7. THE GOVERNOR'S OPENING SPEECH.—Mr Speaker reported that the House had this day attended the Governor in the Legislative Council Chamber, when His Excellency was pleased to deliver an Opening Speech to both Houses of Parliament. For greater accuracy, he had obtained a copy, which he laid upon the table of the House, and ordered that it be recorded in the *Votes and Proceedings*, as follows:

HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL, AND
MEMBERS OF THE LEGISLATIVE ASSEMBLY—

I appreciate your attendance today in response to the message conveyed to you by the Commissioners appointed for the opening of this, the Third Session of the Forty-first Parliament of the State of New South Wales.

It is a pleasure and privilege to meet you here, on the first such occasion since my assumption of the office of Governor early this year.

In discharging the duties of that office it will be my earnest endeavour to maintain the high standard of service to the State set by my predecessors.

I share with all Honourable Members their deep regret at the passing of the Honourable William Edward Dickson, who for many years served with distinction as President of the Legislative Council. I also join with Honourable Members in mourning the death of the Honourable George Thomas Ford,

10 August, 1966

Brigadier the Honourable Thomas Alfred John Playfair, Members of the Legislative Council, and of Leslie Charles Jordan, who was a Member of the Legislative Assembly for more than twenty years.

The financial year which has just ended saw the deepening of the prolonged drought which has affected and continues to affect so much of New South Wales.

The 1965 wheat crop was virtually a failure in most areas and the latest complete statistics available show a staggering decline in stock numbers as a direct result of the drought. The number of sheep has been reduced by almost 12,000,000 and the number of dairy and beef cattle by almost 1,000,000.

There are few country areas in the State which have not been at some time during the last twelve months within a declared drought district.

Having visited many parts of the State since assuming office, I have been appalled at the impact of the drought. I desire to pay tribute to the tenacity and courage of the people affected. They are facing their difficulties with courage and hope.

The Government, with the assistance of the Commonwealth Government, has introduced a wide range of drought-relief measures, including special schemes for the provision of funds for "carry-on" and restocking purposes.

It has been possible by means of the various relief schemes and concessions for which Commonwealth support has been provided to alleviate some of the hardship created by the drought and this assistance will be continued as long as is reasonably necessary.

Nevertheless, it will be many years before the stock and other losses which have been incurred will be overtaken and it can be expected that the drought will have a serious effect on the State's economy for a long time to come.

State finances have also been seriously affected. The impact on railway revenues and stamp duties has been particularly heavy and other forms of revenue have also been adversely affected.

Special measures taken by the Government have made it possible to end the year with a moderate budget deficit despite the effect of the drought but it is already clear that the State is faced with difficult budgetary problems in the current year.

Revenue from mining royalties is expected to decrease substantially while other State revenues will continue to reflect the effect of the drought for some time to come.

On the other hand, expenditure must increase with the normal growth in the community services provided by the State. It will also be increased by the recent basic wage decision and other award adjustments.

In anticipation of a return to normal seasonal conditions the Government, through the Grain Elevators Board, has proceeded with a comprehensive wheat storage construction scheme.

Expenditure on wheat storage facilities will exceed \$6,000,000 in the current financial year and will provide additional storage at country centres for more than 10,000,000 bushels.

Emergency measures for the conservation of water were taken during the year to provide immediate relief wherever possible. Control of diminishing supplies in a number of streams was necessary.

Valuable co-operation was given by local Water Users' Associations which were formed to assist in ensuring the equitable distribution of water available for irrigation and stock purposes.

The Government has authorised the construction of twenty low level weirs on various streams which, in addition to providing relief to landholders by ponding water, have provided employment for persons unemployed because of the drought.

Construction of major water storages at Wyangala and Blowering on the Lachlan and Tumut Rivers, respectively, has been proceeded with vigorously. Work on the Burrendong Dam has virtually been completed.

The Government has undertaken a survey of the water resources of thirty river valleys, comprising nearly all the State, and is reviewing the engineering and economic aspects of numerous dam sites.

Although these investigations will take some time to complete, a preliminary proposal for an expanded water conservation programme, based on the information gained so far, has been drawn up.

Investigation of underground water resources is being accelerated.

10 August, 1966

The problems of the dairying industry, particularly on the North Coast, are being closely examined by my Ministers and already substantial measures have been taken to give relief where uneconomic conditions prevail.

Drought conditions have emphasised the problem of the small, inadequate farm and applications for acquisition of "build-up" areas for addition to sub-standard size farms are being encouraged throughout the Eastern and Central Divisions of the State.

Special attention is being given by the Government to agricultural education and steps will be taken to establish a further Agricultural College.

Surveys of stock slaughtering facilities are being made. New stock saleyards, planned for completion towards the end of 1967 are being constructed near the State Abattoir at Homebush.

The ever-expanding educational needs of our modern society are being given close attention by my Ministers.

The new scheme of secondary education has now moved into its fifth year and the Government has increased expenditure to meet school accommodation demands, particularly in the secondary field, by almost \$10,000,000 in its first year of office. This increased rate of expenditure will be continued until the backlog of school building has been overcome.

More than 500 new classrooms for primary schools are planned for construction this financial year.

During the past year free school transport has been made available for children in country areas who live at least two miles from the nearest appropriate school, a text book allowance has been paid to all pupils in secondary schools and living allowances for teachers' college students have been increased.

A scheme for the award of Senior Secondary Bursaries to pupils in Fifth and Sixth Forms has been introduced and subsidies for school library purchases have been liberalised.

Funds have been made available for the implementation of a scheme to subsidise interest charges incurred by non-Government schools in the erection of buildings.

Another noteworthy feature in the field of education is the special effort being made to ensure full educational opportunities for all aboriginal children. Adult education classes for aborigines have also been arranged.

A determined effort is being made to reduce the number of road fatalities and injuries. A Cabinet Standing Committee on Road Safety has been appointed, a provisional licence scheme introduced, and legislation enacted to enable more effective action to be taken in relation to defective motor vehicles.

One hundred additional police have been assigned to traffic duty, and small high-speed cars purchased to assist in their work.

A programme for expanding the system of traffic signals is well advanced.

It is recognised that co-ordination and rationalisation of public transport are essential to provide a more efficient service and to assist in overcoming traffic problems.

Special investigations are being conducted by the County of Cumberland Passenger Transport Advisory Committee and the Sydney Harbour Ferries Inter-Departmental Committee.

A Committee under the Chairmanship of a former Lord Mayor of Newcastle is surveying the needs of that city.

New and improved railway rolling stock is being purchased and the Department of Railways is pressing ahead with its programme of conversion from steam to diesel power.

The current contract for 120 double-deck trailer cars is nearing completion and plans for the supply of double-deck power cars will ultimately enable train sets of eight double-deck cars to provide a vastly improved service.

The construction of a new double-track railway bridge at Como has been given high priority and there will be no delay in getting construction under way when the detailed and complex design work is completed.

An order has been placed for 232 new buses designed to provide a more comfortable ride for passengers and more efficient operation. It is expected that the first of these will be in service by the middle of next year.

Following the Government's decision to relax the conditions of eligibility of pensioners for travel concessions, nearly 25,000 additional pensioners were granted concessions as from 1st January.

10 August, 1966

The main roads of the State continue to be improved.

The sealing of main road surfaces is being extended each year at a rate approximately equivalent to the distance by car from Sydney to Melbourne.

The first section of the Sydney-Newcastle Expressway from the Hawkesbury River to Mount White was opened to traffic on the 15th December, 1965, and the second section, from Mount White to Calga, will be ready for use in October, 1966. The existing rates of toll will not be increased when this second section, 3.4 miles in length, is opened.

As a first step in clearing the way for expressway construction between the Hawkesbury River and Berowra, work on the relocation of a number of lengths of the Pacific Highway has been started.

In the Sydney metropolitan area, the major road work in progress is the construction of the first section of the Warringah Expressway between the northern end of Sydney Harbour Bridge and Cammeray. Almost half the earthworks and concrete walling has been completed and the expressway will be brought into substantial use by August, 1967.

The demand for electricity continues to increase and the Electricity Commission has entered into contracts for sufficient generating plant and transmission and distribution equipment to meet the forecast demand over the next five years.

All four units at Vales Point power station are now in service and the construction of Munmorah power station is well advanced.

Preparation of the site for the power station to be constructed at Liddell at an estimated cost of \$200,000,000 has been commenced. When completed this will rank with the largest coal burning power stations now constructed in any part of the world.

In the industrial field action has been taken to facilitate the handling of industrial disputes by authorising an increase in the number of Conciliation Commissioners.

A positive migration programme is being pursued by the Government which is sponsoring an Employers' Recruiting Mission to the United Kingdom to obtain skilled labour so urgently needed for the continued rapid industrial growth of the State.

A Development Corporation has been appointed to furnish advice to the Government on matters relating to decentralization and development, including the attraction of overseas interests whose operations promise improved production techniques or other benefits to the State.

Close co-operation is being maintained with the State's overseas offices in London and New York and ways of focusing increased attention abroad on the State's potential are being diligently explored. Consideration is being given to the establishment of a New South Wales Information Centre in Tokyo.

Vigorous efforts are being made to stimulate the growth of secondary industries in country areas and a Country Industries Assistance Fund has been established to expand the range of direct aid and incentives.

New factories are being established in the country and the decision to build an aluminium smelter to cost \$35,000,000 at Kurri Kurri has been announced.

Substantial progress has been made on the Islands Reclamation Scheme at Newcastle. A fertilizer plant has commenced production on part of the reclaimed area and negotiations are proceeding for the establishment of a second industry.

In addition to 400 acres of fully reclaimed land already offered to industry, a further 662 acres have been partially reclaimed and will be released over the next few years. Work on a railway to serve the area has been commenced.

Work on the deepening of the entrance to the Port of Newcastle to 36 feet at low water has been completed.

A detailed investigation of port needs to meet the expected growth of trade and the introduction of new forms of cargo handling has been carried out at the Government's request.

A number of major works included in the programme, which is estimated to cost \$166,000,000 over the next ten years, are already in progress.

Long term proposals for extensive port development at Port Kembla are also being considered.

10 August, 1966

Good progress has been made on the construction of breakwaters and other works associated with the development of a port on the Clarence River. Tenders will be invited as early as possible for the removal of underwater rock to provide a suitable depth at the port.

New fishing ports at Wollongong and Forster are under construction.

The importance of fisheries research is being stressed.

Investigations are being made into pollution problems and into brackish-water fish farming, particularly prawn farming, and research is being conducted into the technical problems of the oyster farming industry.

Funds have also been provided for the design of a fisheries research vessel to explore beyond the New South Wales continental shelf.

The tourist industry continues to expand. Increased funds were provided during 1965-66 for tourist advertising and additional assistance was provided for regional tourist associations.

My Government will continue to promote travel to and within New South Wales and, in keeping with its policy of decentralization, will give particular attention to the development of the tourist industry in country areas.

The country water supply and sewerage programme has been accelerated. Finance allocated for these works last financial year represented an increase of 50 per cent on the allocation for the previous year.

A three-year construction programme, to cost in the vicinity of \$30,000,000, has been prepared with the aim of reducing by half the present waiting period for Government subsidy for country water supply and sewerage works.

Particular attention is being given to questions of law reform. The Law Reform Commission established last year is at present considering several matters of importance.

These include a review of the law relating to defamation and the likely benefits which would be derived by the appointment of an Ombudsman or Parliamentary Commissioner.

The question of reduction of the age of legal disability and privilege, including the franchise, from 21 years is also being examined.

The establishment by the Government of the Court of Appeal as a Division of the Supreme Court has resulted in a dramatic improvement in the state of the Appeals lists. The number of appeals awaiting hearing have been reduced by more than half, and there can be no doubt that litigants now may look forward to a speedy hearing of appeals.

Four Acting Supreme Court Judges were appointed to sit during the recent Law Vacation to reduce the number of undetermined cases before that Court and all practicable measures will be taken to avoid delays in the determination of actions at law which can be a source of frustration and hardship to litigants.

Evidence is still being taken by the Royal Commission which was set up to investigate systems of land valuation and rating and financing of local-government services.

During the year important steps have been taken by the Government in connection with hospital administration.

The report of the Hospitals Services Committee has been considered and it has been decided to establish, as a pilot study, a regional hospital organization for the decentralization and integration of hospital services in the Riverina Region.

A Regional Advisory Council and a Regional Administrative Officer have been appointed.

The new organization commenced to function only recently and the results will be taken into consideration by the Government in its task of providing adequate hospital services throughout the State.

A Committee on Patient Care and a Hospitals Advisory Committee have been established.

A new Psychiatric Centre was recently completed at Newcastle and tenders will shortly be invited for the construction of a new training centre at Parramatta for the mentally retarded.

It is expected that an aerial ambulance service will be in operation before the end of the year.

10 August, 1966

The wide range of social welfare services provided by the Government will be continued and improved within the limits of available finance.

The provision of more adequate services for intellectually handicapped persons will be accelerated and additional assistance will be provided for intellectually handicapped children.

The services available for elderly people will be expanded by improvements to the Housekeeper and Home Aid Service and the expansion of counselling facilities.

In the field of child welfare, emphasis will continue to be placed on preventive and counselling work with families so as to overcome difficulties before the stage is reached where children must be received into care or dealt with by children's courts.

Loan moneys amounting to \$41,500,000 have been allocated this year under the Commonwealth and State Housing Agreement.

This is an increase of \$6,000,000 on the initial allocation for the year 1965-66 and an increase of almost \$1,250,000 on the total allocation under the Agreement in that year.

There has been a marked reduction in the waiting lists for accommodation provided by the Housing Commission in the Sydney metropolitan area and special emphasis is being placed on housing in country centres, particularly those areas where industrial and other development is taking place.

The programme of slum clearance is being continued. Plans for a further major project in the Waterloo area will be developed during the year.

The Government is aware of the need for realistic loan limits for building societies. The adequacy of the present maximum, which was increased last year, will continue to receive close attention.

Co-operative activities generally are strongly supported by the Government and promotion of credit unions is actively encouraged. Proposals for a special Credit Union Act are to be examined.

A balanced plan of Crown land home-site development has been implemented and has resulted in a substantial increase in the number of sites being made available to homeseekers.

Progress has been made in the implementation of the Government's policy for the preservation of further areas of New South Wales as national parks, State parks and historic sites. An area of fifty square miles to be known as Dharug State Park has been set aside in the vicinity of the Hawkesbury River and special national parks legislation is proposed.

The output of timber from the State's native forests and plantations is insufficient to meet increasing demands. To overcome this deficiency a vigorous re-forestation programme is being pursued.

Plans are in hand to increase the annual expansion rate of pine plantations.

A scheme to encourage private forestry is being introduced.

A programme designed to stimulate mineral production in New South Wales is being carried out and the Government has also agreed to participate in a national coal utilization research programme.

Keen interest is being shown in the search for phosphates, and exploration licences embracing large areas have been granted to experienced local and overseas companies to search for phosphate deposits in New South Wales.

The Government is co-operating with the Governments of the Commonwealth and the other States in the formulation of a uniform code for controlling the exploration for and development of Australian off-shore petroleum deposits.

MEMBERS OF THE LEGISLATIVE ASSEMBLY—

The budget for the financial year now current will shortly be placed before you and you will be asked to provide for the public services of the State. A carefully planned programme of public works and services has been drawn up and estimates of expenditure and amounts proposed to be voted from the General Loan Account for those works and services will also be submitted for your consideration.

HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL, AND MEMBERS OF THE LEGISLATIVE ASSEMBLY—

An extensive programme of legislation directed to the progress of the State and the welfare of its people will be submitted to you by my Ministers during the Session.

10 August, 1966

Comprehensive legislation in the field of law reform is proposed. Several matters of particular interest to the community as a whole have been referred to the Law Reform Commission and Bills which will be required as a result of its deliberations will be placed before you.

Companies legislation continues to be reviewed and amendments to improve the existing law are being prepared.

In co-operation with the Law Society and the Bar Council, the Government is moving forward with plans to provide a comprehensive system of legal aid to ensure that proper legal representation of the litigant's own choice can be made available to each person seeking to commence or defend legal proceedings in our civil Courts. Legislation to give effect to these arrangements will be introduced in this Session.

Legislation to provide for the conversion of Old System land to Torrens Title will also be introduced.

The Standing Committee of Attorneys-General is examining the current need for control of credit transactions and legislative action for this purpose is contemplated.

The Government also desires to bring the penal law of the State fully into line with modern thinking and amendments to the Prisons Act and the Crimes Act will be submitted for your approval.

You will be asked to consider amendments to the Liquor Act.

Legislation is being prepared to amend the Annual Holidays Act to correct certain anomalies which exist in the calculation of rates of pay of employees when on annual leave. A Bill to improve machinery for the settlement of industrial disputes is also proposed.

Several Bills relating to the primary industries will be submitted for your consideration. These include a general review of the Stock Diseases Act and a Bill designed to secure a greater degree of control over plant diseases.

The National Parks Bill will be introduced and a Bill to authorise construction of the Pindari Dam on the Severn River has been prepared.

The law relating to the care of intellectually handicapped children is also being reviewed and amendments to the Child Welfare Act are proposed.

My advisers continue to direct their attention to measures required in the interests of road safety.

A Bill is in course of preparation to amend the Motor Traffic Act so that further steps may be taken to facilitate the flow of traffic on arterial roads and to enable regulations to be made for the greater safety of passengers in motor vehicles.

Your approval will be sought to amendments to make better provision in relation to appeals against decisions of the Commissioner for Motor Transport to refuse or withdraw driving licences.

My advisers have decided that action will be taken to construct the Eastern Suburbs Railway and a Bill to define the route of the railway will be placed before you.

Because of the importance of the role played by Permanent Building Societies my Ministers consider that separate legislative authority for the registration and management of such Societies should be provided and you will be asked to approve a Bill for this purpose.

Amendments to the Dentists Act and the Public Hospitals Act are proposed.

You will be asked to endorse a Bill to provide for the reconstitution of the Public Accounts Committee.

You will also be asked to consider other Bills, including amendments to the Landlord and Tenant Act, the Maritime Services Act, the Stamp Duties Act, the Macquarie University Act, the Obscene and Indecent Publications Act, the Real Property Act, the Sydney Opera House Act and the Closer Settlement Act.

Ordered, on motion of Mr Healey, That the Honourable Member for Cronulla, Mr Griffith, be allowed to continue his speech for a further period of Twenty minutes.

Mr Hills moved, That the Address be amended by the addition of the following words to stand as paragraph 4:

“We also desire to inform Your Excellency that for many and various reasons this Government does not possess the confidence of this House.”

Point of Order: Mr Willis submitted that the Deputy-Leader of the Opposition in his references to the Chairman of the Electoral Districts Commission was attempting to flout the ruling given last session in respect to reflections upon judges by making allegations directly or by innuendo which would bring the particular judge into disrepute.

Mr Speaker stated that this particular matter was covered by his earlier ruling on 31 March, 1966 in relation to the immunity of judges from attack in this House. He said that he had indicated that his ruling that judges were immune from attack in respect of their non-judicial acts still allowed members a great deal of latitude in debate in criticizing their judgments, their decisions and their public acts.

Mr Speaker said that he understood the Deputy-Leader of the Opposition was now criticizing the public acts and decisions of the Chairman of the Electoral Districts Commission and he was in order so long as he kept within the qualification enunciated in his previous ruling that the essential limitation of such discussion and criticism was that it must be made in good faith and there must be no imputation of improper motives on the part of the judge and the criticism must not be in any way malicious or intended to impair the administration of justice. Mr Speaker added that in his opinion the Deputy-Leader of the Opposition had not in any way offended his ruling.

Debate continued.

Ordered, on motion of Mr Renshaw, That the Honourable Member for Phillip, Mr Hills, be allowed to continue his speech for a further period of Twenty minutes.

Question proposed, That the words proposed to be added be so added.

Debate continued.

OF THE
LEGISLATIVE ASSEMBLY

 THIRD SESSION OF THE FORTY-FIRST PARLIAMENT

TUESDAY, 30 AUGUST, 1966

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. PRIVILEGE—IMPENDING LANDLORD AND TENANT LEGISLATION.—The Honourable Member for Bondi, Mr. Einfeld, as a matter of privilege, claimed that the statement made by Mr. H. K. Cook, Secretary of the Home and Property Owners Association, that property owners would step up the campaign of evictions if Labor rejected amendments proposed to the Landlord and Tenant Act, was intimidatory and an infringement of the rights and privileges of honourable members. Mr. Einfeld said he felt he had established a *prima facie* case and asked that he be allowed to proceed.

Mr. Speaker said he did not think that the forms and practices of the House permitted the acceptance of a report in a newspaper as evidence of statements which it reported as having been made by someone else. He did not think a case of privilege could be made out from hearsay evidence of the nature upon which the honourable member had so far relied, but if he could carry it any further the honourable member may have the opportunity to do so.

And Mr. Einfeld having stated that he had the definite assurance of the reporter responsible for writing the article that Mr. Cook had made the statement, Mr. Speaker said it was his function not to allow the House to proceed to debate a statement alleged by a newspaper to have been made by a third party, when it could be said later by the third party that he had made no such statement.

In reply to Mr. Speaker the Honourable Member for Bondi said he would accept responsibility for the accuracy of the press reports.

Mr. Speaker then ruled that the Honourable Member for Bondi having accepted responsibility for the accuracy of the press reports that the statements of which he complained were in fact made, had made out a *prima facie* case of privilege and it was now for the House itself to decide whether or not privilege was in fact involved.

Mr. Einfeld moved—

- (1) That the statement of Mr. H. K. Cook, Secretary of the Home and Property Owners Association that he was speaking on behalf of all landlords of controlled premises and that property owners will step up the campaign of eviction in Labor held electorates if Labor members reject amendments proposed by the Minister of Justice, Mr. Maddison, is intimidatory in its intent and calculated to prevent members of this House carrying out their duty to examine legislation according to their conscientious beliefs.

30 August, 1966

(2) That it is an infringement of the freedom of a member of Parliament in deciding what his public duty should be with respect to proposed legislation not even yet communicated to this House.

(3) That the declaration of Mr. Cook is of such a character as to restrict and intimidate members from expressing freely their views on impending legislation.

(4) That the declaration of Mr. Cook is opposed to the public interest and should be condemned by this House.

(5) That such declarations by the said Mr. Cook are in breach of privileges of this House.

Mr. Speaker pointed out that the second, third and fourth paragraphs of the motion contained argument and were out of order under Standing Order 106. He recalled that last Session in connection with a motion of privilege moved by the Honourable Member for Burrinjuck, he had emphasised to the House that he would not permit the amendment of notices of motions which contained argument or unbecoming expressions and were therefore out of order under Standing Order 106.

Mr. Speaker said he had no alternative but to rule the motion out of order for non-compliance with Standing Order 106.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY

THIRD SESSION OF THE FORTY-FIRST PARLIAMENT

WEDNESDAY, 31 AUGUST, 1966

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. NOTICES OF MOTIONS AND QUESTIONS.—Mr Speaker called on Notices of Motions and Questions.
2. SELECT COMMITTEE UPON DROUGHT RELIEF.—
 - (1) URGENCY.—Mr Punch moved, That it is a matter of urgent necessity that this House should forthwith consider the following Motion, viz.: That the Minutes of the Proceedings of and the Evidence taken by the Select Committee upon Drought Relief since its Second Progress Report be tabled in this House and thereupon such Committee be dissolved.

 - (2) SUSPENSION OF STANDING ORDERS.—Mr Punch moved, That so much of the Standing Orders be suspended as would preclude the consideration forthwith of the following Motion, viz.: That the Minutes of the Proceedings of and the Evidence taken by the Select Committee upon Drought Relief since its Second Progress Report be tabled in this House and thereupon such Committee be dissolved.

 - (3) Mr Punch moved, That the Minutes of the Proceedings of and the Evidence taken by the Select Committee upon Drought Relief since its Second Progress Report be tabled in this House and thereupon such Committee be dissolved.
Debate ensued.

Point of Order: Mr Earl submitted that the Chairman of the Select Committee upon Drought Relief had moved this Motion in the House without a resolution of that Committee being passed and questioned his right as the Chairman of a Parliamentary Select Committee to move a Motion of this nature to wind up the Committee.

Mr Speaker stated that the Honourable Member for Gloucester was taking this action as a Private Member of the House and not as Chairman of the Committee and he did not need anybody's authority to move this Motion. Therefore, he could not uphold the point of order.

31 August, 1966

Further Point of Order: Mr Jackson submitted that the Committee had not come to a resolution and the Motion had been brought to the House without the knowledge of members of the Committee.

Mr Speaker said that it was quite clear that it was competent for any Honourable Member at any time after a Select Committee was set up to come into the House and by the appropriate forms move that the Select Committee be dissolved and he could not uphold the point of order.

Debate ensued.

Mr Griffith moved, That the Question be now put.

Question put, "That the Question be now put."

75A. (1) For the purposes of this section and sections 75B to 75E of this Act and of the matter appearing under the heading "Instalment Purchase Arrangements" in the Second Schedule to this Act, unless inconsistent with the context or subject matter—

"Credit arrangement" means an arrangement or an offer to enter into an arrangement under which when goods are purchased or where subsequent to the purchase of goods an option to pay by instalments is exercised the amount payable or paid is not less than the purchase price of the goods plus interest at a rate exceeding nine per centum per annum, such rate being calculated as hereinafter provided, and where the purchase price is one hundred and fifty dollars or more.

"Credit purchase agreement" means an agreement for the purchase of goods under which irrespective of the time at which the property in the goods passes or is to pass to the purchaser or to the order of the purchaser the purchase price or any part thereof is paid or payable not before the expiration of six months from the date of the agreement by not less than two instalments and under which any of the instalments are to be paid after the goods have been delivered to the purchaser and whether any instalments are paid or payable by cash or by cheque, bill of exchange or promissory note payable on demand or otherwise, but does not include—

Provided that where by virtue of two or more agreements, none of which by itself constitutes a credit purchase agreement, there is a transaction which is in substance or effect a credit purchase agreement as herein defined, the agreements shall be treated for the purposes of this Act as a single agreement entered into when the last of those agreements was entered into.

"Goods" includes all chattels personal (other than money, livestock and things in action) and includes any fixture severable from the realty.

"Hire purchase agreement" includes a letting of goods with an option to purchase and an agreement for the purchase of goods by instalments (whether the agreement describes the instalments as rent or hire or otherwise) but does not include any agreement—

Provided that where by virtue of two or more agreements, none of which by itself constitutes a hire purchase agreement, there is a transaction which is in substance or effect a hire purchase agreement as herein defined, the agreements shall be treated for the purposes of this Act as a single agreement entered into when the last of those agreements was entered into:

Provided further that an agreement for the letting of goods containing a provision or provisions to the effect that if the agreement is subsisting at a future date, whether such date is specified or not, an option to purchase either the goods the subject of the letting or other goods is or may be given or granted shall be deemed to be a letting of goods with an option to purchase.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY

THIRD SESSION OF THE FORTY-FIRST PARLIAMENT

WEDNESDAY, 7 DECEMBER, 1966

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. RETIREMENT OF ALLAN PICKERING, ESQUIRE, C.B.E., M.E.C., FROM THE POSITION OF CLERK OF THE LEGISLATIVE ASSEMBLY.—Mr Speaker informed the House that Mr Allan Pickering, C.B.E., M.E.C., would retire on 31 December, and accordingly tomorrow would be the last day upon which he would occupy the office of Clerk at the Table in the Legislative Assembly.

Mr Pickering entered the Public Service in June, 1919, and on 12 June, 1922, during the first speakership of the late Sir Daniel Levy, he had been appointed a clerk in the office of the Legislative Assembly, in which, upon his retirement, he would have served for forty-four and a half years. On 1 January, 1937, he had been appointed Second Clerk-Assistant to the Chamber Table, where he had served this House for thirty years, exactly ten and a half years of which had been as Clerk of the House. Over this long period of service to the Parliament, Mr Pickering had served under eight different Speakers in sixteen Parliaments in association with eleven Premiers and twenty-three Ministries.

In 1956 Mr Pickering had visited the House of Commons for discussions on Parliamentary Law and Procedure with the Clerk of the House of Commons and his Table Officers. His report on this visit had been presented to the Speaker and ordered to be printed by the House. This report had been included in the *Manual of Procedure* published by Mr Pickering in 1959. In a foreword to the *Manual*, Sir Edward Fellowes, K.C.B., C.M.G., M.C., Clerk of the House of Commons, said:

“Mr Pickering’s deep knowledge and alert and agile mind impressed us when he visited us at Westminster, and anyone who has tried producing a similar book will realise the industry necessary to collect and digest such a vast quantity of knowledge. Mr Pickering has earned the gratitude of every Member of the Legislative Assembly of New South Wales.”

Mr Pickering had graduated a Bachelor of Economics within the University of Sydney in 1922, with honours in first and second year Economics, and in 1935 he had gained the degree of Master of Economics. He holds office as Vice-President of the Royal Agricultural Society and is Honorary Secretary of the Agricultural Societies Council of New South Wales. In 1952 Mr Pickering had been awarded the honour of M.B.E., in recognition of services to country agricultural societies, and in 1960 he had been awarded the honour of C.B.E. in recognition of community activities and services to the Legislative Assembly of New South Wales.

7 December, 1966

Mr Speaker went on to say that it would be evident to all Honourable Members that in the course of Mr Pickering's long and distinguished service to the Parliament many hundreds of Honourable Members had had occasion to seek his advice and guidance upon parliamentary practice and procedure. The courtesy and skill with which this advice and guidance had always been readily given had set a standard of service eminently worthy of the Parliamentary institution whose best traditions had guided him in all his endeavours.

Many Honourable Members, both past and present, as well as the members of the Parliamentary Staff which he had administered, would wish to pay sincere and earnest tribute to Mr Pickering. Mr Speaker said that, as Speaker, and in a personal way, he was deeply indebted to him both for his patience and understanding, and for his inflexible insistence upon high principle and sound precedent as the only enduring basis of orderly conduct of parliamentary proceedings. By his manifest ability and loyalty to the Parliament and its services, Mr Pickering had achieved for himself a proud place at the side of his illustrious predecessors.

Mr Speaker concluded his remarks by saying that Mr Pickering took with him the good wishes and the respect and goodwill of every Honourable Member, and that all joined in hoping that he and his wife would enjoy a long and happy retirement.

Mr Askin moved, That Mr Speaker's remarks with reference to Mr Allan Pickering, C.B.E., M.E.C., on his retirement from the position of Clerk of this House be entered in the *Votes and Proceedings*.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY

THIRD SESSION OF THE FORTY-FIRST PARLIAMENT

WEDNESDAY, 22 FEBRUARY, 1967

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. NOTICES OF MOTIONS AND QUESTIONS.—Mr Speaker called on Notices of Motions and Questions.

2. PRIVILEGE.—Mr Renshaw, as a matter of Privilege, drew Mr Speaker's attention to General Business—Notice of Motion appearing in his name which he claimed differed from the text of the motion, notice of which he had given the day before. He stated that he had agreed to certain amendments being made to his original motion, but not to the extent to which they had been made, and he claimed that the words left out did not breach the rules governing motions. The present motion was not his; it was, in effect, that of the Speaker.

Mr Speaker said he was not convinced that a *prima facie* case of breach of Privilege had been established because one of the following elements should be involved in such a breach:

- (i) disobedience to general orders or rules of either House;
- (ii) disobedience to particular orders;
- (iii) indignities—offered to the character or proceedings of Parliament;
- (iv) assaults or insults upon Members or reflections upon their character or conduct in Parliament; and
- (v) interference with Officers of the House in the discharge of their duties.

He was not able to say that any one of these elements had been involved in the matter raised by the Leader of the Opposition. Only a question of Order was involved.

It was the duty of the Speaker, as set out in the authorities and in Standing Order 106, to ensure certain rules were observed. Last night he could have rejected the motion pursuant to that Standing Order but he did not, because he had thought that he would be doing the fair and reasonable thing by the Leader of the Opposition to allow him to amend his motion to bring it within the Standing Orders. Mr Speaker believed that he had reframed the motion to still give effect to the mover's intentions. There was ample precedent and he had acted in good faith.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY

THIRD SESSION OF THE FORTY-FIRST PARLIAMENT

THURSDAY, 2 MARCH, 1967

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. STATEMENT UPON DUTIES AND RESPONSIBILITIES OF THE SPEAKER IN RELATION TO NOTICES OF QUESTIONS AND MOTIONS.—Mr Speaker adverting to a Question asked of him by the Honourable Member for Cronulla, regarding the duties and responsibilities of the occupant of the Chair in relation to Notices of both Questions and Motions, said it was the bounden duty of the Speaker to ensure that the papers published by Order of the House (and, consequently, affording the authors of the Questions and Motions protection under the Defamation Act, 1958) conformed to the rules and practice in that behalf; to see that no scandalous or improper matters appeared on the printed papers unless there were compelling reasons for allowing them. During his occupancy of the Chair he had frequently been faced with the necessity for altering Questions and Motions—usually in consultation with the Members concerned. If this had not been possible or if there had been a refusal to concur in his considered suggestions he had always, in the absence of a request that the Question or Motion be withdrawn, exercised his own impartial judgment and the Questions or Motions had been printed as amended.

Mr Speaker added that his advice and guidance would continue to be available to Members and he proposed to carry on the practice he had outlined because he believed that the necessity for it was generally recognized by Members despite occasional protestations.

4. DISSENT FROM MR SPEAKER'S RULING.—Mr Mahoney moved, pursuant to Notice, That this House dissents from the Ruling of Mr Speaker given on 15 March, 1967, when he ruled that a *prima facie* case of Privilege had not been established by the Honourable Member for Parramatta.

Point of Order: Mr Hughes invited Mr Speaker's attention to Standing Order 158 which provides that a Member shall, before submitting a substantive motion relating to Privilege, establish to the satisfaction of the Speaker that a *prima facie* breach had occurred, and pointed out that yesterday the Honourable Member for Parramatta had failed to satisfy the Speaker that a breach had so occurred. Mr Hughes continued, that any ruling may be challenged as such but Mr Speaker's prerogative and rights under Standing Order 158 may not be questioned and therefore he suggested that the motion must be ruled out of order.

Mr Mahoney submitted that he was quite within his rights in dissenting from the ruling.

Mr Speaker said he was impelled to rule that the point taken by the Minister for Public Works was well founded and fatal to the motion. Normally any Honourable Member may dissent from a ruling. However,

16 March, 1967

Standing Order 158 provided that to move a motion of Privilege a *prima facie* case of breach of Privilege must first be established to the satisfaction of the Speaker. No Honourable Member would seriously claim that by carrying a motion it would be possible to change a state of dis-satisfaction in the Speaker's mind into a sense of satisfaction.

Mr Speaker said he had doubts whether the opinion he expressed yesterday was a ruling within the meaning of Standing Order 161. He had not interpreted a Standing Order, nor had he adjudicated upon a dispute; he had exercised a discretionary power conferred upon him by the Standing Order. Mr Speaker Weaver, commenting upon a motion which had sought the opinion of the House upon a regulation no longer effective, had said: "If in the circumstances the motion is carried, it will be futile and ridiculous. I do not propose to allow the House to appear ridiculous in debating a motion which is utterly absurd". Mr Speaker did not believe that the House by resolution could substitute the state of mind of the House for the state of mind of the Speaker, and Standing Order 158 did not provide for that to be done. Mr Speaker, therefore, ruled that it was not competent for dissent from the decision of the Speaker under Standing Order 158 to be moved, and accordingly he ruled the motion out of order.

However, he pointed out to the Honourable Member that this ruling did not prevent him from giving notice of a motion relating to Privilege and he still could do this if he so desired.

Mr PRESIDENT—

The Legislative Assembly having had under consideration the Legislative Council's Message dated 16 March, 1967, requesting its concurrence in certain amendments made by the Council in the Workers' Compensation (Dust Diseases) Amendment Bill, disagrees to the amendments for the reasons set out hereunder—

1. The Legislative Assembly believes that the many dust diseases, other than silicosis, which are currently excluded, should be brought within the scope of the Silicosis Act.
2. The Legislative Assembly believes that those widows of silicosis sufferers, who have exhausted the lump sum payments granted to them on the death of their husbands, should now be granted weekly payments.
3. The Legislative Assembly believes the original Bill's provisions for a smaller lump sum payment plus weekly payments are preferable to the compulsory lump sum payment currently required by the Act.
4. The Legislative Assembly believes that the compulsory insurance against common law liability provisions of the Workers' Compensation Act should be extended to include all dust diseases and that the minimum such insurance should be extended from the present \$40,000 to \$50,000.

And the Assembly requests the concurrence of the Legislative Council in its disagreement from the Council's amendments in the Bill.

Mr SPEAKER—

The Legislative Council having had under consideration the Legislative Assembly's Message, dated 21 March, 1967, in reference to the Child Welfare (Amendment) Bill, insists upon its amendments disagreed to by the Assembly in the Bill, for the reasons set out hereunder—

21 March, 1967

1. The Child Welfare Advisory Board has unanimously reported against the proposal in respect of the Courts.
2. Section 16 of the Act makes provision for the Court to be closed unless otherwise ordered by it. Therefore, the Courts have power within their own jurisdiction to declare the Court open in particular cases if they deem it expedient.
3. In instances where the case is an indictable offence and the person charged is committed, the Court is open.
4. It is considered that the proposal in the Bill will not act as a deterrent to any particular degree in respect of serious crimes among young people and would mitigate against the rehabilitation of the person charged.

(1) Would stock slaughtering inspection by a single authority at New South Wales abattoirs result in no loss of face to either or both existing Commonwealth and State services and that the State could carry out the functions of inspection for the Commonwealth in the same way it does in plant and animal quarantine matters?

(2) Has the State previously assisted the Commonwealth in relation to meat quarantine in a satisfactory manner?

(3) Will he reconsider his decision to leave the question of single inspection to the consideration of the interdepartmental committee set up to survey stock slaughtering facilities in the State and take immediate steps to confer with the Commonwealth authorities with a view to obviating the present wasteful duplication of services?

- (1) Did he inform the Murrumbidgee Valley Water Users' Association in December, 1966, that he would abandon any development in the Balranald/Redbank area for a period of ten years?
- (2) Was it recognized by his predecessor in October, 1962, that the frequency of natural flooding in the Murrumbidgee Delta area would be reduced and that consideration should be given to irrigation development in its place?
- (3) Did the then Minister arrange for the Water Conservation and Irrigation Commission to investigate the proposed irrigation development and did the Chairman of the Commission advise on June 5, 1963, that field investigations had been made of possible channel lines and levels taken to define the area which could be irrigated by gravitation from a channel offtaking from above Redbank Weir?
- (4) Did the Chairman state that the completion of the investigations then current in June, 1963, would enable an estimate to be prepared, and the economics of the project to be appraised and that this would be done as expeditiously as possible to enable a report to be submitted to the Minister?
