-house or premises within the said Municipality, or shall in like manner suffer the contents of any water-closet, privy, or cesspool to overflow or soak therefrom, shall for every such offence forfeit and pay a sum not exceeding five pounds nor less than one pound.

Premises in a state to endanger public health.

18. If, upon the certificate of any two duly qualified medical practitioners, or of the Government Health Officer, it appears to the said Council that any house or part thereof, or of the premises occupied in connection therewith, within the said Municipality is or are in such a filthy or unwholesome condition that the health of any person is or may be liable to be affected thereby, and that the white-washing, cleansing, or purifying of any house or part thereof, or the premises occupied in connection therewith, would tend to prevent or check infectious or contagious disease, the said Council shall give notice in writing to the owner or occupier of the said premises to whitewash, cleanse, or purify the same, as the case may require; and if the person to whom notice is so given shall fail to comply therewith within such time as shall be specified in the said notice, he or she shall be liable to a penalty not exceeding ten shillings for every day during which he or she continues to make default: Provided that no such penalties shall collectively amount to any greater sum than twenty pounds.

Water for other than Domestic Purposes.

32. No person shall use water supplied by the Council for other than domestic purposes, except the supply is by meter, or excepted in the manner hereinbefore provided. No person shall sell or give any water for use off the premises he occupies.

Meters.

33. No person shall affix a meter until it shall have been tested and approved by the Council or its duly appointed officers, and, except with special consent of the Council, the dial of every such meter must be capable of registering not less than (1,000,000) one million gallons. All water-meters to be enclosed in a strong wooden box; all keys of both meters and boxes to be lodged at the Town Clerk's Office immediately after the meters are fixed. The Council reserves the right of affixing their own locks to the meters and boxes; twenty-four hours' notice to be given of the day on which it is intended to connect meters, in order that the proper officer may attend and see them fixed correctly. On no account are plumbers or other persons to take off, alter, or otherwise interfere with meters or pipes connecting the same, unless by permission of the Town Clerk, and in the presence of an authorised officer of the Council.

Meters Registering Incorrectly.

34. If any meter shall not correctly indicate the water passing through it the Council may charge for the supply according to the average daily consumption for any month preceding the date upon which such meter shall have been examined and found to be in order; or at the request of the consumer, or by direction of the Council, the said meter shall be tested and the charge for water supplied regulated accordingly.

Steam Boilers to have Self-acting Valve.

35. If any person shall connect any service-pipe or branch service-pipe, with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, he shall be liable to a penalty not exceeding five pounds; and a further penalty of two pounds for each day after notice of the offence from the Council to each offender.

Hose-taps and hoses.

36. No person shall, without the consent in writing of the Council, place any tap in any garden, or screw-tap in any yard, or to or outside of any dwelling or premises supplied with water of the Council to which a hose could be attached, and no person shall use a hose attached to any tap or pipe for watering any garden, laying dust, or for any other purpose whatsoever, unless a meter is fixed or he obtain permission from the Council and pay the charges which may be demanded under these By-laws; and any person offending against this By-law shall be liable for each offence to a penalty not exceeding five pounds.

Pipes to be kept in repair.

37. The owner of the premises or the person using water supplied by the Council, shall keep all pipes and other appliances in connection with the supply of water to such person in a proper state of repair.

Inspection of work.

38. All work at any time done or to be done on private lands or premises in connection with the water supply, whether such work consist in the laying and fixing of new services, or in the extension or alteration of existing services and fittings, shall be inspected by the proper officer of the Council, and no such work shall be commenced until after the expiration of two days' notice thereof first given to the Council. In no case shall the water be turned on to any lands or premises where any such work shall have been executed until the said work shall have been inspected by the said officer, and certified by him on the prescribed form hereinafter mentioned. No underground or enclosed work shall on any account be covered up or concealed from view until the same shall have been duly inspected and passed by the inspector; and any person offending against this By-law shall be liable to a penalty not exceeding five pounds.

Supply and use of water open to inspection.

39. The supply and use of water, whether for domestic purposes or under special agreement, shall be open to inspection and admeasurement whenever required; and such information must from time to time be afforded as will be sufficient to enable the Council to obtain a satisfactory account of the quantity of water actually consumed and of the pipes, taps, cisterns, and other apparatus and conveniences for receiving

and delivering such water. Any officer of the Council may at all reasonable times in the daytime enter on the premises of any person using water supplied by the Council for the purpose of inspecting the service-pipes or other appliances of such person.

Council may repair.

40. If the service-pipes or other appliances of any such person shall on any inspection be found to be out of repair, the Council may forthwith, without notice, repair the same in such manner as may be deemed necessary, and the cost of any such repairs may be recovered by the Council from the owner or occupier of such premises.

Council may discontinue supply.

41. The Council shall be at liberty to discontinue the supply of water immediately on the discovery of any breach of these By-laws and Regulations.

Notices and applications to be made on printed forms.

42. All notices, applications, and certificates required by these By-laws are to be made upon printed forms to be obtained at the Town Clerk's Office.

Interpretation of Terms.

43. In the construction of these By-laws the word "person" shall be deemed to extend to and include a corporation or any body or number of persons, and the masculine shall include the feminine gender.

Penalty for using unauthorised fittings.

44. Any person who, being an owner or occupier of lands or premises supplied with water under this Act, for the purpose of taking, in a manner not authorised by this Act, any such water, uses in or places on or affixes or attaches to such land or premises or to any prescribed fitting, or wilfully permits to be used in or placed on or affixed or attached to such lands or premises or to any prescribed fitting any fitting, instrument or thing not authorised in that behalf by the Council, or who alters, misuses, injures, or removes any prescribed fitting, except for the purpose of necessary repair, shall upon conviction thereof forfeit and pay to the Council a sum not greater than ten pounds, without prejudice to the right of the Council to recover from him damages in respect to any injury by such owner or occupier done, or wilfully permitted to be done, to the Council's property, and without prejudice to the Council's right to recover from him the value of any water wasted, misused, or unduly consumed.

Sample fittings.

45. A set of standard fittings, such as are at present approved, is exhibited in the Town Clerk's office; but the Council will give due consideration to the claims of any other fitting which may be presented for approval, and if considered satisfactory the same will be purchased and placed among and become one of the standard approved fittings.

Reward for information as to fittings.

46. The Council will pay a reward of not less than ten shillings to any persons who shall give such information as shall lead to the conviction of any person or persons who shall wrongfully attach (temporarily or otherwise) any pipe to any of the mains or services of the Council or to any pipe, cistern, or apparatus connected therewith, or to or into which the water of the Council shall flow, or who shall wrongfully draw off, use, or take the water of the Council, or who shall knowingly permit the said water to be wrongfully drawn off, used, or taken.

Reward for information as to waste.

47. The Council will also adequately reward any person (not being the person in fault) who shall communicate timely information to the Council of any leakages or waste of water, whether the same be negligently or wilfully occasioned or suffered, and who shall give such information as shall lead to the conviction of any person or persons who shall have negligently or wilfully occasioned or suffered such leakage or waste, or to the conviction of such person or persons who shall have stolen or caused to be stolen, or improperly appropriated, the water of the Council.

General penalties.

48. Any person committing a breach of any By-law to which no specific penalty is attached or who shall refuse or neglect to obey any injunction or direction in any such By-law, shall upon conviction be liable to pay a penalty not exceeding twenty pounds, and, in case of a continuing offence, a further penalty not exceeding five pounds for each day after notice of such offence shall have been given by the Council to such offender.

1891.

## NEW SOUTH WALES.

MUNICIPALITIES ACT OF 1867, AND NUISANCES  
PREVENTION ACT, 1875.

(MUNICIPAL DISTRICT OF WICKHAM—ADDITIONAL BY-LAWS.)

Presented to Parliament pursuant to Acts 31 Vic. No. 12, sec. 158, and 39 Vic. No. 14, sec. 18.

Colonial Secretary's Office,  
Sydney, 18th March, 1891.

## MUNICIPAL DISTRICT OF WICKHAM.—ADDITIONAL BY-LAWS.

THE following additional By-laws, made by the Council of the Municipal District of Wickham, under the "Municipalities Act of 1867" and the "Nuisances Prevention Act, 1875," having been confirmed and approved respectively by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

HENRY PARKES.

ADDITIONAL BY-LAWS made by the Municipal Council of  
Wickham under the Nuisances Prevention Act, 1875.

## Construction of privies, cesspits, pans, &amp;c.

1. All existing privies, cesspits, and pans in use in the Municipality must be constructed or altered in such a manner as will conform to the system adopted by the Municipal Council of Wickham under their contract or contracts for the removal of night-soil.

## Regulation size of pans.

2. All pans used as receptacles for holding night-soil must be of a regulated size and pattern approved of by the Council or their Inspector of Nuisances, and such pans may be obtained from the Council's contractor, through the Council, at a minimum charge of six shillings and six pence per pair of duplicate pans without separators, and eight shillings and six pence per pair of duplicate pans with separators. Pans without separators in any privy or closet must be emptied at least once in each fortnight, and pans with separators must be emptied at least once in every four weeks, and where practicable such removals to be carried on between the periods of sunrise and sunset, under the supervision of the Municipal Council's appointed Inspector of Nuisances or other authorised person, and in accordance with By-law No. 13 of Council's existing By-laws under the Nuisances Prevention Act of 1875.

## Compelling owners to have pans emptied.

3. It shall be lawful for the Inspector of Nuisances or other authorised person by the Council to compel the owner of any privy or closet or cesspit (or in the absence of the owner, the agent, or occupier), to have such cesspits emptied and all night-soil therein removed, and the said cesspit filled up with clean ashes or other approved material; and also to have such closets fitted up in such a manner as will conform to the dry earth and ash system with all necessary doors, traps, and other appurtenances necessary for the removal and treatment of all pans used in such closets: Provided always that nothing herein contained shall prevent the Municipal Council, with the advice and approval of the Inspector of Nuisances, from granting permission to the owners or occupiers of any approved ashpits used as a

receptacle for night-soil from depositing in an approved manner the contents of such ashpits in and about any farm, garden, or other land of sufficient area to admit of such deposition without injury or nuisance to the inhabitants in the vicinity; and provided also that any person or persons having such privilege granted them shall pay the said Municipal Council an annual fee of seven shillings and six pence as a cesspit rate, and any person violating the provisions of this By-law or any of the preceding ones shall forfeit and pay a penalty not exceeding five pounds and not less than one pound sterling.

## Cost emptying pans, &amp;c.

4. All expenses incurred by the Council in emptying and removing the contents of any cesspits or pans containing night-soil shall be paid by the owner or occupier of the premises where such cesspits or pans are situated, and if payment be not made within seven days after the rendering of an account for the same payment may be recovered in a summary way before any two Justices of the Peace.

## Depositing in parks.

5. In case the Council shall require the contents of any cesspit pans to be deposited and used in their parks or reserves for fertilifying purposes, the contractor for removal of such pans shall only deposit in such places selected by the Inspector of Nuisances; and only pans whose contents have been thoroughly mixed with a sufficiency of earth or ashes or decolorised by chemicals shall be allowed in any such park or reserve, and the said contents of such pans must be properly buried, treated, or covered up to the entire satisfaction of the Inspector of Nuisances.

## Not to convey night-soil from beyond limits.

6. No person shall bring or convey by vehicle or otherwise any night-soil to any land, street, or water-course, or depot for night-soil from any place beyond the limits of the Municipal District of Wickham for the purpose of depositing such night-soil within the limits of the said Municipal District, and any person or persons offending against the provisions of this By-law shall be liable on conviction to a penalty not less than five pounds and not greater than twenty pounds.

Only licensed persons to remove night-soil.

7. No person or persons other than the Municipal Council's licensed contractor and licensed nightmen shall remove or convey away from any cesspit or closet within the Municipality any night-soil whatsoever, without the consent of the Inspector of Nuisances; and all night-soil conveyed to any appointed dépôt by any licensed nightmen must be disposed of in such a manner and be well covered up with sufficient ashes or earth to prevent any nuisance arising therefrom, and the work of emptying the cesspits or pans and the removal of night-soil must be done to the entire satisfaction of the Council's Inspector of Nuisances.

Damages.

8. All damage done to any closet, cesspit, fences, or gates, or other property of the ratepayers or Council in the removal of night-soil by the contractor or his servants shall be made good by the said contractor within twelve hours after damage to same, failing which the work will be performed by the Council at the risk of the contractor; and in the event of any contractor for removal of night-soil failing to perform the work of removing and emptying the contents of any cesspit or pans in accordance with any contract or specifications in existence such work may be performed by the Municipal Council at the risk and cost of the contractor or the bondsmen responsible for the carrying out of any contract for removal of night-soil.

Not to hinder nightmen.

9. No ratepayer or other person shall hinder or obstruct any nightman, licensed to remove night-soil, whilst engaged in the work of removing night-soil or earth pans from any premises within the Municipal boundaries, and any person refusing admission to any such licensed nightman during the hours appointed by the Council and in the execution of the duties attached to the removal of night-soil shall forfeit and pay on conviction a penalty not less than five shillings and more than twenty shillings in addition to any loss that may be sustained by such nightmen or the contractor employing them.

Collection of fees.

10. The collection of fees or rates for attendance and emptying pans under the pan system at any premises within the Municipality shall be half-yearly unless otherwise ordered by the Council, and the Council may issue notices of account for a half-year's services three months previous to the end of any half-year, and in default of payment may recover the same with all costs in any competent Court of Jurisdiction: Provided always that in the event of the Council failing to fulfil the necessary services of emptying in any half-year after payment has been made by any ratepayer the Council shall refund an amount equal to unfulfilled services.

Made and passed by the Municipal Council of Wickham, this tenth day of September, one thousand eight hundred and ninety.

T. W. HOGUE,  
Council Clerk.

(L.S.) JAMES MYERS,  
Mayor.

ADDITIONAL BY-LAWS made by the Municipal Council of Wickham under the Municipalities Act of 1867.

Smoke nuisance.

1. All chimney stacks used for the conveyance of smoke from any furnace or boiler used in or at any pits, works, or factories must be carried up to such a height as will effectually prevent the smoke therefrom being a nuisance in the immediate vicinity; and, in the event of any complaint being made in writing by any householder that any such smoke is a nuisance, the mode of procedure for the abatement of the alleged nuisance shall be in accordance with the By-law No. 2, Part 6 of the Council's By-laws "Noisome and offensive trades."

Drivers of public vehicles.

2. Any driver or conductor of any licensed vehicle shall be deemed to be on duty and plying for hire from such time that such driver or conductor takes charge of his vehicle at any road, street, or bus-stand within the Municipality, and shall be liable for all breaches of the Council's By-laws for the regulation of vehicle traffic, or for any breach of the By-laws or other offence committed by any substitute who may at any time be driving for any licensed driver; and no drivers or conductors shall use obscene language or otherwise misconduct themselves whilst on duty, such person or persons so offending against the provisions of this By-law shall on conviction forfeit and pay a sum not less than five shillings and not more than forty shillings.

Breach of By-laws.

3. Every person guilty of a breach of any of the provisions of the foregoing By-laws where no specific penalty is provided for shall be liable for every offence thereof to a fine or penalty not exceeding five pounds and not less than five shillings.

Legal standing Mayor and officers.

4. In all cases where any breach of the Municipal Council's By-laws has been committed or where there is good grounds for believing that a breach of the said By-laws has been committed it shall be lawful for the Mayor, Council Clerk, Inspector of Nuisances, or other authorised officer of the Municipal Council of Wickham to appear at any Court of competent jurisdiction on behalf of the said Council, and to plead, conduct, and appear in any case against any defendant or defendants: Provided always that in the case of any officer of the Council appearing in such cases on behalf of the said Council, an authority signed by the Mayor or, in his absence, any two Aldermen of the said Council, shall be produced, or production of the Government Gazette will suffice.

Made and passed by the Municipal Council of Wickham, this tenth day of September, one thousand eight hundred and ninety.

## NEW SOUTH WALES.

MUNICIPALITIES ACT OF 1867, AND NUISANCES  
PREVENTION ACT, 1875.

(BOROUGH OF YOUNG—BY-LAWS.)

Presented to Parliament, pursuant to Acts 31 Vic. No. 12, sec. 158, 39 Vic. No. 14, sec. 18.

Colonial Secretary's Office,  
Sydney, 4th April, 1891.

## YOUNG MUNICIPALITY.—BY-LAWS.

The following By-laws, made by the Council of the Borough of Young under the "Municipalities Act of 1867," and the "Nuisances Prevention Act, 1875," having been respectively confirmed and approved by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

HENRY PARKES.

By-Laws made by the Borough Council of Young for regulating the proceedings of the Council and the duties of the officers and servants of such Council; for preserving order at meetings of said Council; for determining the times and modes of collecting and enforcing payment of rates; for preventing and extinguishing fires; for suppressing nuisances and houses of ill-fame; for preventing or regulating and licensing exhibitions held or kept for hire or profit, bowling or skittle alleys, and other places of amusement; compelling residents to keep their premises free from offensive or unwholesome matters; opening new public roads, streets, ways, and reserves; for protection of public fountains and water-courses; aligning and cleansing roads and streets; for regulating and licensing public vehicles; the slaughtering of cattle; for the collection of rates; for regulating the supply and distribution of water, sewerage, and drainage; for regulating as to the blasting of any rock or rocks; preventing trees from overhanging public pathways and preserving trees, shrubs, and other public property; to extirpate weeds; for preventing or regulating the bathing or washing the person in any public water near a public thoroughfare; for preserving public decency; for providing for the health of the Municipality and for the prevention of contagious or infectious diseases; and generally for maintaining the good rule and government of the said Municipality.

*Meetings of the Council.**Ordinary Meetings.*

1. The Council shall meet for the dispatch of business at the hour of 7:30 p.m. every alternate Thursday, unless such day shall happen to be a public holiday. In the latter case the meeting shall be held on such other day as the Mayor may appoint.

Election of Chairman in absence of Mayor. Adjournment for want of quorum.

2. If at any meeting of the Council the Mayor be absent at the expiration of fifteen minutes after the time appointed for holding such meeting, the Aldermen then present shall proceed to elect, from among themselves, a Chairman for such

meeting, to give place to the Mayor if he should arrive at any later hour during the meeting. Whenever there shall be an adjournment of any such meeting for want of a quorum, the names of the members present shall be taken down, and shall be recorded in the Minute book.

*Order of Business.**Business of Ordinary Meetings.*

3. The following shall be the order of business at all meetings of the Council other than special meetings:—

1. The minutes of the last preceding meeting to be read, corrected if erroneous, and verified by the signature of the Mayor or other Chairman. No discussion to be permitted on such minutes, except as to whether they are correct.
2. Correspondence to be read, and, if necessary, ordered upon.
3. Petitions (if any) to be presented and dealt with.
4. Reports from Committees, and minutes from the Mayor (if any) to be presented and ordered upon.
5. Questions as to any matters under the jurisdiction or within the official cognizance of the Council, to be put and replied to; and statements as to any facts, matters, or circumstances, requiring attention by the Council or any of its Committee or officers, to be made.
6. Motions of which notice has been given to be dealt with in the order in which they stand on the business paper.
7. Orders of the day to be disposed of as they stand on the business paper.

Business may be dealt with out of regular order.

4. It shall be competent to the Council at any time by resolution, without notice, to entertain any particular motion or to deal with any particular matter of business, out of its regular order on the business paper, without any formal suspension of this section; also, and in like manner, to direct that any particular motion or matter of business shall have precedence at a future meeting.

**Business at Special Meetings.**

5. At Special Meetings of the Council the business, after the minutes shall have been read and verified, which shall be done in the same manner as at an ordinary meeting, shall be taken in such order as the Mayor or the Alderman at whose instance such Special Meeting shall have been called, may have directed.

**Business paper for Special Meeting.**

6. The business paper for each special meeting shall contain only such matters as shall have been specially ordered to be entered thereon by the Mayor or Alderman calling such meeting.

**Business Paper for Ordinary Meeting—how prepared.**

7. The business paper for every meeting of the Council, other than a special meet, shall be made up by the Council Clerk or other person acting as his substitute not less than forty-eight hours before the day appointed for such meeting. He shall enter upon such business paper a copy of the substance of every notice of motion and of every requisition or order as to business proposed to be transacted at such meeting which he shall have received, or shall have been required or directed so to enter in due course of law and as hereinafter provided. Every such entry shall be made subject to the provisions or section 4 of this "Part" of these By-laws in the same order as such notice, requisition, or direction, shall have been received.

**Summons to Members.**

8. The summons to Members of the Council of every meeting thereof shall be prepared from the business paper for such meeting, and shall embody the substance of such business paper.

**How business paper is to be disposed of.**

9. The business paper for each meeting of the Council shall at such meeting be laid before the Mayor or Chairman, who shall cause a note to be made upon such business paper of the mode in which each matter entered thereon has been dealt with, and such business paper so noted shall be a record of the Council.

After business paper made up all notices, &c., to be the property of the Council.

10. After the business paper shall have been made up as aforesaid, all the said notices of motion, requisitions, and directions as to which entries have been made thereon shall be the property of the Council, and shall not be withdrawn, altered, or amended, without leave having been first obtained from the Council for such withdrawal, alteration, or amendment.

**Motions and Amendments.****Motions—How to be moved.**

11. Except by leave of the Council motions shall be moved in the order in which they stand on the business paper, and if not so moved or postponed shall be struck from such business paper and be considered to have lapsed.

**Absence of proposed mover.**

12. No motion, of which notice shall have been entered on the business paper, shall as hereinafter provided be proceeded with in the absence of the Alderman by whom such notice shall have been given, unless by some other Alderman producing a written authority for that purpose from such first-named Alderman.

**Motions to be seconded.**

13. No motion in Council shall be discussed, unless and until it be seconded.

**Amendments may be moved.**

14. When a motion in Council shall have been made and seconded, any Alderman shall be at liberty to move an amendment thereon, but no such amendment shall be discussed unless and until it be seconded.

**How amendments to be put.**

15. Any number of amendments may be proposed on the motion before the Council, and when more than one amendment shall have been moved and seconded, the question shall first be put on the last amendment, then on the next preceding the last, and so on in inverse order to that in which they shall have been moved, unless when such motion or amendment shall relate to the fixing of salaries, rates, or other matters of finance, in which case the lowest sum shall be put first, and then the next lowest, and so on to the highest.

**Motions for adjournment.**

16. No motion for adjournment of the Council shall be discussed. If seconded, such motion shall be put at once. If negatived, no similar motion will be permitted to be made until half an hour has elapsed after putting the one that has been negatived, and the subjects on the business paper shall be proceeded with in order.

17. The Town Clerk shall put every motion into writing when requested to do so by the Mayor, which shall be signed by the mover, and every motion when seconded, and read by the Clerk, shall be considered the property of the Council, and shall not be withdrawn without leave of the Council.

**Orders of the Day.****Of what Orders of the Day shall consist.**

18. The Orders of the Day shall consist of any matters other than motions, on notice which the Council shall at a previous meeting thereof have directed to be taken into consideration, or which the Mayor or Chairman or any Committee of the Council shall have directed to be entered on the business paper for consideration.

**How they are to be dealt with.**

19. The Alderman who has the usual charge of, or who has previously moved in reference to, the particular business to which any such Order of the Day relates, shall be the person called upon to move: Provided that the Mayor or Chairman for the time being may, as to any Order of the Day entered by his direction, arrange with and call upon any Alderman to move the same.

**Petitions.****Petitions to be respectfully worded.**

20. It shall be incumbent on every Alderman presenting a petition to acquaint himself with the contents thereof, and to ascertain that it does not contain language disrespectful to the Council. The nature and prayer of every such petition shall be stated to the Council by the Alderman presenting the same.

**Petitions—how received.**

21. All petitions shall be received only as the petitions of the parties signing the same.

**How petitions are to be dealt with.**

22. No motion shall, unless as hereinafter provided, be permissible on the presentation of a petition, except that the same be received and referred to one of the permanent Committees hereinafter mentioned, or that it be received and that its consideration stand an Order of the Day for some future meeting: Provided however that if any Alderman shall have given due notice of a motion in reference to any petition, and such petition shall have been presented before such Alderman shall have been called upon to move such motion, the said motion shall, if otherwise unobjectionable, be considered in order.

**Correspondence.****Duties of Mayor as to correspondence.**

23. The Mayor shall have the same duty in reference to letters addressed to the Council before directing the same to be read, as by section 23 of this Part of these By-laws is imposed on Aldermen presenting petitions. The Mayor shall direct as to the order in which all correspondence shall be read, and no letter addressed to the Council shall be presented or read by any Alderman. If the Mayor be absent and shall not have examined any such letters addressed to the Council, or have given any such directions as aforesaid, then the duties imposed by this section shall devolve upon the presiding Alderman.

**Reports from Committees and Minutes from Mayor.****Form of Report.**

24. All reports from Committees shall be written on foolscap paper with a margin of at least one-fourth of the width of such paper, and shall be signed by the Chairman of such Committee, or in his absence by some other member of the same.

**Mayor's Minute.**

25. The Mayor shall have the right of directing the attention of the Council to any matter or subject within its jurisdiction or official cognizance by a minute in writing. Every such minute shall be written on paper of the same kind and with the same margin as a report from a Committee, and shall be signed by such Mayor.

How Reports, &c., are to be dealt with: duties of Chairman, &c., in certain cases.

26. No motion shall (unless as hereinafter provided) be permissible on the presentation of a report from a Committee, or a minute from the Mayor, except that the same be received, and that it stand an Order of the Day: Provided however that if any Alderman shall have given due notice in reference to any such report or minute, or if any order for the consideration of such report or minute shall have been entered among the orders of the day, such motion or order may, if otherwise unobjectionable, be moved or considered in due course.

**Questions and Statements.****Limitations as to Questions and Statements.**

27. No question or statement shall be allowed to be put or made which is inconsistent with good order, or is not in strict accordance with the requirements of section 4 of this Part of these By-laws.

*Notice to be given.*

28. Twenty-four hours notice of every question shall be given to the person who is expected to reply thereto, to allow for the consideration of such reply, and if necessary for a reference to other persons or to documents.

*Answer not compulsory.*

29. It shall not be compulsory upon any person questioned as aforesaid to answer the question so put to him.

*Question to be put without argument, &c.*

30. Every such question must be put categorically, without any argument or statement of fact.

*Similar provision as to statements.*

31. Every such statement must be made without argument.

No discussion on question, &c., rights of objection, and of subsequent motion reserved.

32. No discussion shall be permitted as to any such question, or as to any reply or refusal to reply thereto, or as to any such statement, at any time when such question is put, or such reply or refusal to reply is given, or such statement is made: Provided, however, that nothing herein contained shall prevent the taking of any objection as to any such question or statement being out of order, or shall prevent the discussion after due notice, as hereinbefore provided, of any matters properly arising out of, or relating to, any such question or reply, or refusal to reply, or any such statement as aforesaid.

*Order of Debate.**Mode of addressing the Council.*

33. Every Alderman who shall make or second any motion, or shall propose or second any amendment, or shall take any part in any debate or discussion, or shall put or reply to any question, or shall make any statement, or shall in any other way or for any other purpose address observations to the Council, shall while so doing stand up in his customary place (unless he shall be prevented from so doing by reason of some bodily infirmity), and shall address himself to the Mayor or other Chairman then presiding: Provided that in the case of a question, such question may by permission of such Mayor, or Chairman, be put directly to the Alderman or Officer to be questioned, and may be replied to in like manner; but in every such case the question so put, and the answer thereto, shall be subject to every legal objection on the ground of disorder or irrelevancy. And all members of the Council shall on all occasions when in such Council, address and speak of each other by their official designations, as Mayor, Chairman, or Alderman, as the case may be.

*Speaker not to be interrupted if in order.*

34. No Alderman shall be interrupted while thus speaking, unless for the purpose of calling him to order as hereinafter provided; and any Alderman using, whilst in Council, any offensive or insulting language, the same to be written down, and on being asked to do so, withdrawn; and if any Alderman shall refuse to withdraw such language and apologise, he shall be deemed guilty of misconduct, and be liable to a fine of not less than 20s. nor more than £5.

*Limitation as to number of speeches, &c.*

35. Every mover of an original motion shall have a right of general reply to all observations which may have been made in reference to such motion, and to any amendments moved thereon, as well as a right to speak upon every such amendment. Every Alderman other than the mover of such original motion, shall have a right to speak once upon such motion, and on every amendment thereon. No Alderman shall speak longer than fifteen minutes, nor oftener than once upon any question other than a question of order, unless when misrepresented or misunderstood, in which case he shall be permitted to explain without adding any further observations than may be necessary for the purposes of such explanation.

*Mover and seconder.*

36. An Alderman who has moved any motion or amendment shall be considered to have spoken thereon; but an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded same, shall be at liberty to speak on such motion or amendment.

*Speaker not to digress, &c.*

37. No Alderman shall digress from the subject under discussion, or shall make any personal reflection on, or impute improper motives to any other Alderman.

*Adjournment of debate.*

38. A debate may be adjourned to a later hour of the day, or to any other day specified; and the Alderman upon whose motion such debate shall have been so adjourned, shall be entitled to pre-eminence on the resumption of the same.

*Mayor to decide as to pre-eminence.*

39. If two or more Aldermen rise to speak at the same time, the Mayor or Chairman shall decide which of such Aldermen shall be first heard.

Alderman may require questions to be stated, &c., under certain restrictions.

40. Any Alderman may request the matter or question under discussion to be stated or read for his information, or may require the production of any records of the Council bearing upon any such question or matter. No such request or requisition shall be made so as to interrupt any Alderman when speaking.

Mayor or Chairman not to move or second motion, &c., but may address Council thereon.

41. The Mayor or Chairman shall not move any motion or amendment, nor put any question as provided for by section 14 of this Part of these By-laws, except as is further provided for by section 35 of the same; but such Mayor or Chairman shall have the same right as any other Alderman to speak once upon every subject or amendment. The Mayor or Chairman shall rise when so speaking (unless as in section 35) but shall be considered as still presiding.

*Questions of Order.*

Mayor may call Member to order.

42. The Mayor or Chairman for the time being may, without the interposition of any other member of the Council, call any Alderman to order whenever in the opinion of such Mayor or Chairman there shall be a necessity for so doing.

*Decision of Points of Order.*

43. The Mayor or Chairman for the time being, when called upon to decide points of order or practice, shall state the provision, rule, or practice, which he shall deem applicable to the case, without discussing or commenting on the same.

*Mode of Voting.*

How questions to be put.

44. The Mayor or Chairman for the time being shall put to the Council all questions on which it shall be necessary that a vote be taken, and declare the sense of the Council thereon.

*Divisions—penalty for refusing to vote.*

45. Any Alderman may call for a division, and the votes shall be taken by a show of hands. In such case the question shall be put first in the affirmative, and then in the negative, and the names and votes of the Aldermen present shall be recorded. Any Alderman present when a division is called for, who shall not vote on such division, not being disabled by law from so voting, shall be liable for every such offence to a penalty of not less than 5s. nor more than £2.

*Committee of the whole Council.*

Business in Committee.

46. The business Committees of the whole Council shall be conducted in accordance with the rules hereinafter provided, as near as the same shall apply, except that it shall not be necessary that any motion or amendment in Committee shall be seconded.

*Calls of the Council.*

How call of Council to be made.

47. A call of the Council may be ordered by any resolution of which due notice shall have been given for the consideration of any motion, or matter of business before the Council.

Such call to be compulsory in certain cases.

48. No motion, the effect of which if carried would be to rescind any resolution, order, or decision of the Council, shall be entered on the business paper unless a call of the Council has been duly made and granted for such purpose.

*Mode of proceeding.*

49. The call shall be made immediately before the motion or business for which such call has been ordered shall be moved or considered.

*Standing and Special Committees.*

50. There shall be five Standing Committees, each consisting of three members, namely,—a By-law, Works, Finance, Town Hall, and Lighting. These Committees shall be reappointed every year at the first meeting of the Council, which shall be holden after the election of the Mayor.

51. The reappointments of the five standing Committees may on resolution of the Council be made by ballot, and if there shall be an equal number of votes for the appointments of any members to any one of such Committee, the Mayor or Chairman shall decide which of such members shall be appointed.

*By-law Committee.*

52. The By-law Committee shall prepare for the consideration of the Council drafts of all such By-laws as may be required for the good government of the Municipality.

*Works Committee.*

53. The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, bridges, public reserves, and other public places under the care and management of the Council; they shall also inquire and report from time to time as to such improvements or repairs as they may think necessary, or as they may be directed by resolution of the Council to inquire and report upon.

*Finance Committee.*

54. The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of the municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect or to be likely to affect the finances of the Municipality, and as to such matters or subjects of the like nature as they may be directed by resolution of the Council to inquire and report upon.

*Lighting Committee.*

55. The Lighting Committee shall exercise a general supervision over the whole of the lighting plant, and the employees connected therewith of the Borough, and shall recommend the addition or removal of public lamps, and shall furnish a fortnightly report to the Council.

*Town Hall Committee.*

56. The Hall Committee shall have charge of the Council Chambers, hall, residence, and library, and shall prepare a tariff of charges for the use of the hall, and recommend in writing to the Council any repairs, alterations, or additions that may be deemed necessary.

*Records of transactions in Committee.*

57. The Chairman of each Standing Committee shall make, or cause to be made, in a book kept by him for that purpose, memoranda of all the transactions of such Committee, which book he shall, on ceasing to be such Chairman, hand over to his successor.

*Expenditure.*

Except in emergent matters, cost of all work to be estimated before undertaken.

58. With the exception of emergent matters hereinafter especially provided for, no work affecting the funds of the Municipality shall be undertaken until the probable expense thereof shall have been first ascertained by the Council.

Emergent matters and necessary current expenses—Expenses authorised to be reported—Outlay to be in accordance with the Orders of the Council.

59. For emergent matters, and for necessary current expenses during the intervals which may elapse between the meetings of the Council, outlay to the following extent may be incurred:—

1. By order of the Committee for Works, or of the Mayor and one member of such Committee, for repairs or emergent works, to the extent of five pounds.
2. By order of the Mayor, for necessary current expenses, to the extent of ten pounds.
3. The Lighting Committee for necessary expenses to the extent of twenty-five pounds.

Provided that in every case, a detailed report in writing of every such outlay shall be laid before the Council at its next meeting, such report to be signed by the Chairman of the Committee of Works, or the Mayor.

All claims to be examined and reported upon by Finance Committee.

60. All accounts and demands of money against or from the Council shall be examined and reported on by the Finance Committee, before any order shall be made for payment of such accounts or demands.

Certificate required with each claim—Salaries and wages to be payable on Mayor's order—Certificates to be attached to report.

61. No payment shall be so ordered unless there shall be a certificate or memorandum from the Committee or Mayor, showing that the demand is a legitimate one, and has been duly authorised or inquired into. It shall be the imperative duty of the Finance Committee to see that this requirement is fulfilled, or to report specially as to the reasons for its non-fulfilment, before recommending payment. And provided further, that in regard to salaries and wages of labour for officers, servants, and labourers, employed at fixed rates of payment by order of the Council, the certificate of the Mayor of the amount due to such officer, servant, or labourer, and the order of such Mayor for payment of such amount shall be a sufficient authorisation for such payment.

Common seal and records of the Council—Common seal and press, how secured—Care of same.

62. The common seal, and the press to which the same is attached, shall be secured by a cover or box, which—except when such seal and press are in use—shall be kept locked. There shall be duplicate keys to the lock of this cover or box, of which keys one shall be kept by the Mayor, and the other by the Council Clerk. Such common seal and press shall be in the custody and care of the Council Clerk.

When and how common seal to be used.

63. The common seal shall not be attached to any document without an express order of the Council. In every case when such common seal has been ordered to be attached to any document, such document shall also be signed by the Mayor, or in case of the absence or illness of such Mayor, by two Aldermen, and countersigned by the Council Clerk.

*How books of account, &c., be kept.*

64. All books, deeds, memorials, letters, documents, and other records of the Council, except as hereinafter mentioned, shall be kept at the Council Chambers, in the custody and care of the Council Clerk, who shall be responsible for the safe custody of the same, but the Mayor or Council Clerk may for any special purpose authorise their removal.

*Records not to be removed.*

65. Any person removing any such book, paper, or record from the Council Chambers, without leave from the Mayor or Council Clerk, in writing first had and obtained, shall be subject to a penalty of not less than ten shillings nor more than ten pounds. And nothing herein contained shall be held to affect the further liability of any person who shall have received such book, paper, or record, and shall not have returned the same, to prosecution for stealing such book, paper, or record, or to an action at law for detention of the same, as the circumstances of the case may warrant.

*Receipt for documents.*

66. Every person removing any document or record with such consent as aforesaid, shall give a receipt under his hand for every such document, which receipt shall be carefully preserved among the records until the document or other record to which it refers shall have been returned, when such receipt shall be destroyed.

*Penalty for destroying or defacing records.*

67. Any person destroying or defacing, or wilfully or improperly altering any books, papers, or records, shall for every such offence be liable to a penalty of not less than five pounds nor more than twenty pounds.

*Officers and Servants.**Notice to candidates.*

68. No appointment to any permanent office at the disposal of the Council shall take place until notice shall have been given as hereinafter provided, inviting applications from qualified candidates for the same. The salary or allowance attached to the office shall in every case be fixed before such advertisement is published, and shall be stated in such advertisement.

*Mode of appointment.*

69. Every such appointment shall be made by ballot, in such mode as may at the time be determined upon.

*Appointment of officers, &c.*

70. The officers of the Council shall be appointed annually; and the engagement of any officer may be determined at any time by a vote of a majority of the whole Council: Provided that one month's notice shall be given to every such officer whose services are to be so dispensed with, and that any officer may resign his appointment by giving to the Council one month's notice in writing of his desire and intention to do so: And provided further, that nothing herein contained shall be taken or construed in any way to affect the powers of suspending officers, and of dismissing men for misconduct, vested in the Council by the 152nd section of the "Municipalities Act of 1867," 31 Vic. No. 12.

*Exceptional cases.*

71. Nothing herein contained shall be held to prevent the employment, as may be from time to time found necessary, and as may be ordered by the Council, of any workmen or labourers on the public works of the Municipality.

*Bonds for good conduct.*

72. All bonds given by officers or servants of the Council for the faithful performance of their duties, shall be deposited with the Attorney or Bankers of the Corporation, as the Council may order; and no officer or servant of the Council shall be received as surety for any other such officer or servant.

*Duties of Council Clerk.*

73. The Town Clerk in addition to the duties which by the Municipalities Act of 1867, and the Municipalities Act of 1867 Amendment Act of 1874, or by the present or any other By-laws thereunder he may be required to perform, shall be the Clerk of all Revision Courts held in the Municipality under the provisions of the said Municipalities Acts. He shall also, under the direction of the Mayor, conduct all correspondence which may be necessary on the part of the Council. He shall likewise have charge of all the records of such Council, except such books or documents as may be entrusted to any other officer, and shall be responsible for the safe keeping of such records. He shall generally assist the Mayor in carrying out the orders of the Council and the duties of the Mayor, and shall make a half-yearly return of the revenue and expenditure. He shall collect all rates and moneys belonging to the Council. He shall have general care and management of the Town Hall, Chambers, Rooms, Library, and all other property belonging to same; letting Hall and rooms (and receiving all revenues from same), subject to advice and approval of the Town Hall Committee. He shall act as Librarian, have charge of all books, and see that the reading-room is kept in proper order.

**Duties of other officers or servants.**

74. The duties of all officers and servants of the Corporation, in addition to the duties which by the present or any other By-laws thereunder he may be required to perform, shall be defined by such regulations as may from time to time and in accordance with law be made.

**Special powers of Mayor.**

75. The Mayor shall exercise a general supervision over all officers and servants of the Corporation, and may order the preparation of any such return or statement, or the giving of any such explanation or information by any such officer or servant as he may think necessary, unless such return or statement shall have been already prepared, or such return or statement, explanation, or information, already given and on record, or unless the Council shall have expressly forbidden and dispensed with the preparation of such return or statement, or the giving of such explanation or information. All such returns or statements as aforesaid shall be in writing, and shall be recorded. All such explanations or information may be either rendered viva voce, or put into writing as the Mayor may direct.

**Complaints against officers.**

76. All complaints against officers or servants of the Corporation must be in writing, addressed to the Mayor, and must in every case be signed by the person or persons complaining. And no notice whatever shall be taken of any complaint which is not in writing, or which is anonymous. And such complaint as aforesaid shall be laid by the Mayor before the Council at the next meeting thereof which shall be holden after the Mayor shall have received the same, and shall be duly recorded.

**Miscellaneous.****Leave of absence.**

77. No leave of absence shall be granted to the Mayor or to any Alderman otherwise than by a resolution of Council, adopted after due notice.

**Mode of calling for tenders.**

78. Whenever it is decided that any work shall be executed, or any material supplied by contract, tenders for the execution of such work, or the supply of such material, shall be called for by public notice as hereinafter provided.

**Draft of intended By-laws.**

79. A draft of every intended By-law shall lie in the office of the Council for at least seven days before such draft shall be taken into consideration by the Council, and shall be open to the inspection of any ratepayer who may desire to inspect the same; and public notice shall be given as hereinafter provided, that such draft is so lying for inspection.

**Motions for rescission of previous orders, &c.**

80. Whenever a motion for the rescission of any order, resolution, or vote of the Council shall have been negatived no other motion to the same effect shall be permissible until a period of three months shall have elapsed from the time negativing such first-mentioned motion. Provided that nothing herein contained shall be held to prohibit the reconsideration and amendment of any proposed By-law which may have been remitted to the Governor for confirmation, and may have been remitted to the Council with suggested amendments of the same, or the passage, after due notice as hereinbefore provided, and in due course of law, of any By-law for the repeal or amendment of any other By-law.

**Lapsed business.**

81. Whenever the consideration of any motion or matter of business shall have been interrupted by reason of a quorum not having been present, the resumption of such consideration shall in such case be resumed at the next meeting at the point where it was so interrupted.

**Suits and prosecutions, for penalties, &c.**

82. Such suits or informations for the enforcement of penalties for or in respect of breach of the Municipalities Act of 1867, or of any By-law made thereunder, or of any statute, the operation of which may have been extended to the Municipality, as may have been directed by the Council, shall be so commenced or laid by the solicitor of the Municipality, or by any officer named by the Council for that purpose imposing the penalty sought to be enforced. And no such suit shall be brought or information laid as aforesaid against any member of the Council, or Auditor, or servant, except on an express resolution of the Council.

**How notices are to be published.**

83. In all cases where the public notice is or shall be required to be given by any By-law such notice shall be given and published by advertising the same in some newspaper circulating in the Municipality.

**Mode of proceeding in cases not provided for.**

84. In all cases not herein provided for resort shall be had to the rules and usages of the Legislative Assembly of New South Wales, so far as the same are applicable to the proceedings of the Council.

**Power to suspend temporarily any portion of these By-laws.**

85. Any of the foregoing By-laws which relate to or affect the proceedings at meetings of the Council may be suspended pro tempore without notice in cases of emergency if all the members of the Council then present shall deem such suspension necessary.

**PART II.****Collection and enforcement of rates.****Rates when due and payable.**

1. All rates levied and imposed by the Council shall be held to be due and payable on and after such day or days as the Council shall by resolution from time to time appoint.

**Time and place of payment.**

2. All such rates shall be paid at the Town Hall, to the Town Clerk, between the hours of 10 a.m. and 3 p.m., except on Saturdays, when the office closes at 1 o'clock.

**Defaulters.**

3. Every person not paying his or her rates as aforesaid within thirty days after the day so appointed for payment thereof shall be deemed a defaulter, and it shall be the duty of the Council Clerk to furnish the Mayor from time to time with a list of the names of all persons so in default.

**Mayor to enforce payment.**

4. It shall be the duty of the Mayor to take proceedings to enforce the payment of all rates in default, either by action at law or by issuing warrants of distress upon the goods and chattels of the defaulter.

**Bailiff, how appointed.**

5. The Bailiff of the Municipality shall be appointed by the Council and may from time to time be removed by them.

**Bailiff to find sureties.**

6. The Bailiff shall find two sureties to the satisfaction of the Mayor to the extent of fifty pounds (£50) each for the faithful performance of his duty.

**Duties of Bailiff.**

7. It shall be the duty of the Bailiff to make levies by distraint for the recovery of rates in manner hereinafter provided.

**Warrant of distress.**

8. All levies and distresses shall be made under warrant in the form of Schedule A hereto under the hand of the Mayor or any Alderman who may for the time being be duly authorised to perform the duties of that office.

**Distress and sale, &c.**

9. It shall be lawful for the Bailiff, or his deputy, and such assistants as he may take with him, to enter into any part of the land, building, tenement, or other property, in respect of which such rate or rates shall have been made as aforesaid, and to distrain therein or thereon, and to remain in such building, tenement, or other property in charge thereof. And if the sum for which any distress shall have been made or taken, together with the costs of such distraint, shall not have been paid on or before the expiration of three clear days, the Bailiff or his deputy may, between the hours of eleven in the morning and two in the afternoon, on the next day thereafter, cause the goods so distrained, or a sufficient portion thereof, to be sold by public auction, either on the premises or at such other place within the Municipality as the Bailiff may think proper to remove them for such purpose, and shall pay over the surplus (if any) that may remain after deducting the amount of the sum distrained for, and the costs of such distraint, to the owner of such goods so sold on demand by such owner.

**Inventory.**

10. At the time of making a distress the Bailiff shall make out a written inventory in the form of Schedule B hereto, which inventory shall be delivered to the occupant of the land or premises, the owner of the goods so distrained, or to some person on his or her behalf, resident at the place where the distress shall be made; and in case there shall be no person at such place with whom such inventory can be left as aforesaid, then such inventory shall be posted on some conspicuous part of the land or premises on which the distress is made, and the Bailiff shall give a copy of the inventory to the Council Clerk.

**Goods may be impounded.**

11. The Bailiff making a distress as aforesaid may impound or otherwise secure the goods or chattels so distrained, of what nature or kind soever, in such place or places, or in such part of the land or premises chargeable with rates as shall be most fit and convenient for this purpose; and it shall be lawful for any person whomsoever, after the expiration of three days as hereinbefore mentioned, to come and go to and from such place or part of the land or premises where such goods or chattels shall be impounded and secured as aforesaid in order to view and buy and in order to carry off and remove the same on account of the purchaser thereof.

**Owner direct order of sale.**

12. The owner of the goods or chattels so distrained upon may at his or her option direct and specify the order in which they shall be successively sold, and the said goods or chattels shall in such case be put up for sale according to such direction.

**Proceeds of distress.**

13. The Bailiff shall hand over to the Council Clerk all proceeds of every such distress within forty-eight hours after having received the same.

**Deputy.**

14. The Bailiff may, with the sanction in writing of the Mayor, or in his absence with the sanction of any two Aldermen of the Municipality, authorise, by writing under his hand, any person to act temporarily as his deputy; and the person so authorised shall have and exercise all the powers of the Bailiff himself, but the Bailiff and his sureties shall in every case be responsible for the acts of such deputy.

**Costs.**

15. There shall be payable to the Bailiff for the use of the Council, for every levy and distress made under this By-law, the costs and charges in the Schedule hereunto annexed marked C.

**SCHEDULE A.**

*Warrant of Distress.*

I, Mayor of the Borough Council of Young, do hereby authorise you the Bailiff of the said Borough, to distrain the goods and chattels in the dwelling-house (or in and upon the land and premises) of situate at for, being the amount of rates due to the said Borough to the day of for the said dwelling-house (or land or premises, as the case may be), and to proceed for the recovery of the said rates according to law.  
 Dated this day of 18 Mayor.

**SCHEDULE B.**

*Inventory.*

I HAVE this day, in virtue of the warrant under the hand of the Mayor of the Borough Council of Young, dated distrained the following goods and chattels in the dwelling-house (or in and upon the land and premises) of situate at within the said Borough, for being the amount of rates due to the said Borough to the day of  
 Dated day of 18 Bailiff.

**SCHEDULE C.**

*Costs.*

	s.	d.
For every warrant of distress .....	2	6
For every warrant and making levy where the sum is not more than £20 .....	3	0
Above that sum, in addition for every £1 .....	1	0
For making and furnishing copy of inventory .....	3	0
For man in possession each day, or part of day .....	6	0
For sale, commission, and delivery of goods, per pound on proceeds of sale .....	1	0

**PART III.**

*Preventing and Extinguishing Fires.*

*Fire or combustible materials, &c.*

1. Every person who shall place, or knowingly permit to be placed, in any house, yard, workshop, out-offices, or other premises, fire, gunpowder, or combustible or inflammable materials of any kind, in such a manner as to endanger contiguous buildings, shall on conviction for every such offence forfeit and pay a penalty of not more than five pounds, and shall forthwith remove such fire, gunpowder, or combustible or inflammable materials; and every person who shall suffer any such fire, gunpowder, or combustible or inflammable materials to remain as aforesaid for twenty-four hours after any such conviction shall be deemed guilty of a second offence against this By-law.

*Inflammable fences, &c.*

2. Every person who shall erect any fence of brushwood, bushes, or other inflammable material, or shall make or place any stack of hay, corn, straw, or other produce, or place as or for the covering of any such stack any inflammable material, so as to endanger contiguous buildings or properties, or any trees, shrubs, or other produce of such properties, or any chattels in or upon such buildings or properties, shall forfeit on conviction for ever such offence a penalty of not more than five pounds, and fails to remove such fence, stack, or covering, within a reasonable time after such conviction as aforesaid, shall be deemed guilty of a second offence against this By-law.

*Setting fire to matter without notice.*

3. Any person who shall wilfully set fire to any inflammable matter whatever in the open air, within five yards of any dwelling-house or other building or boundary or dividing fence within the said Borough, without having given notice in writing to the occupiers of the land adjoining the land upon which such matter is, that it is his or her intention so to do or between the hours of six in the afternoon of any day and six in the morning of the following day, shall for every such offence forfeit a sum not exceeding five pounds.

*Fireworks.*

4. Every person who shall light any bonfire, tar barrel, or firework, upon or within ten yards of any public or private street, or any public place, or shall discharge any firearms without lawful cause within one hundred yards of any dwelling within the boundaries, shall forfeit a sum not exceeding five pounds.

*Wilfully setting fire to chimneys.*

5. Every person who wilfully sets, or causes to be set on fire, any chimney-flue, smoke-vent, or stove-pipe herein called a "chimney," shall forfeit a sum not exceeding five pounds.

*Burning shavings, &c., in the street.*

6. Any person who shall burn any shavings, rubbish, or any other matter or thing, in any road, street, lane, or public place within the said Municipality, or who shall, within ten yards of any dwelling-house, burn rags, bones, corks, or other offensive substance, shall for every such offence forfeit and pay a sum not exceeding forty shillings nor less than five shillings.

*Placards not to be affixed on walls without consent.*

7. It shall not be lawful for any person to paste or otherwise affix any placards or other paper upon any wall, house, fence, or other erection, or deface any such wall, house, fence, or erection with chalk, paint, or other matter, unless with the consent of the owner thereof; and every person who shall be guilty of any such offence shall pay a sum not exceeding twenty shillings nor less than five shillings.

**PART IV.**

*Streets and Public Places.—Public health and decency, &c.—Streets, &c.*

*New roads to be reported on.*

1. No new public road, street, way, reserve, or other place proposed to be dedicated to the public, shall be taken under the charge and management of the Council until after such road, street, way, or reserve shall have been examined by the Committee for Works and reported upon to the Council by such Committee.

*Plans of proposed new road, &c., to be deposited.*

2. When any proprietor or proprietors of land within the said Borough shall open any road, street, or way, or lay out any park or other place for public use or recreation, through or upon such land, and shall be desirous that the Council shall undertake the care and management of such road, street, way, reserve, or other place, he or they shall furnish the Council with a plan or plans signed by himself or themselves, showing clearly the position and extent of such road, street, way, reserve, or other place as aforesaid.

*Dedications of new roads, &c.*

3. If the Council determine to take charge of any such road, way, or other place as aforesaid, the plan or plans, so signed as aforesaid, shall be preserved as a record or records of the Council, and the proprietor or proprietors aforesaid shall execute such further instrument dedicating such road, way, reserve, or other place to public use or recreation as aforesaid as may be considered necessary by the Committee for Works, and such instrument of dedication shall also be preserved as a record of the Council.

*Committee for Works to fix street levels, &c.*

4. The Committee for Works or any officer or person acting under the supervision of such Committee, shall, subject to such orders as shall from time to time be made by the Council in that behalf, fix and lay out the levels of all public roads, streets, and ways within the Borough, and the carriage and foot ways thereof; and it shall be the duty of such Committee, officer, or person to place posts at the corners or intersections of any such public roads and streets, and of the carriage-ways and footways of such roads and streets wherever the same may be considered necessary or desirable by the Council: Provided that there shall be no change of level in any such public road, street, or way until the same shall have been submitted to and adopted by the Council as hereinafter directed.

*Change of street levels.*

5. Whenever it may be deemed necessary to alter the level of any such public road, street, or way as aforesaid, the Committee for Works shall cause a plan and section showing the proposed cuttings to be exhibited at the Council Chamber for fourteen days for the information and inspection of rate-payers, and shall notify by advertisement in some newspaper

circulating in the Borough, that such plan is so open to inspection, and no objections thereto shall be entertained by the Council unless made within twenty-one days after such notice shall have been given. At a subsequent meeting of the Council the said plan and section shall, if adopted, be signed by the Mayor or Chairman, and the proposer and seconder of the motion for such adoption, and countersigned by the Council Clerk, and such plan and section so signed and countersigned shall be a record of the Council.

No turf, gravel, &c., to be removed from streets without permission.

6. Any person who shall form, dig, or open any drain or sewer, or remove or cause to be removed any turf, clay, sand, soil, gravel, stone, or other material, or any road scrapings or sweepings, in or from any part of the carriage or foot way of any street or any other public place within the said Borough, without leave first had and obtained from the Council, or who shall wantonly break up or otherwise damage any such carriage or foot way, shall on conviction forfeit and pay for every such offence any sum not exceeding five pounds nor less than one pound.

#### Holes to be enclosed

7. Any person or persons who shall dig or make, or cause to be dug or made, any hole, or leave or cause to be left any hole adjoining or near to any street or public place within the said Borough for the purpose of making any vault or vaults, or the foundation or foundations to any house or building, or for any other purpose whatsoever, or shall erect or pull down any building, and shall not forthwith enclose the same and keep the same enclosed in a good and sufficient manner to the satisfaction of the Committee for Works of the said Borough, or shall keep up or cause to be kept up and continued any such enclosure for any time which shall be longer than shall be absolutely necessary in the opinion of the said Committee and shall not place lights upon each side of the said enclosure and keep the same constantly burning from sunset to sunrise during the continuance of such enclosure, shall forfeit and pay for every such refusal or neglect any sum not being less than forty shillings nor exceeding five pounds.

Open spaces and steps adjoining footways to be enclosed, under penalty.

8. Every owner or occupier of any house, building, or premises, or land, within the said Municipality, having any entrance area, garden, or other open space, or any vacant building lot, water hole, or excavated space, adjoining the footway of any street or public place in such Borough, shall protect and guard the same by good and sufficient rails, fences, or other enclosures, so as to prevent danger to persons passing and repassing; and every such owner or occupier of any such house, building, premises, or land having any steps adjoining the footway of any such street or public place, shall in like manner protect and guard the same by fences, rails, or other enclosure, so as to prevent the like danger to persons passing and repassing; and on failure thereof every such owner or occupier shall, as often as he or she shall be convicted of such offence, forfeit and pay a sum not being less than forty shillings nor more than five pounds. And every such owner or occupier as aforesaid who shall fail to erect such fences or other enclosures as aforesaid shall be deemed guilty of a further offence against this By-law.

9. It shall not be lawful for any person to make any cellar or any opening door or window, in or beneath the surface of the footway of any road, street, or public place within the said Borough without the consent of the Council; and if any person shall so offend he shall forfeit and pay any sum not exceeding five pounds over and above the expense of remedying or removing any such cellar, opening, or door, such expense to be assessed and allowed by the convicting Justice or Justices: Provided that such expense and penalty shall not together exceed fifty pounds.

#### Wells to be covered over—Penalty.

10. Every person who shall have a well situated in any yard or place open or exposed to any road, street, or footway, within the limits of the said Borough, shall cause such well to be securely and permanently covered over; and if any person having such well as aforesaid shall fail to cover over and secure the same within twenty-four hours after notice in writing shall have been given to him or her by any officer of the said Council, or shall have been left for such person at his or her usual or last known place of abode, or on the said premises, shall on conviction forfeit and pay a sum of twenty shillings, and for every day after such notice that such well shall remain open or uncovered contrary to the provisions thereof, such person shall be deemed guilty of a separate offence against this By-law.

#### Temporary stoppage of traffic for repairs.

11. The Committee for Works, or any officer or person acting under the authority of such Committee, may at any time cause the traffic of any street, lane, or thoroughfare, or any portion thereof, to be stopped for the purpose of repairing the same, or for any necessary purpose; and any person or persons offending against this By-law, either by travelling on street, lane, or thoroughfare, or by removing or destroying any obstruction that may be placed thereon for the purpose of suspending the traffic, shall forfeit and pay a penalty of any sum not exceeding five pounds for every such offence.

#### Drawing or trailing timber, &c.

12. Any person who shall haul or draw, or cause to be hauled or drawn, upon any part of any street or public place within the said Borough, any timber, stone, or other thing, otherwise than upon wheeled vehicles or barrow, or shall suffer any timber, stone, or other thing which shall be carried principally or in part upon any wheeled vehicle or barrow, to drag or trail upon any part of such street or public place to the injury thereof, or to hang over any part of any such vehicle or barrow, so as to occupy or obstruct the street beyond the breadth of the said vehicle or barrow, shall upon conviction forfeit and pay for every such offence a sum not more than forty shillings nor less than five shillings over and above the damage occasioned thereby.

#### Driving carriages, &c., on footways, and throwing filth, &c.

13. Any person who shall throw, cast, or lay, or shall cause, permit, or suffer to be thrown, cast, or laid, or to remain, any ashes, rubbish, offal, dung, soil, dead animal, blood, or other filth or annoyance, or any matter or thing, in or upon the carriage-way or footway of any street or other public place in the said Borough, or shall kill, slaughter, dress, scald, or cut up any beast, swine, calf, sheep, lamb, or other animal, in or so near to any such street or other public place as that any blood or filth shall run or flow upon or over or be on any or either of any such carriage or foot way, or shall run, roll, drive, draw, place, or cause, permit, or suffer to be run, rolled, driven, drawn, or placed upon any of the said footways of any such street or public place, any waggon, cart, dray, sledge, or other carriage, or any wheelbarrow, handbarrow, or truck, or any hogshead, cask, or barrel, or shall wilfully lead, drive, or ride any horse, ass, mule, or other beast upon any such footway, shall upon conviction forfeit and pay for the first offence a sum not exceeding forty shillings nor less than five shillings, for the second offence a sum not exceeding five pounds nor less than ten shillings, and for a third and every subsequent offence a sum not exceeding ten pounds nor less than one pound for each such offence.

#### Rain not to be carried on to footpaths.

14. It shall not be lawful for any person whomsoever to carry, by means of pipes, gutters, or other contrivances, any rain-water from the roof of his or her premises or house upon any of the footways or any street or public place within the said Borough, or any owner or occupier of such house or premises who shall neglect or refuse to remedy or remove any such pipes, gutters, or contrivances when required to do so by any officer of the Council, shall on conviction forfeit and pay any sum not exceeding ten shillings, and a like sum for every day or part of a day that the same shall not be remedied or removed: Provided that the owner or occupier of any such house or premises may convey any such rain-water by means of pipes laid under the surface of such footways into the gutters adjoining the same: And provided also that such pipes shall be laid down to the satisfaction and under the superintendence of the officer appointed by the Council.

Placing carriages, goods, &c., on the footways—Not removing when required—Replacing the same after removal—Not to prevent awnings being erected in front of shops

15. Any person who shall set or place, or cause or permit to be set or placed, any stall-board, chopping-block, show-board (on hinges or otherwise), basket, wares, merchandise, casks, or goods of any kind whatsoever; or shall hoop, place, wash, or cleanse, or shall cause to be hooped, placed, washed, or cleansed, any pipe, barrel, cask, or vessel, in or upon or over any carriage or foot way in any street or public place within the said Borough, or shall set out, lay, or place, or shall cause or procure, permit, or suffer to be set out, laid, or placed, any coach, cart, wain, waggon, dray, wheelbarrow, handbarrow, sledge, truck, or other carriage, or on any such carriage-way, except for the necessary time of loading and unloading such cart, wain, waggon, dray, sledge, truck, or other carriage, or taking up or setting down any fare, or waiting for passengers when actually hired, or harnessing or unharnessing the horses or other animals from such coach, cart, wain, waggon, dray, sledge, truck, or other carriage; or if any person shall set or place, or cause to be set or placed, in or upon or over any such carriage or foot way any timber, stones, bricks, lime, or other materials or things for building whatsoever (unless the same shall be enclosed as herein directed), or any other matters or things whatsoever; or shall hang out or expose, or shall cause or permit to be hung out or exposed, any meat or offal, or other thing or matter whatsoever, from any house or other building or premises, or any other matter or thing from and on the outside of the front or any other part of any house or other buildings or premises, over or next unto any such street or public place, and shall not immediately remove all or any such matters or things, being thereto required by the Inspector of Nuisances or other proper officer of the Council; or if any person who having, in pursuance of any such requisition as aforesaid, removed or caused to be removed, any such stall-board, show-board, chopping-block, basket, wares, merchandise, casks, goods, coach, cart, wain, waggon, dray, wheelbarrow, sledge, truck, carriage, timber, stones, bricks, lime, meat, offal, or

other matters or things, shall at any time thereafter again set, lay, or place, expose, or put out, or cause, procure, permit, or suffer to be set, laid, placed, exposed, or put out, the same or any of them, or any other stall-board, show-board, chopping-block, basket, wares, merchandise, goods, timber, stones, bricks, lime, coach, cart, wain, waggon, dray, truck, wheelbarrow, handbarrow, sledge, meat, offal, or other things or matters whatsoever (save and except as aforesaid), in, upon, or over such carriage or foot way of or next unto any such street or public place as aforesaid, shall upon conviction for every such offence forfeit and pay for the first offence a sum not exceeding forty shillings nor less than five shillings; for the second offence a sum not exceeding five pounds nor less than ten shillings; and for a third and every subsequent offence a sum not exceeding ten pounds nor less than one pound: Provided that nothing herein contained shall be deemed to prevent any person from placing an awning in front of his or her shop or house in such manner as that such awning shall be at least seven feet above the height of the footway, and that the posts be placed close to the curb-stone or outer edge of such footway, and a plan must be submitted to the Council prior to its erection.

*Riding on drays, careless driving, &c.*

16. If the driver of any waggon, wain, cart, or dray of any kind, shall ride upon any such carriage in any street as aforesaid, not having some person on foot to guide the same (such carts as are drawn by one horse or driver, or guided with reins, only excepted); or if the driver of any carriage whatsoever shall wilfully be at such a distance from such carriage, or in such a situation whilst it shall be passing upon such street, that he cannot have the direction and government of the horse or horses, or cattle drawing the same; or if the driver of any waggon, cart, dray, or coach, or other carriage whatsoever, meeting any other carriage, shall not keep his waggon, cart, dray, or coach, or other carriage, on the left or near side of the road, street, or thoroughfare; or if any person shall in any manner wilfully prevent any other person or persons from passing him or her, or any carriage under his or her care upon such street; or by negligence or misbehaviour prevent, hinder, or interrupt the free passage of any carriage or person in or upon the same, every driver or person so offending shall upon conviction forfeit and pay any sum not exceeding fifty shillings.

*Riding or driving furiously, &c.*

17. Any person who shall ride or drive through or upon any street or public place within the said Borough, so negligently, carelessly or furiously, that the safety of any other person shall be endangered, shall on conviction forfeit and pay a sum not exceeding ten pounds nor less than one pound.

*Swine, &c., not to wander about the streets.*

18. Any person who shall breed, feed, or keep any kind of swine in any house, yard, or enclosure, situate and being in or within forty yards of any street or public place within the Borough, or shall suffer any kind of swine, or any horse, ass, cattle, mule, sheep, goat, or any other animal of the like nature, belonging to him or her, or under his or her charge, to stray or go about, or to be tethered or depastured in any street, road, or public place within the said Borough, shall forfeit and pay for every such offence a sum not exceeding forty shillings, and to be made liable for damages.

*Blasting rock.*

No rock to be blasted without notice to the Council Clerk.

19. Any person who shall be desirous of blasting any rock within one hundred yards of any street or public place or dwelling-house in the said Borough, shall give notice in writing twenty-four hours previously to the Council Clerk, who shall appoint a time when the same shall take place, and give such other directions as he may deem necessary for the public safety; and if any person shall blast or cause to be blasted any rock within the limits aforesaid without giving such notice, or shall not conform to the directions given to him by the said Council Clerk, he or she shall on conviction forfeit and pay for every such offence any sum not less than one pound nor more than five pounds.

*Public Property.*

*Injuring or extinguishing lamps.*

20. Any person who shall wantonly or maliciously break or injure any lamp or lamp-post, or extinguish any lamp set up for public convenience in the said Borough shall, over and above the necessary expense of repairing the injury committed, forfeit and pay for every offence any sum not less than one pound nor more than five pounds.

*As to damaging buildings.*

21. Any person who shall damage any building, wall, parapet, fence, sluice, bridge, culvert, sewer, water-course, or other public property within the said Borough, shall pay the cost of repairing the same, and if such damage be wilfully done shall forfeit and pay a sum not exceeding twenty pounds nor less than five pounds.

*Damaging trees.*

22. Any person who shall wilfully and without the authority of the Council, cut, break, bark, root-up, or otherwise destroy or damage the whole or any part of any tree, sapling, shrub, or underwood, growing in or upon any street or place under the management of the Council, shall forfeit any sum not exceeding ten pounds nor less than one pound.

*Obstructing public pathways.*

23. That the owner or occupier of any land situate on the side of any street or road in this Borough, who shall permit any tree, shrub, or plant kept for ornament or otherwise, to overhang any path or footway on the side of any such street or road, so as to obstruct the passage thereof, and who on demand made by the Council, or their overseer or inspector, shall not cut, or cause to be cut, lopped, or cause to be lopped, all such trees, shrubs, or plants, to the height of eight feet at least, the said Council and their servants, labourers, and workmen may cut, or cause to be cut or lopped all such overhanging trees, plants, and shrubs, and to remove or burn any portion of such trees, plants, or shrubs so cut or lopped, without being deemed a trespasser or trespassers; and in case any person or persons shall resist or in any manner forcibly oppose the said Council, or their servants, labourers, or workmen, in the due execution of the powers given in this behalf by virtue of the "Municipalities Act of 1867," every person so offending shall on conviction for every such offence forfeit and pay any sum not exceeding ten pounds.

*Obstructions.*

*Dead animals, &c., not to be thrown into any public places, reserves, water-courses.*
