Checklist for key assumptions (please be comprehensive and include all relevant assumptions). Assumptions could include, but are not limited to, questions such as:

- What is the expected community impact?
- How many people will be affected by the policy?
- What is the likely take up or other behavioural response you expect?

⁶ Expenditure is operating expenses, e.g. salaries, interest cost and grants. Expenditures are fully included in the impact on operating balance.

⁷ Capital costs differ from expenditure in that only depreciation will be included in the impact on operating balance. The capital cost of the asset to be acquired will however be included in the net financial liabilities statement.

⁸ There is a range of possible delivery models, e.g. built, owned and operated by a NSW government agency; built and transferred to a private operator; privately built for public operation; privately built and operated with government assuming risk or providing a guarantee in relation to future income (often applicable to public/private partnership arrangements), and so on. The policy should provide assumptions about the proposed delivery model.

- Is there a cap on total spending proposed, a funding formula, resource agreement or other mechanism of this nature associated with the policy?
- Will third parties have a role in funding or delivering the policy (e.g. Commonwealth Government)?
- Will funding/program cost require indexation?
 - If yes, do you have any assumptions about the index that should be applied?
- What assumptions have you made about costs of administering the policy?
- Will additional staff be needed in the agency responsible for the policy?
 - How many and at what approximate levels?
- Are there other resources required?
- Are you assuming administrative costs will be absorbed within the agency?

Please note that:

- The costing will be on the basis of information provided in this costing request.
- The PBO is not bound to accept the assumptions provided by the requester. If there is a material difference in the assumptions used by the PBO, the PBO will consult with the requester in advance of the costing being completed.
- Where the details of the policy costing request differ from the announced policy, the costing will be on the basis of the information provided in the costing request.
