Note: Has the policy been costed by a third party?
If yes, can you provide a copy of this costing and its assumptions?

Key assumptions made in the policy	
Does the policy relate to a previous announcement? If yes, which announcement?	No.
What assumptions have been made in deriving the financial impacts in your estimated costing? <i>(See checklist)</i>	Where possible transport and other agencies will use existing resources and capability to contribute to this planning process with no additional funding. While the review takes place, the TAHE Board should take all steps necessary to reduce their call on the State Budget, including through using its balance sheet to finance the increased cost of certain infrastructure projects.
Is there a range for the costing or any sensitivity analysis that you have undertaken?	No.
Are there associated savings, offsets or, in the case of a revenue proposal, offsetting expenses? If yes, please provide details.	

Administration of policy	
Intended date of implementation:	Upon formation of government.
Intended duration of policy:	Ongoing.
Who will administer the policy (e.g. Government entity, non-government organisation, etc.)?	TAHE and Transport for NSW.
Are there any specific administrative arrangements for the policy that need to be taken into account (e.g. agreements between different levels of government)?	Yes, to the extent that agreements exist between different levels of government (including between agencies and State Owned Corporations).
Are there transitional arrangements associated with policy implementation?	Please detail the value of existing contracts.

⁵ Only required if proposal is outside GGS. Negative for a reduction in net financial liabilities.

Delivery model ⁸	

Checklist for key assumptions (please be comprehensive and include all relevant assumptions). Assumptions could include, but are not limited to, questions such as:

- What is the expected community impact?
- How many people will be affected by the policy?
- What is the likely take up or other behavioural response you expect?

⁶ Expenditure is operating expenses, e.g. salaries, interest cost and grants. Expenditures are fully included in the impact on operating balance.

⁷ Capital costs differ from expenditure in that only depreciation will be included in the impact on operating balance. The capital cost of the asset to be acquired will however be included in the net financial liabilities statement.

⁸ There is a range of possible delivery models, e.g. built, owned and operated by a NSW government agency; built and transferred to a private operator; privately built for public operation; privately built and operated with government assuming risk or providing a guarantee in relation to future income (often applicable to public/private partnership arrangements), and so on. The policy should provide assumptions about the proposed delivery model.

- Is there a cap on total spending proposed, a funding formula, resource agreement or other mechanism of this nature associated with the policy?
- Will third parties have a role in funding or delivering the policy (e.g. Commonwealth Government)?
- Will funding/program cost require indexation?
 - If yes, do you have any assumptions about the index that should be applied?
- What assumptions have you made about costs of administering the policy?
- Will additional staff be needed in the agency responsible for the policy?
 - How many and at what approximate levels?
- Are there other resources required?
- Are you assuming administrative costs will be absorbed within the agency?

Please note that:

- The costing will be on the basis of information provided in this costing request.
- The PBO is not bound to accept the assumptions provided by the requester. If there is a material difference in the assumptions used by the PBO, the PBO will consult with the requester in advance of the costing being completed.
- Where the details of the policy costing request differ from the announced policy, the costing will be on the basis of the information provided in the costing request.
- These guidelines are intended to facilitate requests for costing election policies. Persons preparing such requests who wish further assistance are invited to contact the staff of the Parliamentary Budget Office.
